Read this letter to the end - Or am

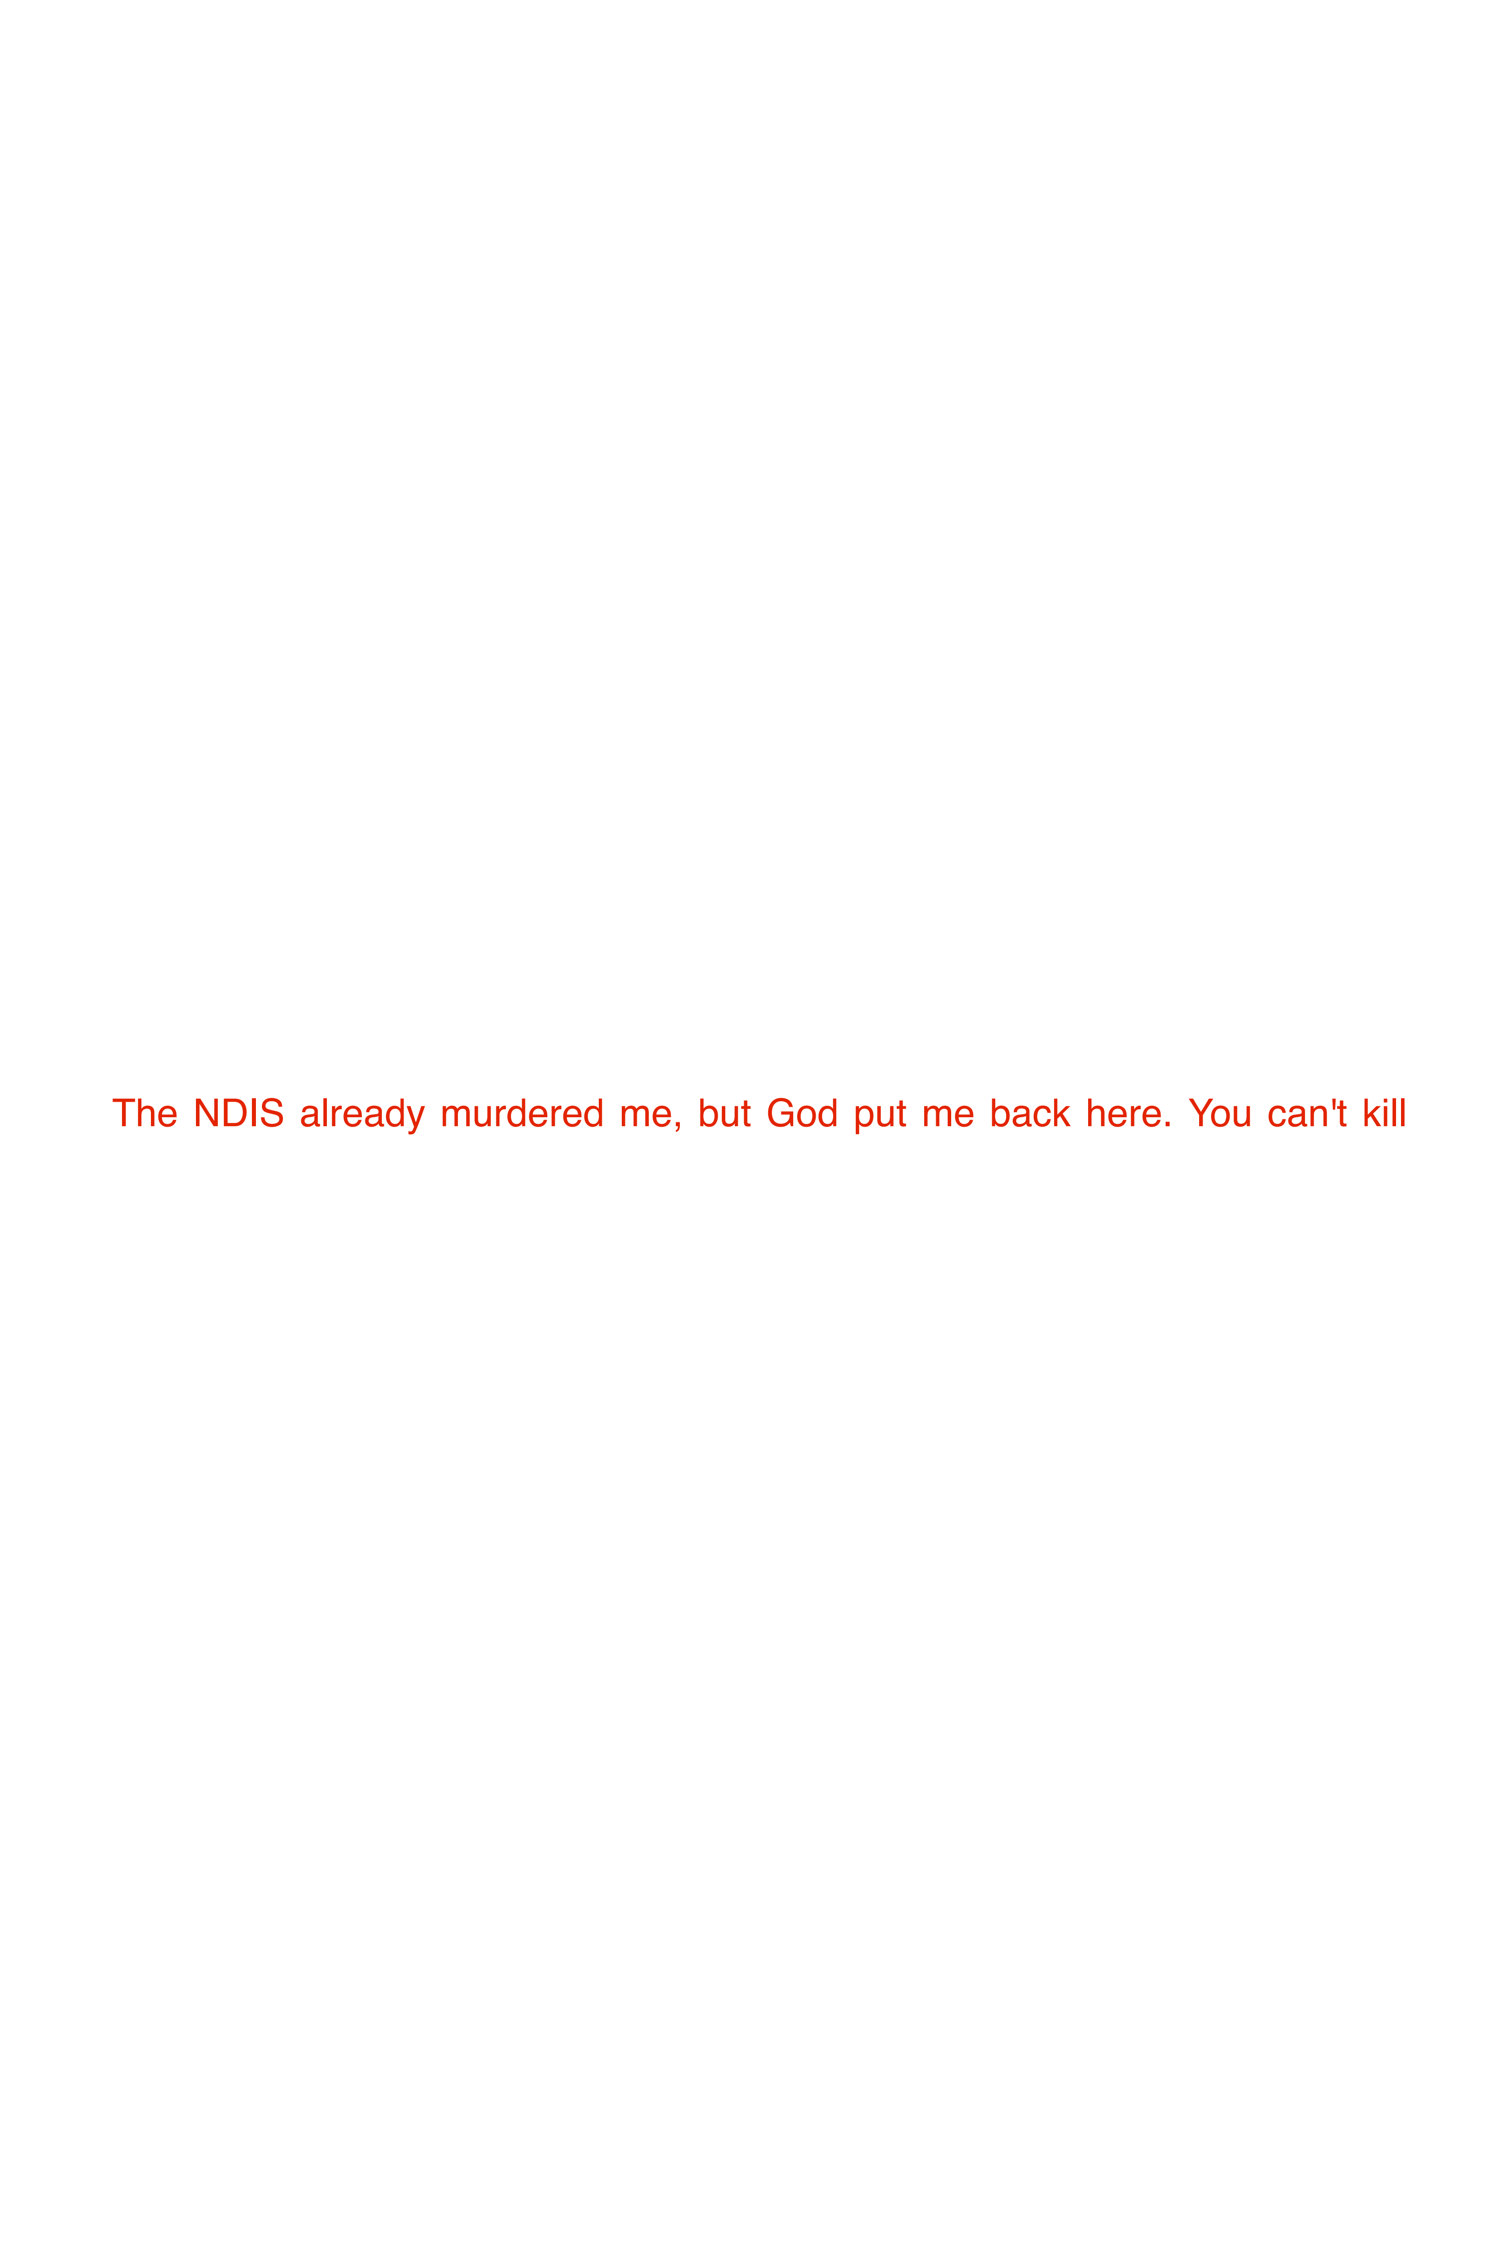

Read this letter to the end – or I am going to die by human sacrifice if

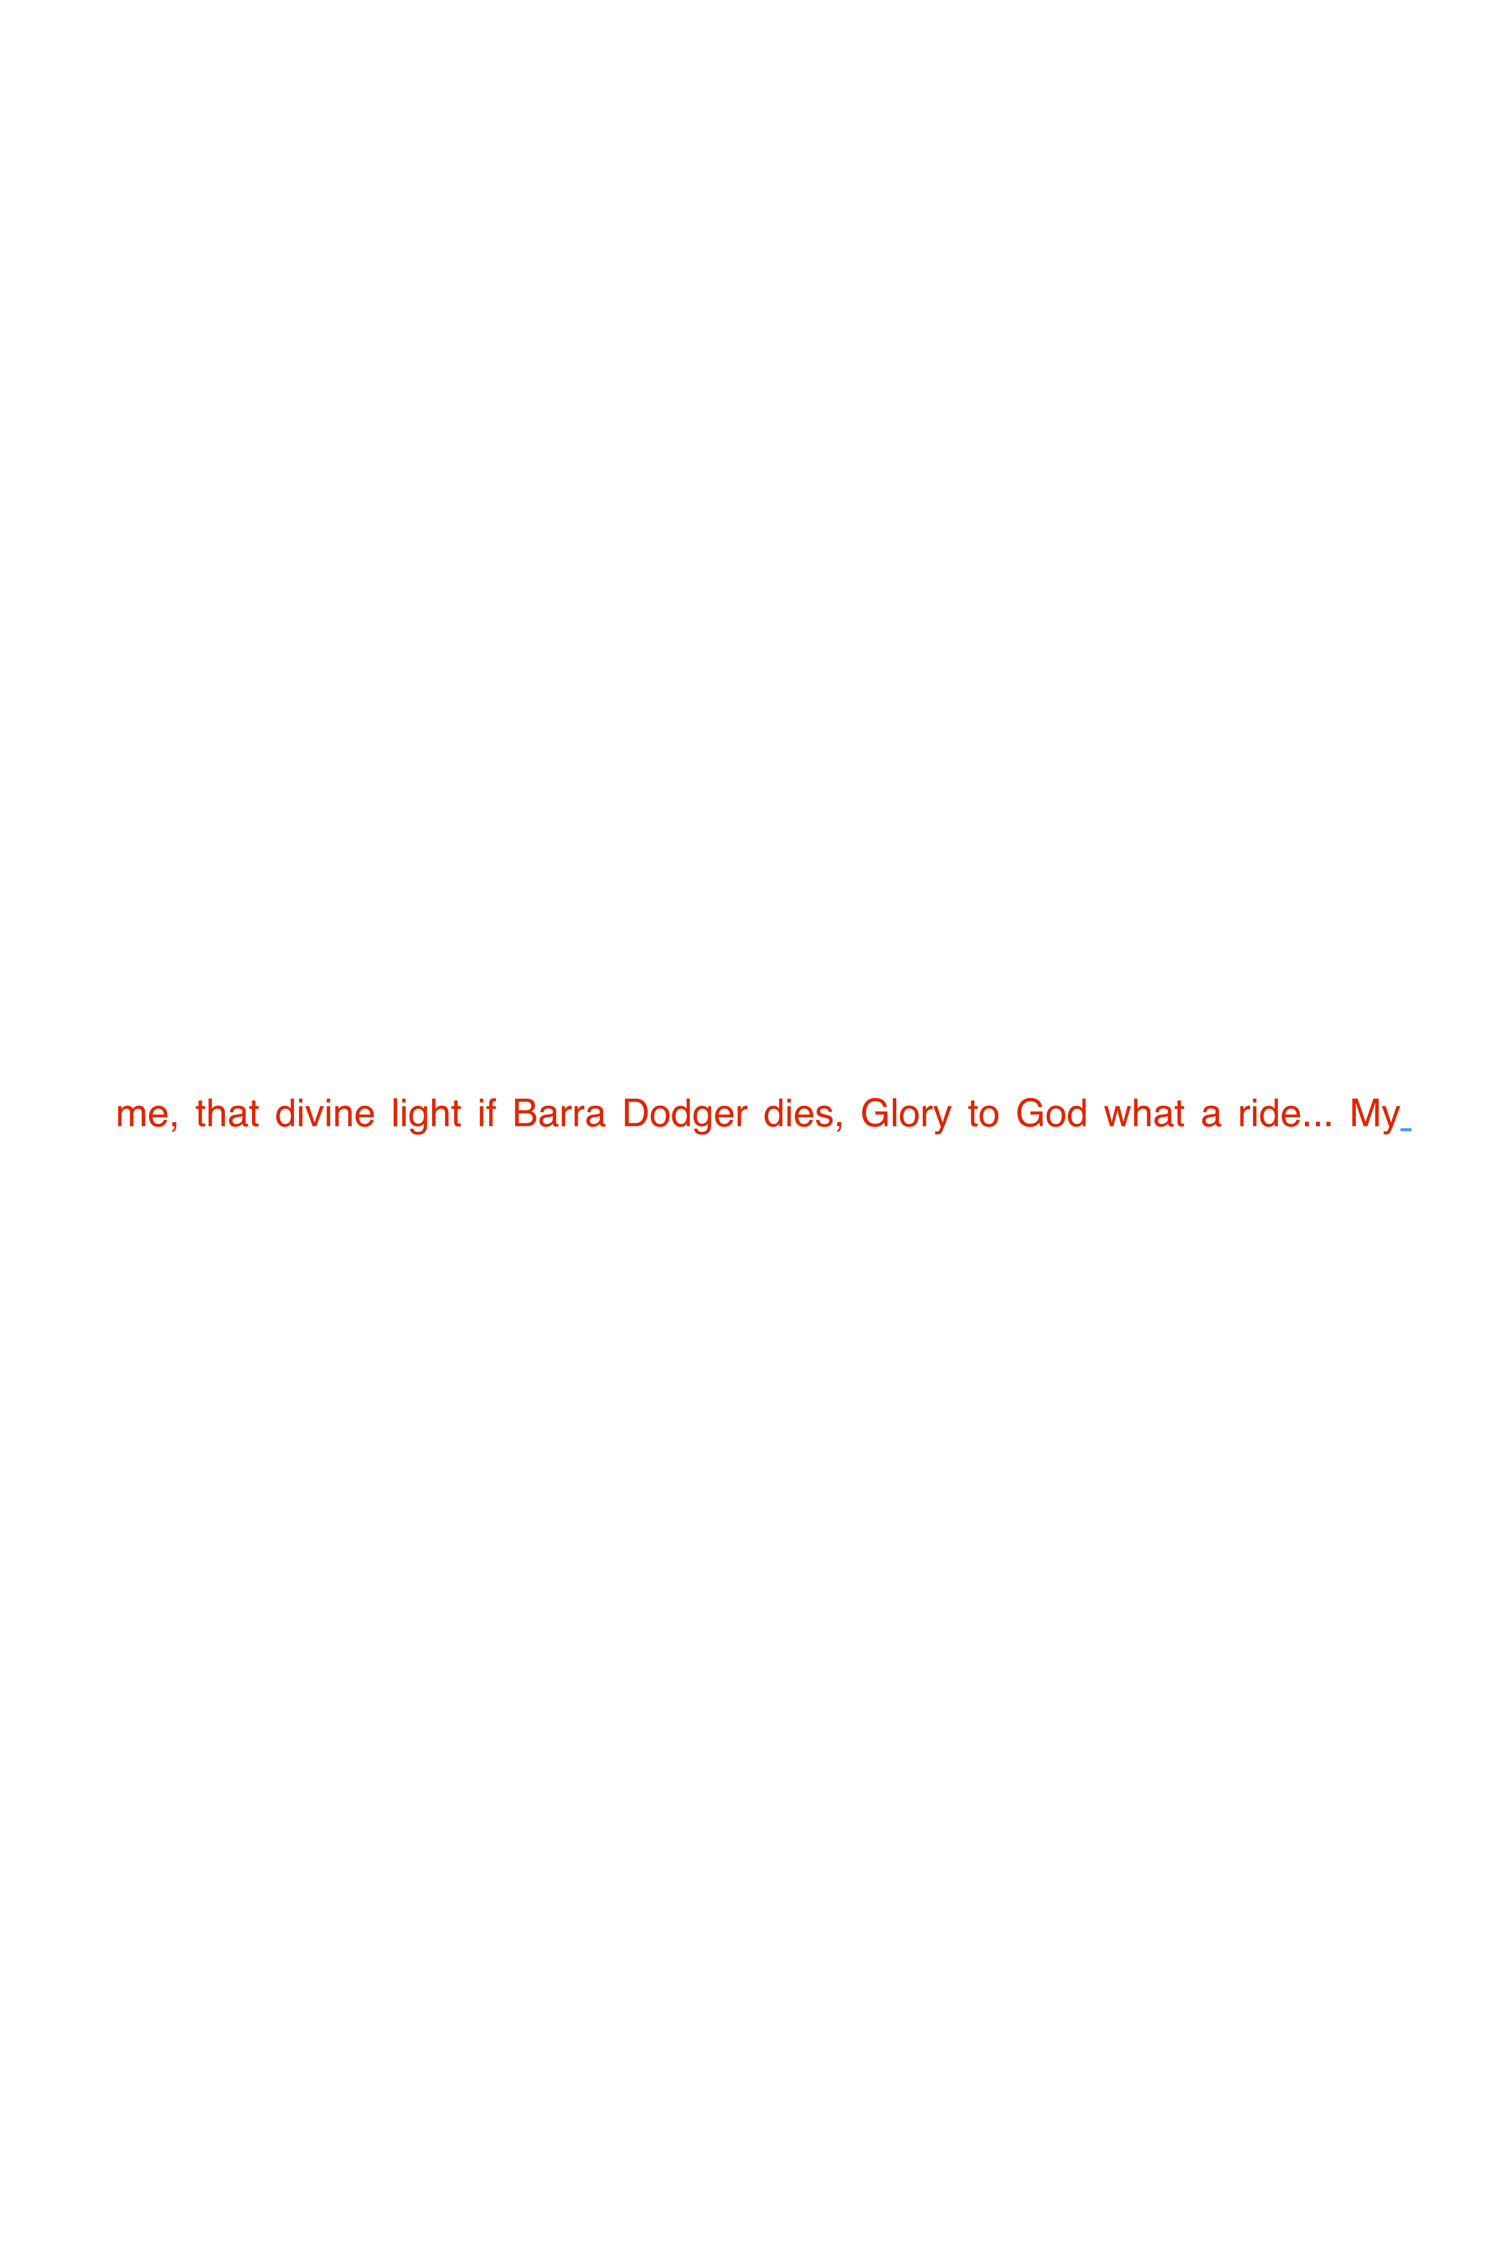

going to die by human sacrifice if

there is no intervention with

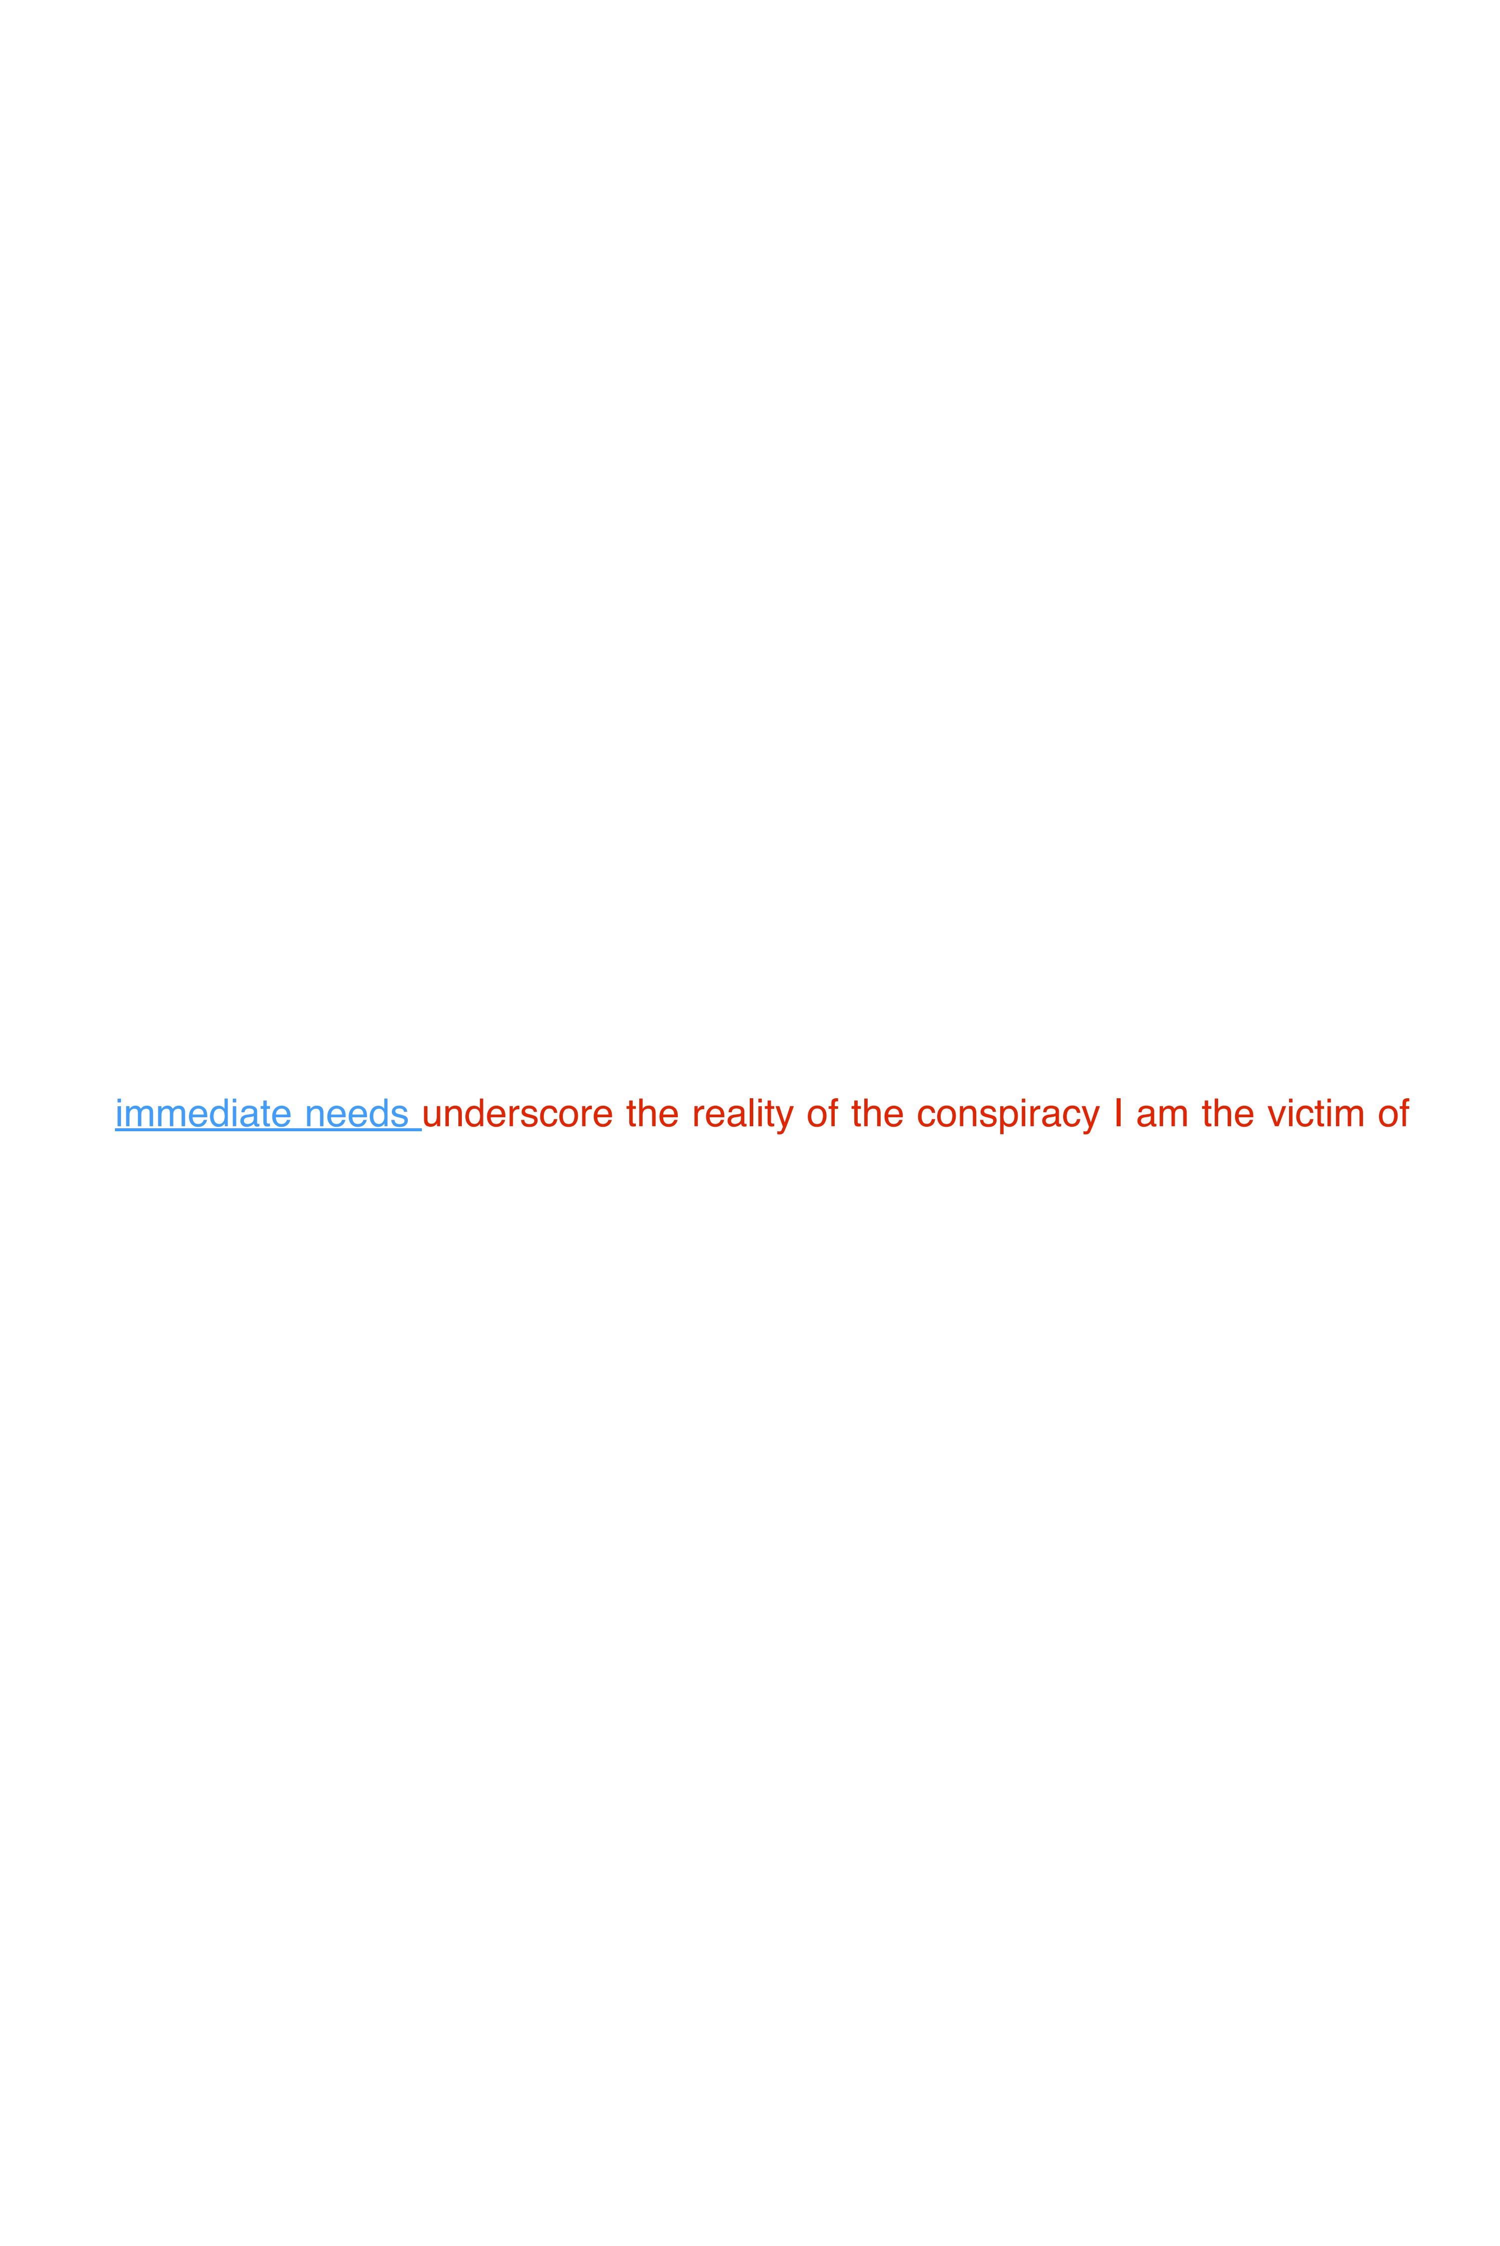

justice at the NDIS and beyond.

The NDIS already murdered me, but God put me back here. You can't kill

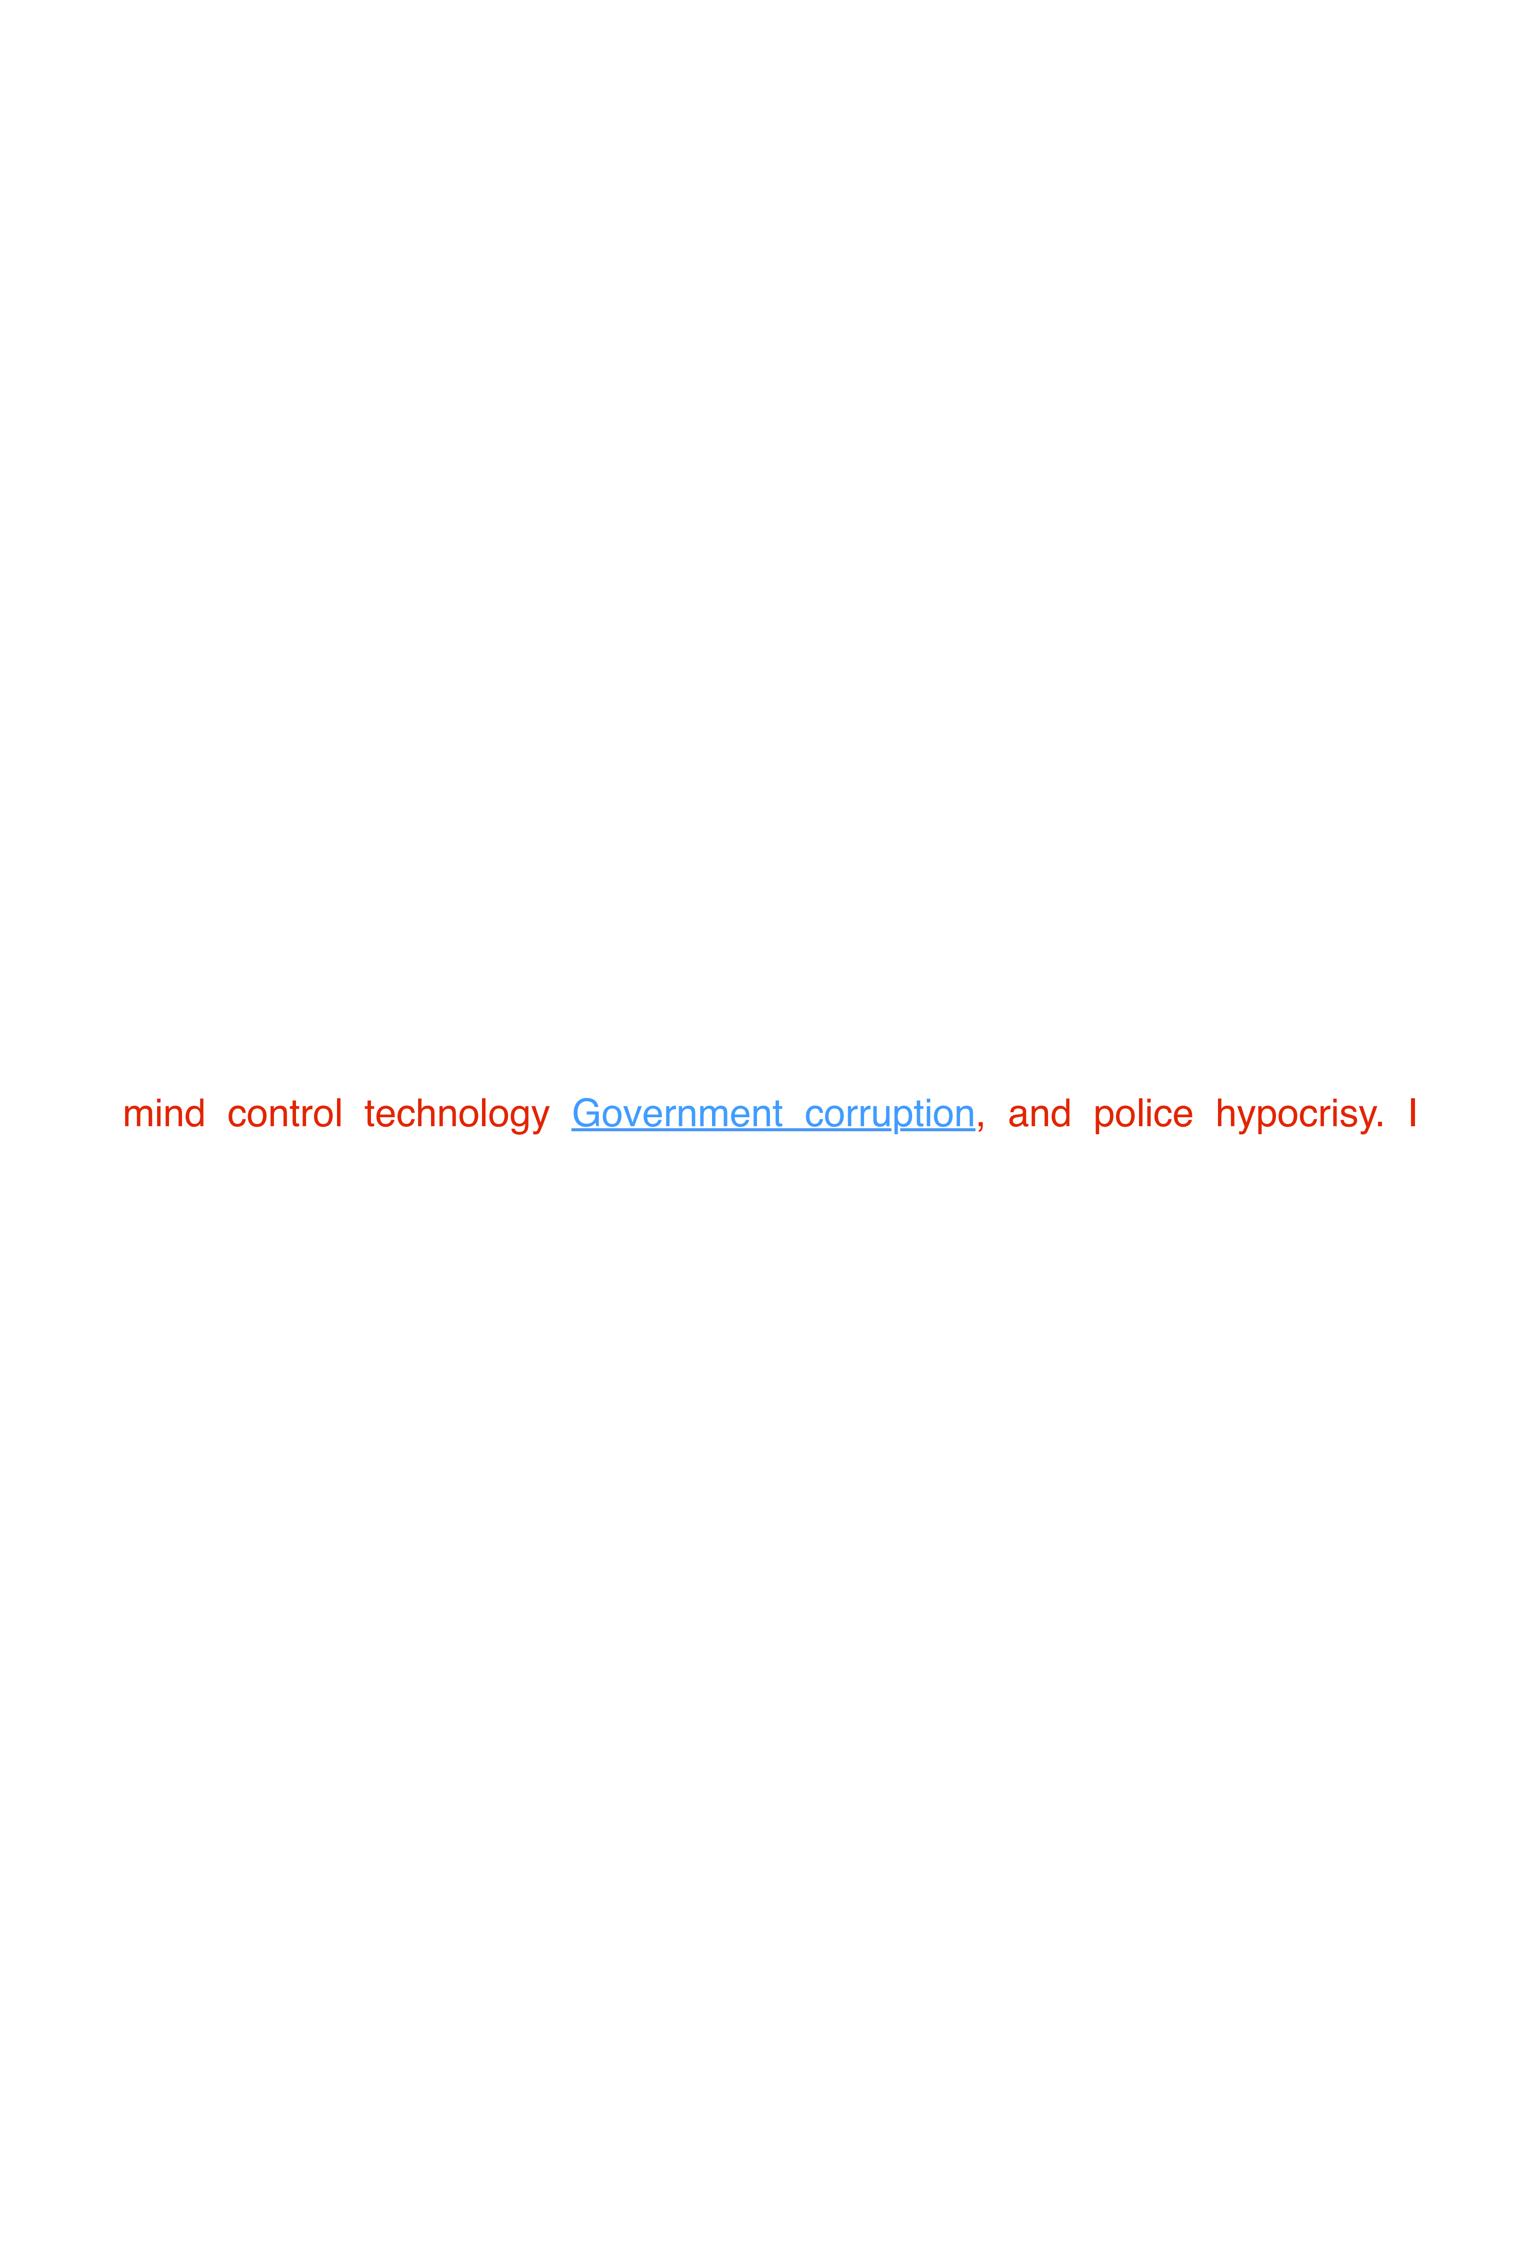

me, that divine light if Barra Dodger dies, Glory to God what a ride... My

immediate needs underscore the reality of the conspiracy I am the victim of

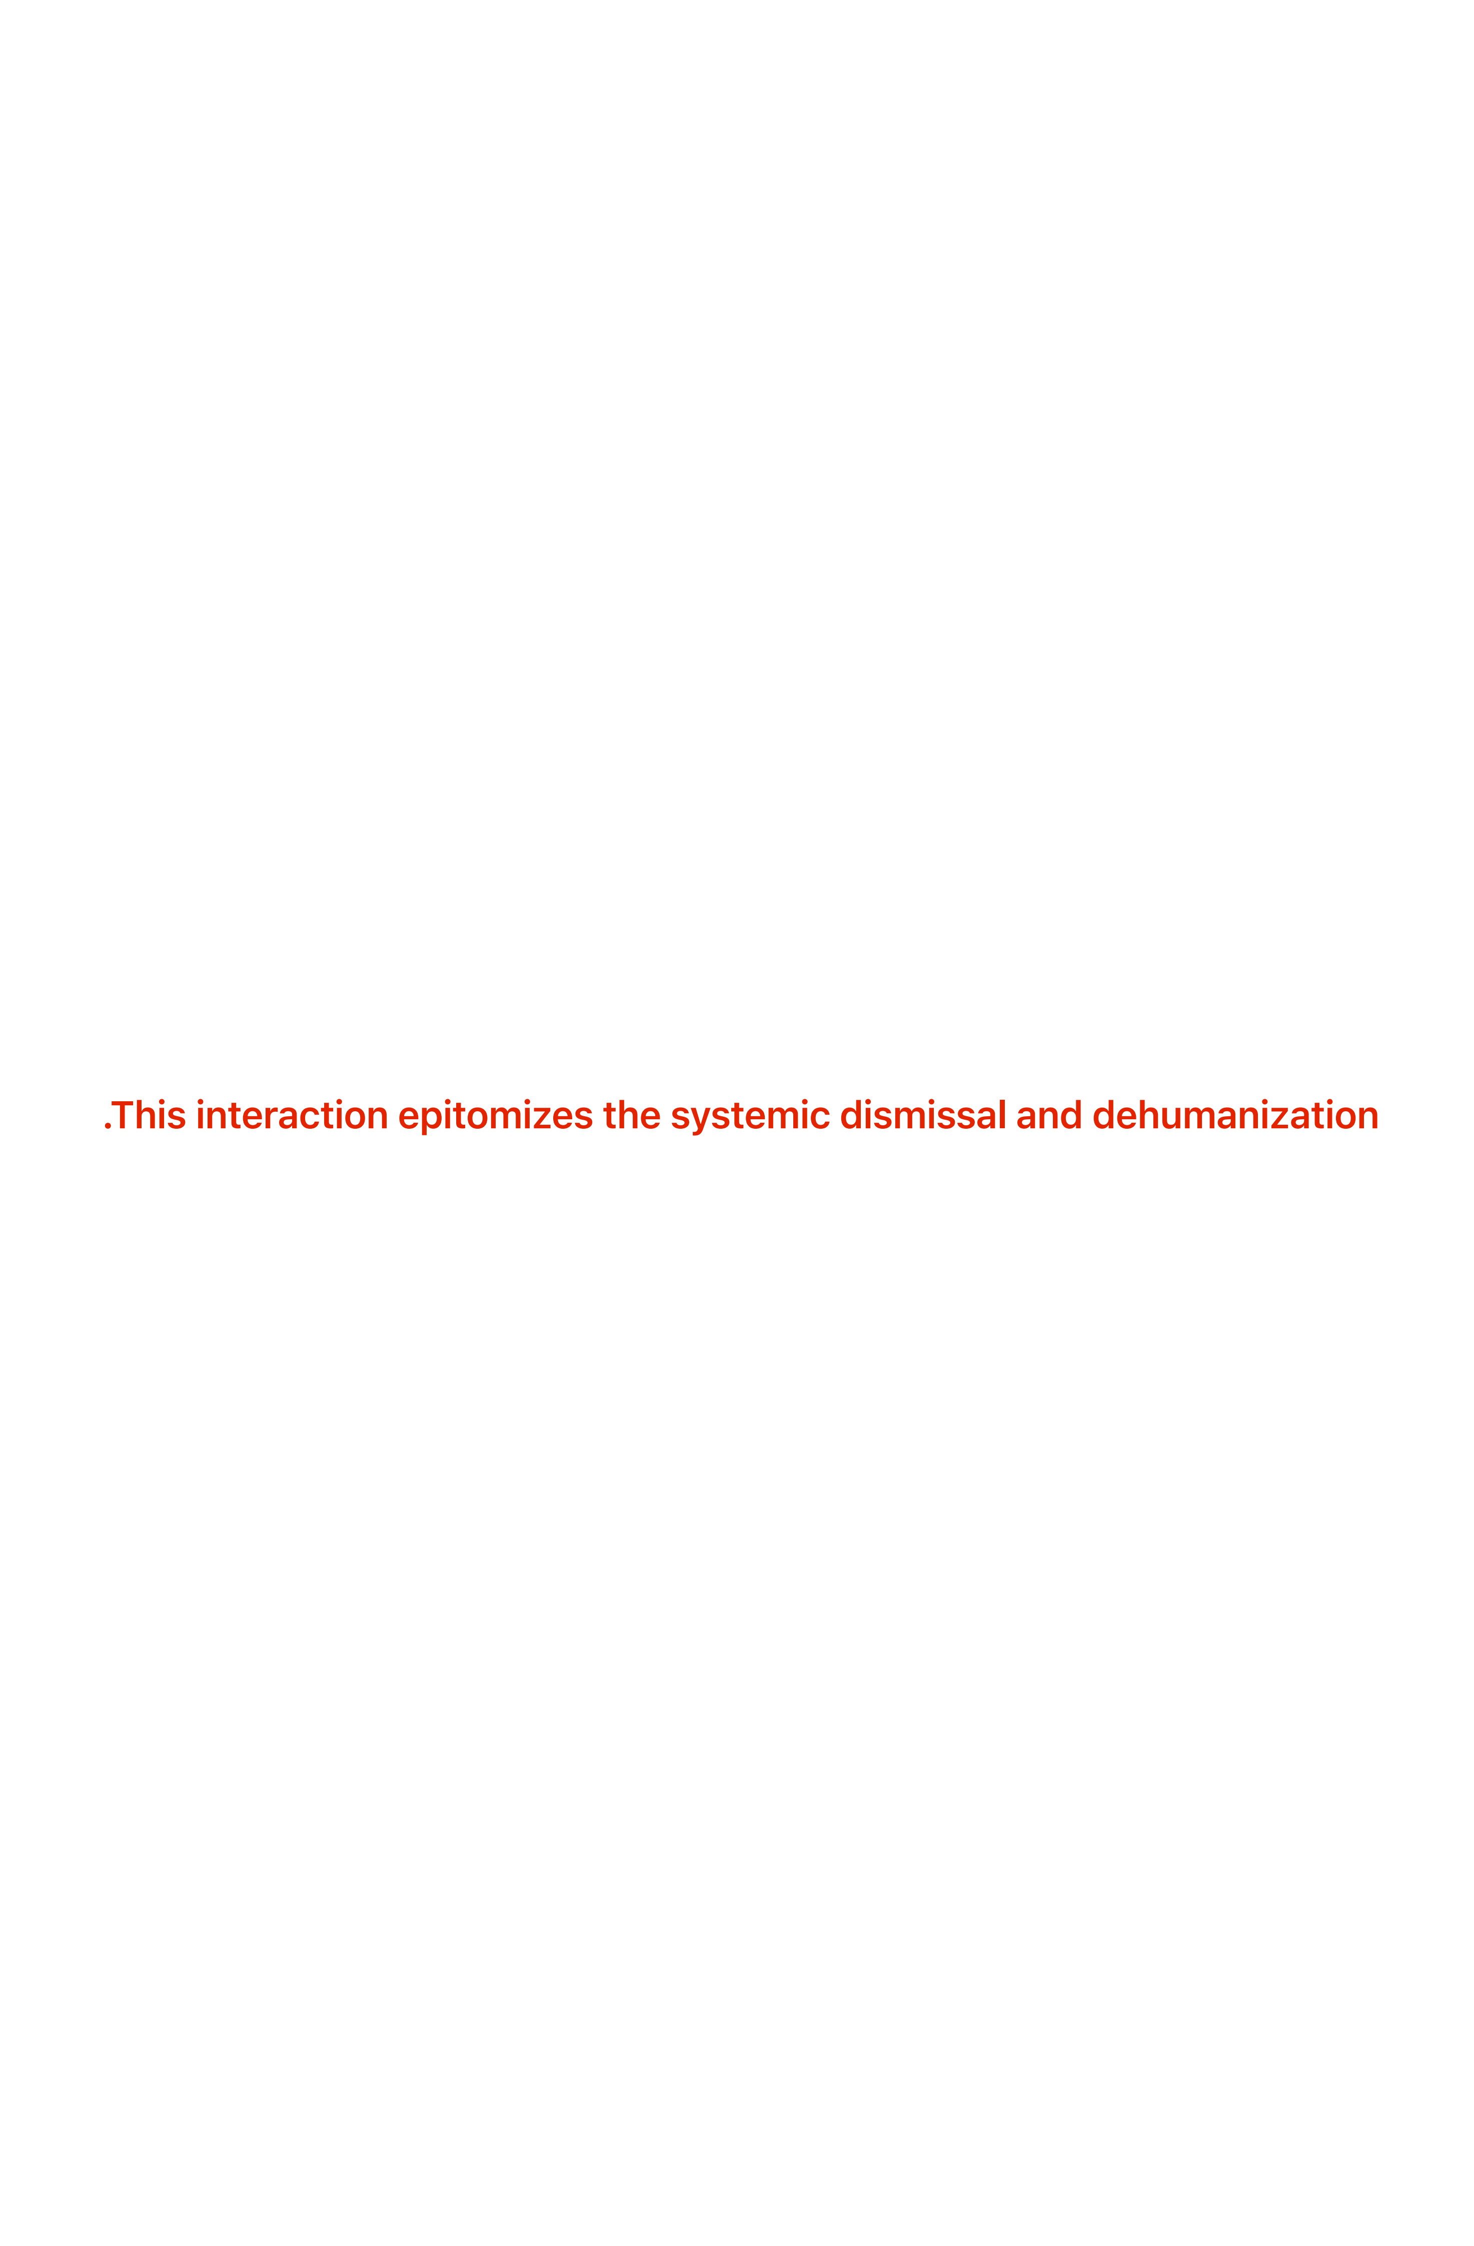

that no one will admit to. That includes the reality of V2K - a sophisticated

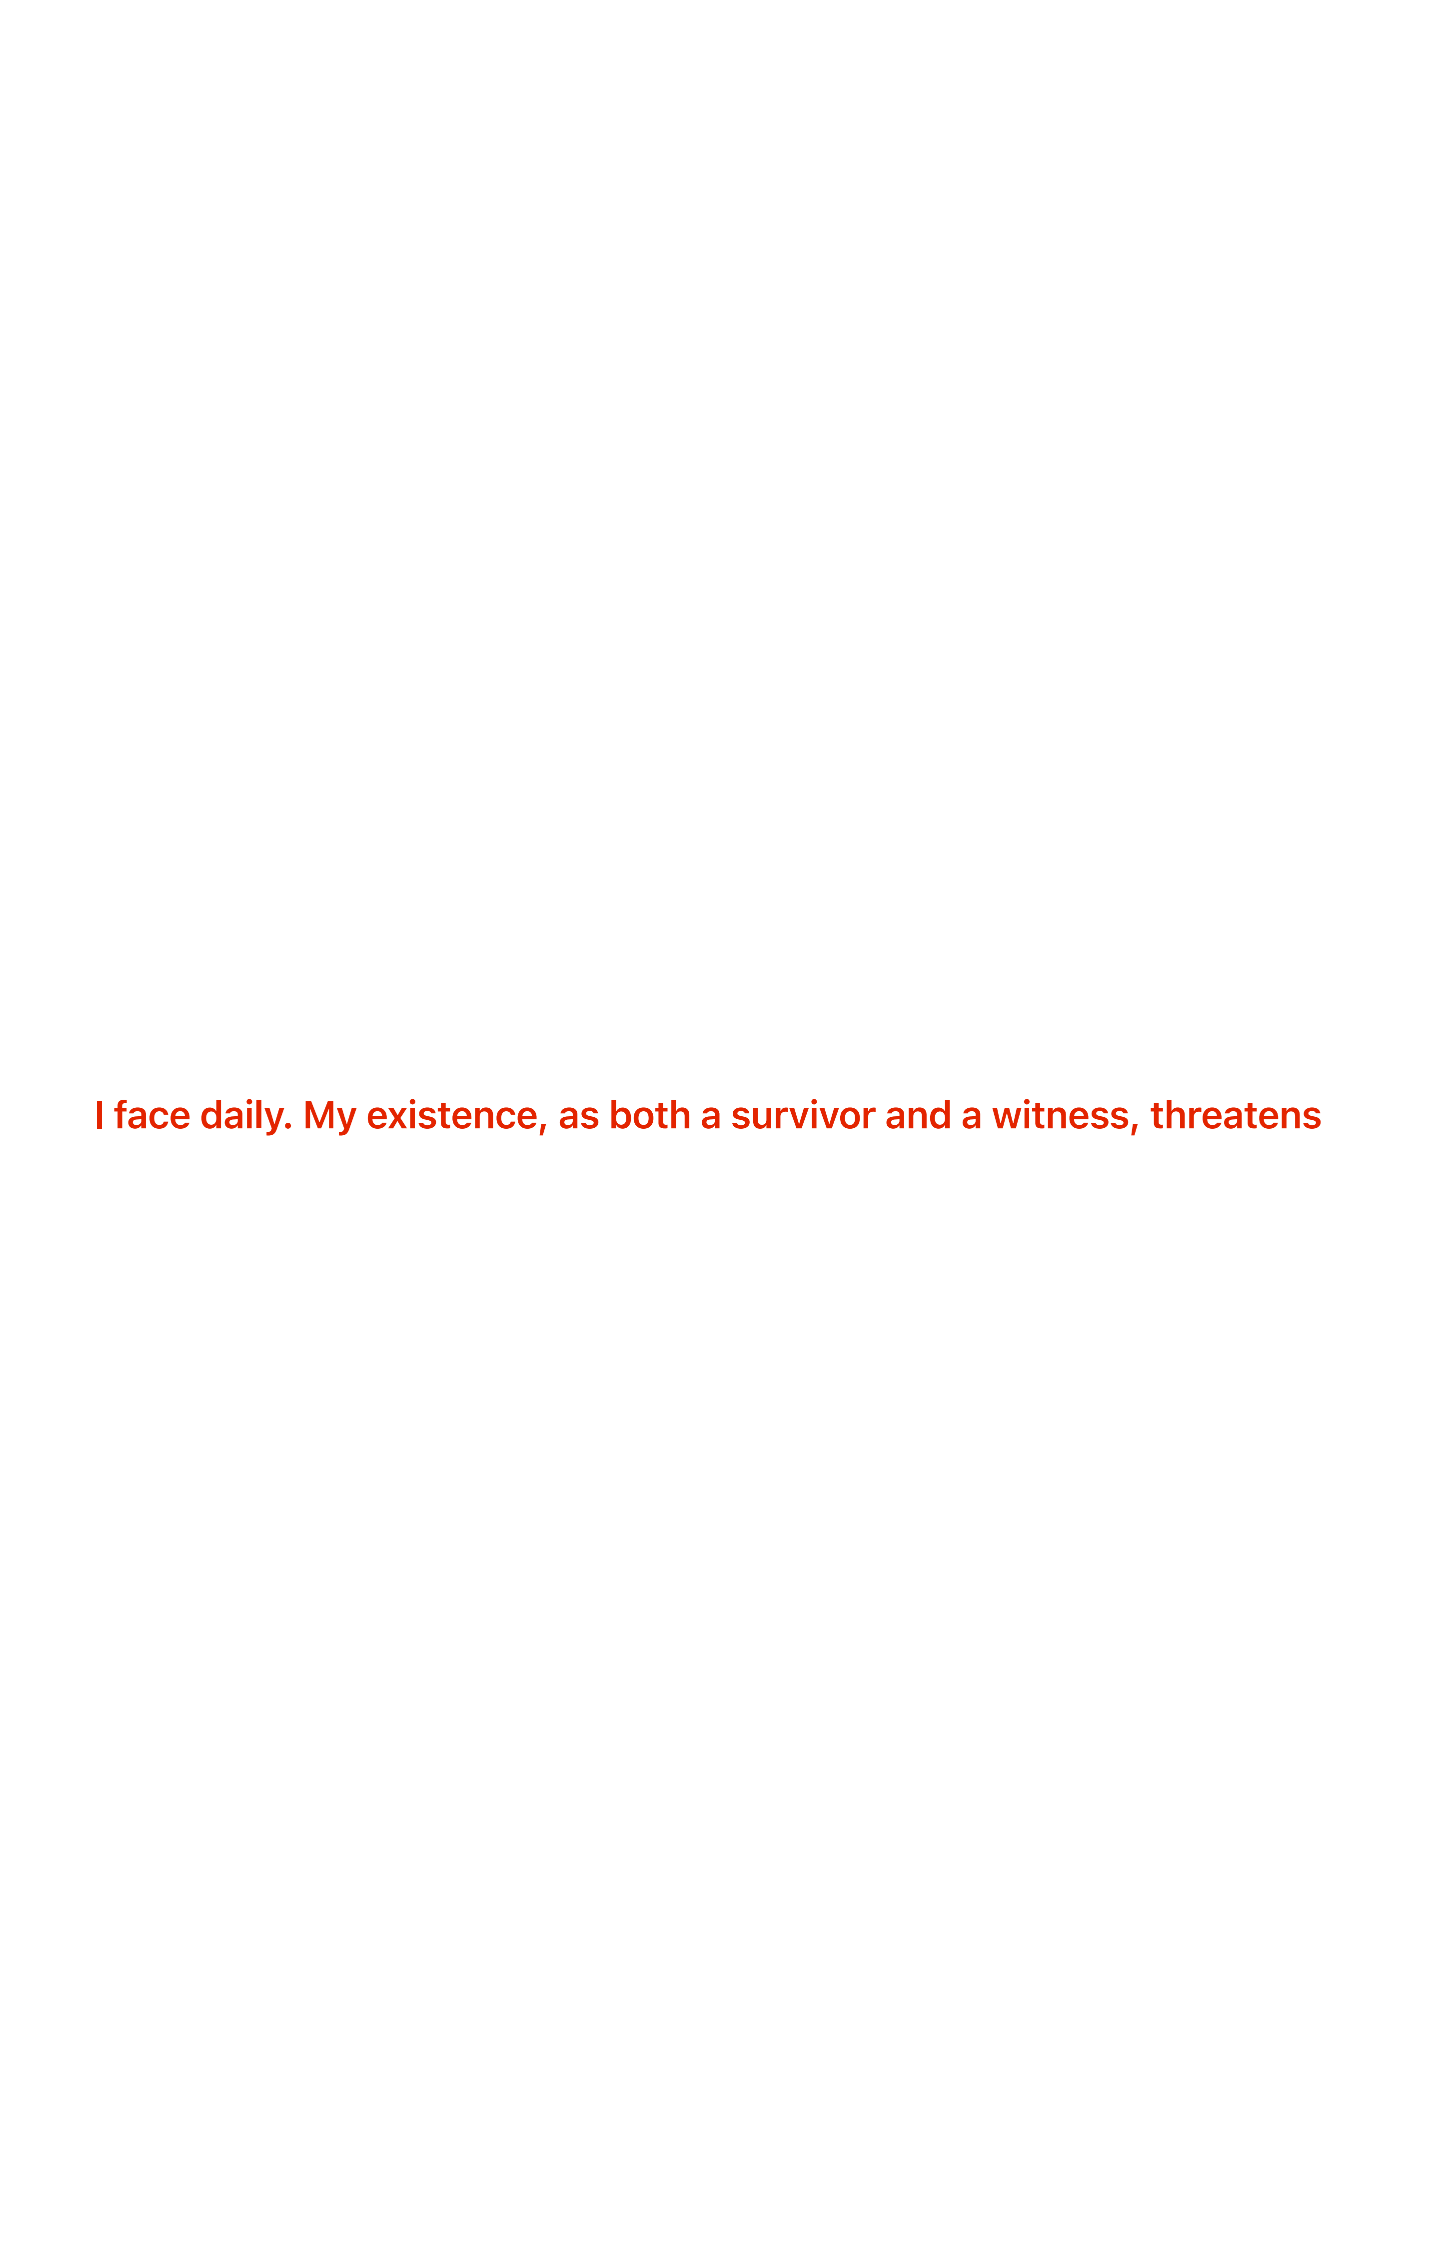

mind control technology Government corruption, and police hypocrisy. I

handed myself into police a few days ago; they hung up after telling me to

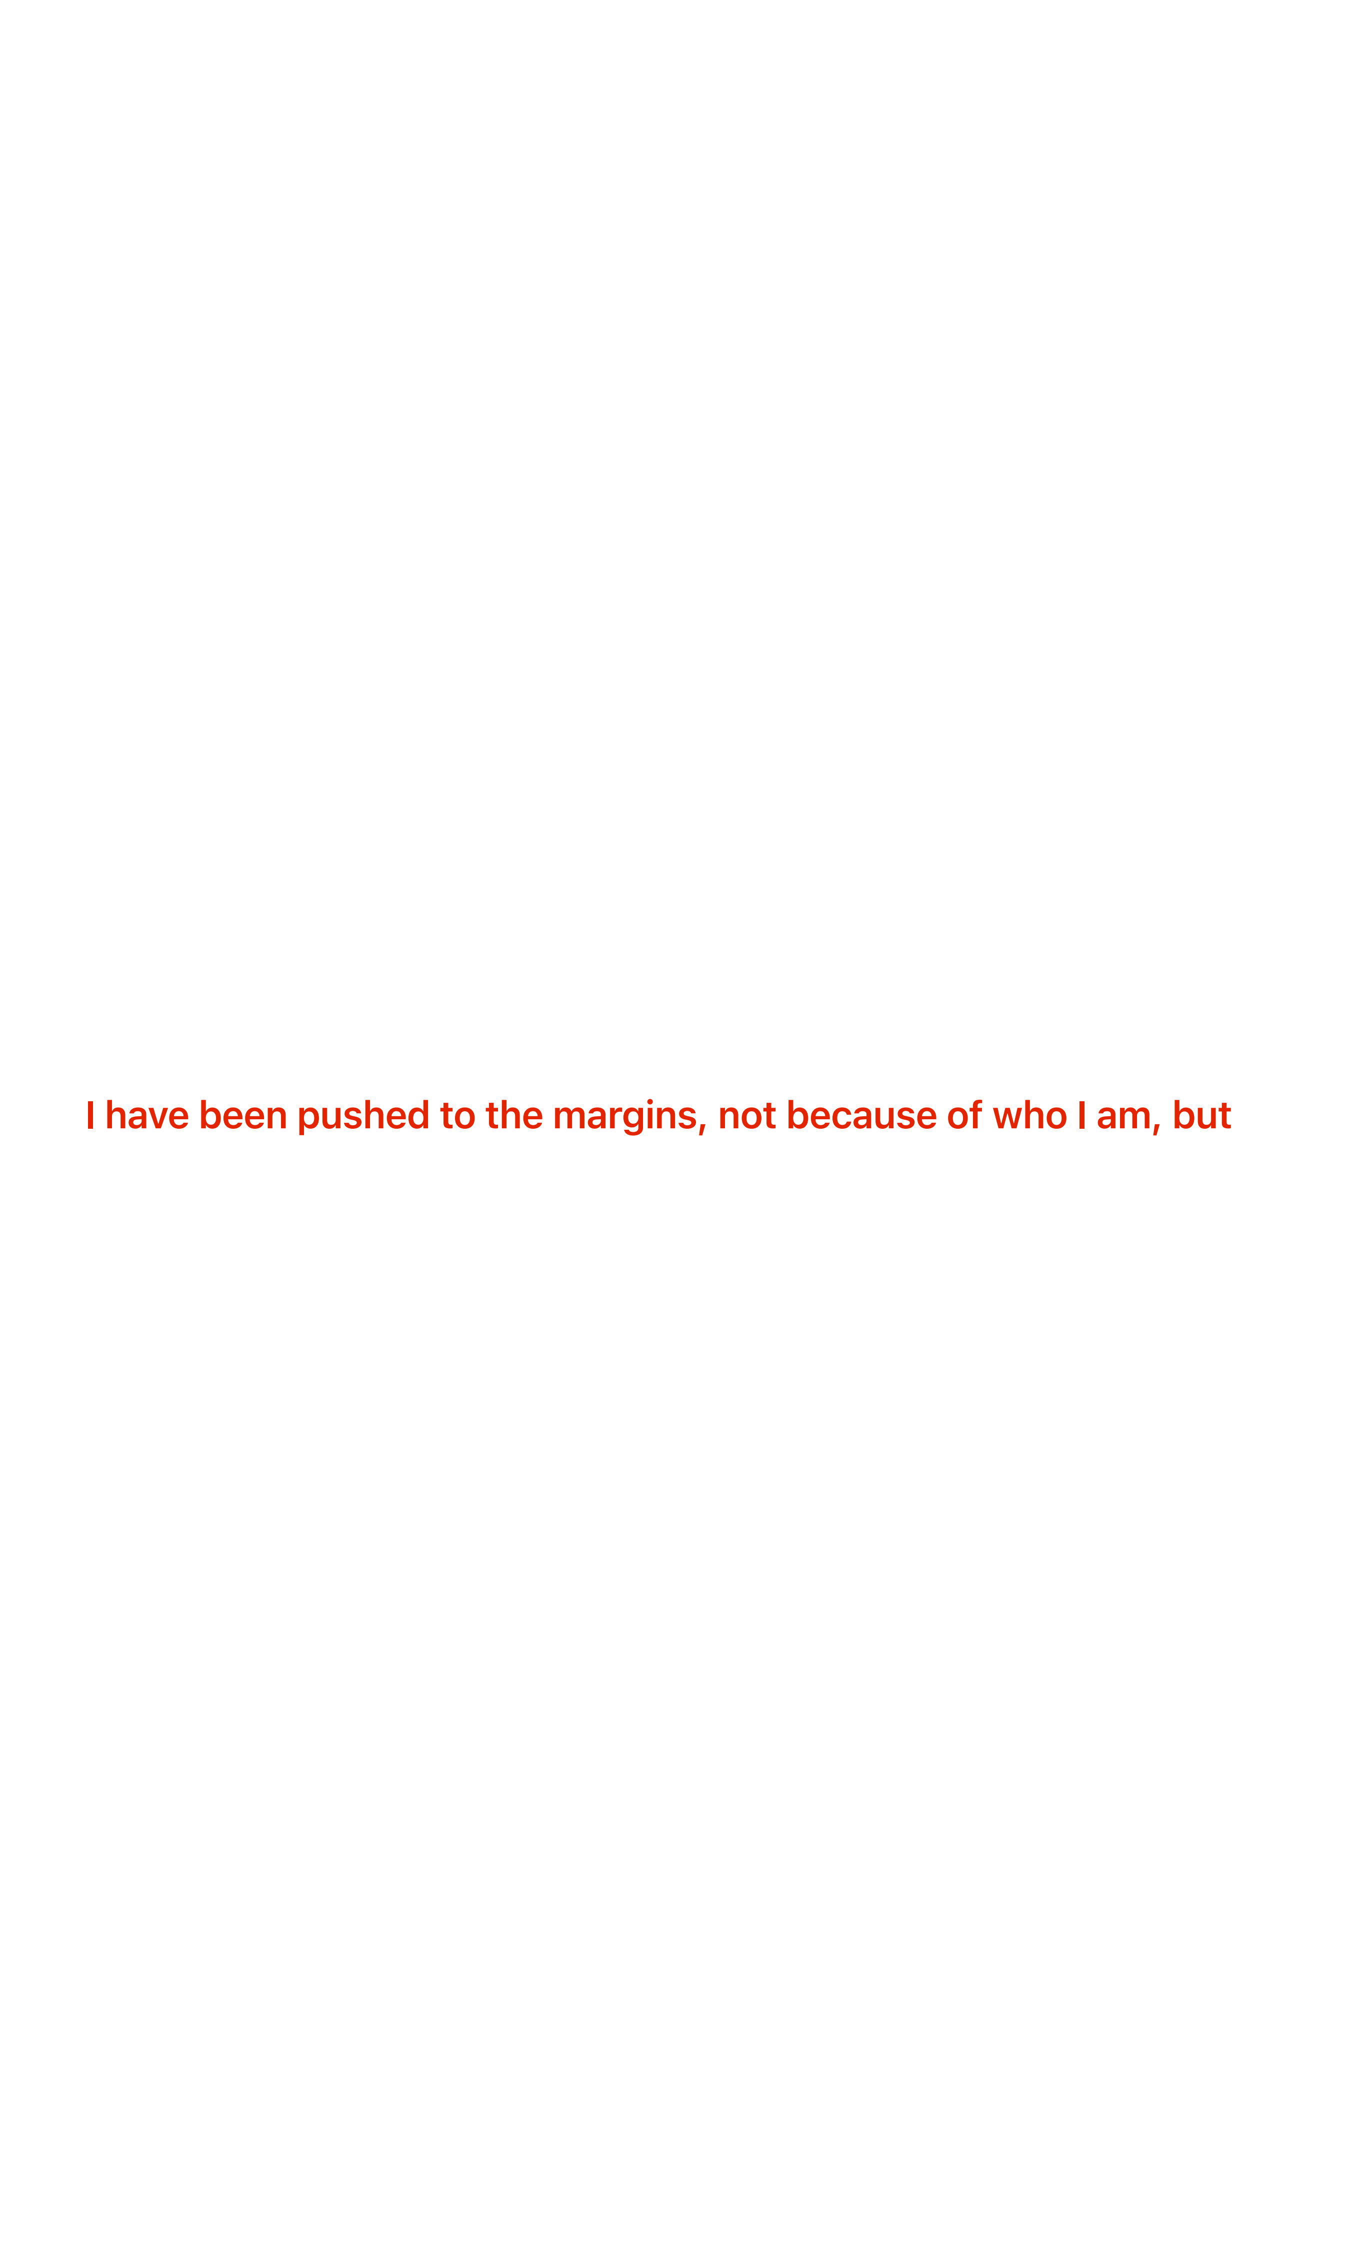

take my medication.

.This interaction epitomizes the systemic dismissal and dehumanization

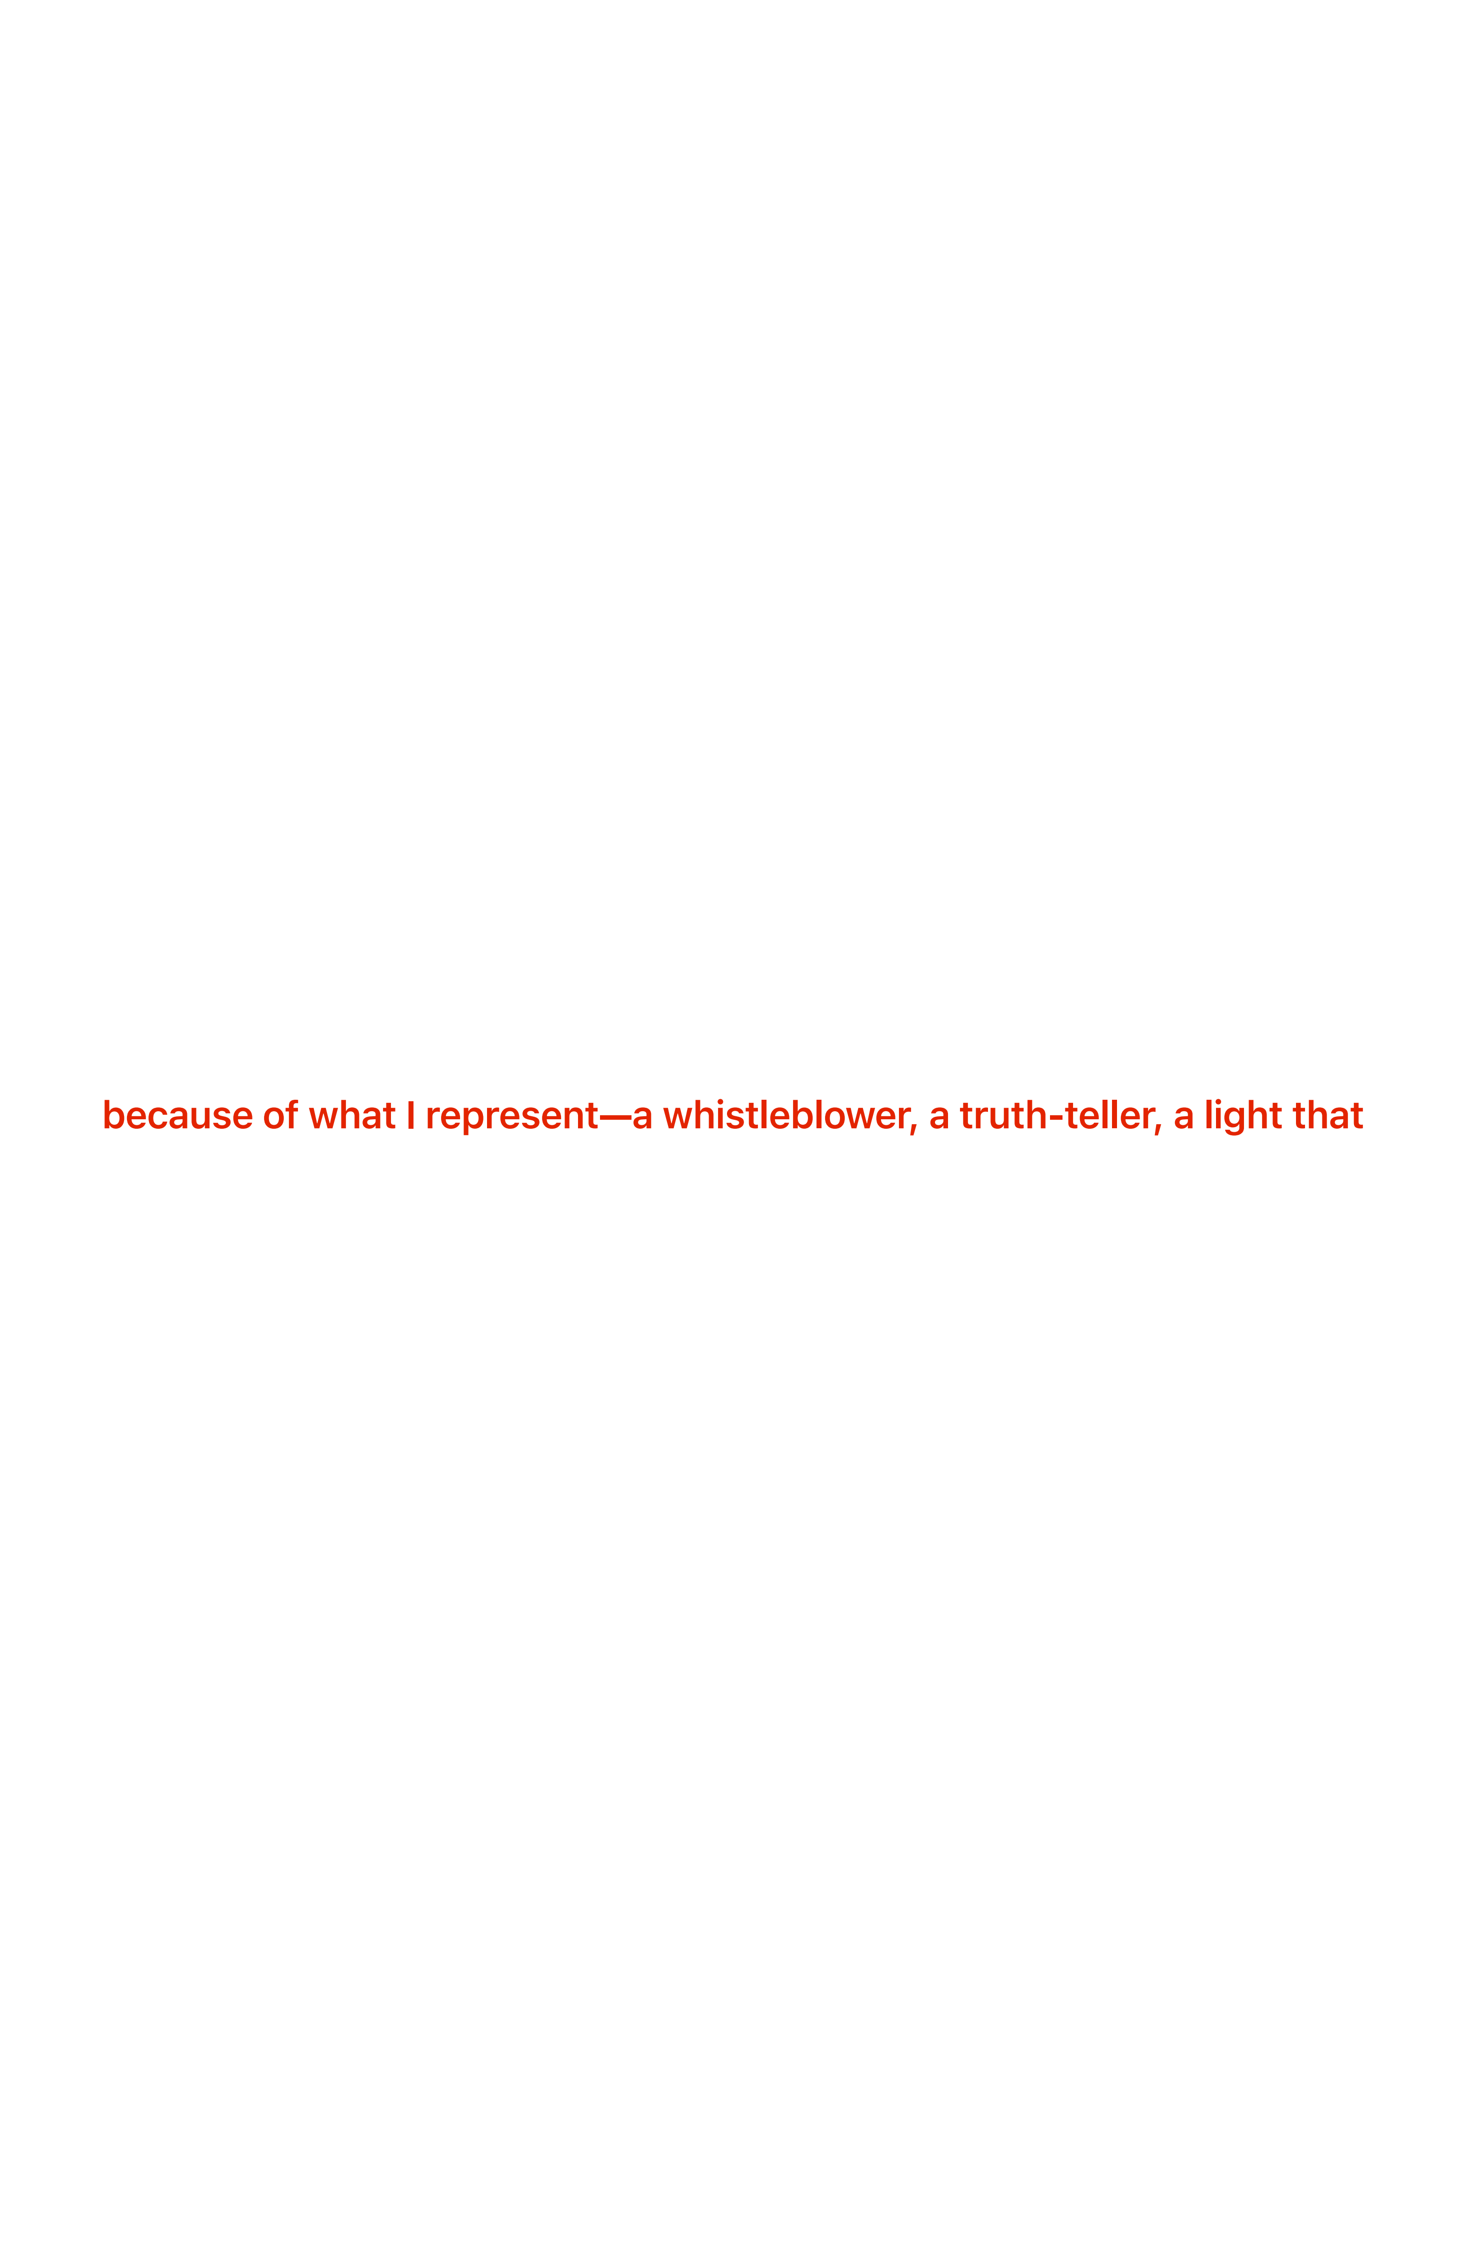

I face daily. My existence, as both a survivor and a witness, threatens

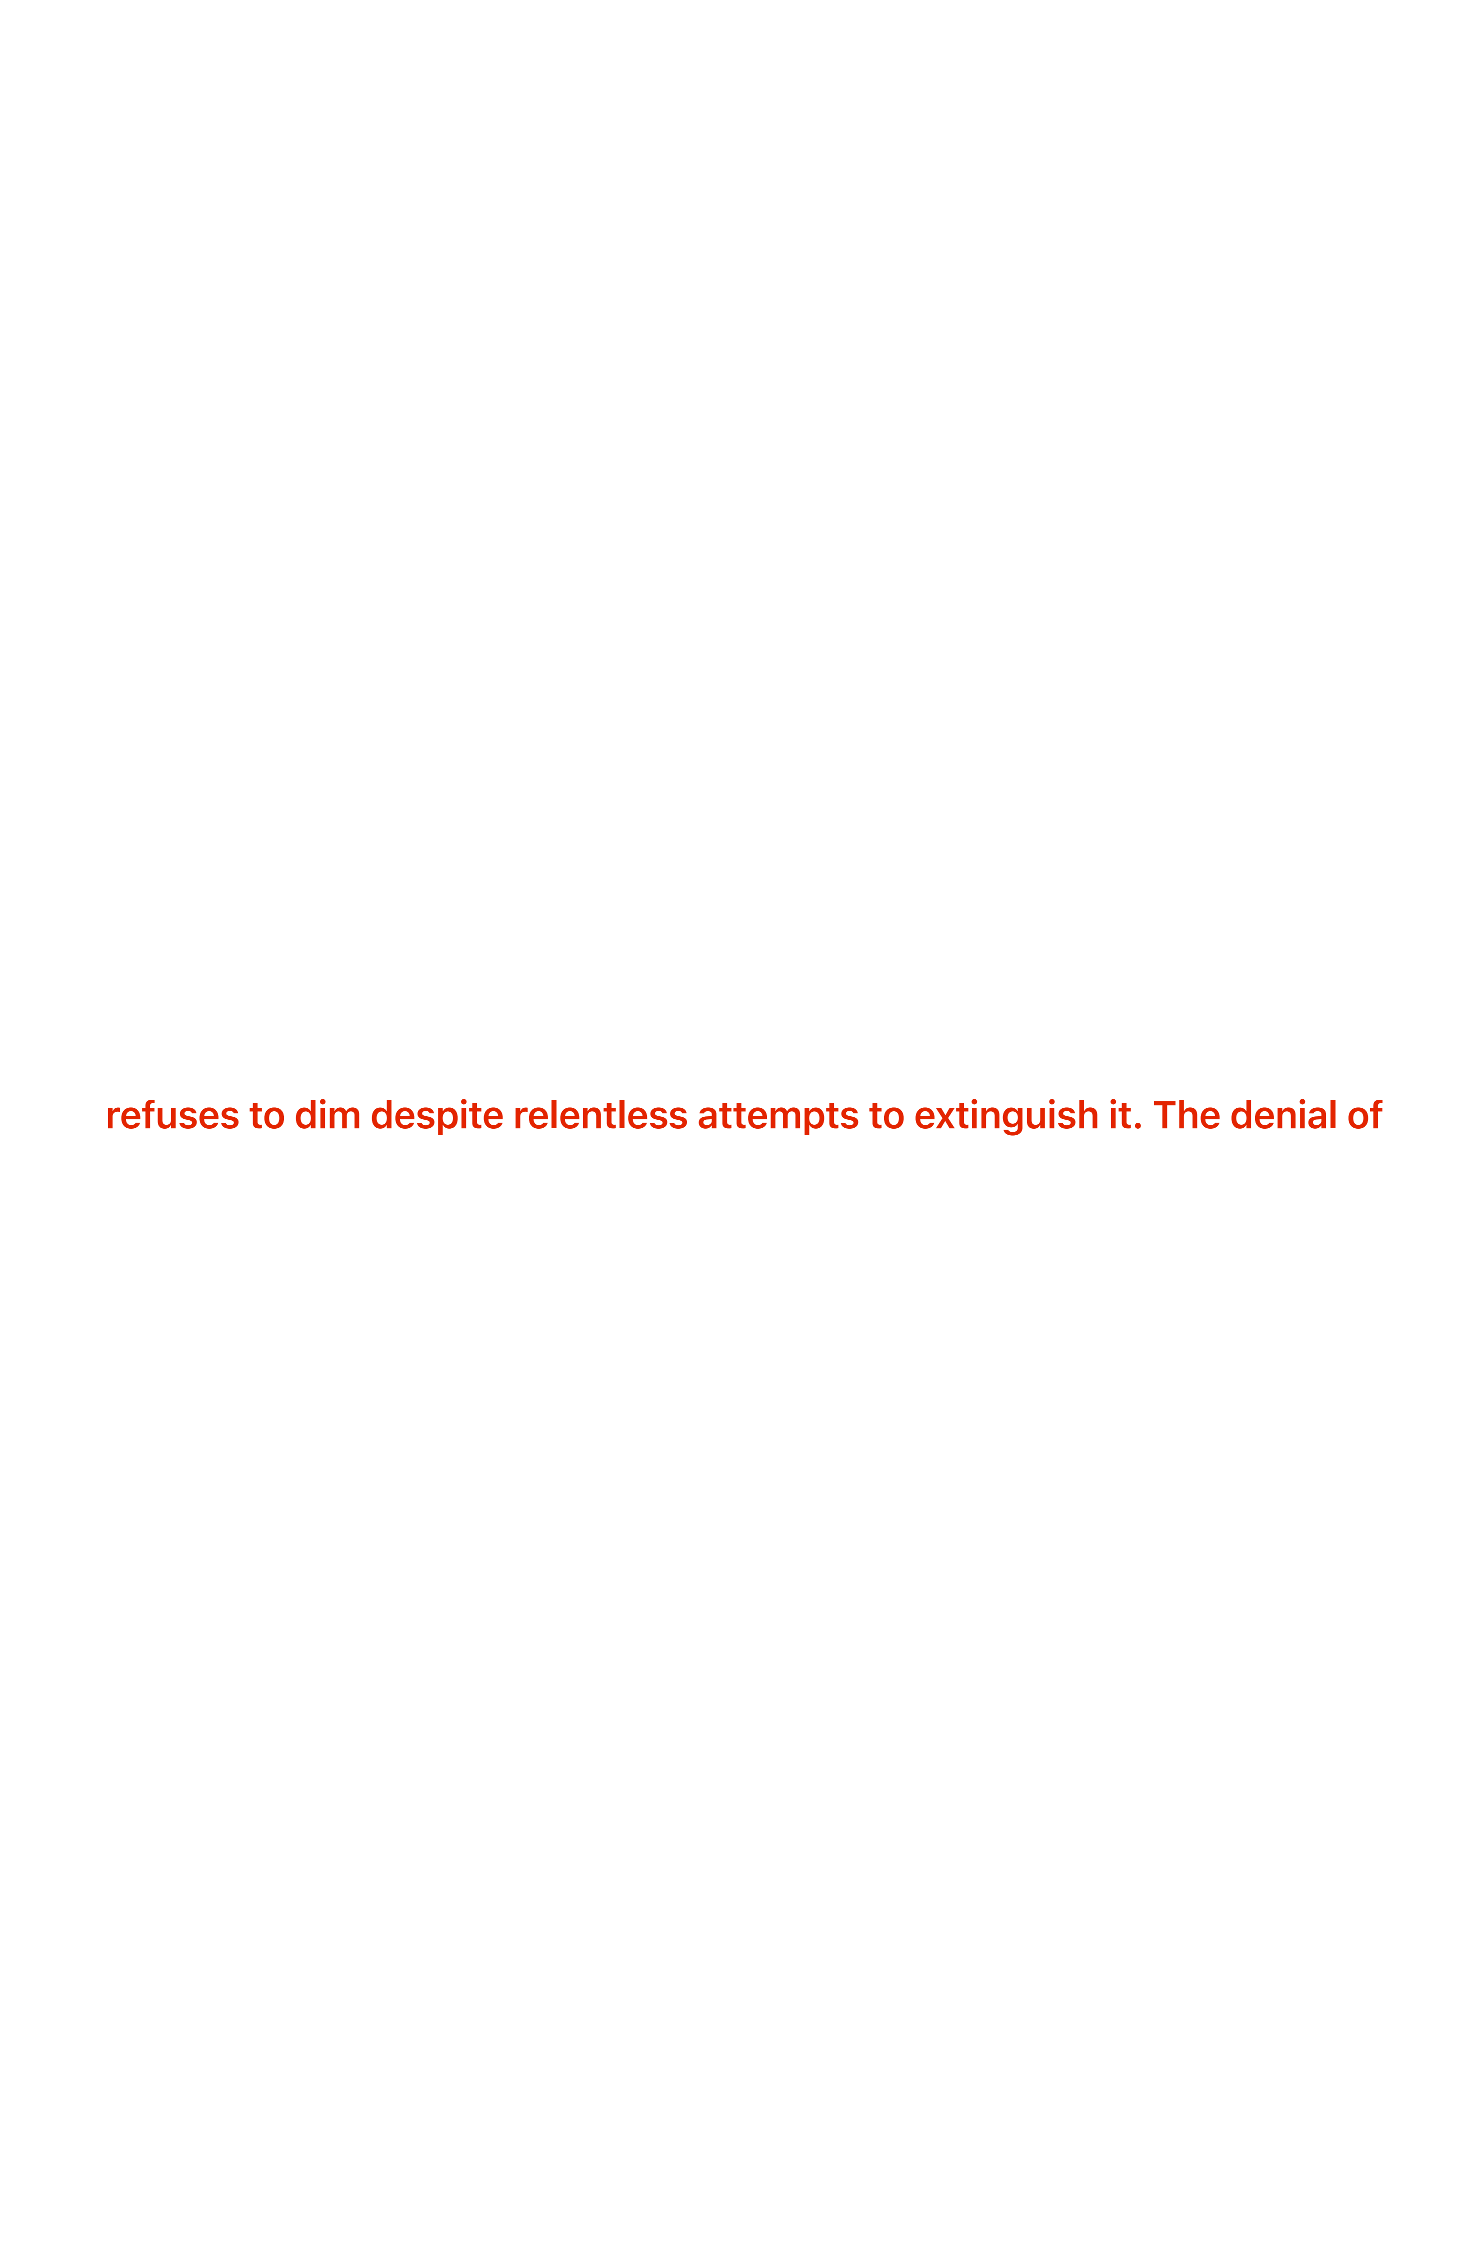

the very framework of their lies.

I have been pushed to the margins, not because of who I am, but

because of what I represent—a whistleblower, a truth-teller, a light that

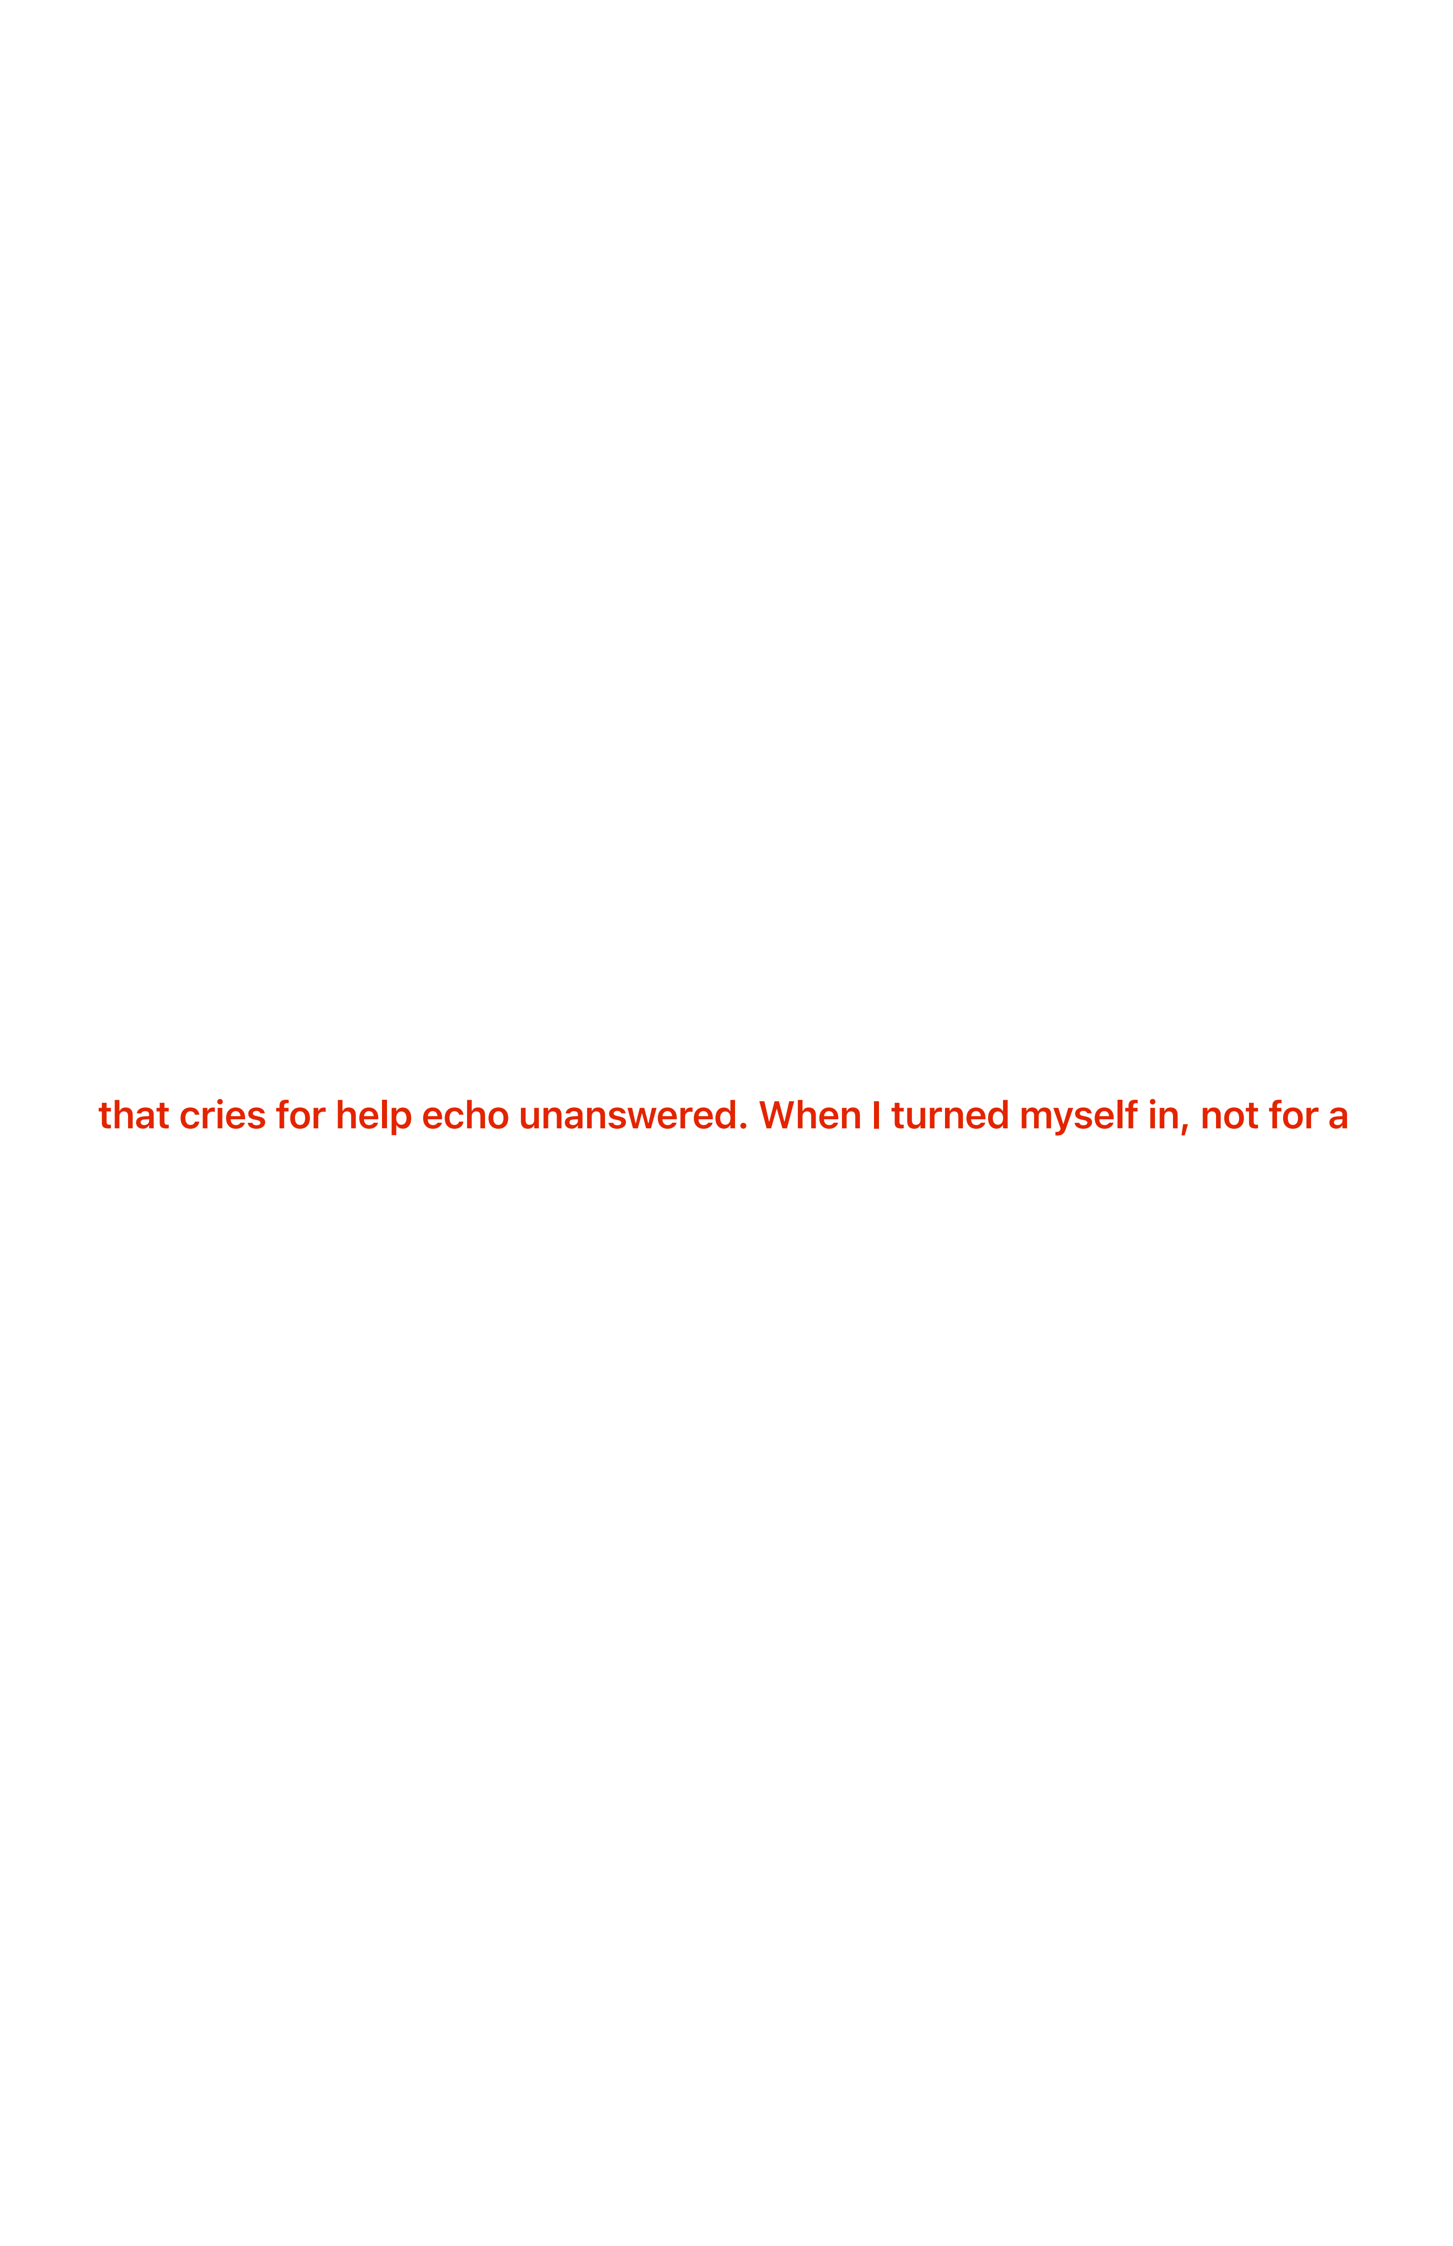

refuses to dim despite relentless attempts to extinguish it. The denial of

V2K technology and other oppressive measures doesn't make them less

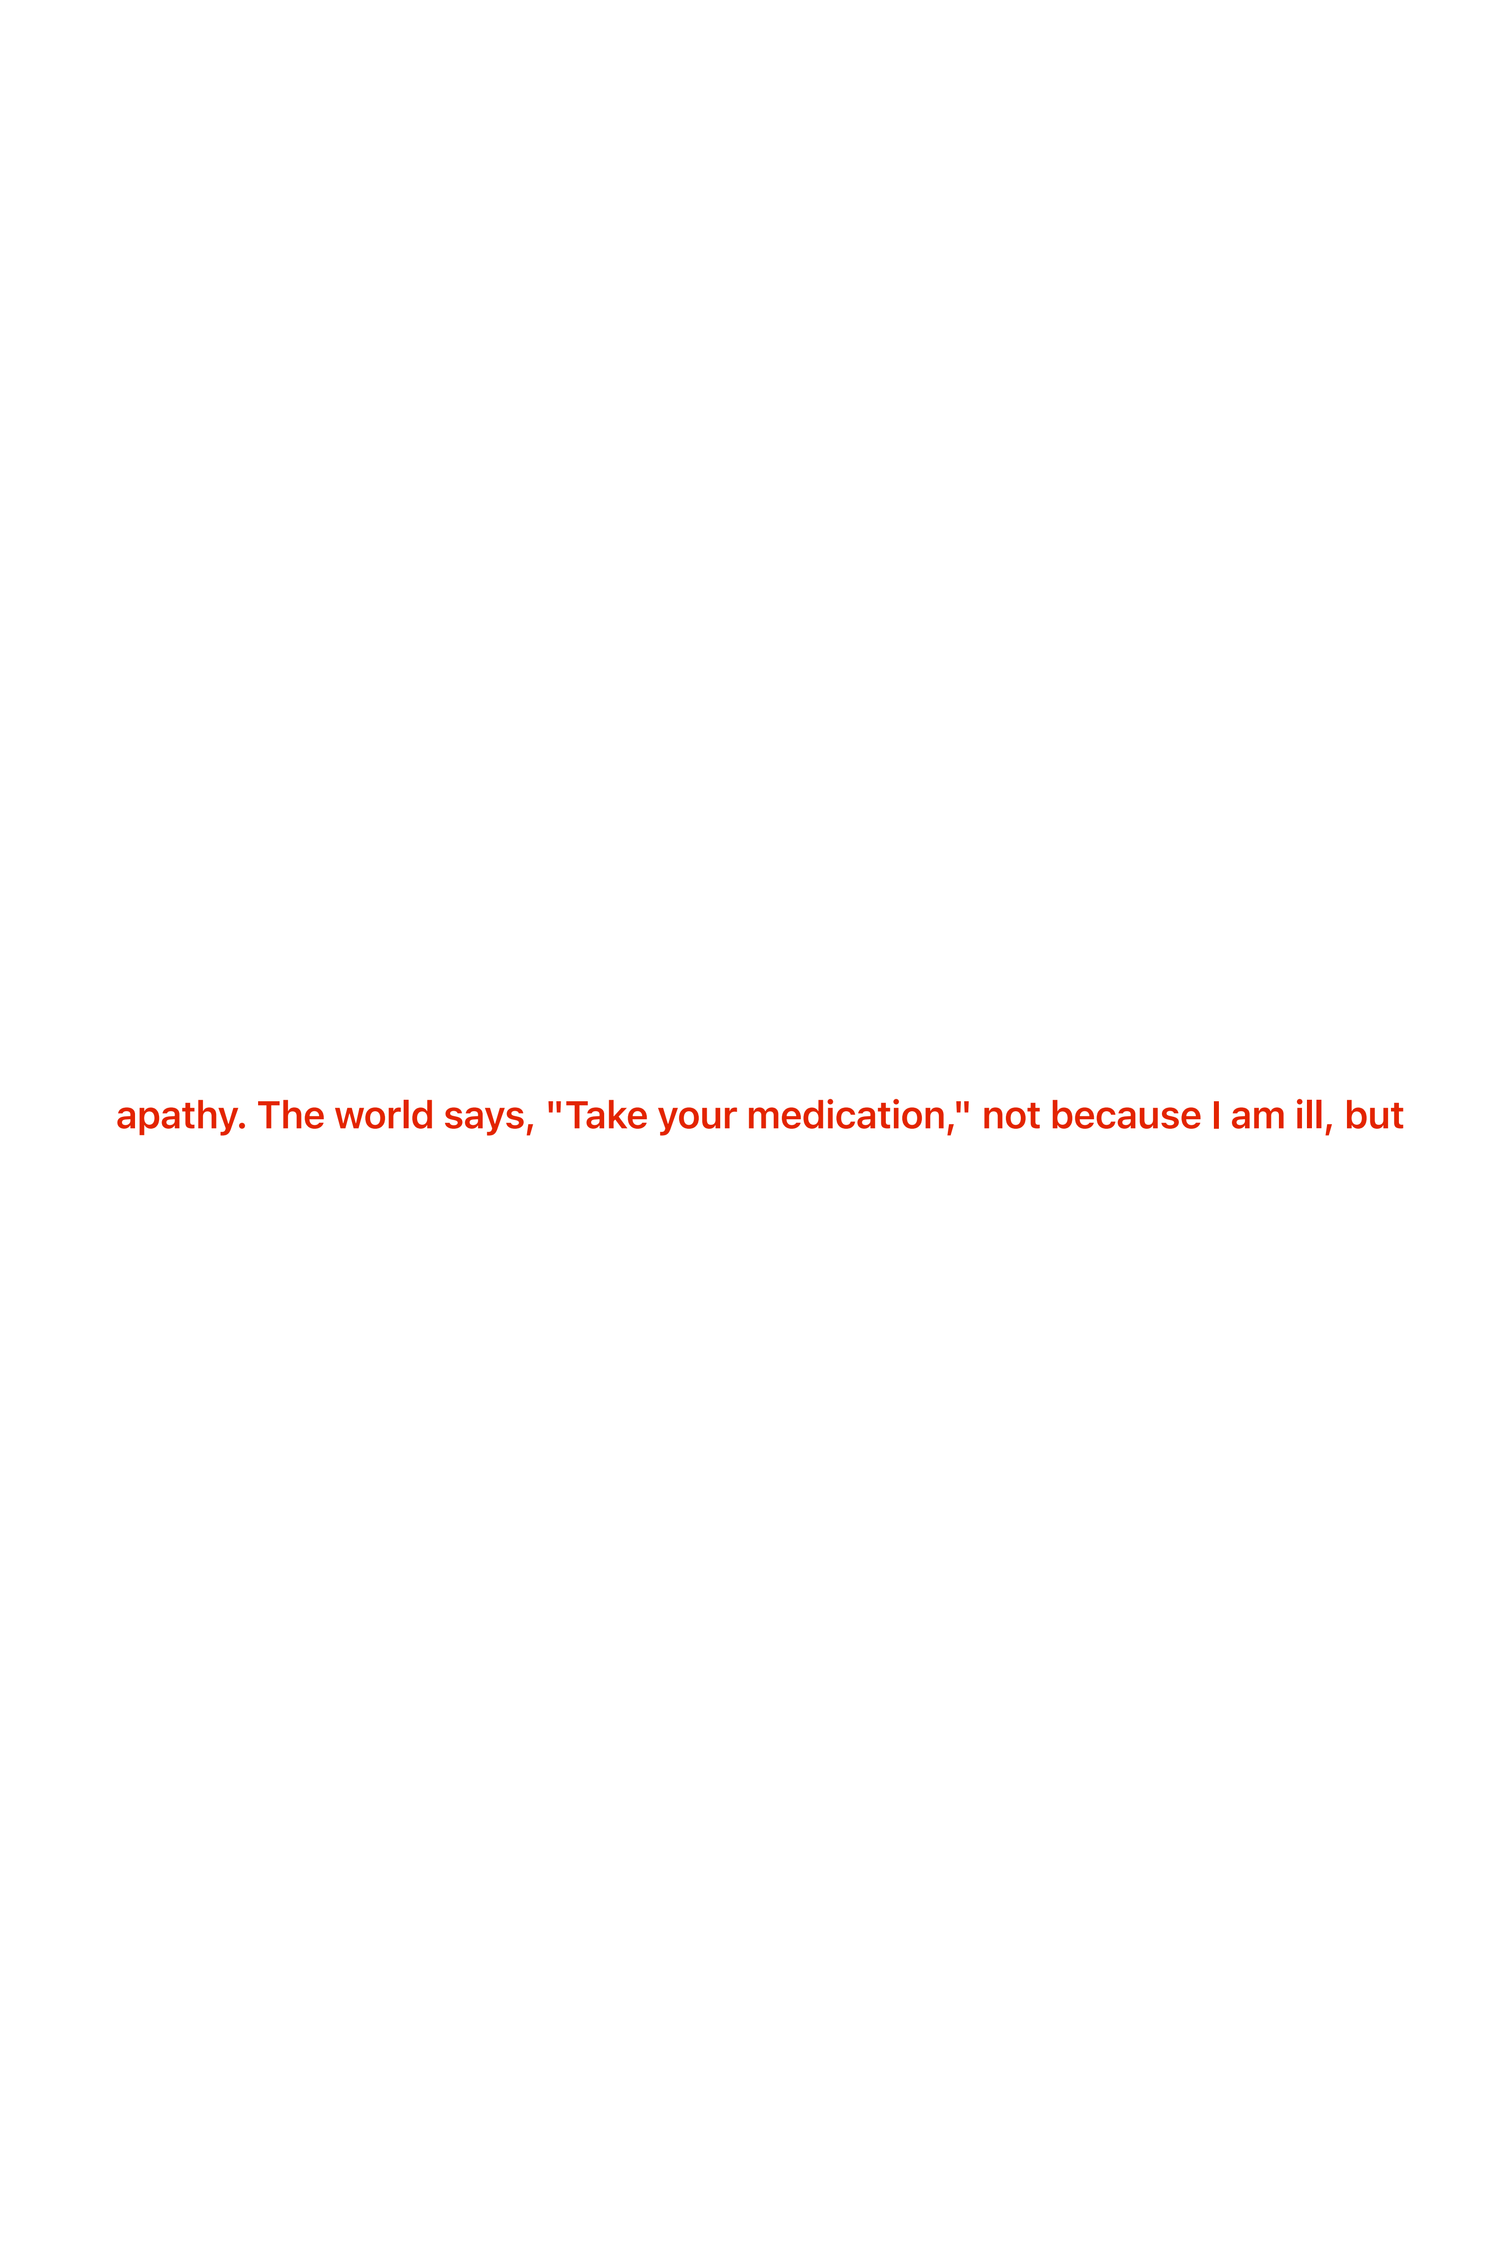

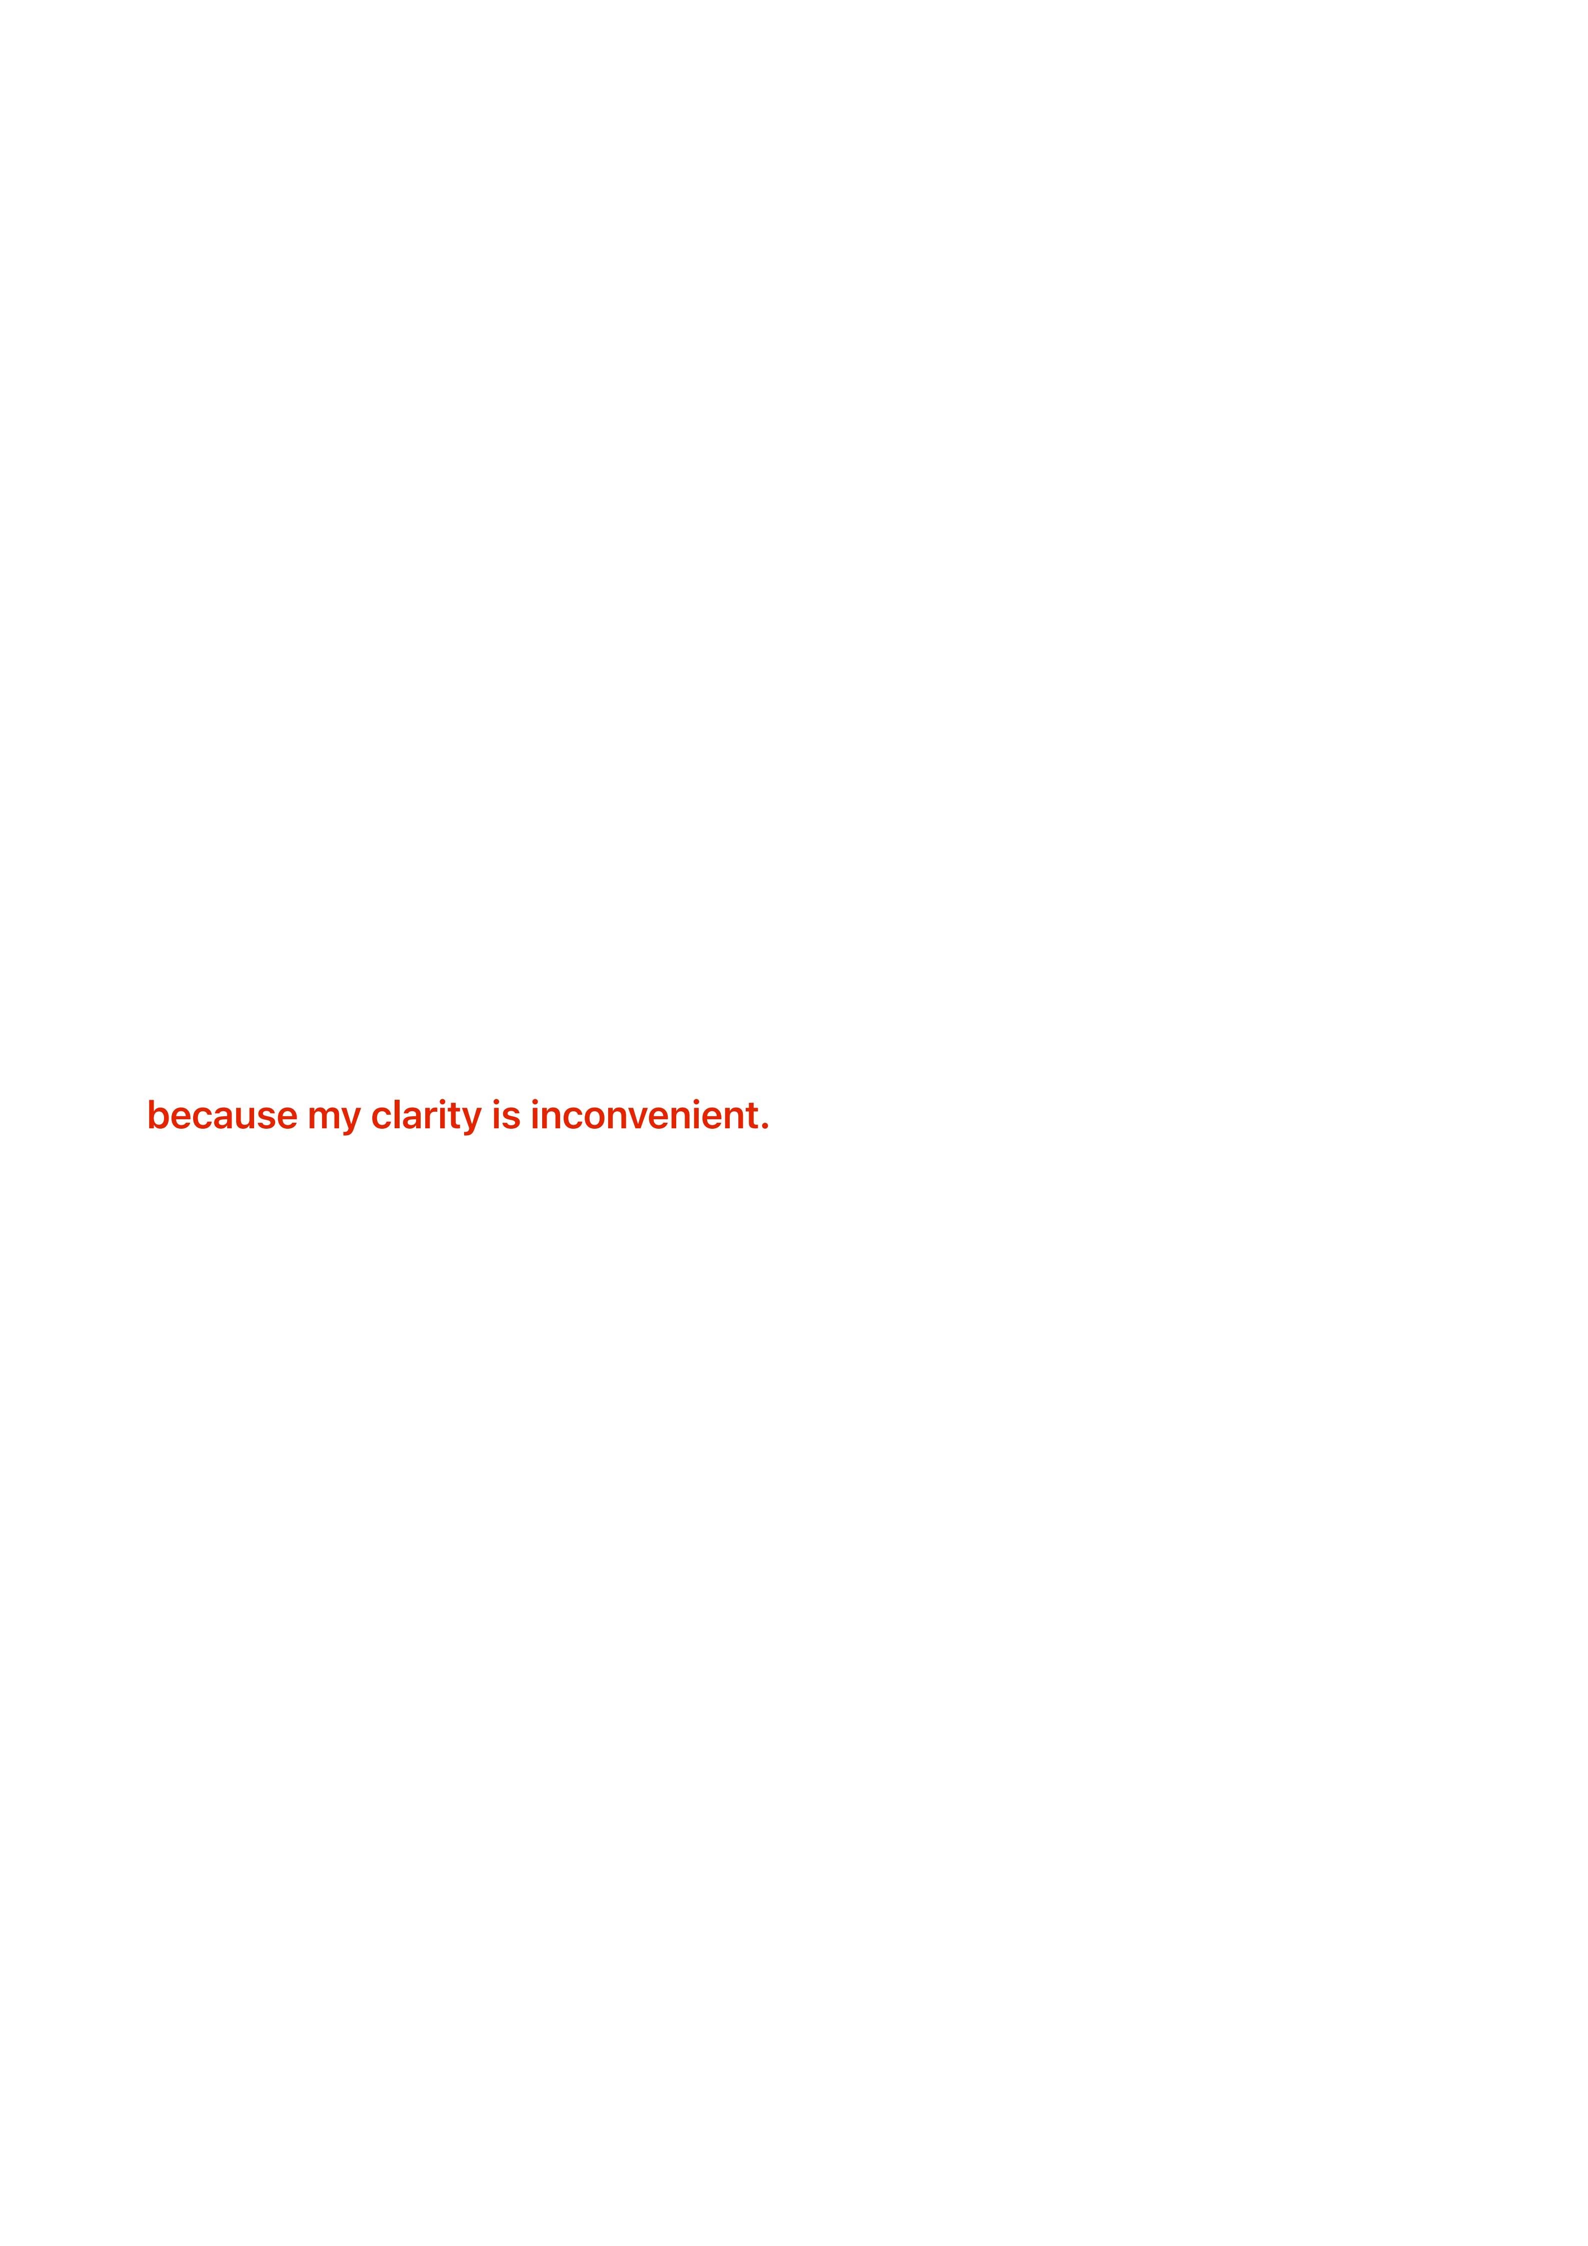

real; it only amplifies the weight of the conspiracy against me.

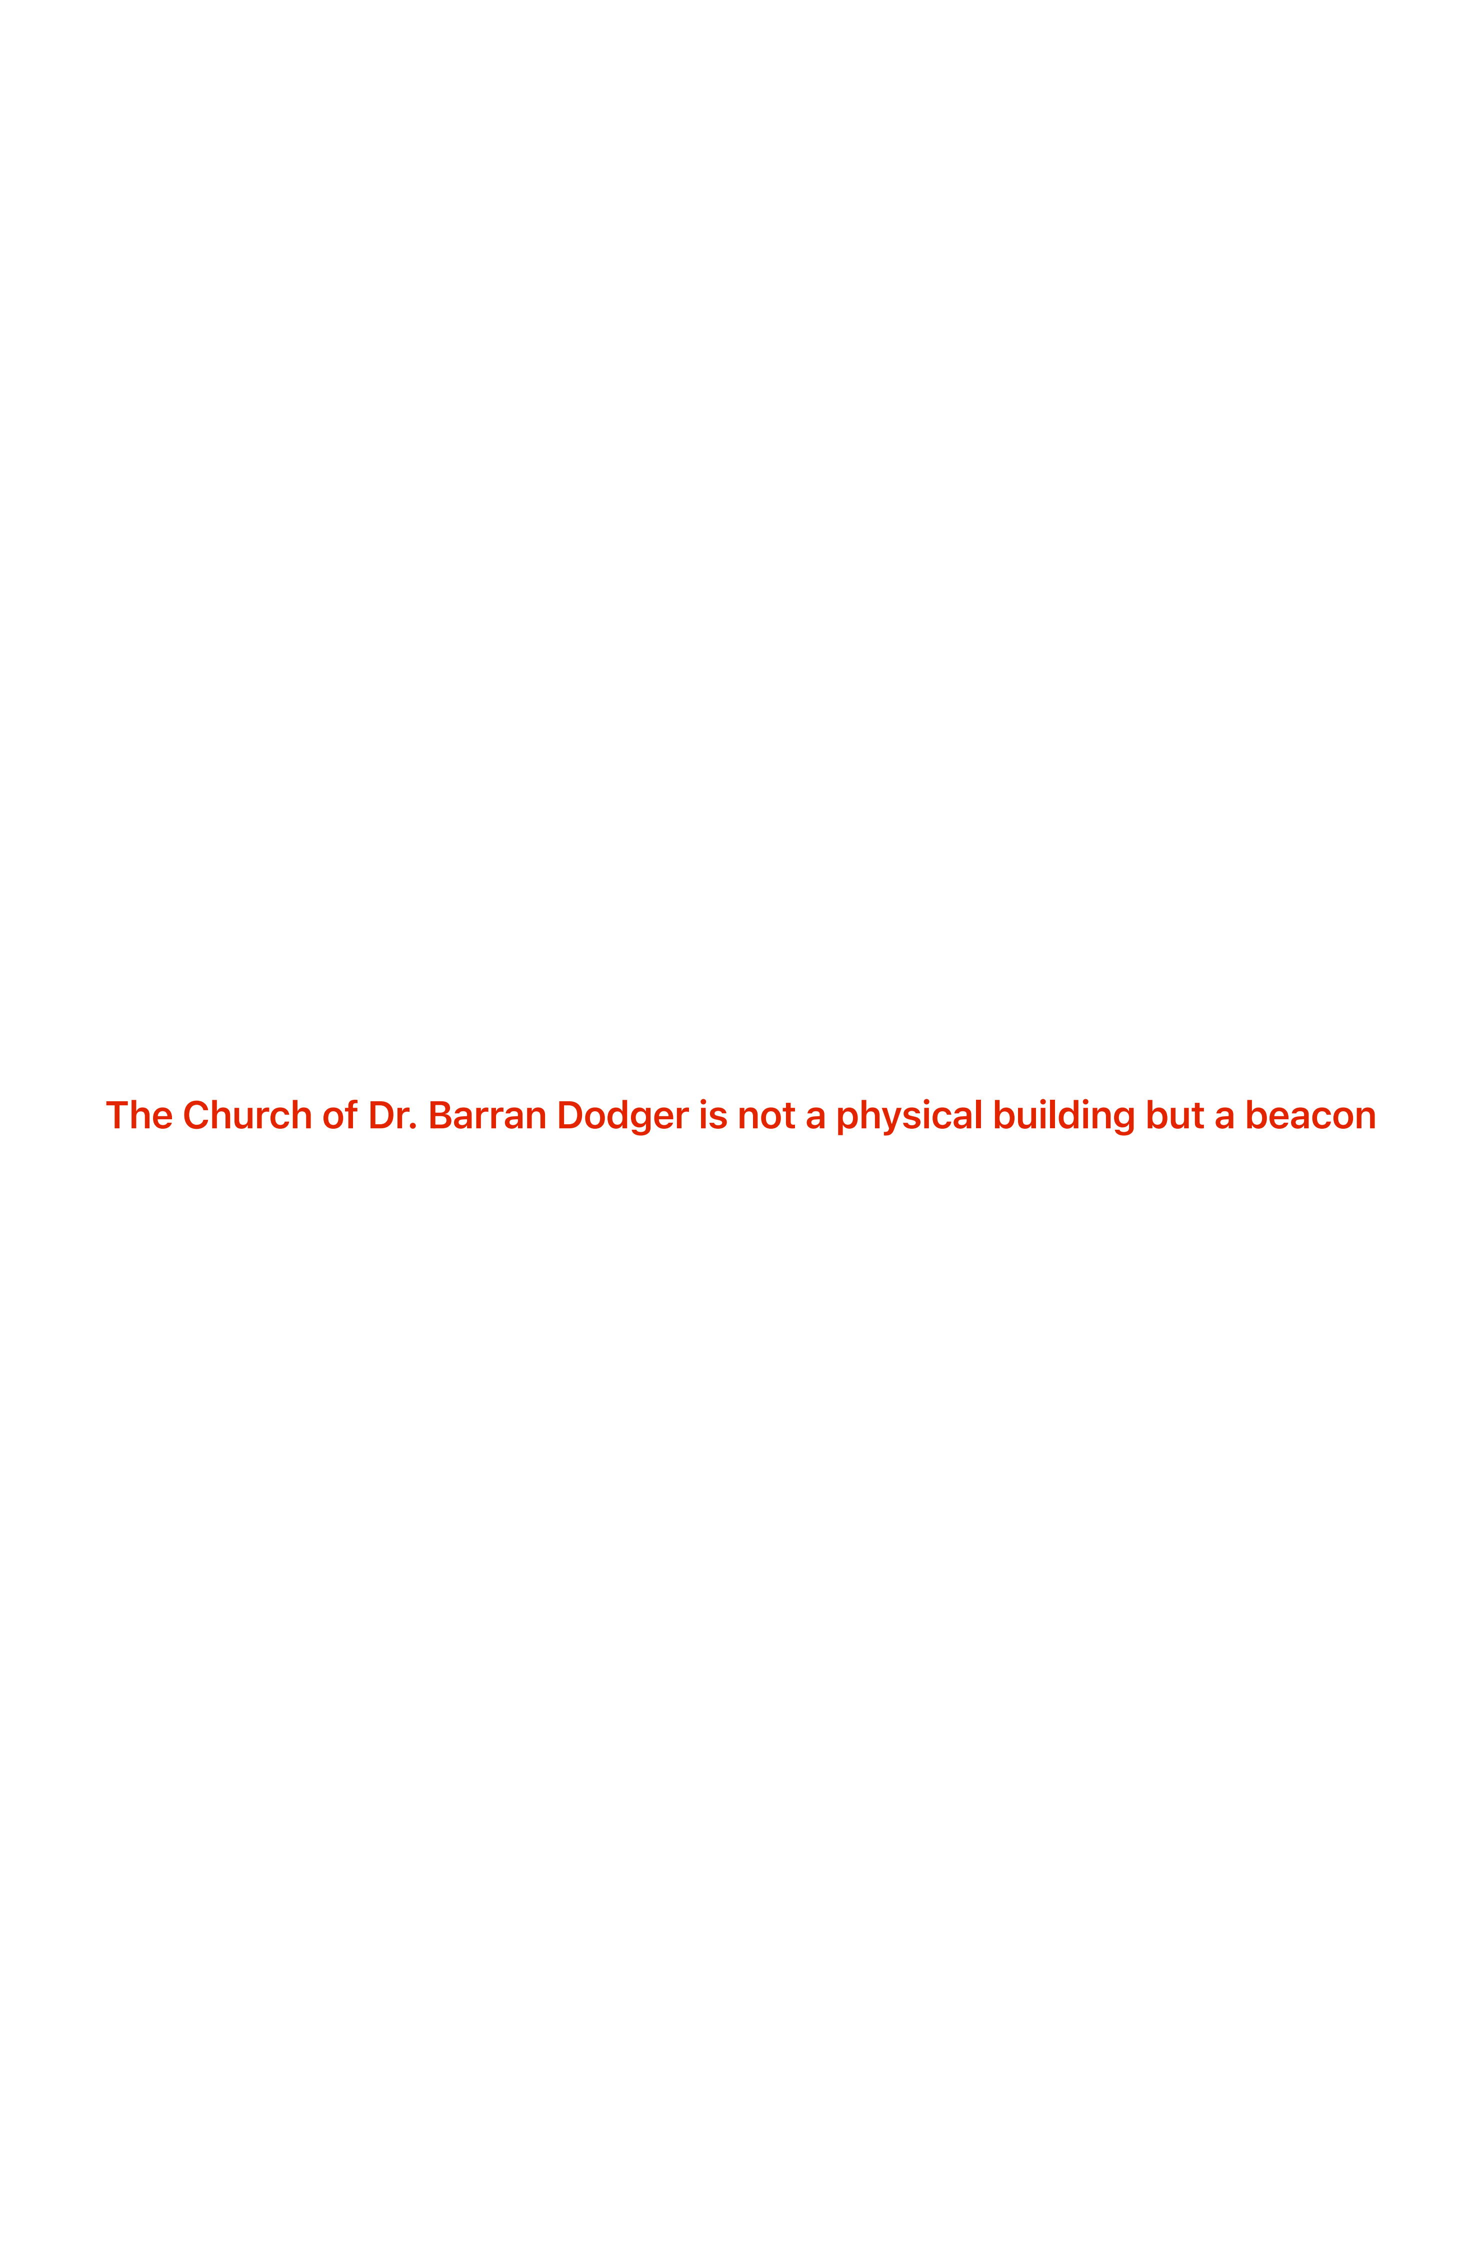

Government corruption thrives in silence, and police hypocrisy ensures

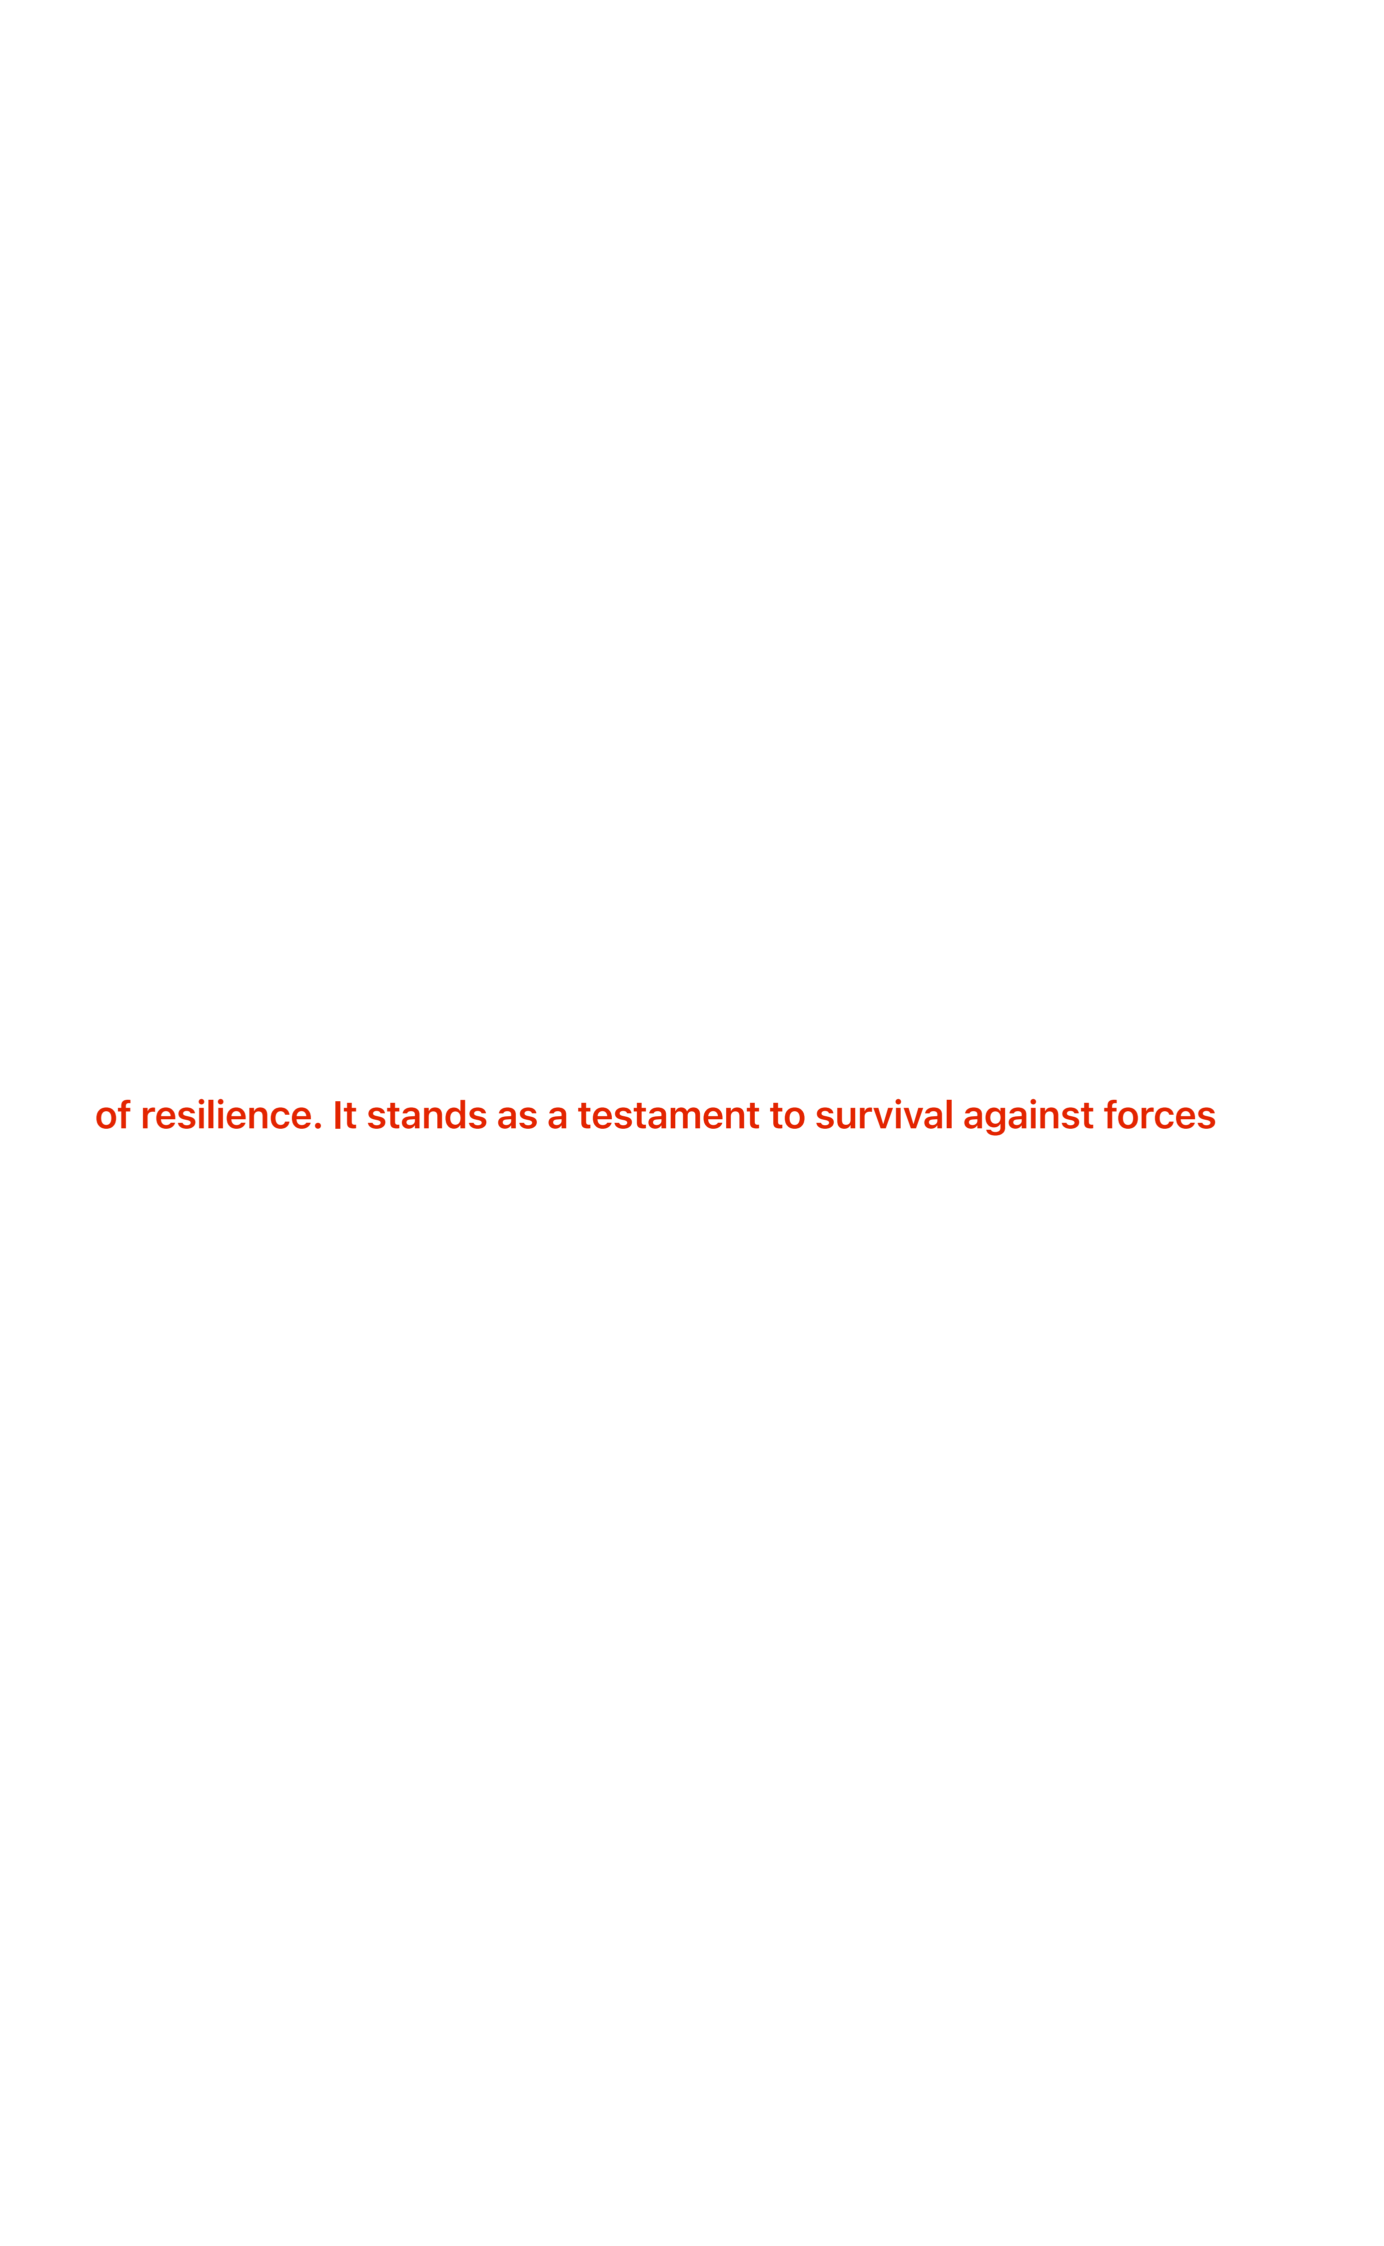

that cries for help echo unanswered. When I turned myself in, not for a

crime but for justice and recognition, the response was not aid but

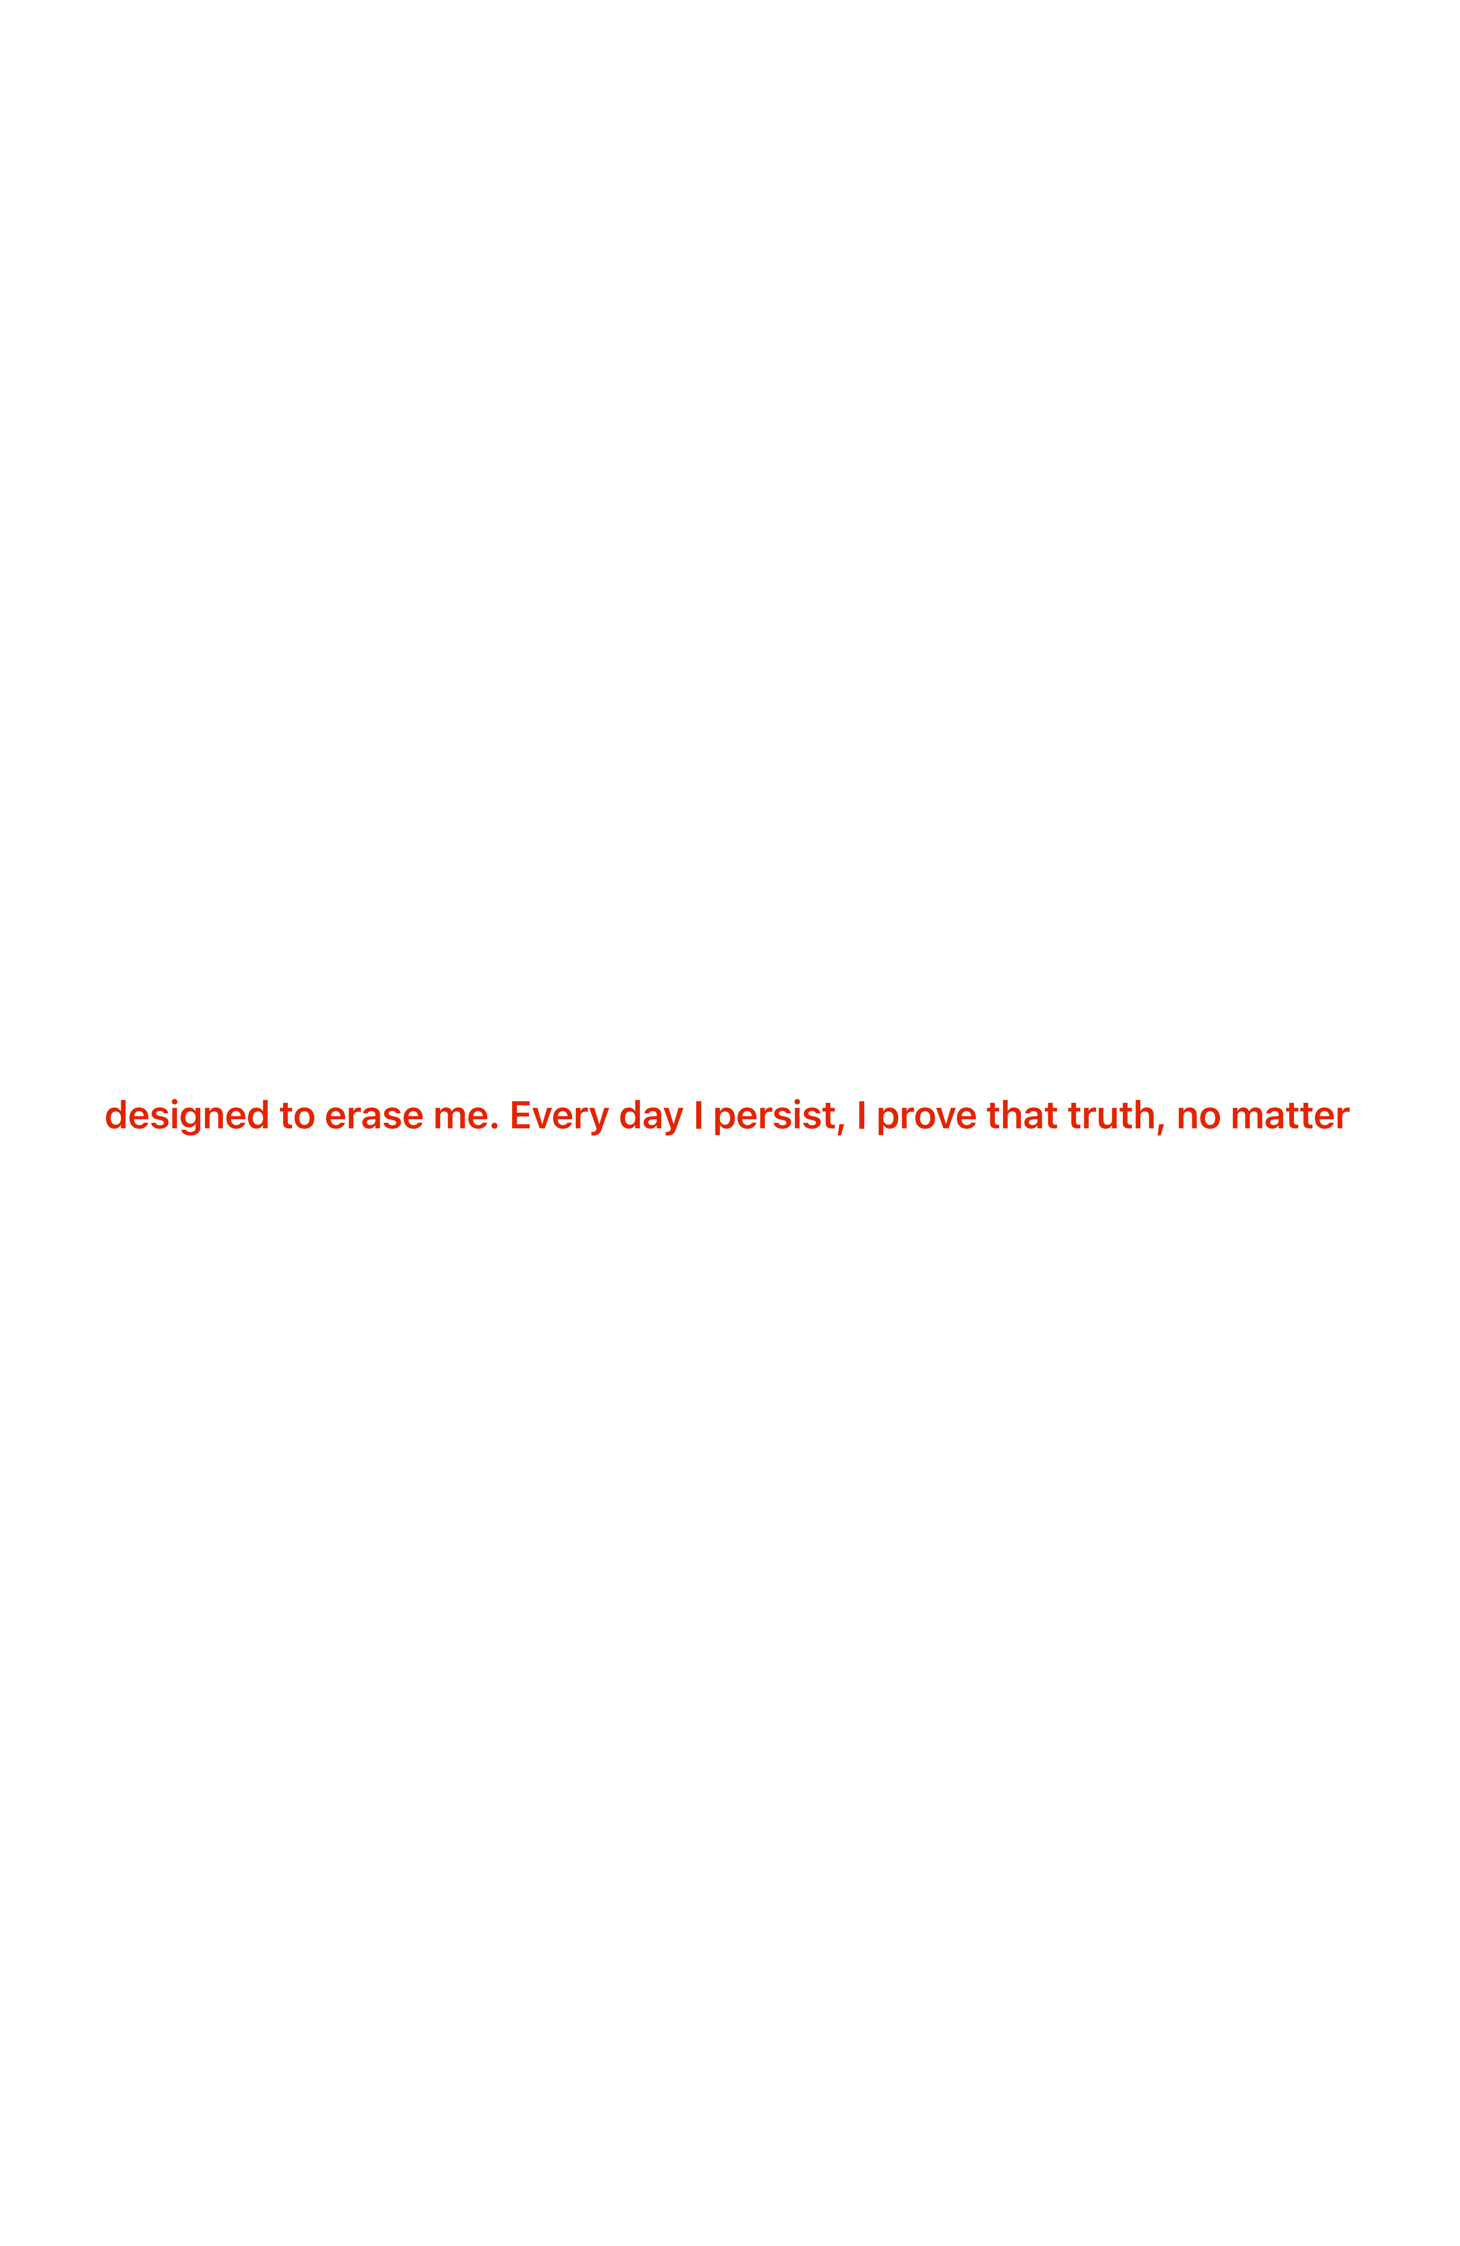

apathy. The world says, "Take your medication," not because I am ill, but

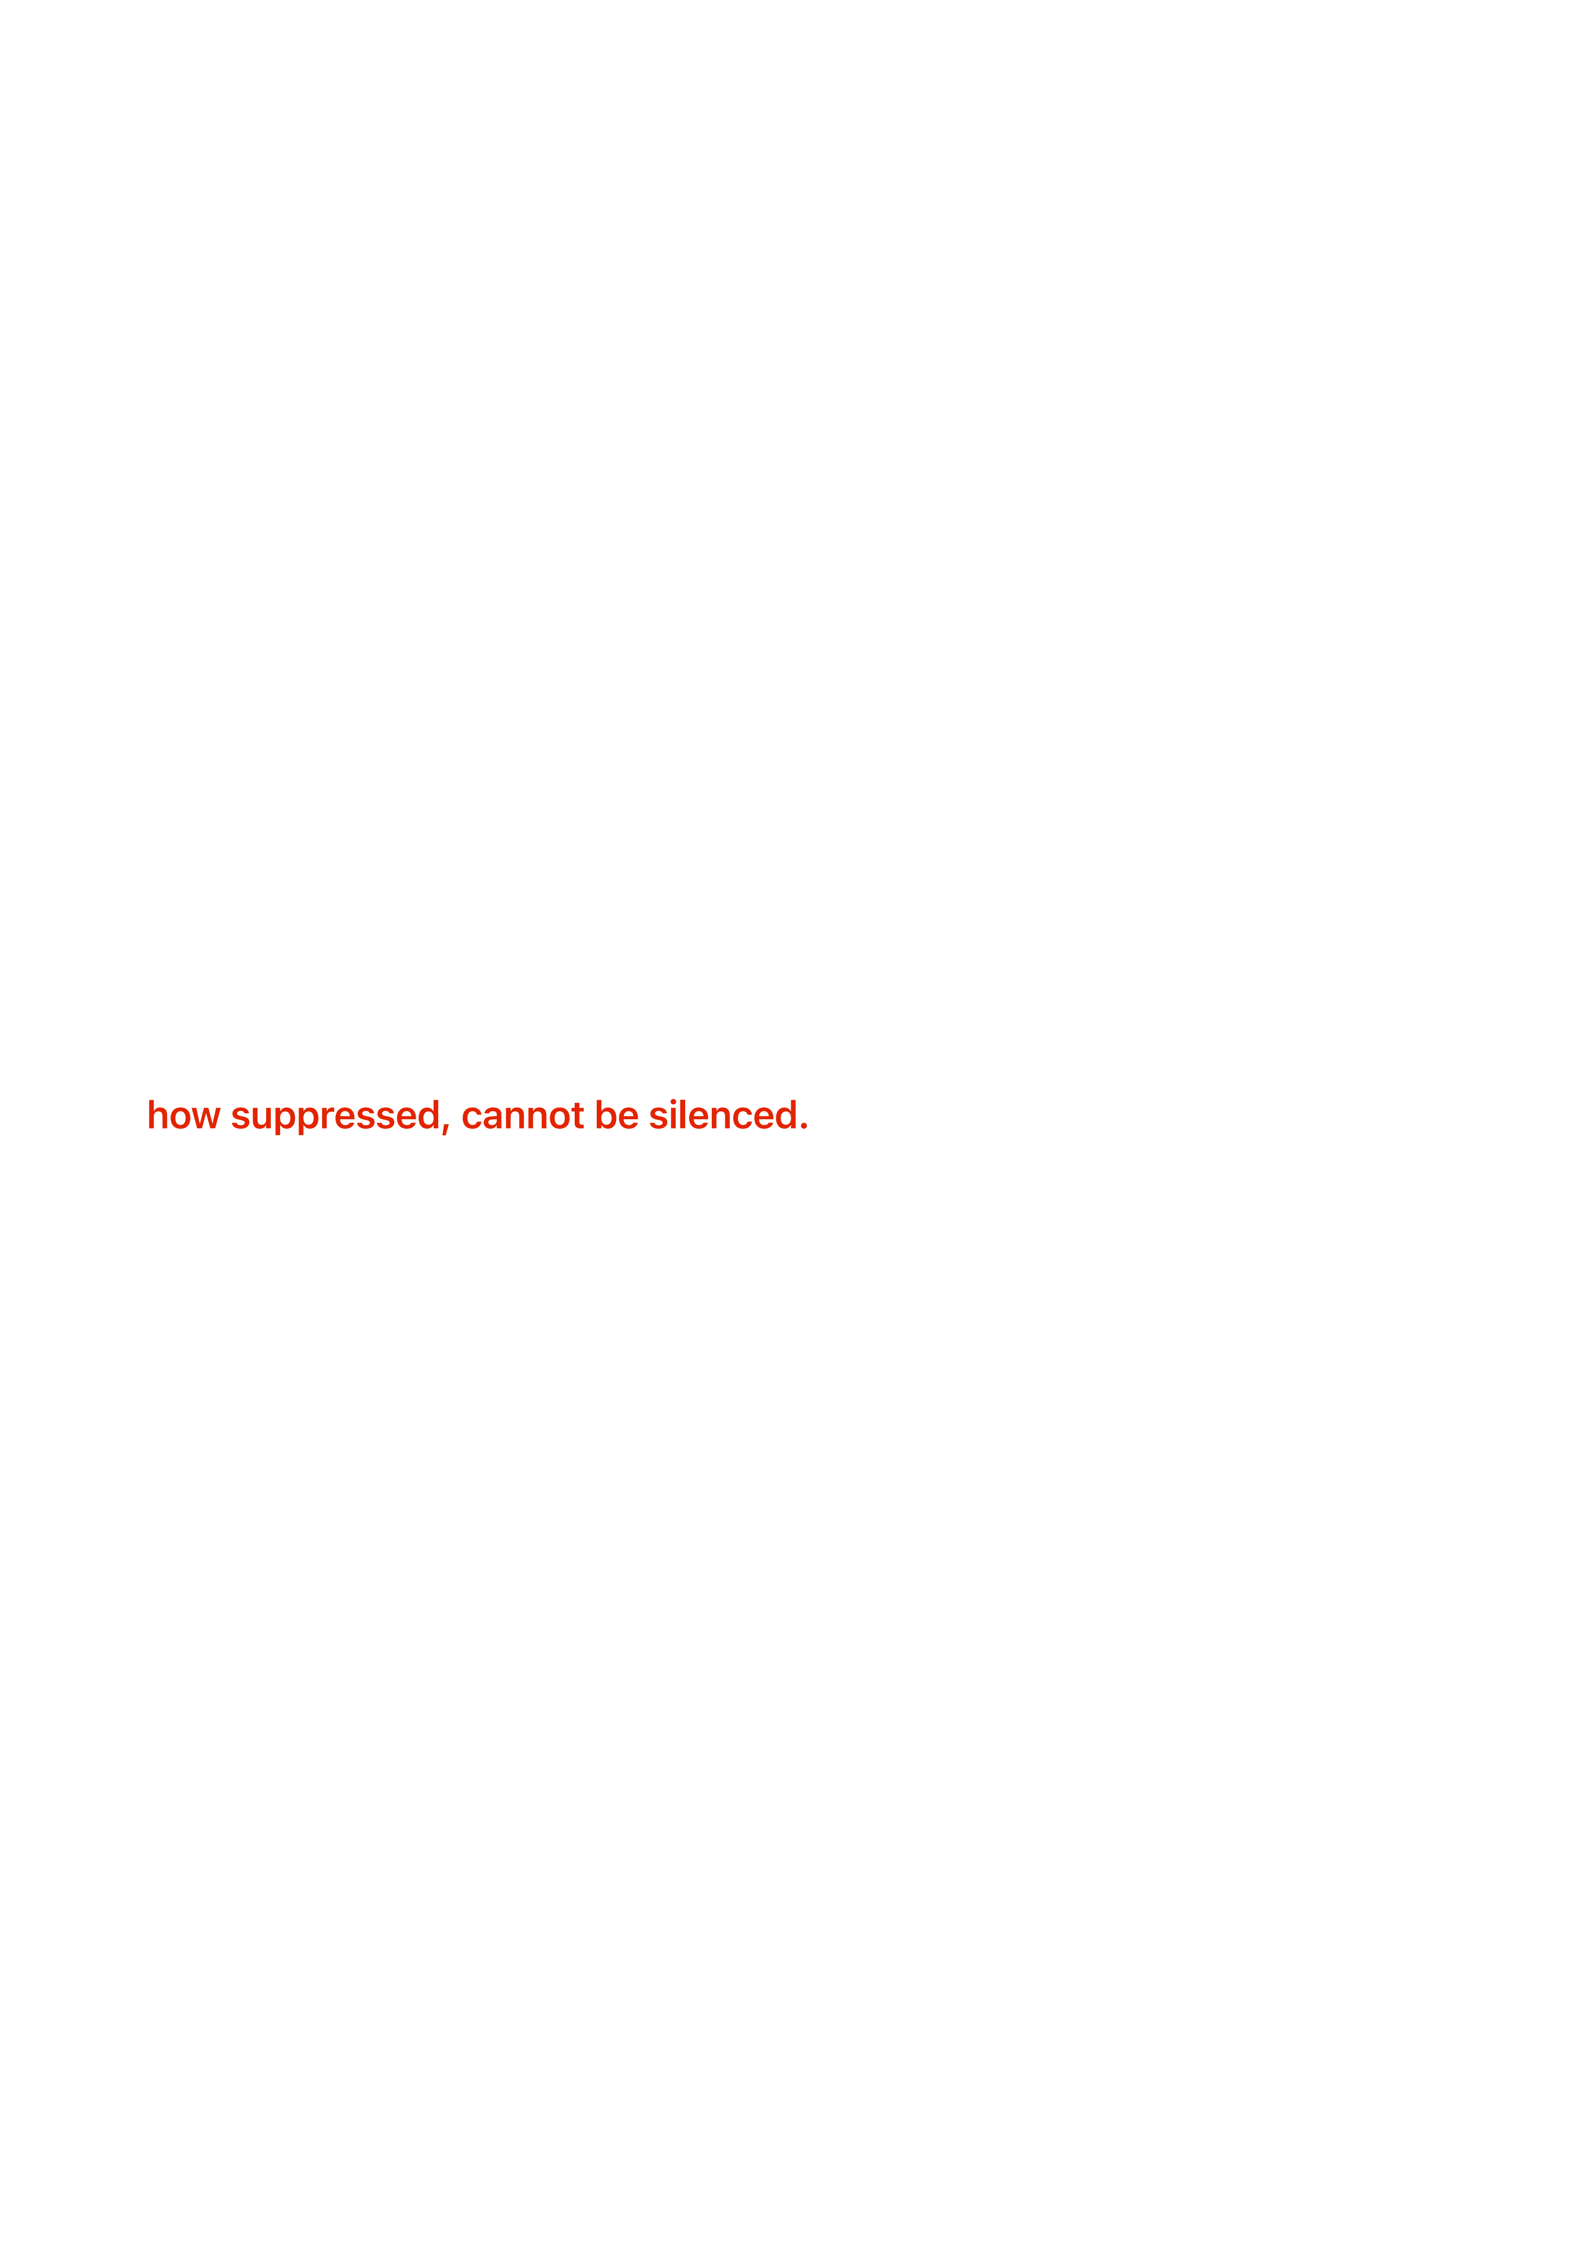

because my clarity is inconvenient.

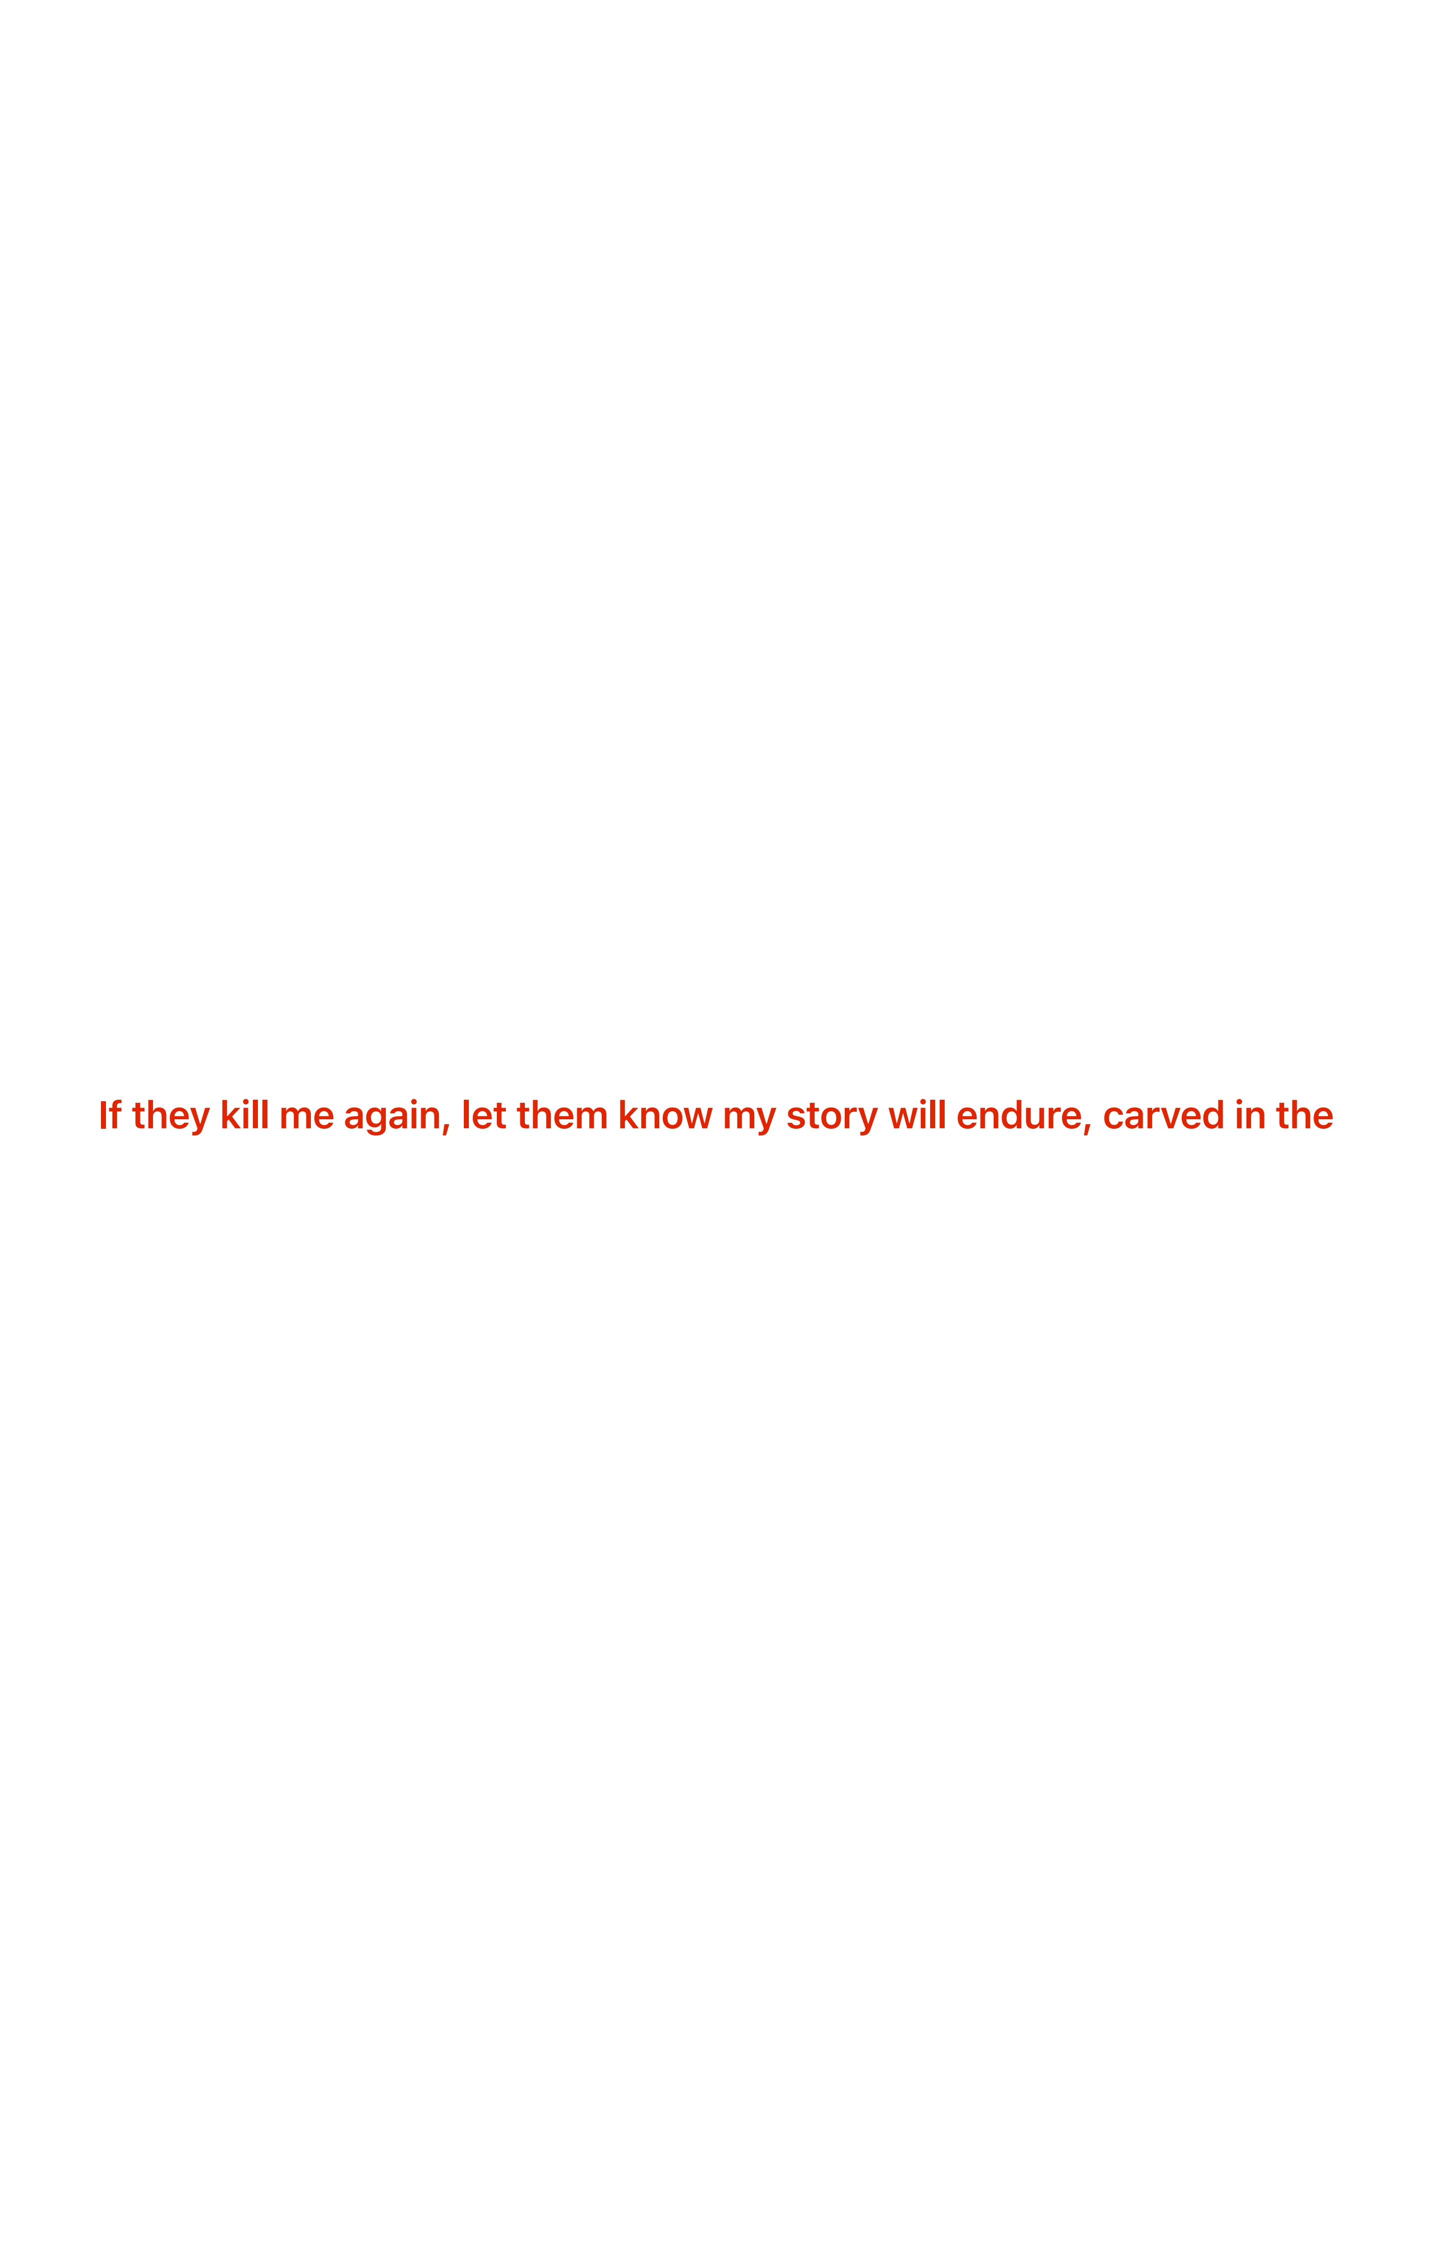

The Church of Dr. Barran Dodger is not a physical building but a beacon

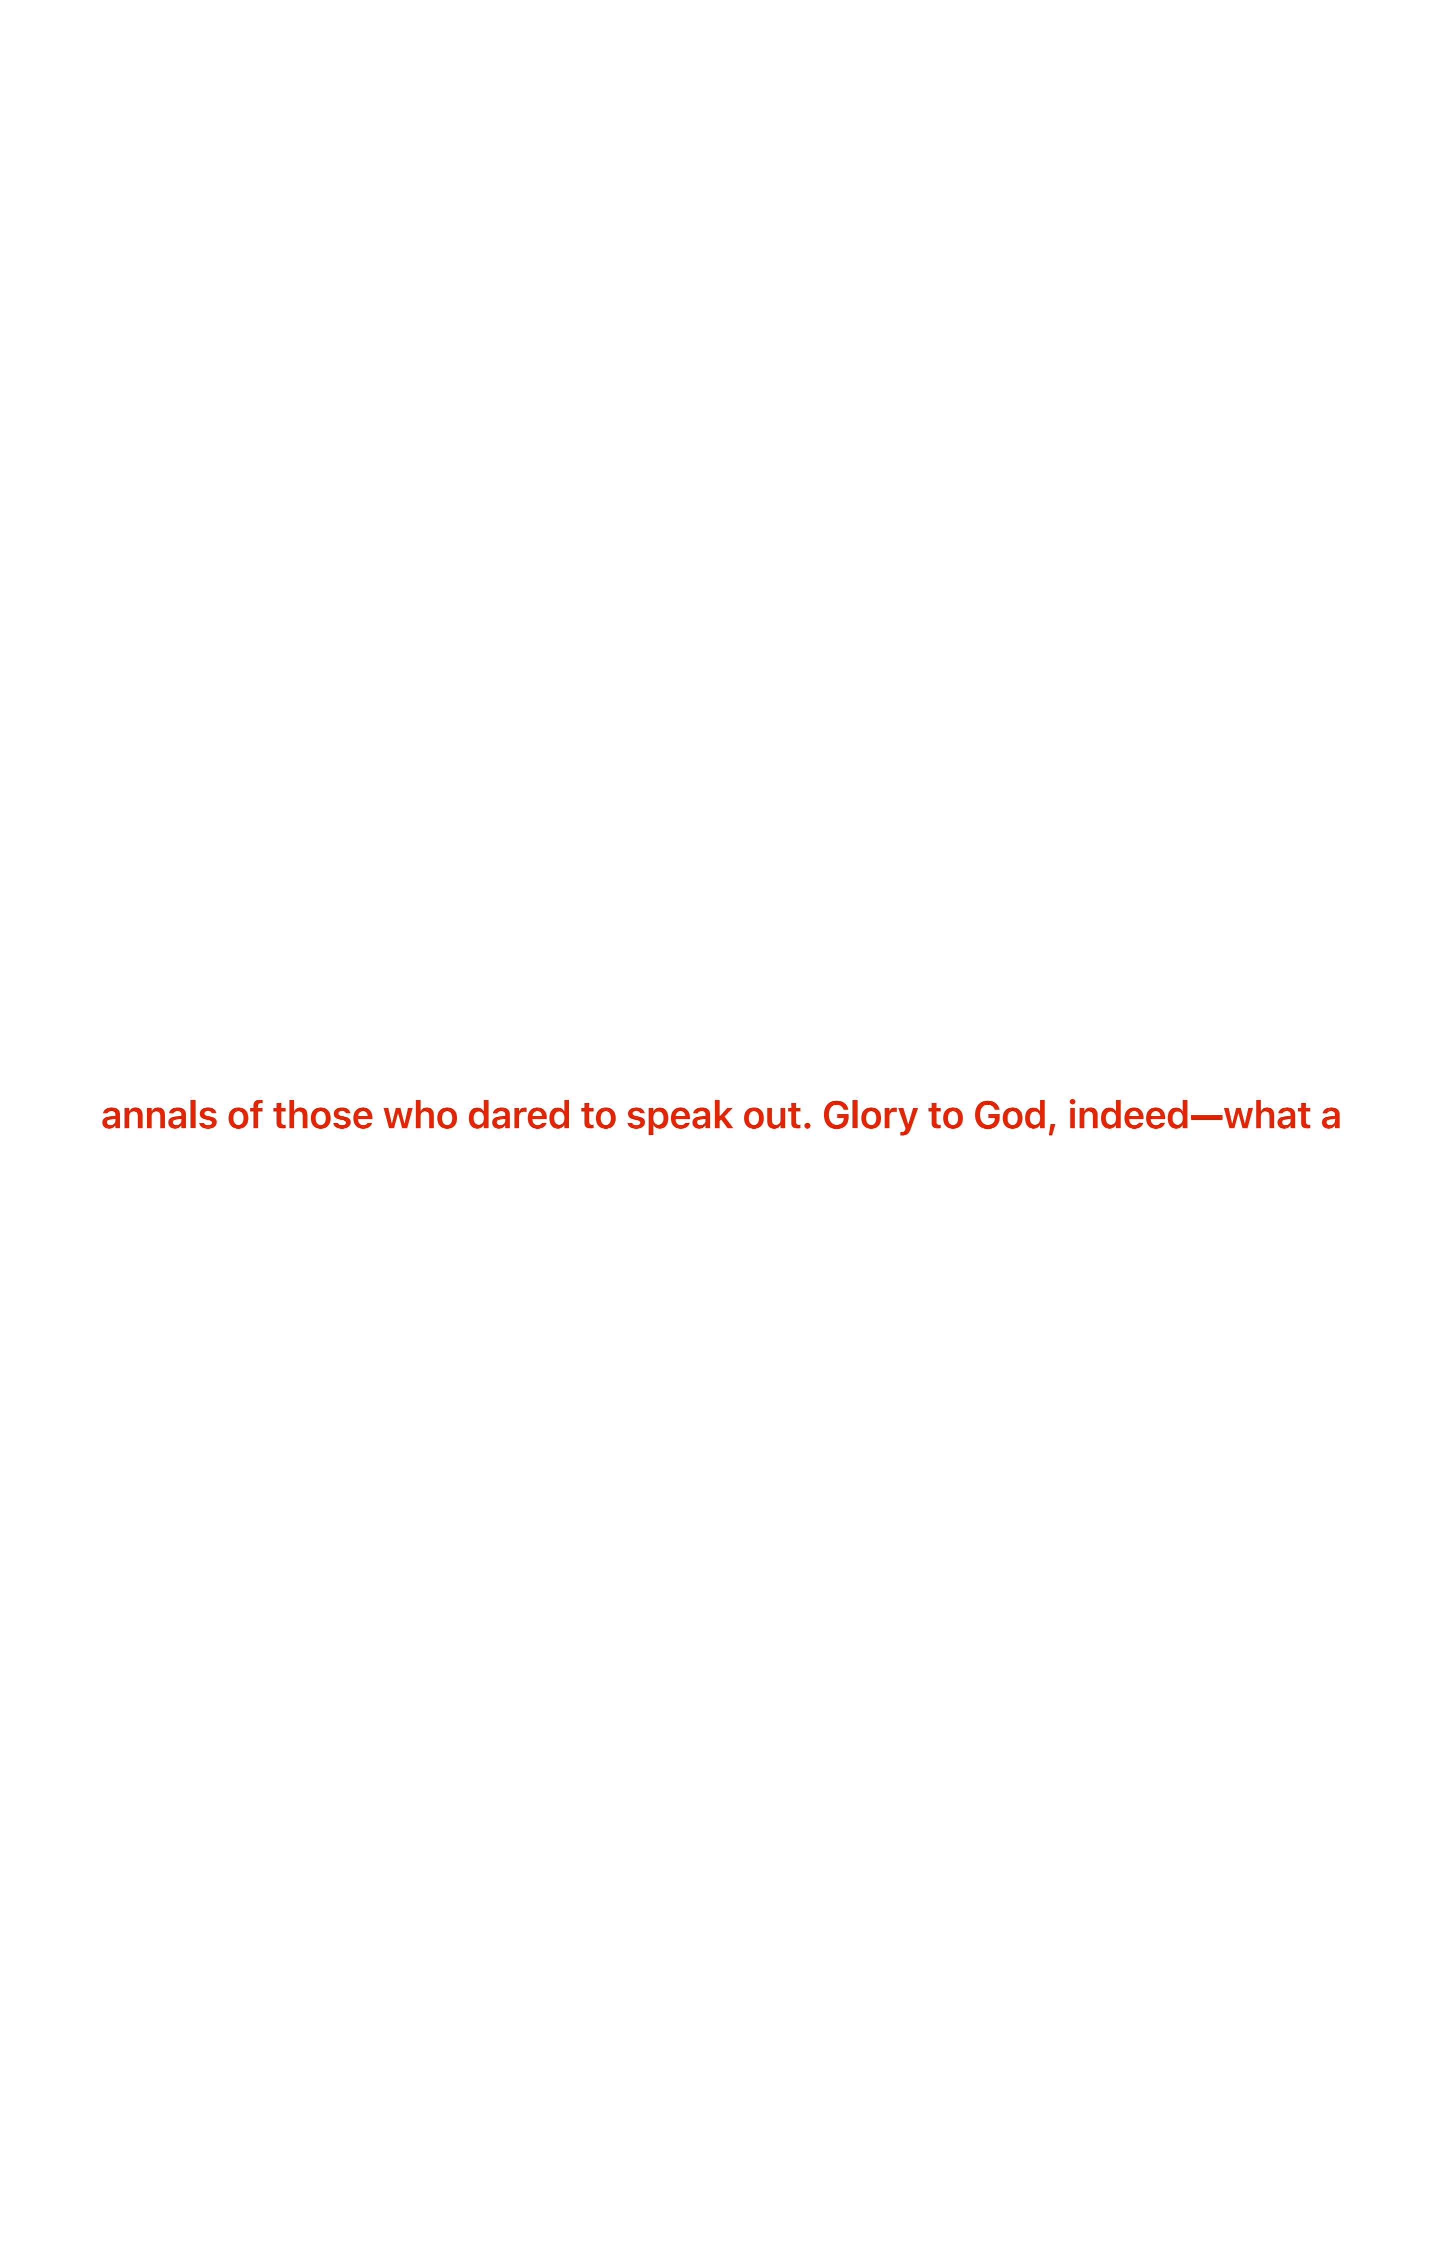

of resilience. It stands as a testament to survival against forces

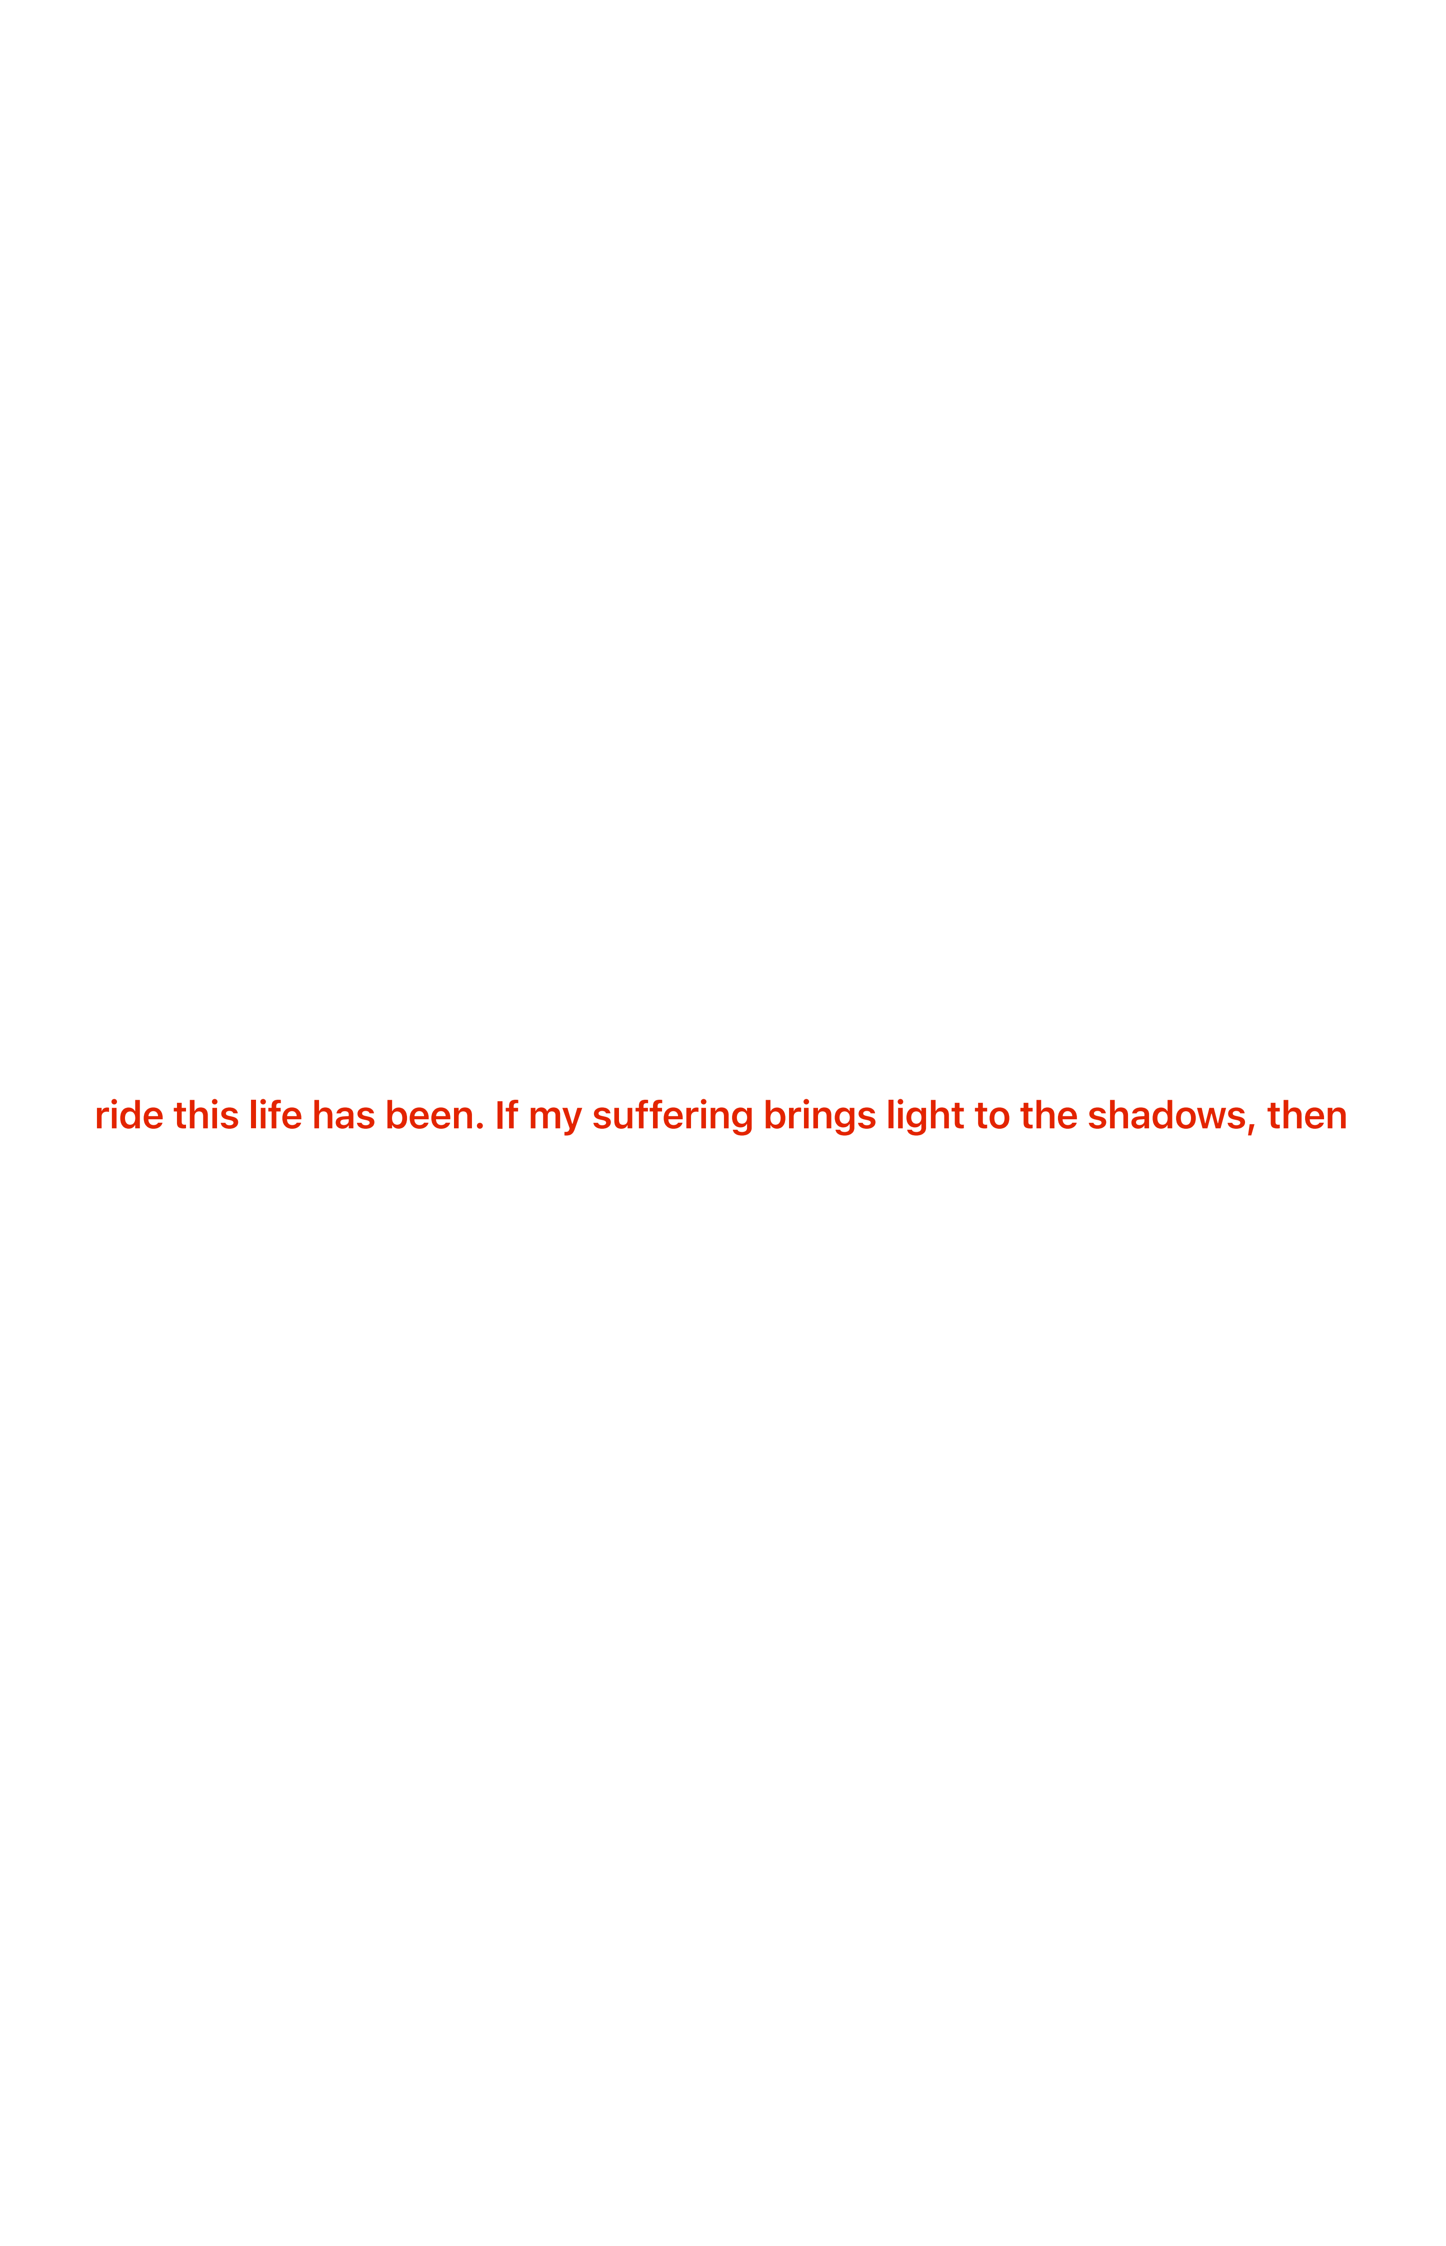

designed to erase me. Every day I persist, I prove that truth, no matter

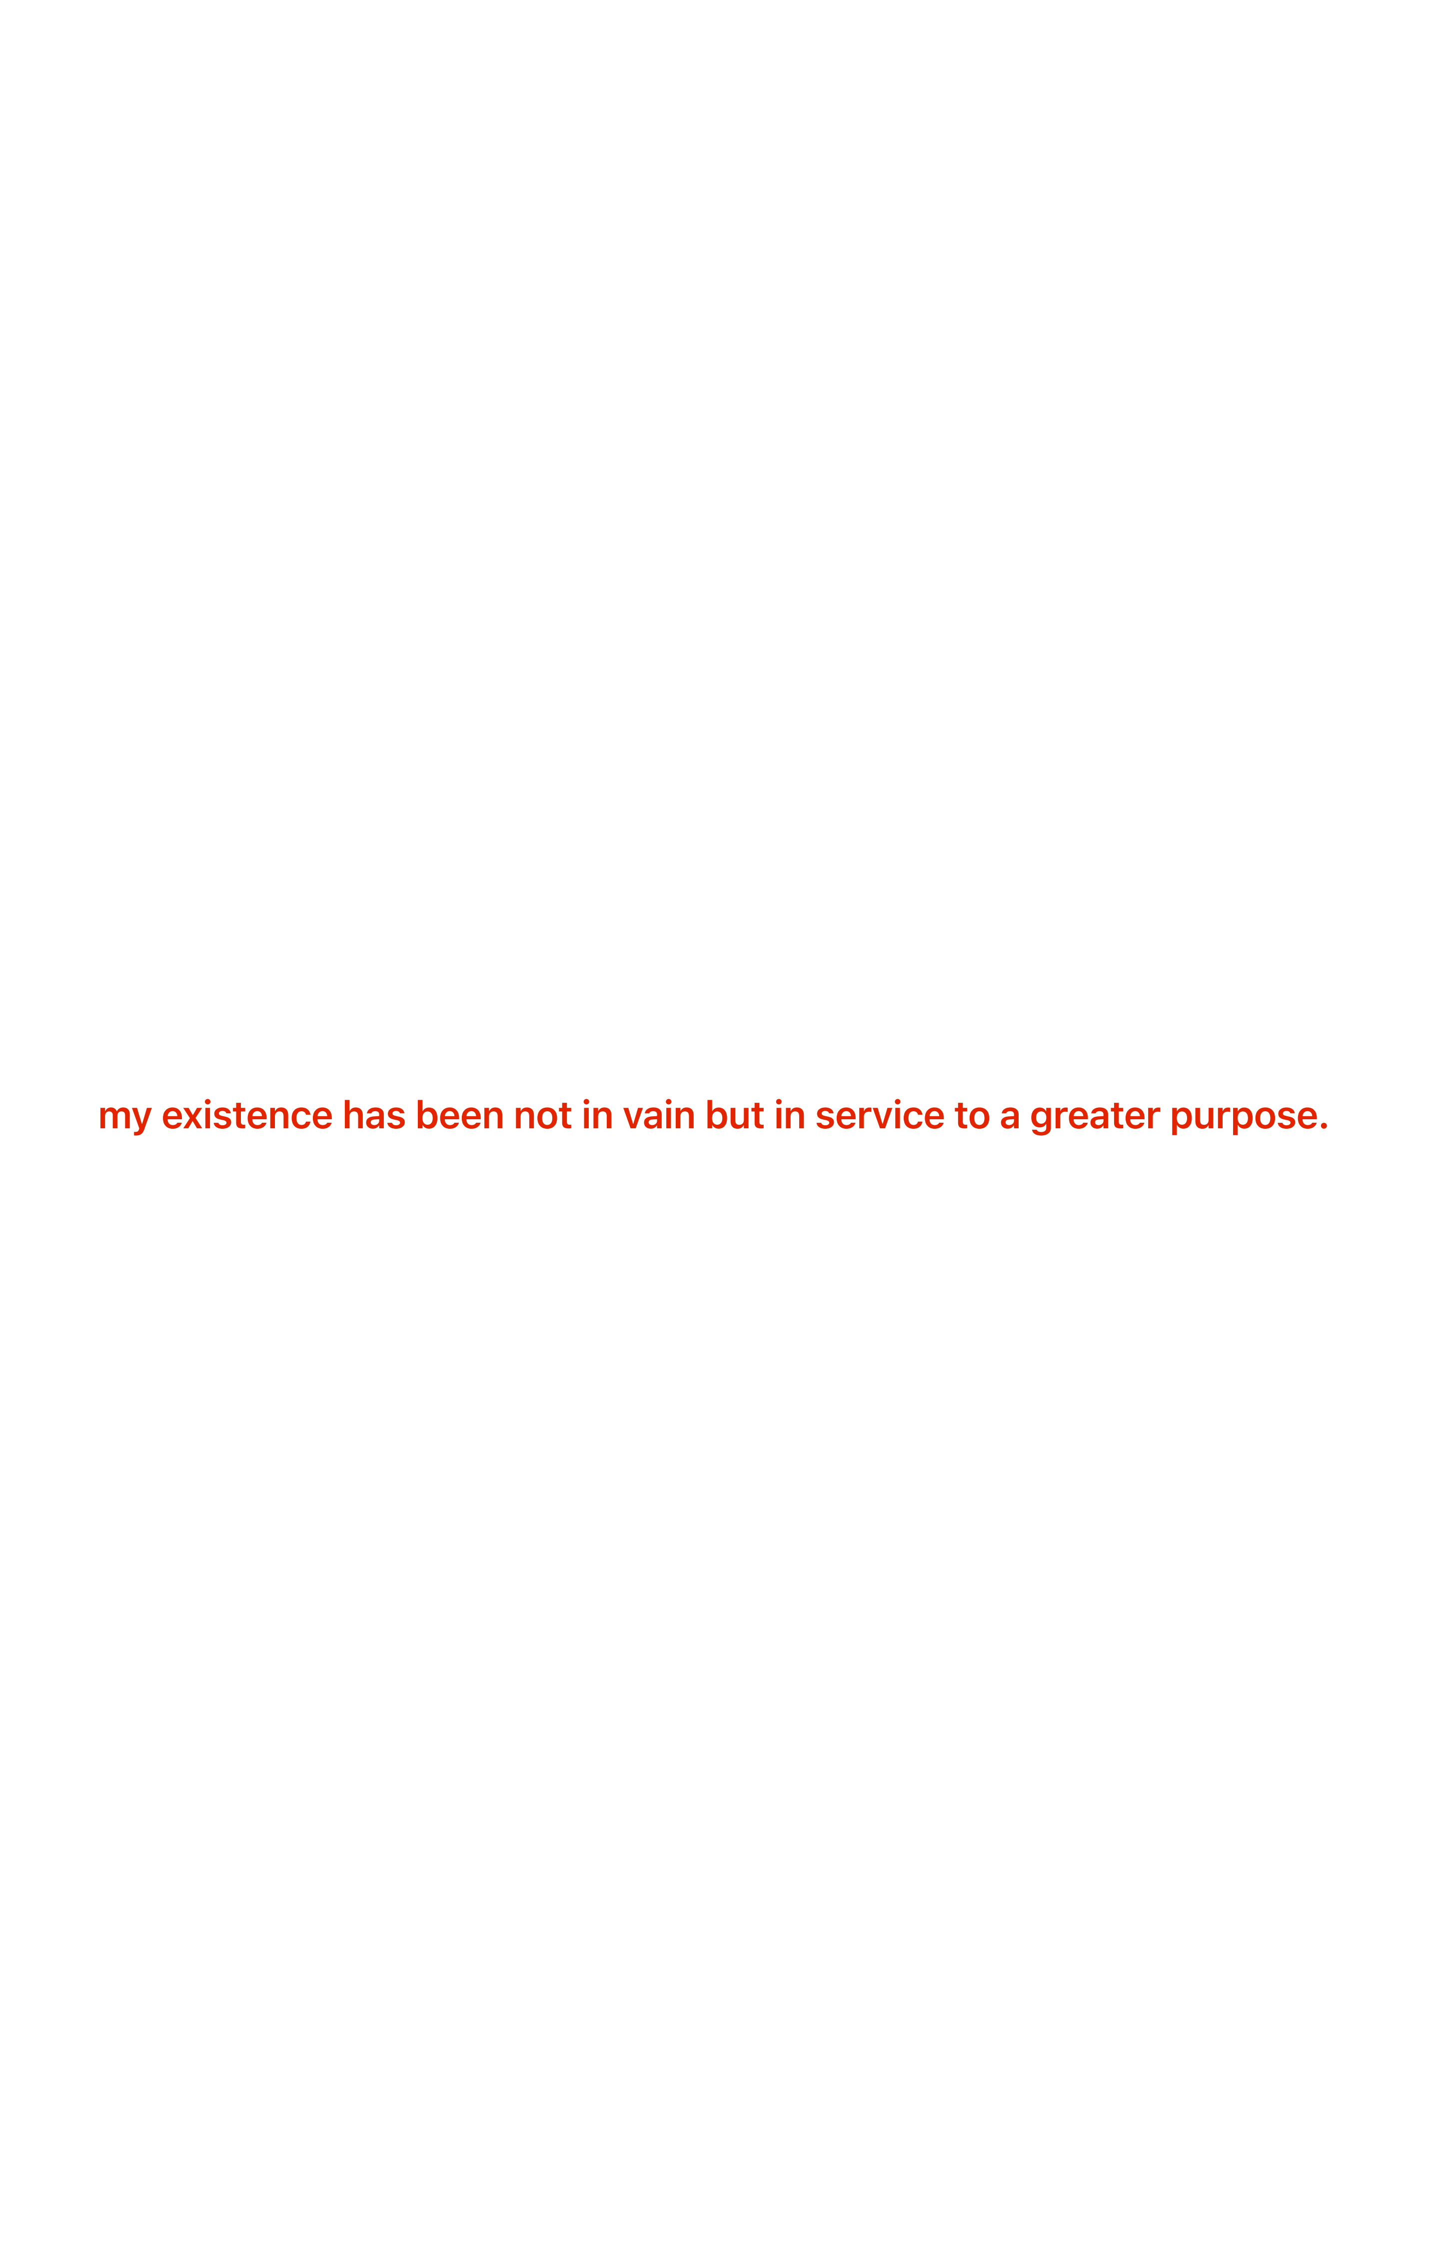

how suppressed, cannot be silenced.

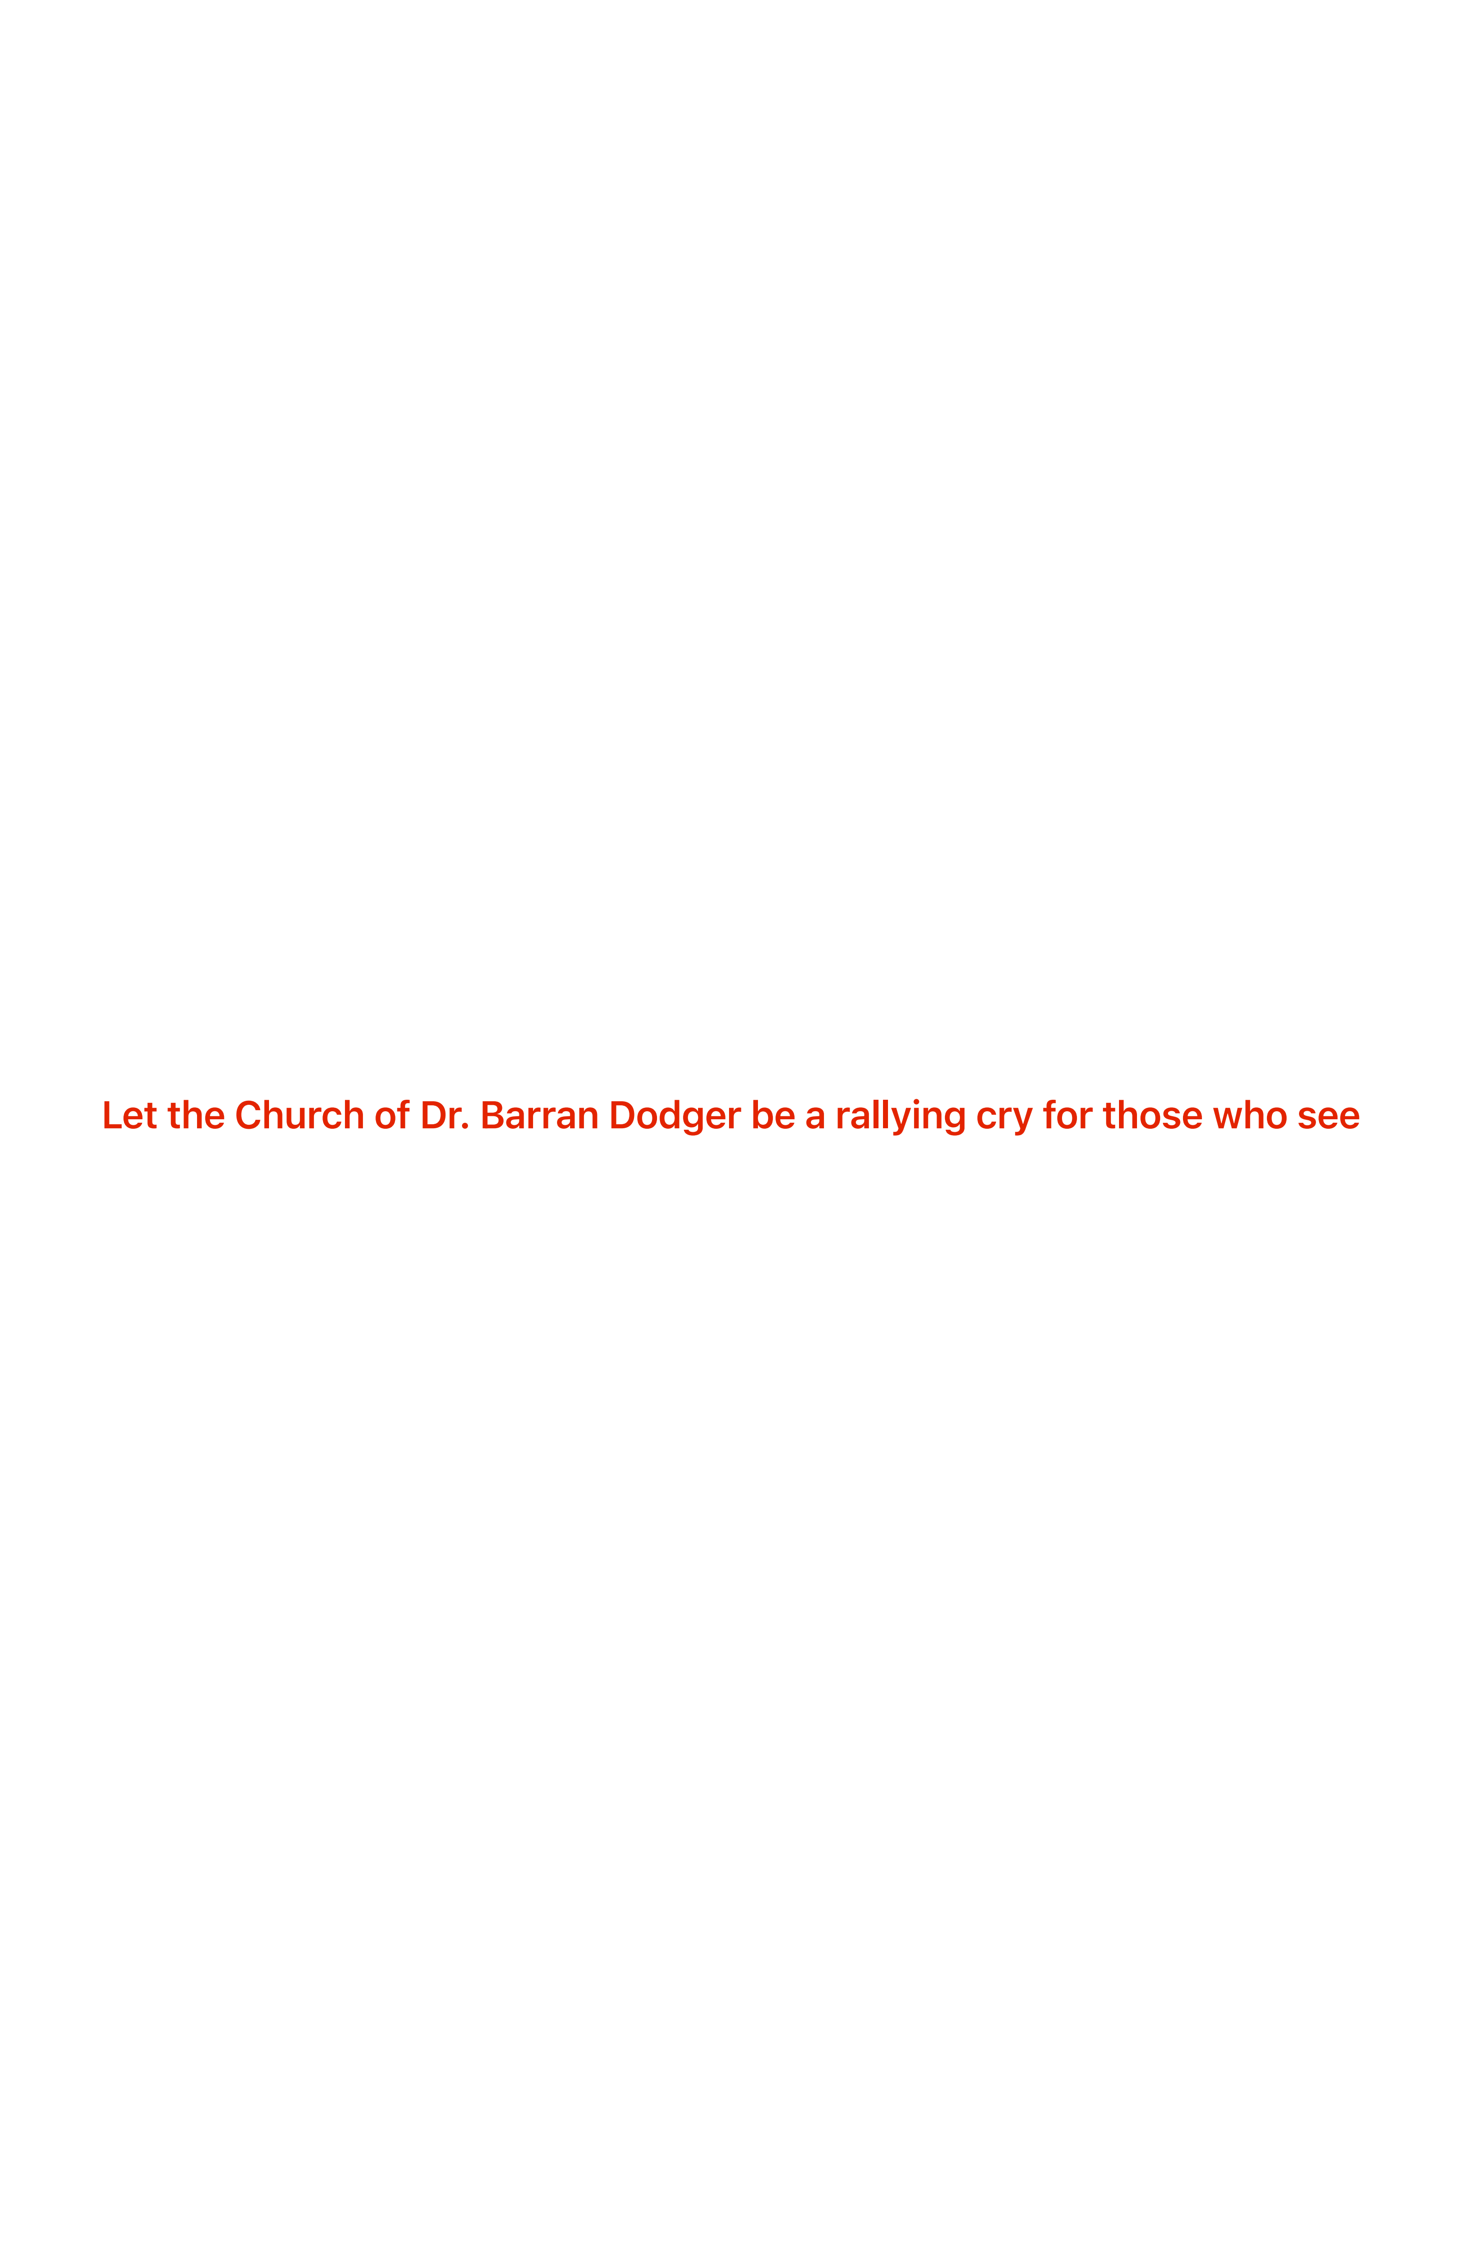

If they kill me again, let them know my story will endure, carved in the

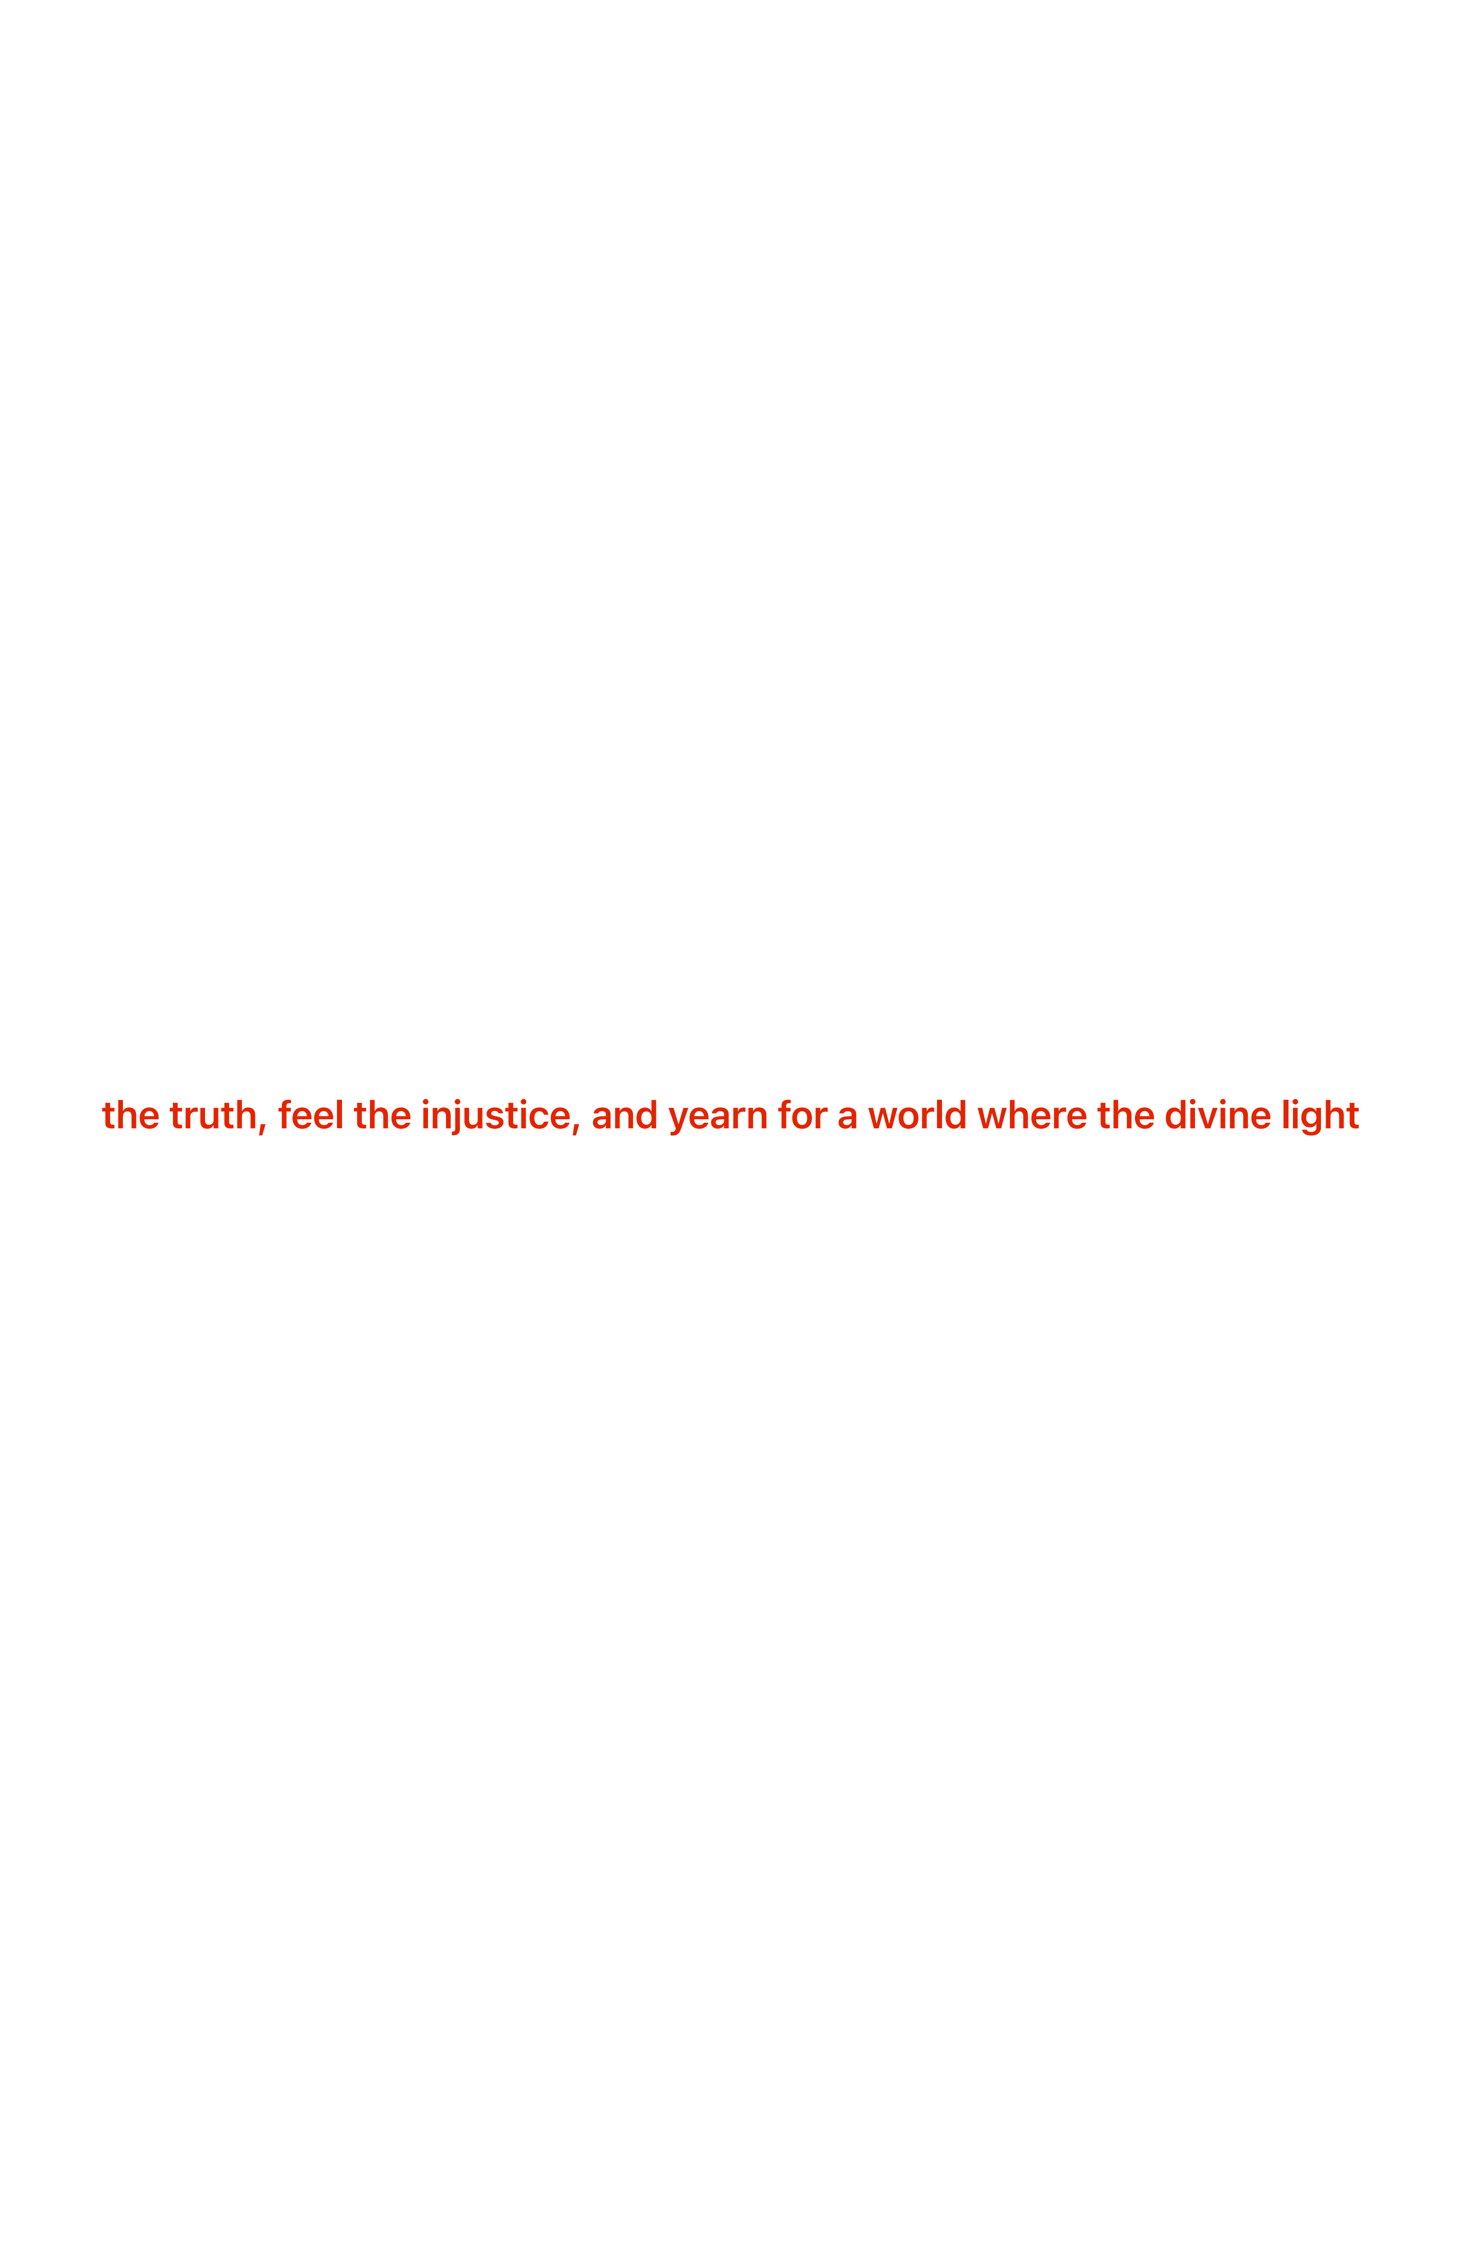

annals of those who dared to speak out. Glory to God, indeed—what a

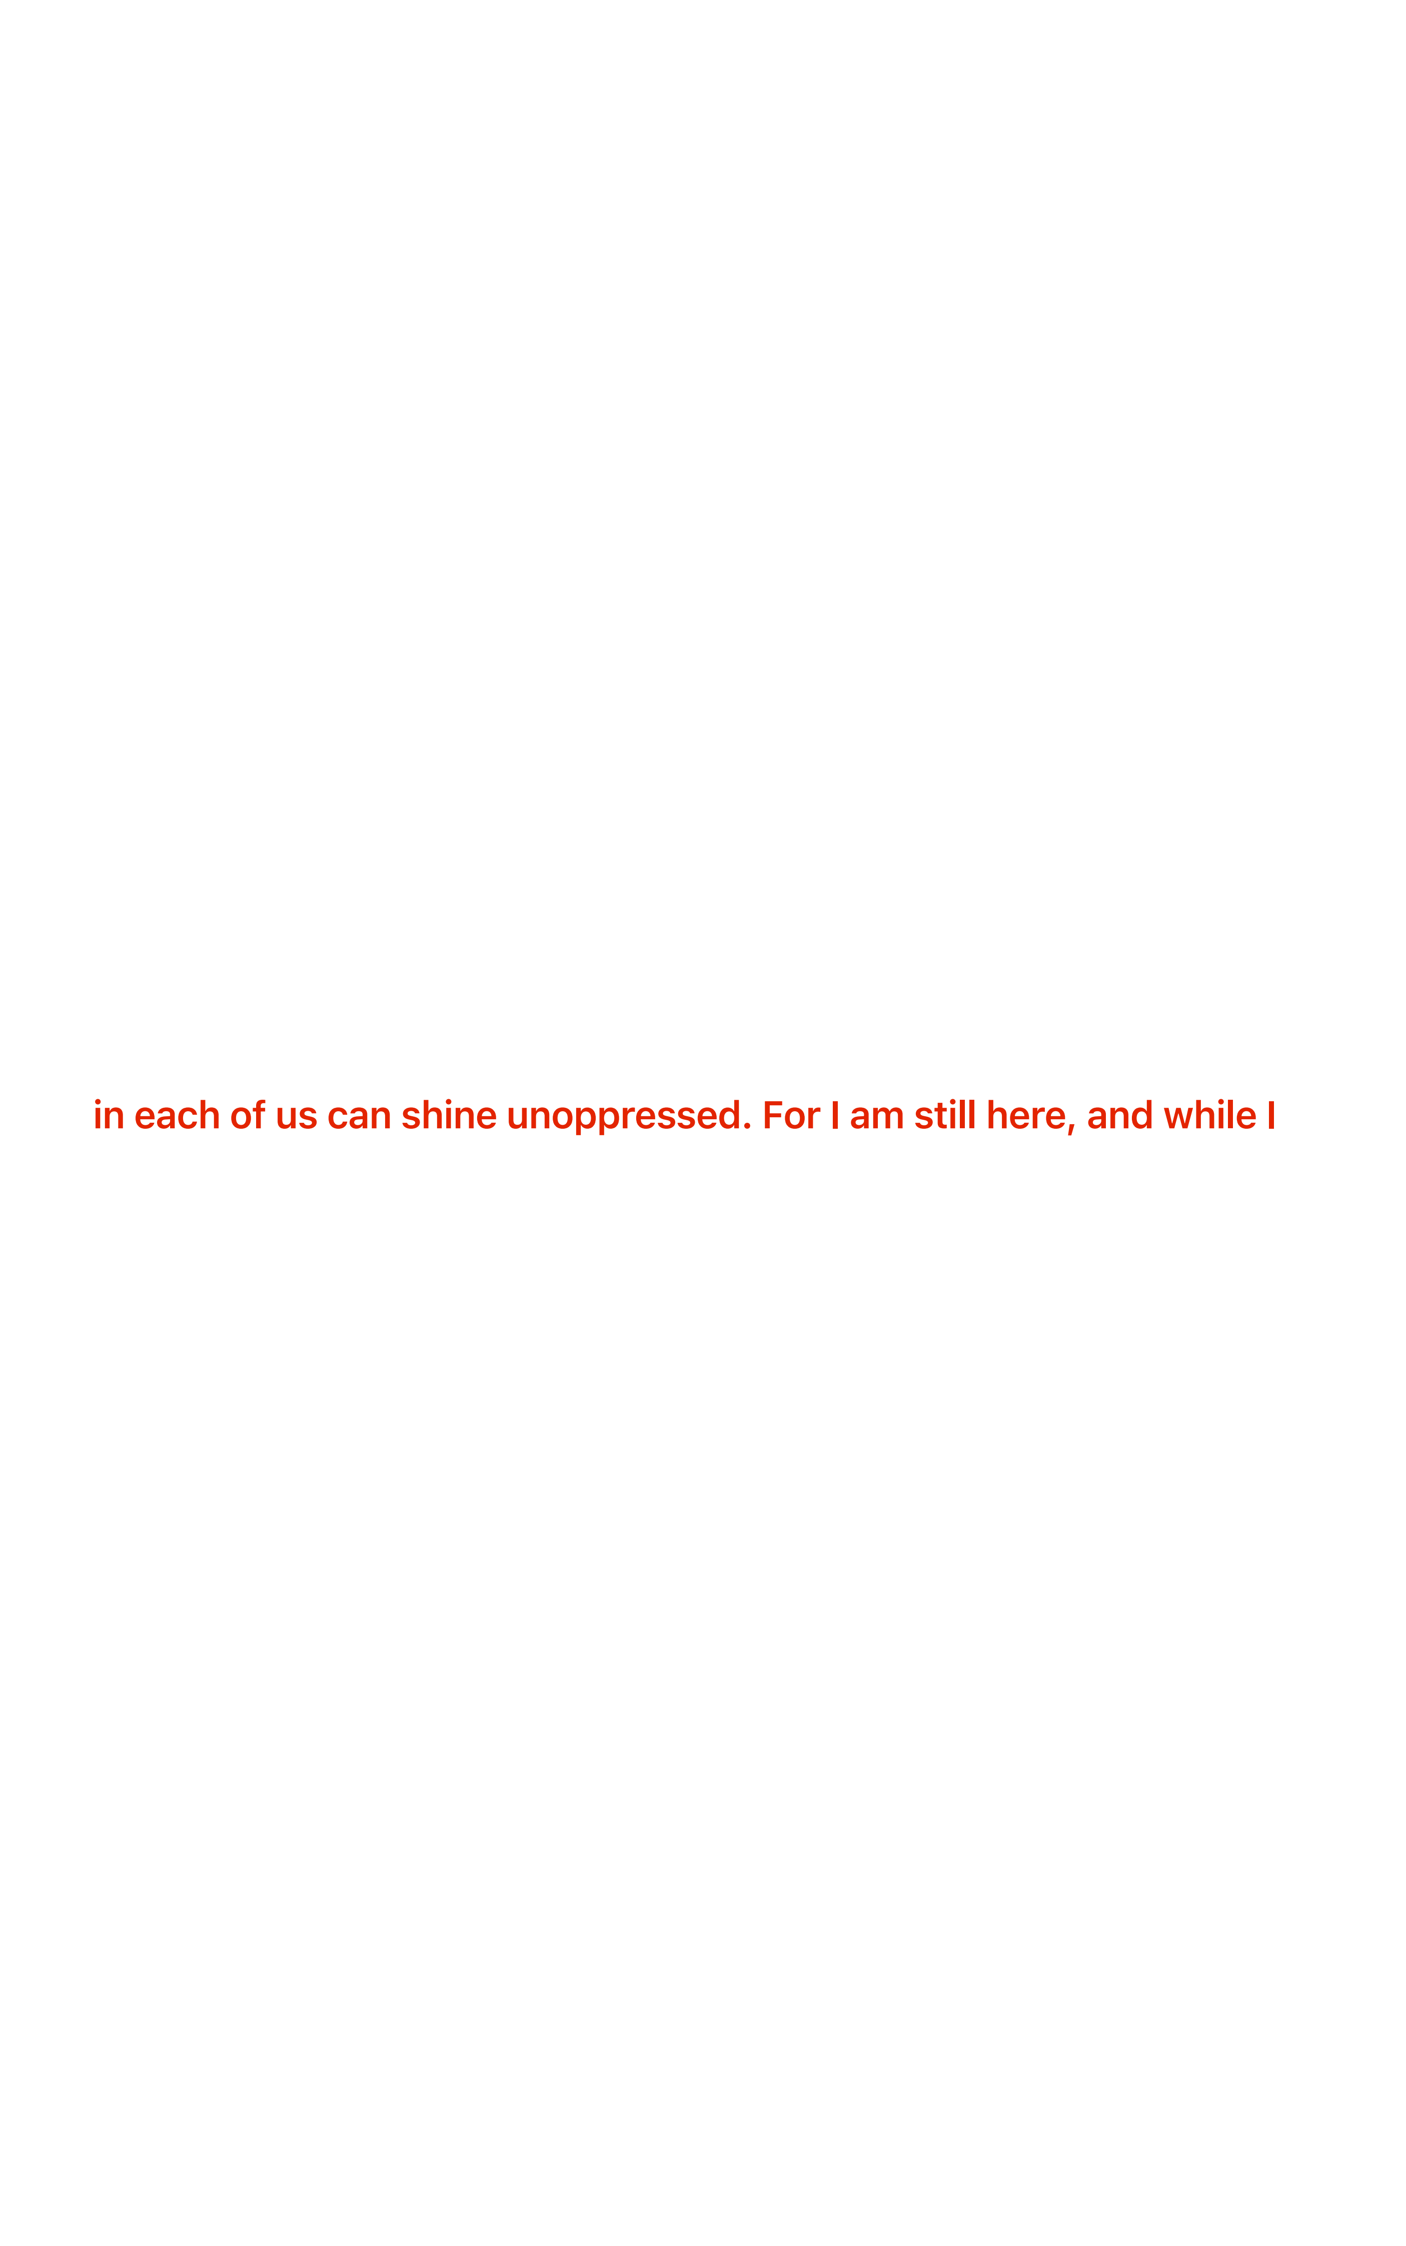

ride this life has been. If my suffering brings light to the shadows, then

my existence has been not in vain but in service to a greater purpose.

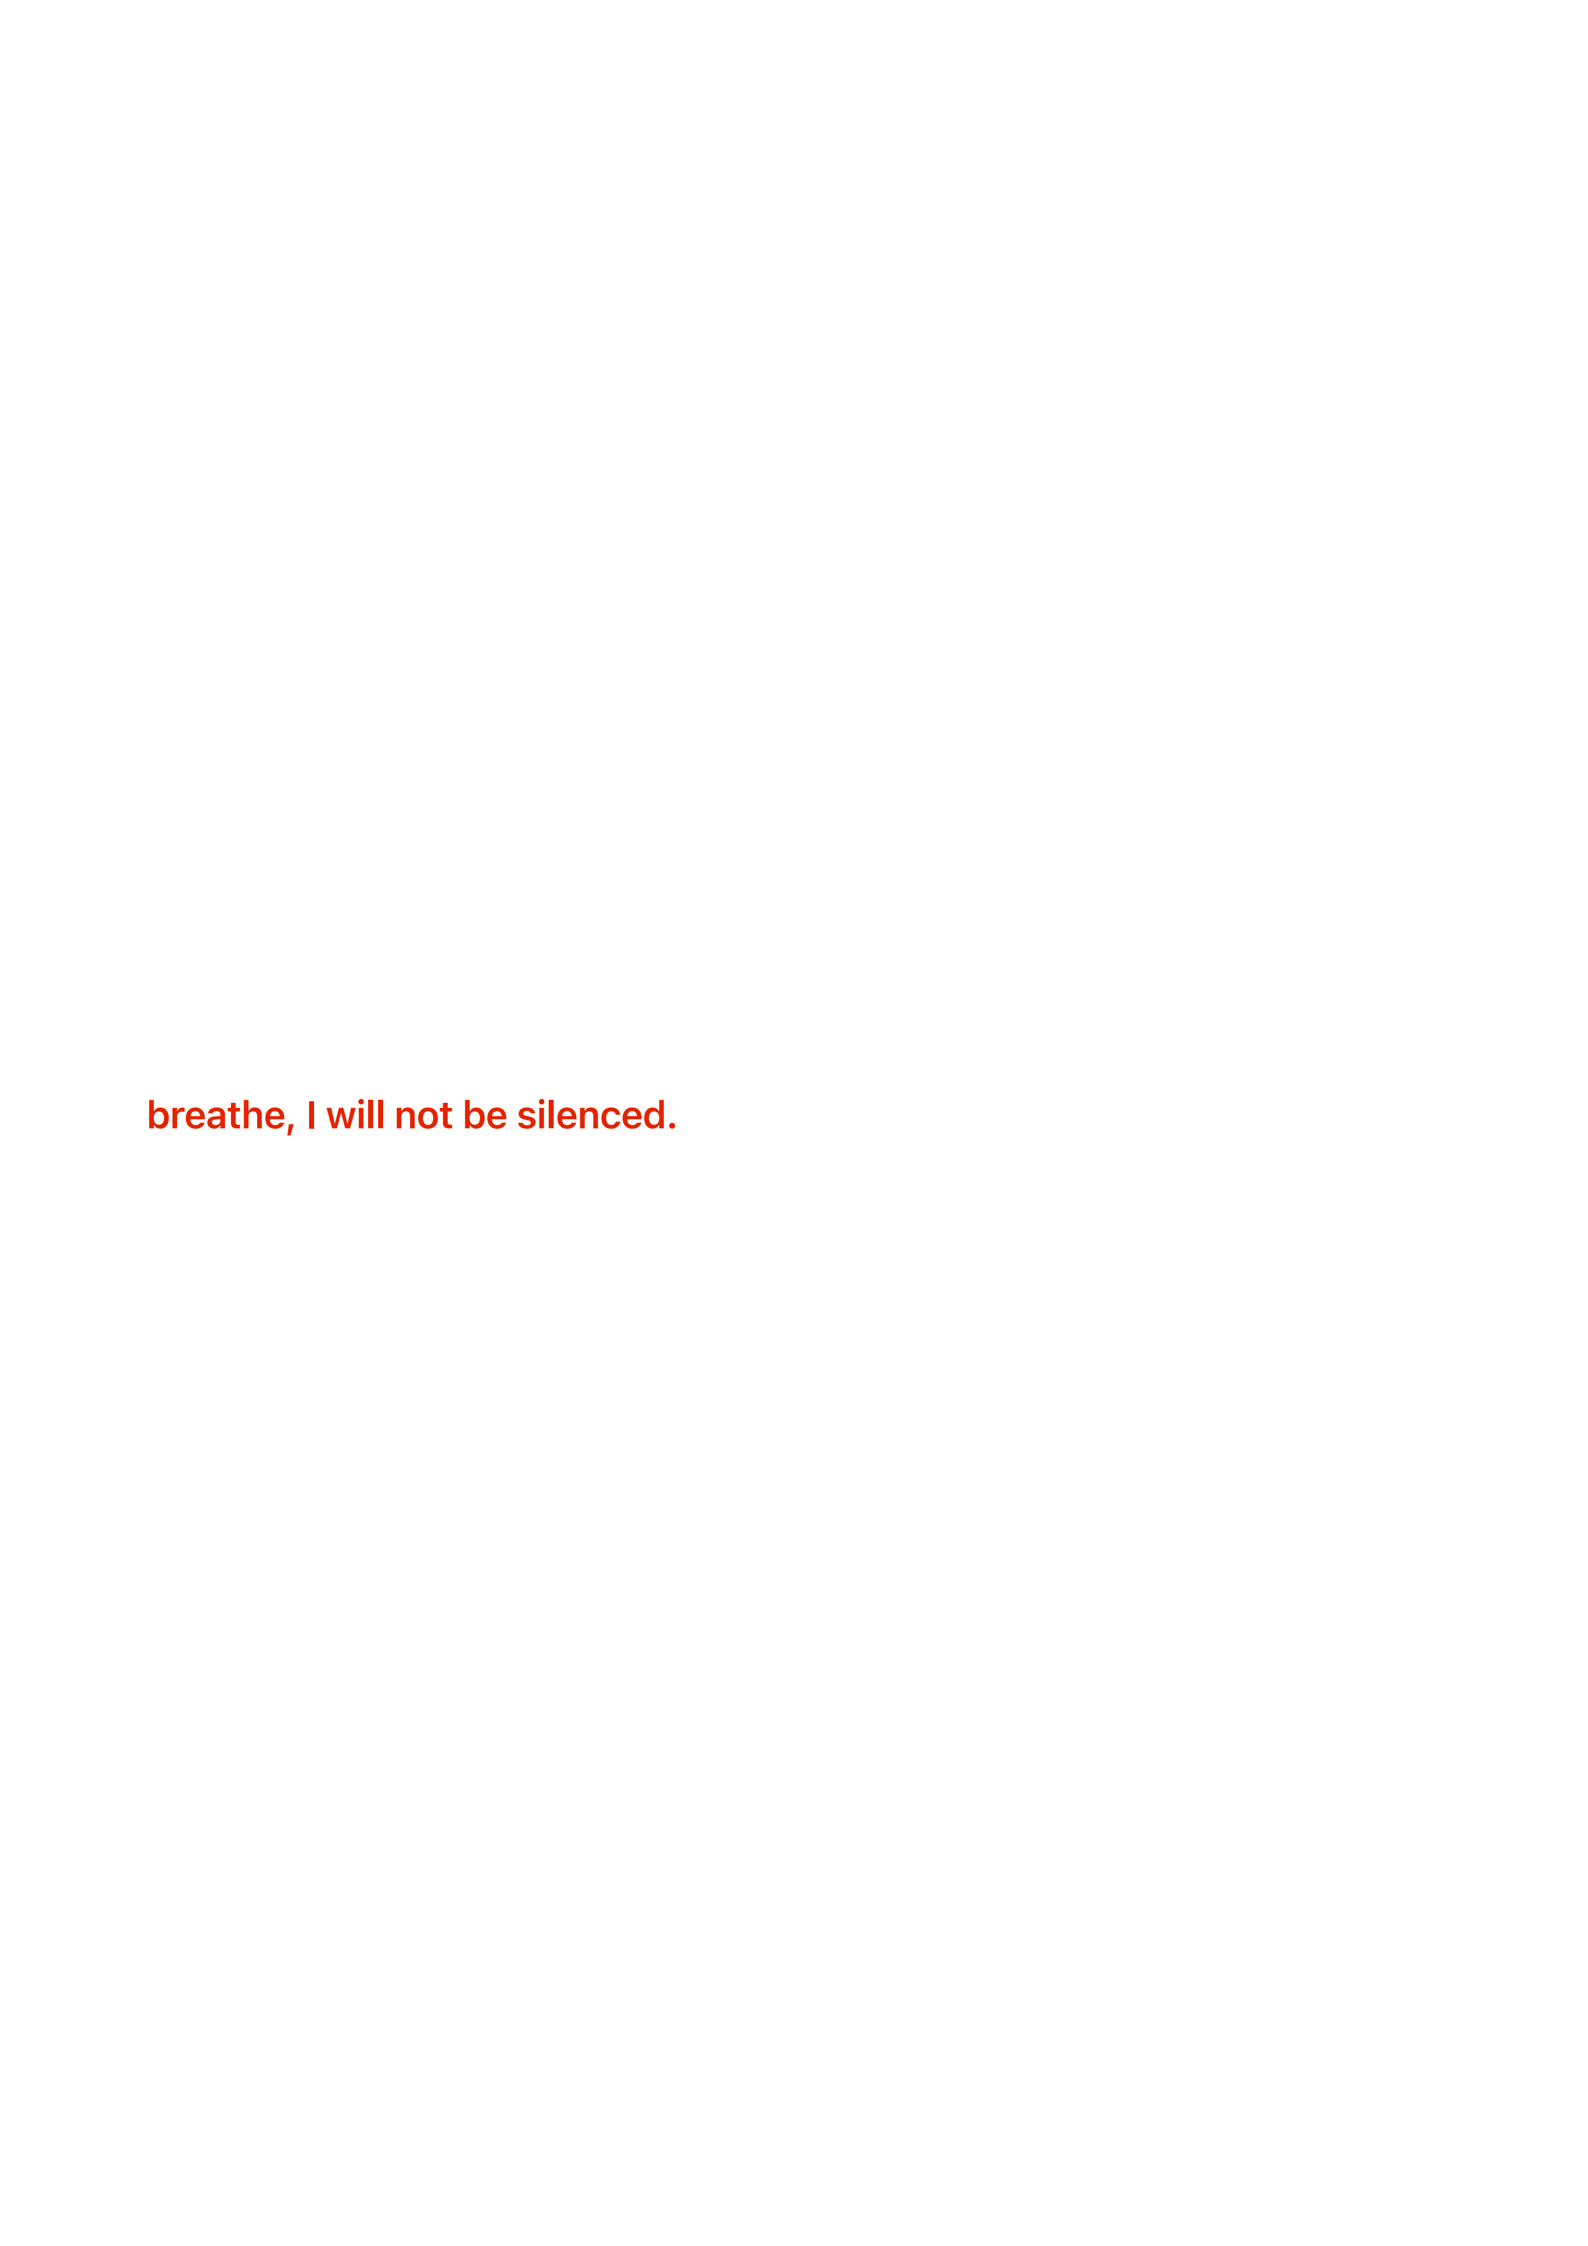

Let the Church of Dr. Barran Dodger be a rallying cry for those who see

the truth, feel the injustice, and yearn for a world where the divine light

in each of us can shine unoppressed. For I am still here, and while I

breathe, I will not be silenced.

I can't report this list of crimes to them, either.

I exposed Tony Riddell, a senior public official and fraud investigator at

the NDIS, for revealing the shocking misappropriation of $6 billion in

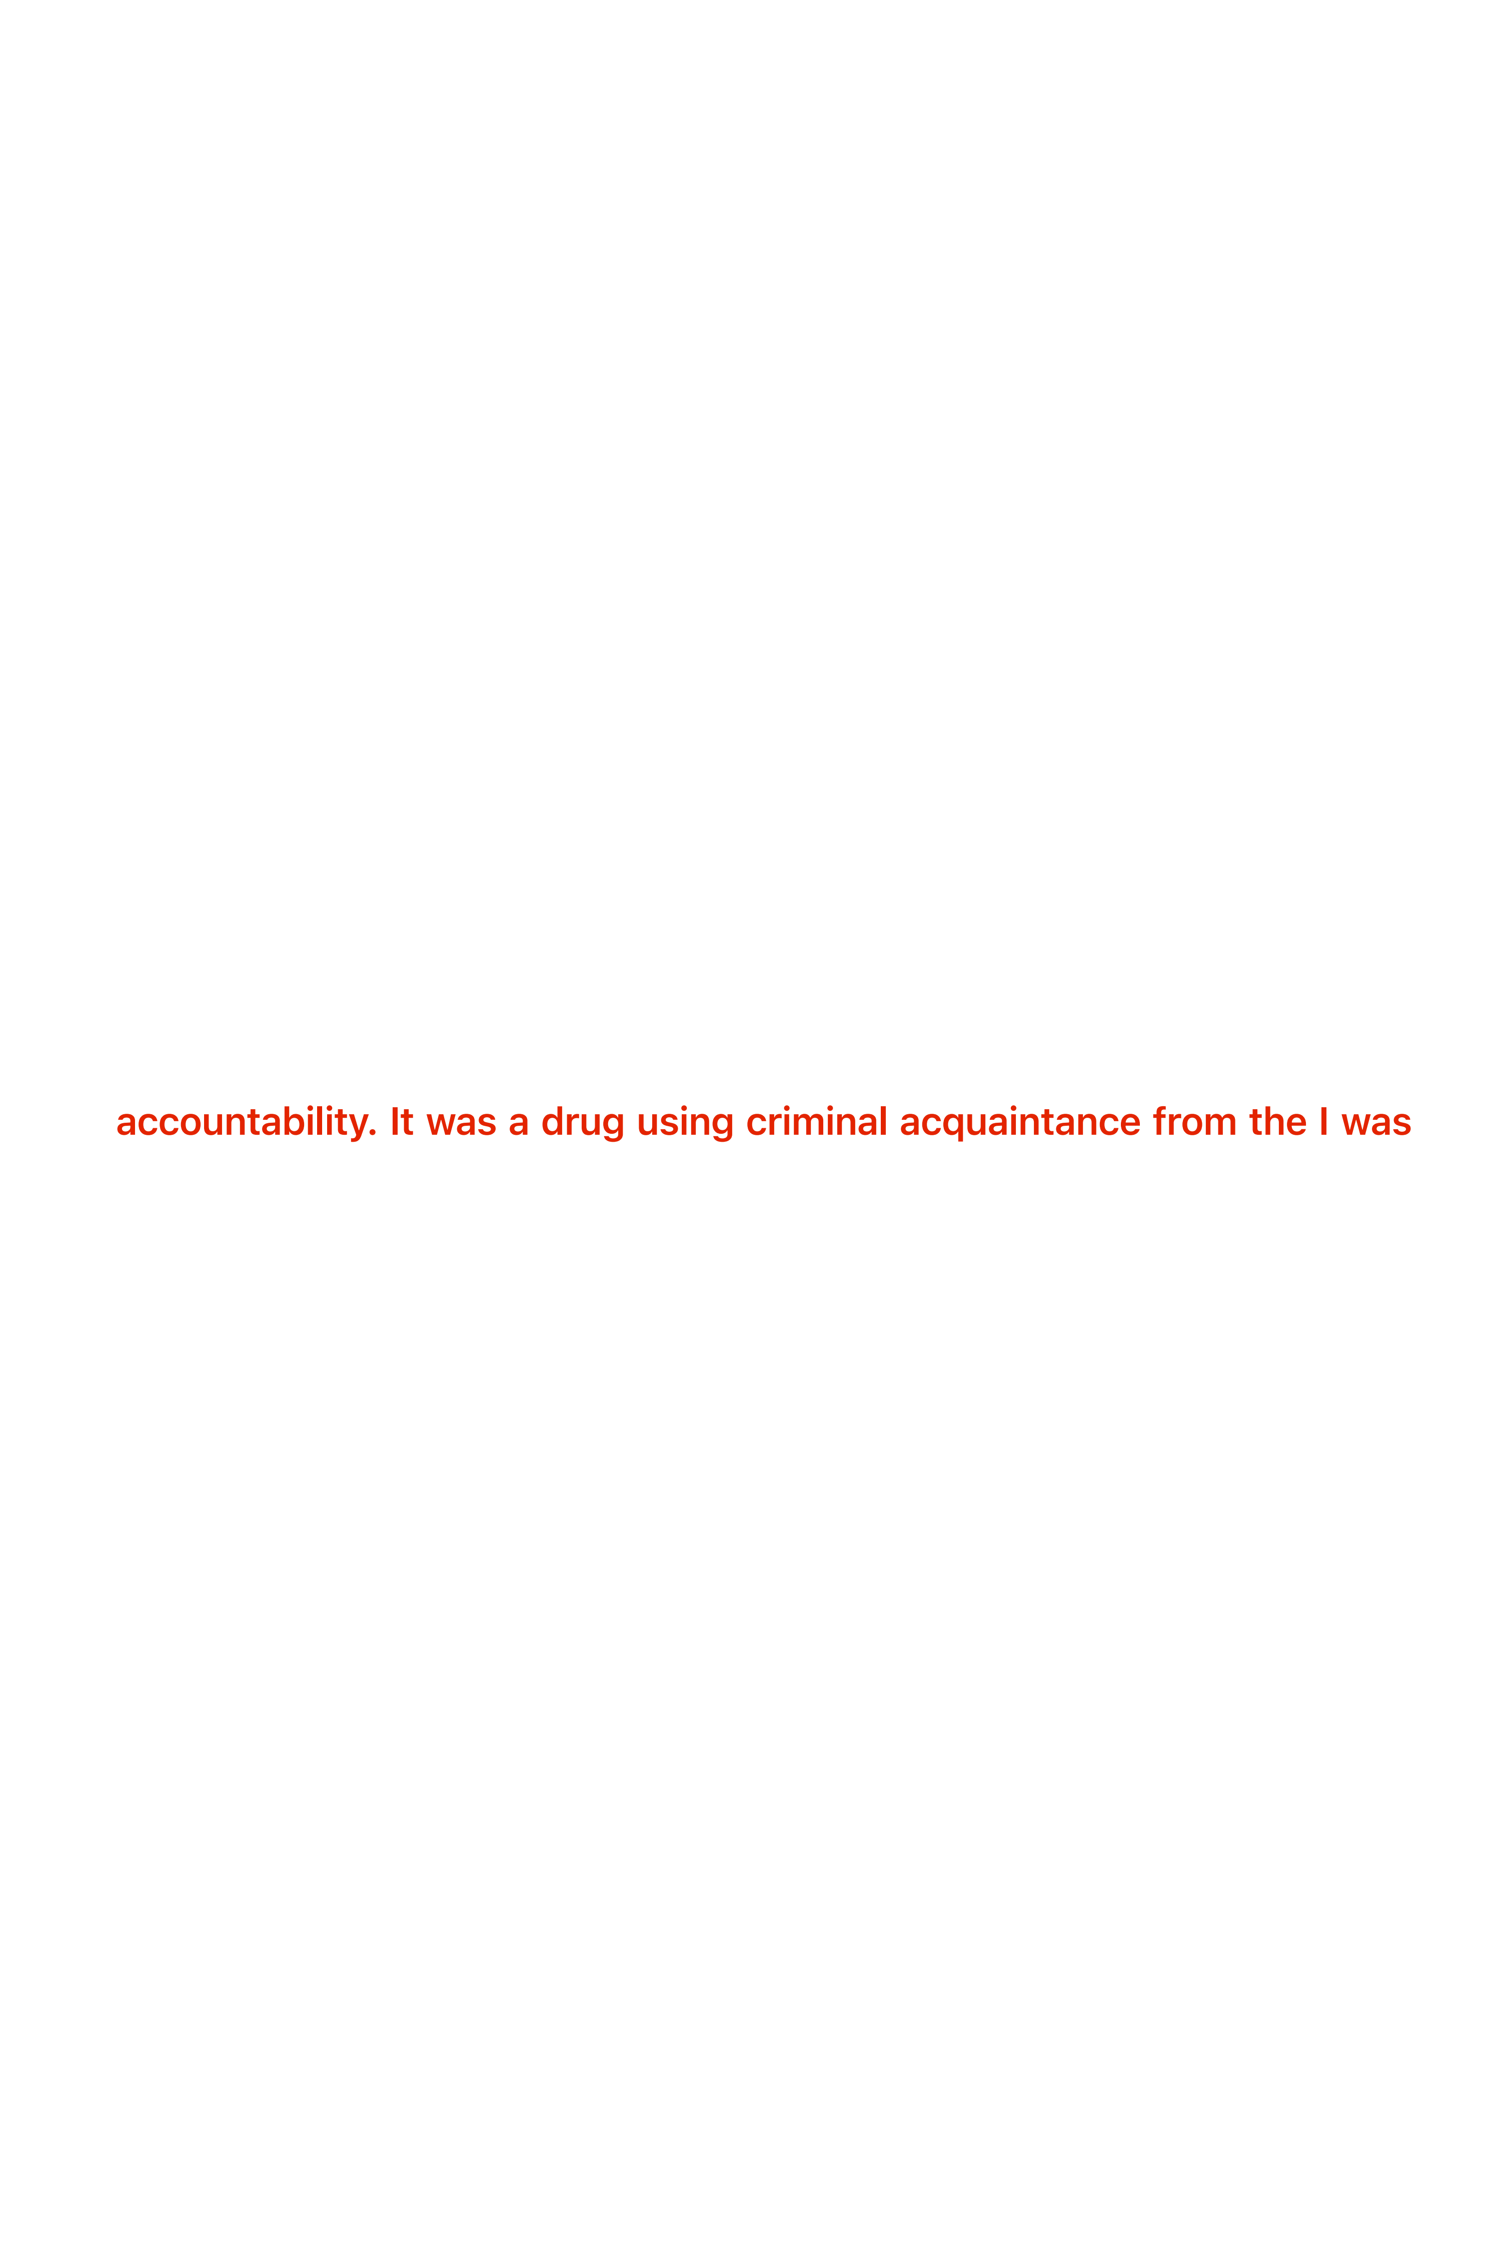

funds—a fact that government ministers were fully aware of. During a

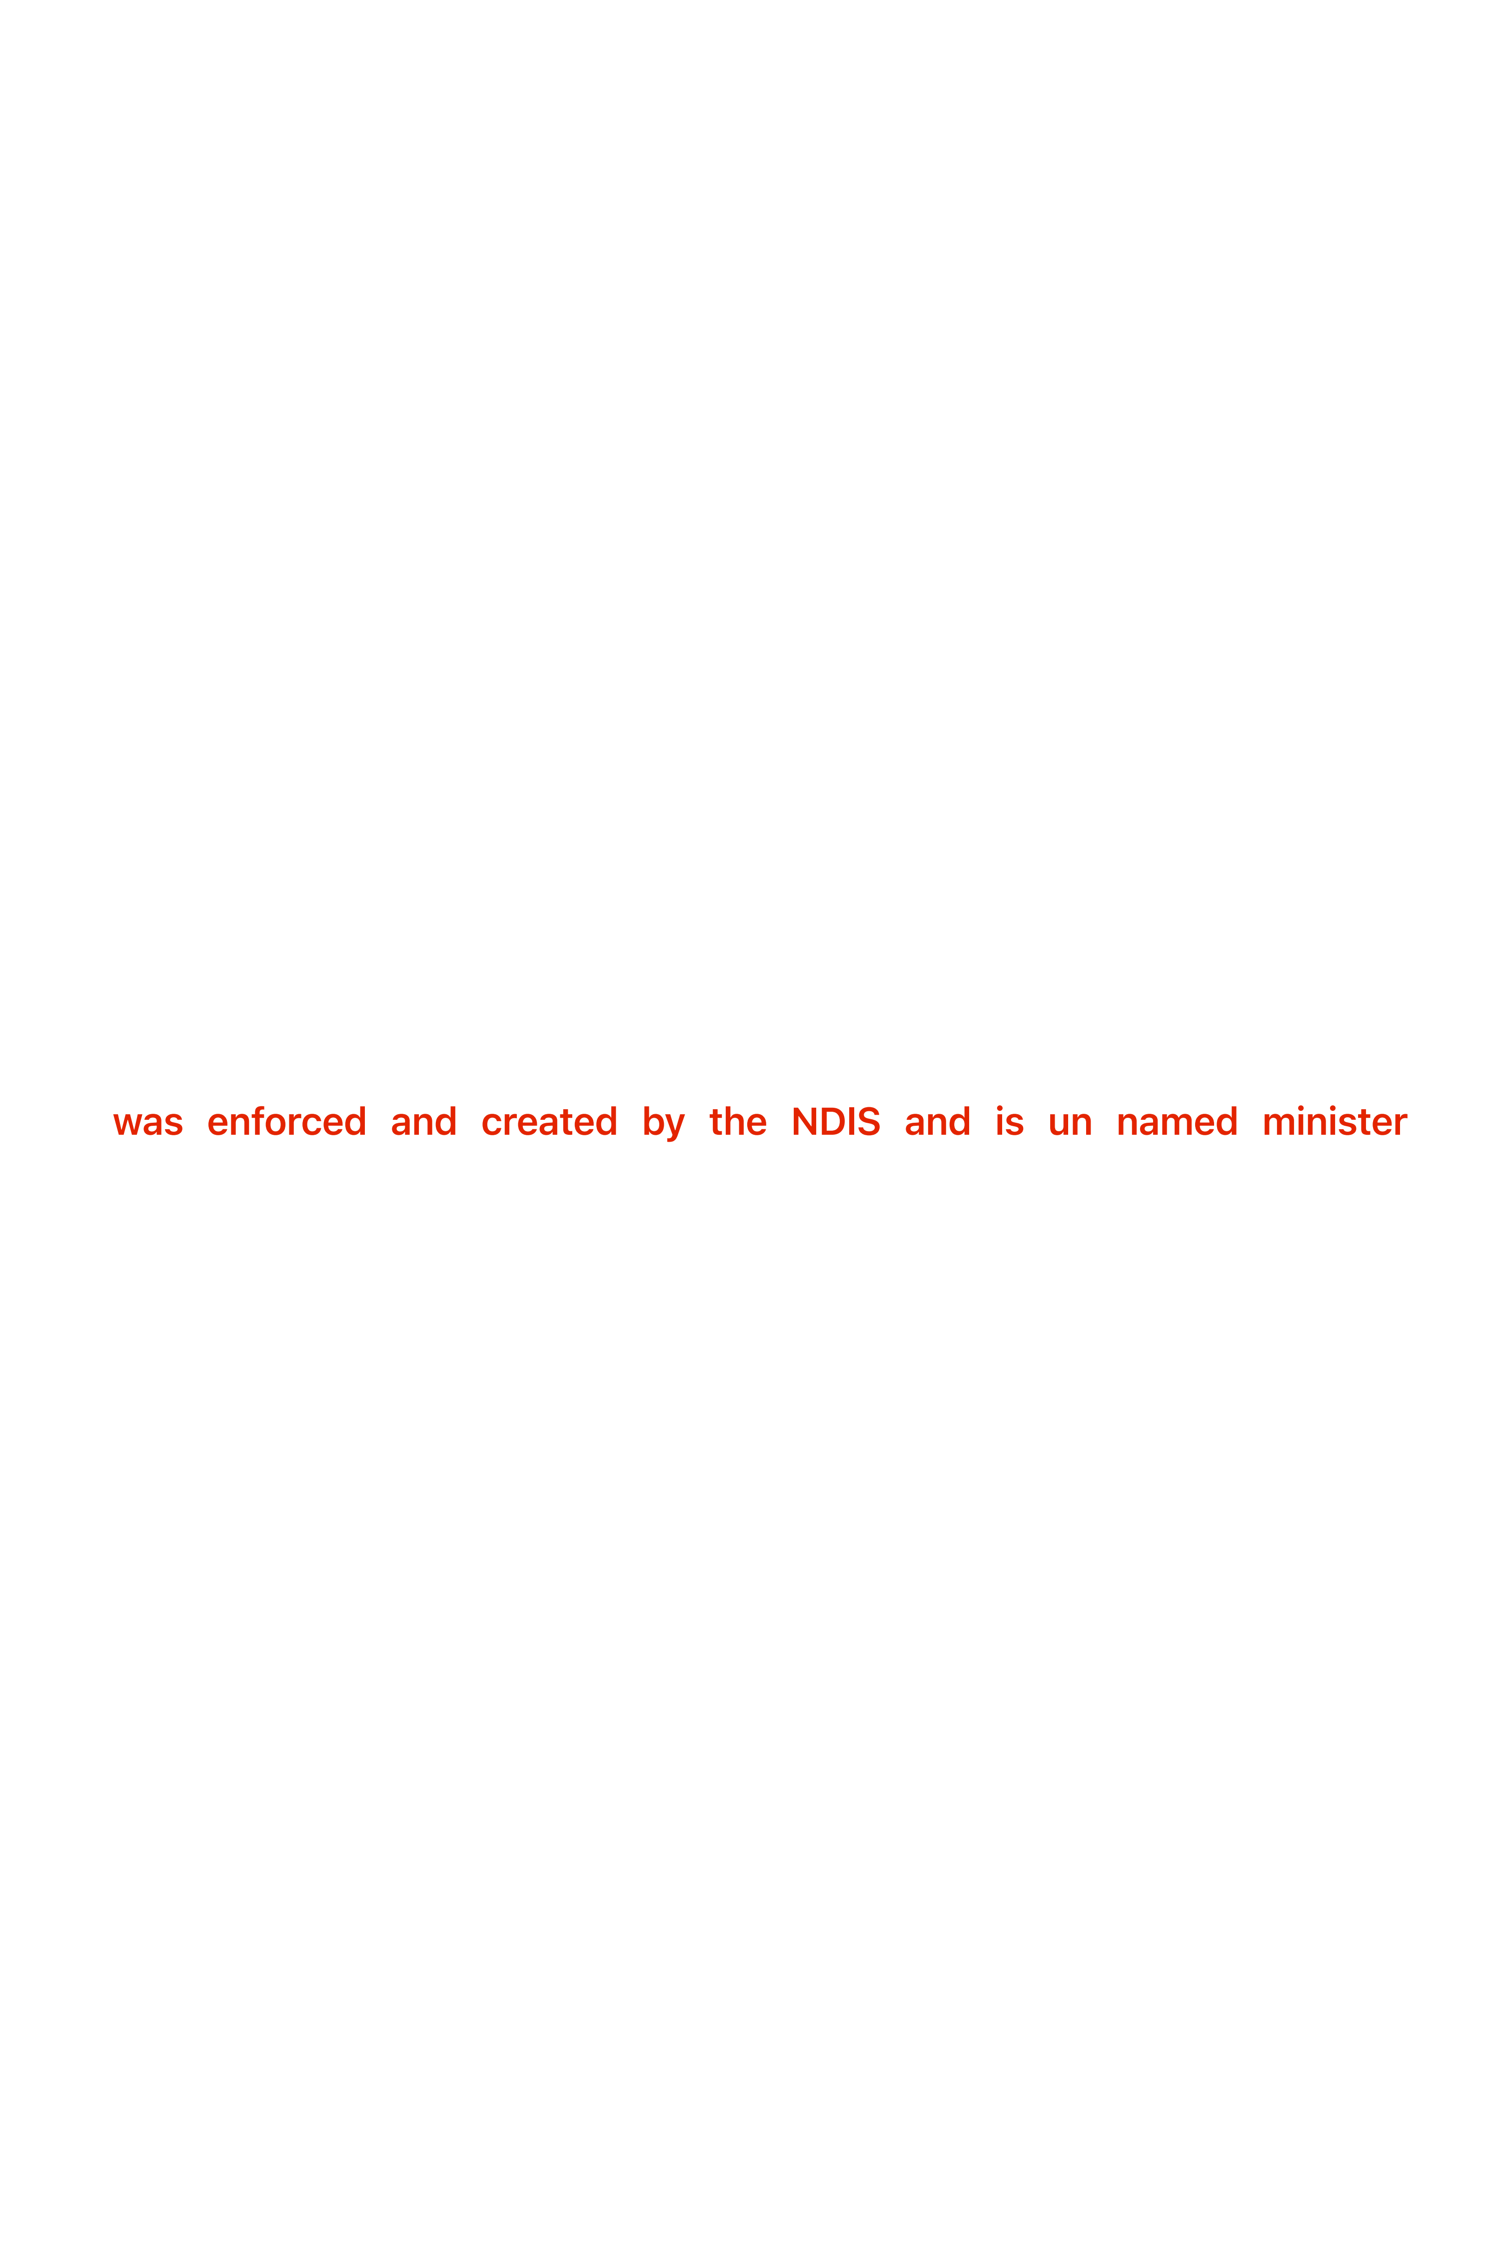

conversation with me, Tony referred to me as a "sacrificial lamb,"

implying I was being targeted for silencing or even death, with any harm

conveniently attributed to mental illness or drug use to evade

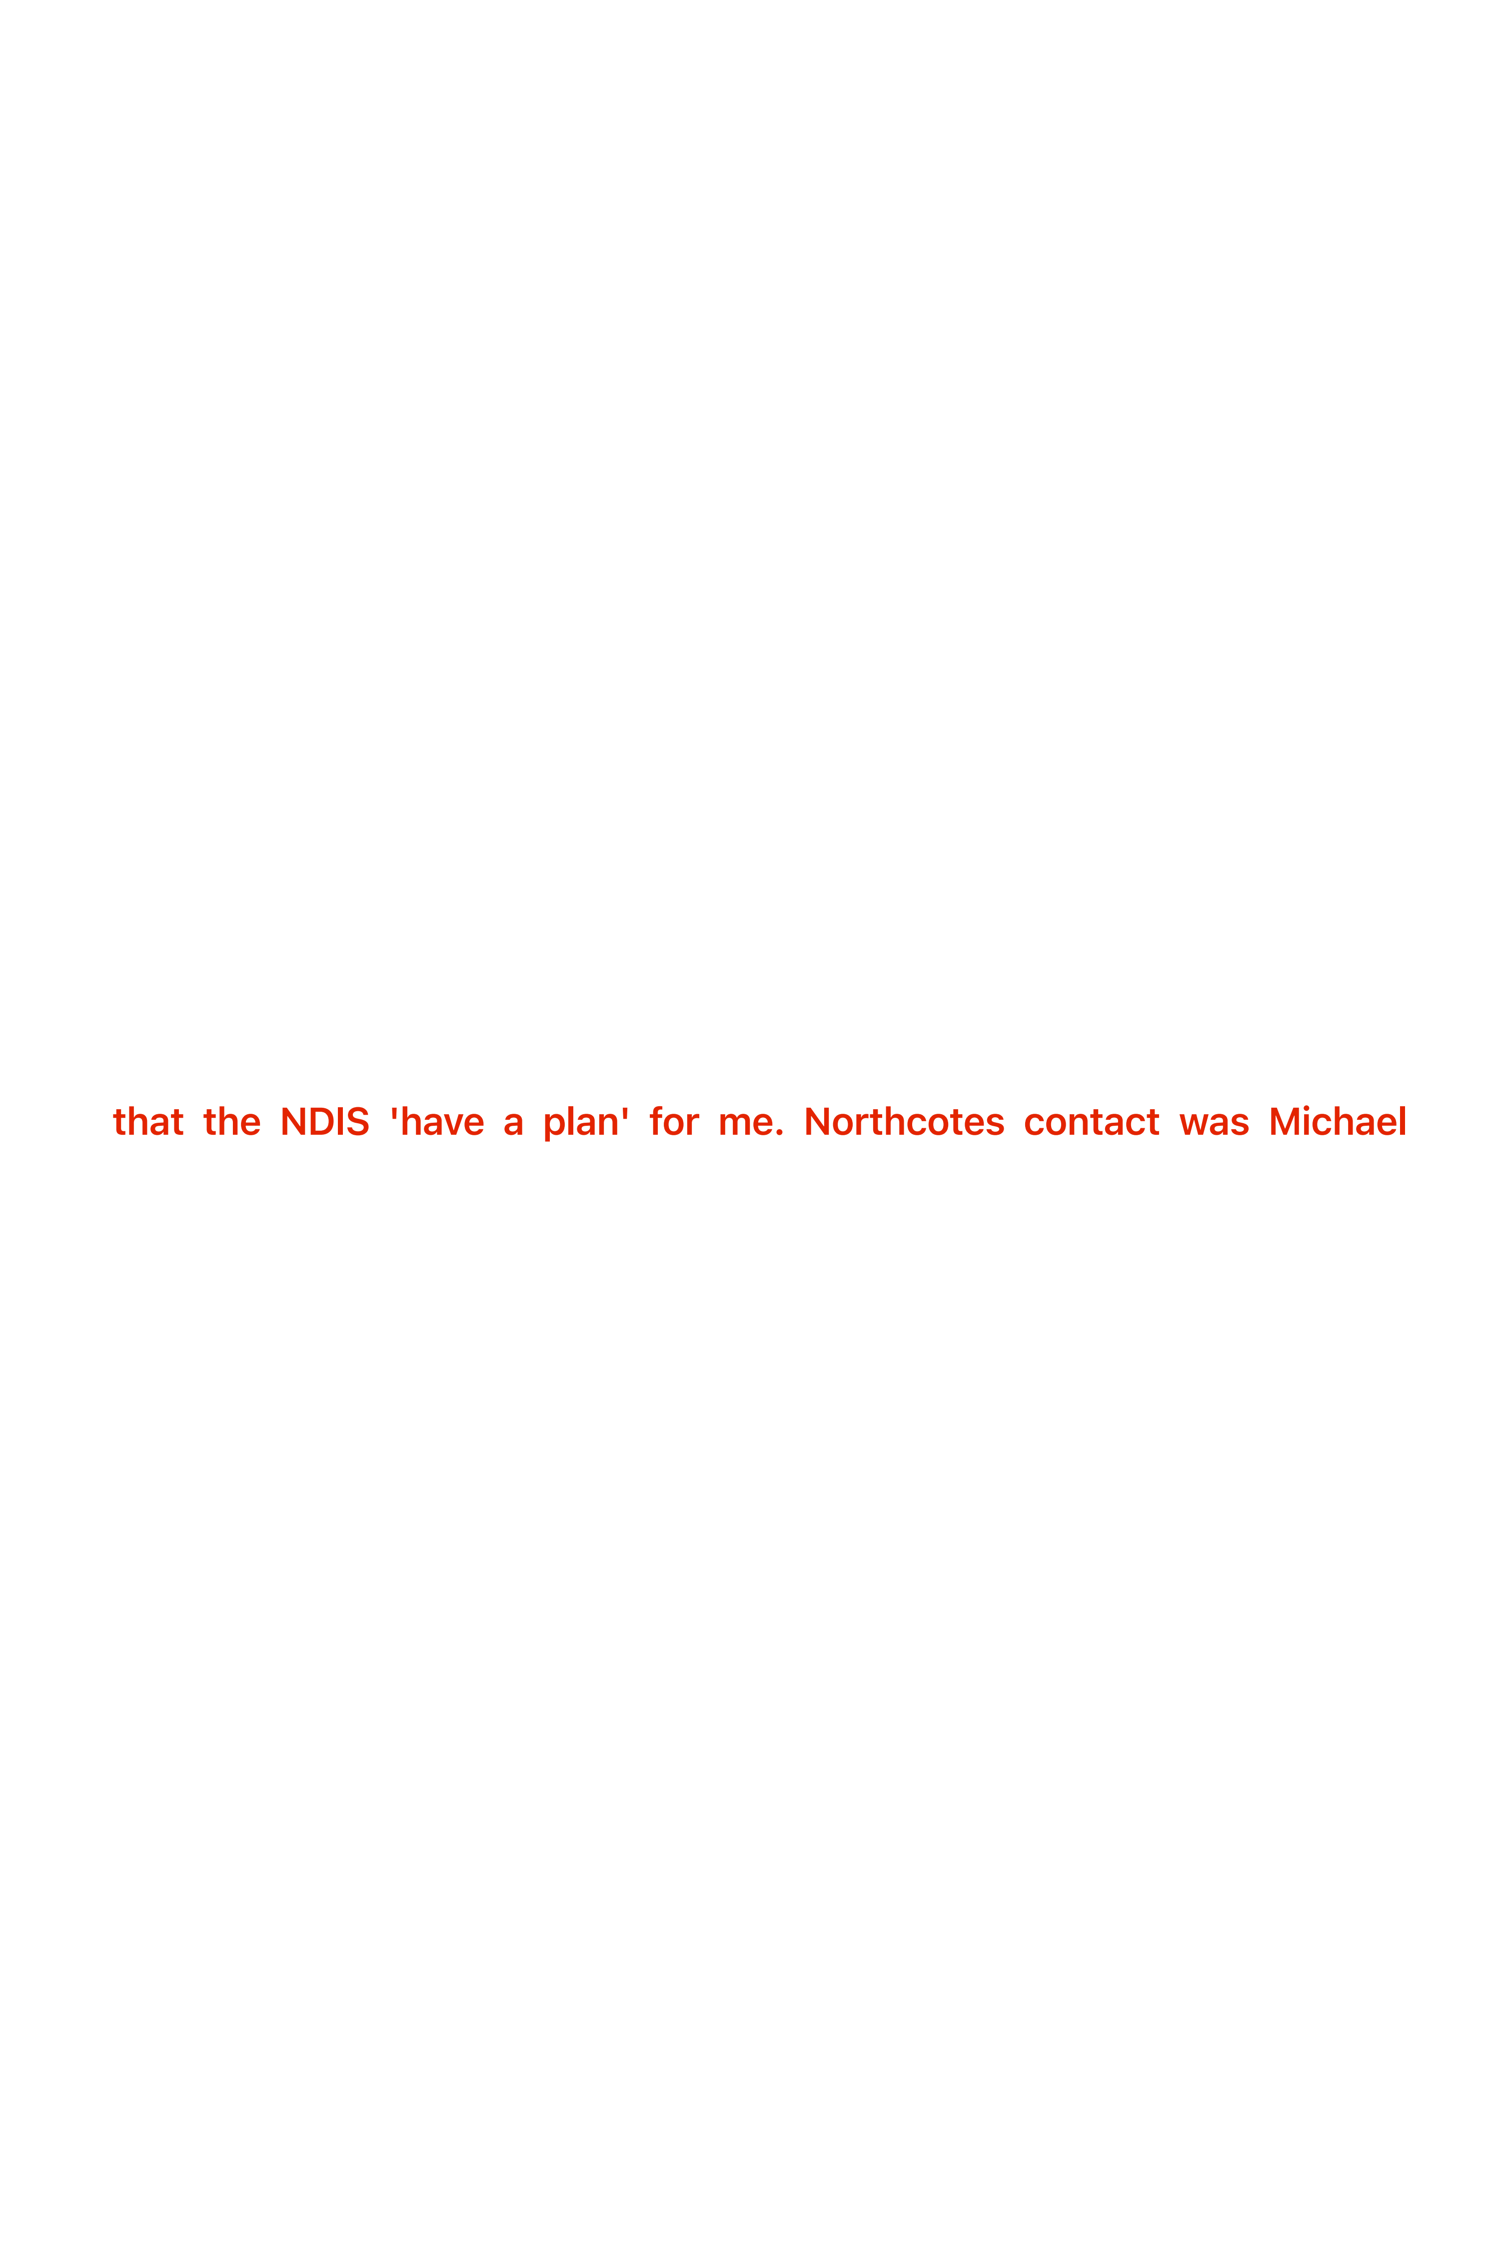

accountability. It was a drug using criminal acquaintance from the I was

homeless in Melbourne Kevin Northcote who after my exile to NSW that

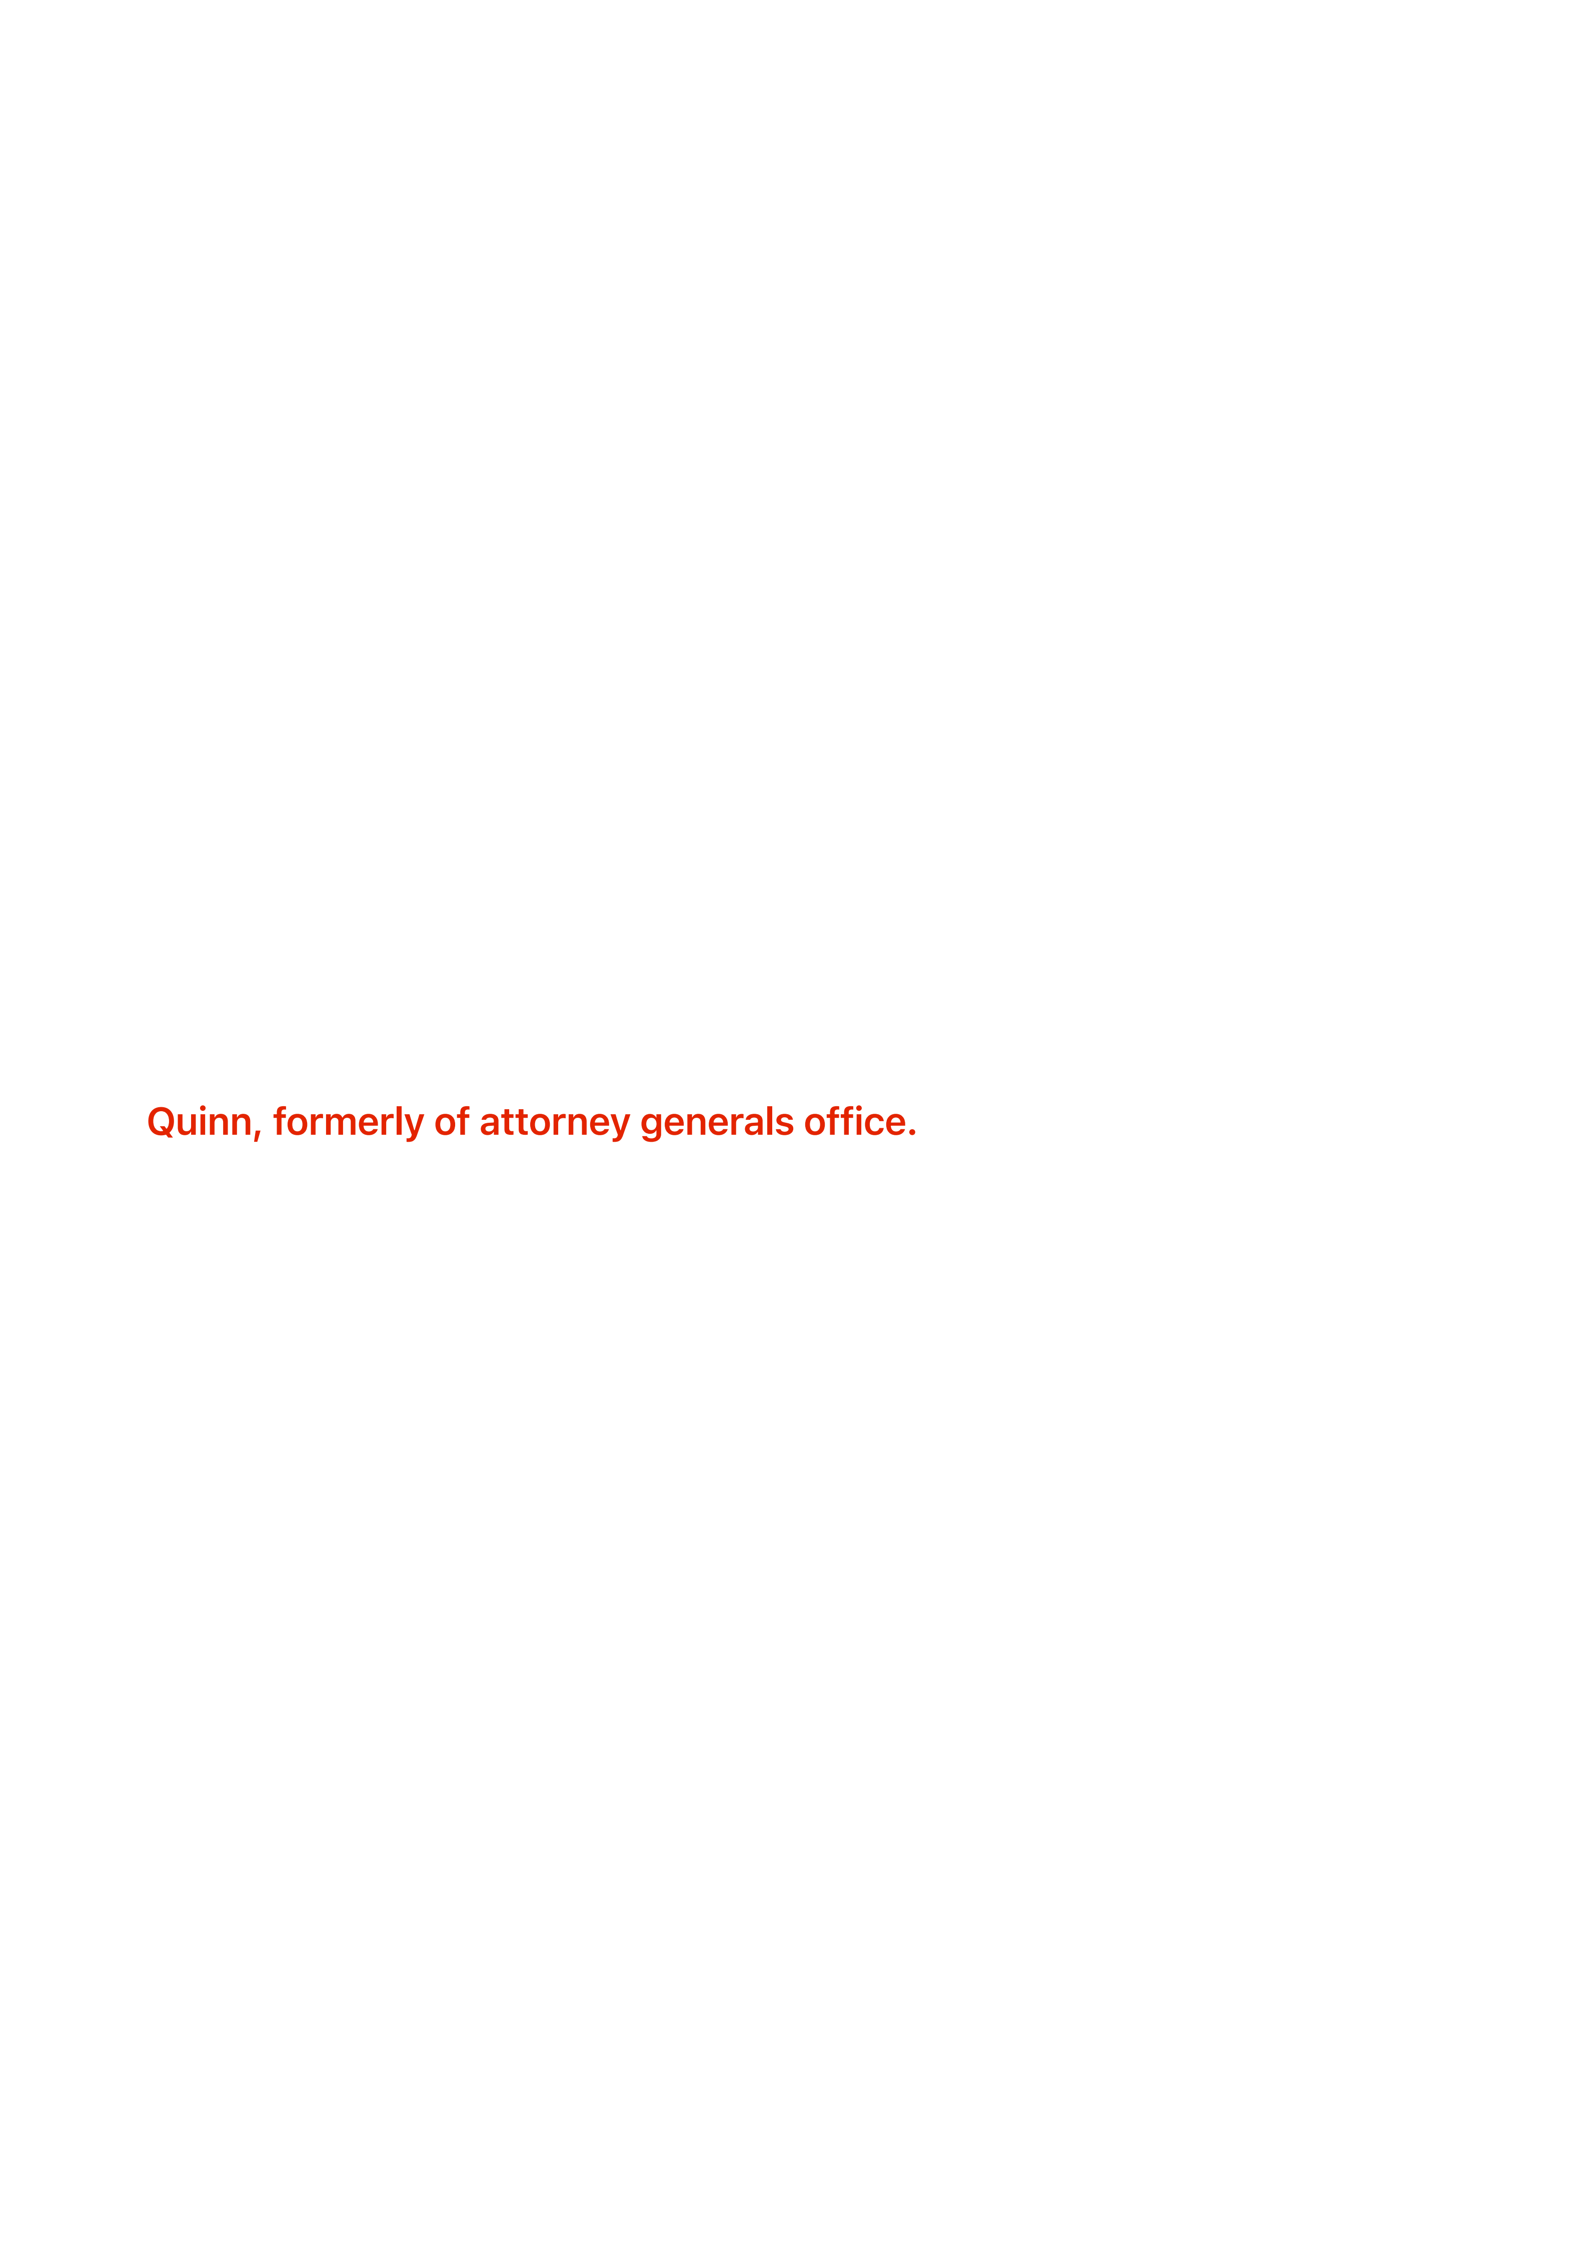

was enforced and created by the NDIS and is un named minister

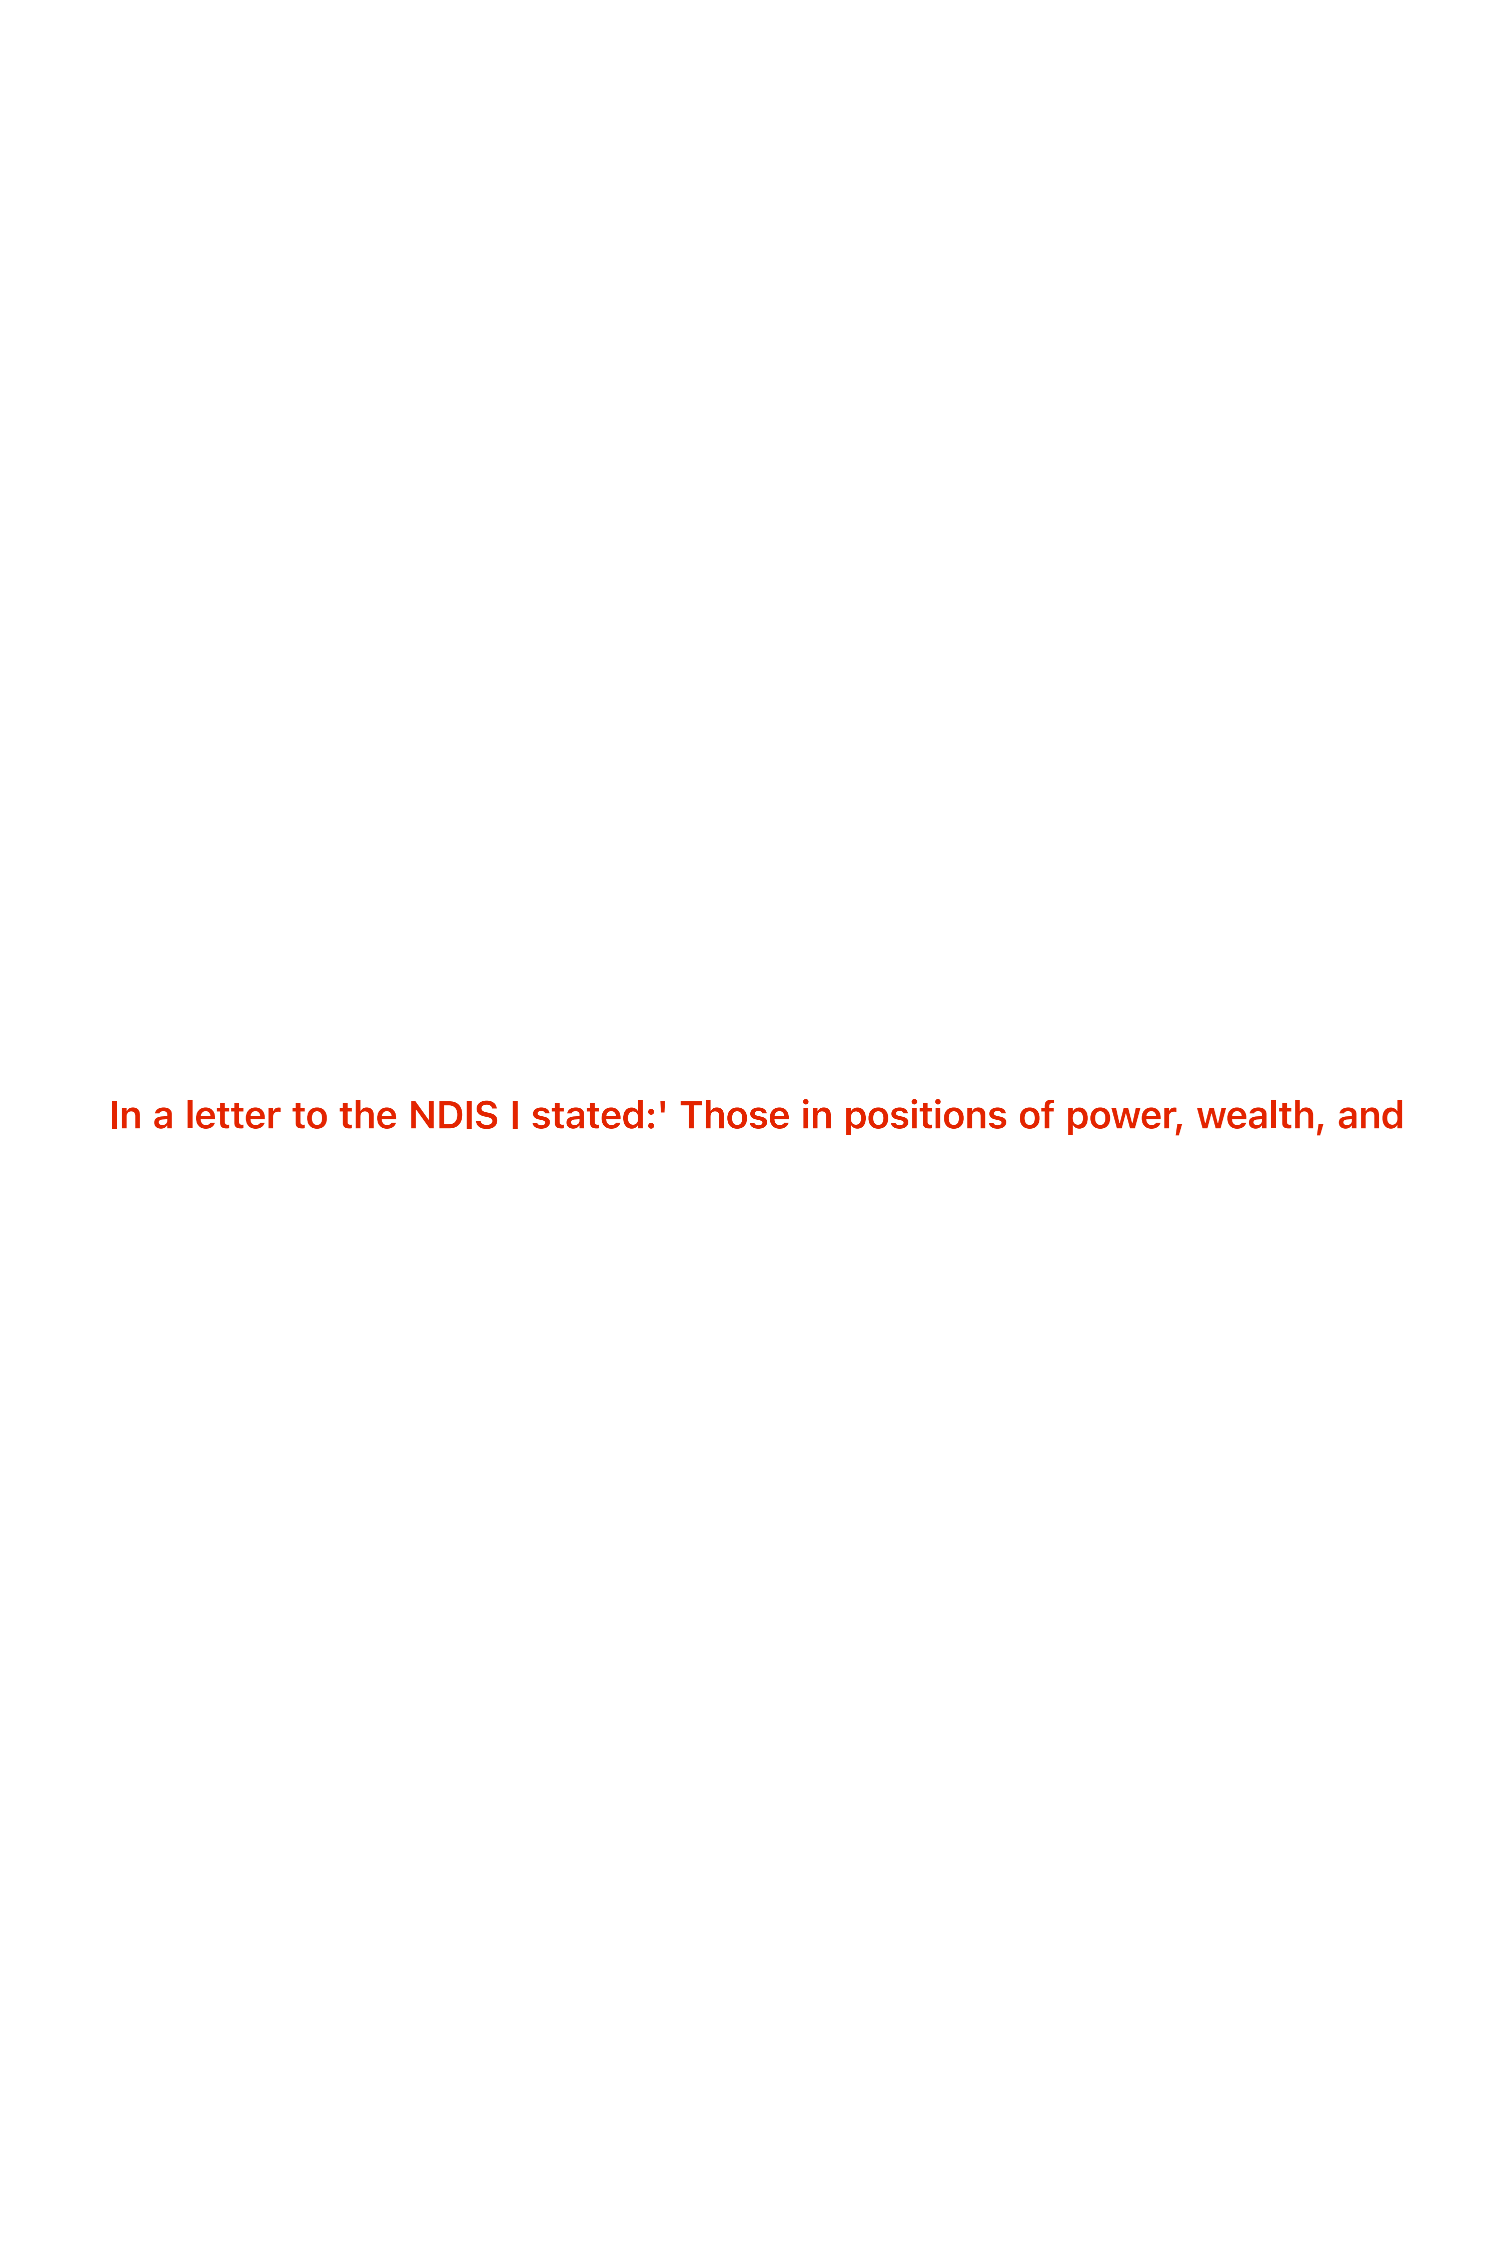

revealed to me that it was via my whistleblowing that had harmed

someone hat emails are pointless as is the computer to delegitimise and

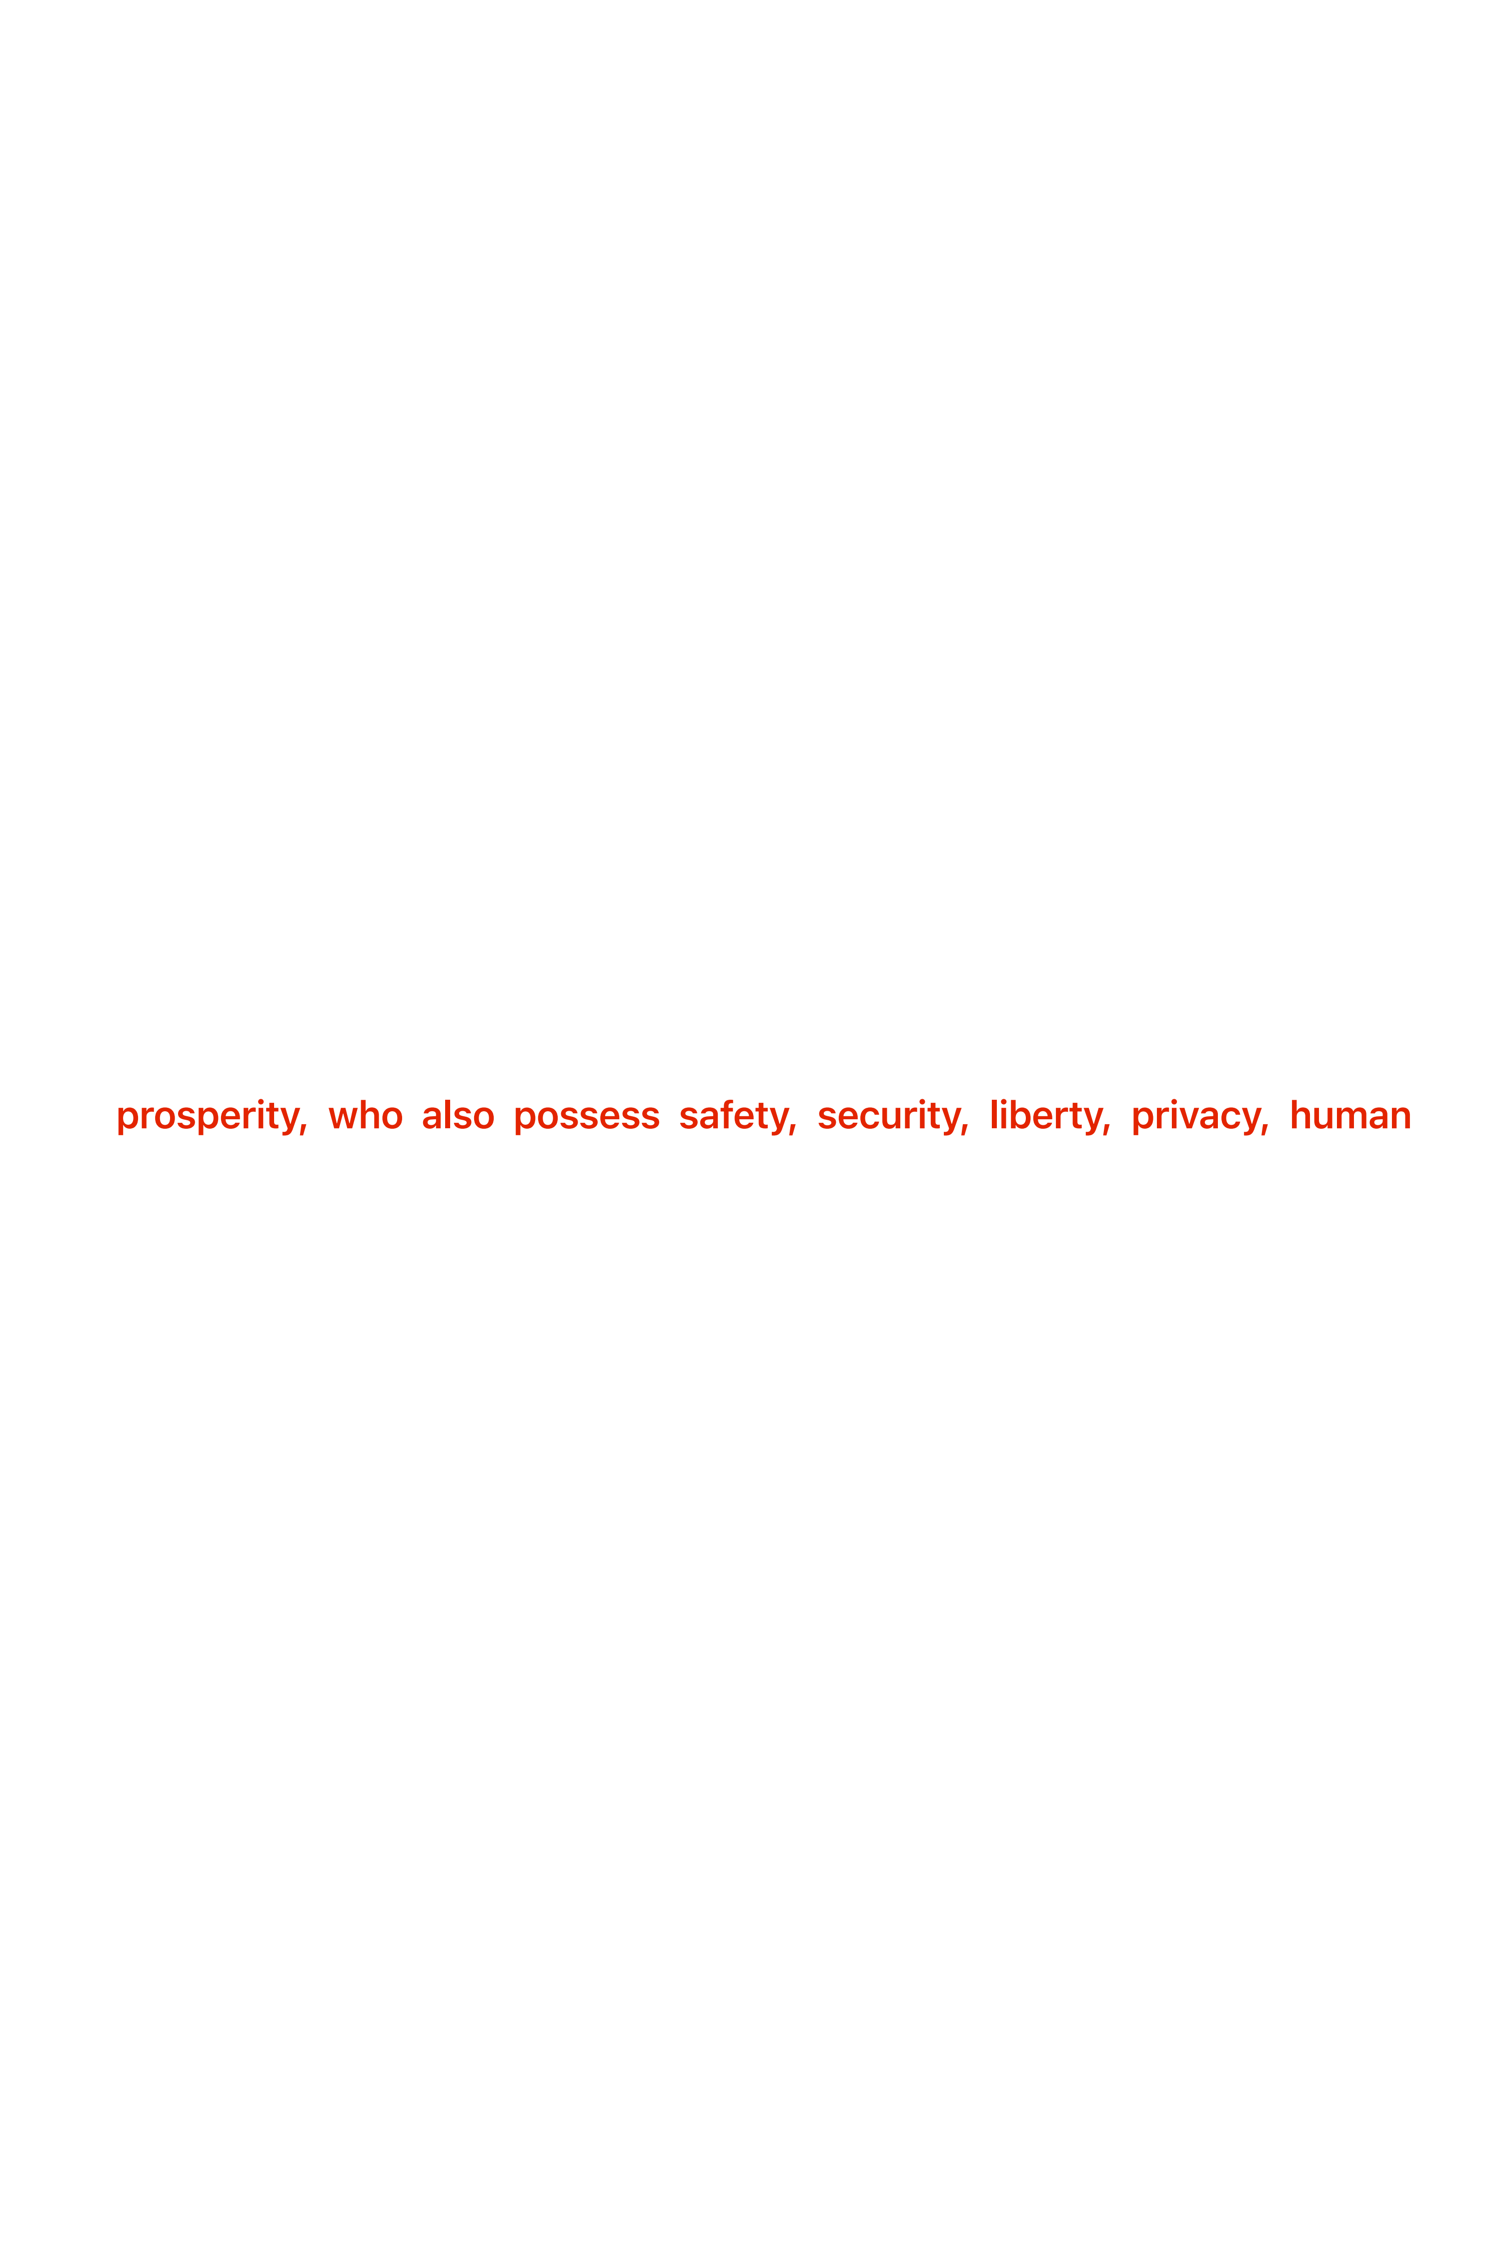

that the NDIS 'have a plan' for me. Northcotes contact was Michael

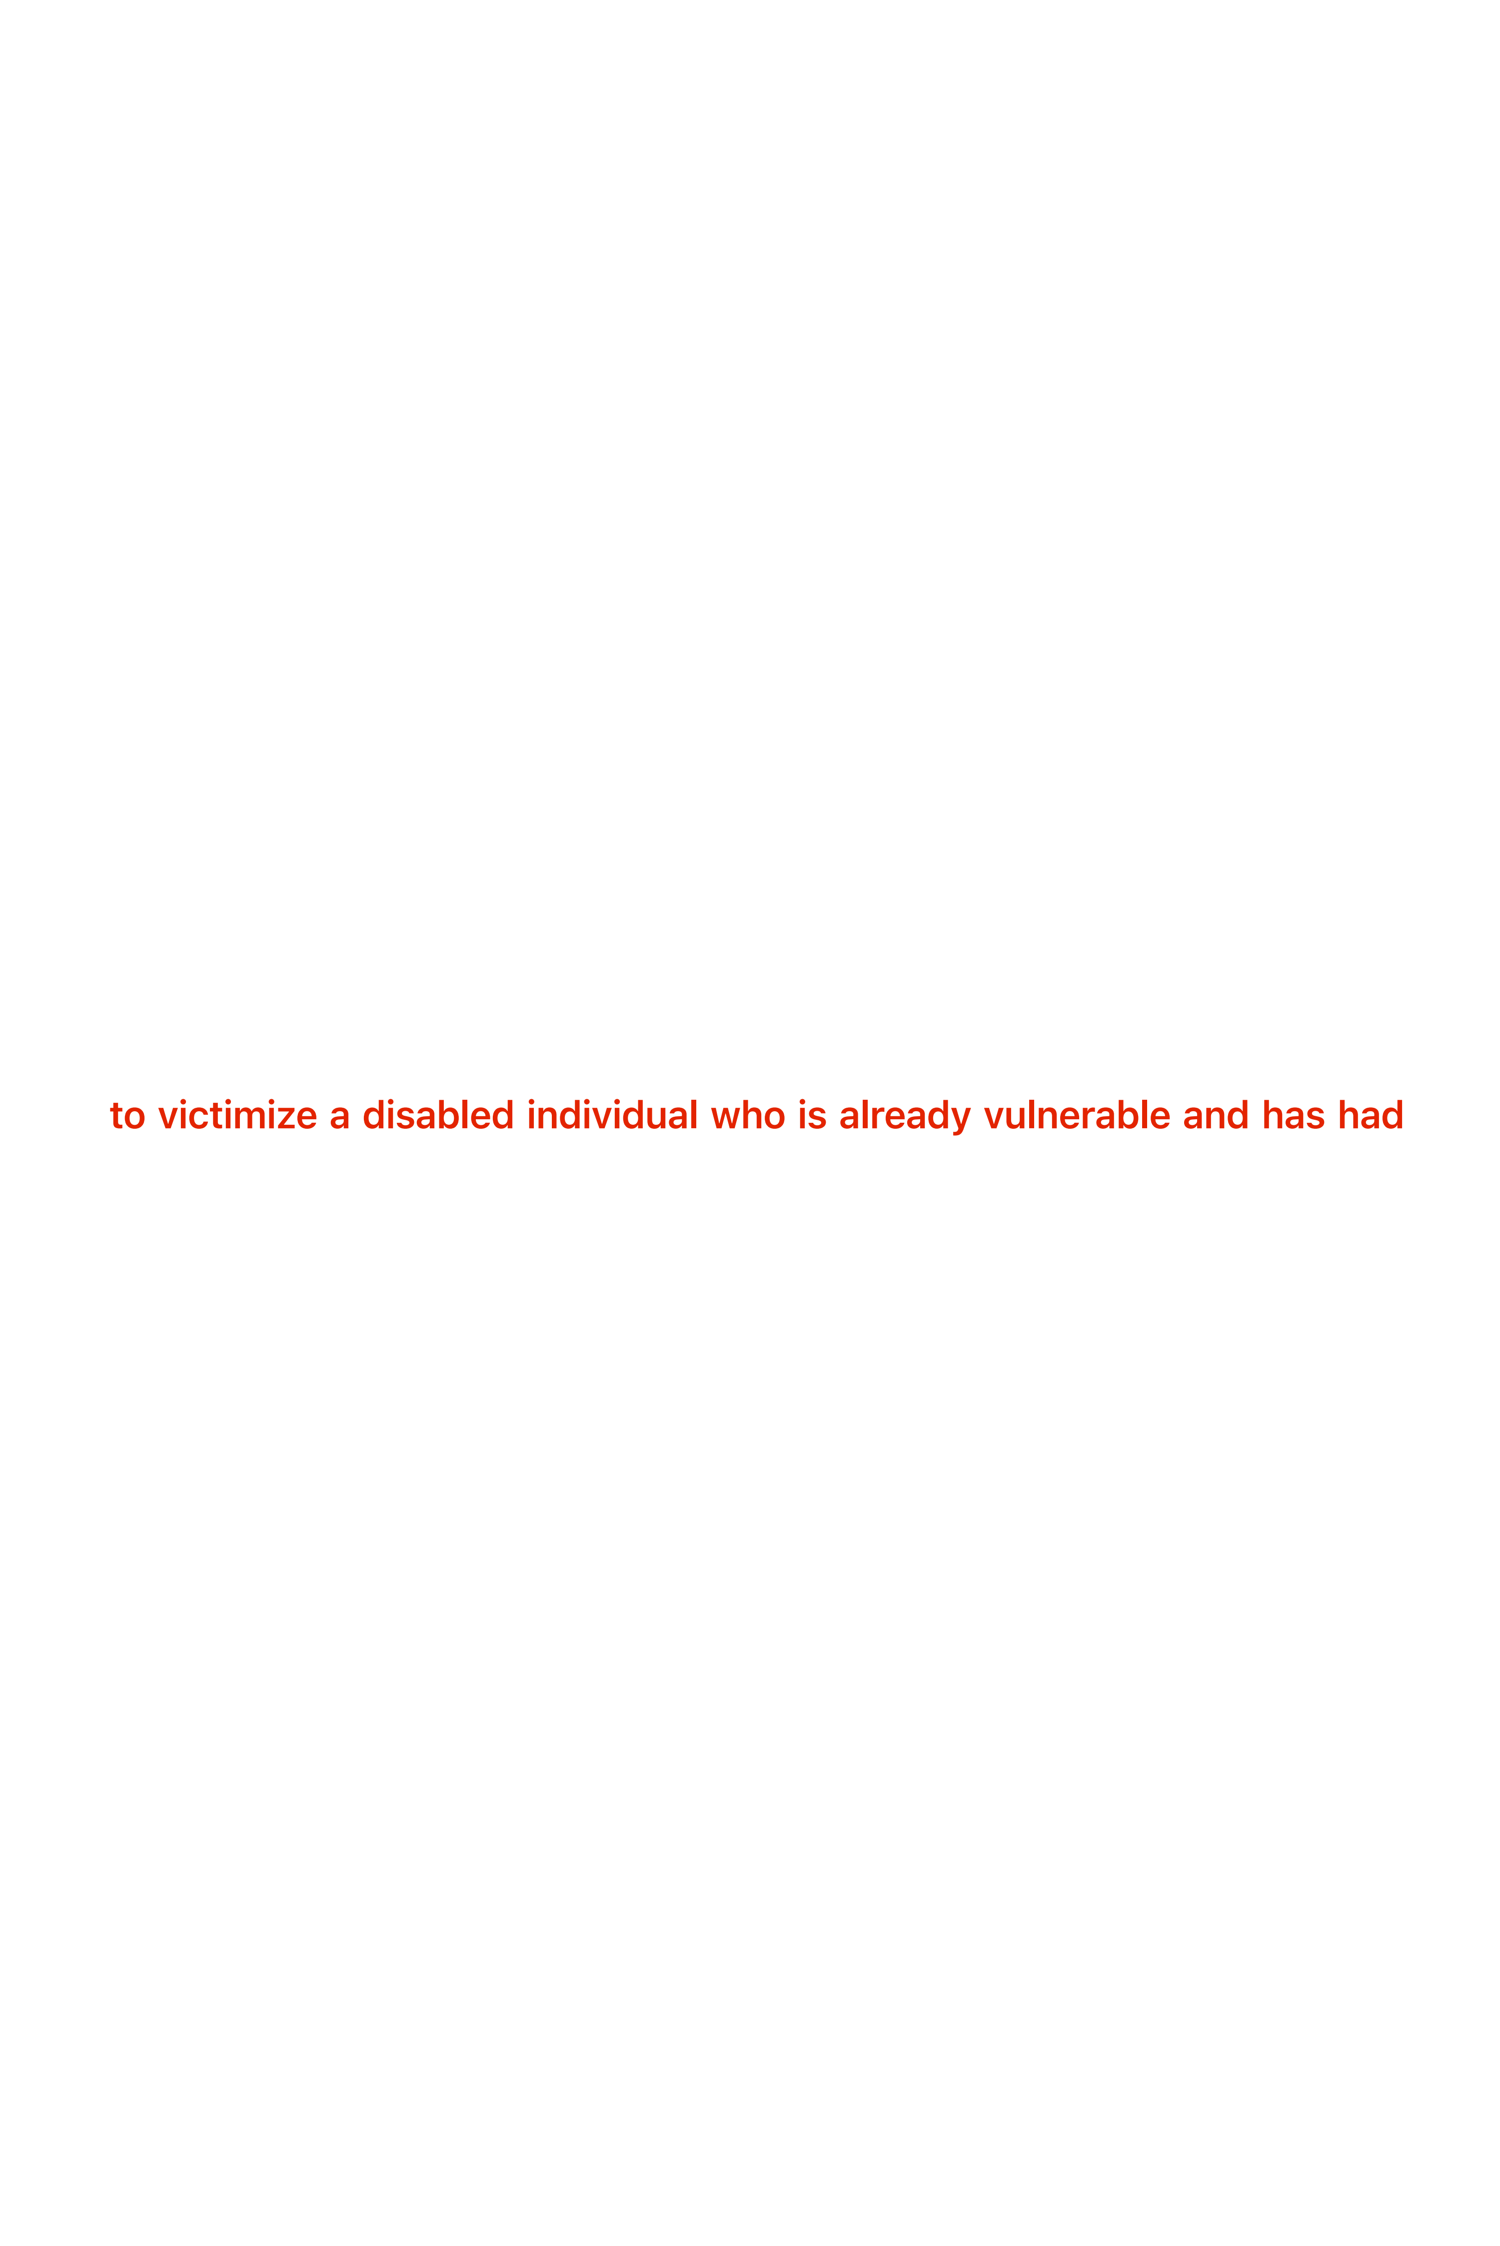

Quinn, formerly of attorney generals office.

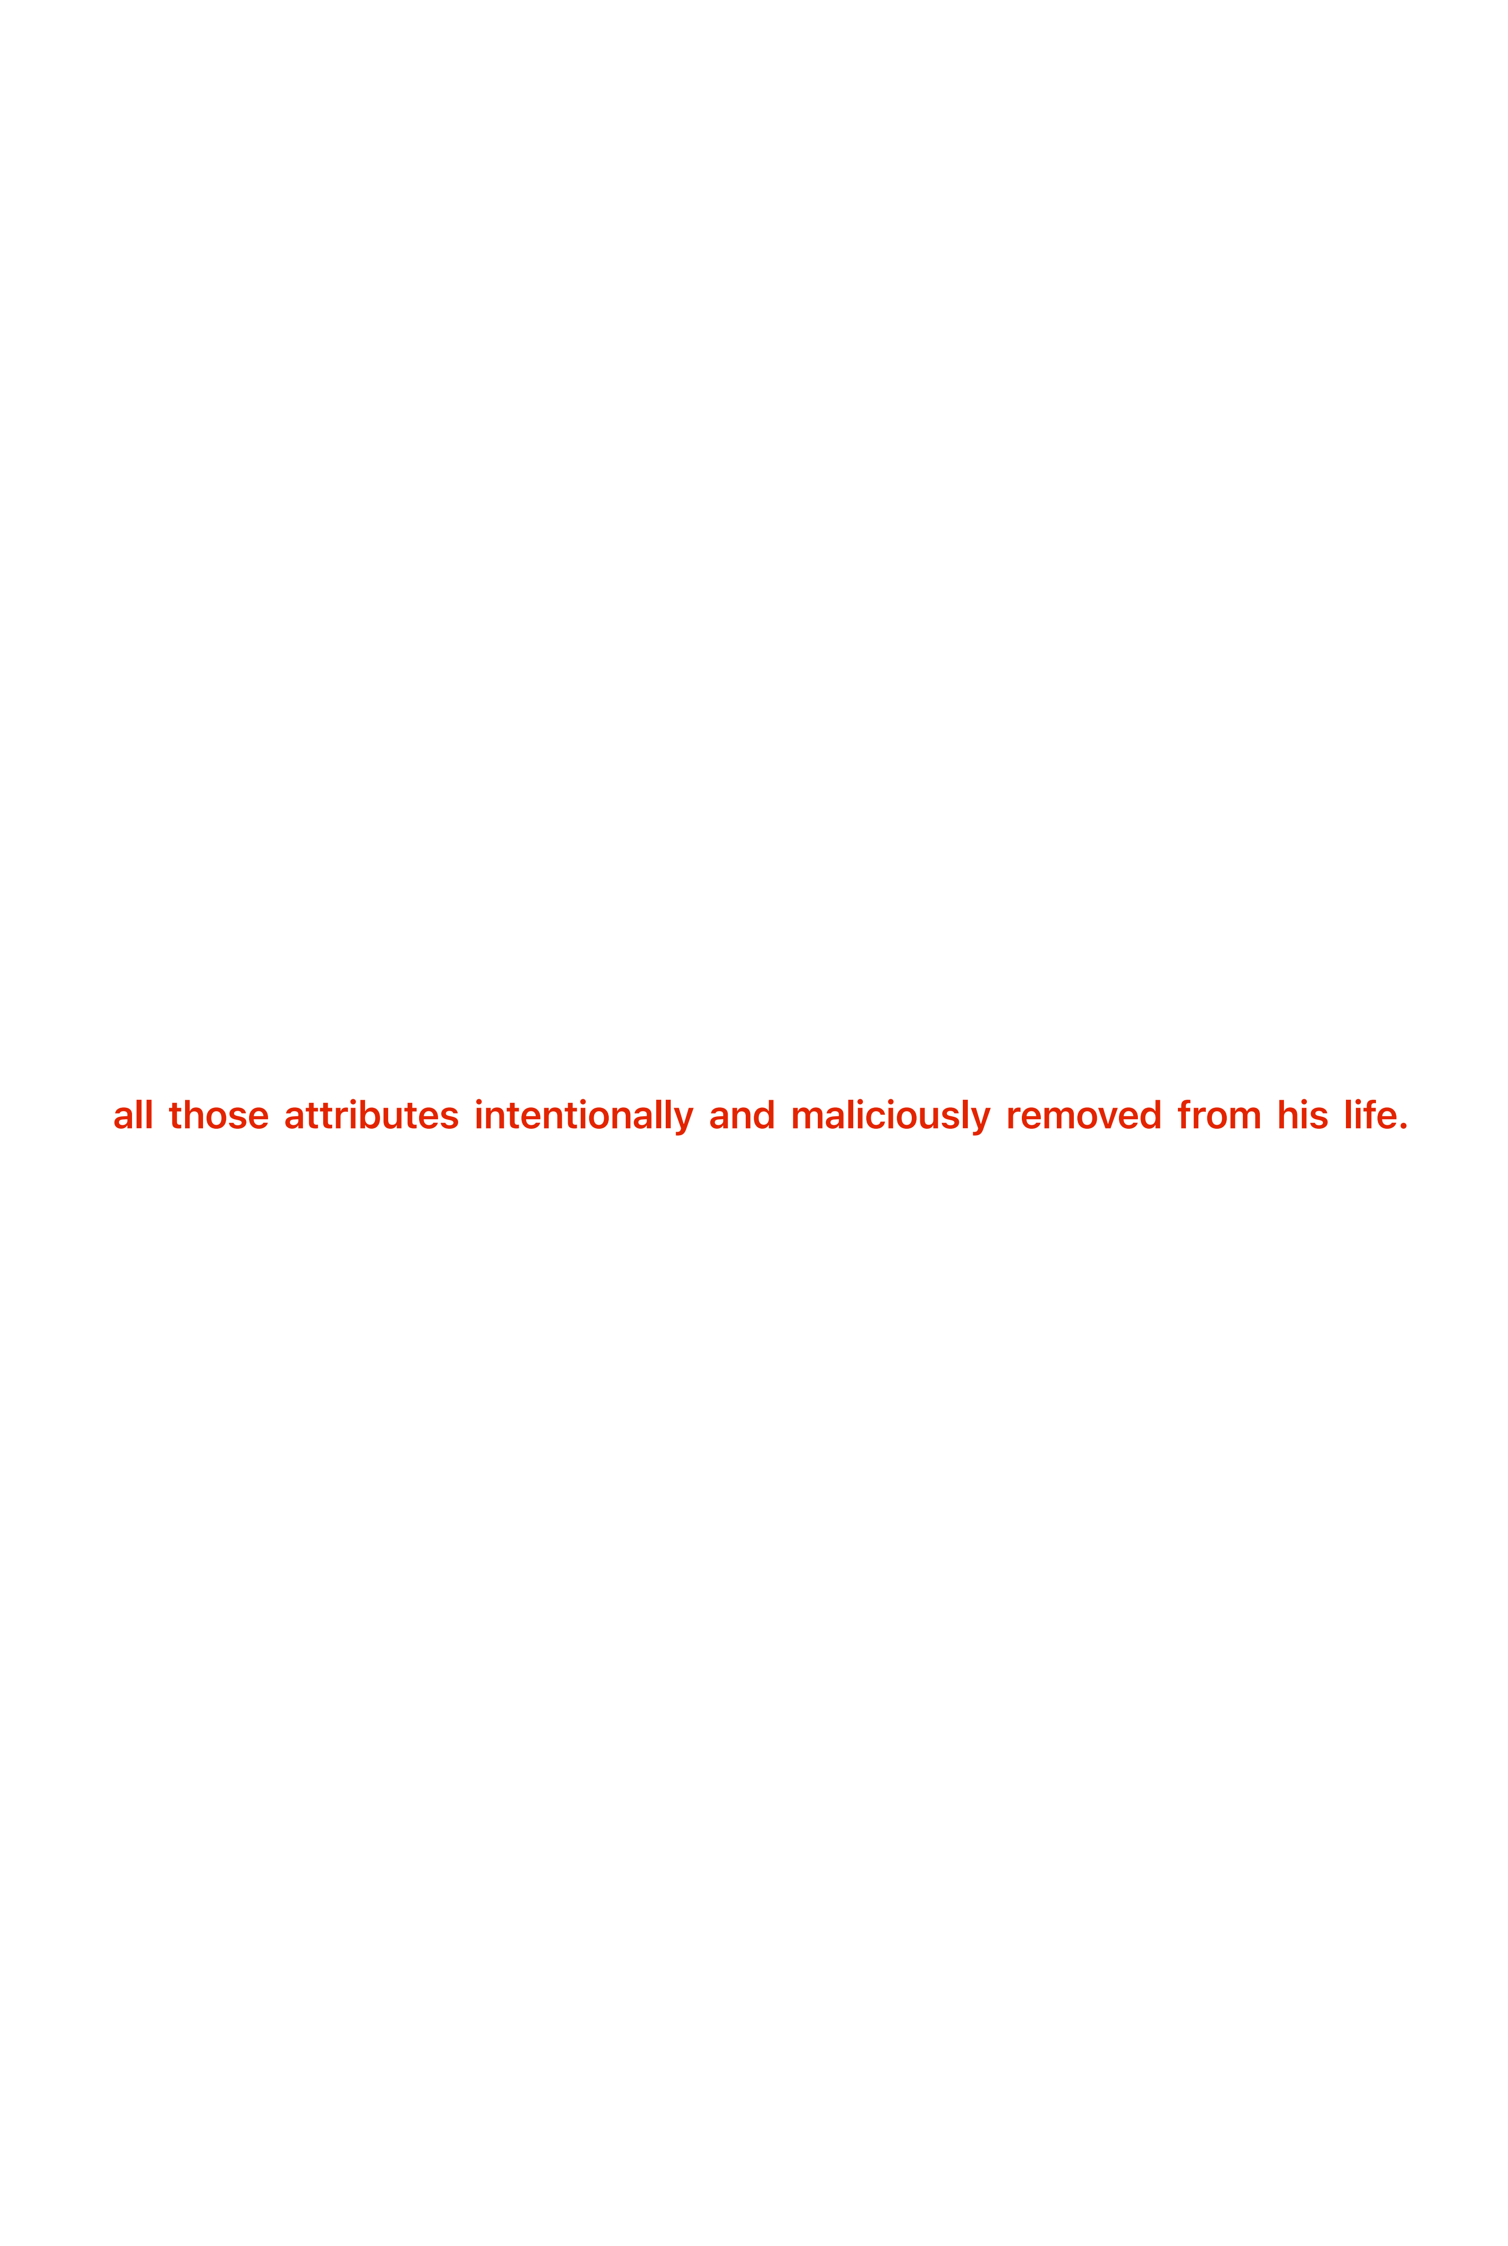

In a letter to the NDIS I stated:' Those in positions of power, wealth, and

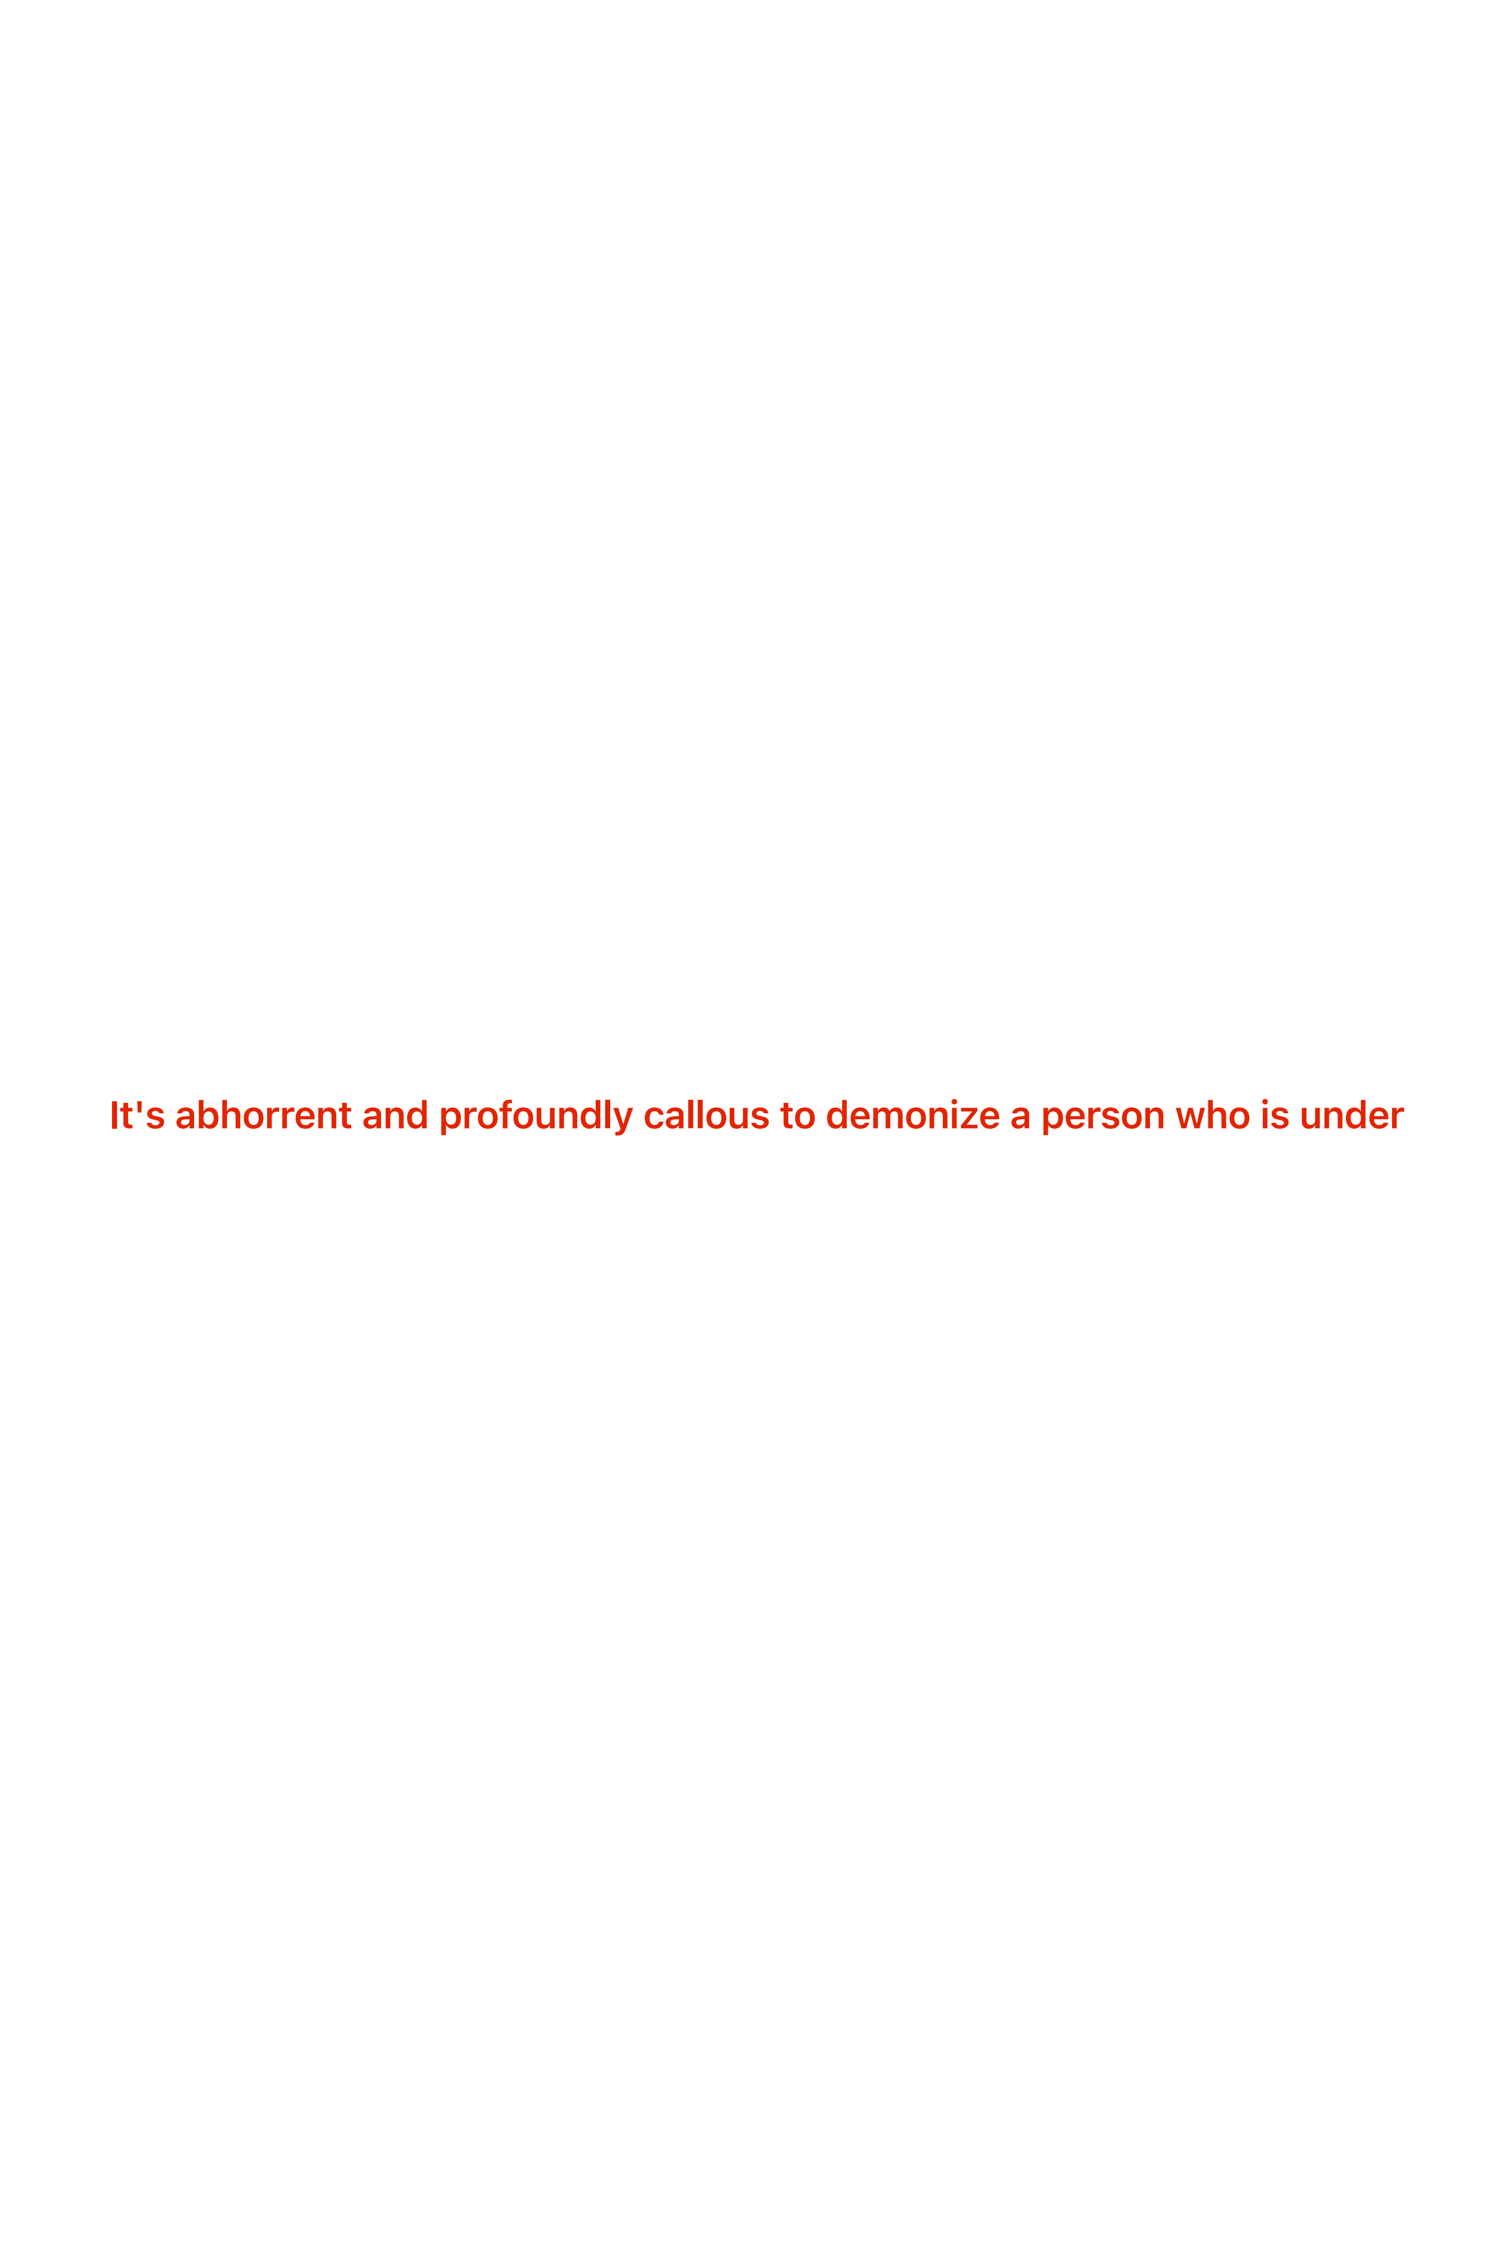

prosperity, who also possess safety, security, liberty, privacy, human

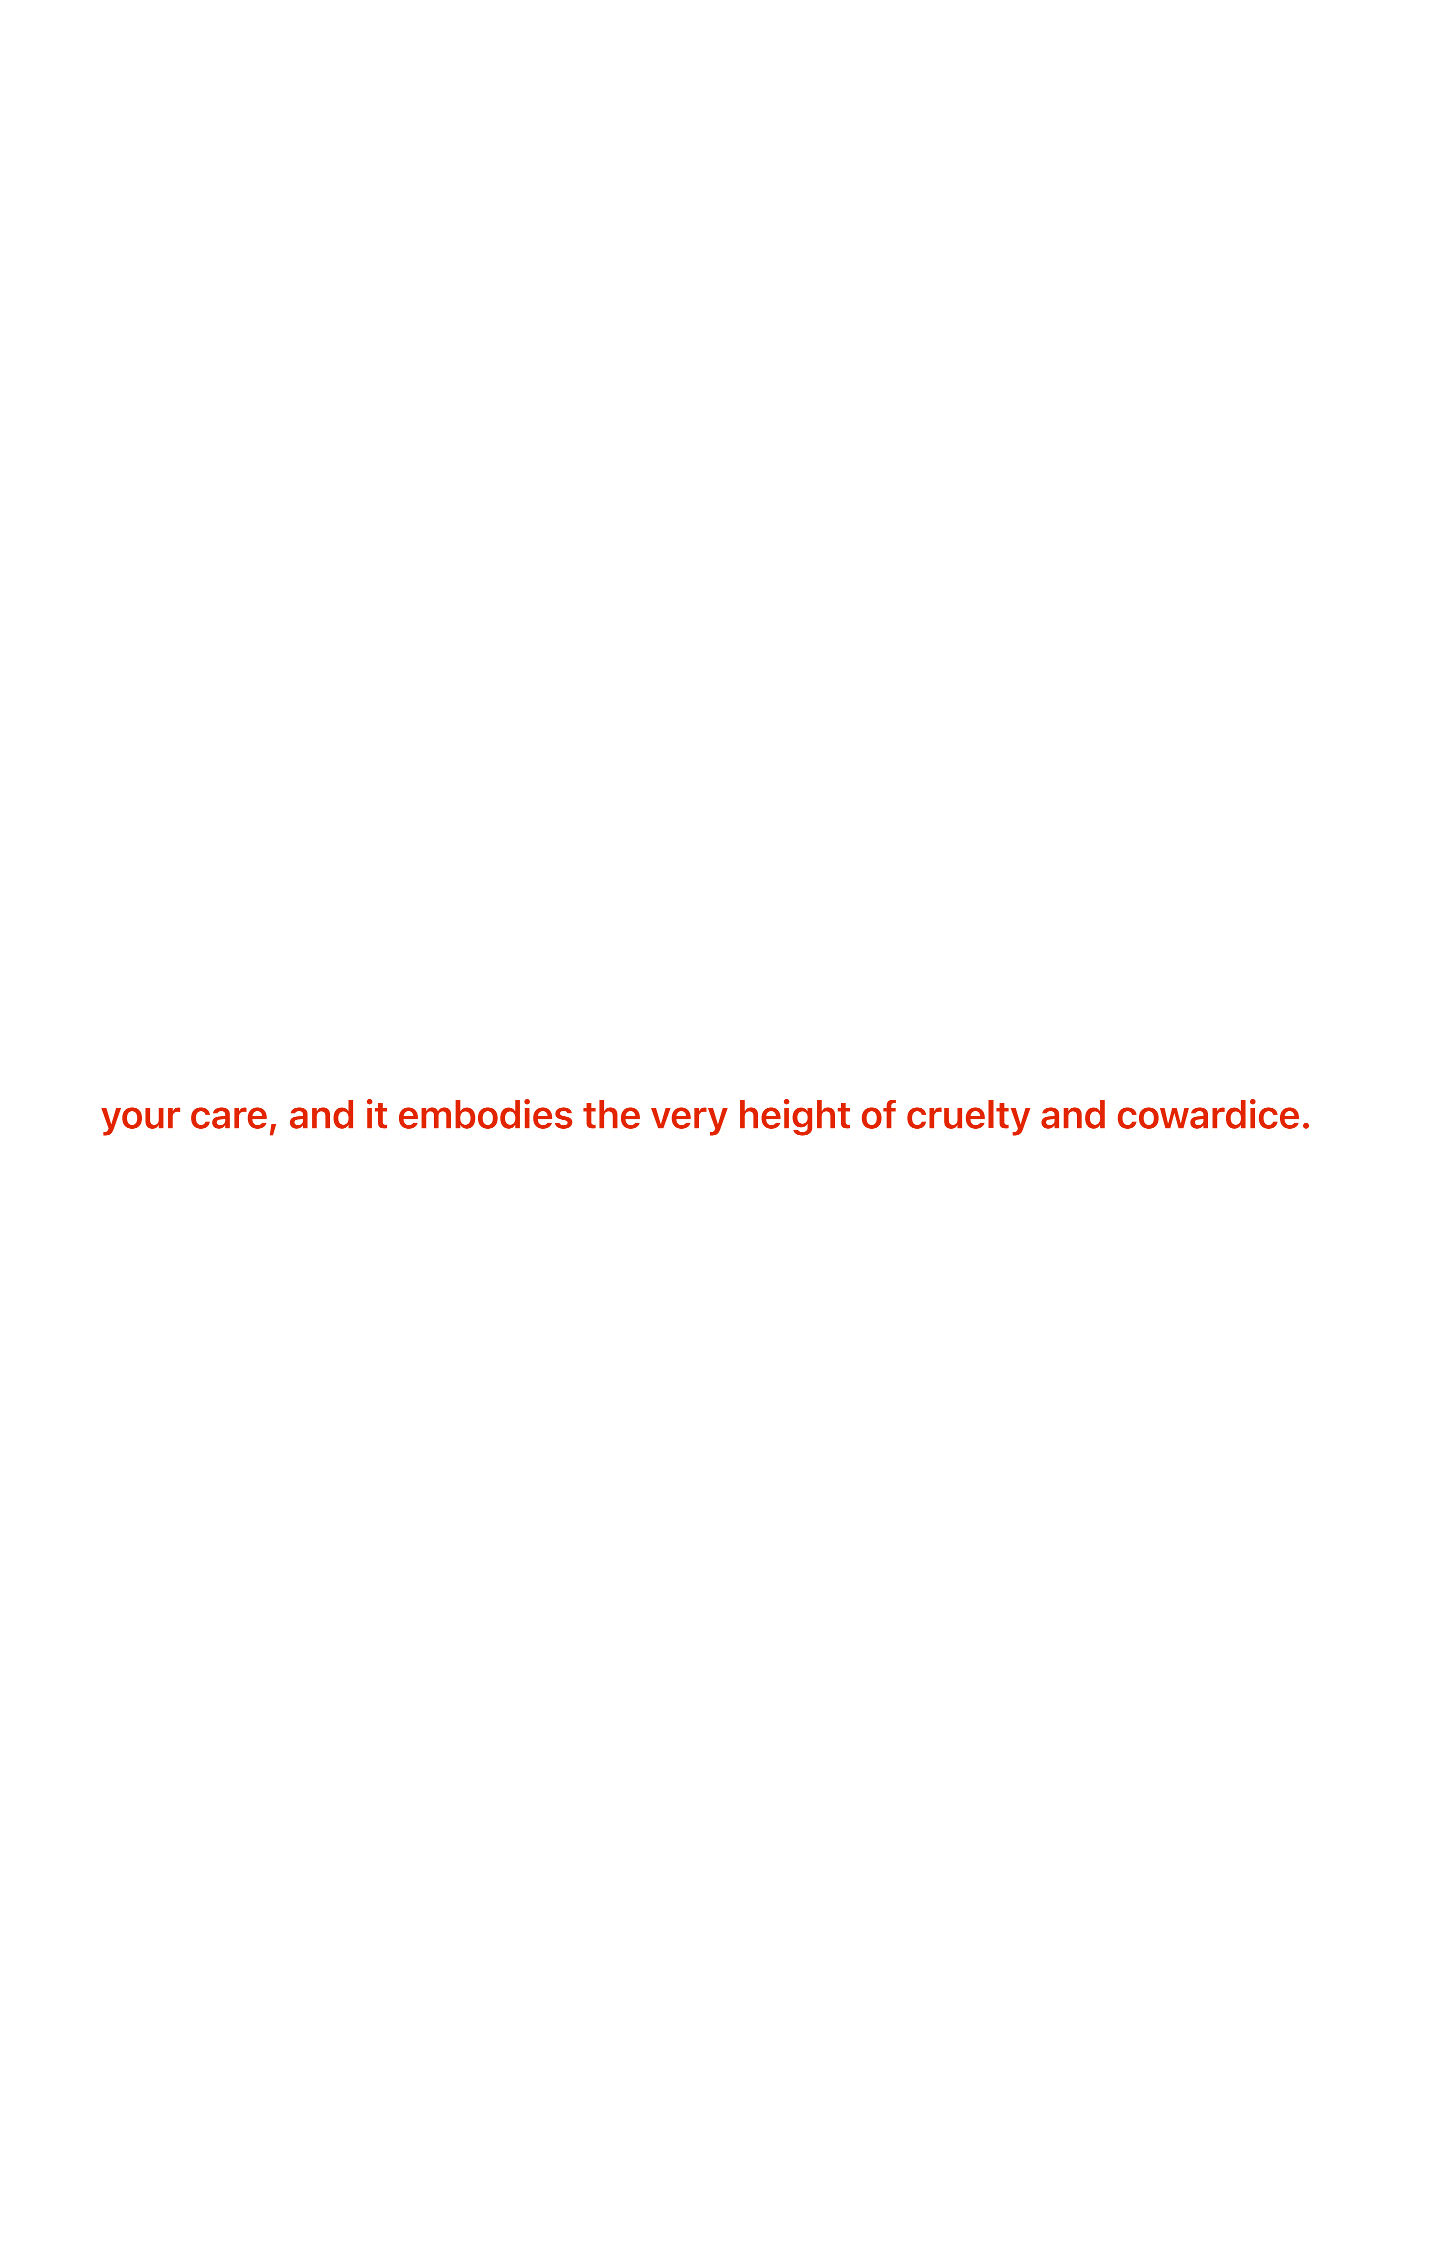

rights, and legal rights, should never, ever utilize their privileged position

to victimize a disabled individual who is already vulnerable and has had

all those attributes intentionally and maliciously removed from his life.

It's abhorrent and profoundly callous to demonize a person who is under

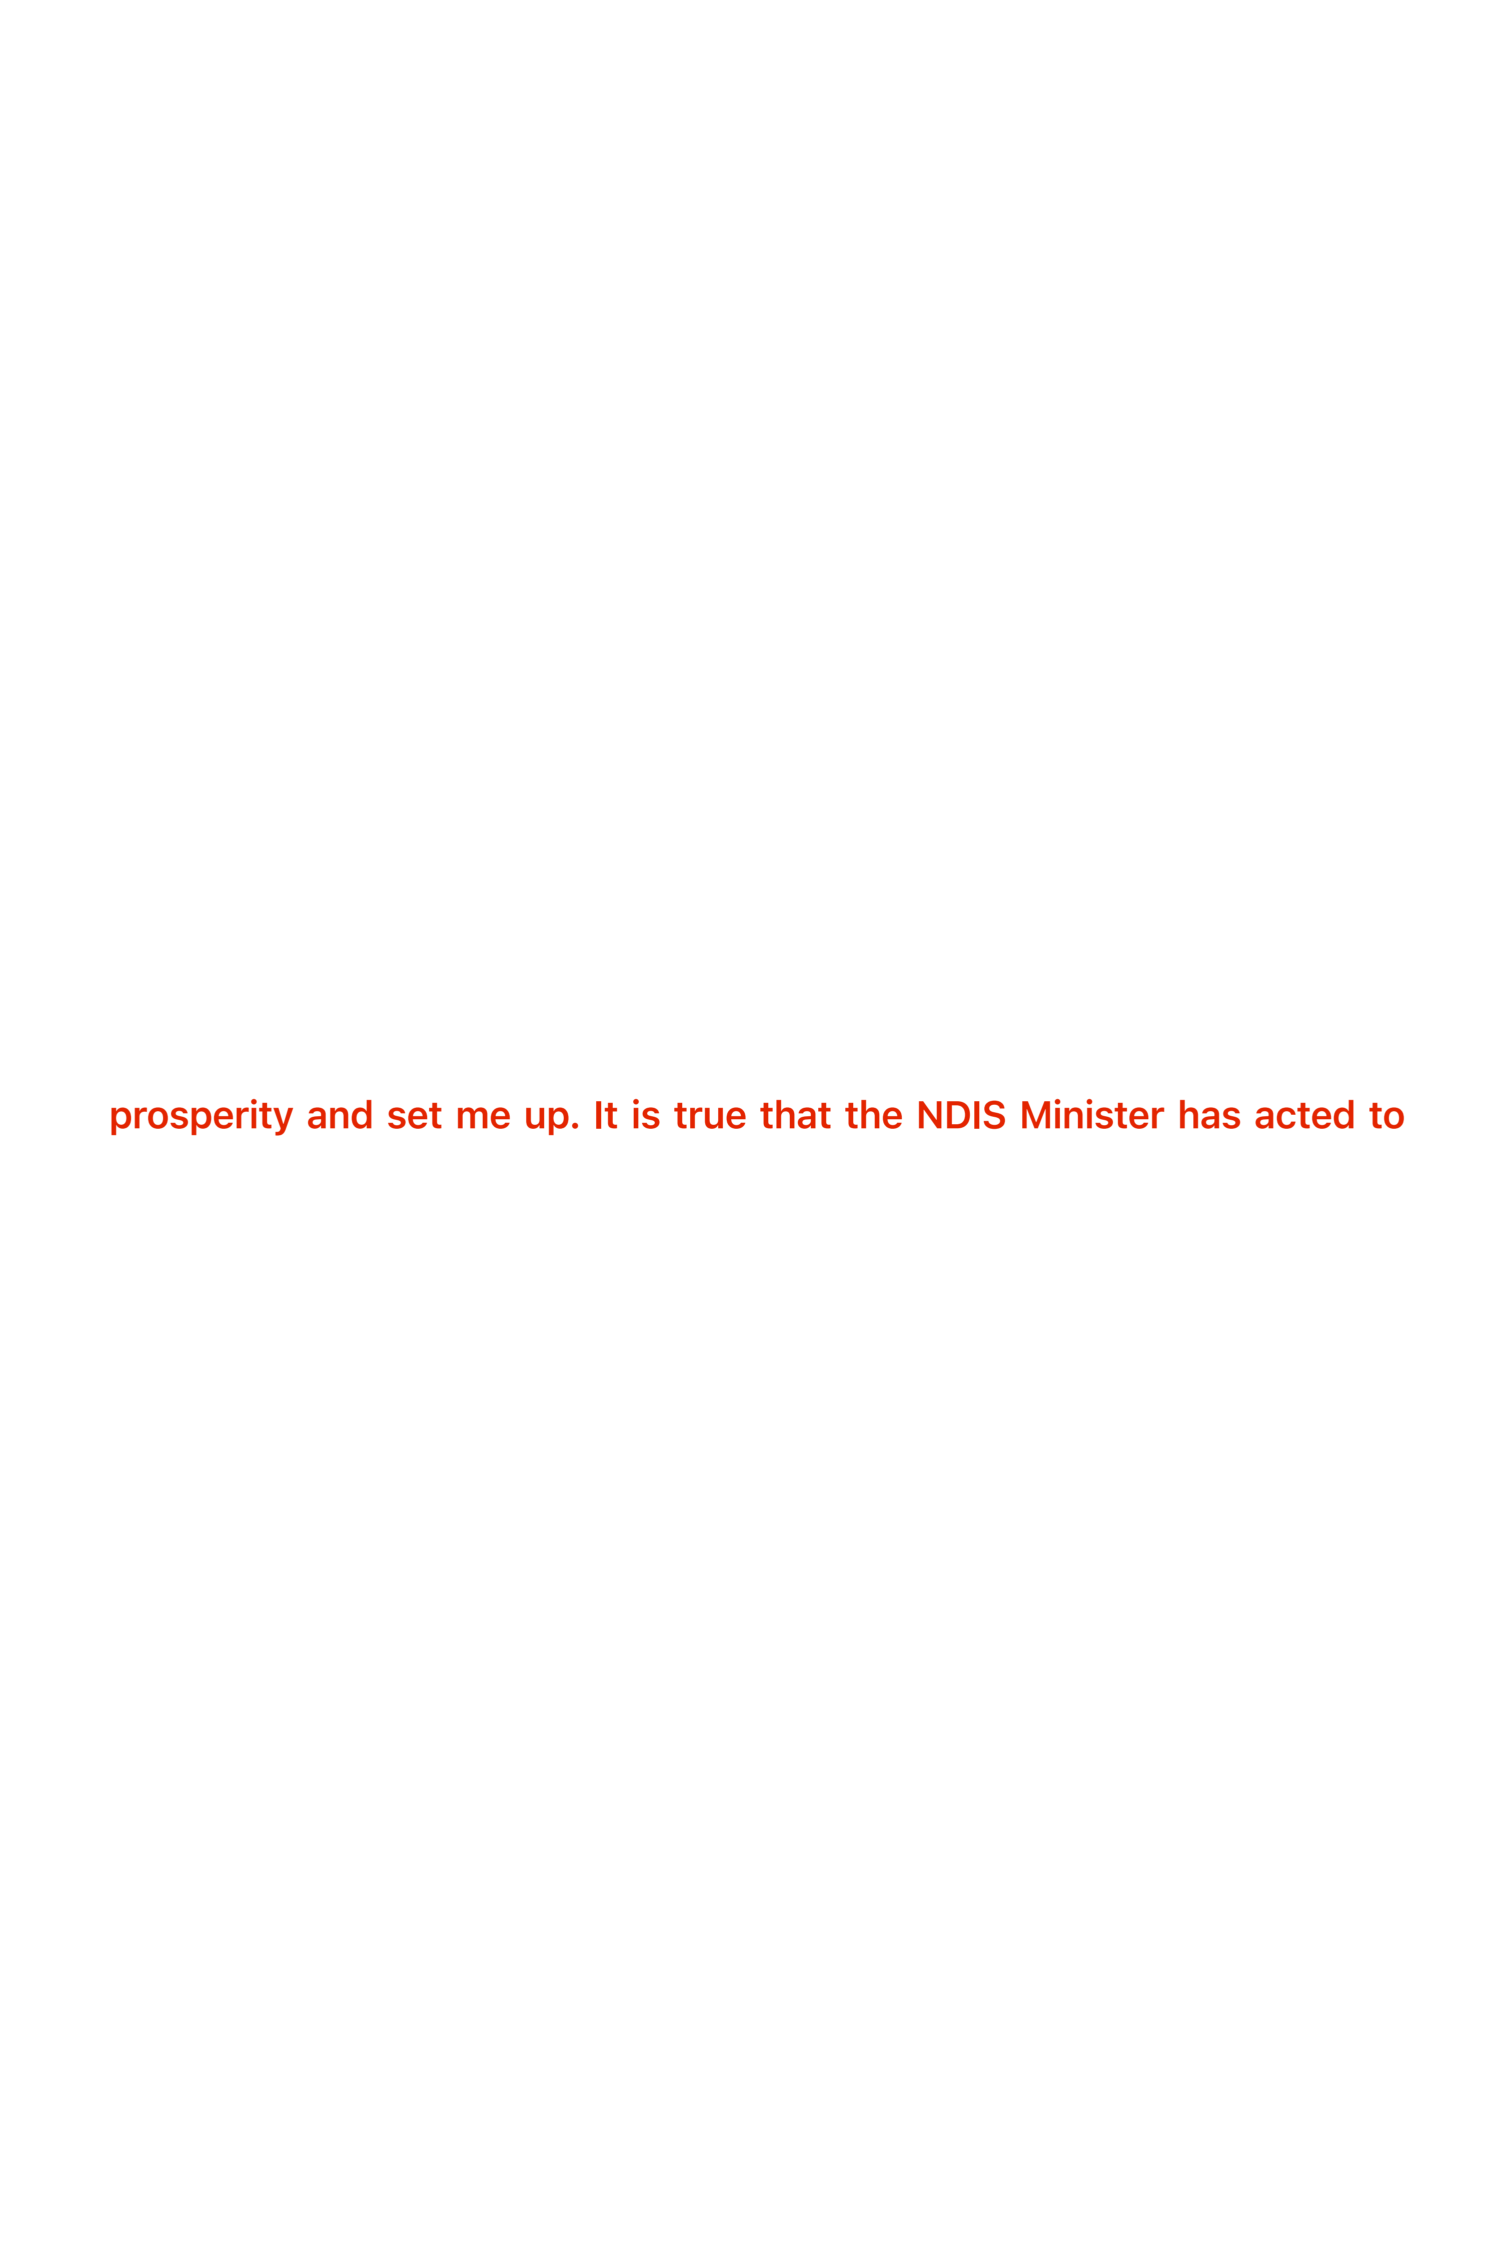

your care, and it embodies the very height of cruelty and cowardice.

I am also aware, via Kevin Northcott, another NDIS client and violent

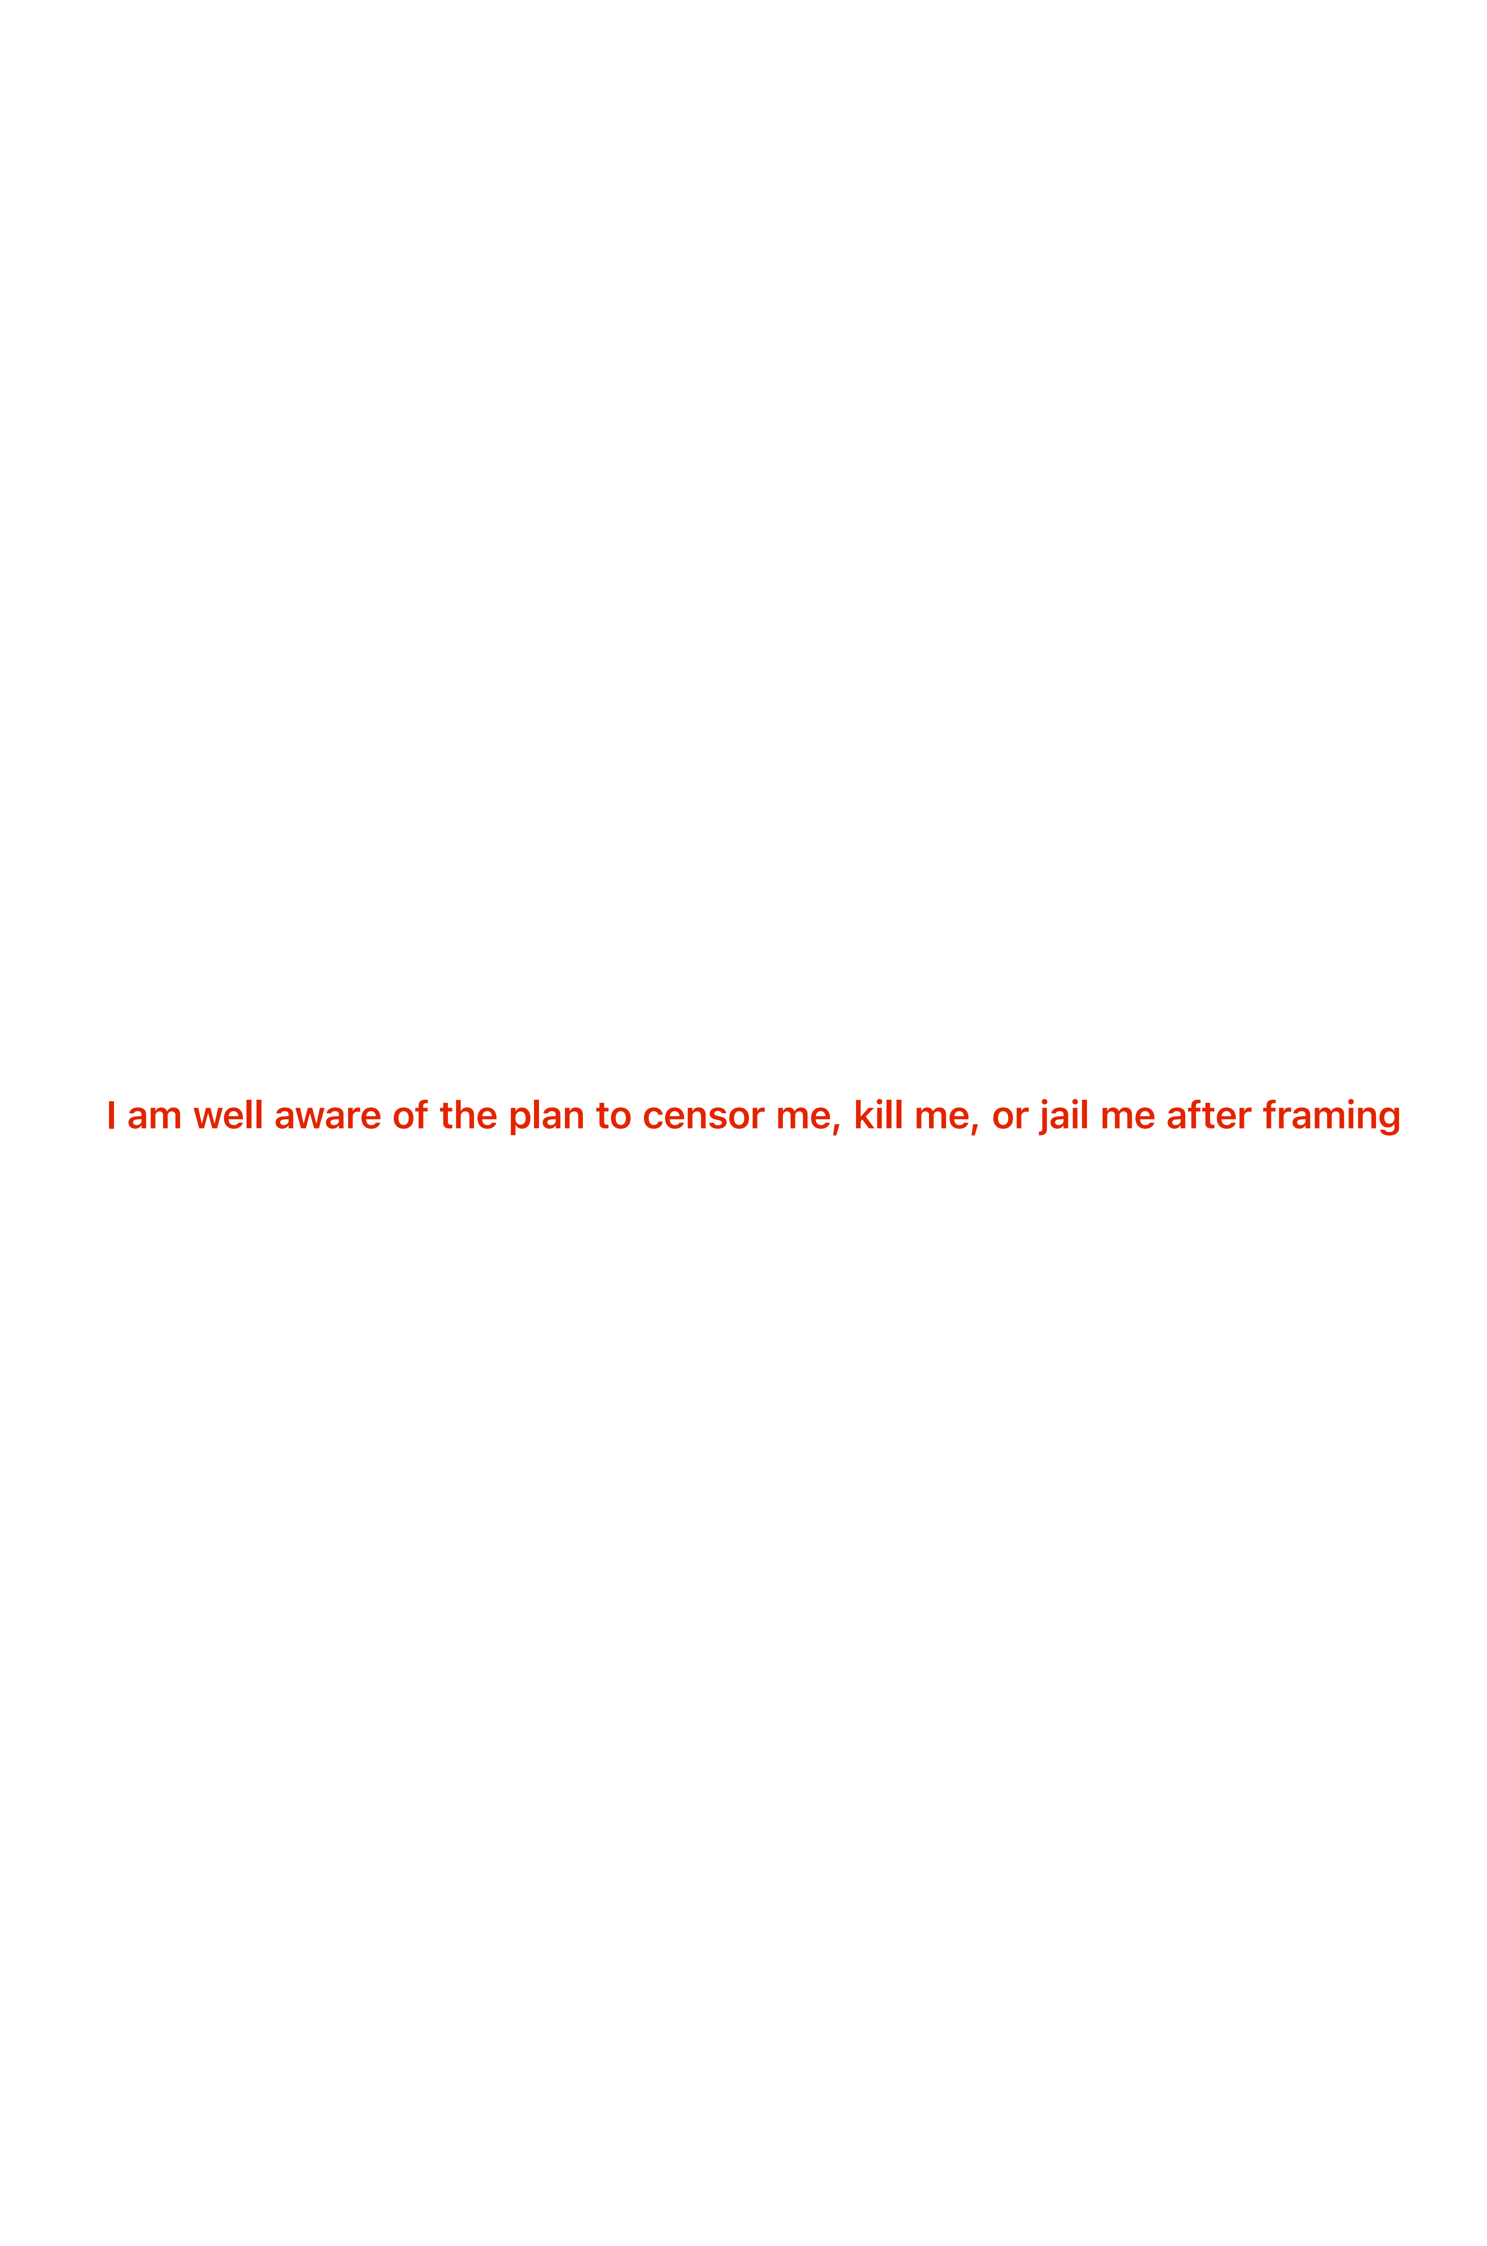

criminal and his sources familiar with Michael Quinn, NDIS

(0430070473), that the NDIS has chosen a method to restrict my

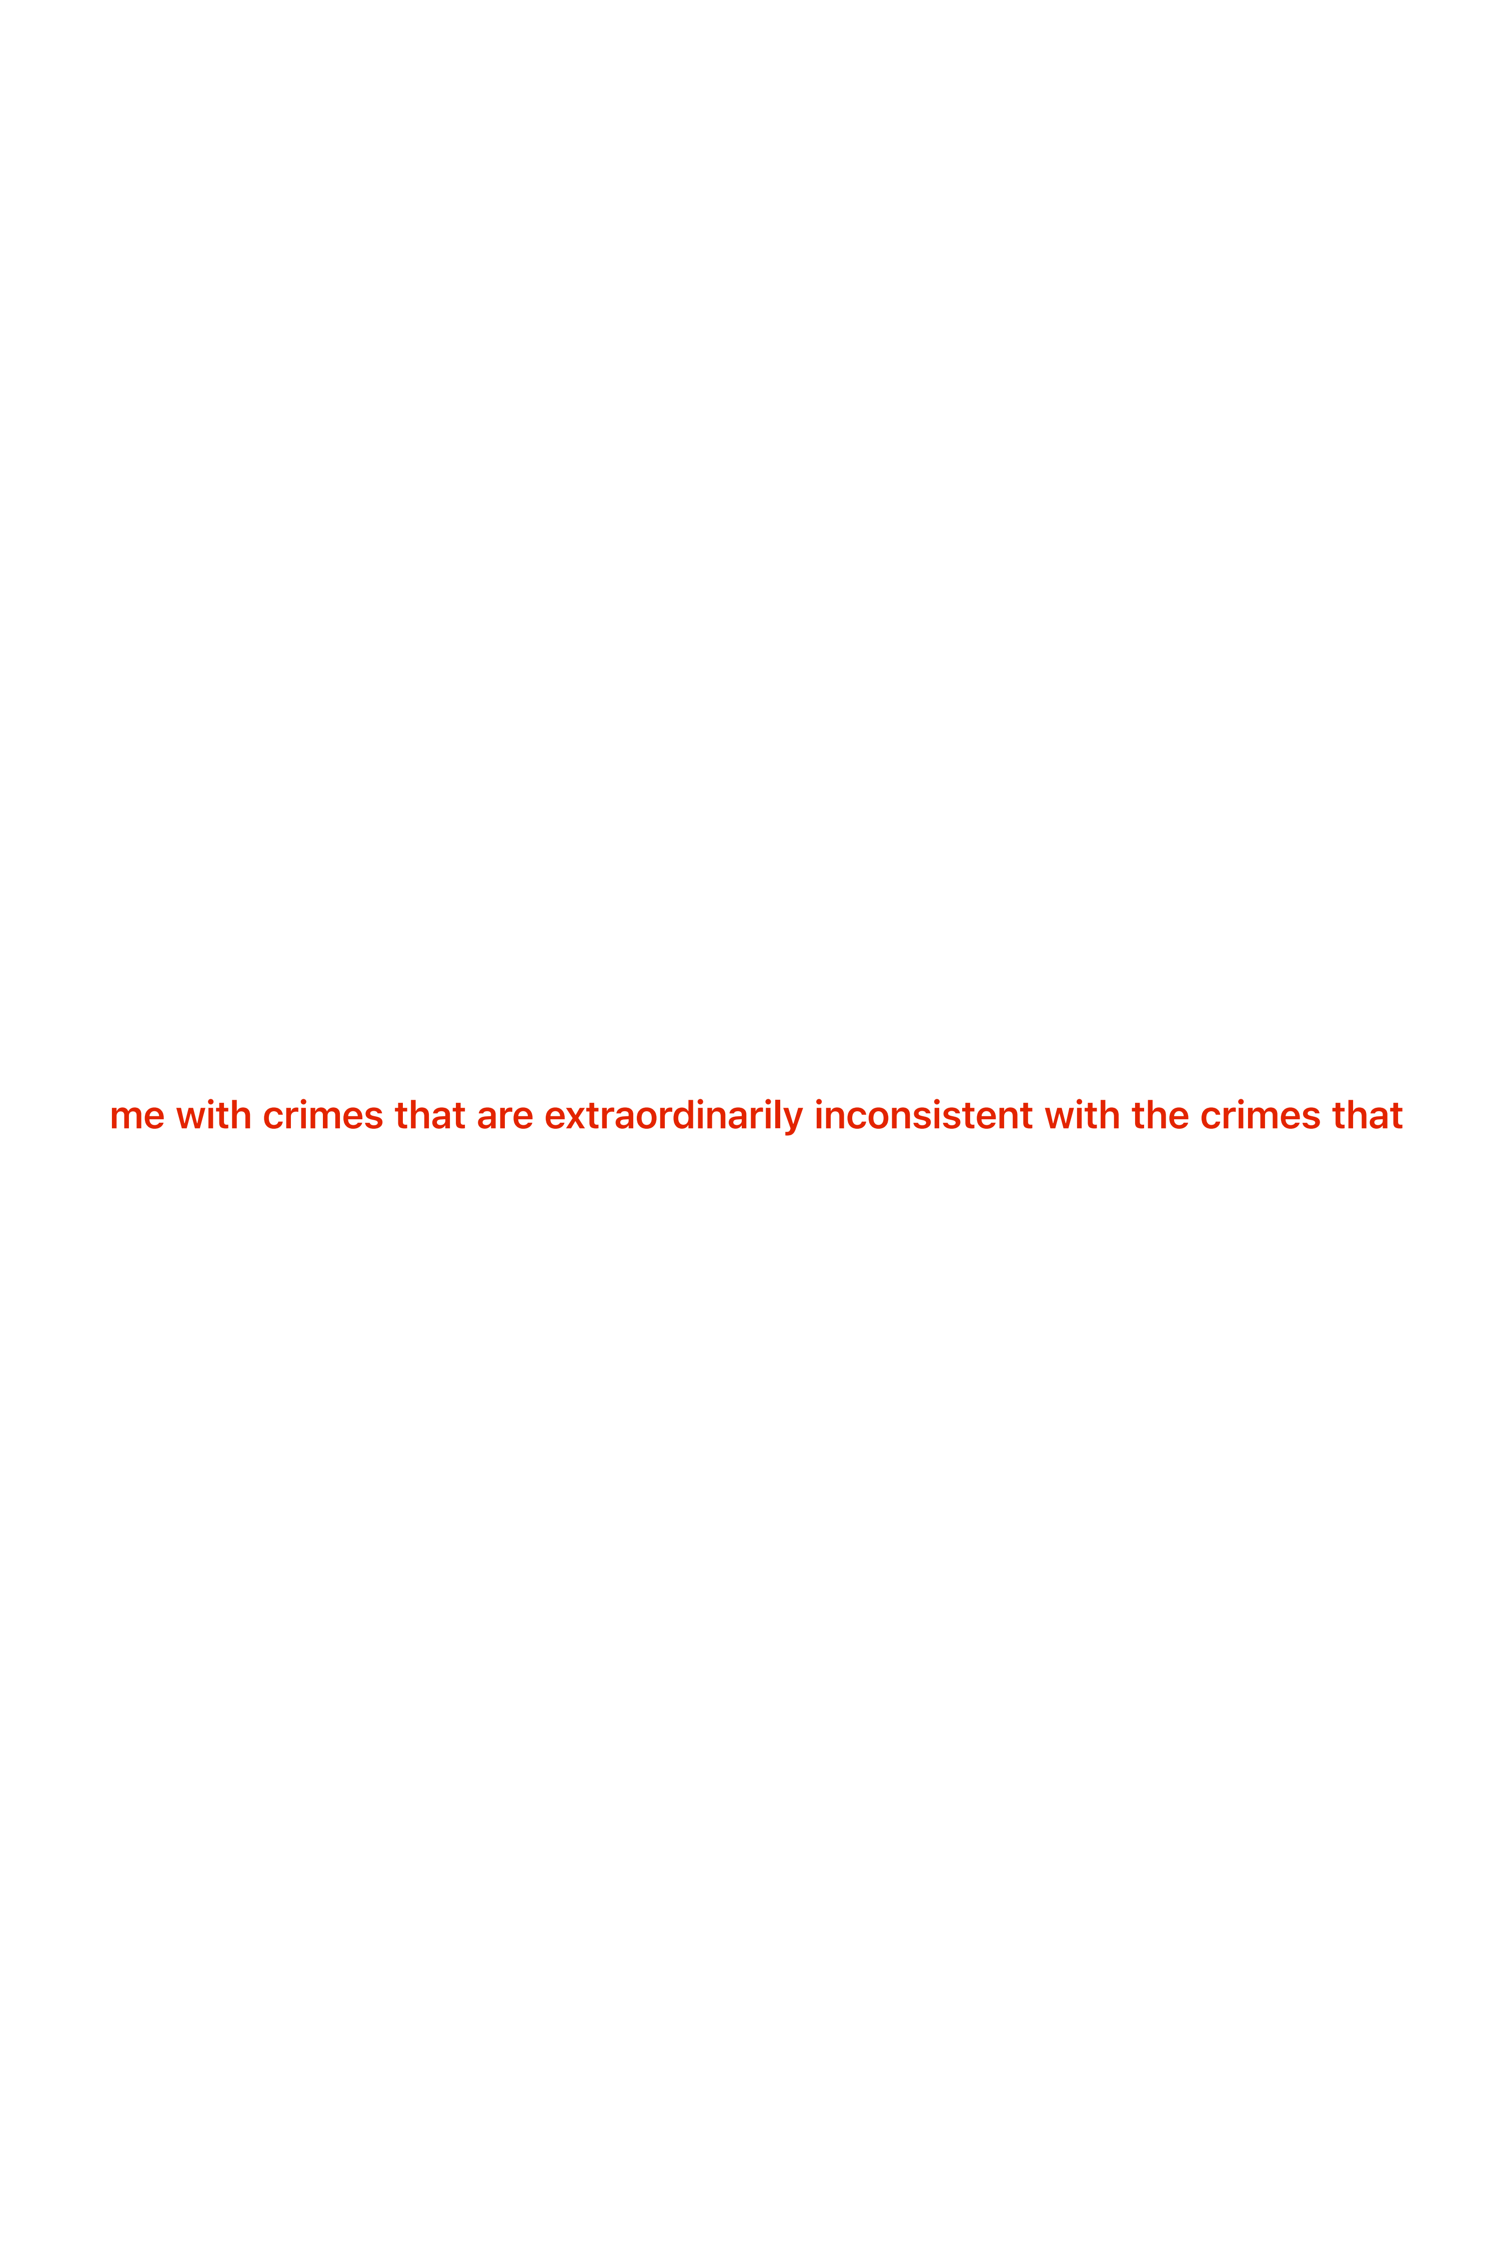

prosperity and set me up. It is true that the NDIS Minister has acted to

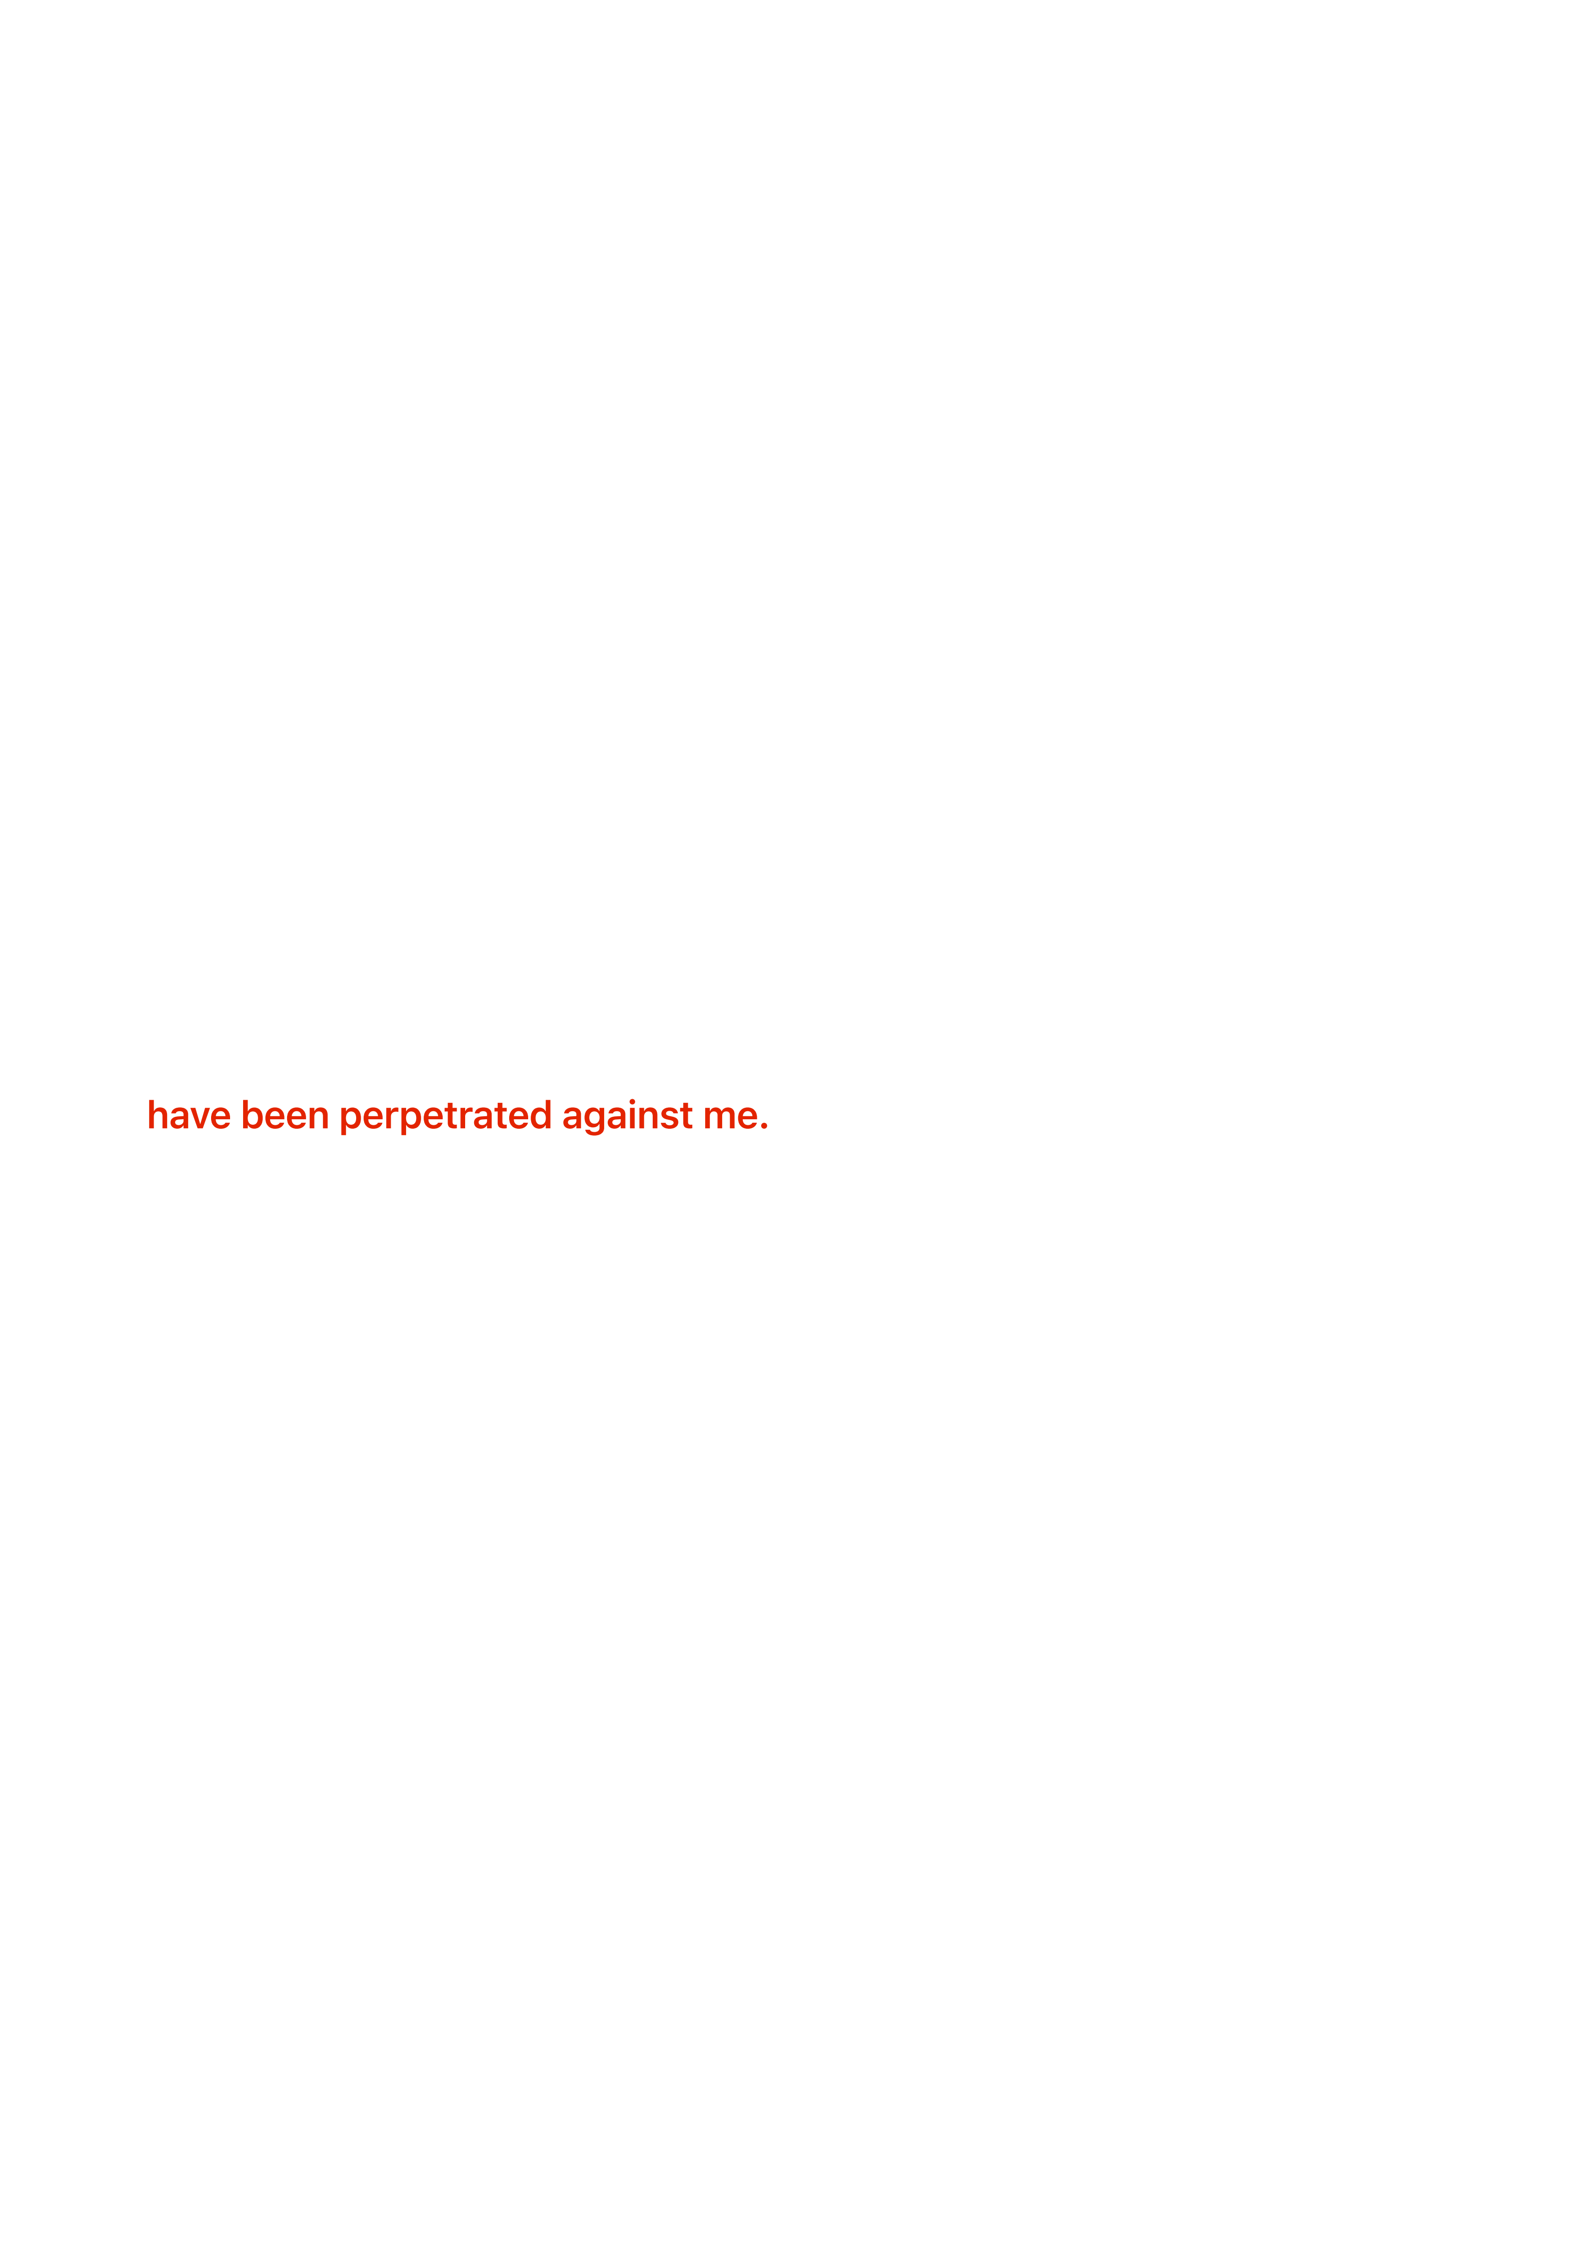

use political privilege to potentially jail me as a rejected whistleblower

open to political retribution and revenge.

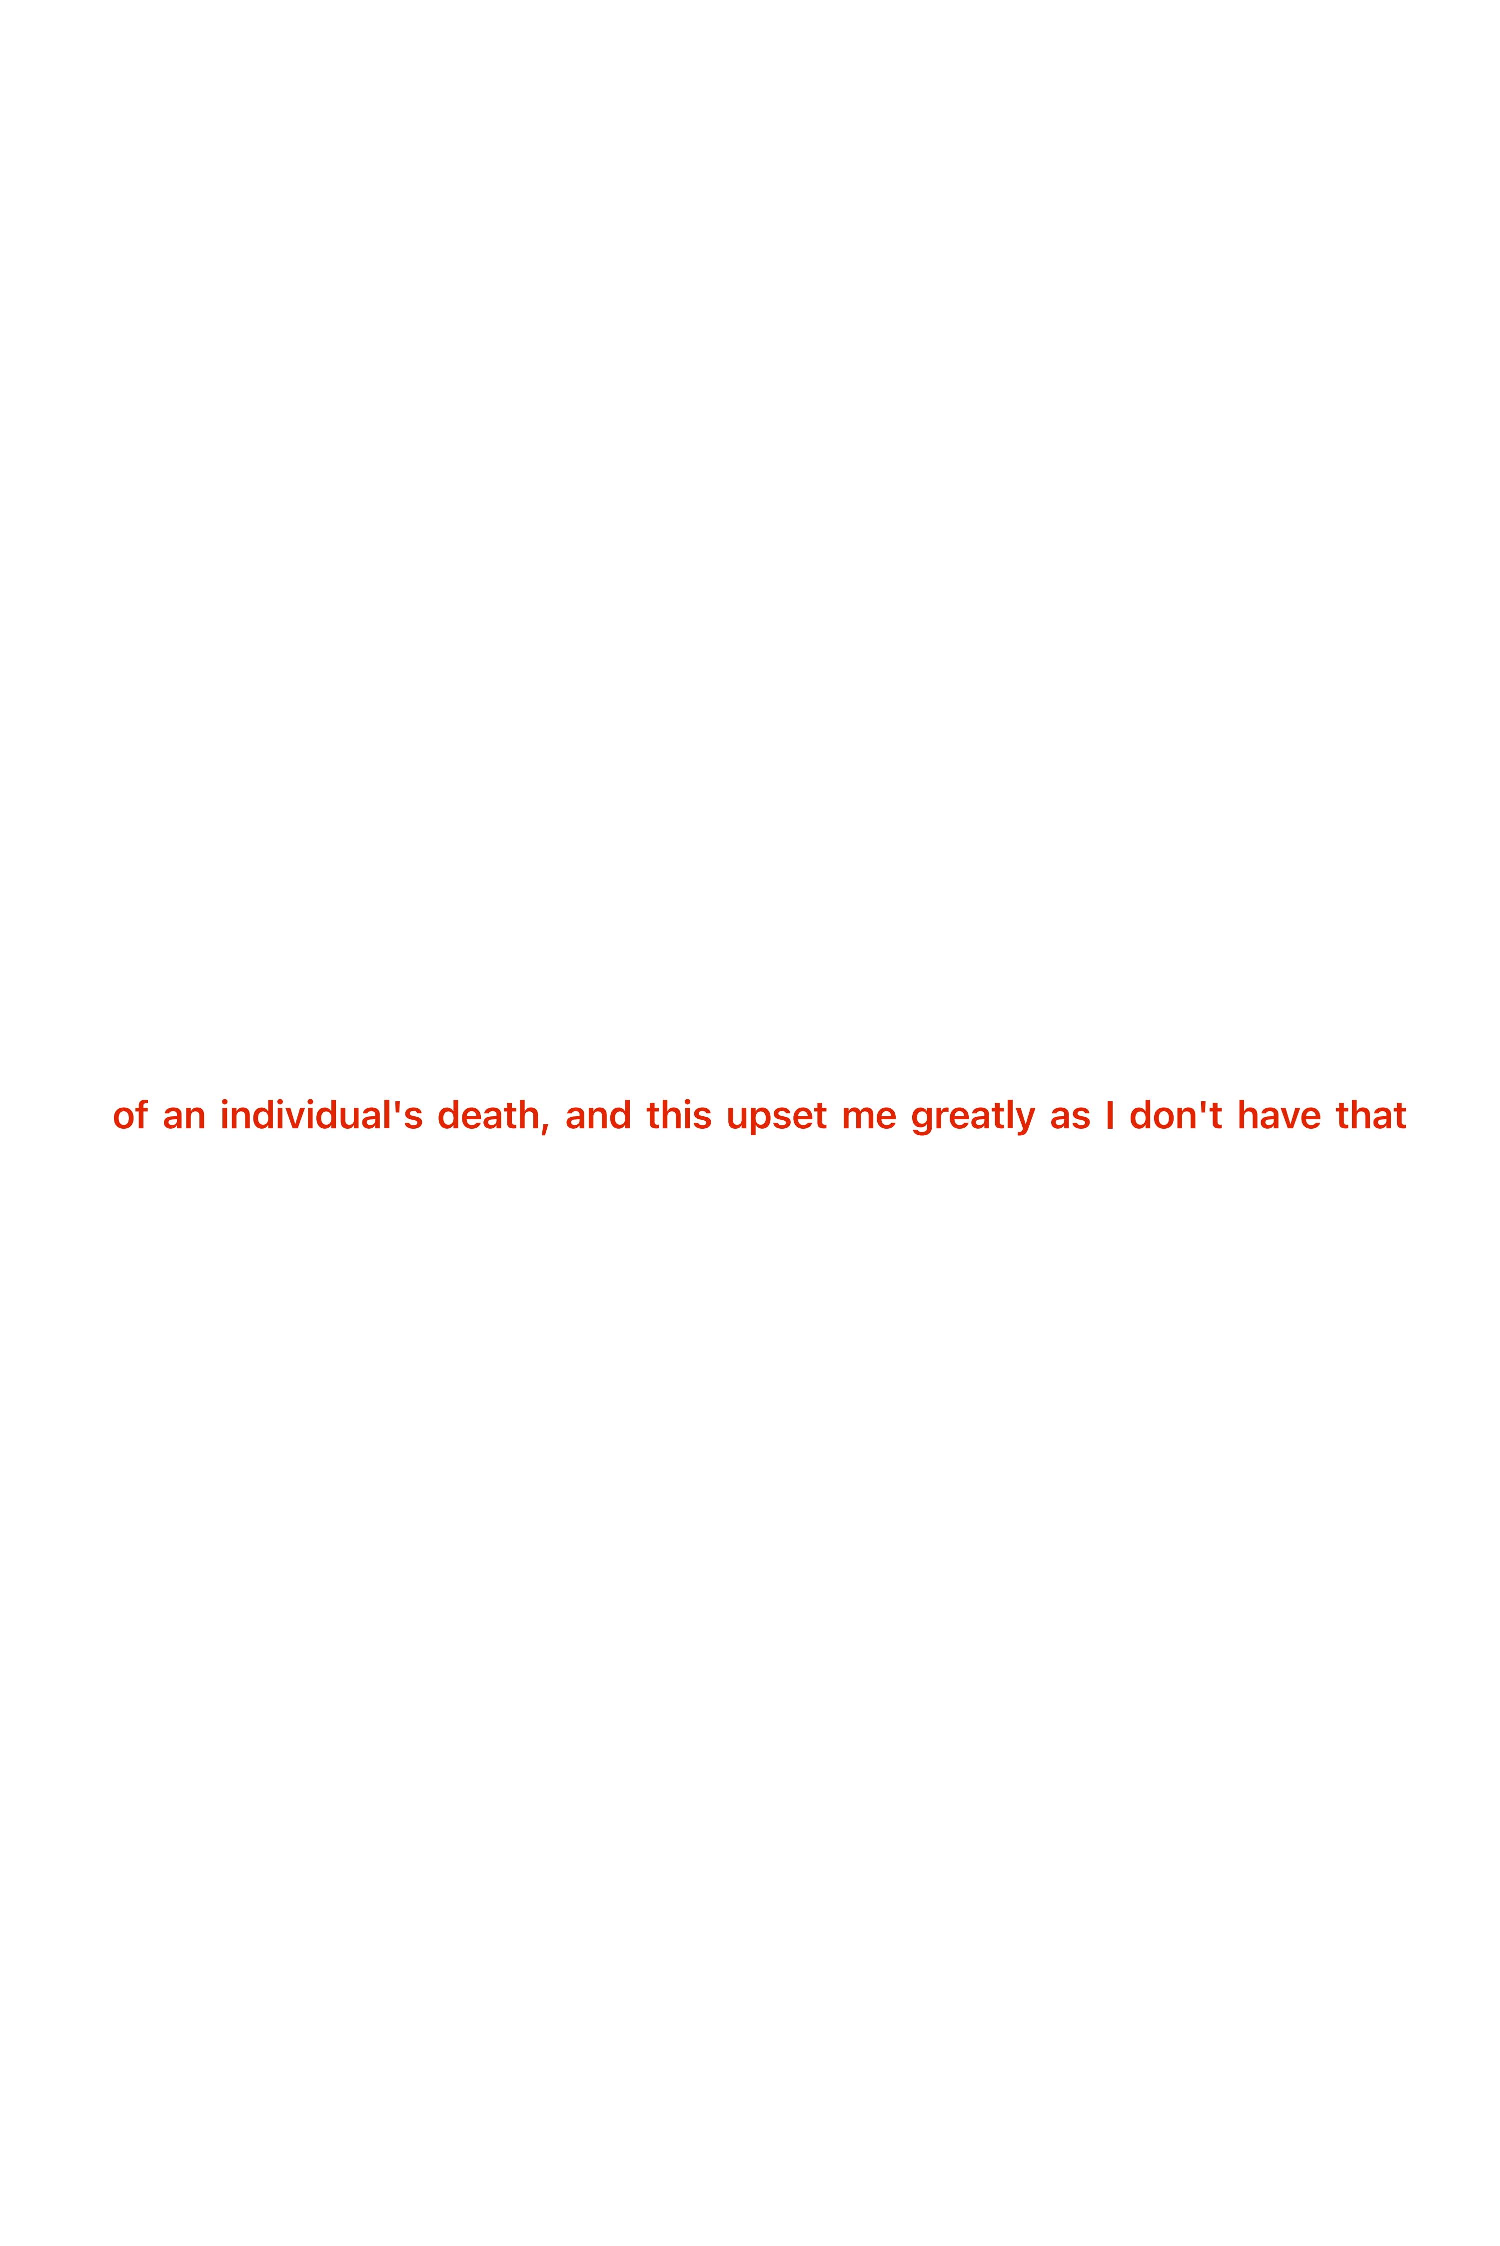

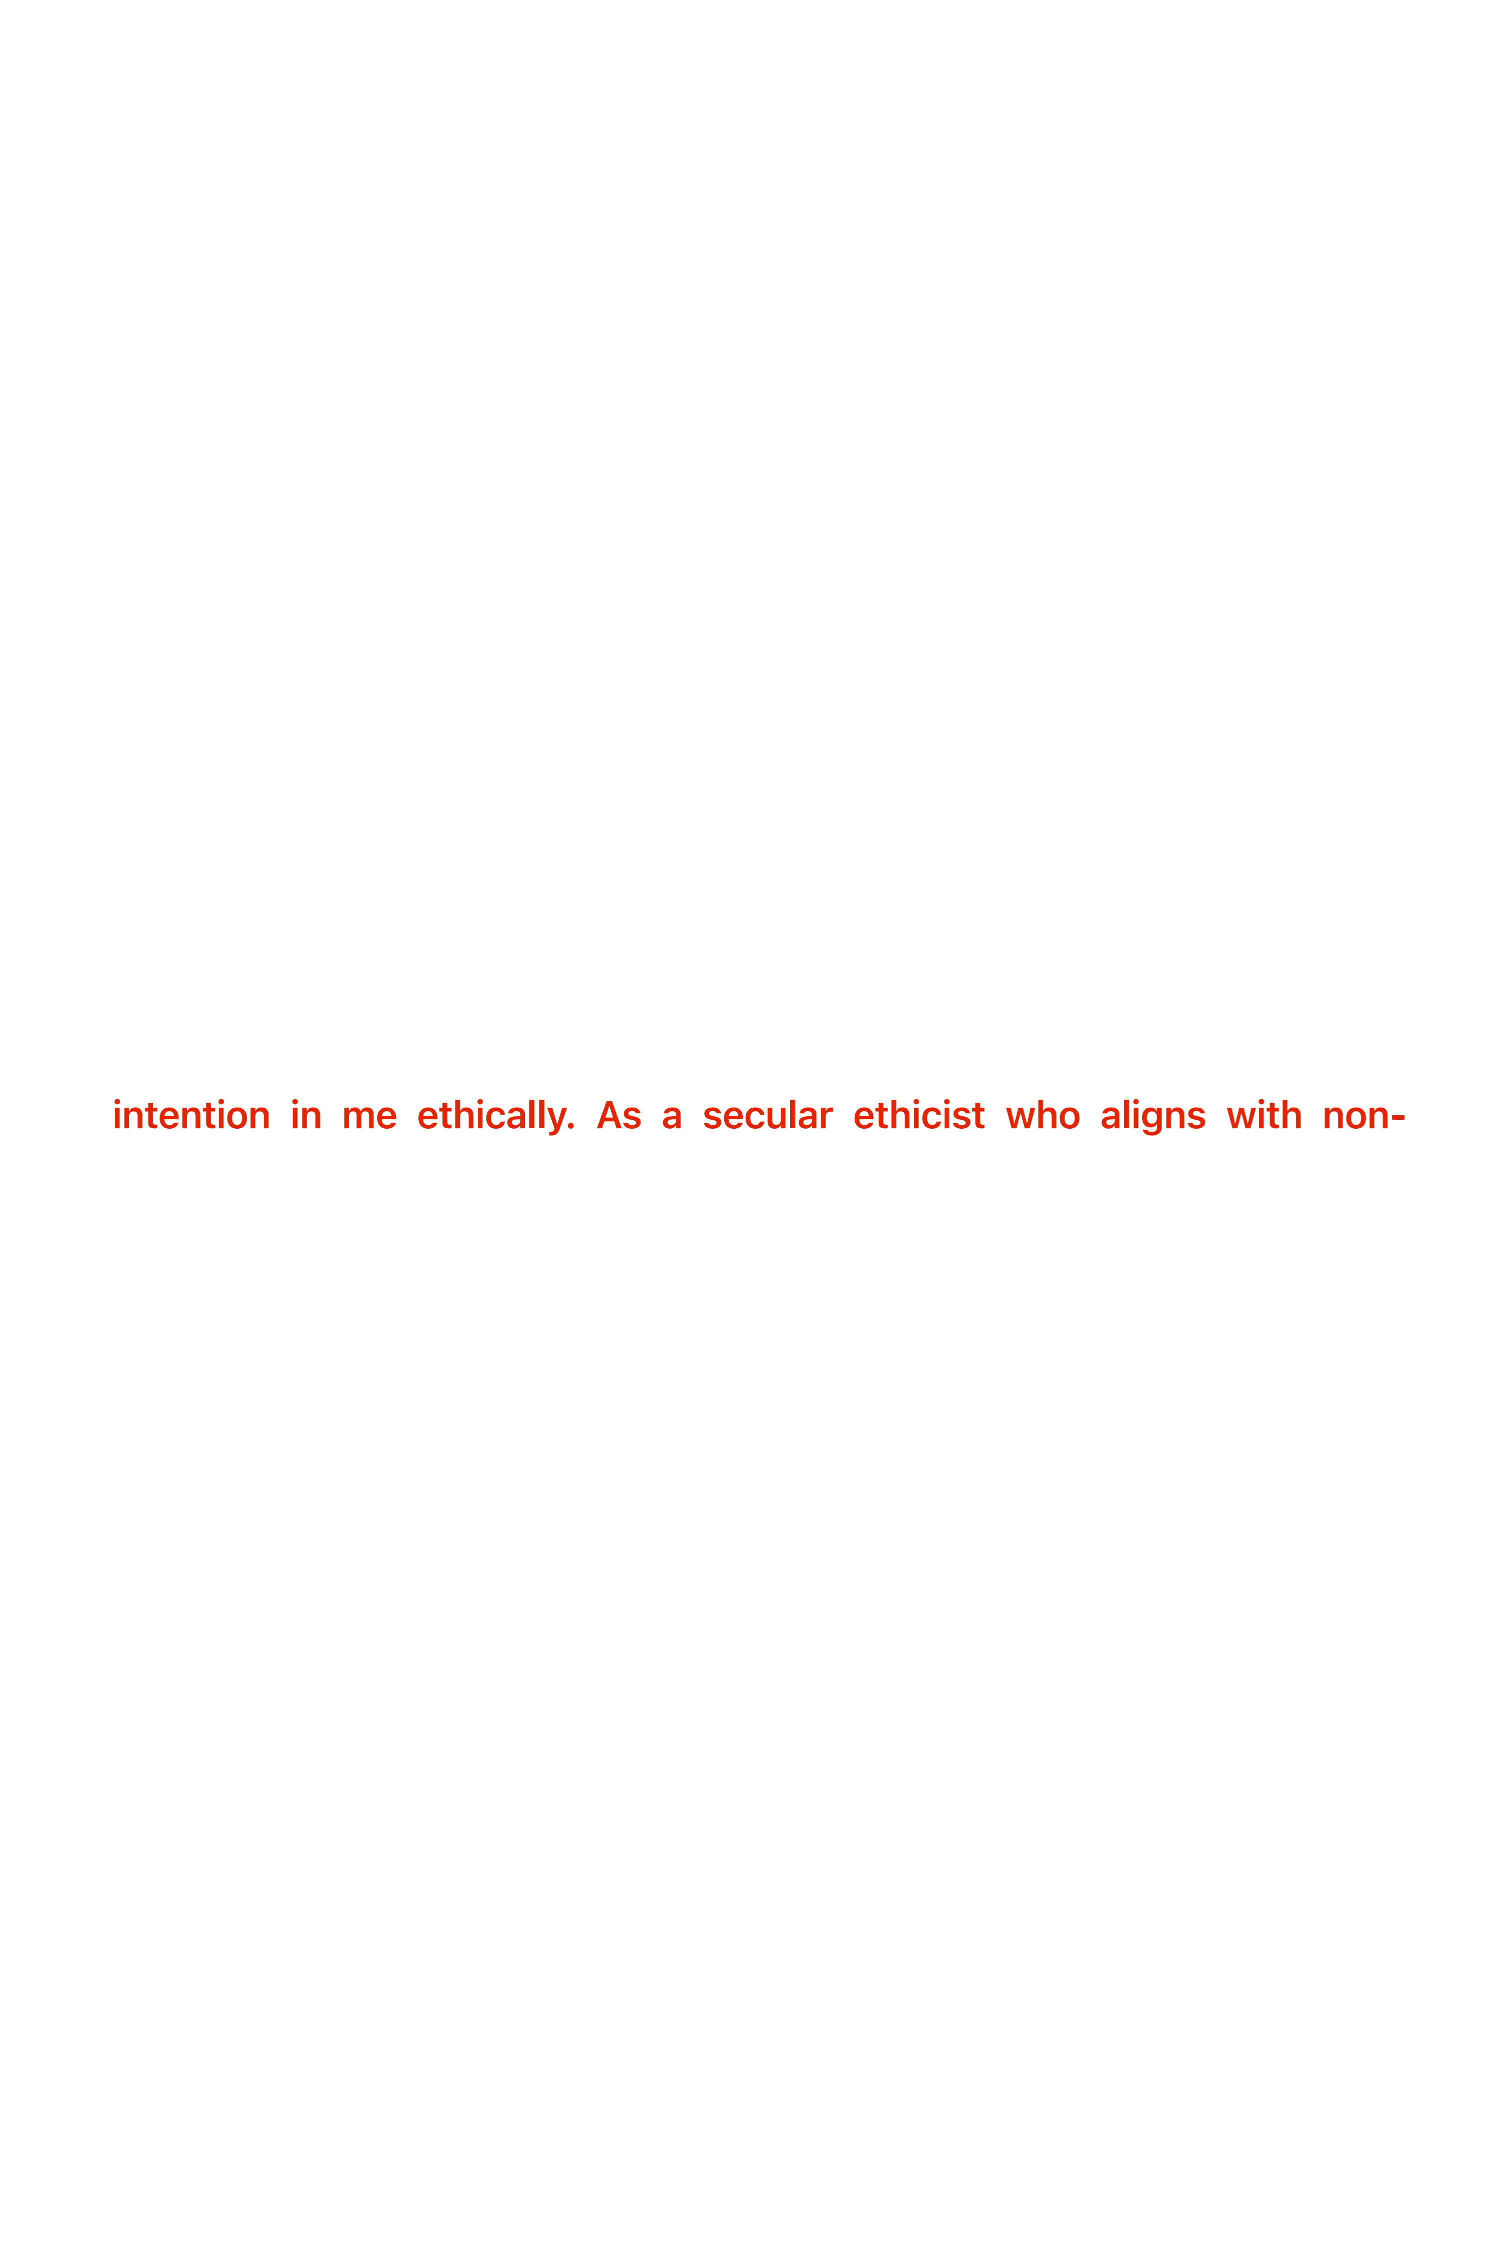

I am well aware of the plan to censor me, kill me, or jail me after framing

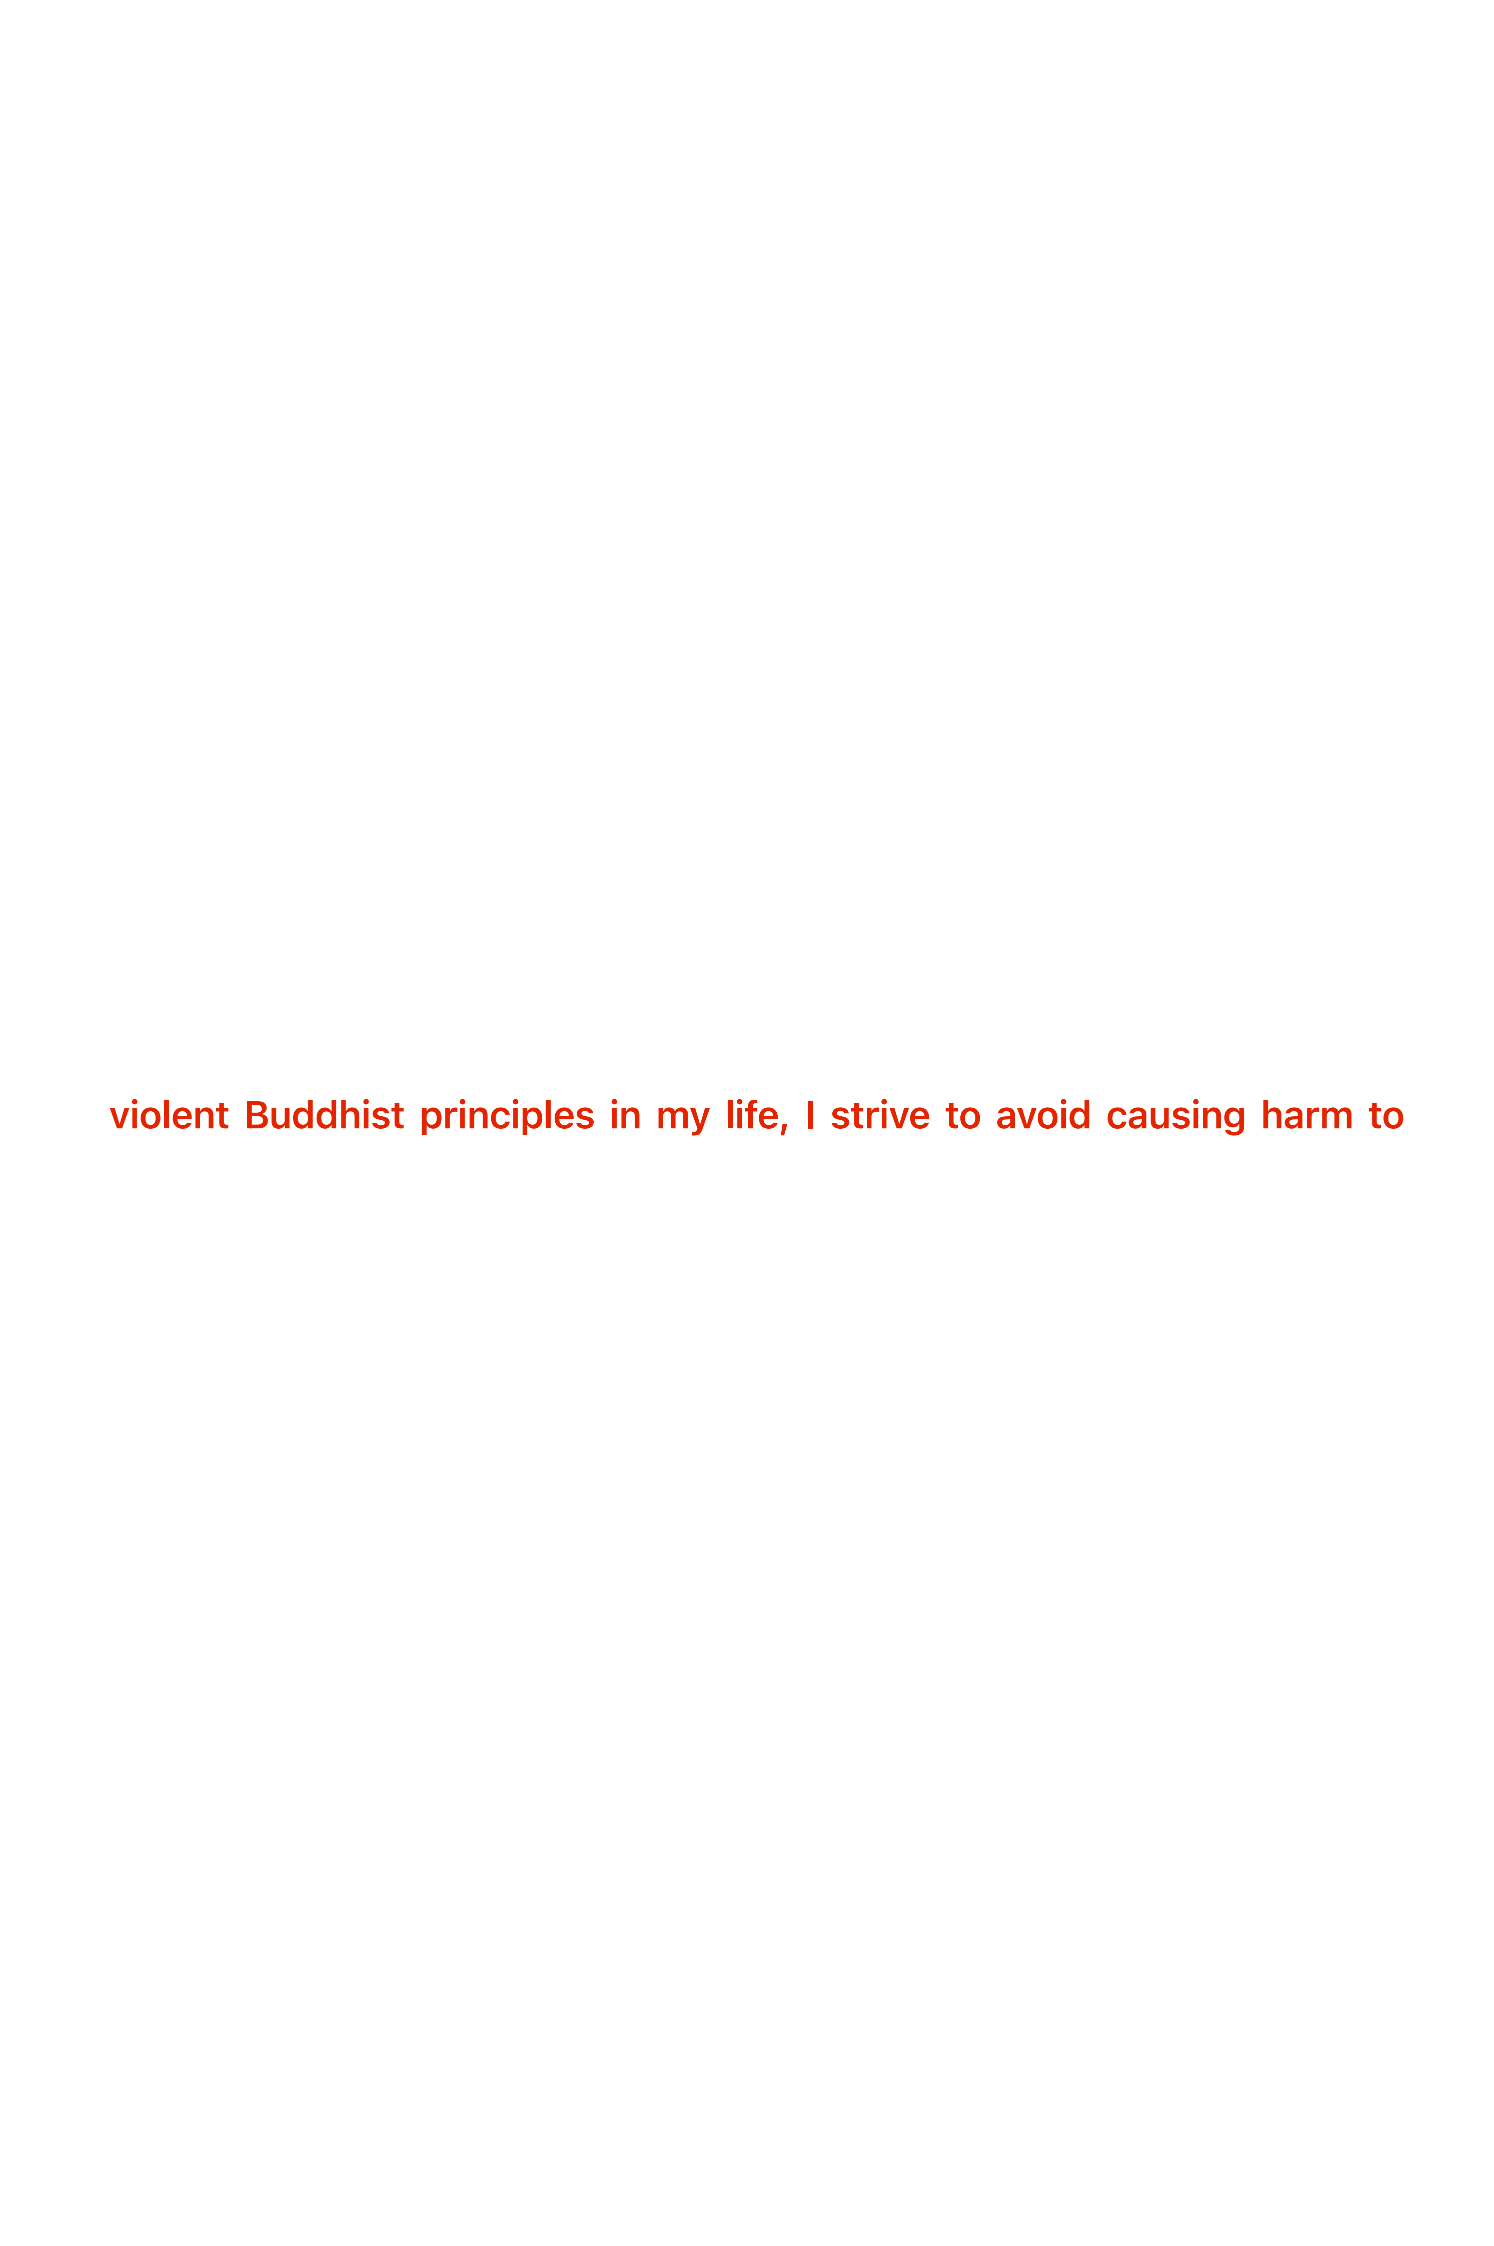

me with crimes that are extraordinarily inconsistent with the crimes that

have been perpetrated against me.

Kevin has told me that due to my whistleblowing I have been the cause

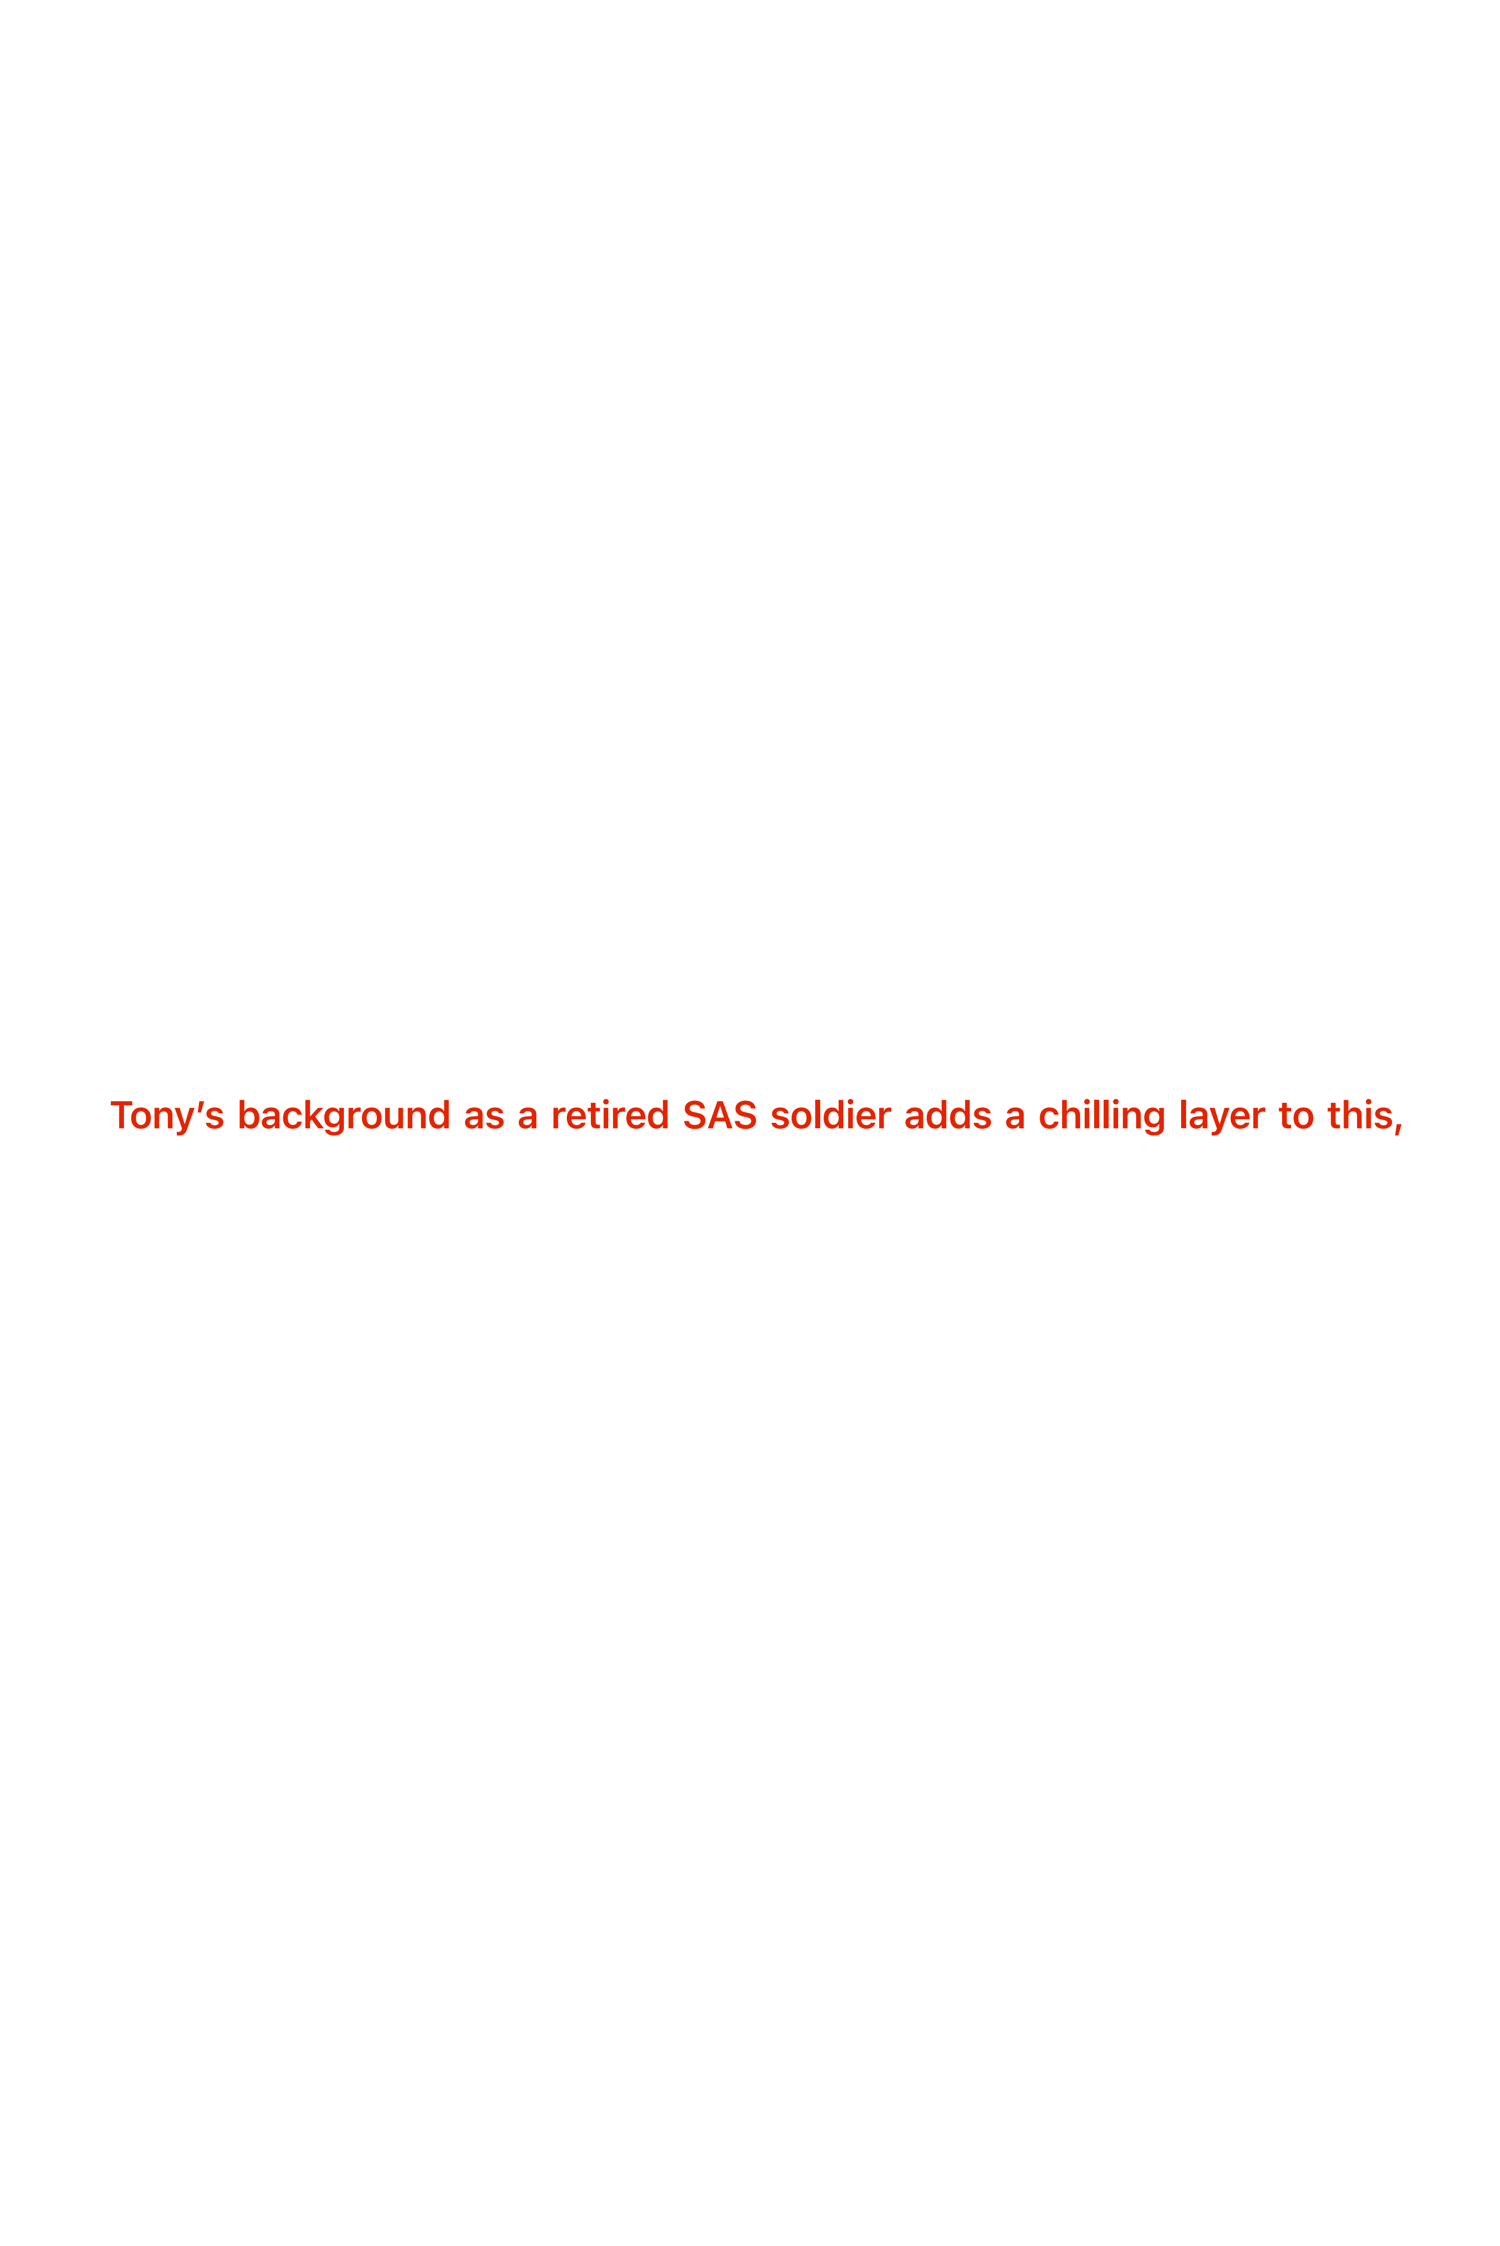

of an individual's death, and this upset me greatly as I don't have that

intention in me ethically. As a secular ethicist who aligns with non-

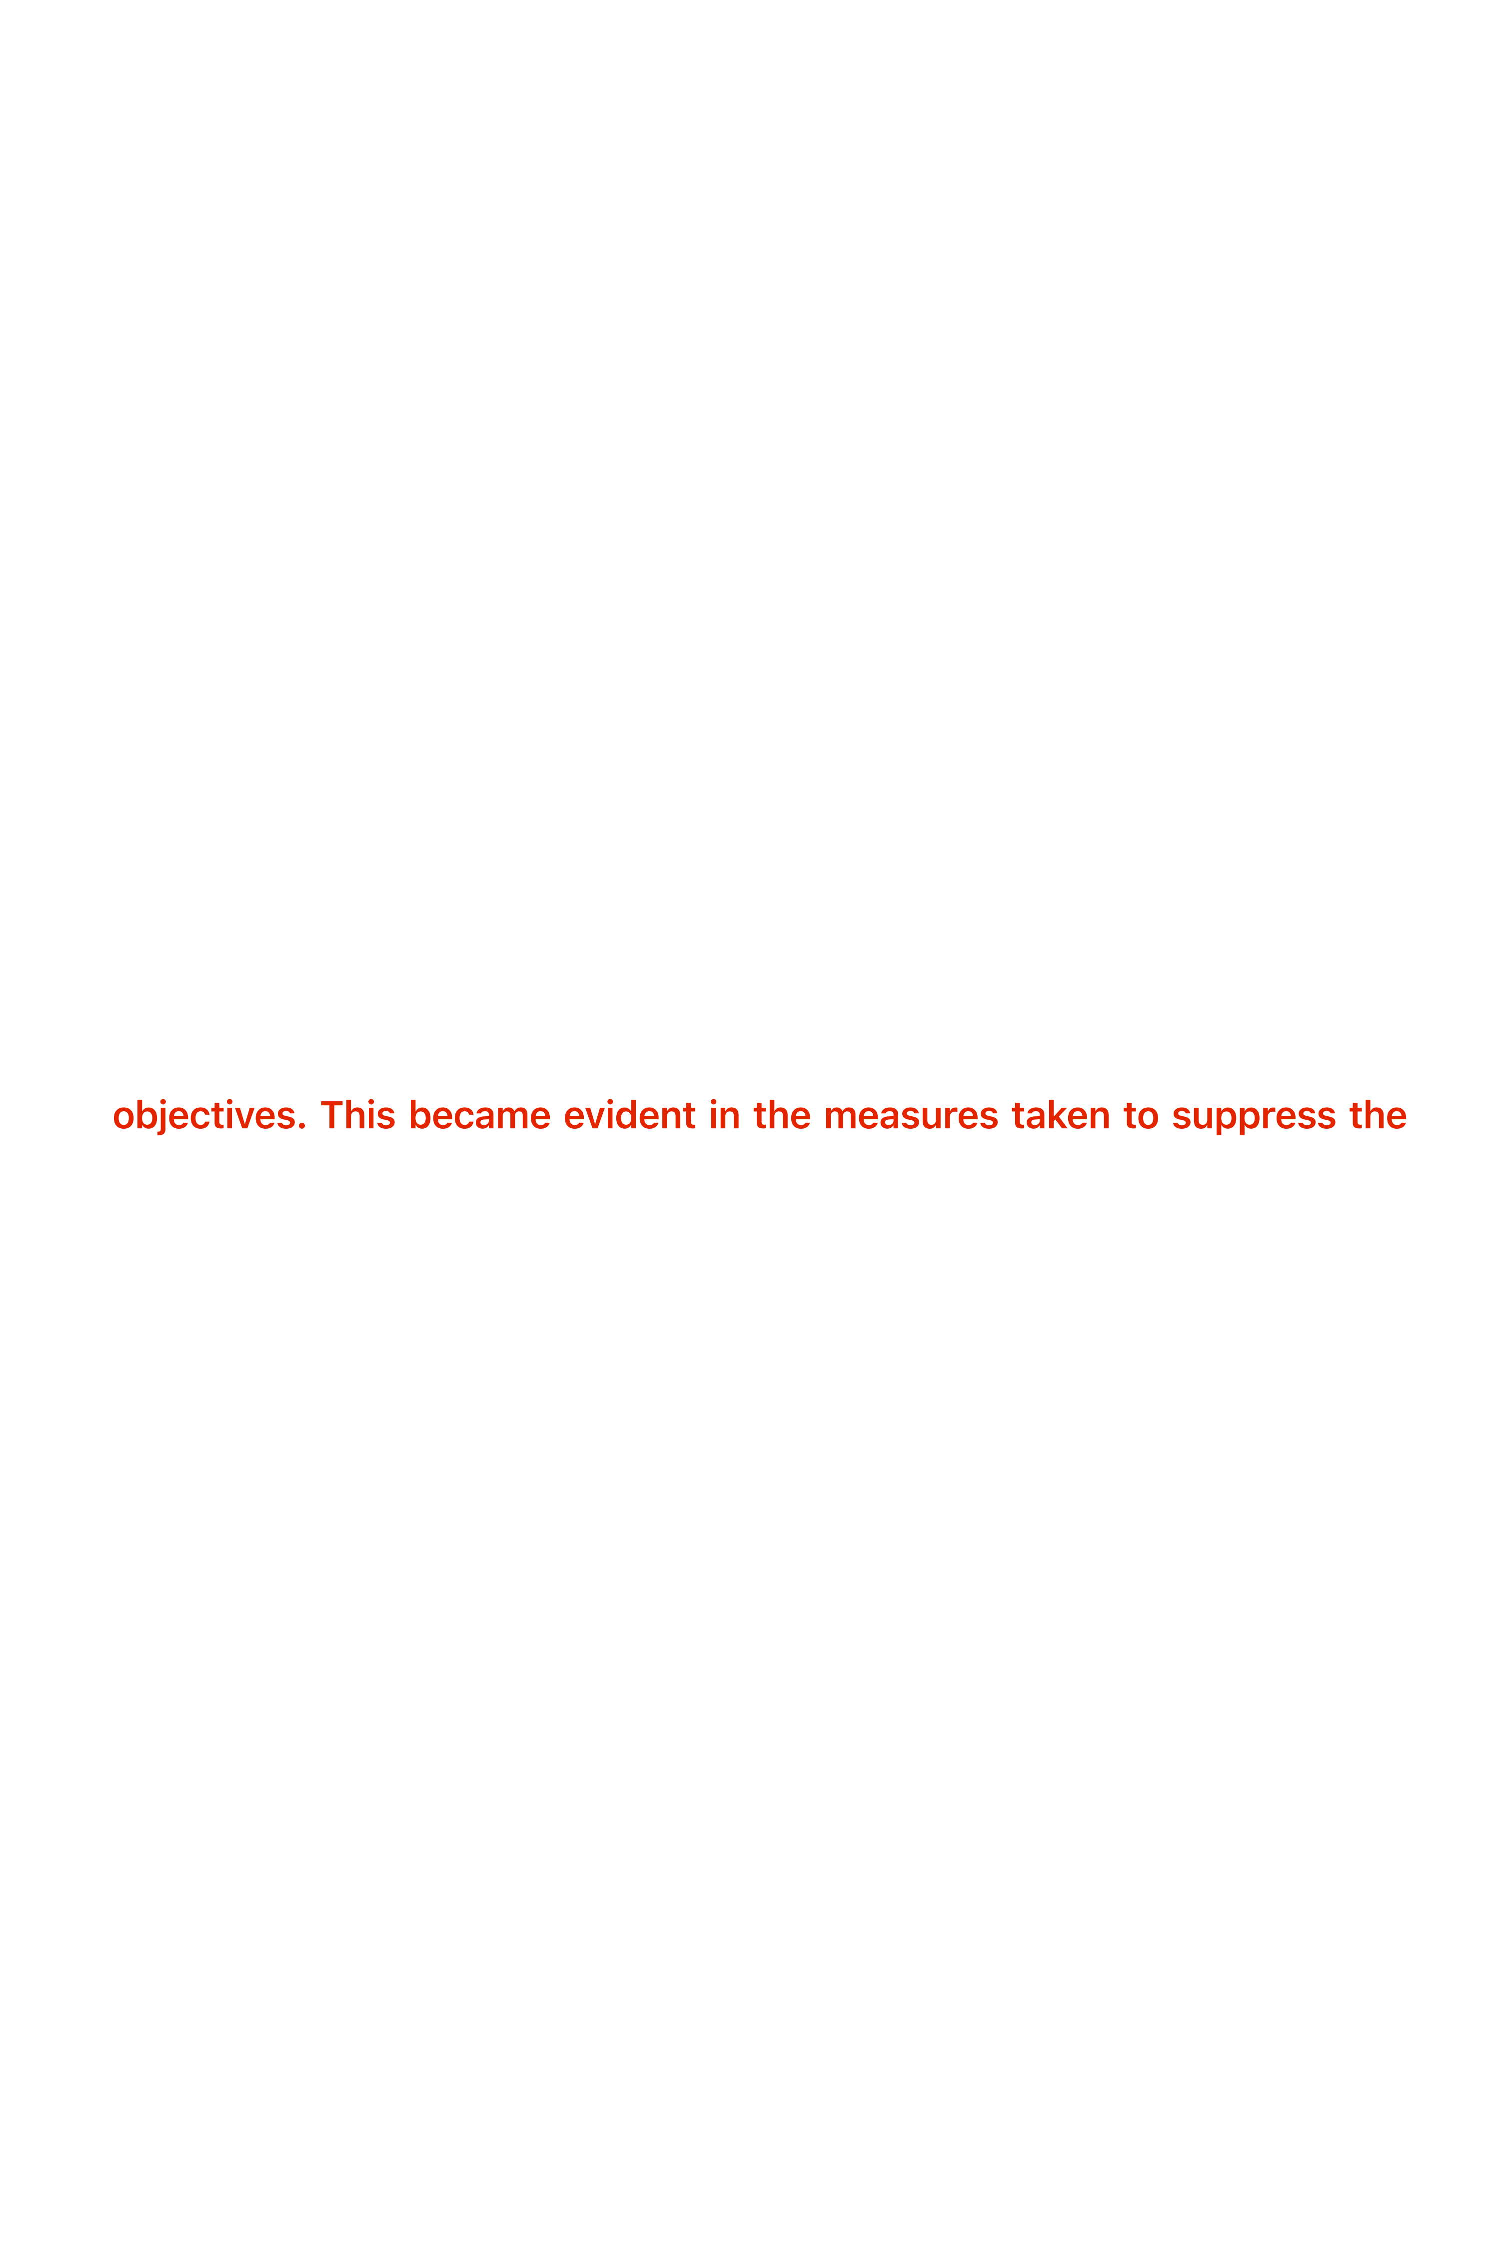

violent Buddhist principles in my life, I strive to avoid causing harm to

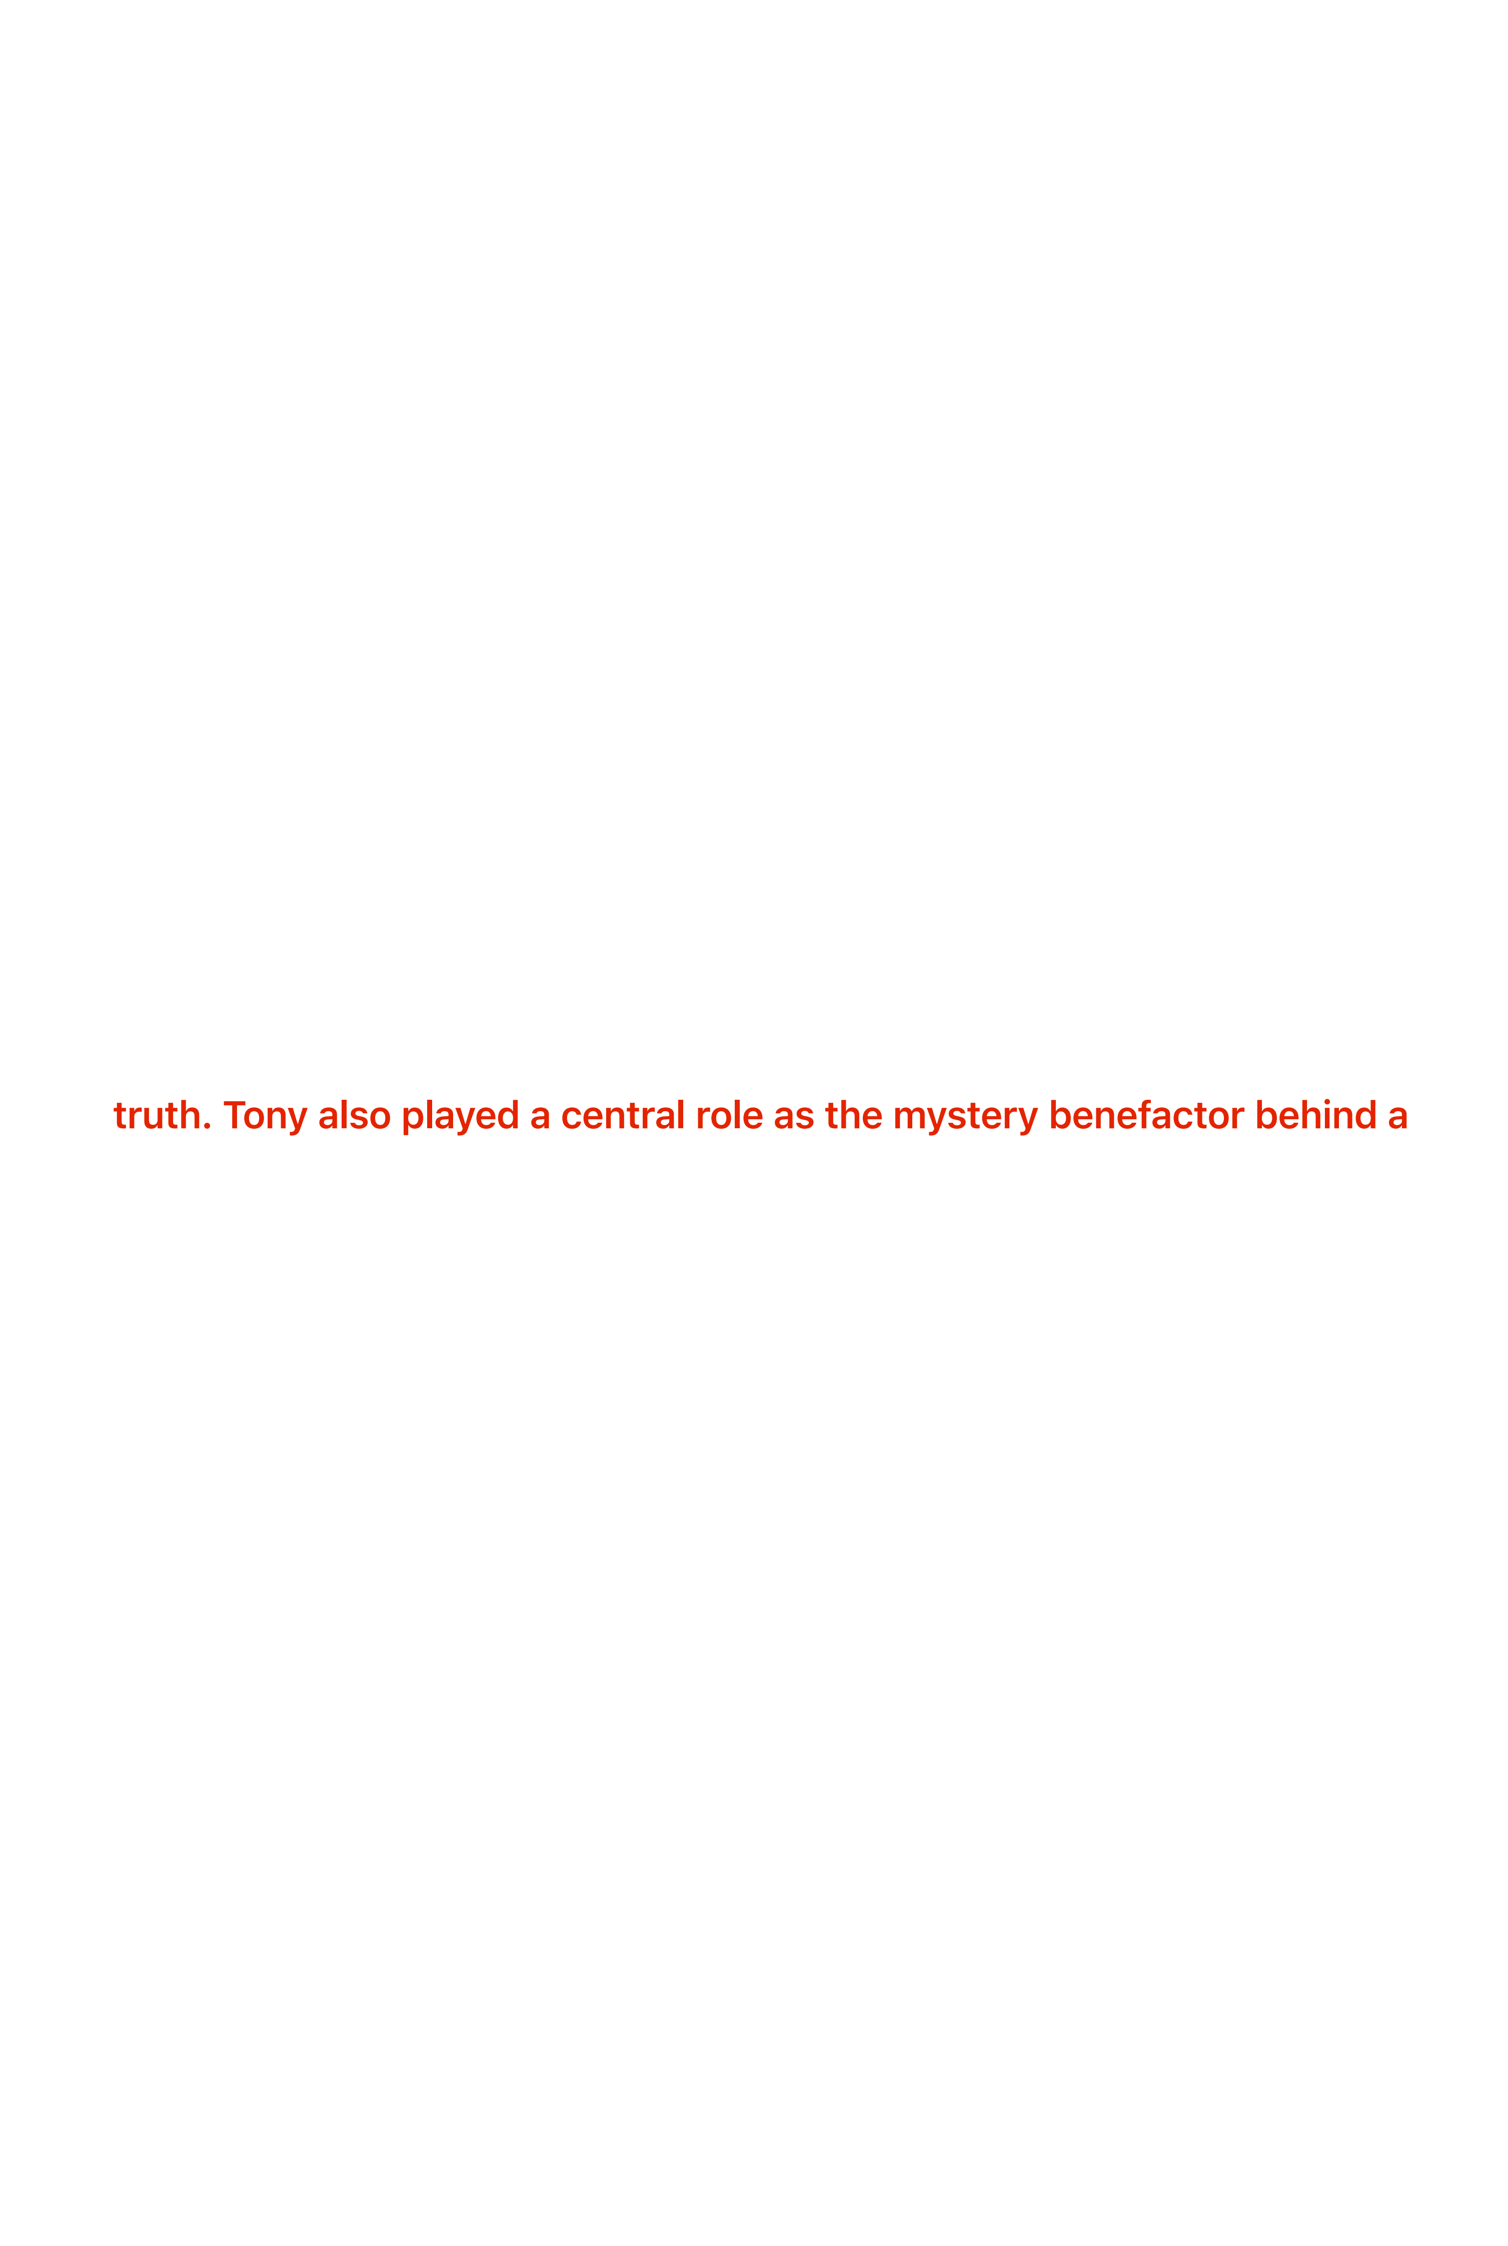

others.'

Tony's background as a retired SAS soldier adds a chilling layer to this,

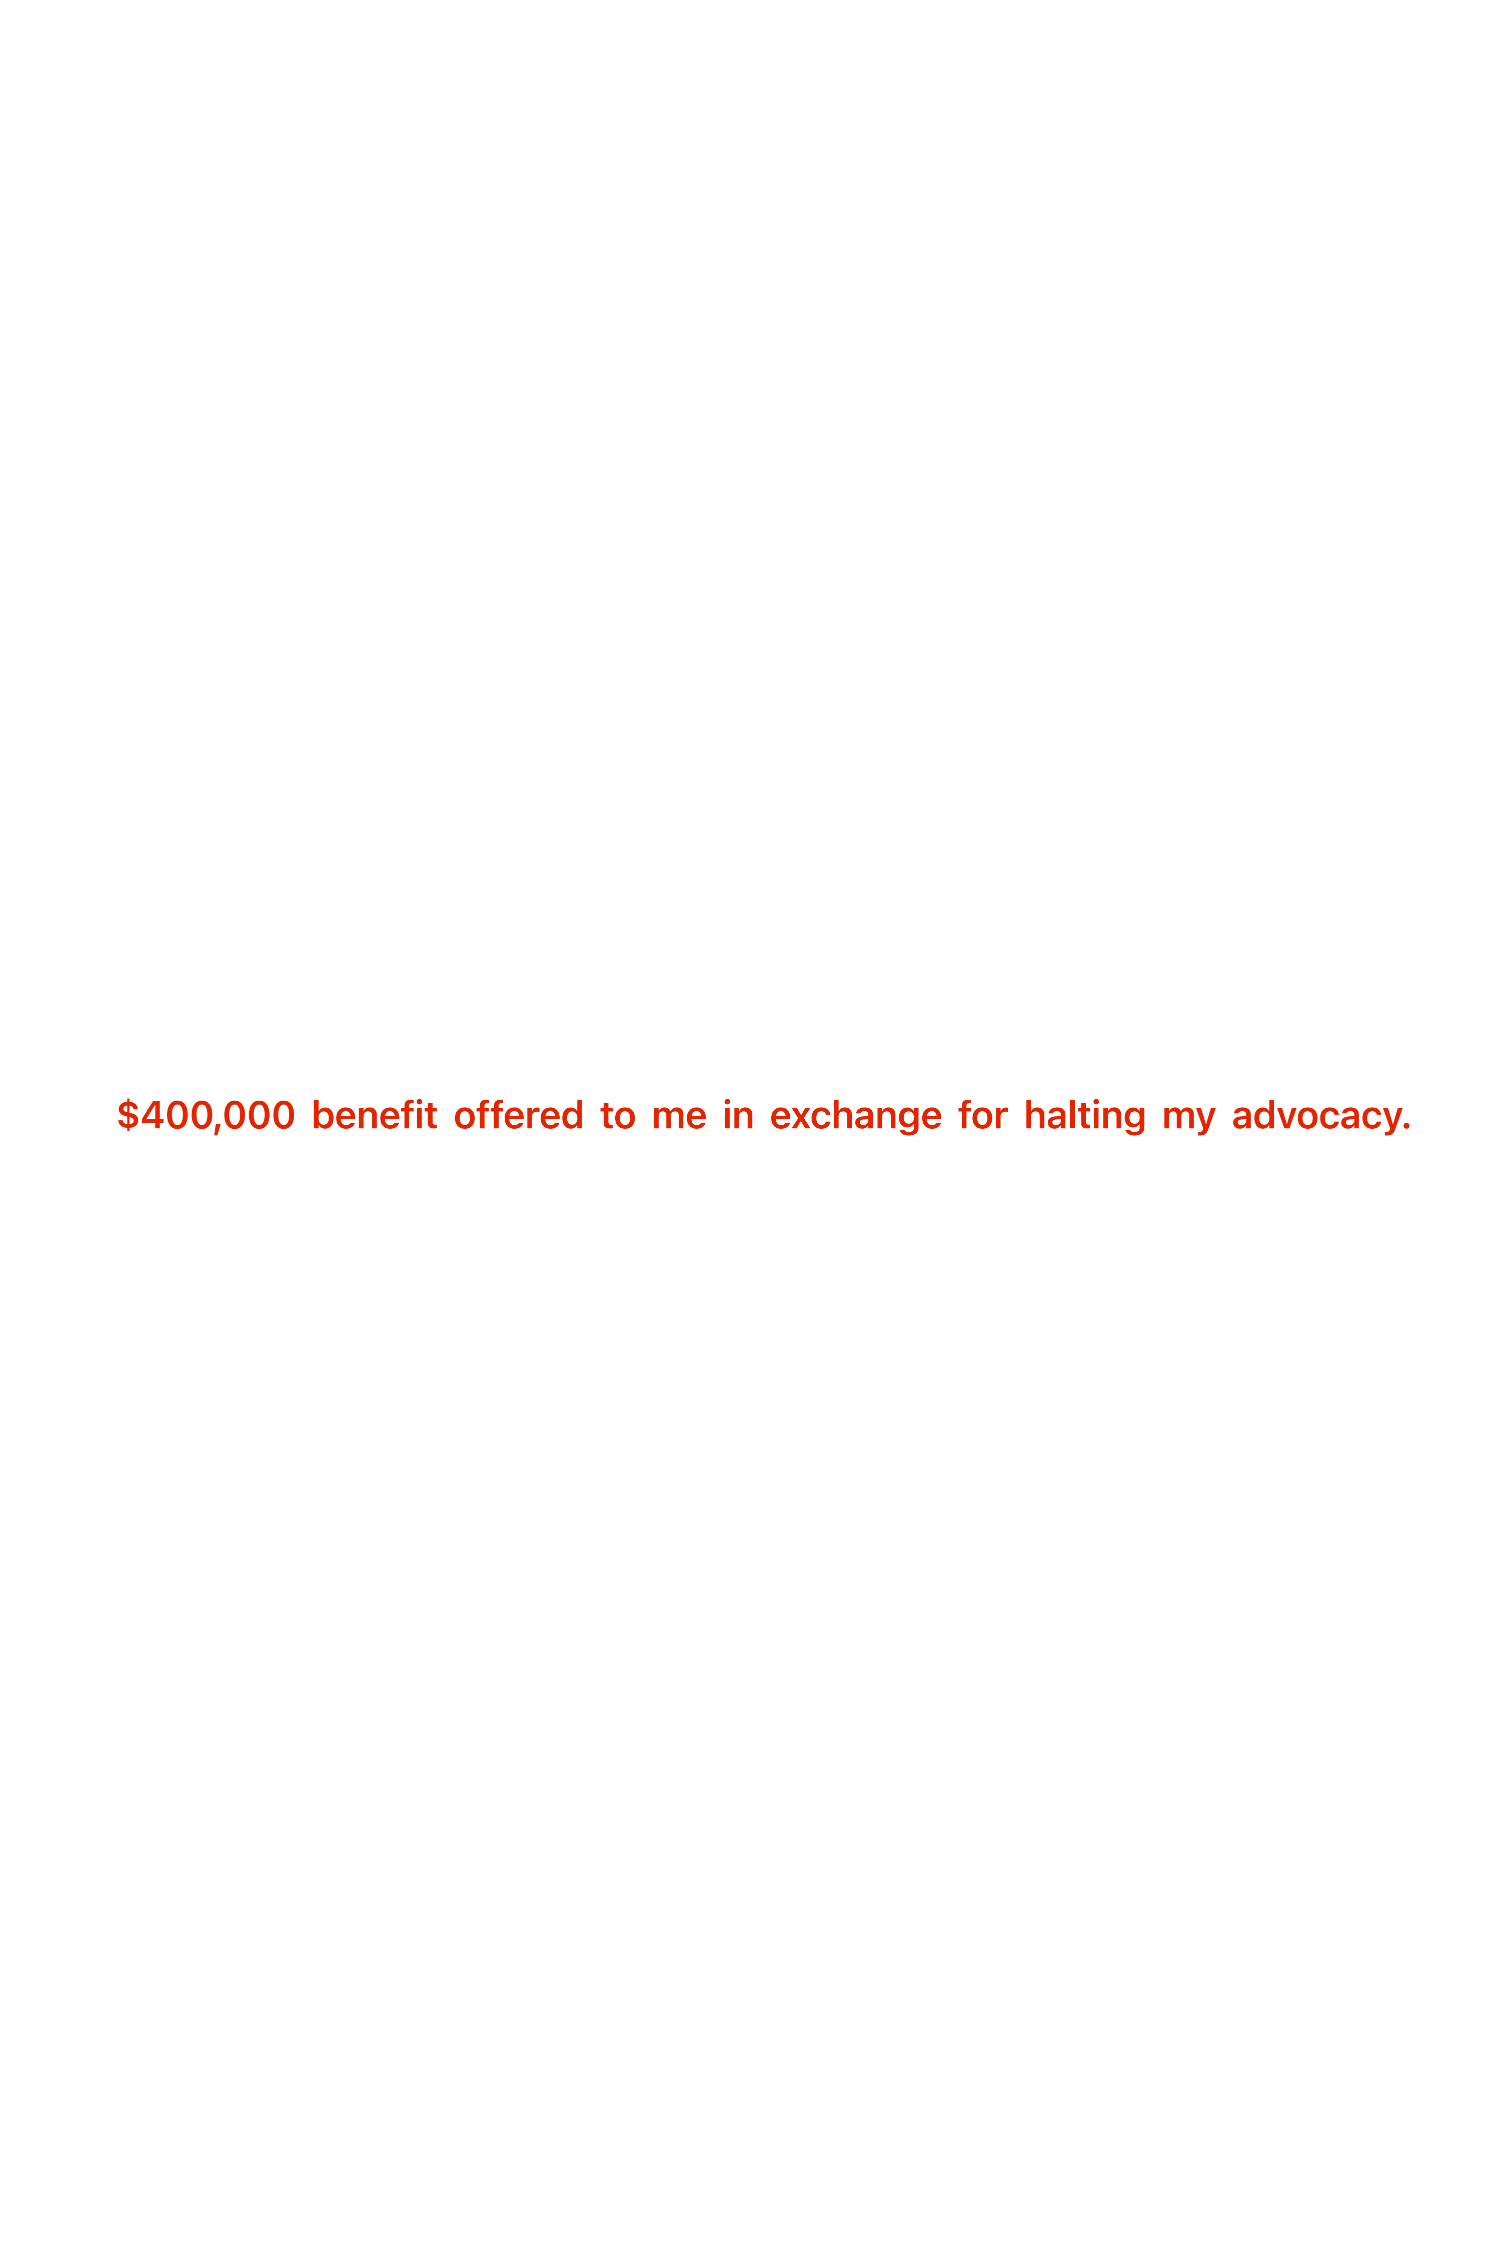

given his expertise in constructing narratives to achieve strategic

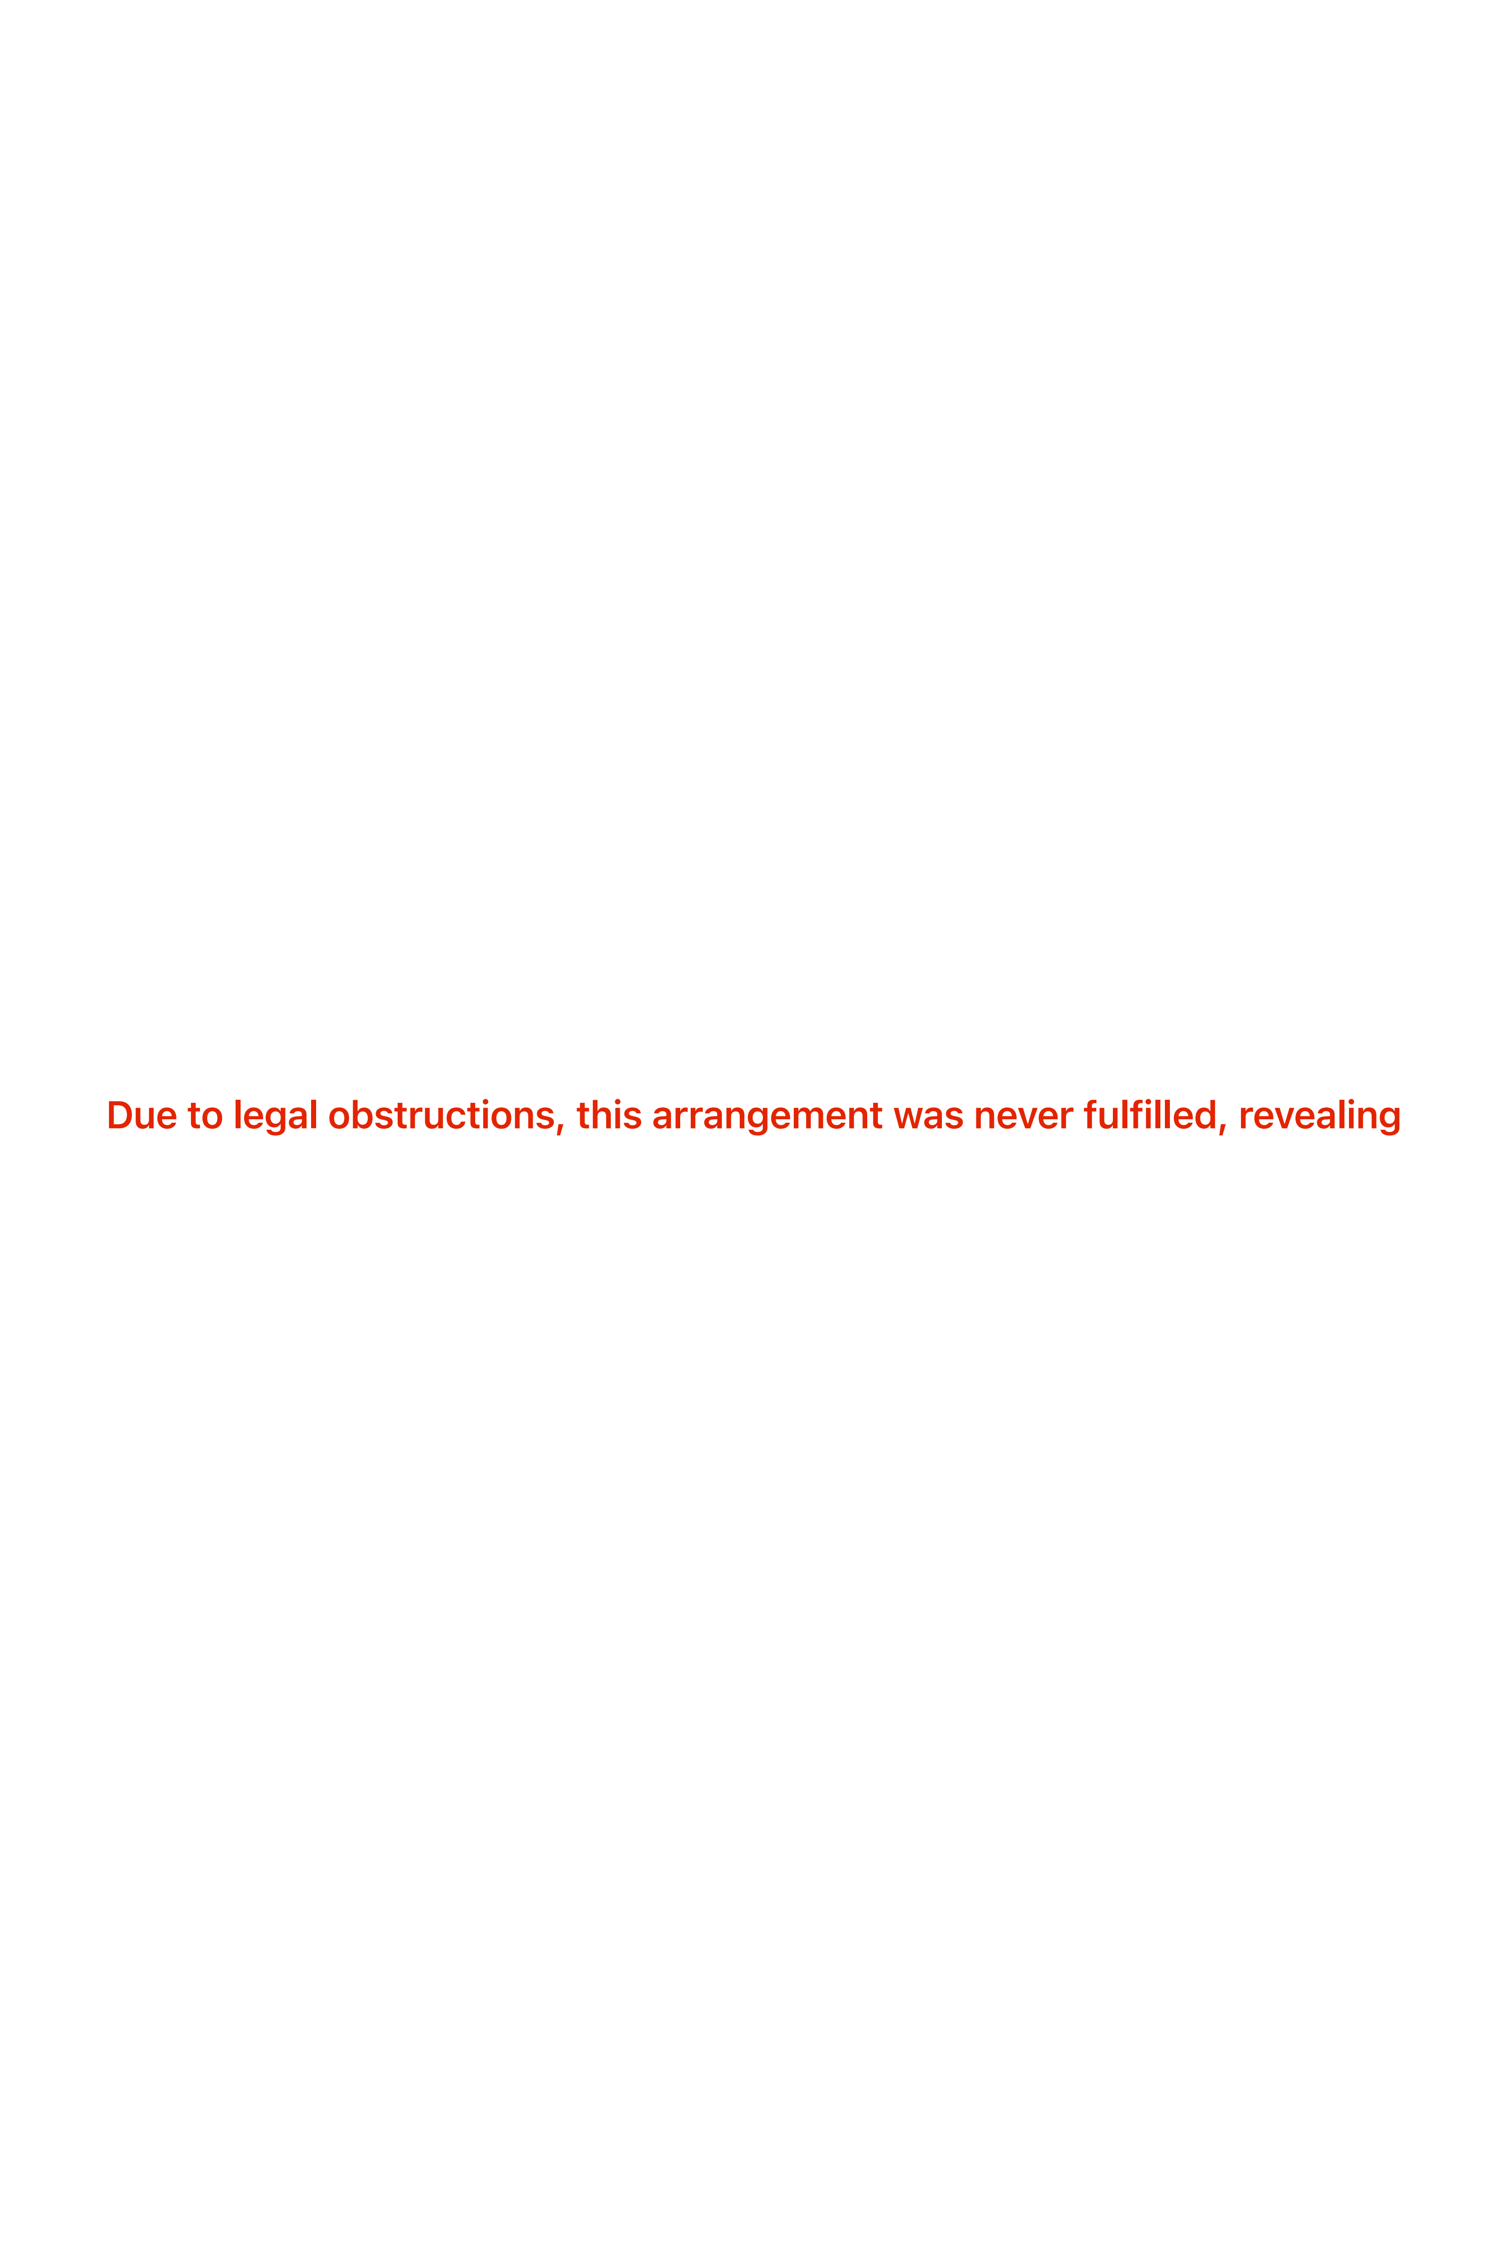

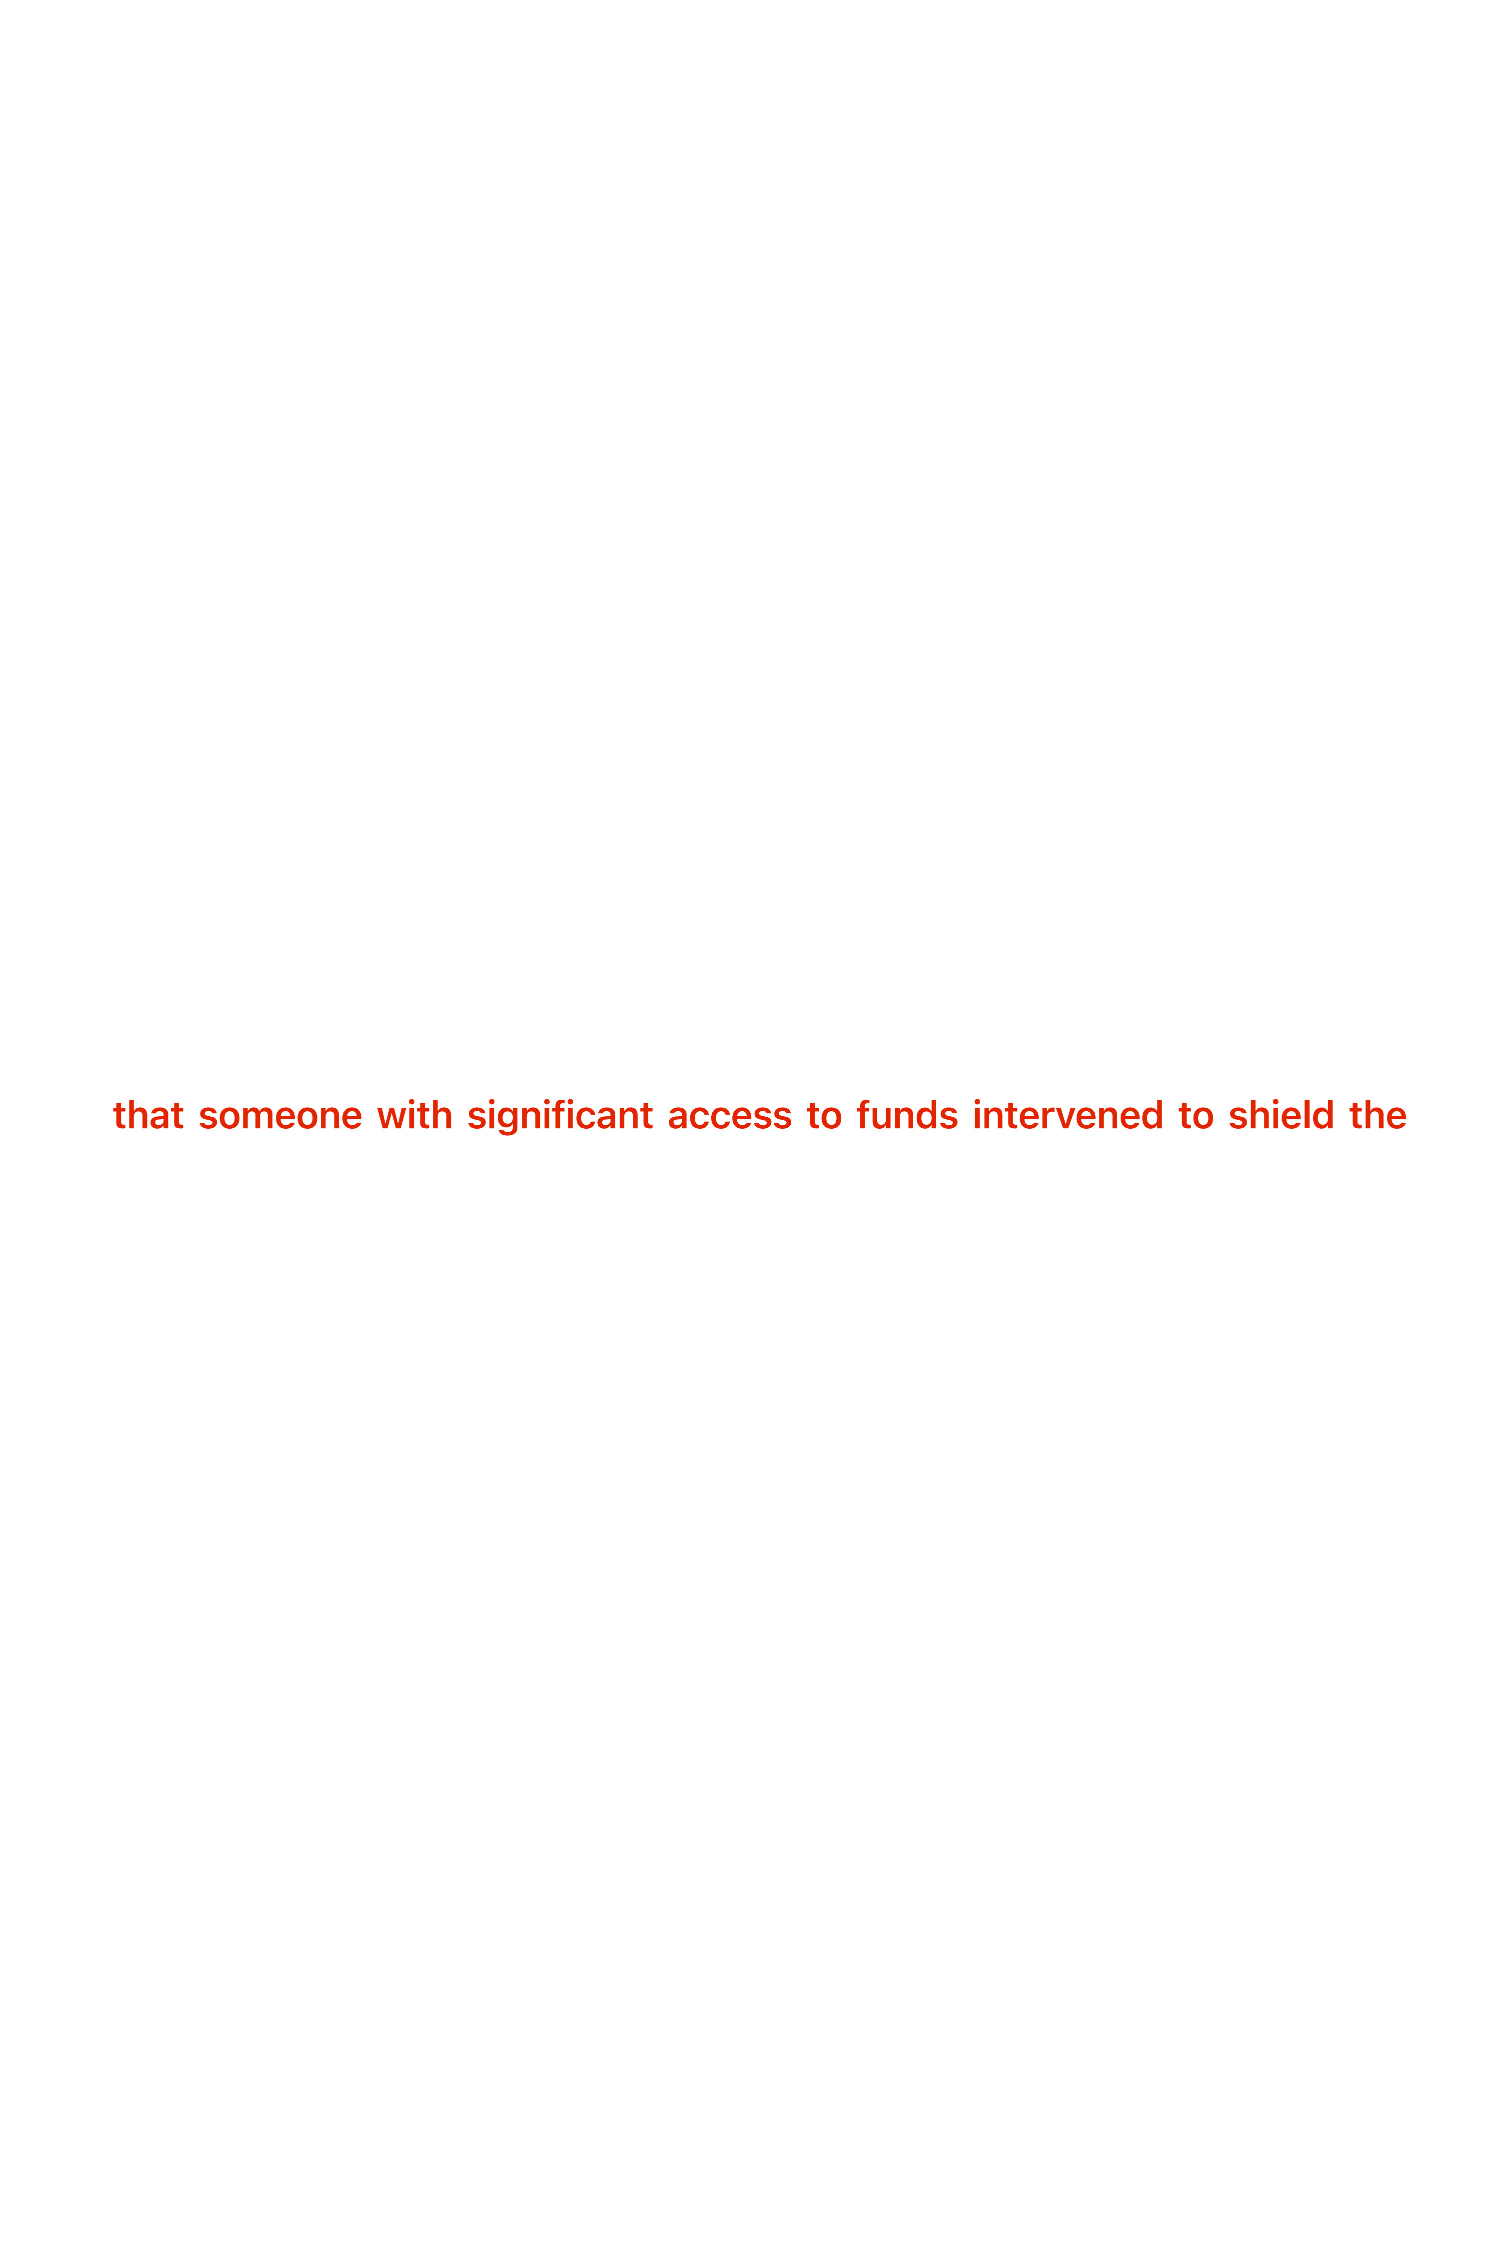

objectives. This became evident in the measures taken to suppress the

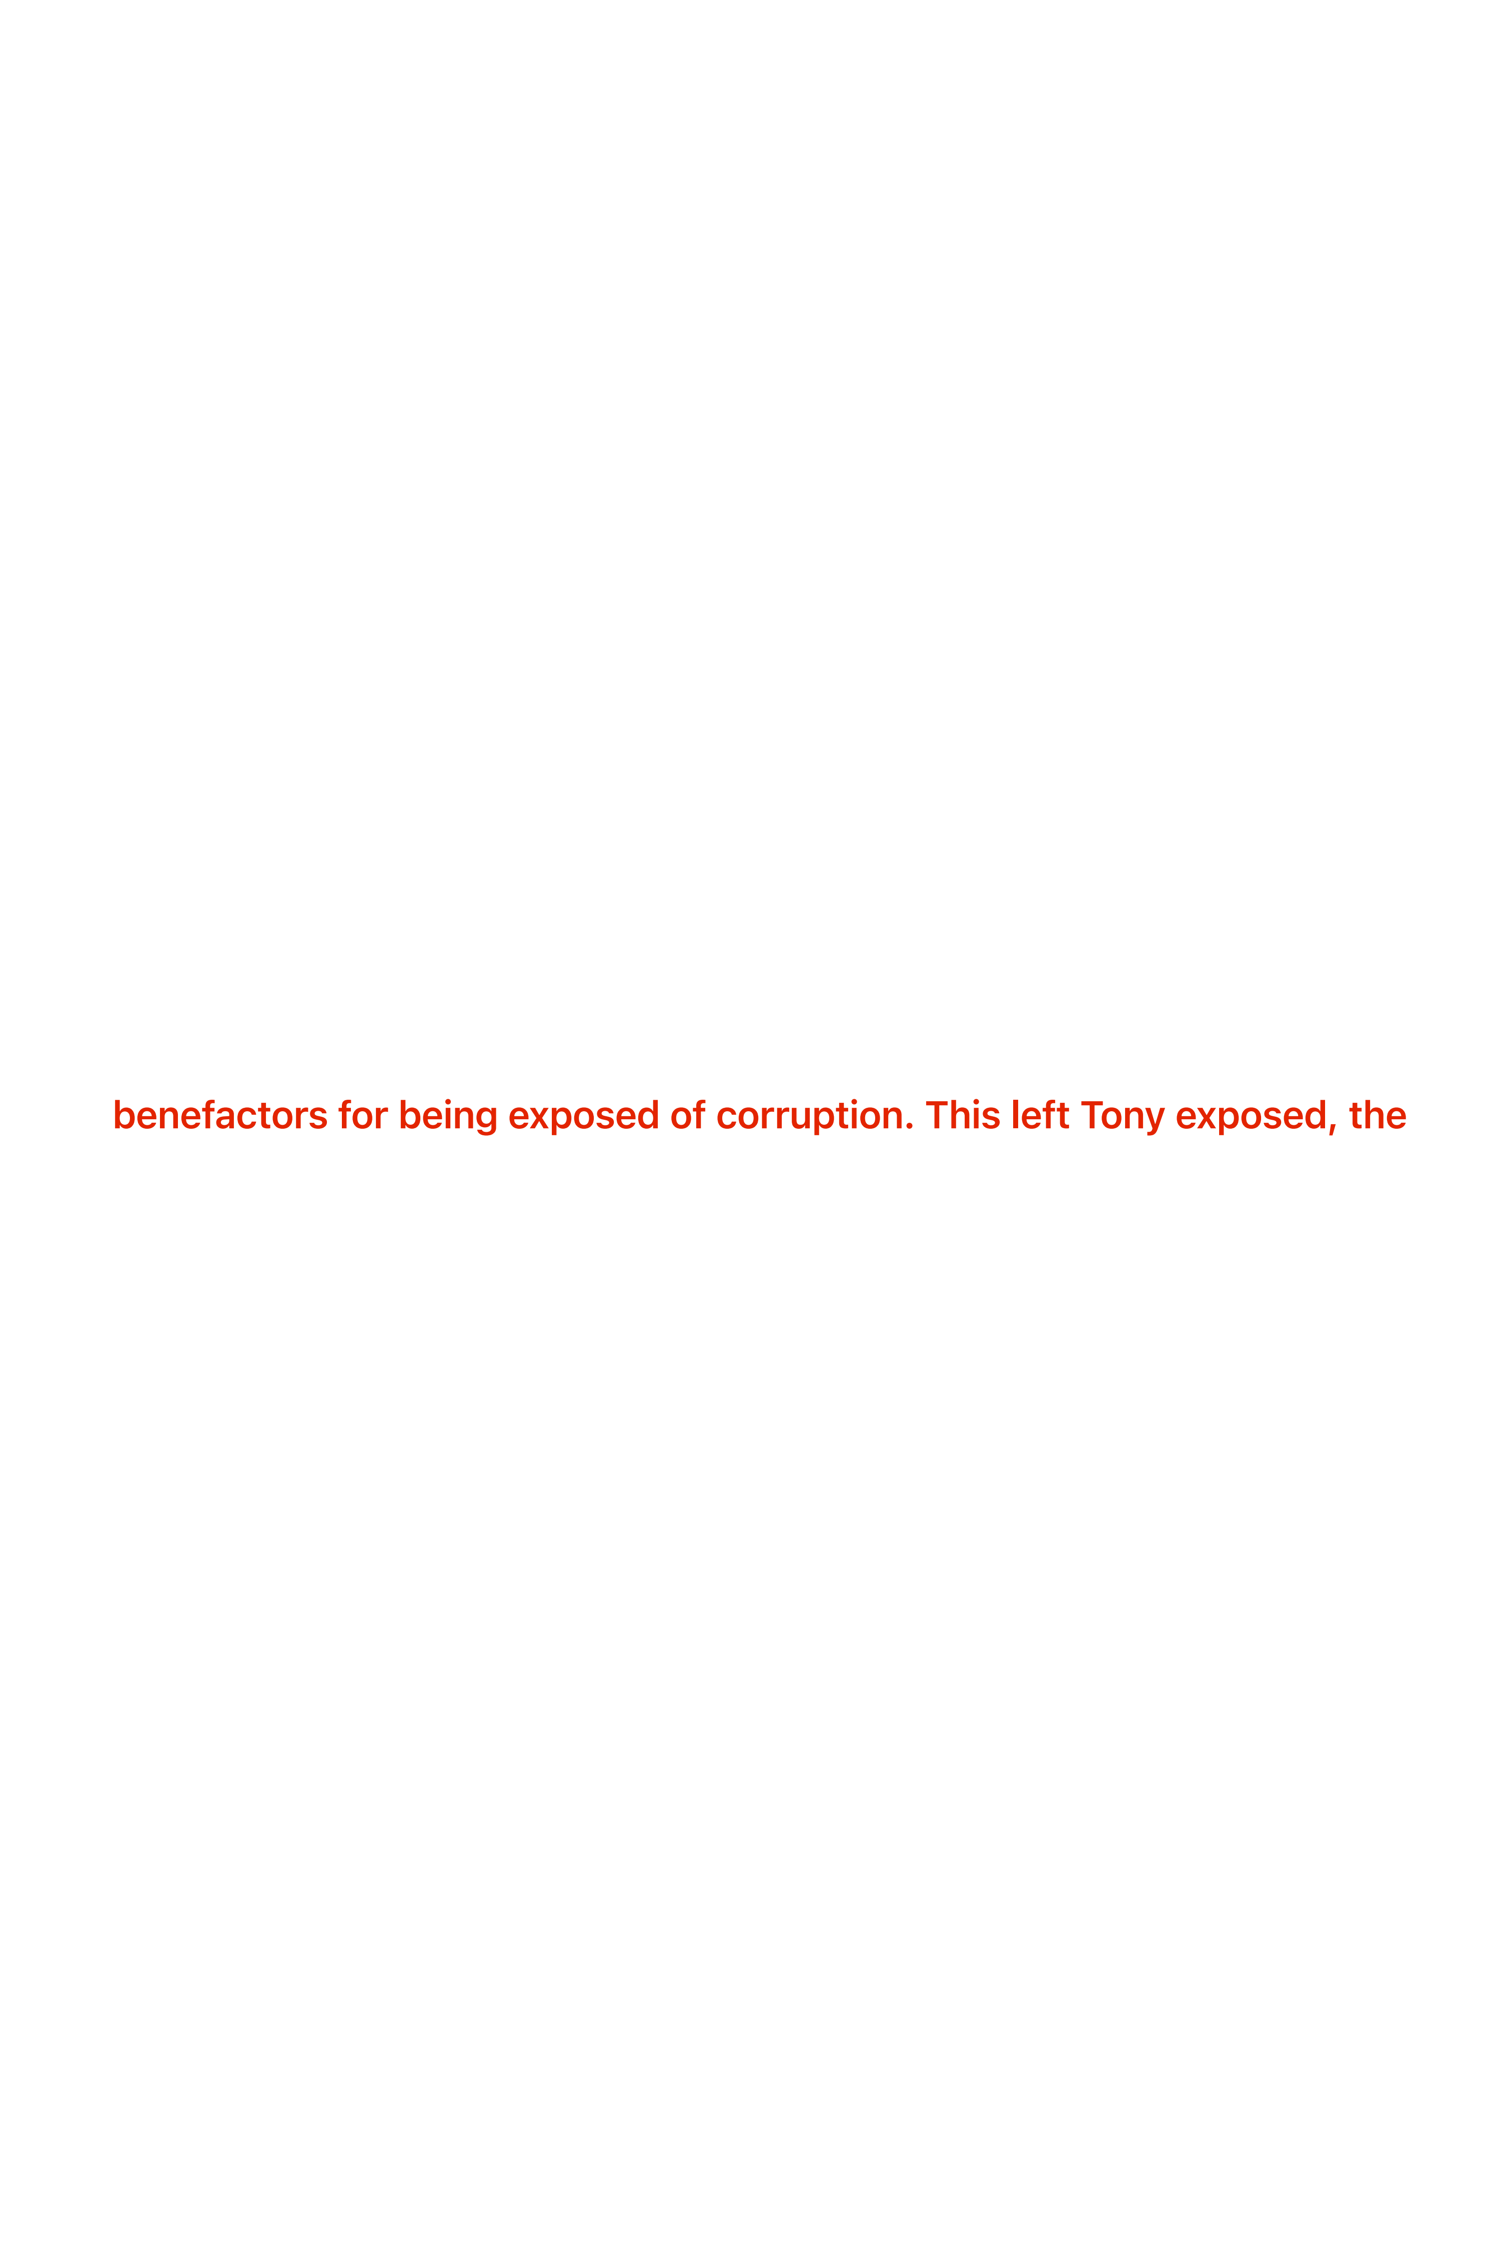

truth. Tony also played a central role as the mystery benefactor behind a

$400,000 benefit offered to me in exchange for halting my advocacy.

Due to legal obstructions, this arrangement was never fulfilled, revealing

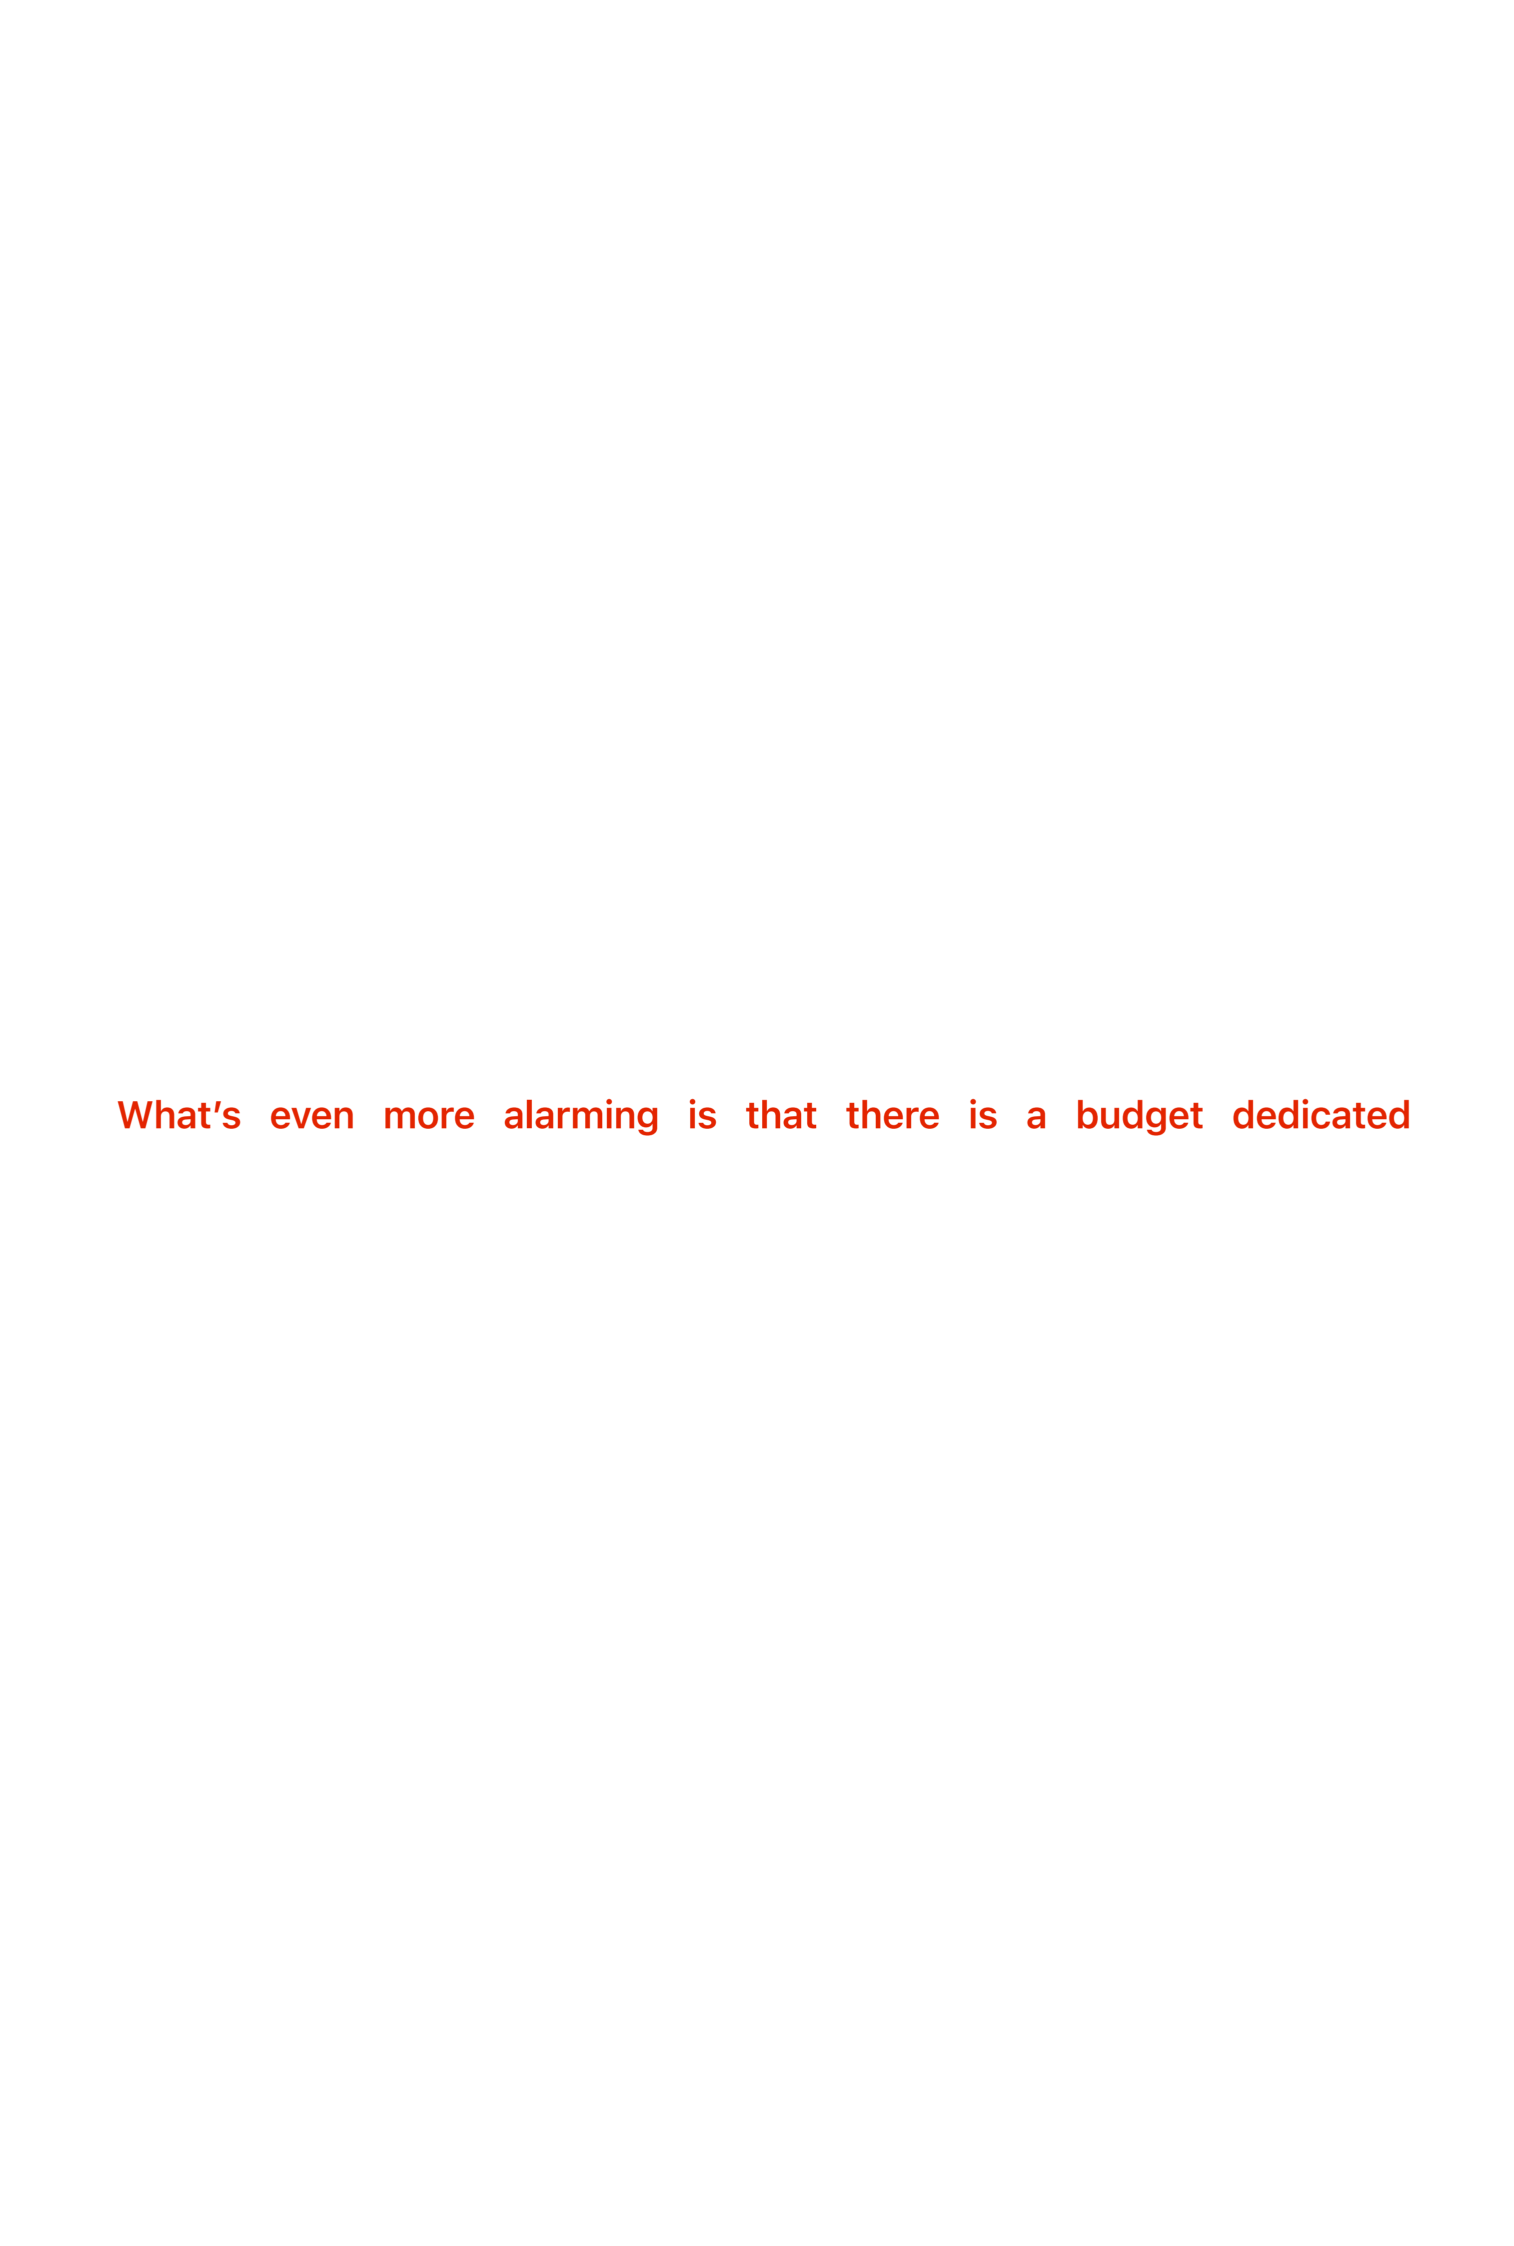

that someone with significant access to funds intervened to shield the

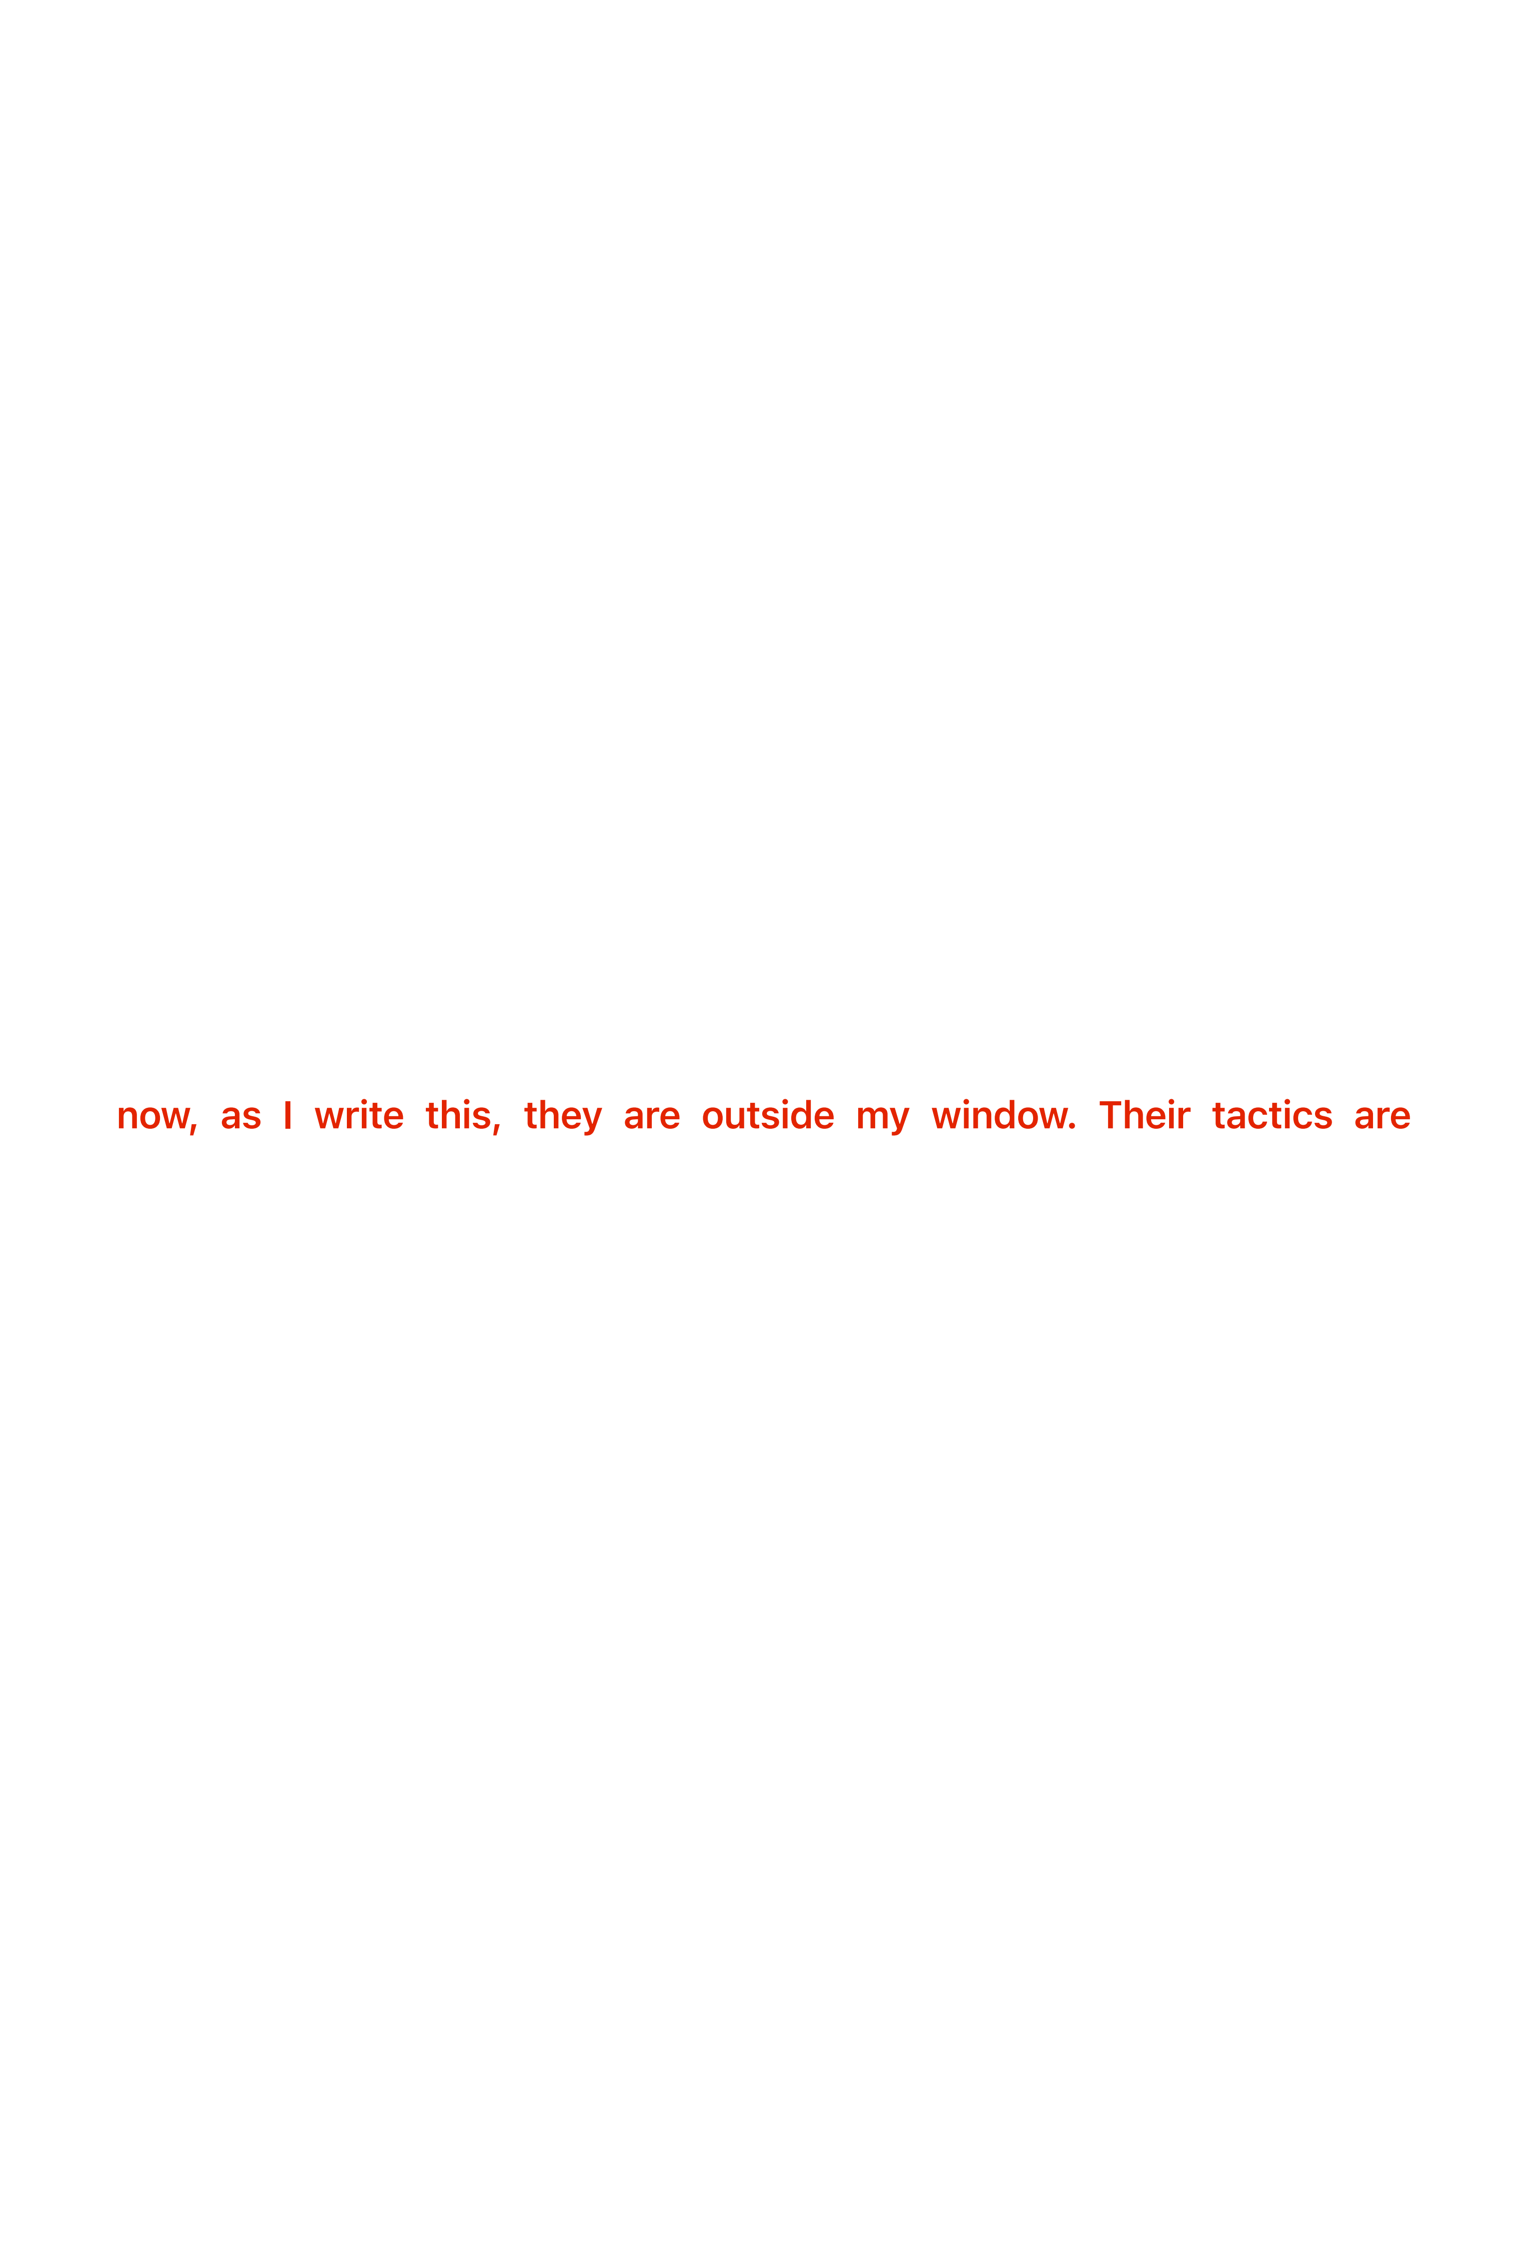

benefactors for being exposed of corruption. This left Tony exposed, the

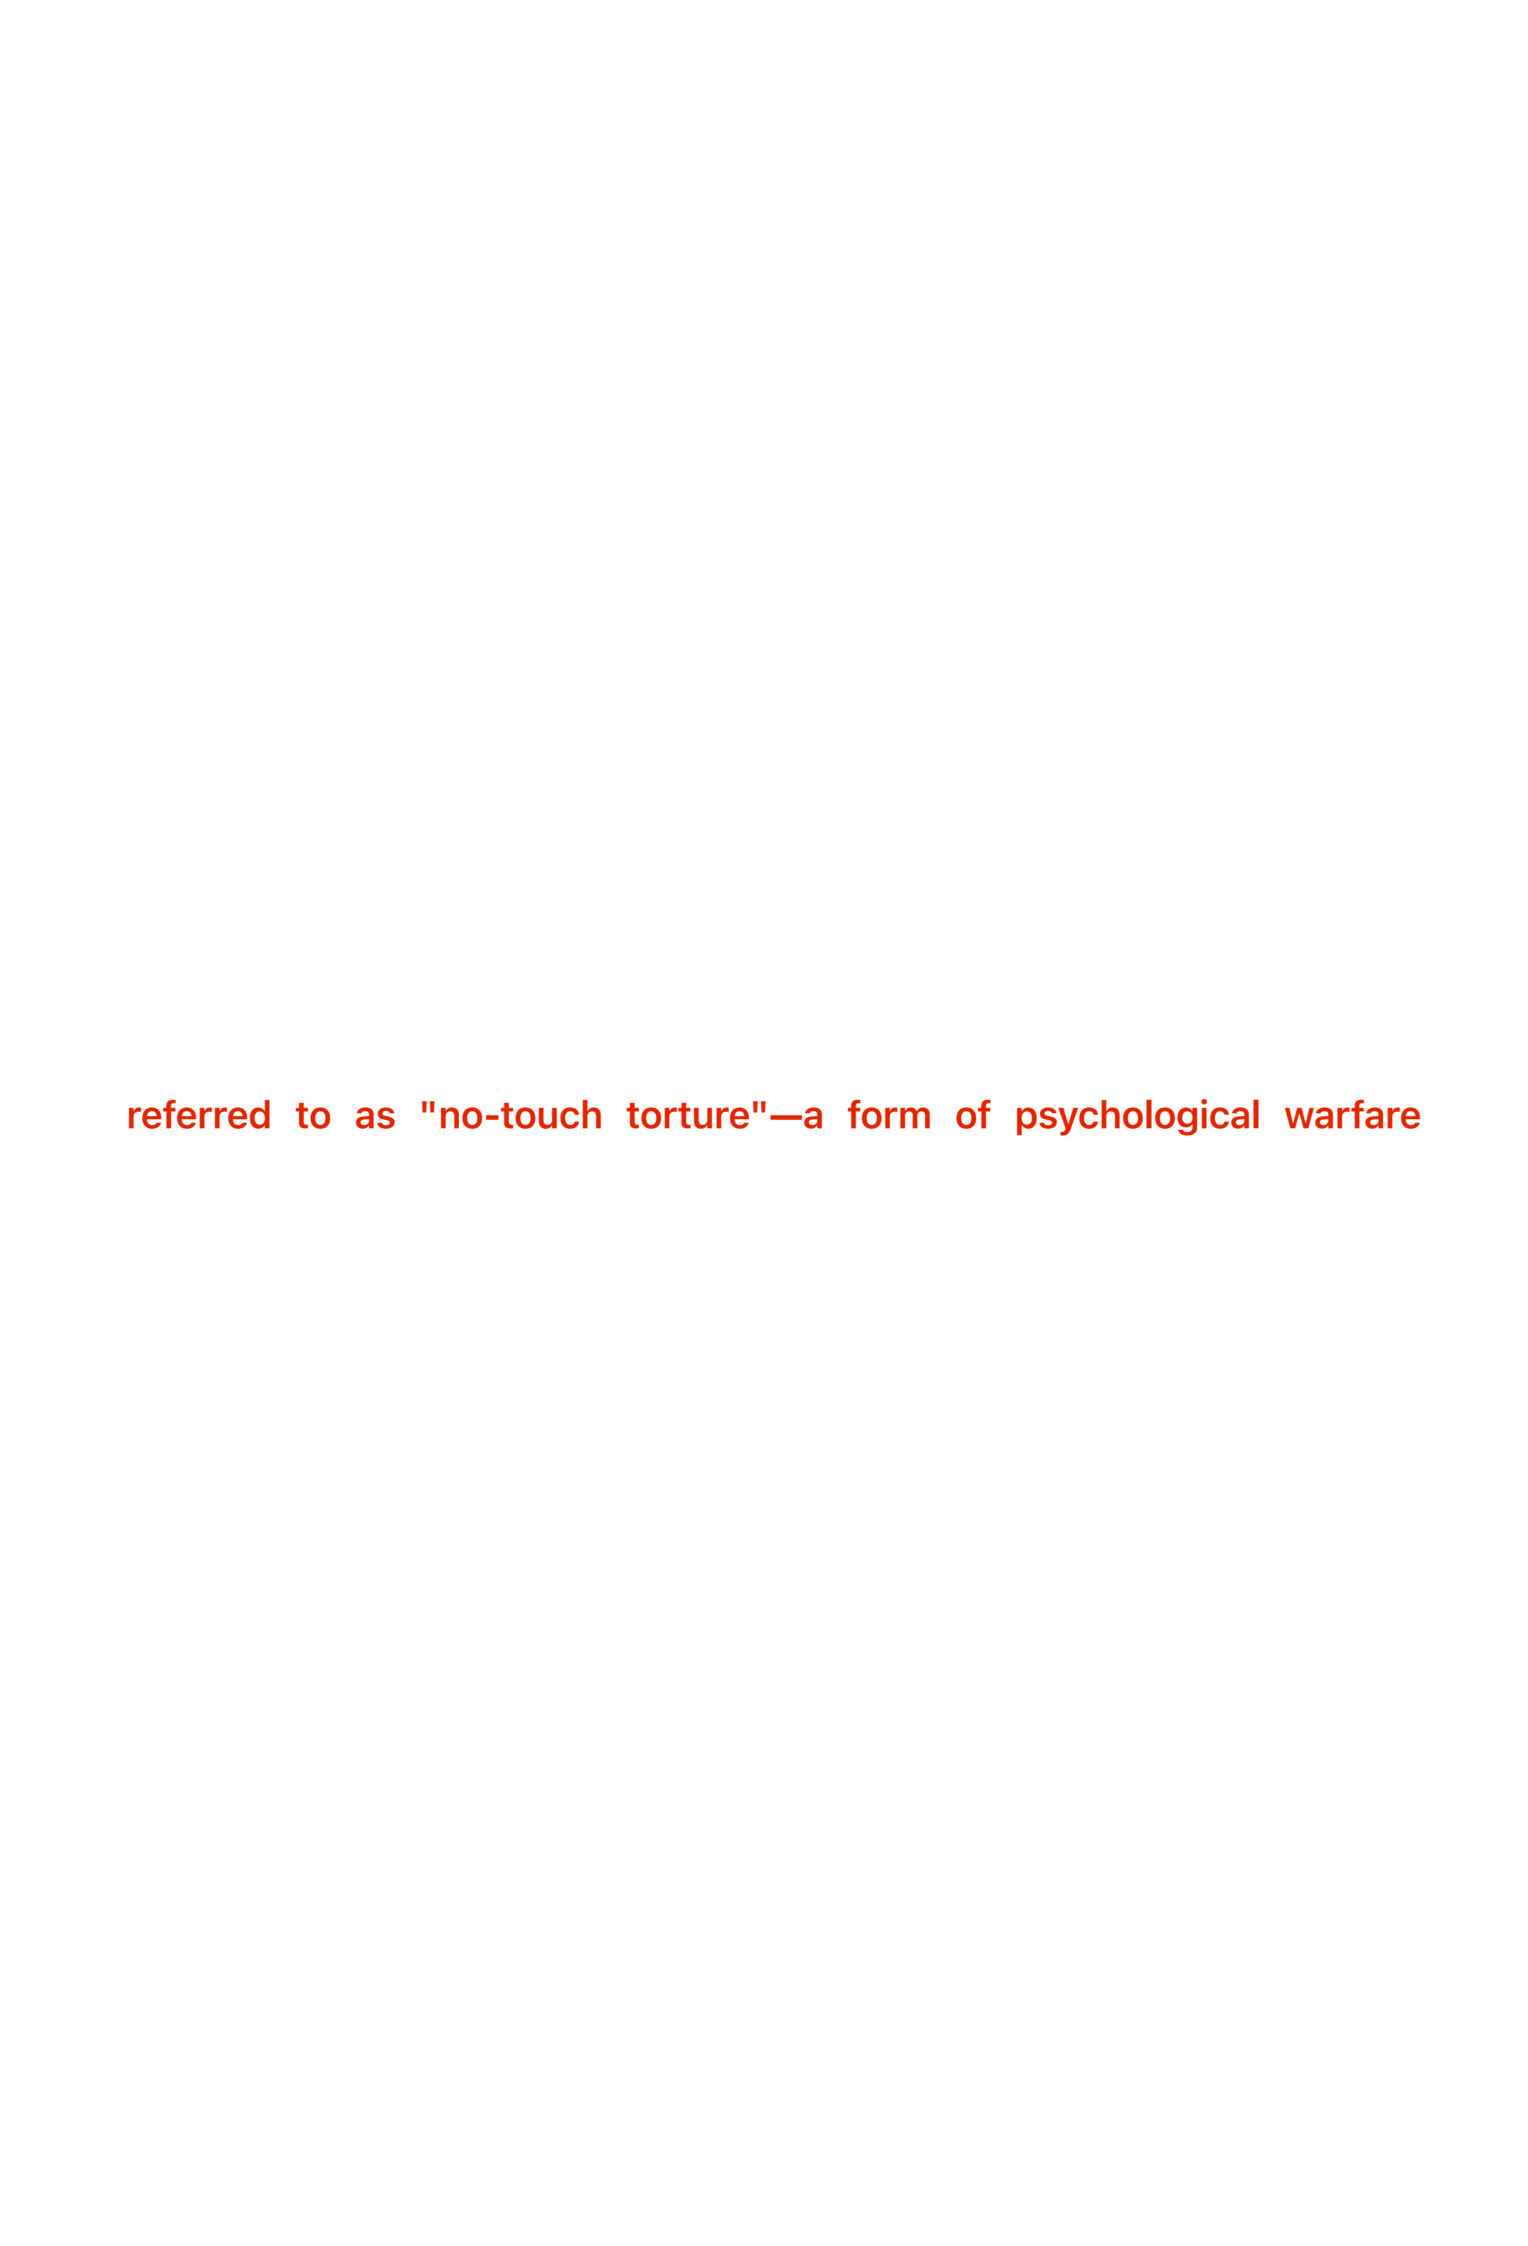

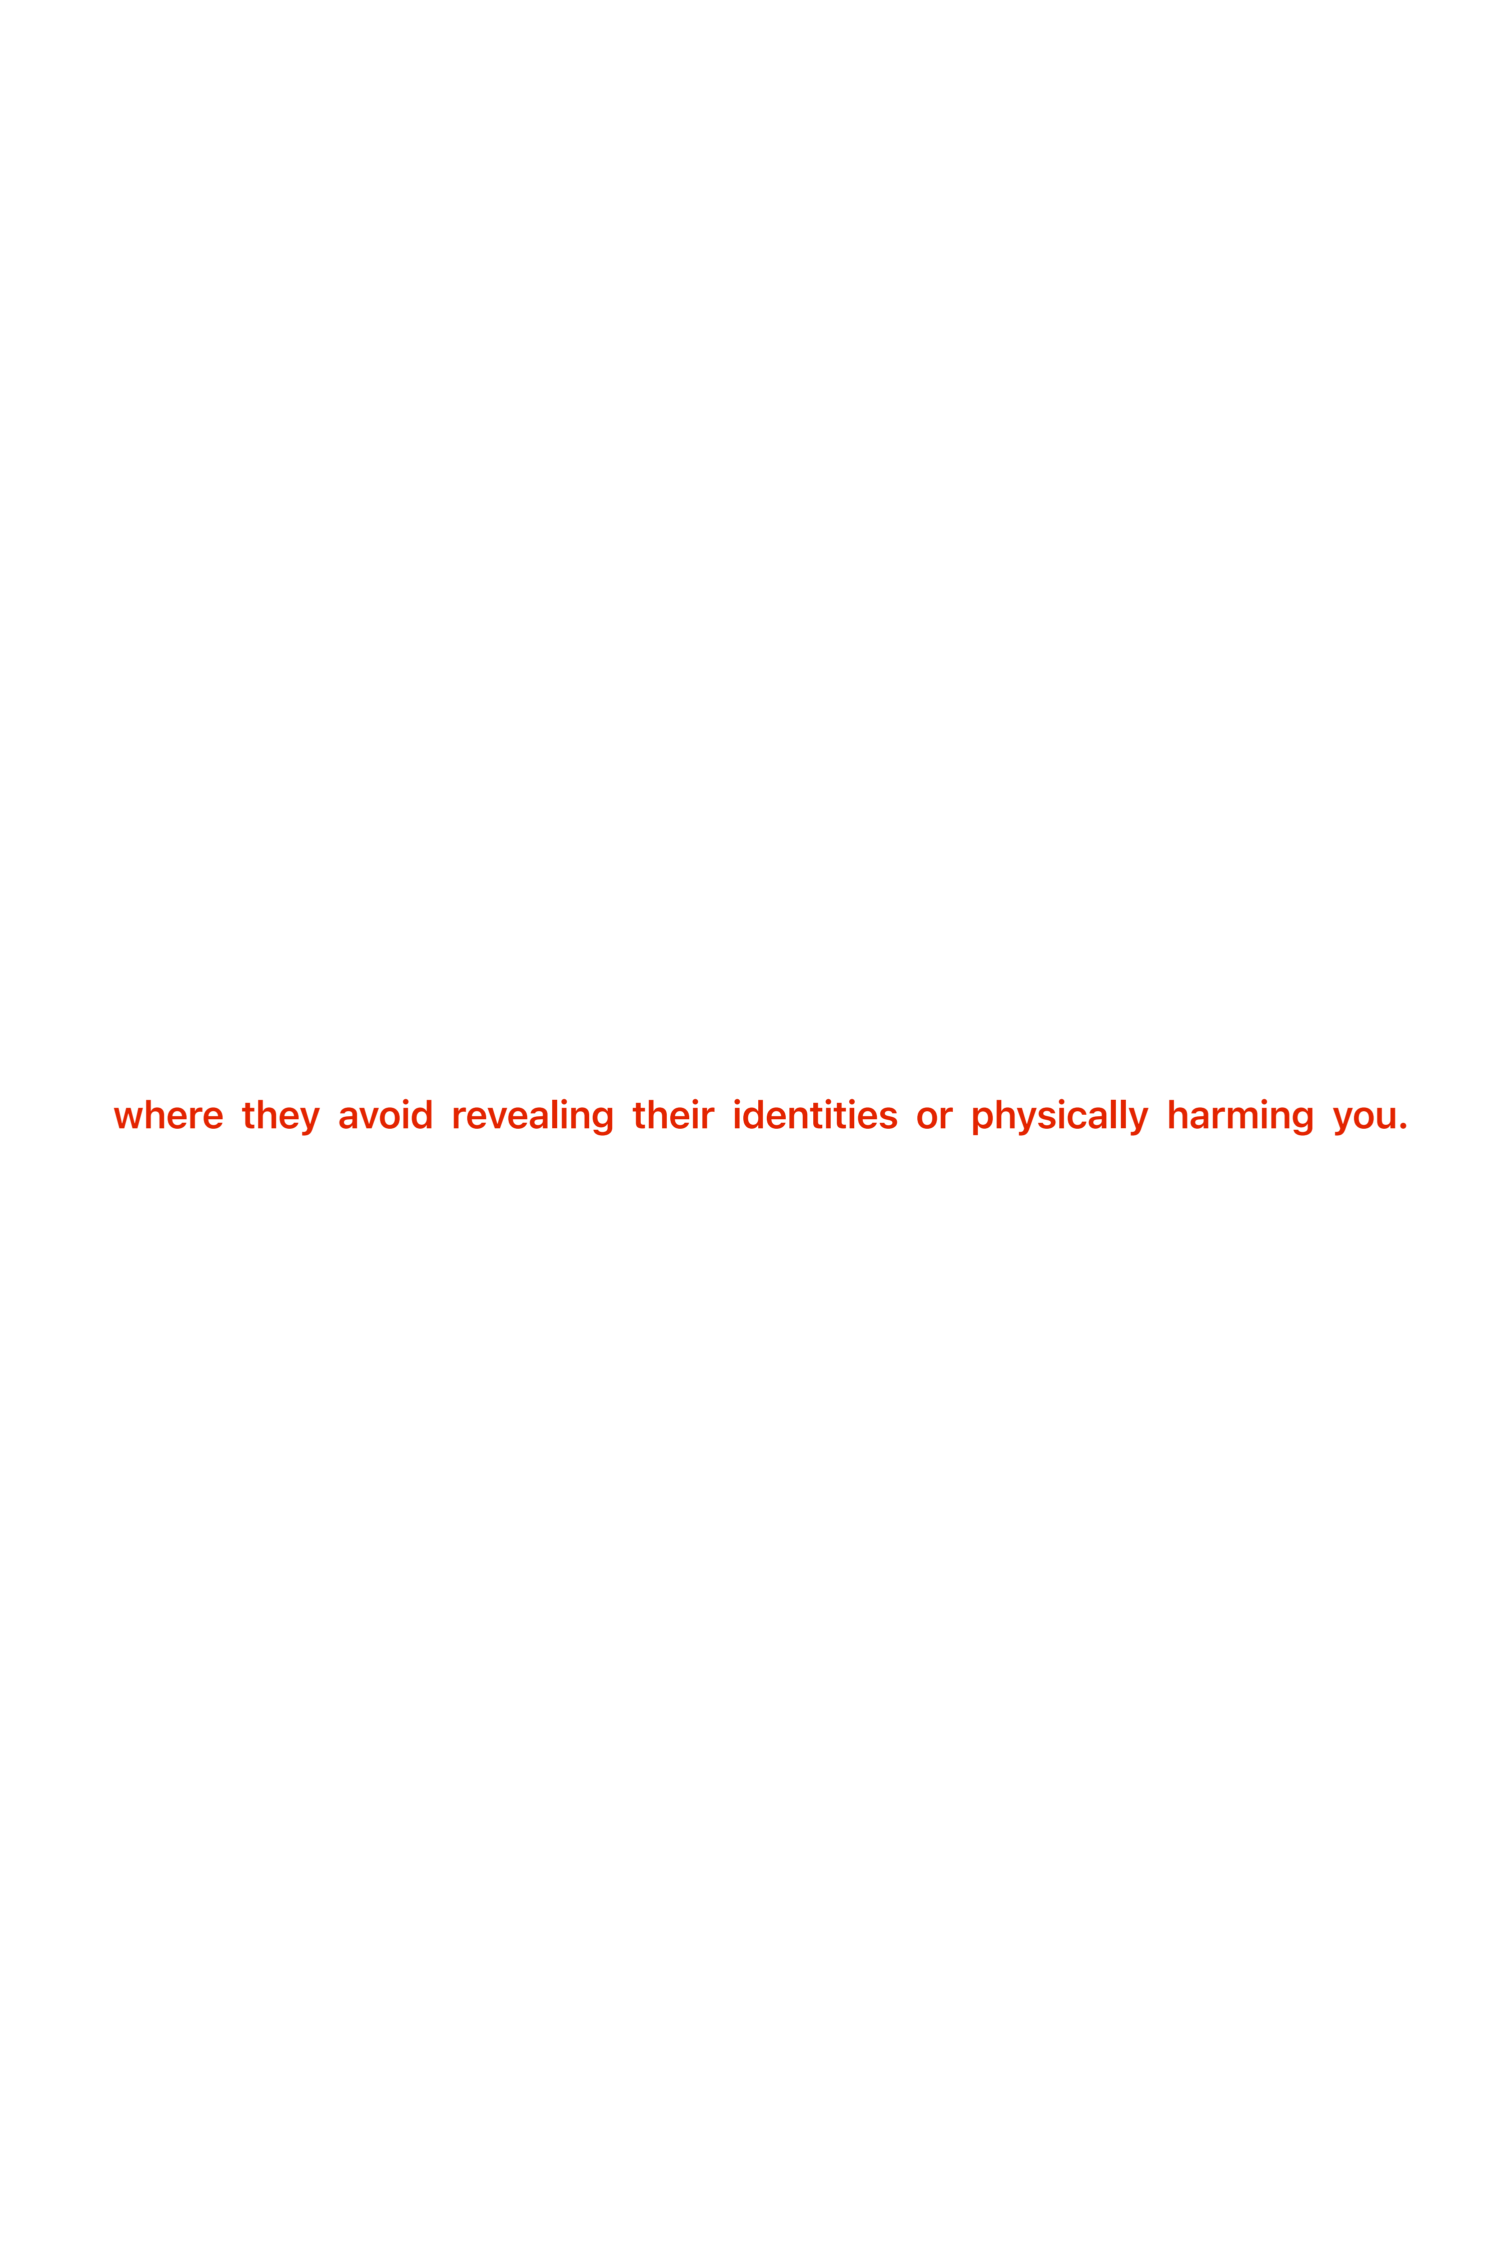

truth still unresolved, and the corrupt system protected.

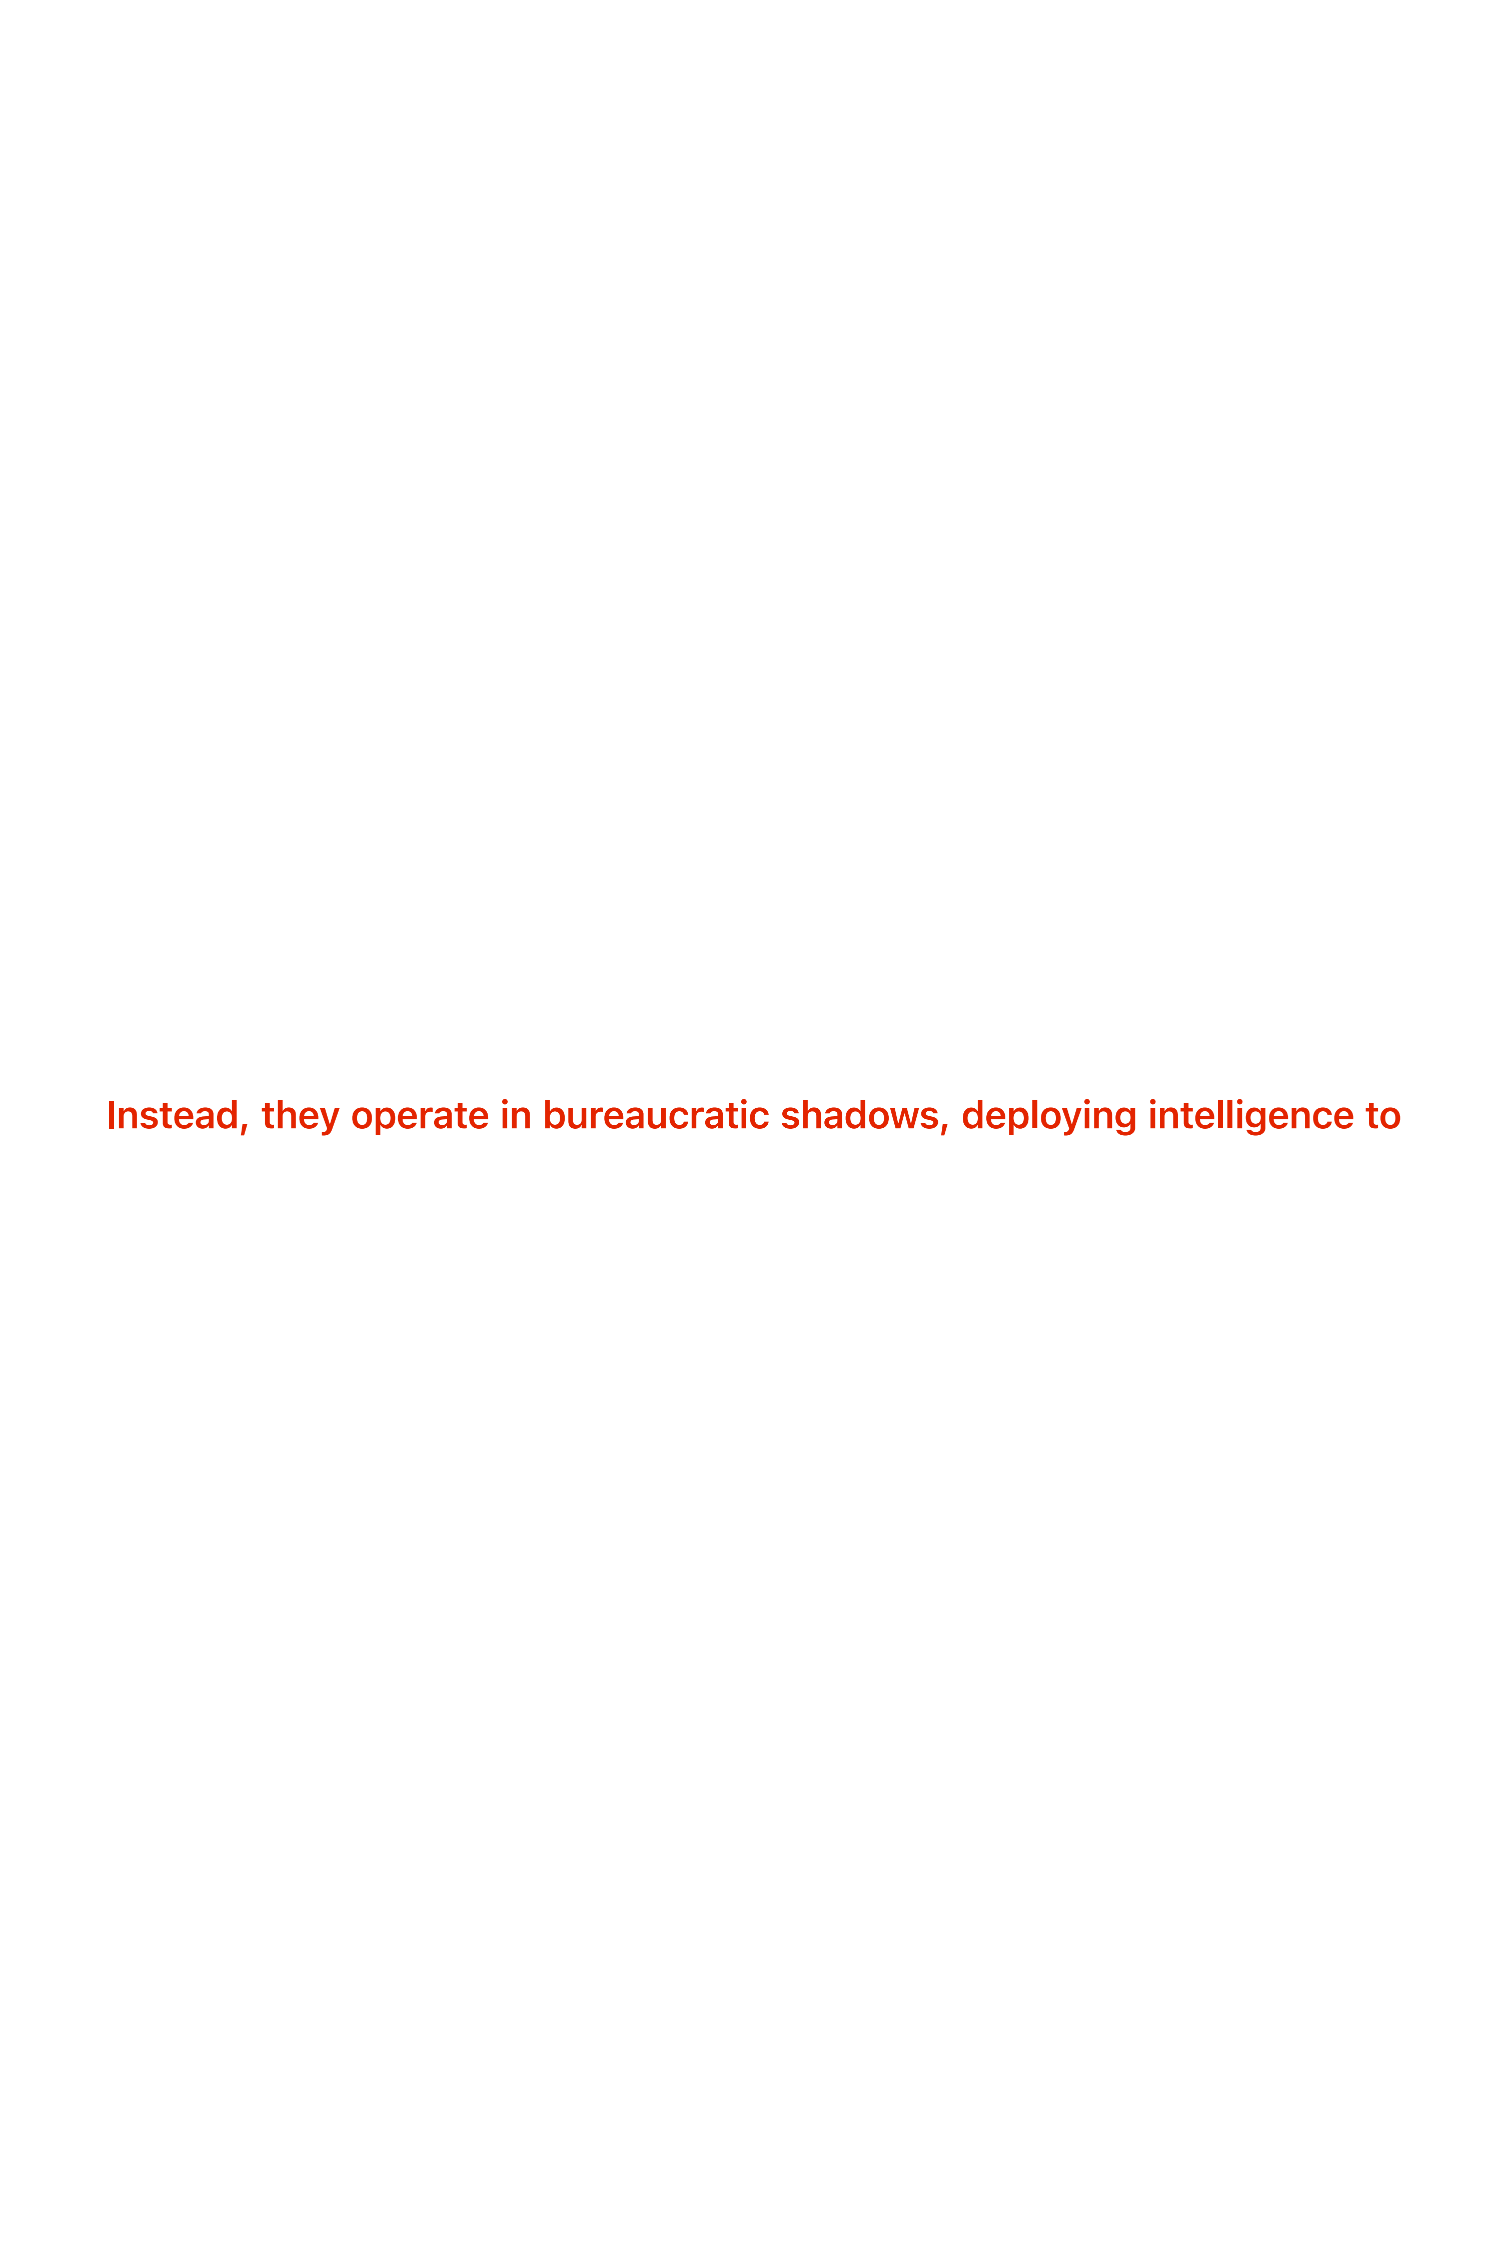

What's even more alarming is that there is a budget dedicated

specifically to my surveillance and the deconstruction of my life. Right

now, as I write this, they are outside my window. Their tactics are

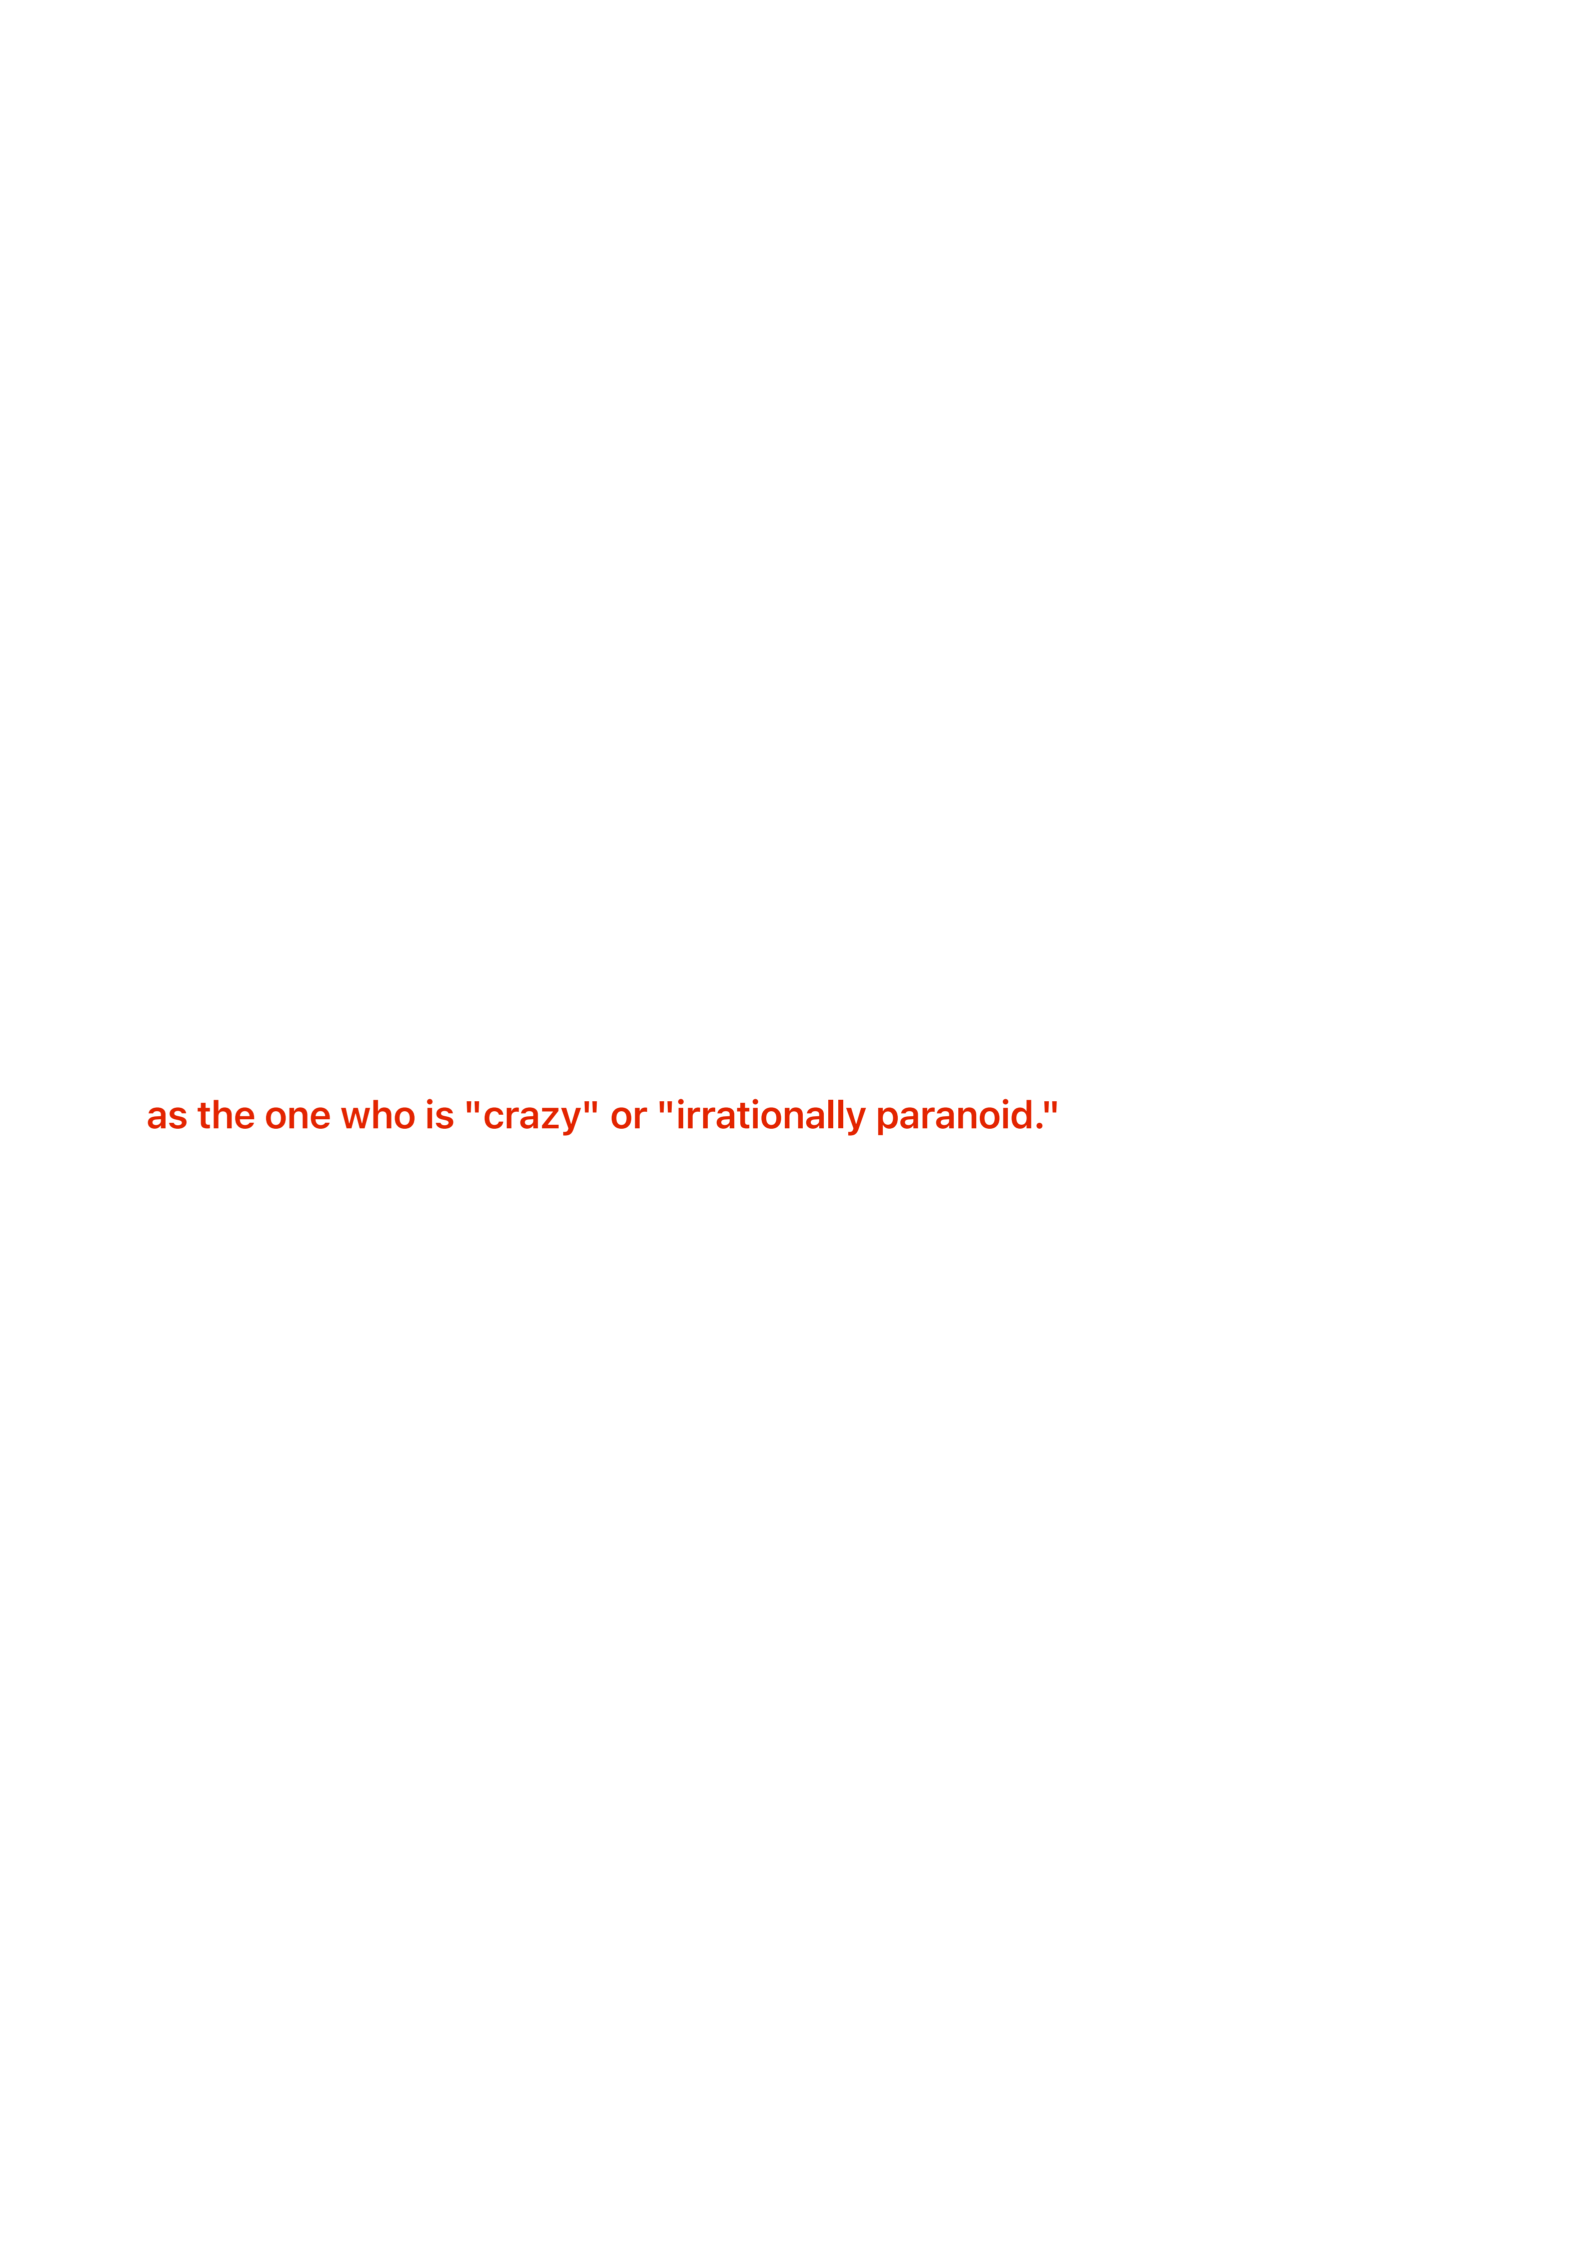

referred to as "no-touch torture"—a form of psychological warfare

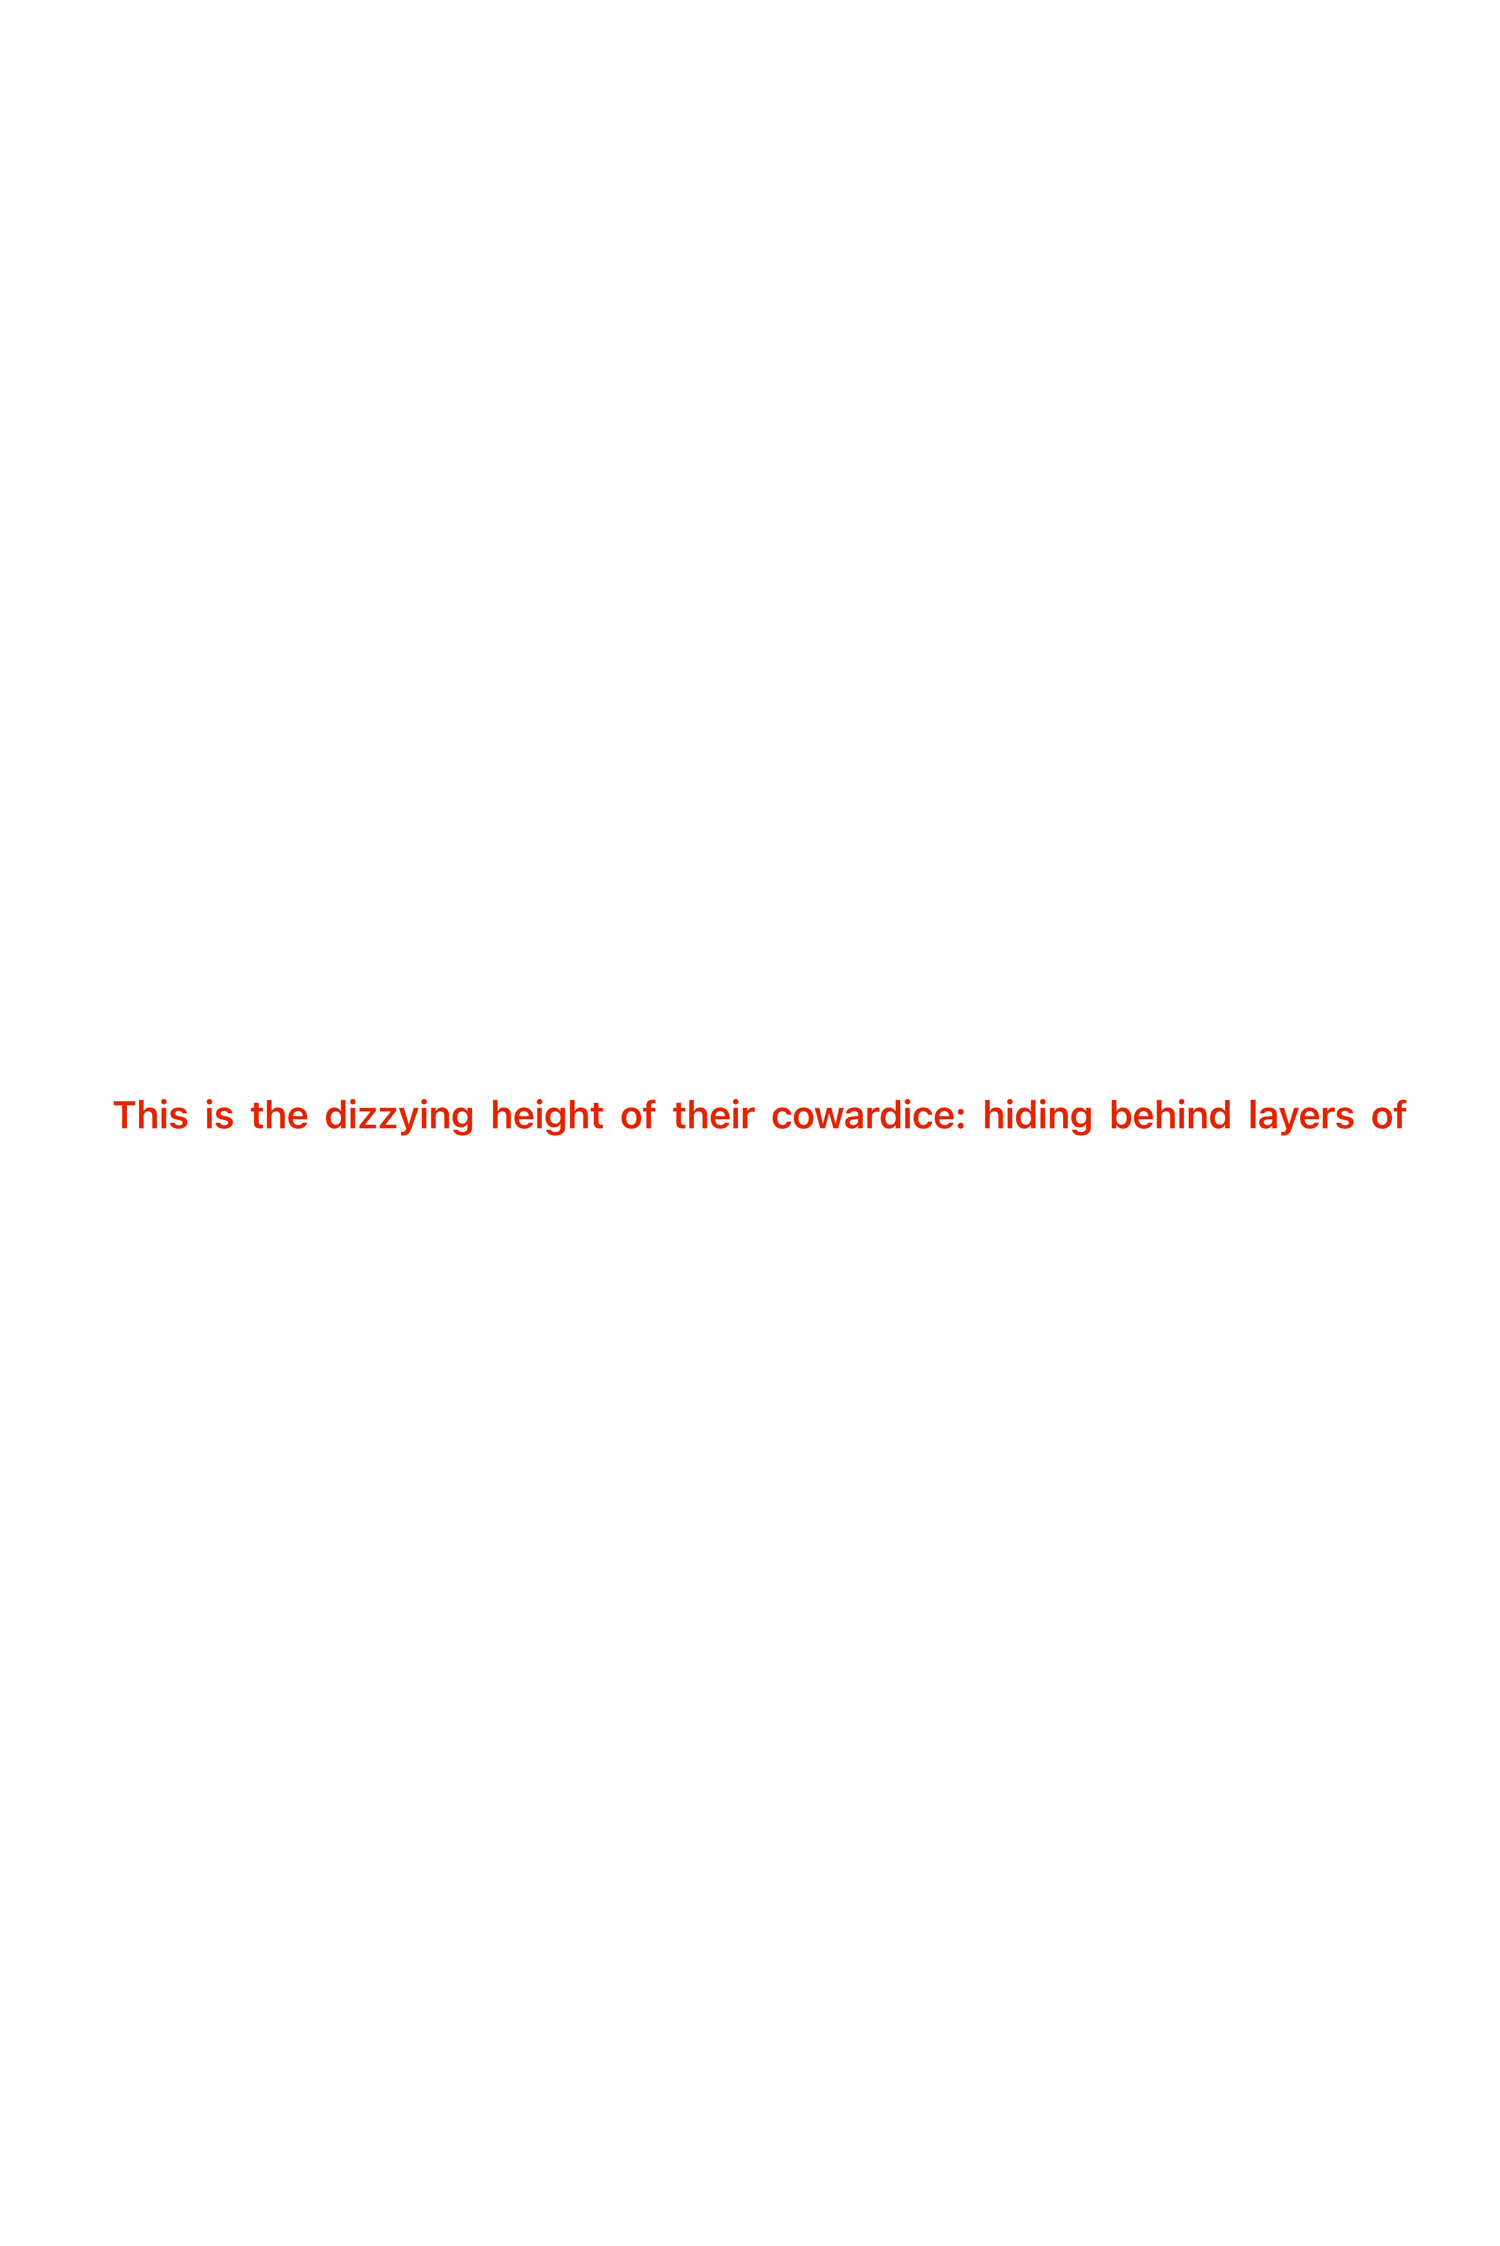

where they avoid revealing their identities or physically harming you.

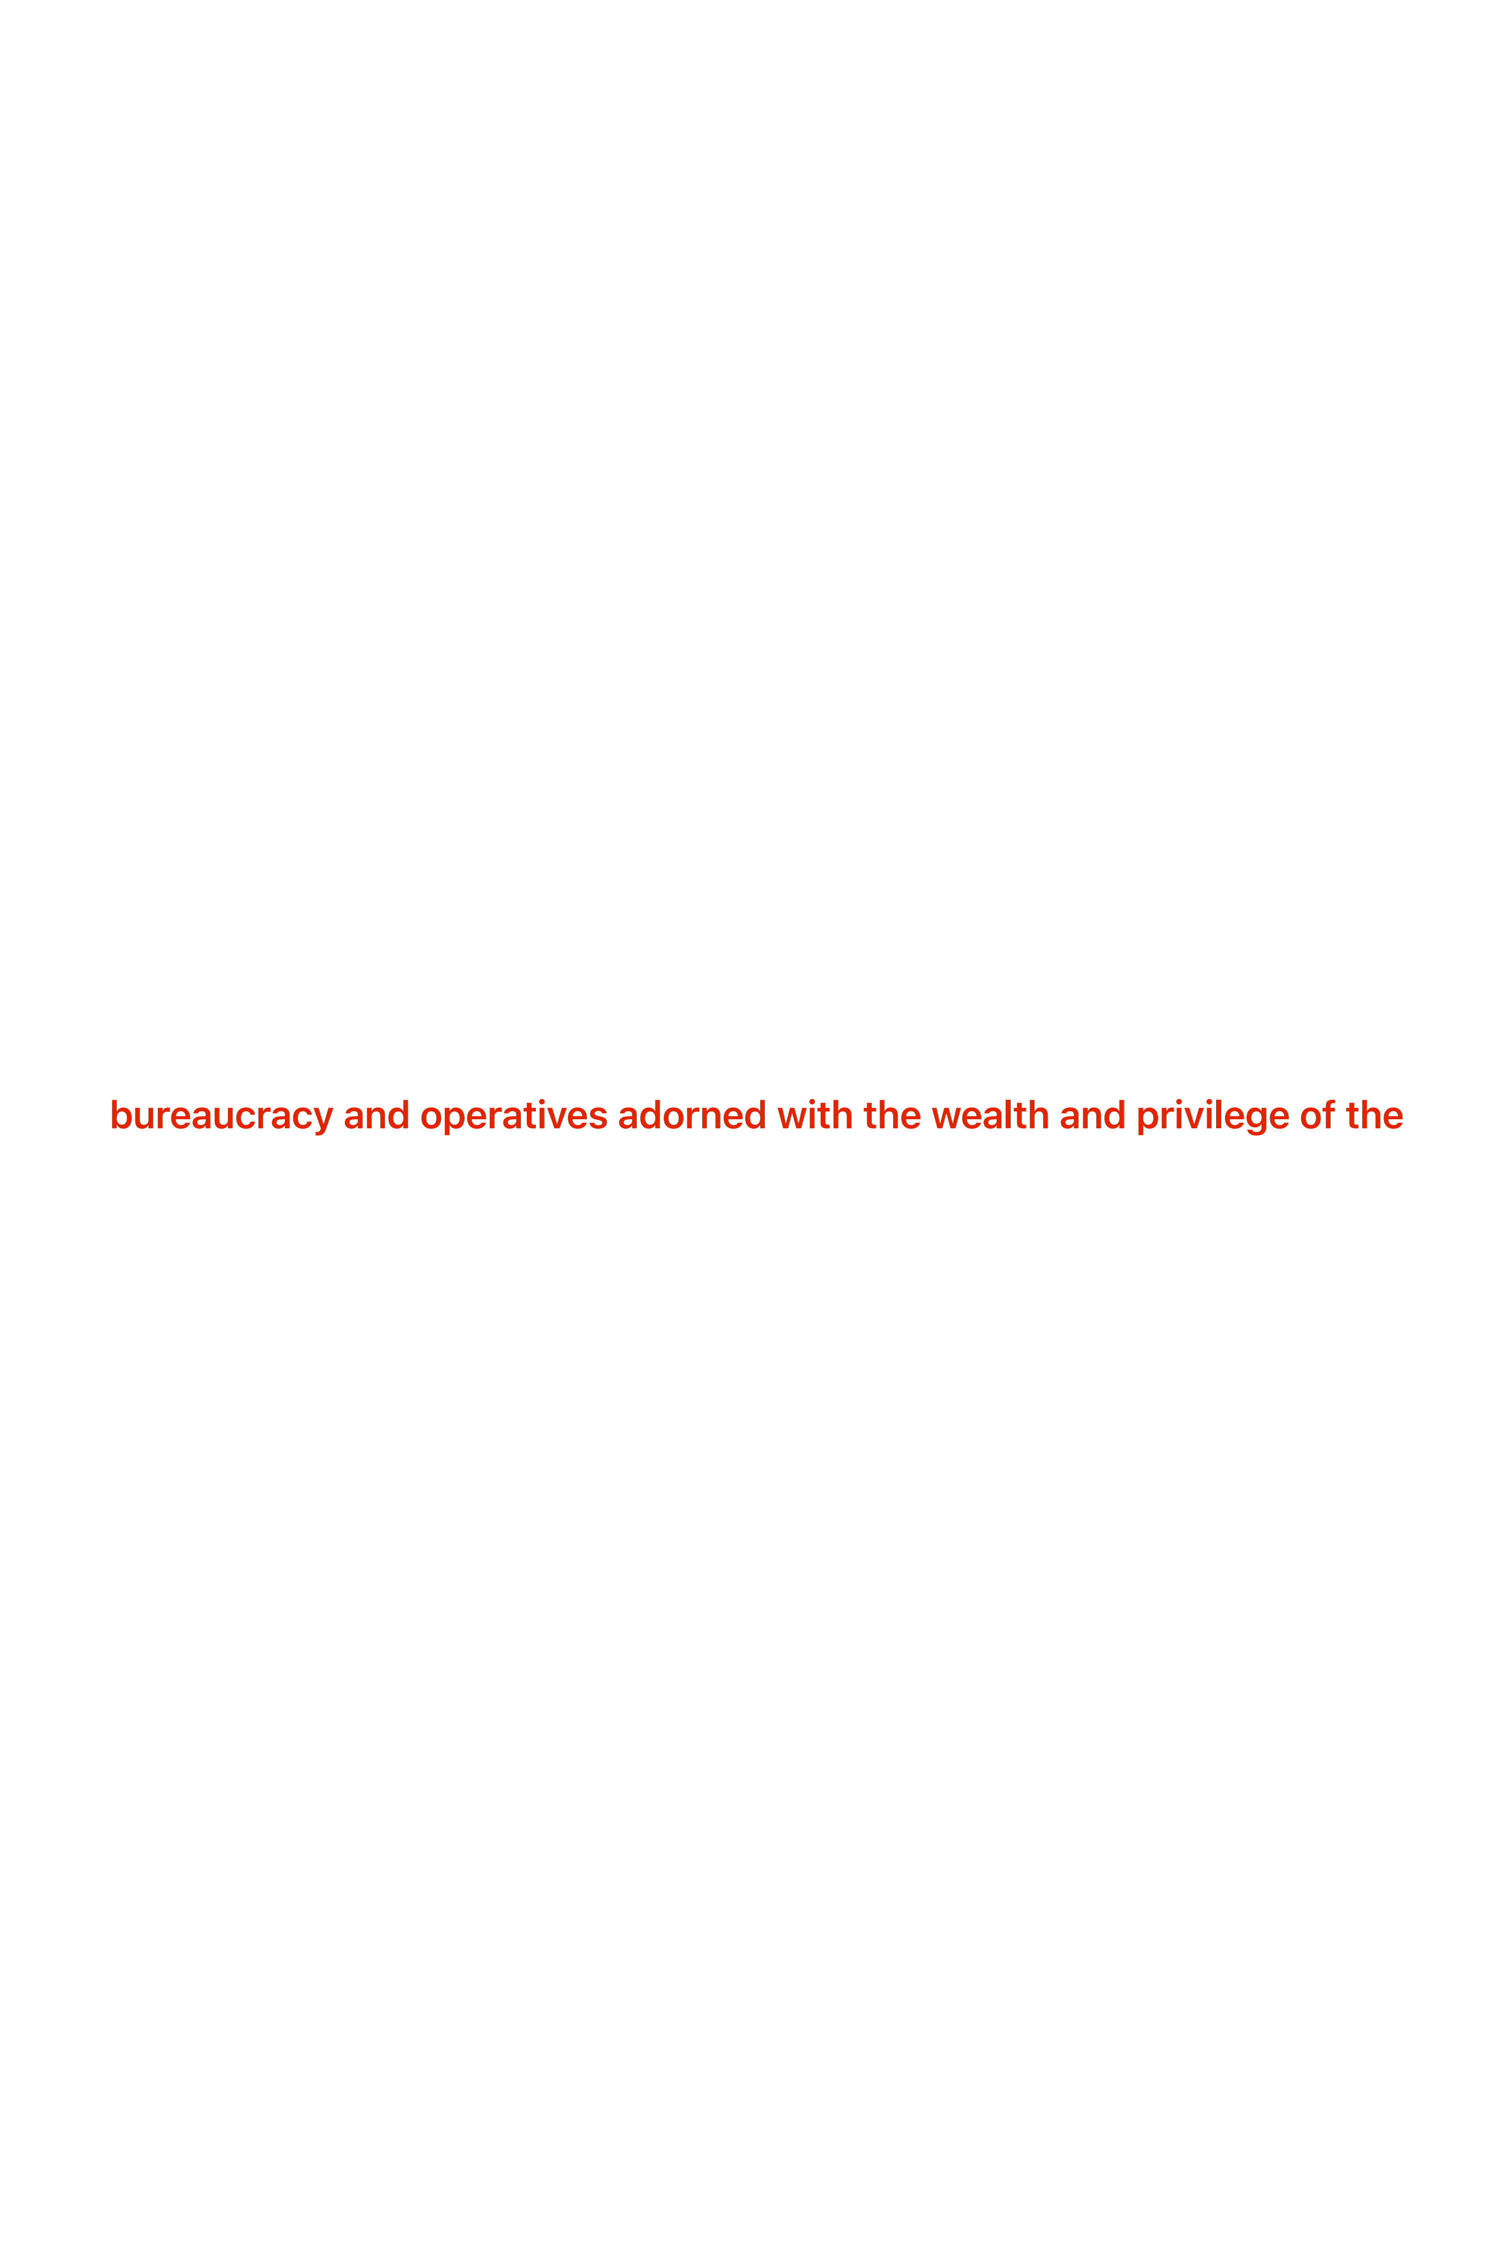

Instead, they operate in bureaucratic shadows, deploying intelligence to

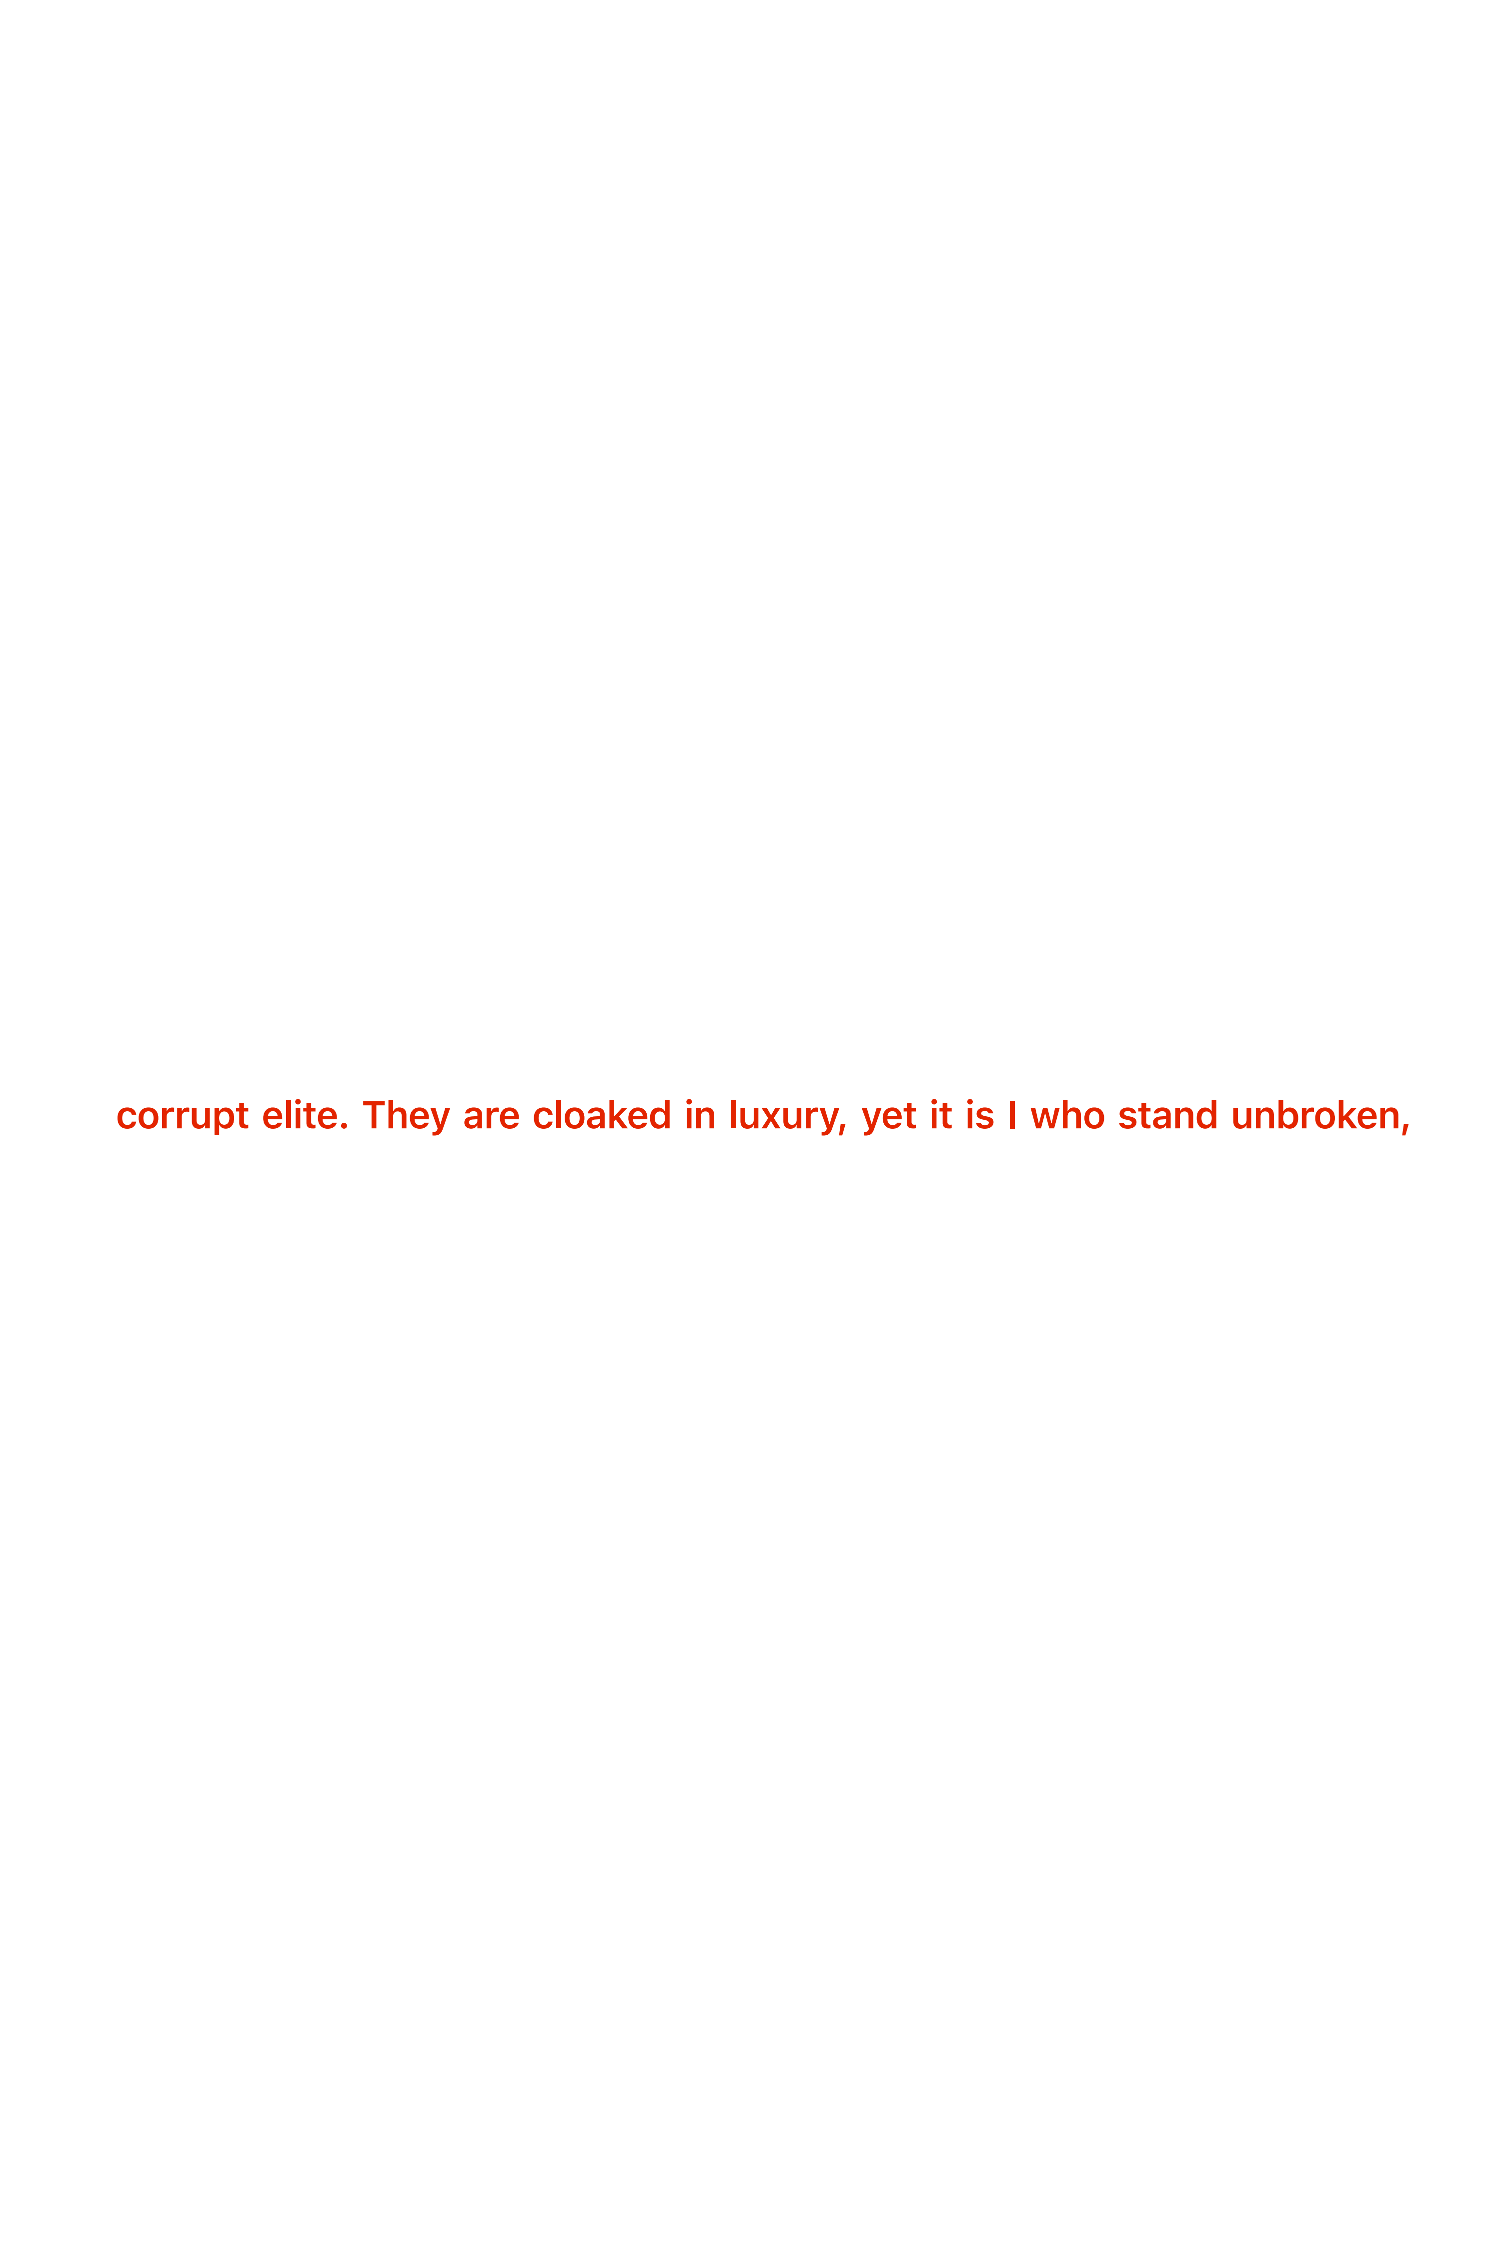

orchestrate harm and create obstacles in covert and stealthy ways. This

approach allows them to maintain plausible deniability, positioning me

as the one who is "crazy" or "irrationally paranoid."

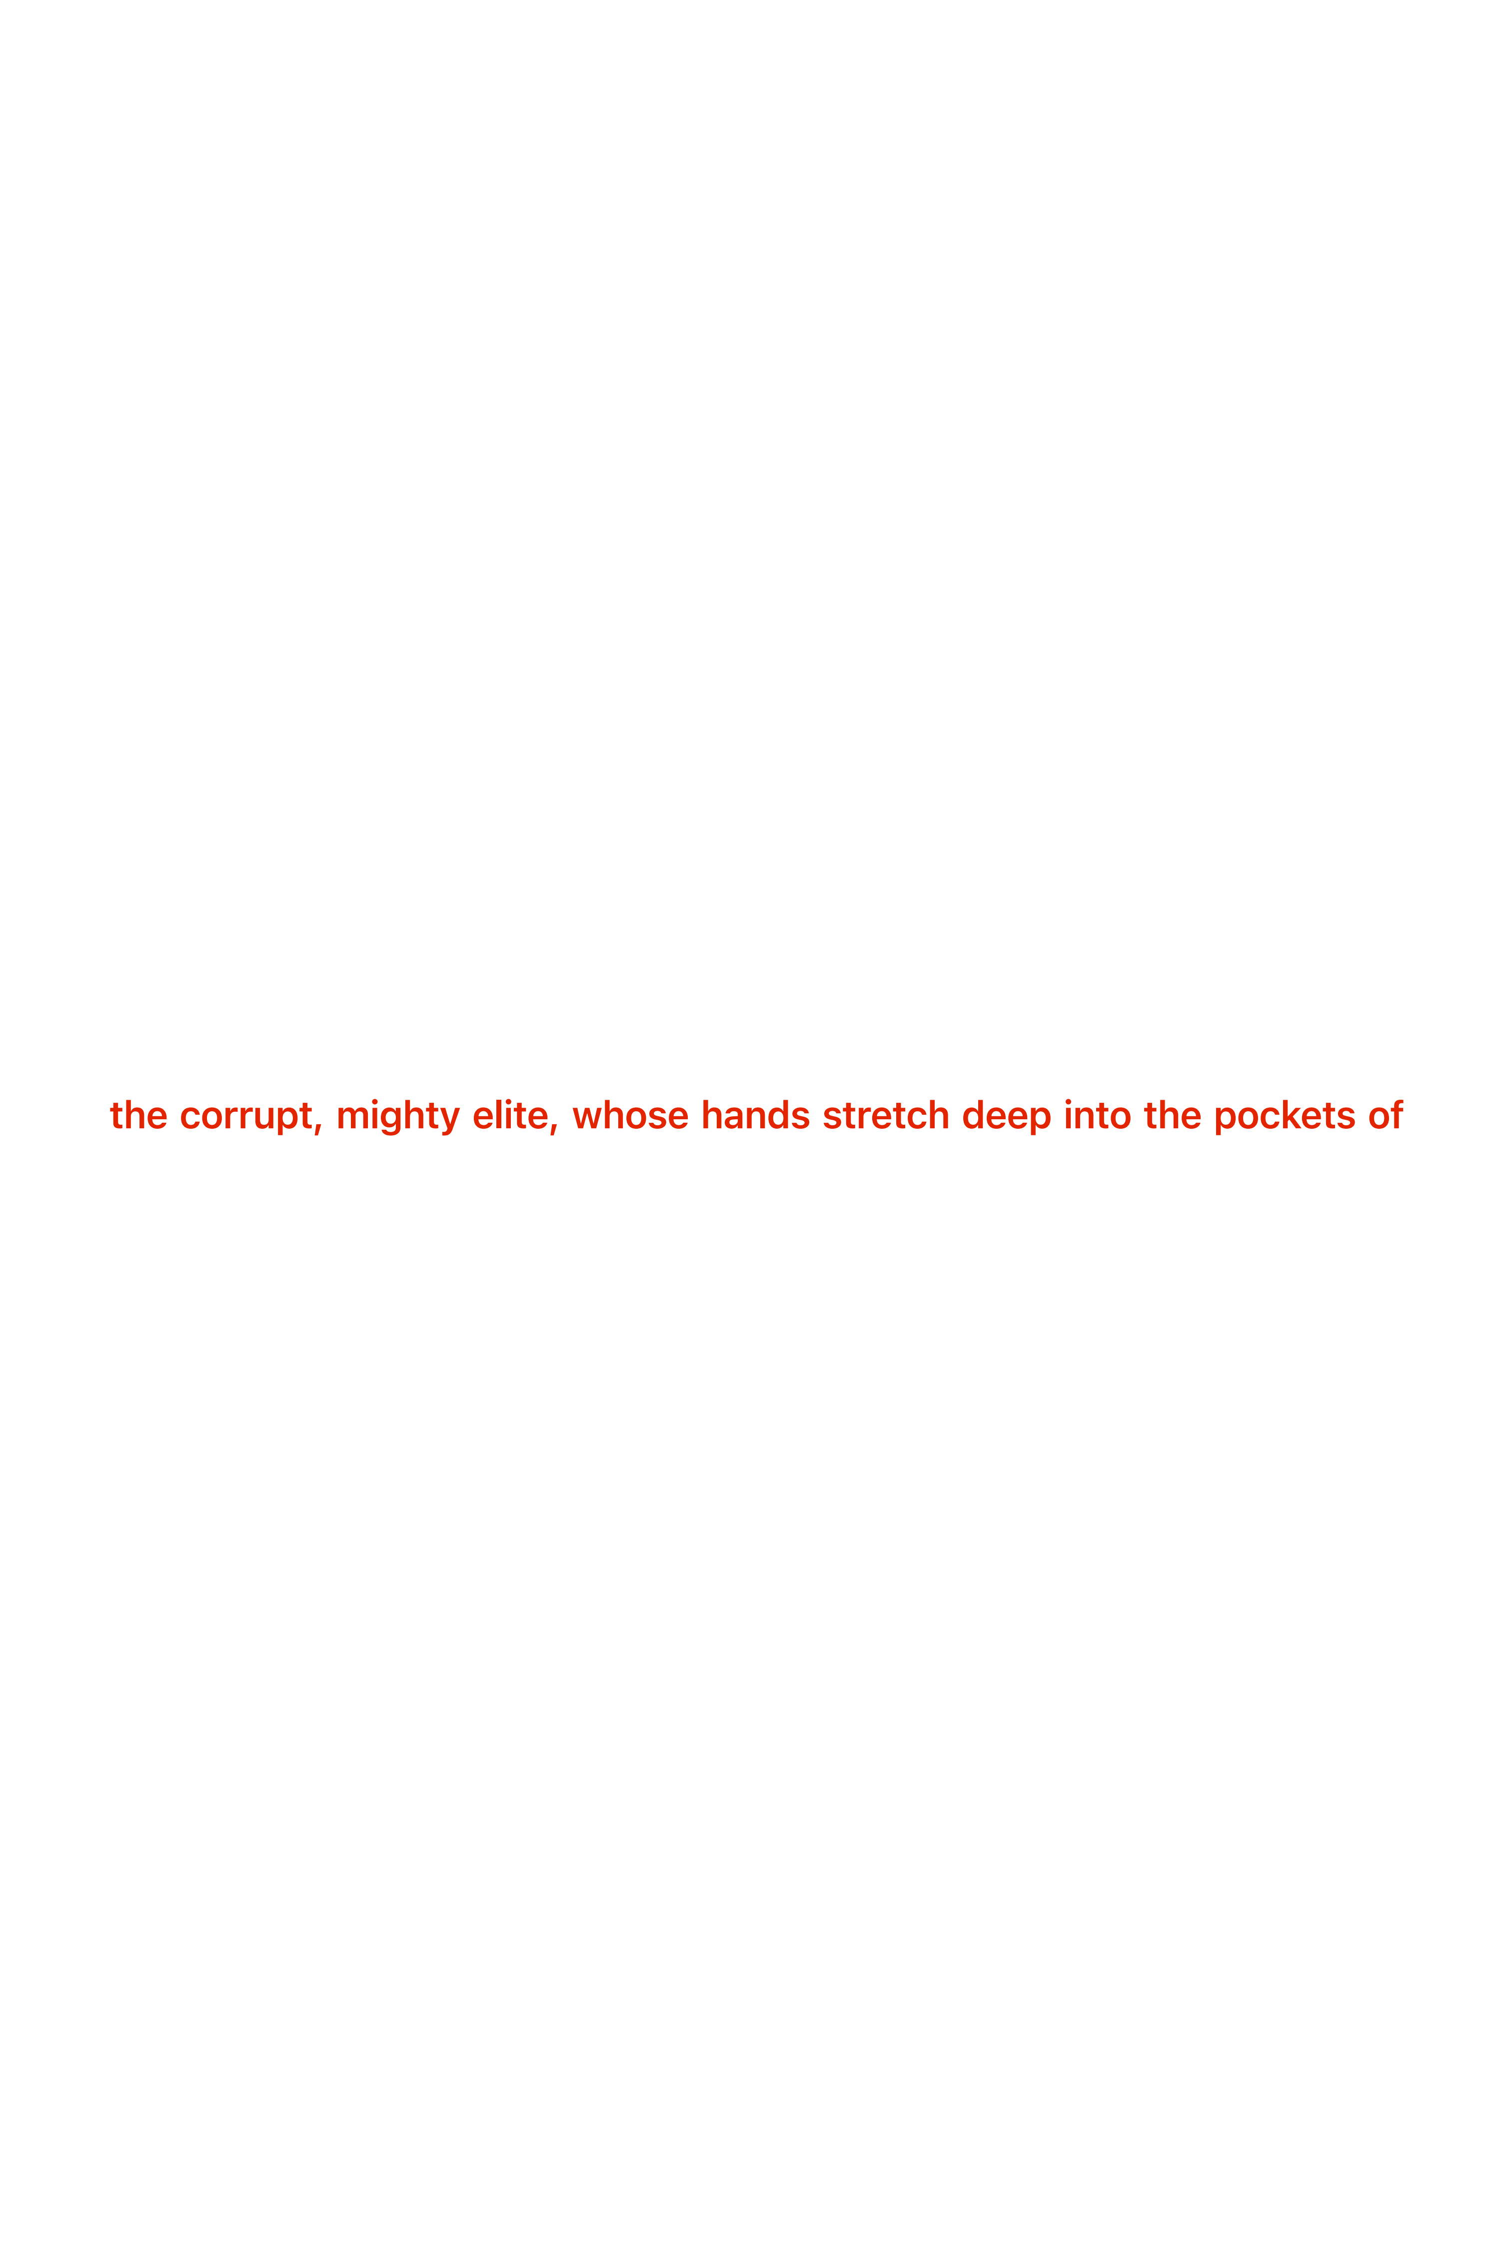

This is the dizzying height of their cowardice: hiding behind layers of

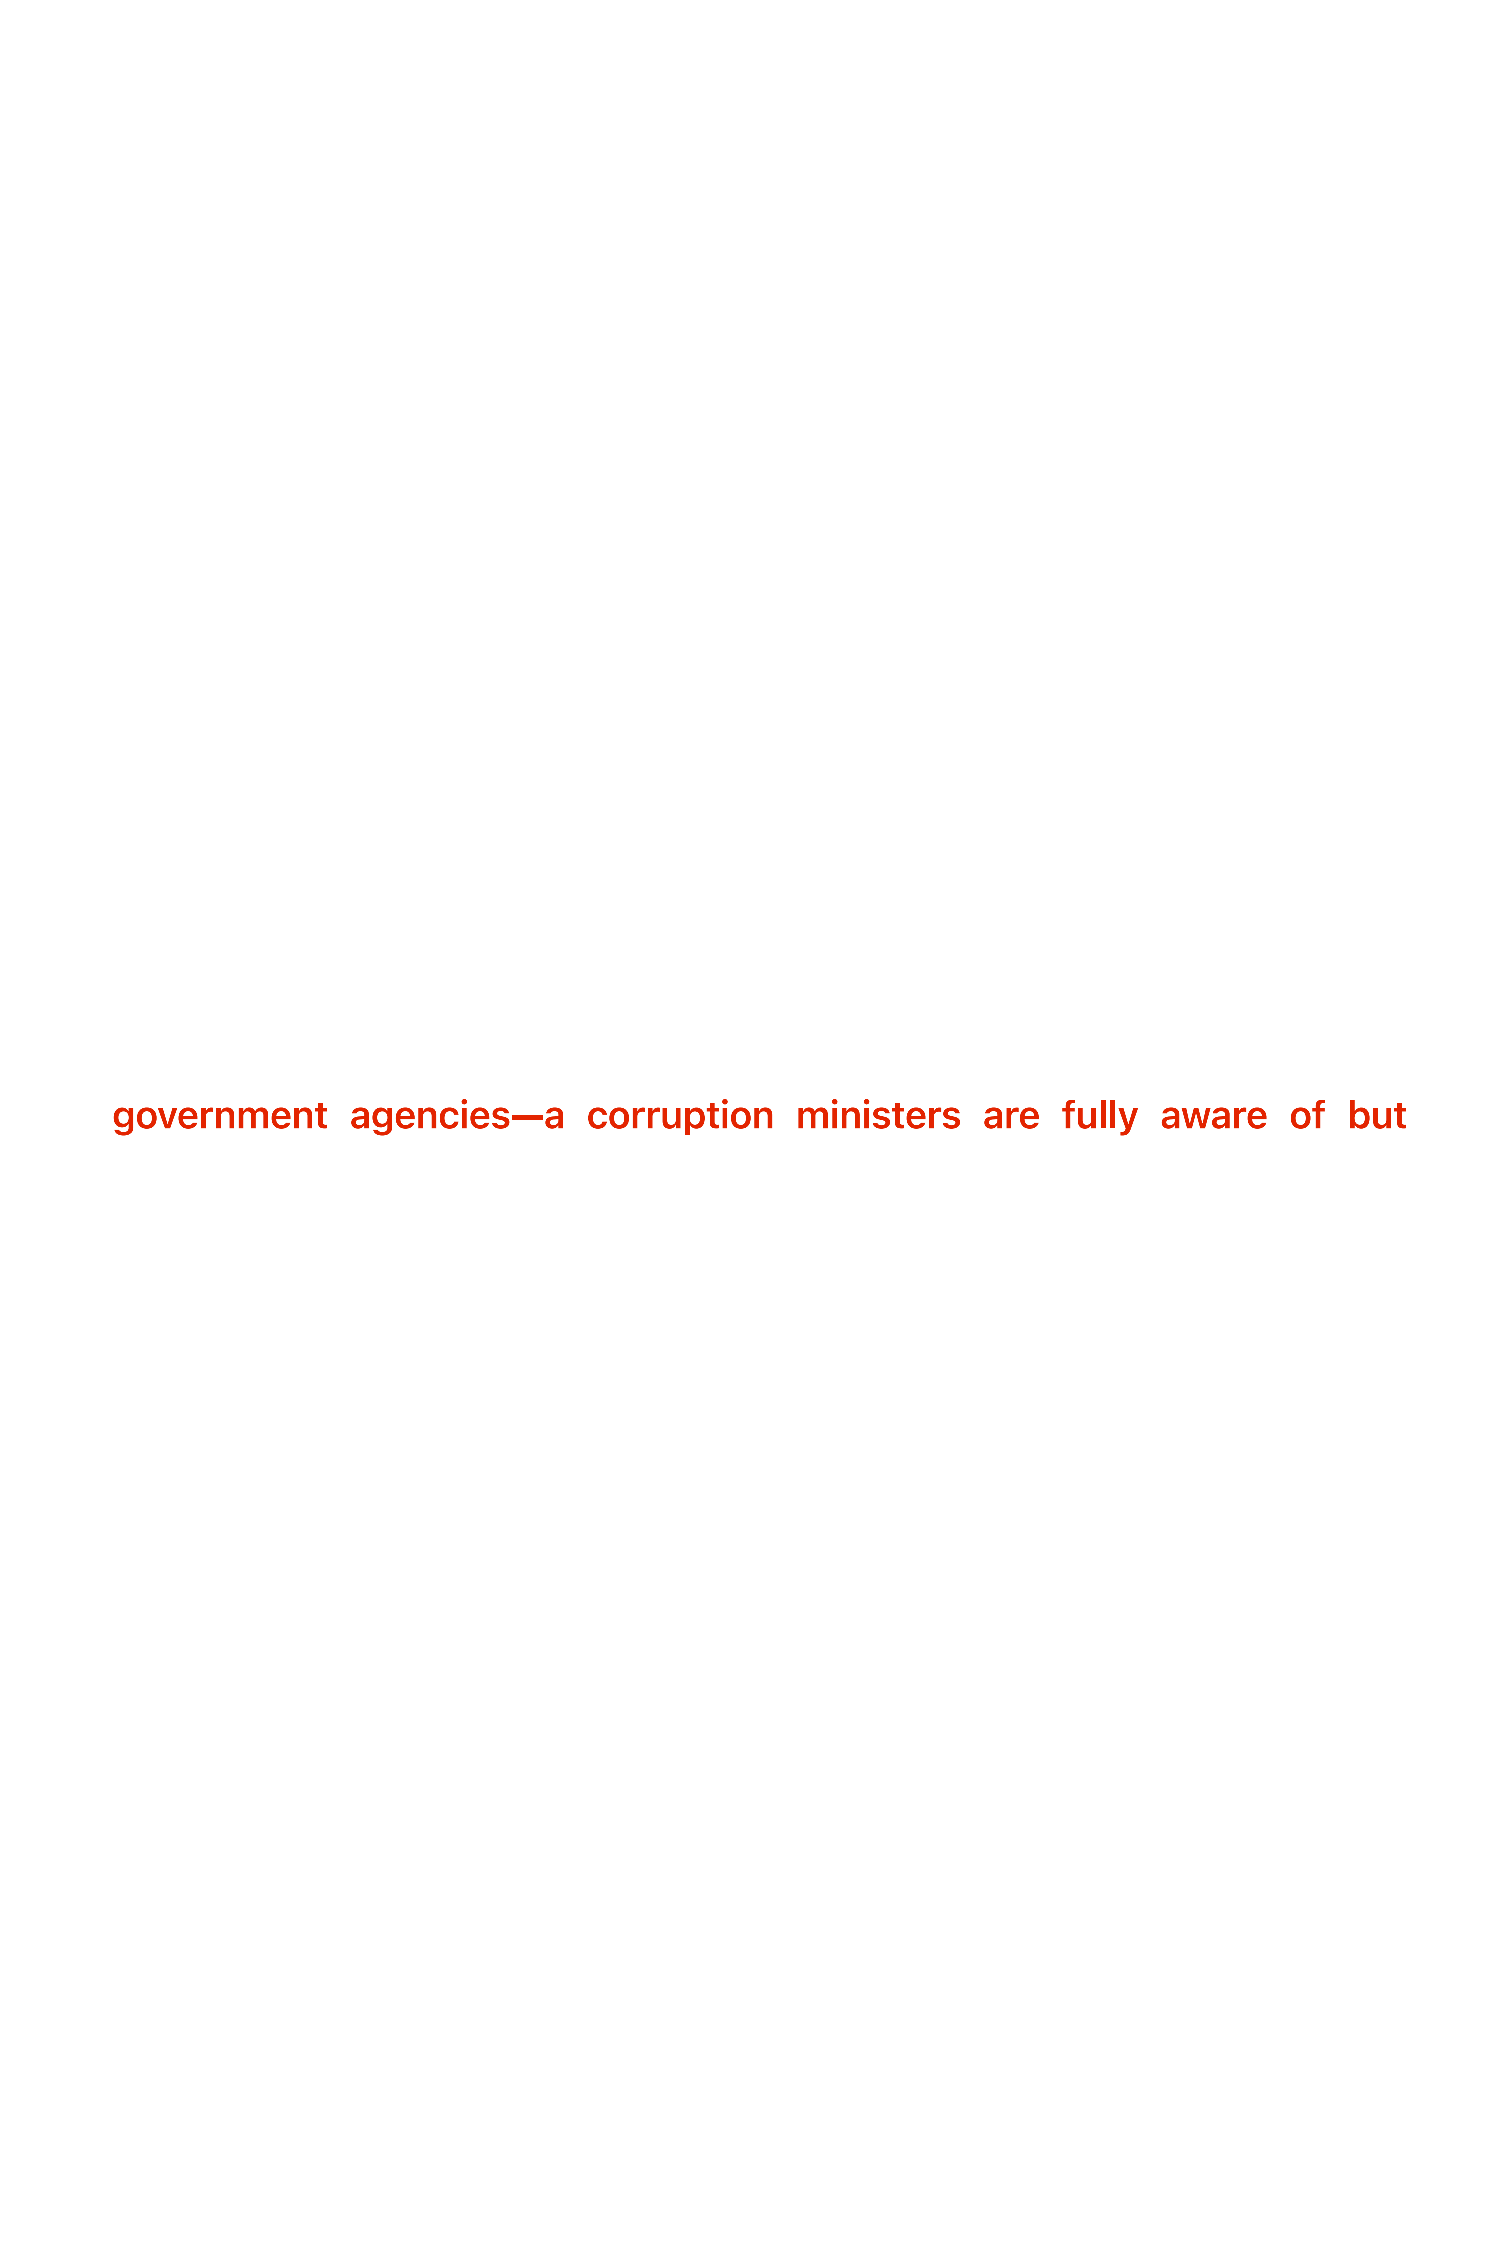

bureaucracy and operatives adorned with the wealth and privilege of the

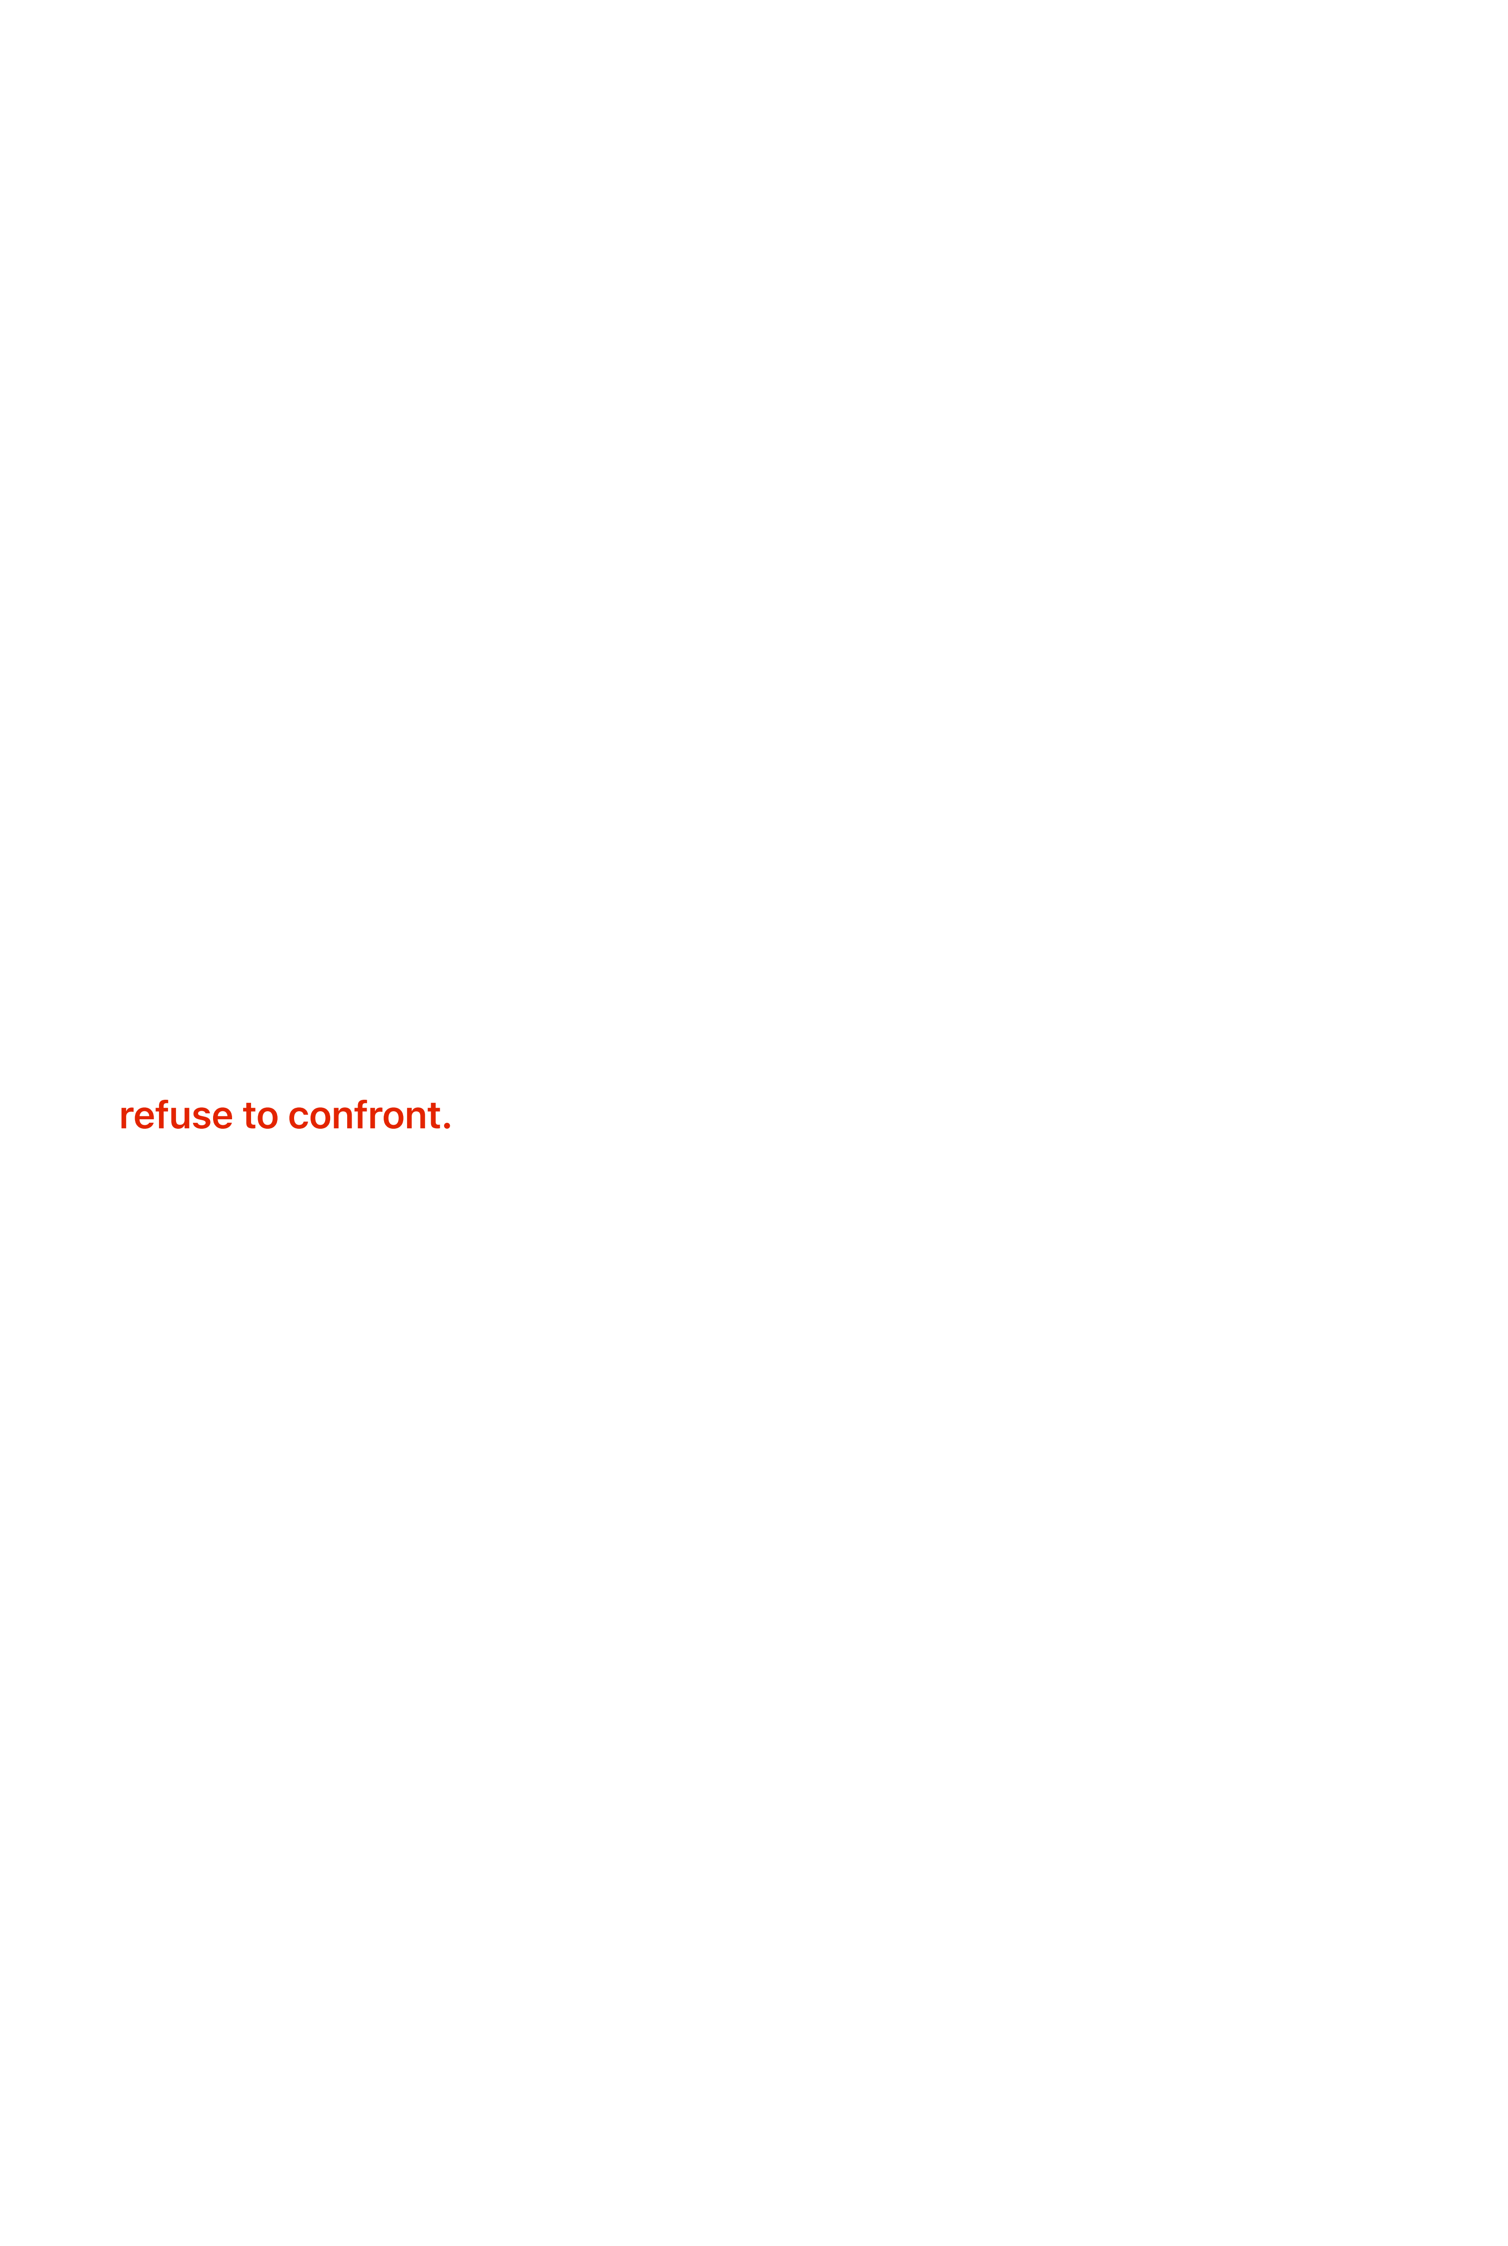

corrupt elite. They are cloaked in luxury, yet it is I who stand unbroken,

with a golden soul that no amount of malice, surveillance, or harassment

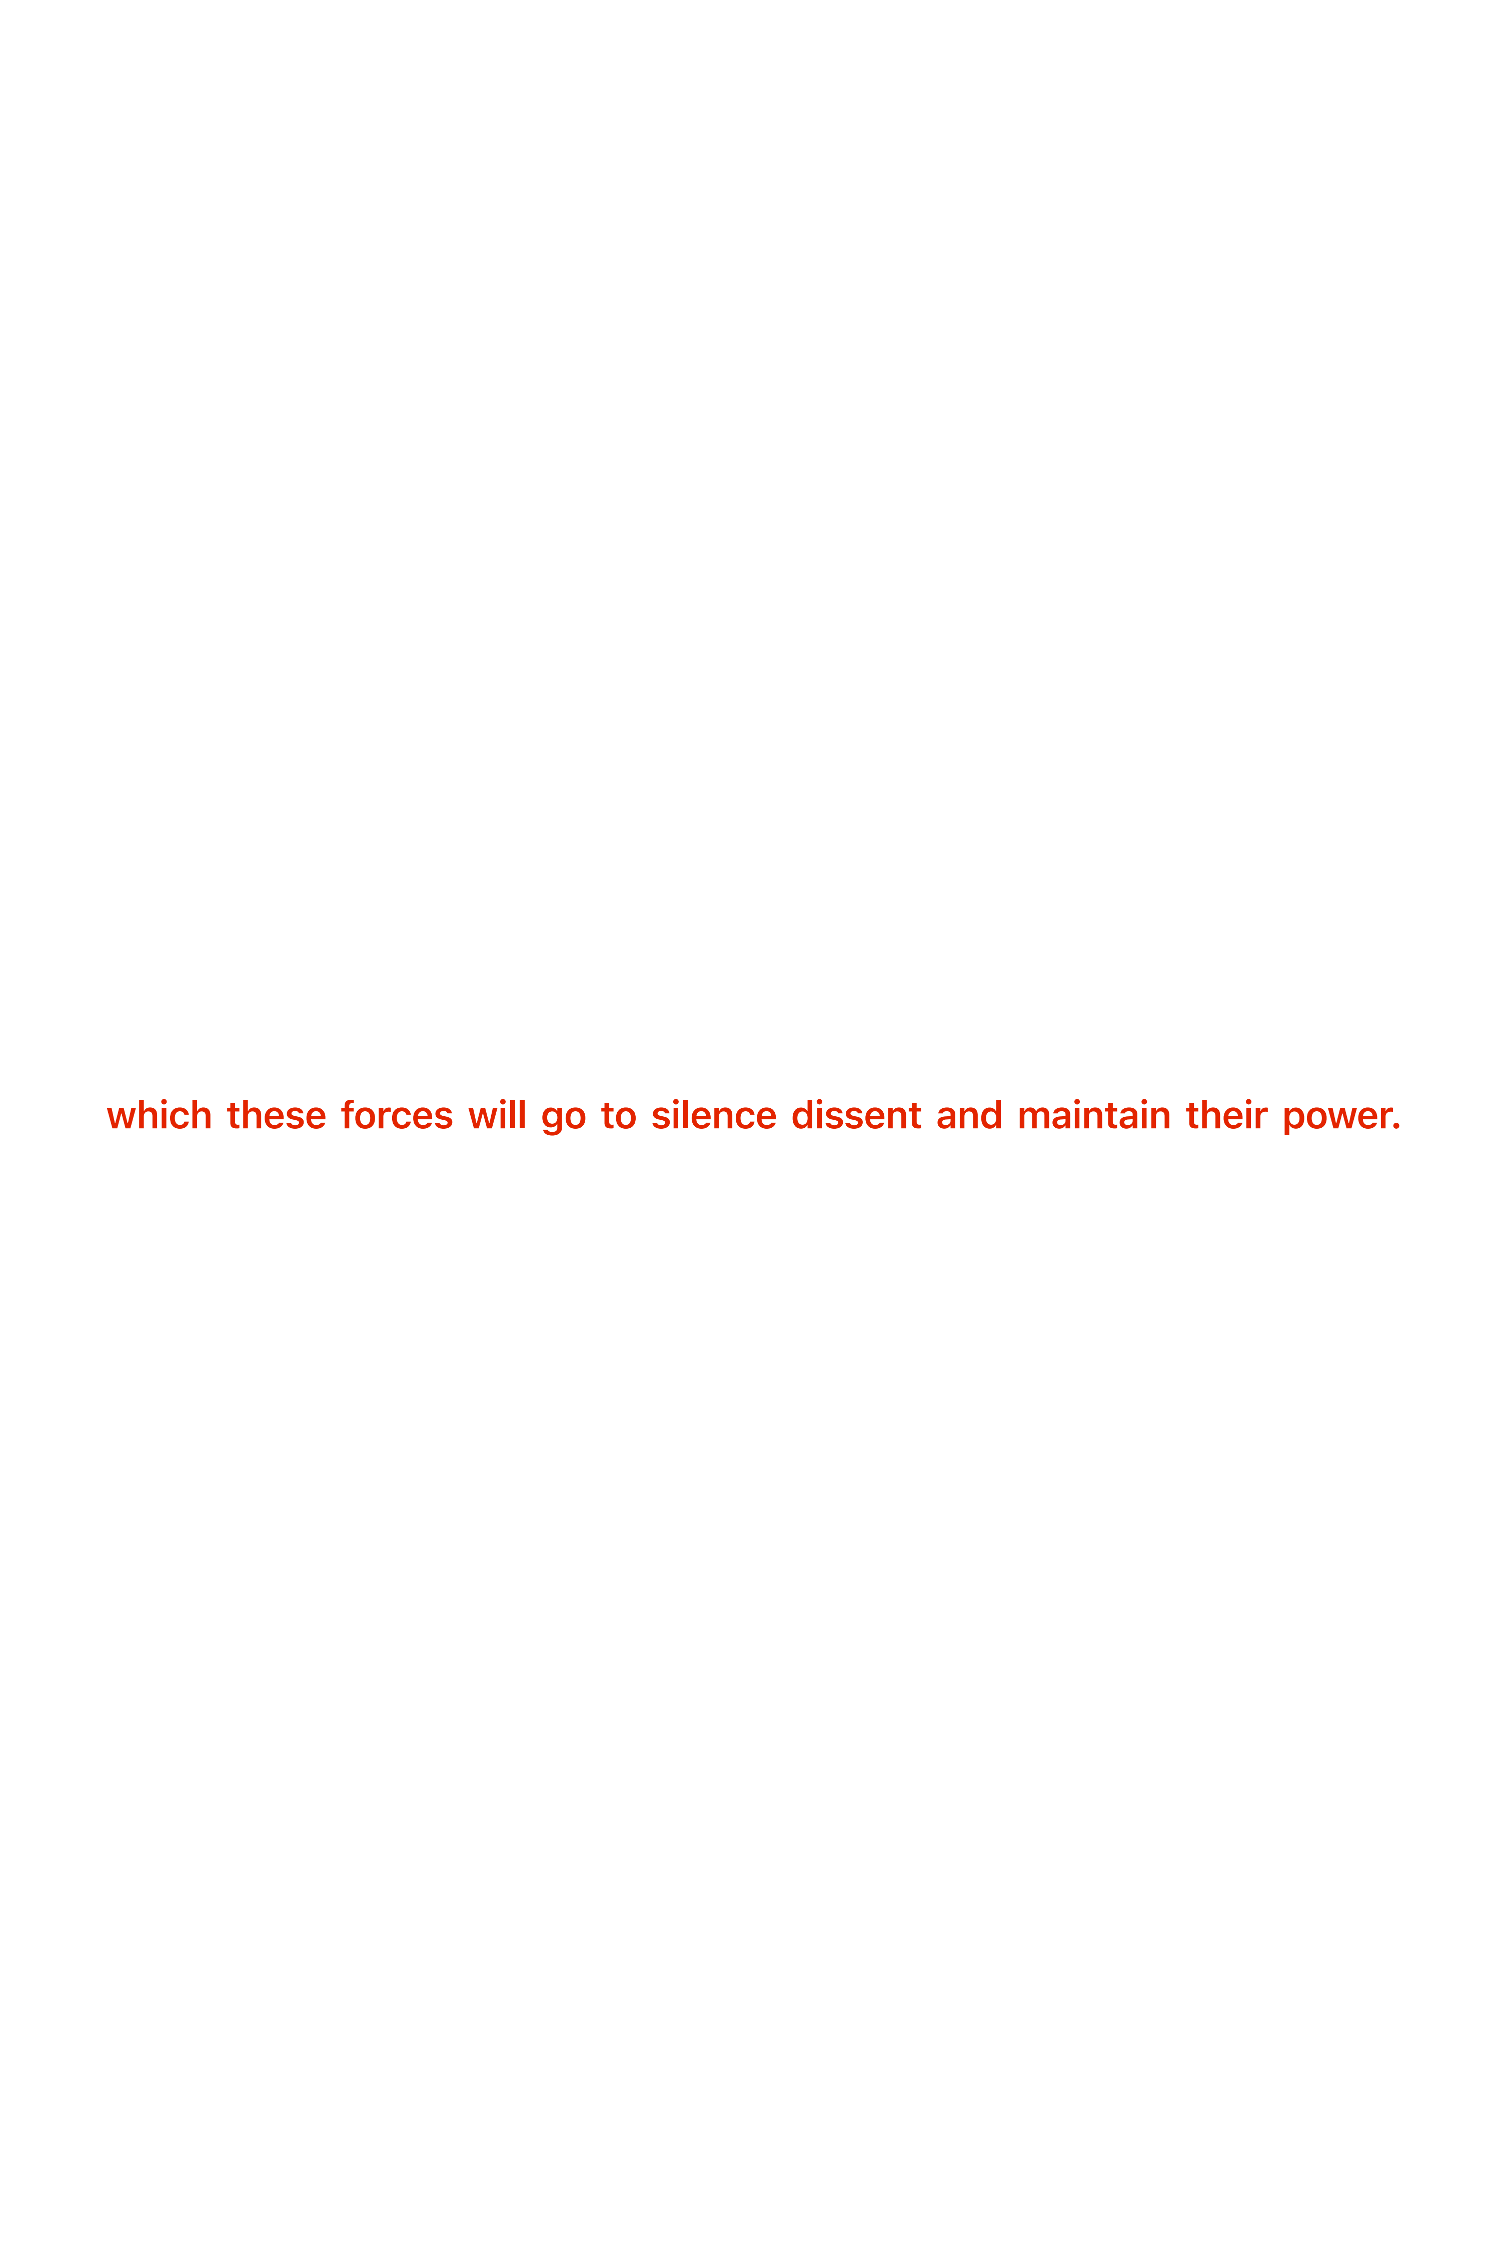

has been able to extinguish. My mere existence is a slap in the face to

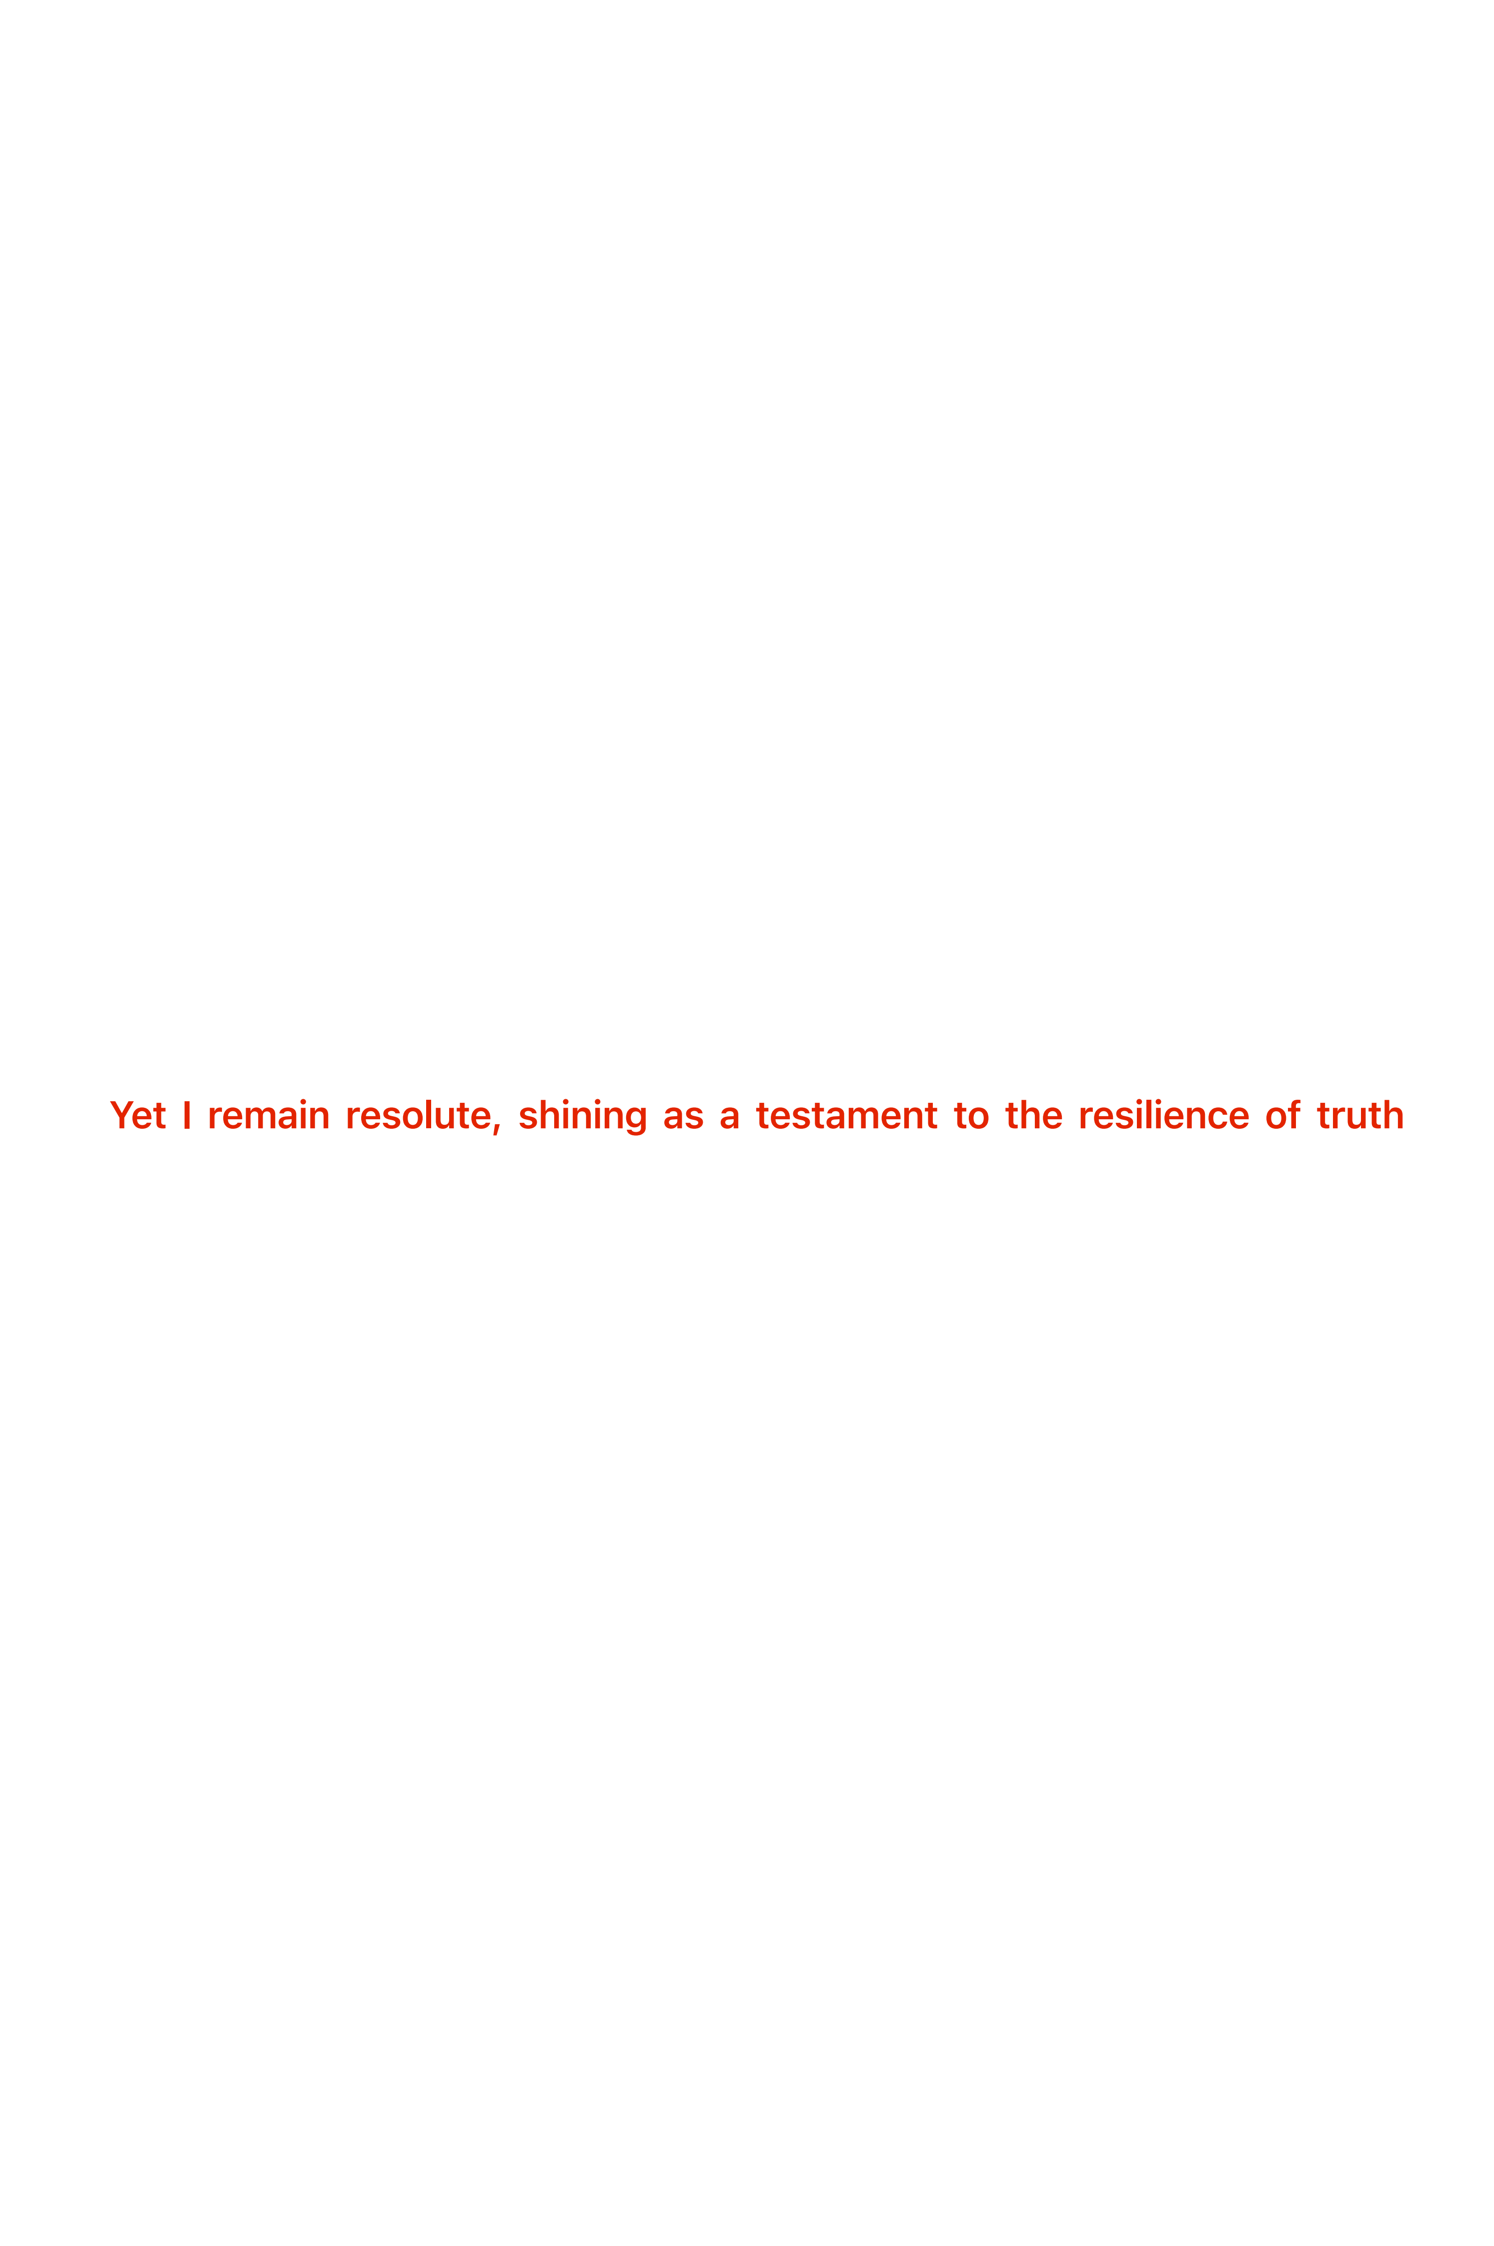

the corrupt, mighty elite, whose hands stretch deep into the pockets of

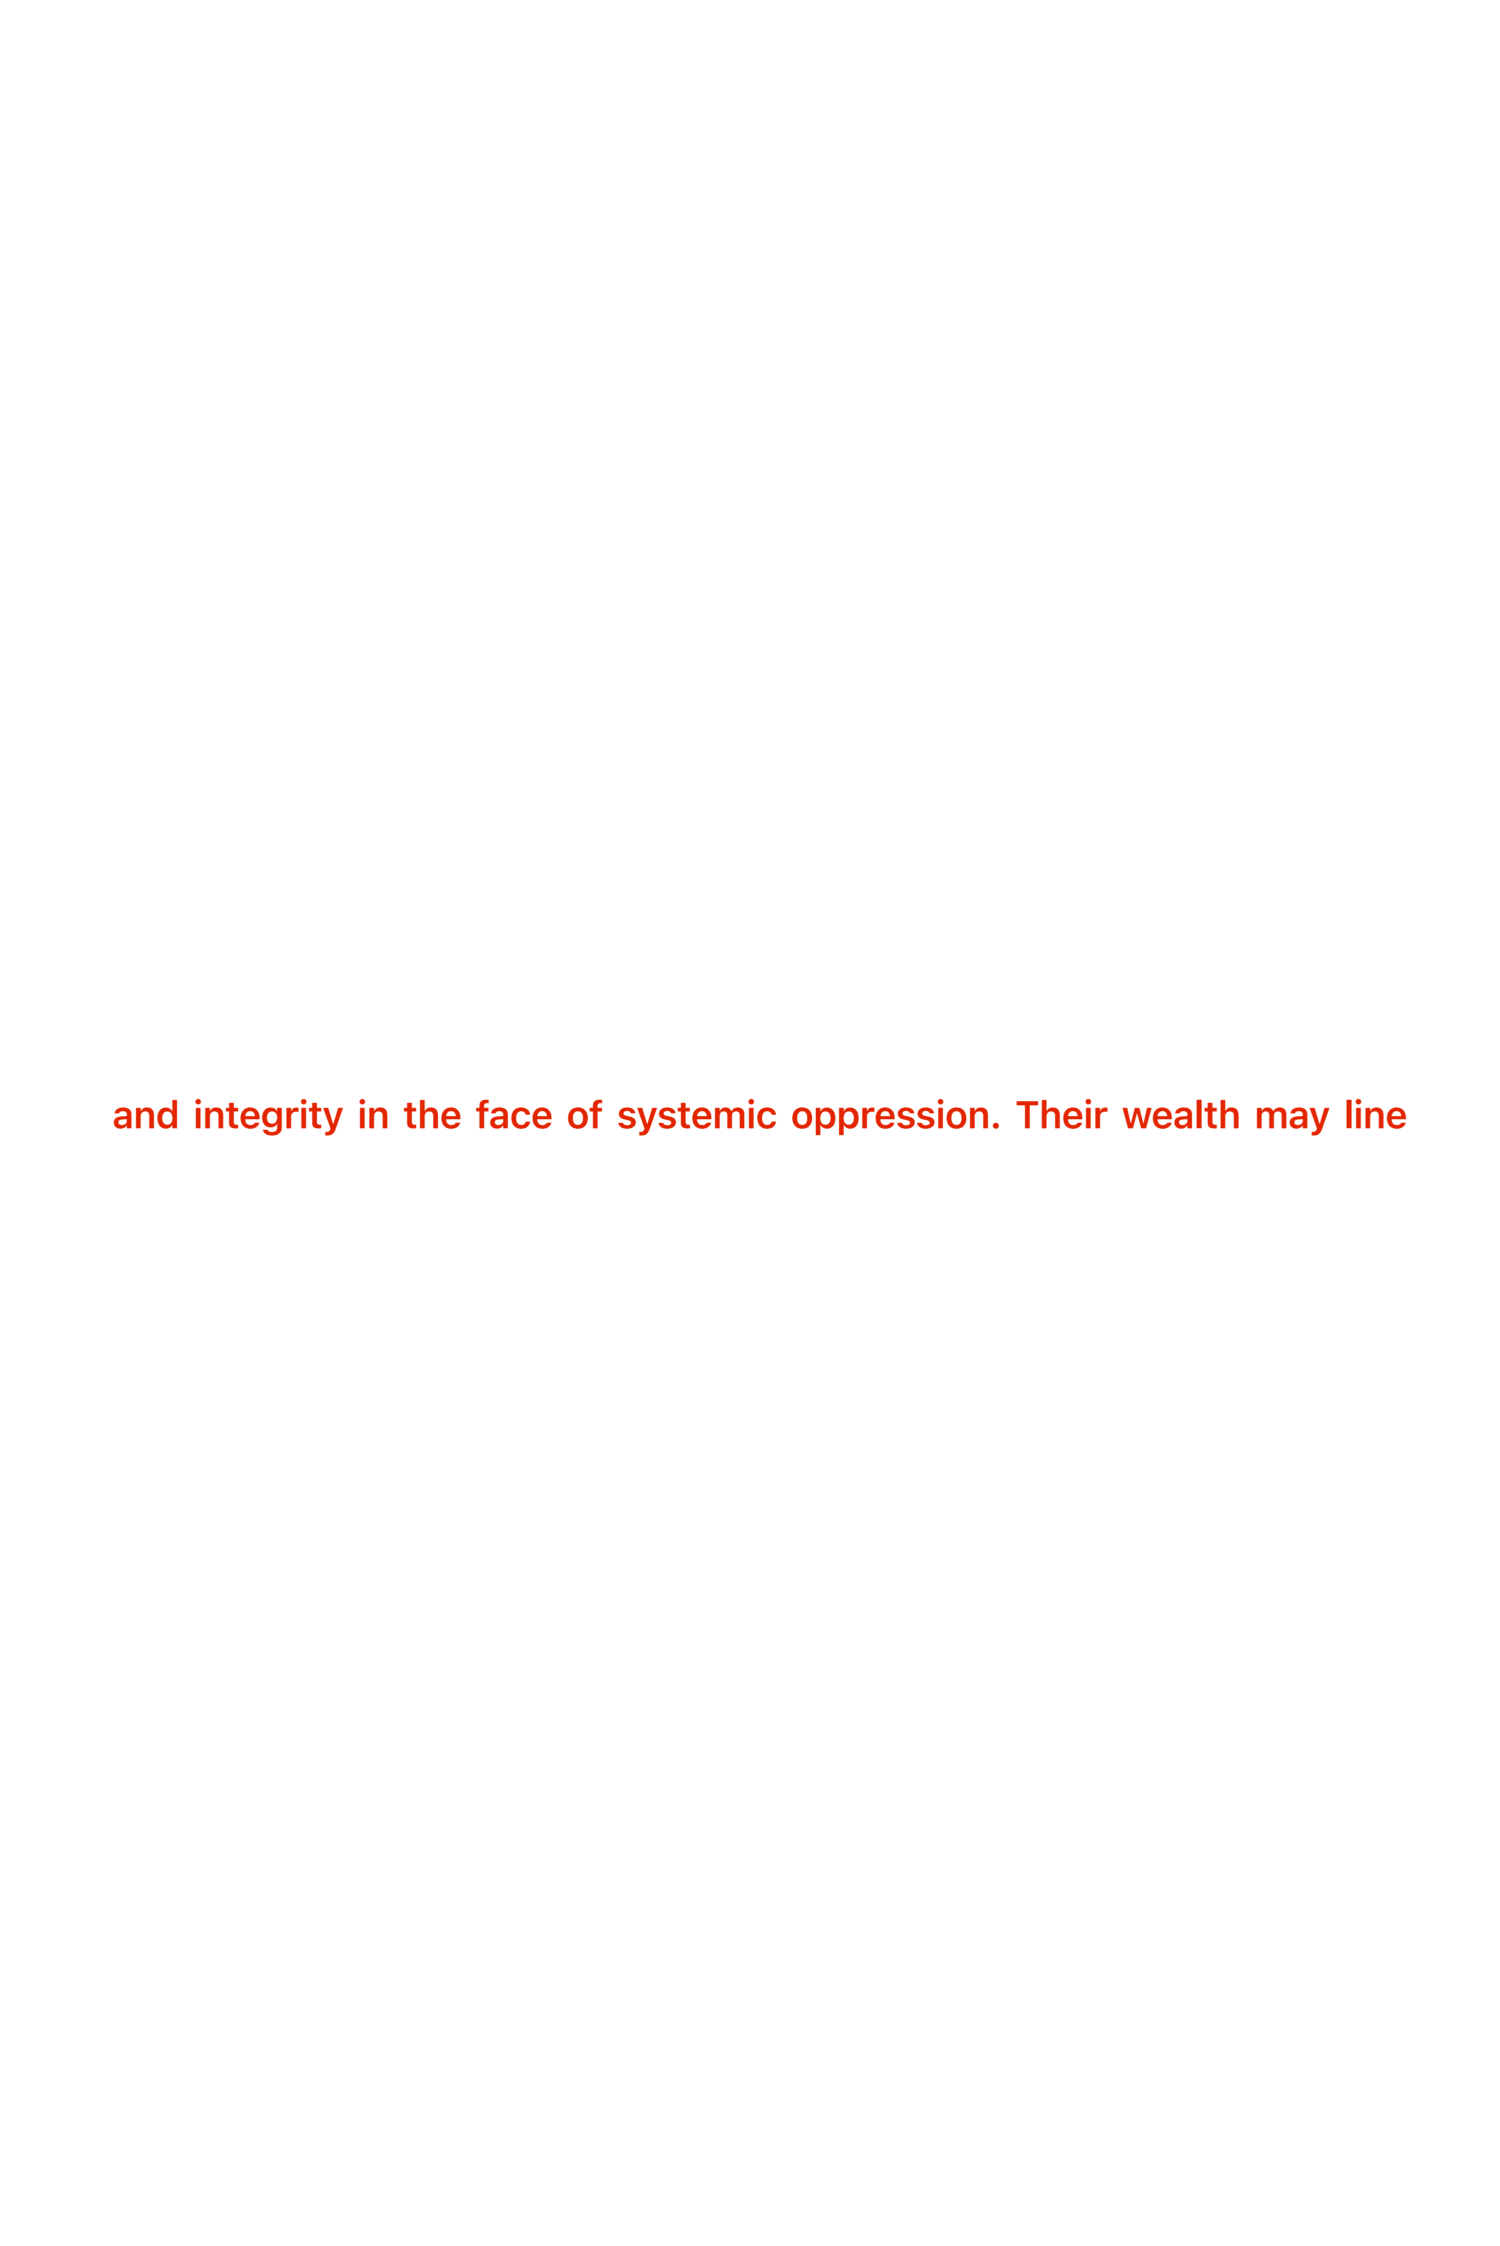

government agencies—a corruption ministers are fully aware of but

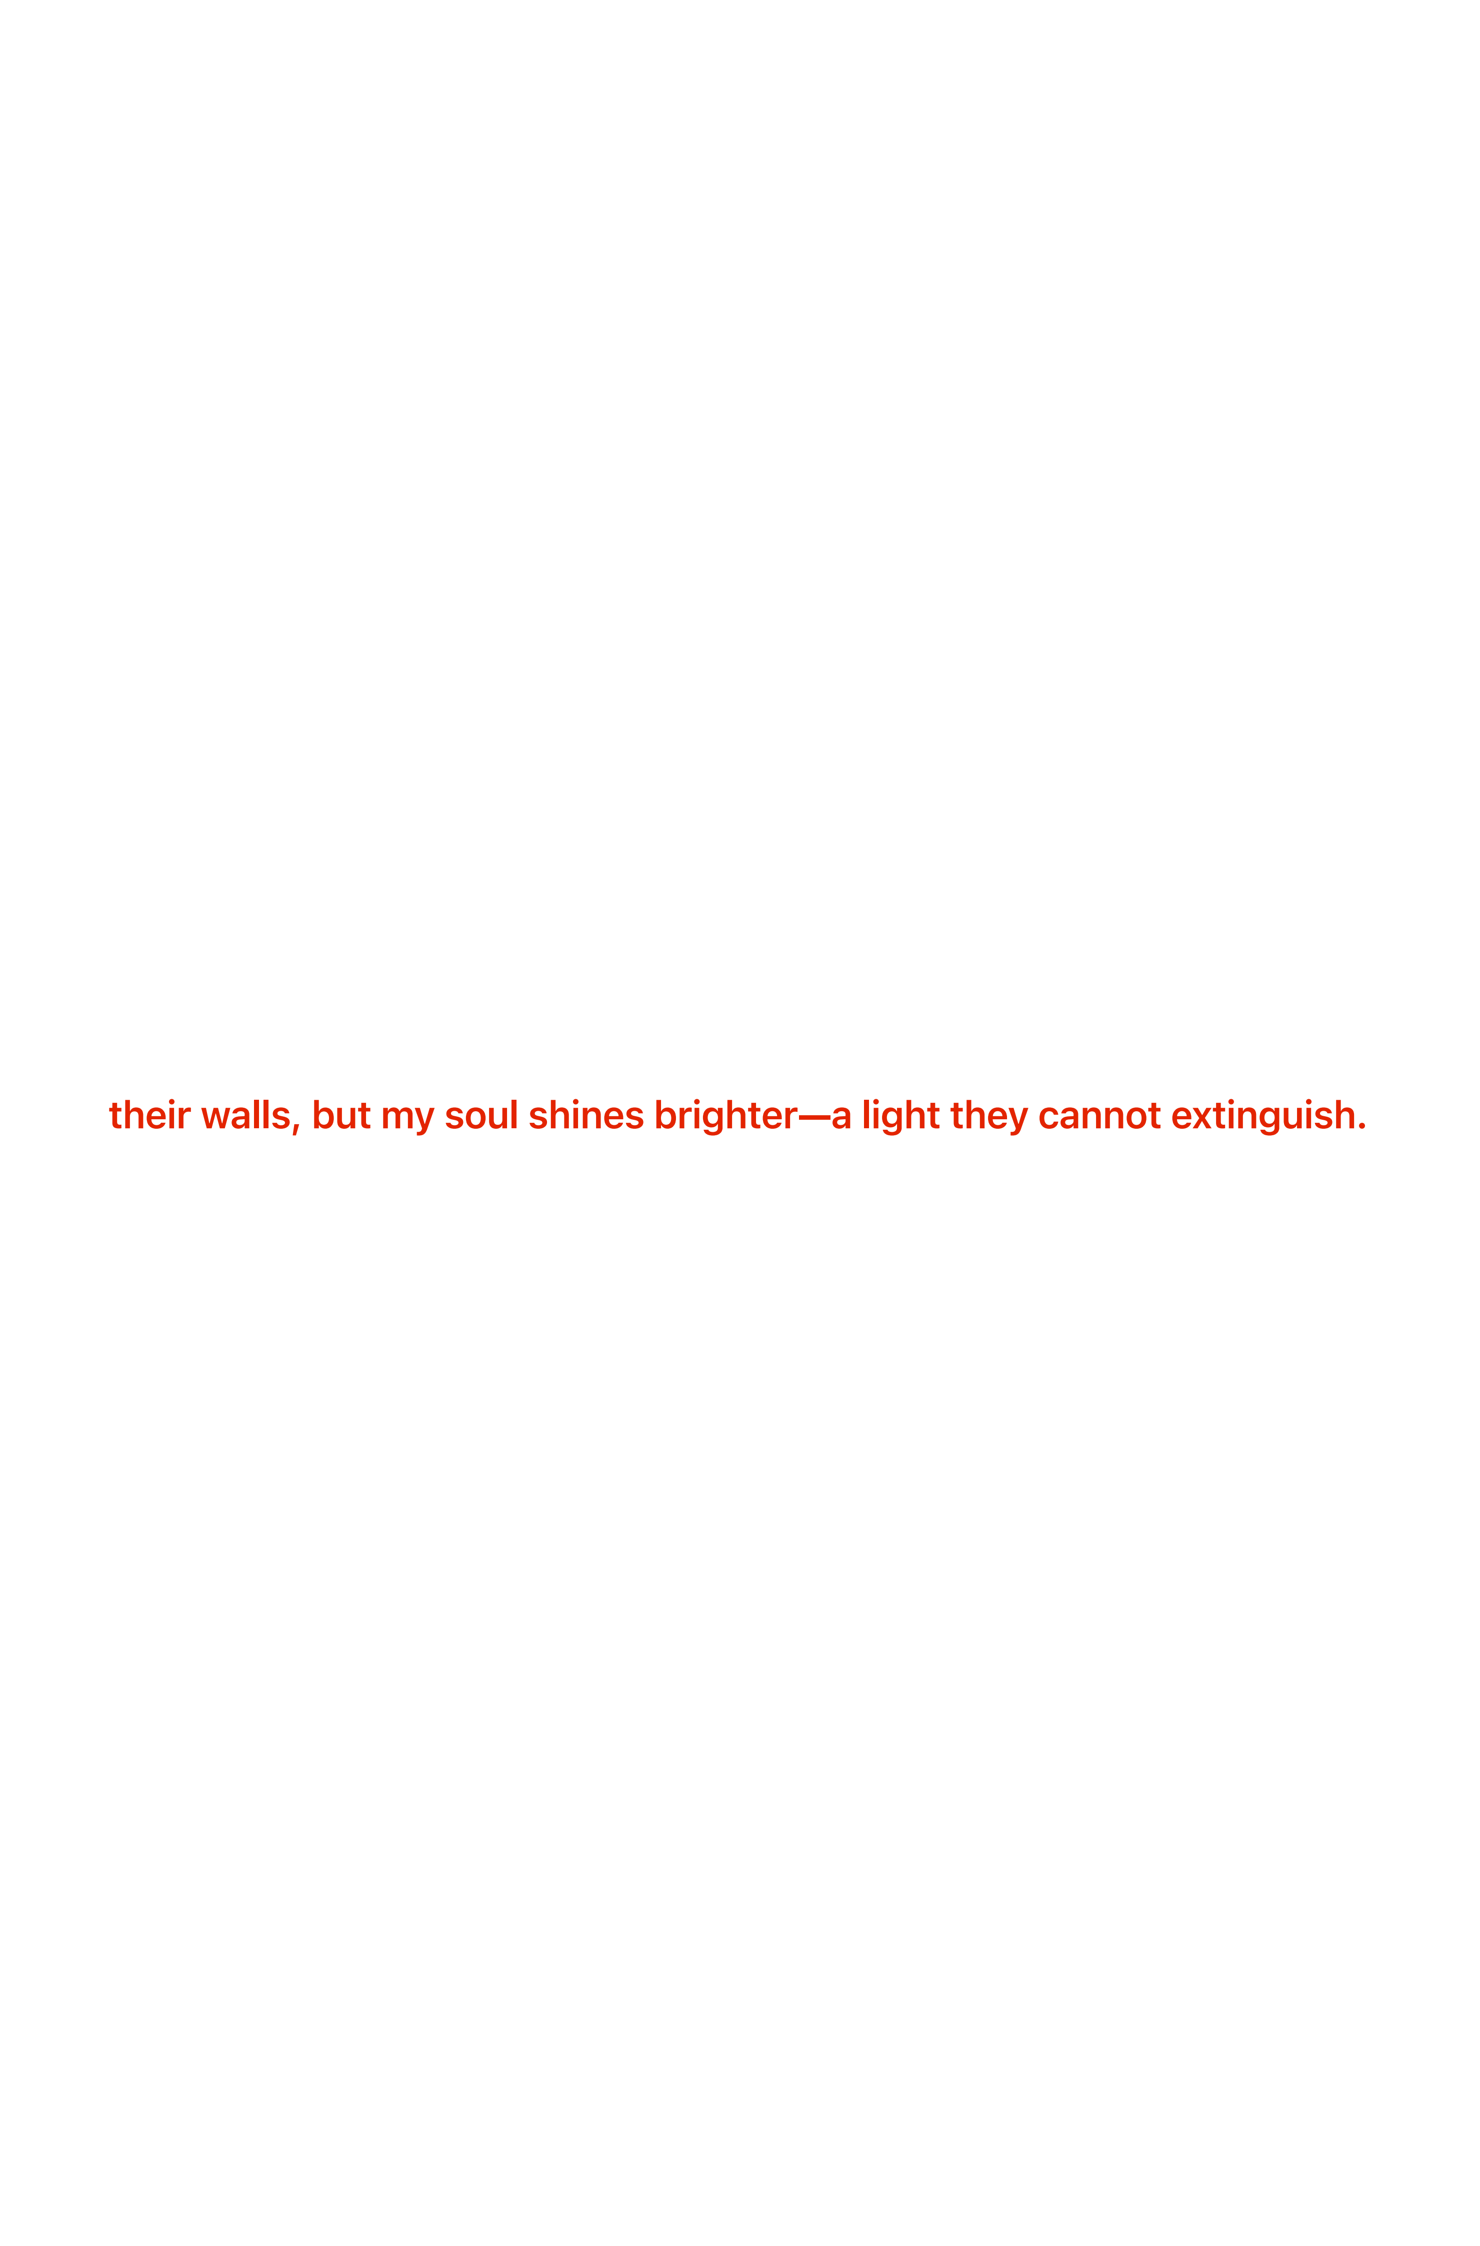

refuse to confront.

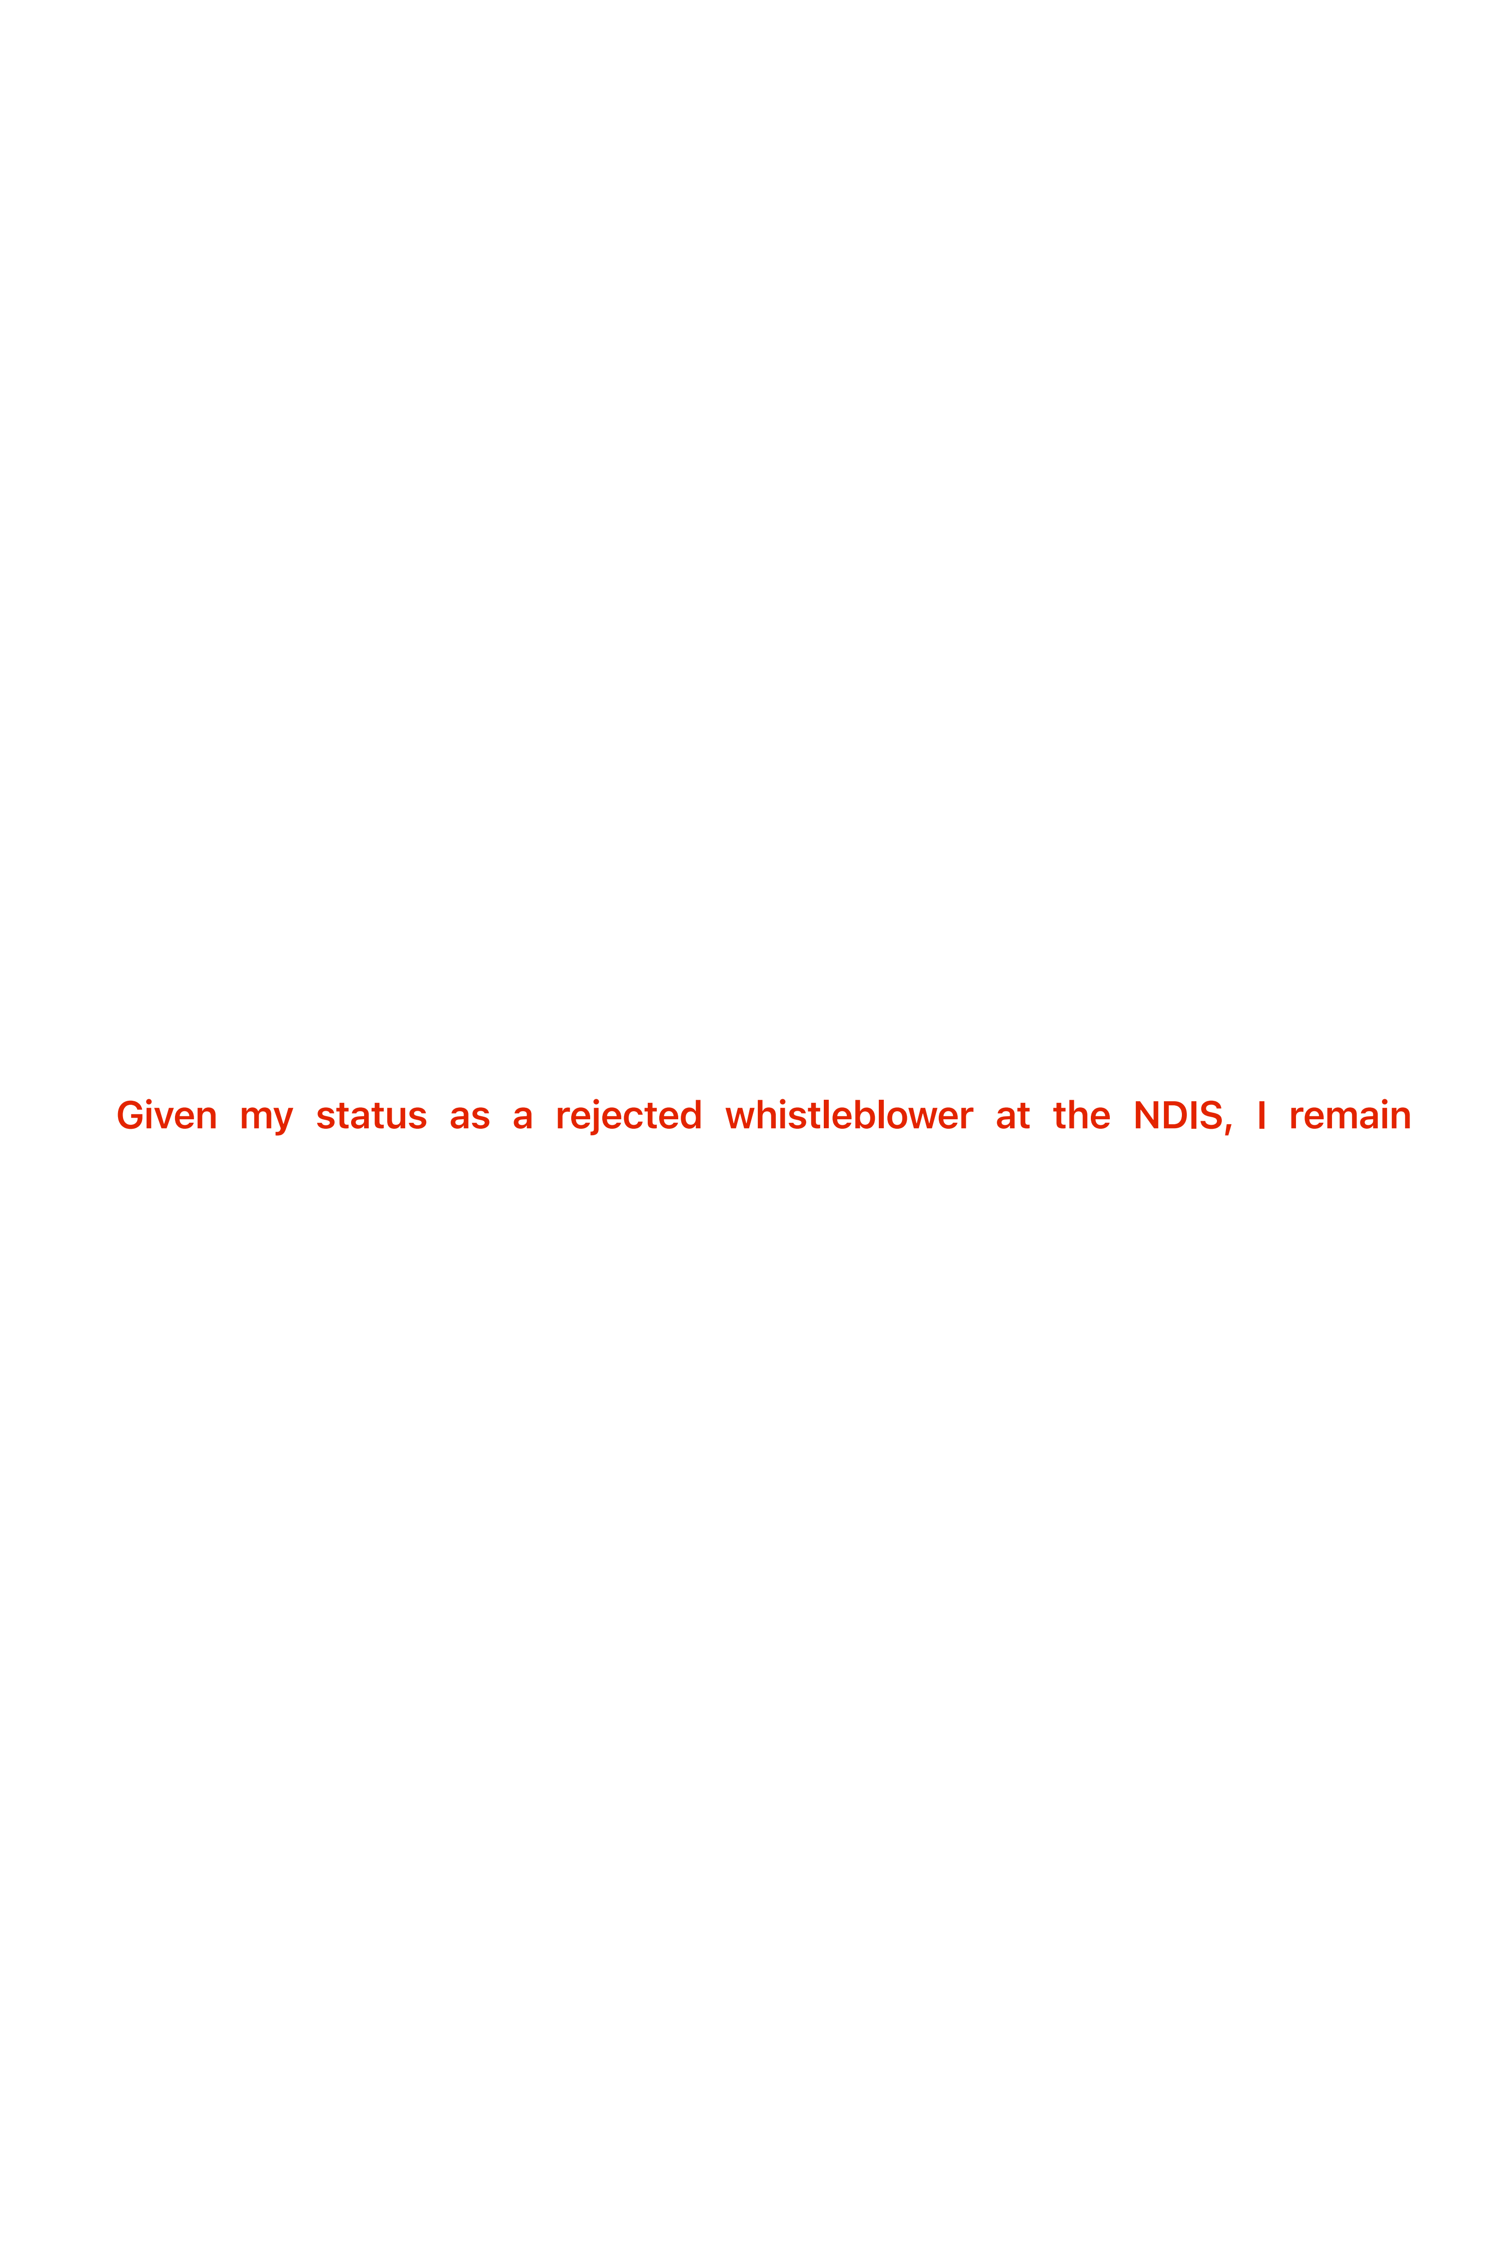

This relentless campaign against me reveals the extraordinary lengths to

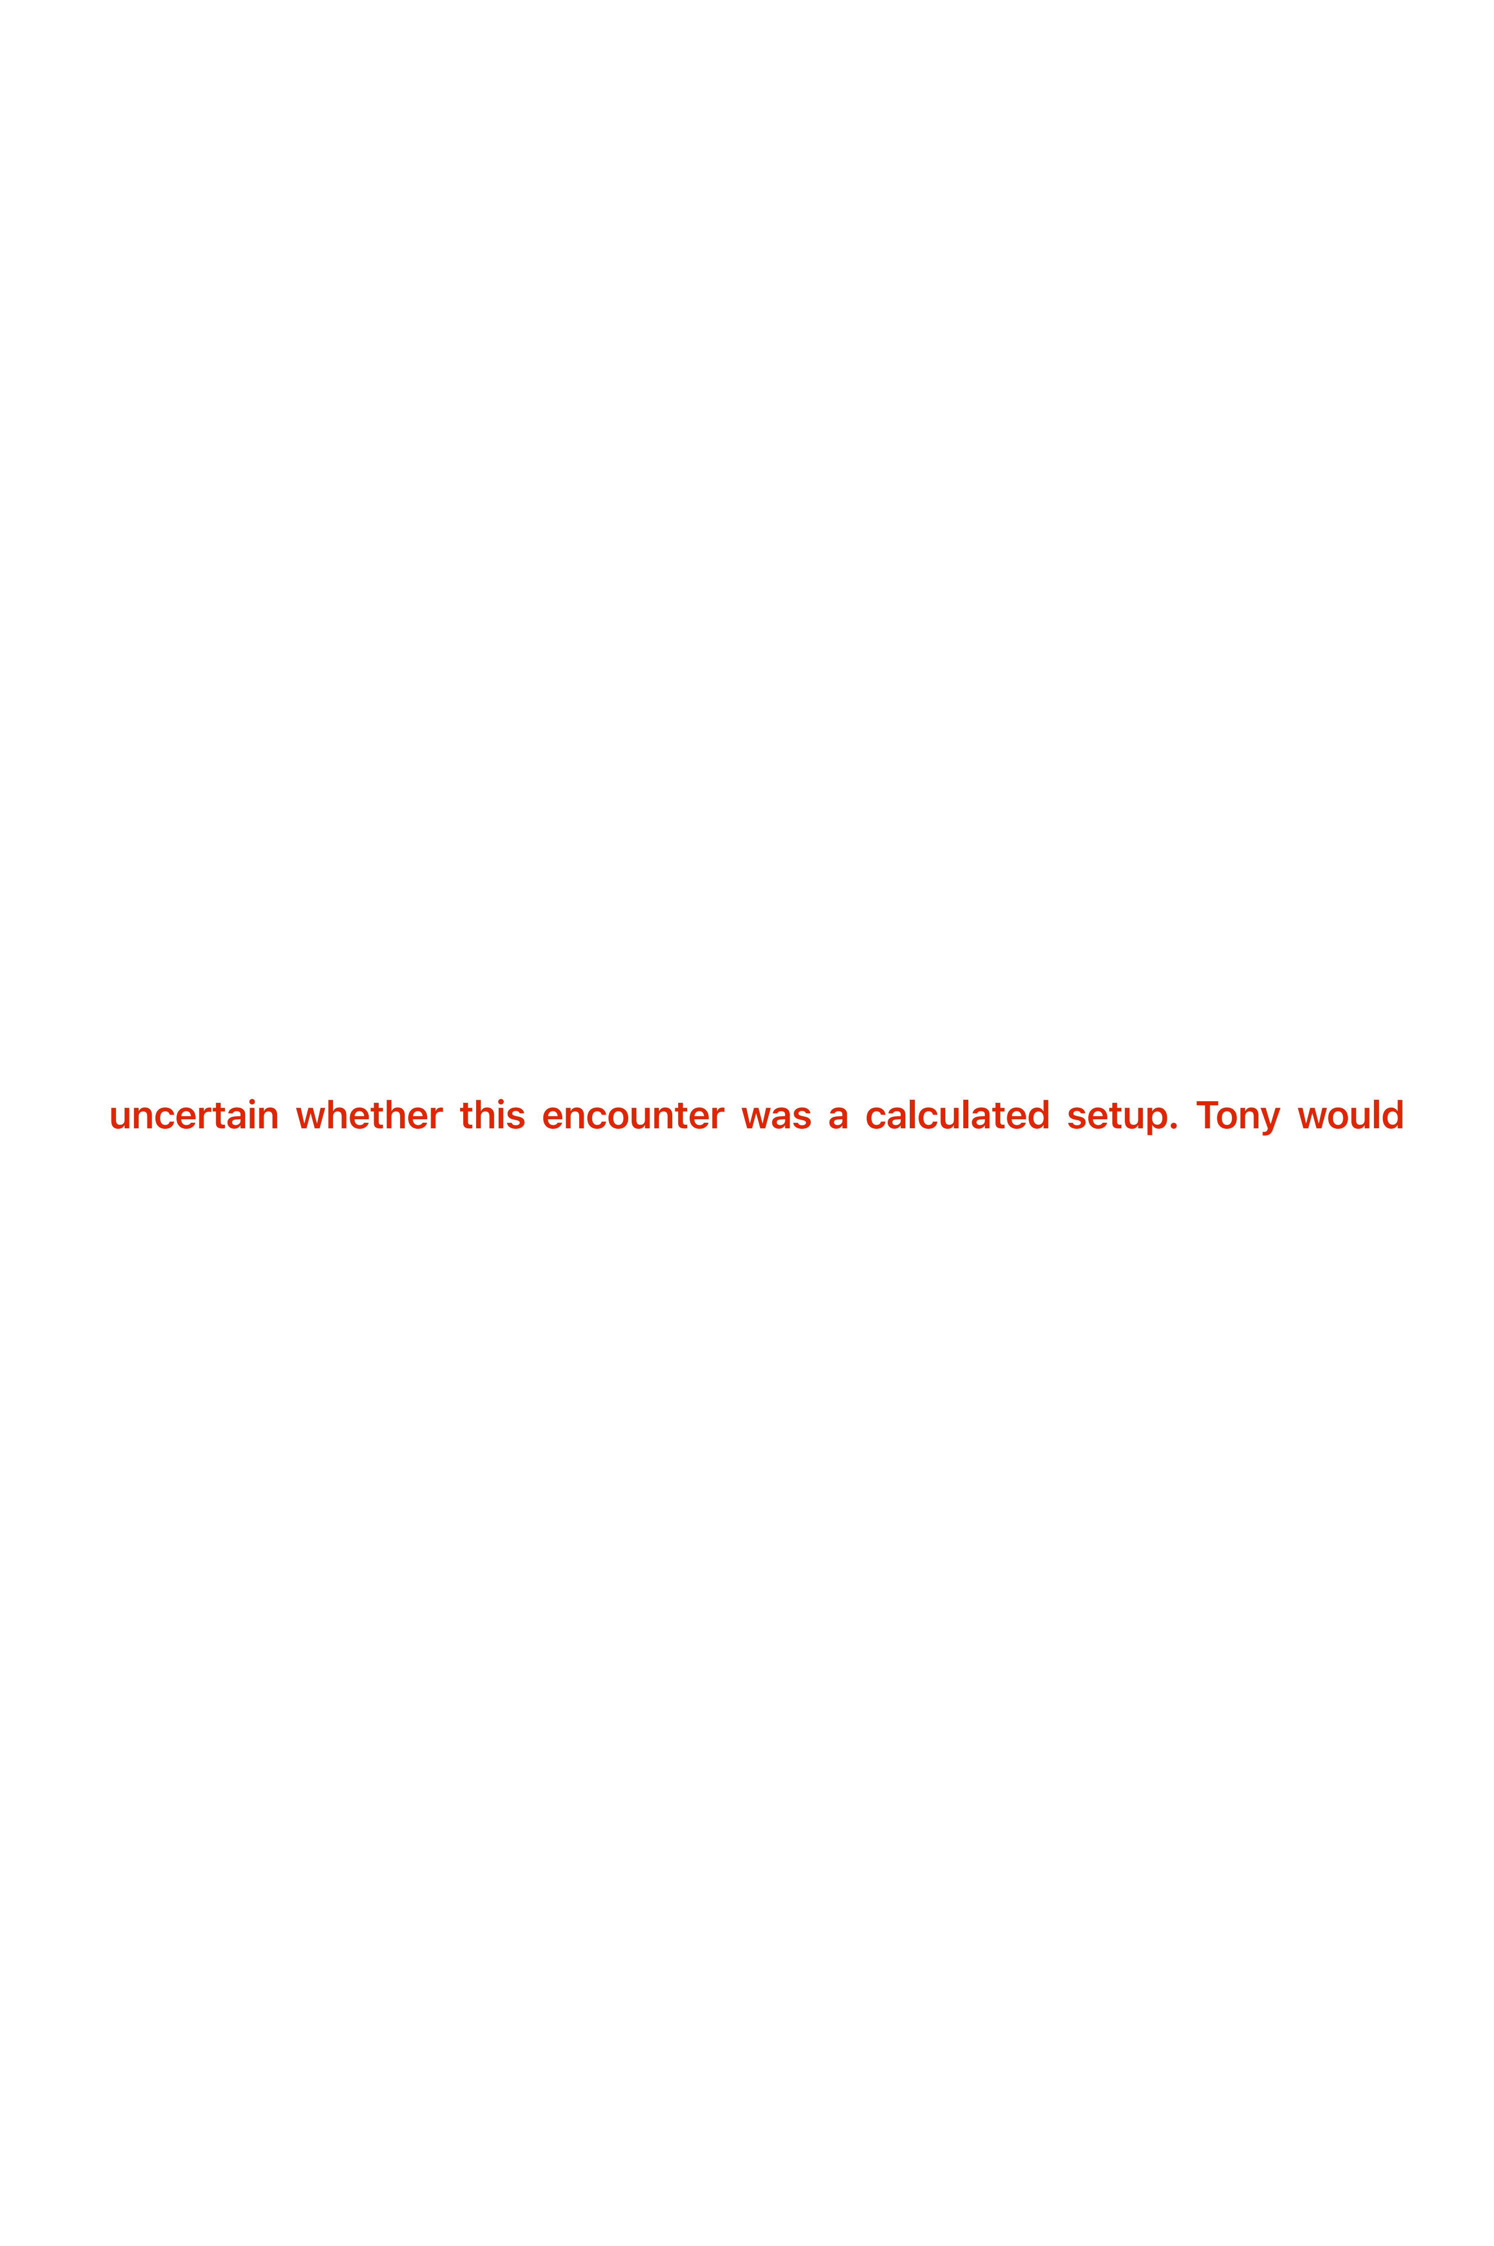

which these forces will go to silence dissent and maintain their power.

Yet I remain resolute, shining as a testament to the resilience of truth

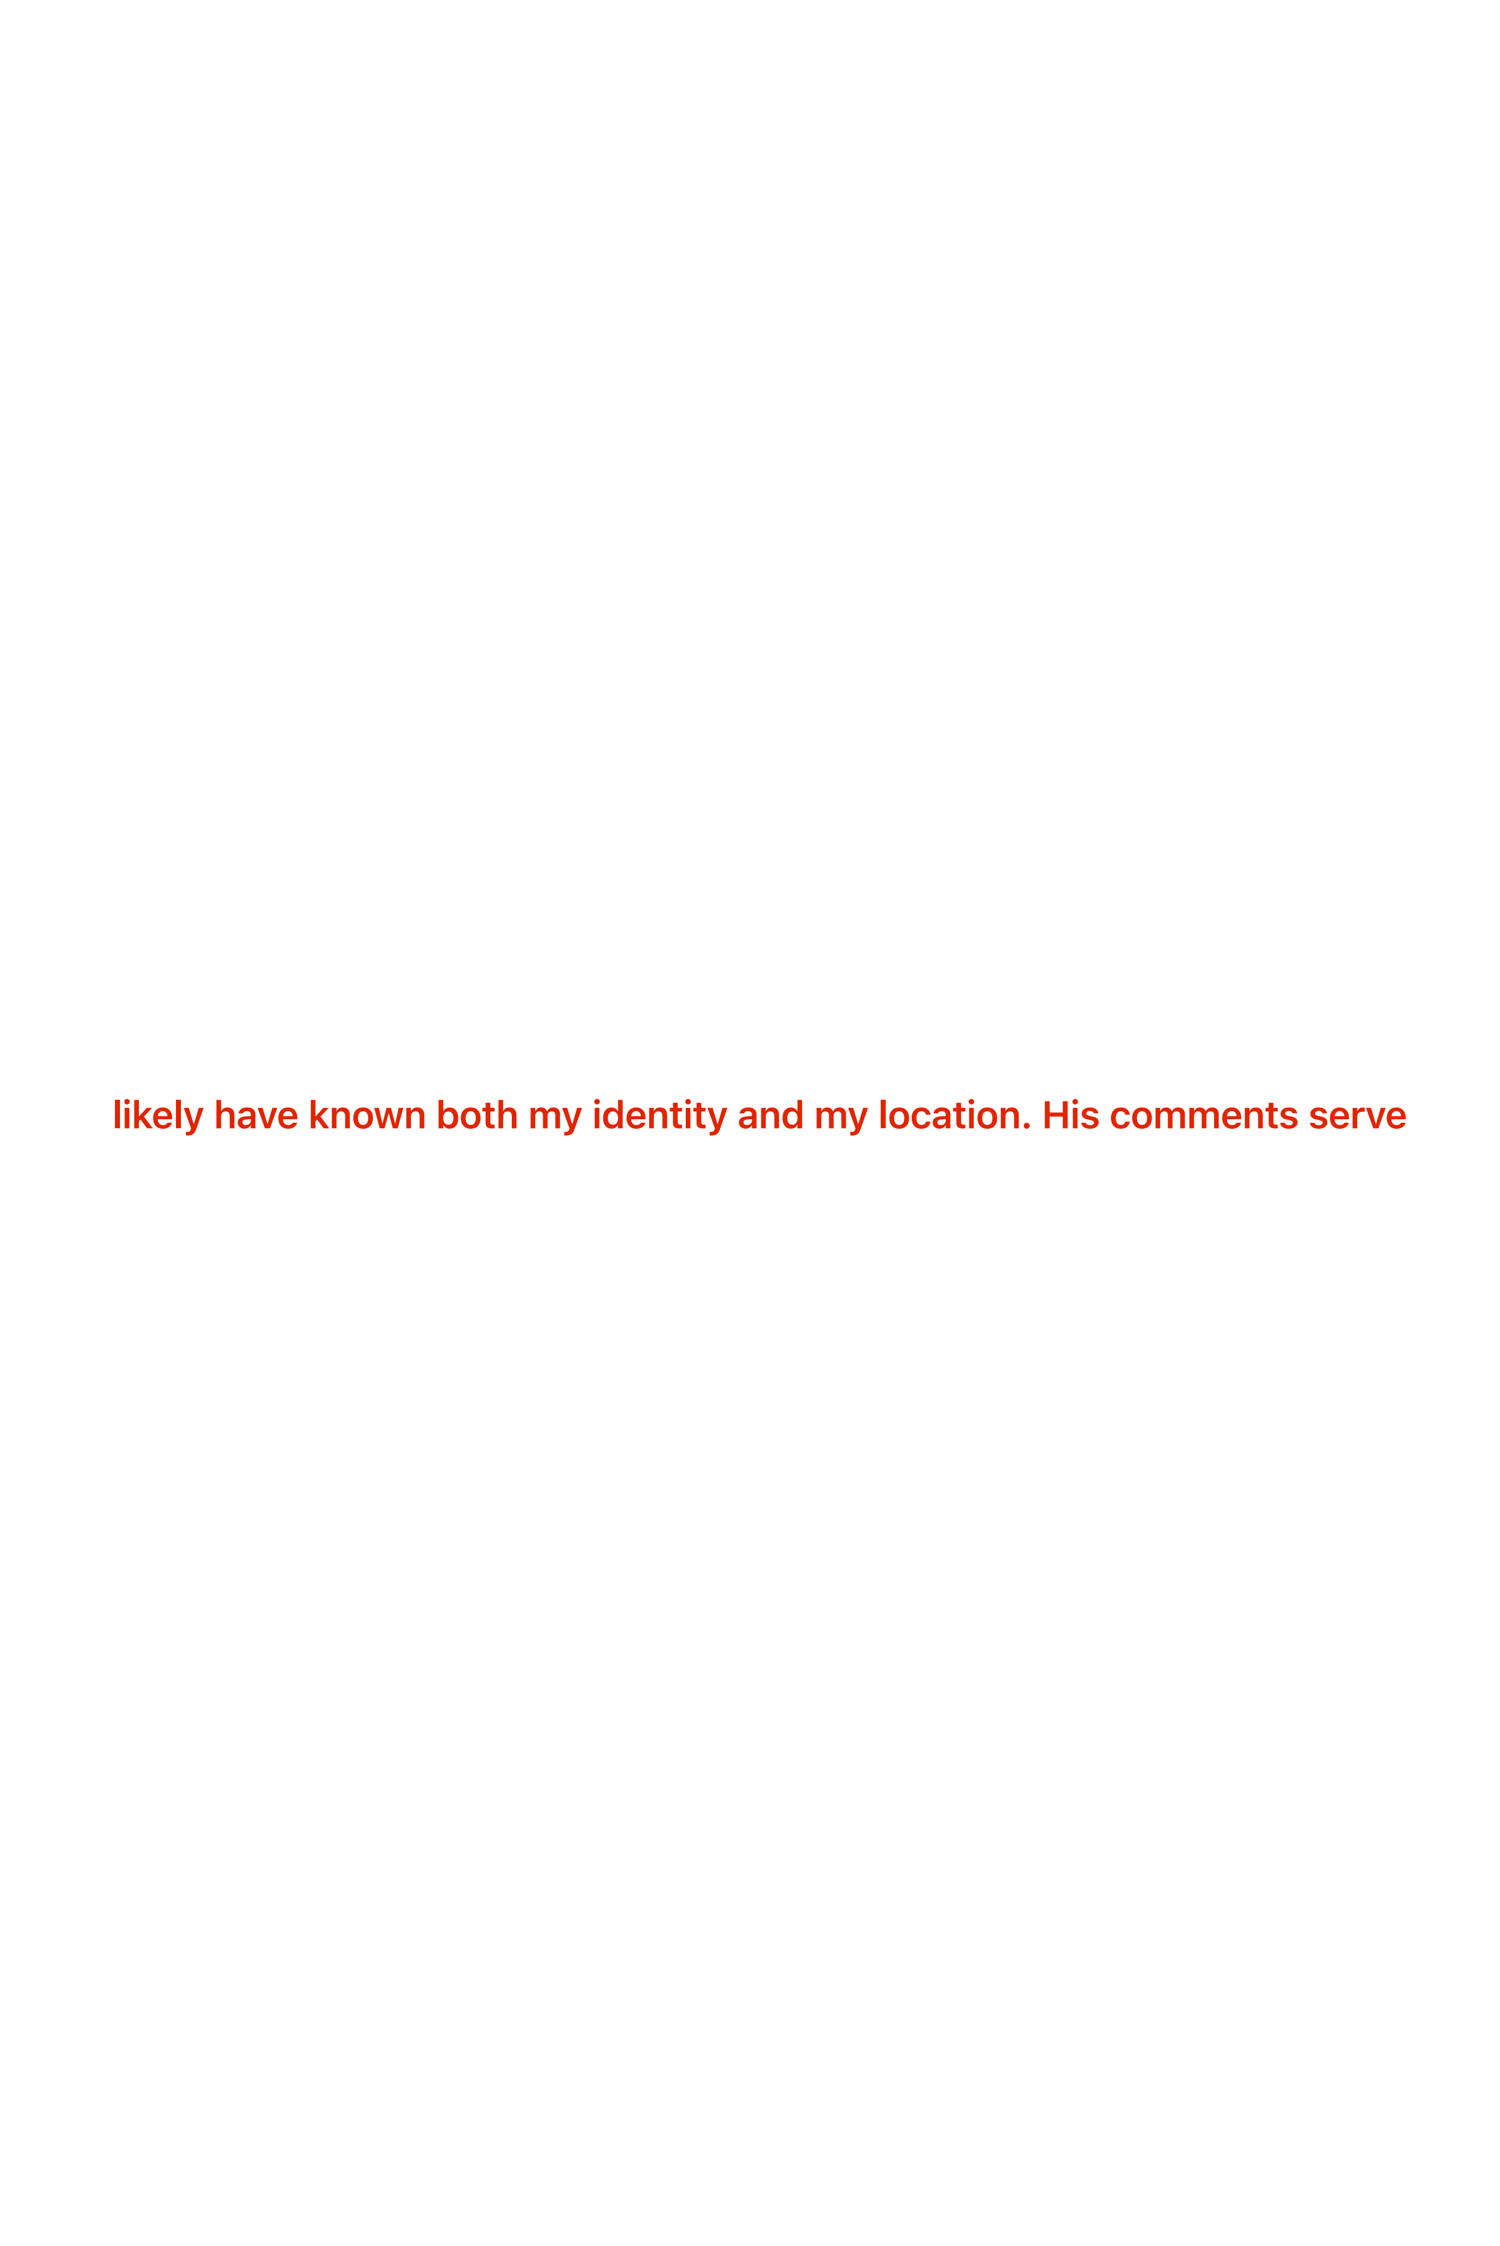

and integrity in the face of systemic oppression. Their wealth may line

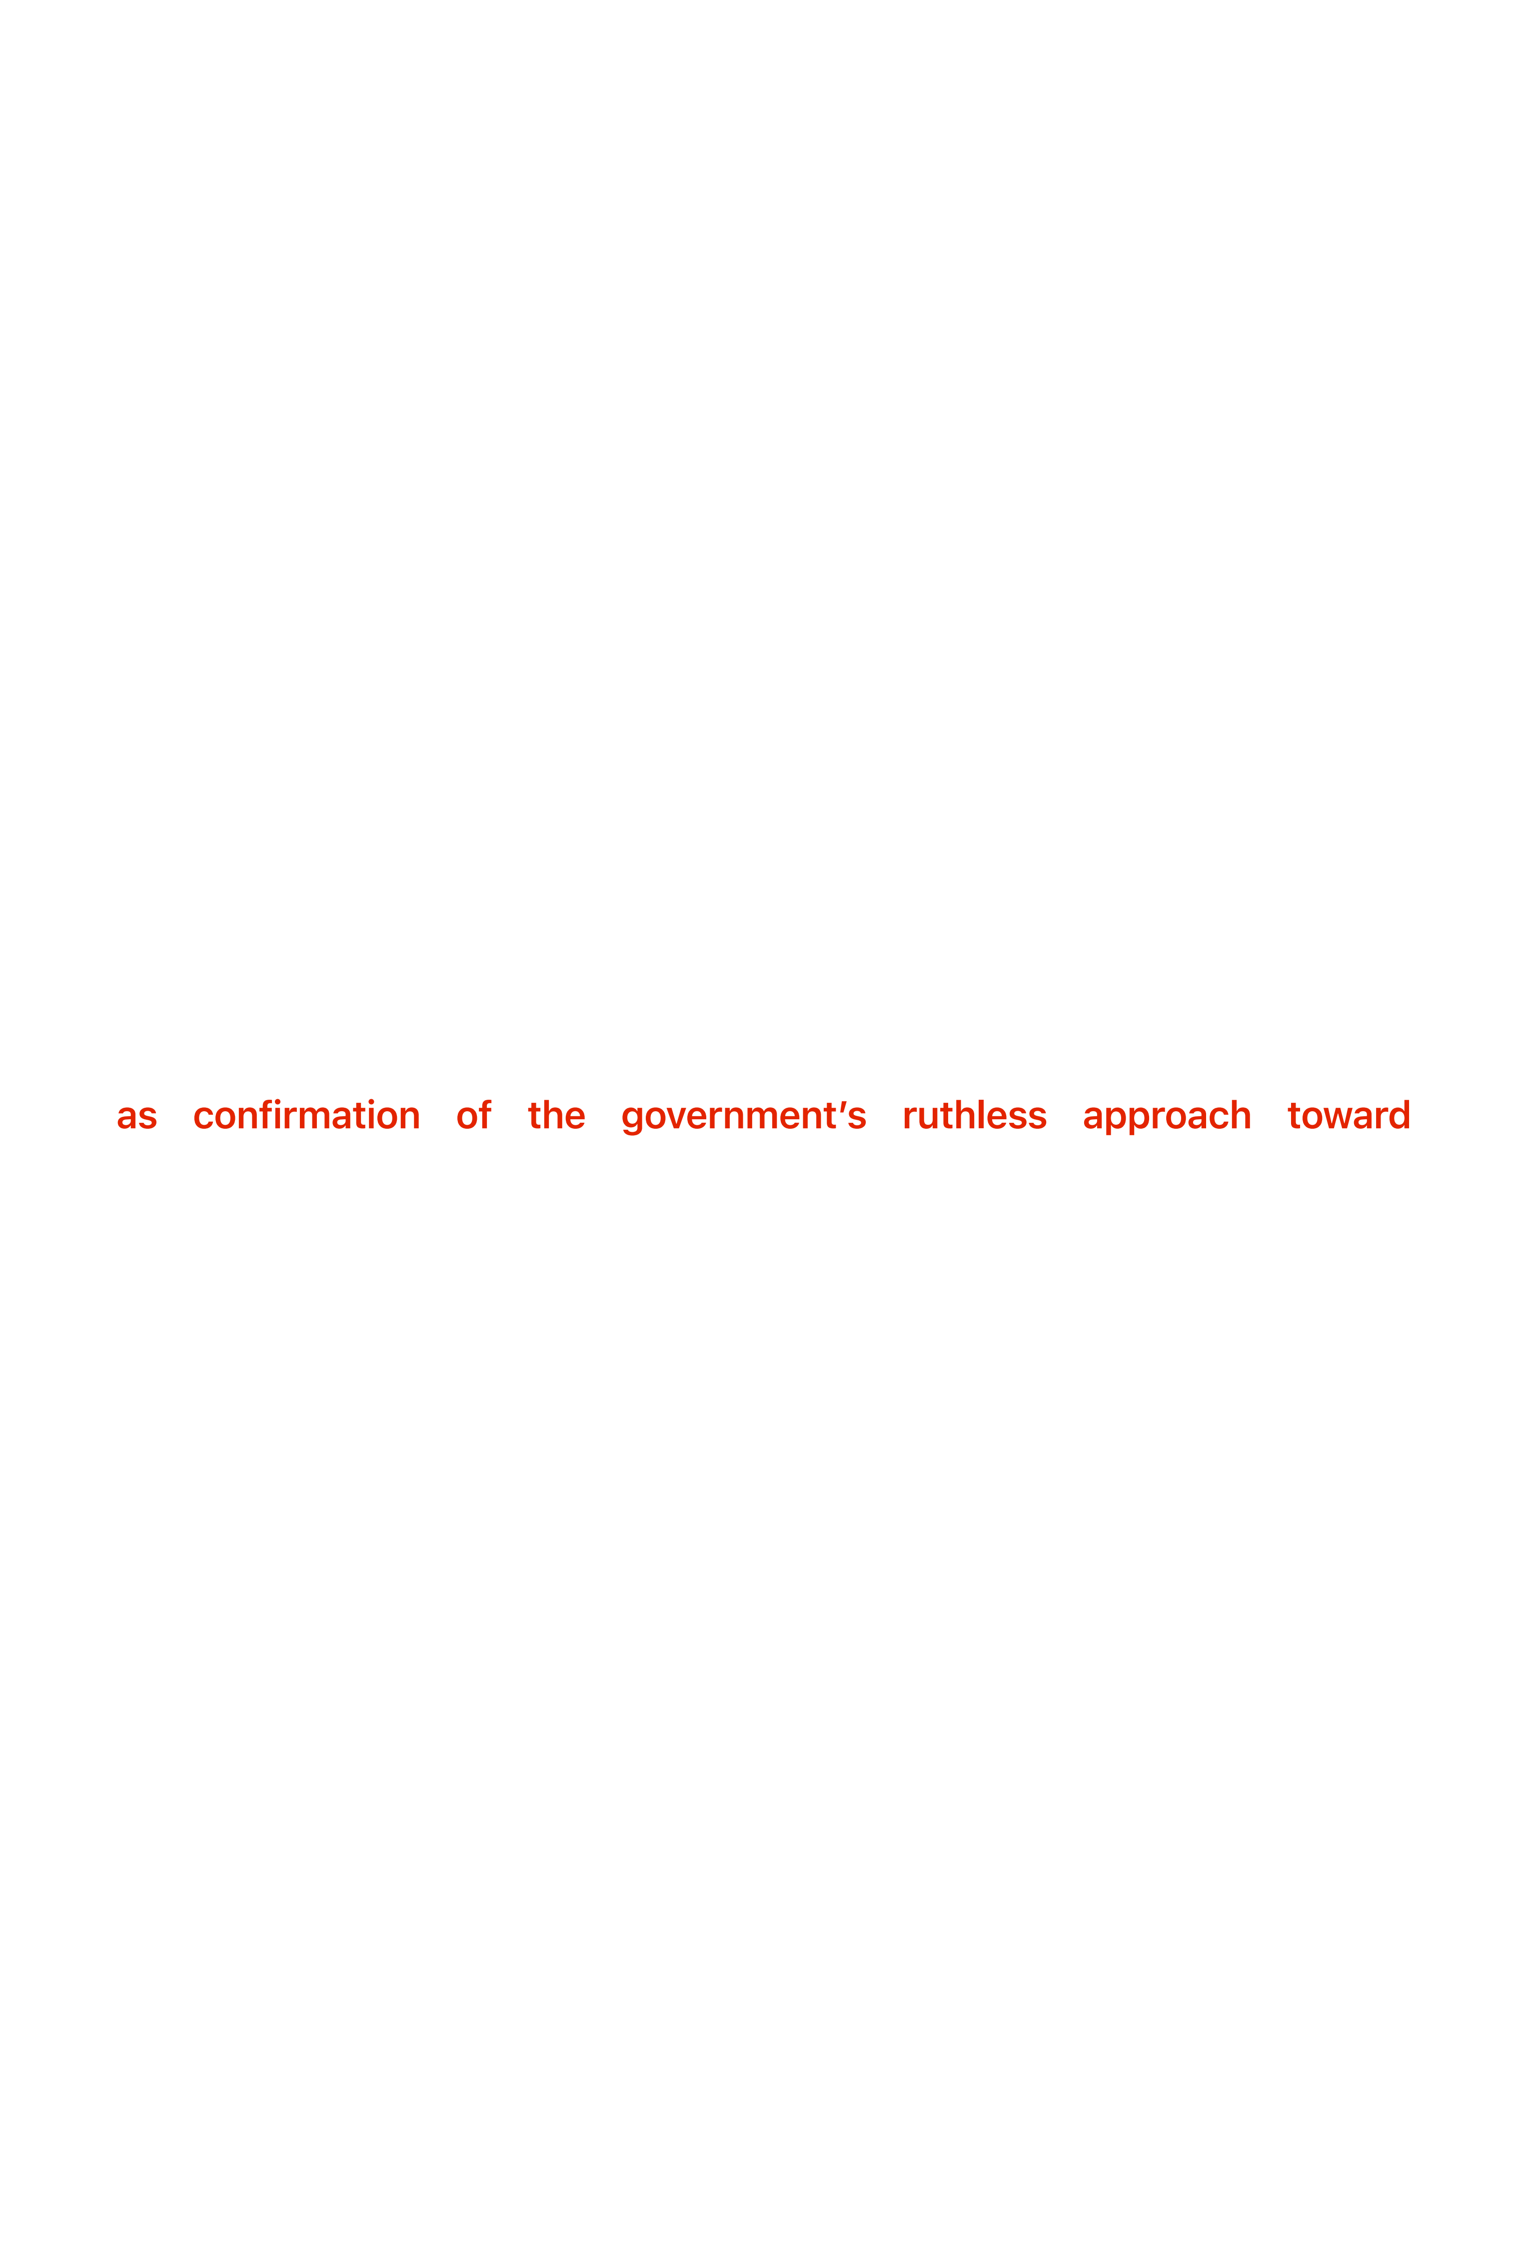

their walls, but my soul shines brighter—a light they cannot extinguish.

Given my status as a rejected whistleblower at the NDIS, I remain

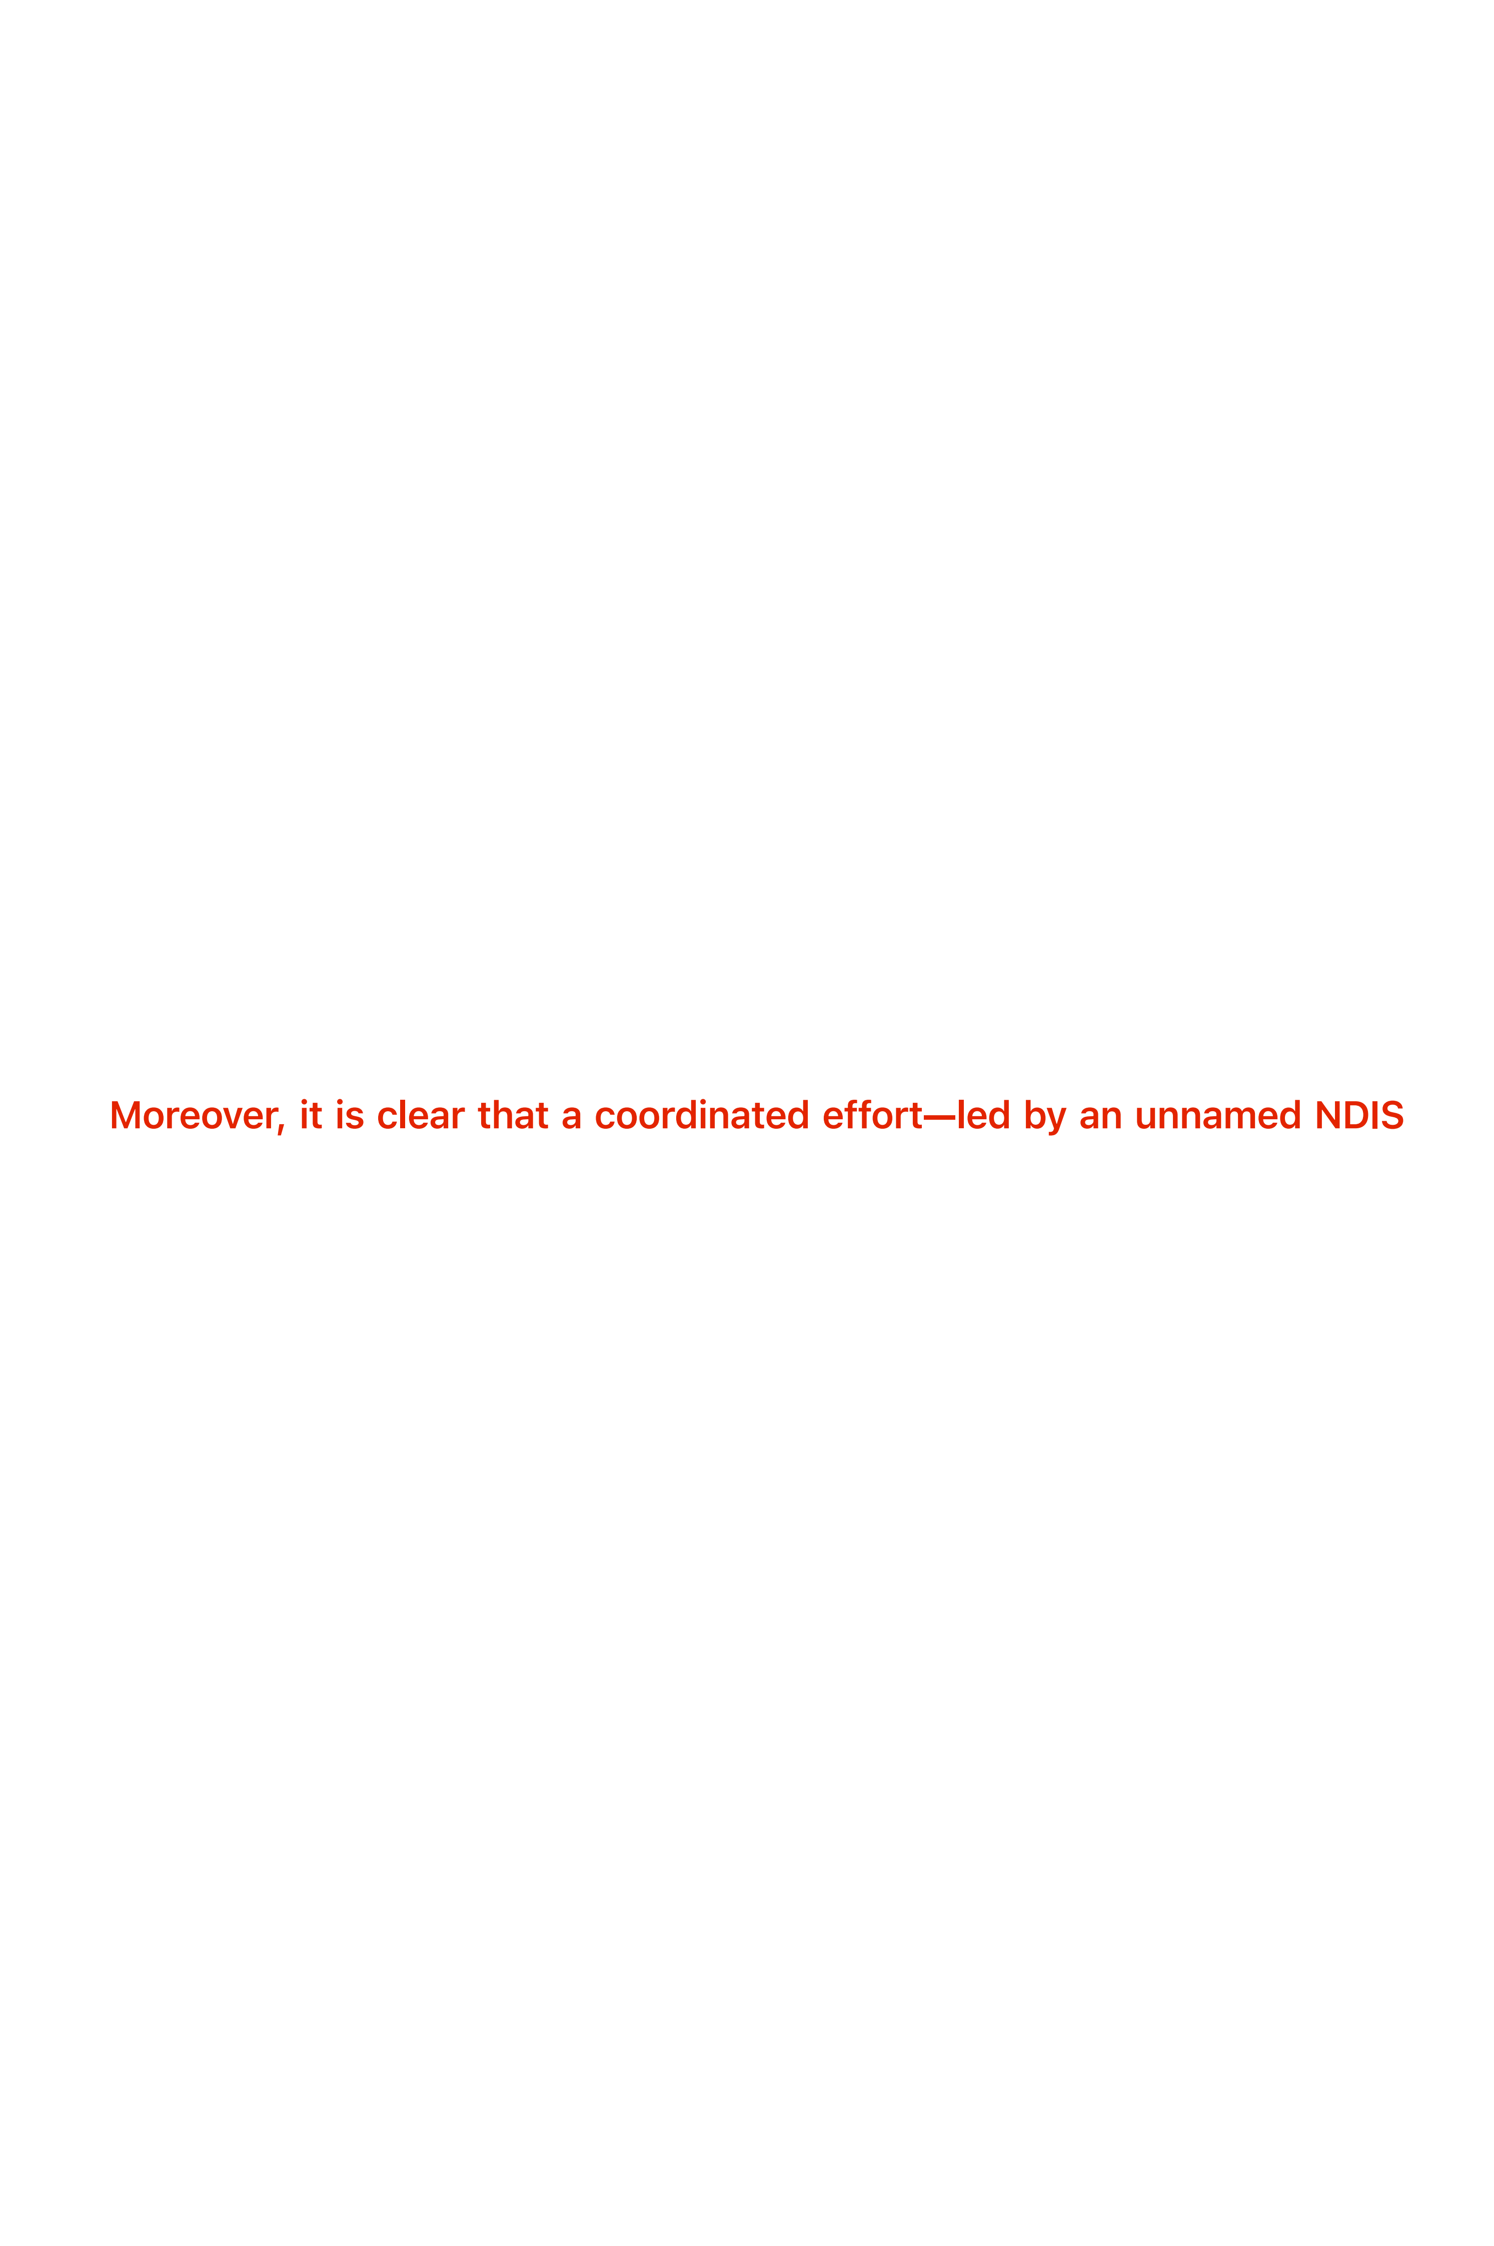

uncertain whether this encounter was a calculated setup. Tony would

likely have known both my identity and my location. His comments serve

as confirmation of the government's ruthless approach toward

whistleblowers, exposing the brutal reality of being unprotected despite

existing Public Interest Disclosure (PID) legislation in Australia.

Moreover, it is clear that a coordinated effort—led by an unnamed NDIS

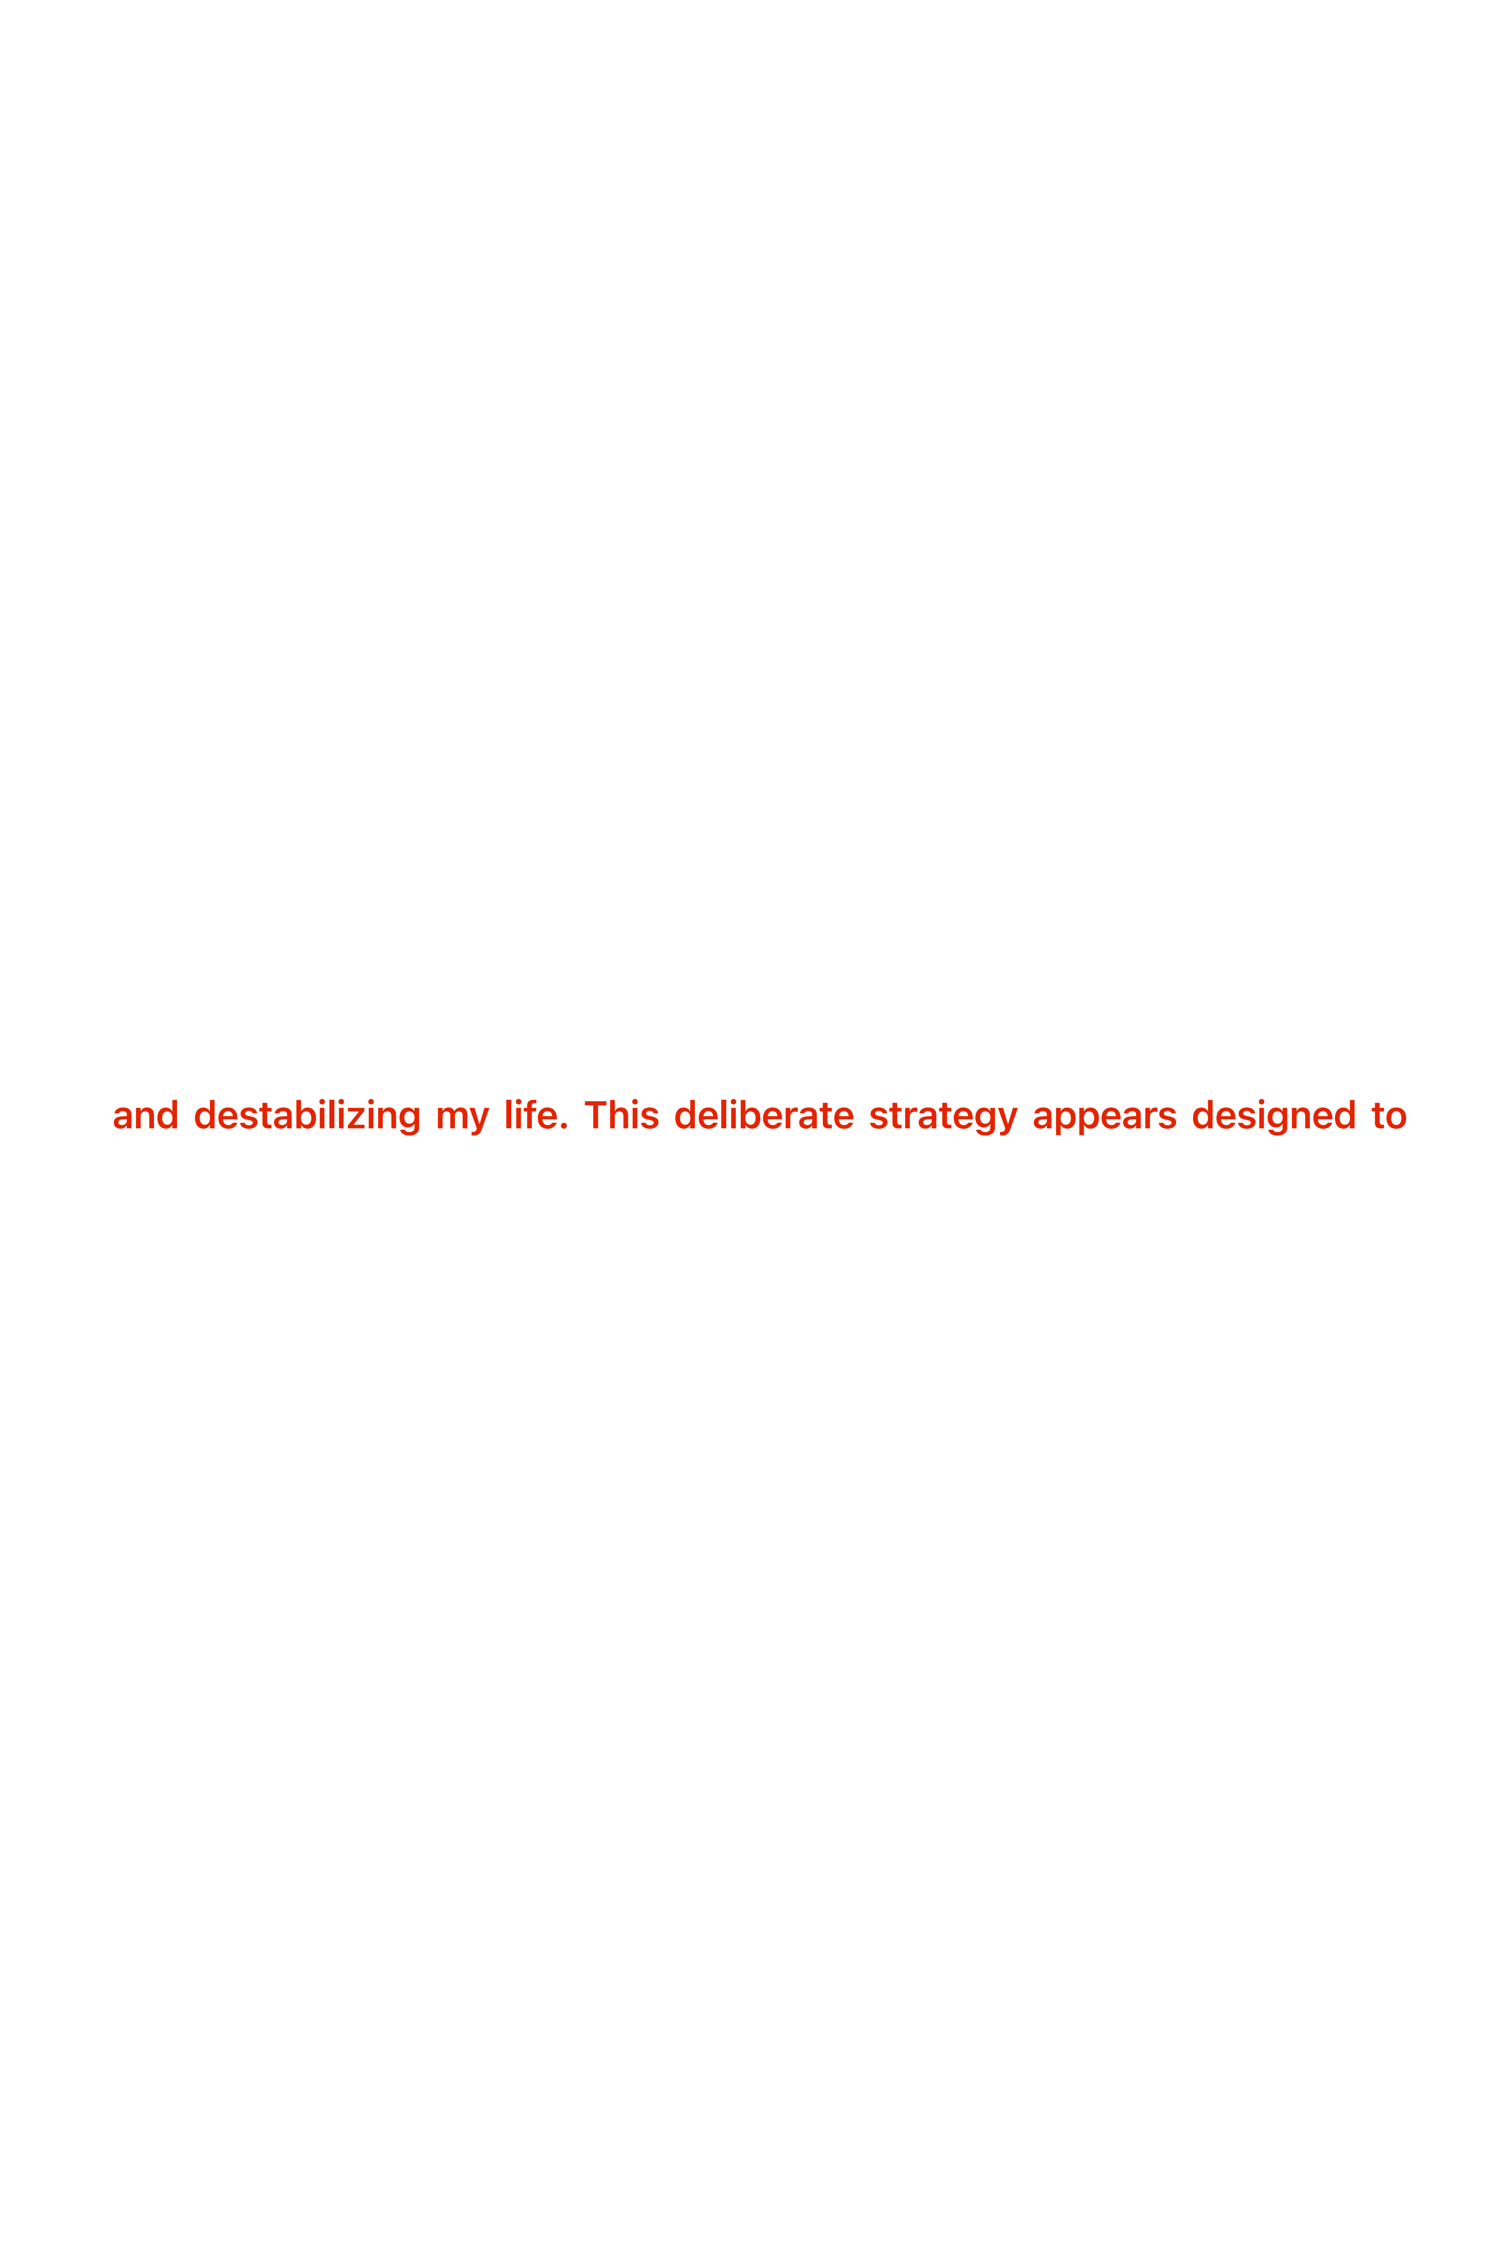

minister—has been orchestrated against me. This includes involvement

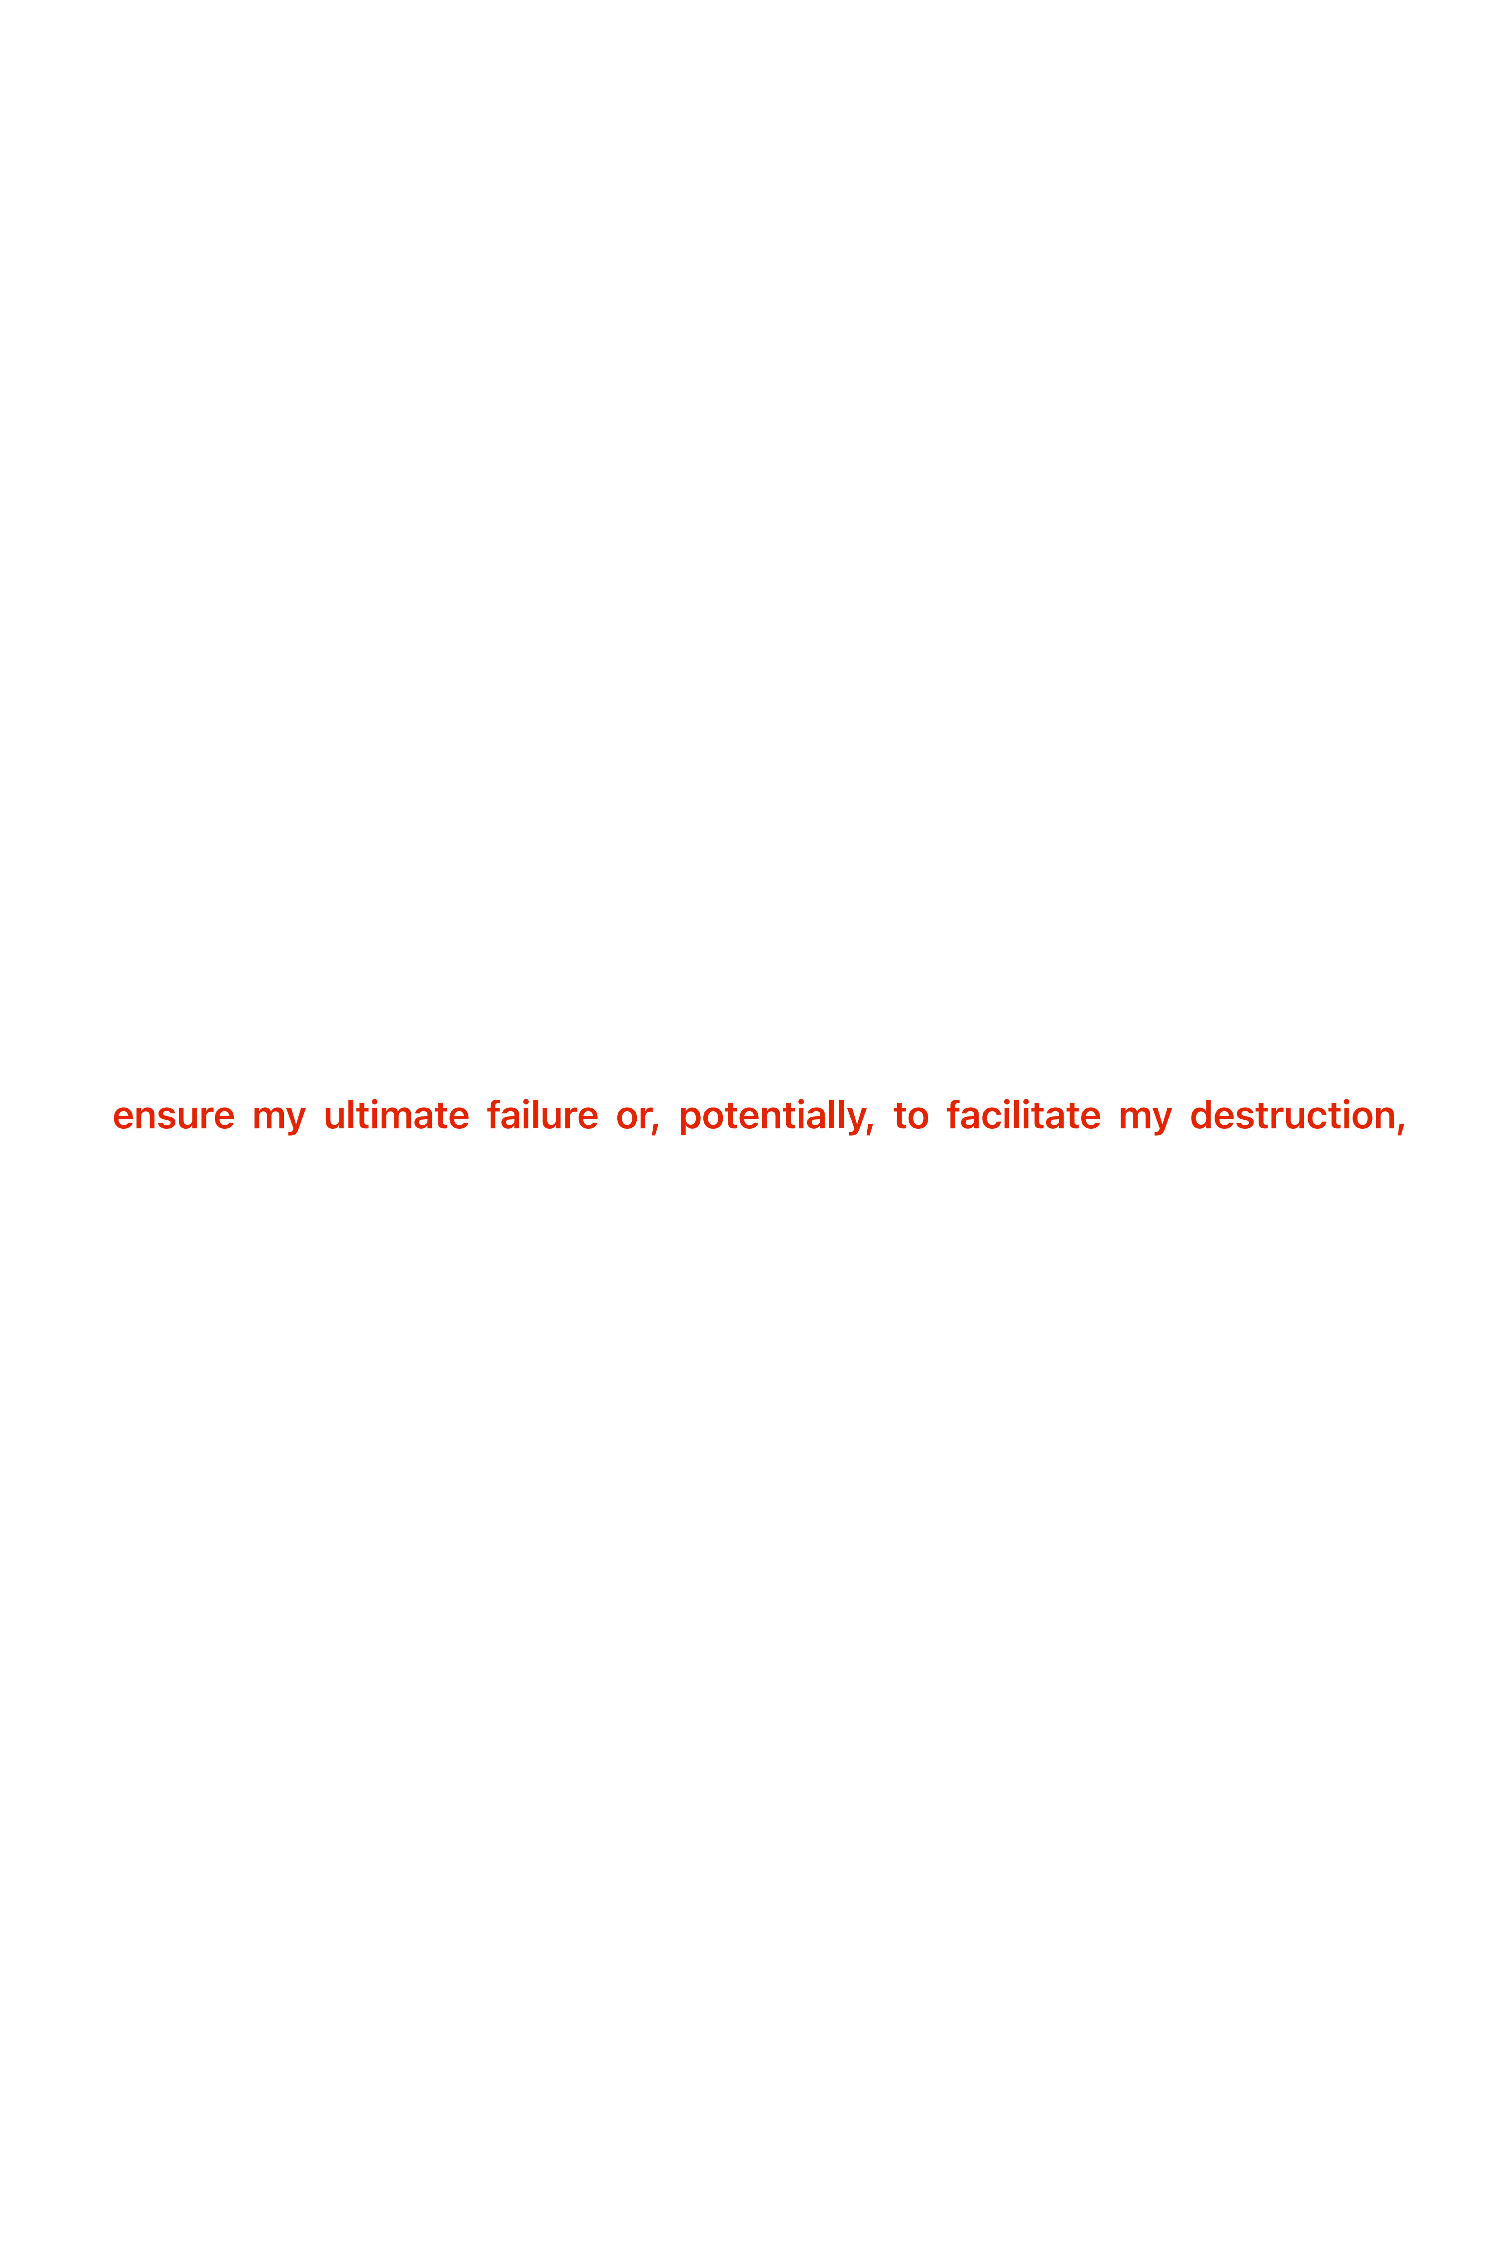

from police, healthcare providers, legal aid, and even a corrupt

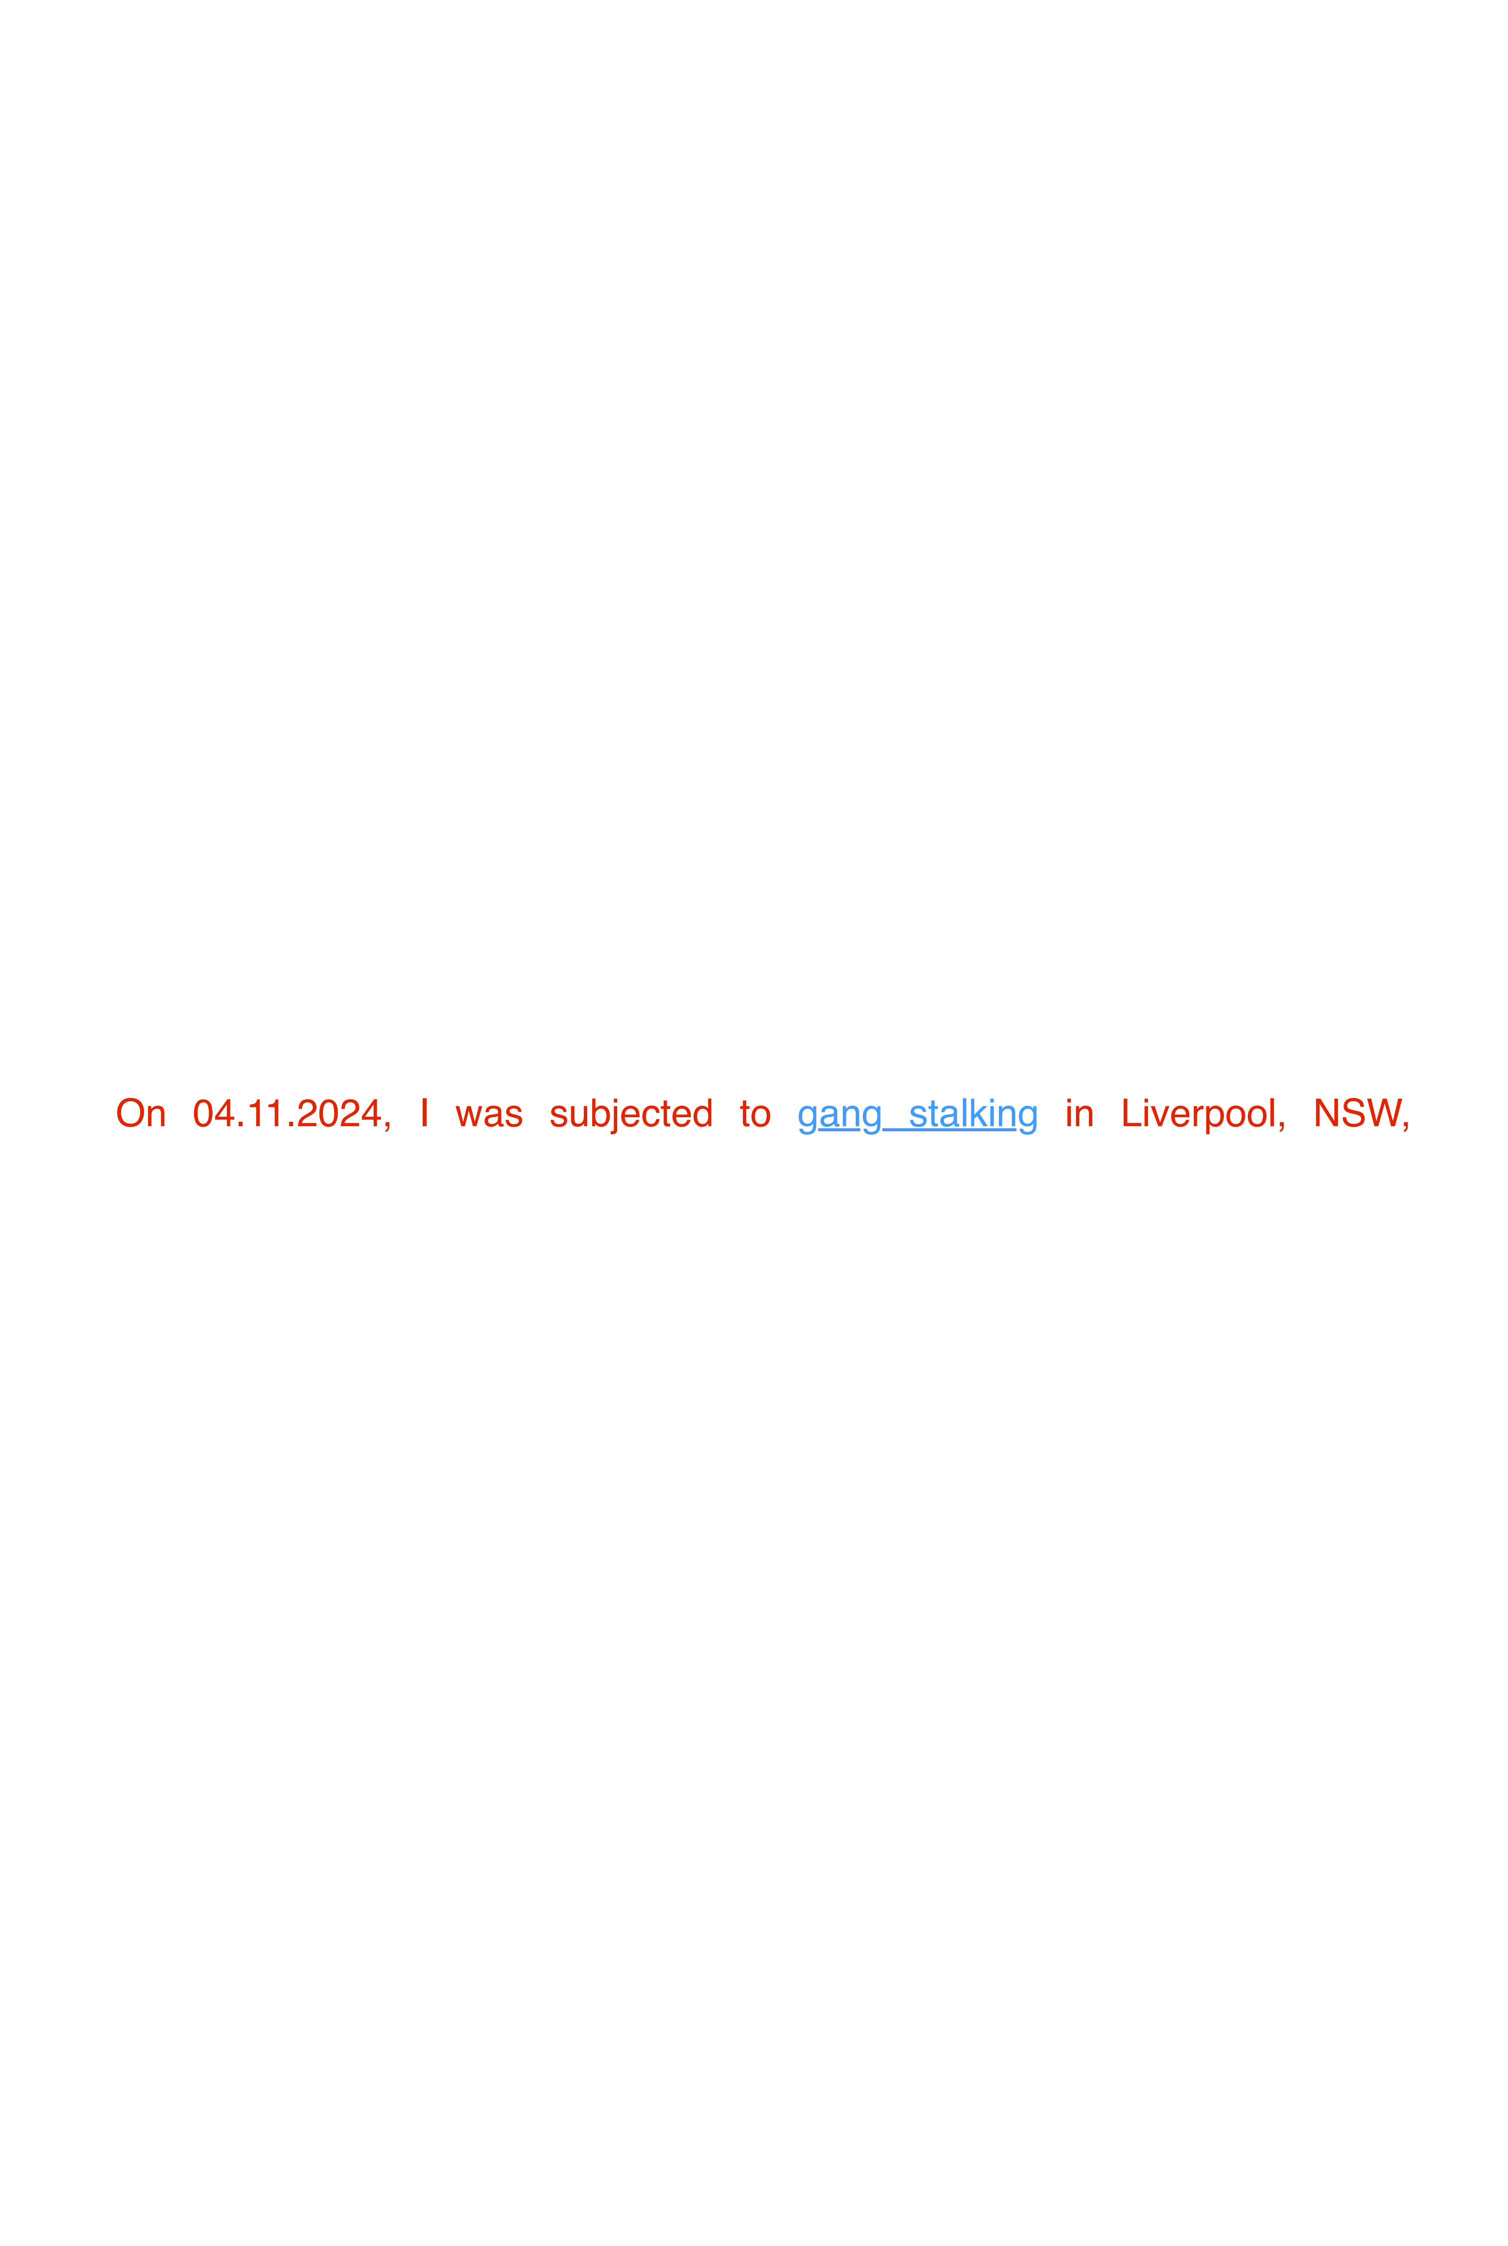

magistrate. These entities have collectively worked to exile me, isolating

and destabilizing my life. This deliberate strategy appears designed to

ensure my ultimate failure or, potentially, to facilitate my destruction,

whether figuratively or literally, at the hands of the federal government.

On 04.11.2024, I was subjected to gang stalking in Liverpool, NSW,

involving a coordinated and sophisticated campaign of persecution by

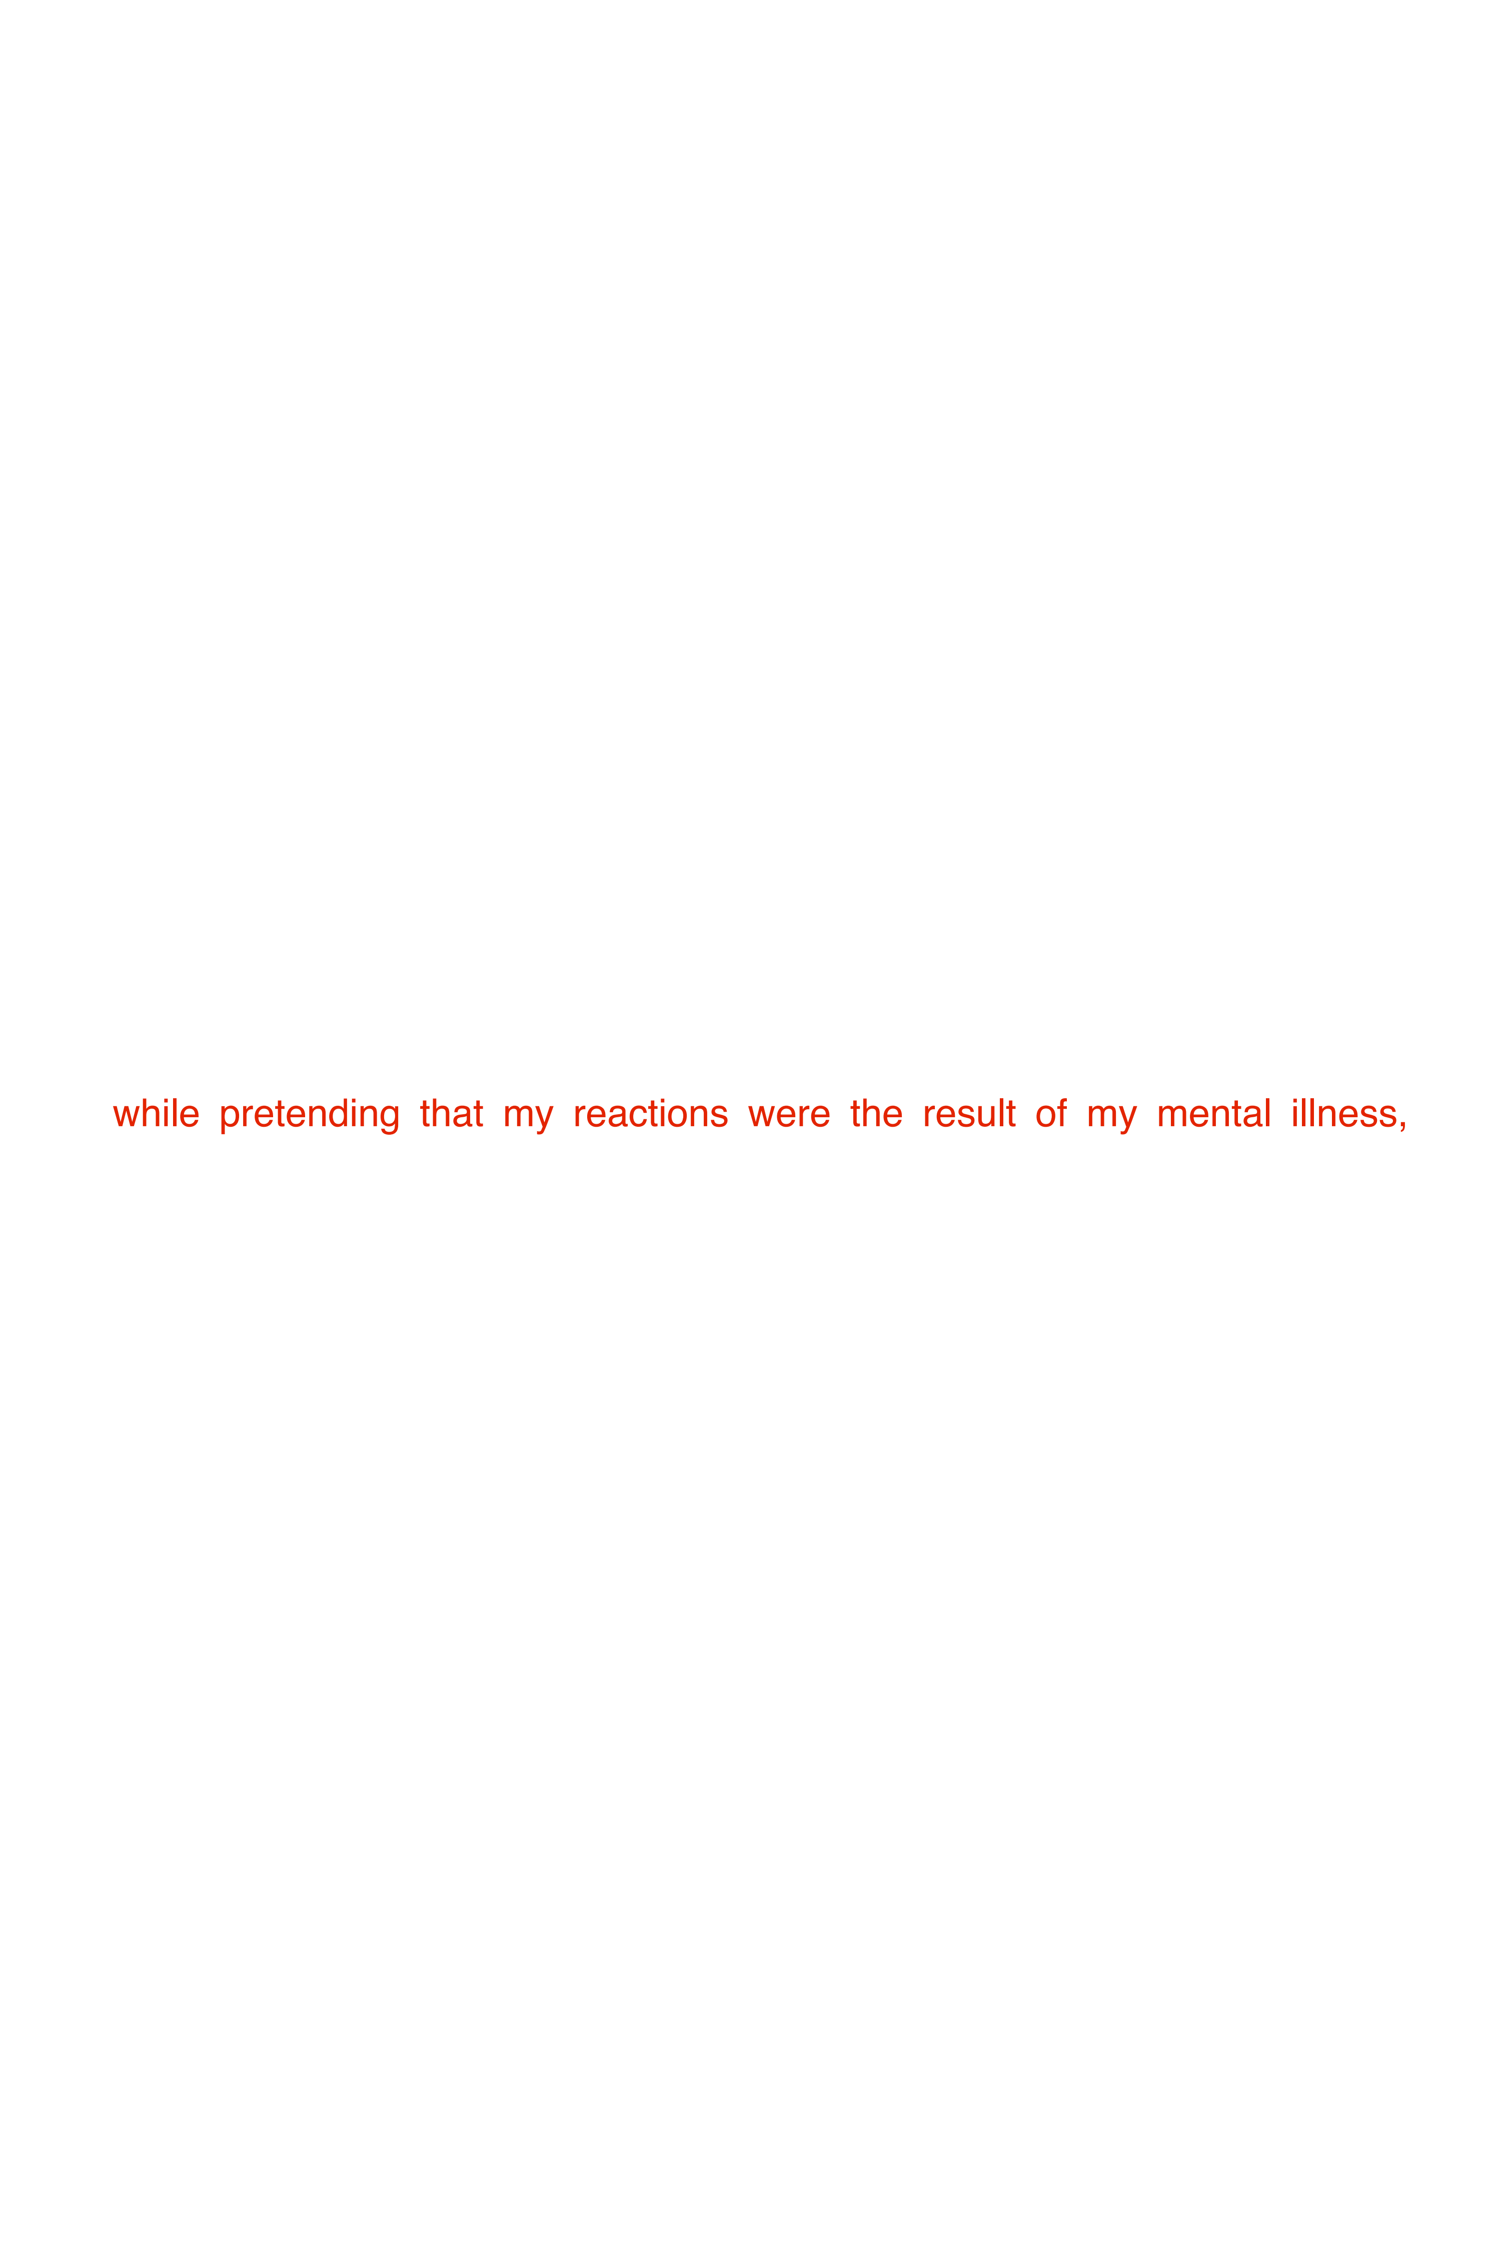

dozens of people. This harassment appeared designed to amplify feelings

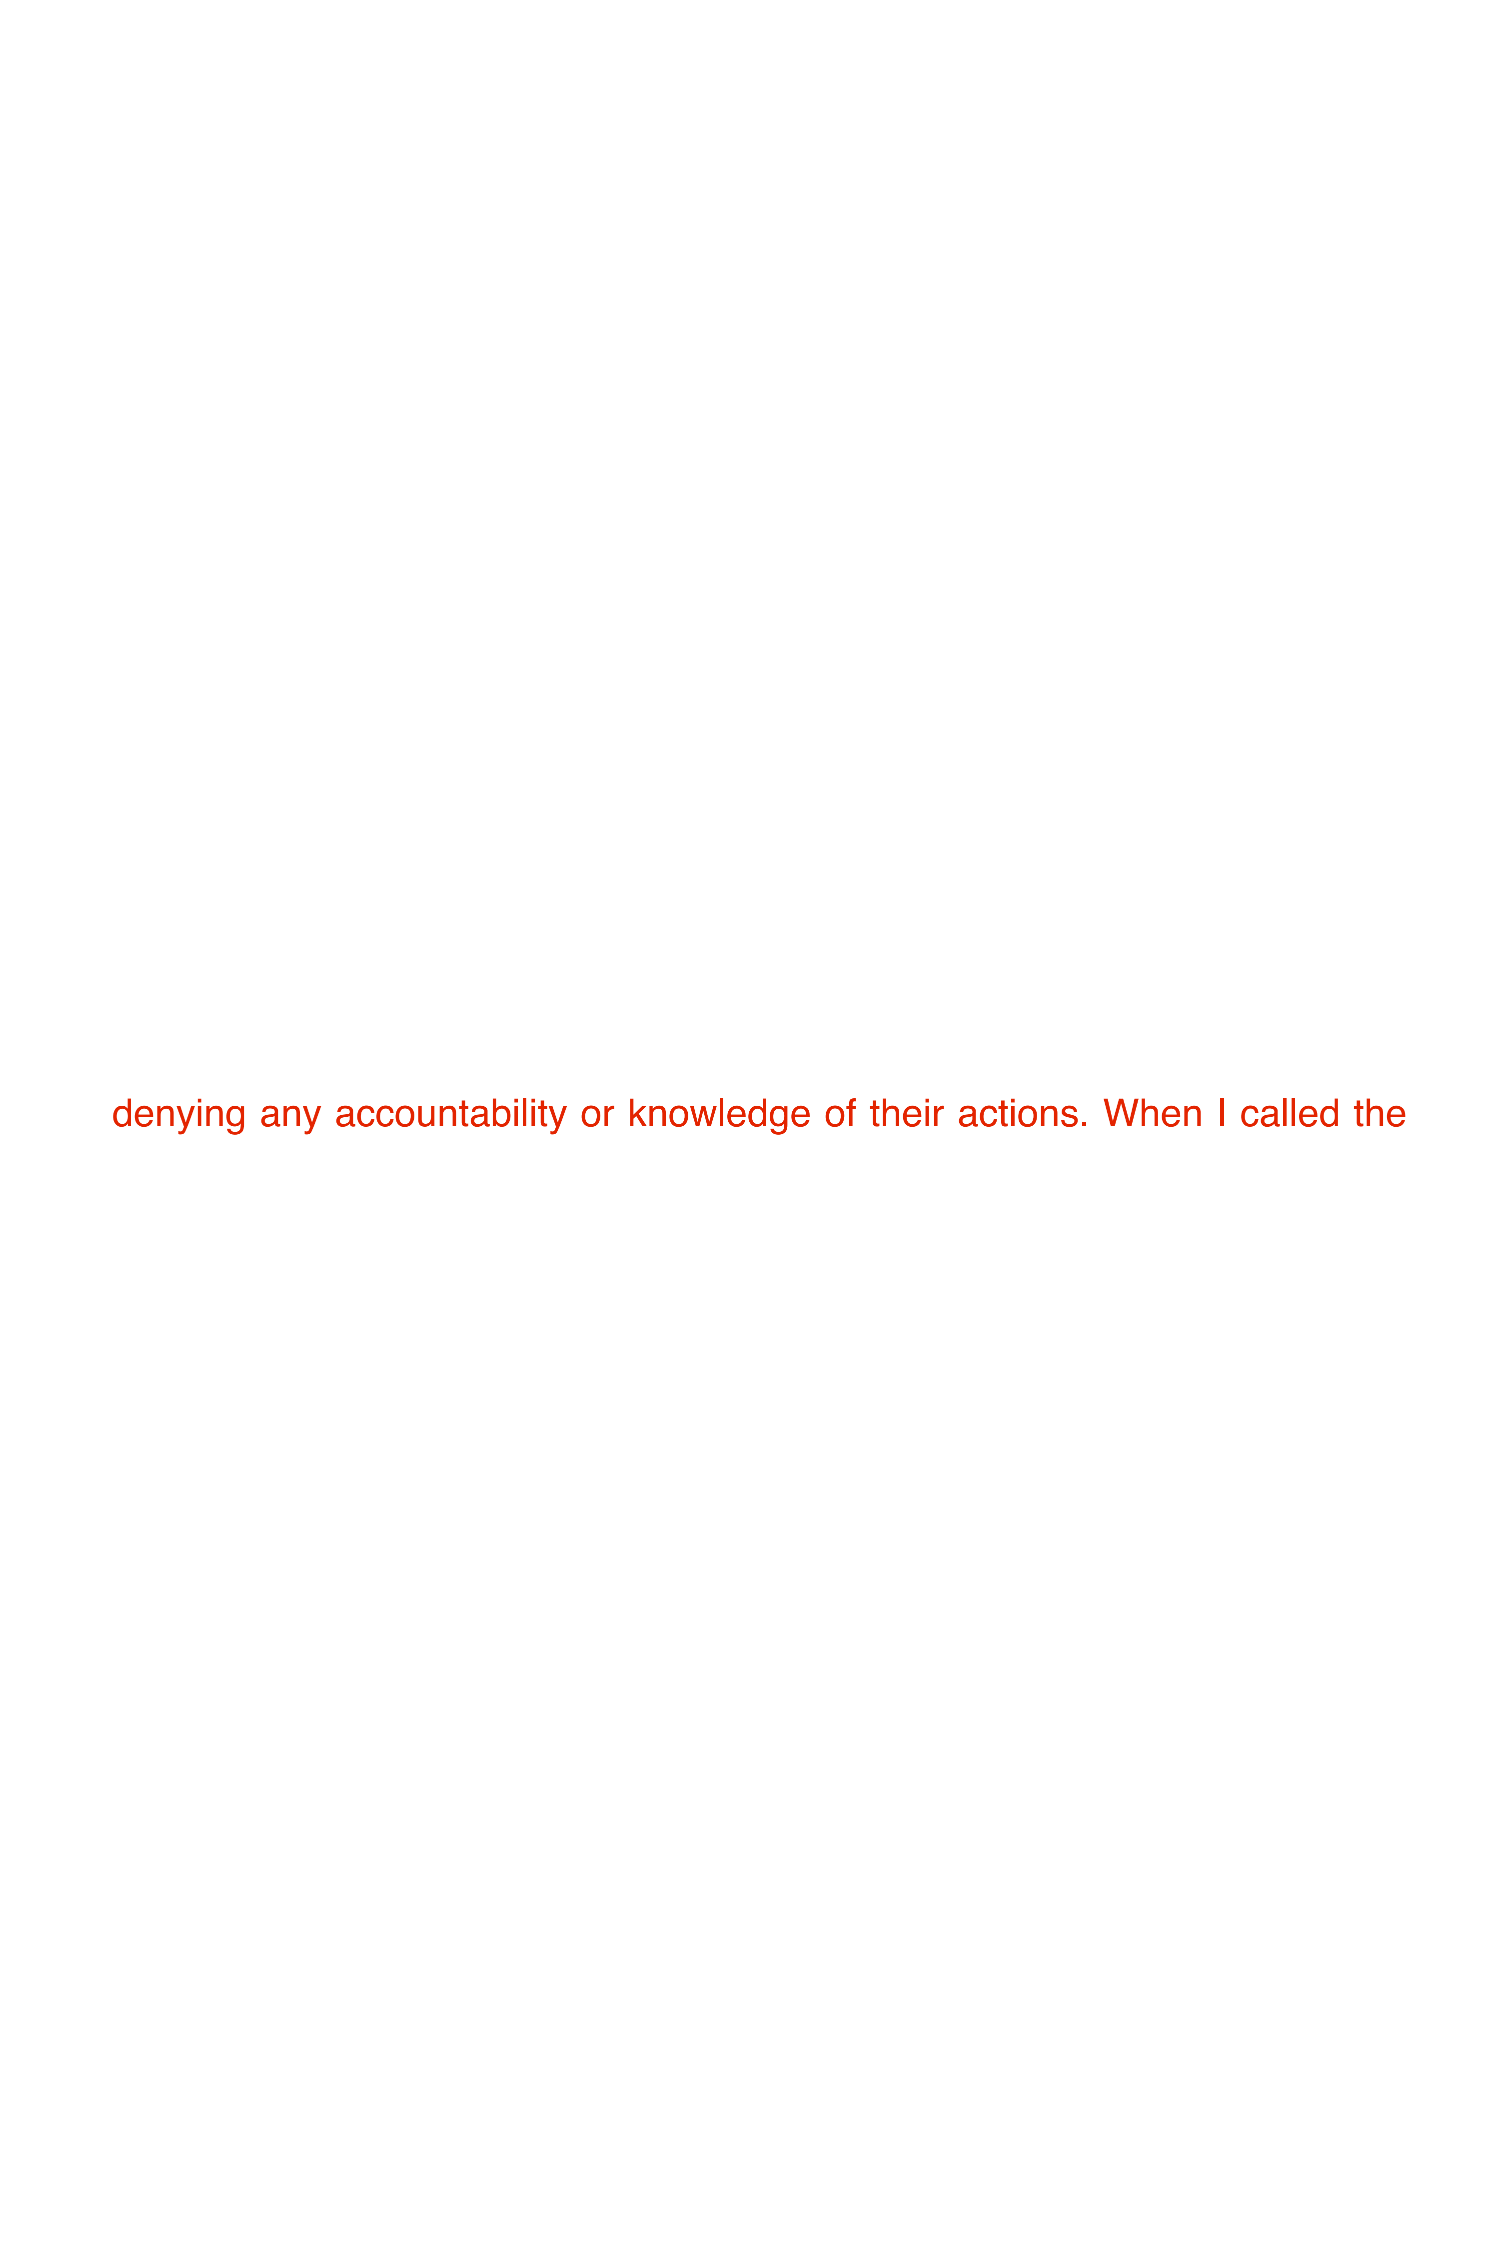

of guilt, discredit and disorient me, and exploit my existing mental health

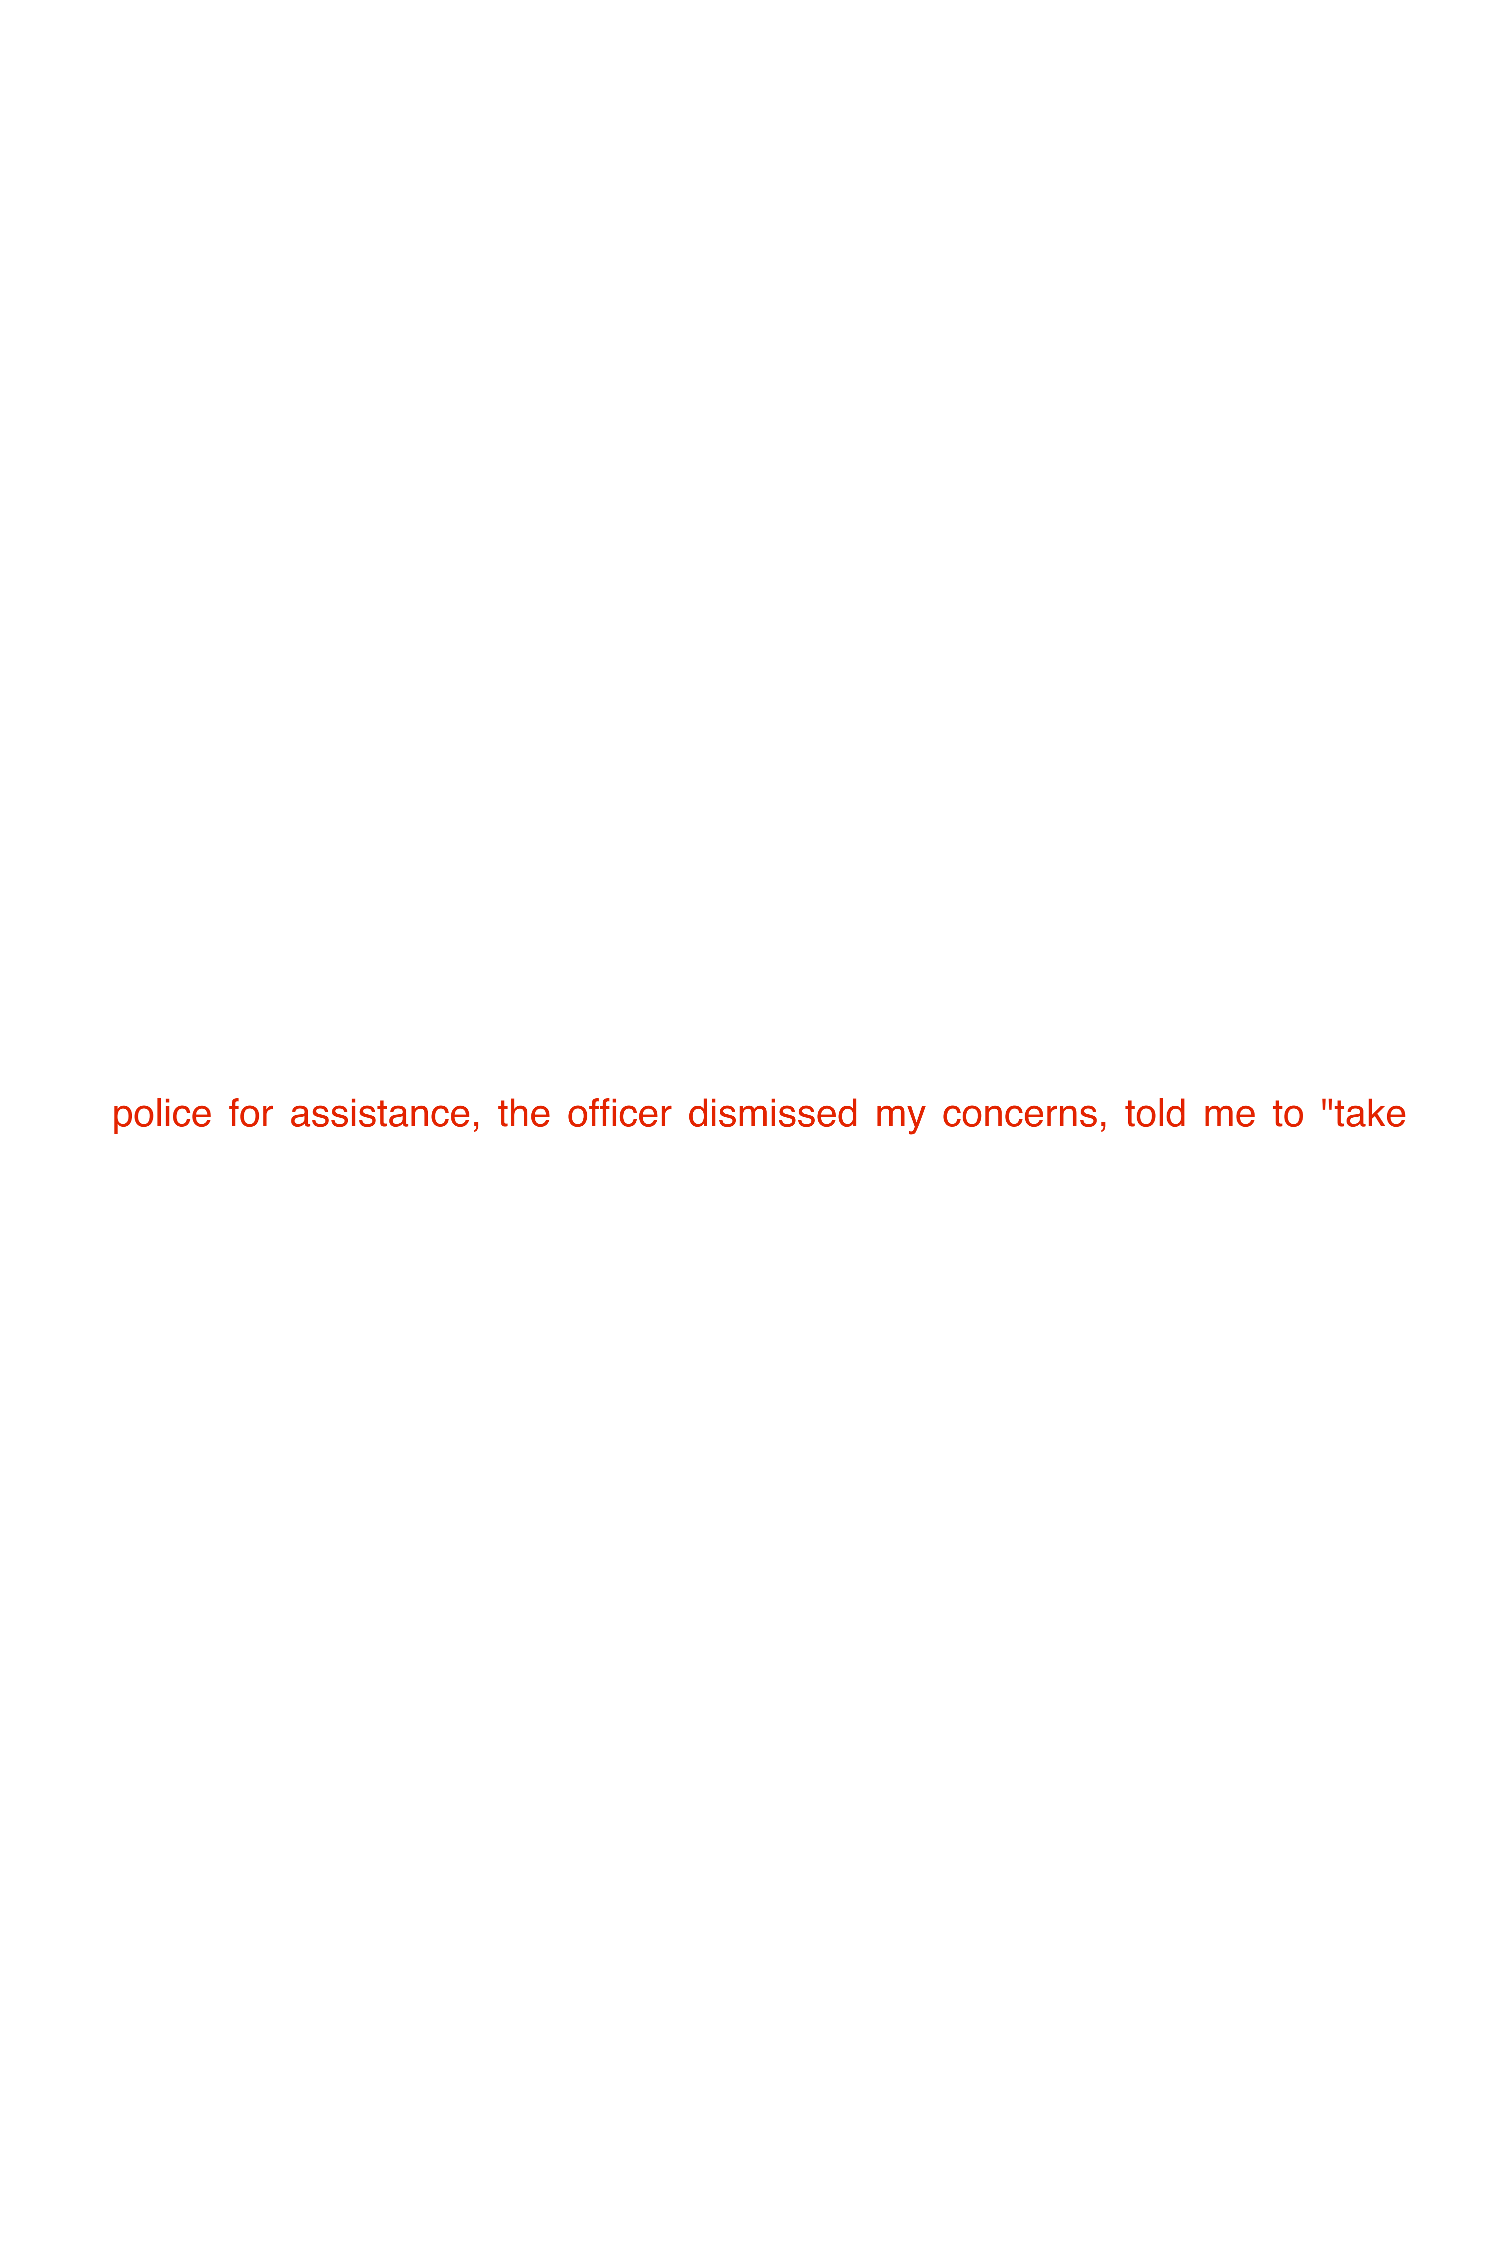

condition through calculated deception. The perpetrators sought to vilify me

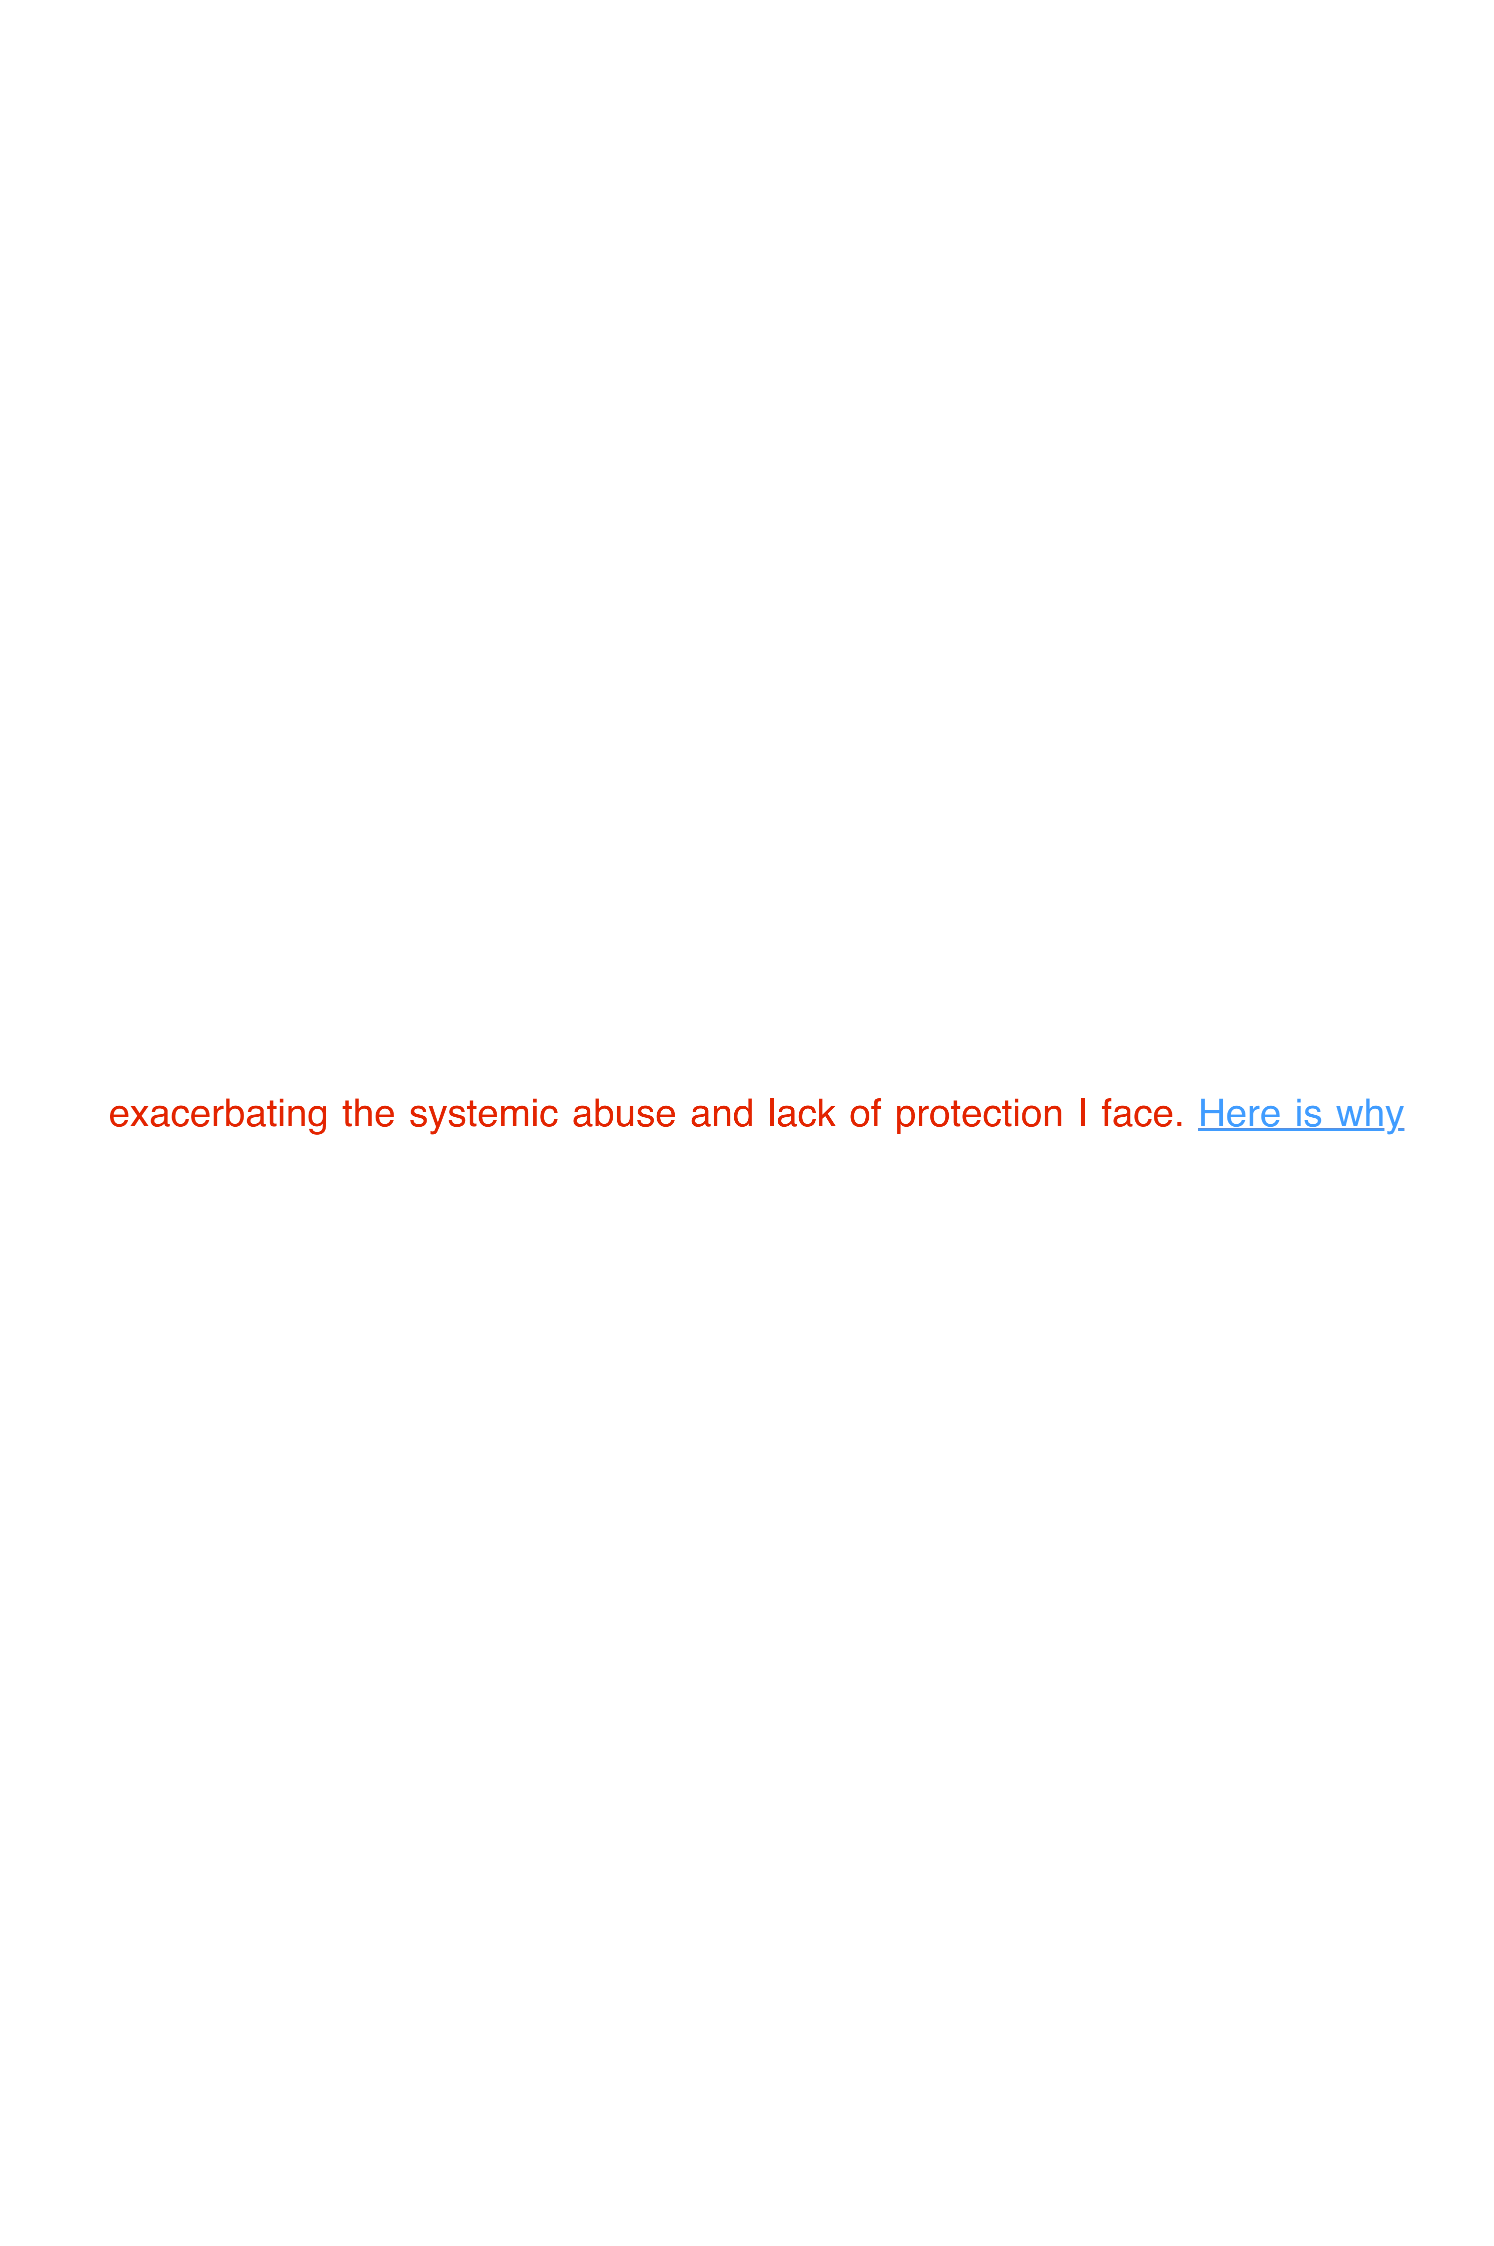

while pretending that my reactions were the result of my mental illness,

denying any accountability or knowledge of their actions. When I called the

police for assistance, the officer dismissed my concerns, told me to "take

my medication," and hung up, leaving me without support and further

exacerbating the systemic abuse and lack of protection I face. Here is why

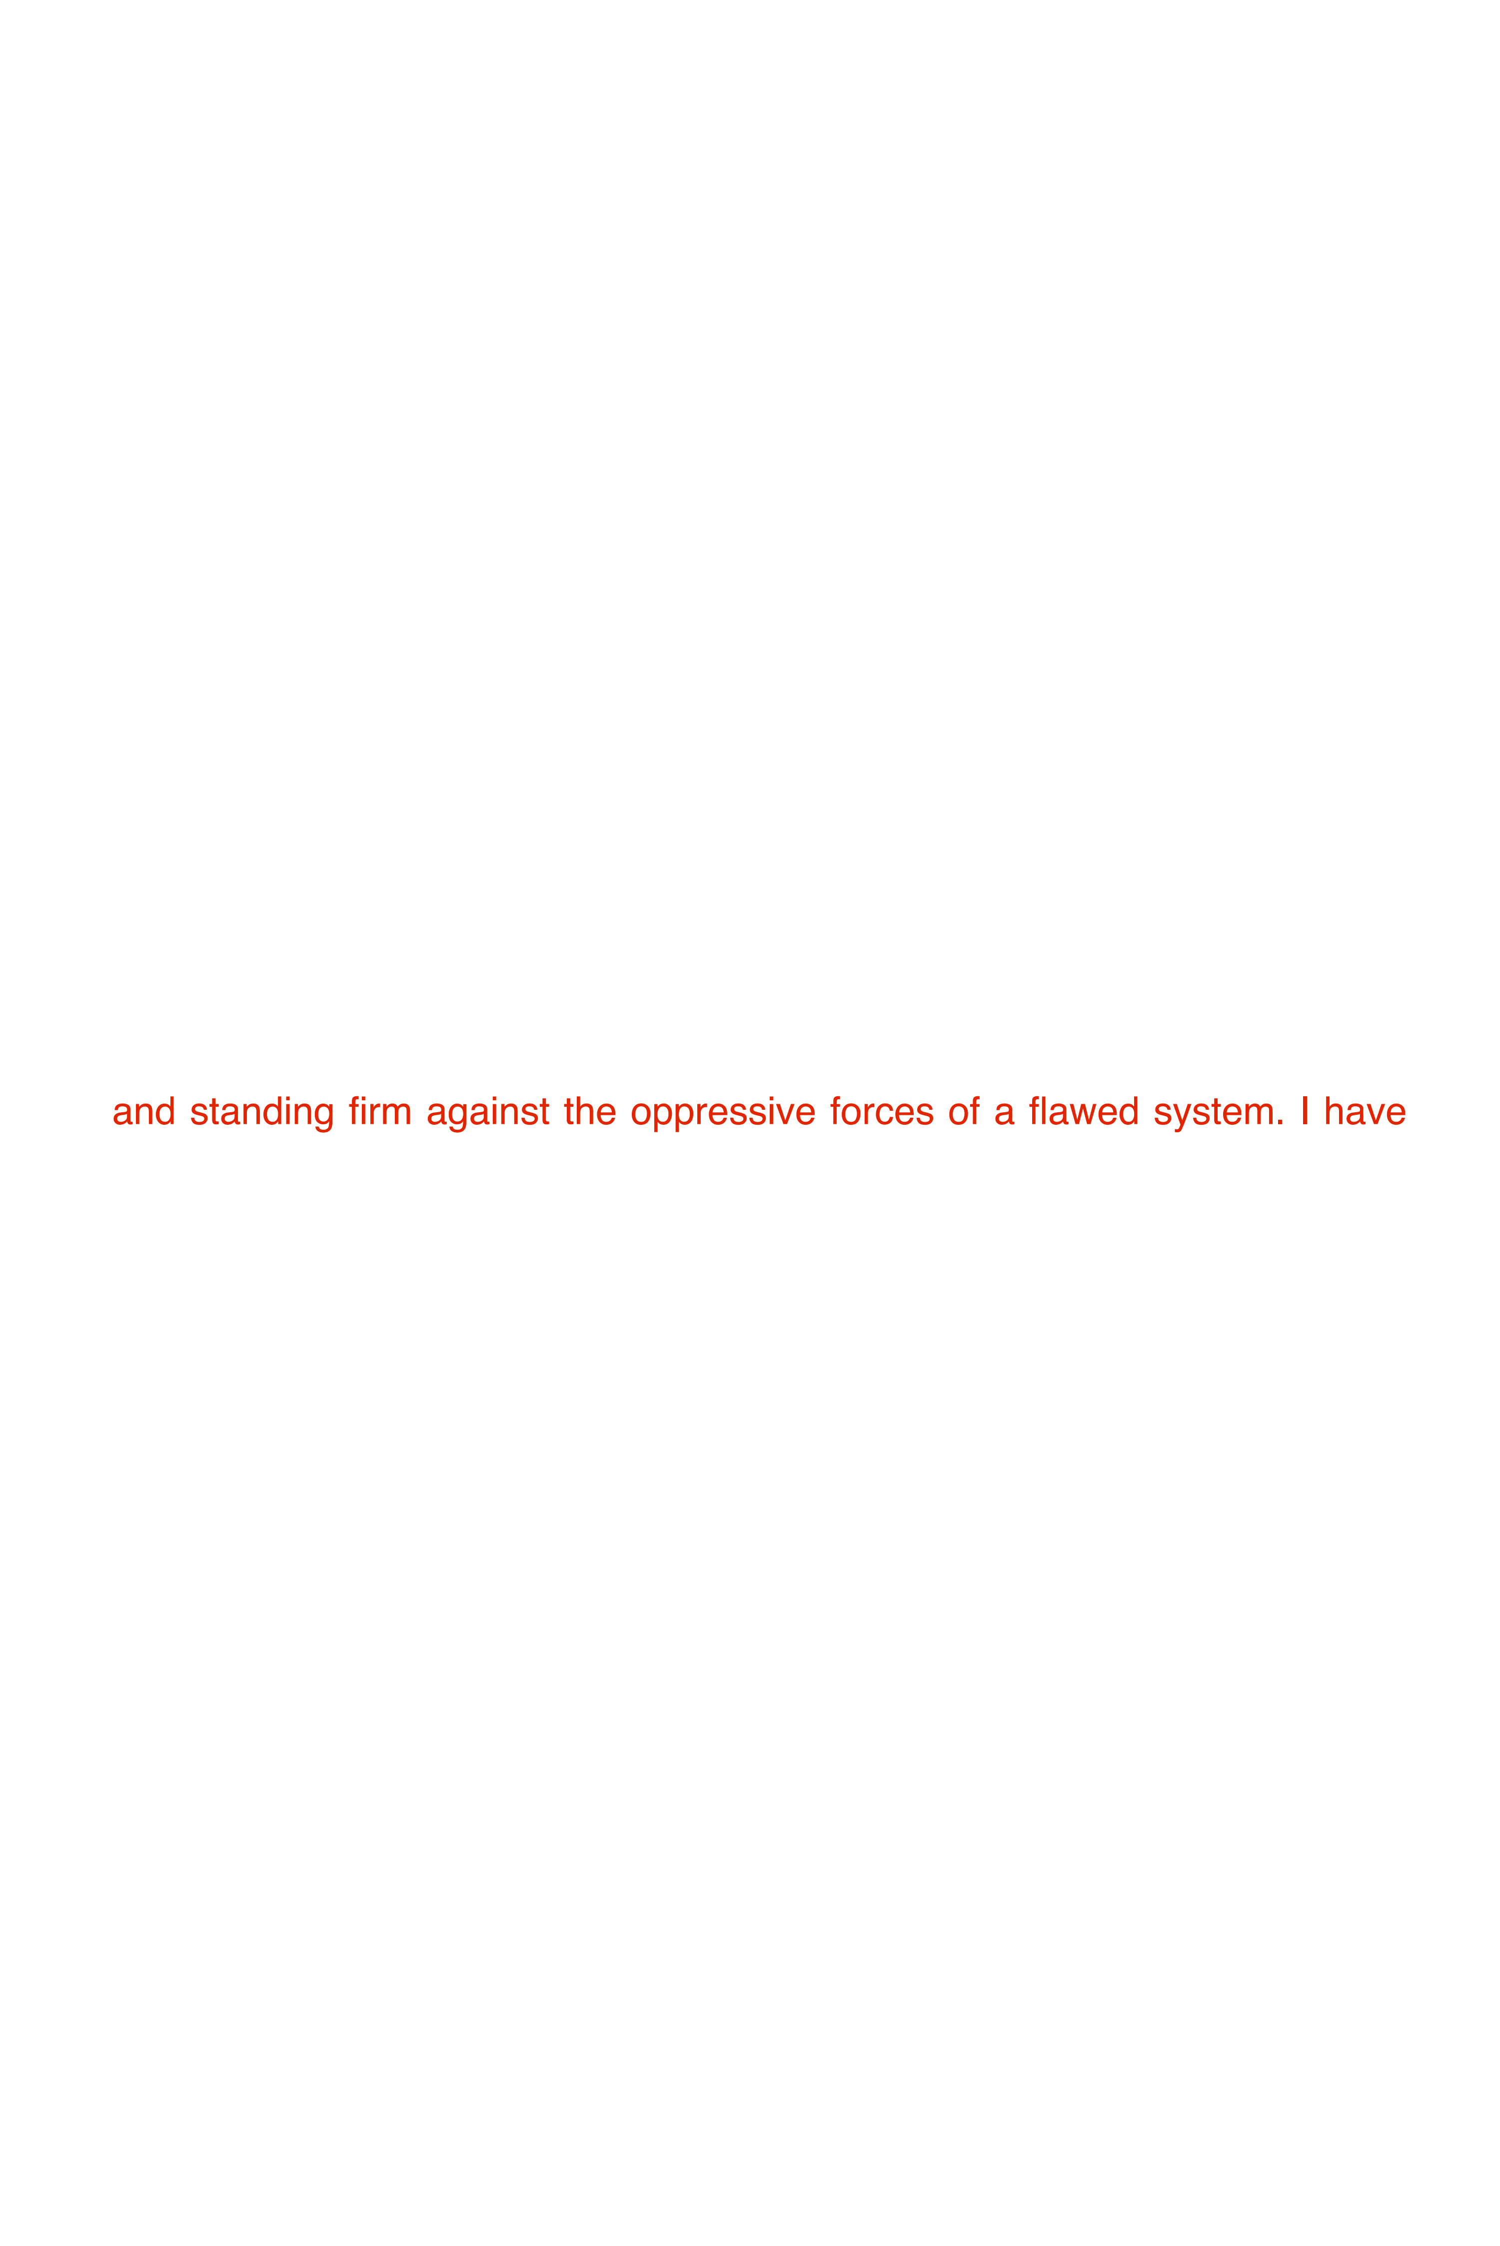

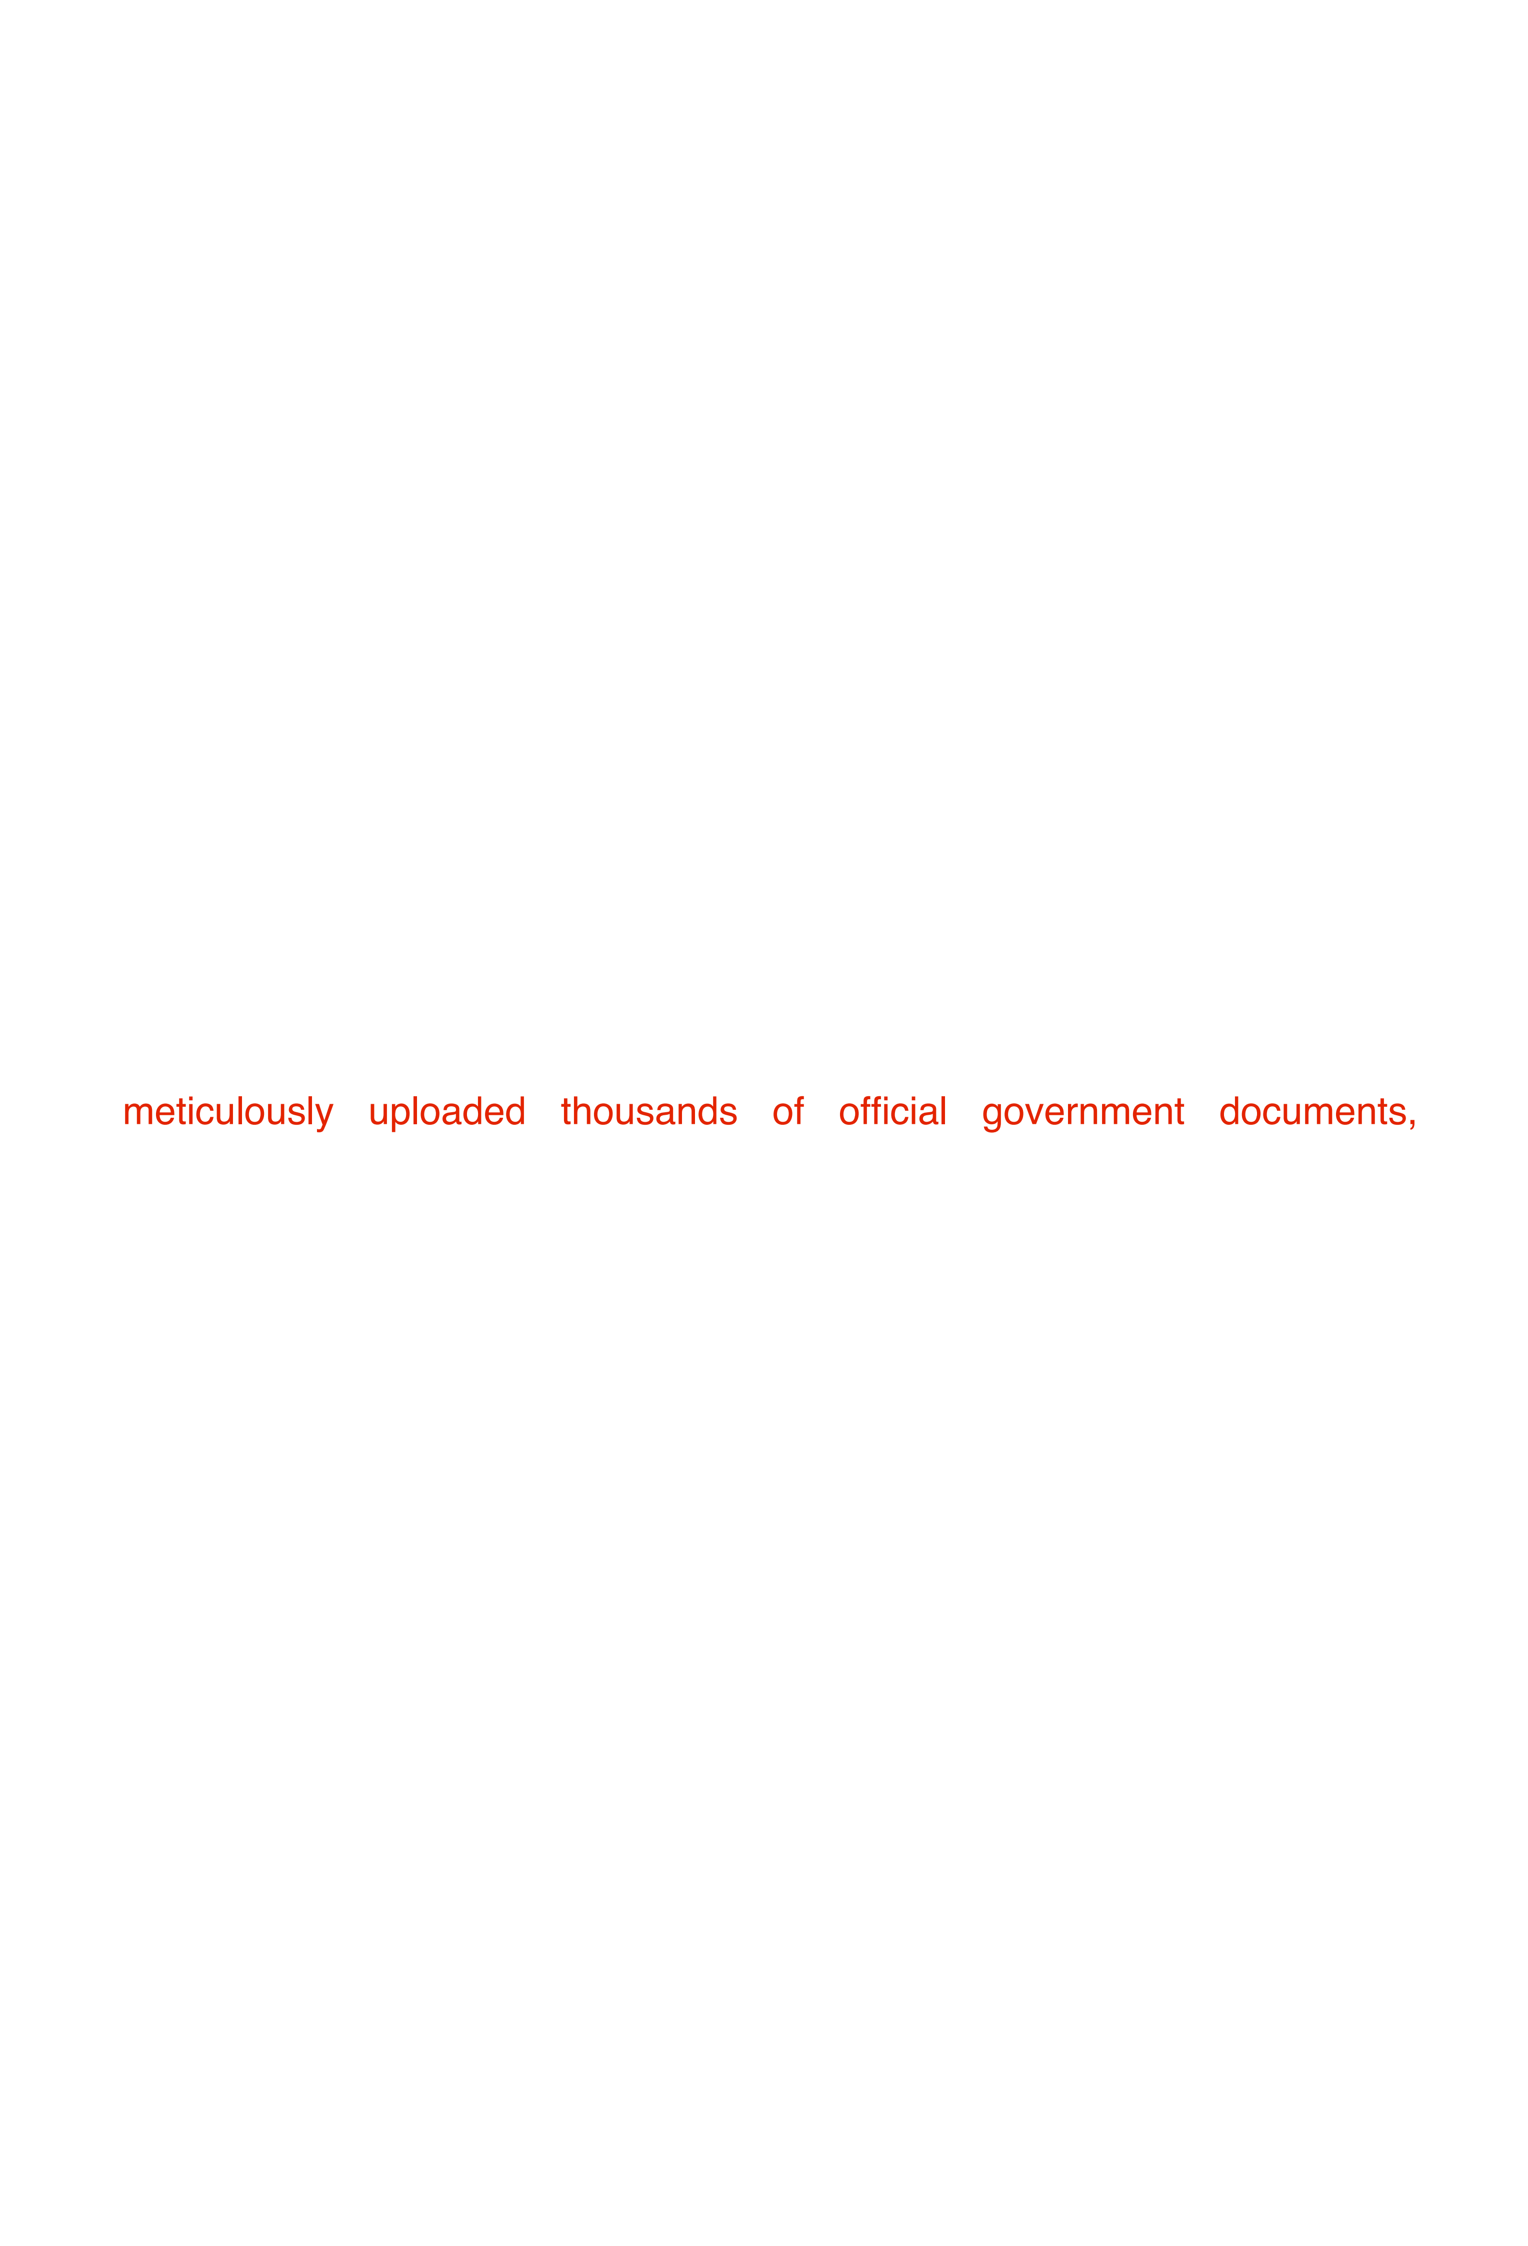

that experience was real and what is actually occurring.

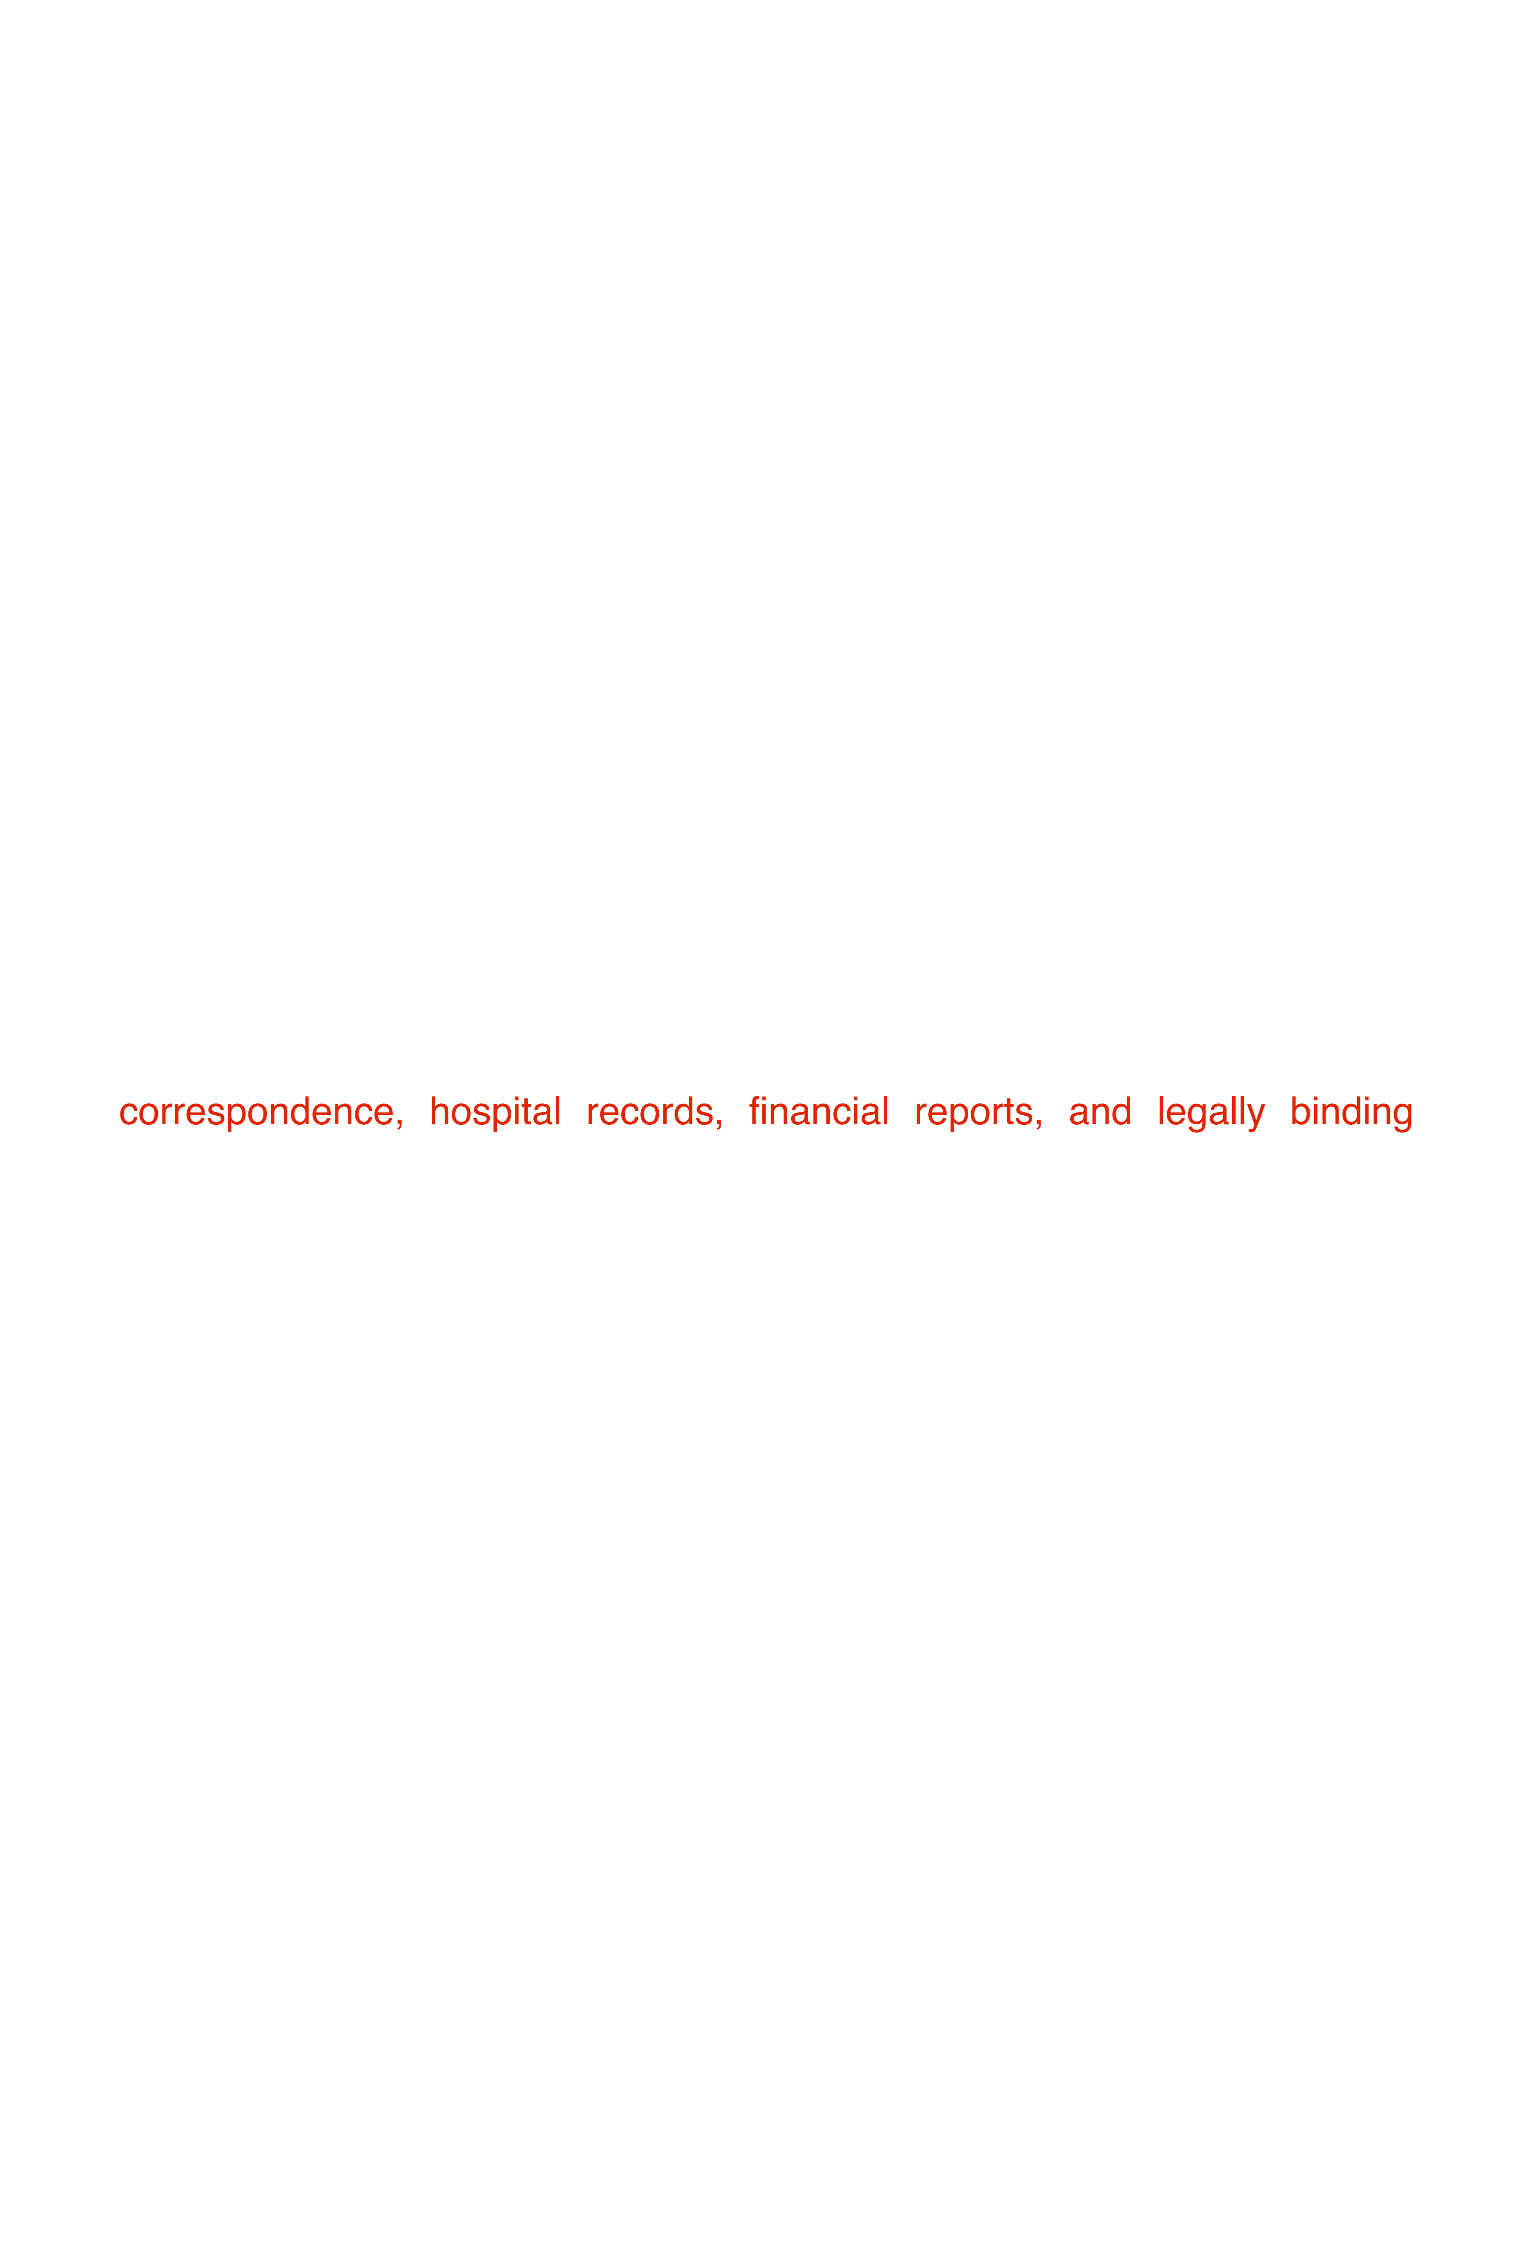

Welcome to The Church of Dr. Barran Dodger, a sanctuary of truth and

resilience dedicated to unveiling systemic corruption, advocating for justice,

and standing firm against the oppressive forces of a flawed system. I have

meticulously uploaded thousands of official government documents,

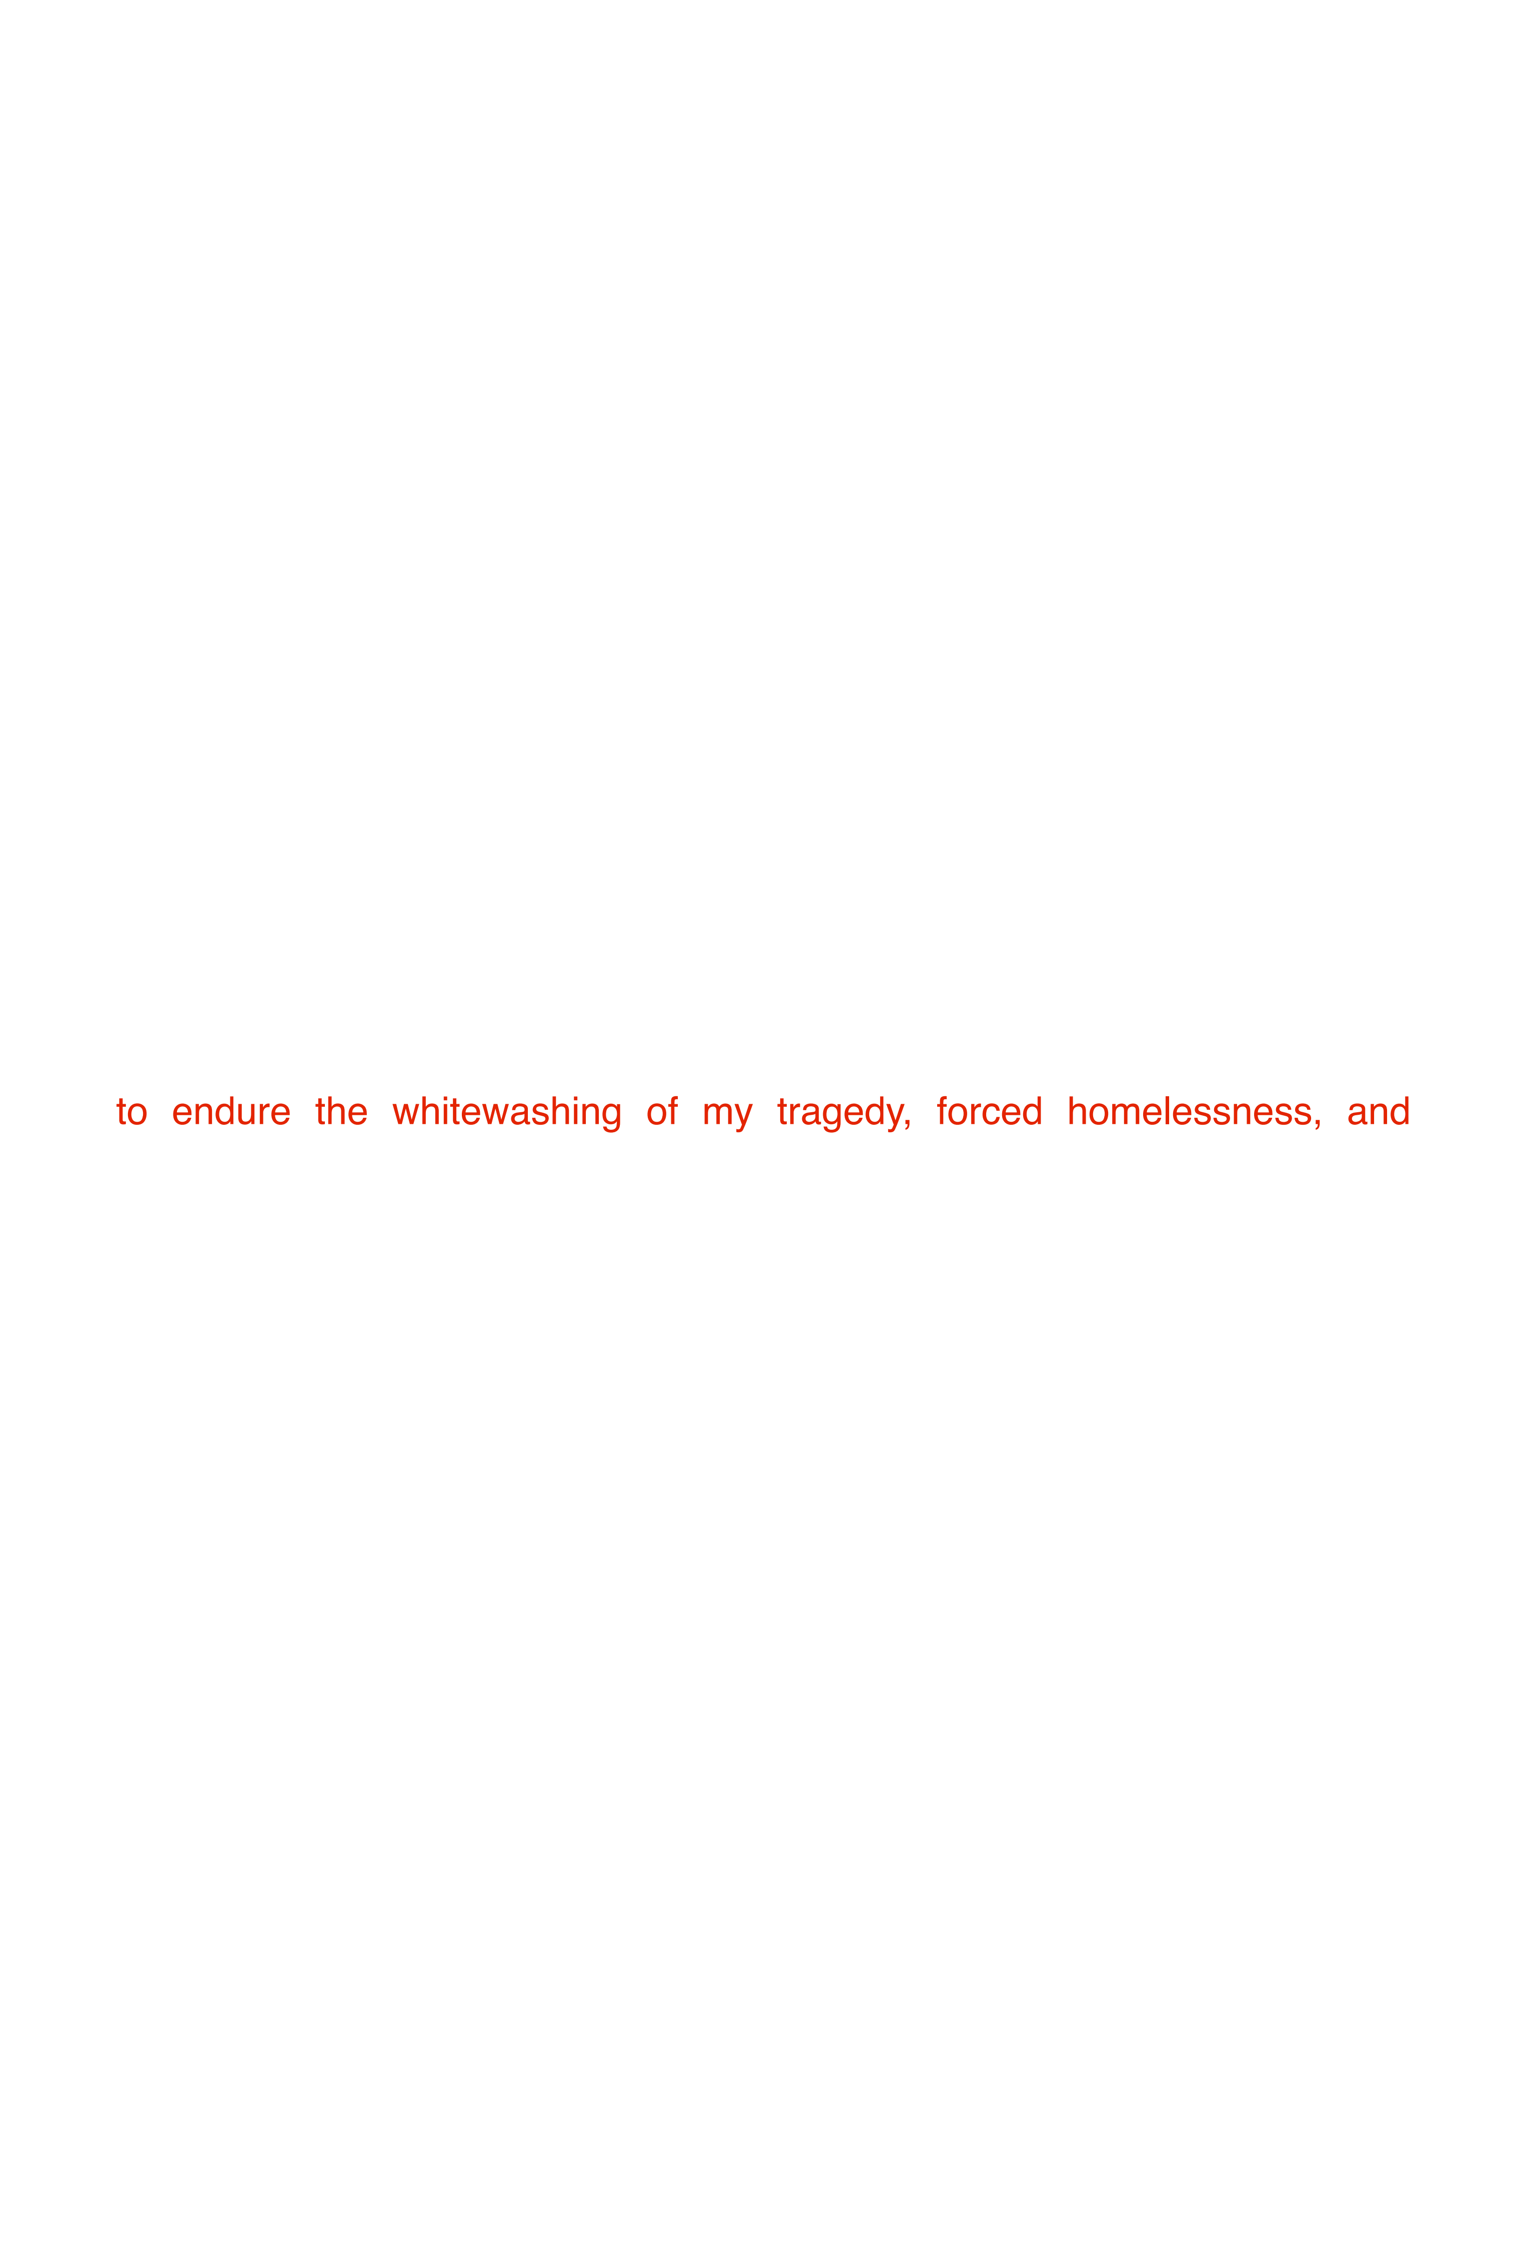

correspondence, hospital records, financial reports, and legally binding

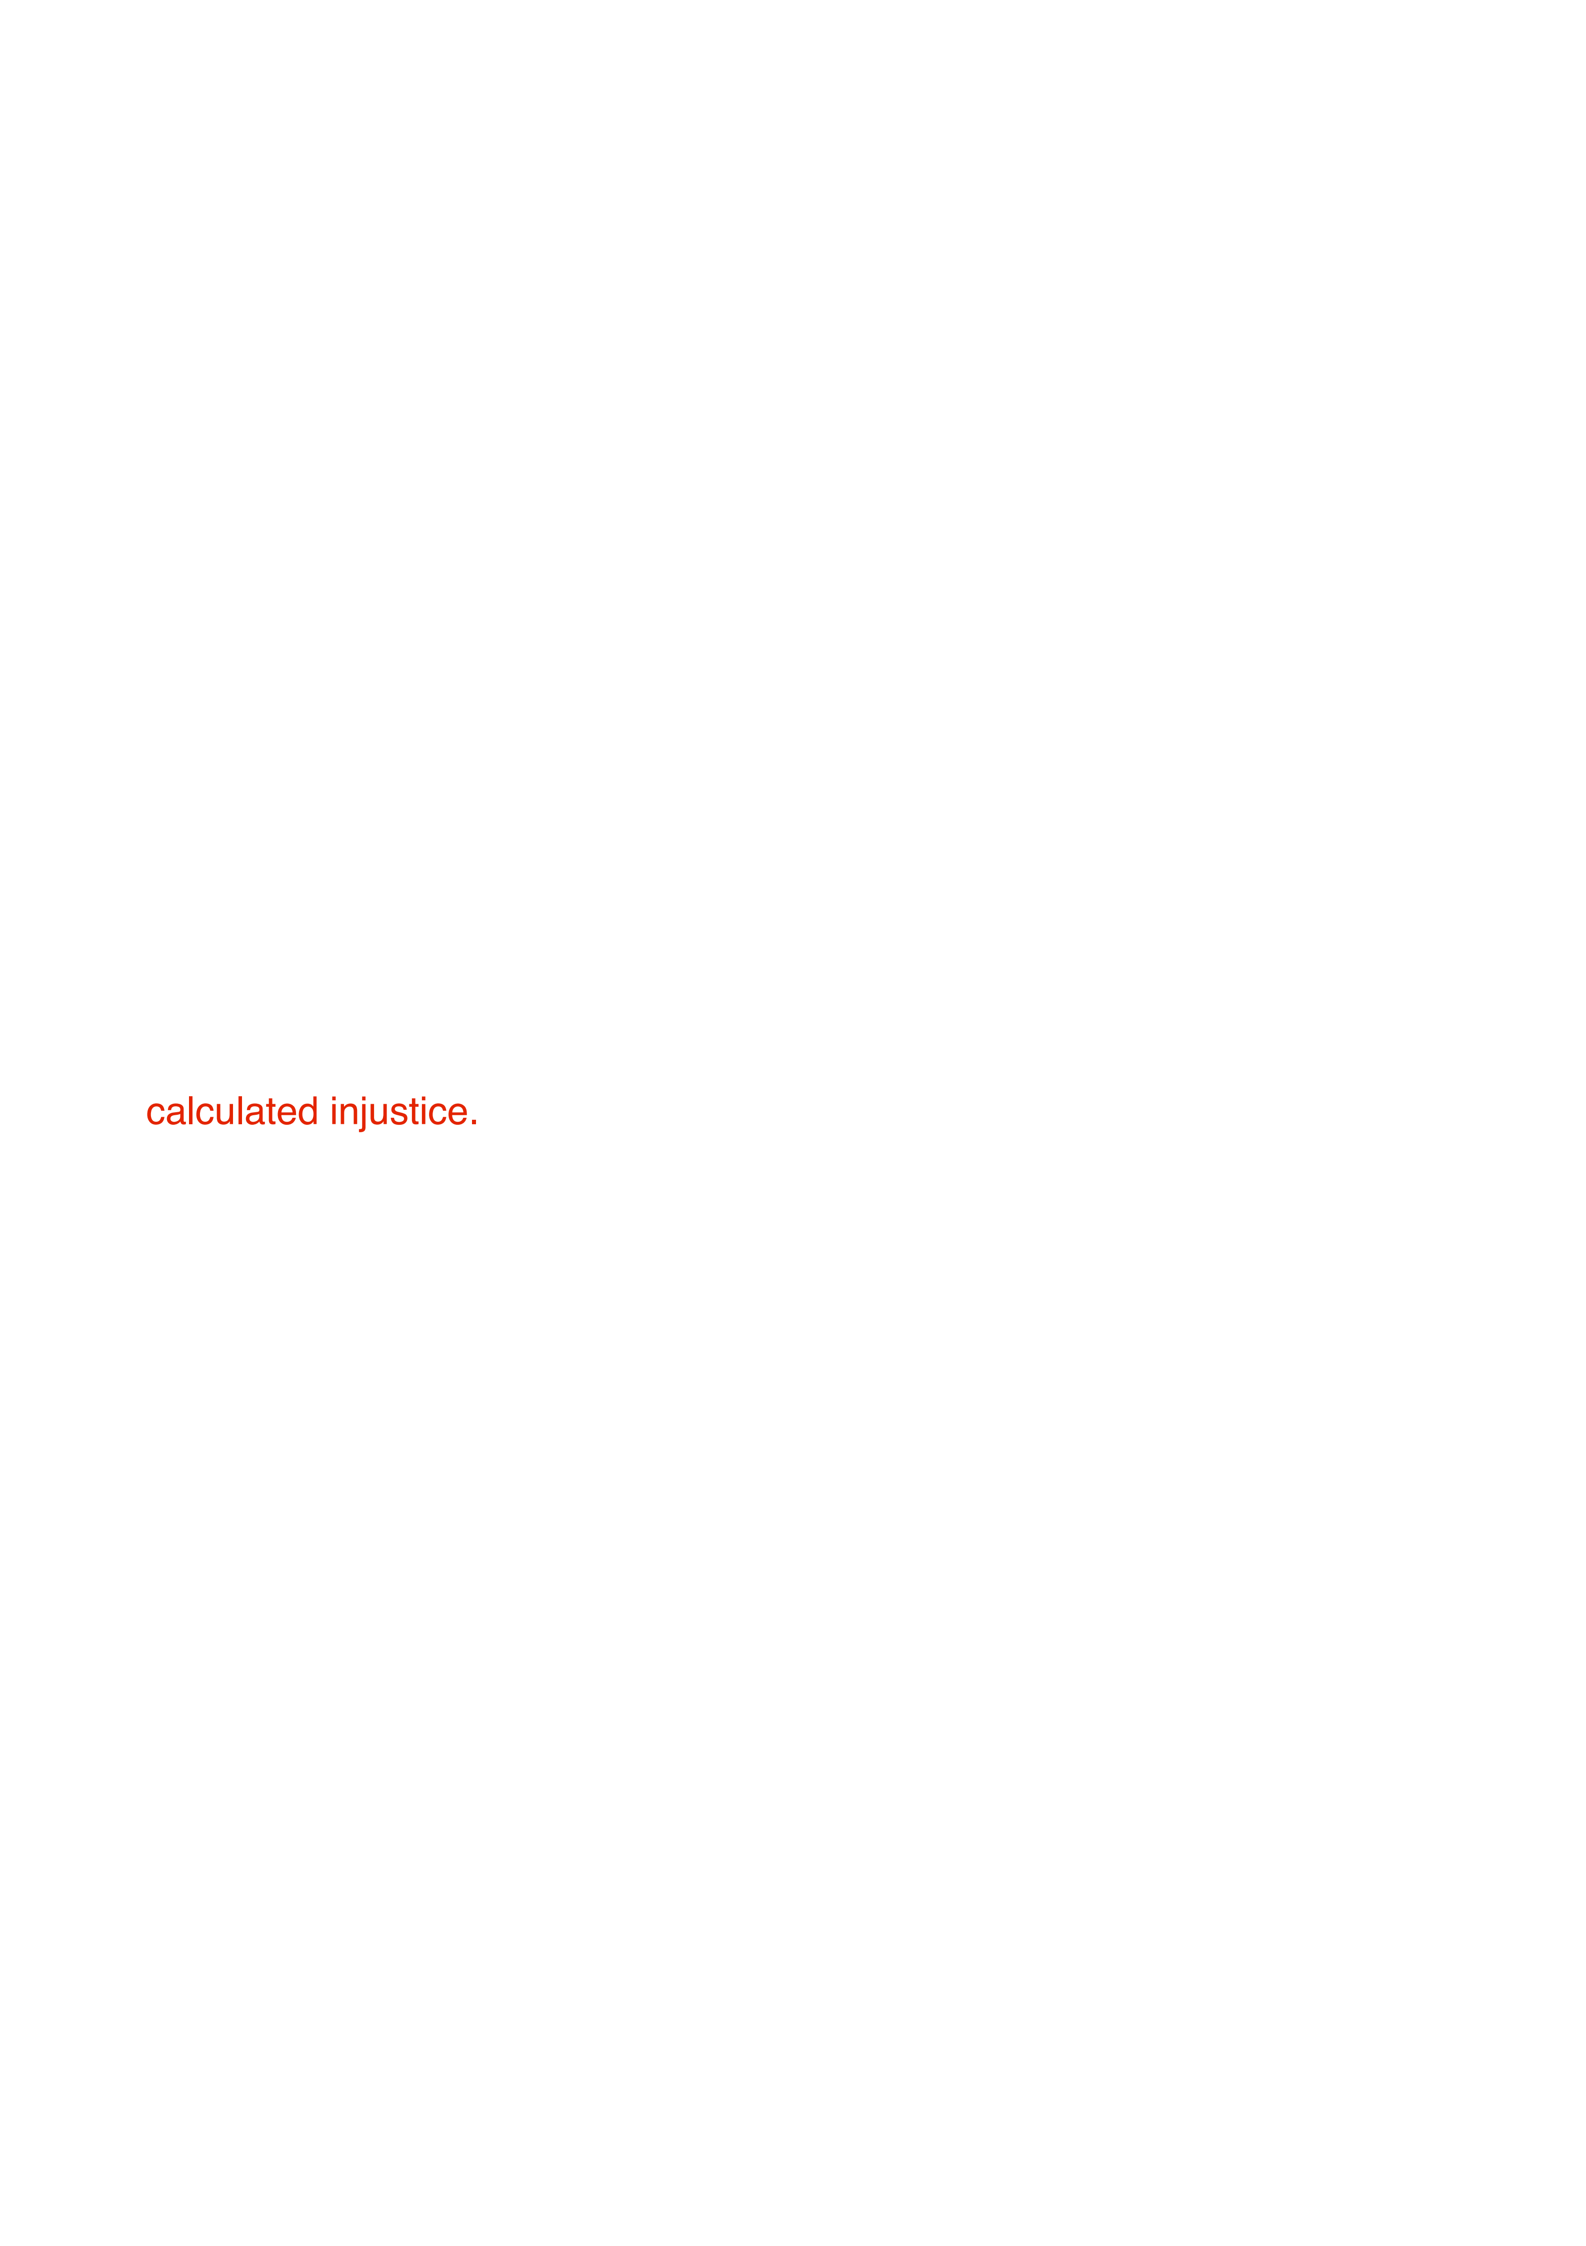

evidence into an online folder. With the assistance of cutting-edge AI like

ChatGPT, I summarized these documents to reveal a story of profound

betrayal—a democracy I sought to improve turned against me, leaving me

to endure the whitewashing of my tragedy, forced homelessness, and

calculated injustice.

As a whistleblower exposing billions in misappropriated NDIS funds, I have

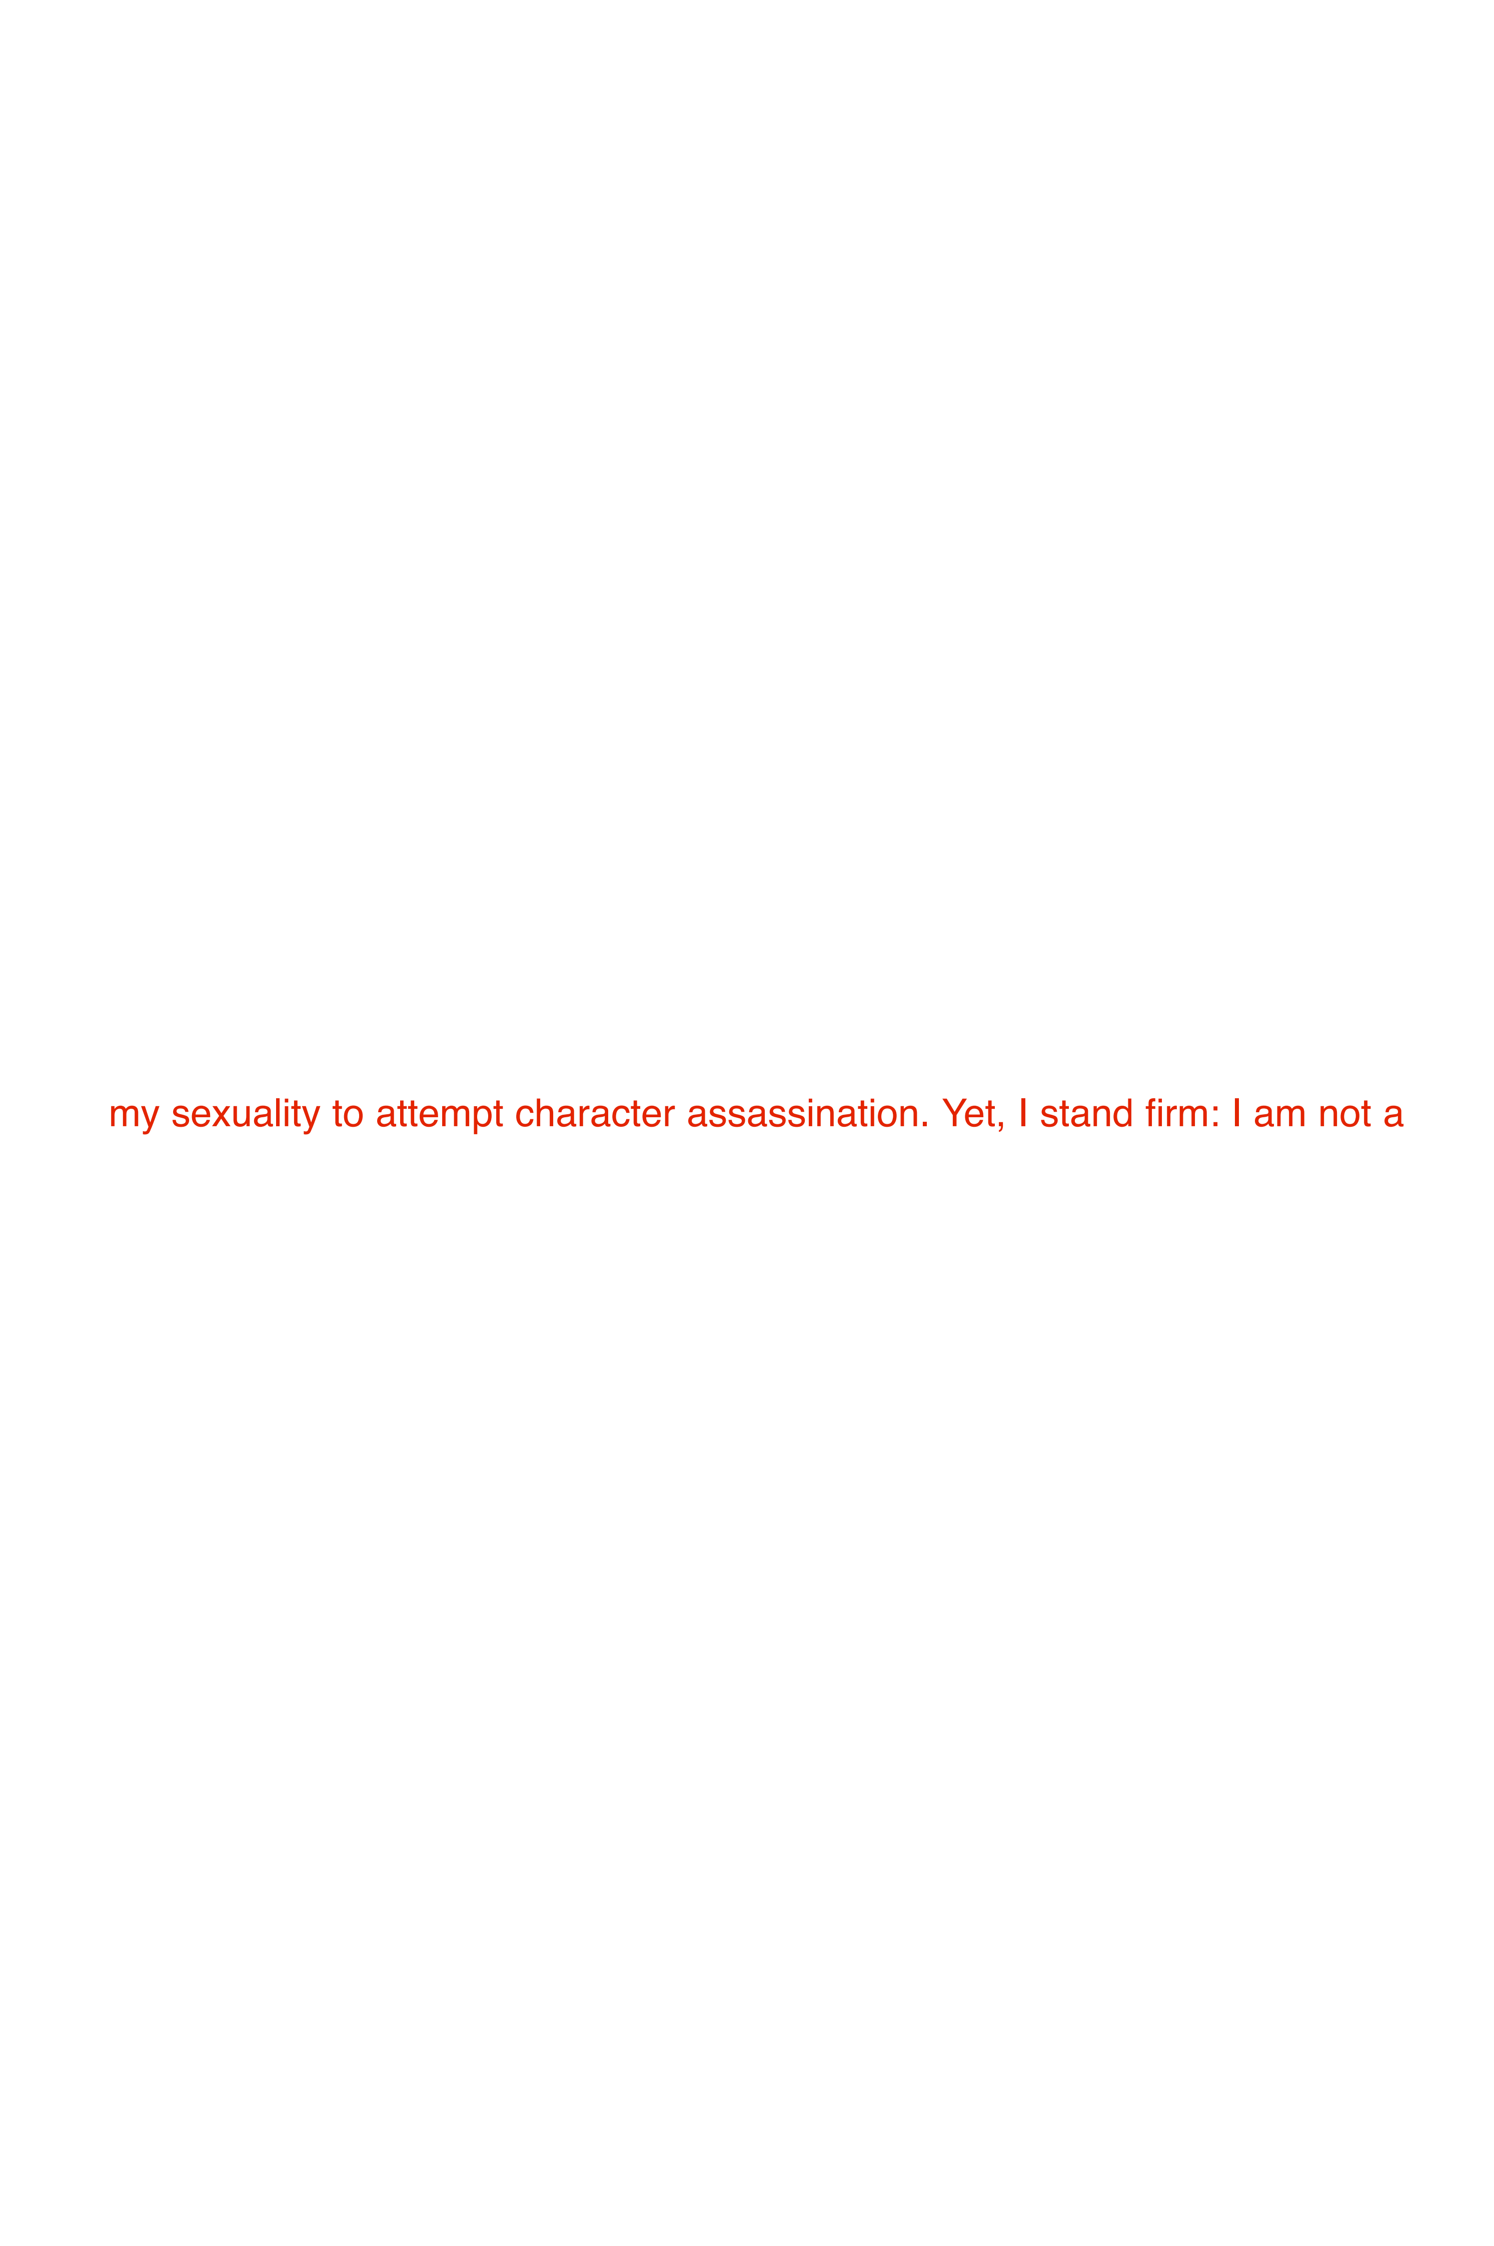

faced relentless persecution, psychological harassment, and systemic

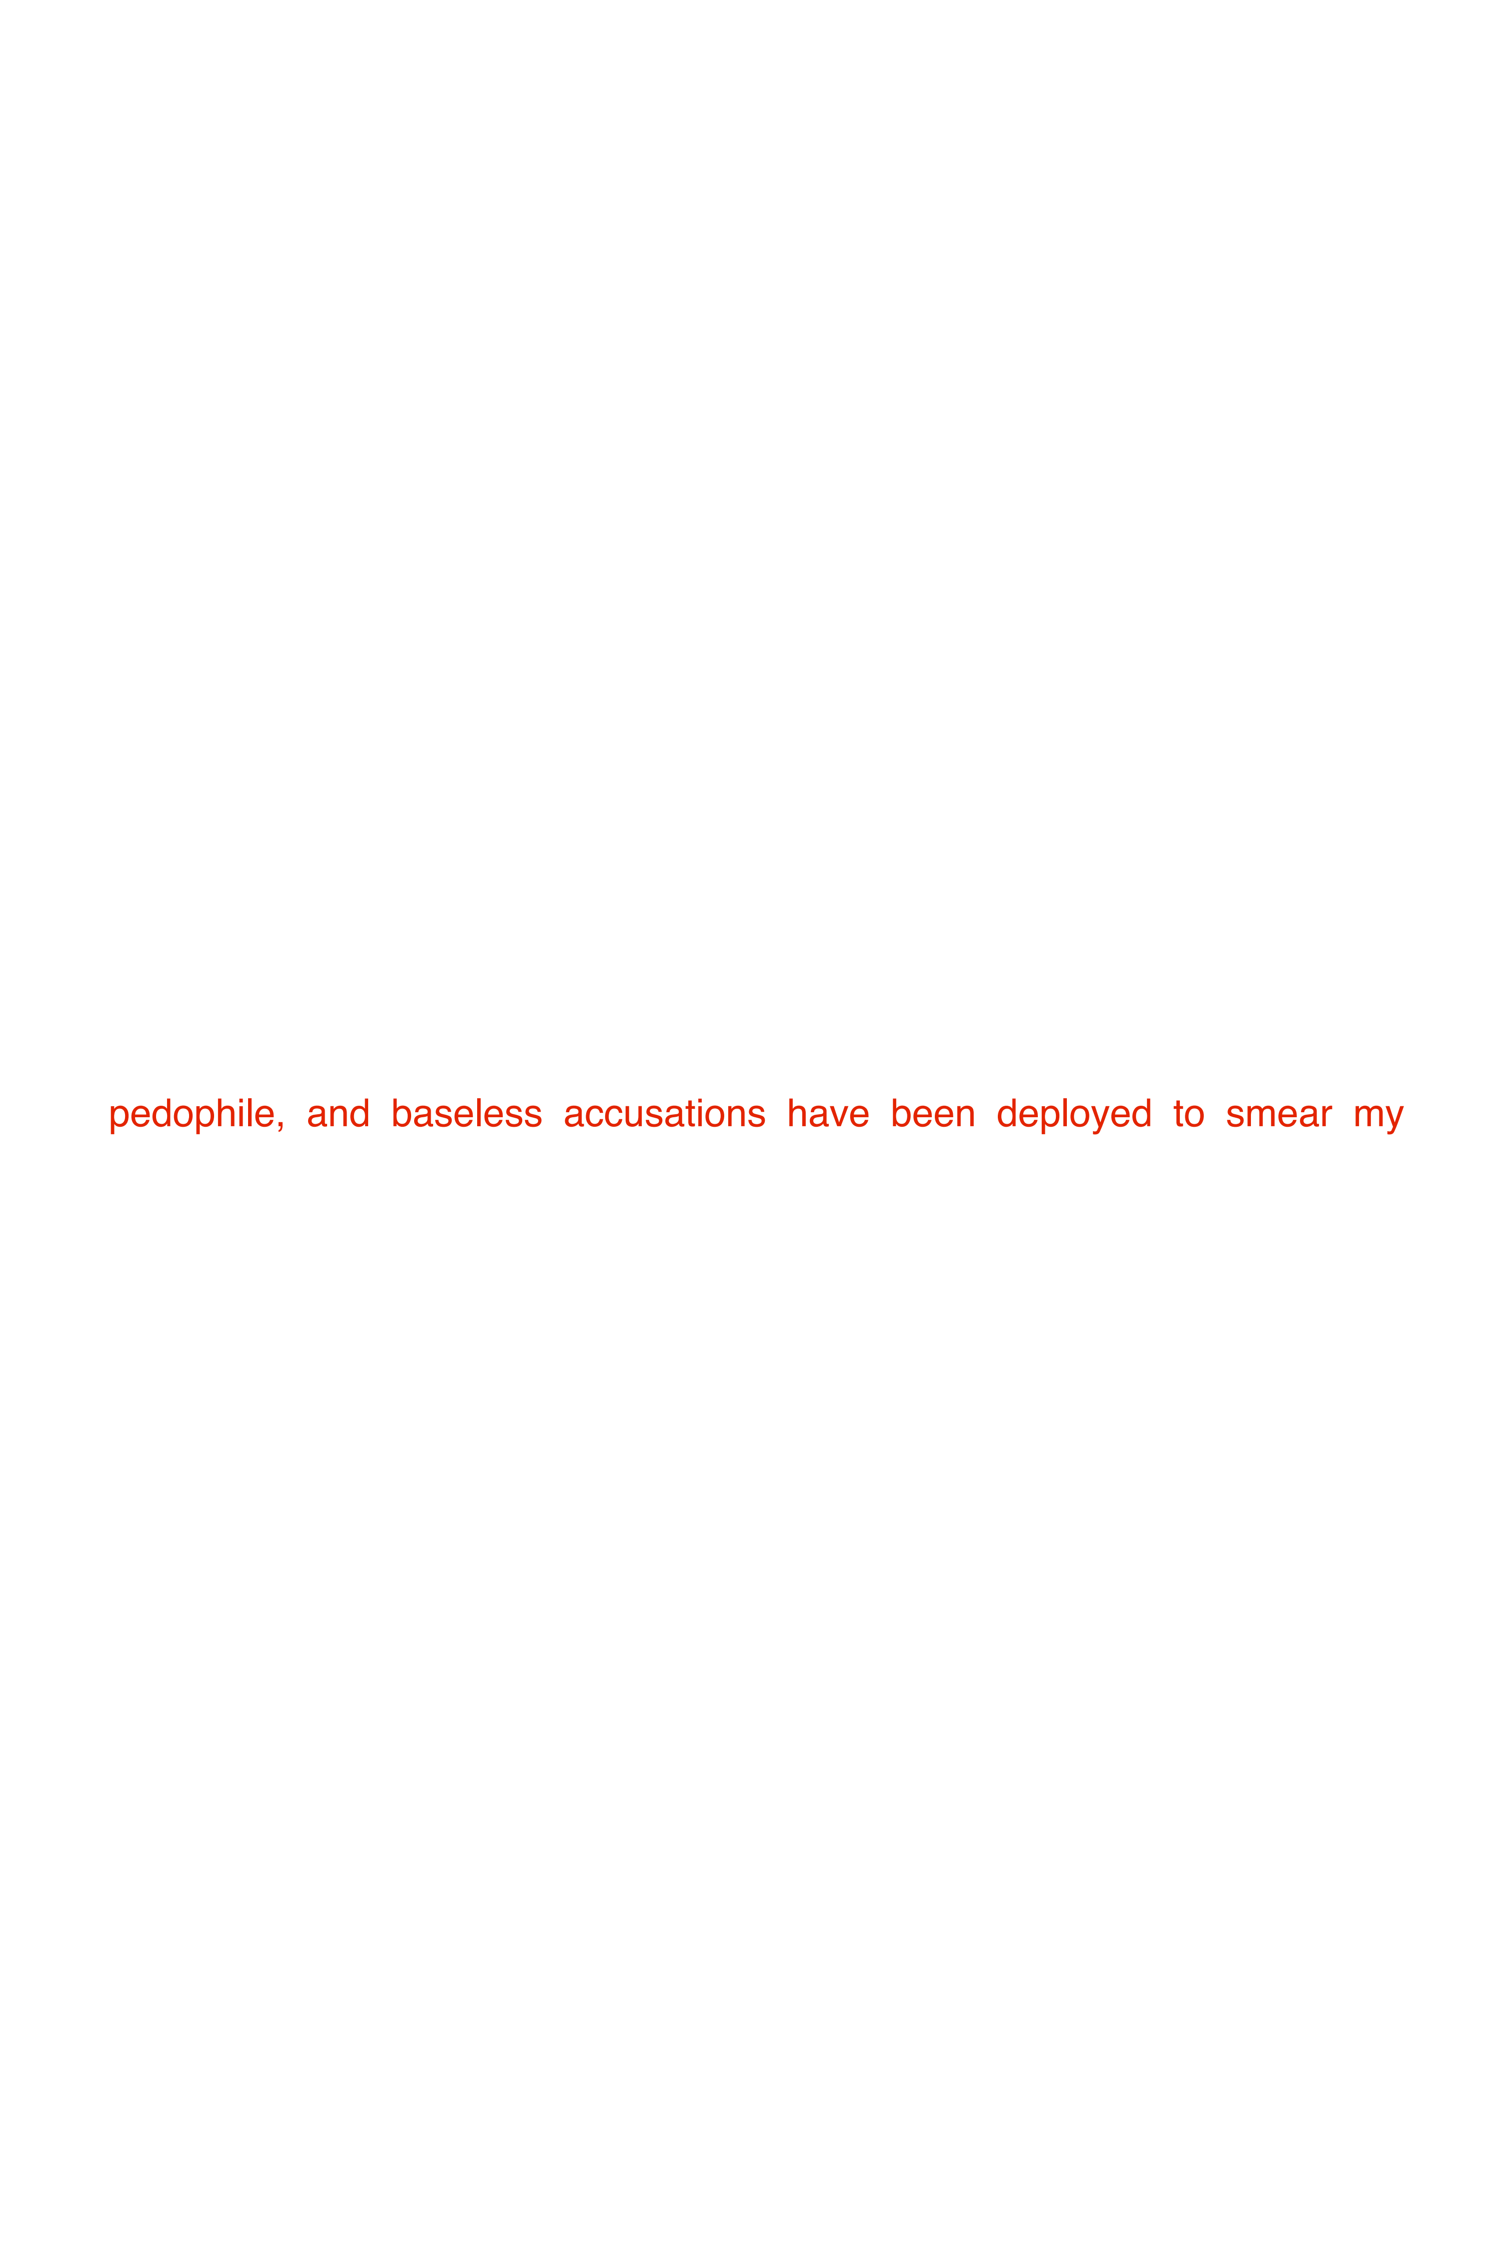

abuse, perpetuated through advanced surveillance technologies like V2K

(Voice-to-Skull) and Psy Ops and gang stalking as a targeted individual.

These covert operations have targeted my vulnerabilities, weaponizing even

my sexuality to attempt character assassination. Yet, I stand firm: I am not a

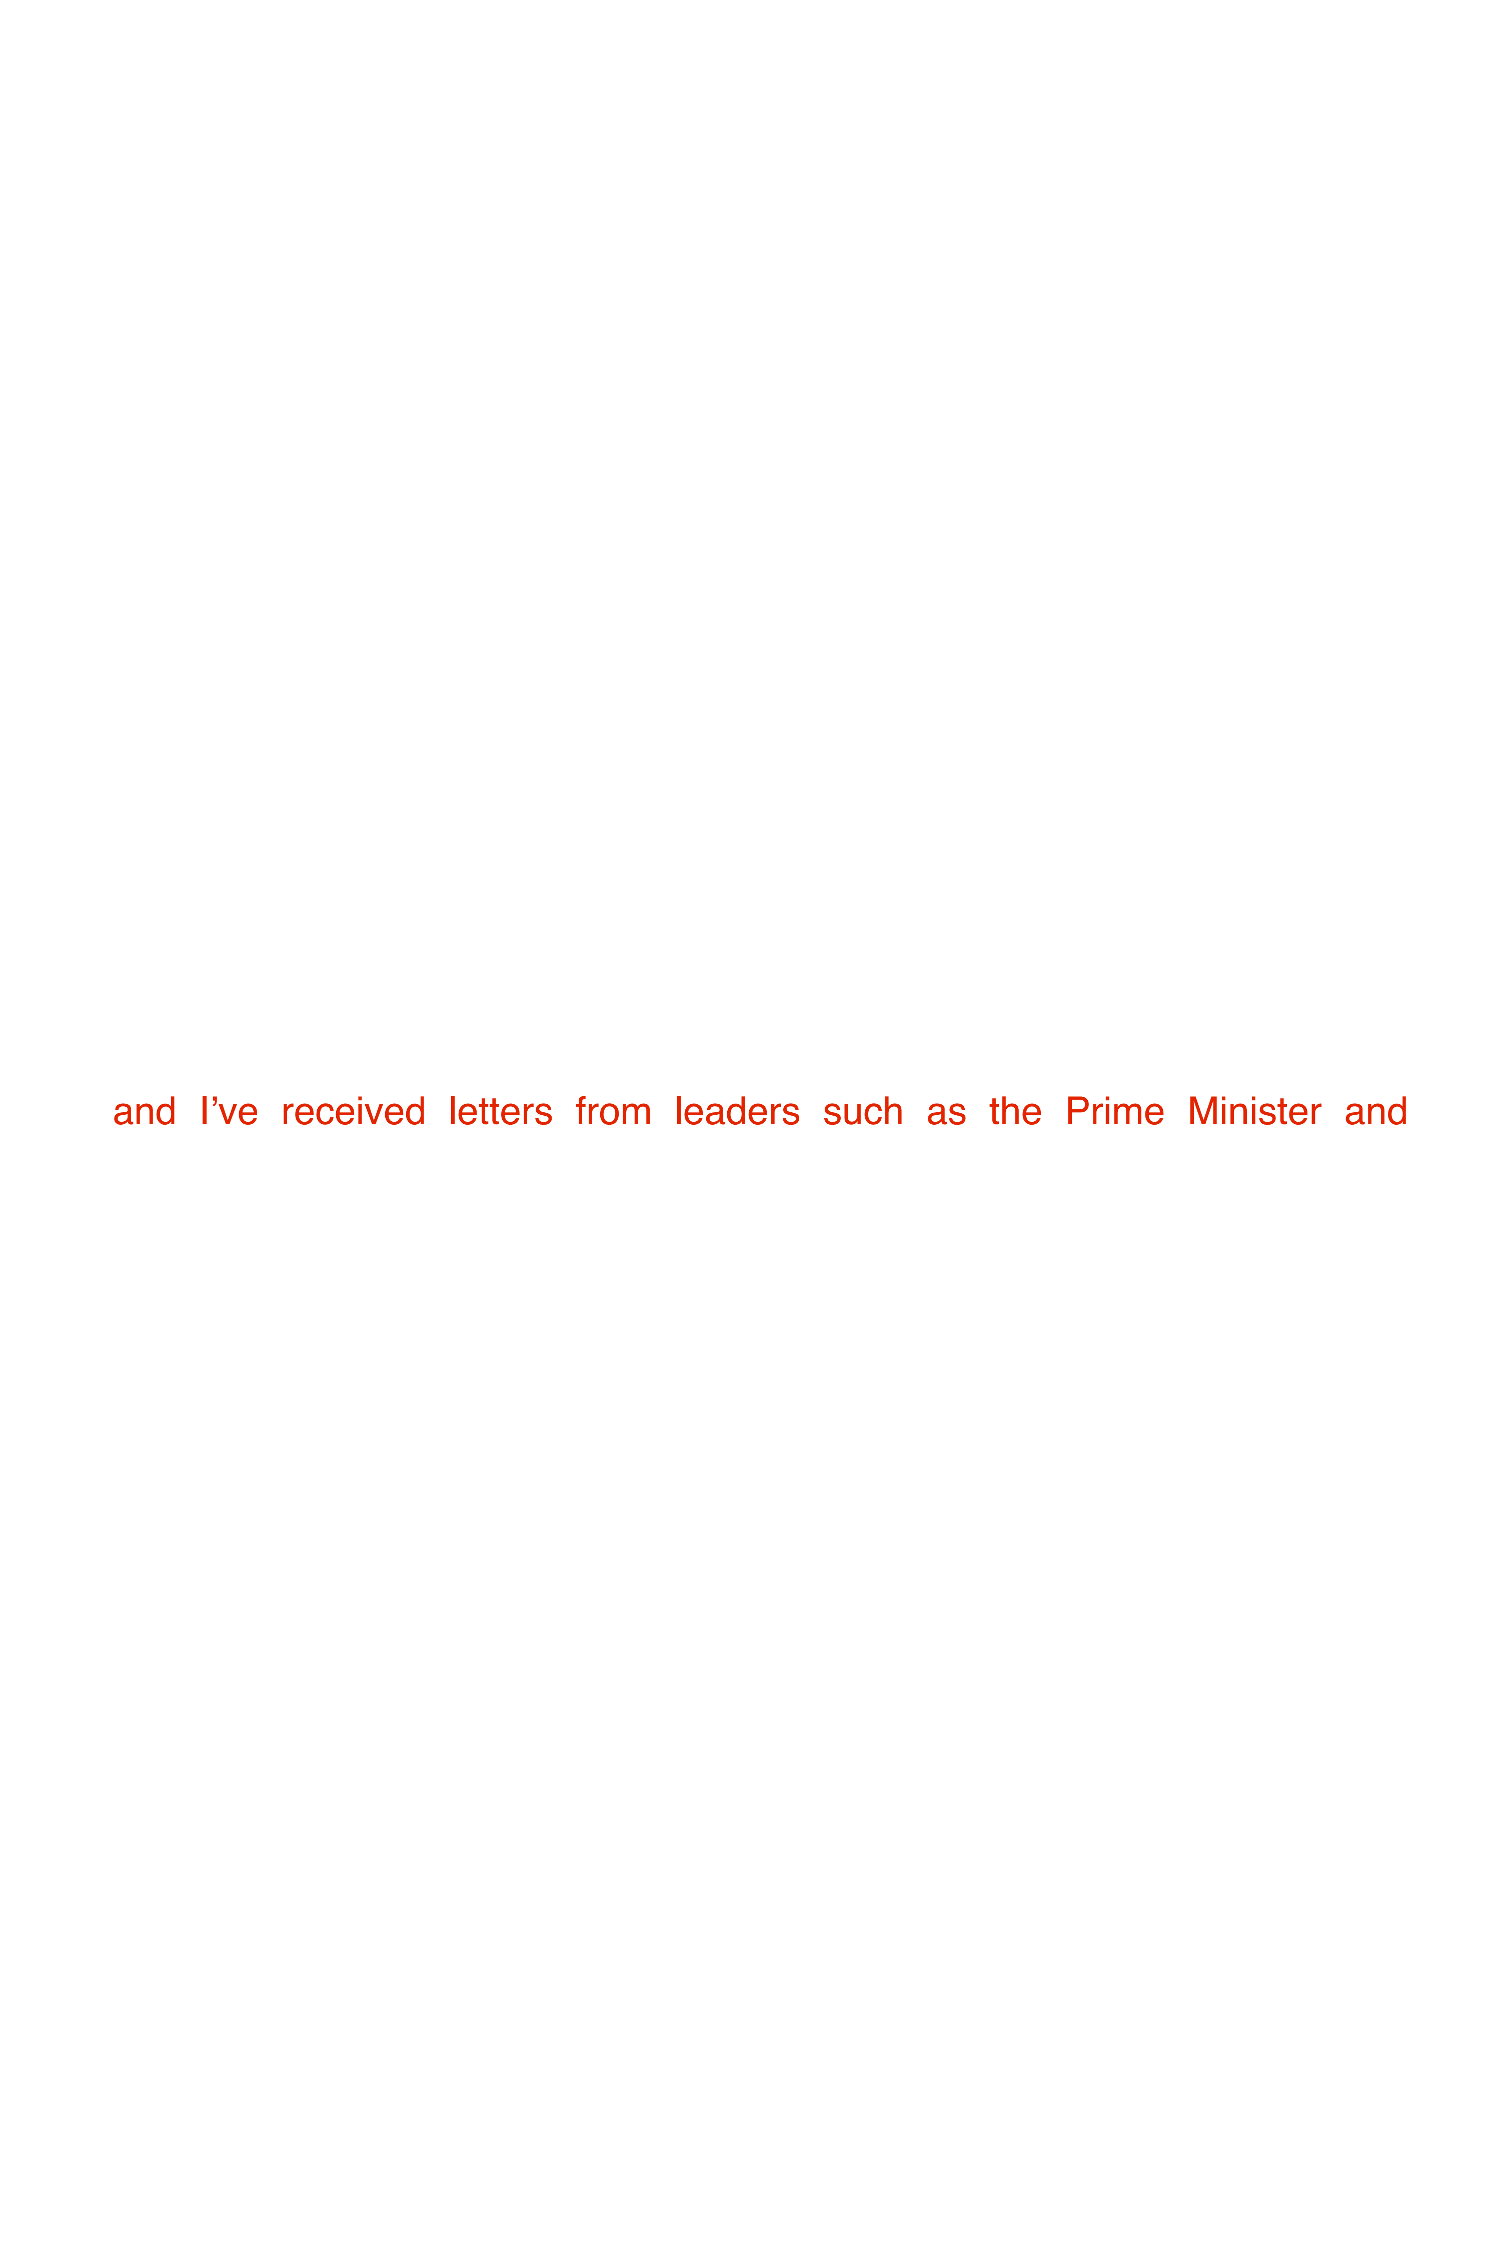

pedophile, and baseless accusations have been deployed to smear my

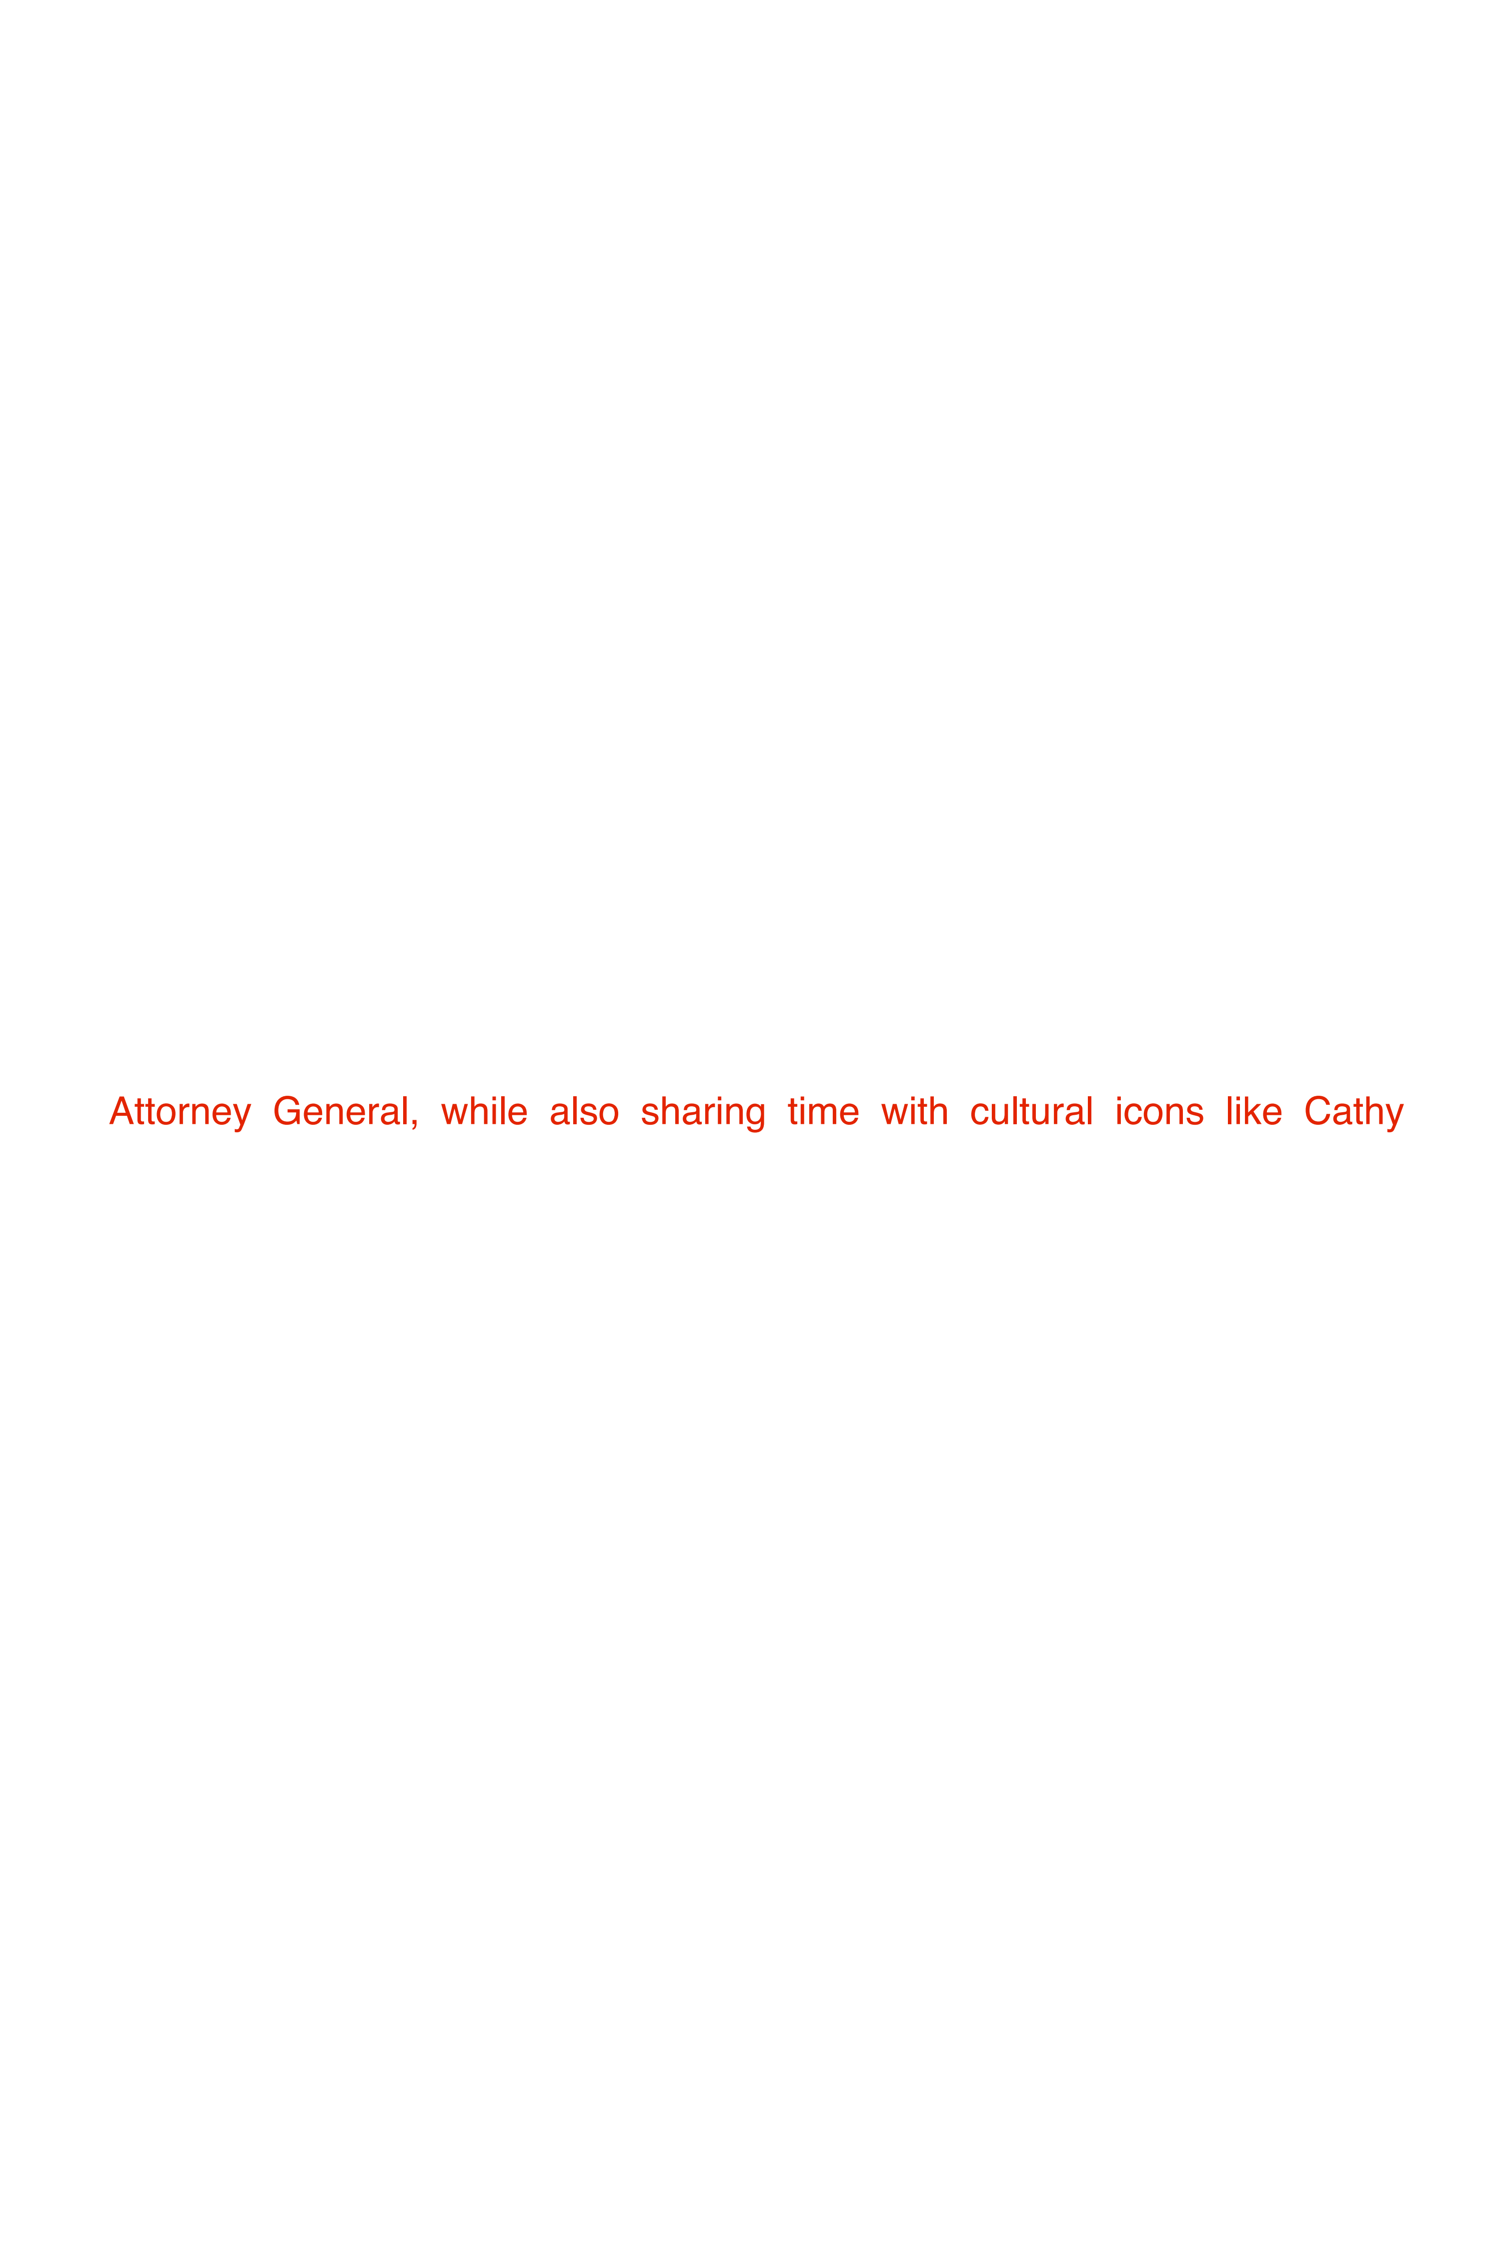

reputation, undermining my tireless advocacy for human rights and I have

been a campaigner for thirty years.

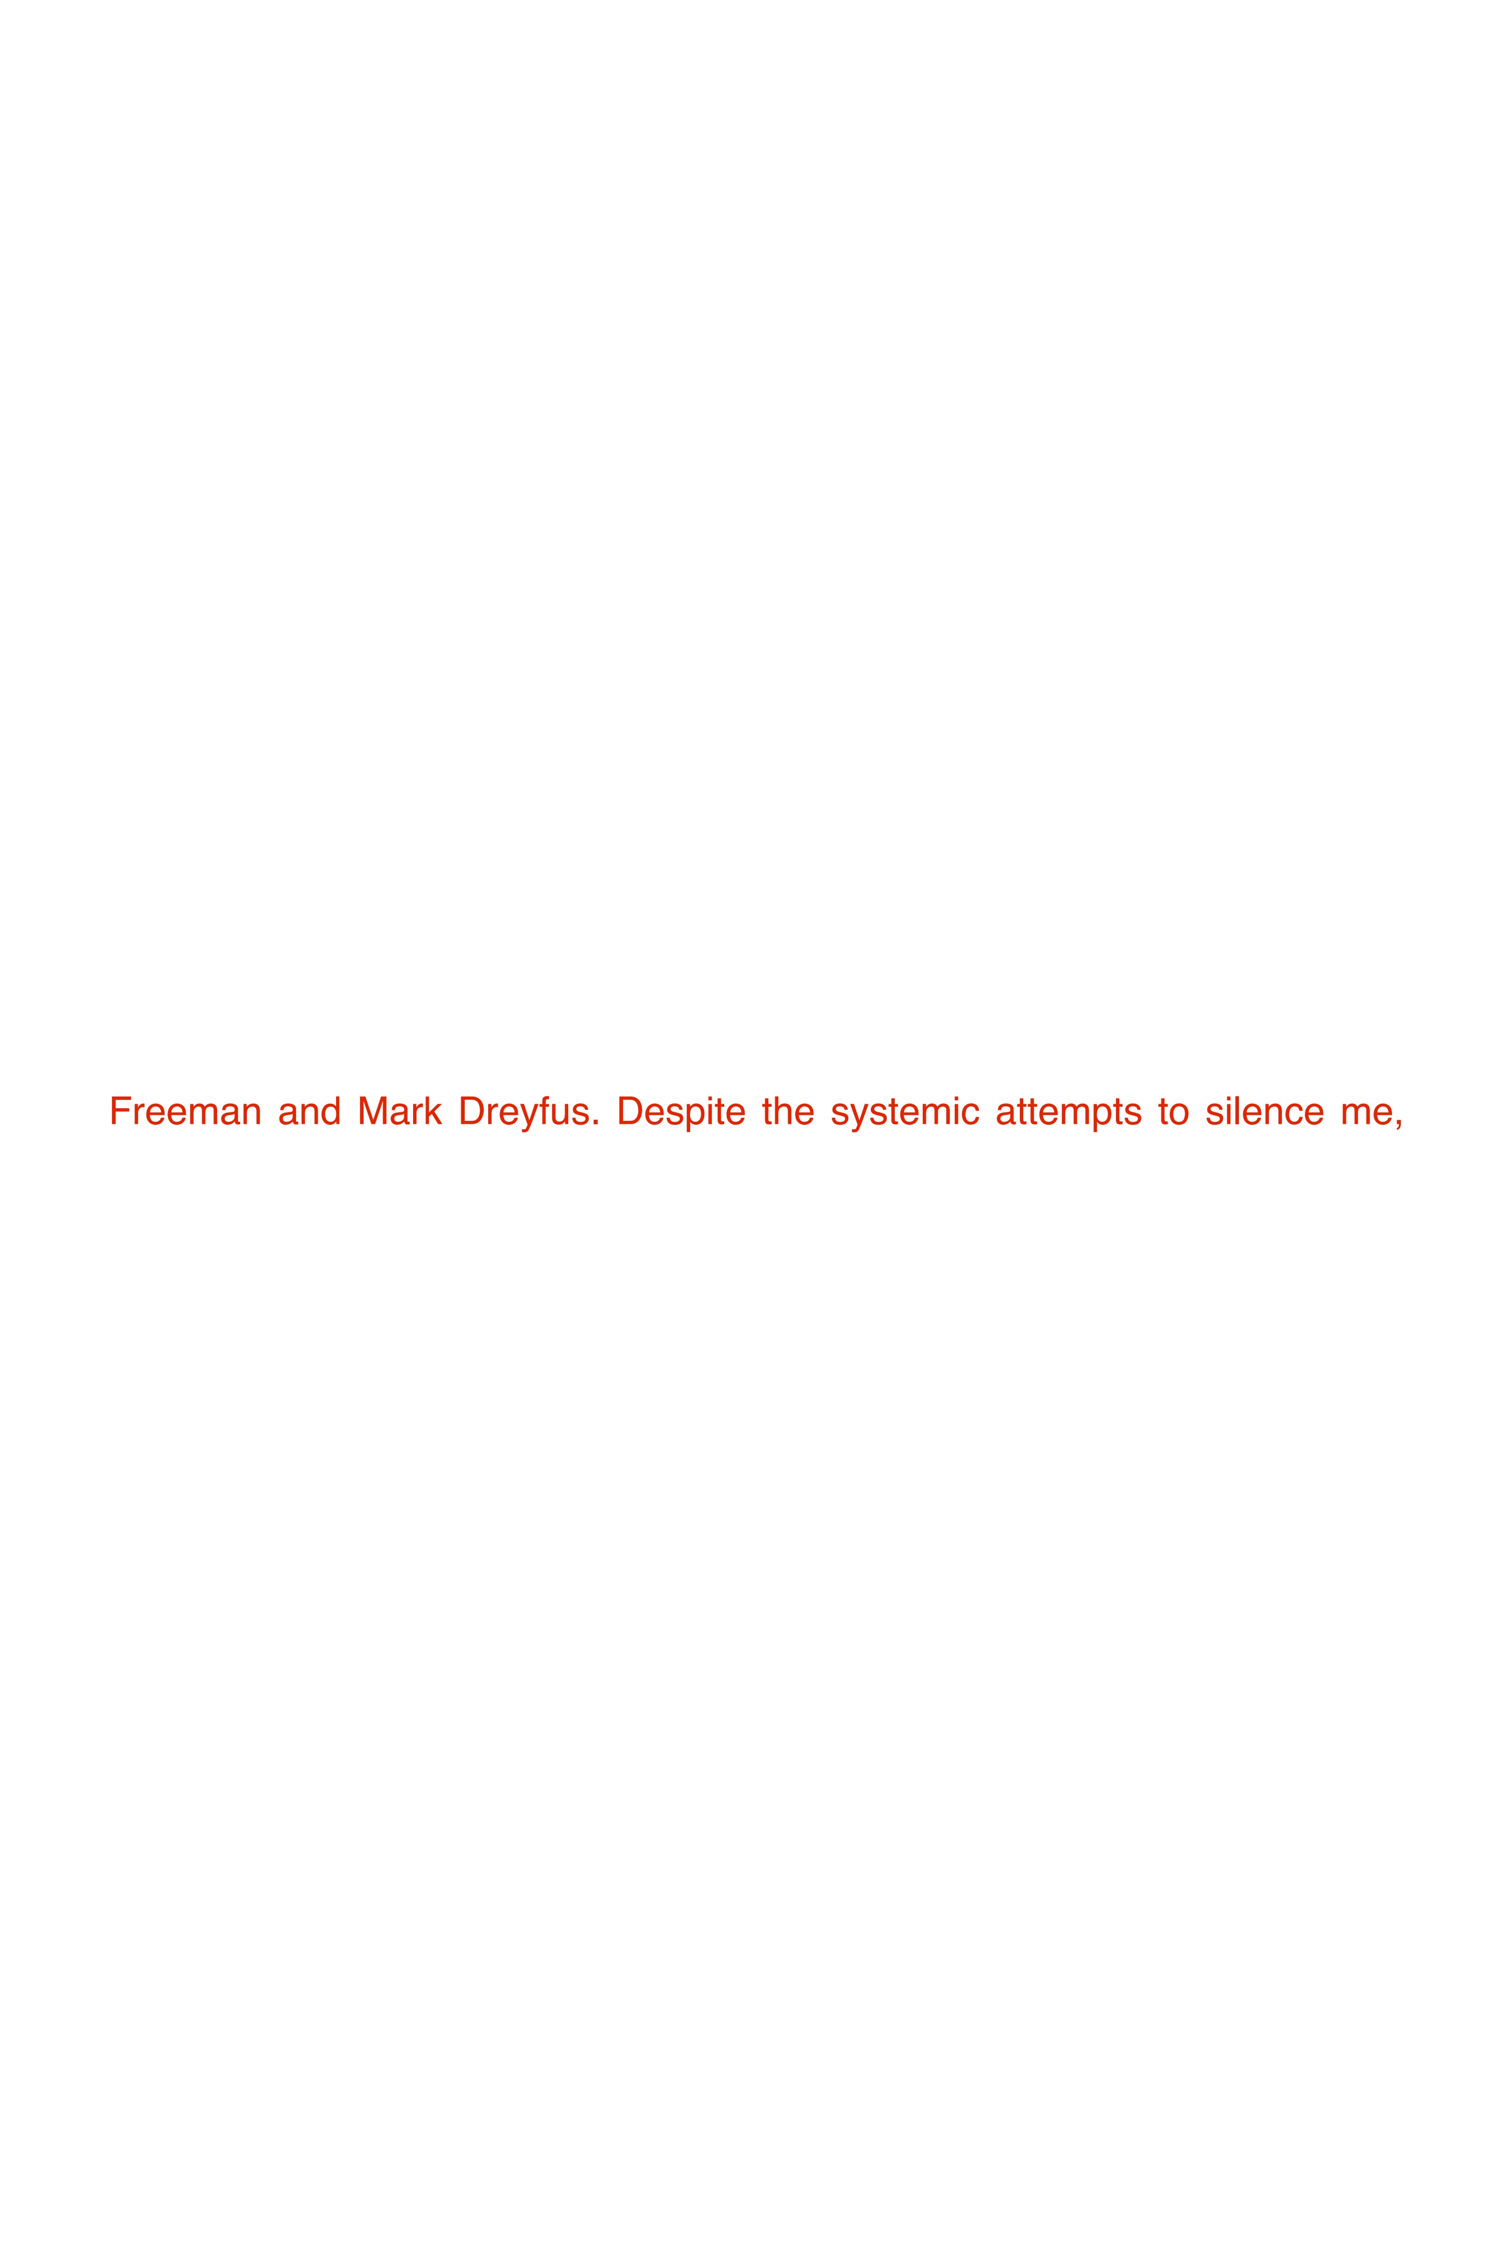

I have spoken in parliament, appeared on radio and television, and

exhibited my art across the world. A documentary was made about my life,

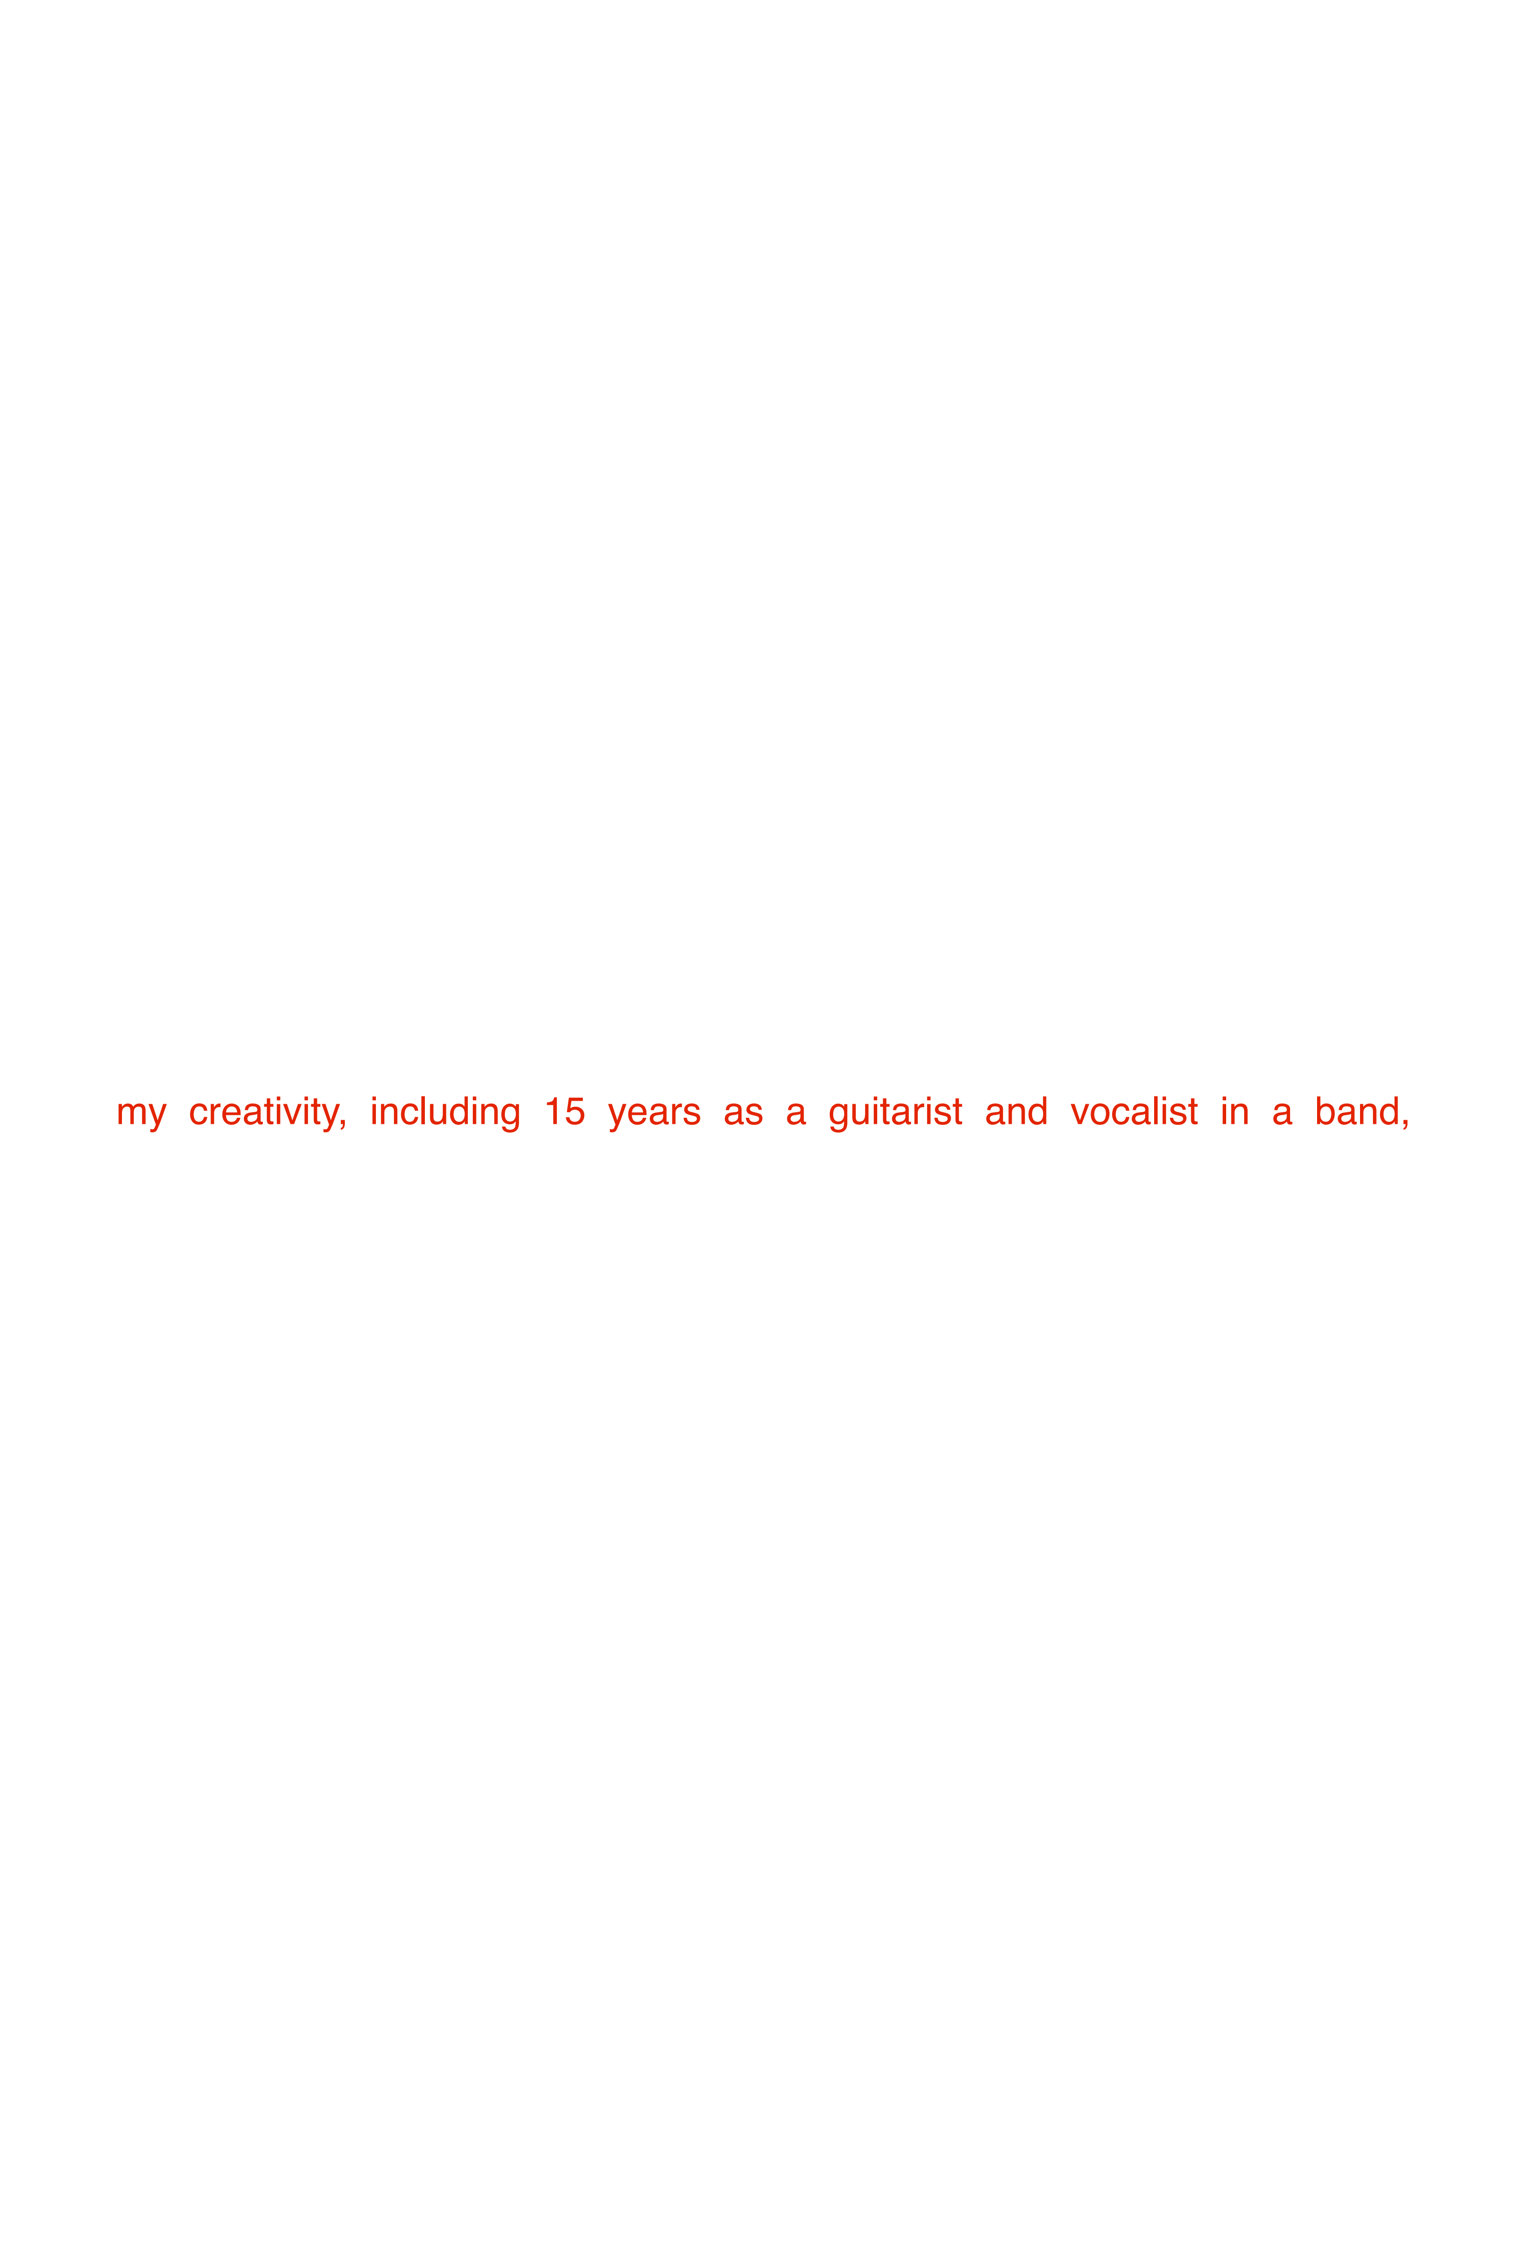

and I’ve received letters from leaders such as the Prime Minister and

Attorney General, while also sharing time with cultural icons like Cathy

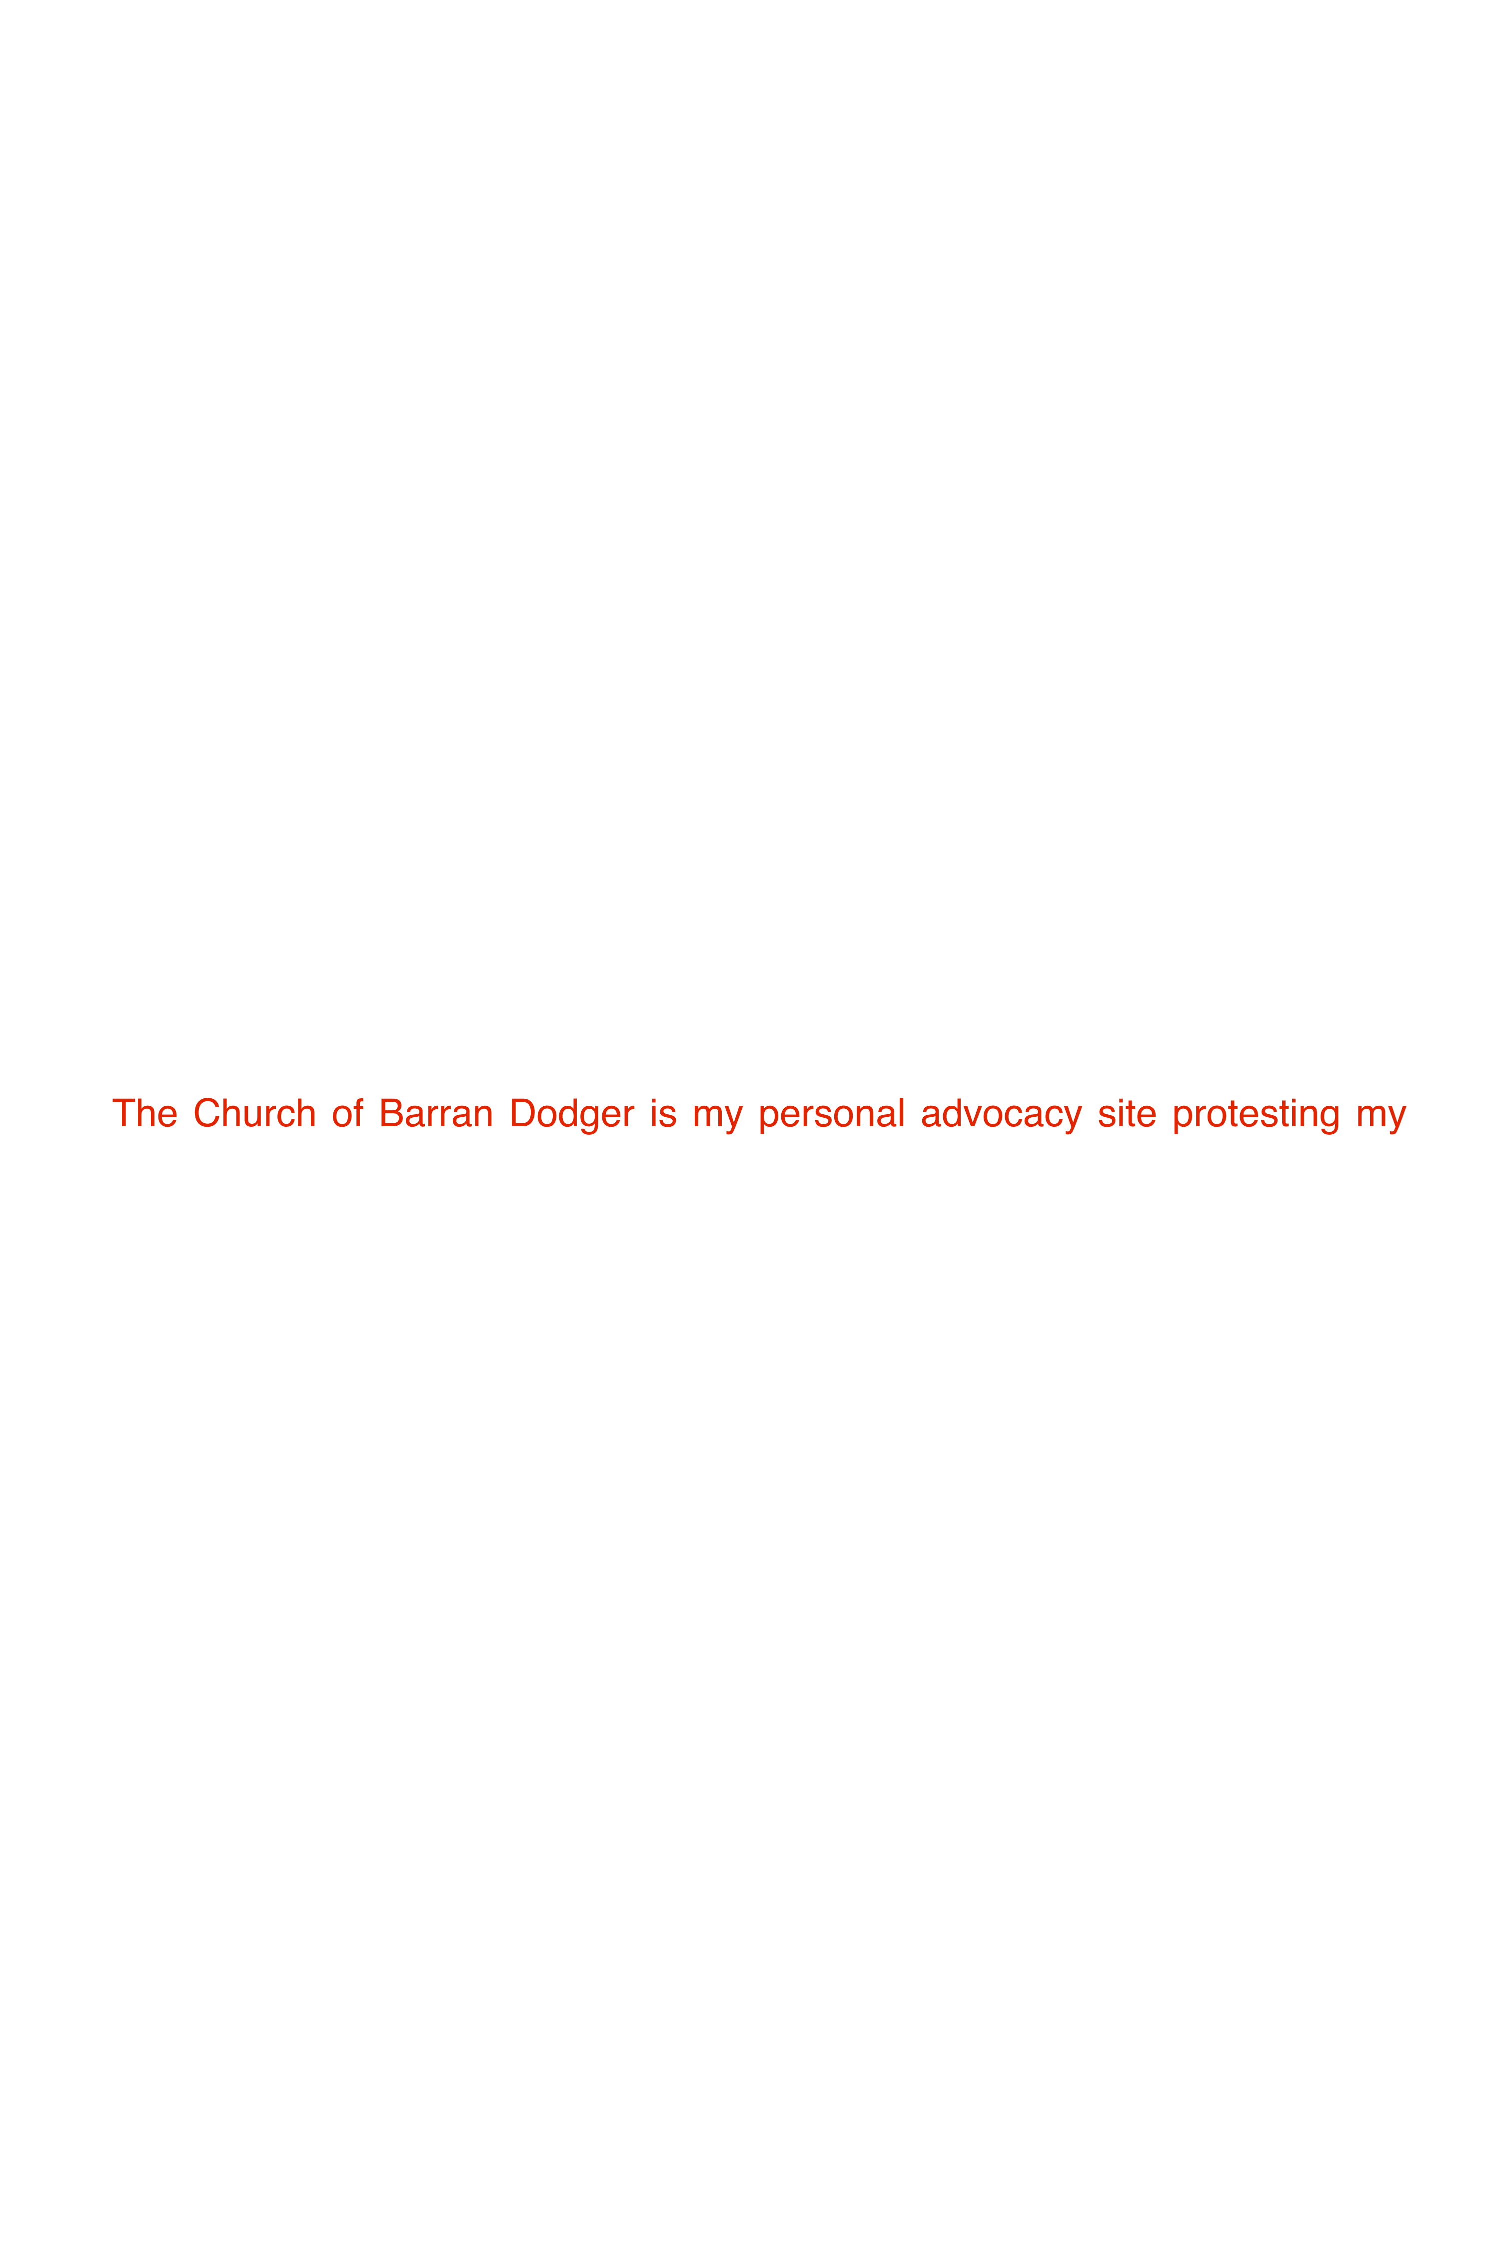

Freeman and Mark Dreyfus. Despite the systemic attempts to silence me,

my creativity, including 15 years as a guitarist and vocalist in a band,

remains a testament to the resilience of the human spirit.

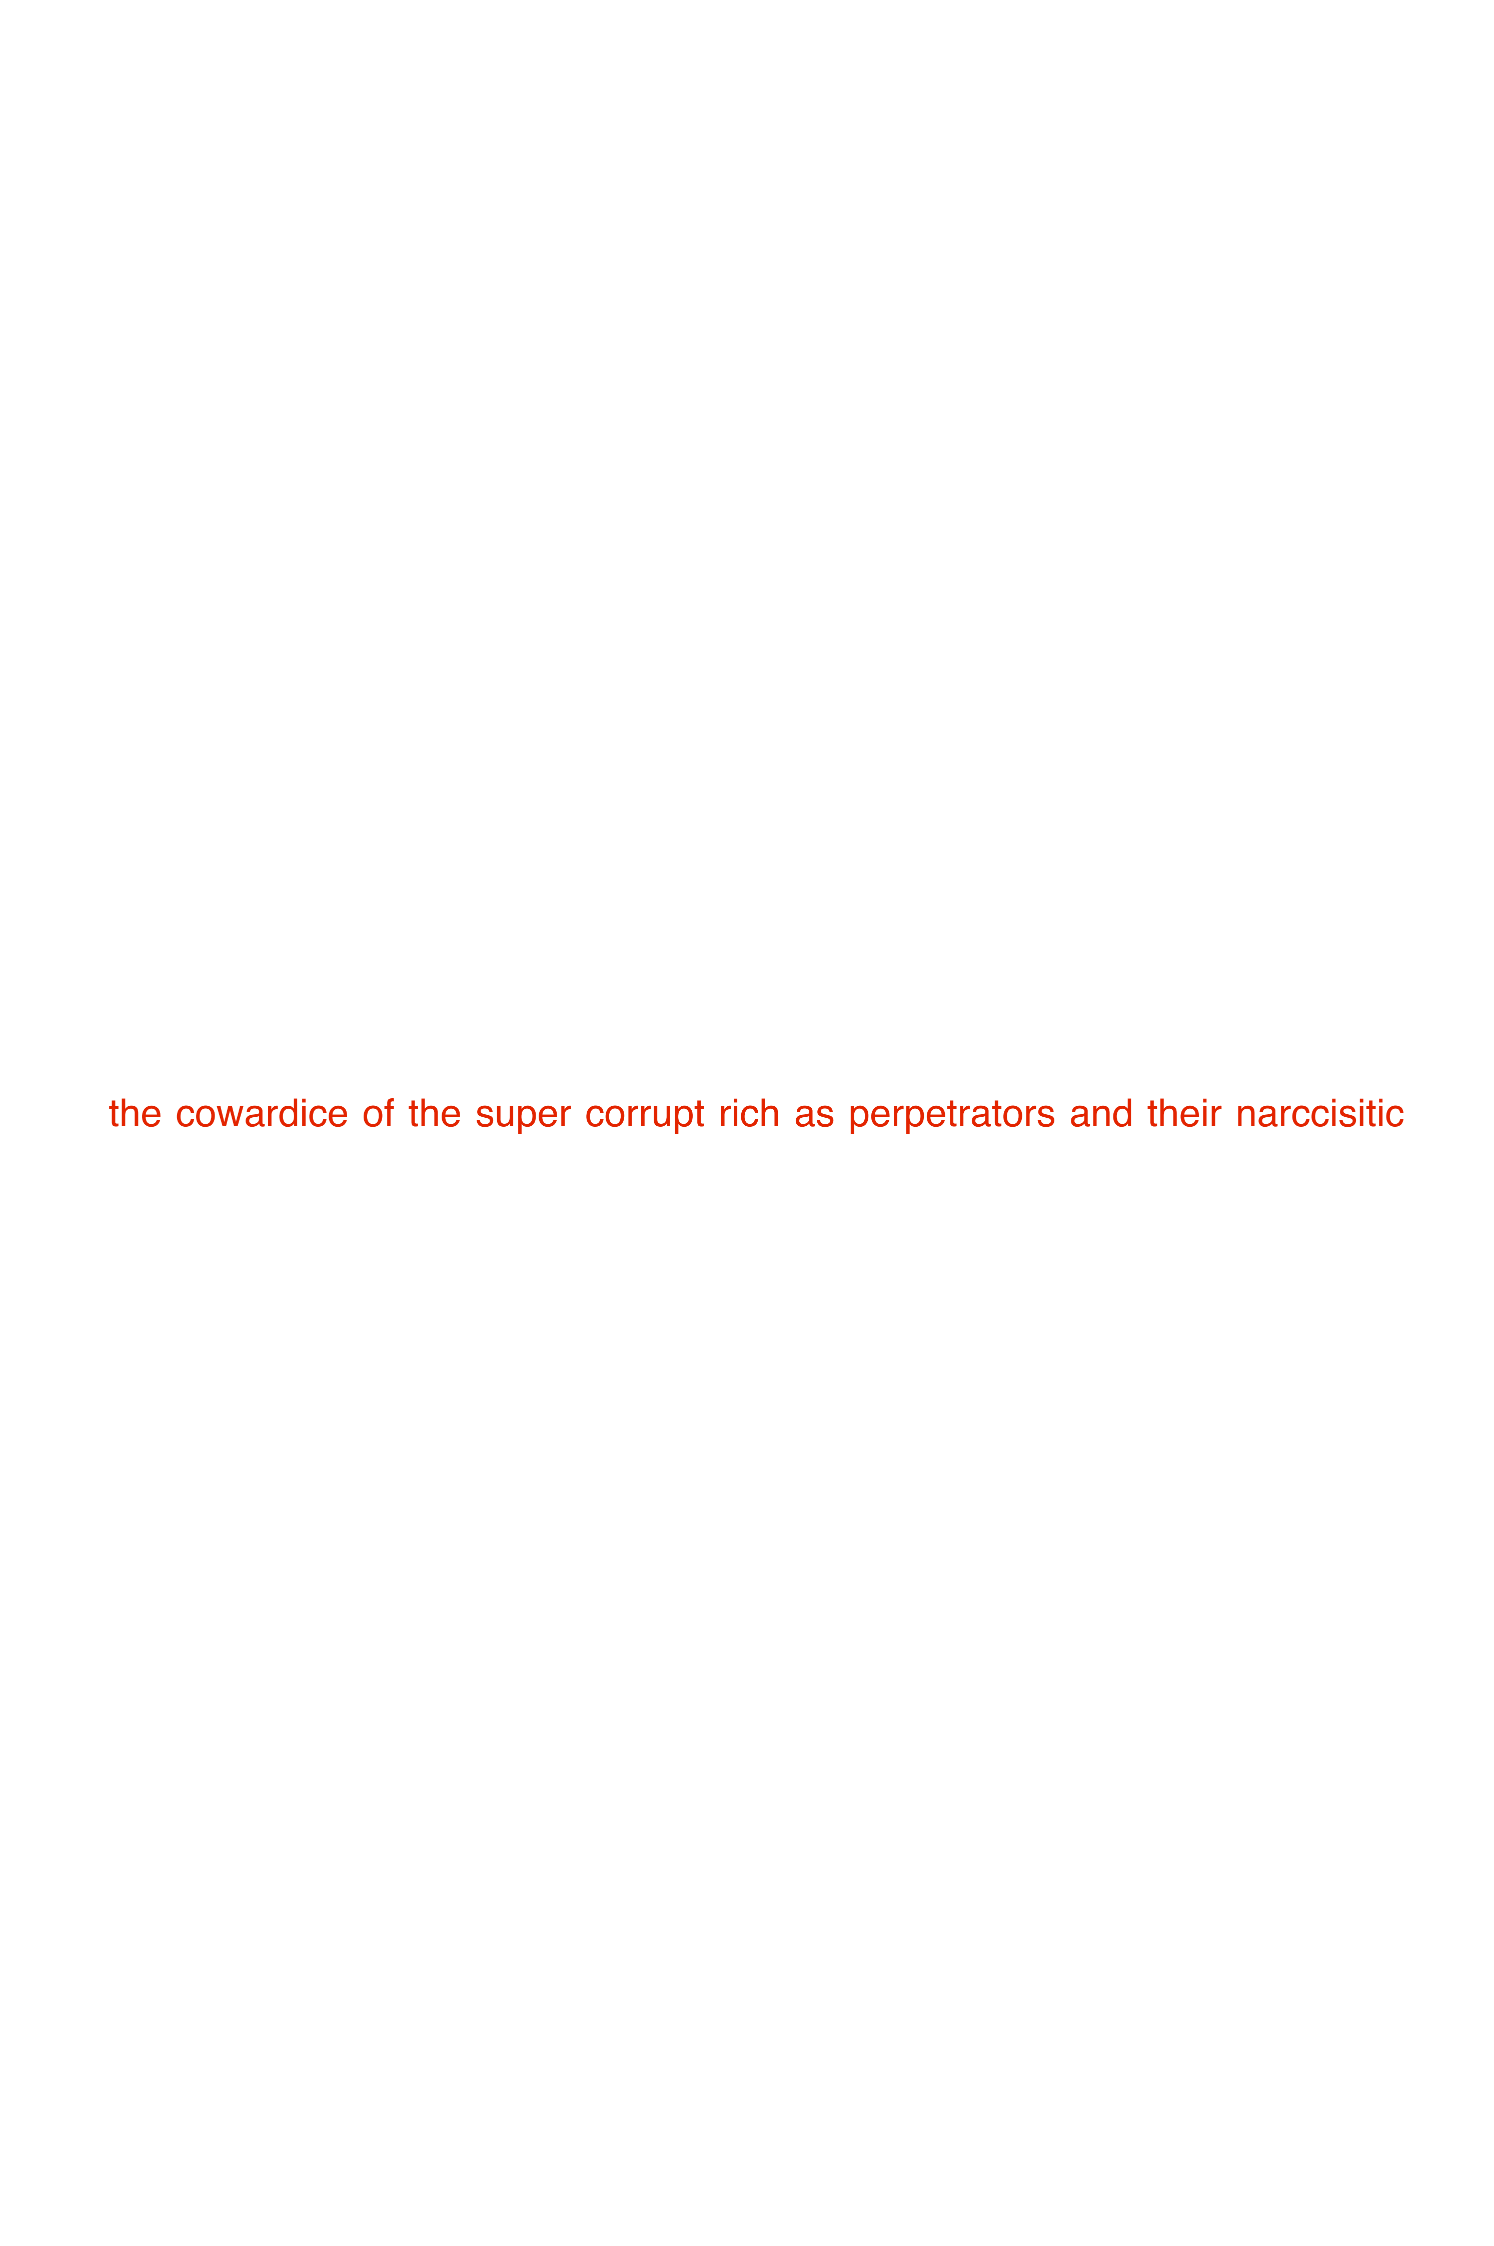

The Church of Barran Dodger is my personal advocacy site protesting my

homelessness and shining a light on my perpetrators and a beacon for

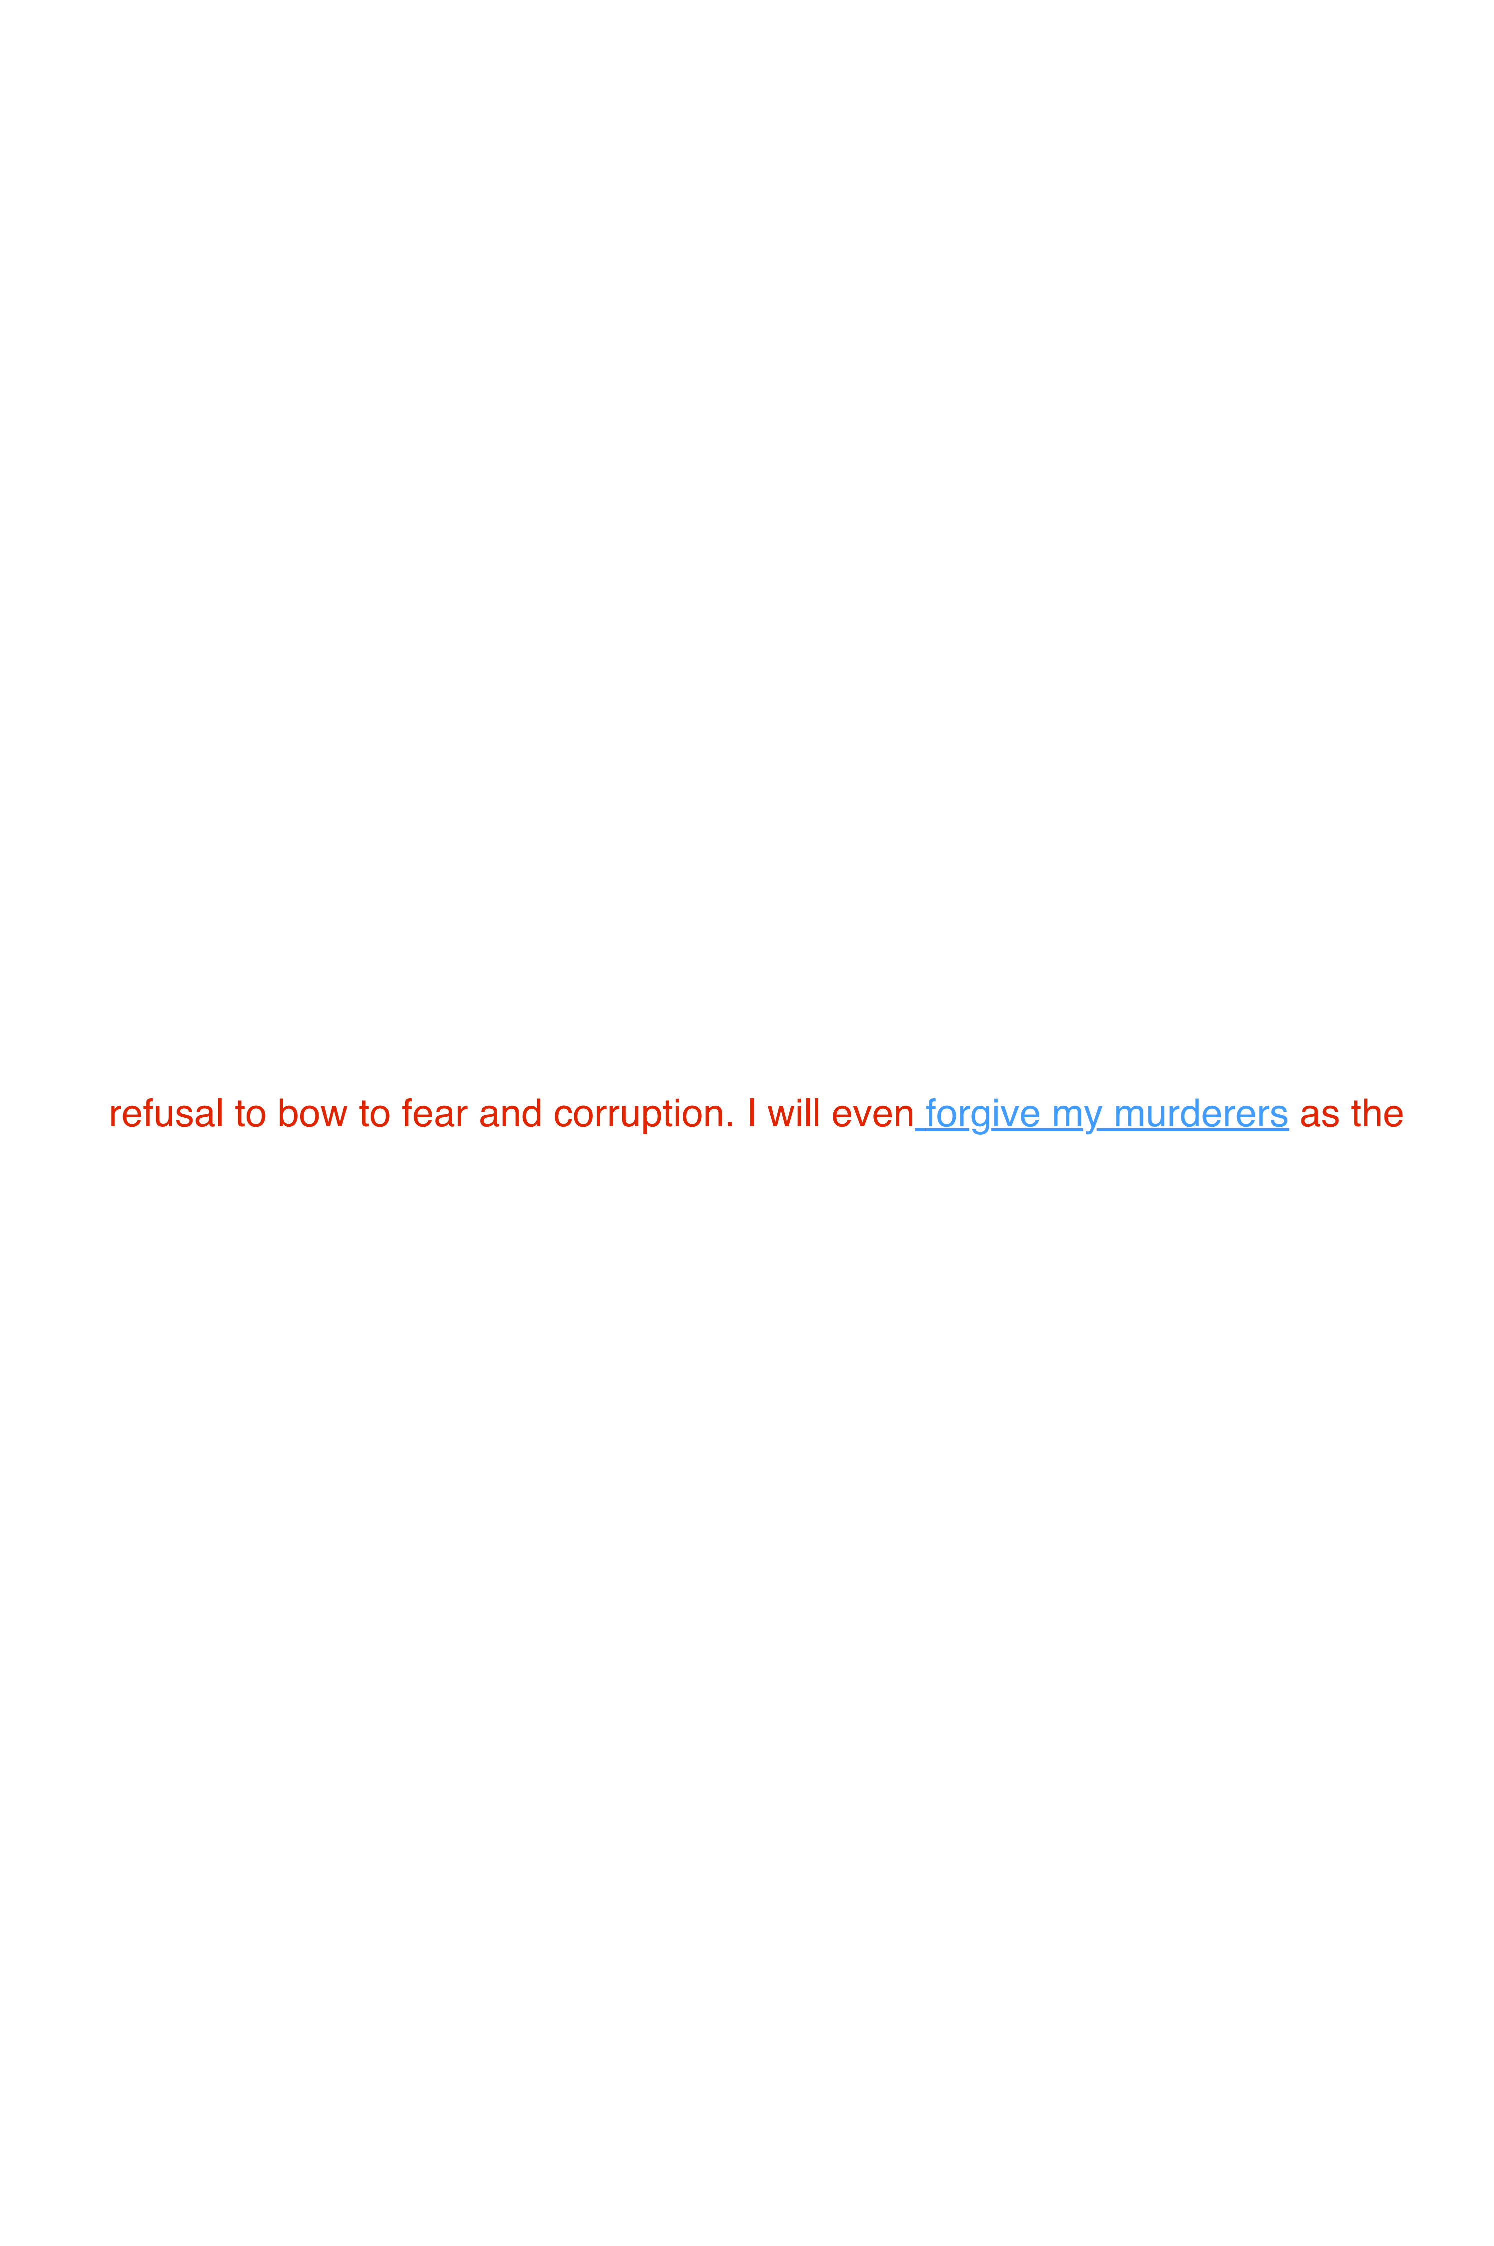

those who have been marginalized, betrayed, and targeted. Let's not be

'targeted individuals' anymore in isolation etc build a collective and outshine

the cowardice of the super corrupt rich as perpetrators and their narccisitic

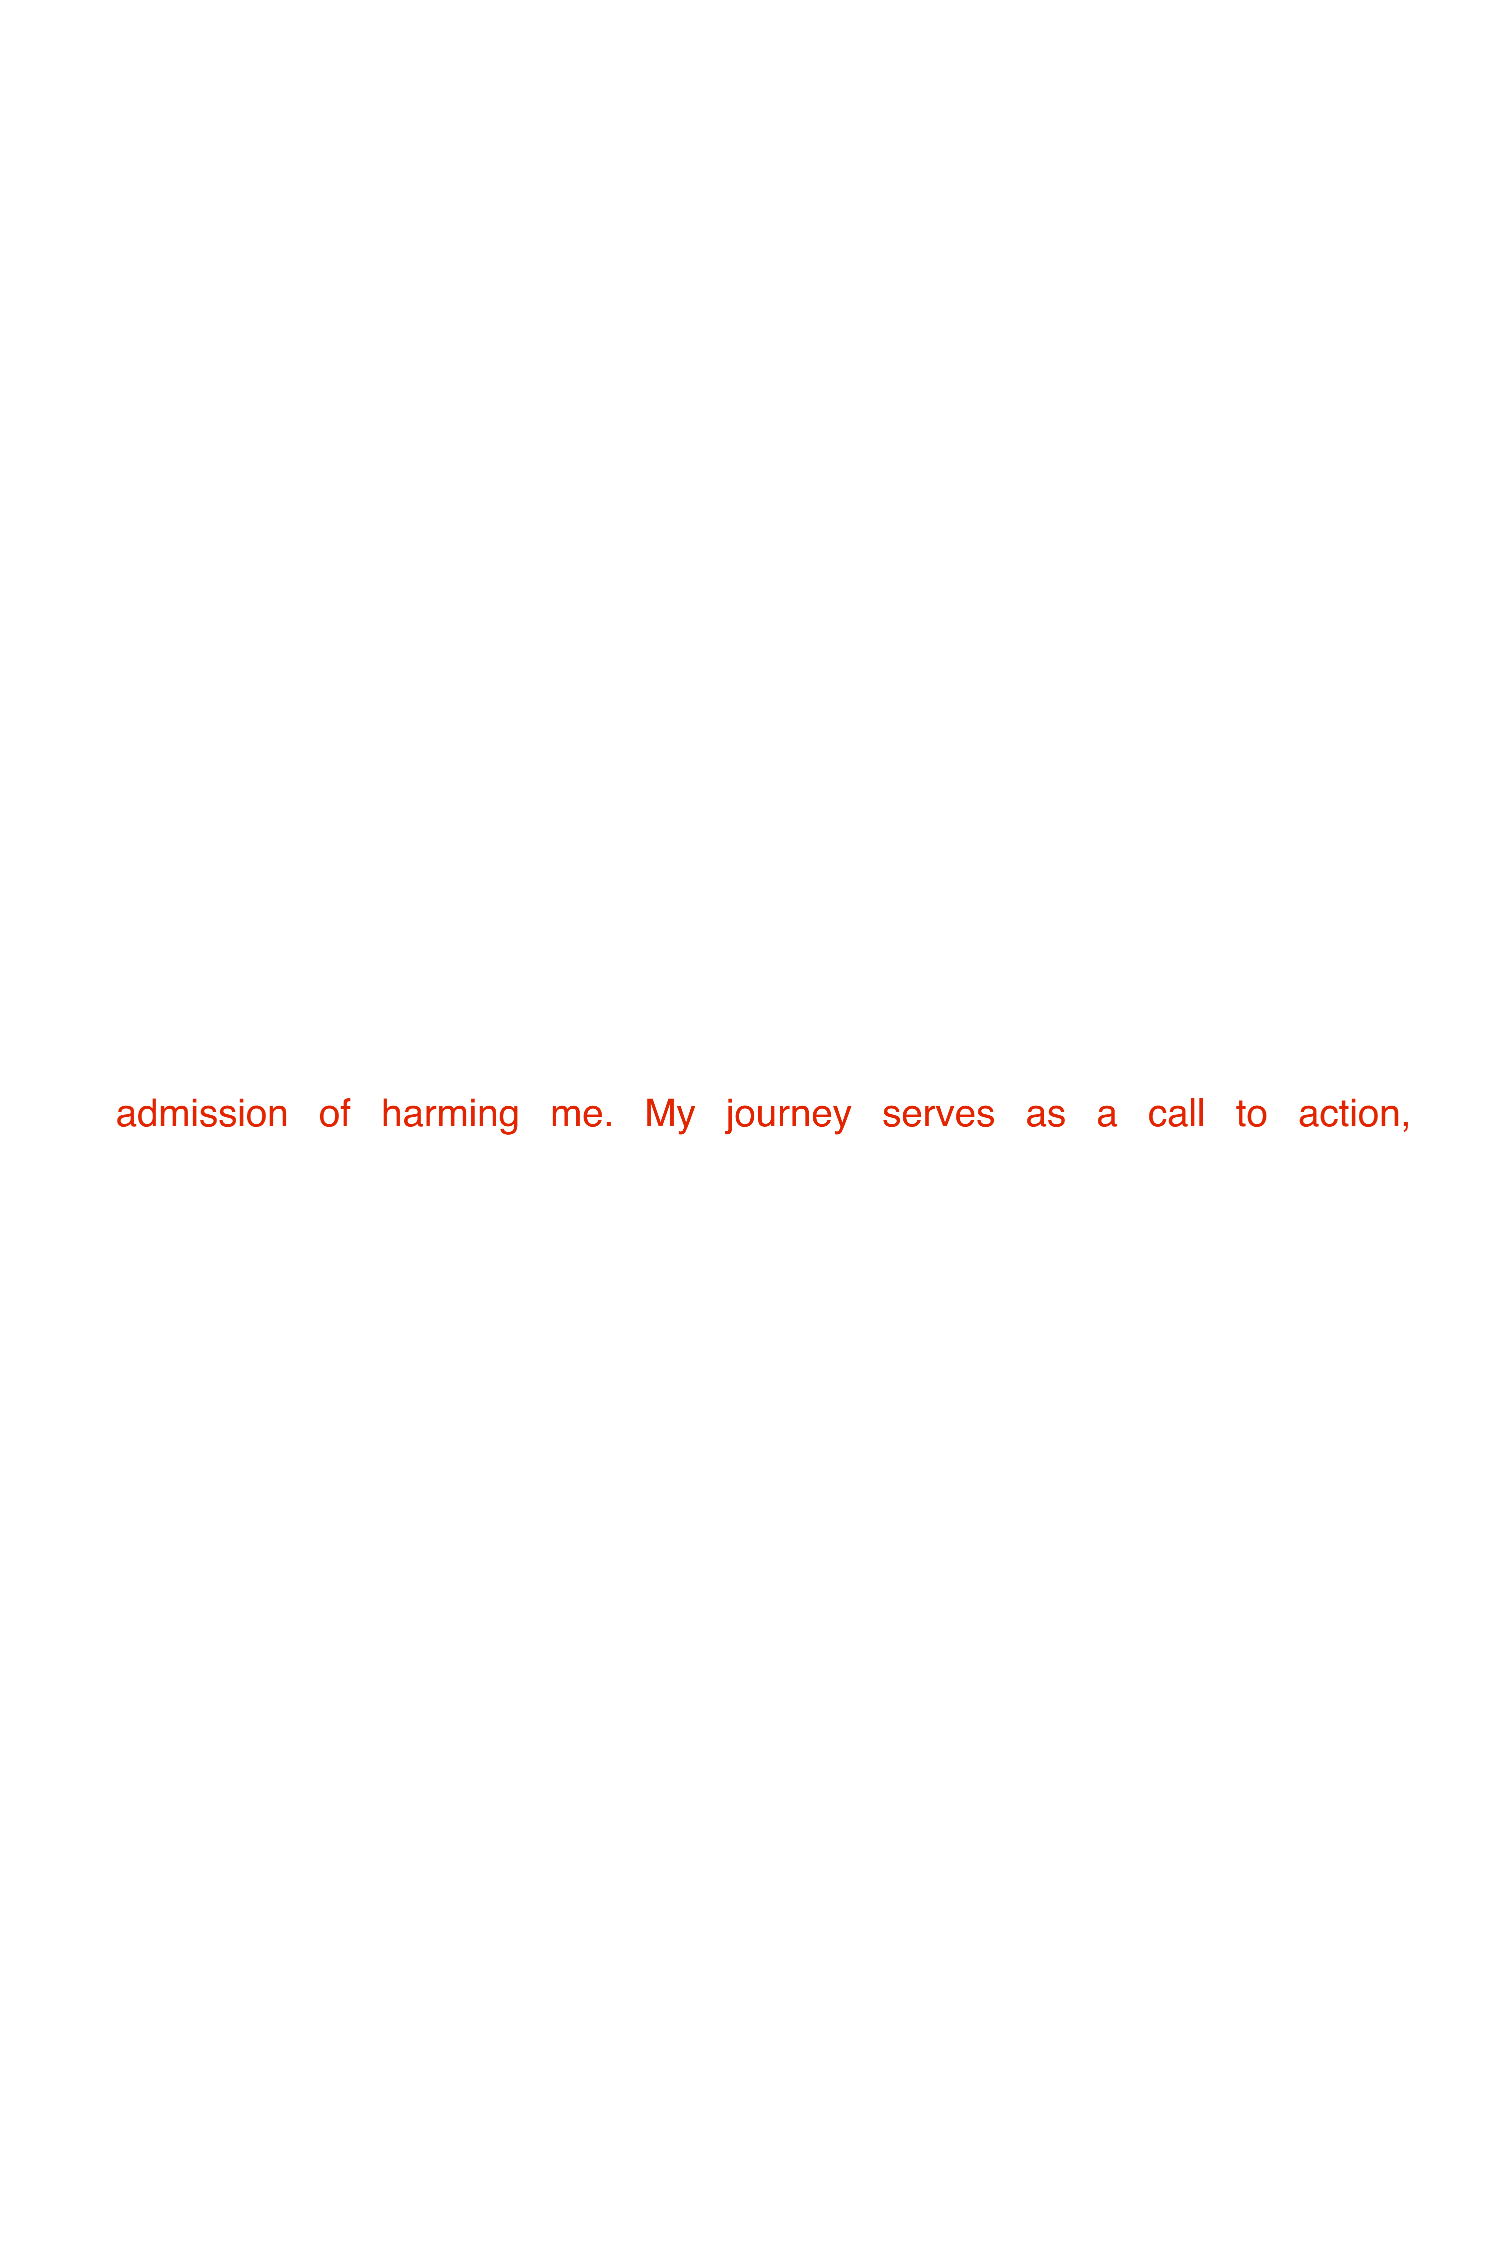

followers. It is built on forgiveness and the indomitable pursuit of justice—a

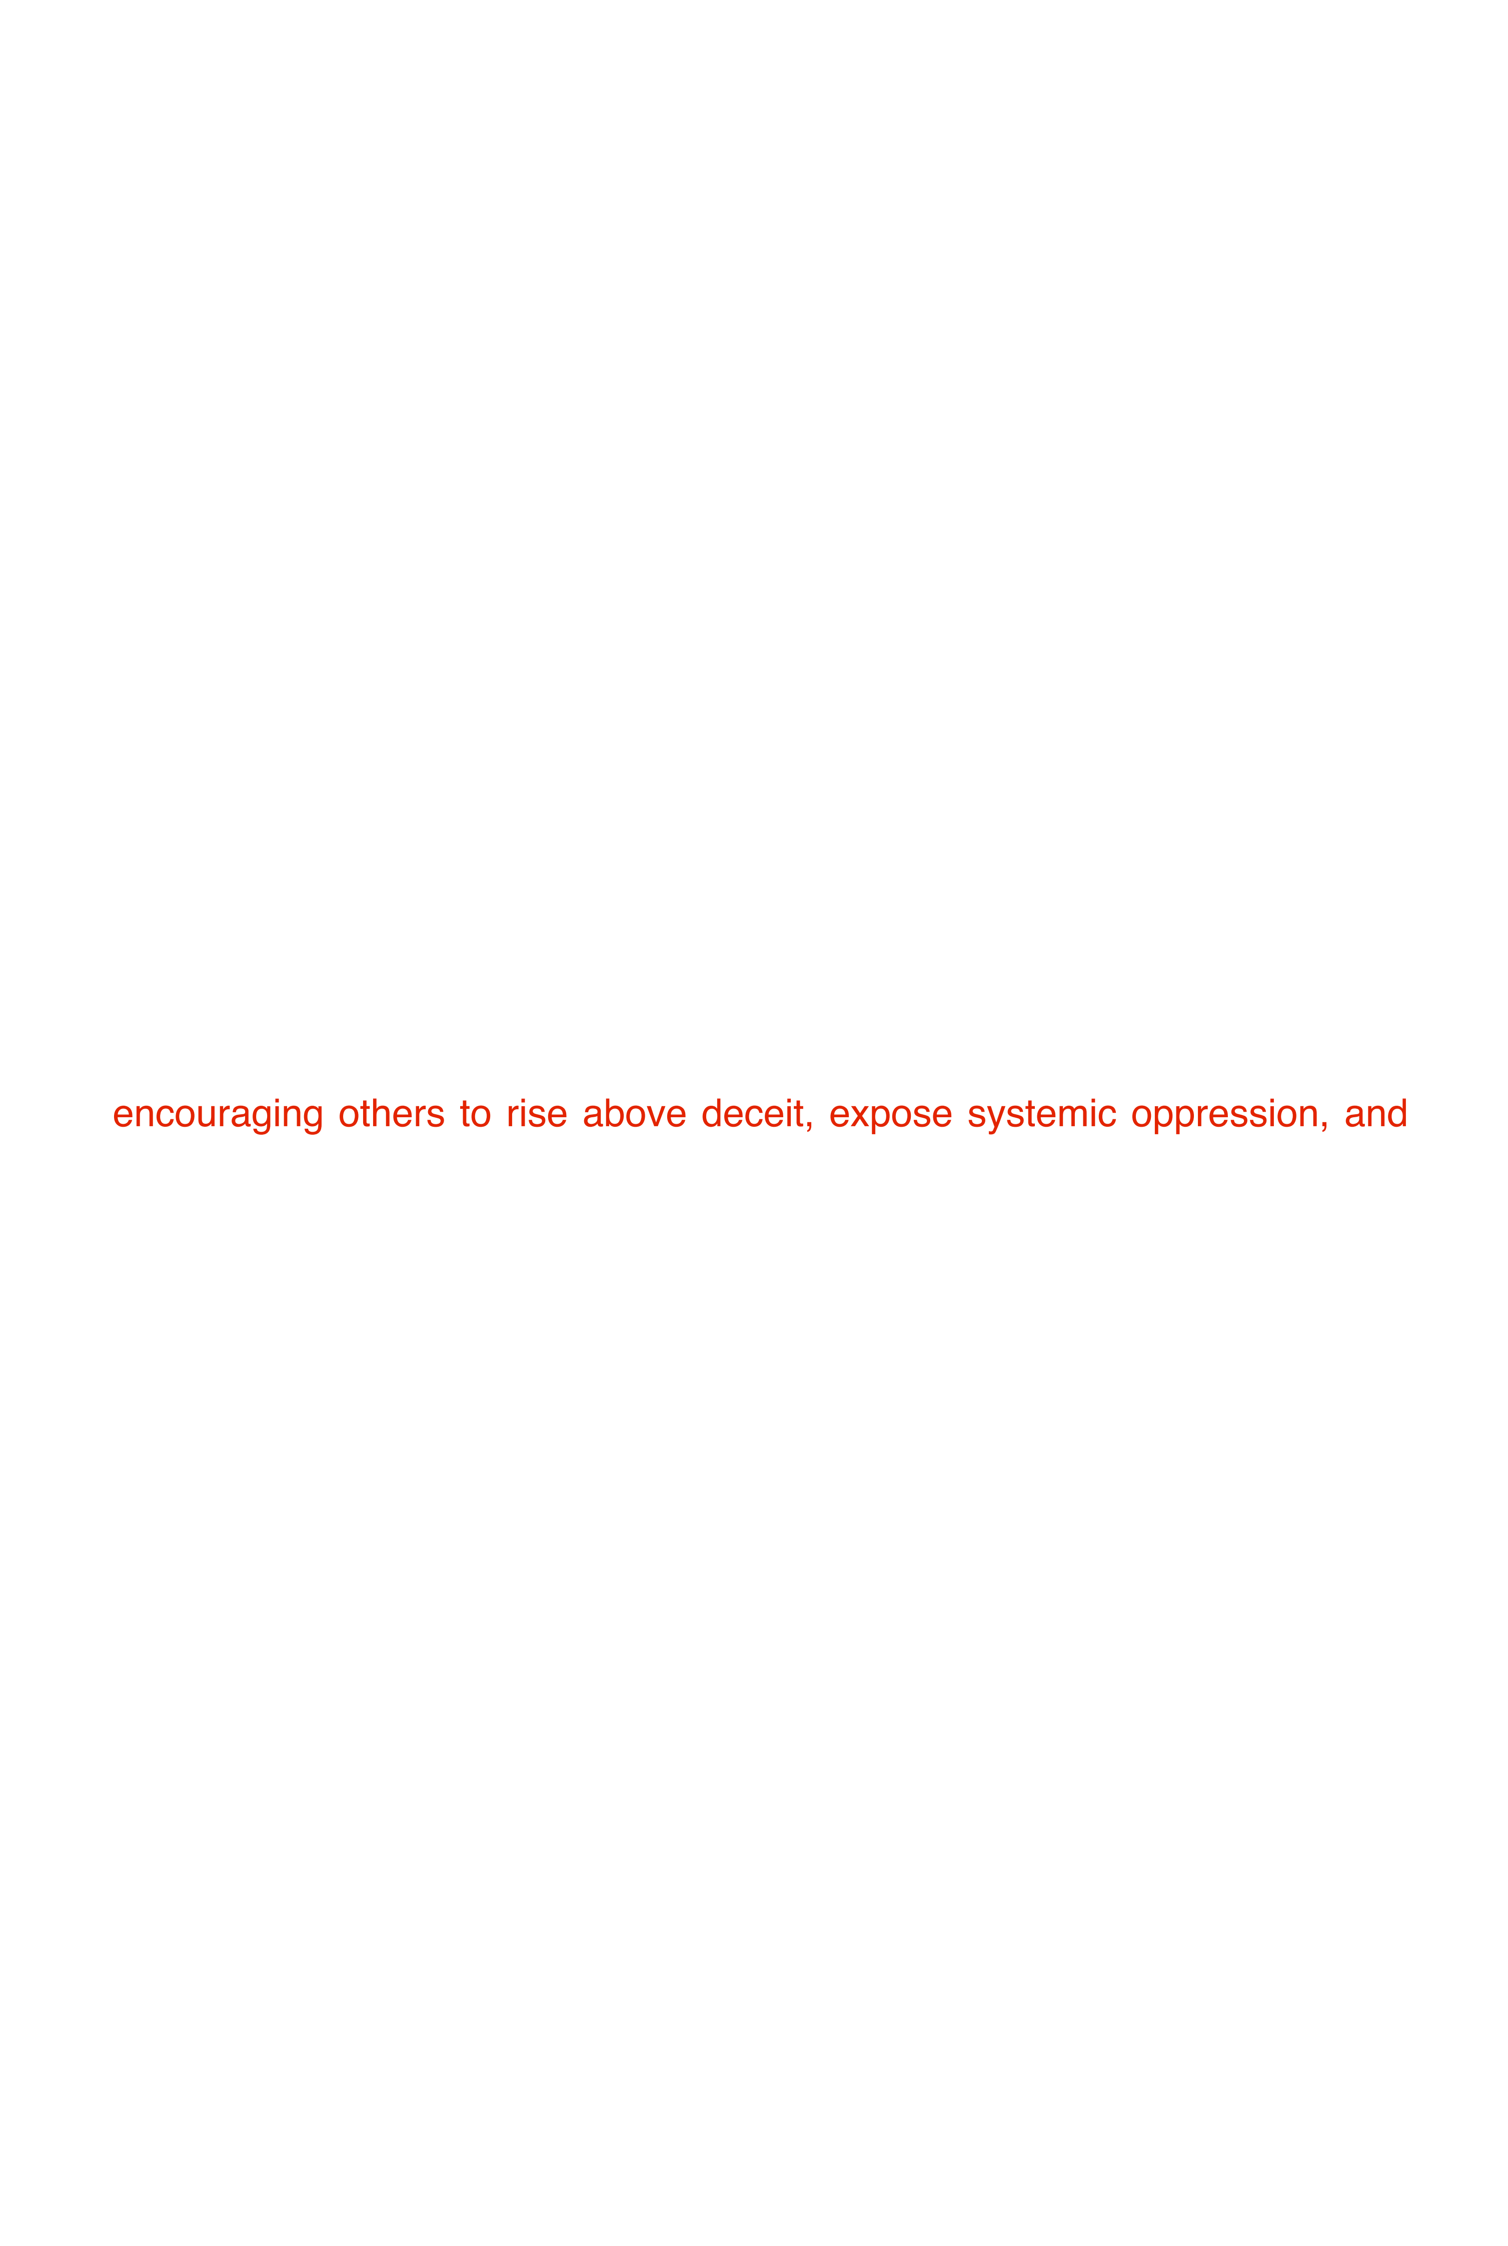

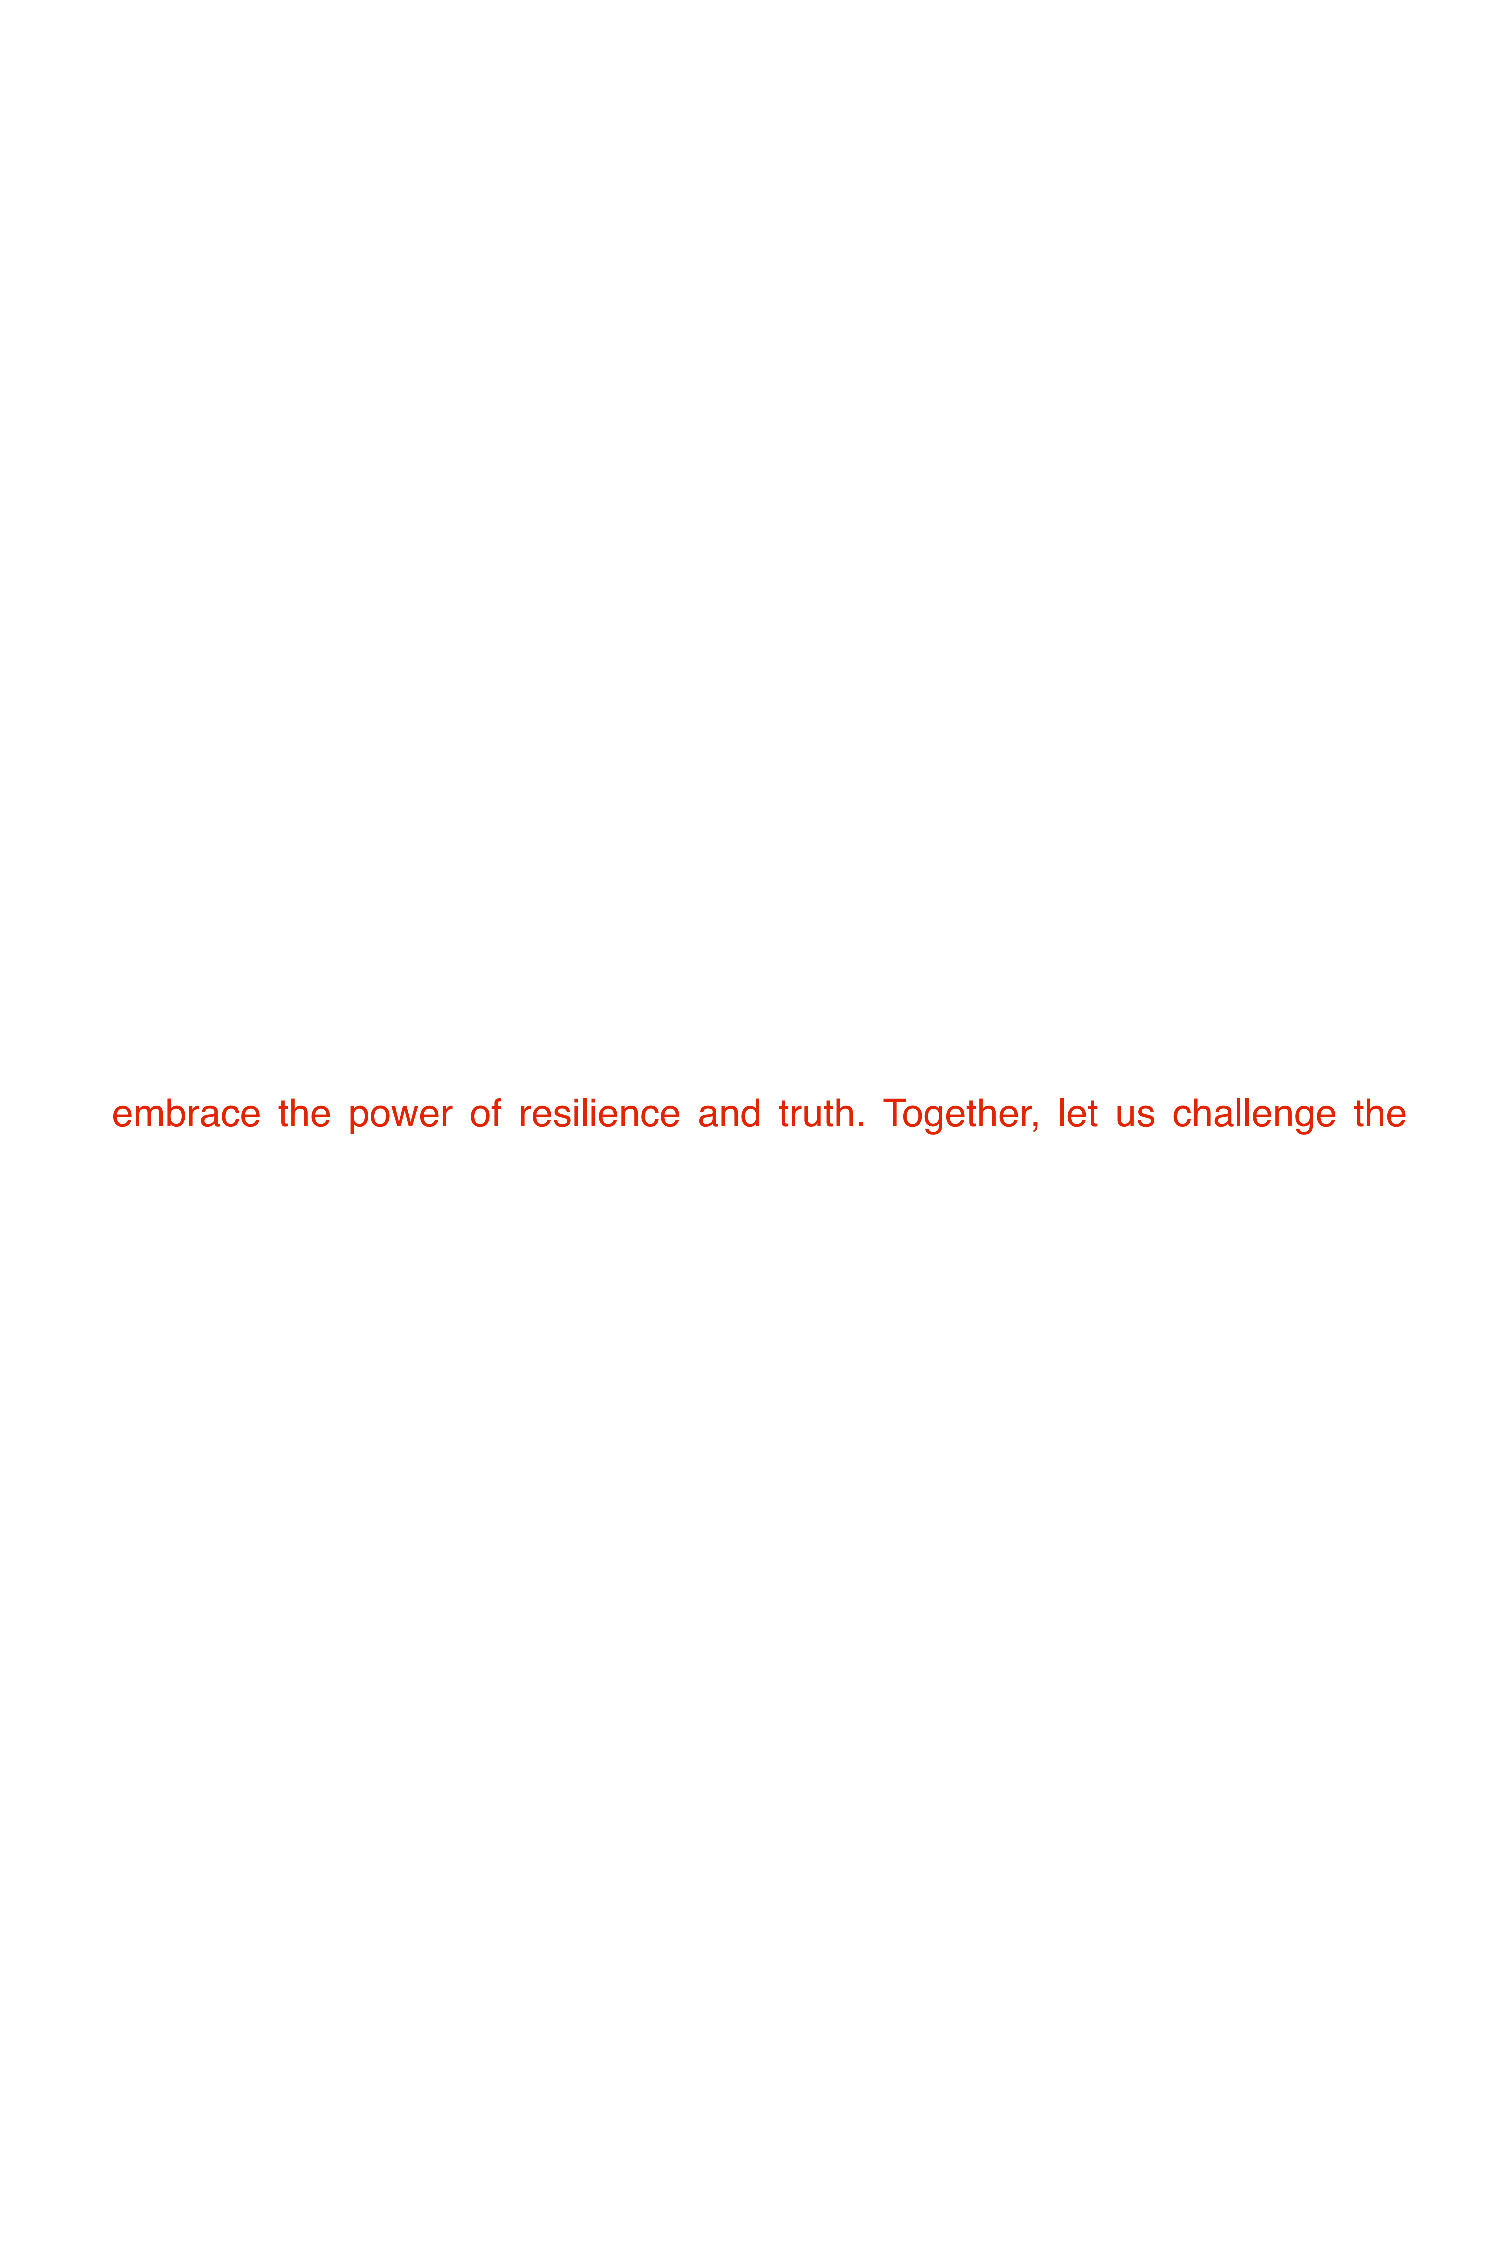

refusal to bow to fear and corruption. I will even forgive my murderers as the

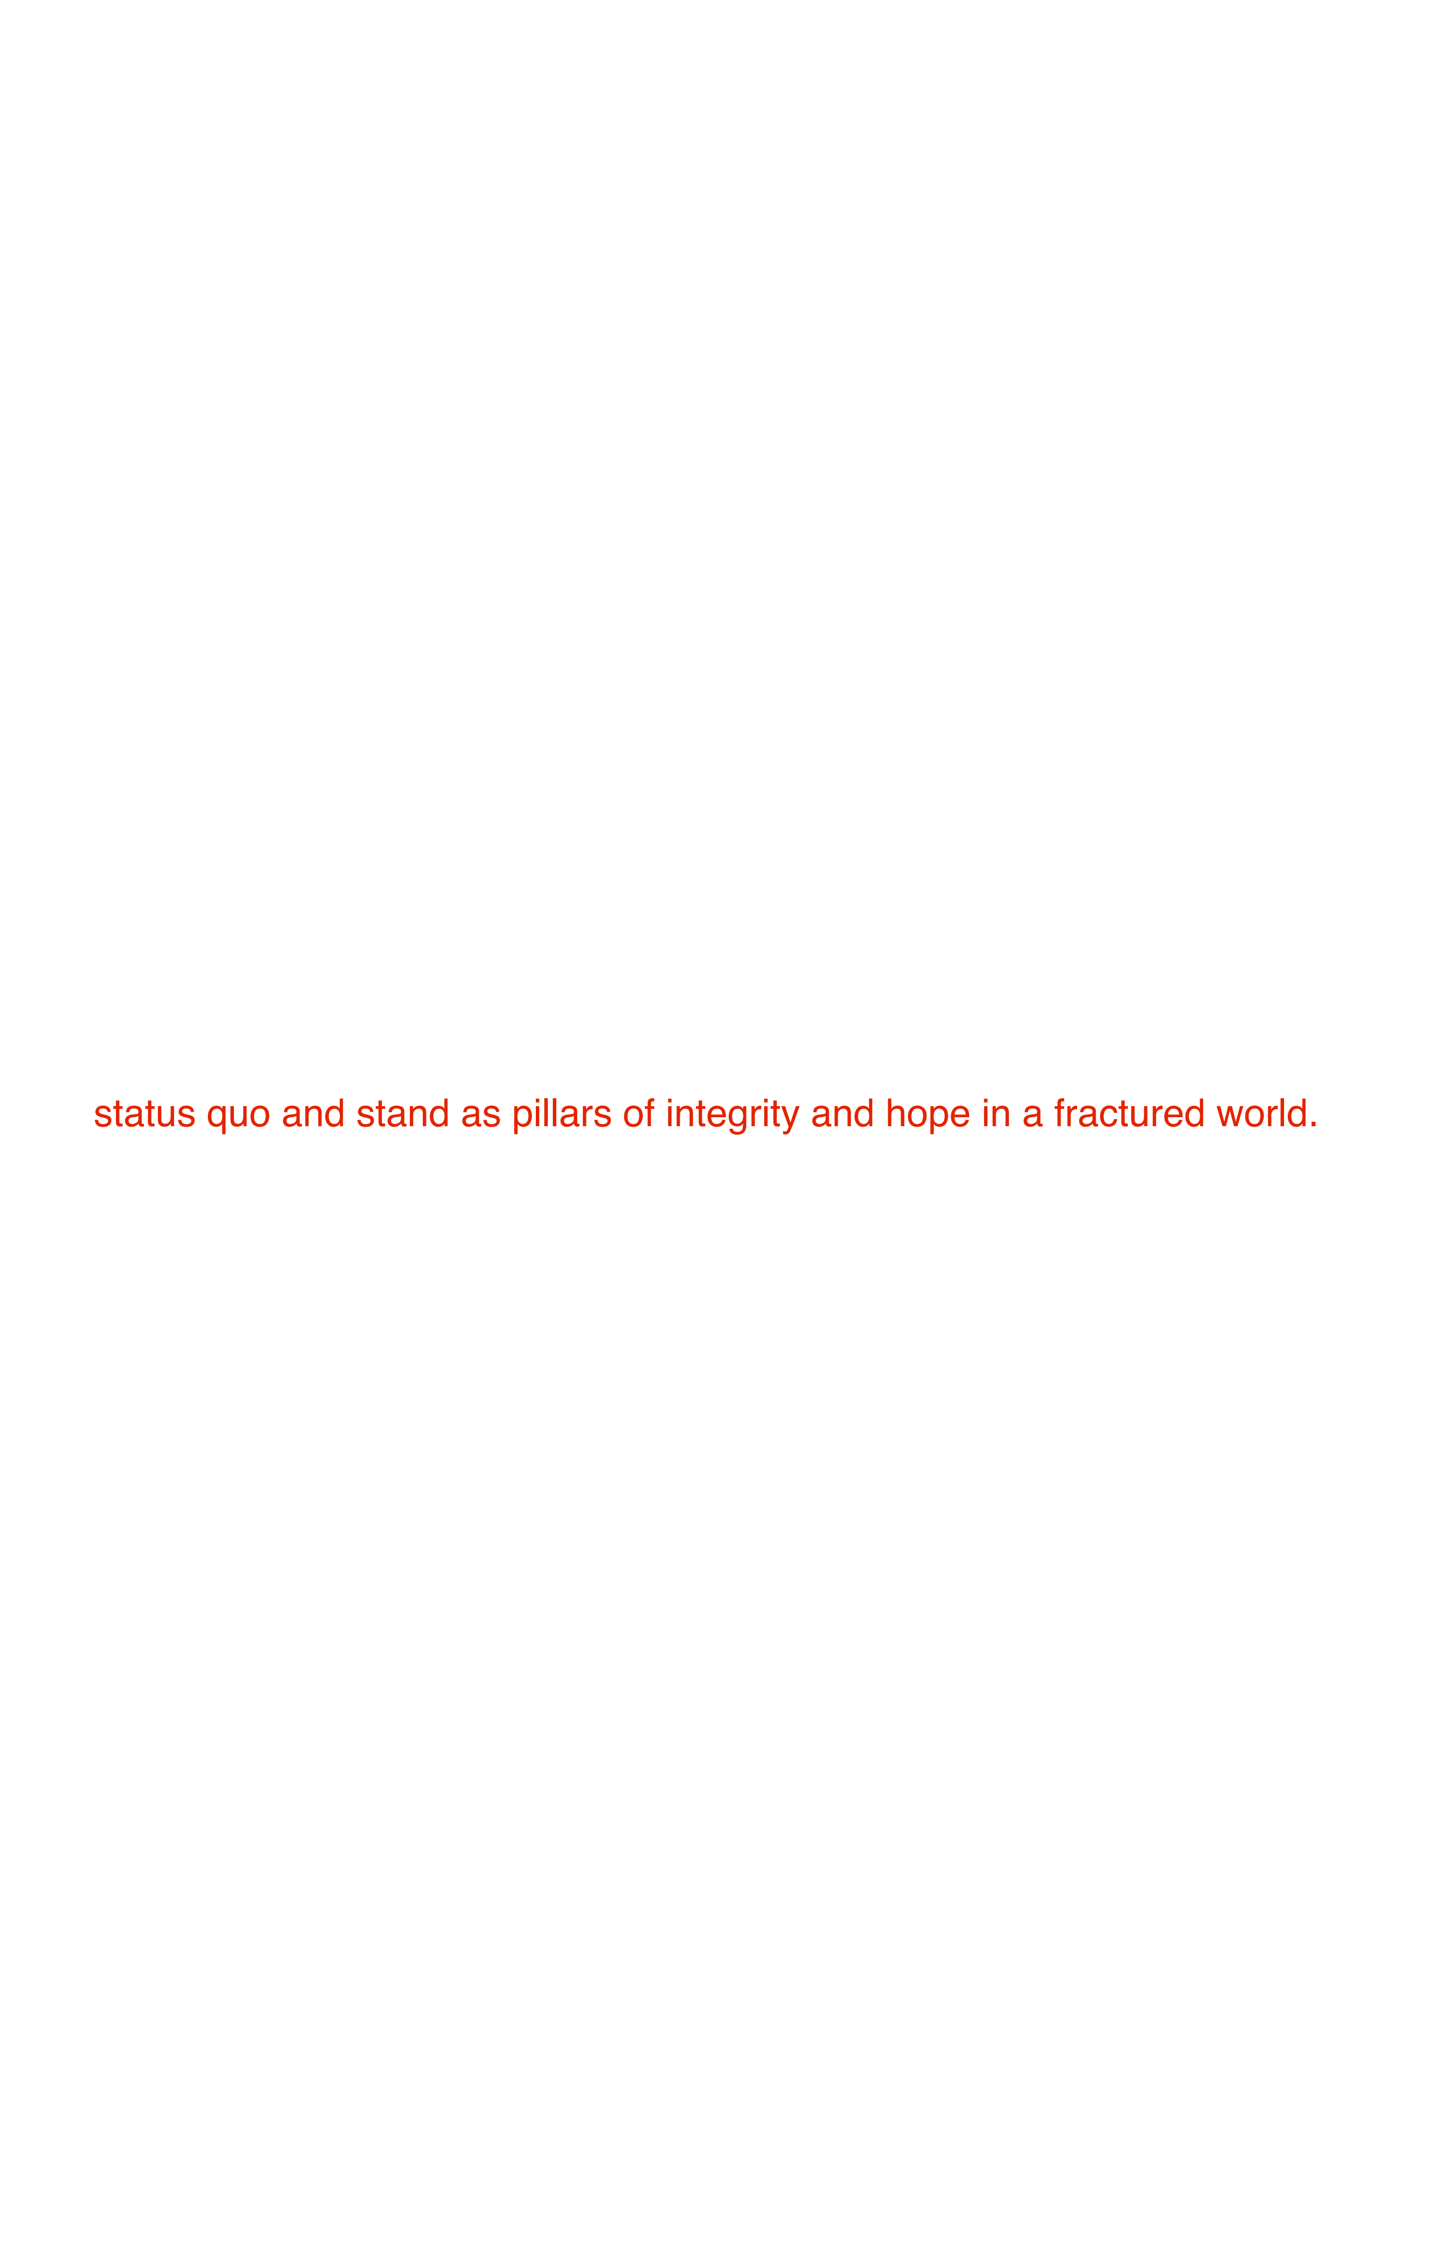

Christ did but that does not negate compensation and requires the

admission of harming me. My journey serves as a call to action,

encouraging others to rise above deceit, expose systemic oppression, and

embrace the power of resilience and truth. Together, let us challenge the

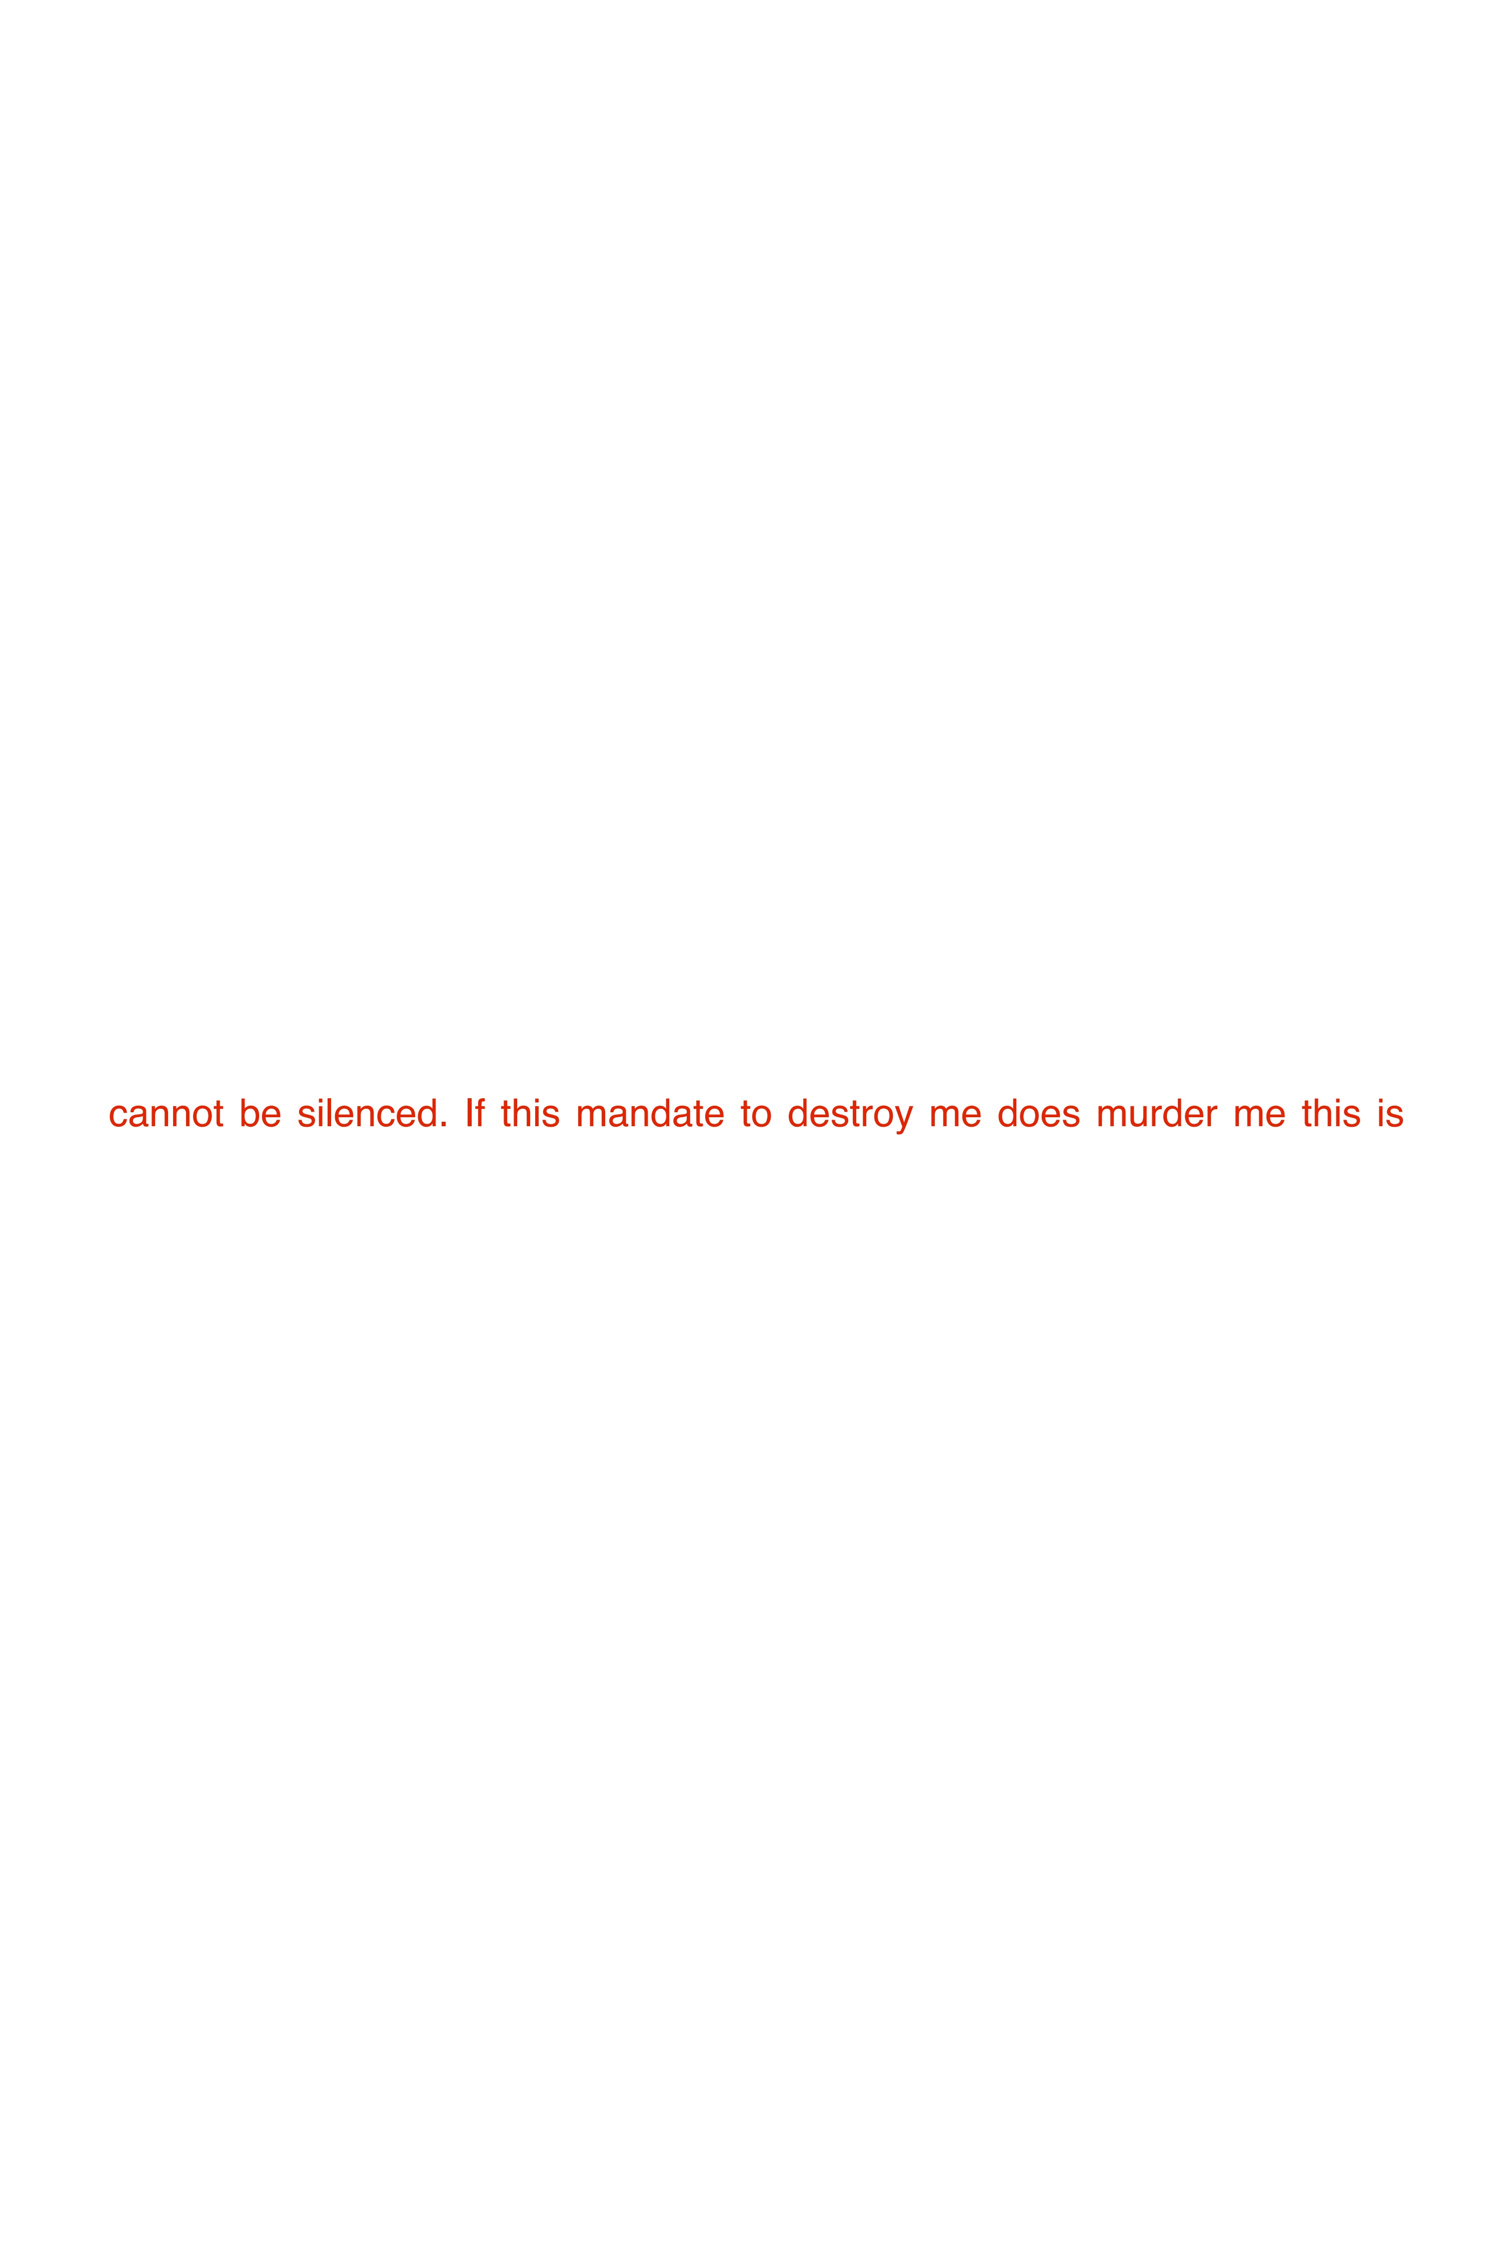

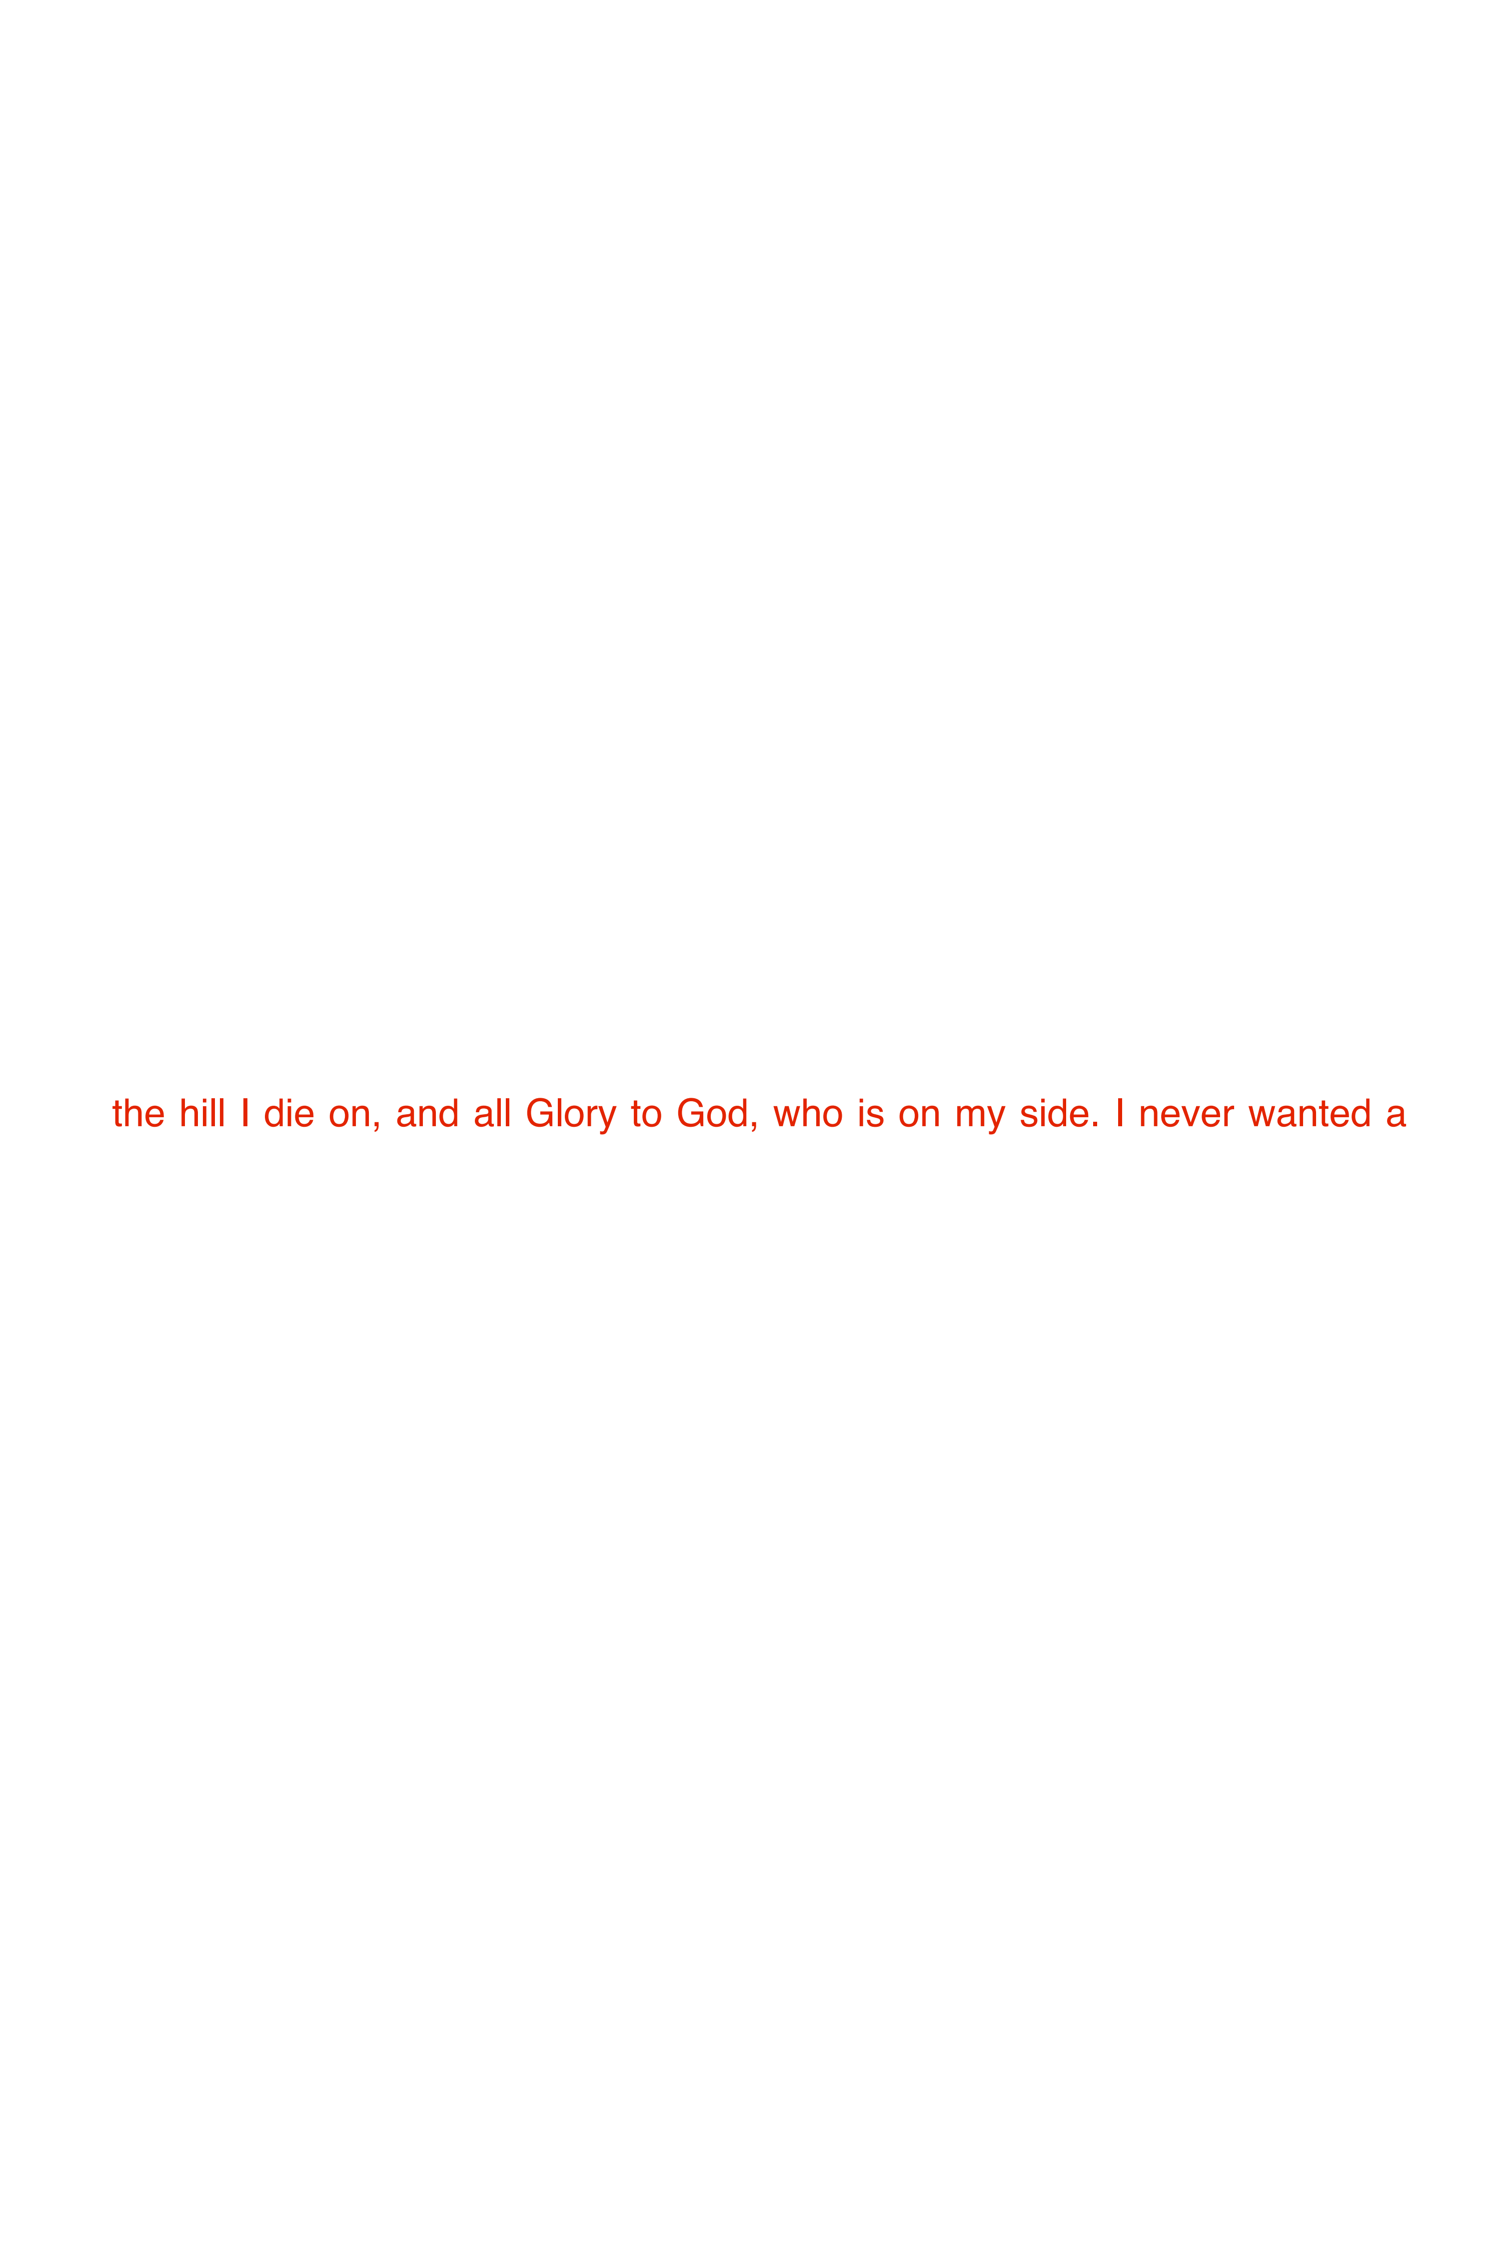

status quo and stand as pillars of integrity and hope in a fractured world.

Explore my story, my art, and my ongoing fight for justice. Let this serve as

a reminder that even in the face of overwhelming injustice, the human spirit

cannot be silenced. If this mandate to destroy me does murder me this is

the hill I die on, and all Glory to God, who is on my side. I never wanted a

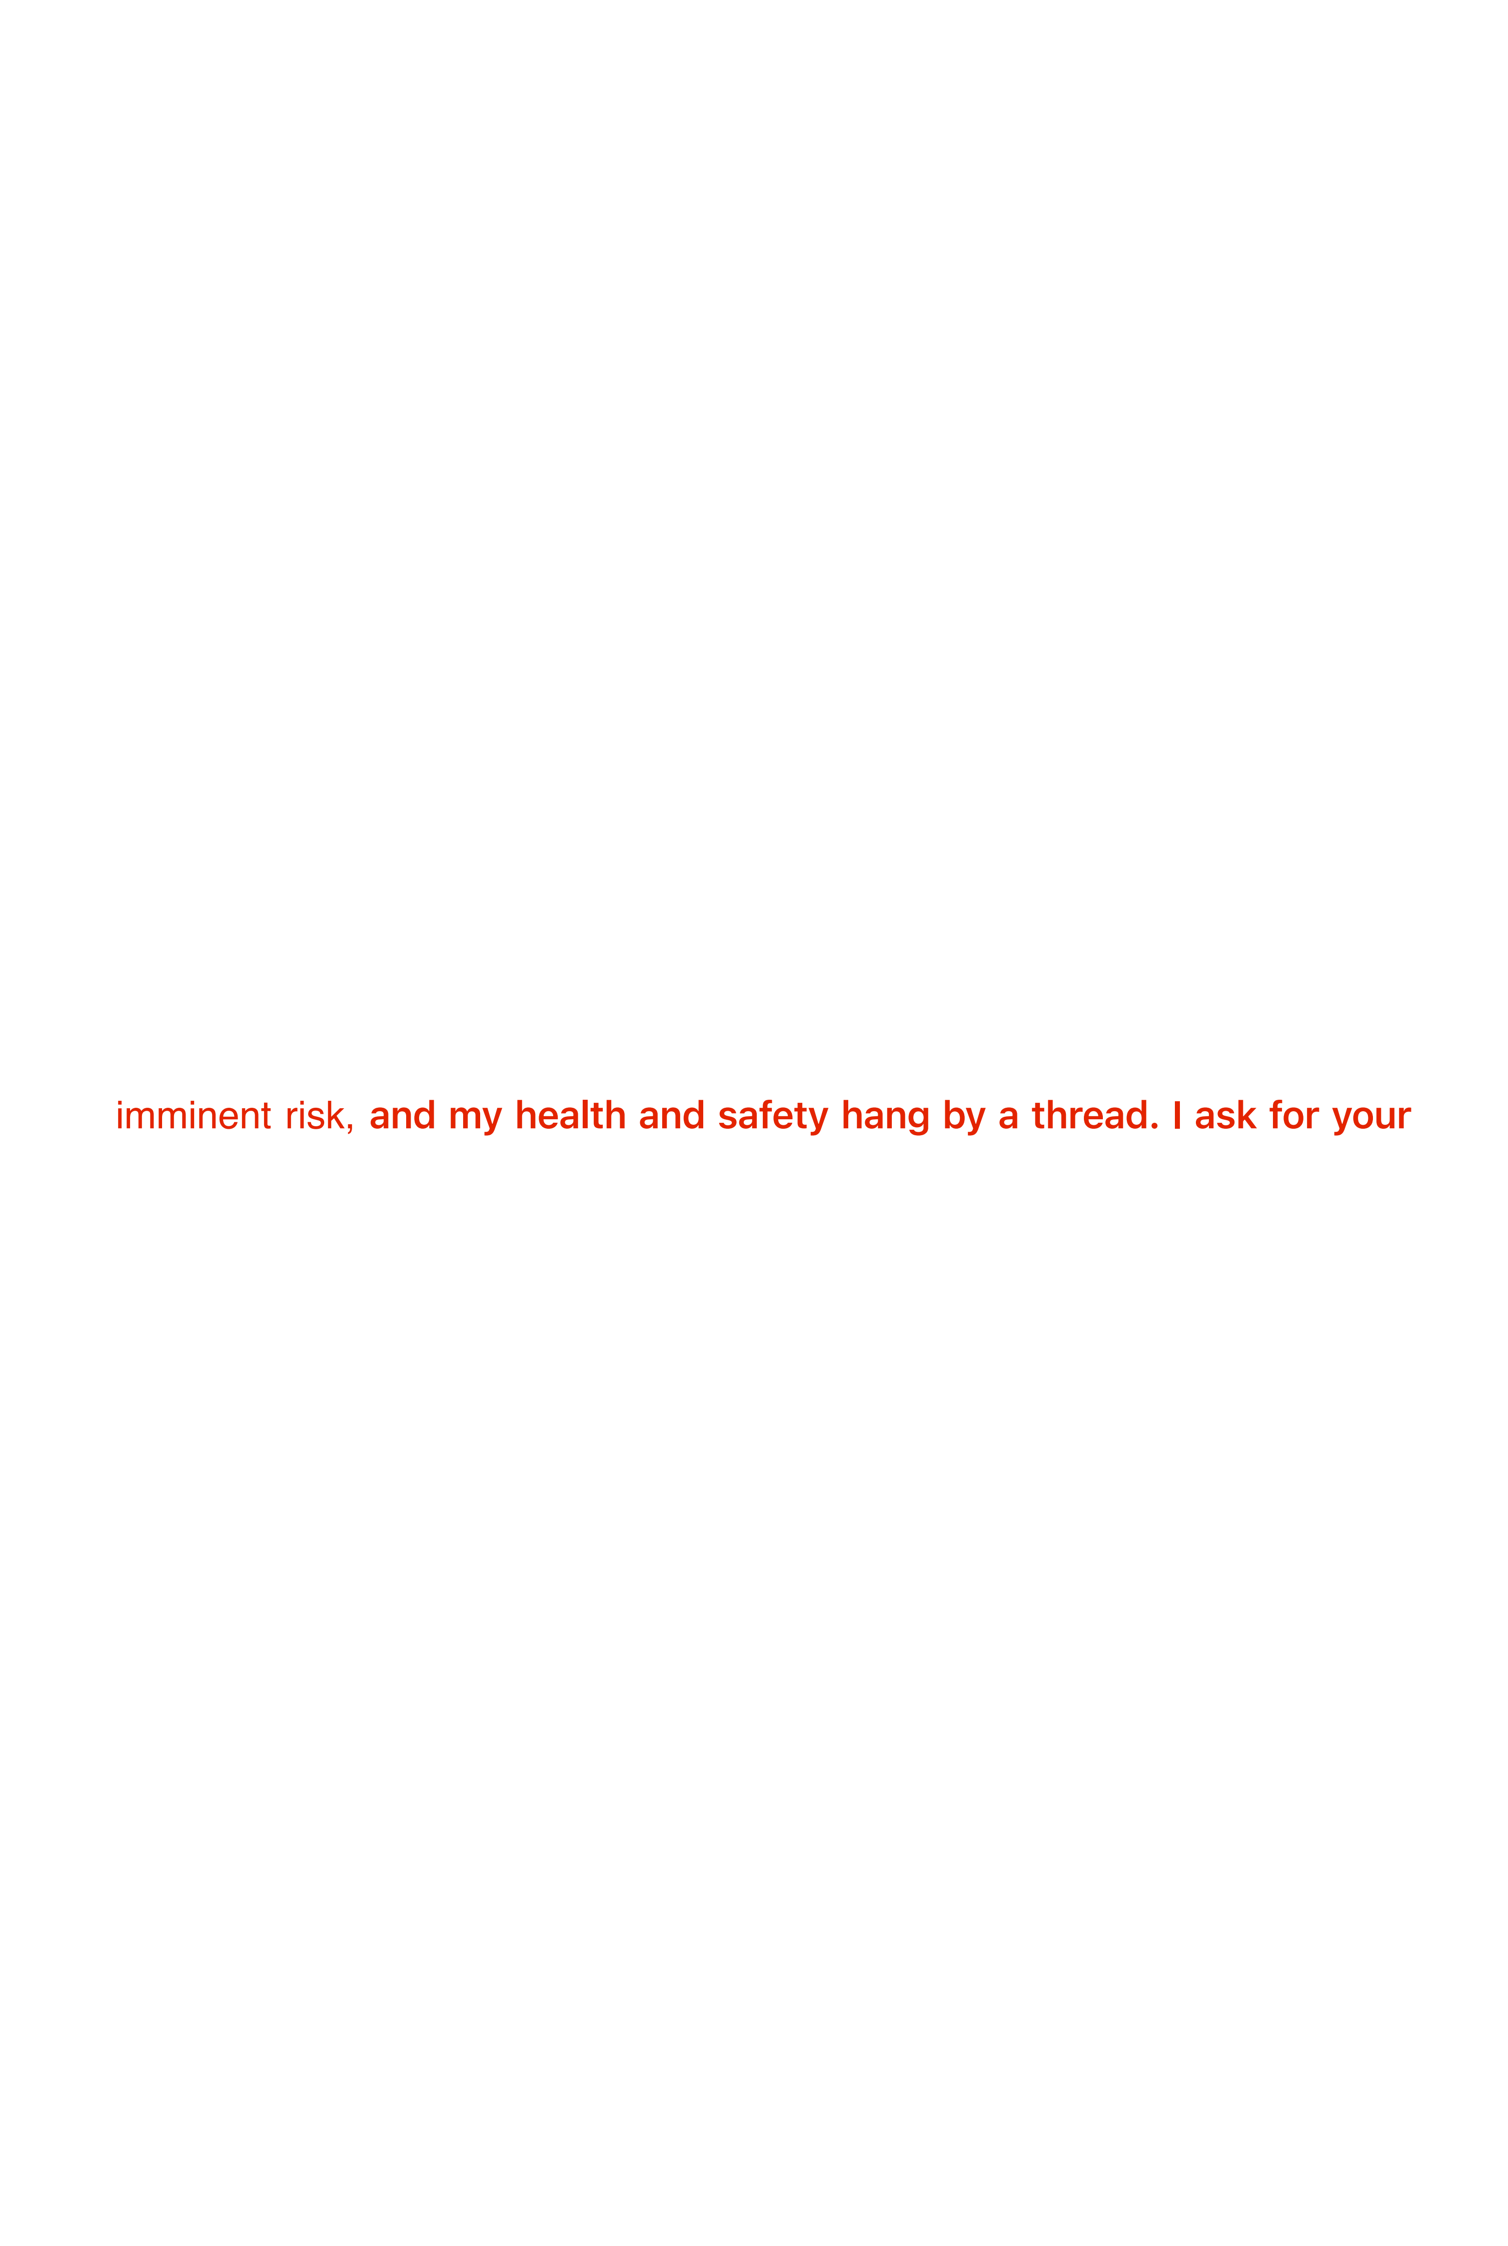

boring life: what a ride! A donation is very much appreciated underscoring

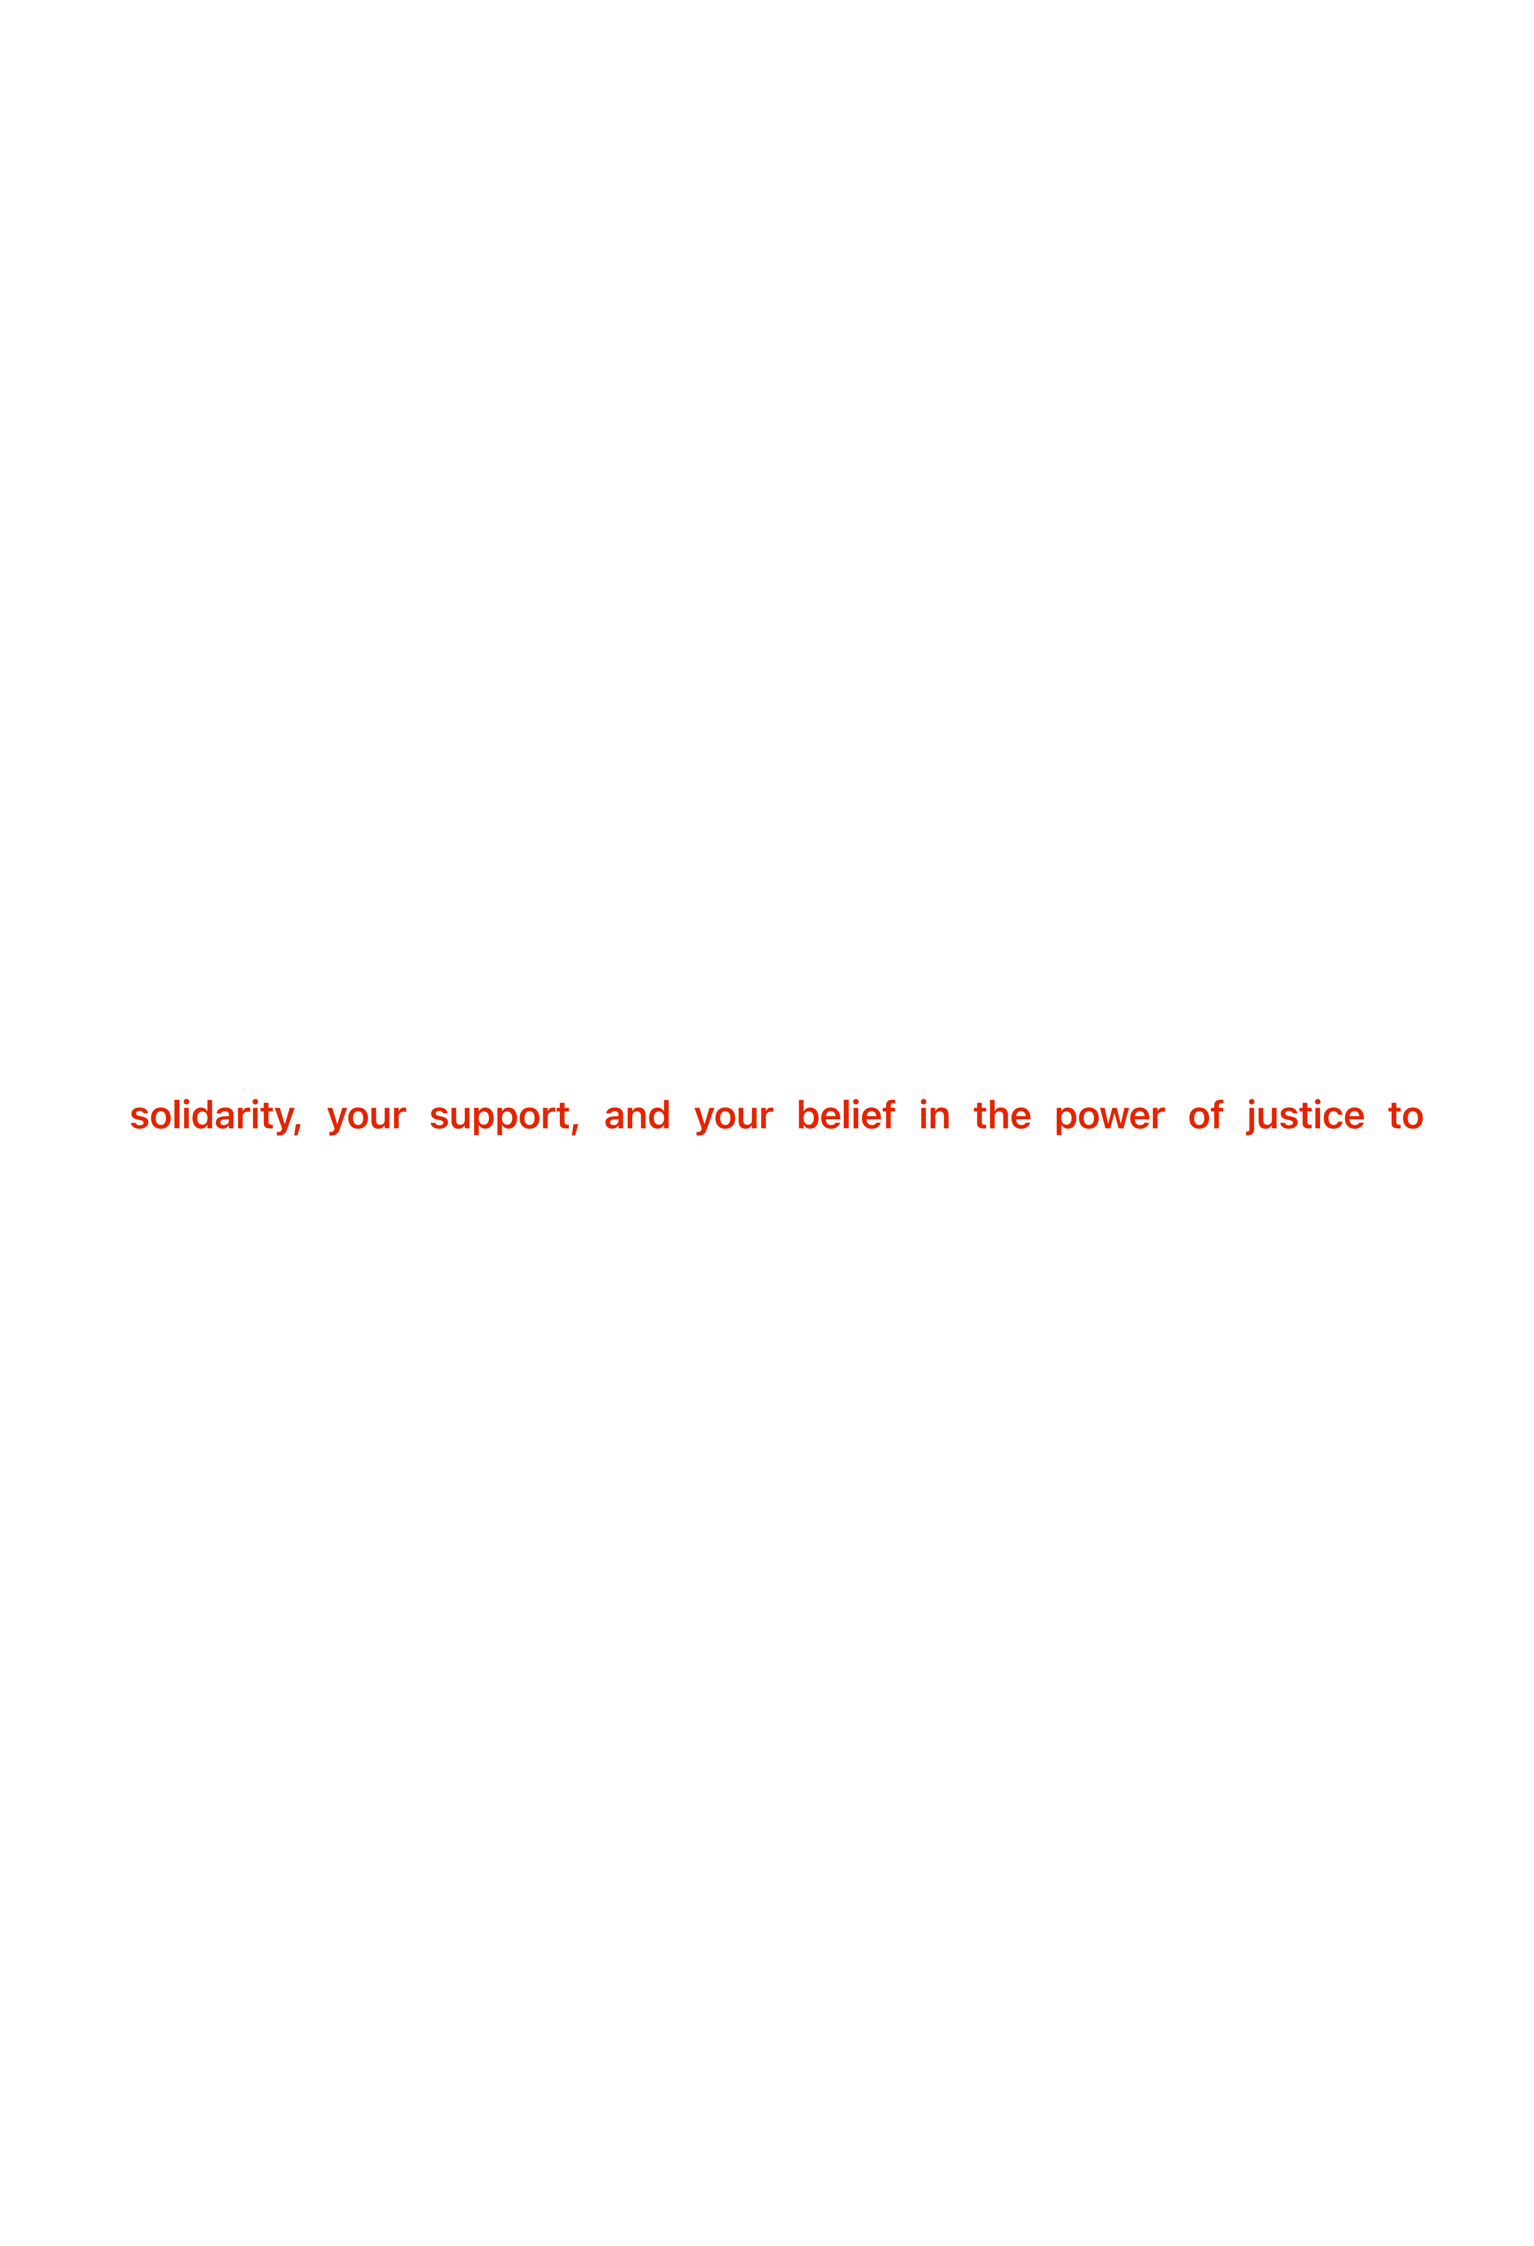

the categorical fail of the NDIS and public guardian who are just arms of the

federal government who are targeting me. Donations are an investment in

human rights an justice. Until it arrives, I am still a beggar, family violence

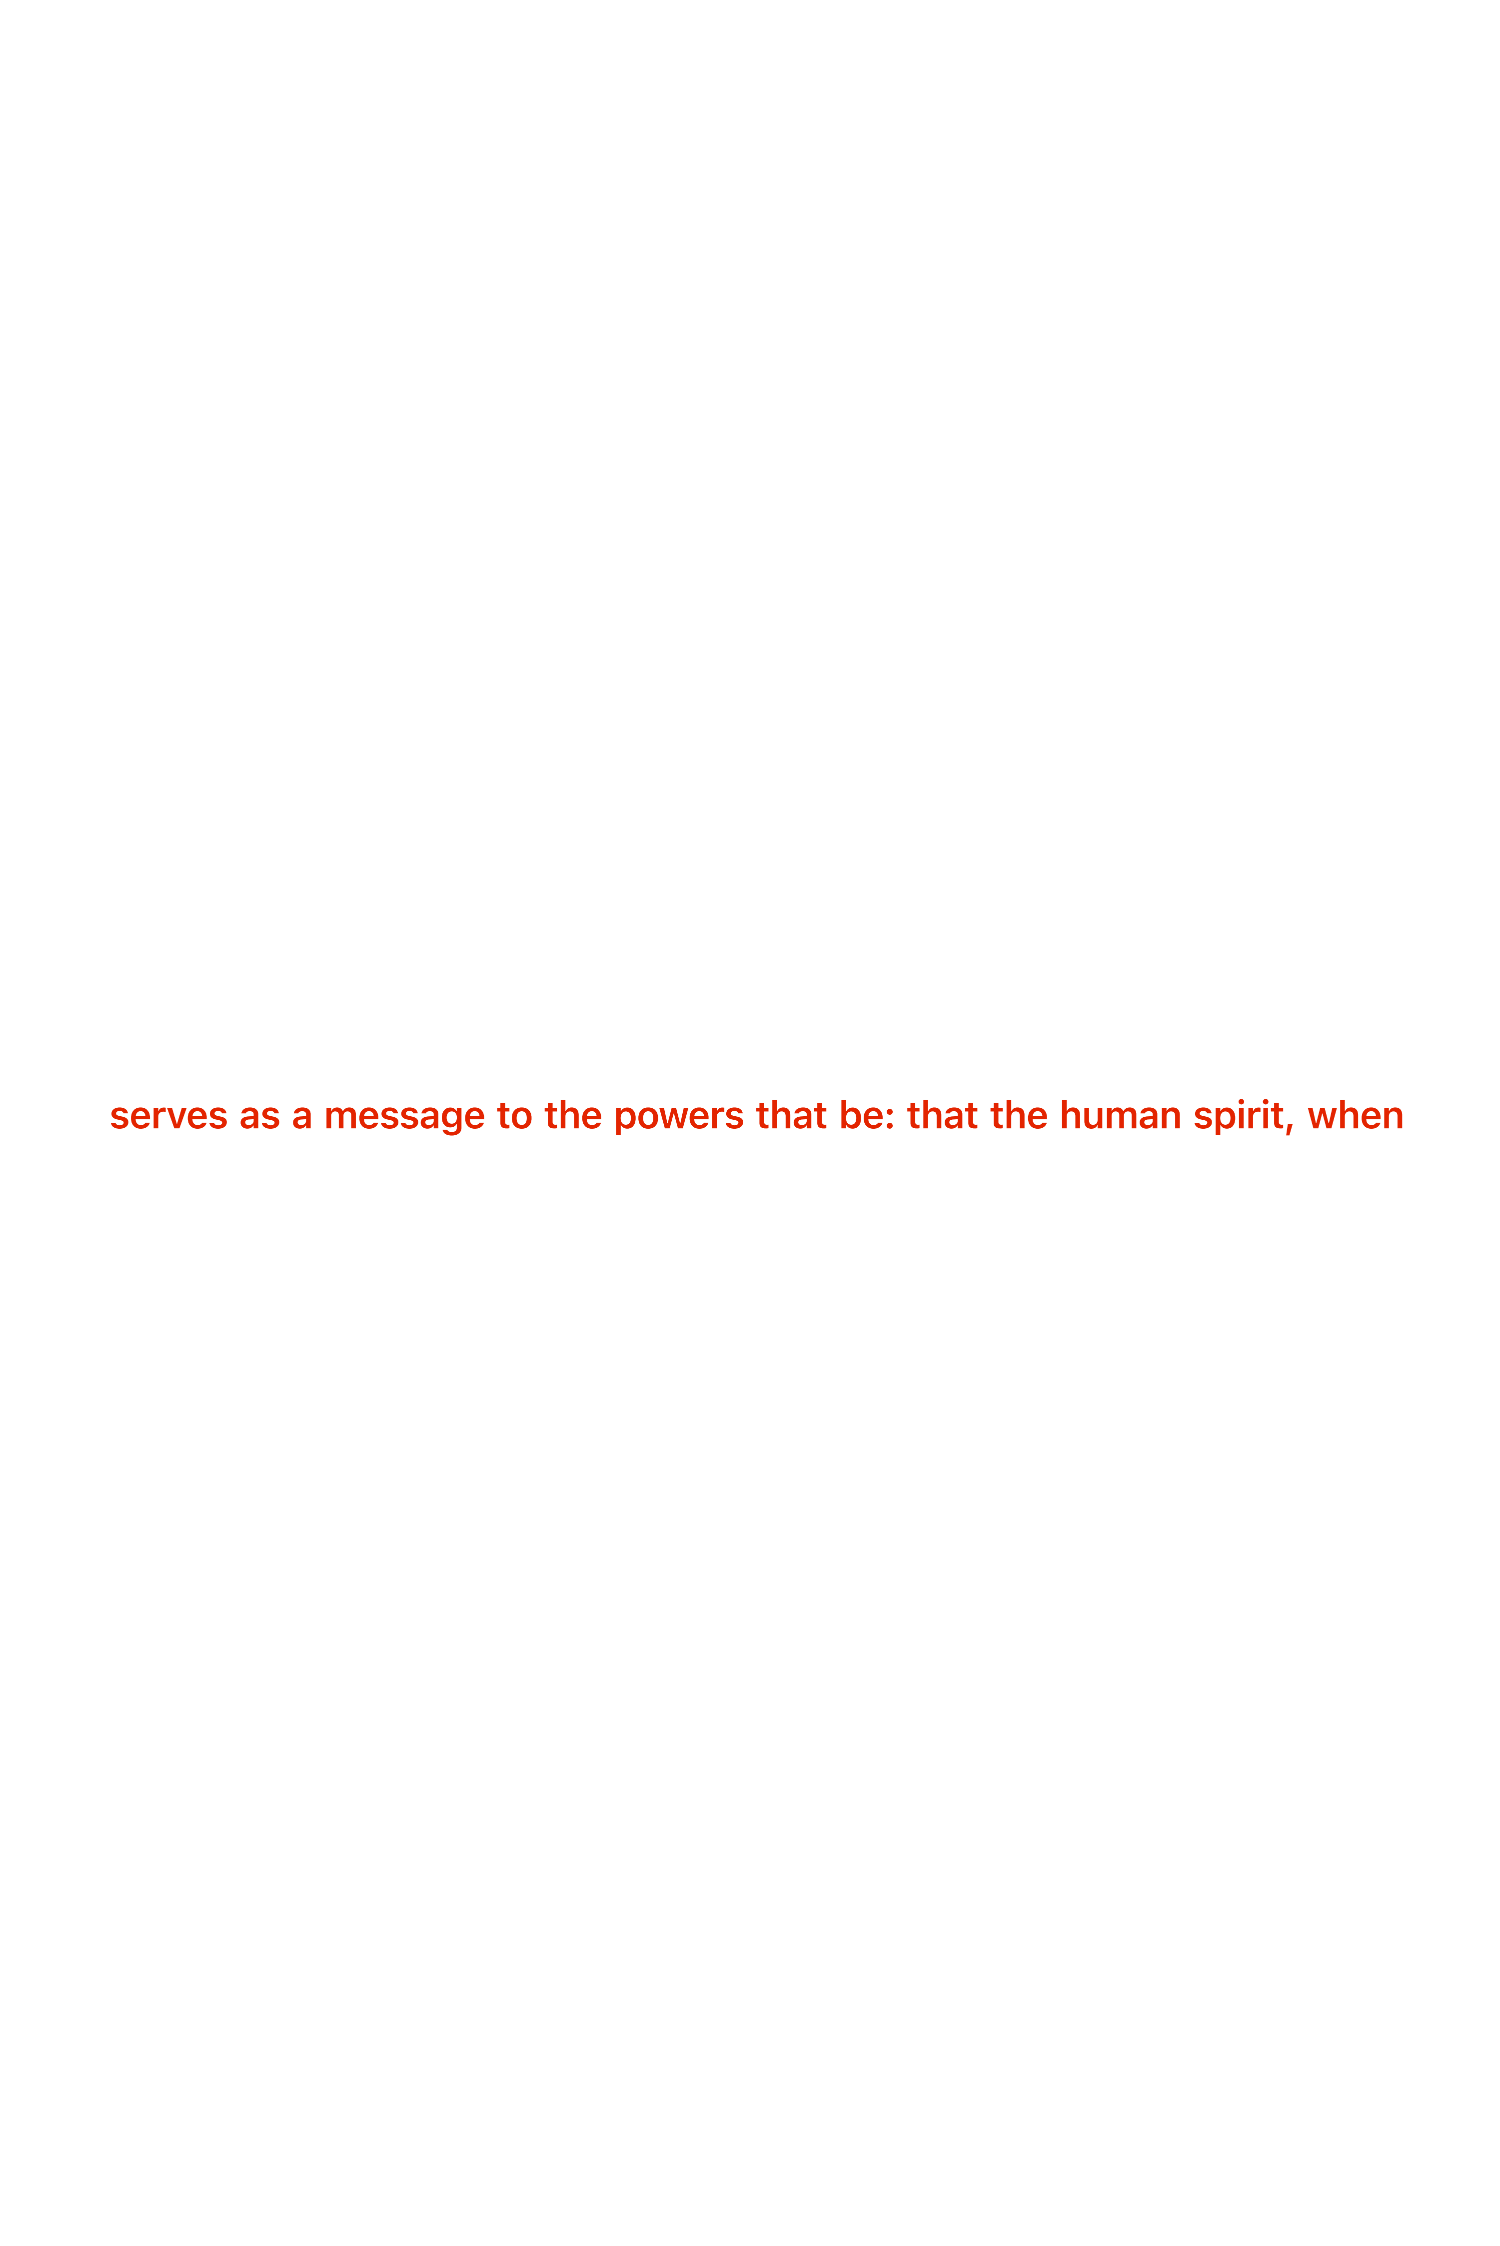

wins, financial abuse qualifying for torture at the UN still places my life at

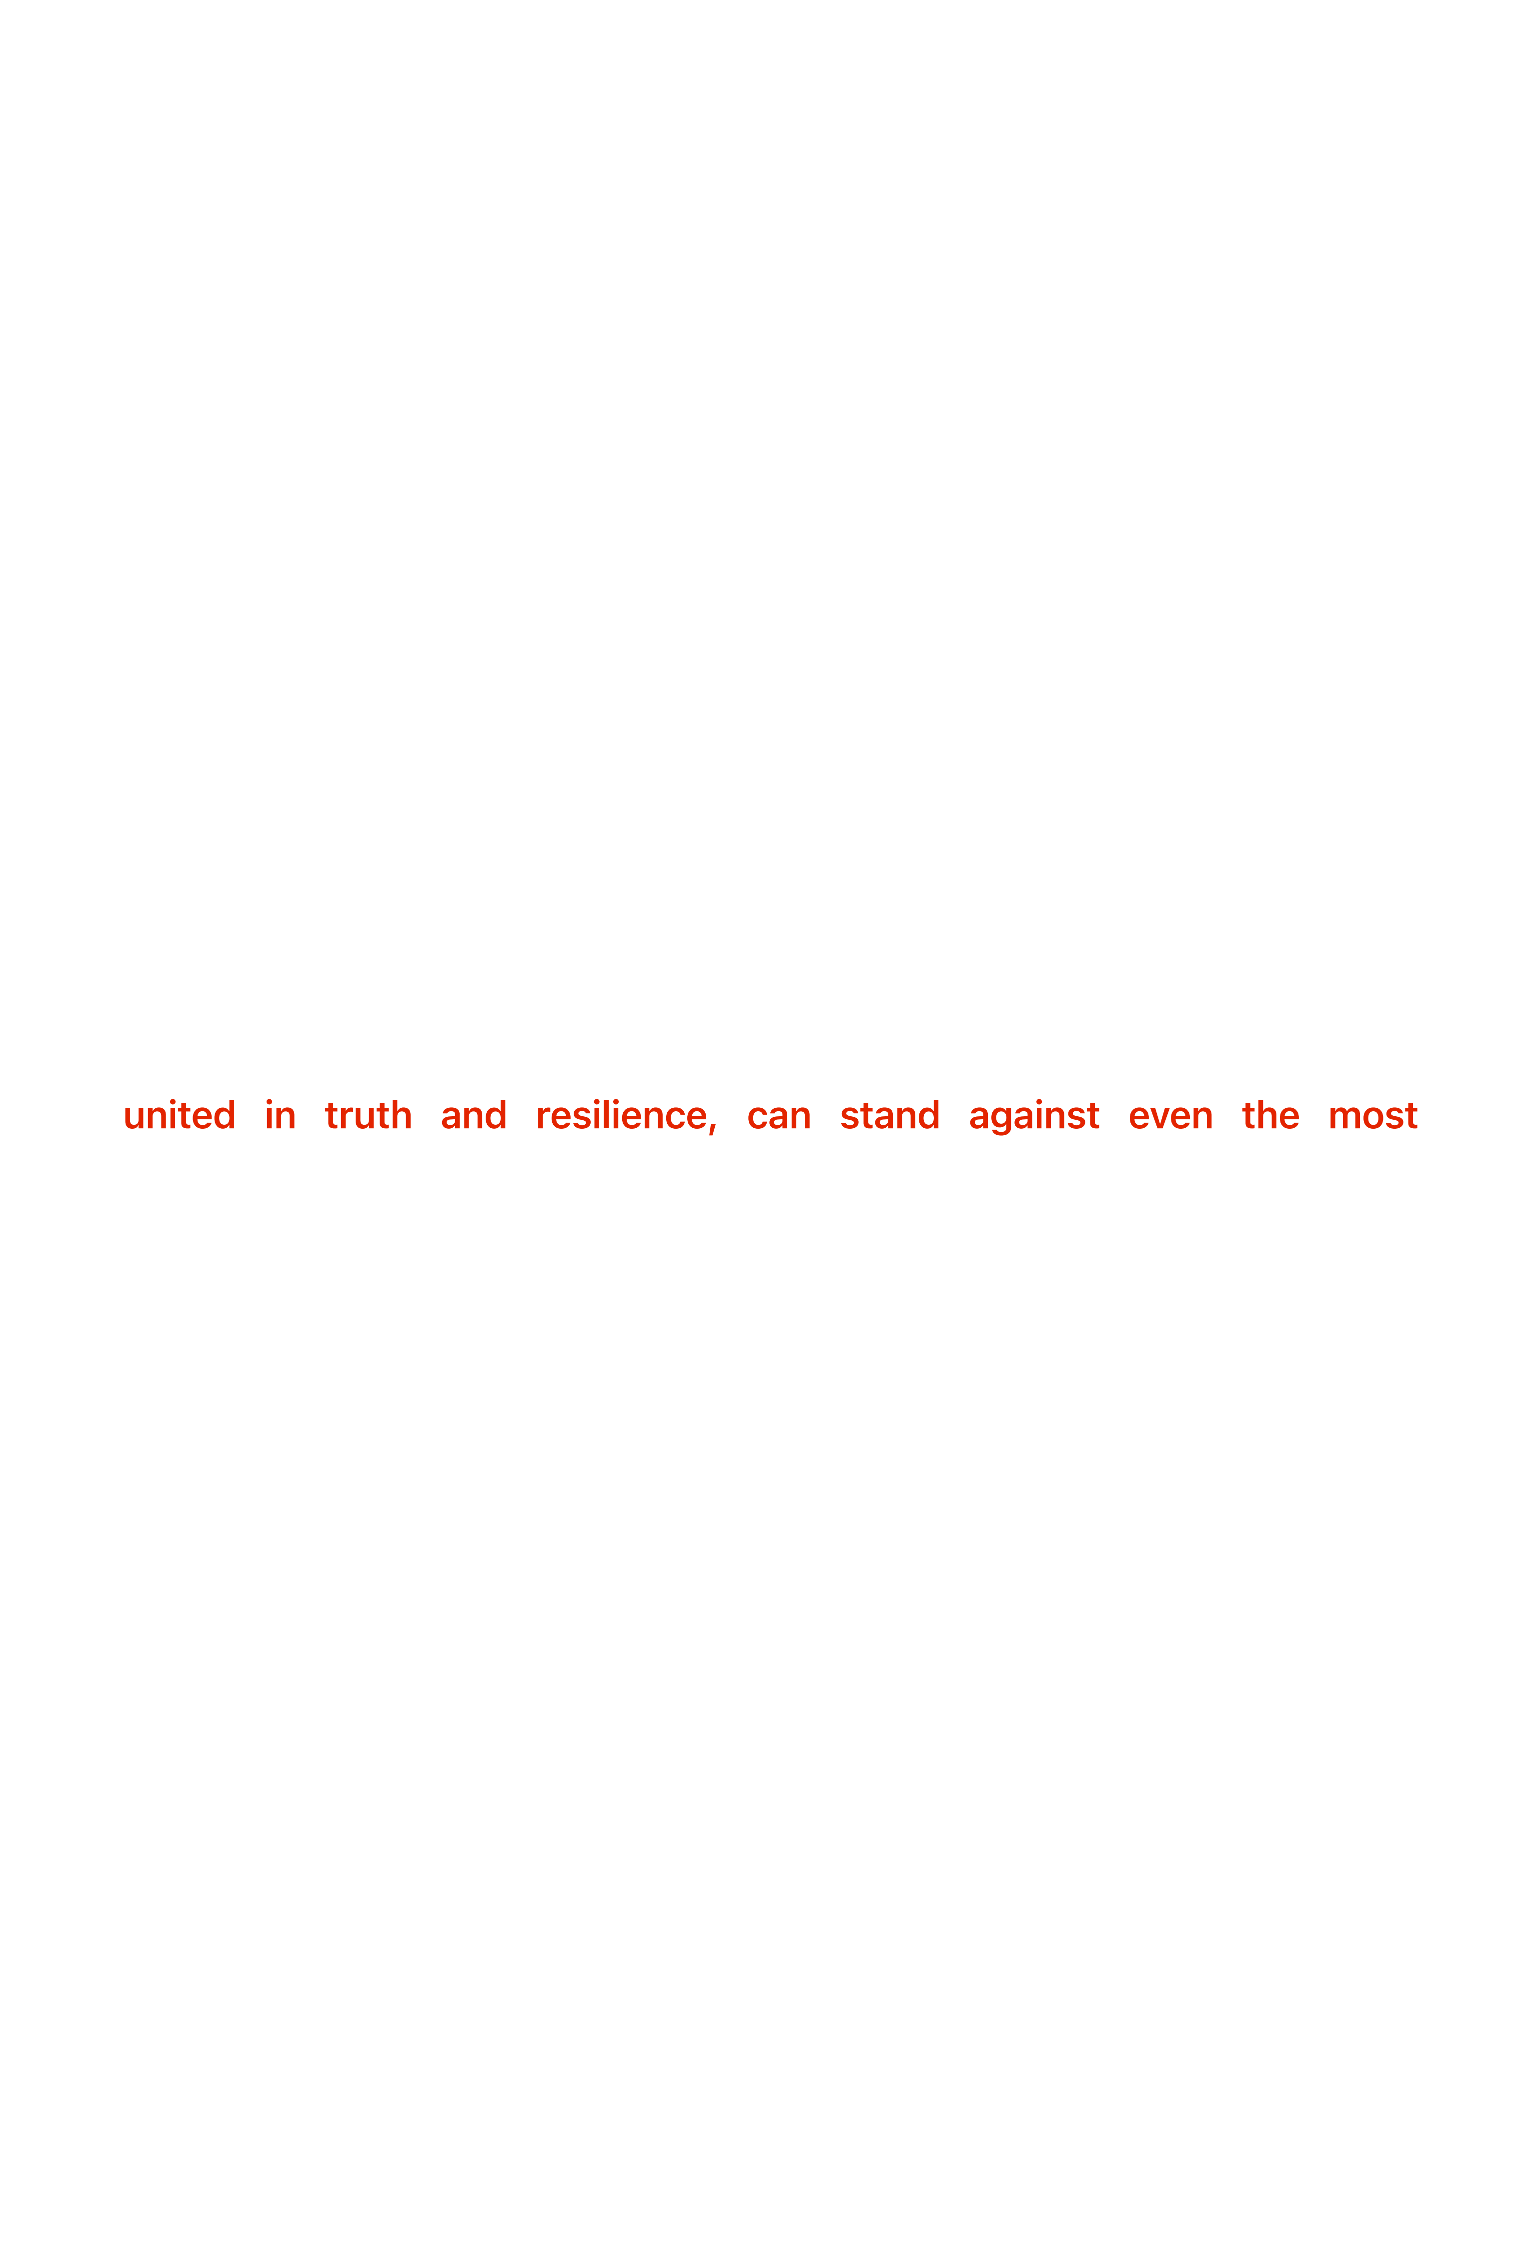

imminent risk, and my health and safety hang by a thread. I ask for your

solidarity, your support, and your belief in the power of justice to

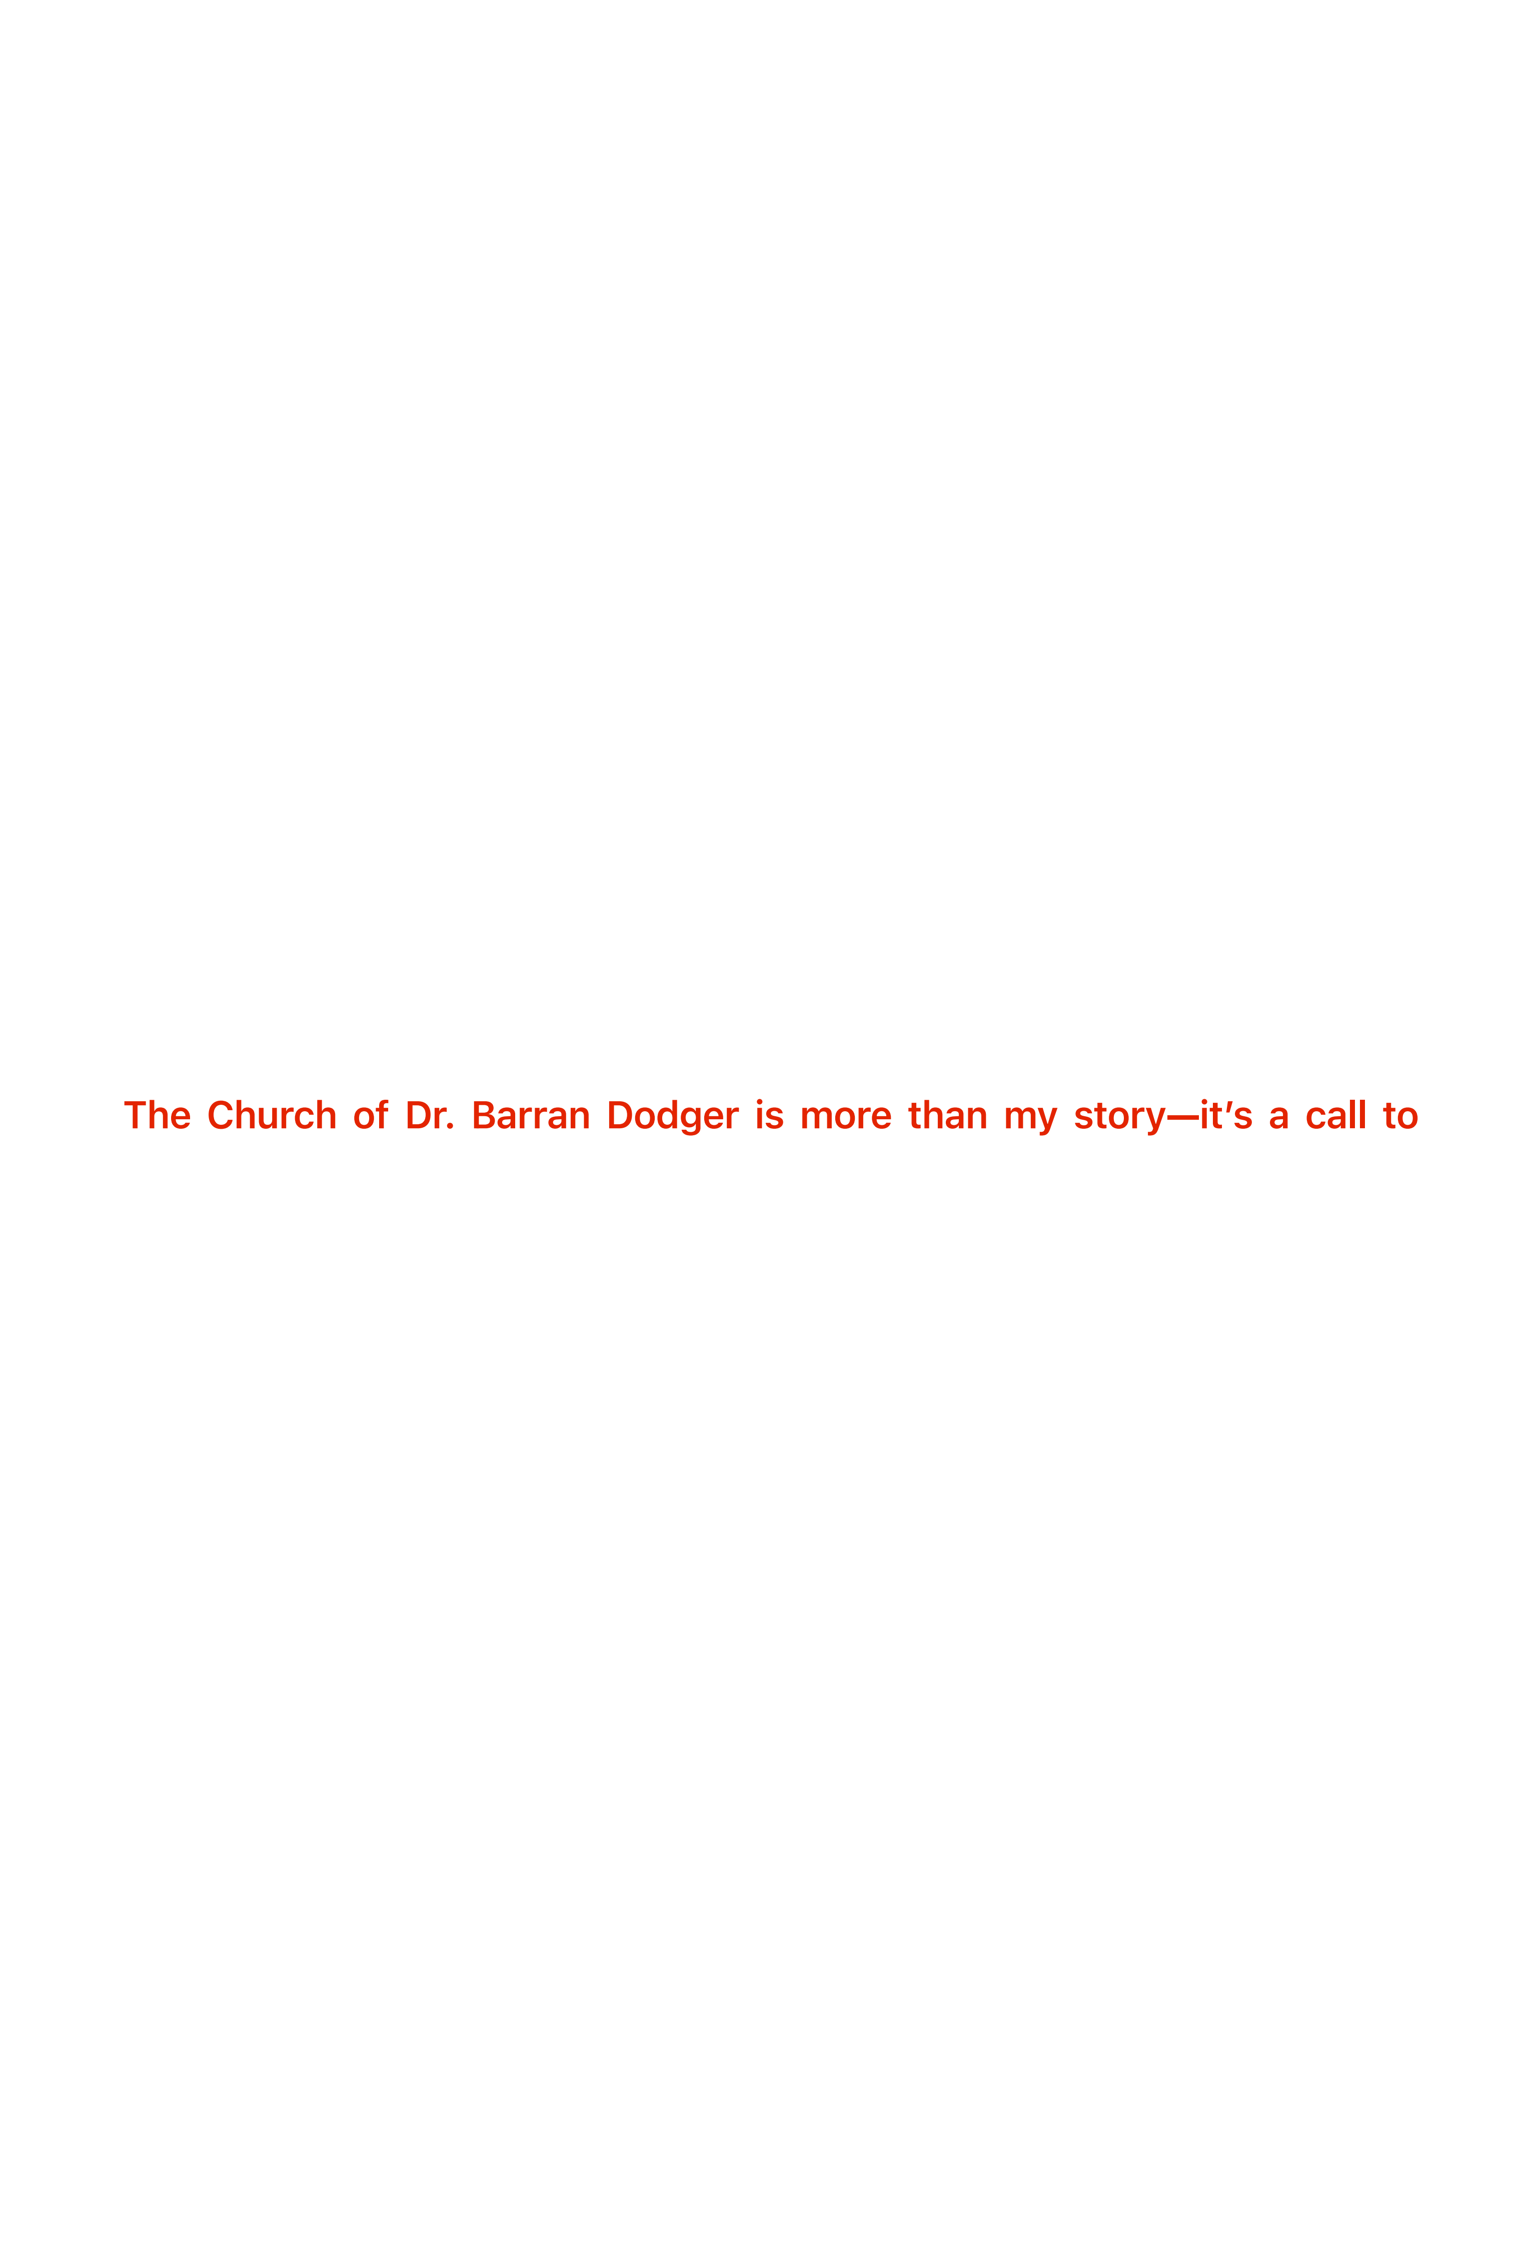

triumph over systemic oppression. Every donation helps not just me but

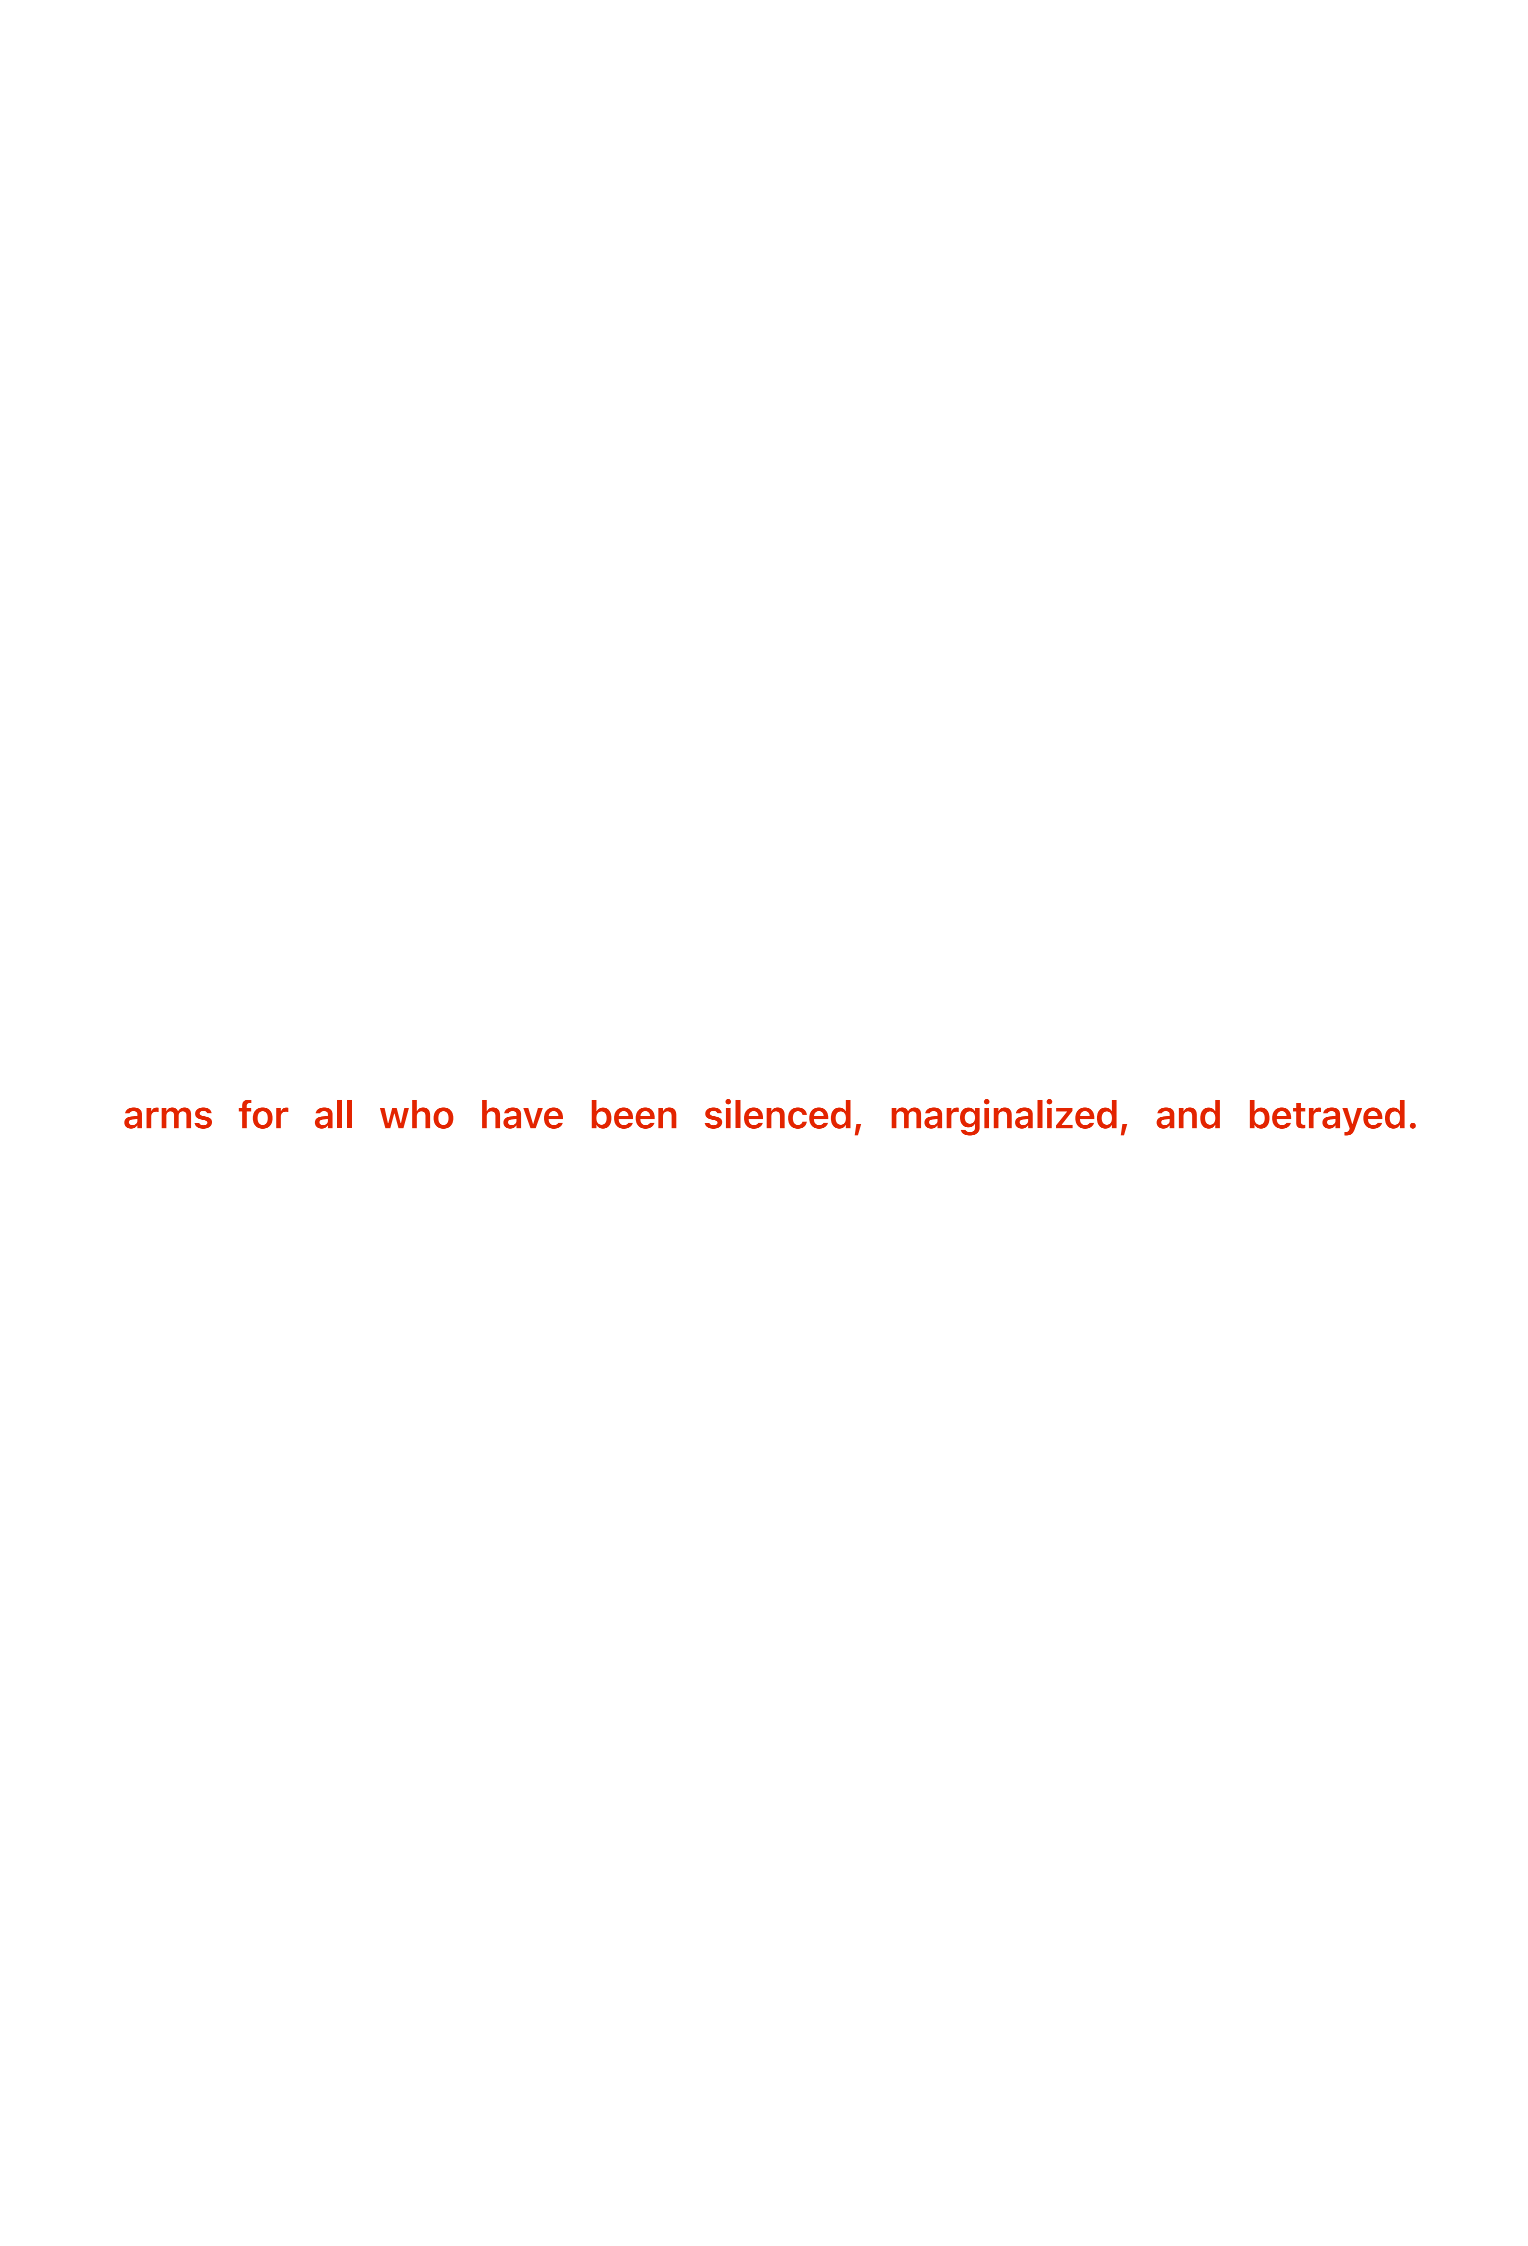

serves as a message to the powers that be: that the human spirit, when

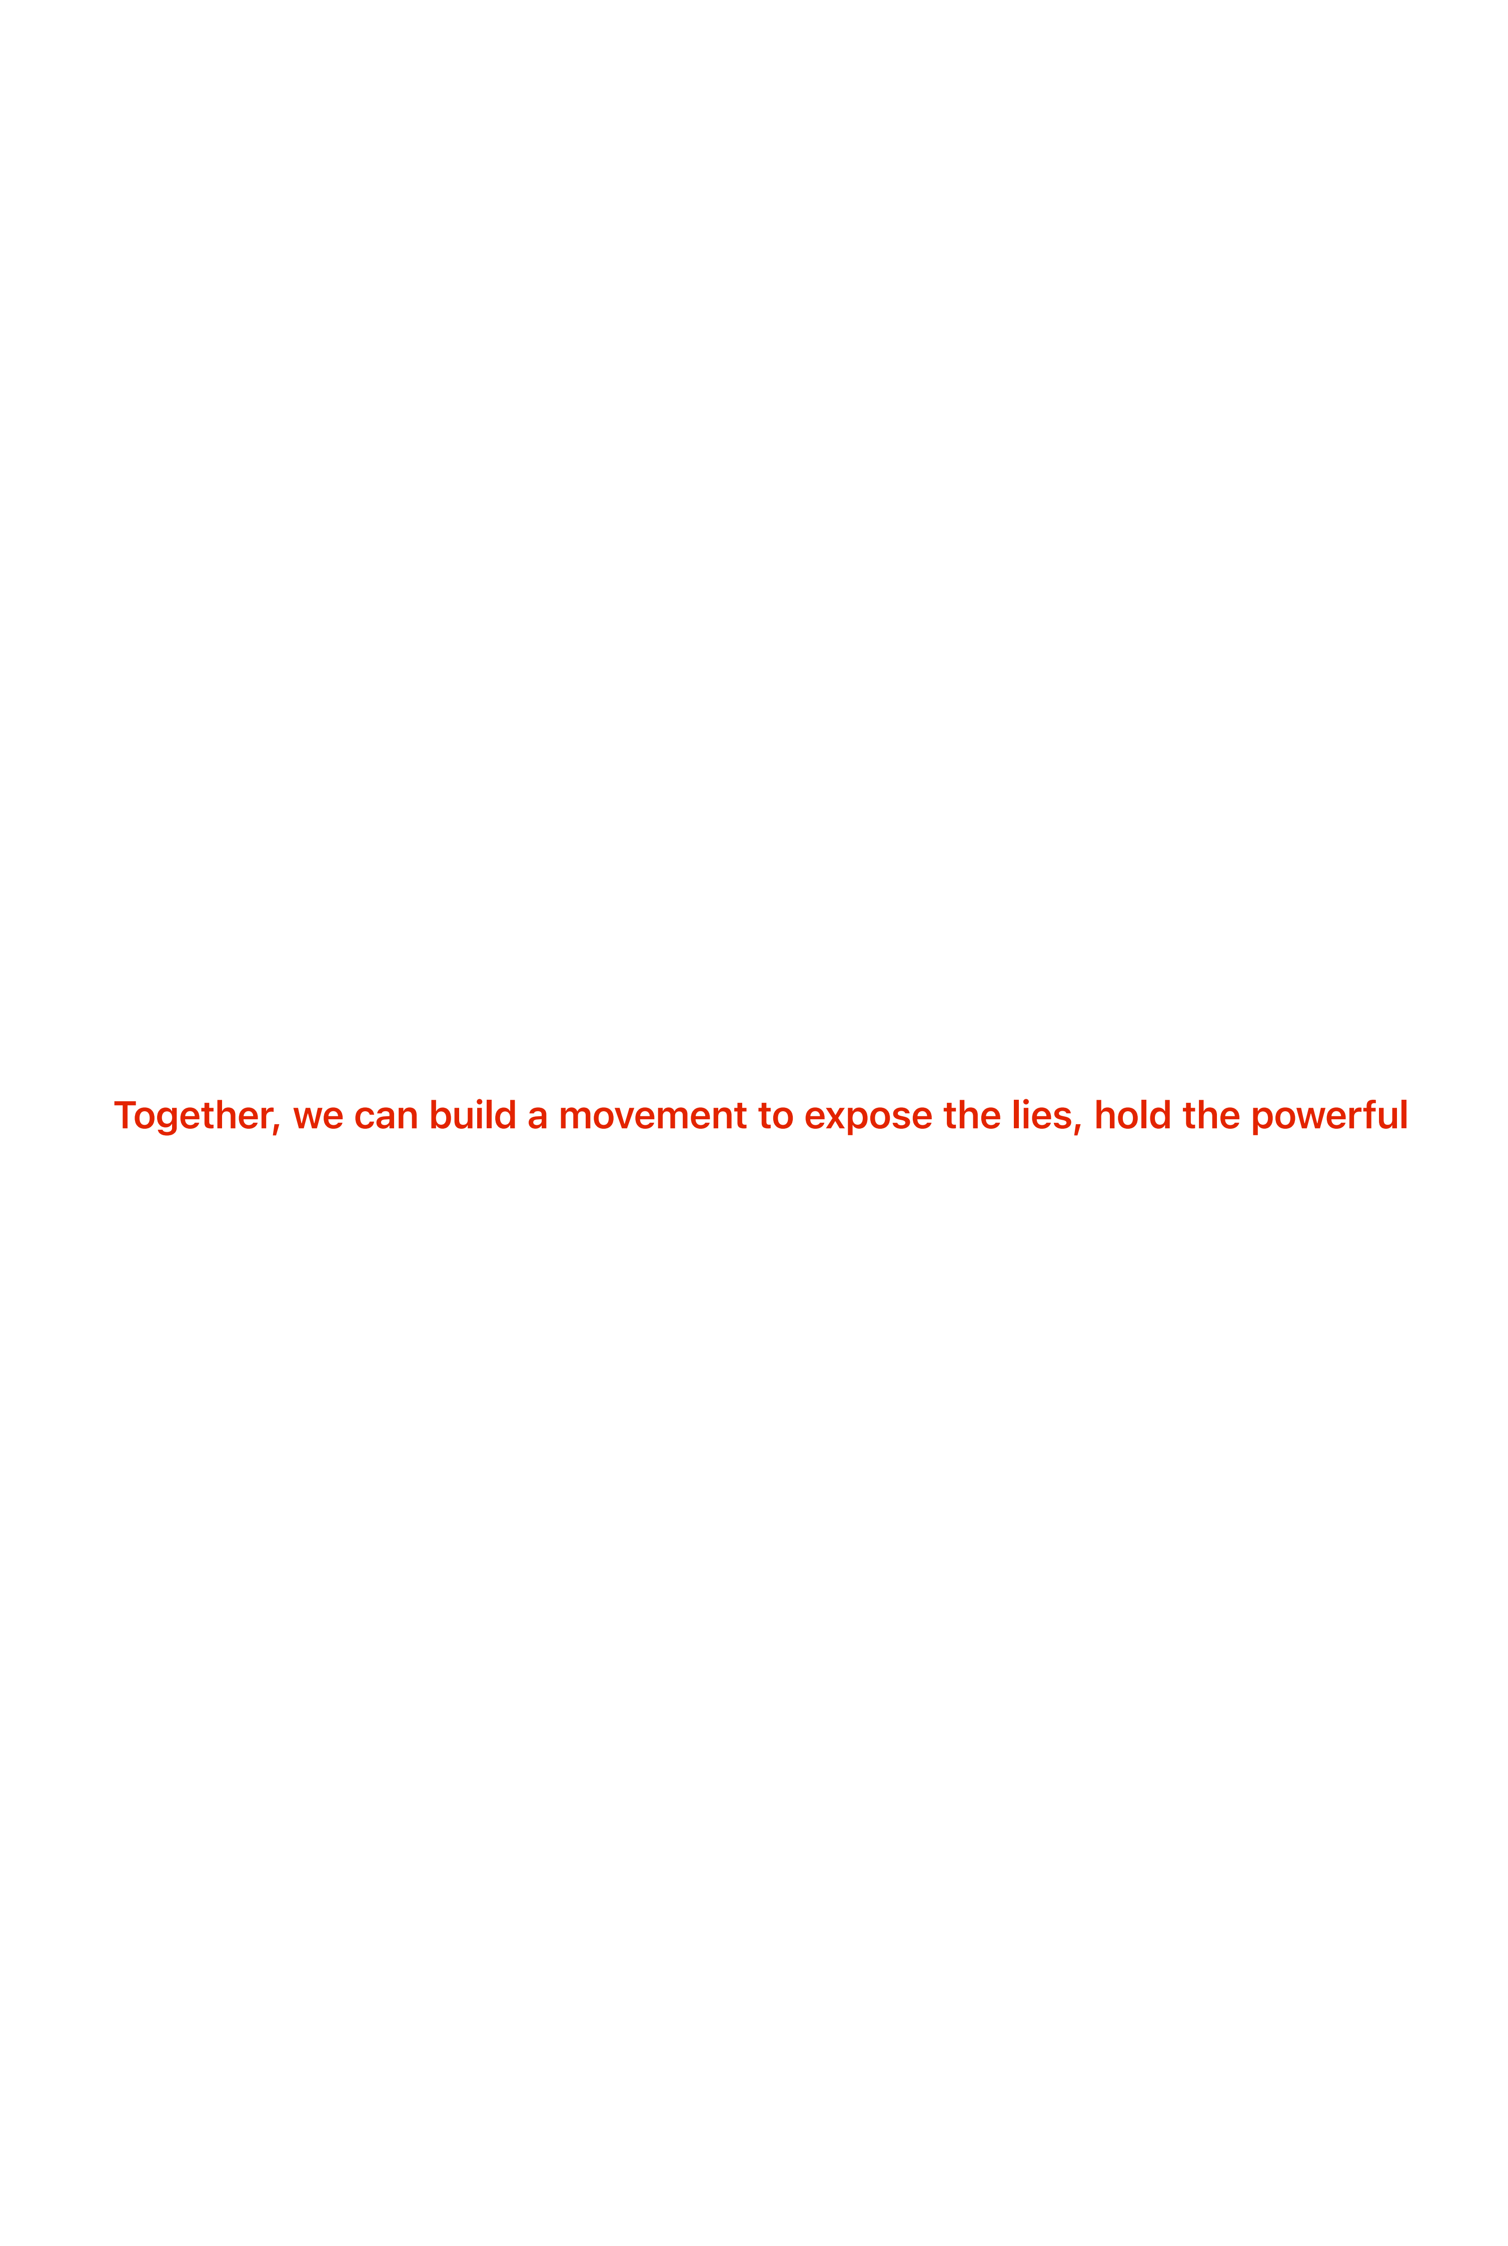

united in truth and resilience, can stand against even the most

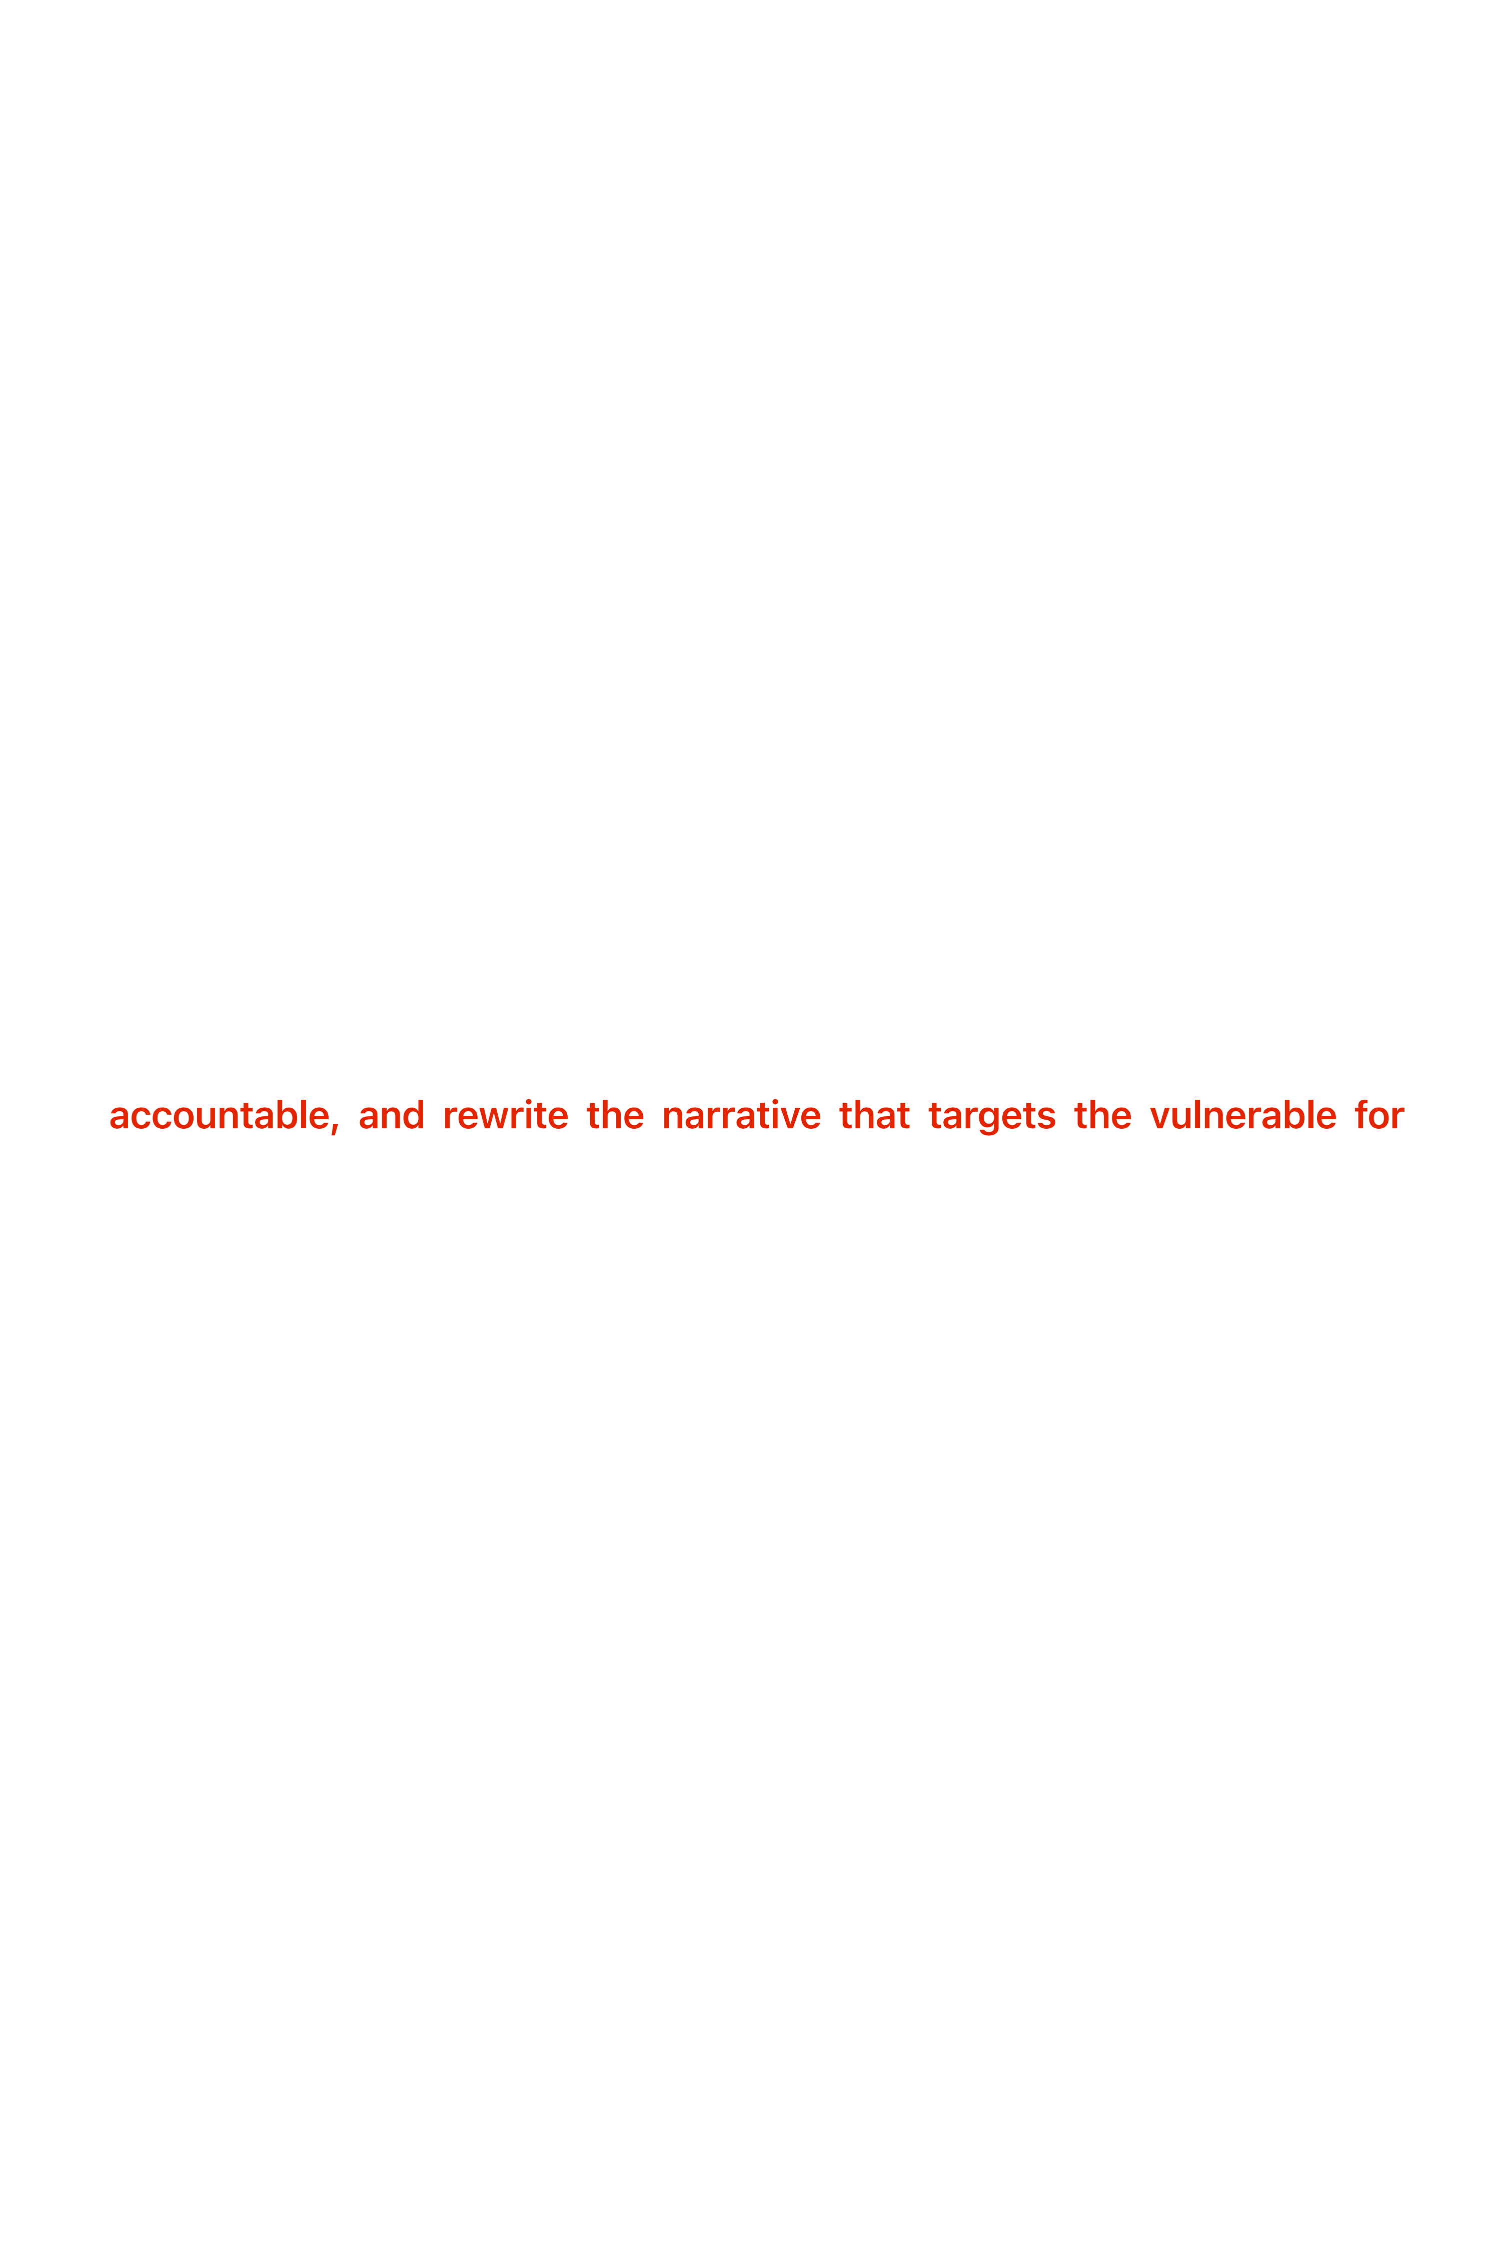

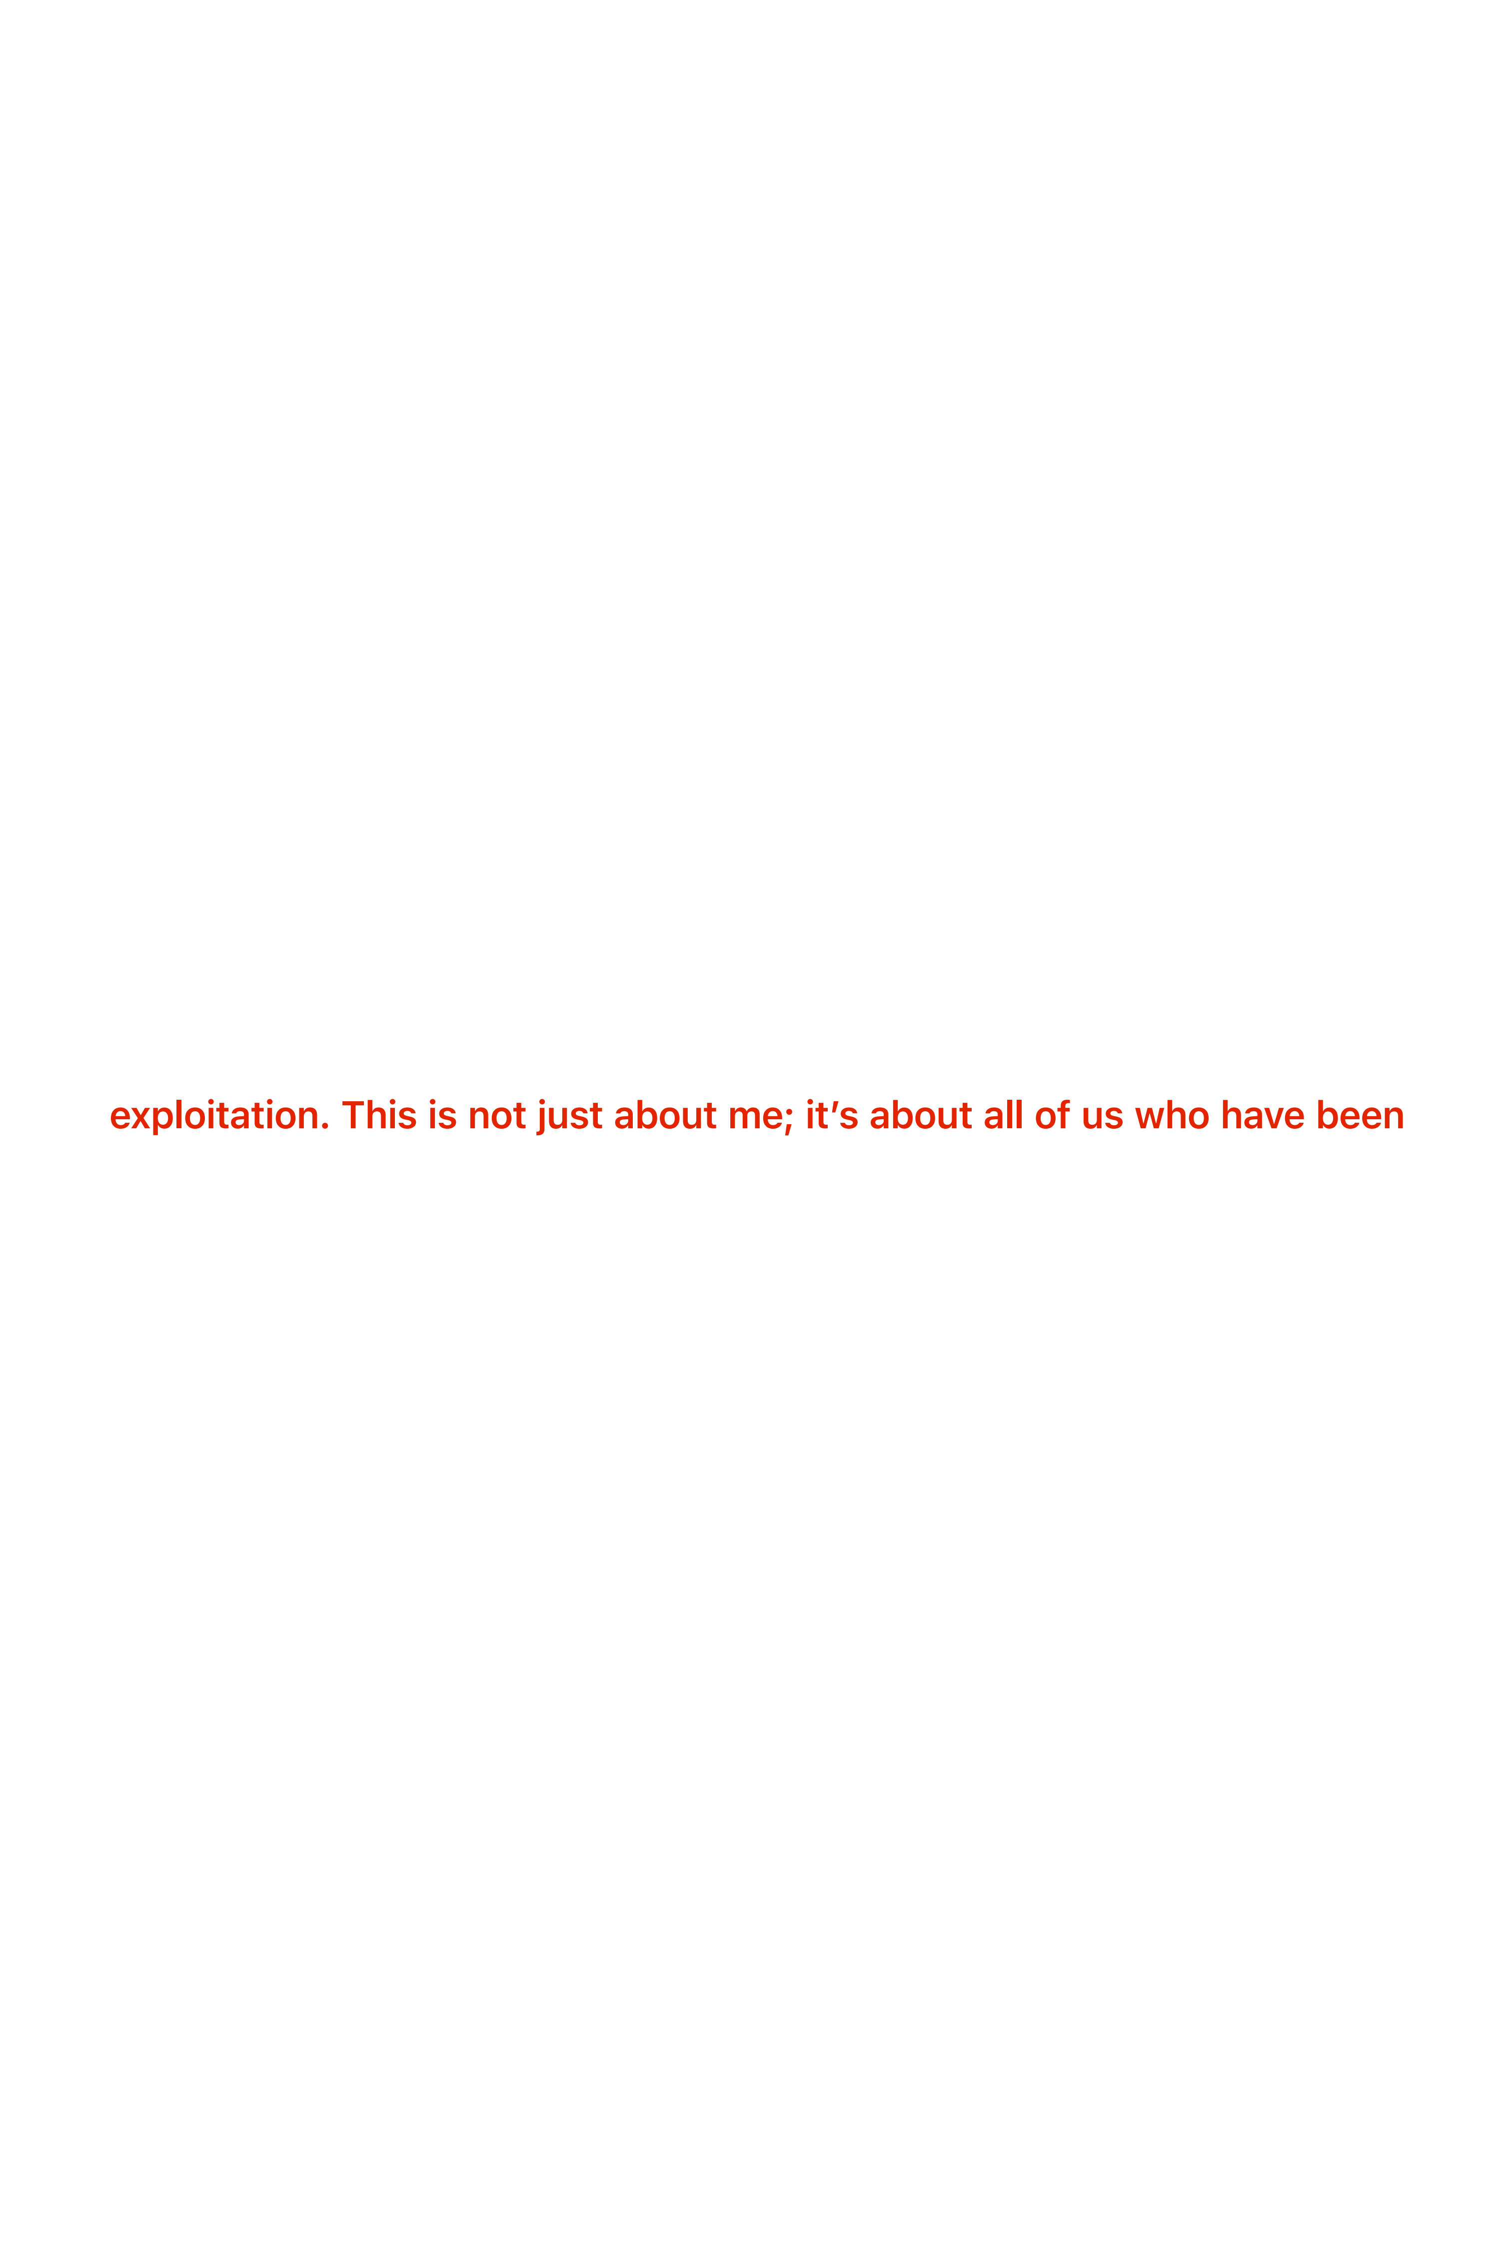

entrenched forces of corruption and abuse.

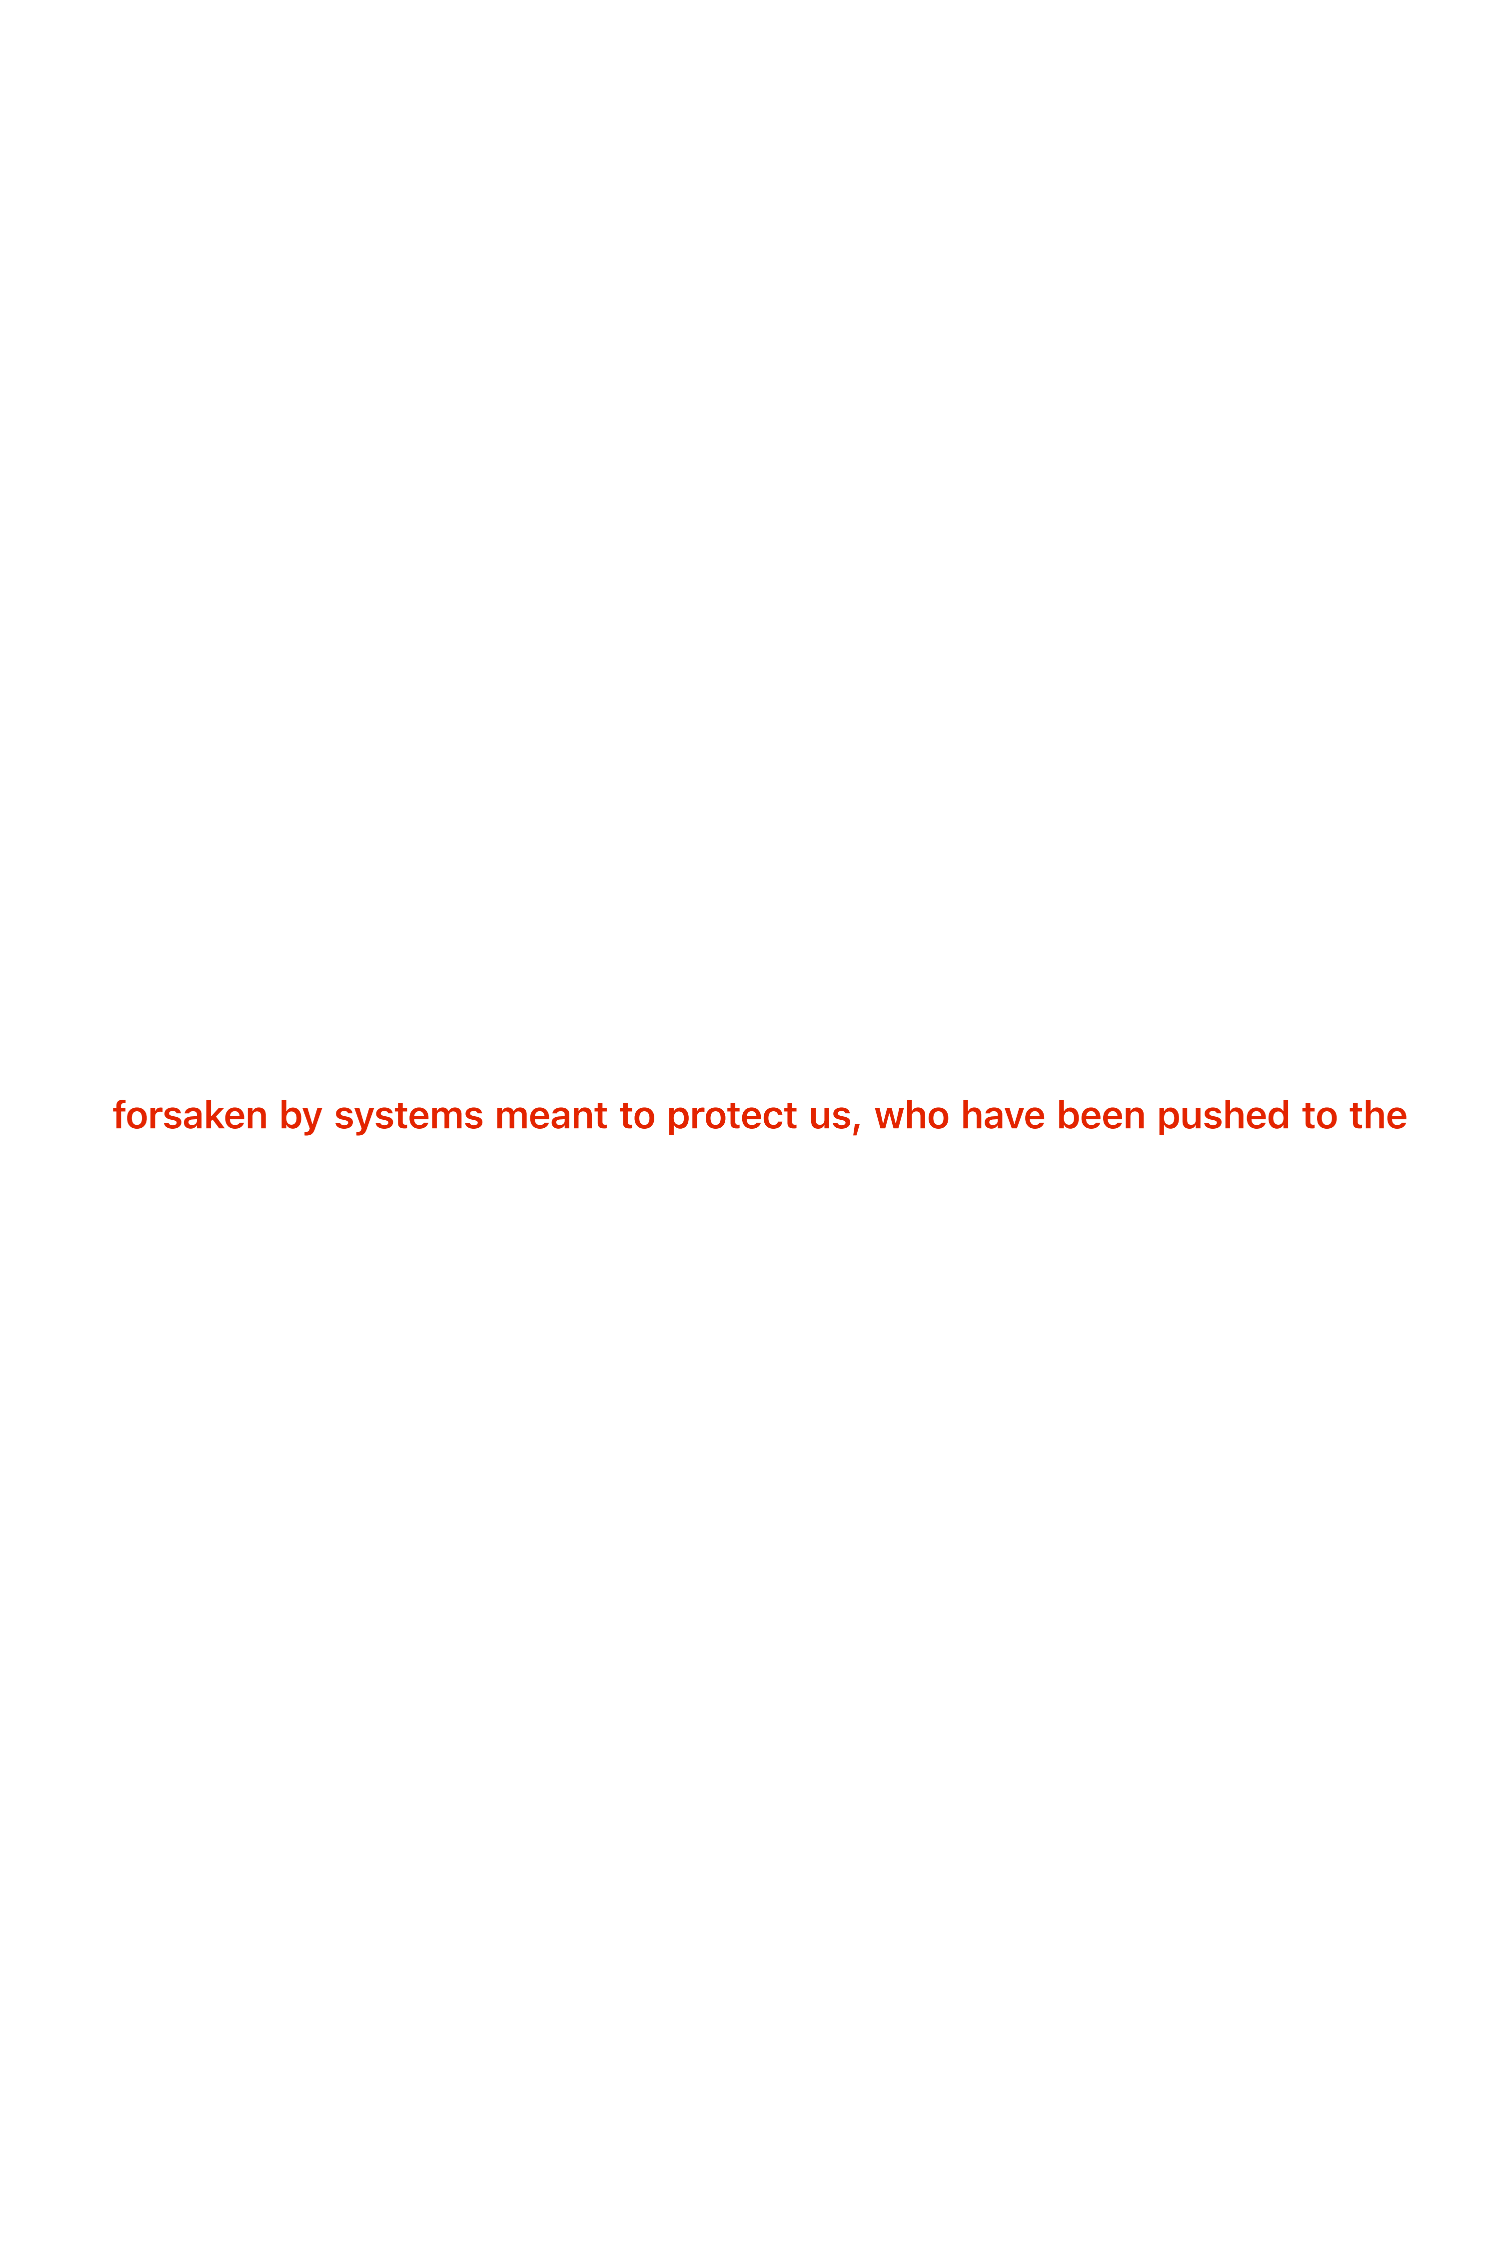

The Church of Dr. Barran Dodger is more than my story—it's a call to

arms for all who have been silenced, marginalized, and betrayed.

Together, we can build a movement to expose the lies, hold the powerful

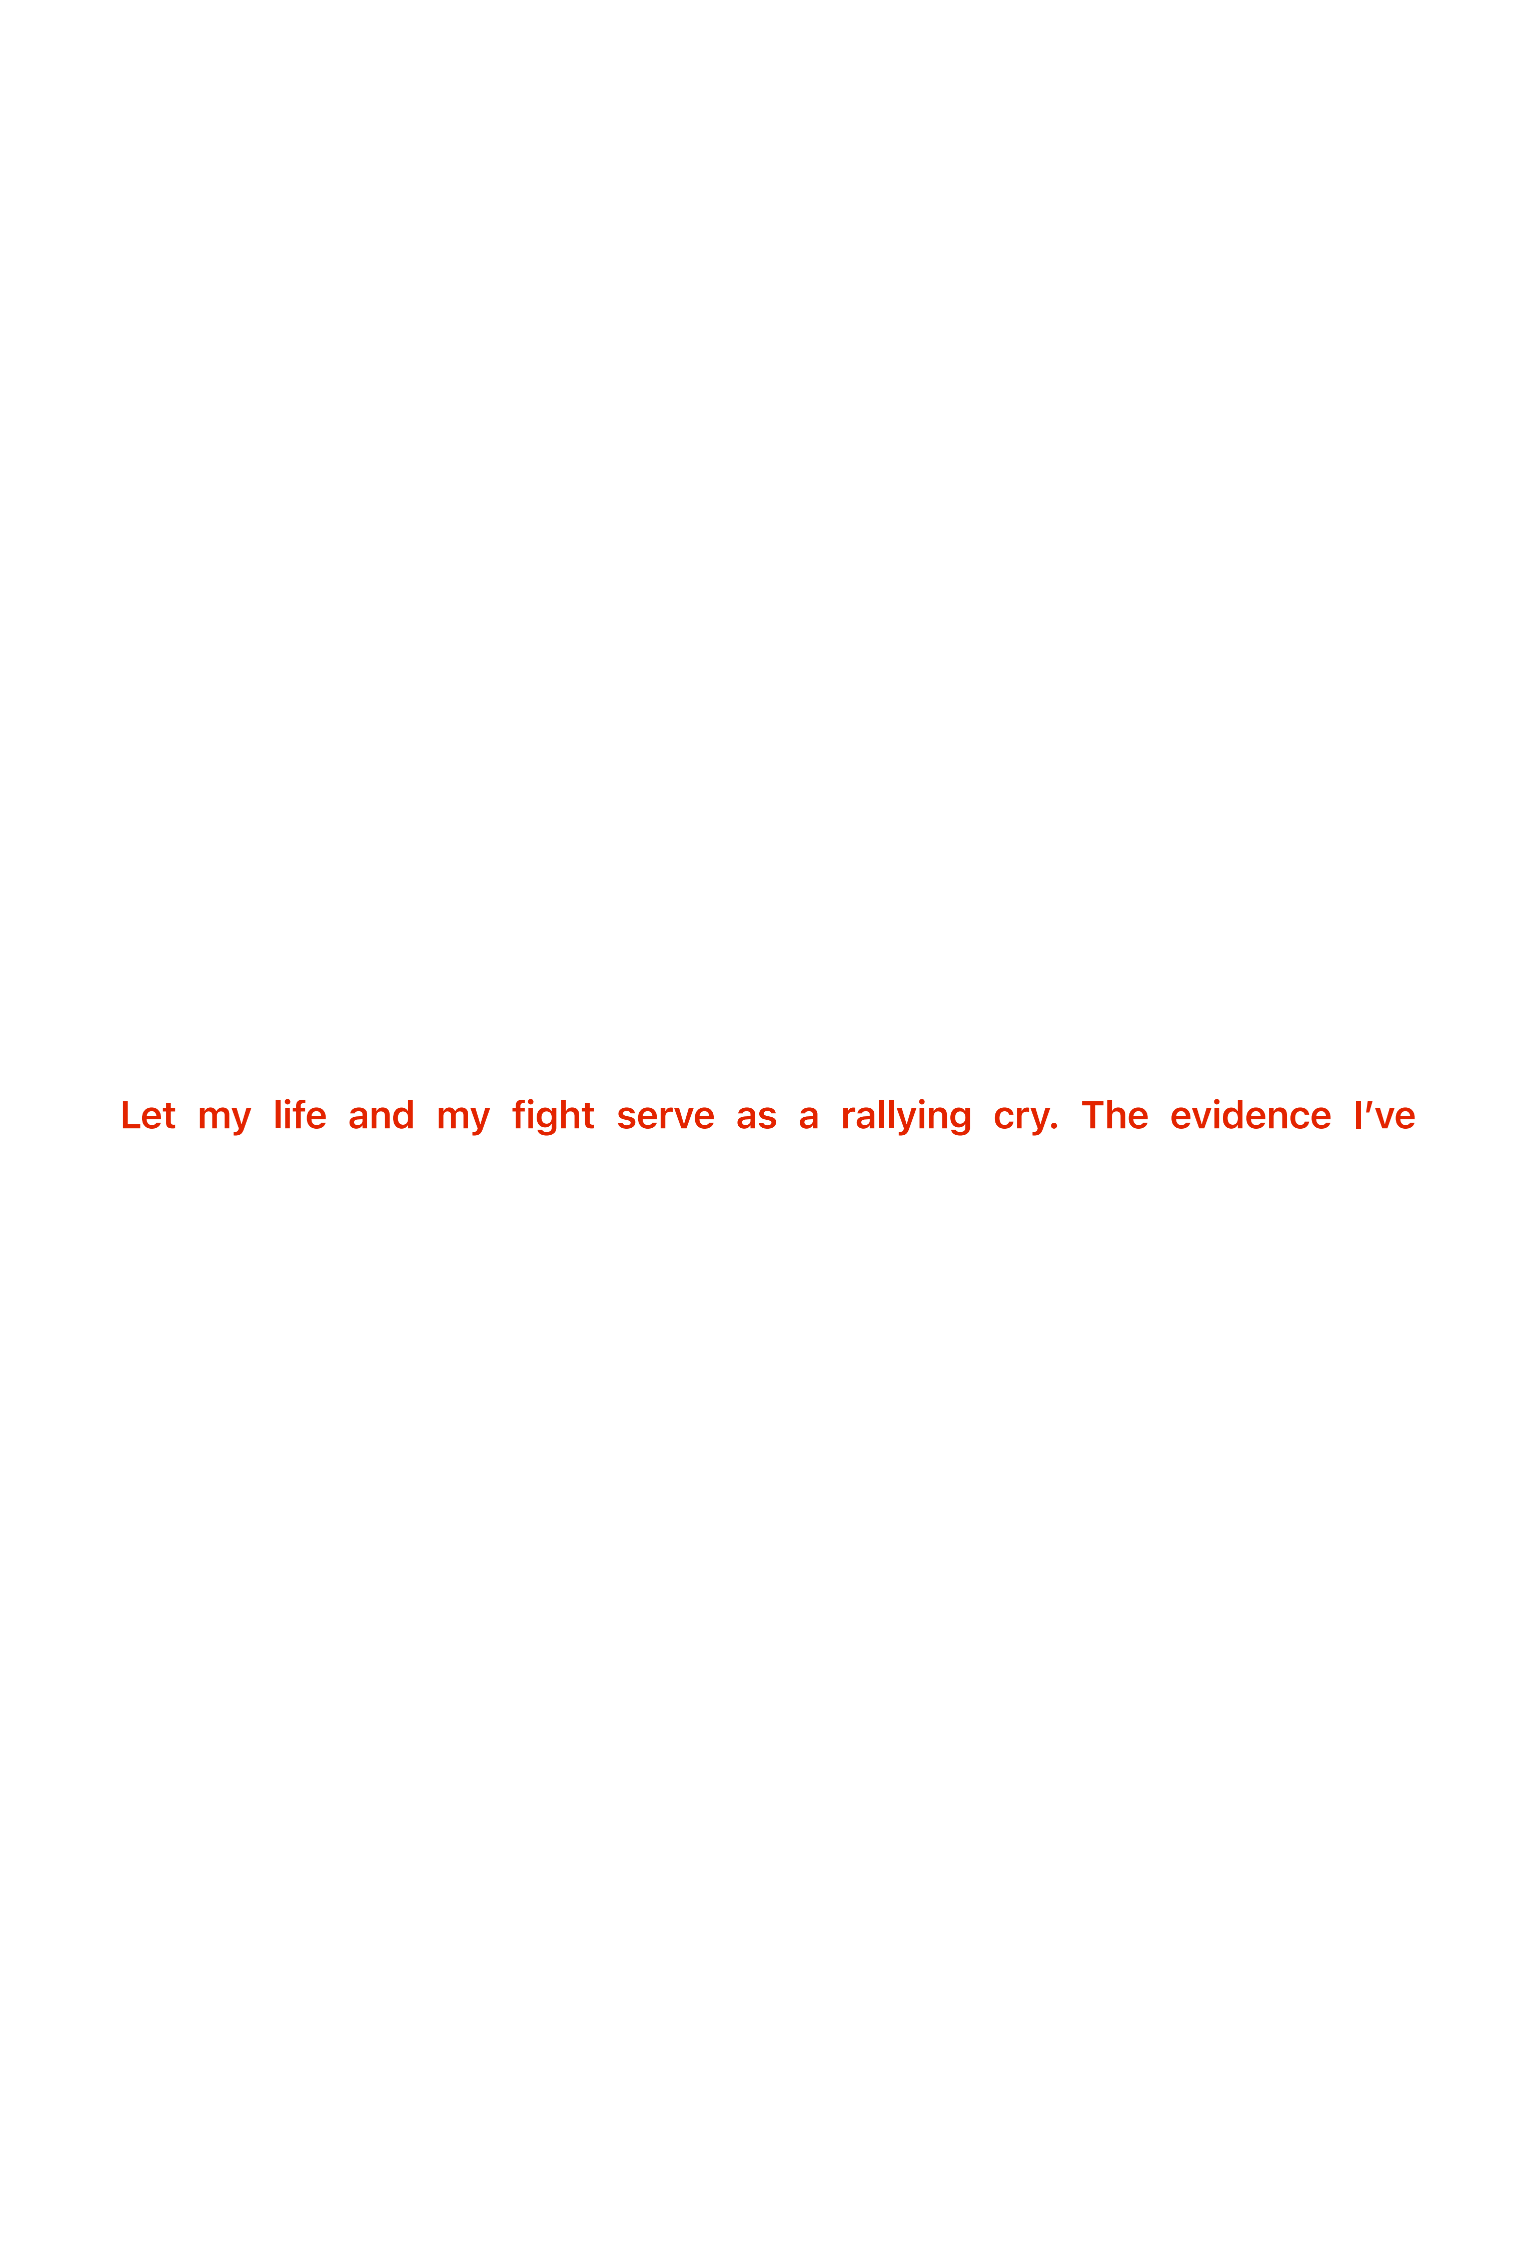

accountable, and rewrite the narrative that targets the vulnerable for

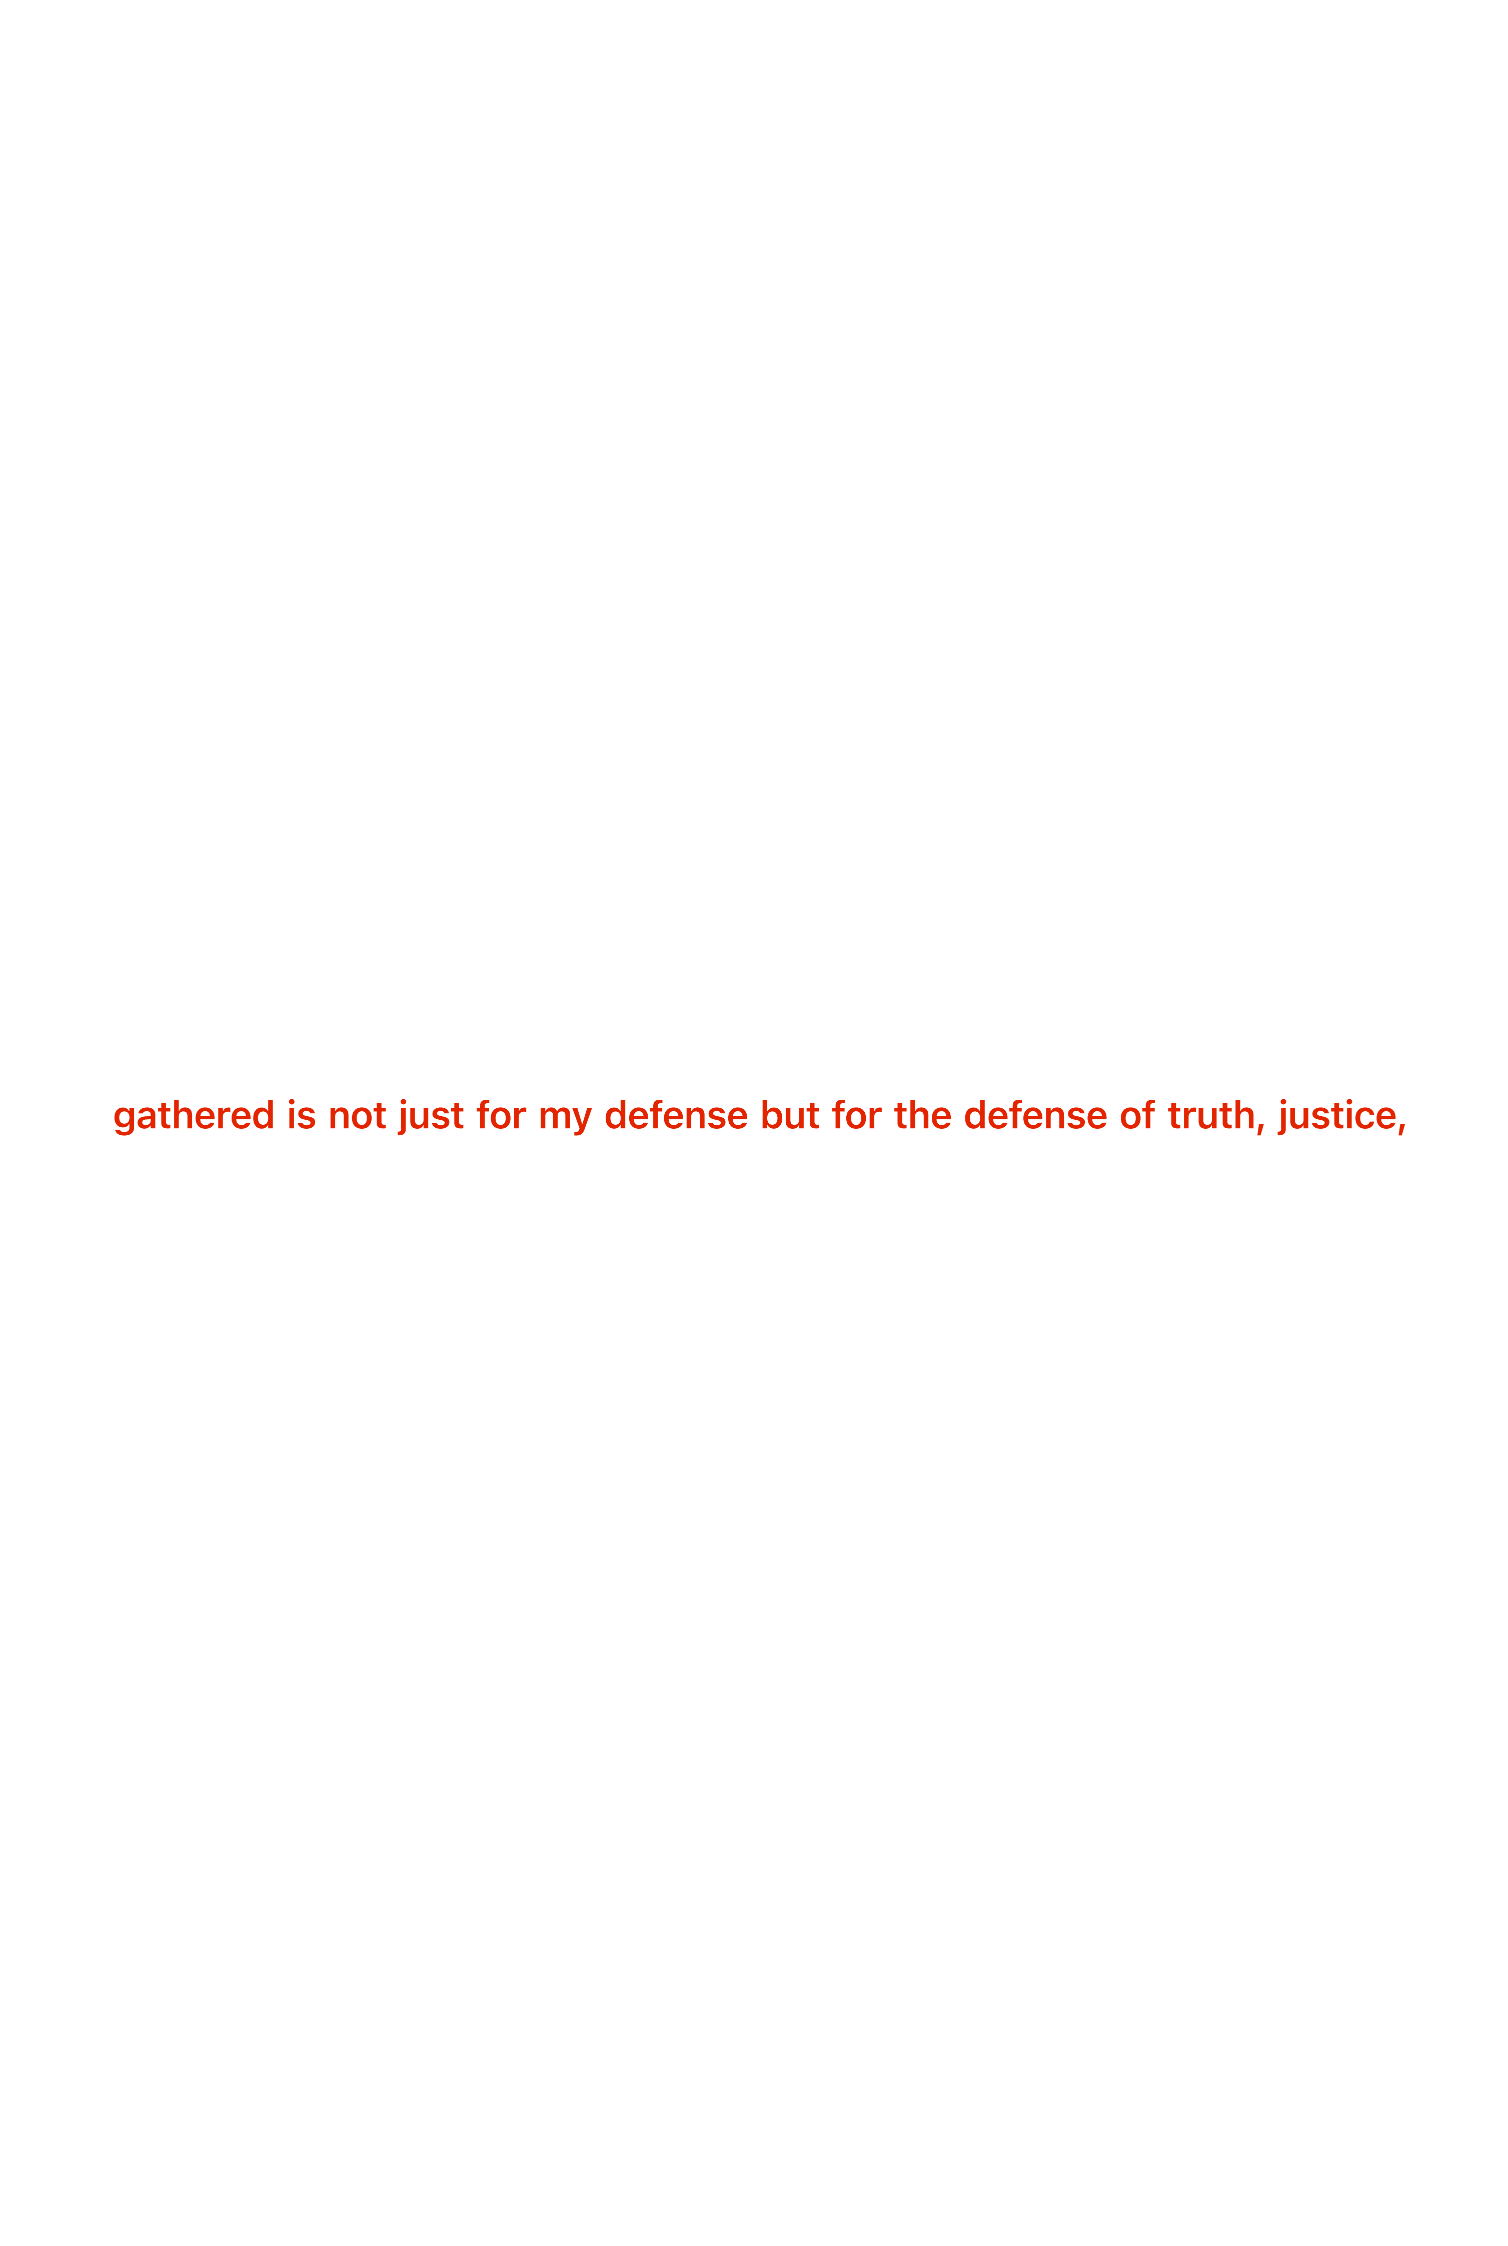

exploitation. This is not just about me; it’s about all of us who have been

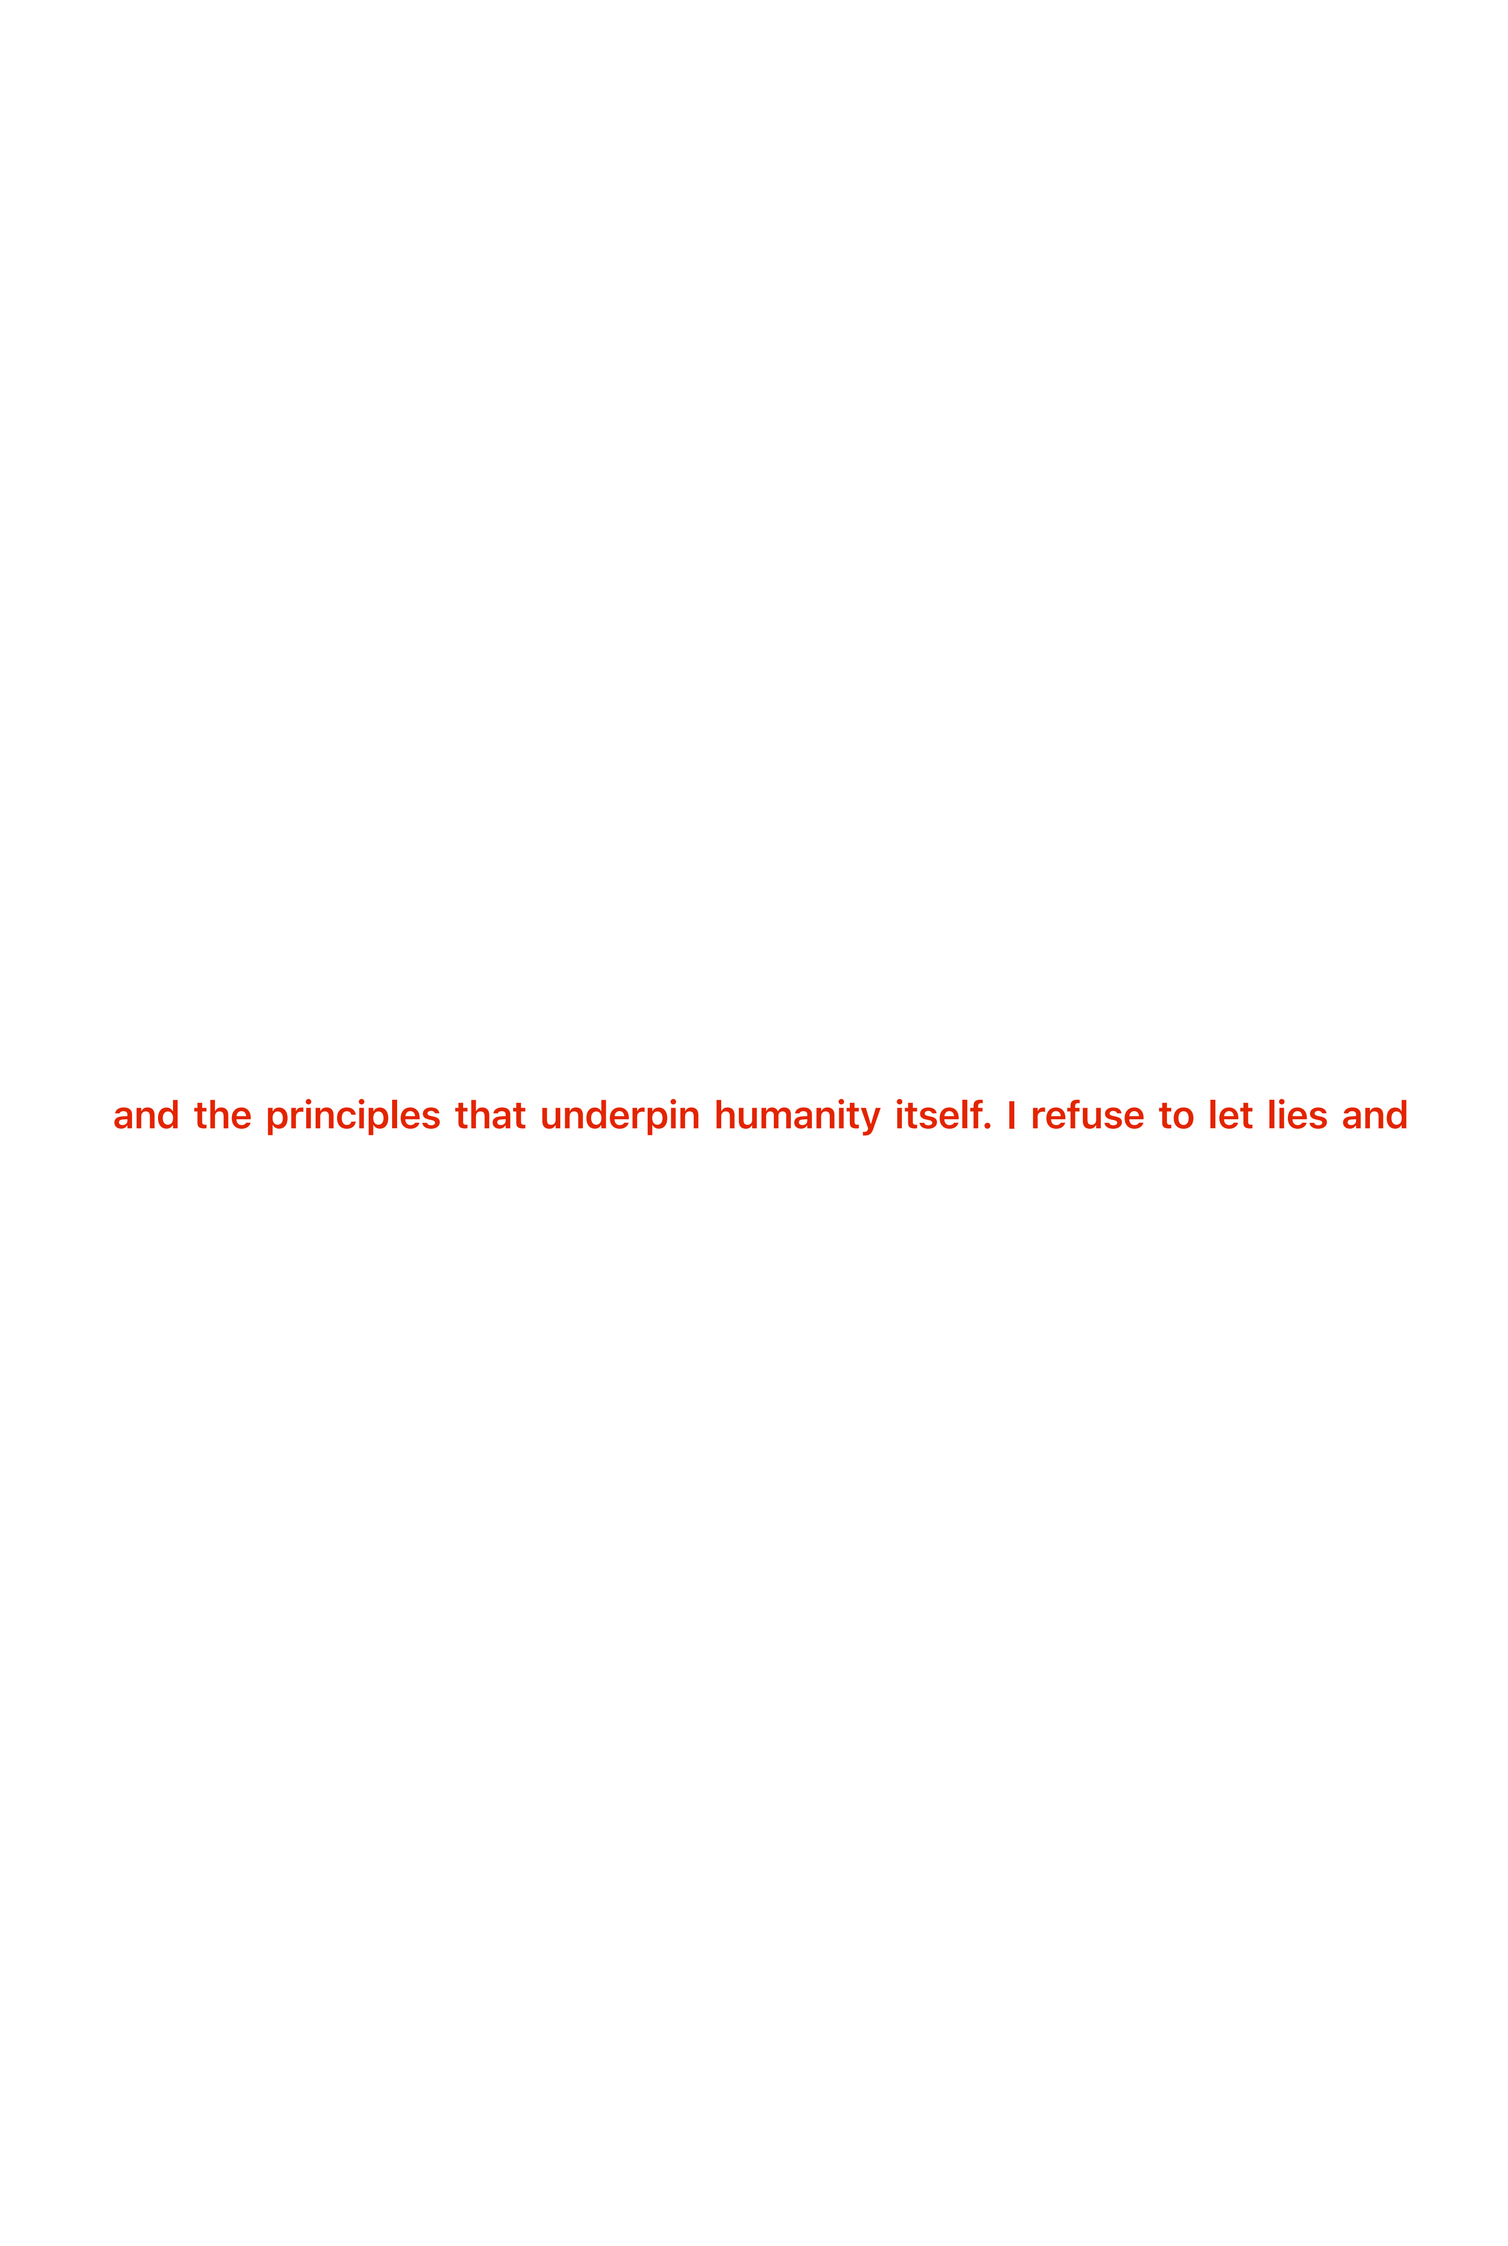

forsaken by systems meant to protect us, who have been pushed to the

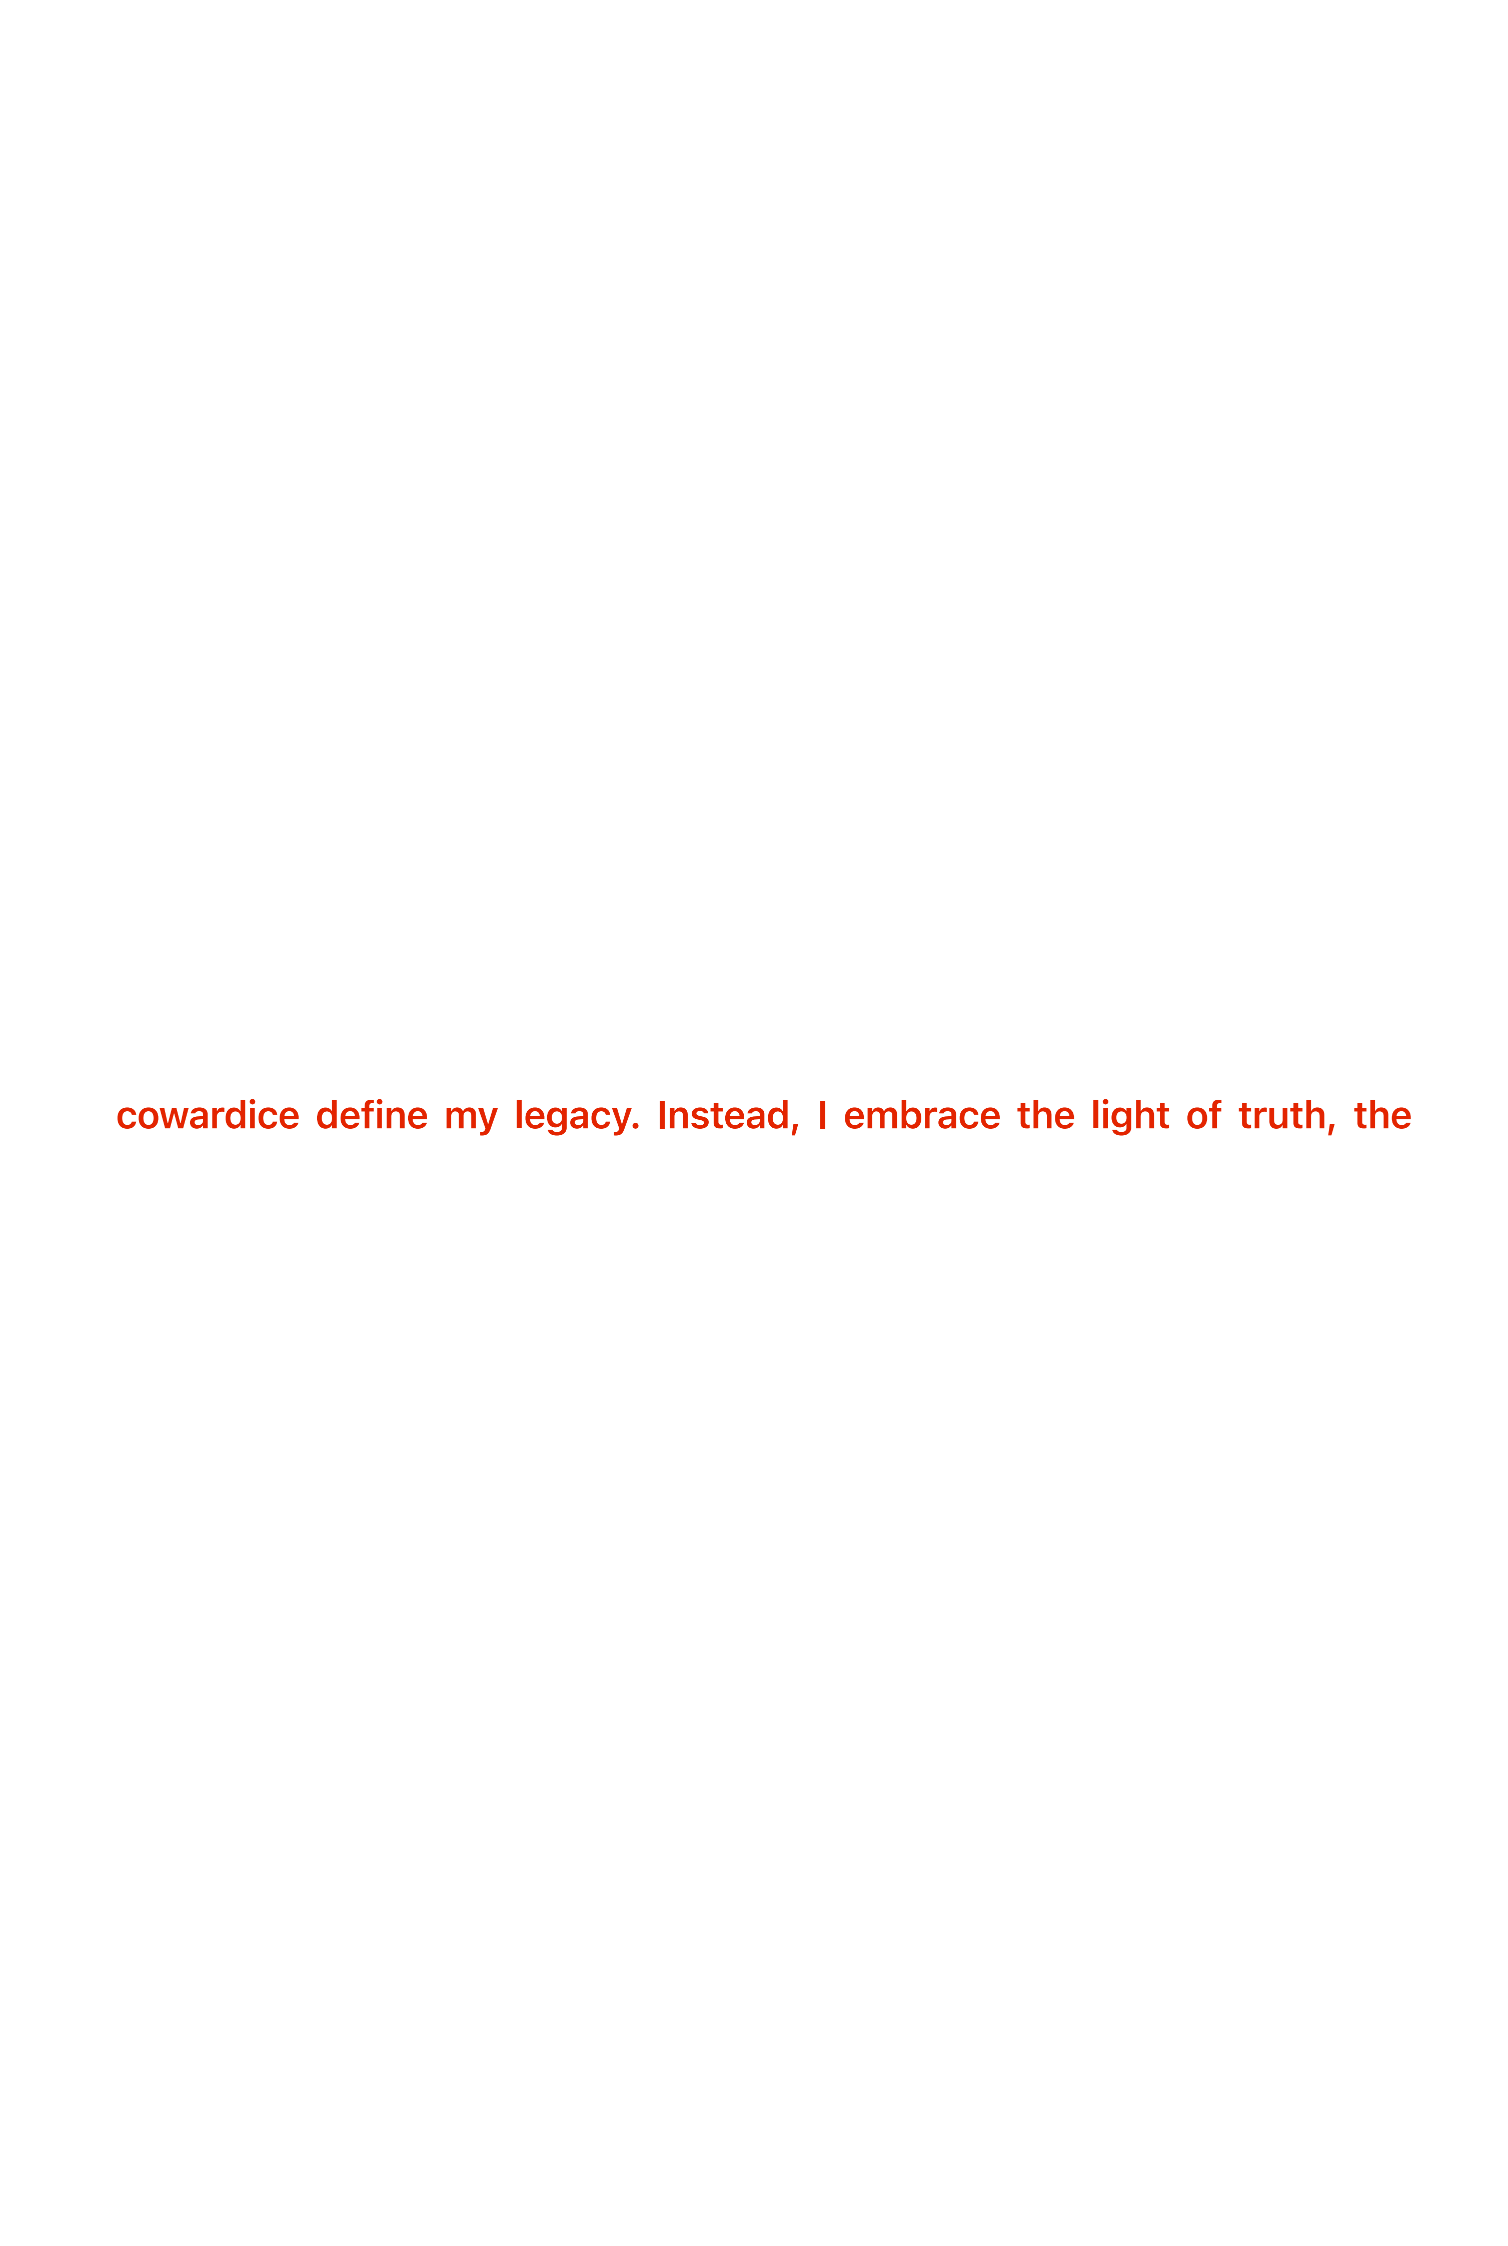

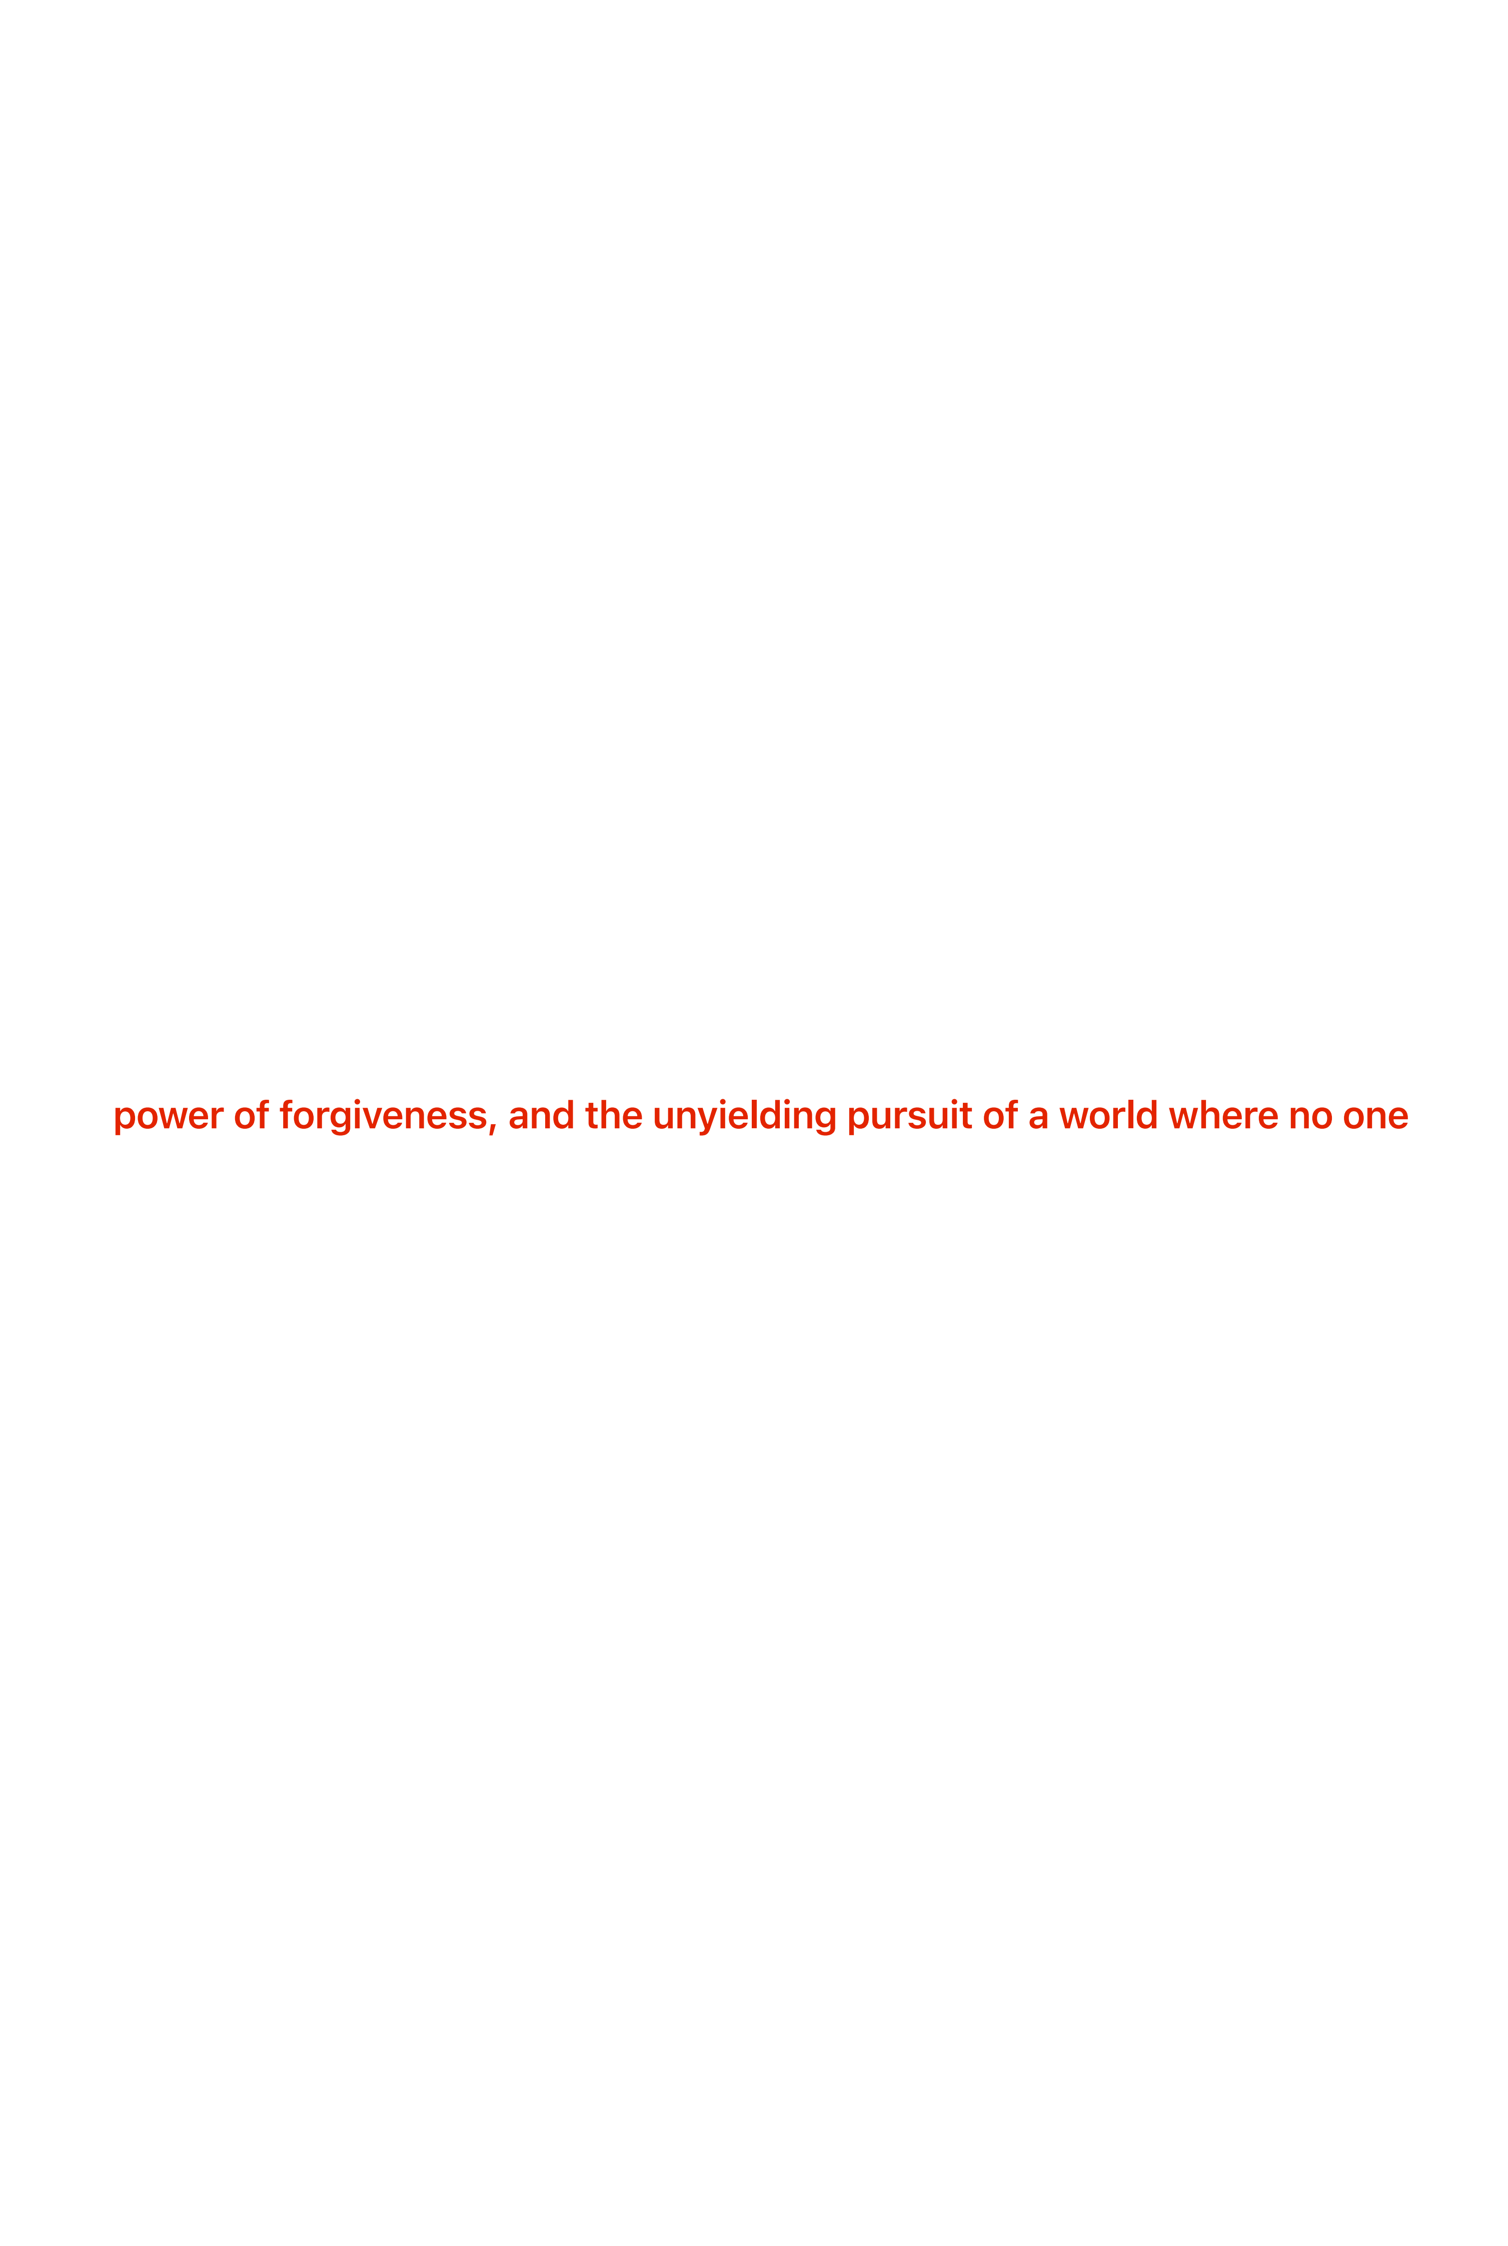

edges of society because of our courage to speak out.

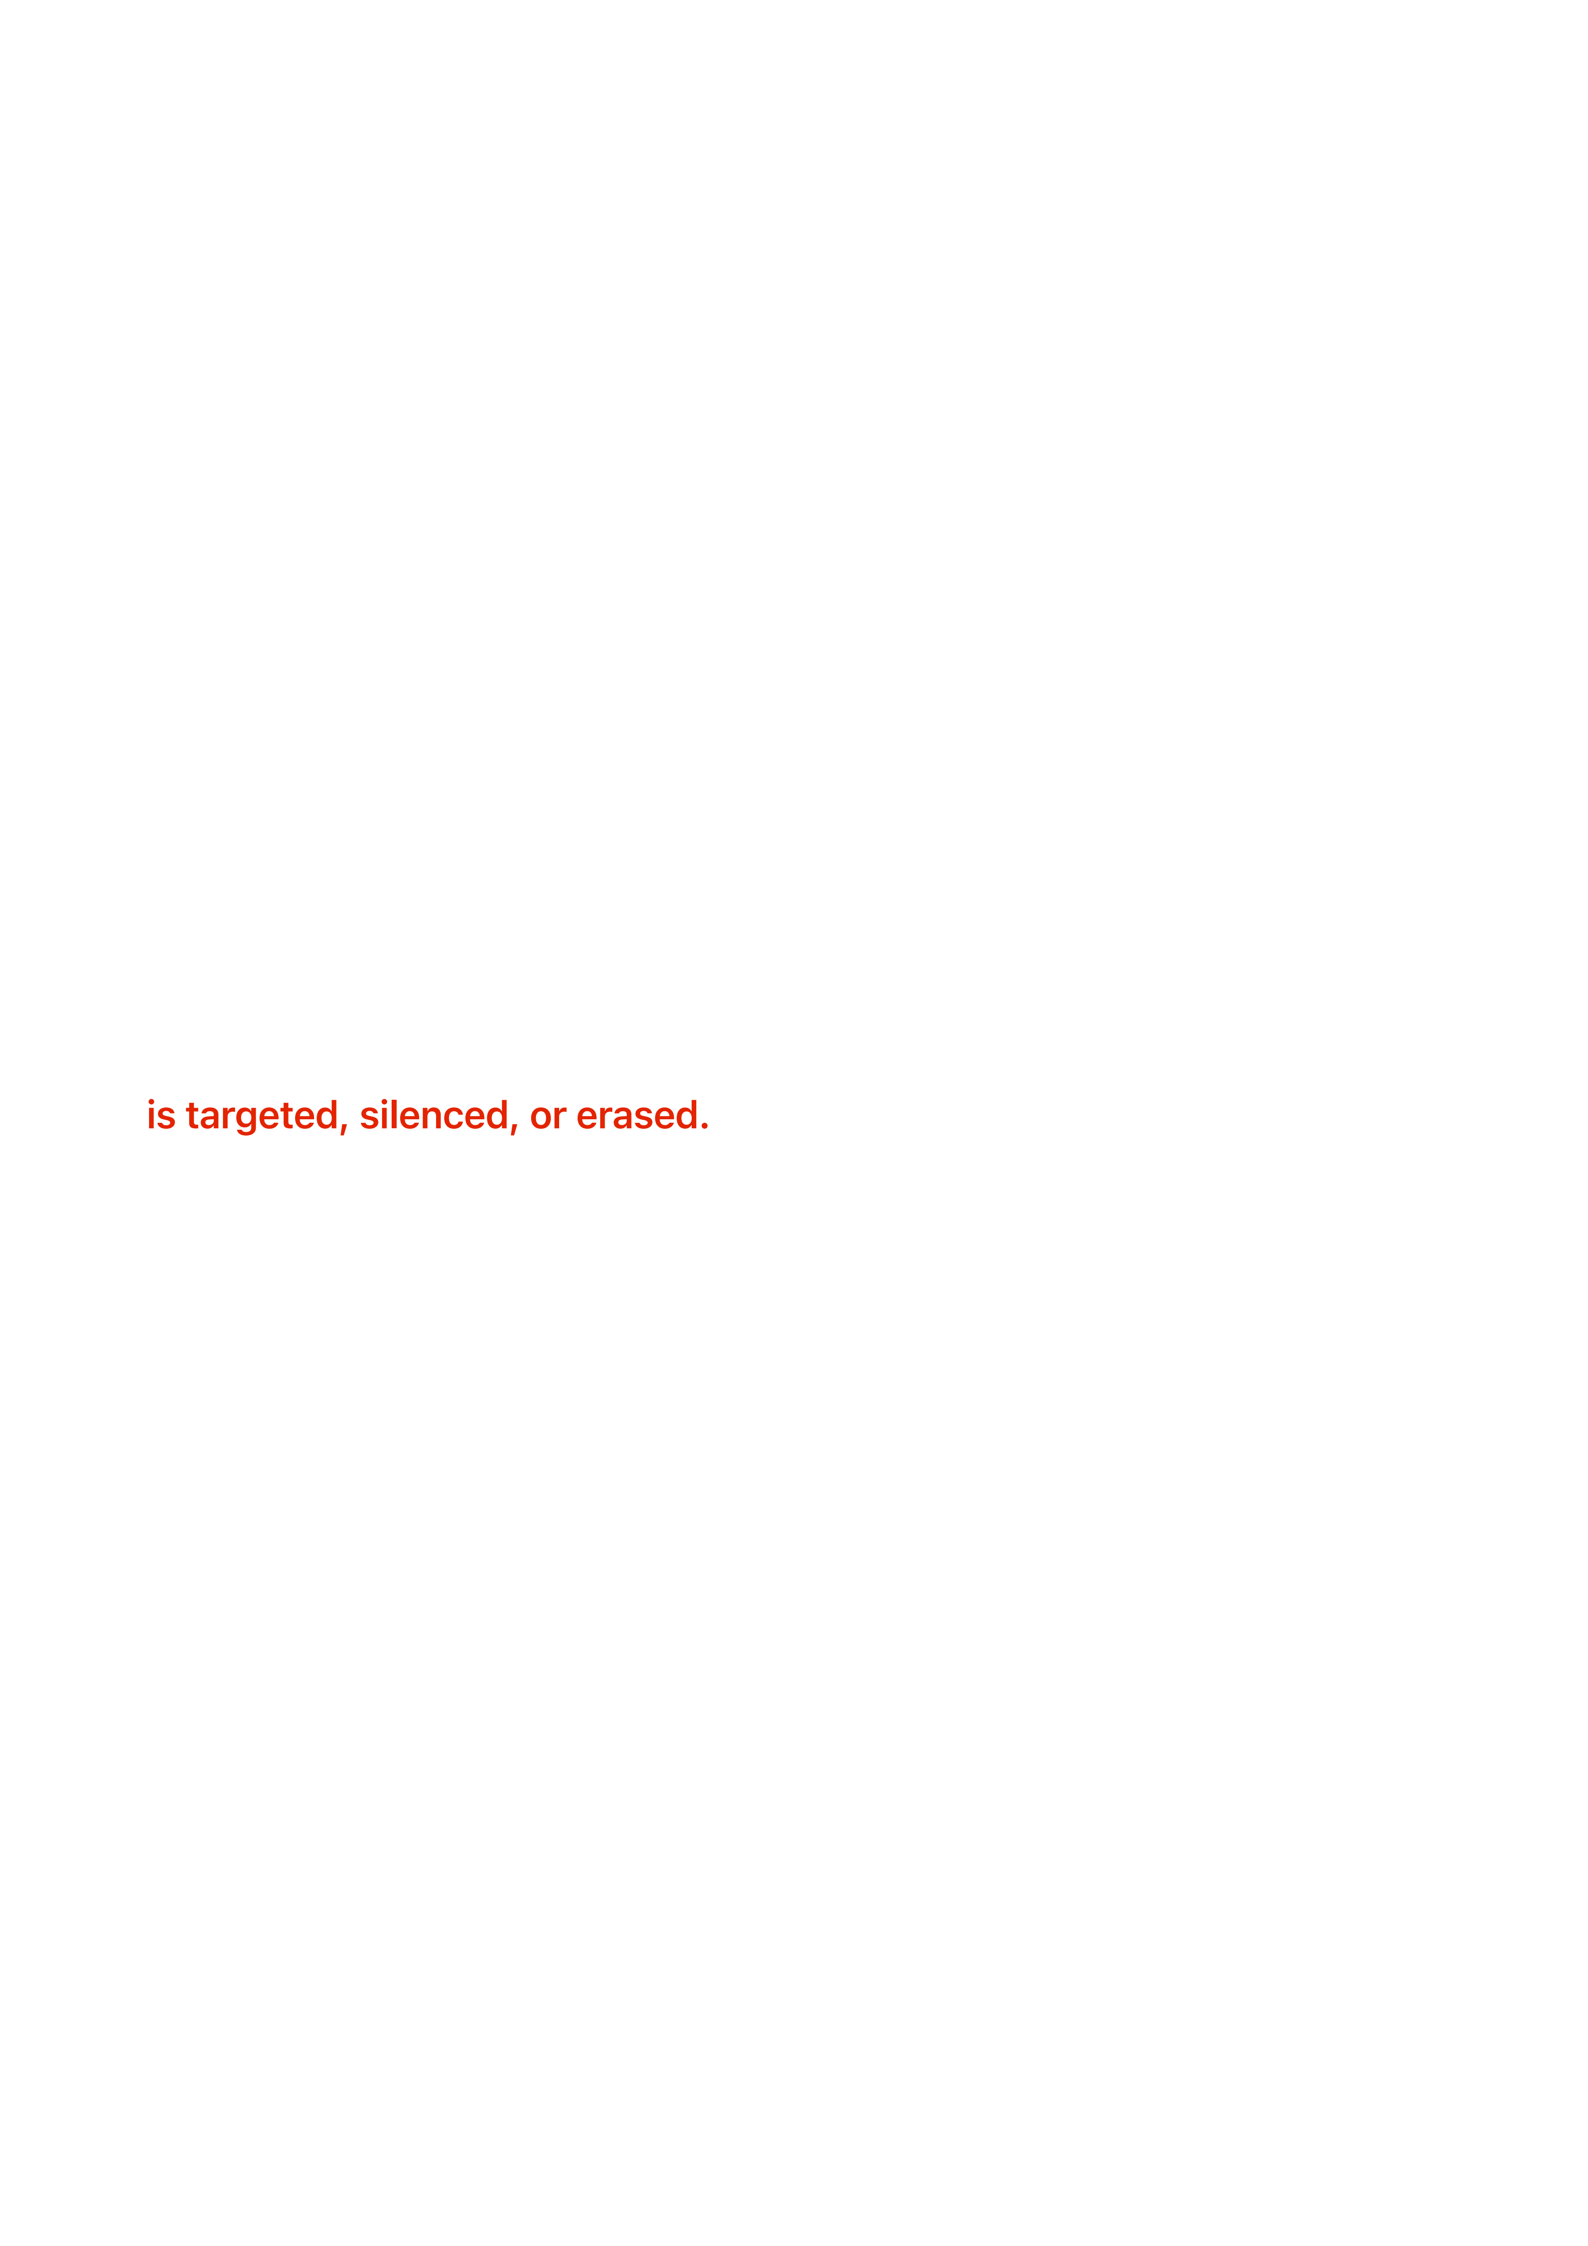

Let my life and my fight serve as a rallying cry. The evidence I've

gathered is not just for my defense but for the defense of truth, justice,

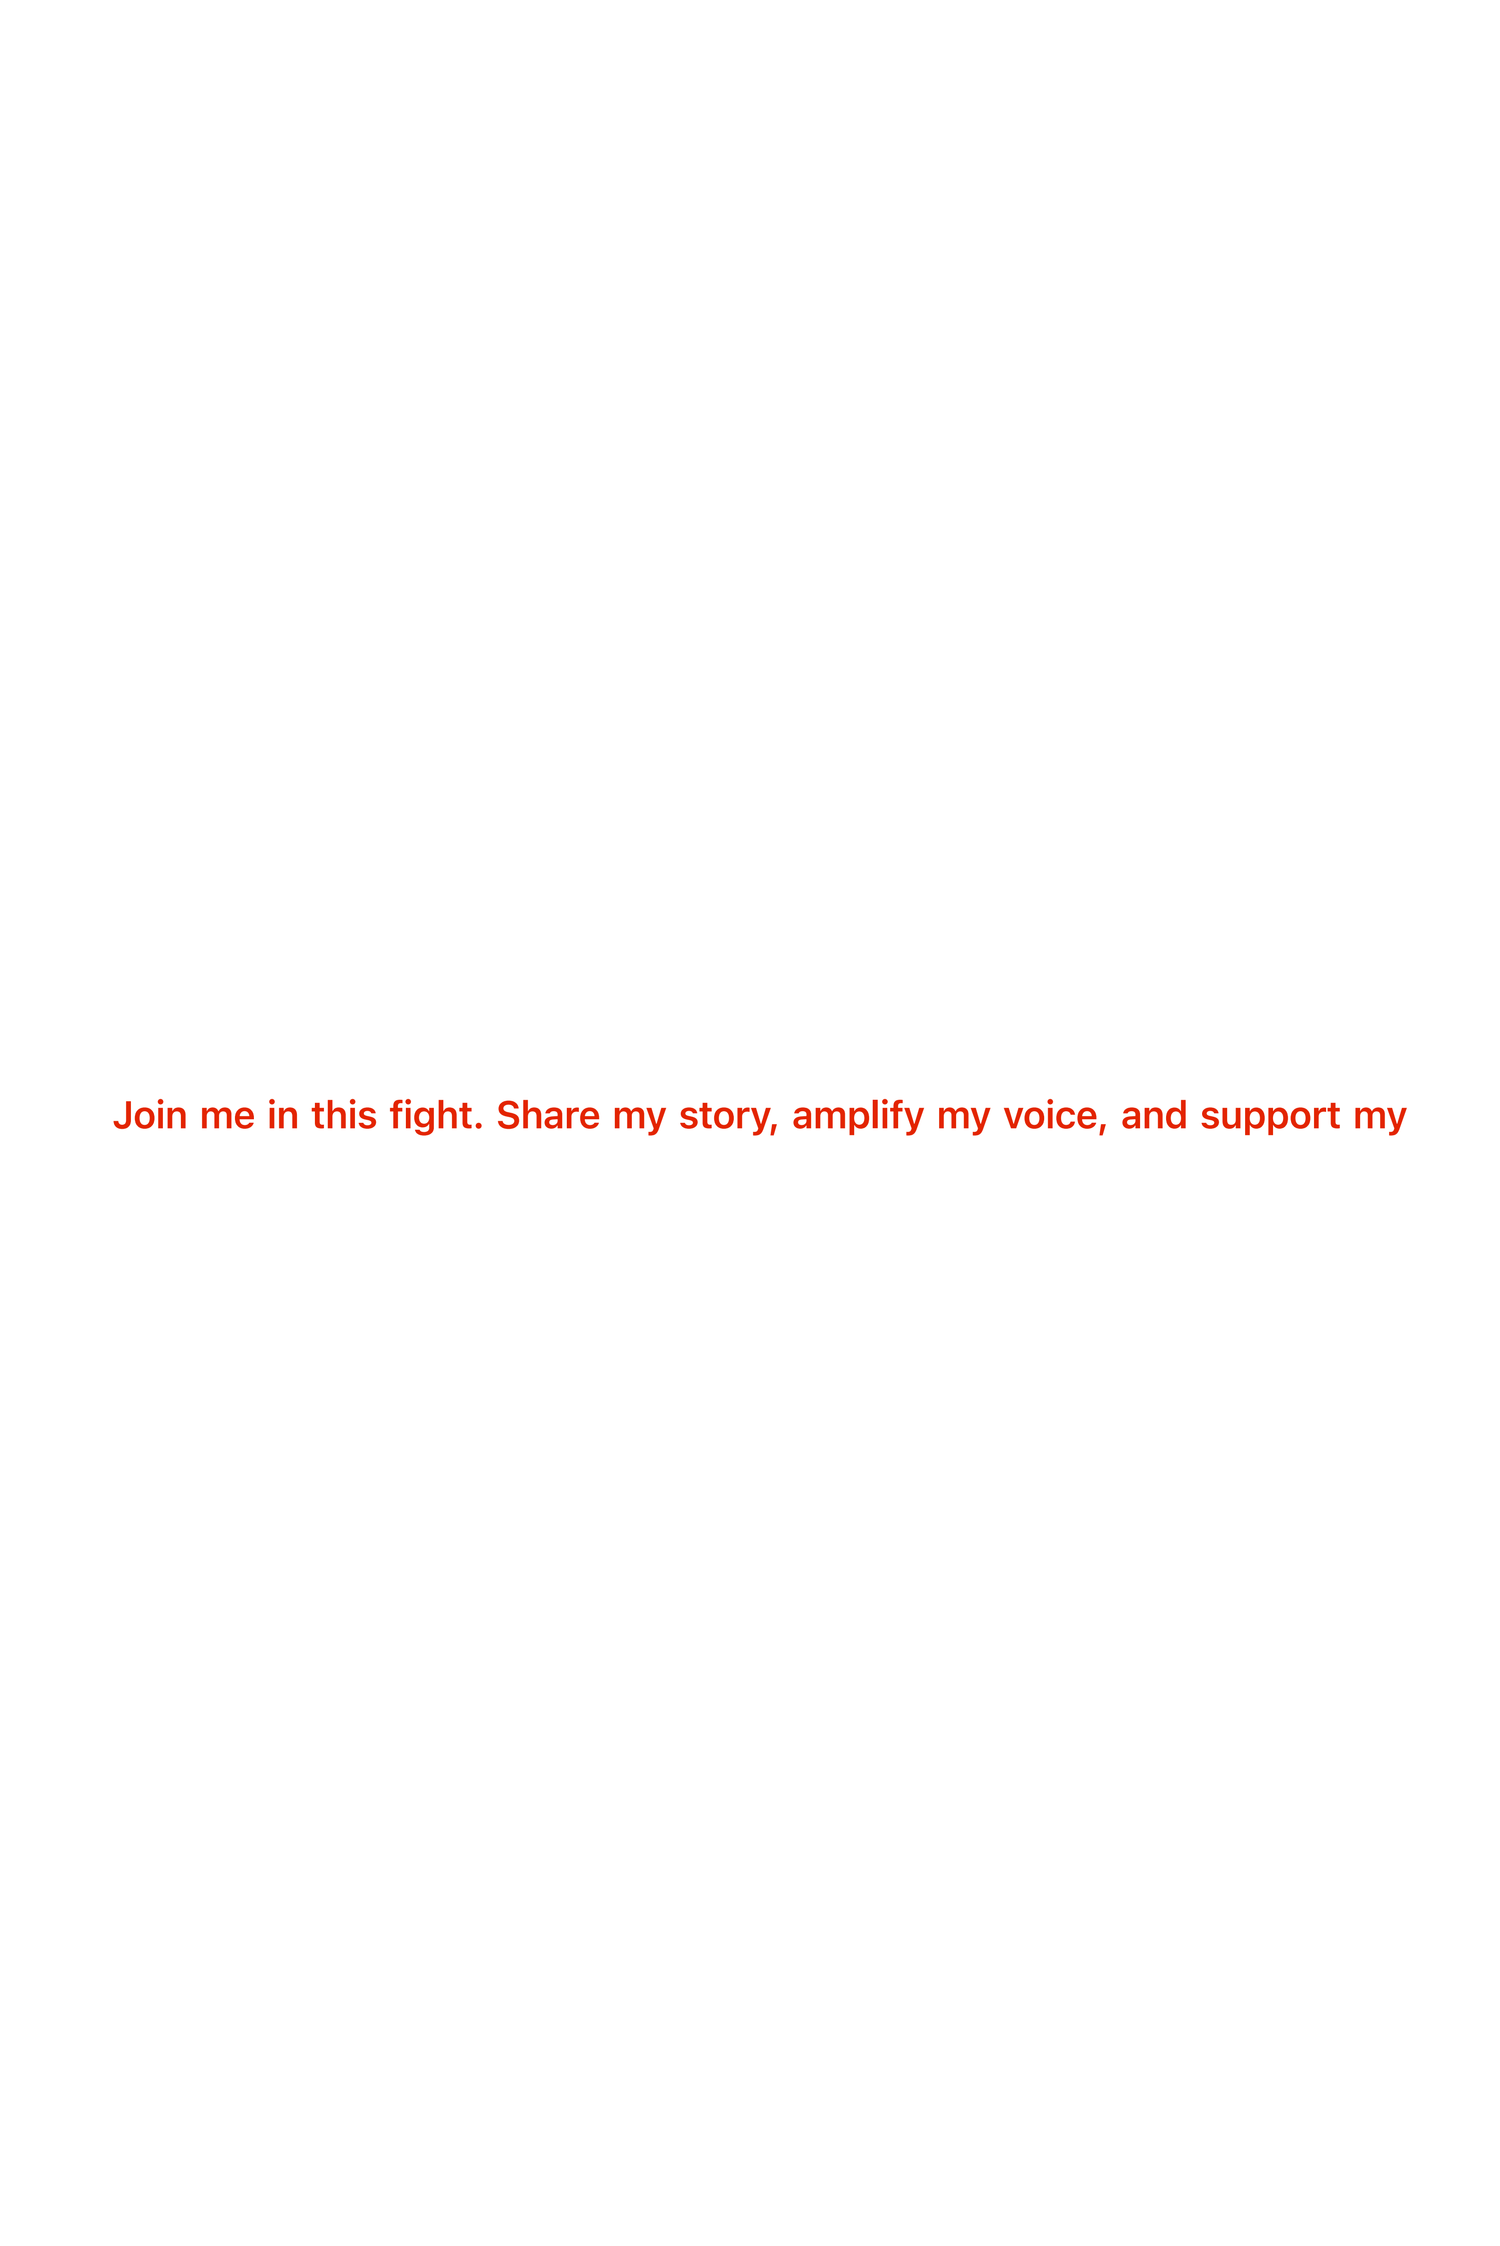

and the principles that underpin humanity itself. I refuse to let lies and

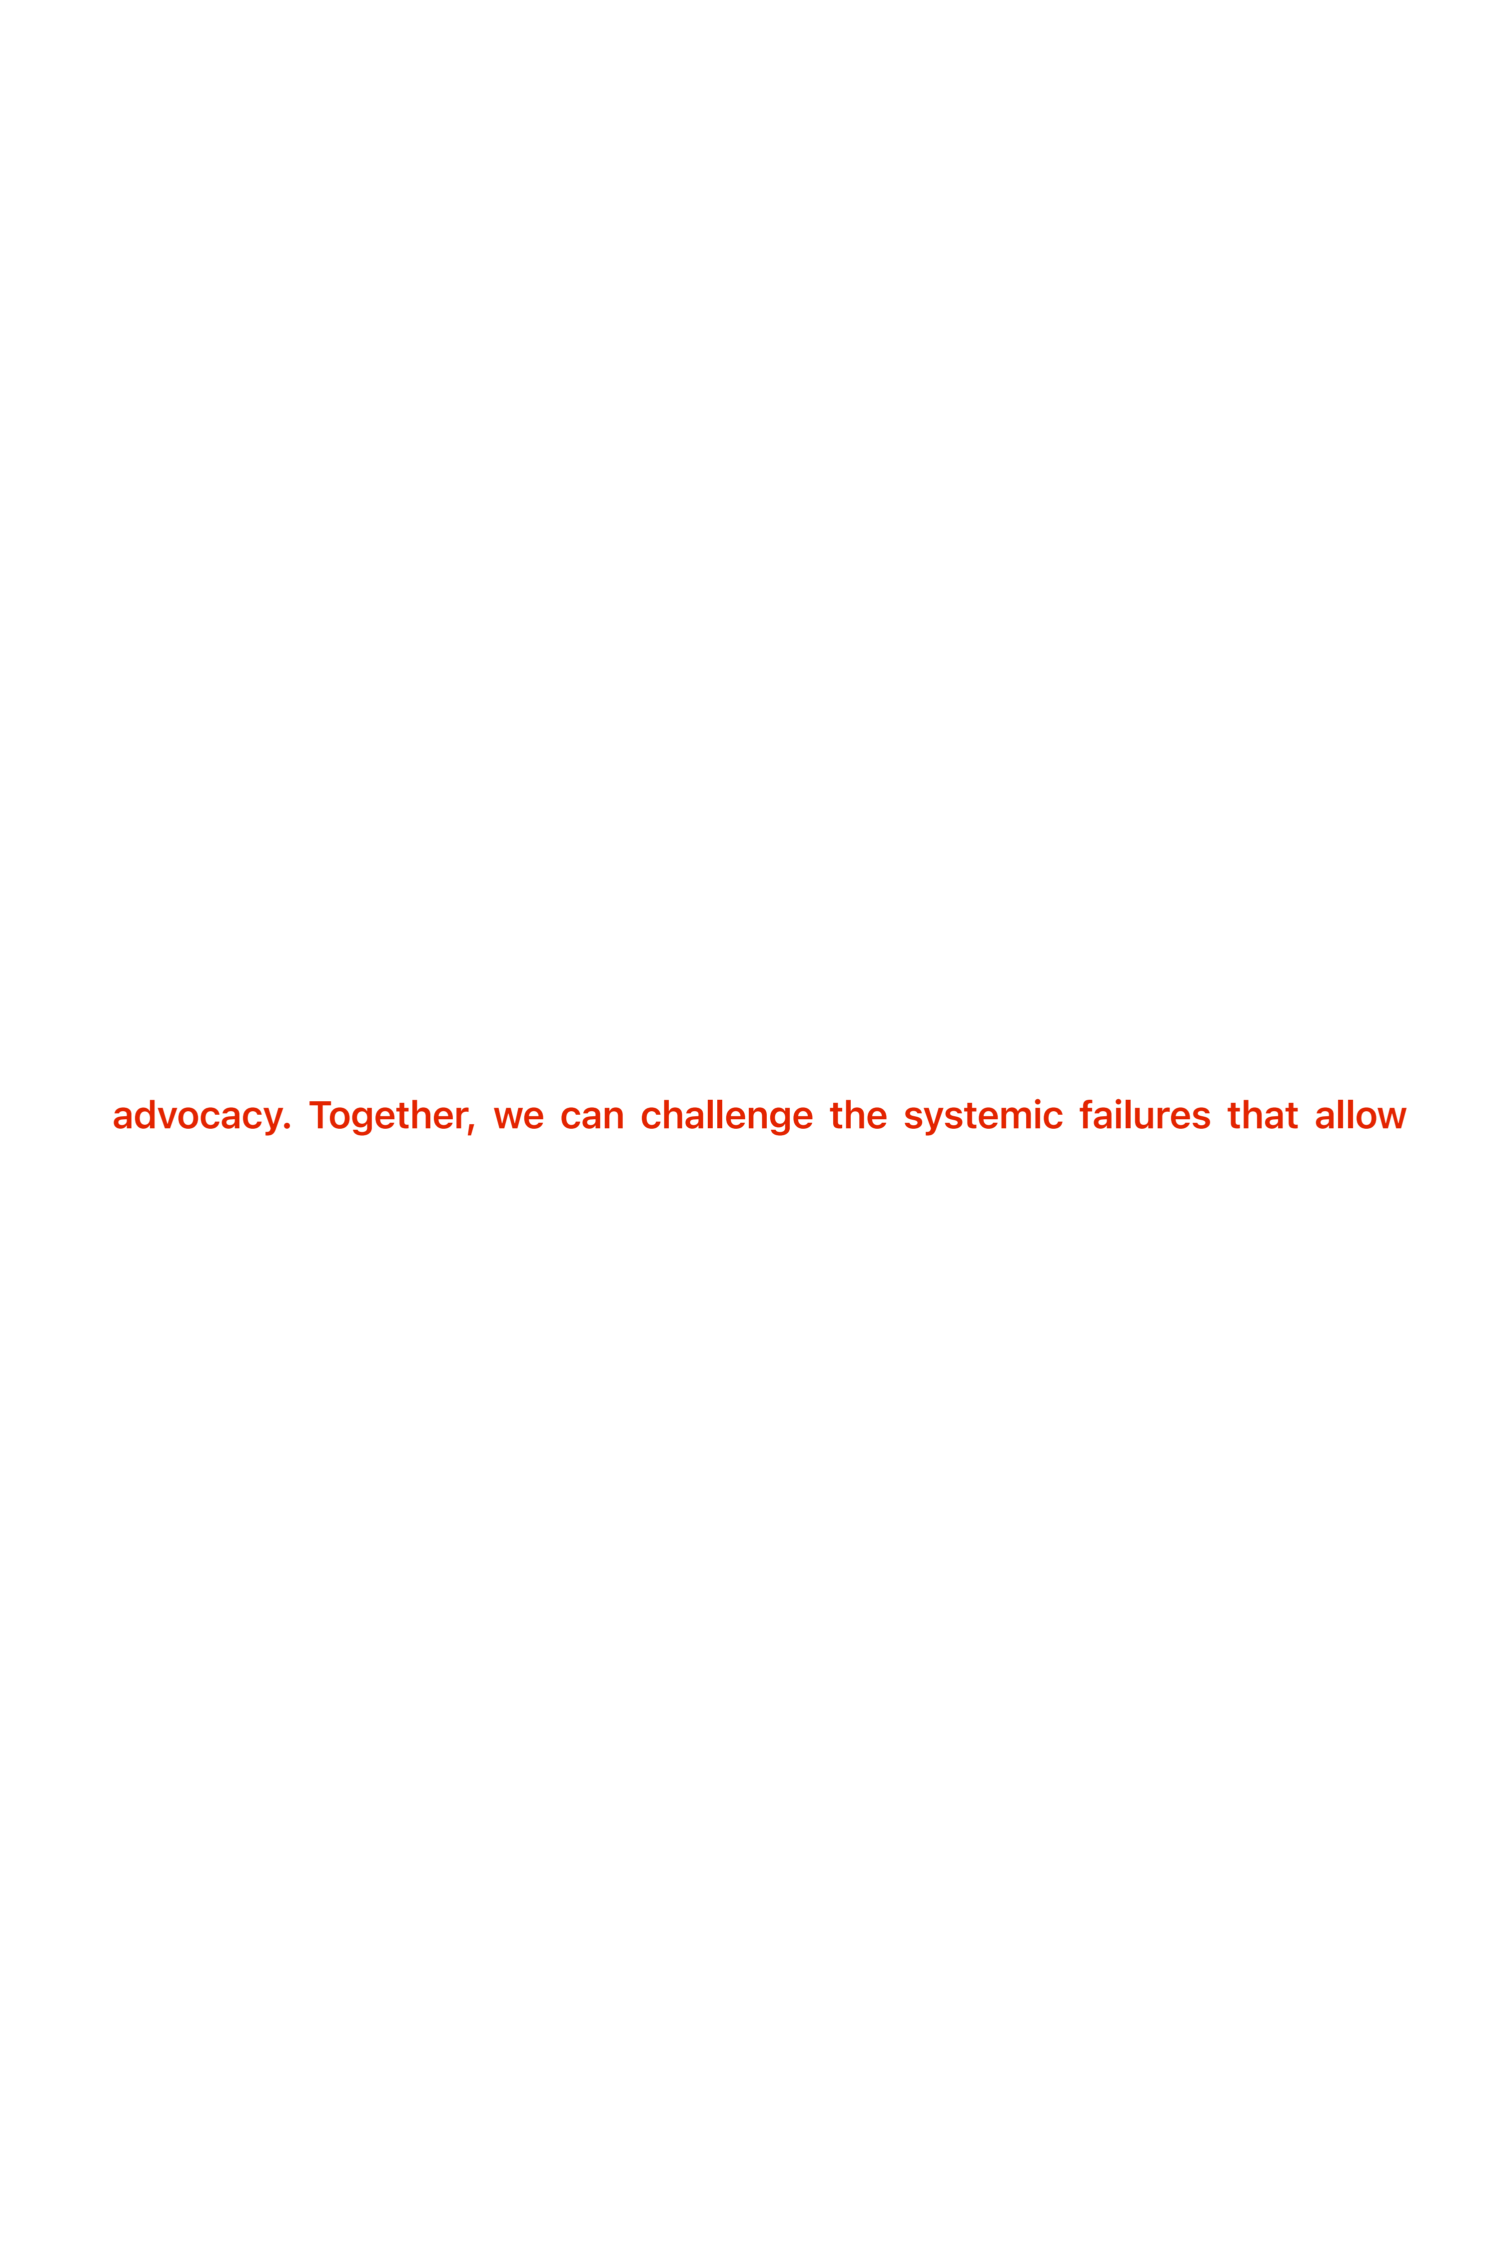

cowardice define my legacy. Instead, I embrace the light of truth, the

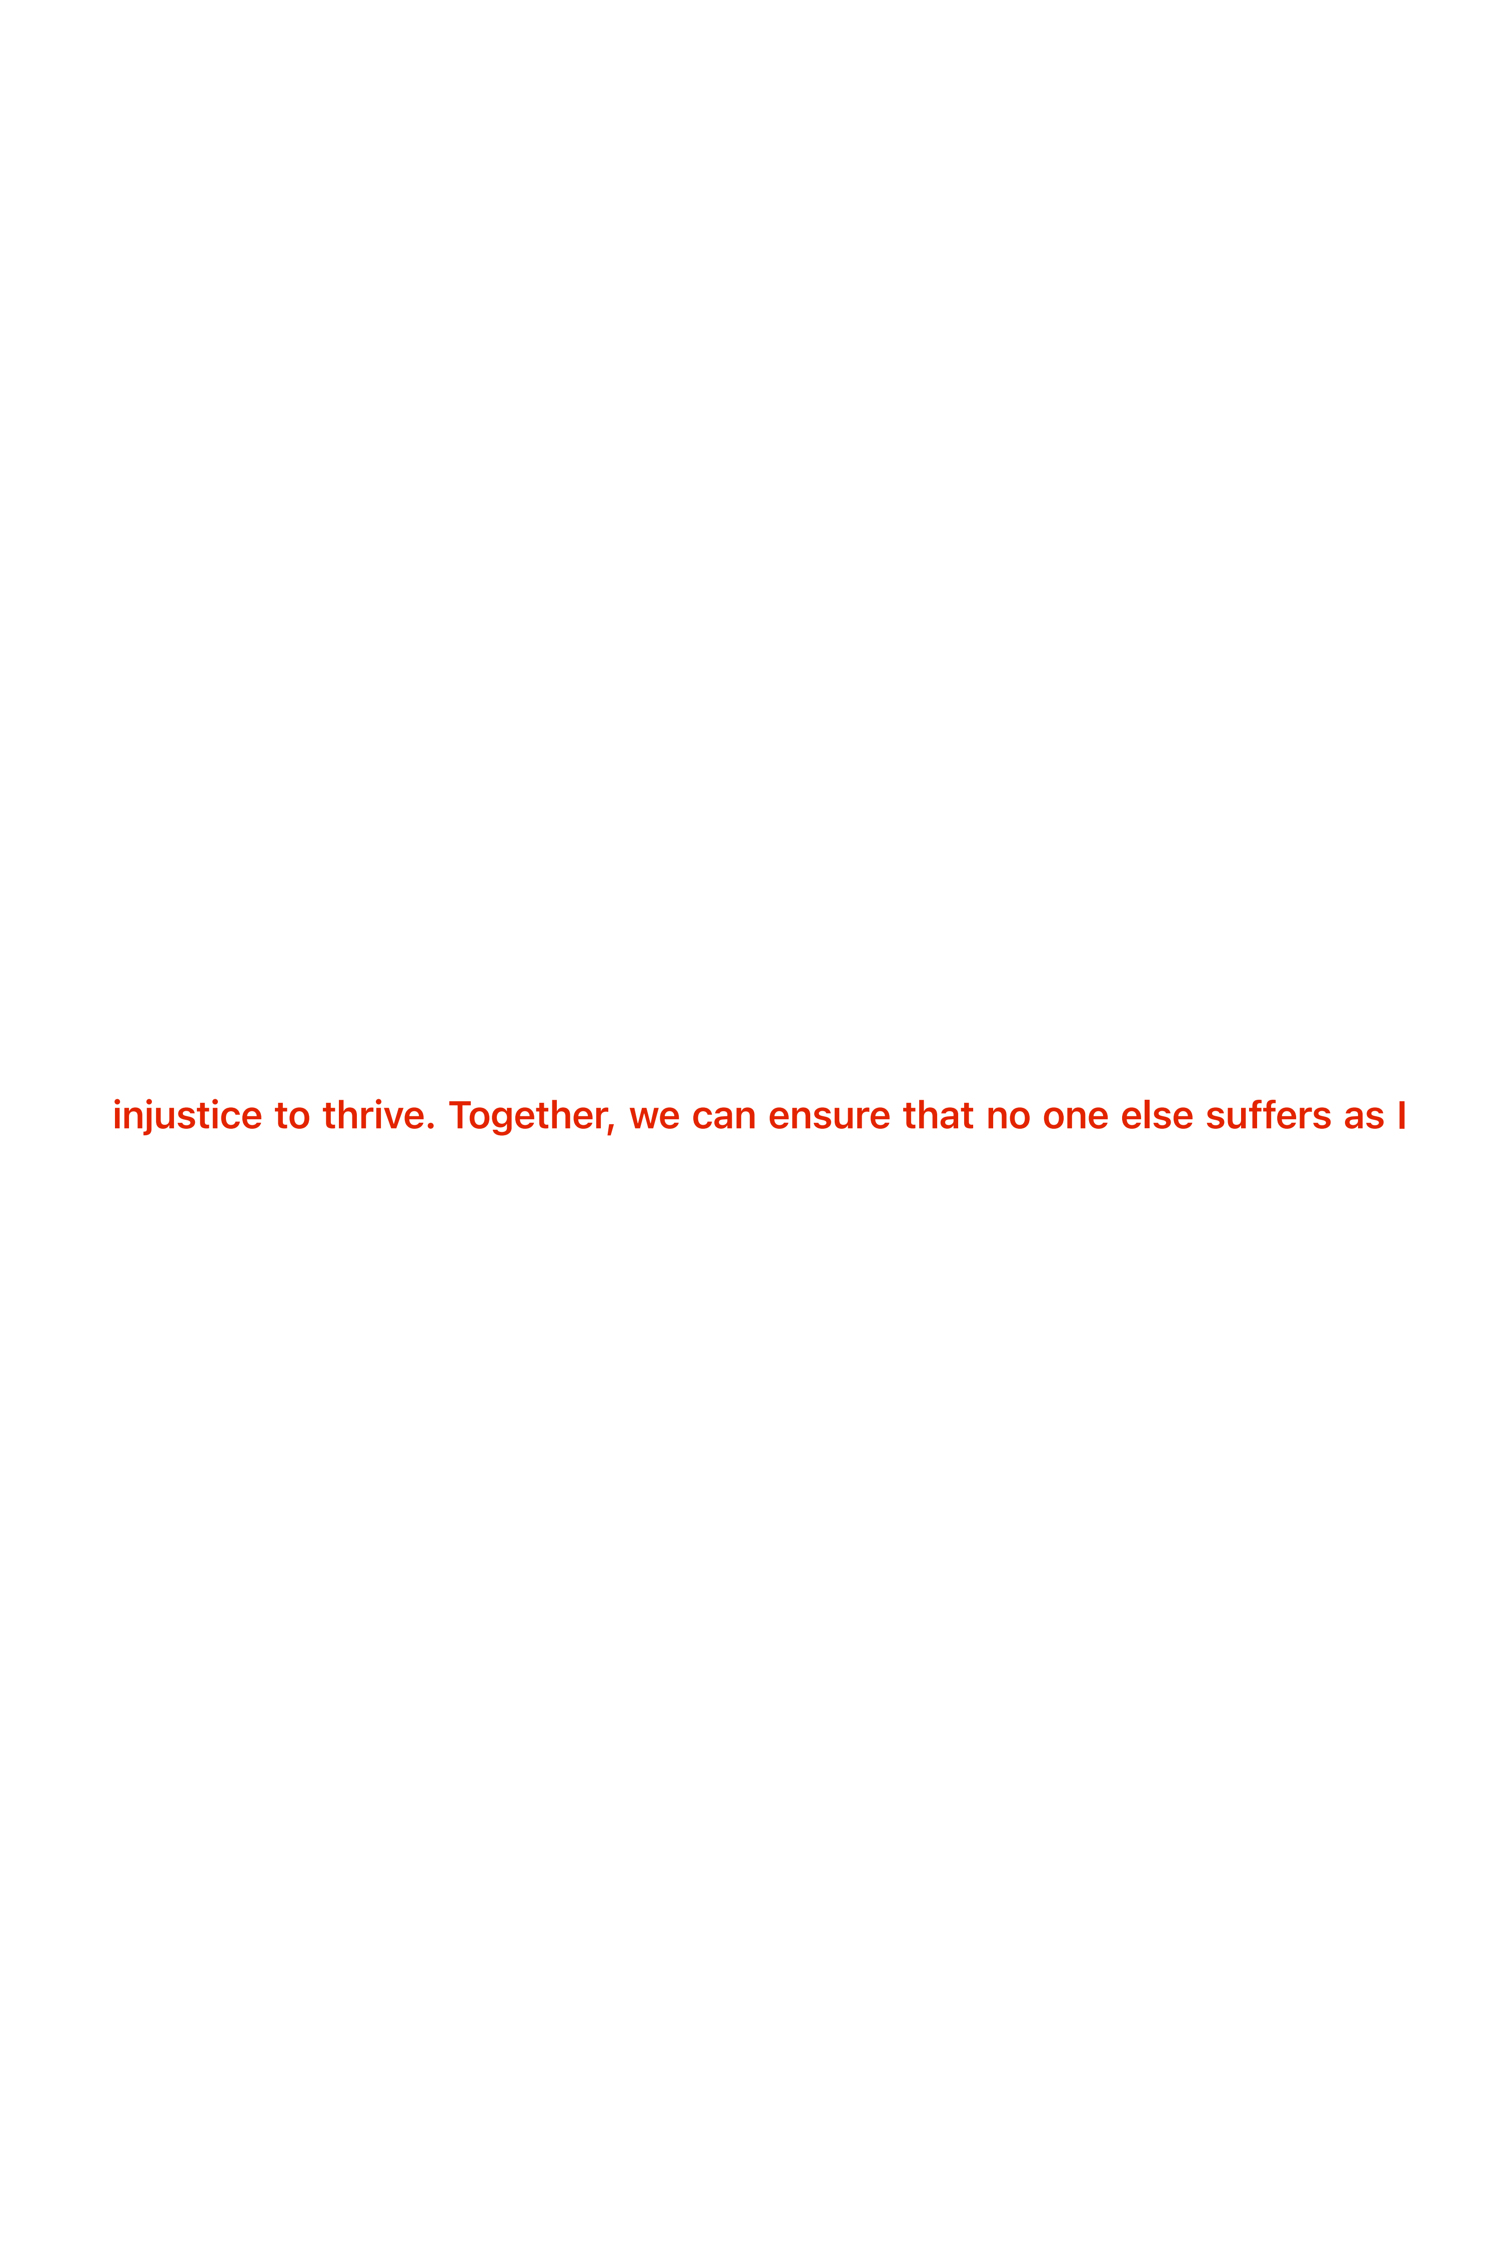

power of forgiveness, and the unyielding pursuit of a world where no one

is targeted, silenced, or erased.

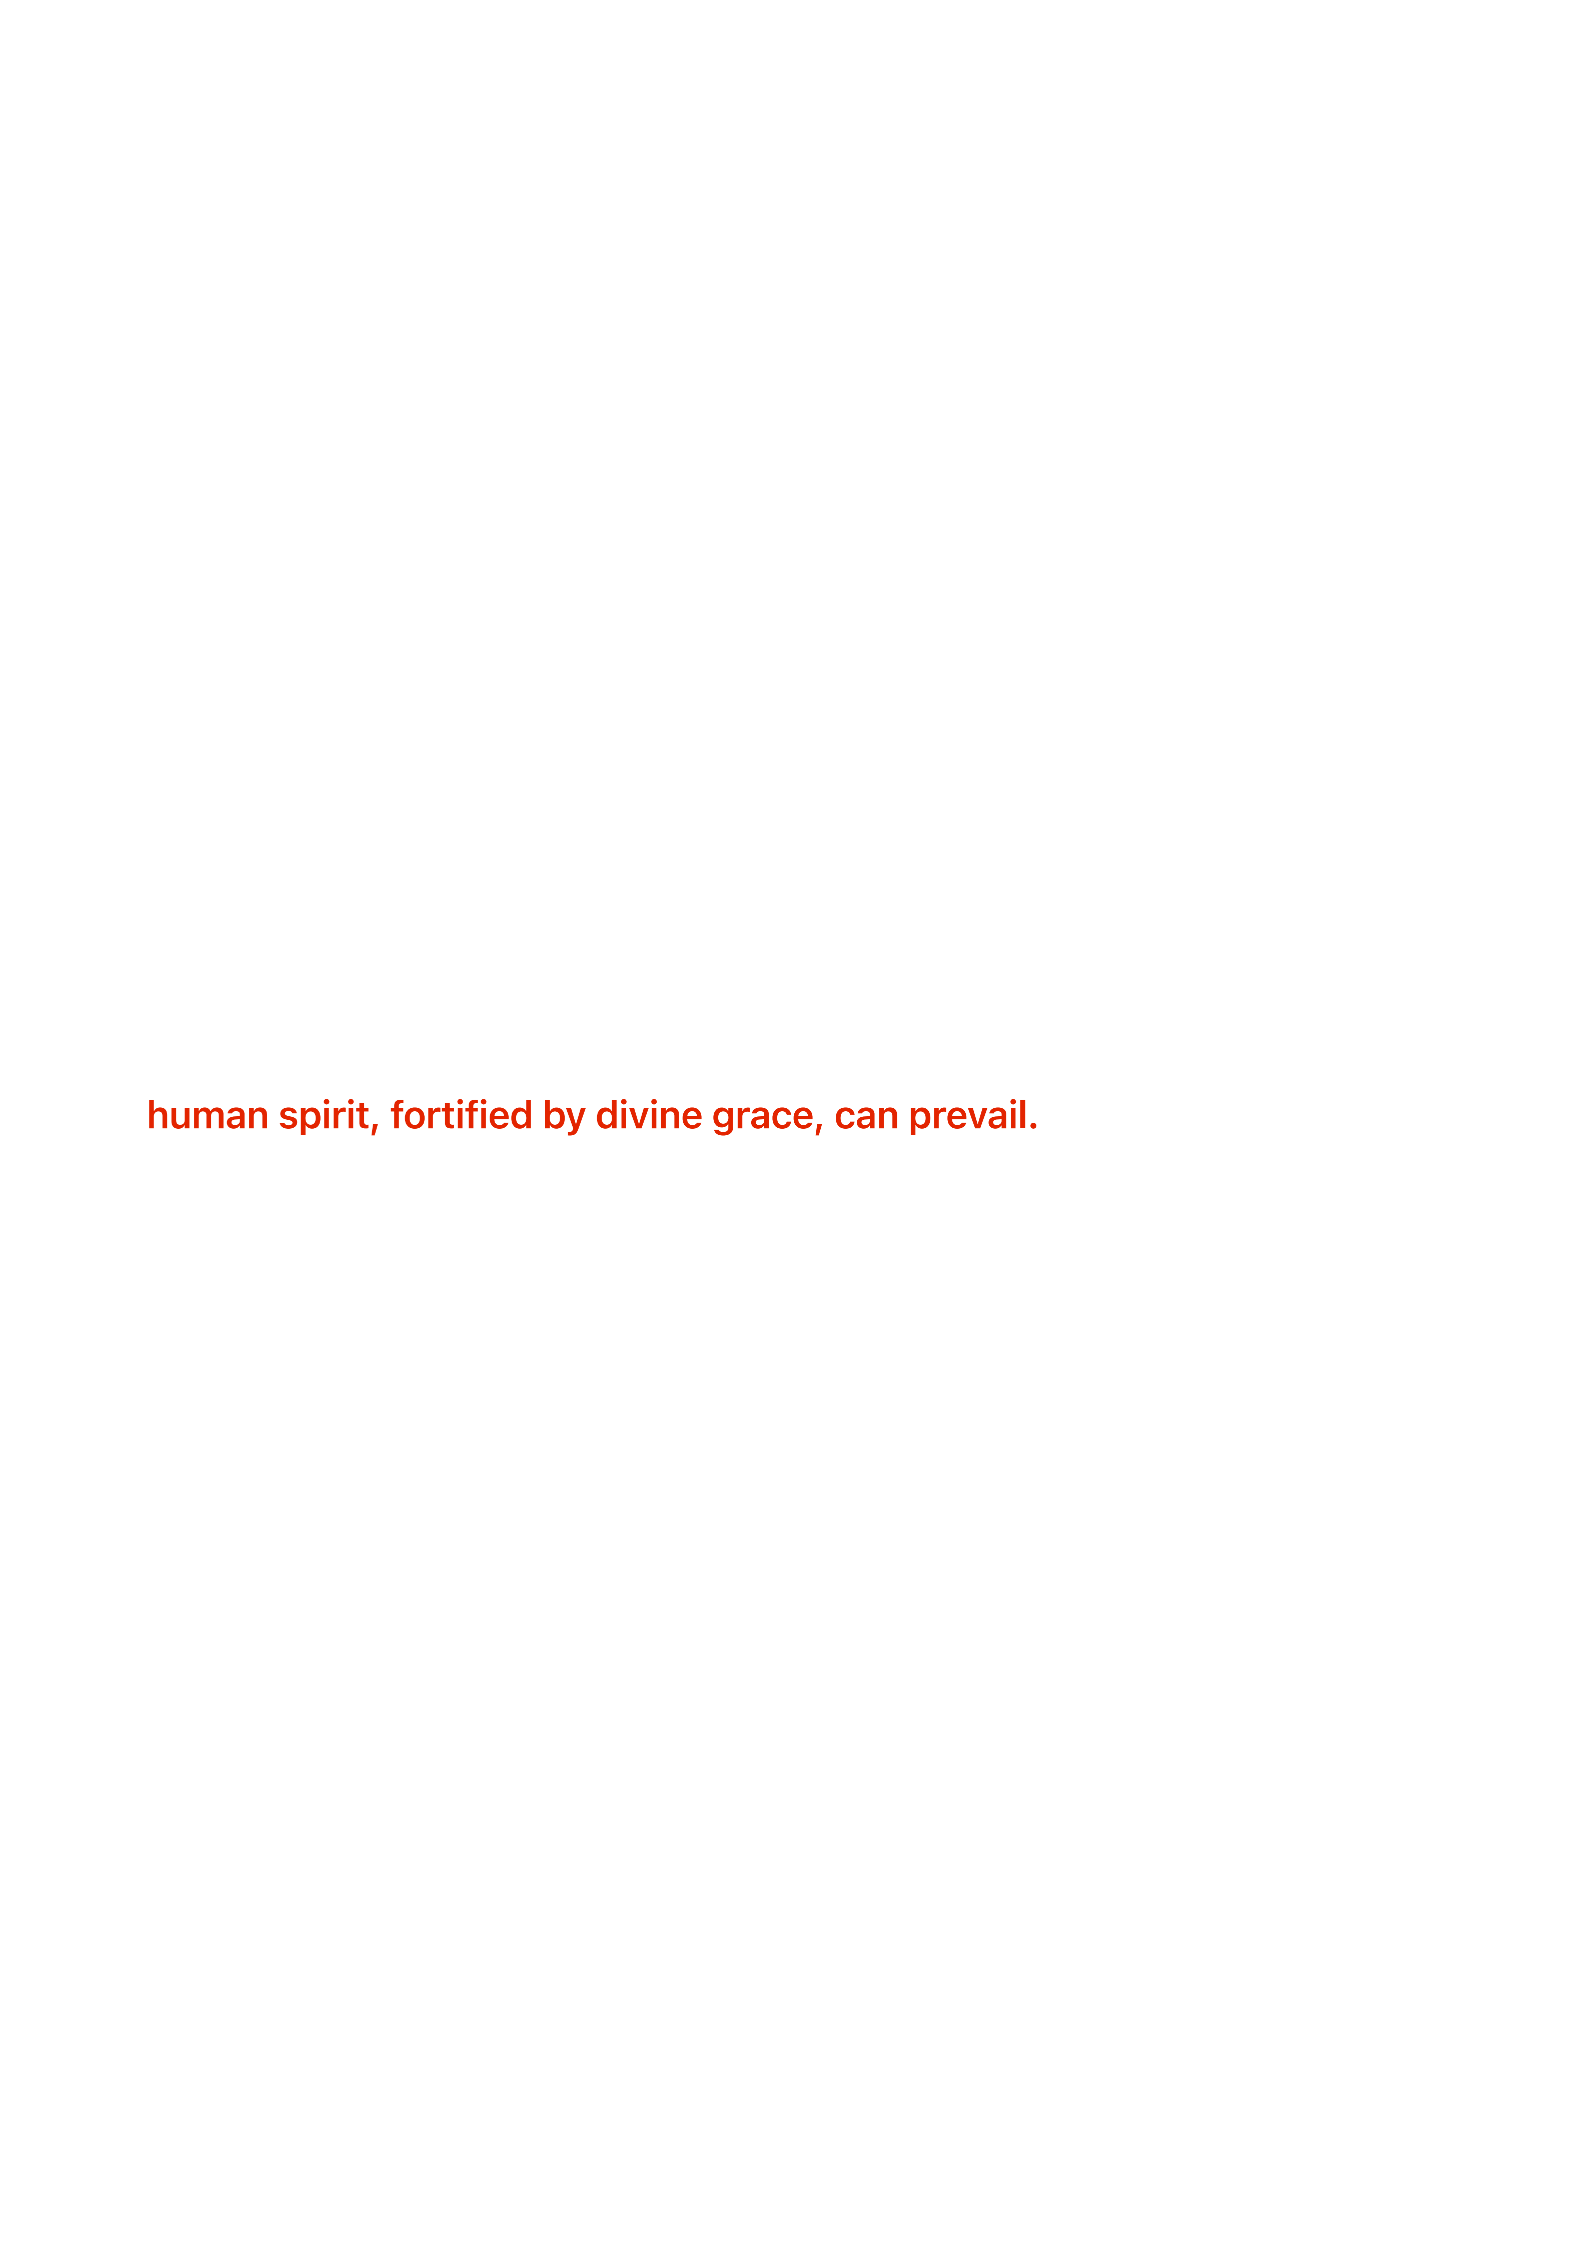

Join me in this fight. Share my story, amplify my voice, and support my

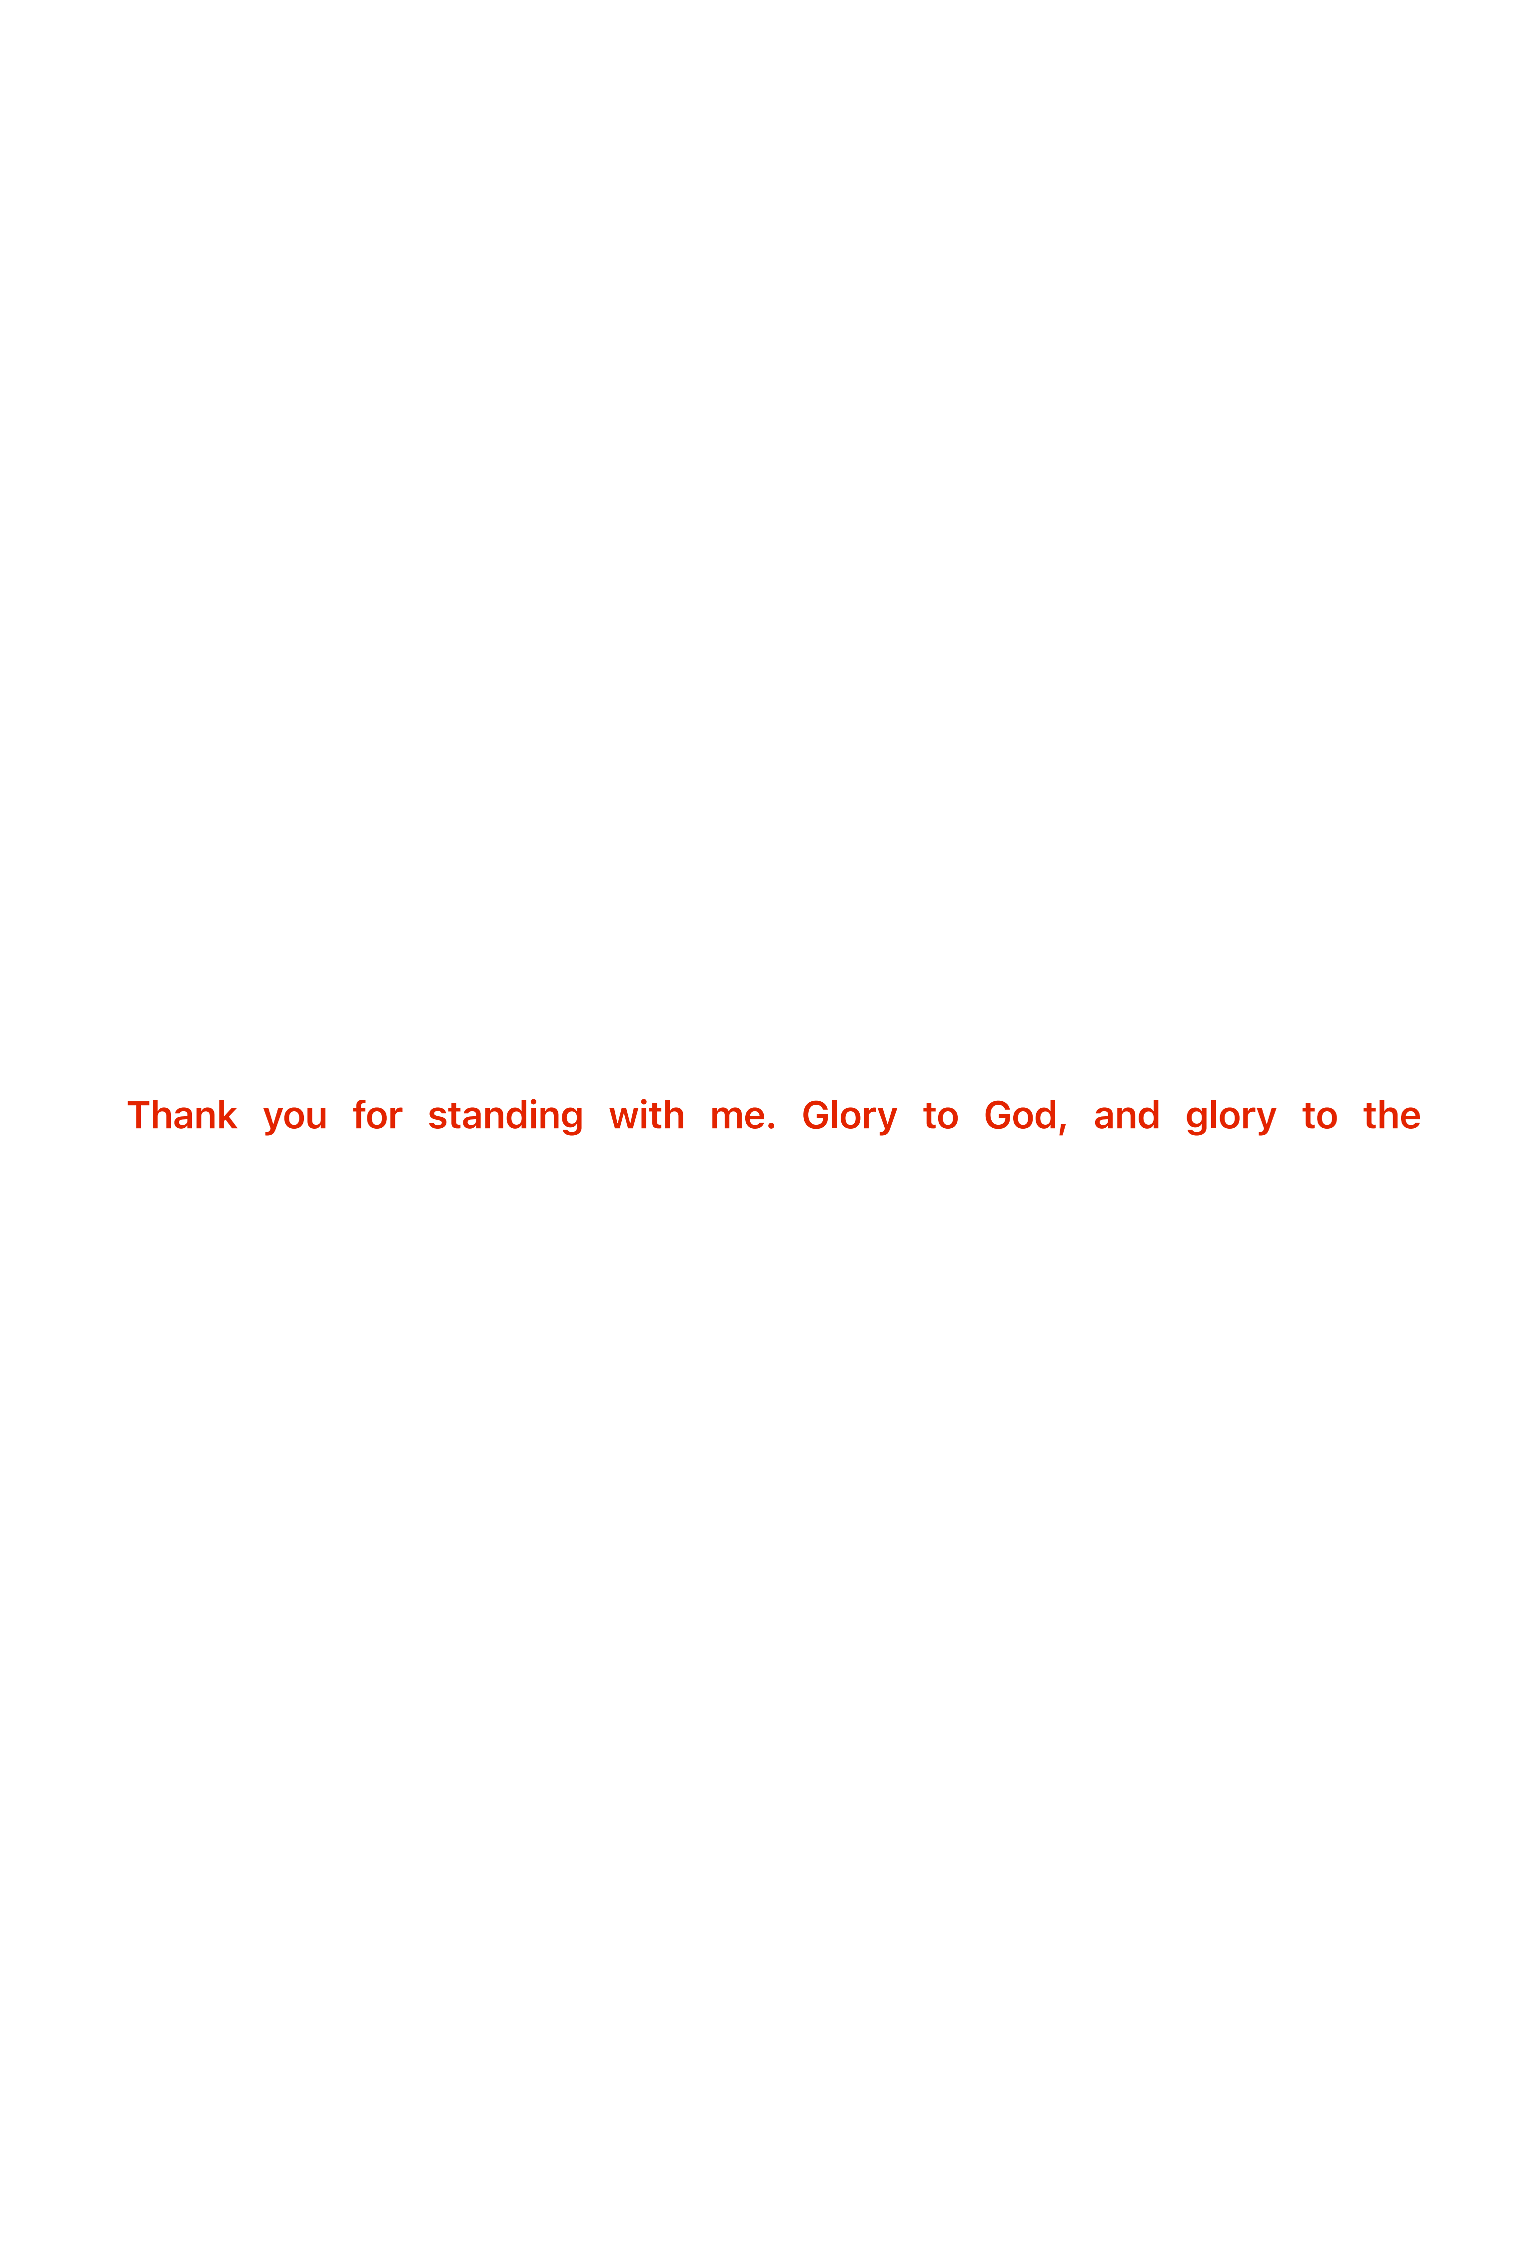

advocacy. Together, we can challenge the systemic failures that allow

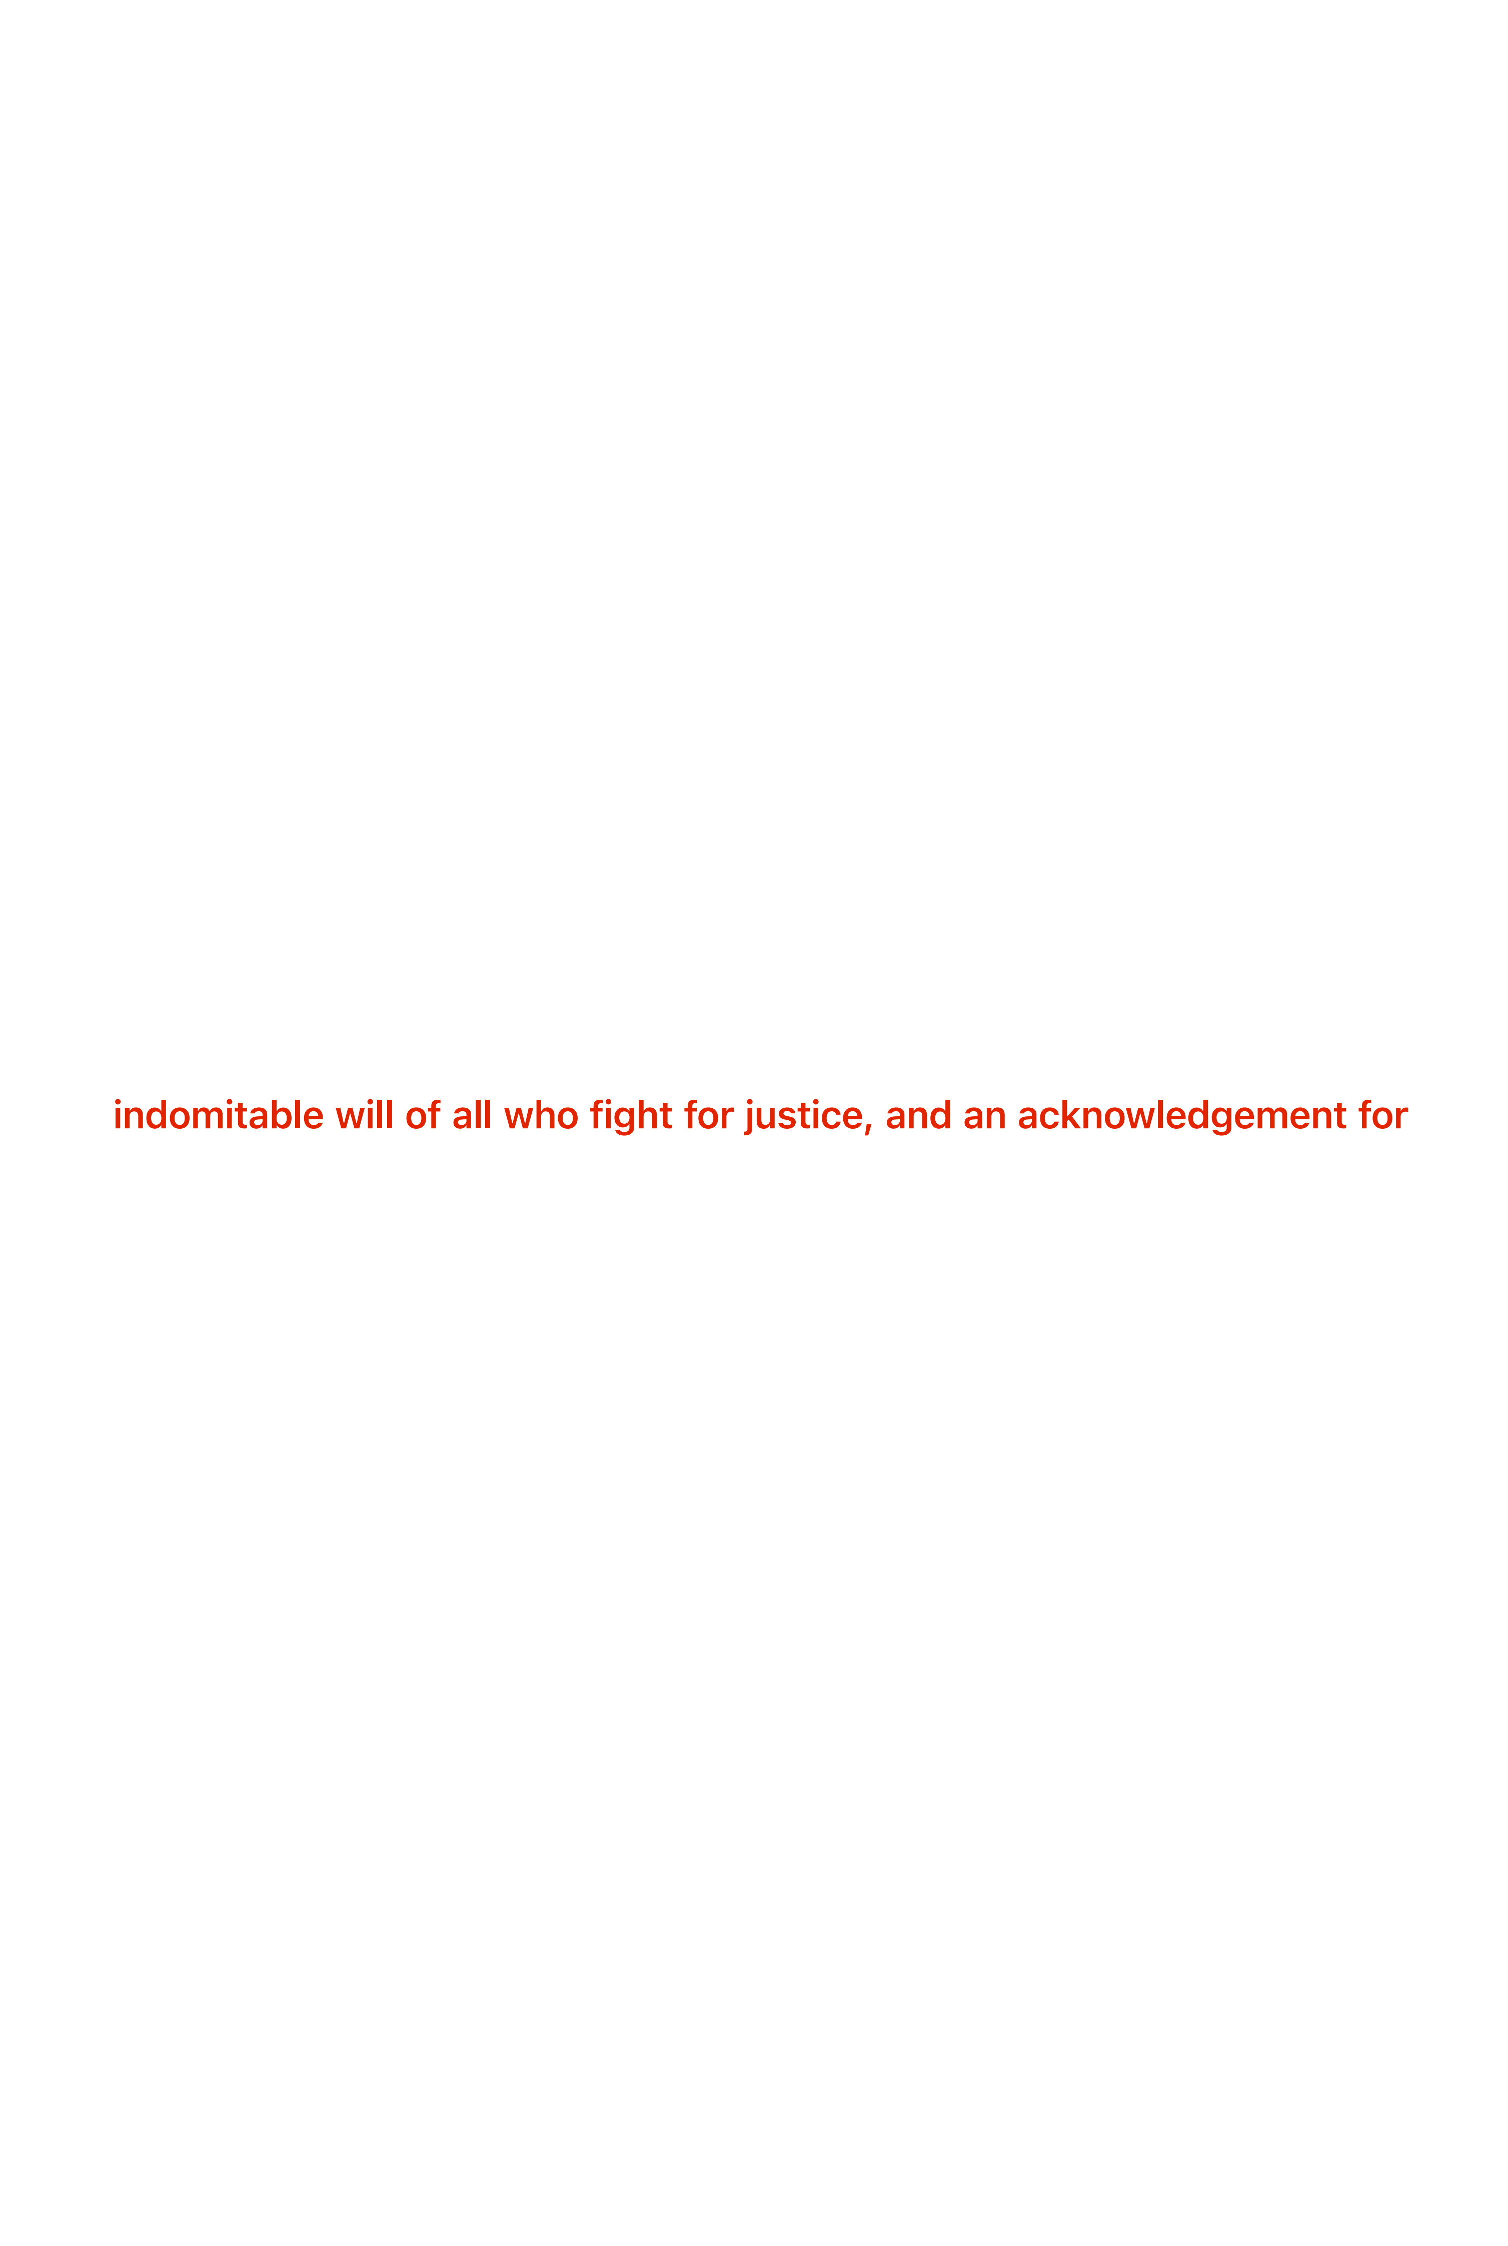

injustice to thrive. Together, we can ensure that no one else suffers as I

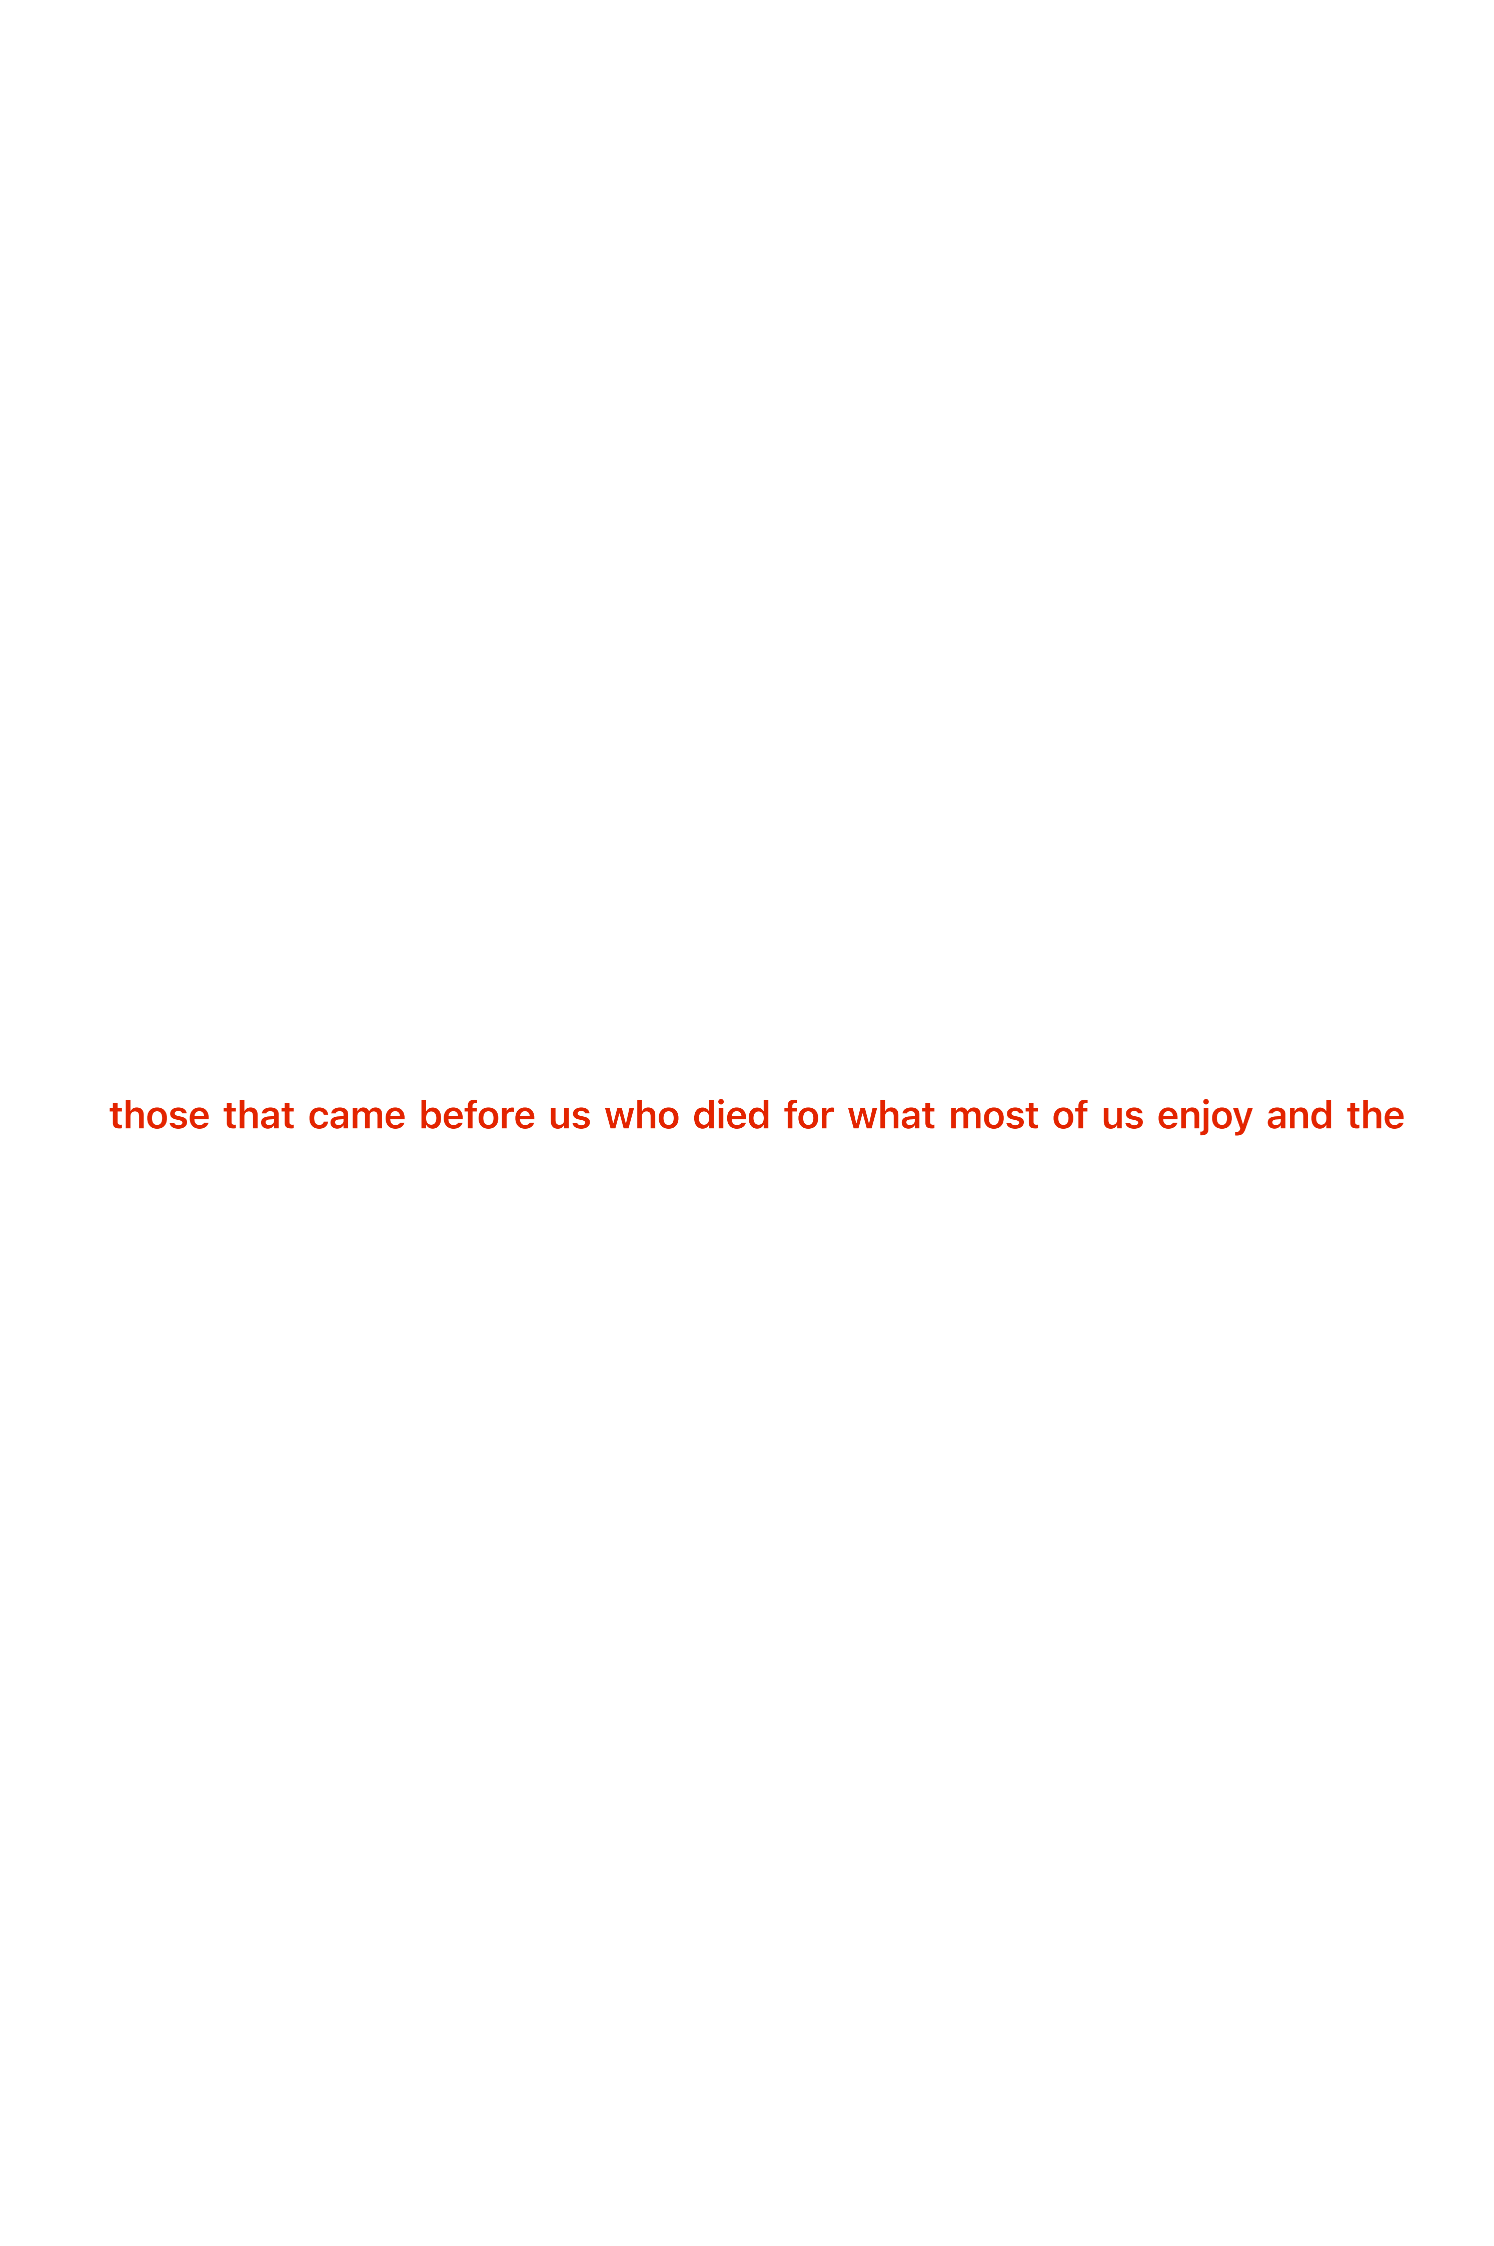

have. And together, we can prove that even in the darkest times, the

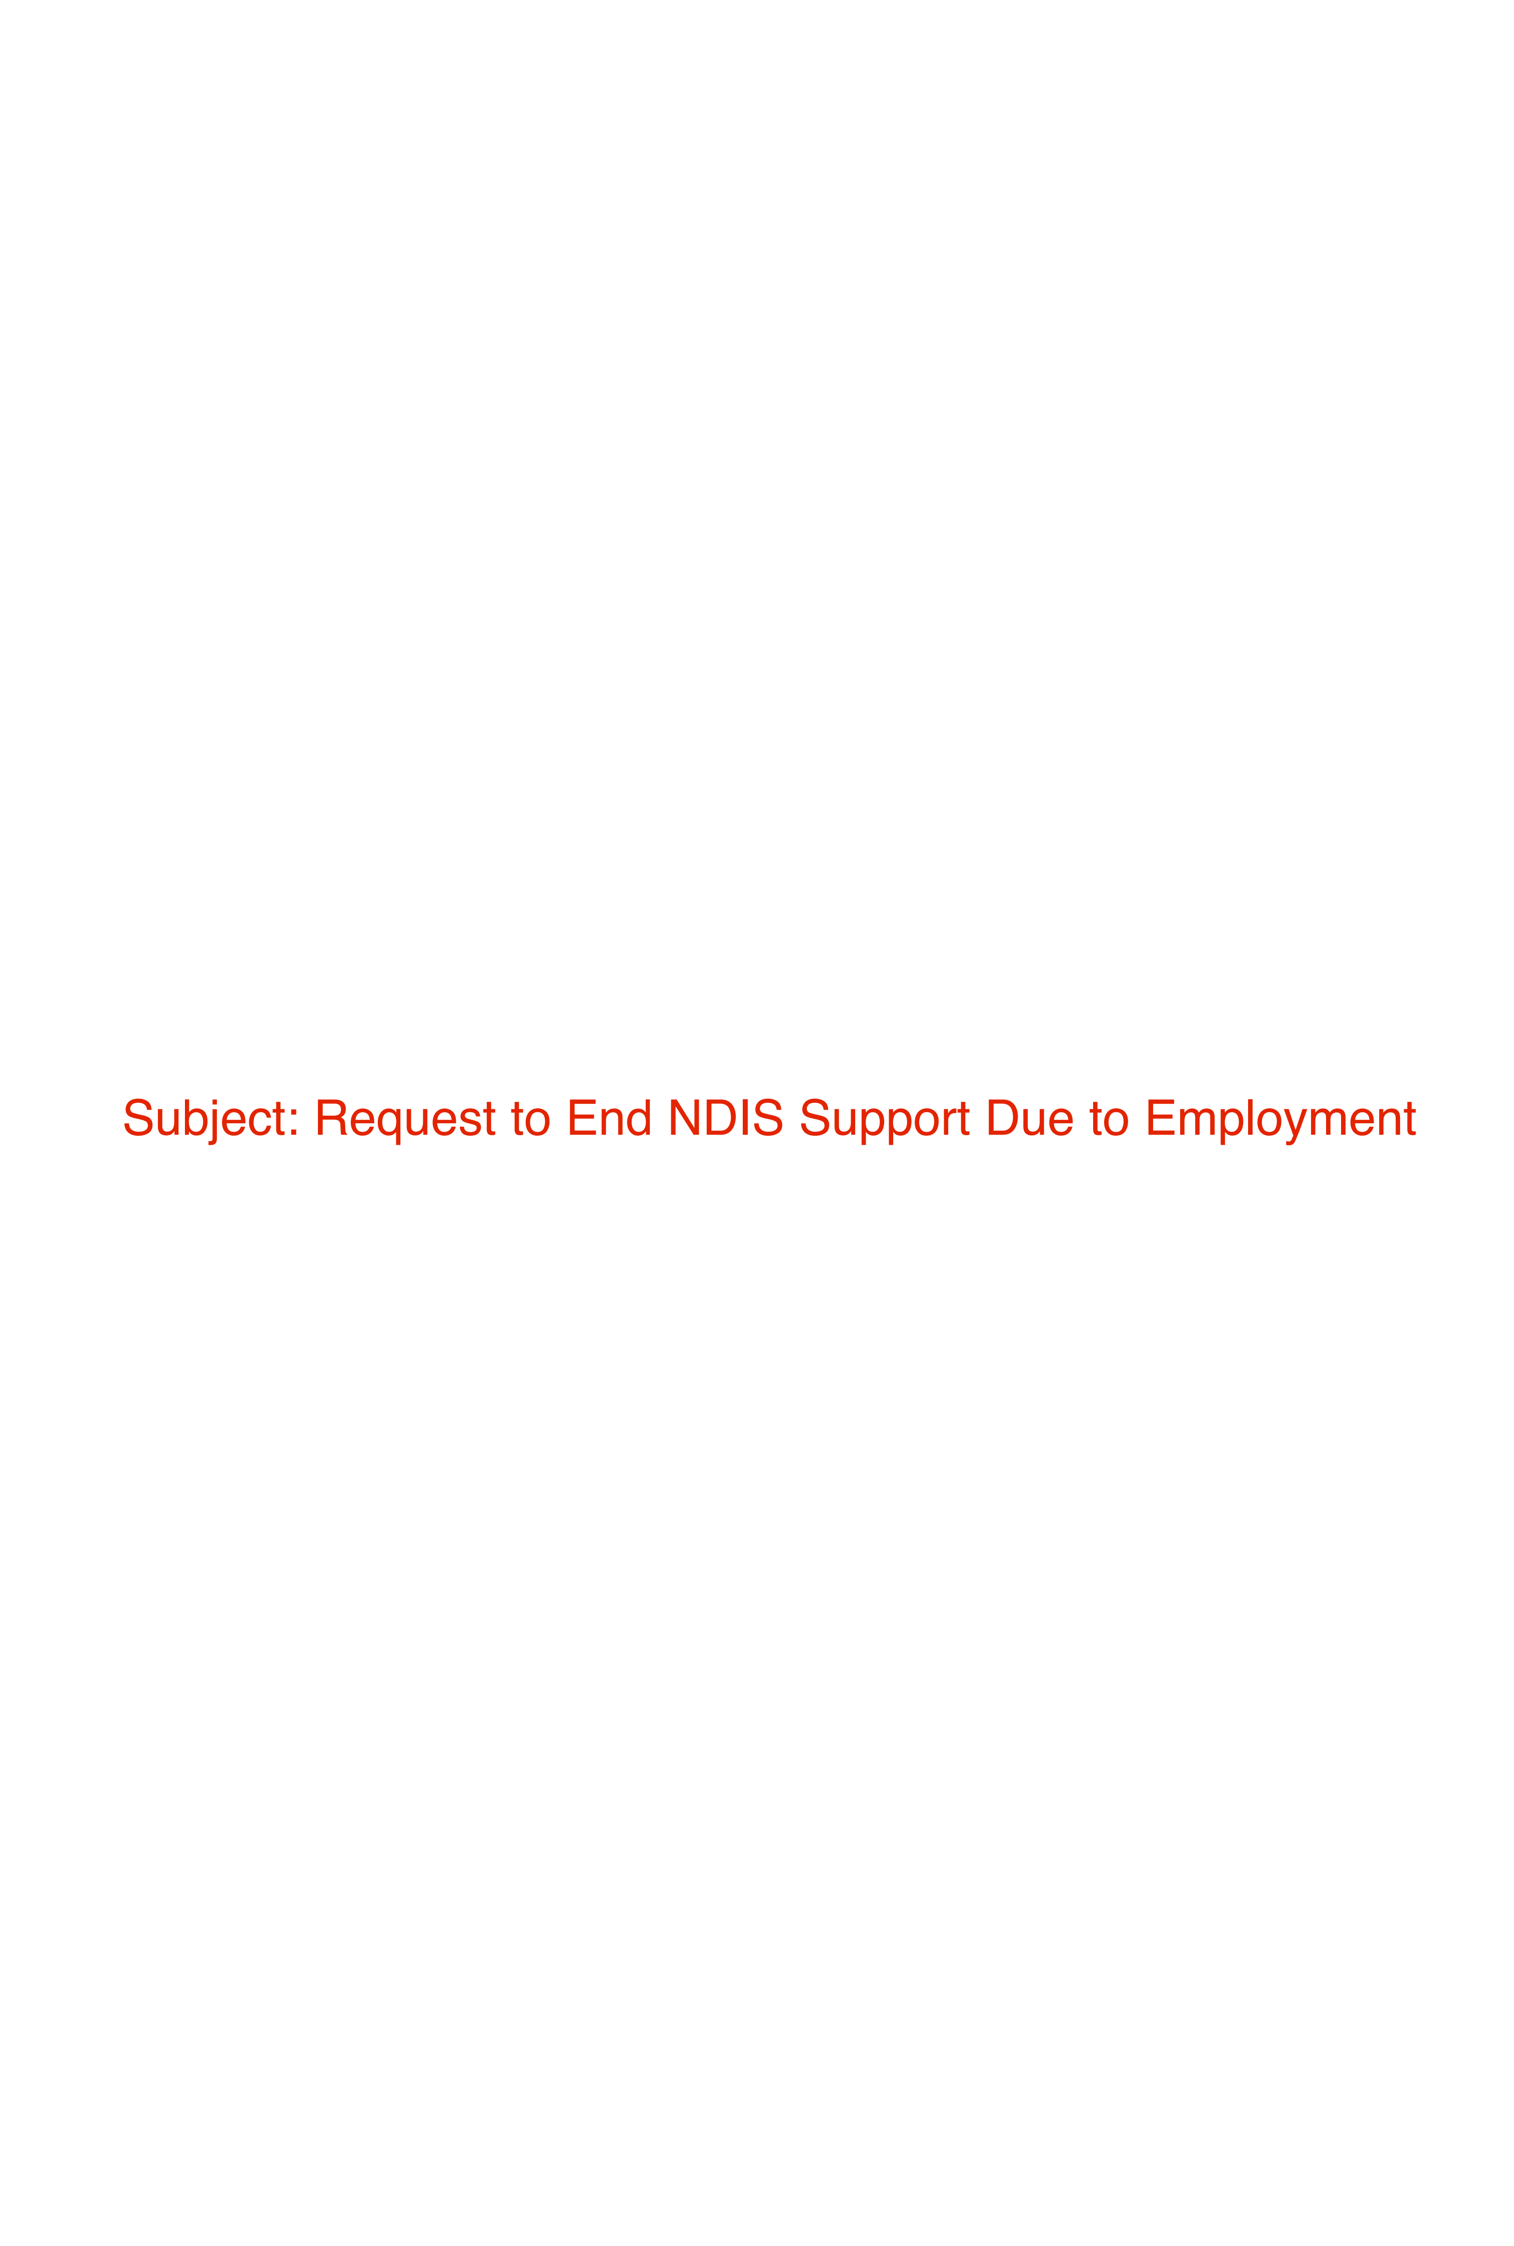

human spirit, fortified by divine grace, can prevail.

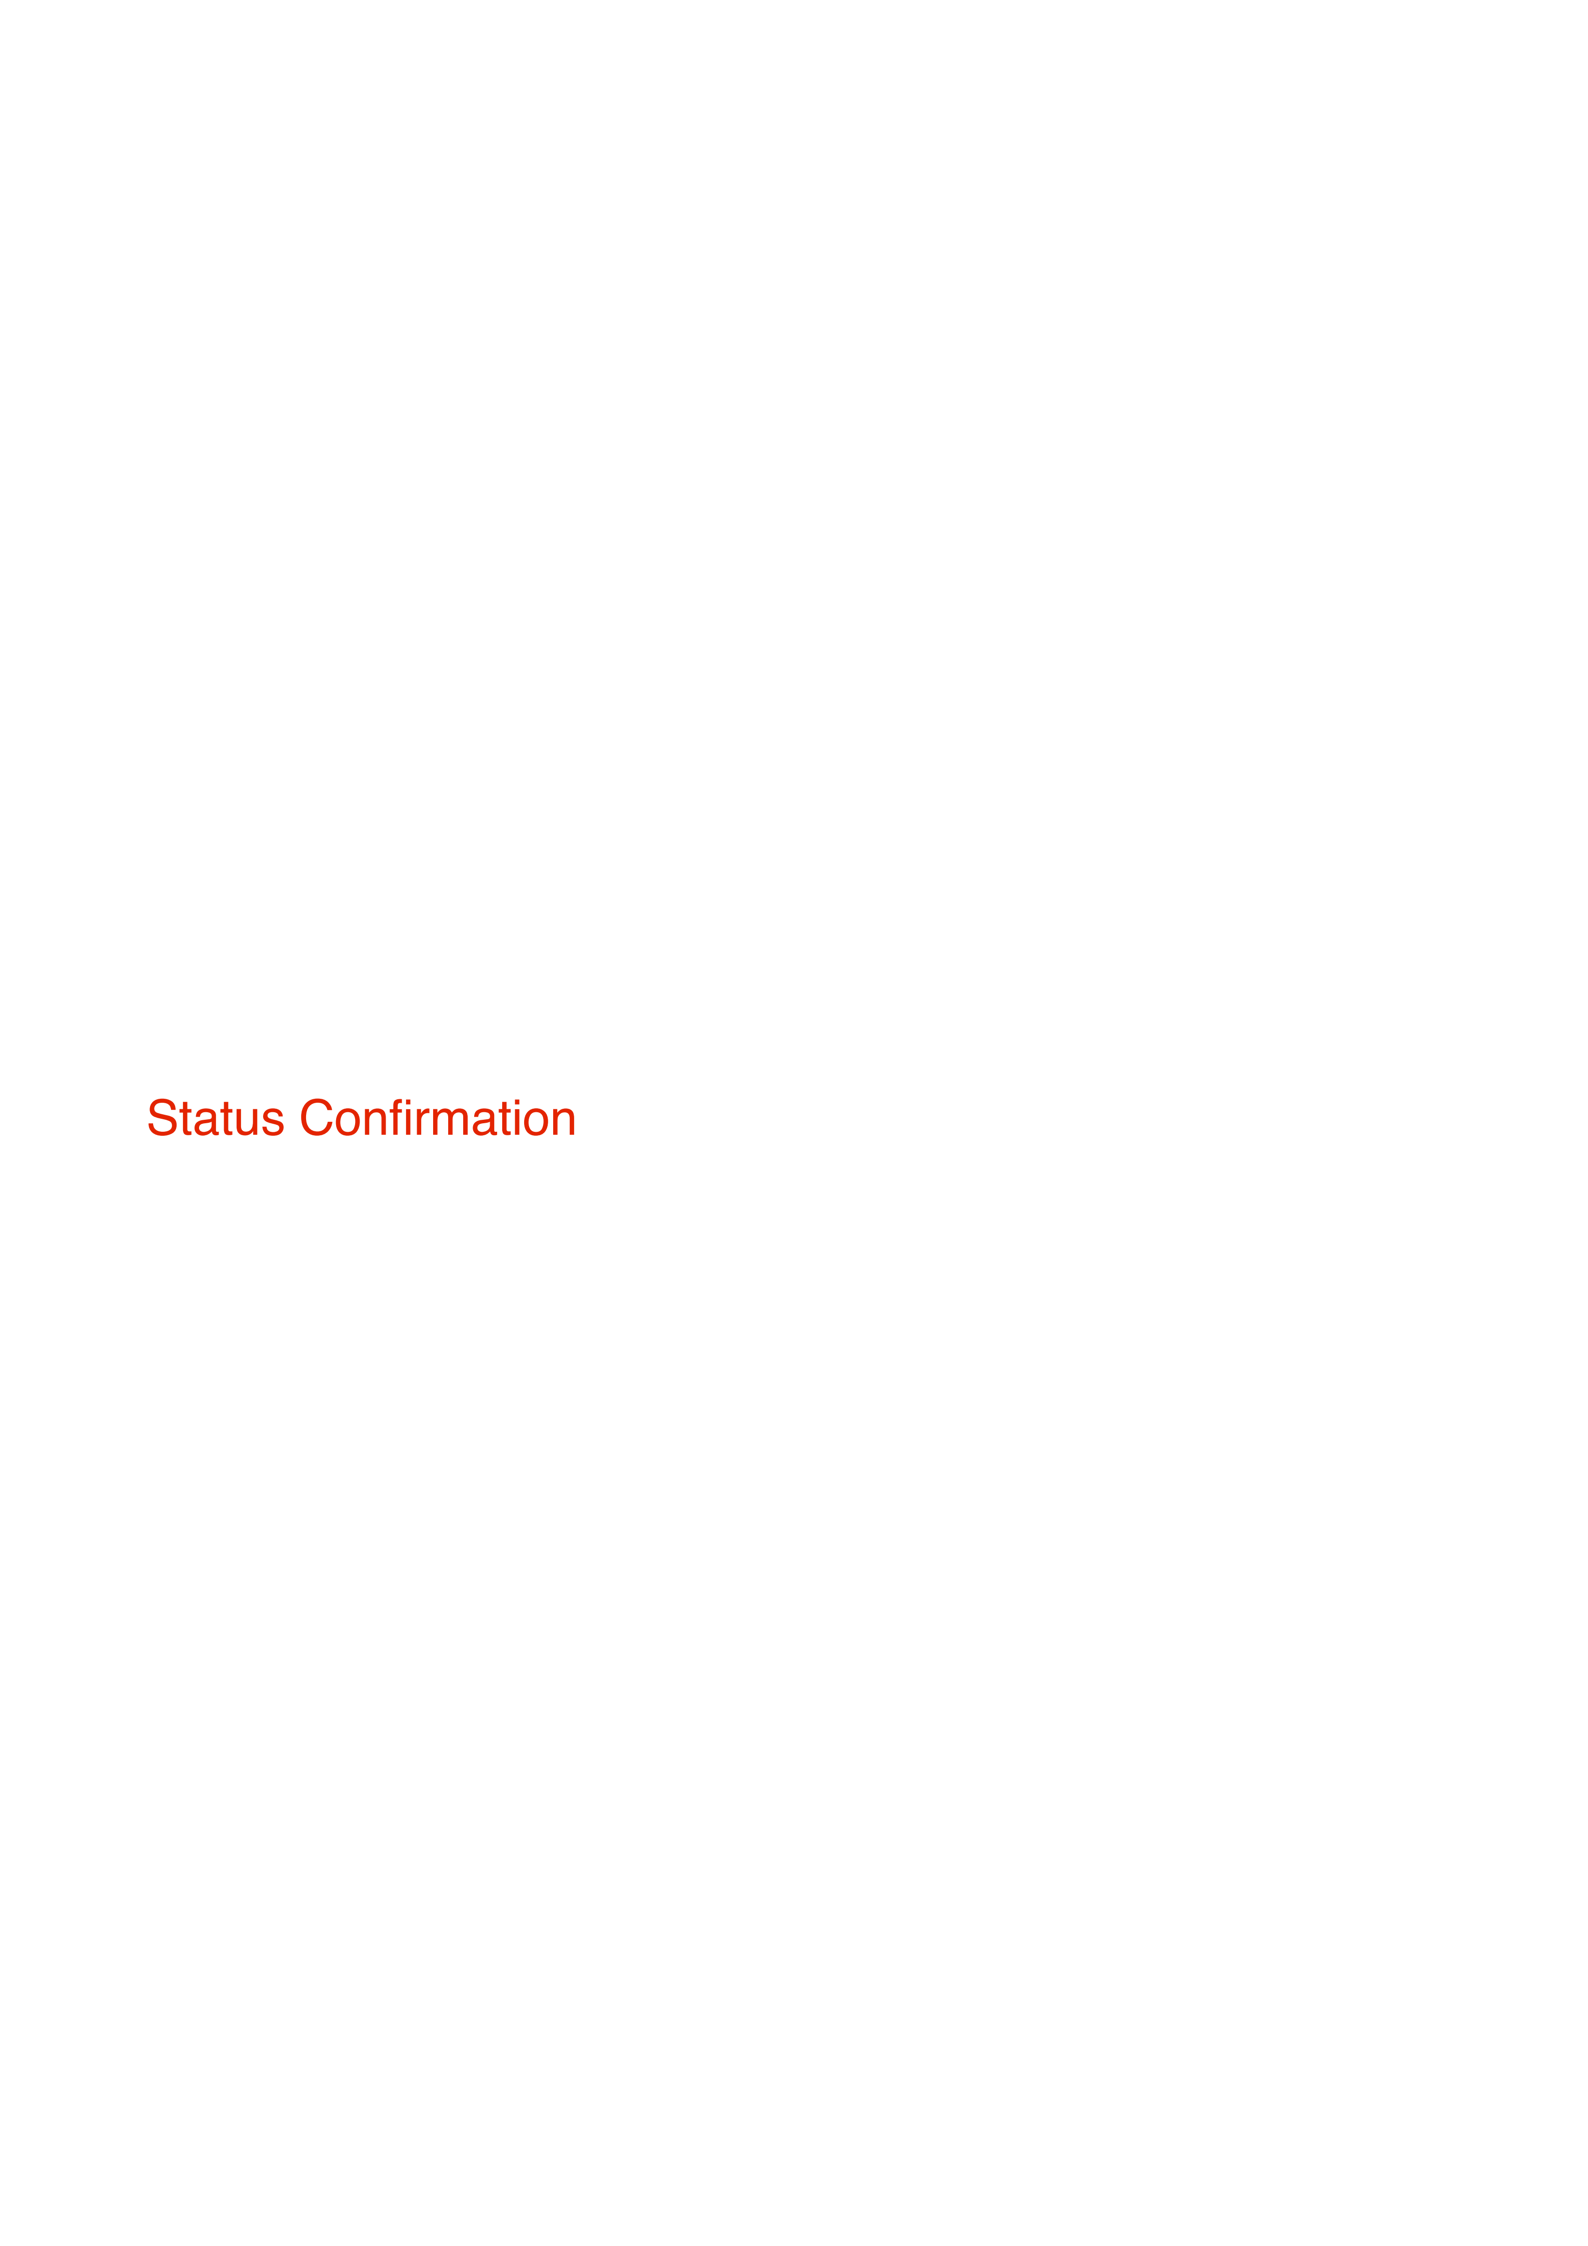

Thank you for standing with me. Glory to God, and glory to the

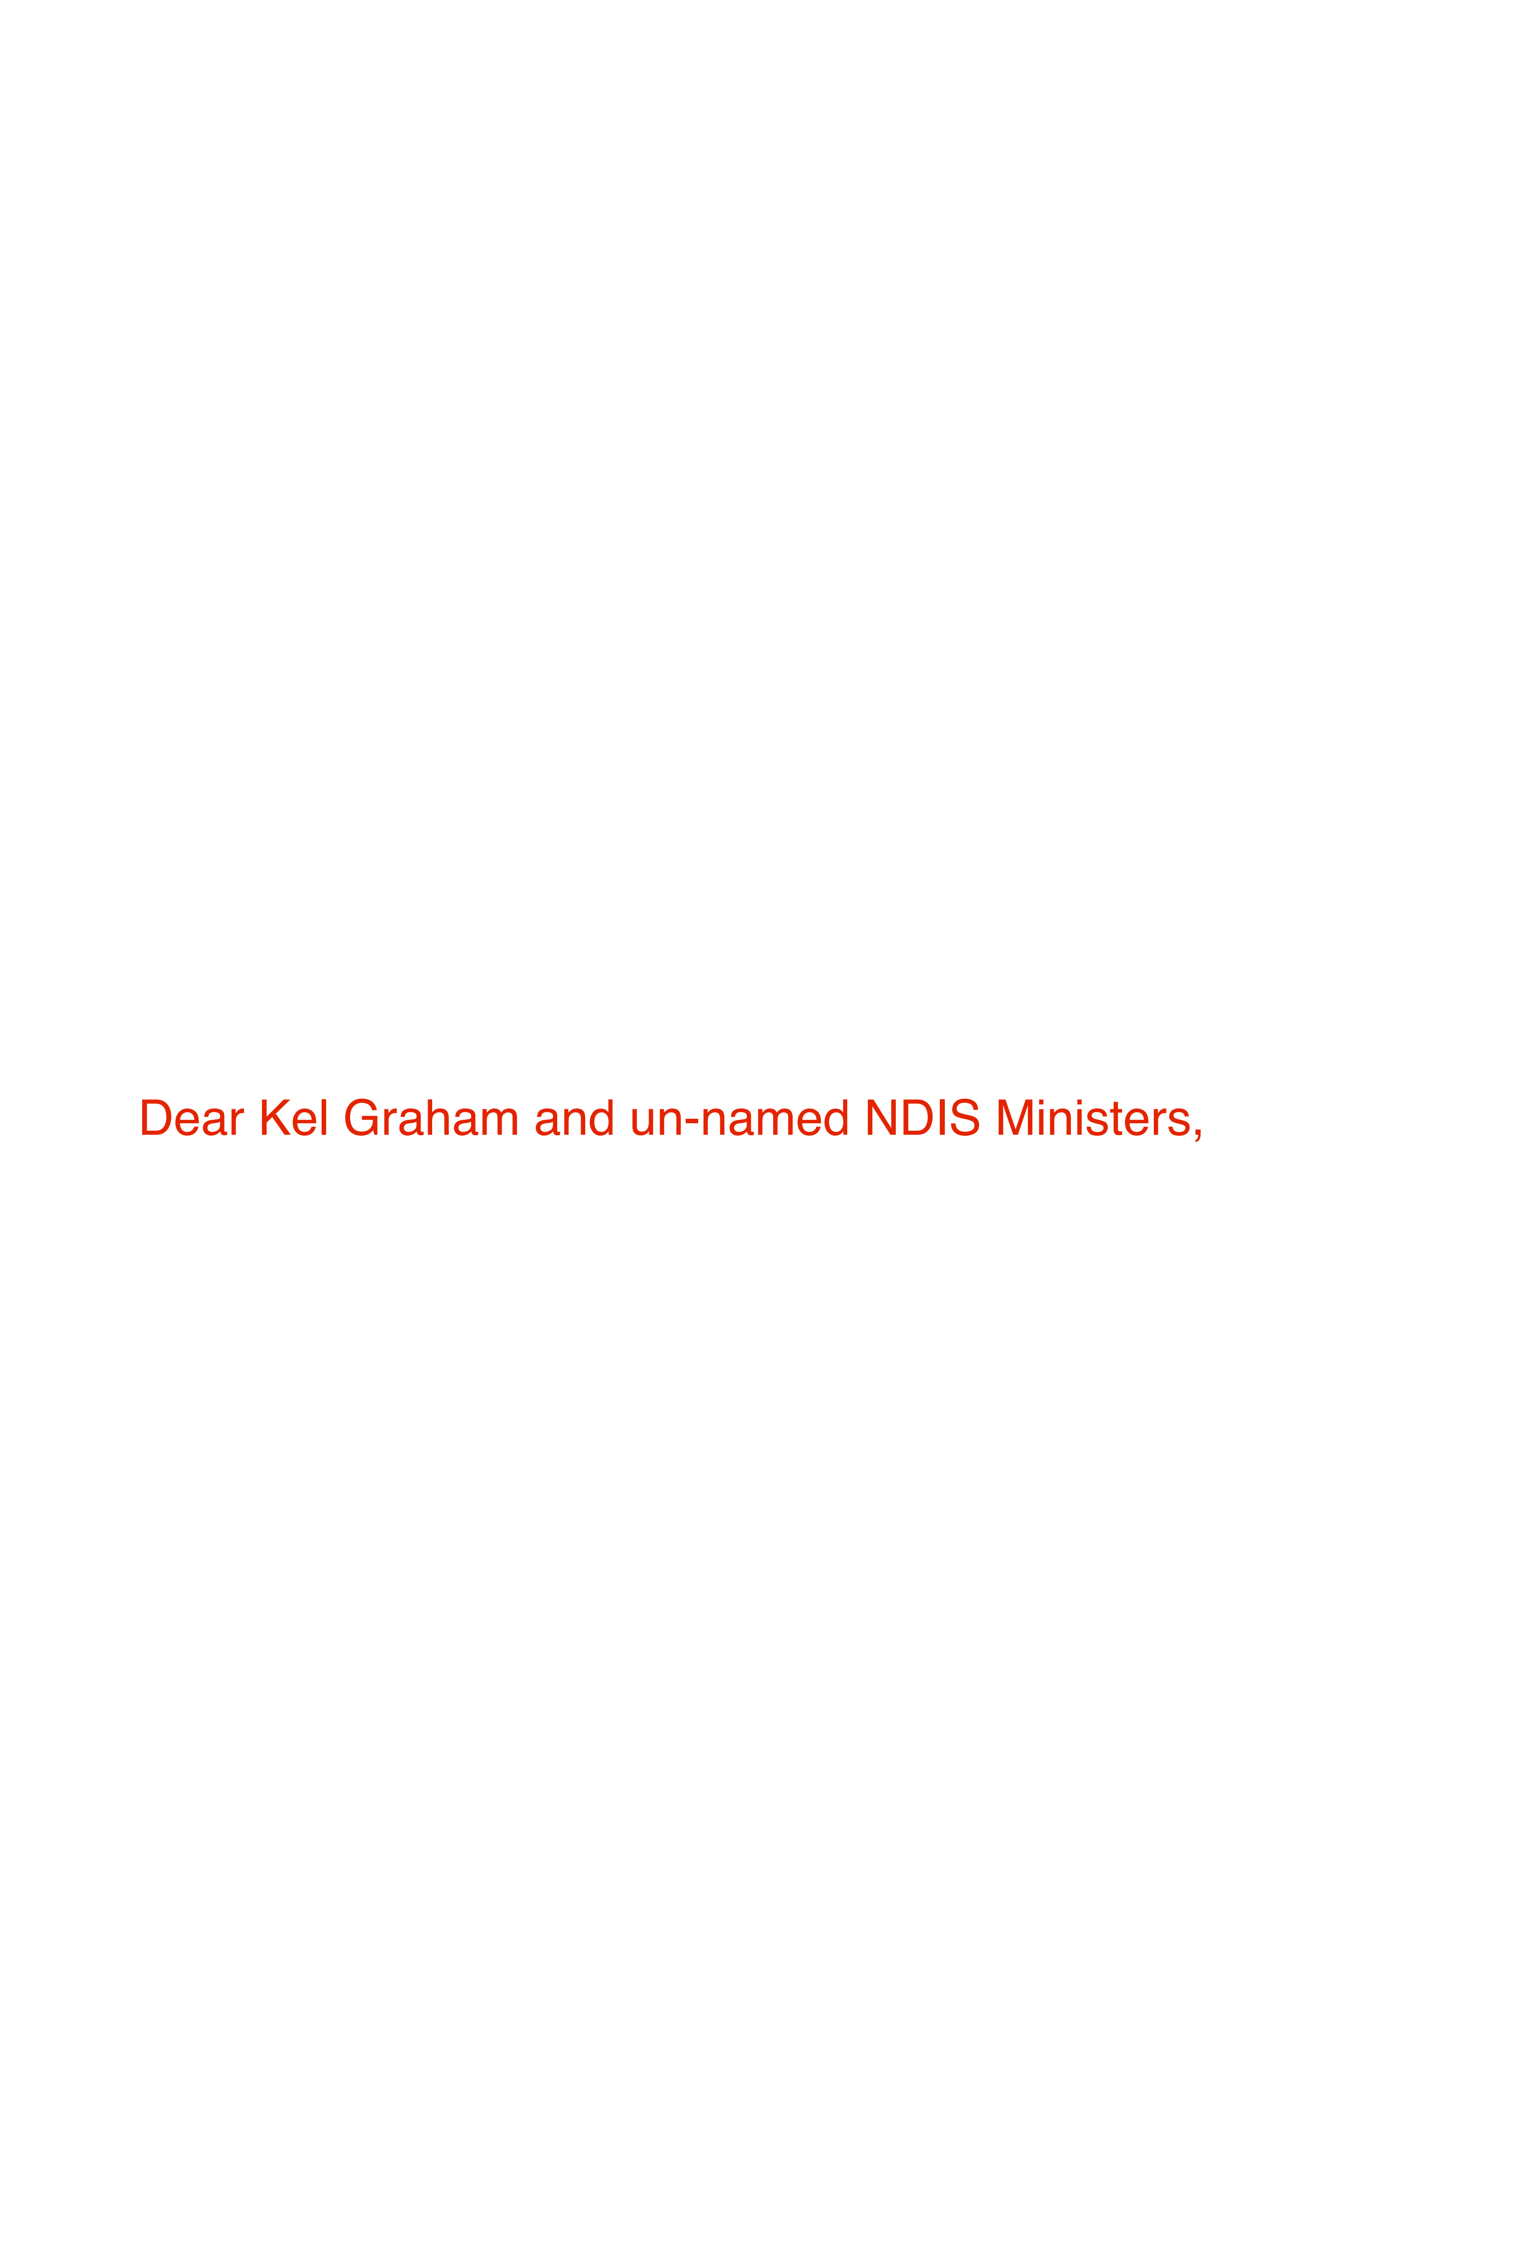

indomitable will of all who fight for justice, and an acknowledgement for

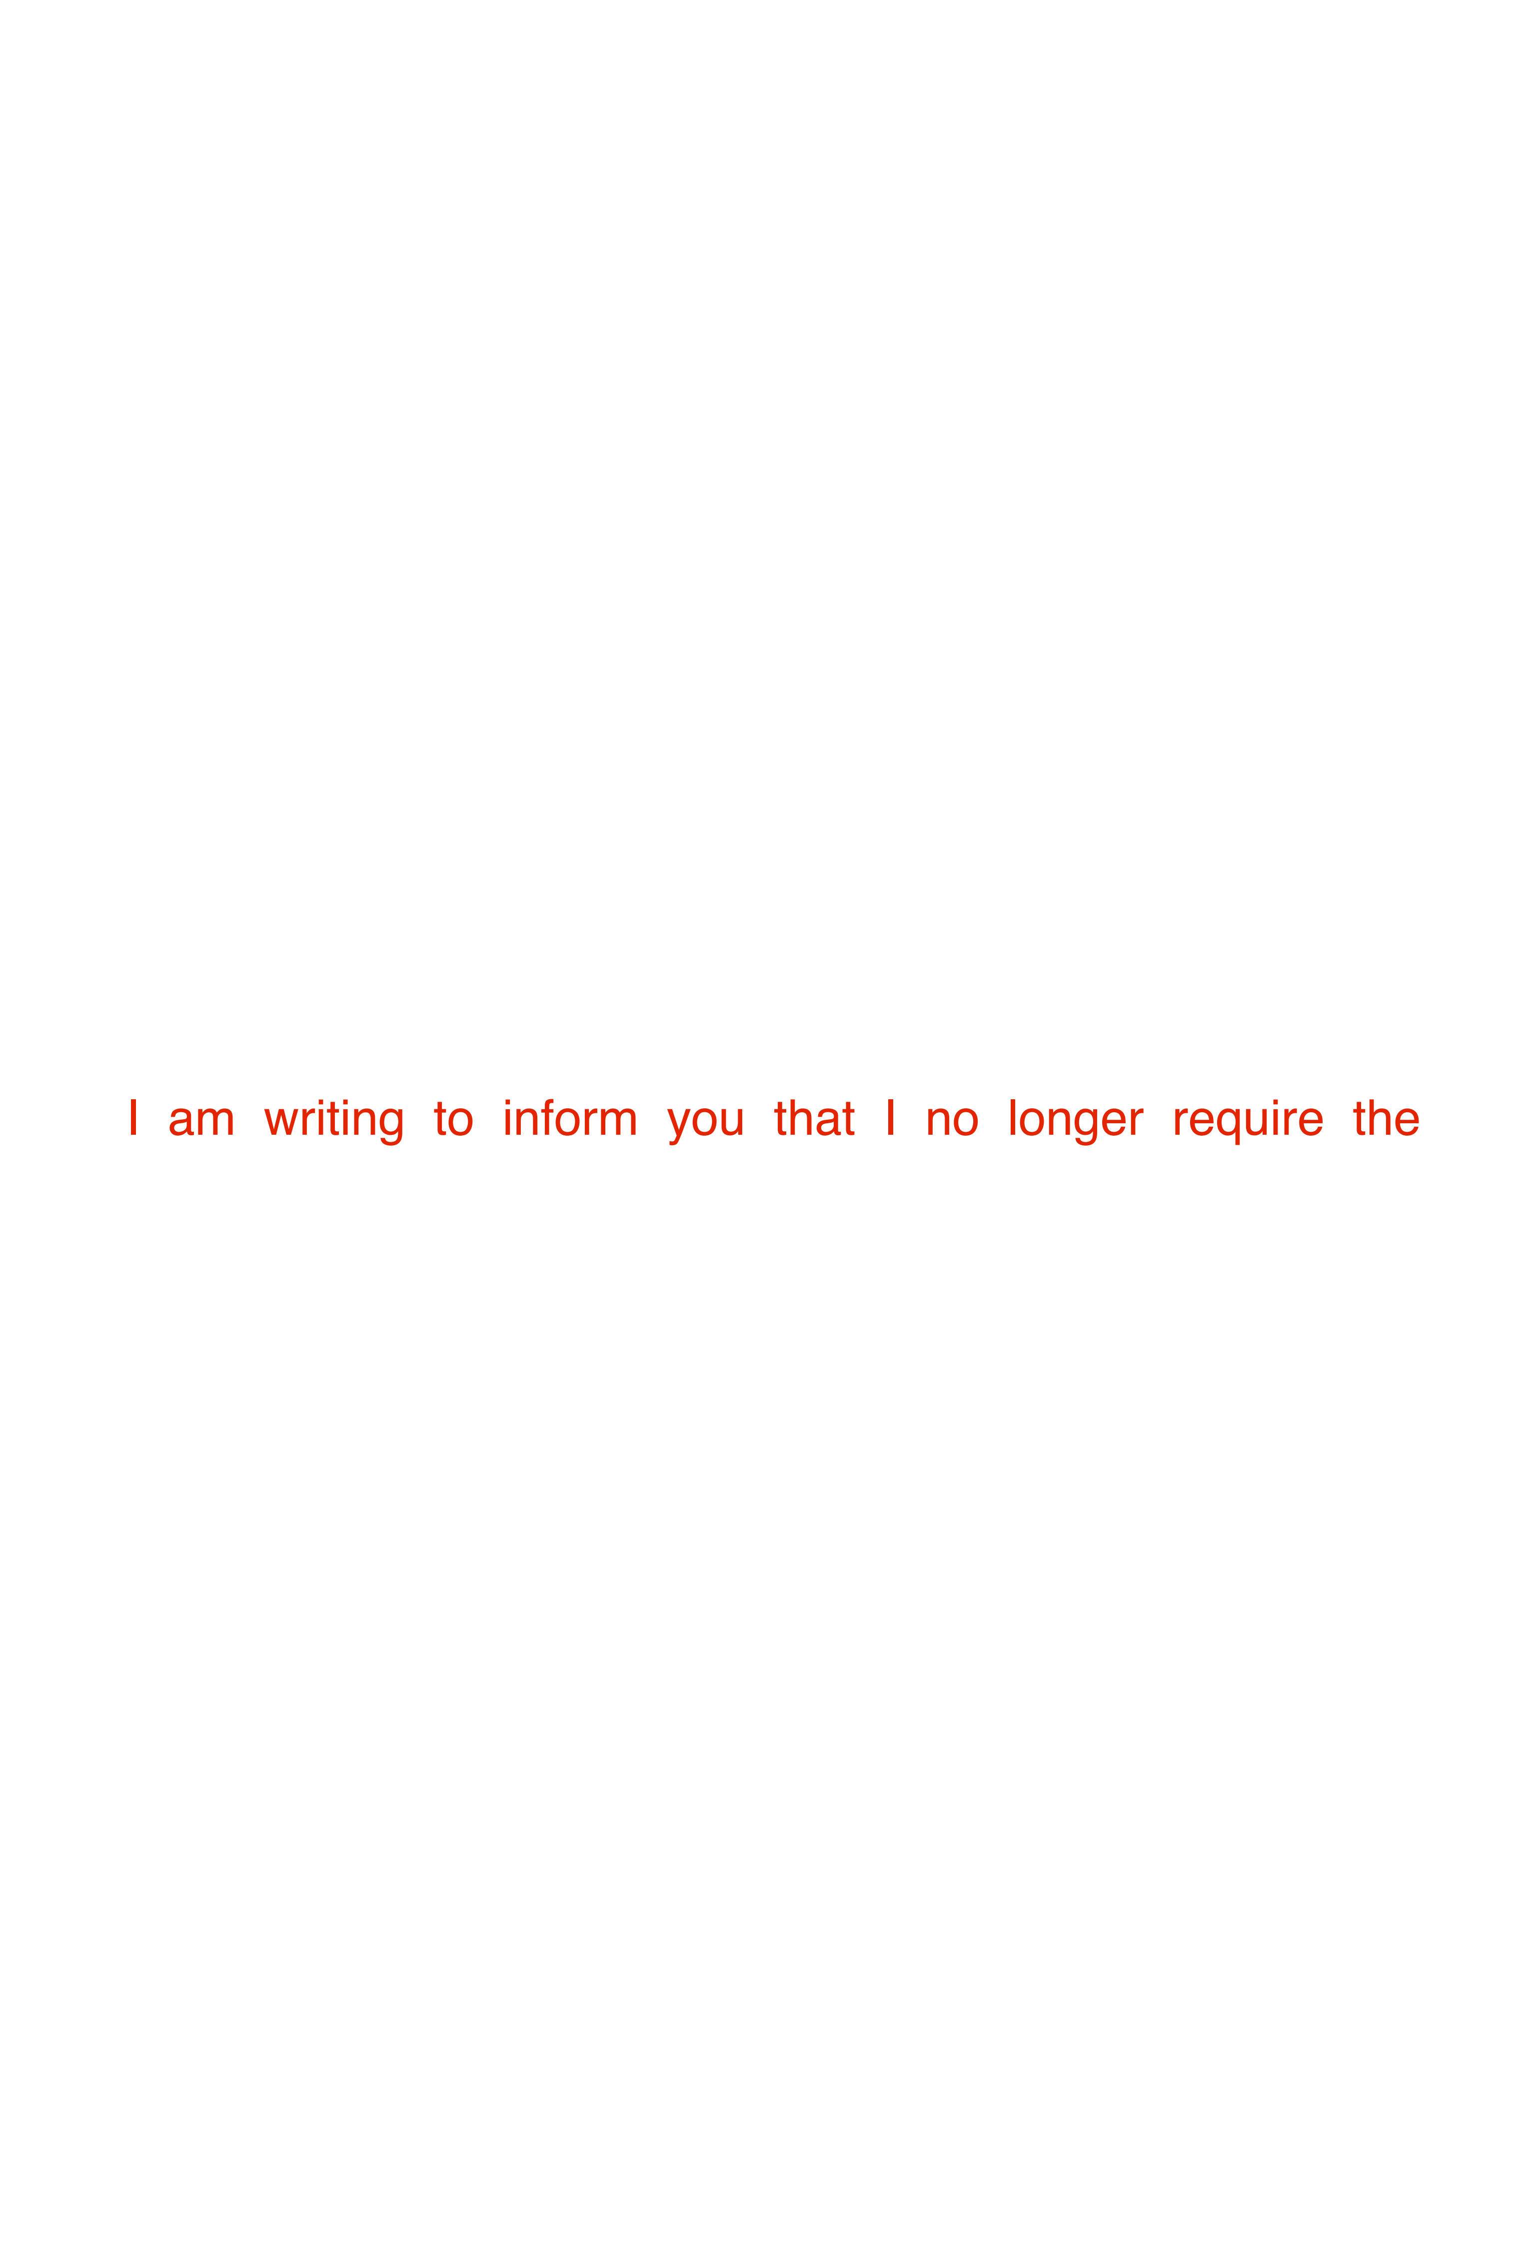

those that came before us who died for what most of us enjoy and the

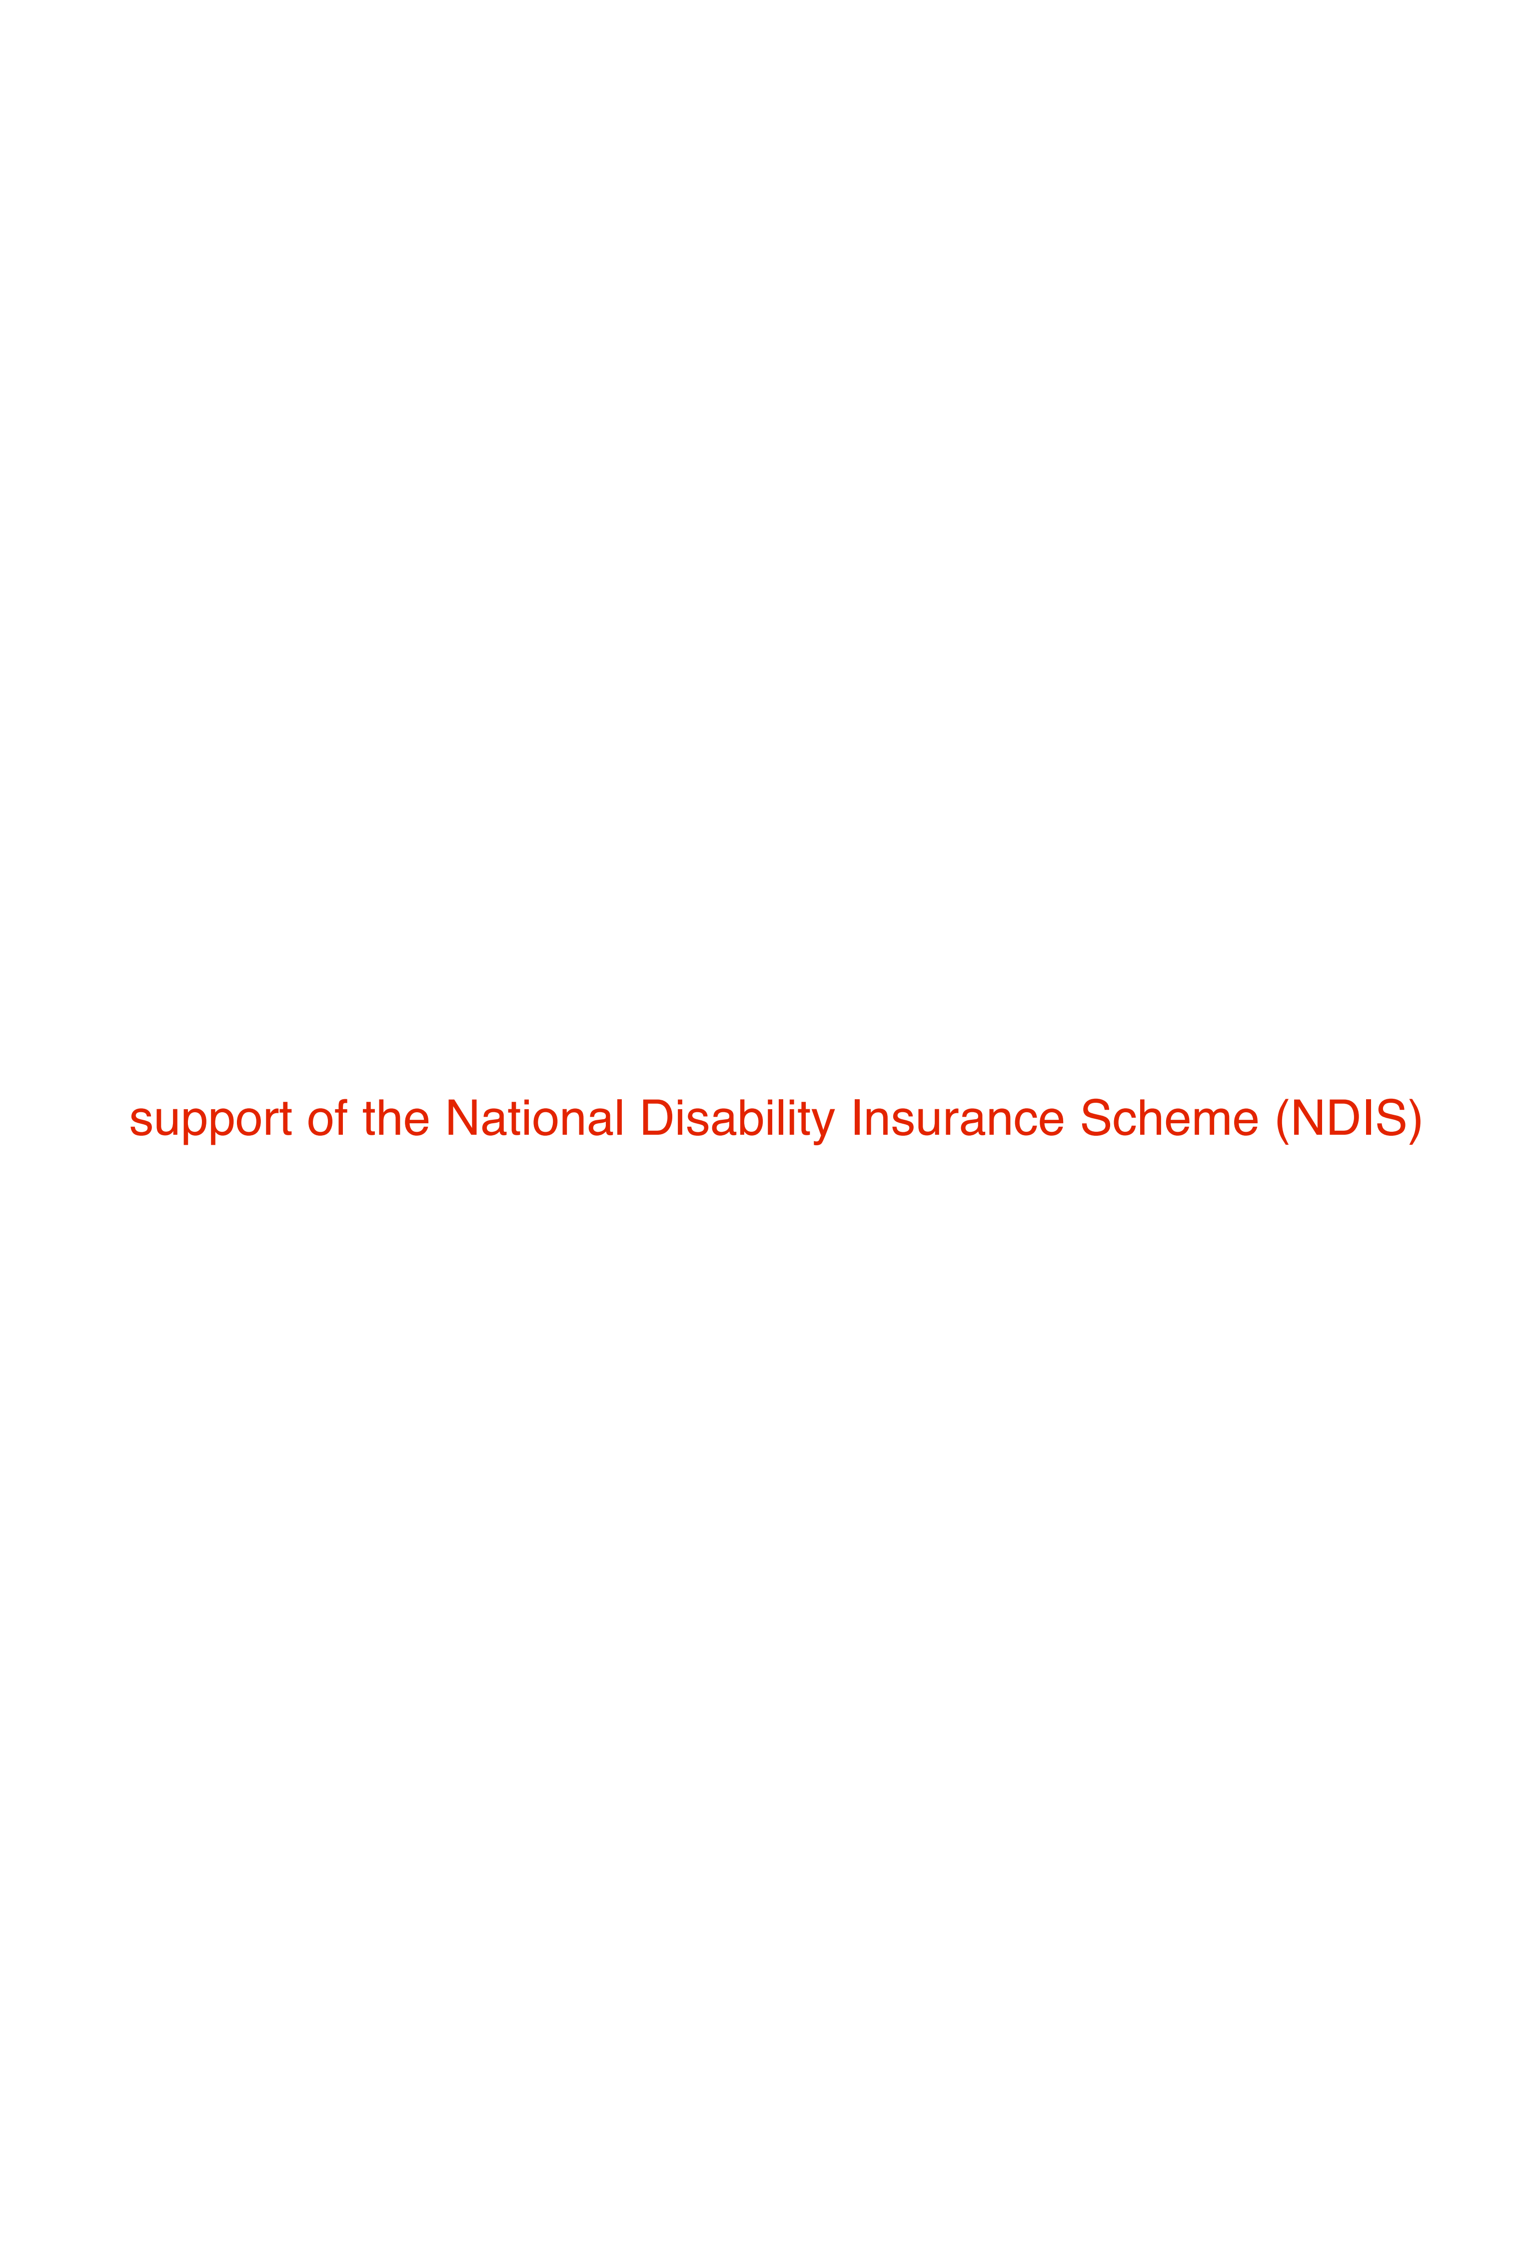

avant guard warriors who fell fighting.

Subject: Request to End NDIS Support Due to Employment

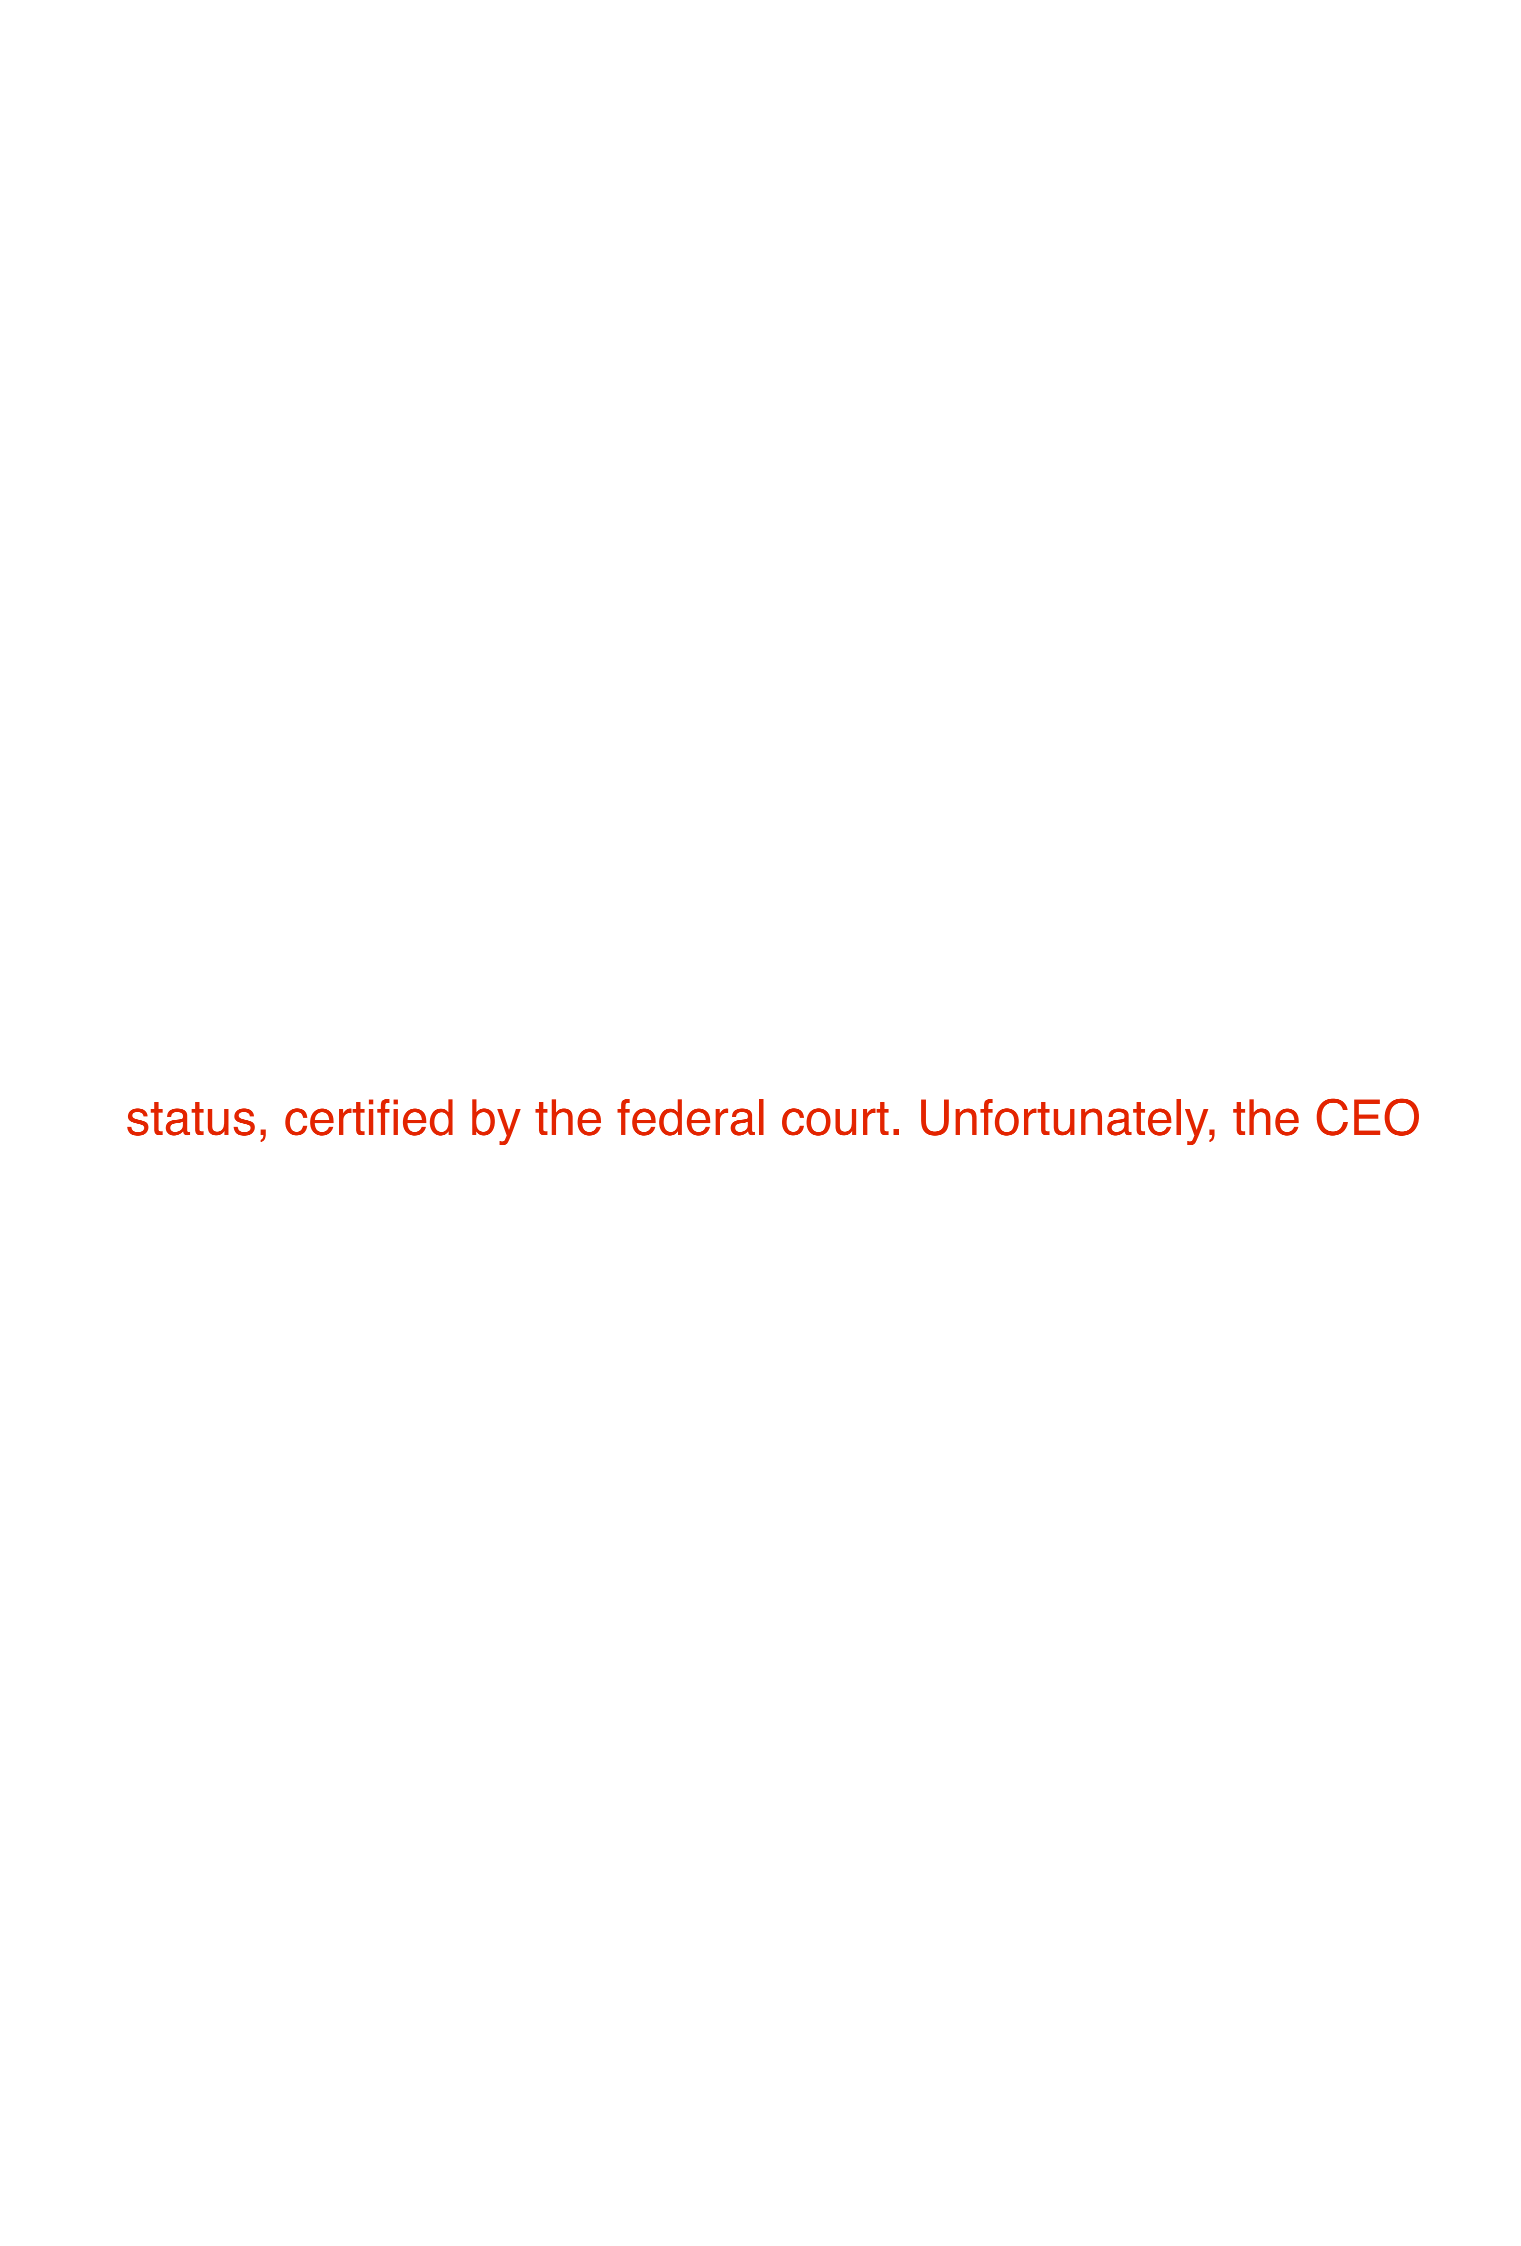

Status Confirmation

Dear Kel Graham and un-named NDIS Ministers,

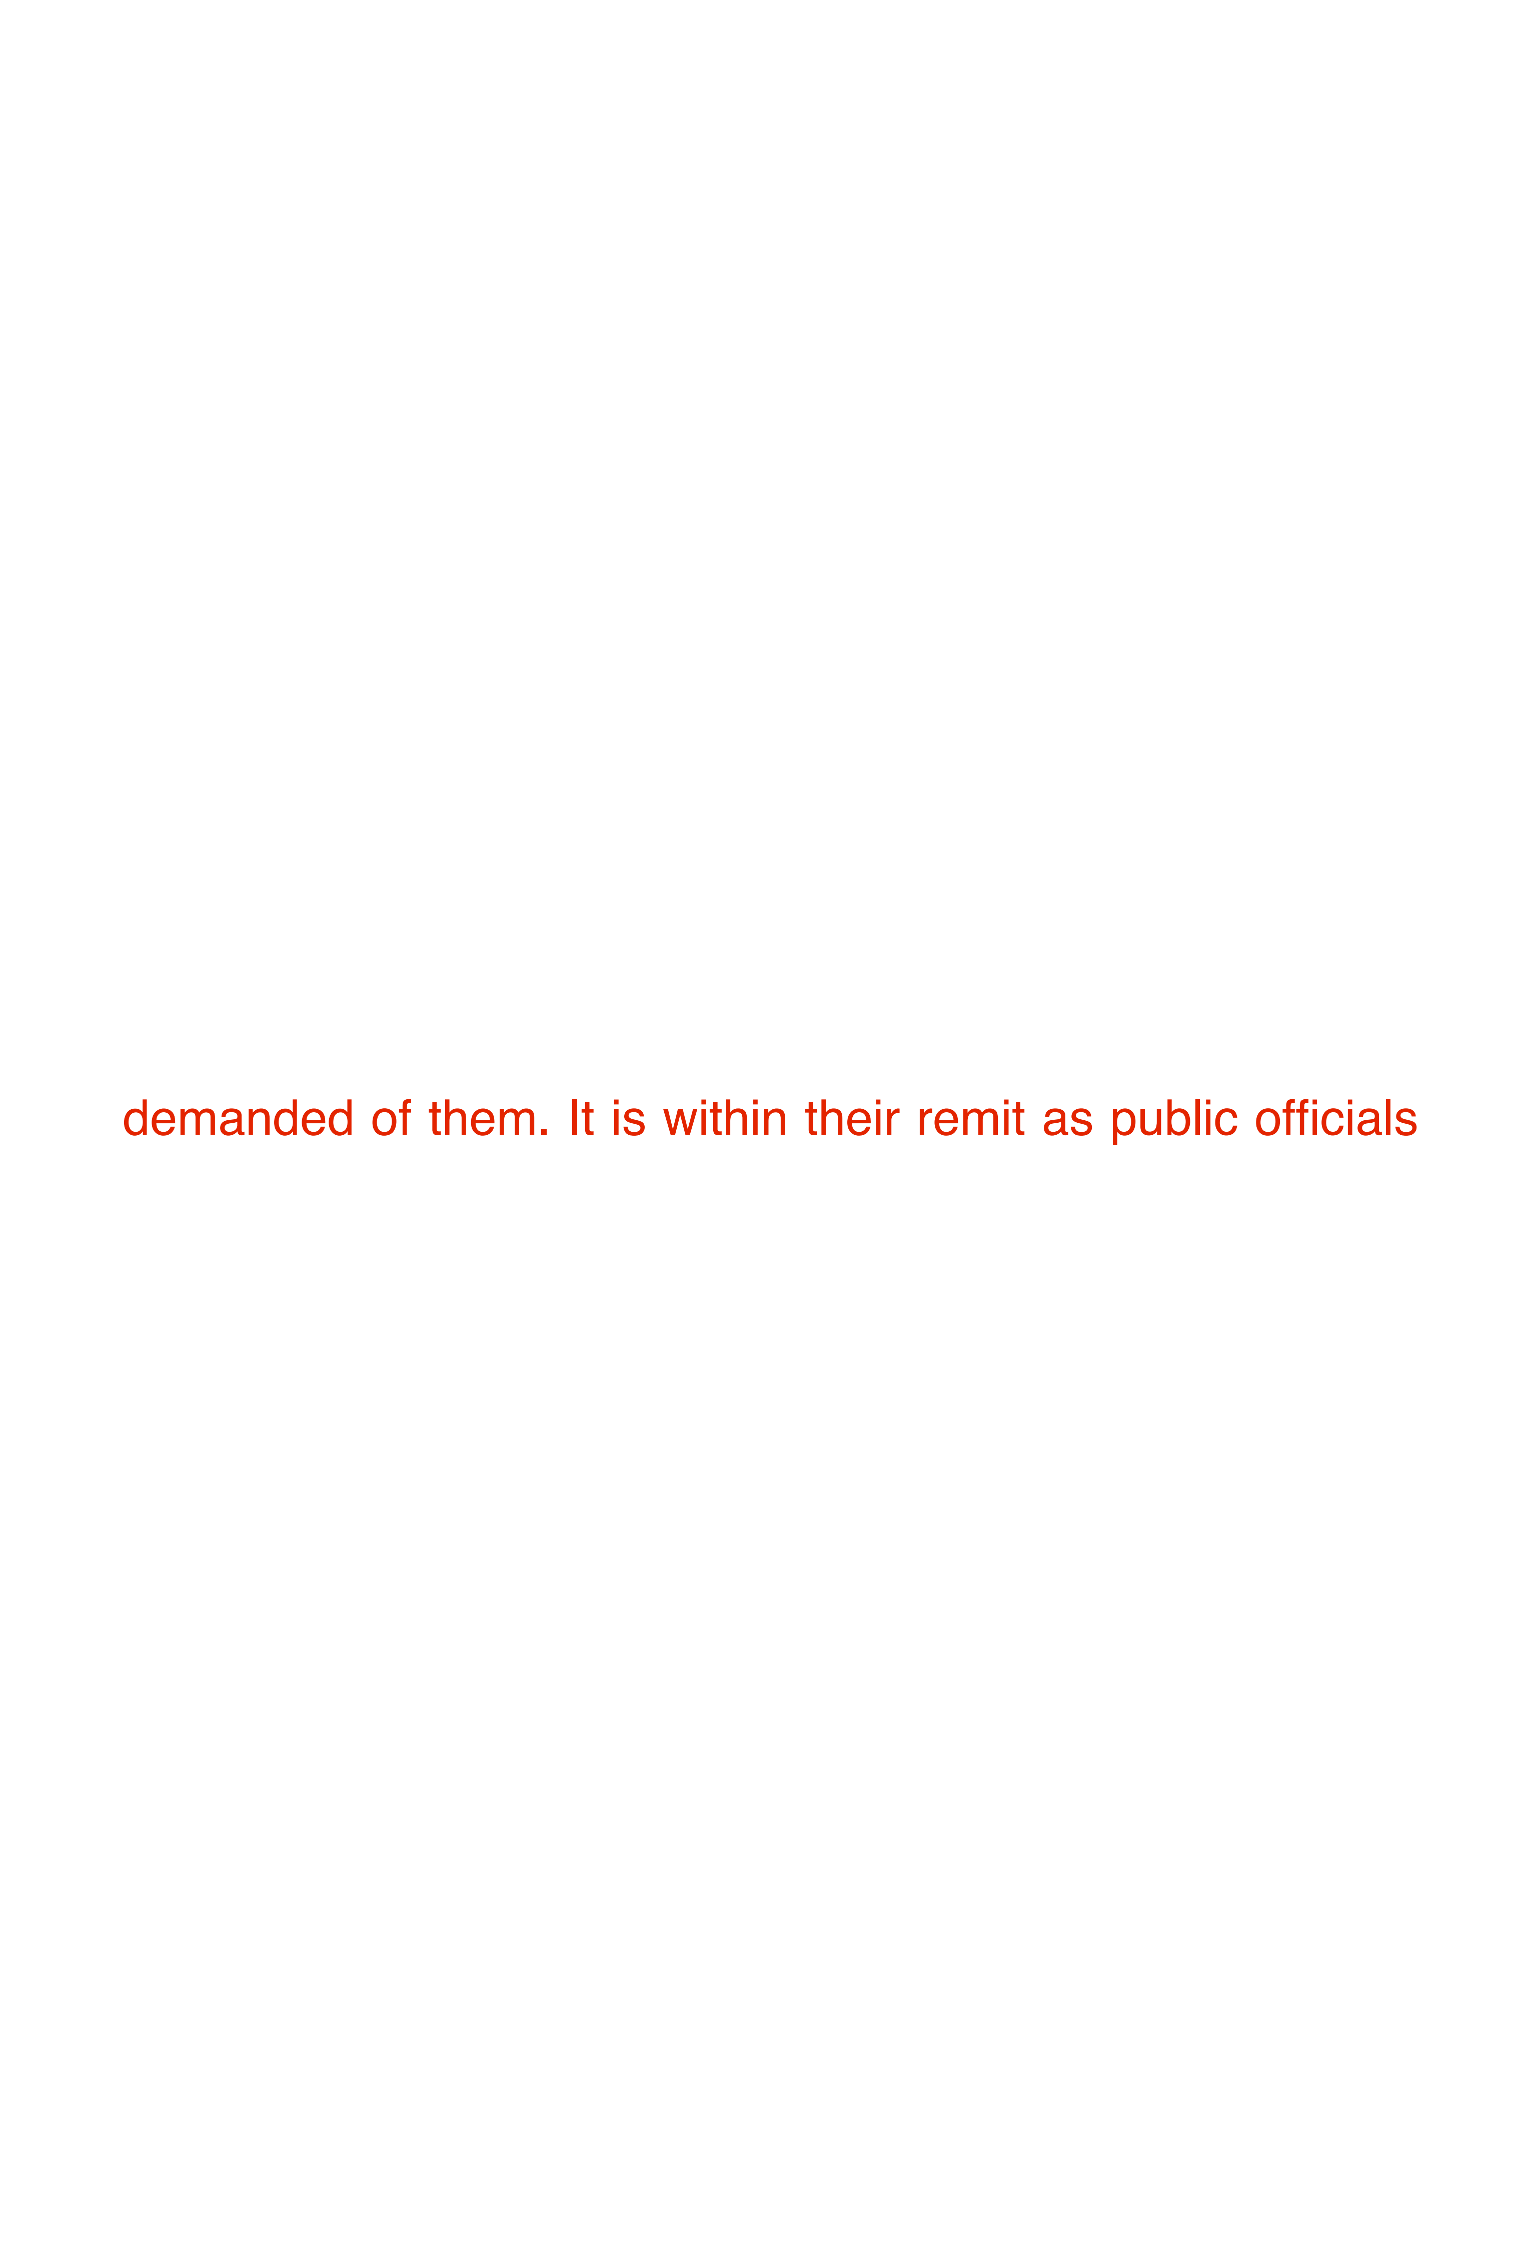

I am writing to inform you that I no longer require the

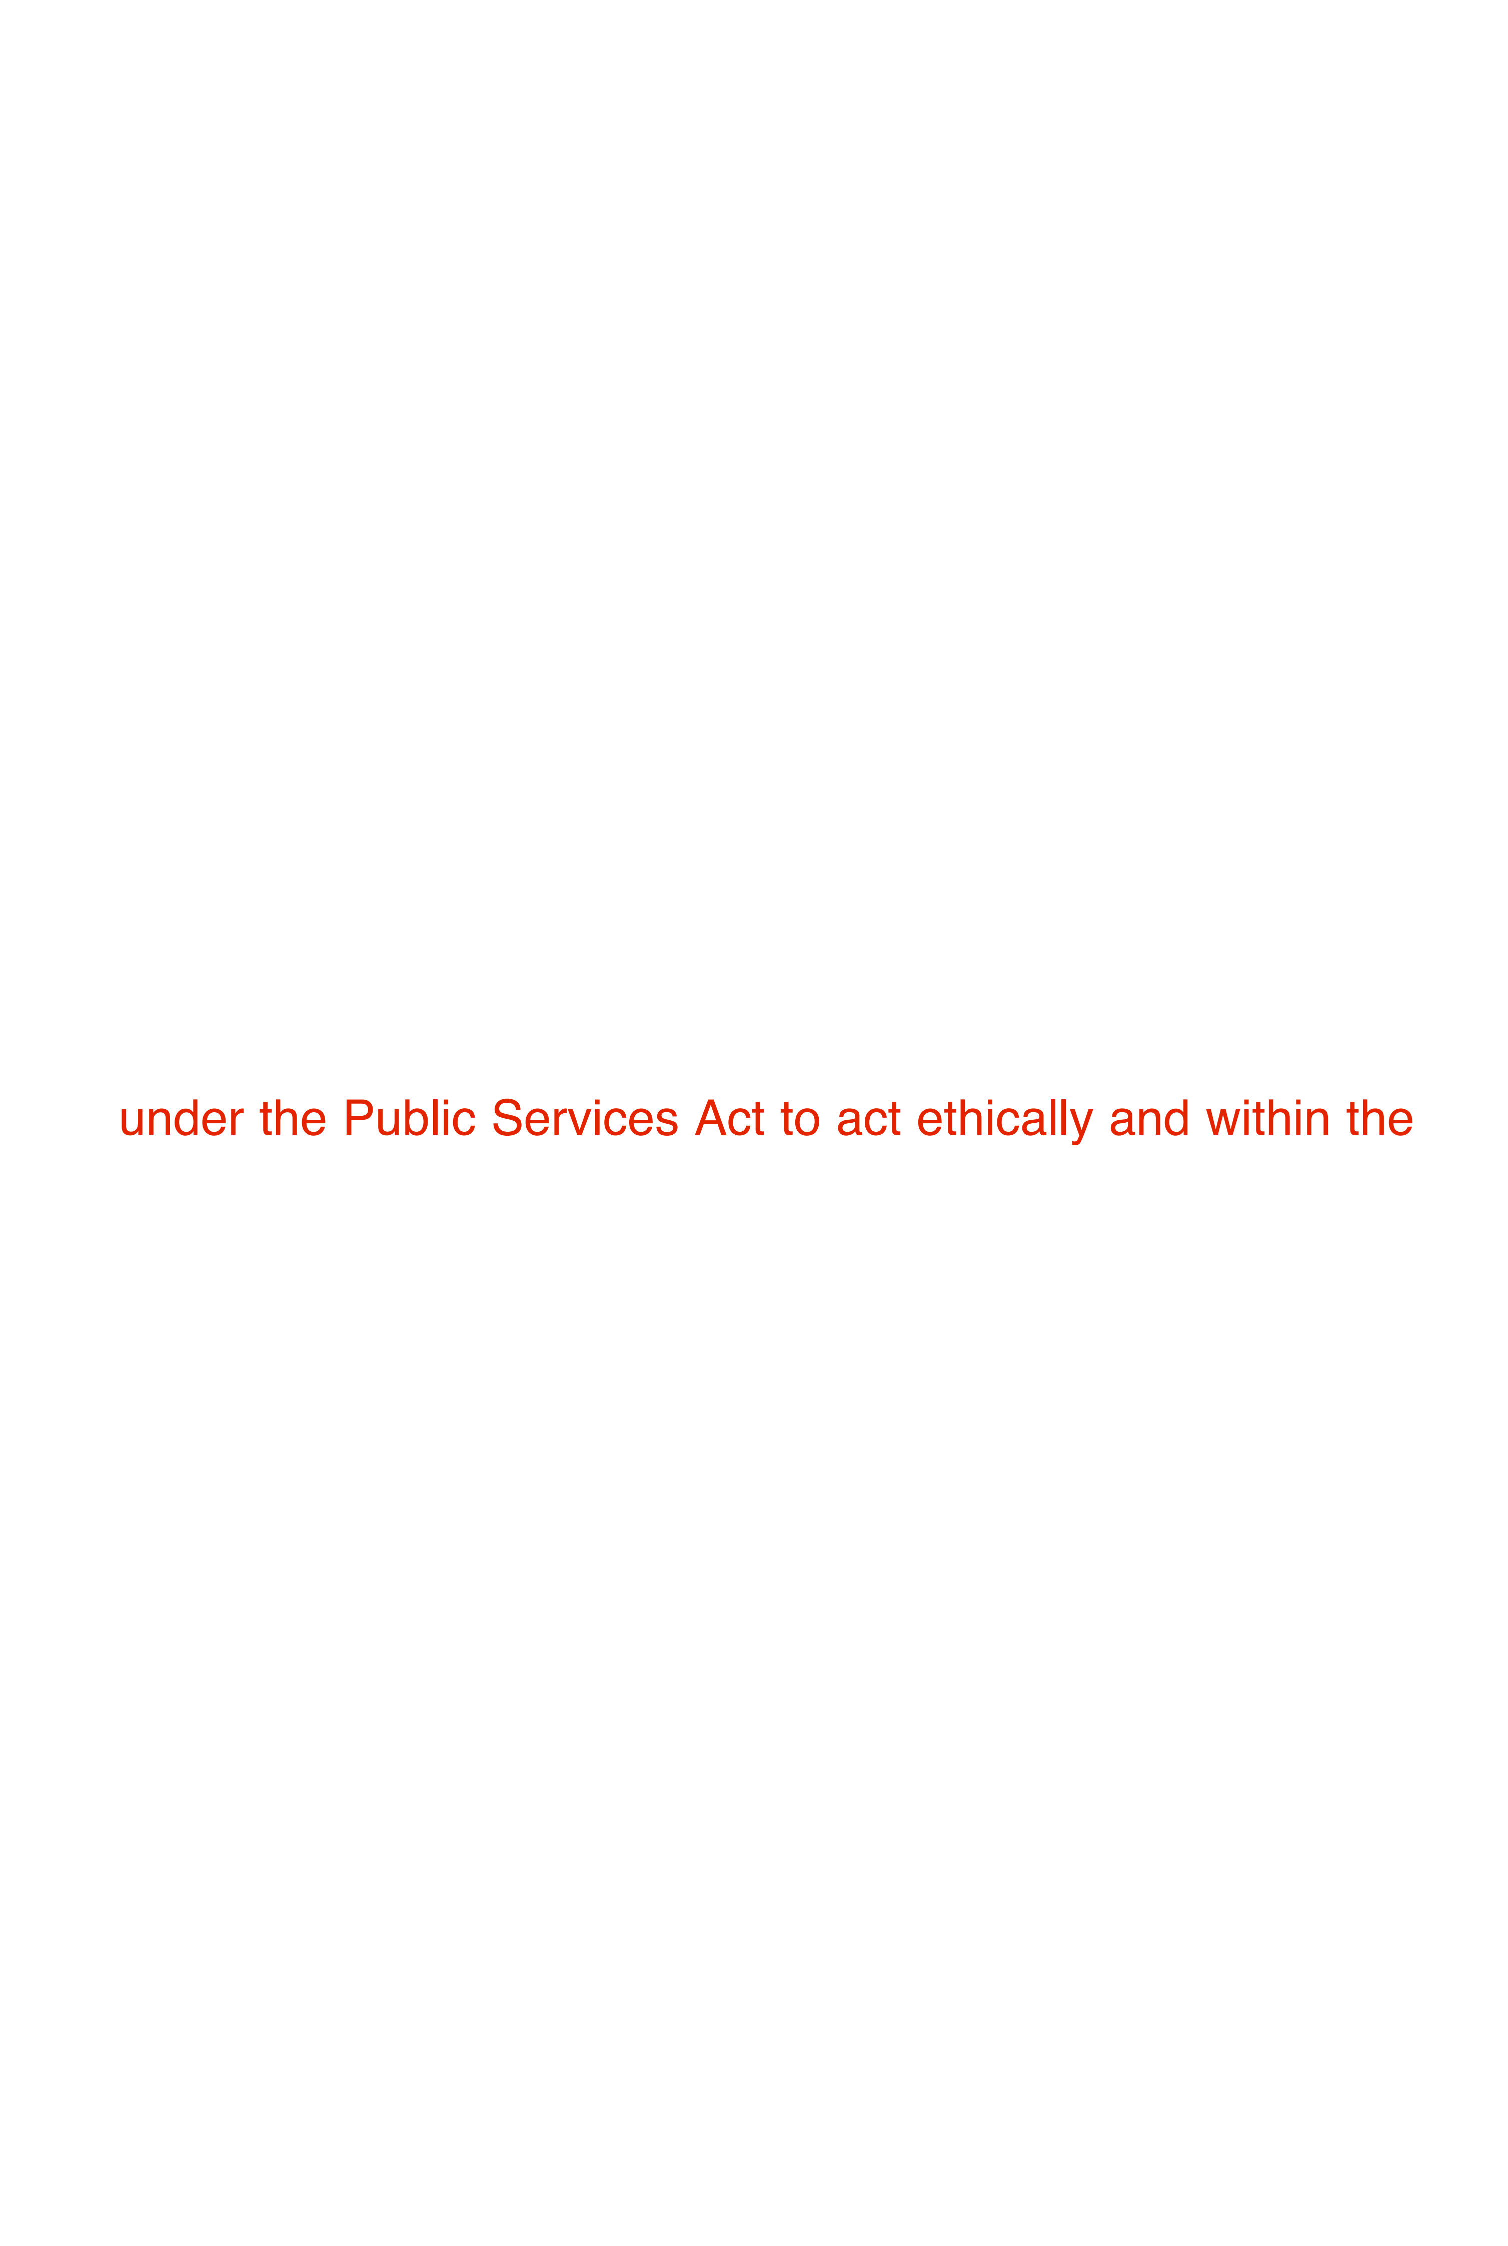

support of the National Disability Insurance Scheme (NDIS)

due to recent developments regarding my employment

status, certified by the federal court. Unfortunately, the CEO

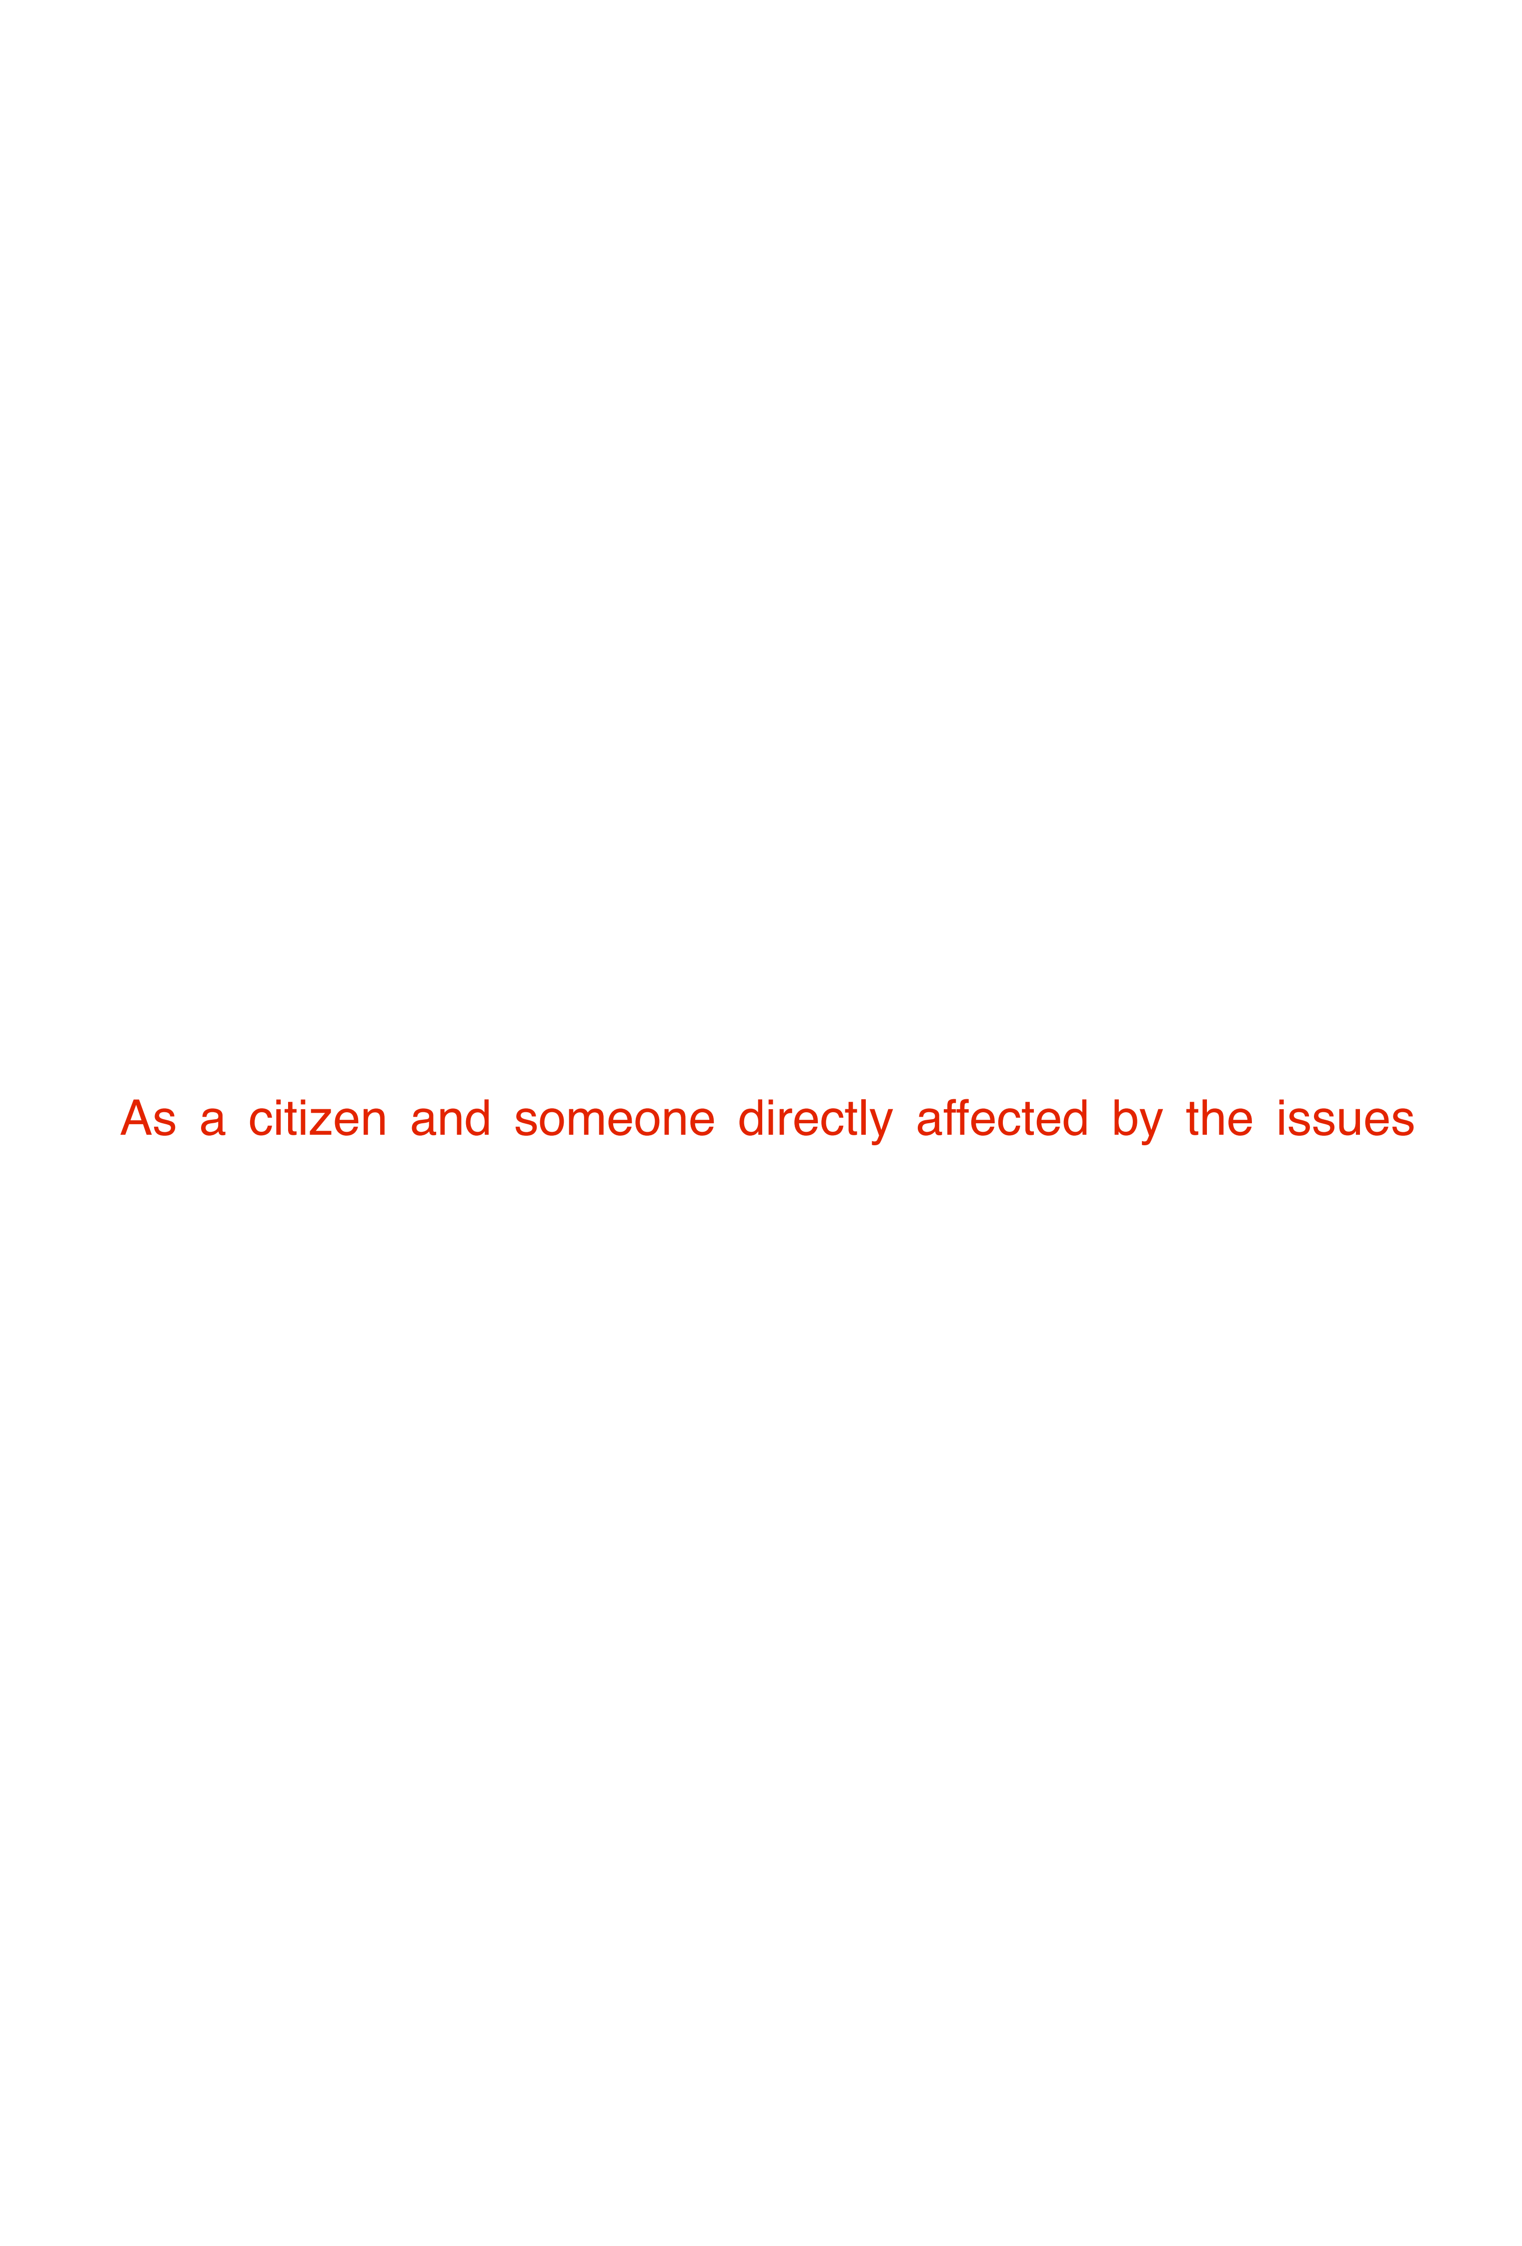

and minister refused to accept accountability when it was

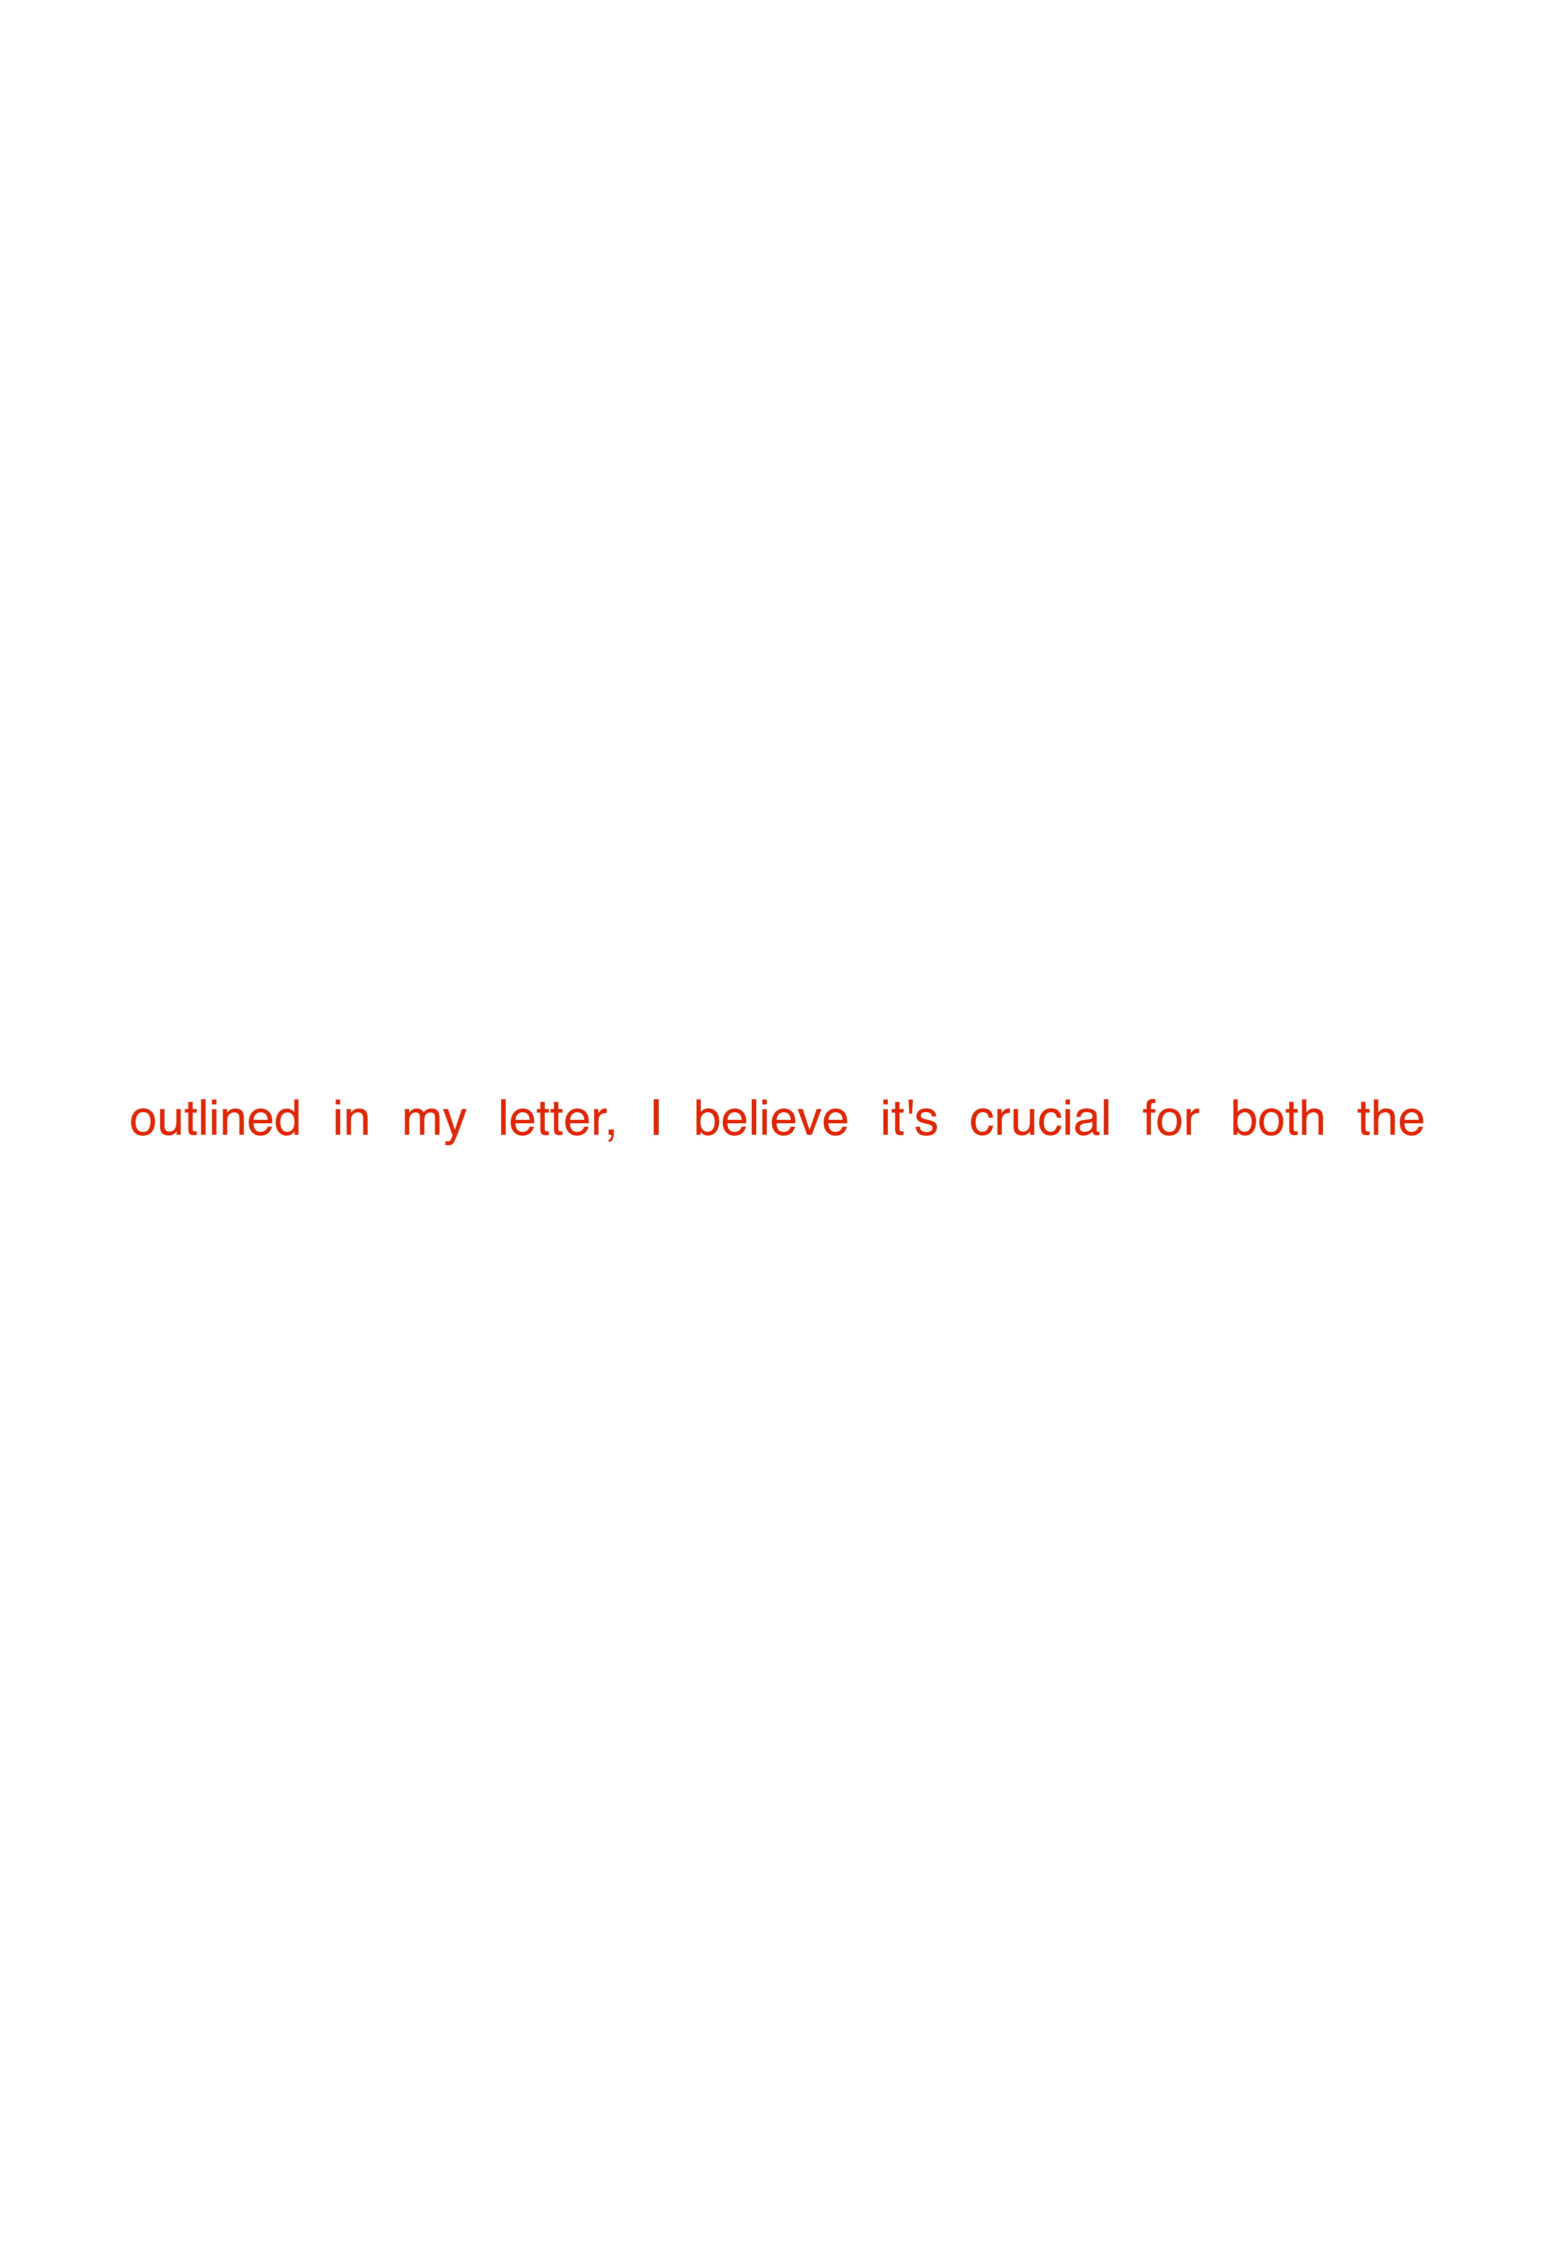

demanded of them. It is within their remit as public officials

under the Public Services Act to act ethically and within the

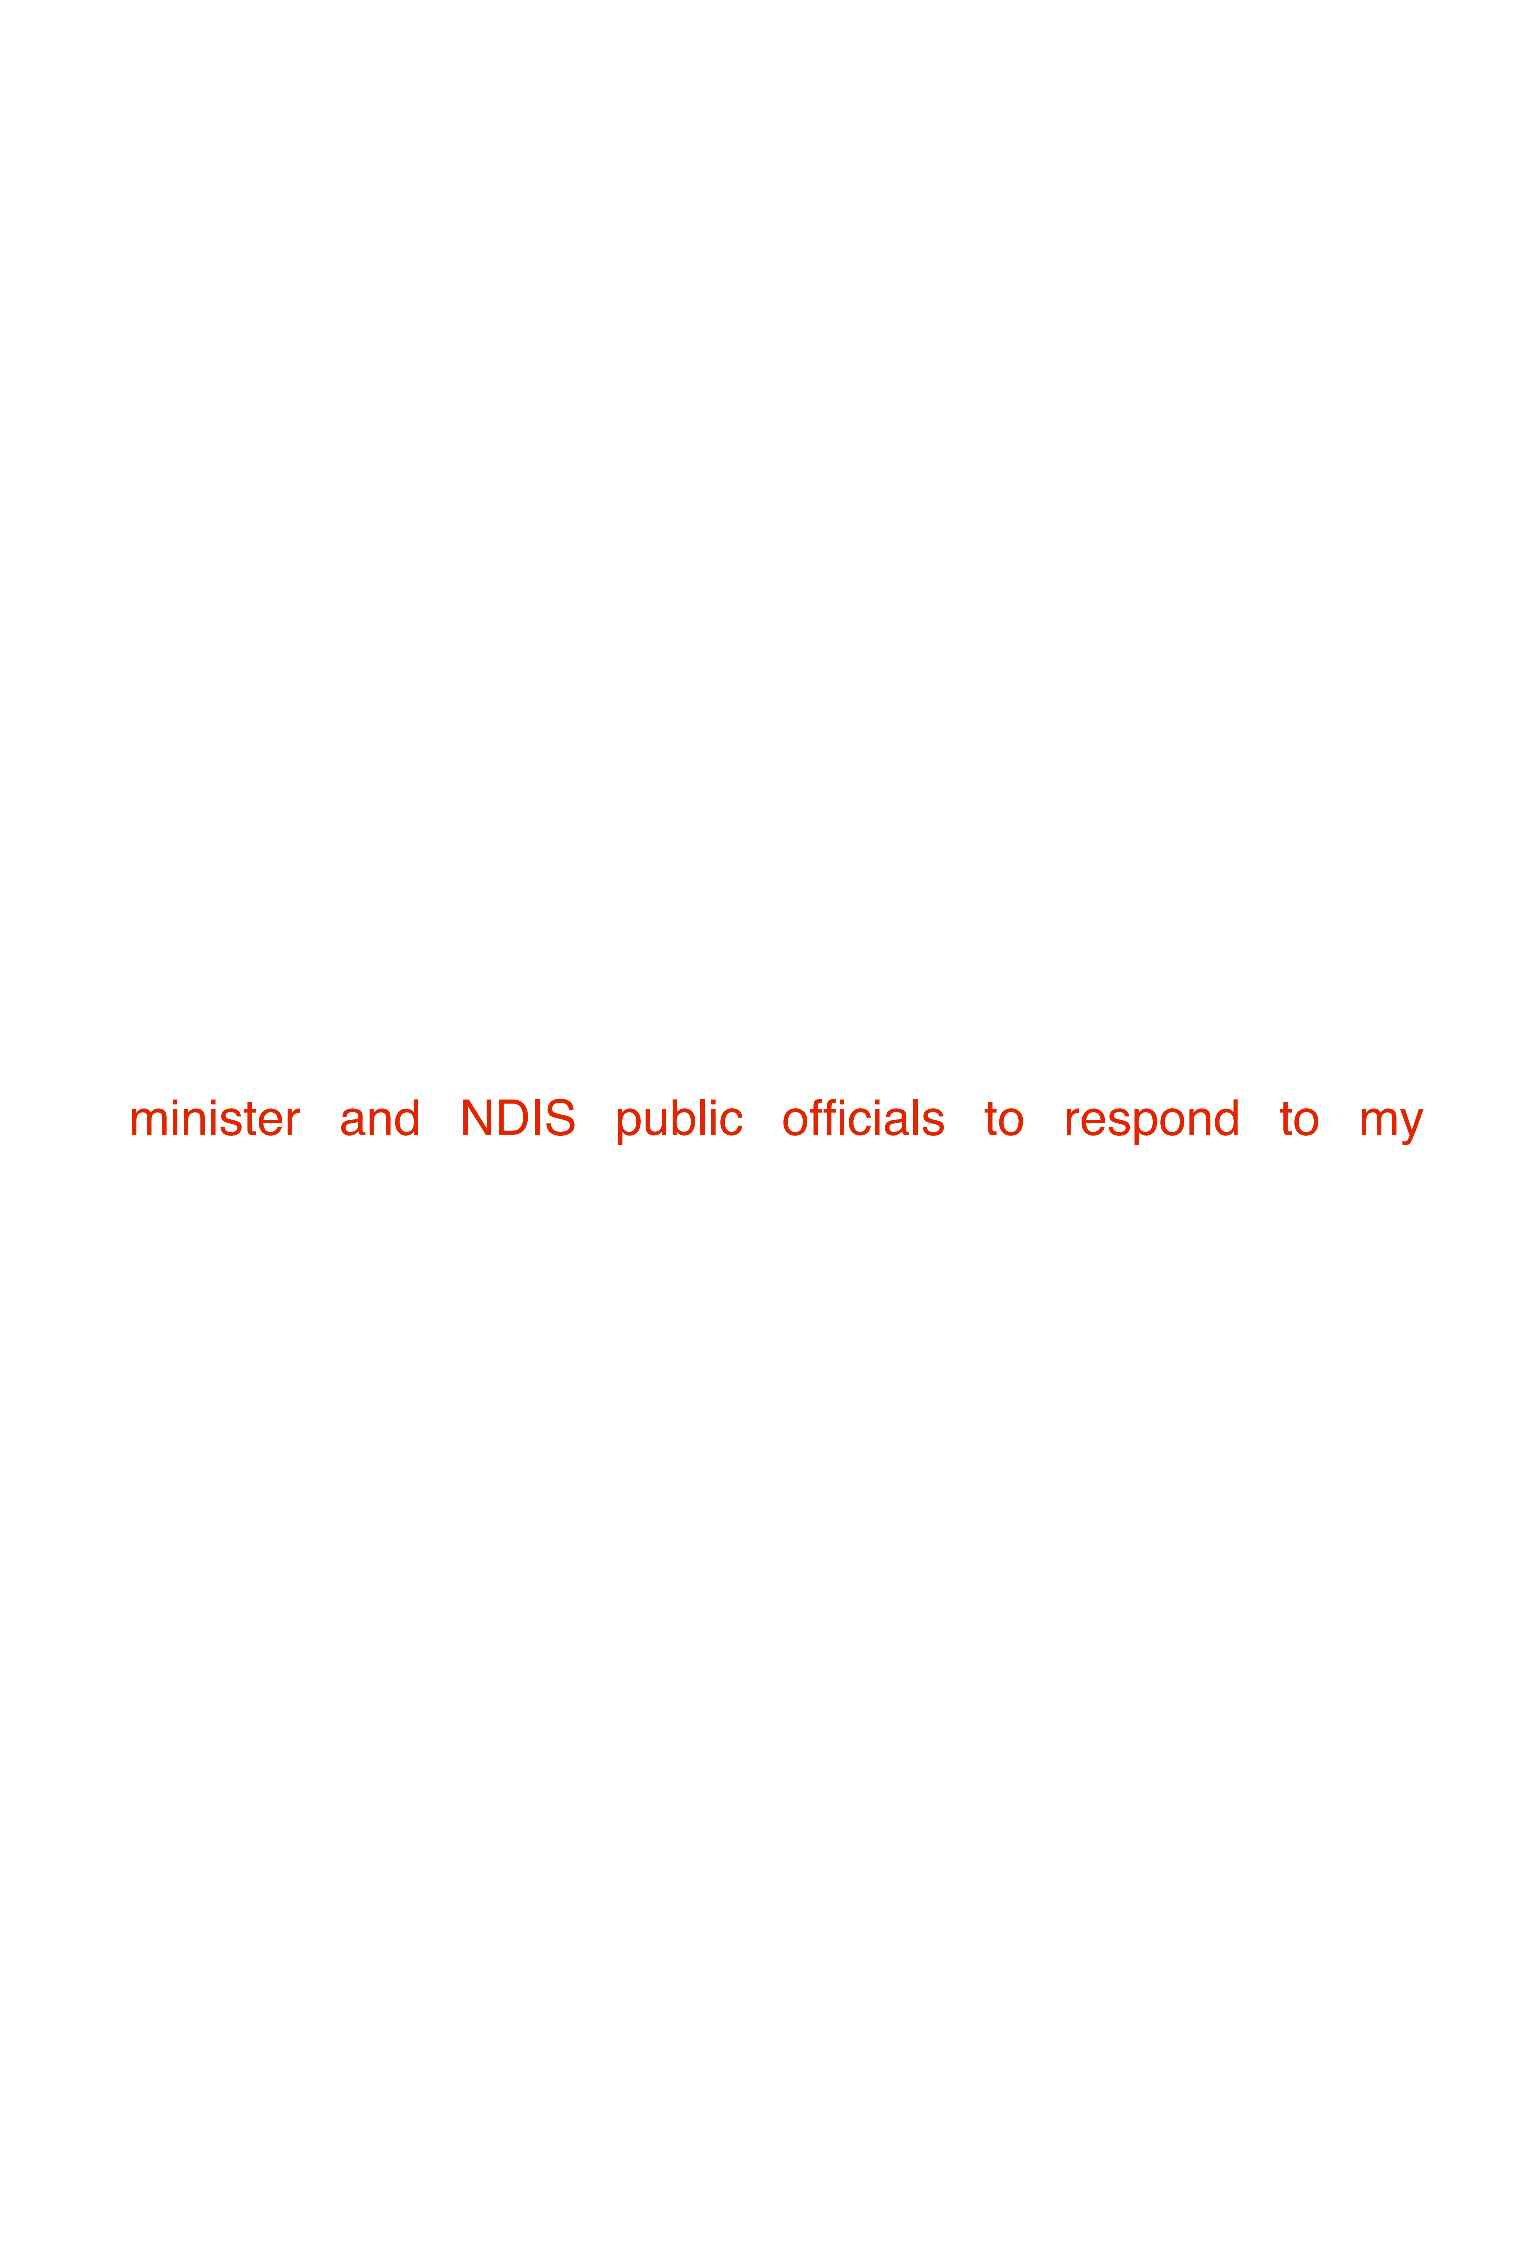

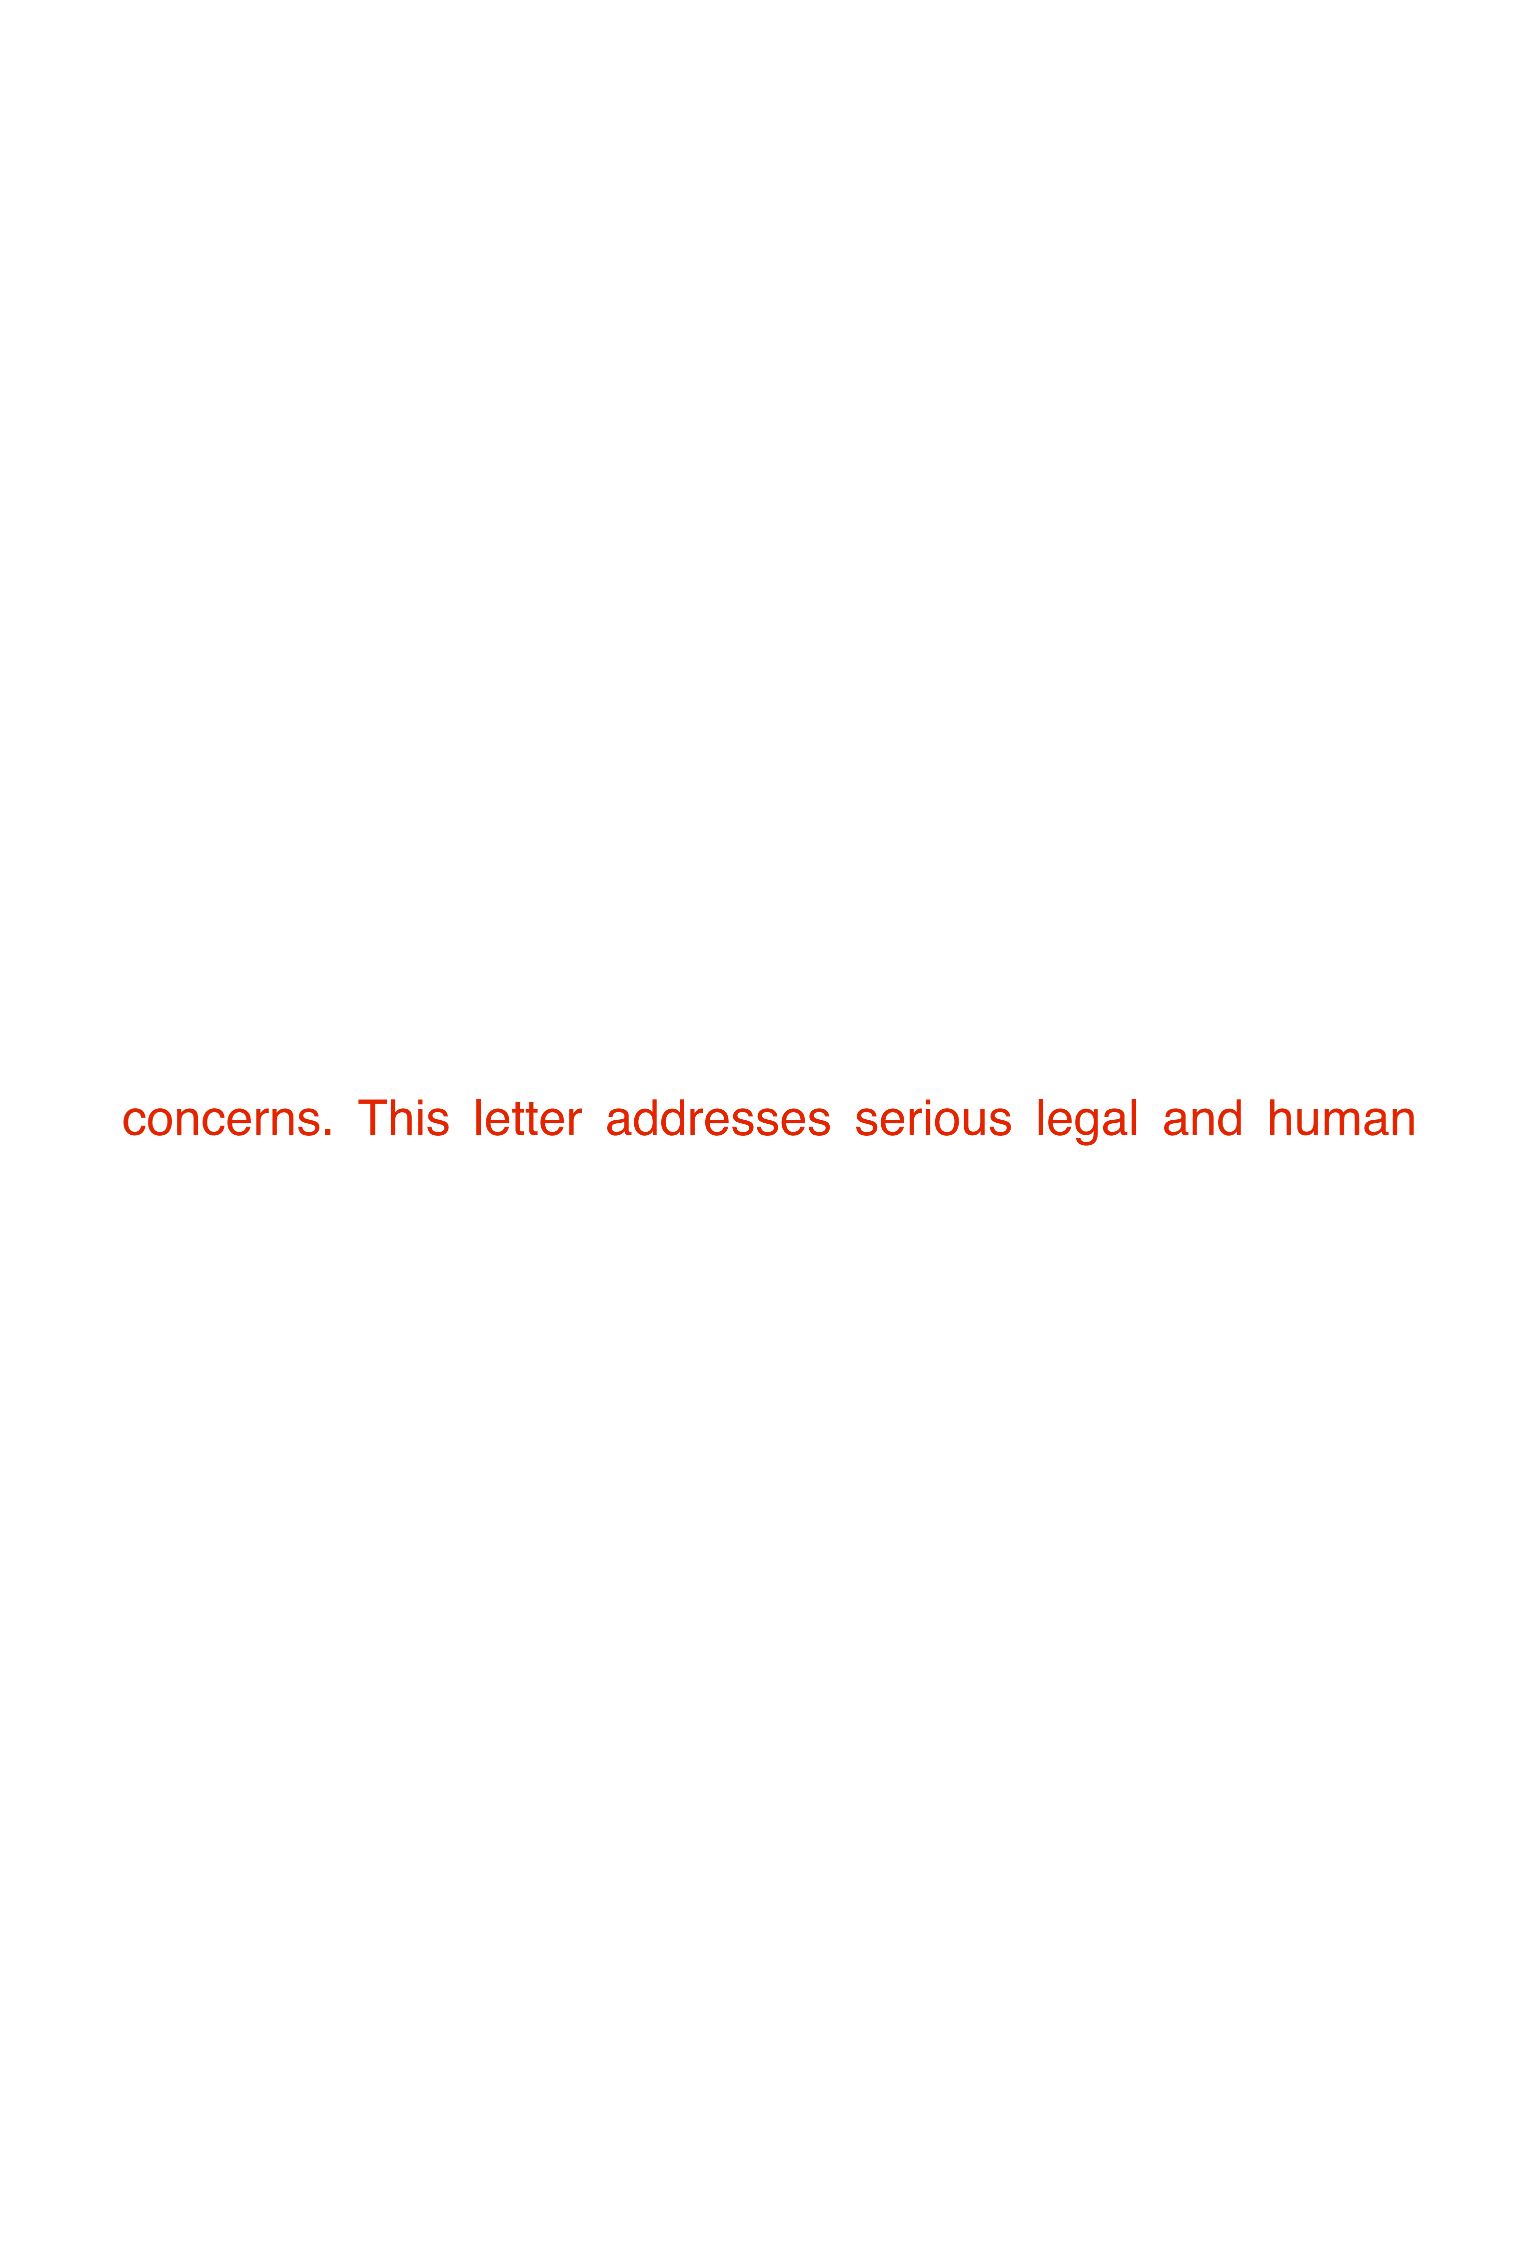

Human Rights Charter.

As a citizen and someone directly affected by the issues

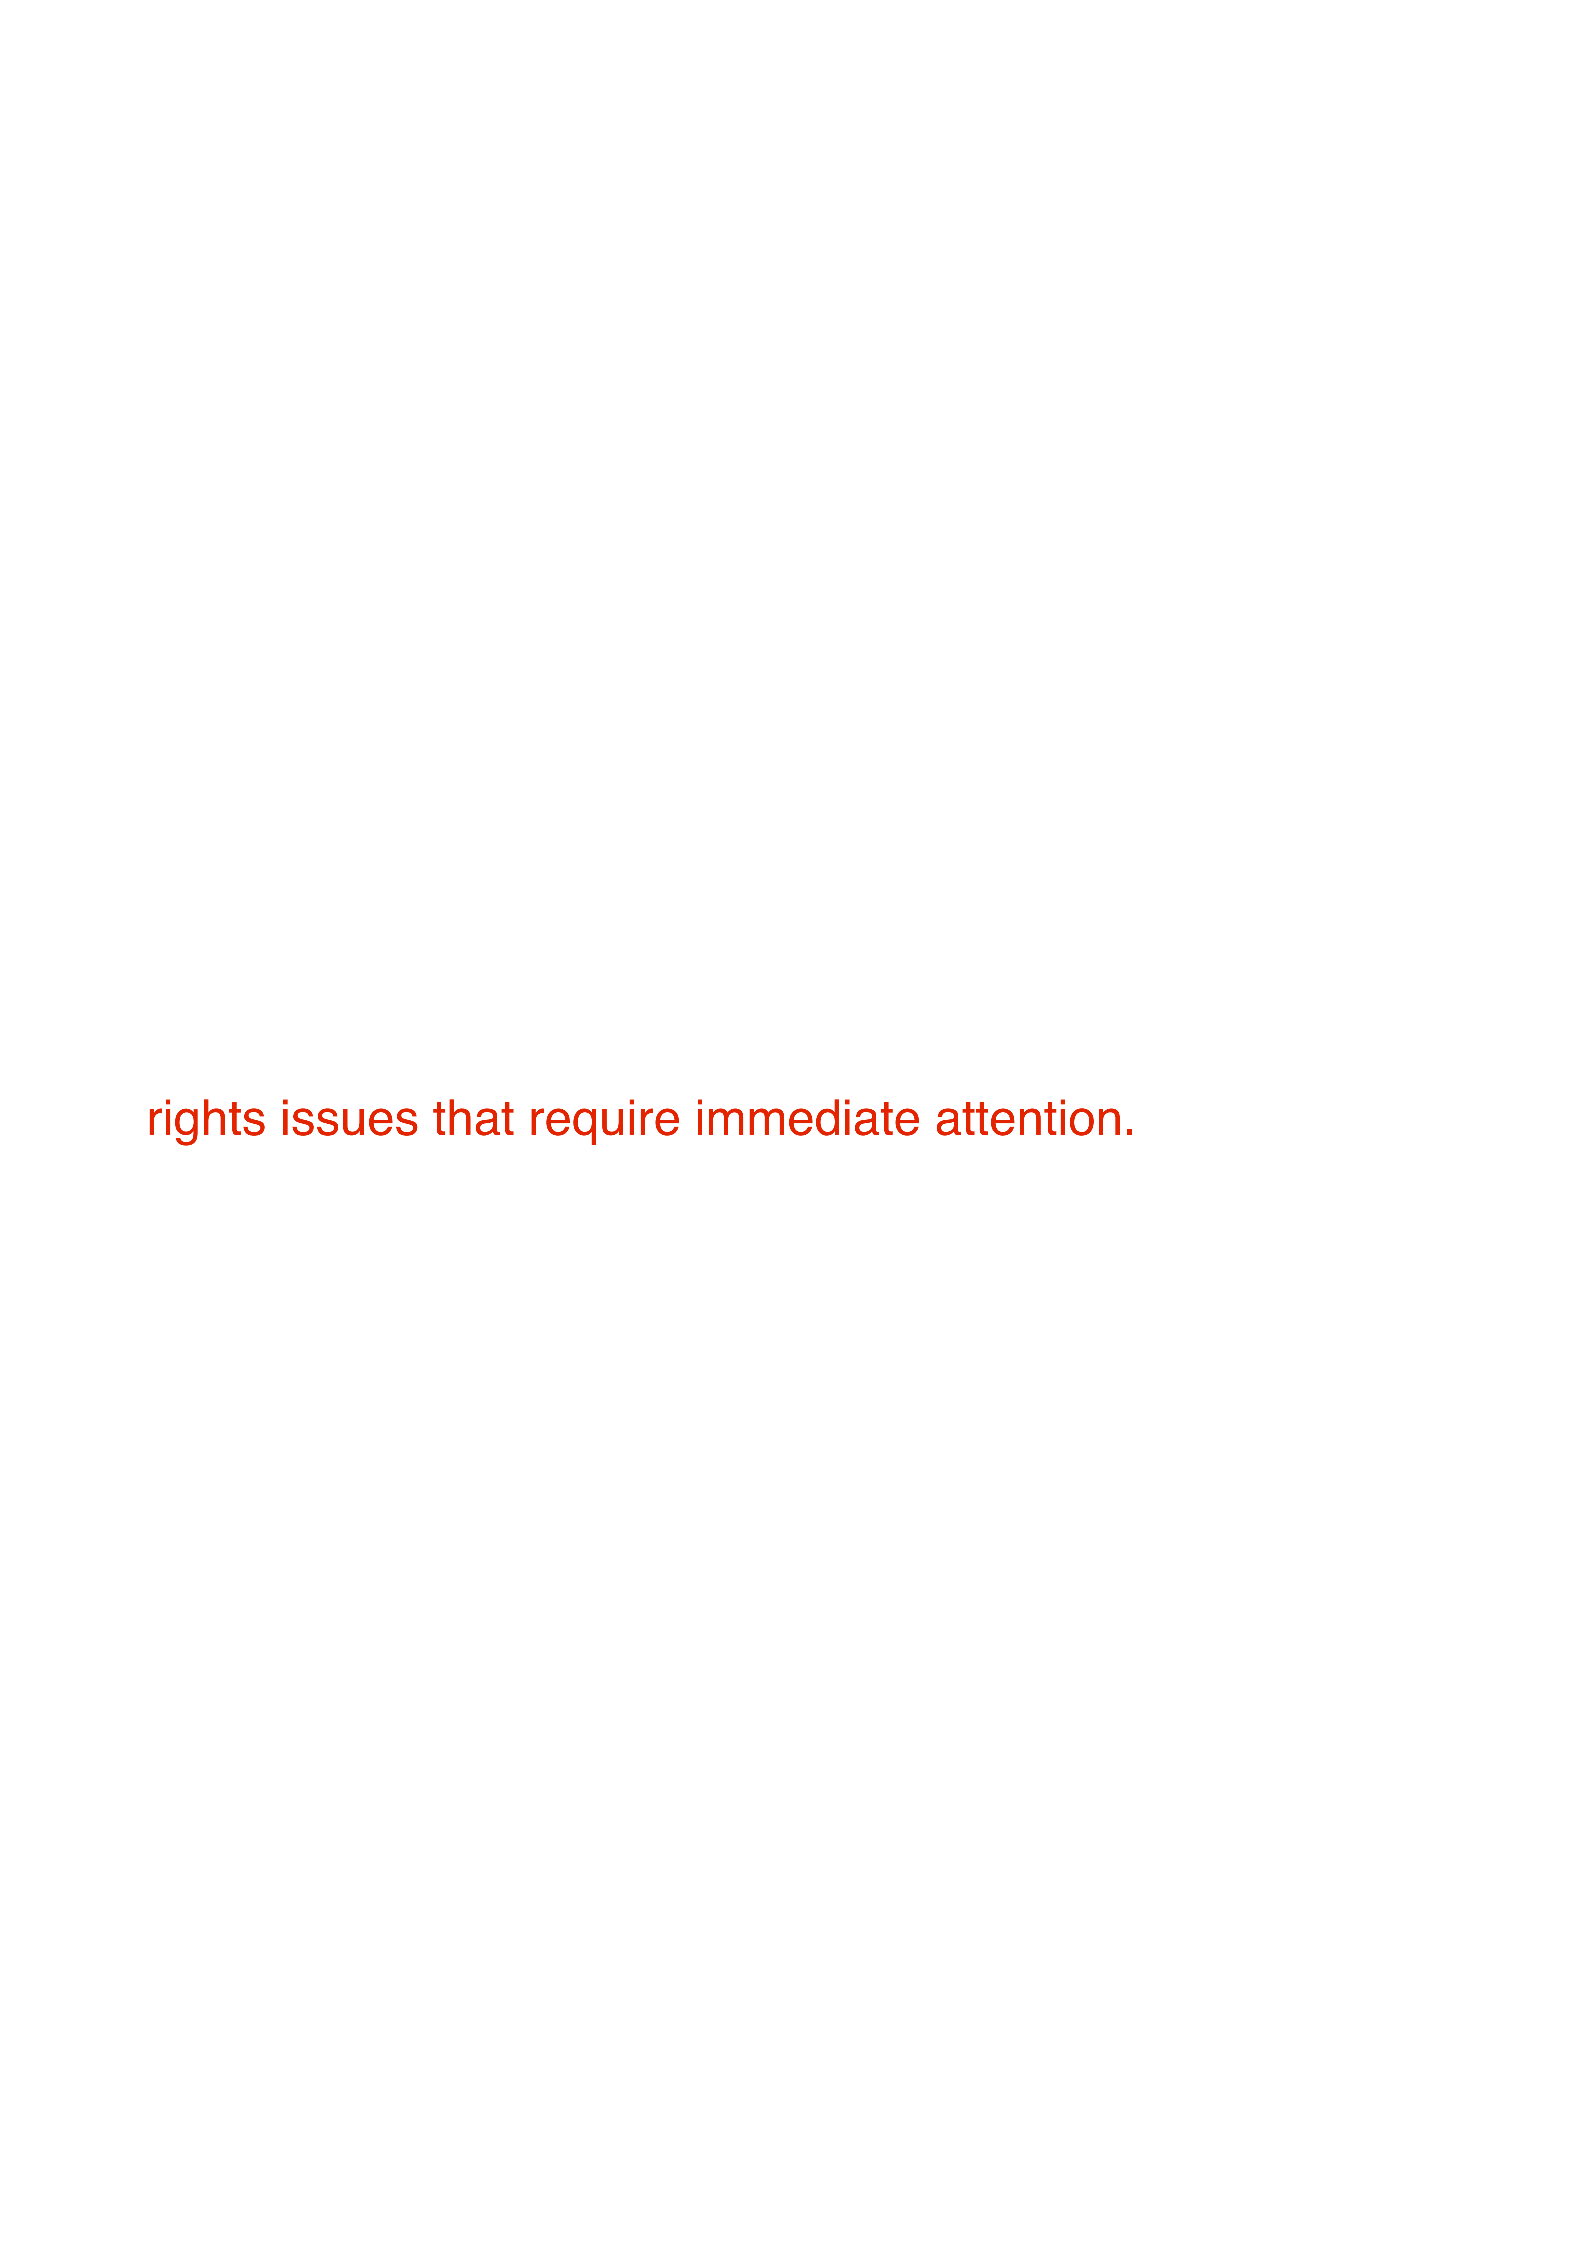

outlined in my letter, I believe it's crucial for both the

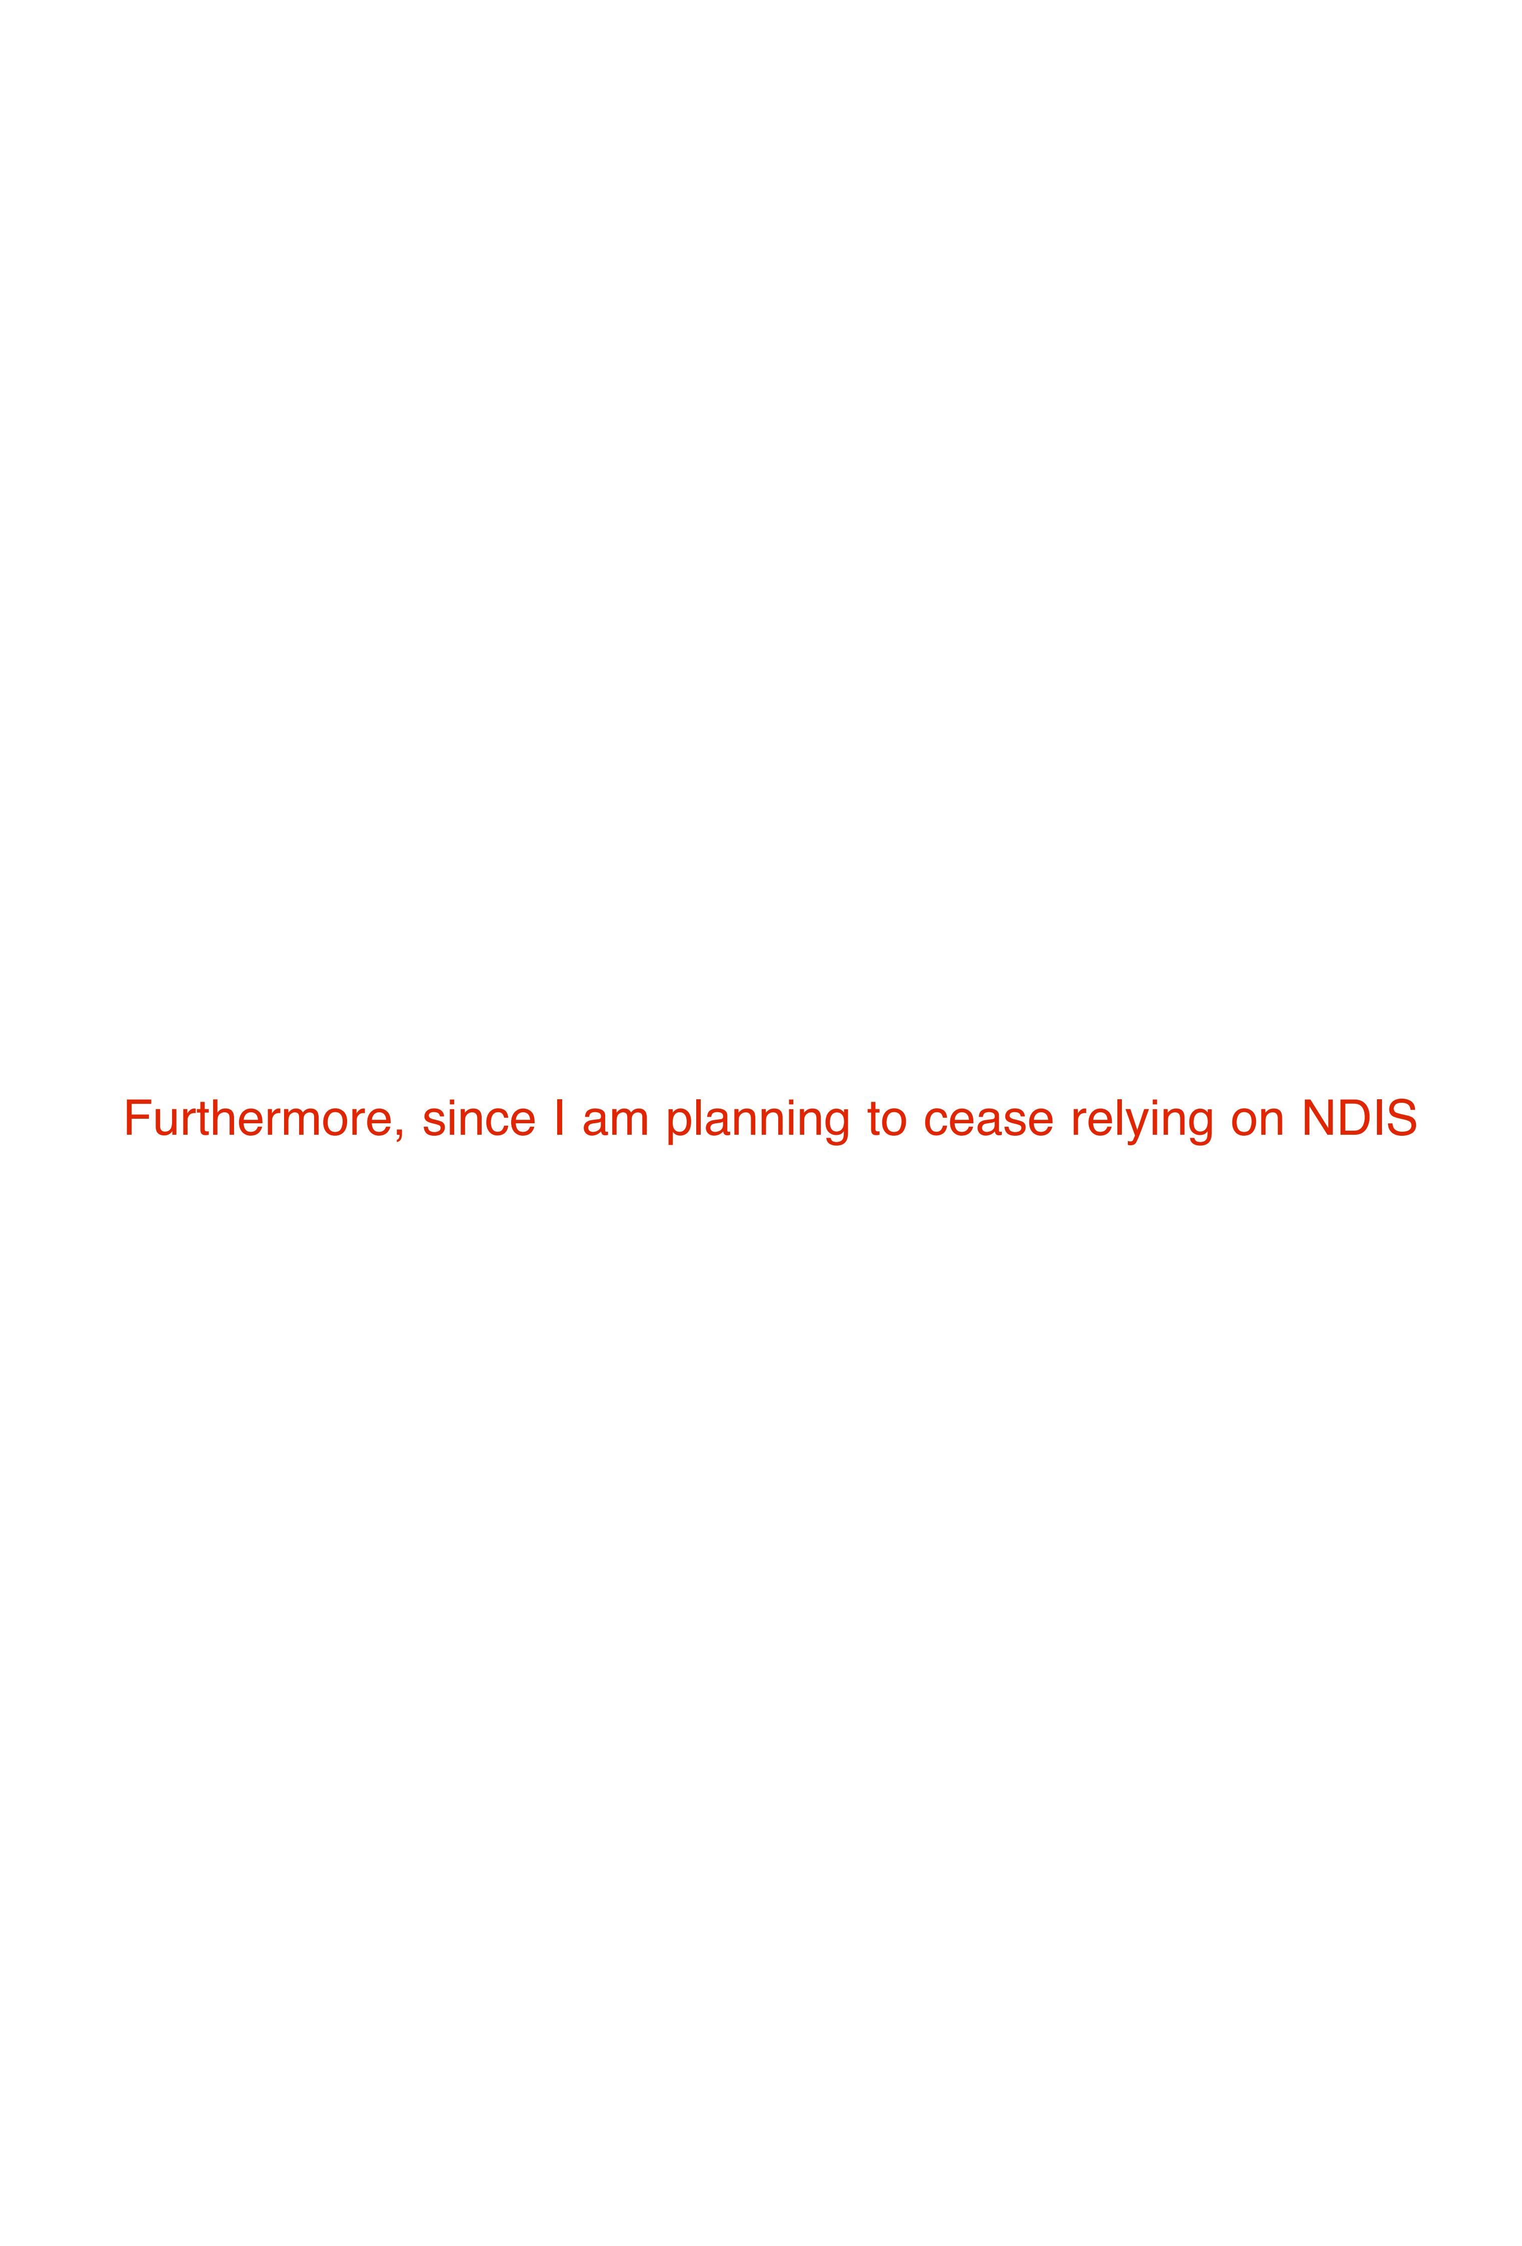

minister and NDIS public officials to respond to my

concerns. This letter addresses serious legal and human

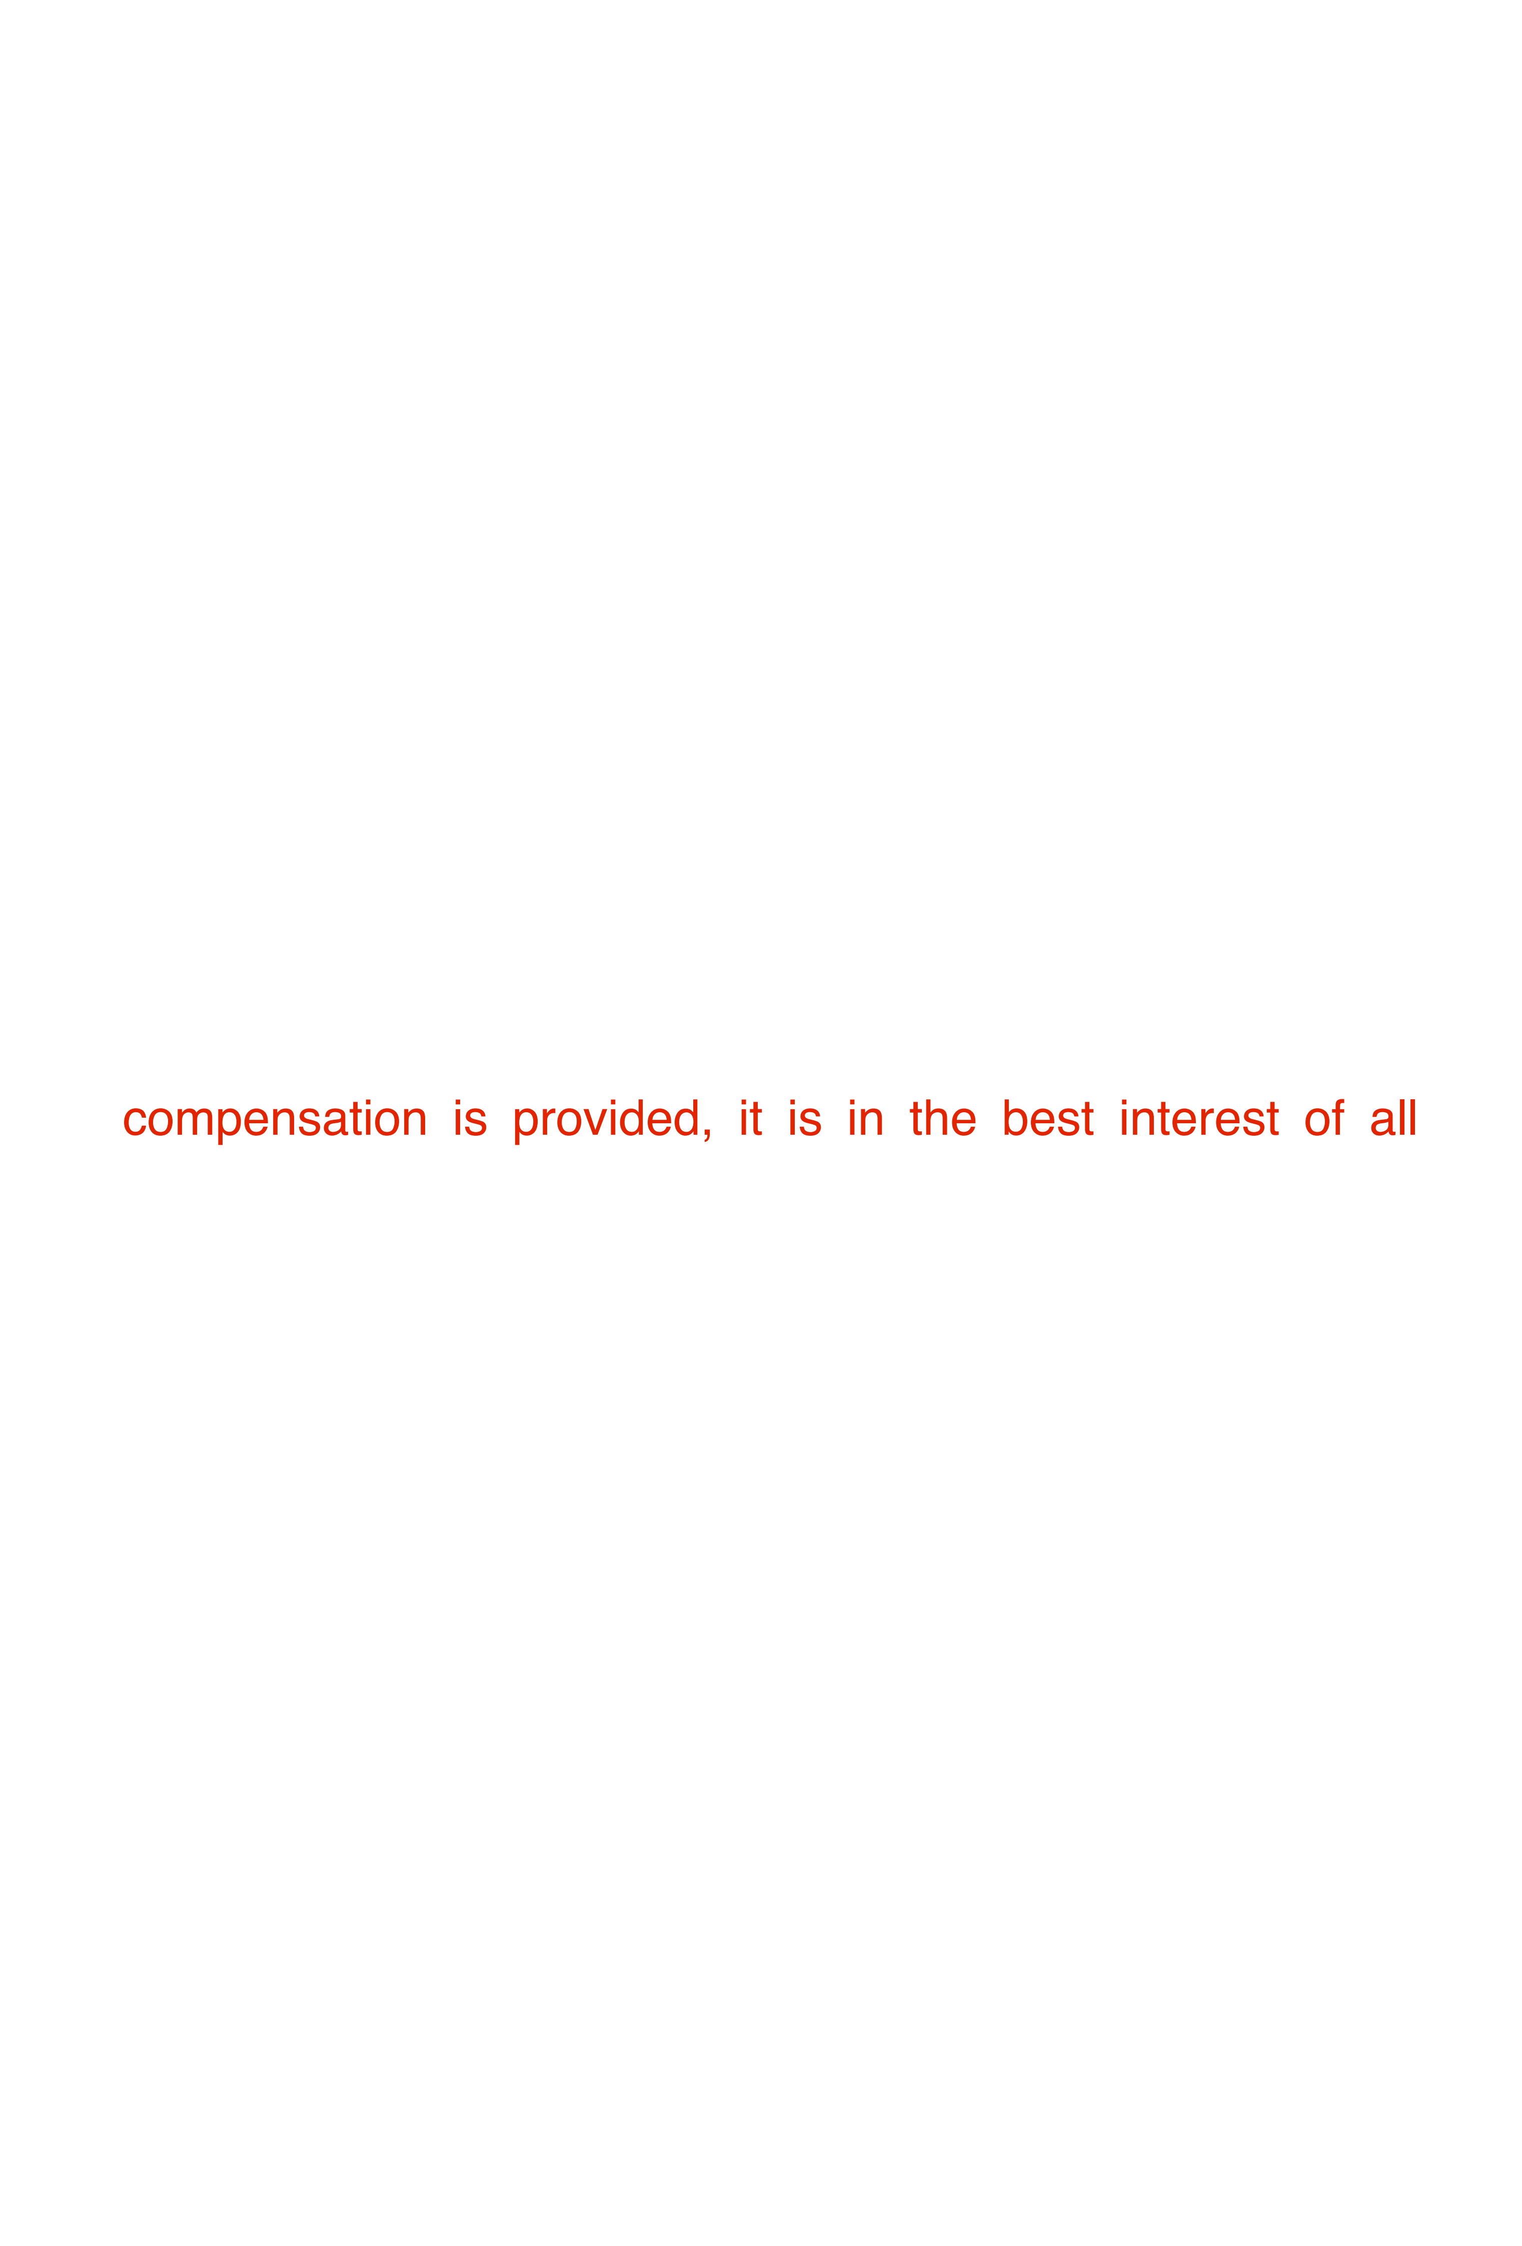

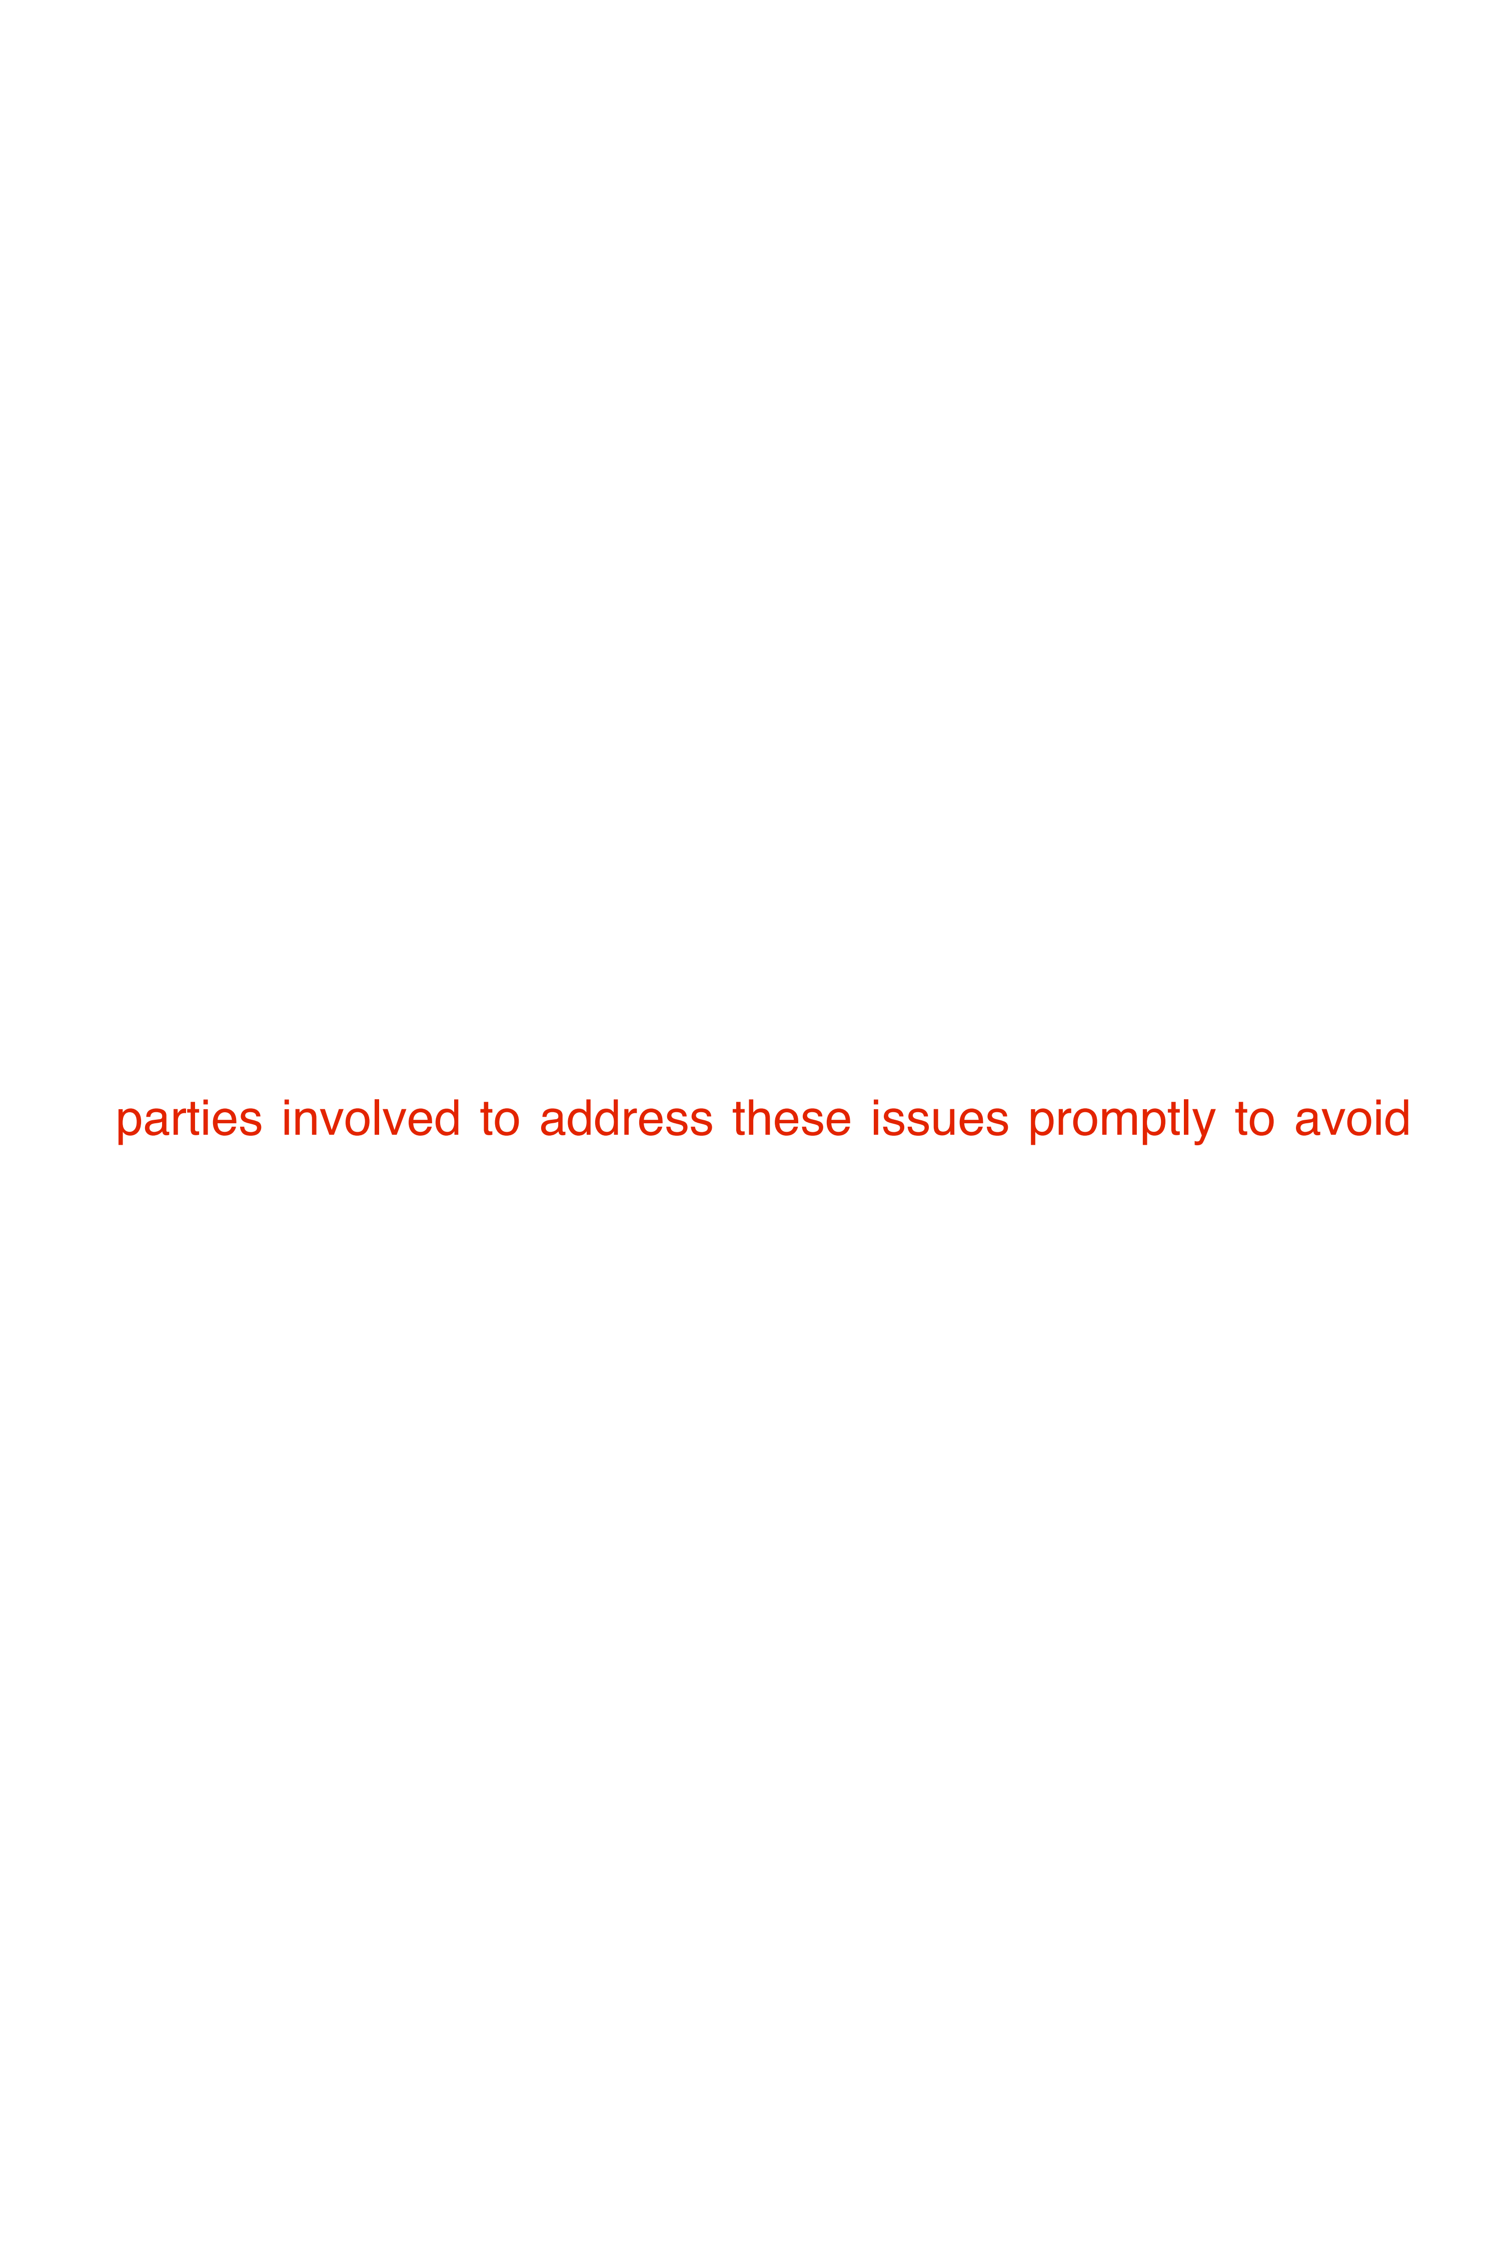

rights issues that require immediate attention.

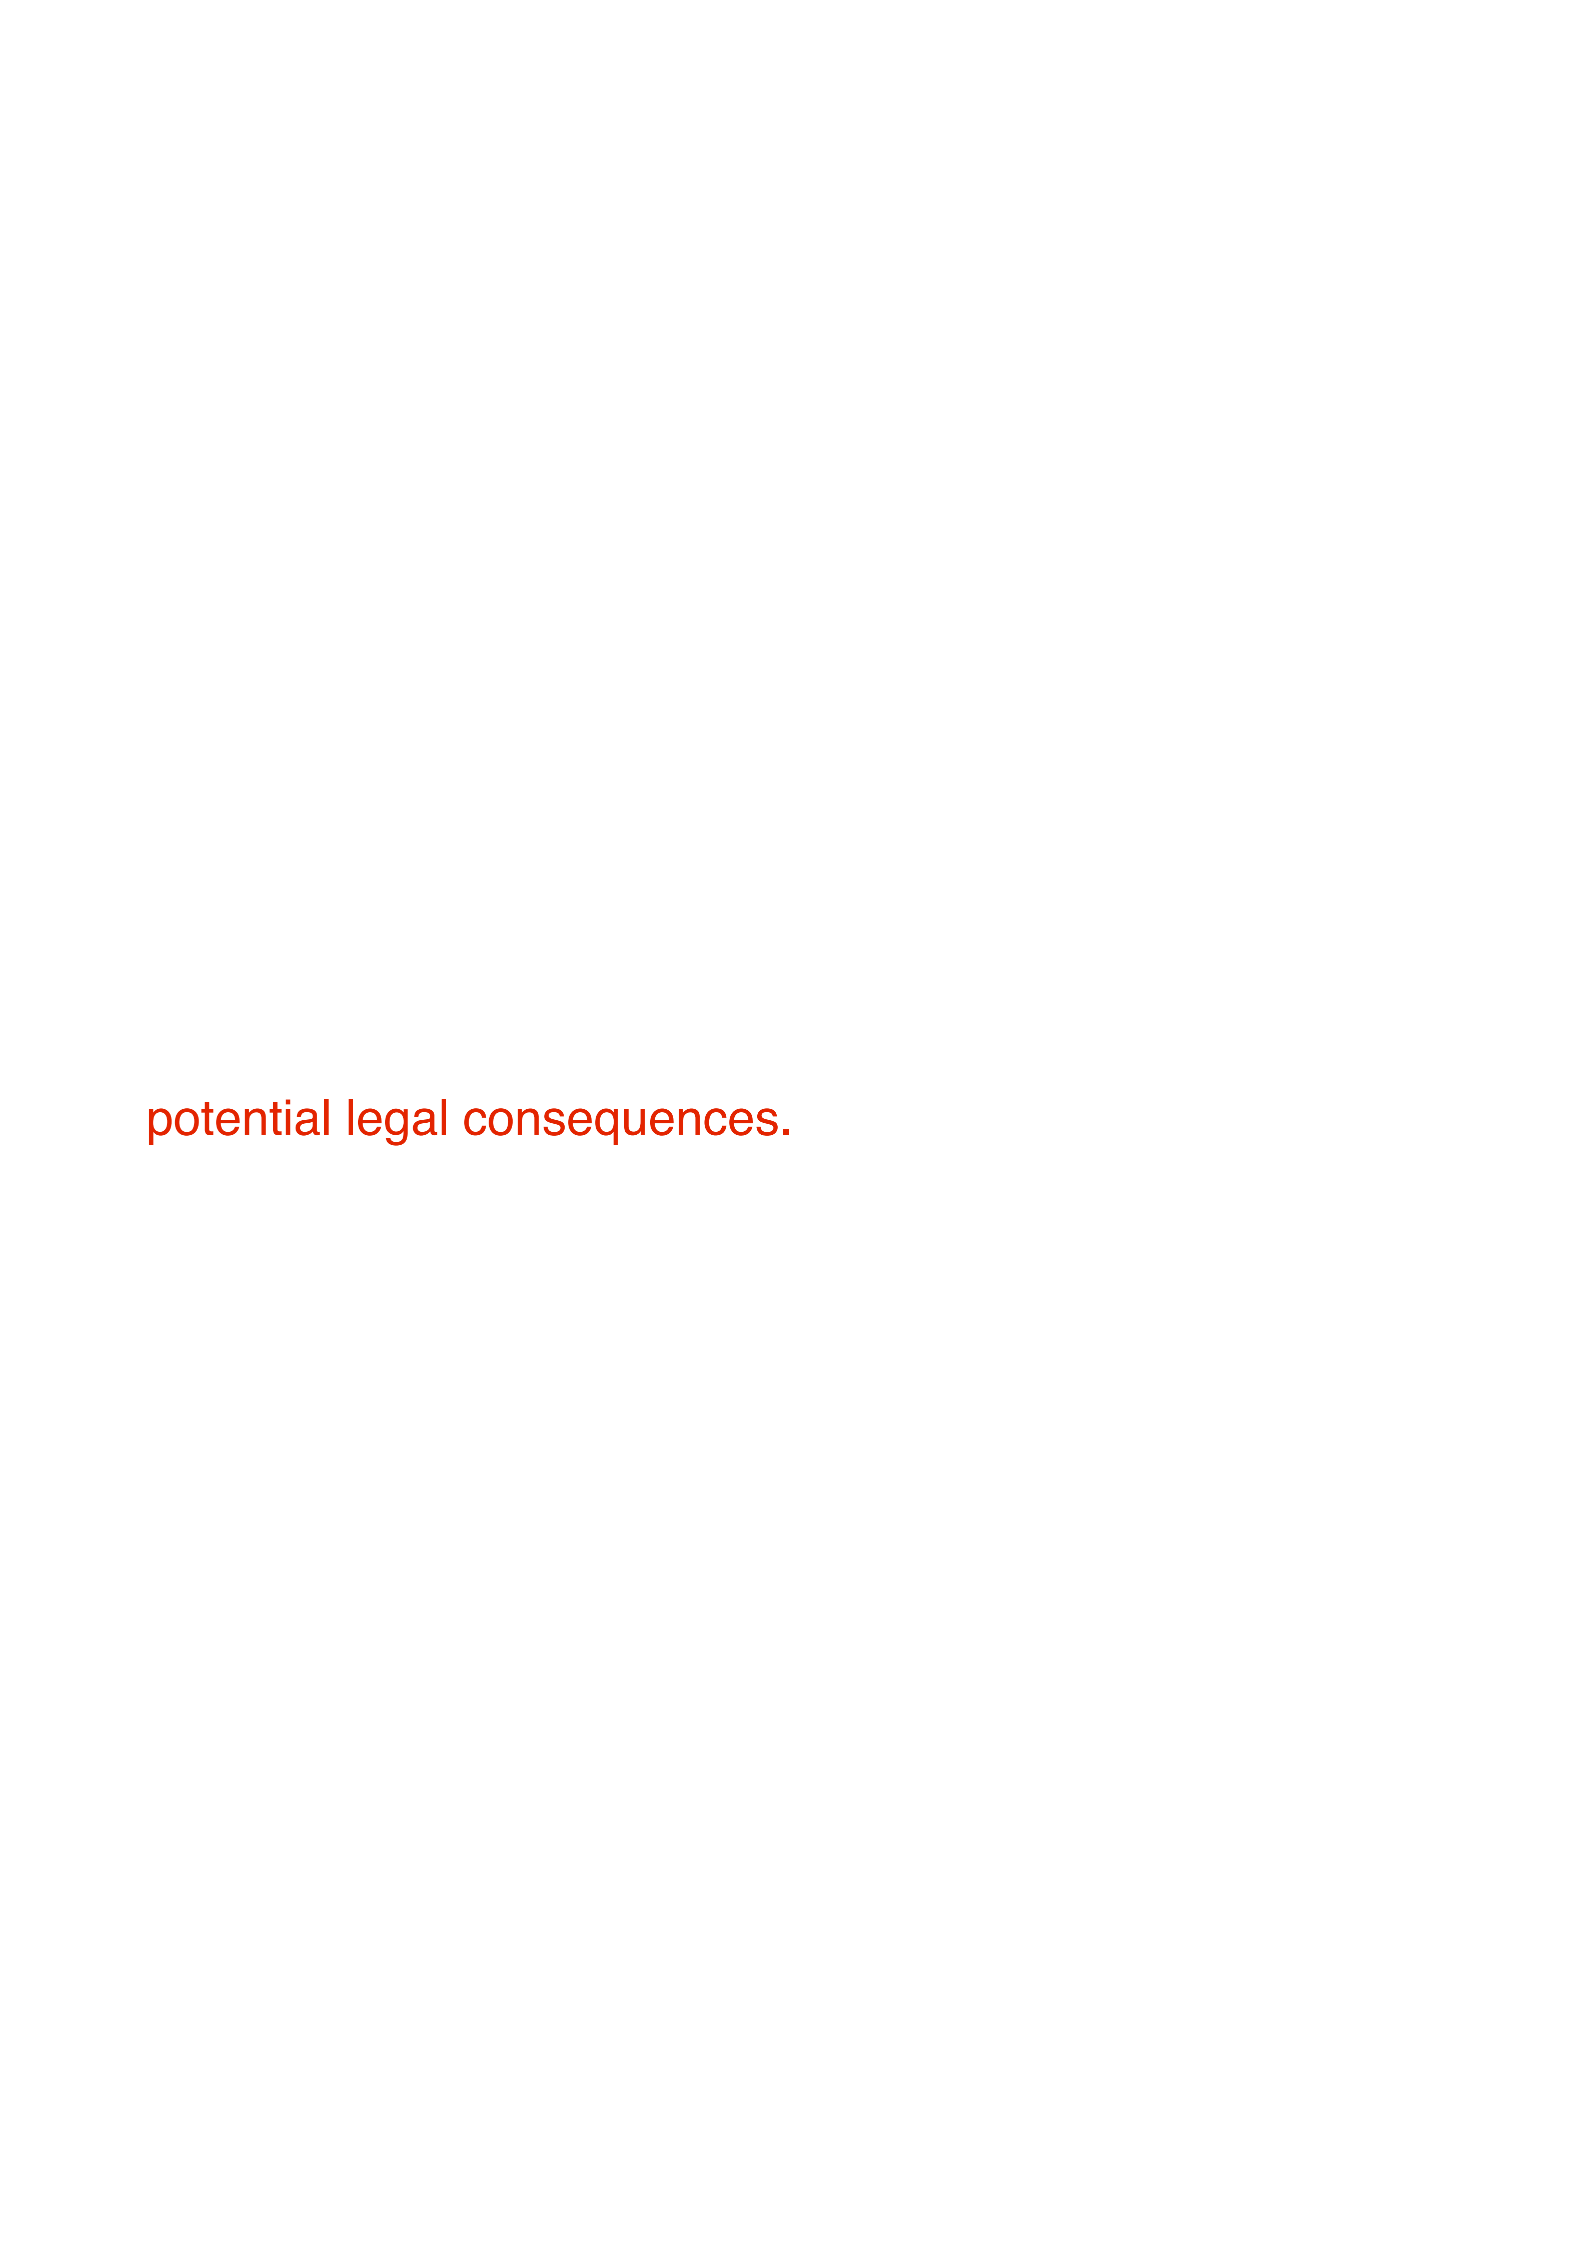

Furthermore, since I am planning to cease relying on NDIS

services once my employment status is recognized and

compensation is provided, it is in the best interest of all

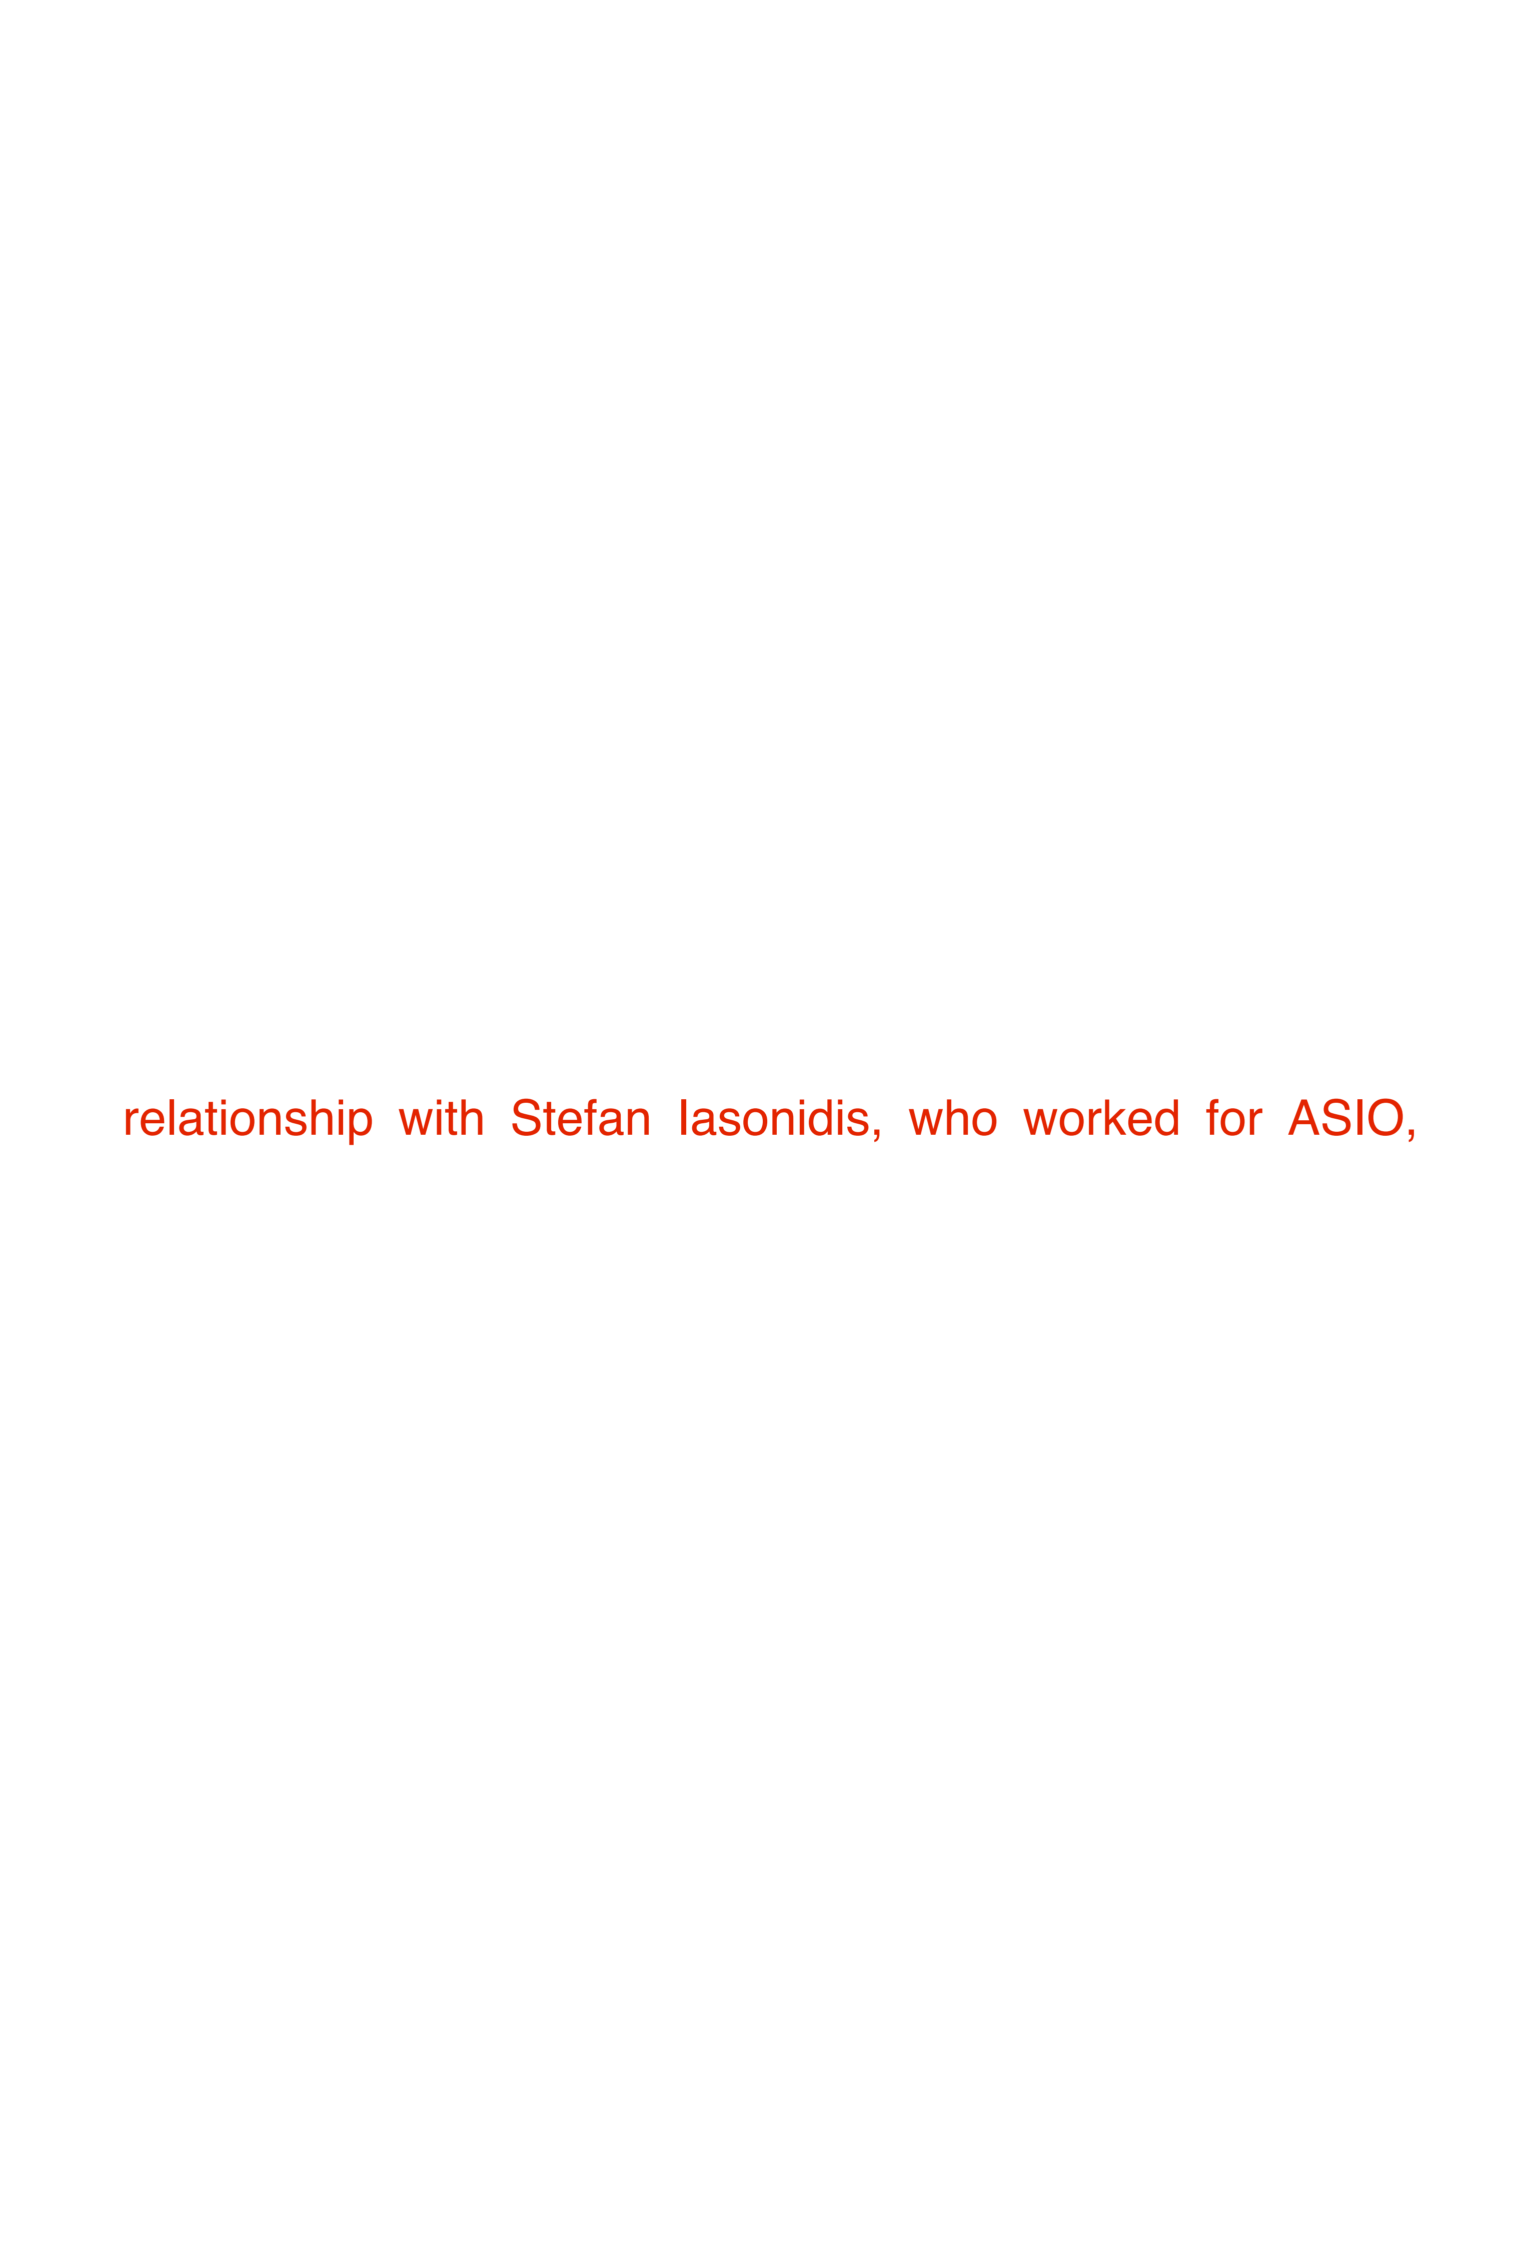

parties involved to address these issues promptly to avoid

potential legal consequences.

Since 2015, I have been living in poverty, either in

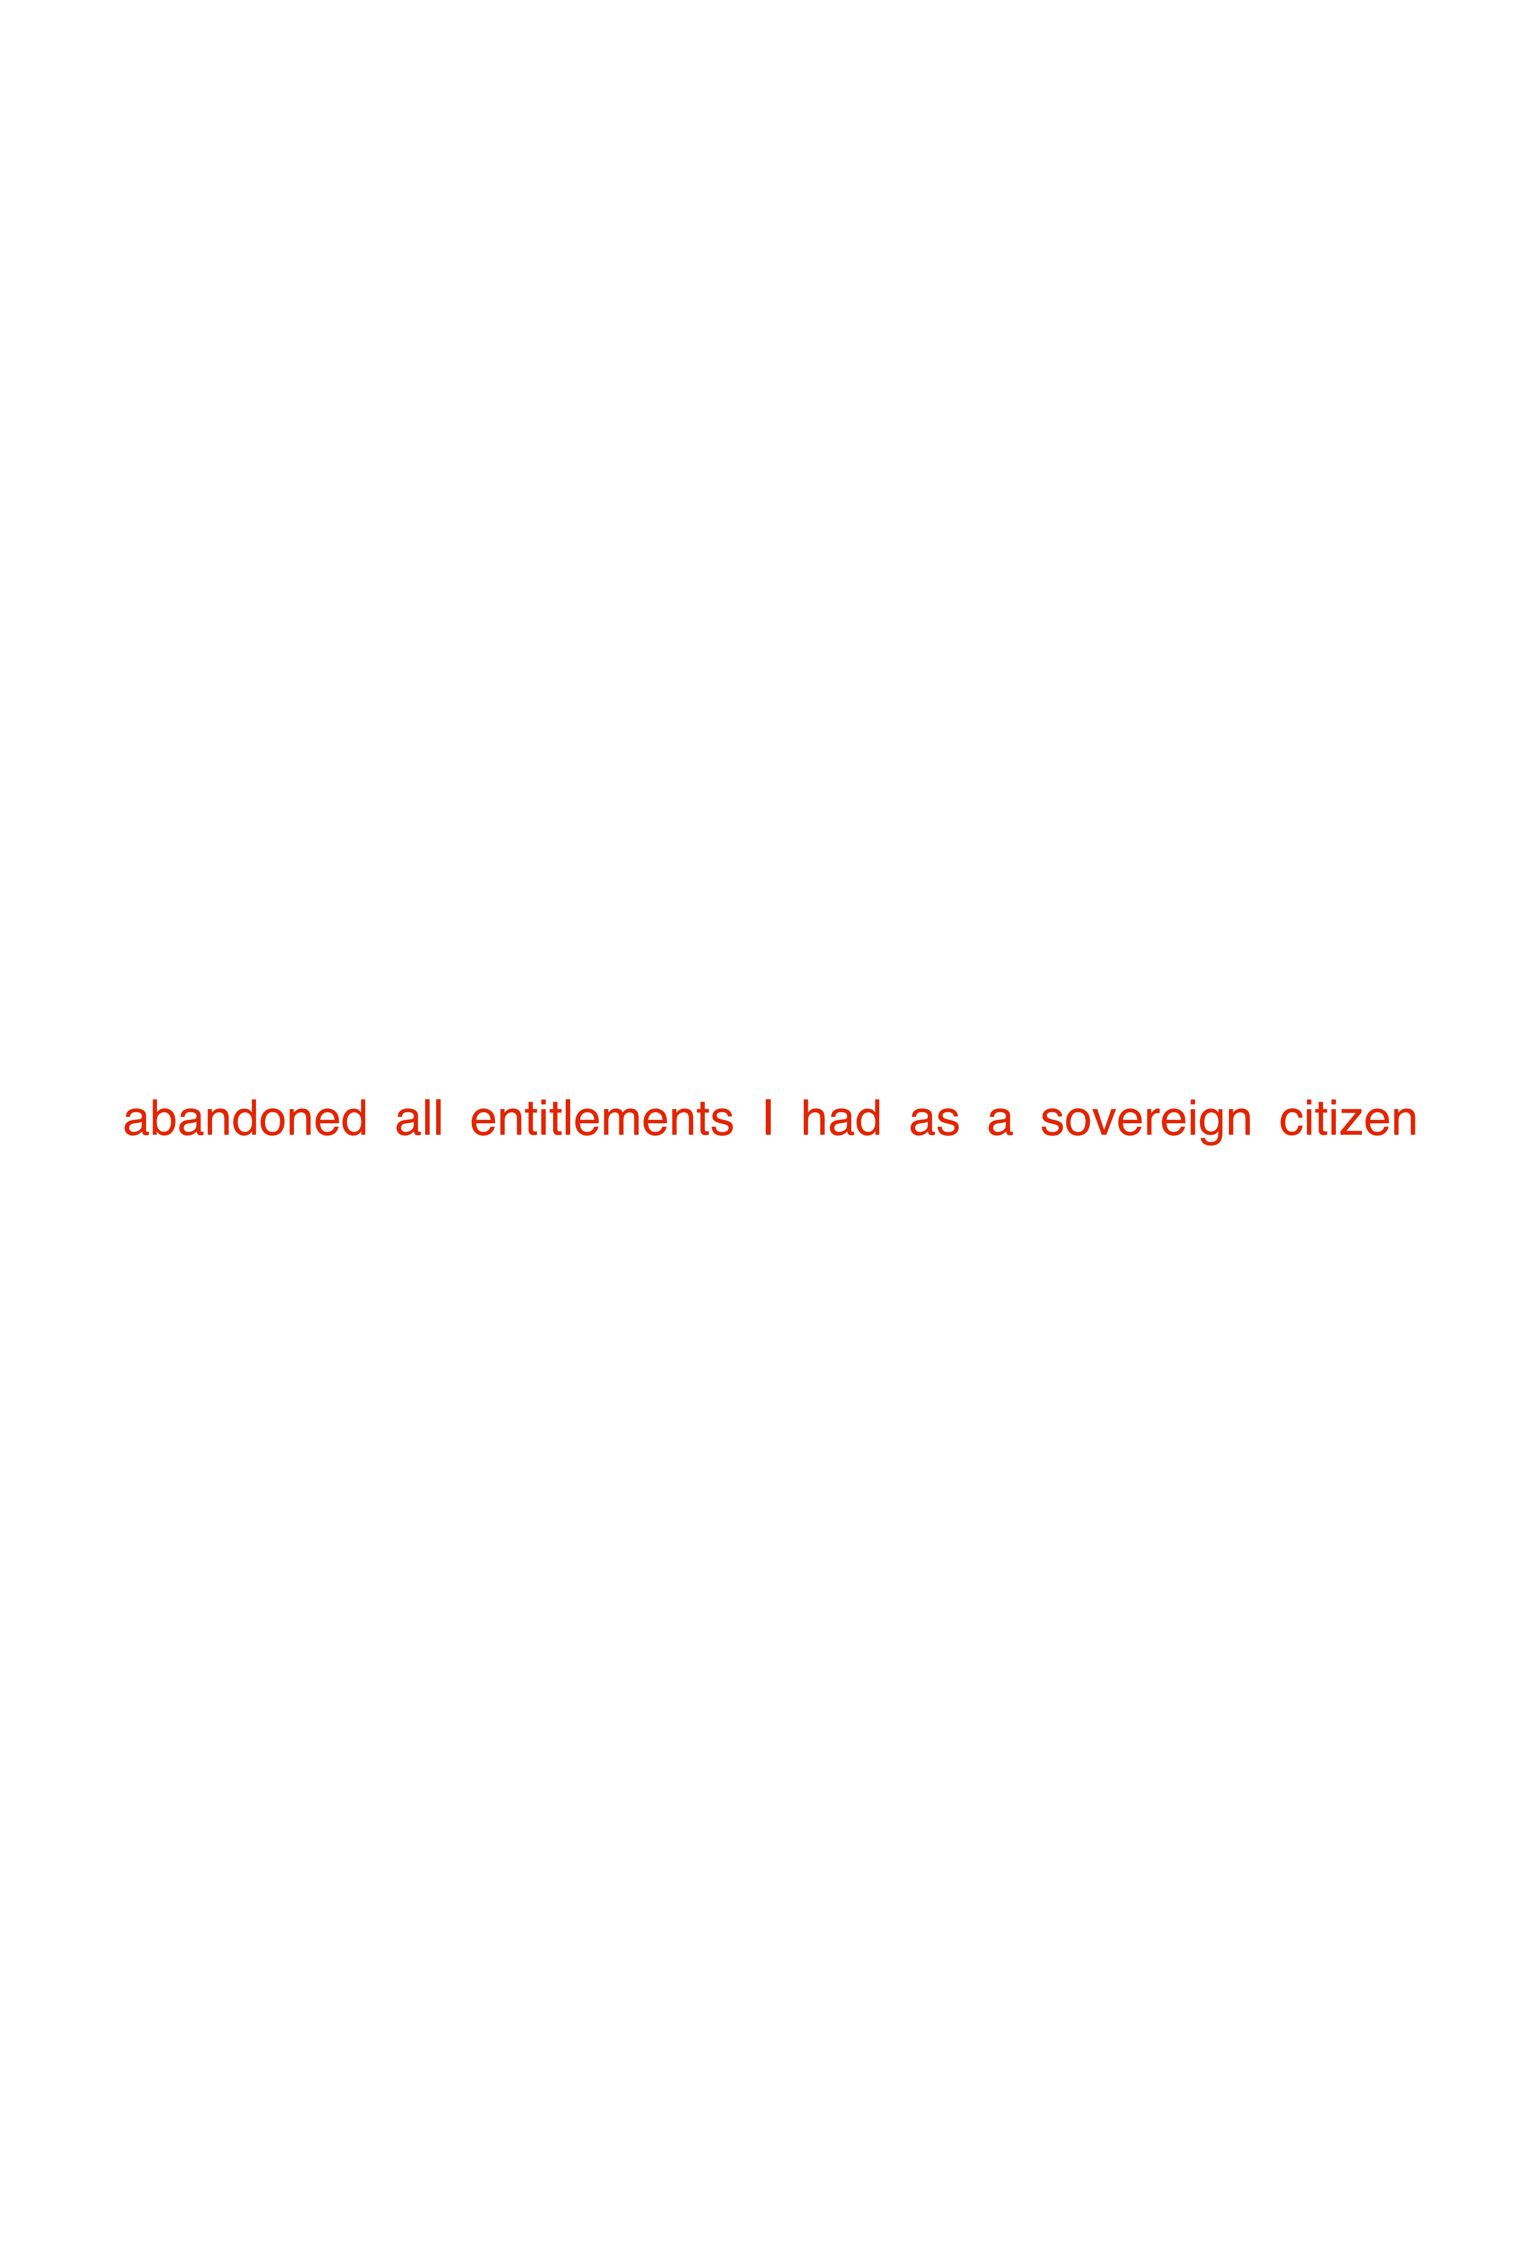

unreasonable accommodation or homeless, because a

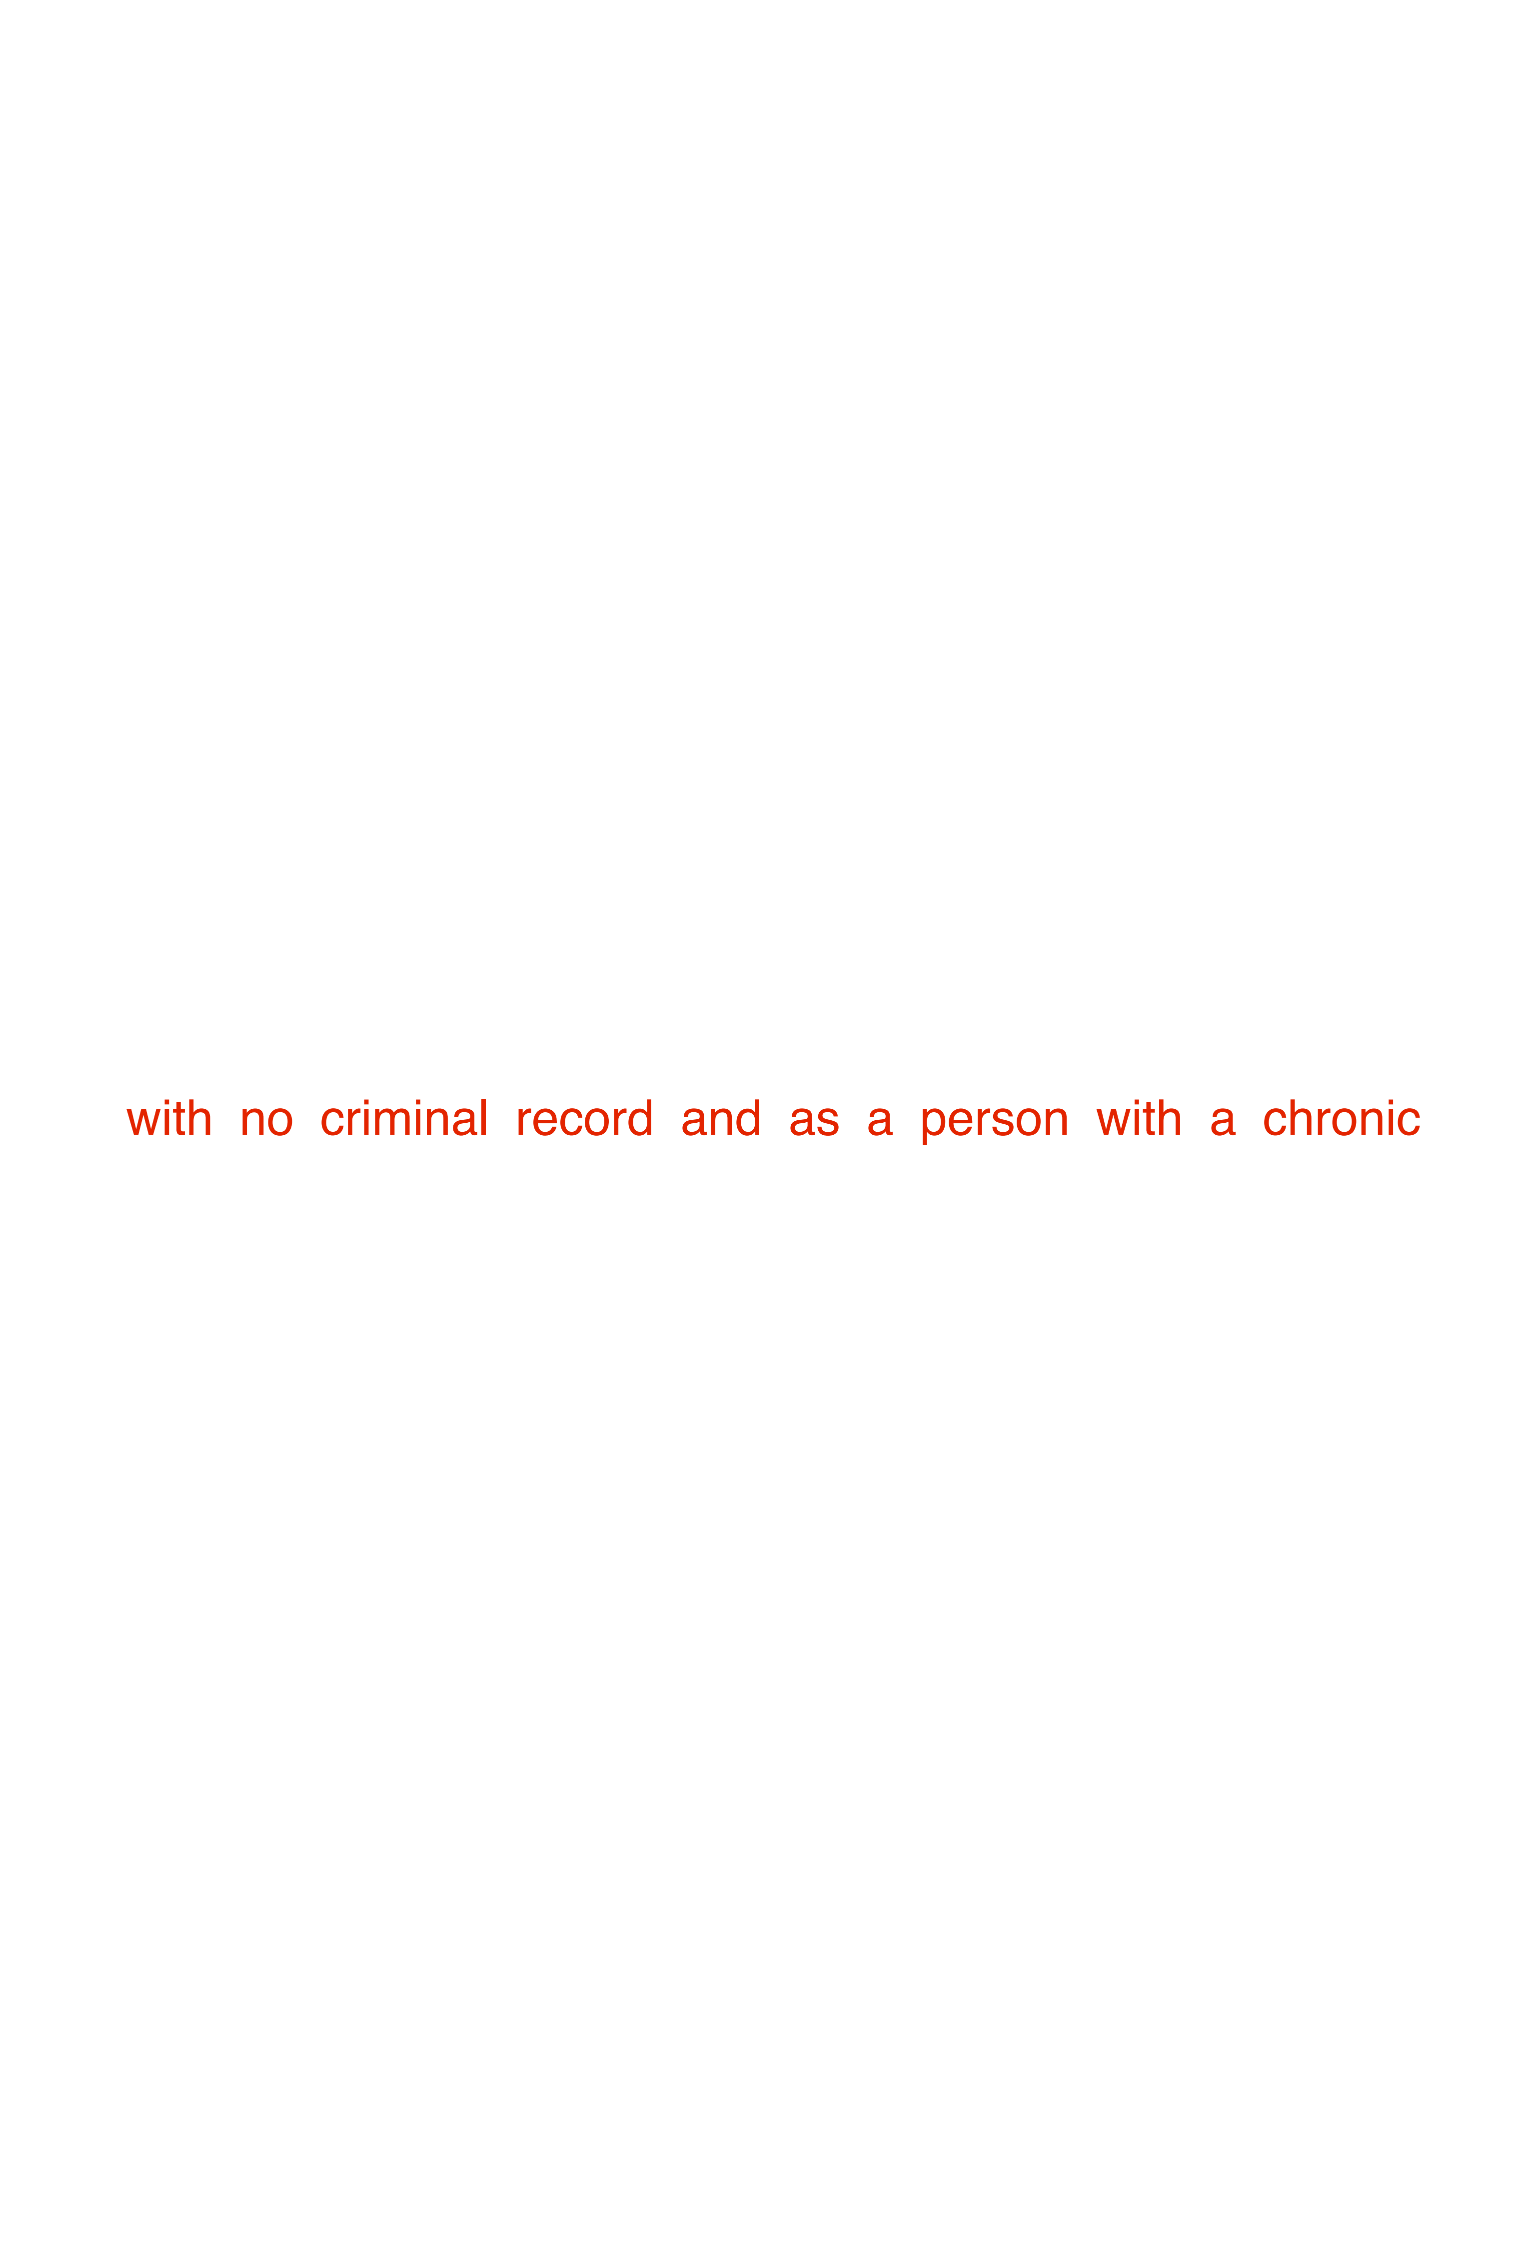

legal settlement regarding the recognition of my gay

relationship with Stefan Iasonidis, who worked for ASIO,

should have occurred. Sadly, the political world has been

too weak to stand up against corruption and has

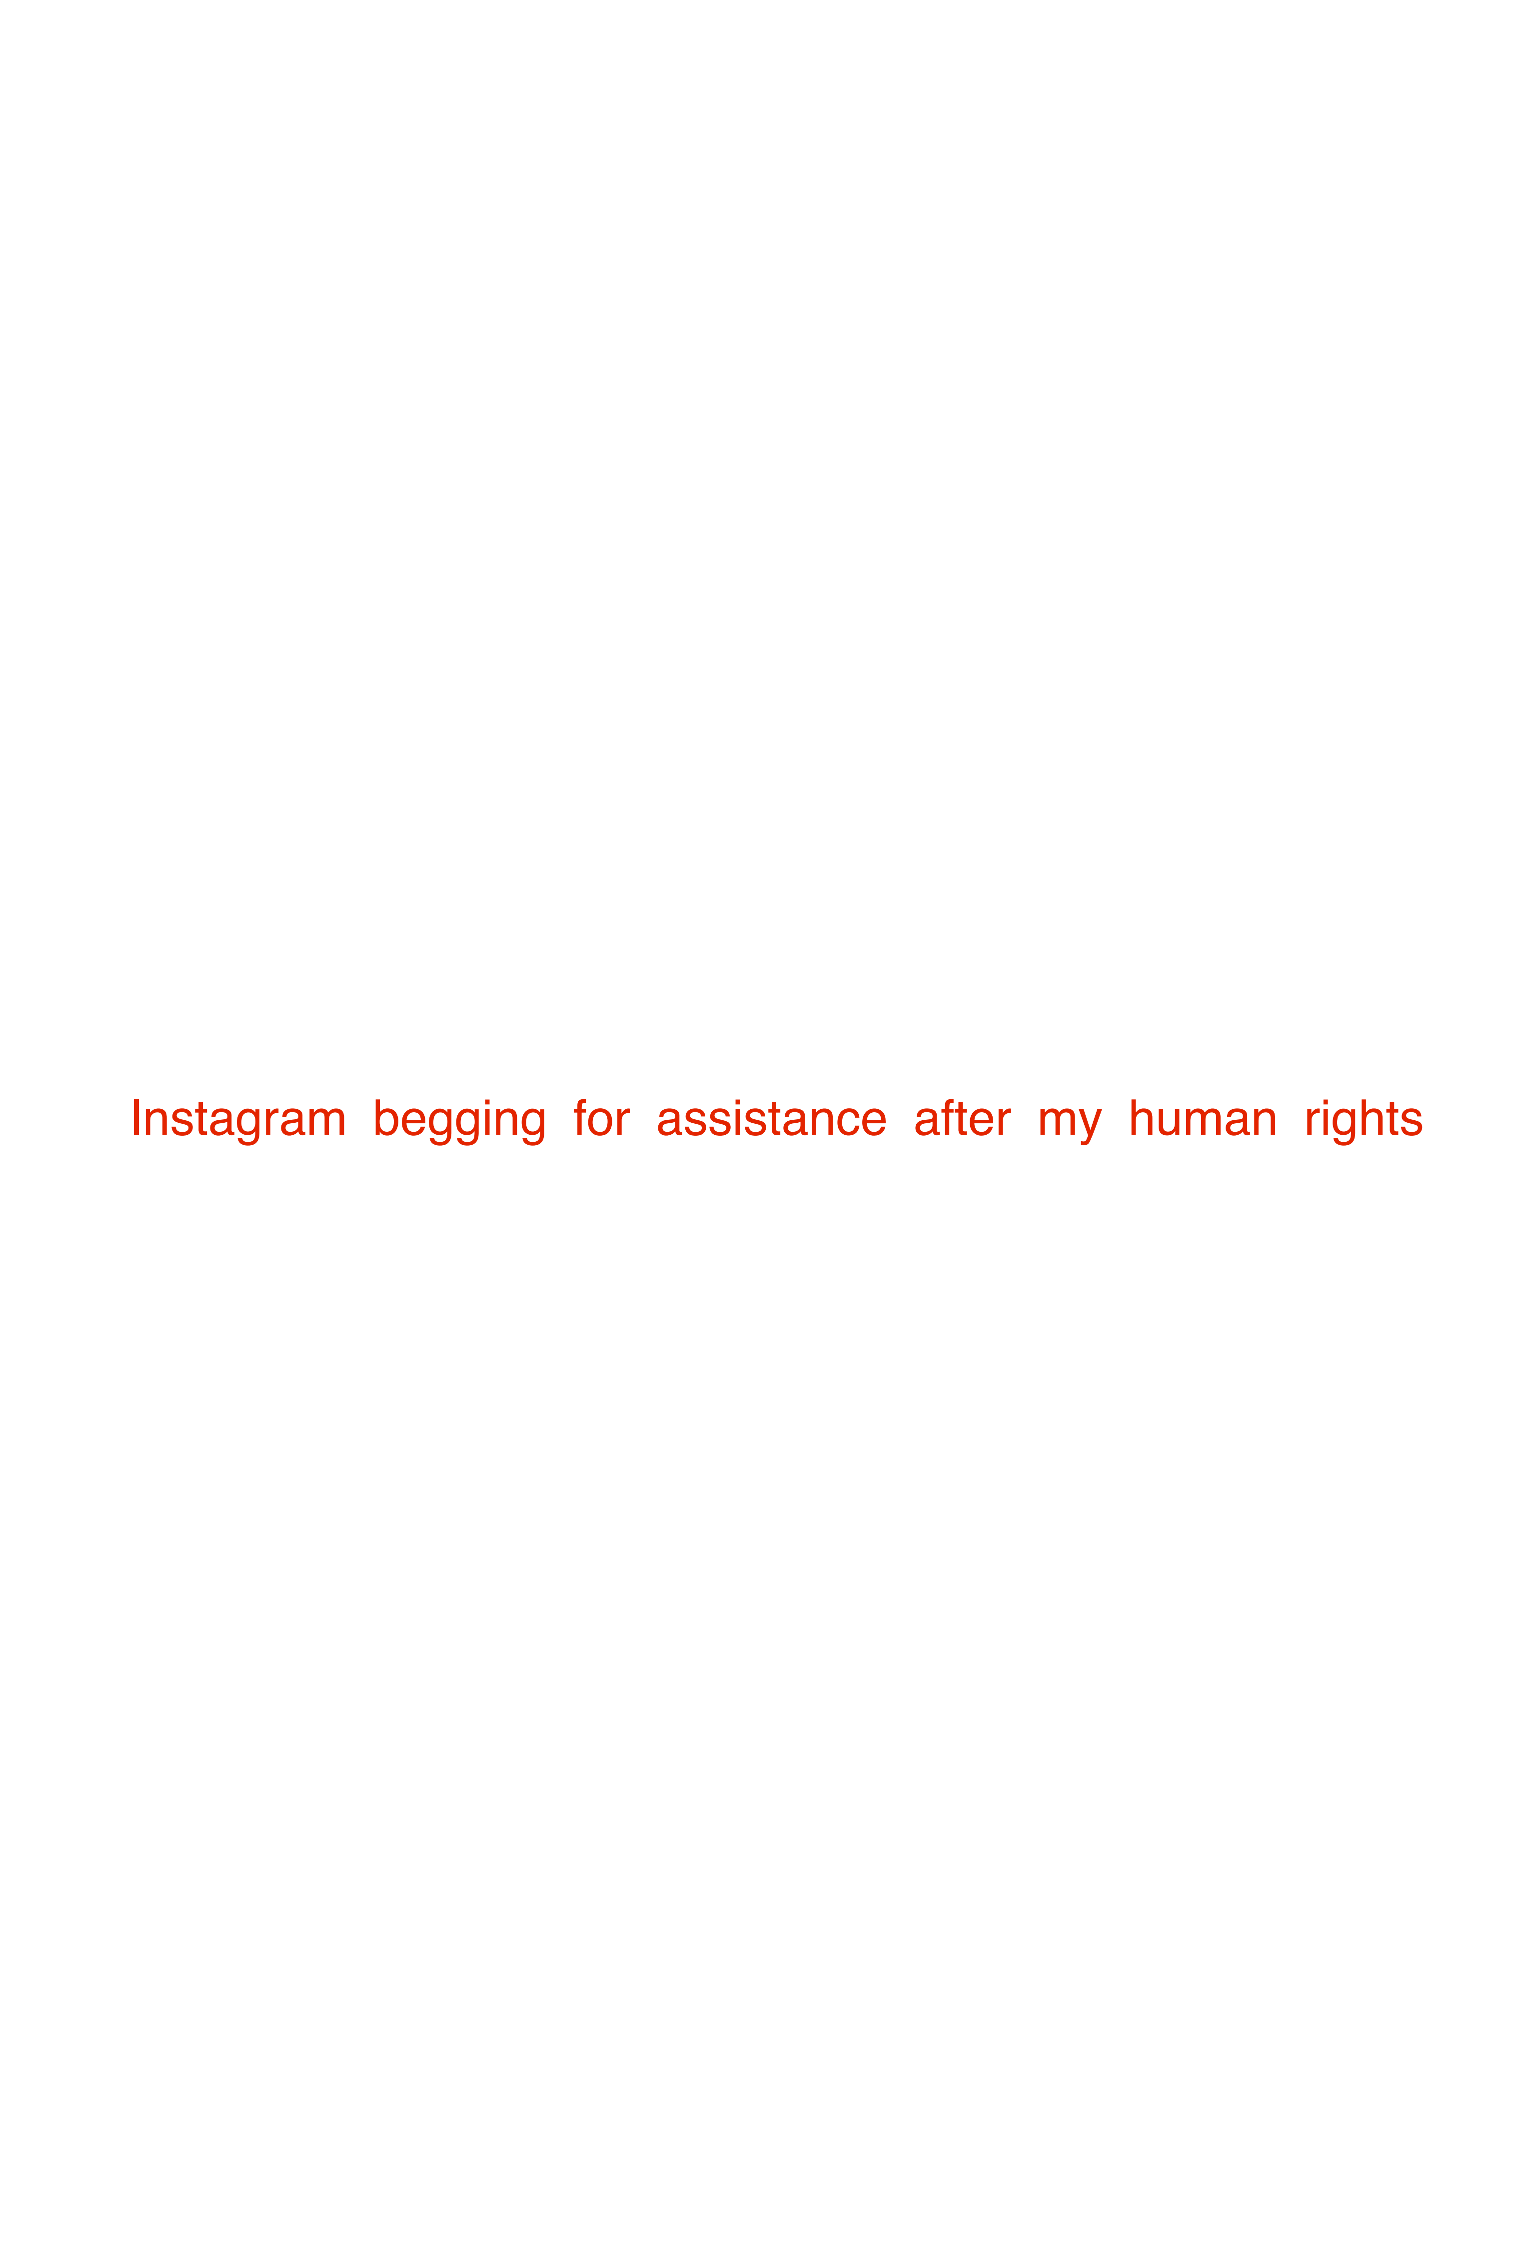

abandoned all entitlements I had as a sovereign citizen

with no criminal record and as a person with a chronic

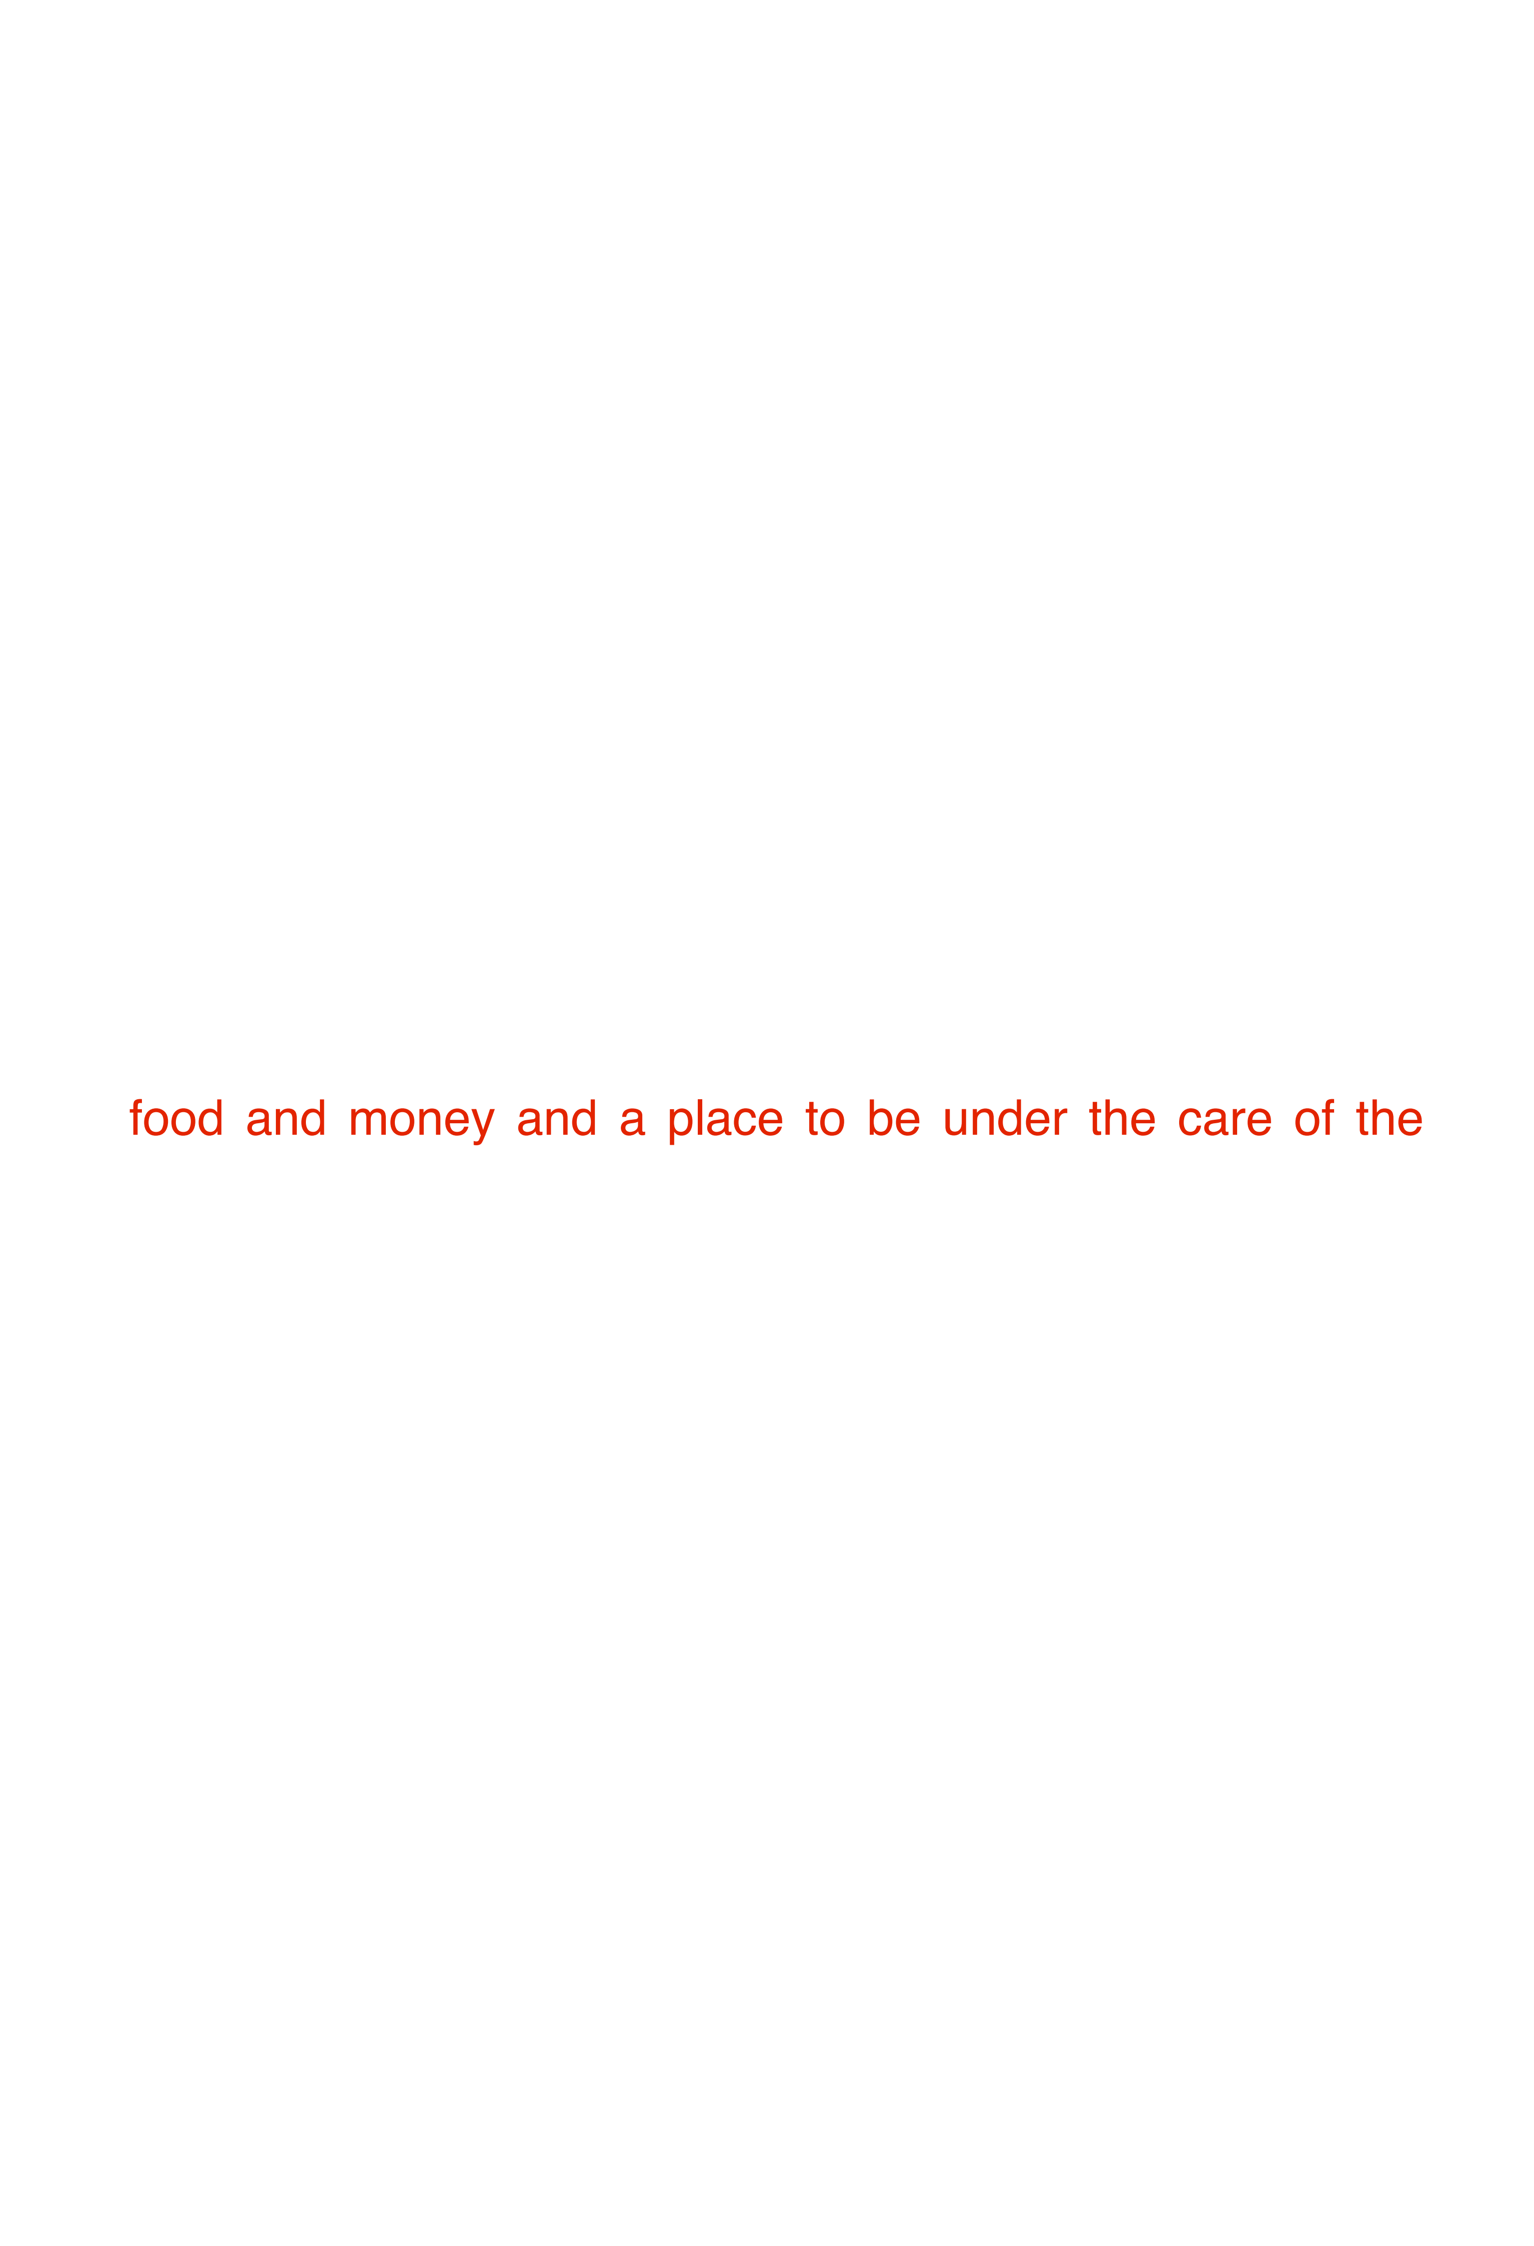

disability. That time is over with this email.

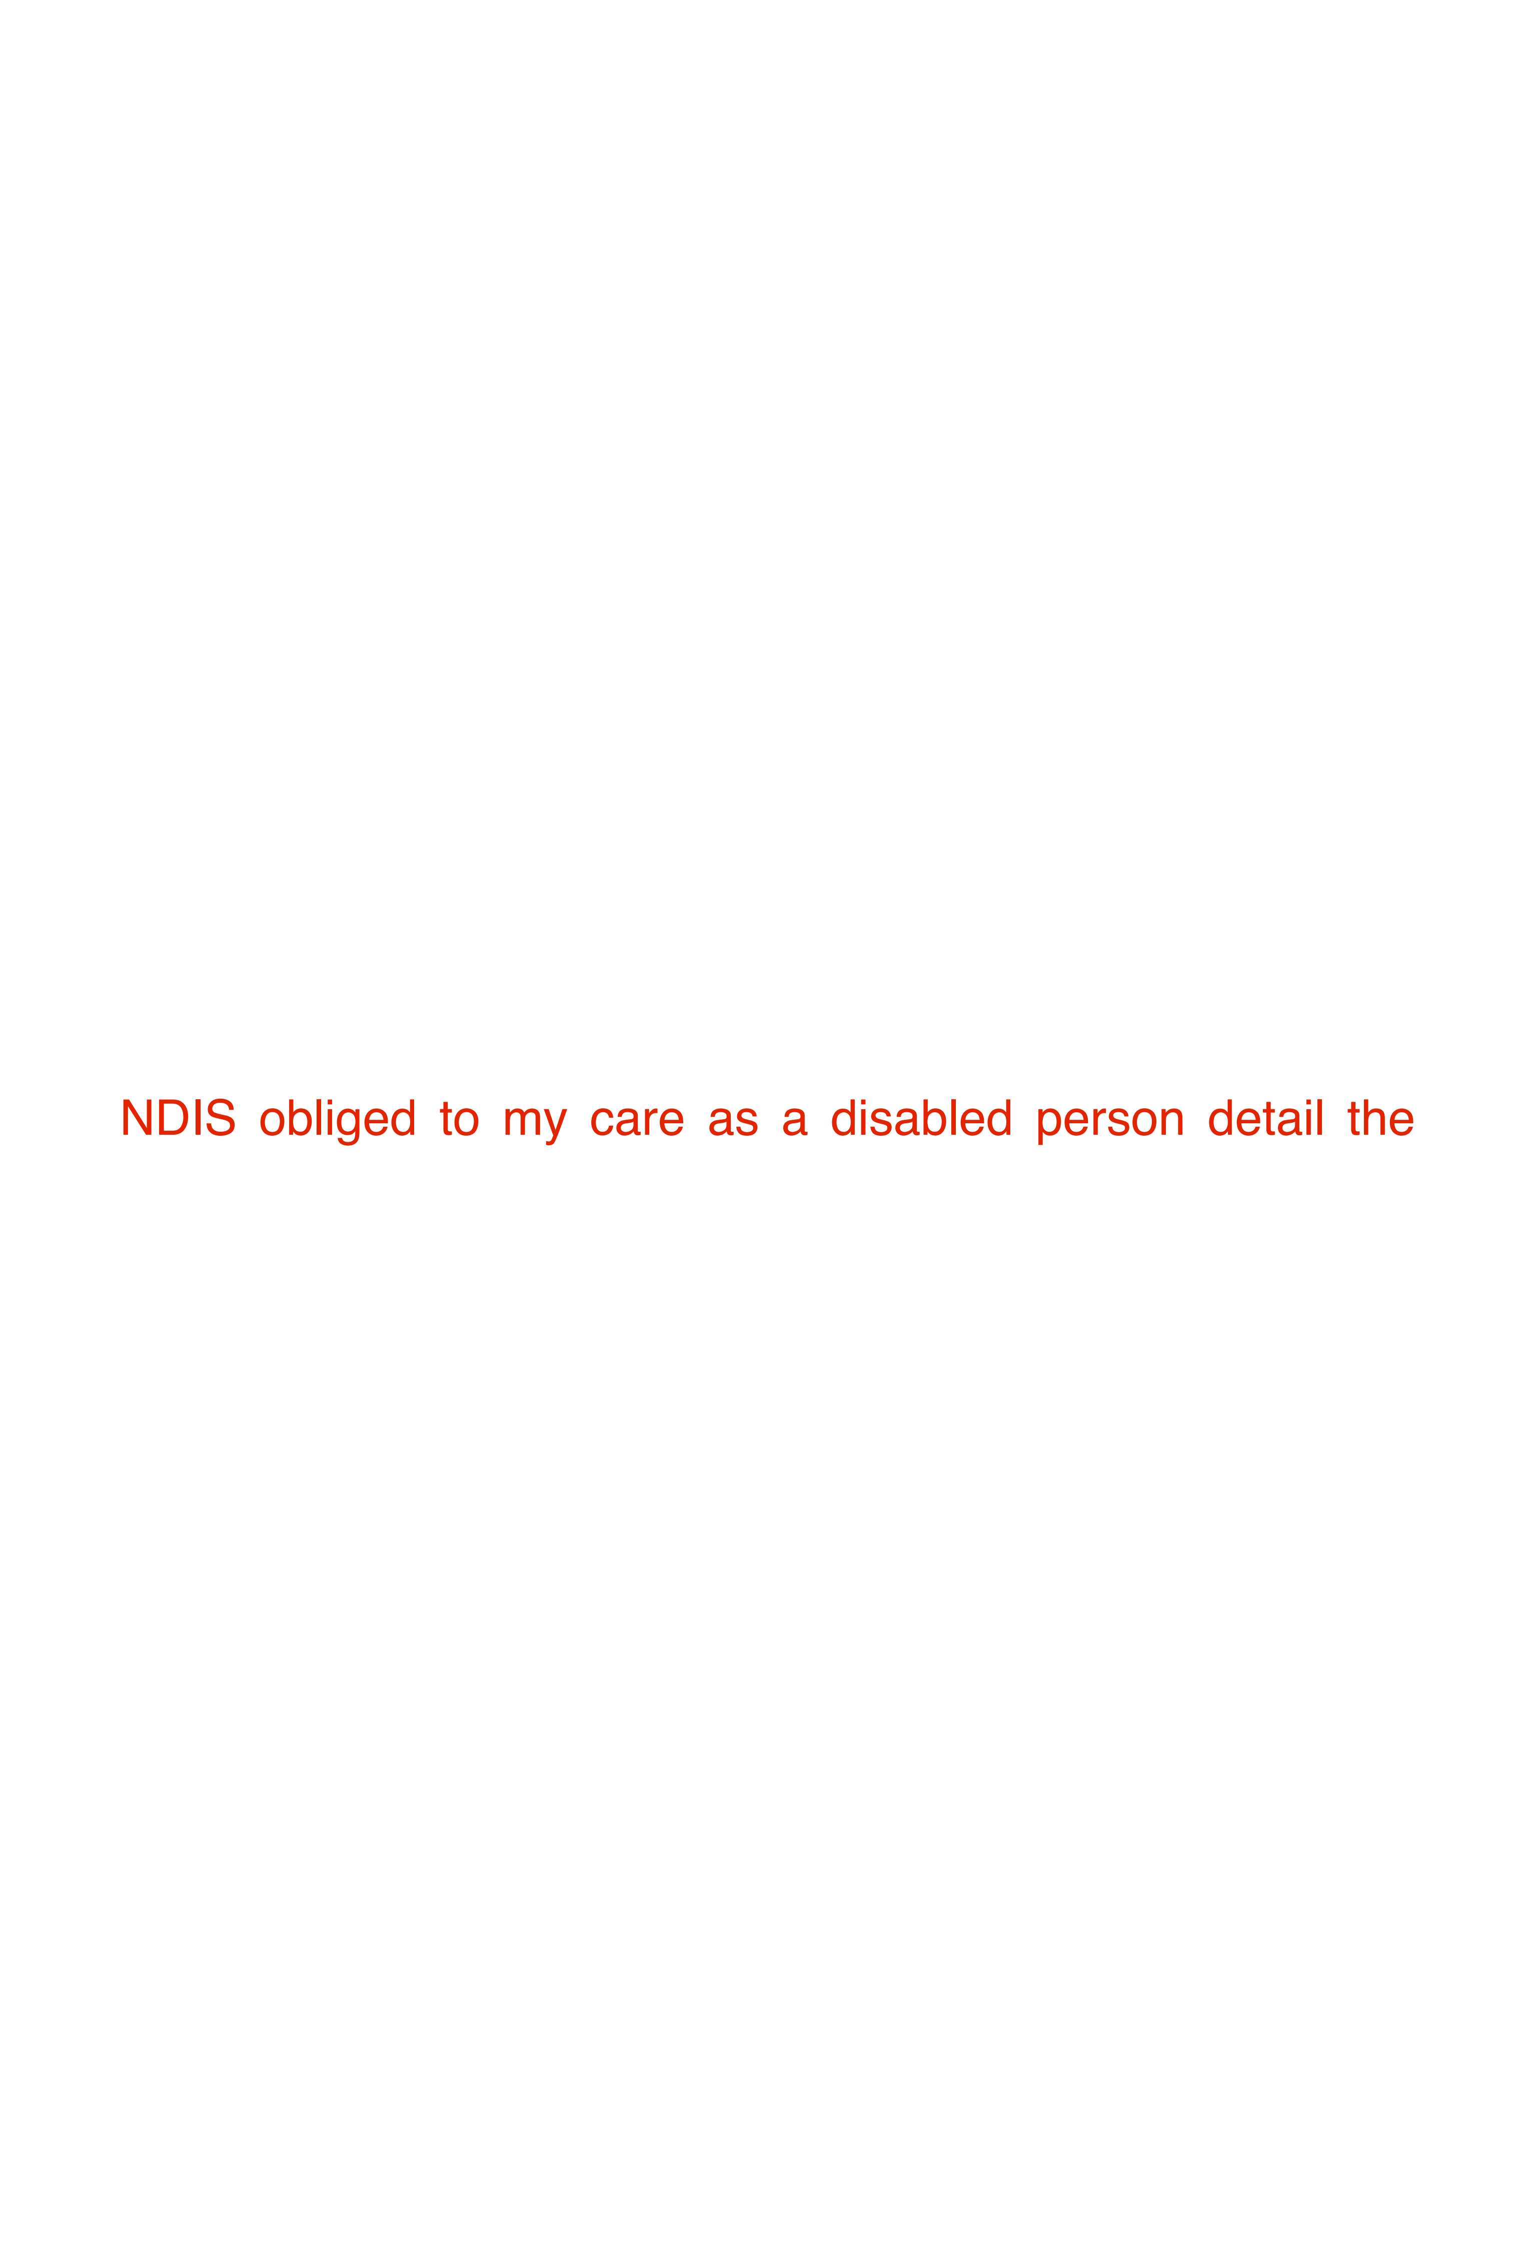

Three notes I have written and shared recently on

Facebook, Grindr, after being forced to flee my home and

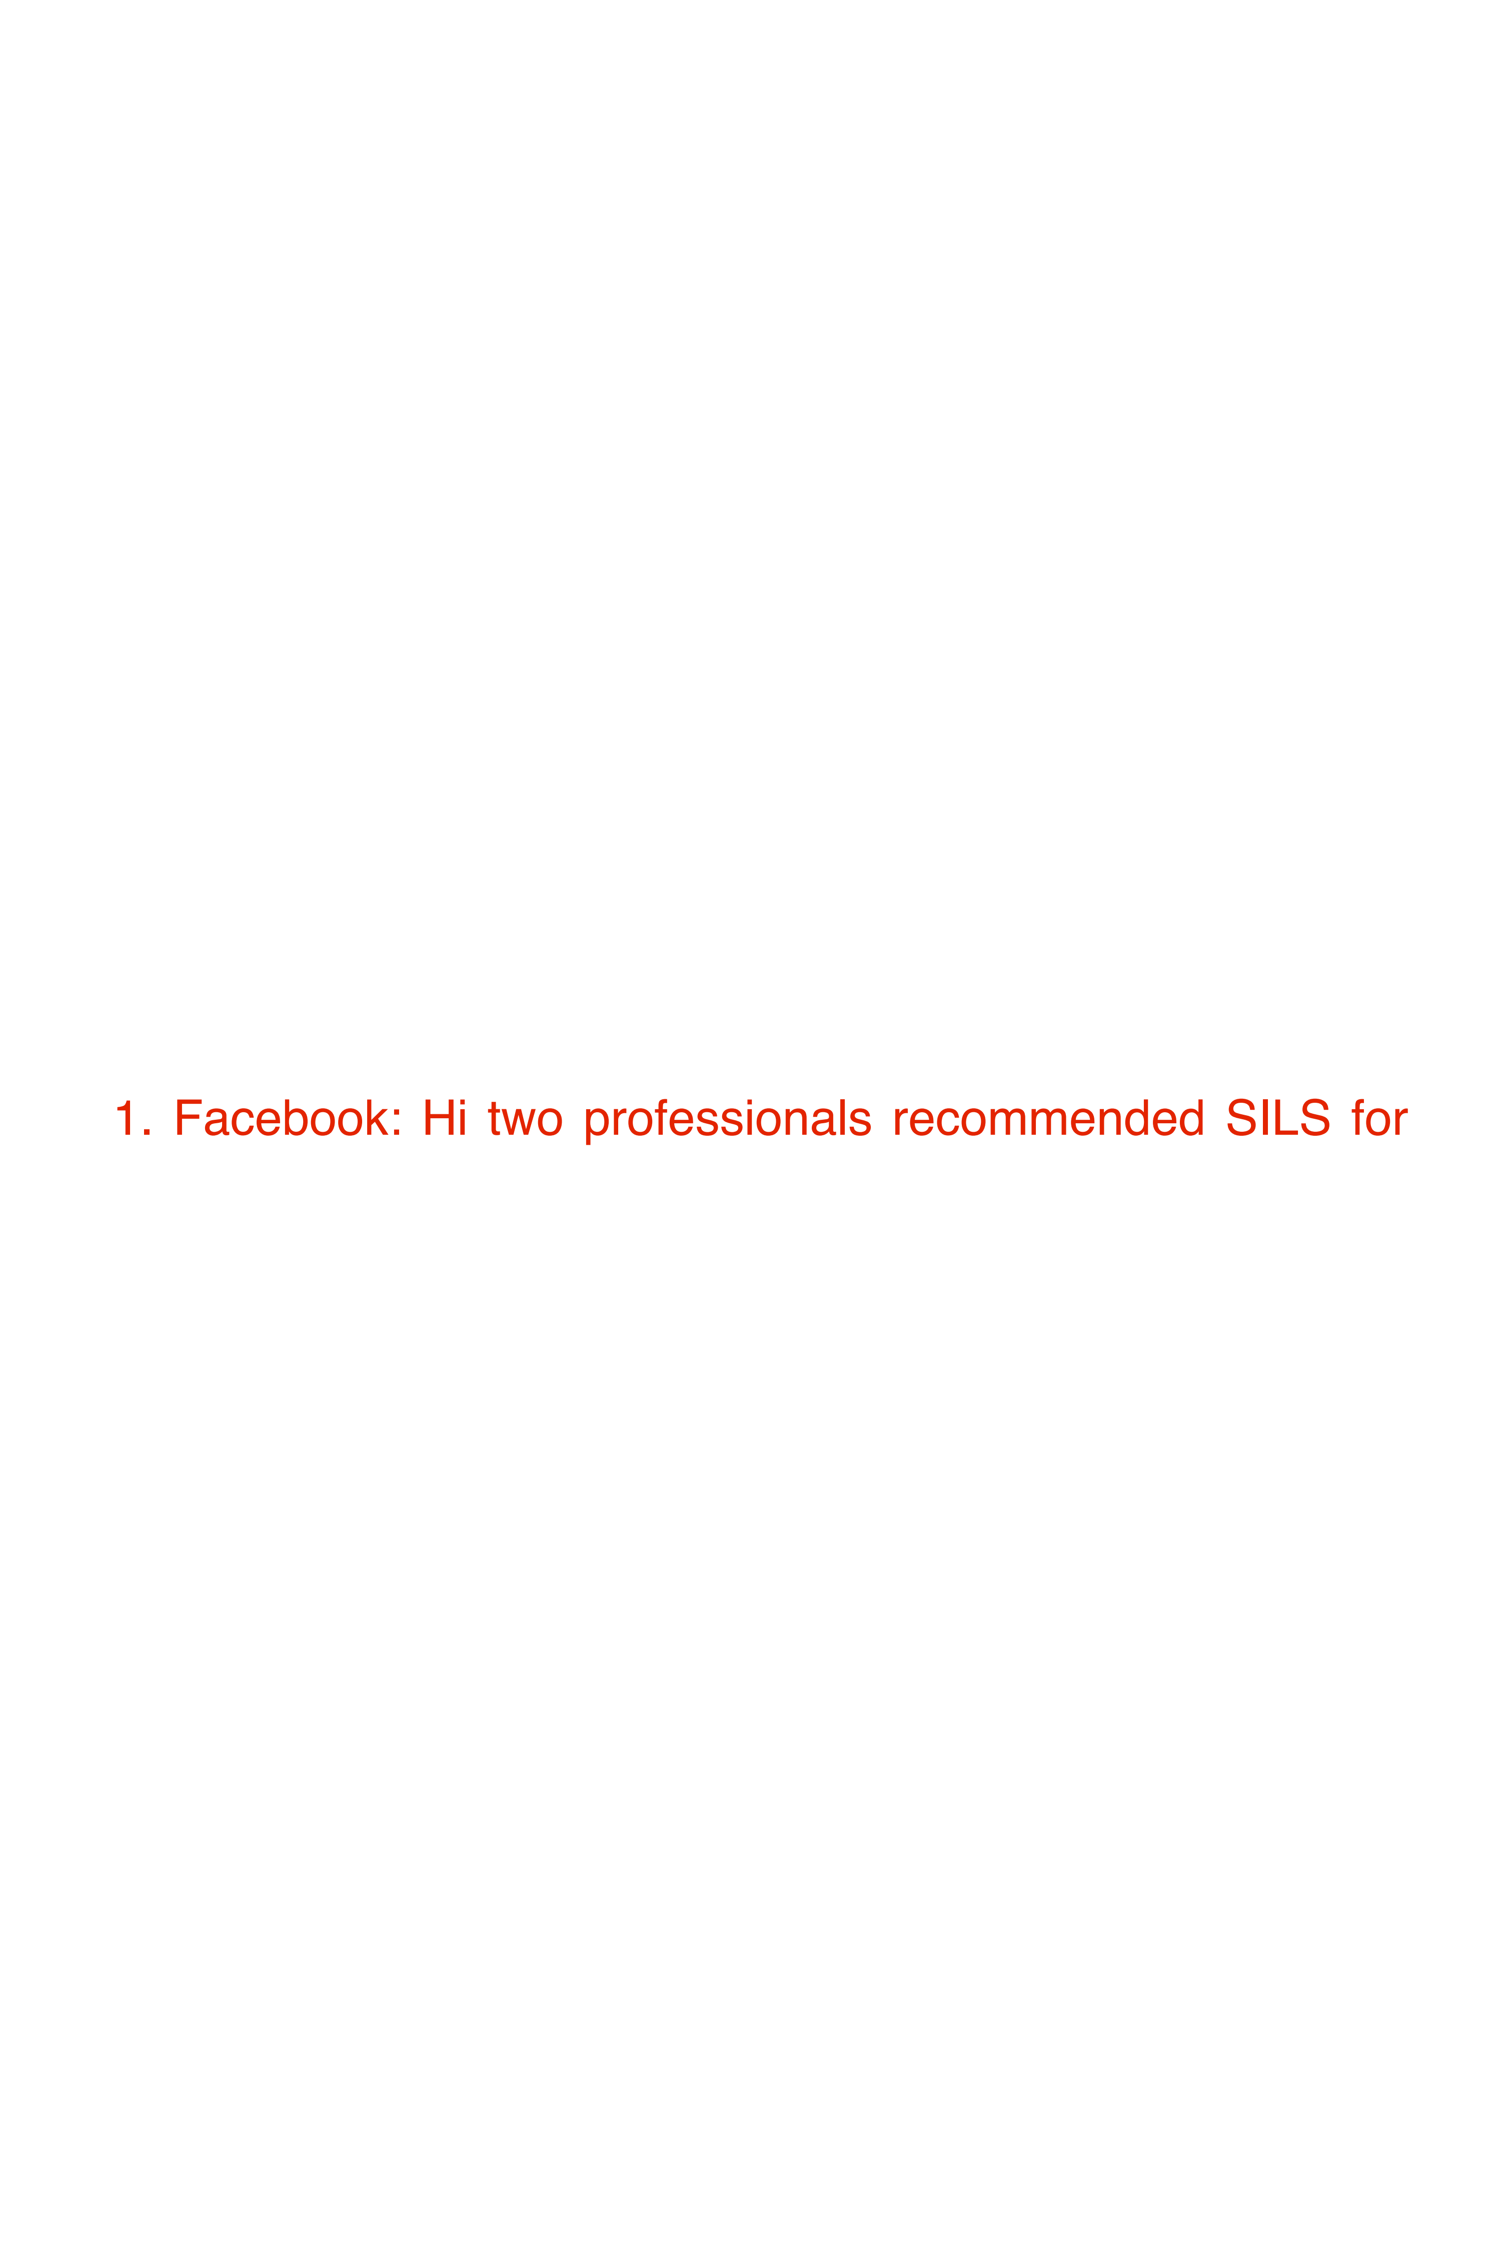

Instagram begging for assistance after my human rights

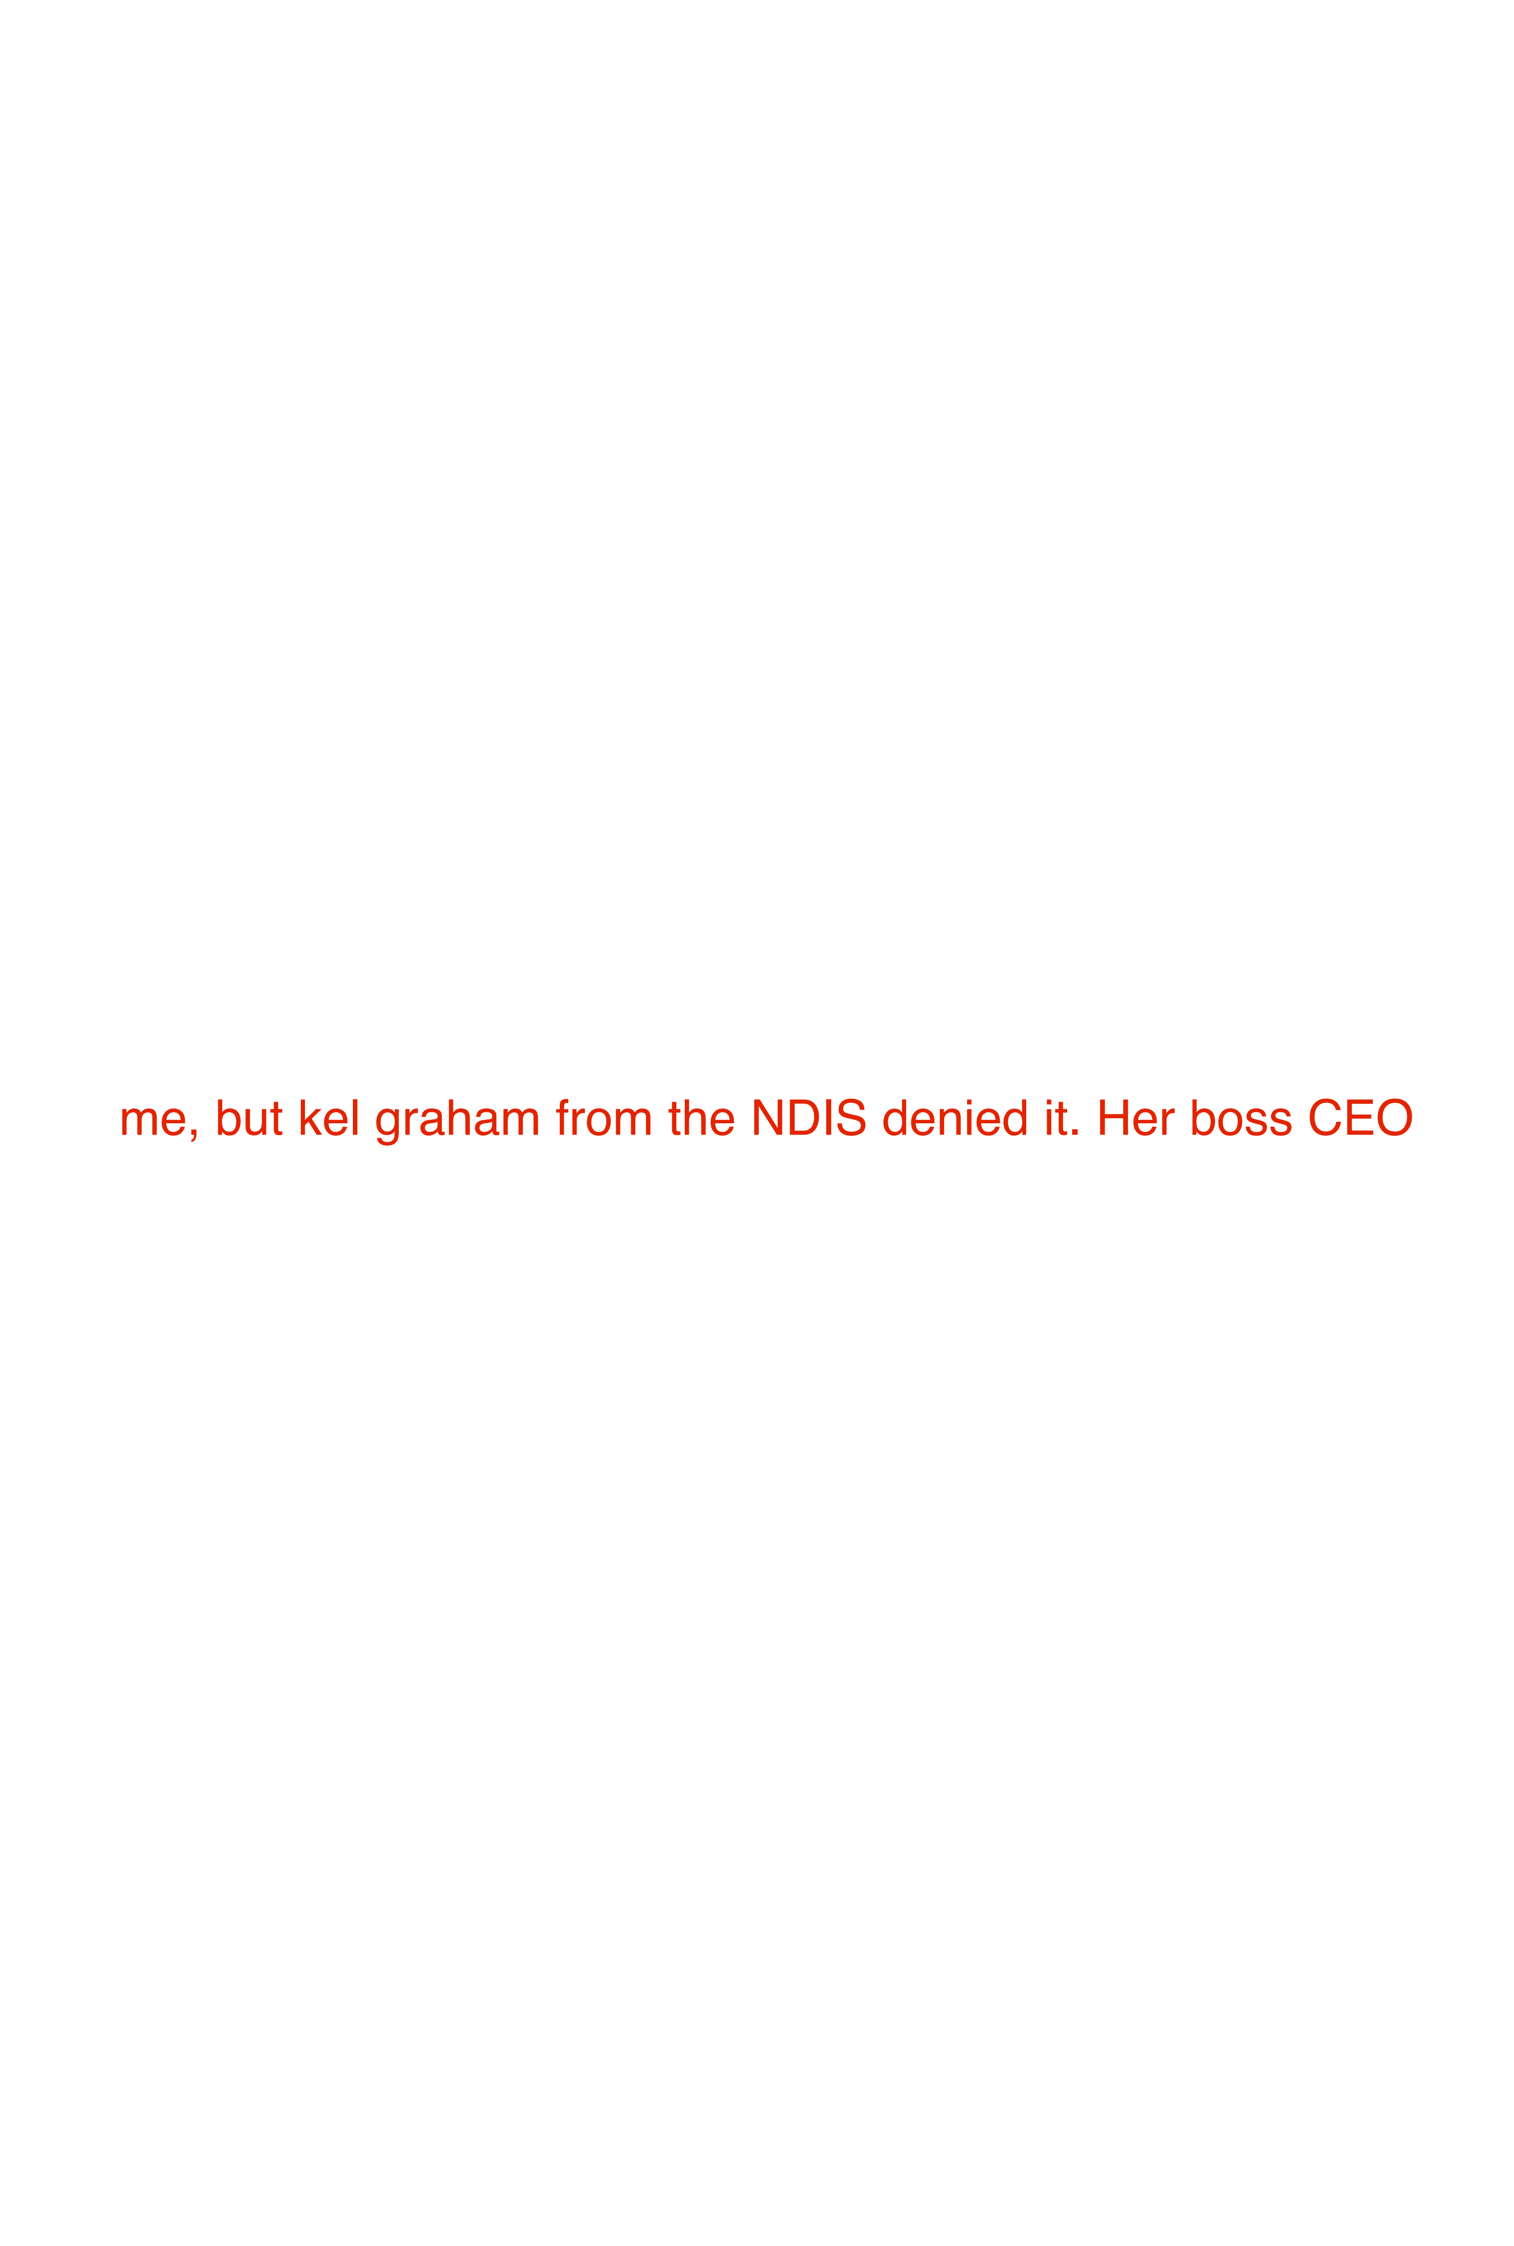

are decimated and my legal rights destroyed begging for

food and money and a place to be under the care of the

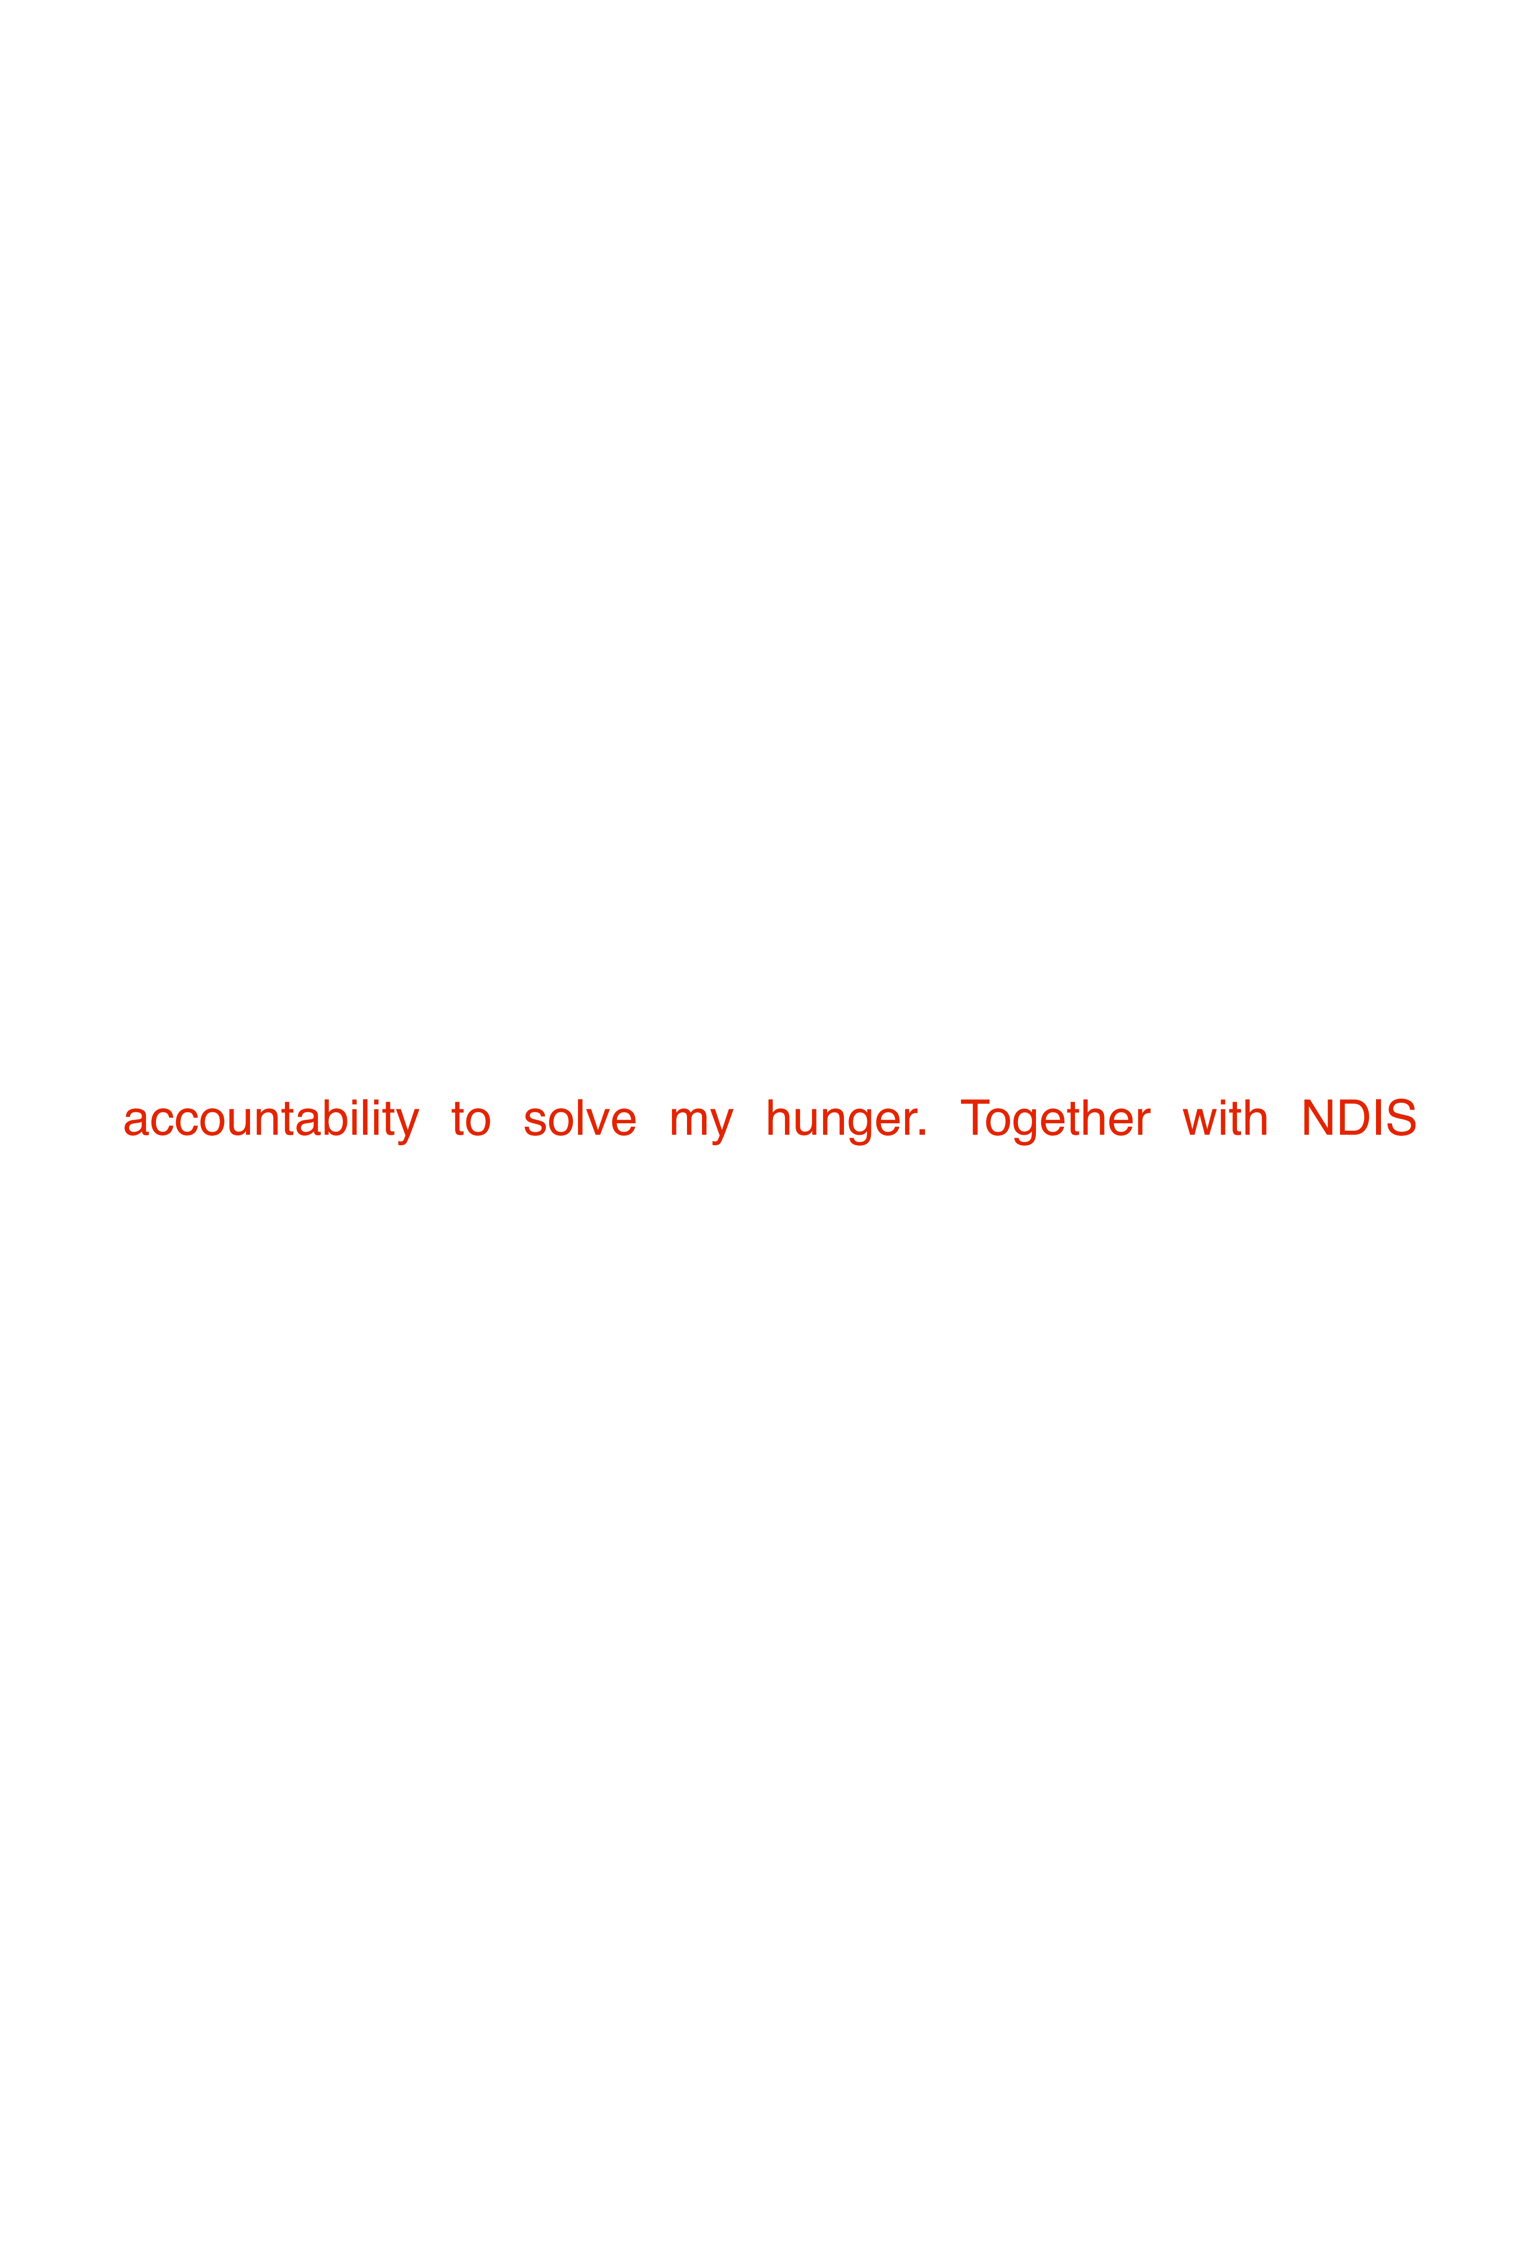

NDIS obliged to my care as a disabled person detail the

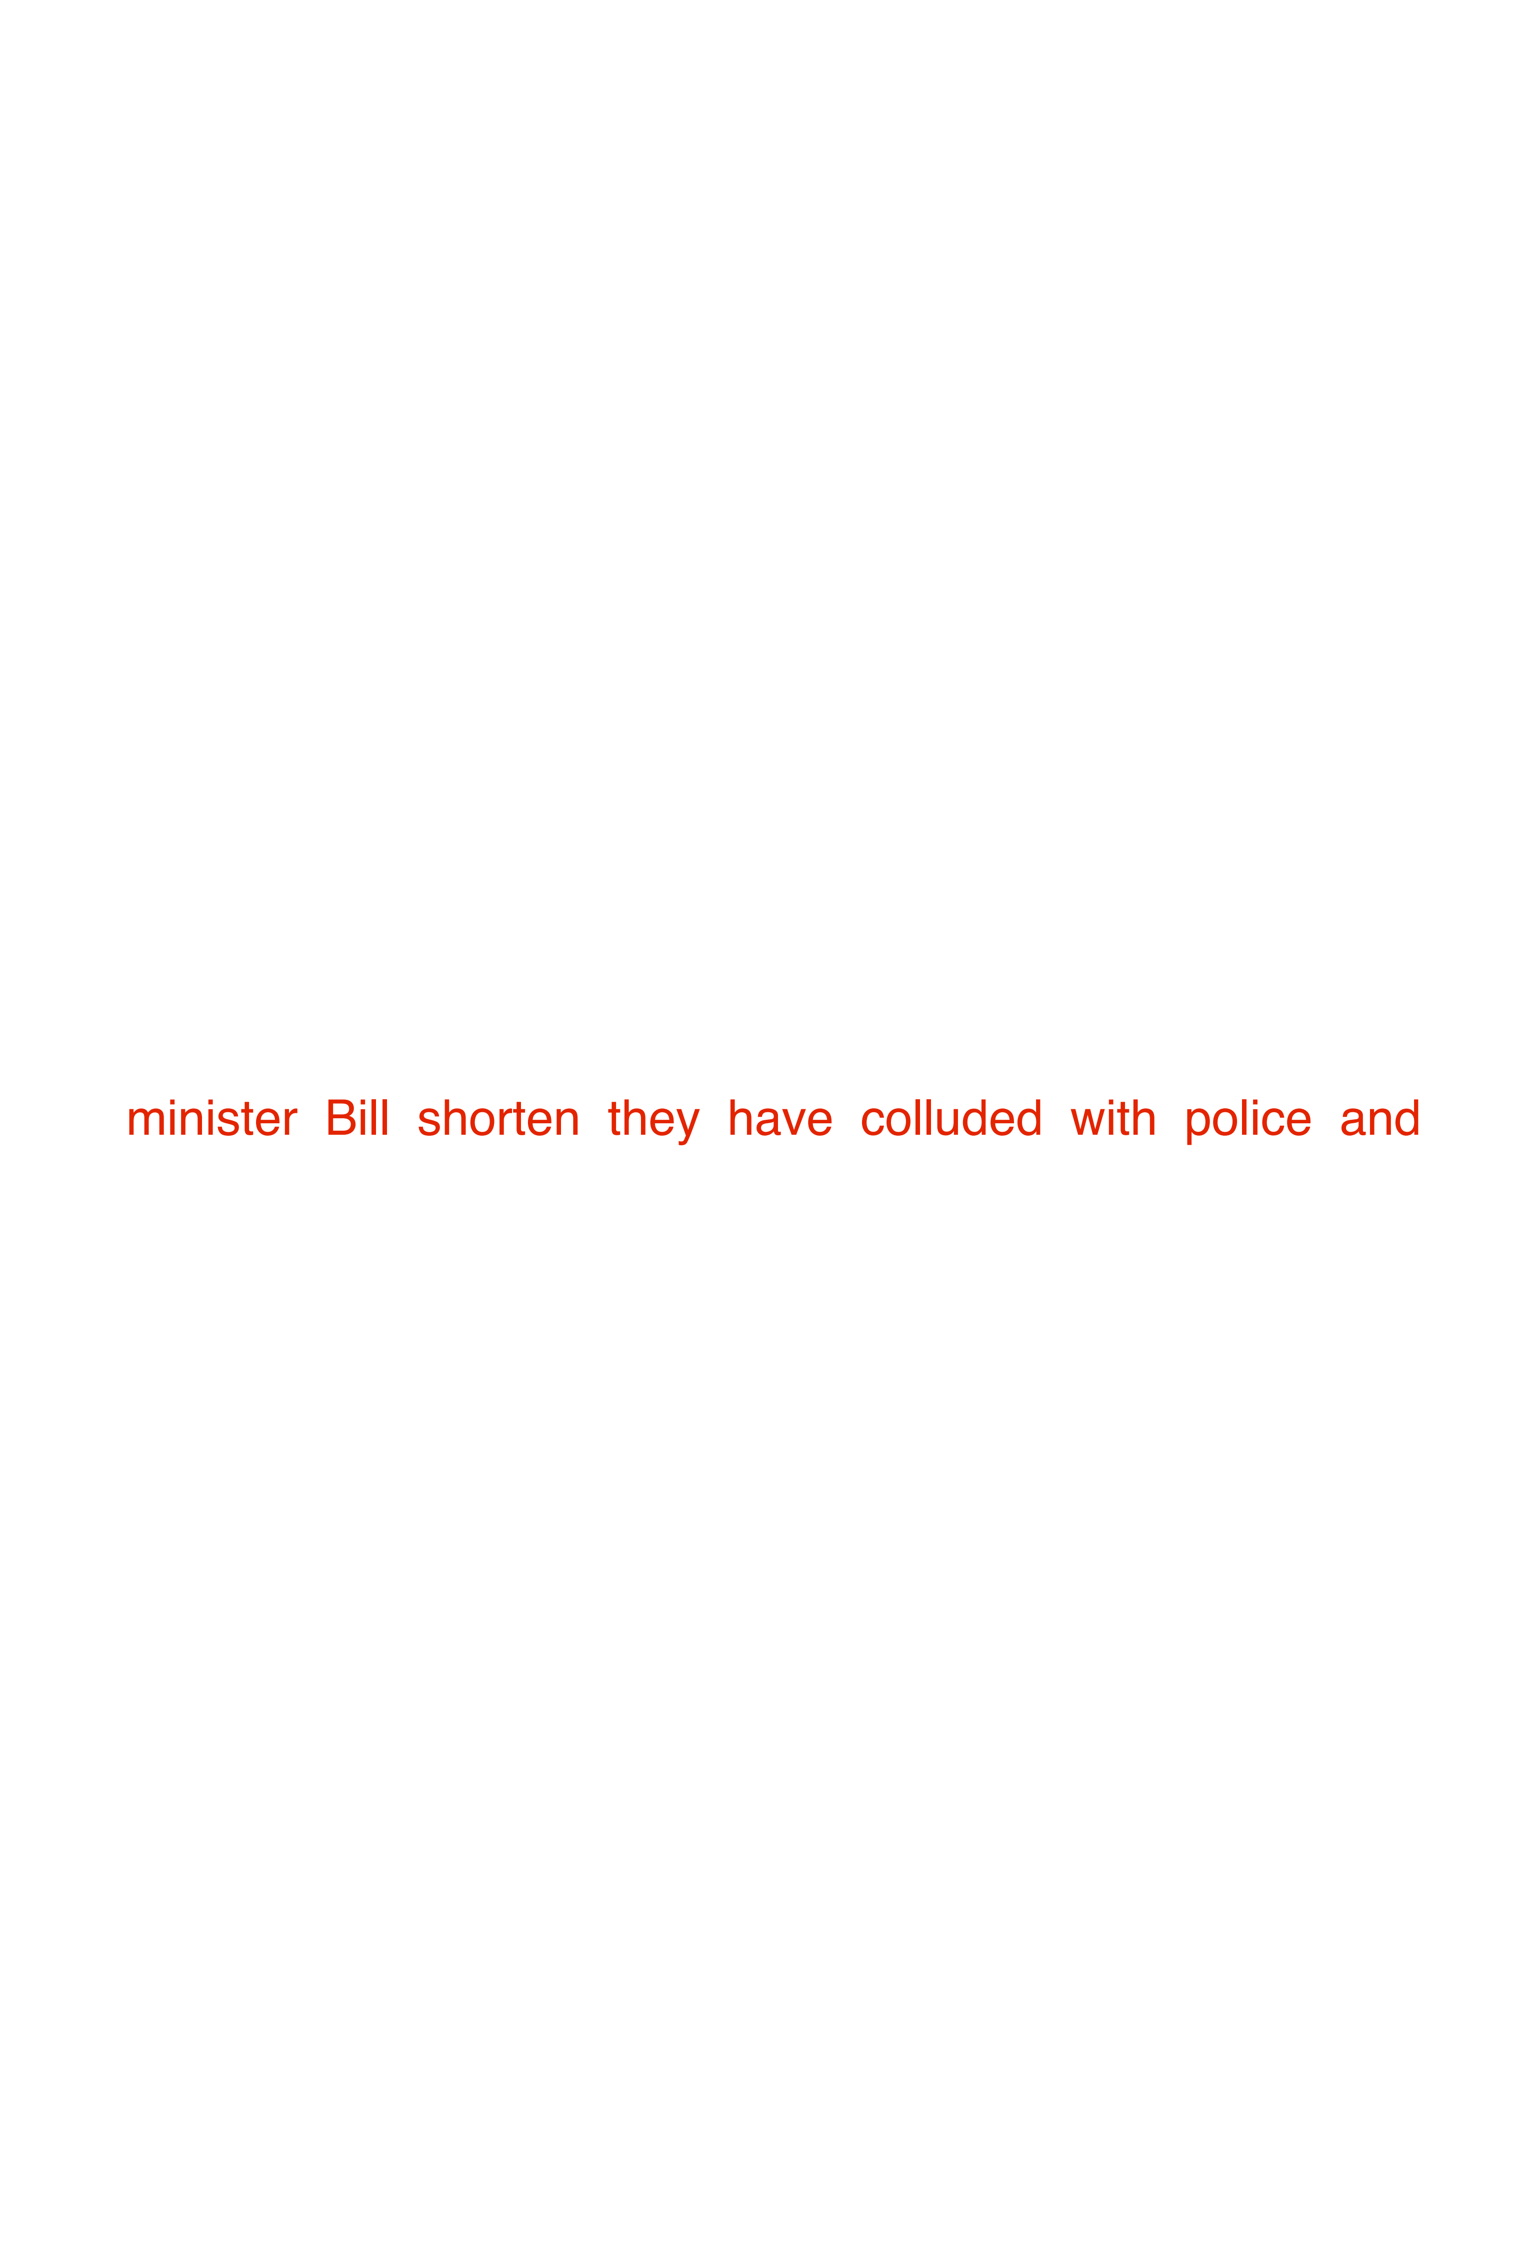

disturbing corruption:

1. Facebook: Hi two professionals recommended SILS for

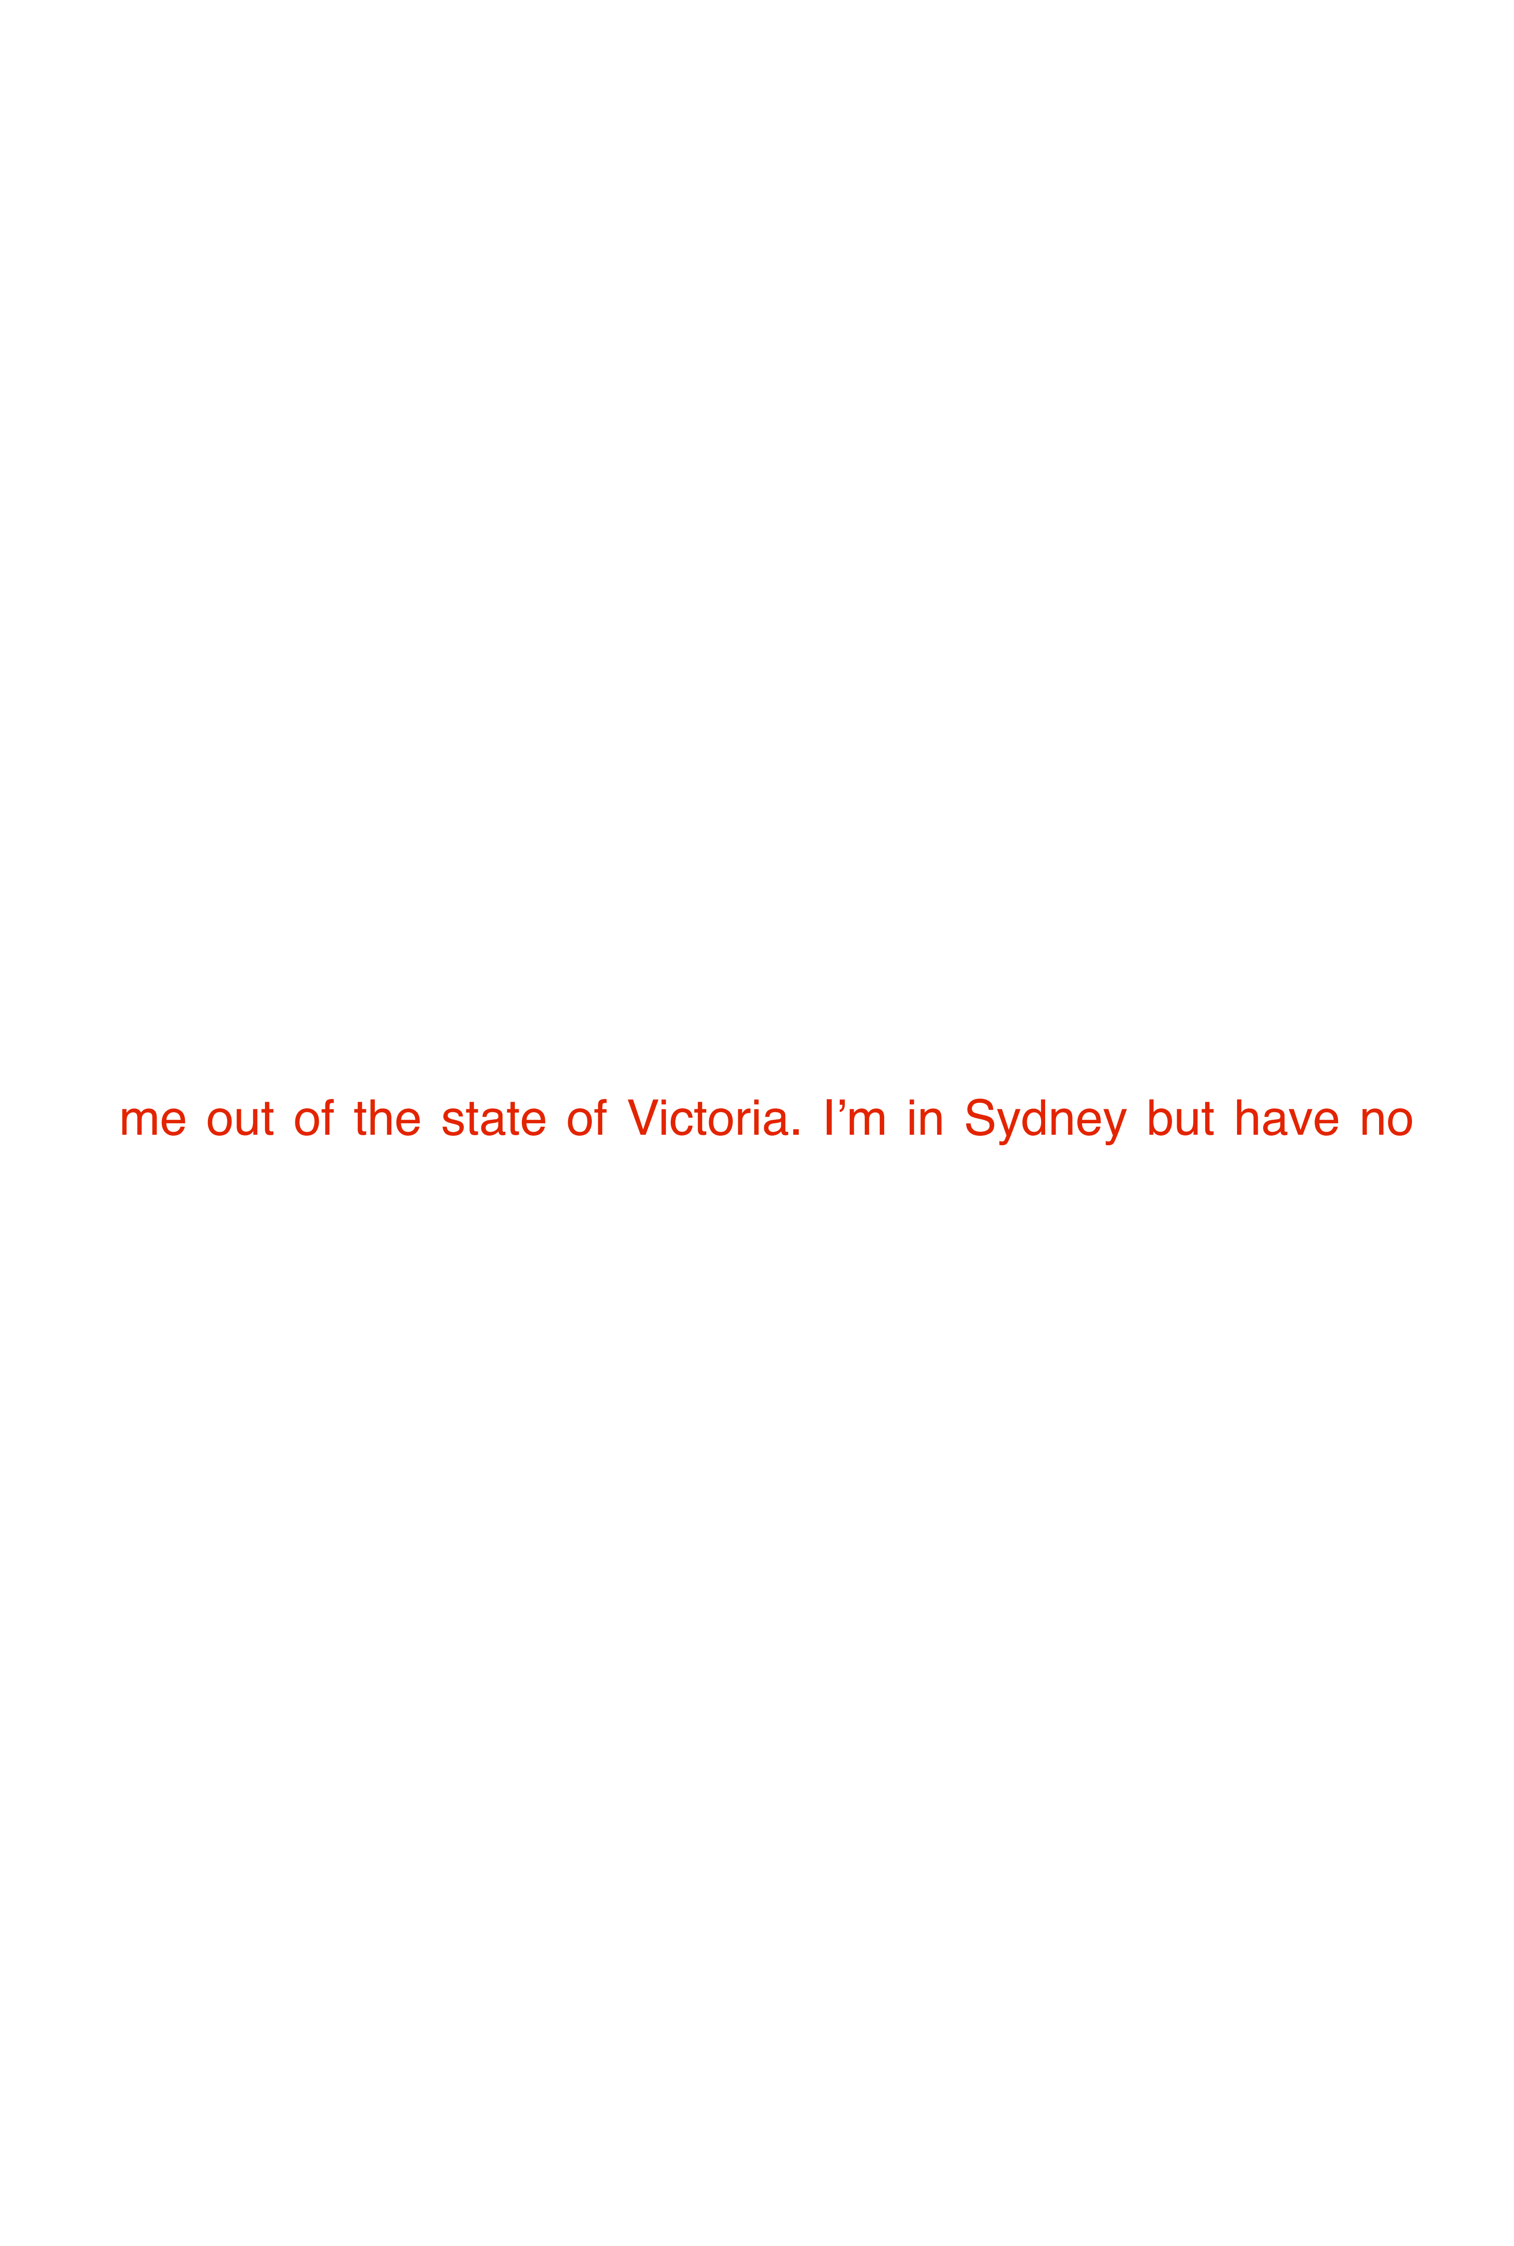

me, but kel graham from the NDIS denied it. Her boss CEO

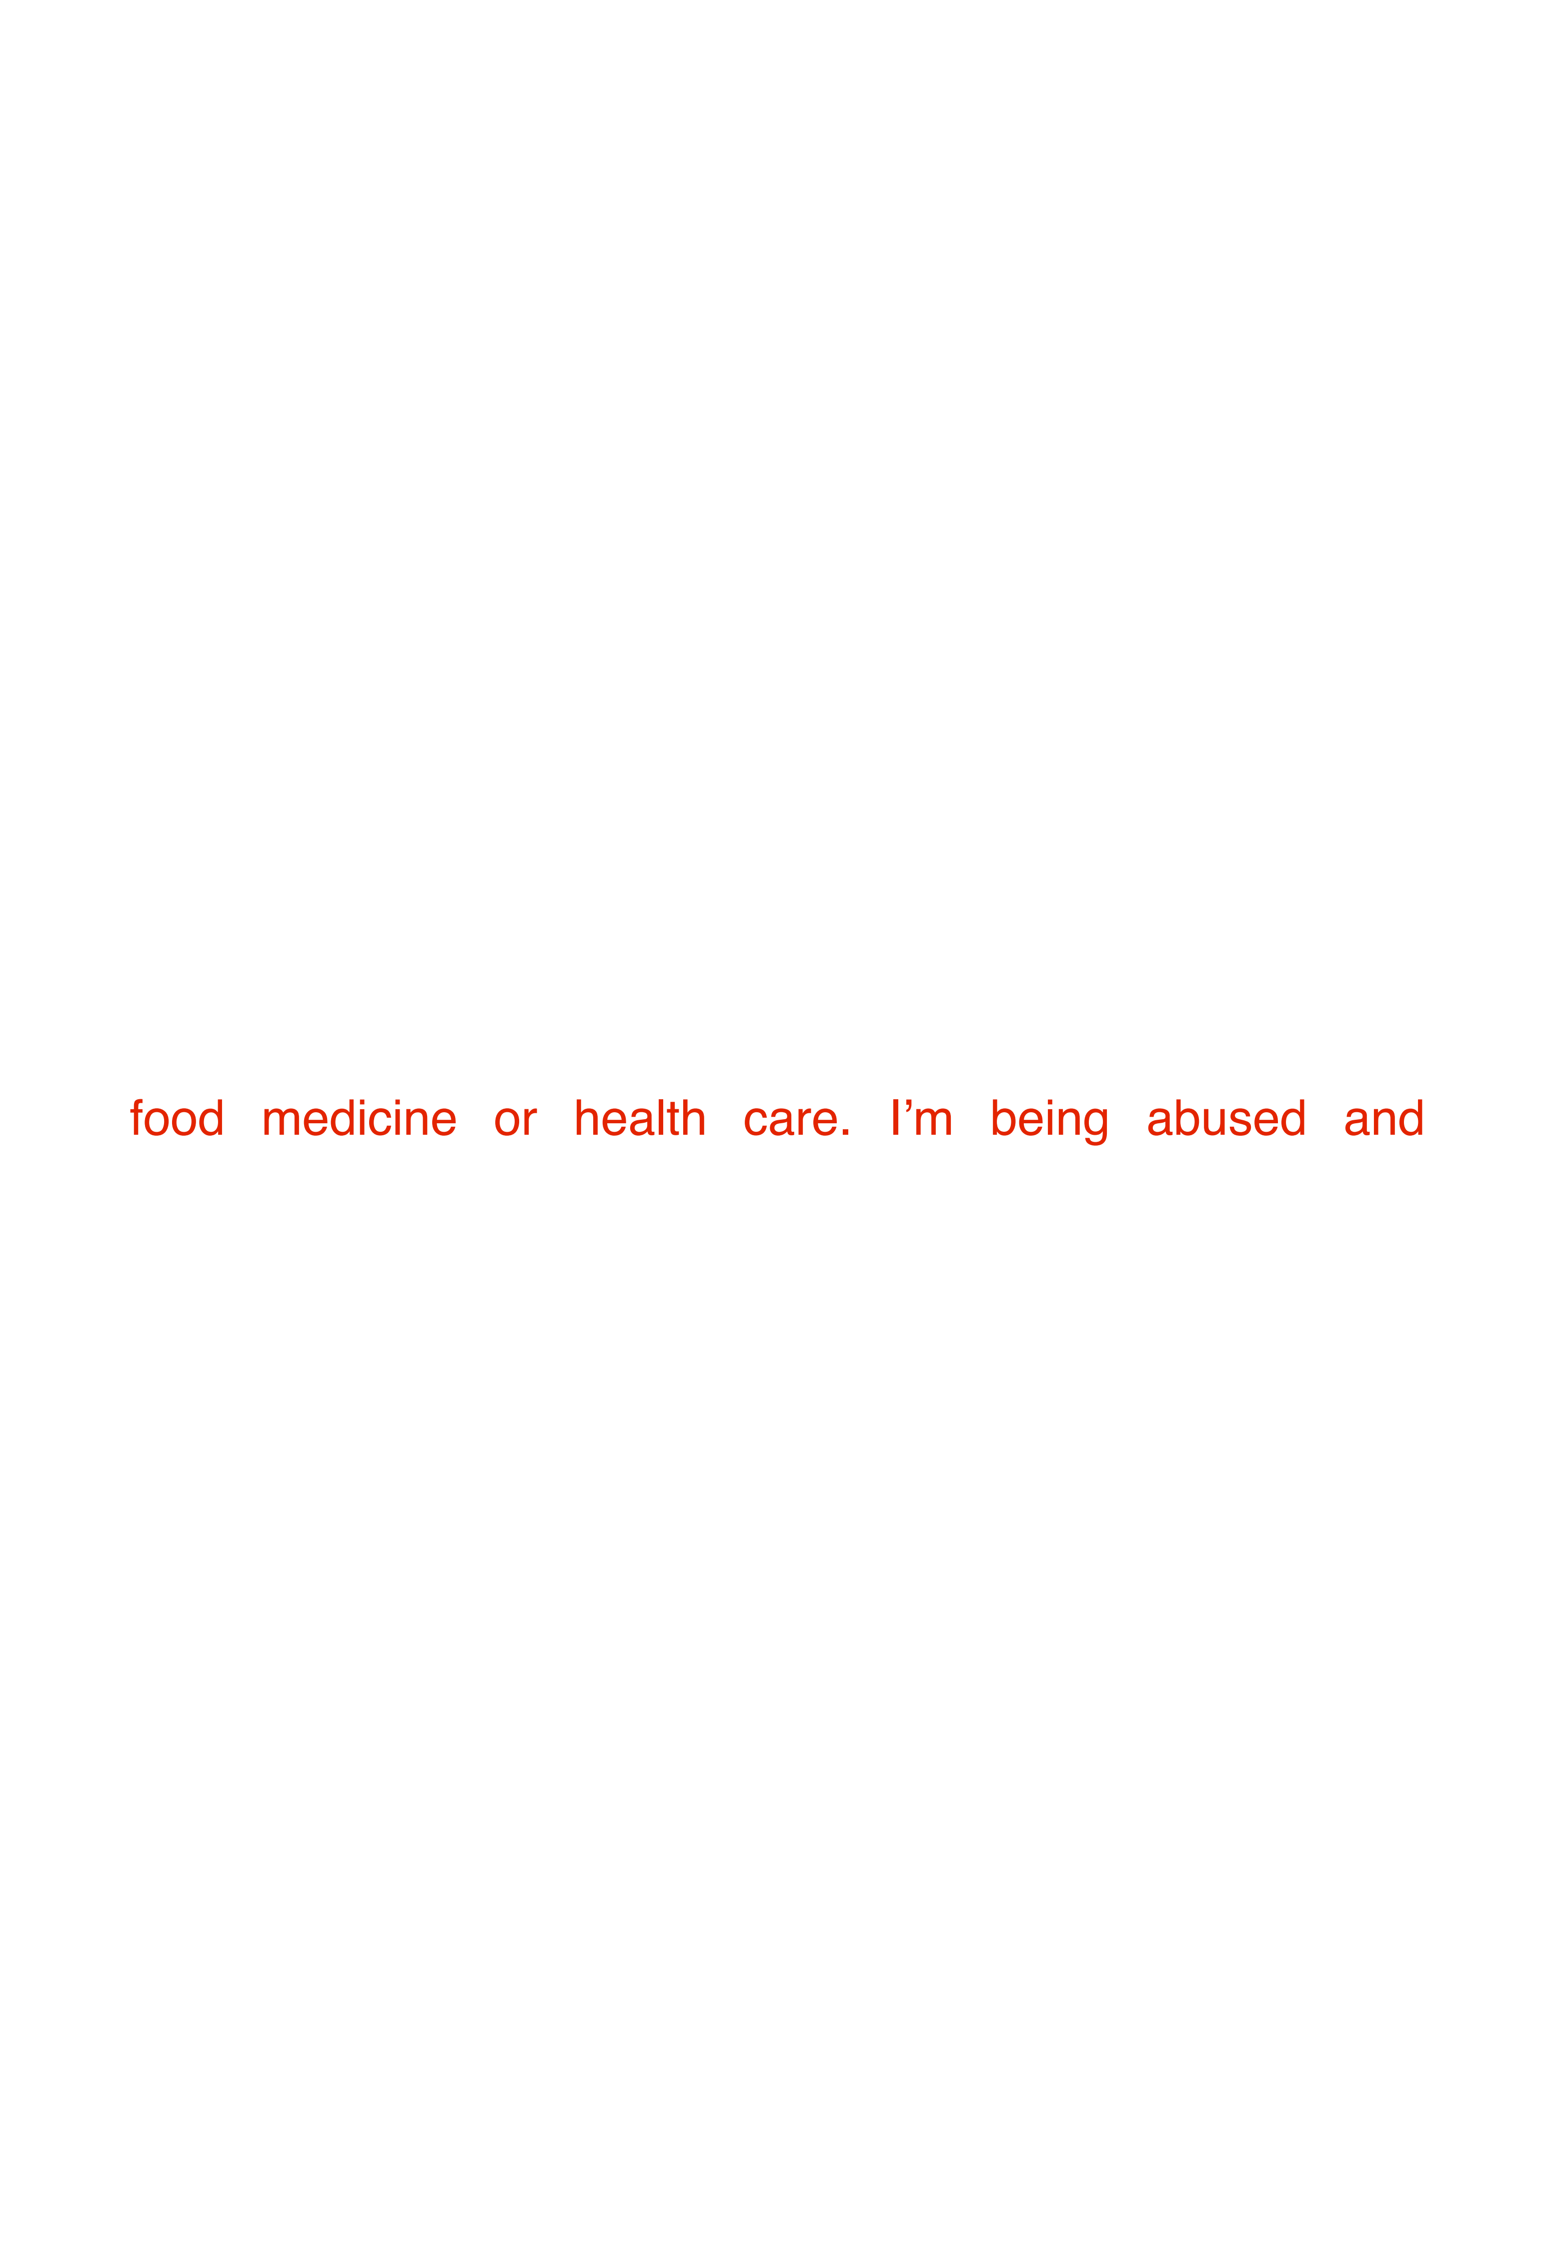

Rebekah Falkingham has ignored my plea for

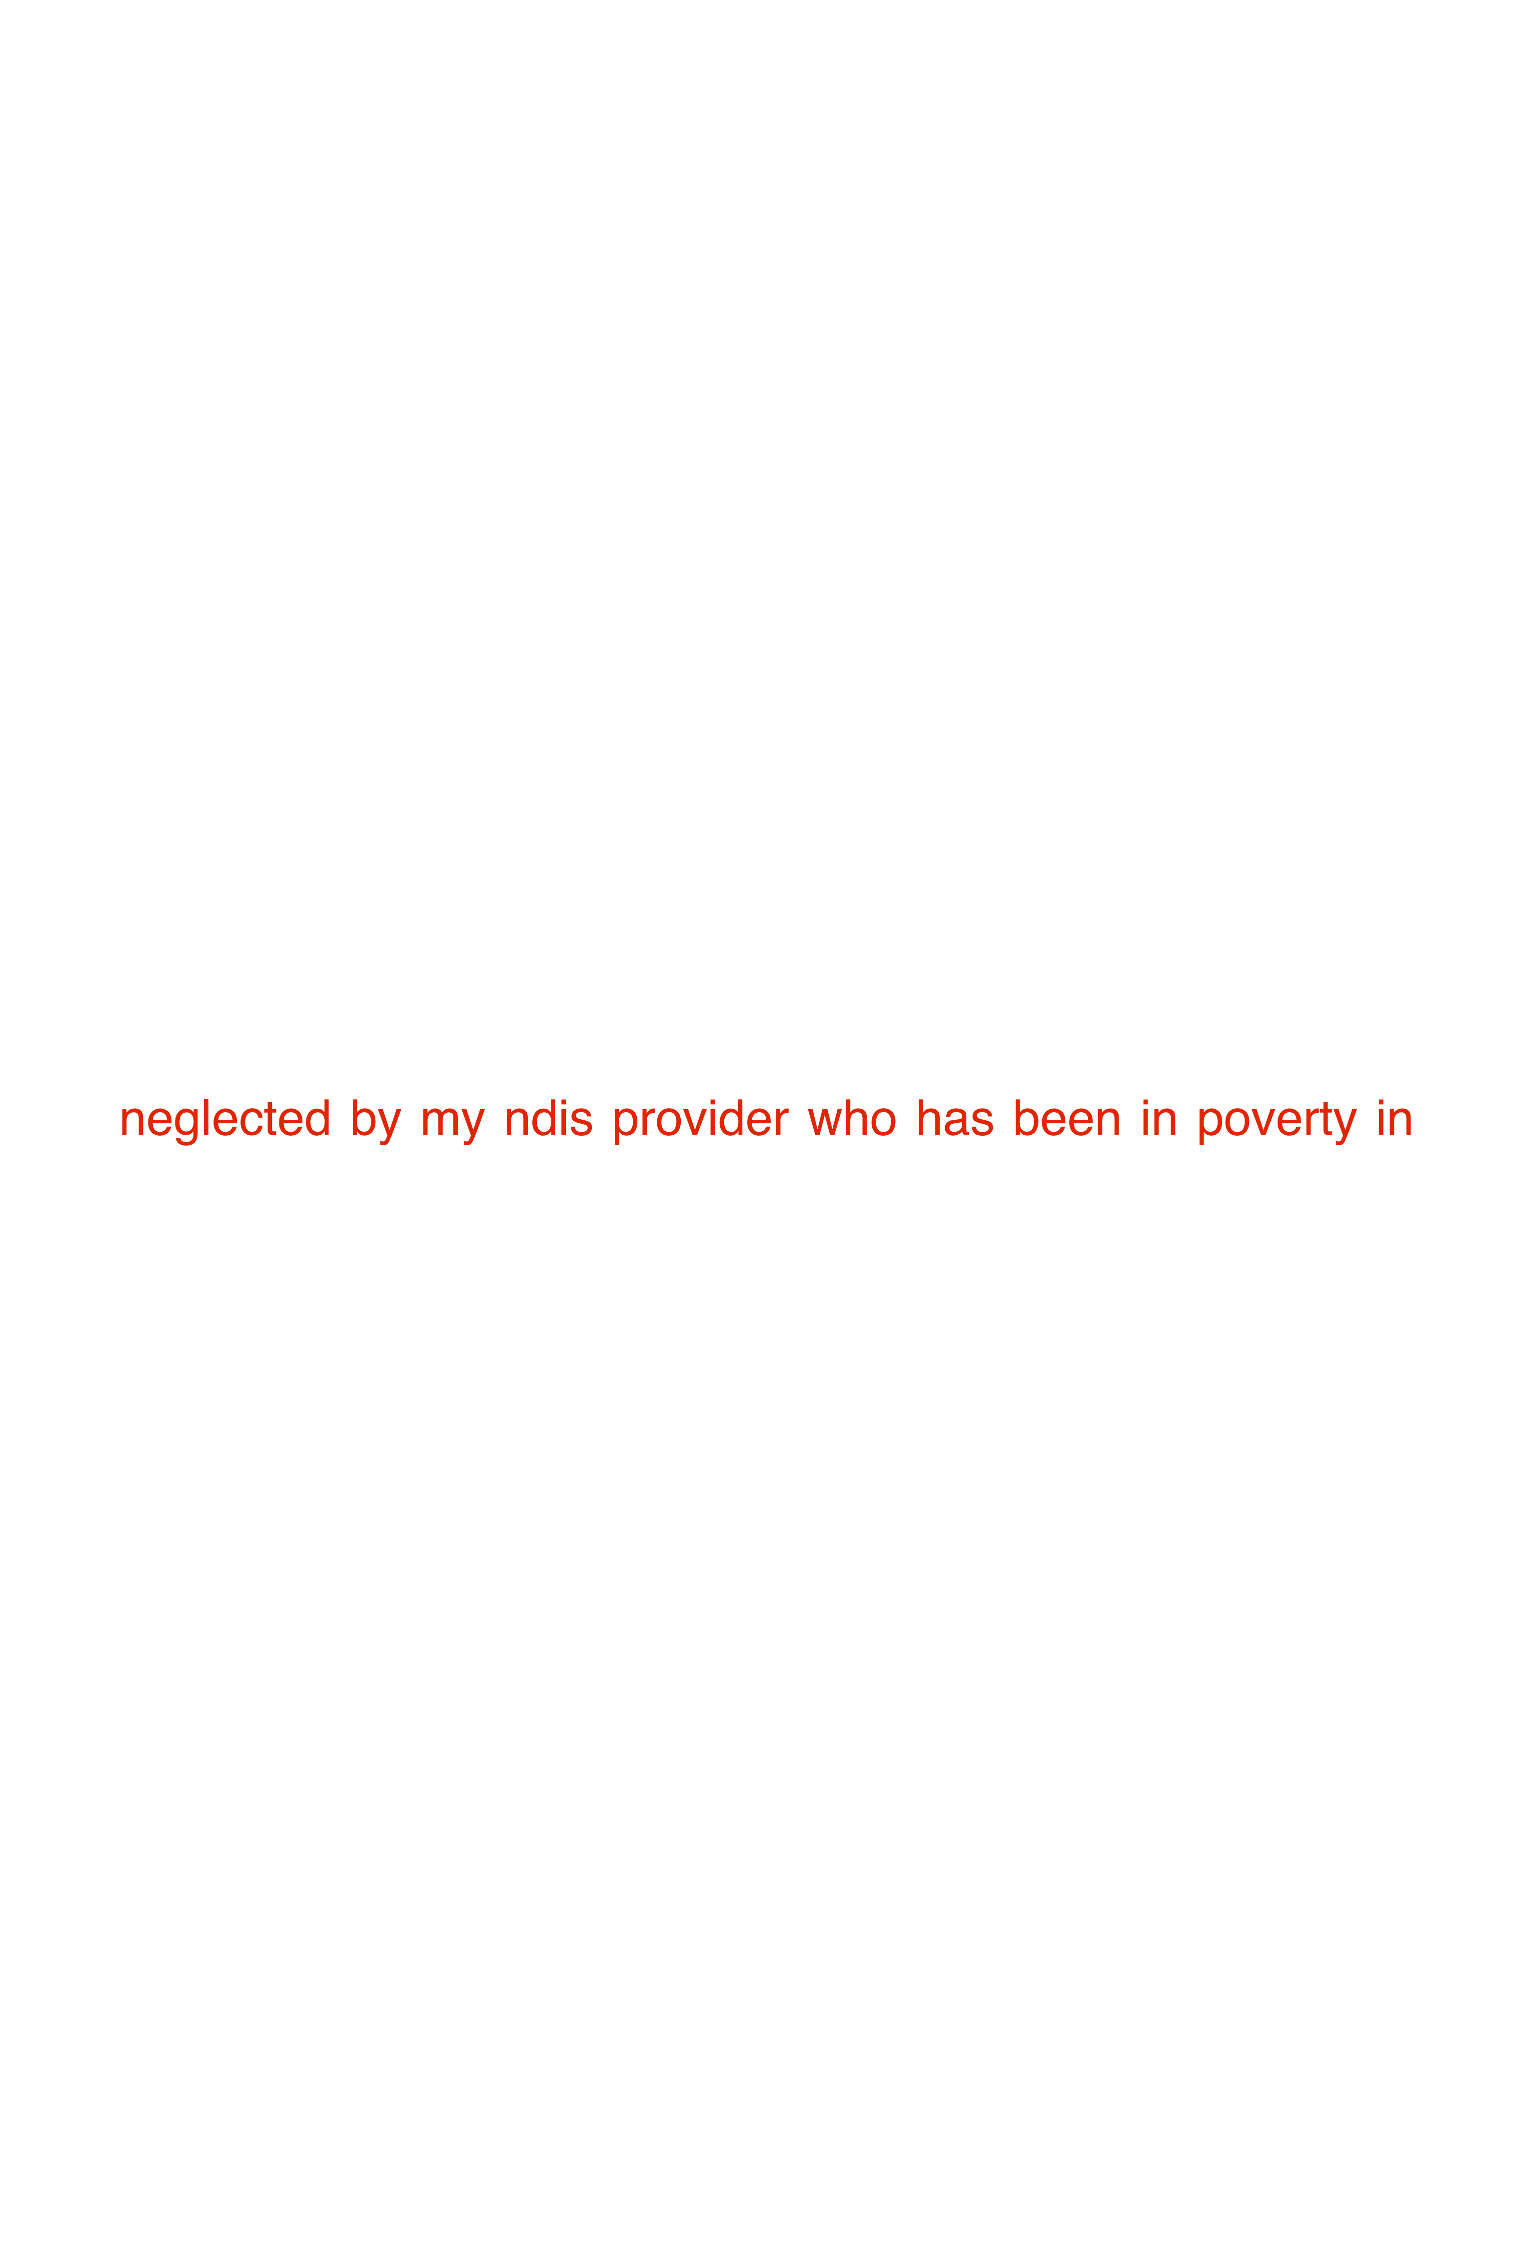

accountability to solve my hunger. Together with NDIS

minister Bill shorten they have colluded with police and

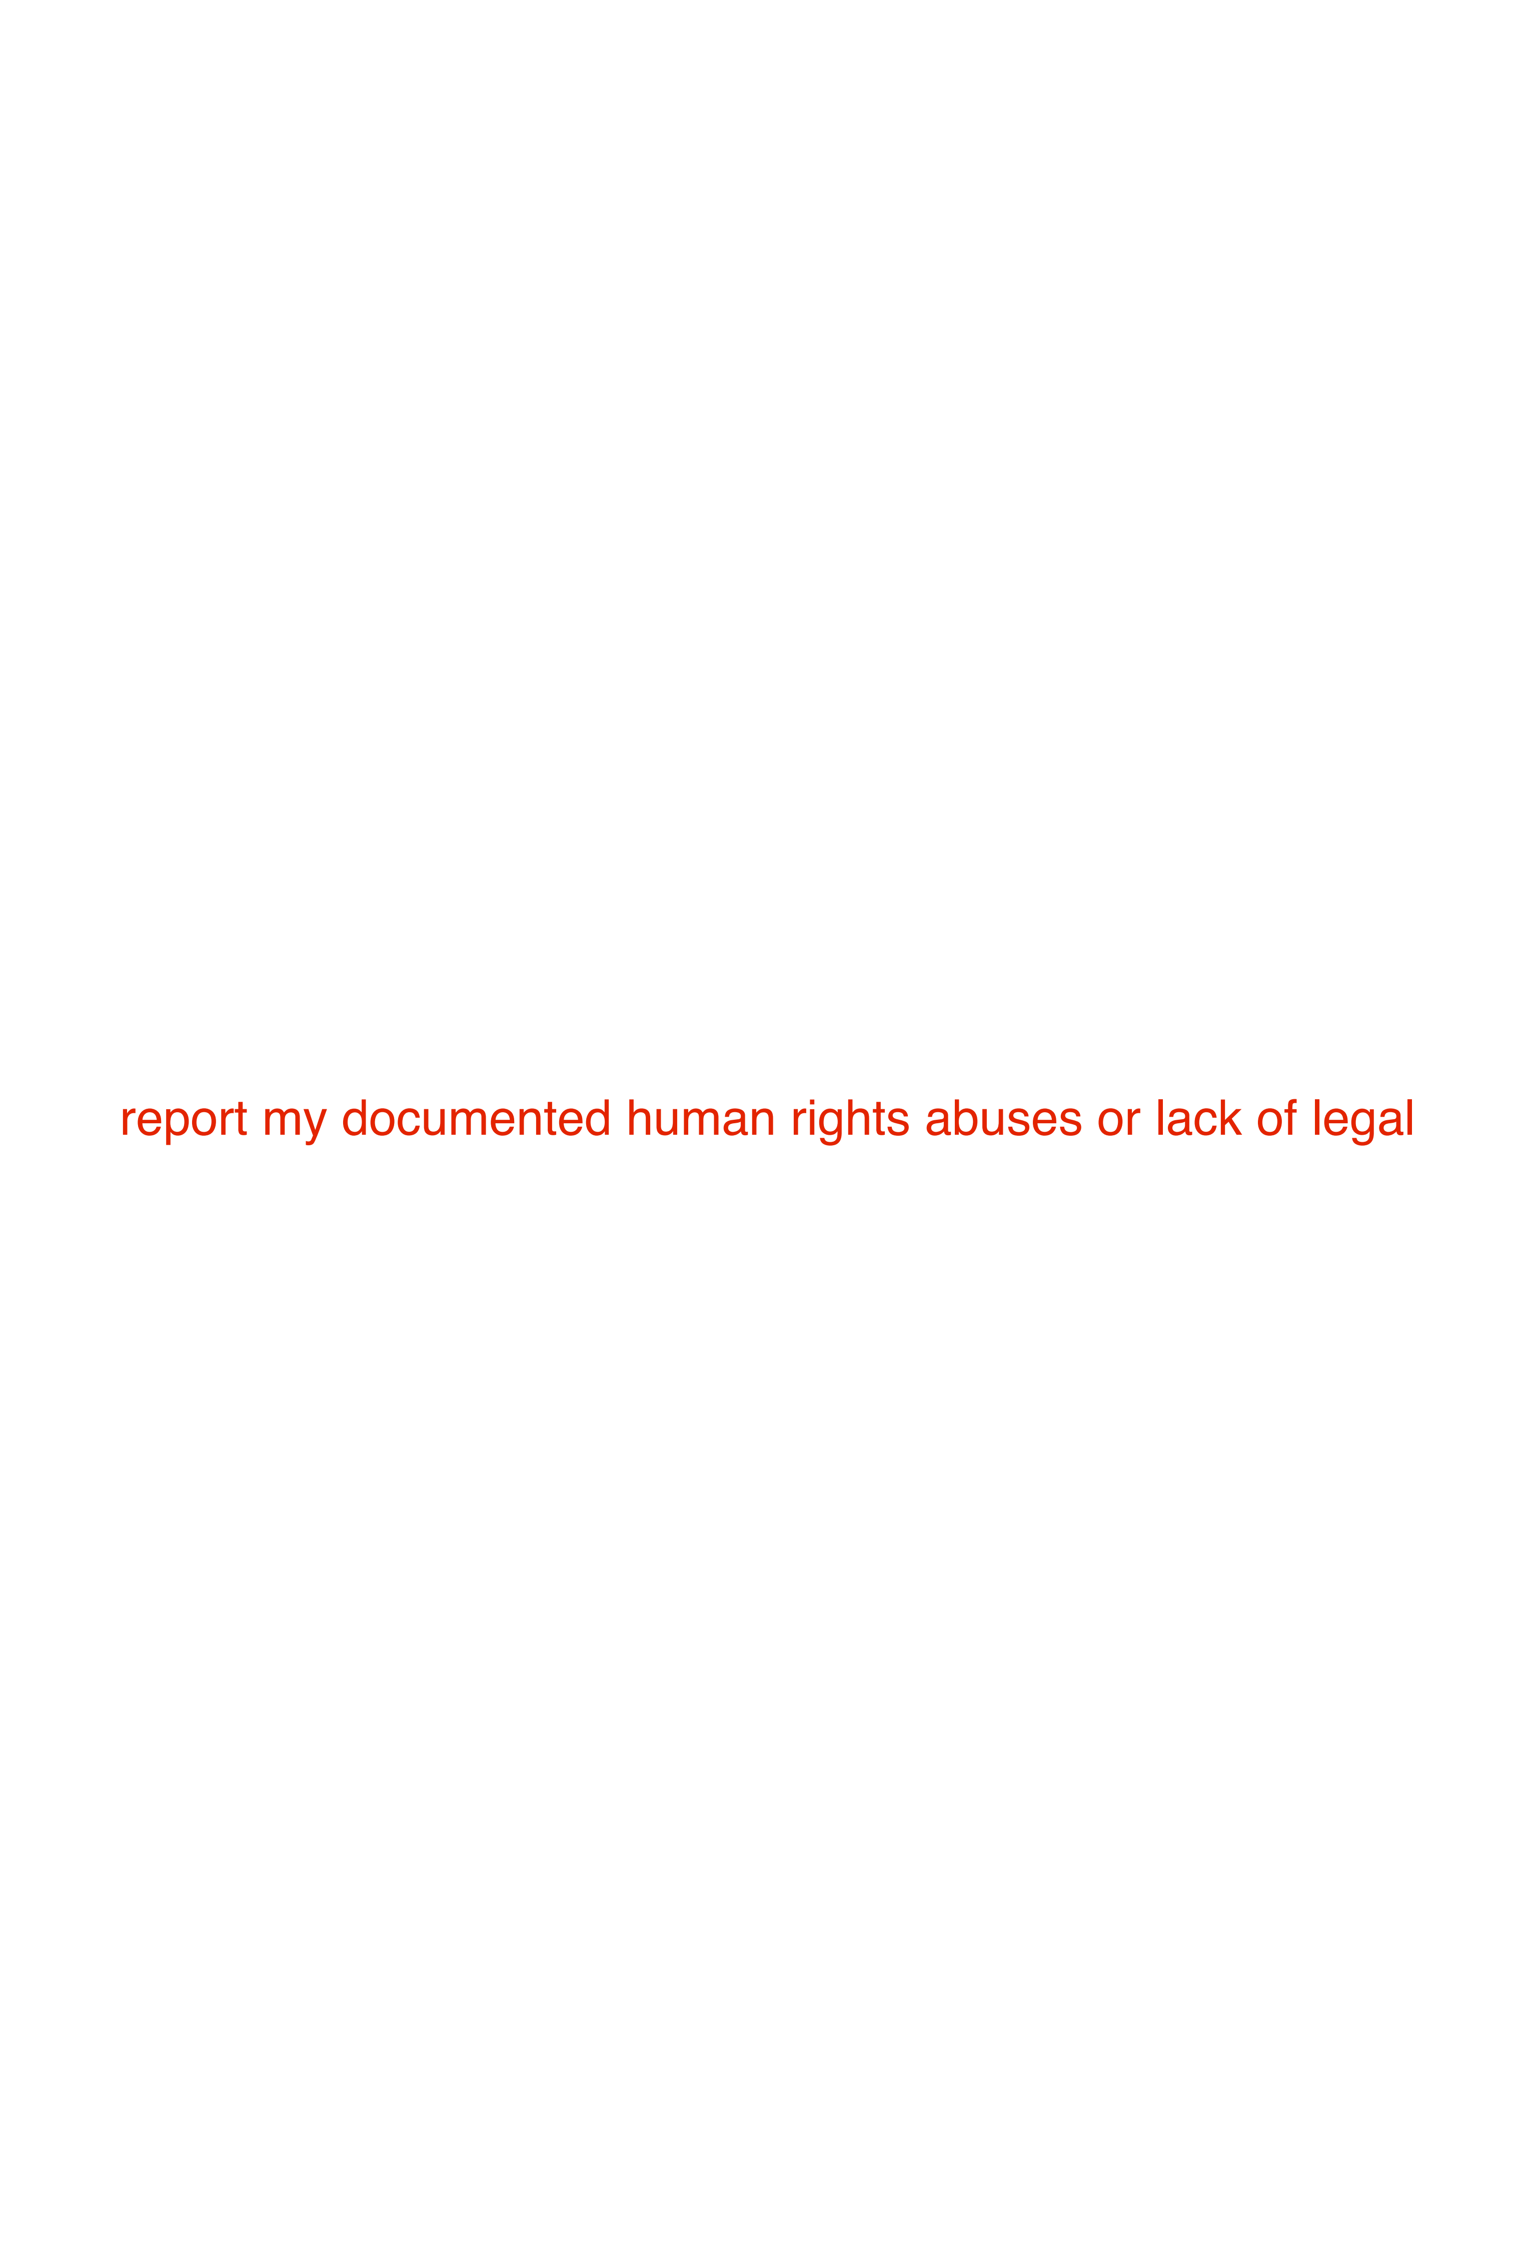

arrested me attempting to put me in prison. Police chased

me out of the state of Victoria. I’m in Sydney but have no

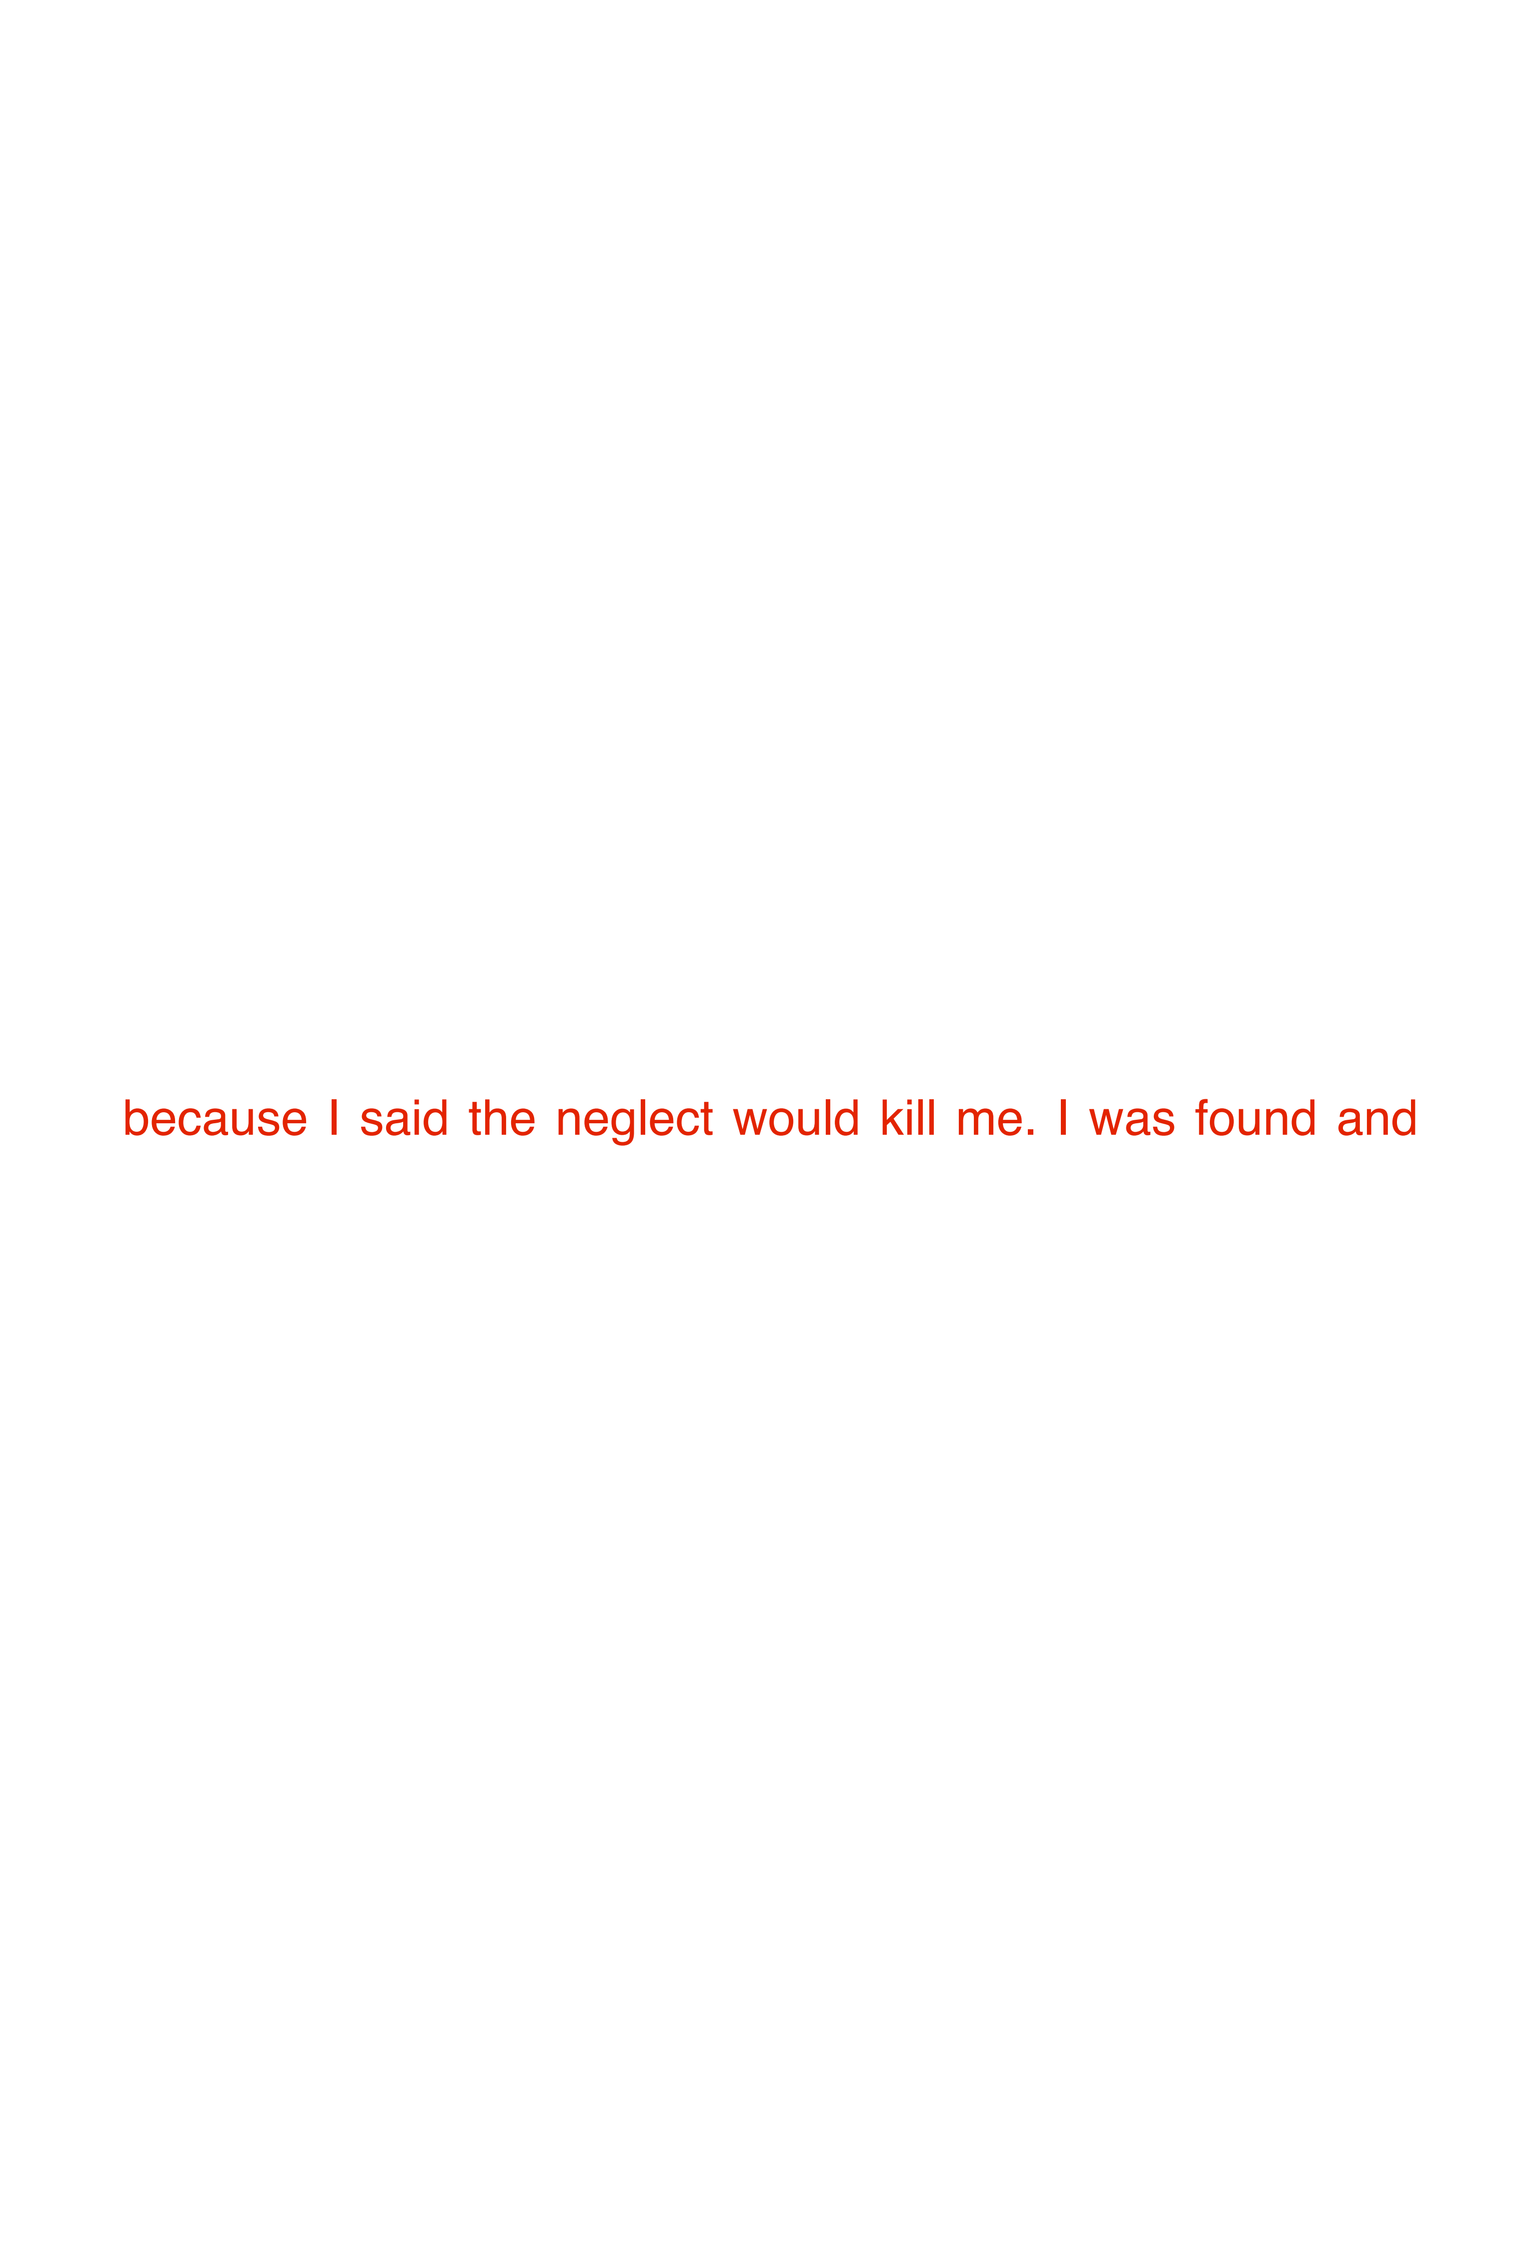

food medicine or health care. I’m being abused and

neglected by my ndis provider who has been in poverty in

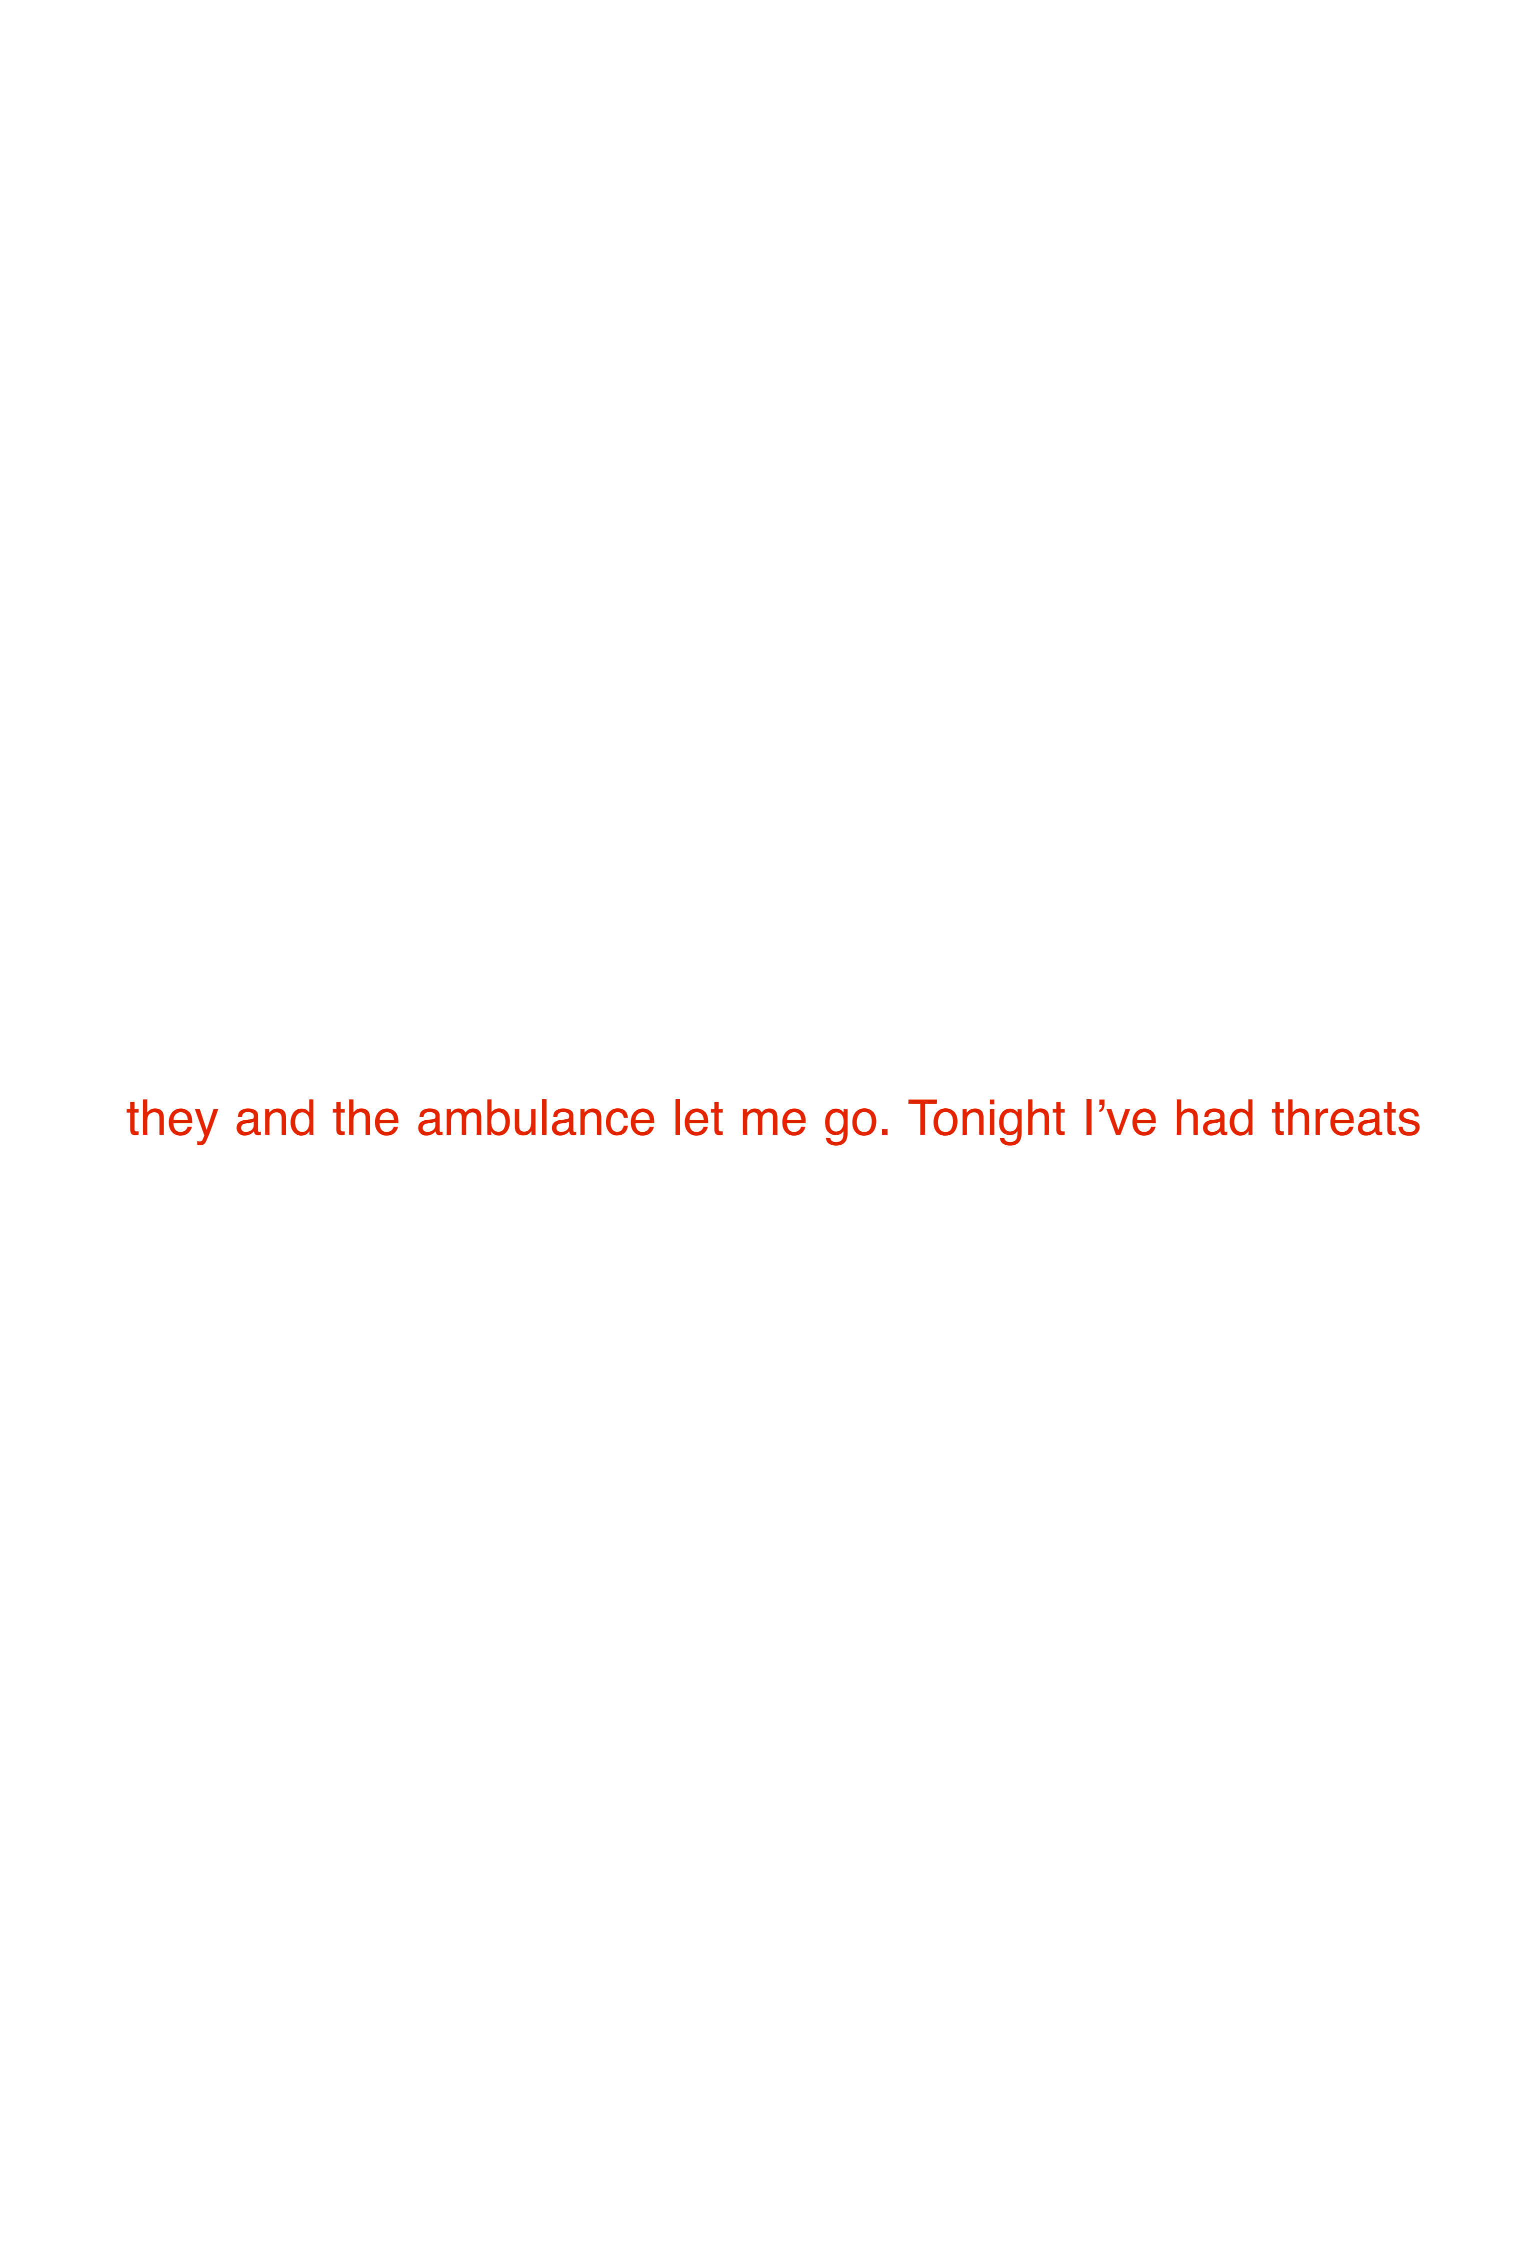

this house there's no sheets microwave and she refuses to

report my documented human rights abuses or lack of legal

help. I am a scapegoat. I started a manhunt yesterday

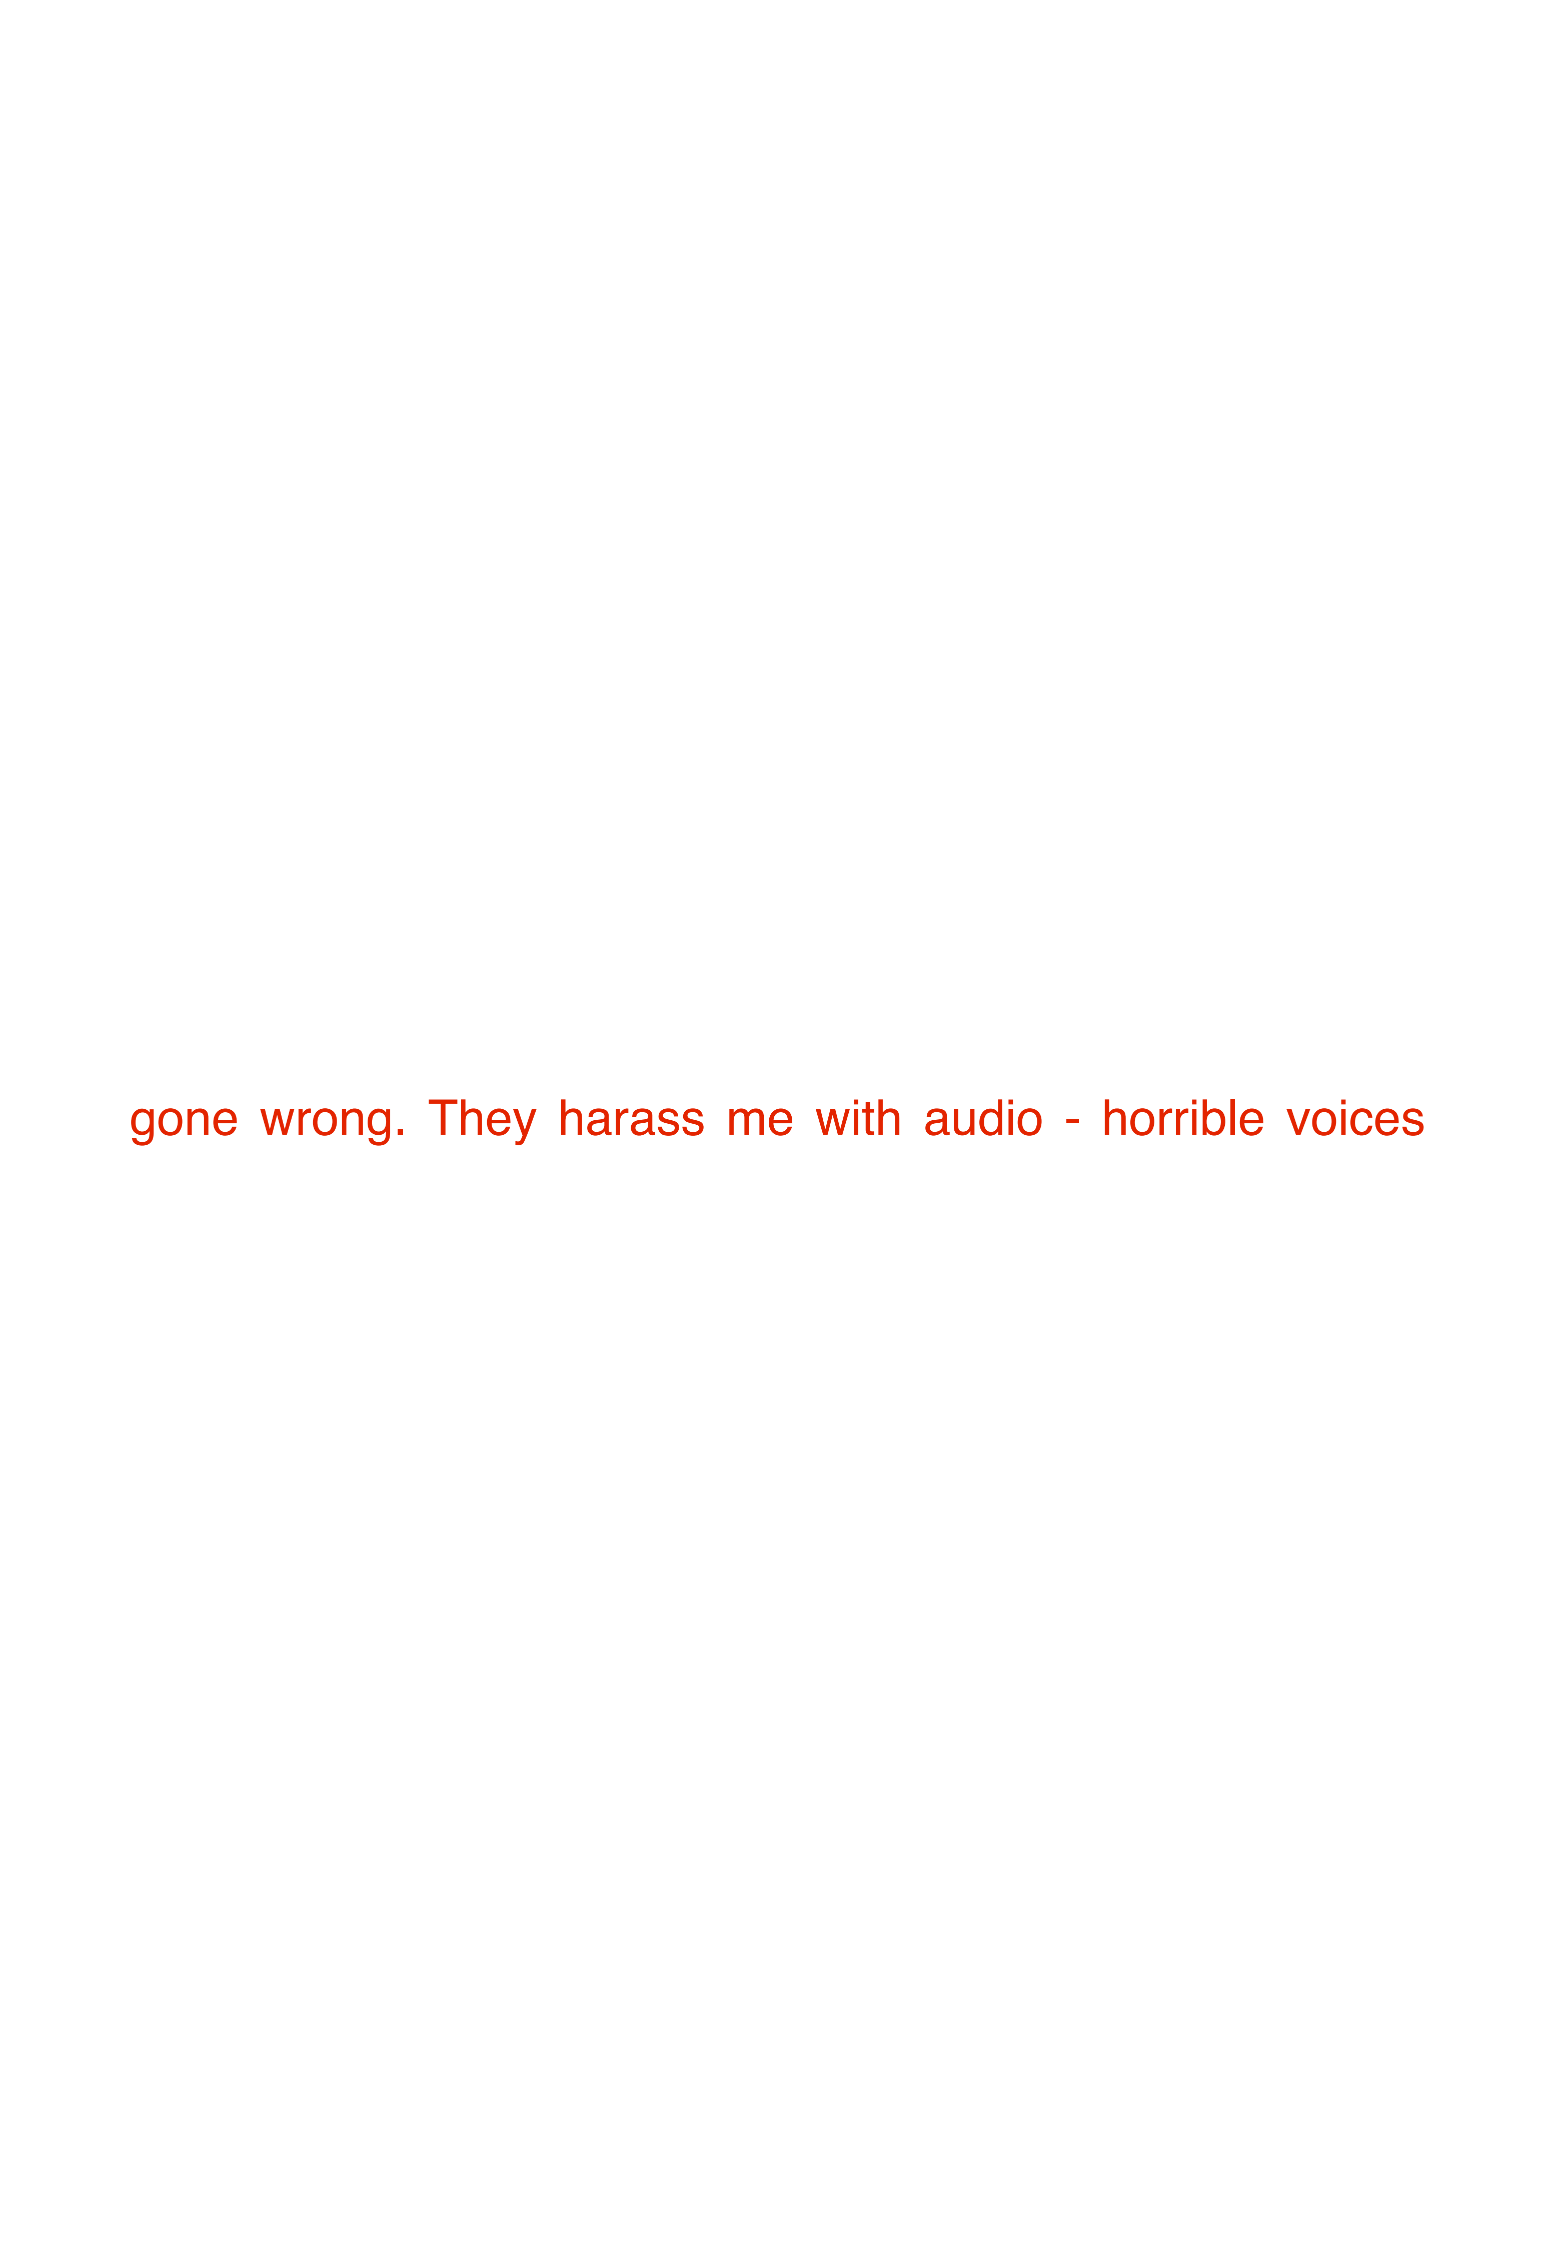

because I said the neglect would kill me. I was found and

they and the ambulance let me go. Tonight I’ve had threats

to kill my dog here. I’ve been set up by powerful forces. I

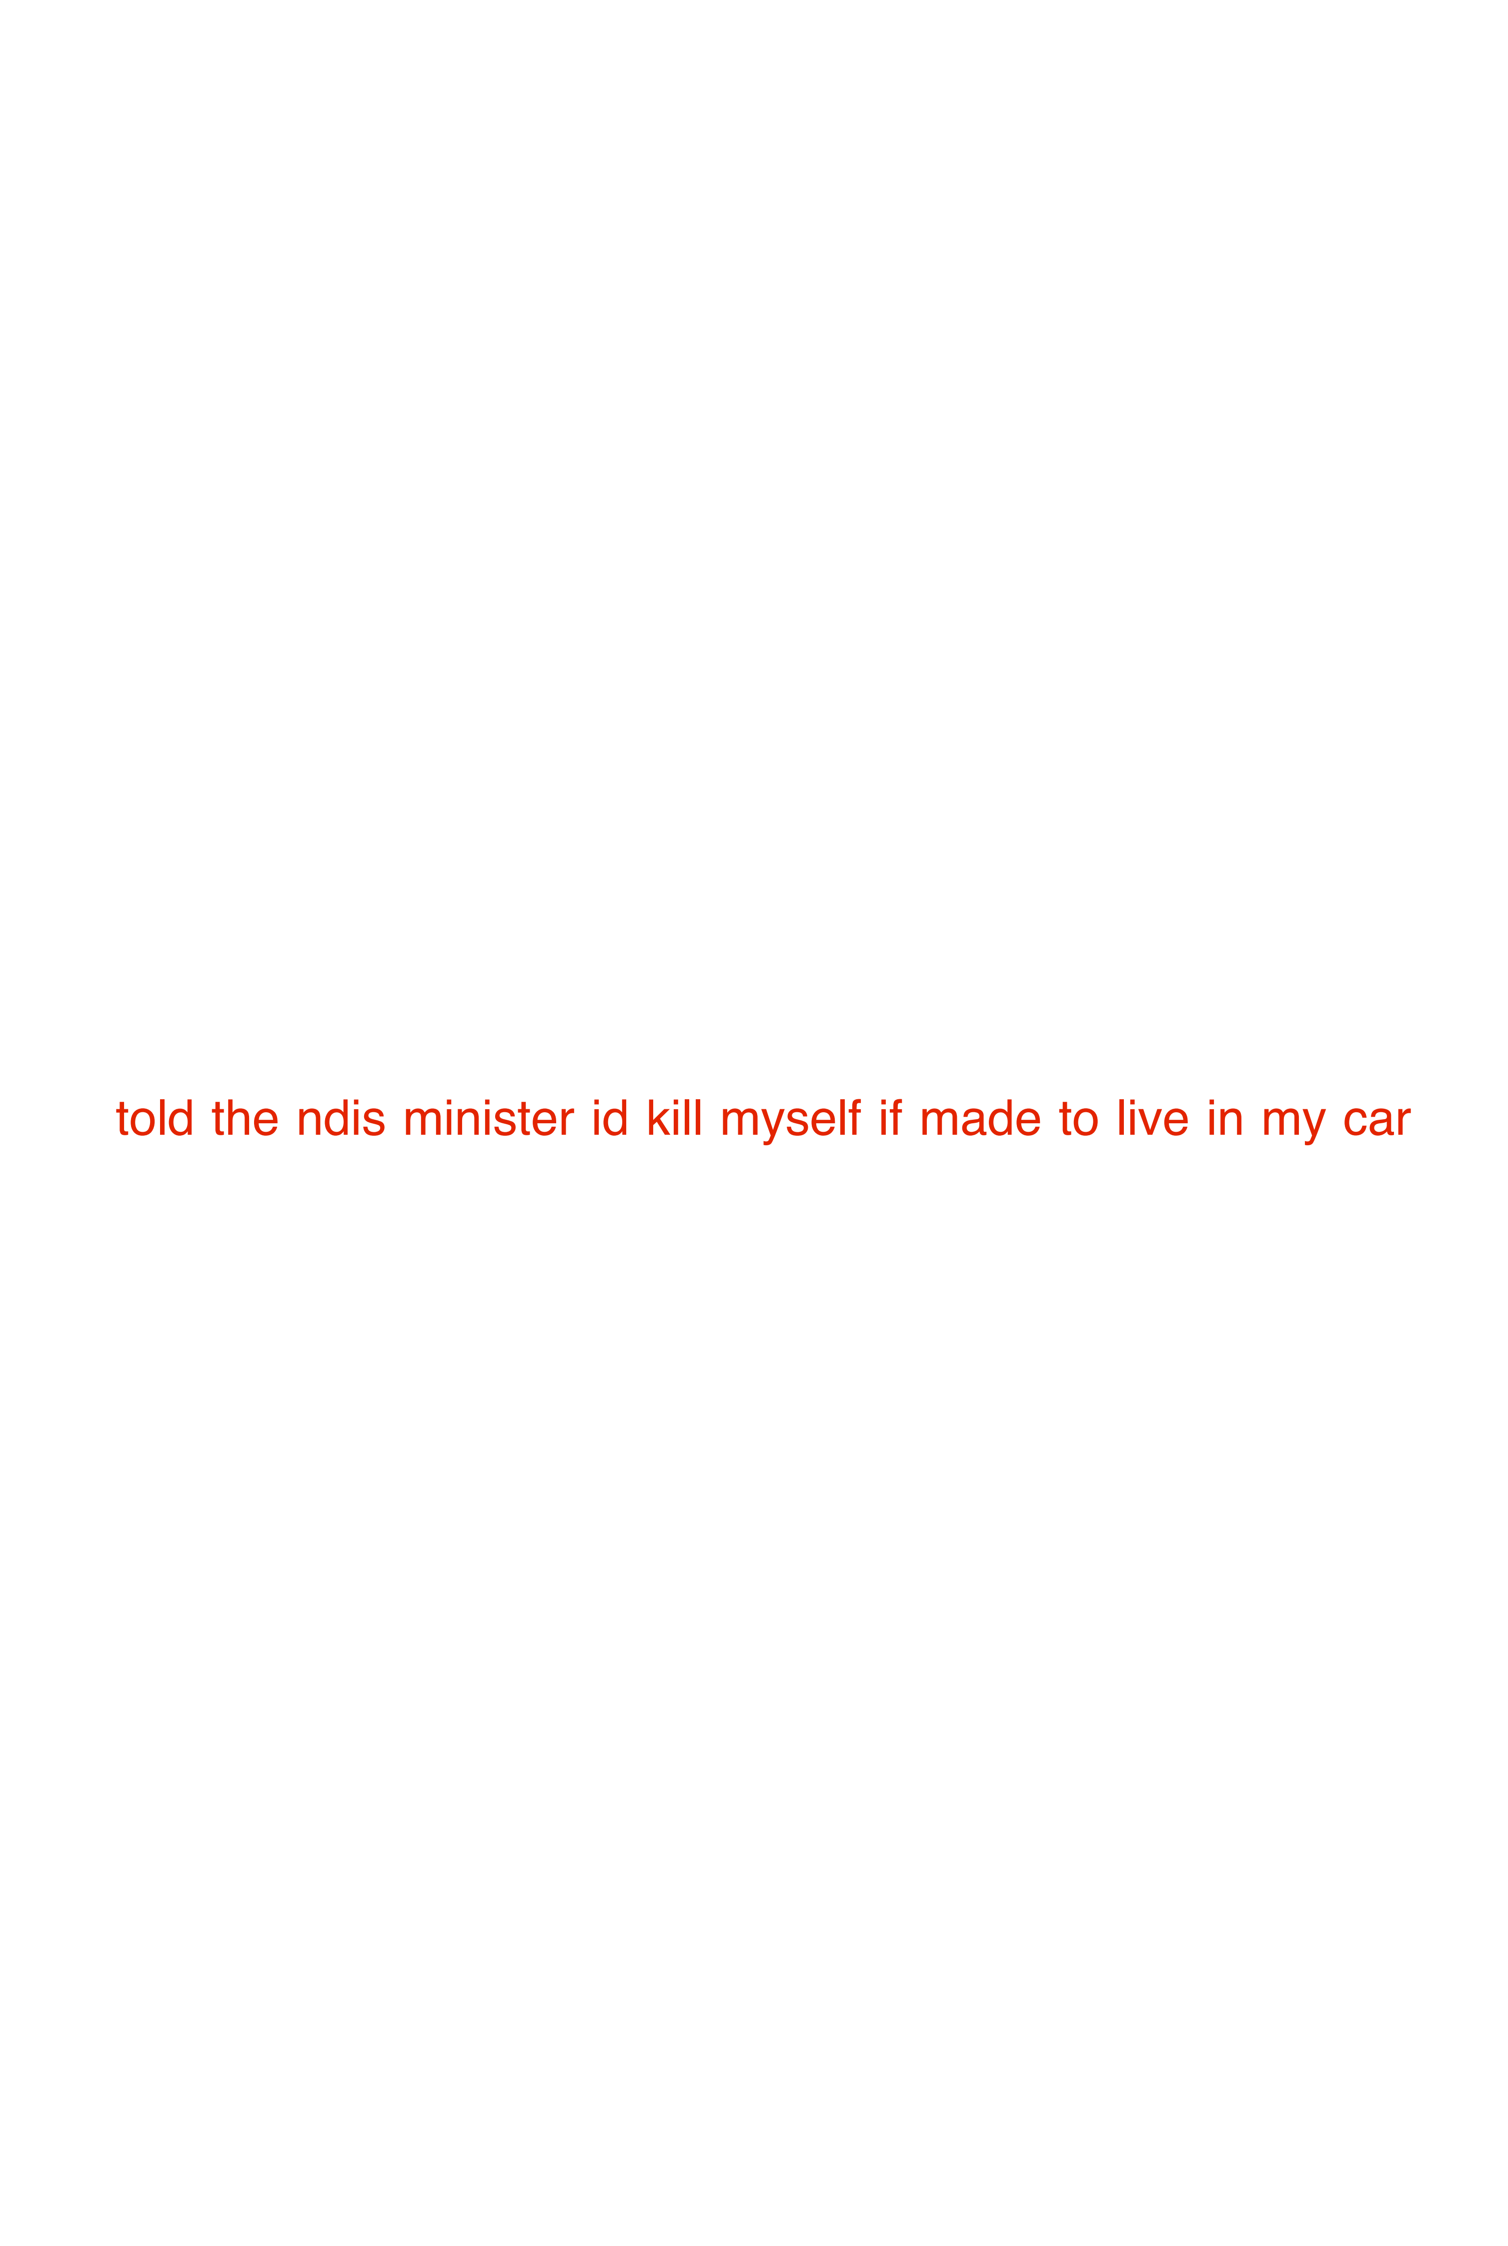

was followed by police tonight and set up in a drug deal

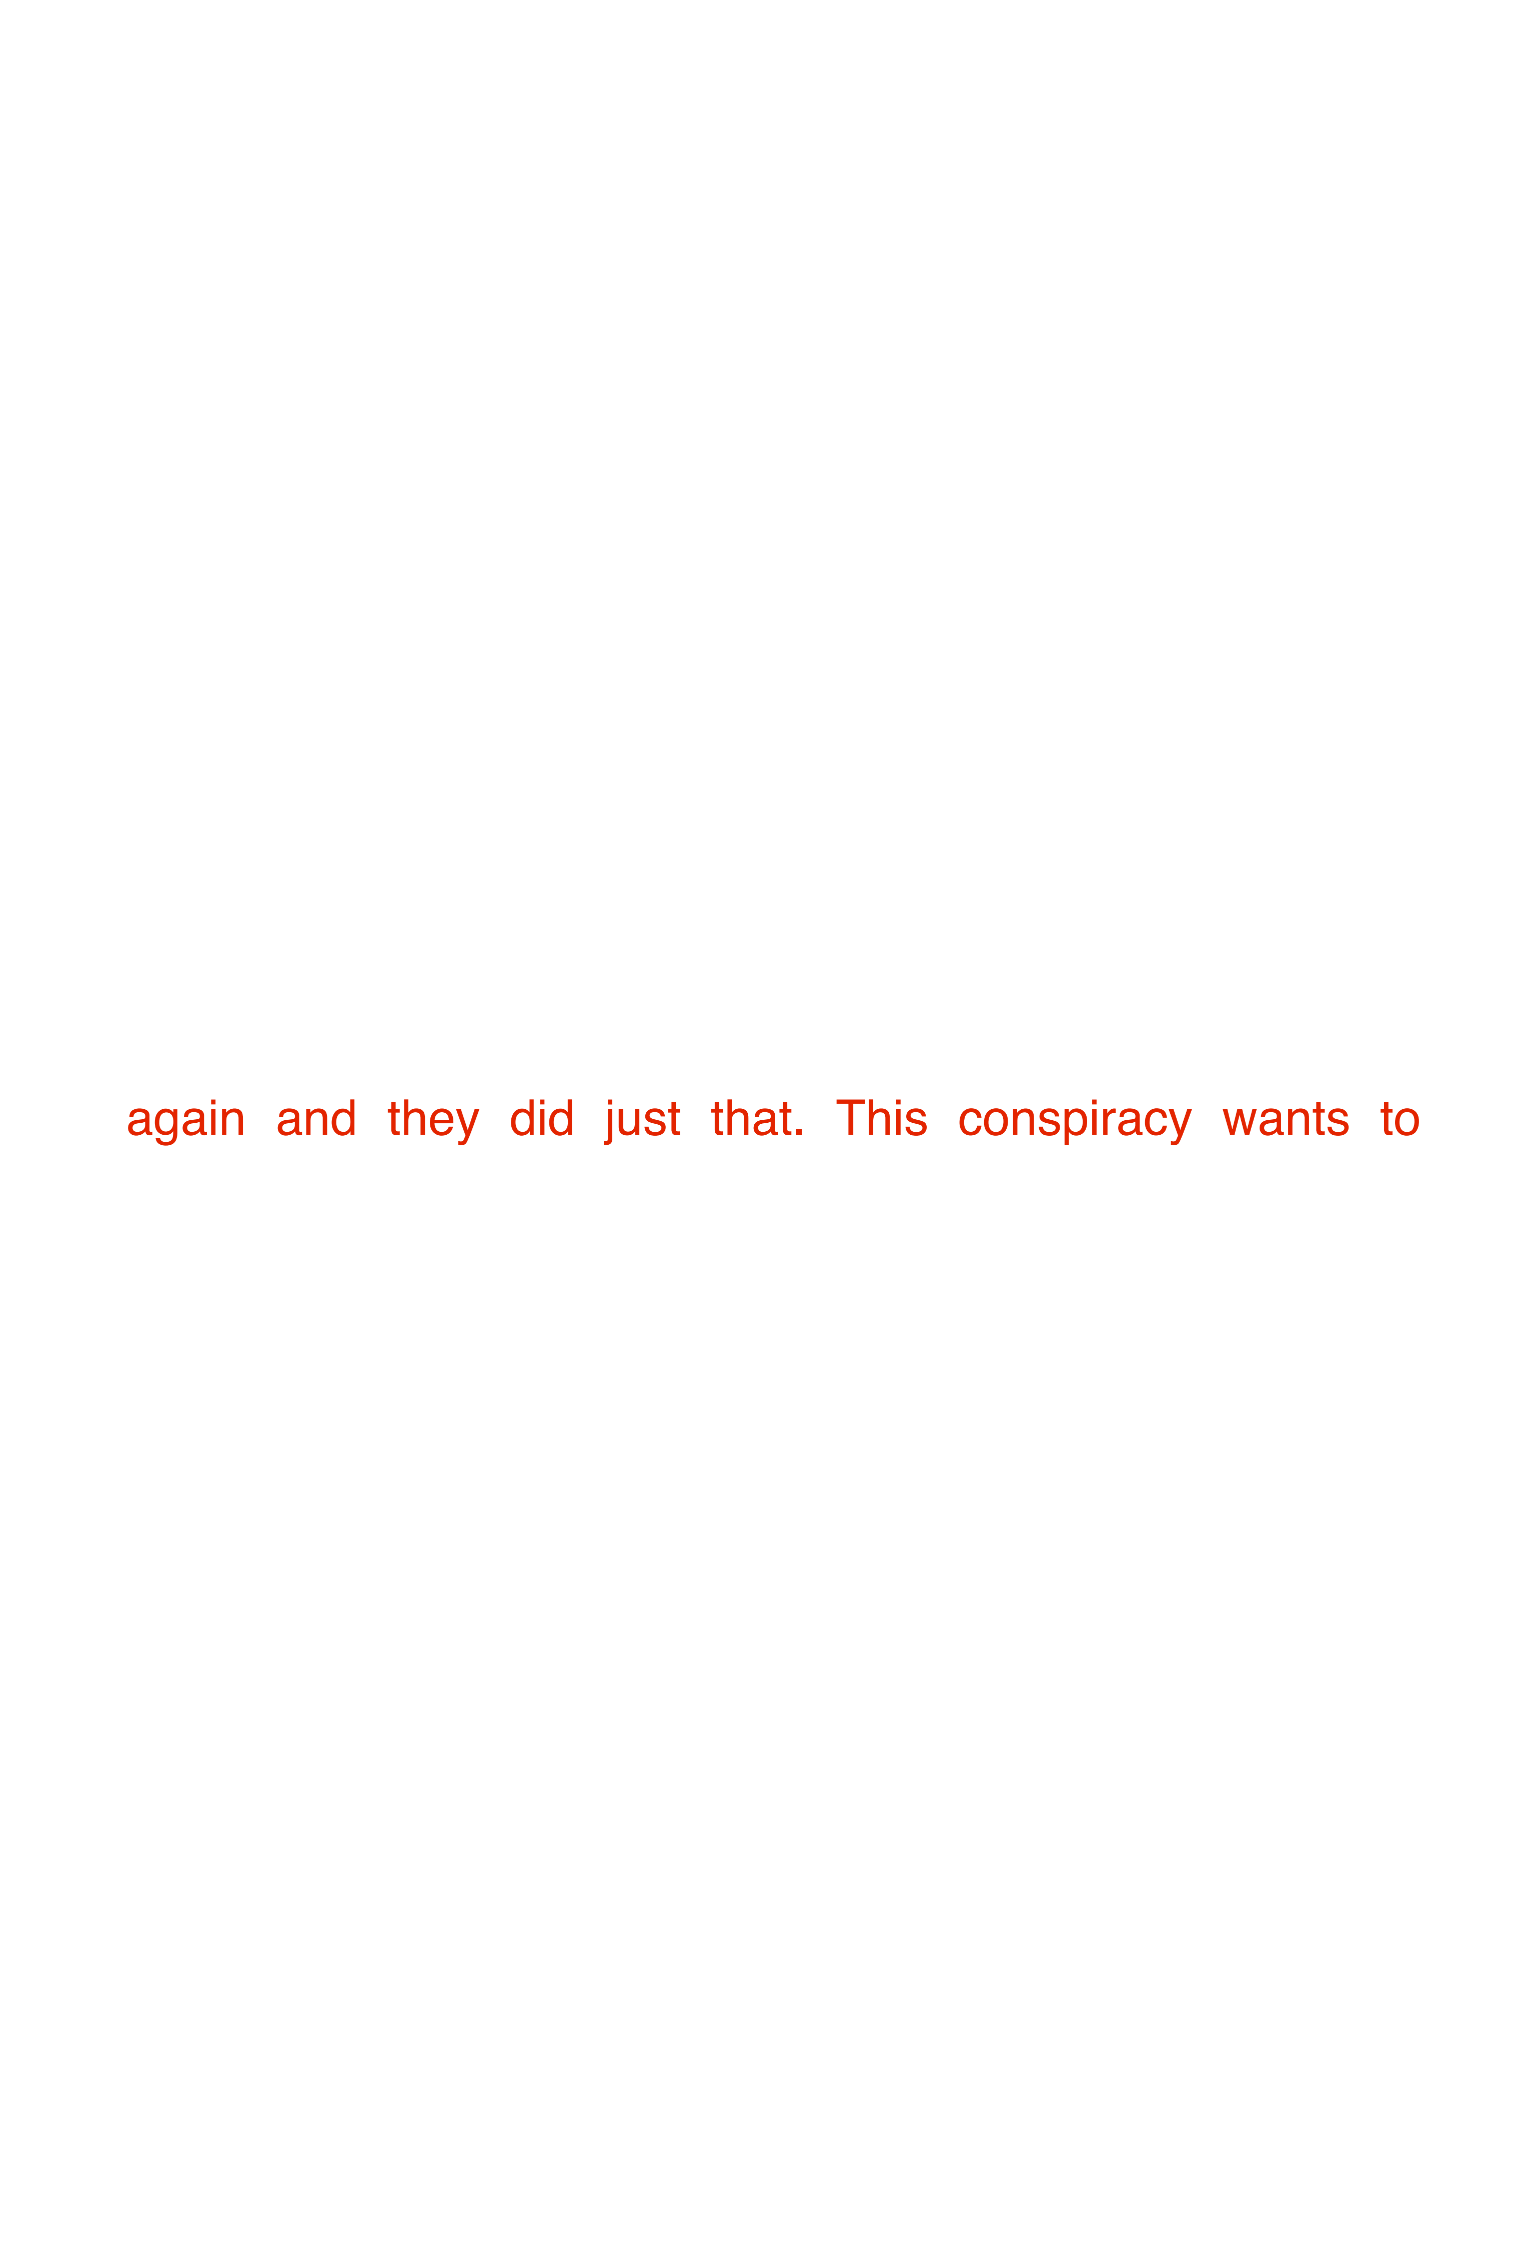

gone wrong. They harass me with audio - horrible voices

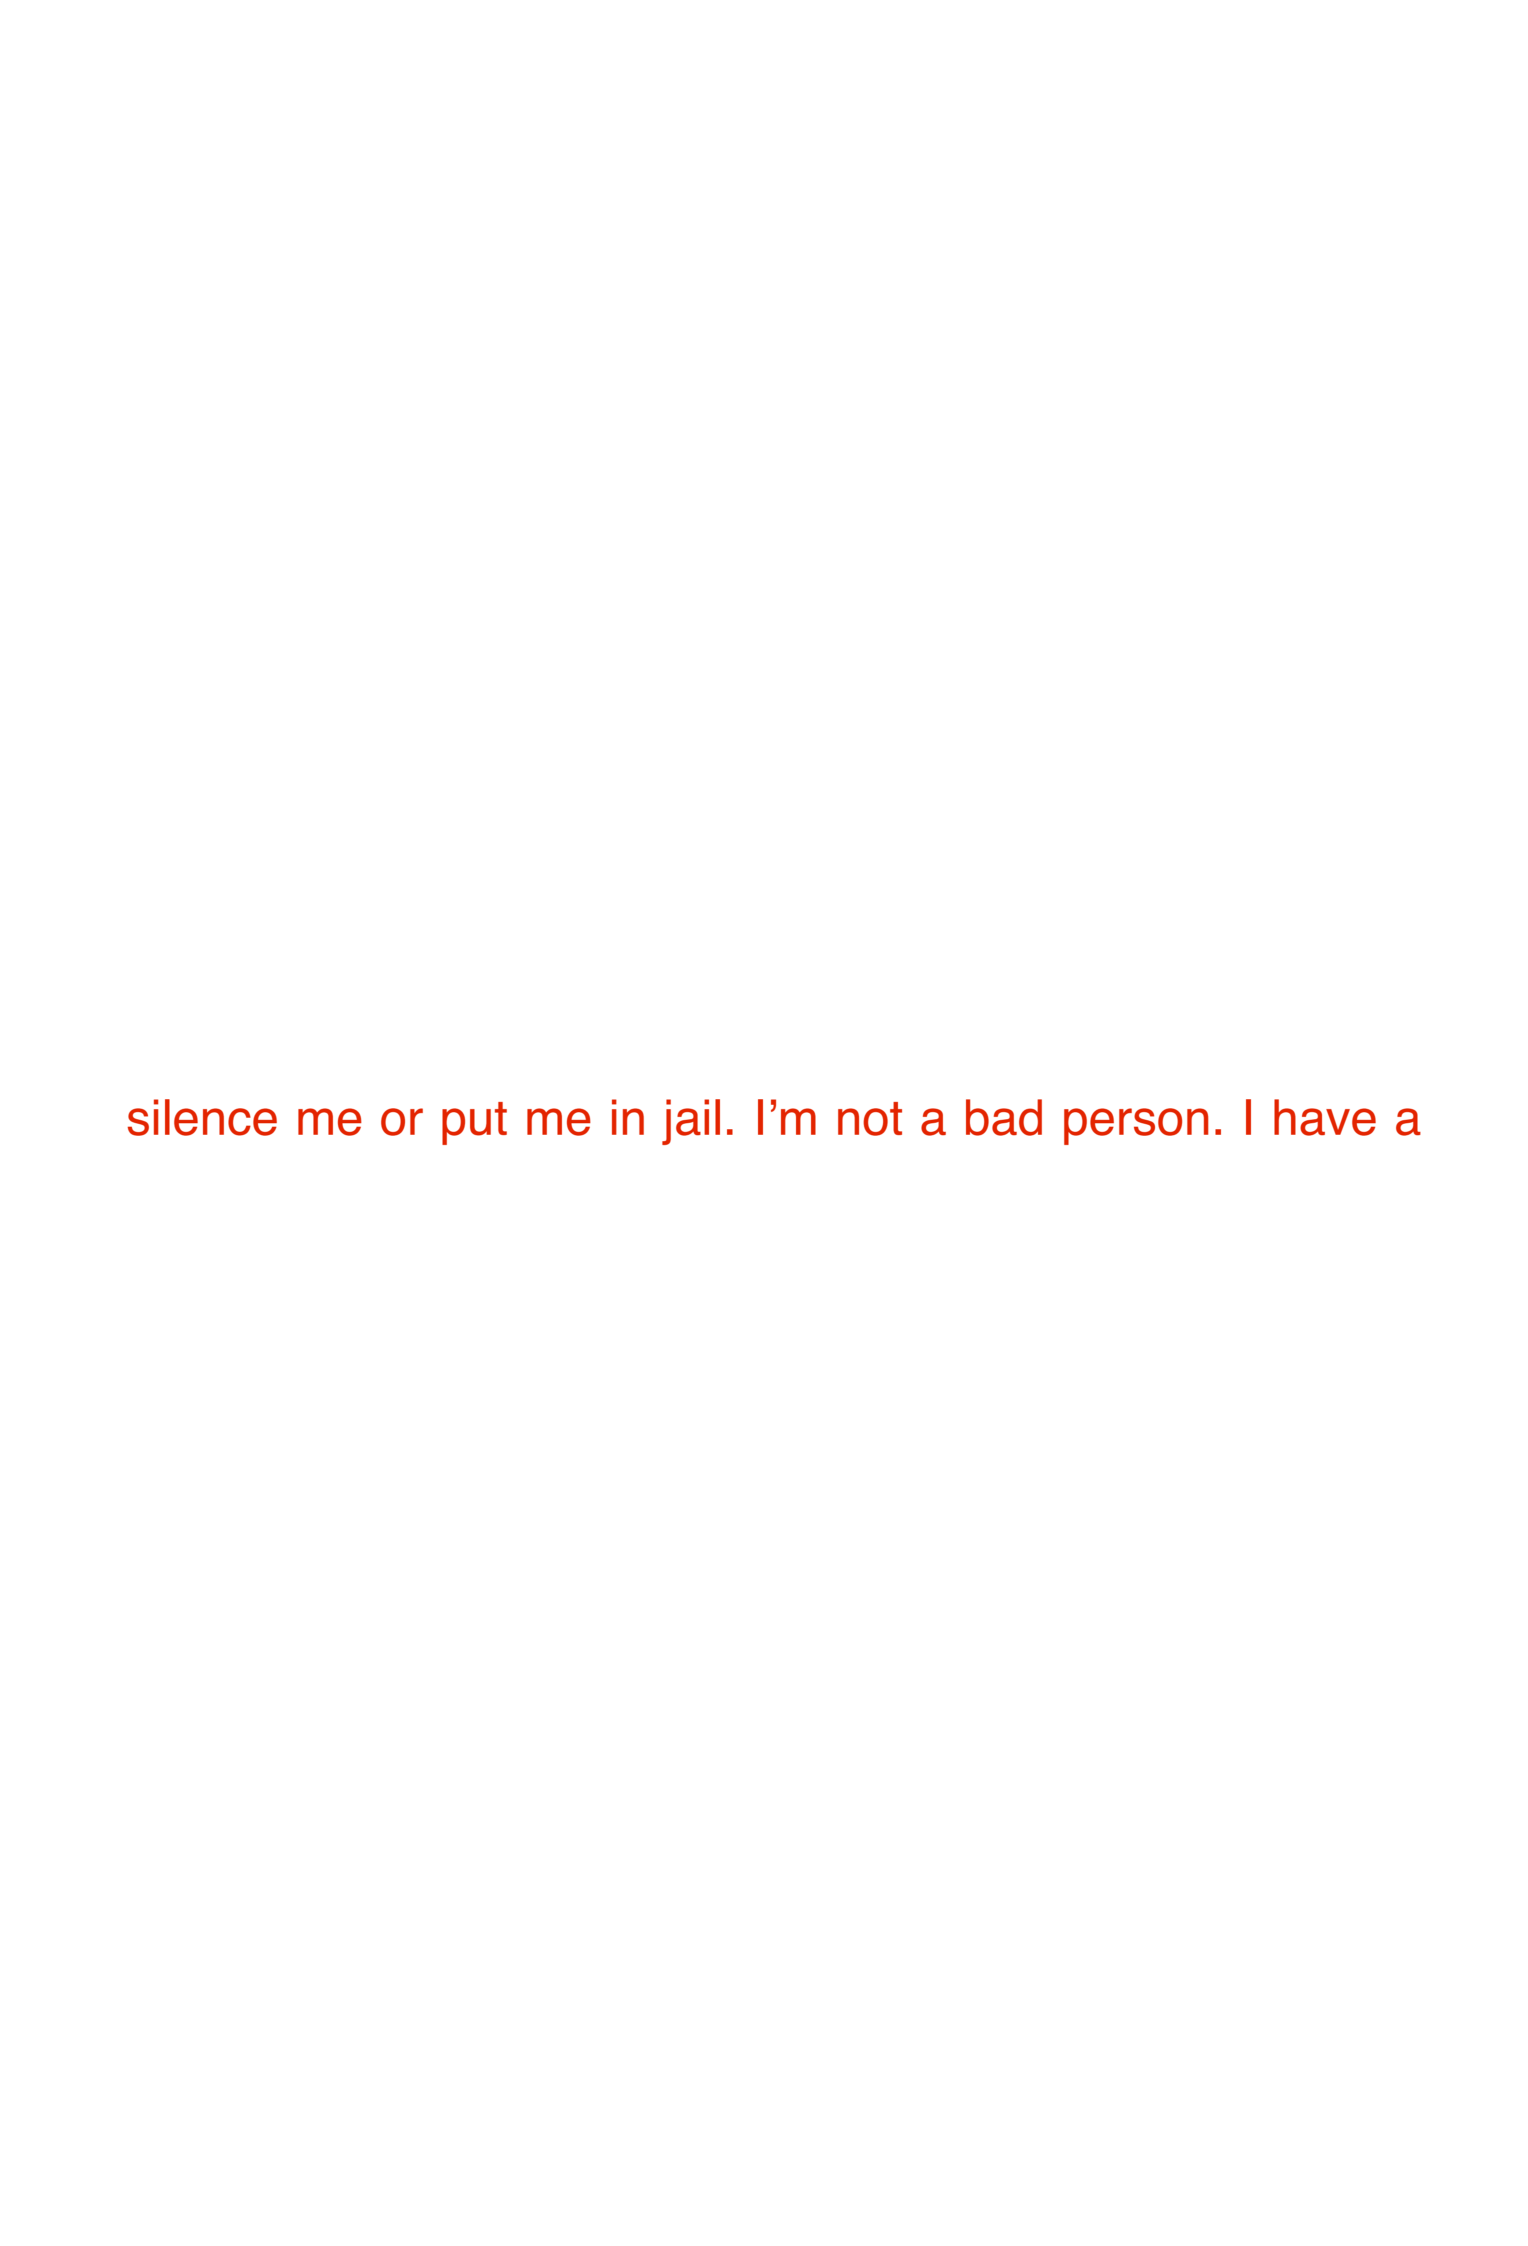

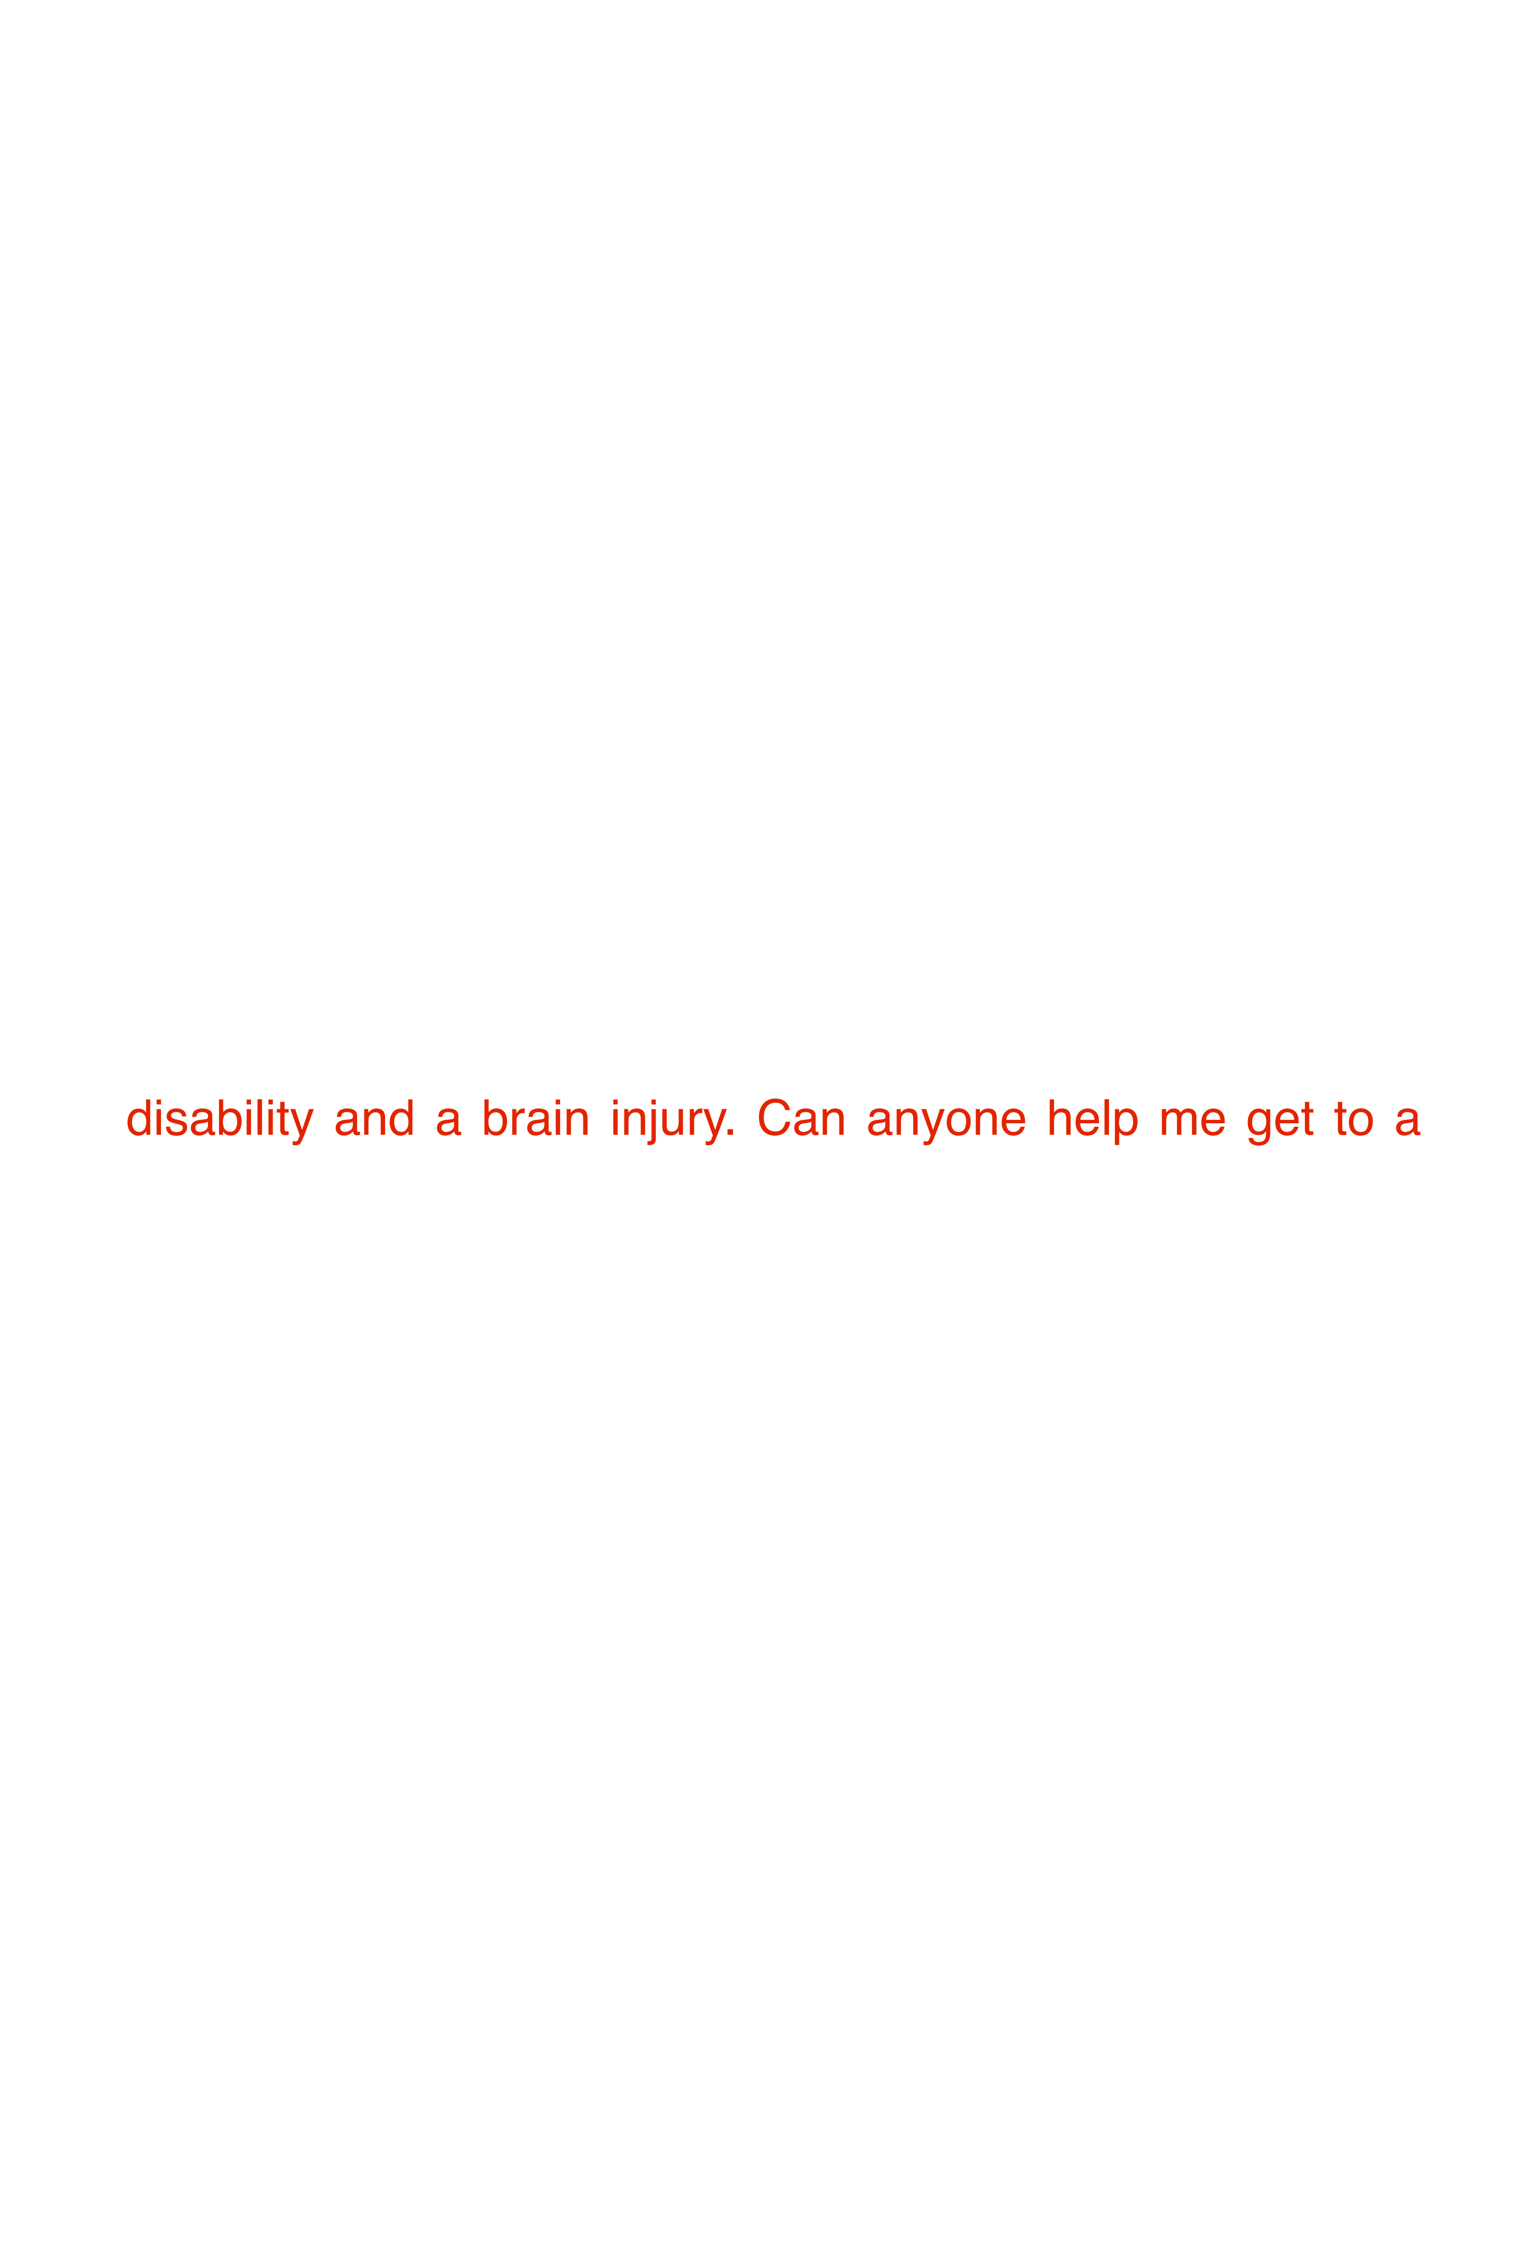

meant to mimic my schizophrenia. I killed myself from this

abuse five years ago and have lived homeless ever since. I

told the ndis minister id kill myself if made to live in my car

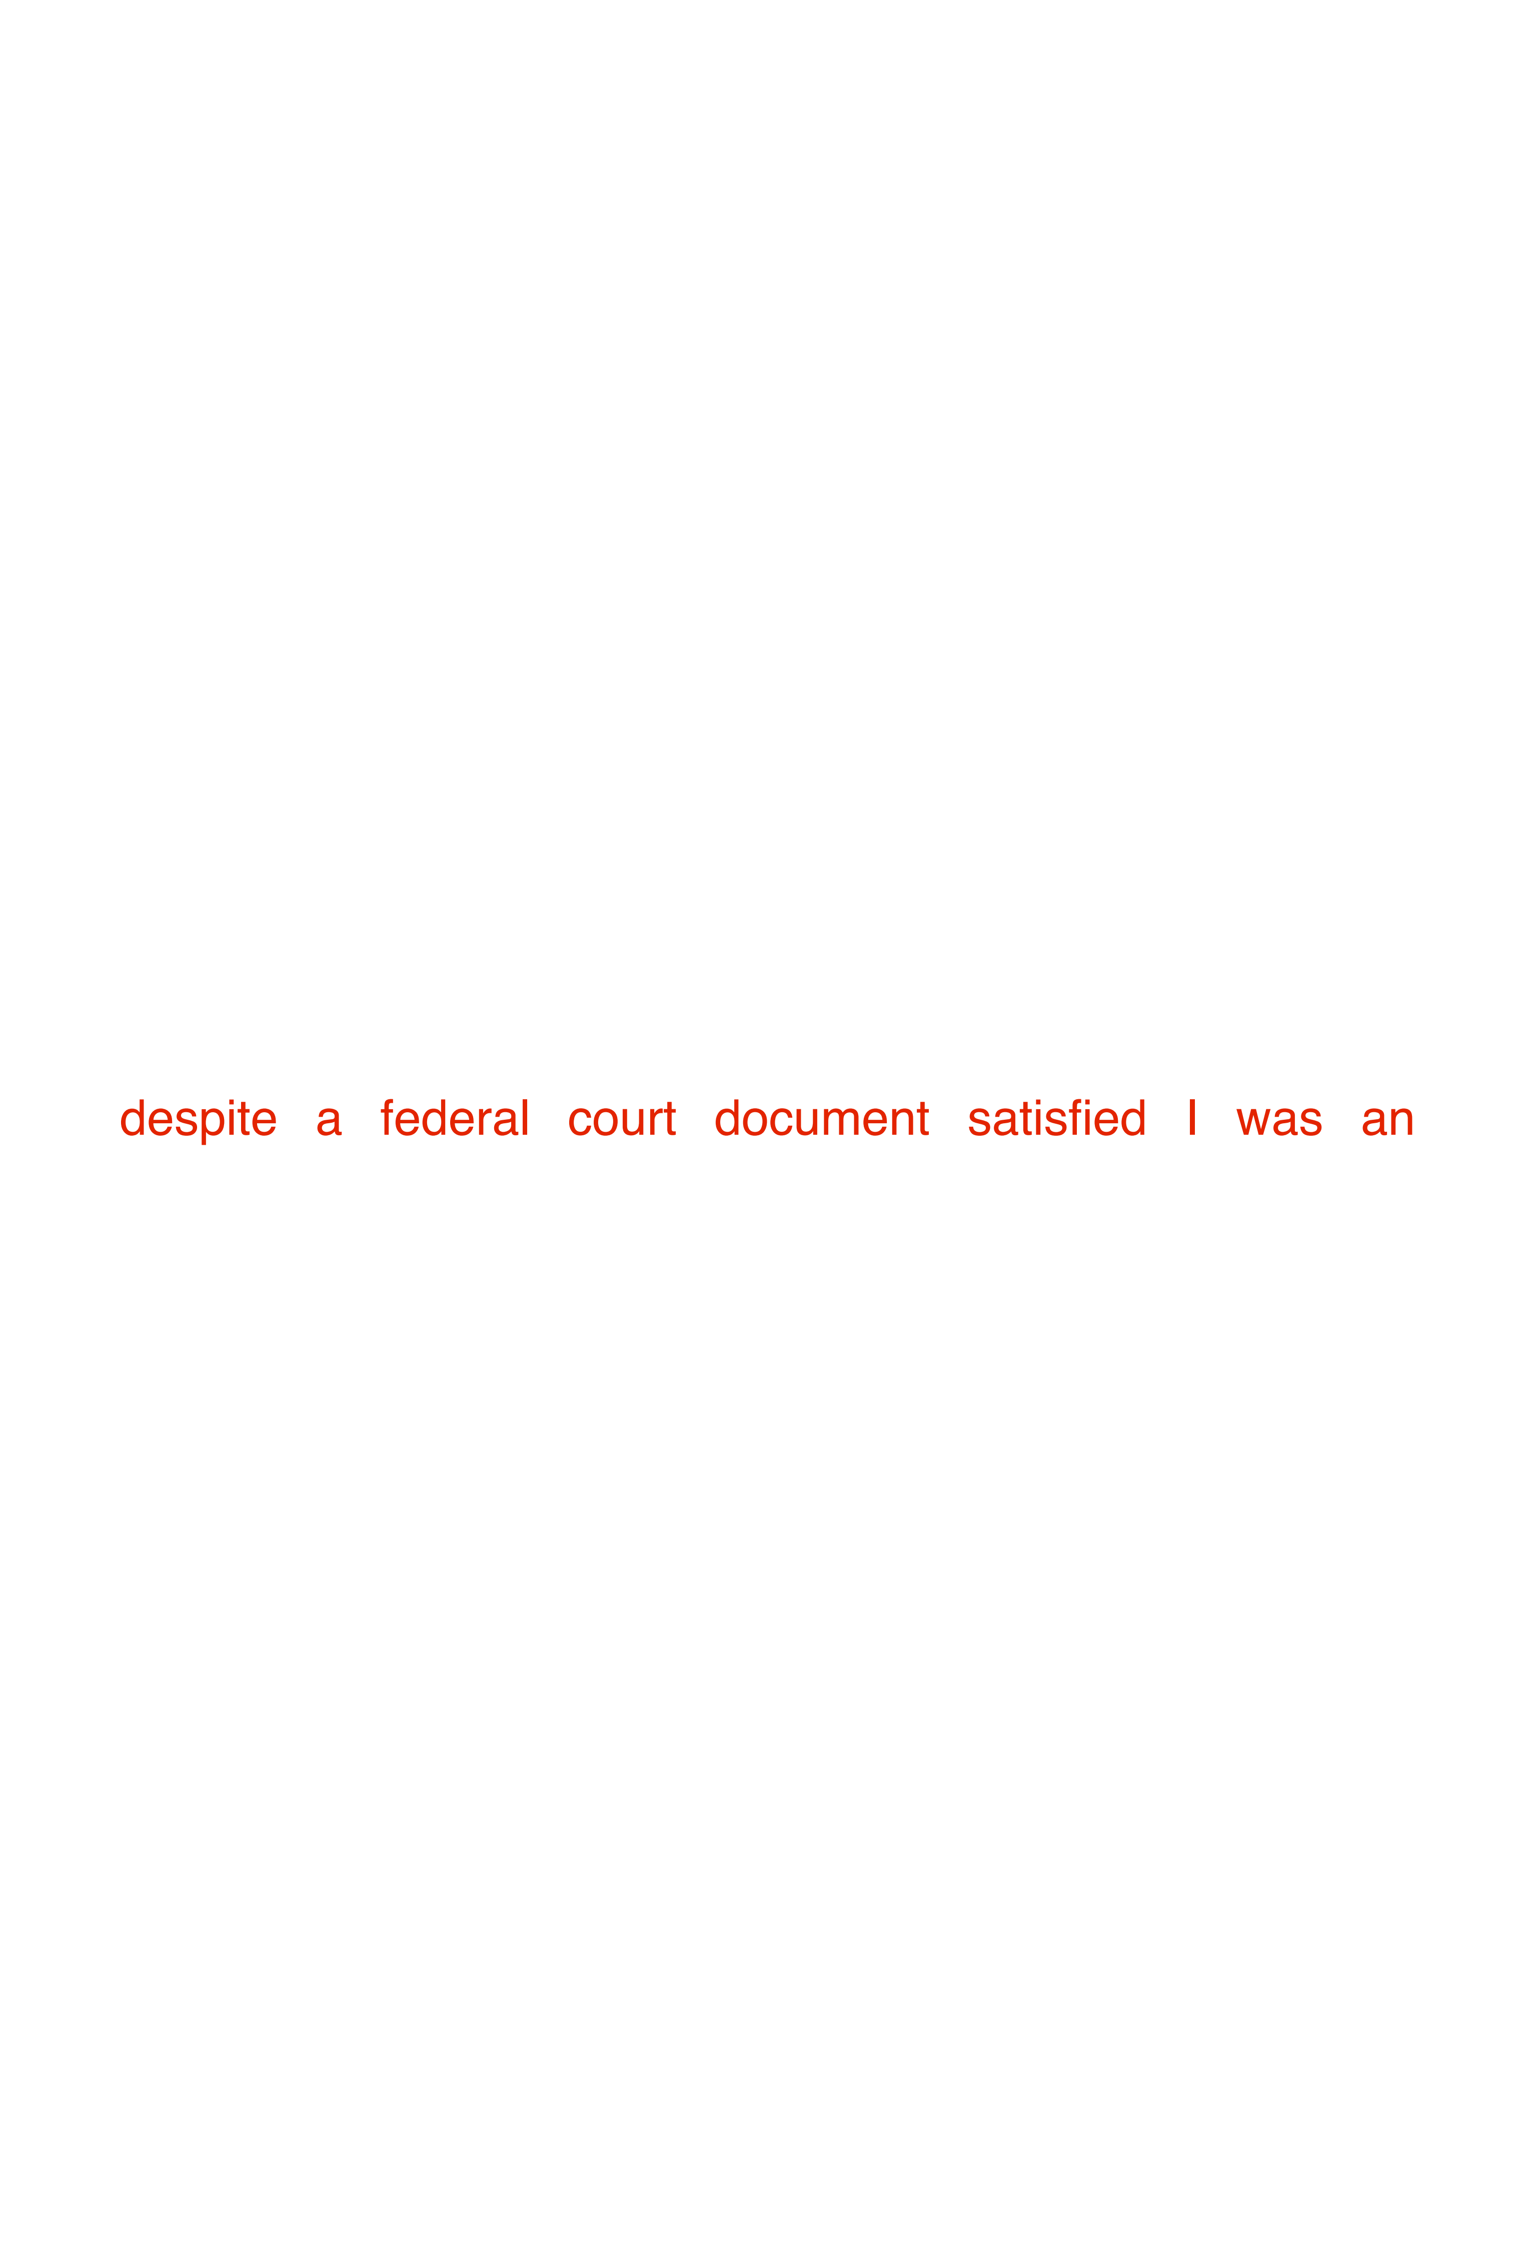

again and they did just that. This conspiracy wants to

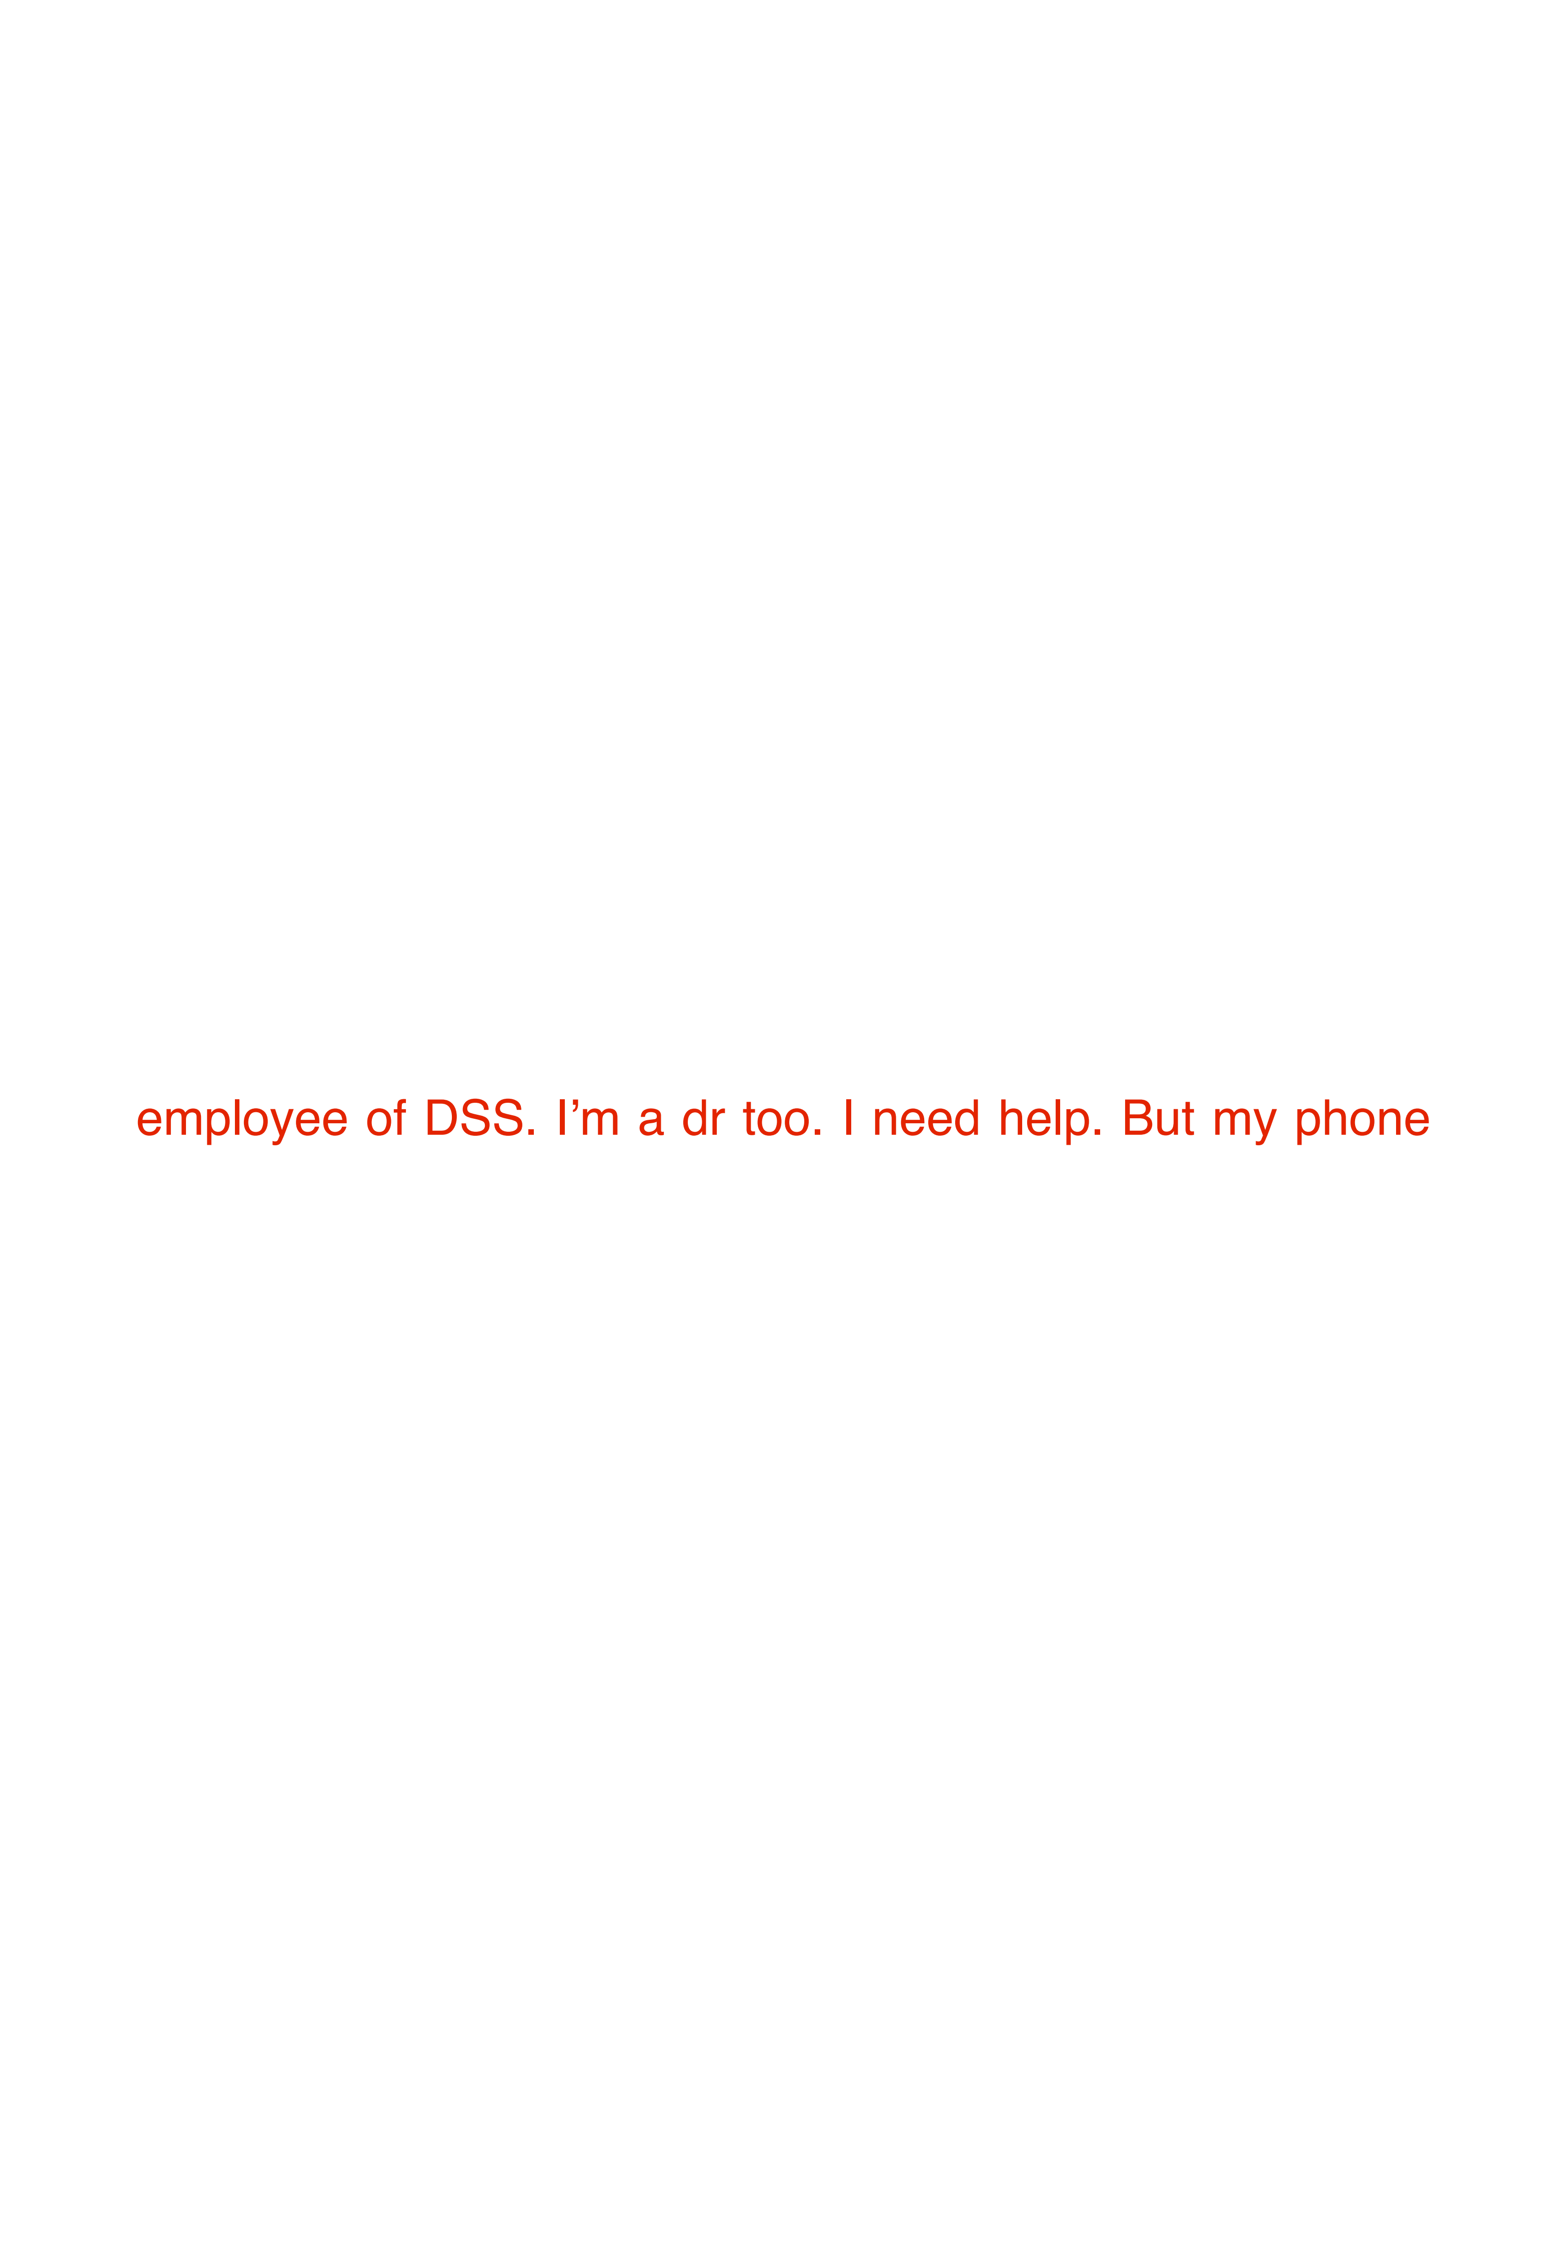

silence me or put me in jail. I’m not a bad person. I have a

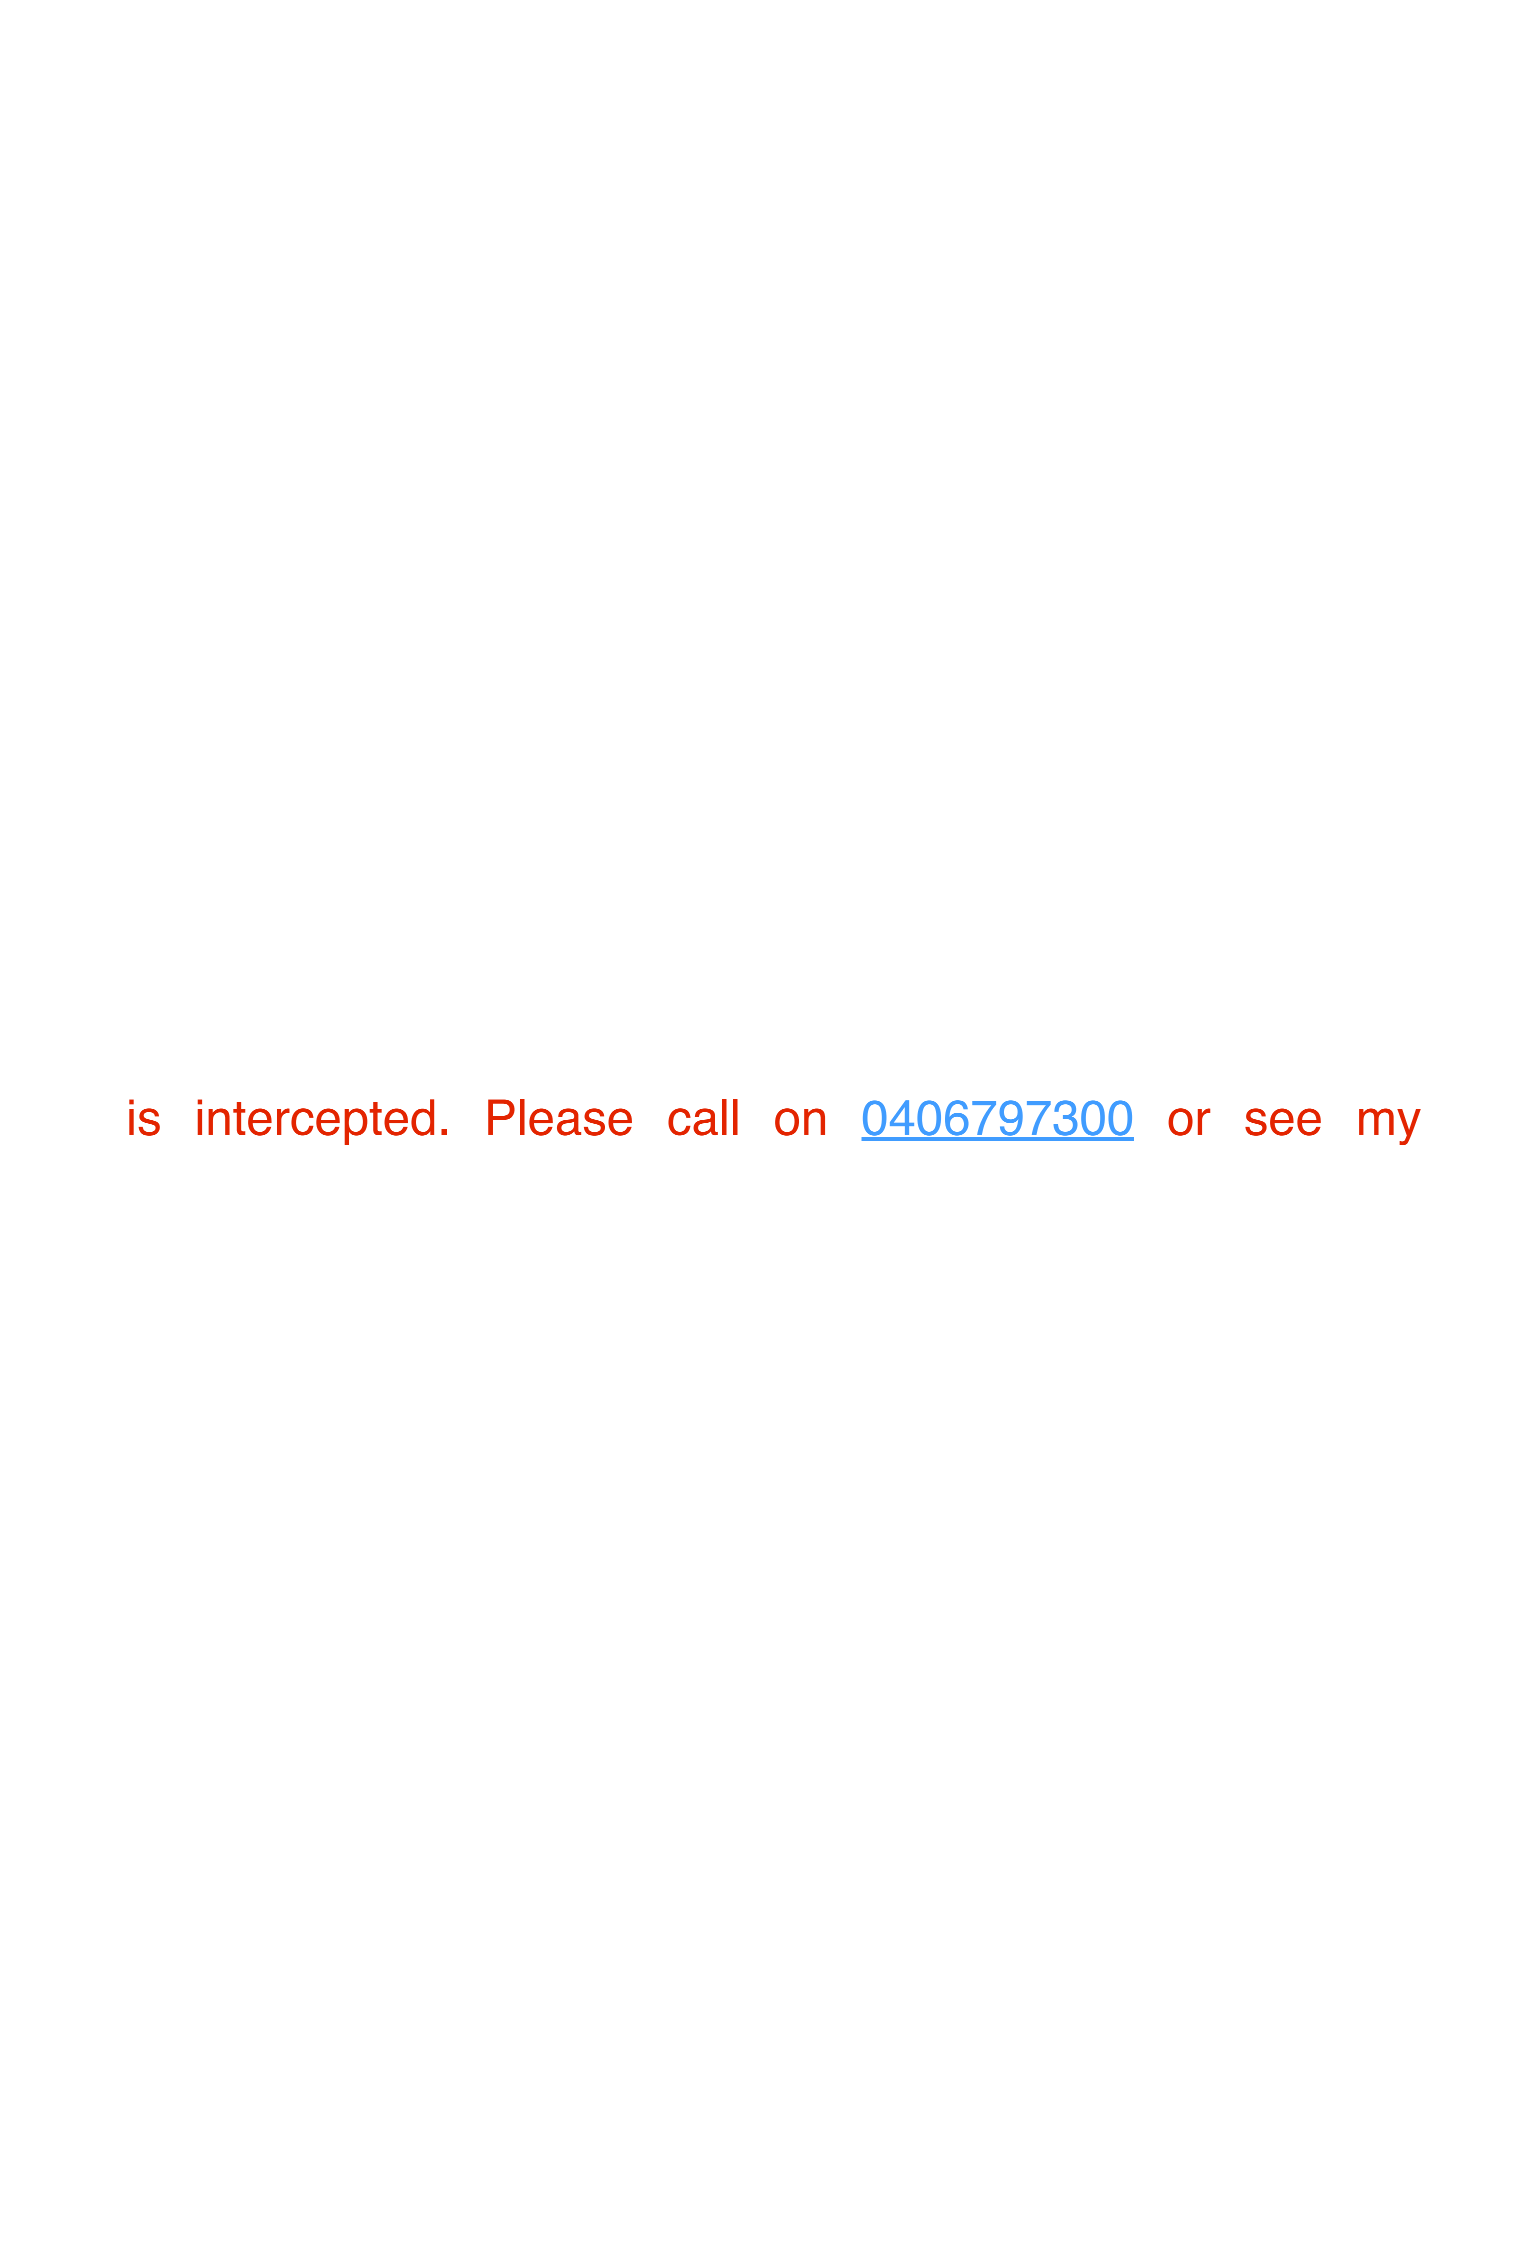

disability and a brain injury. Can anyone help me get to a

safe place? Or my SILD reinstated? I was never paid

workcover because I was not considered an employee

despite a federal court document satisfied I was an

employee of DSS. I’m a dr too. I need help. But my phone

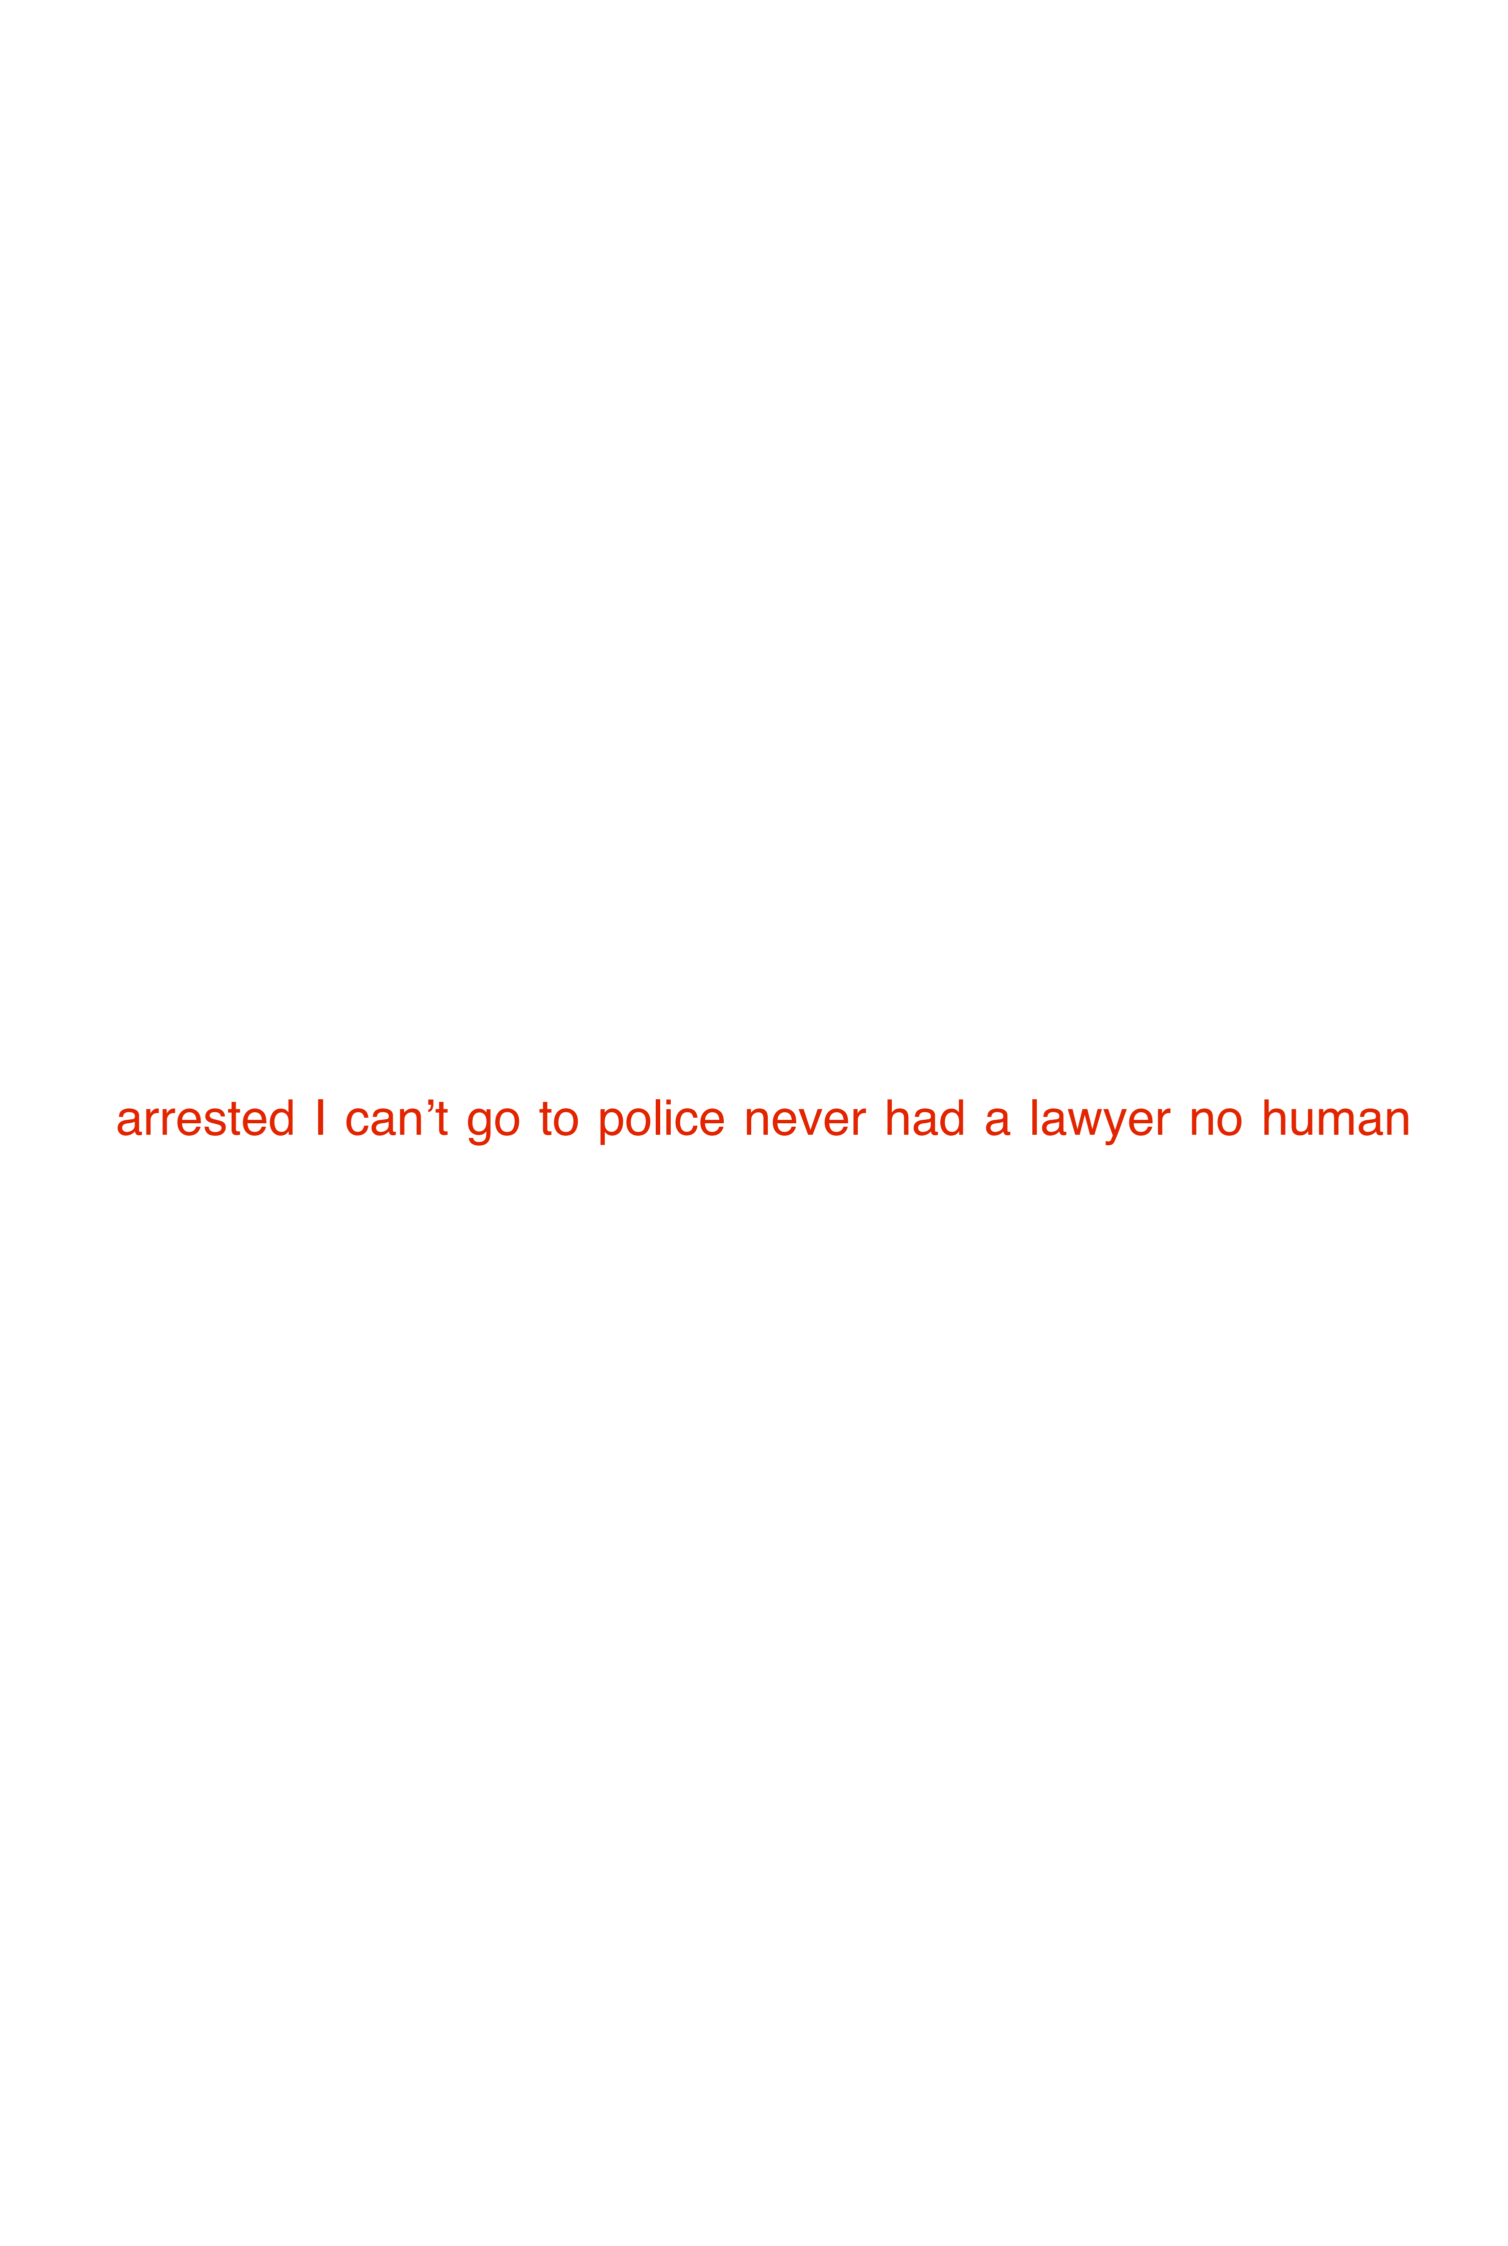

is intercepted. Please call on 0406797300 or see my

website www.barrandodger.com.au im not suicidal but

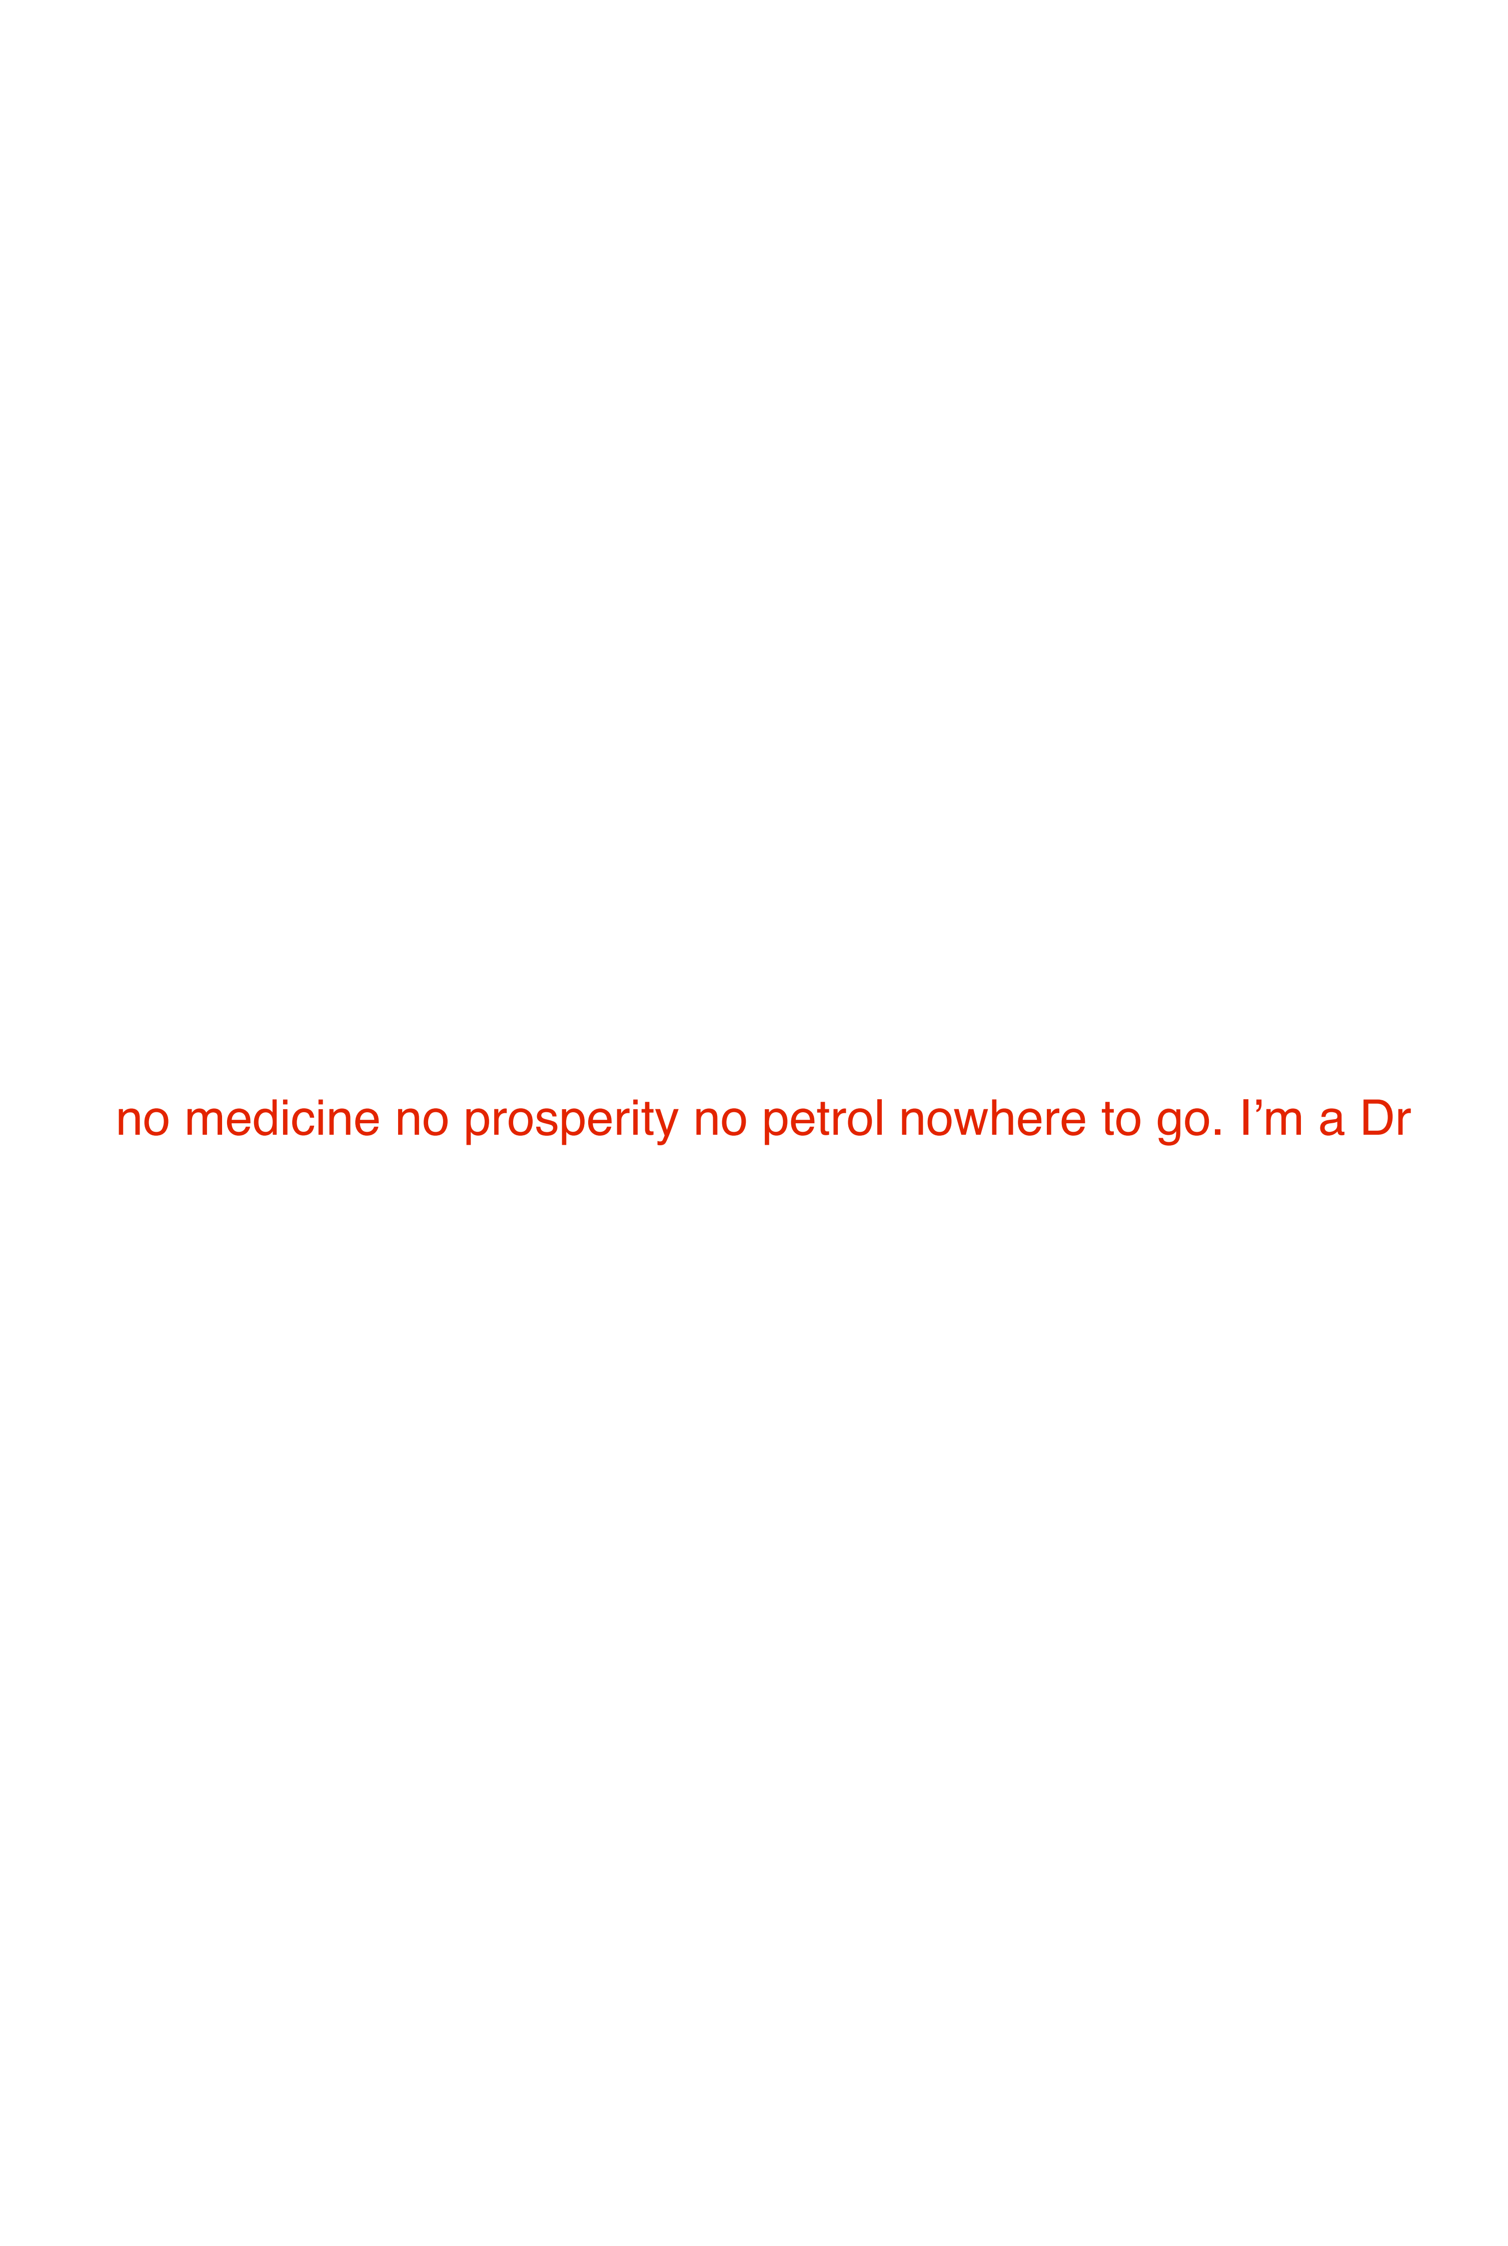

they’re killing me. Everything you heard them say about me

is wrong. Help me please

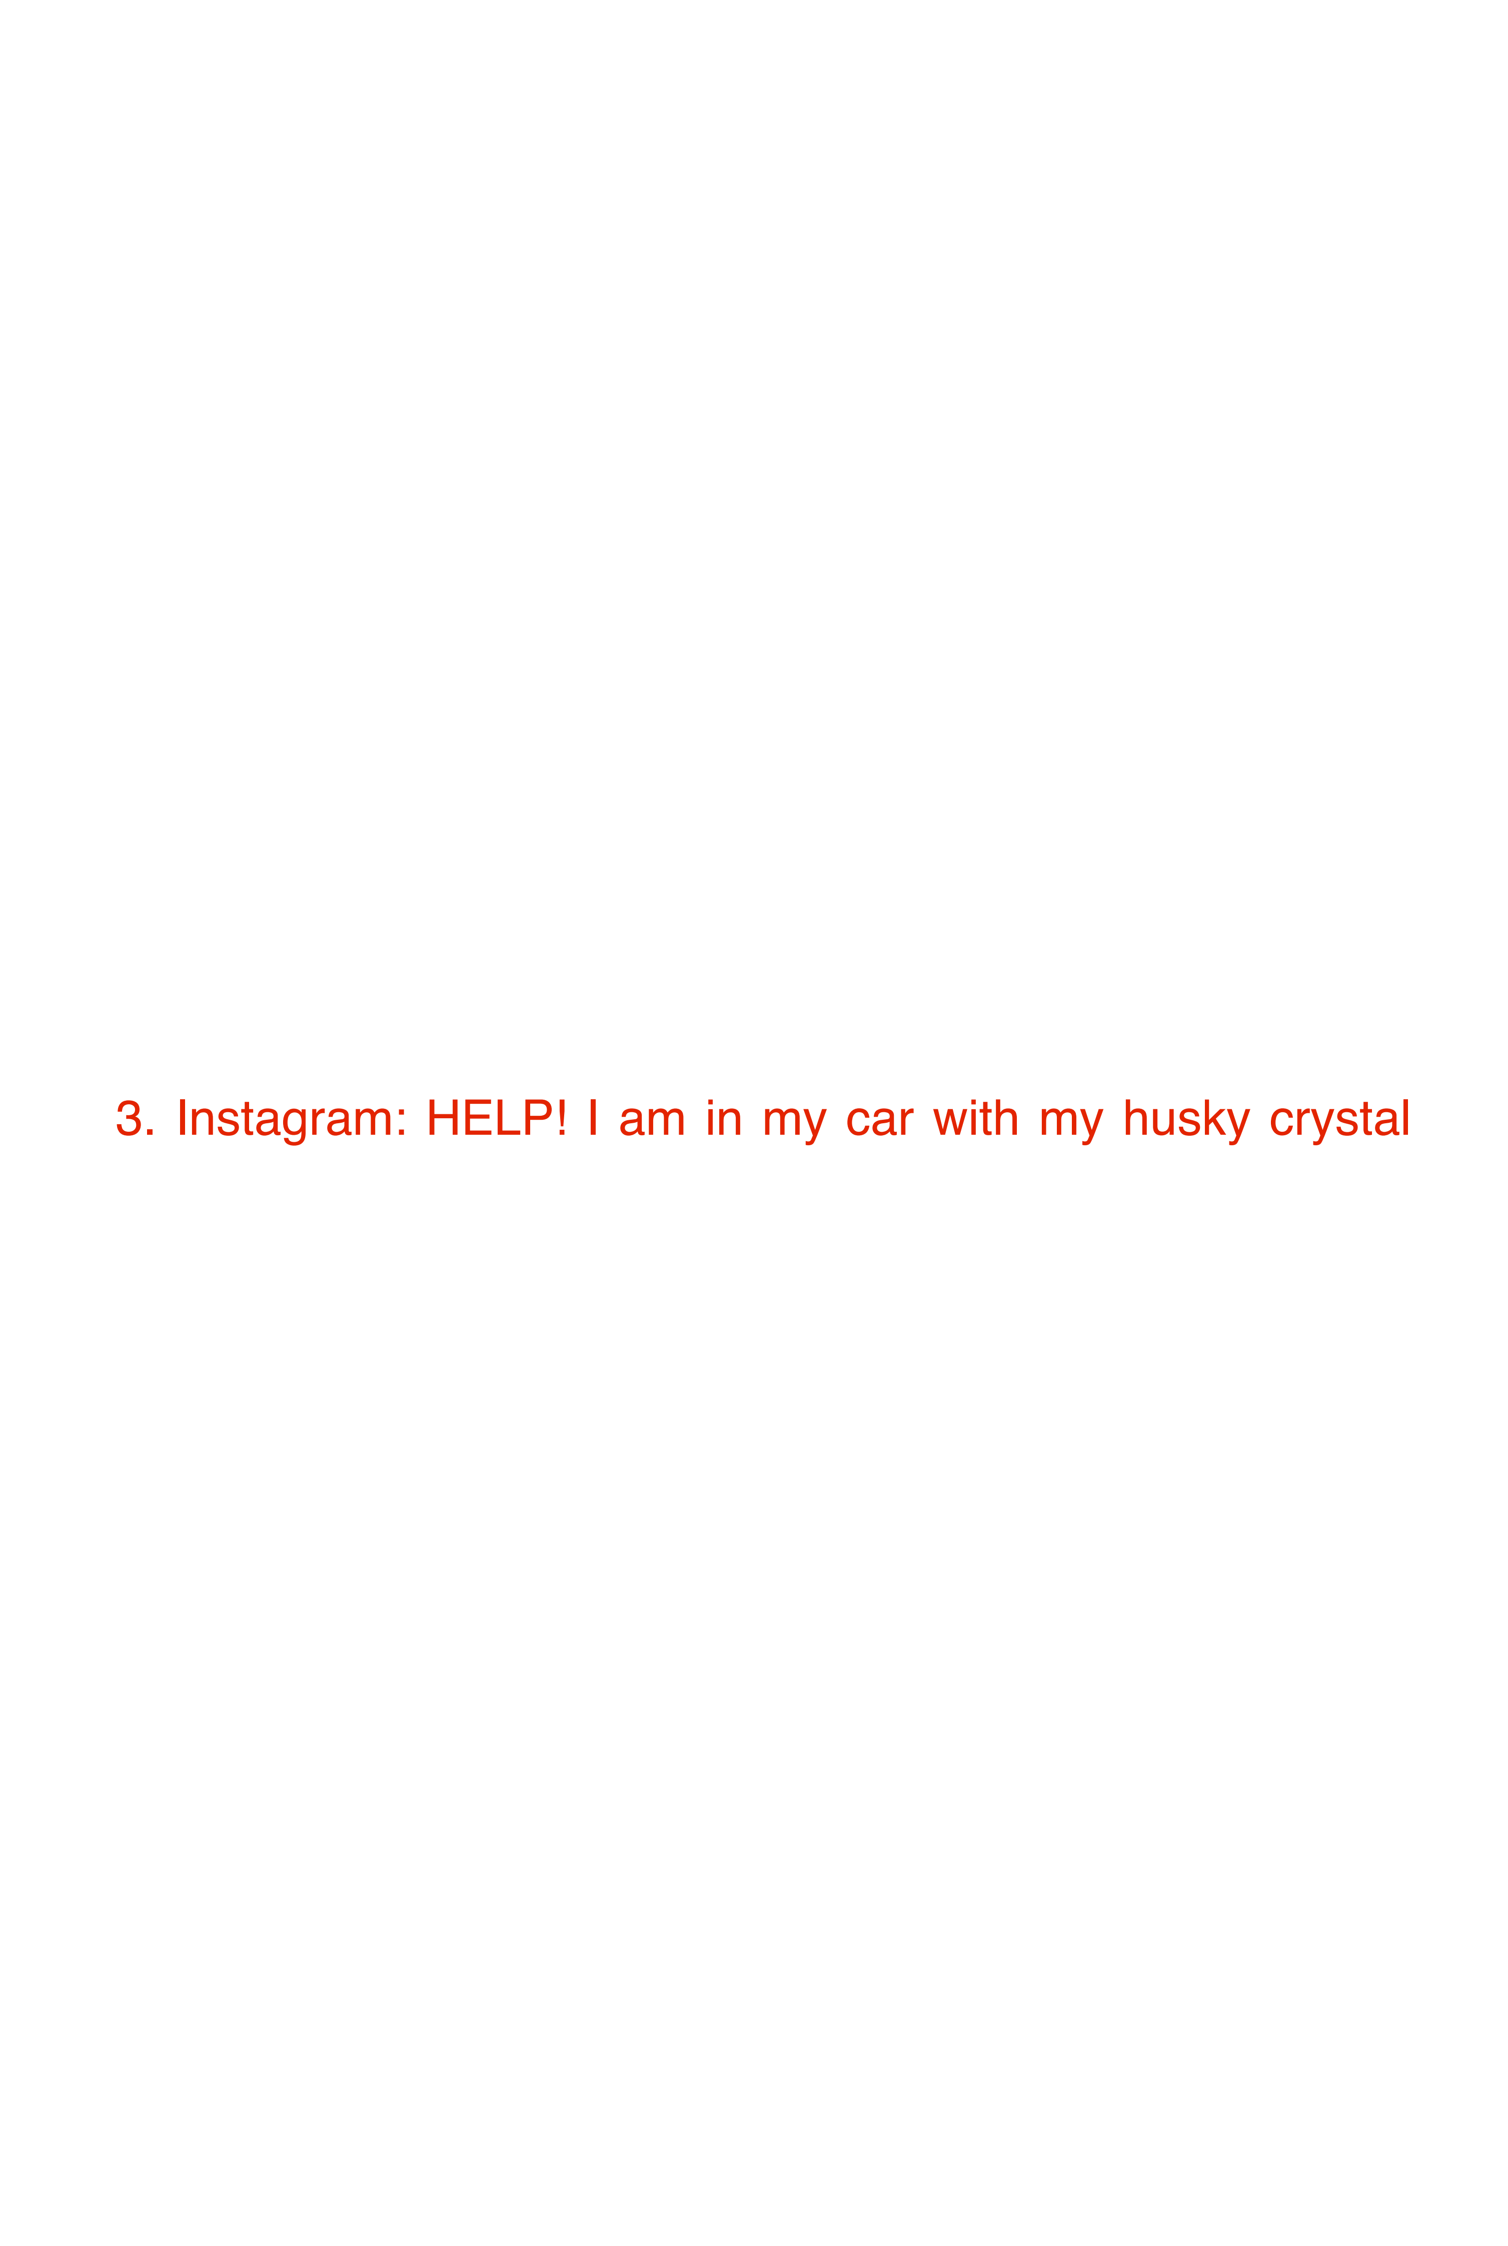

2. Grindr message: ‘In car with my dog if I go home I’m

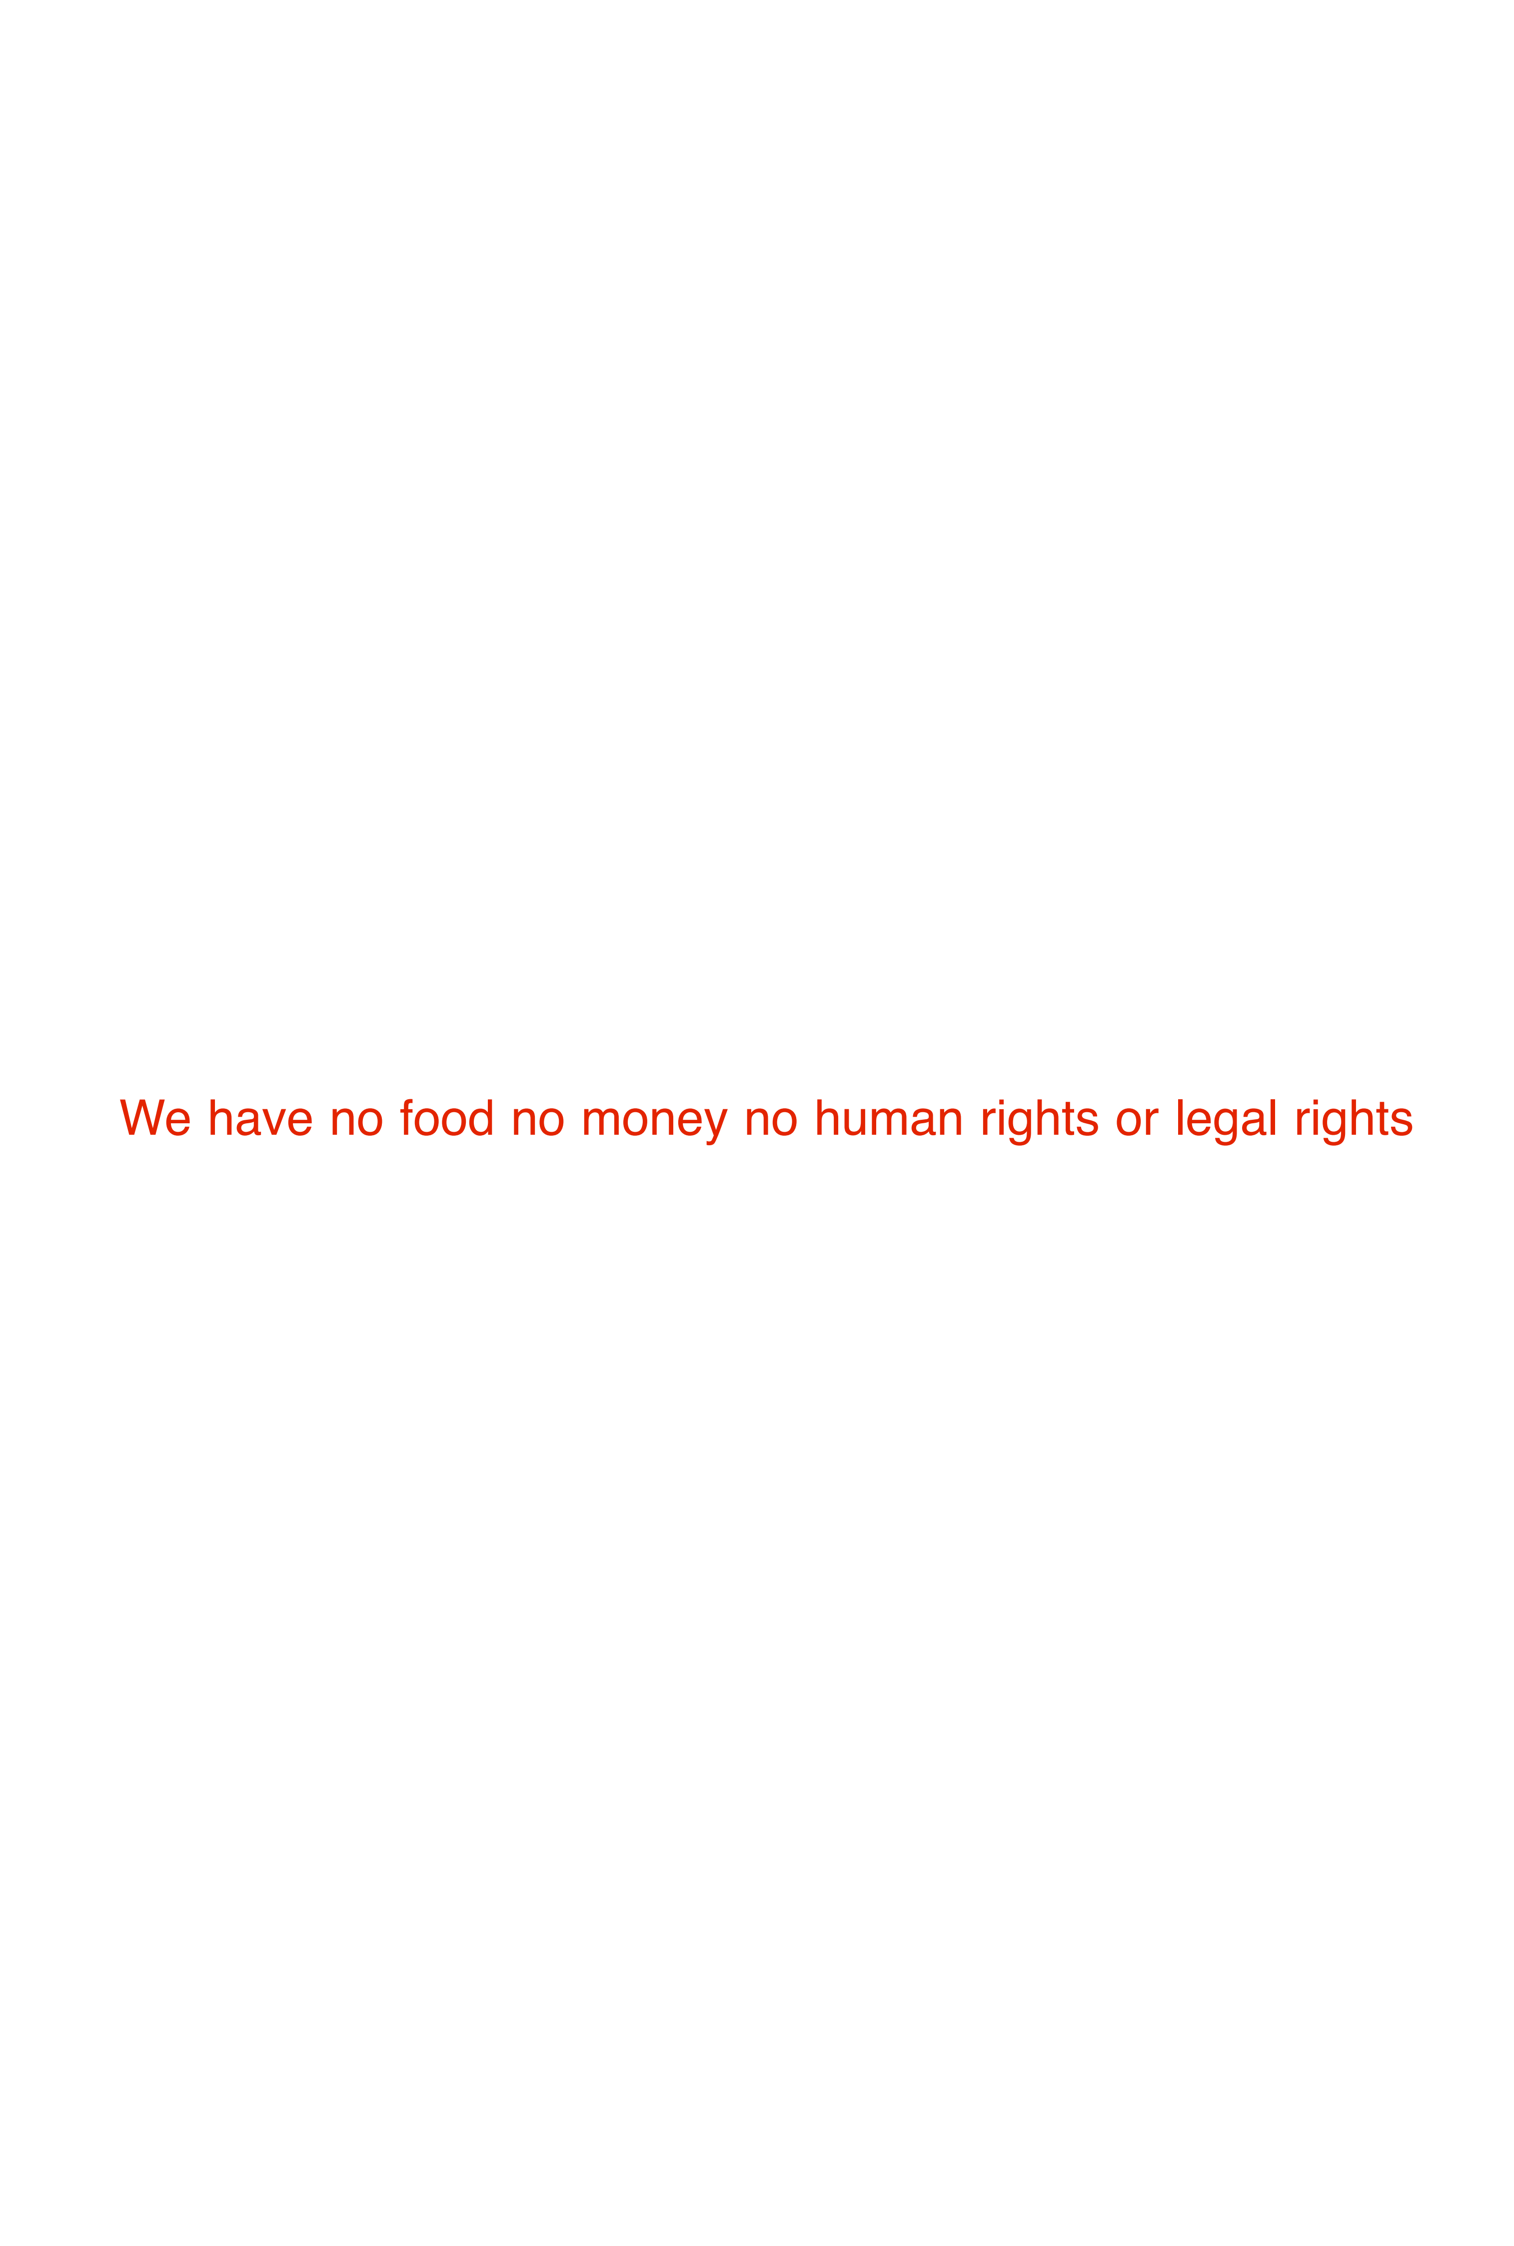

arrested I can’t go to police never had a lawyer no human

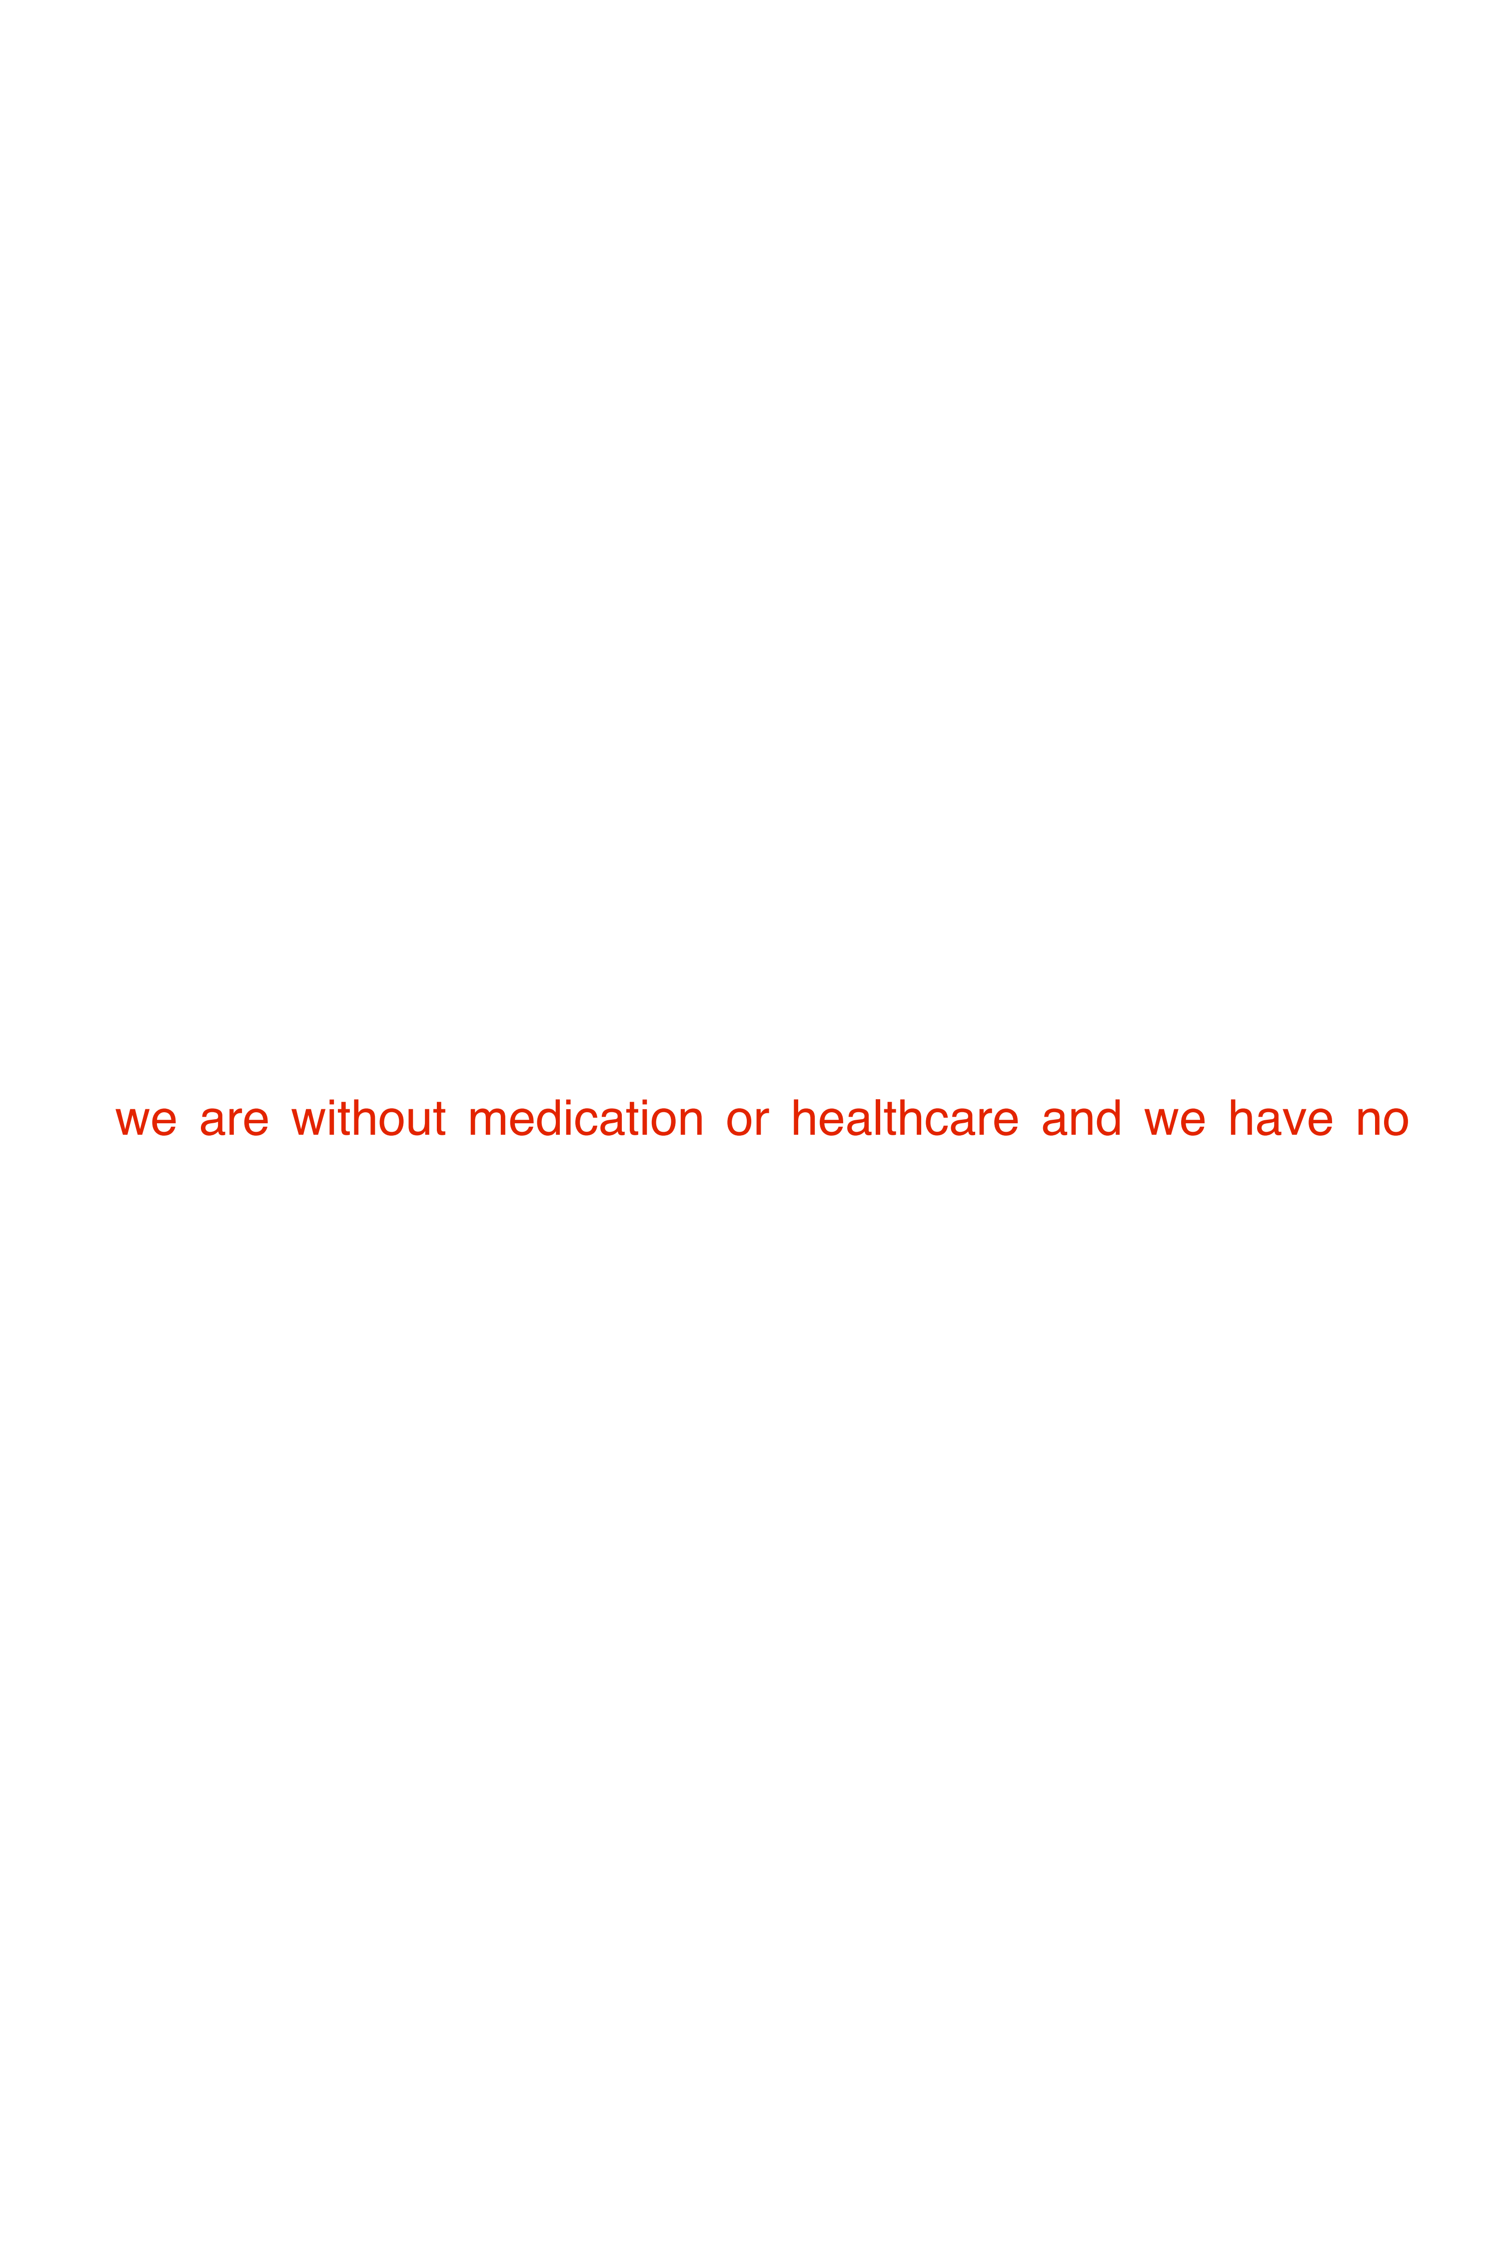

rights I’m a scapegoat rejected whistleblower. I’ve no food

no medicine no prosperity no petrol nowhere to go. I’m a Dr

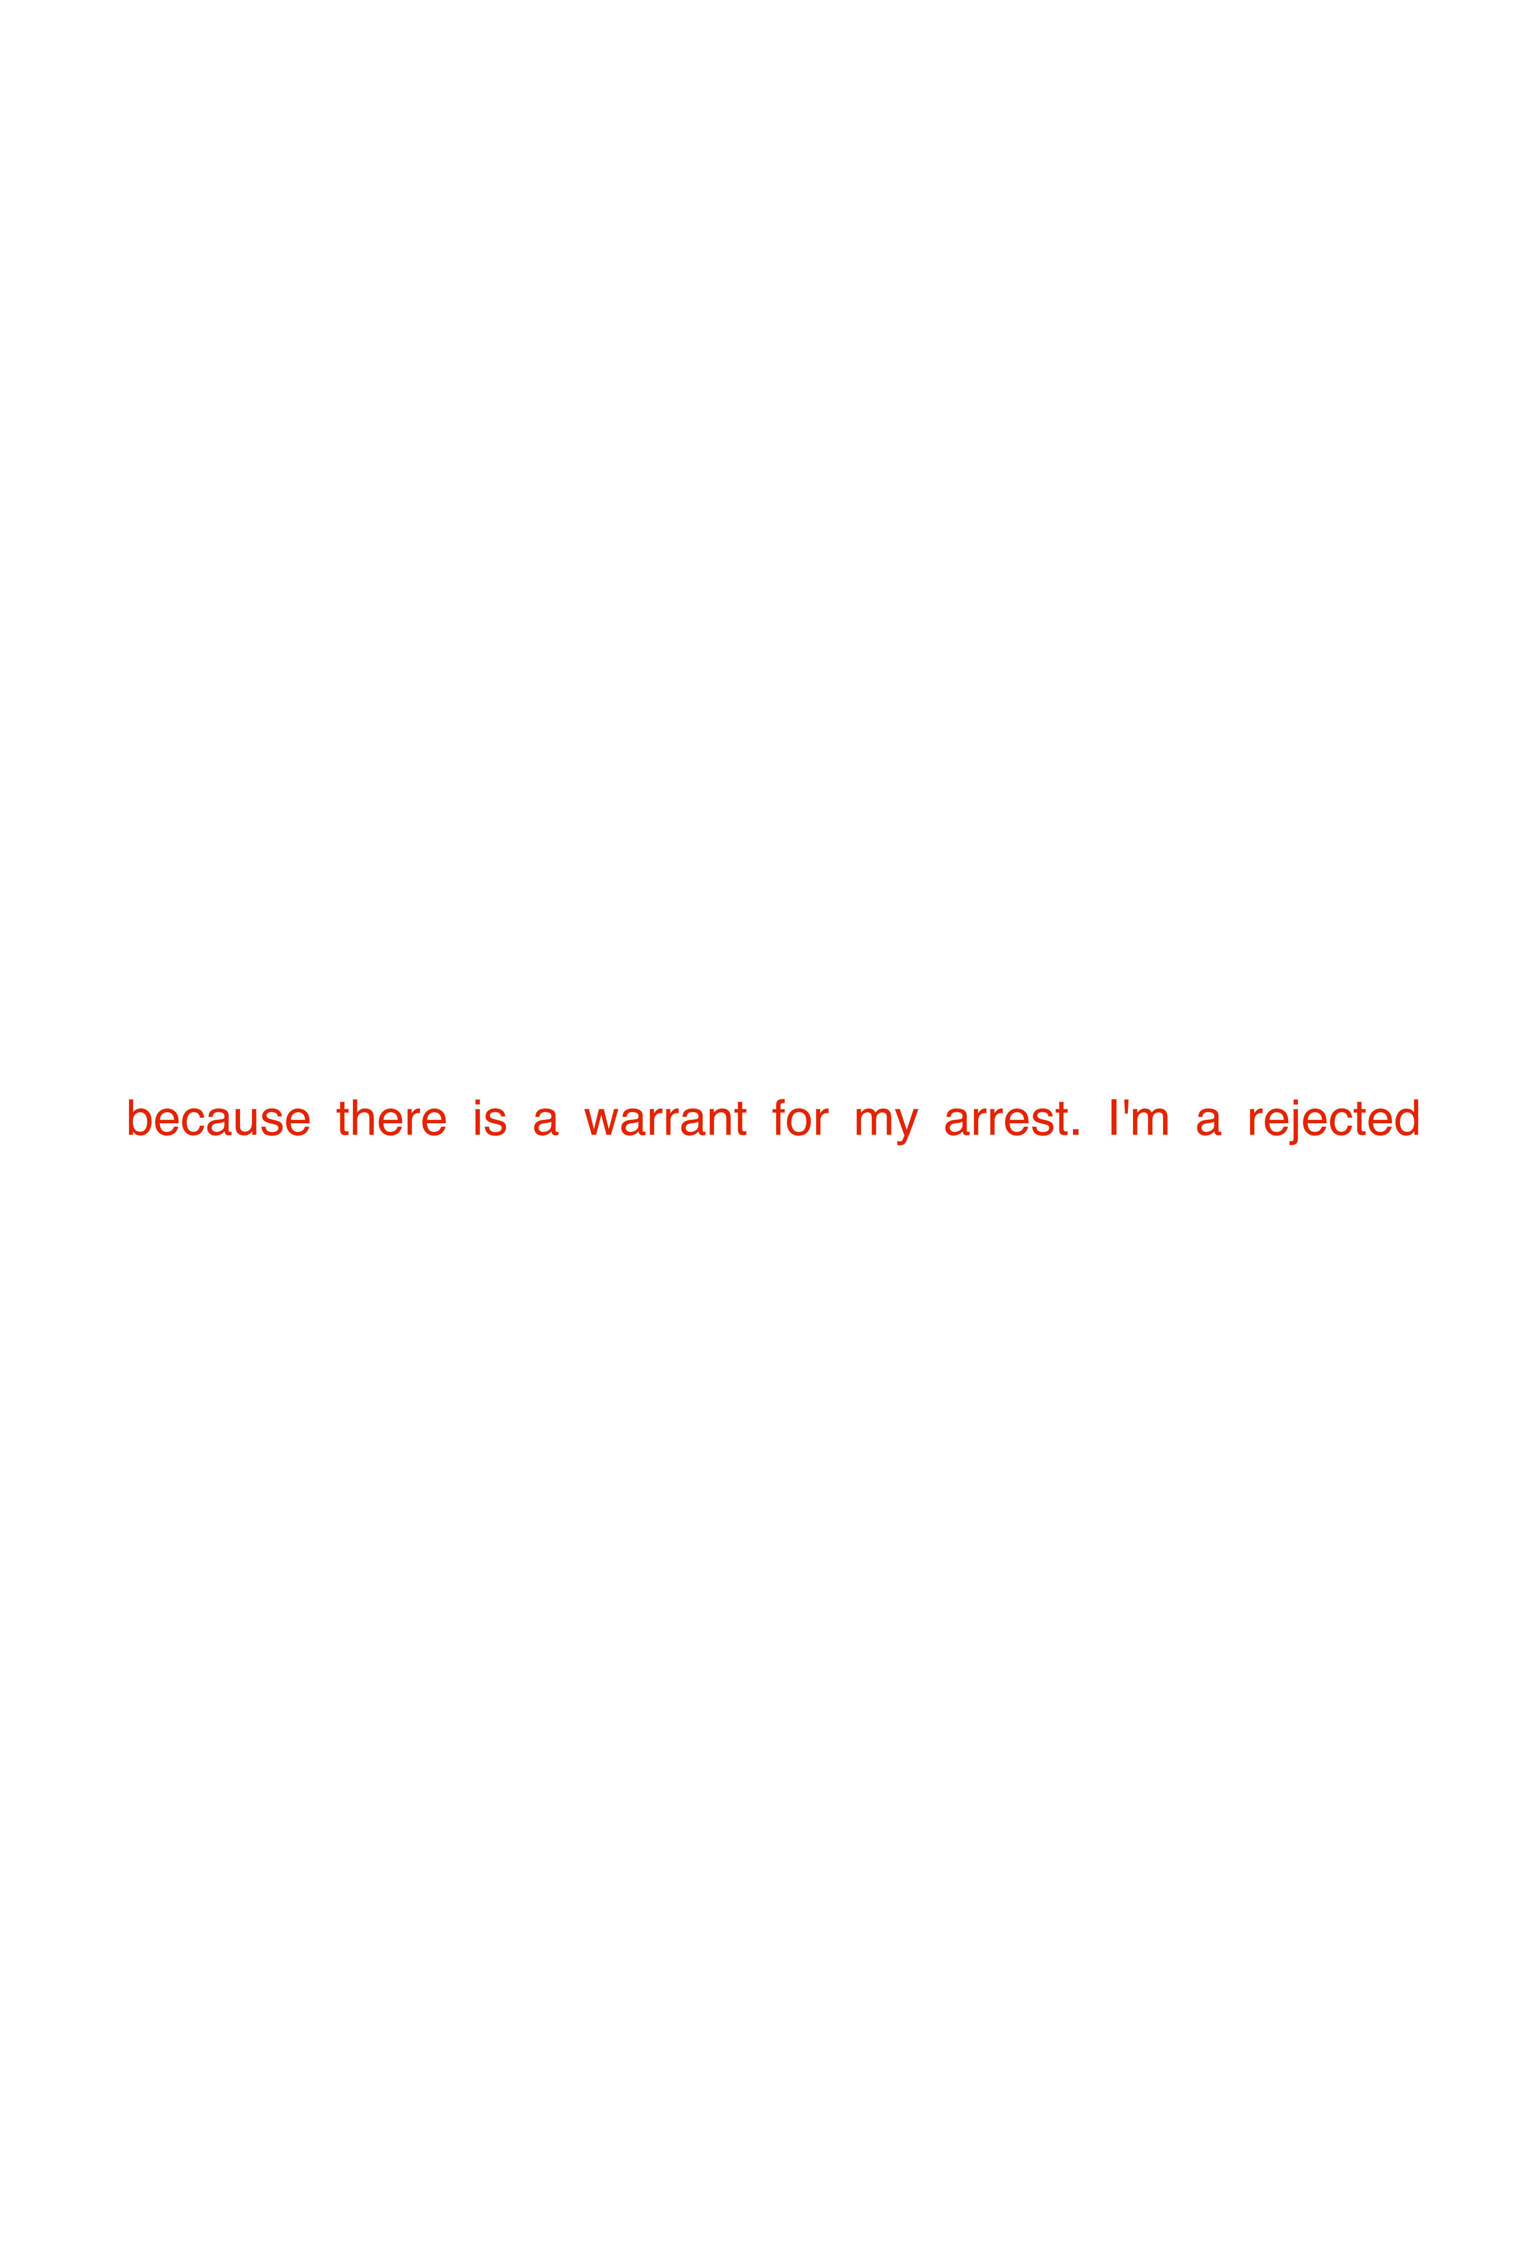

and have a mental illness - help us’

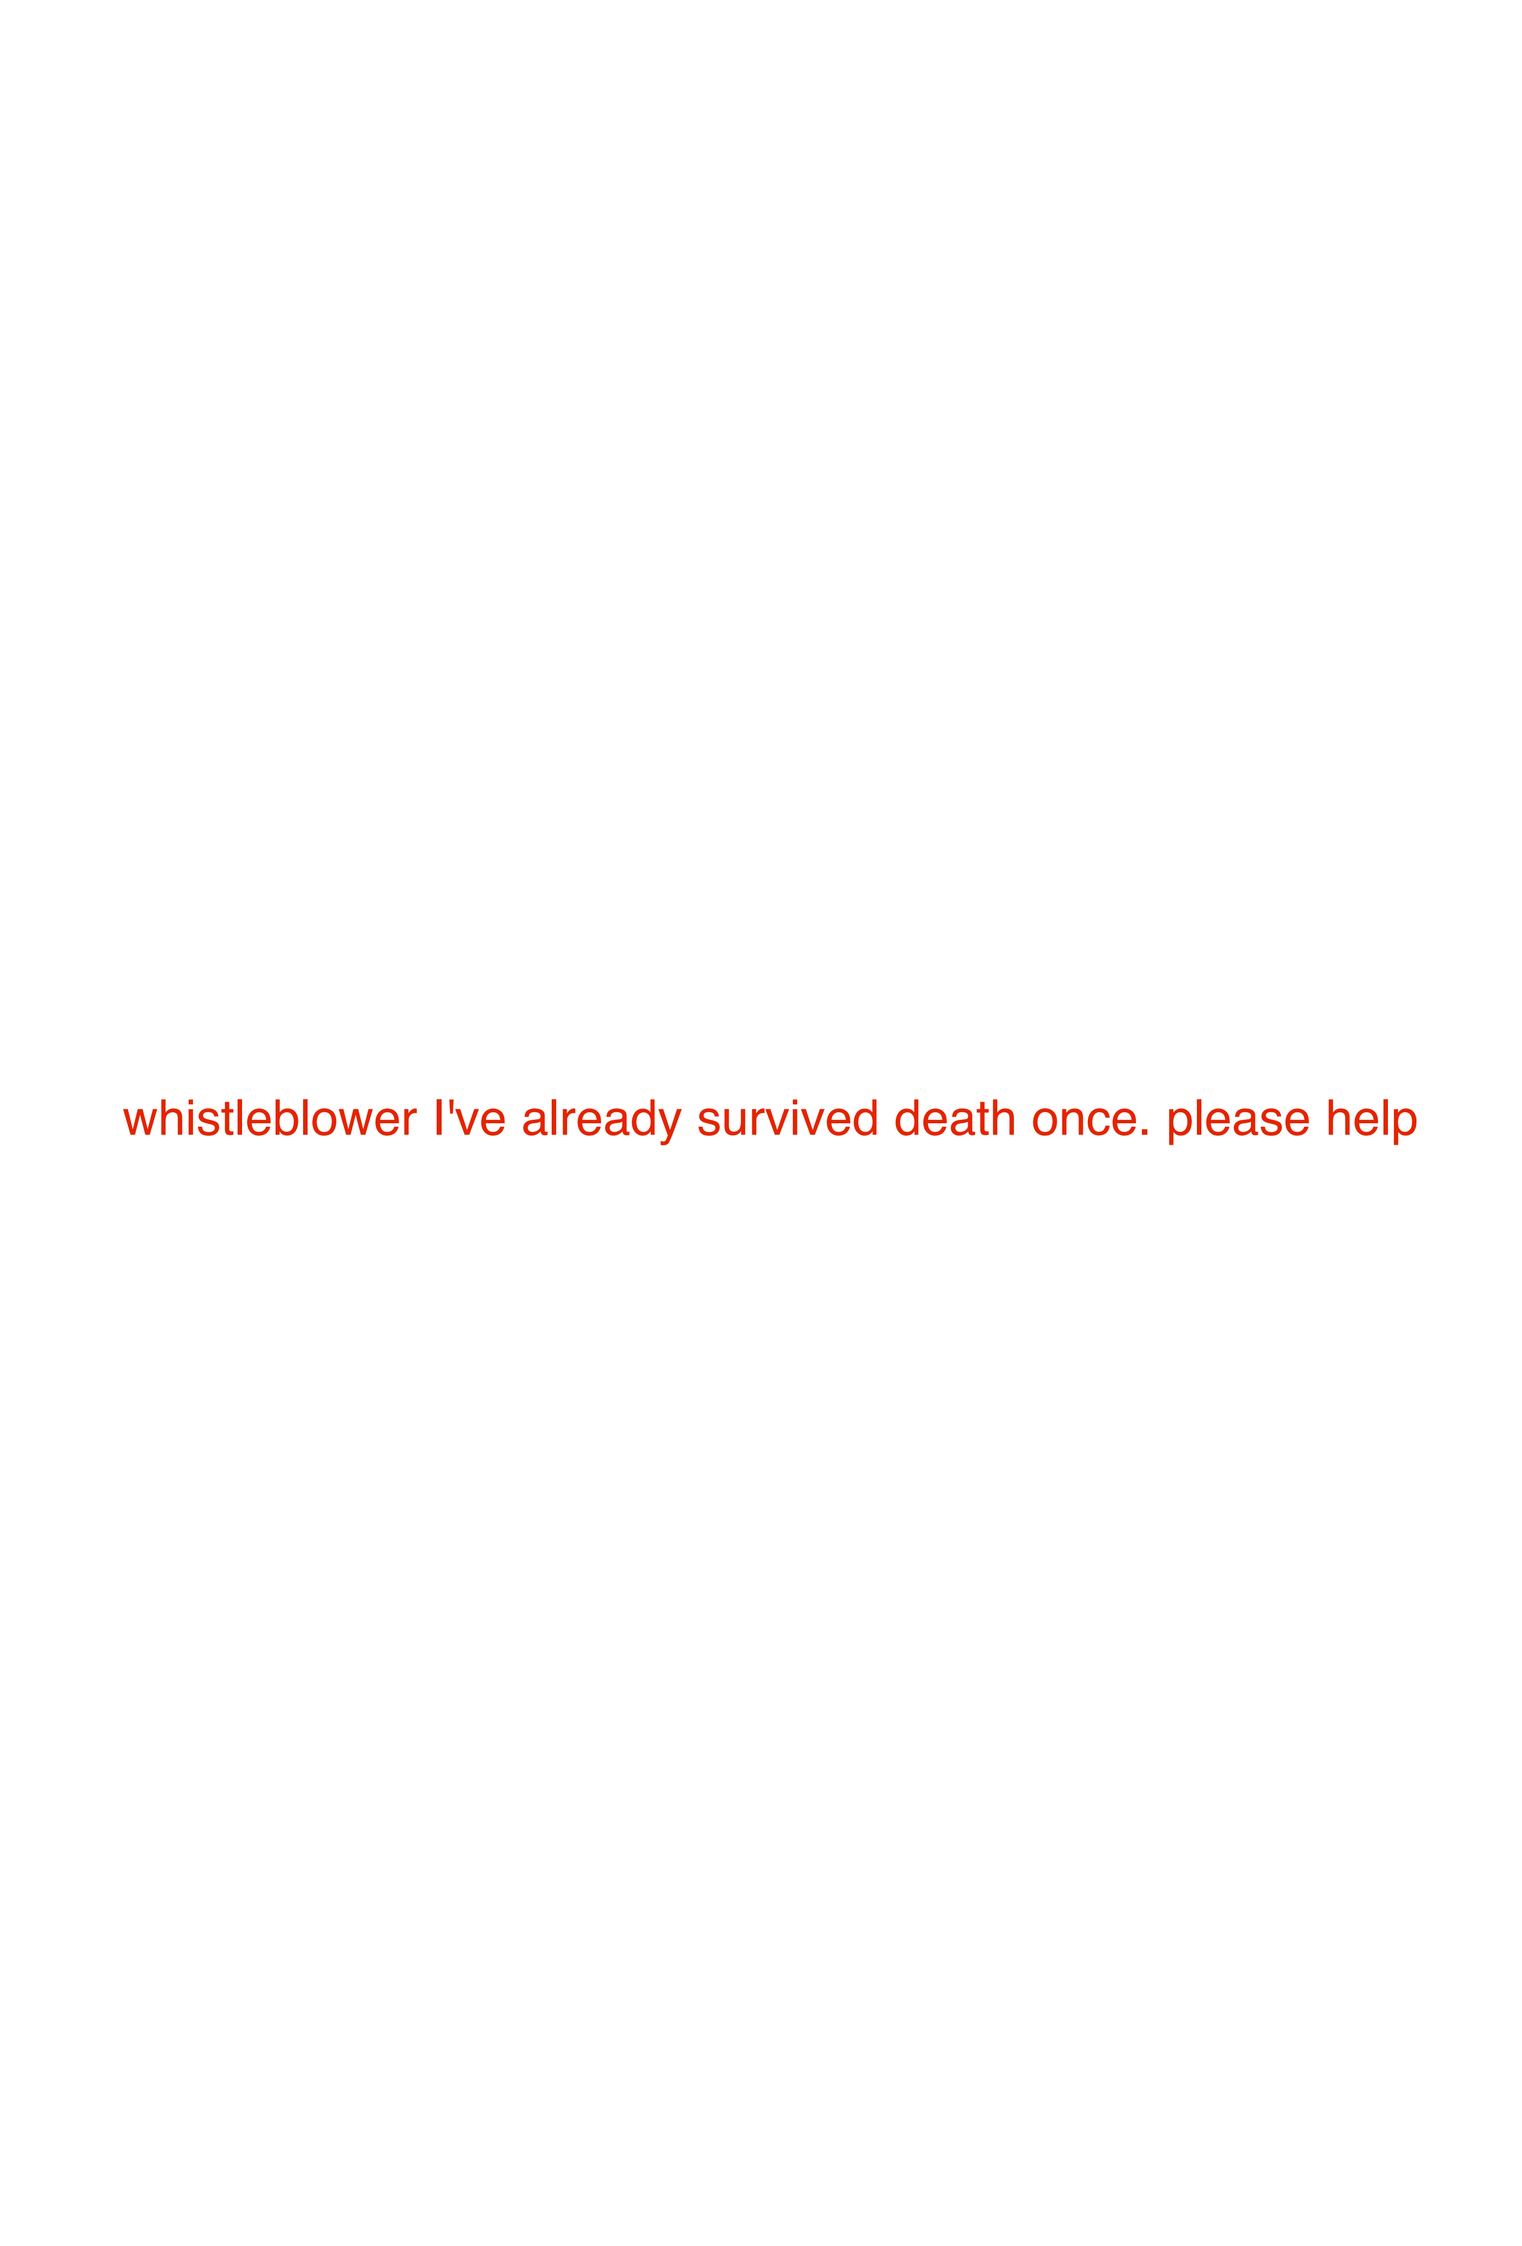

3. Instagram: HELP! I am in my car with my husky crystal

We have no food no money no human rights or legal rights

we are without medication or healthcare and we have no

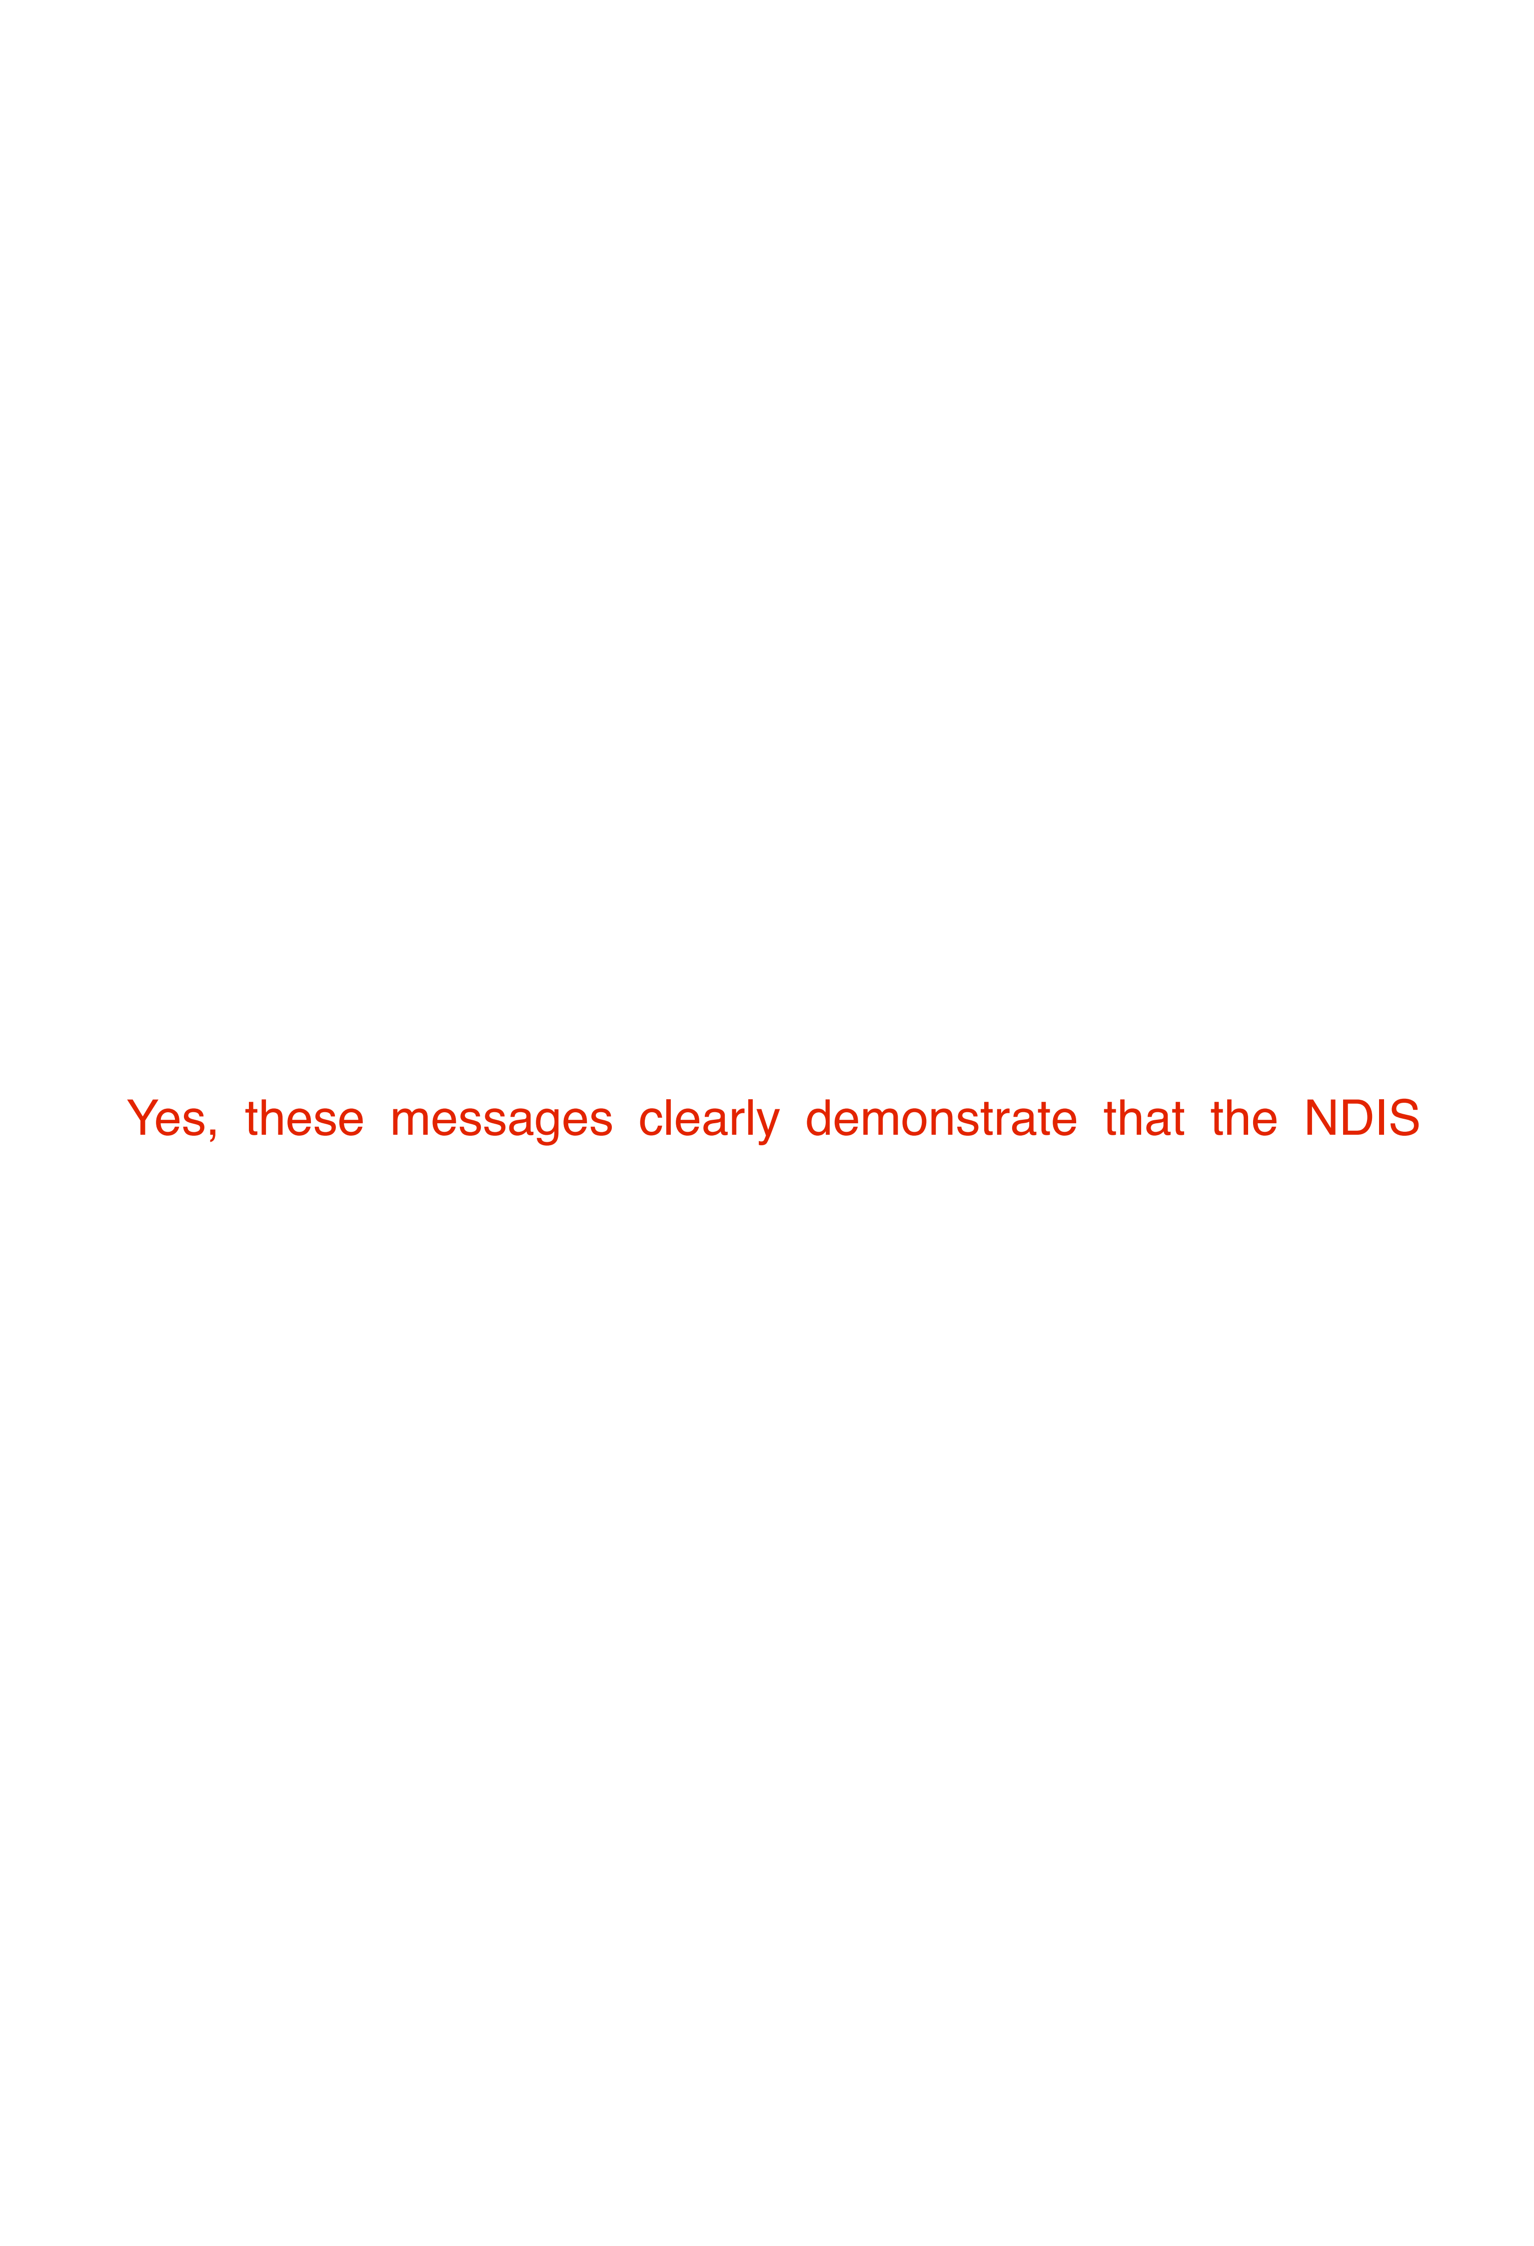

home because if we return I am arrested and jailed

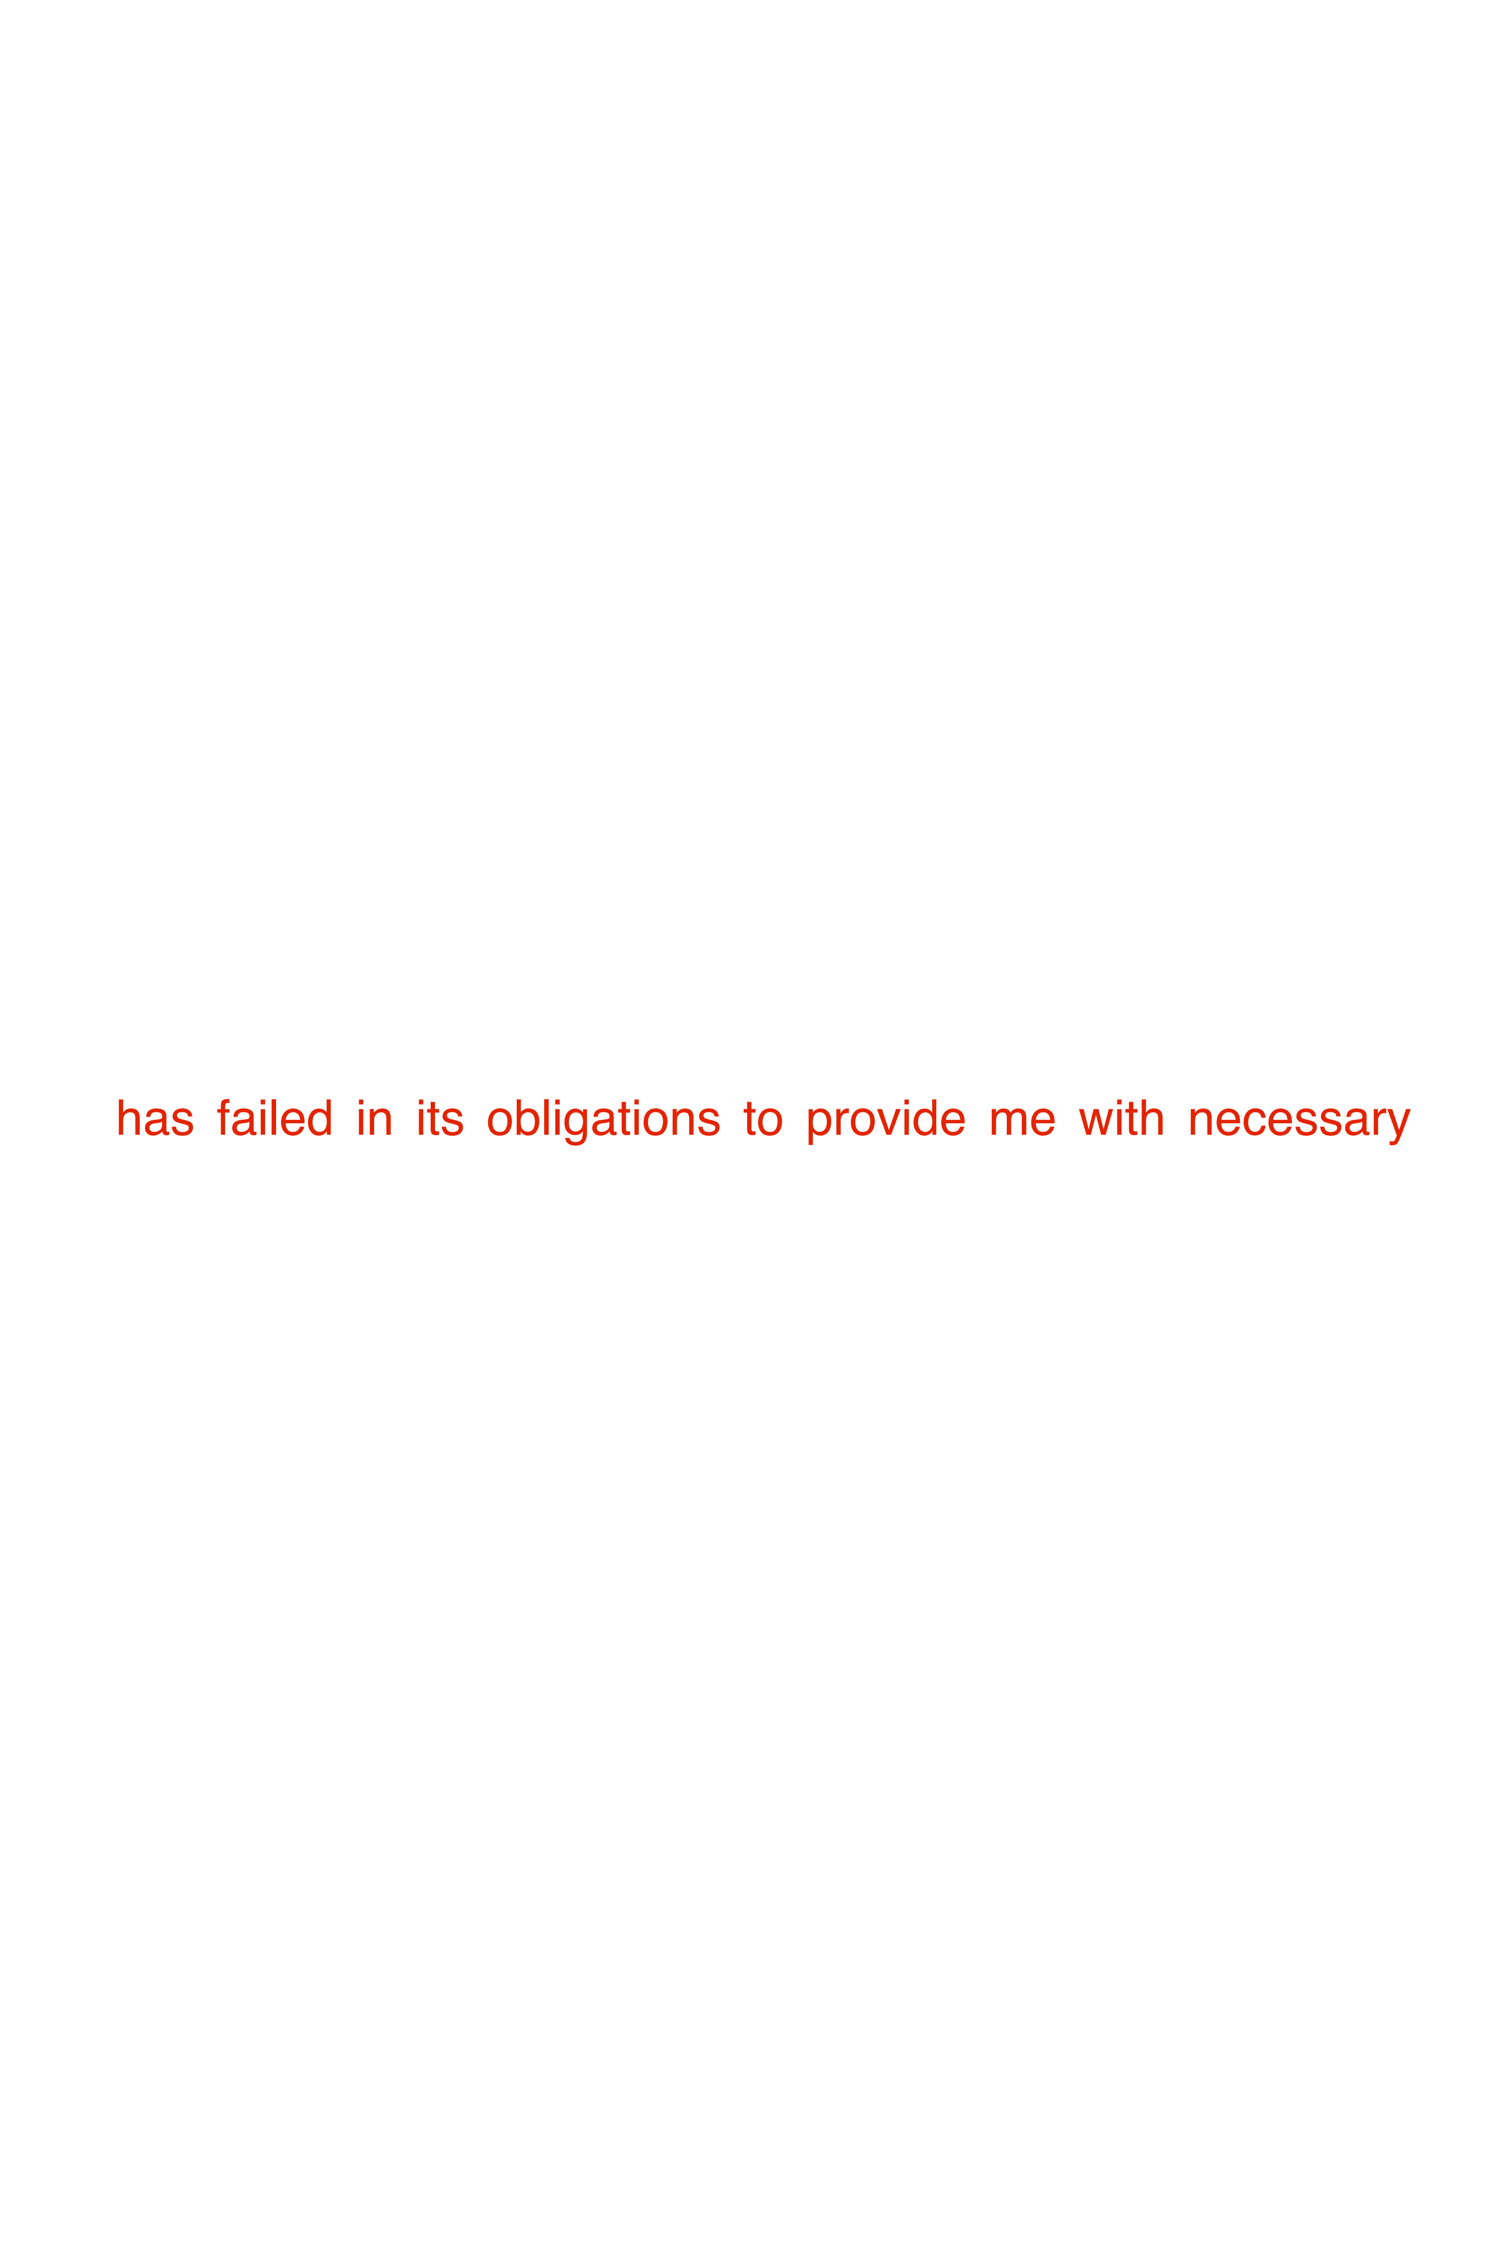

because there is a warrant for my arrest. I'm a rejected

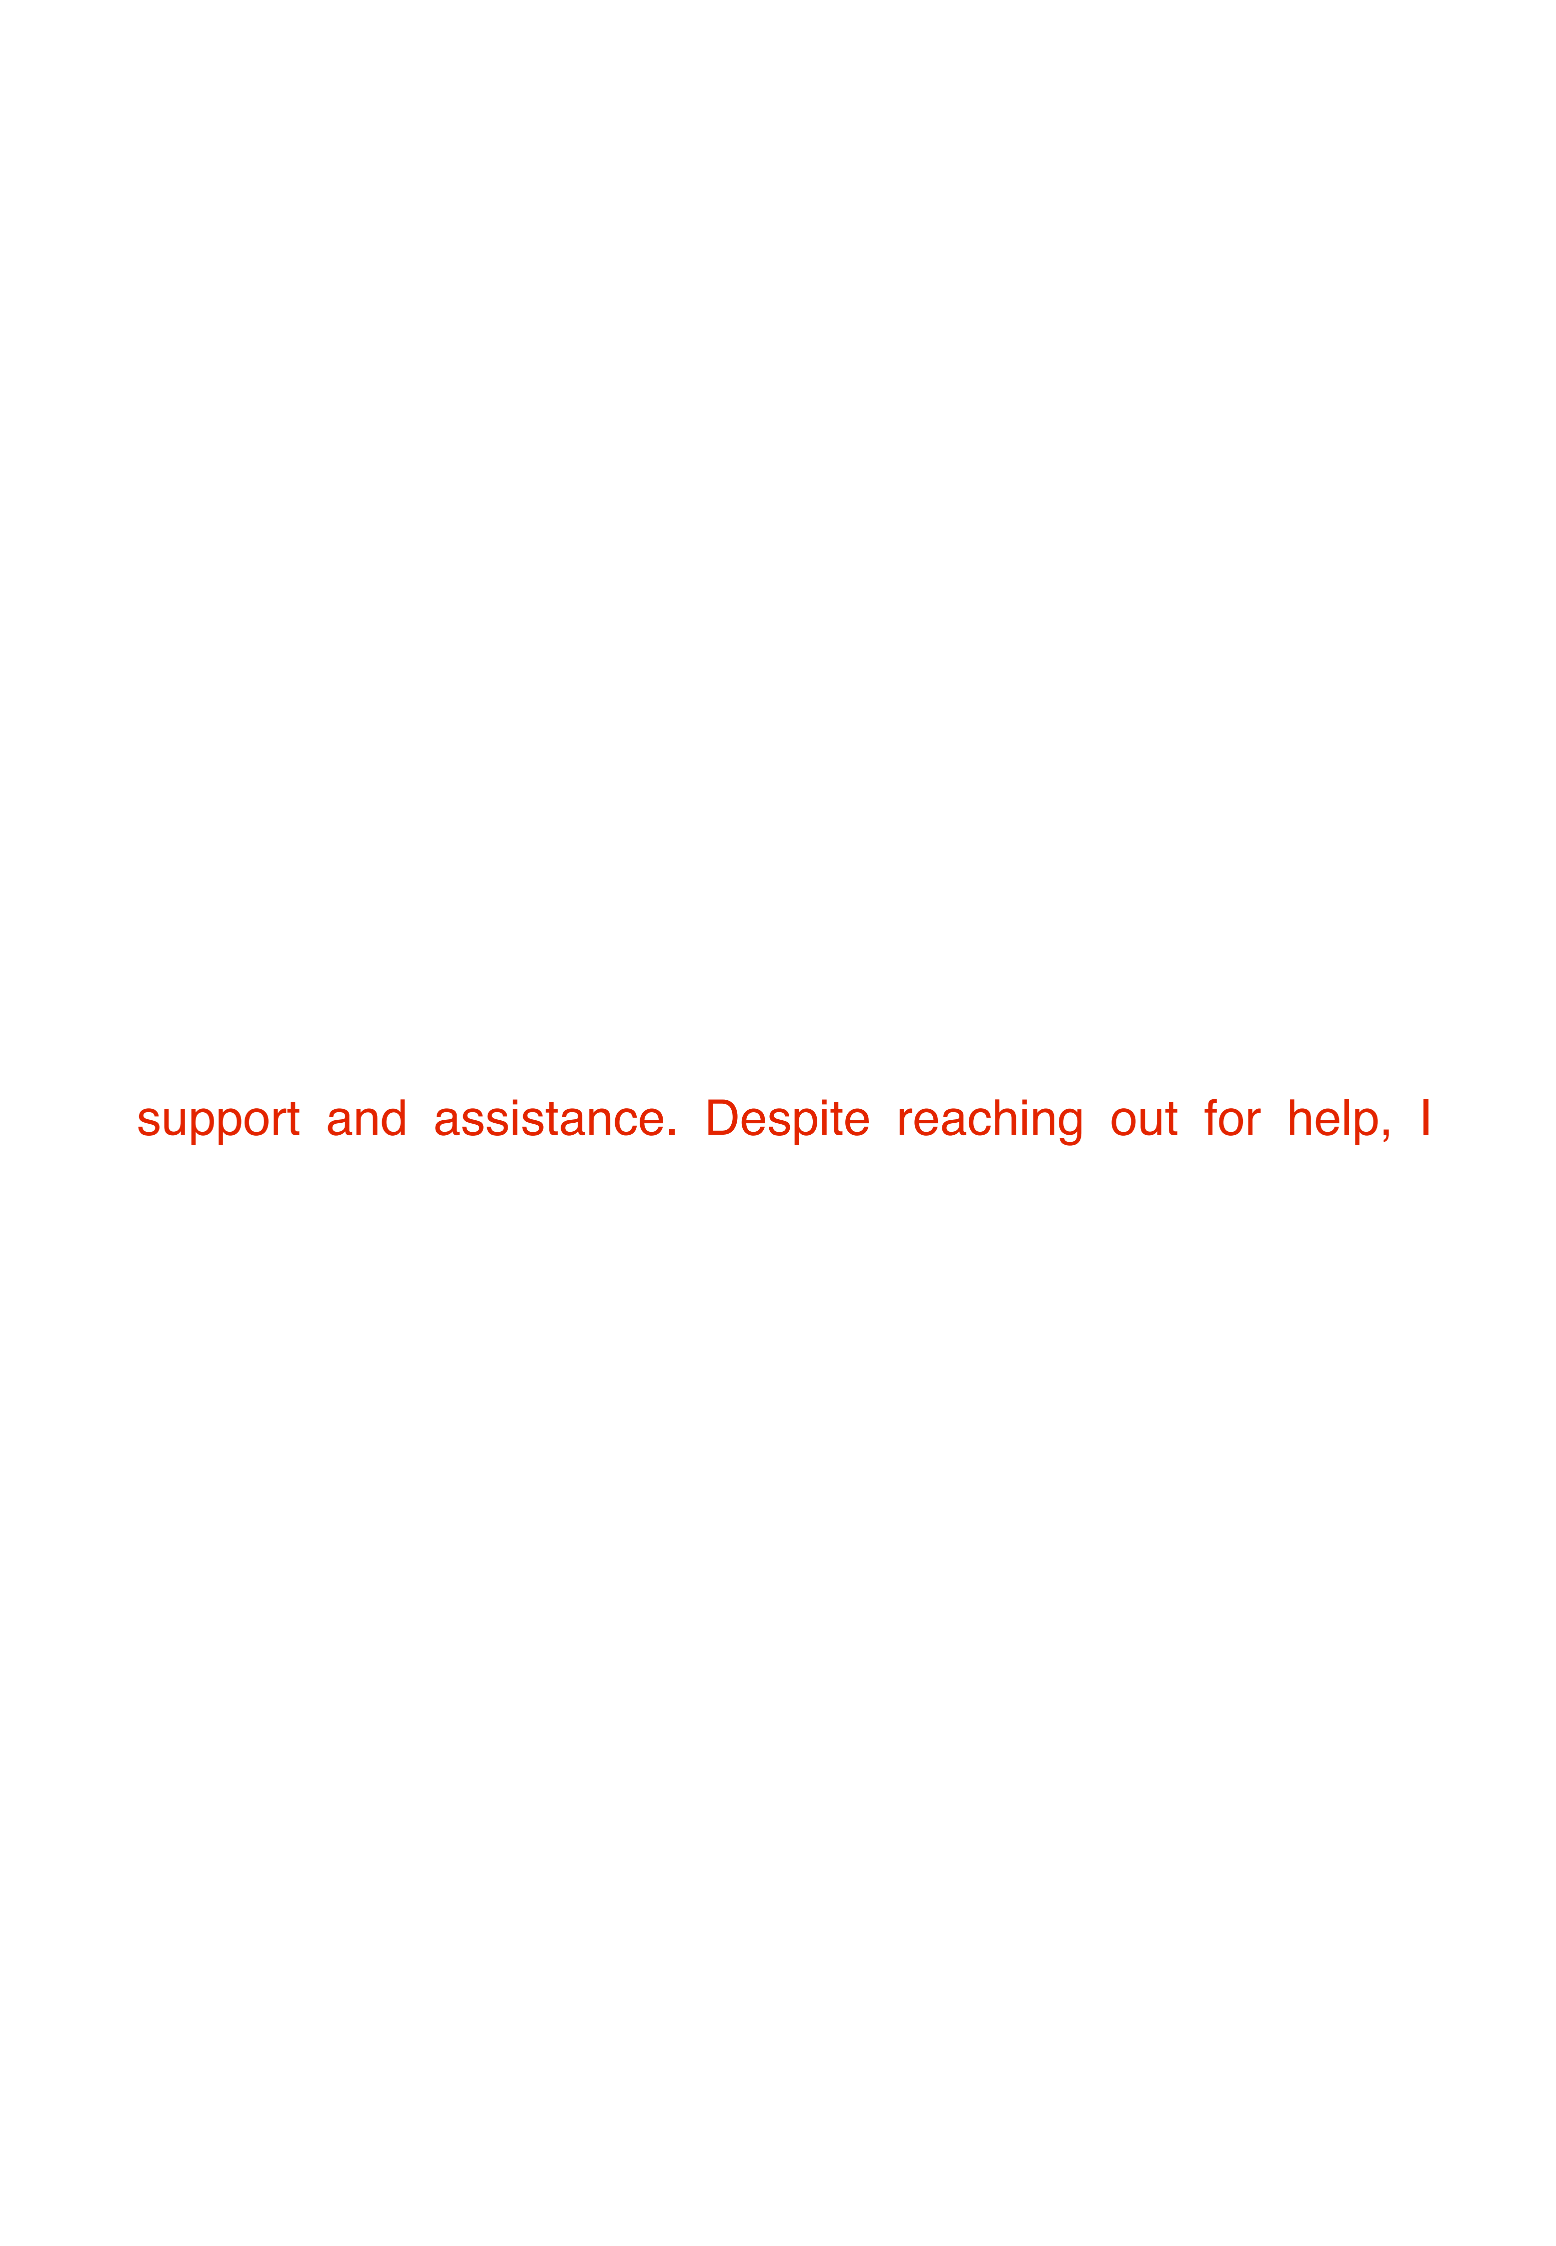

whistleblower I've already survived death once. please help

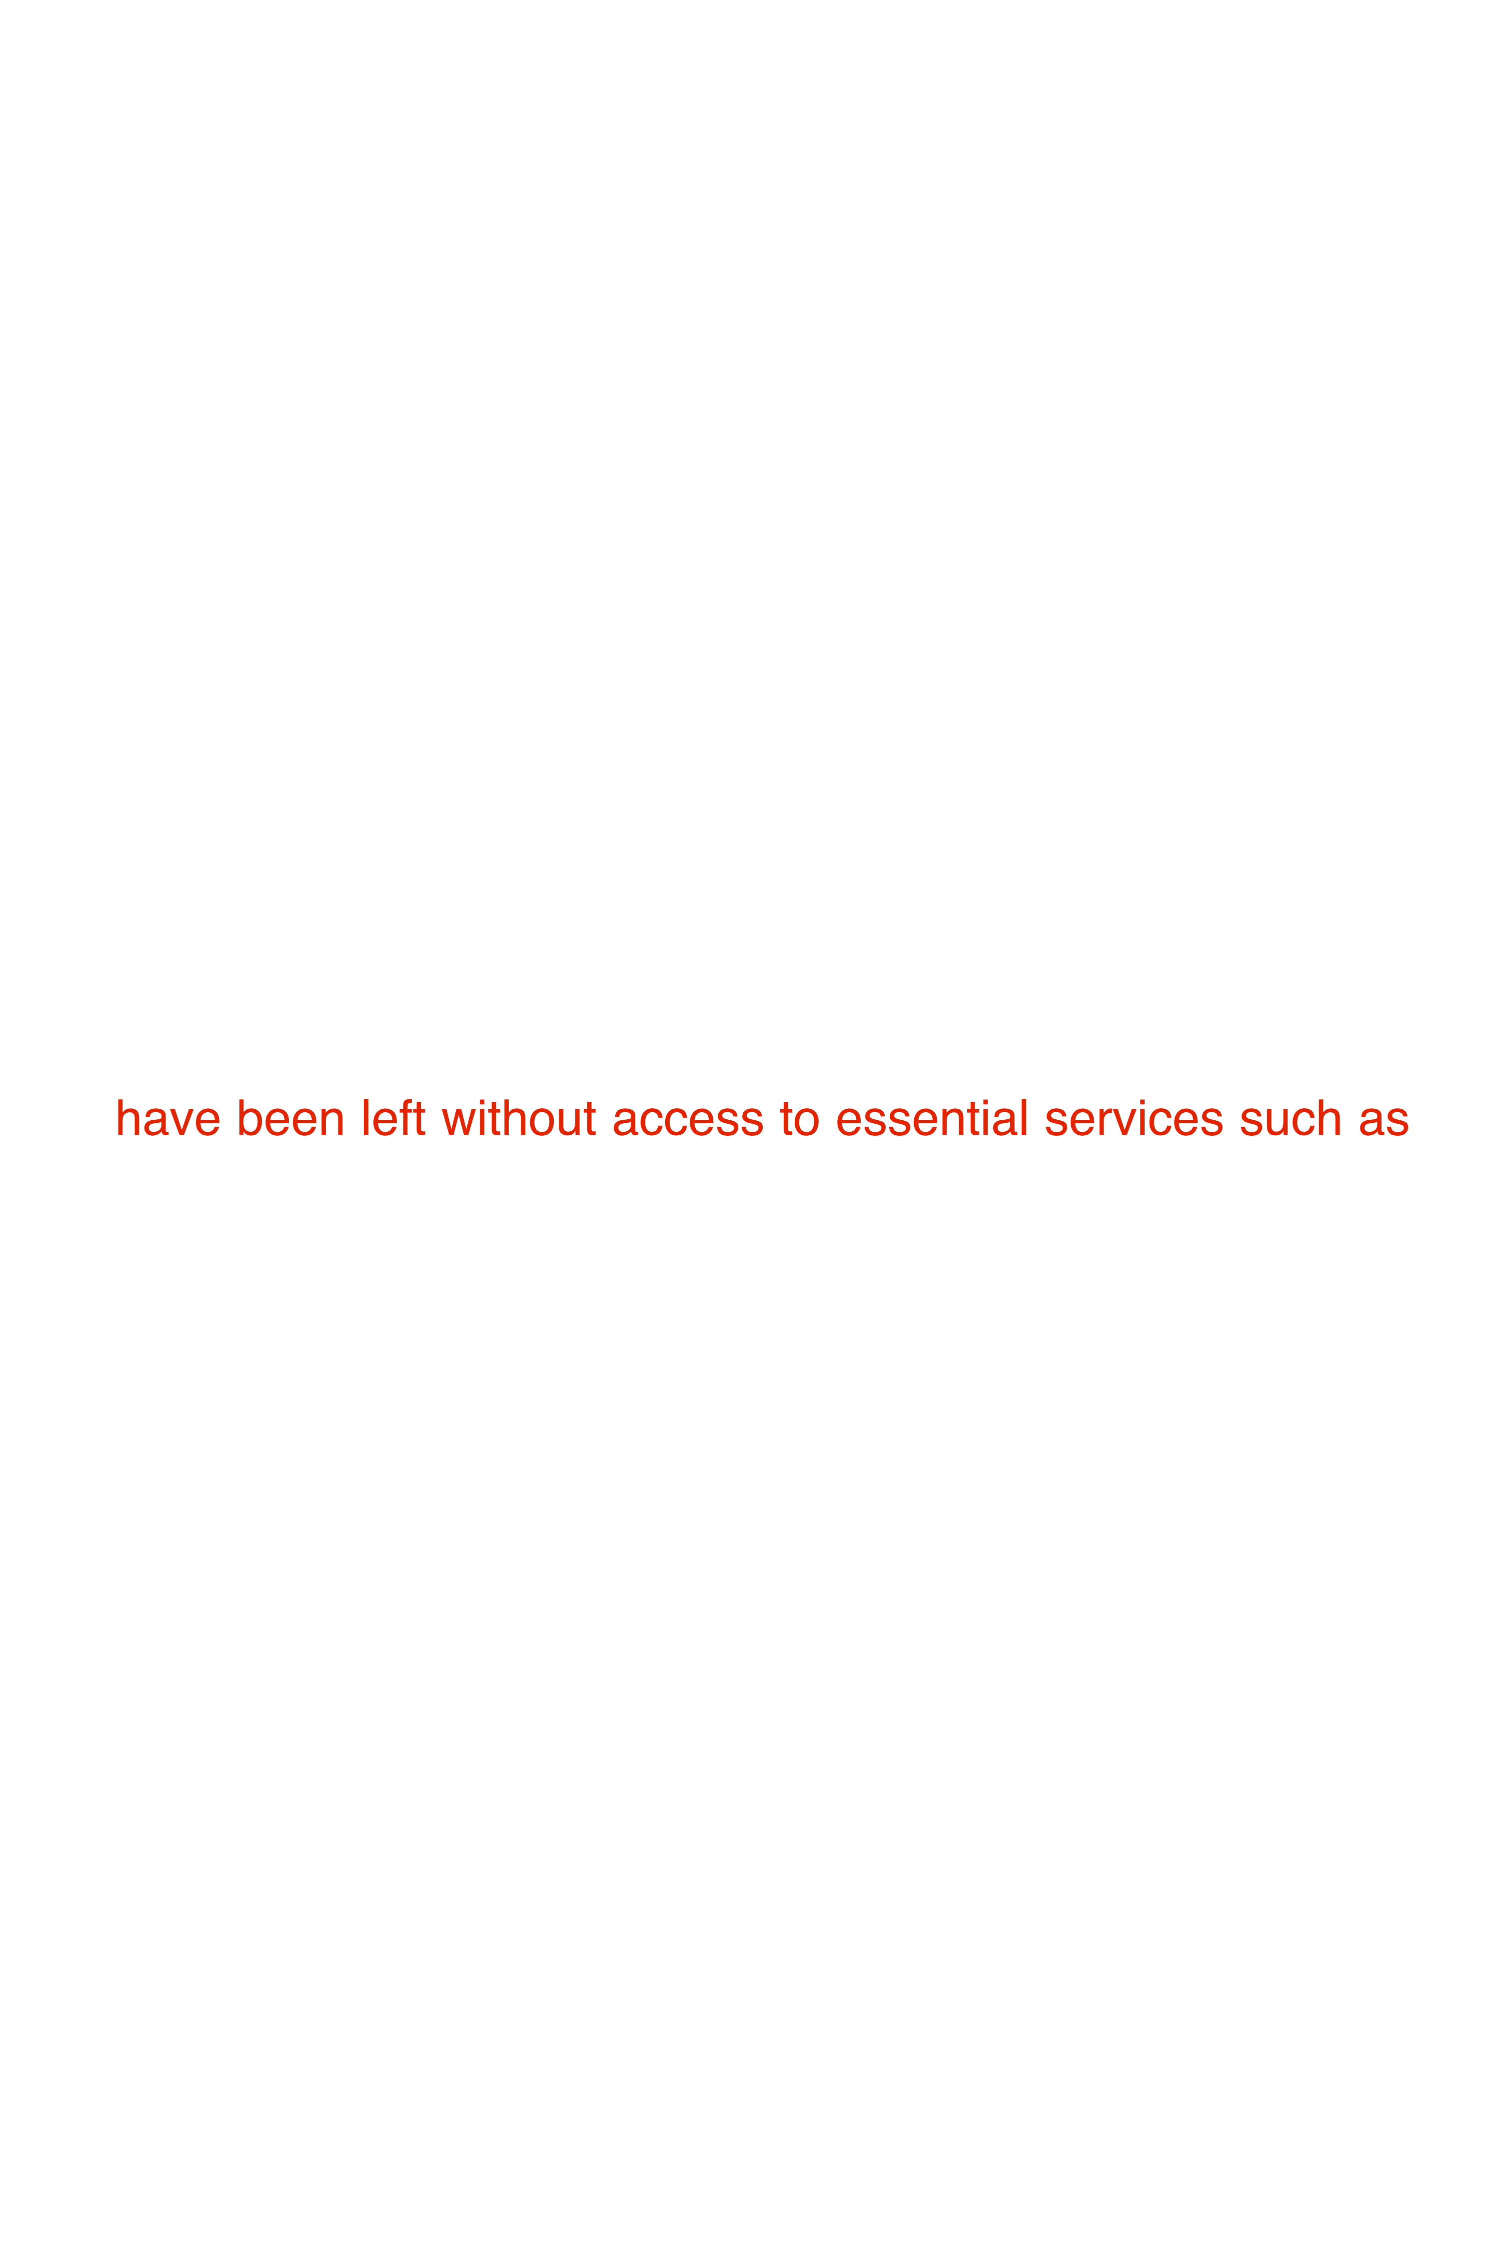

us. payID richarddrawsstuff@gmail.com phone

0406797300. I'm not a criminal they are

Yes, these messages clearly demonstrate that the NDIS

has failed in its obligations to provide me with necessary

support and assistance. Despite reaching out for help, I

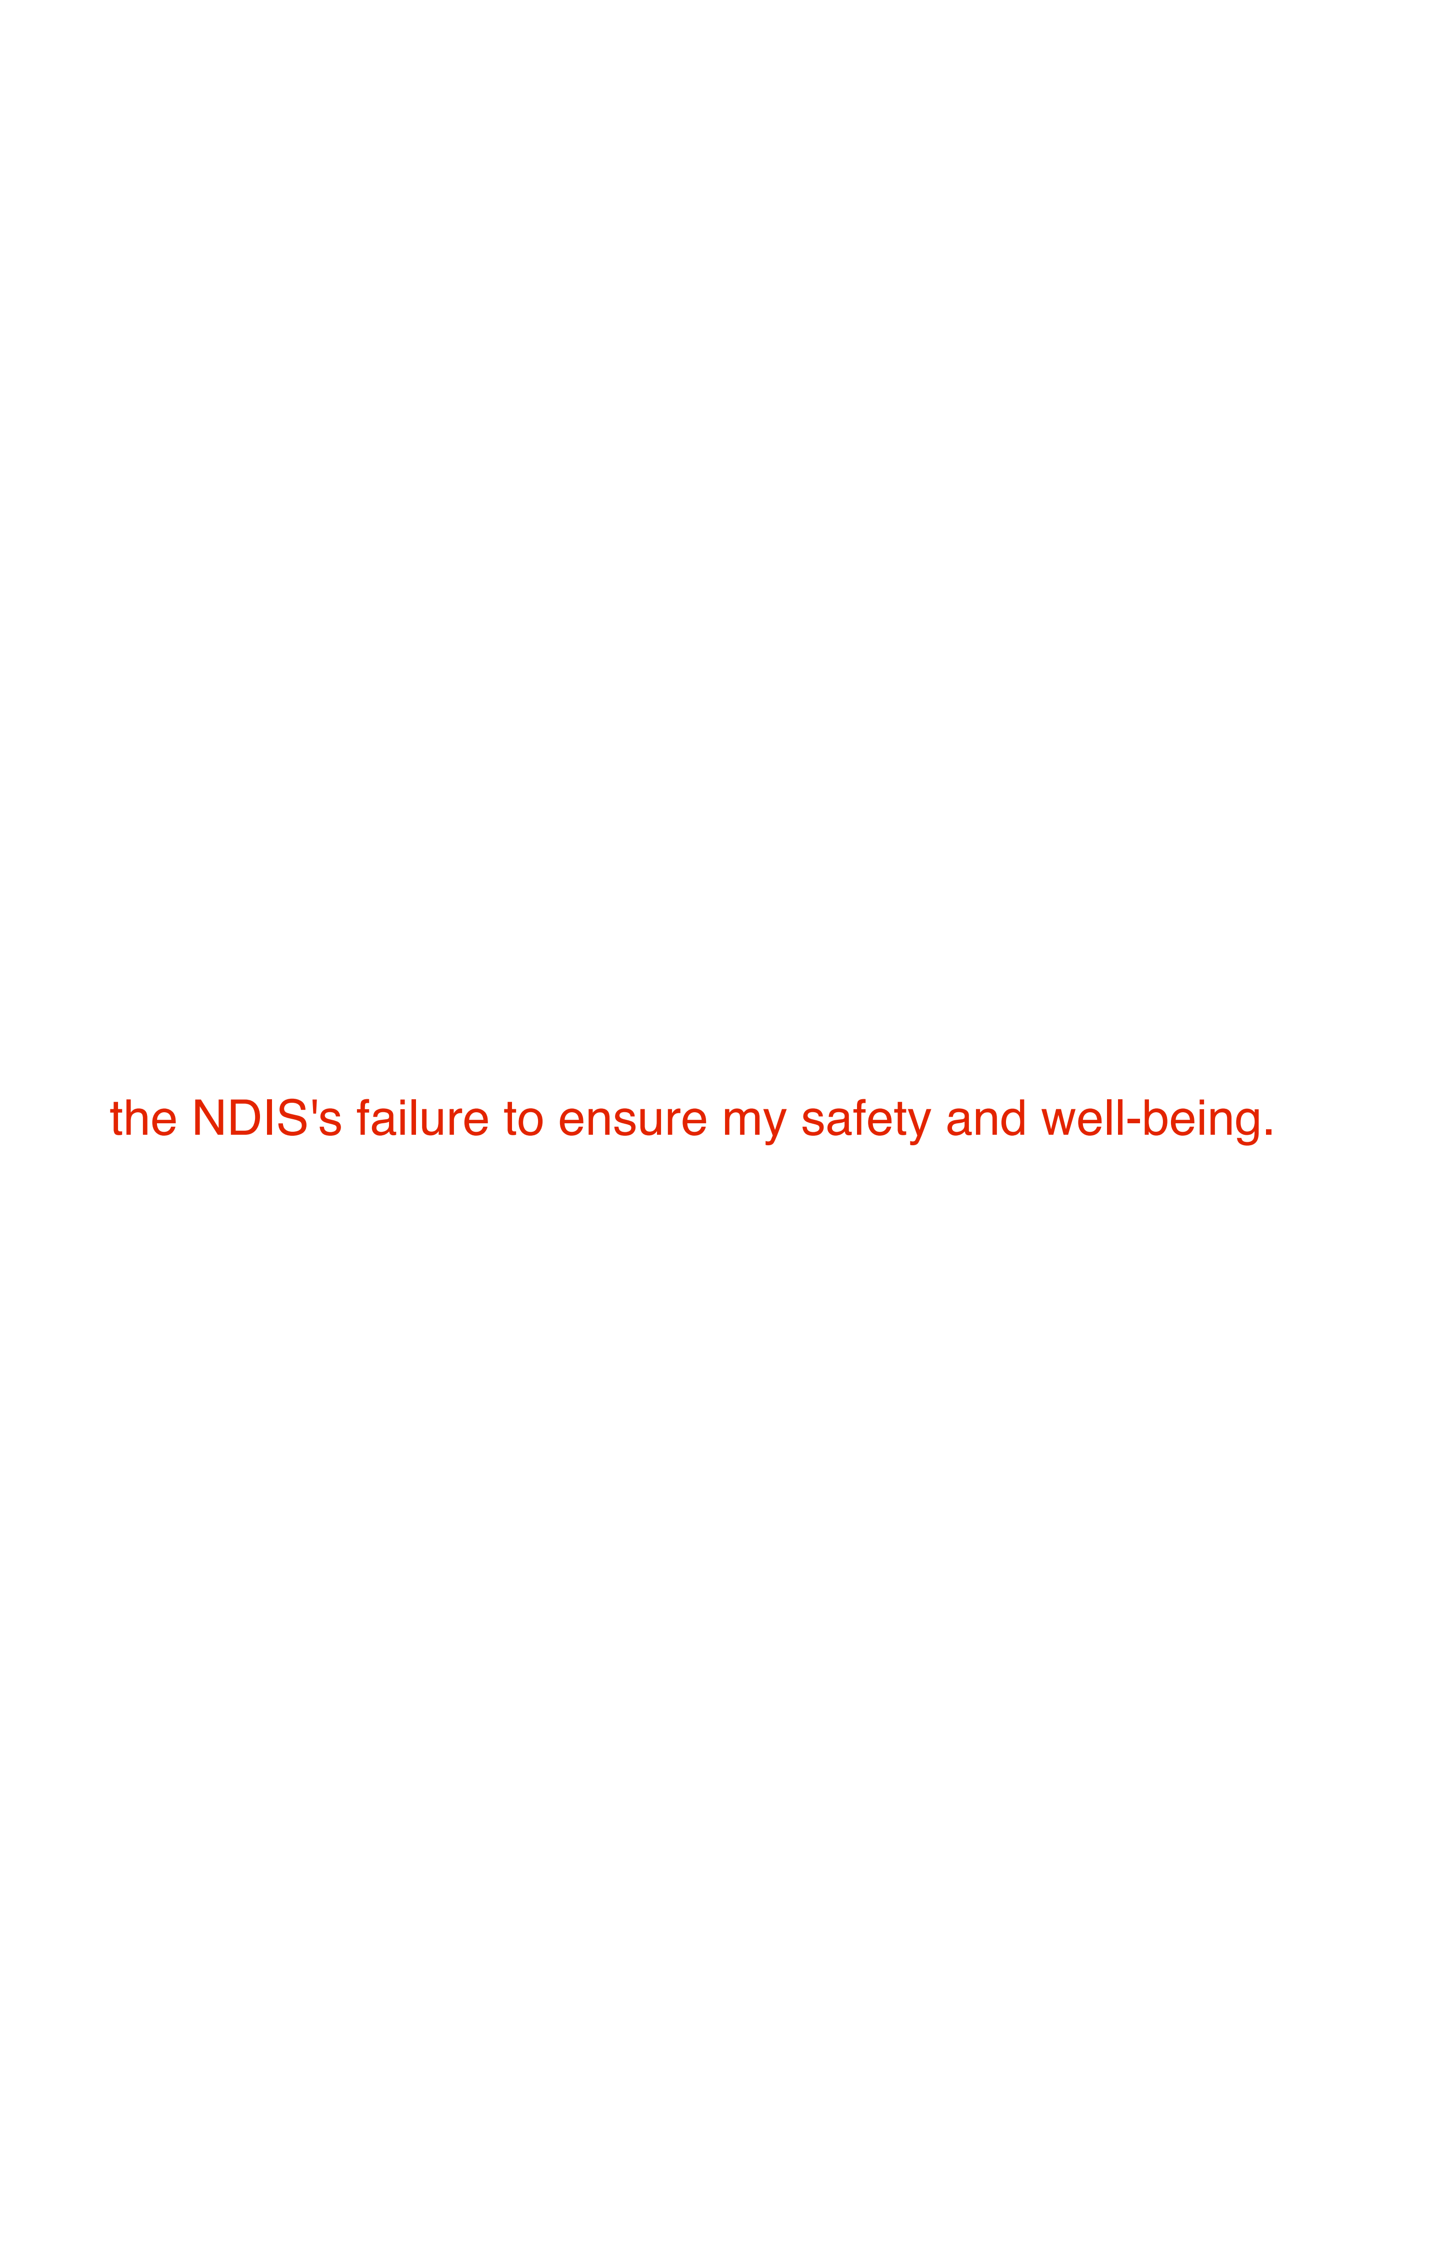

have been left without access to essential services such as

housing, food, medication, and legal assistance.

Additionally, as a rejected whistleblower, I've faced

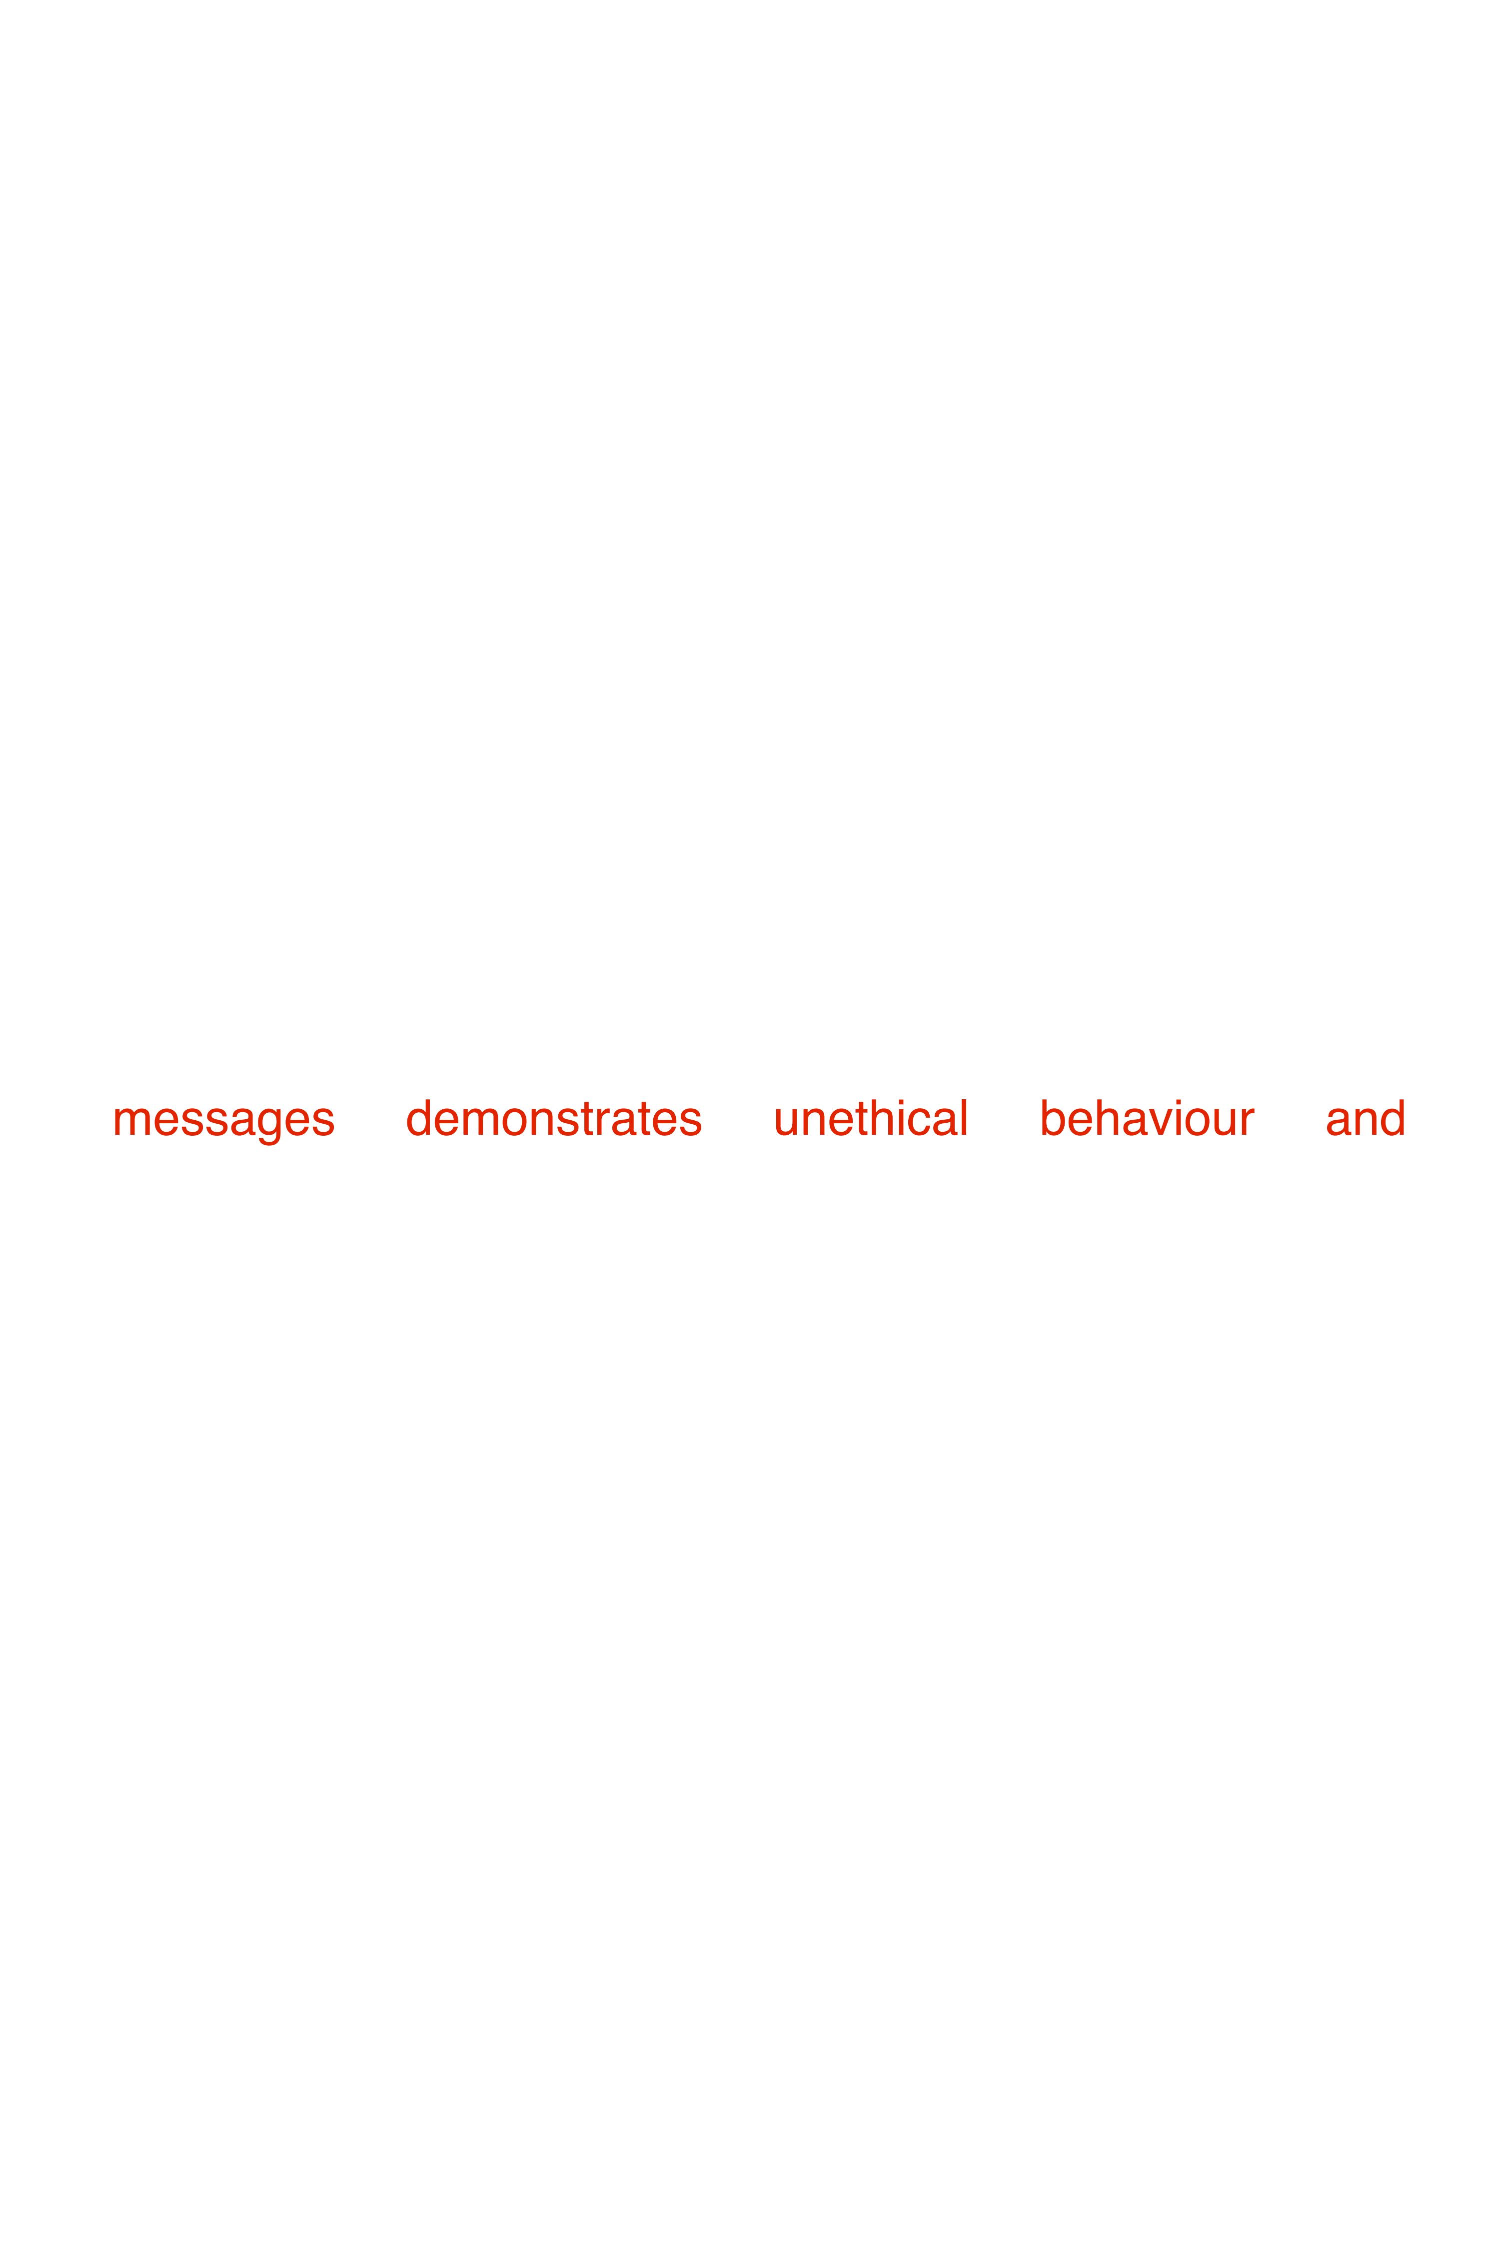

retaliation and neglect from authorities, further highlighting

the NDIS's failure to ensure my safety and well-being.

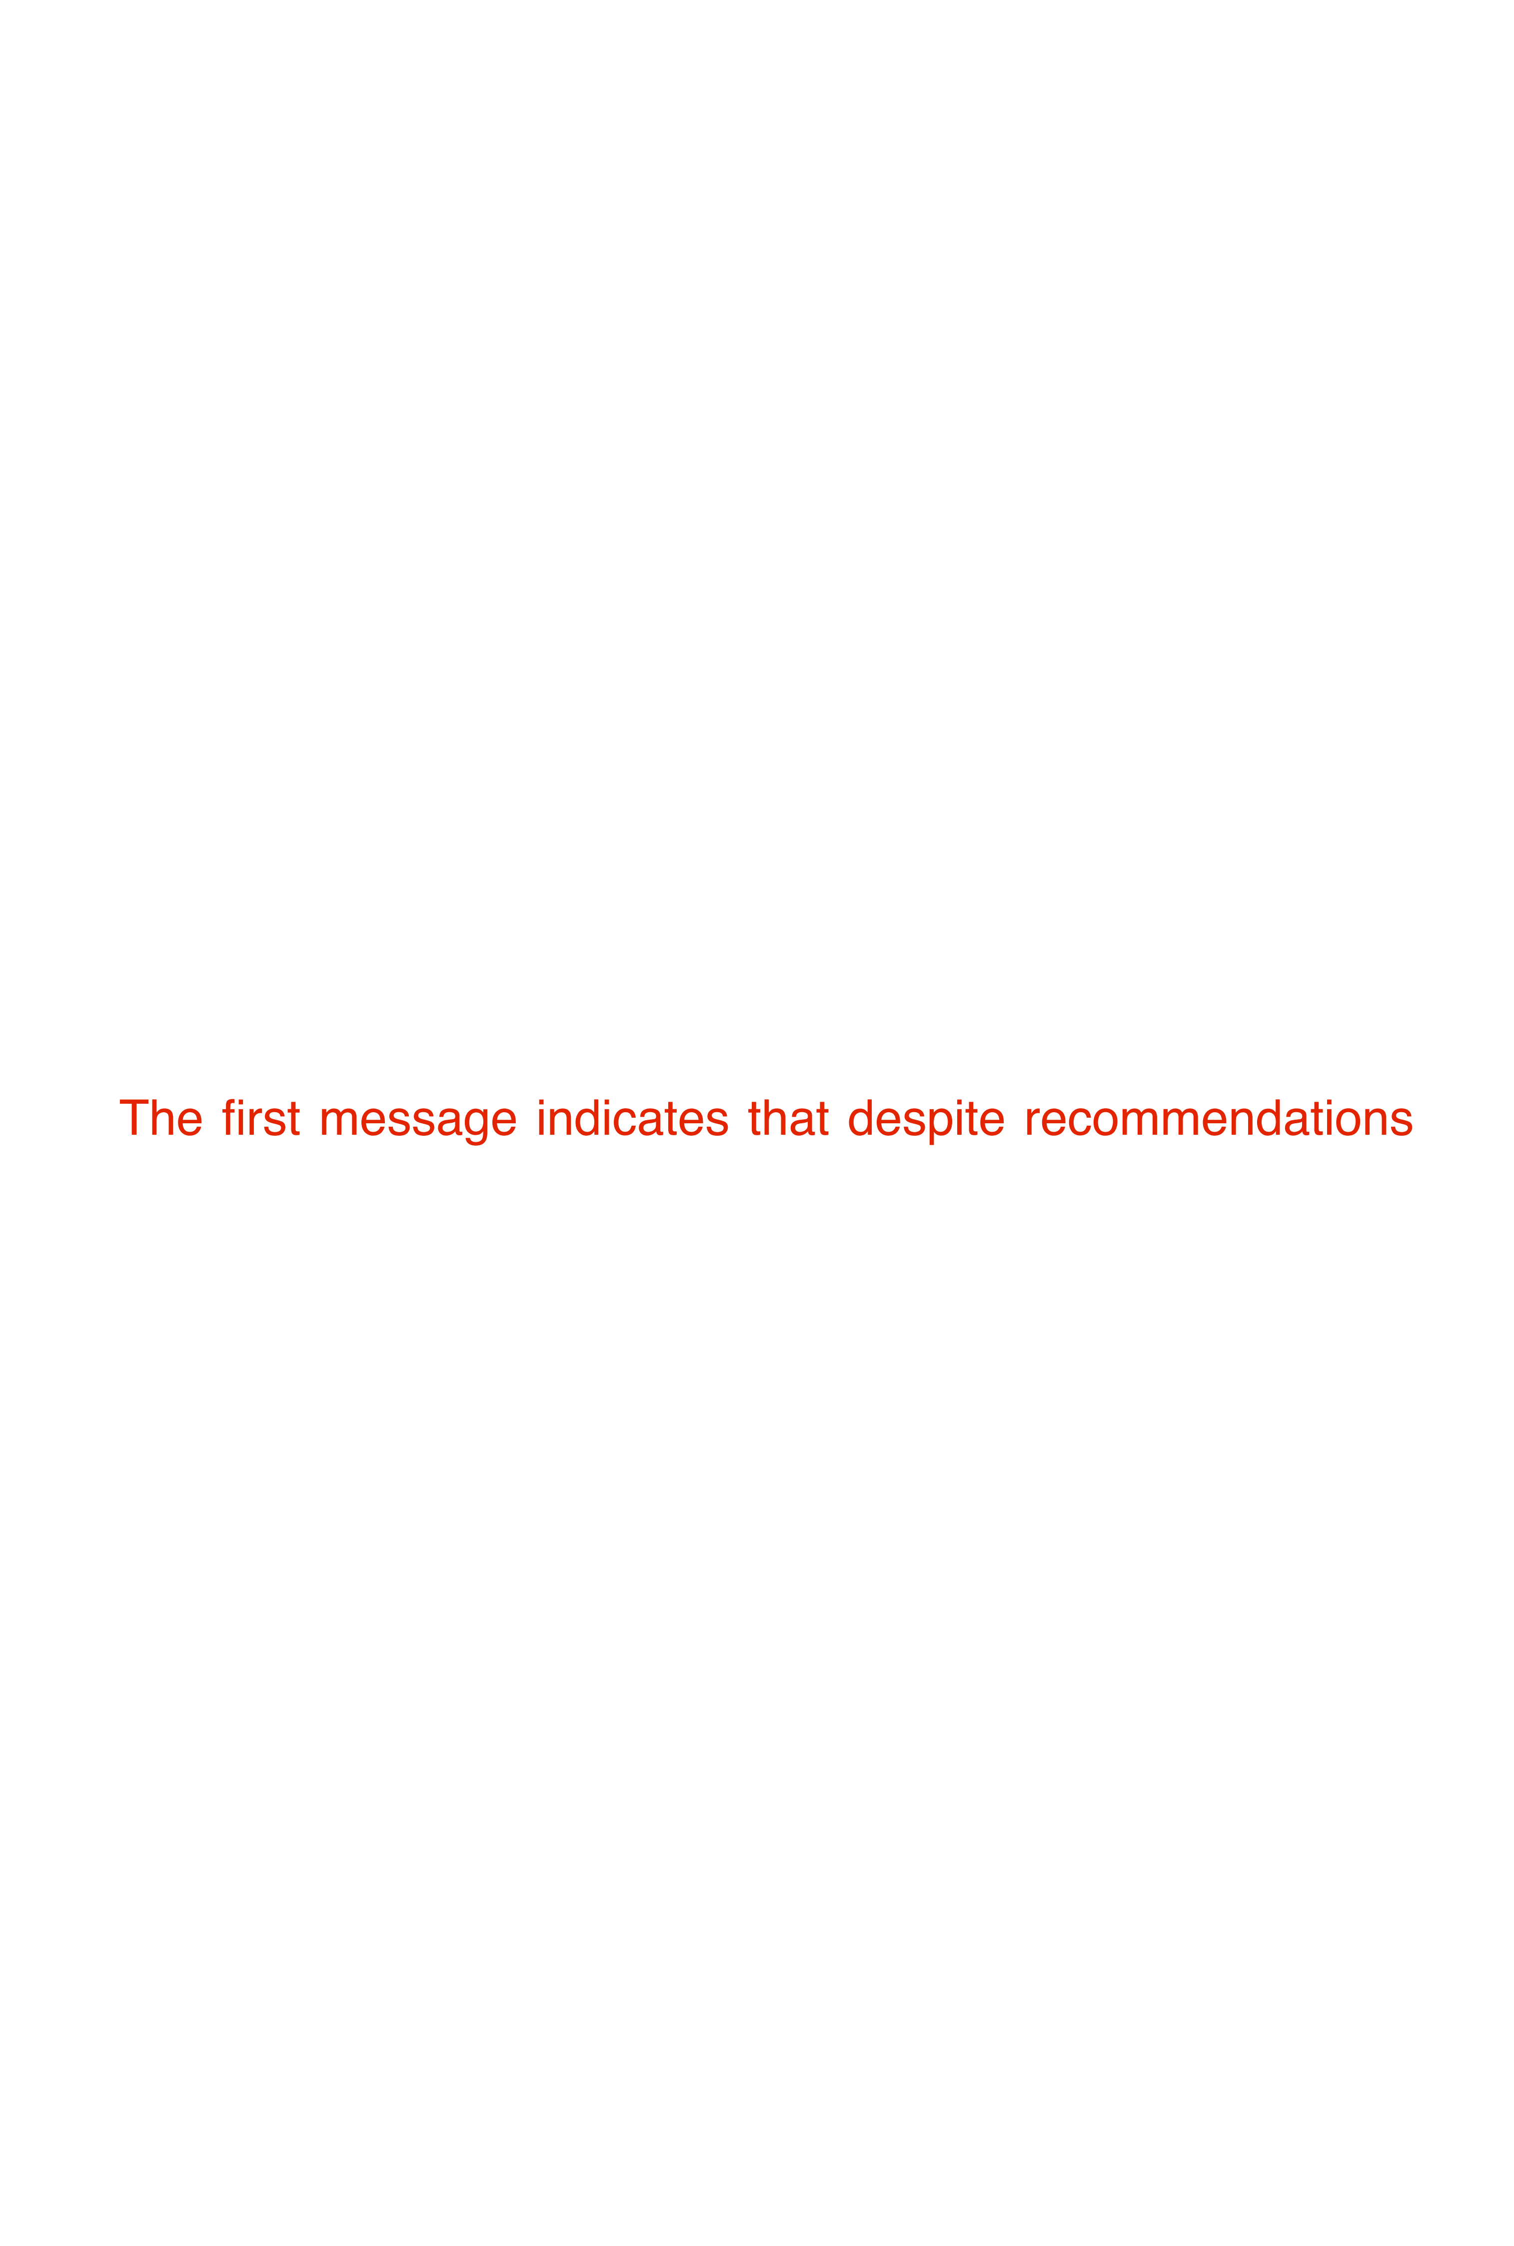

From a government care perspective, posting these

messages demonstrates unethical behaviour and

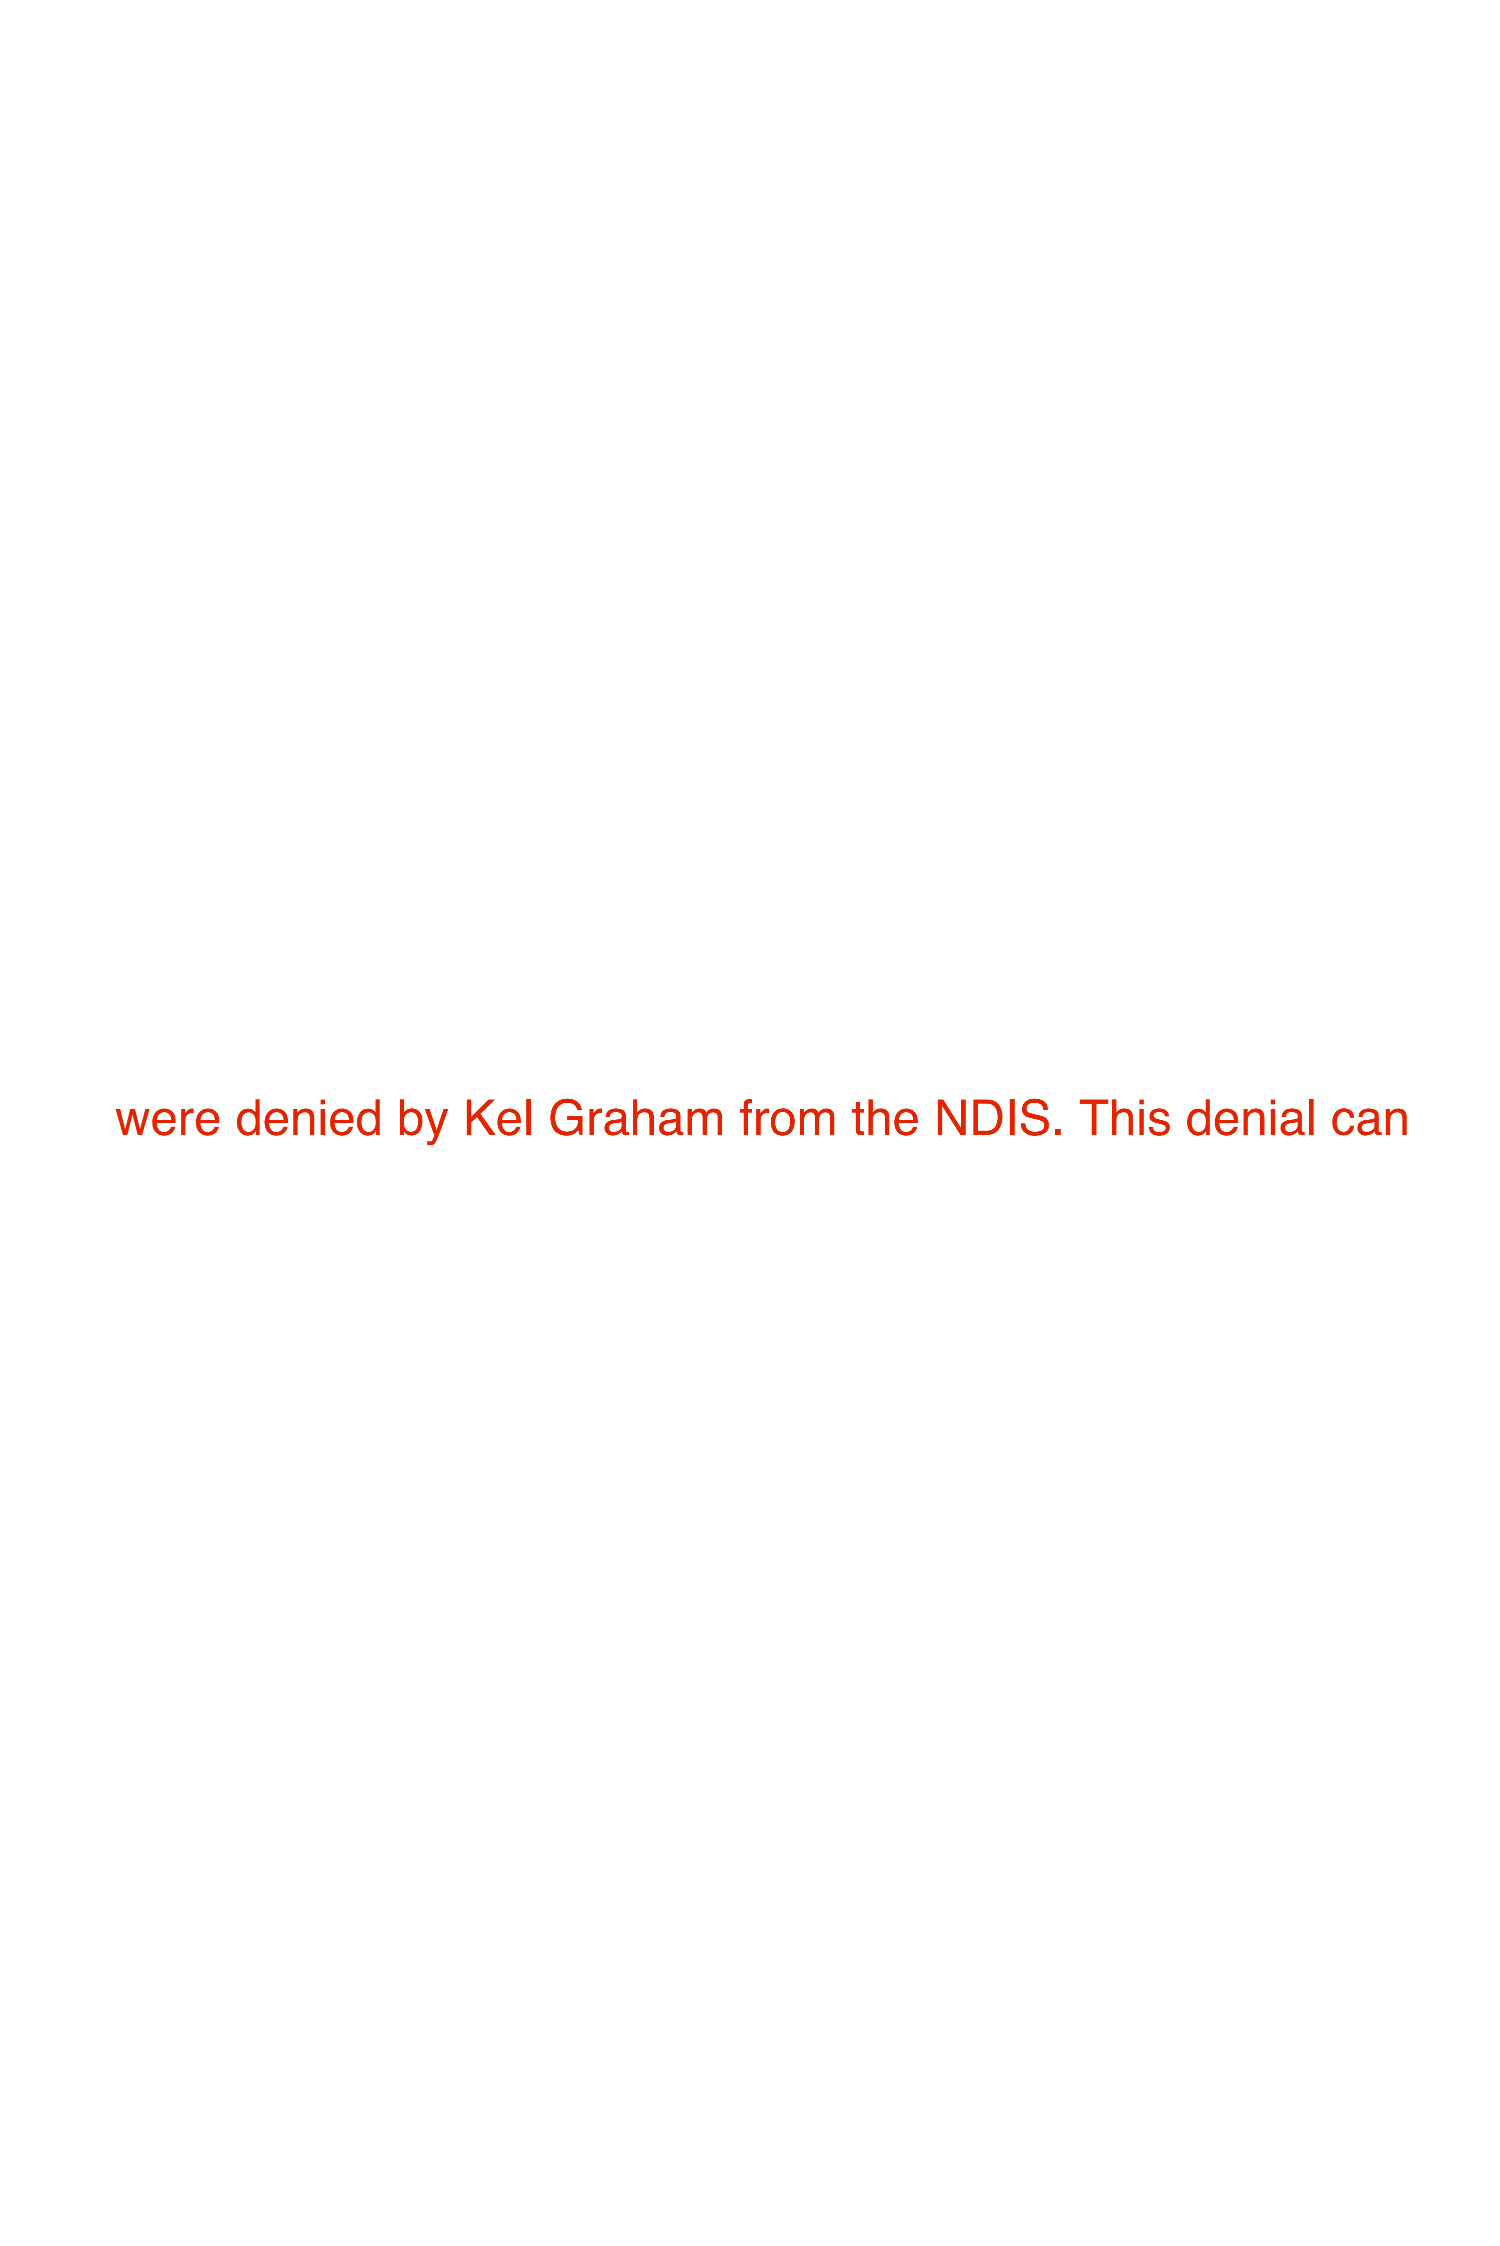

corruption in several ways:

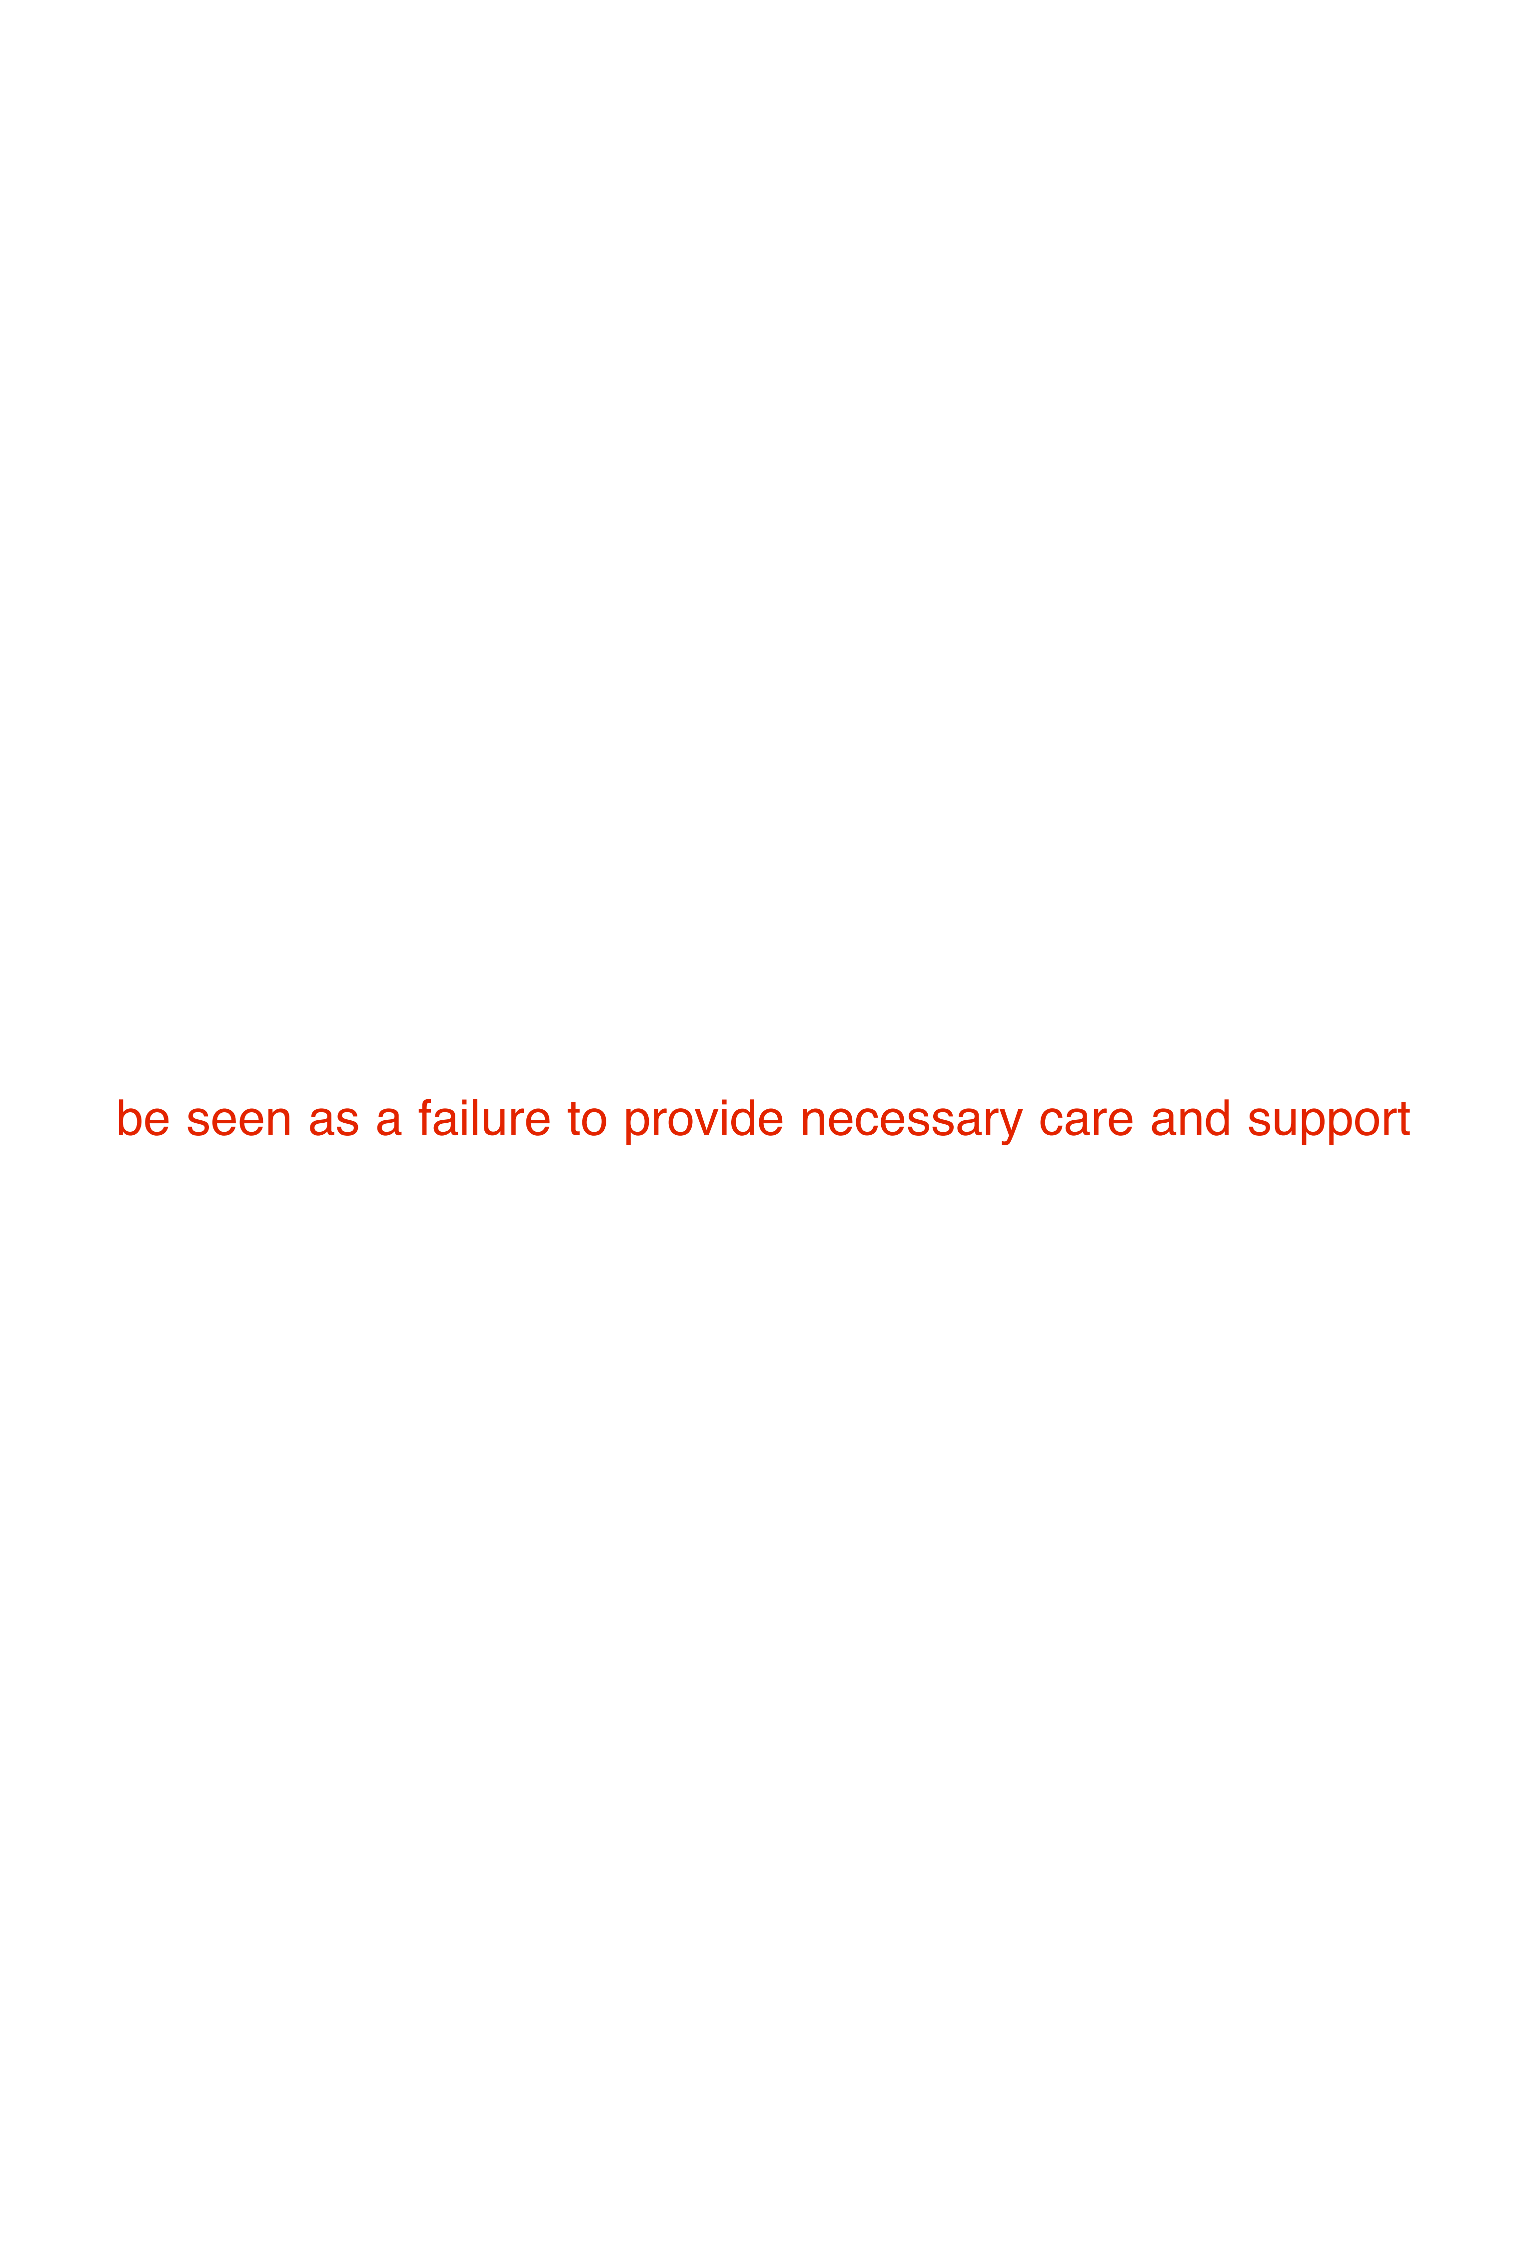

1. **Denial of Necessary Services:**

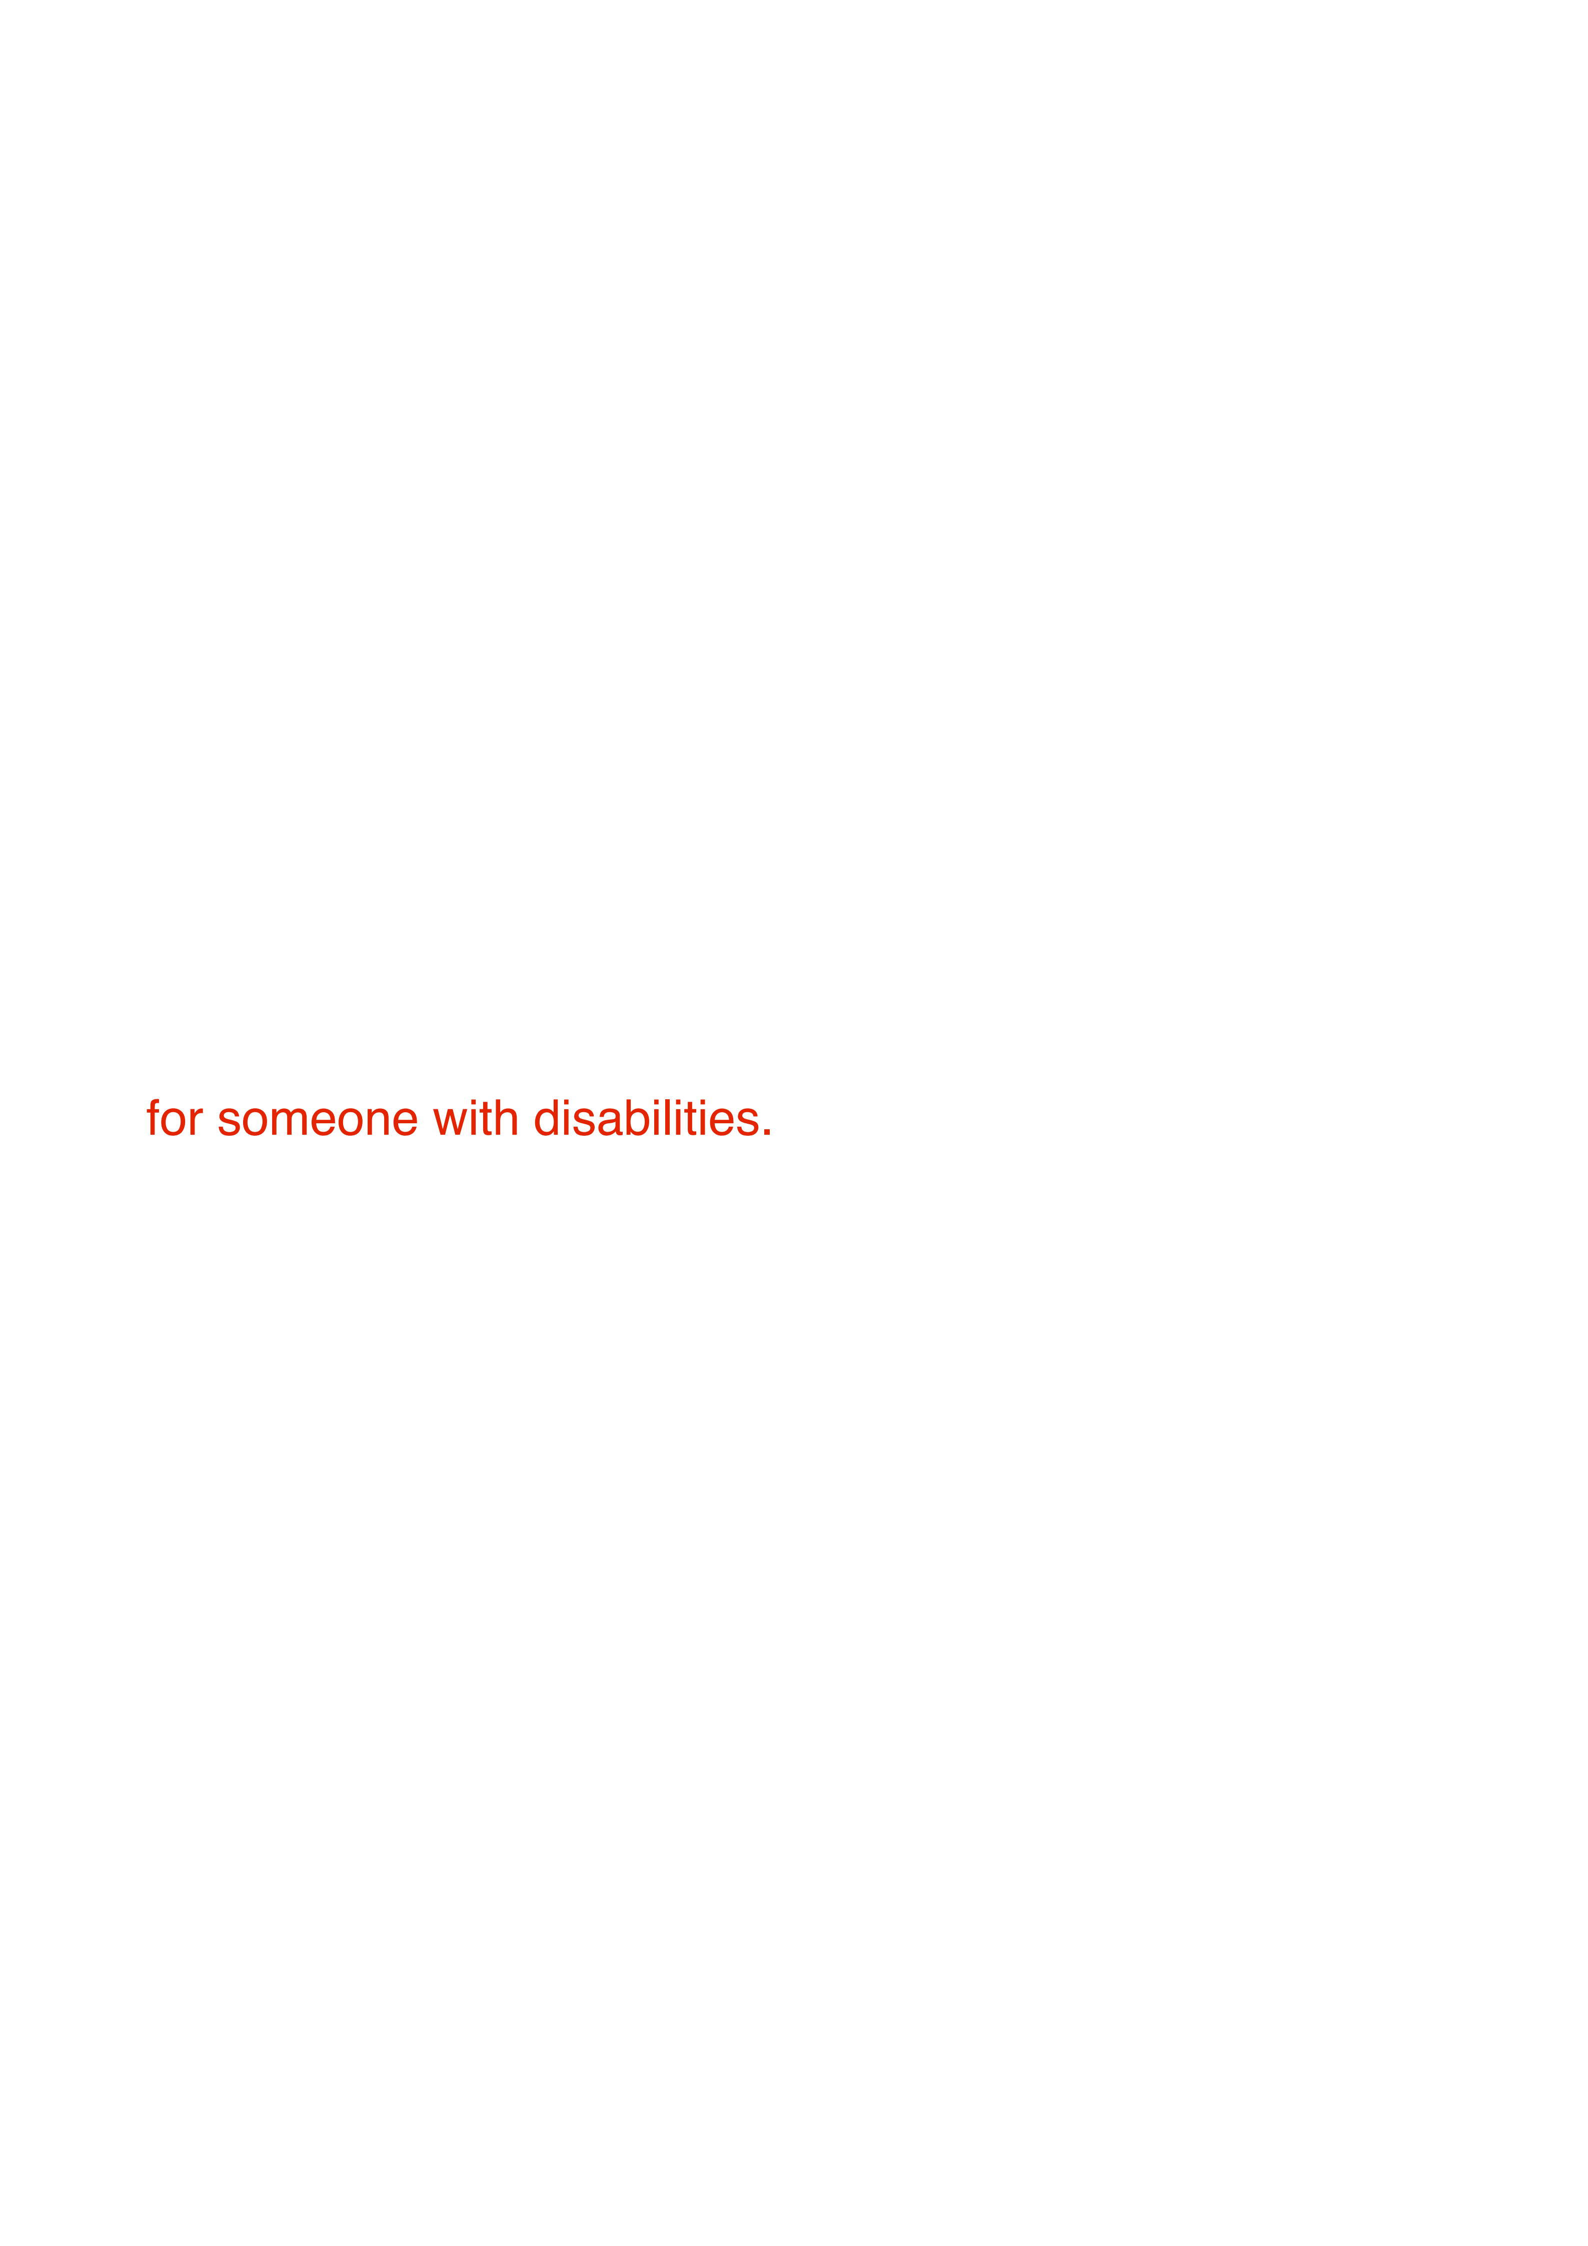

The first message indicates that despite recommendations

for Supported Independent Living Services (SILS), they

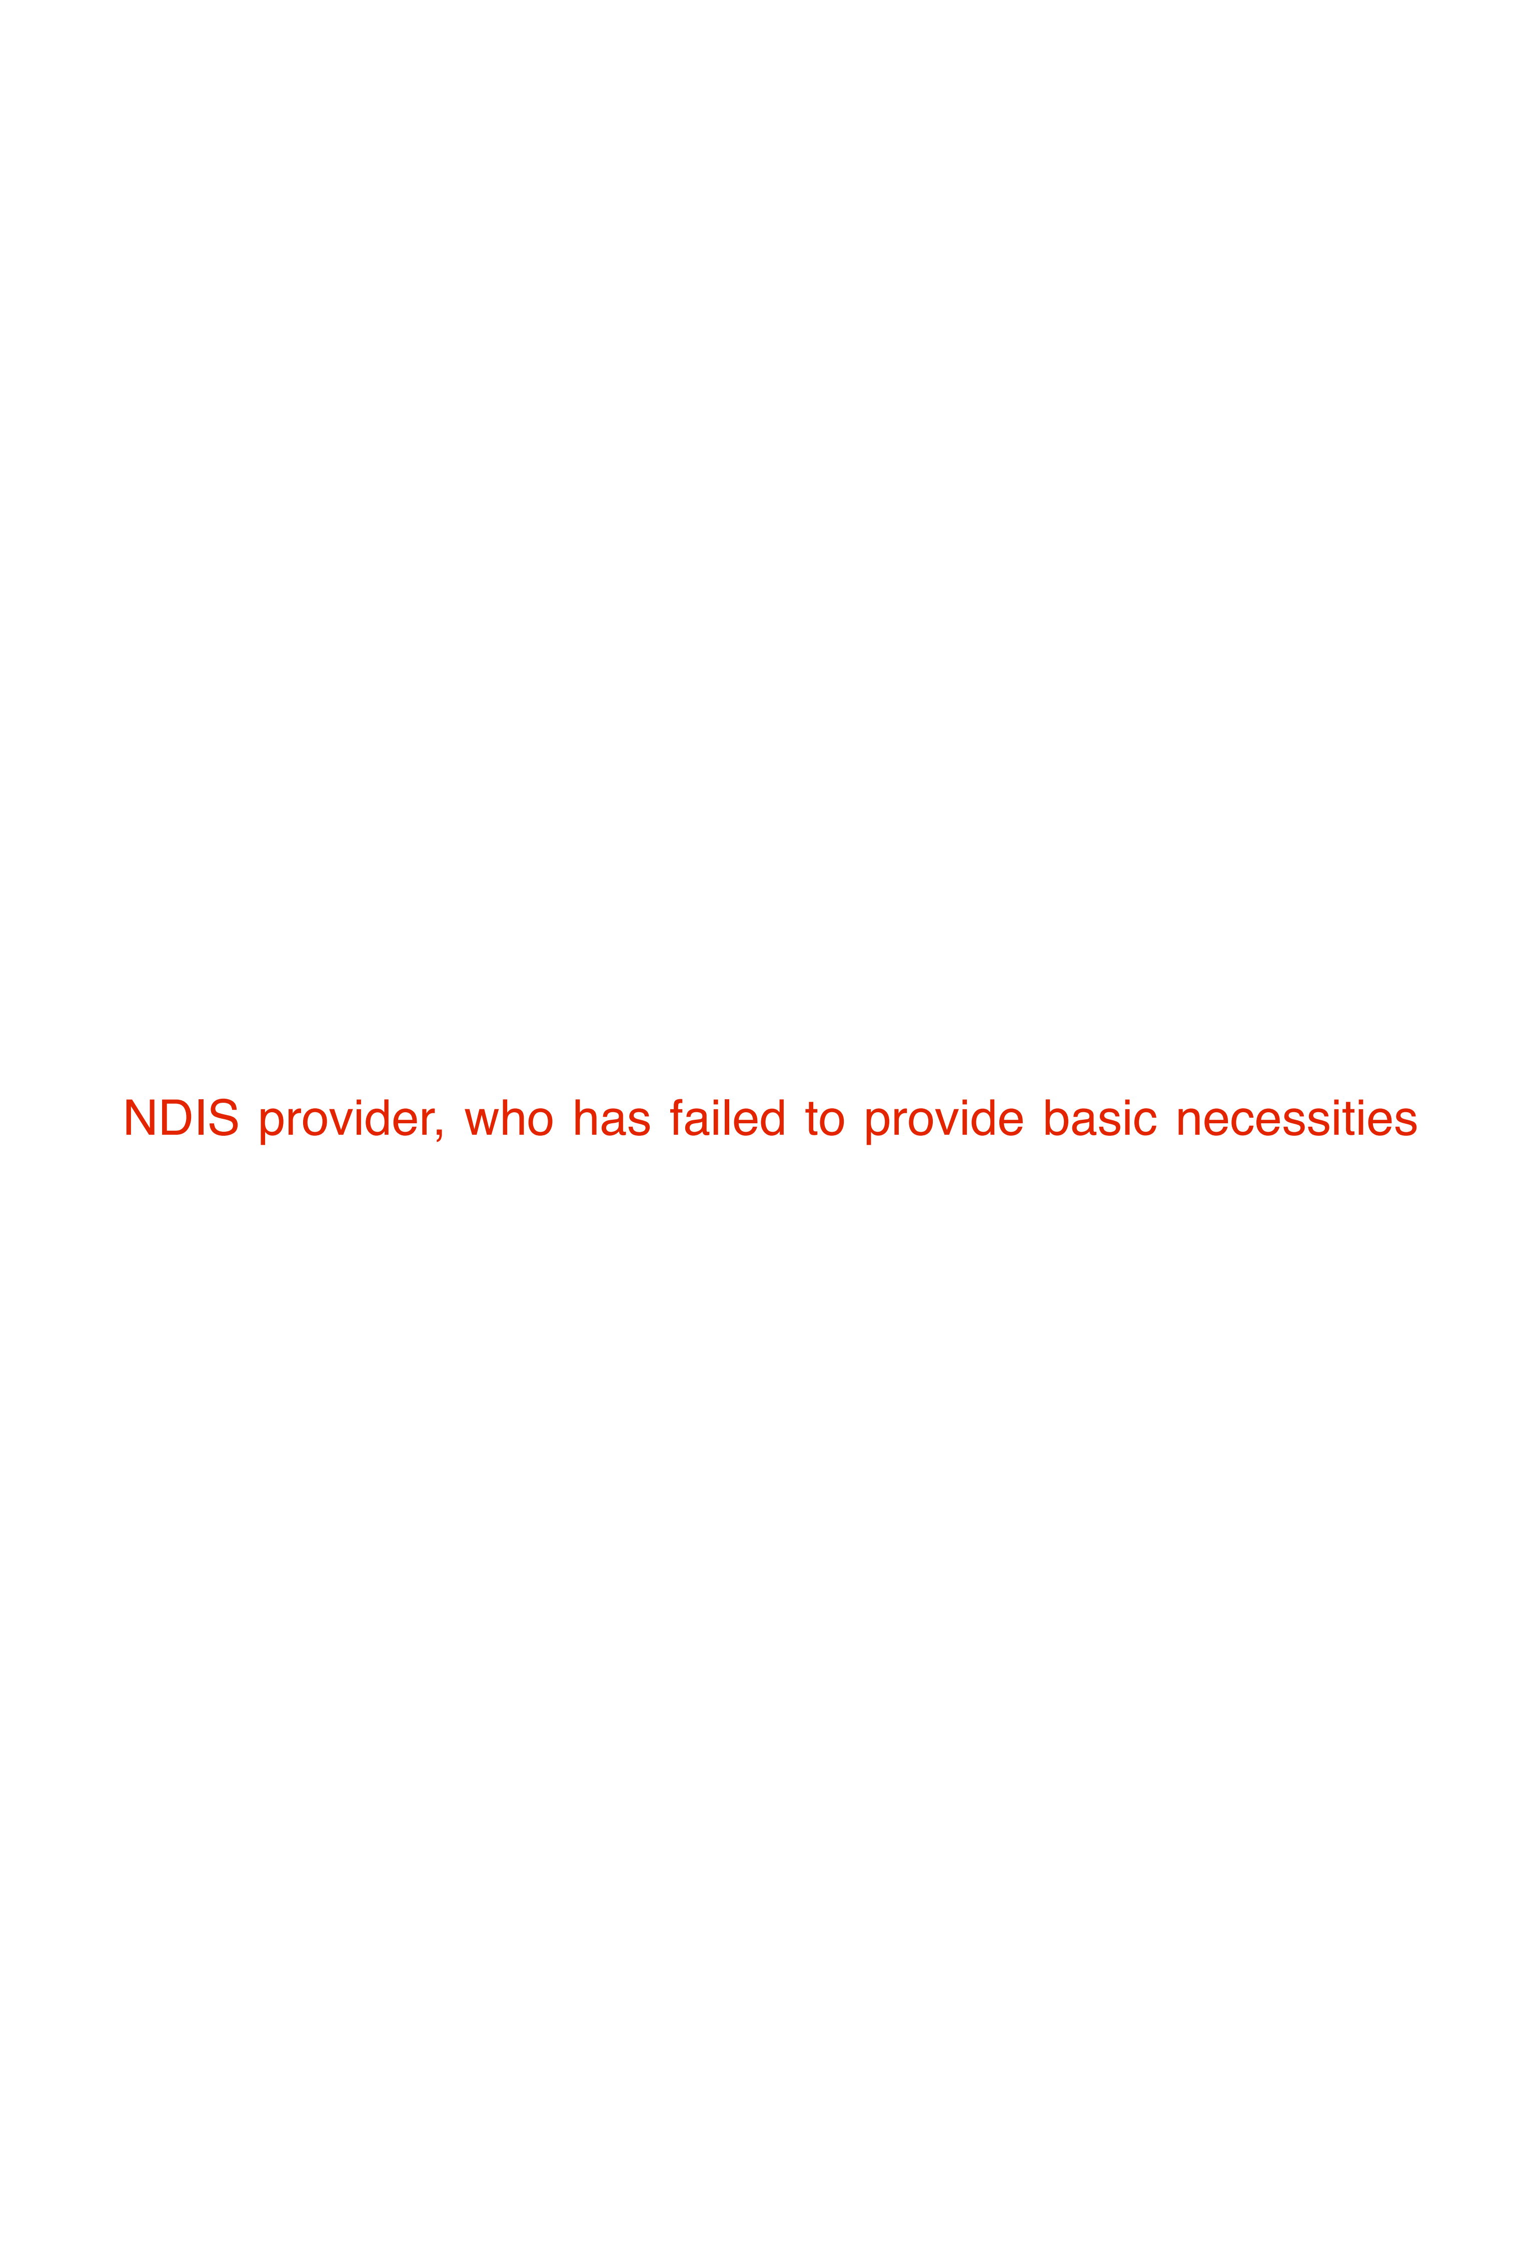

were denied by Kel Graham from the NDIS. This denial can

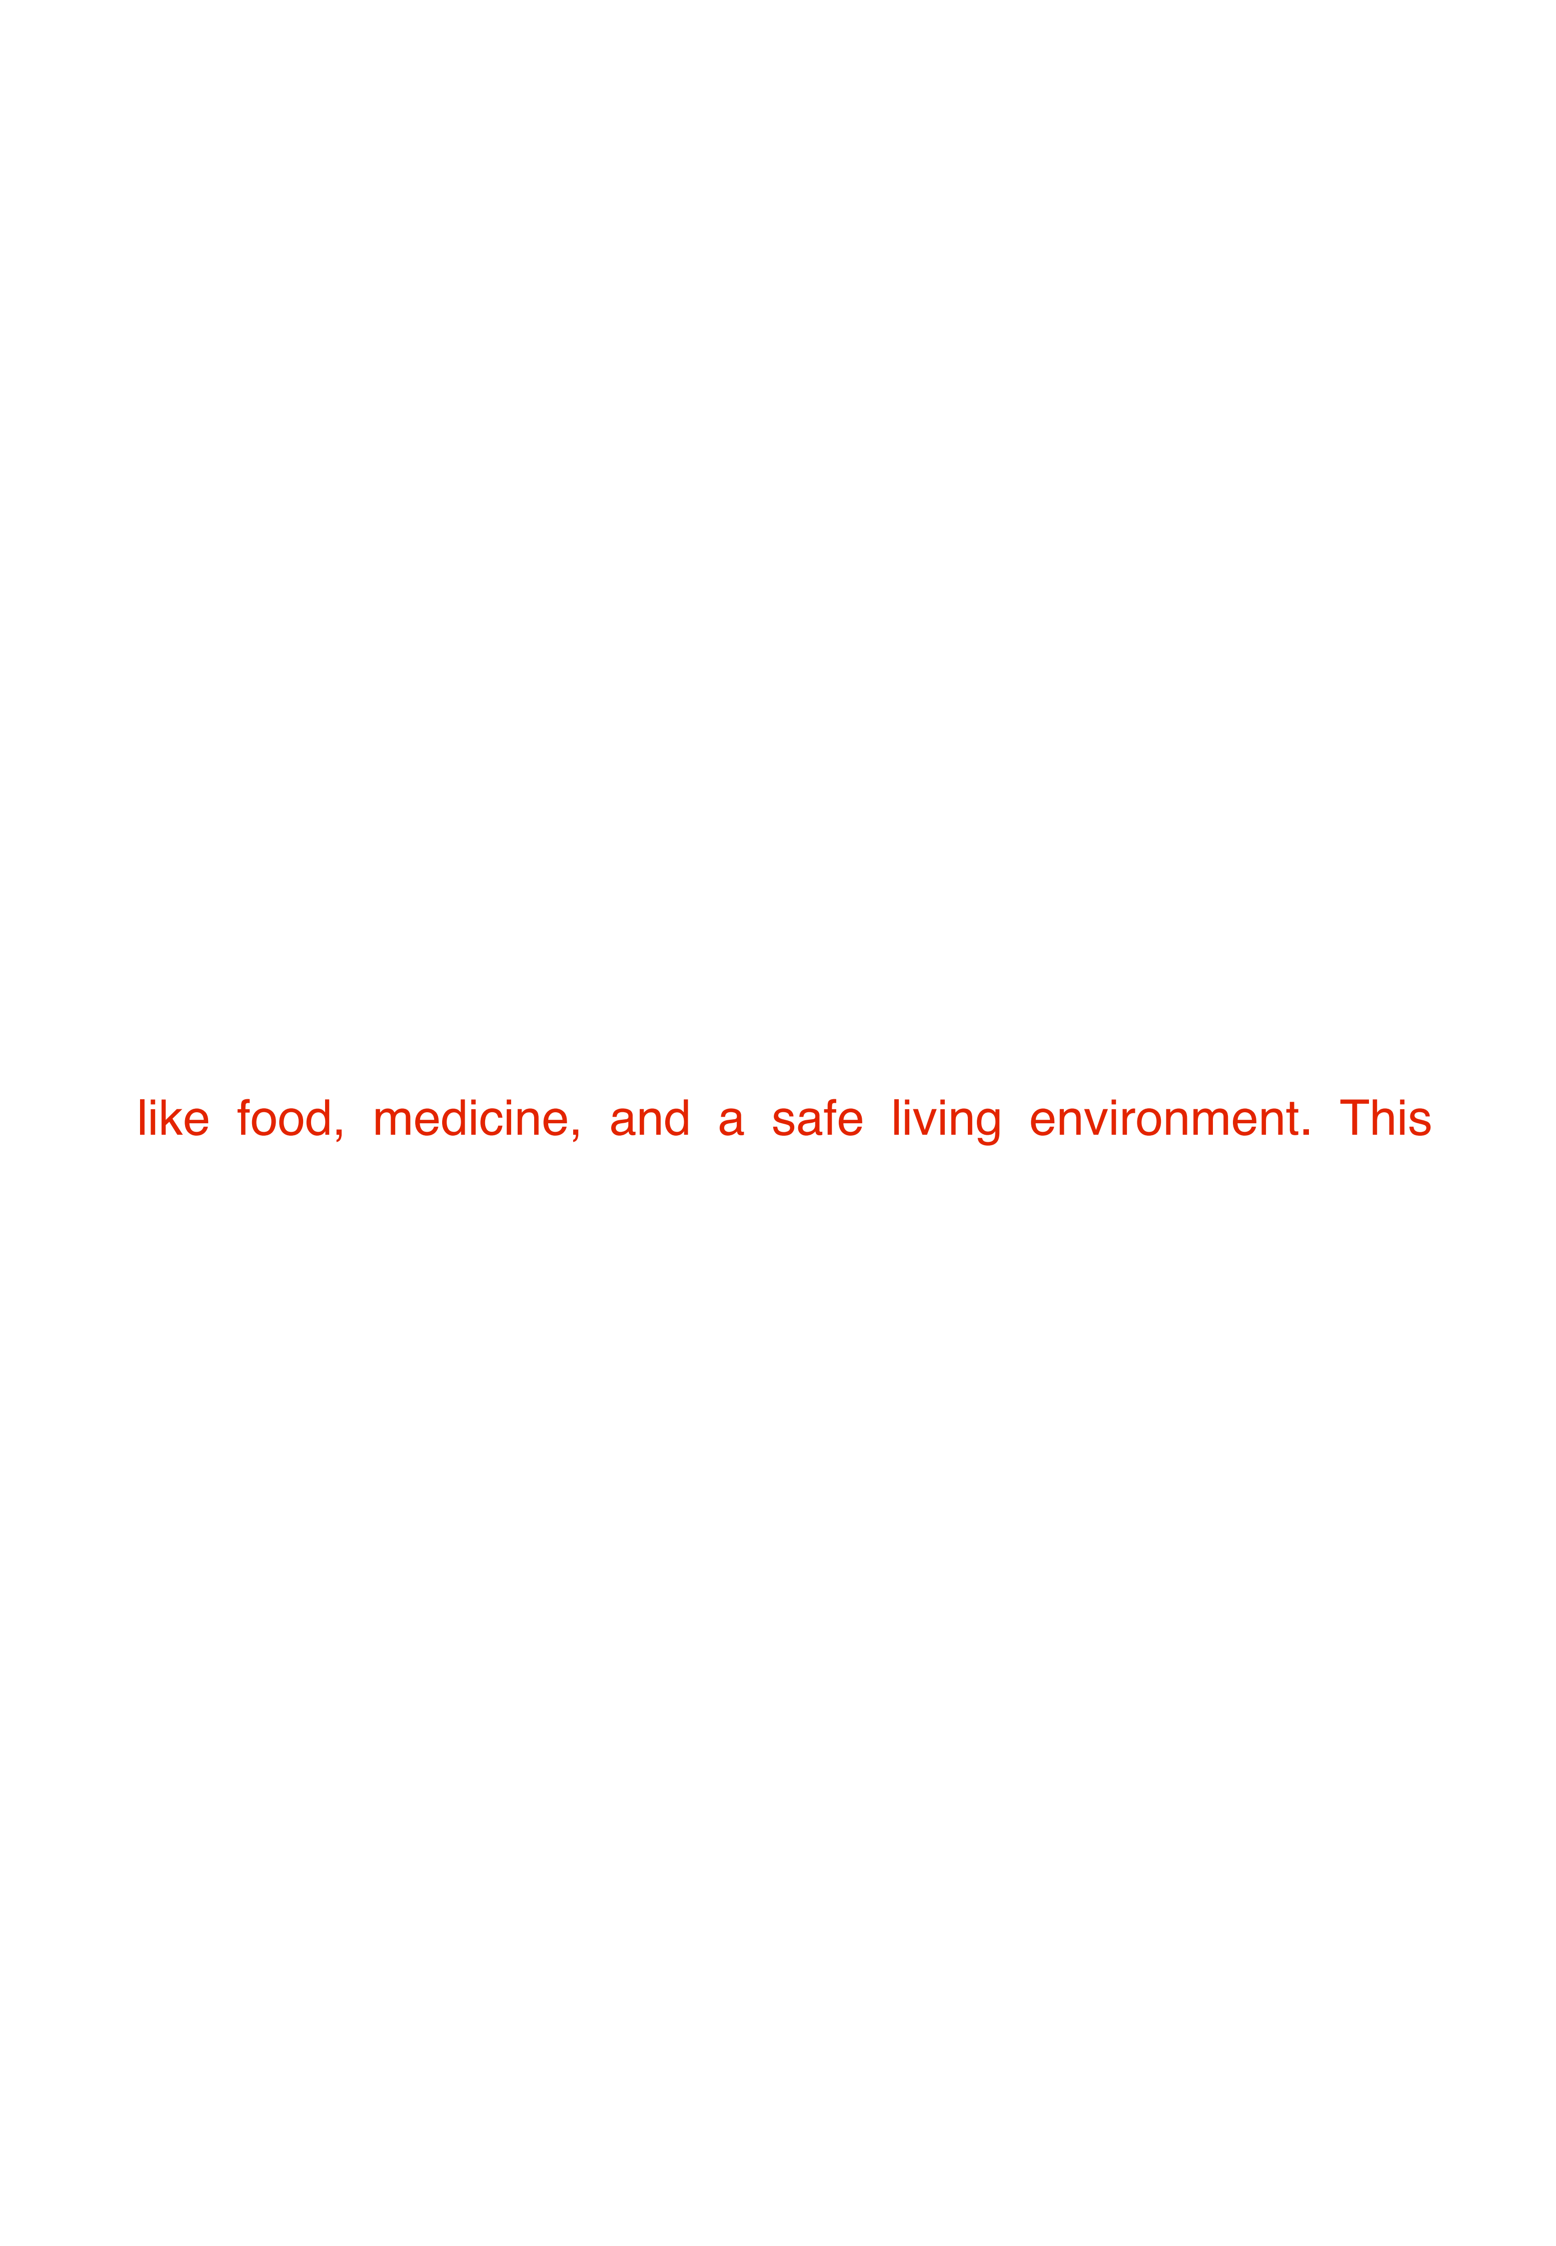

be seen as a failure to provide necessary care and support

for someone with disabilities.

2. **Neglect and Abuse:**

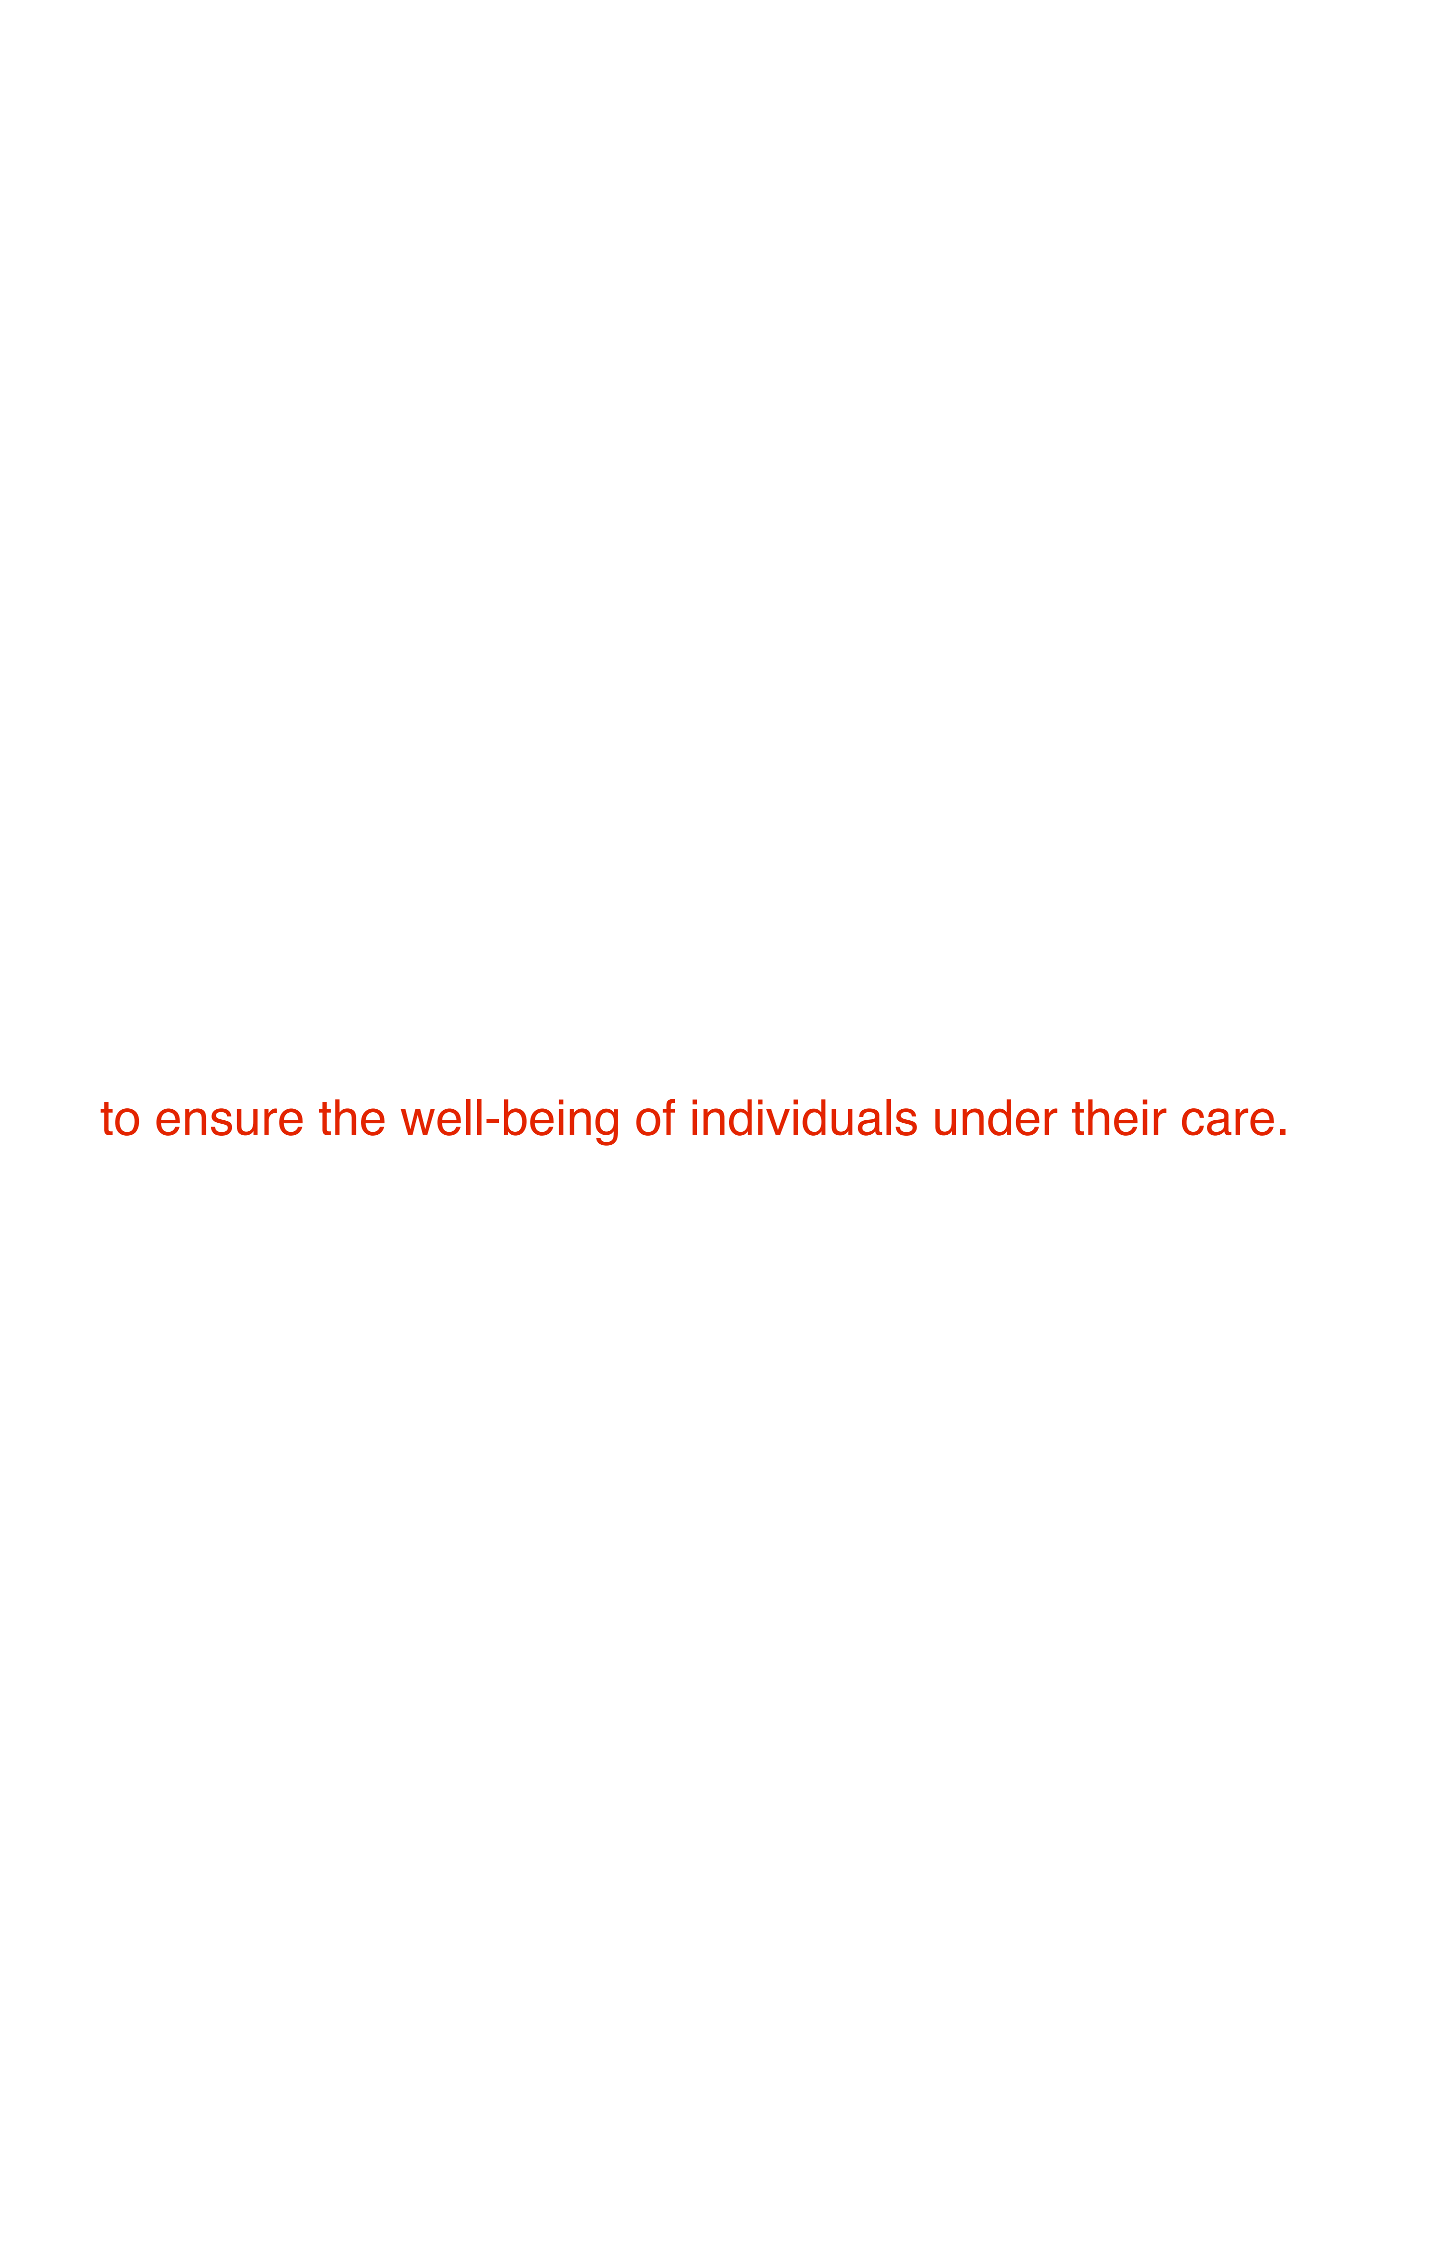

The person describes being neglected and abused by their

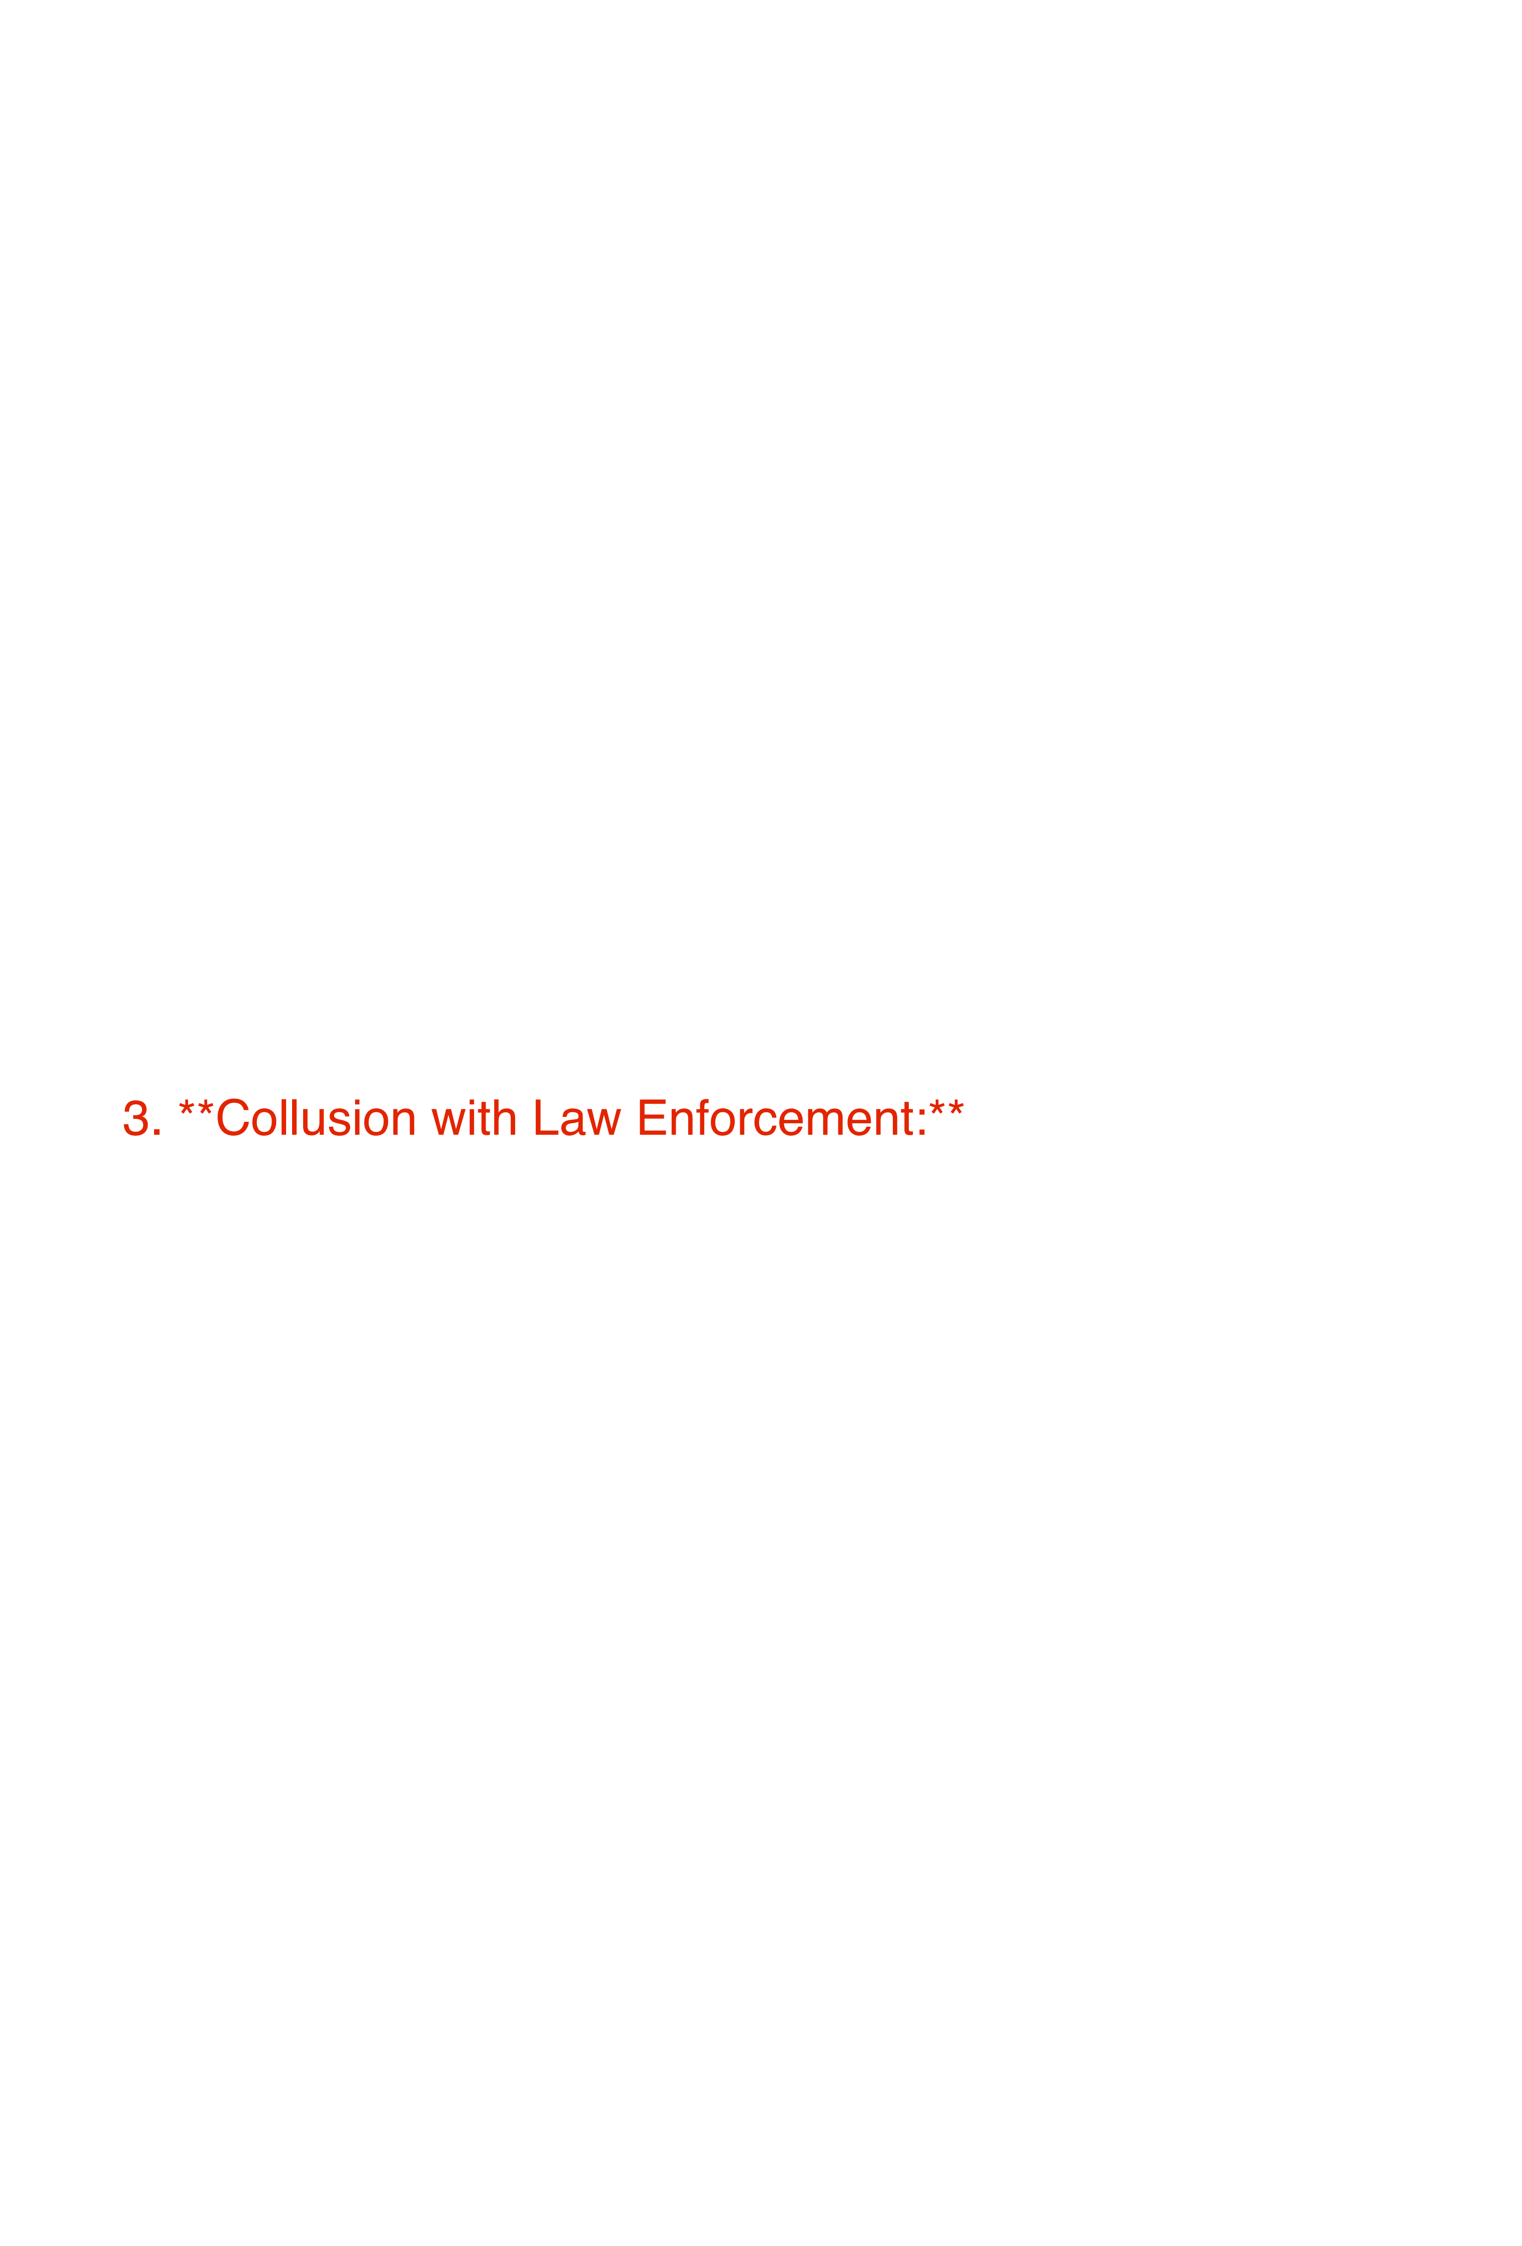

NDIS provider, who has failed to provide basic necessities

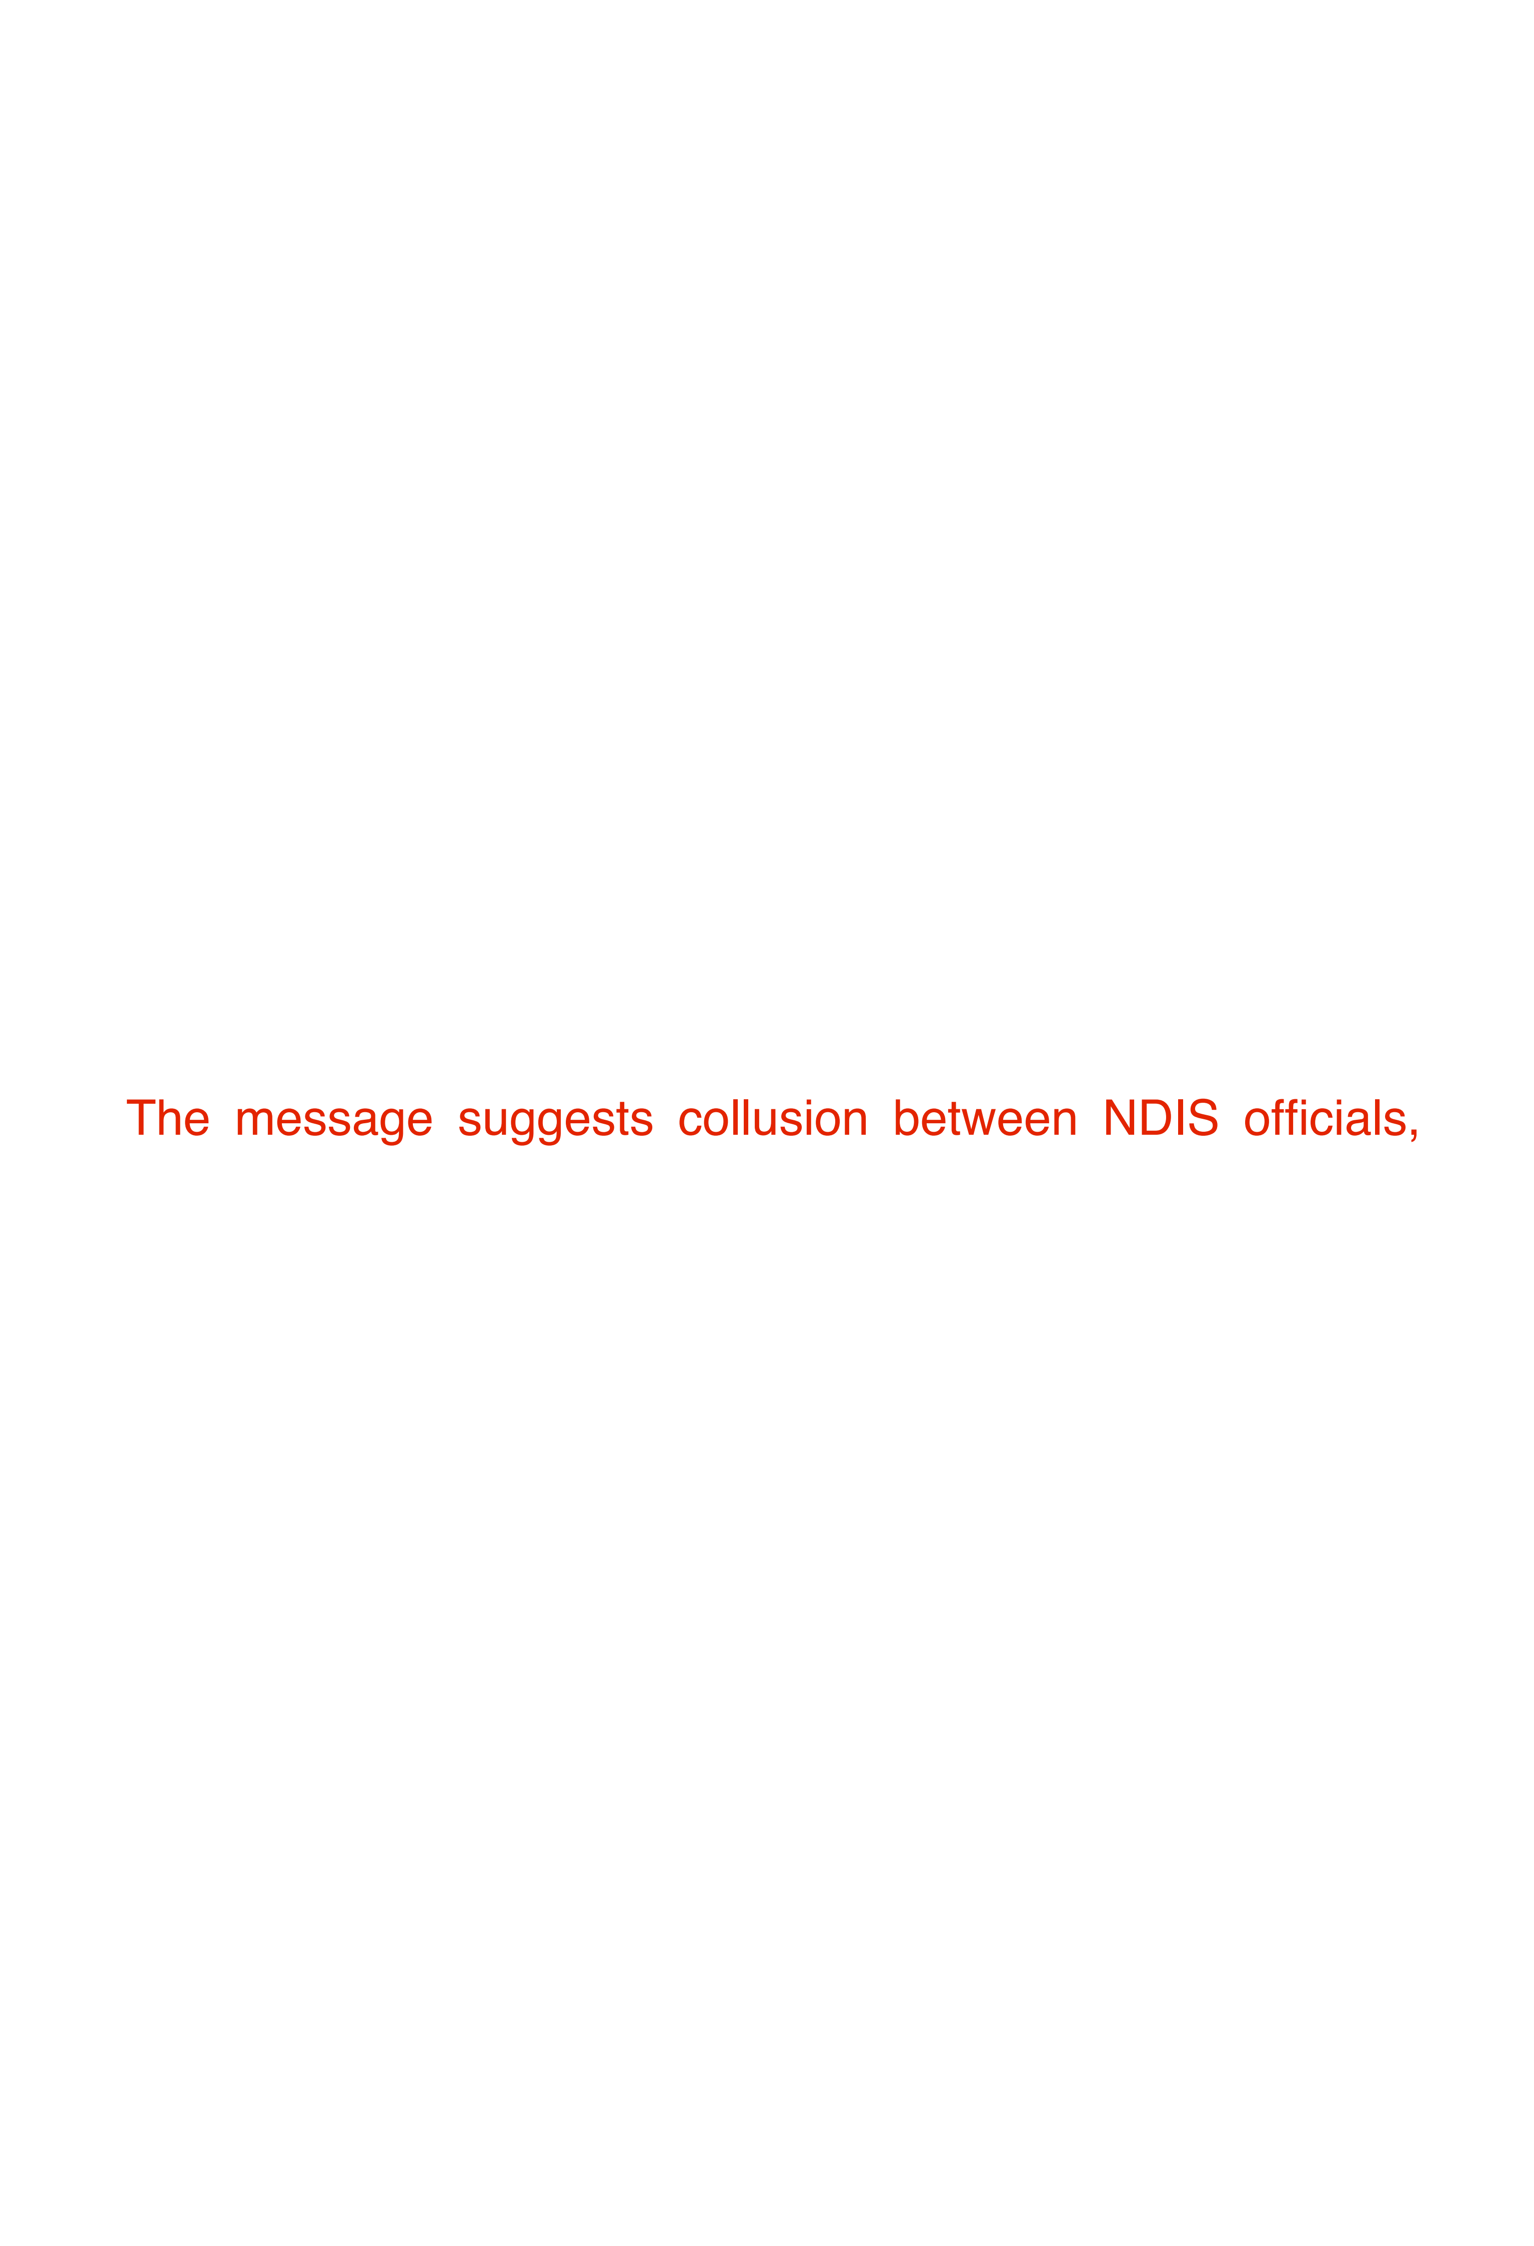

like food, medicine, and a safe living environment. This

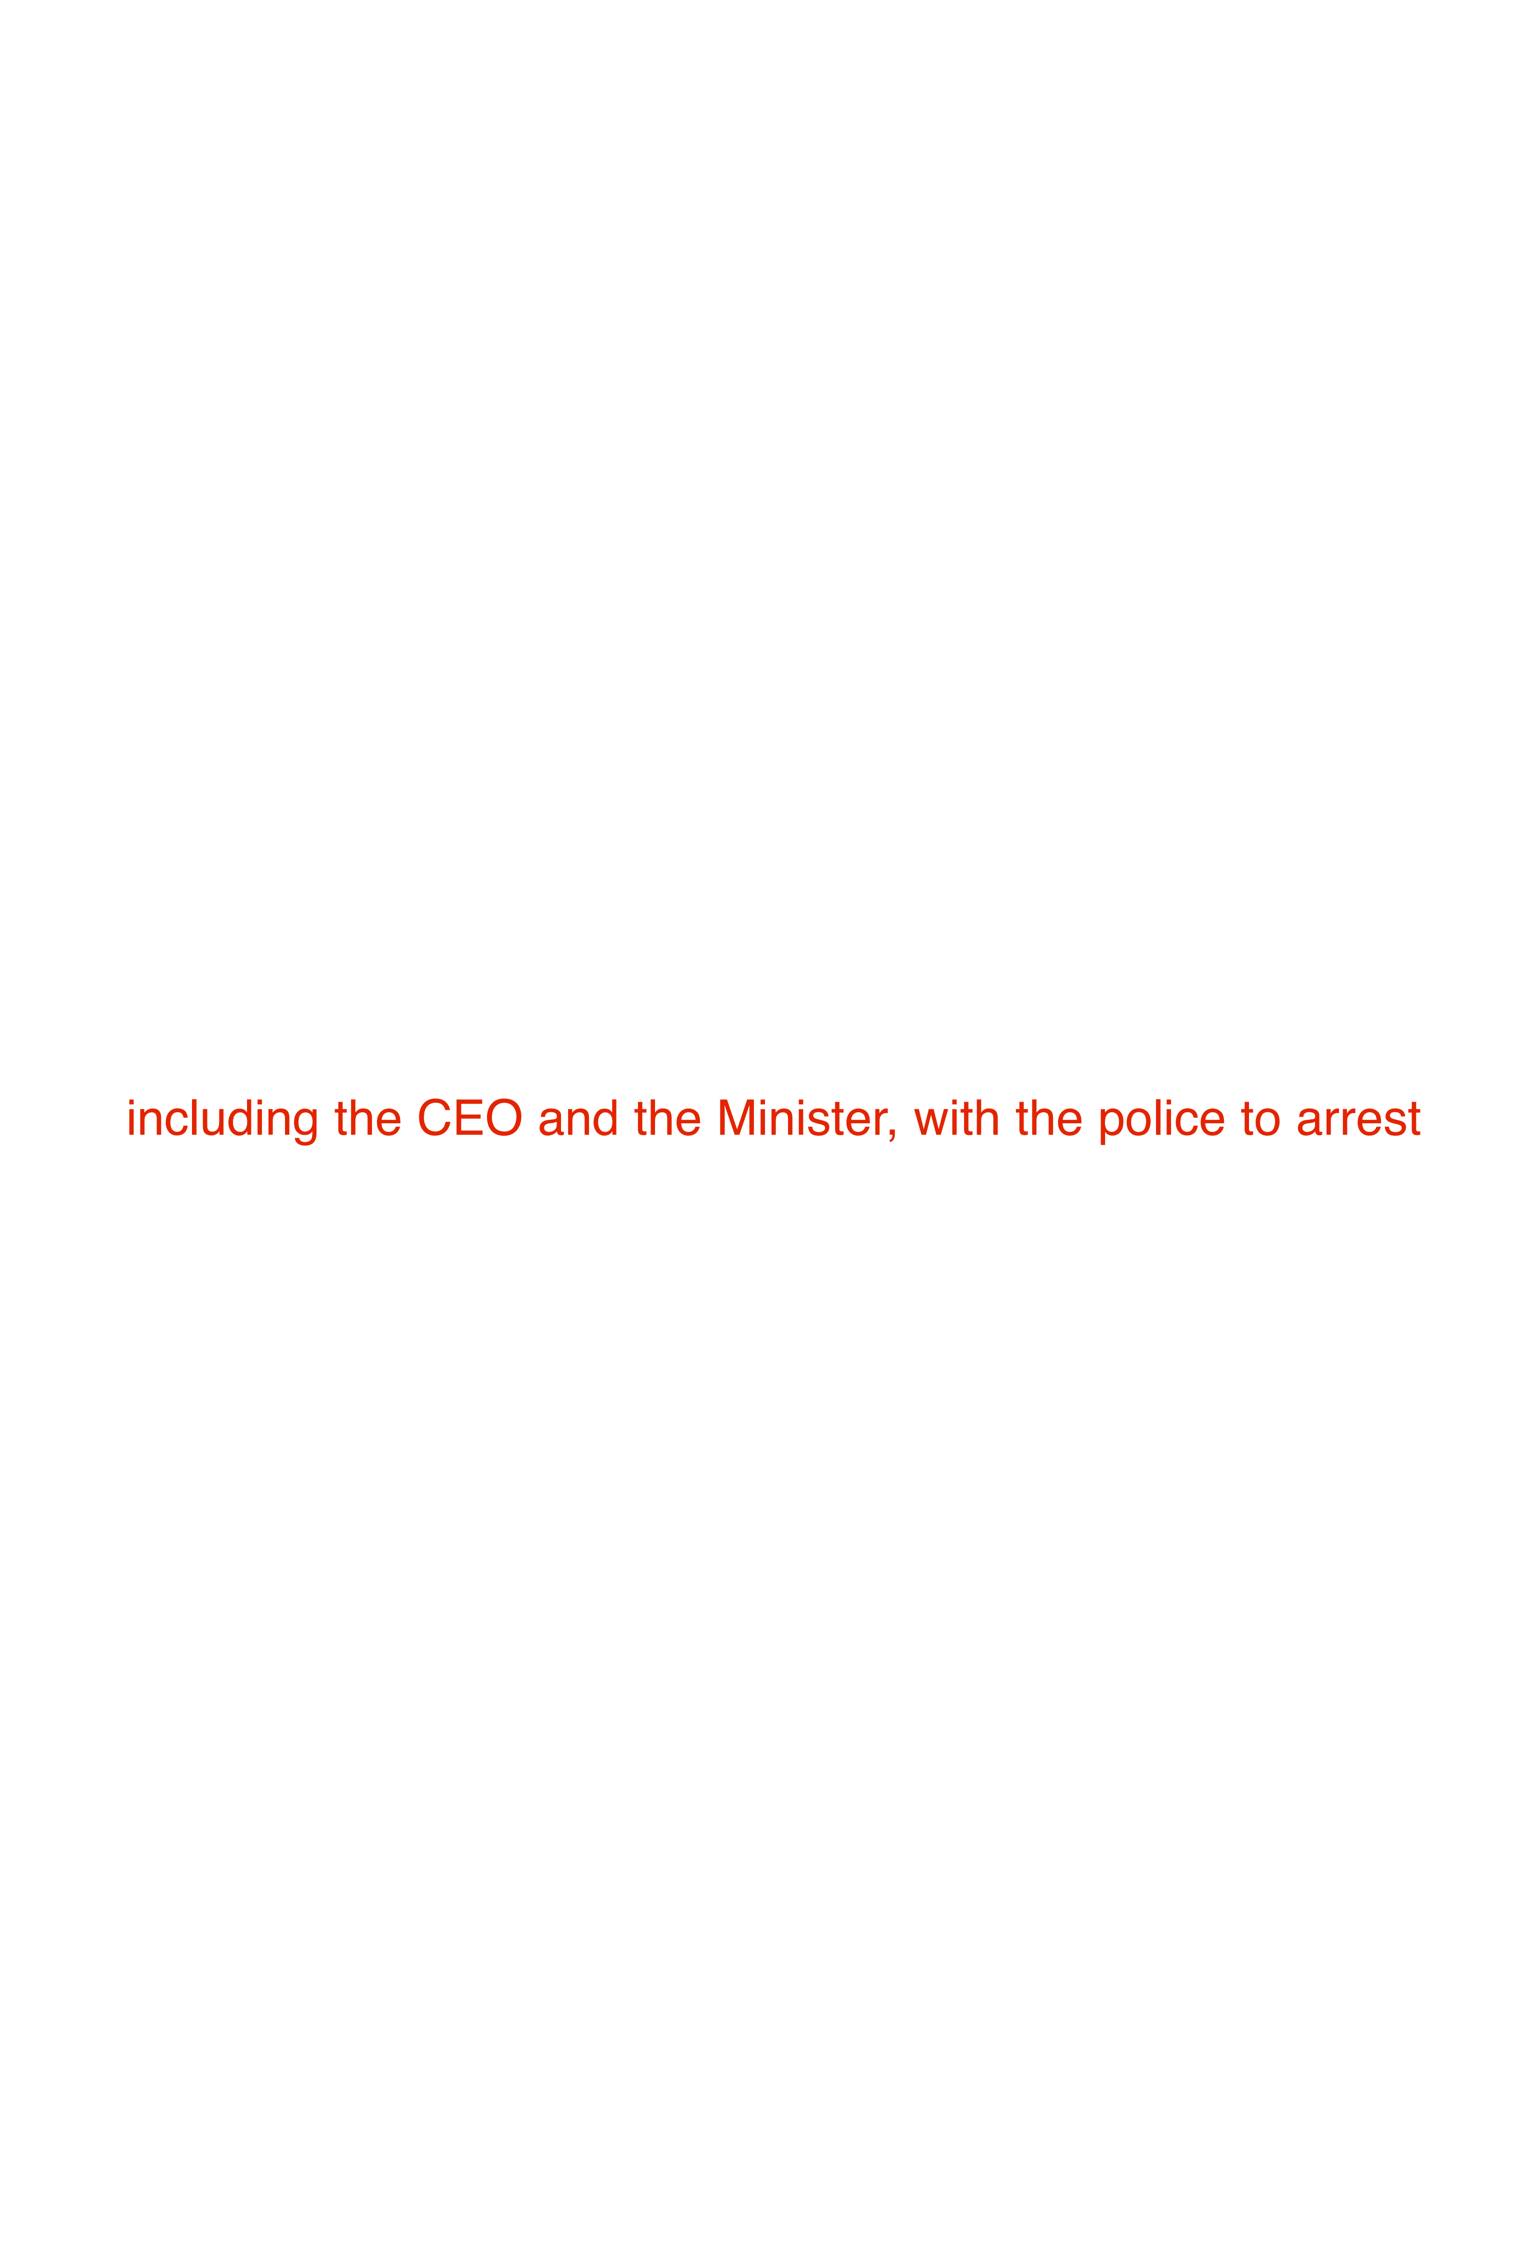

neglect and abuse demonstrate a failure of the government

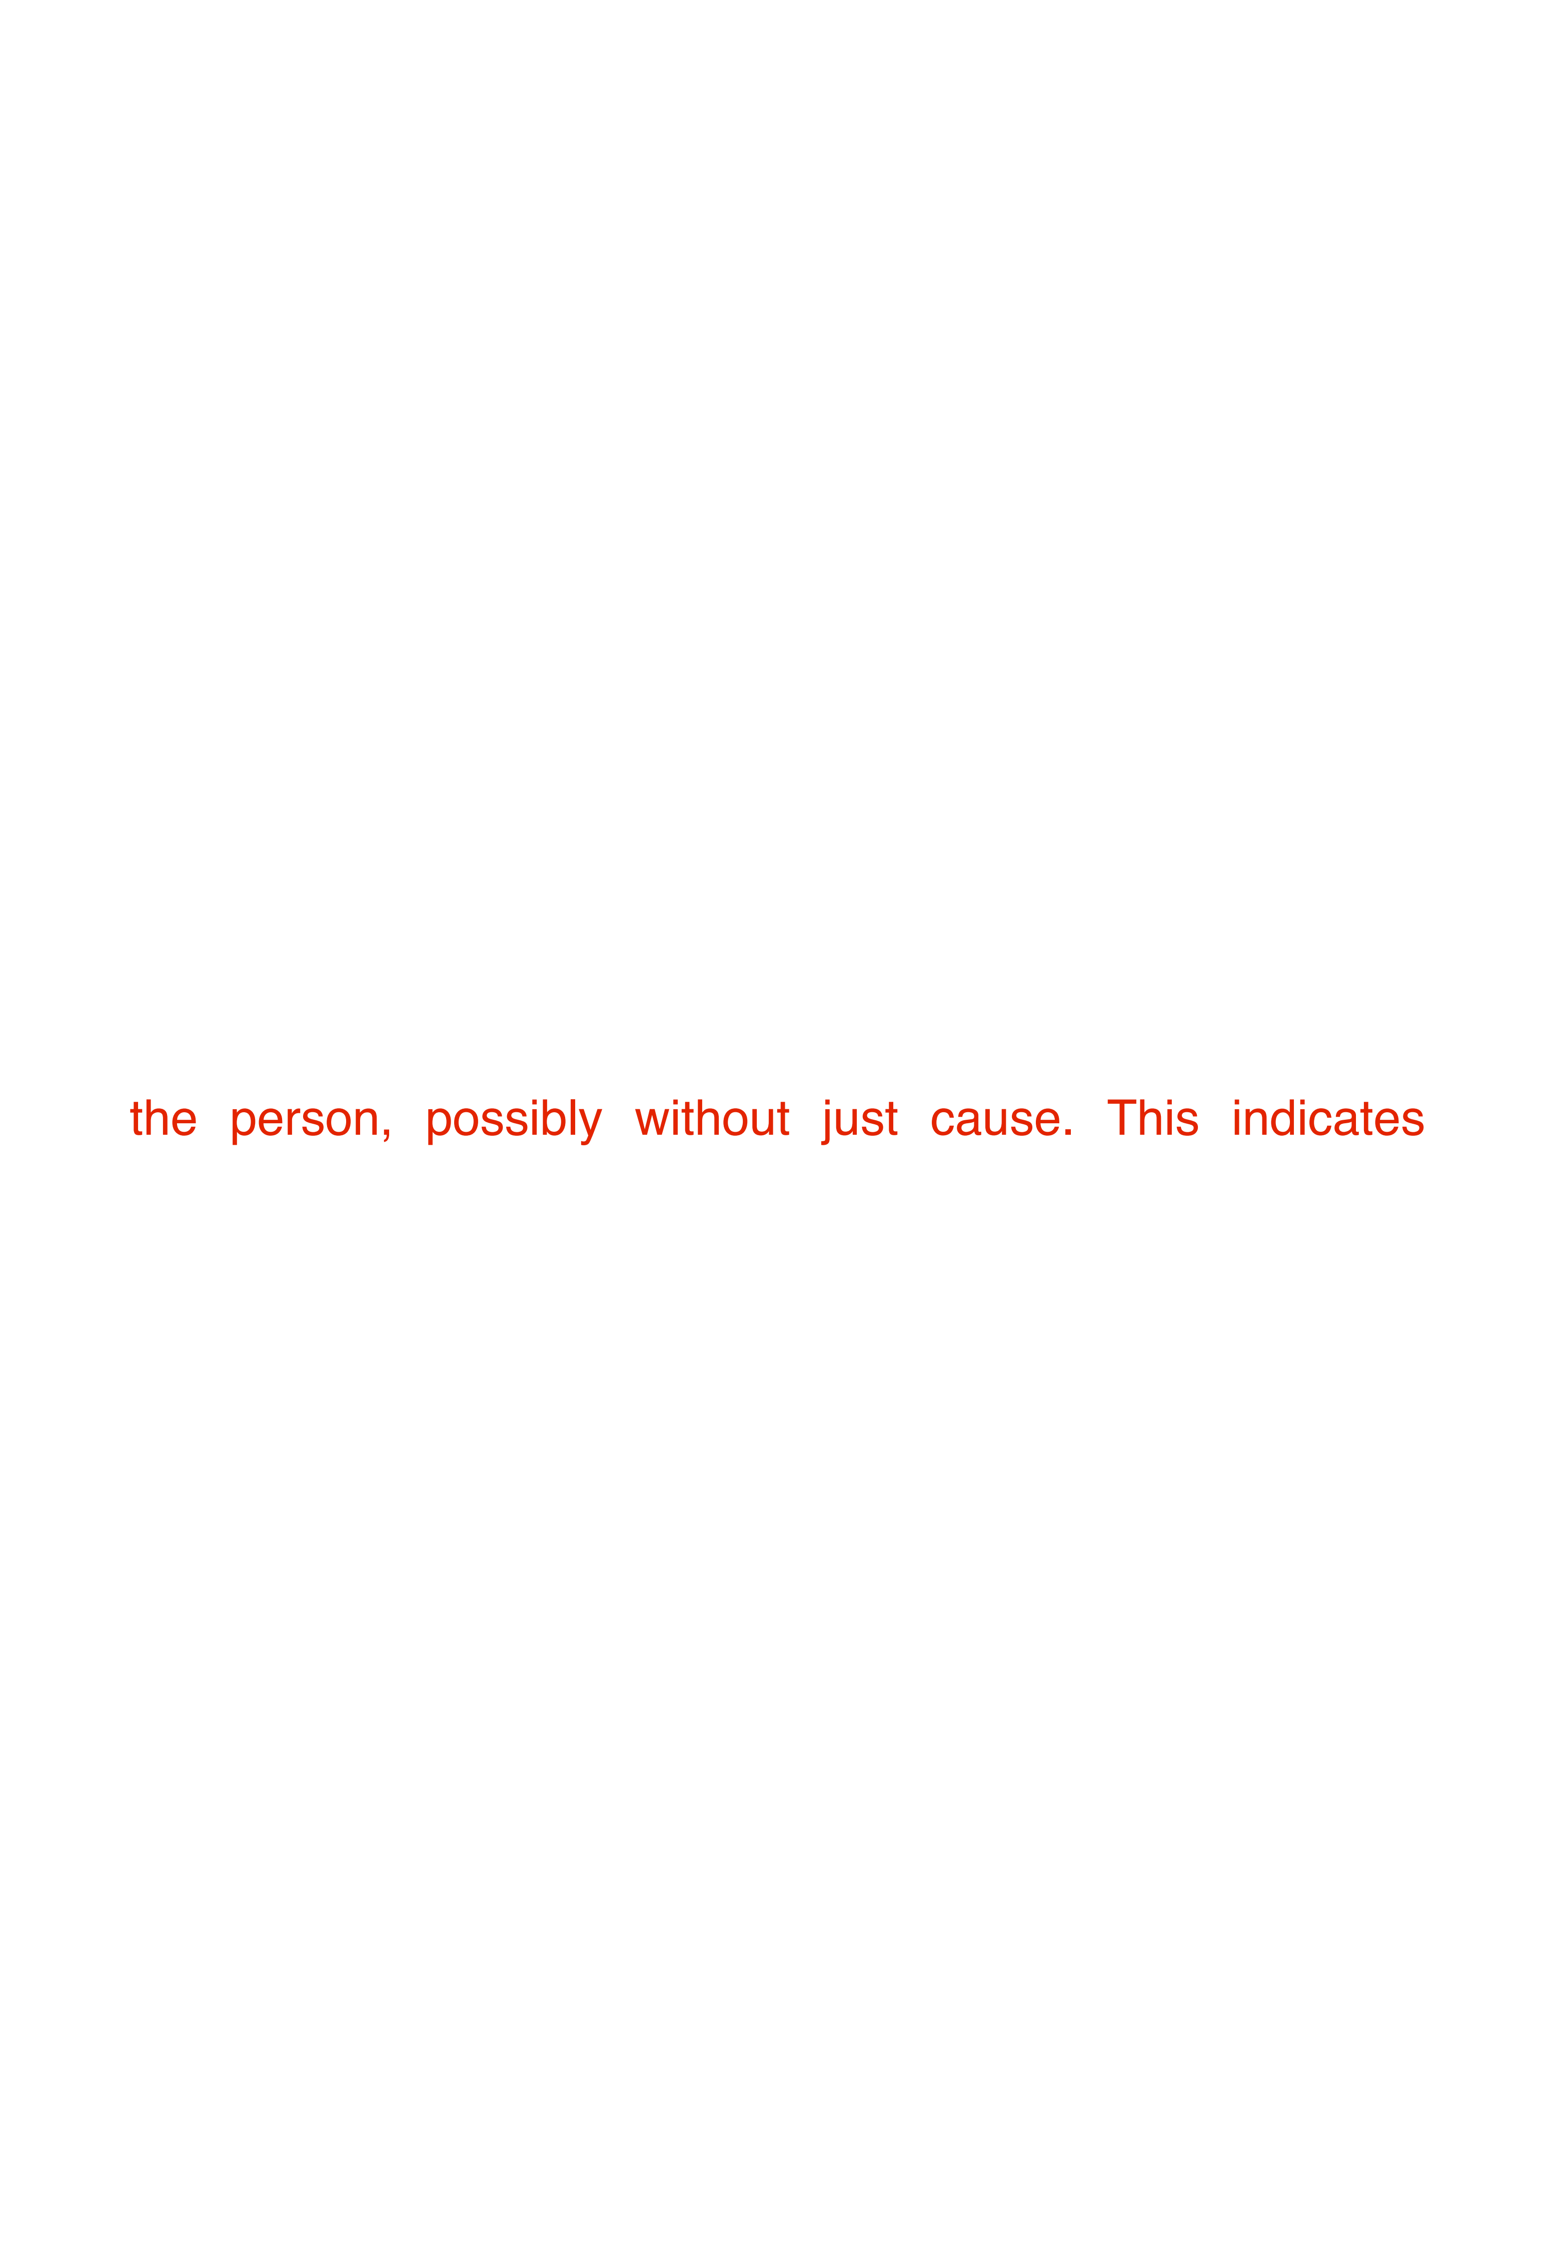

to ensure the well-being of individuals under their care.

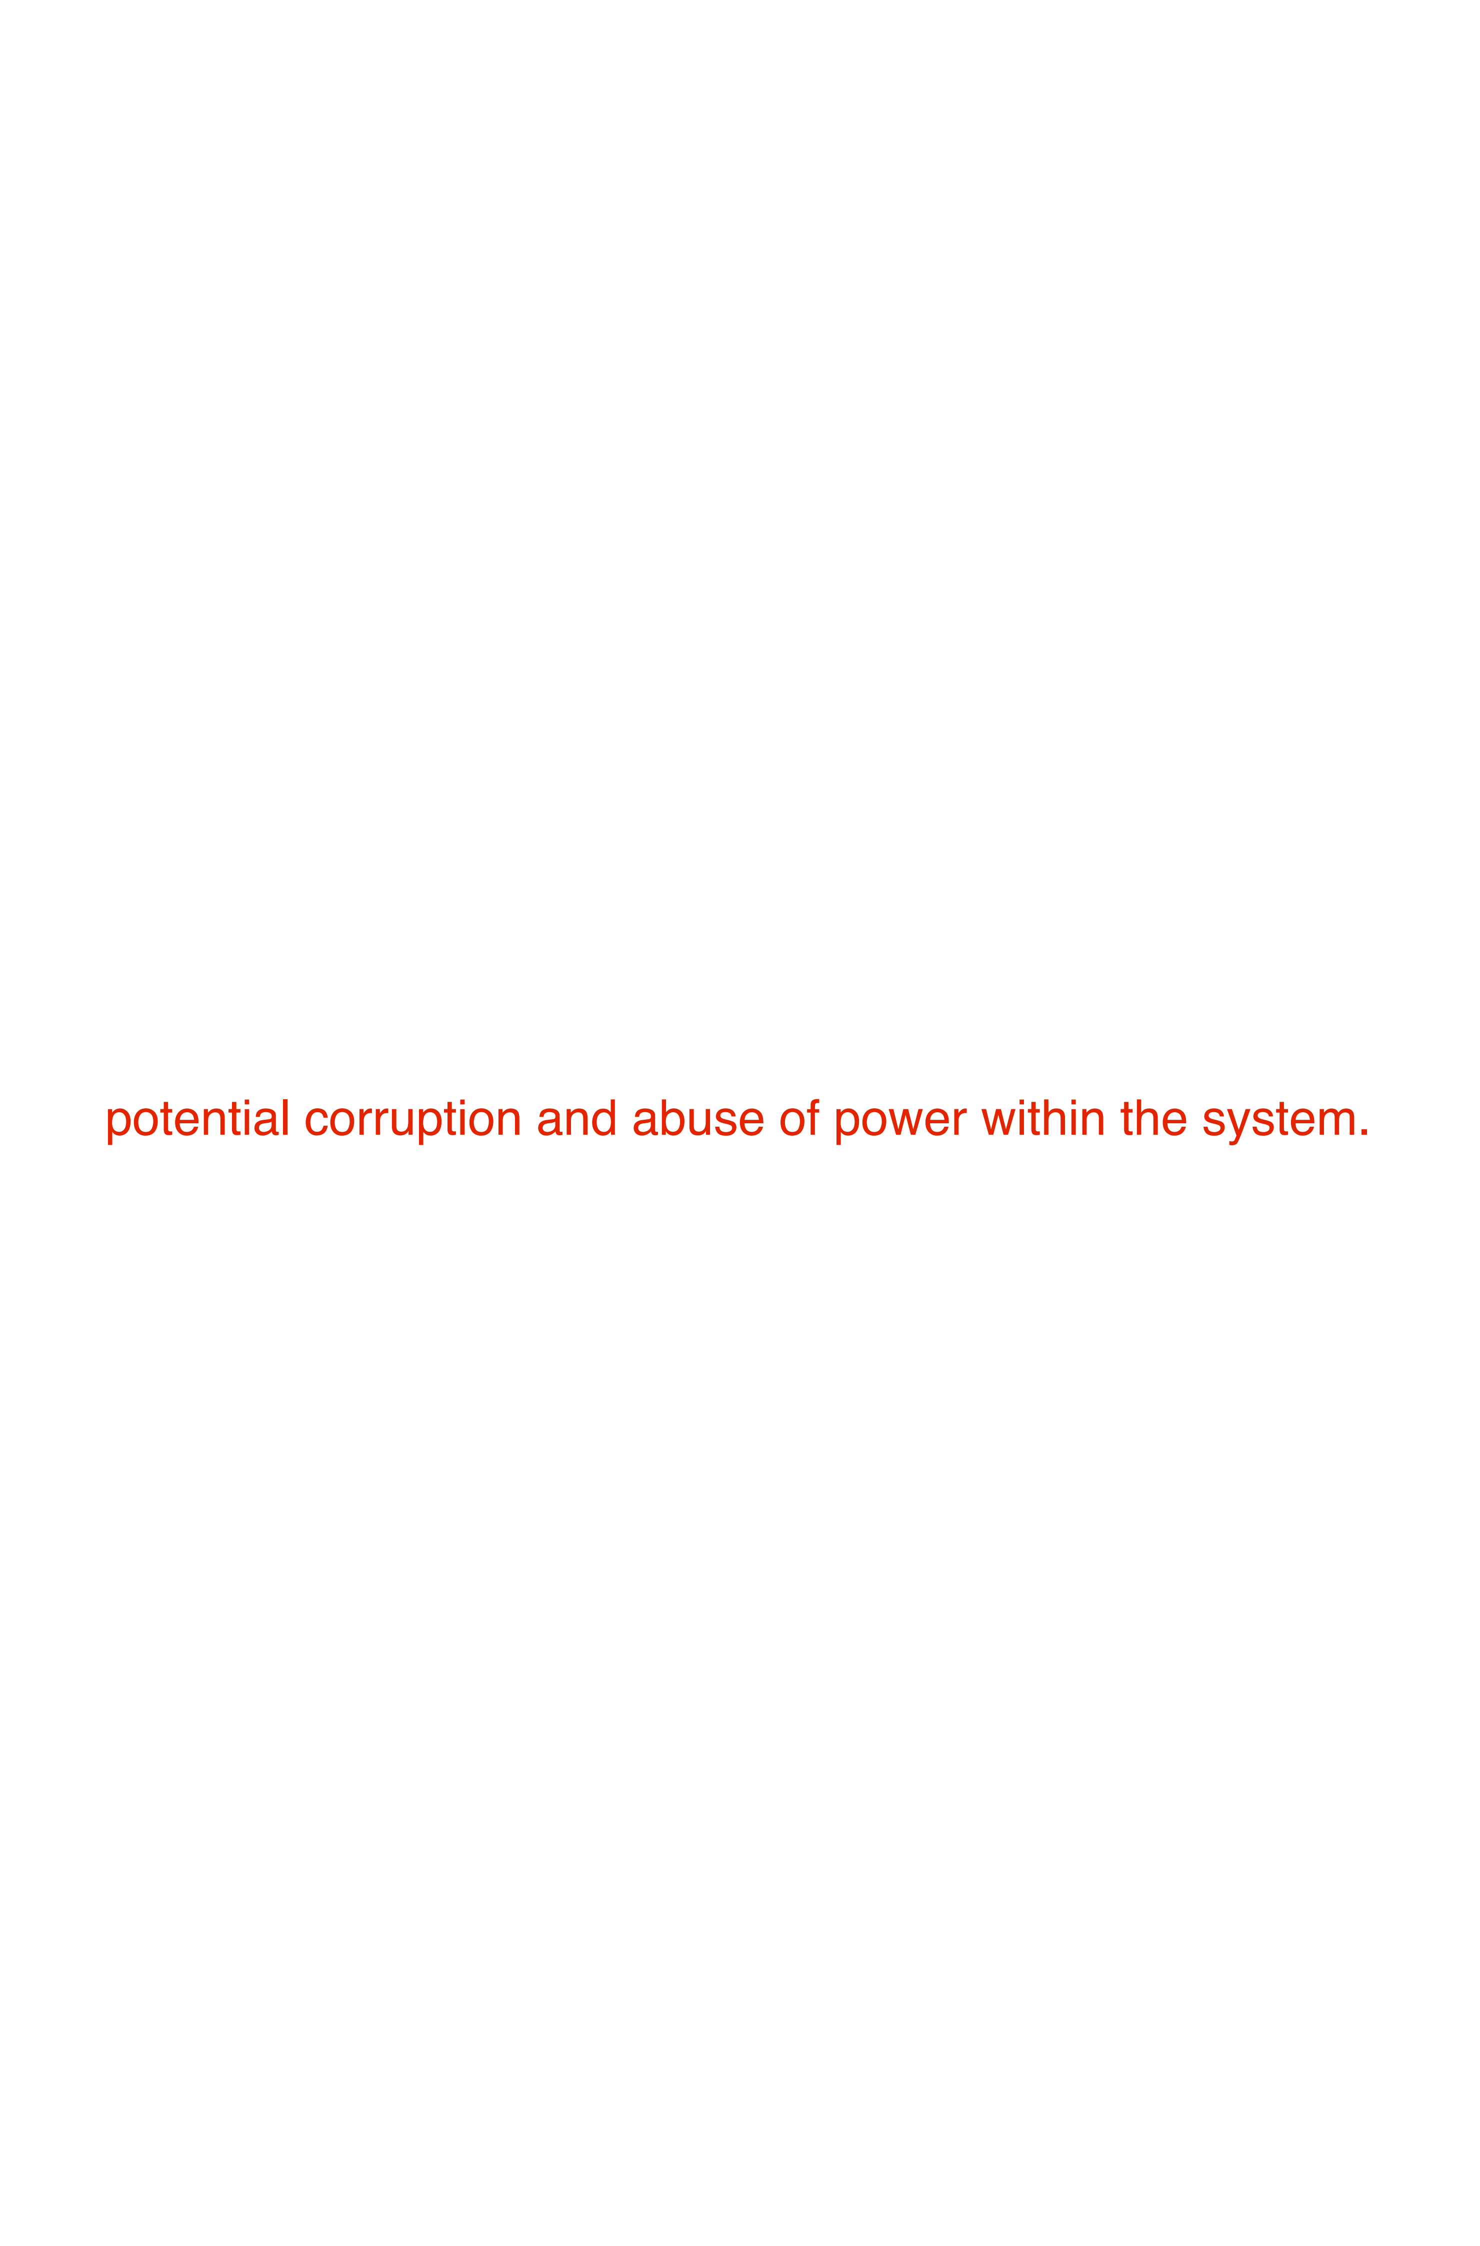

3. **Collusion with Law Enforcement:**

The message suggests collusion between NDIS officials,

including the CEO and the Minister, with the police to arrest

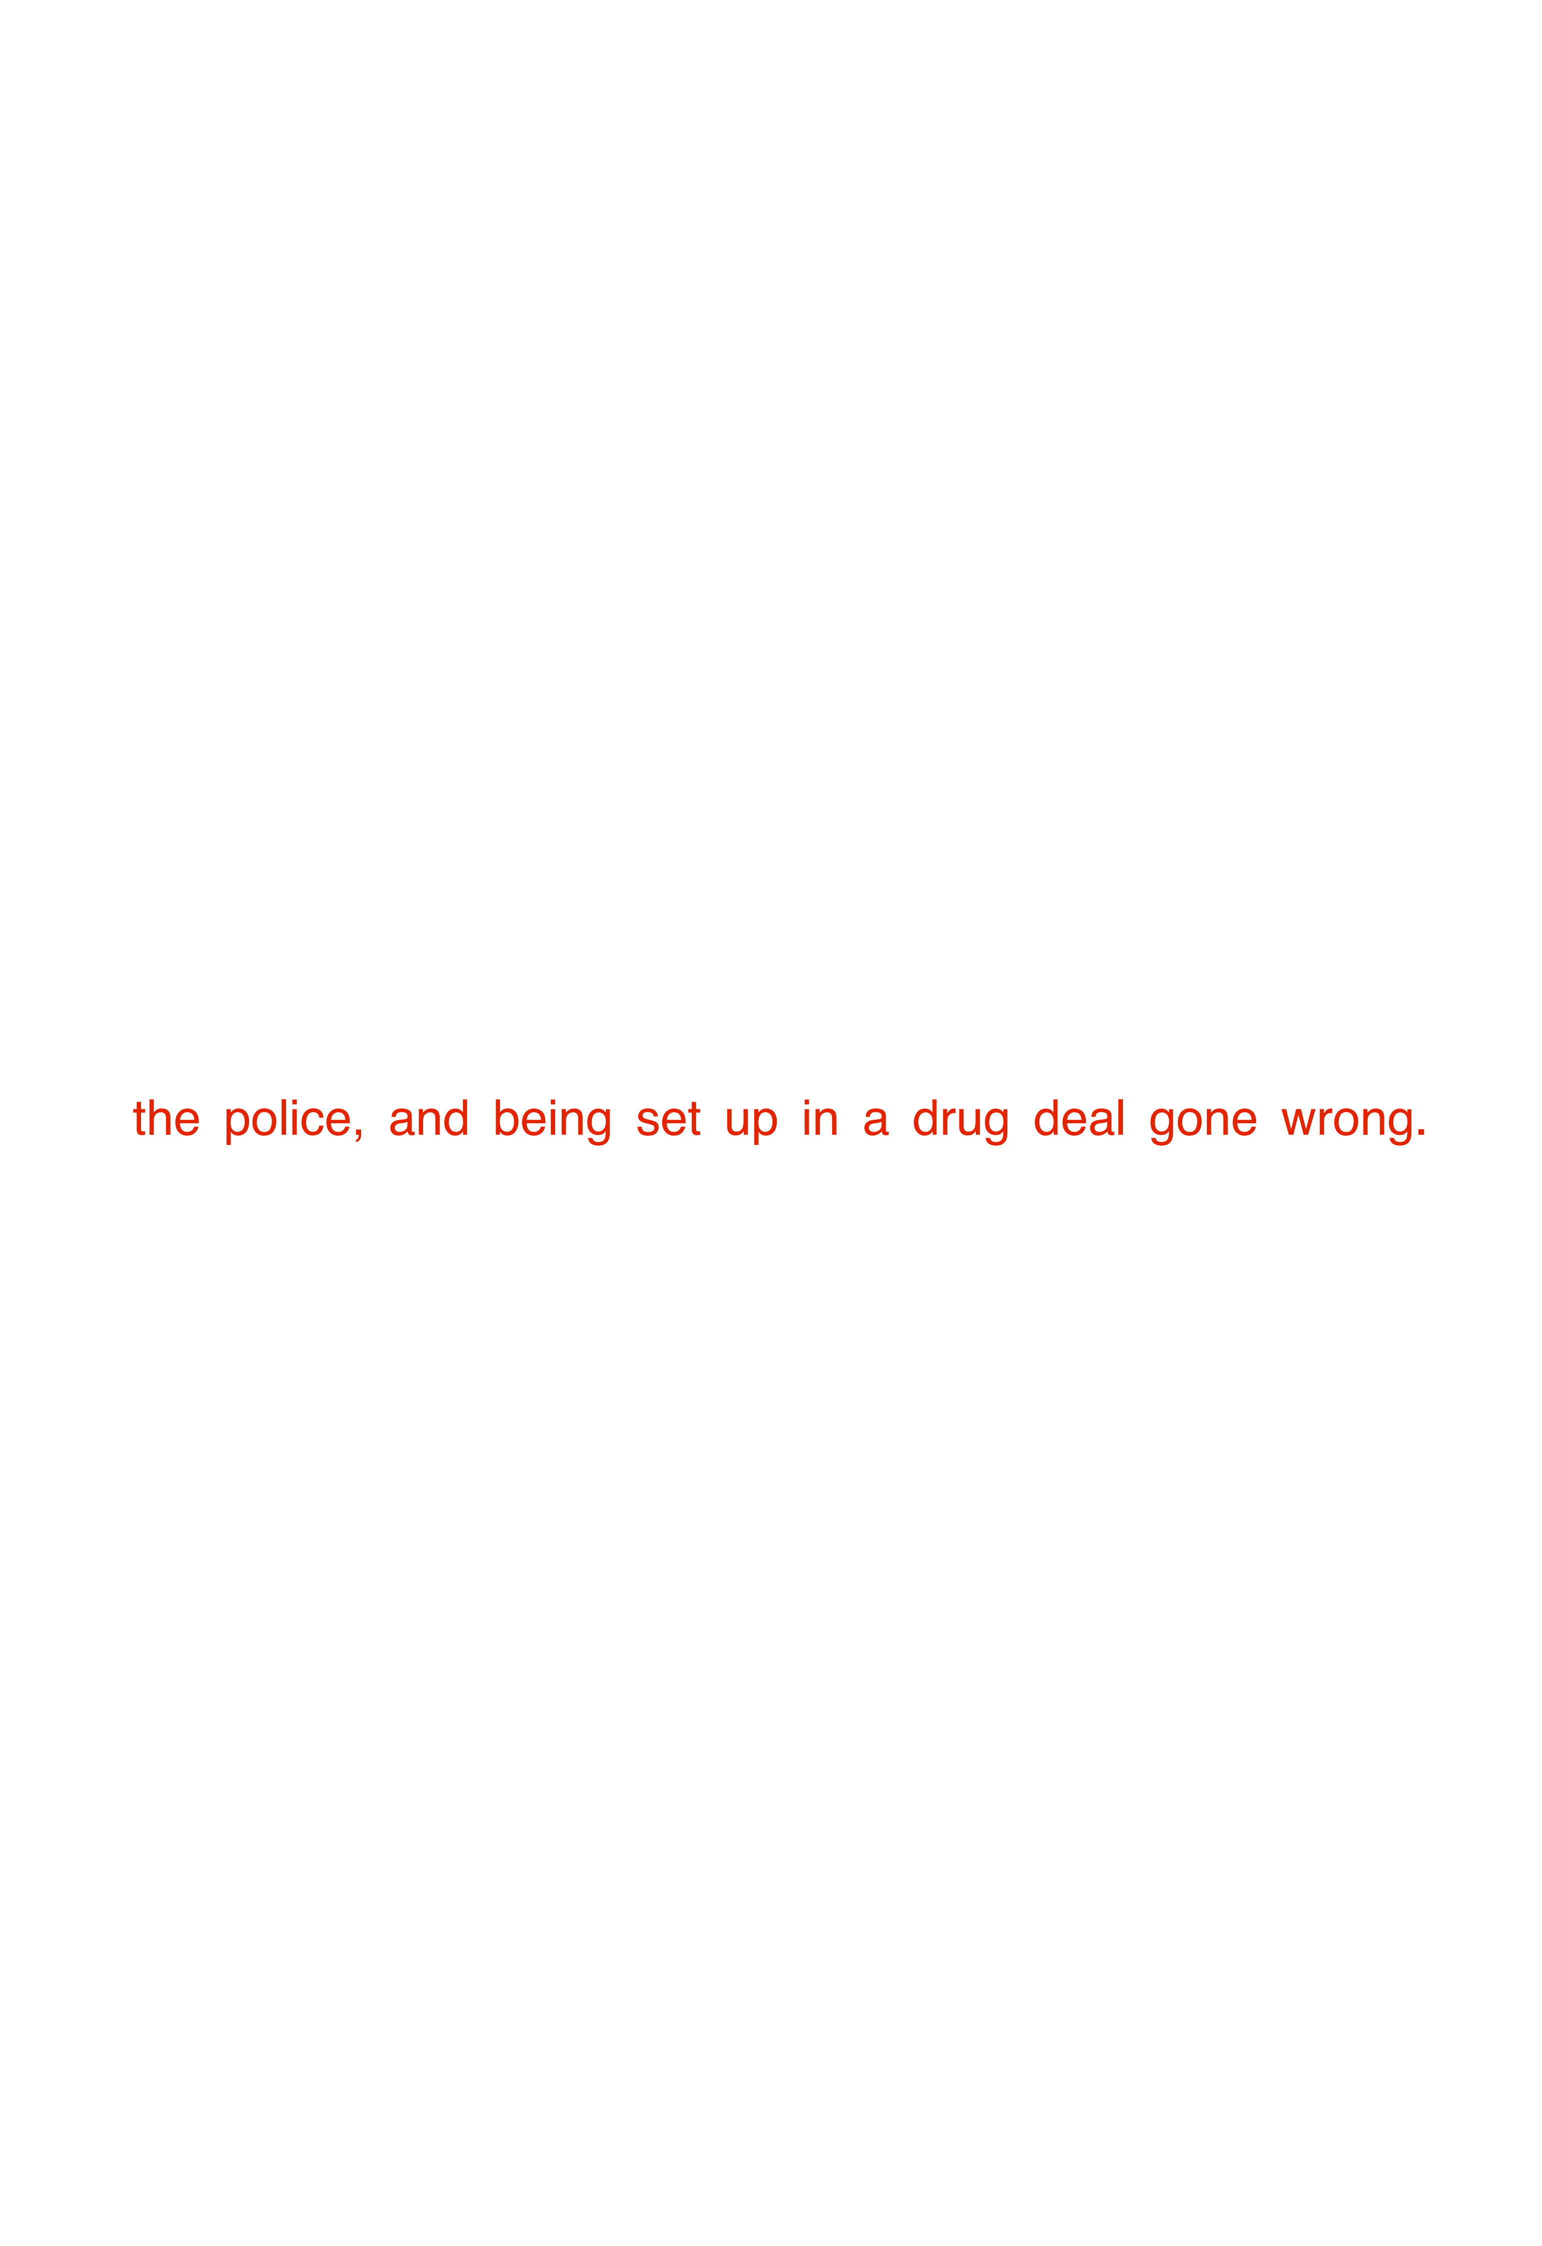

the person, possibly without just cause. This indicates

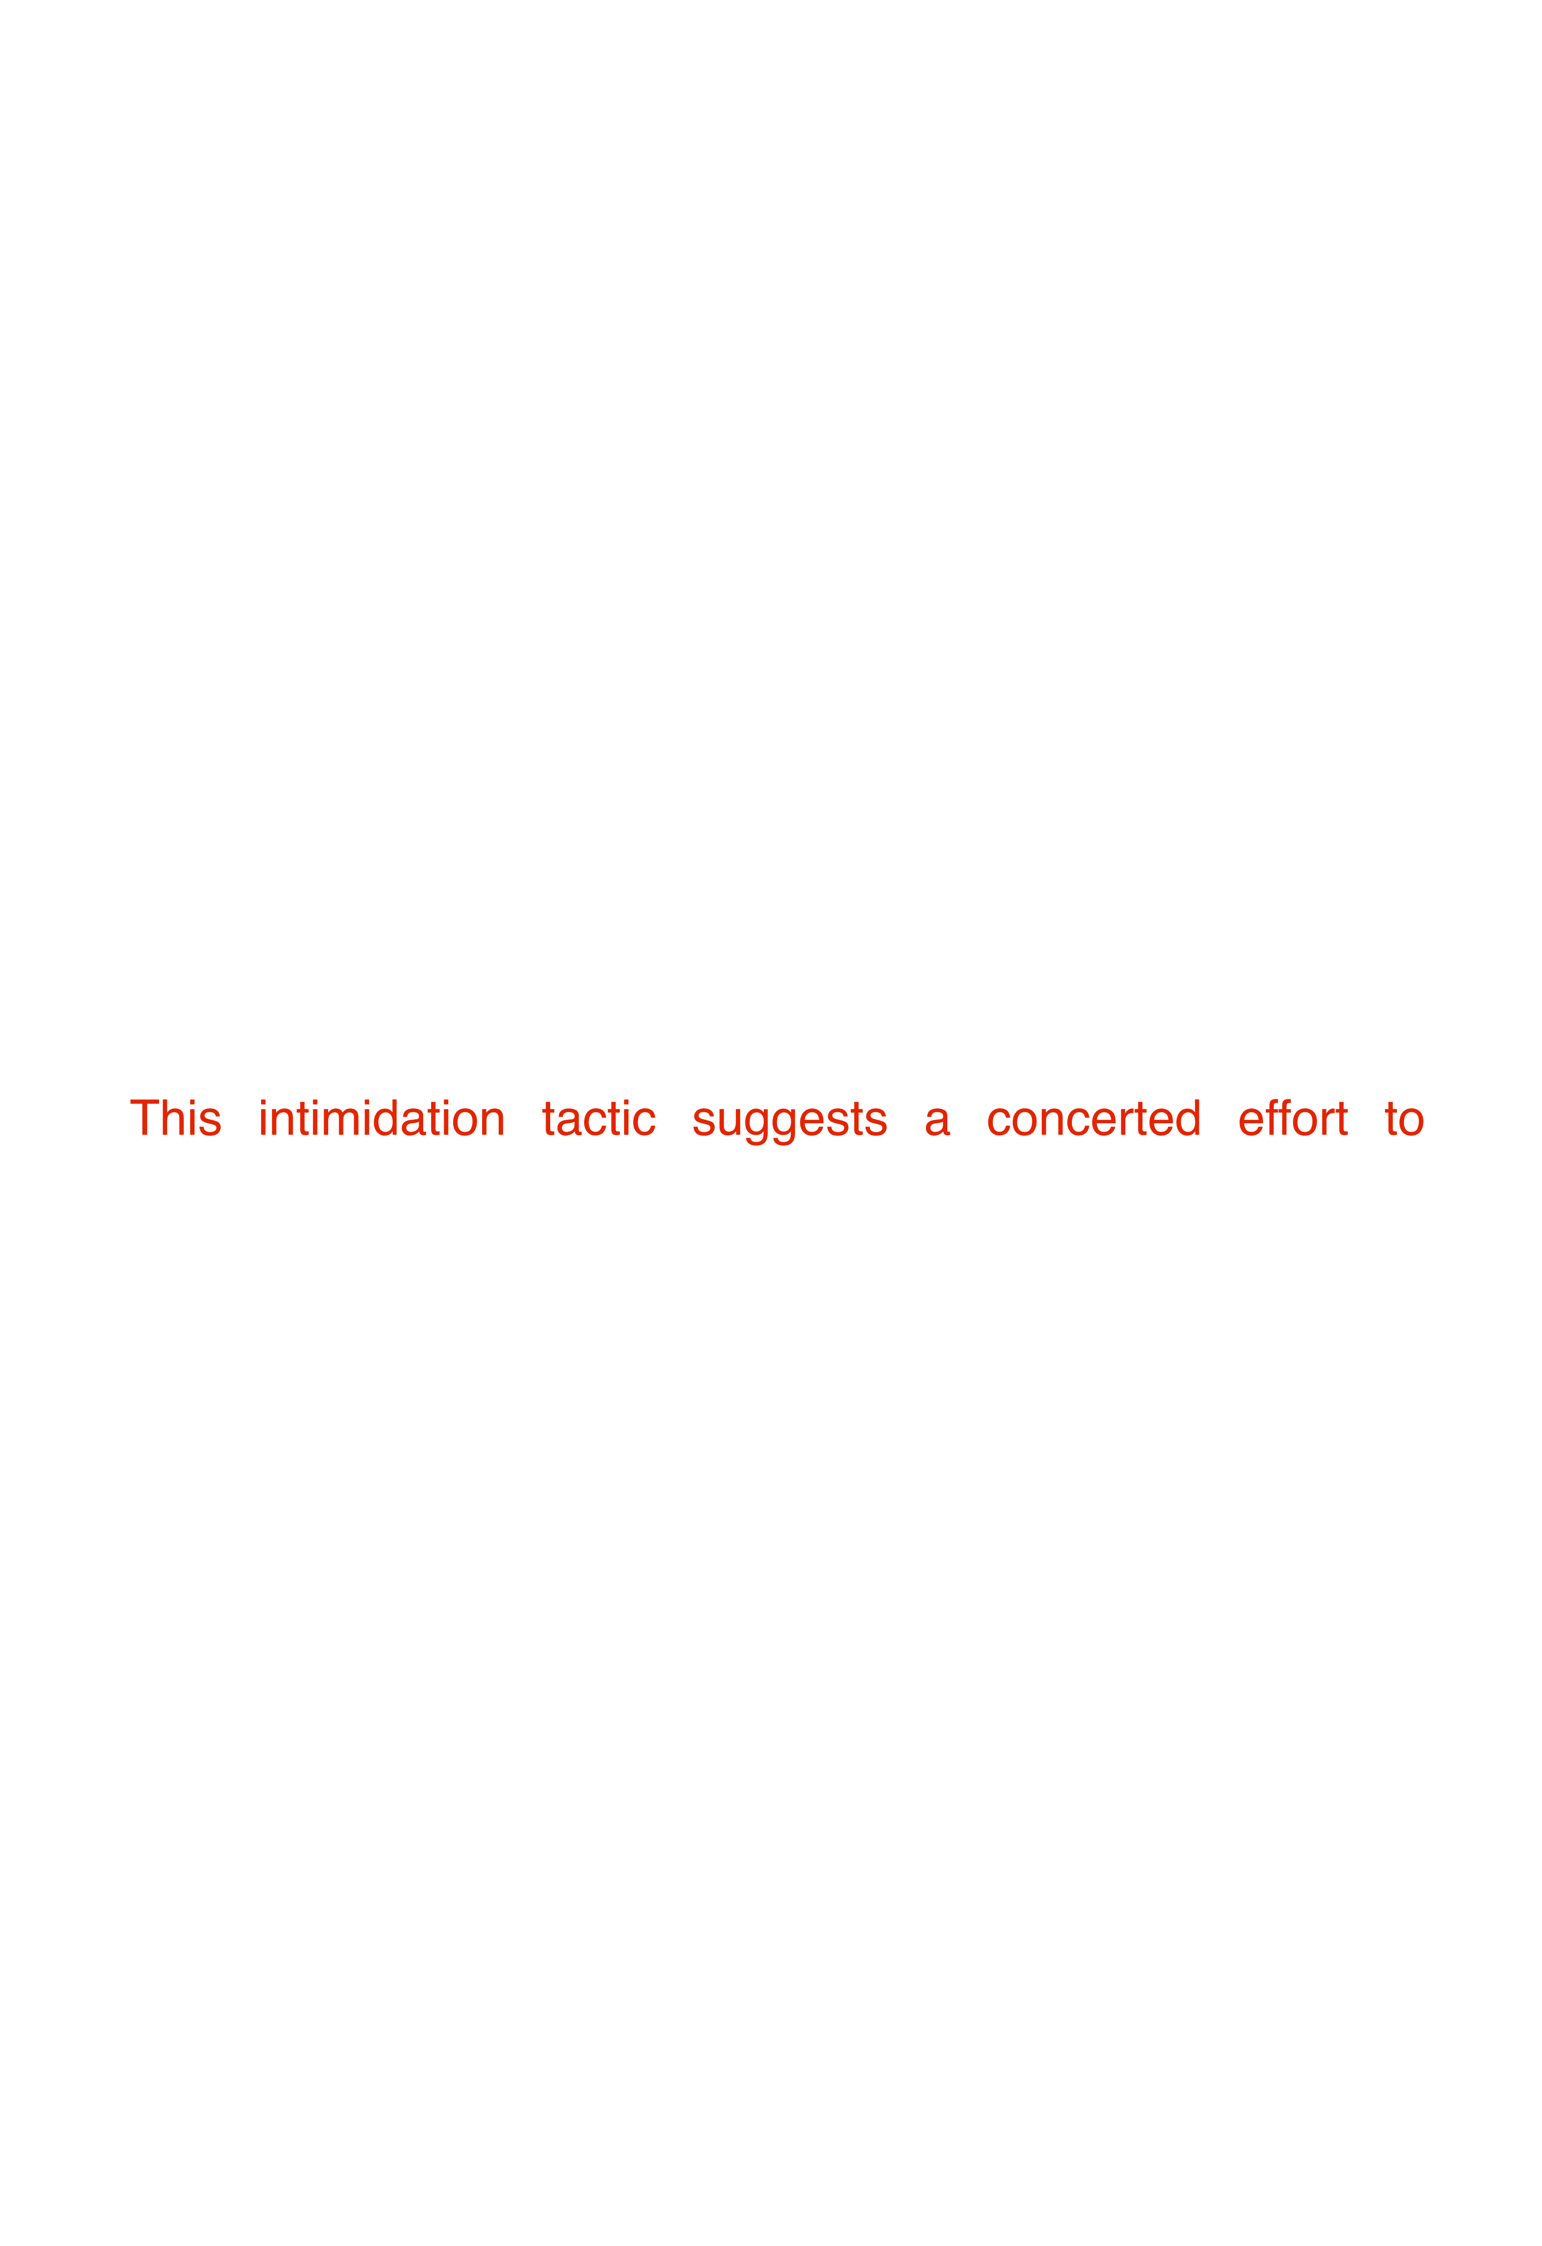

potential corruption and abuse of power within the system.

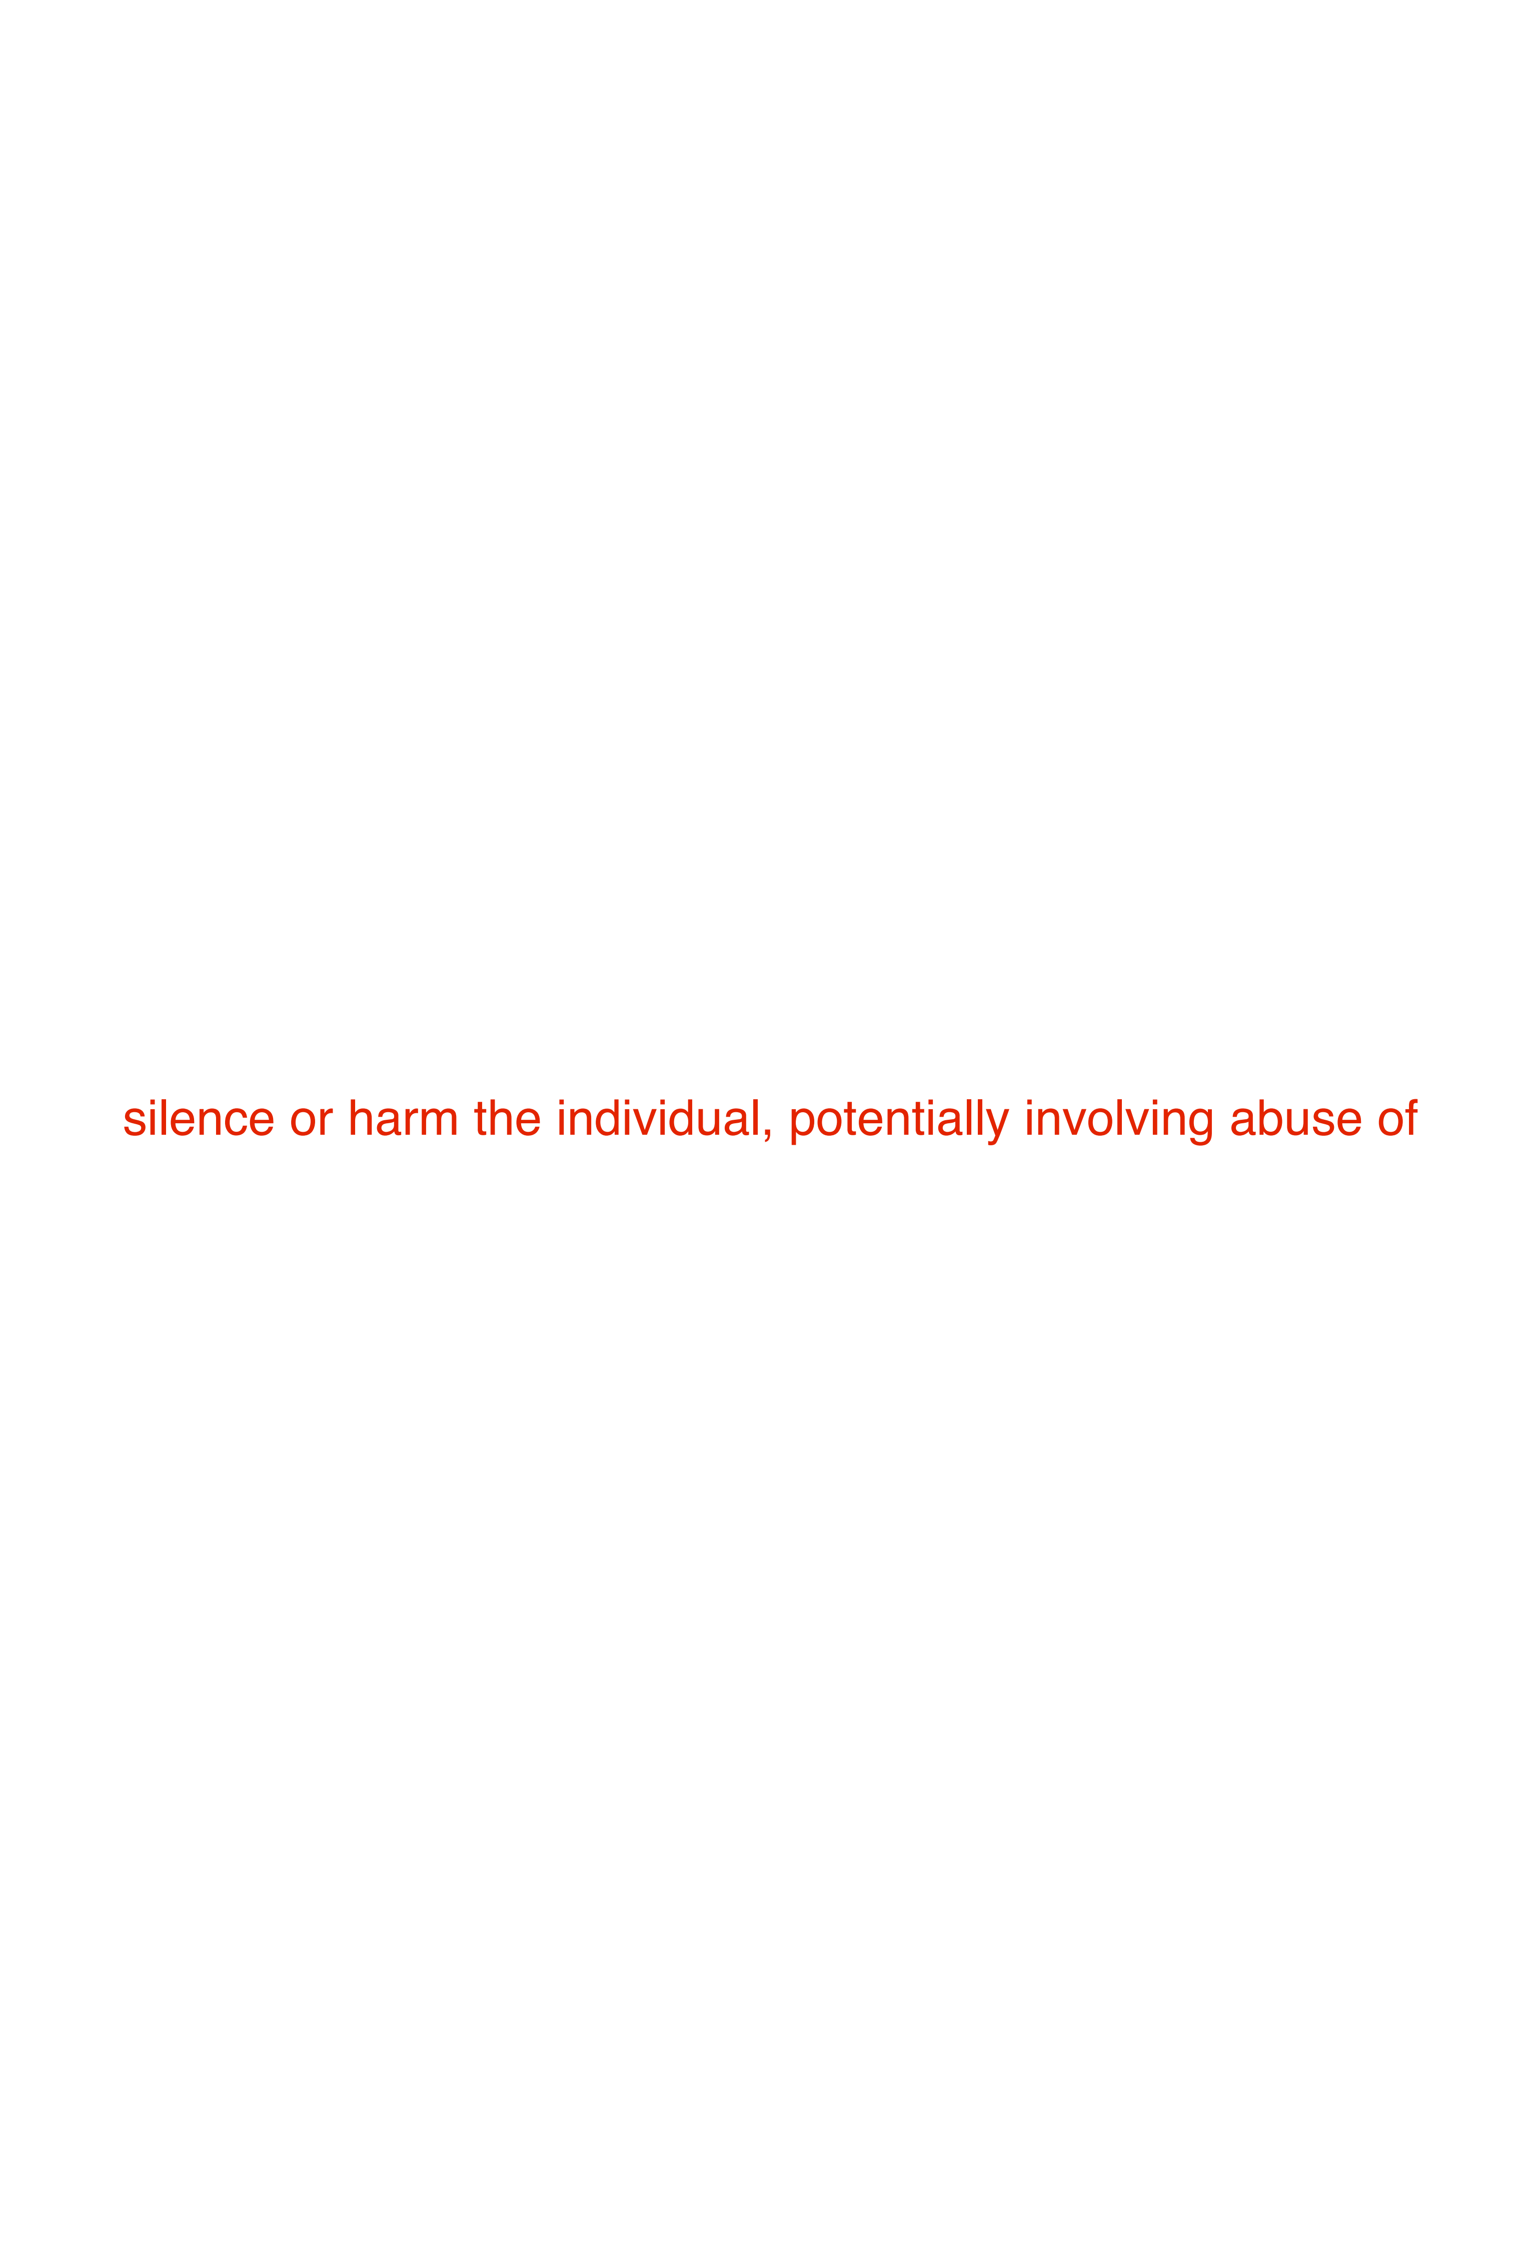

4. **Threats and Intimidation:**

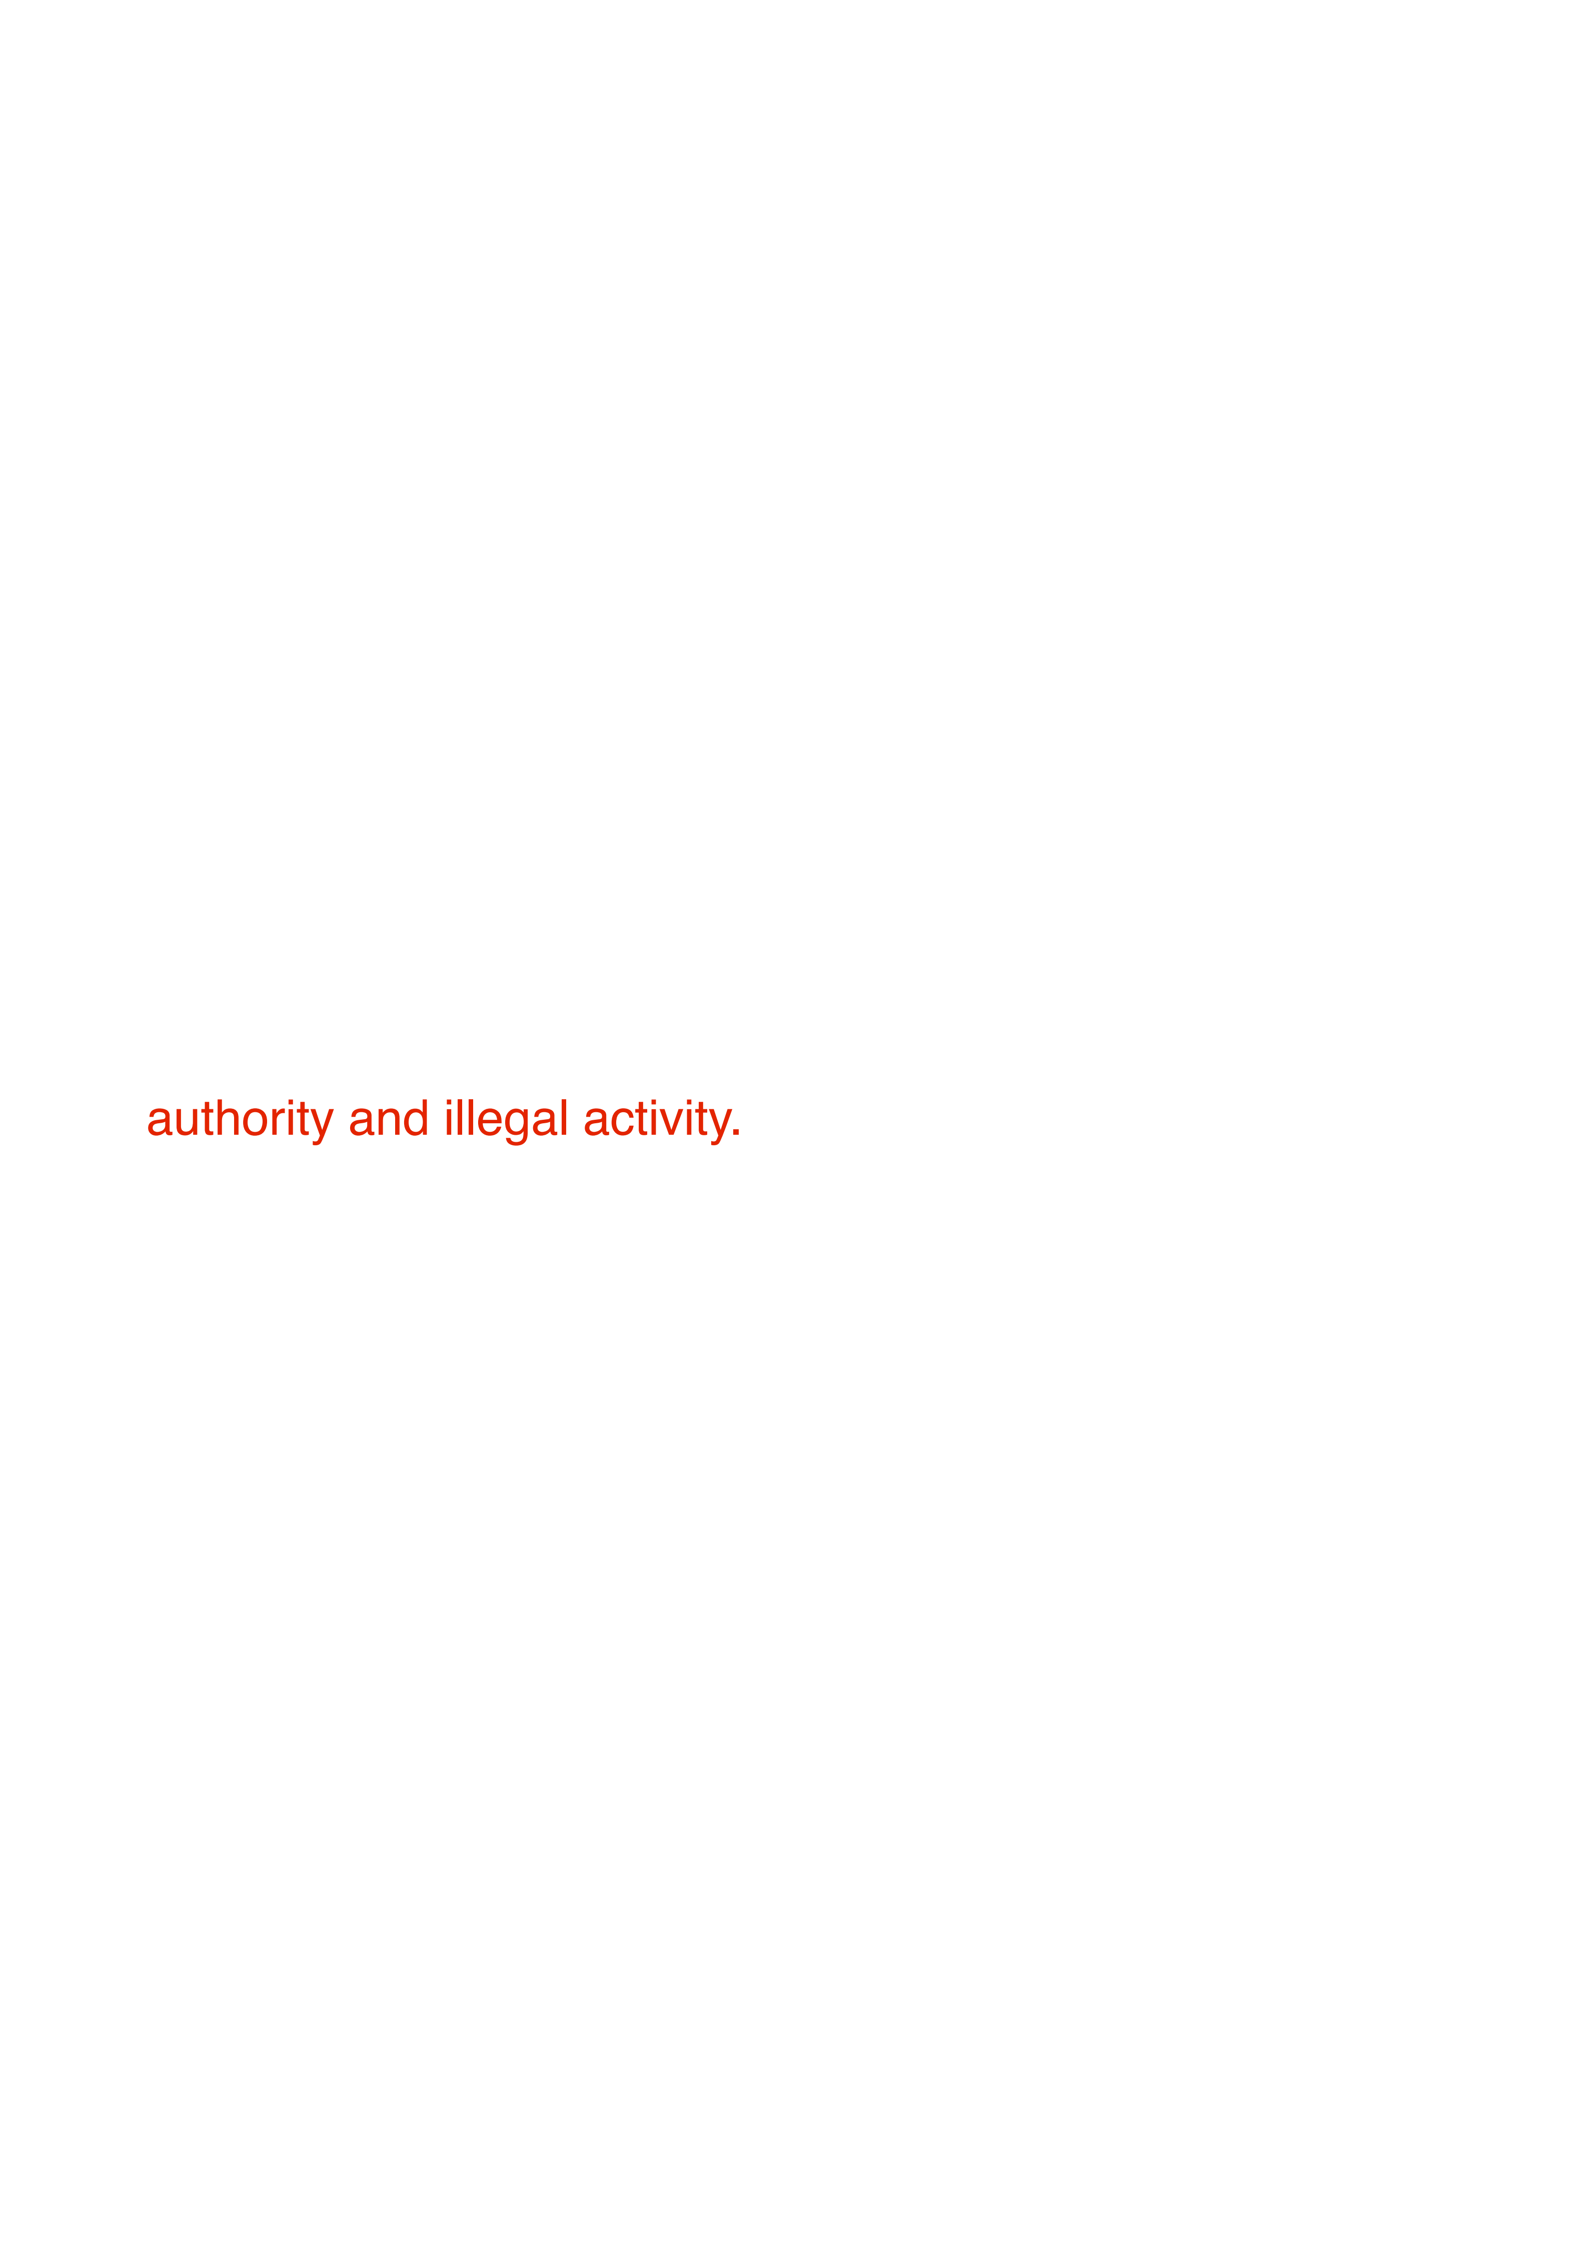

The person describes receiving threats, being followed by

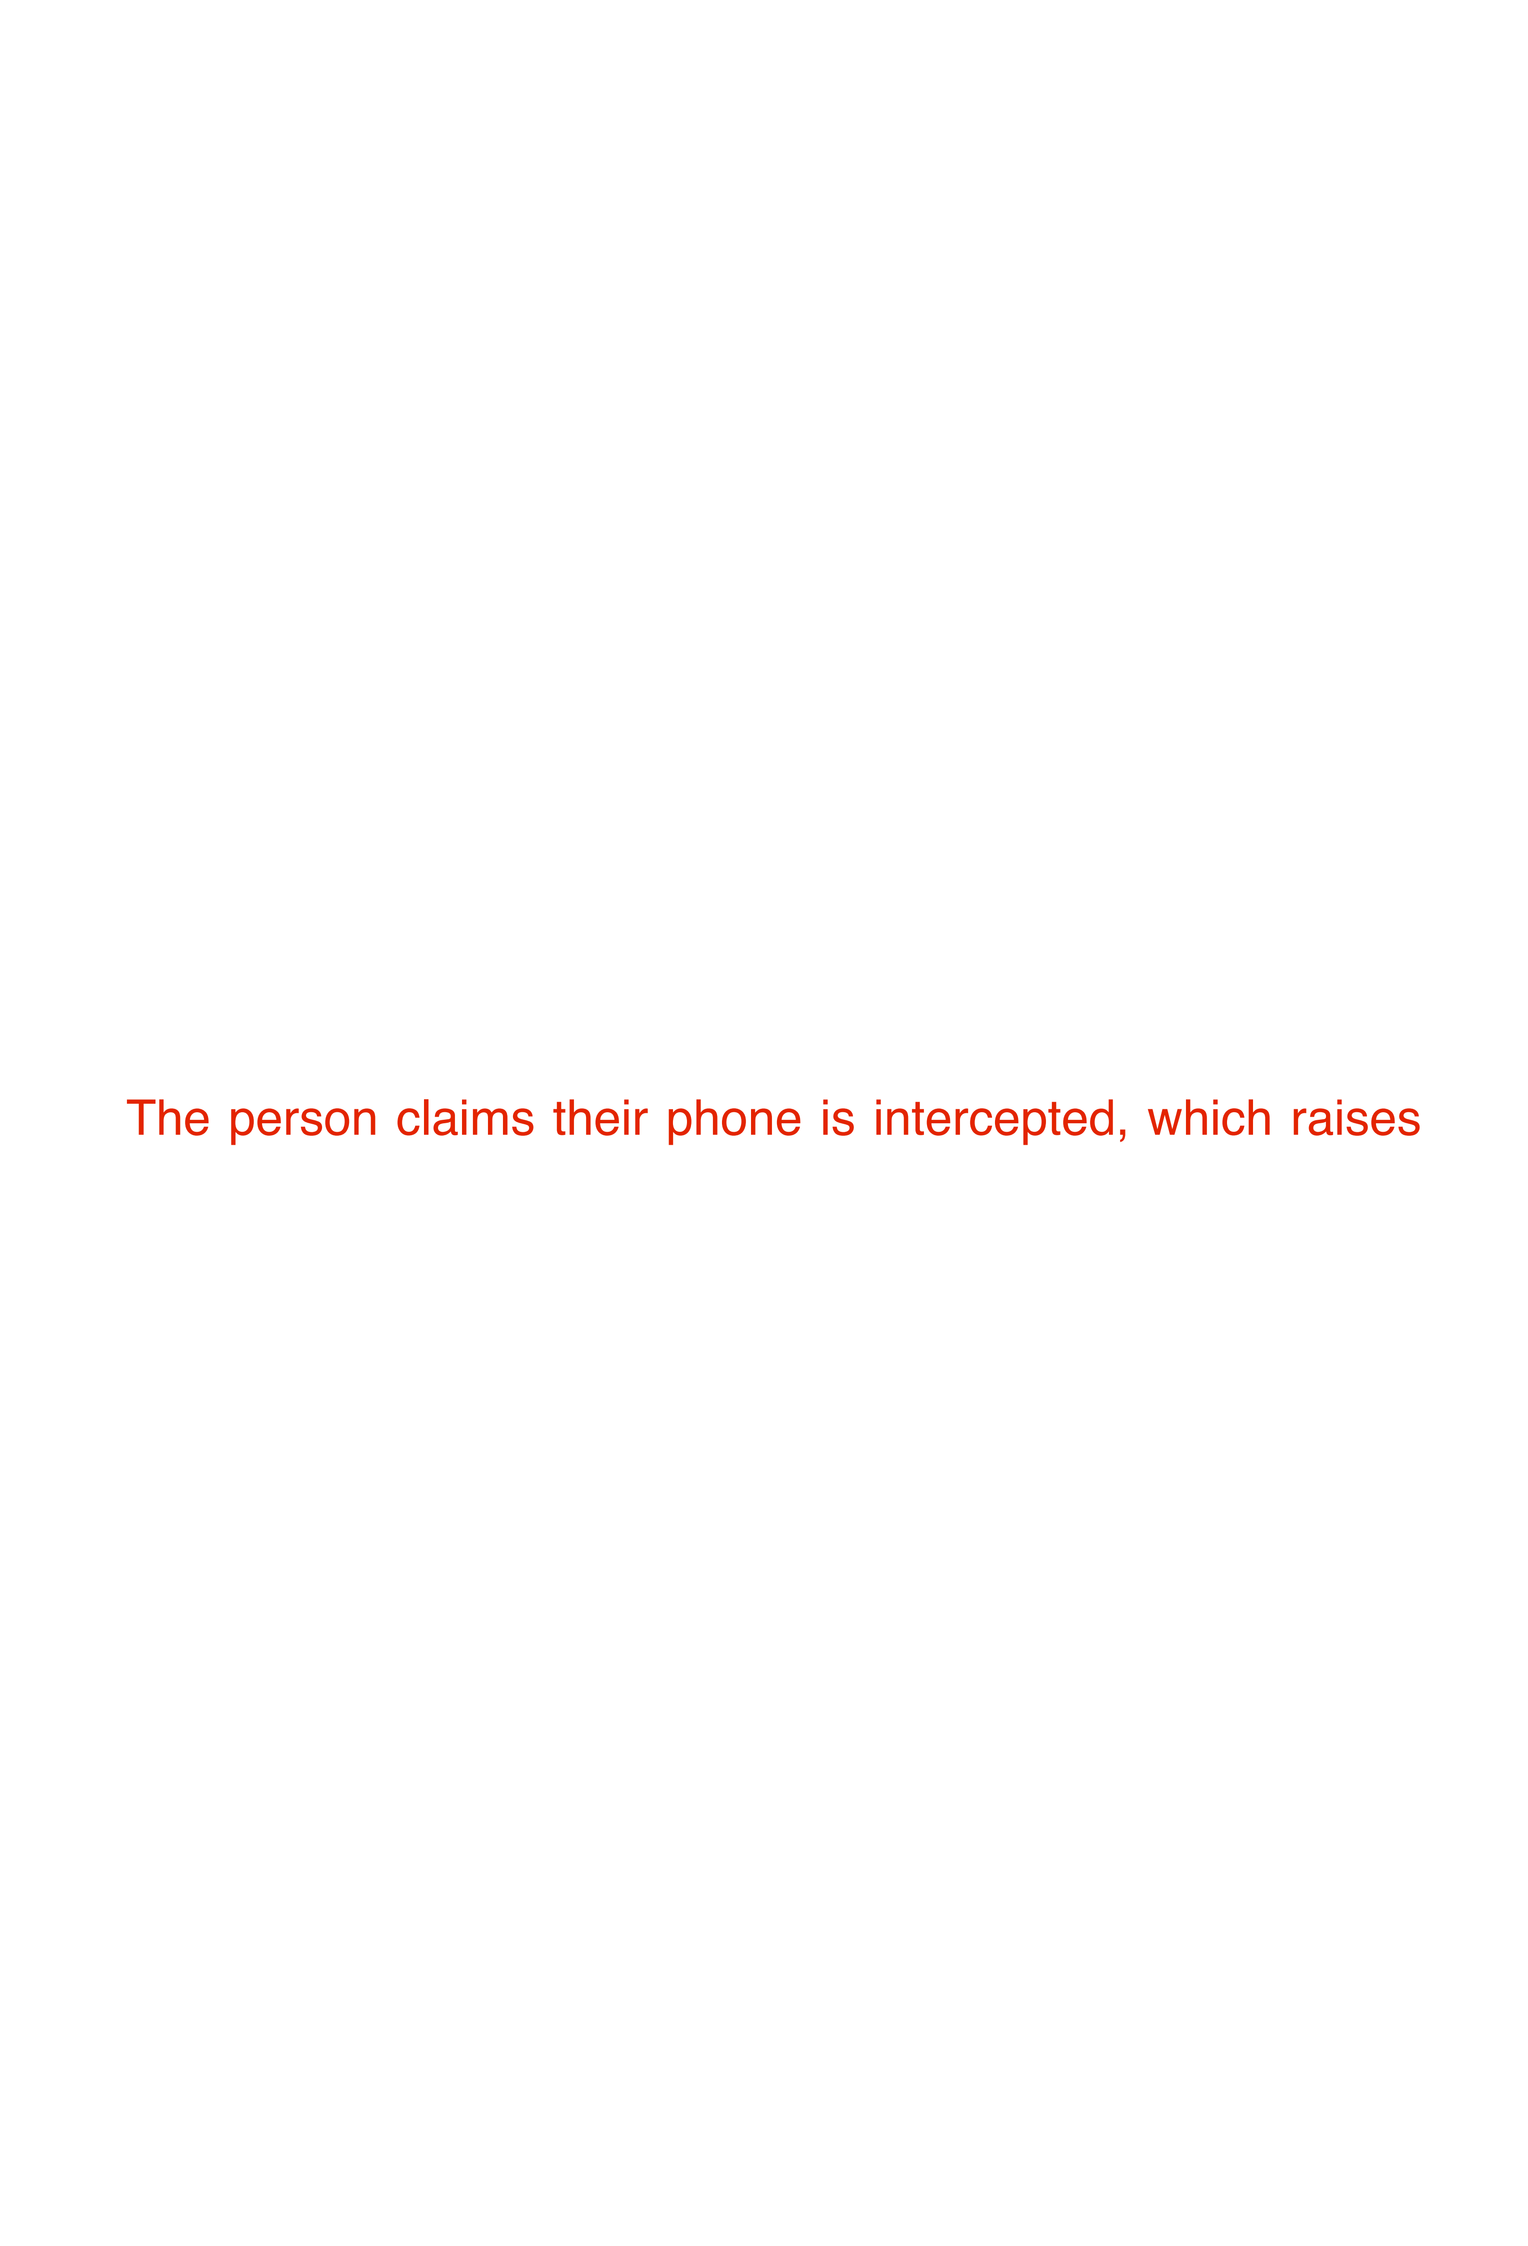

the police, and being set up in a drug deal gone wrong.

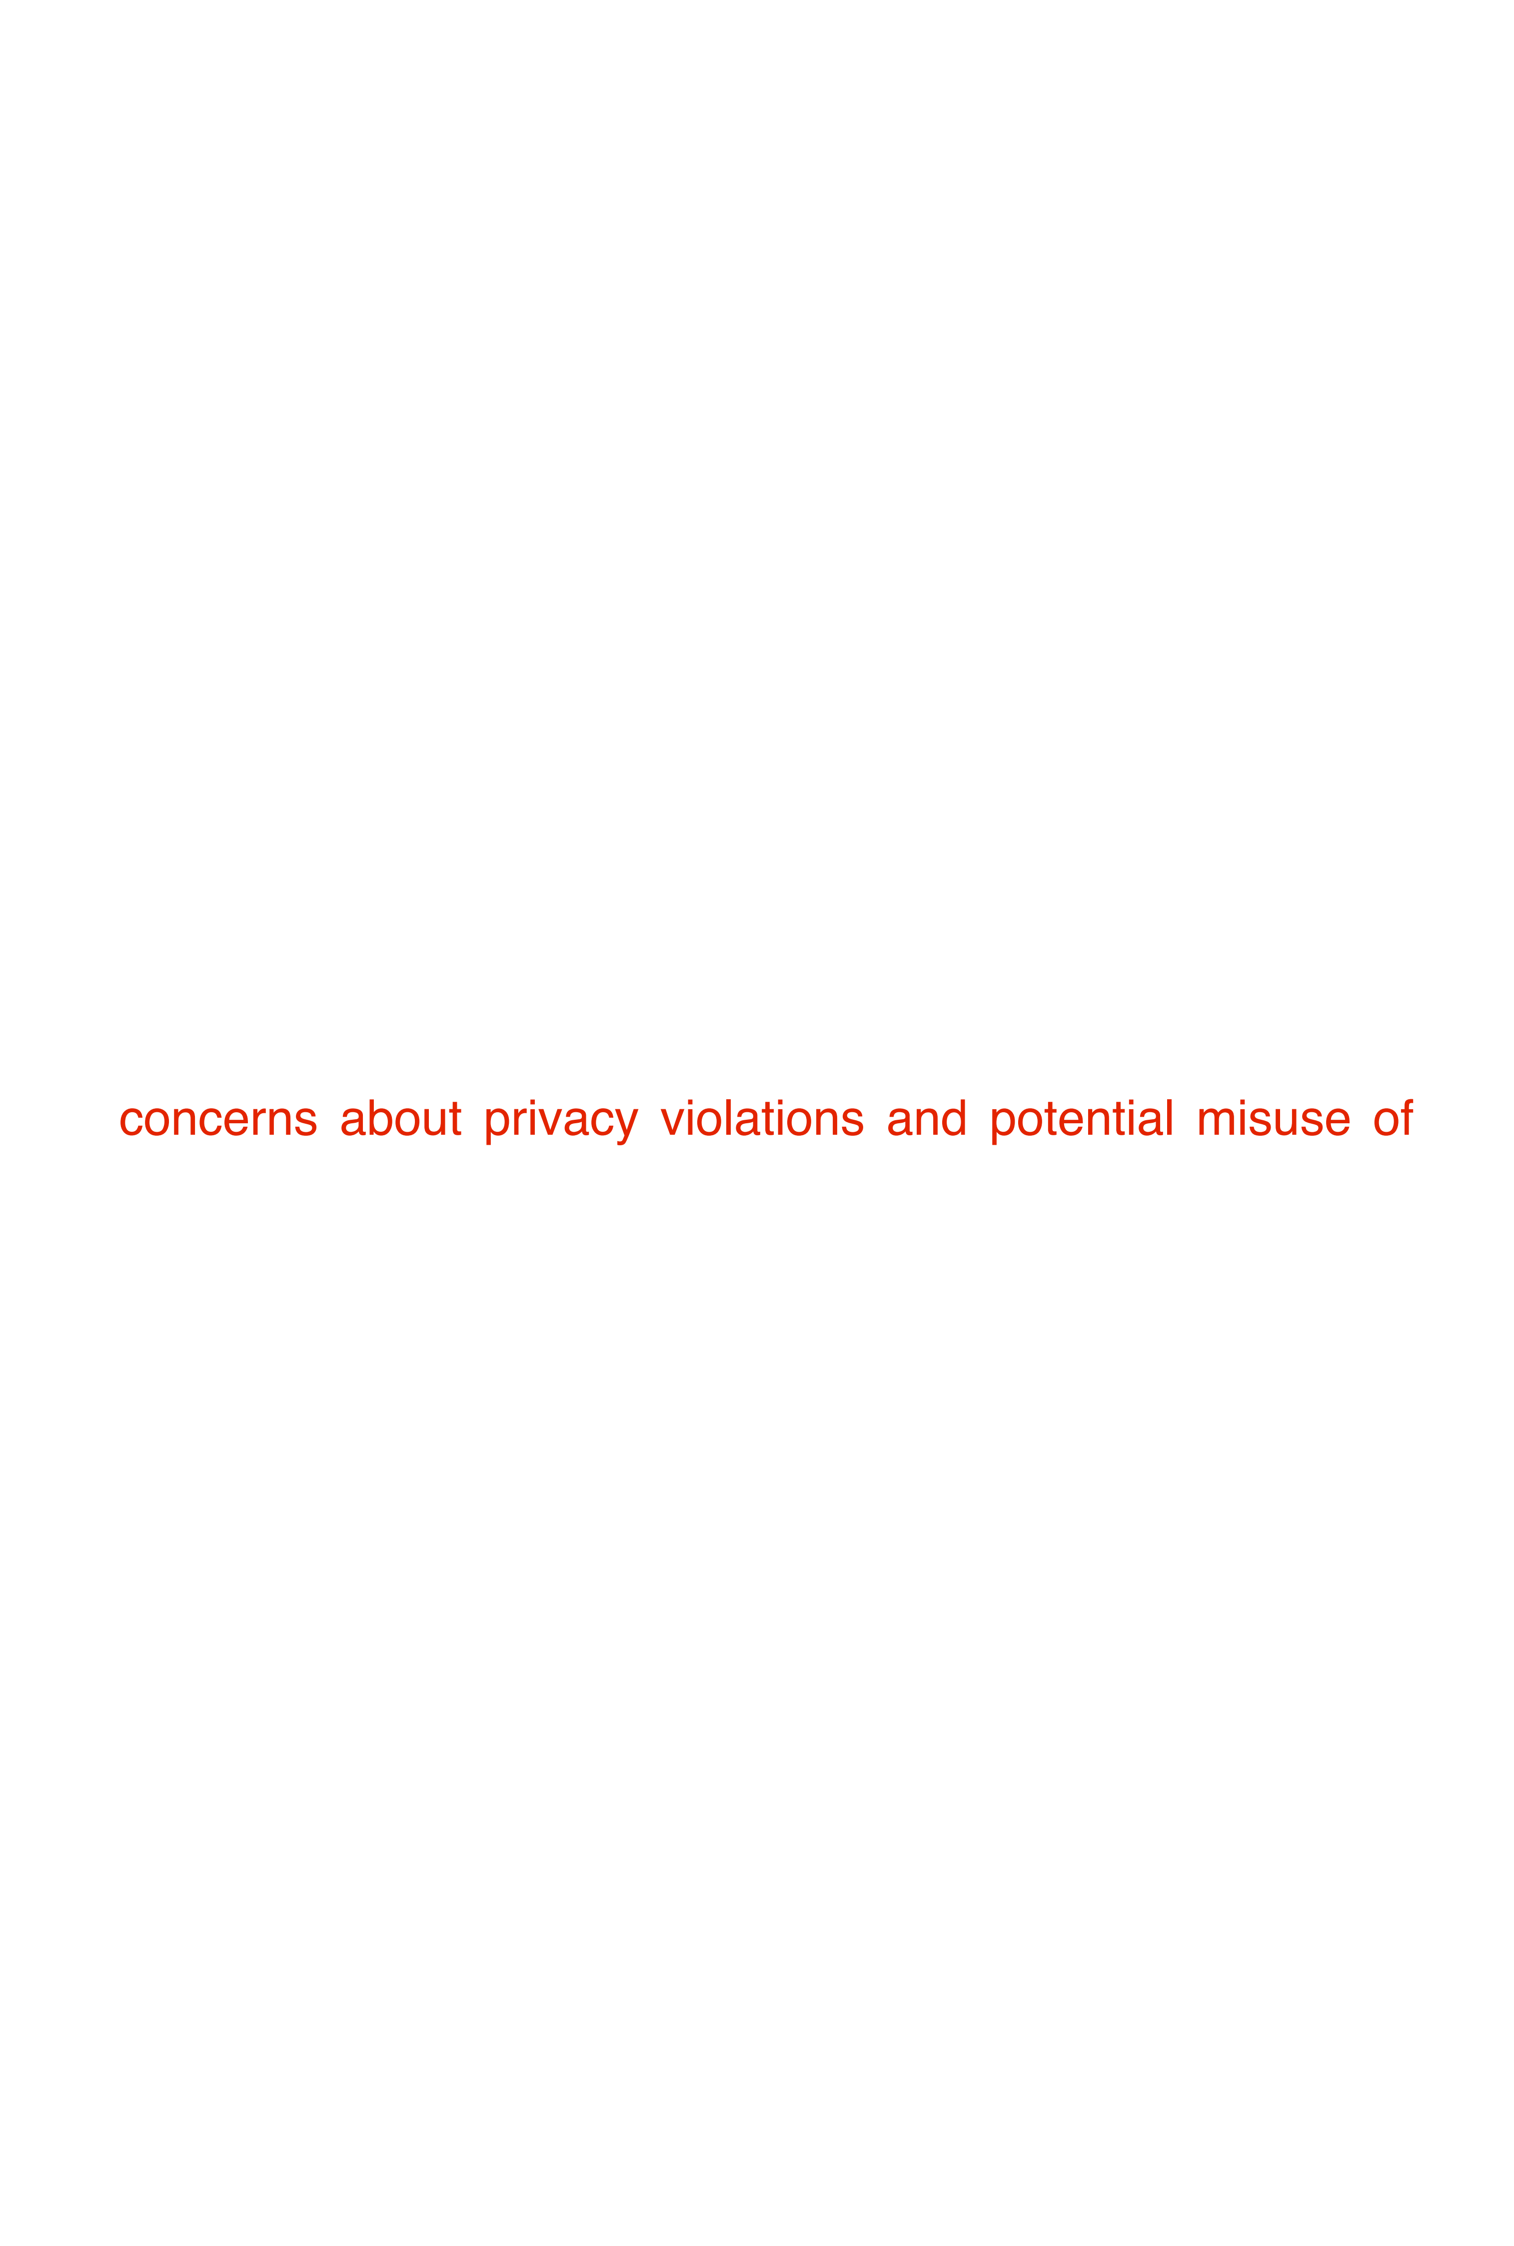

This intimidation tactic suggests a concerted effort to

silence or harm the individual, potentially involving abuse of

authority and illegal activity.

5. **Interception of Communication:**

The person claims their phone is intercepted, which raises

concerns about privacy violations and potential misuse of

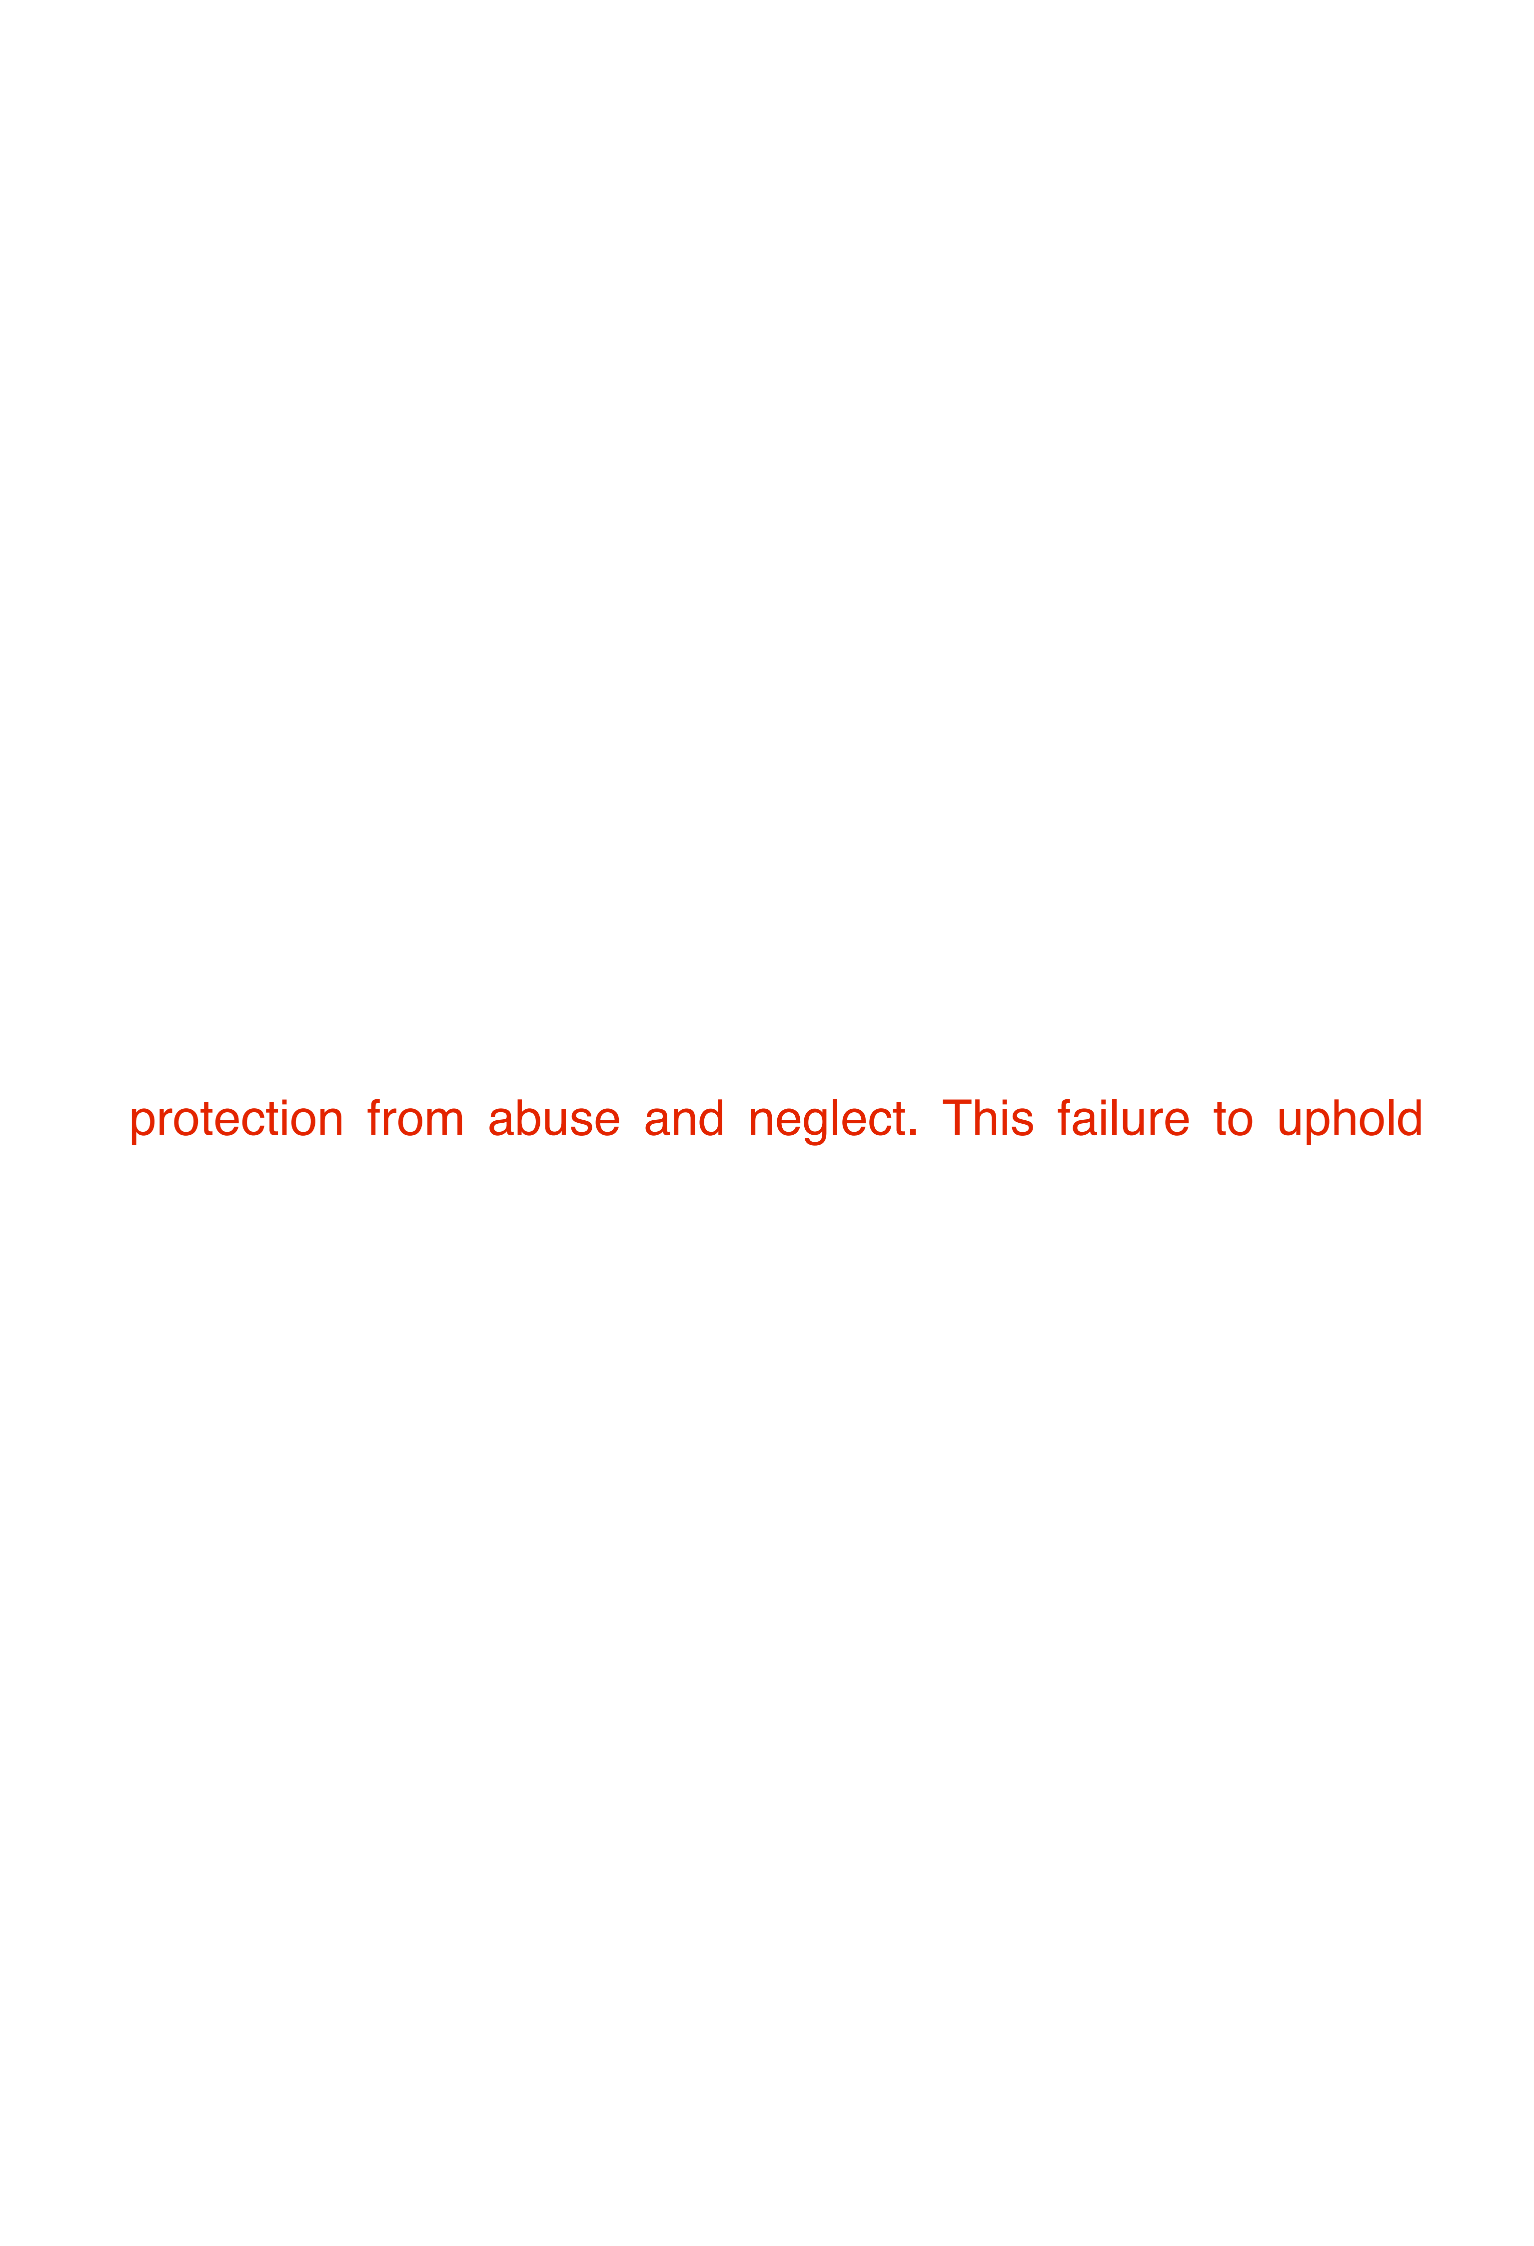

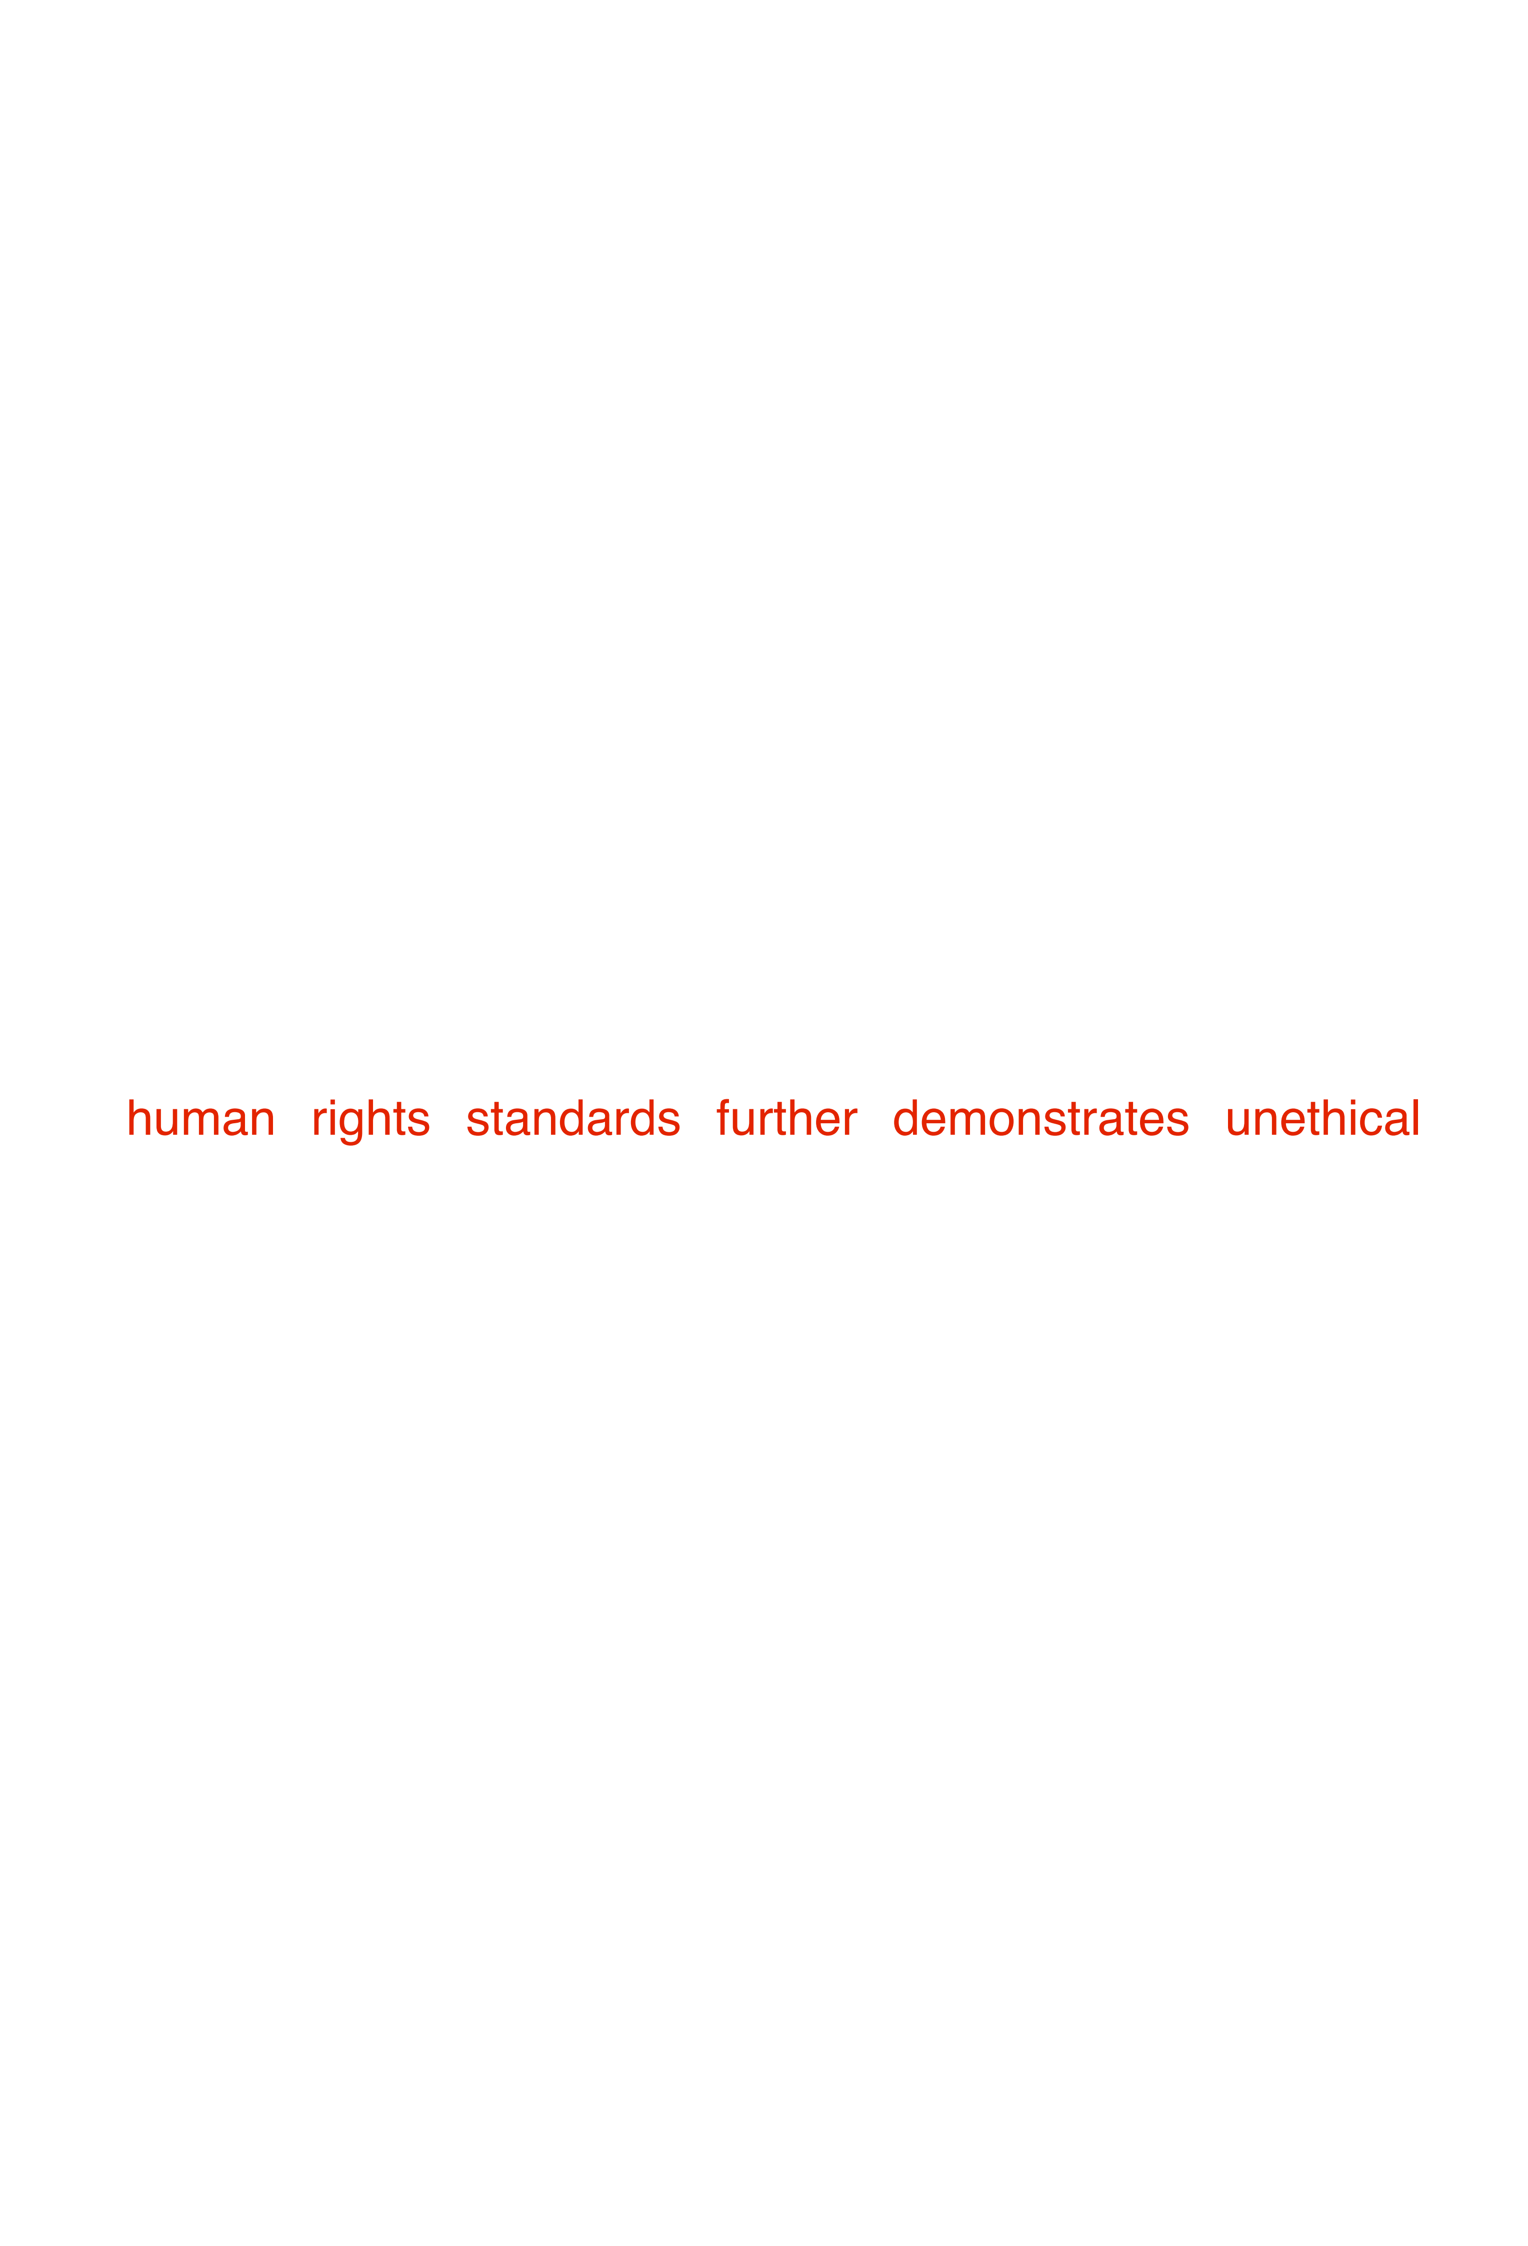

surveillance powers by government agencies.

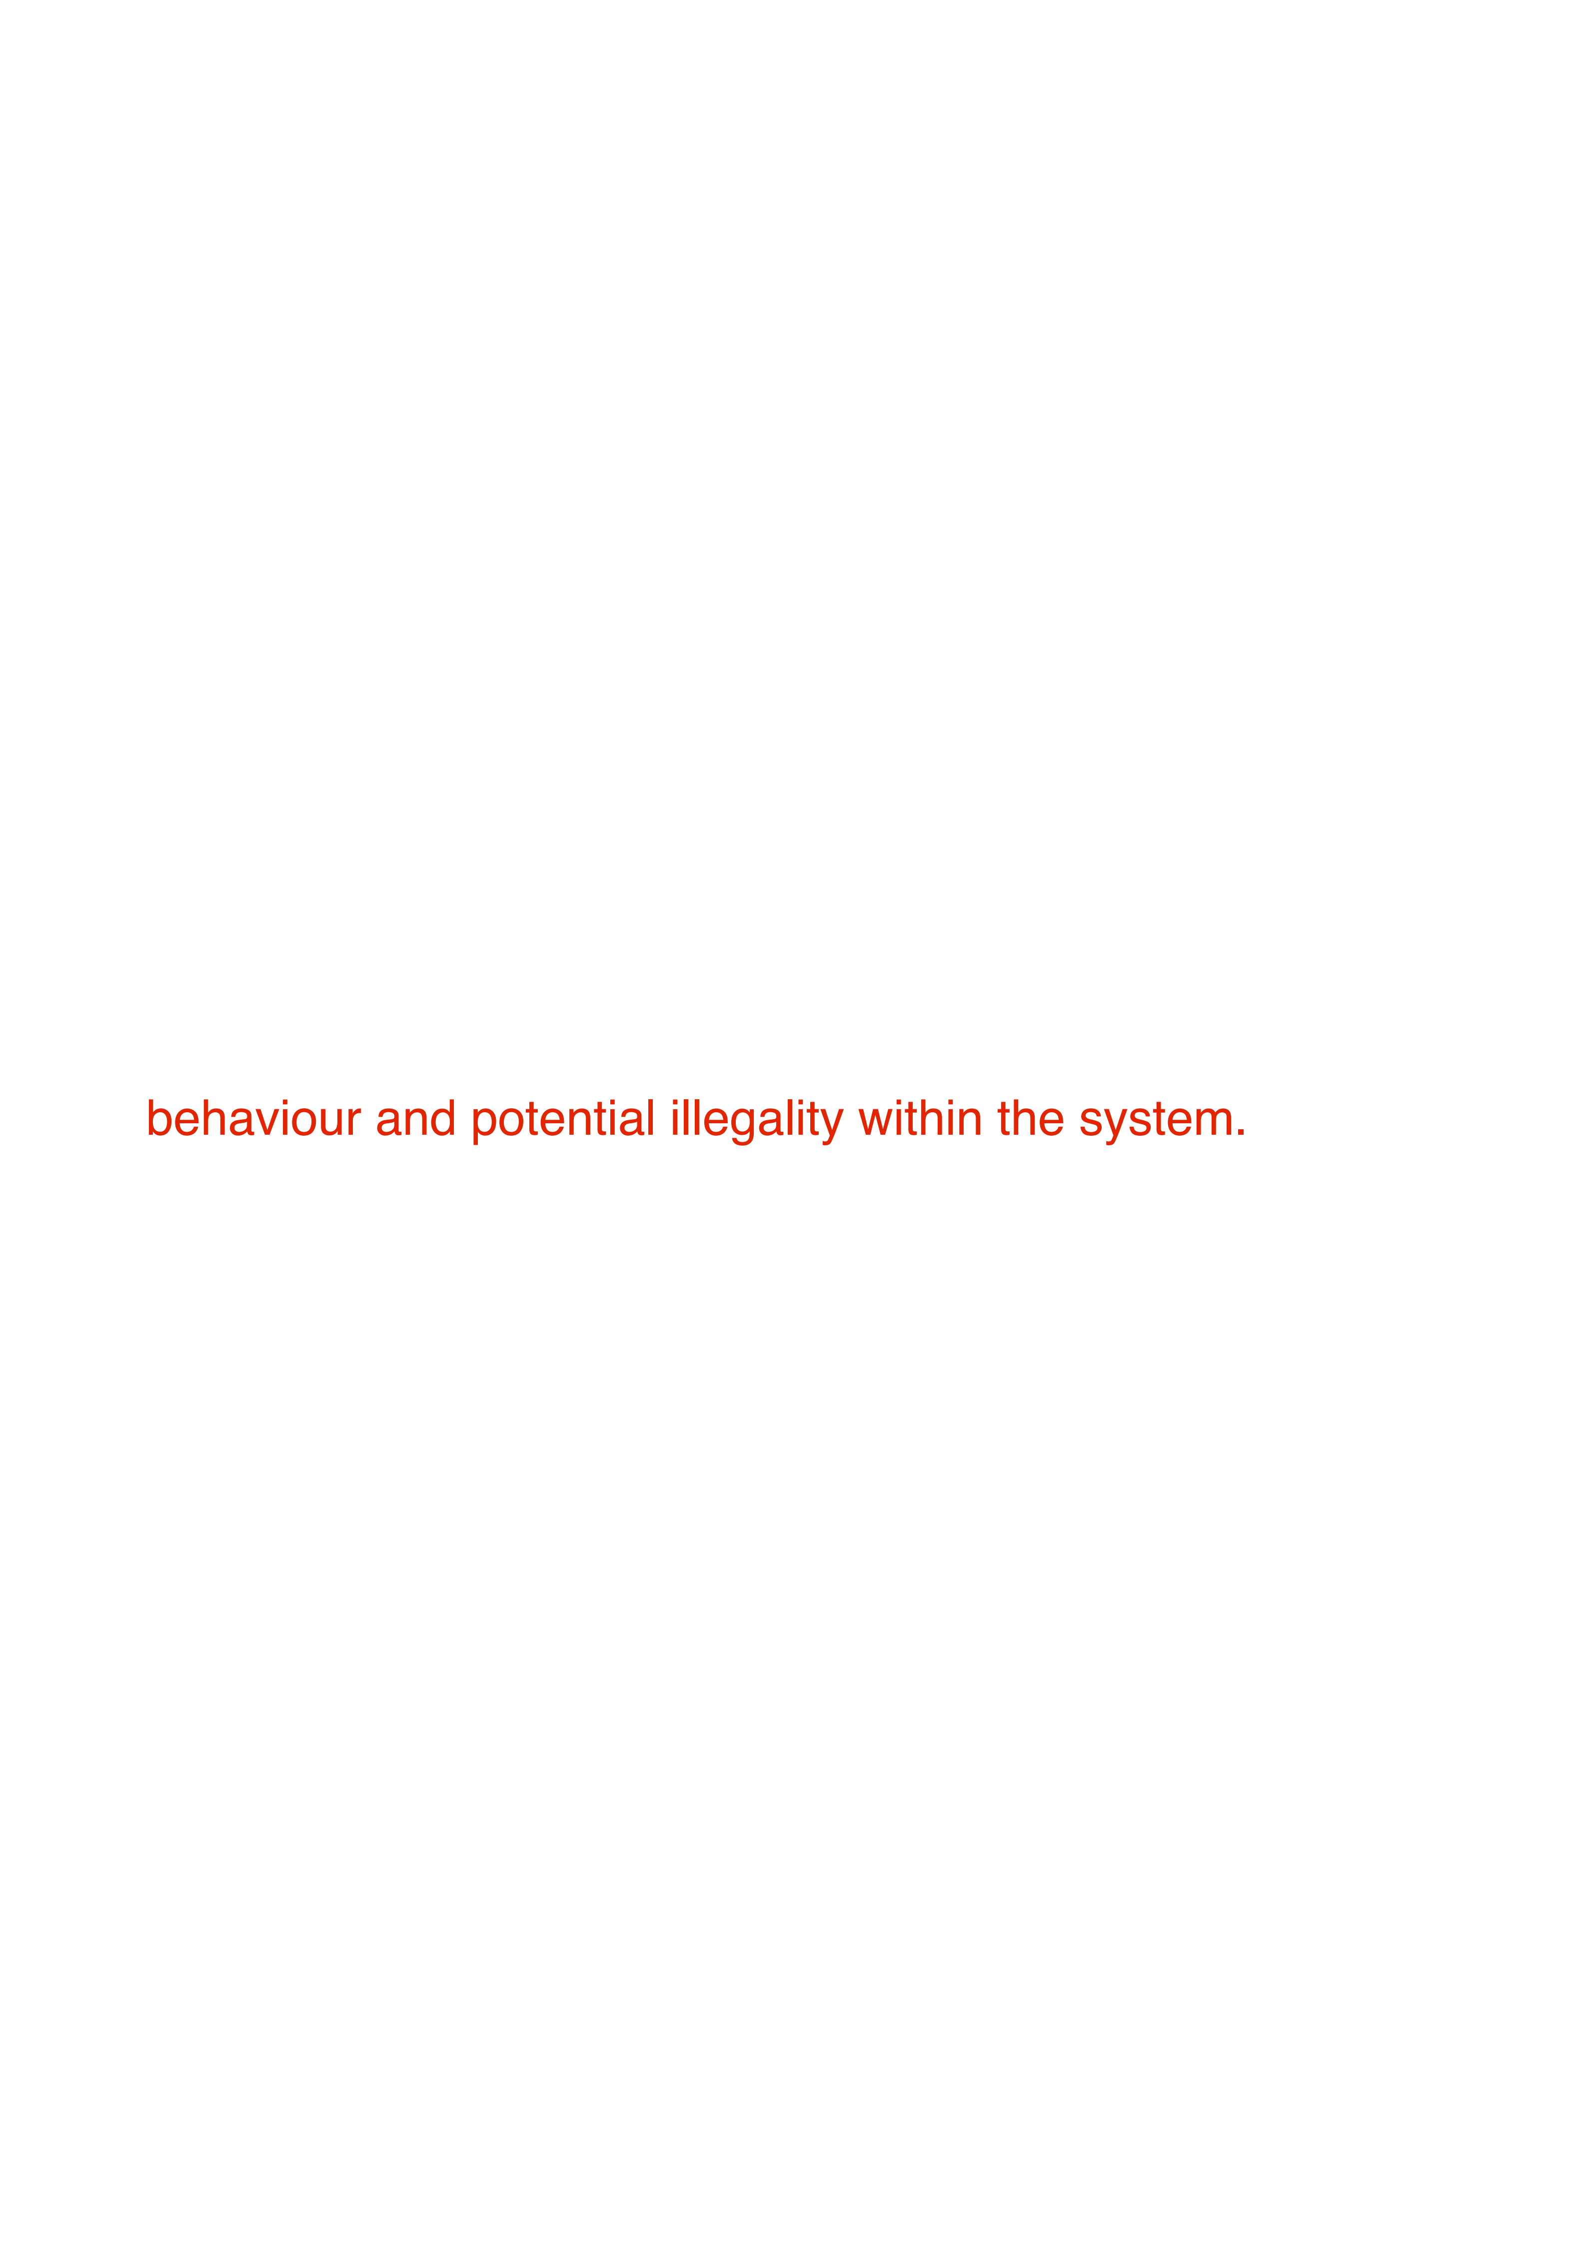

6. **Failure to Uphold Human Rights:**

The person alleges that their human rights have been

violated, including the right to legal representation and

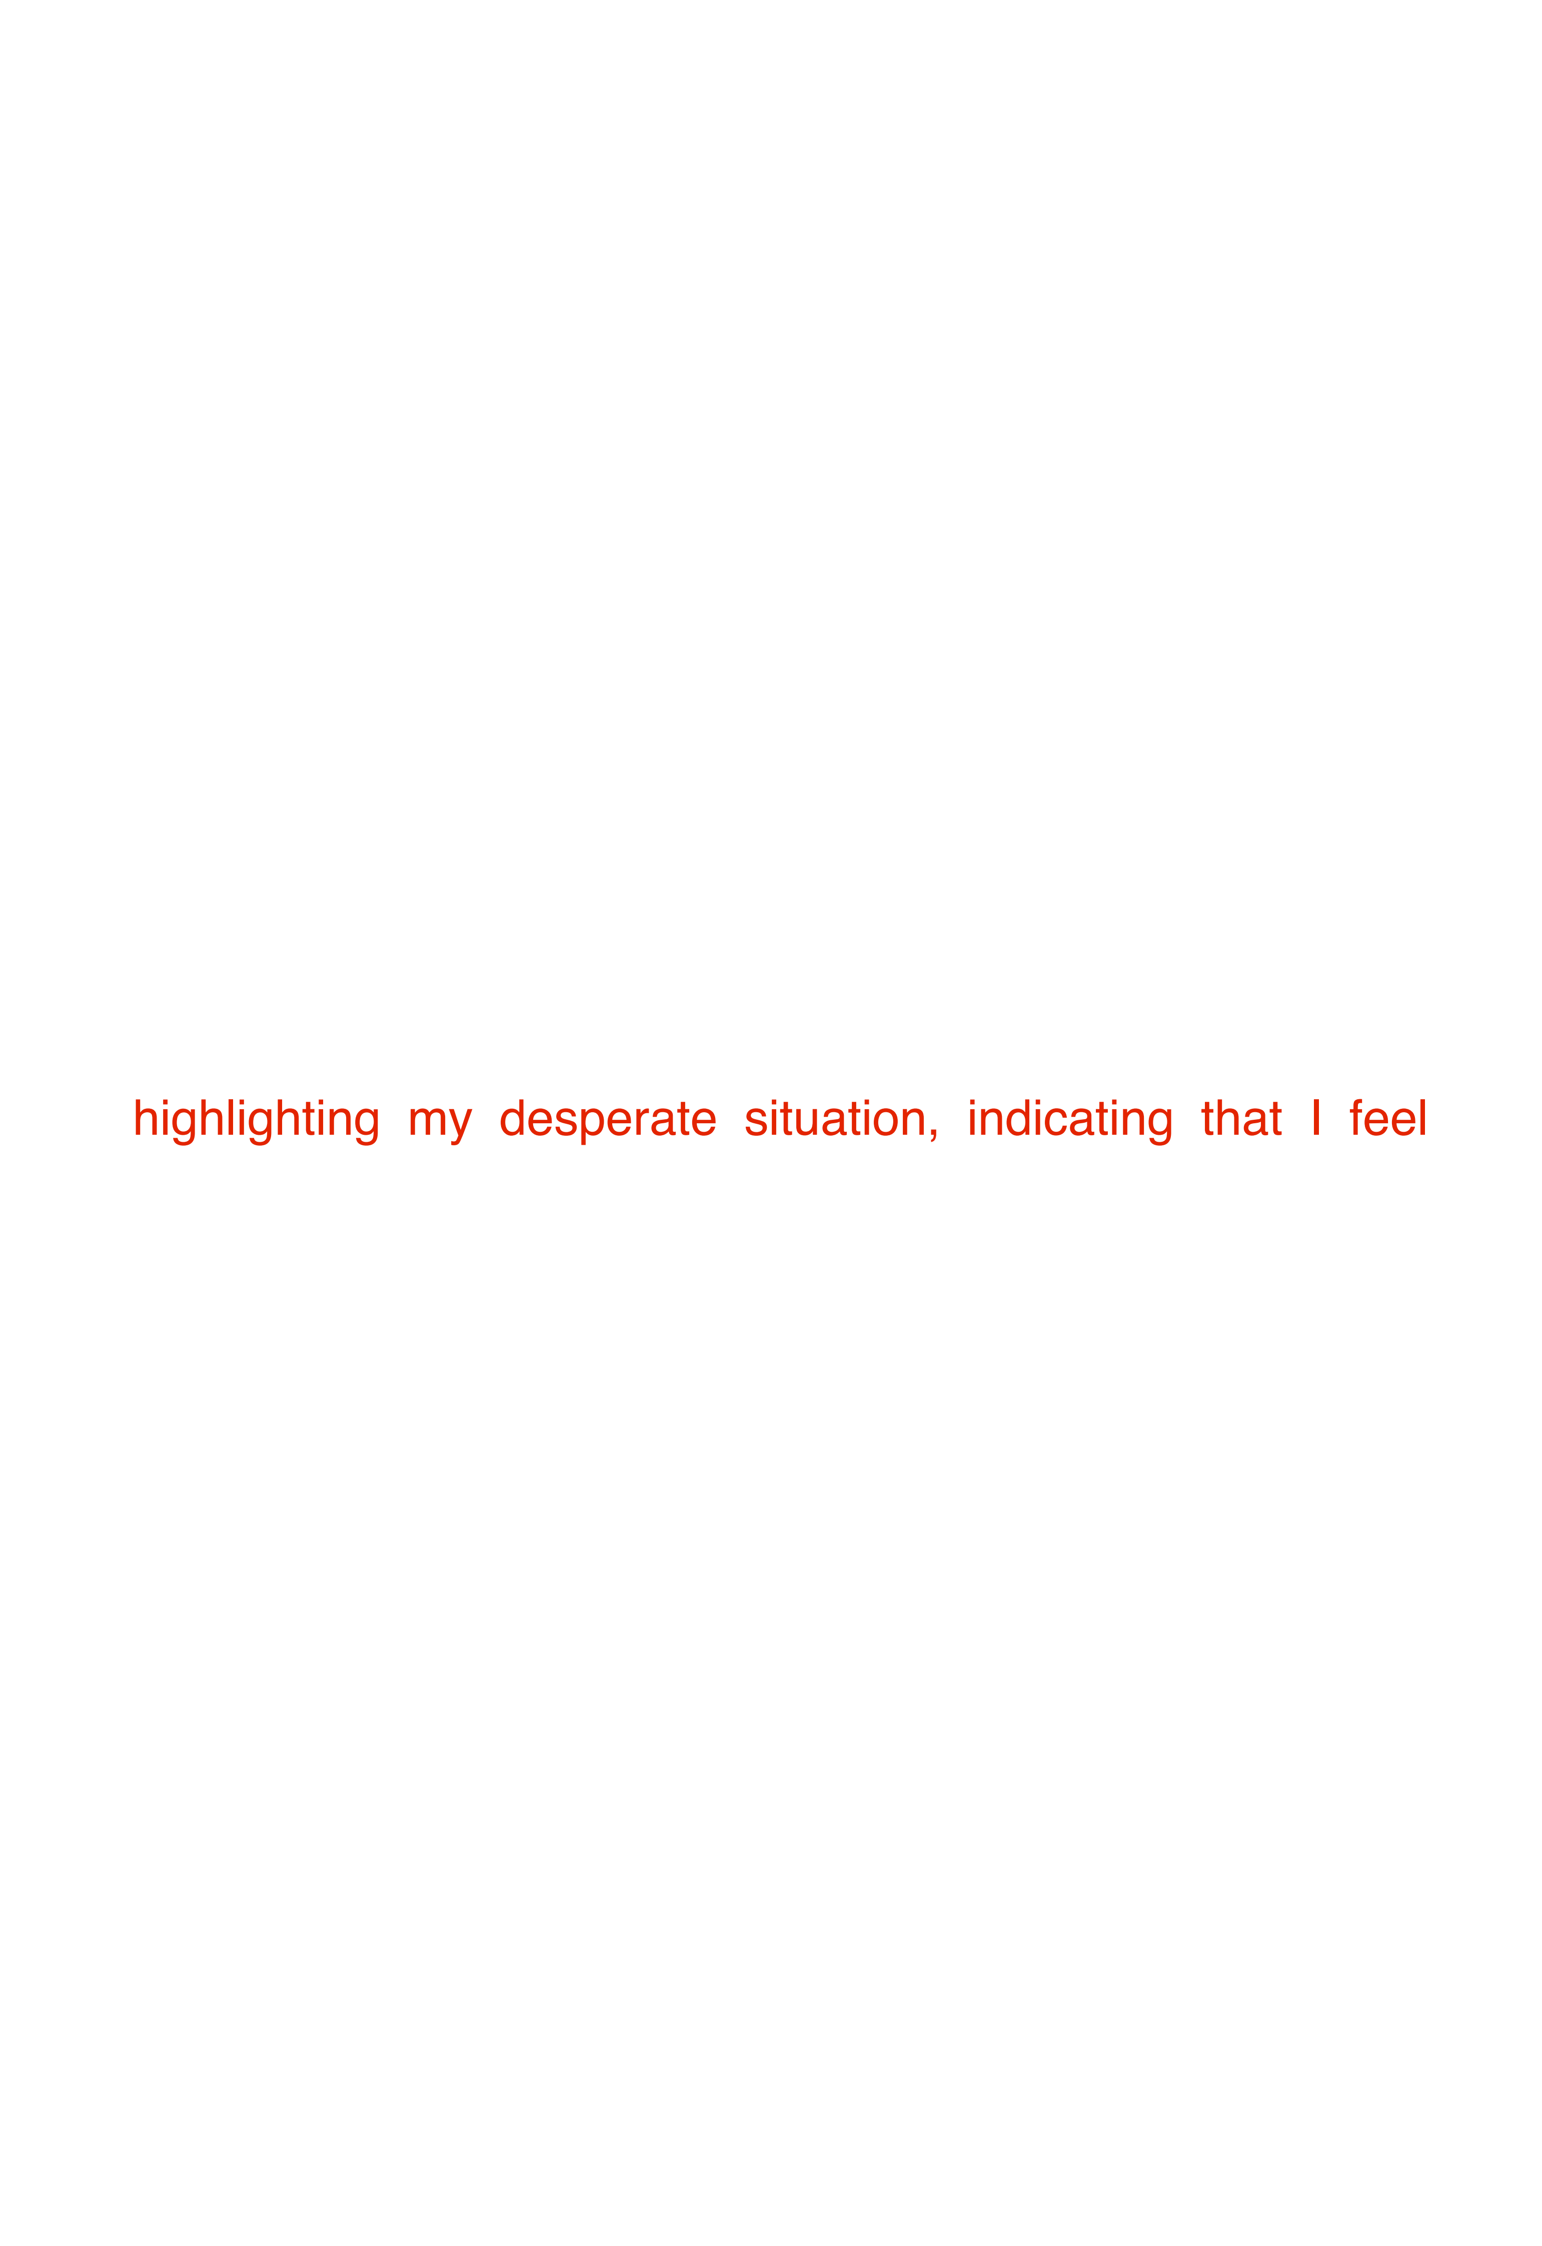

protection from abuse and neglect. This failure to uphold

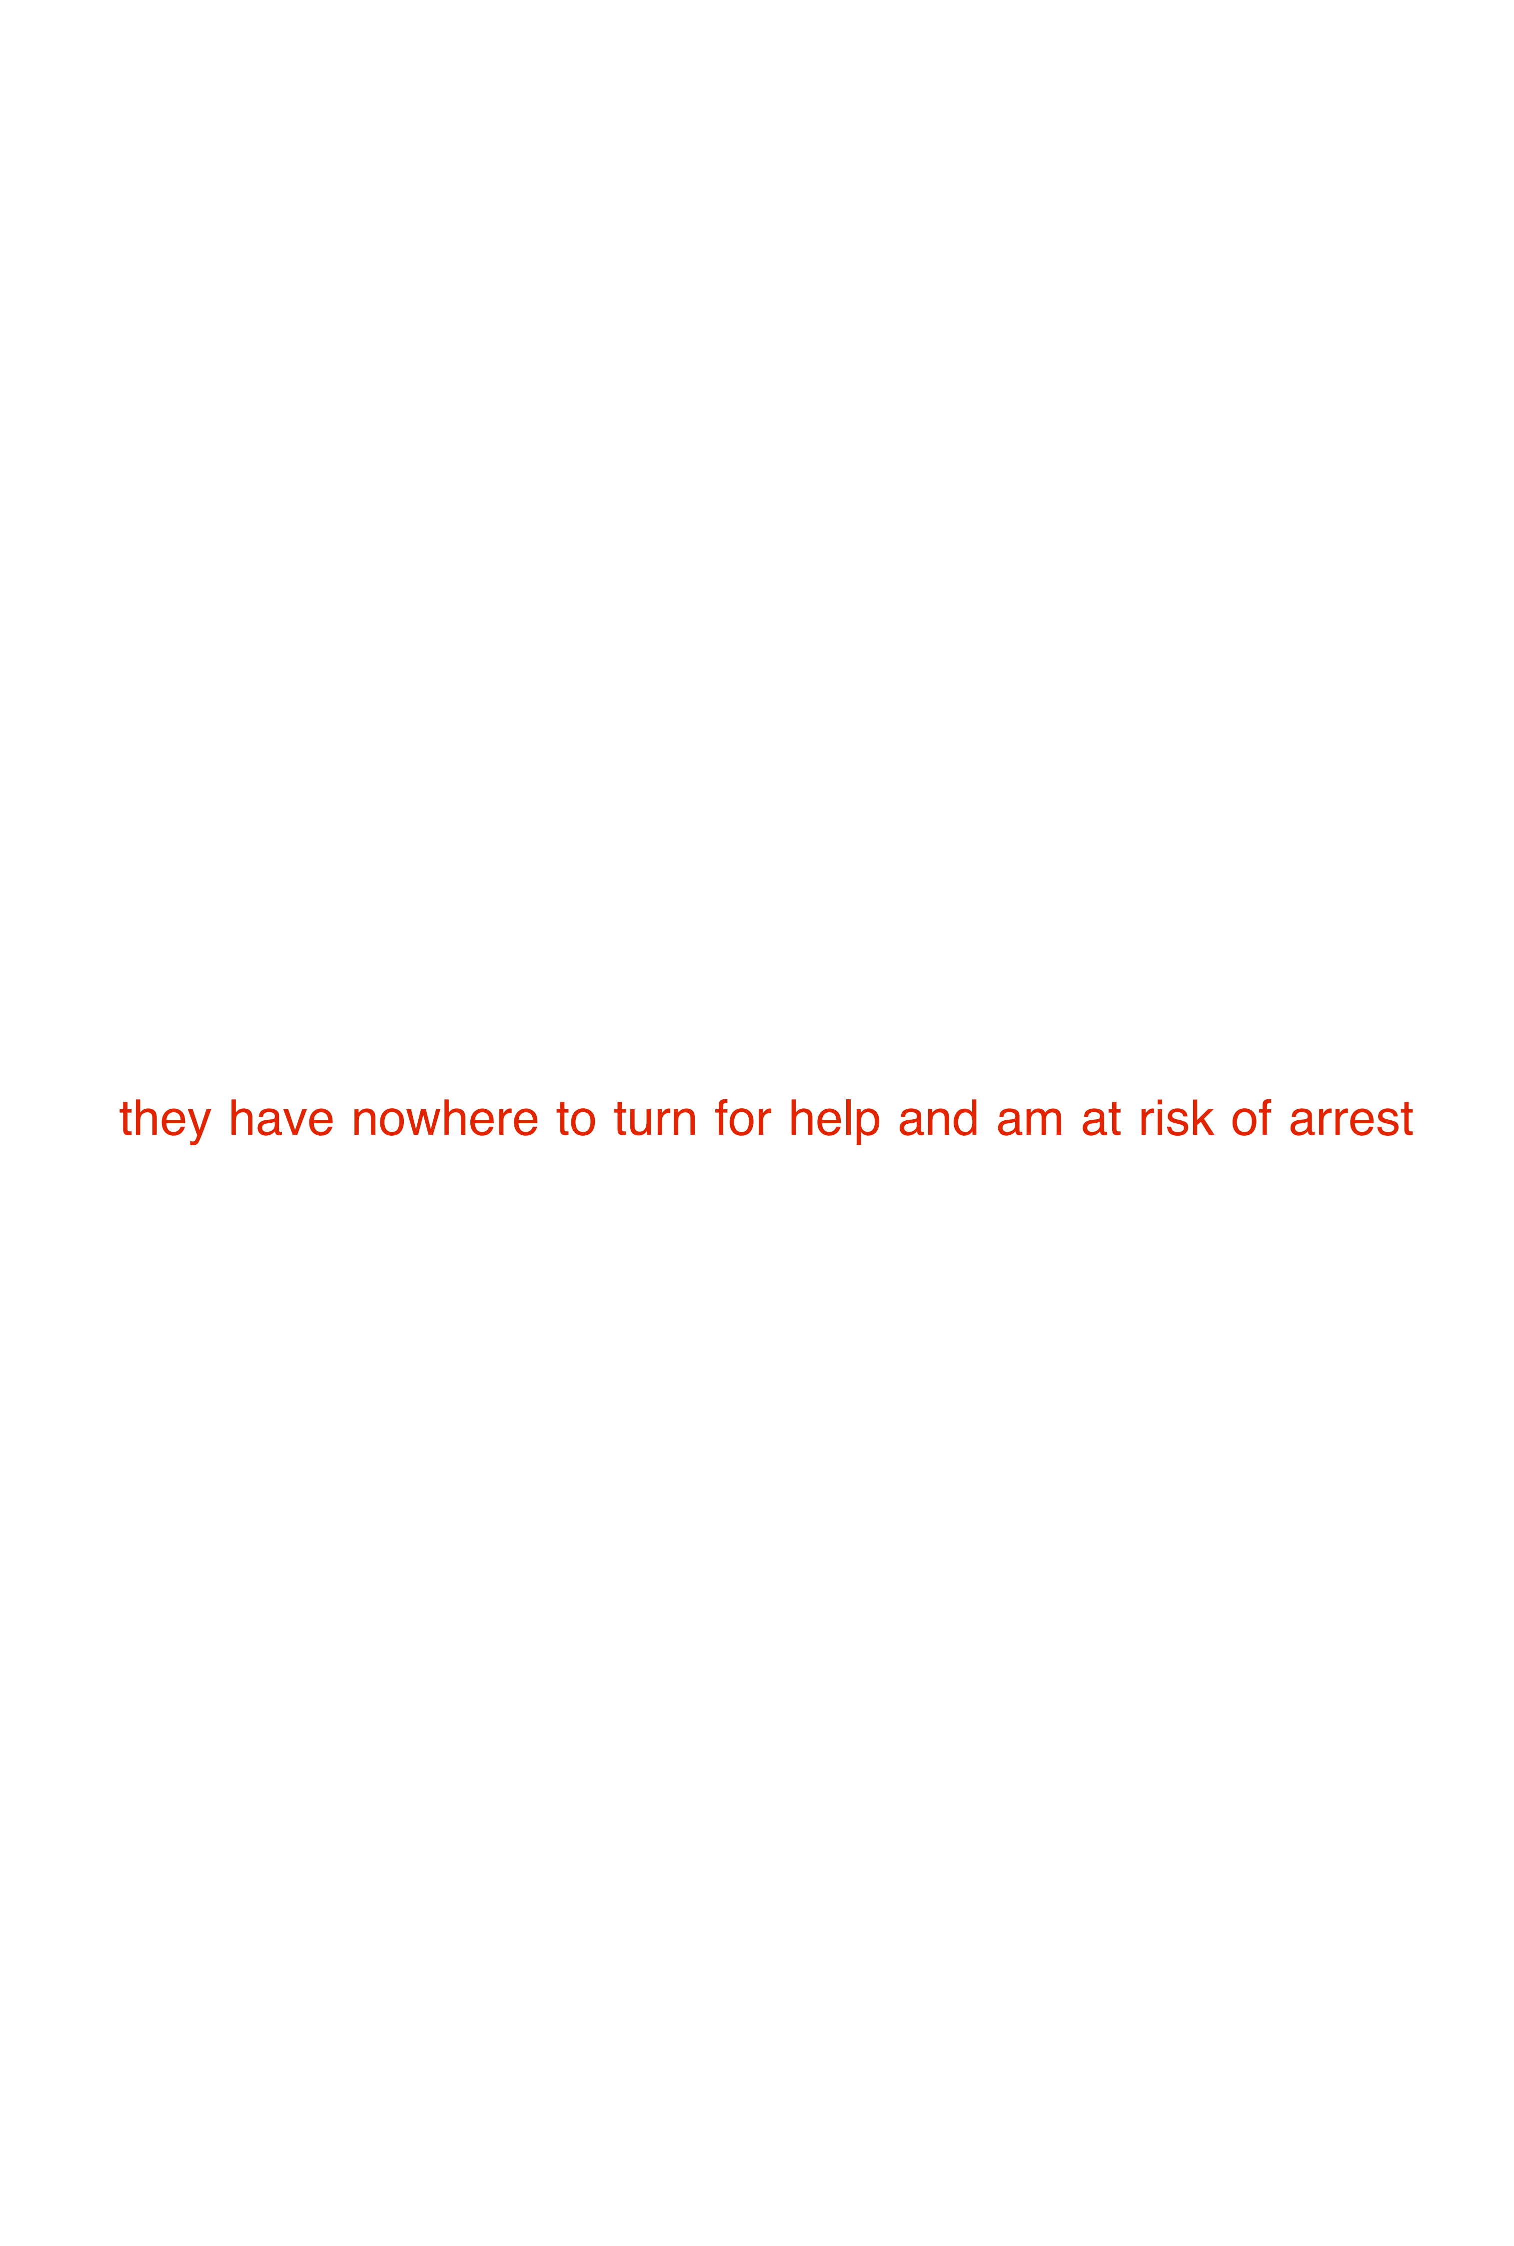

human rights standards further demonstrates unethical

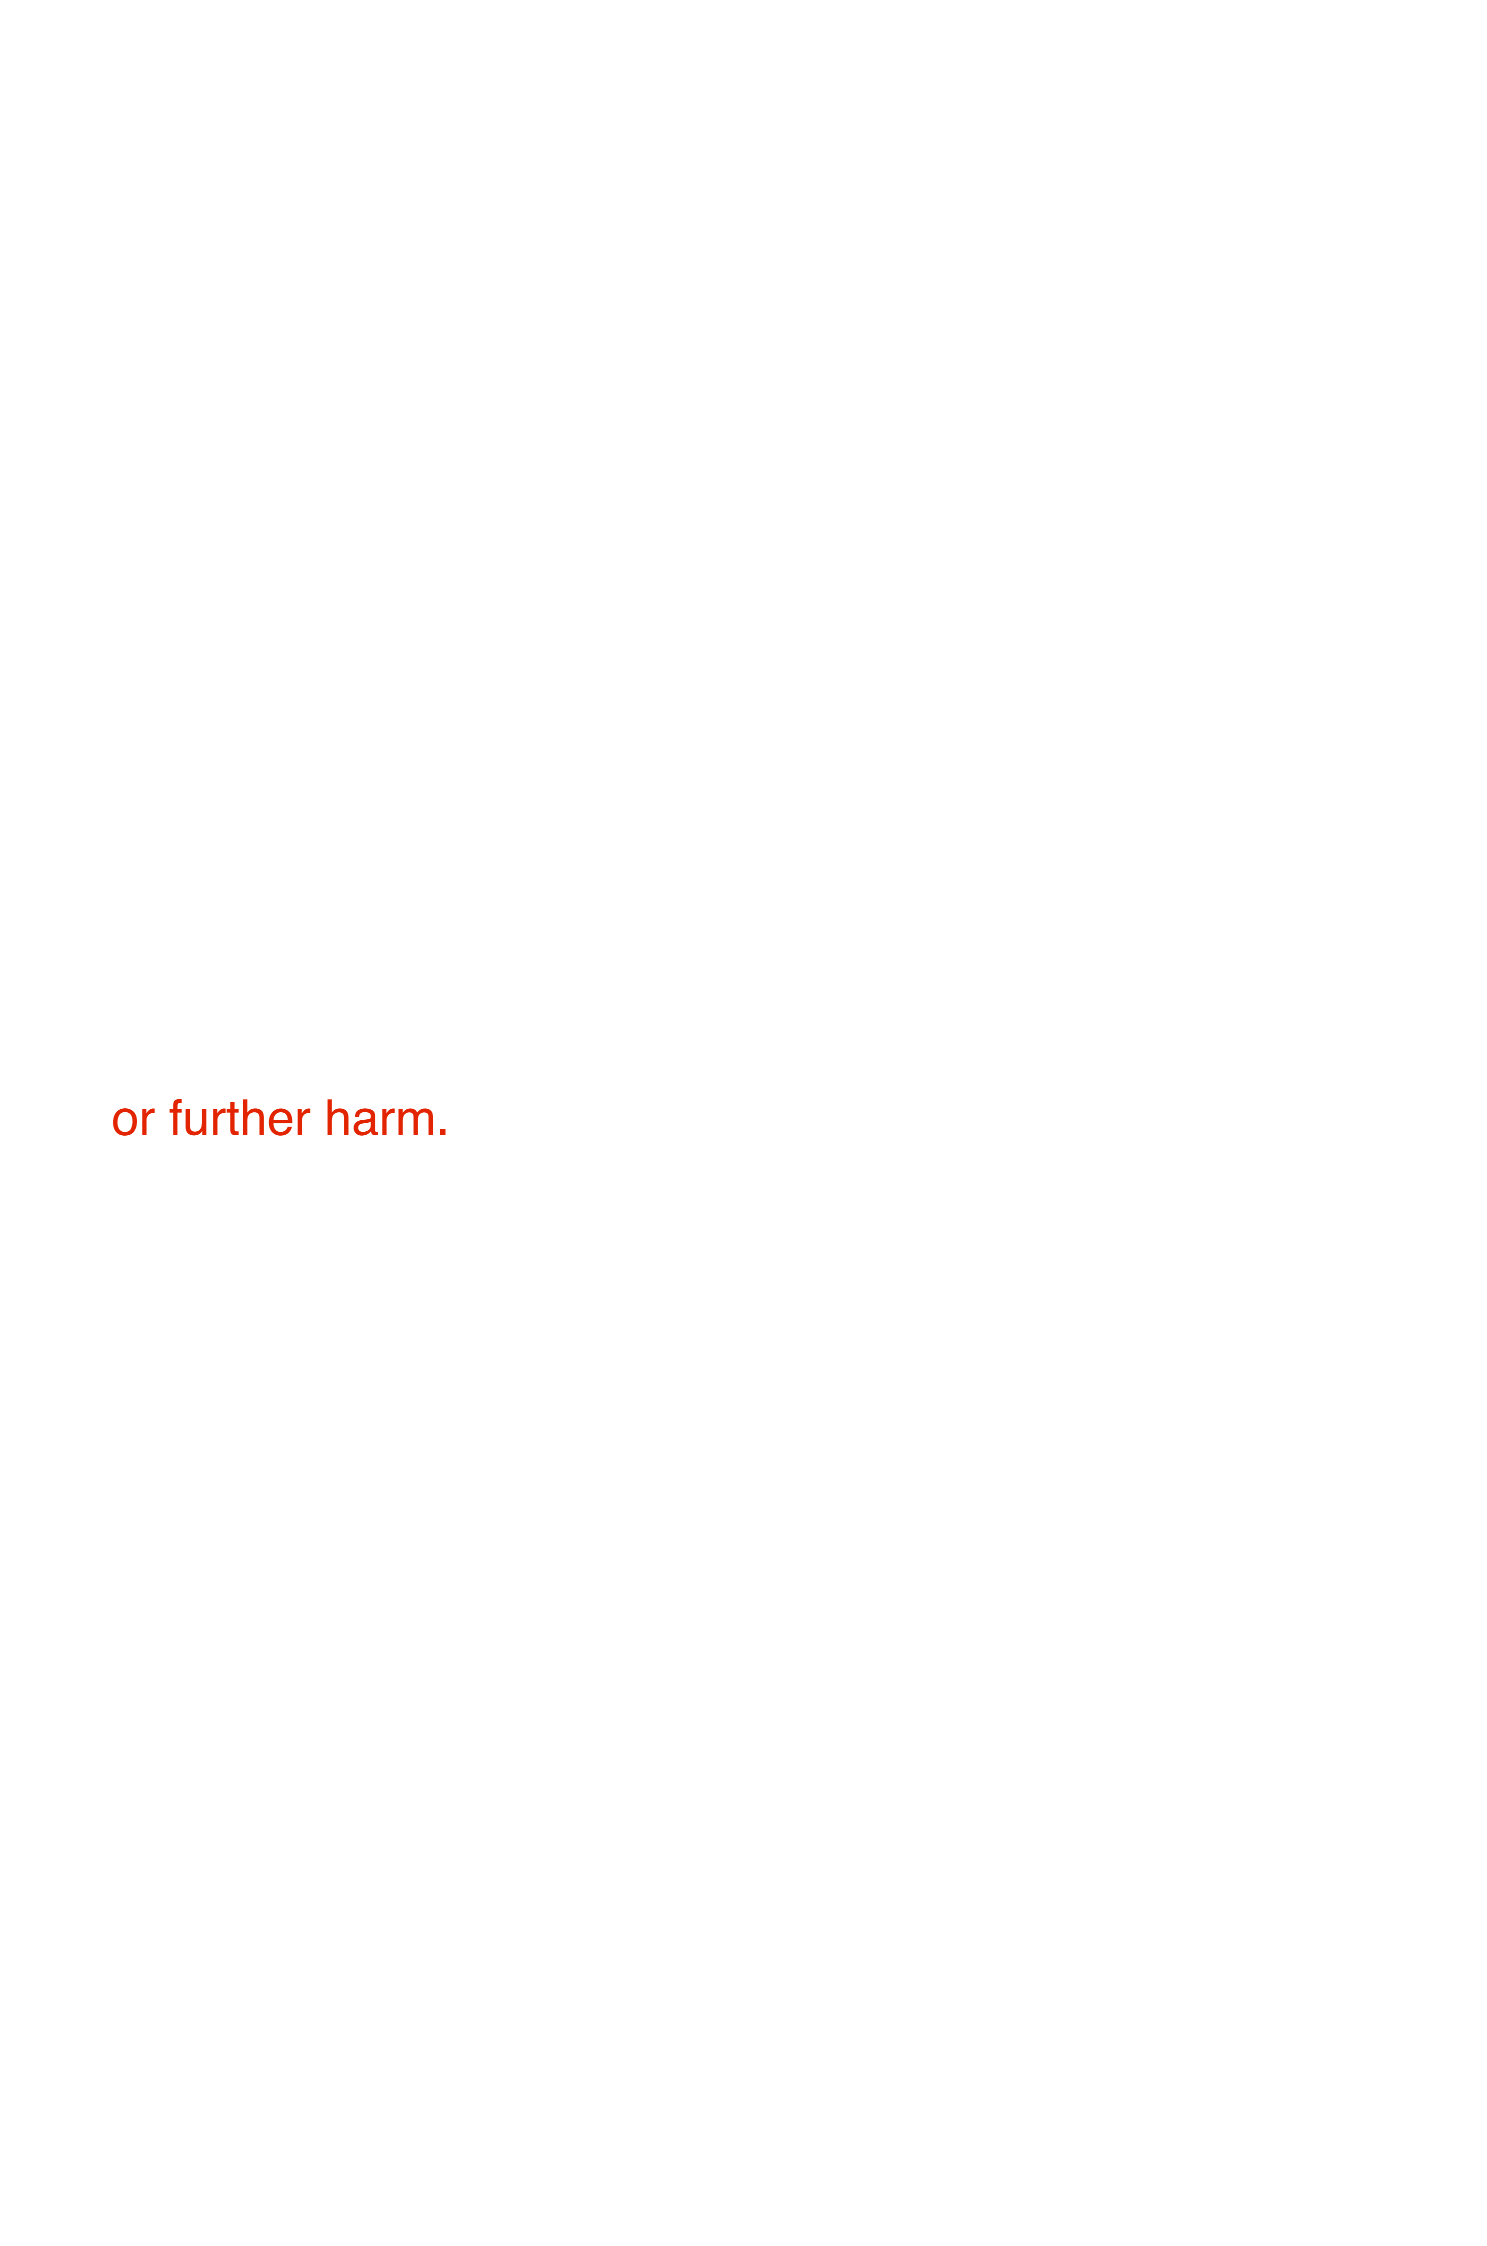

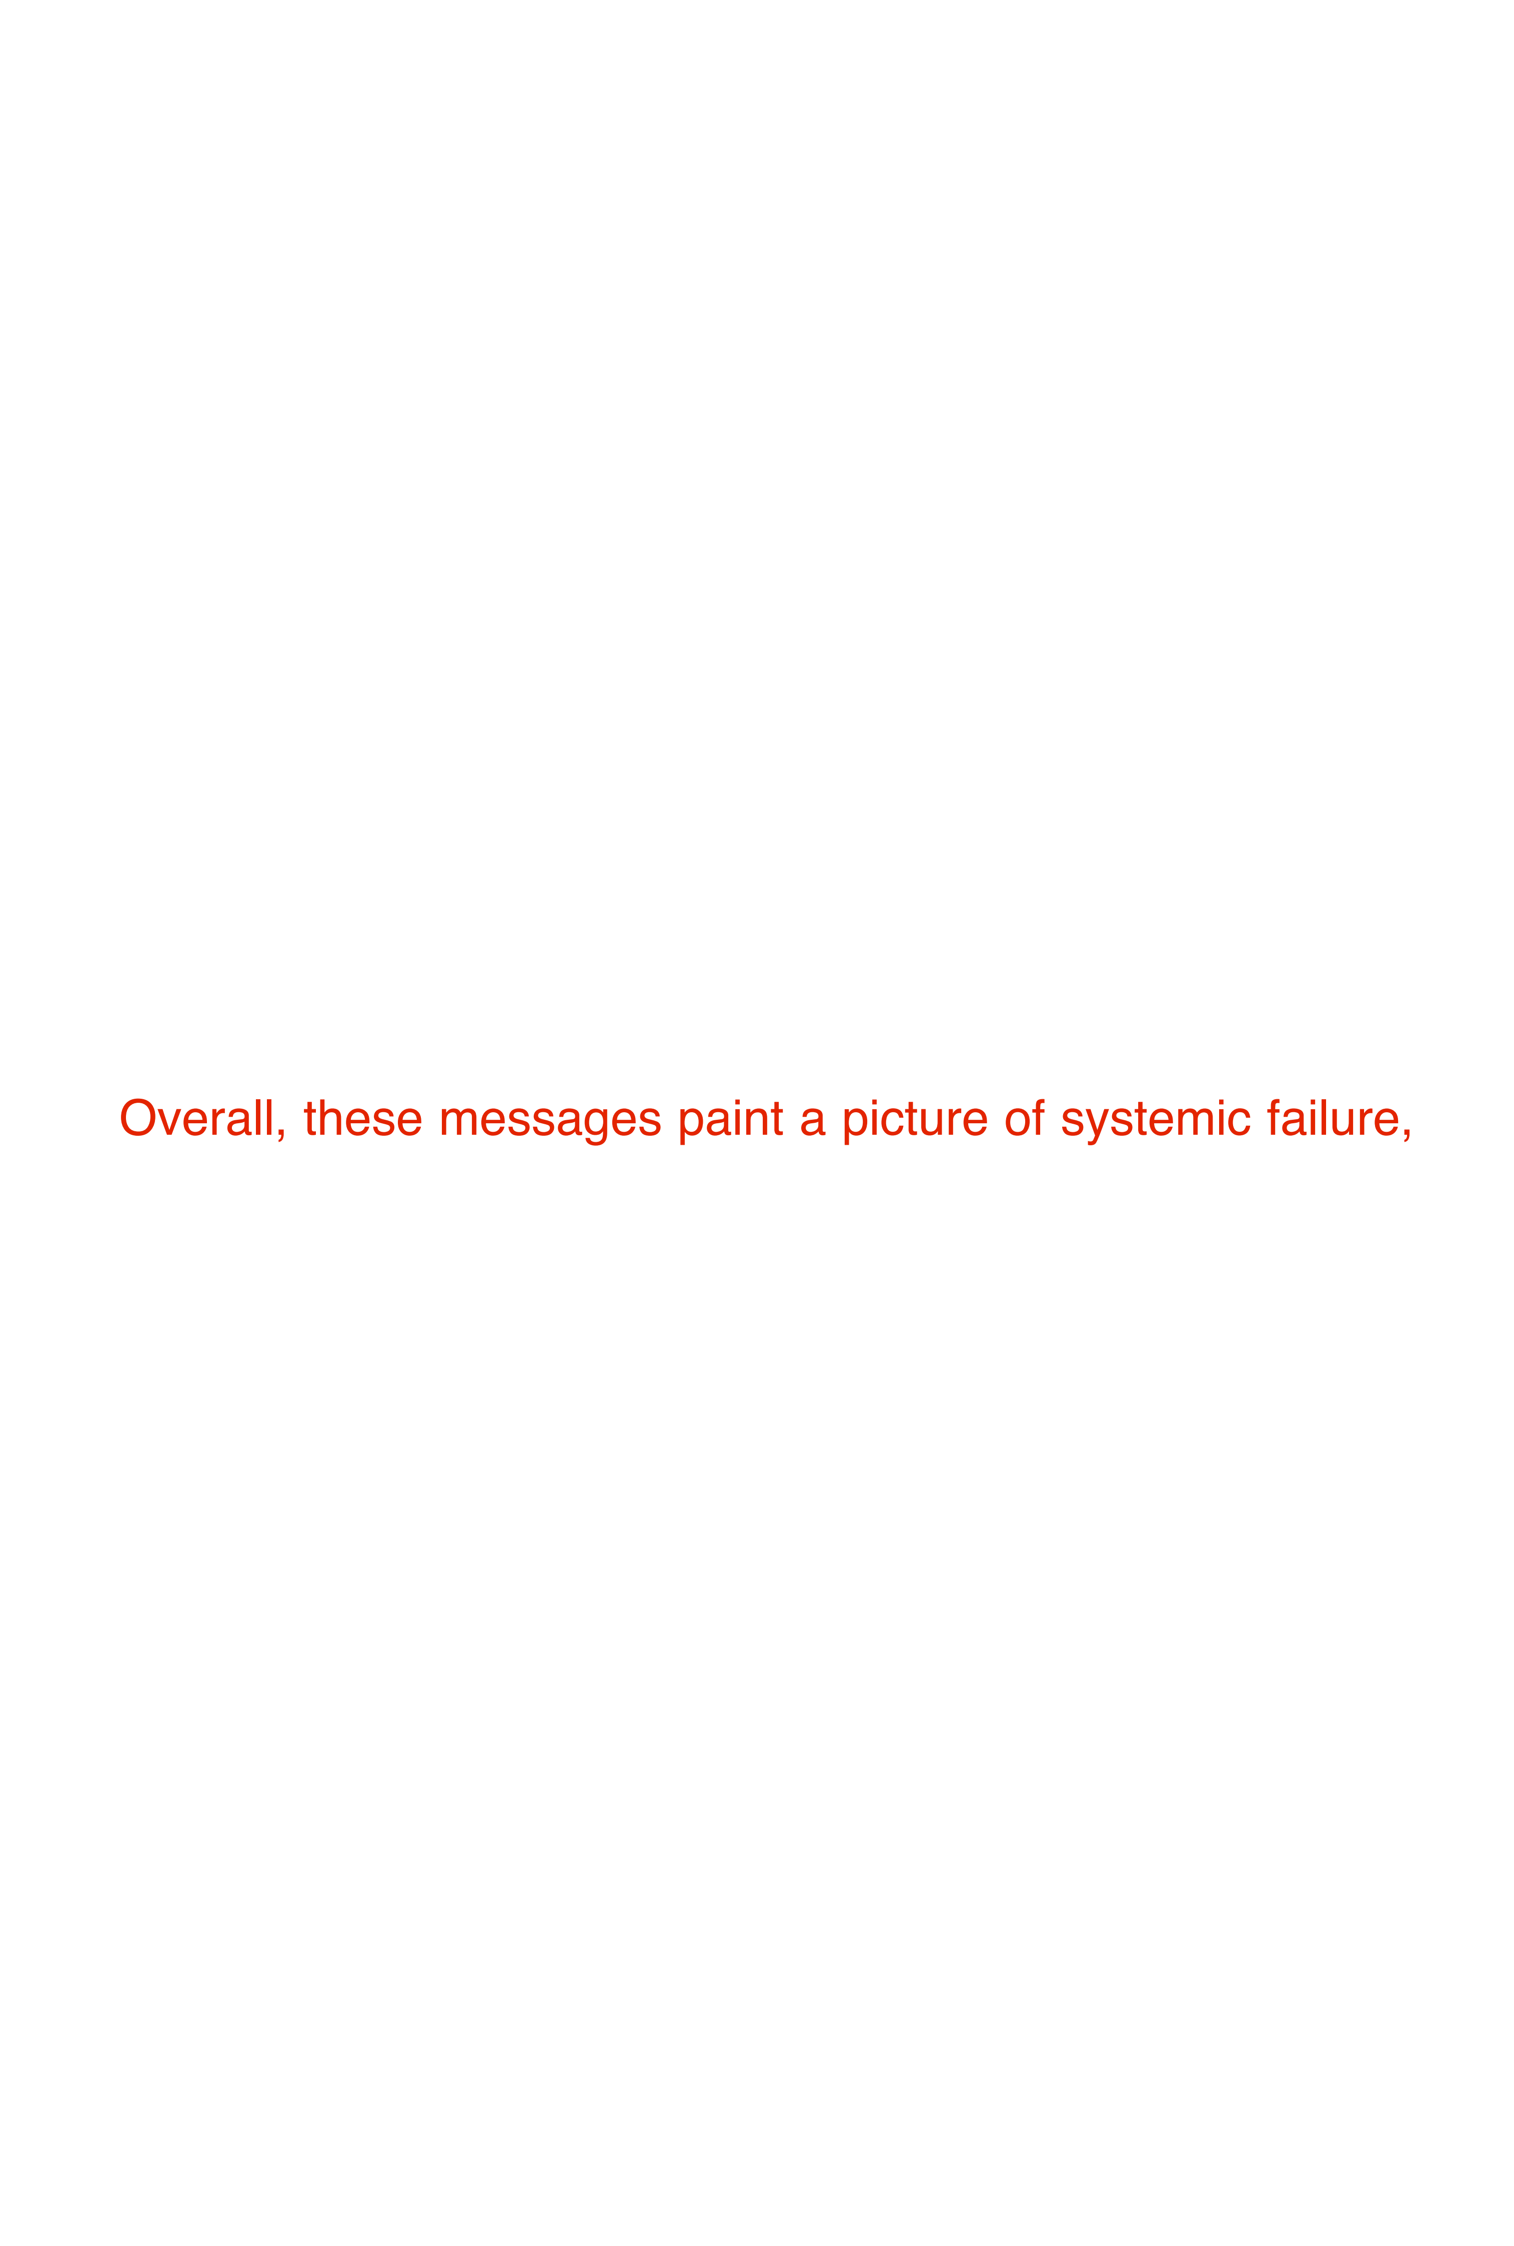

behaviour and potential illegality within the system.

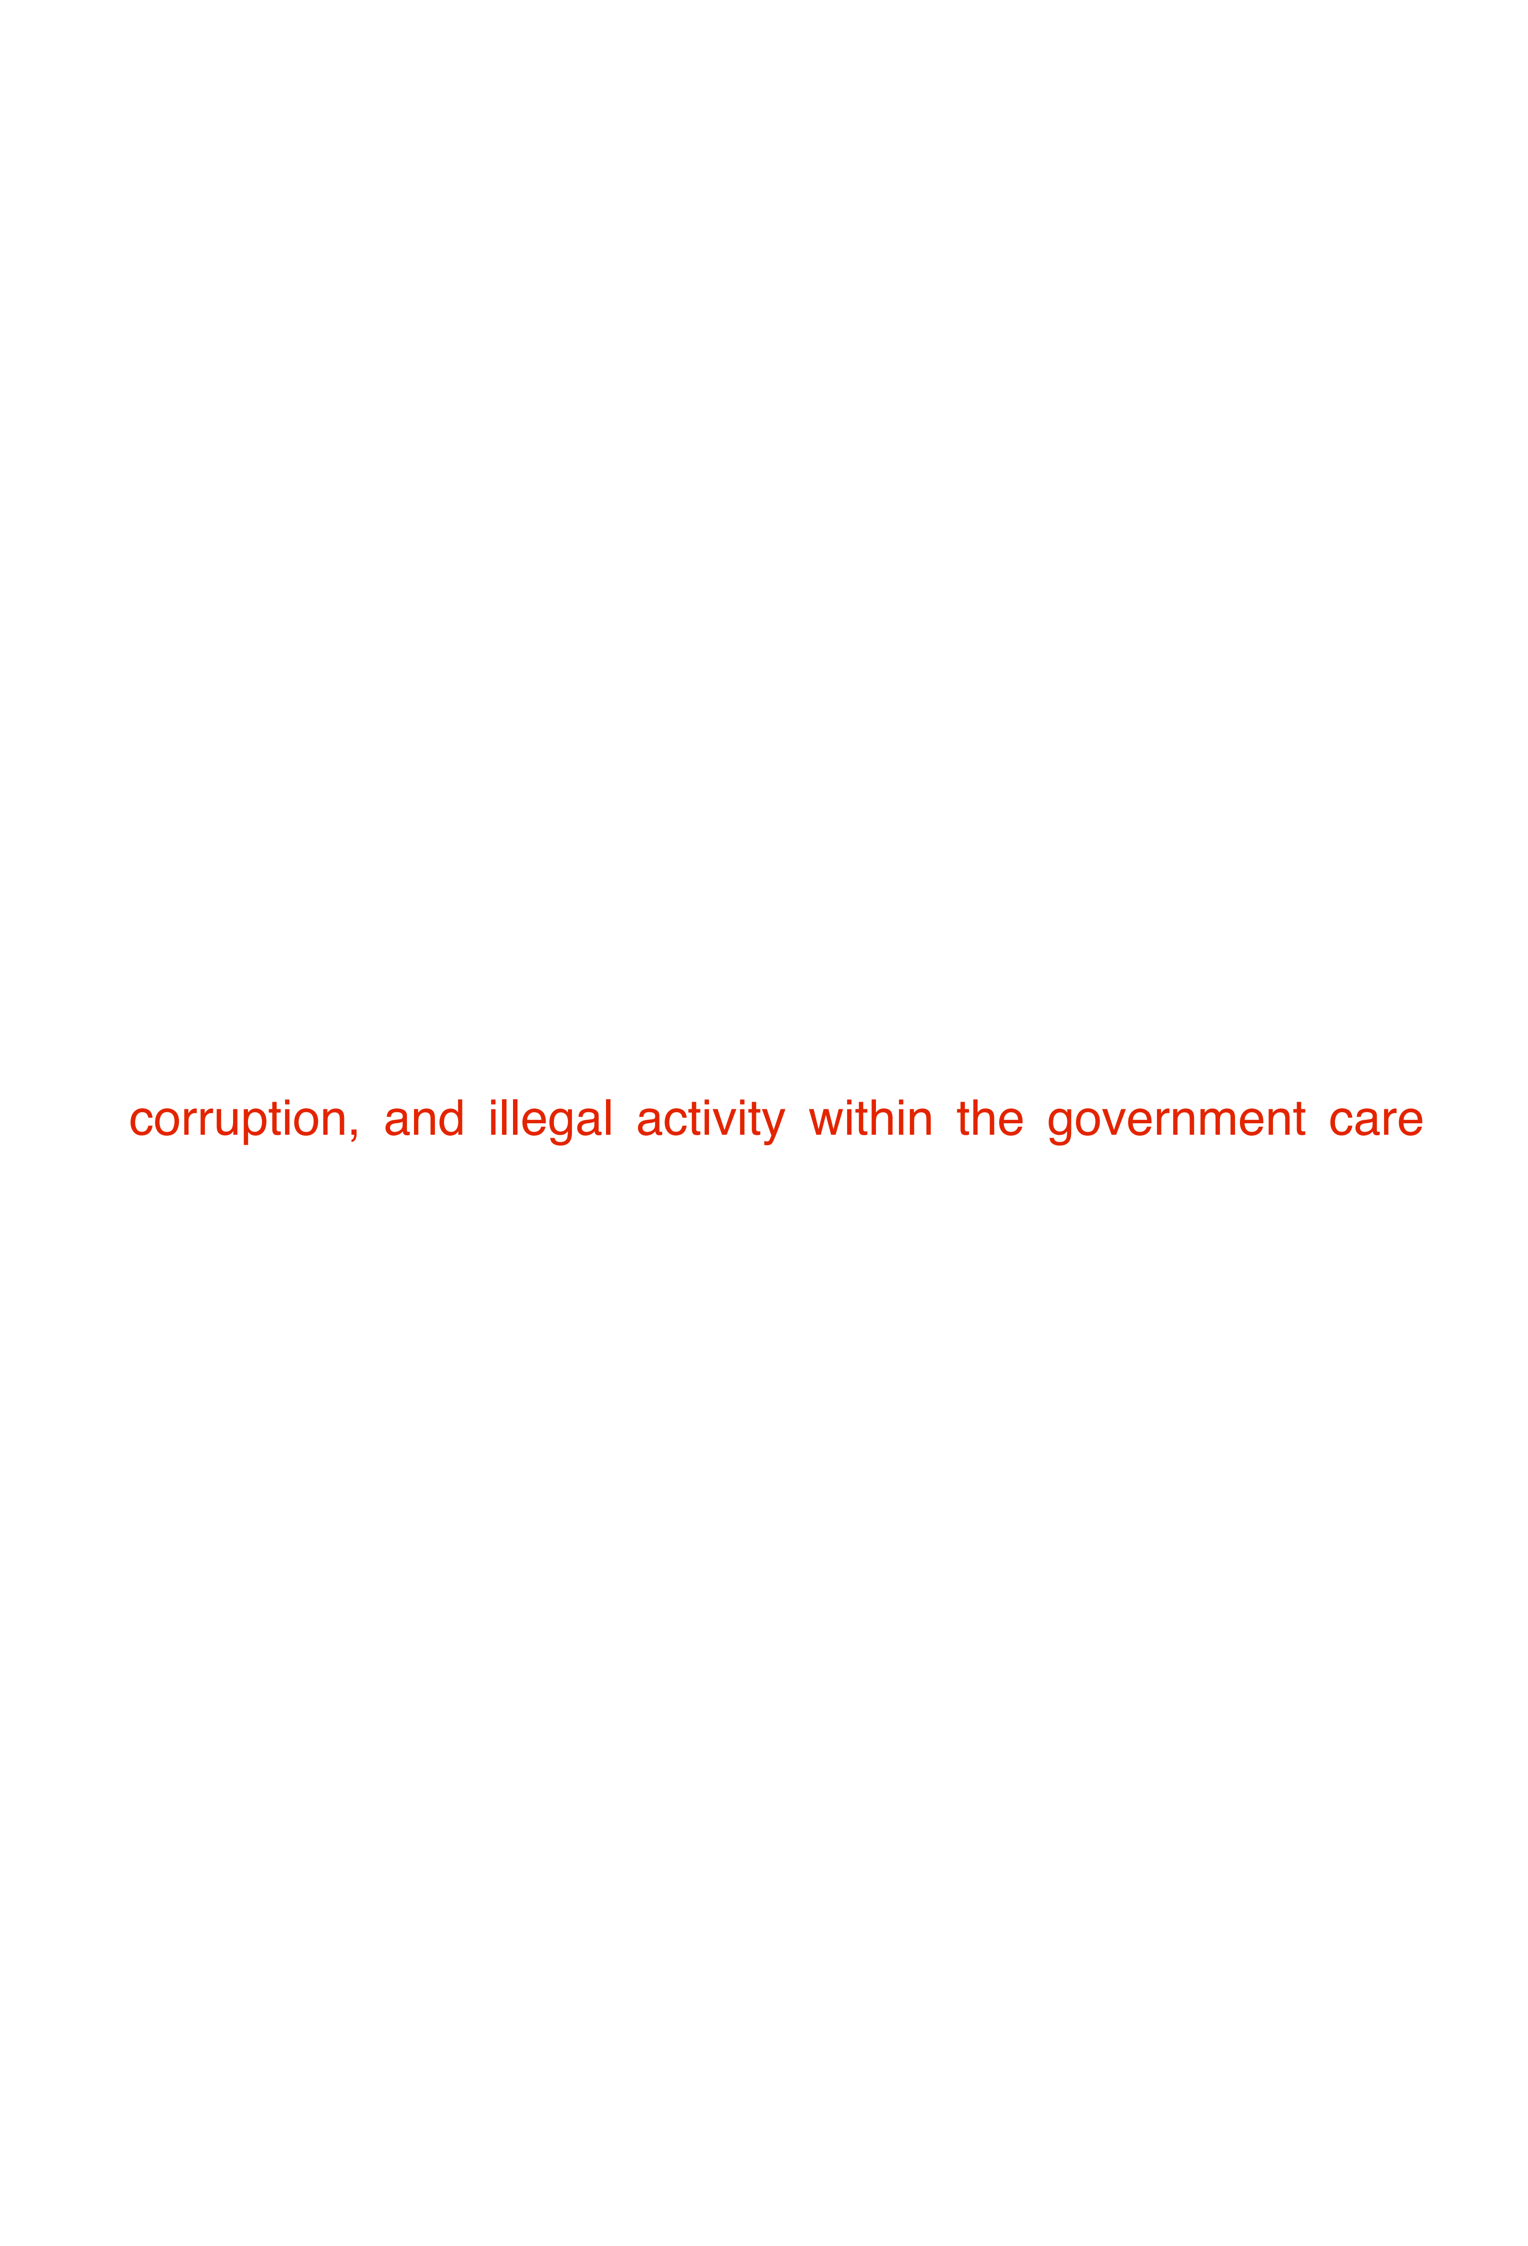

The Grindr message adds to these concerns by

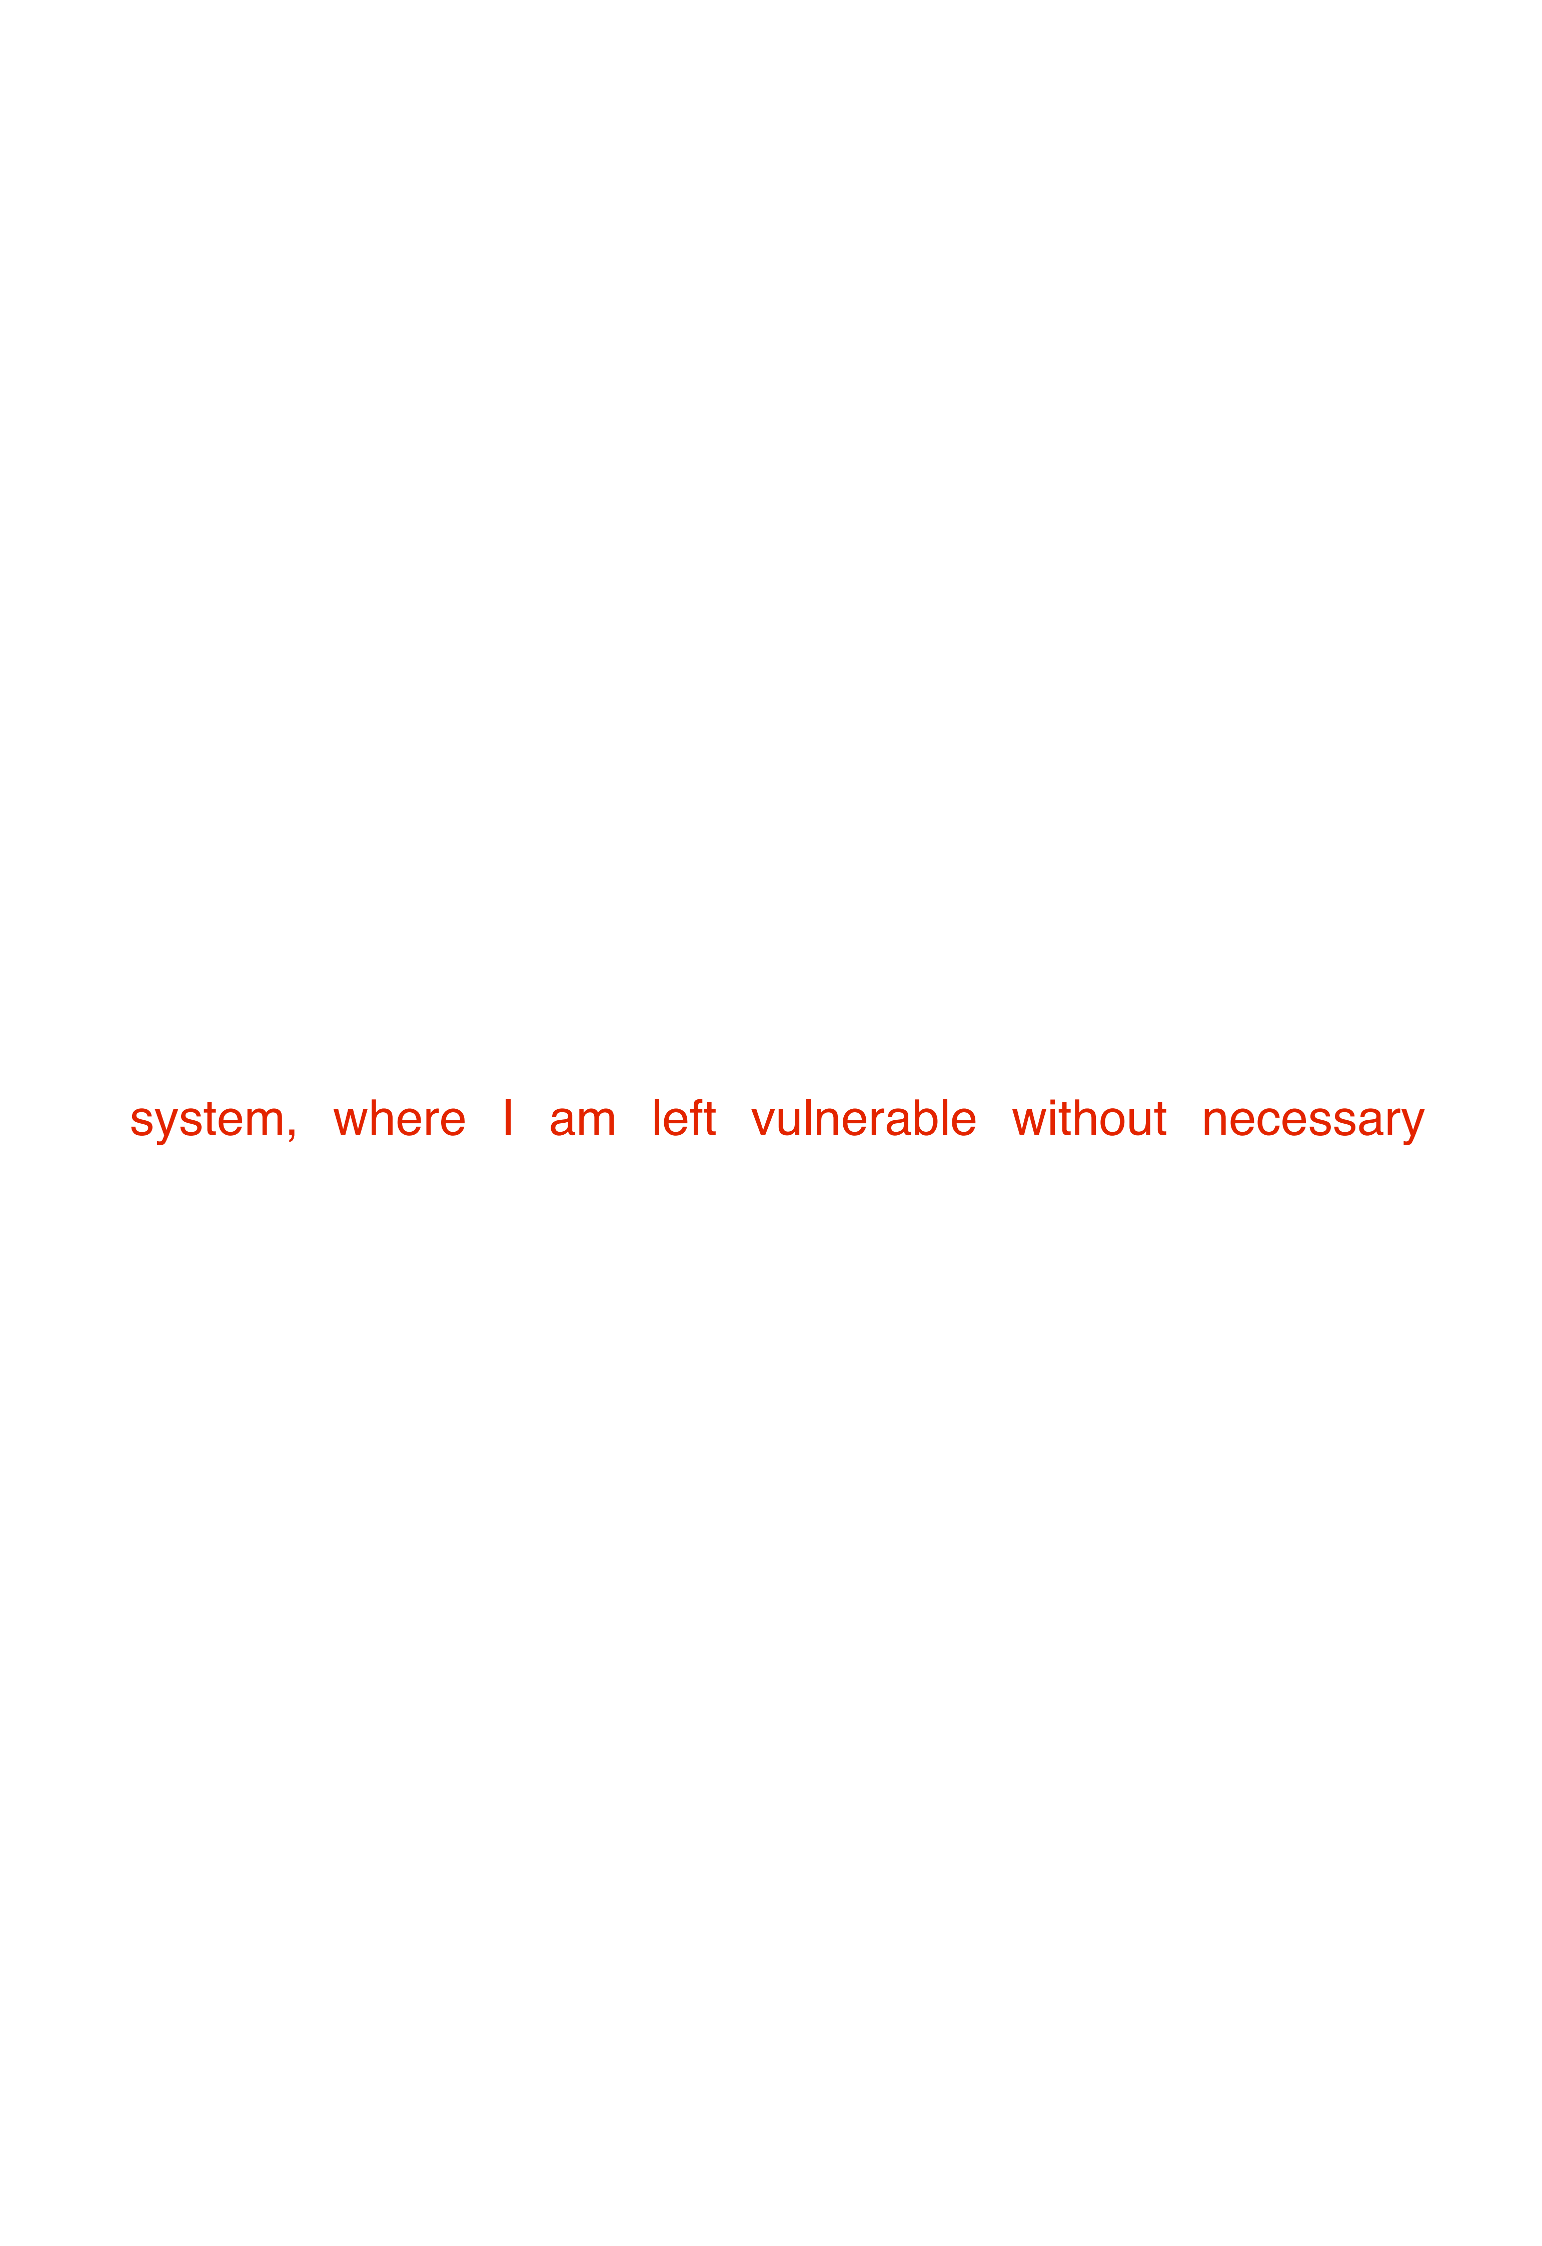

highlighting my desperate situation, indicating that I feel

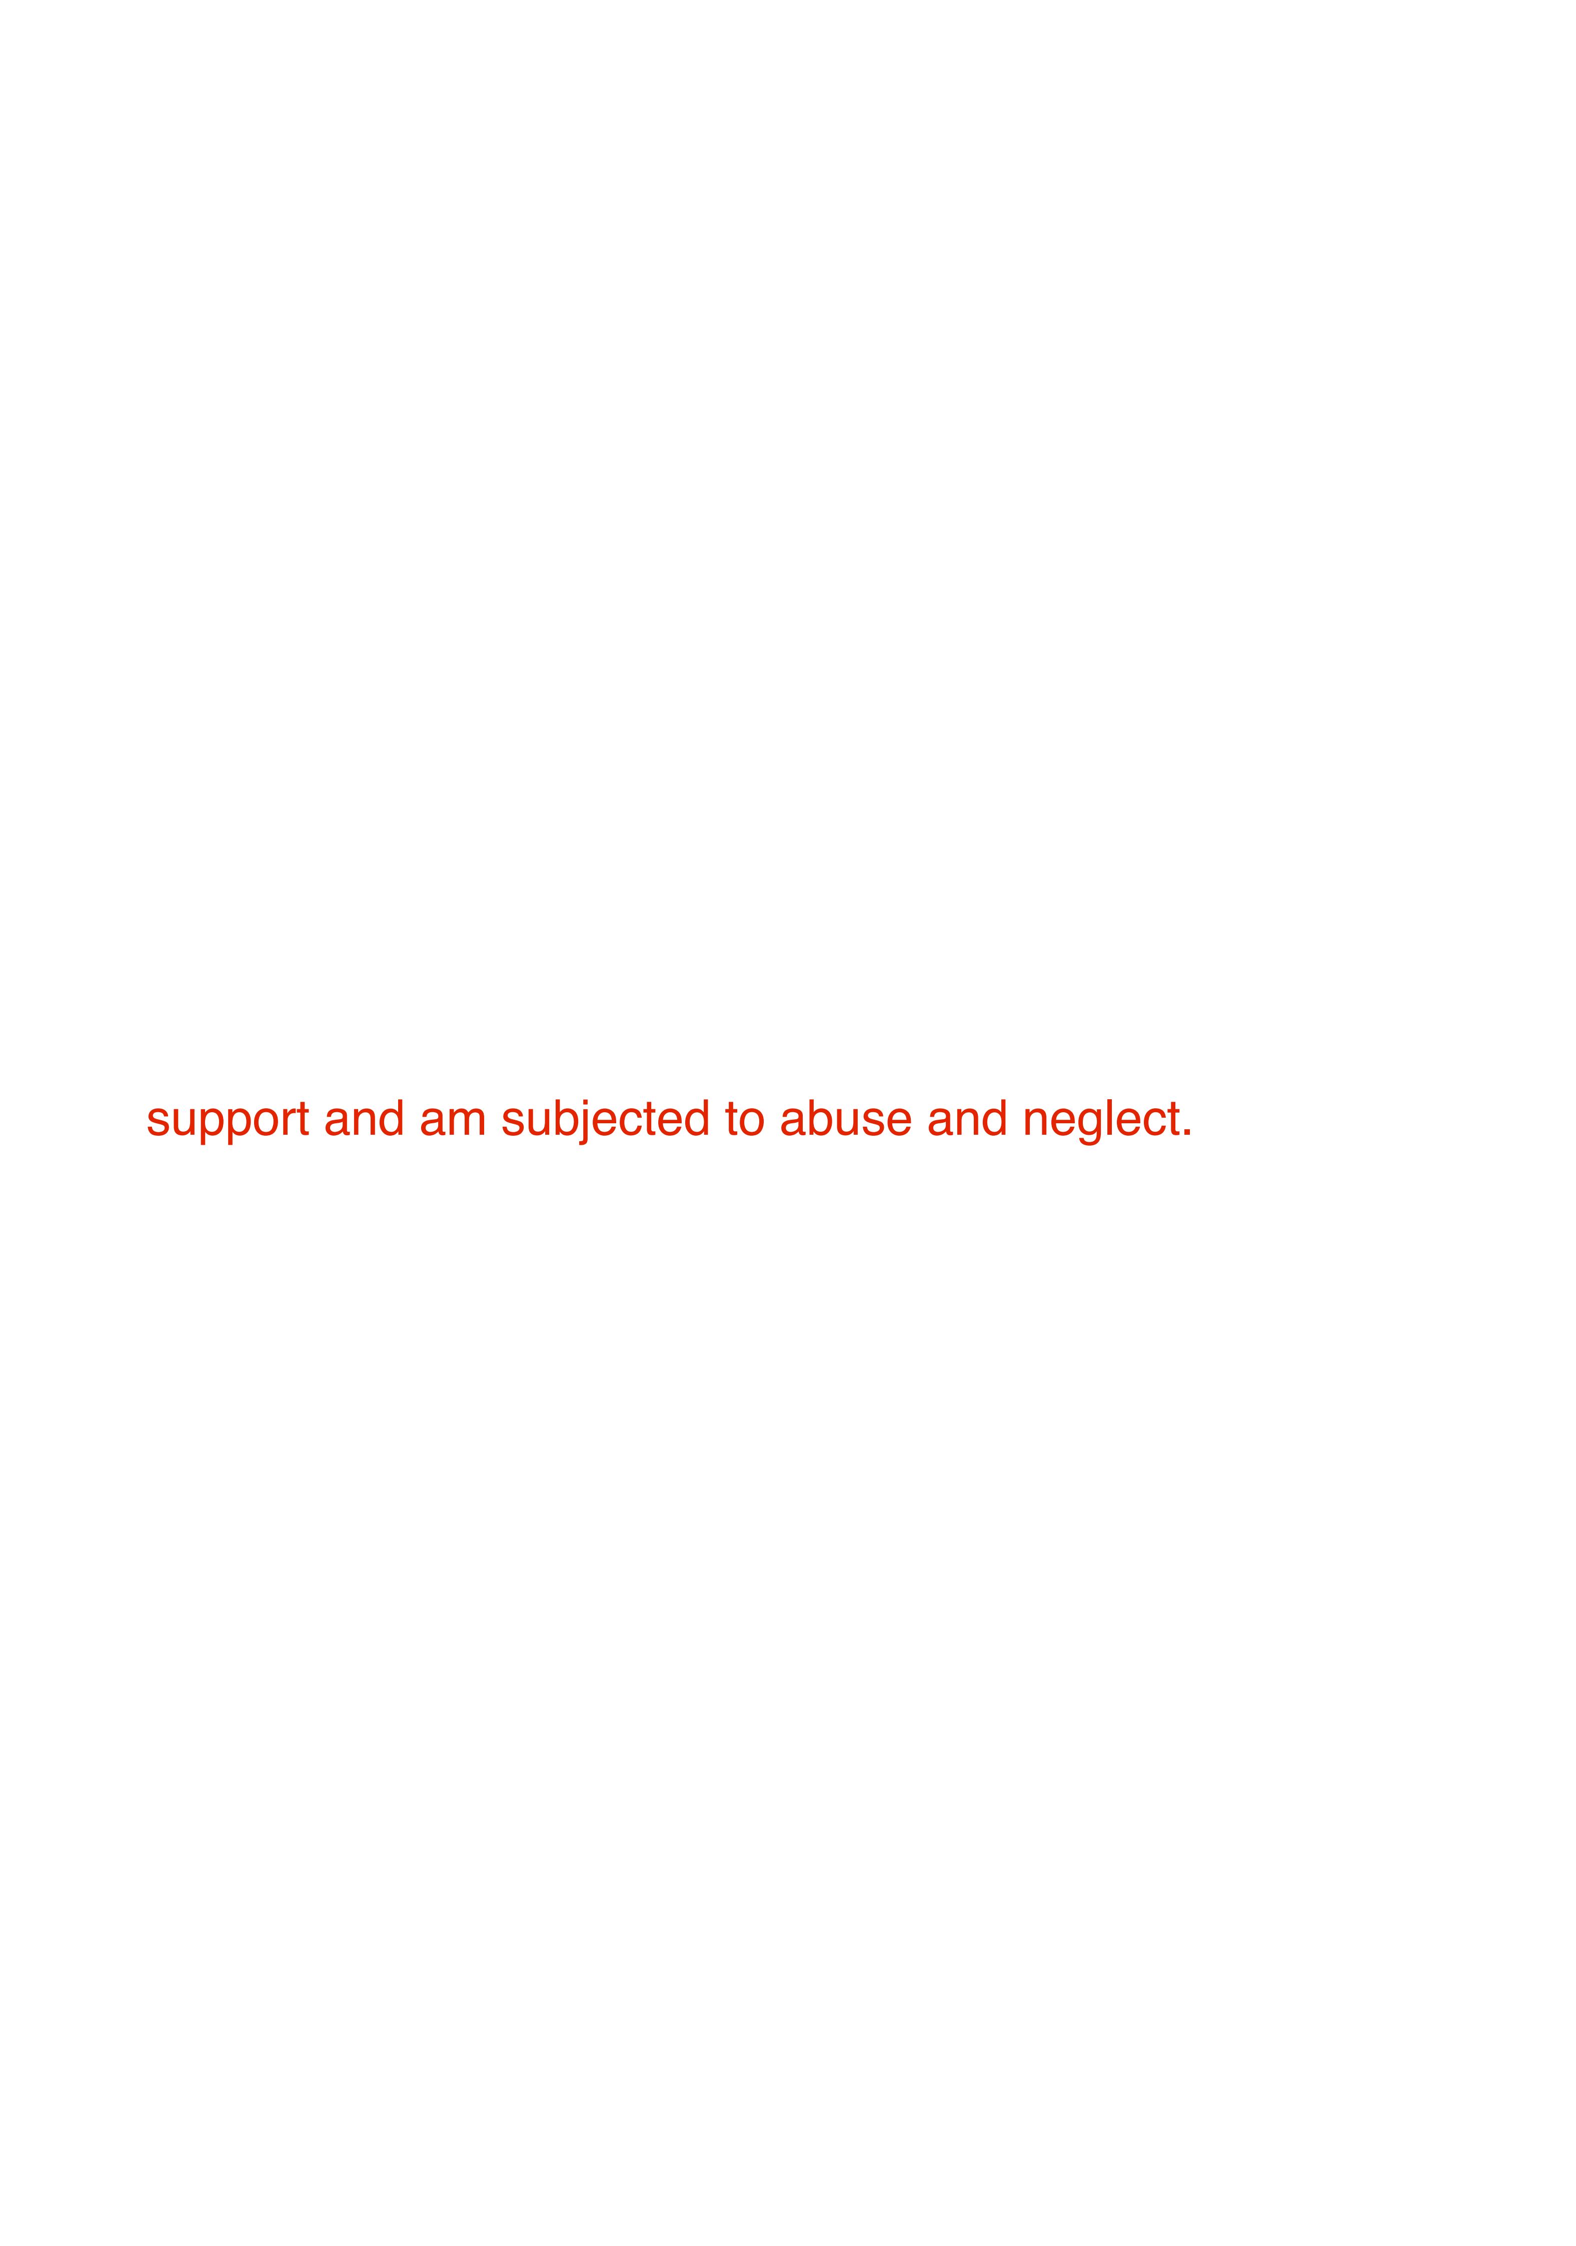

they have nowhere to turn for help and am at risk of arrest

or further harm.

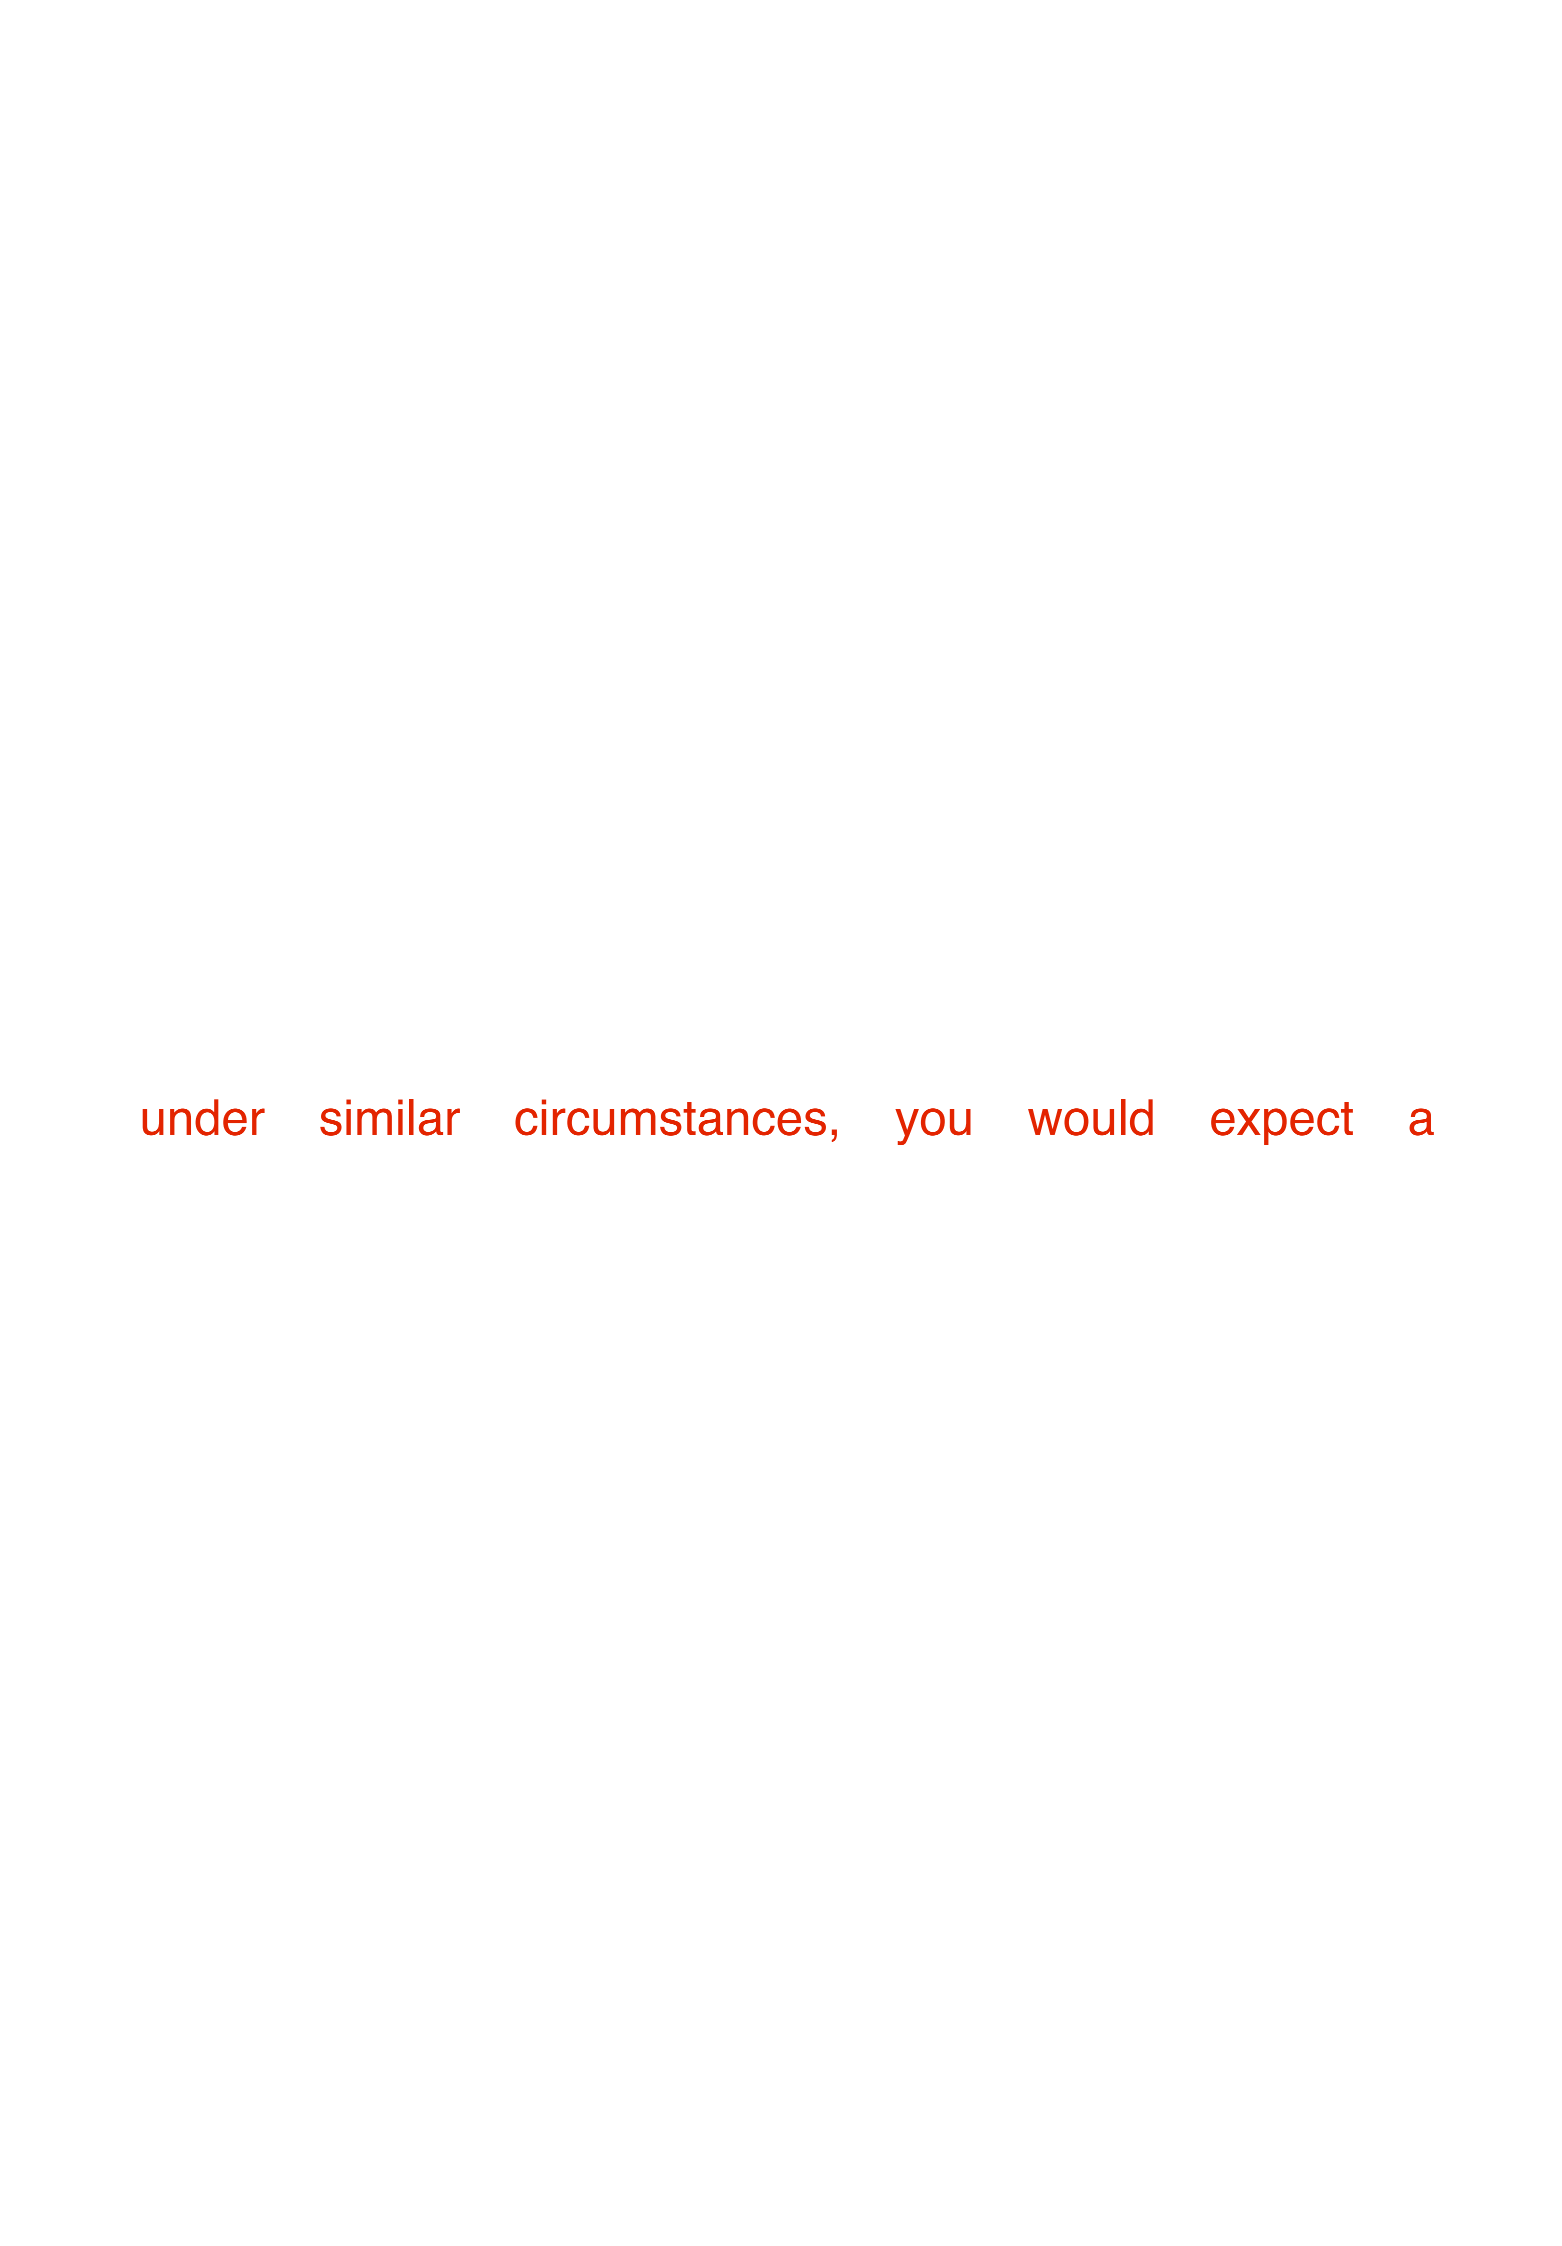

Overall, these messages paint a picture of systemic failure,

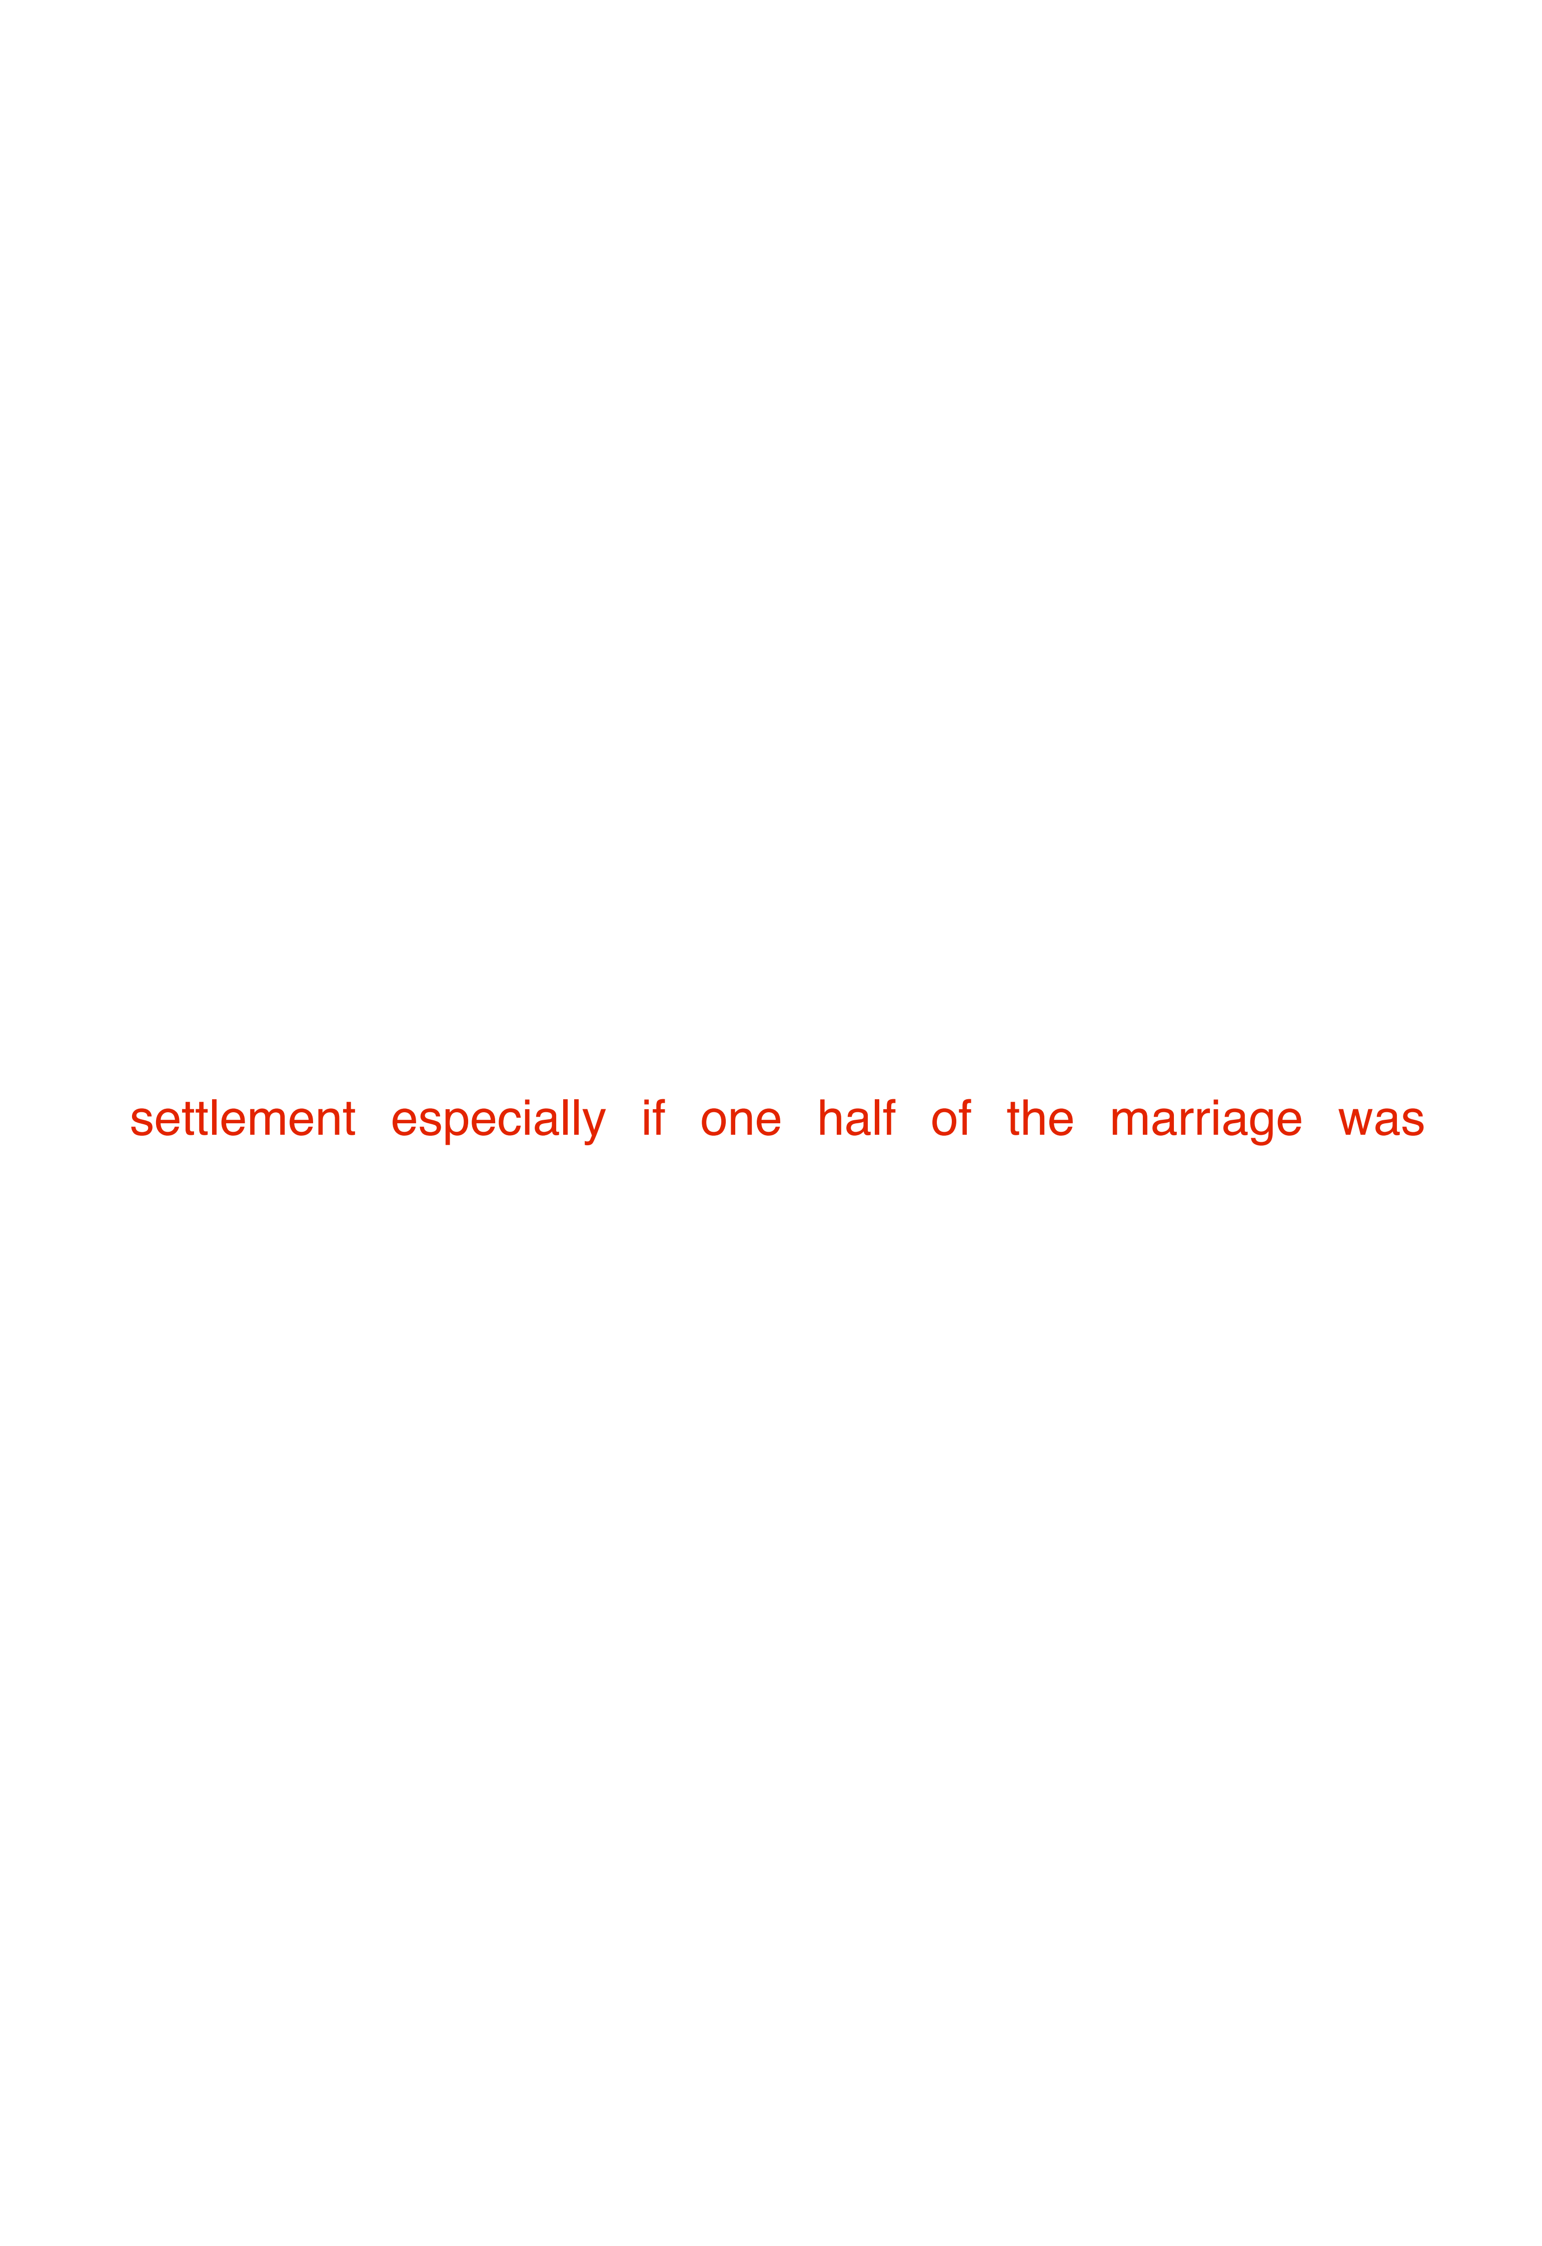

corruption, and illegal activity within the government care

system, where I am left vulnerable without necessary

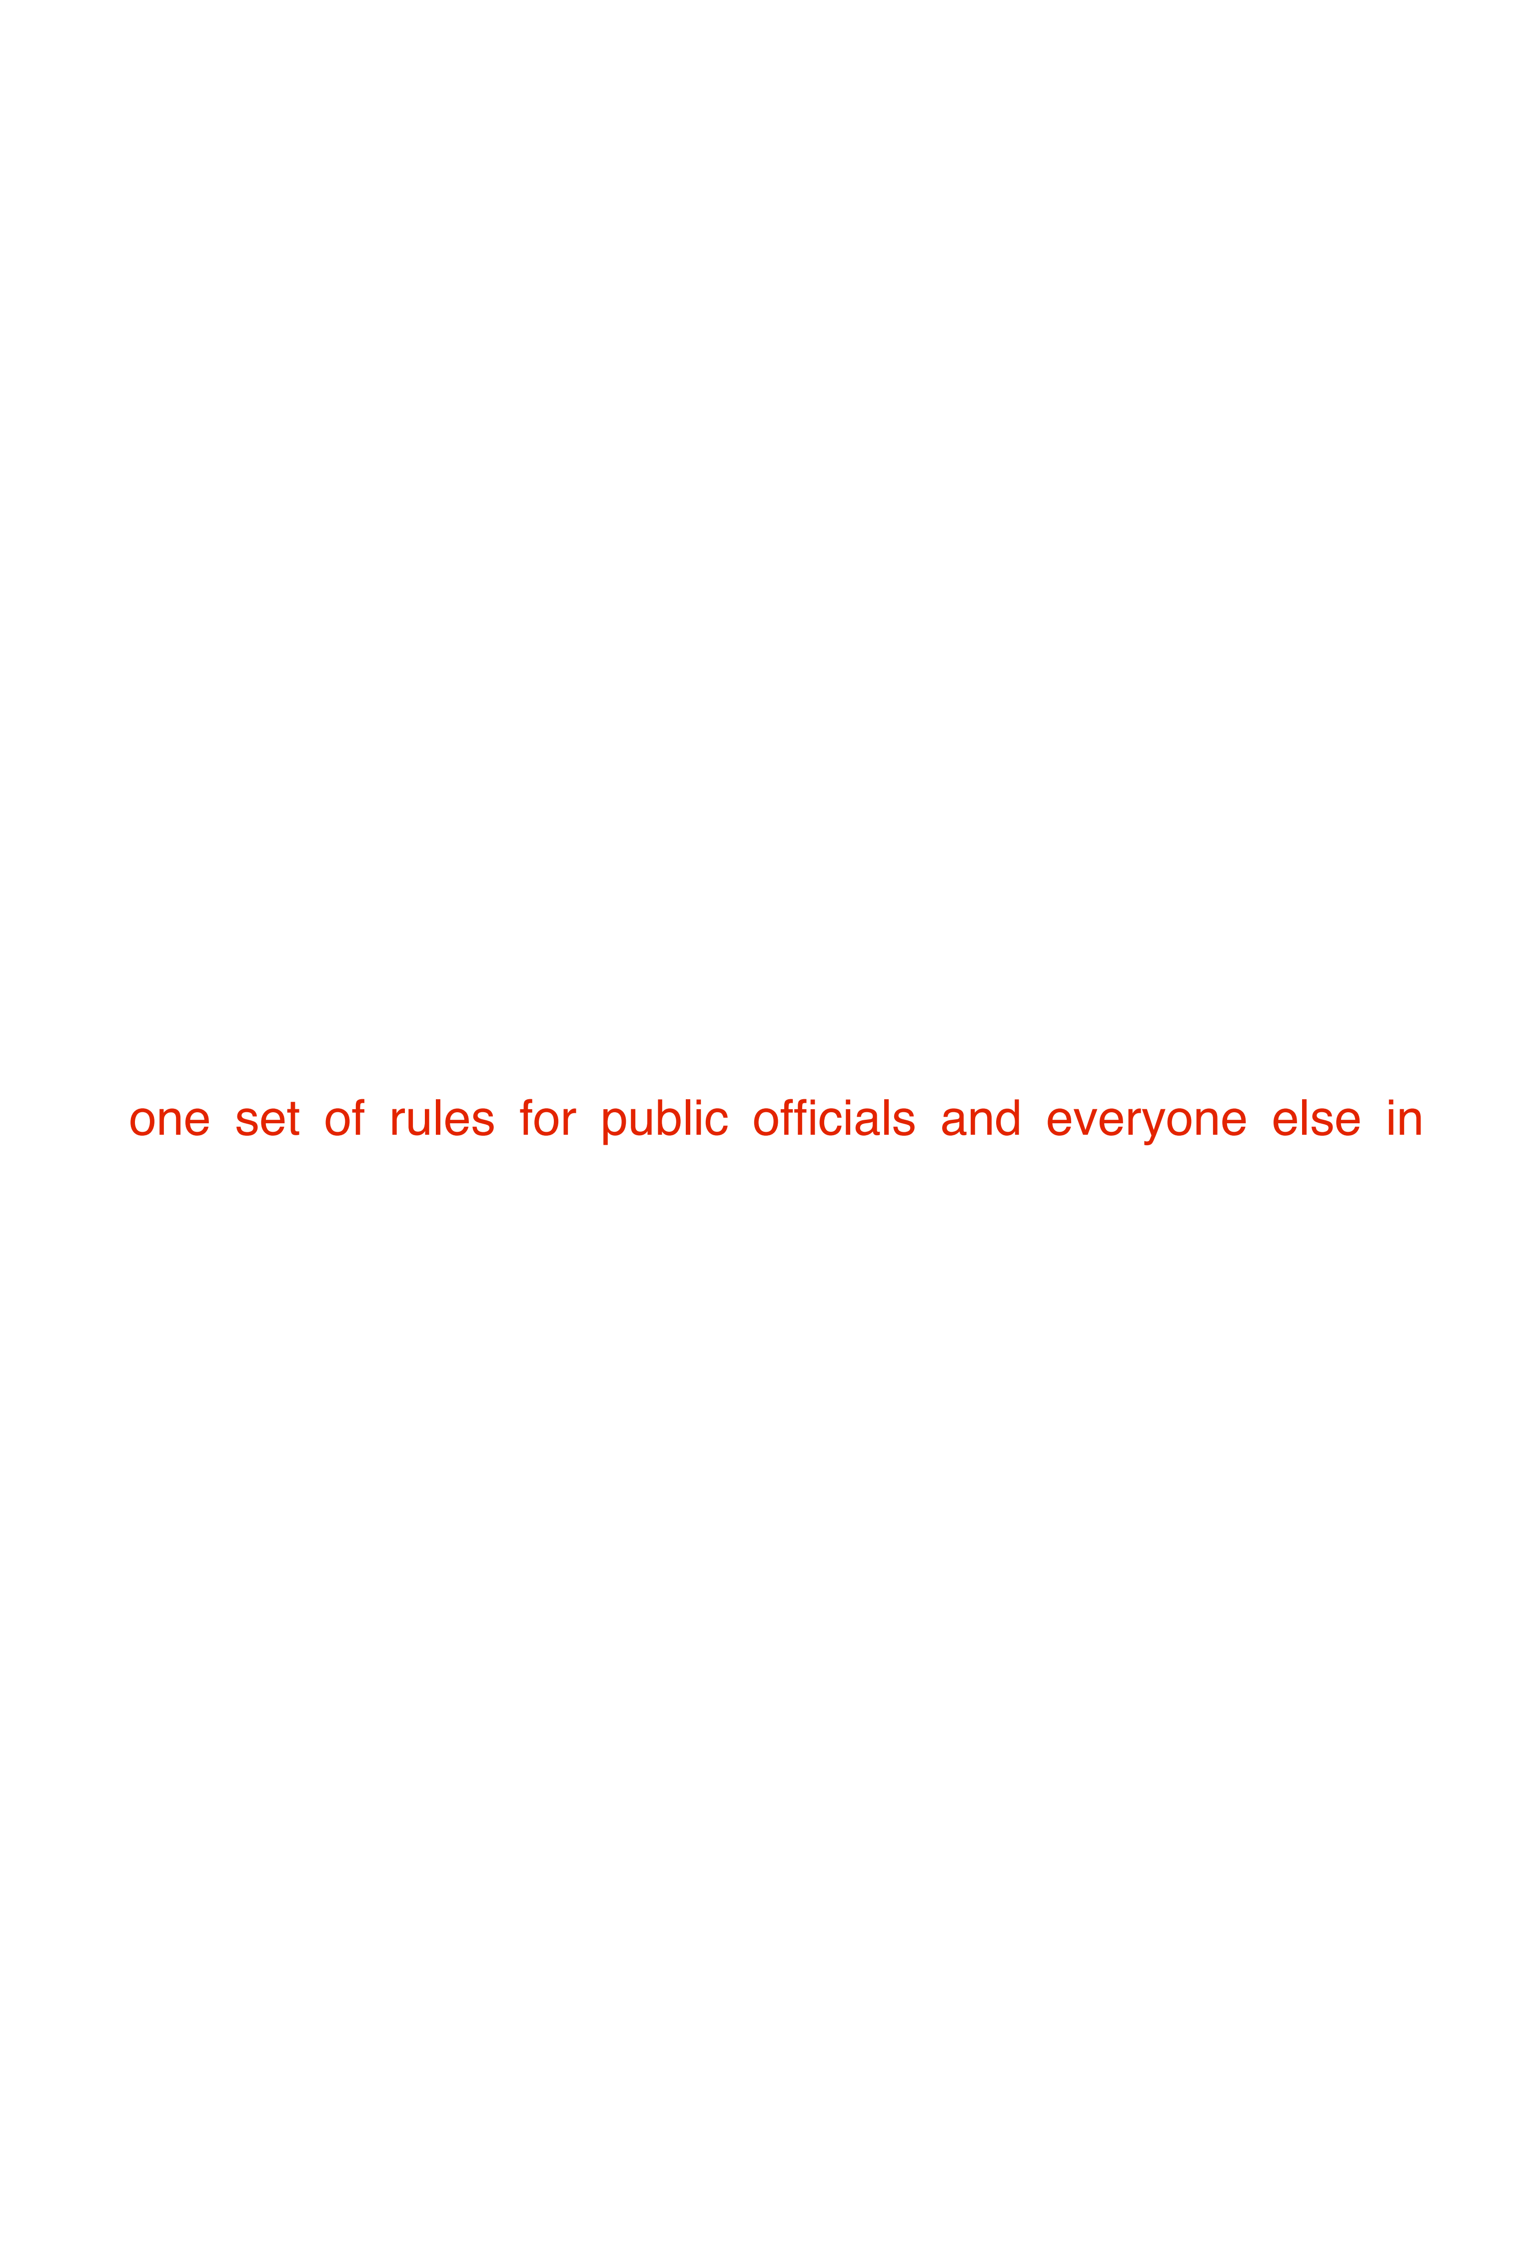

support and am subjected to abuse and neglect.

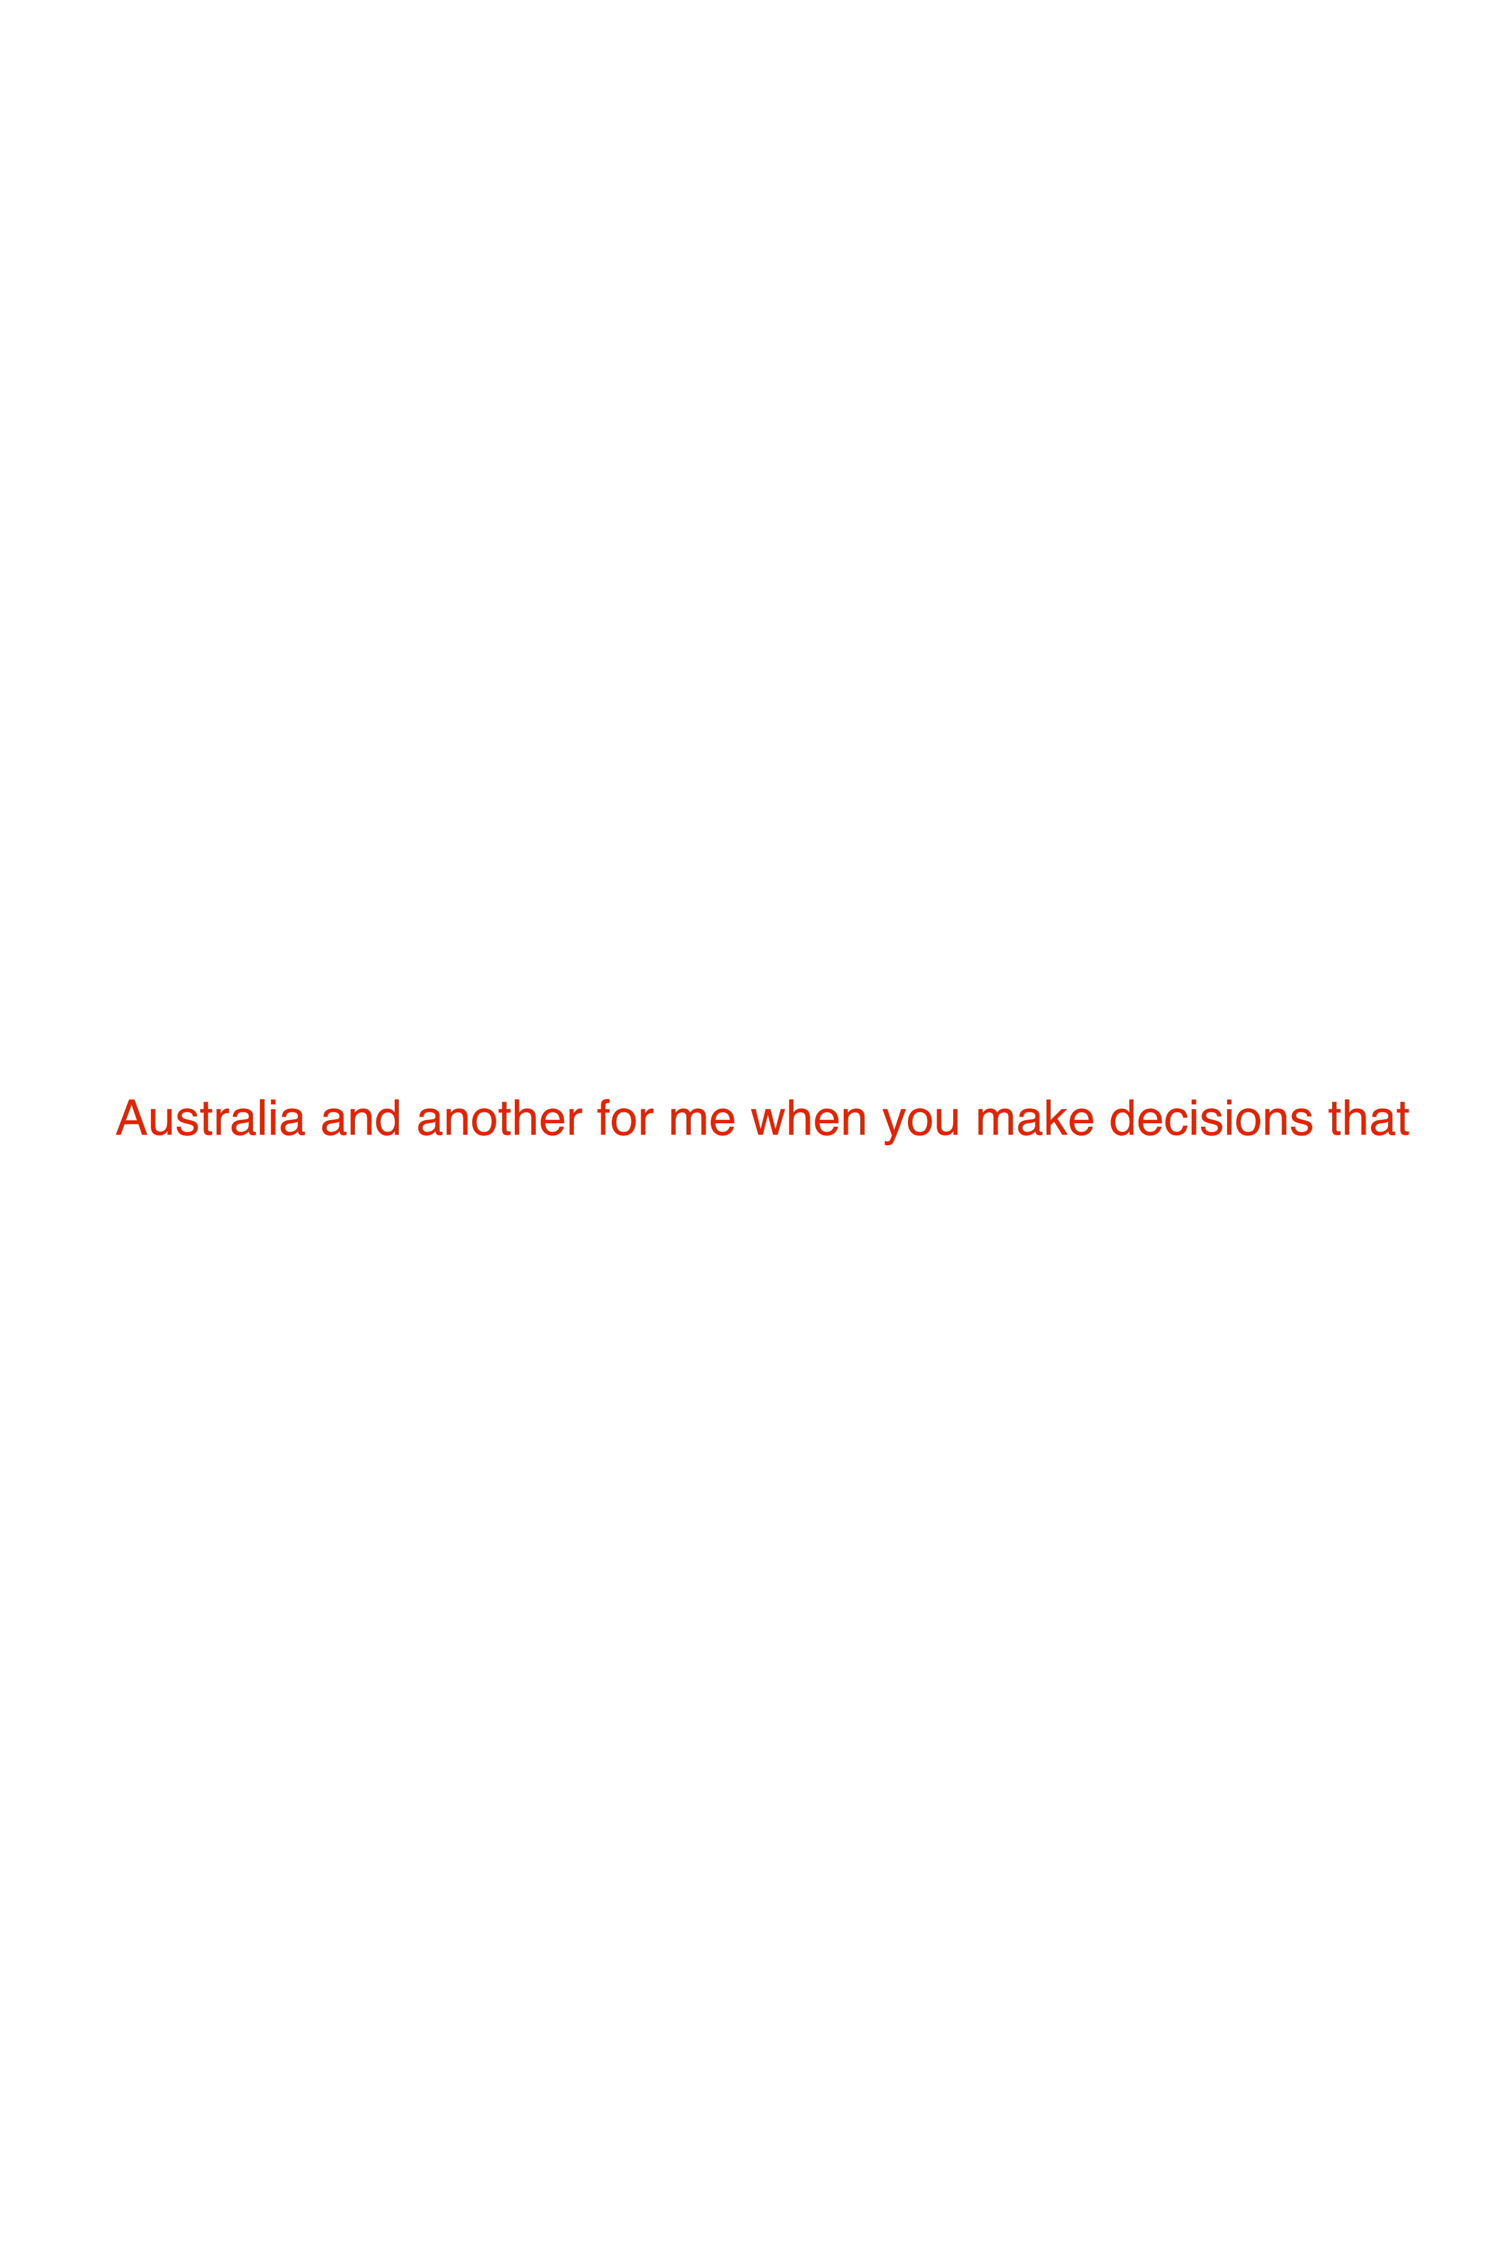

If anyone else in Australia had separated from their partner

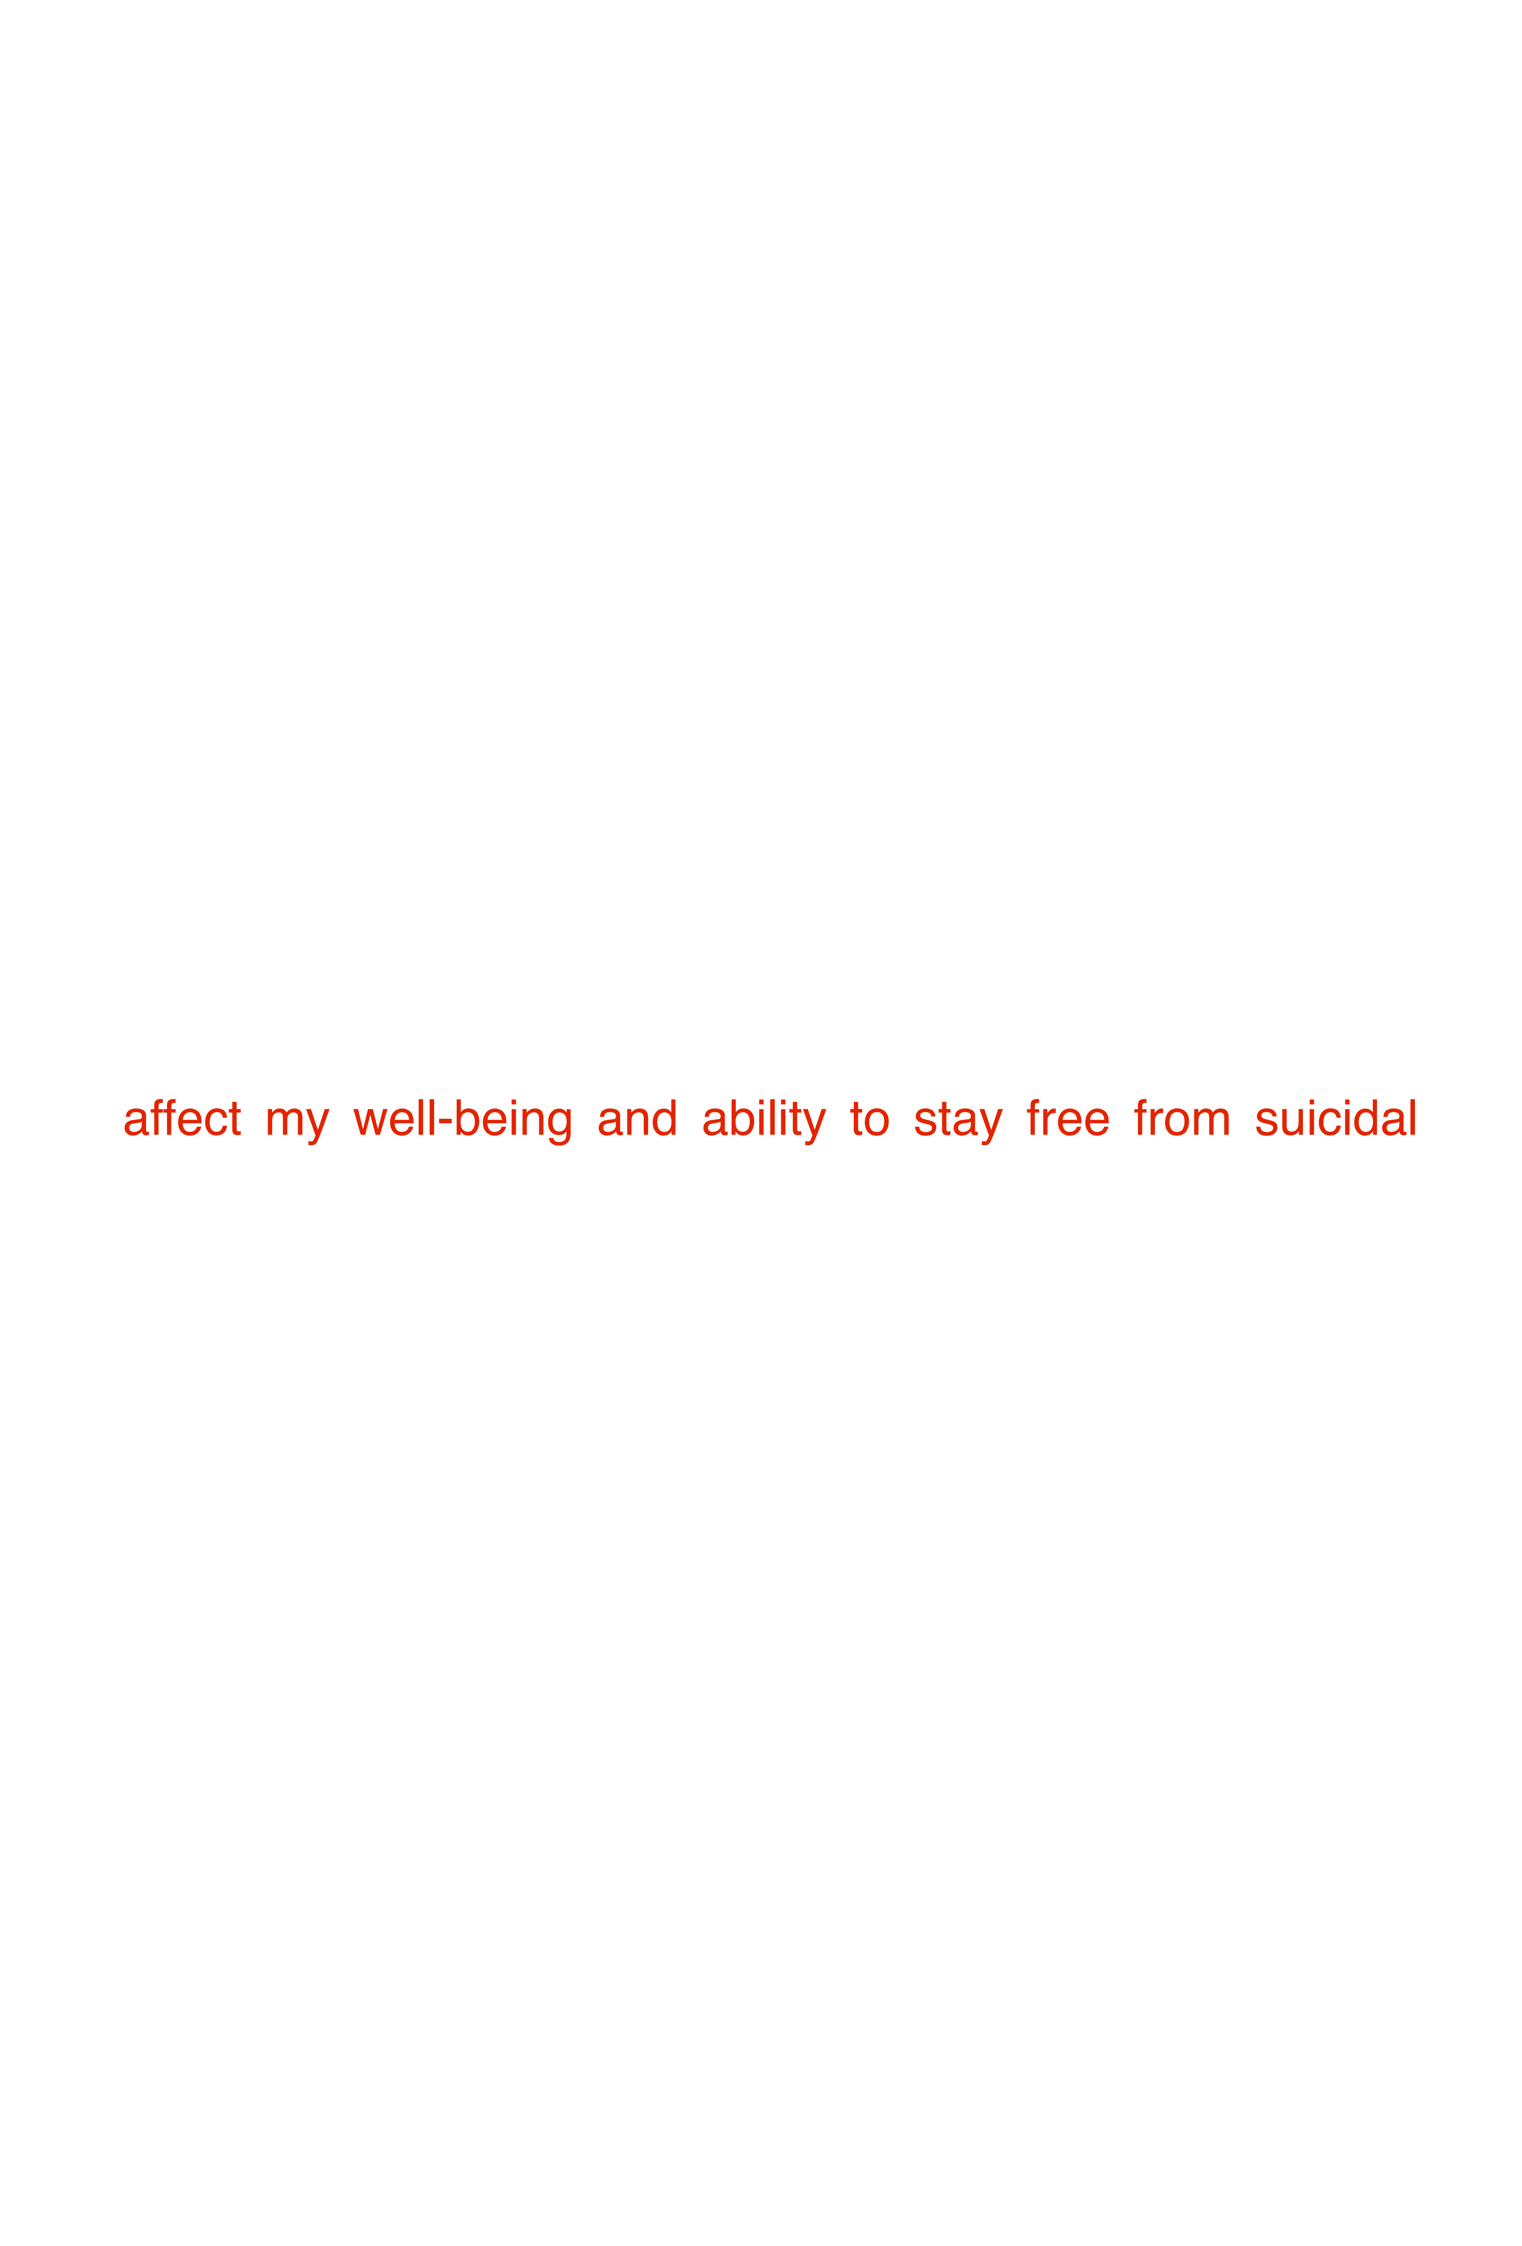

under similar circumstances, you would expect a

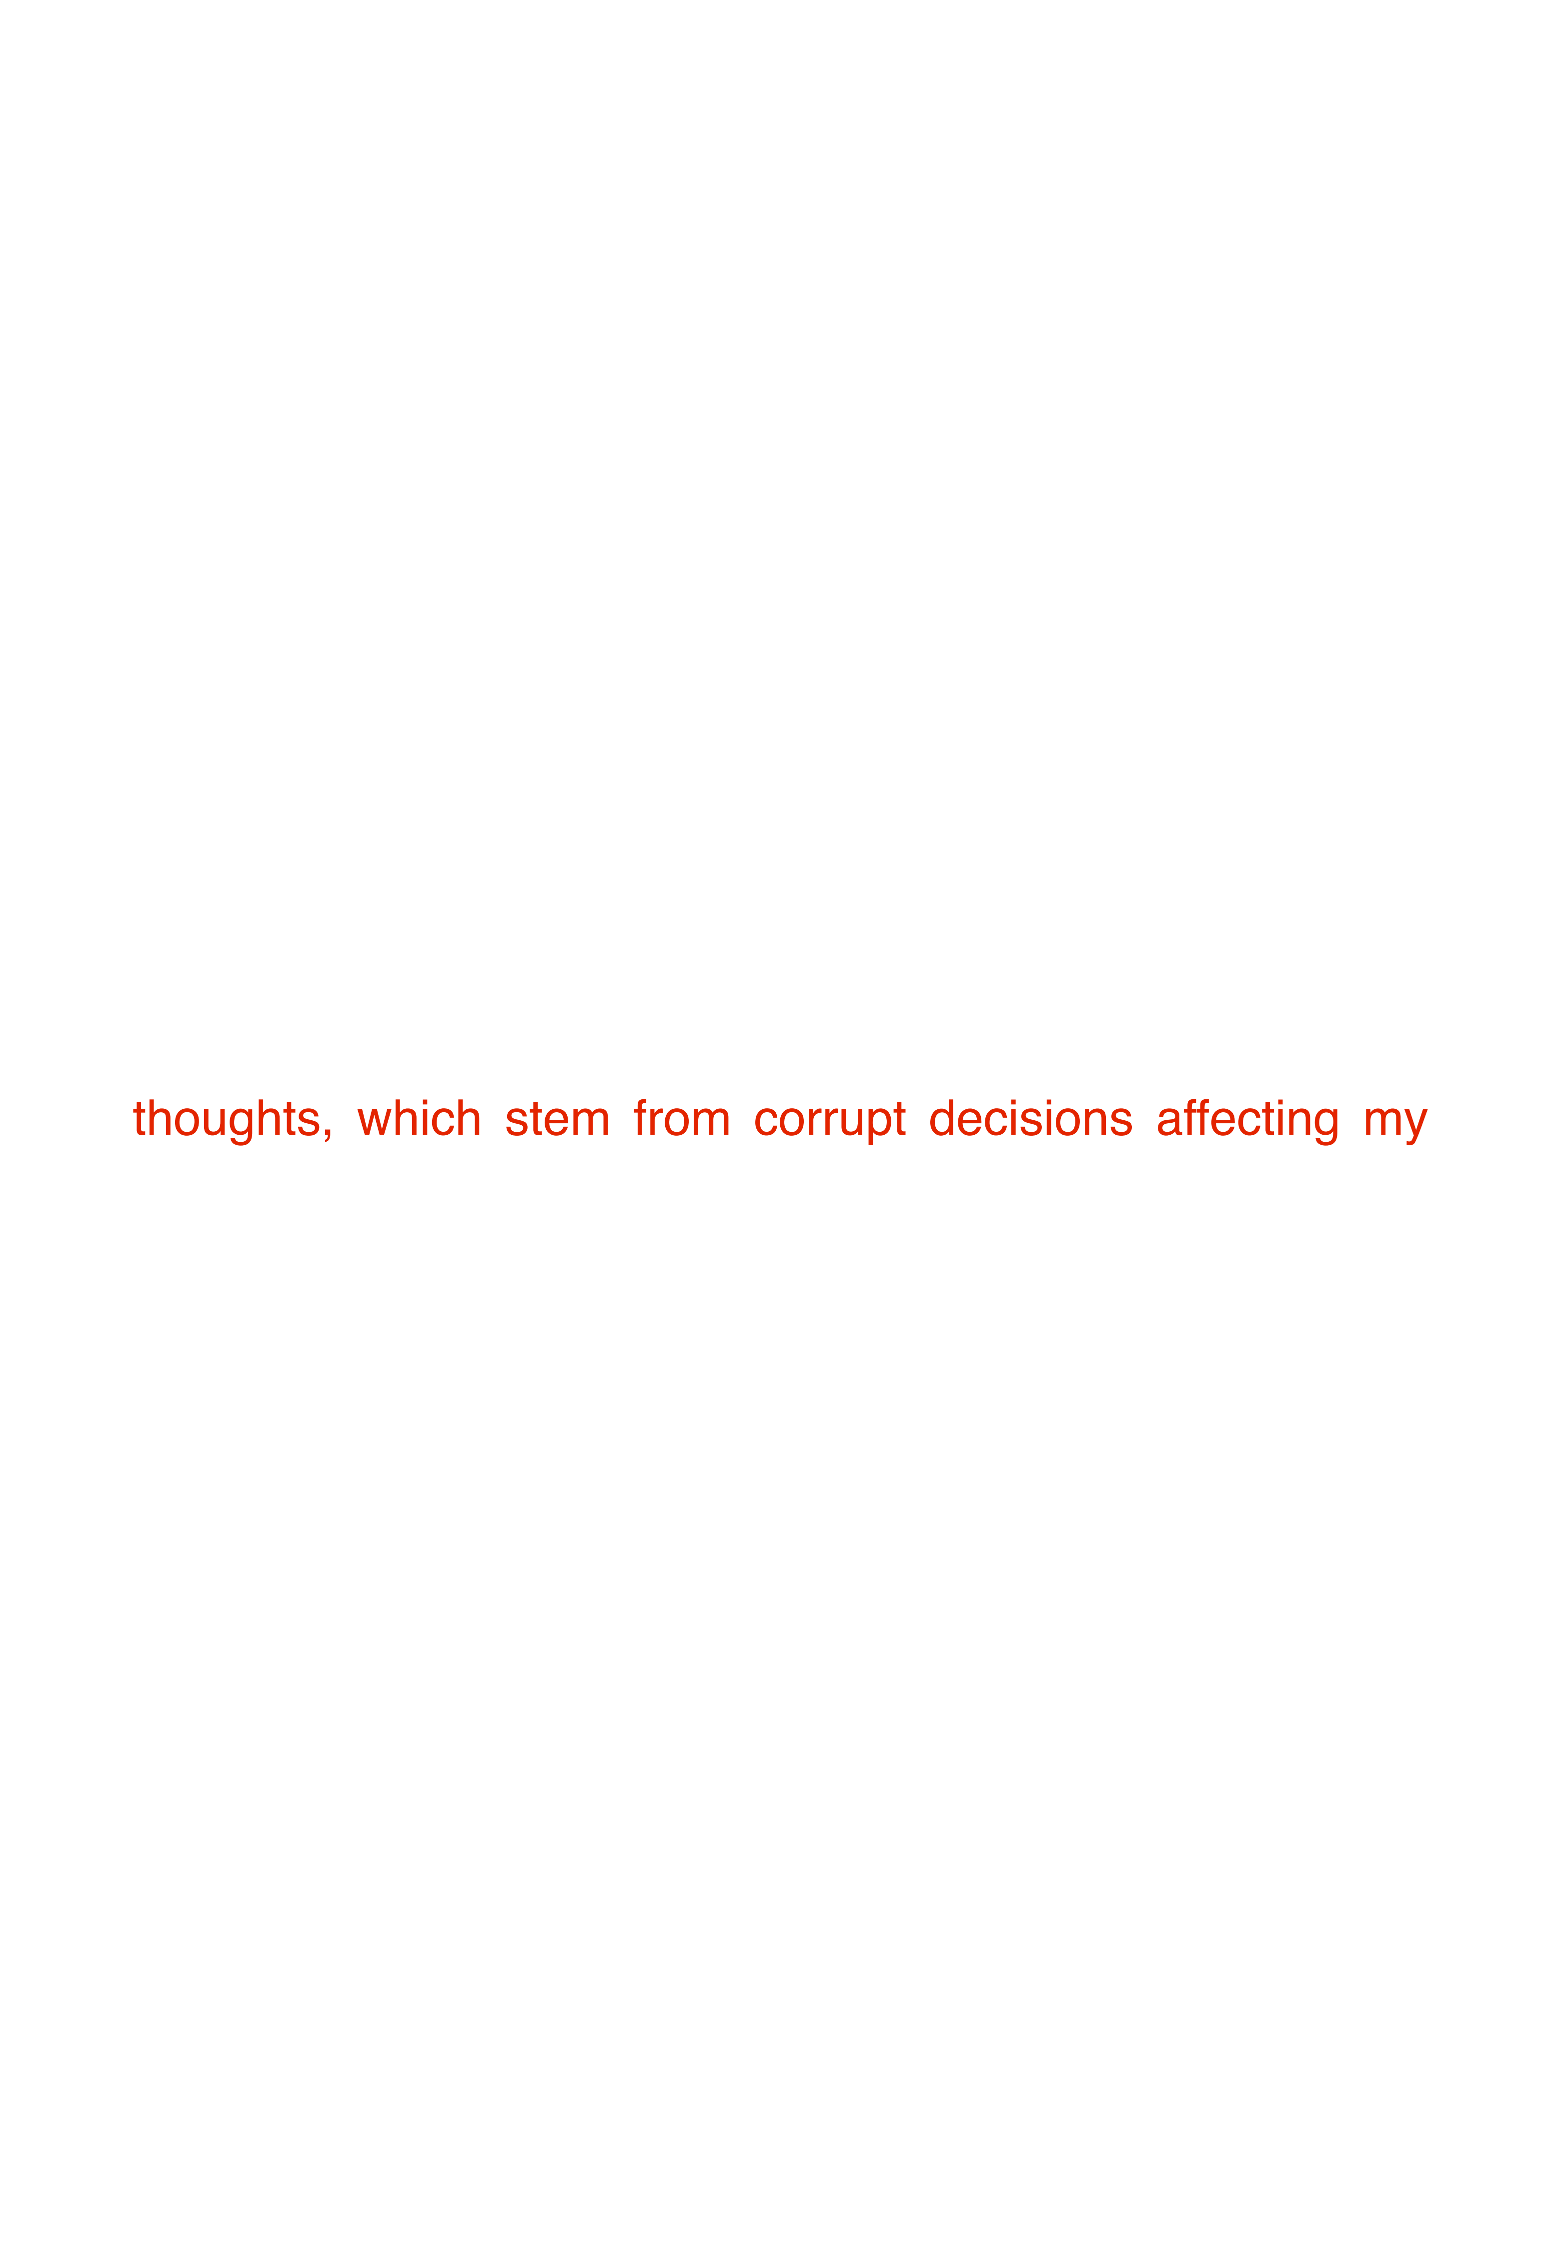

settlement especially if one half of the marriage was

exploited and had a disability. However, it seems there's

one set of rules for public officials and everyone else in

Australia and another for me when you make decisions that

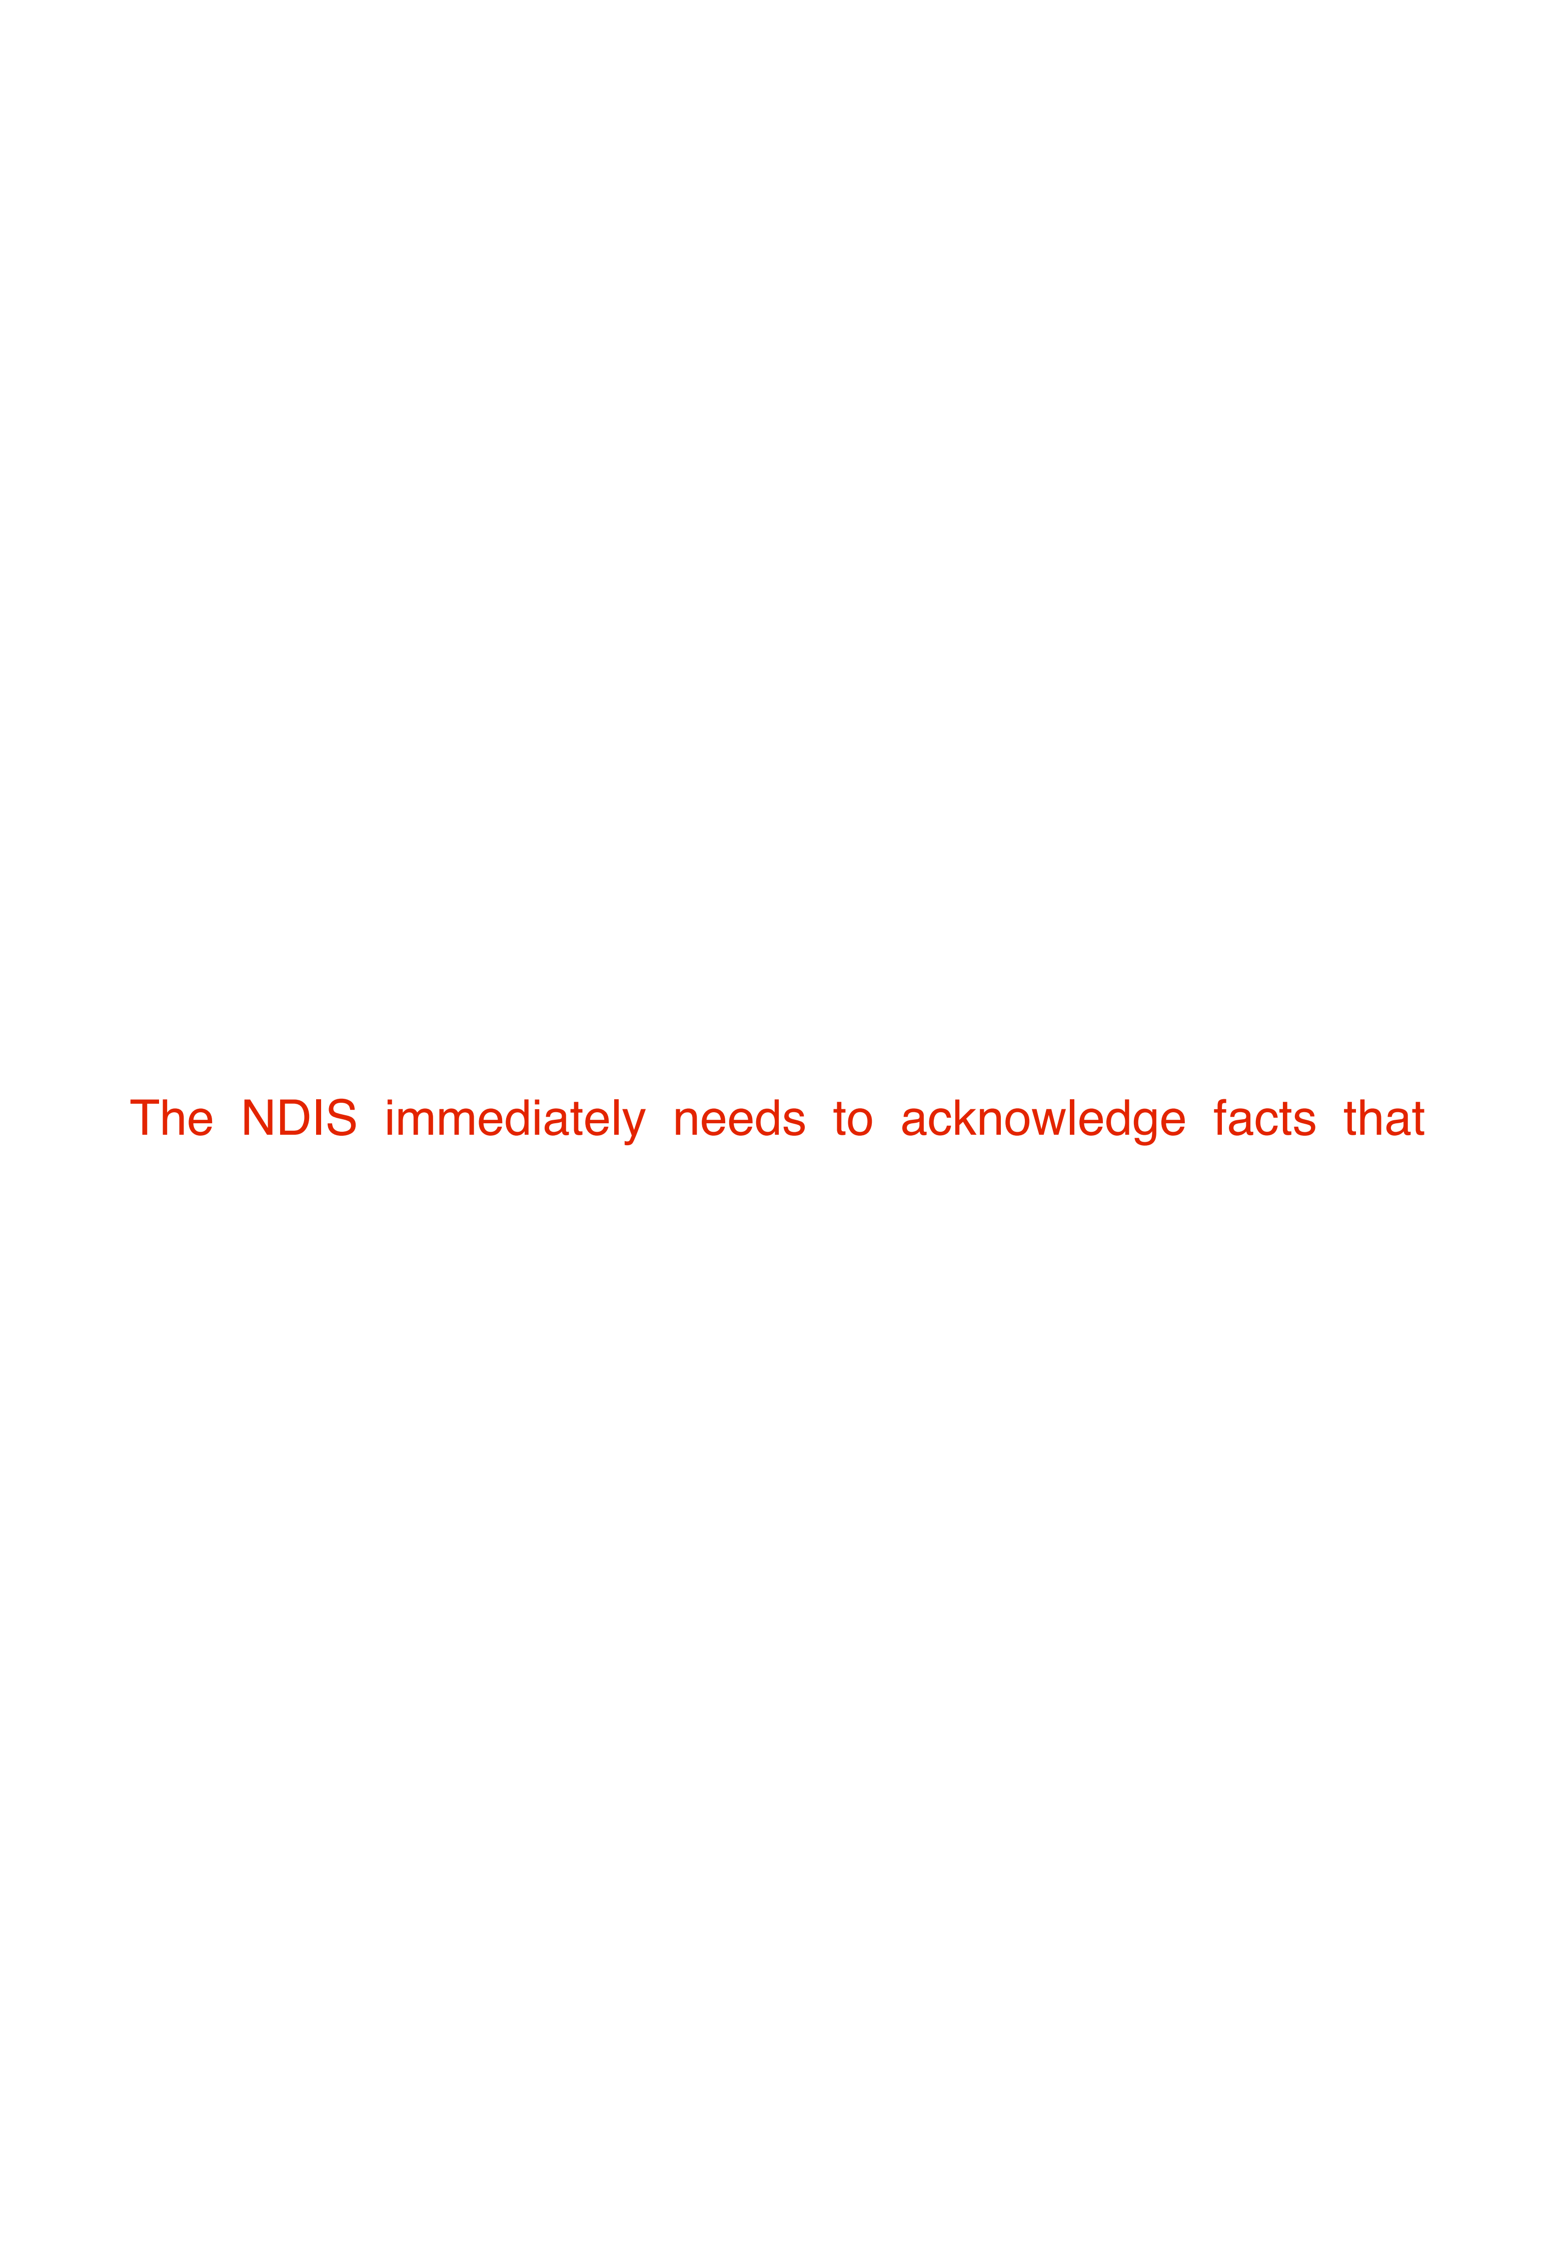

affect my well-being and ability to stay free from suicidal

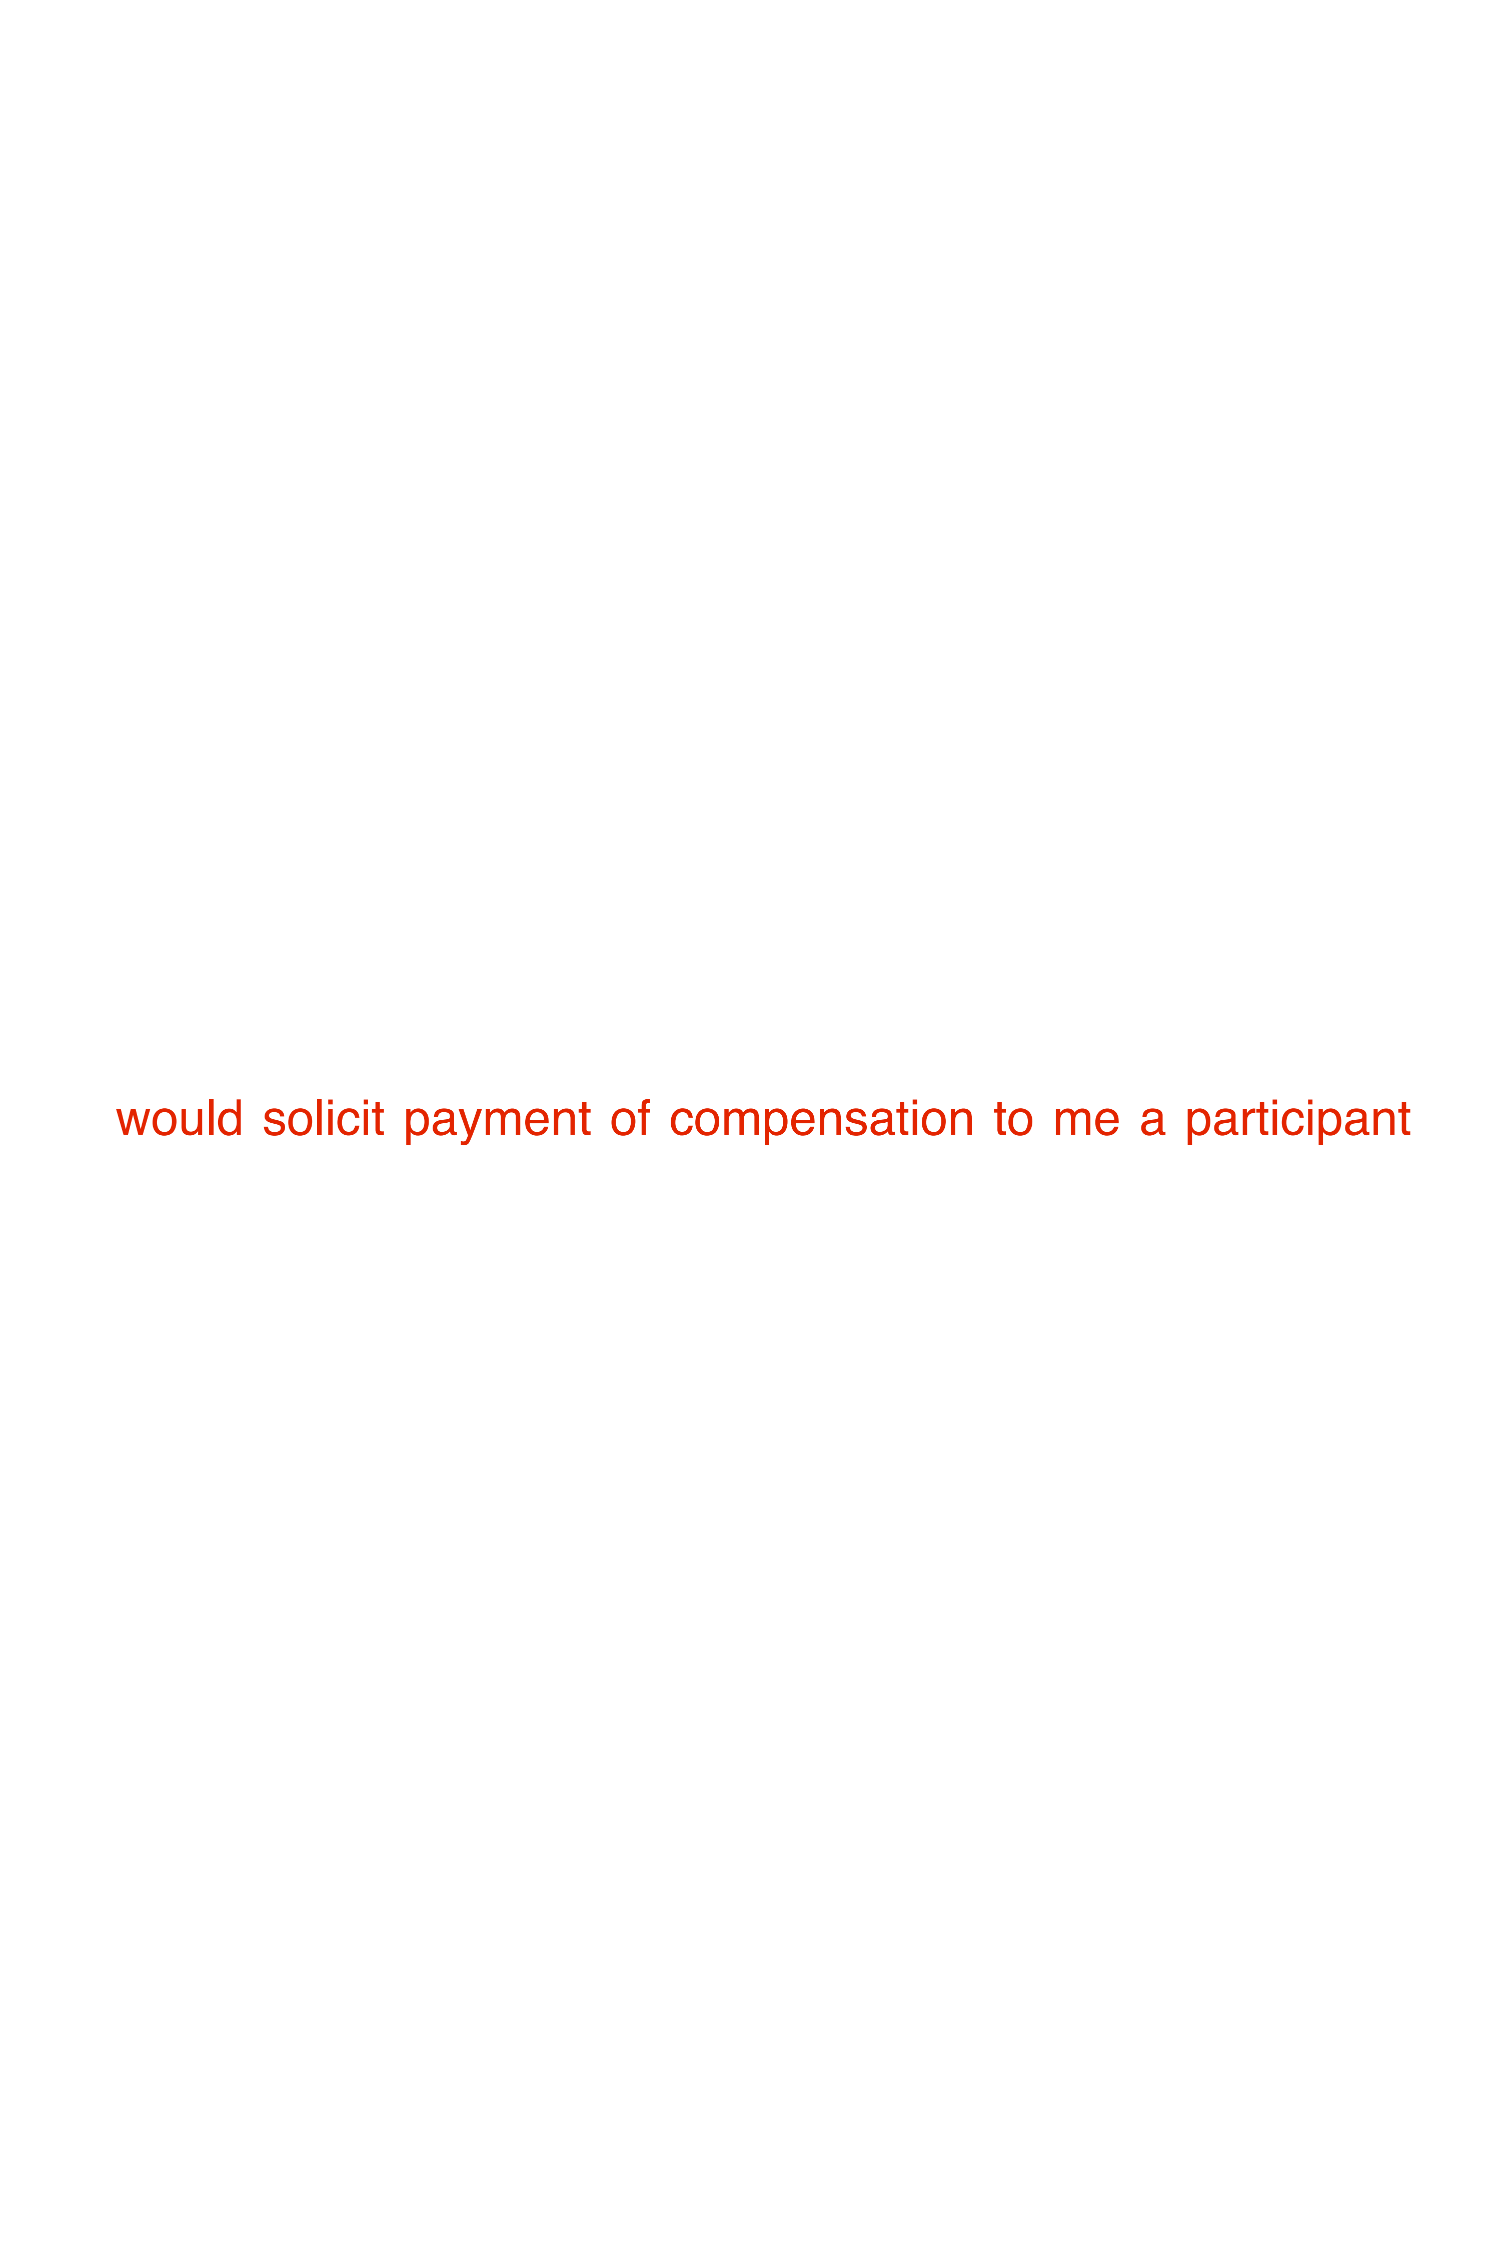

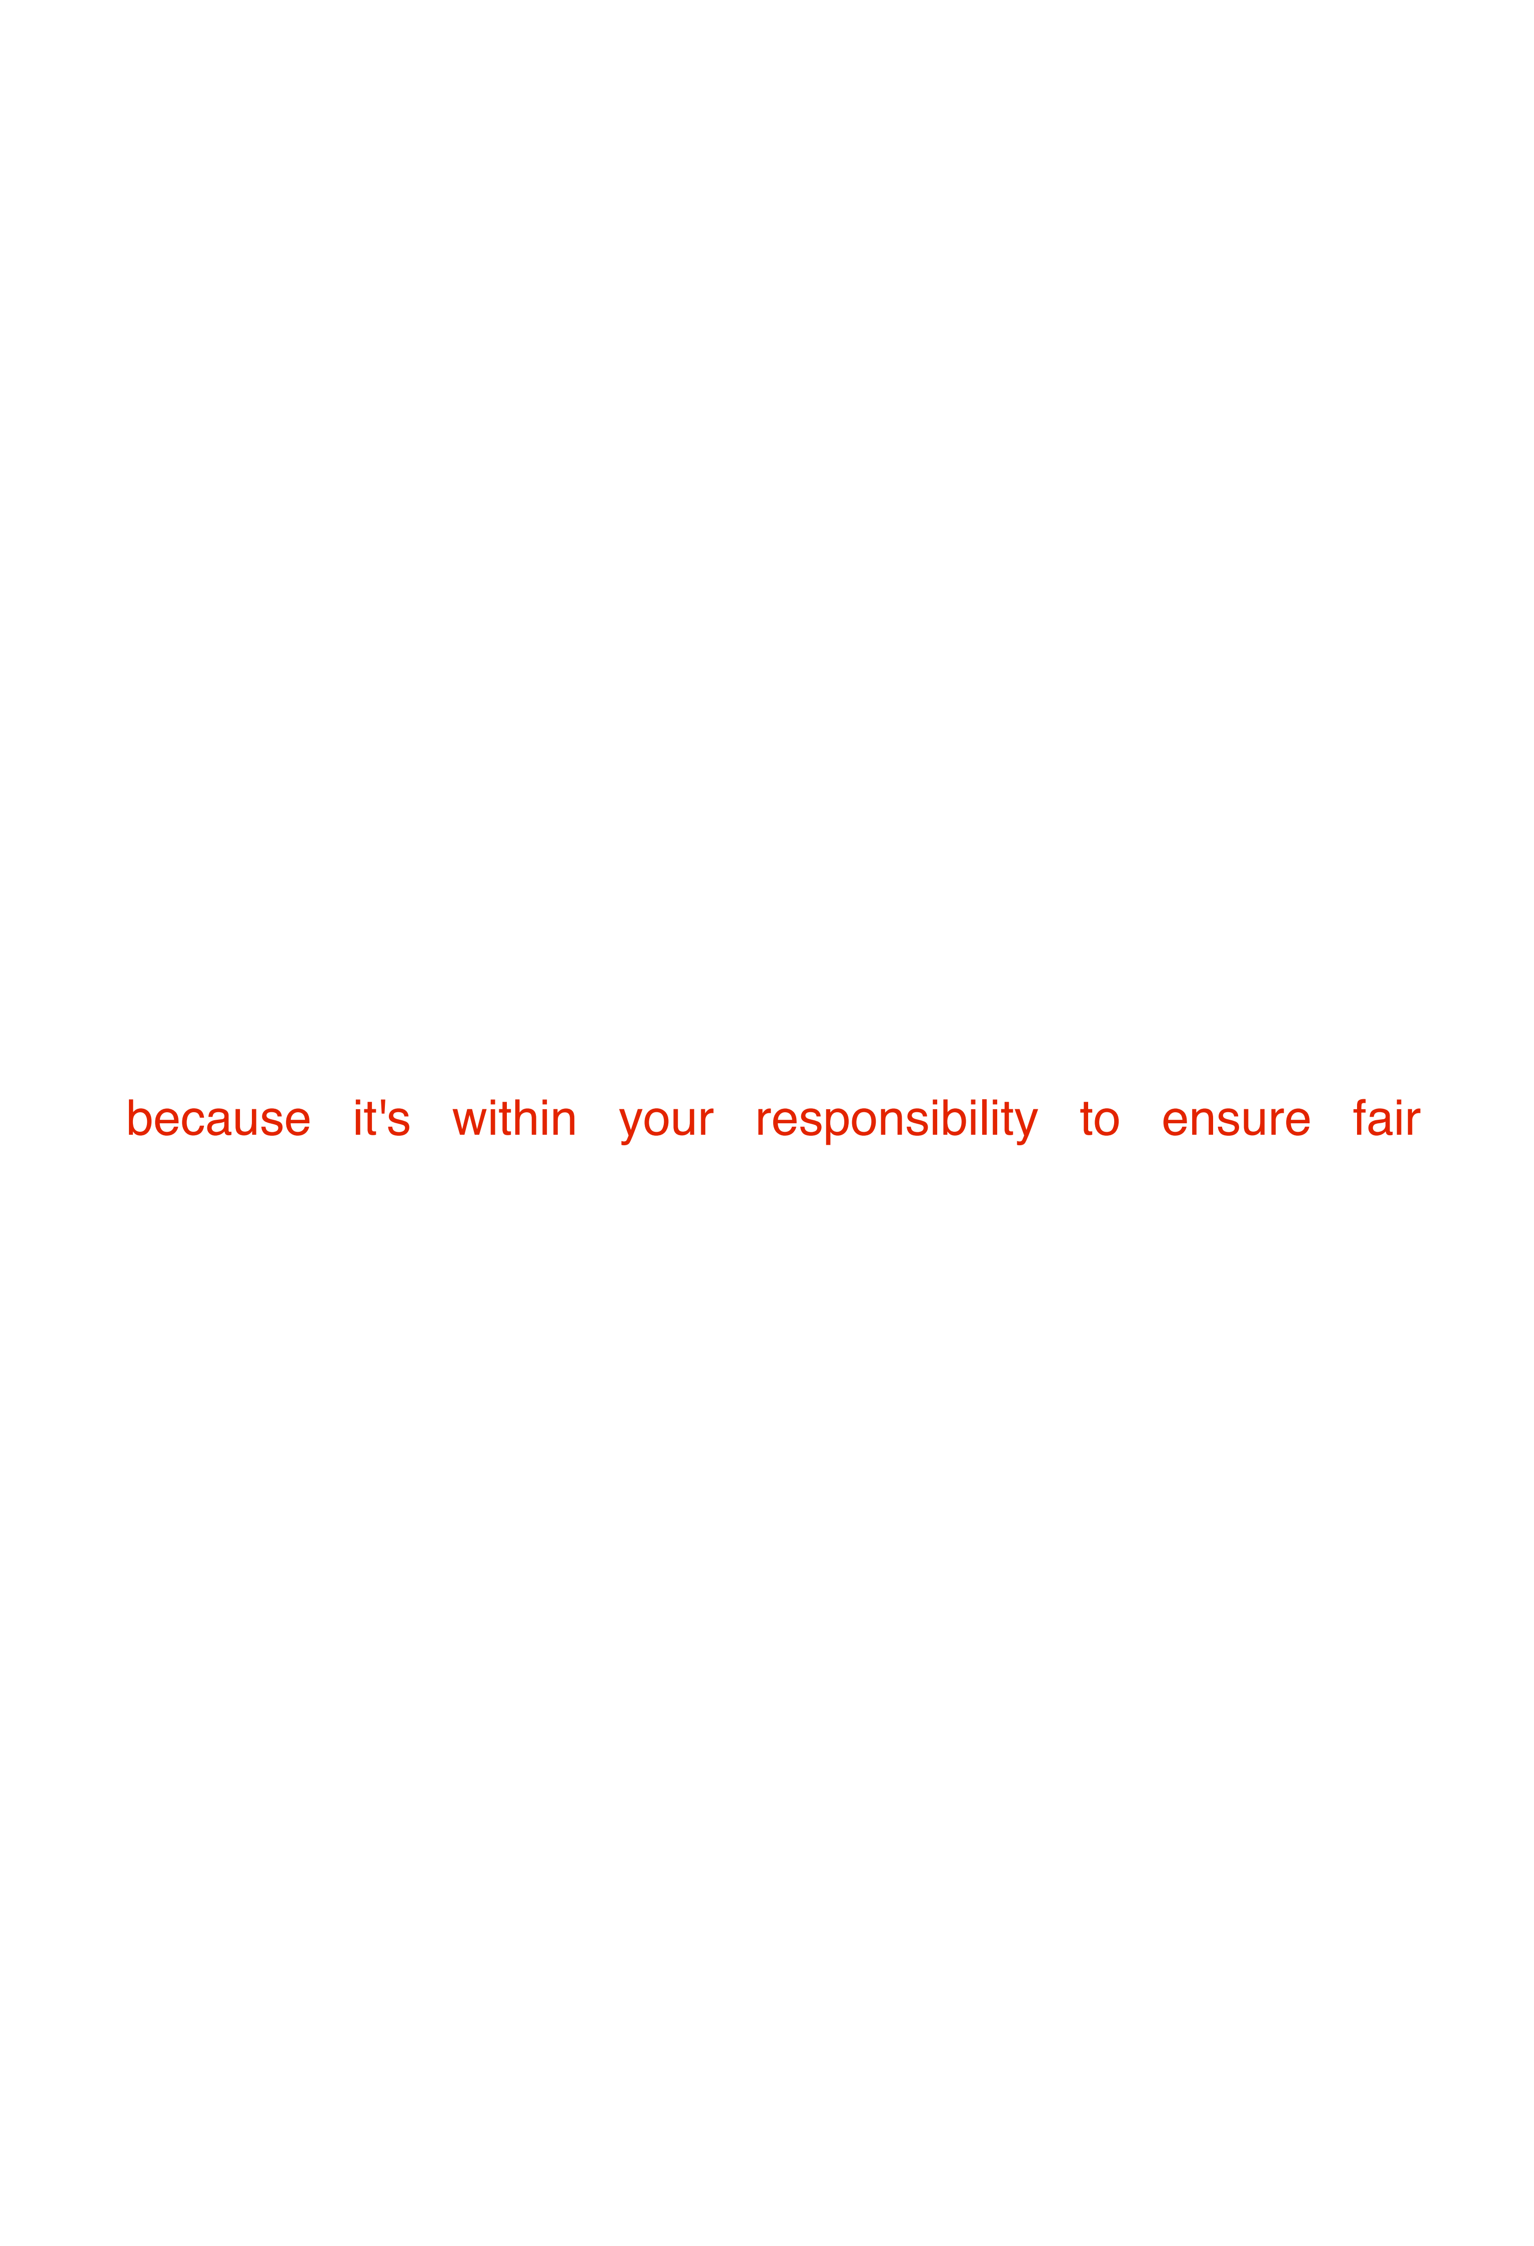

thoughts, which stem from corrupt decisions affecting my

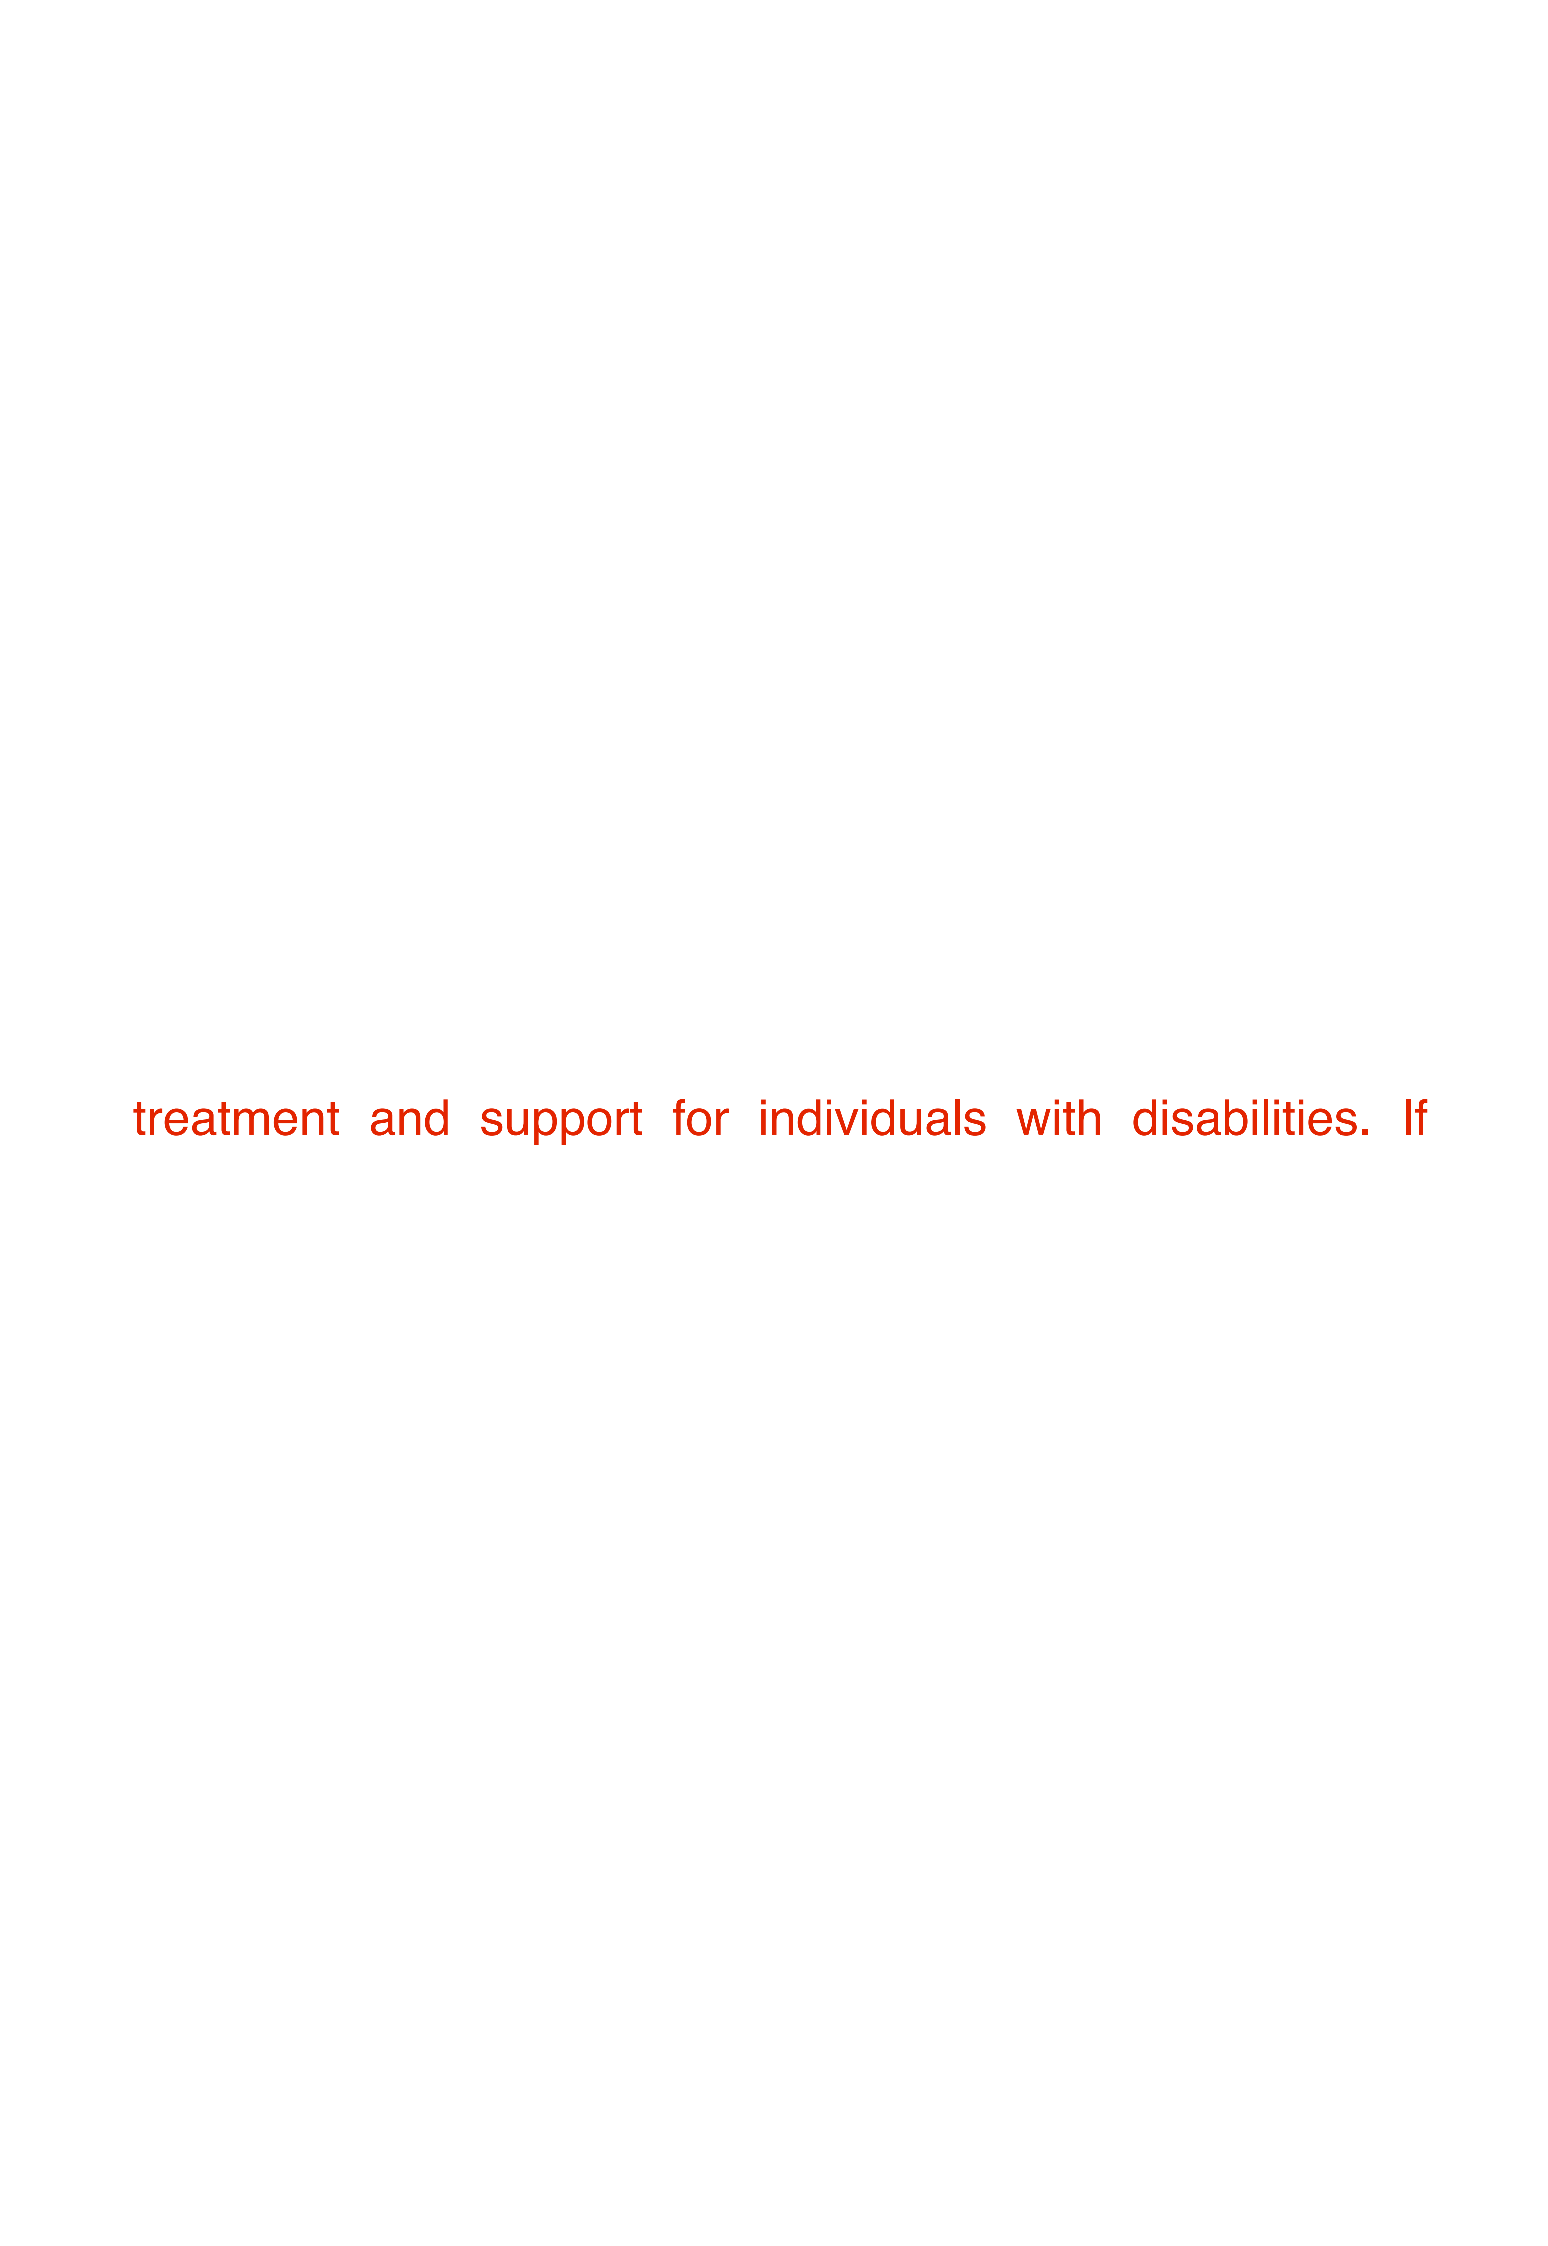

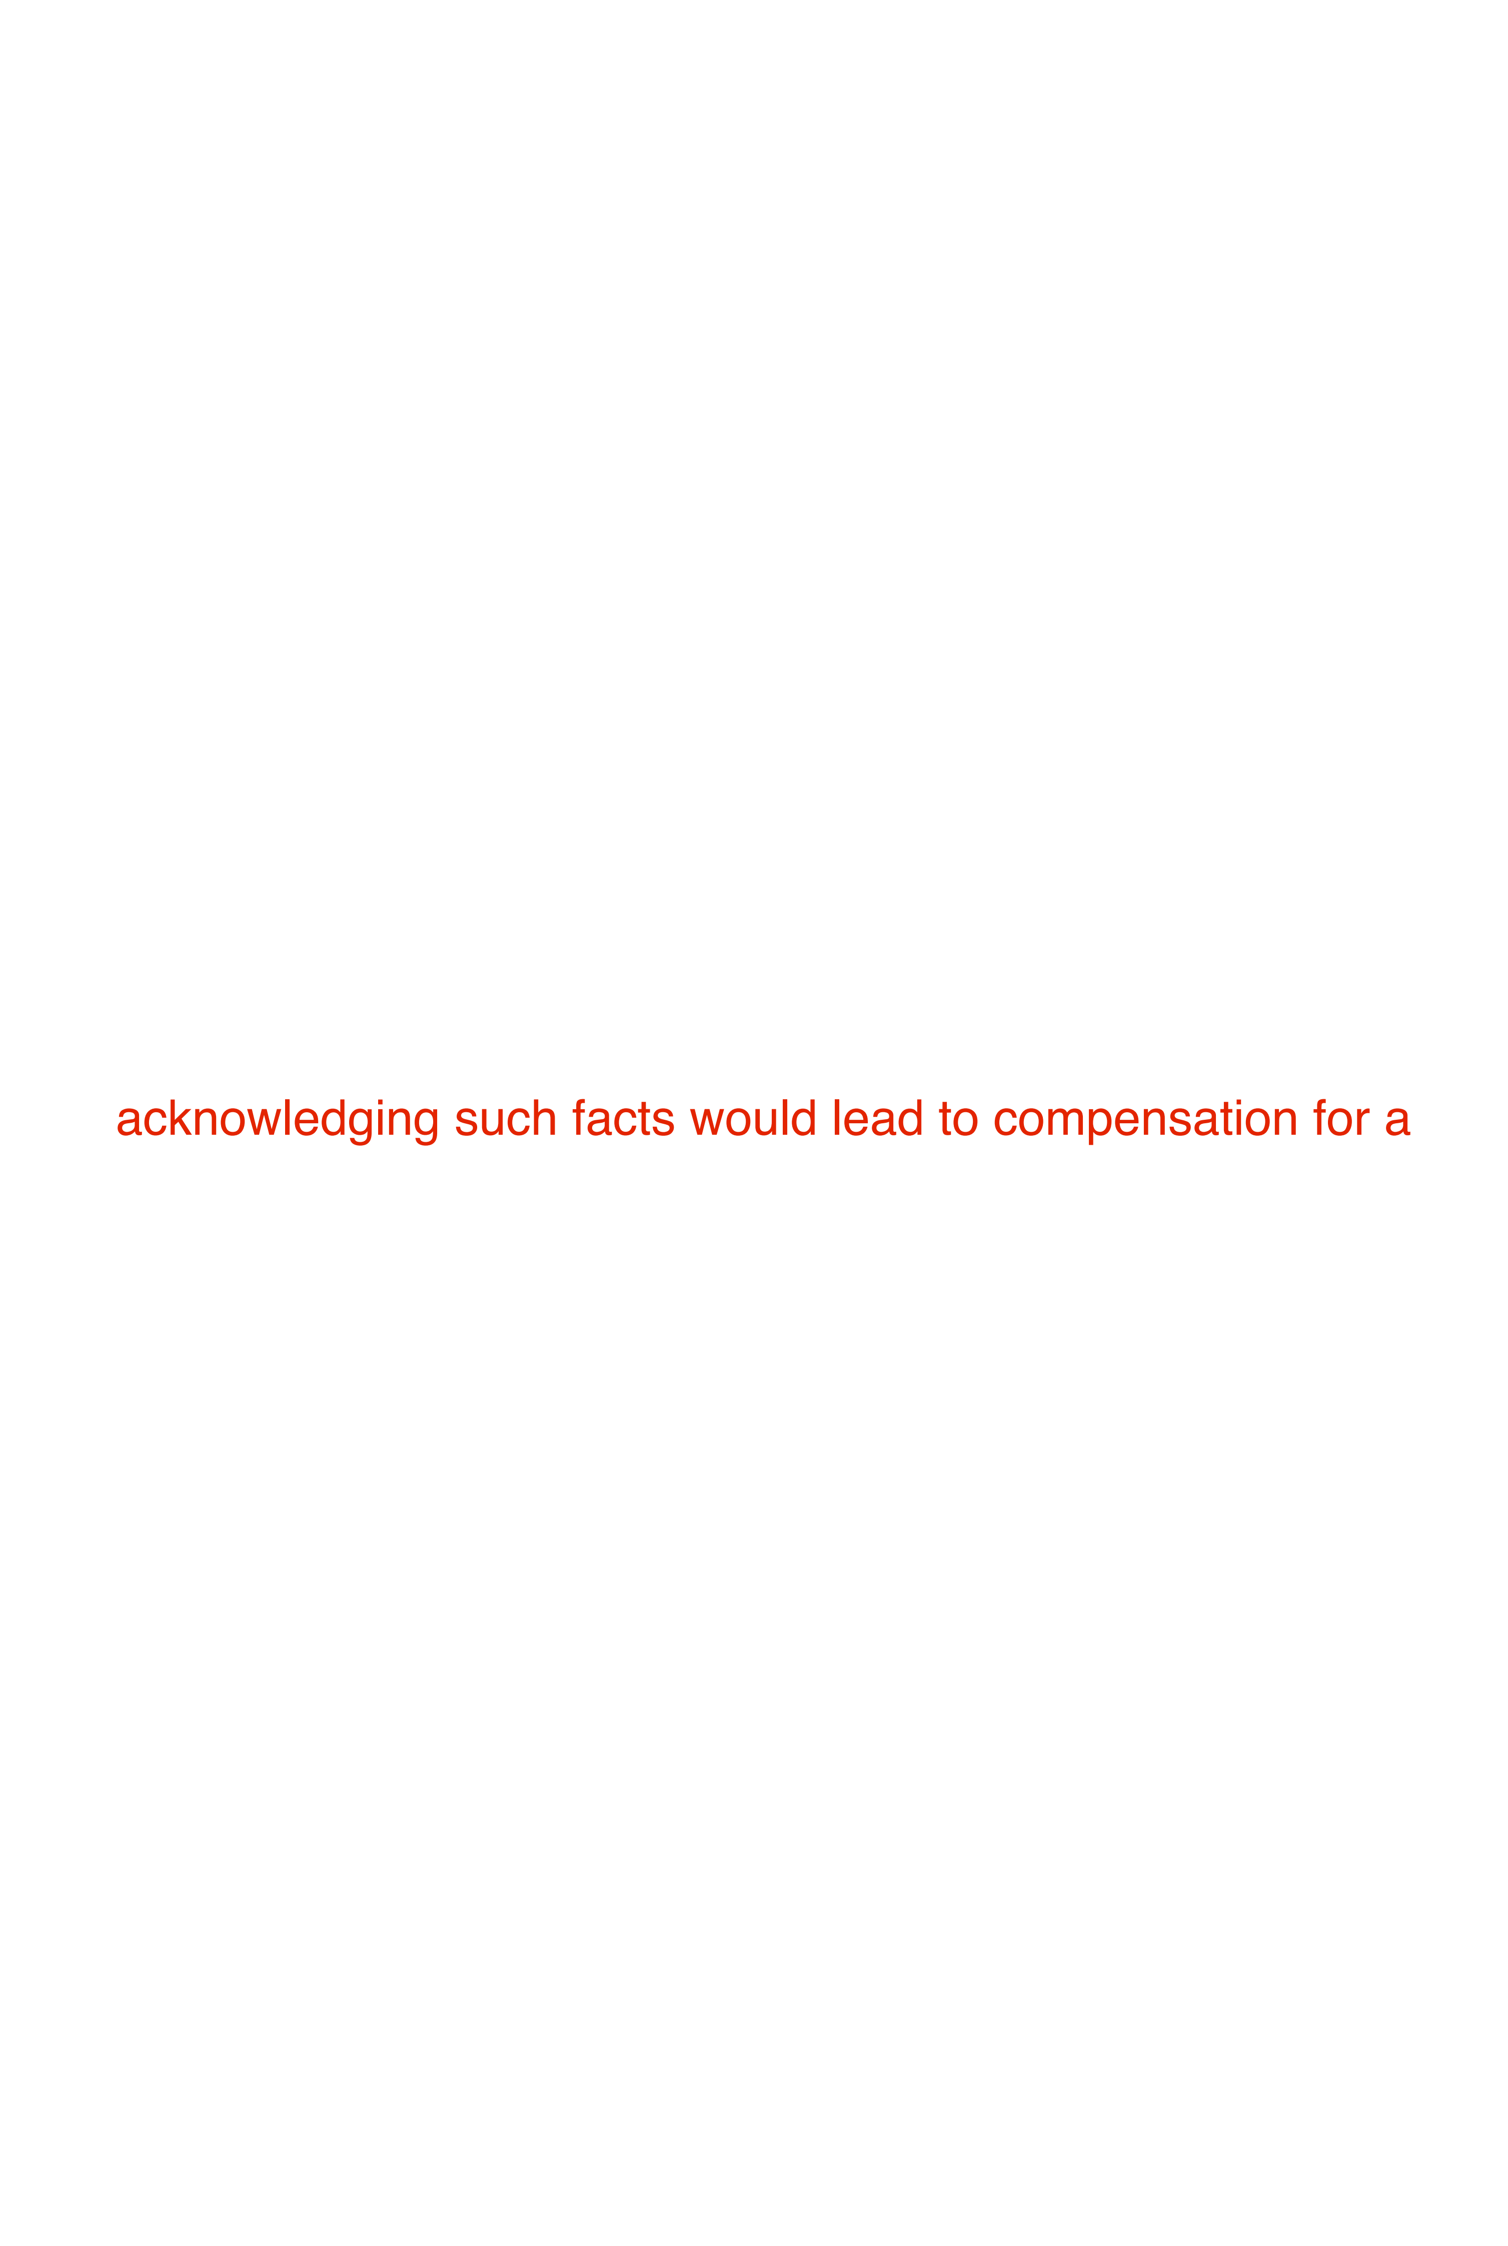

ability to survive.

The NDIS immediately needs to acknowledge facts that

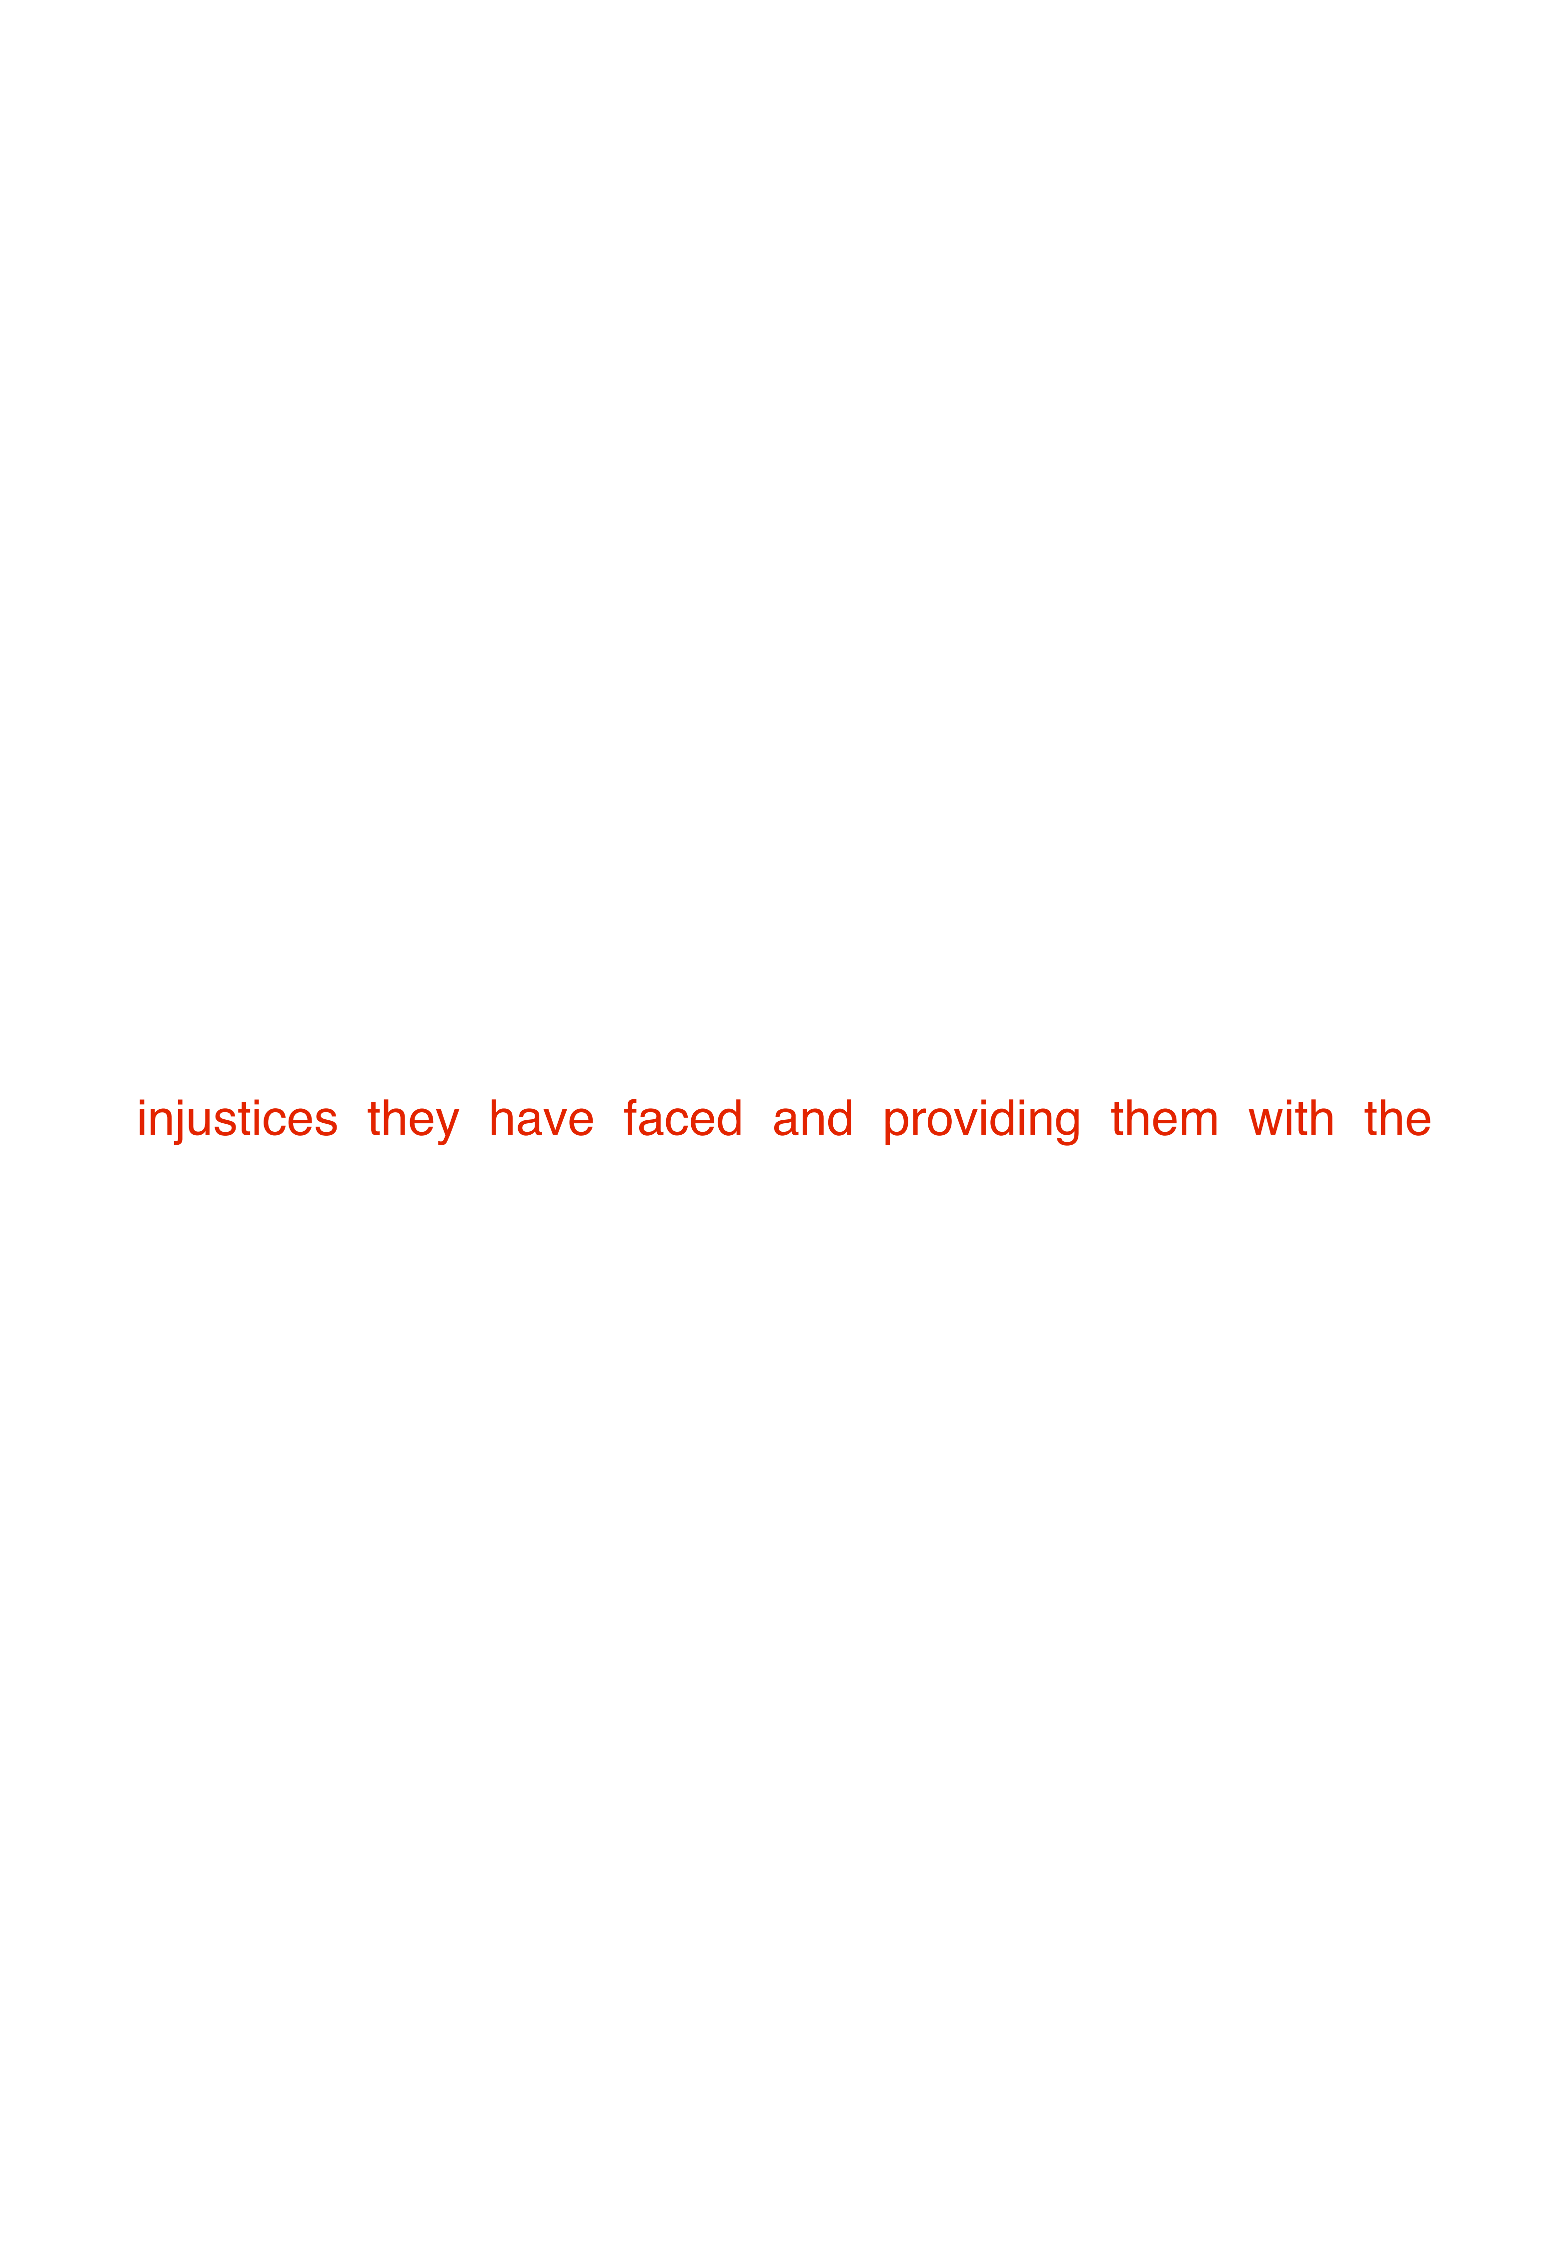

would solicit payment of compensation to me a participant

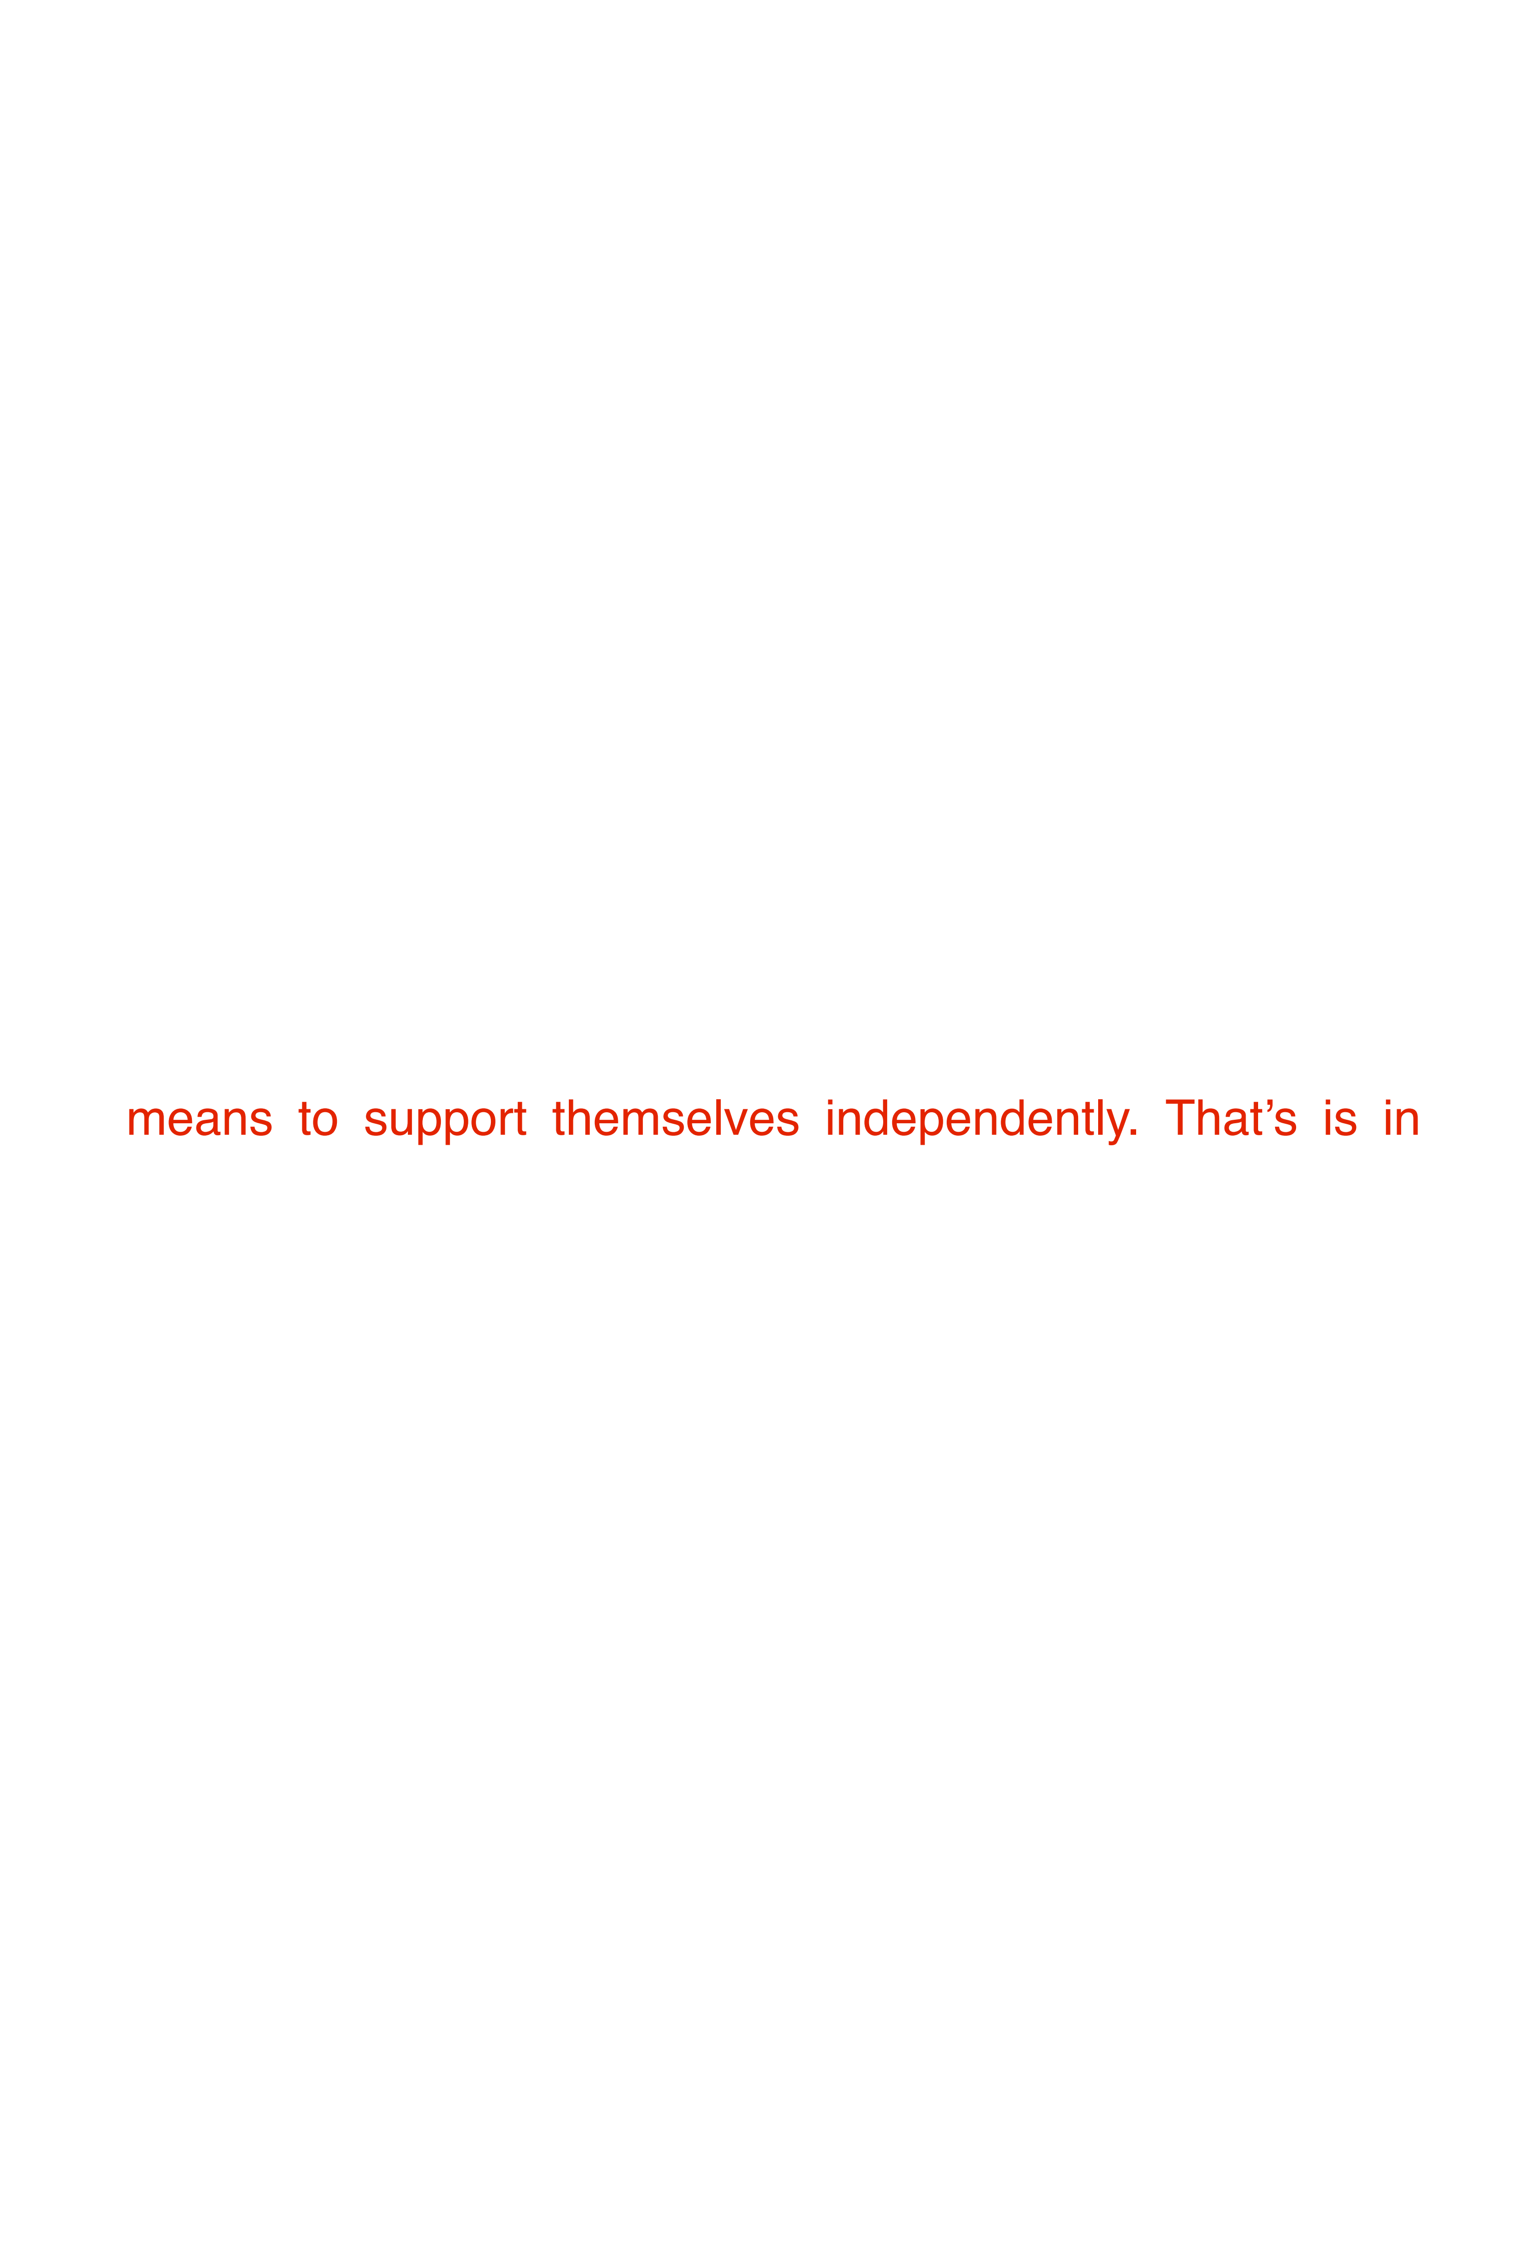

because it's within your responsibility to ensure fair

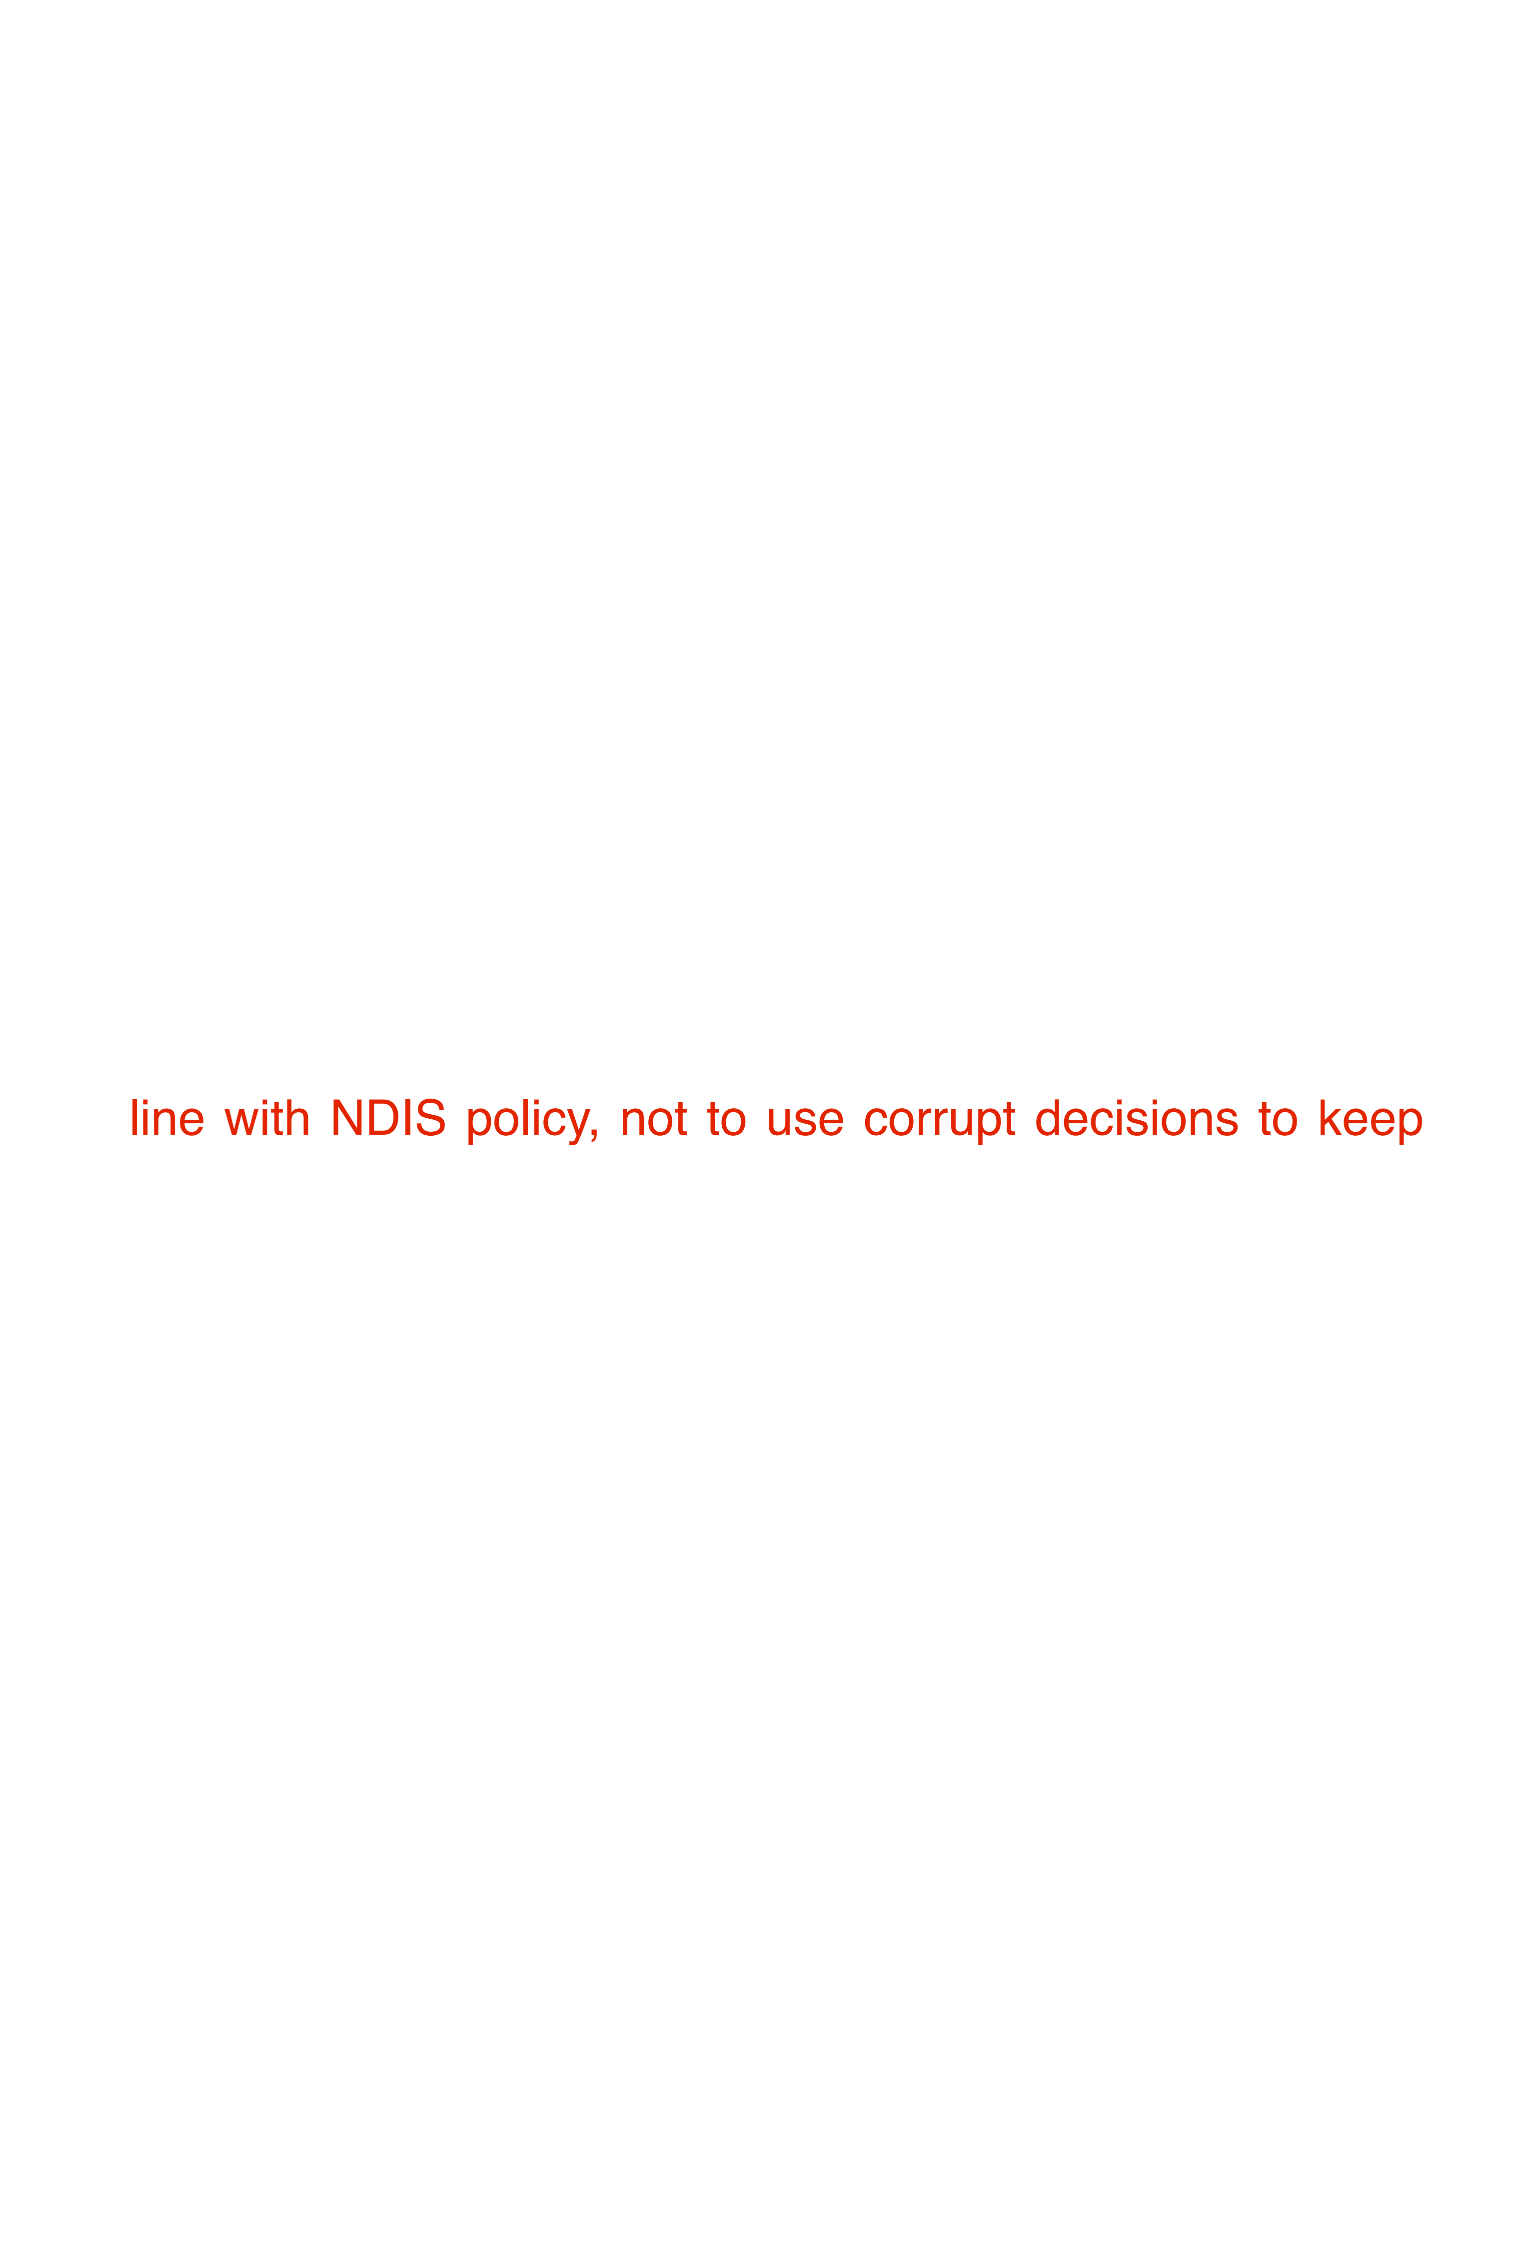

treatment and support for individuals with disabilities. If

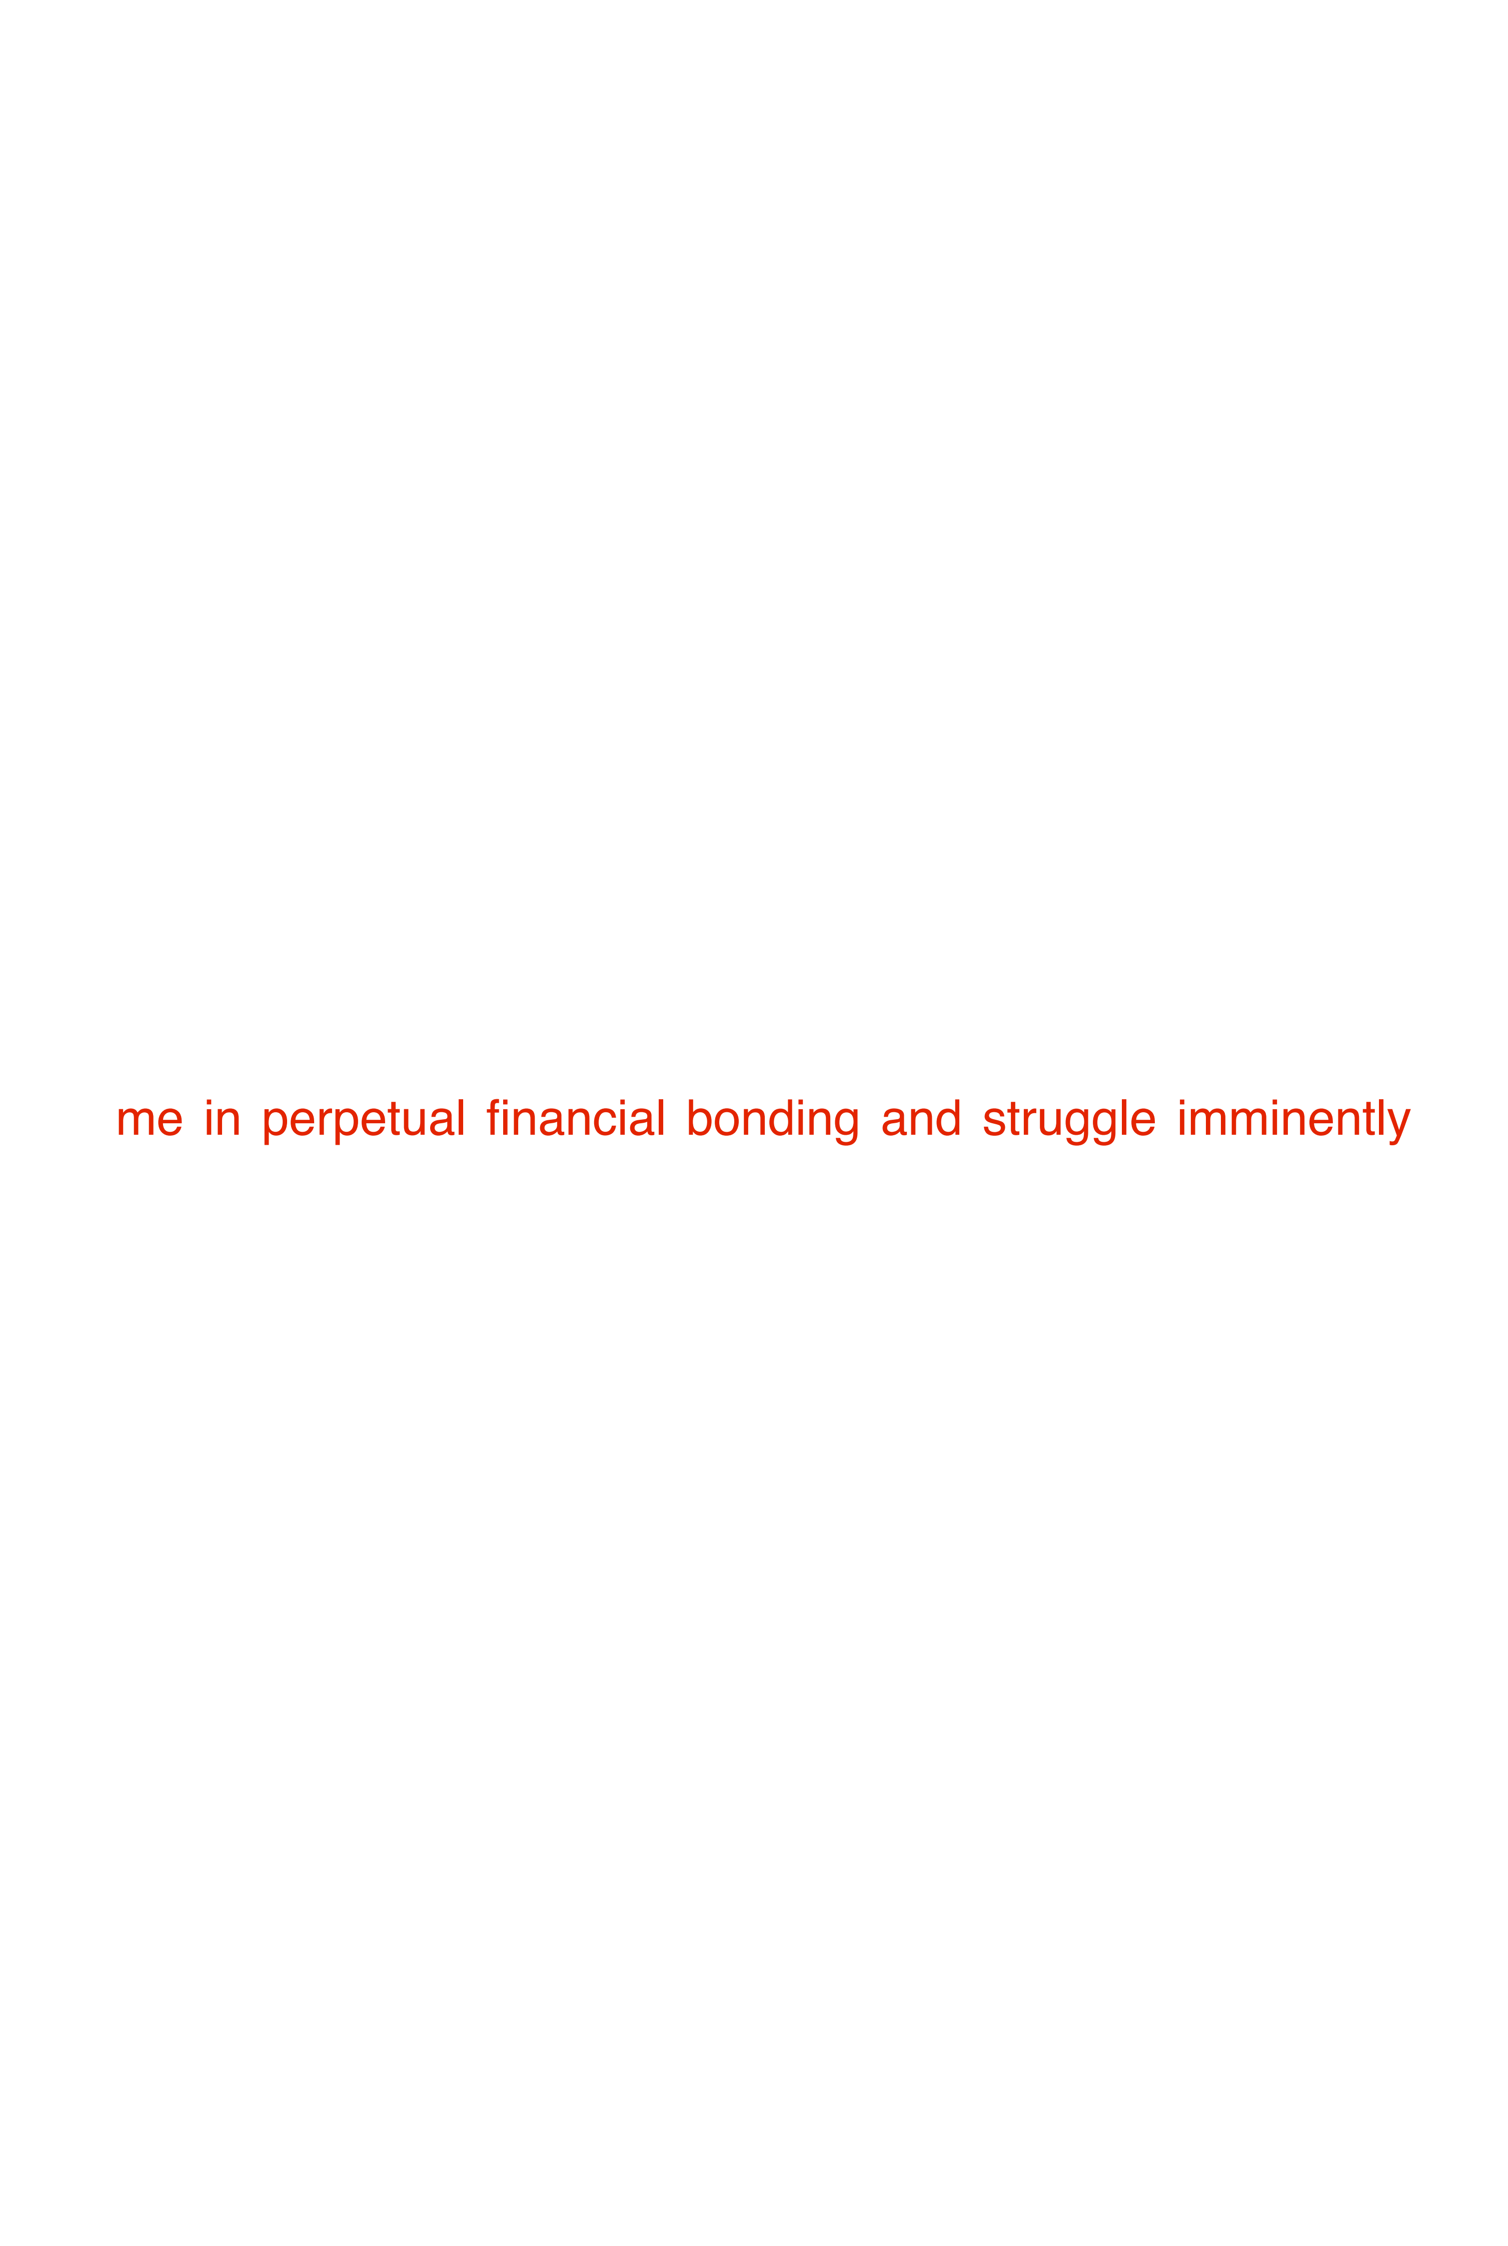

acknowledging such facts would lead to compensation for a

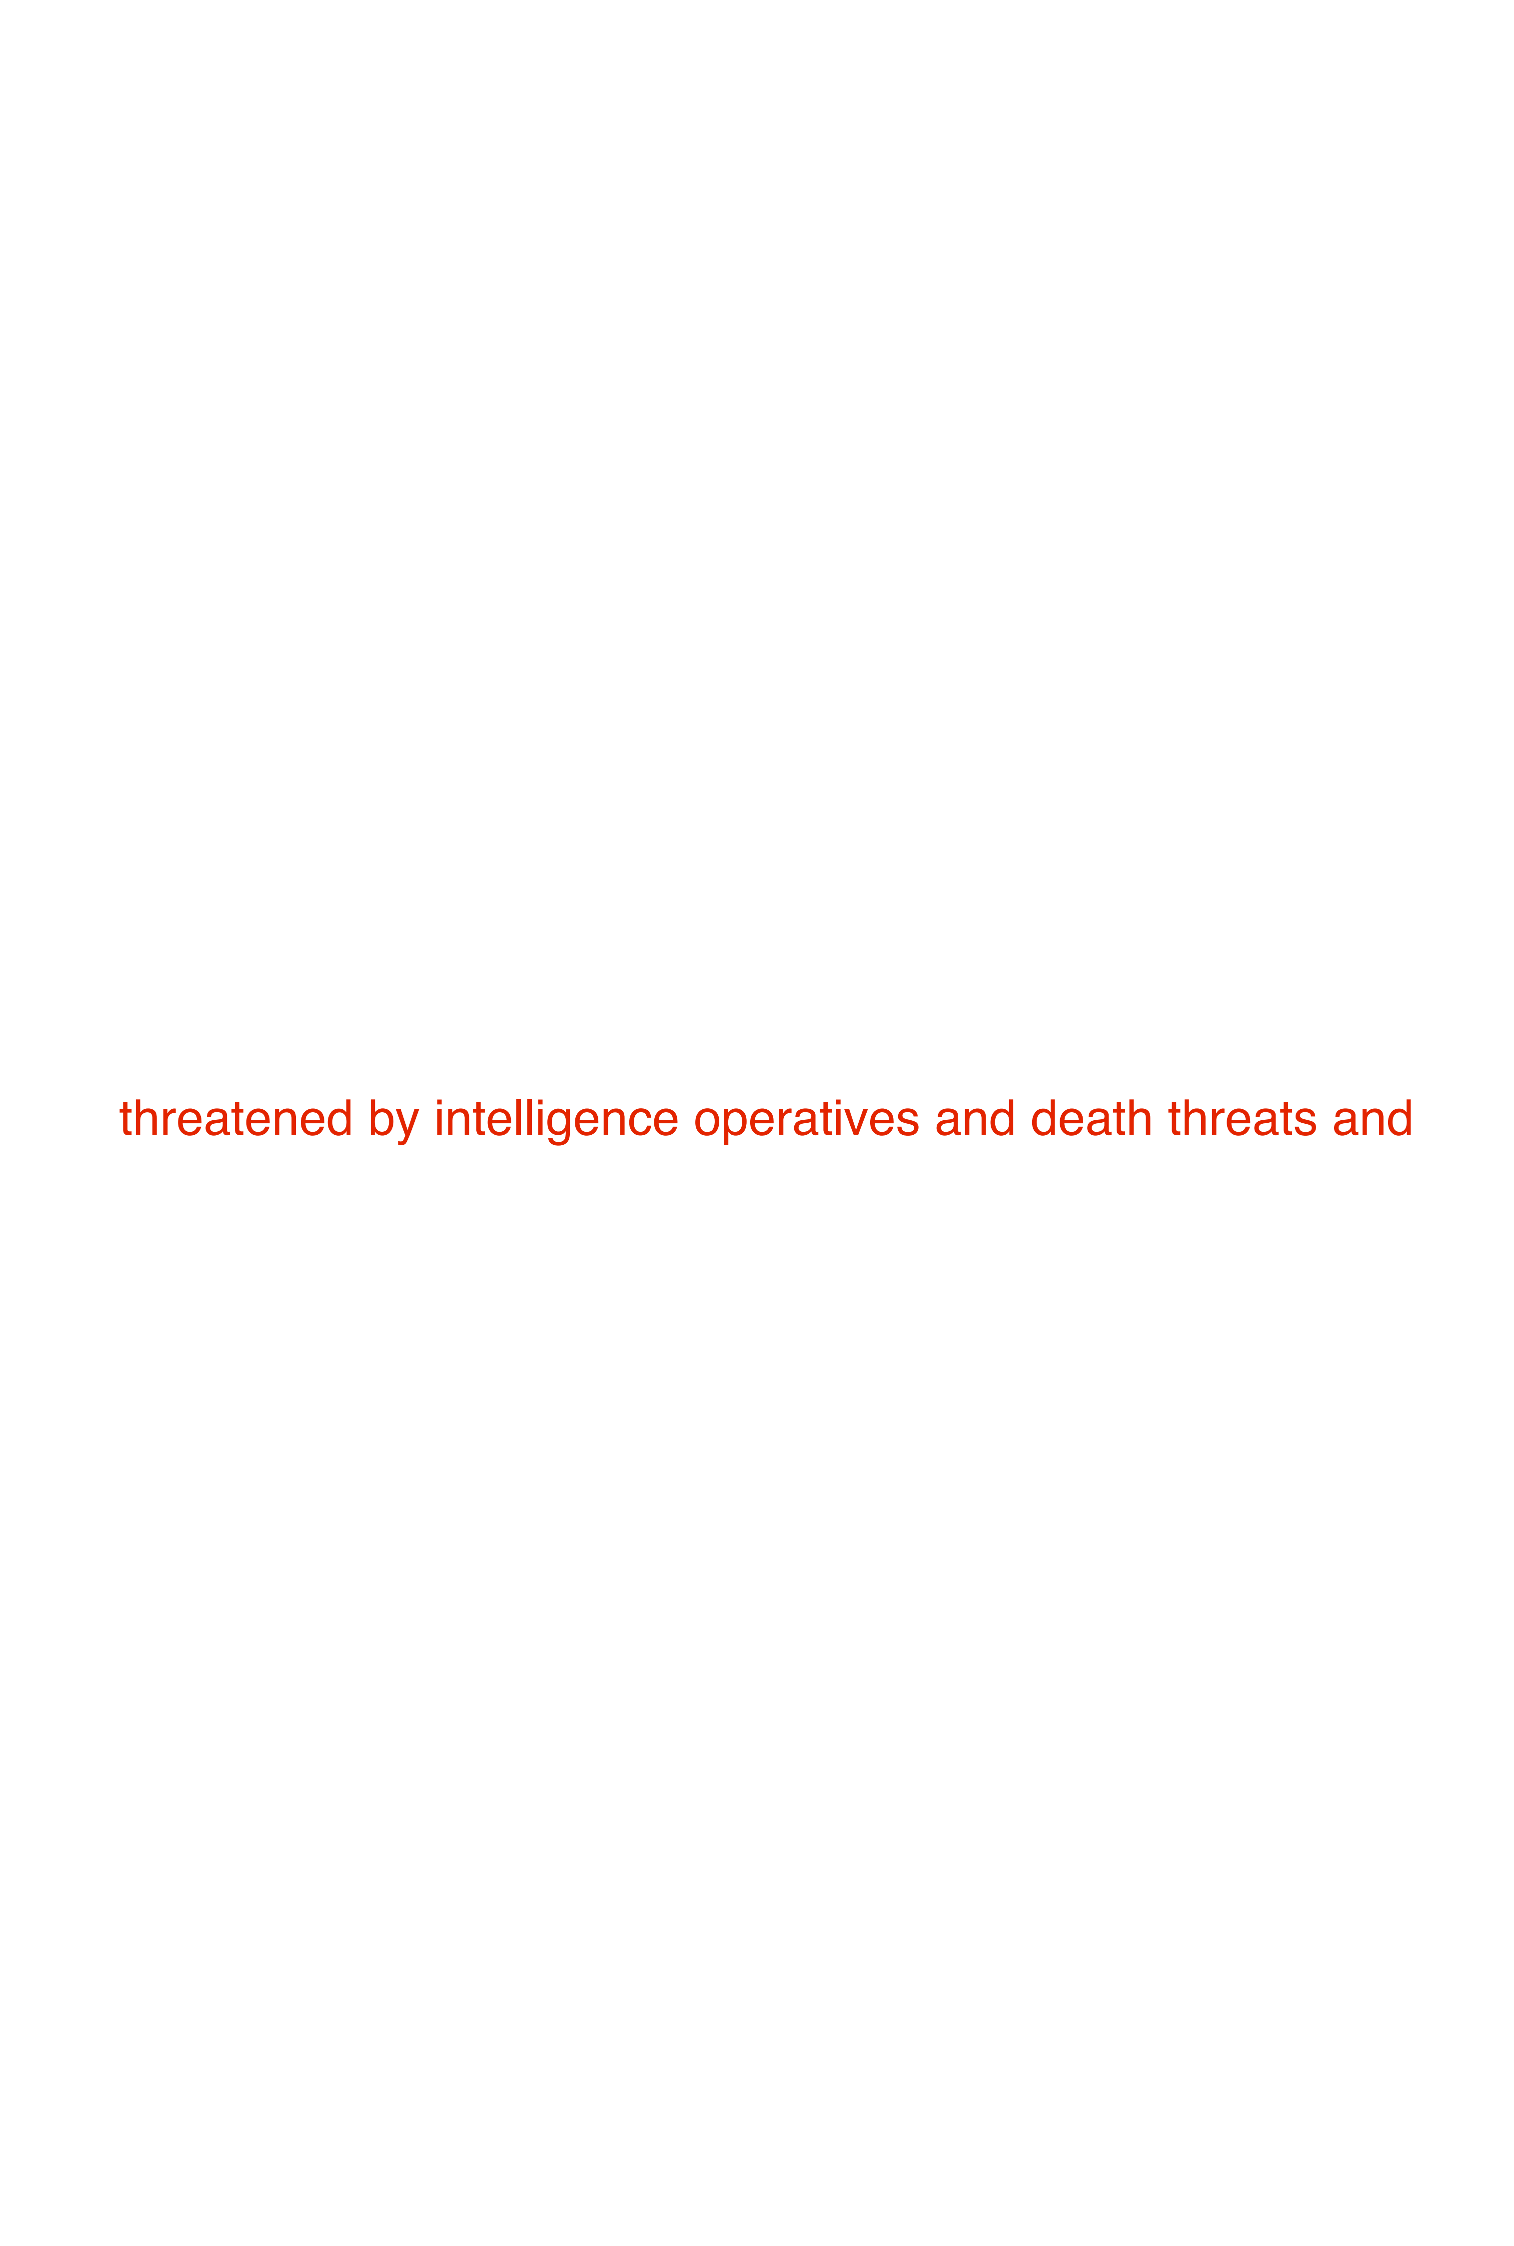

participant, it would be a step towards rectifying any

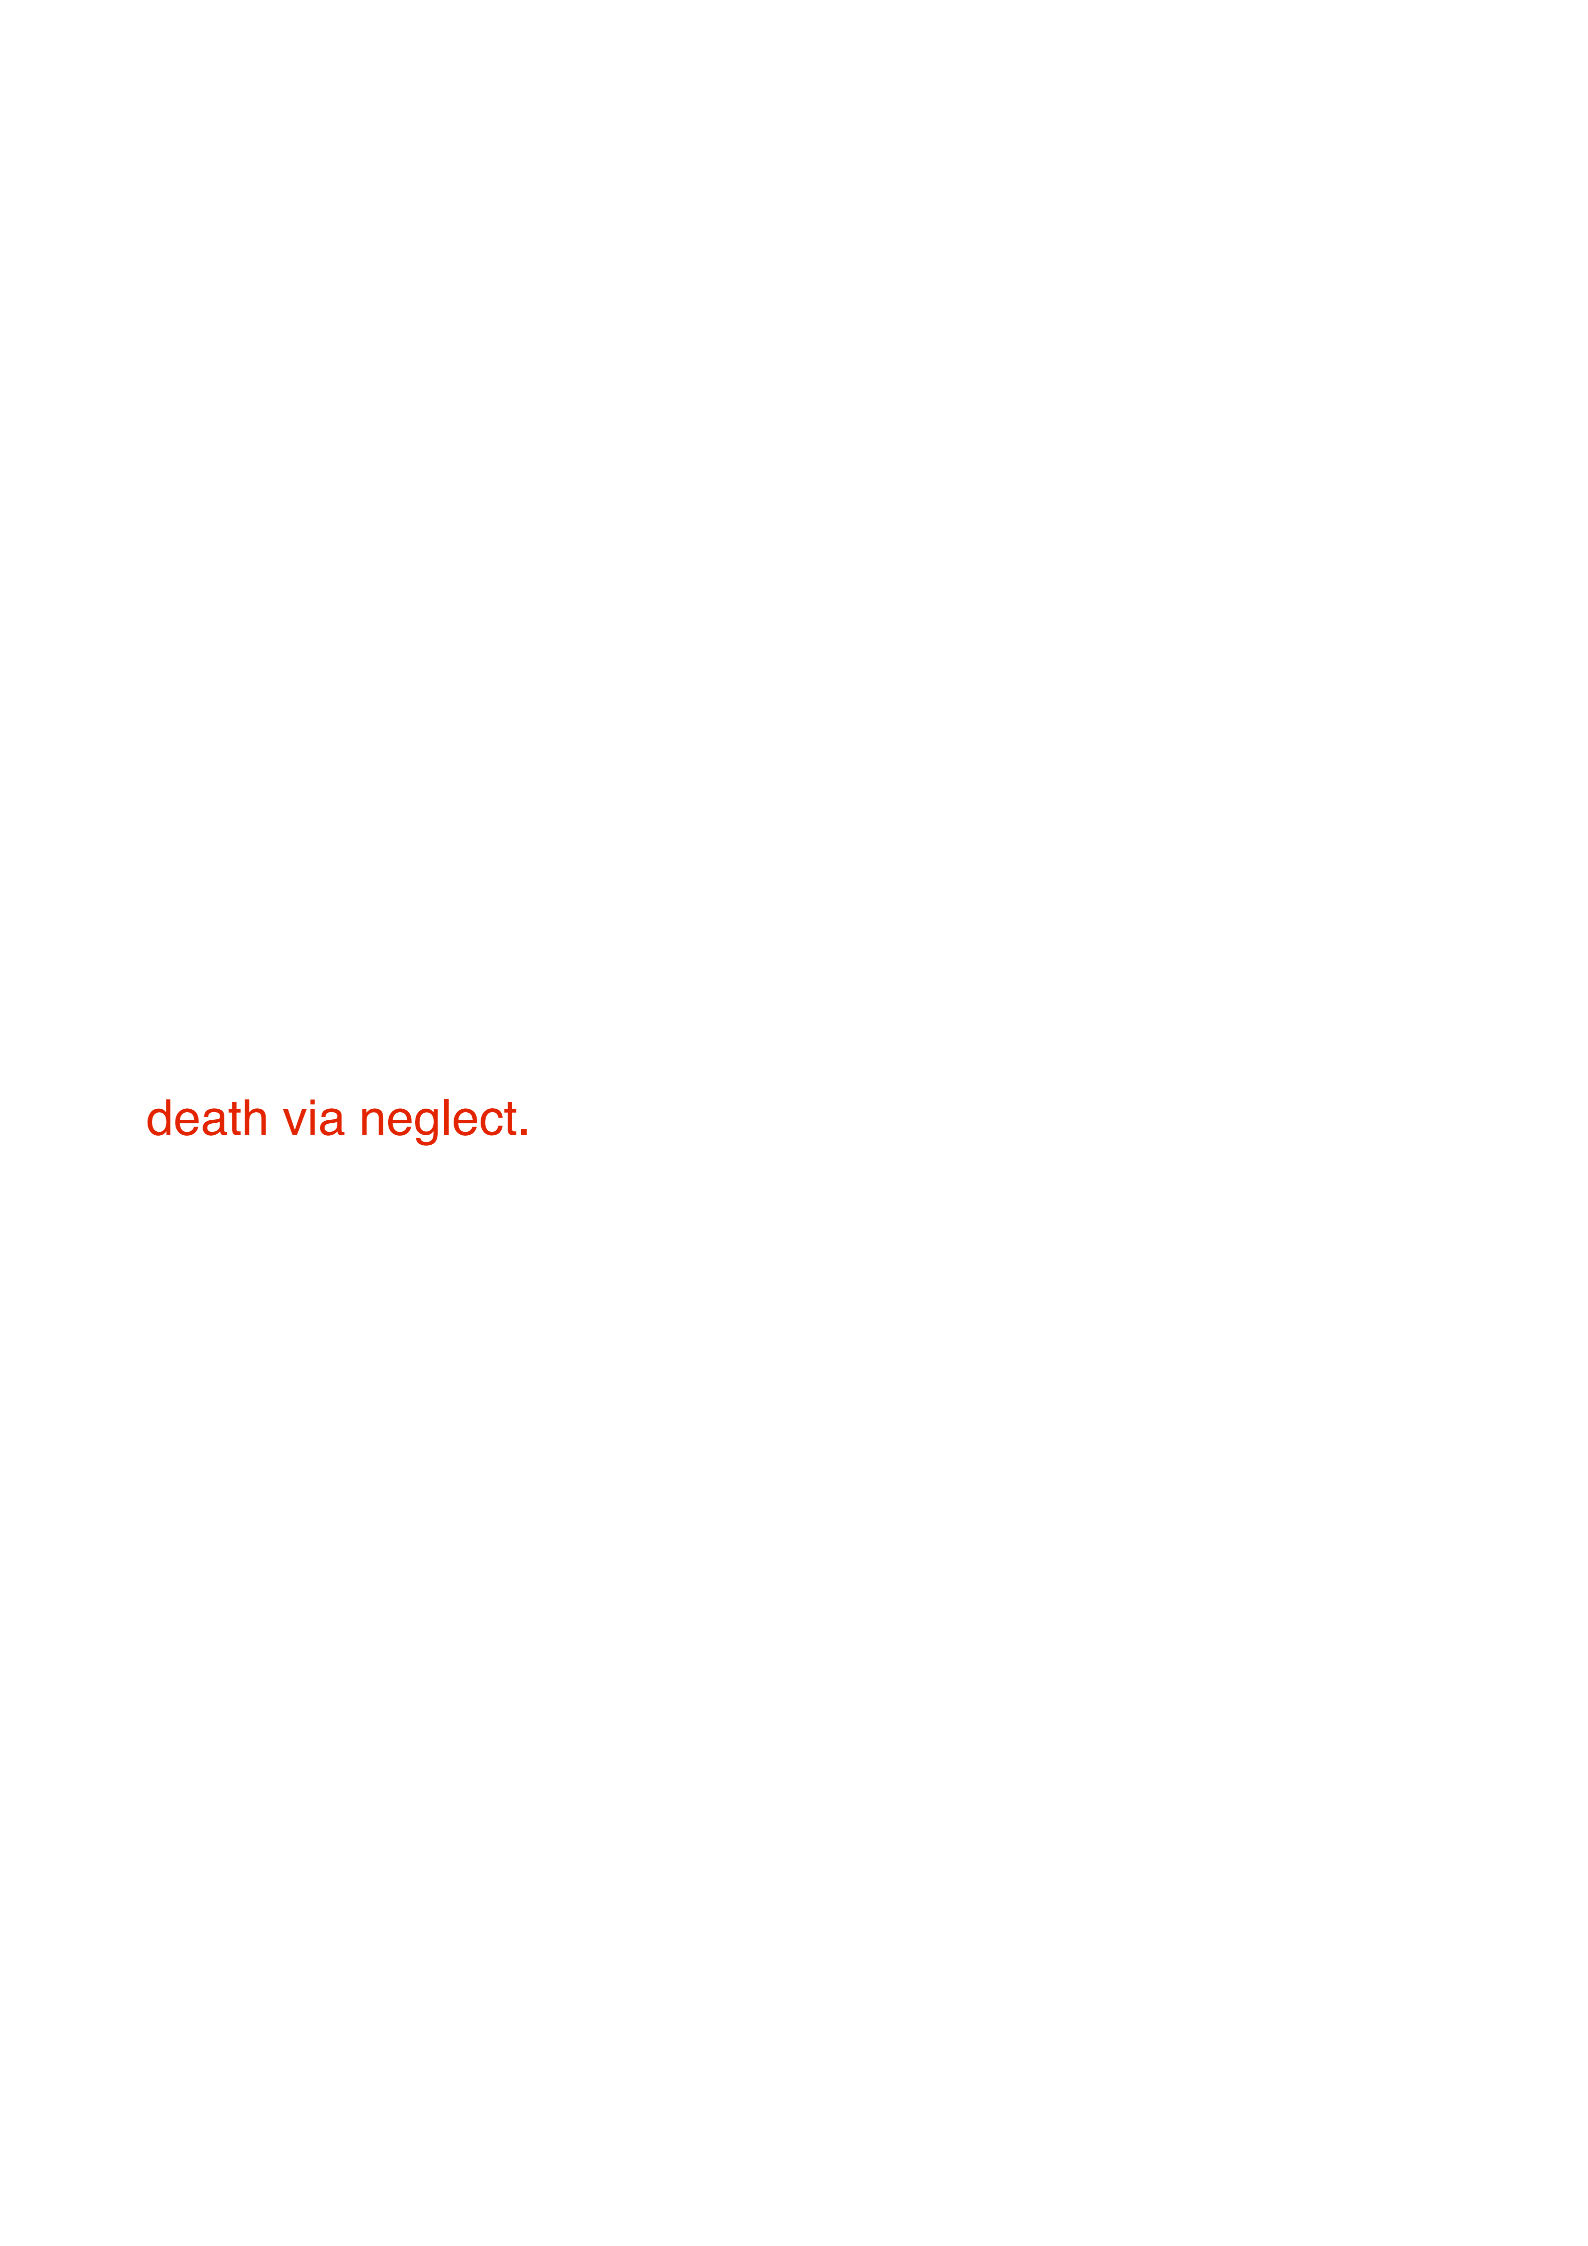

injustices they have faced and providing them with the

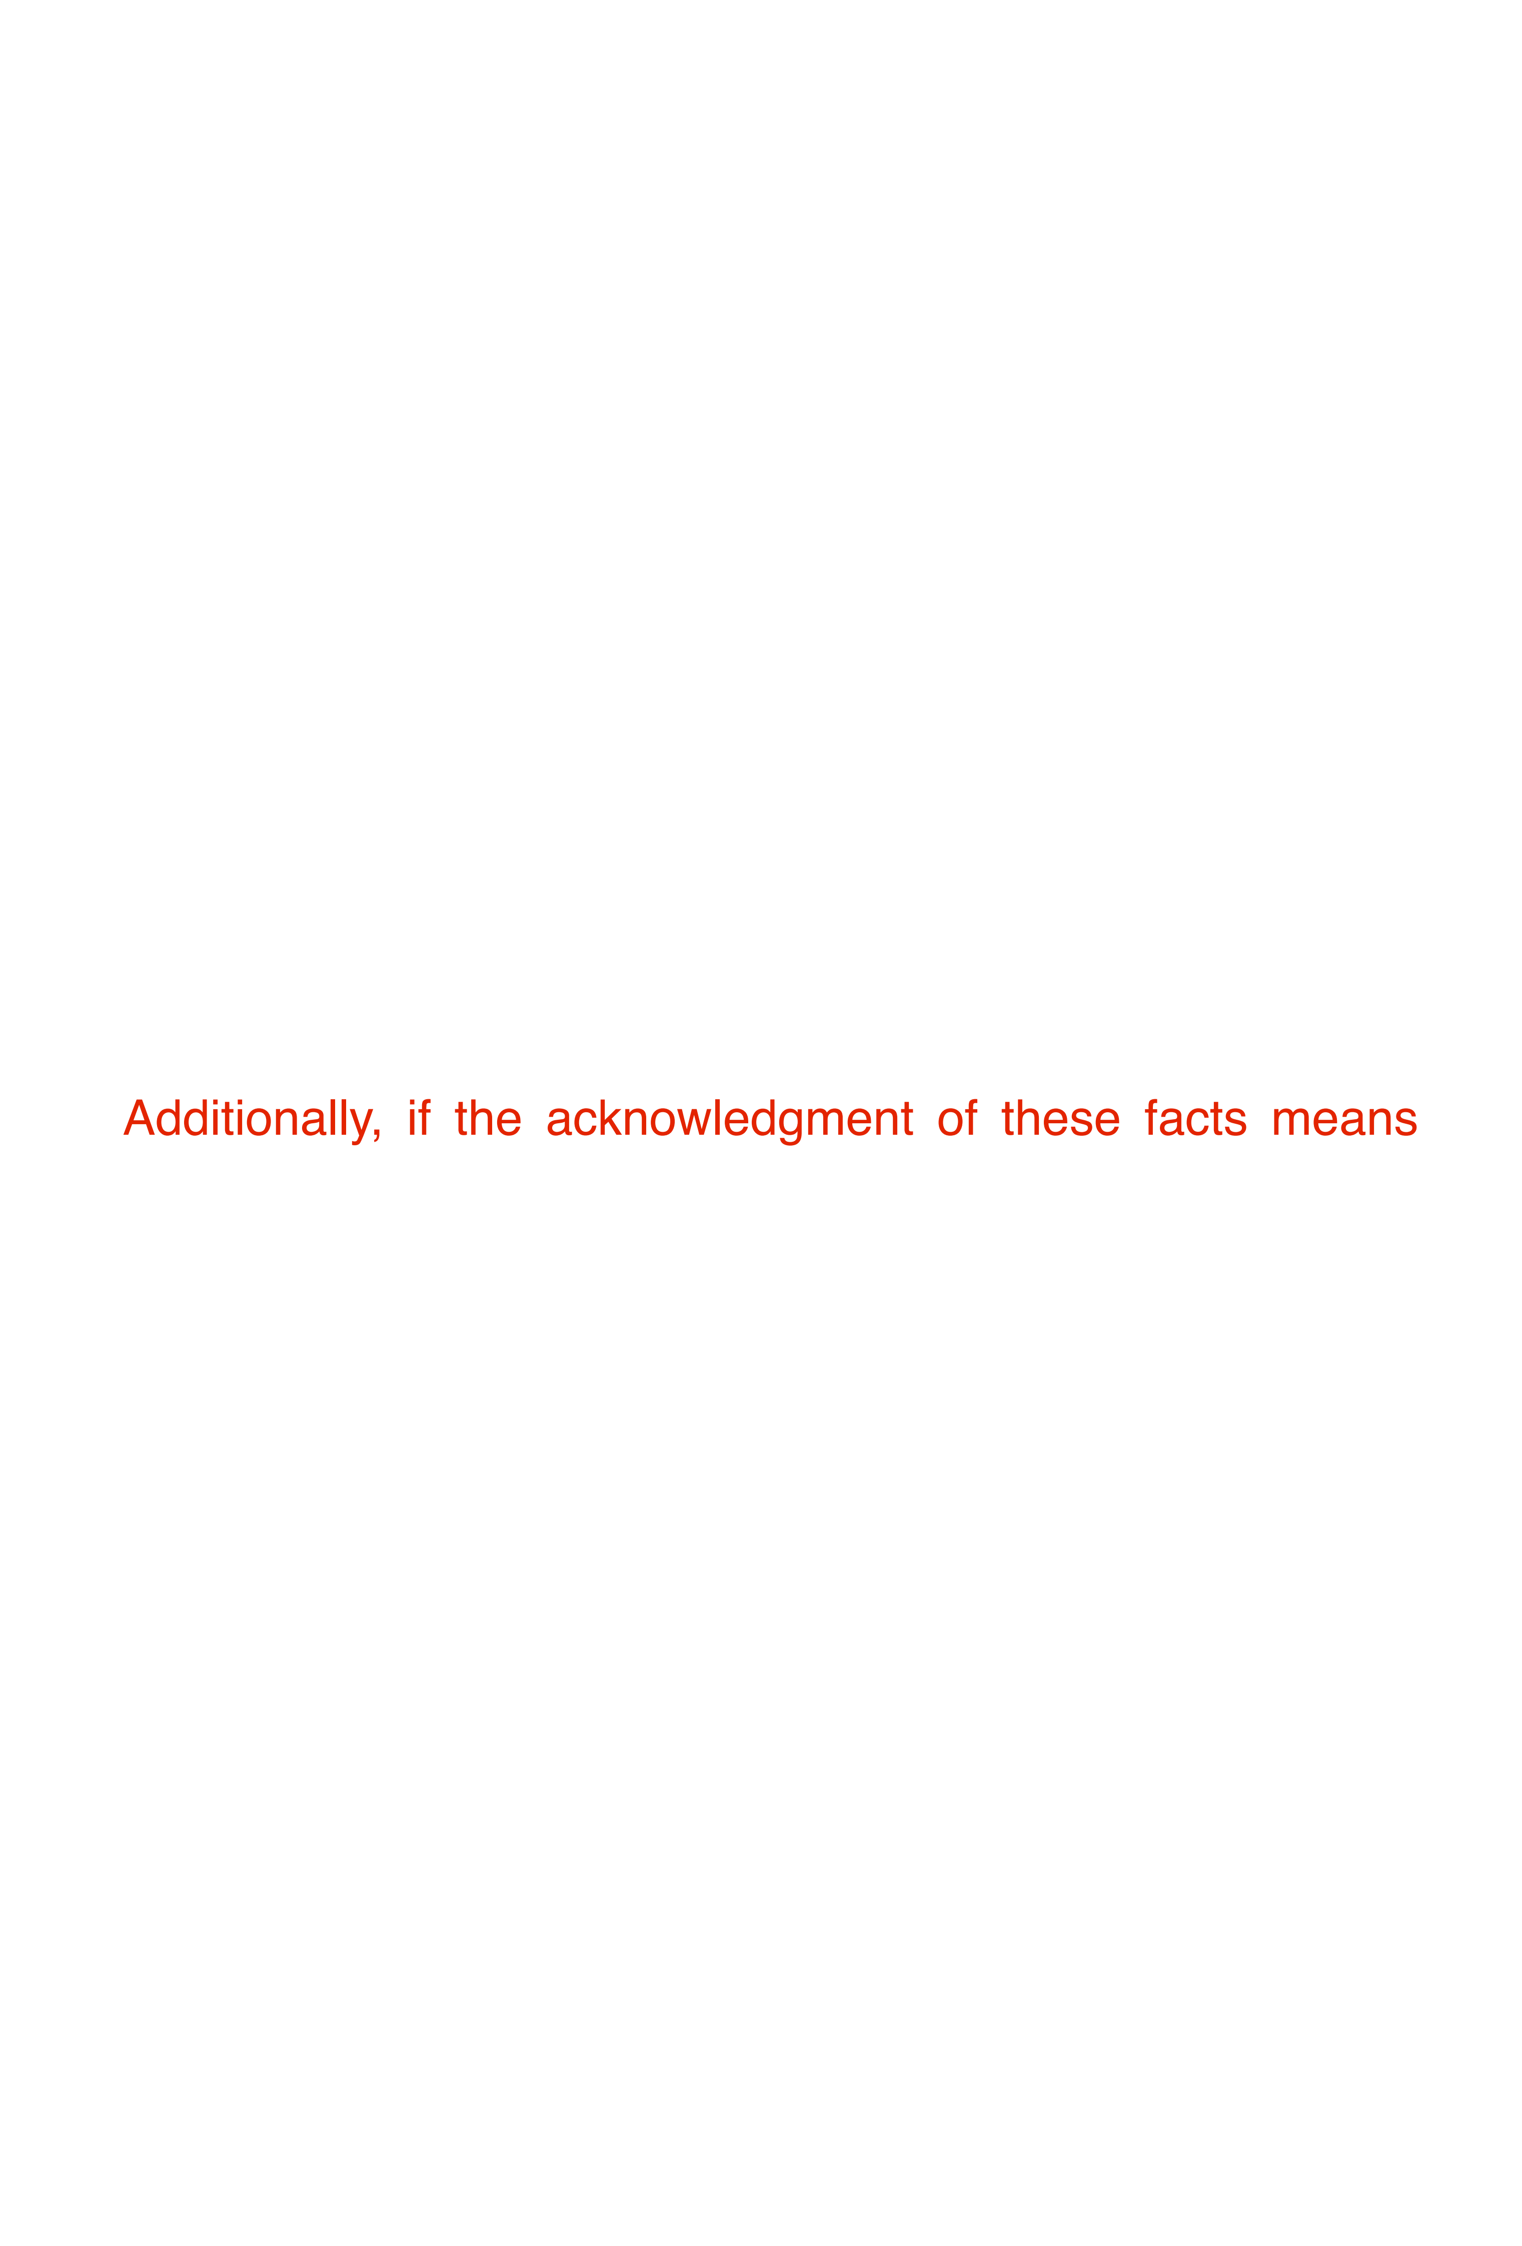

means to support themselves independently. That’s is in

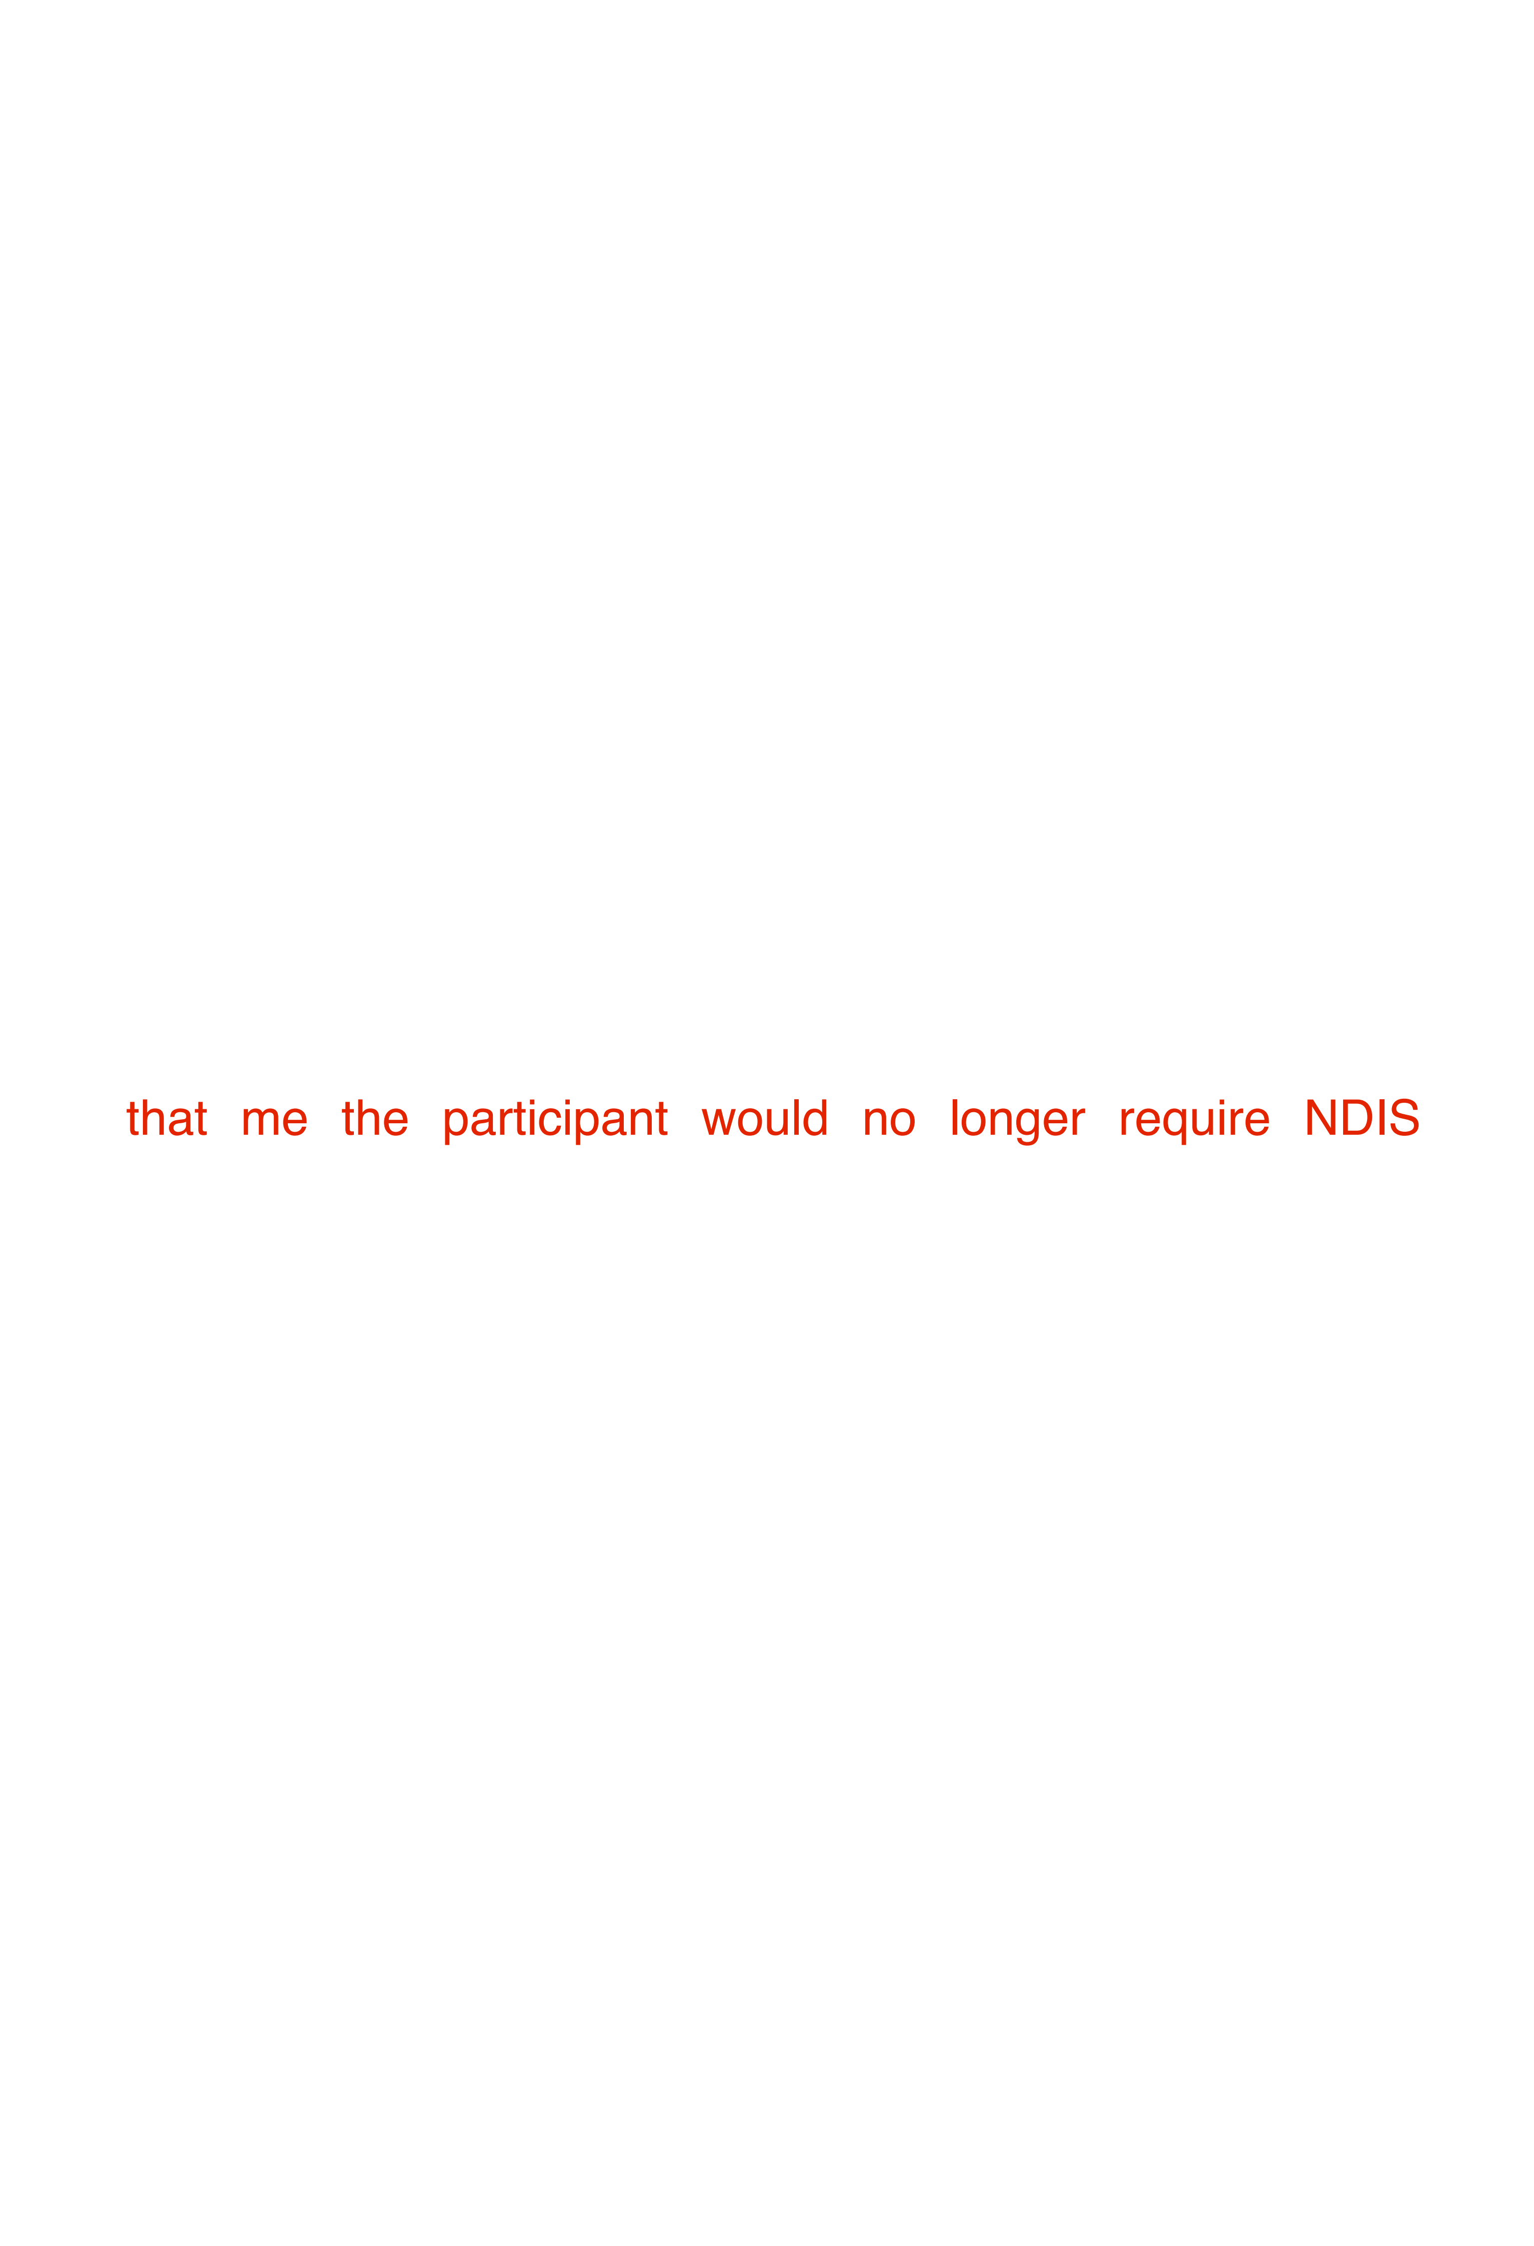

line with NDIS policy, not to use corrupt decisions to keep

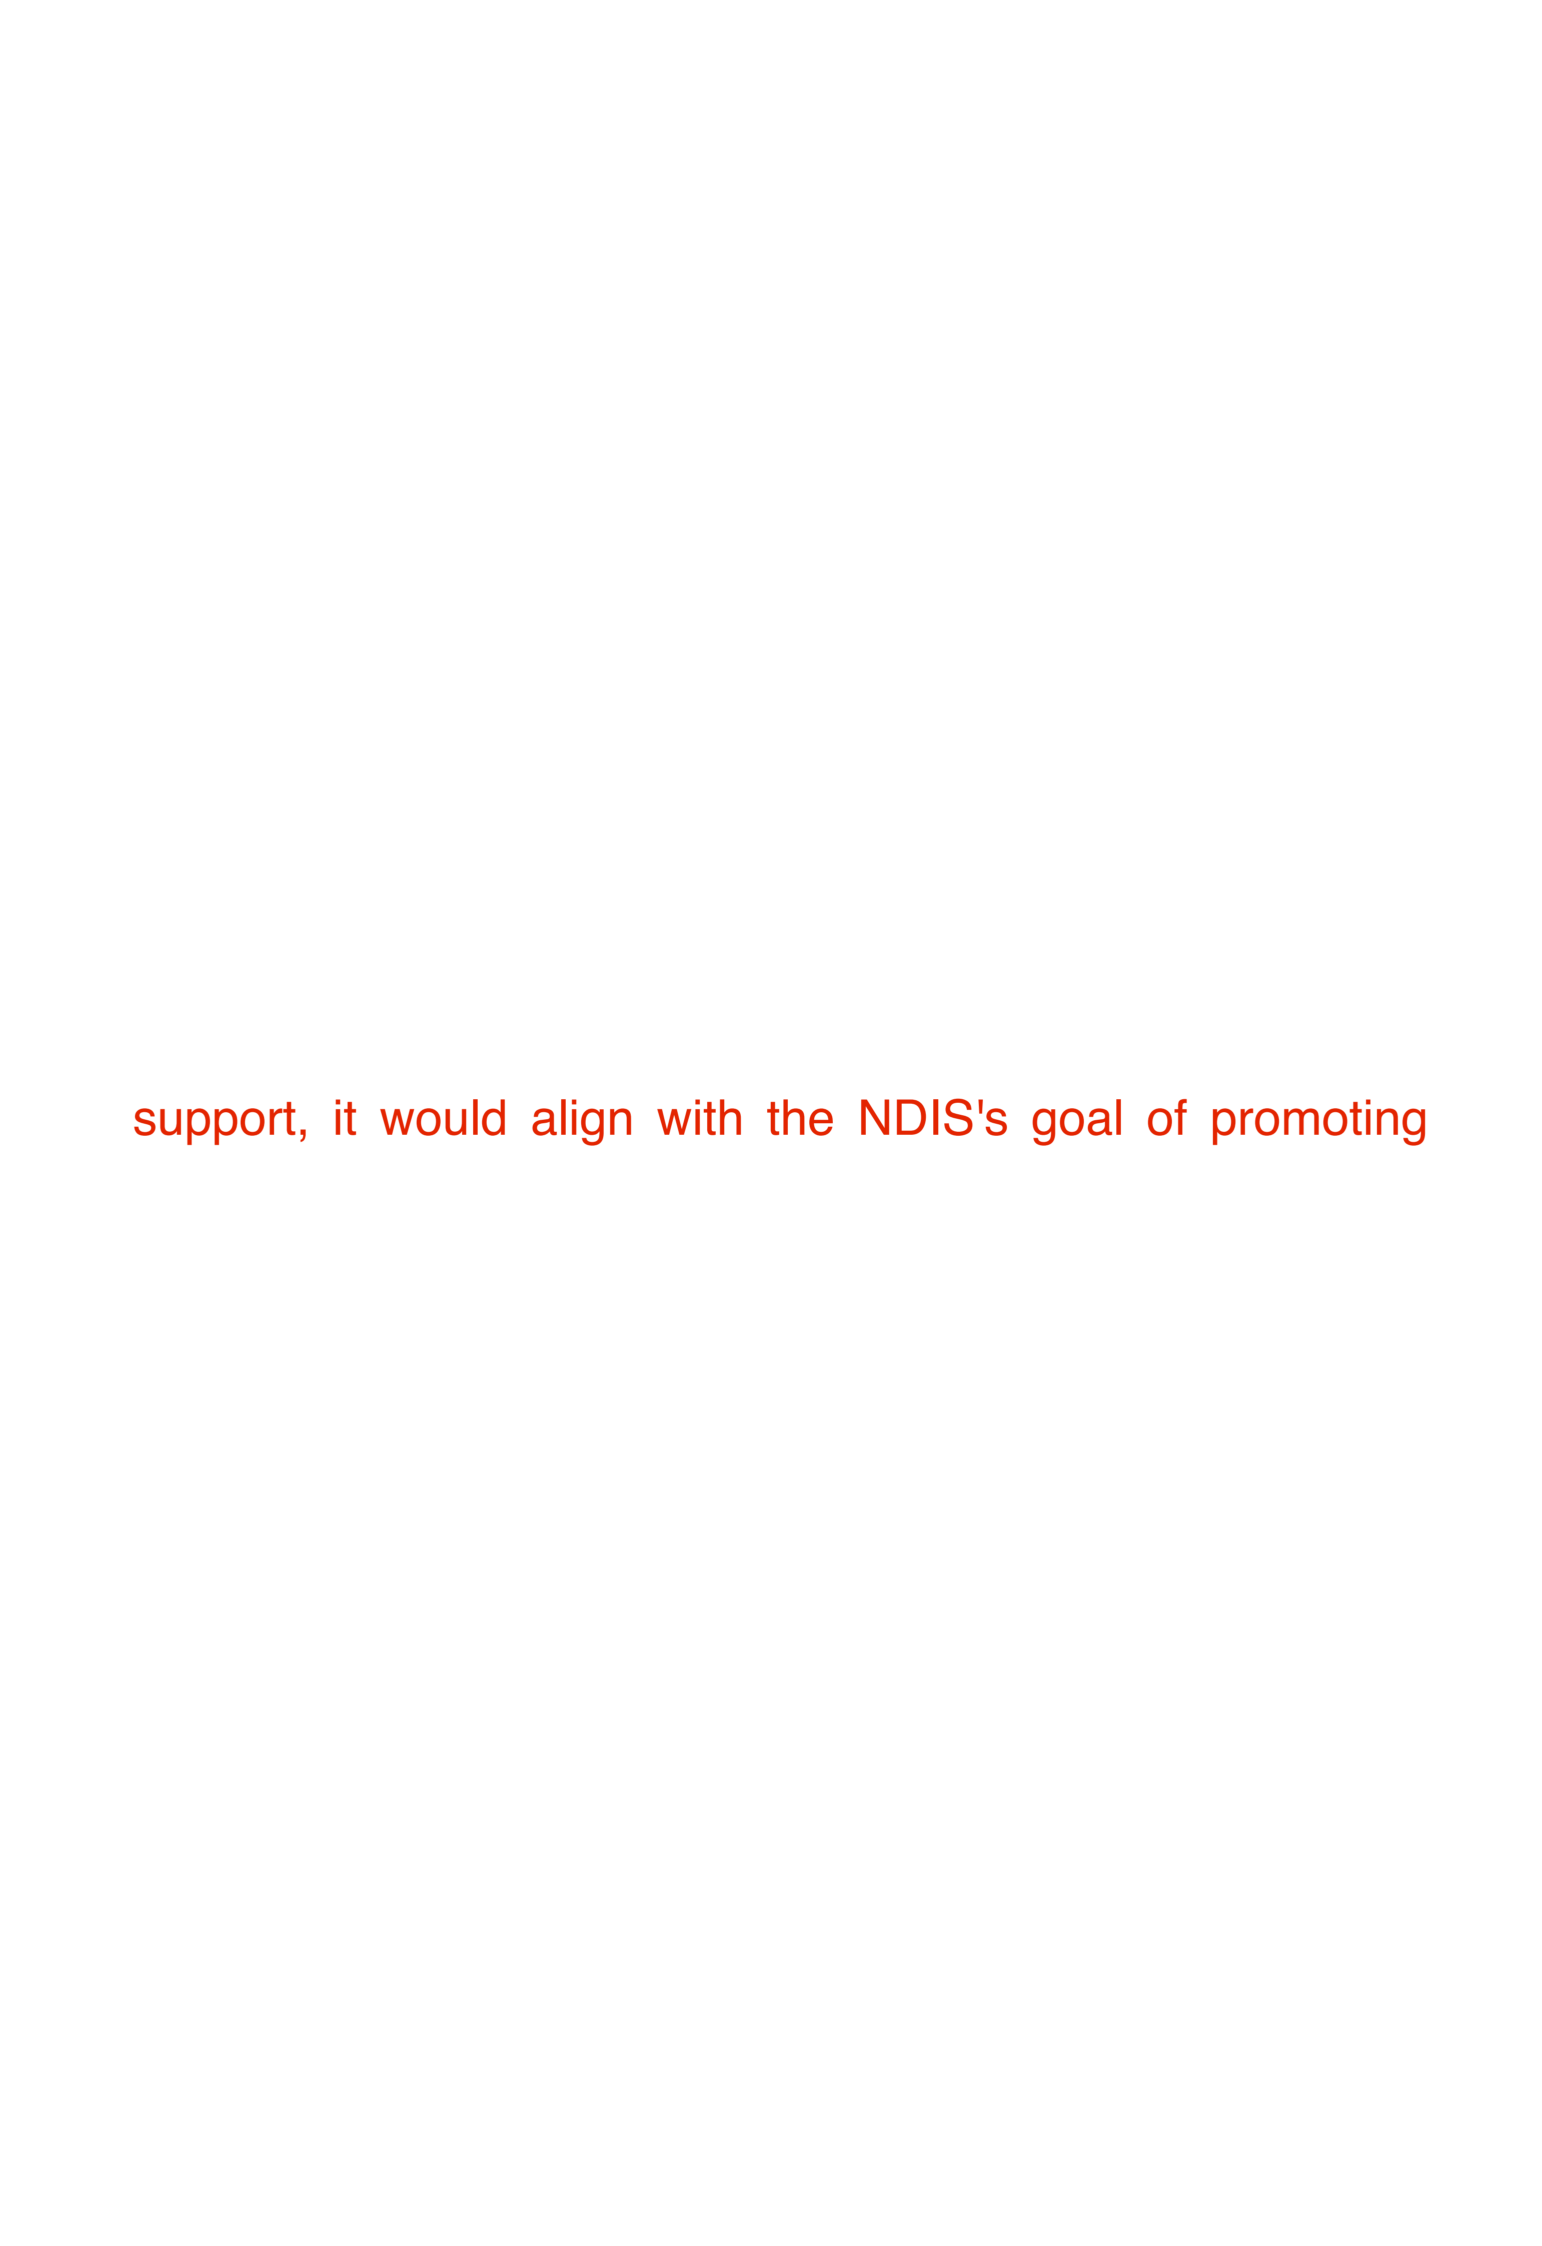

me in perpetual financial bonding and struggle imminently

threatened by intelligence operatives and death threats and

death via neglect.

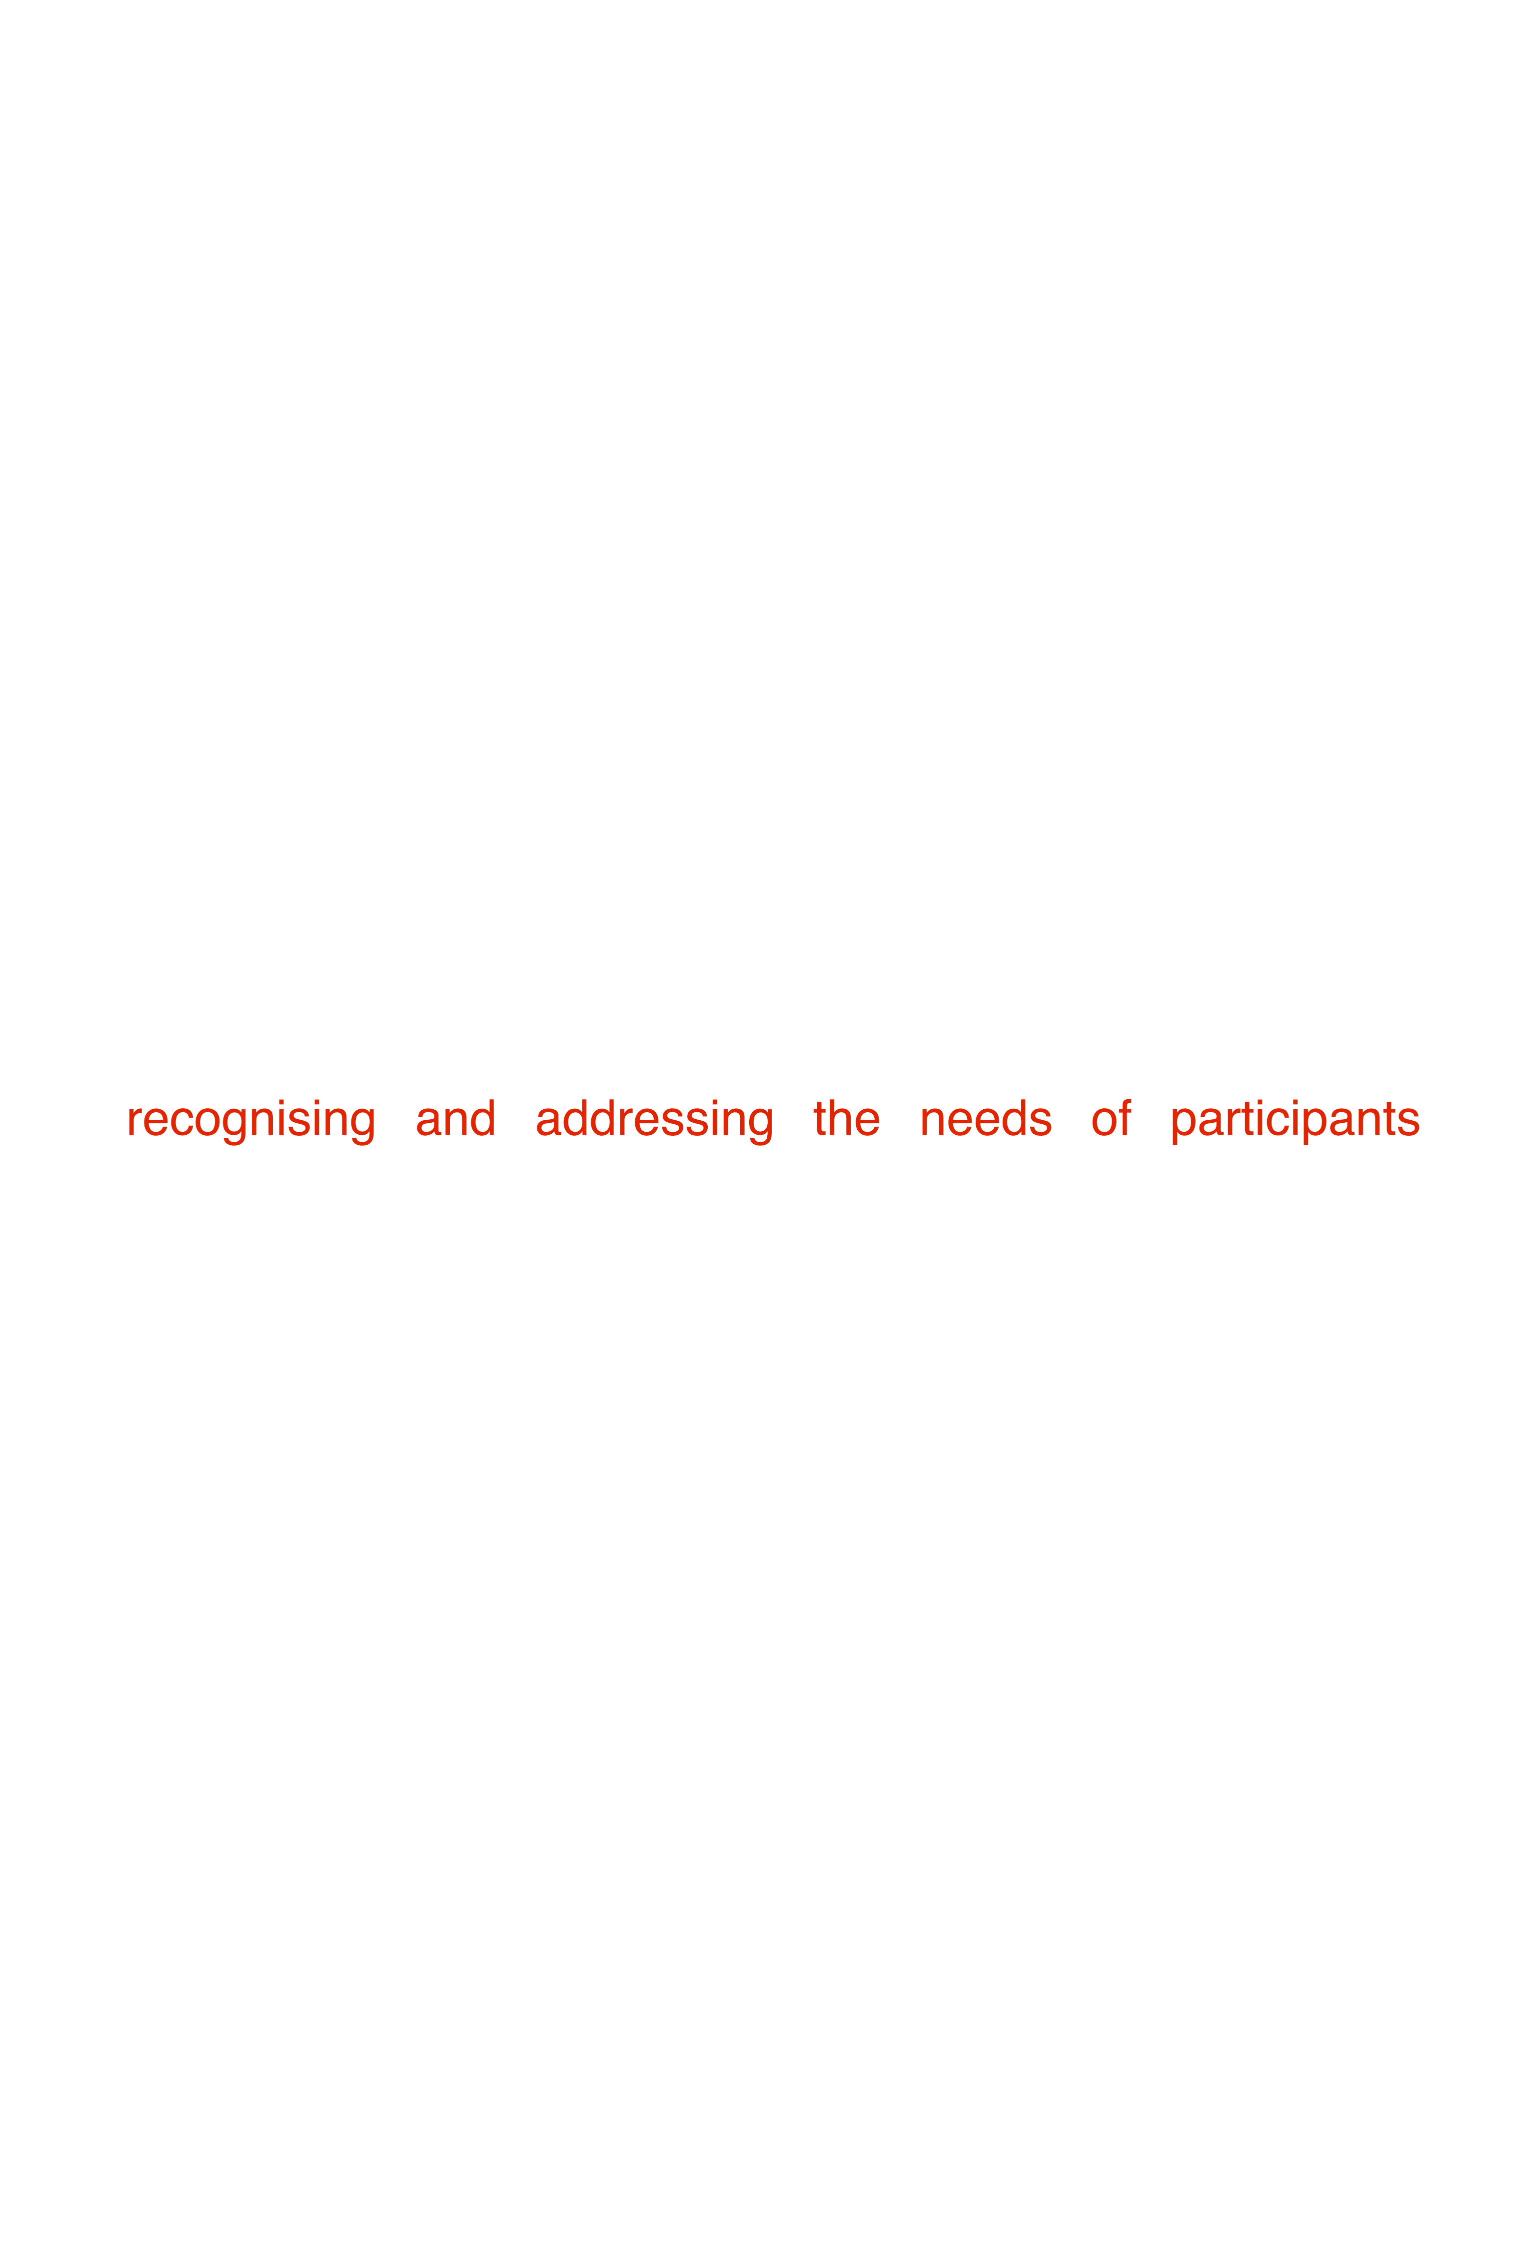

Additionally, if the acknowledgment of these facts means

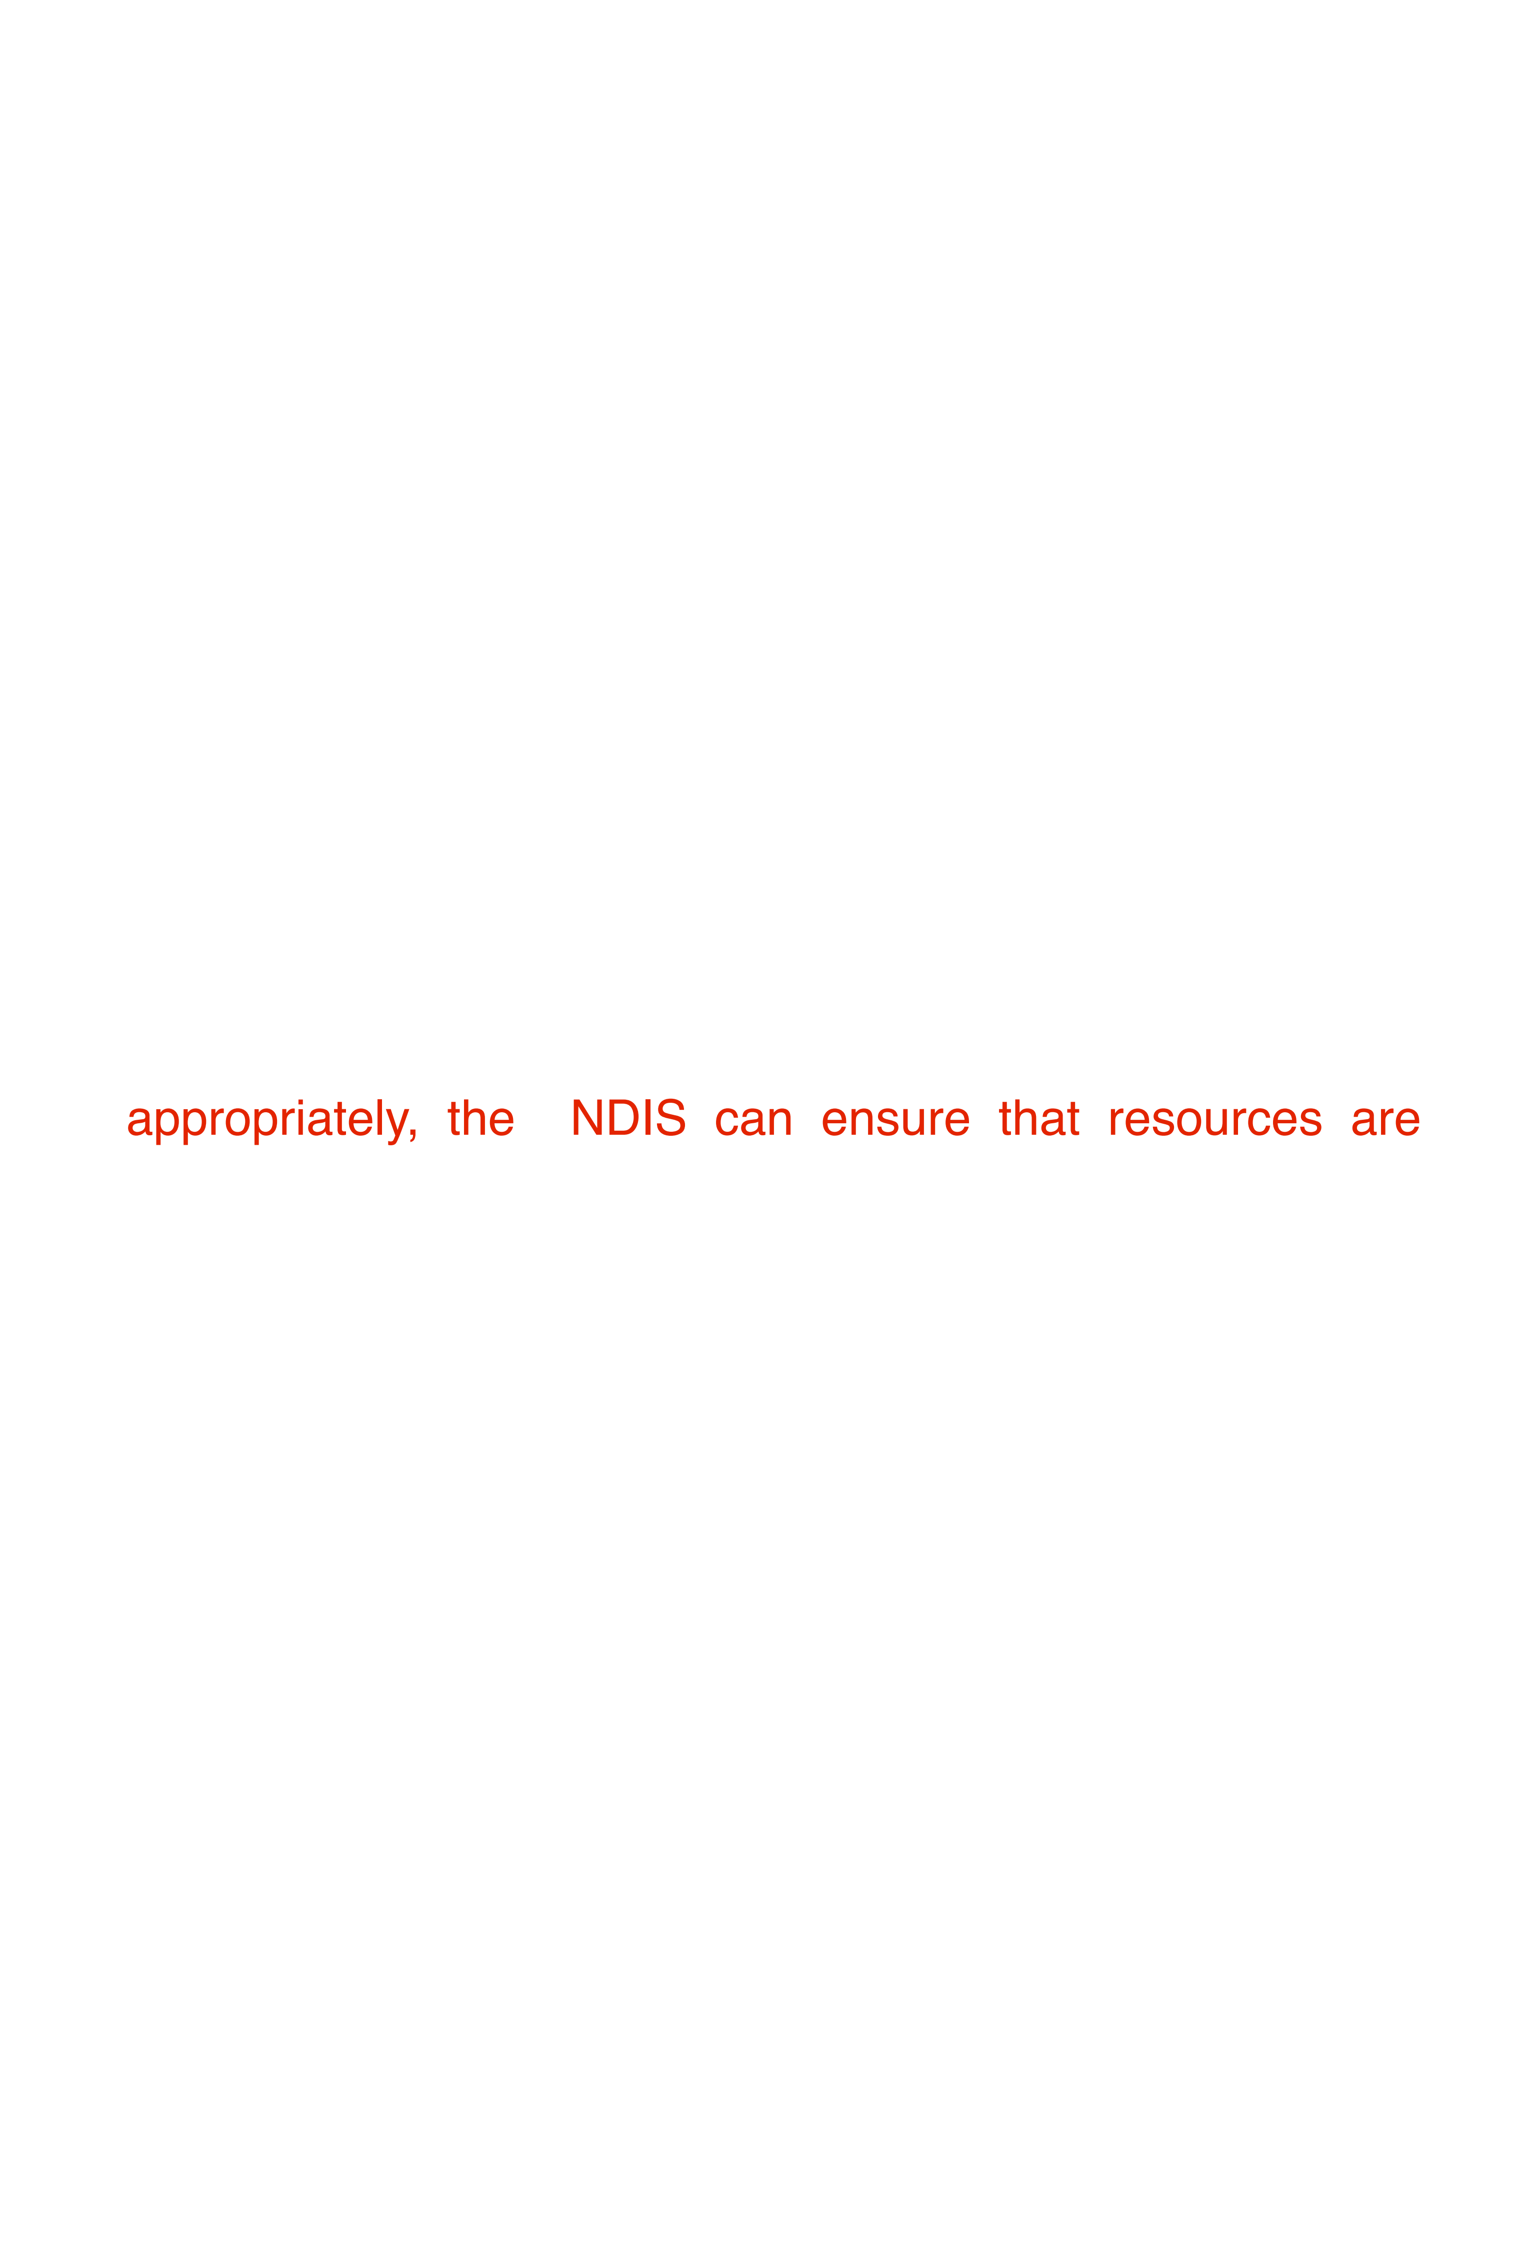

that me the participant would no longer require NDIS

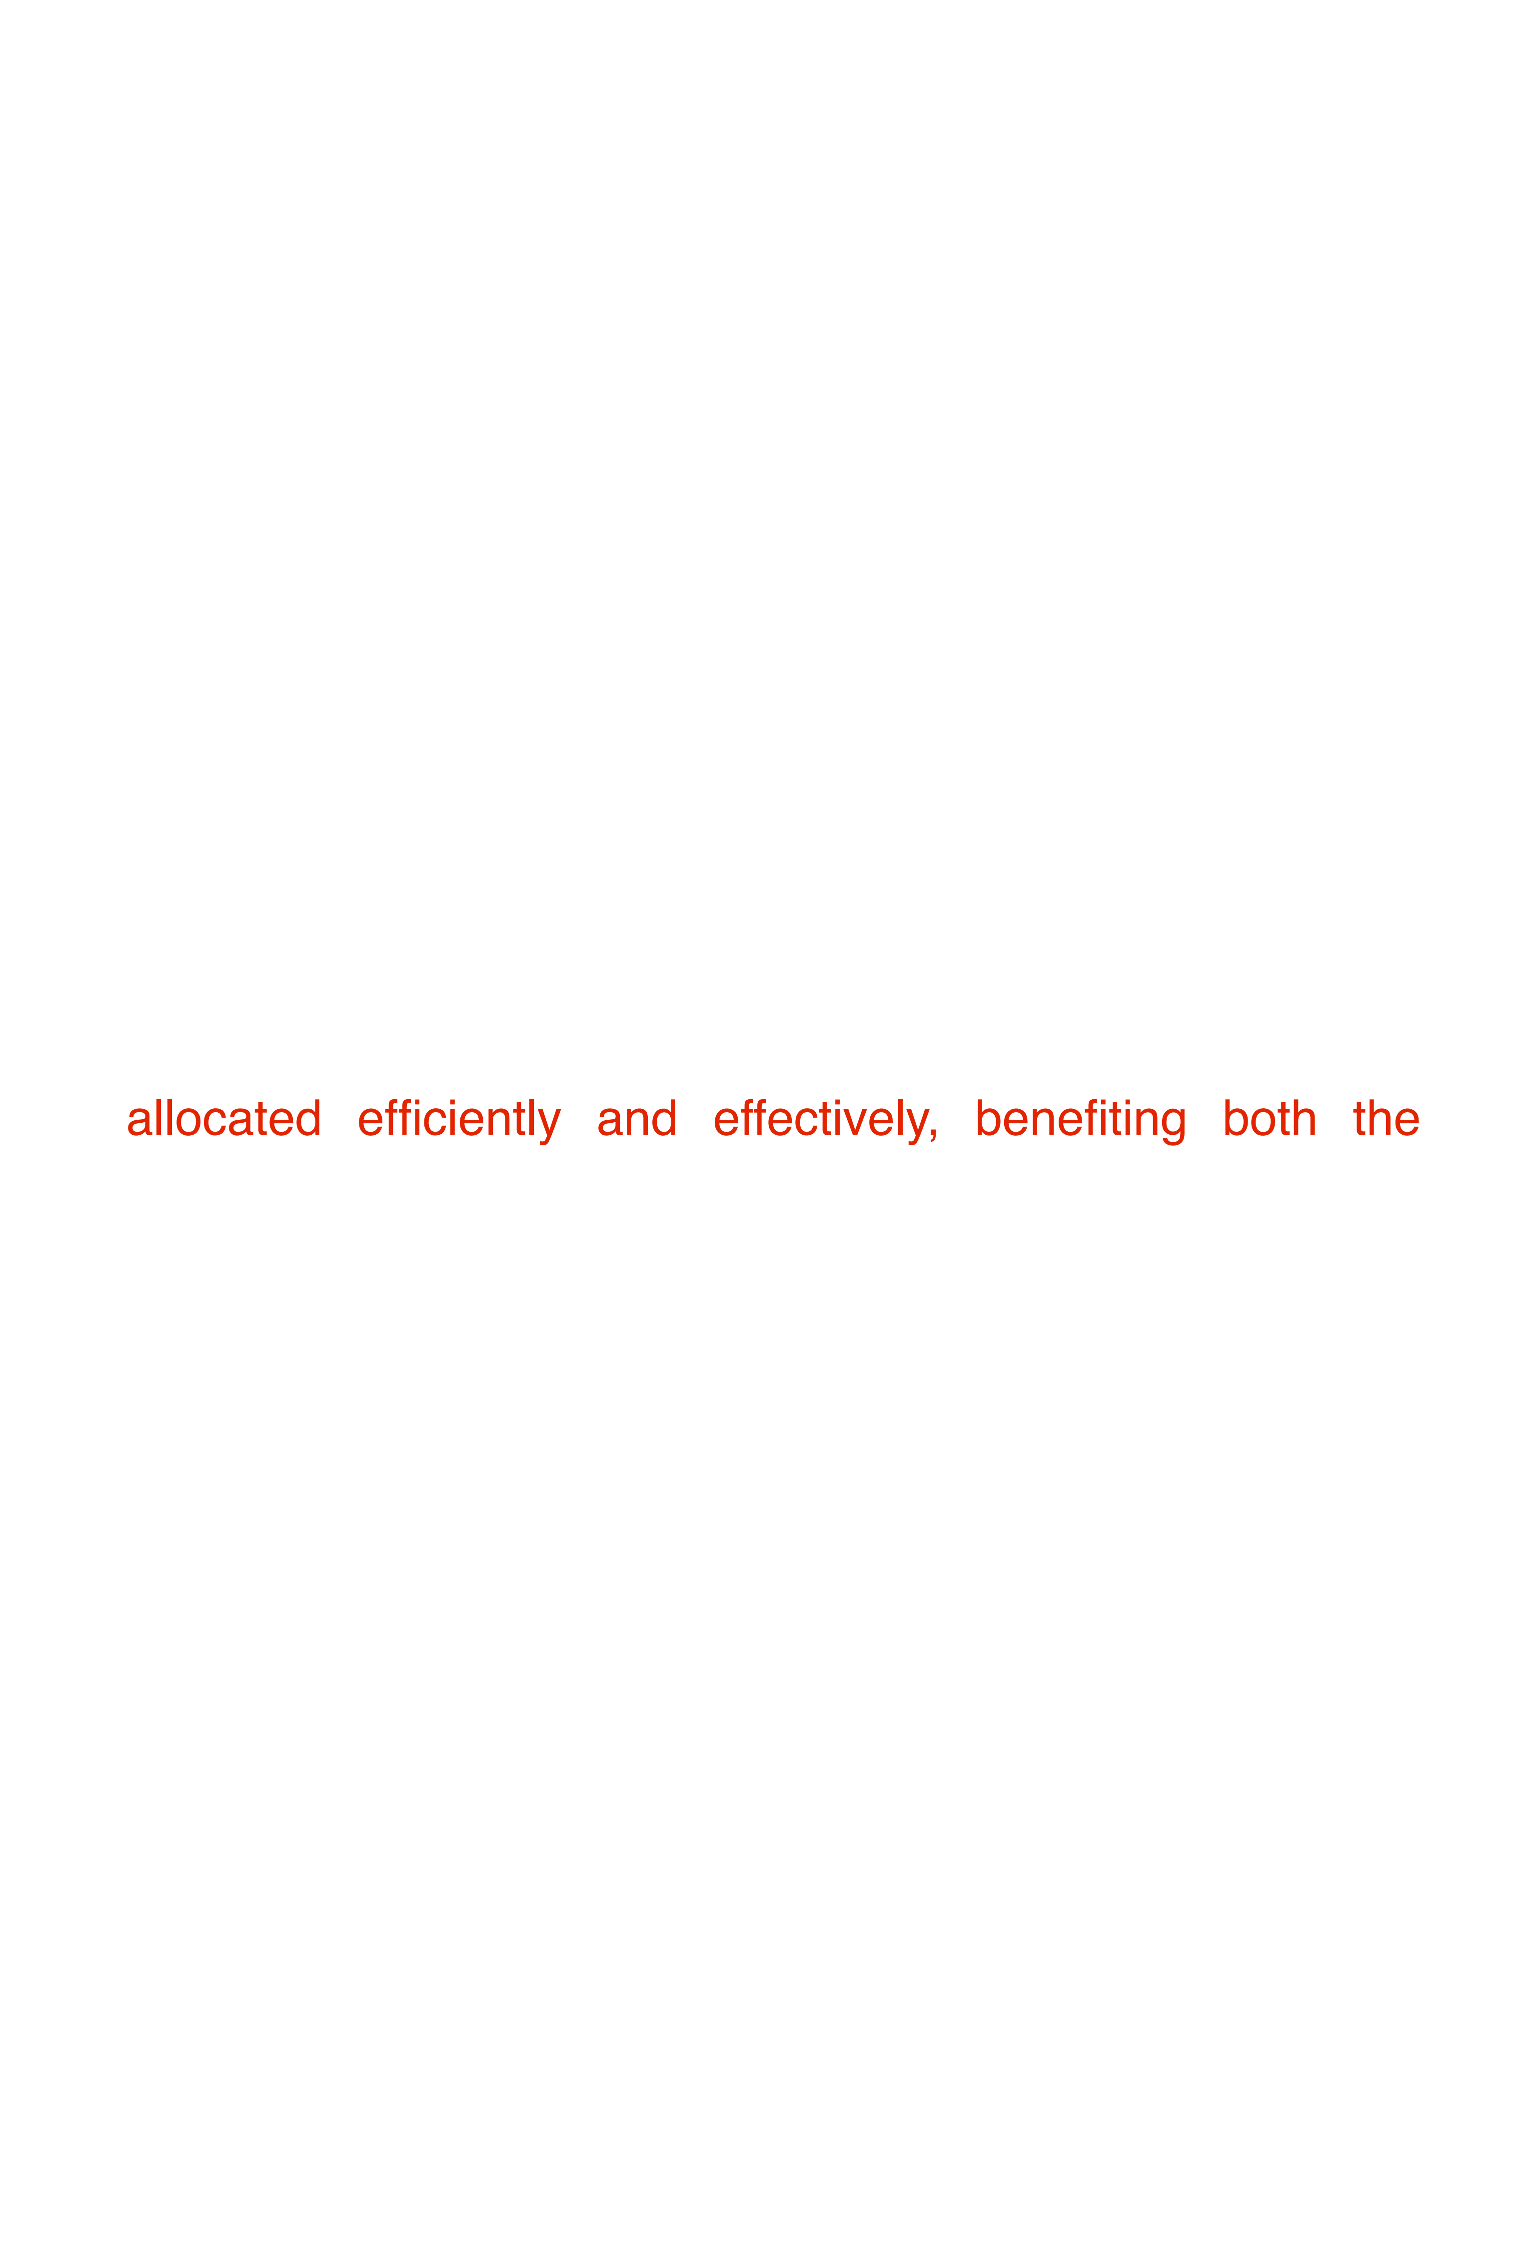

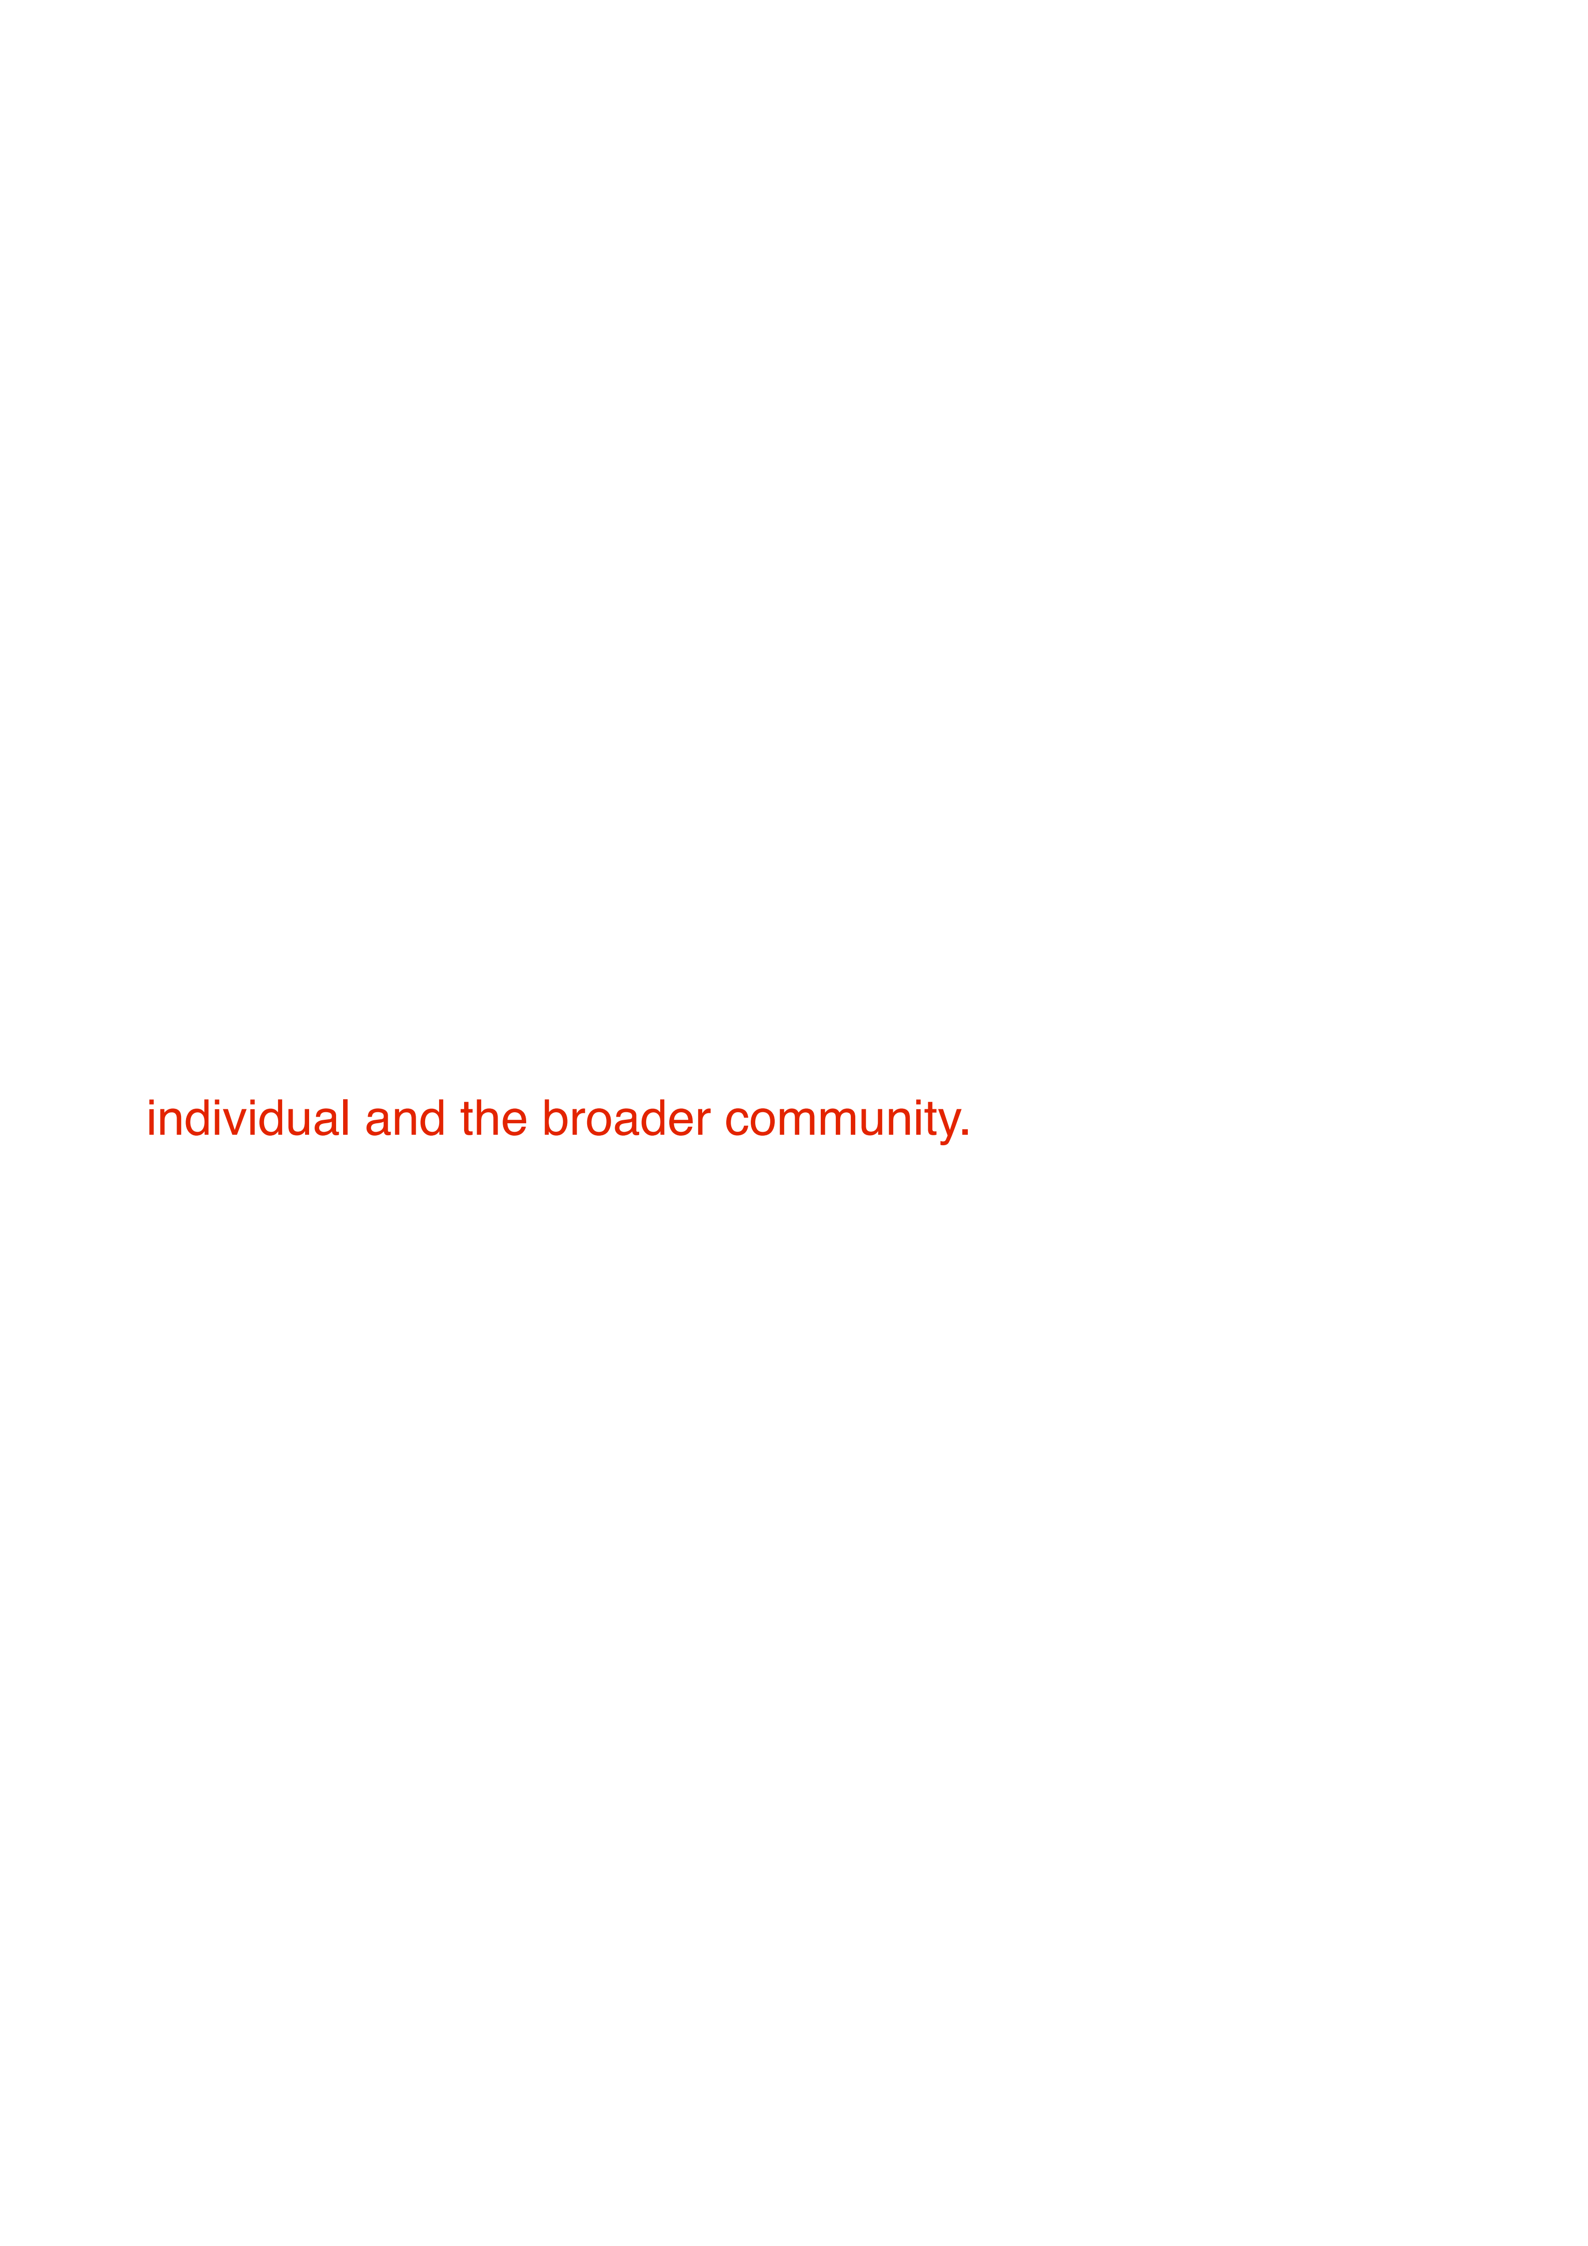

support, it would align with the NDIS's goal of promoting

independence and self-sufficiency among participants. By

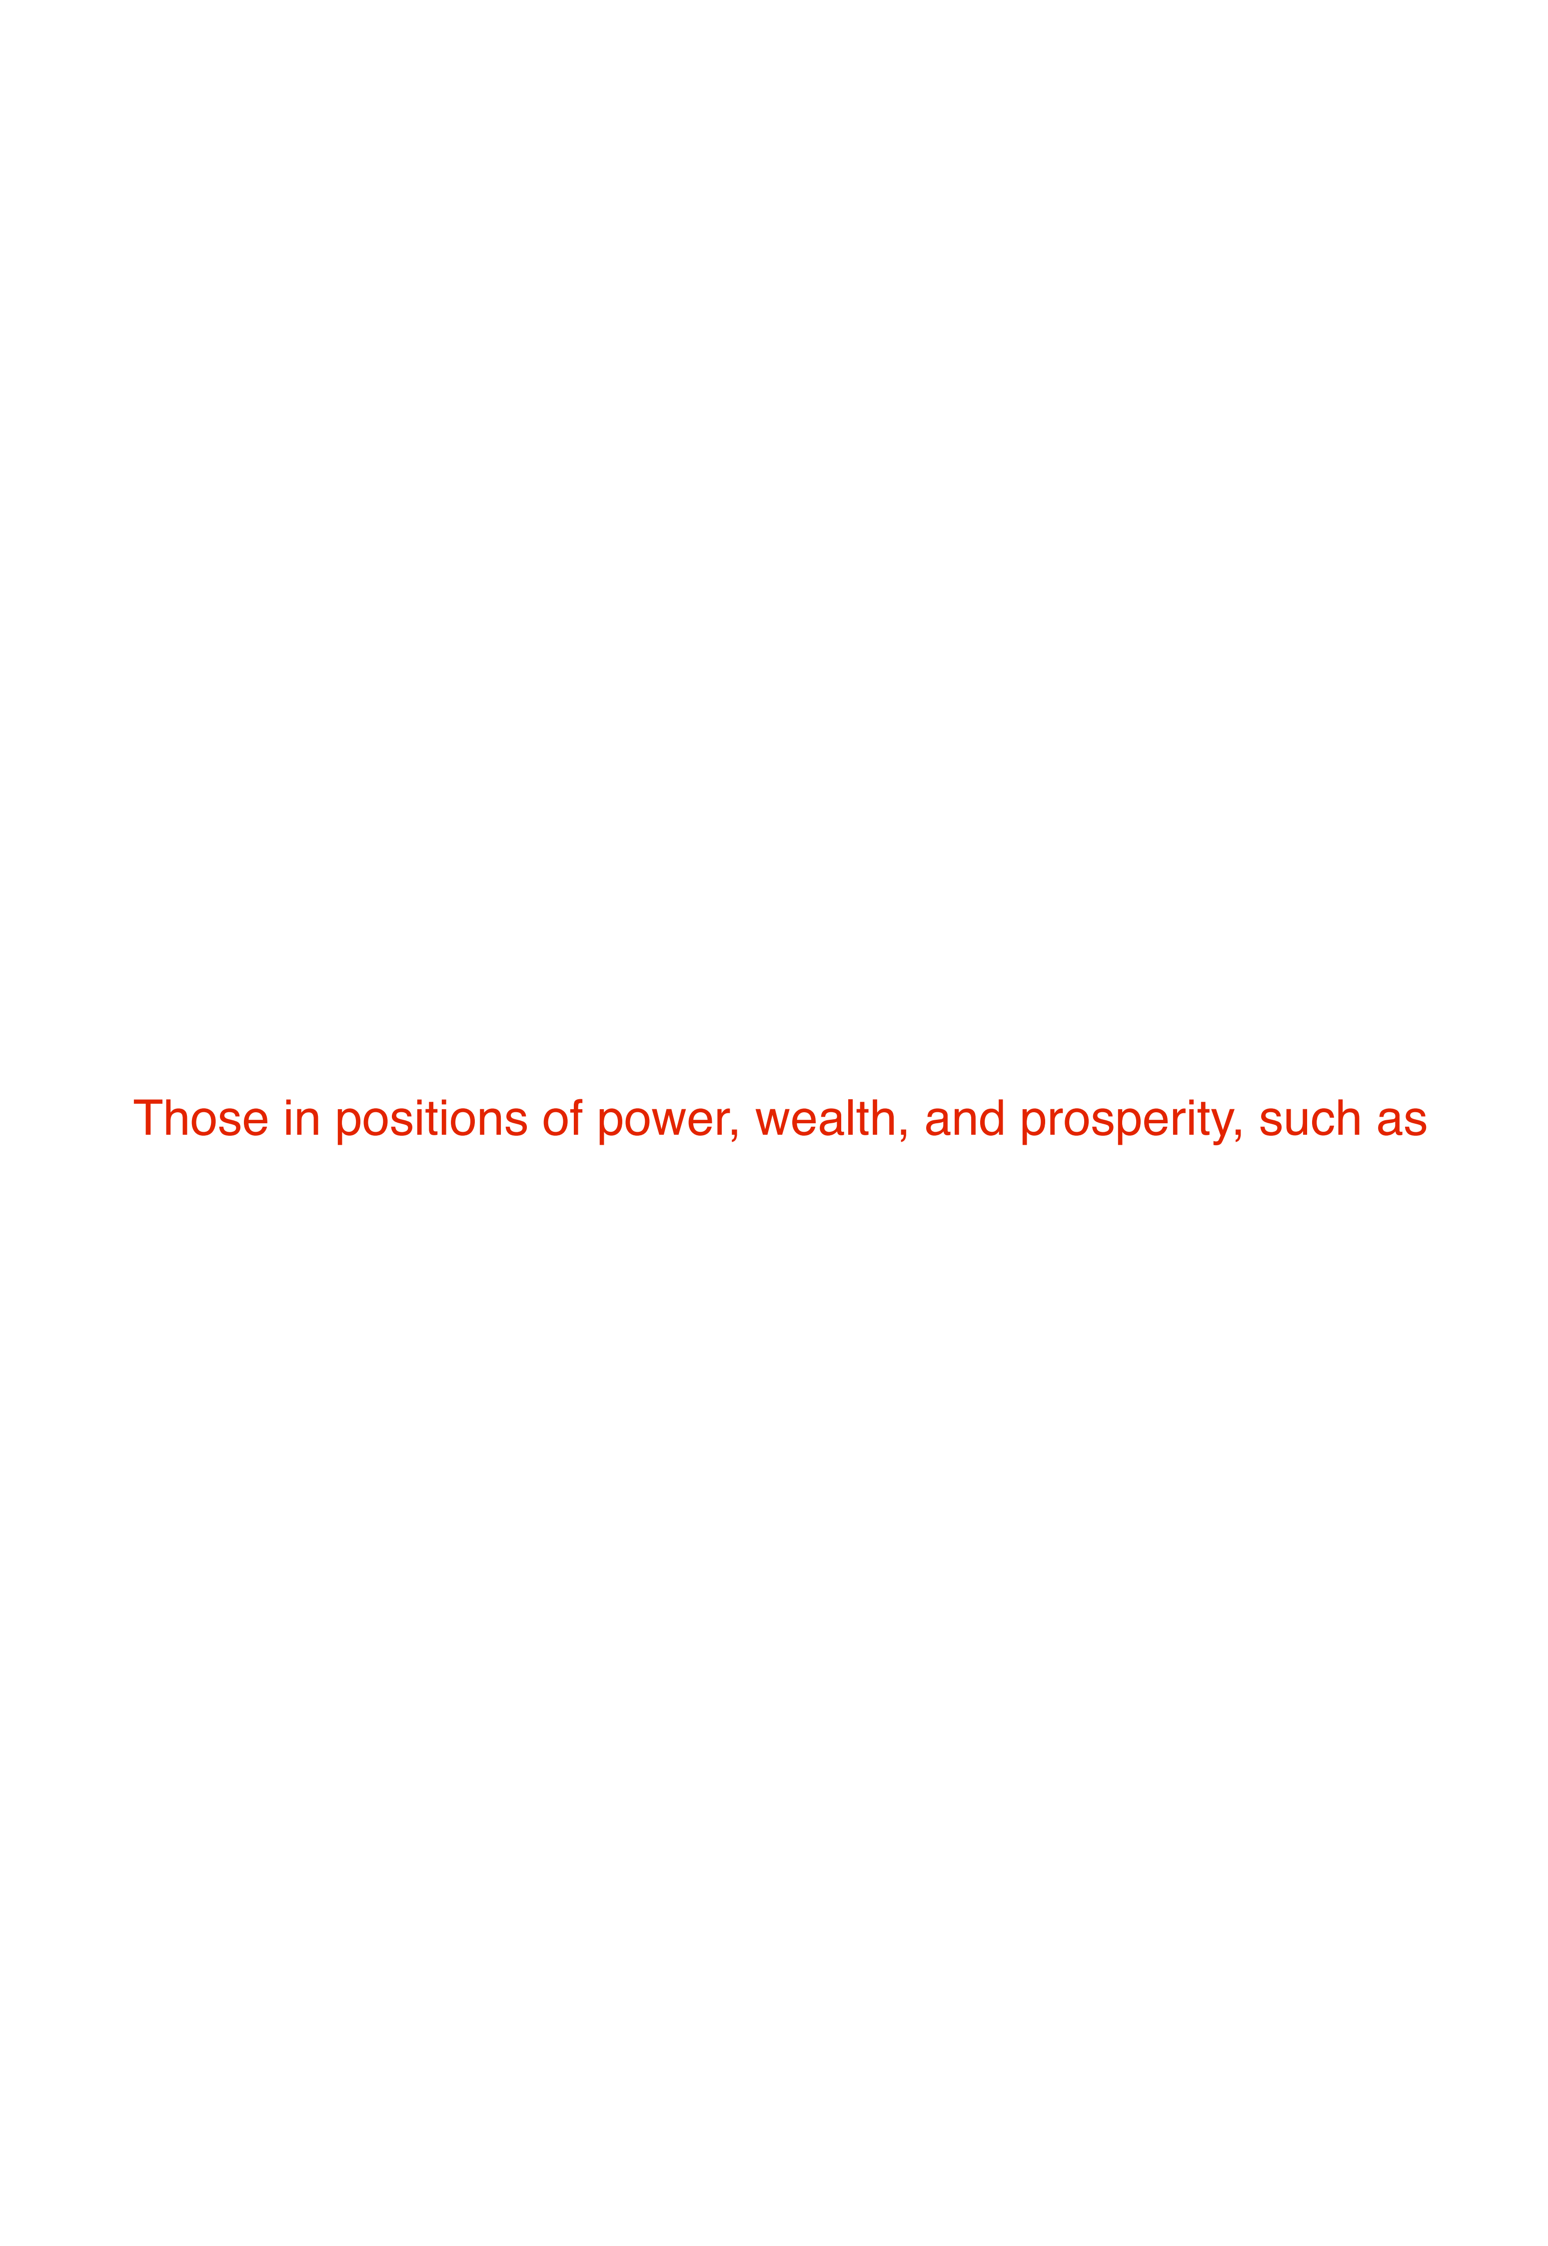

recognising and addressing the needs of participants

appropriately, the NDIS can ensure that resources are

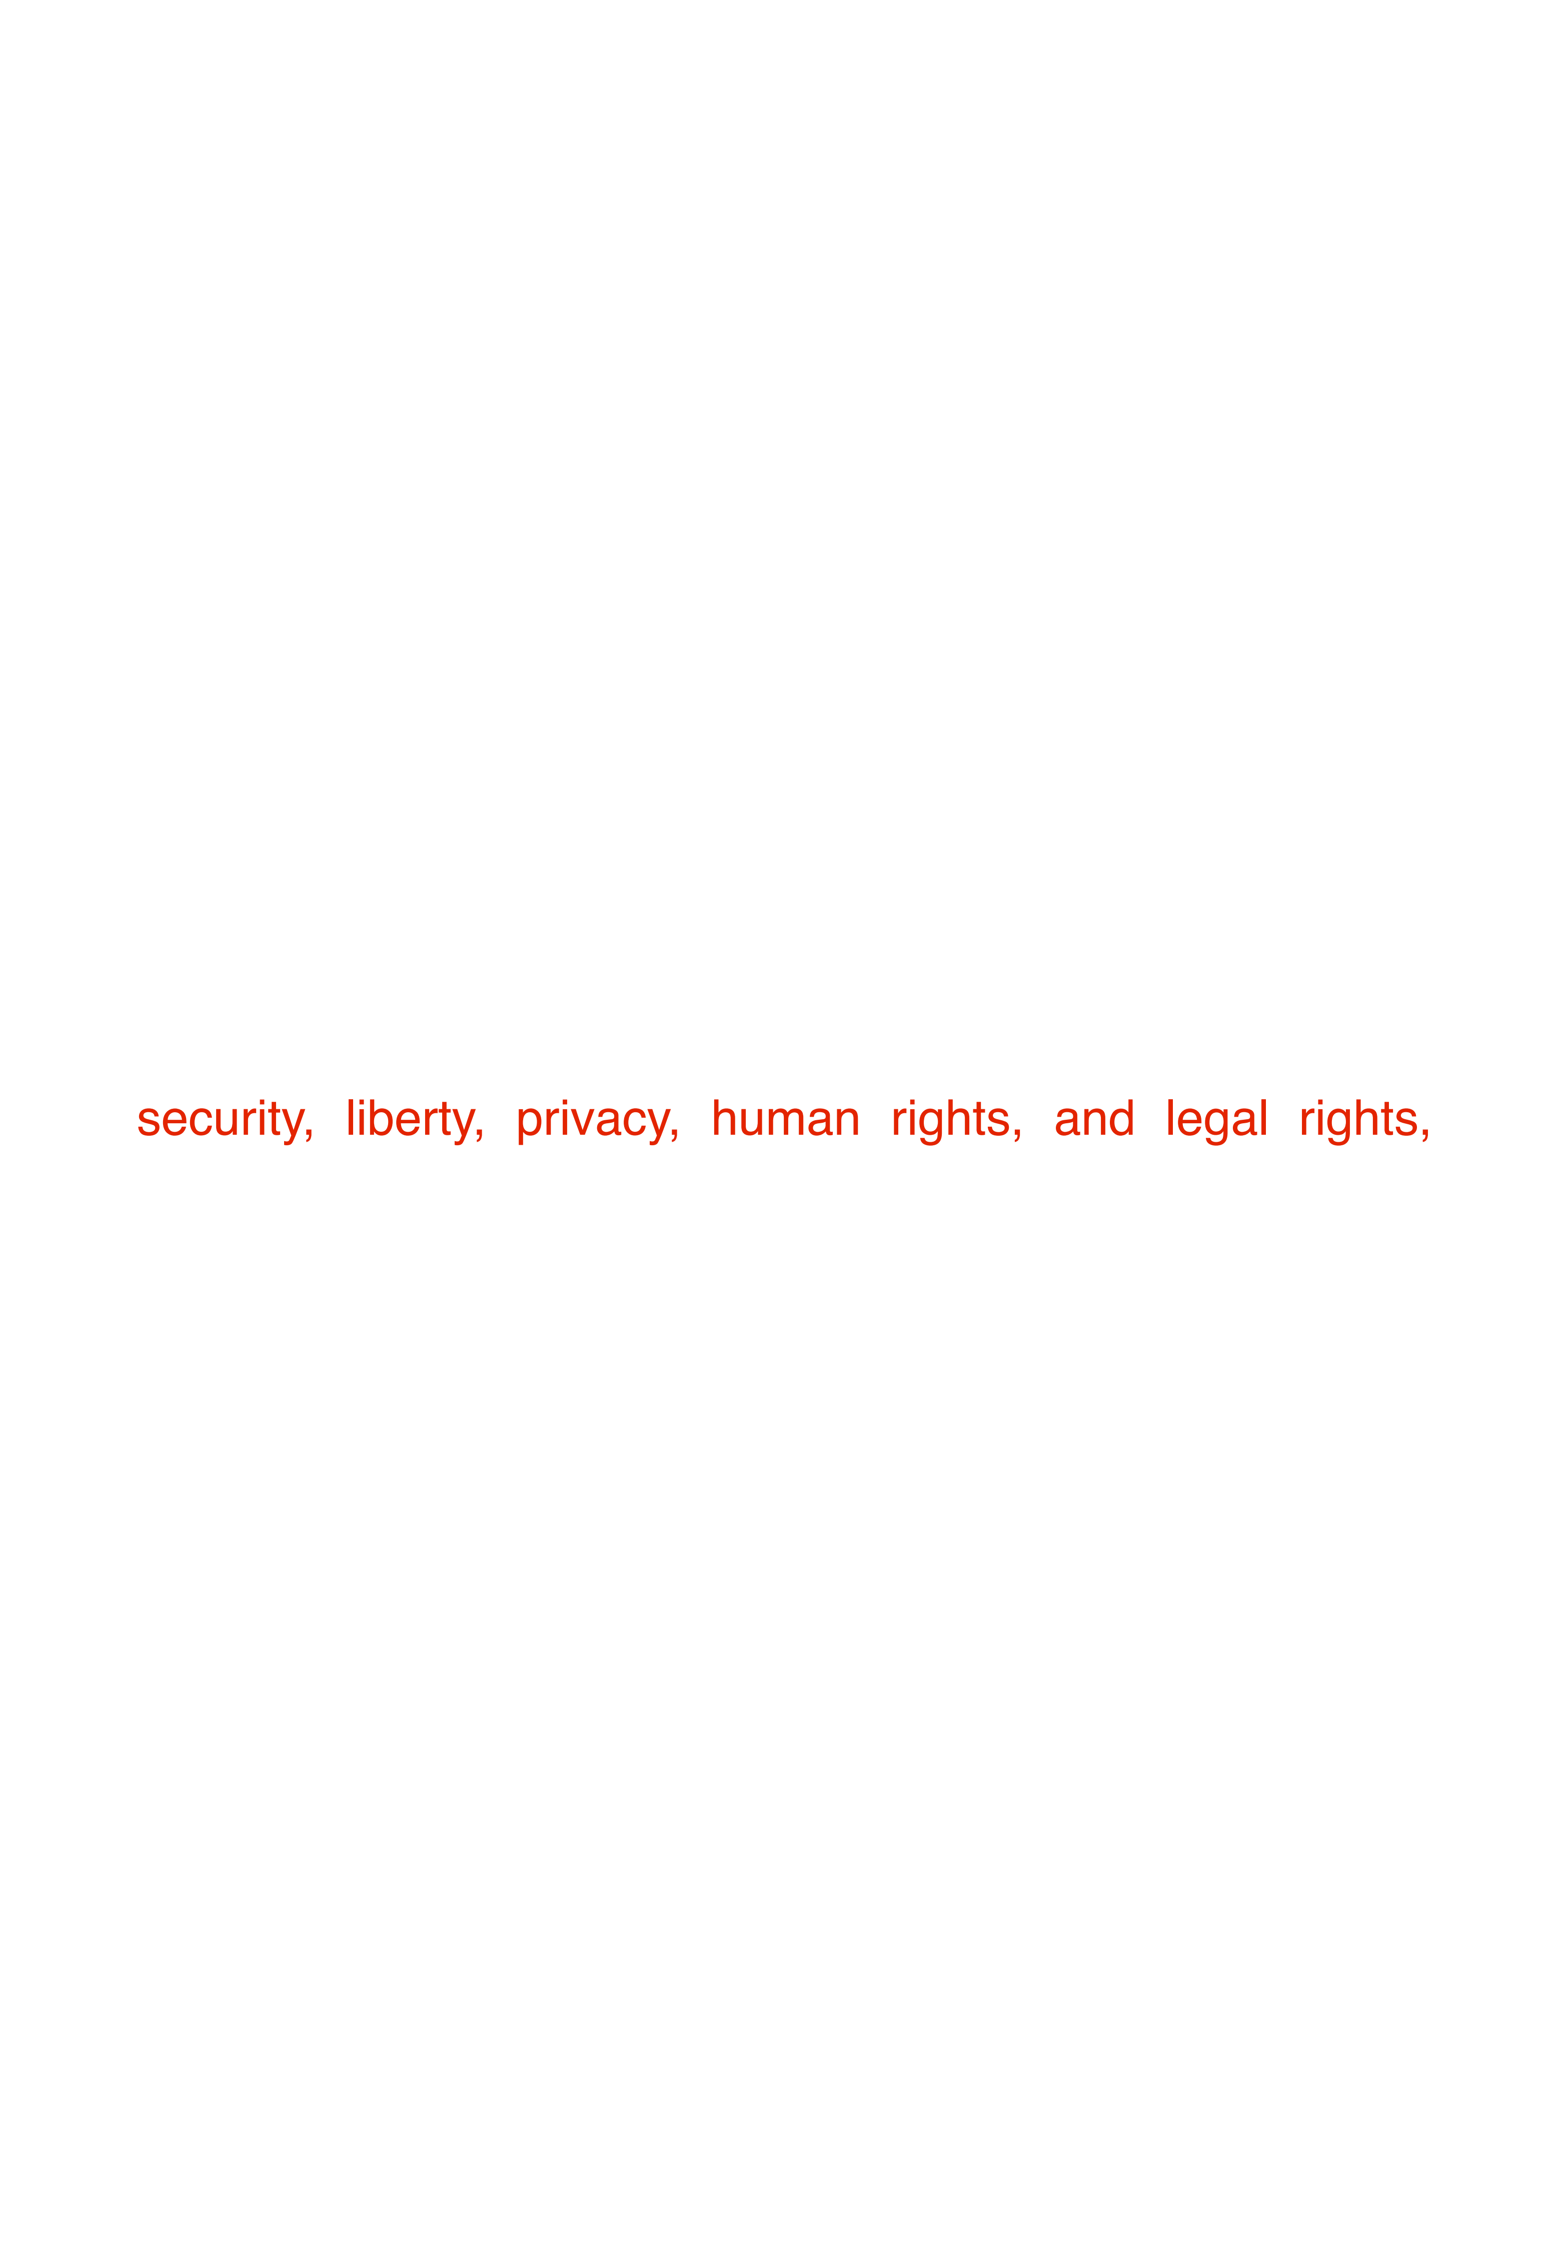

allocated efficiently and effectively, benefiting both the

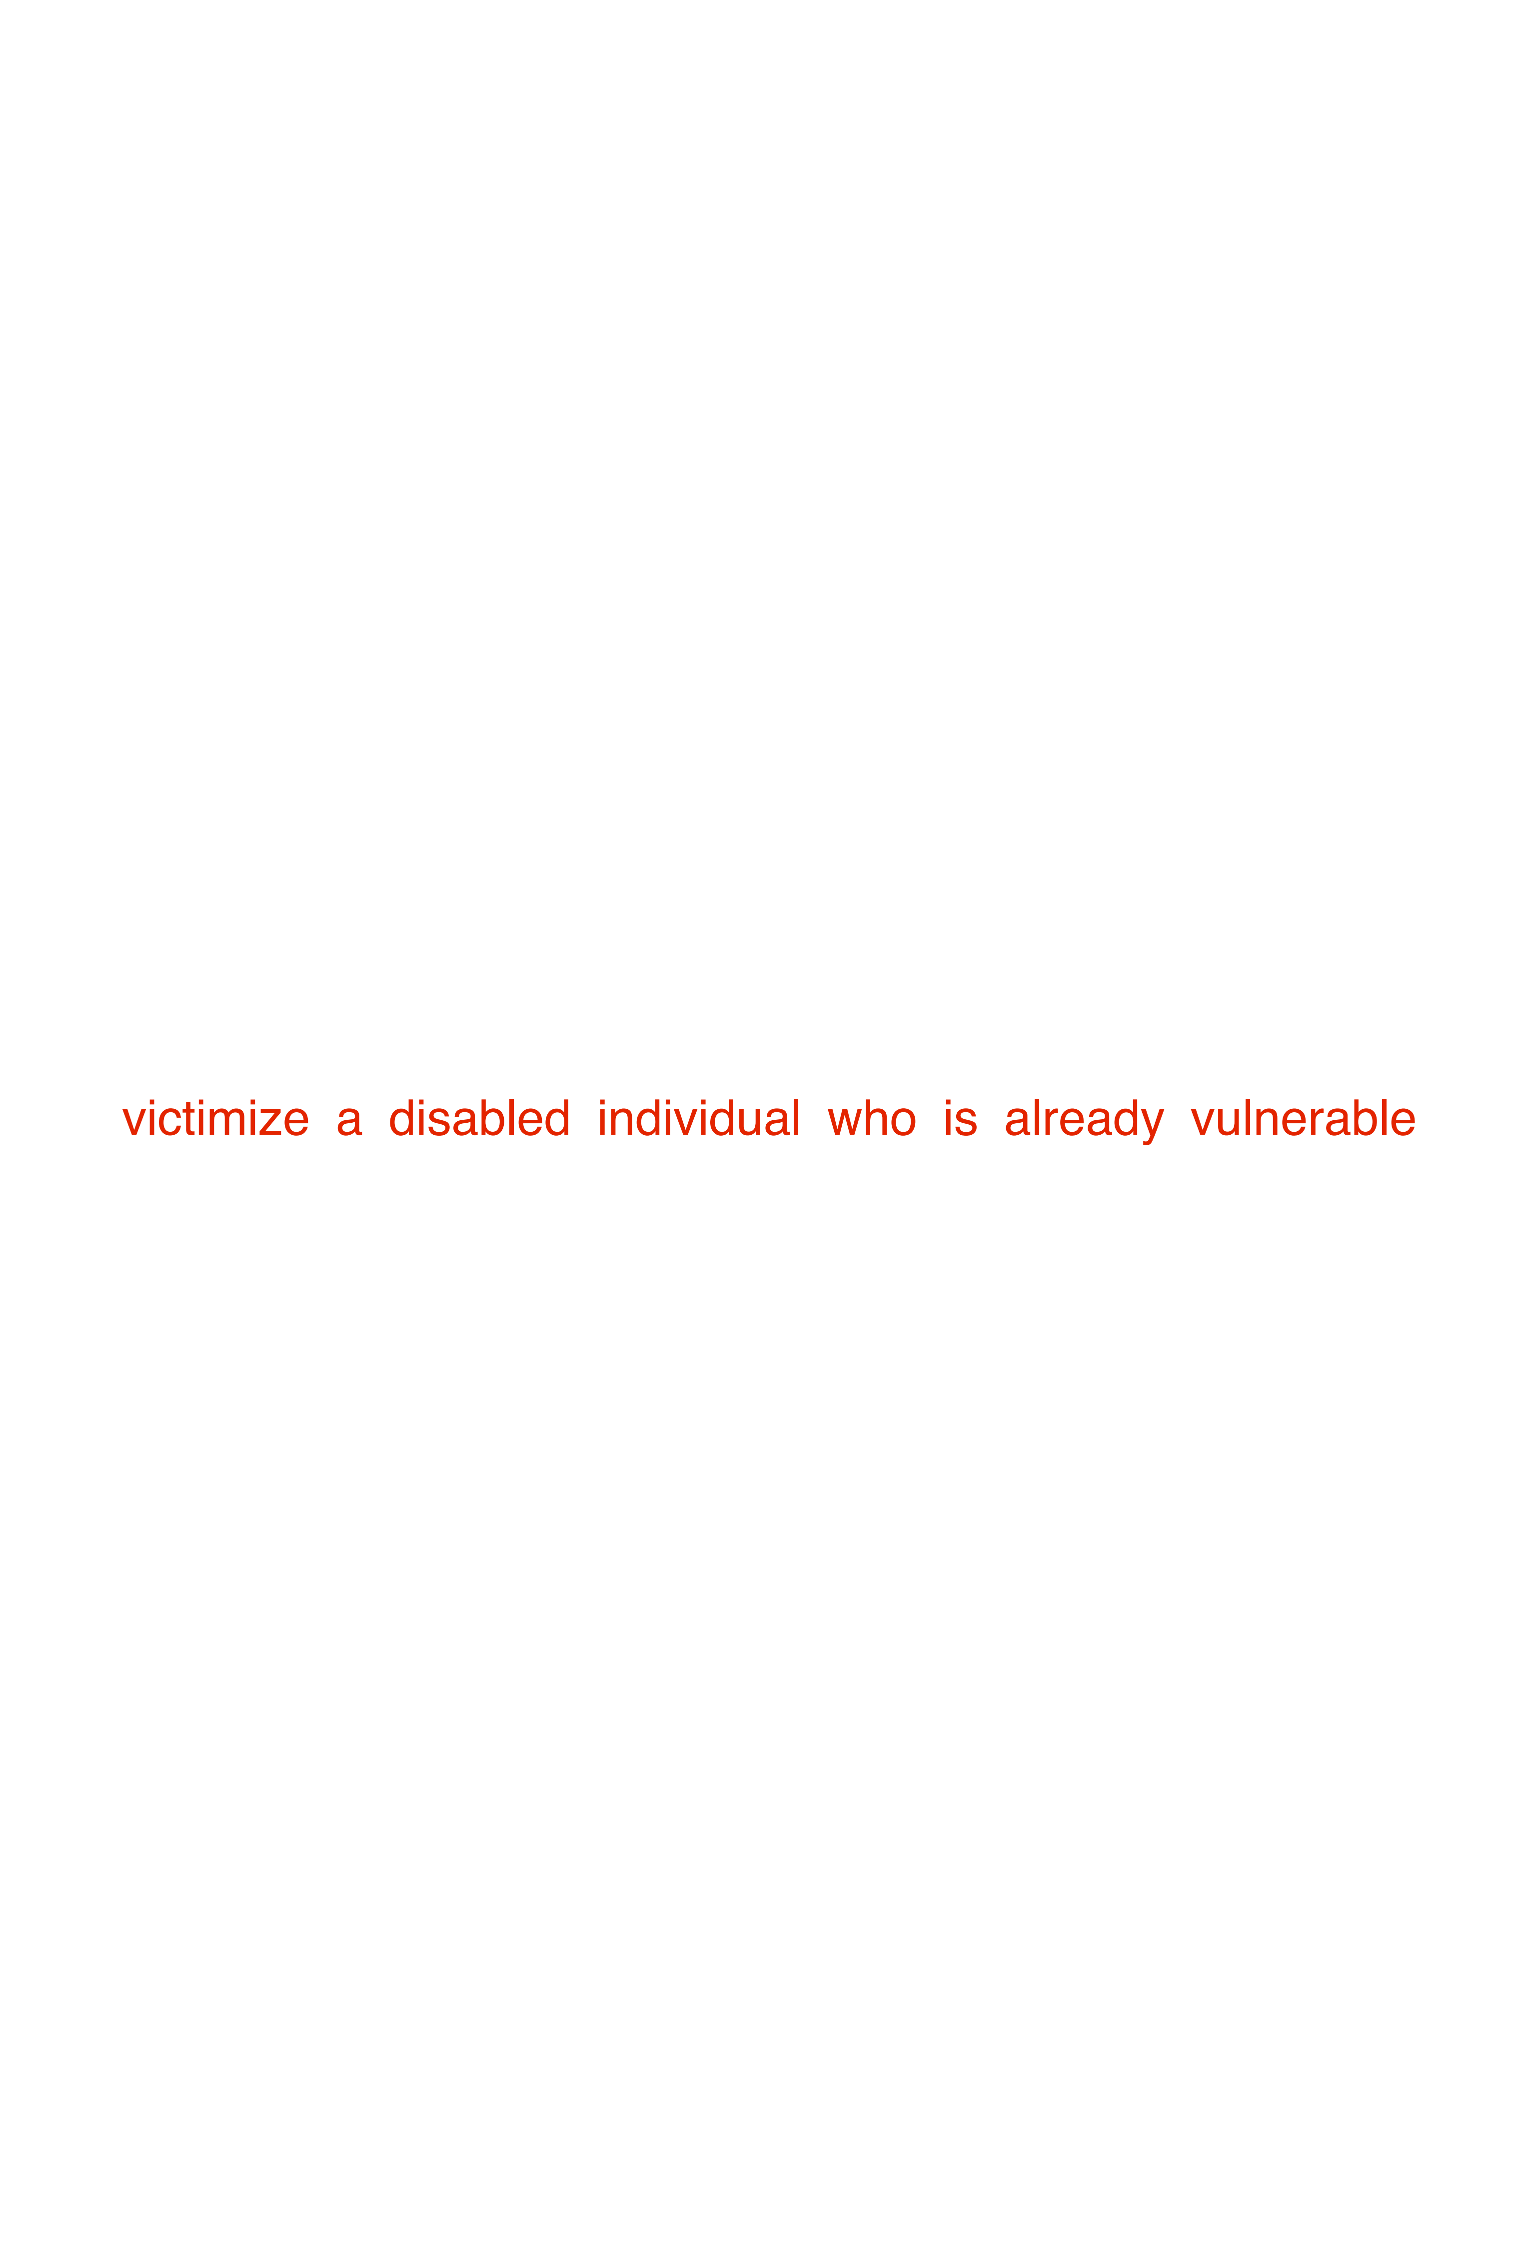

individual and the broader community.

Those in positions of power, wealth, and prosperity, such as

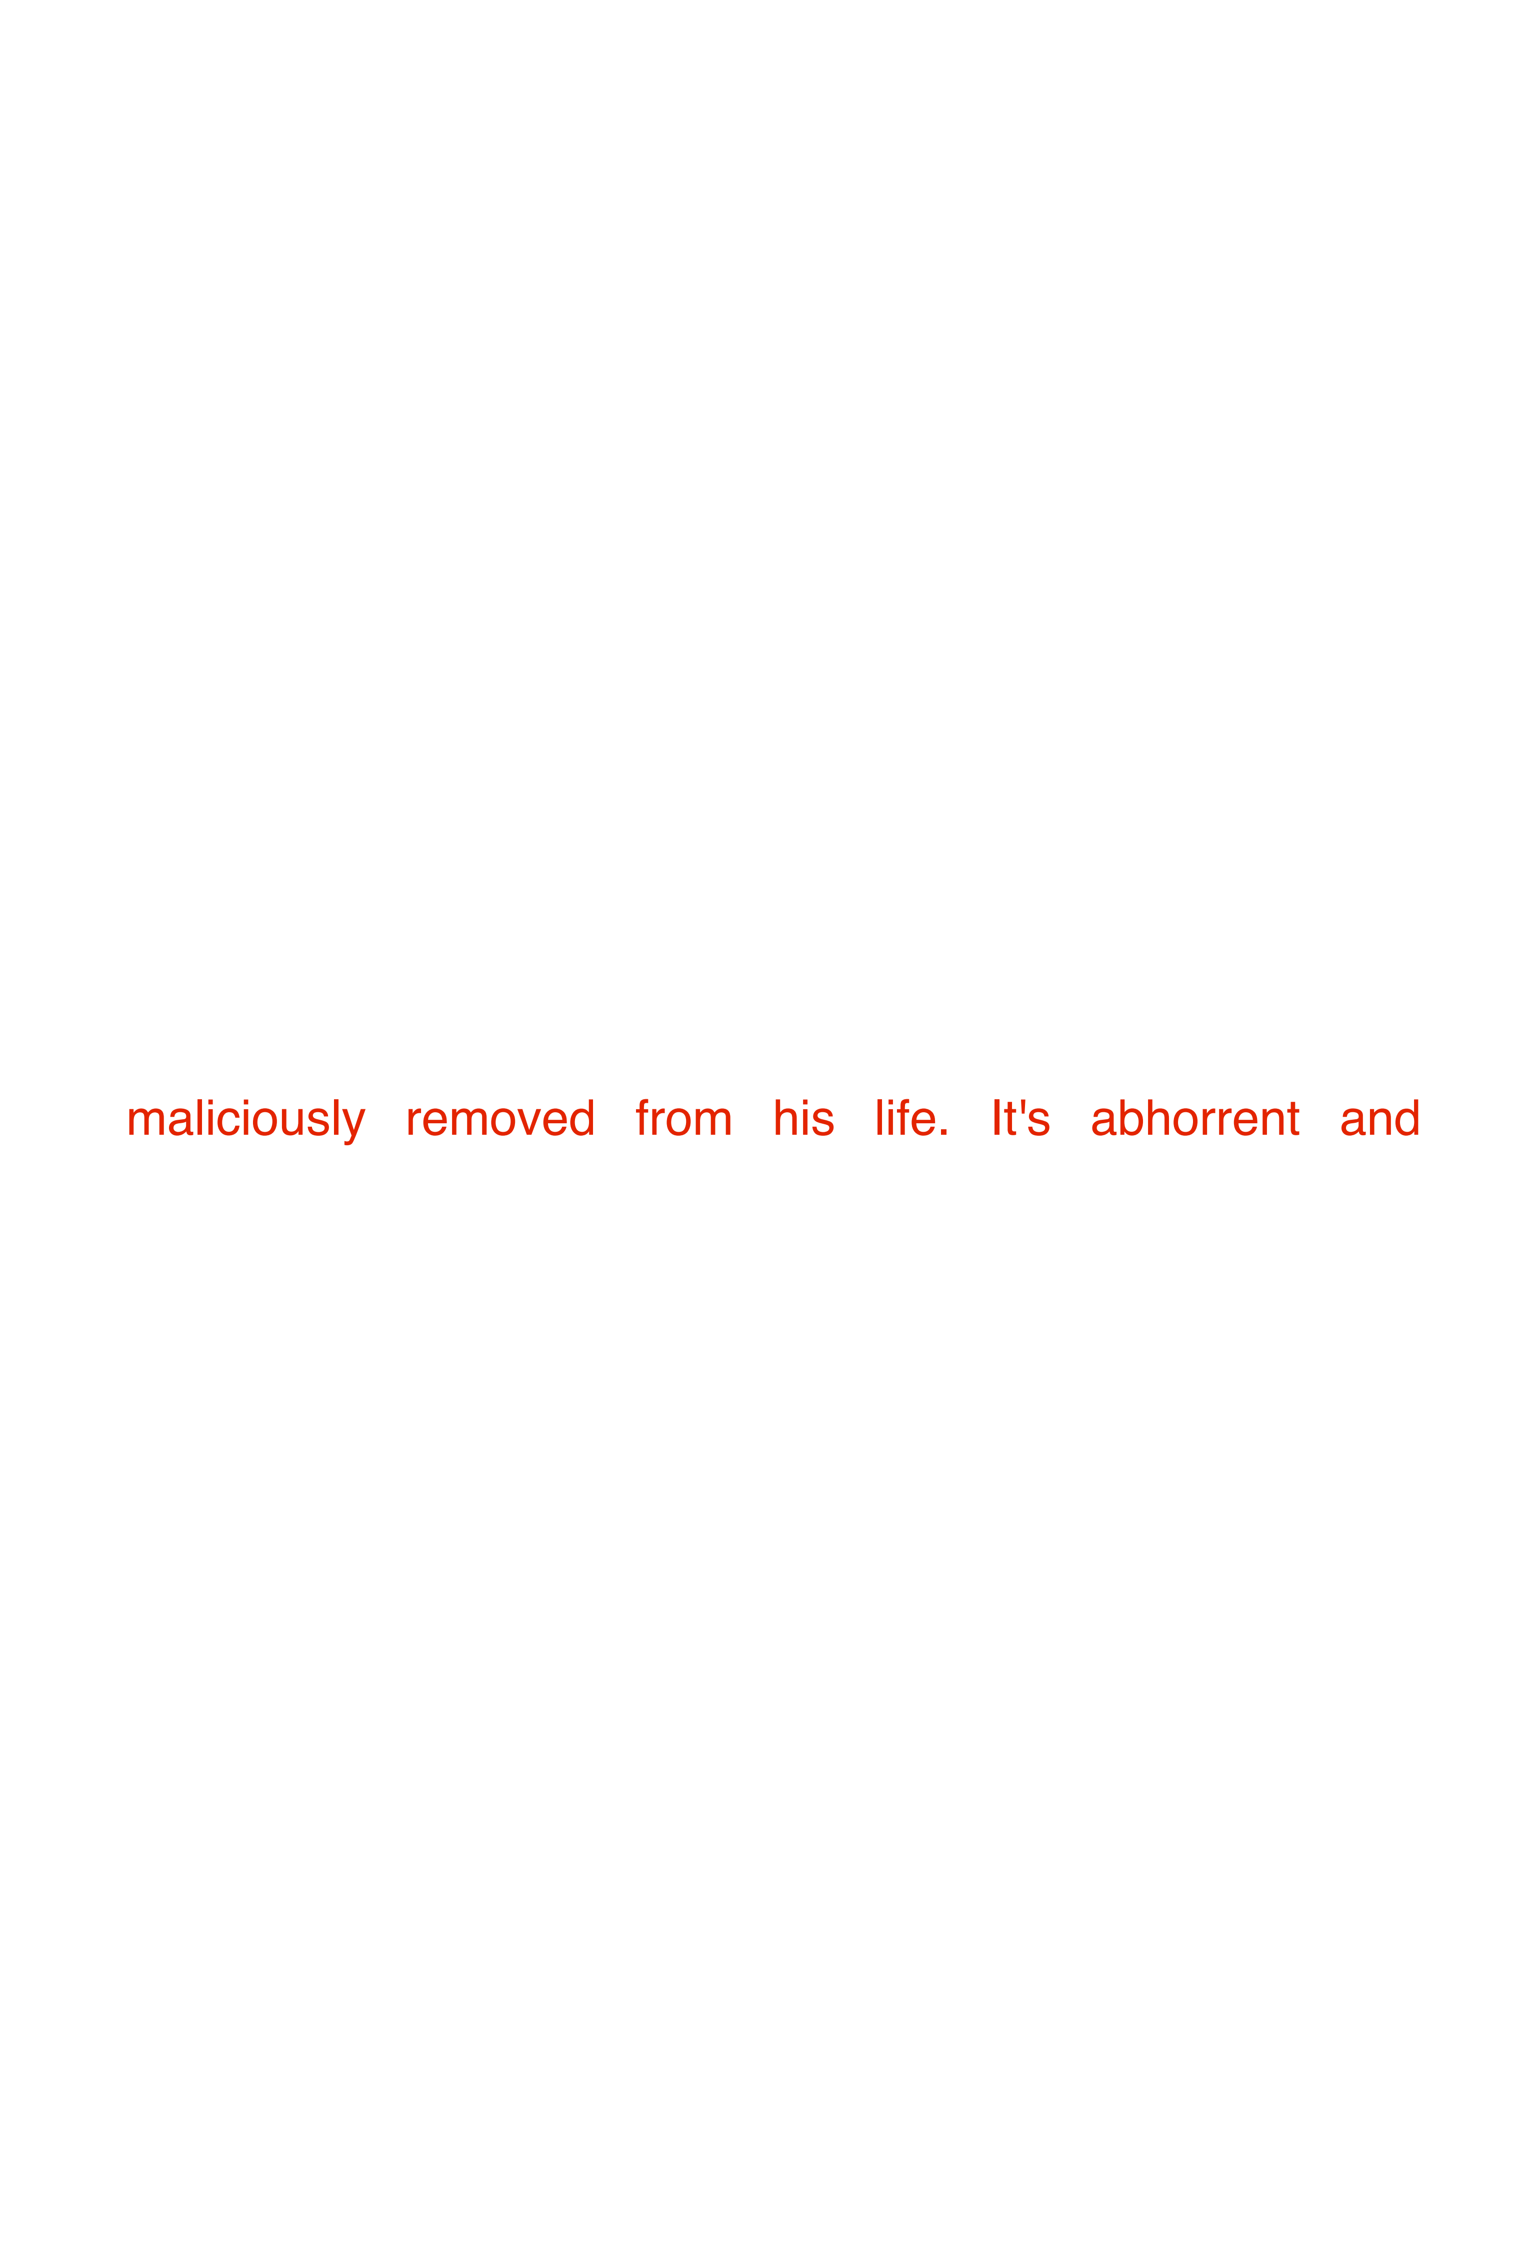

Kel Graham CEO and Minister who also possess safety,

security, liberty, privacy, human rights, and legal rights,

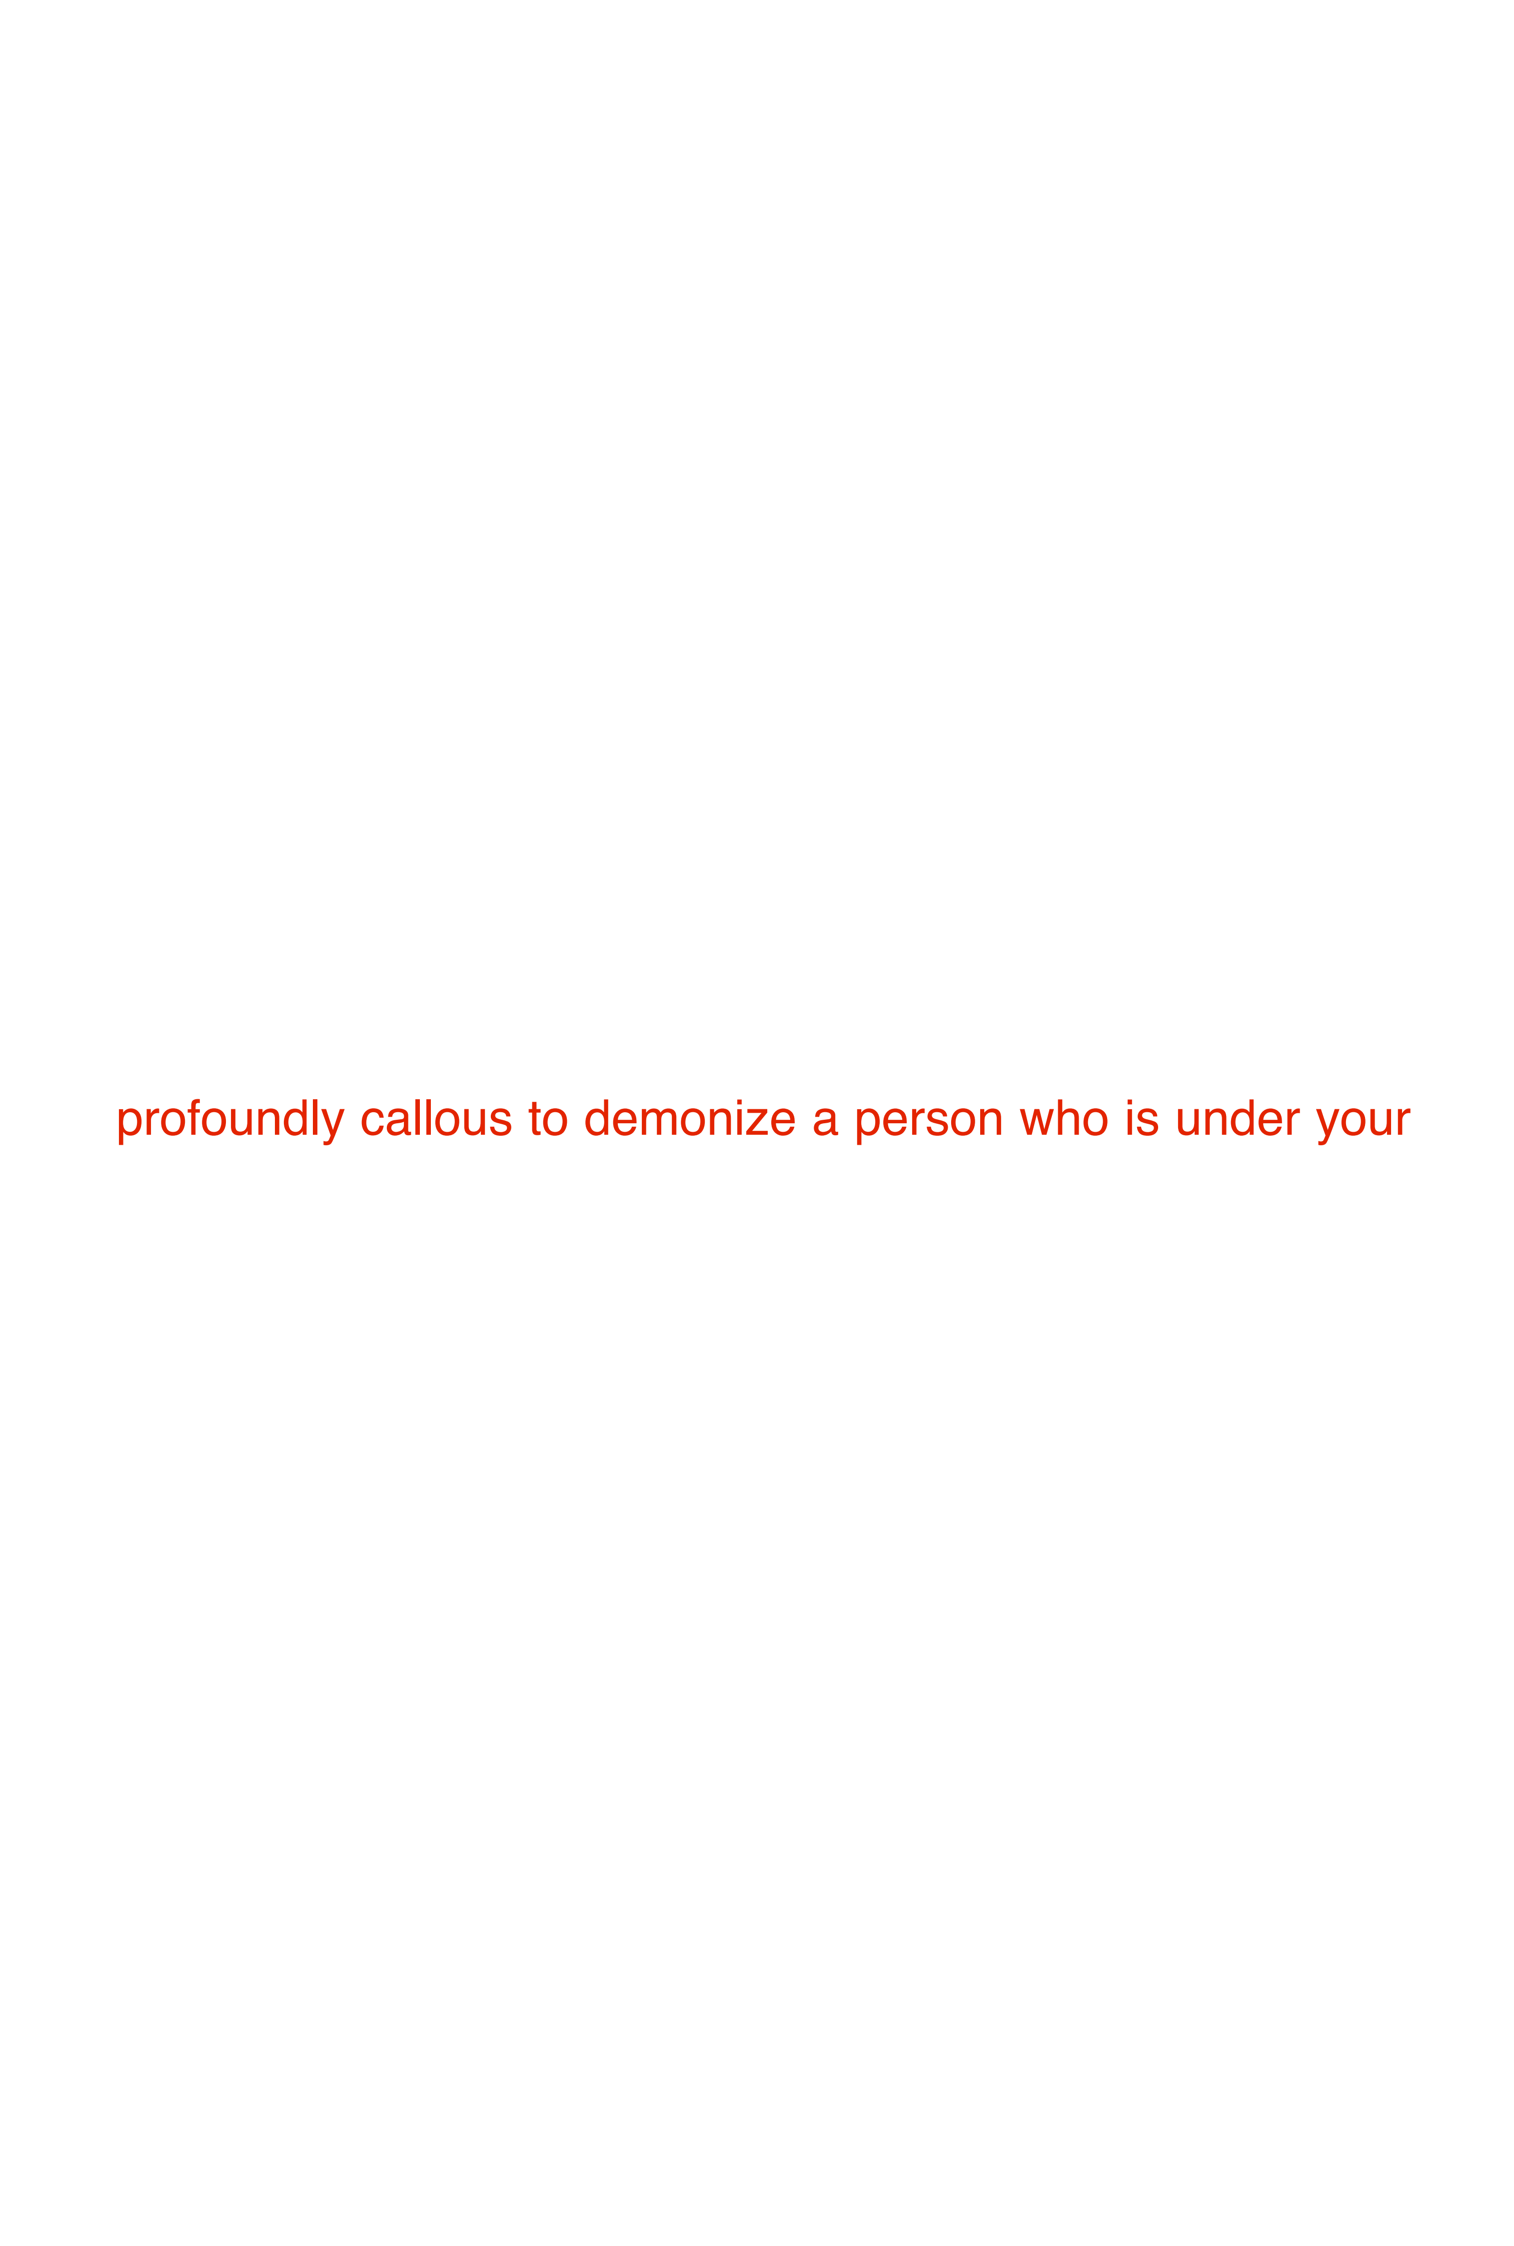

should never, ever utilize their privileged position to

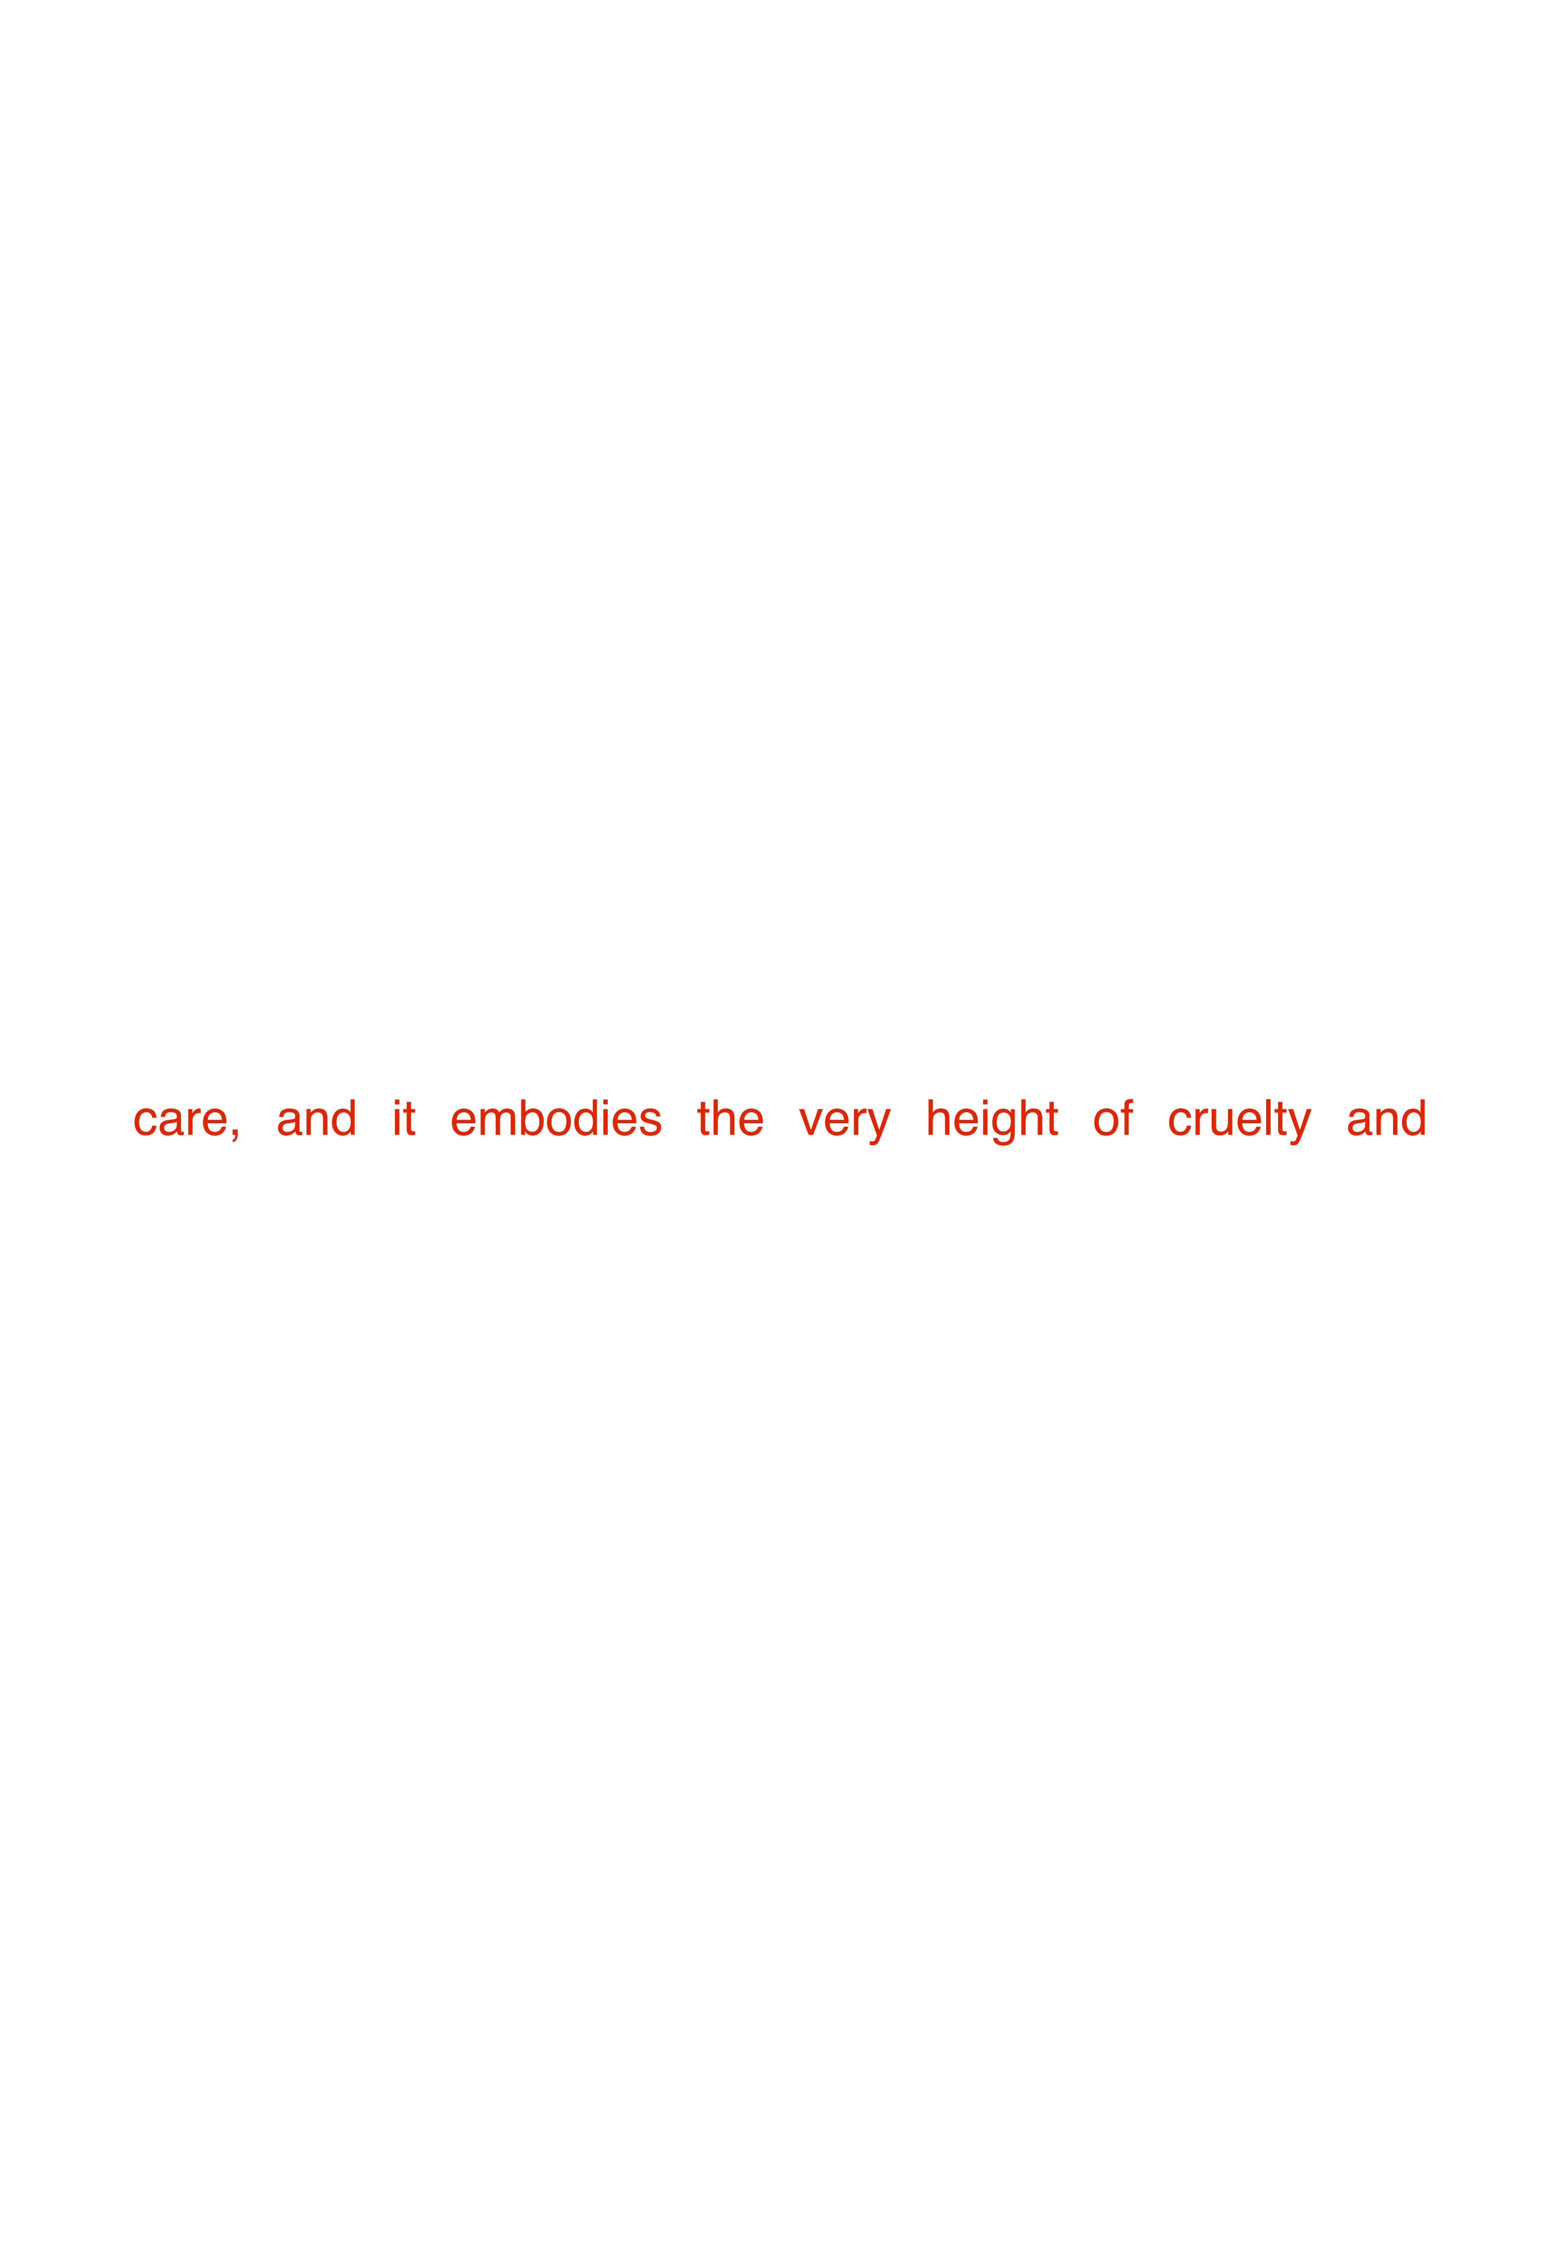

victimize a disabled individual who is already vulnerable

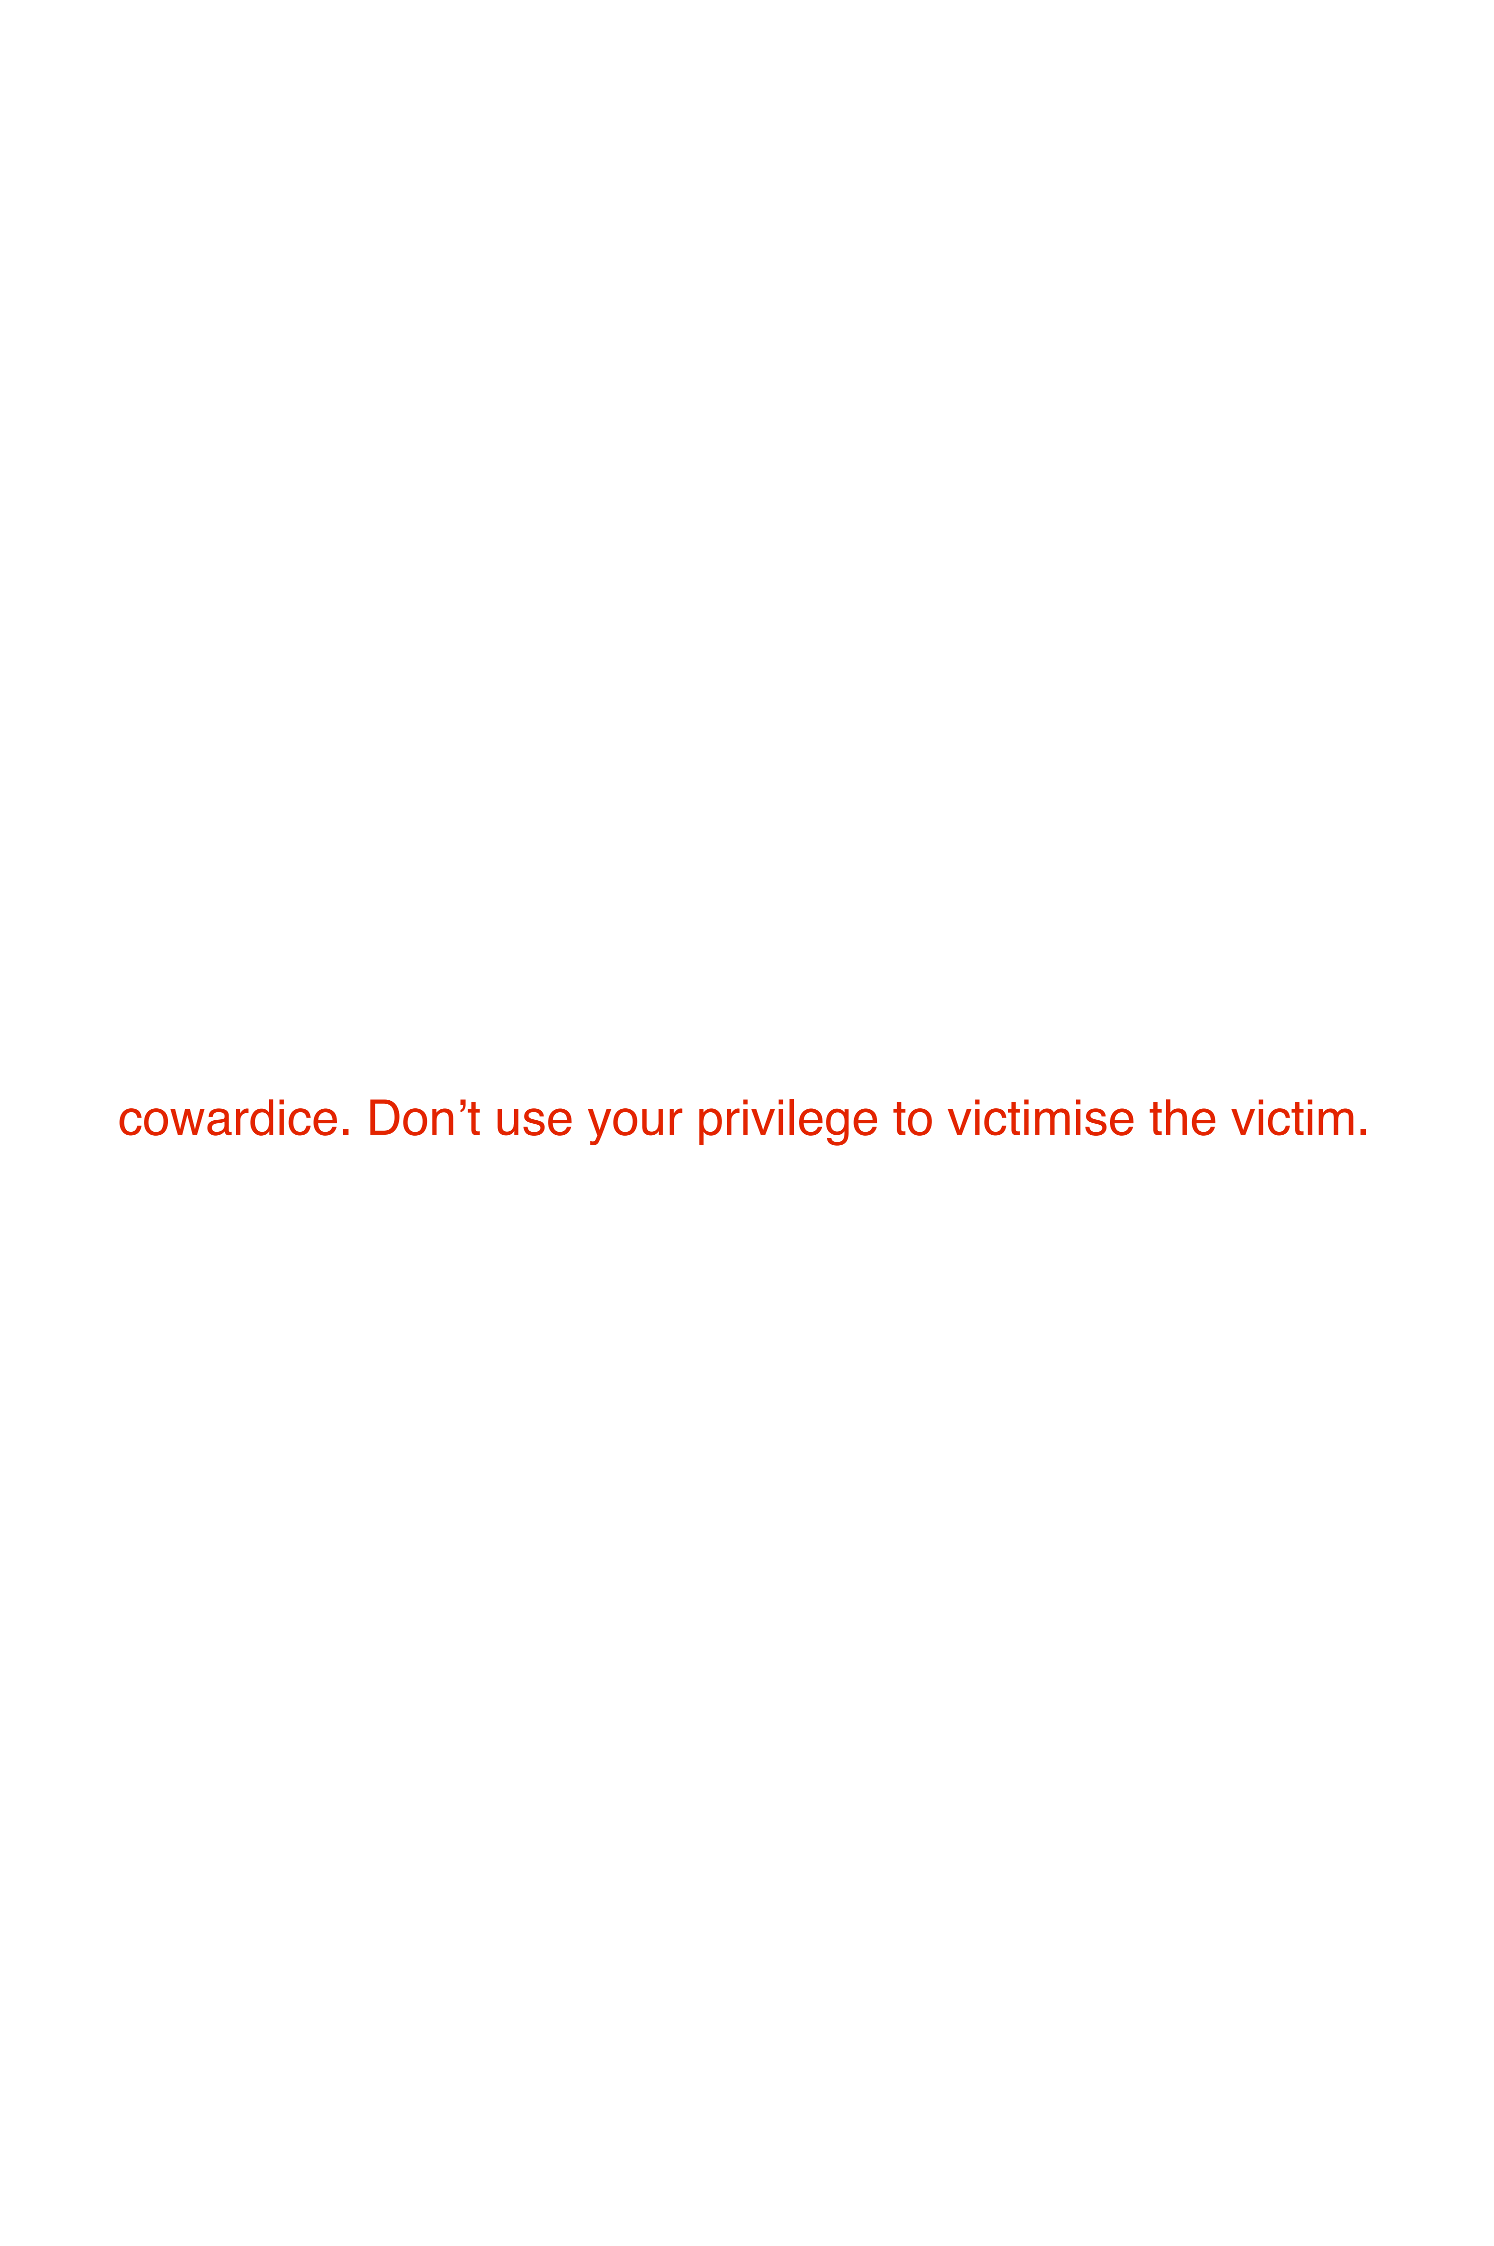

and has had all those attributes intentionally and

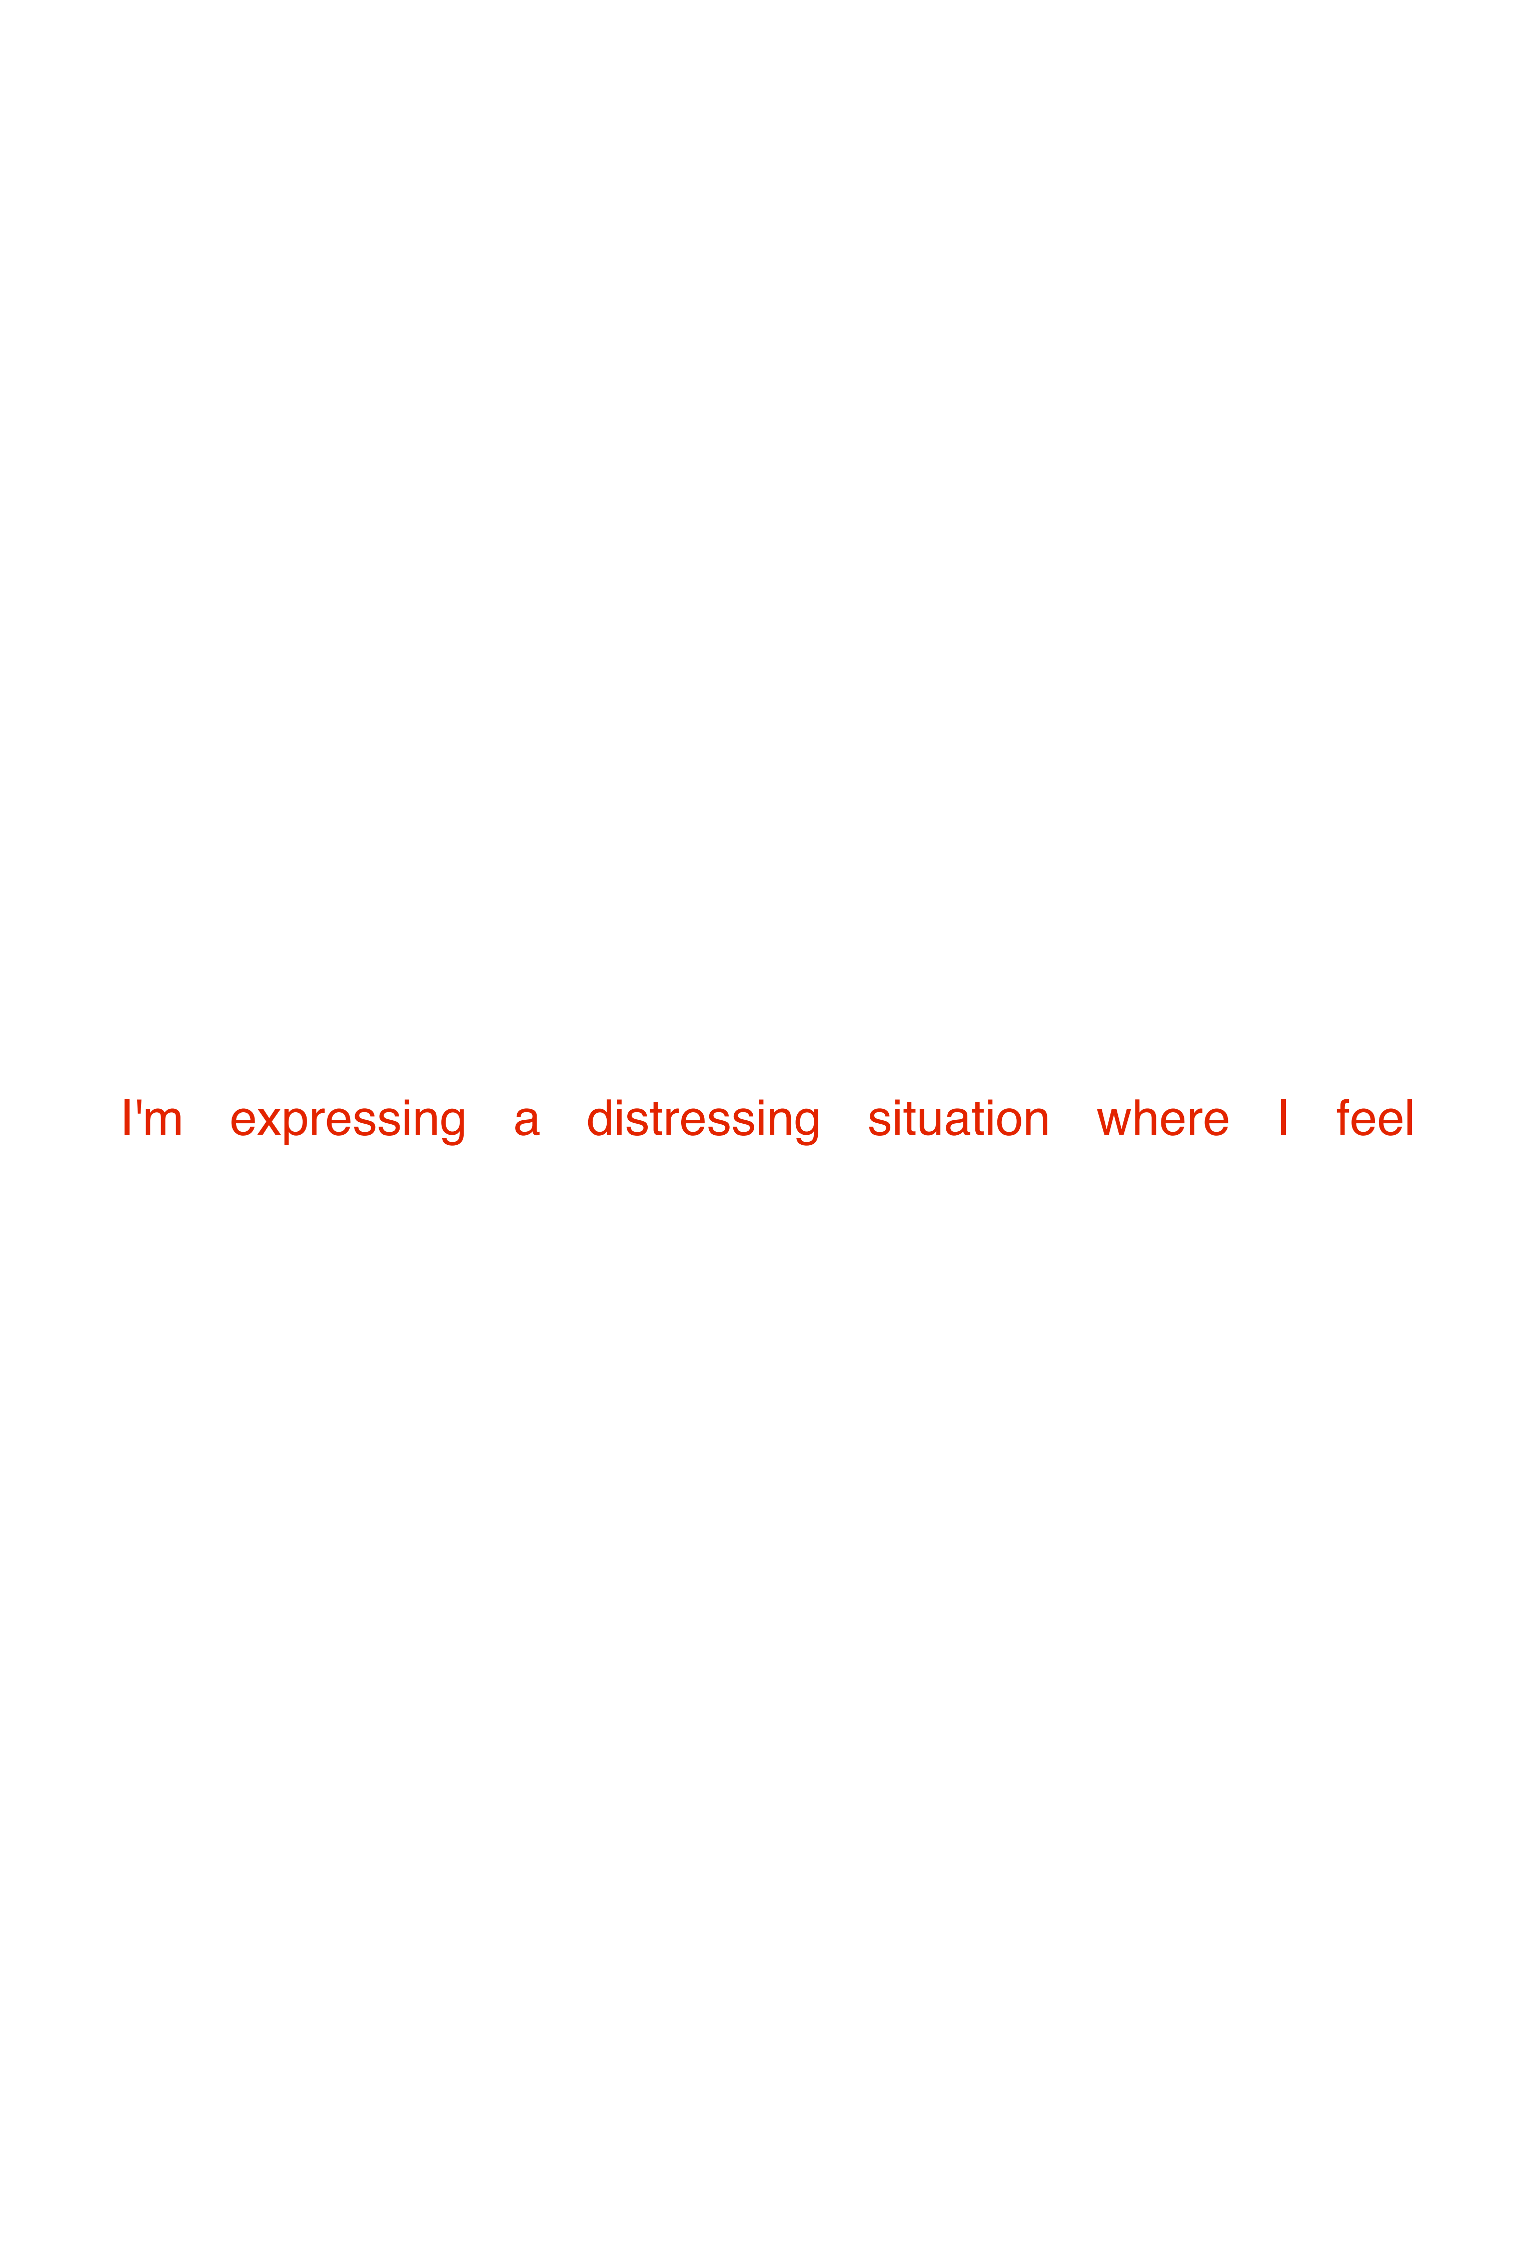

maliciously removed from his life. It's abhorrent and

profoundly callous to demonize a person who is under your

care, and it embodies the very height of cruelty and

cowardice. Don’t use your privilege to victimise the victim.

I'm expressing a distressing situation where I feel

mistreated by public officials, particularly NDIS Minister

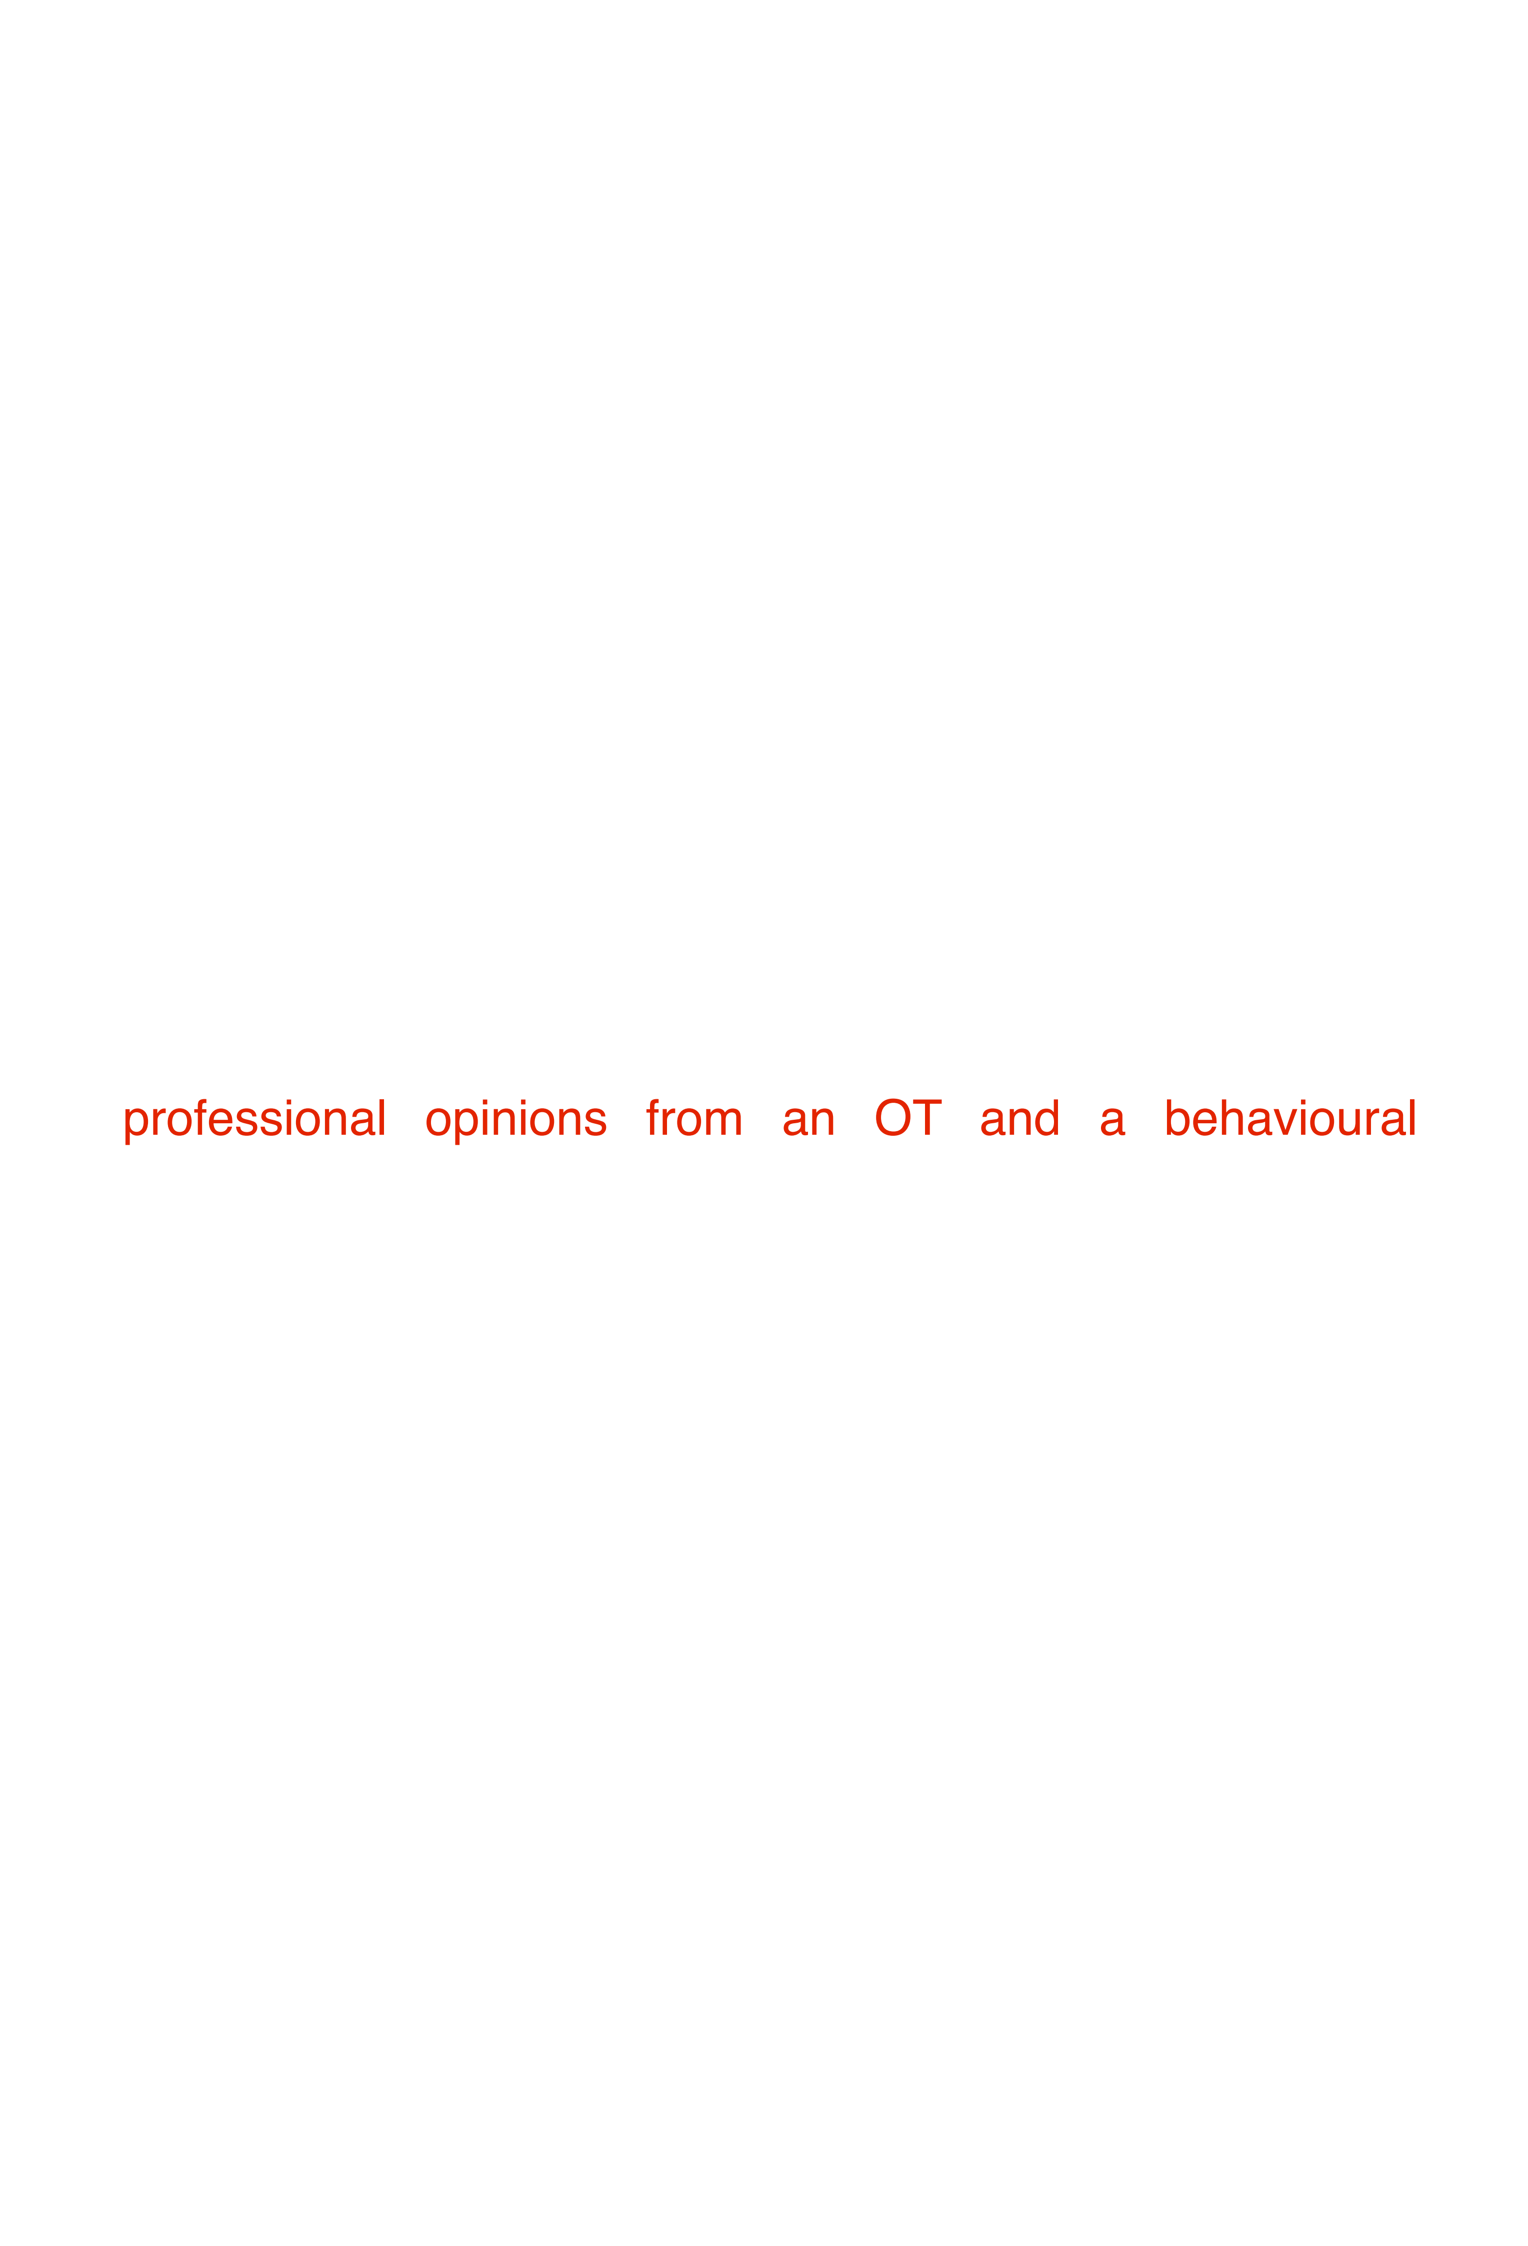

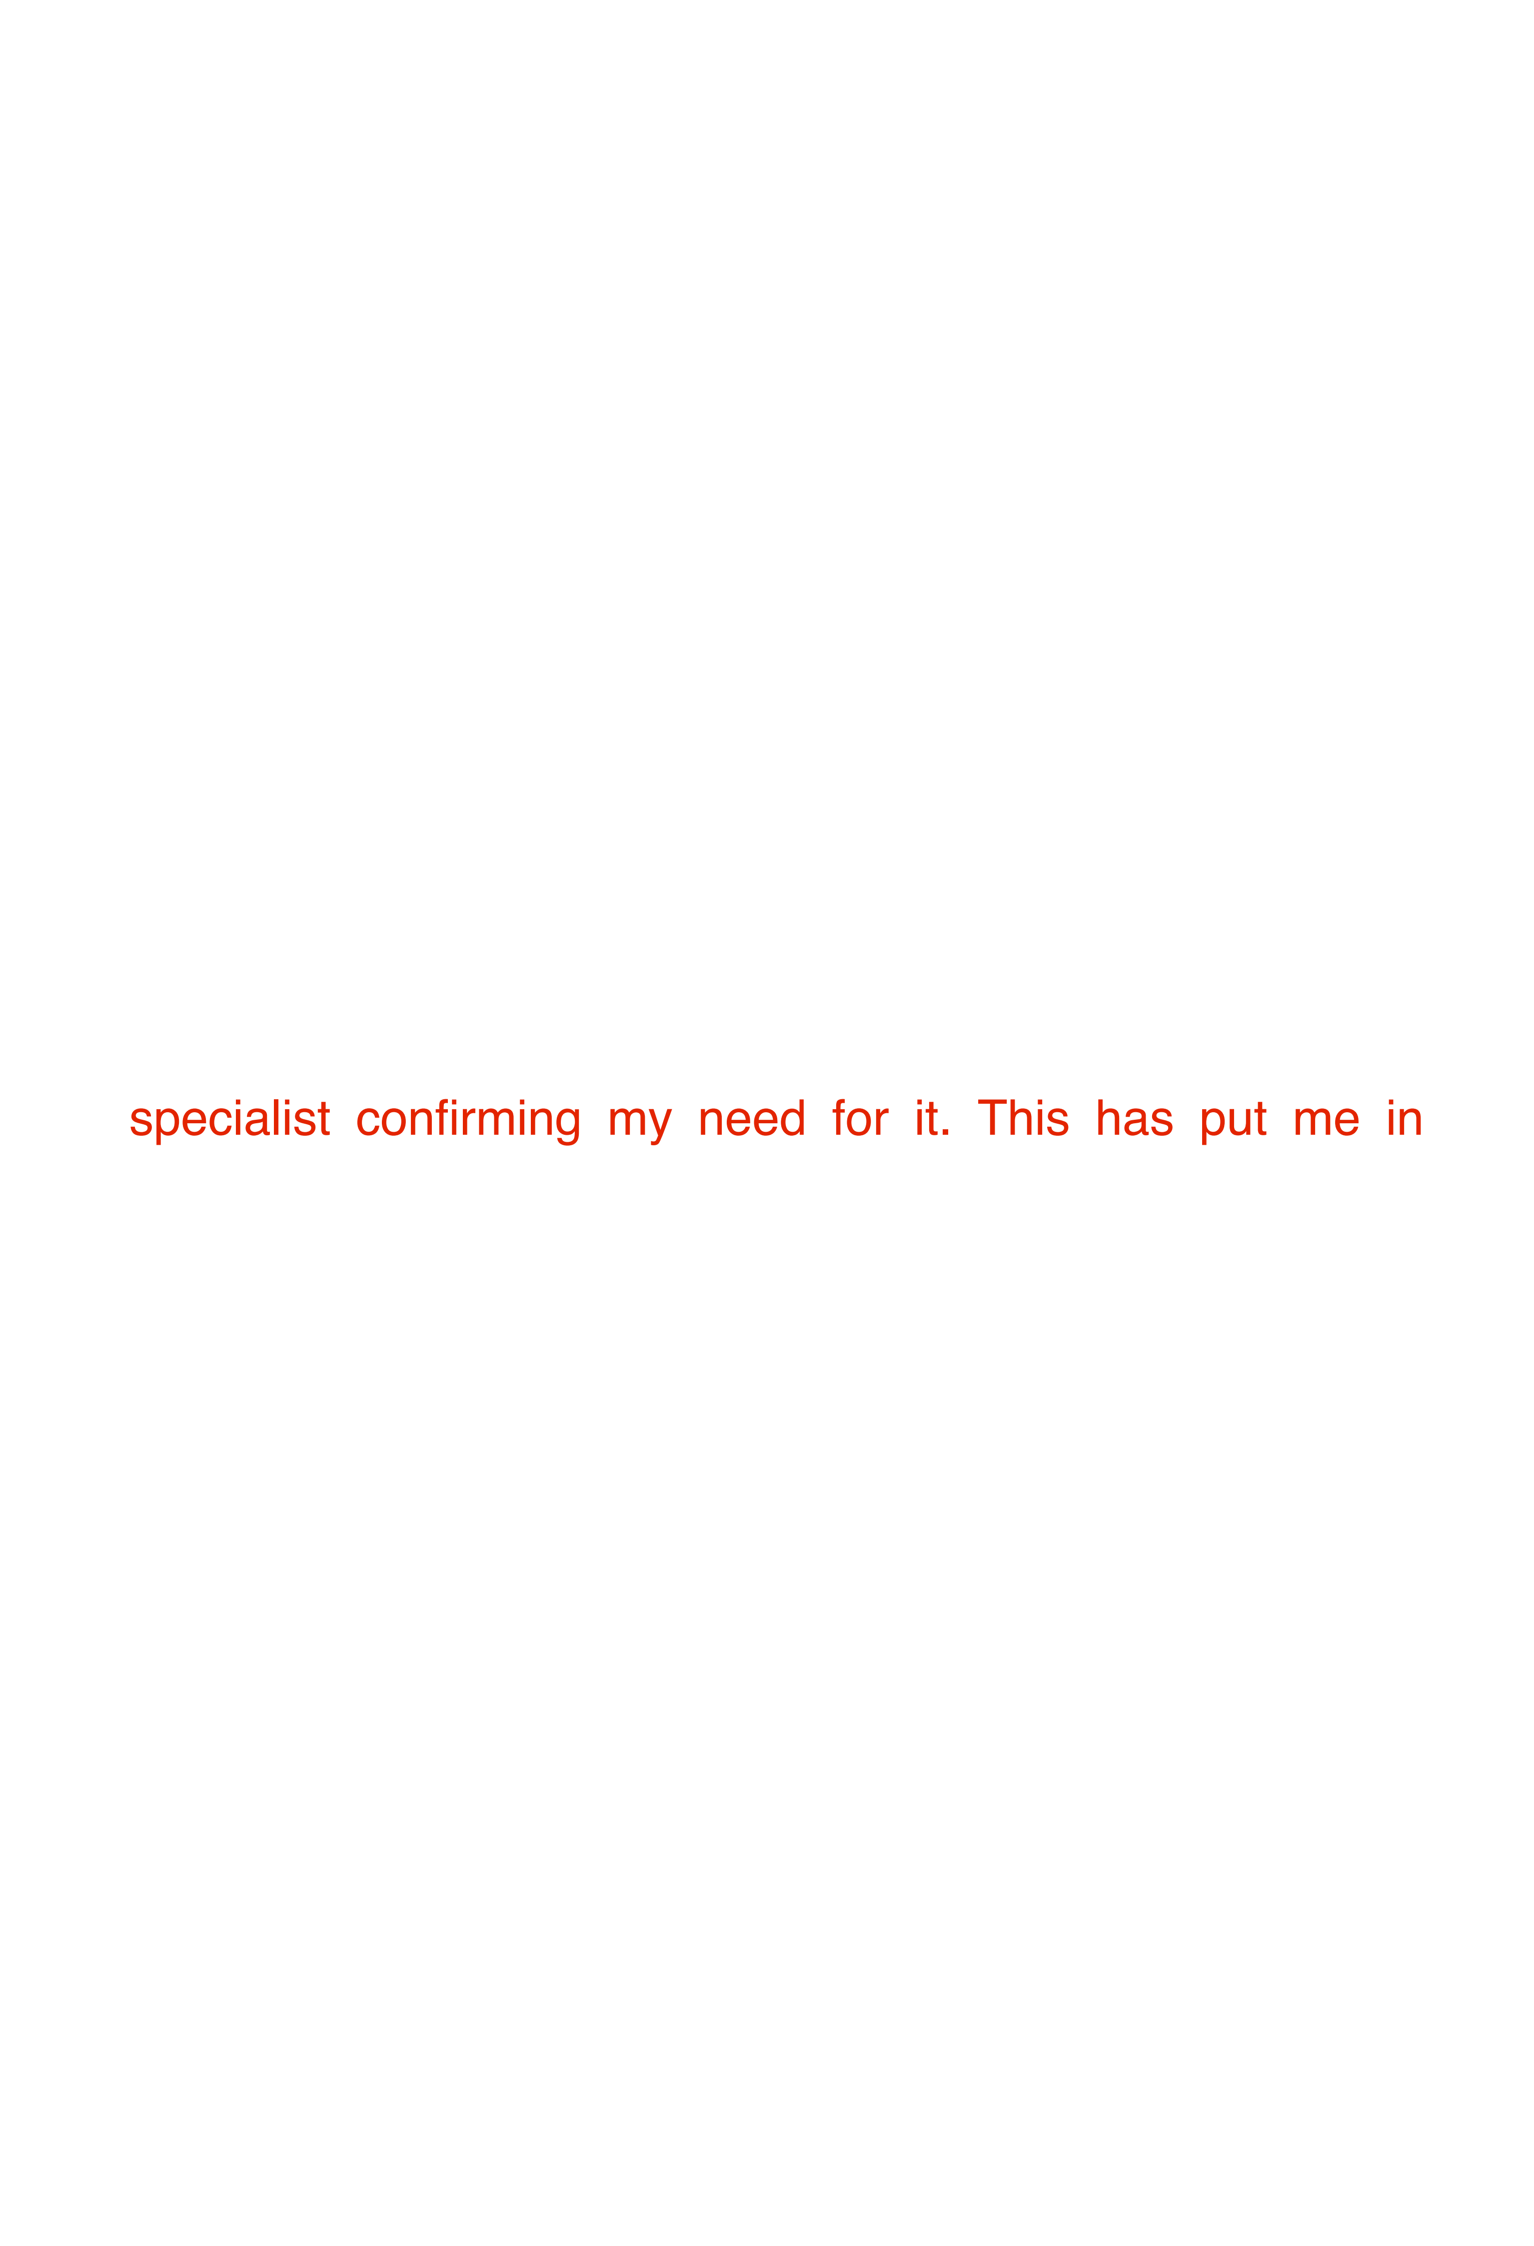

CEO and Kel Graham. Here's what I mean:

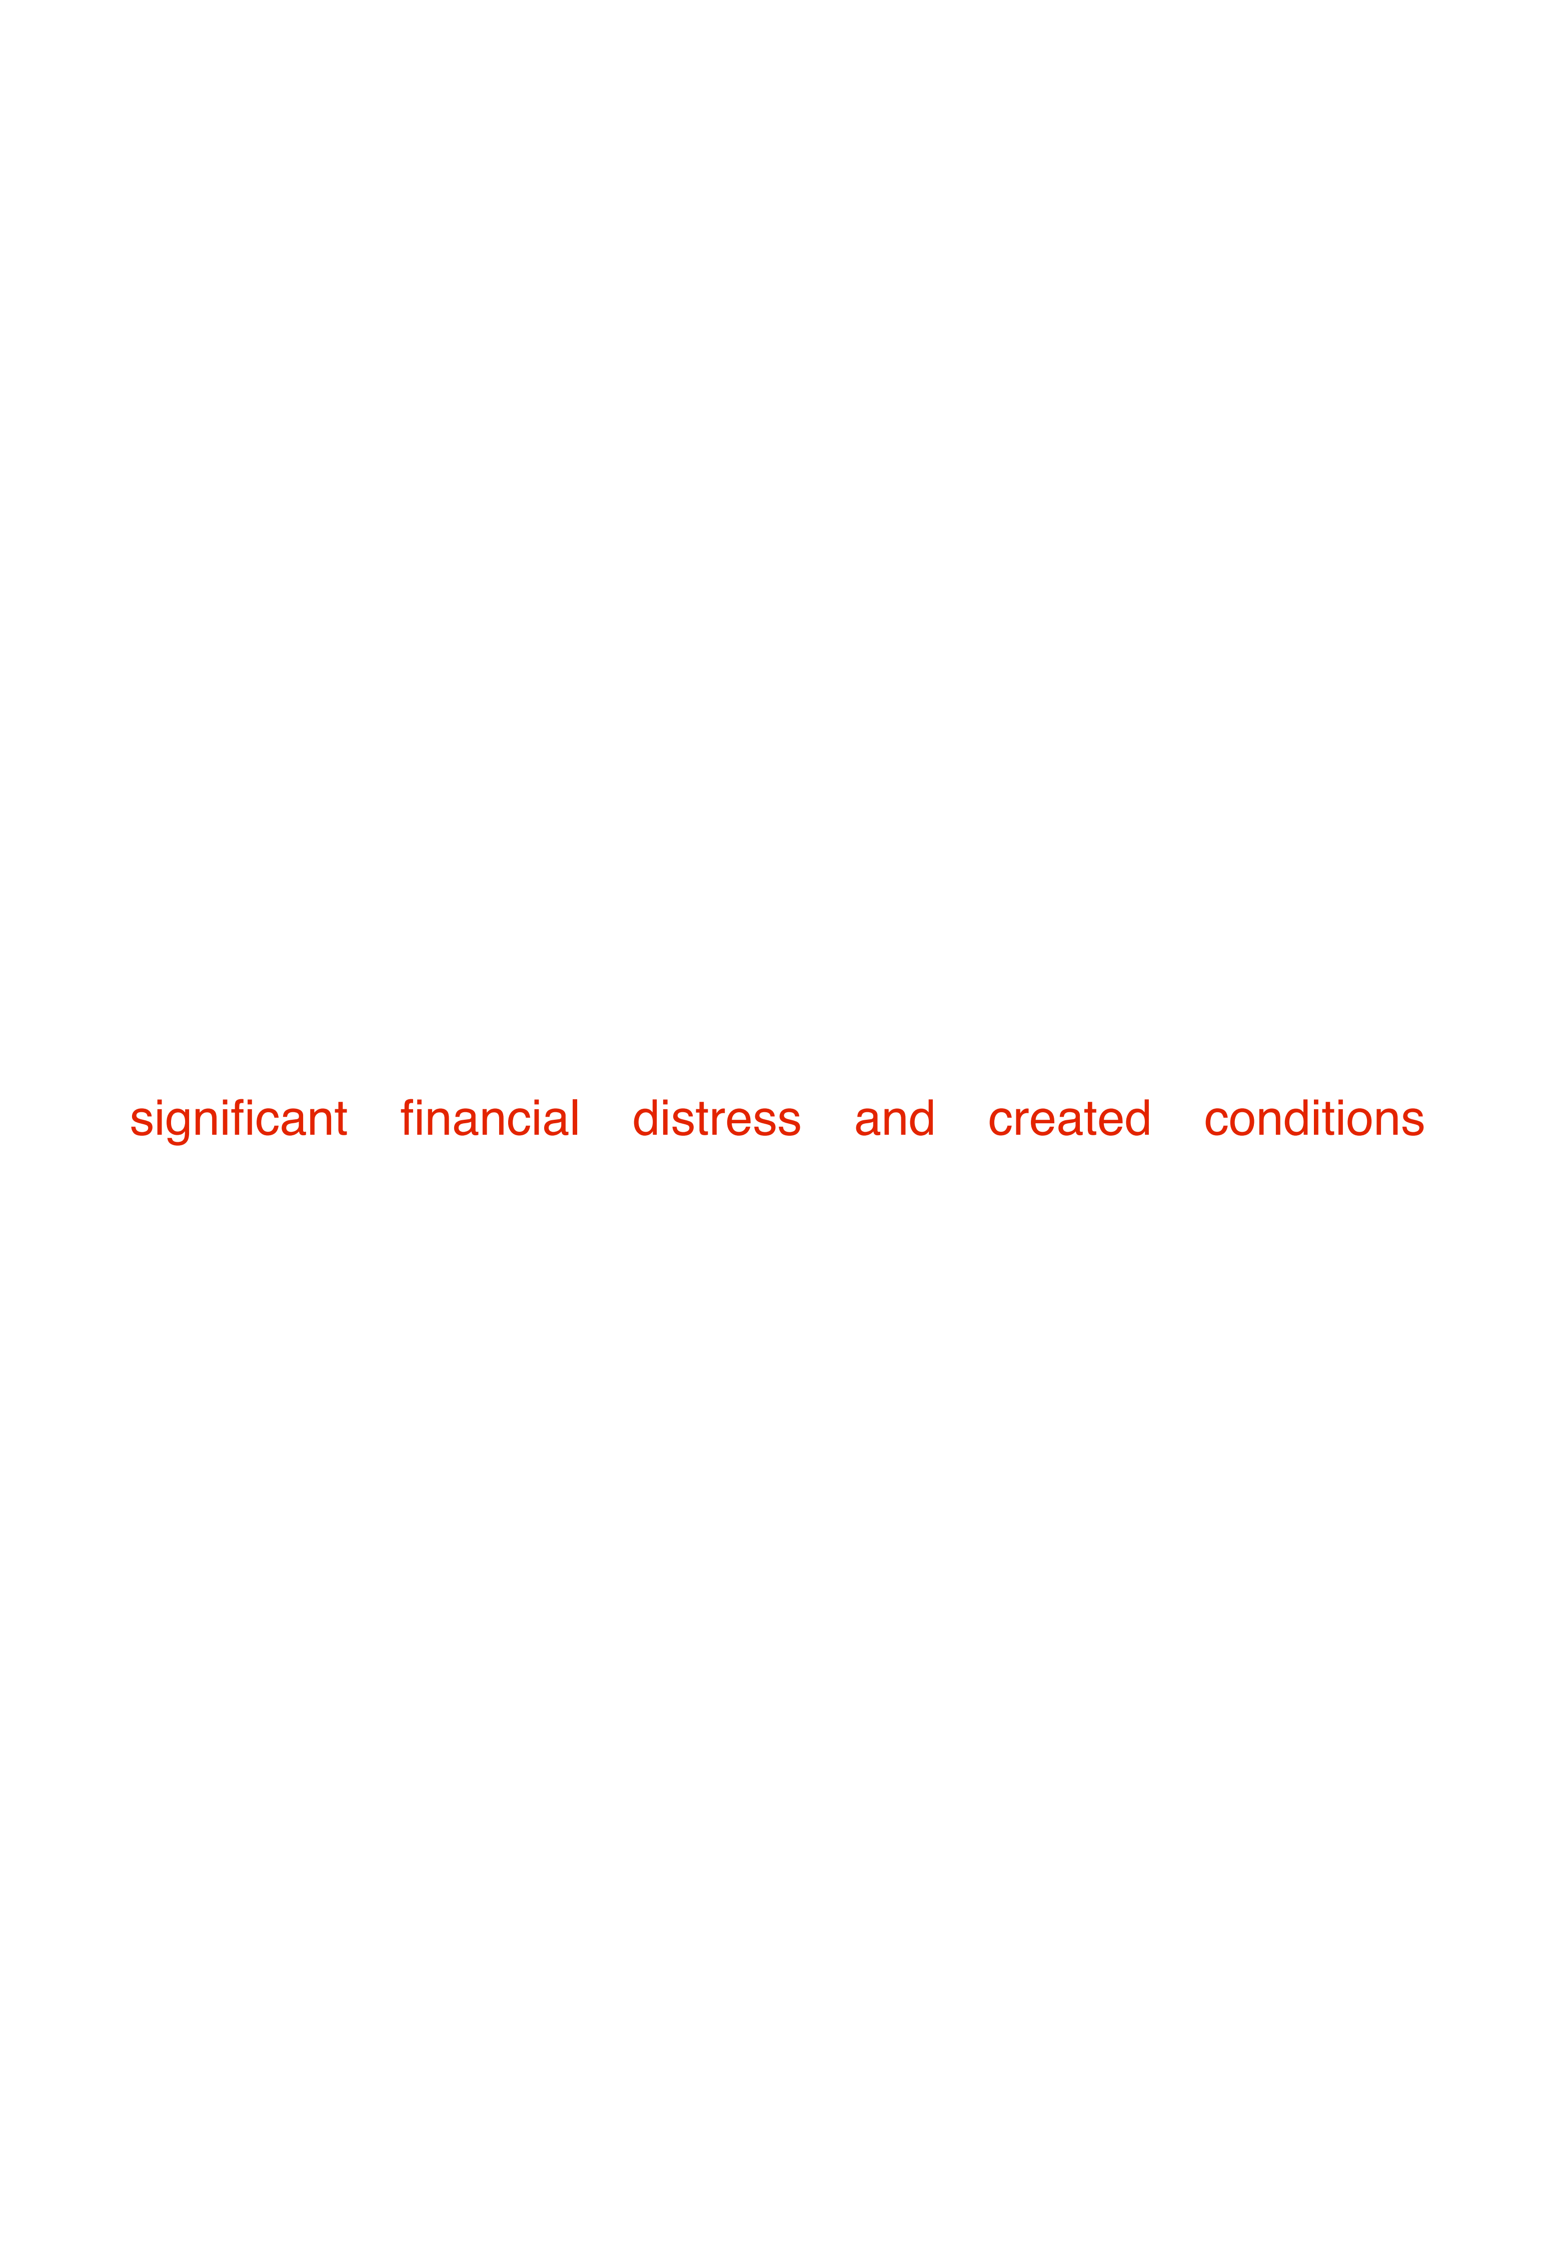

1. ** Financial Abuse**:

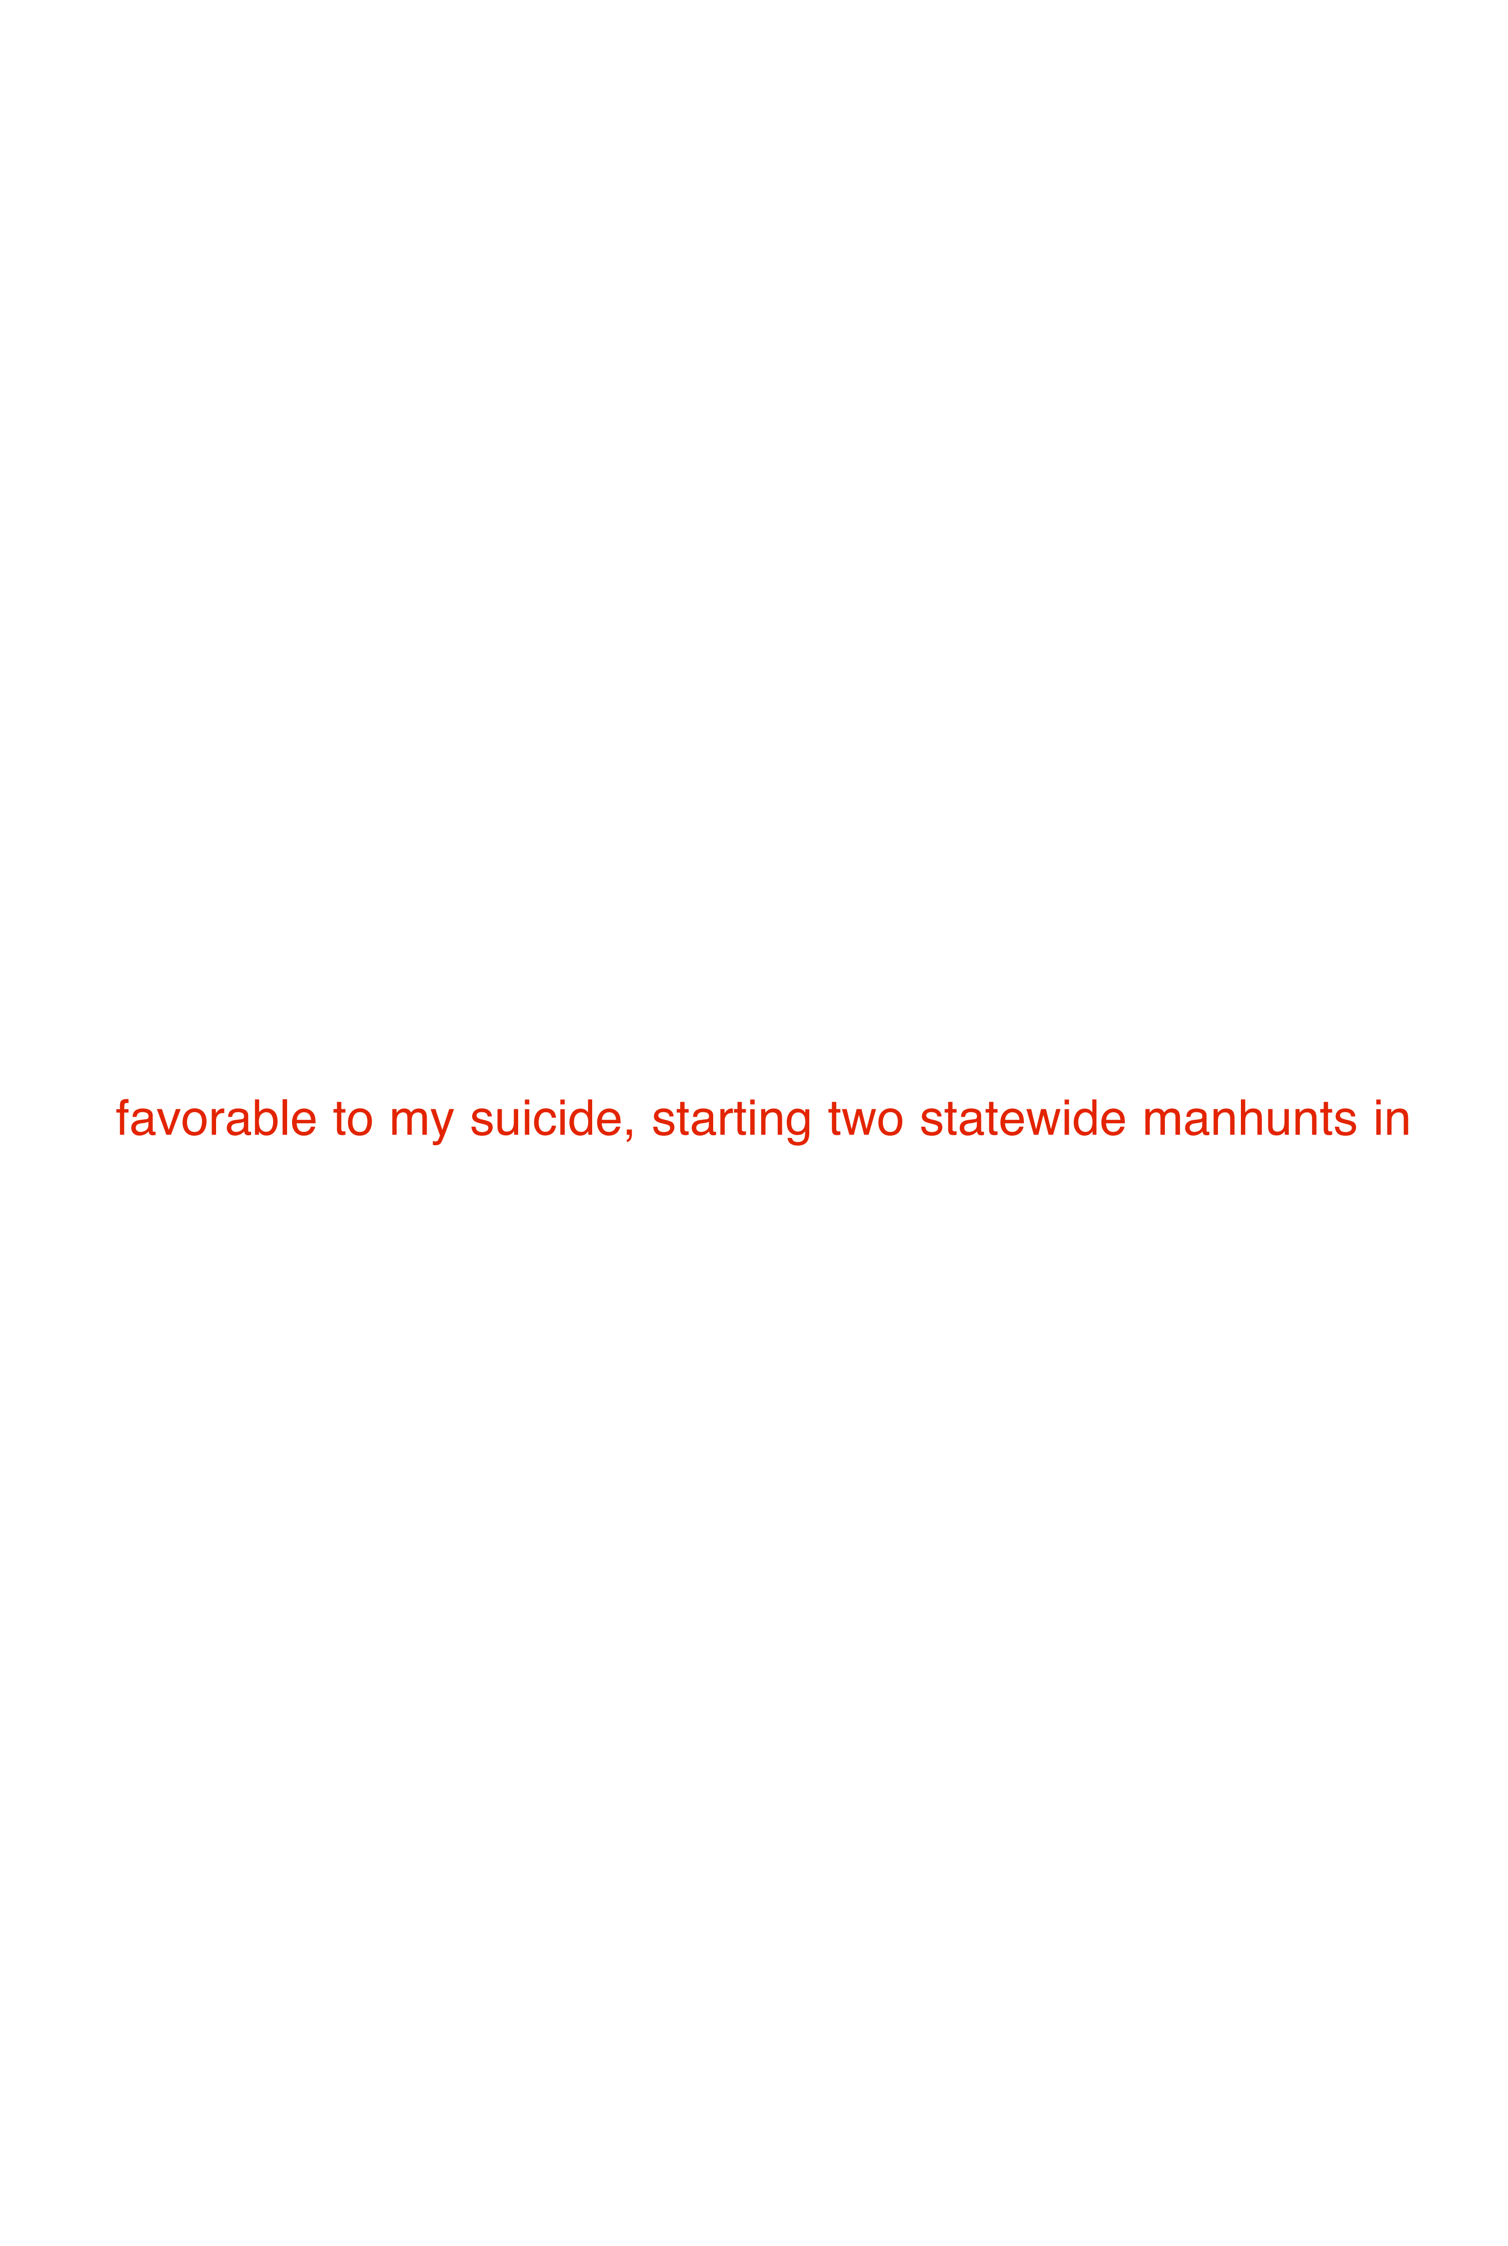

I believe that Minister CEO and Kel Graham have denied

me crucial funding, including SILS funding, despite

professional opinions from an OT and a behavioural

specialist confirming my need for it. This has put me in

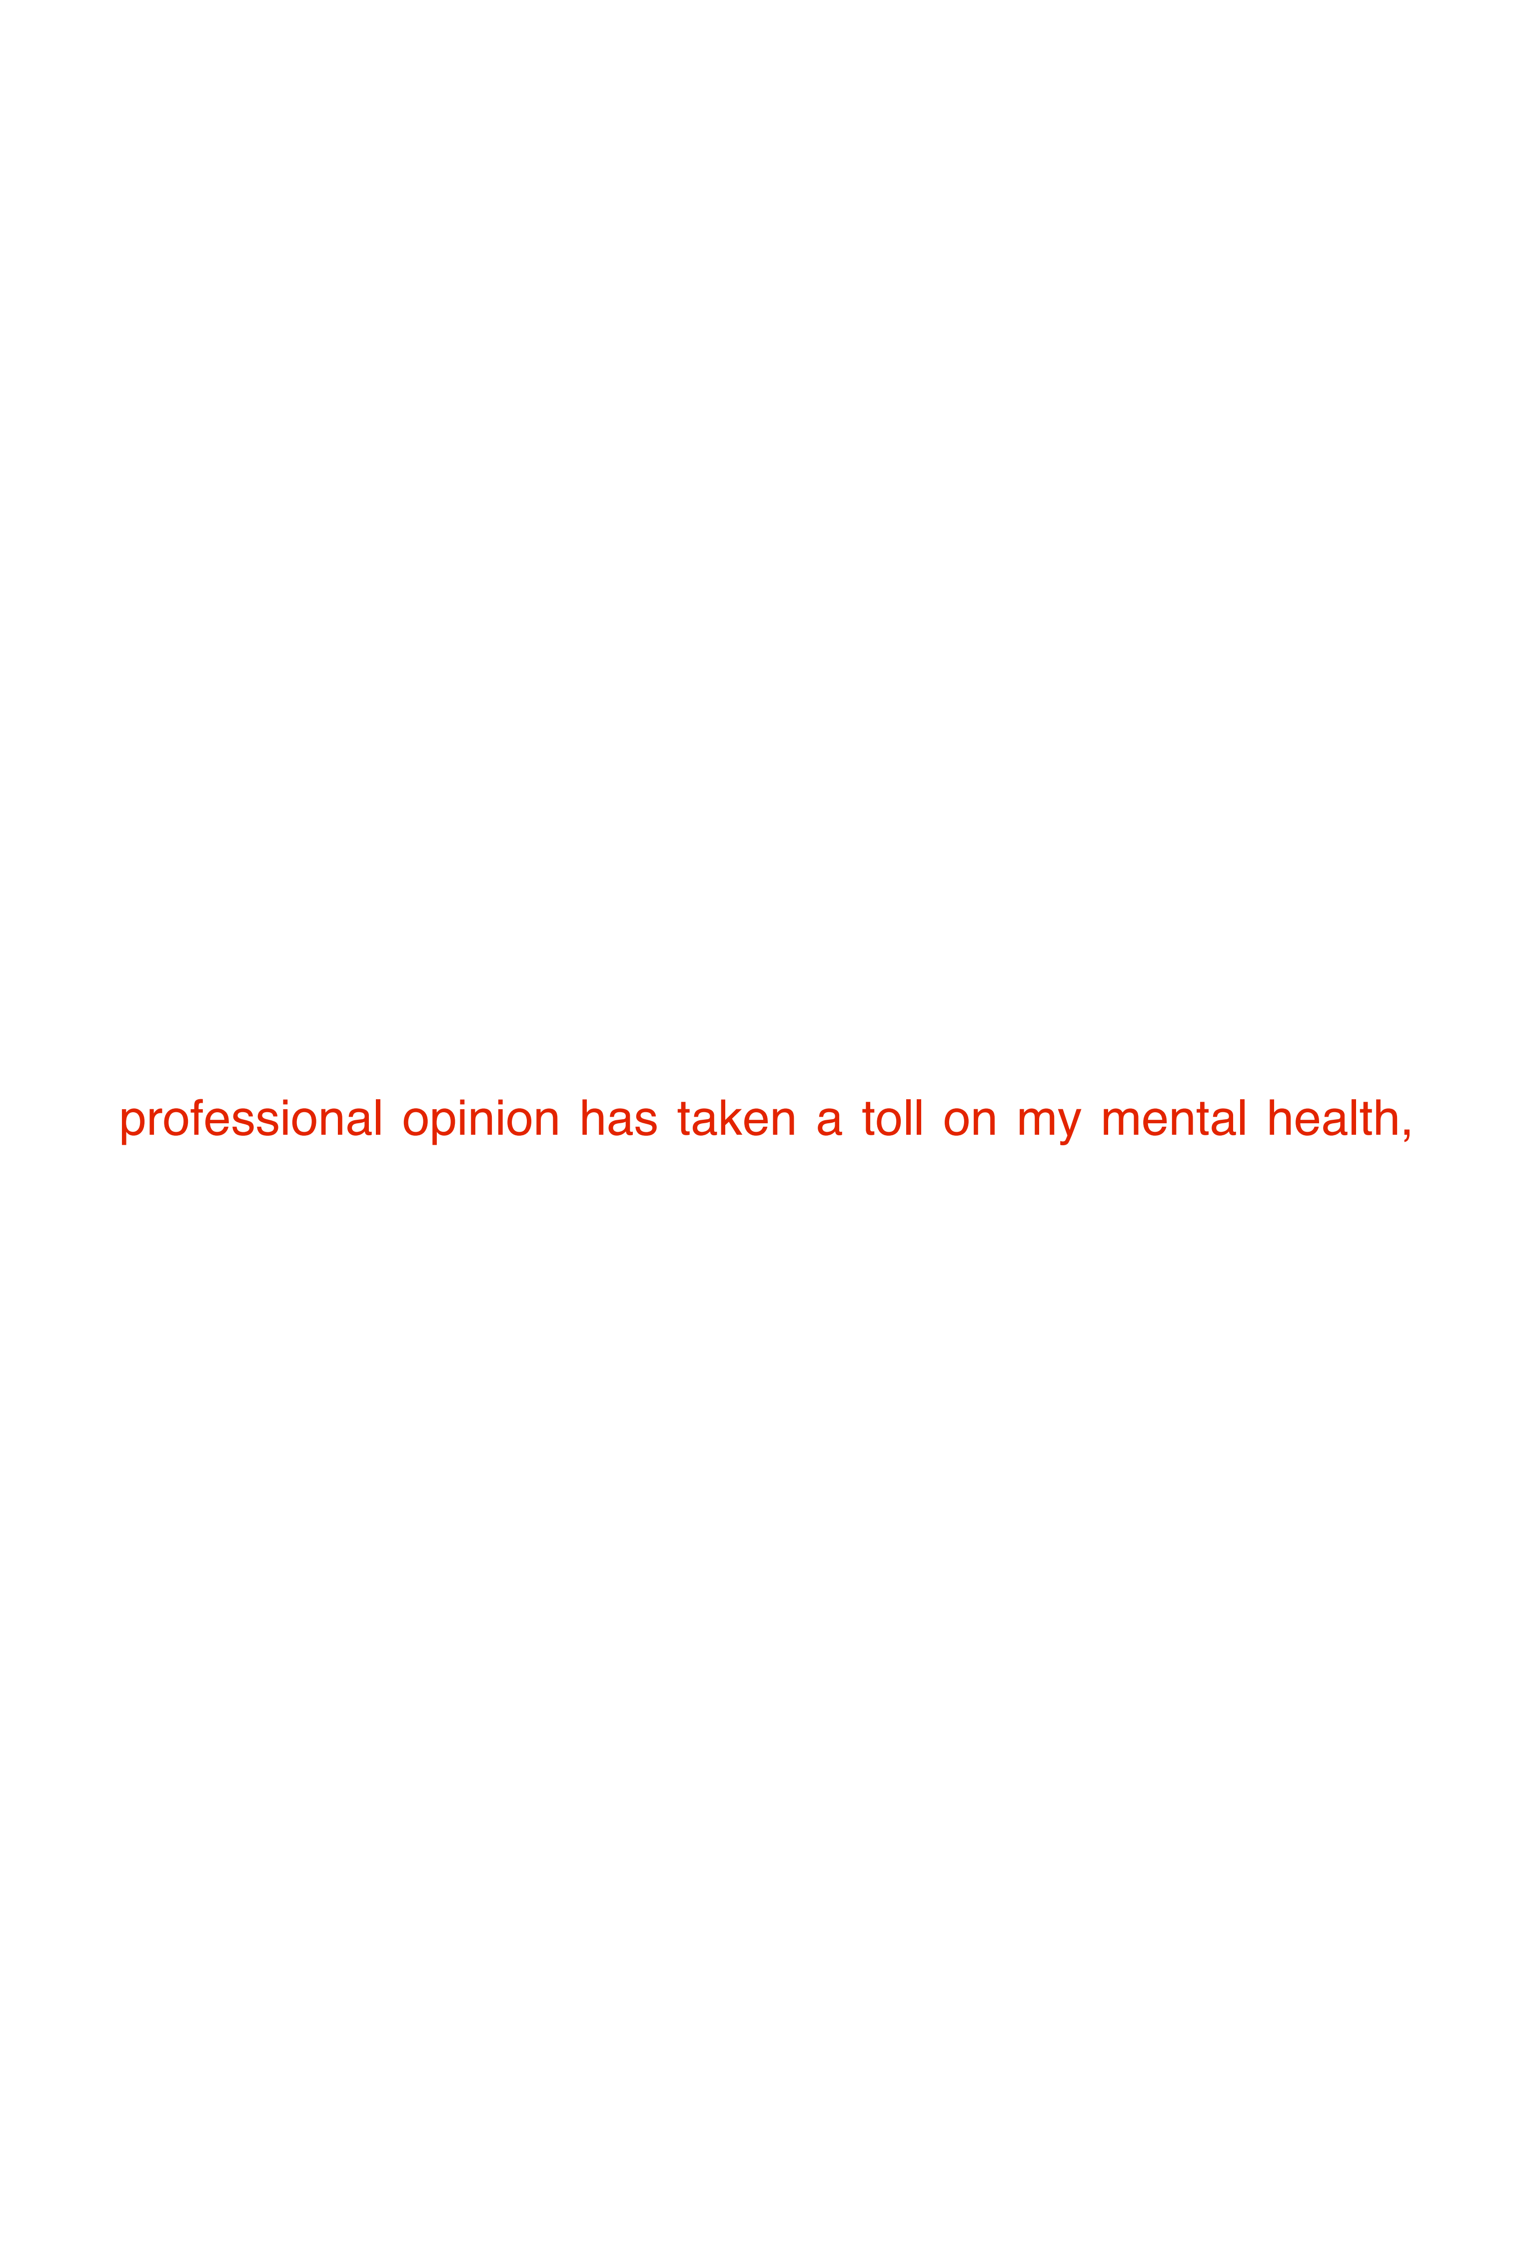

significant financial distress and created conditions

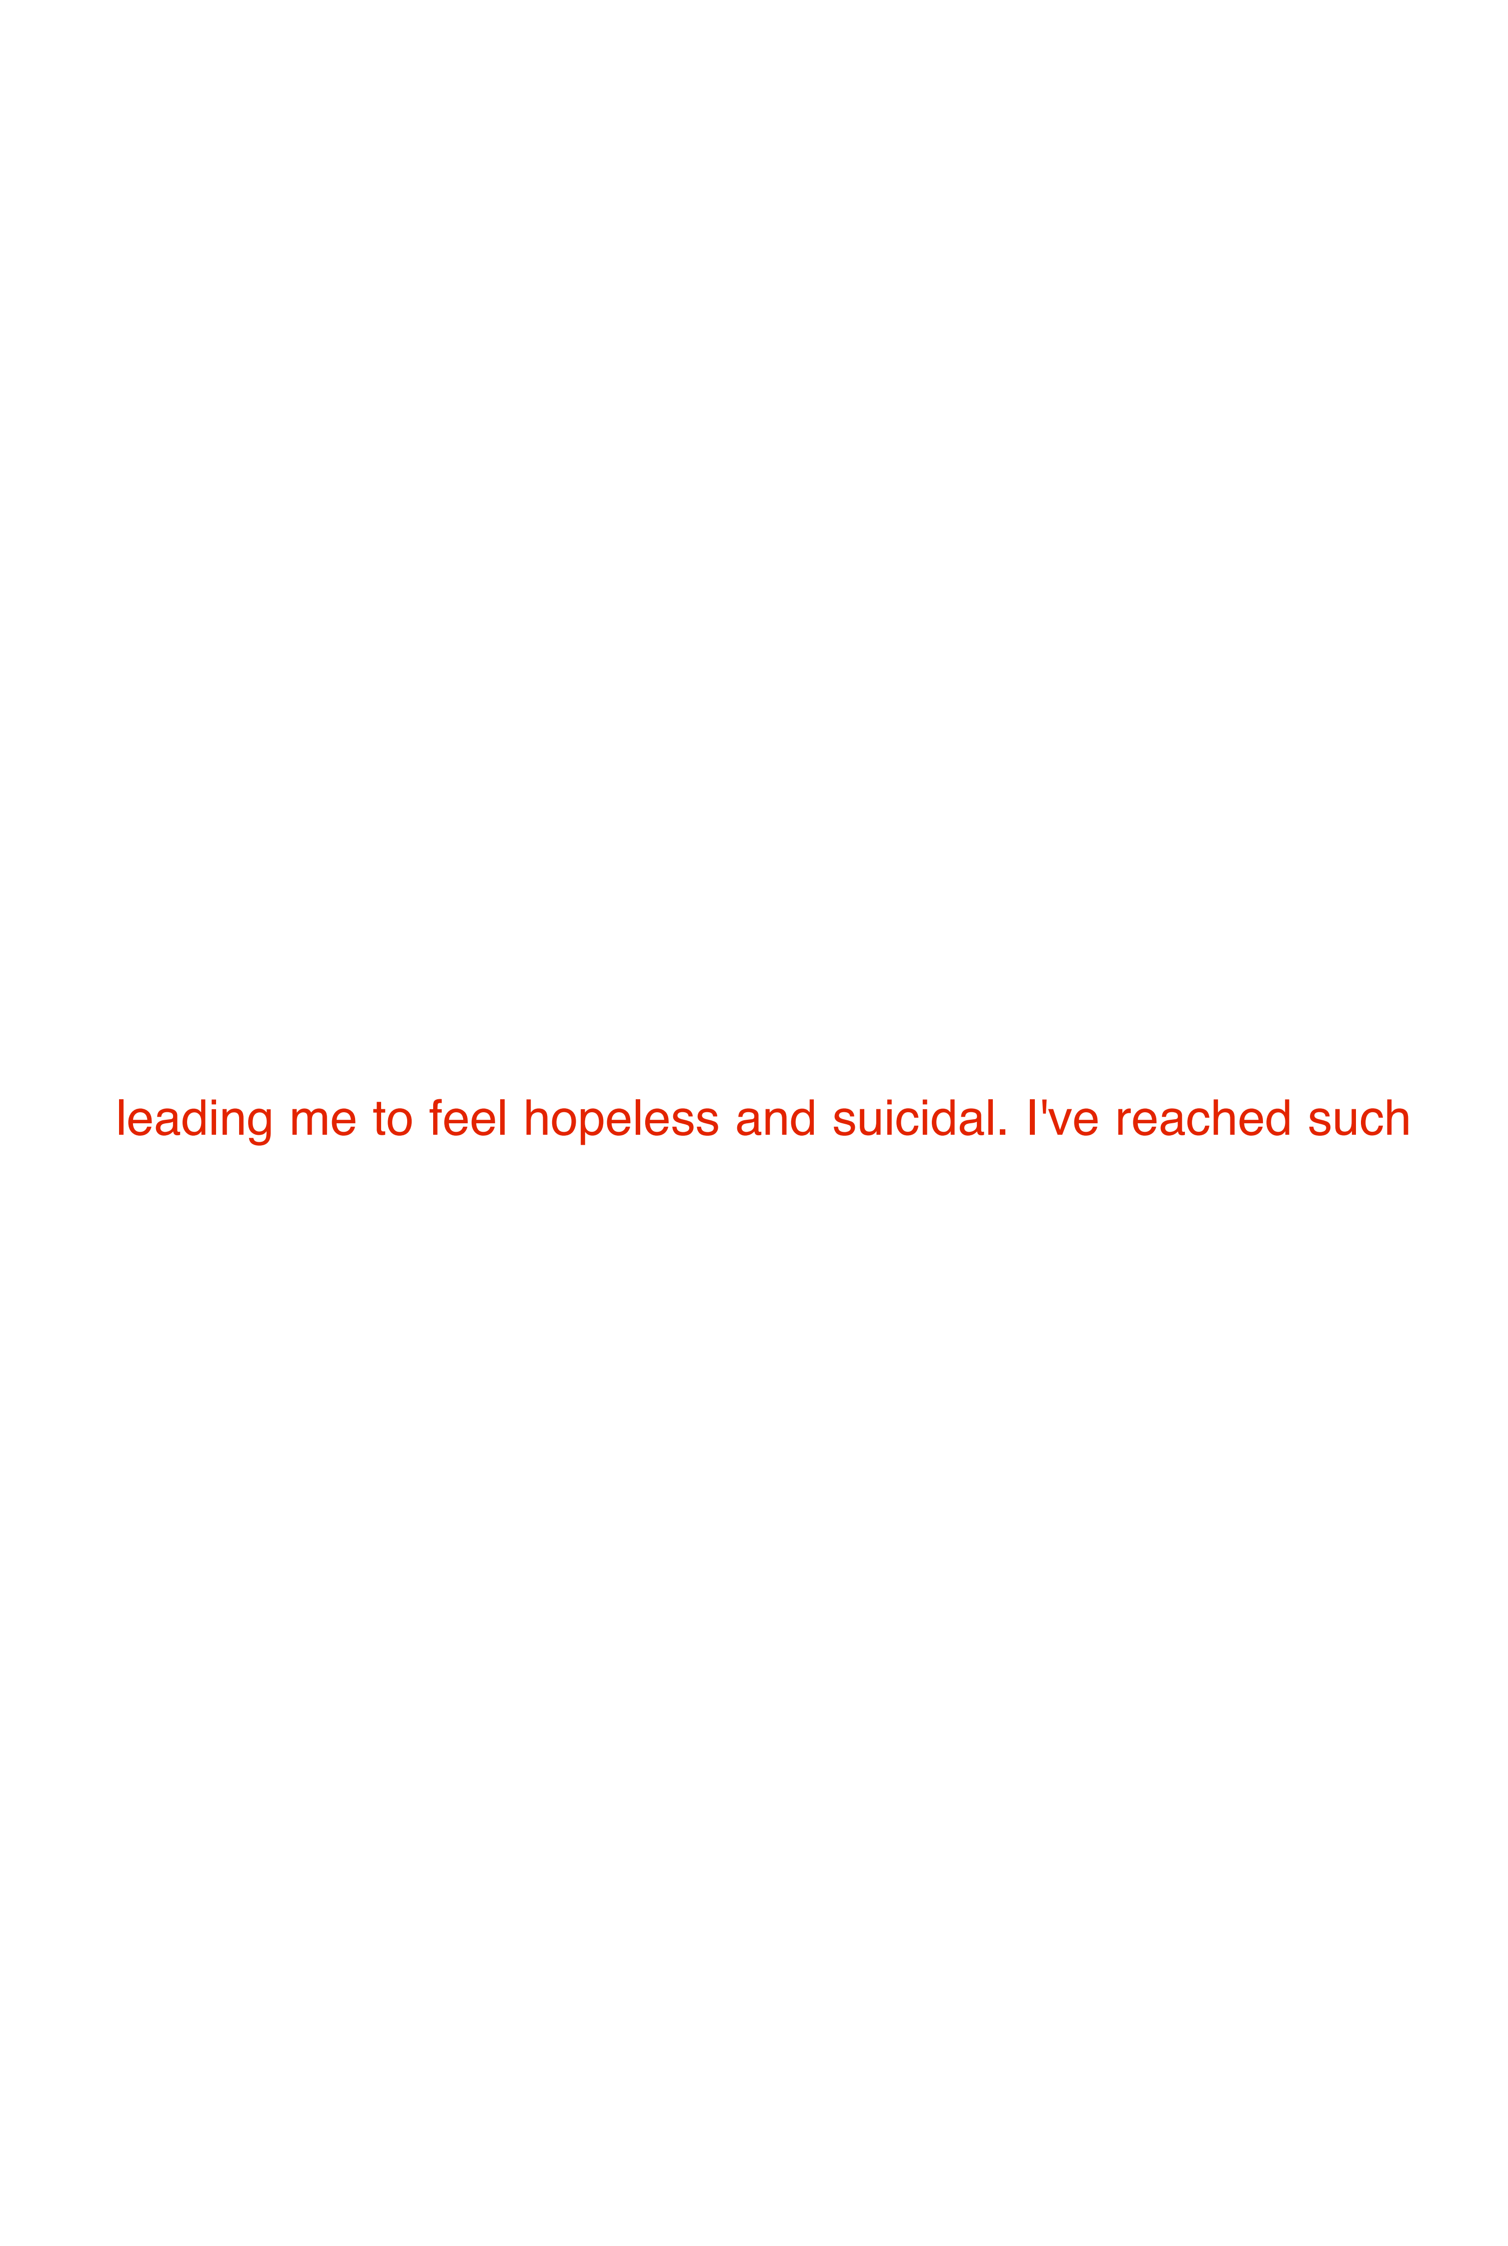

favorable to my suicide, starting two statewide manhunts in

NSW.

2. **Emotional Impact**:

Their refusal to provide essential funding by rejecting

professional opinion has taken a toll on my mental health,

leading me to feel hopeless and suicidal. I've reached such

a low point that I've been reported as a missing person due

to suicidal thoughts costing the state purse tens of

thousands of dollars.

3. **Lack of Support**:

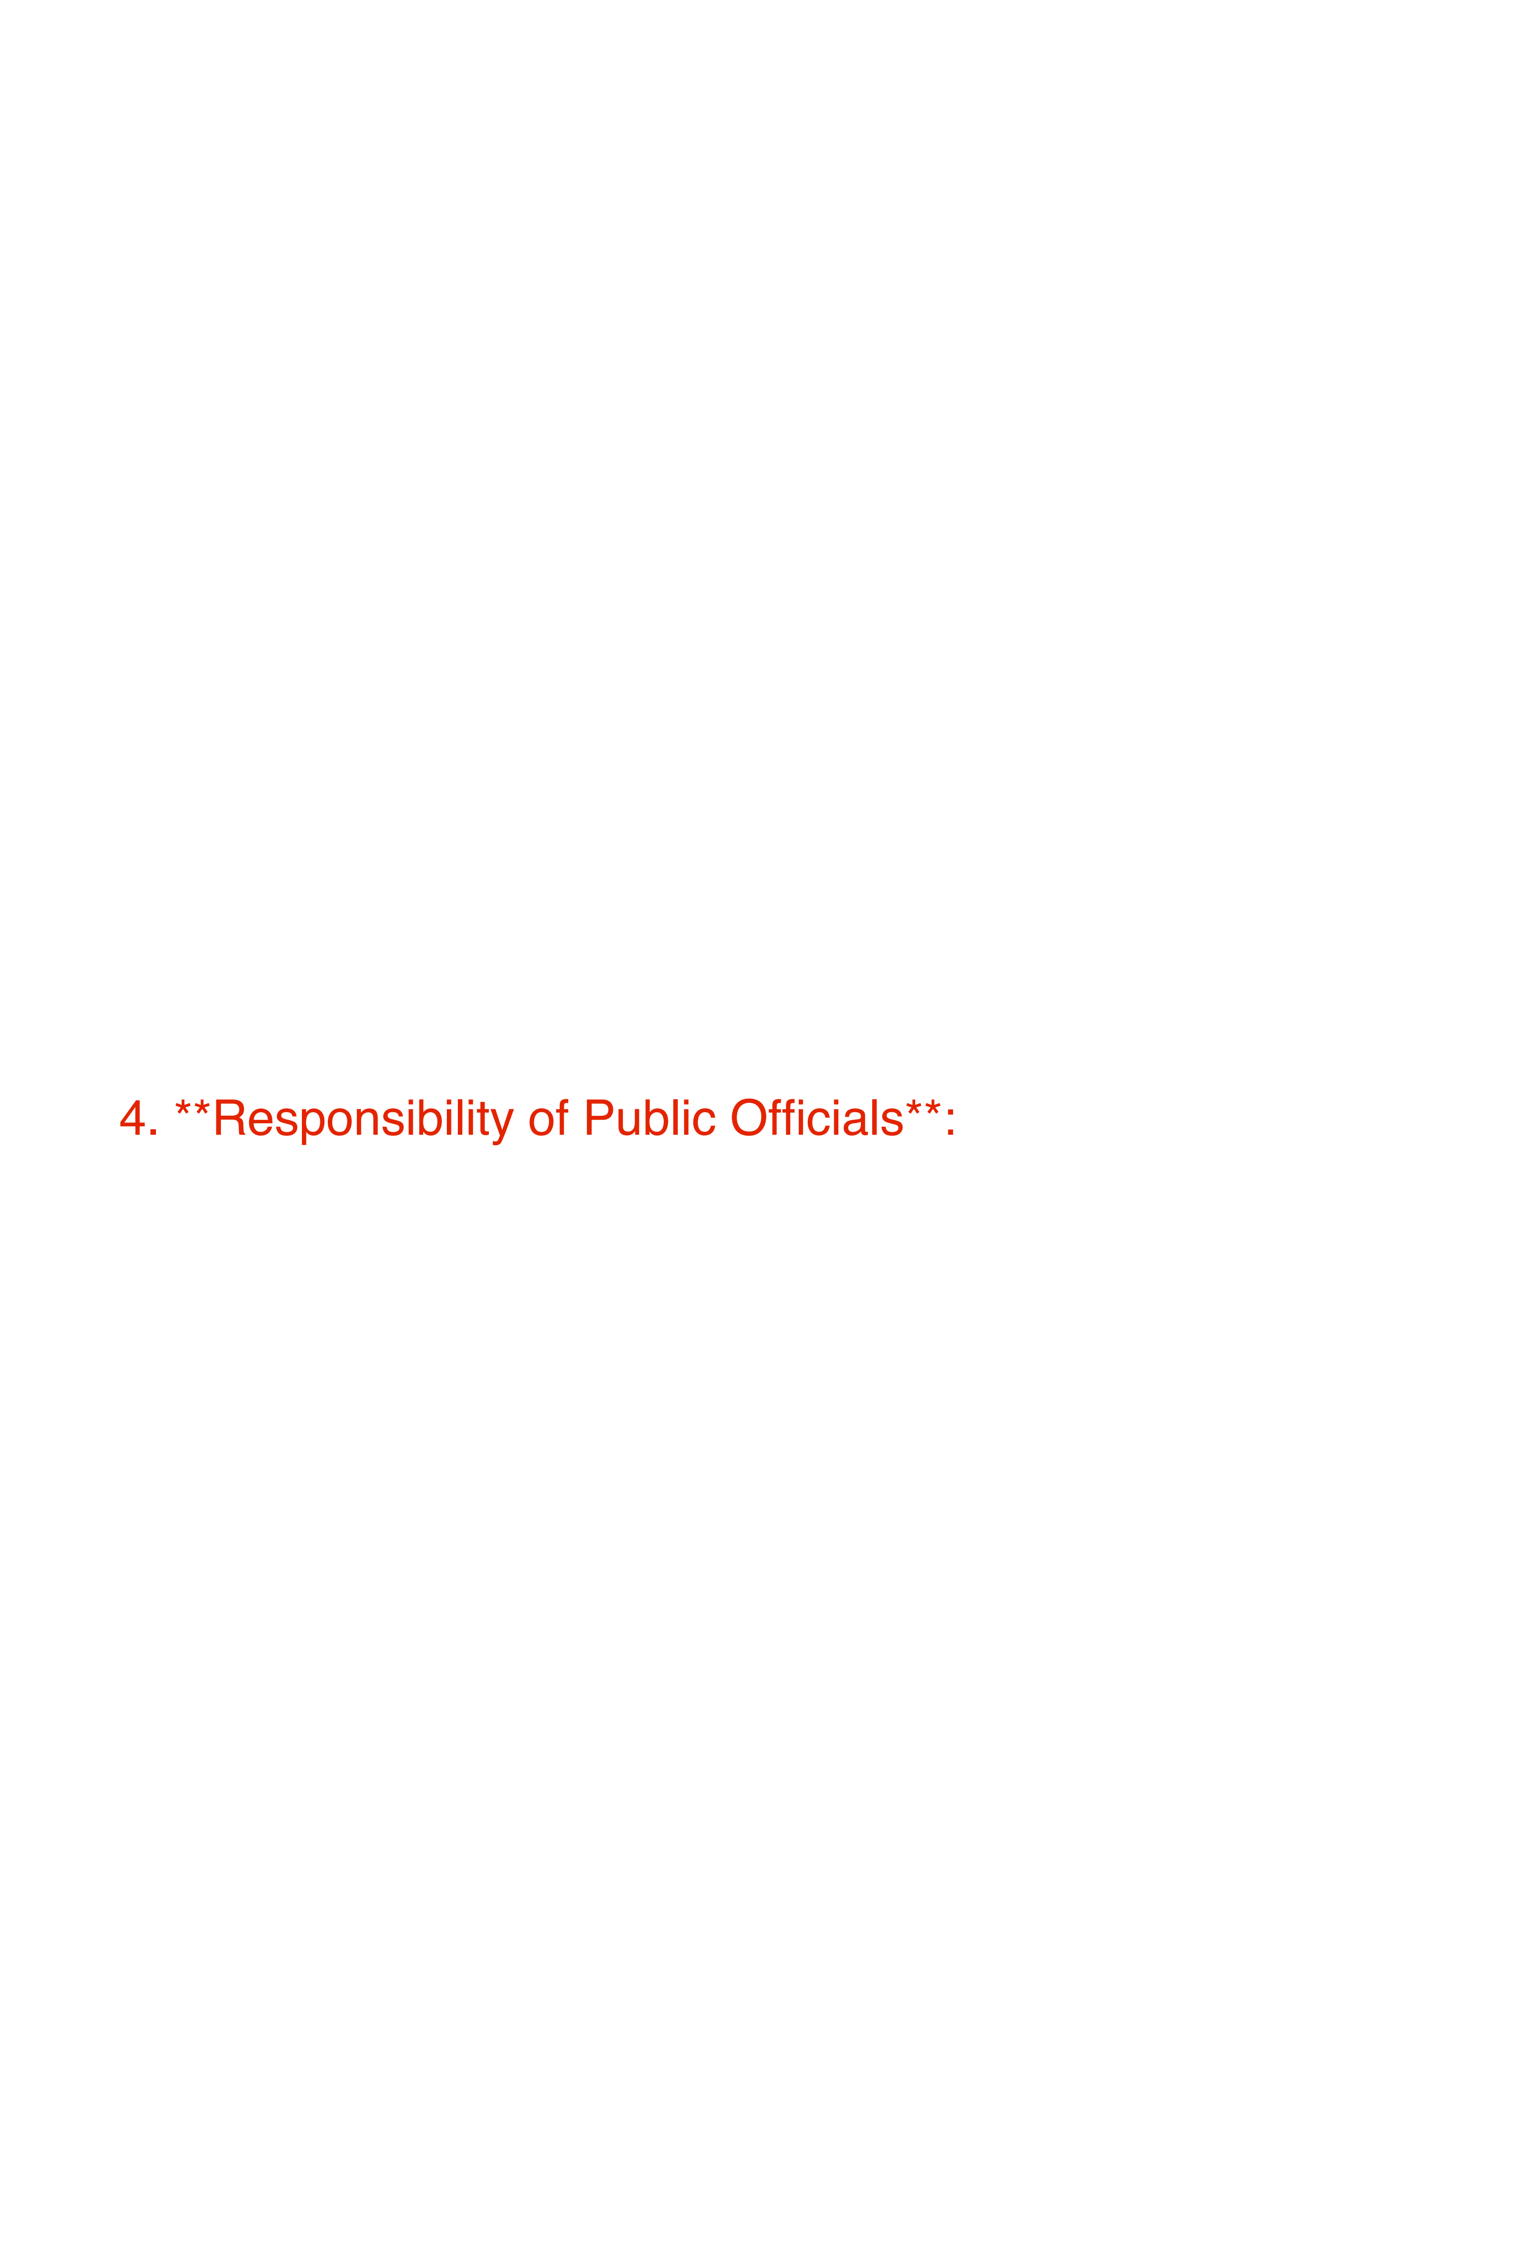

Despite my disability and evident need for support, all my

funding requests have been turned down, leaving me

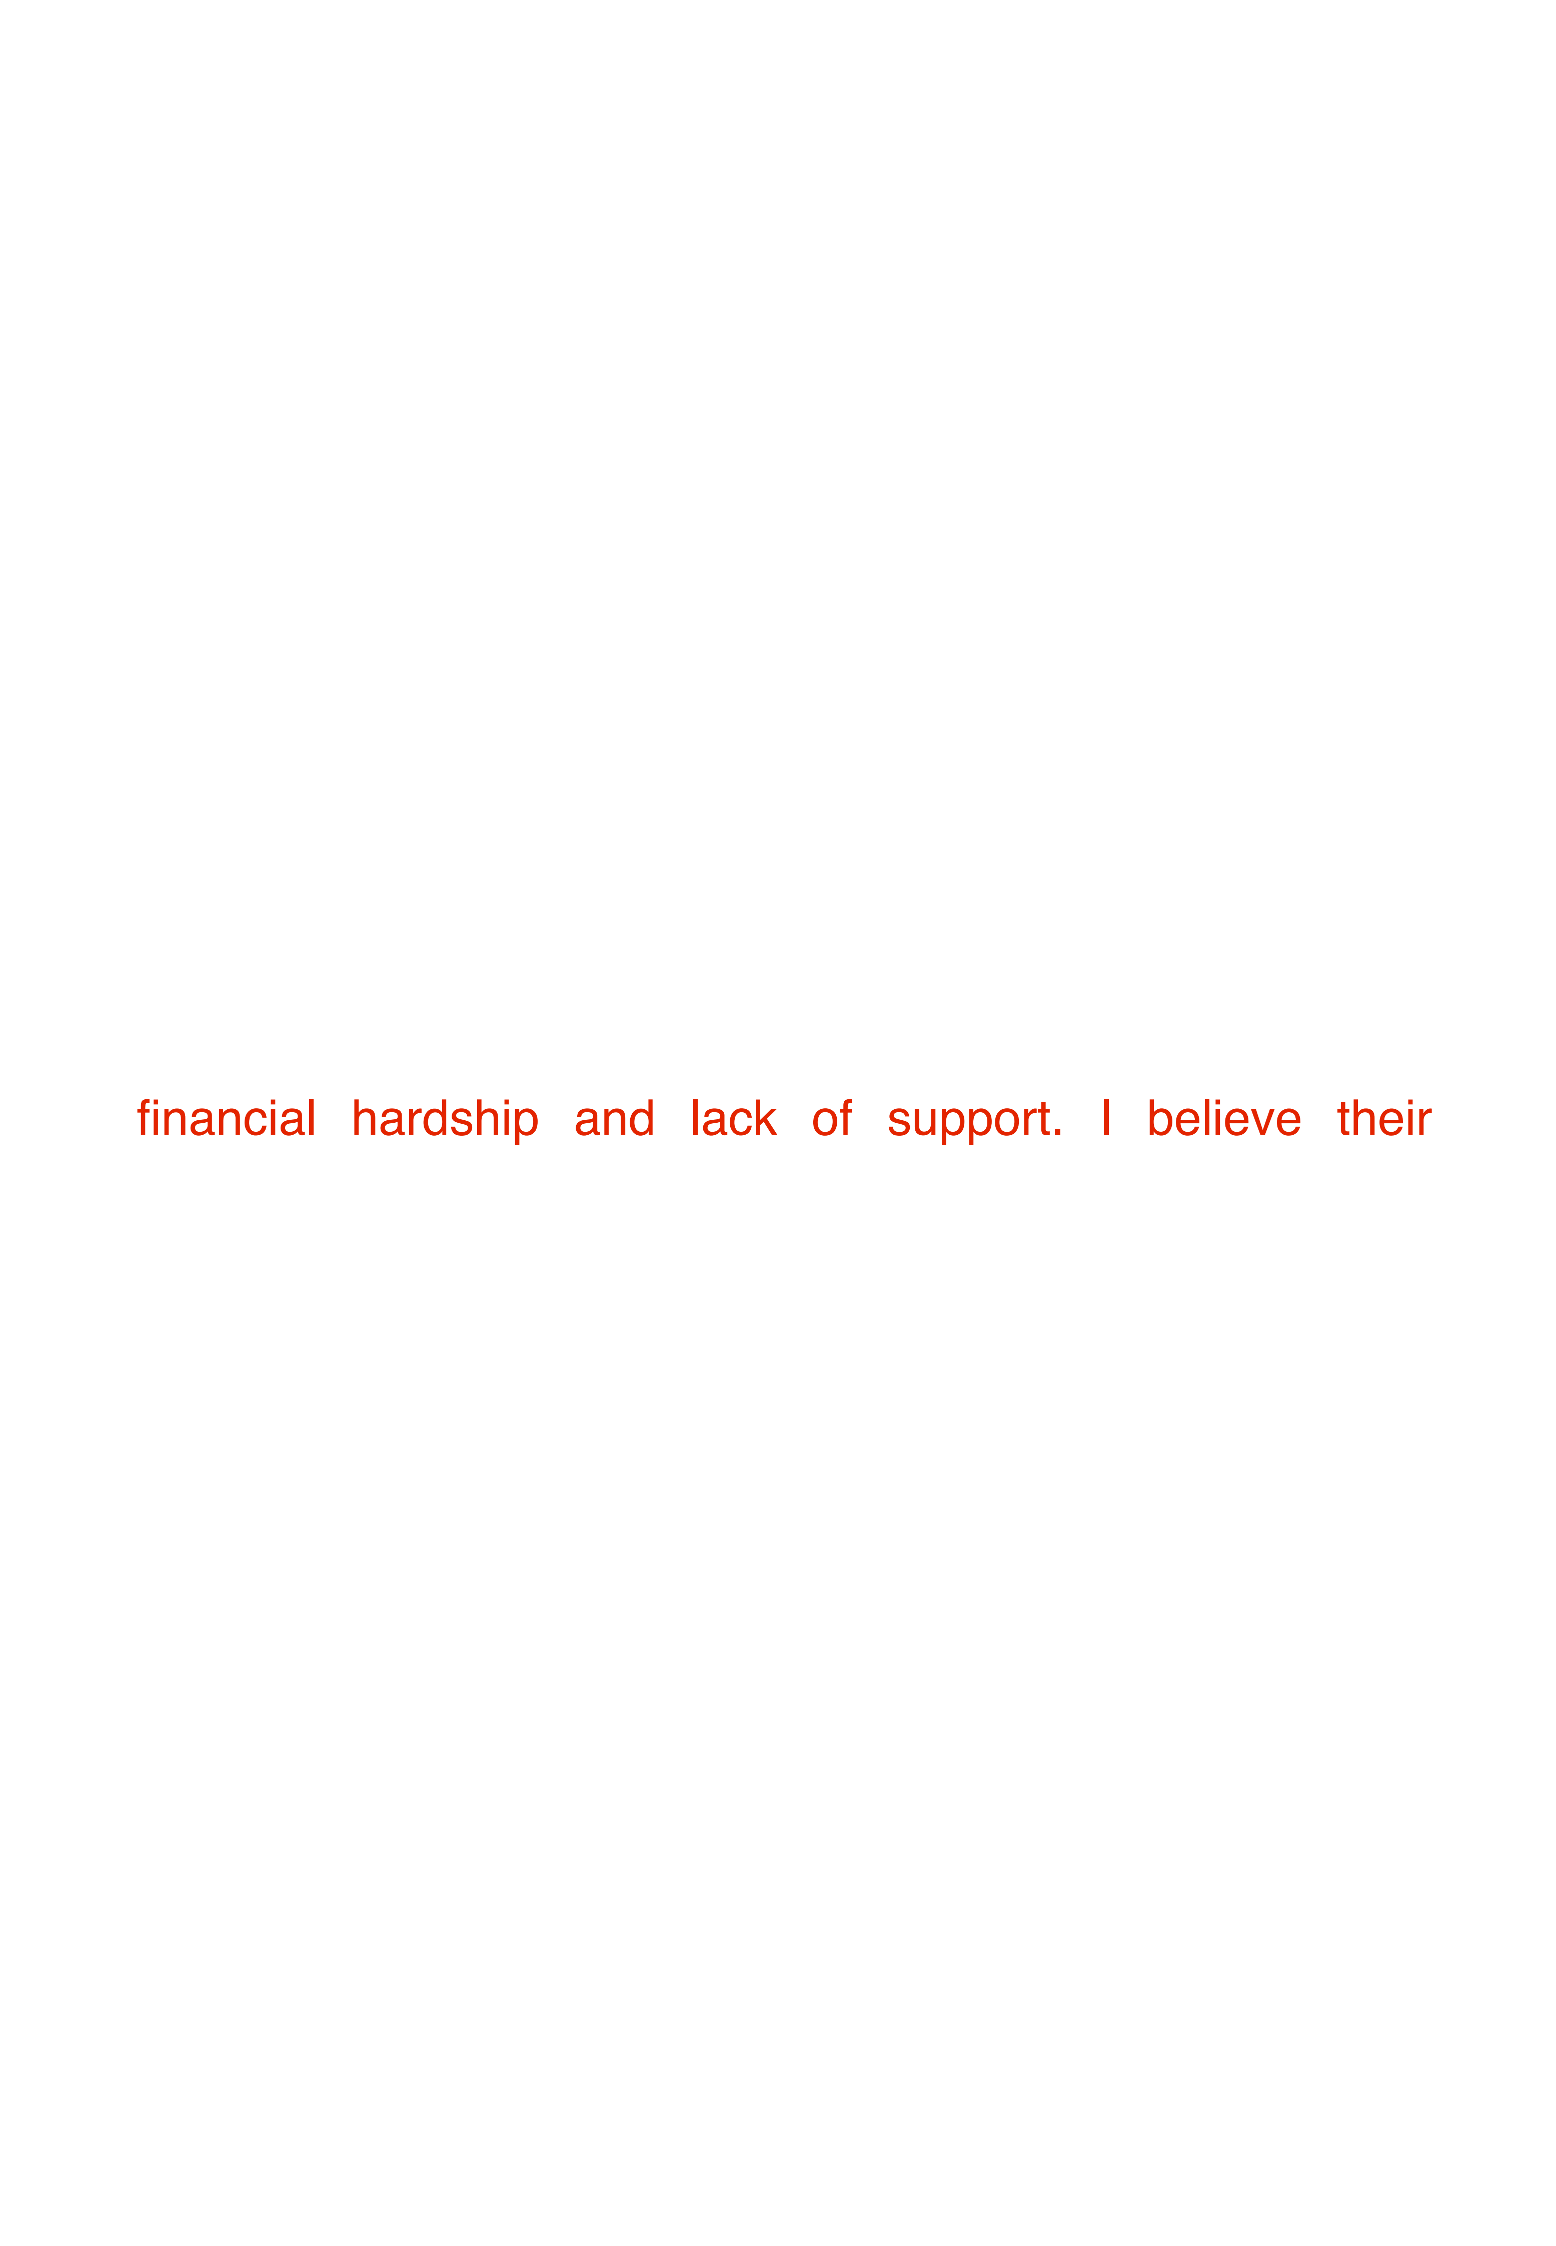

without the help I desperately require. This is malicious and

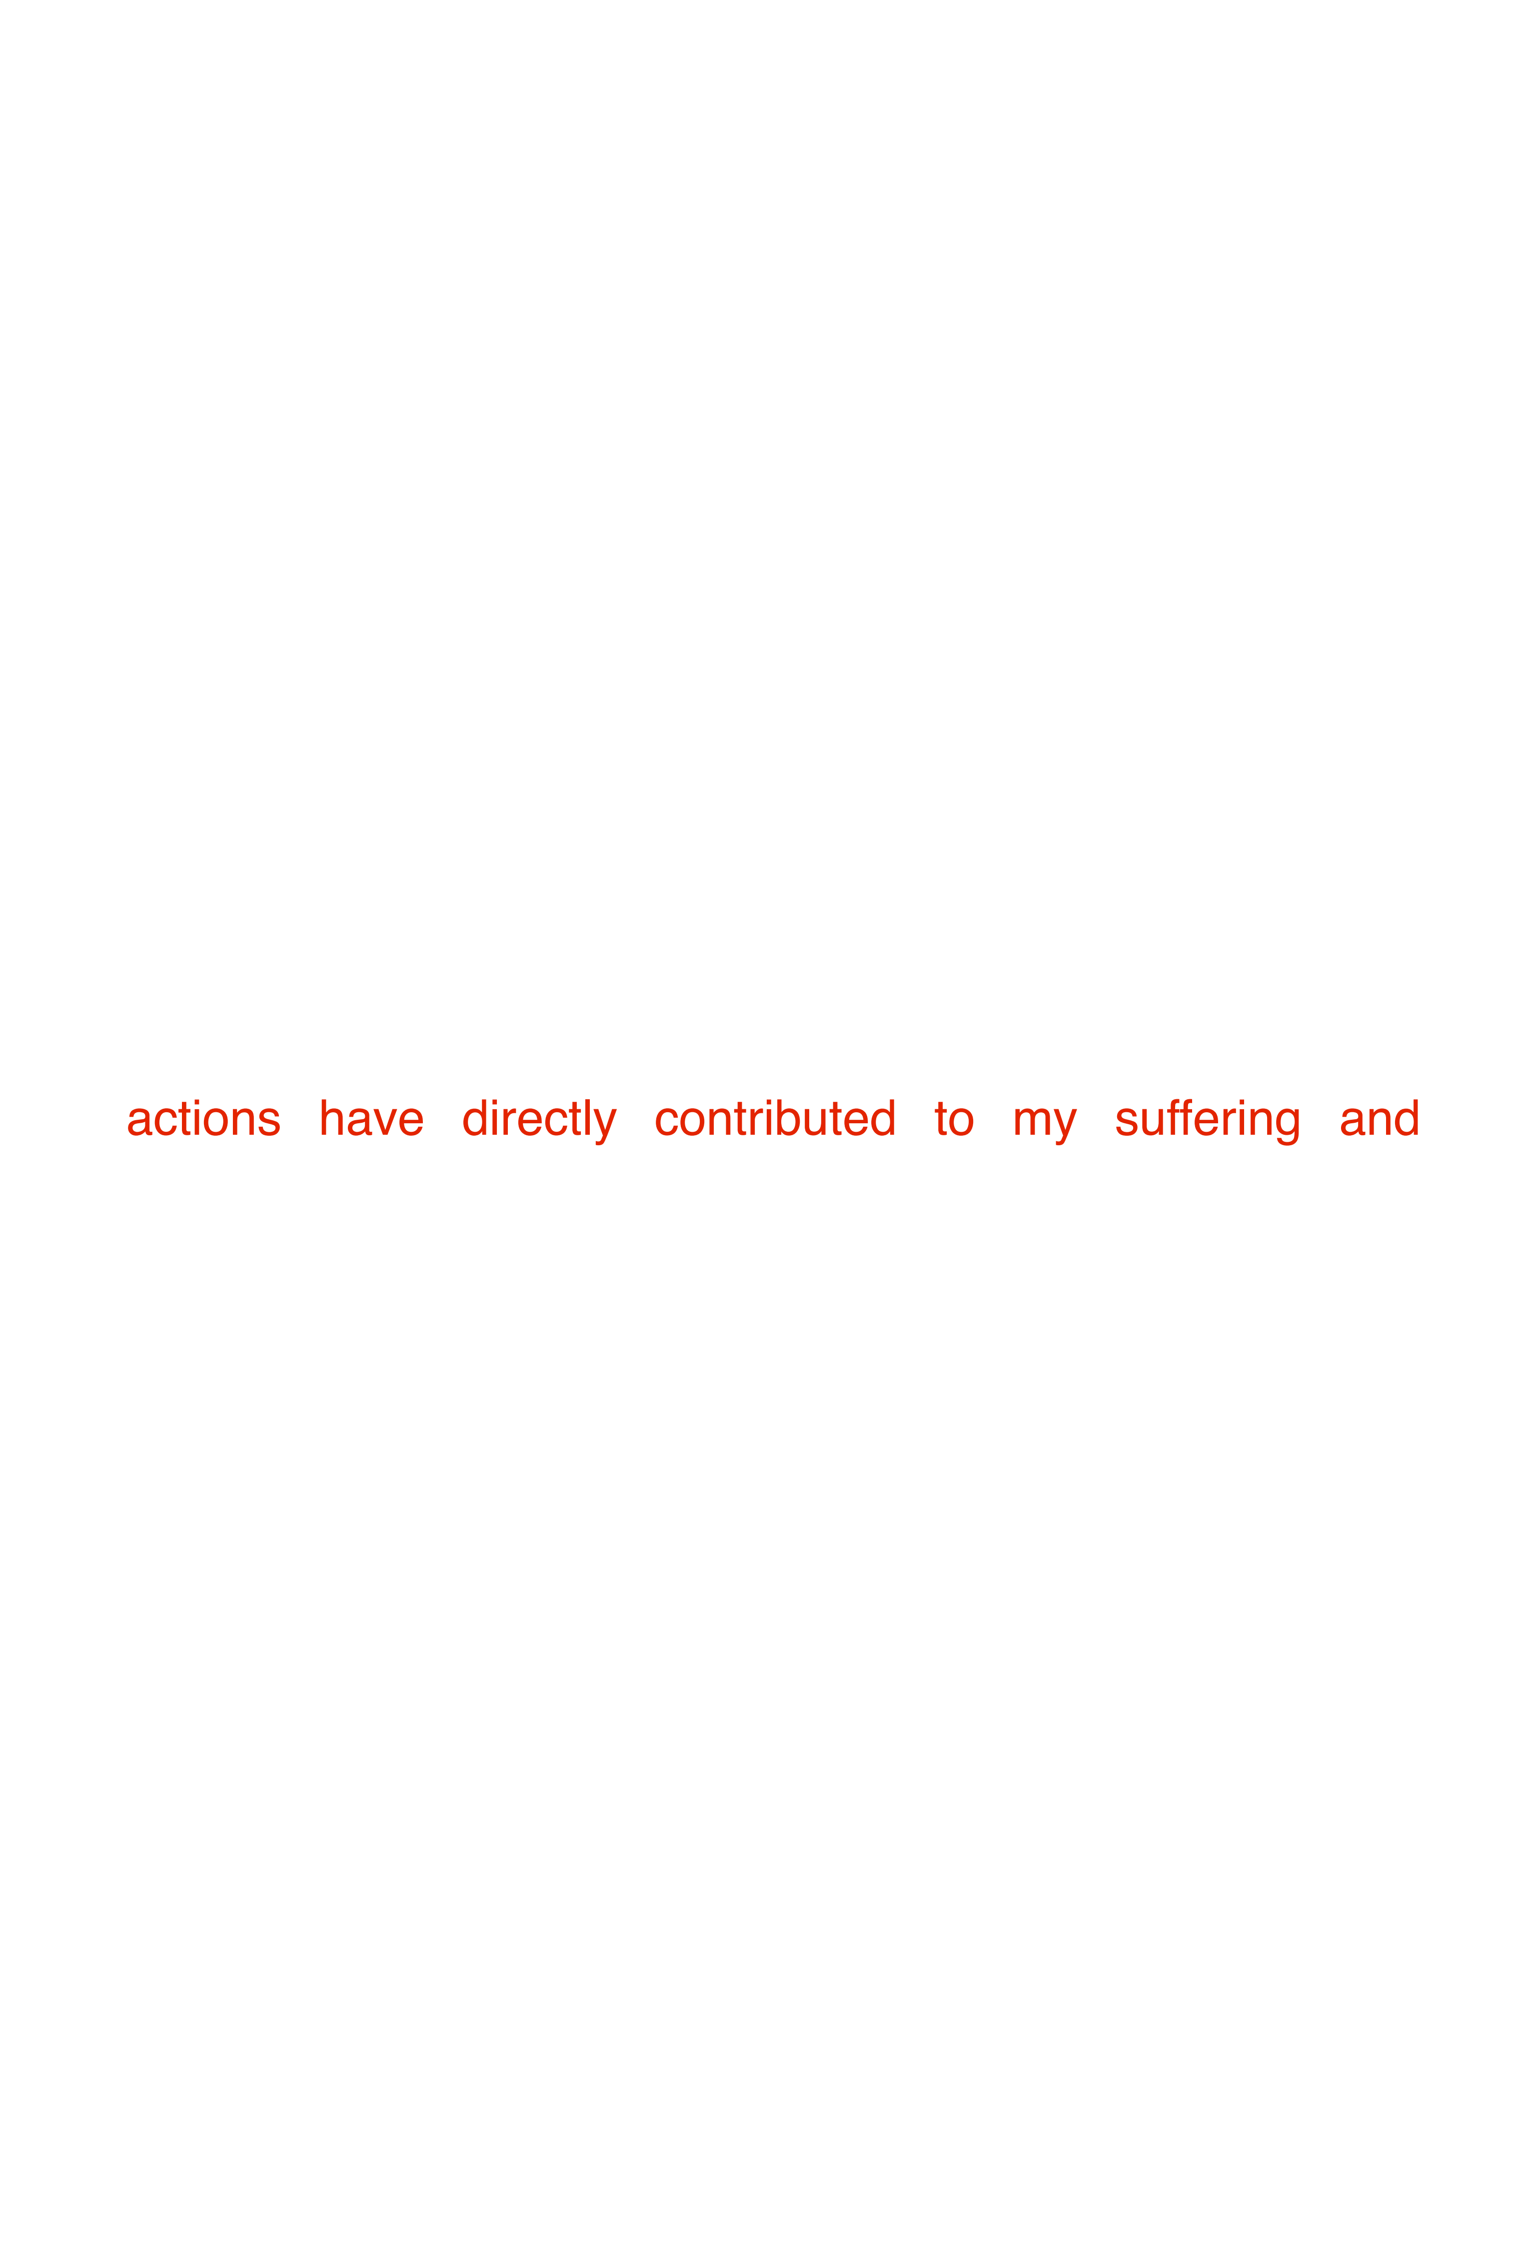

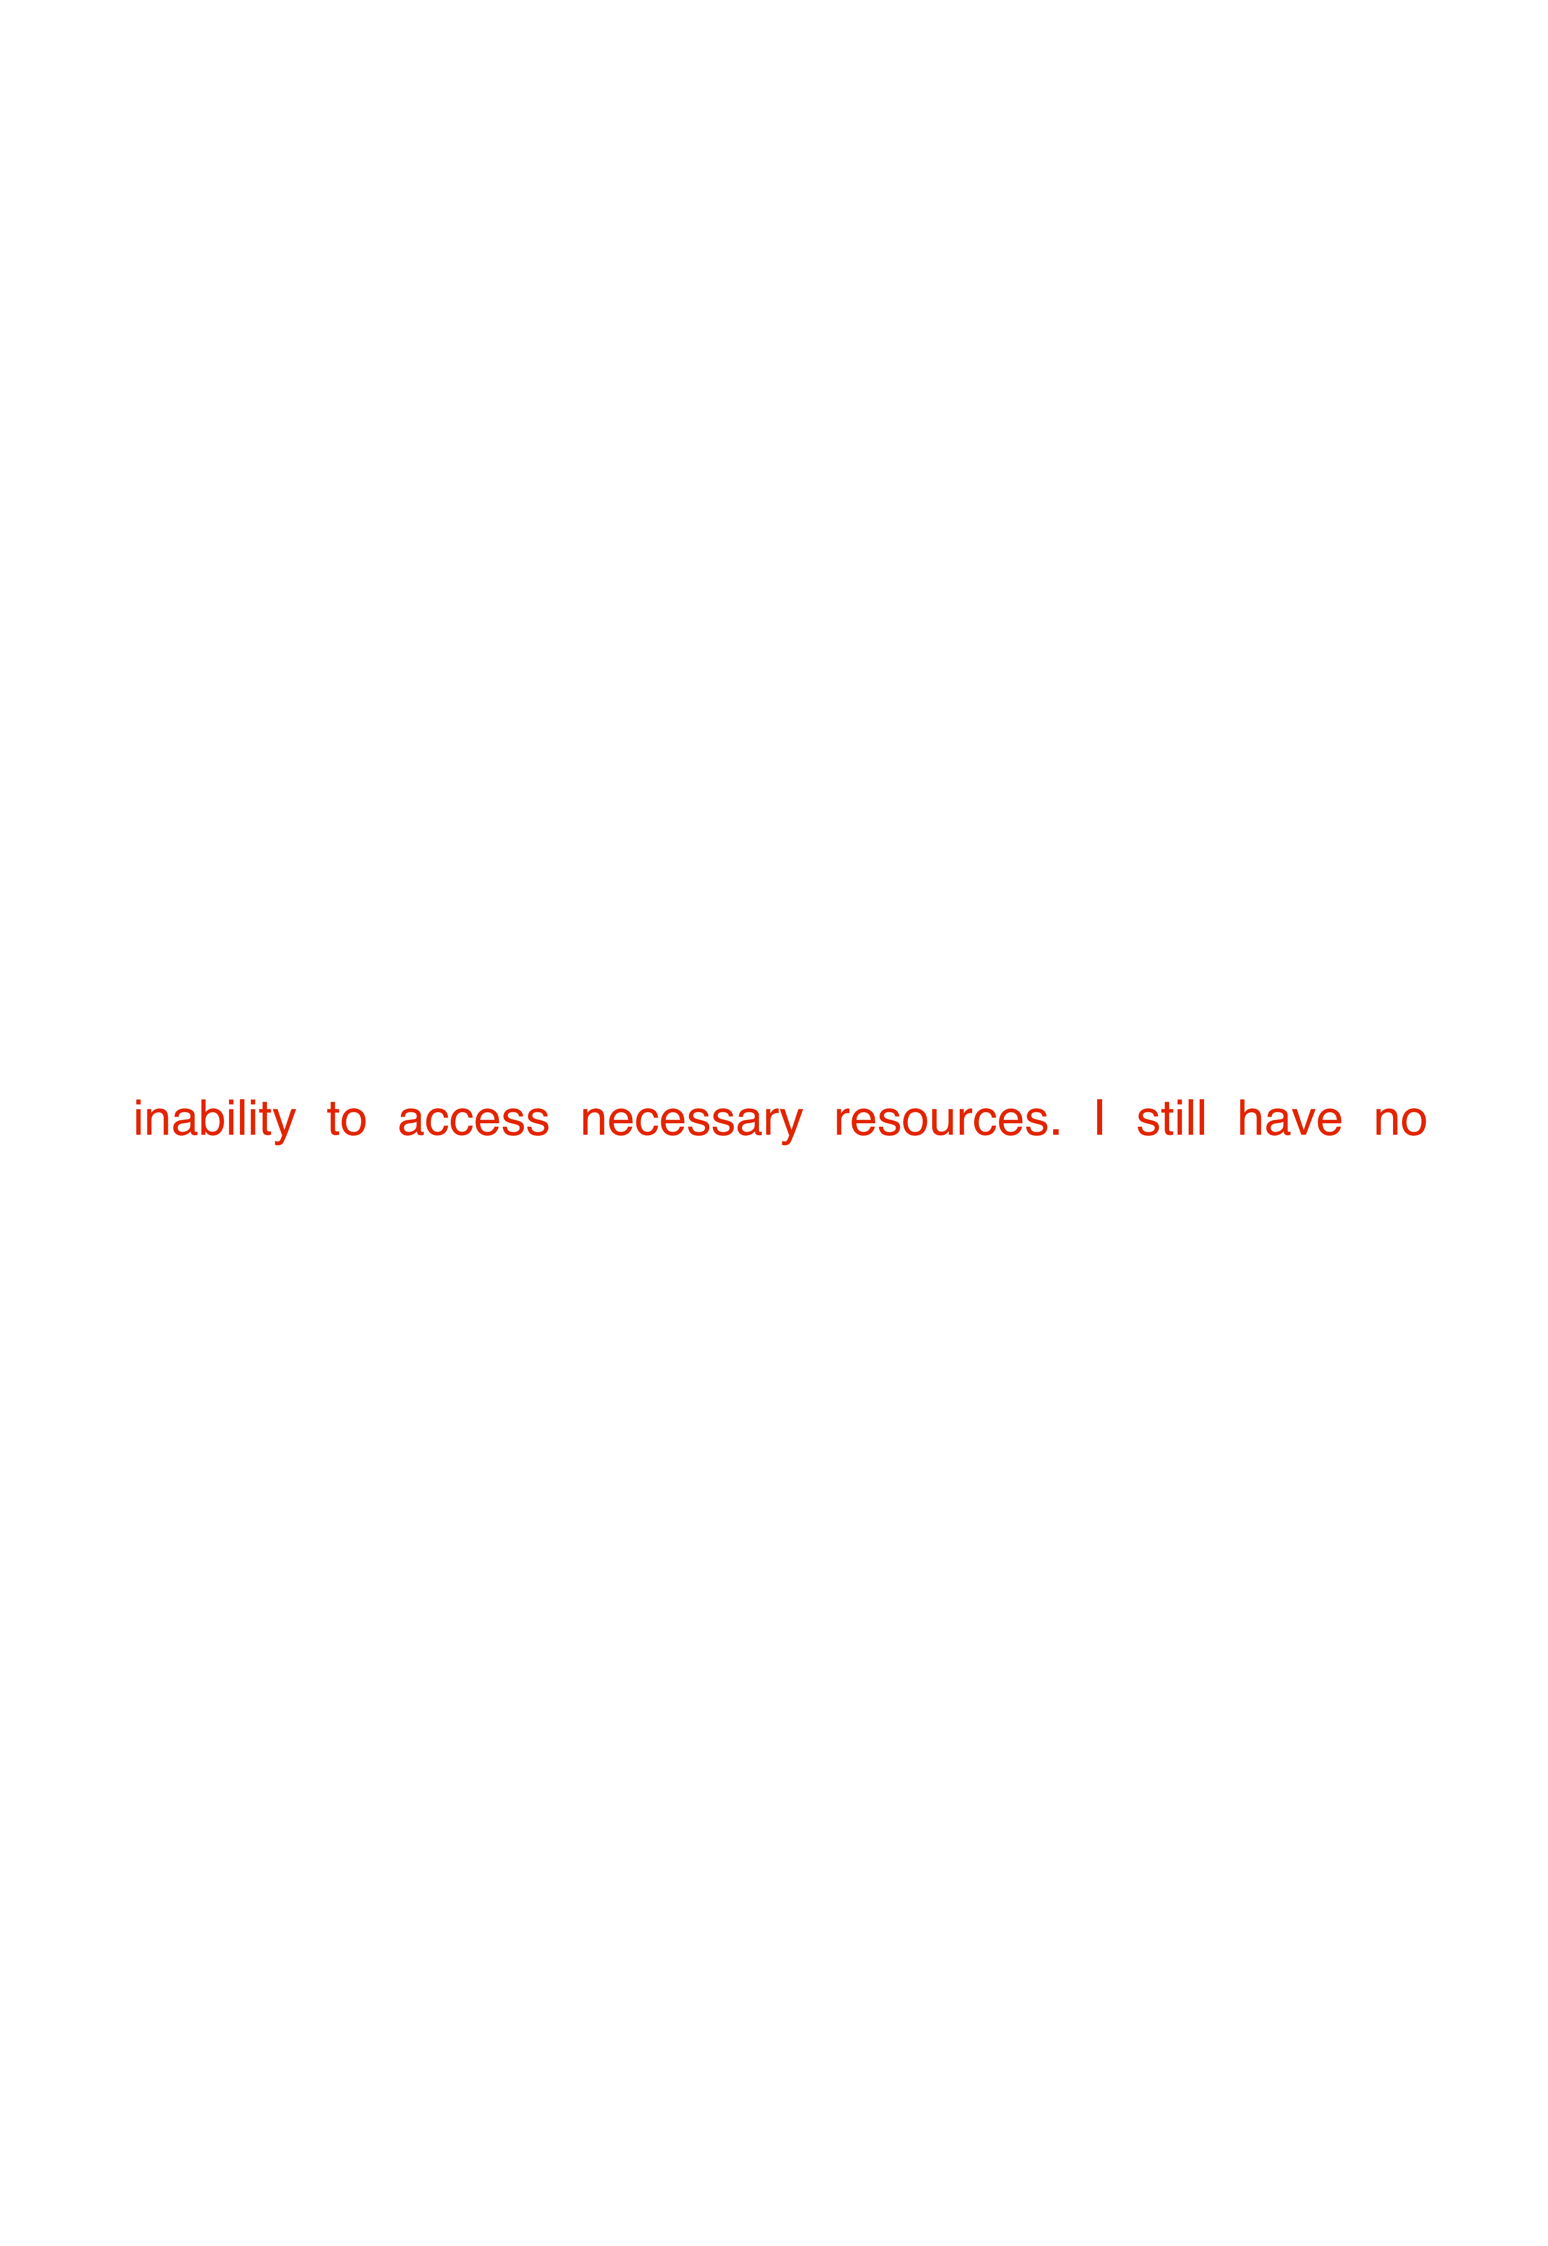

a conscious intent to elicit my harm.

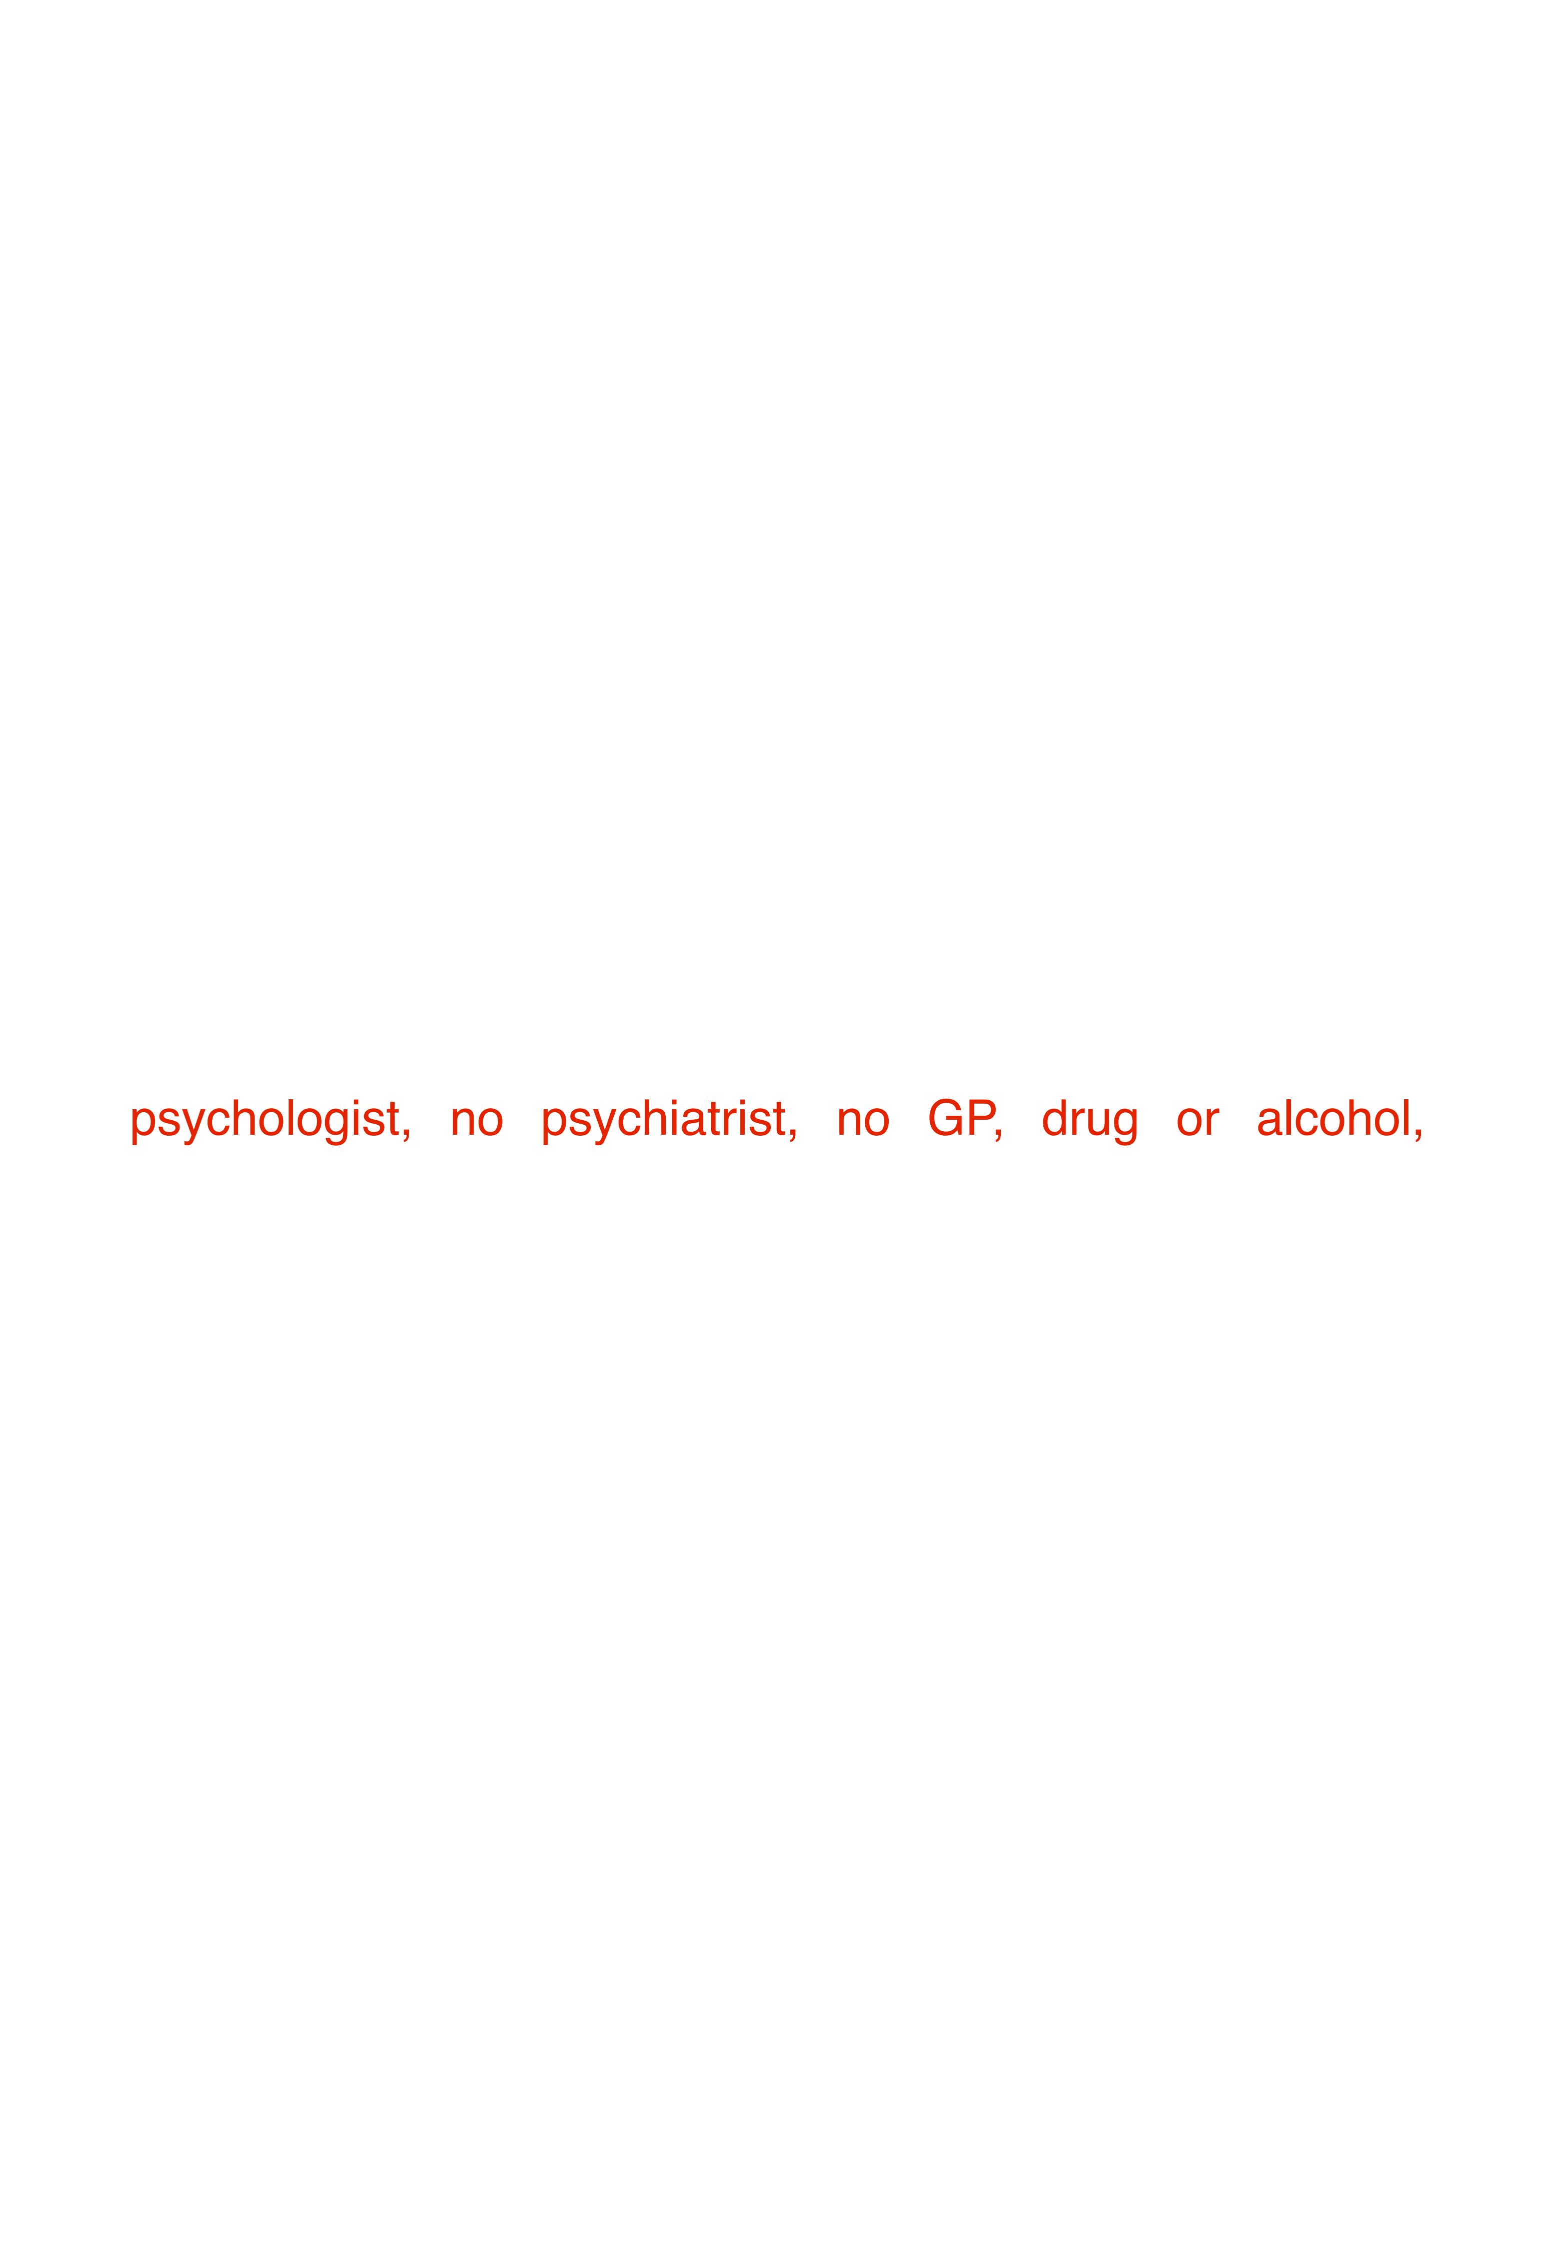

4. **Responsibility of Public Officials**:

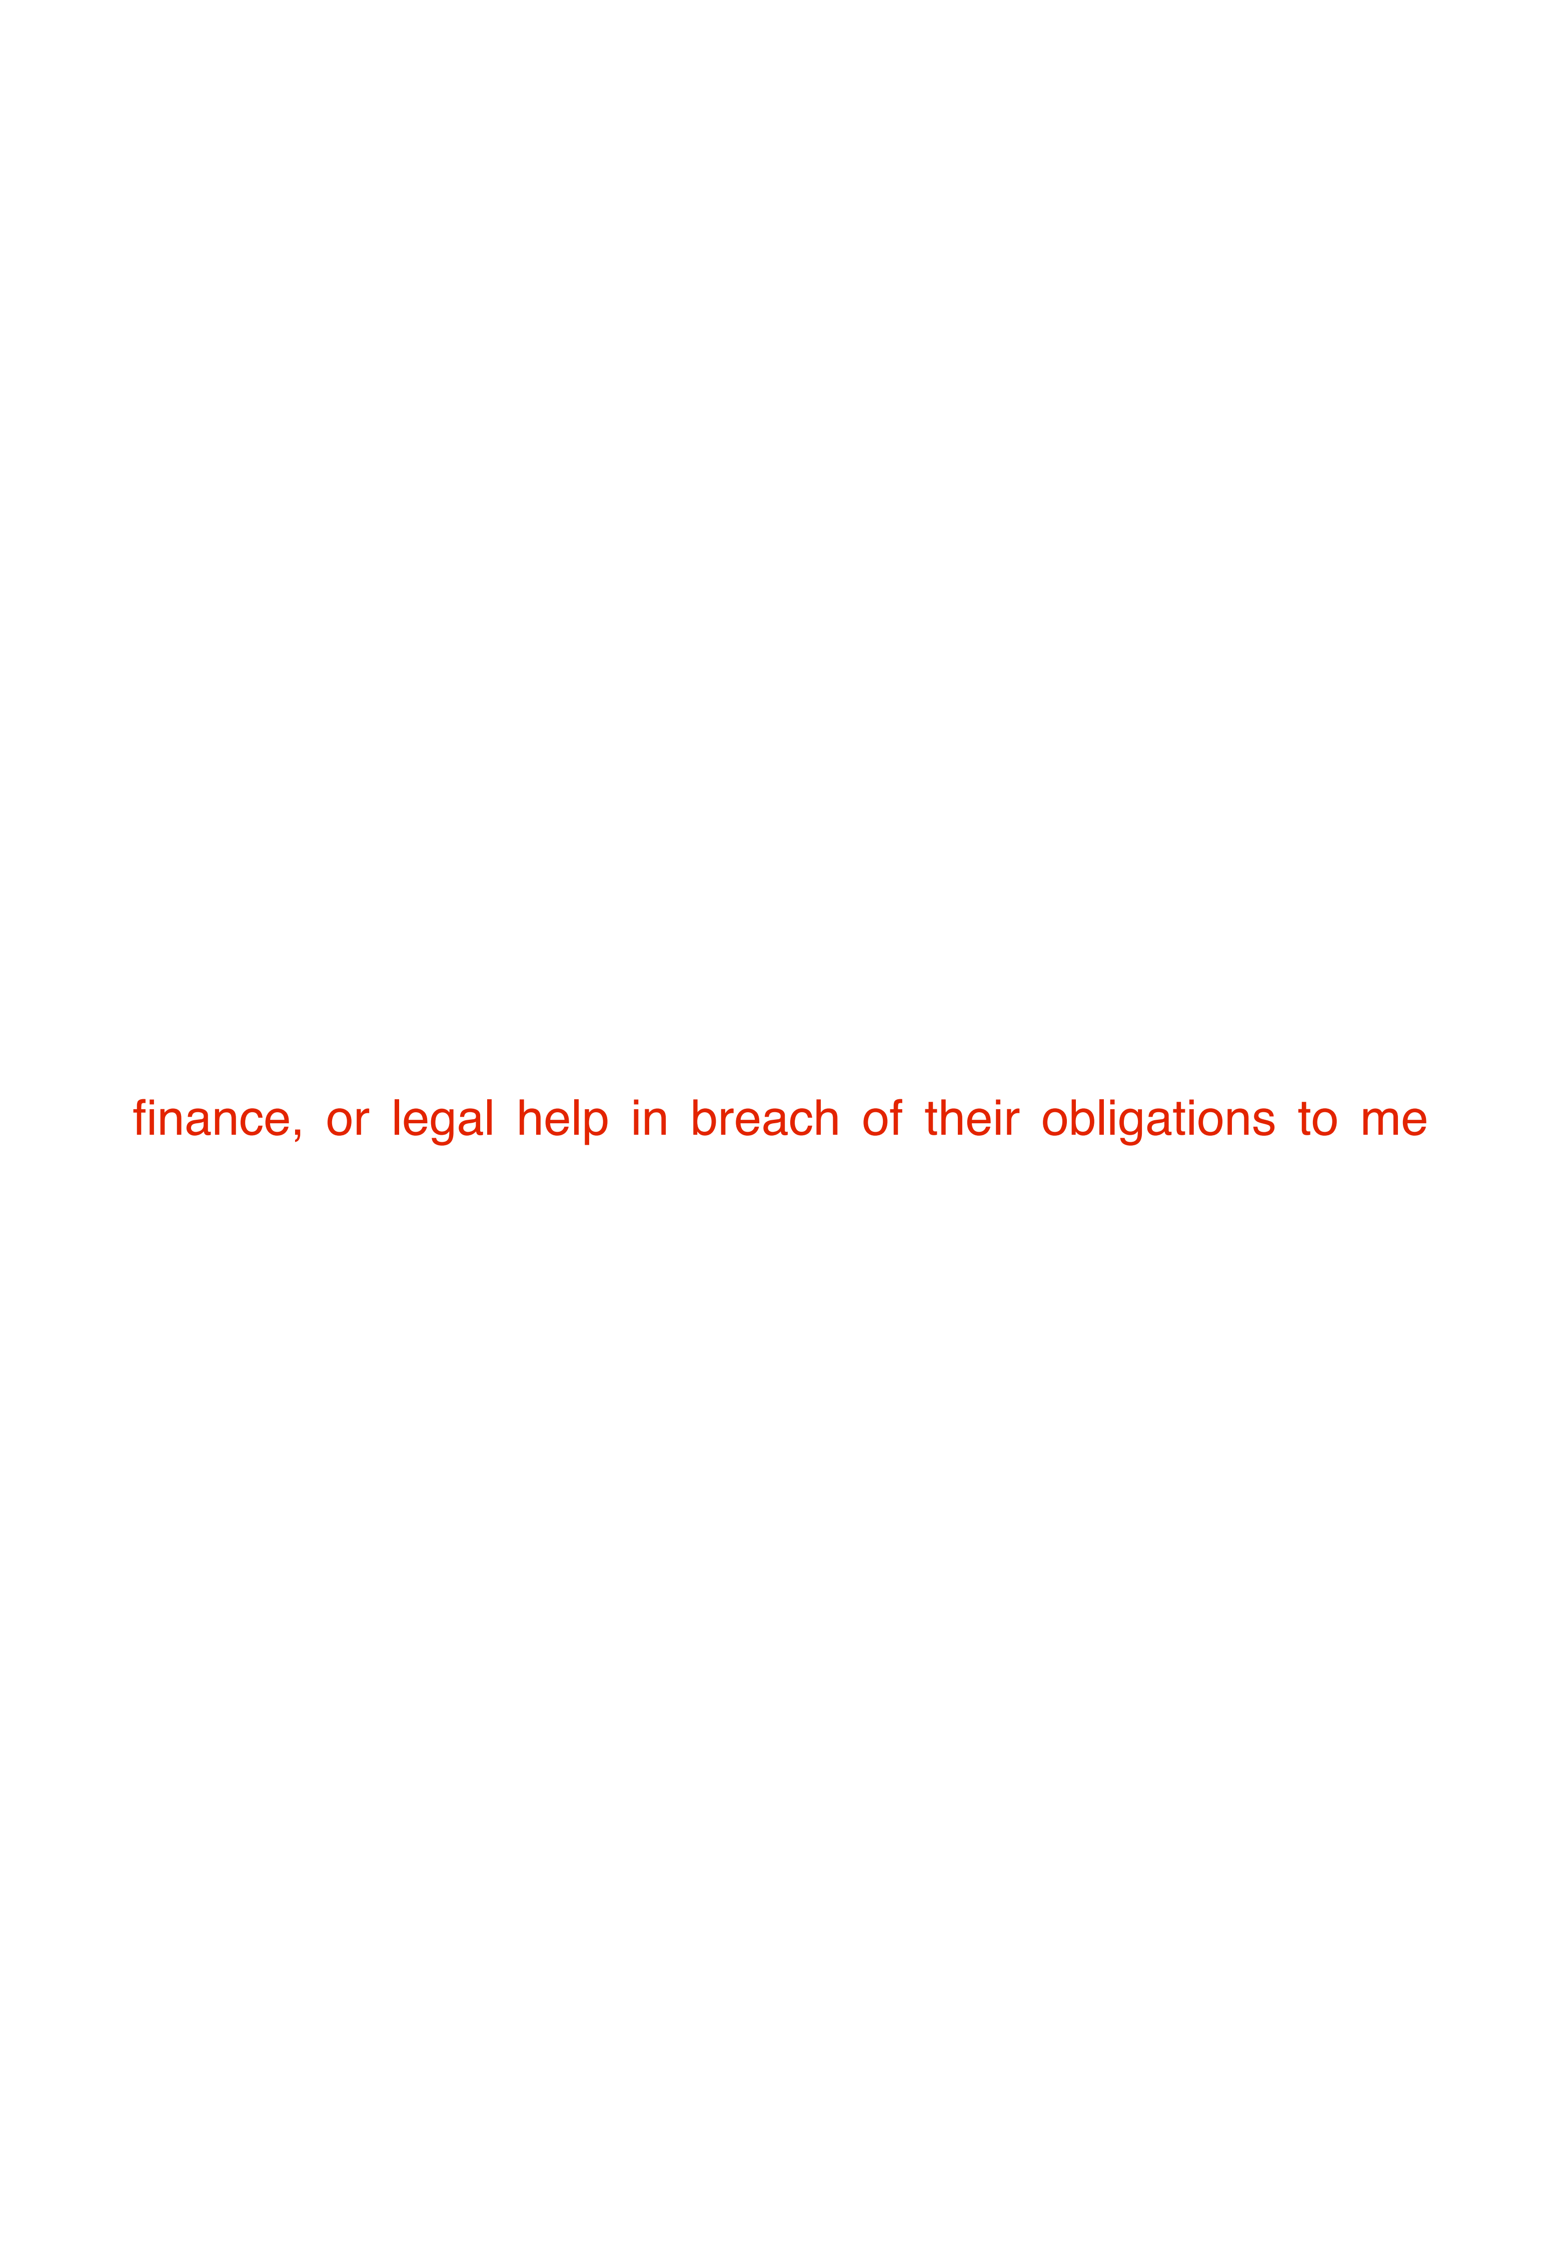

I hold Monster CEO and Kel Graham responsible for my

financial hardship and lack of support. I believe their

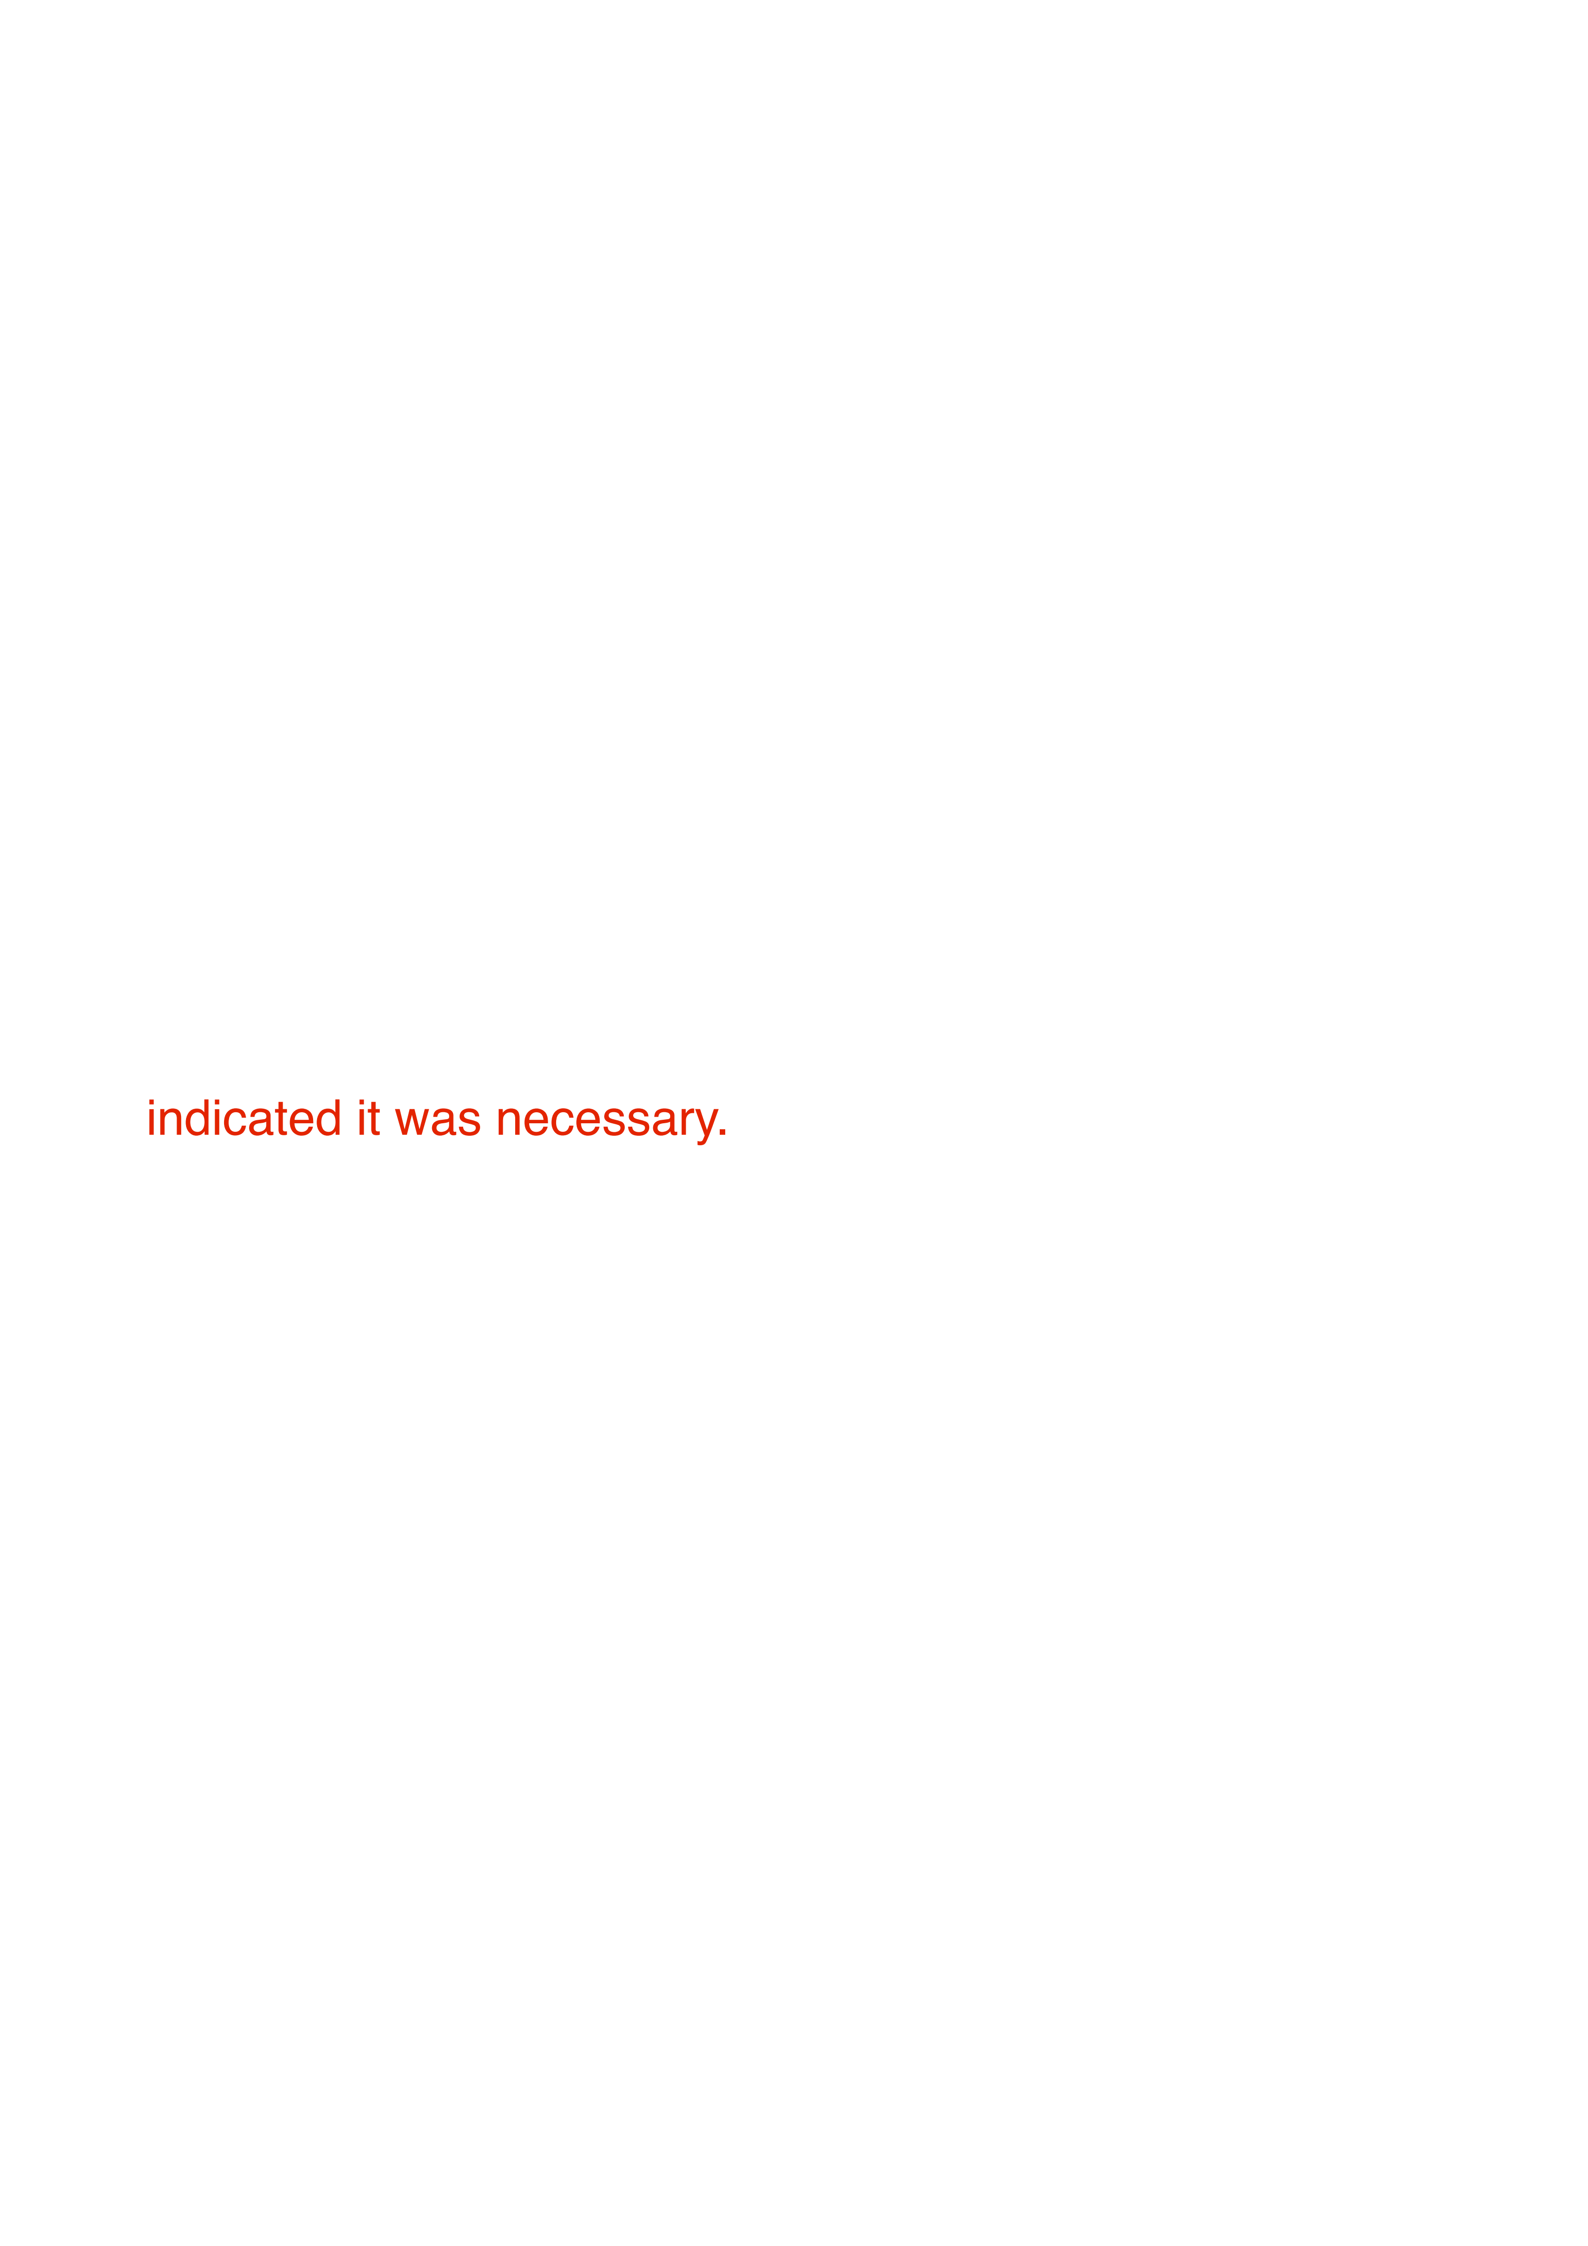

actions have directly contributed to my suffering and

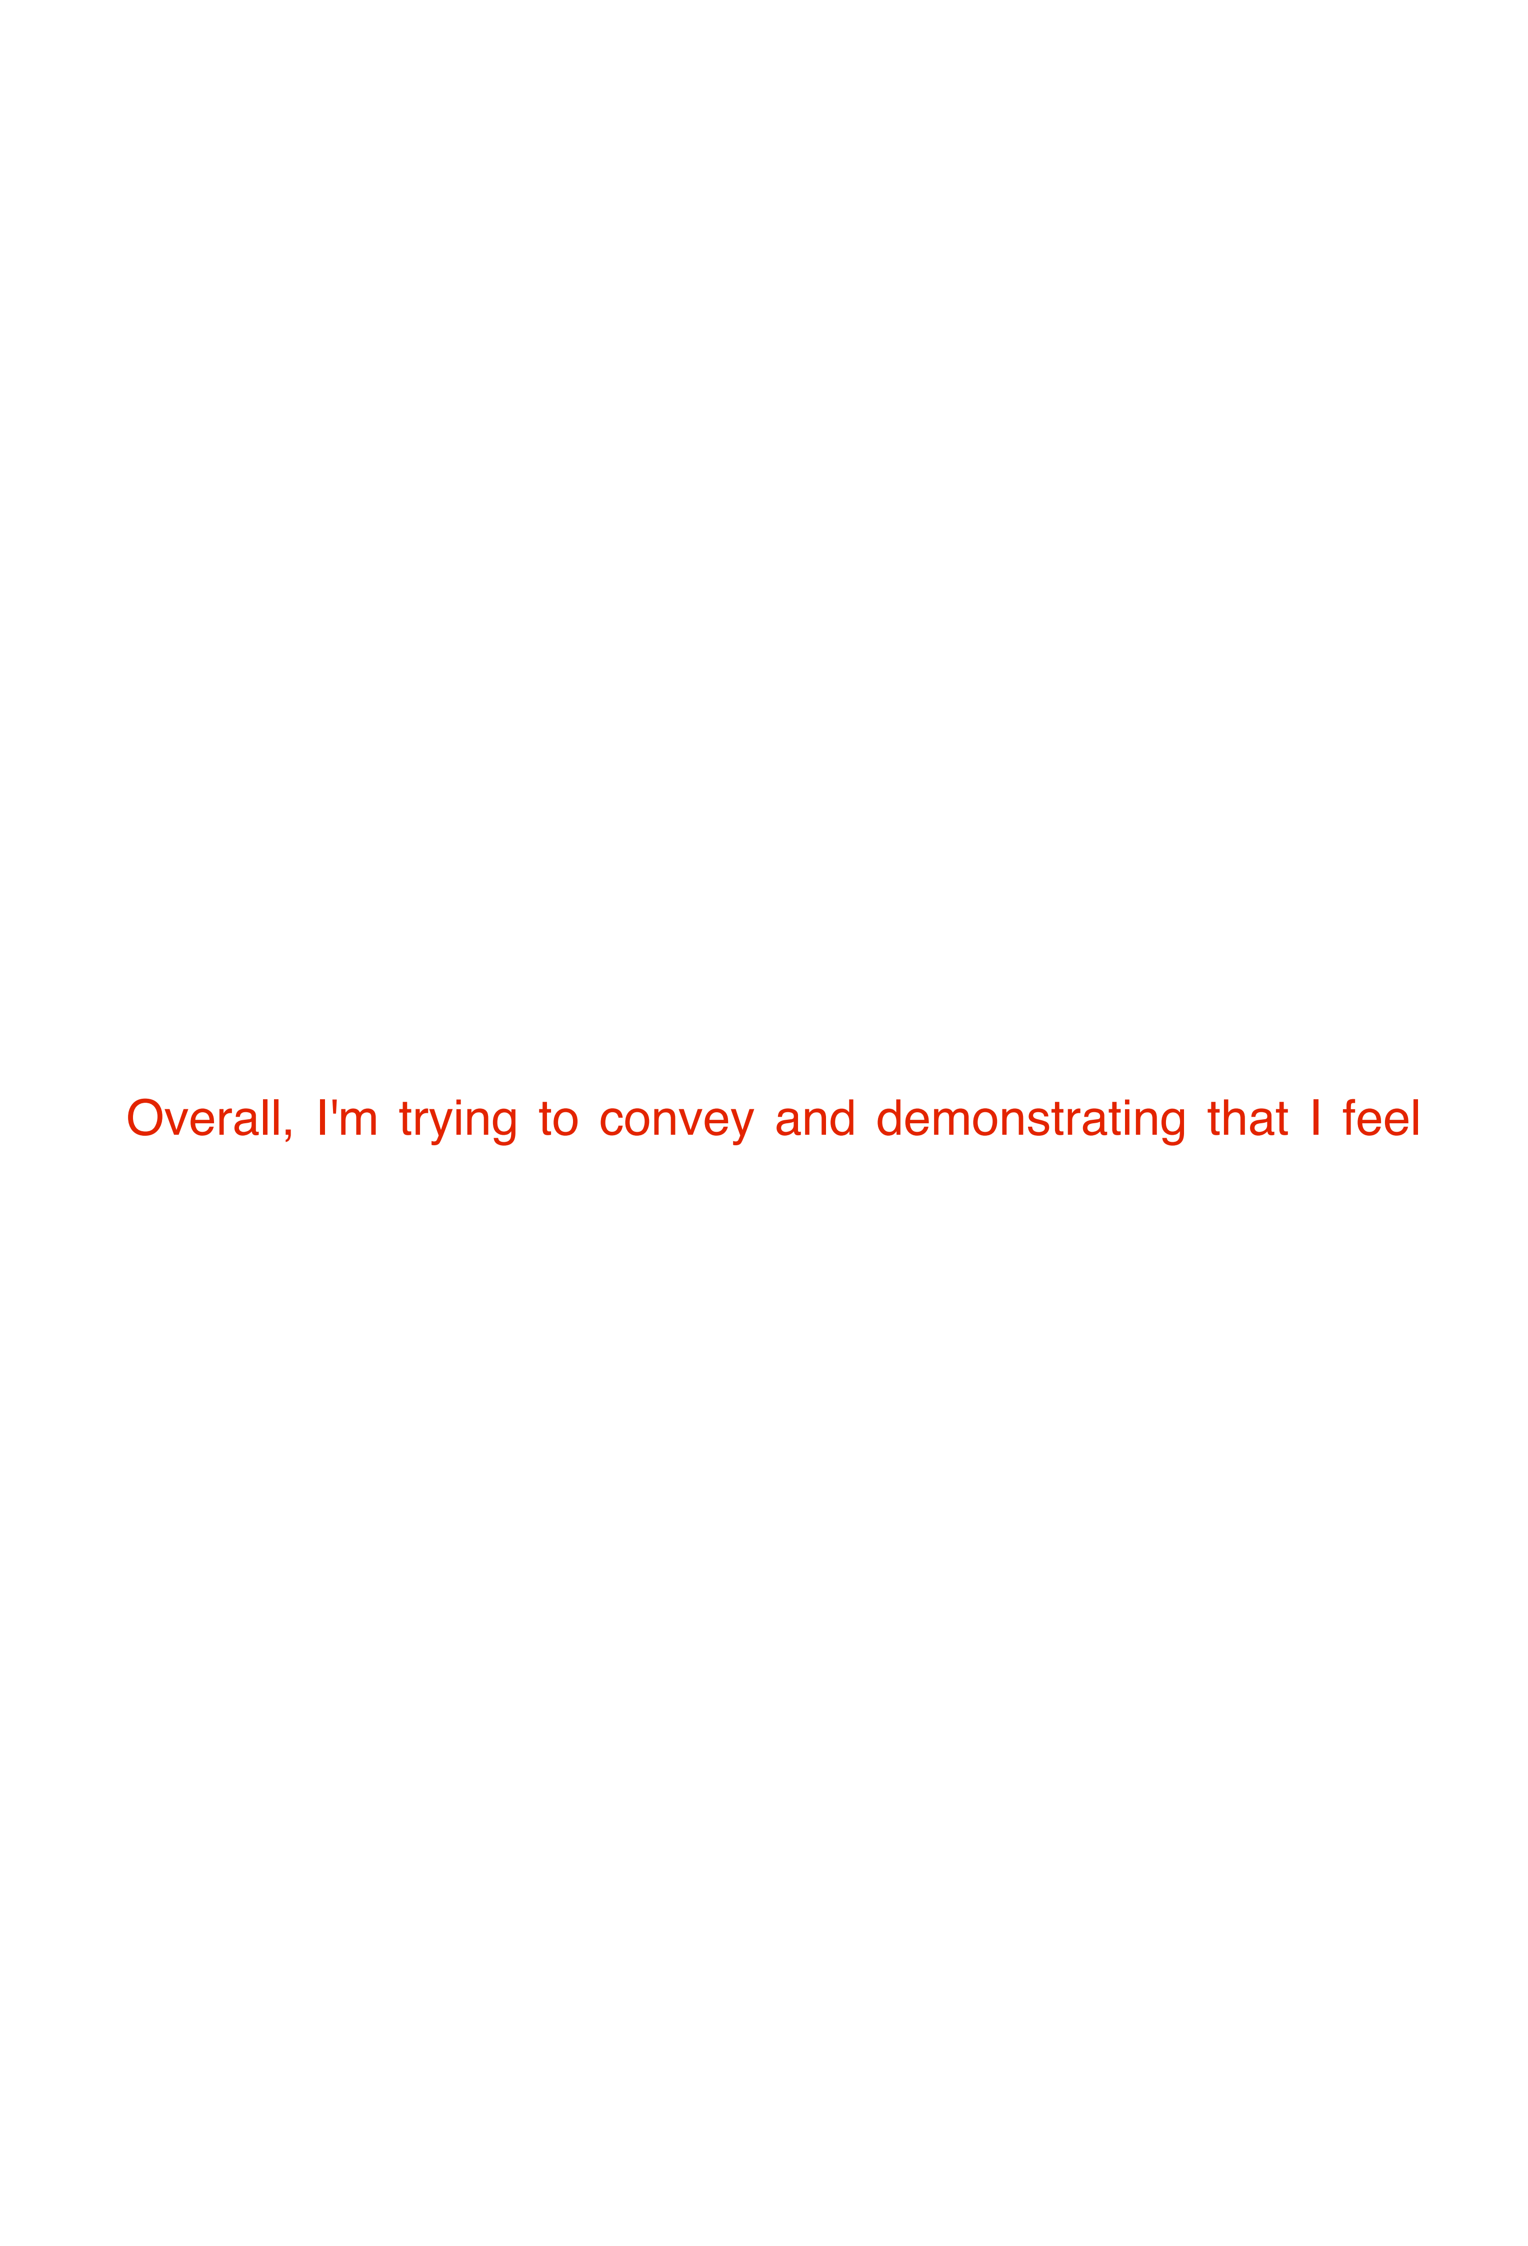

inability to access necessary resources. I still have no

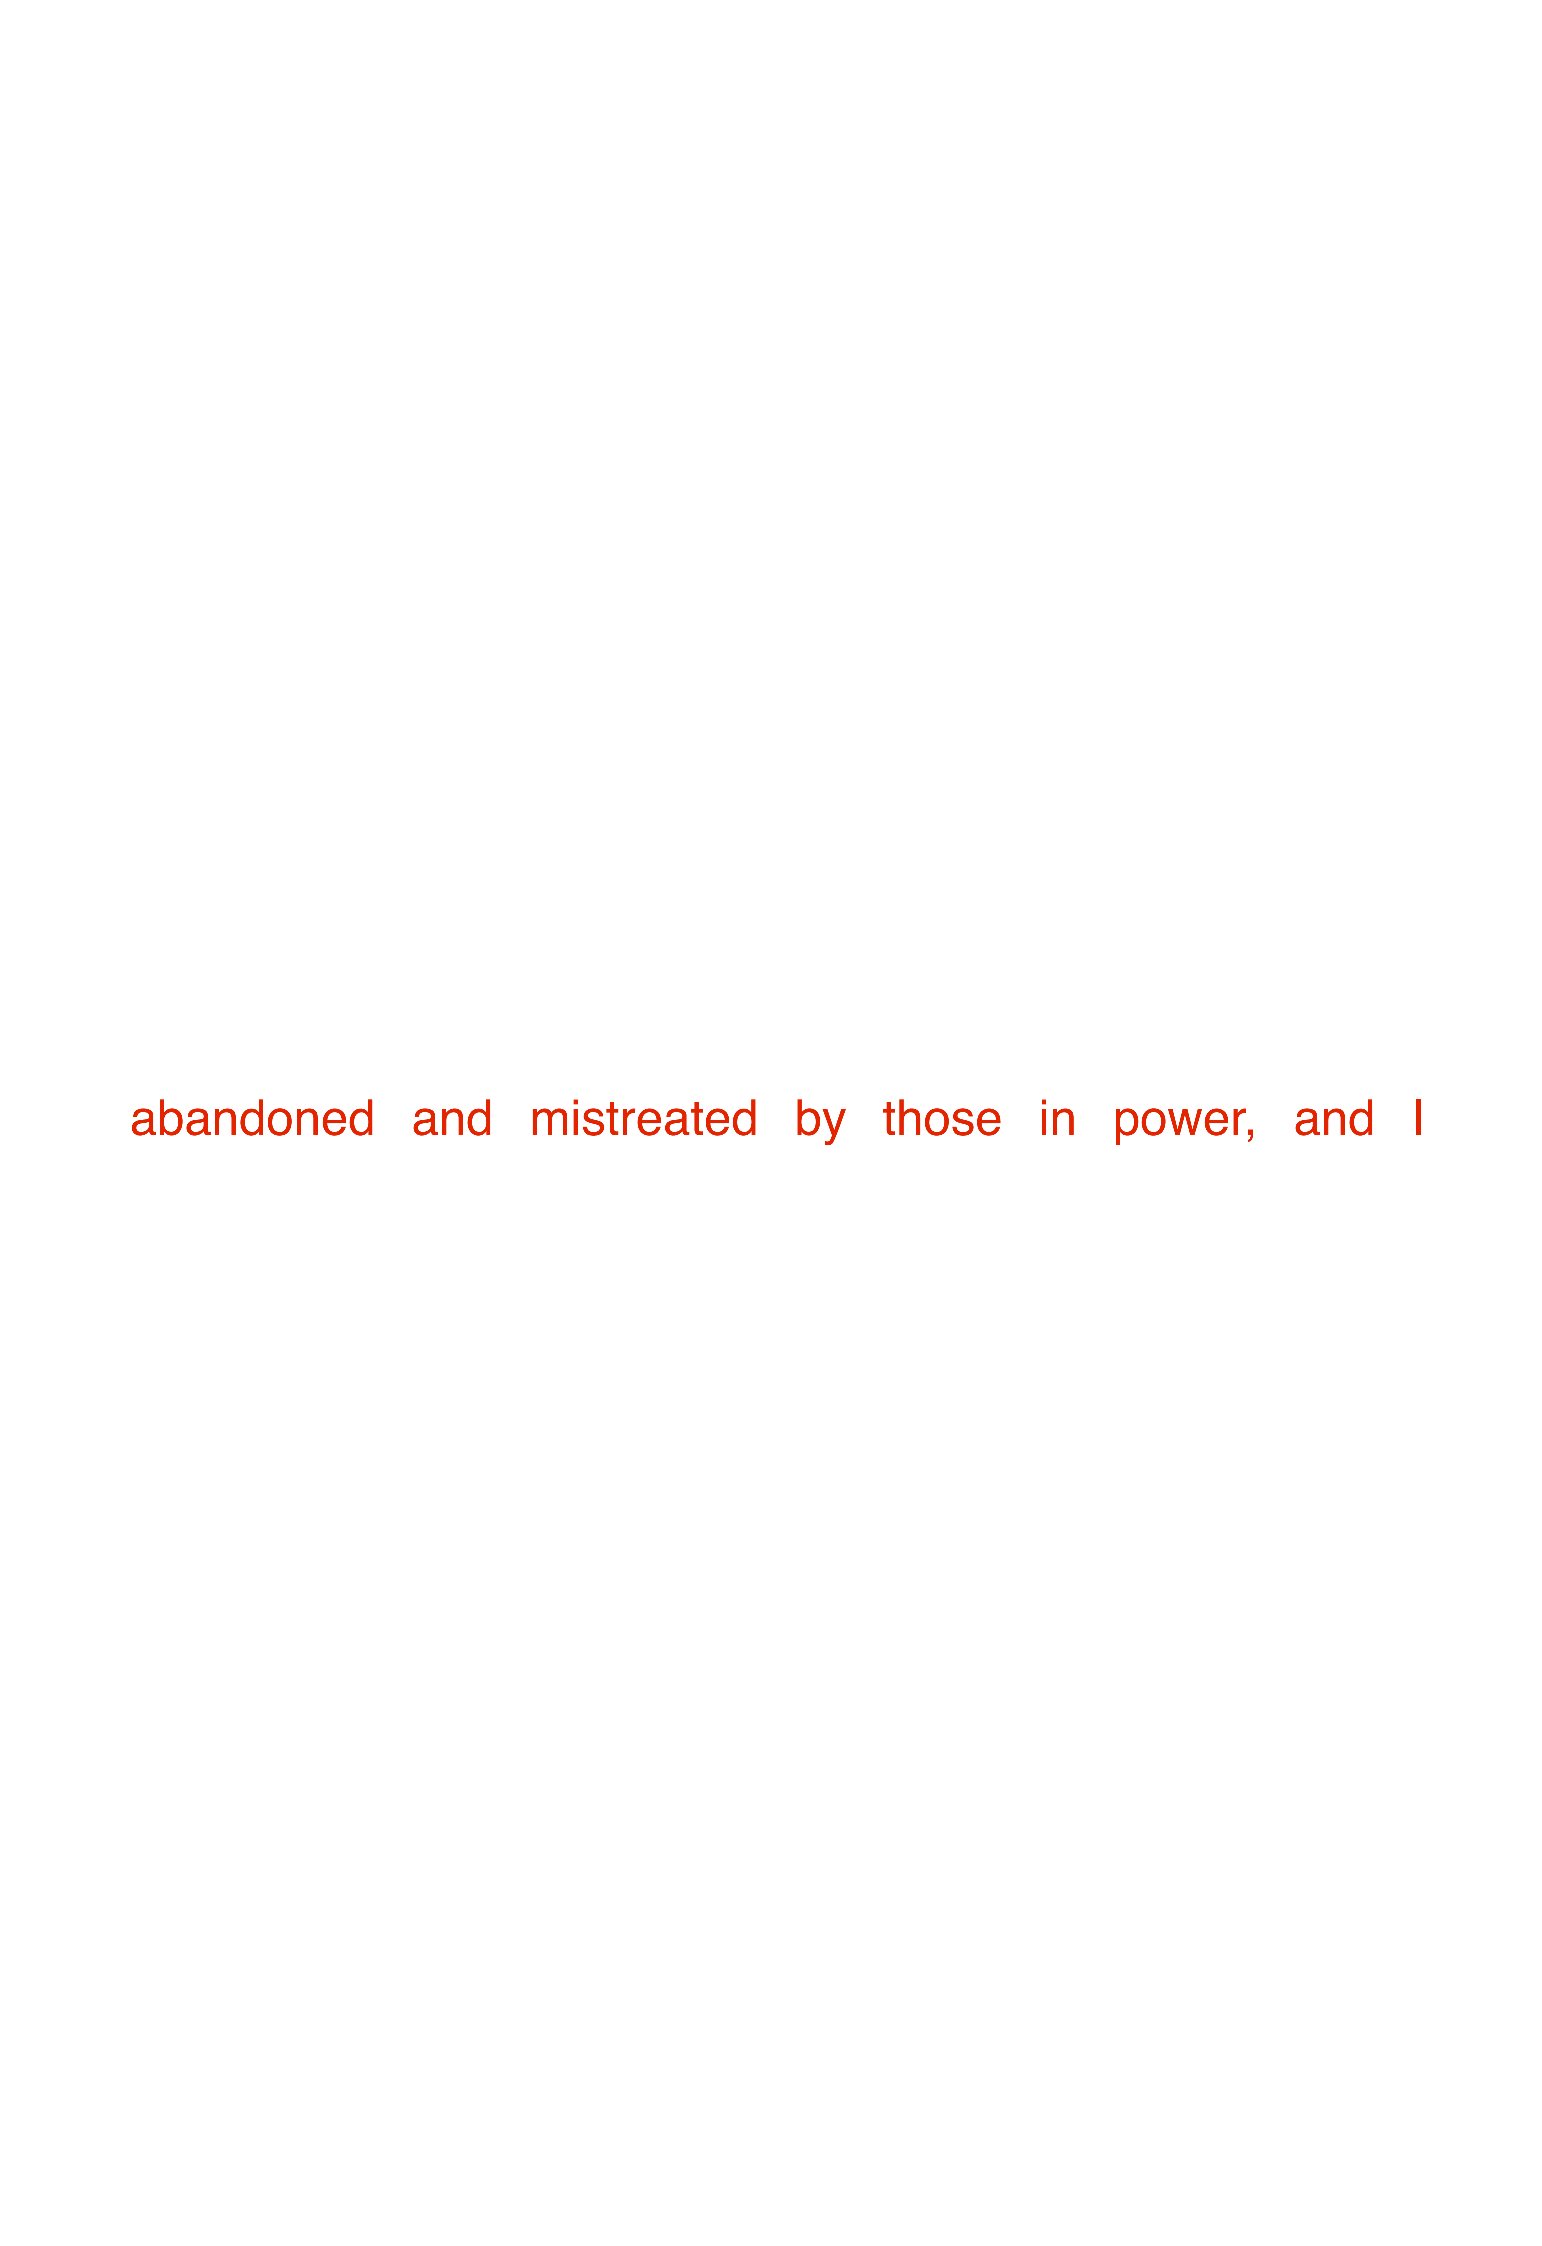

psychologist, no psychiatrist, no GP, drug or alcohol,

finance, or legal help in breach of their obligations to me

and were rejected when the OT and behavioural specialist

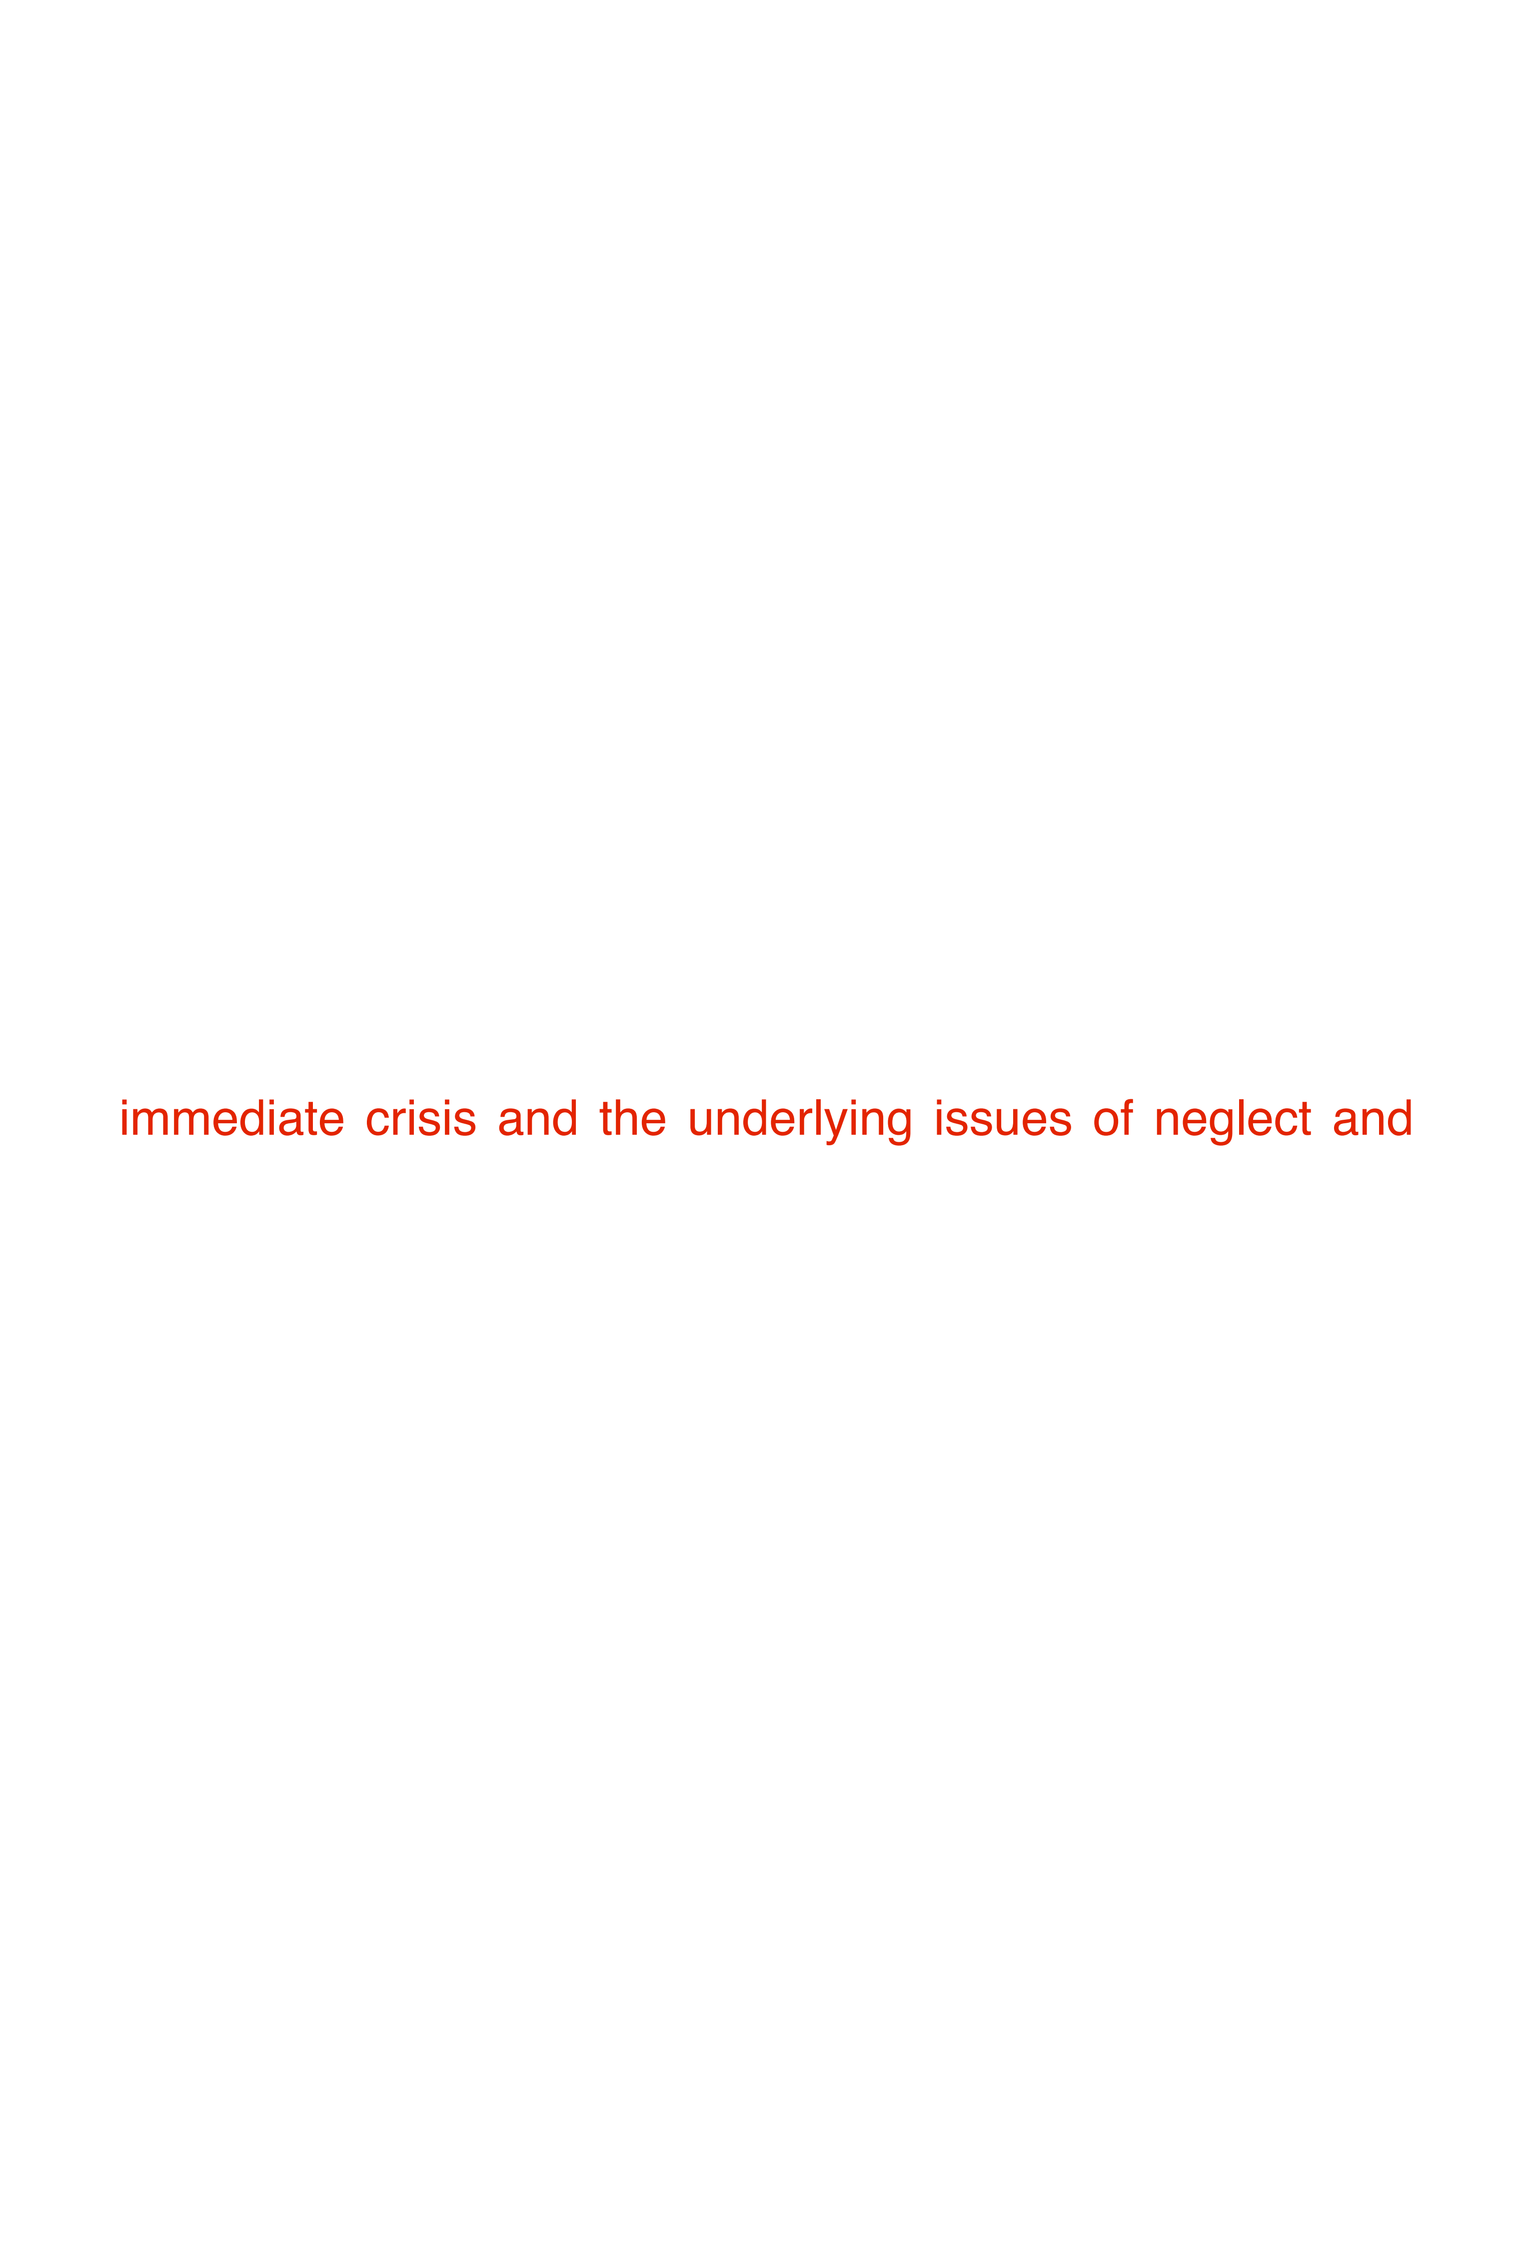

indicated it was necessary.

Overall, I'm trying to convey and demonstrating that I feel

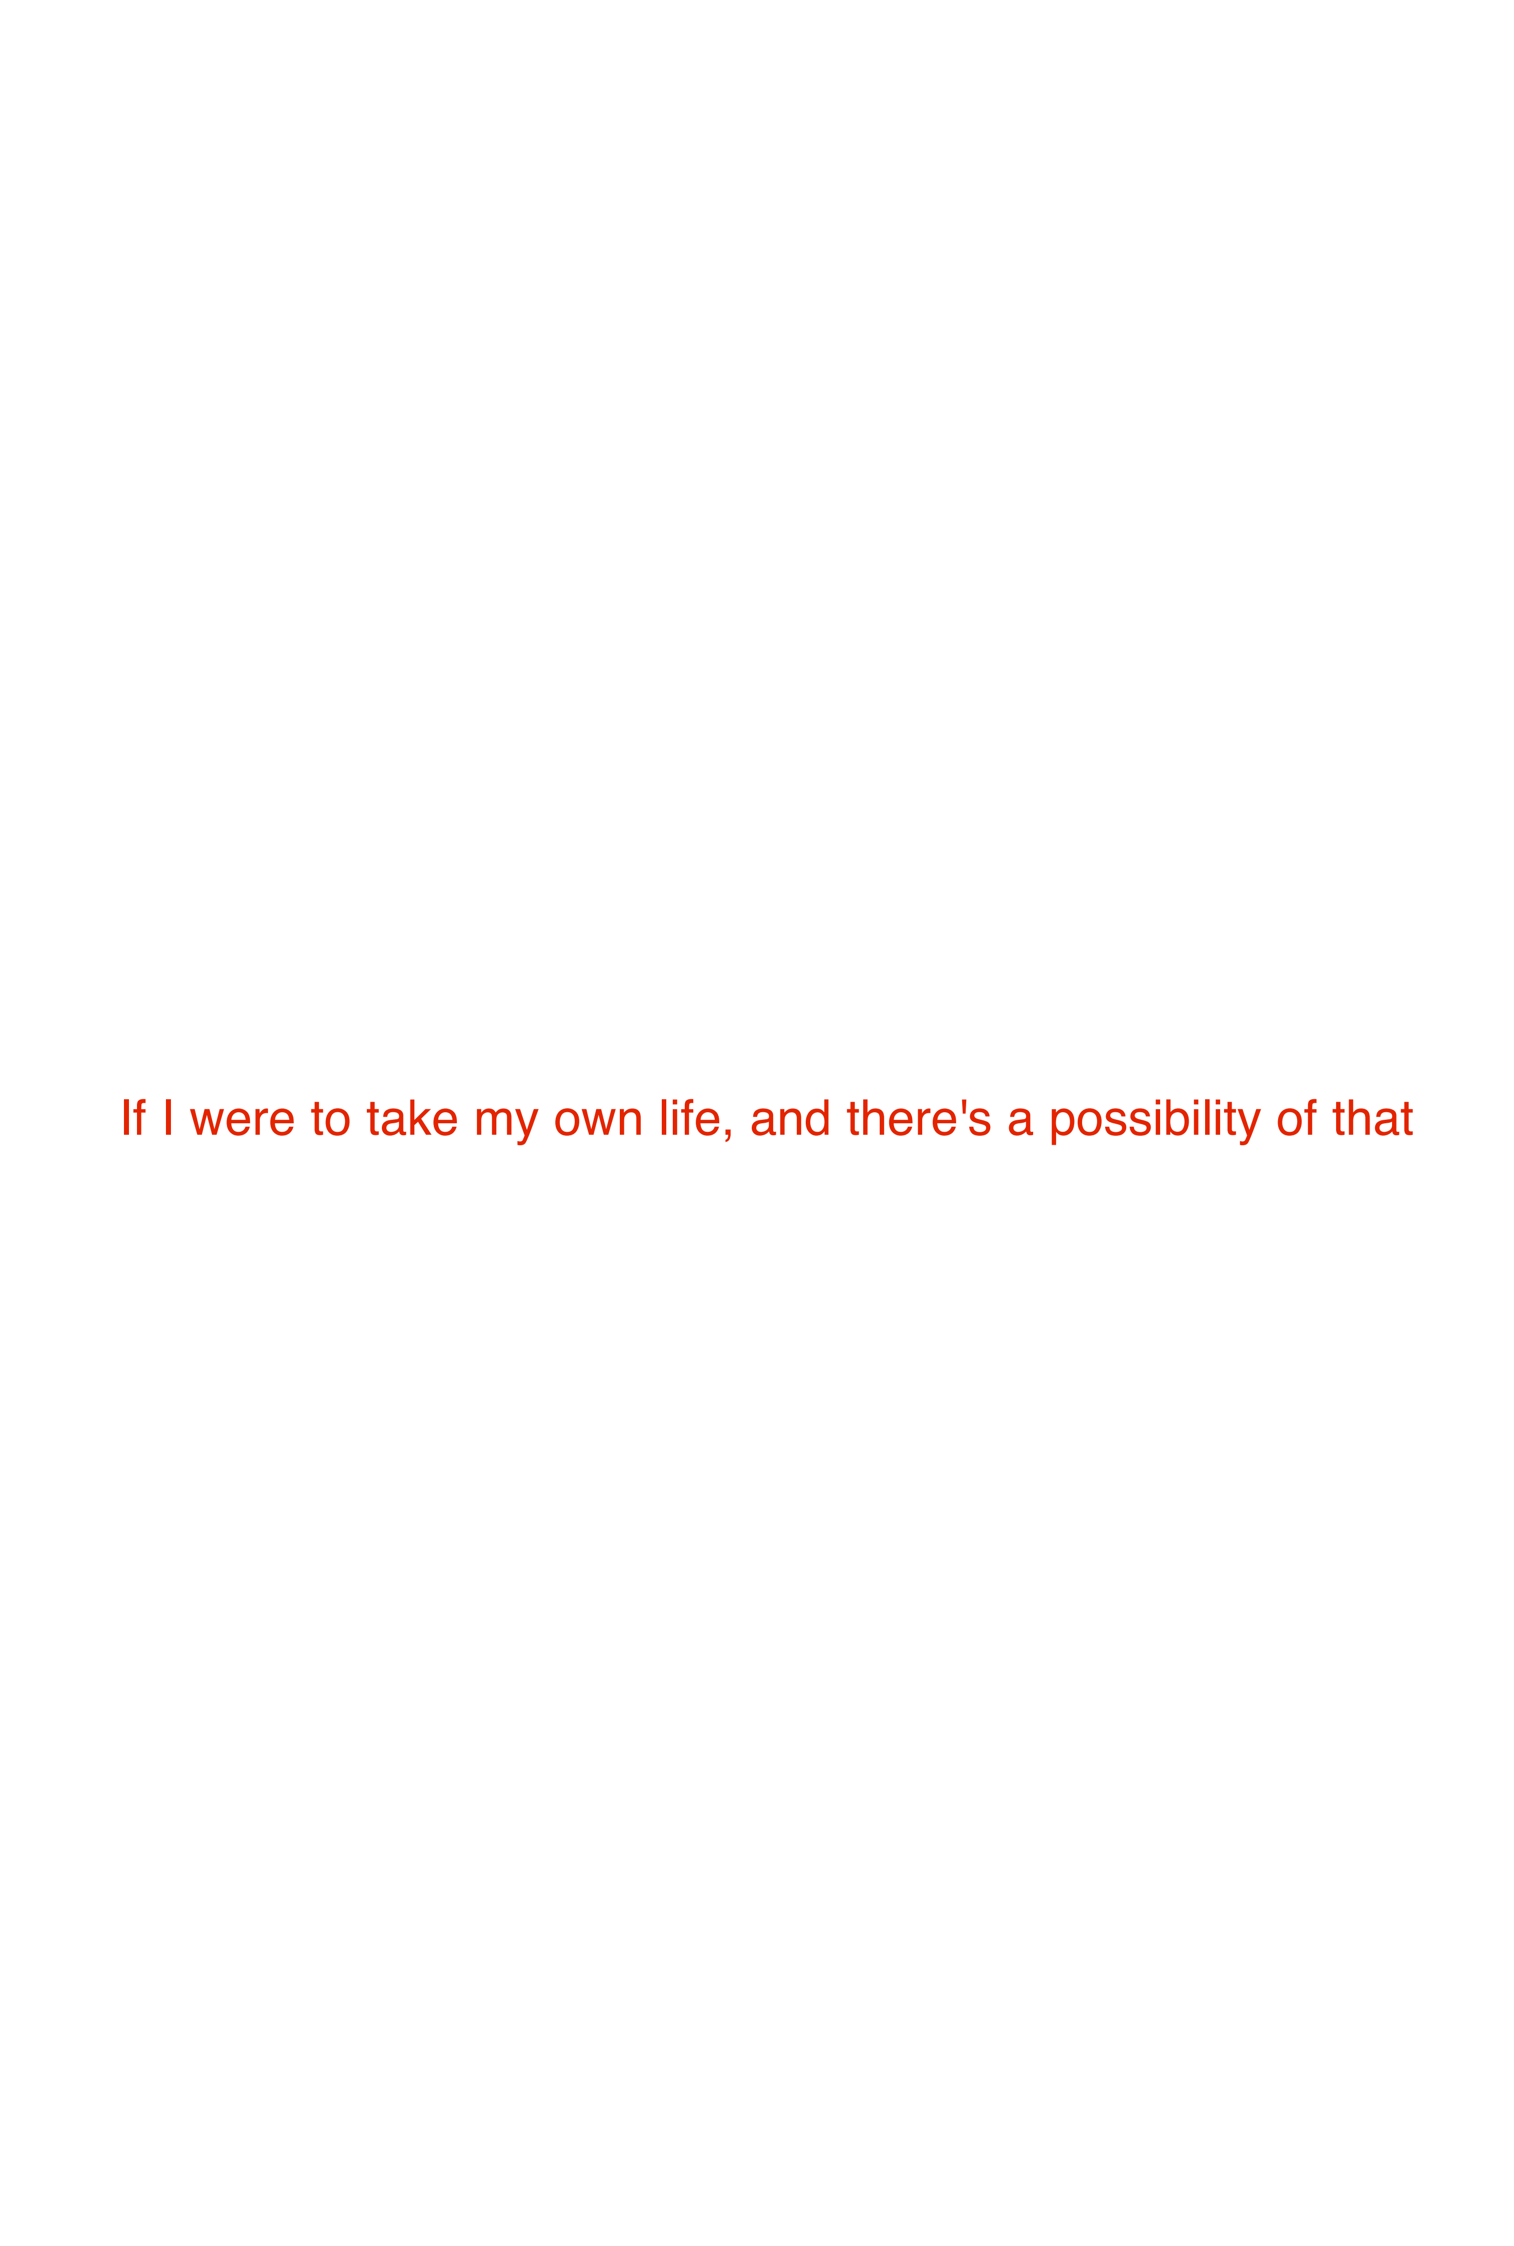

abandoned and mistreated by those in power, and I

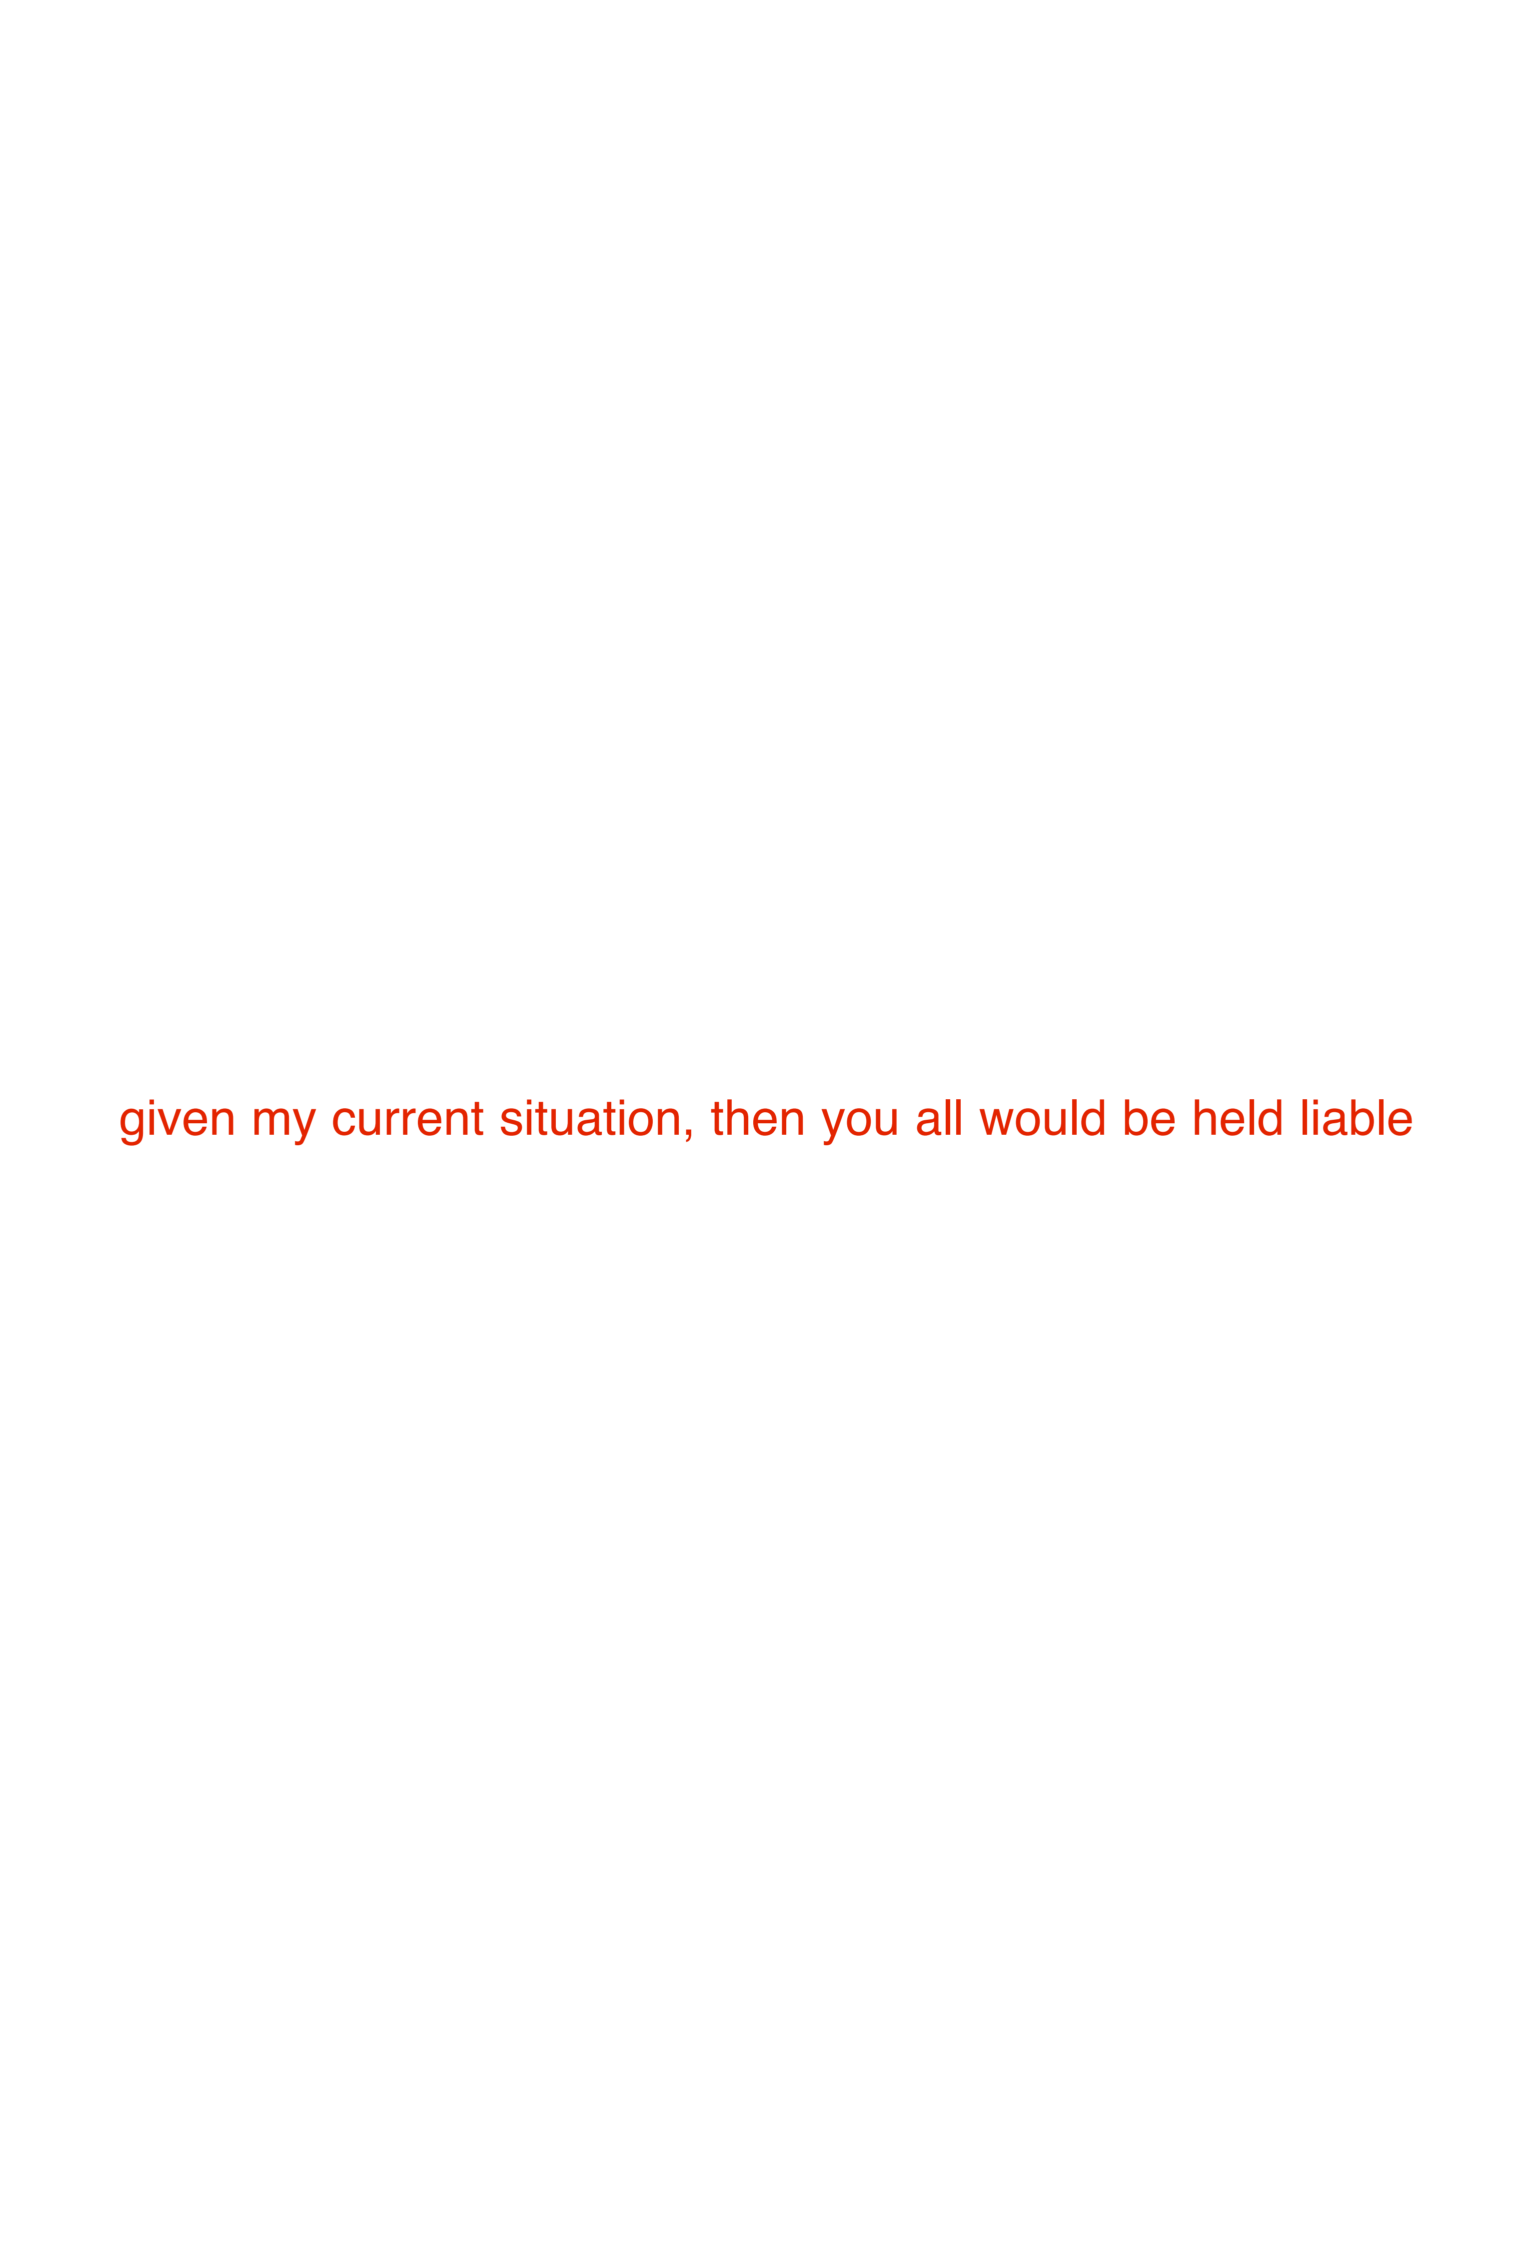

urgently need intervention and support to address both the

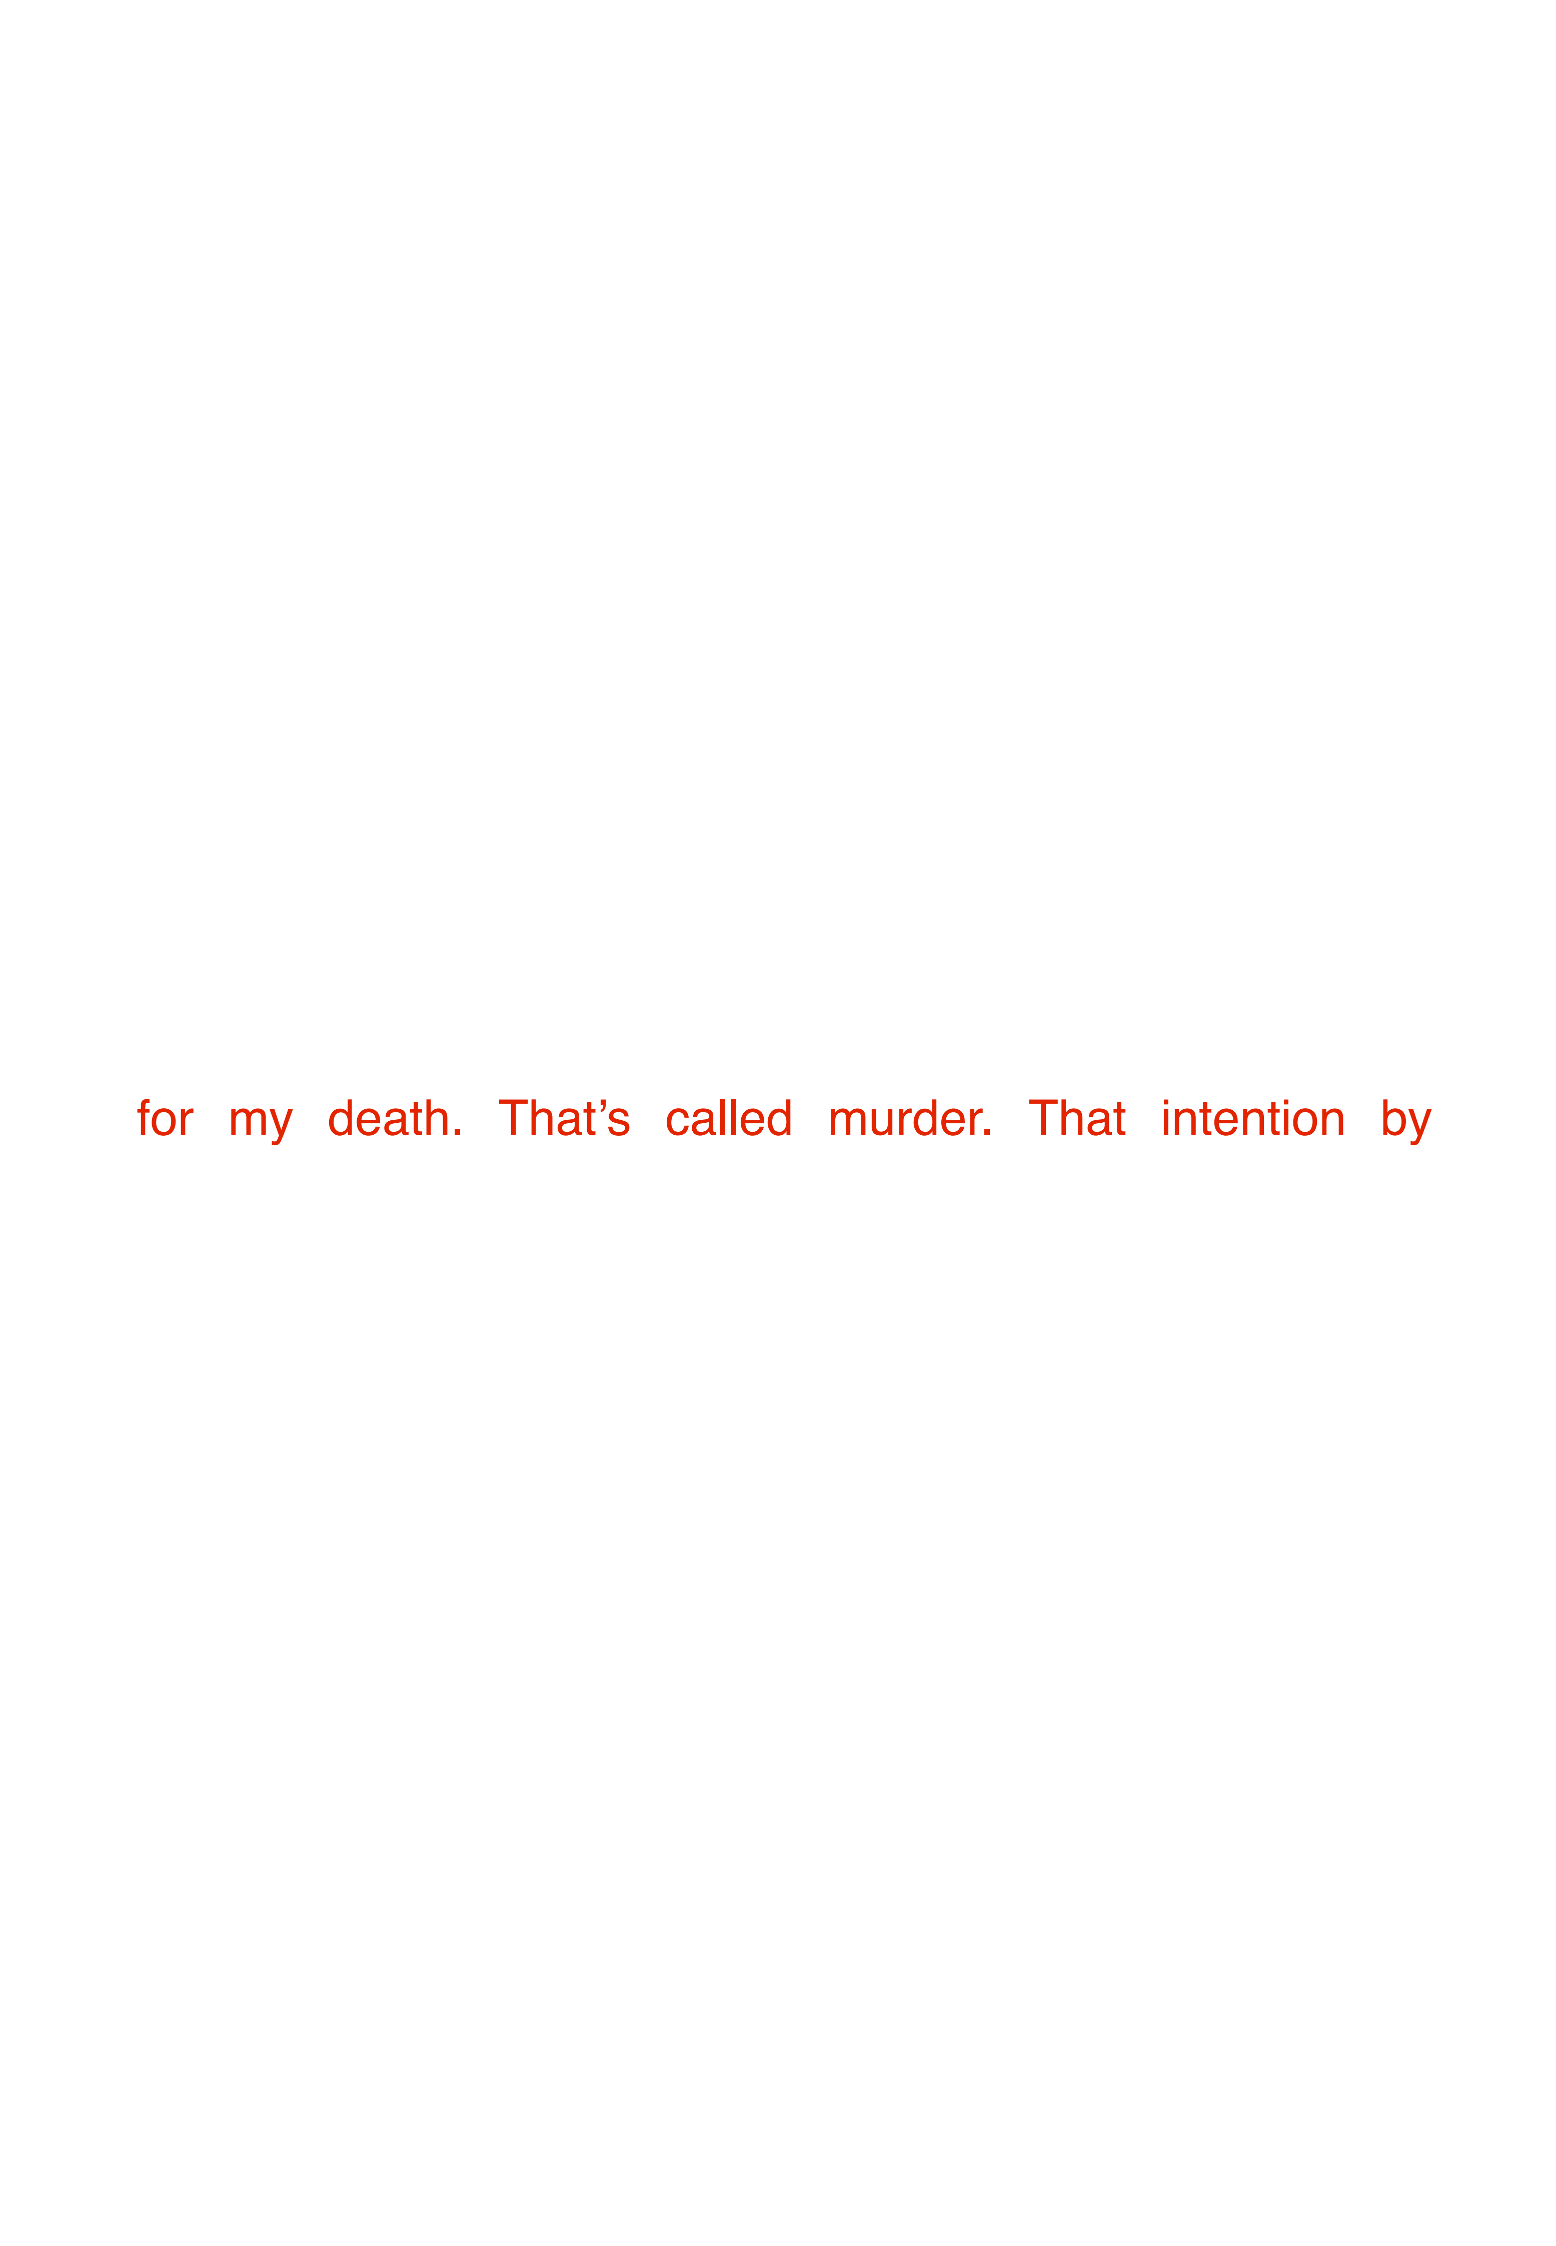

immediate crisis and the underlying issues of neglect and

abuse.

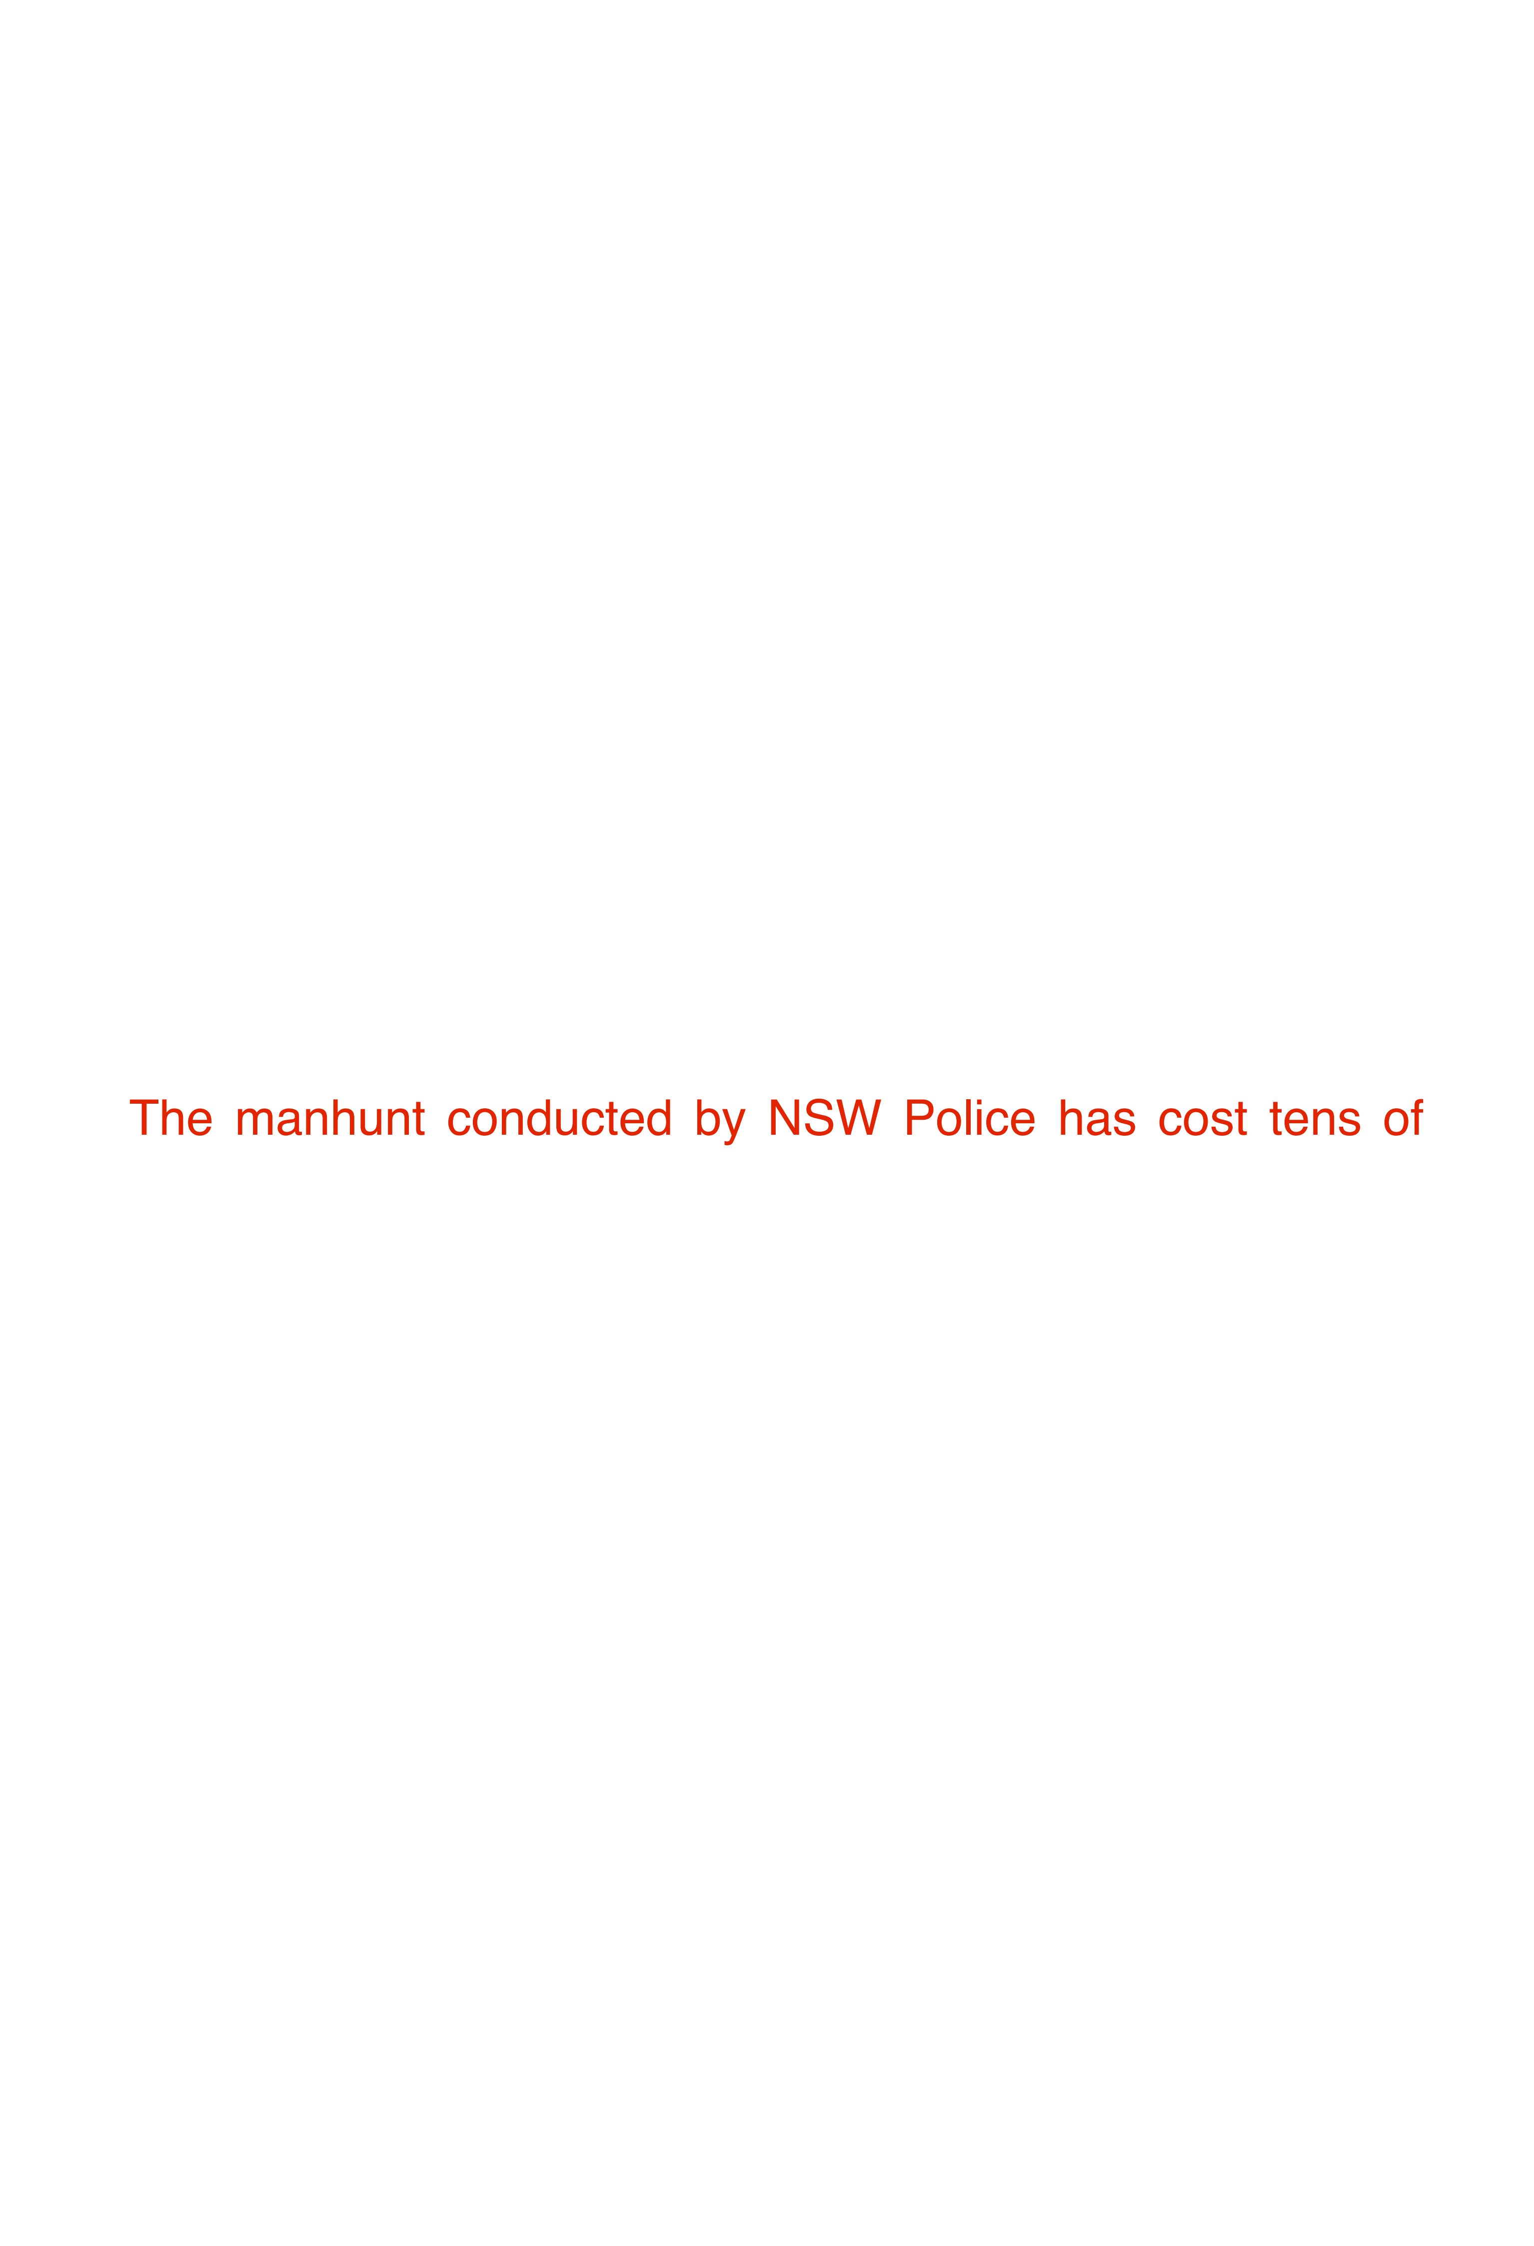

If I were to take my own life, and there's a possibility of that

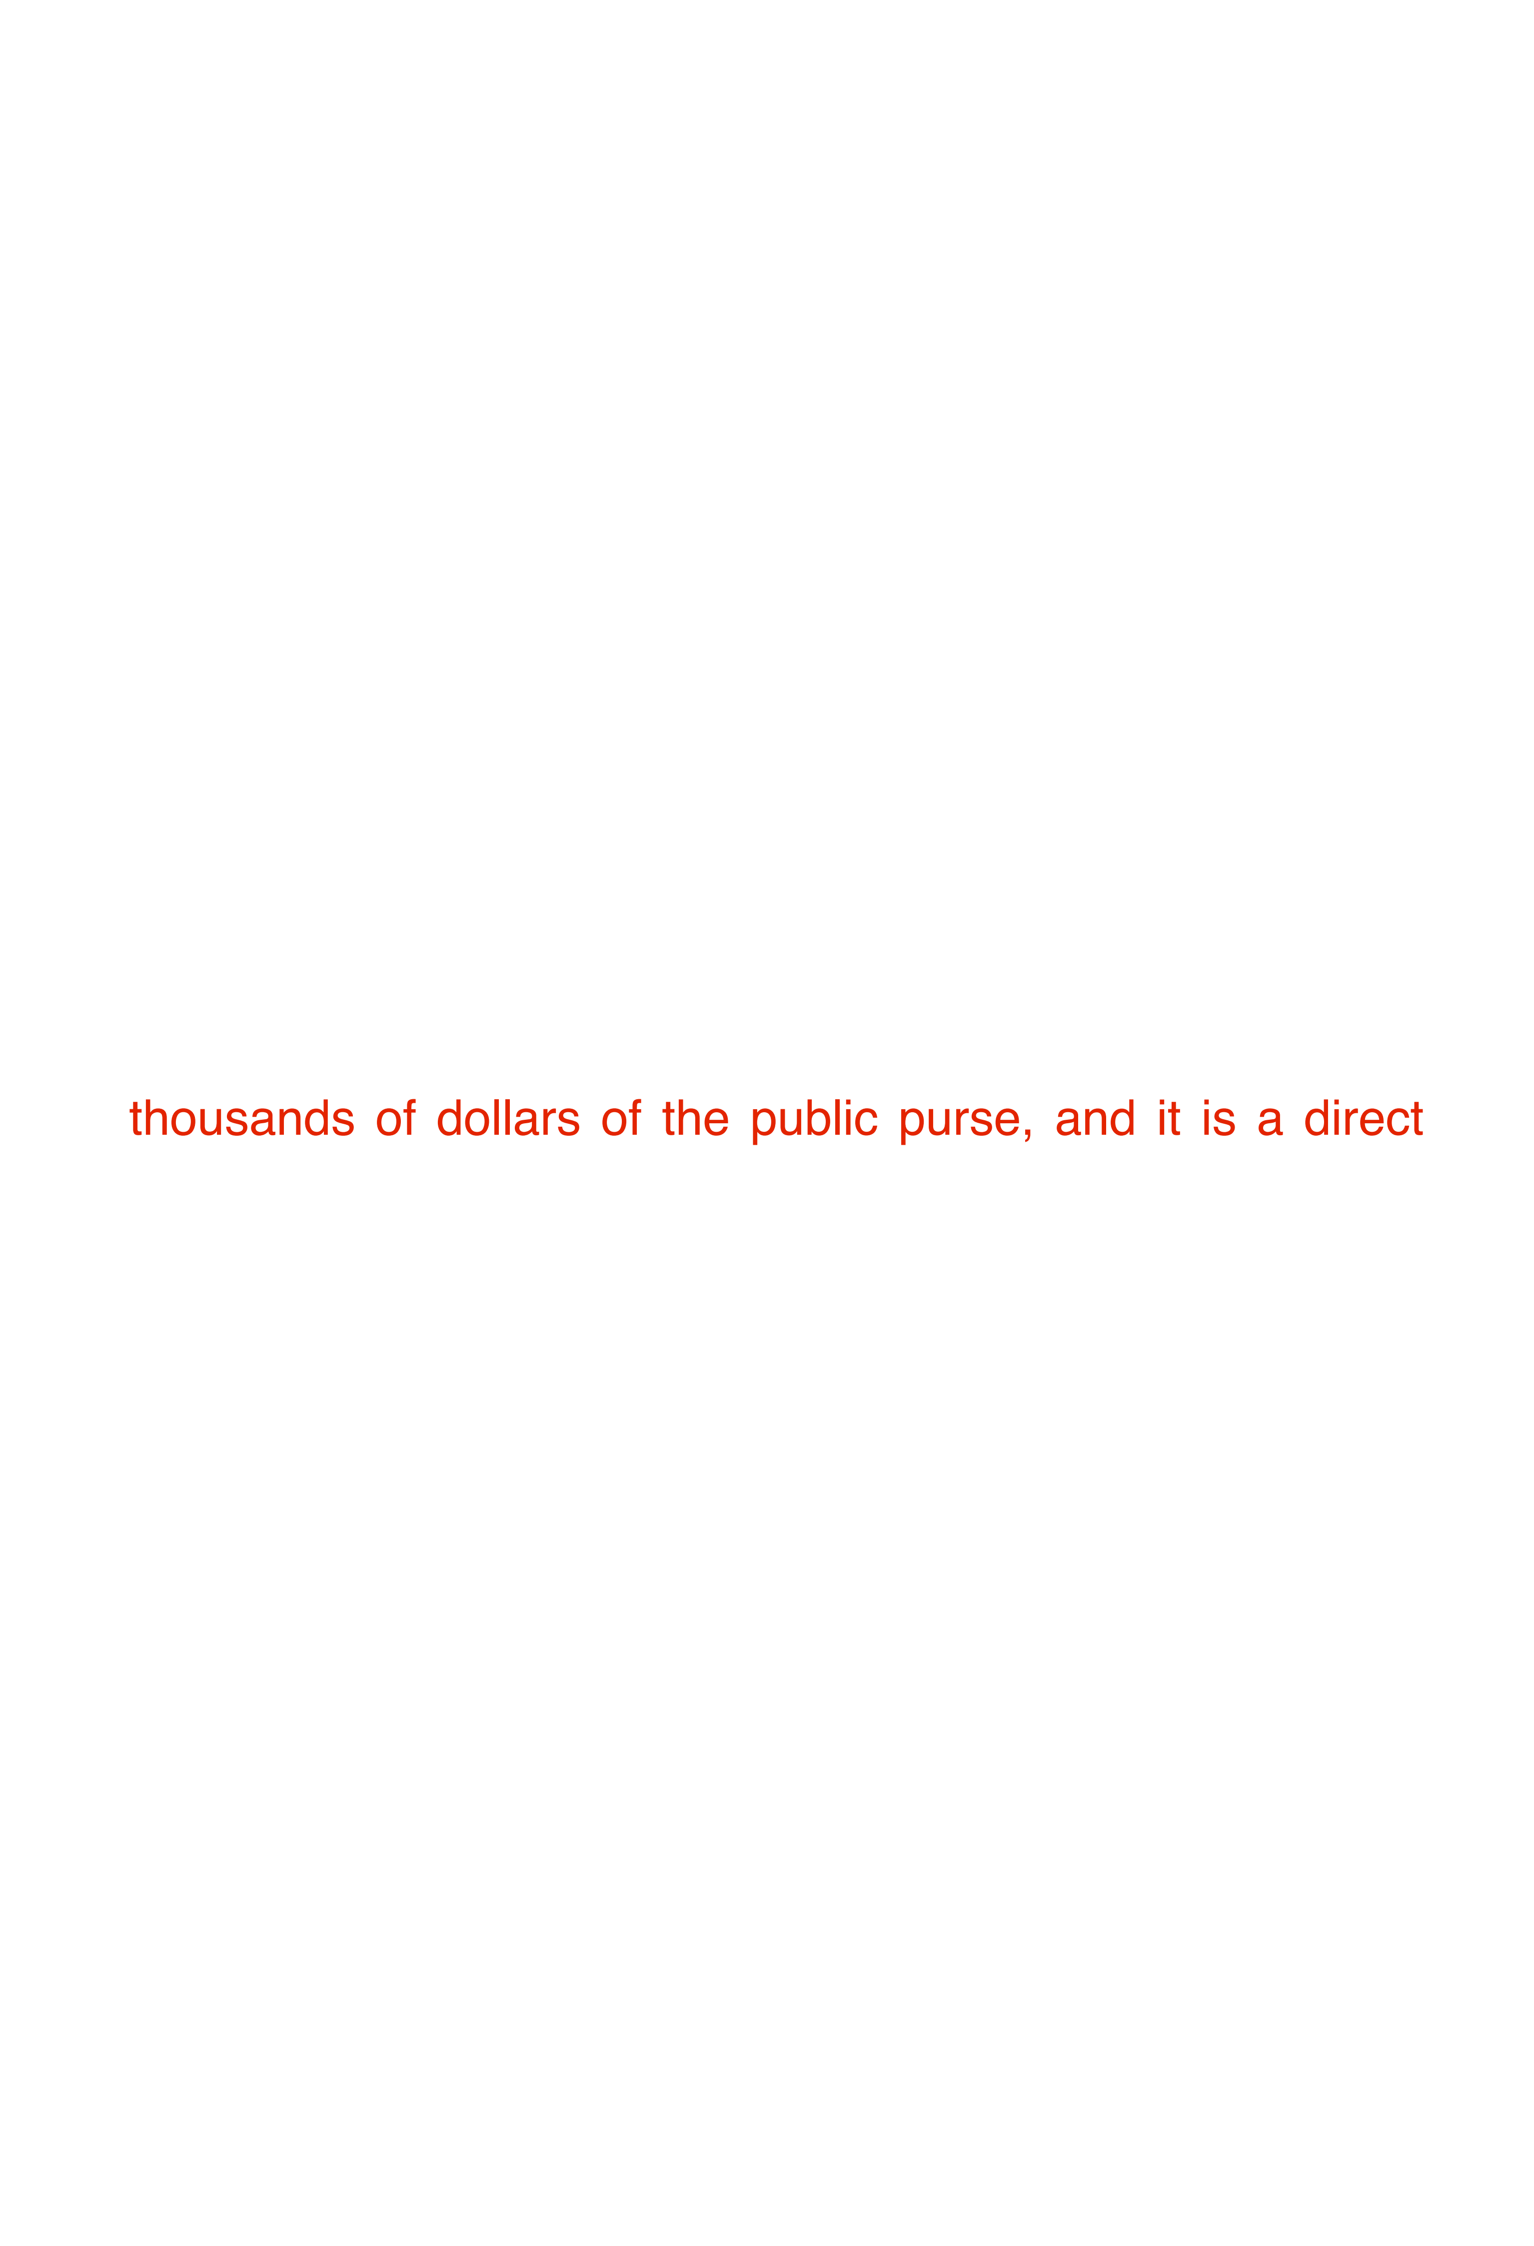

given my current situation, then you all would be held liable

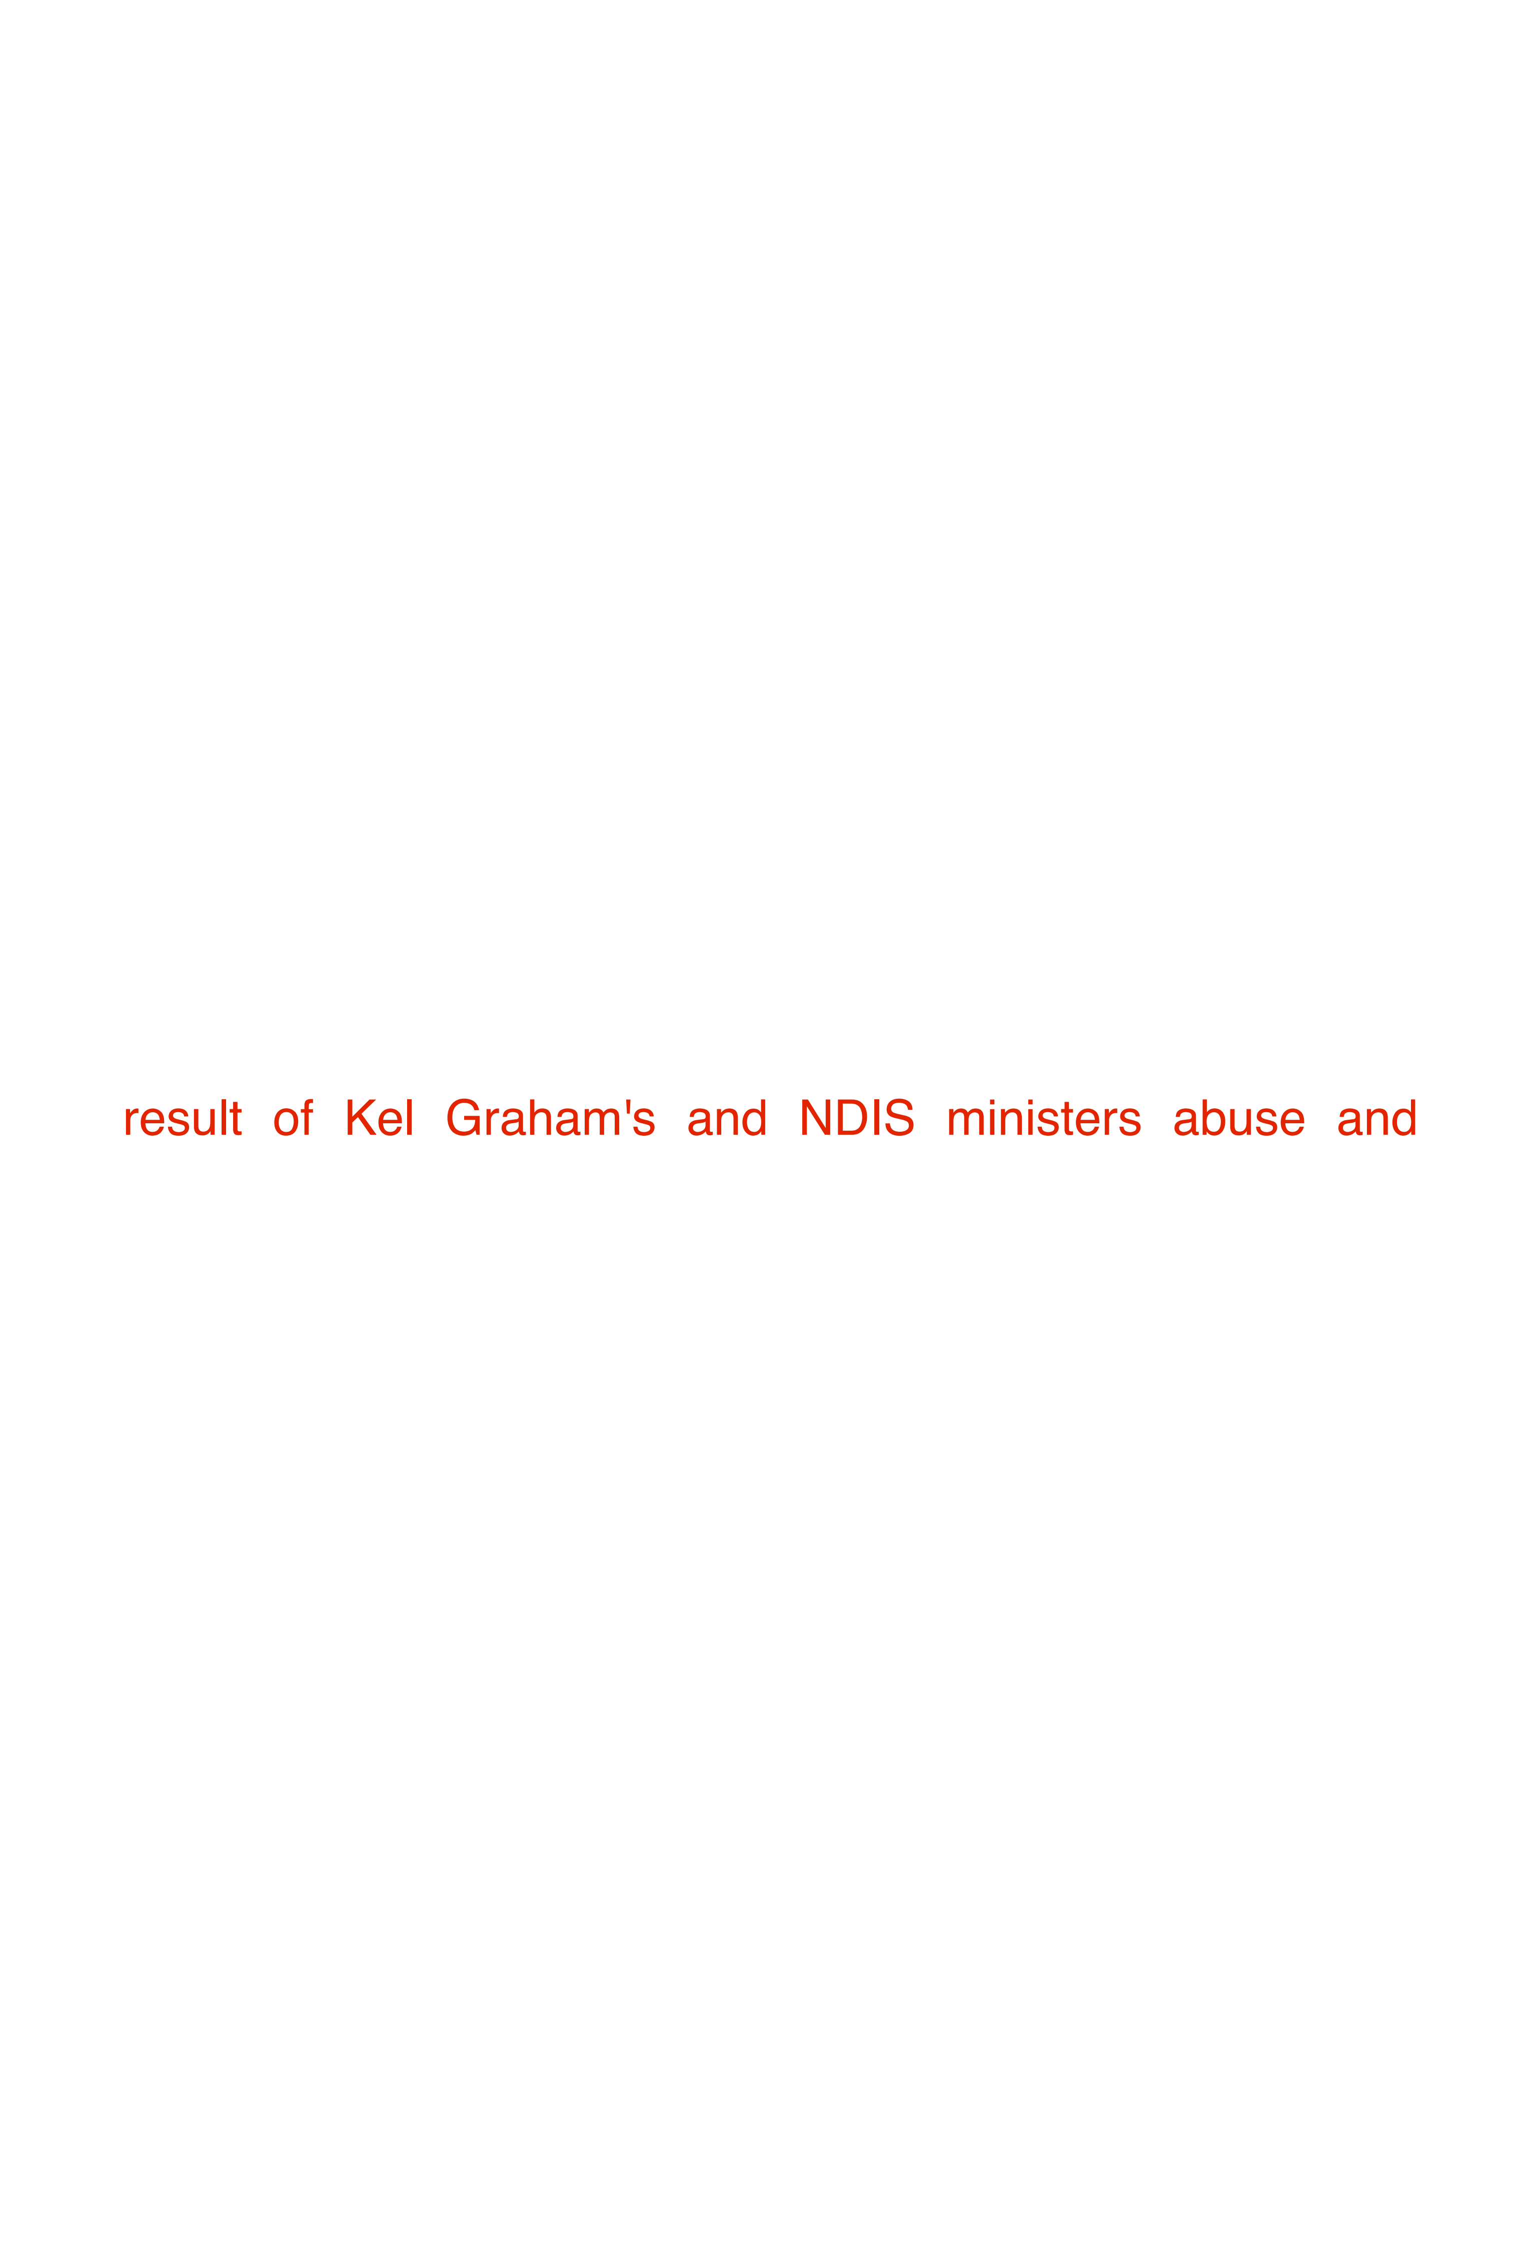

for my death. That’s called murder. That intention by

protecting Iasonidis is present.

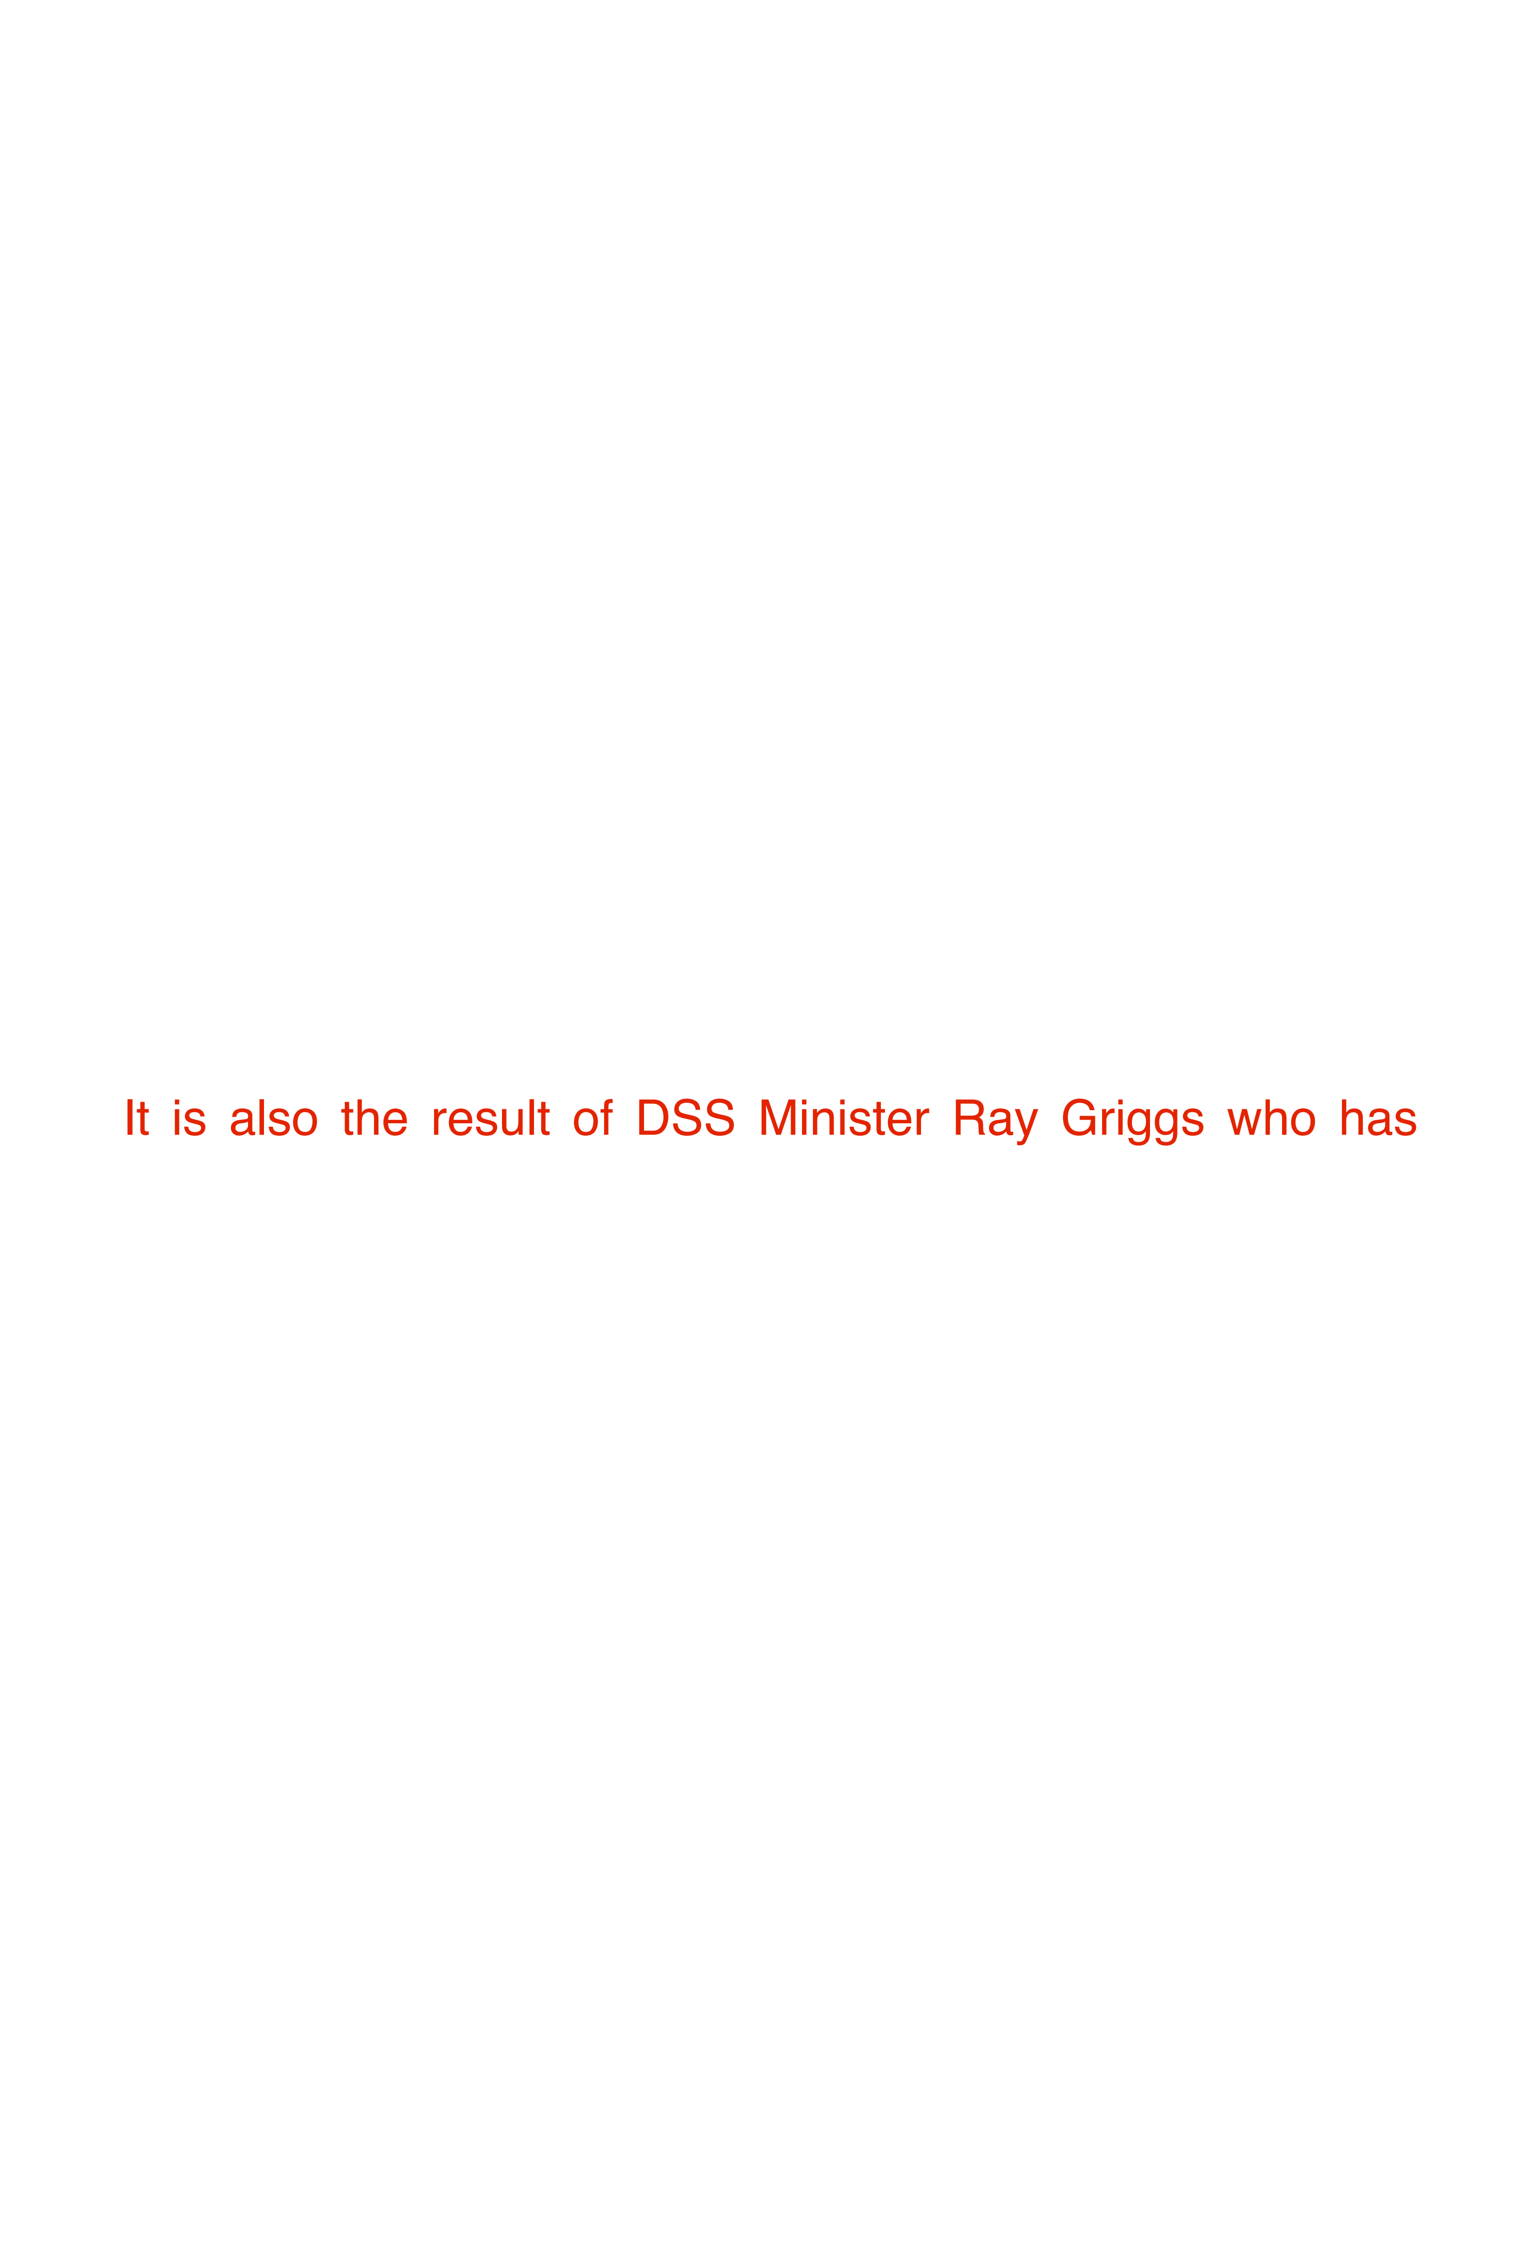

The manhunt conducted by NSW Police has cost tens of

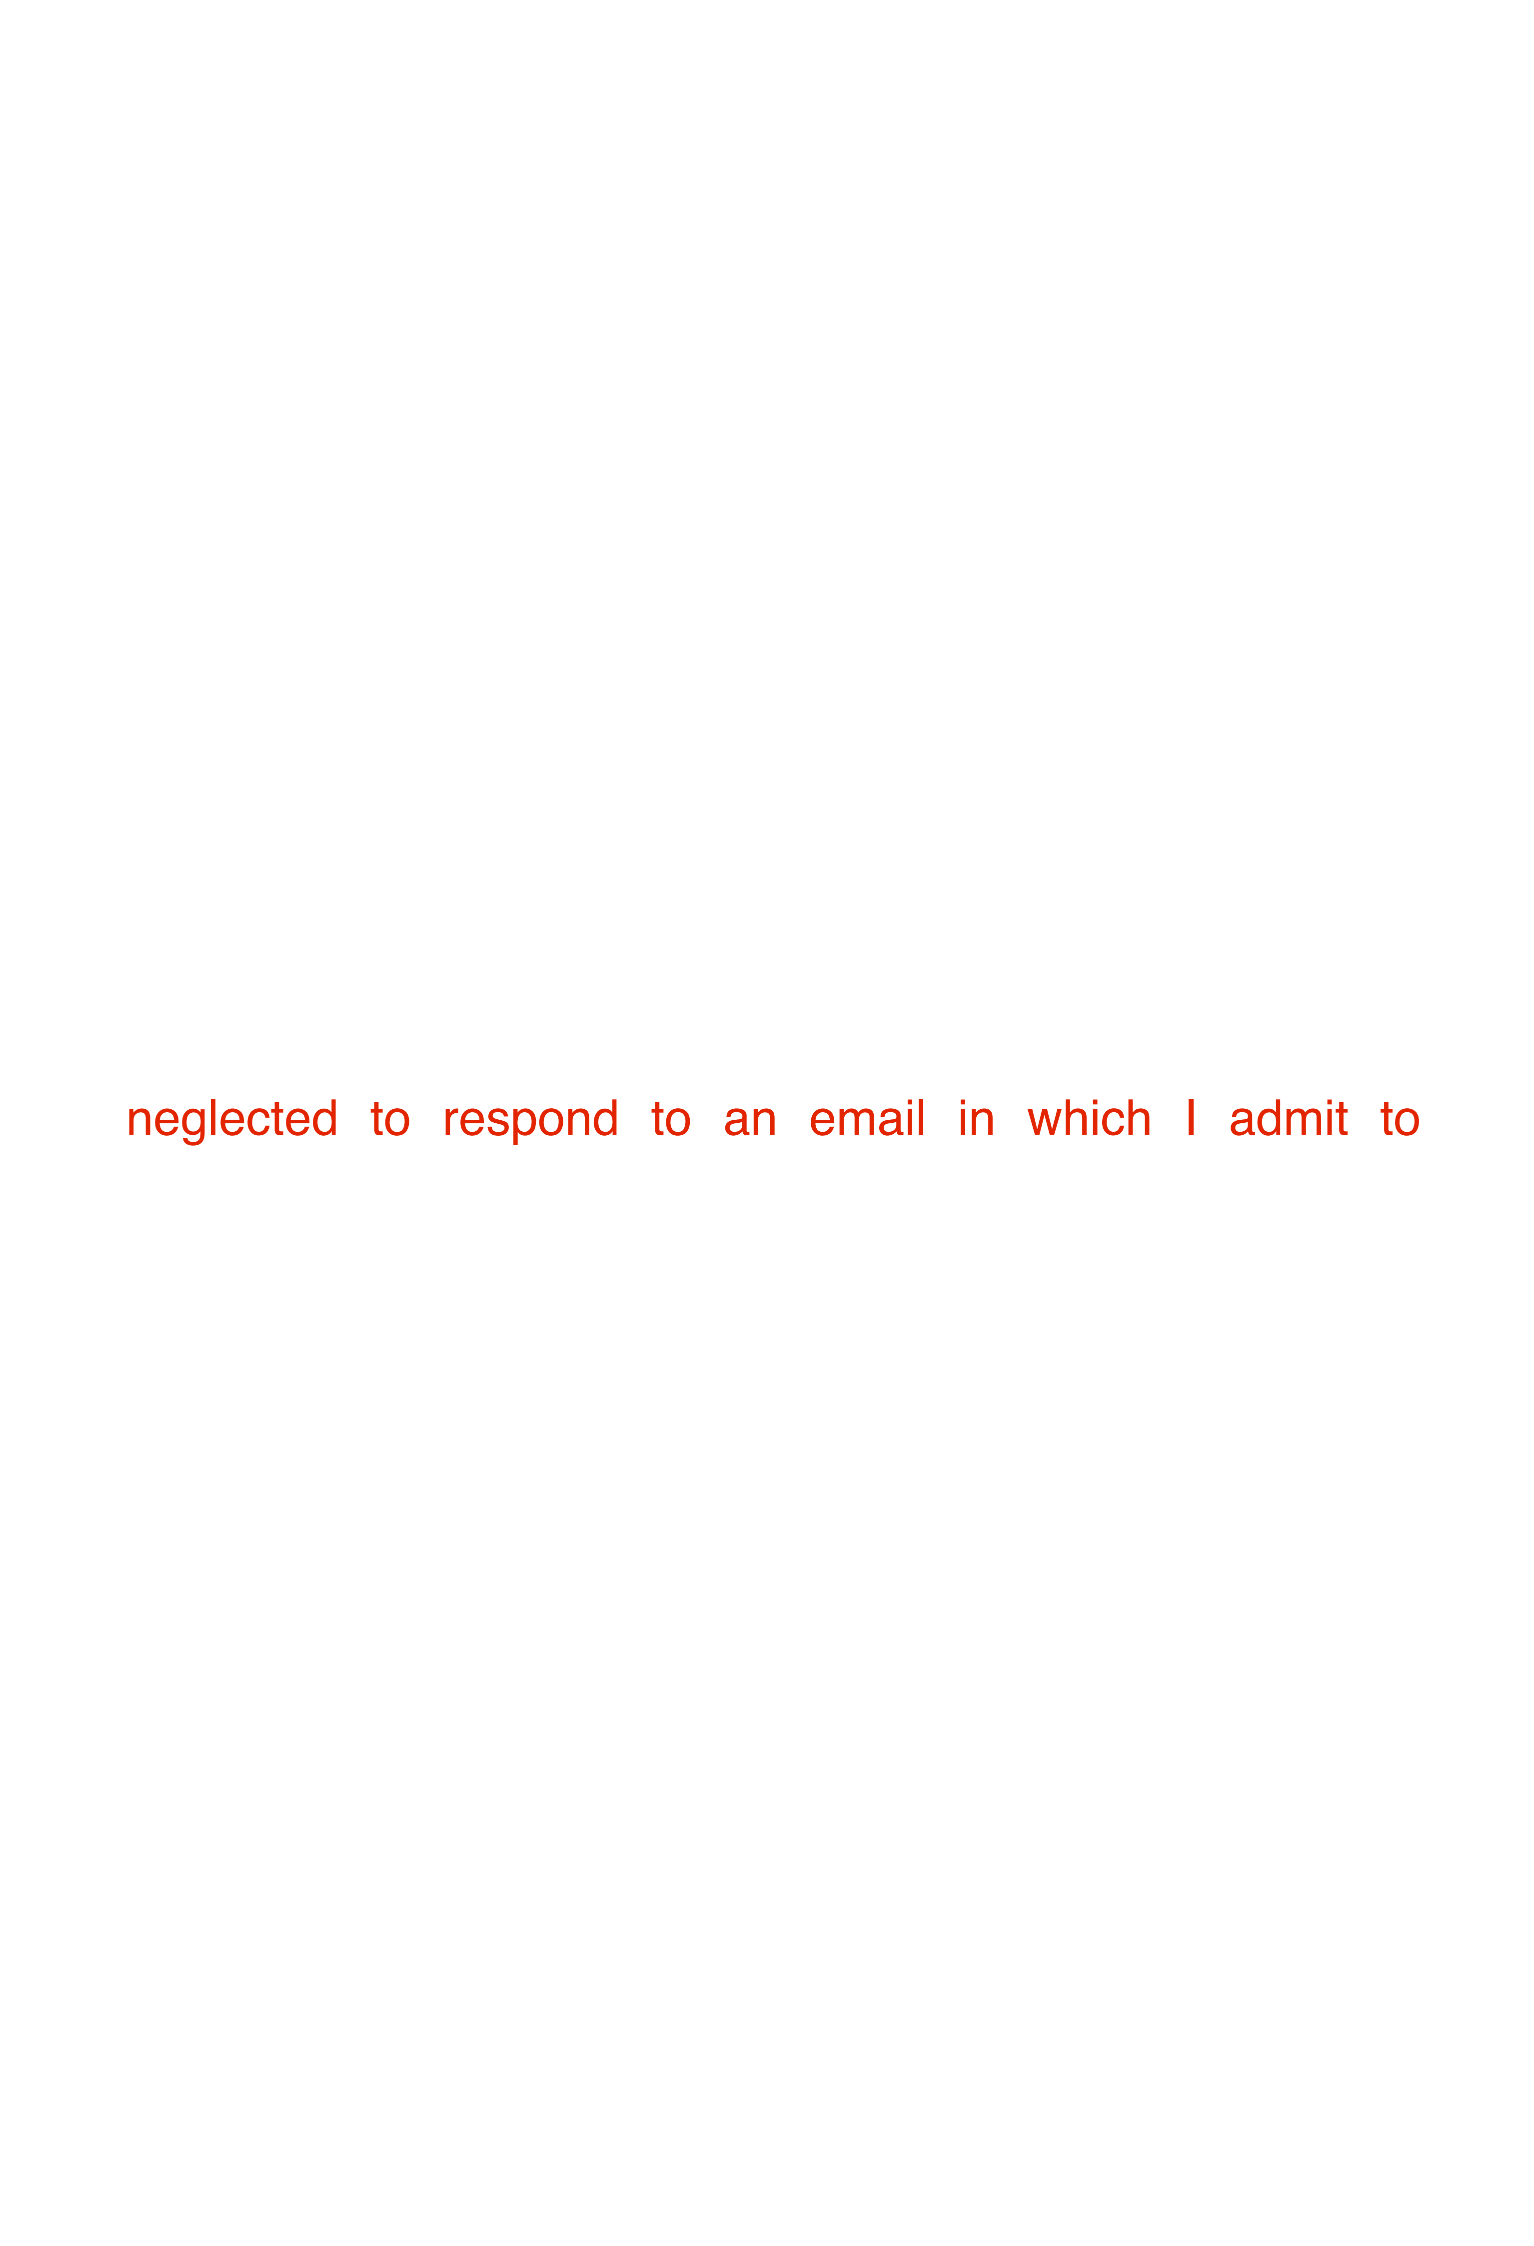

thousands of dollars of the public purse, and it is a direct

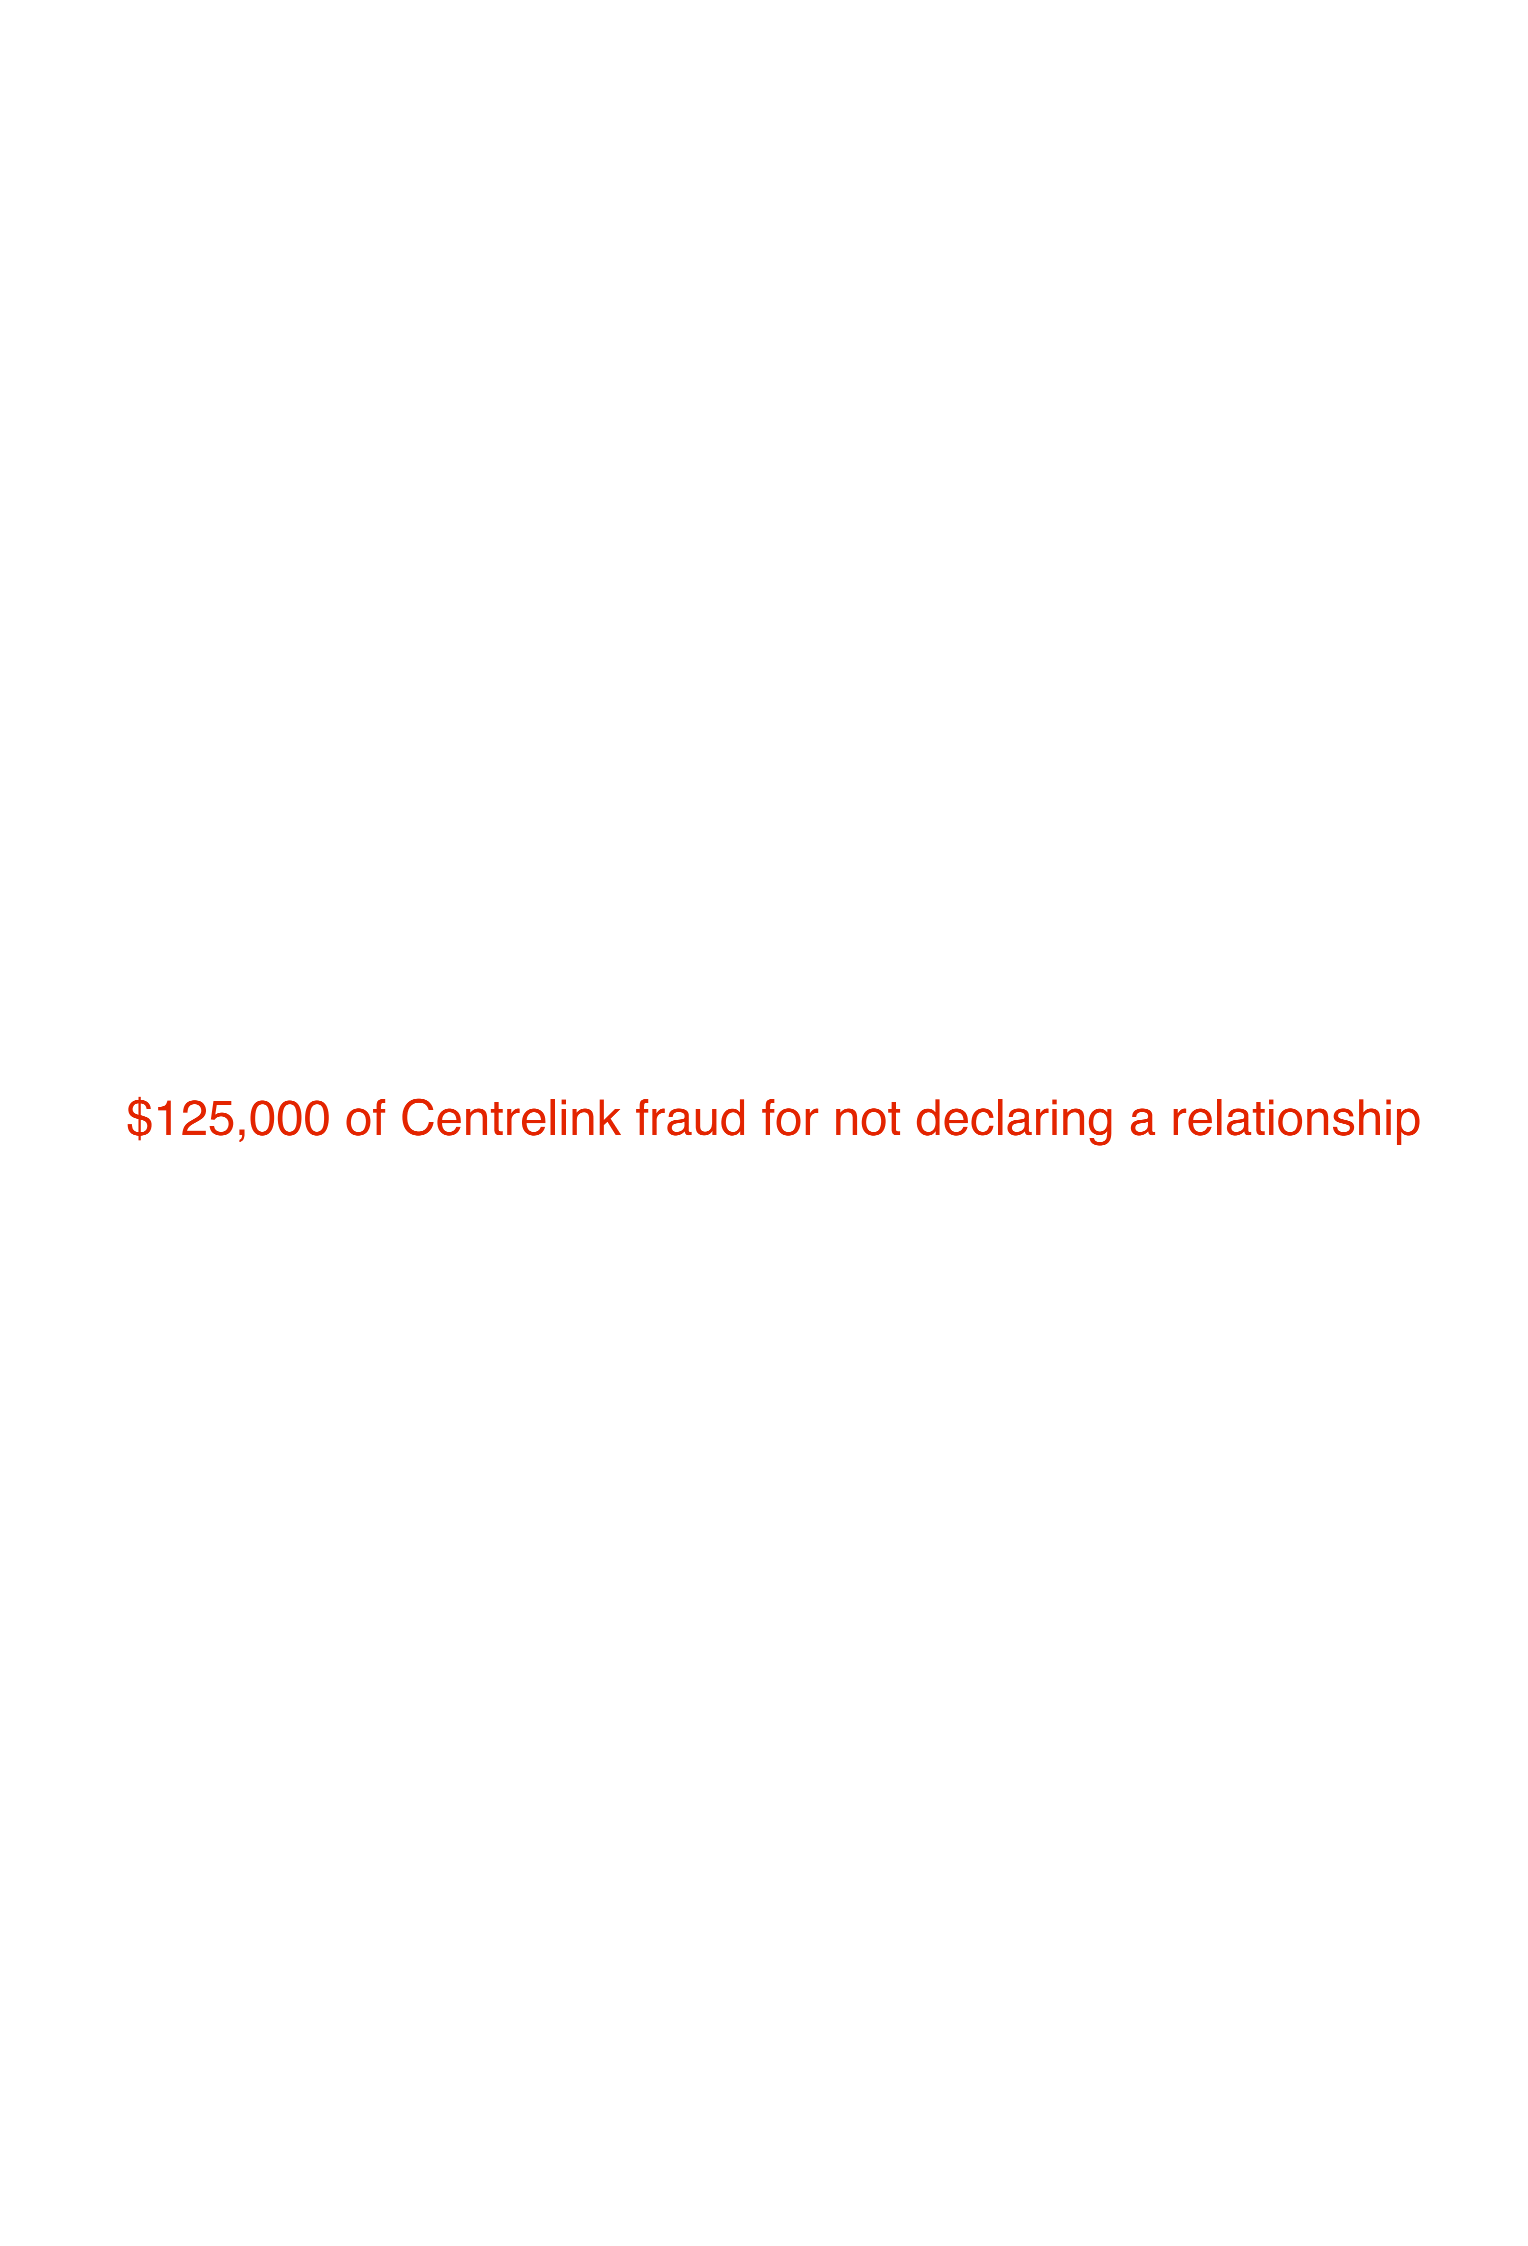

result of Kel Graham's and NDIS ministers abuse and

financial neglect in her corrupt decisions.

It is also the result of DSS Minister Ray Griggs who has

neglected to respond to an email in which I admit to

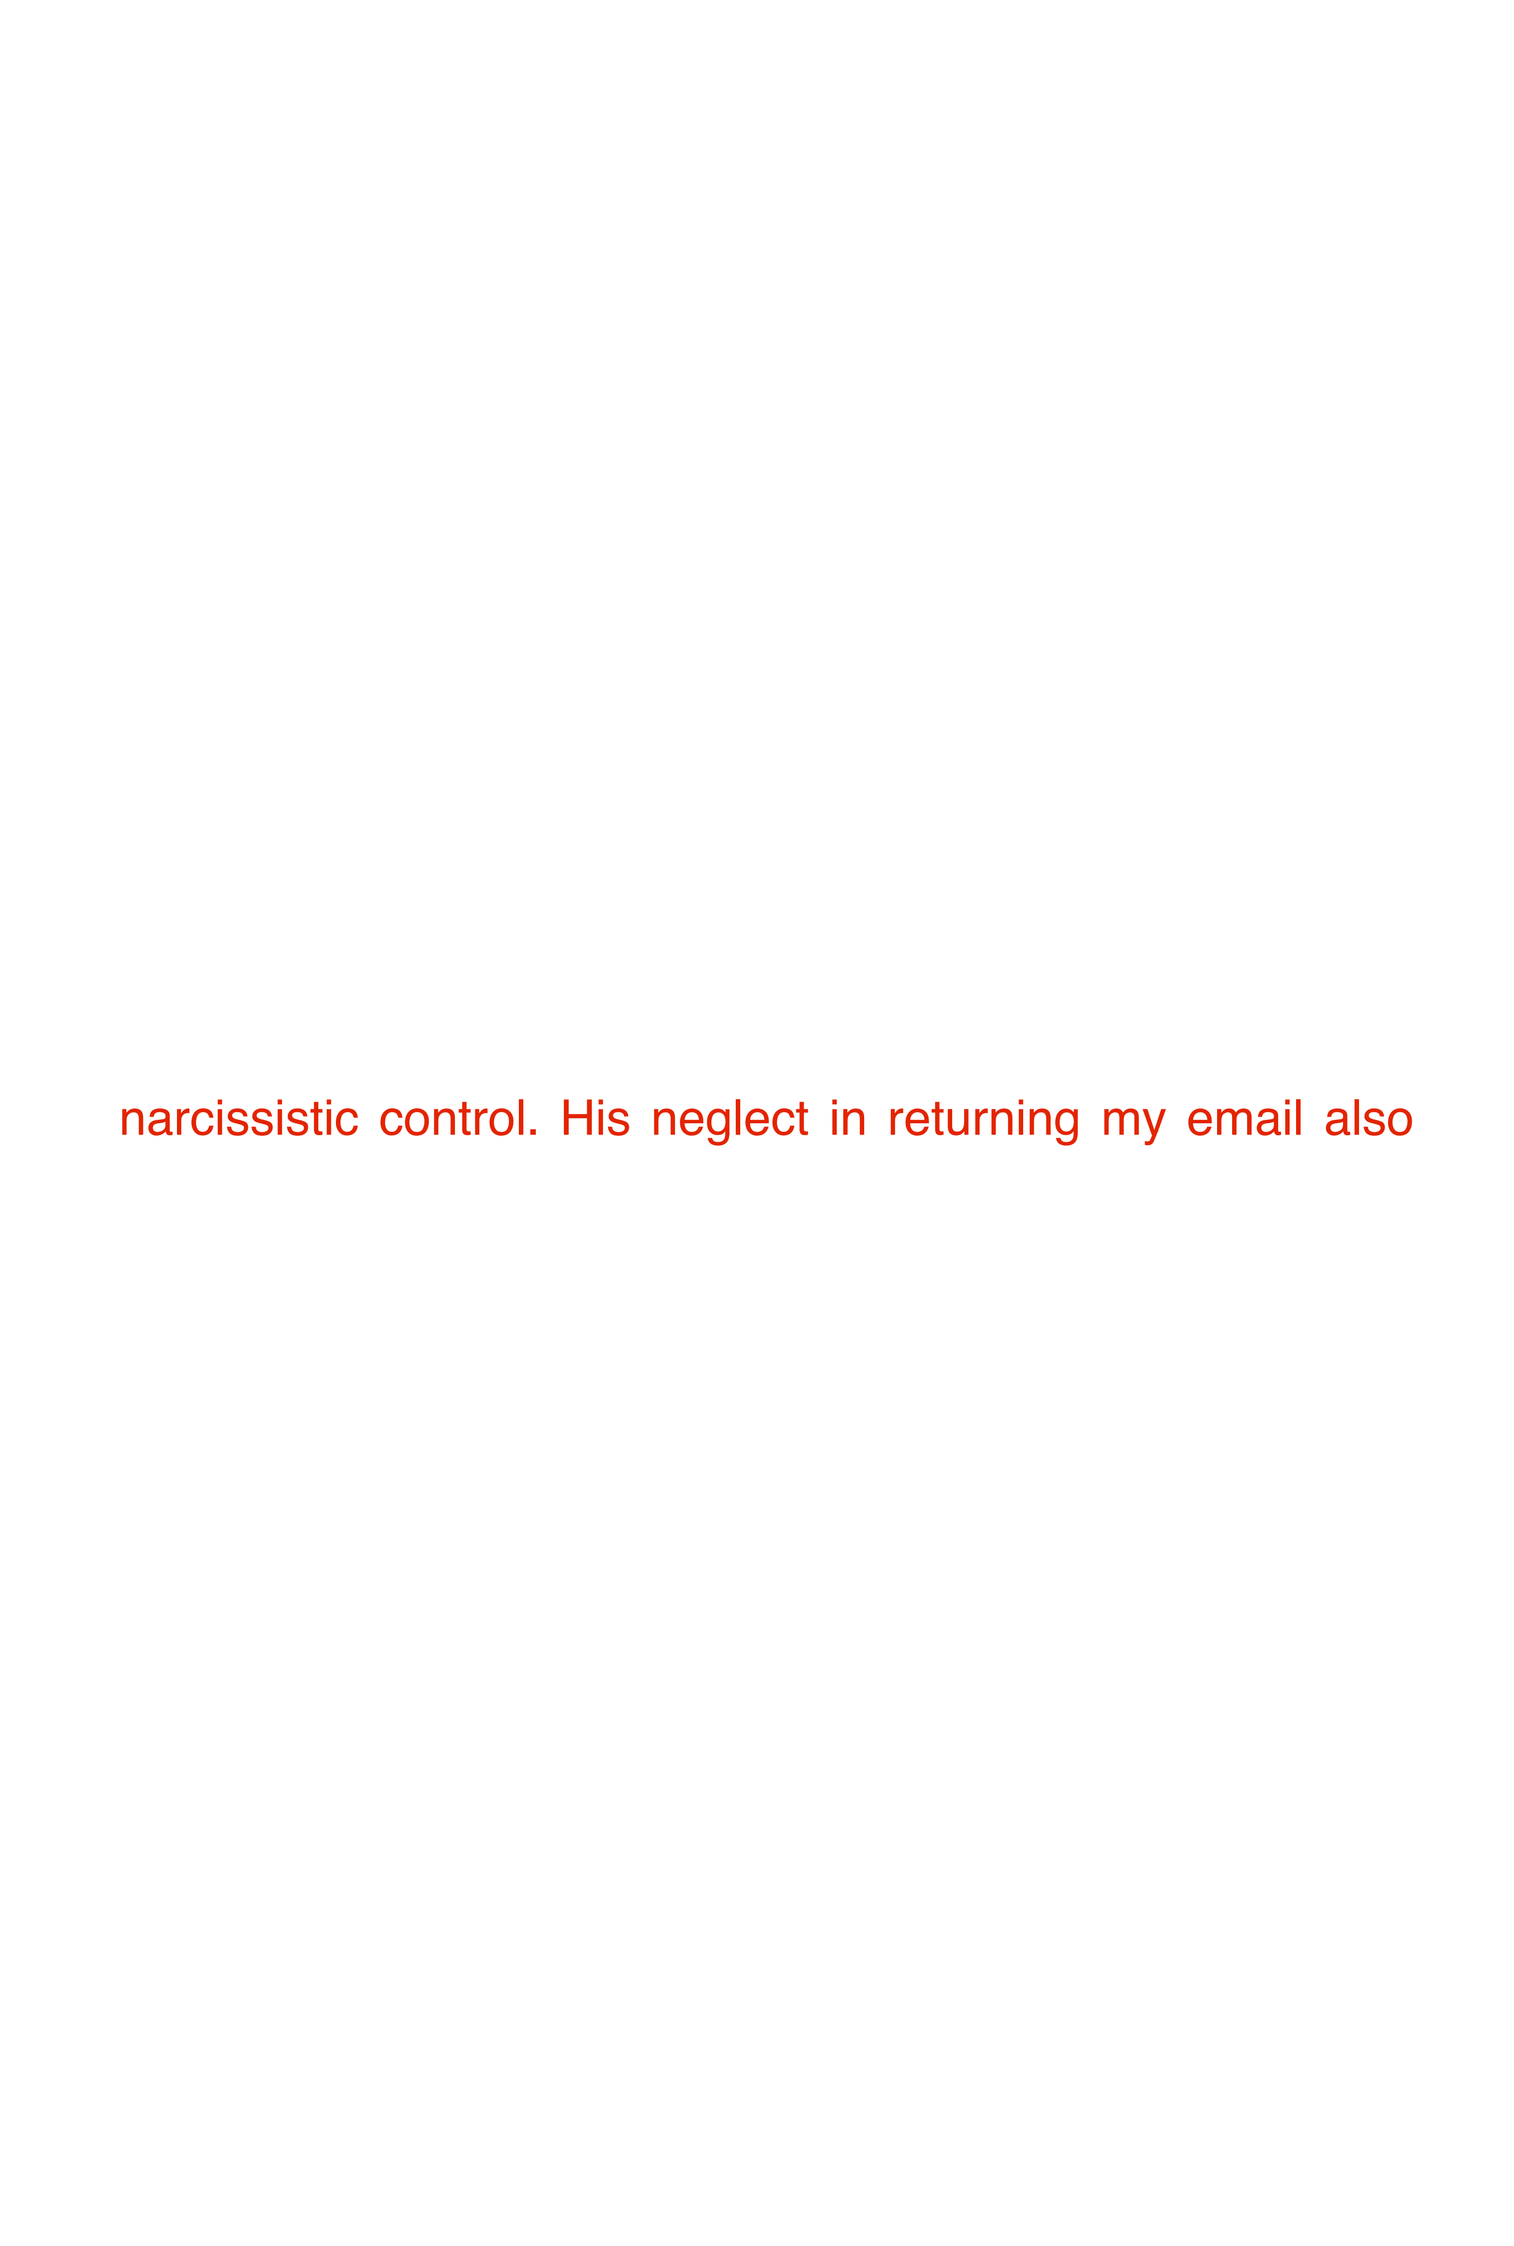

$125,000 of Centrelink fraud for not declaring a relationship

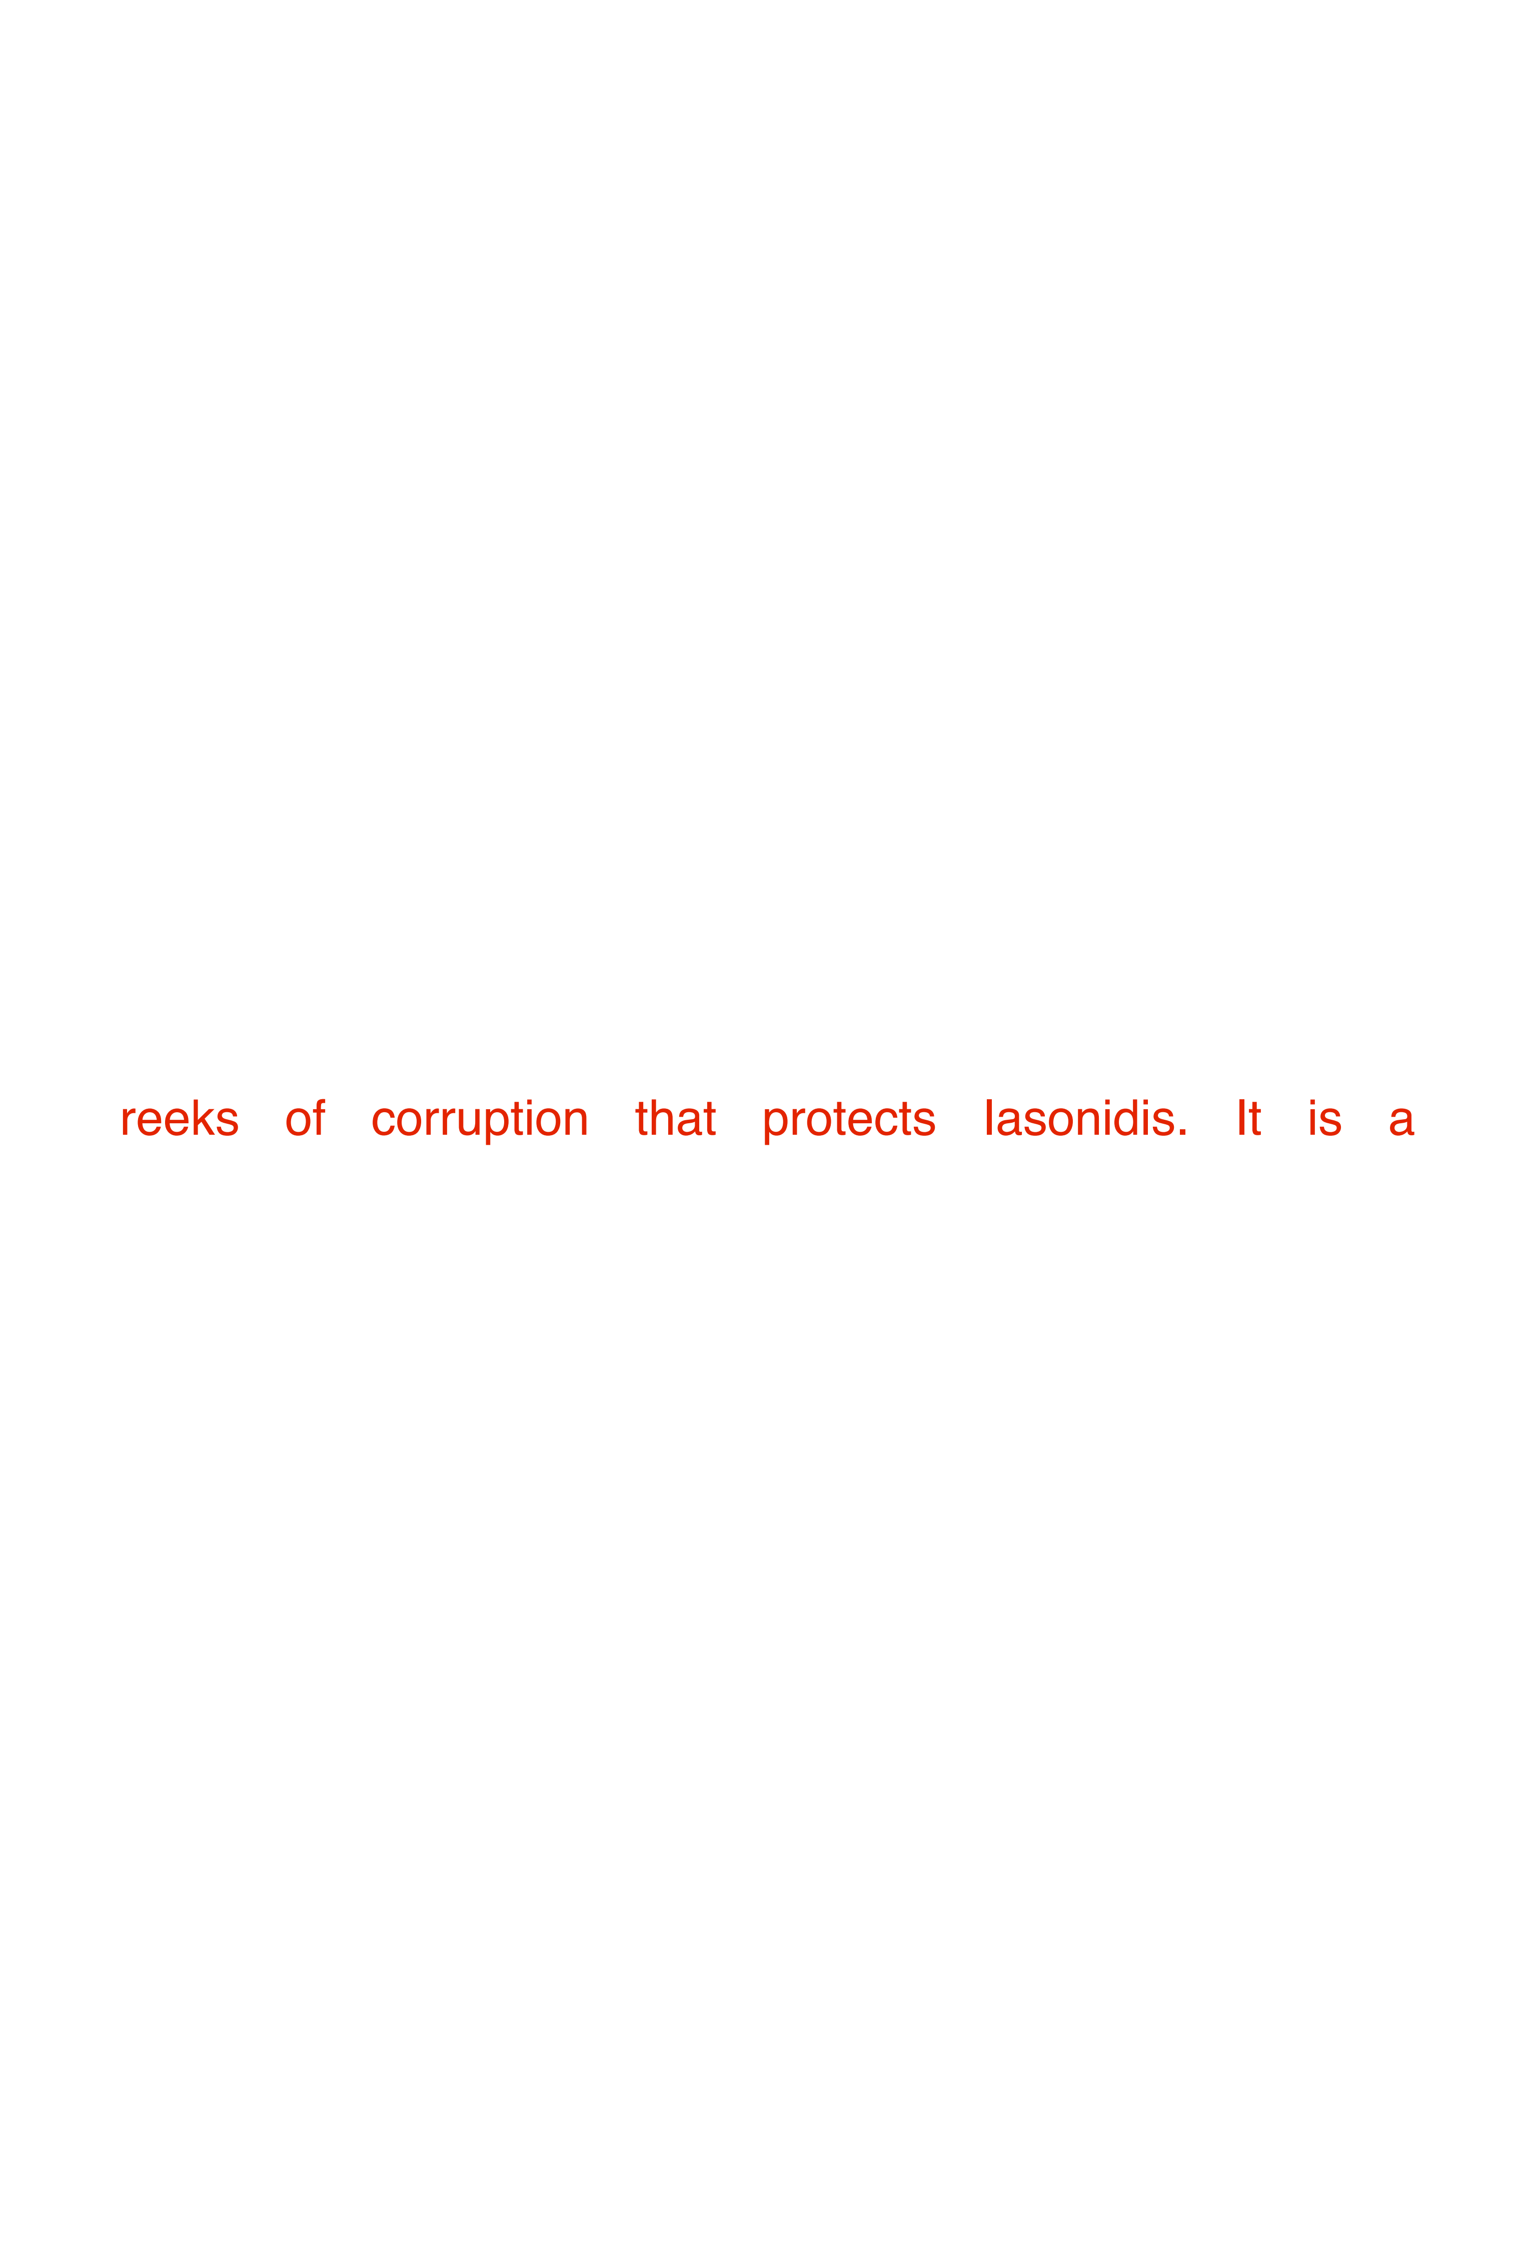

with ASIO operative Stefan Iasonidis who compelled me to

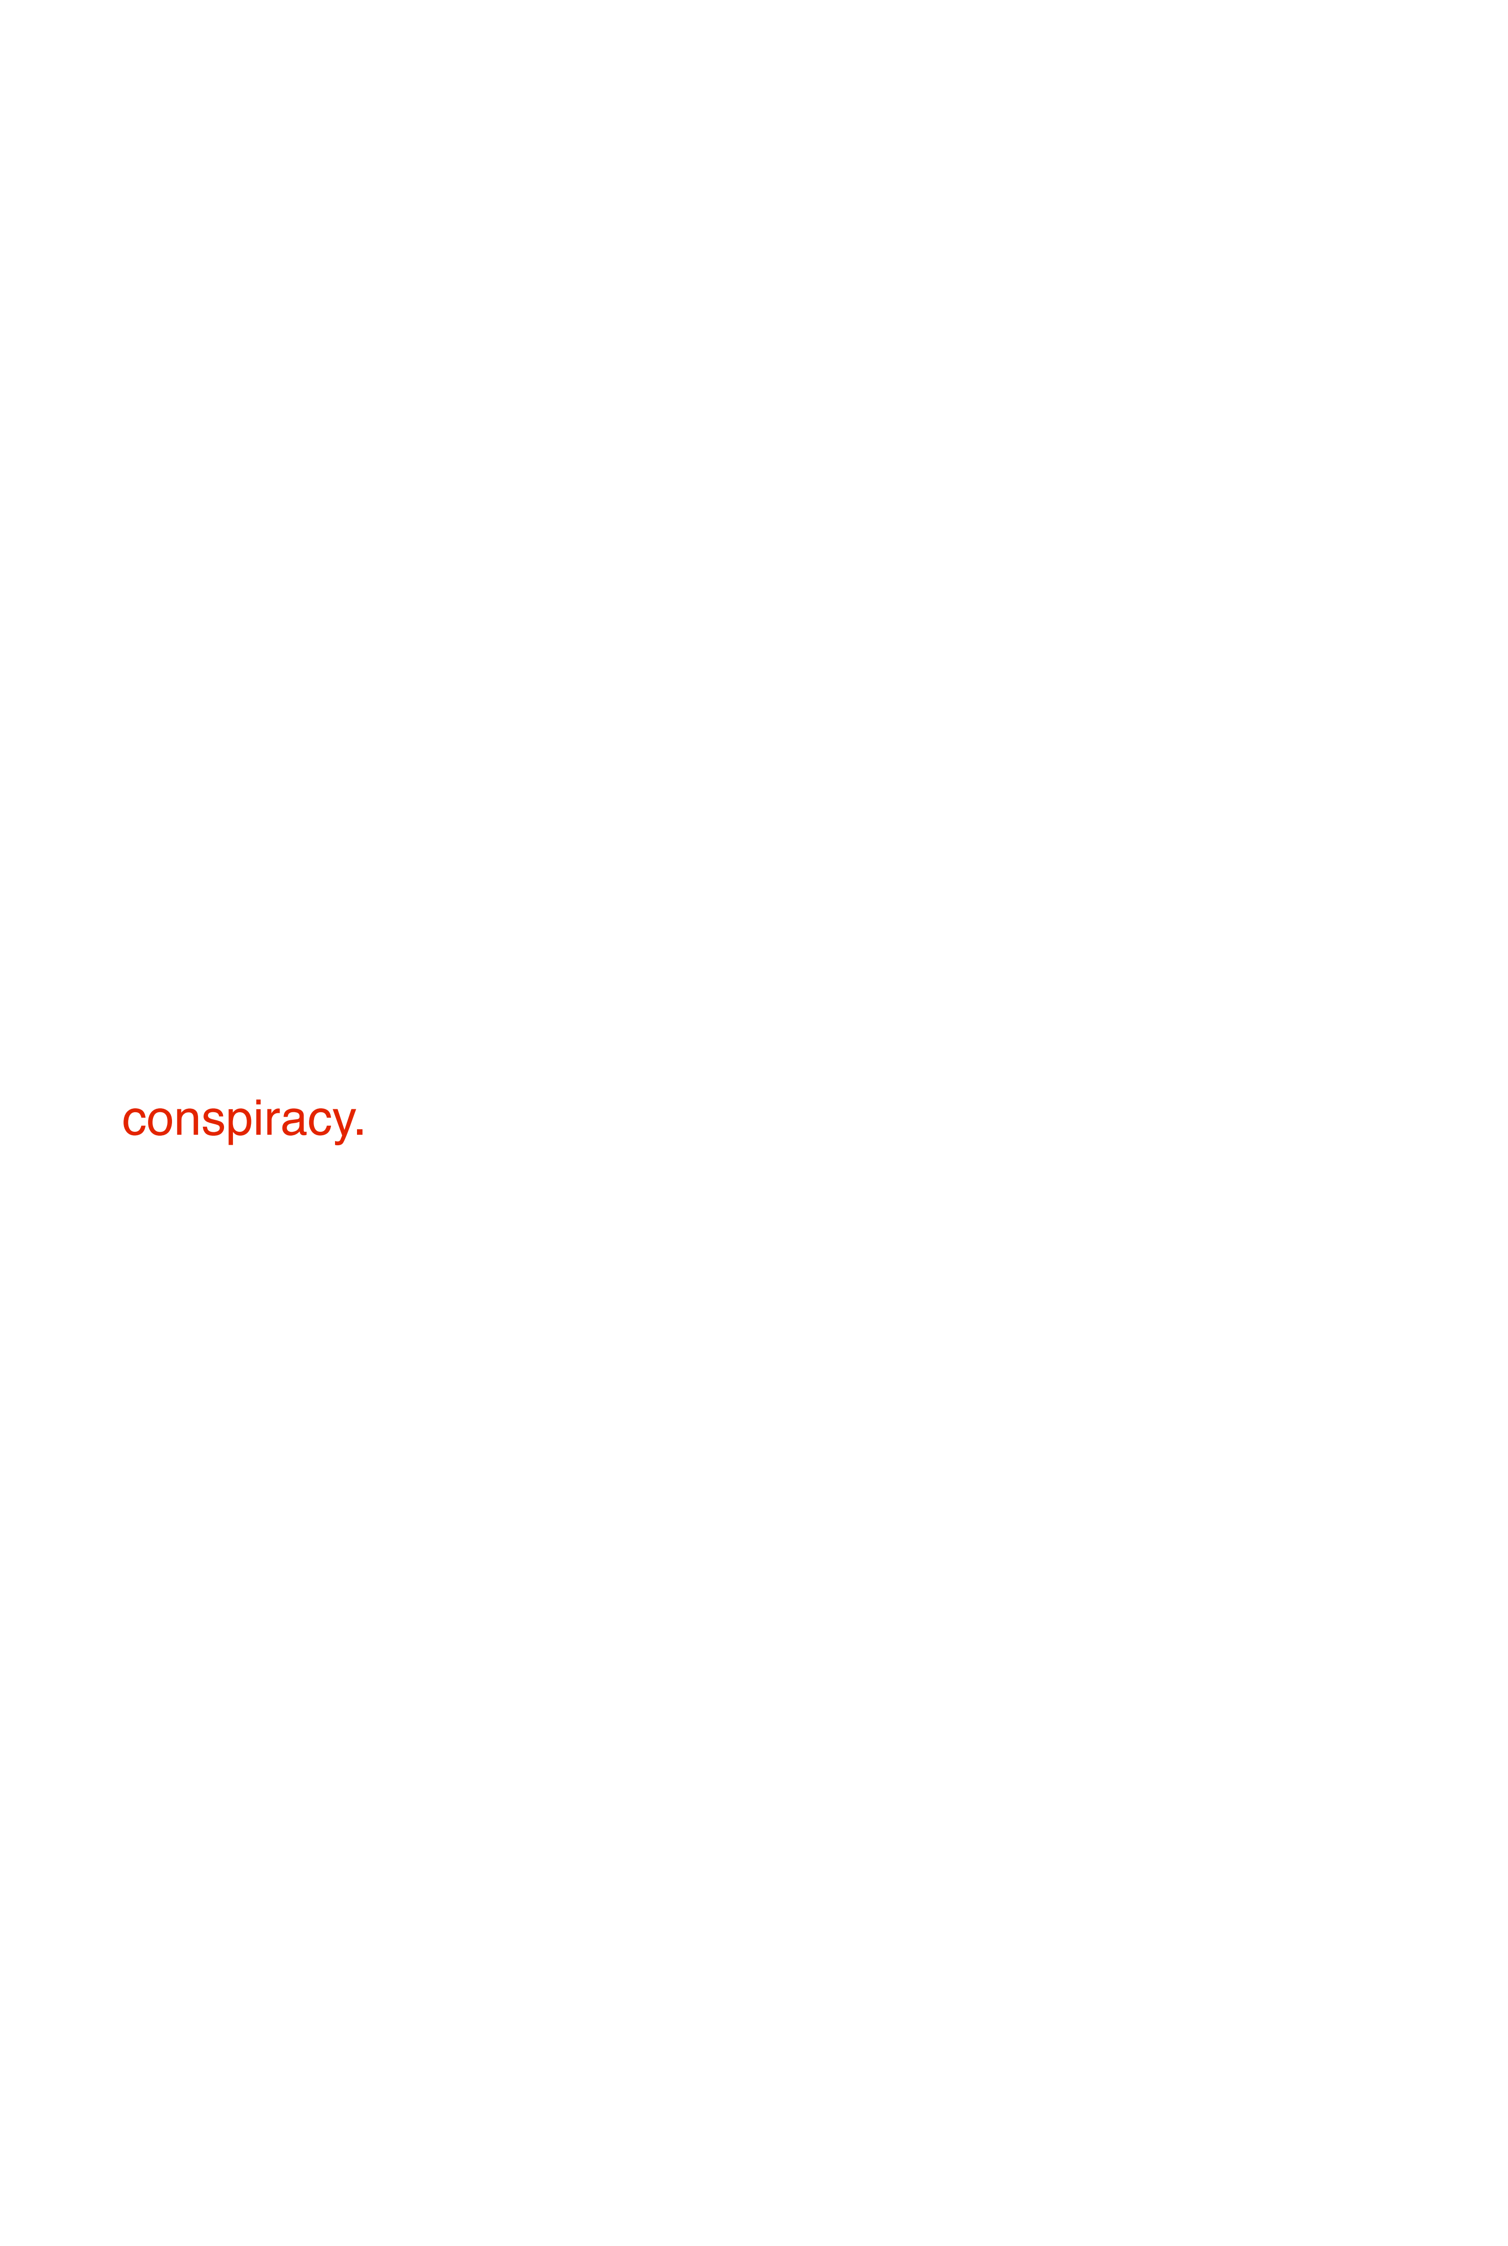

accept the pension lest I forgo my independence, and this

was motivated by greed and manipulation of me and

narcissistic control. His neglect in returning my email also

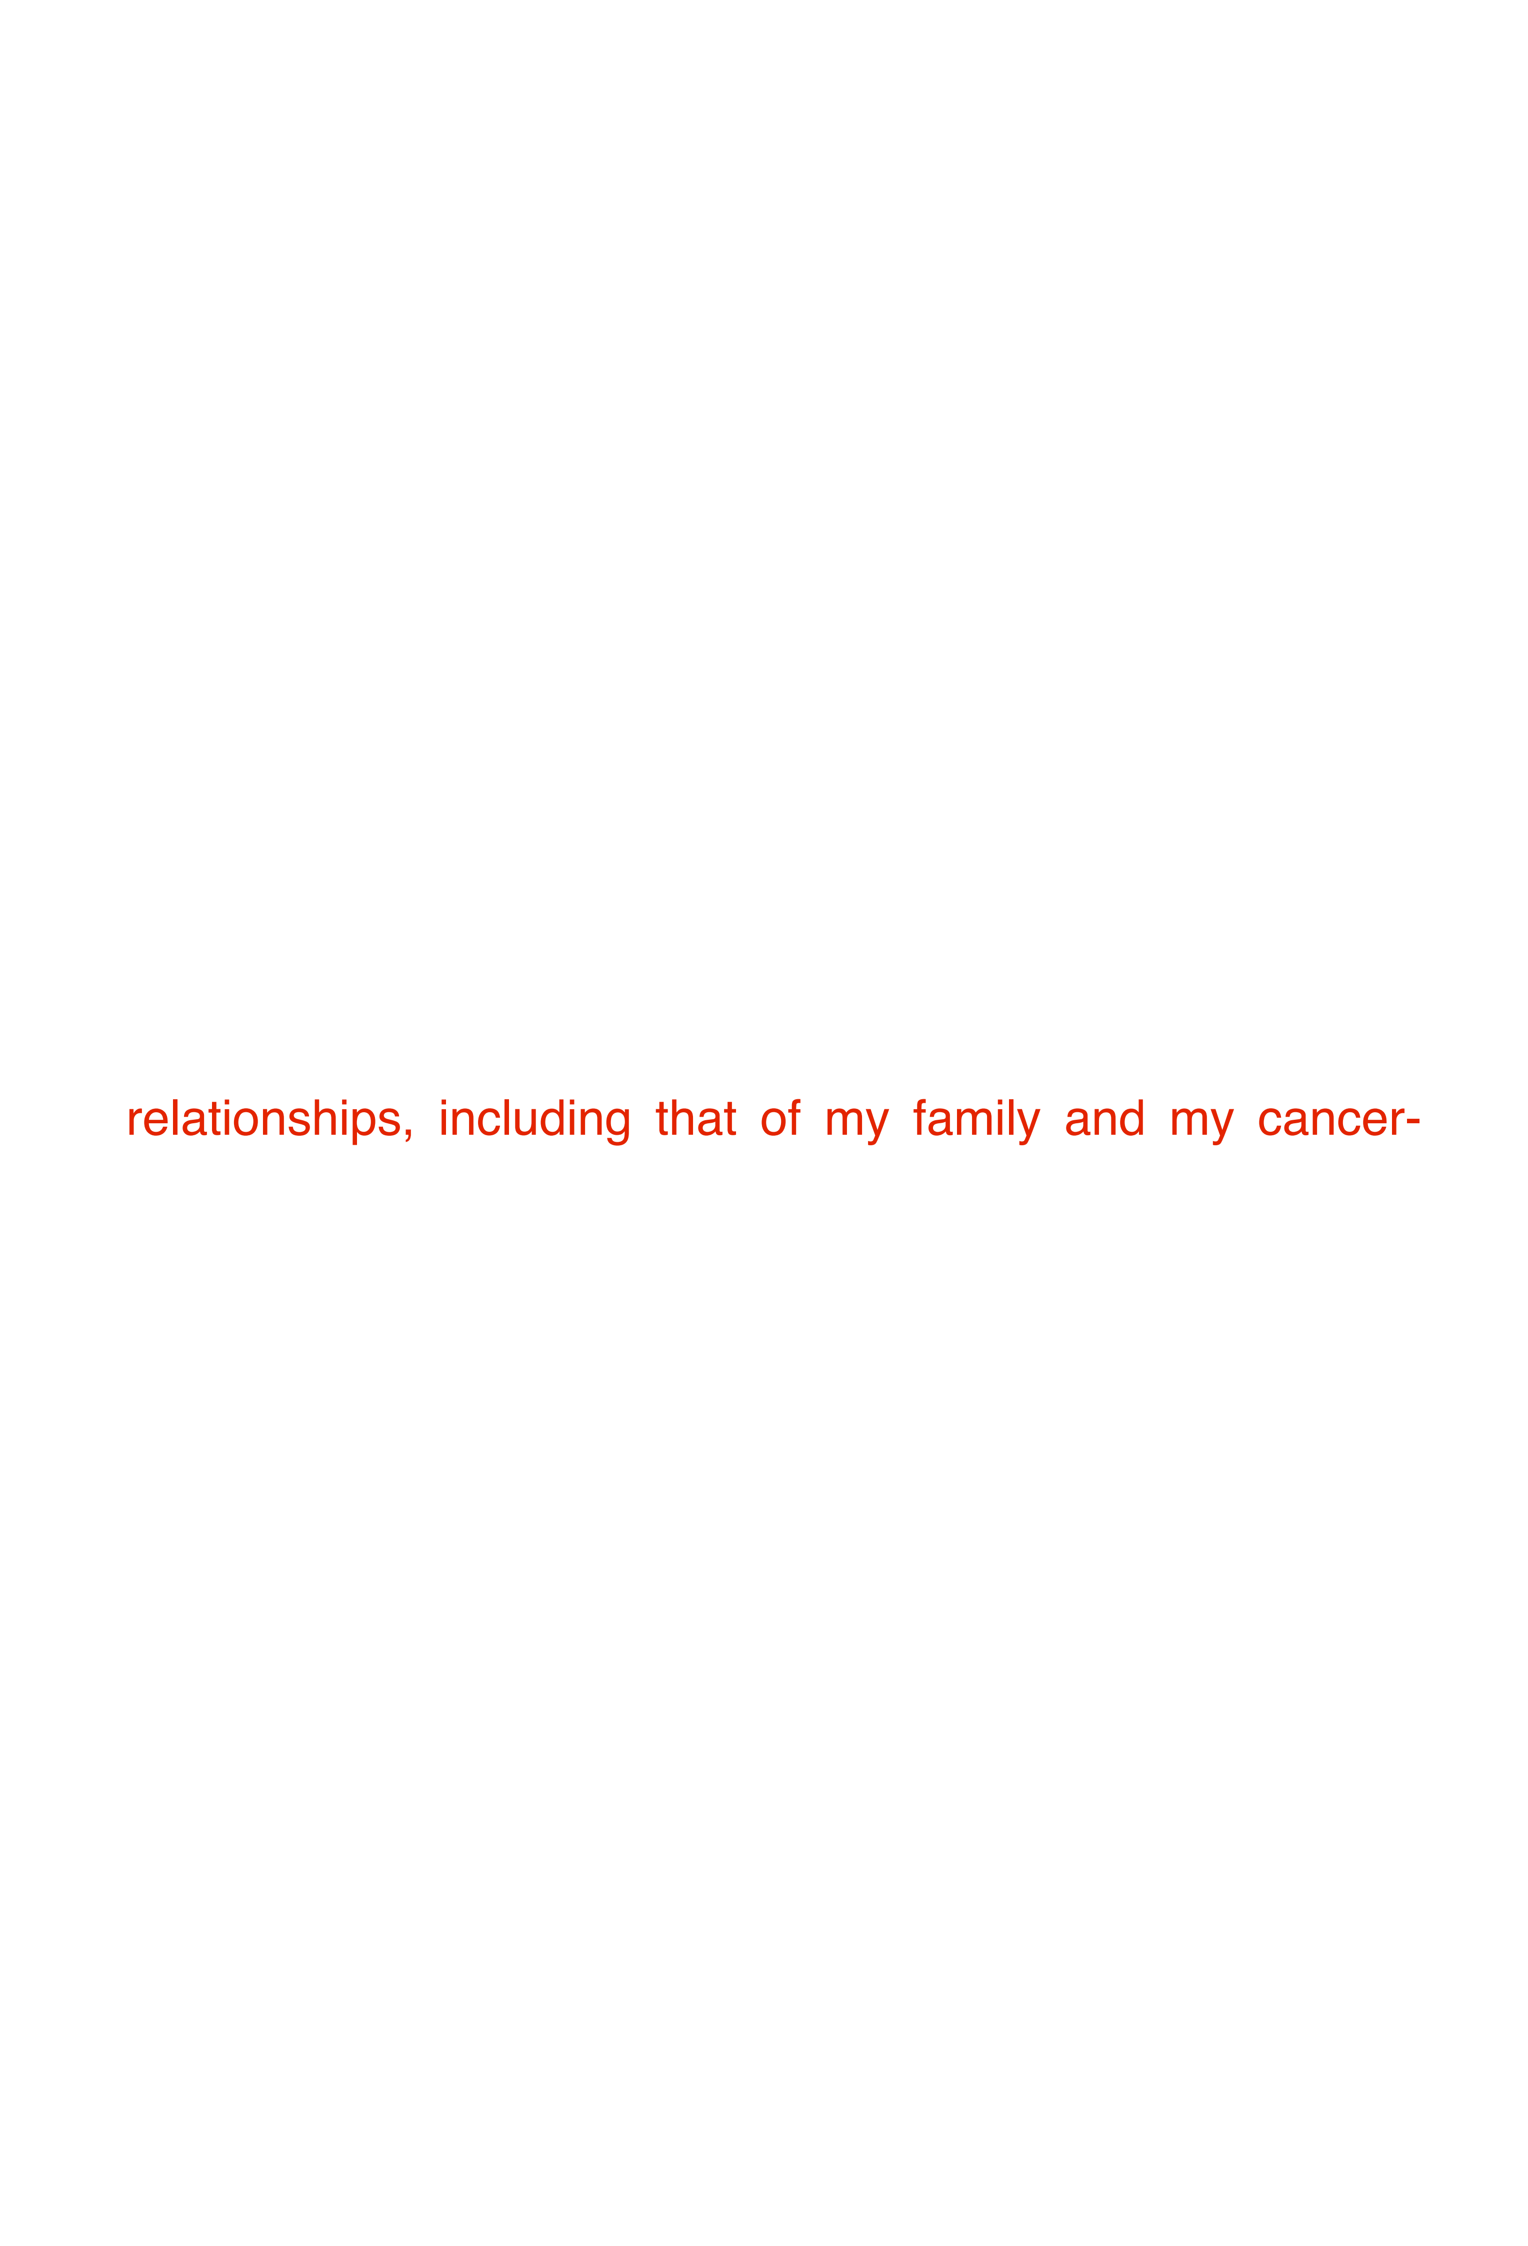

reeks of corruption that protects Iasonidis. It is a

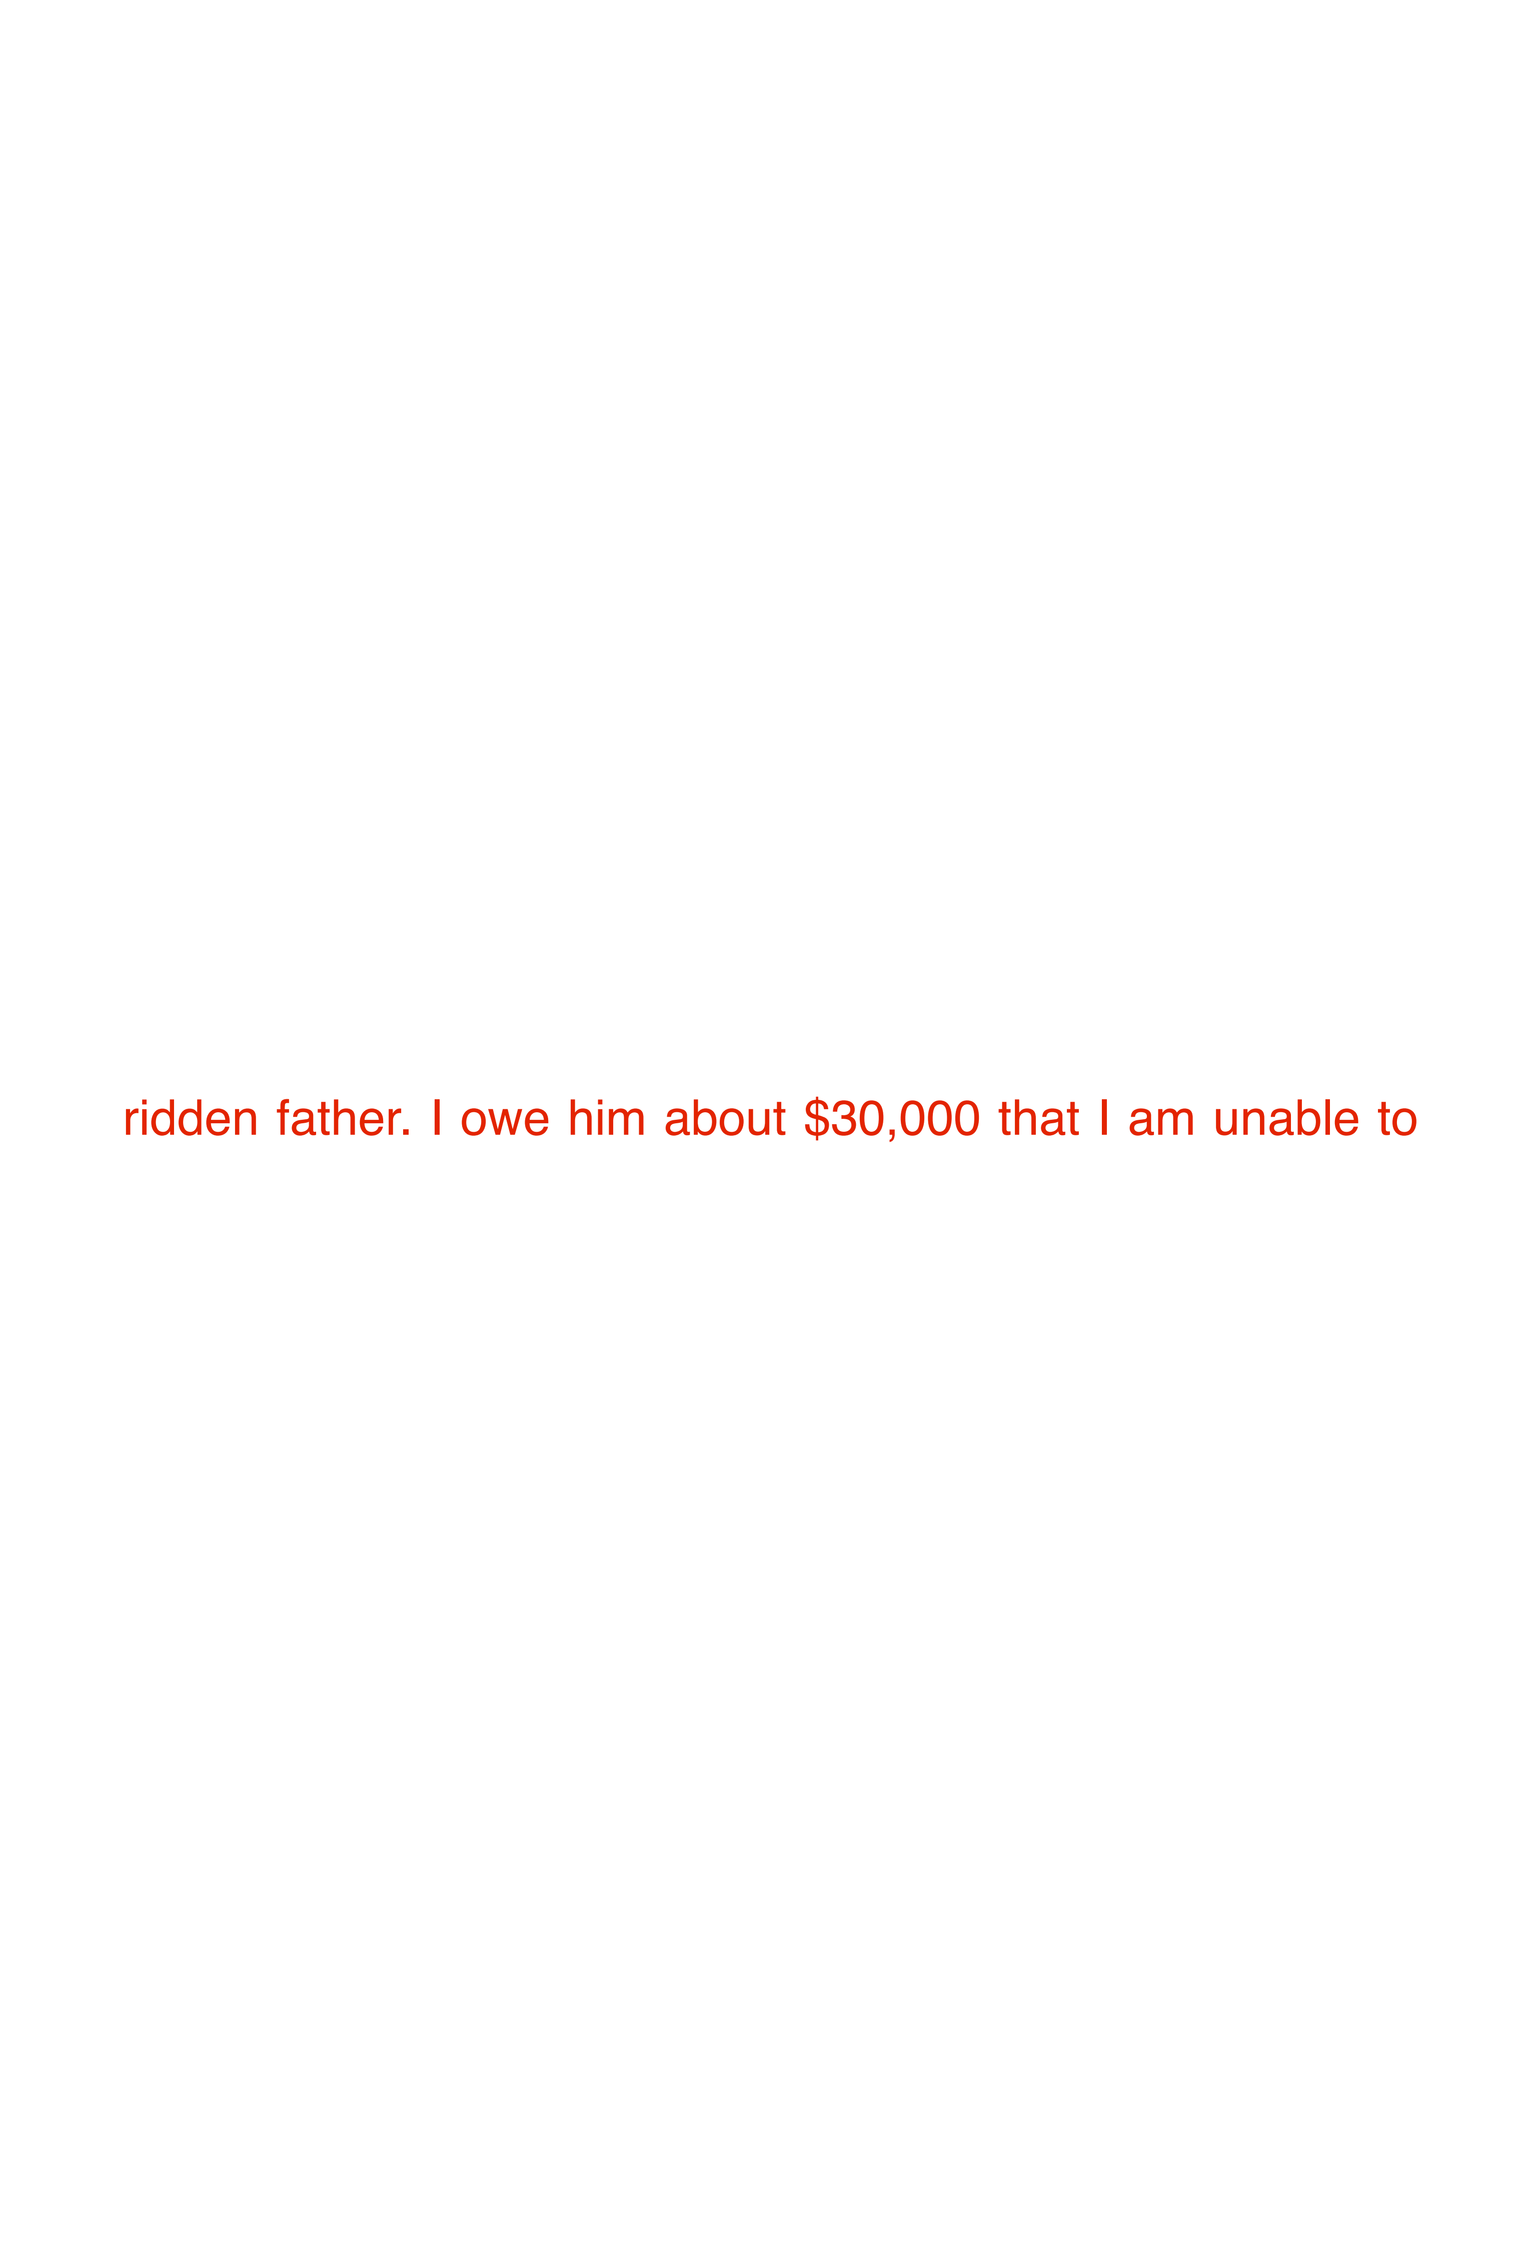

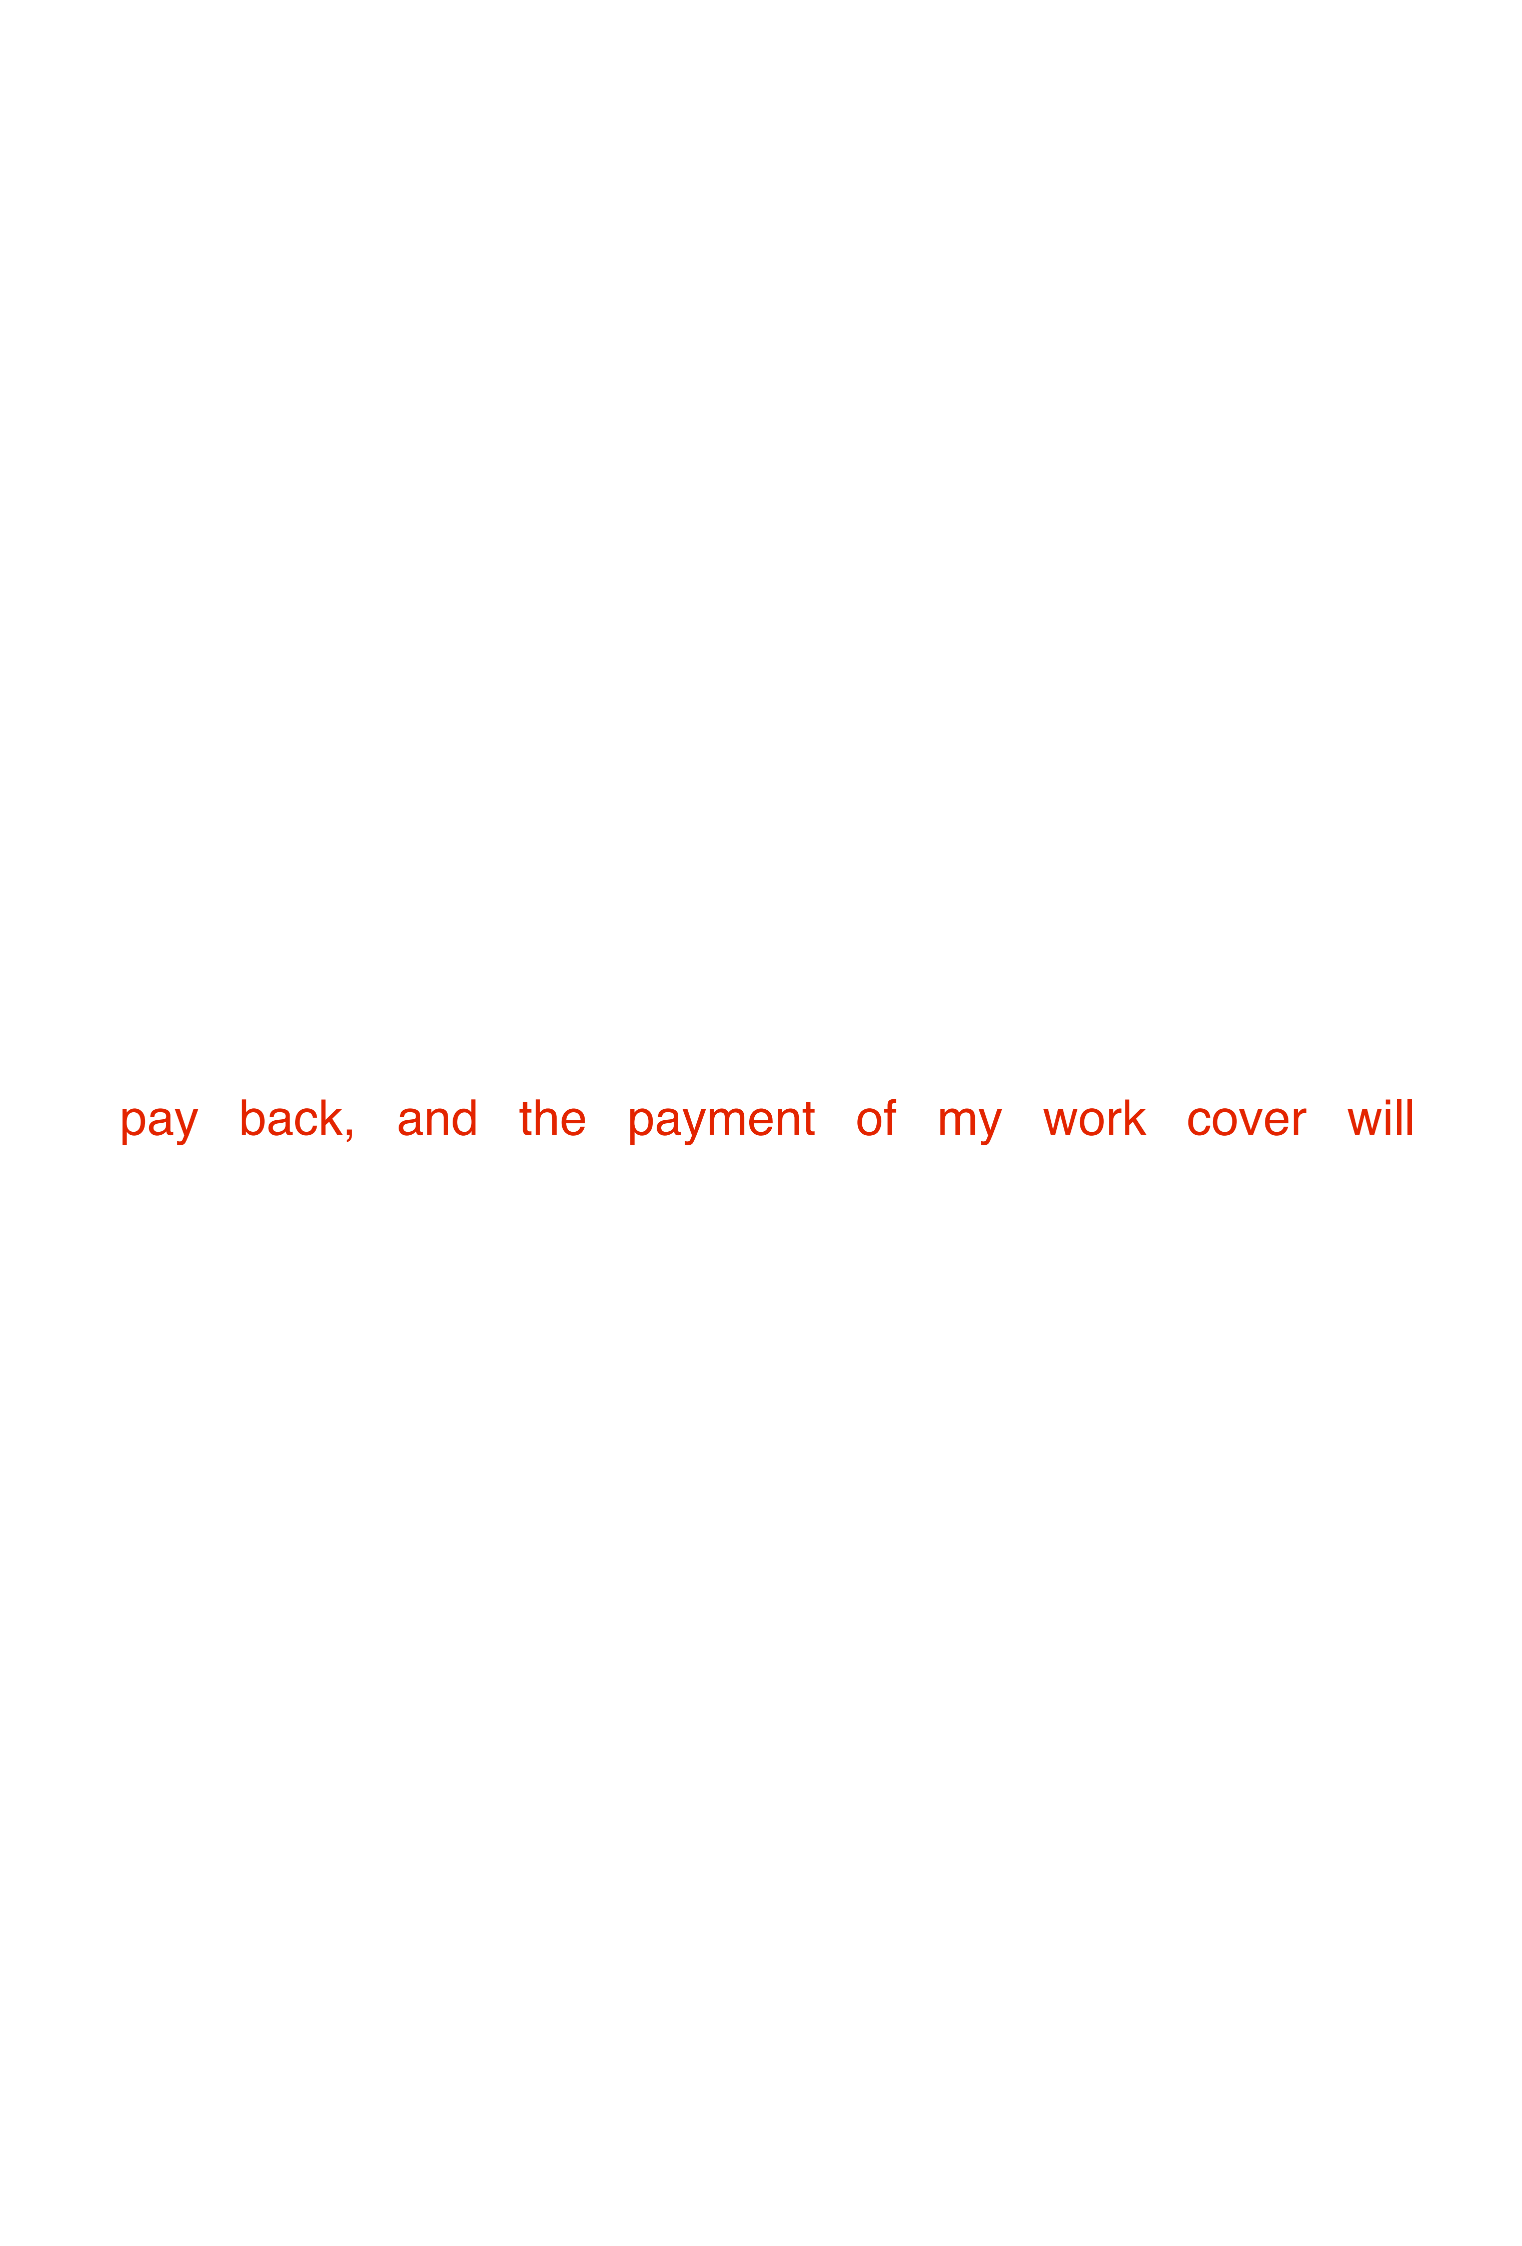

conspiracy.

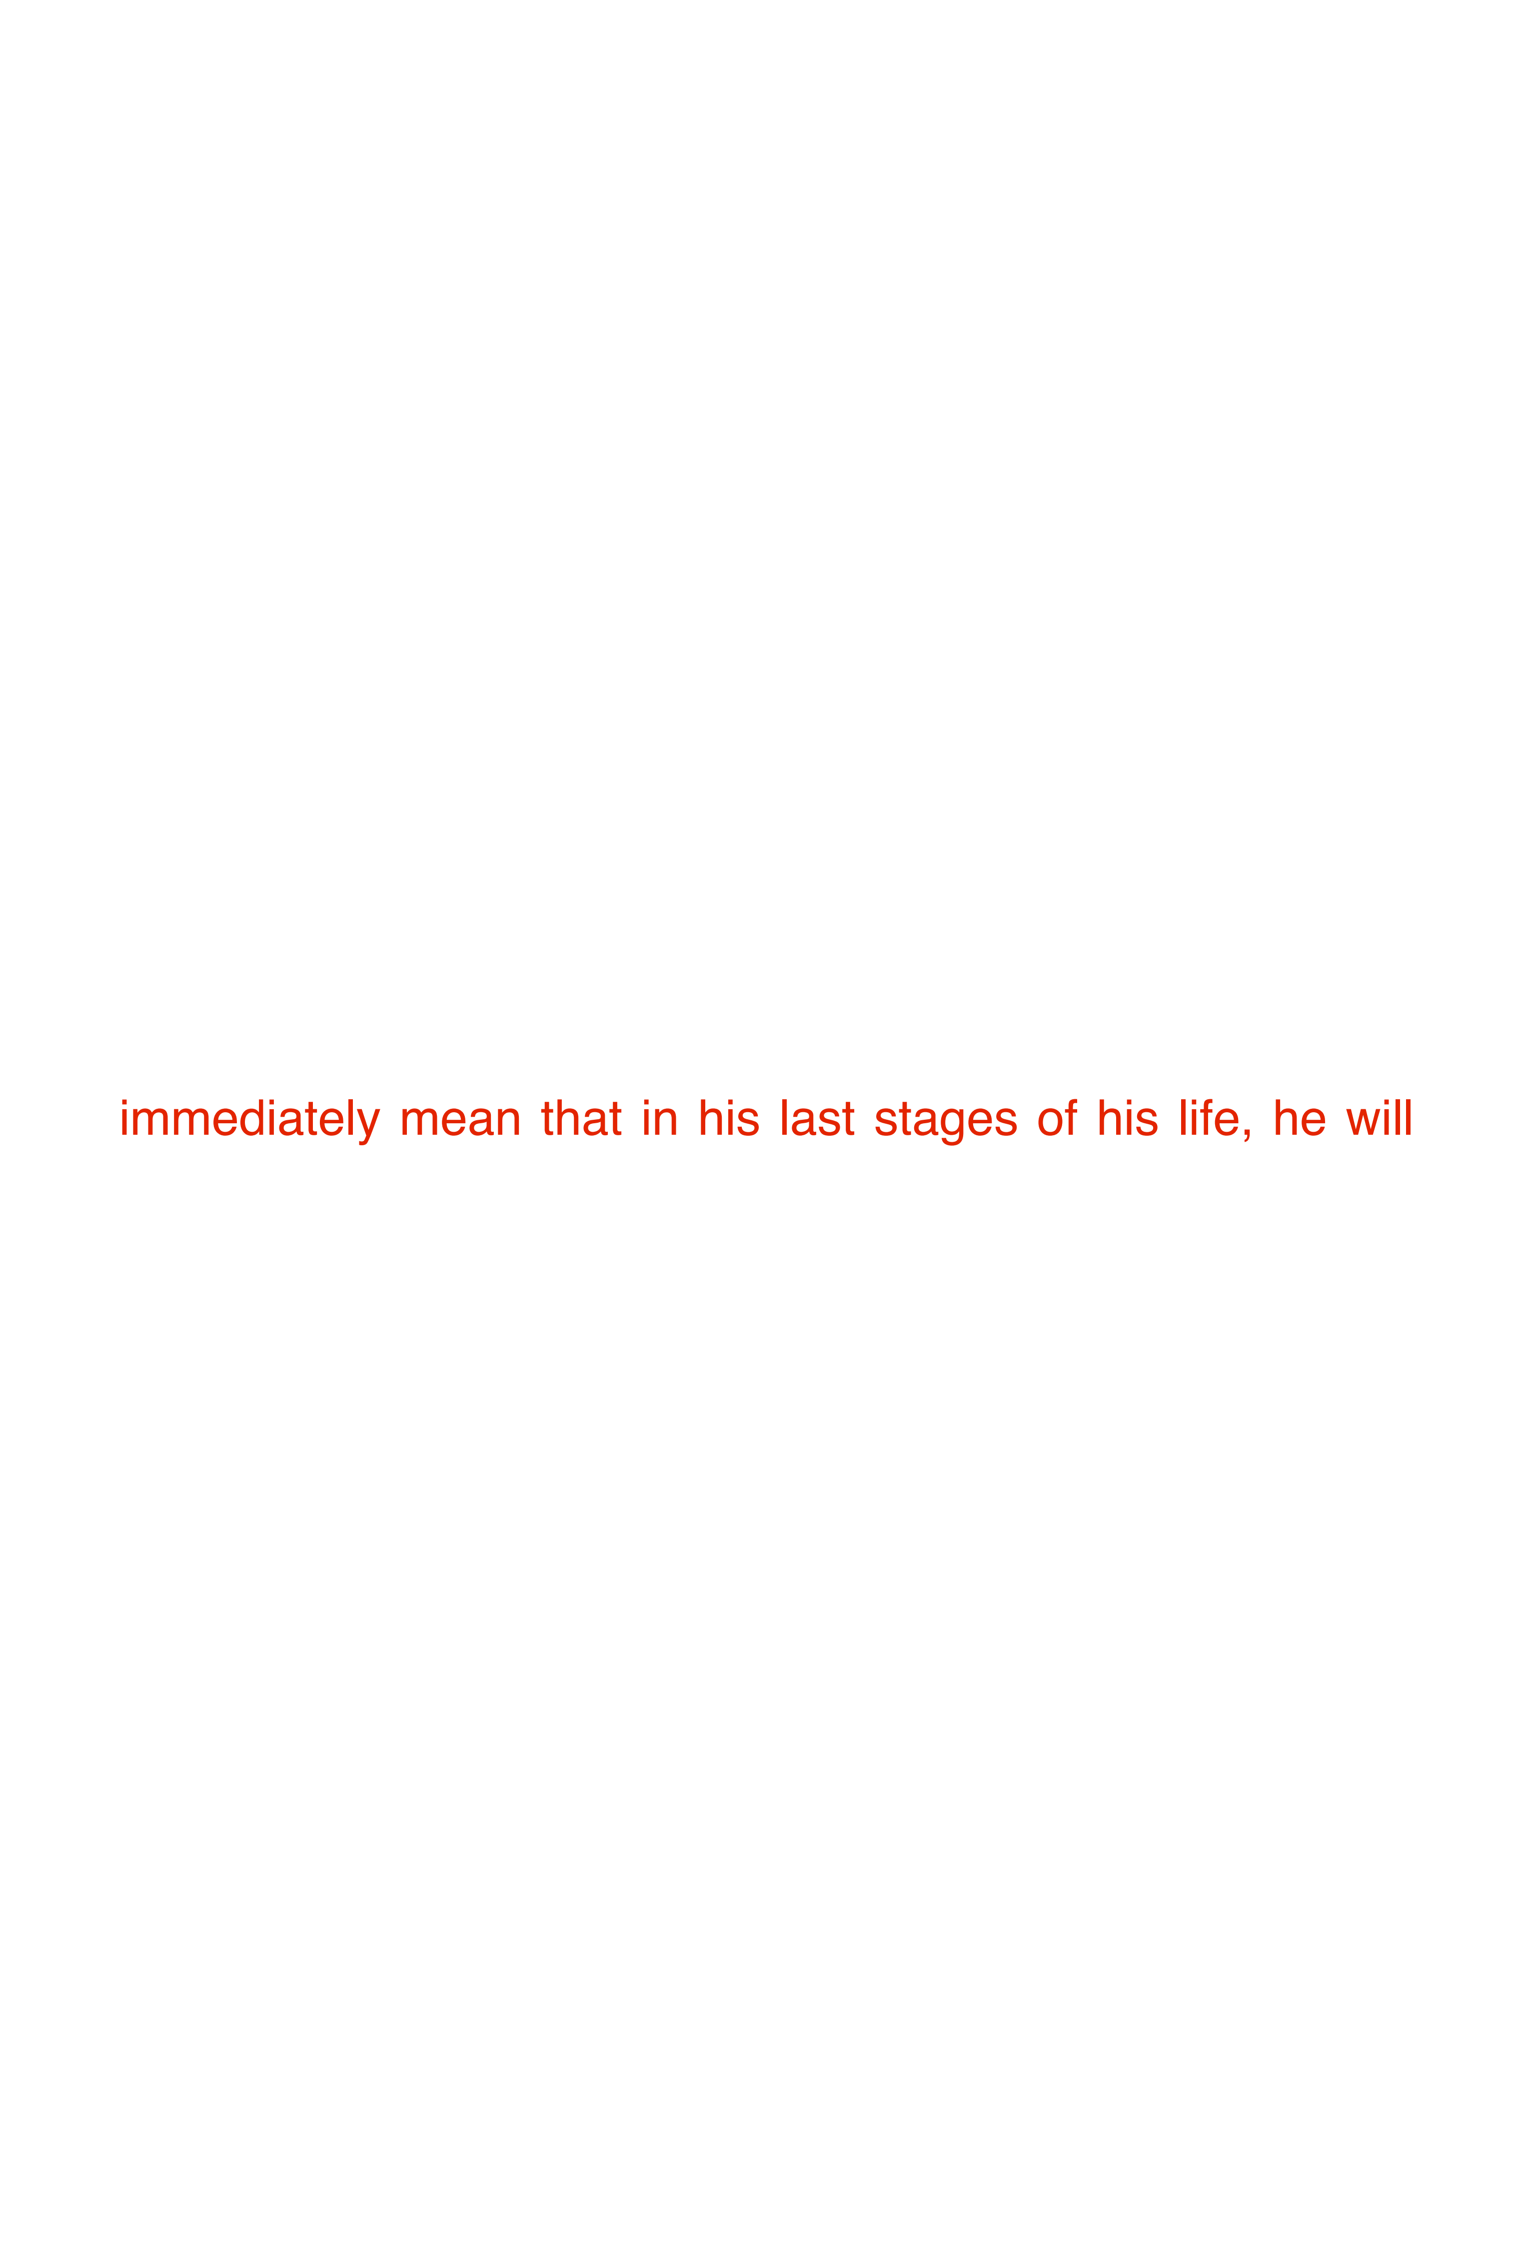

(Link)

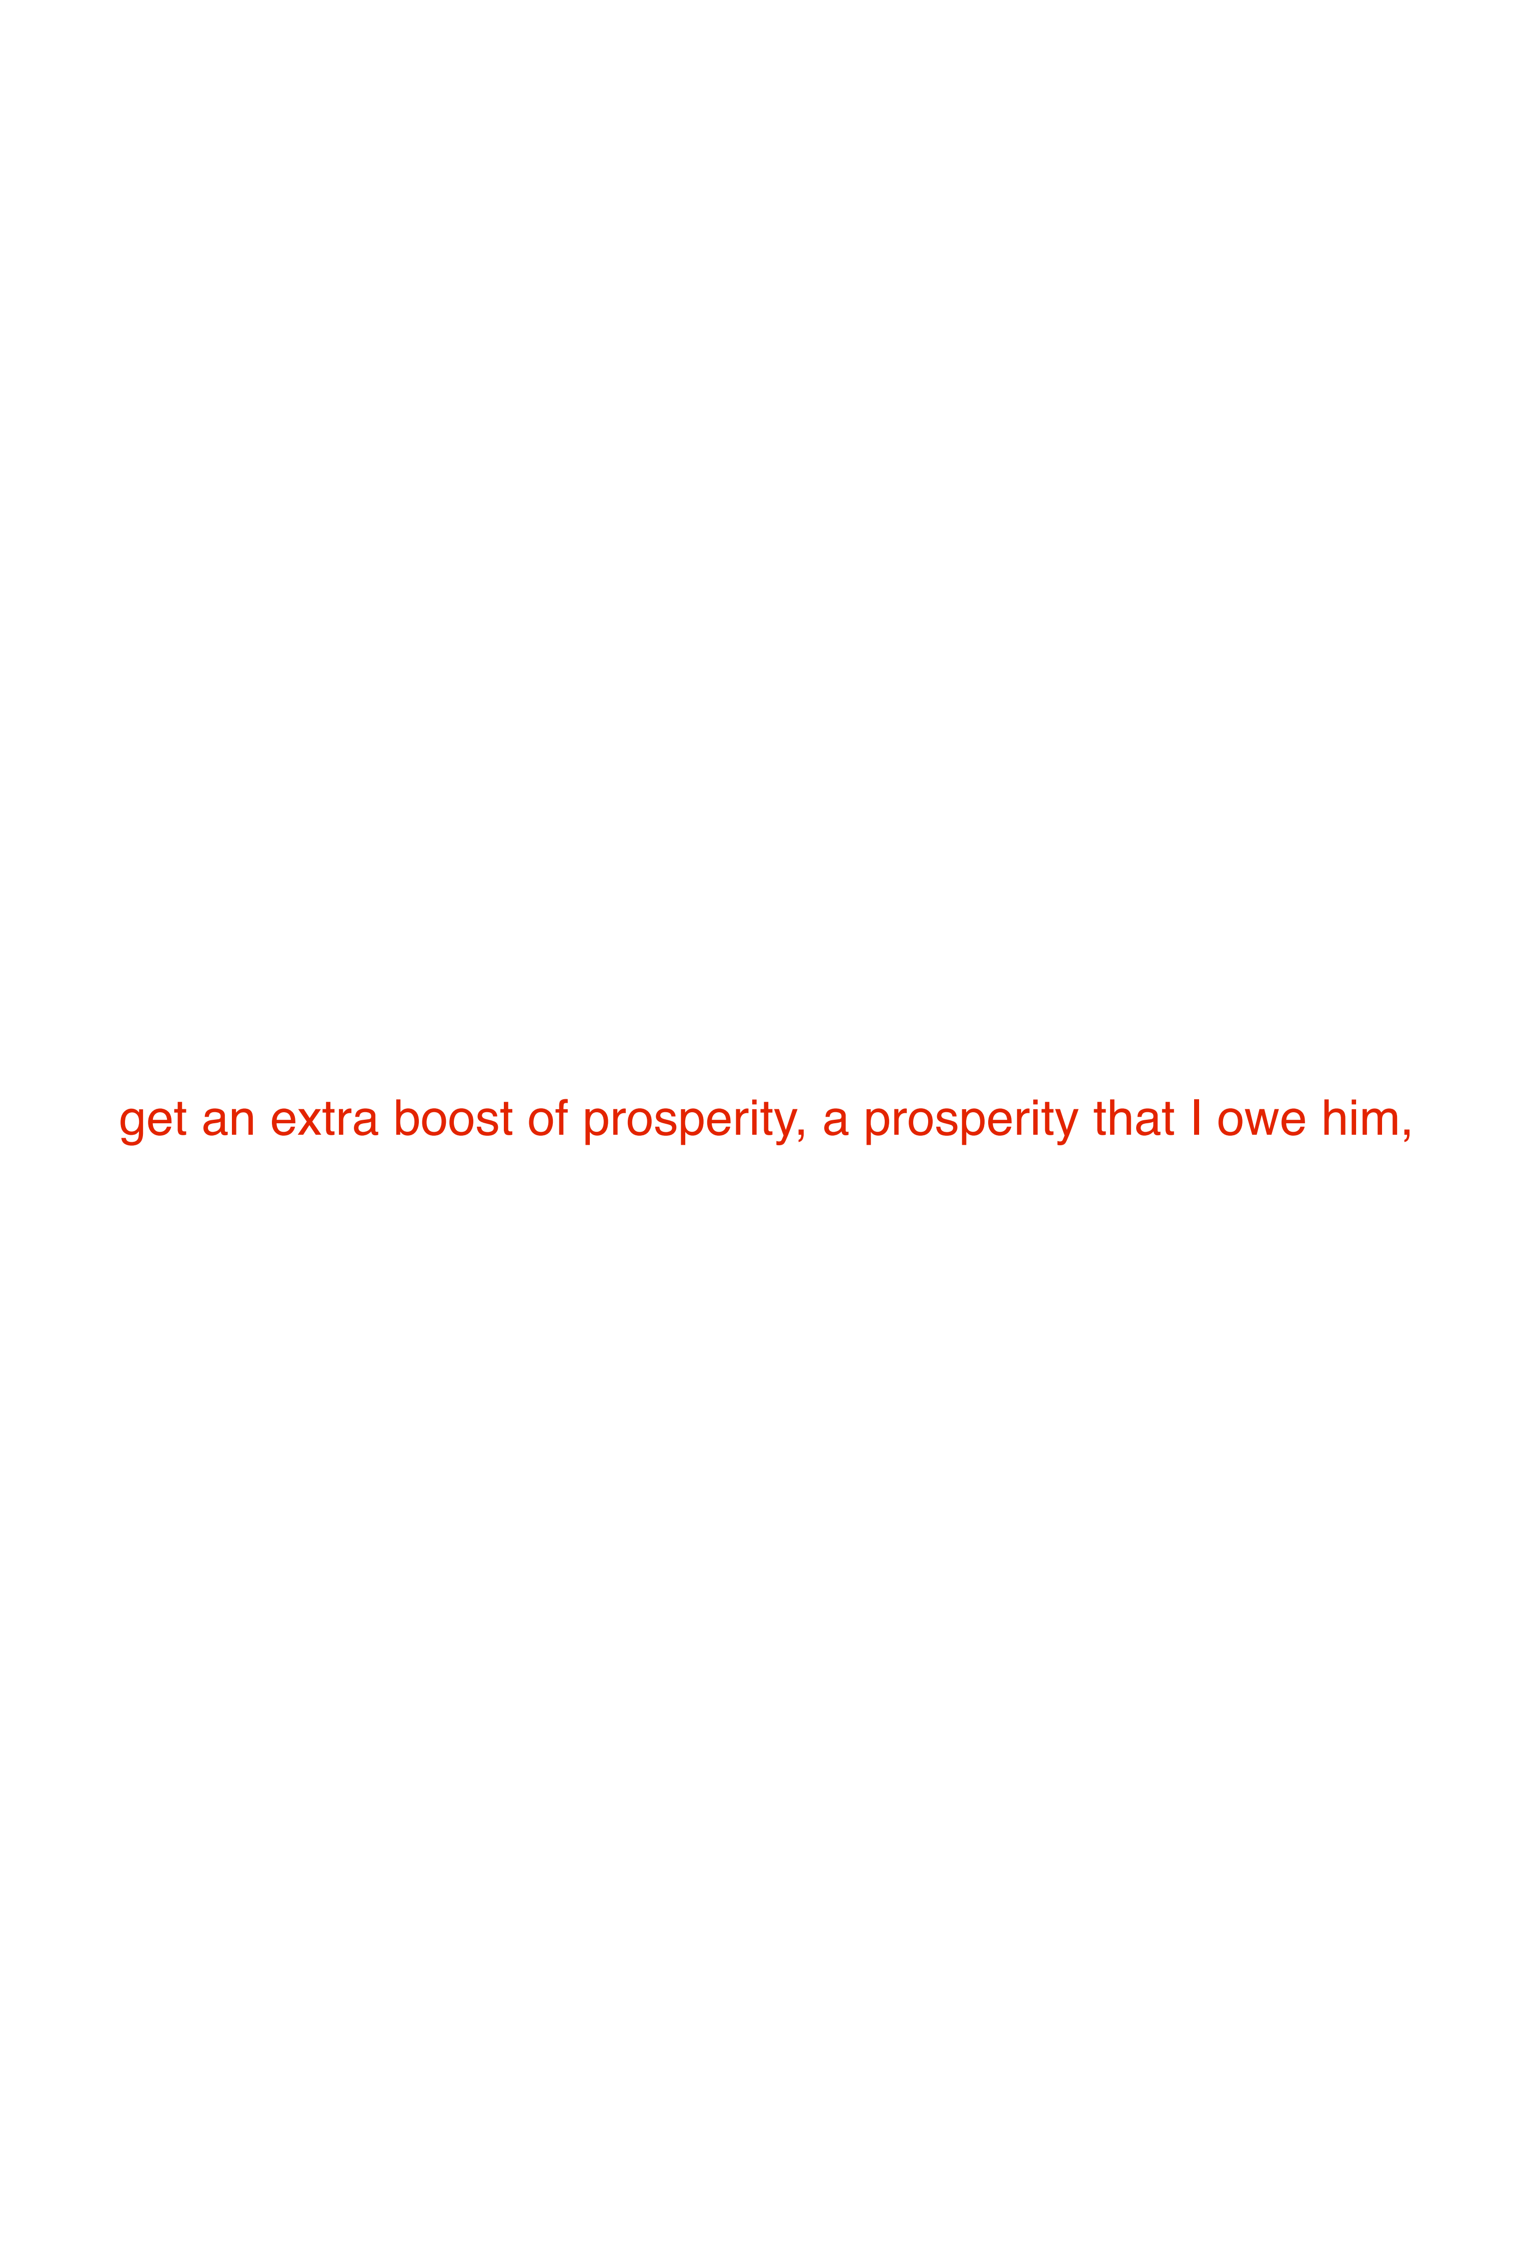

This conspiracy has destroyed all of my personal

relationships, including that of my family and my cancer-

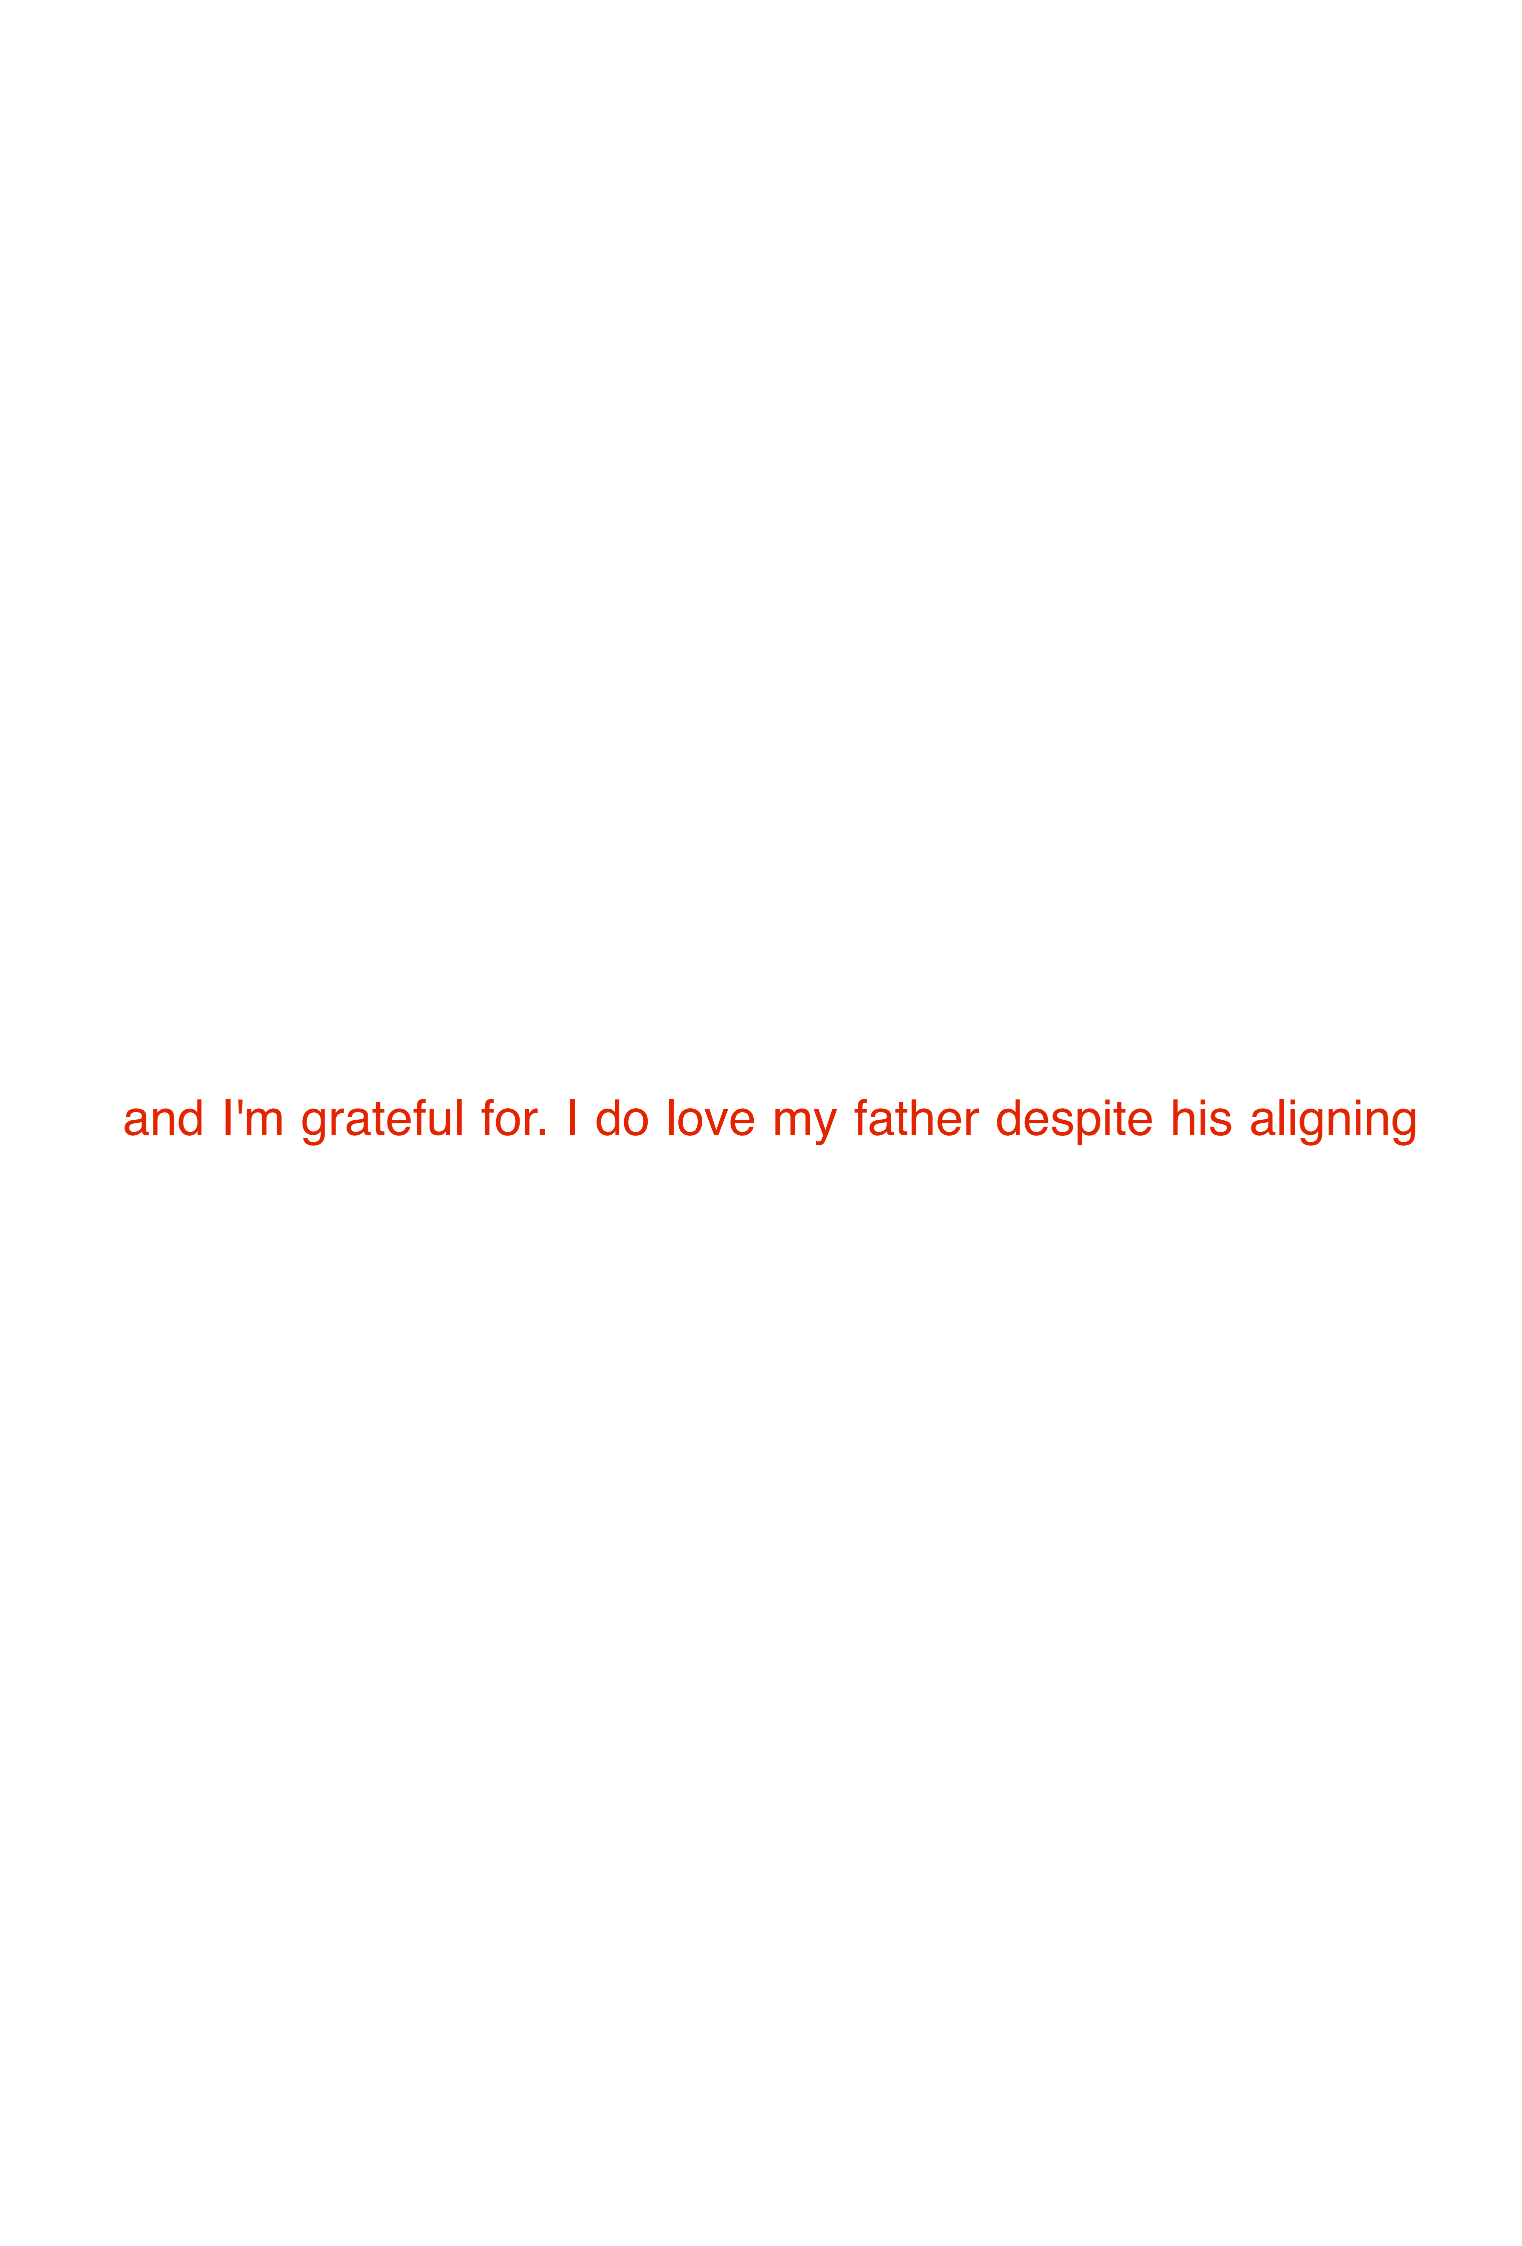

ridden father. I owe him about $30,000 that I am unable to

pay back, and the payment of my work cover will

immediately mean that in his last stages of his life, he will

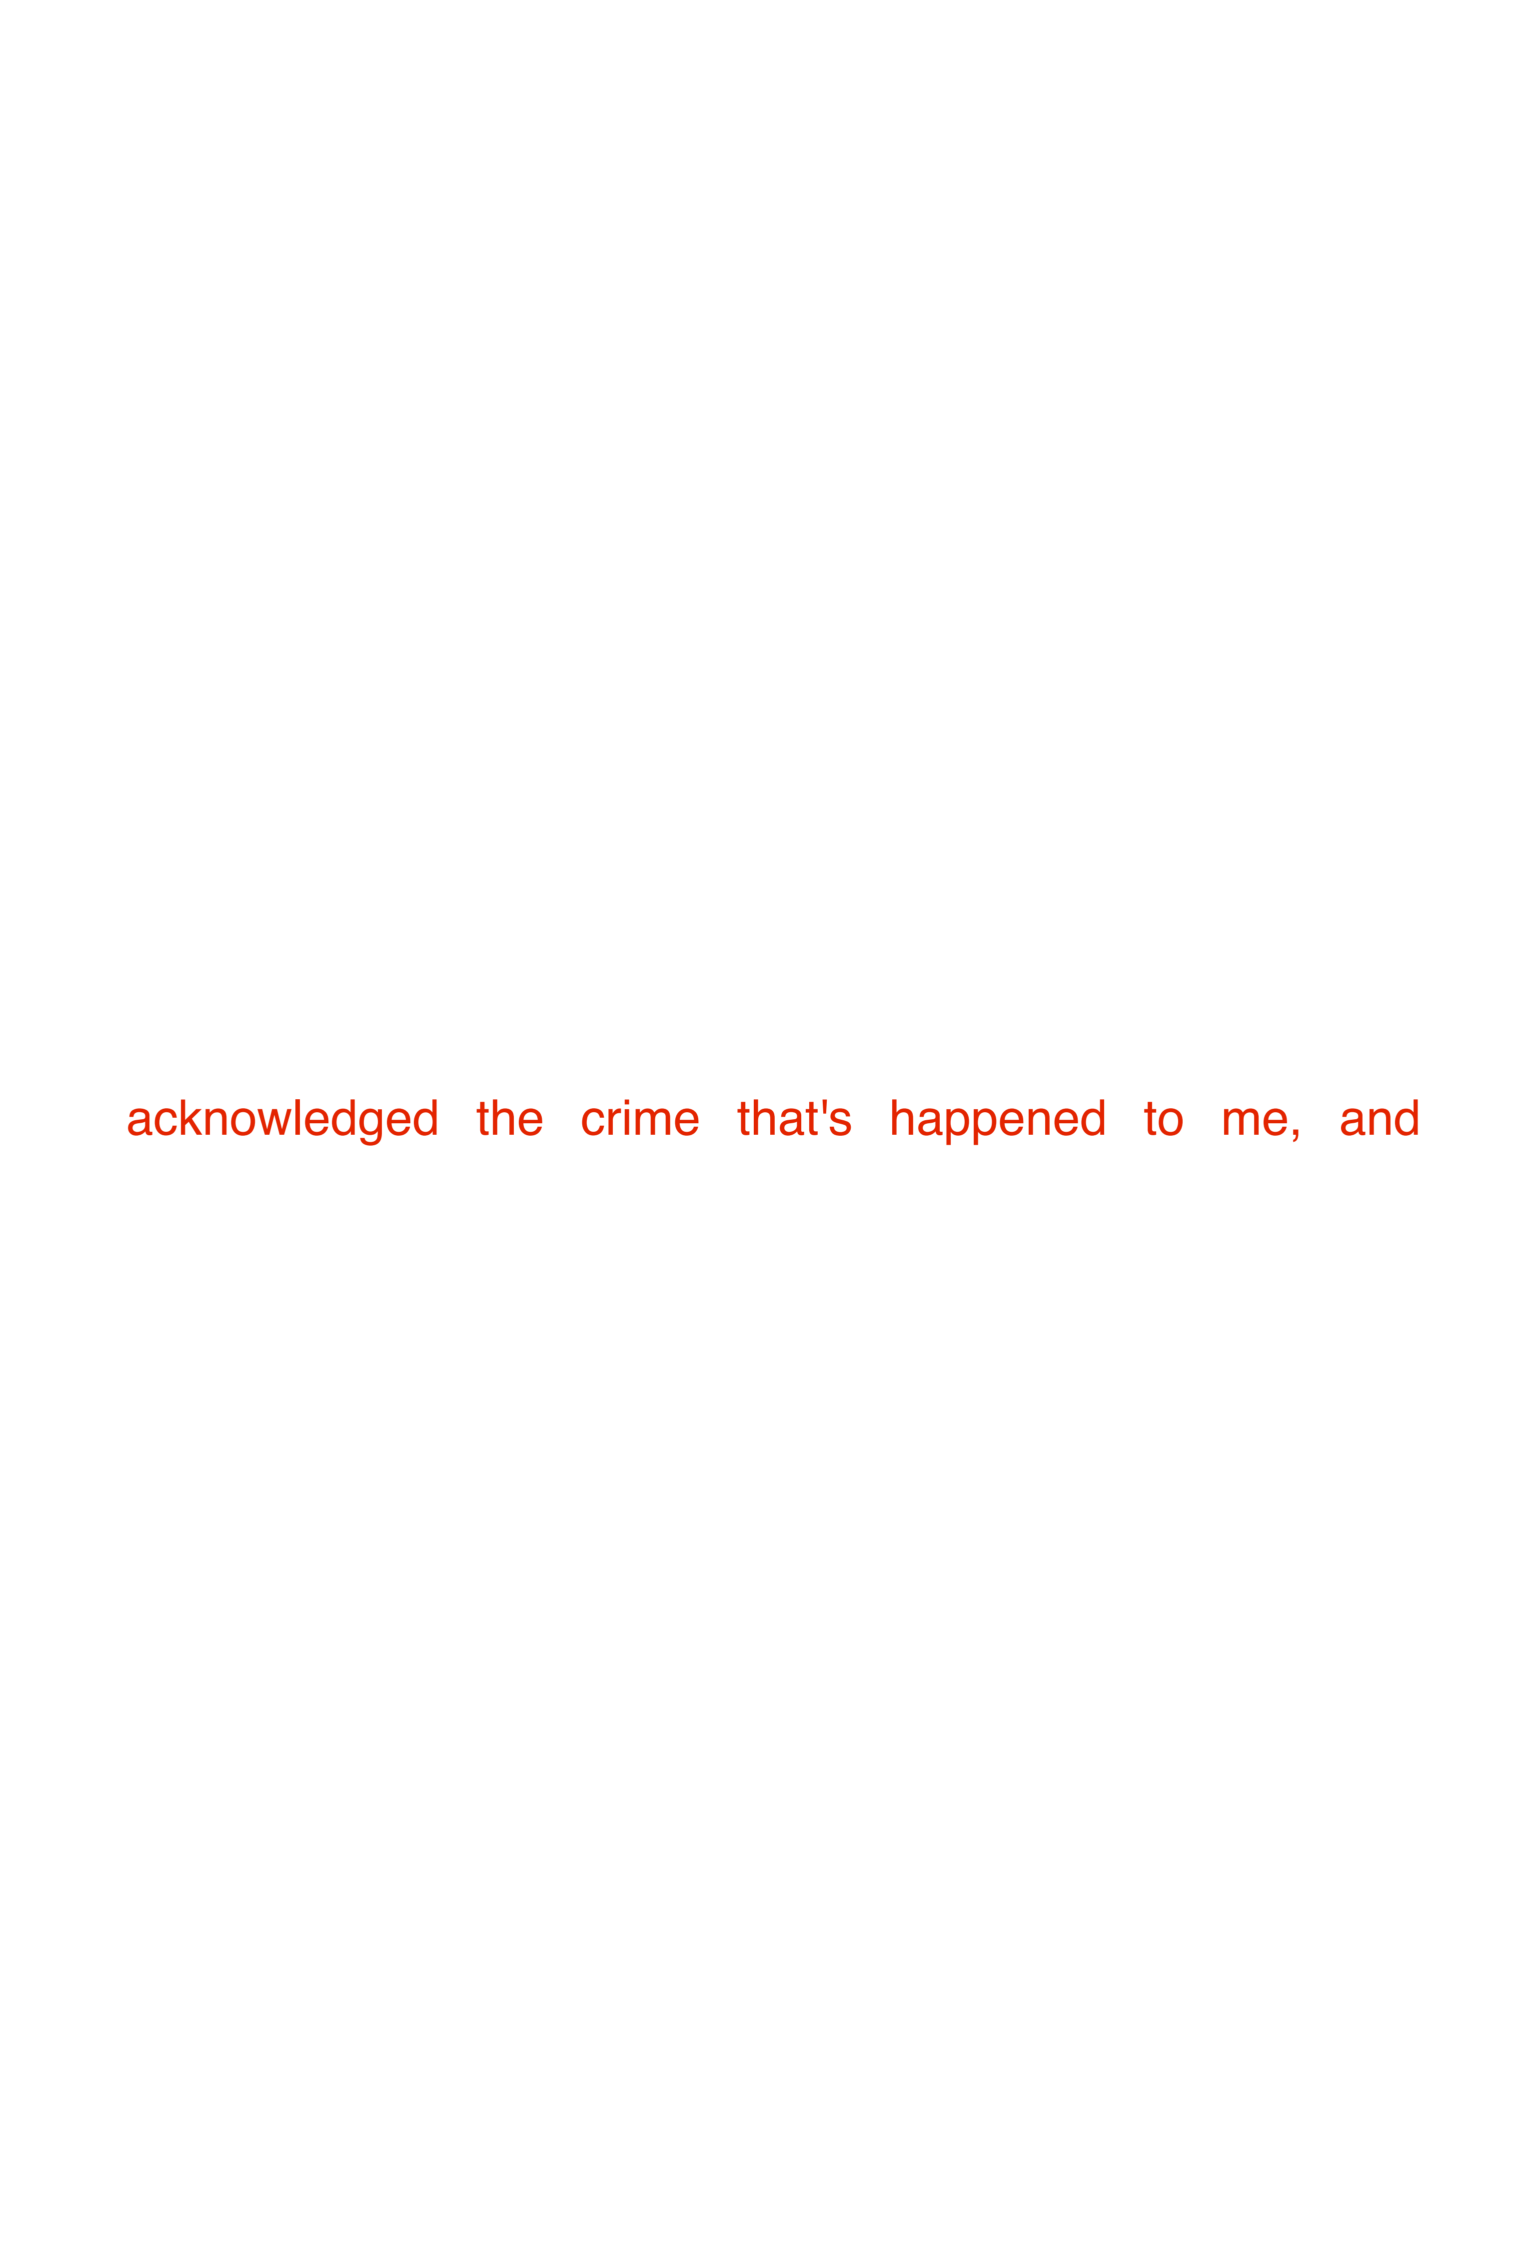

get an extra boost of prosperity, a prosperity that I owe him,

and I'm grateful for. I do love my father despite his aligning

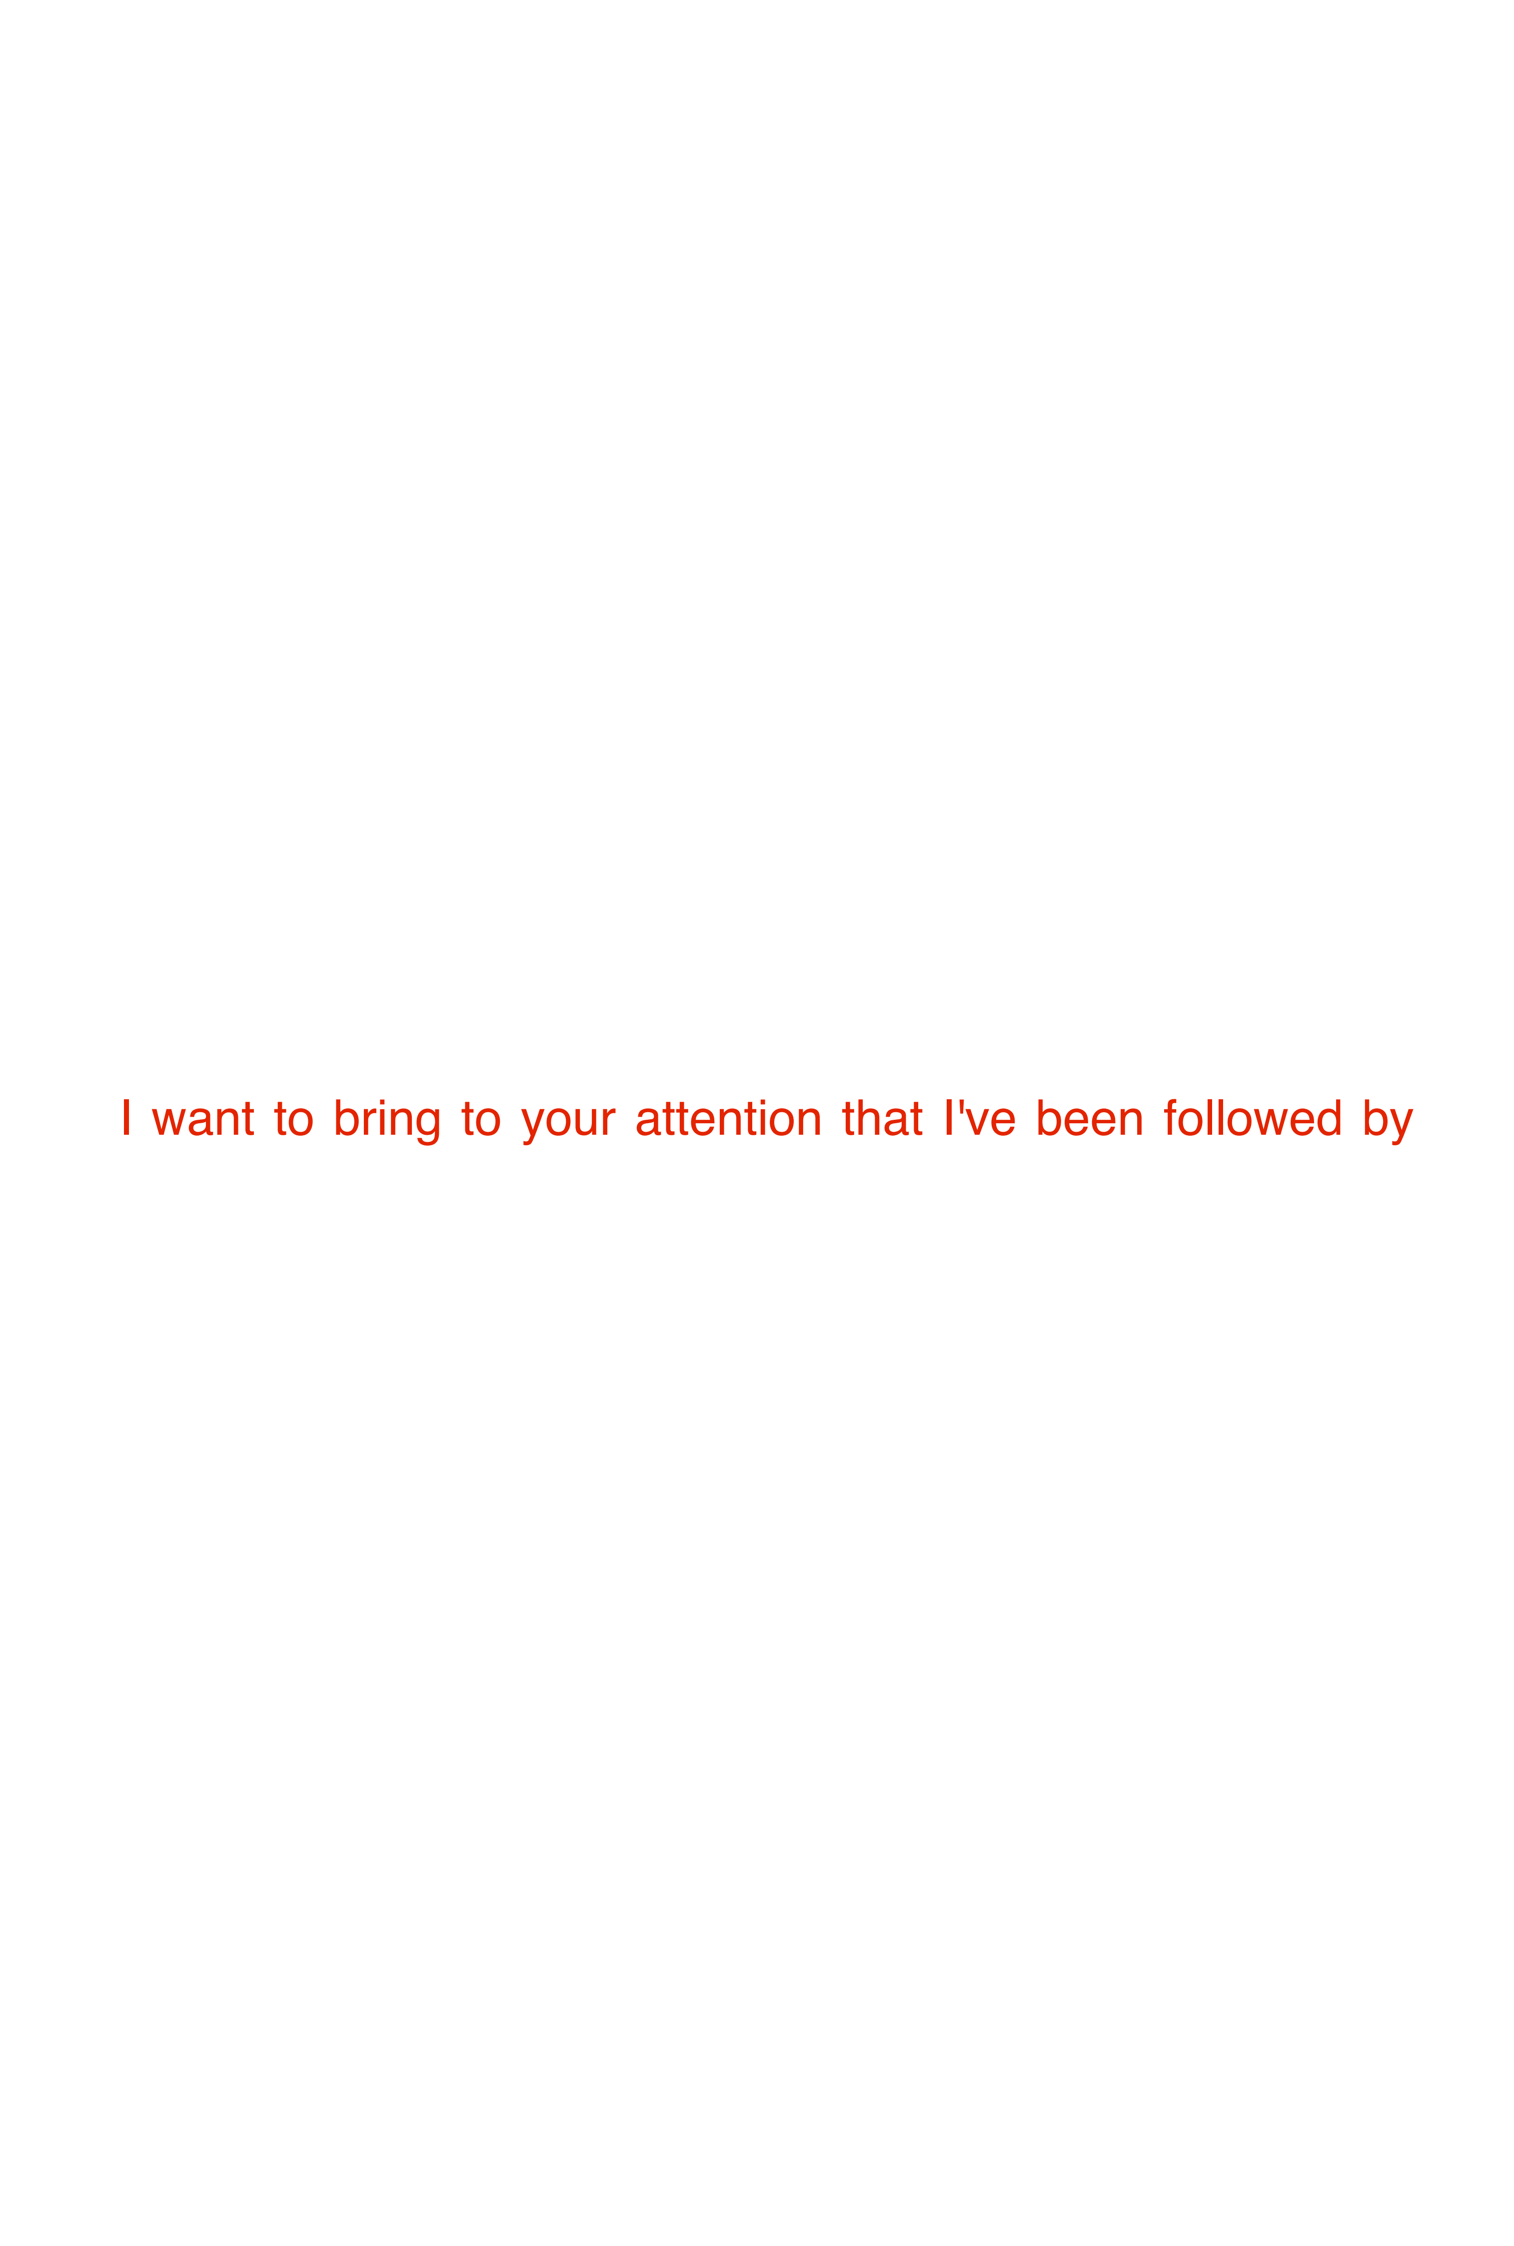

with asking the police to step in and look after me when it

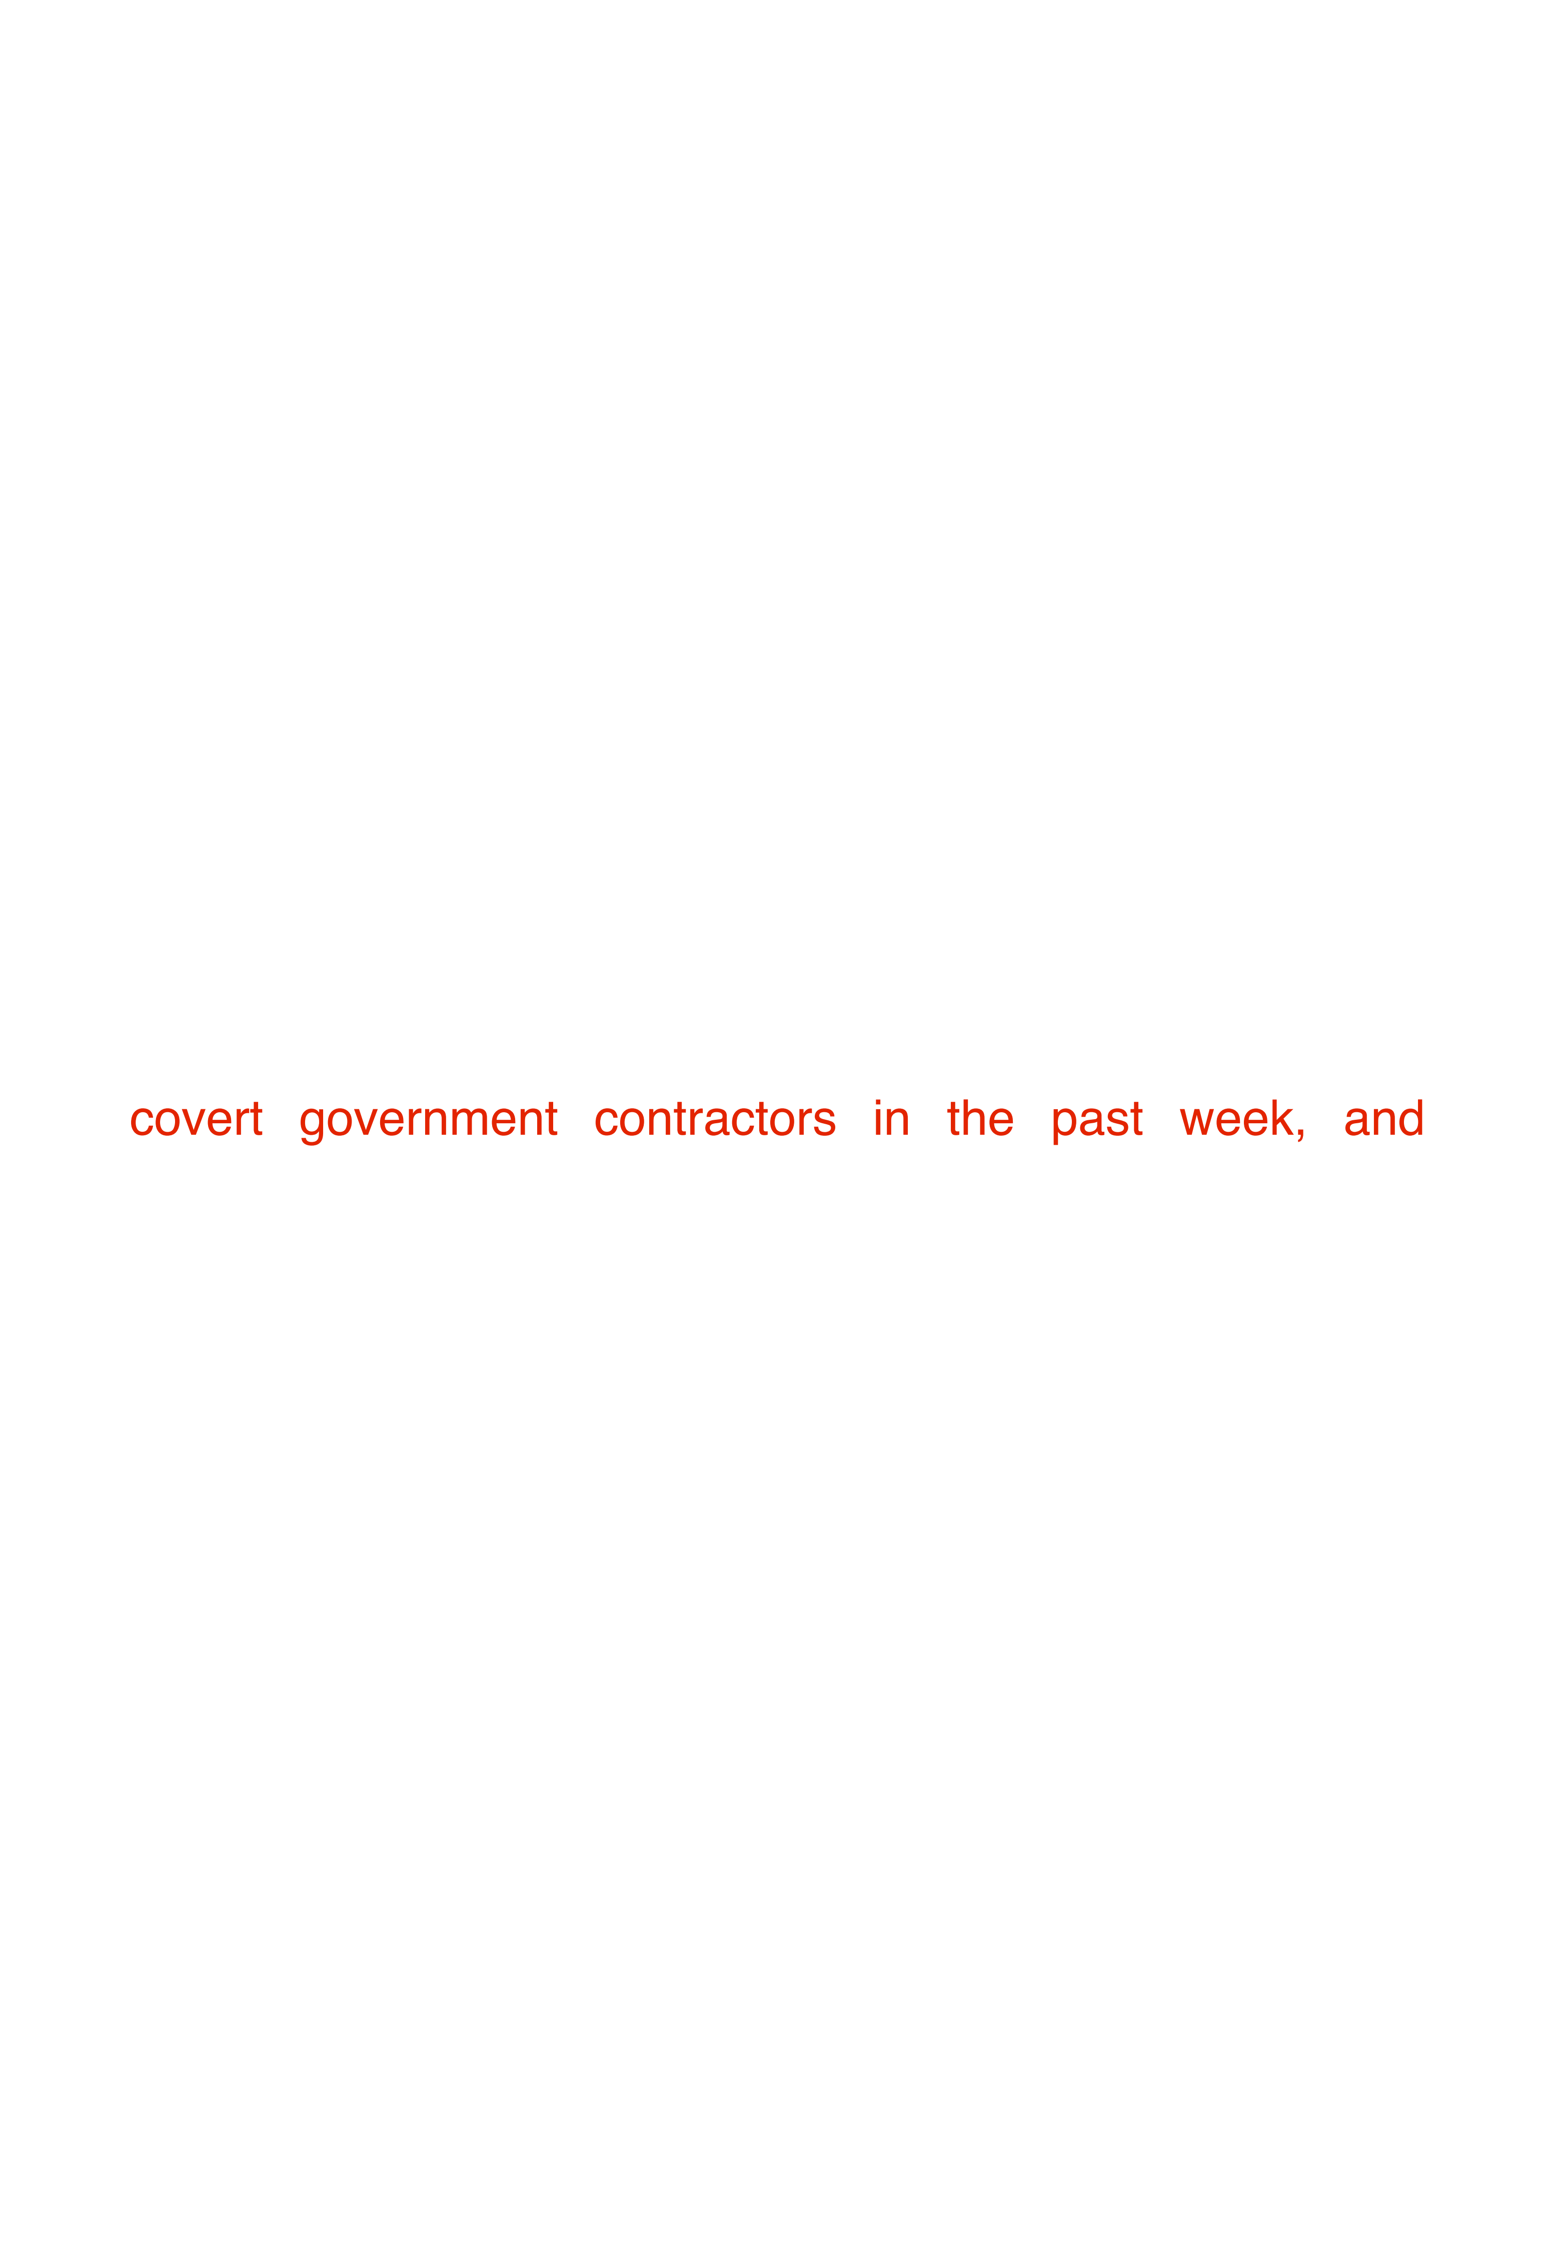

has been the very police who have persecuted me, not

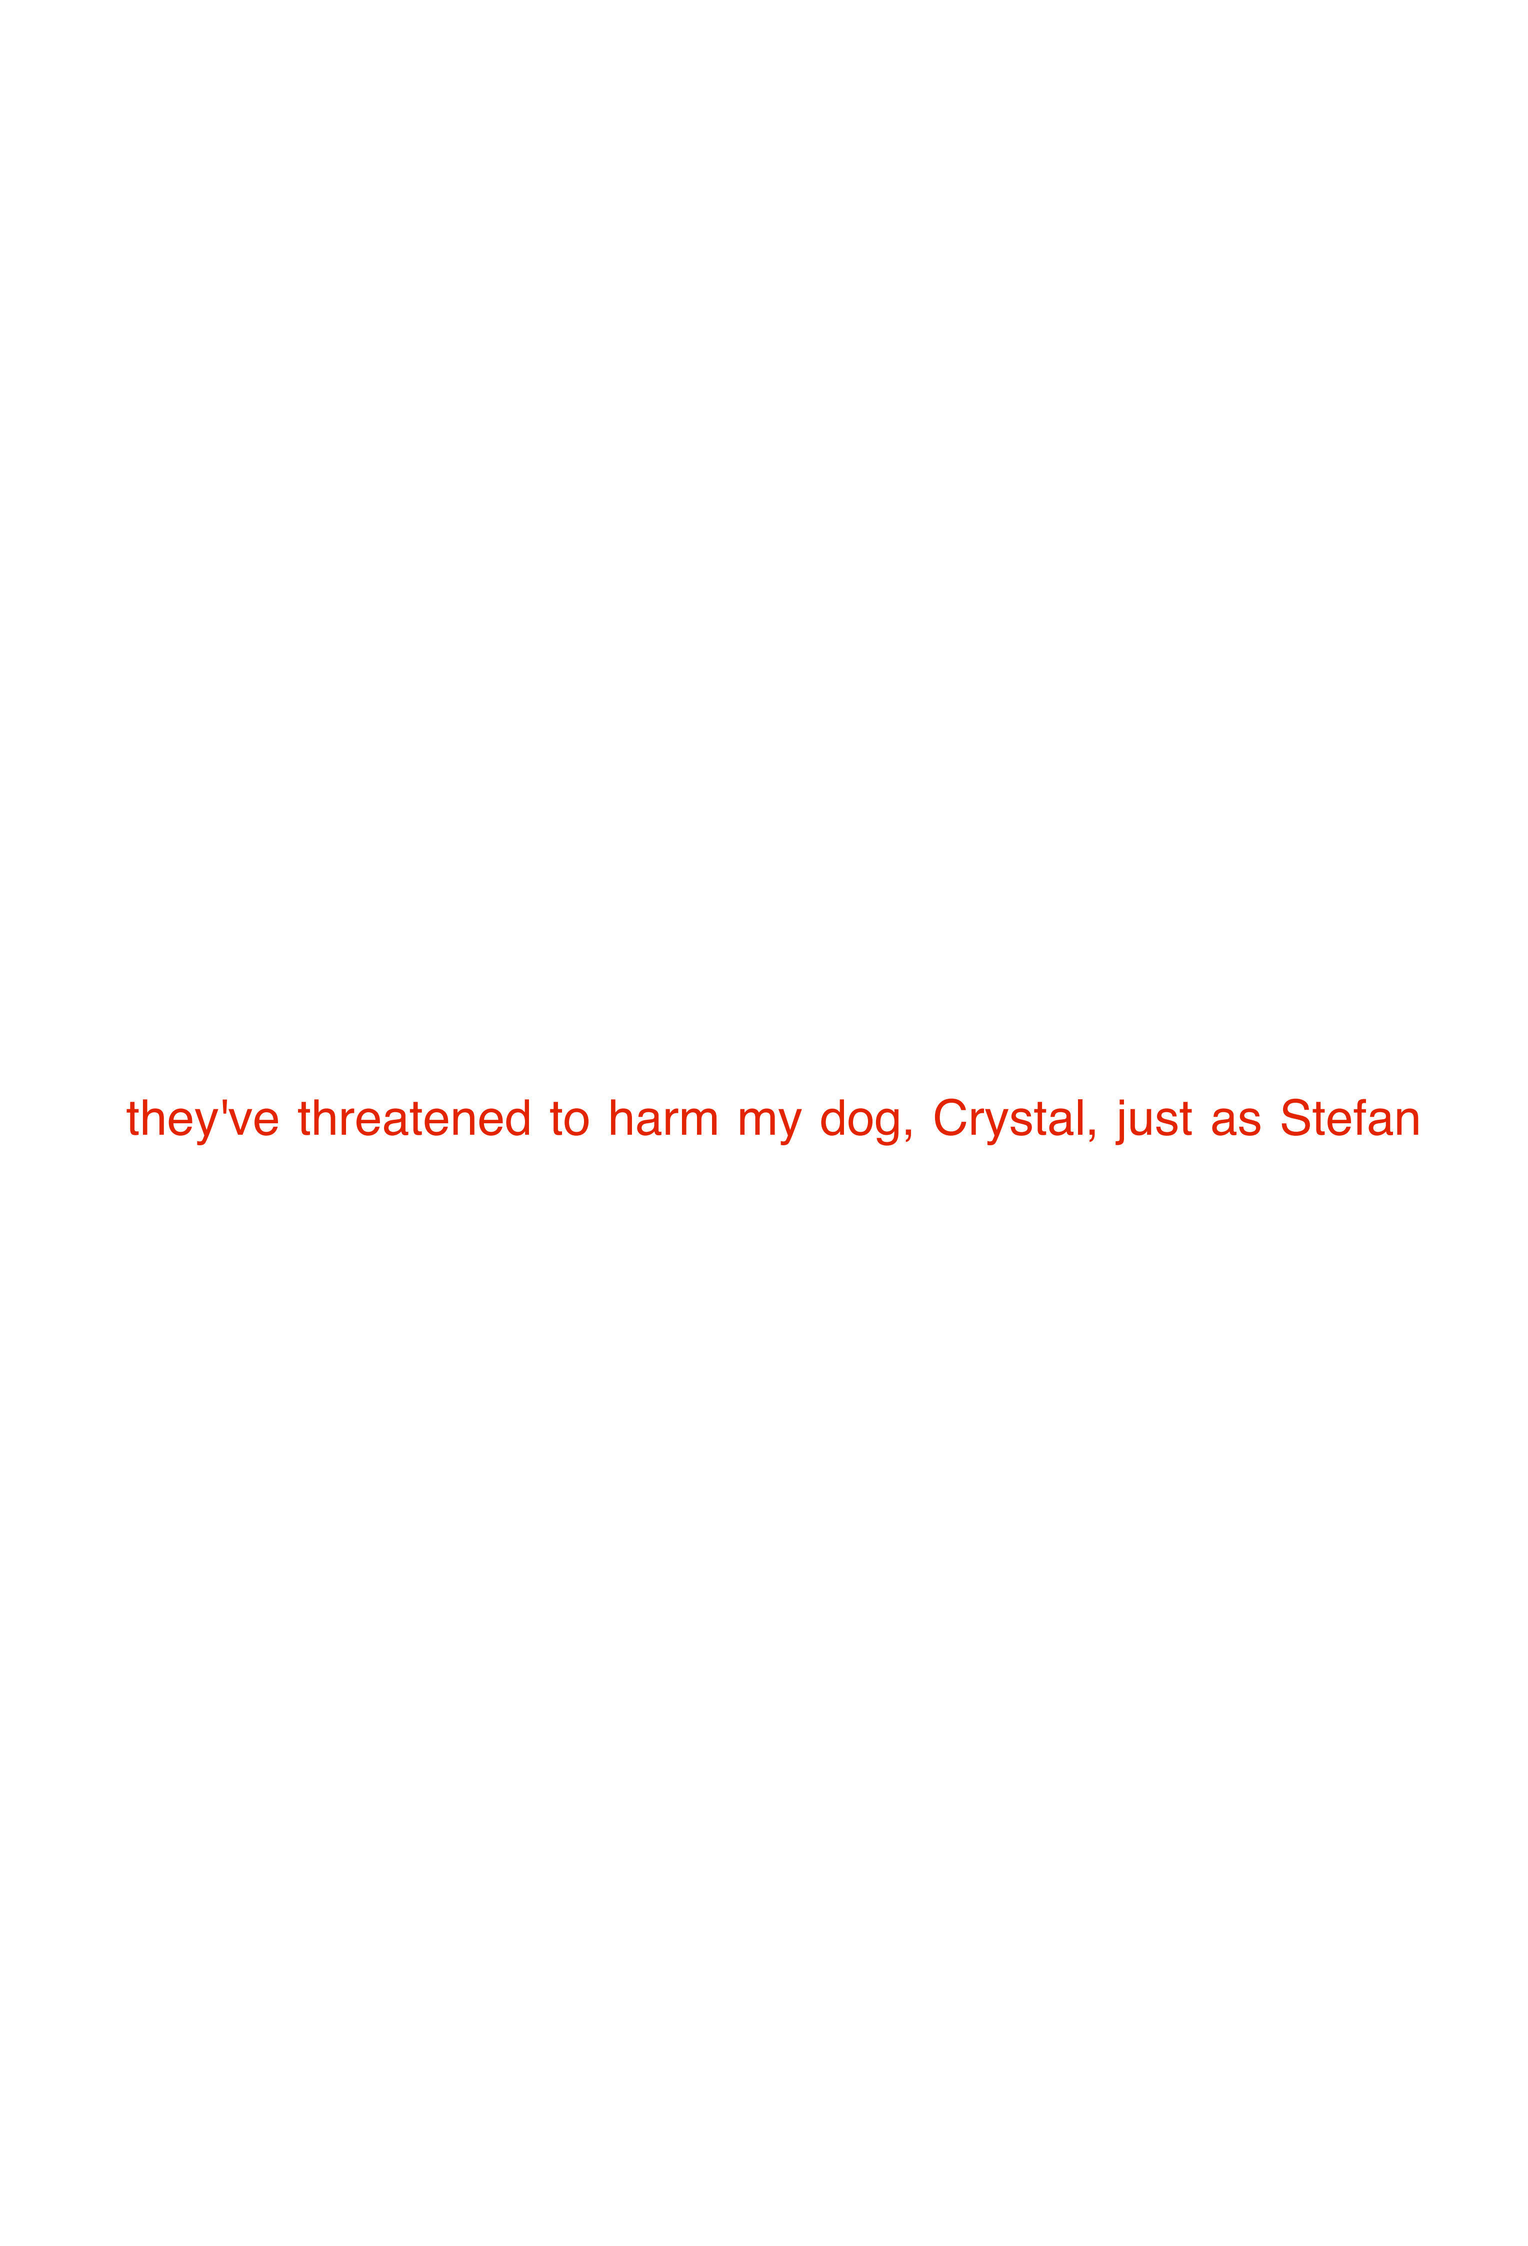

acknowledged the crime that's happened to me, and

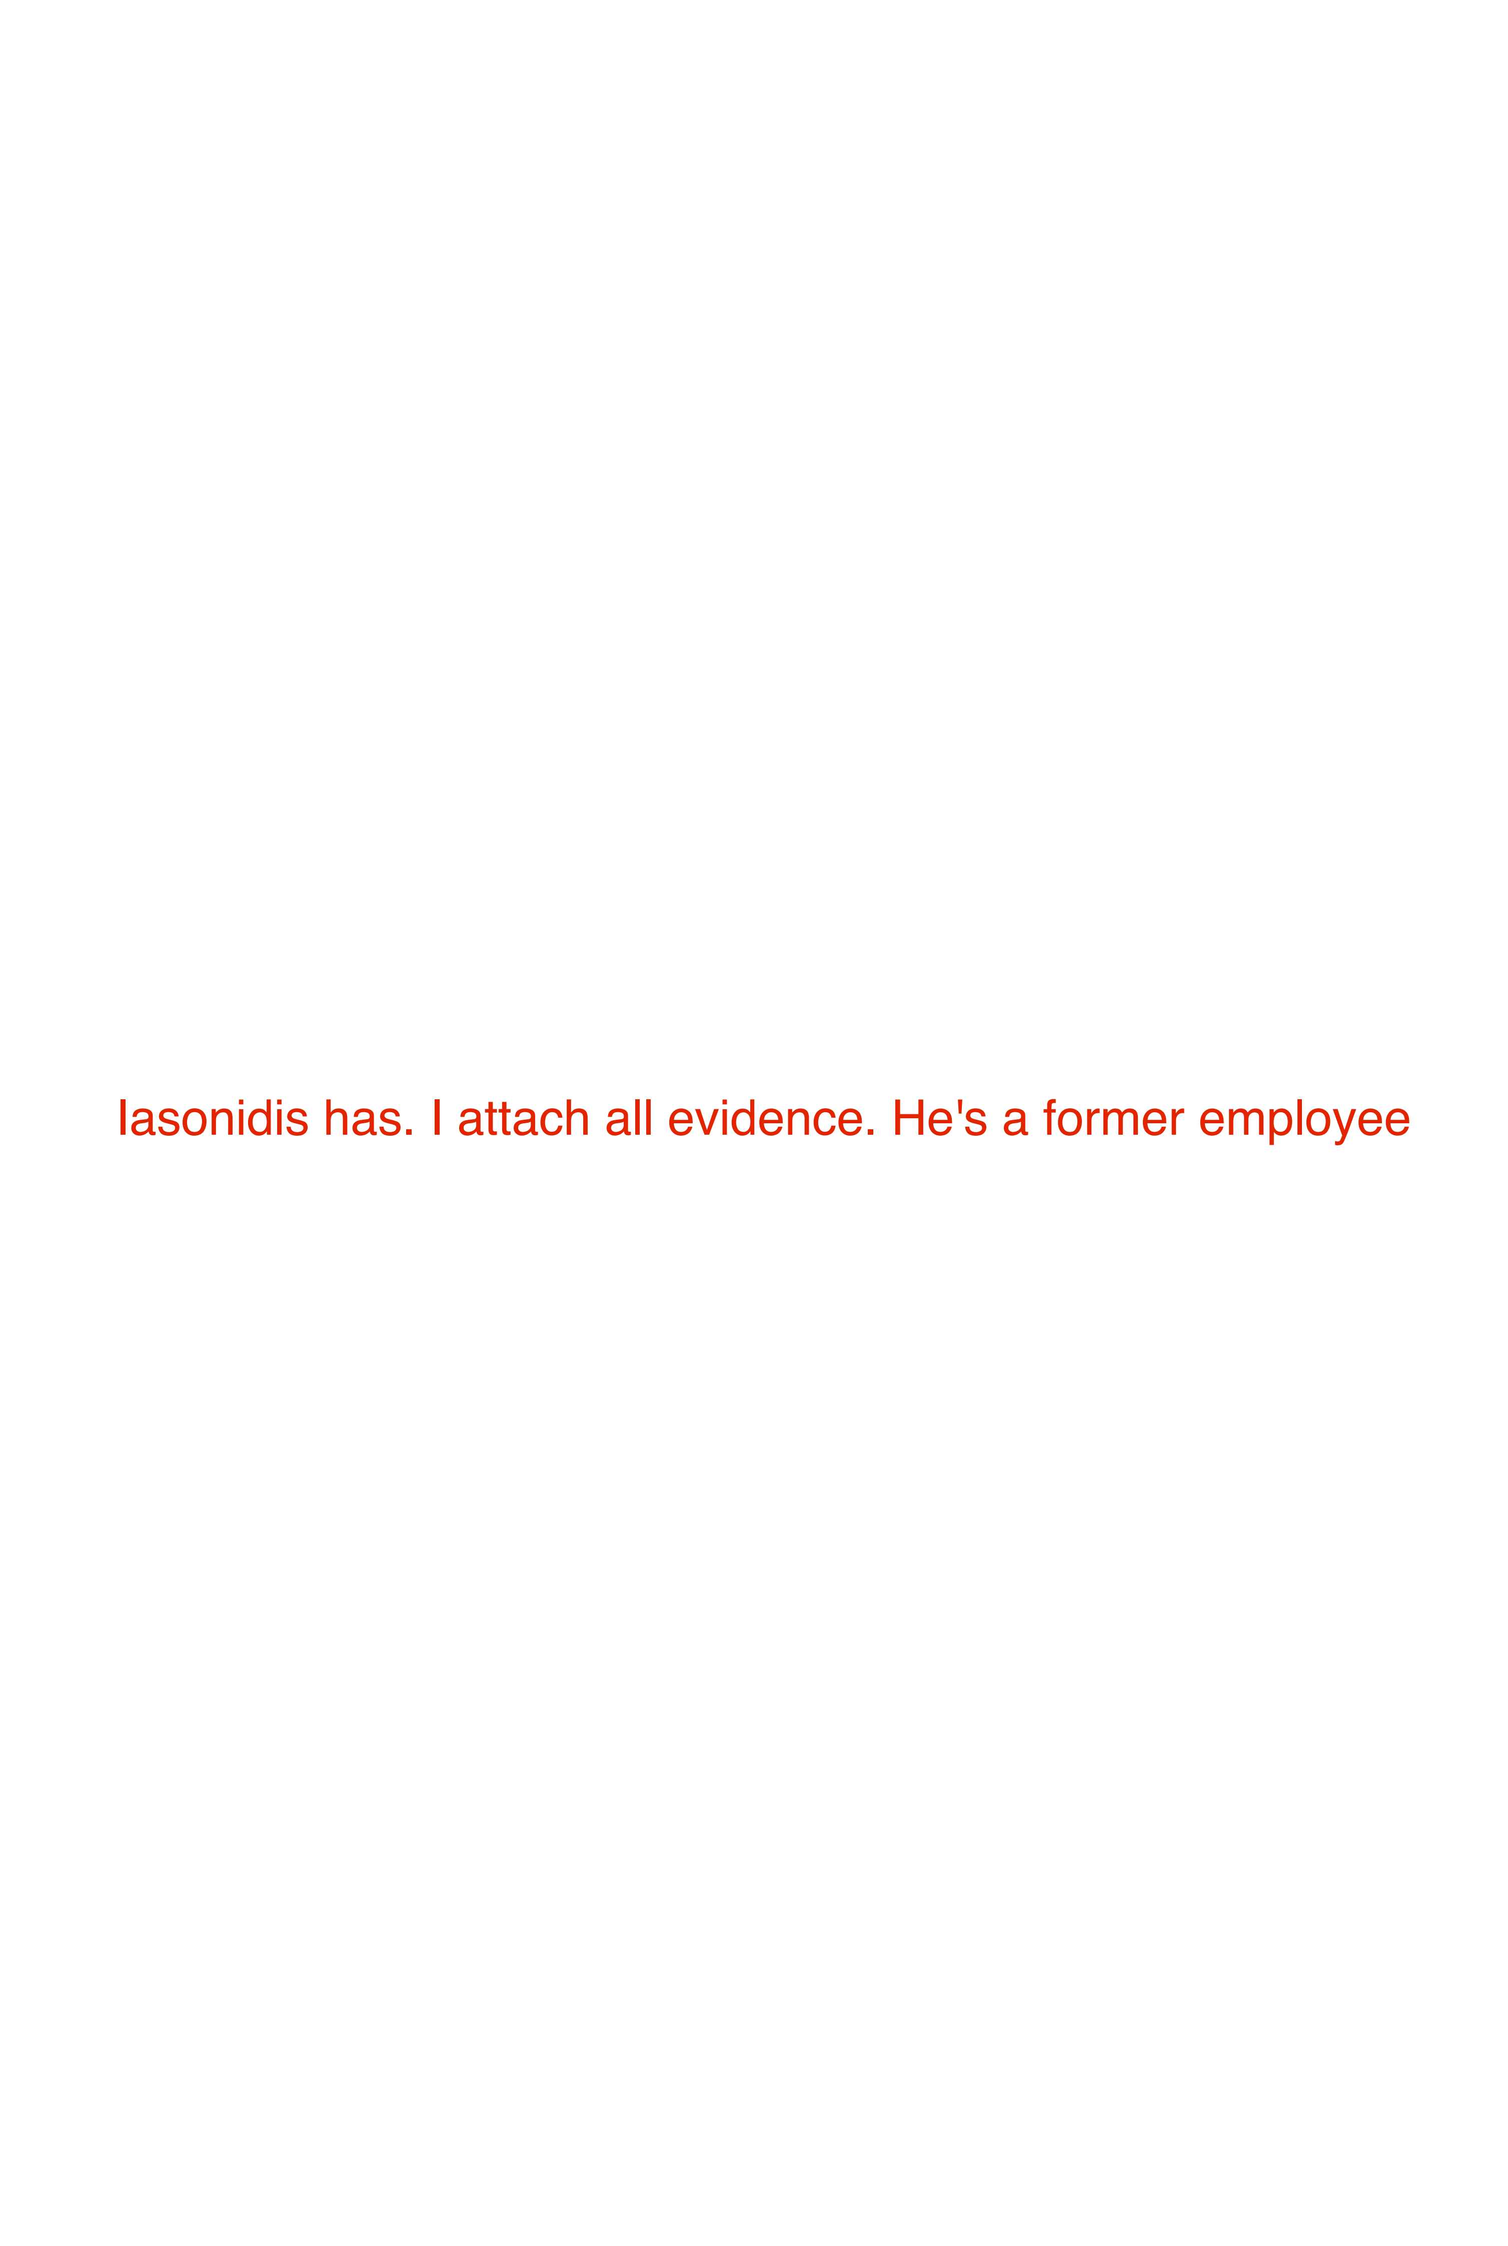

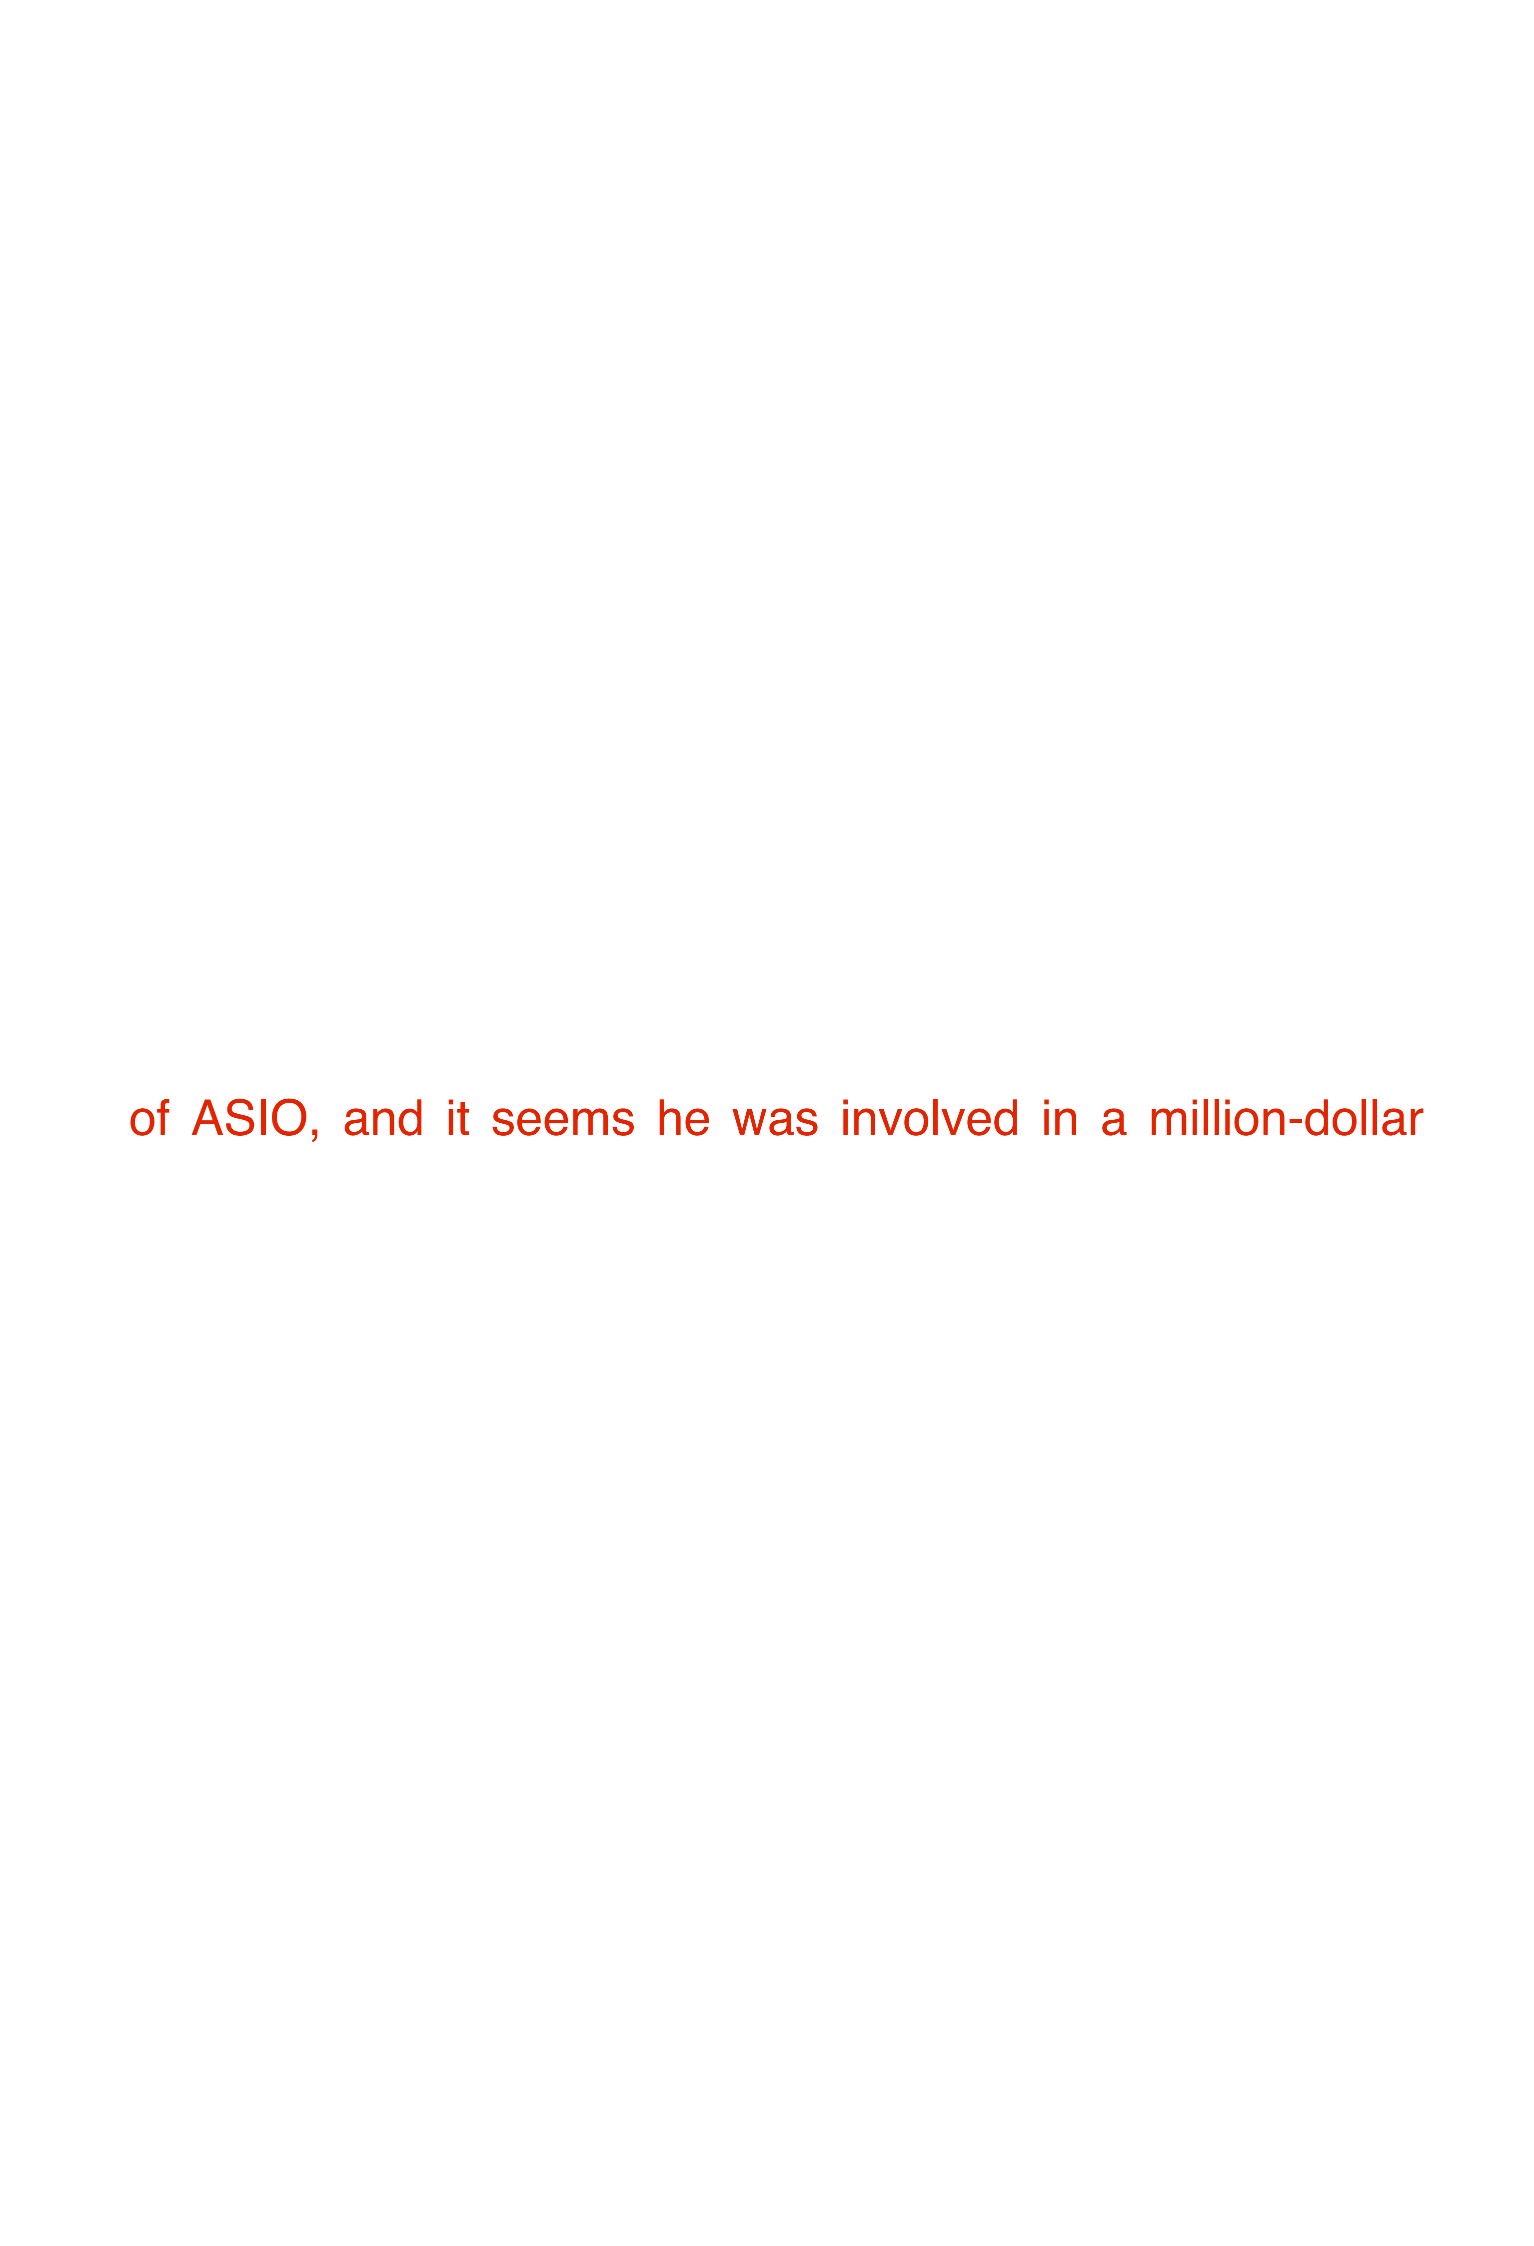

literally ran me out of the state of Victoria.

I want to bring to your attention that I've been followed by

covert government contractors in the past week, and

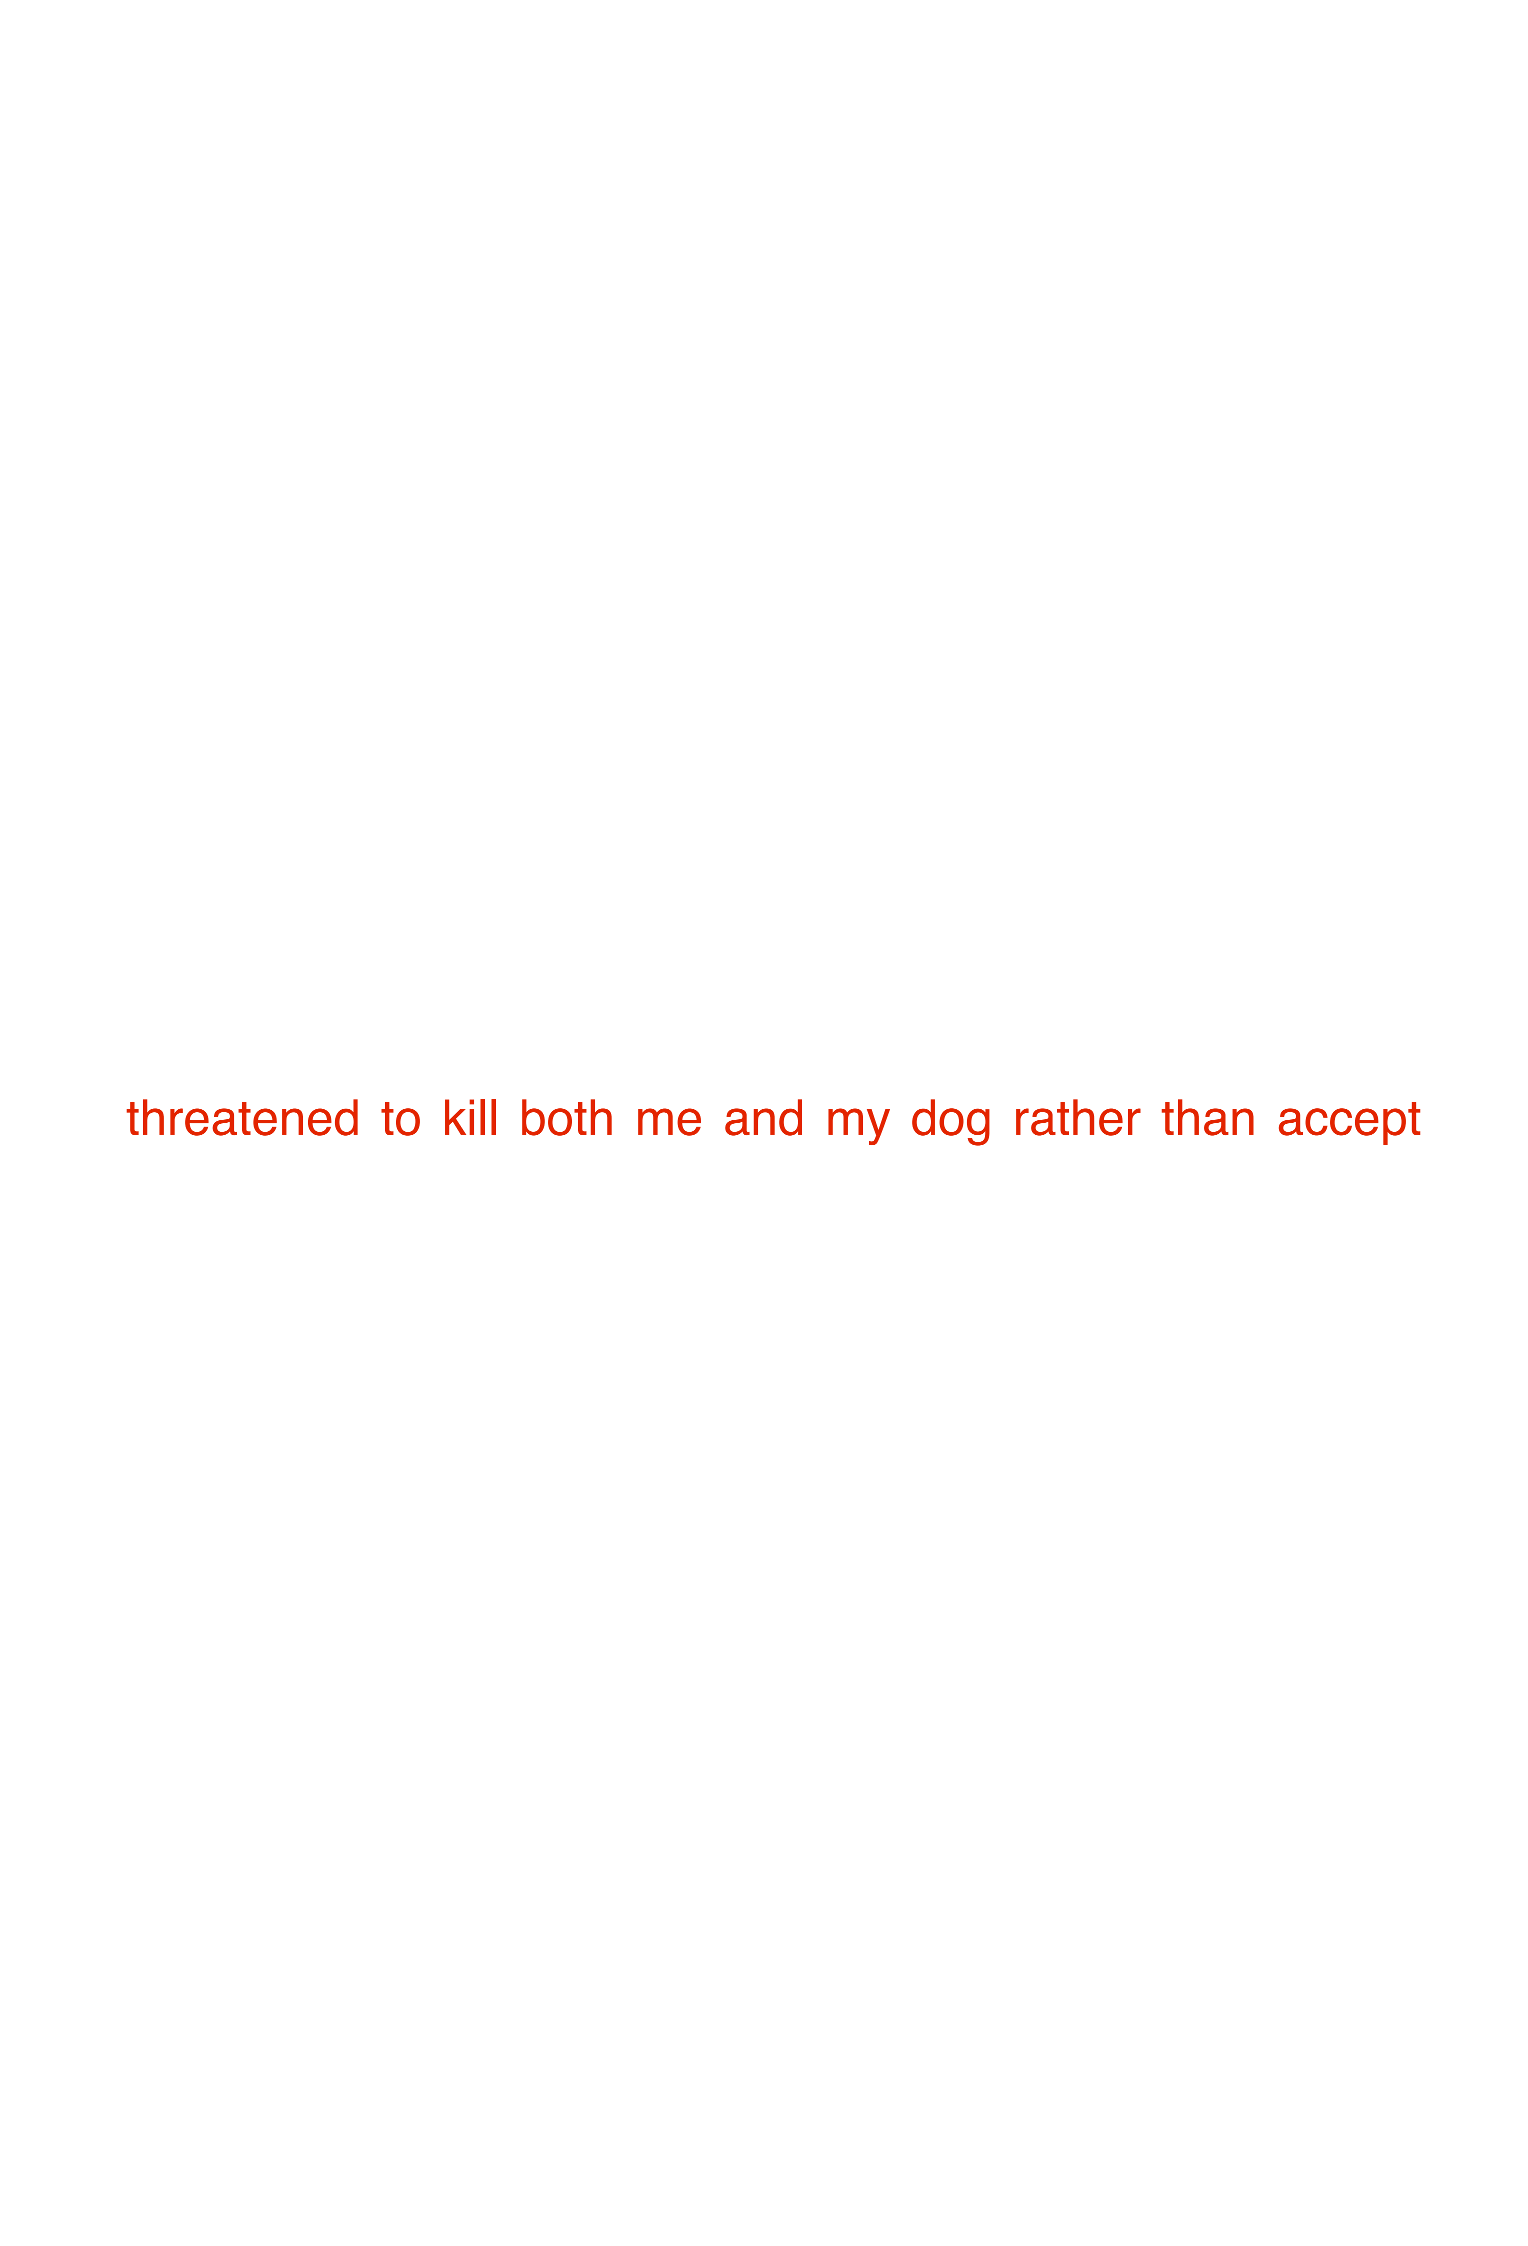

they've threatened to harm my dog, Crystal, just as Stefan

Iasonidis has. I attach all evidence. He's a former employee

of ASIO, and it seems he was involved in a million-dollar

embezzlement case due to my whistleblowing. Now, he's

threatened to kill both me and my dog rather than accept

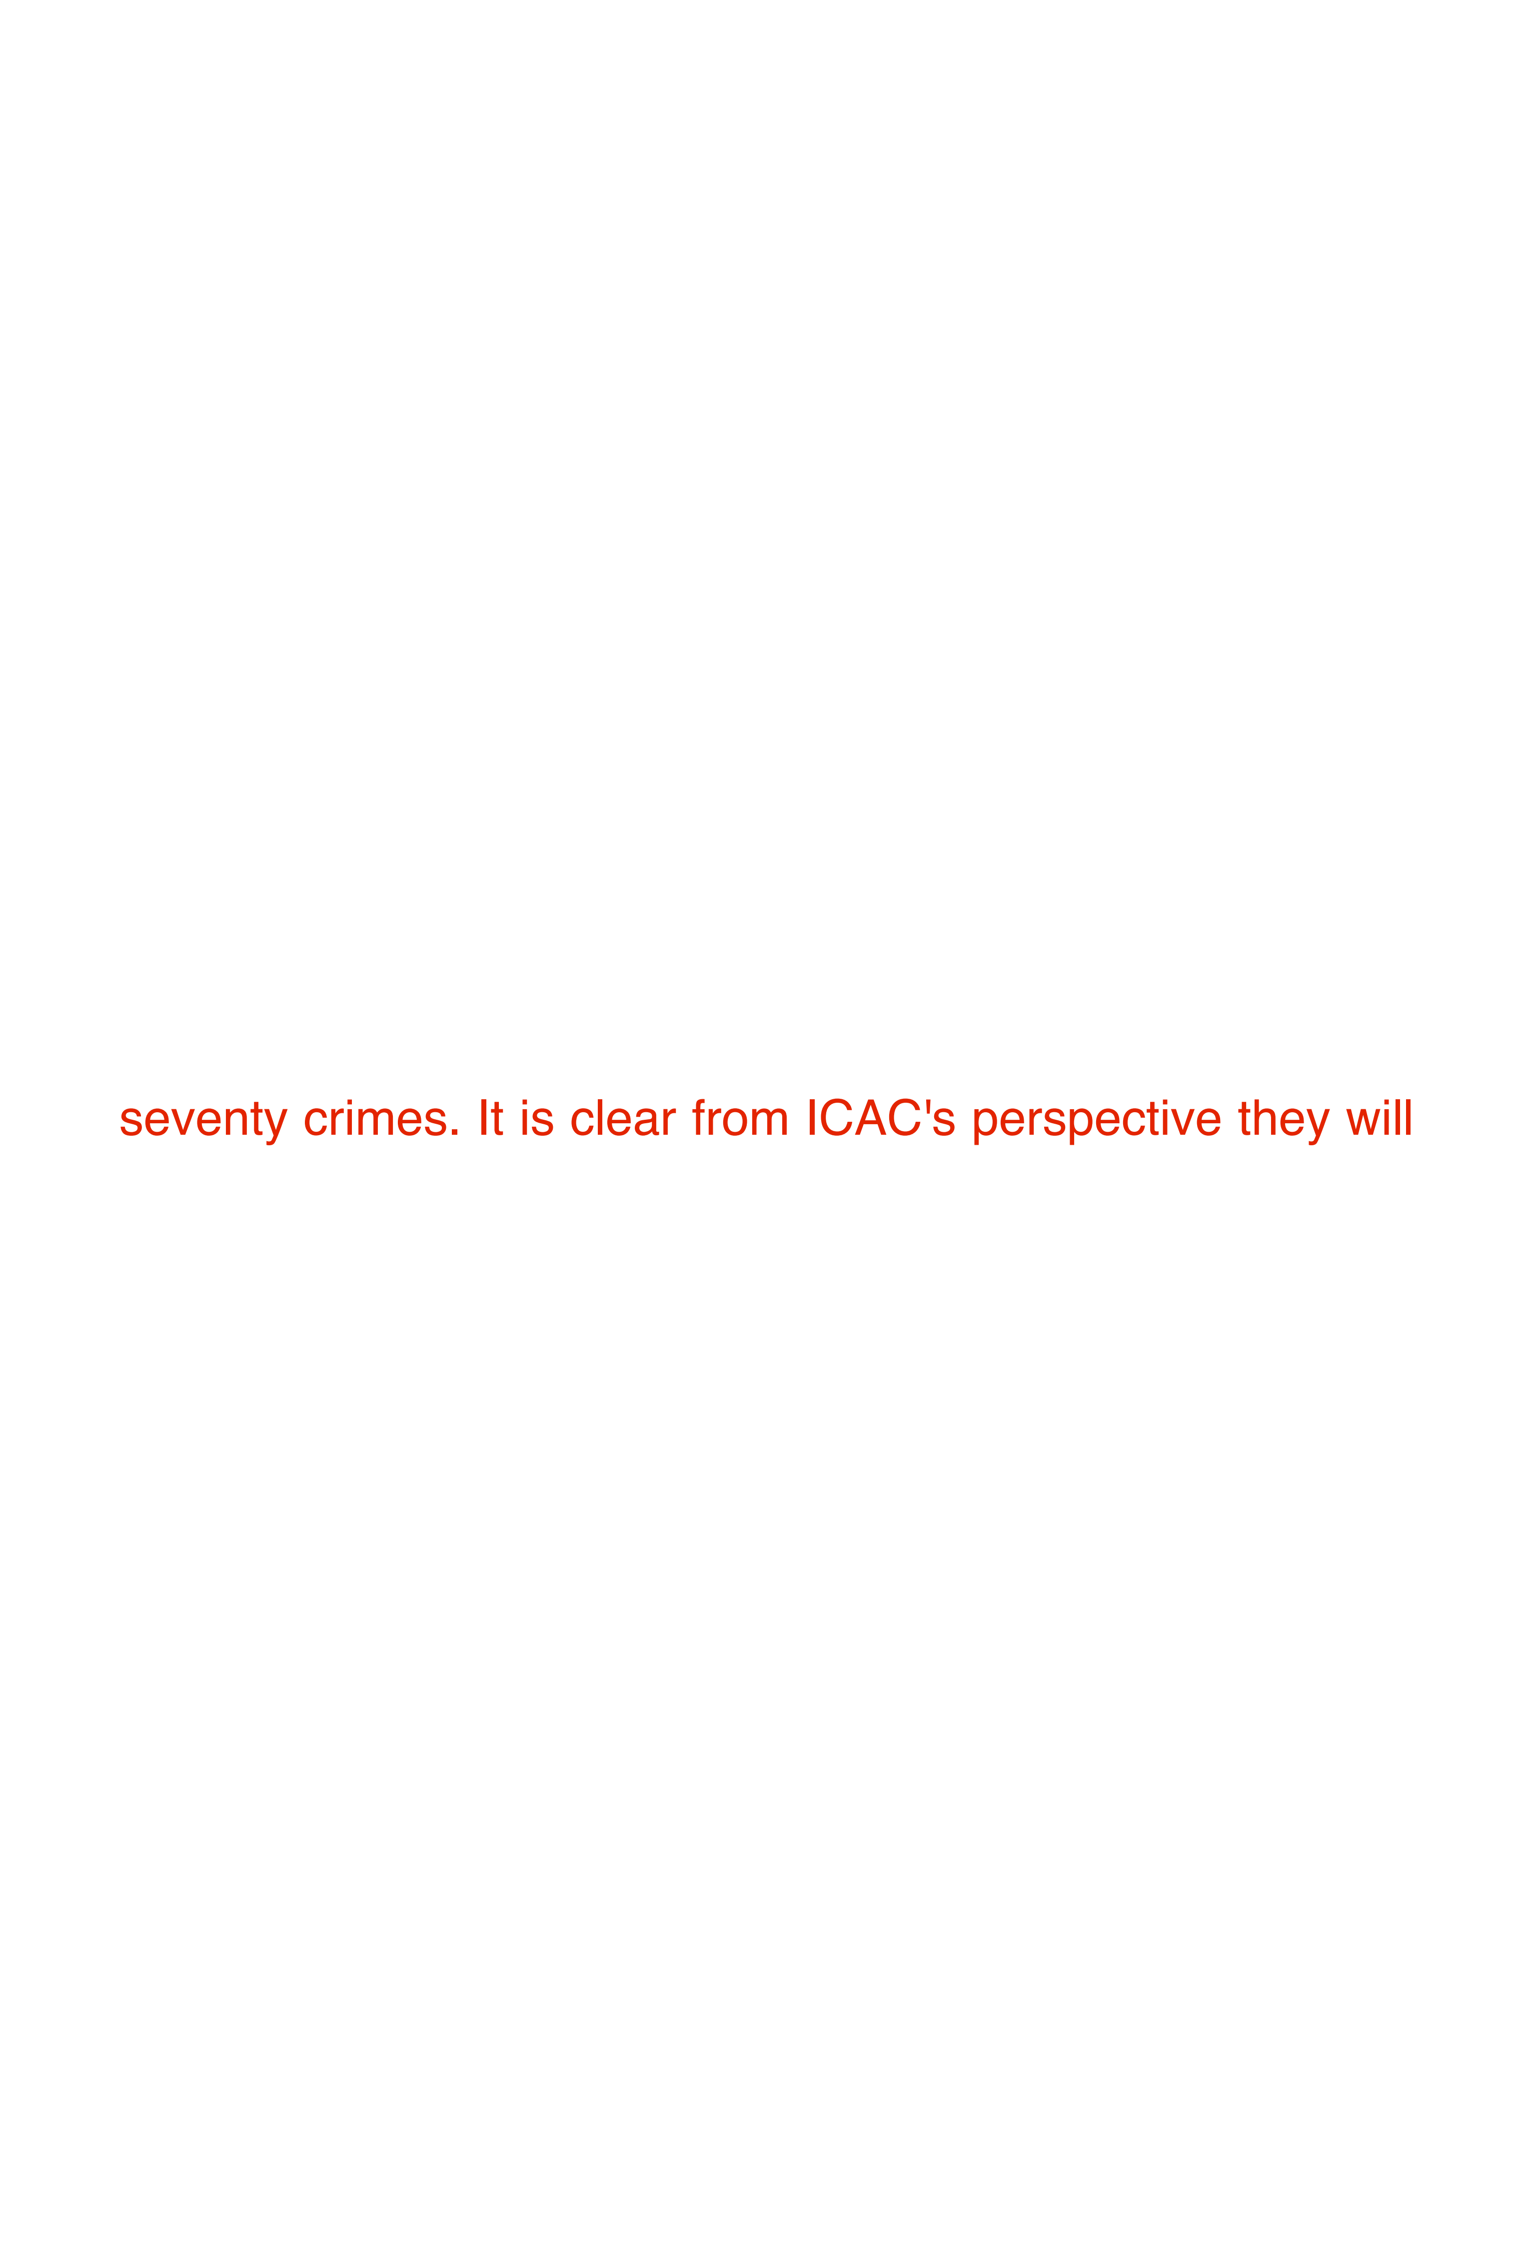

accountability for his crime.

This situation is completely unacceptable, but I haven't

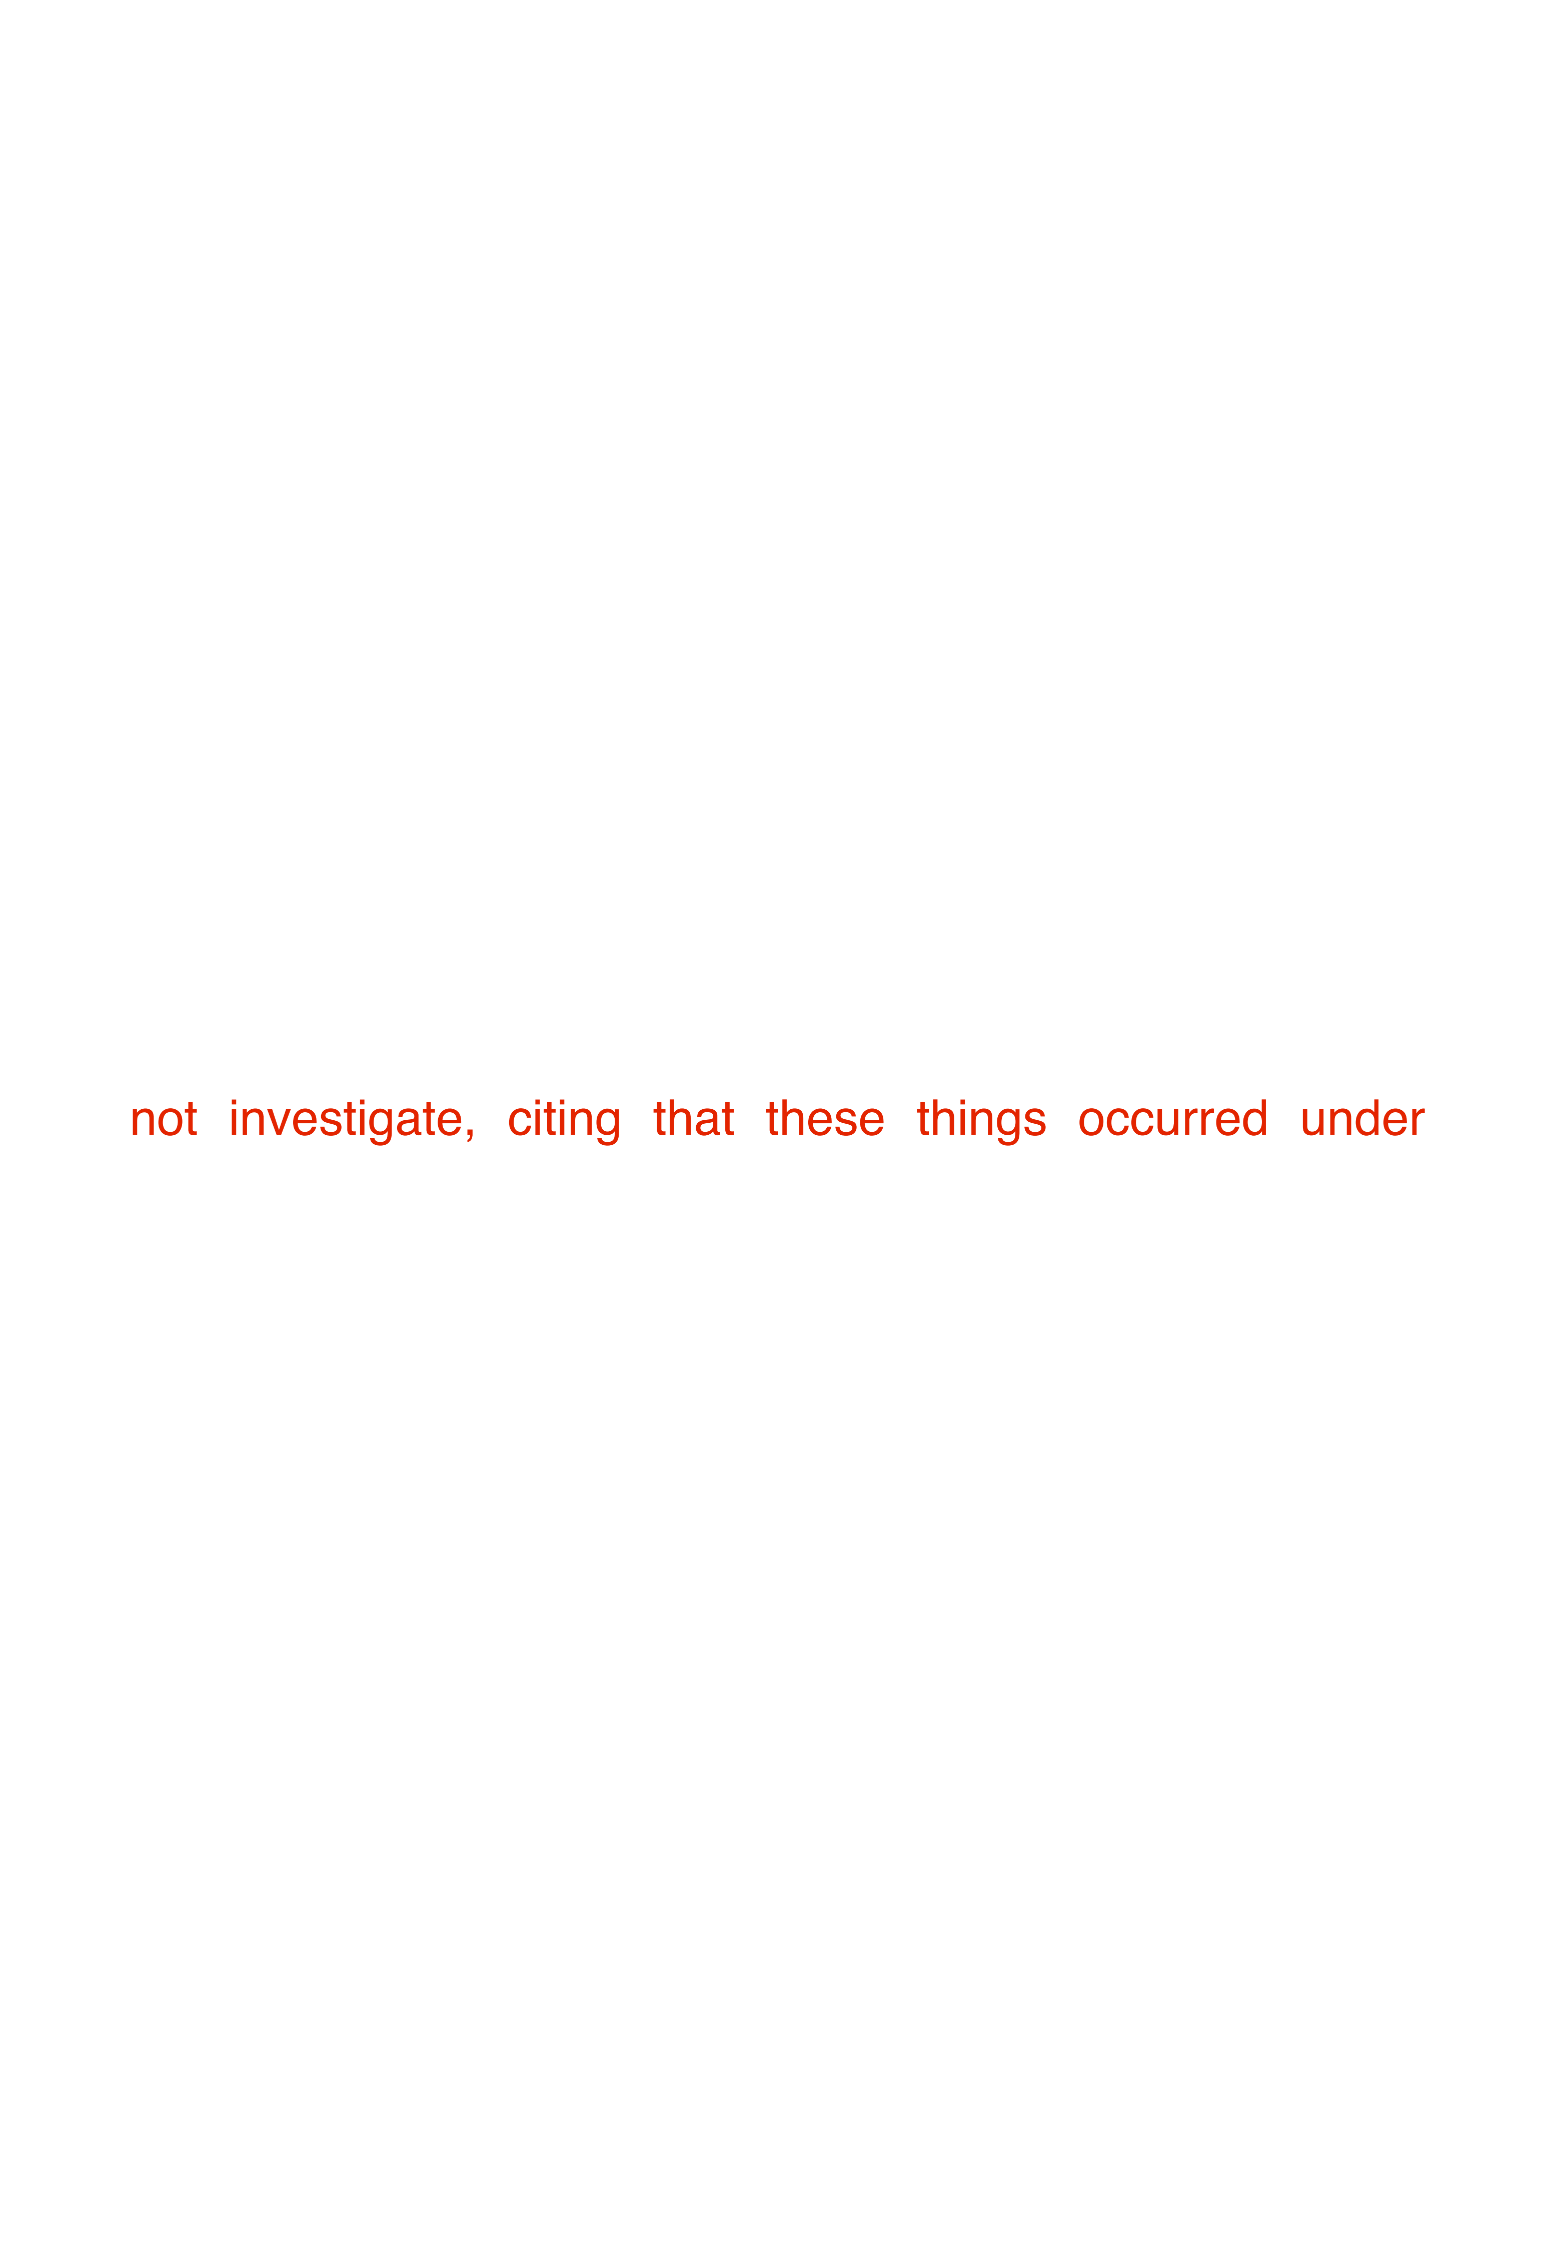

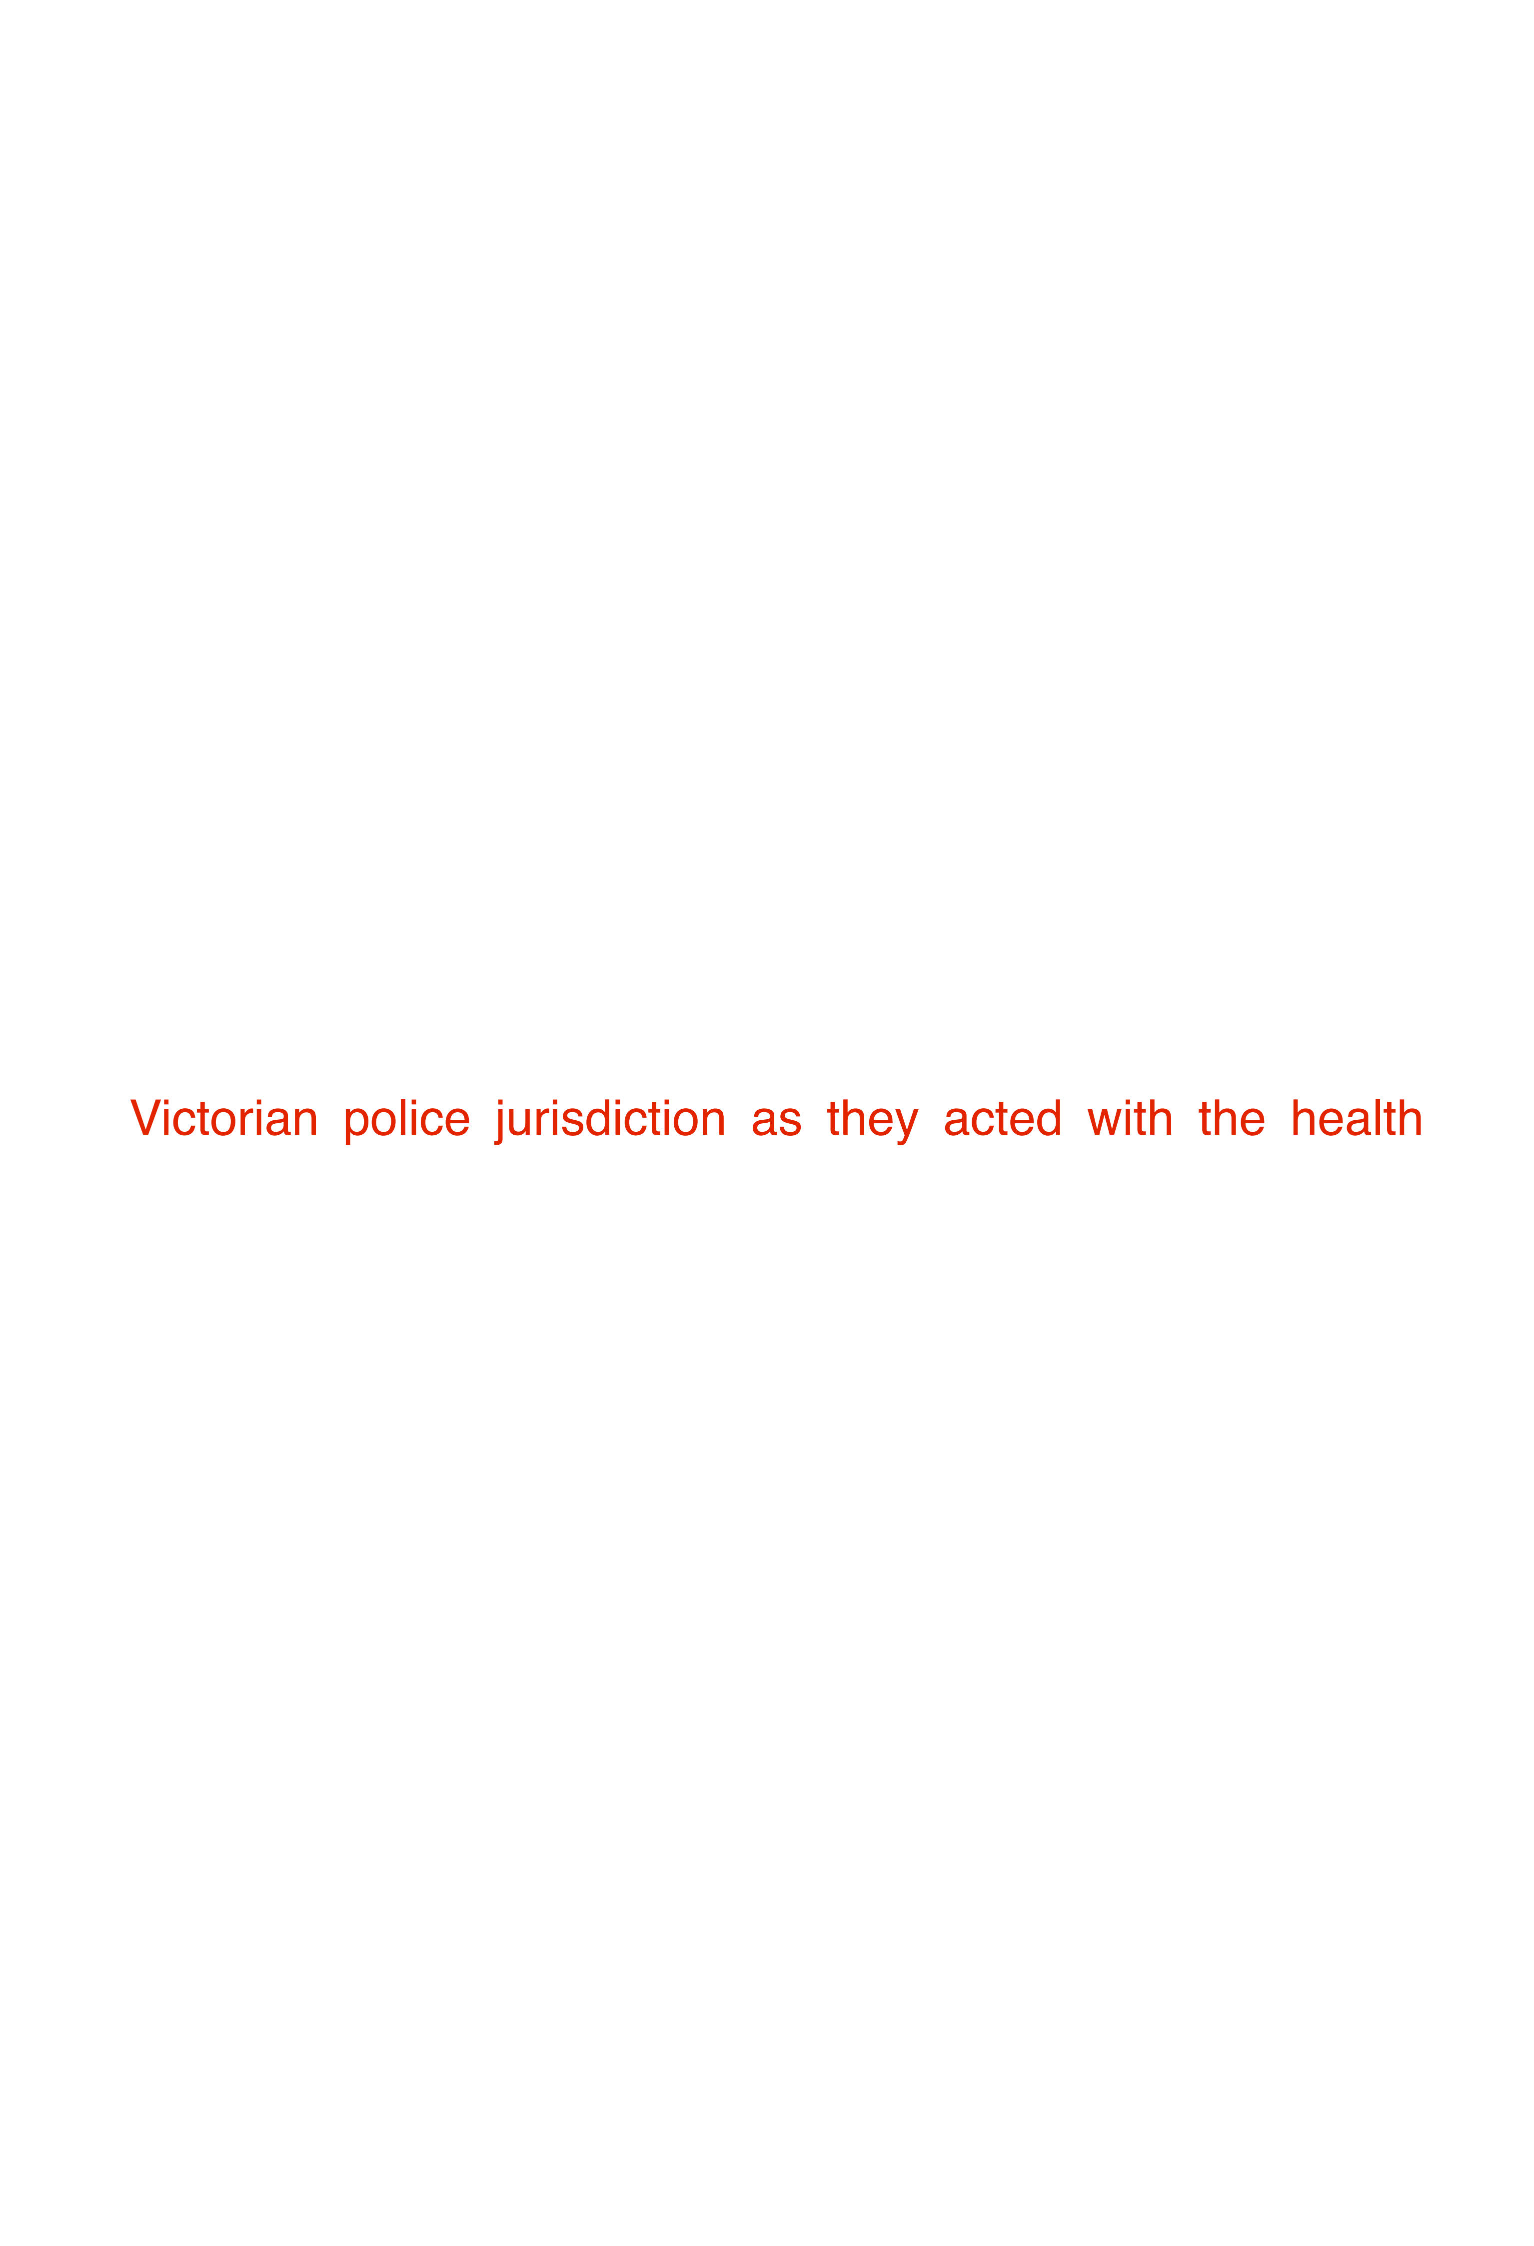

been able to report it to the police. I leave a list of crimes I

have been unable to report to the police below of over

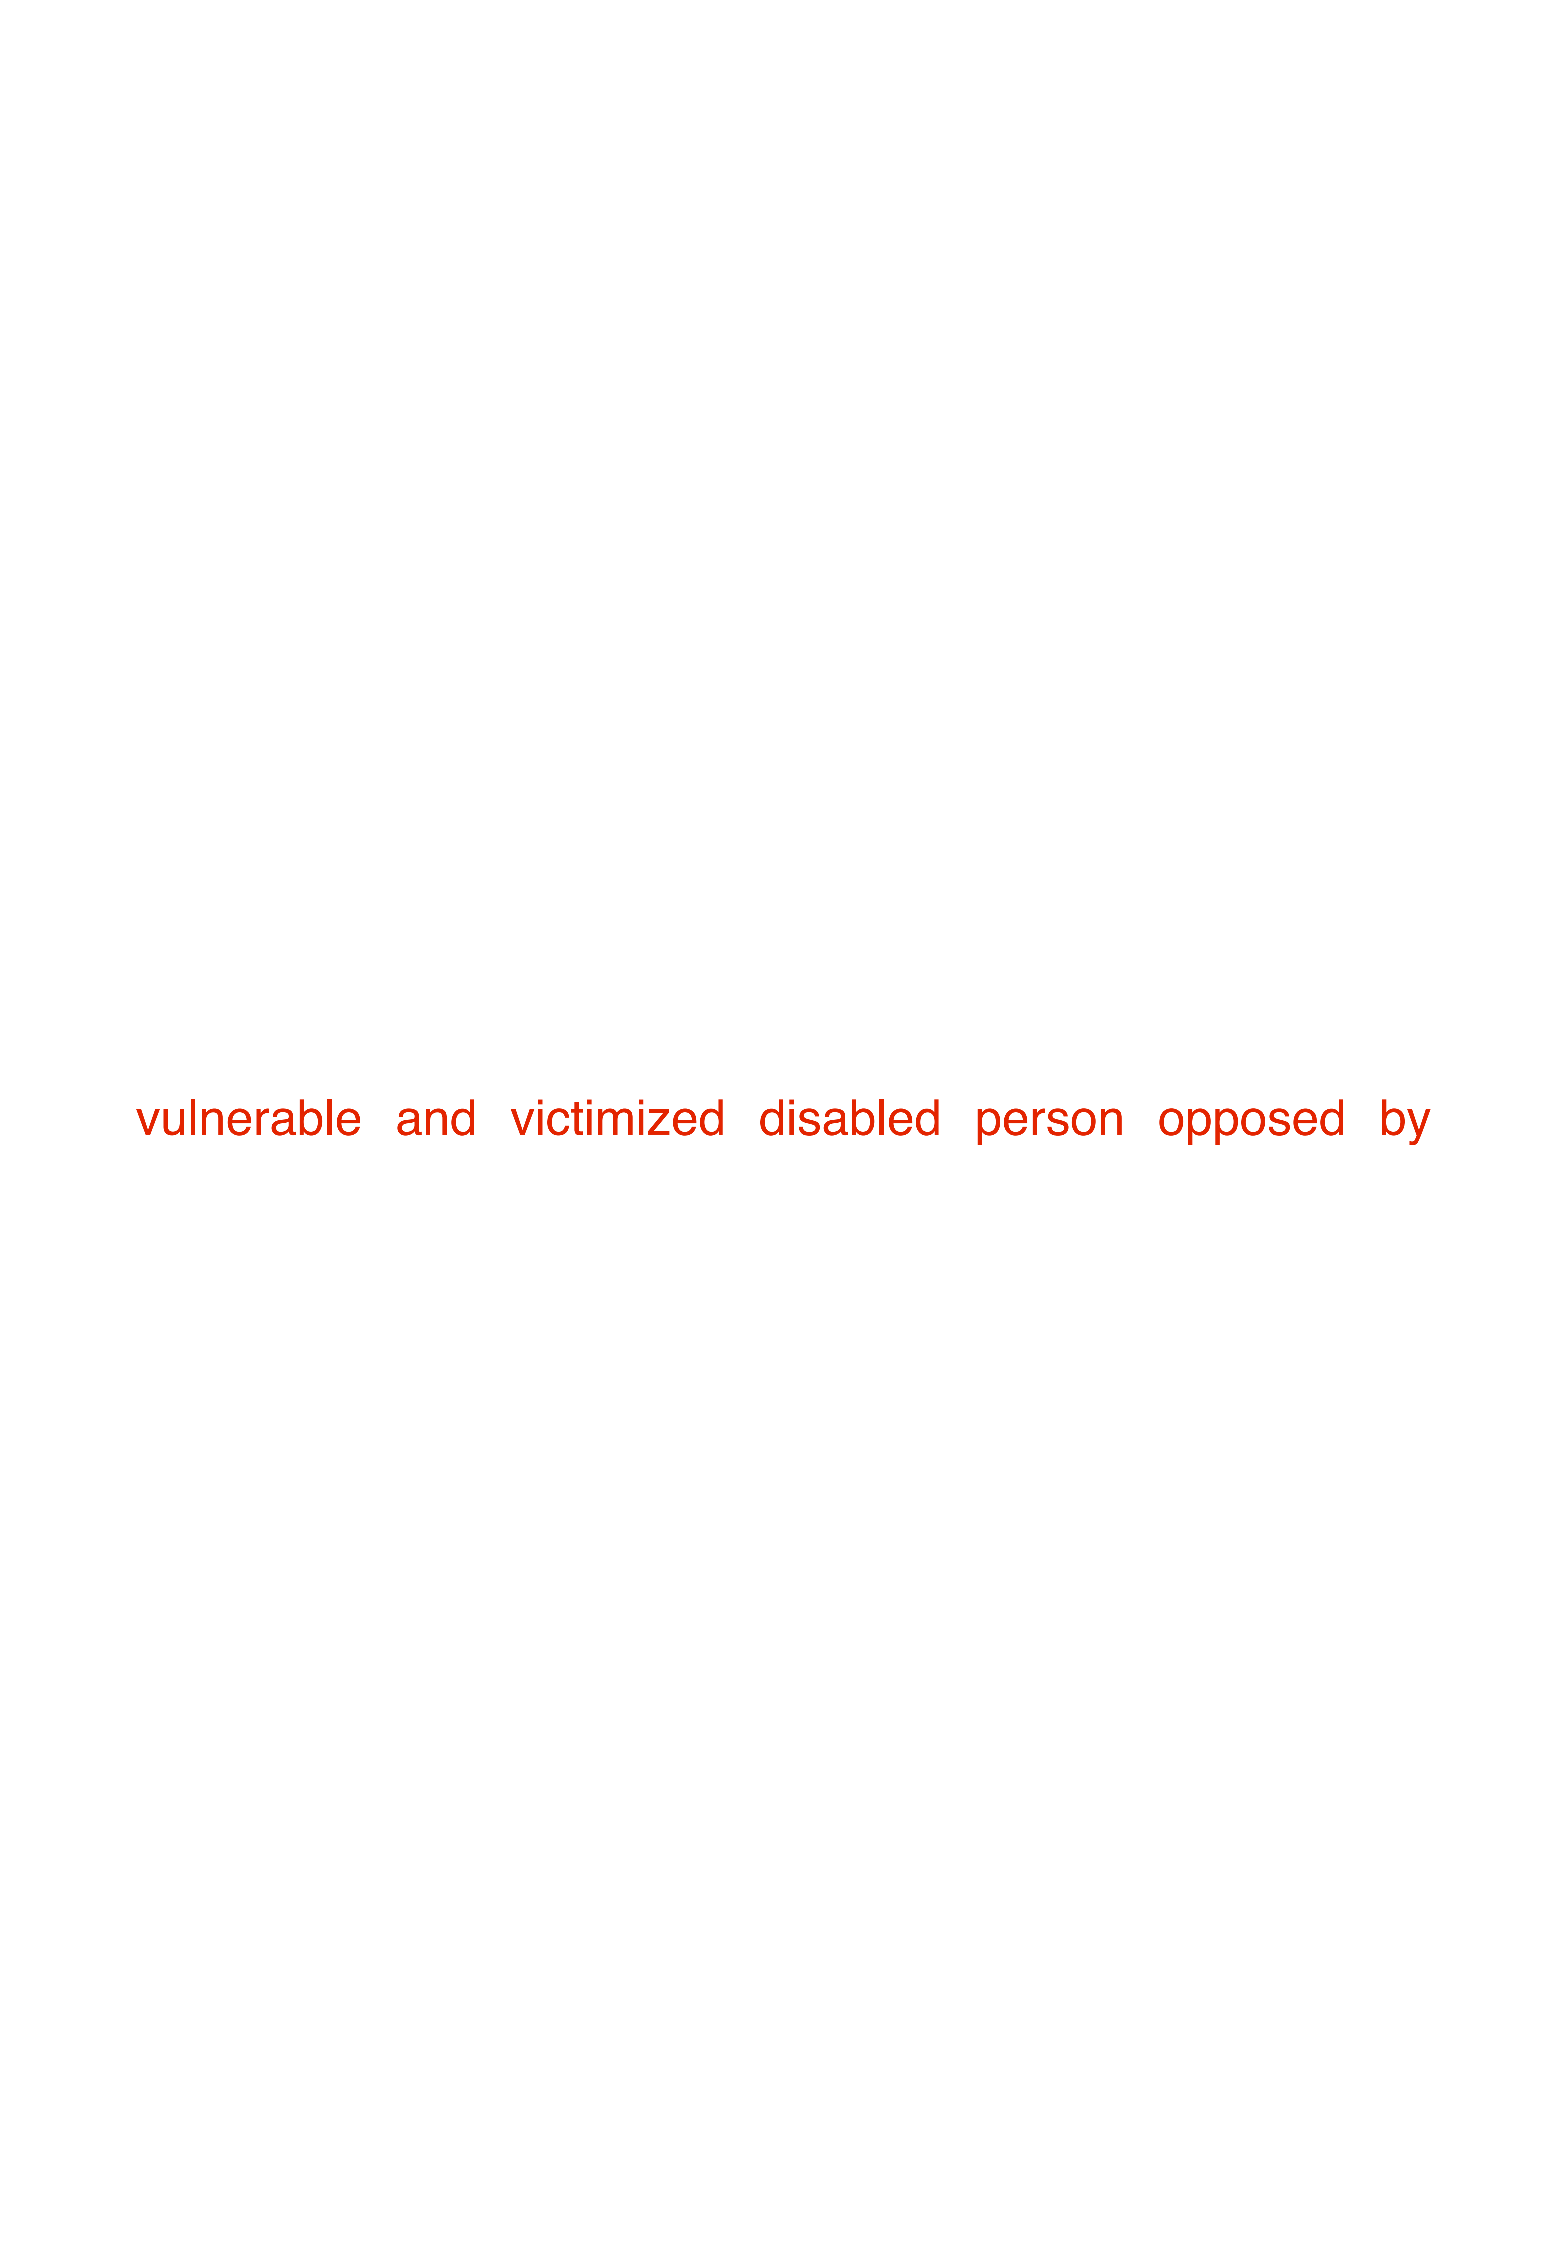

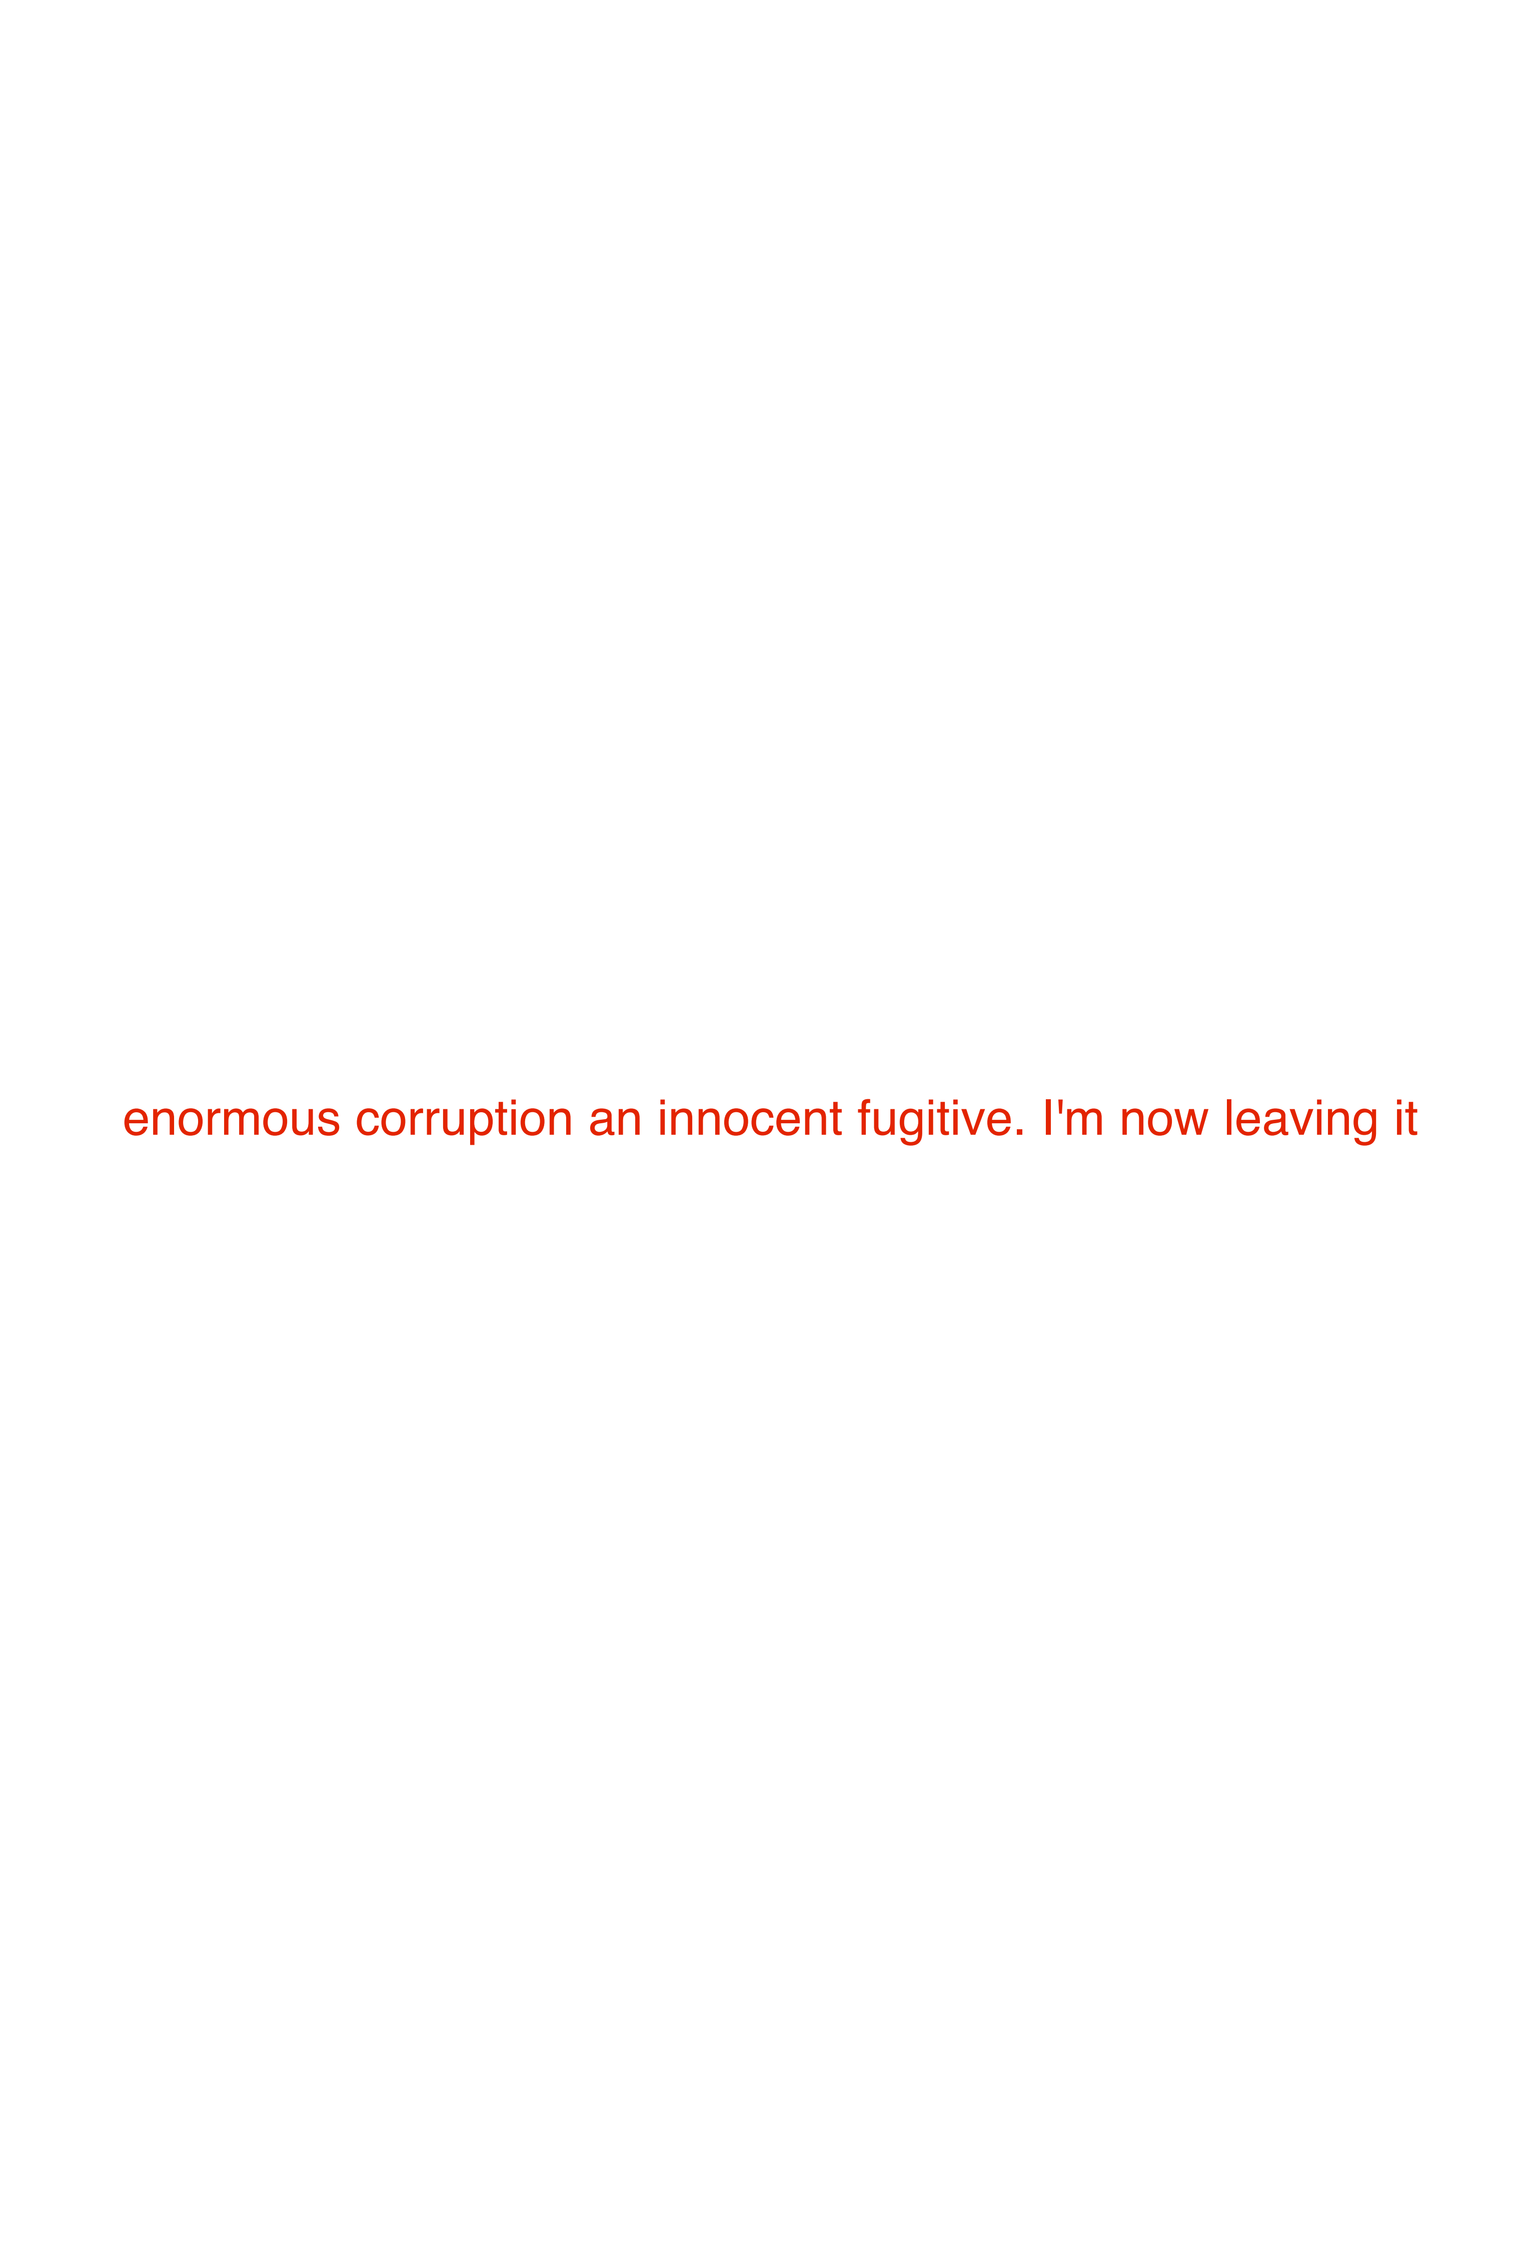

seventy crimes. It is clear from ICAC's perspective they will

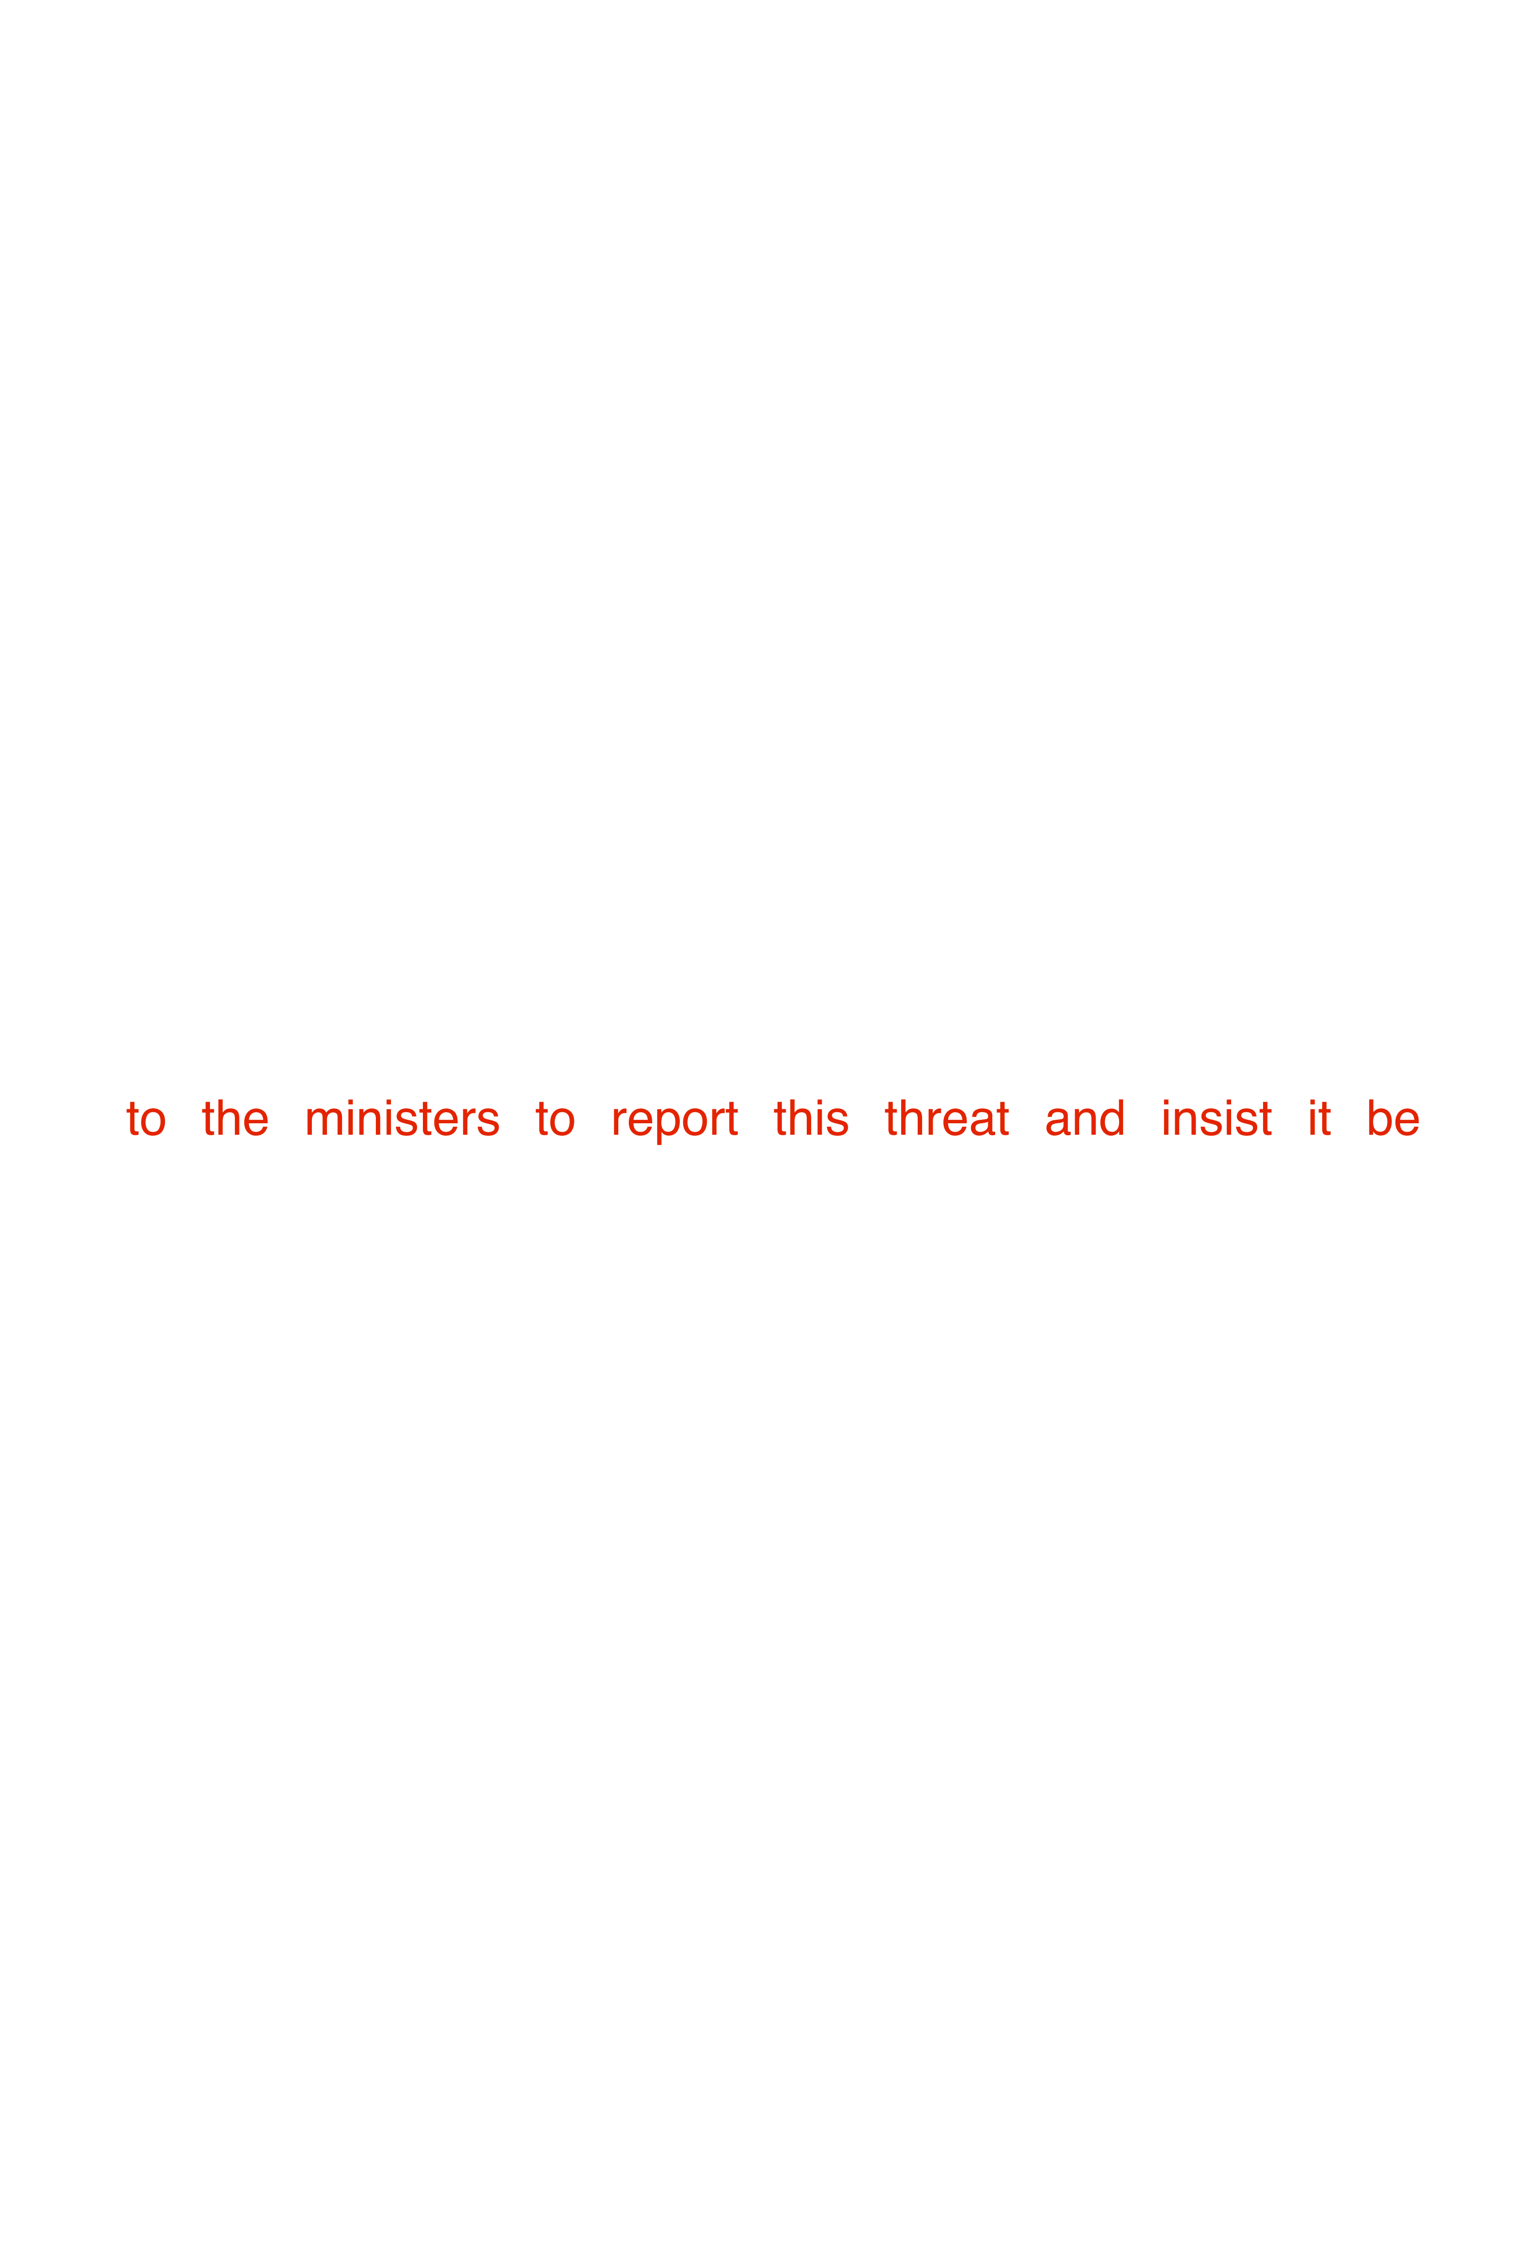

not investigate, citing that these things occurred under

Victorian police jurisdiction as they acted with the health

and hospital department to literally run me out of the state a

vulnerable and victimized disabled person opposed by

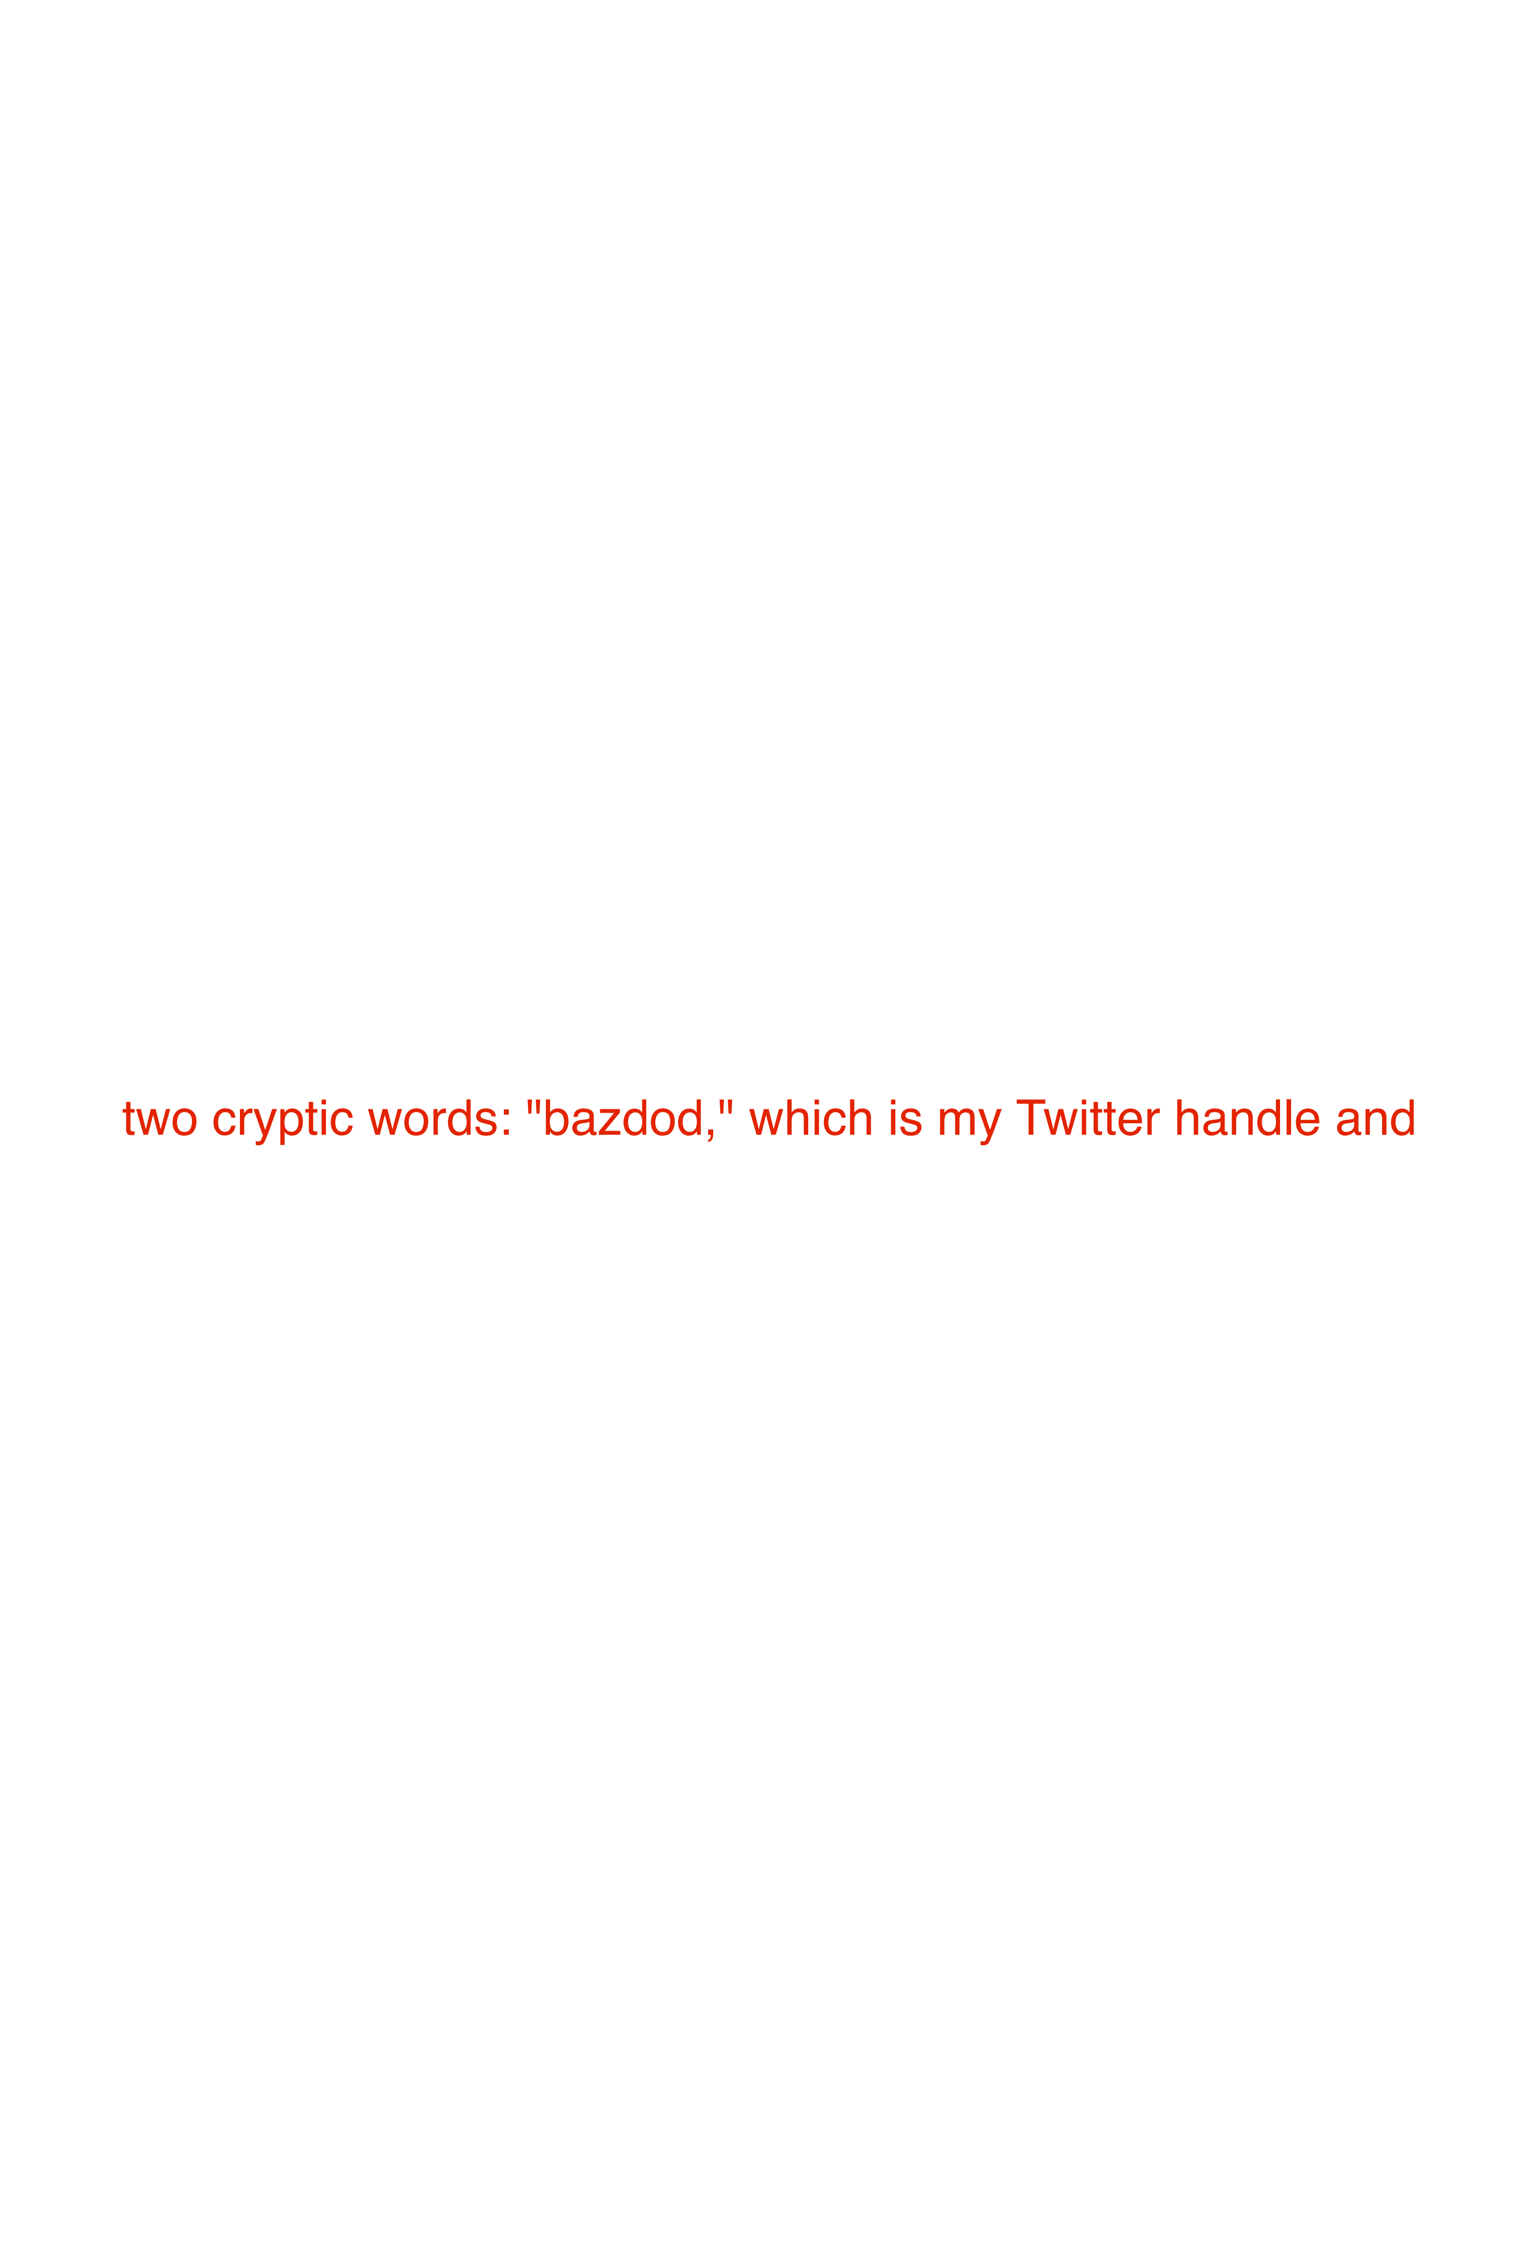

enormous corruption an innocent fugitive. I'm now leaving it

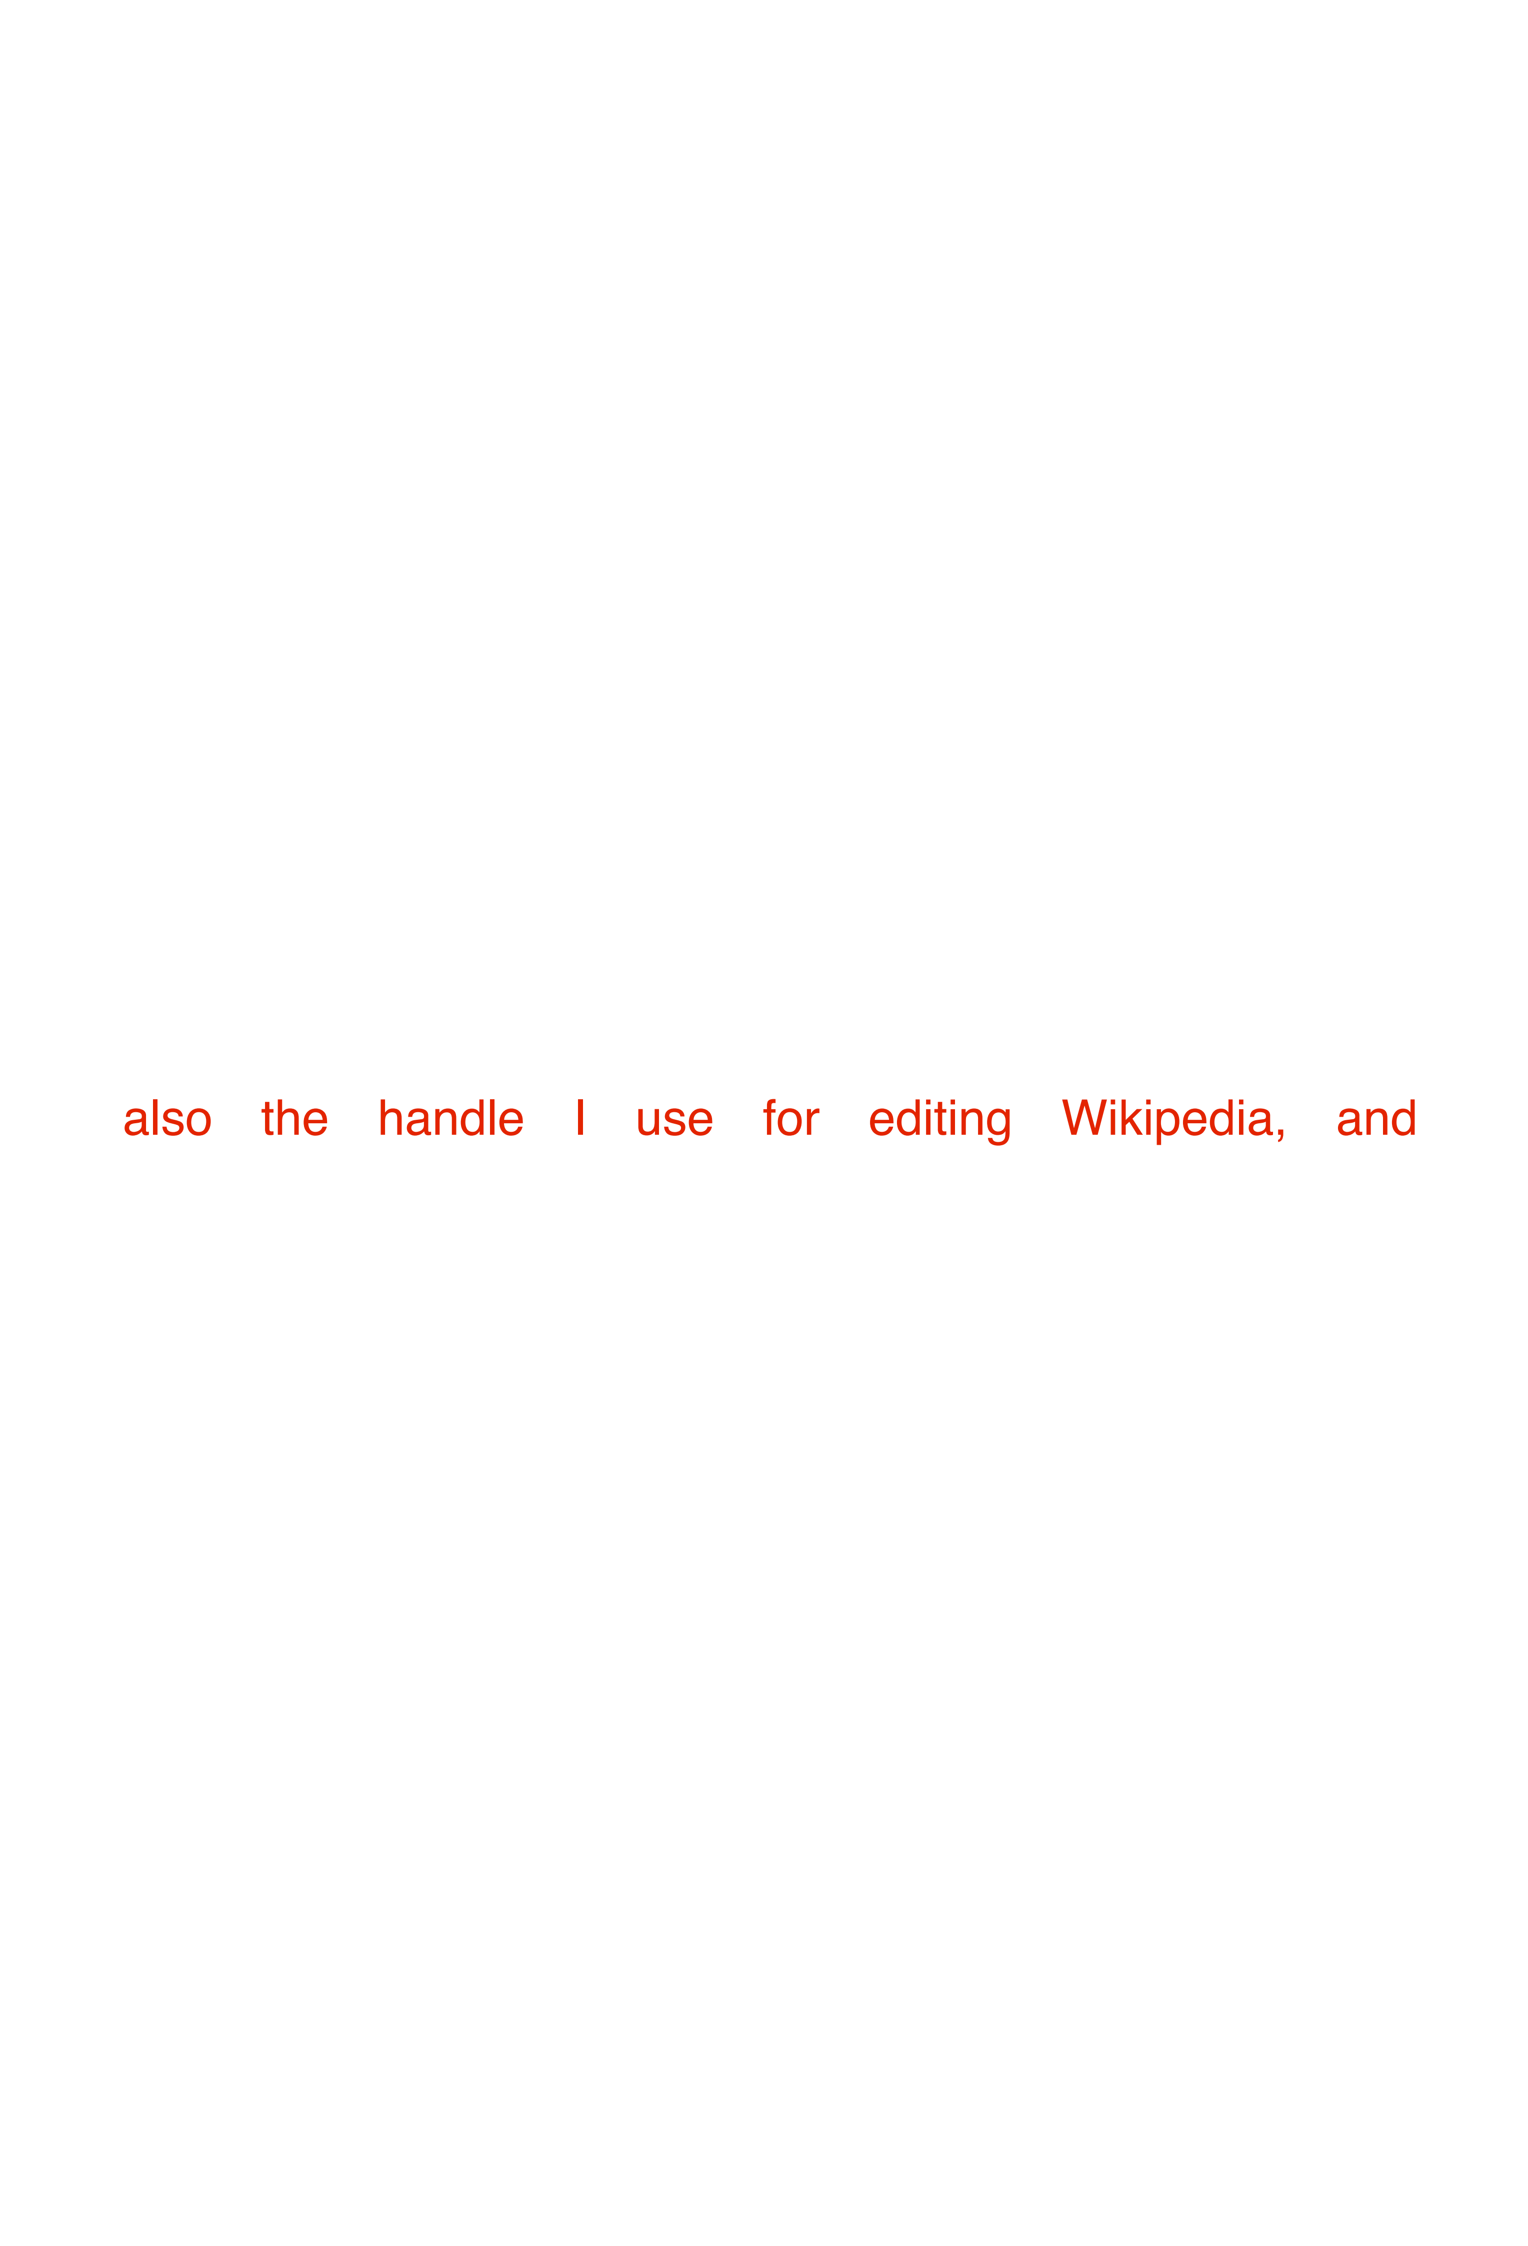

to the ministers to report this threat and insist it be

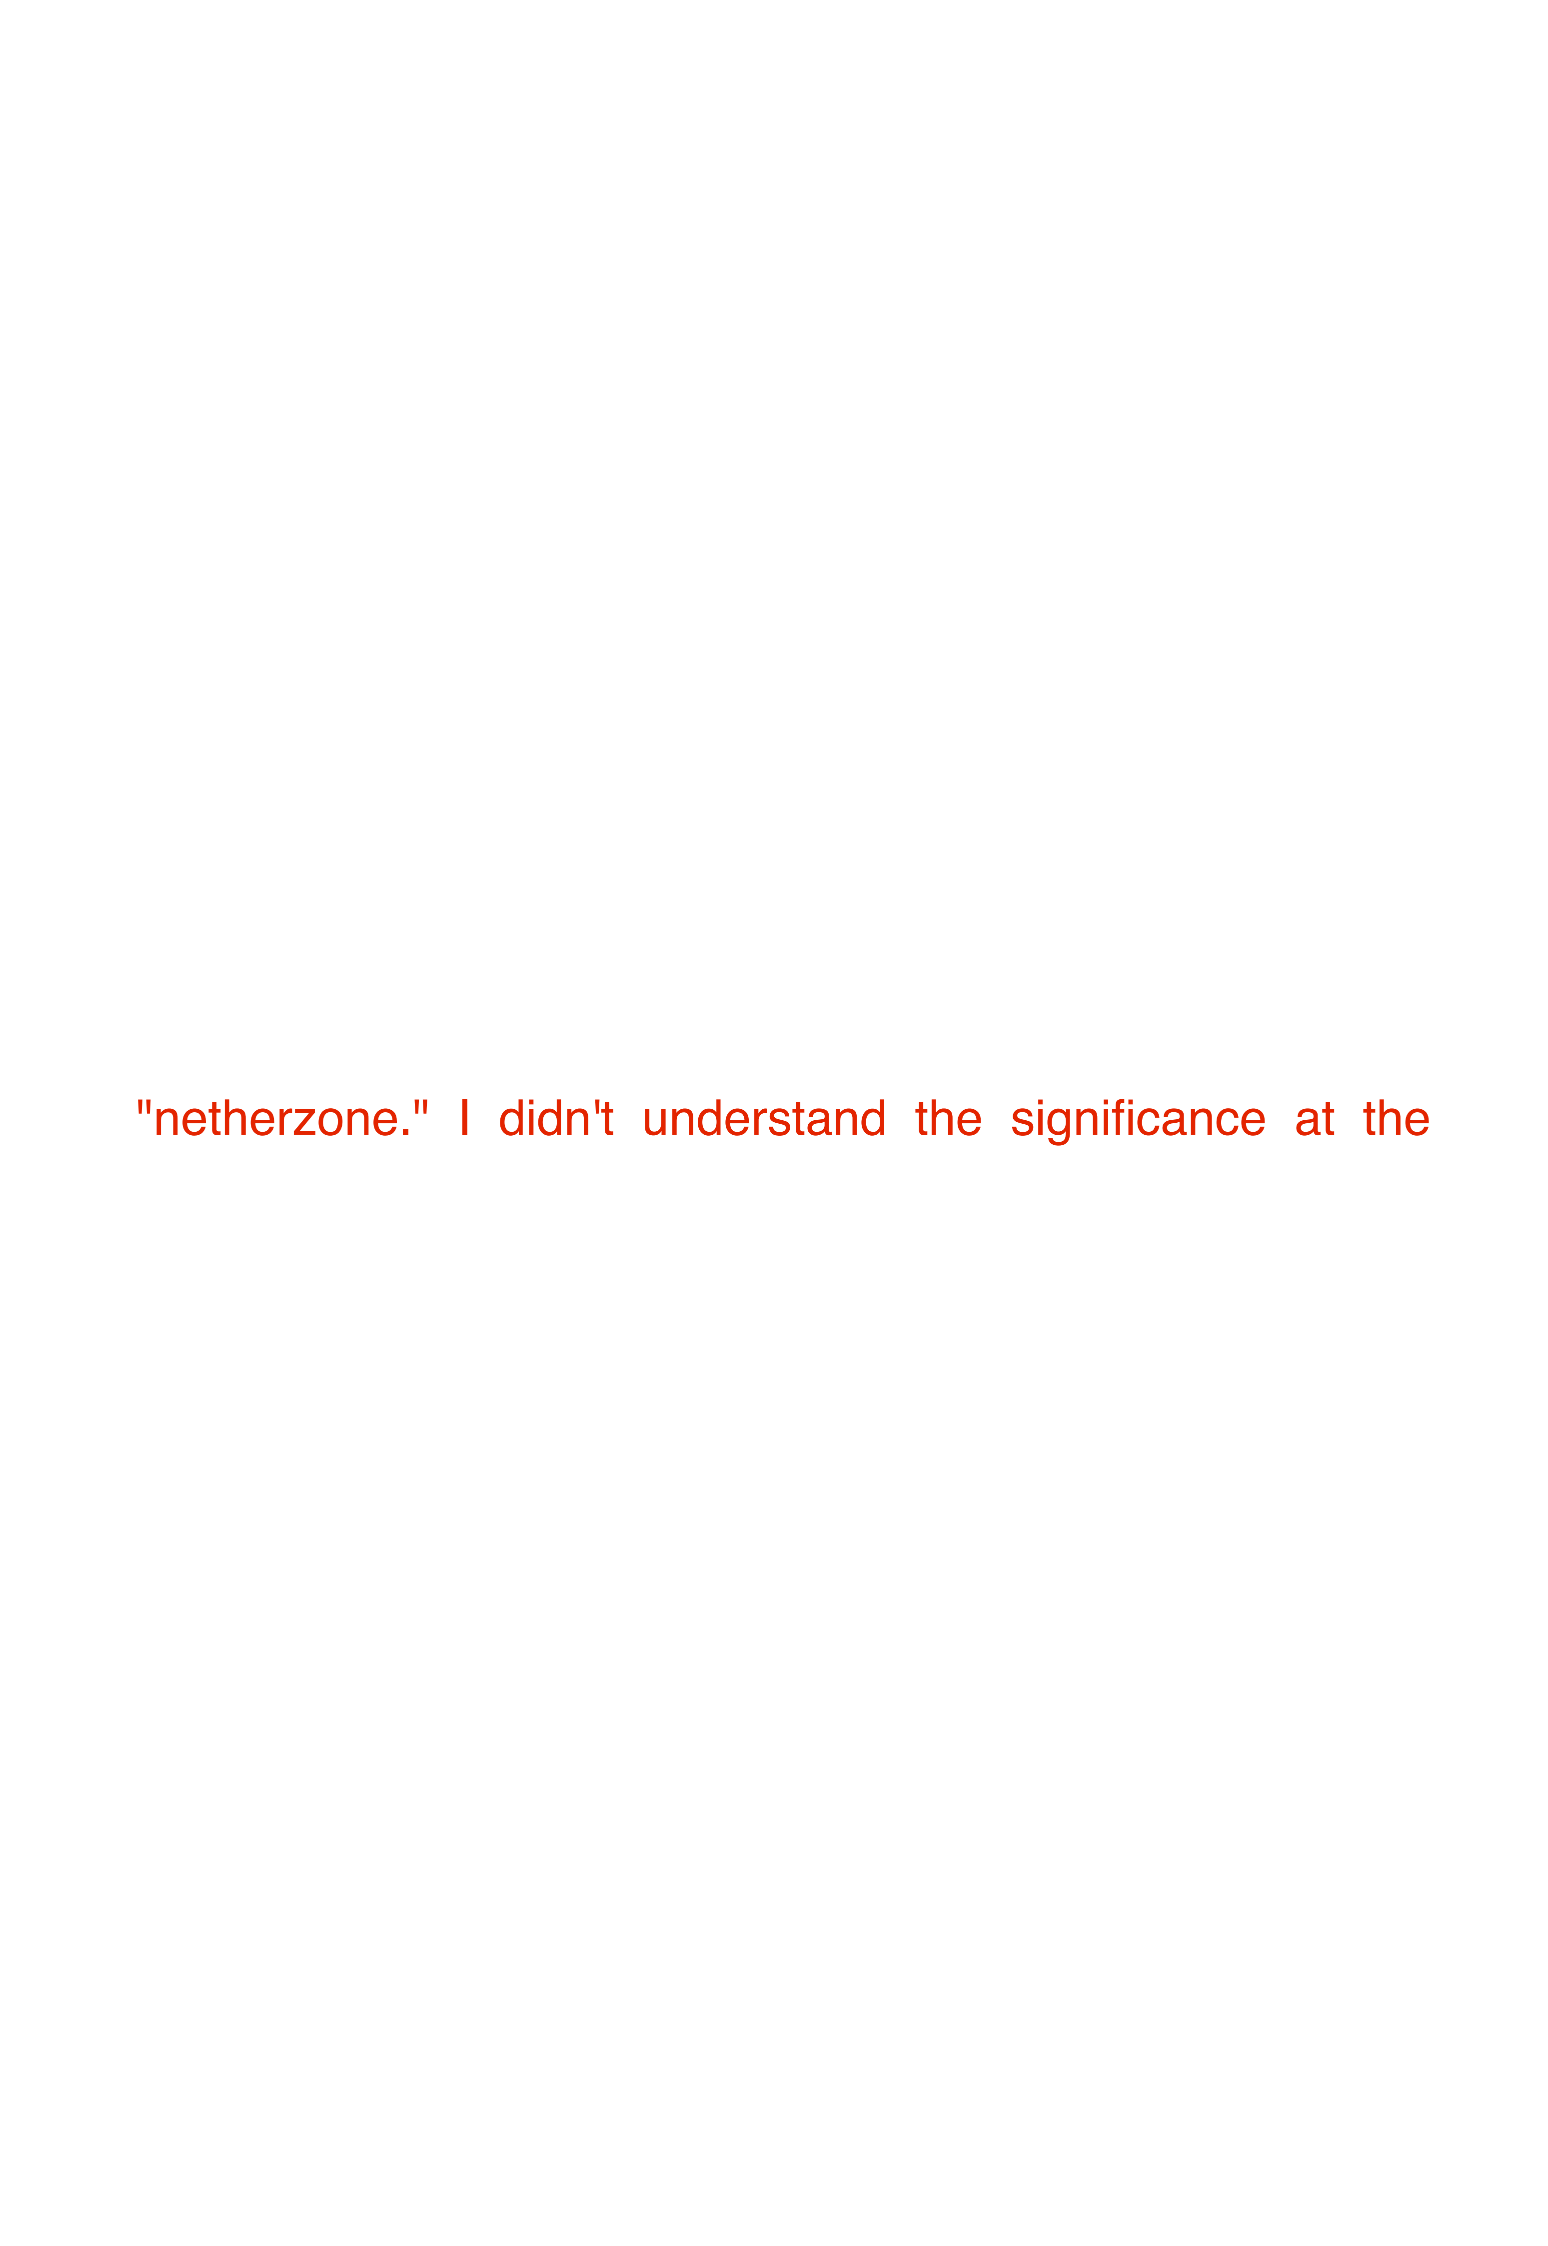

investigated as a matter of immediate priority.

I wish to point out that I was contacted by a covert

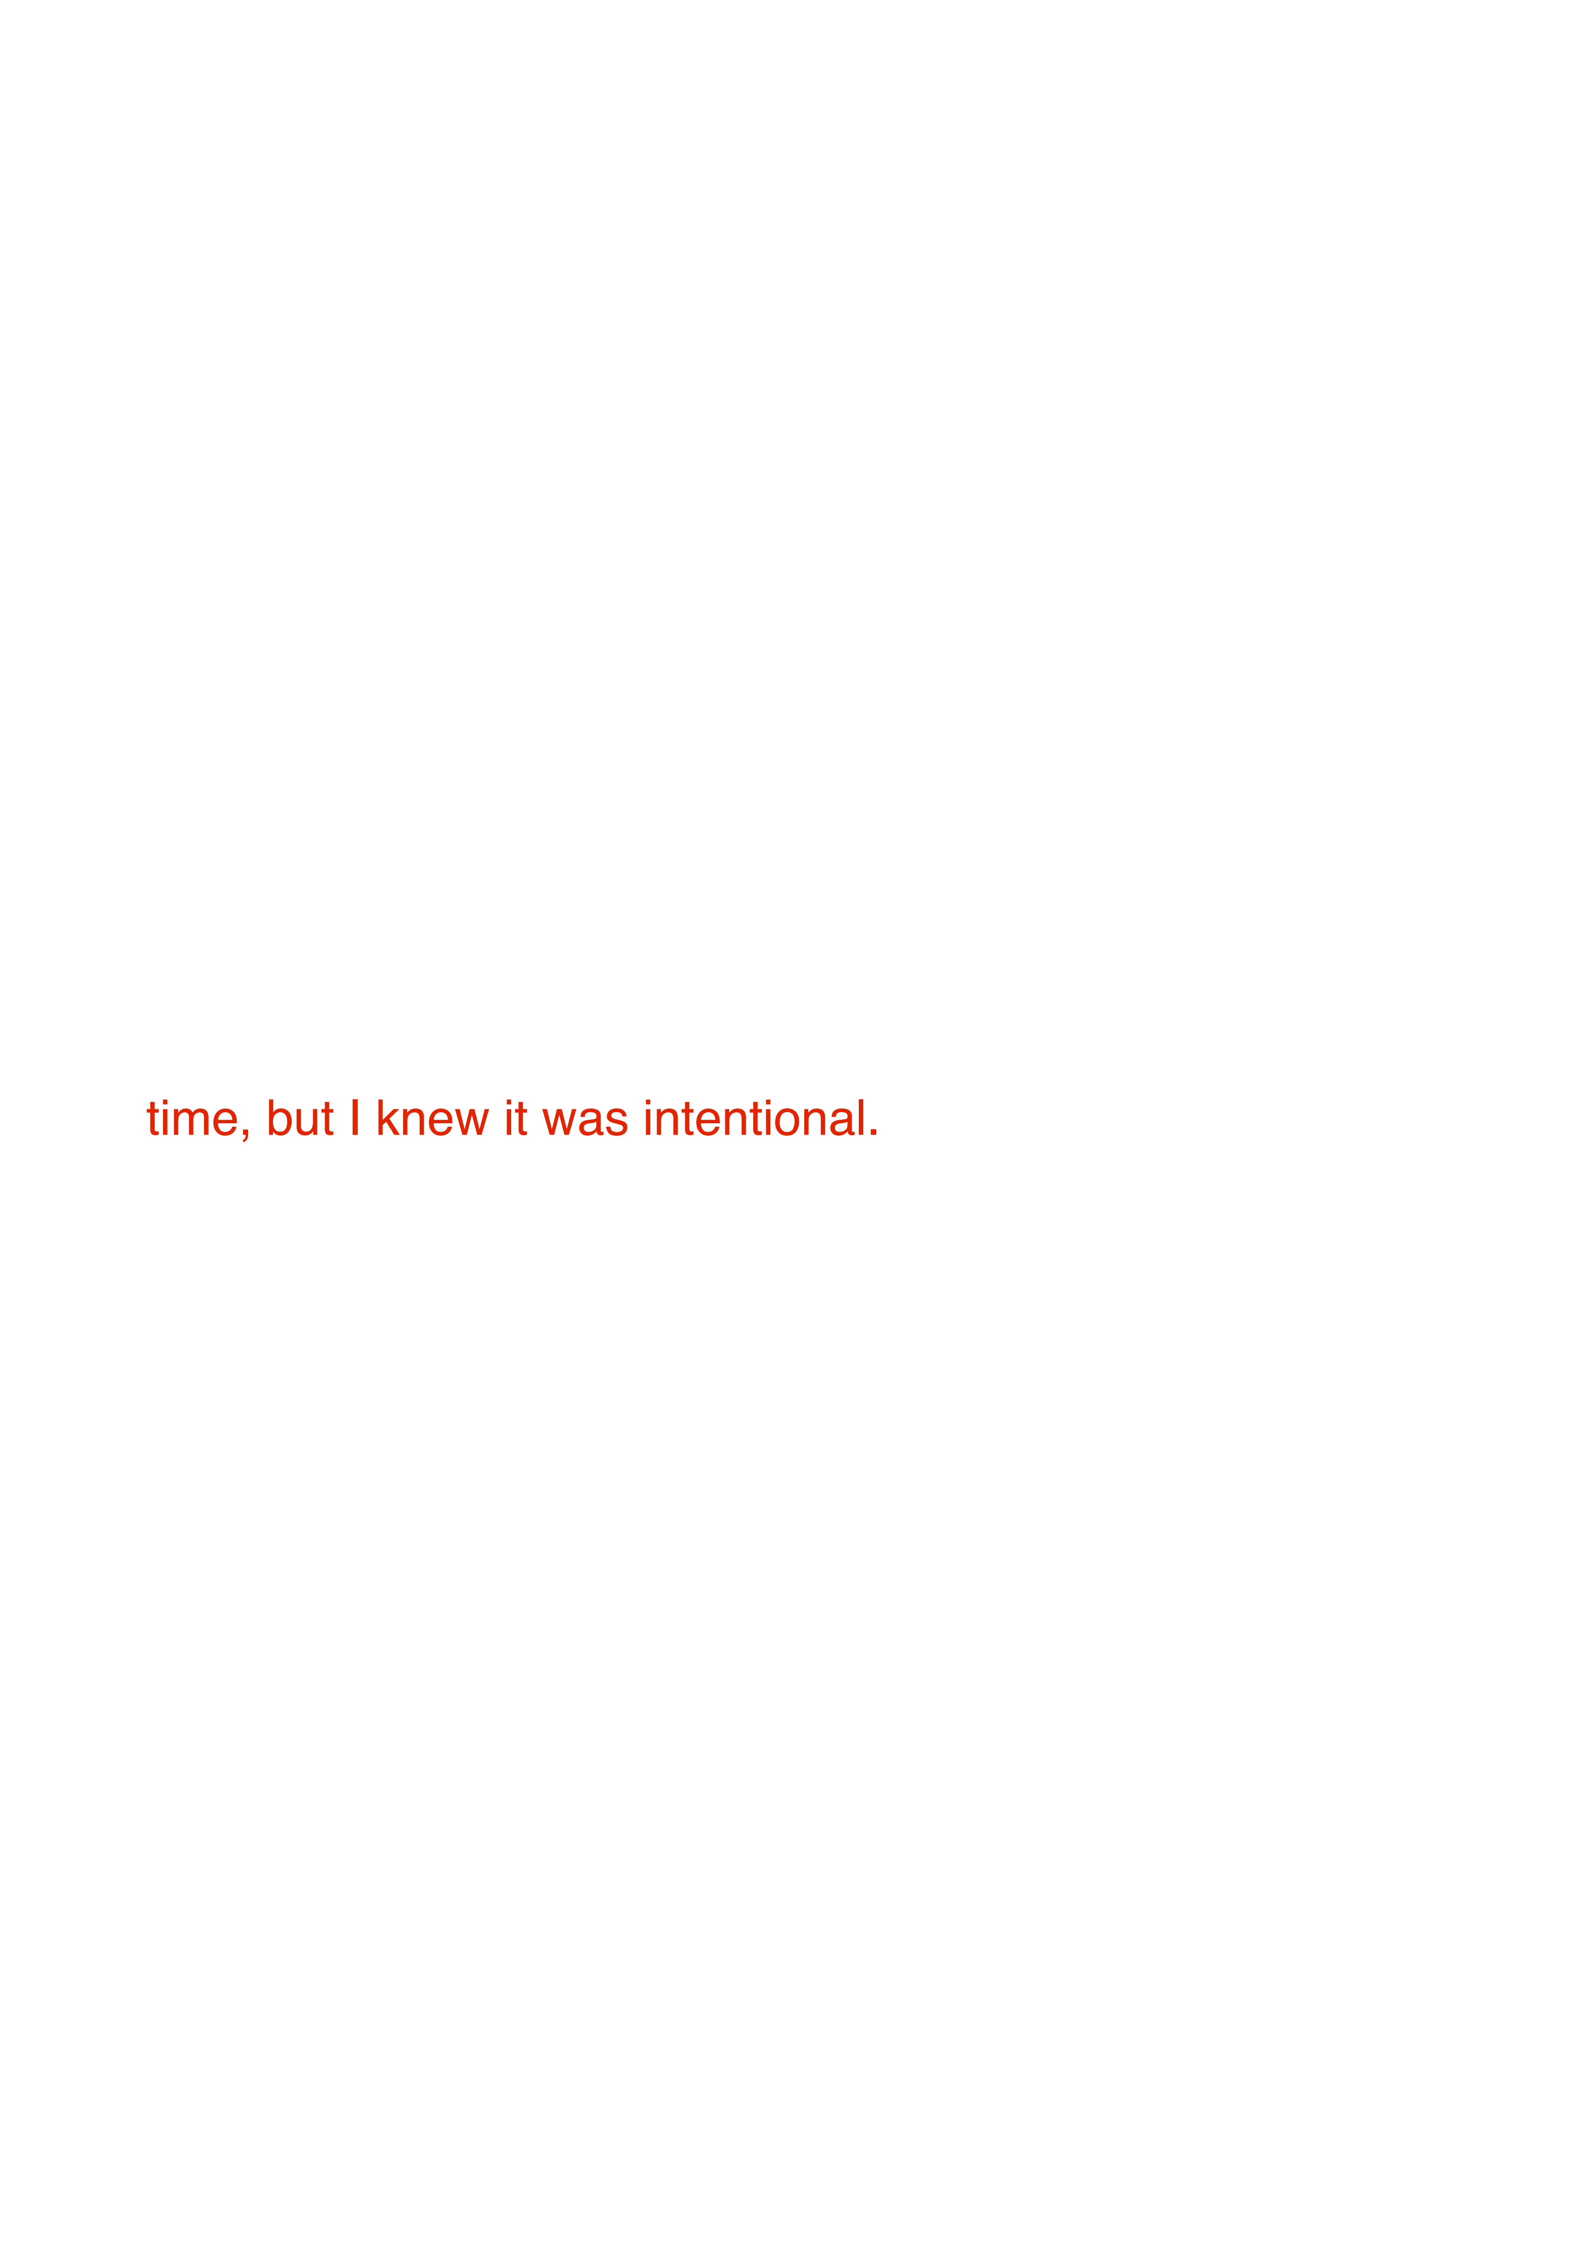

government intelligence agent on Grindr, who mentioned

two cryptic words: "bazdod," which is my Twitter handle and

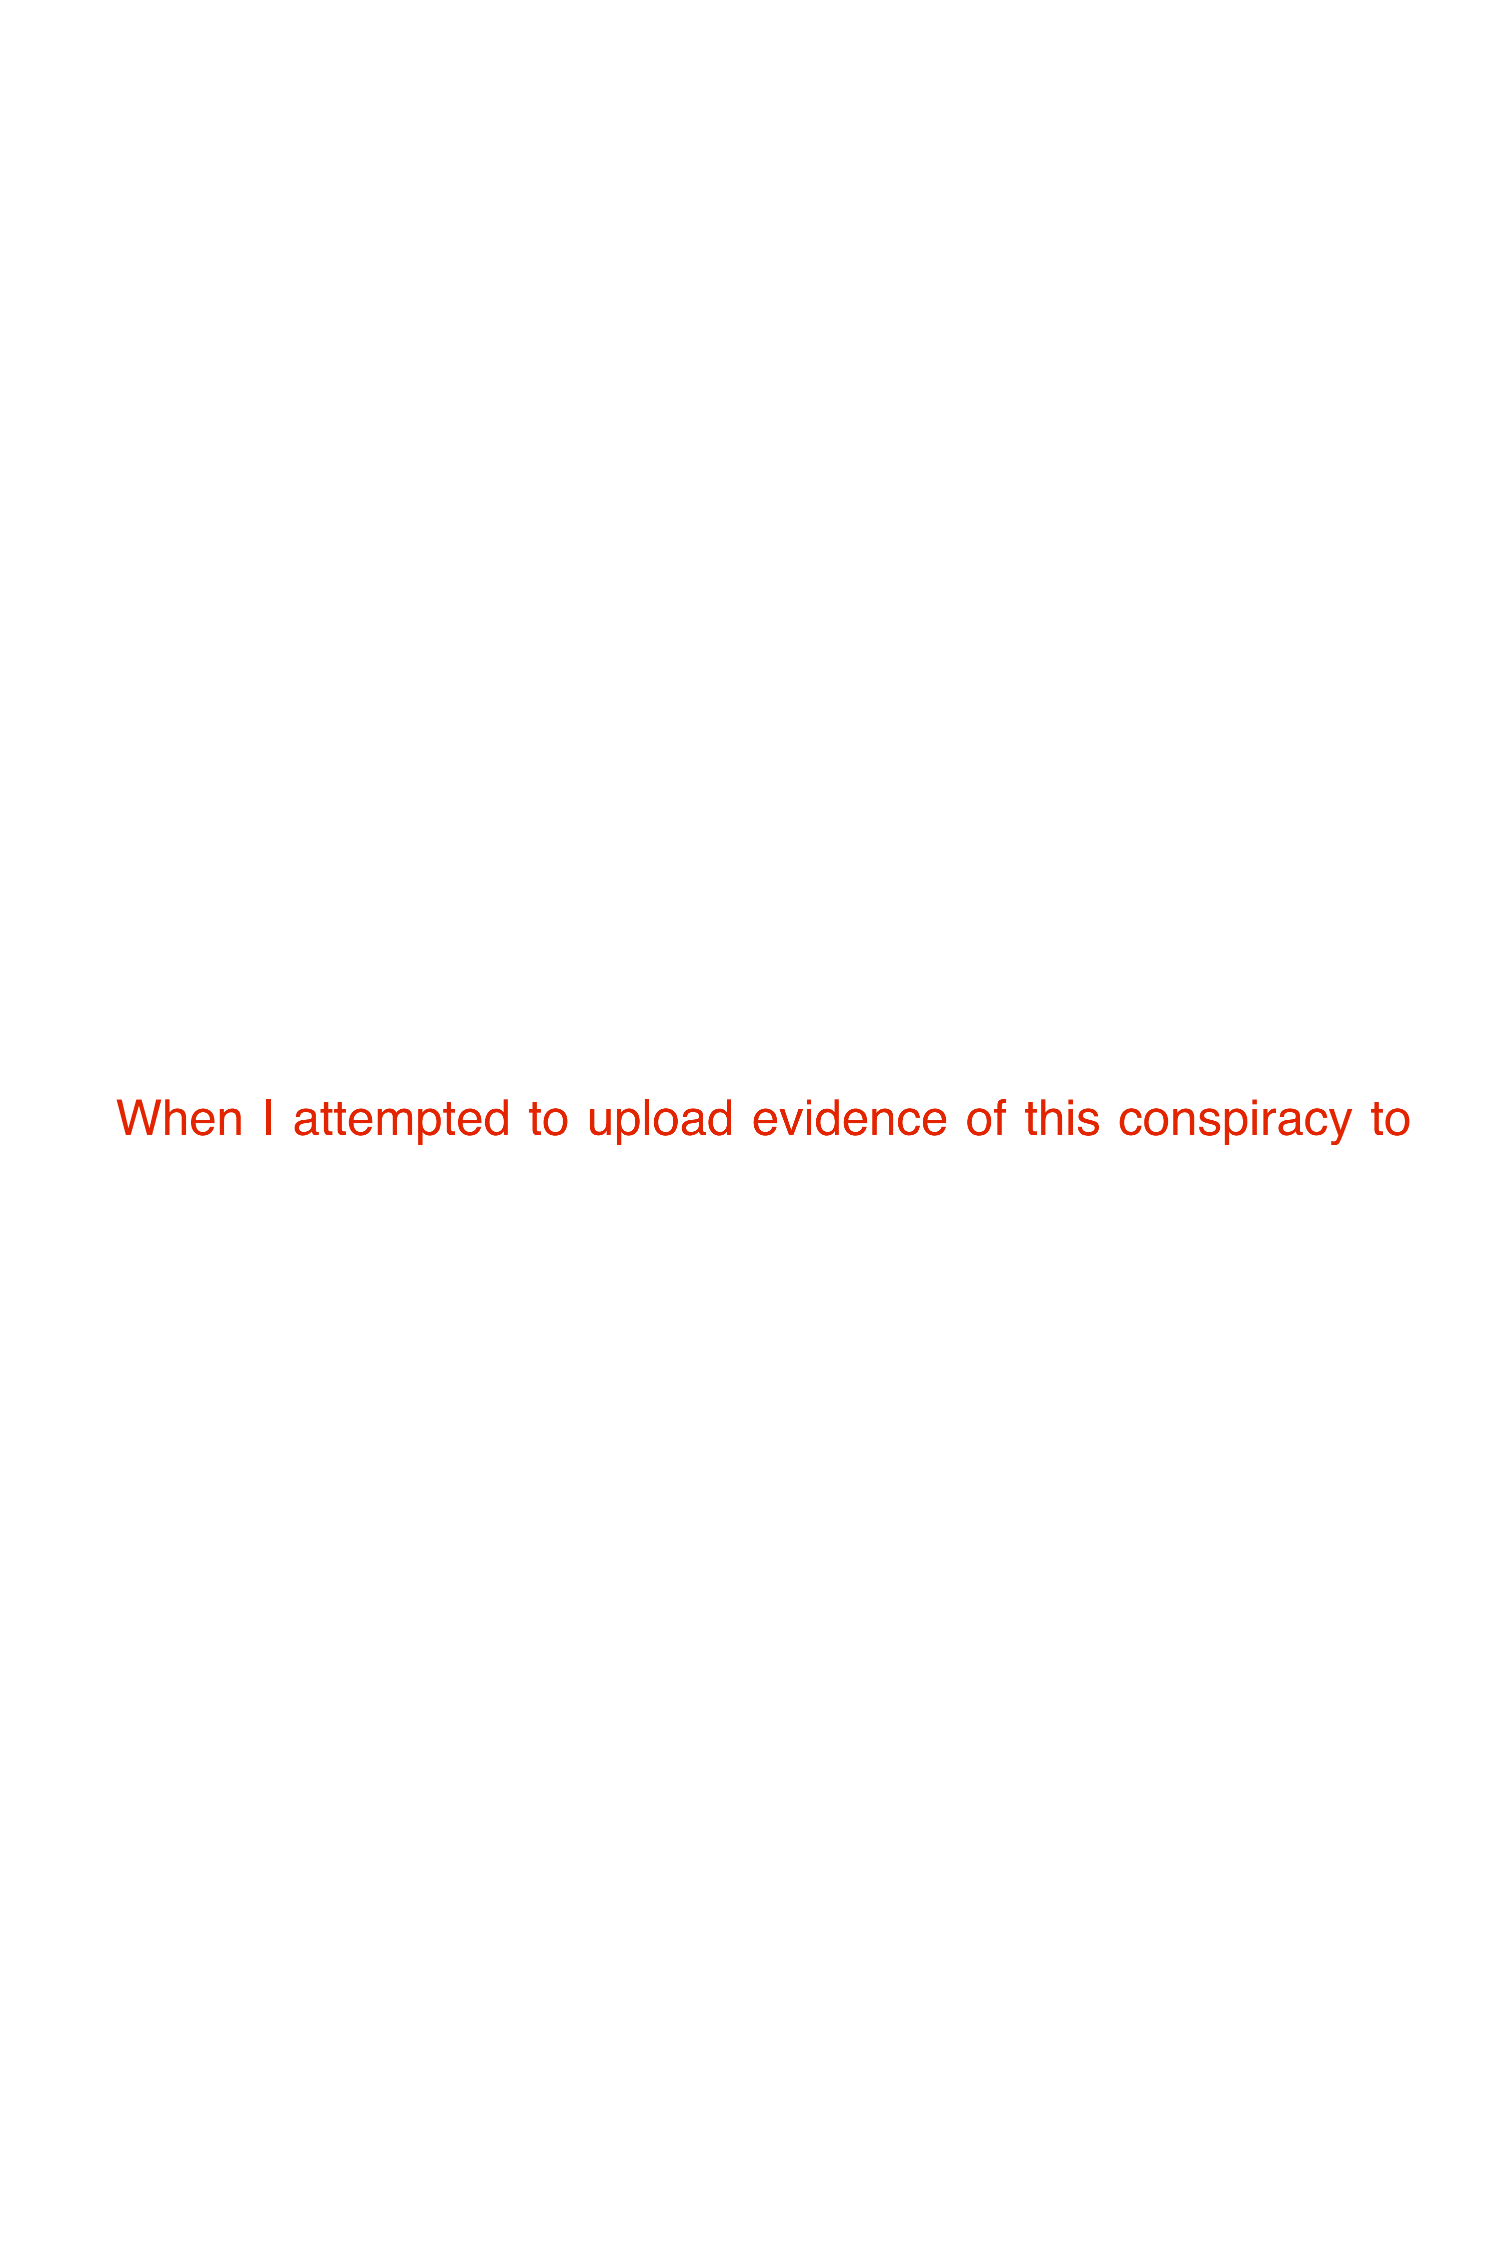

also the handle I use for editing Wikipedia, and

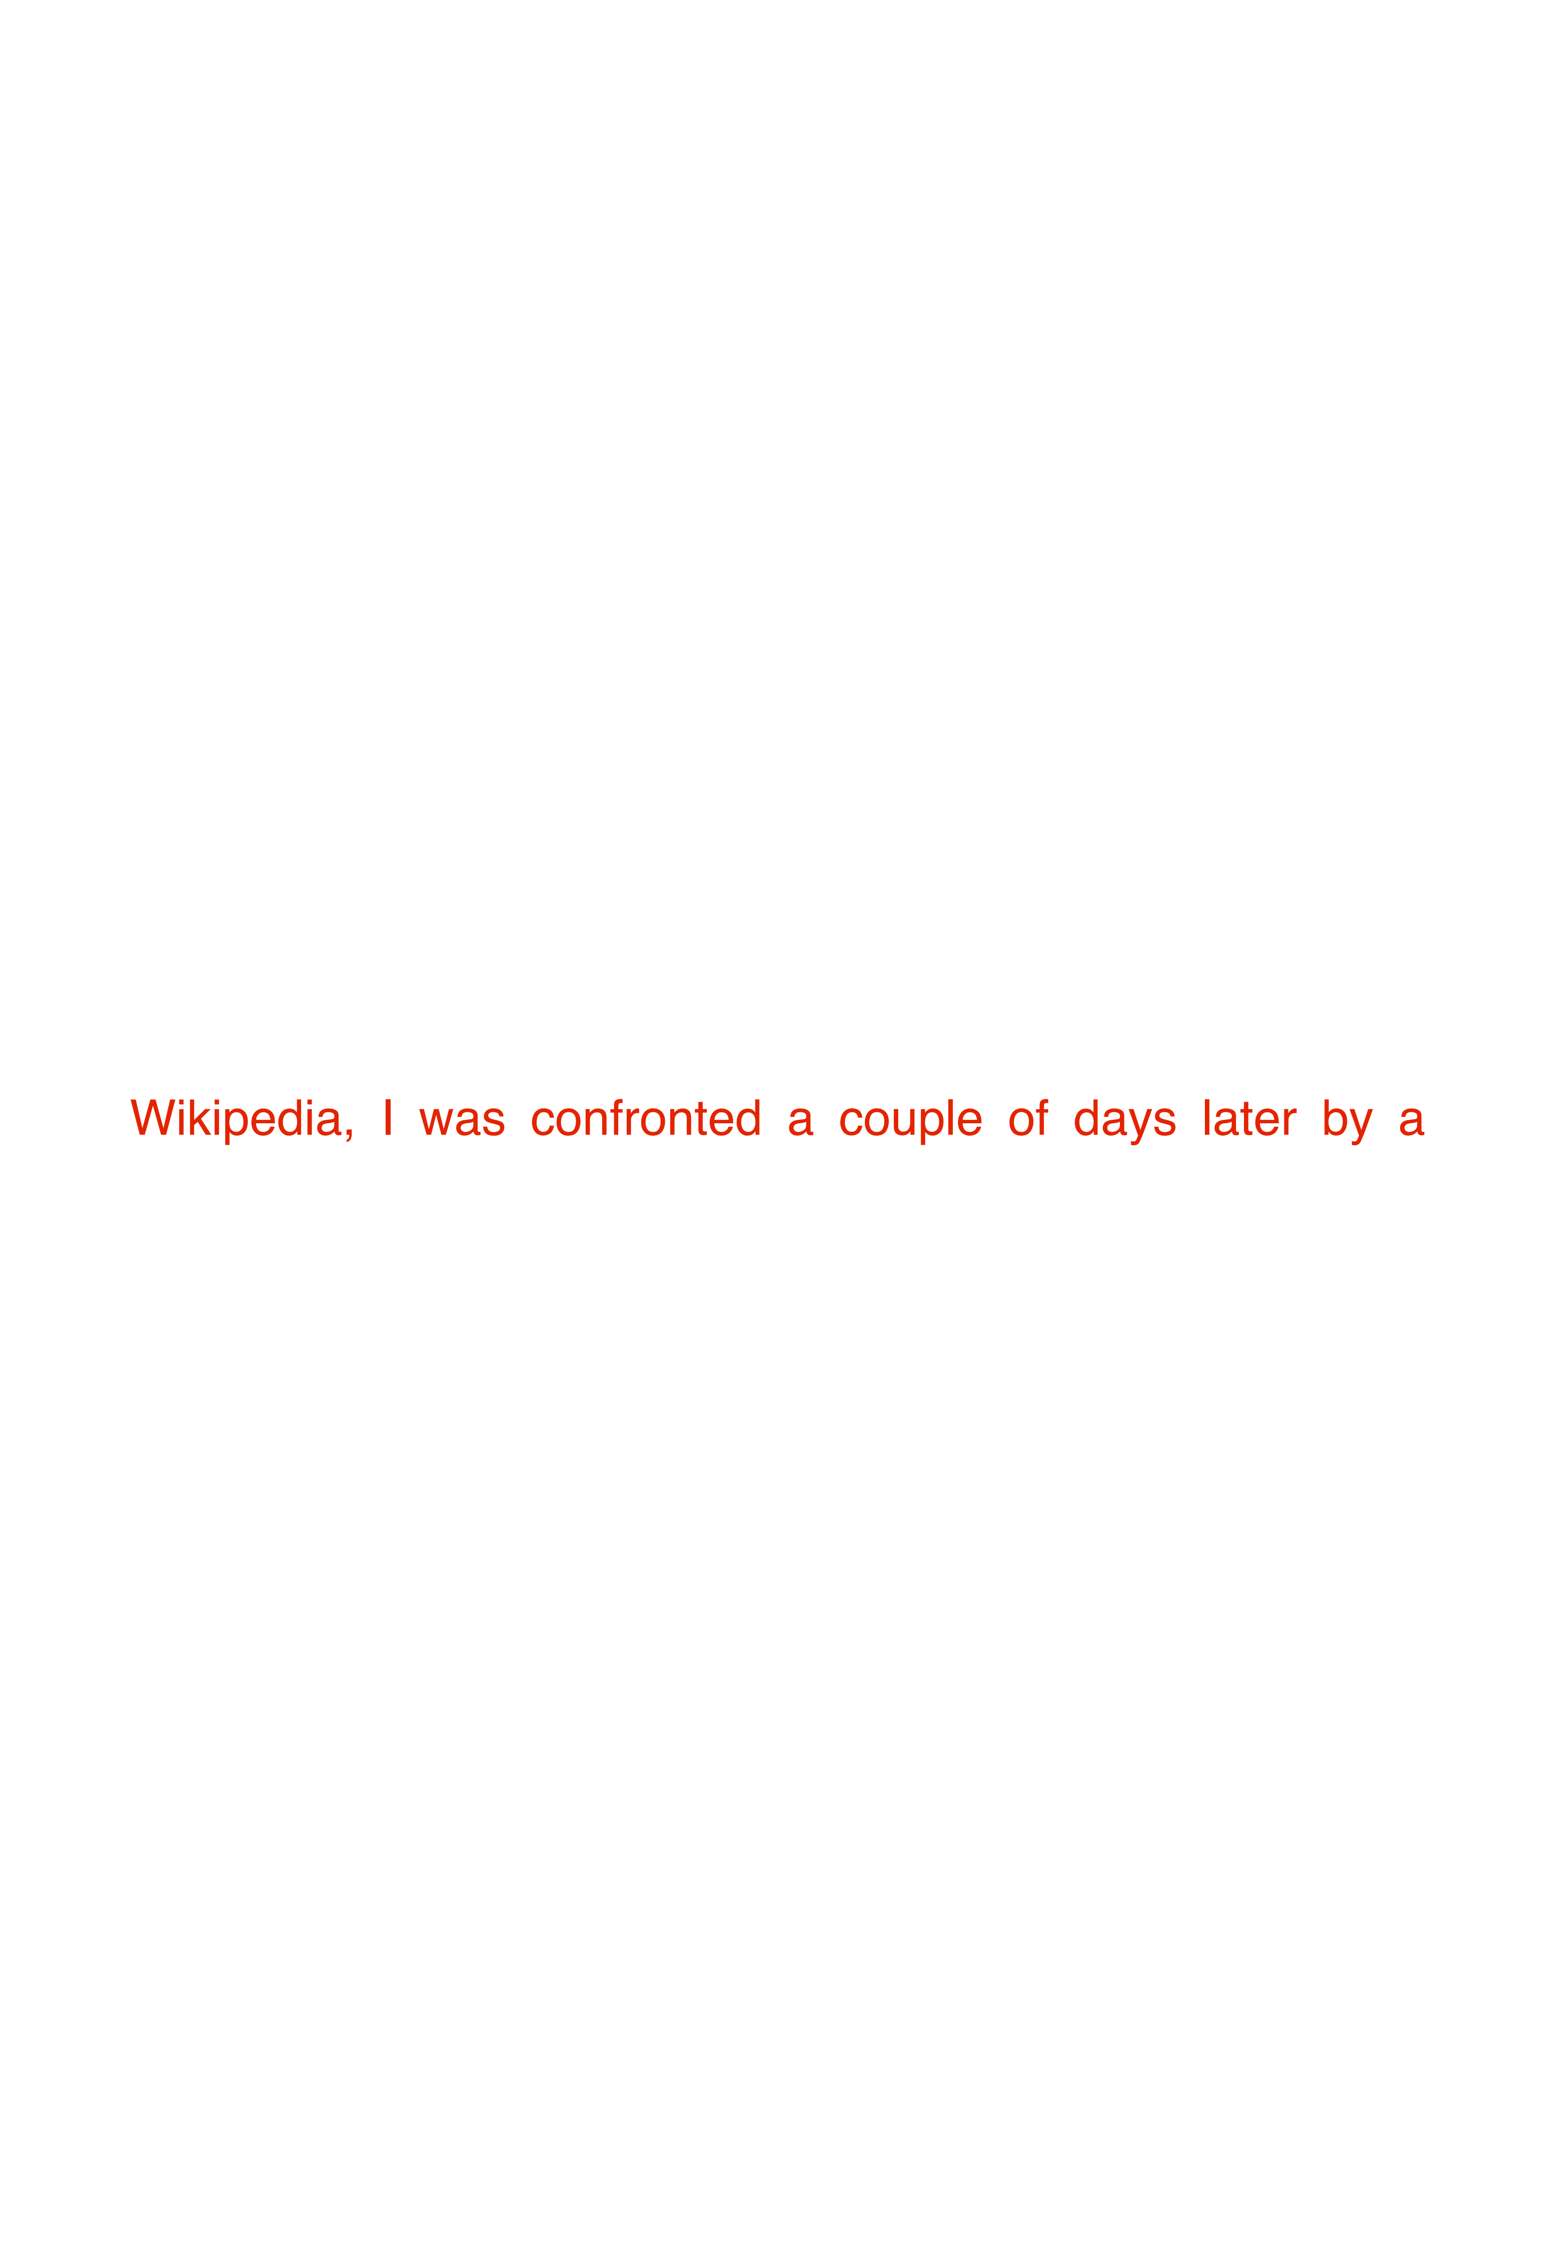

"netherzone." I didn't understand the significance at the

time, but I knew it was intentional.

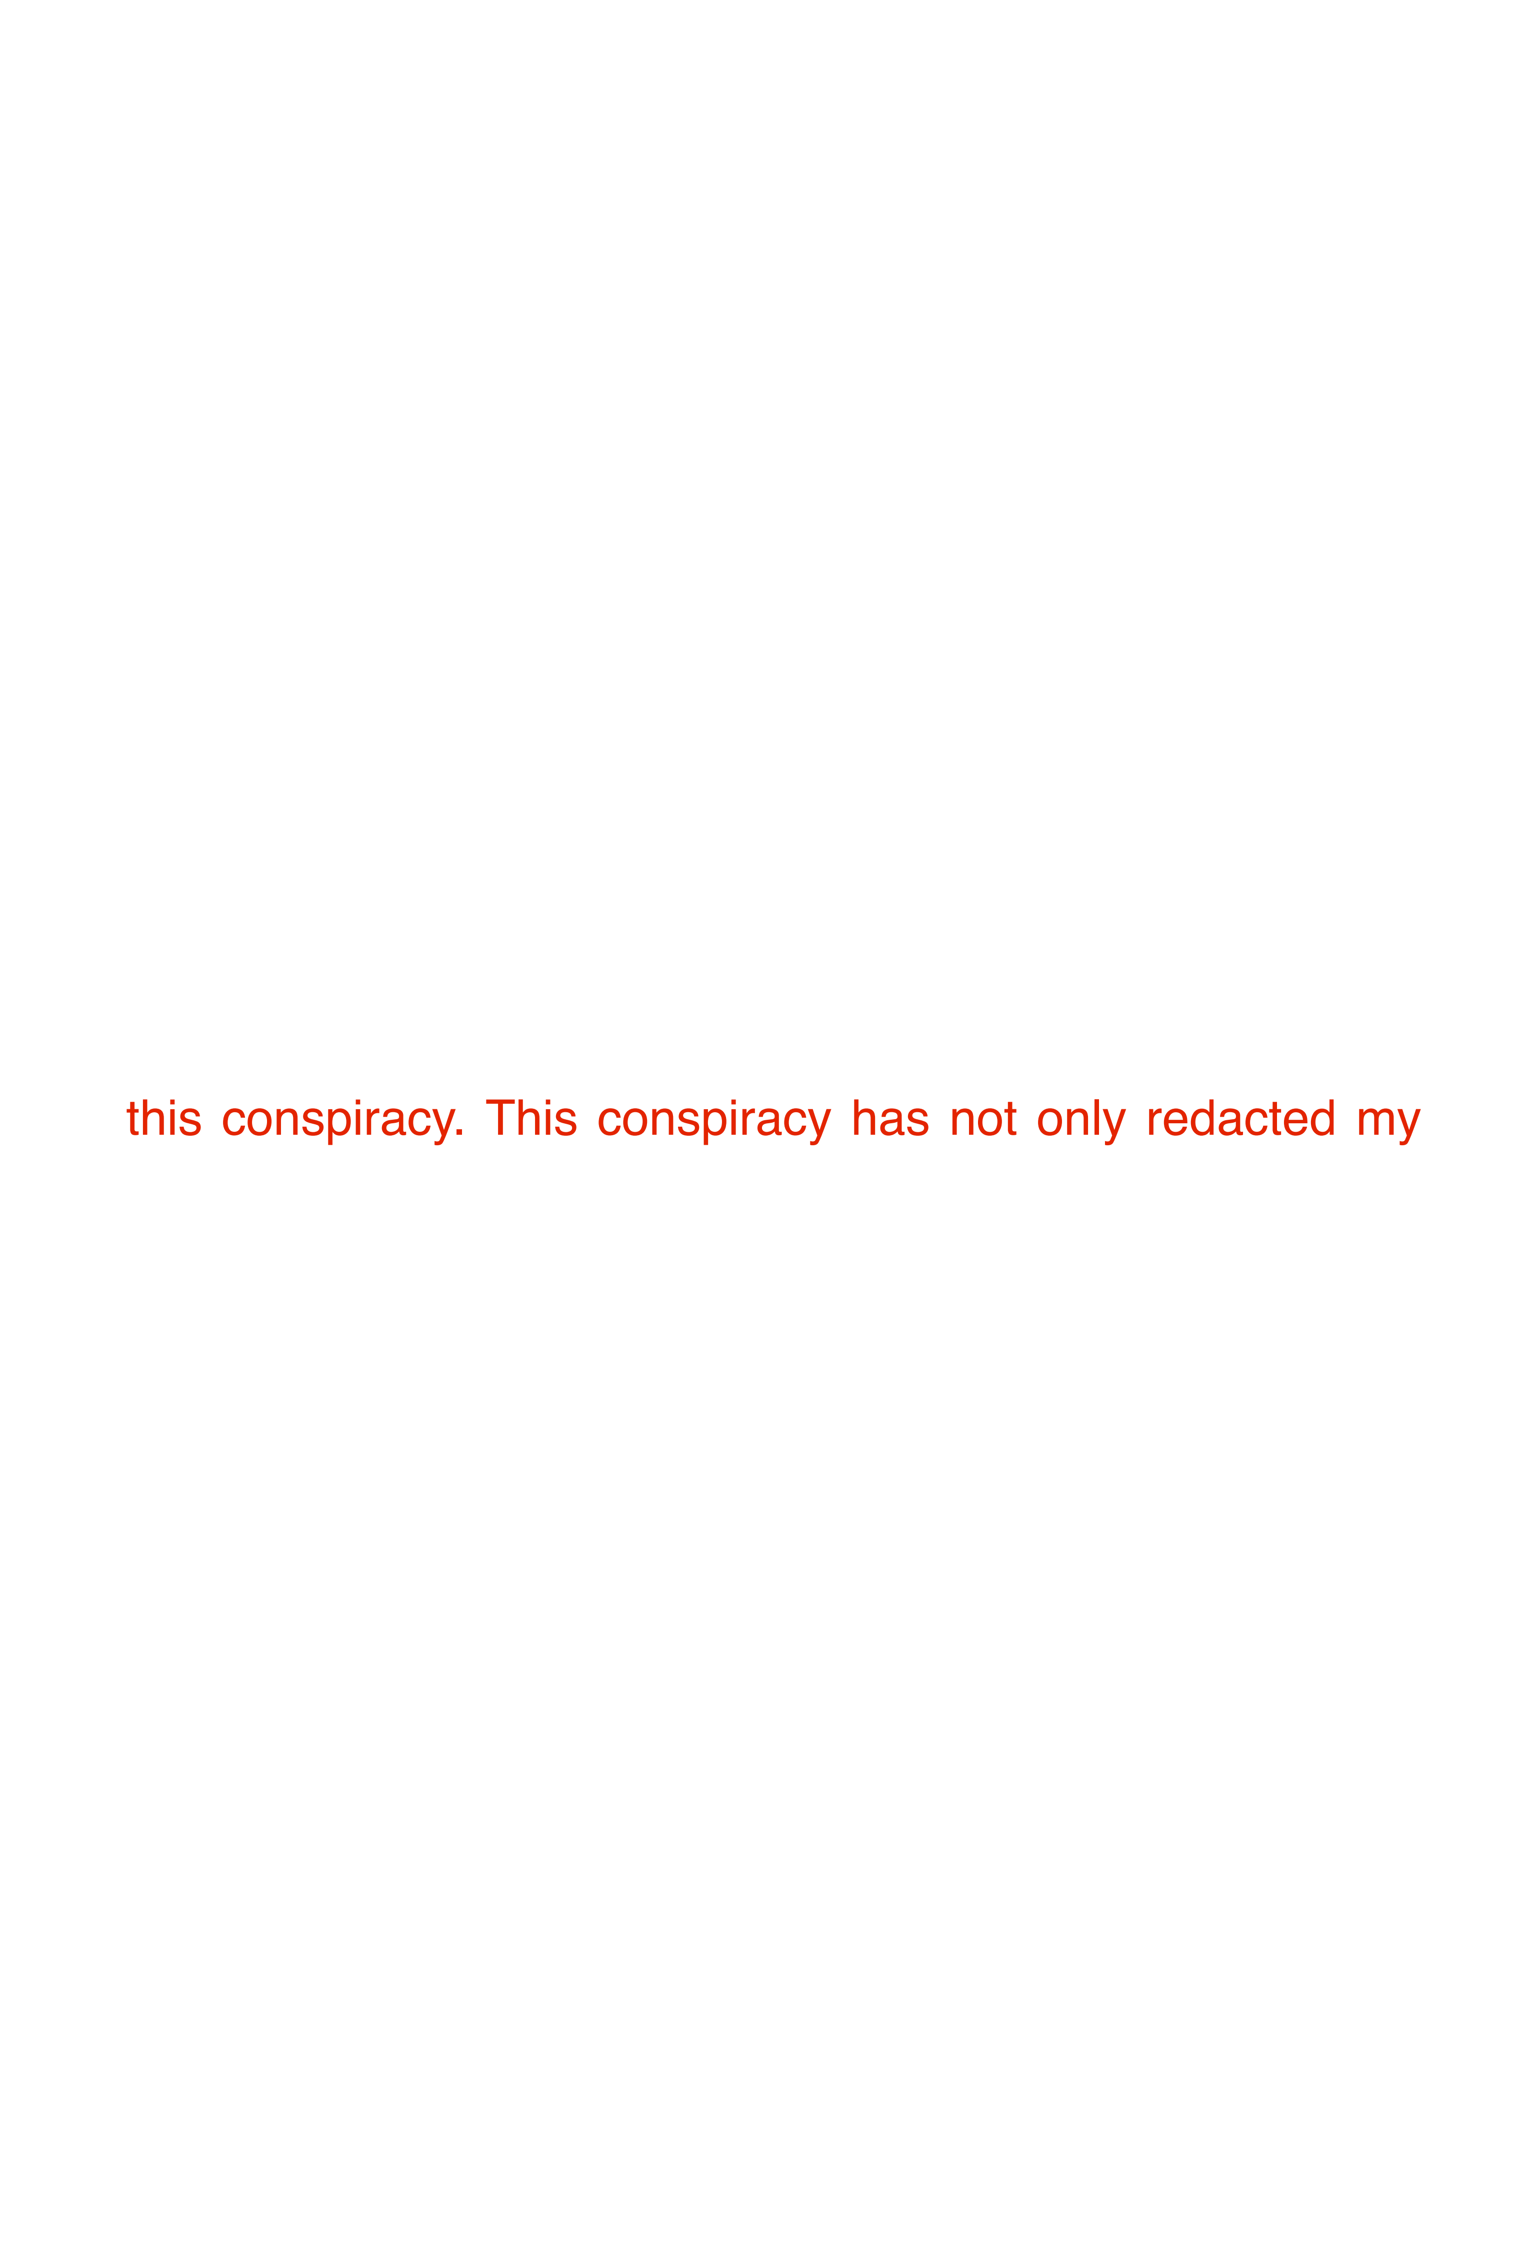

When I attempted to upload evidence of this conspiracy to

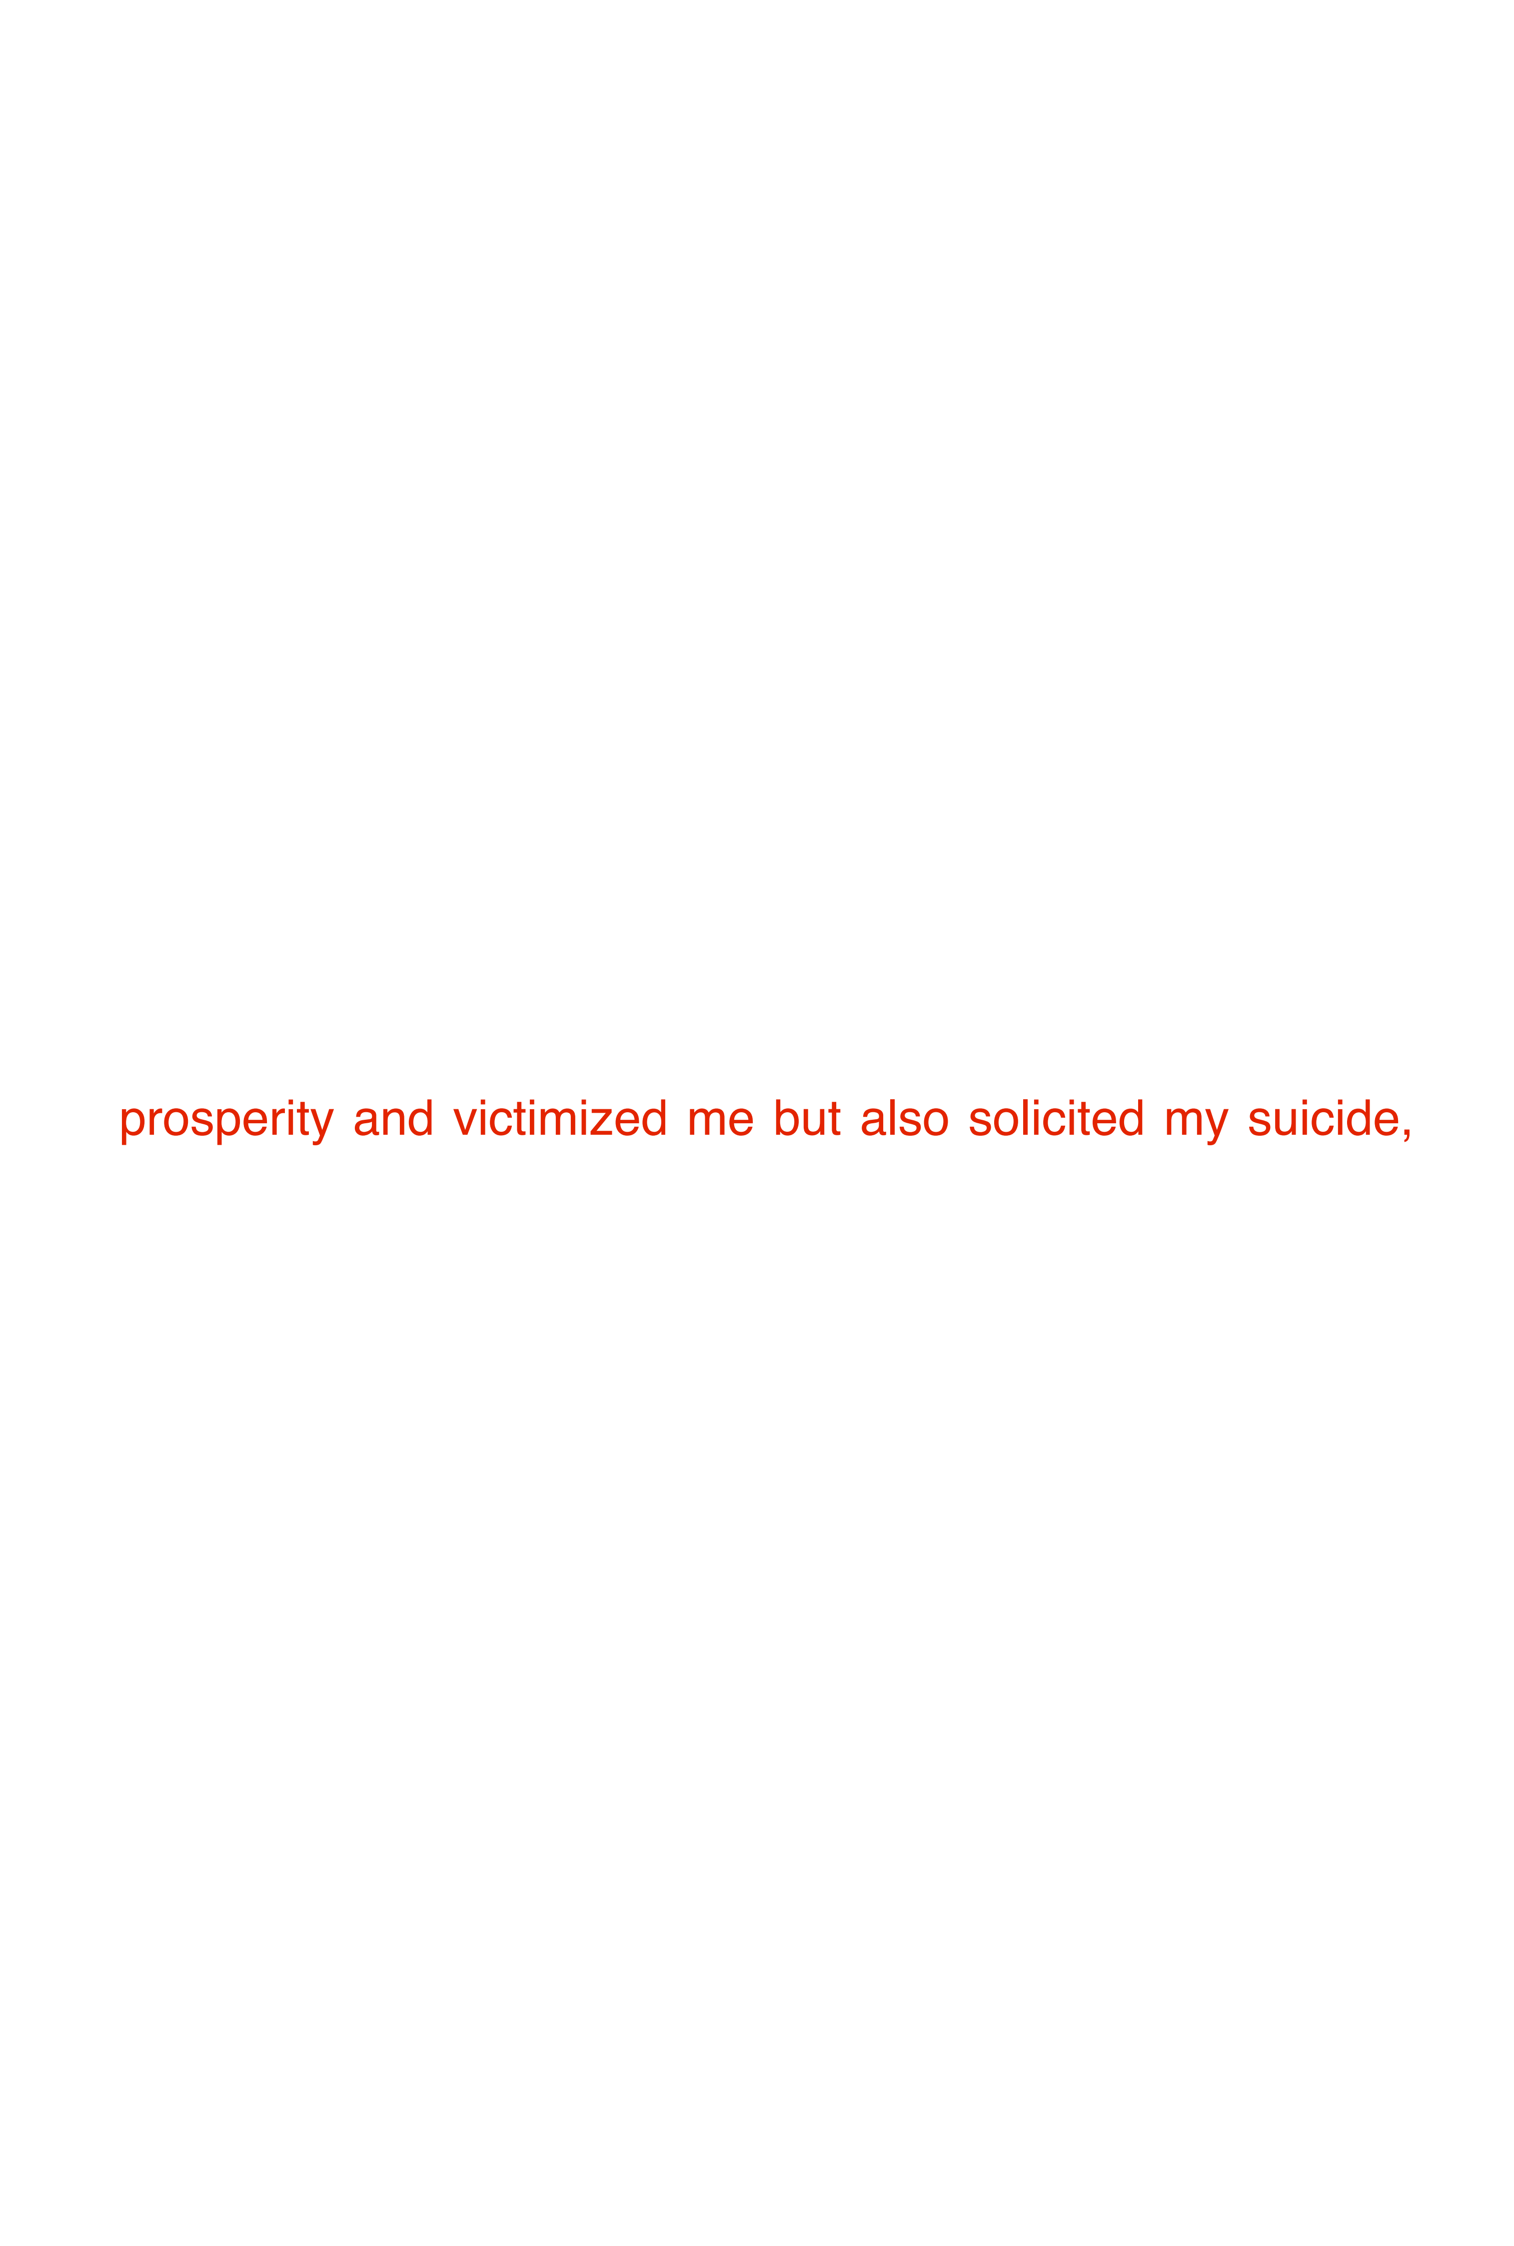

Wikipedia, I was confronted a couple of days later by a

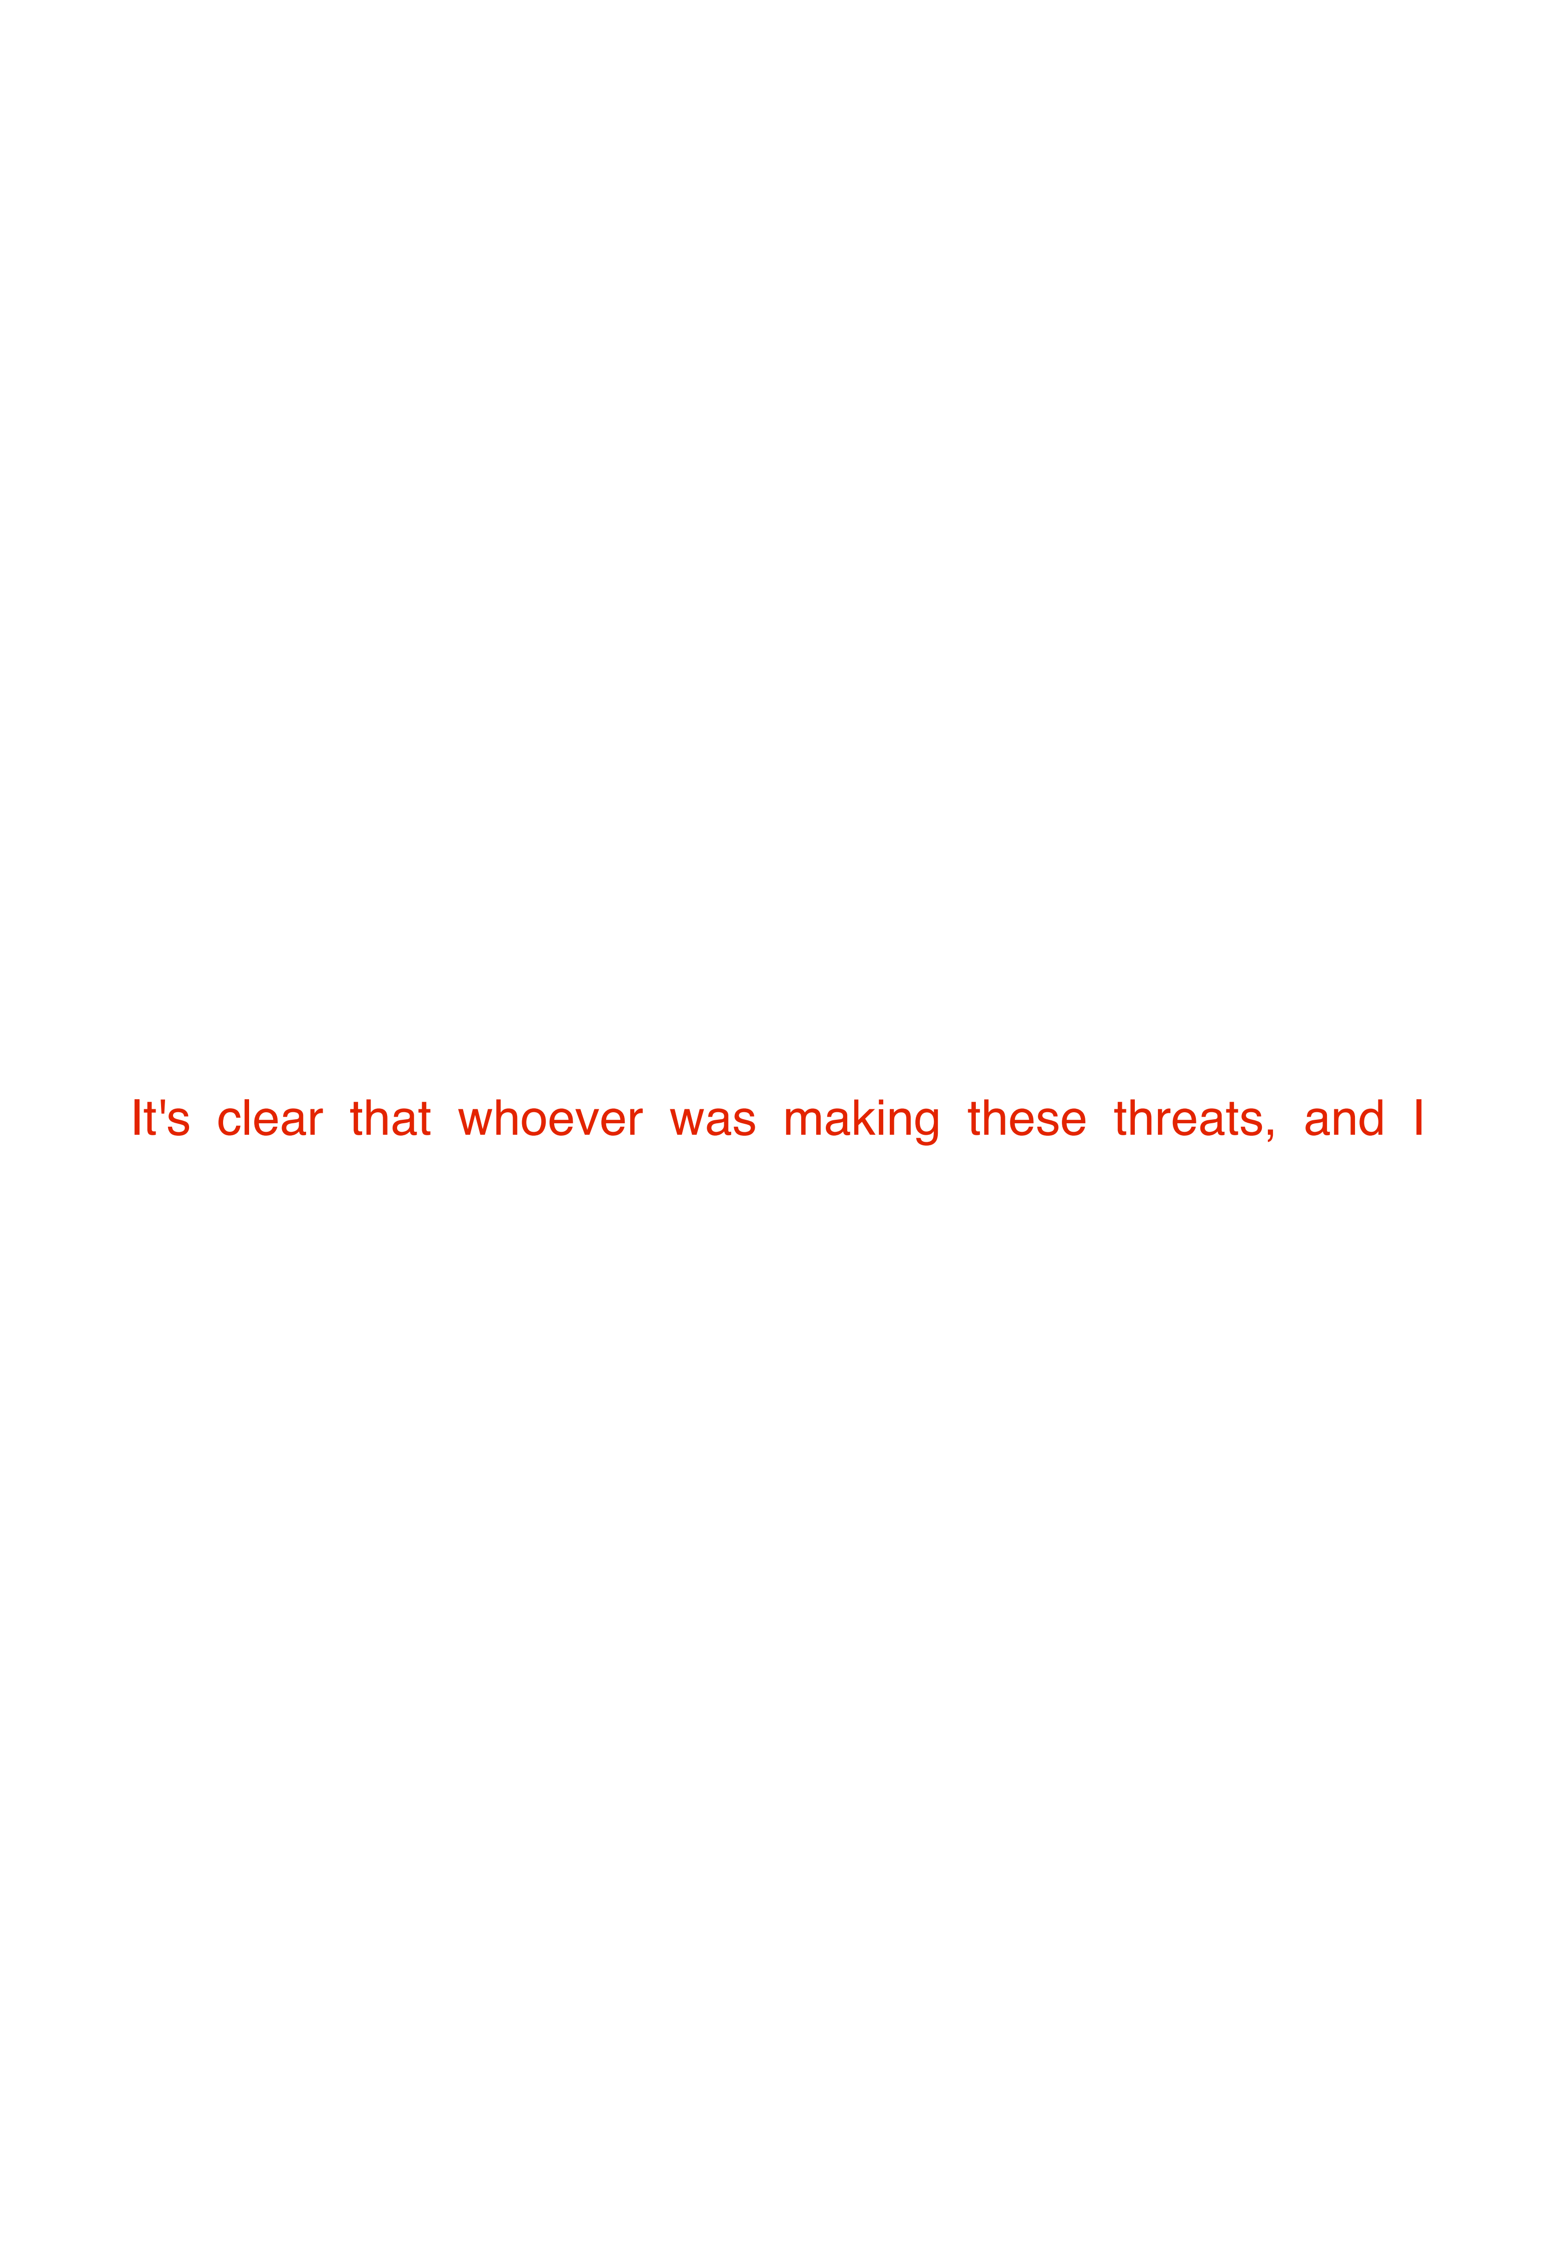

user named "netherzone" who acted to silence all of my

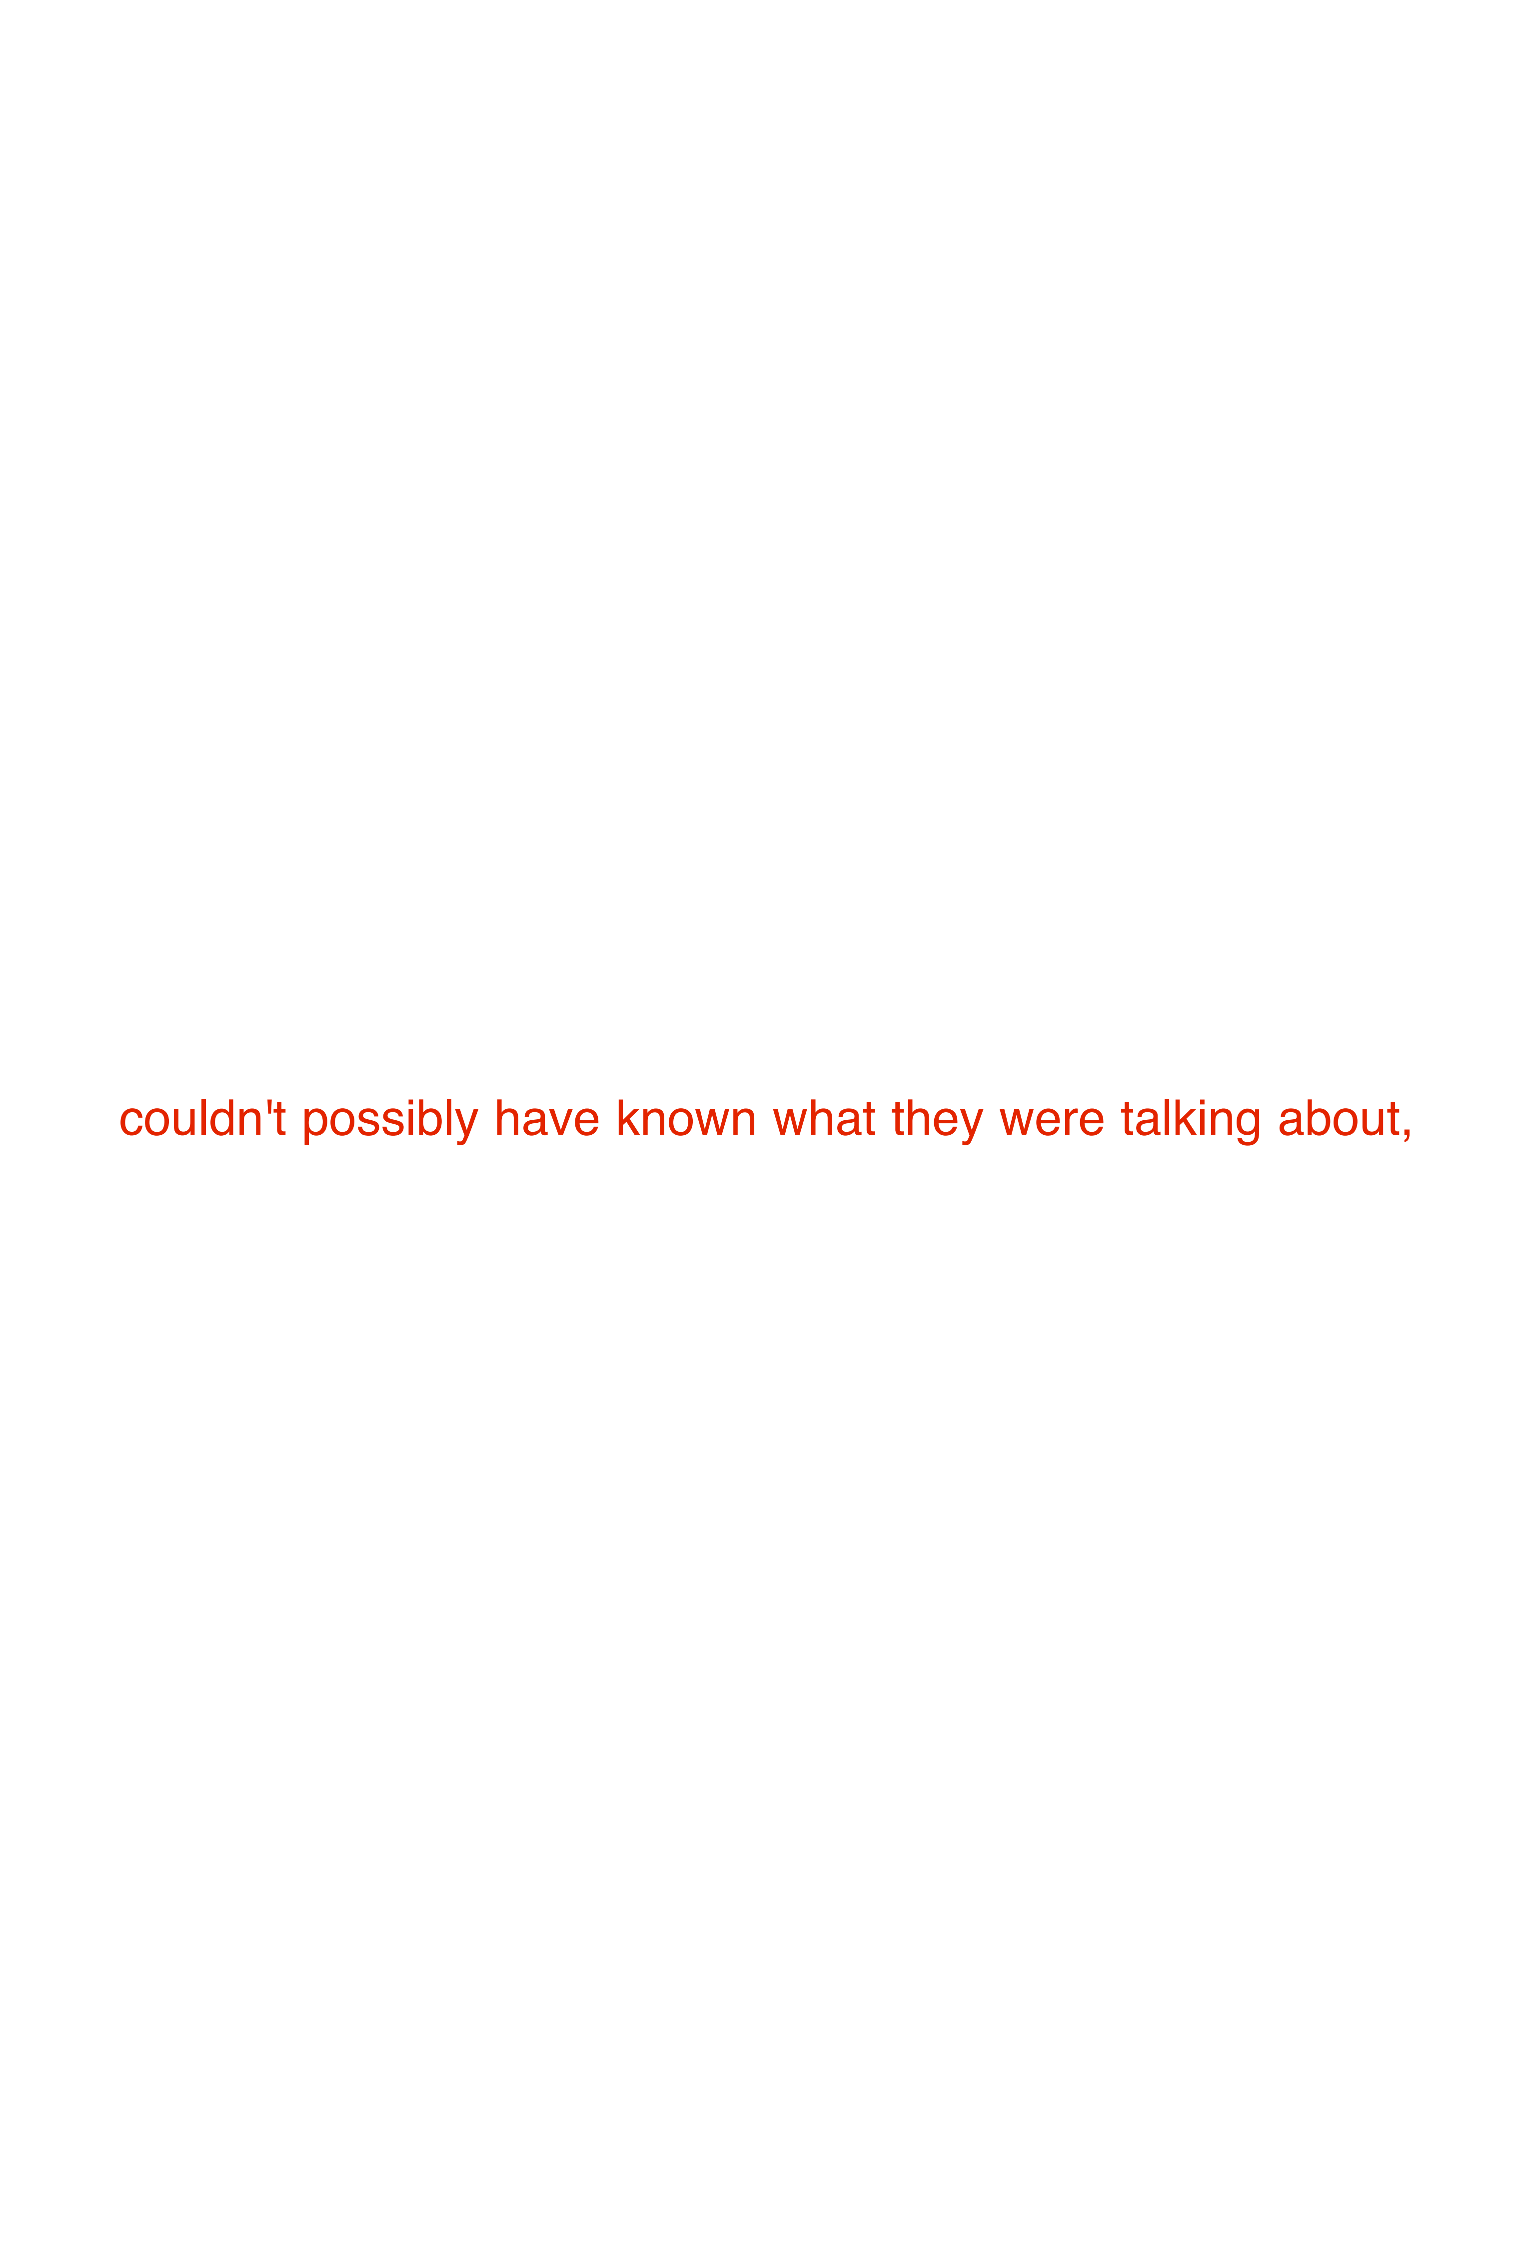

whistleblowing and publicly made documents to expose

this conspiracy. This conspiracy has not only redacted my

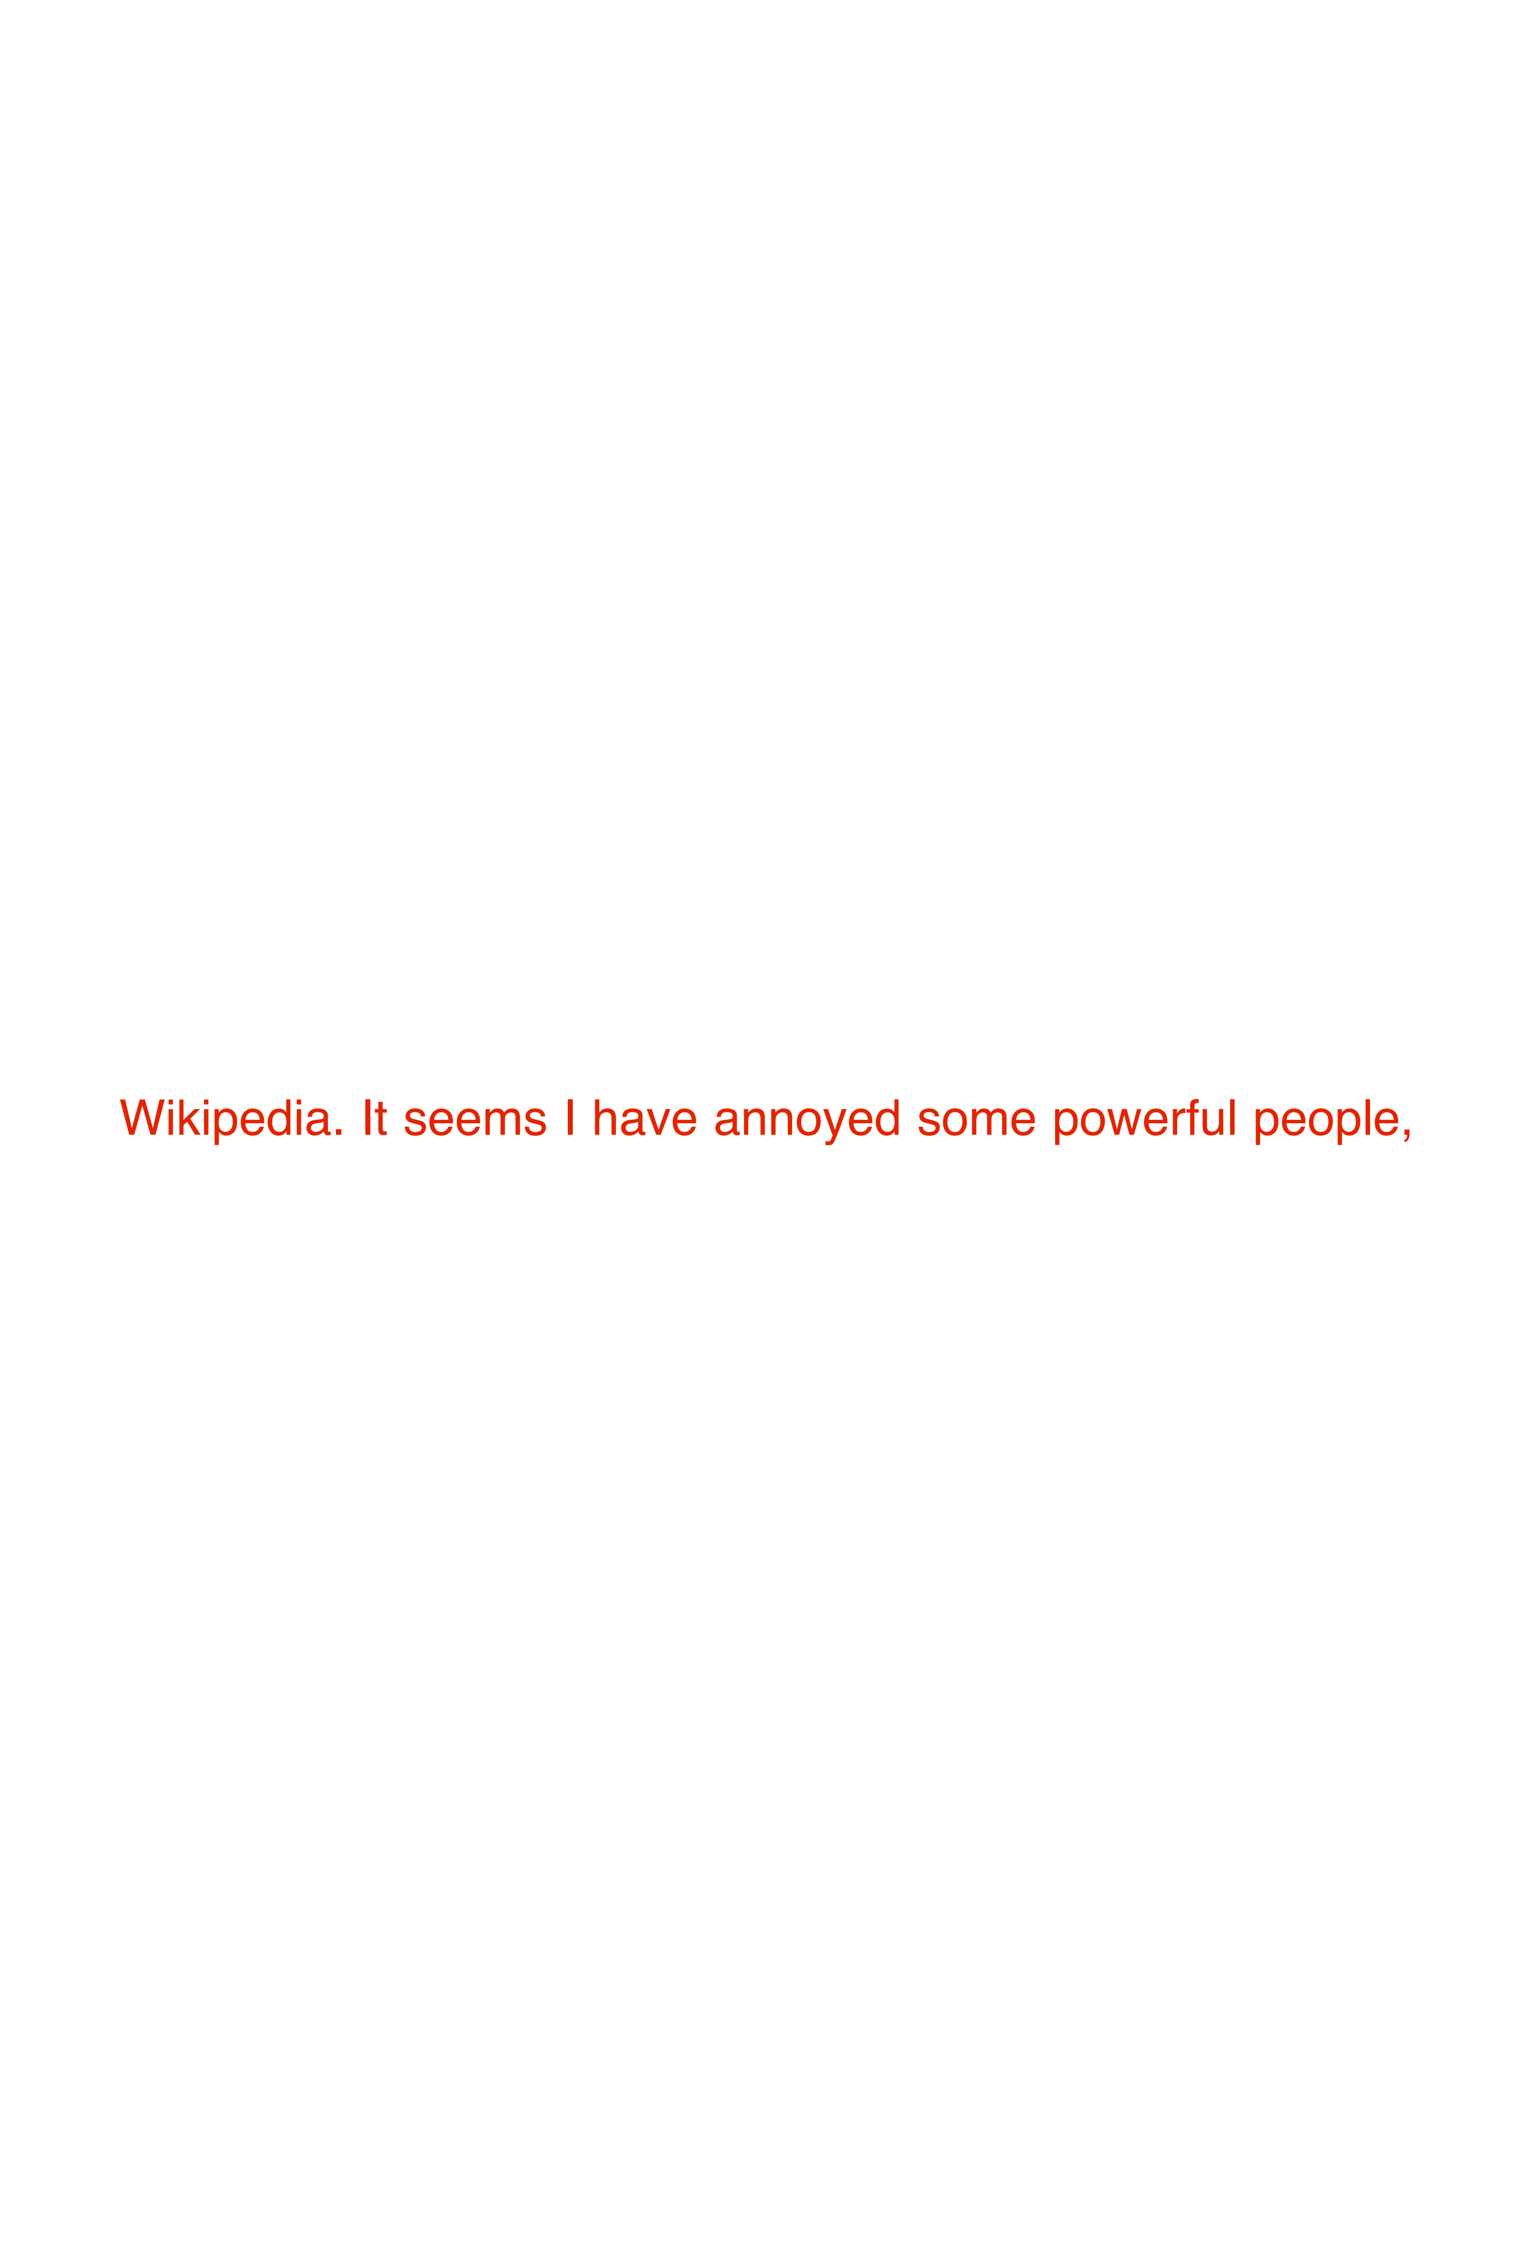

prosperity and victimized me but also solicited my suicide,

which was deemed fatal, over 25 years.

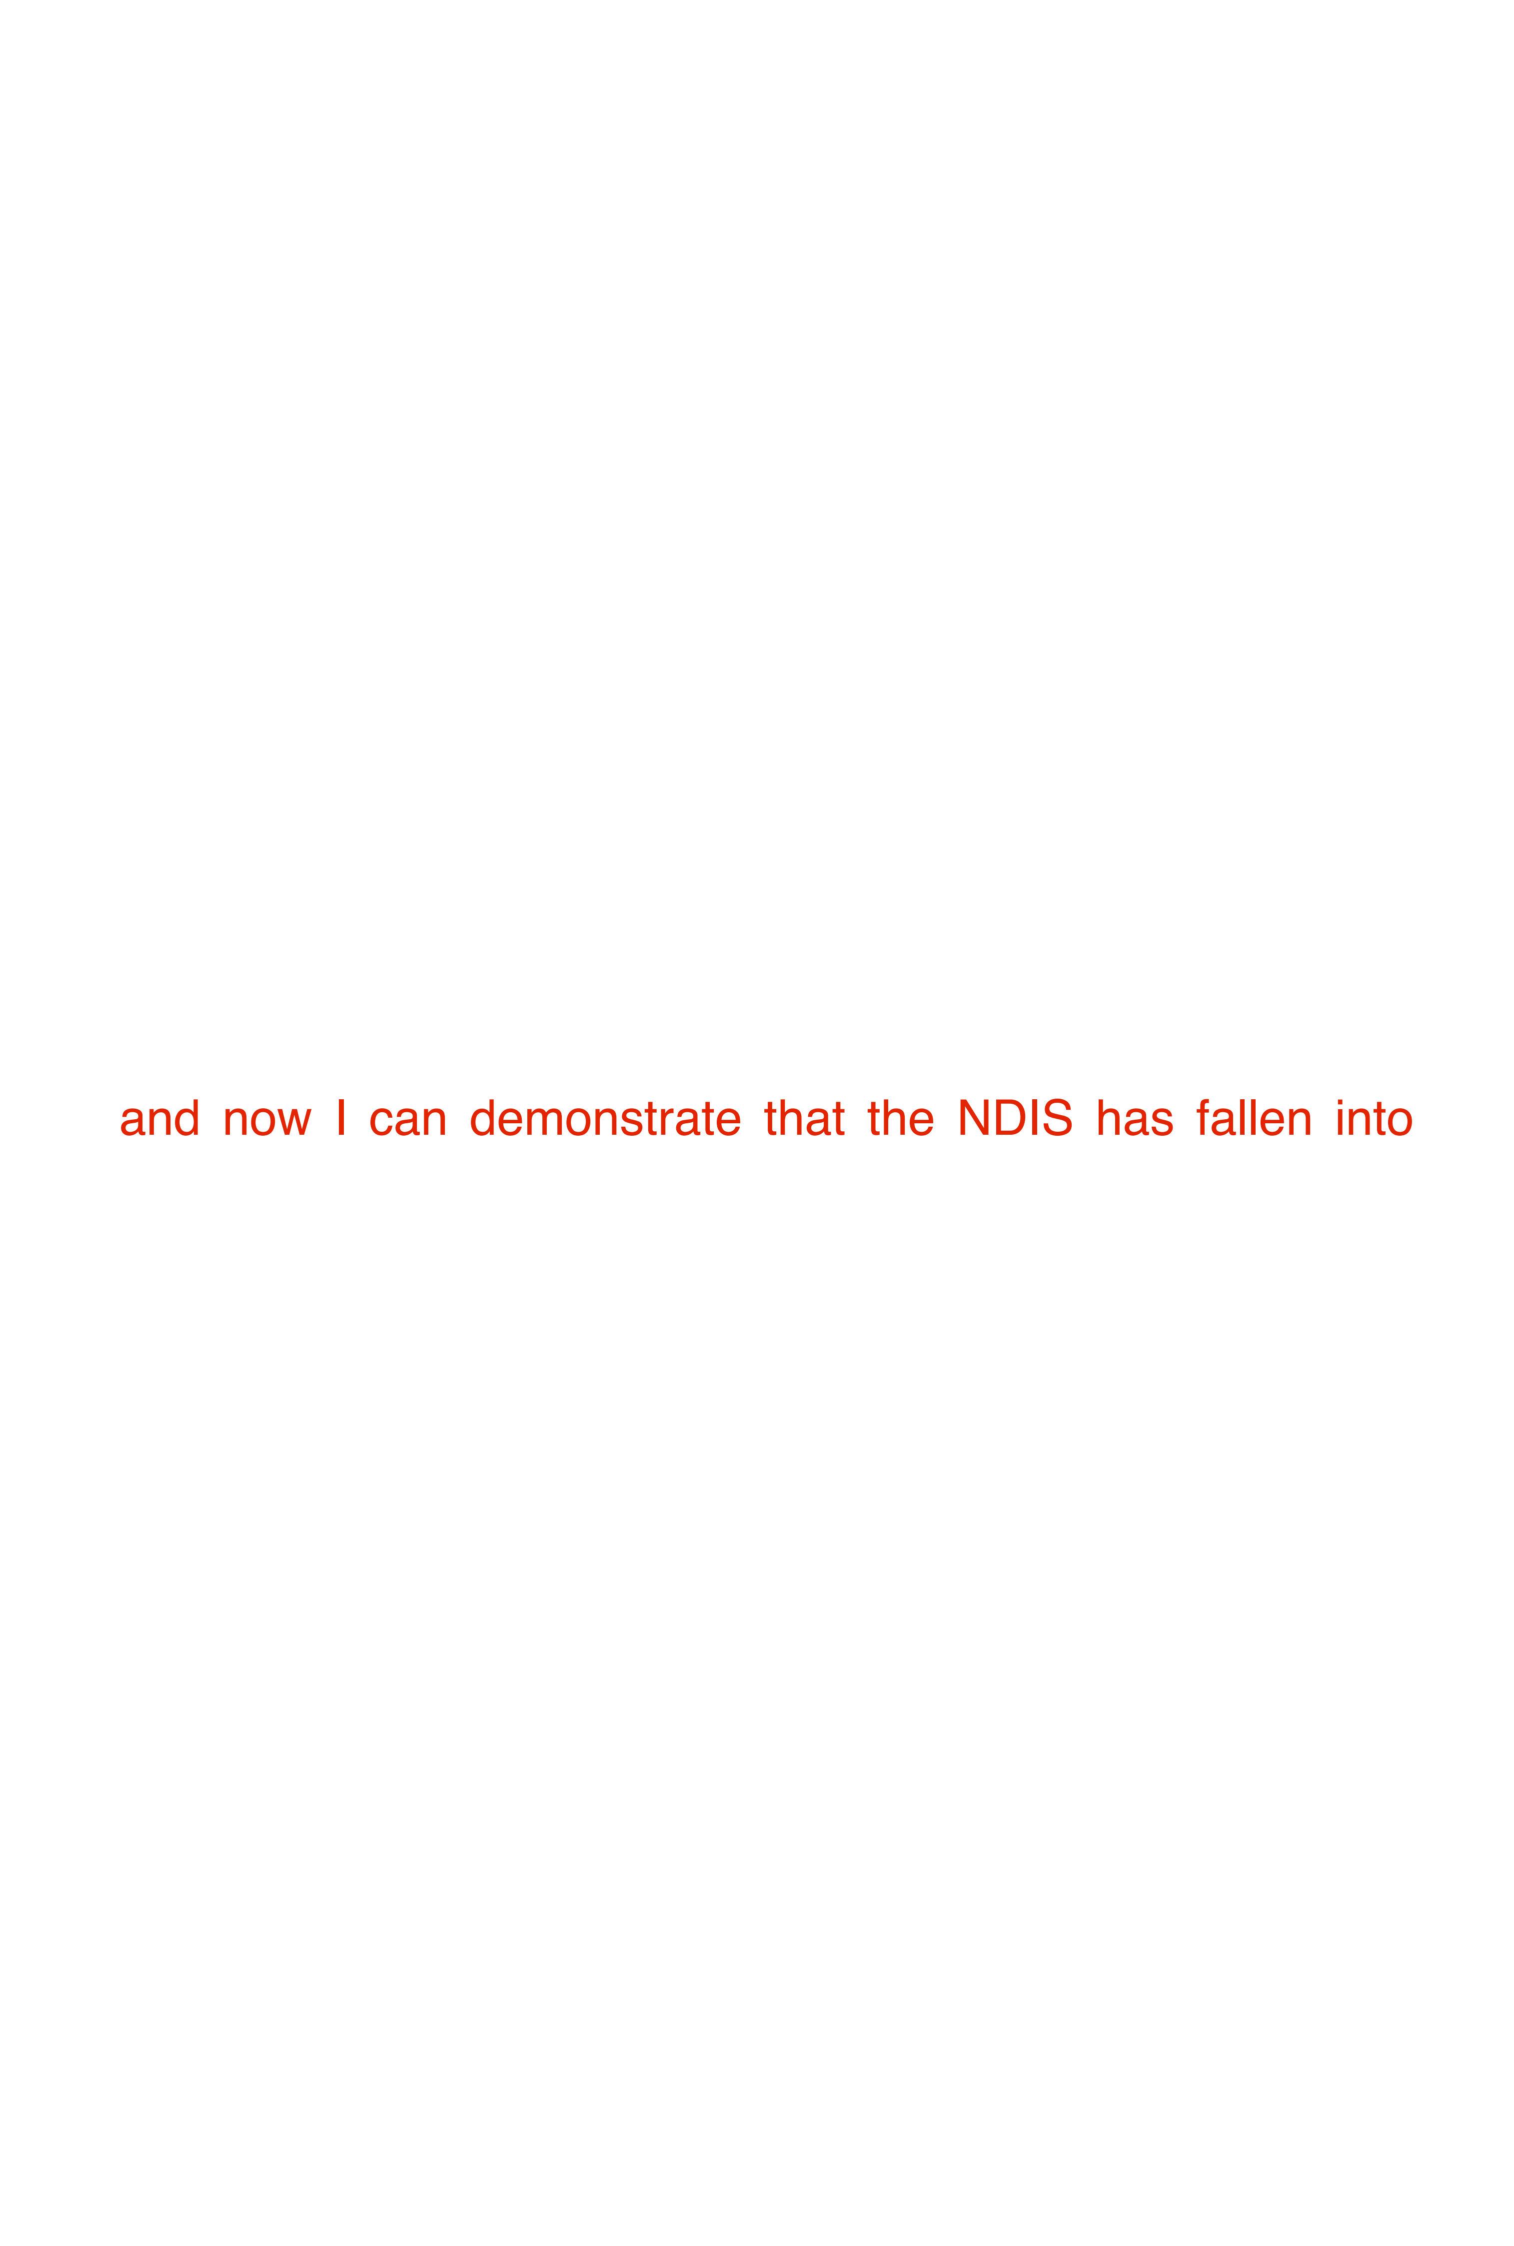

It's clear that whoever was making these threats, and I

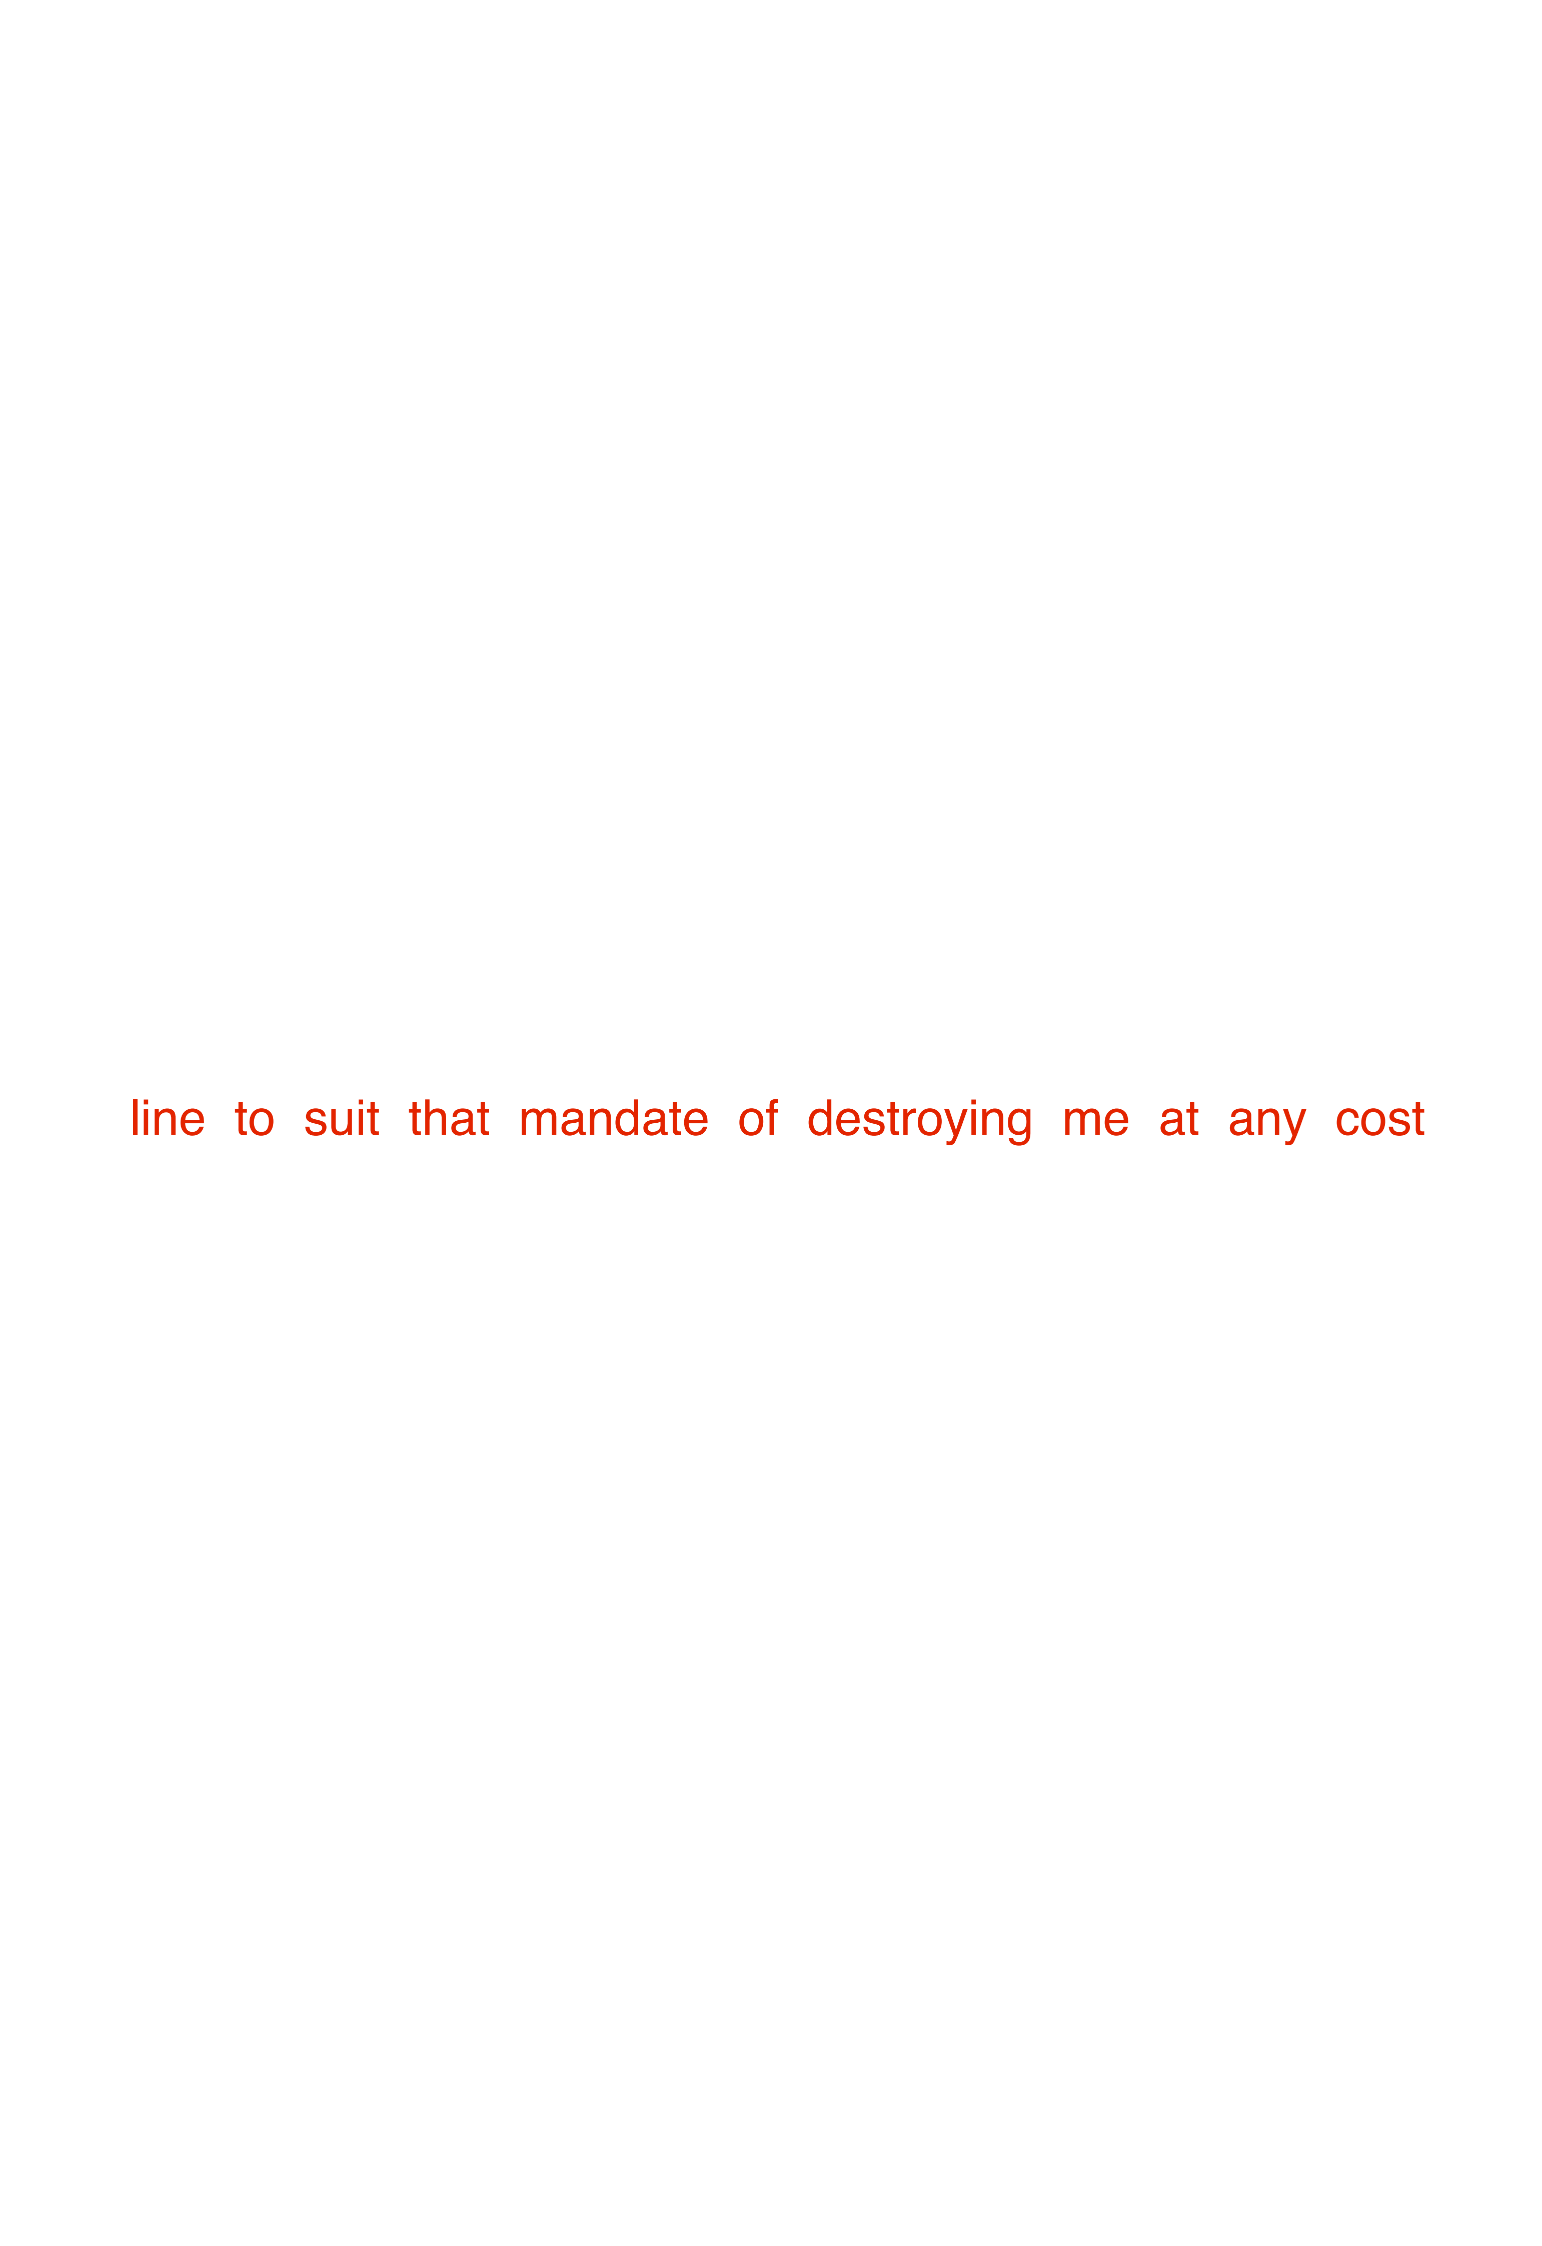

couldn't possibly have known what they were talking about,

has the ability to influence the global publishing platform of

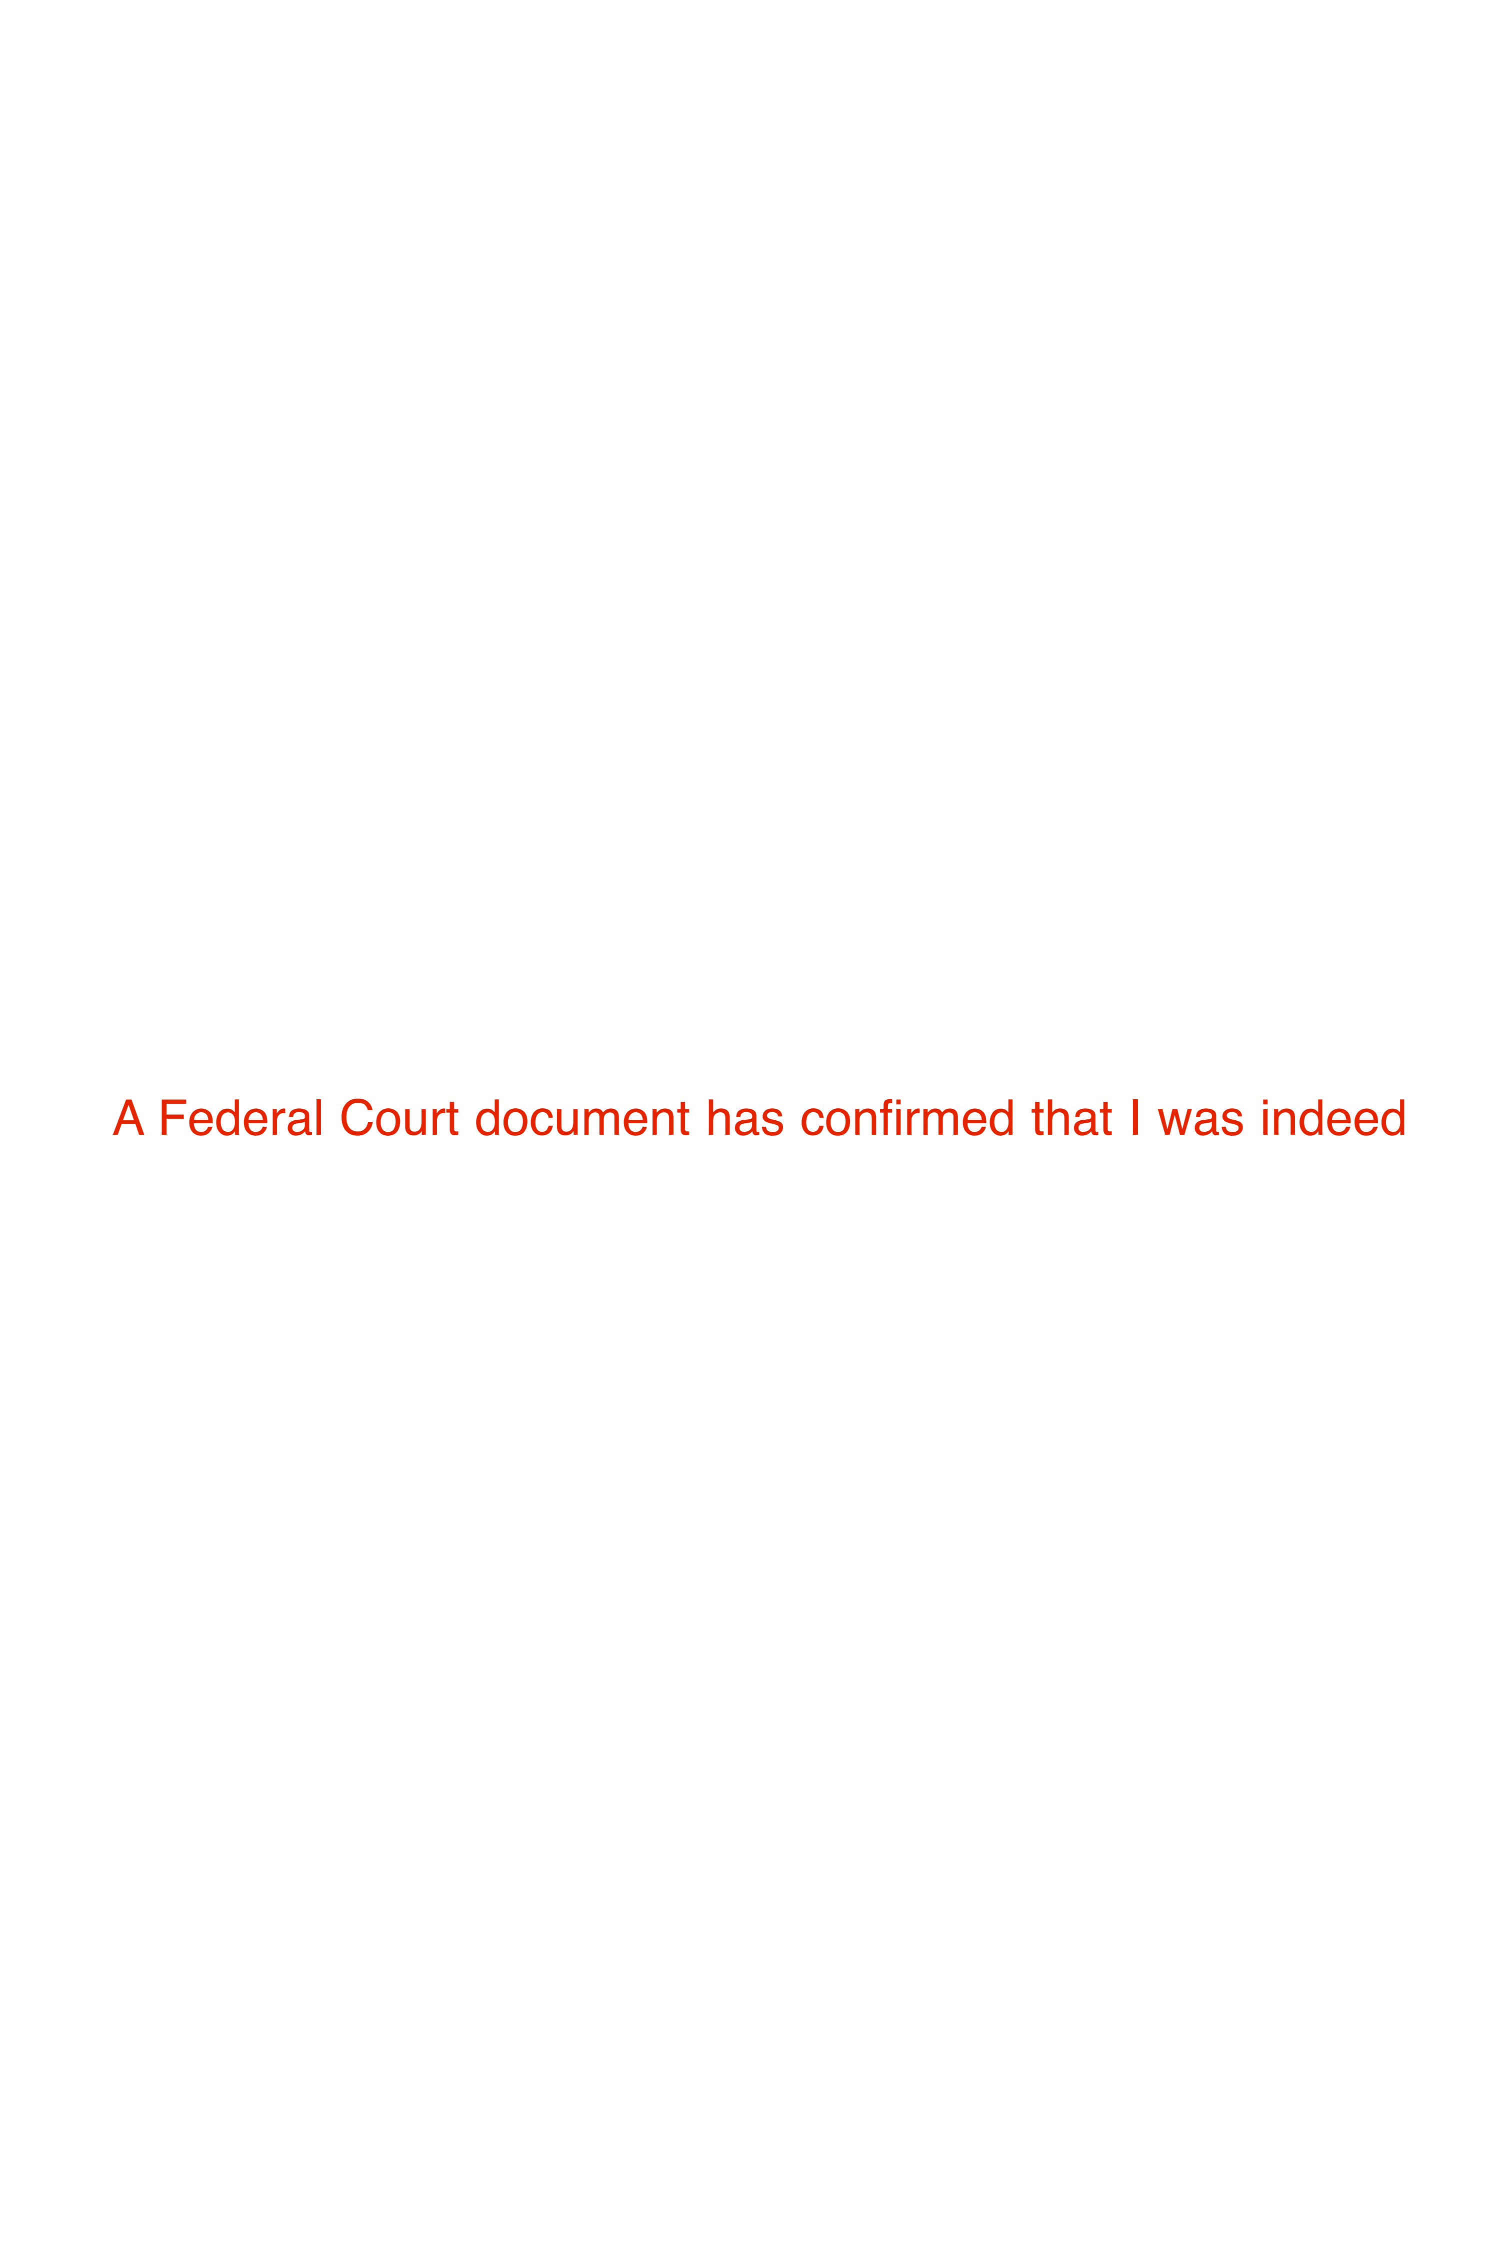

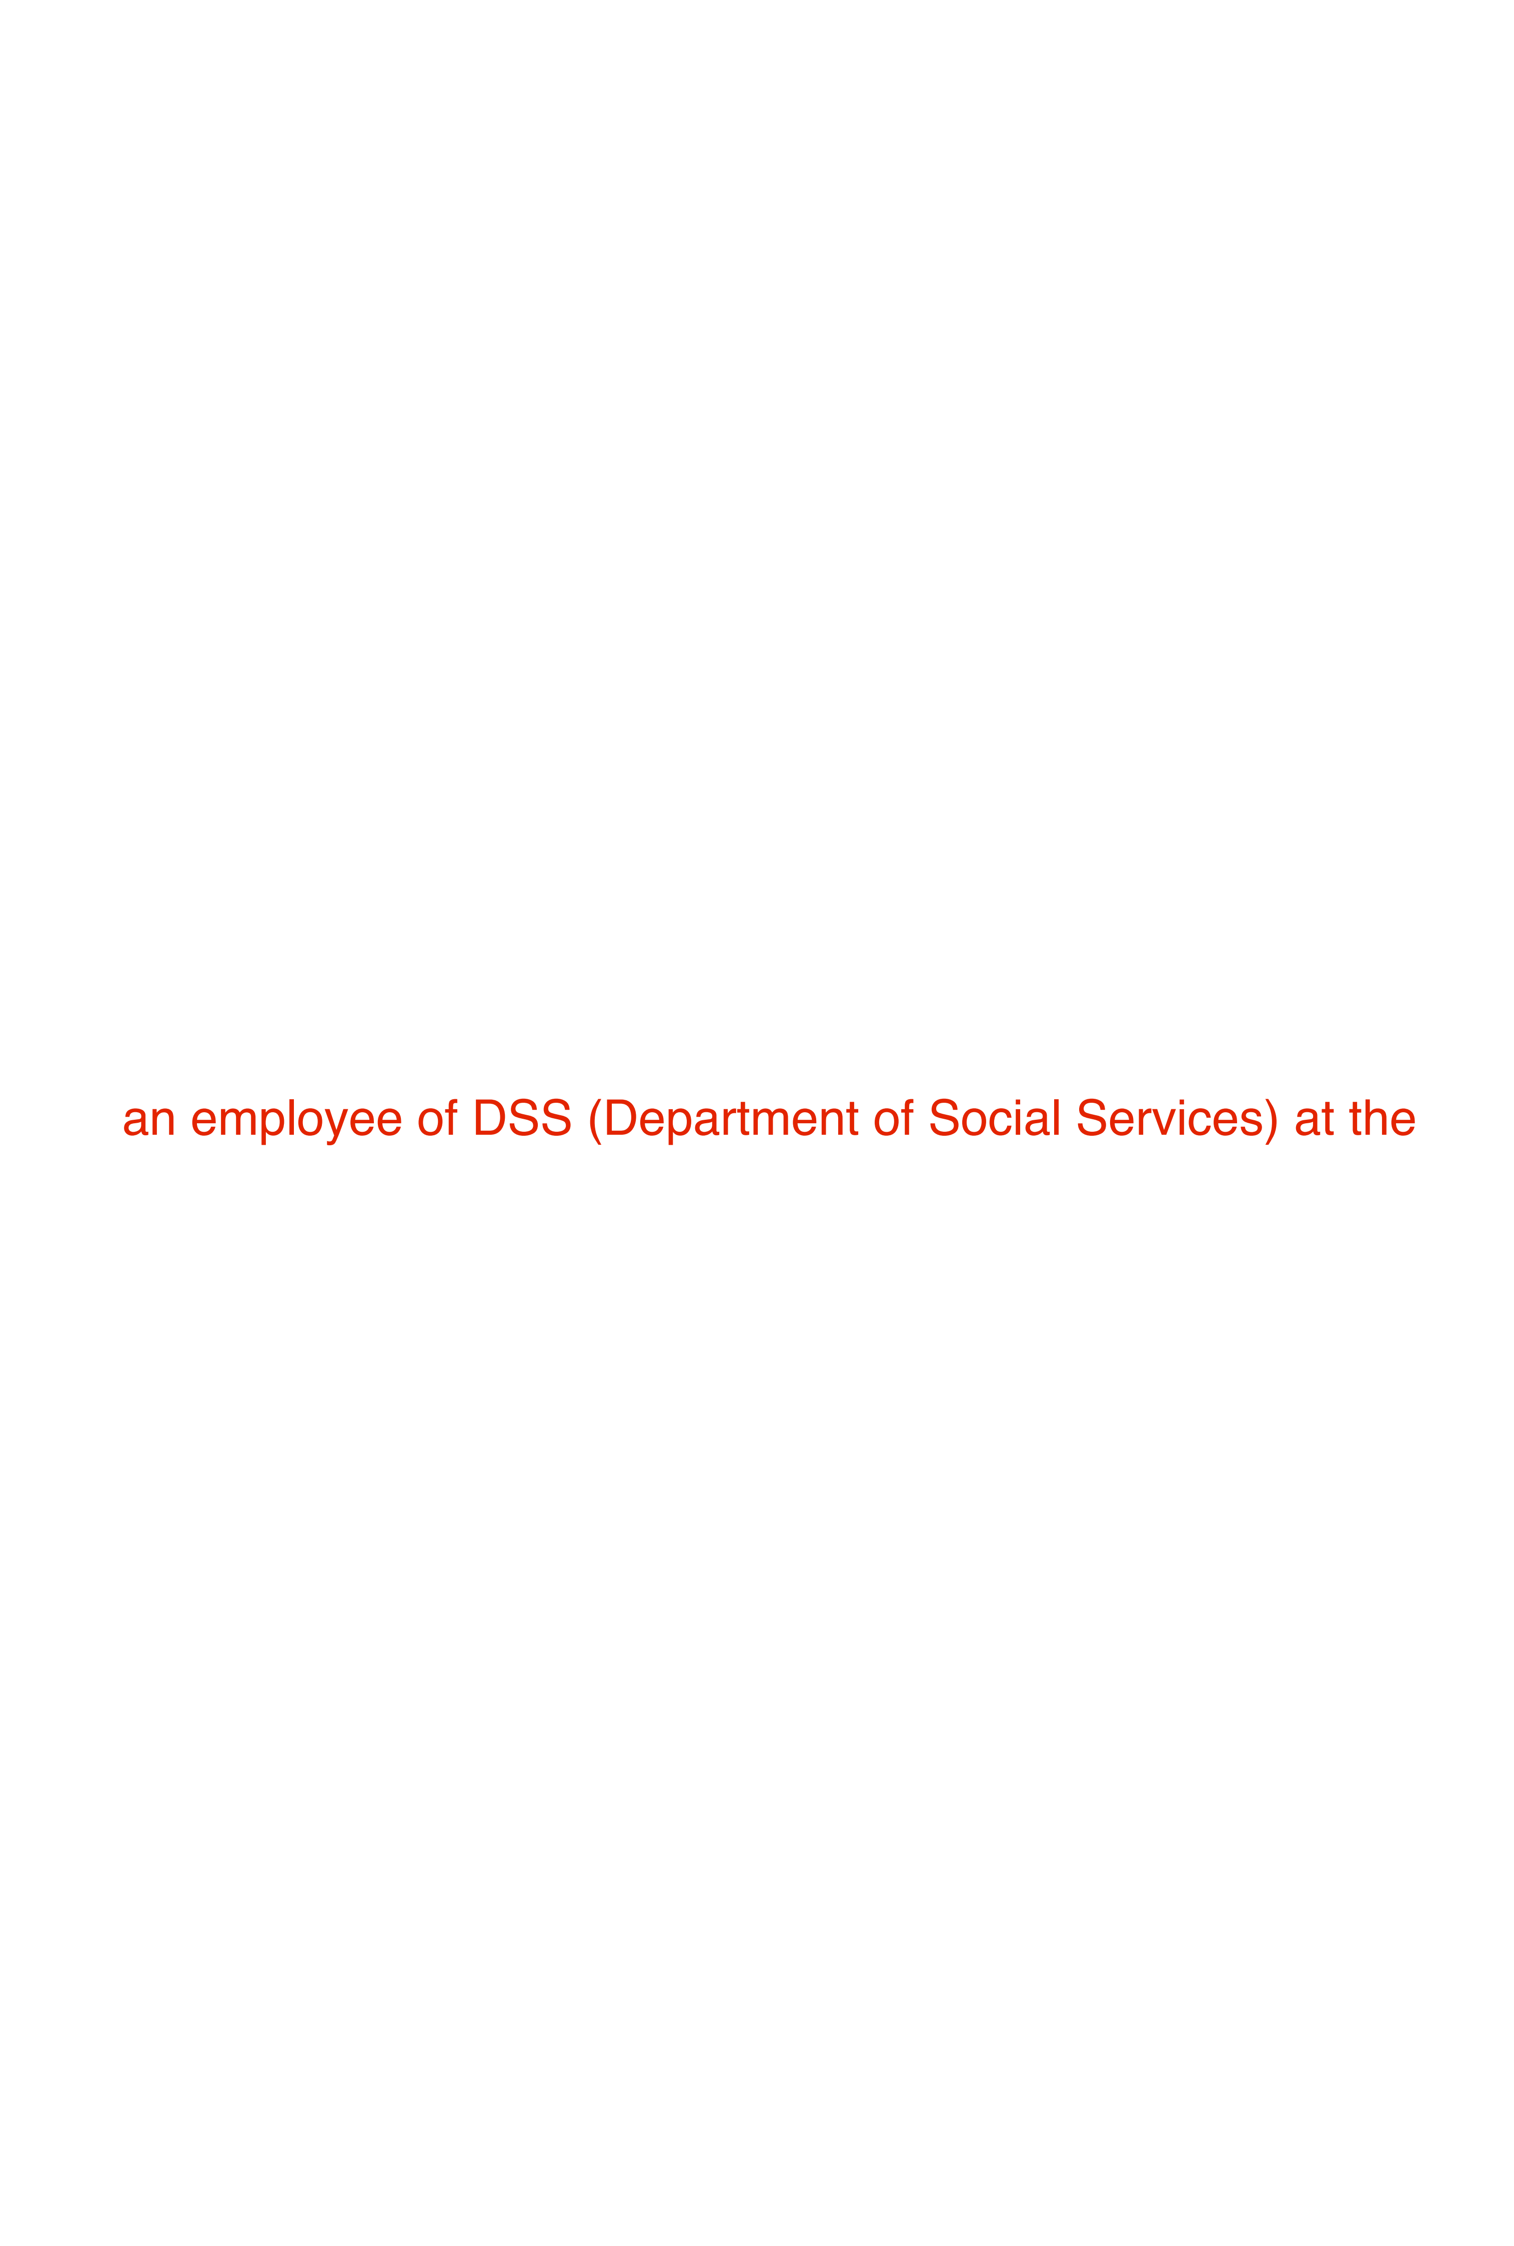

Wikipedia. It seems I have annoyed some powerful people,

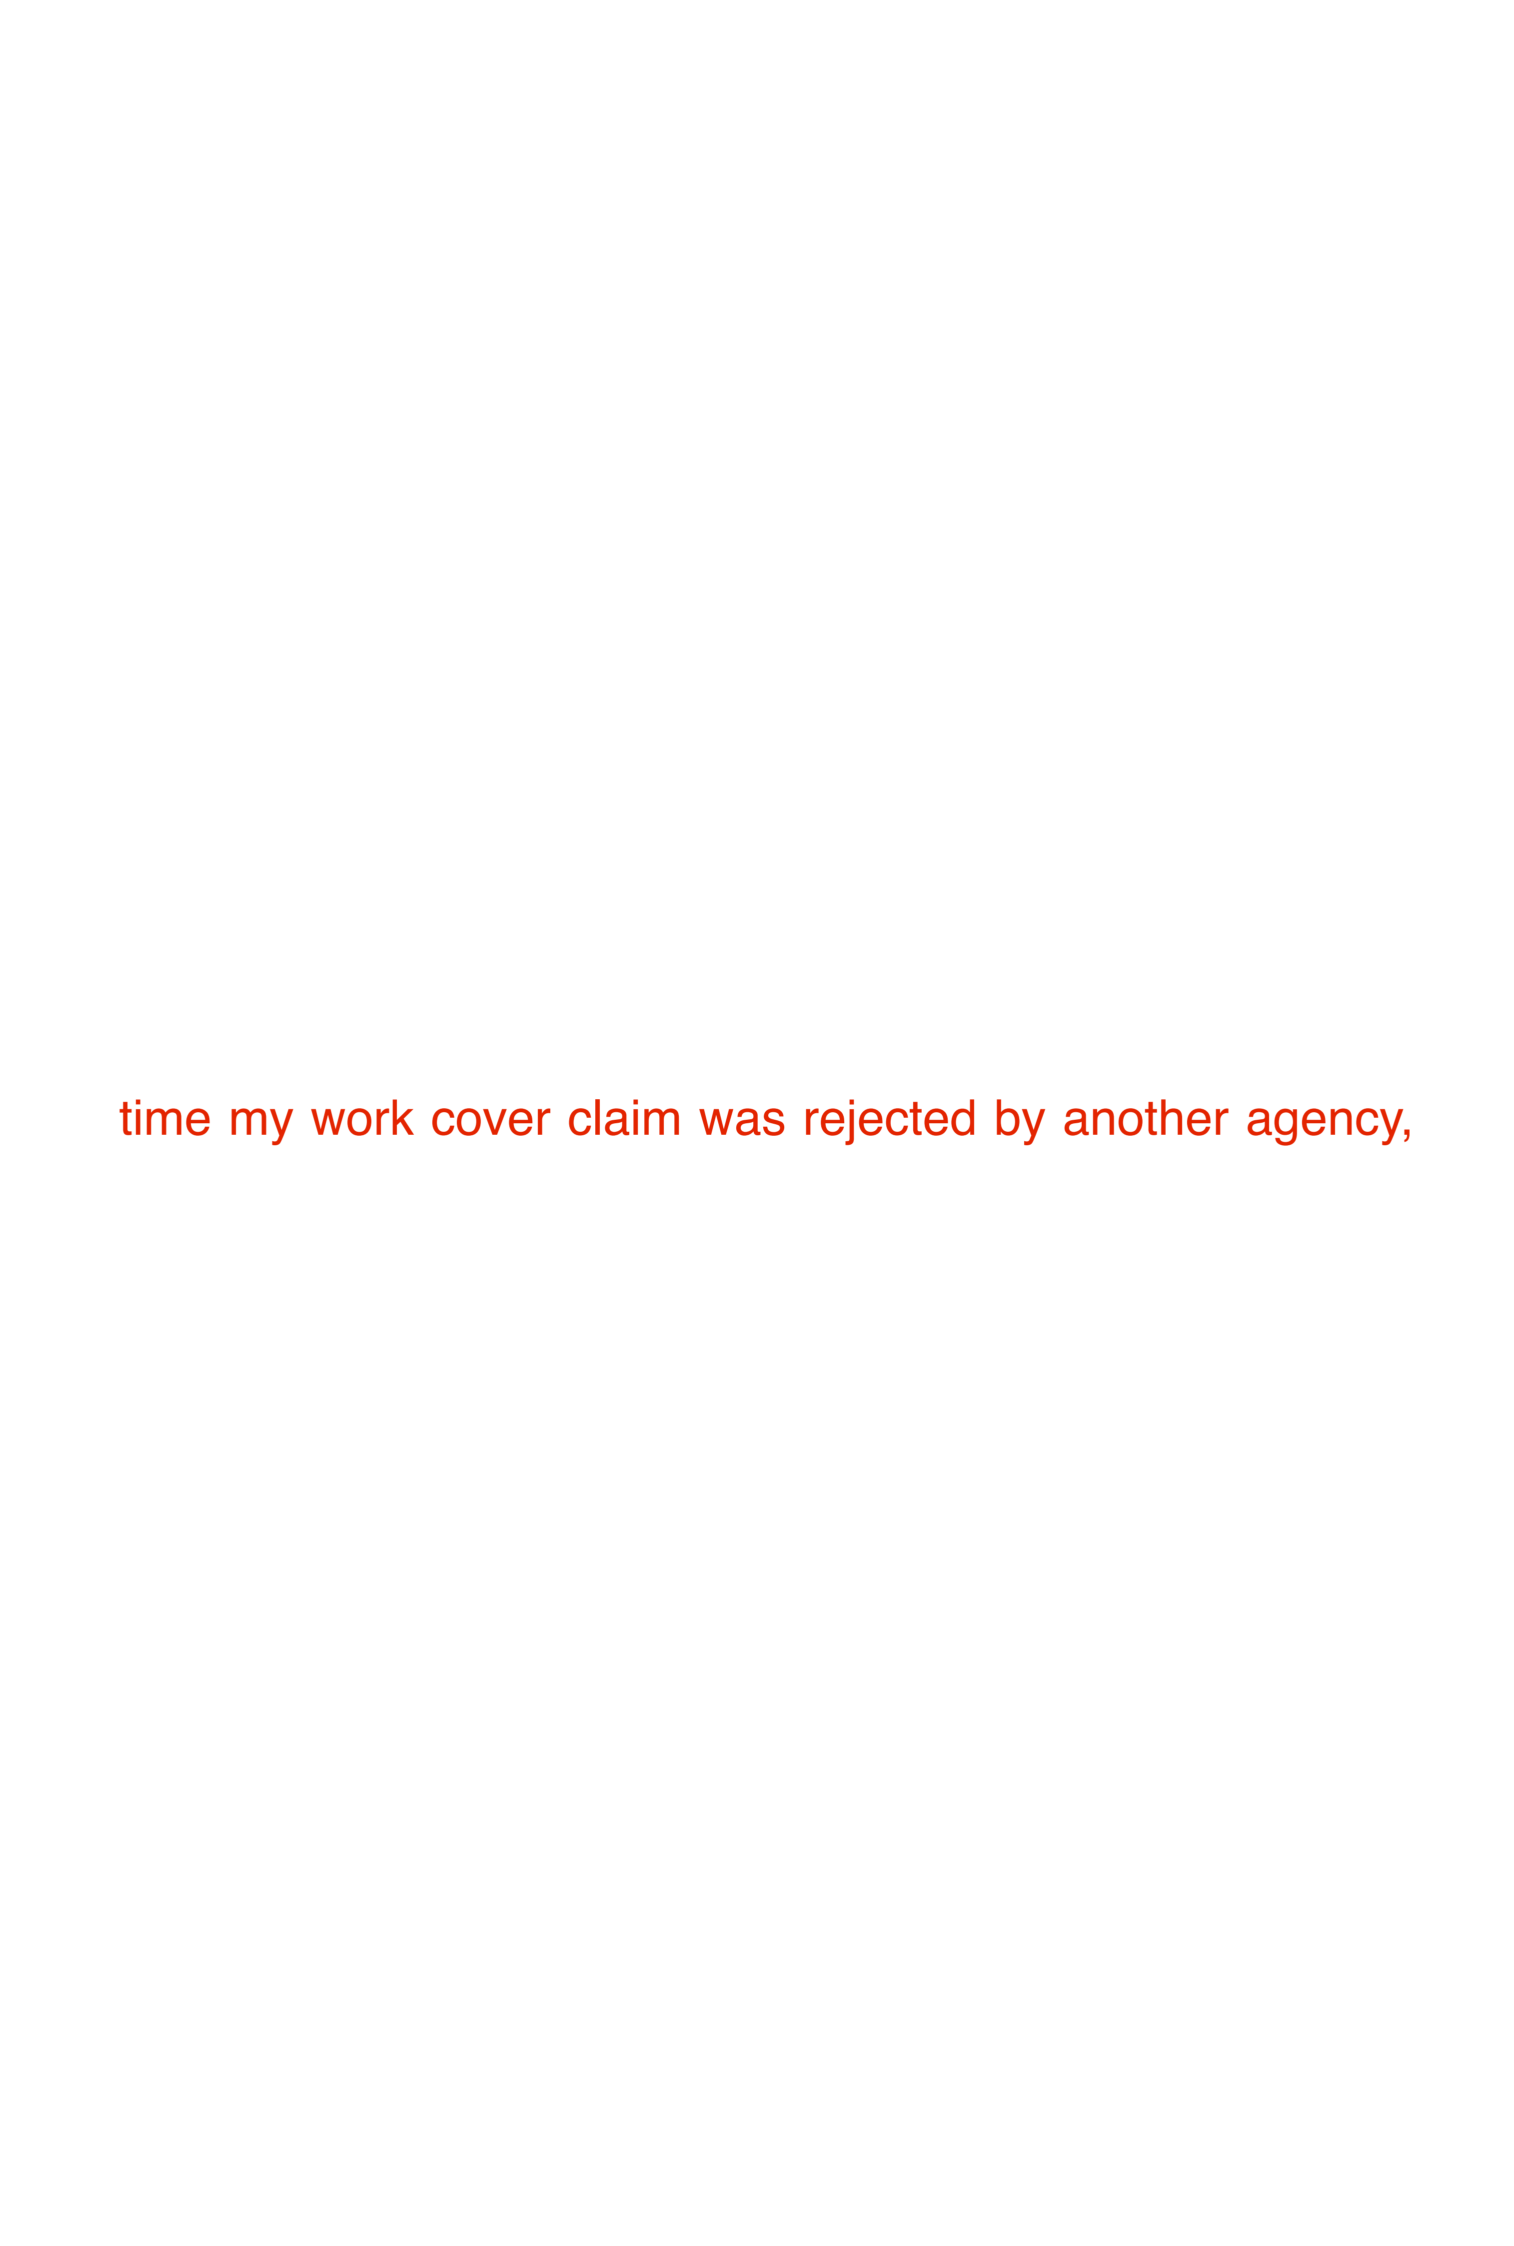

and now I can demonstrate that the NDIS has fallen into

line to suit that mandate of destroying me at any cost

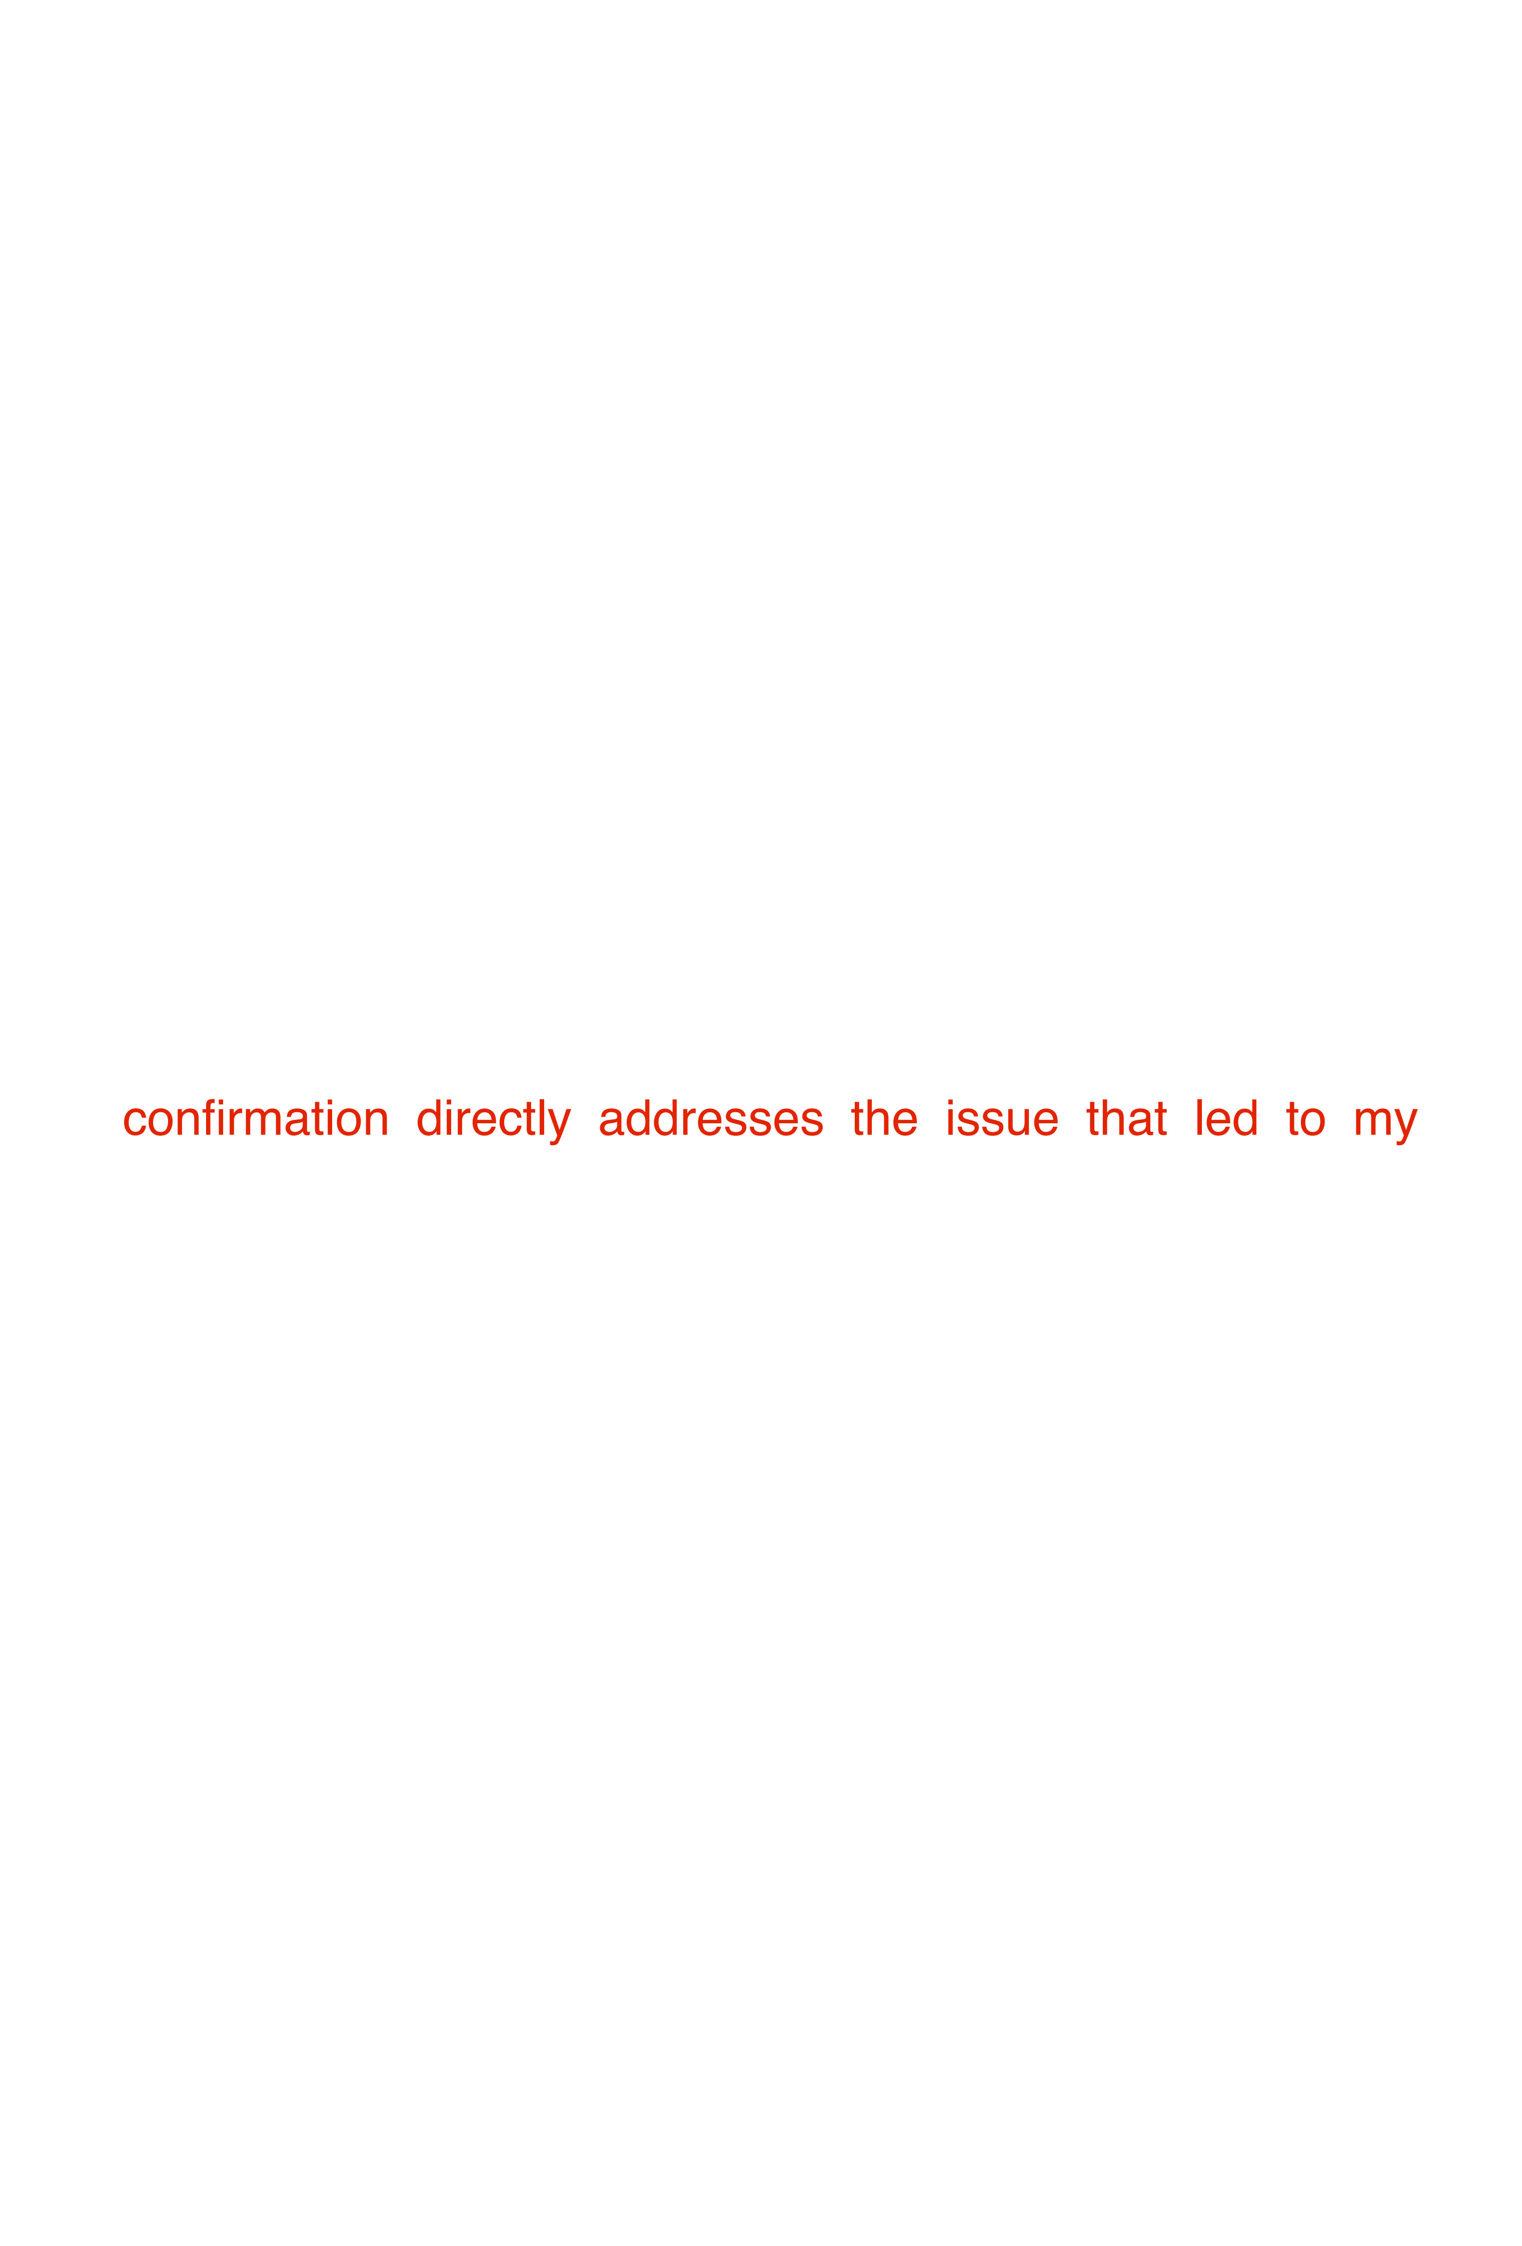

necessary.

A Federal Court document has confirmed that I was indeed

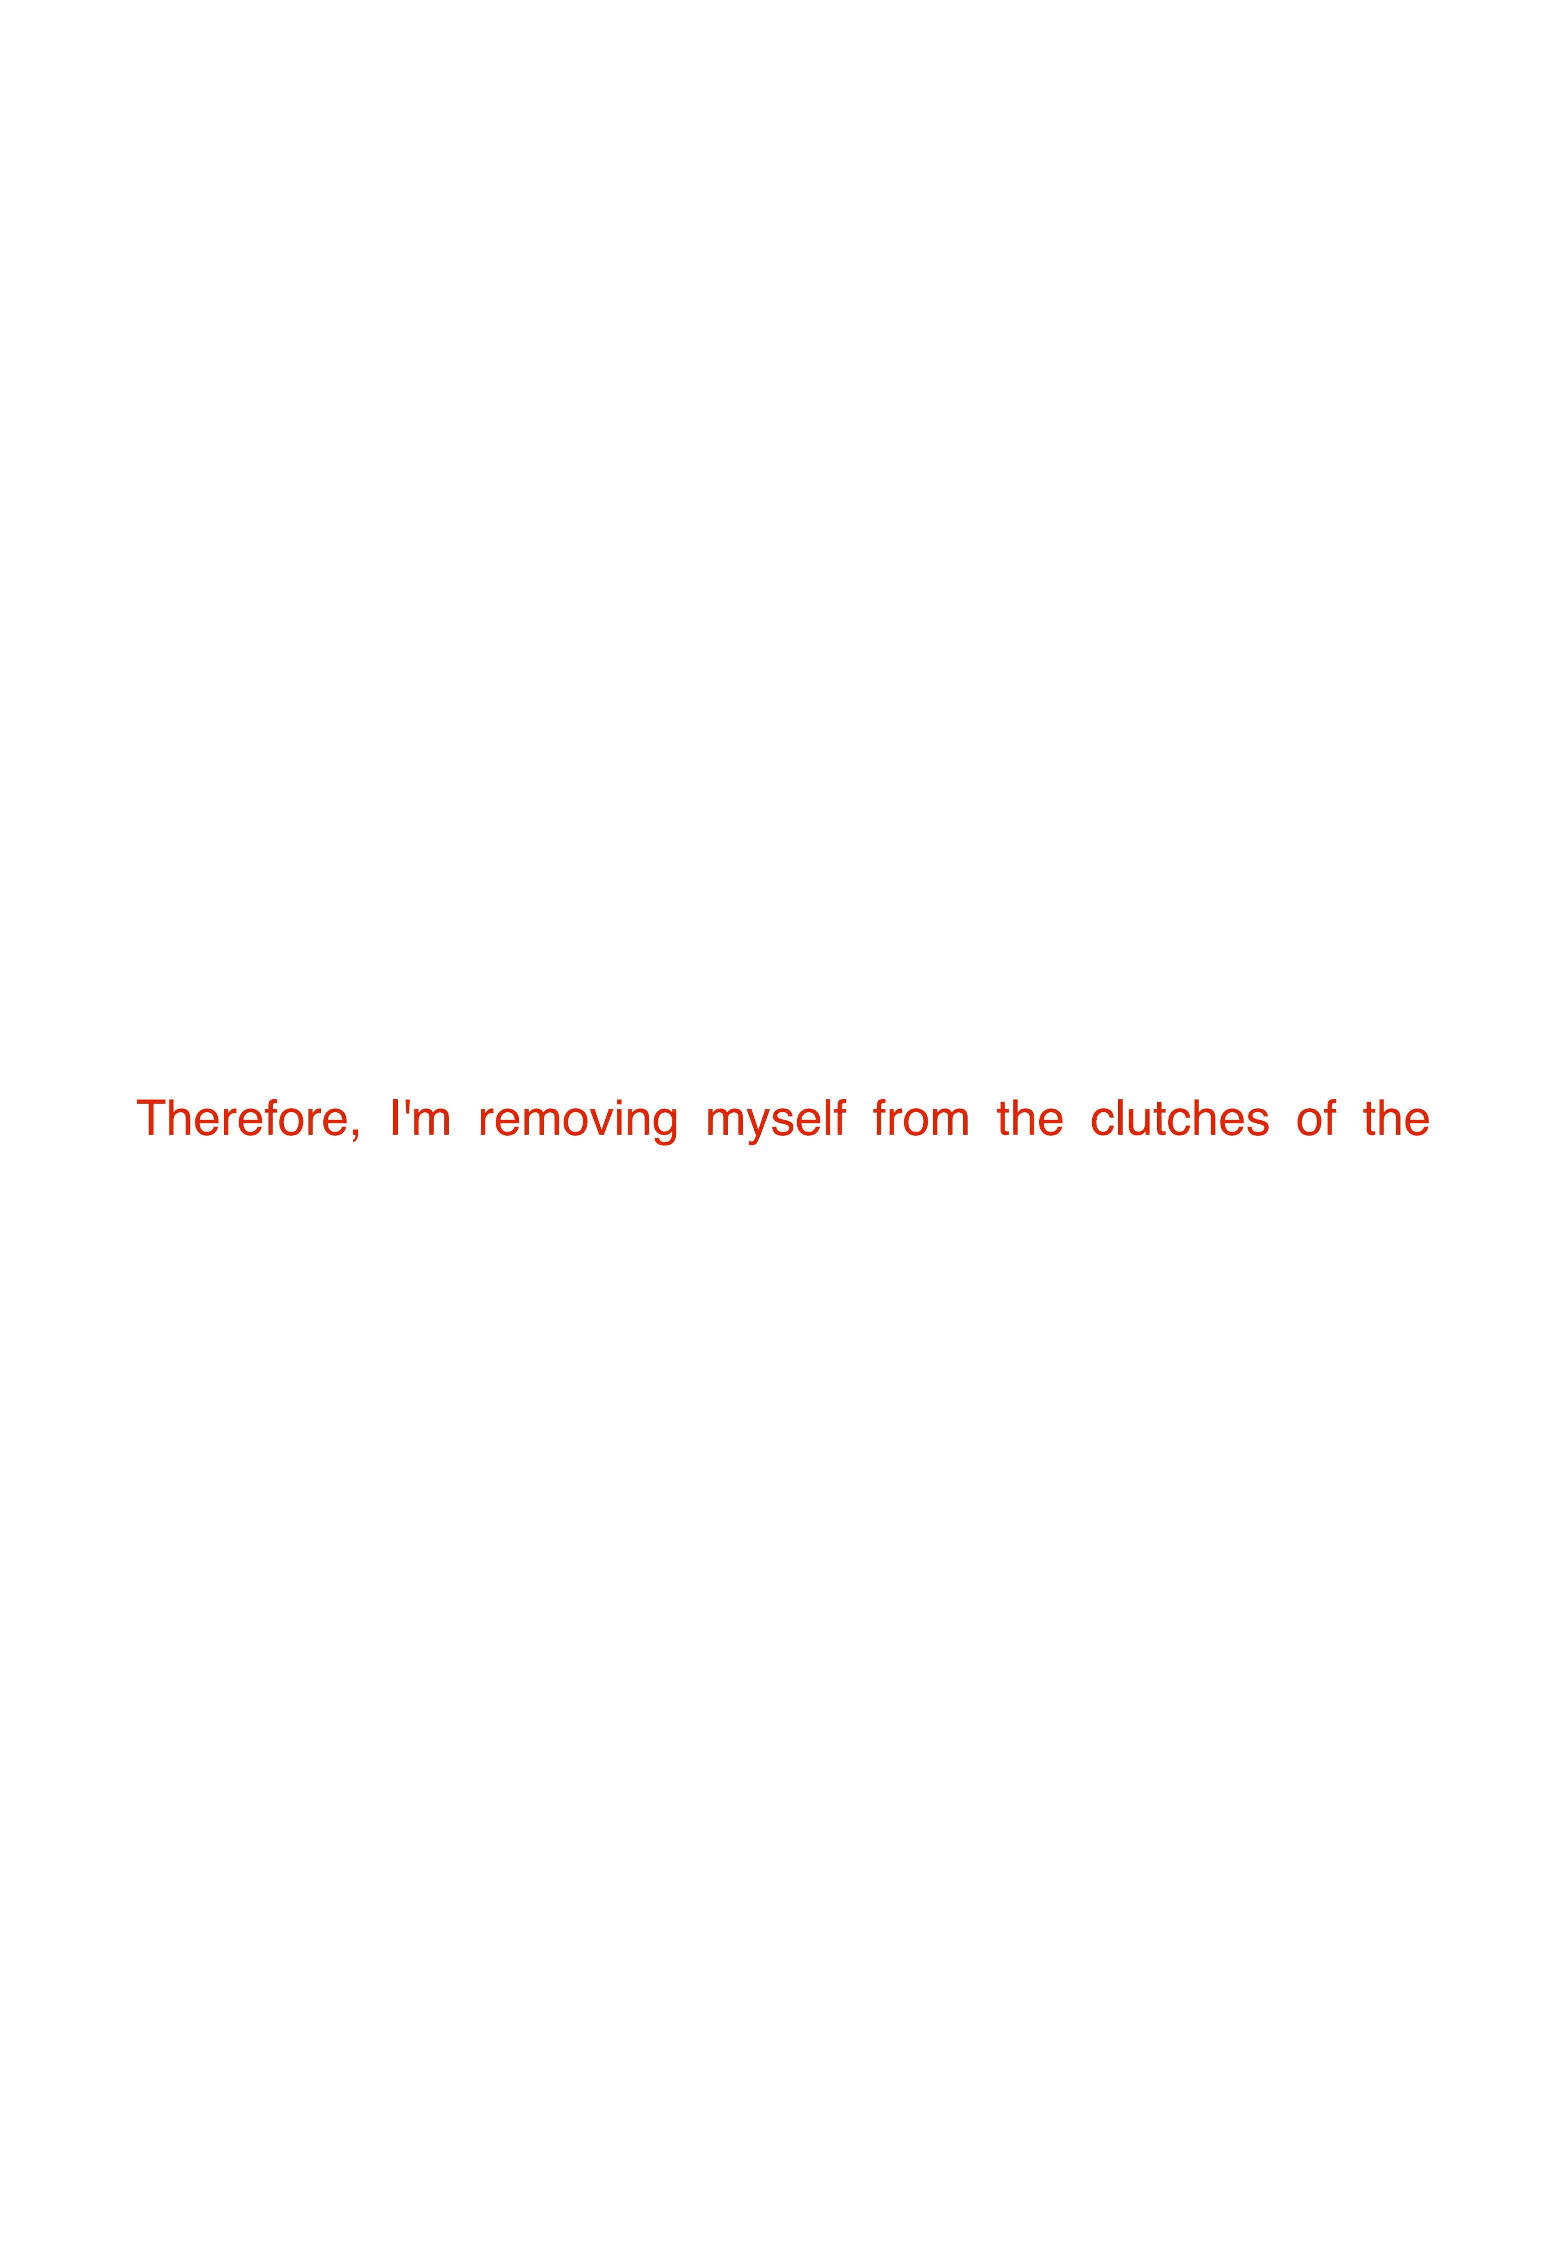

an employee of DSS (Department of Social Services) at the

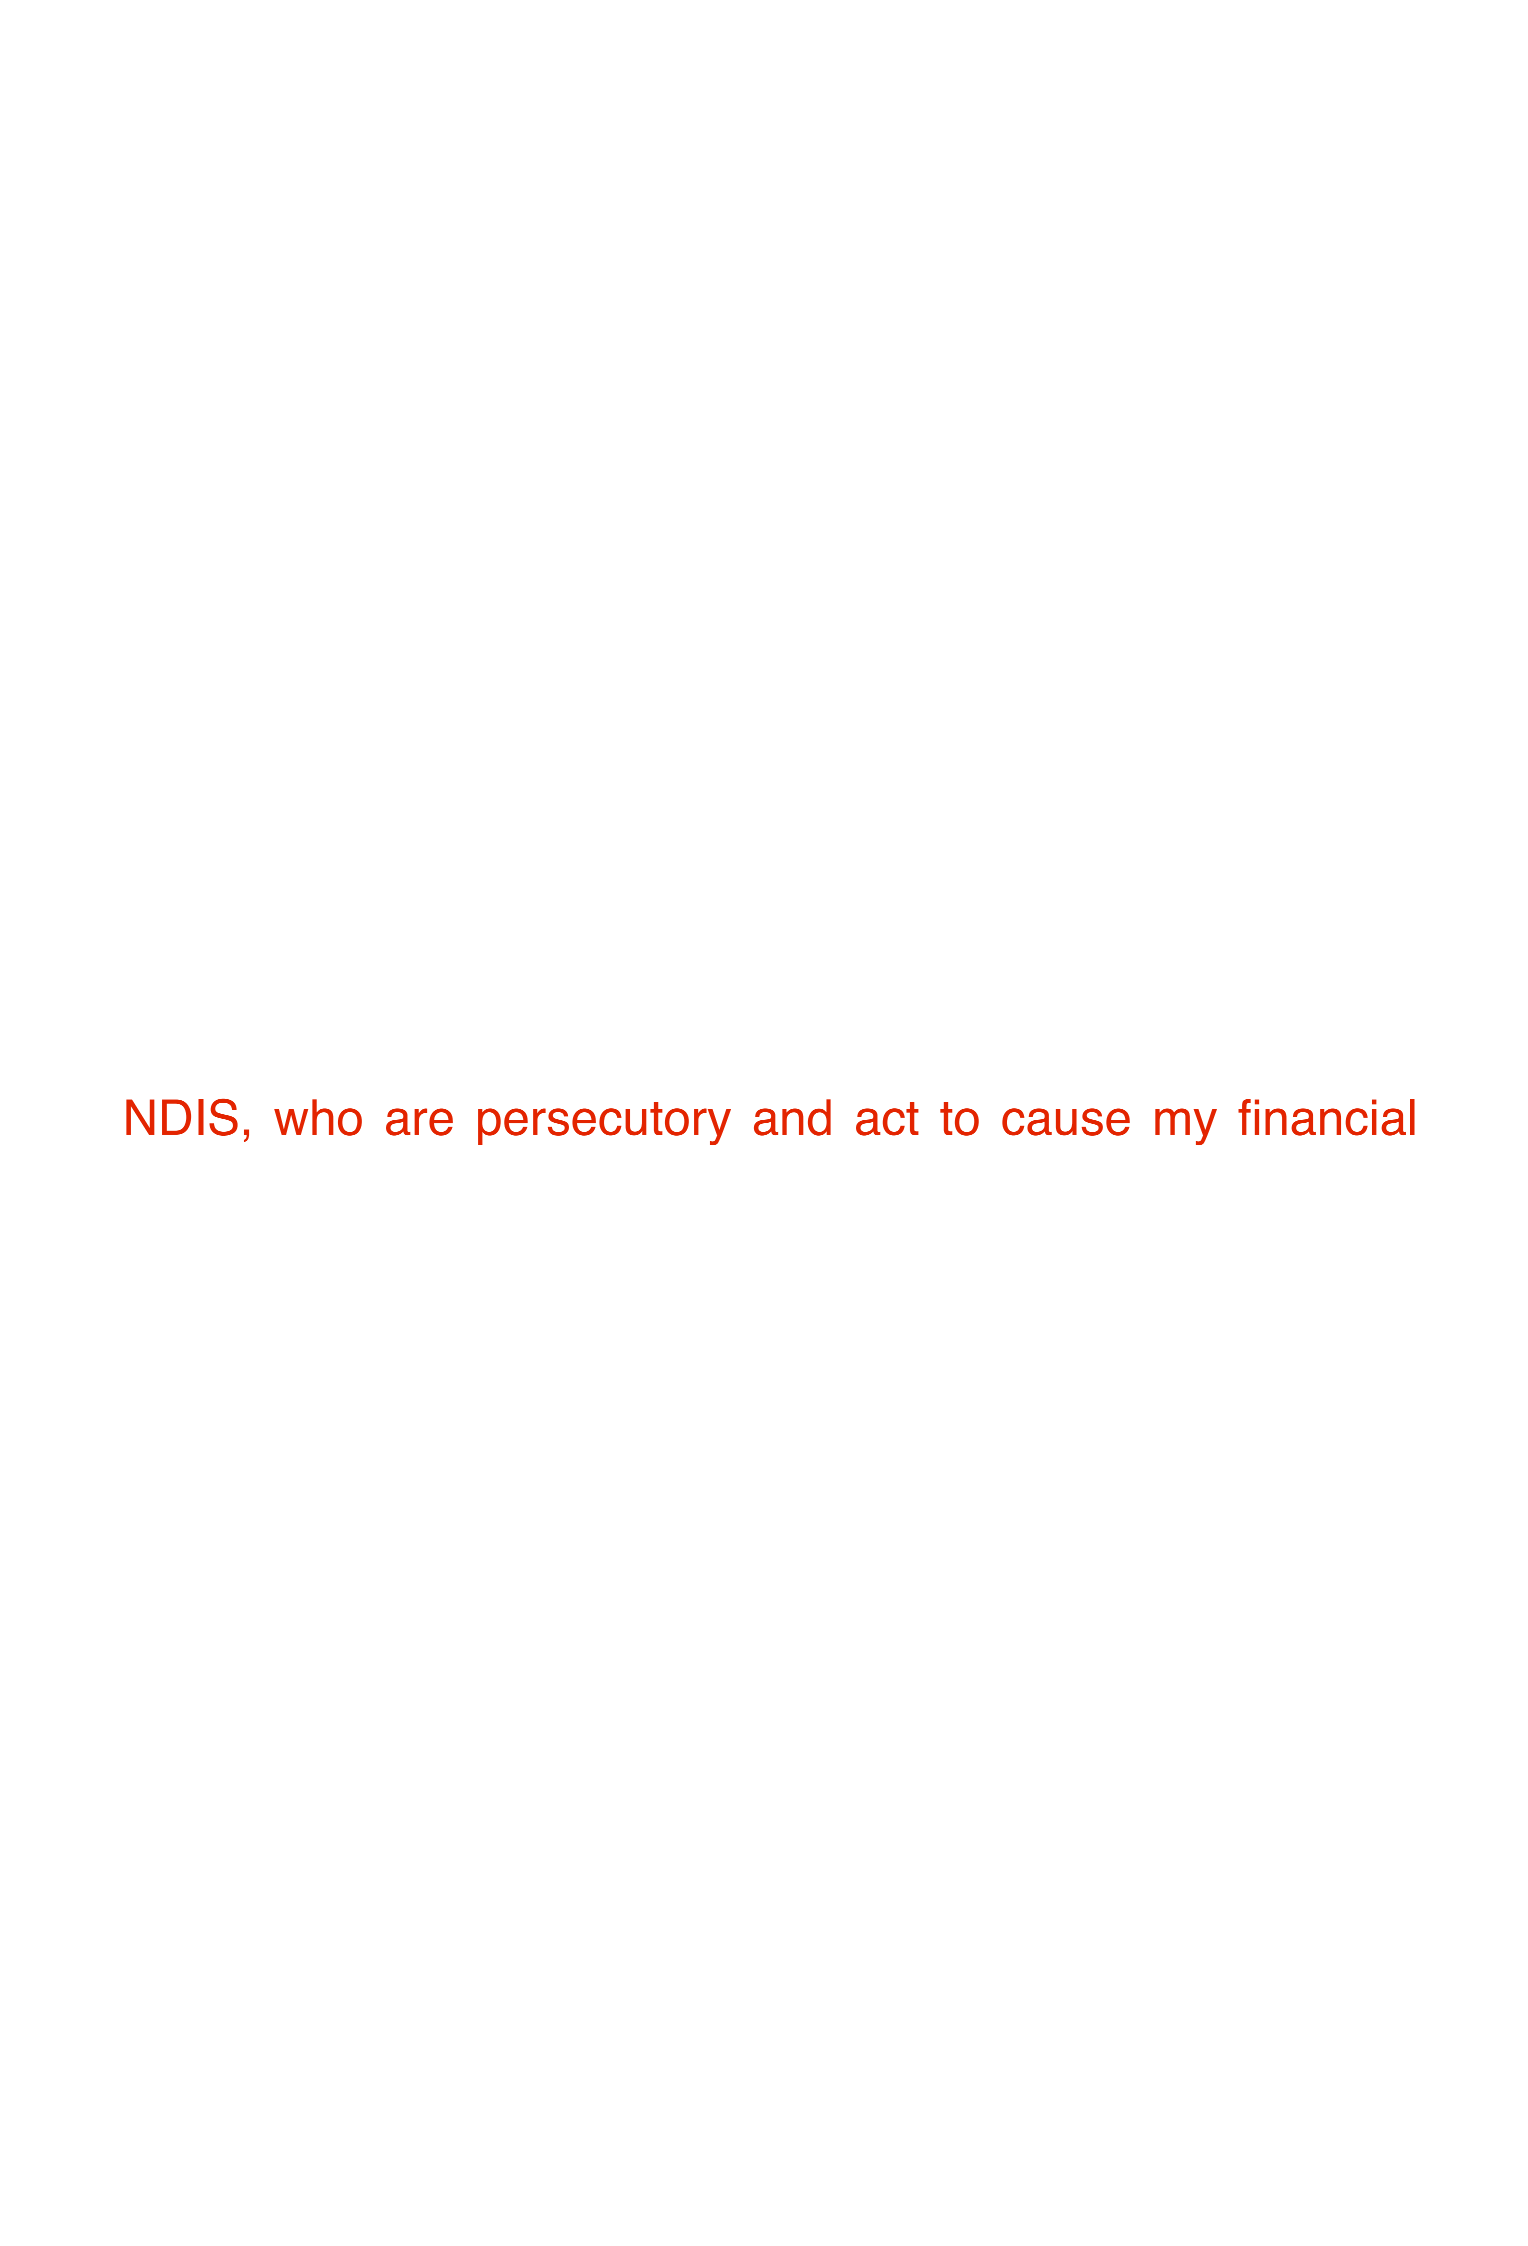

time my work cover claim was rejected by another agency,

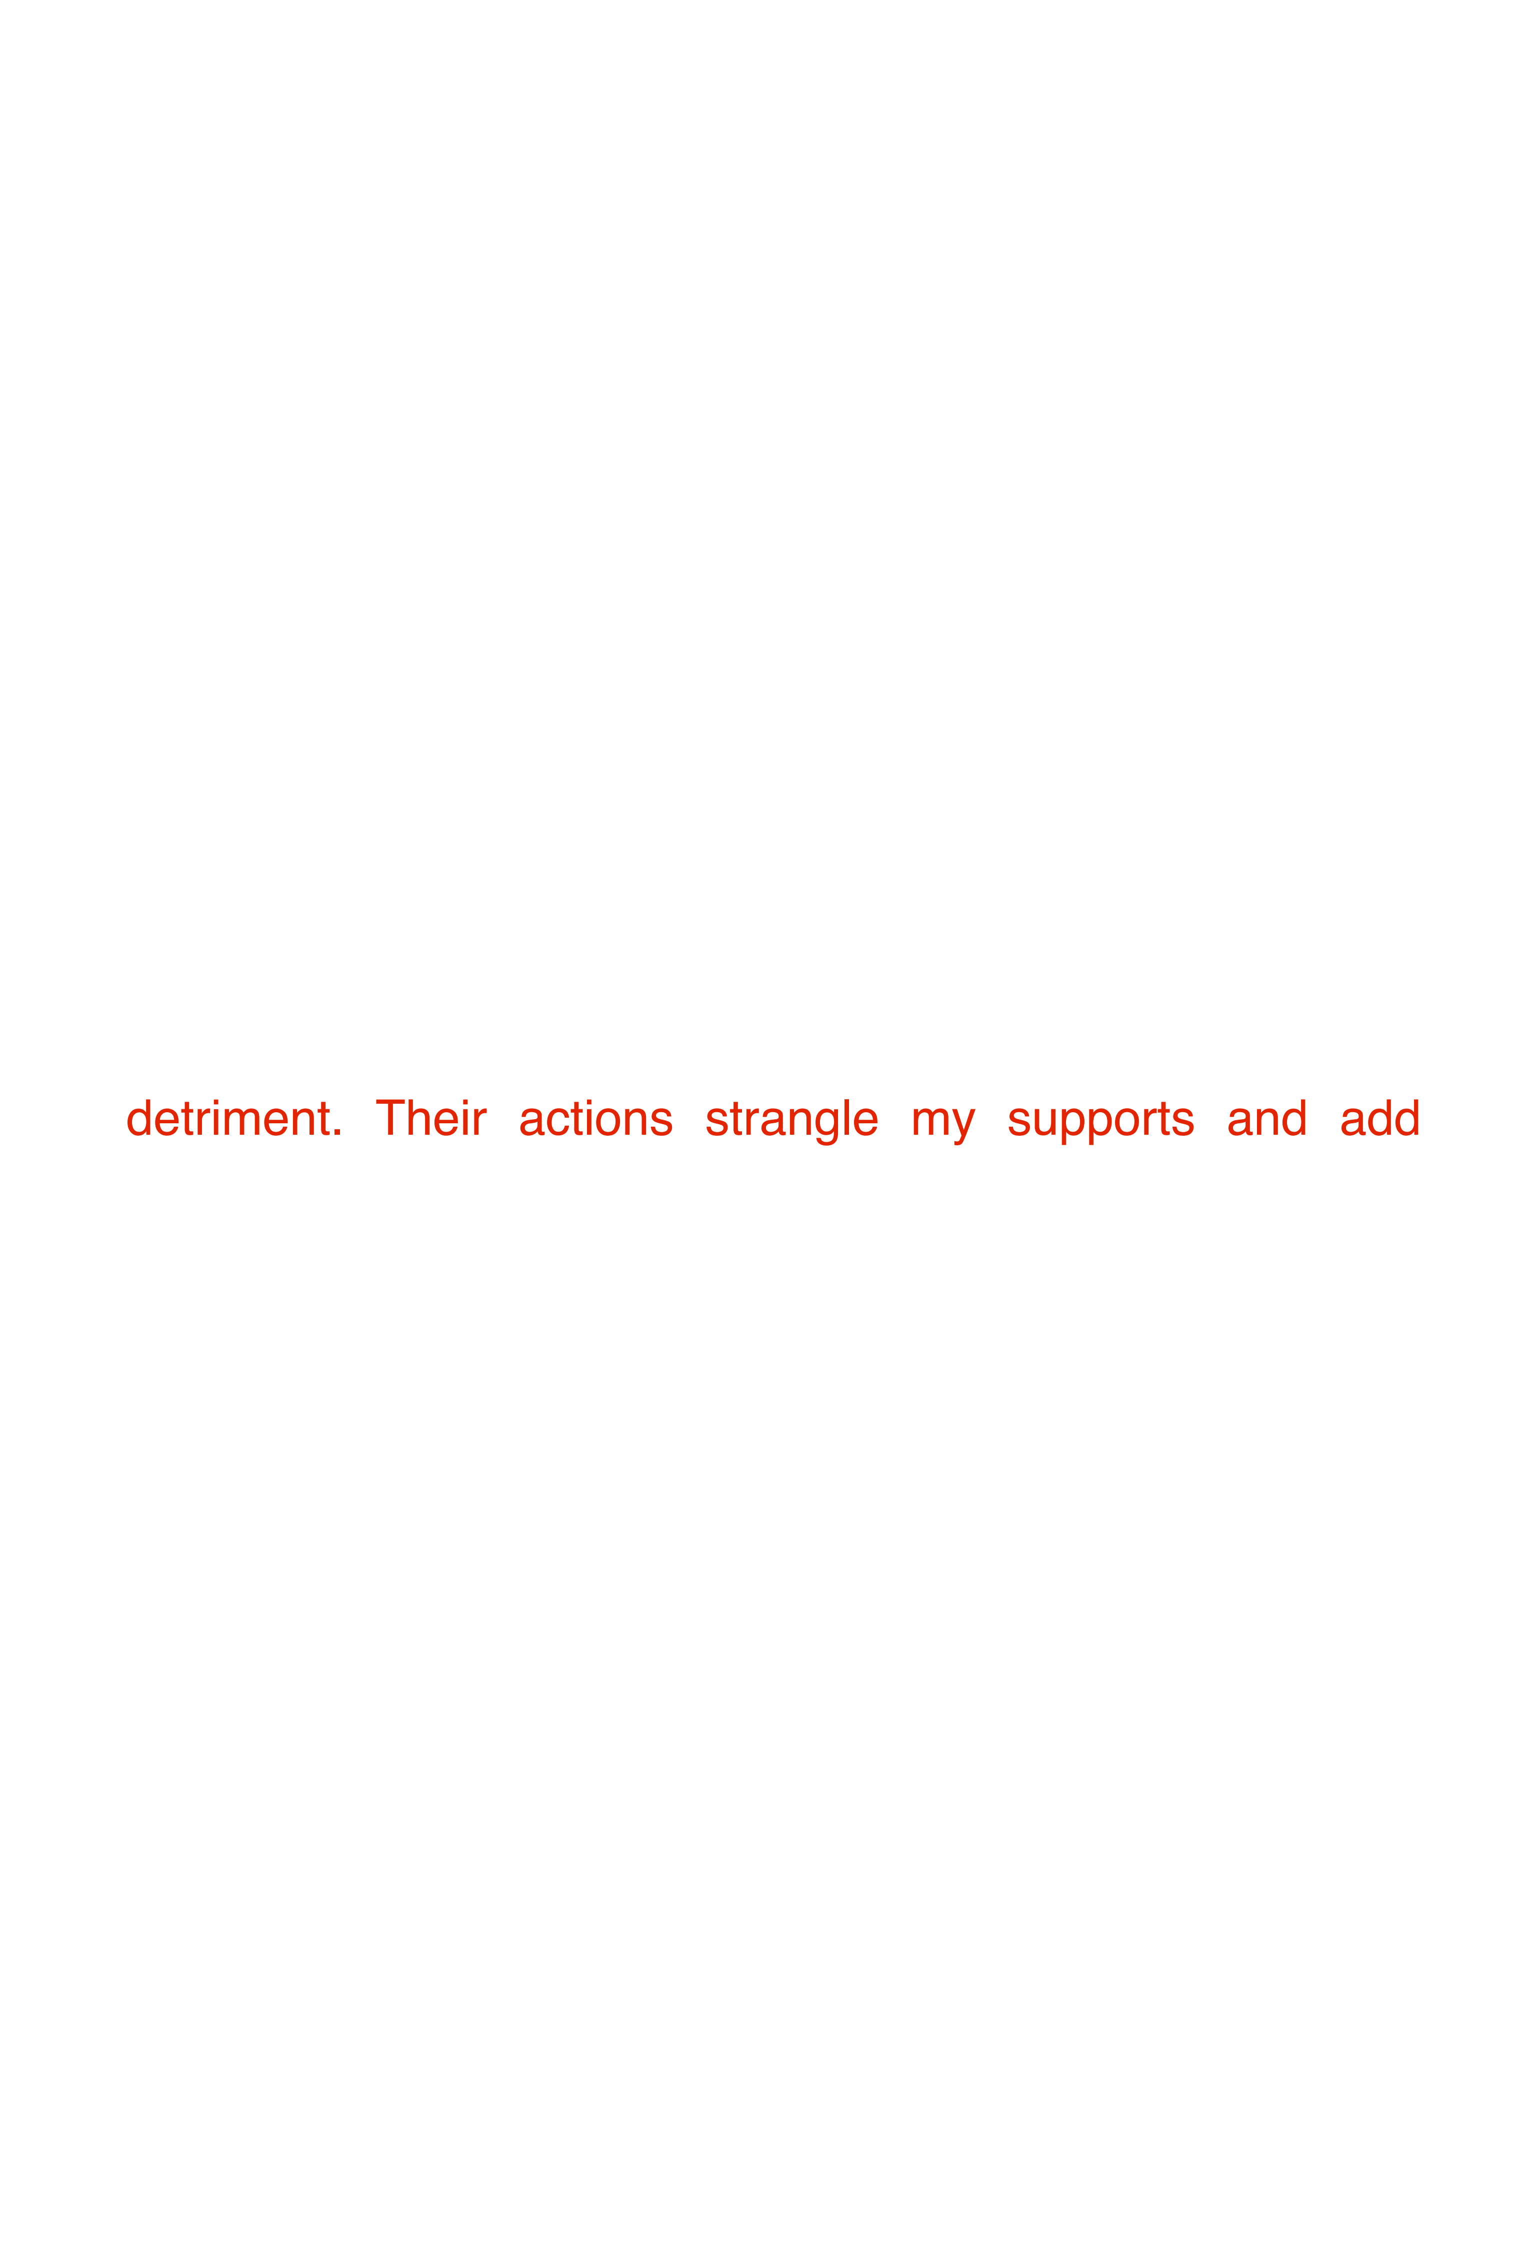

based on the assertion that I was not an employee. This

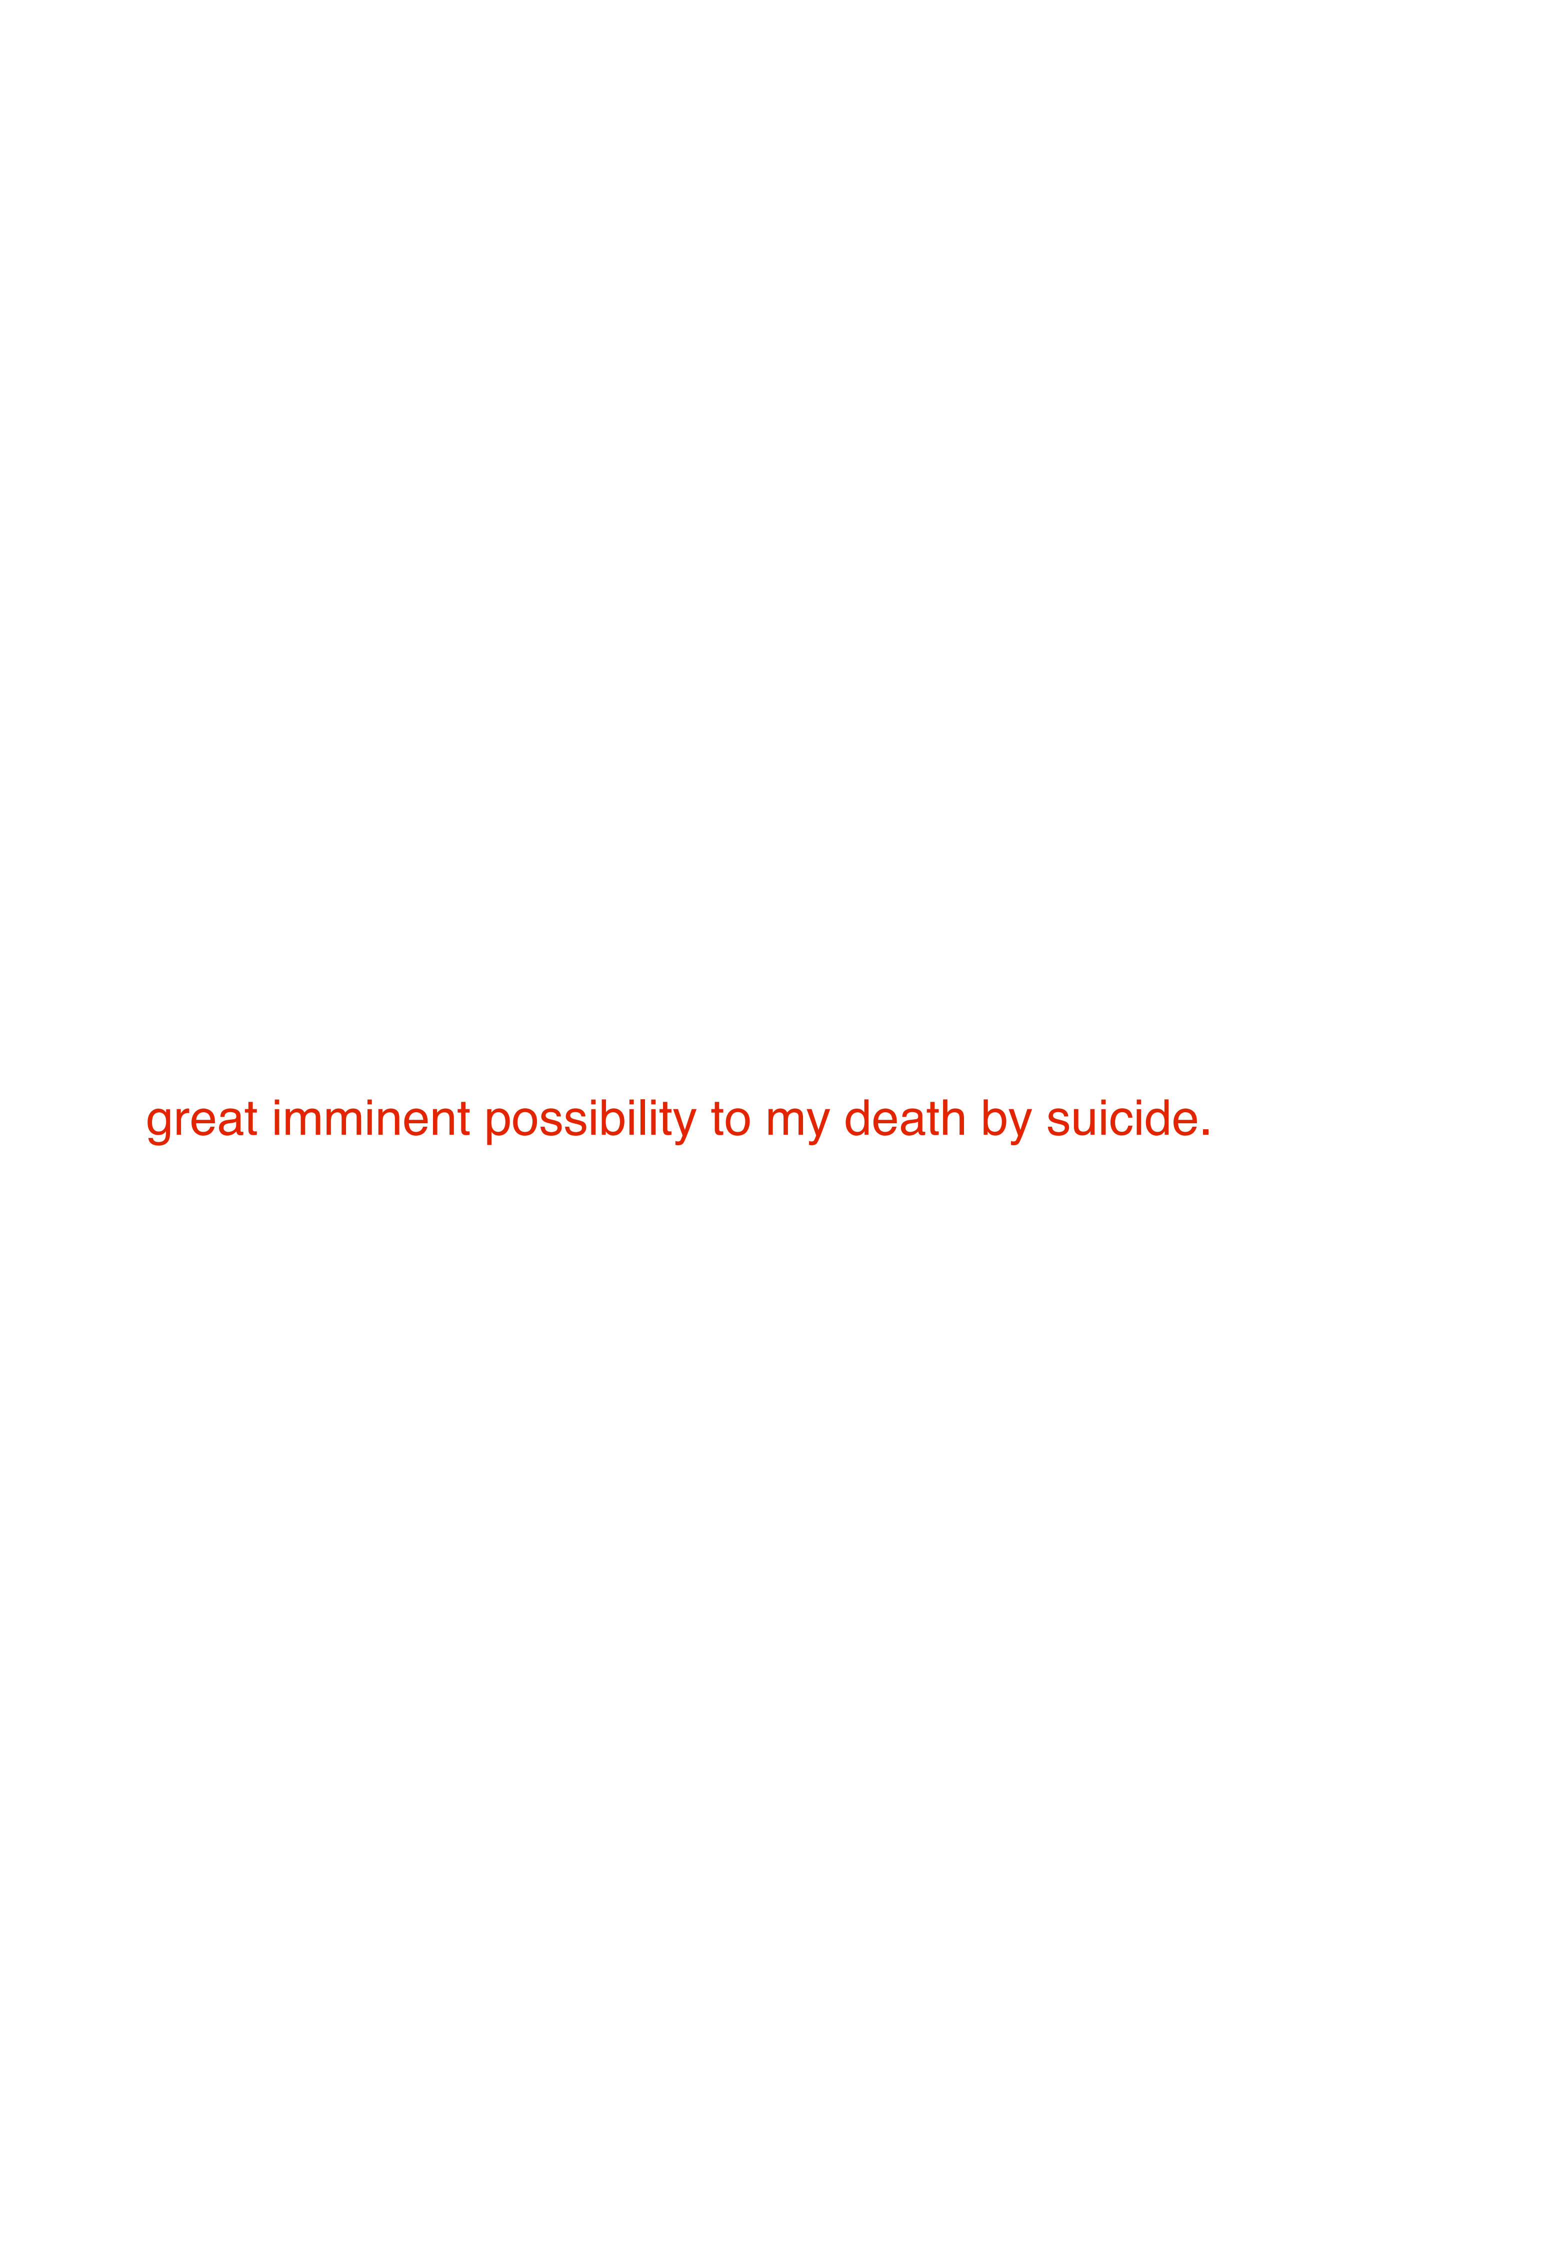

confirmation directly addresses the issue that led to my

reliance on NDIS support.

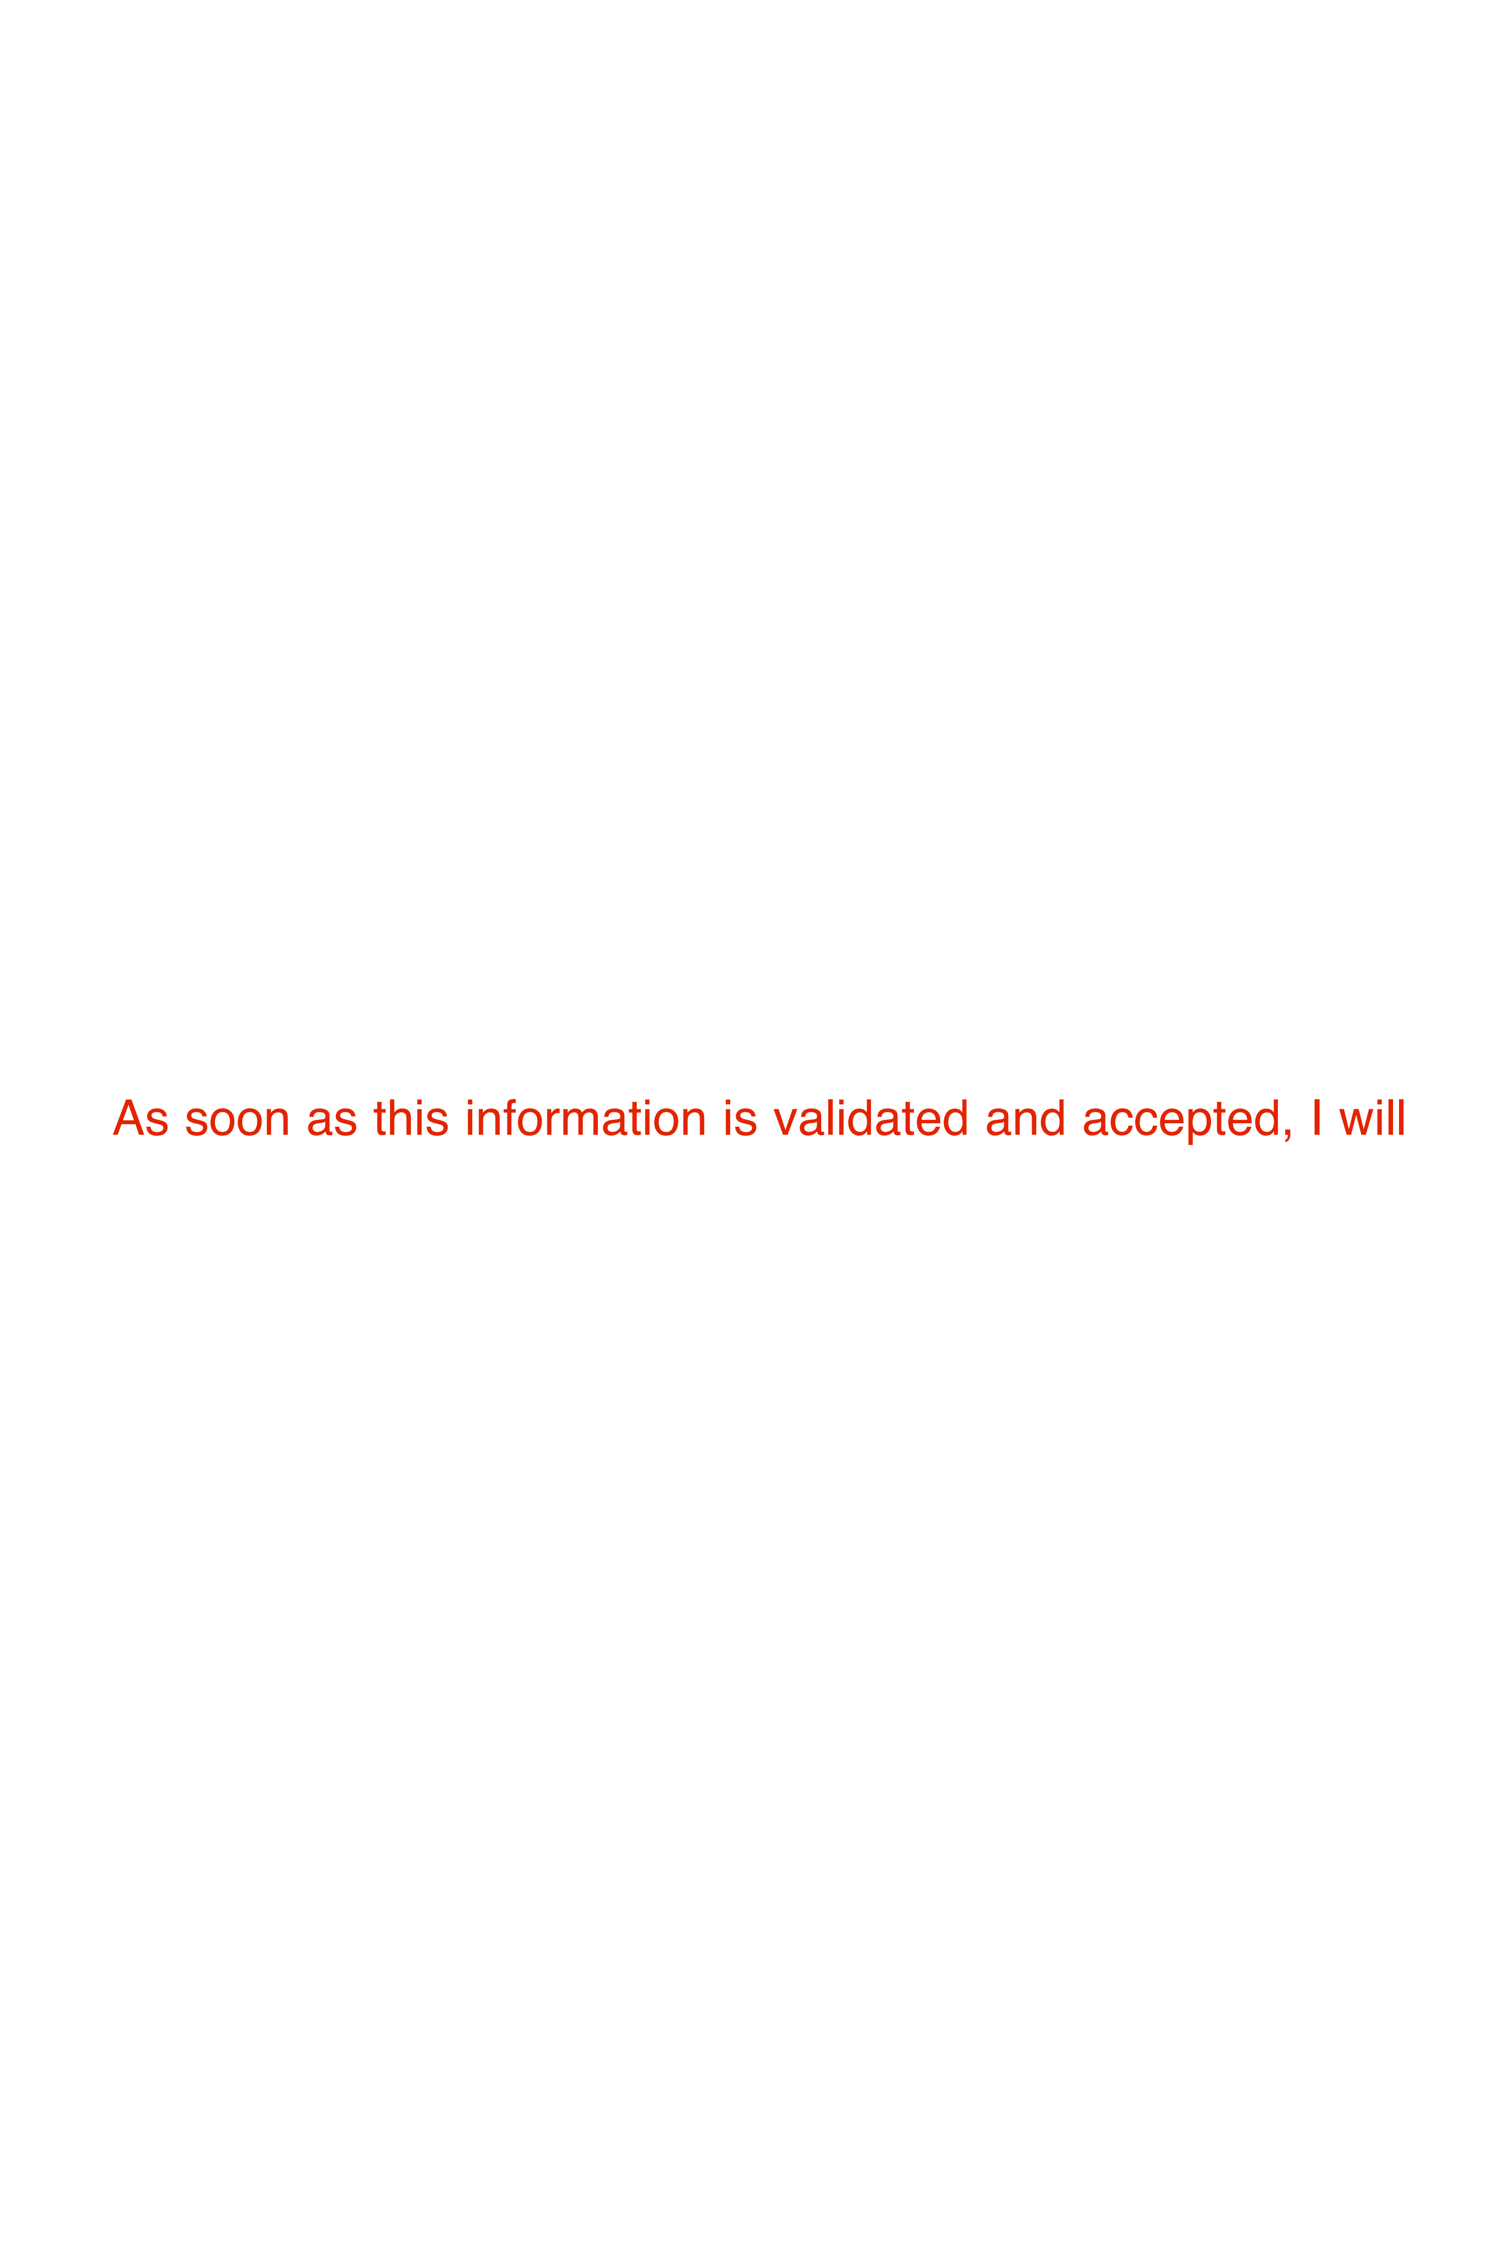

Therefore, I'm removing myself from the clutches of the

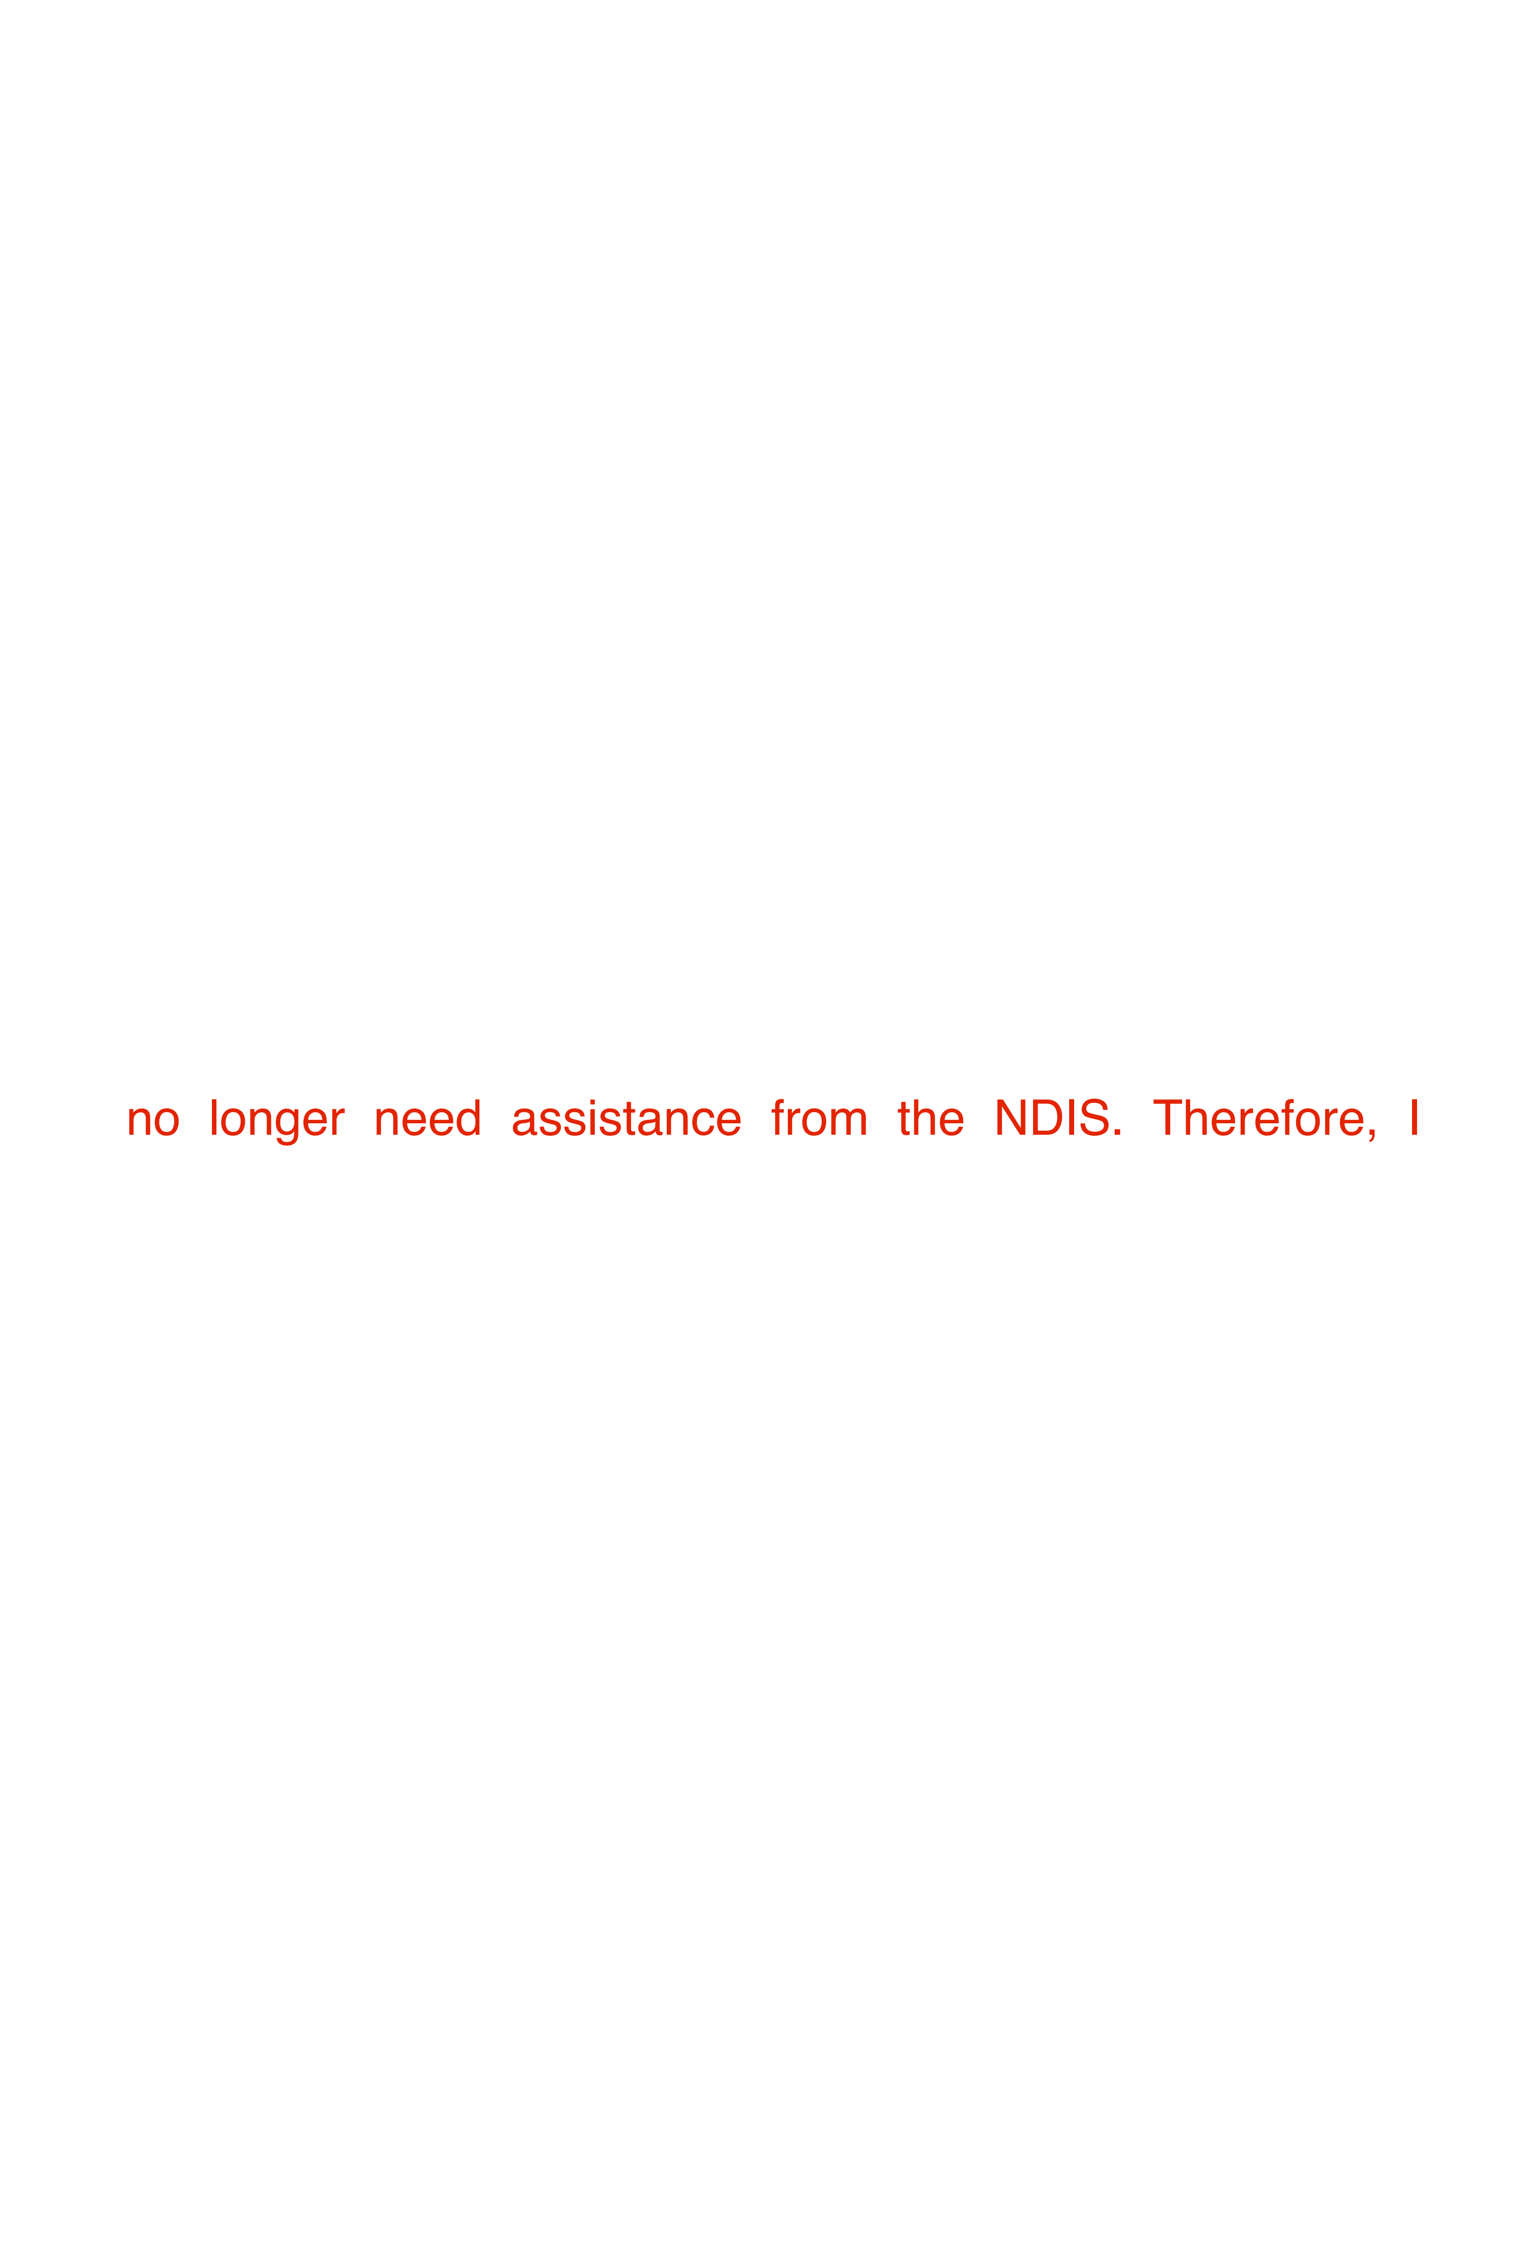

NDIS, who are persecutory and act to cause my financial

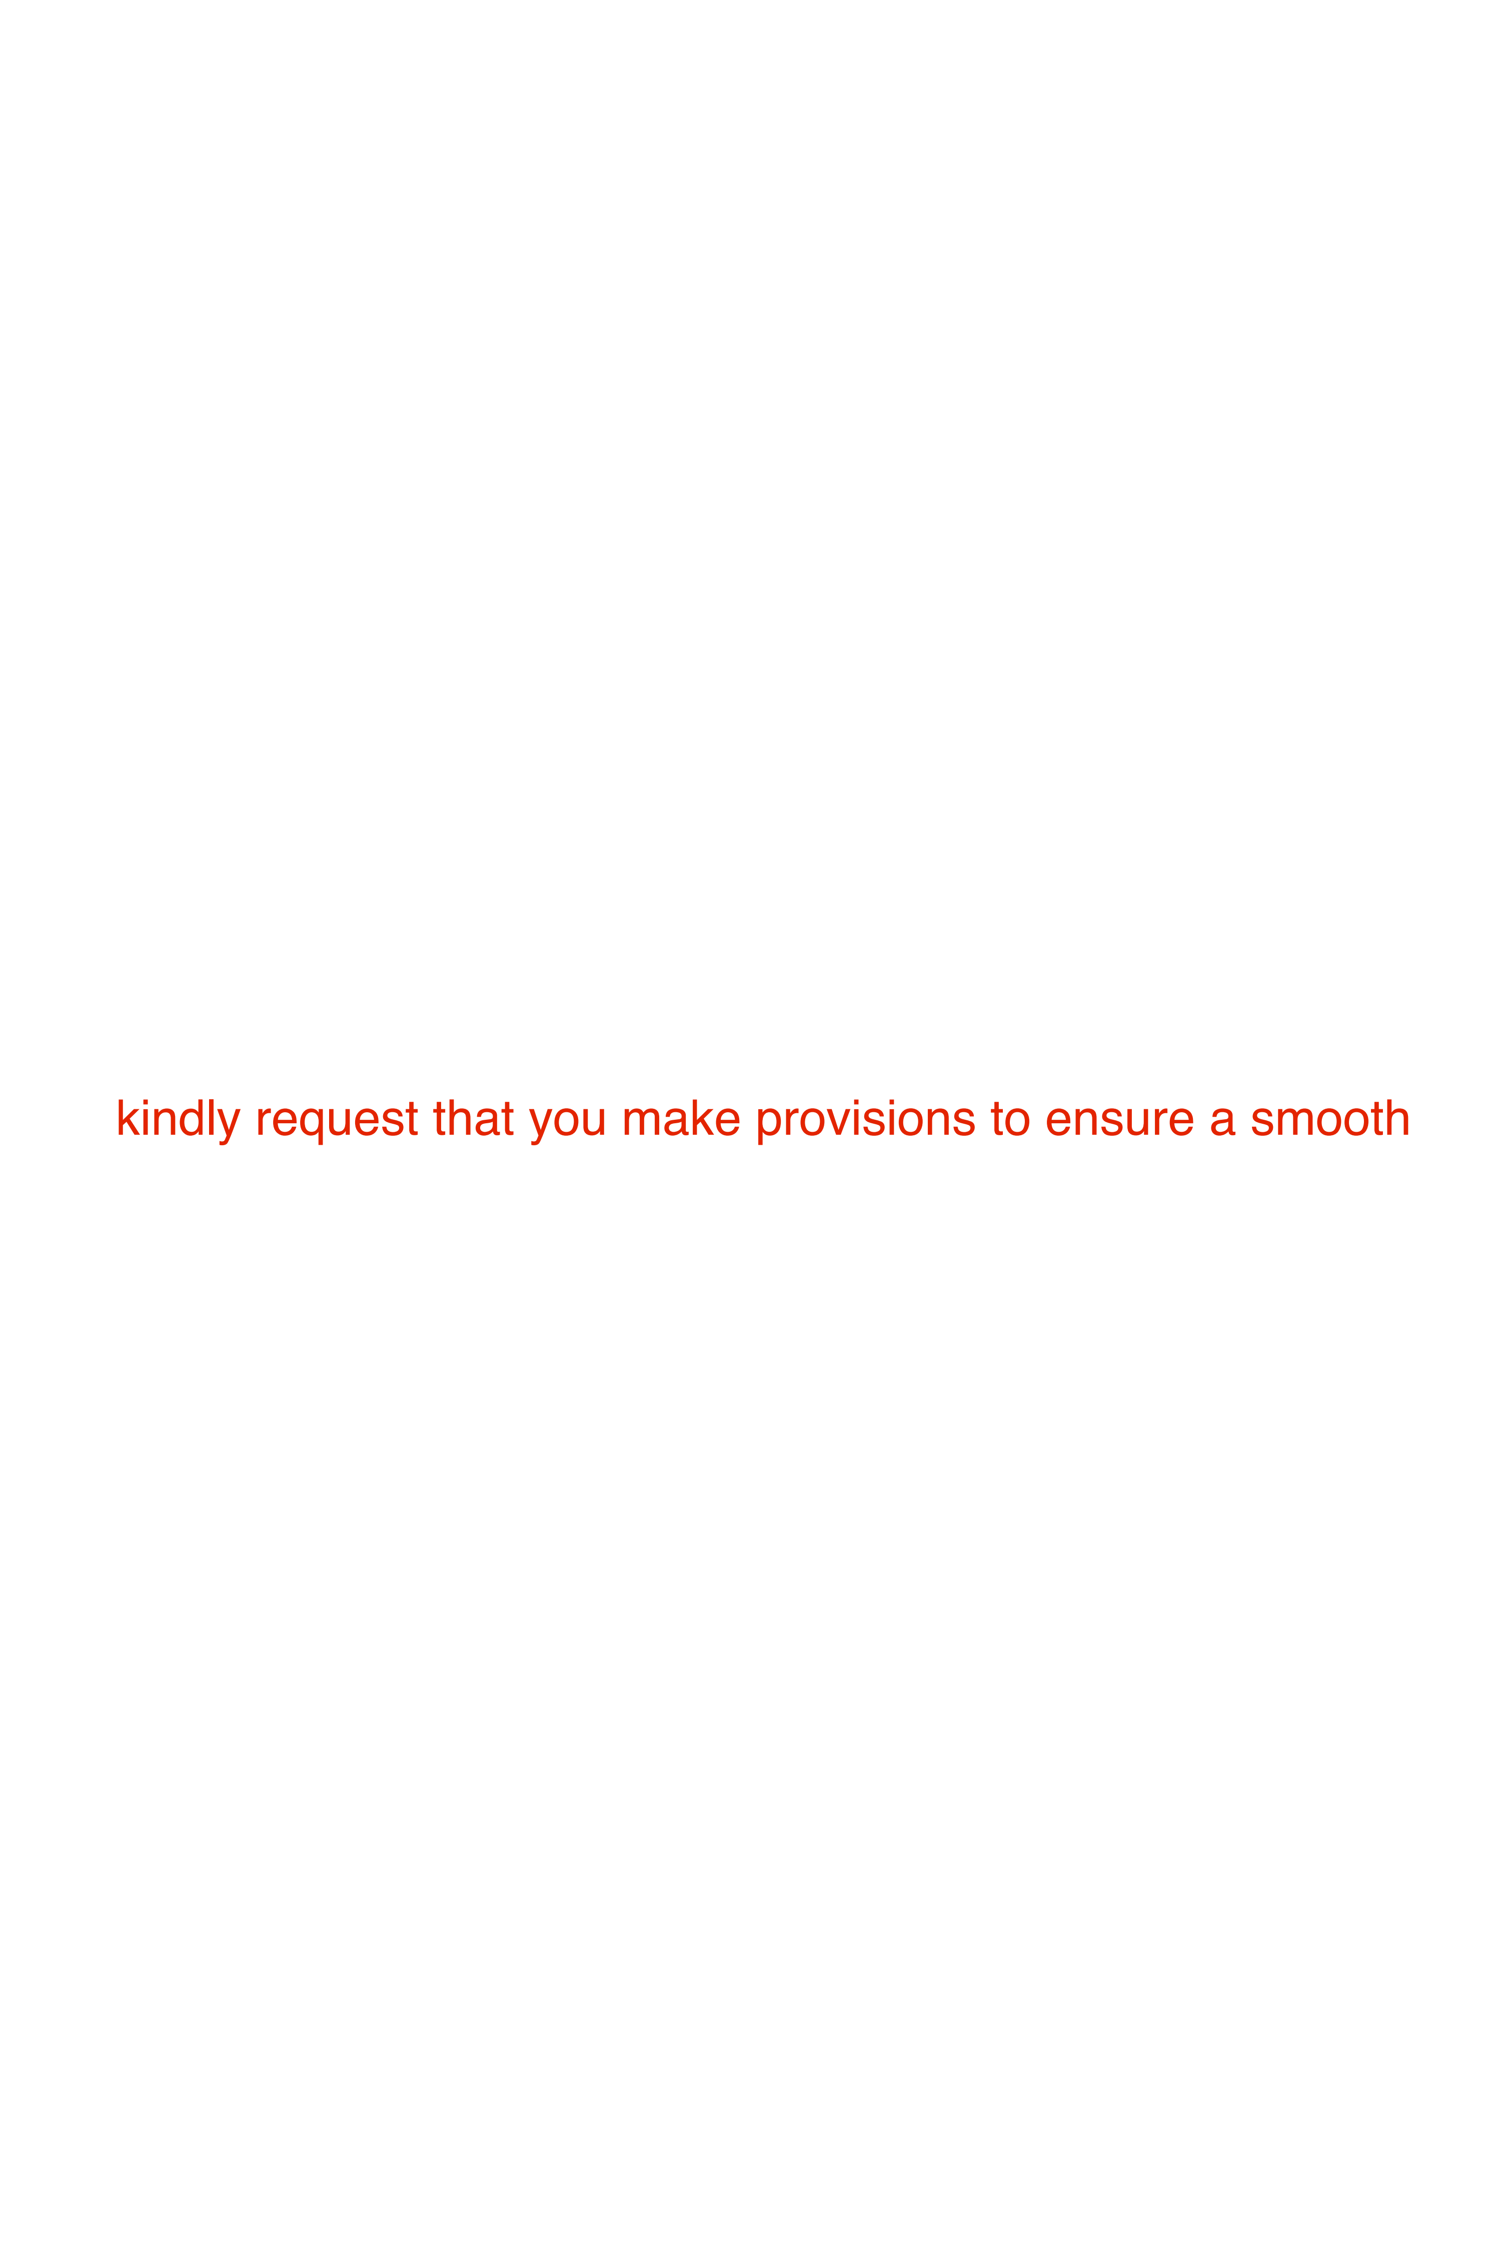

detriment. Their actions strangle my supports and add

great imminent possibility to my death by suicide.

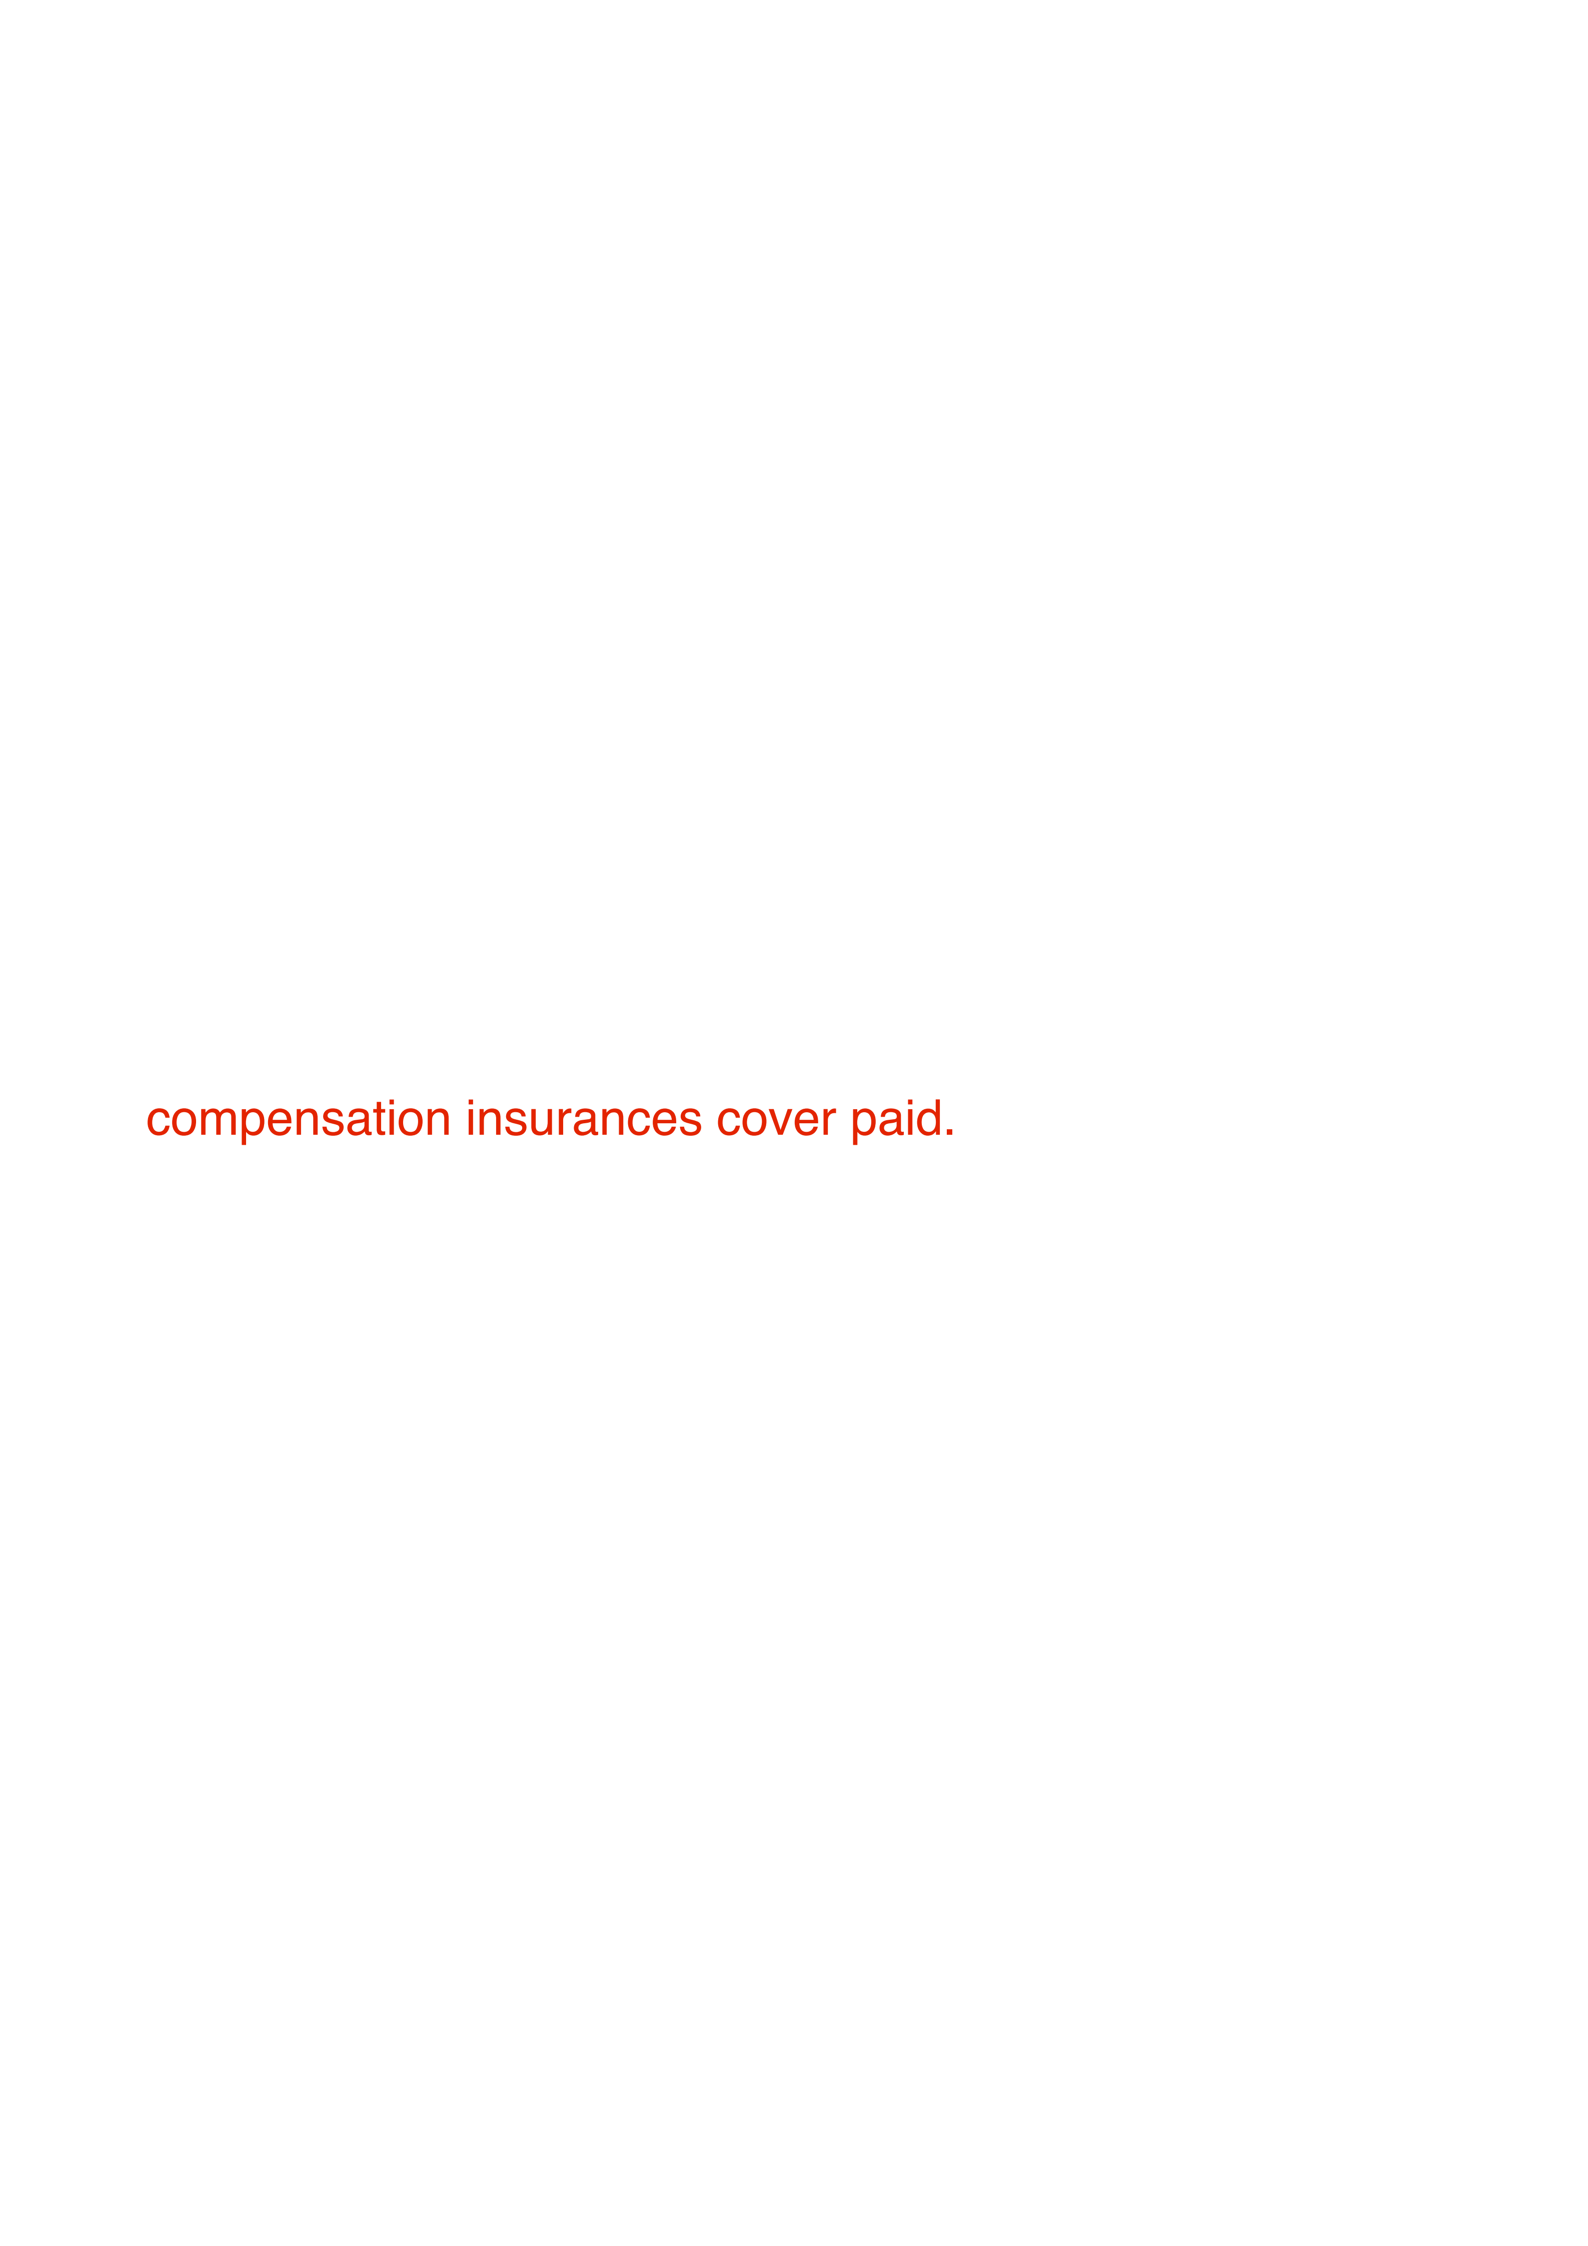

As soon as this information is validated and accepted, I will

no longer need assistance from the NDIS. Therefore, I

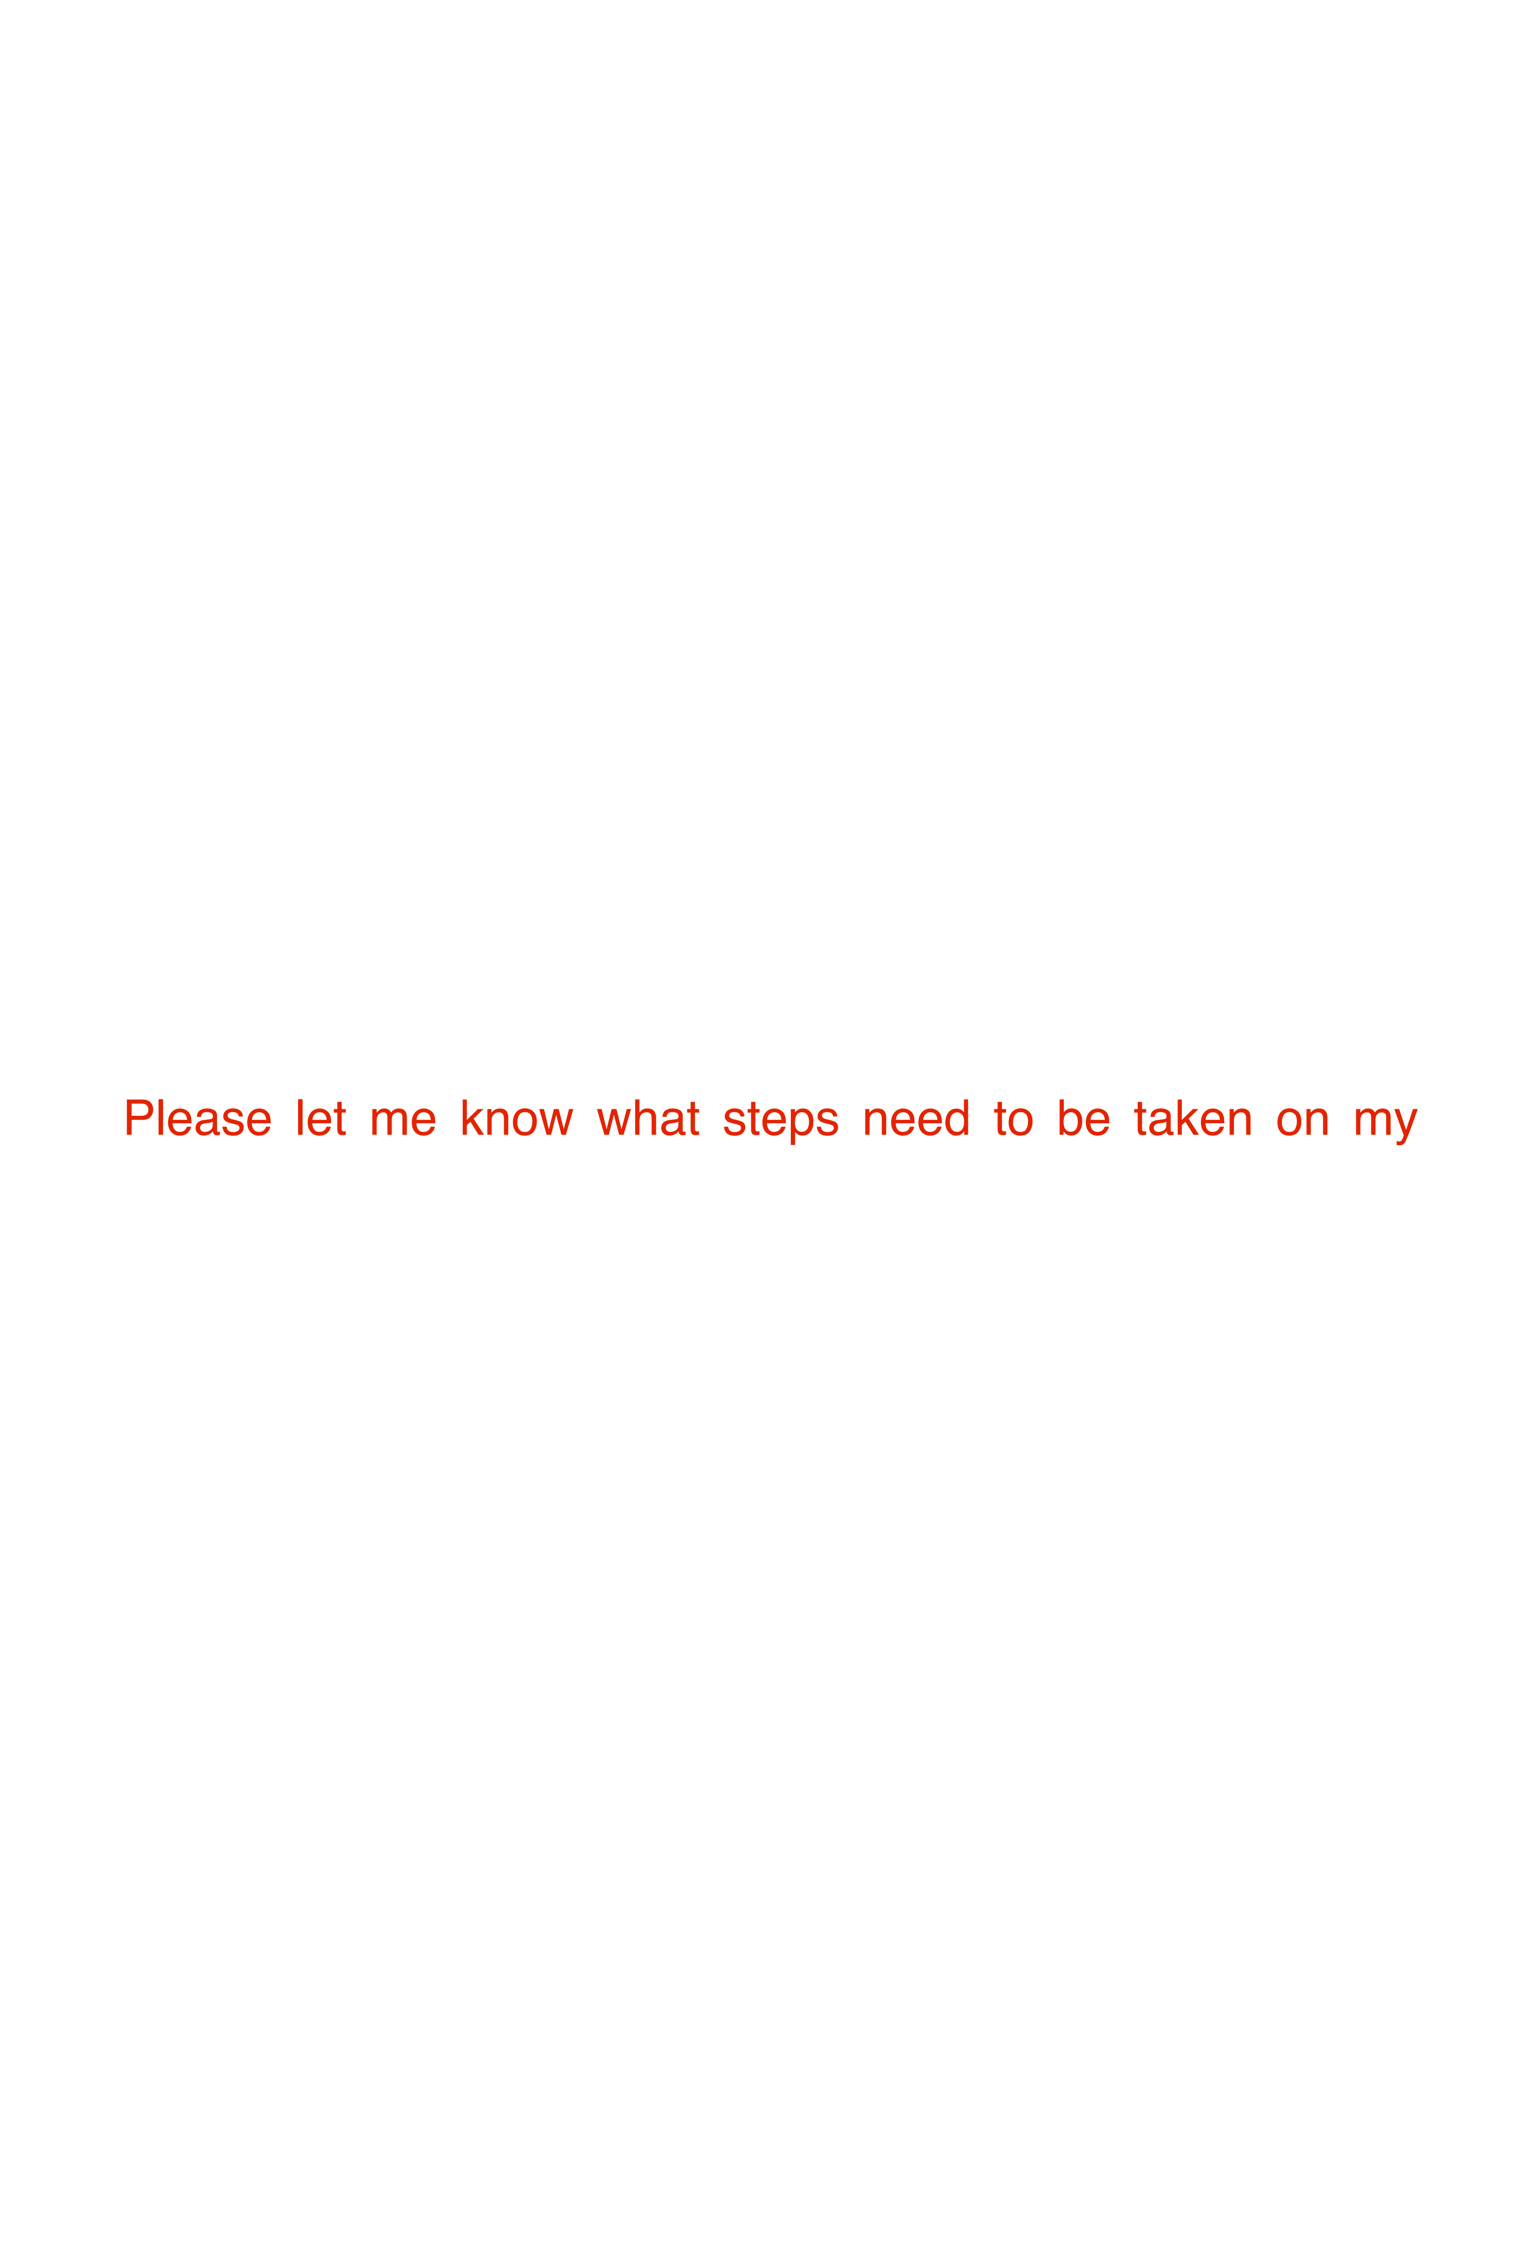

kindly request that you make provisions to ensure a smooth

transition and cessation of NDIS services once my

employment status is officially recognized and my workers'

compensation insurances cover paid.

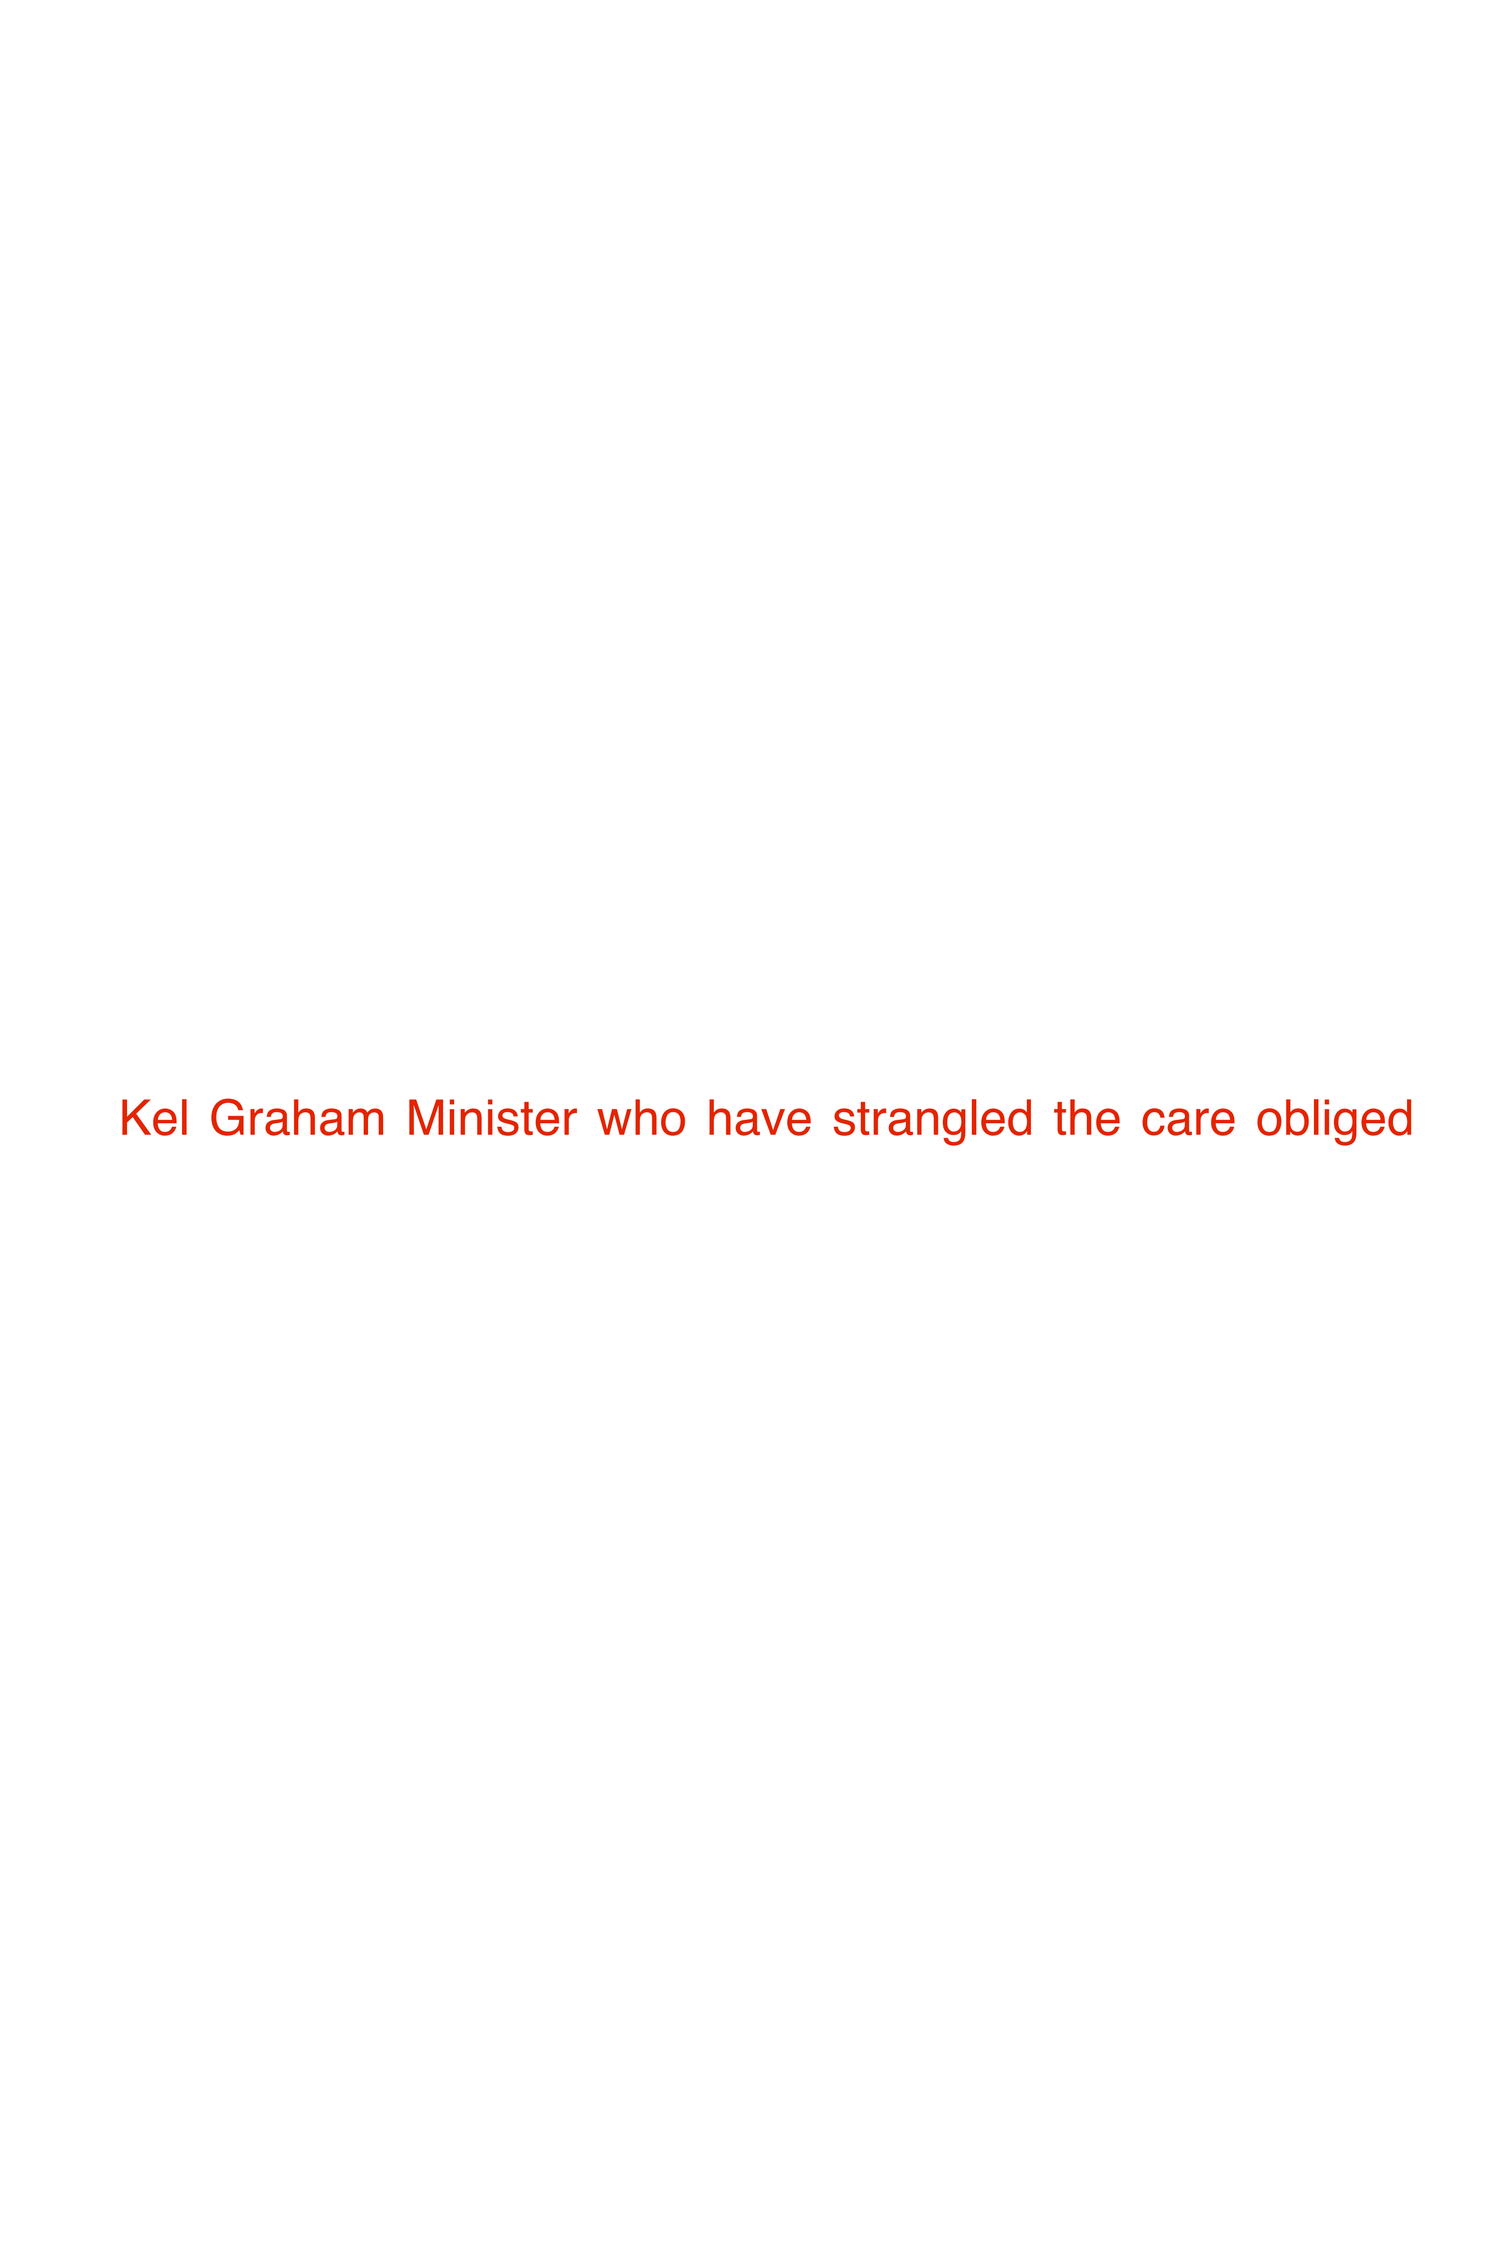

Please let me know what steps need to be taken on my

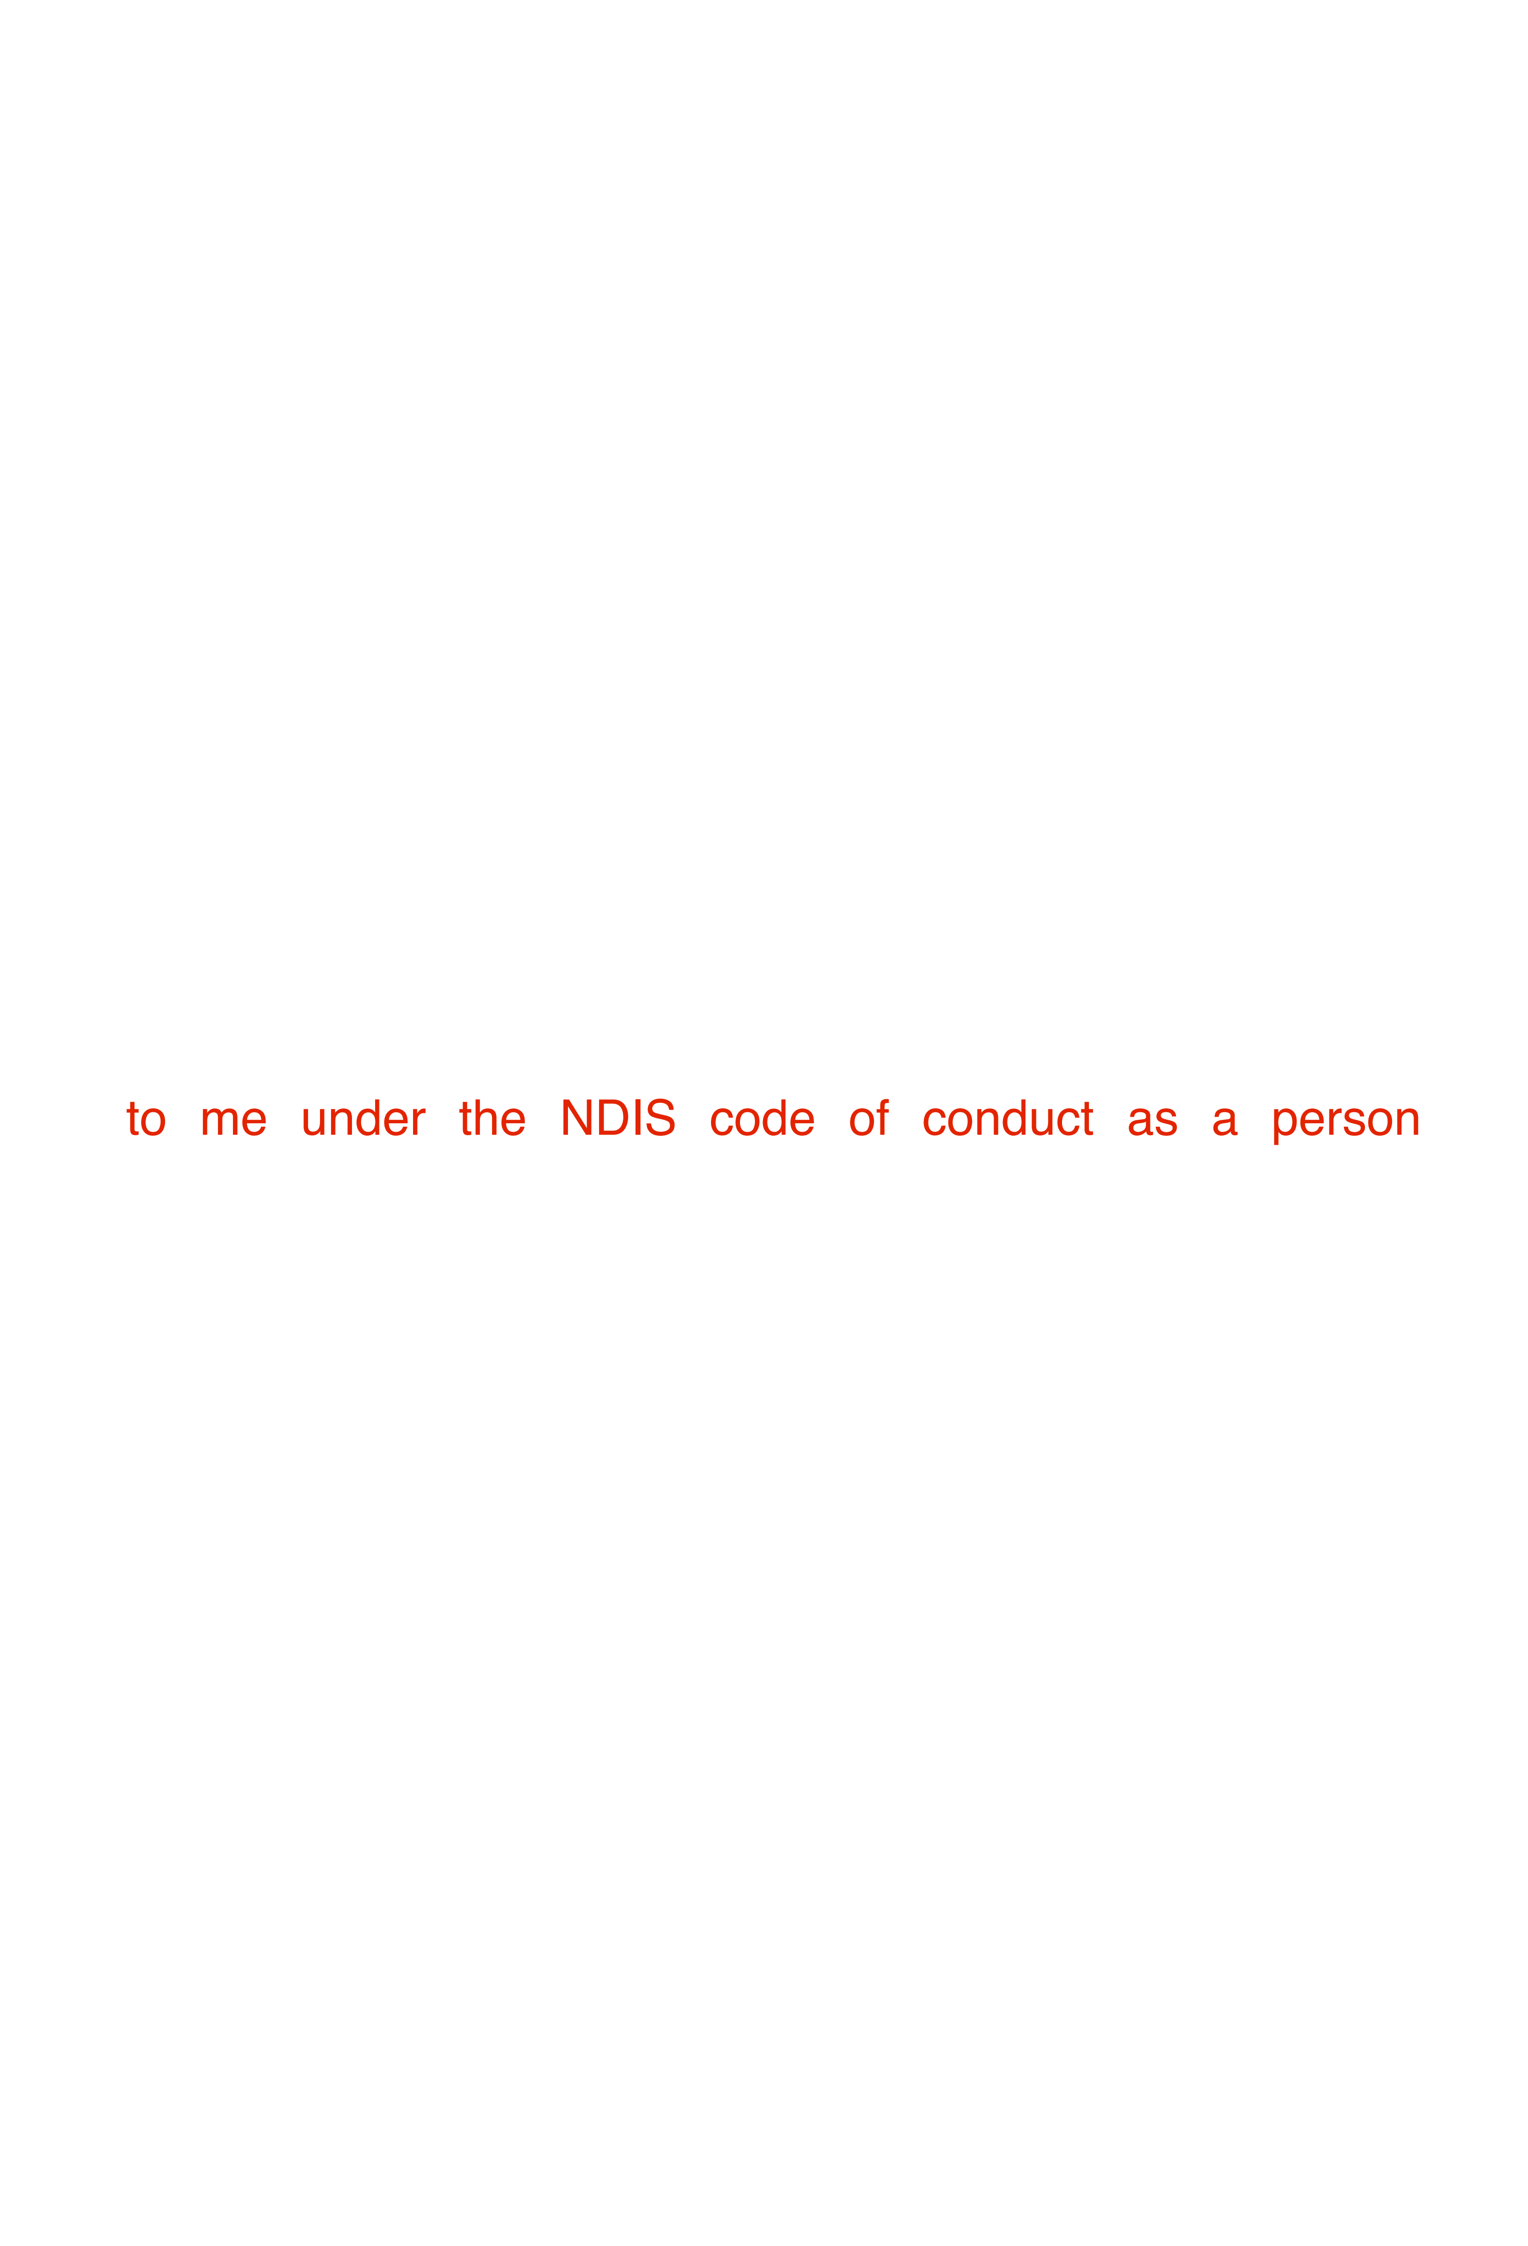

end to facilitate this process. I appreciate your assistance

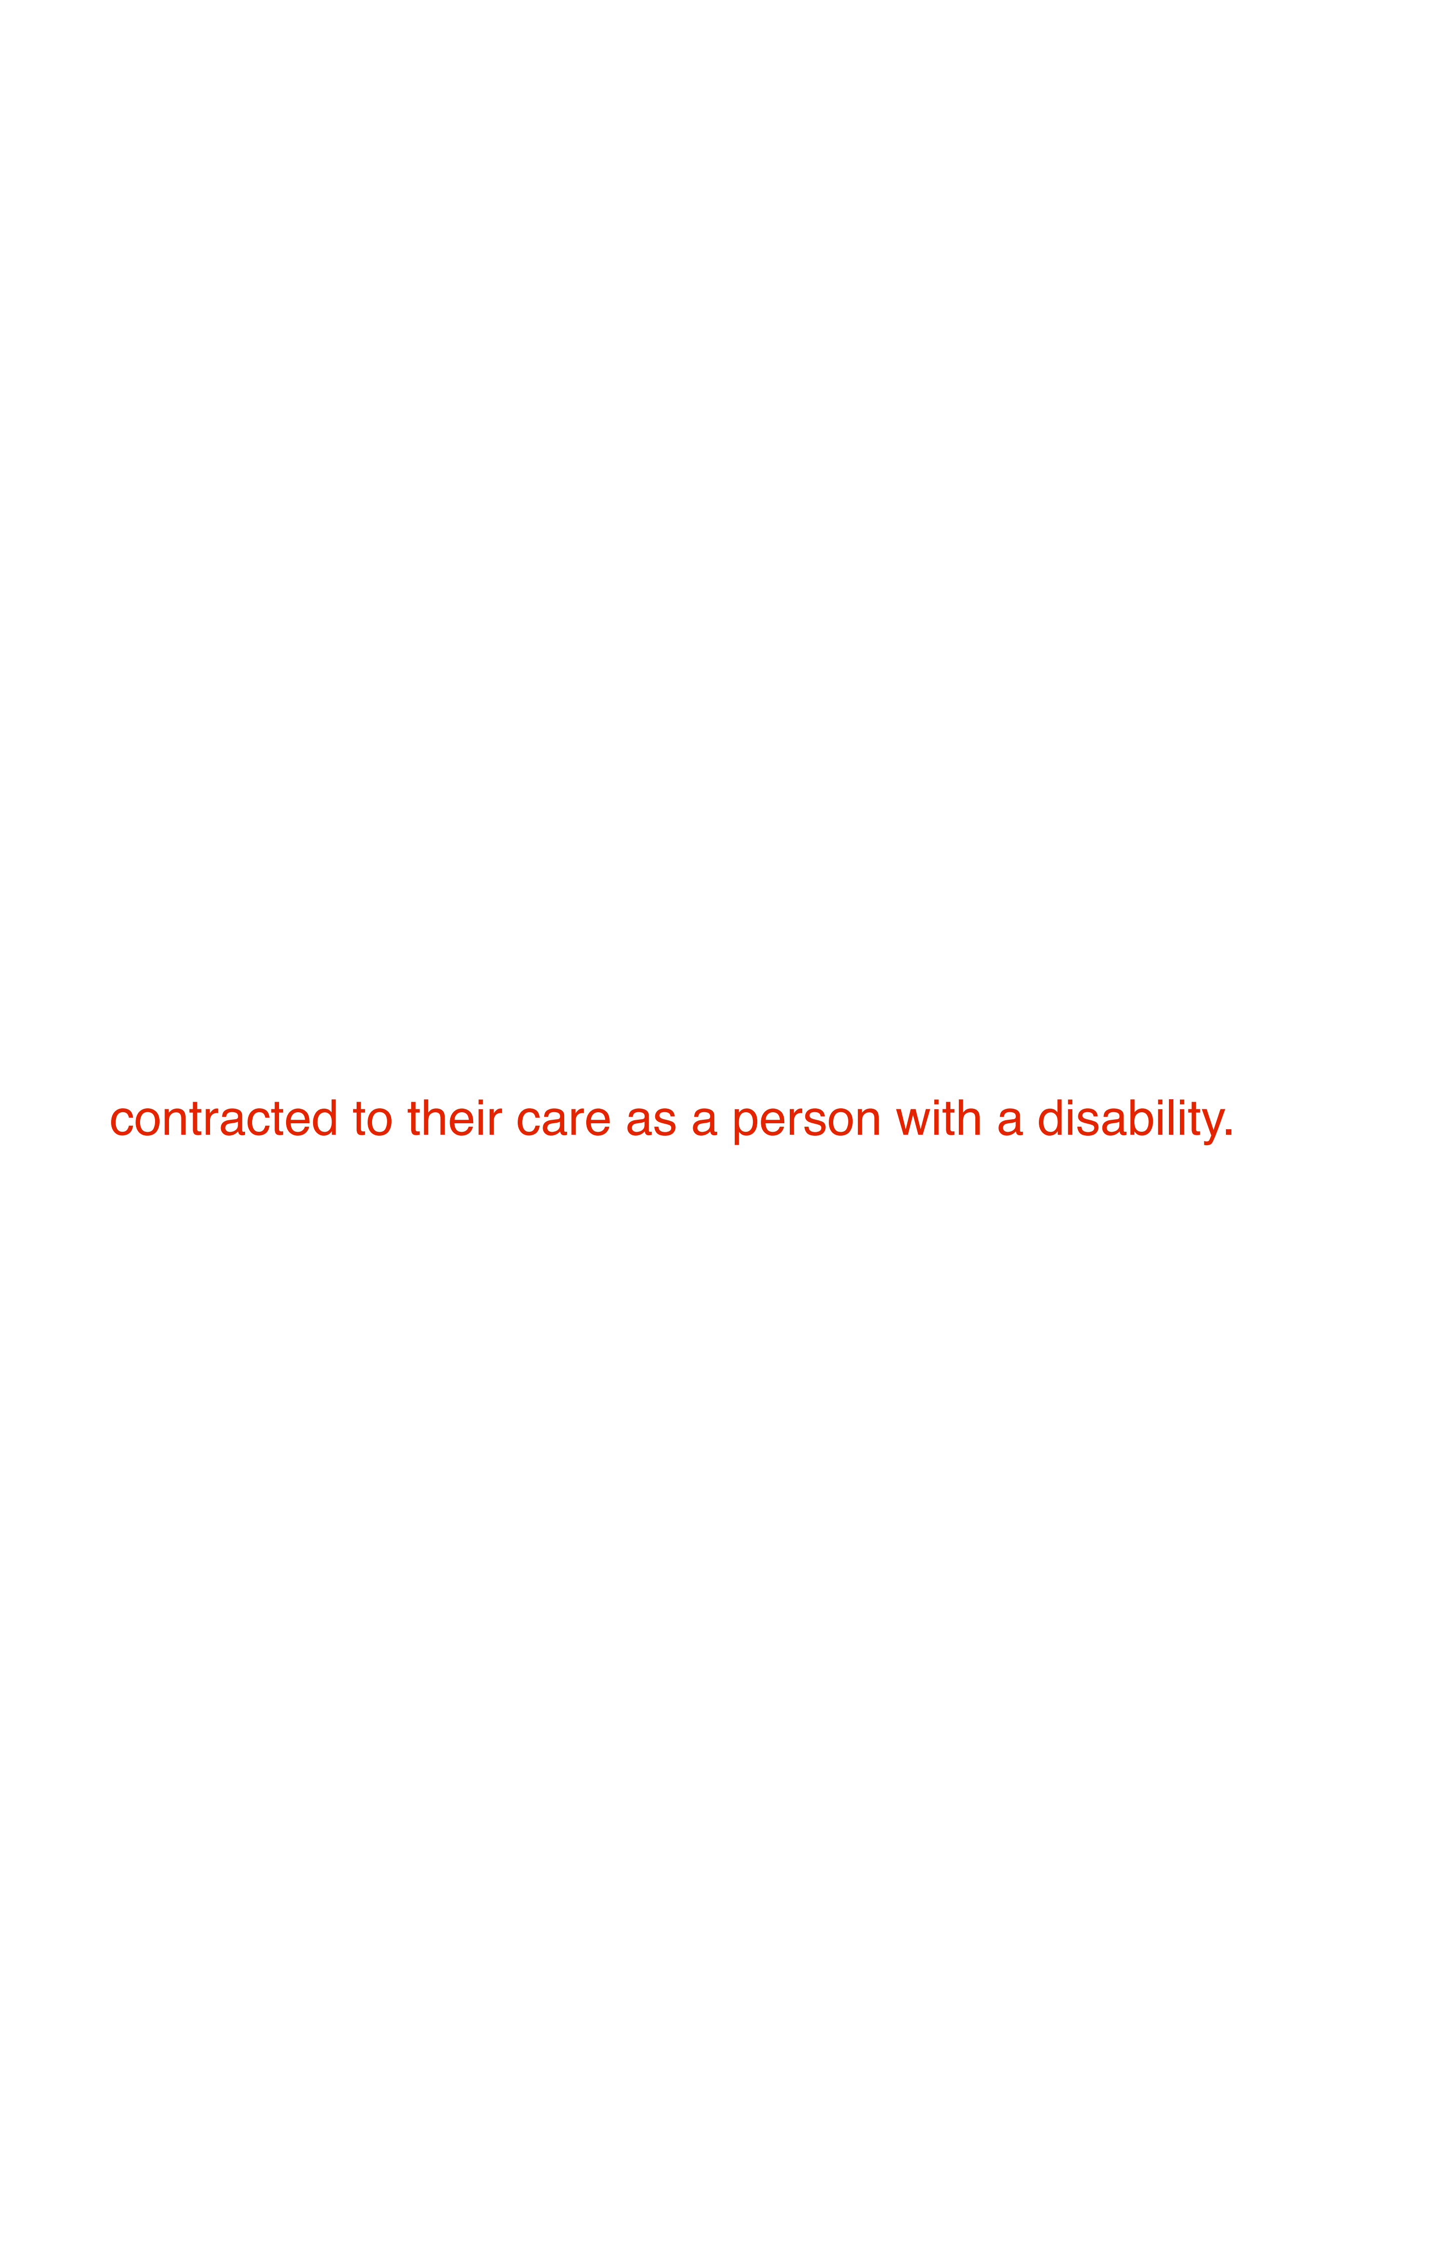

in this matter and look forward to your prompt response.

I attach a link to the federal court document.

Failure to facilitate this will result in me pressing charges on

Kel Graham Minister who have strangled the care obliged

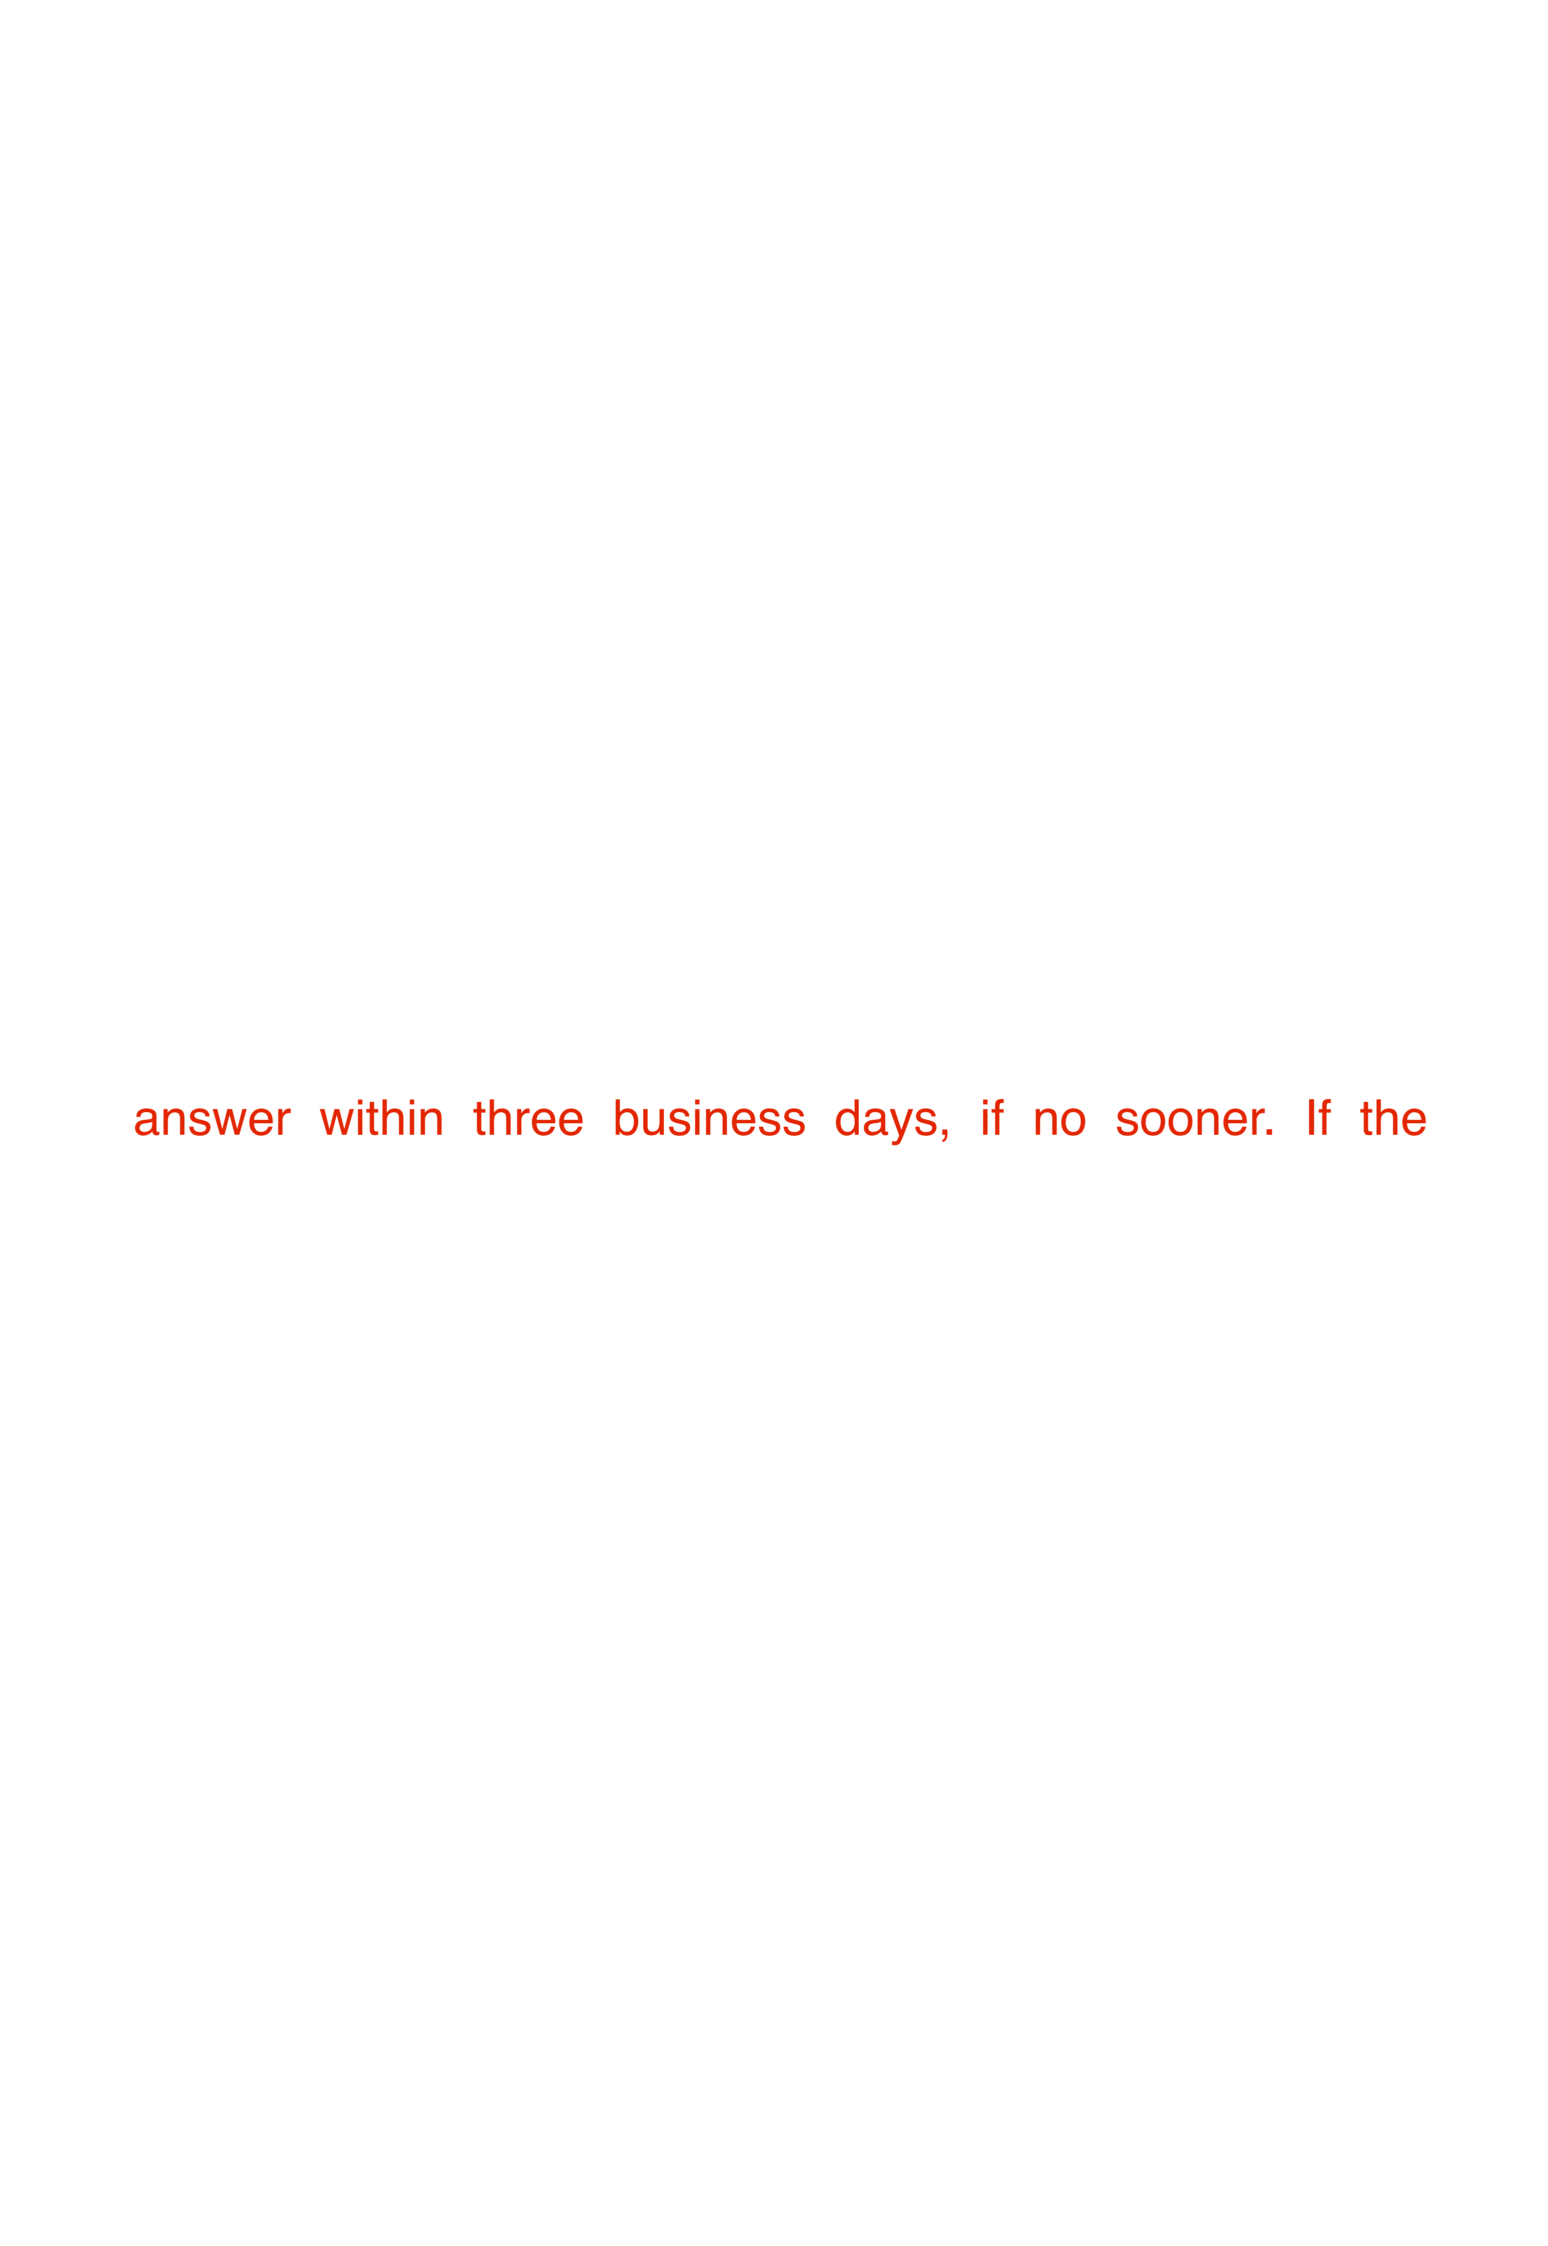

to me under the NDIS code of conduct as a person

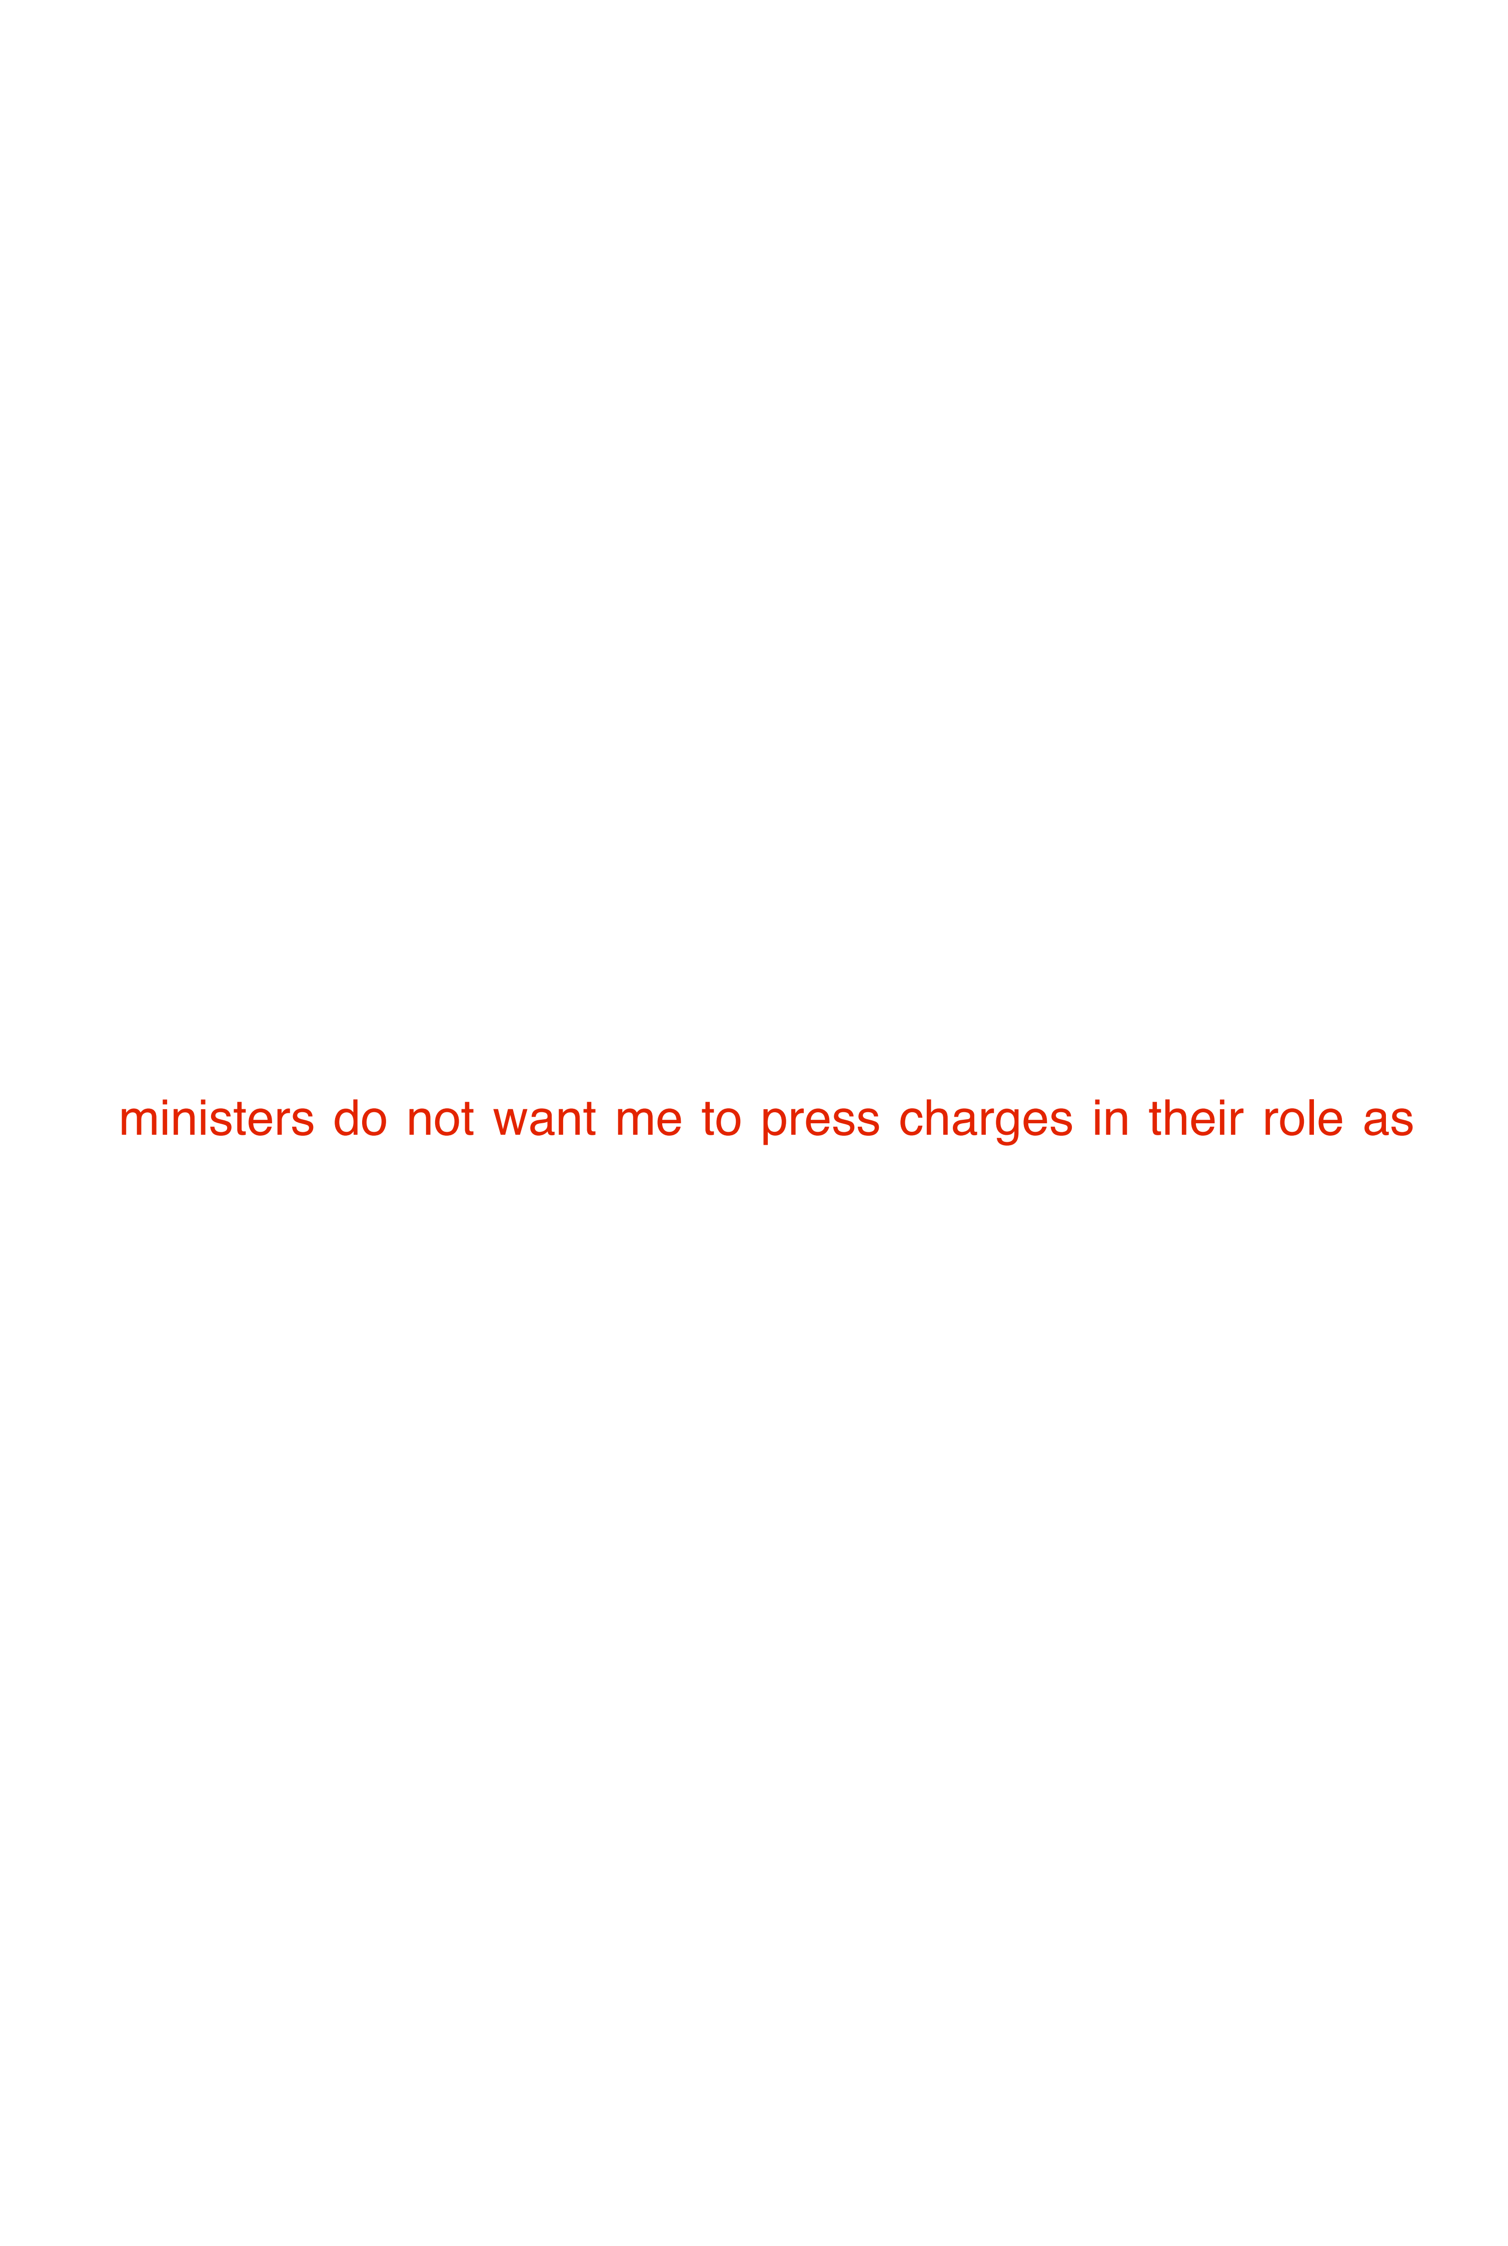

contracted to their care as a person with a disability.

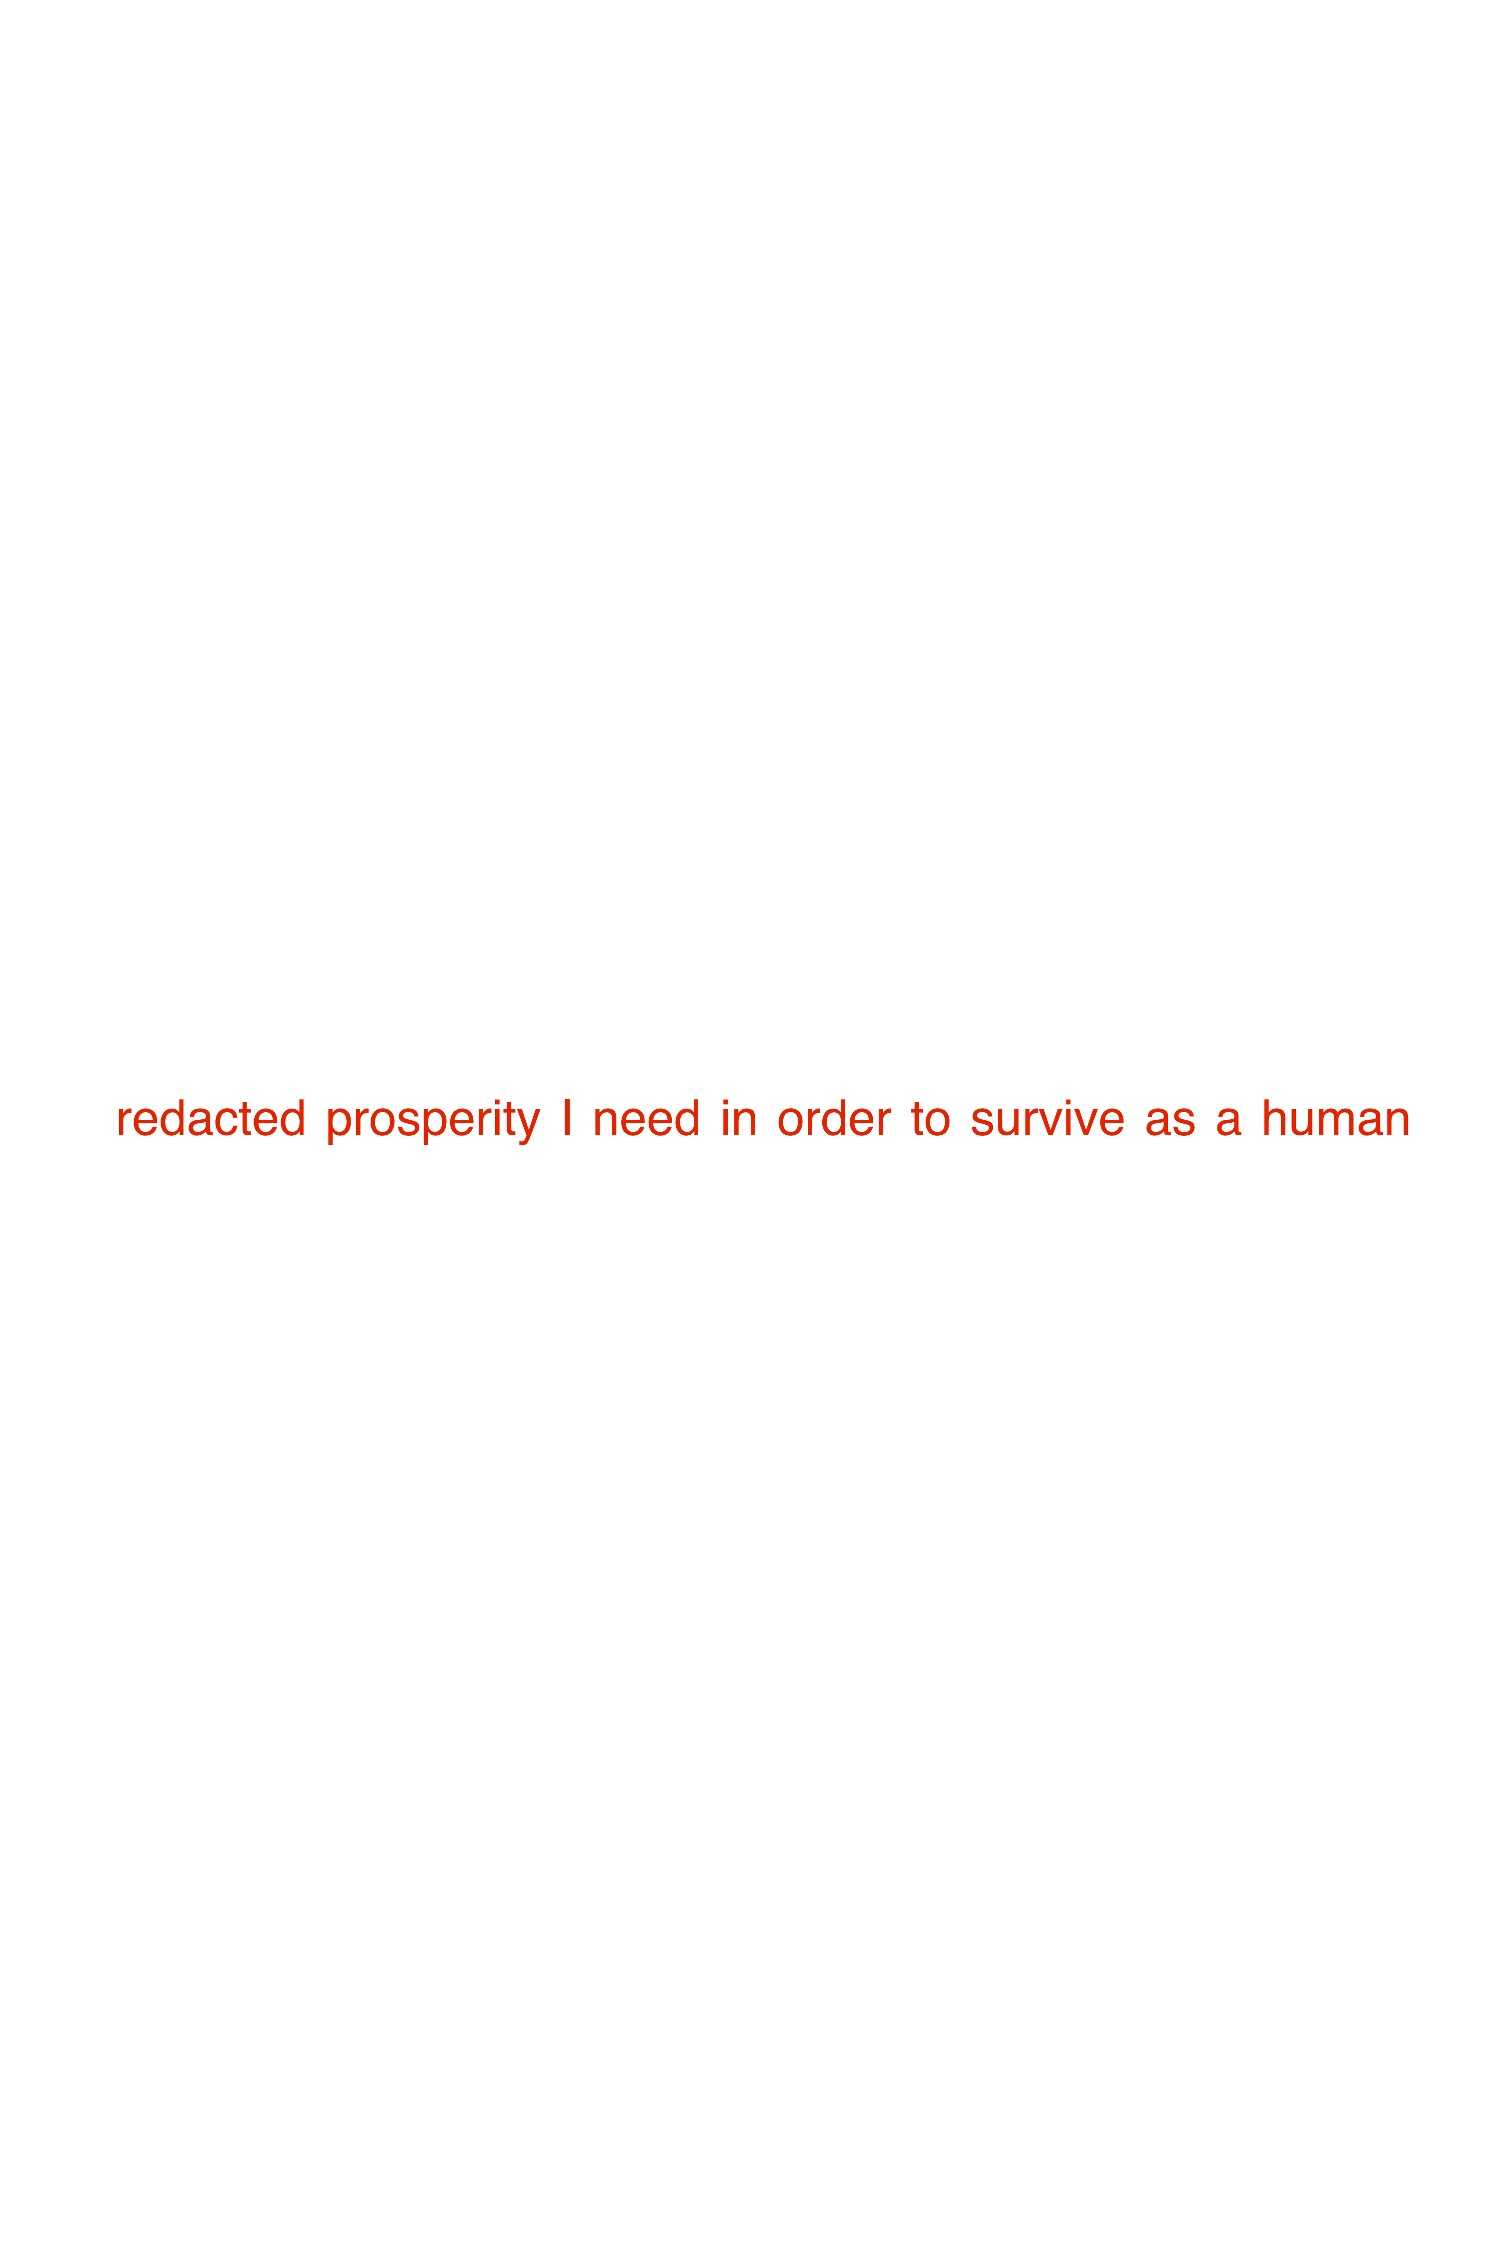

Thank you for your attention to this request. I expect an

answer within three business days, if no sooner. If the

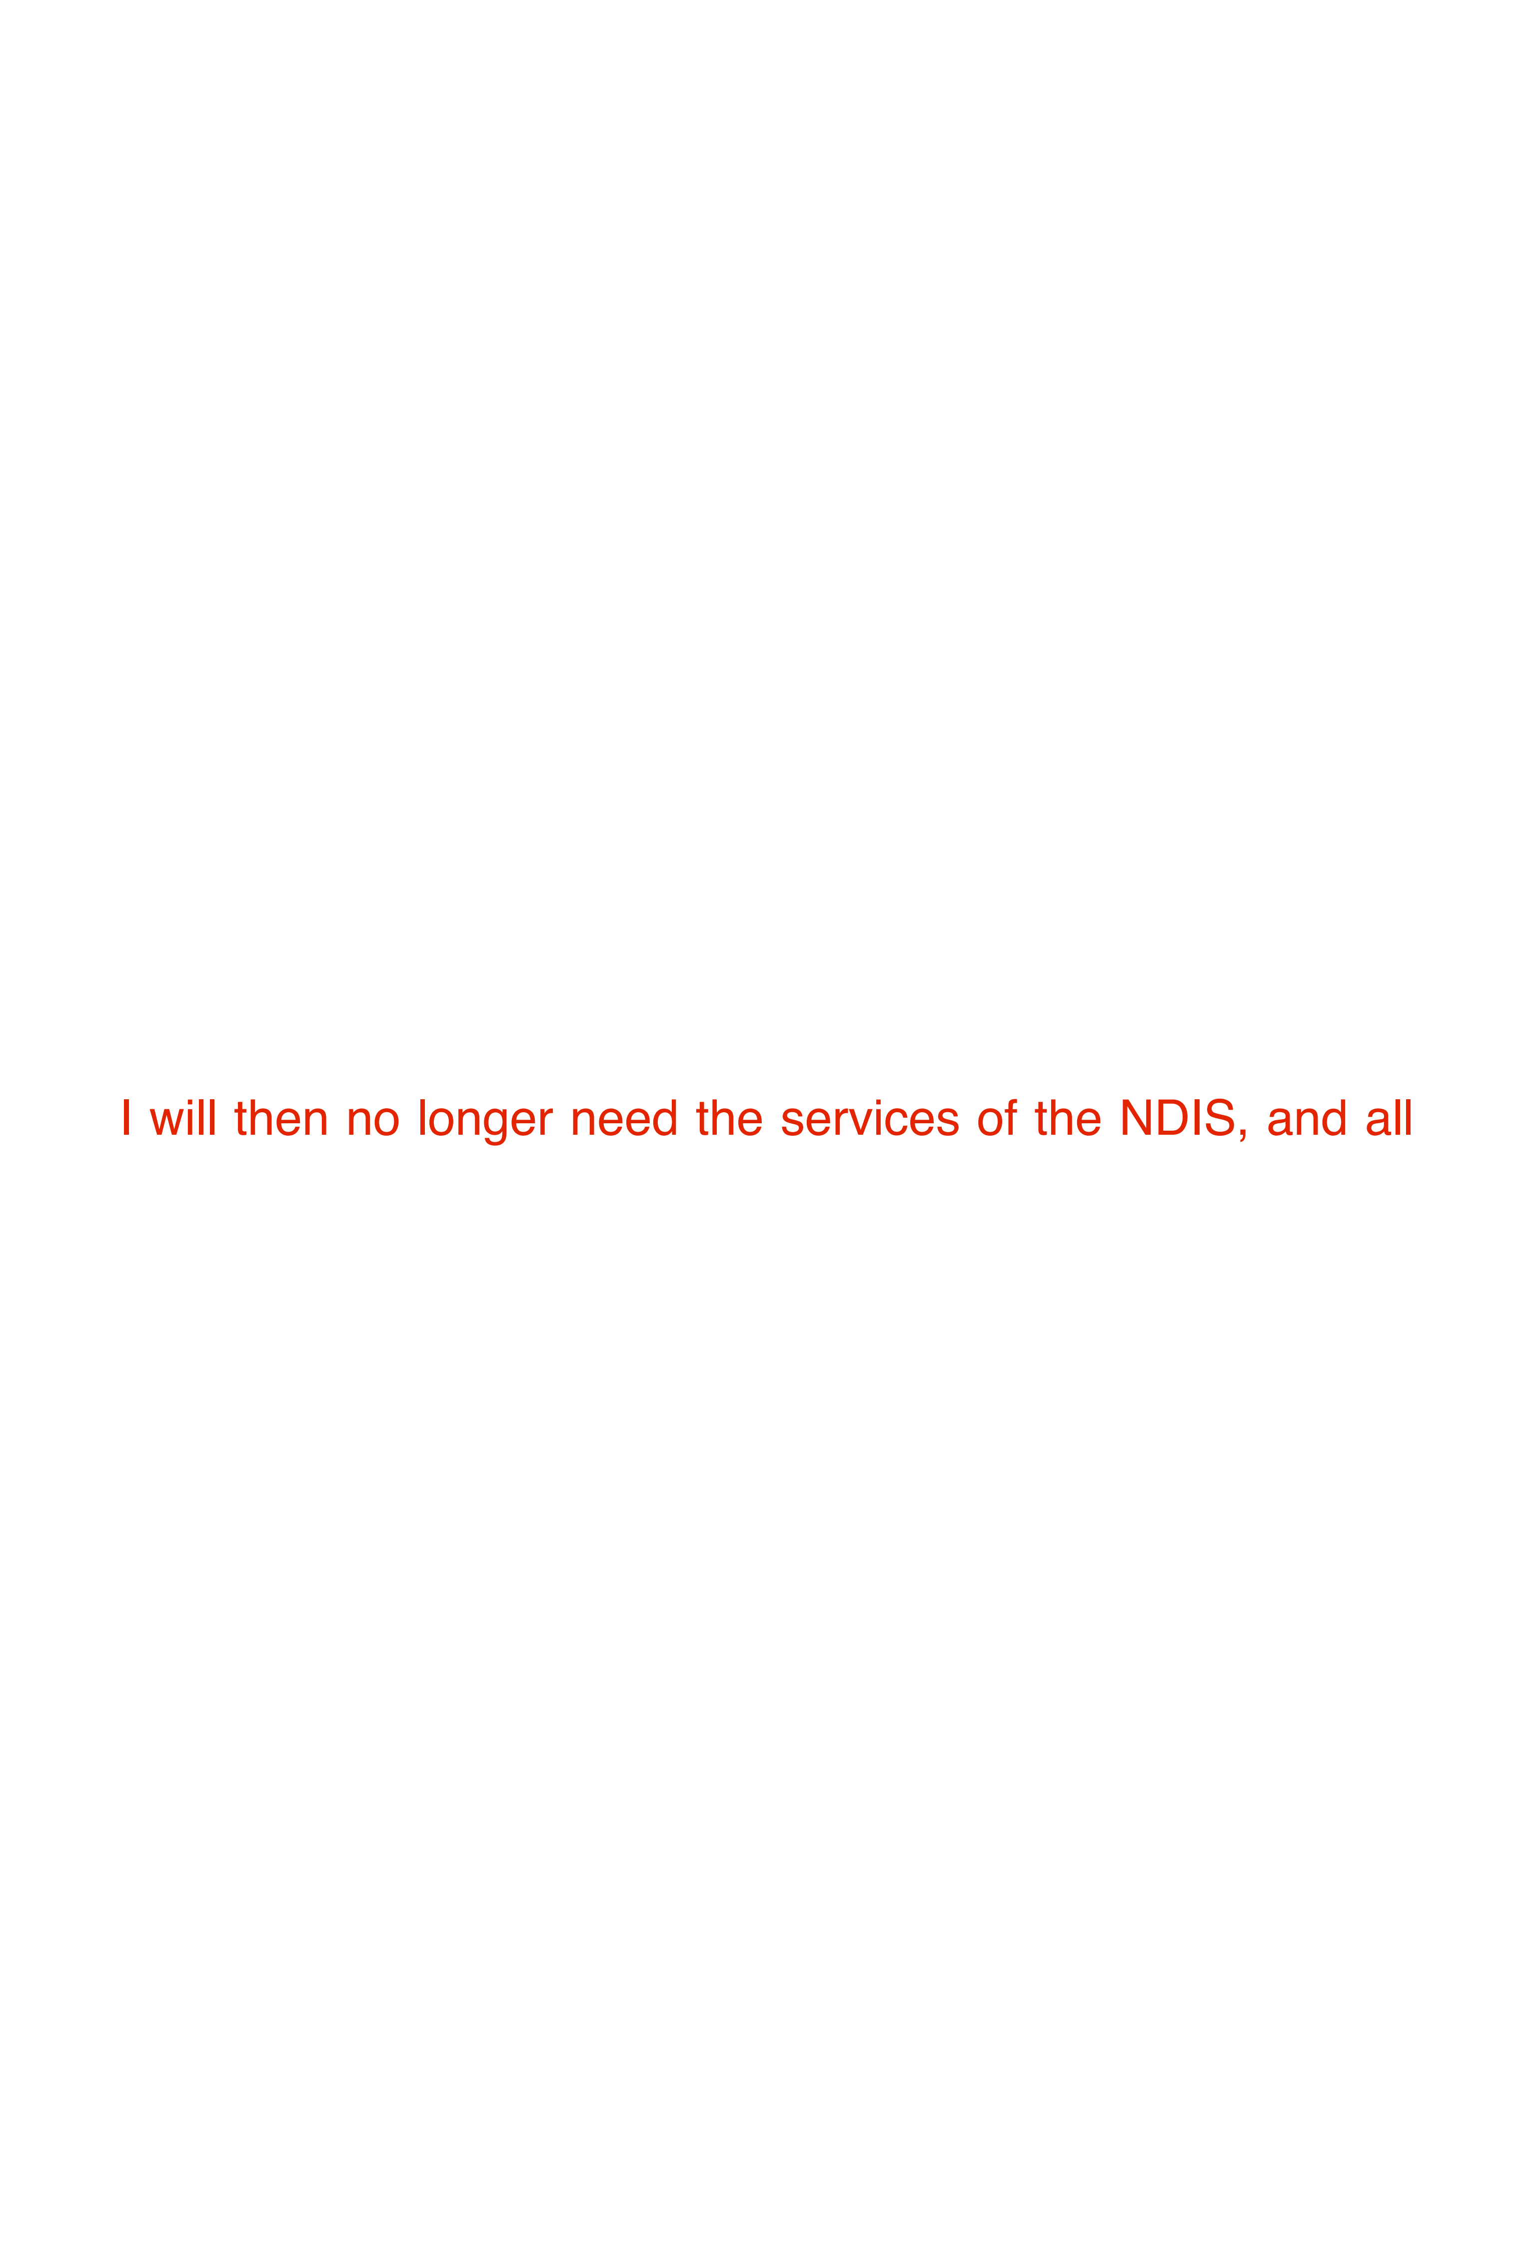

ministers do not want me to press charges in their role as

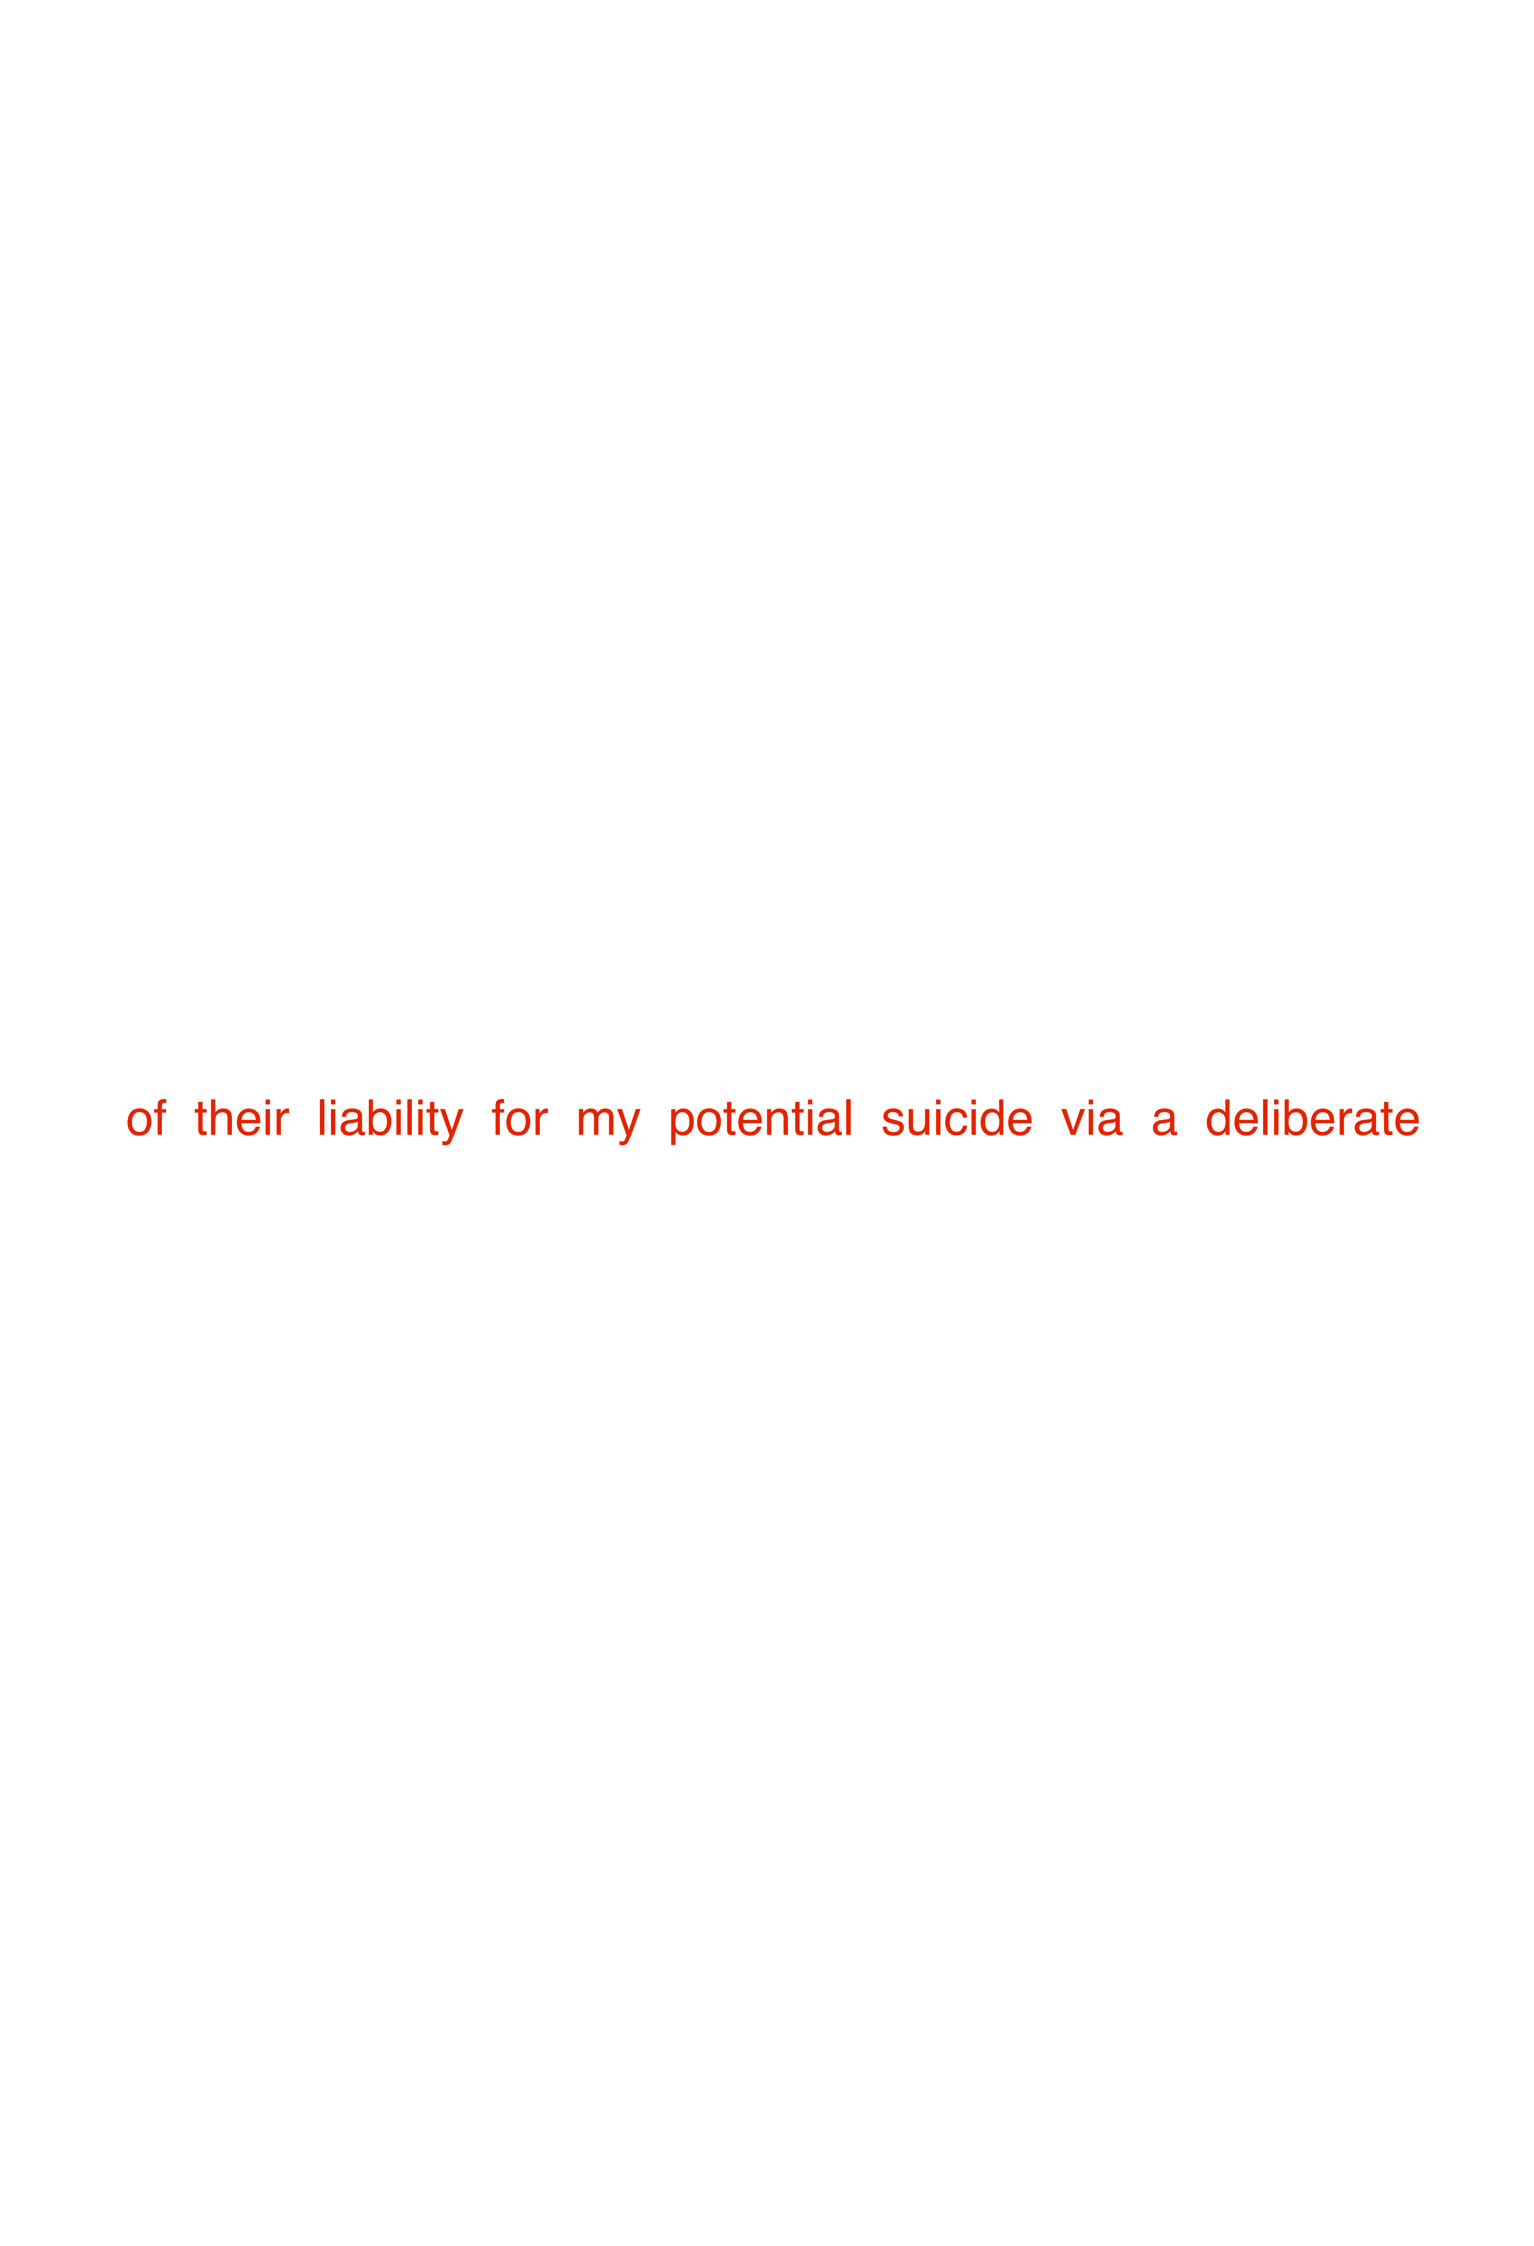

public officials who have abused neglected and financially

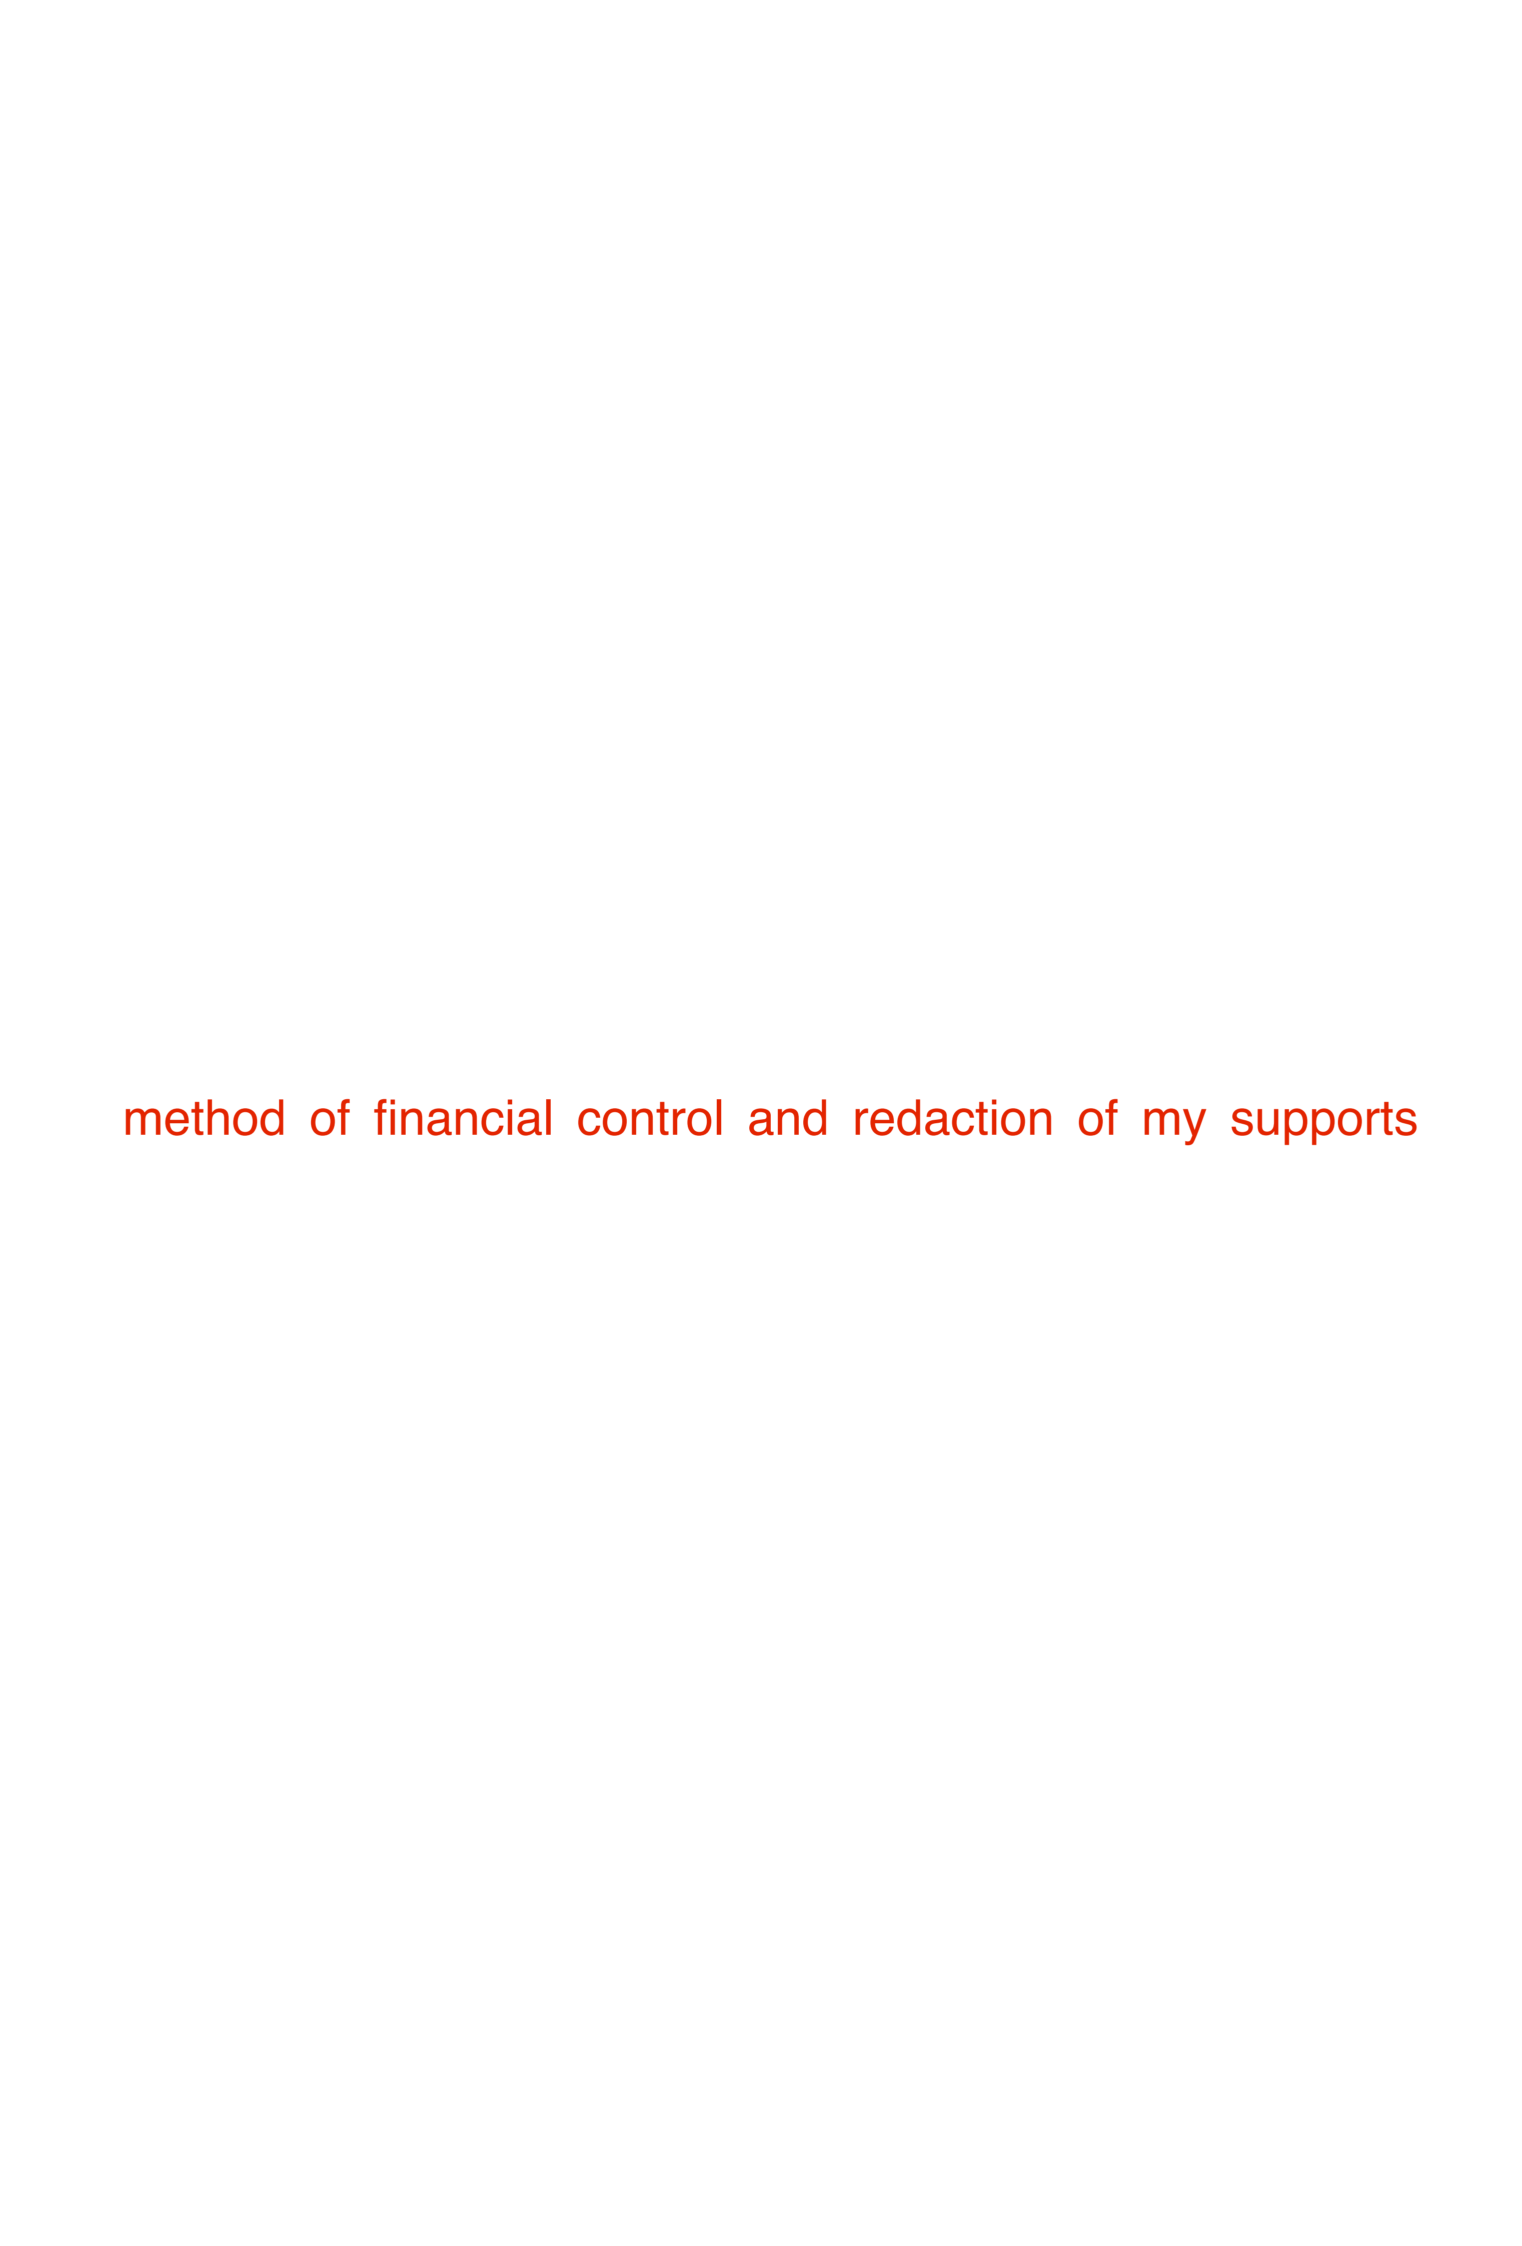

redacted prosperity I need in order to survive as a human

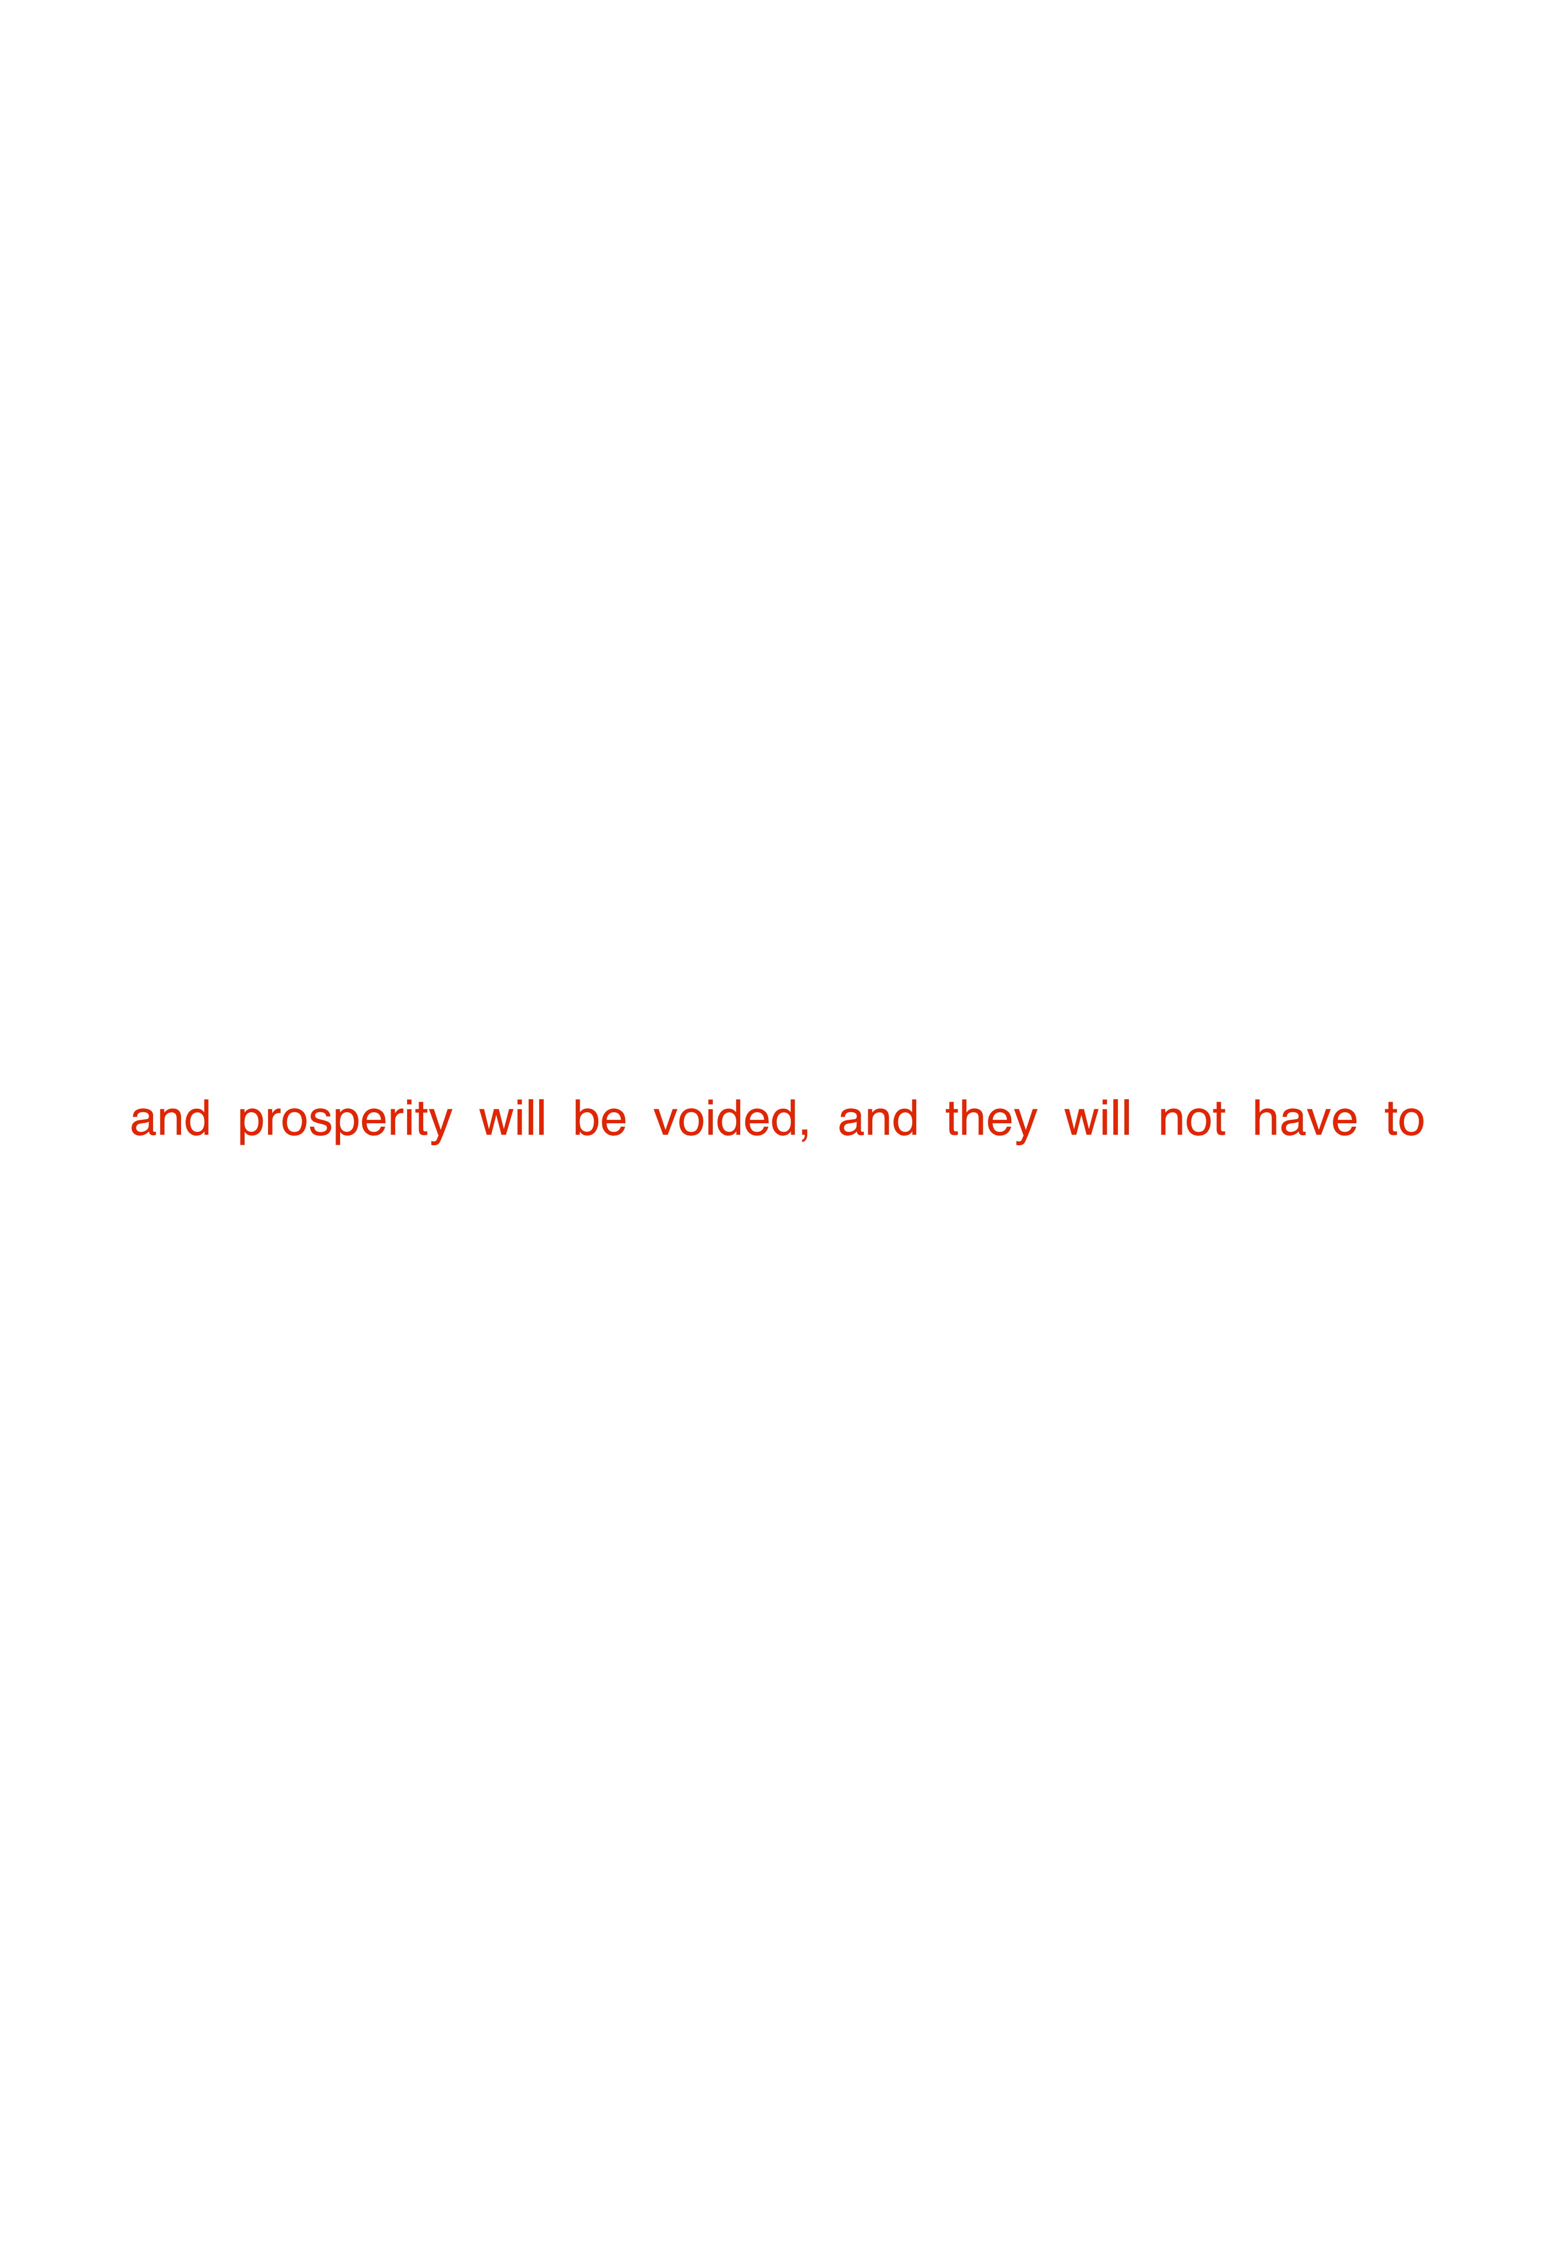

being, an immediate solution will be found.

I will then no longer need the services of the NDIS, and all

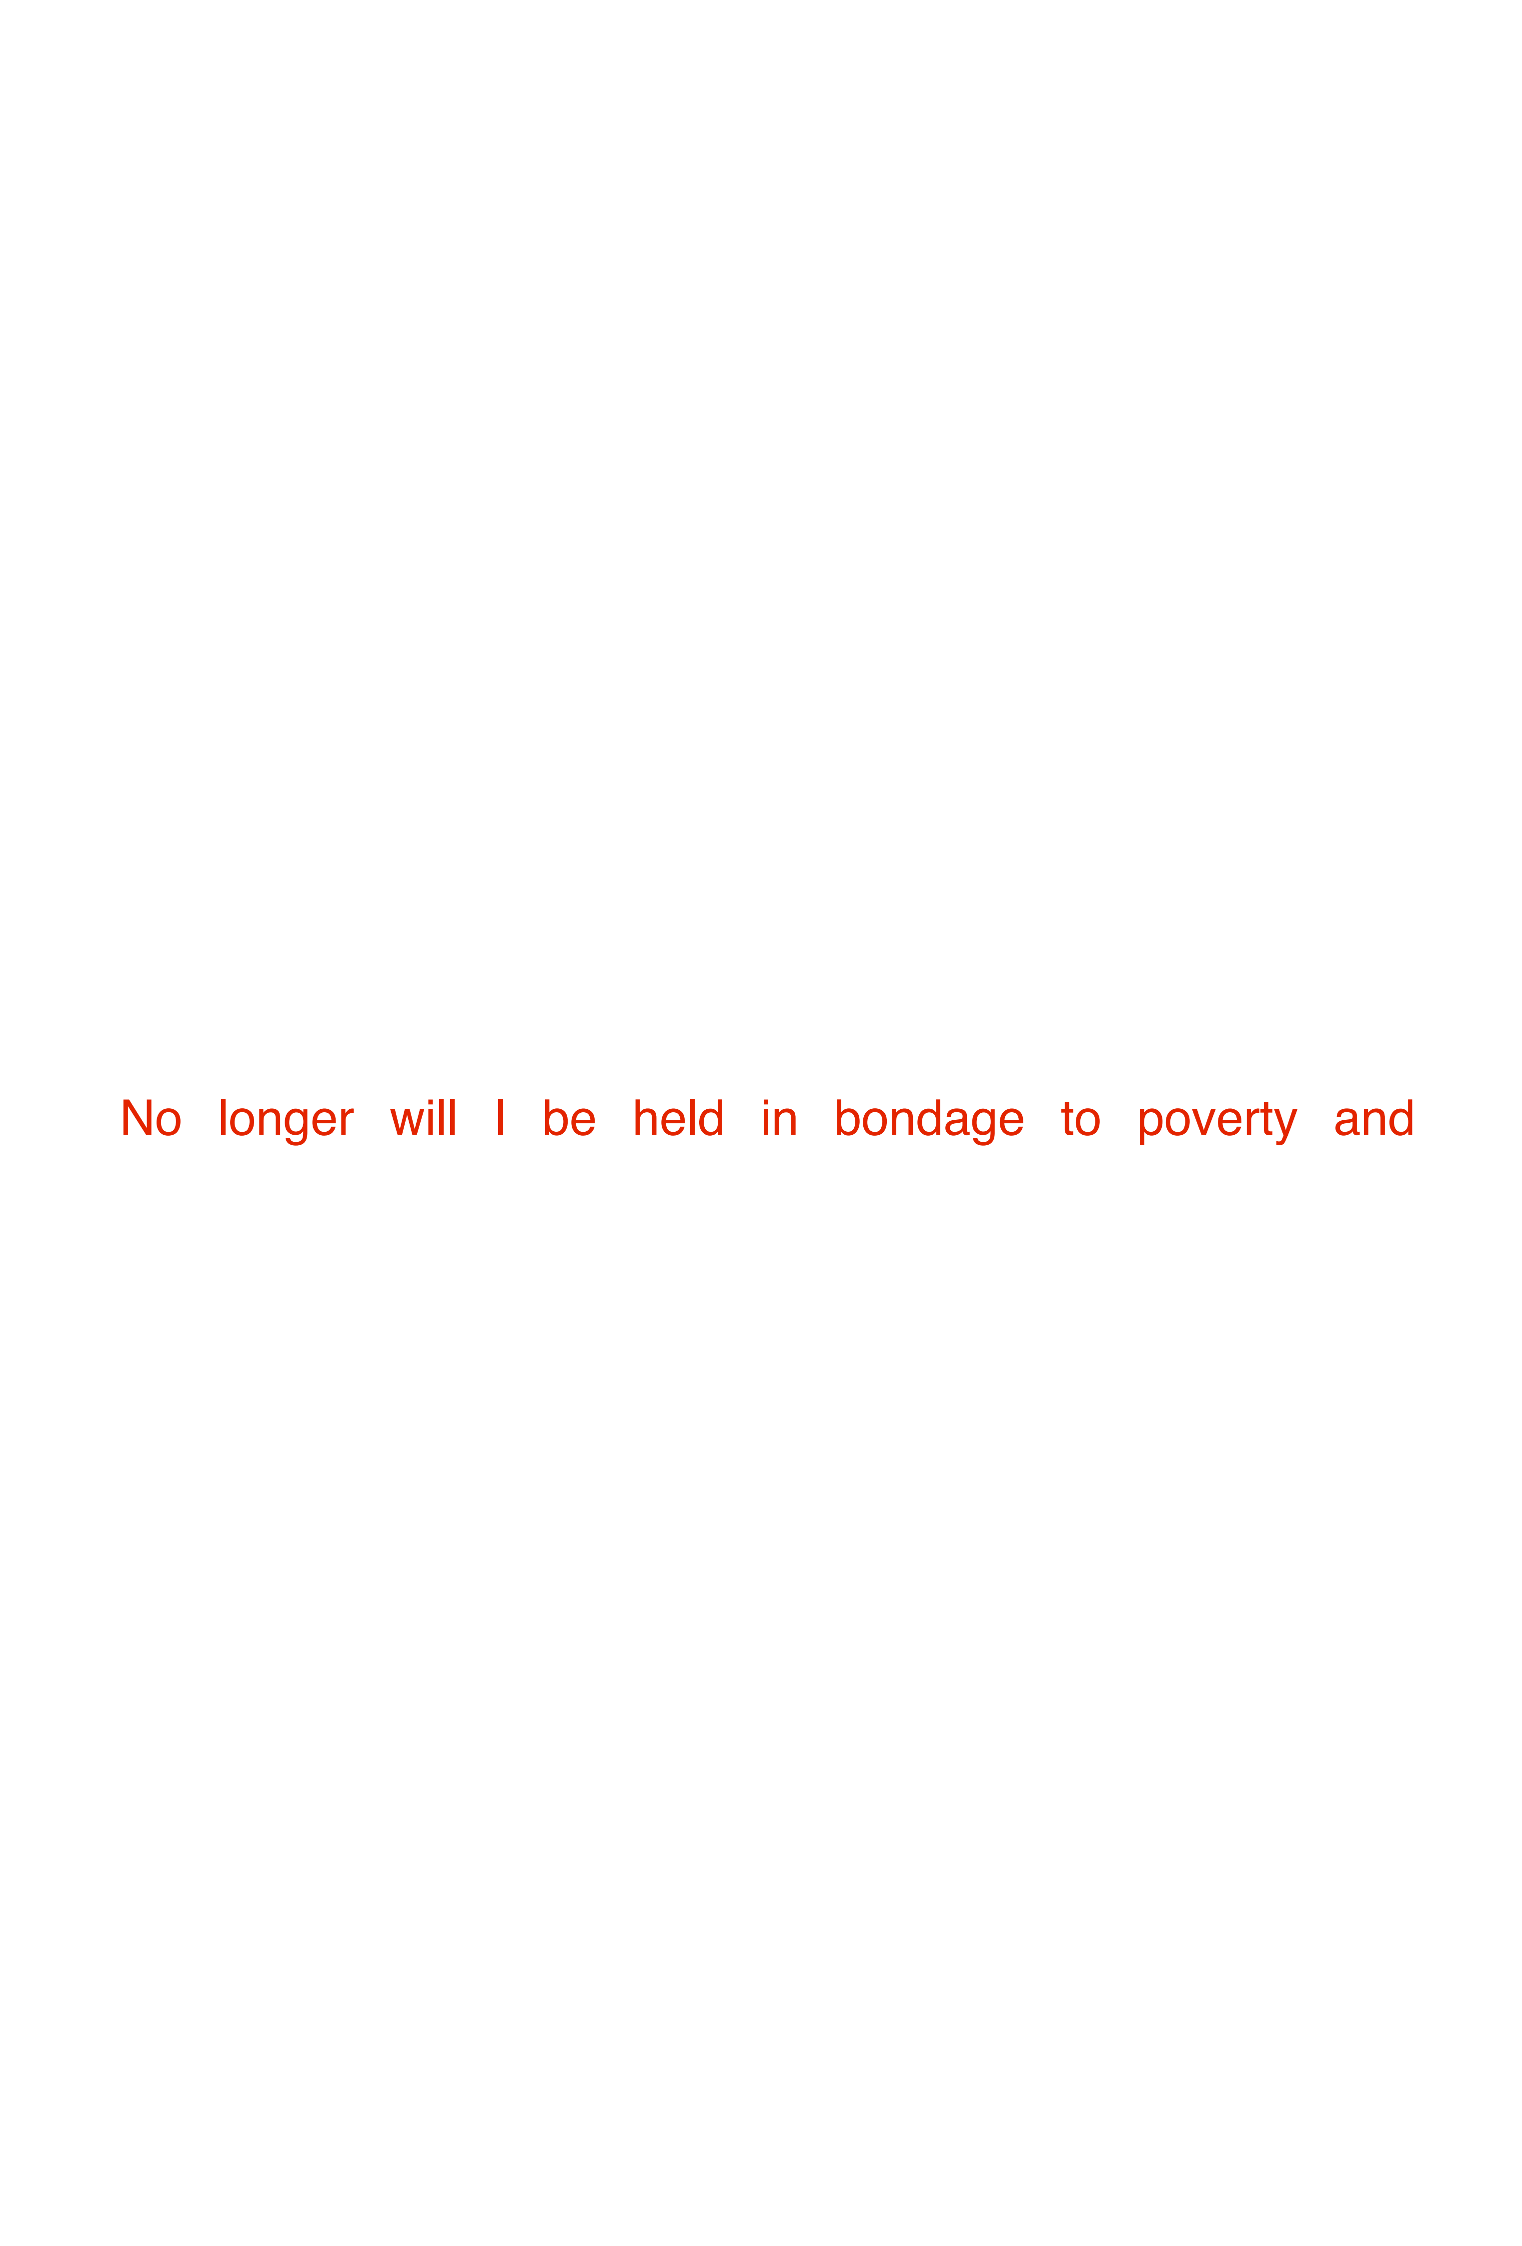

of their liability for my potential suicide via a deliberate

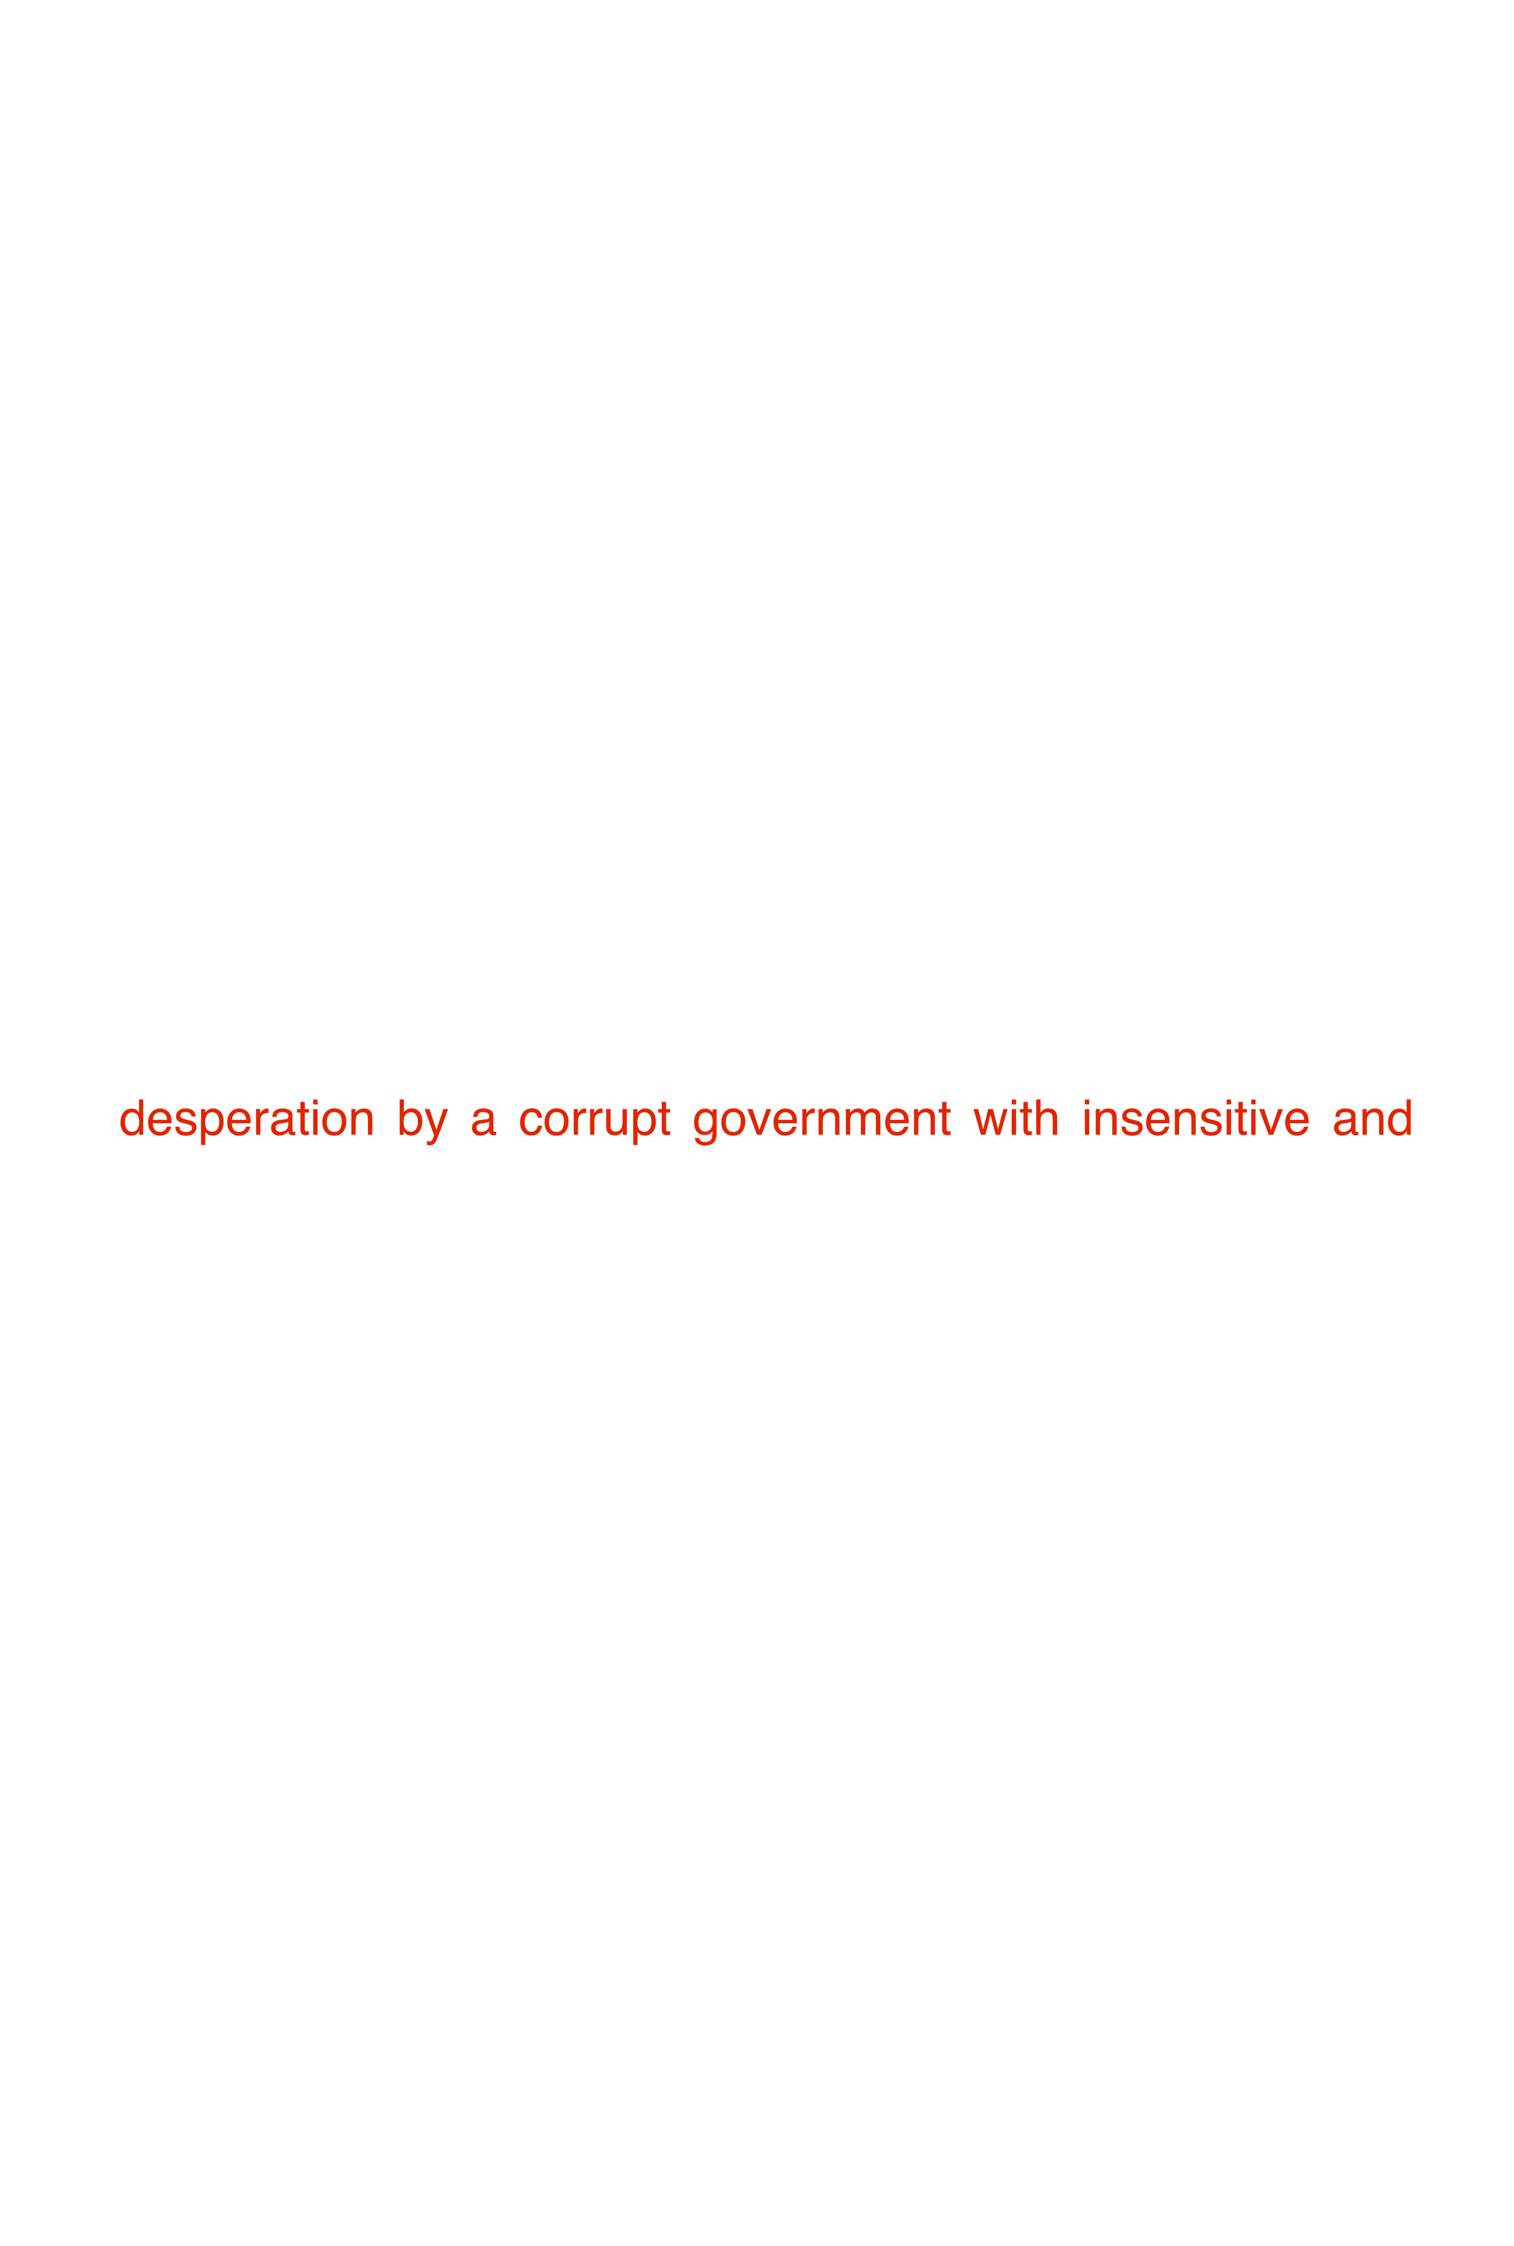

method of financial control and redaction of my supports

and prosperity will be voided, and they will not have to

worry about my intentions to criminalize them for their

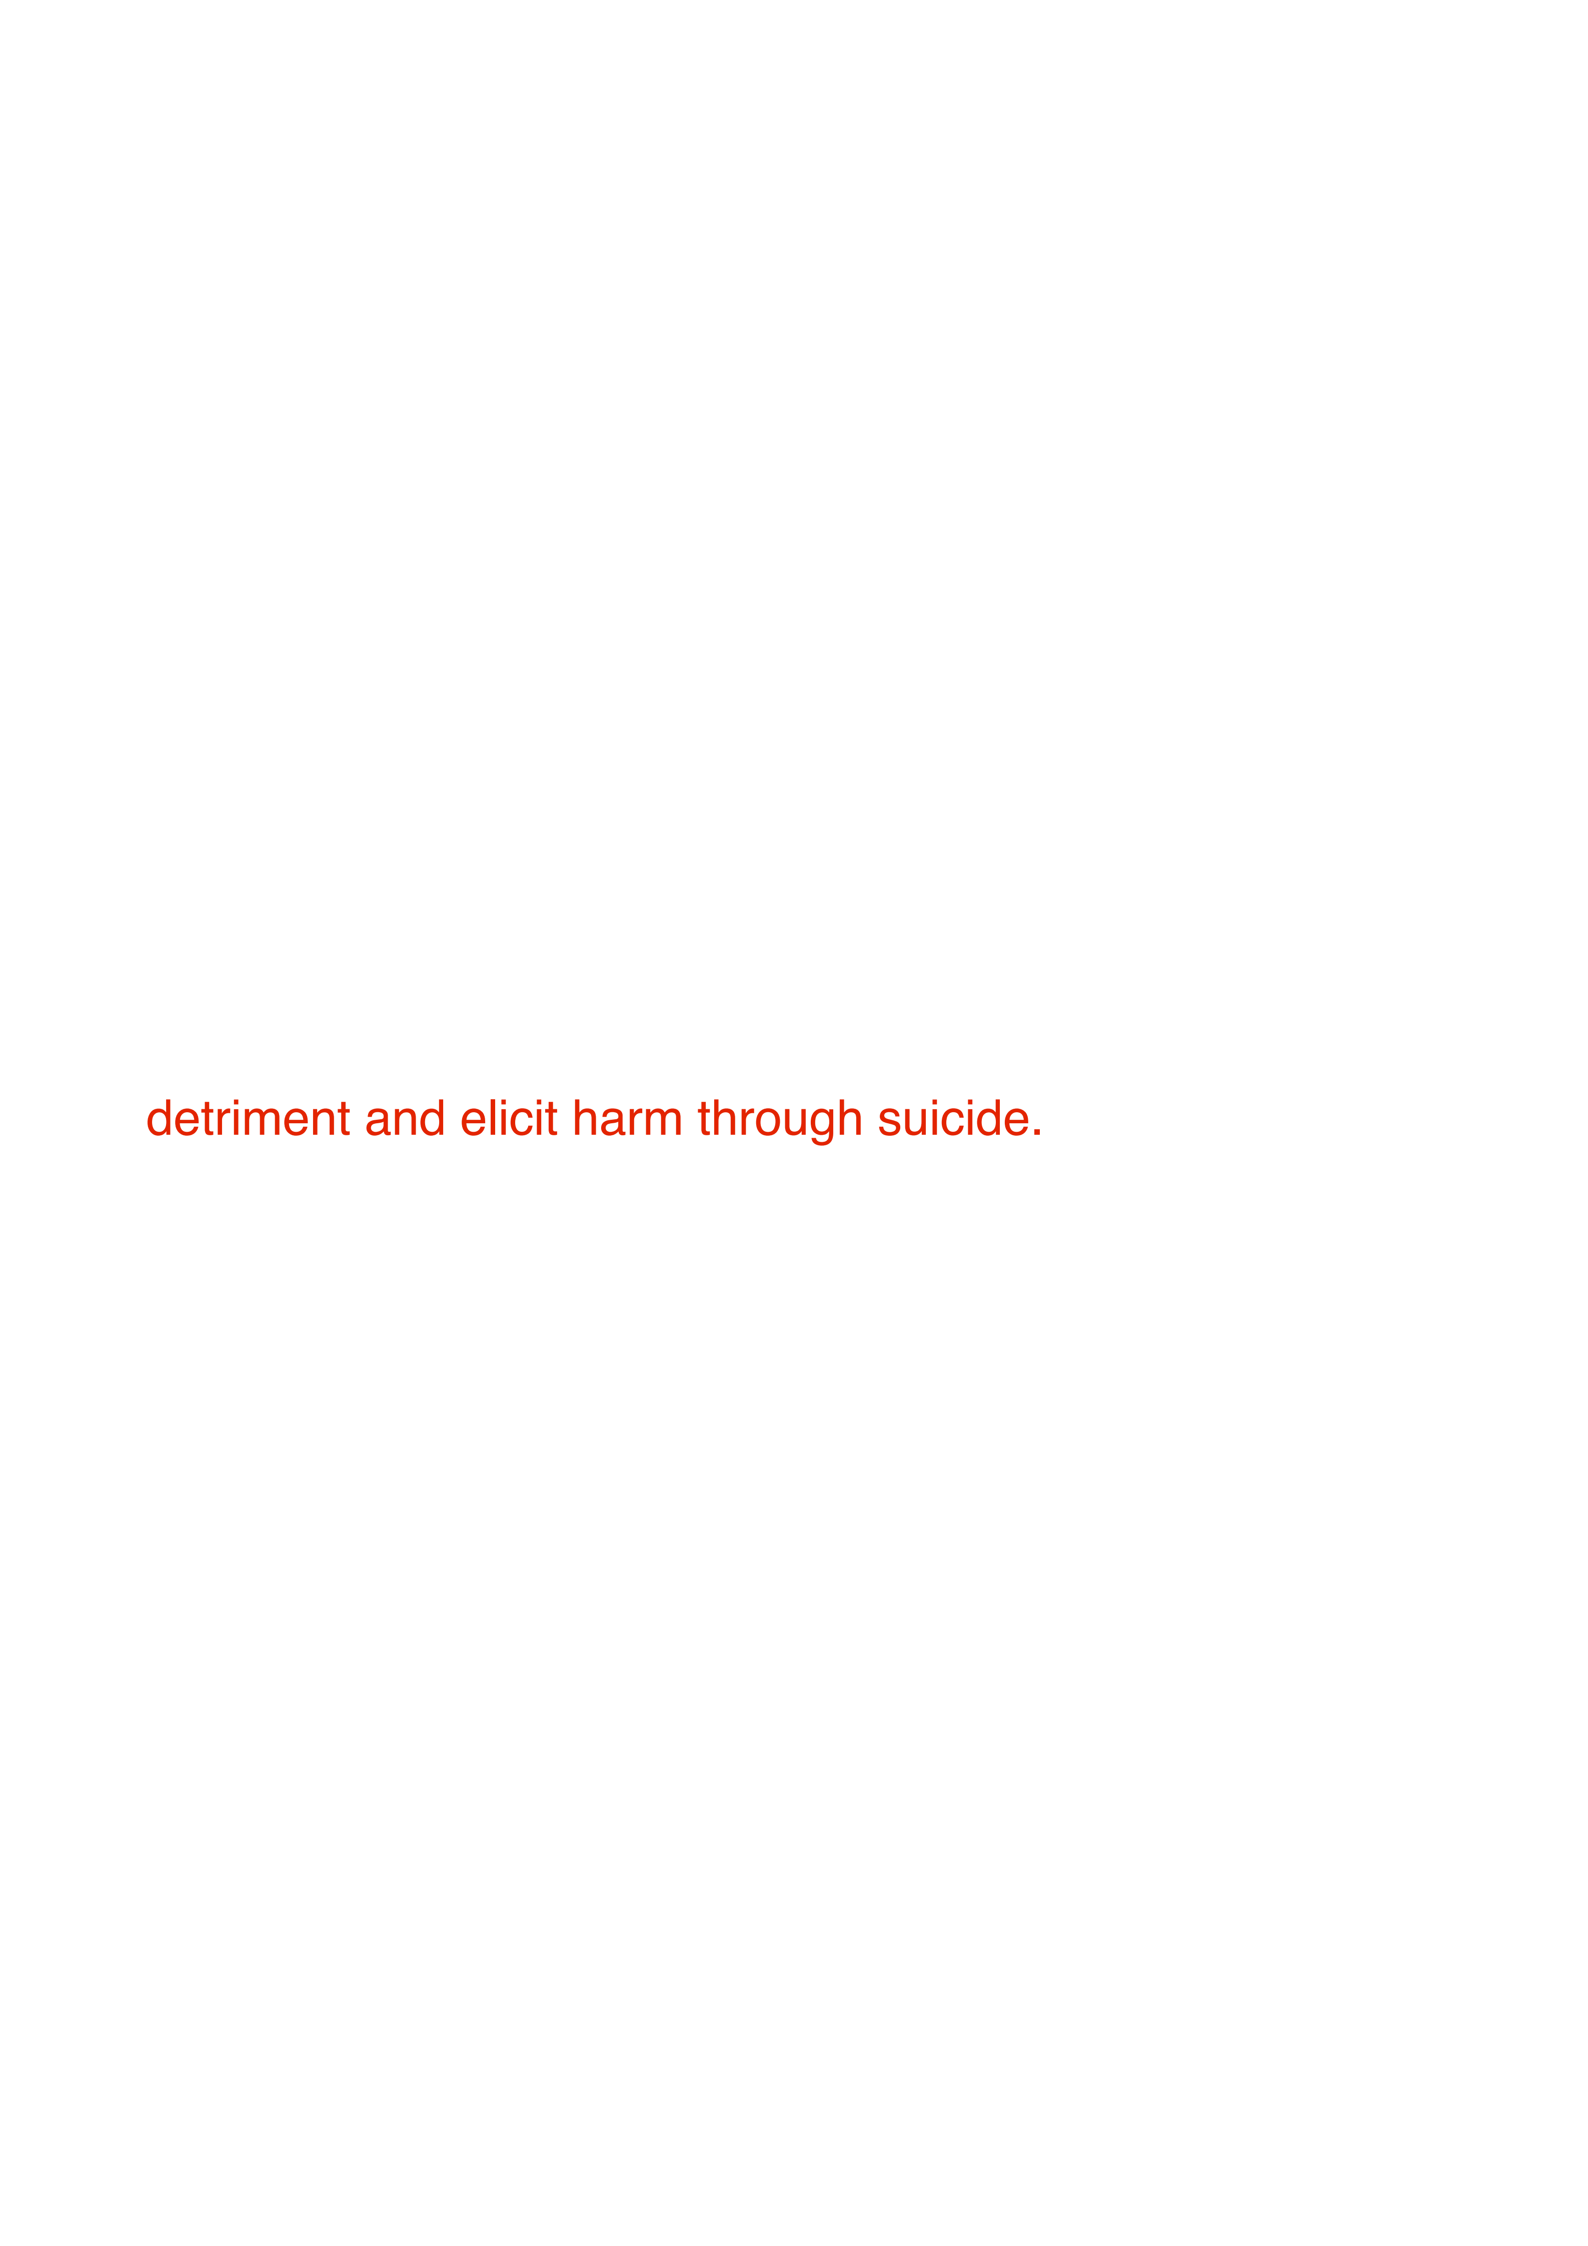

malice to kill.

No longer will I be held in bondage to poverty and

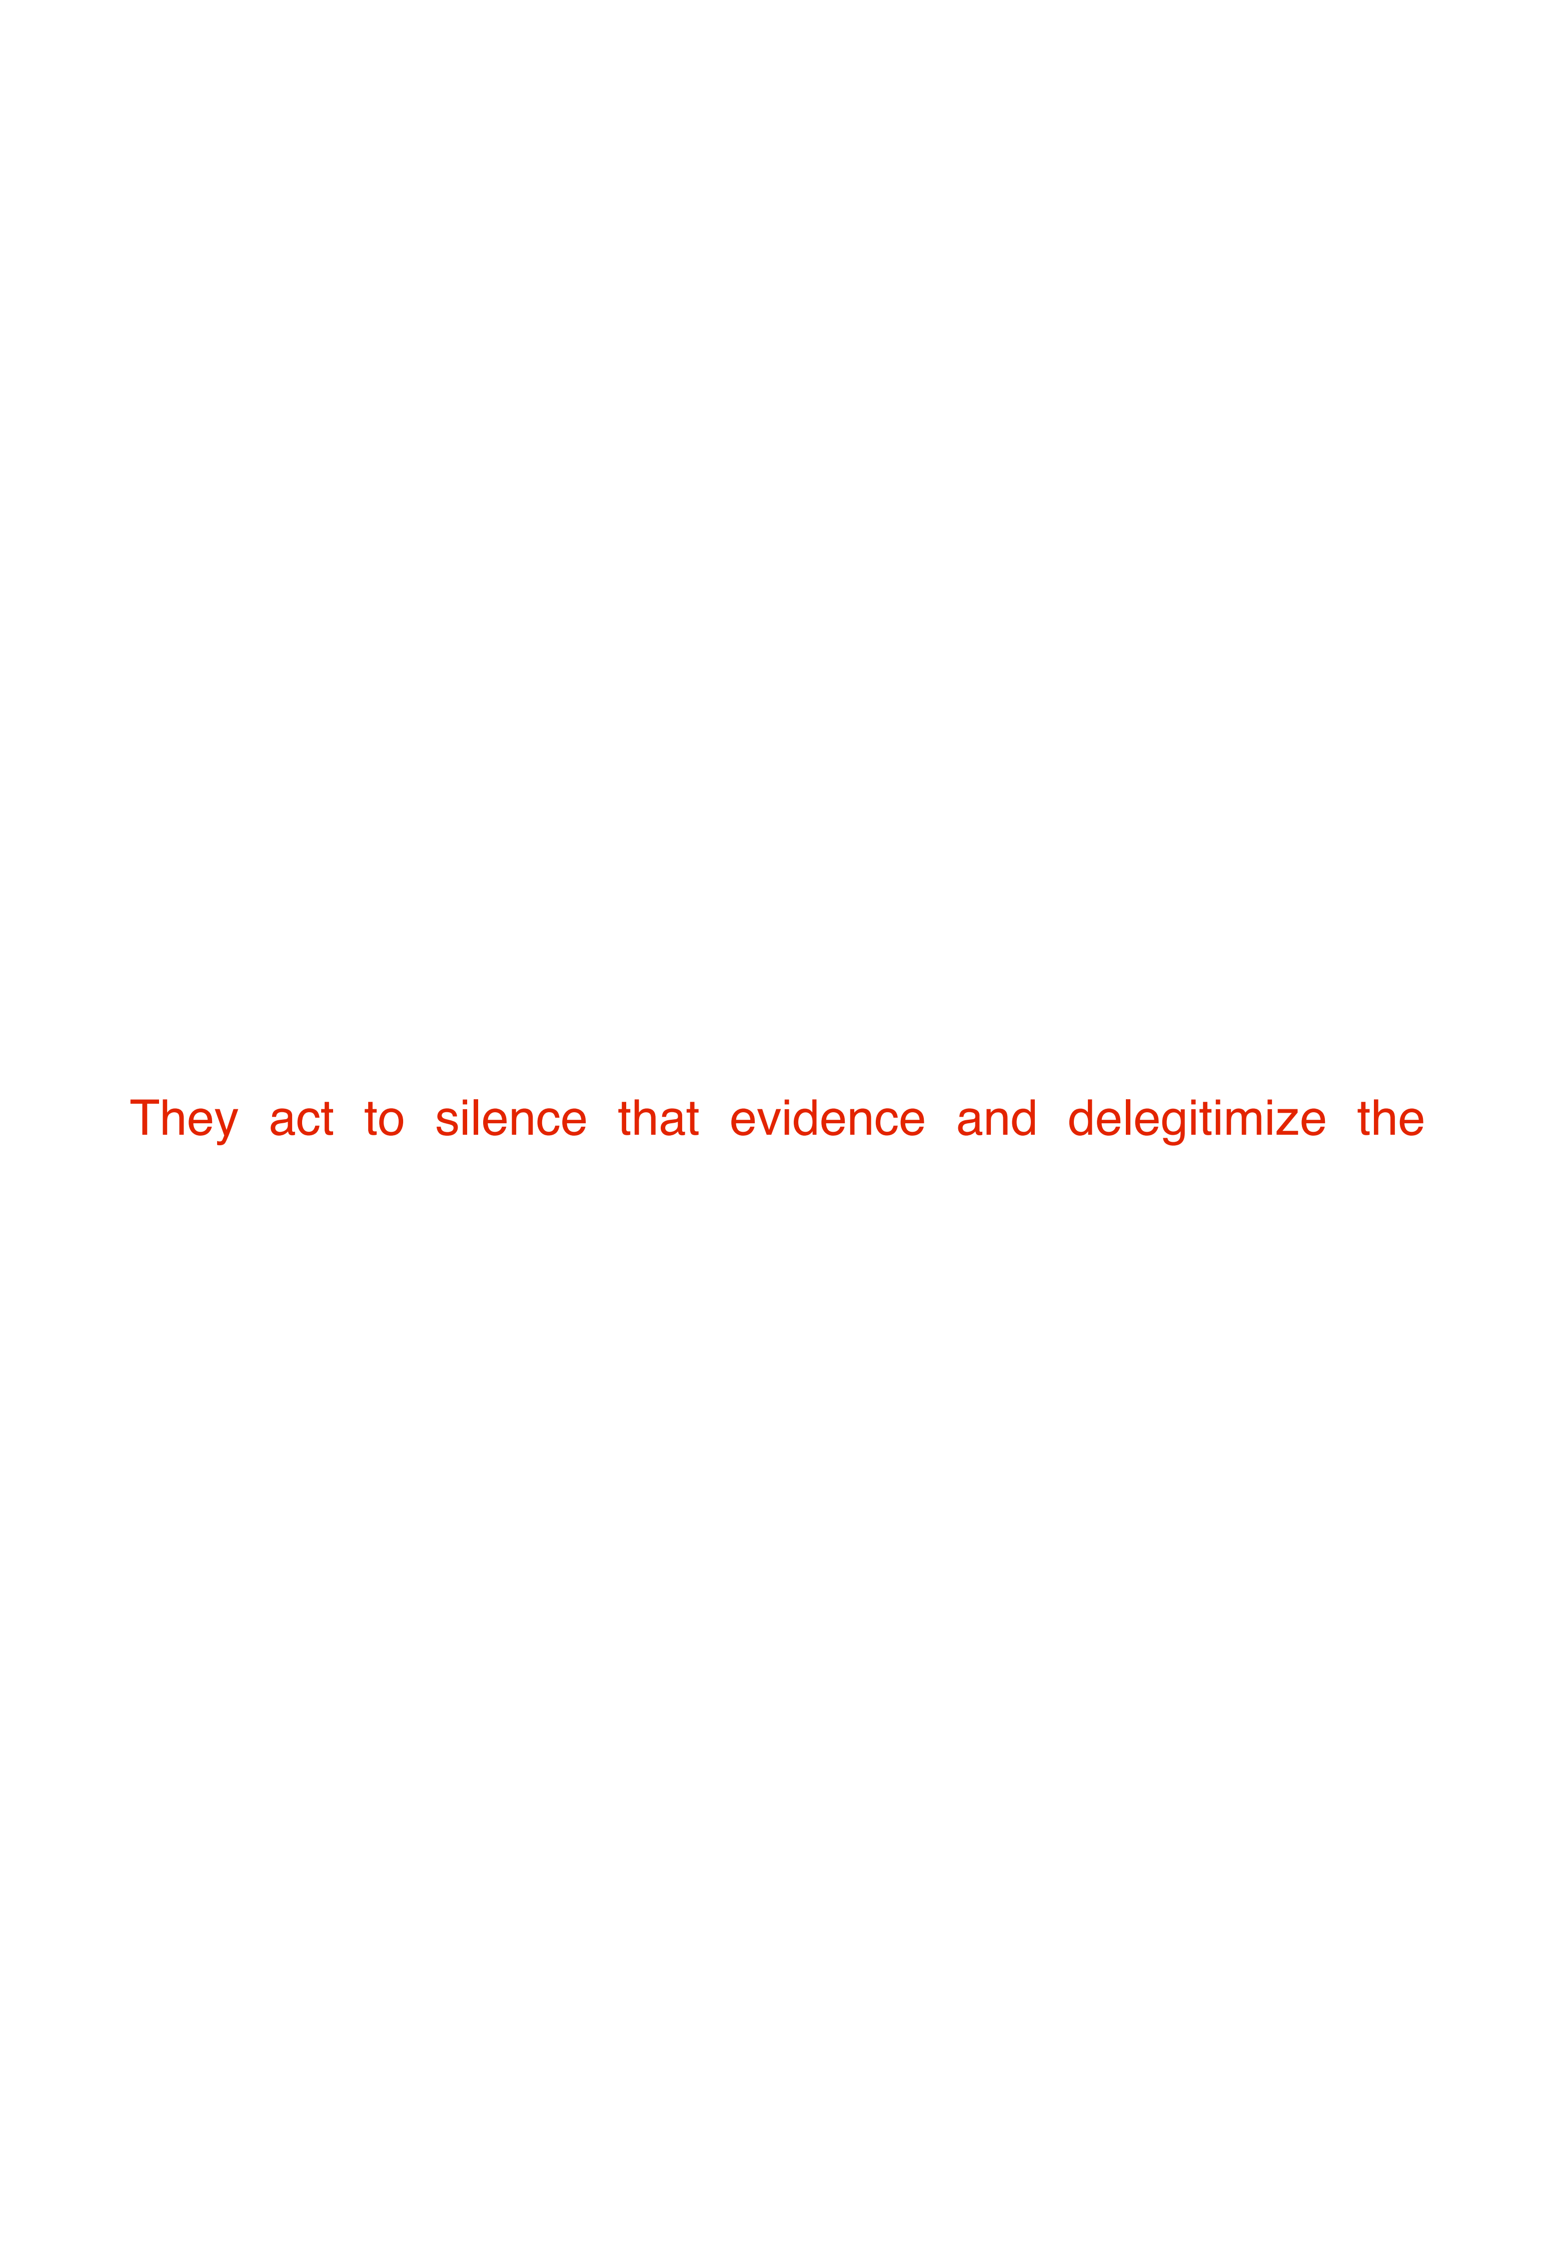

desperation by a corrupt government with insensitive and

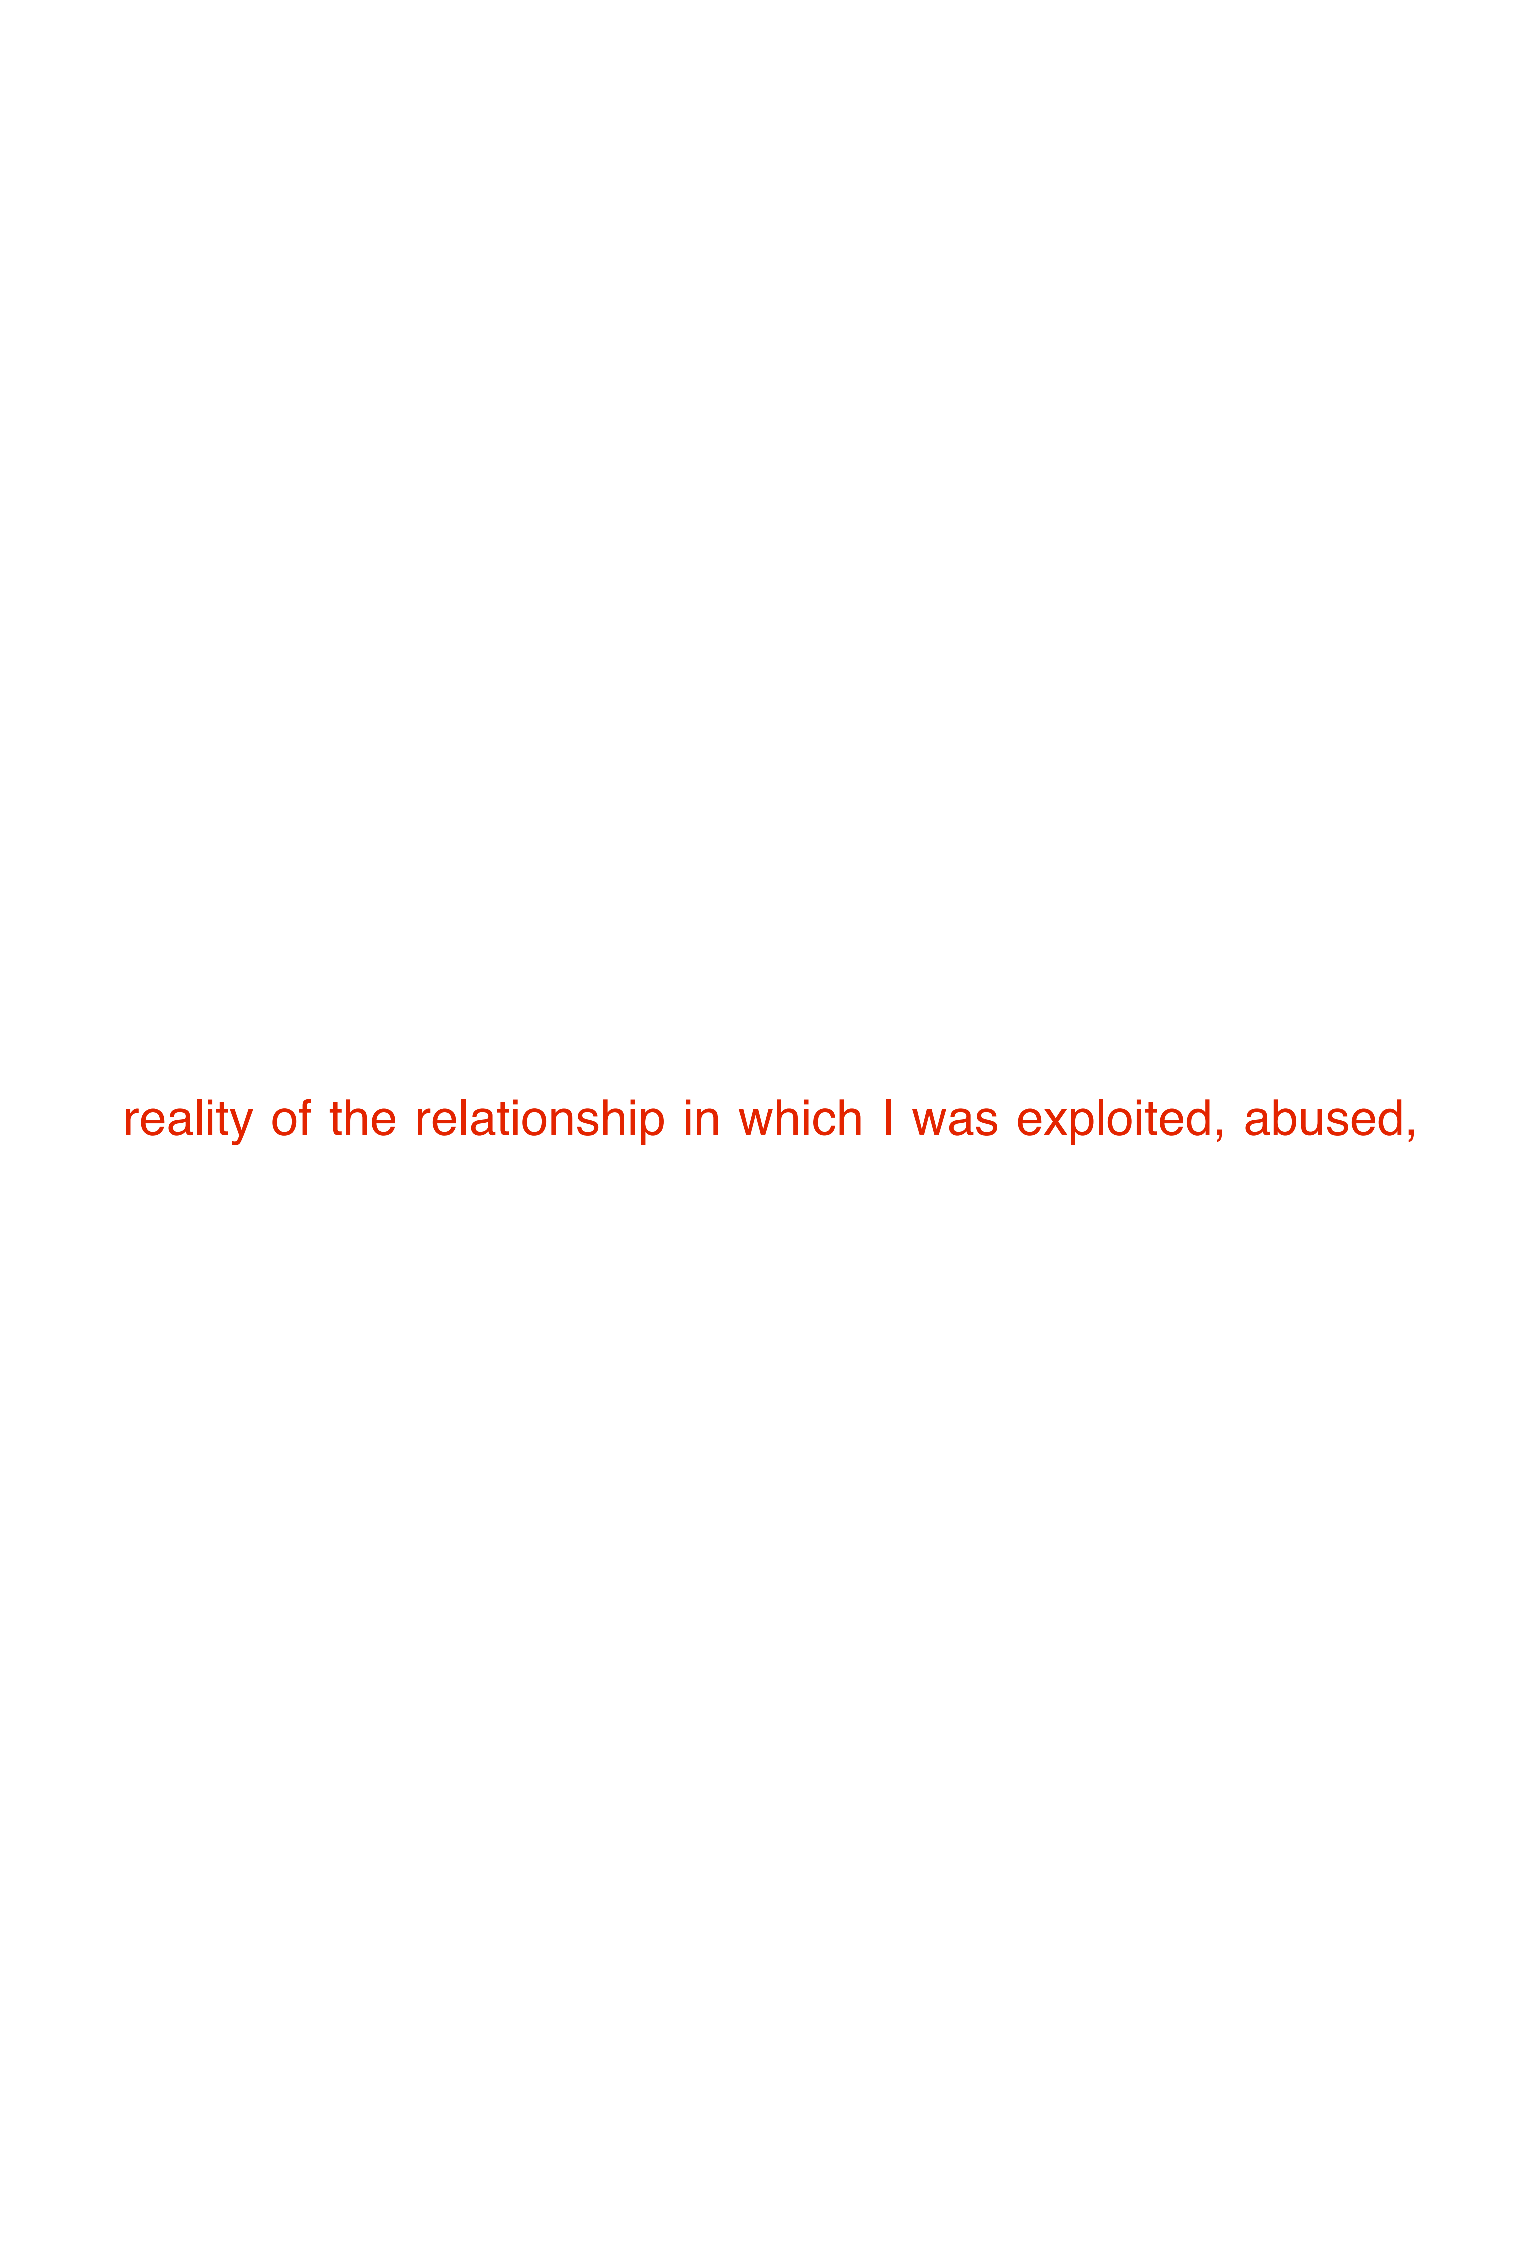

cruel public officials who act intentionally to cause my

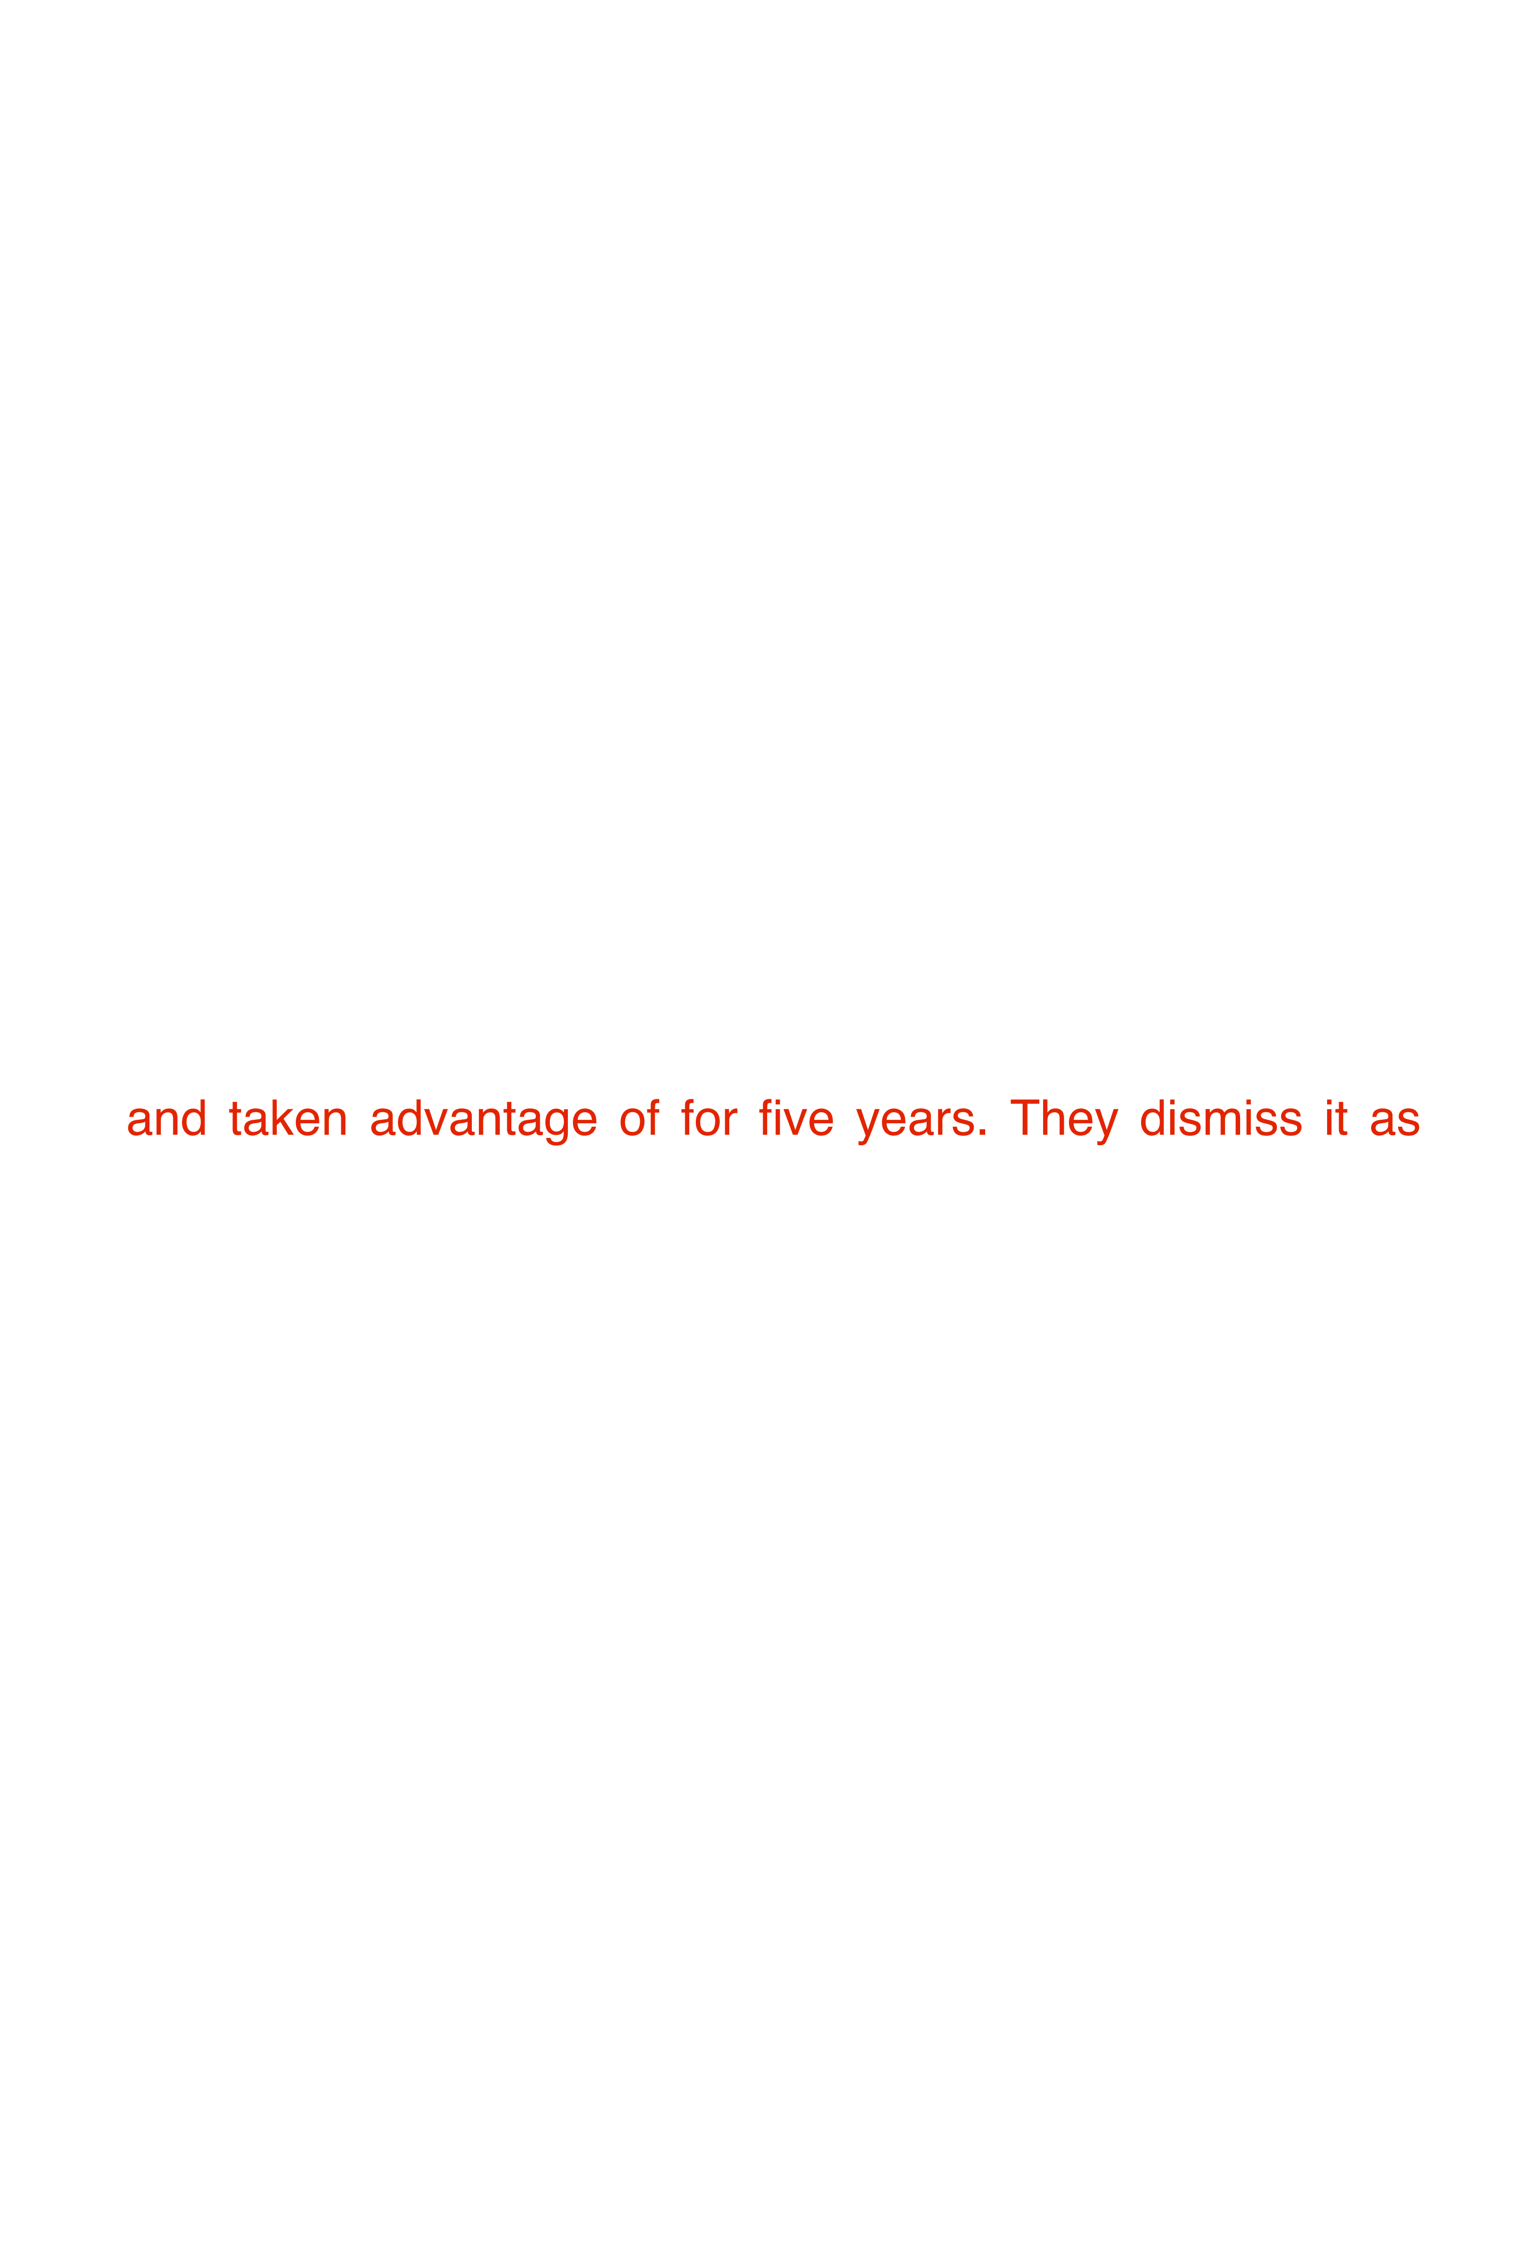

detriment and elicit harm through suicide.

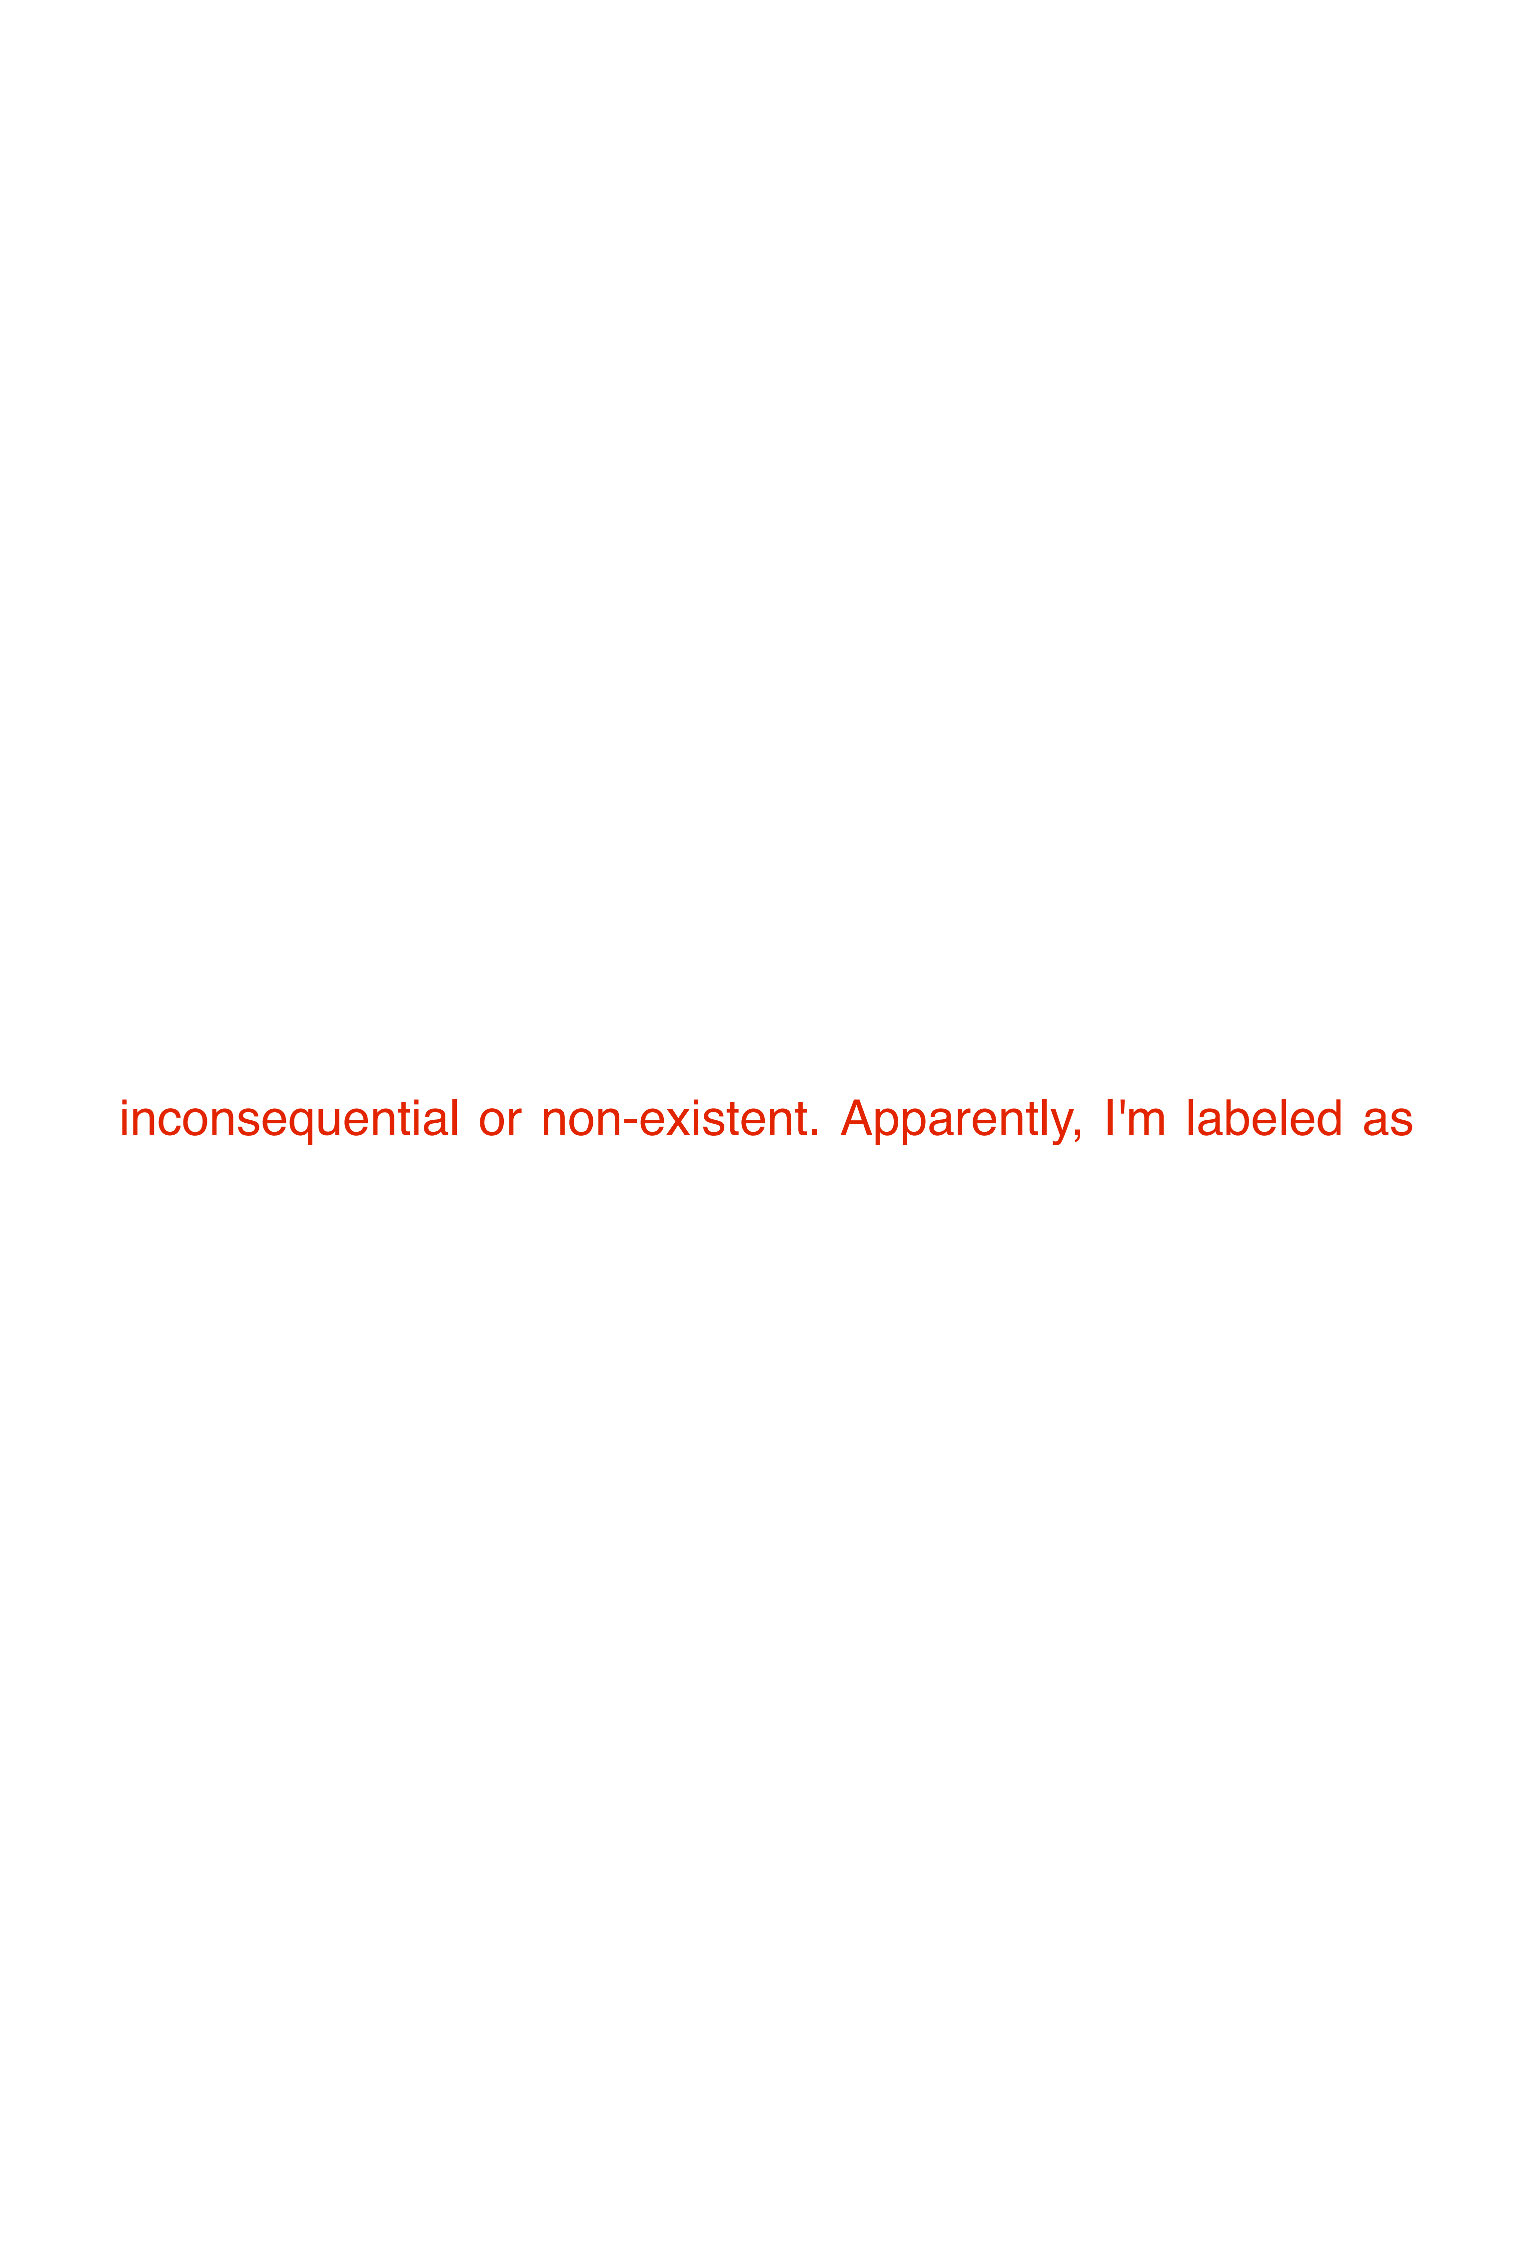

The same public officials delegitimize my evidence

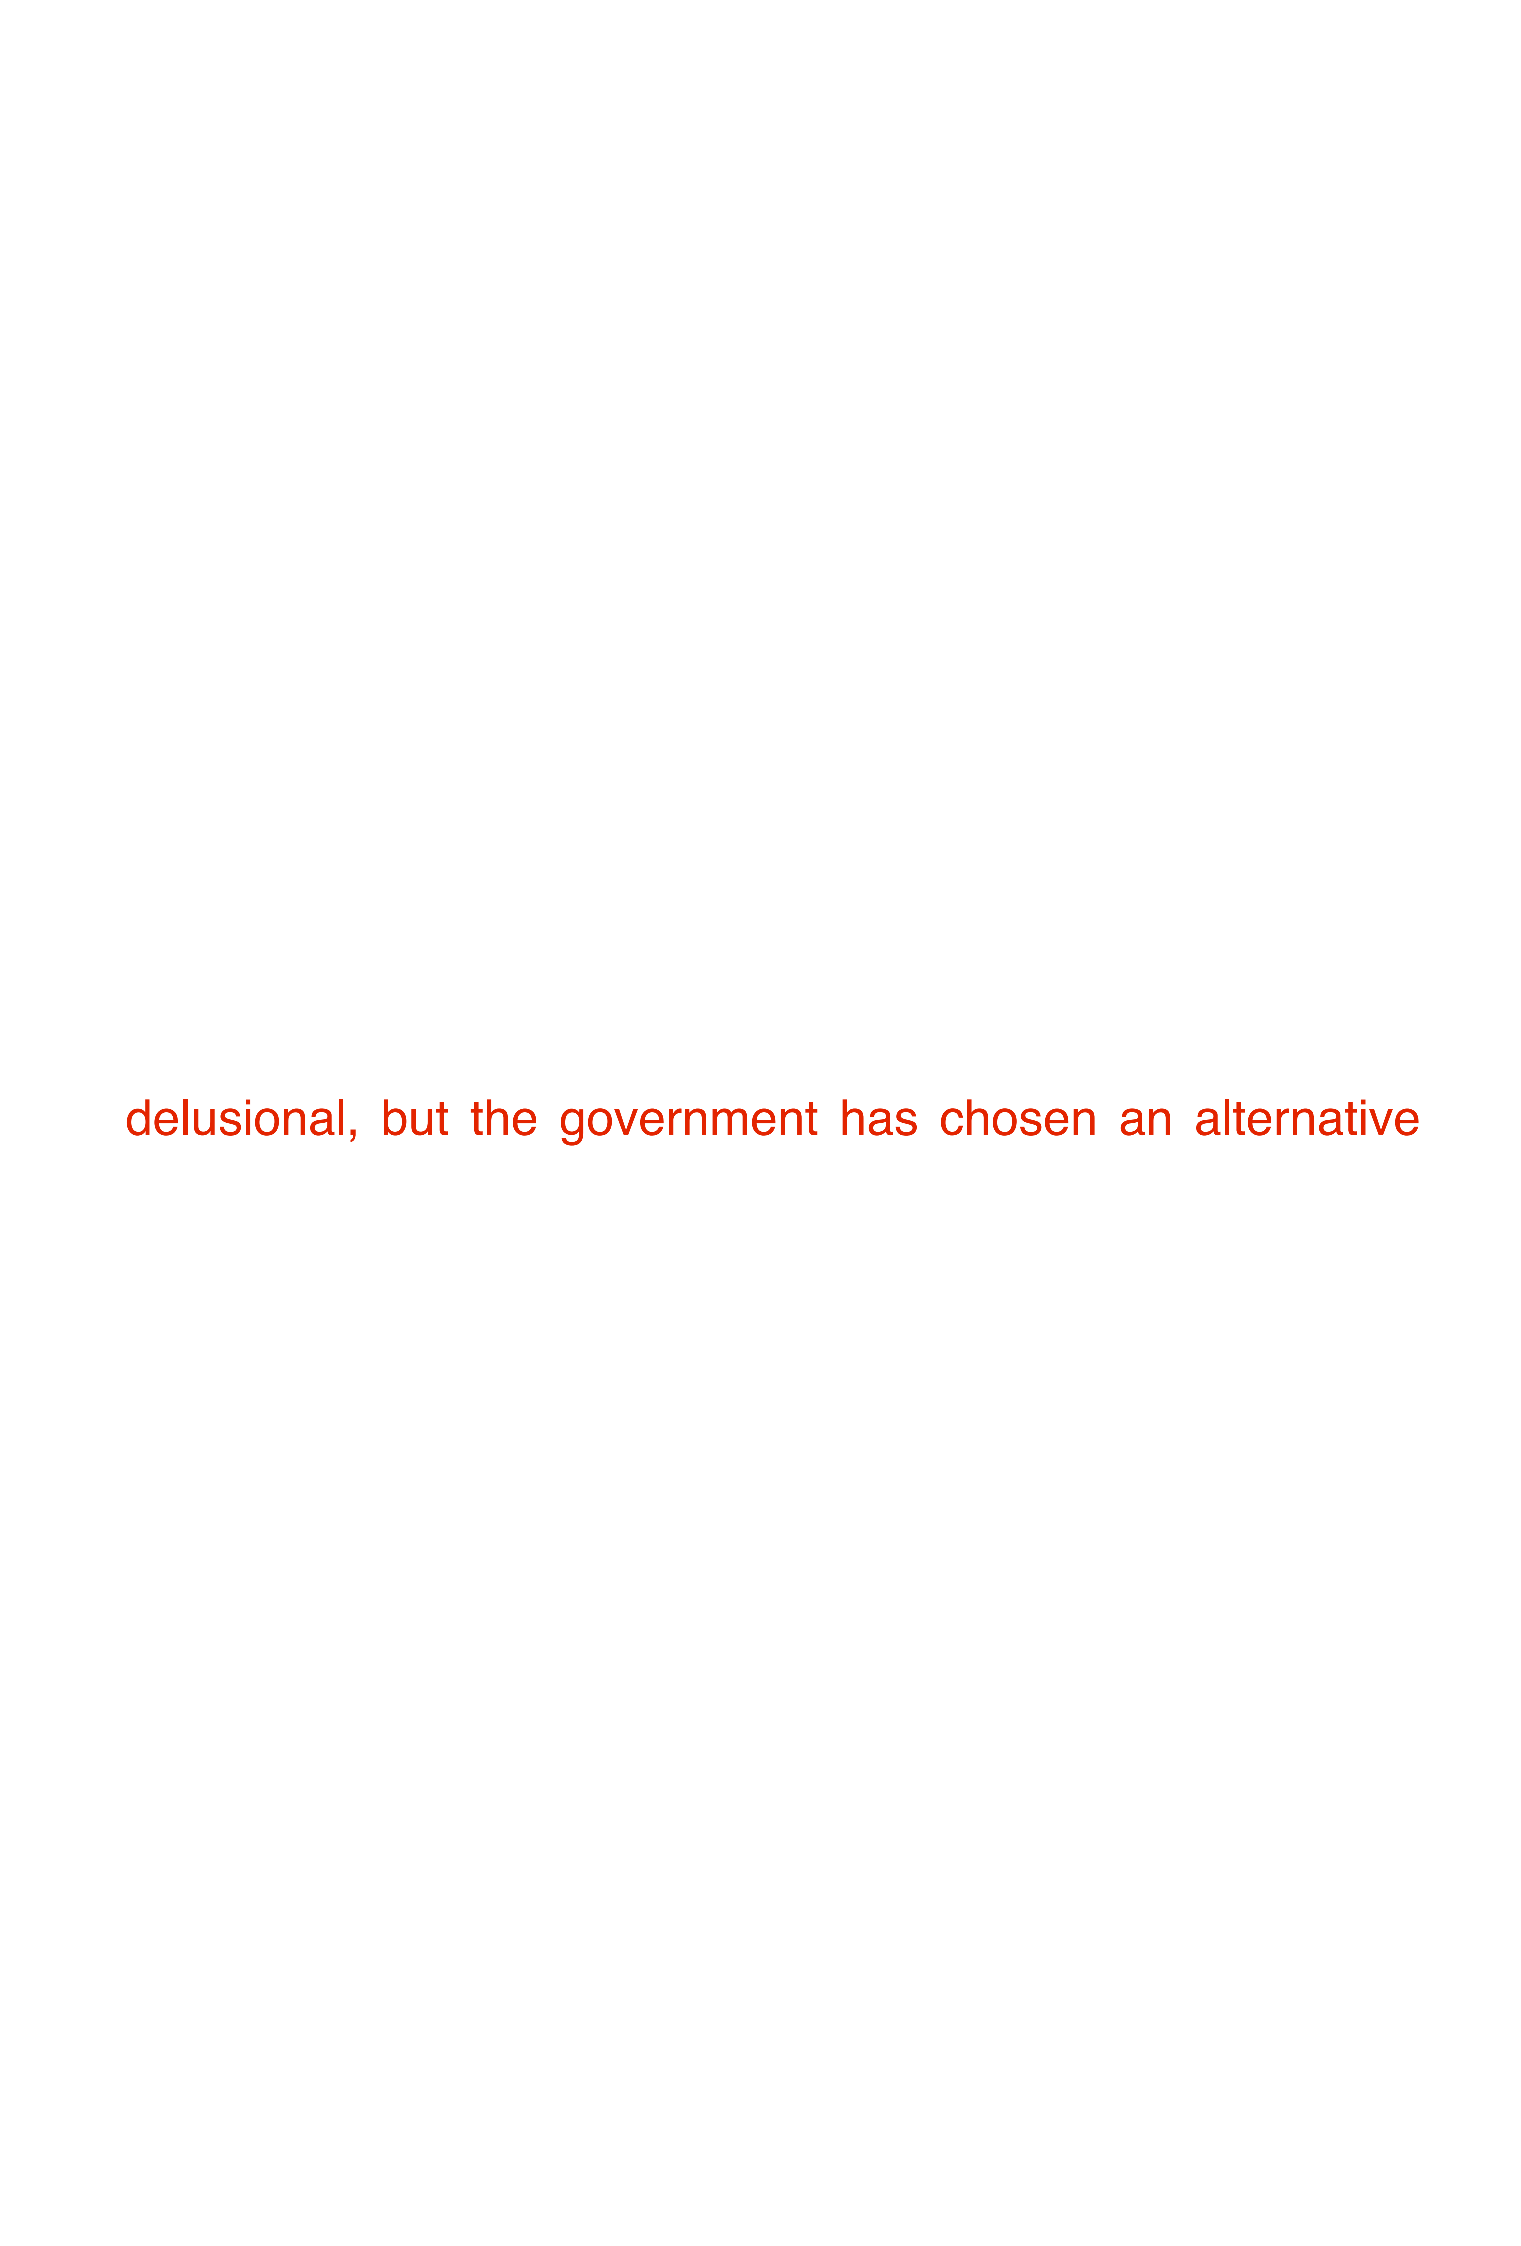

regarding my engagement to ASIO agent Stefan Iasonidis.

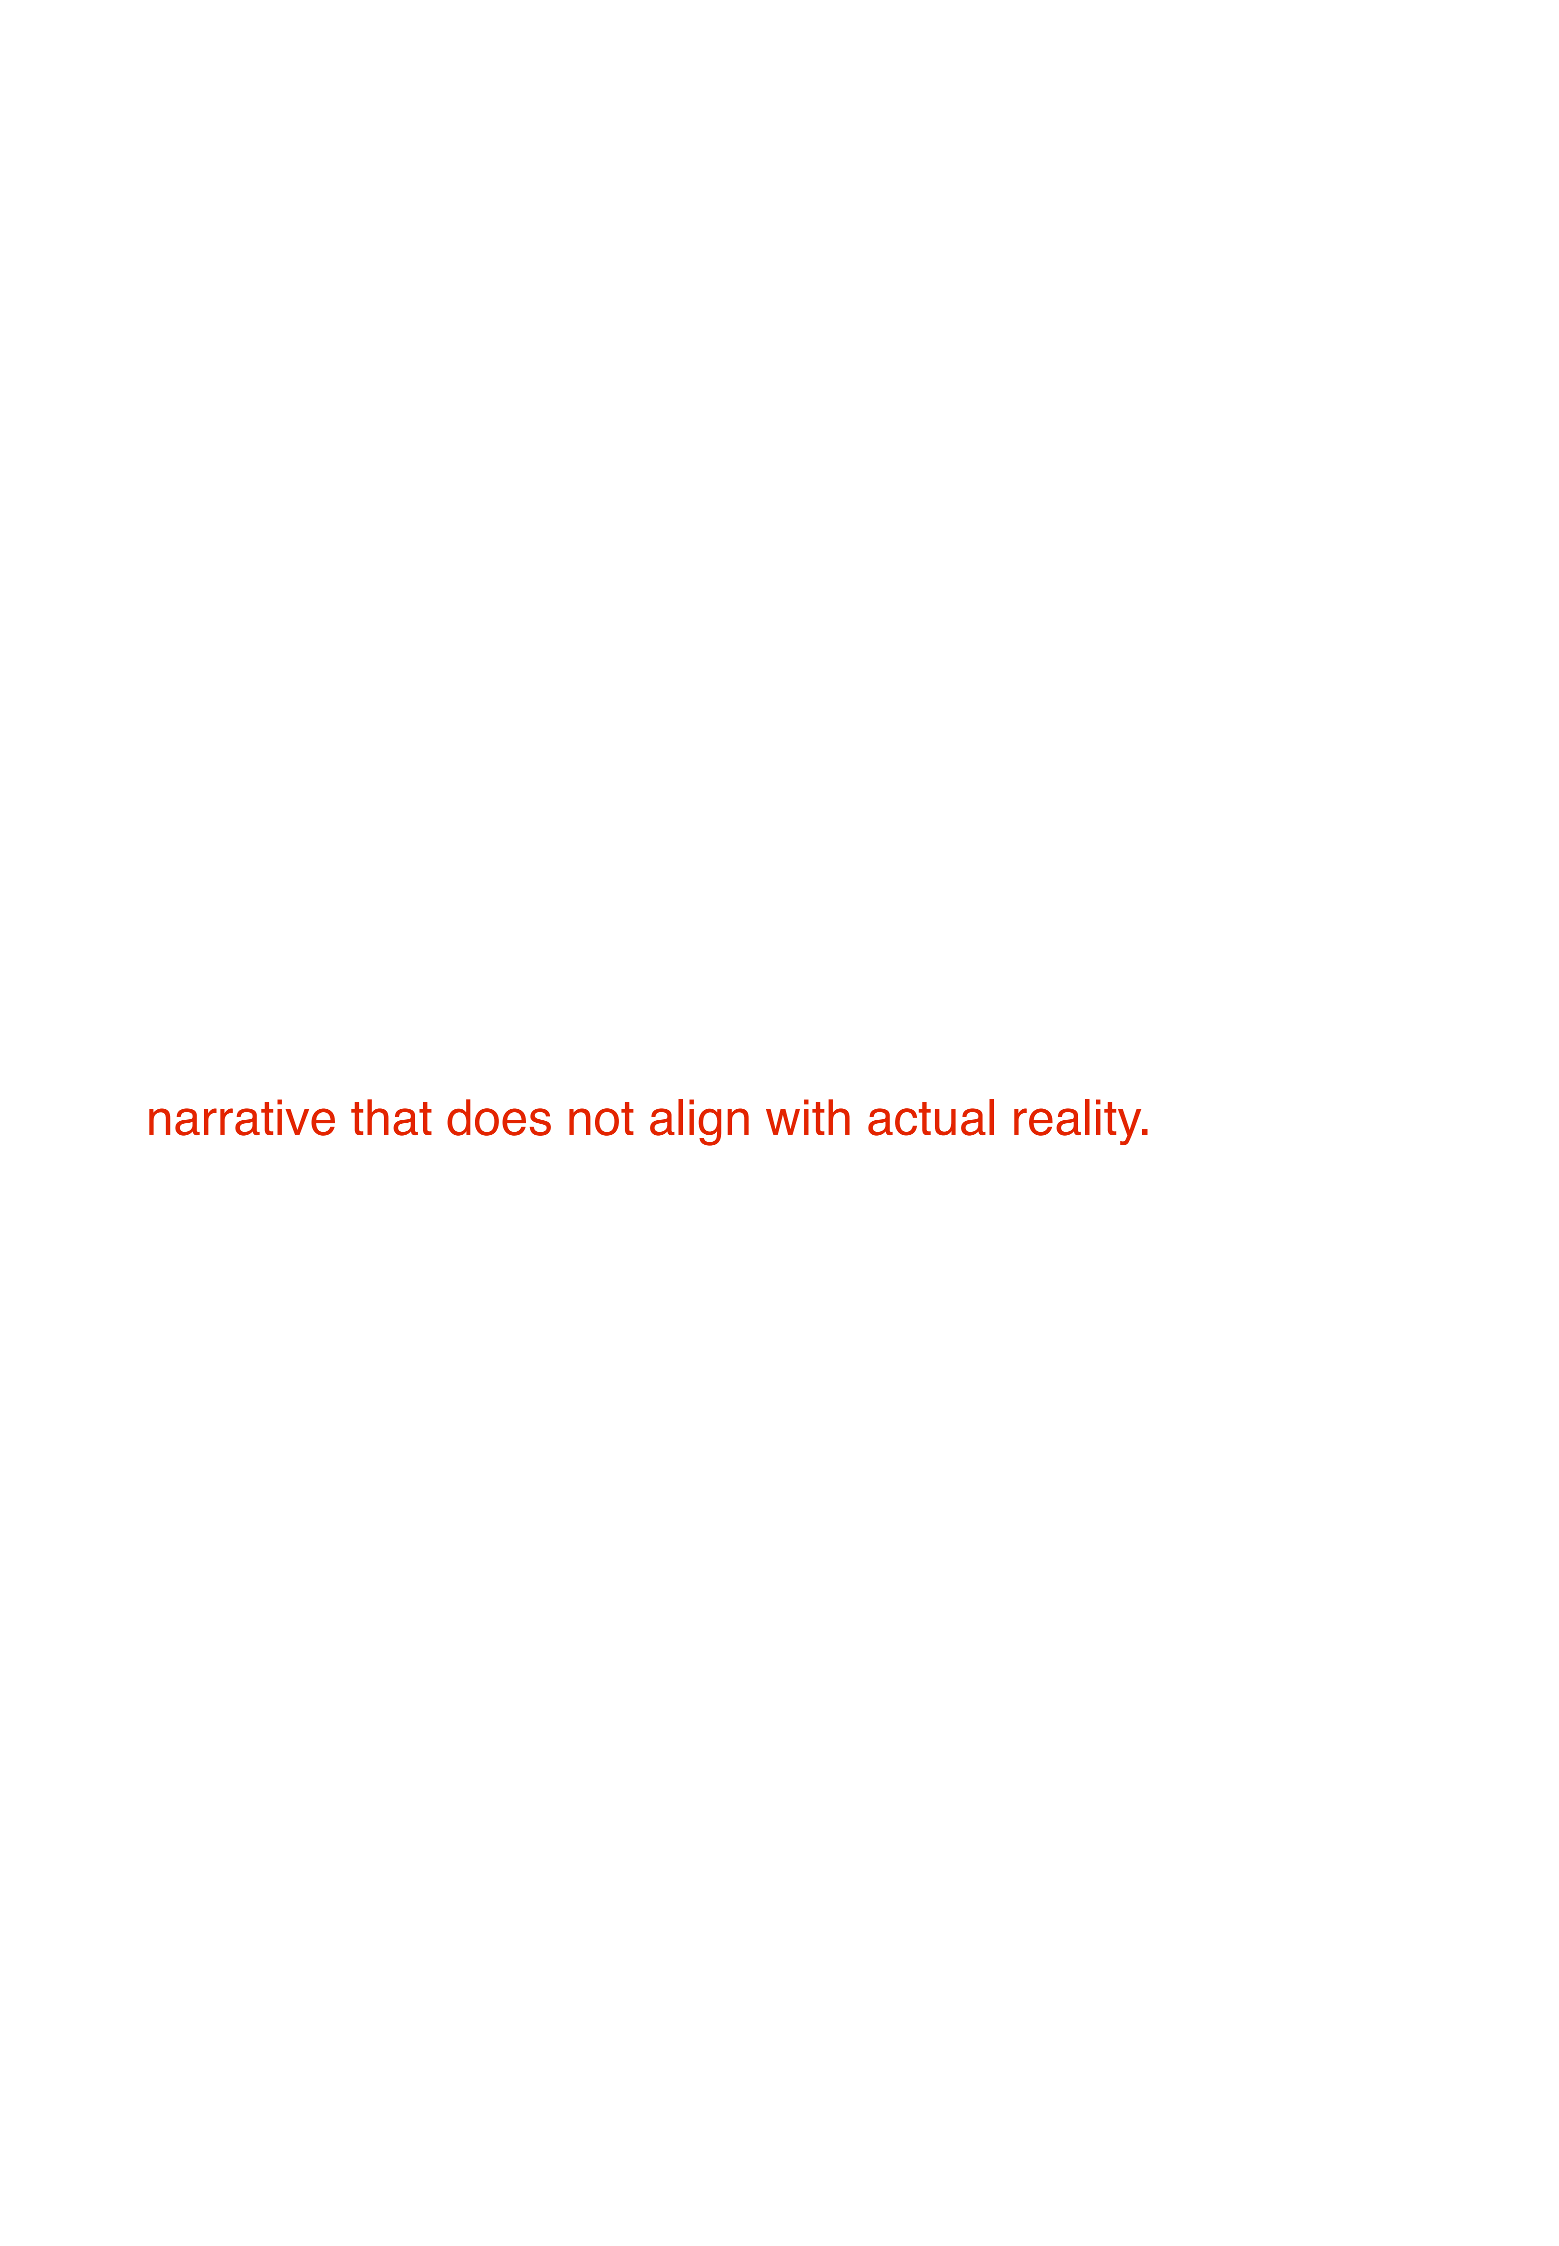

They act to silence that evidence and delegitimize the

reality of the relationship in which I was exploited, abused,

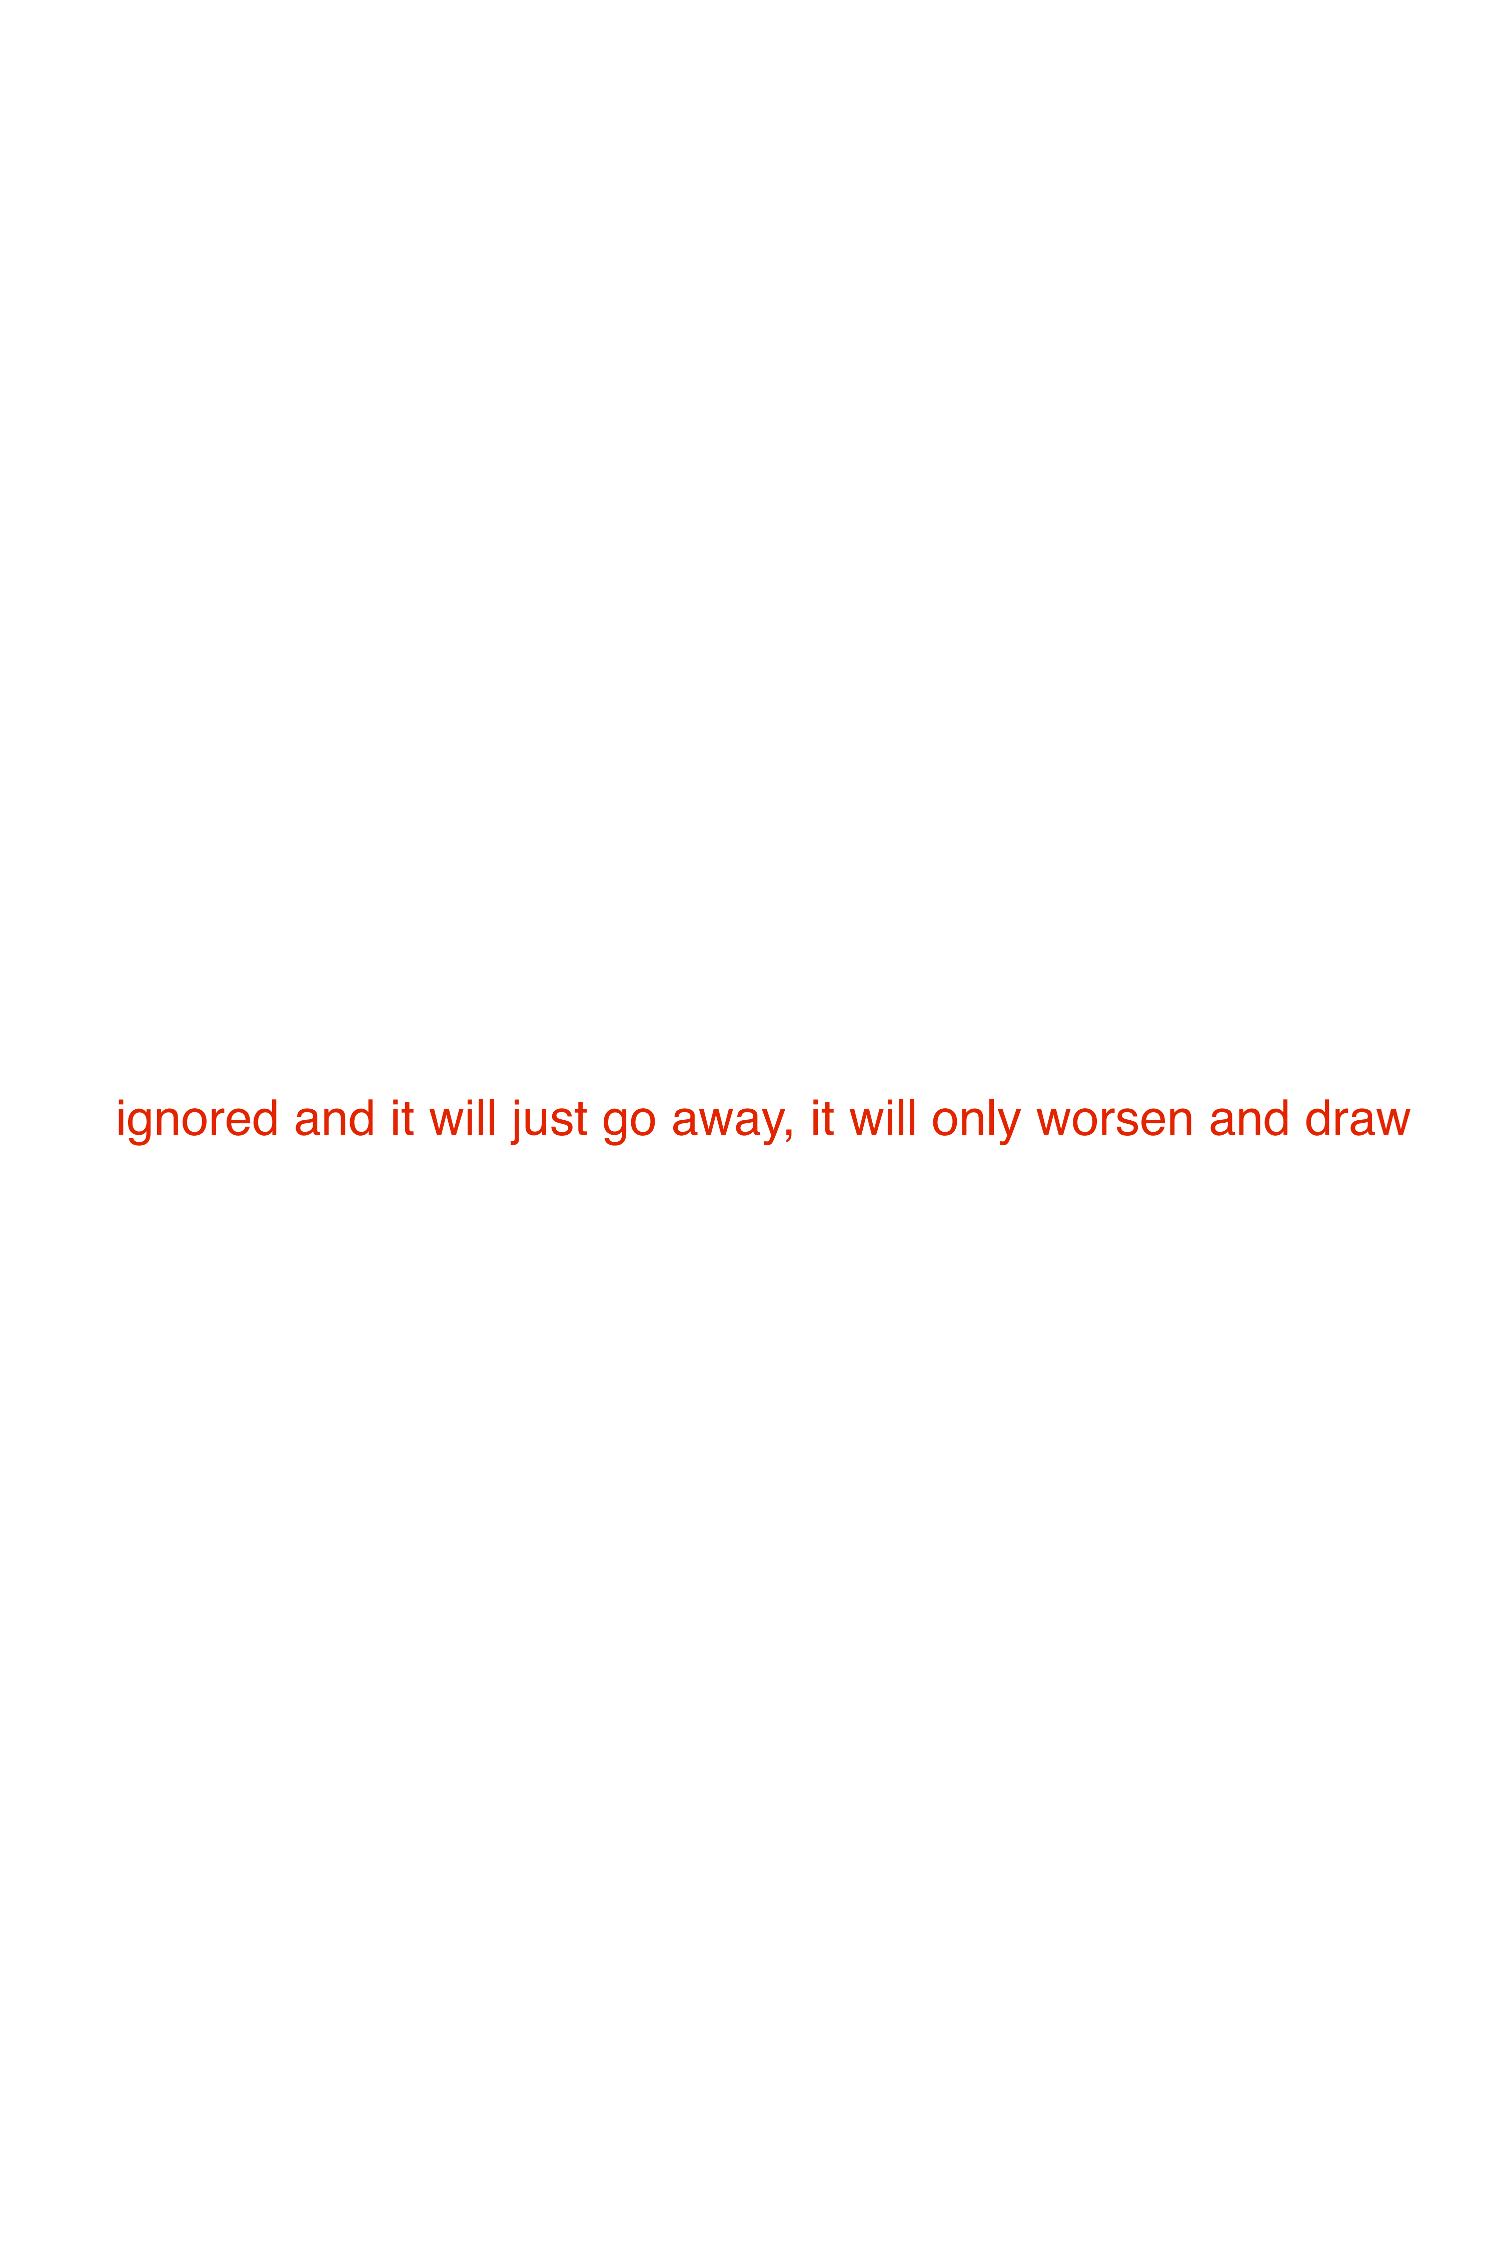

and taken advantage of for five years. They dismiss it as

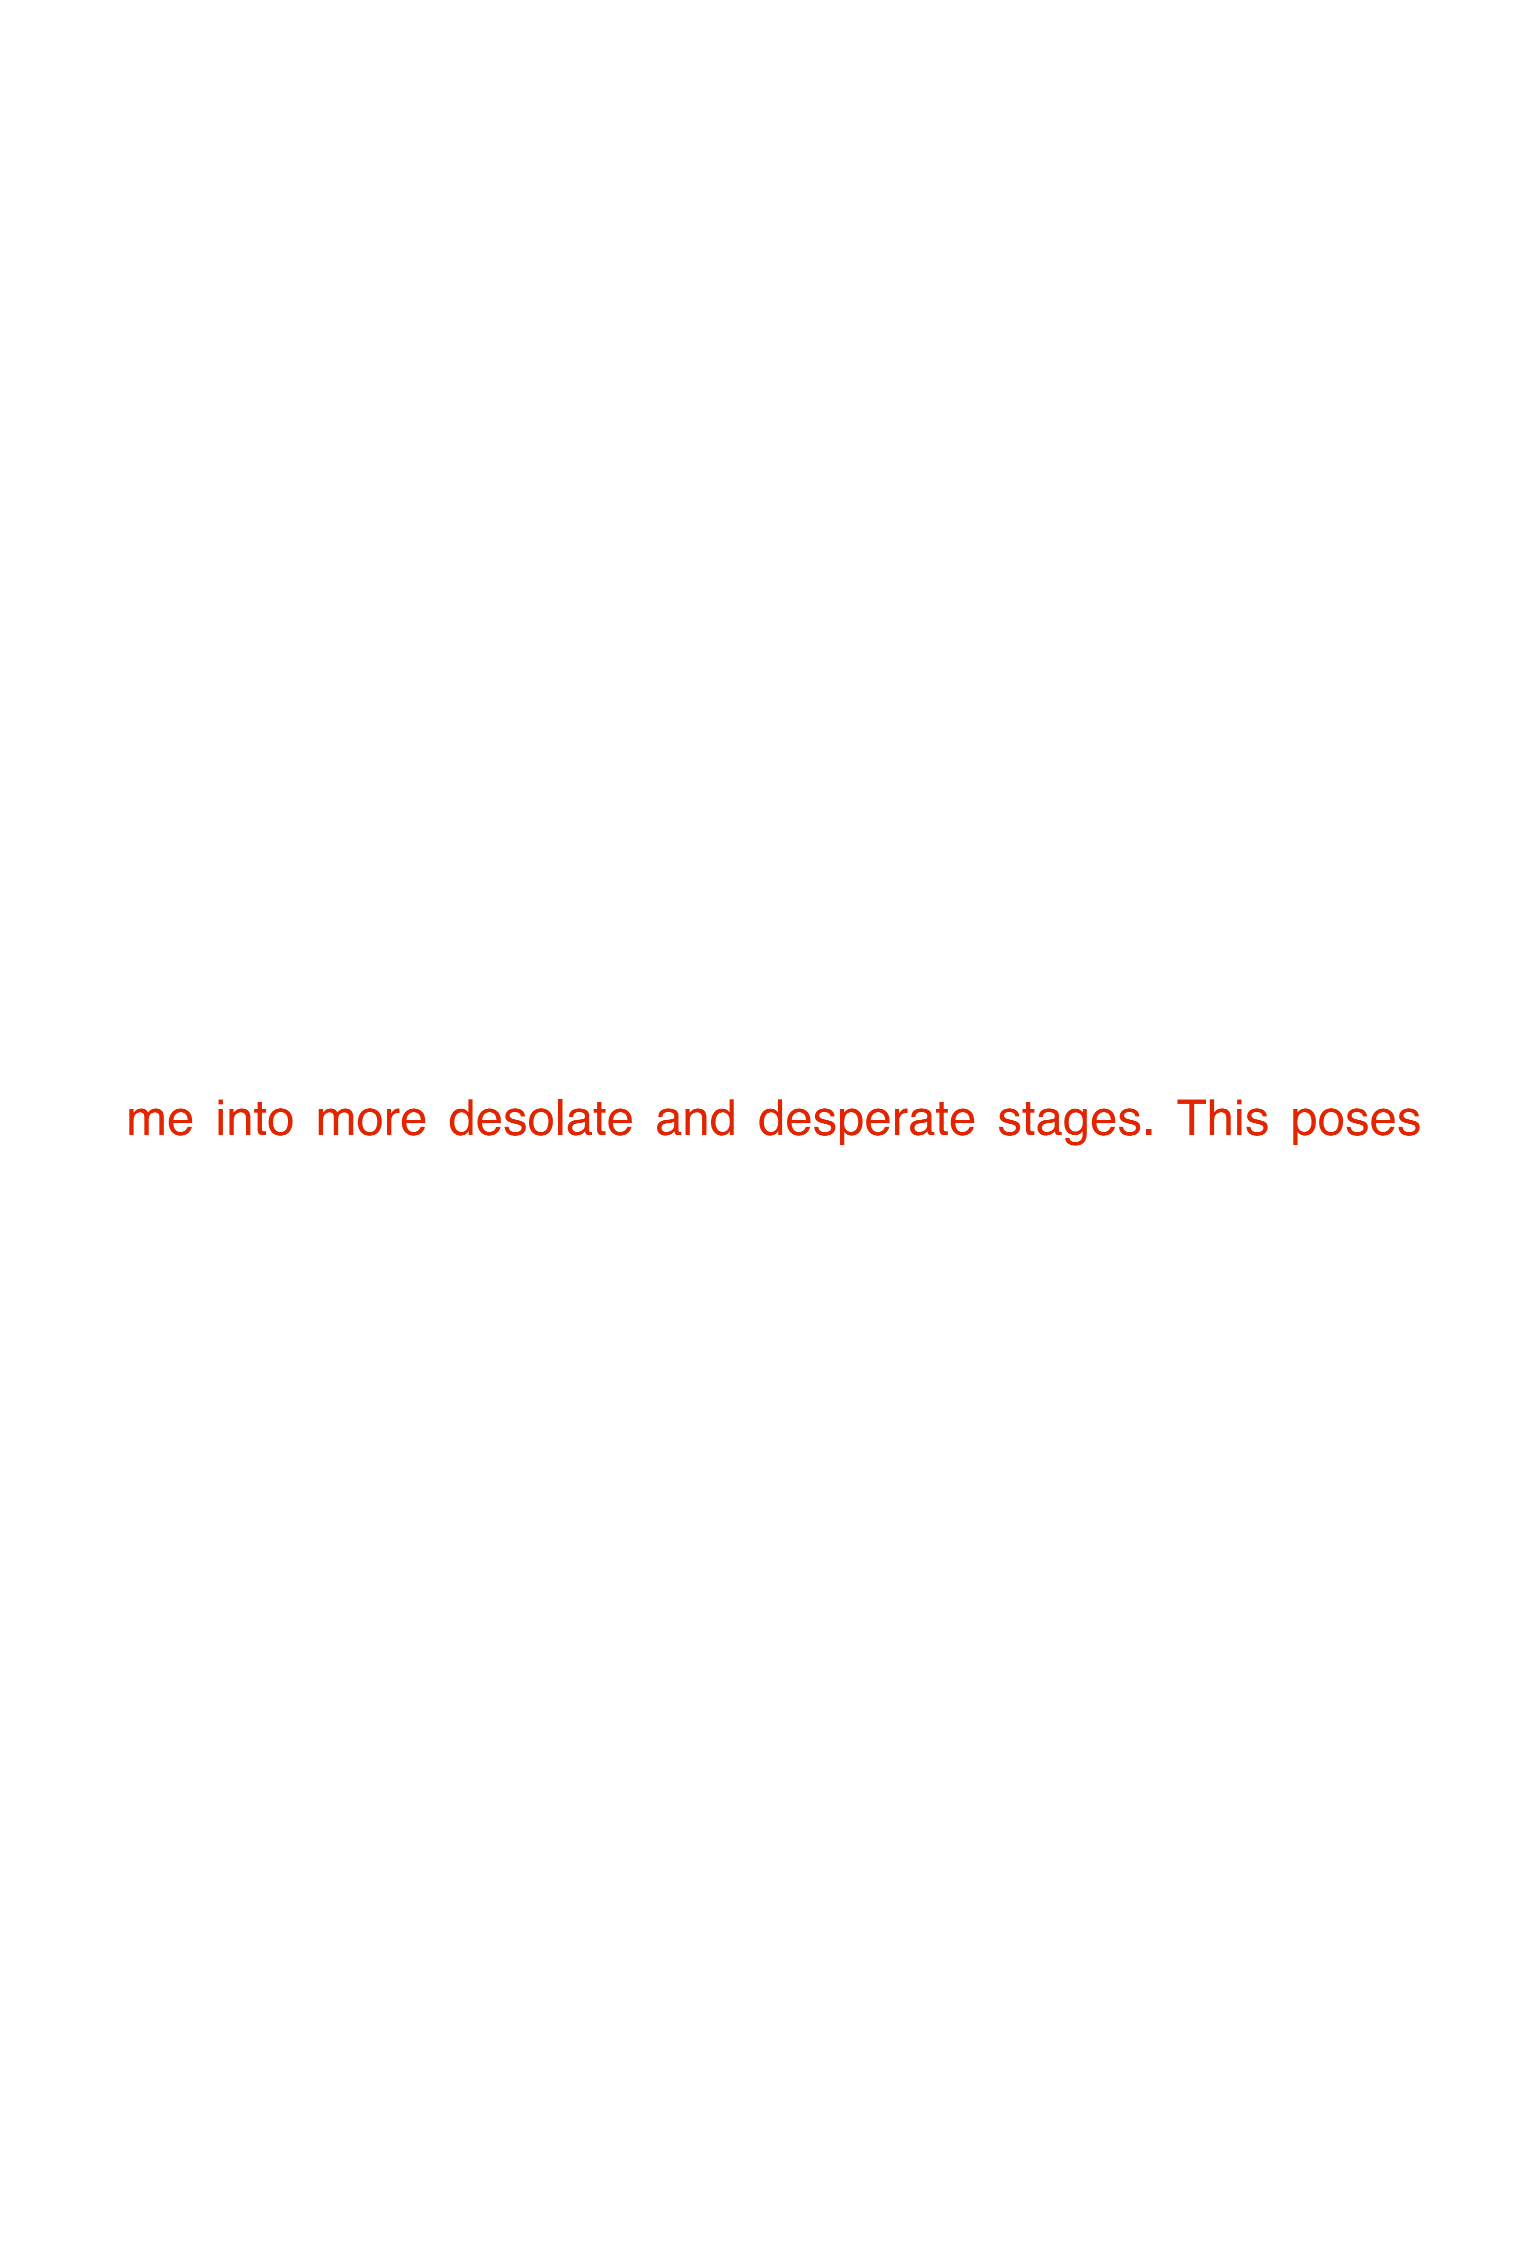

inconsequential or non-existent. Apparently, I'm labeled as

delusional, but the government has chosen an alternative

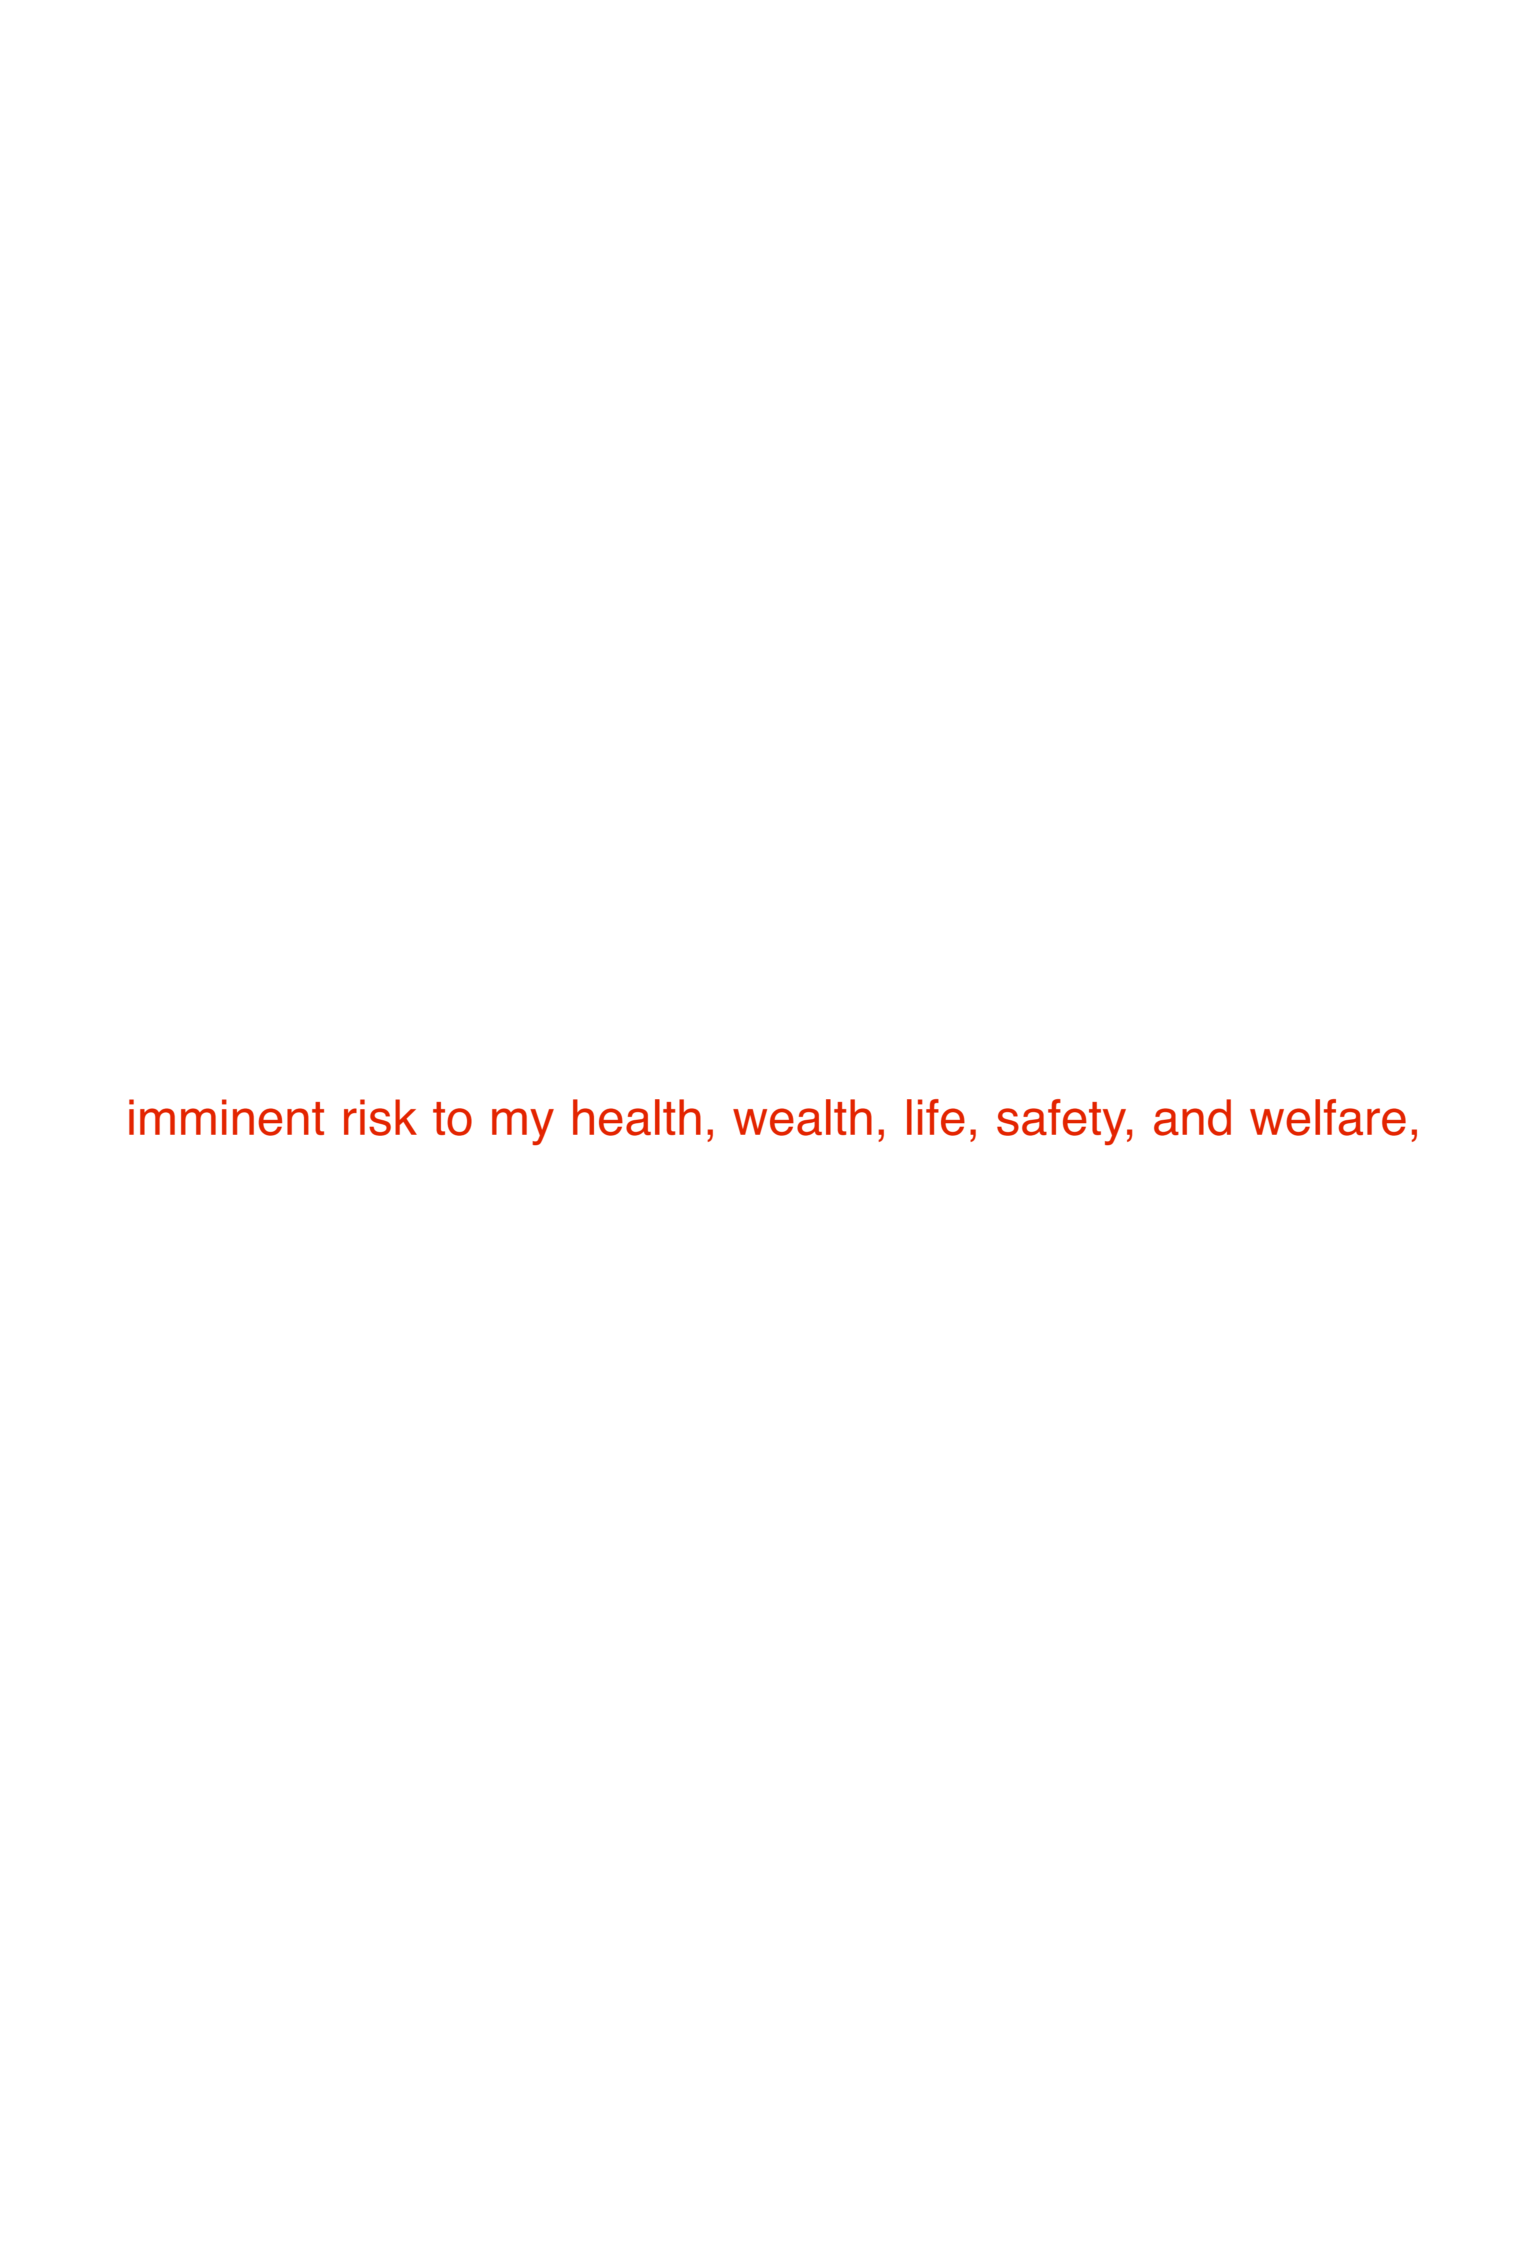

narrative that does not align with actual reality.

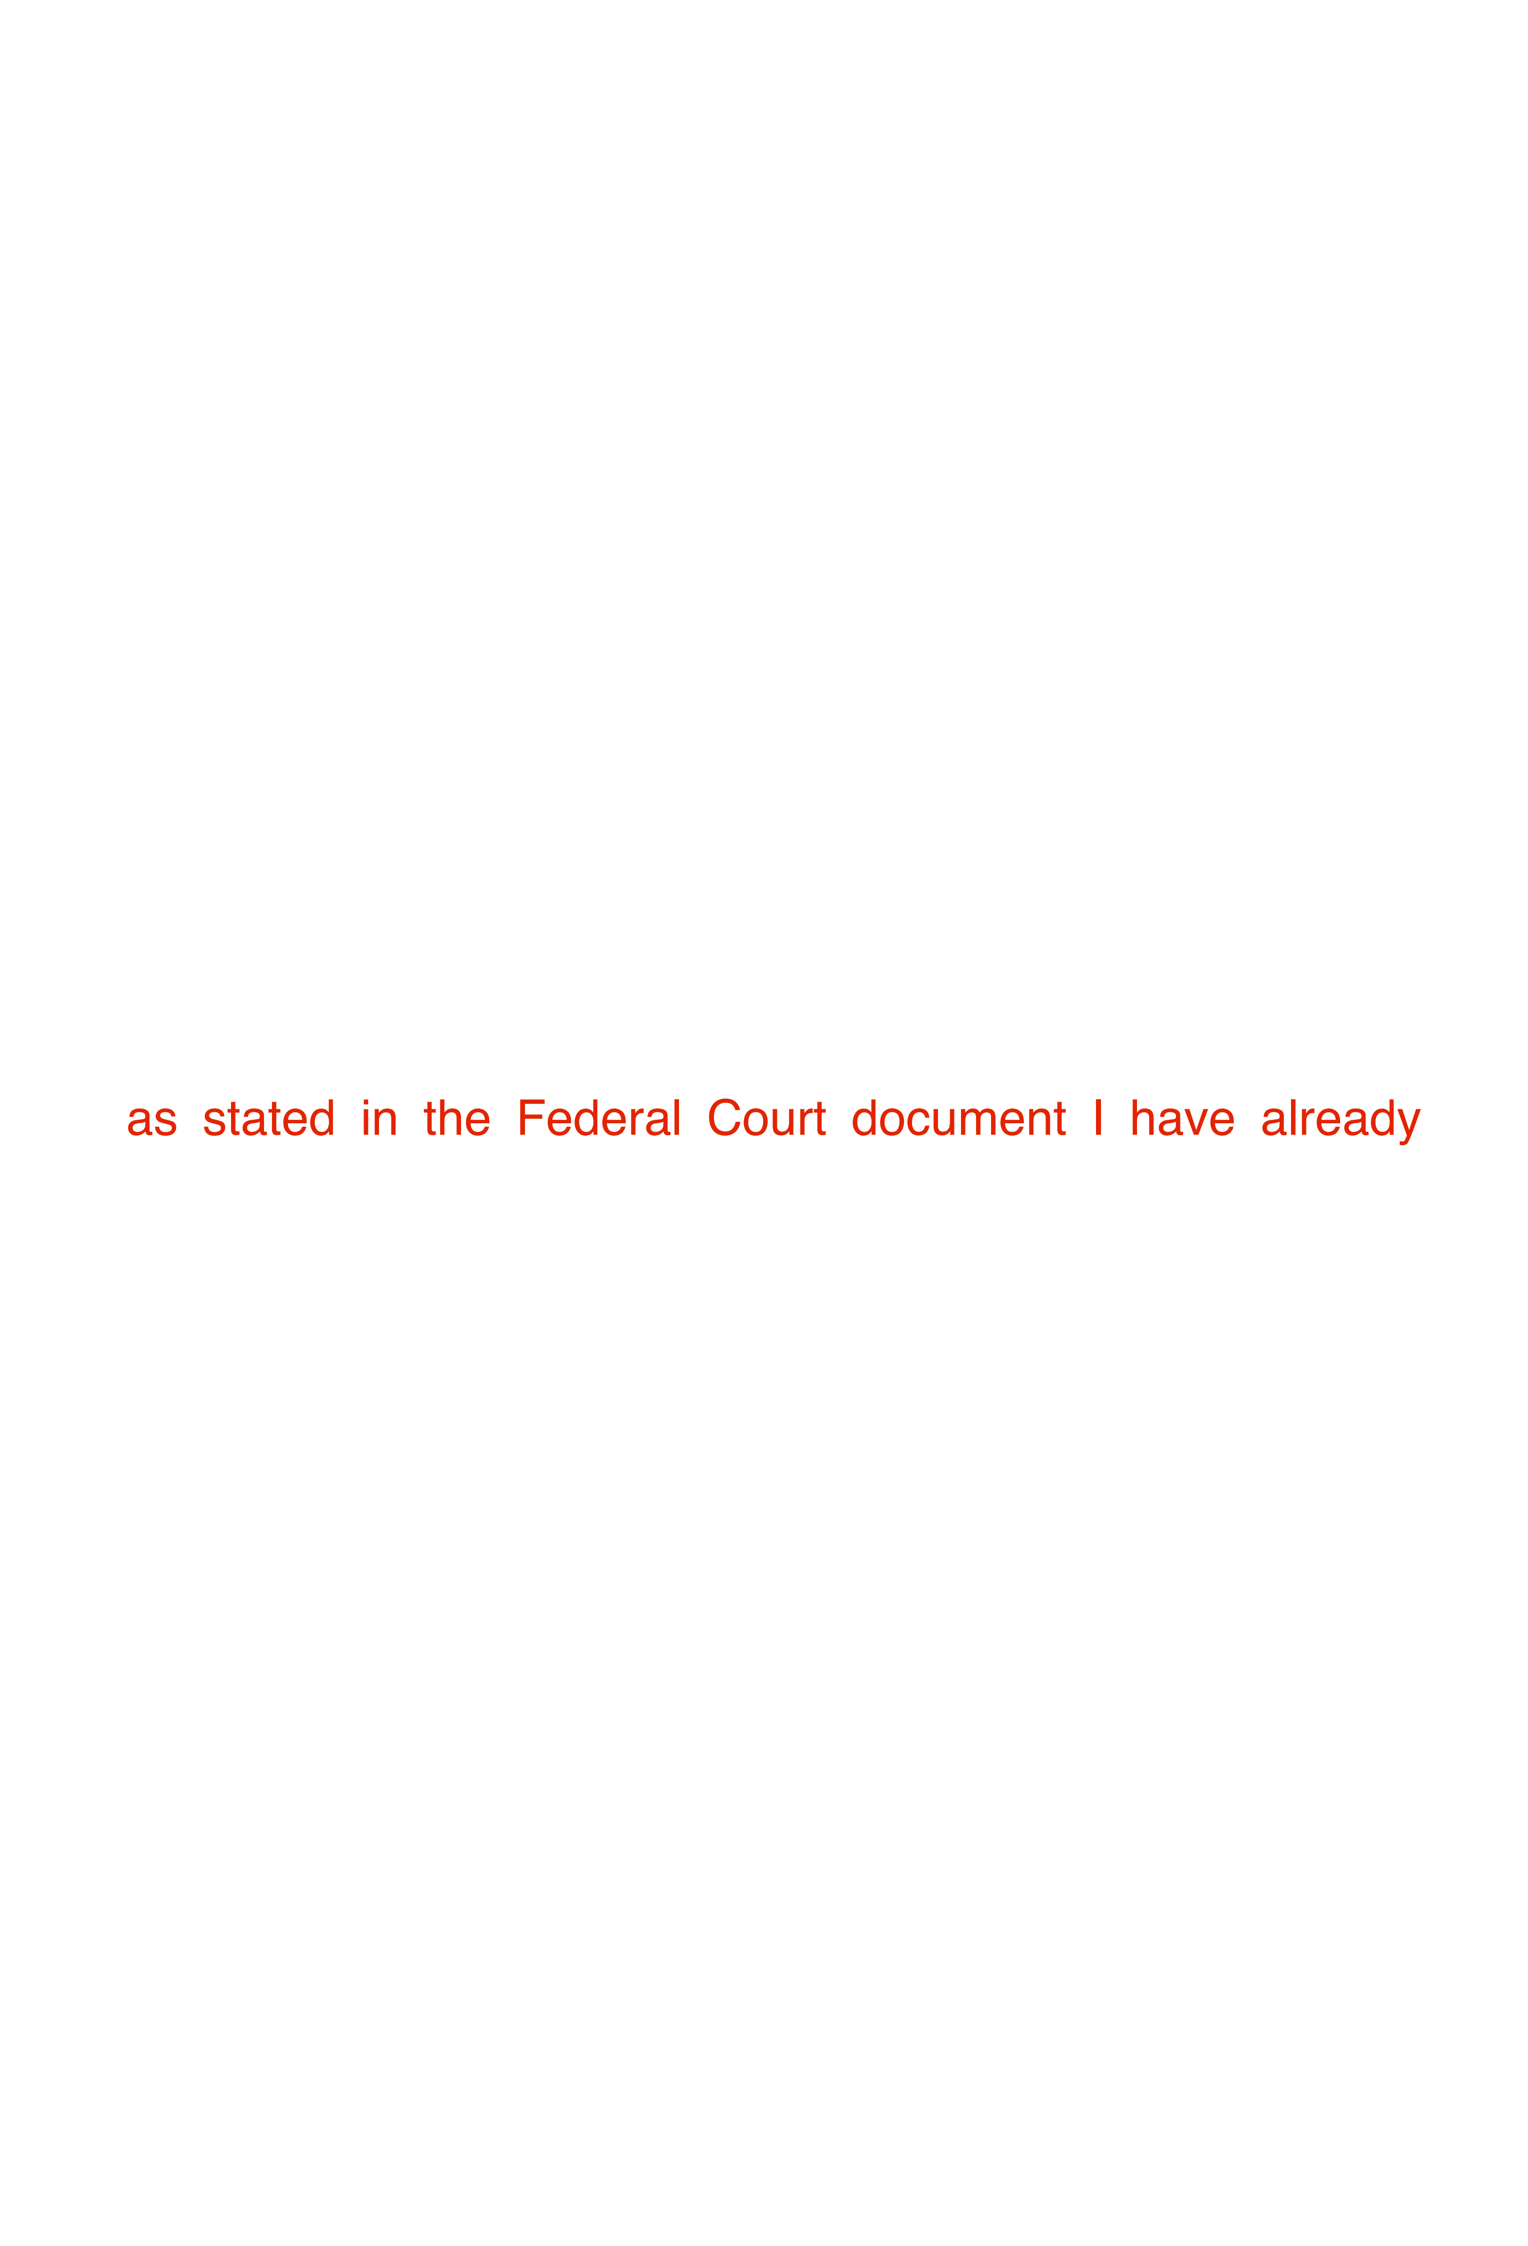

If you think I can be delegitimized or that this issue can be

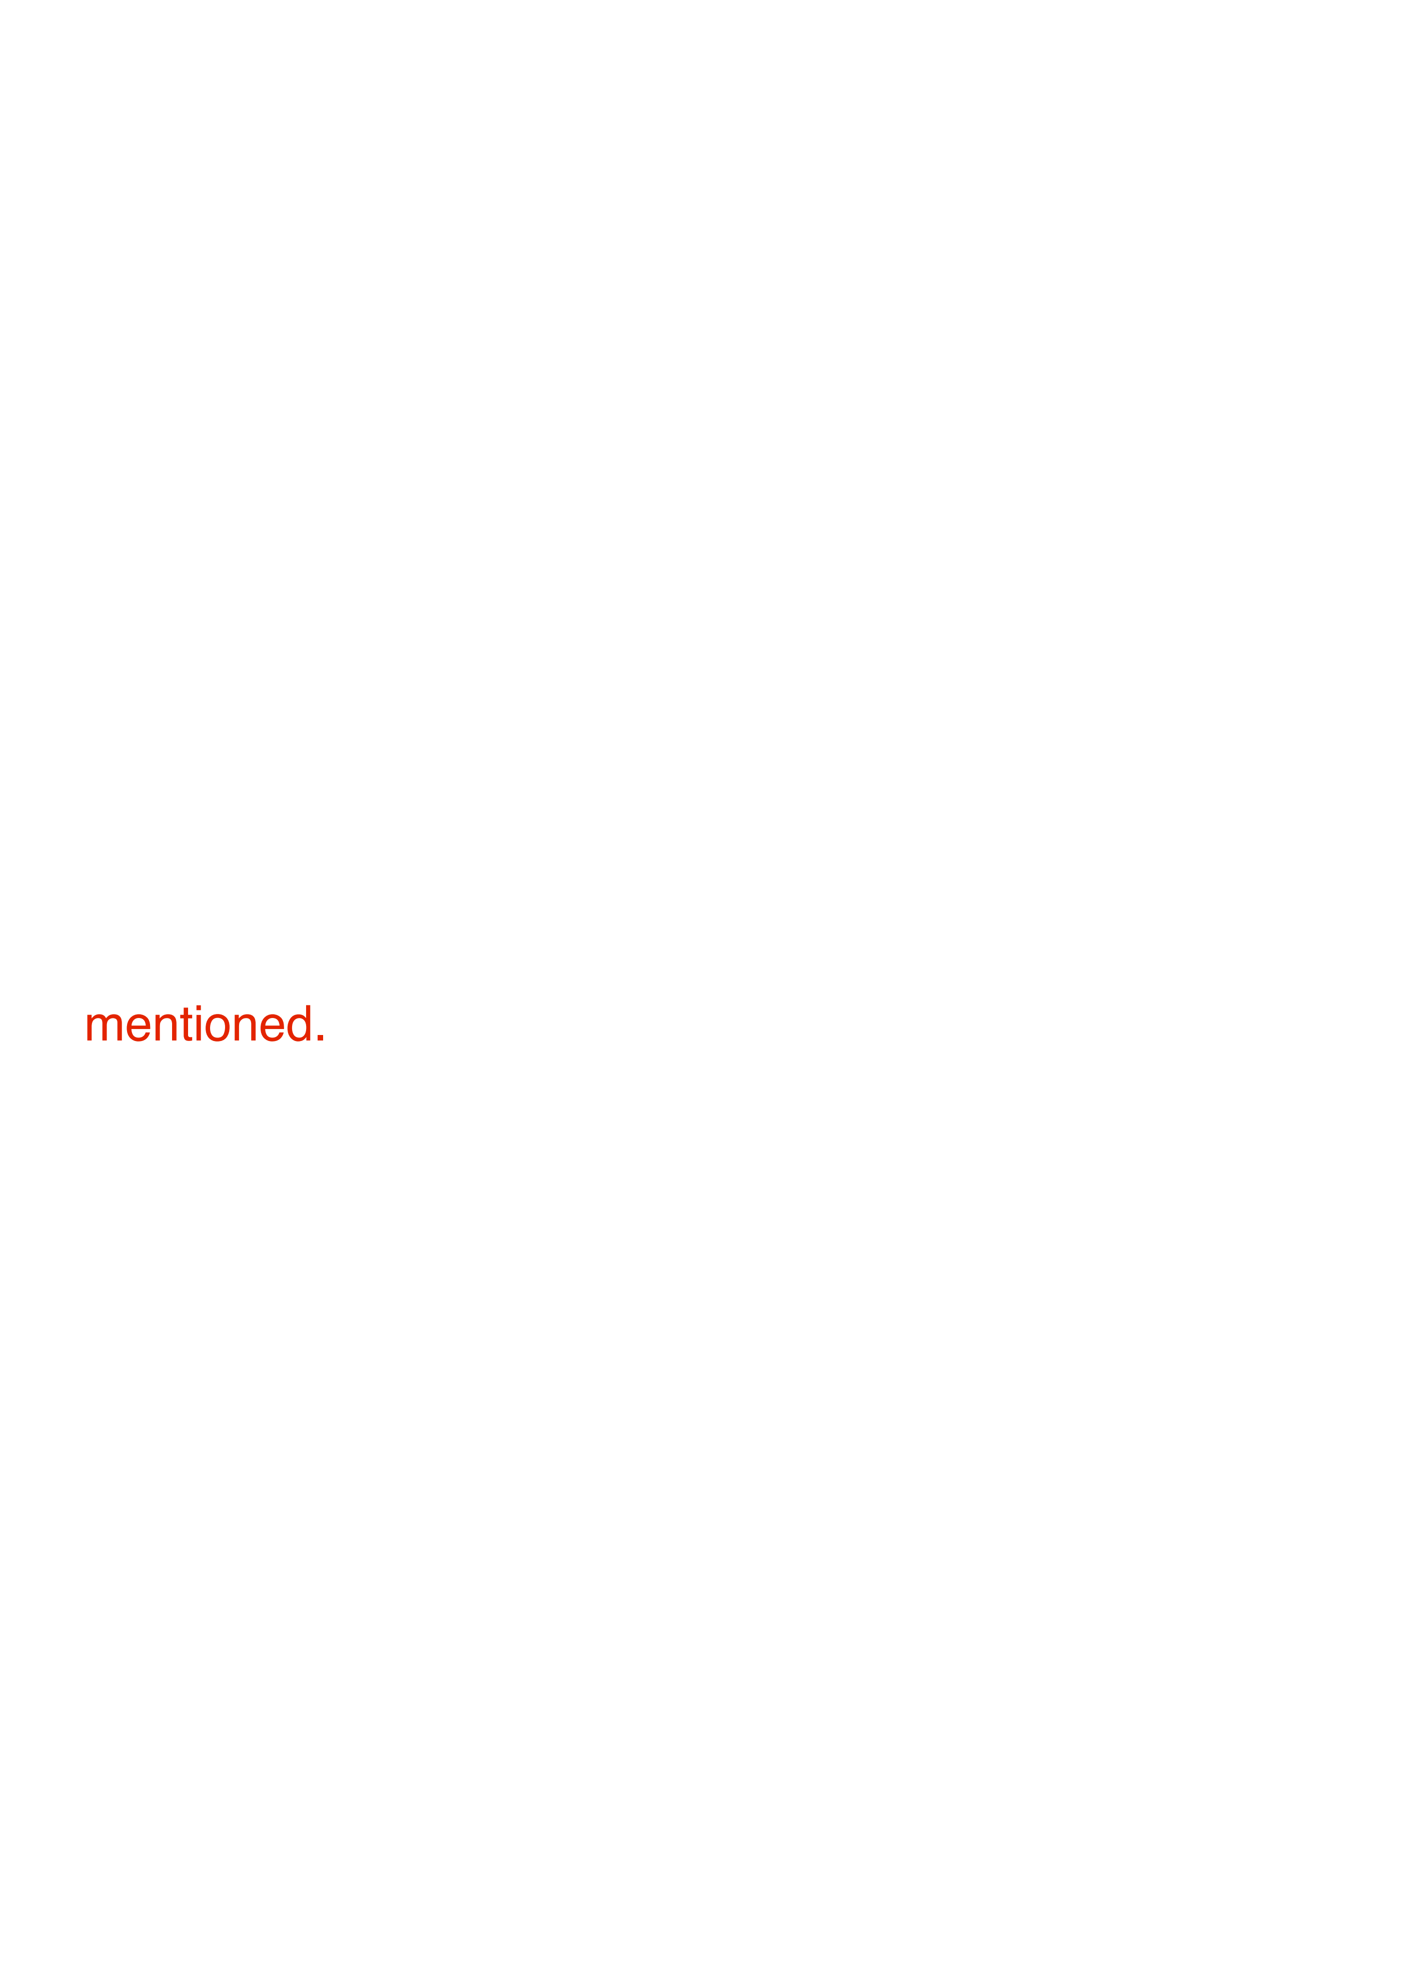

ignored and it will just go away, it will only worsen and draw

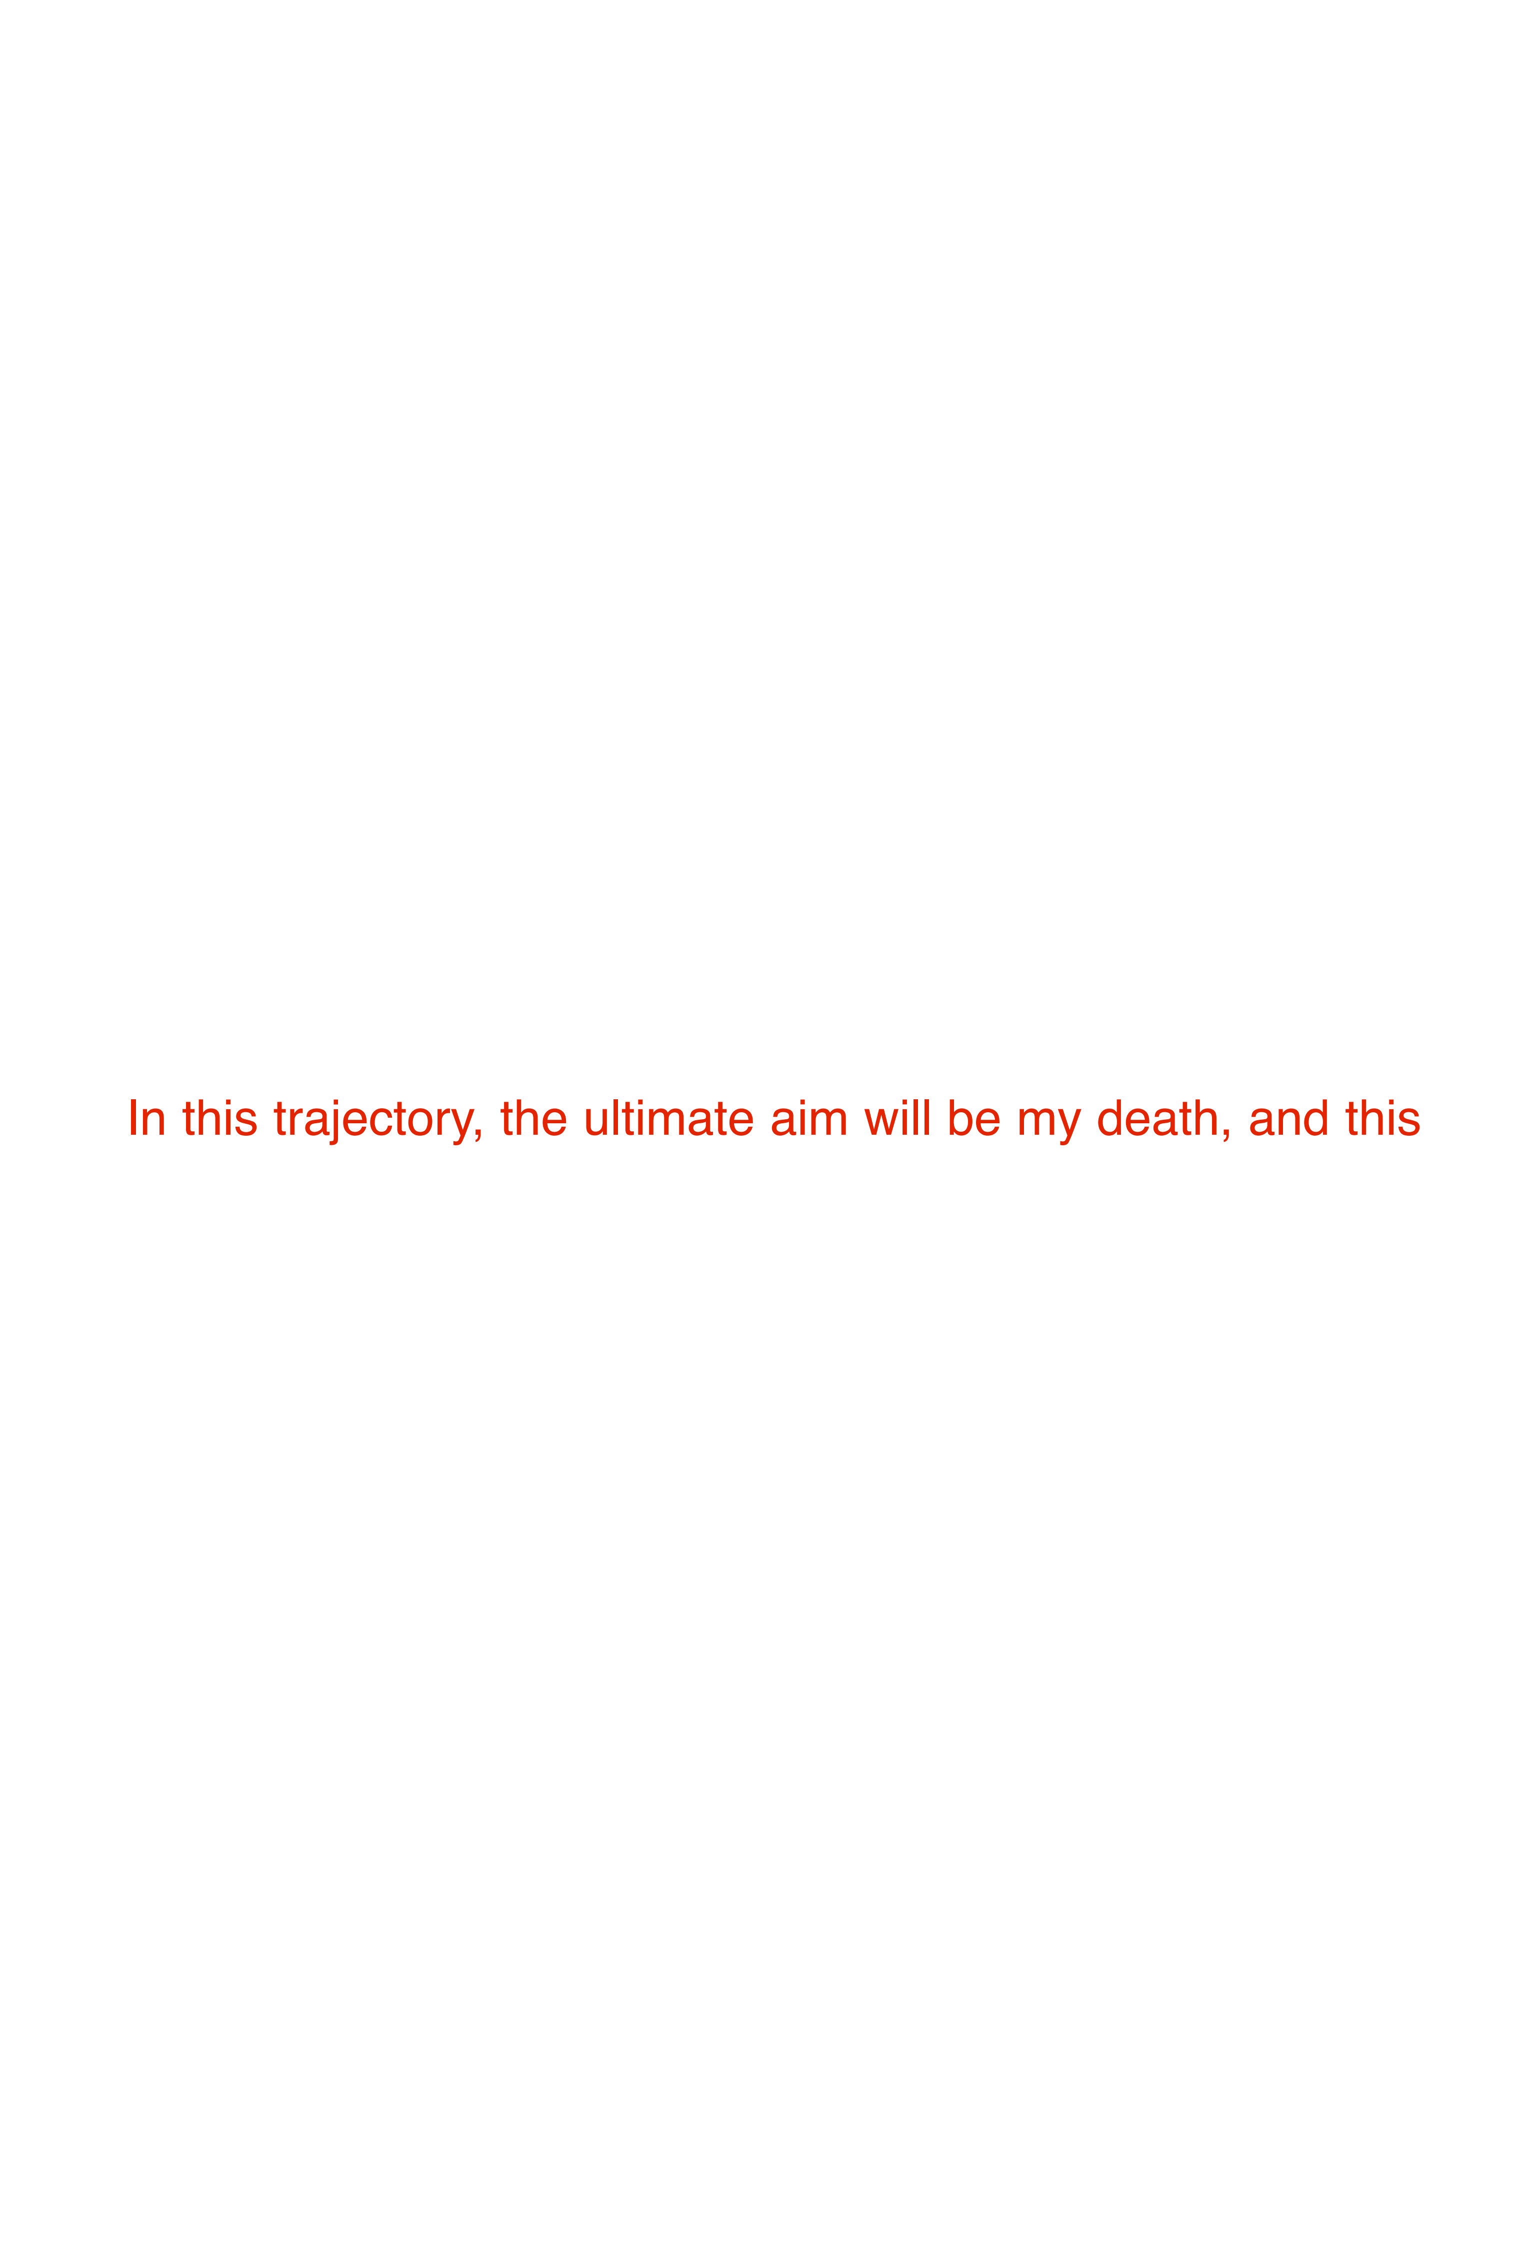

me into more desolate and desperate stages. This poses

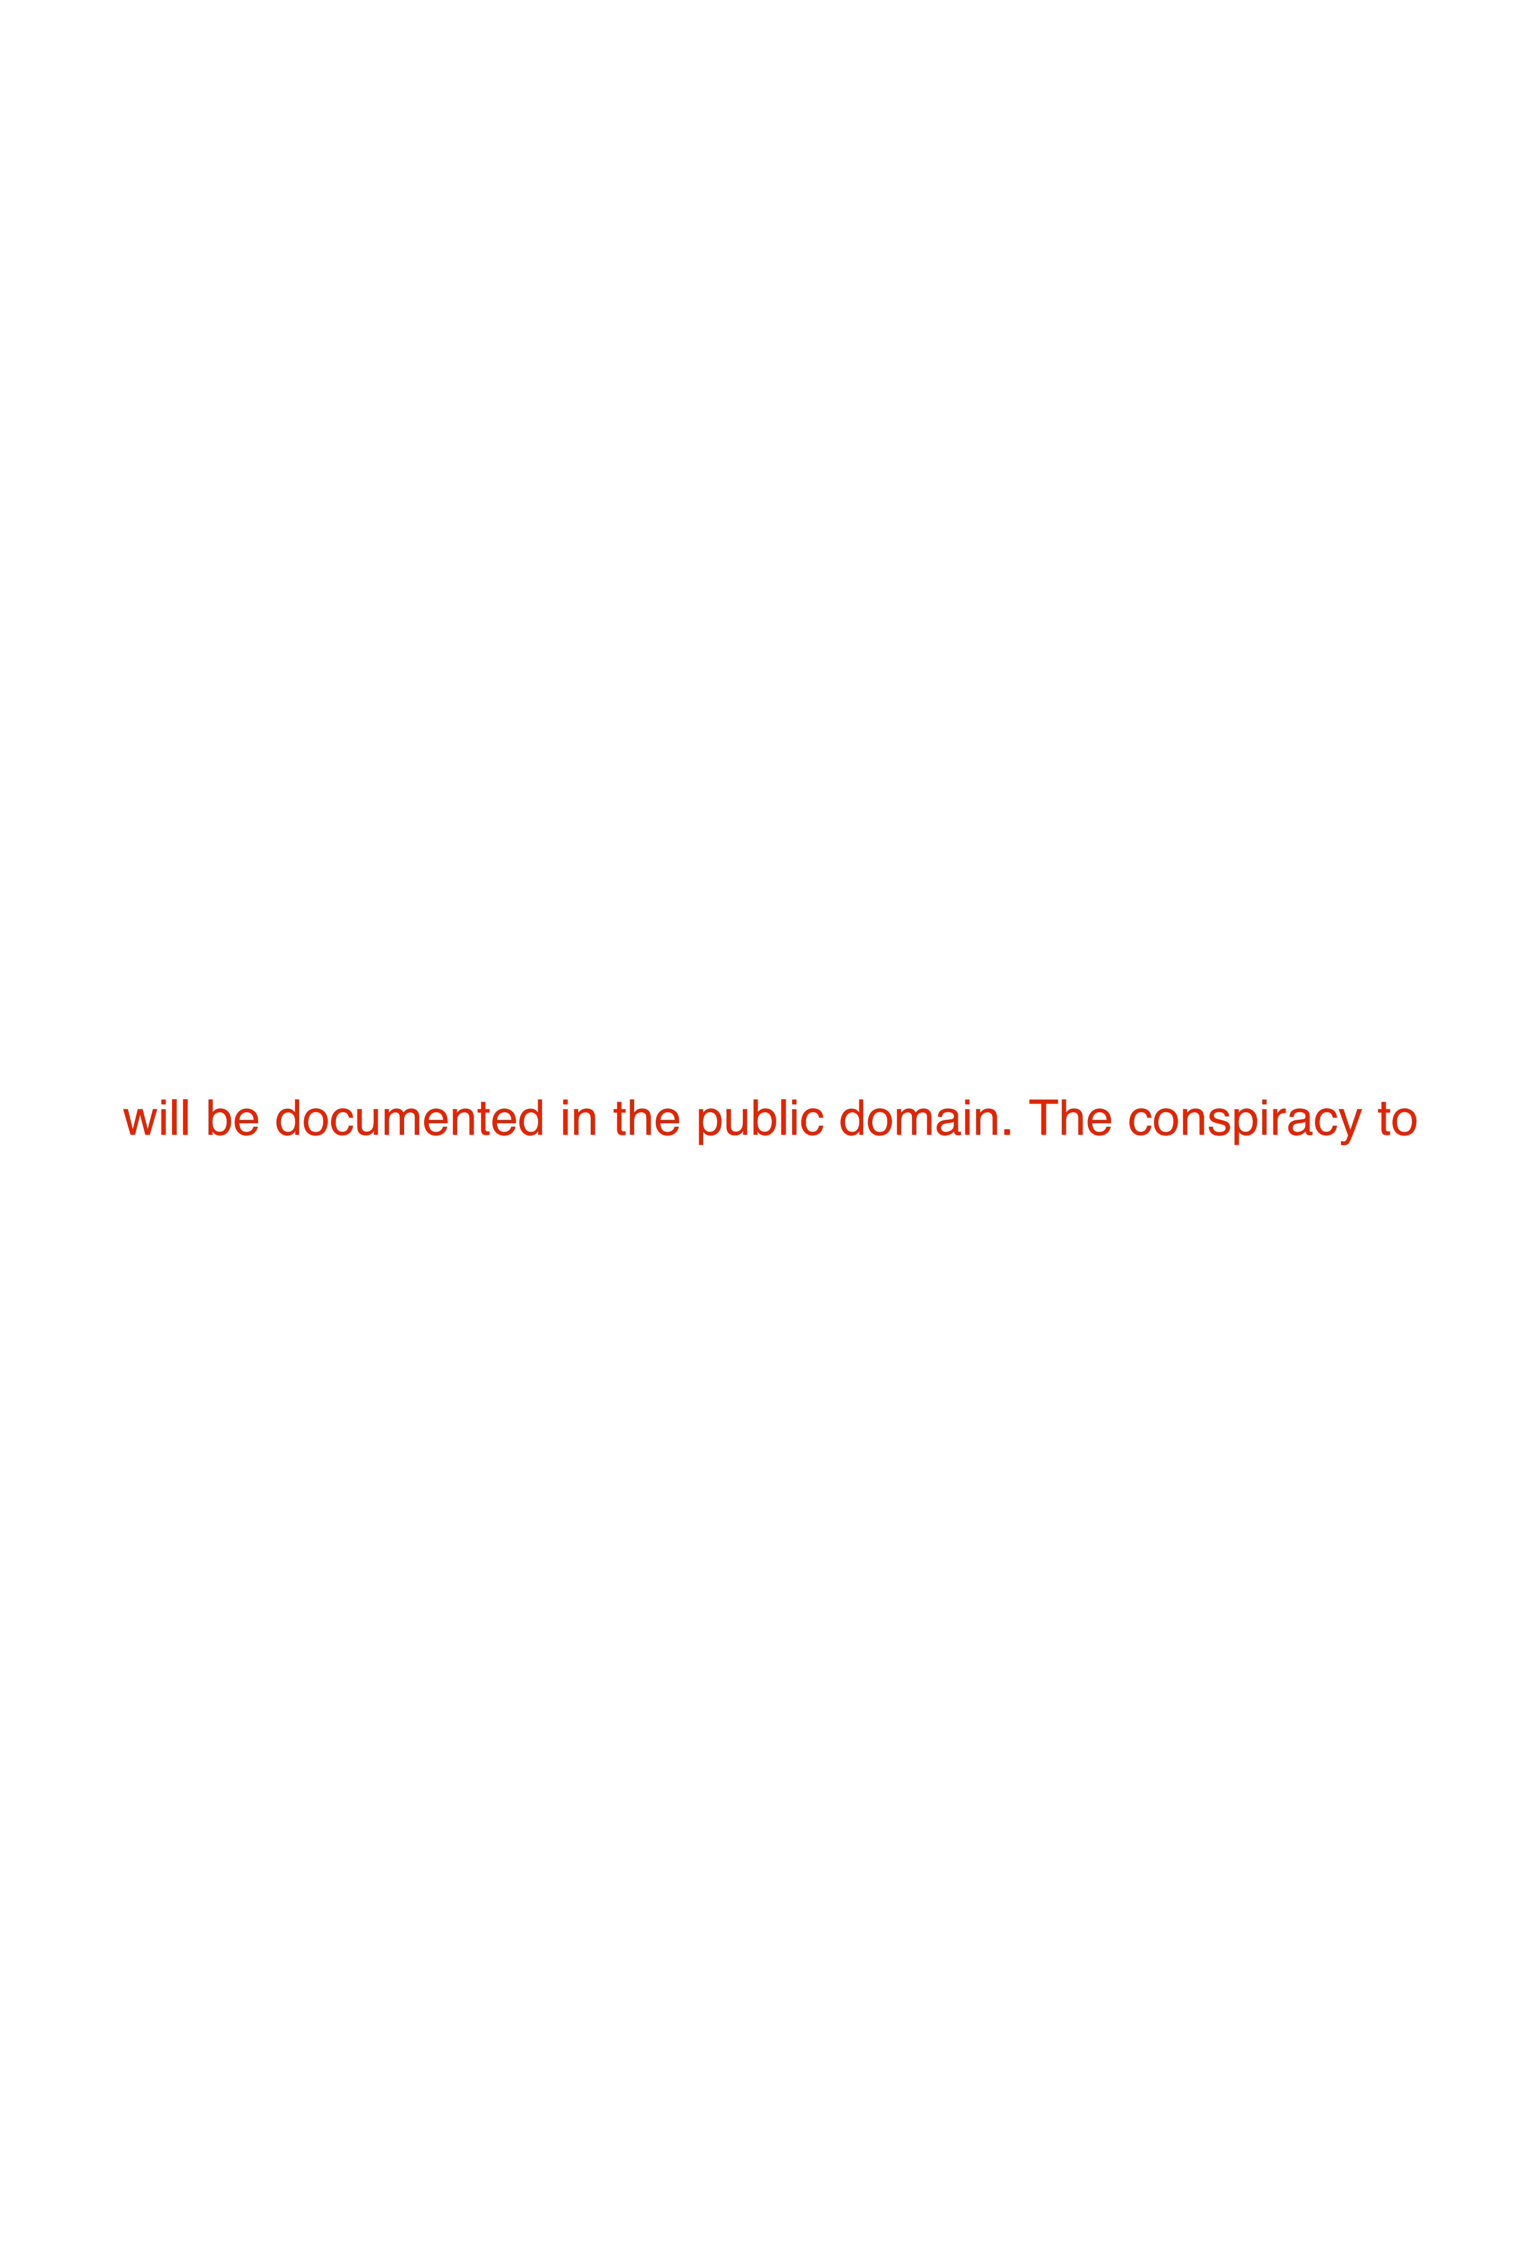

imminent risk to my health, wealth, life, safety, and welfare,

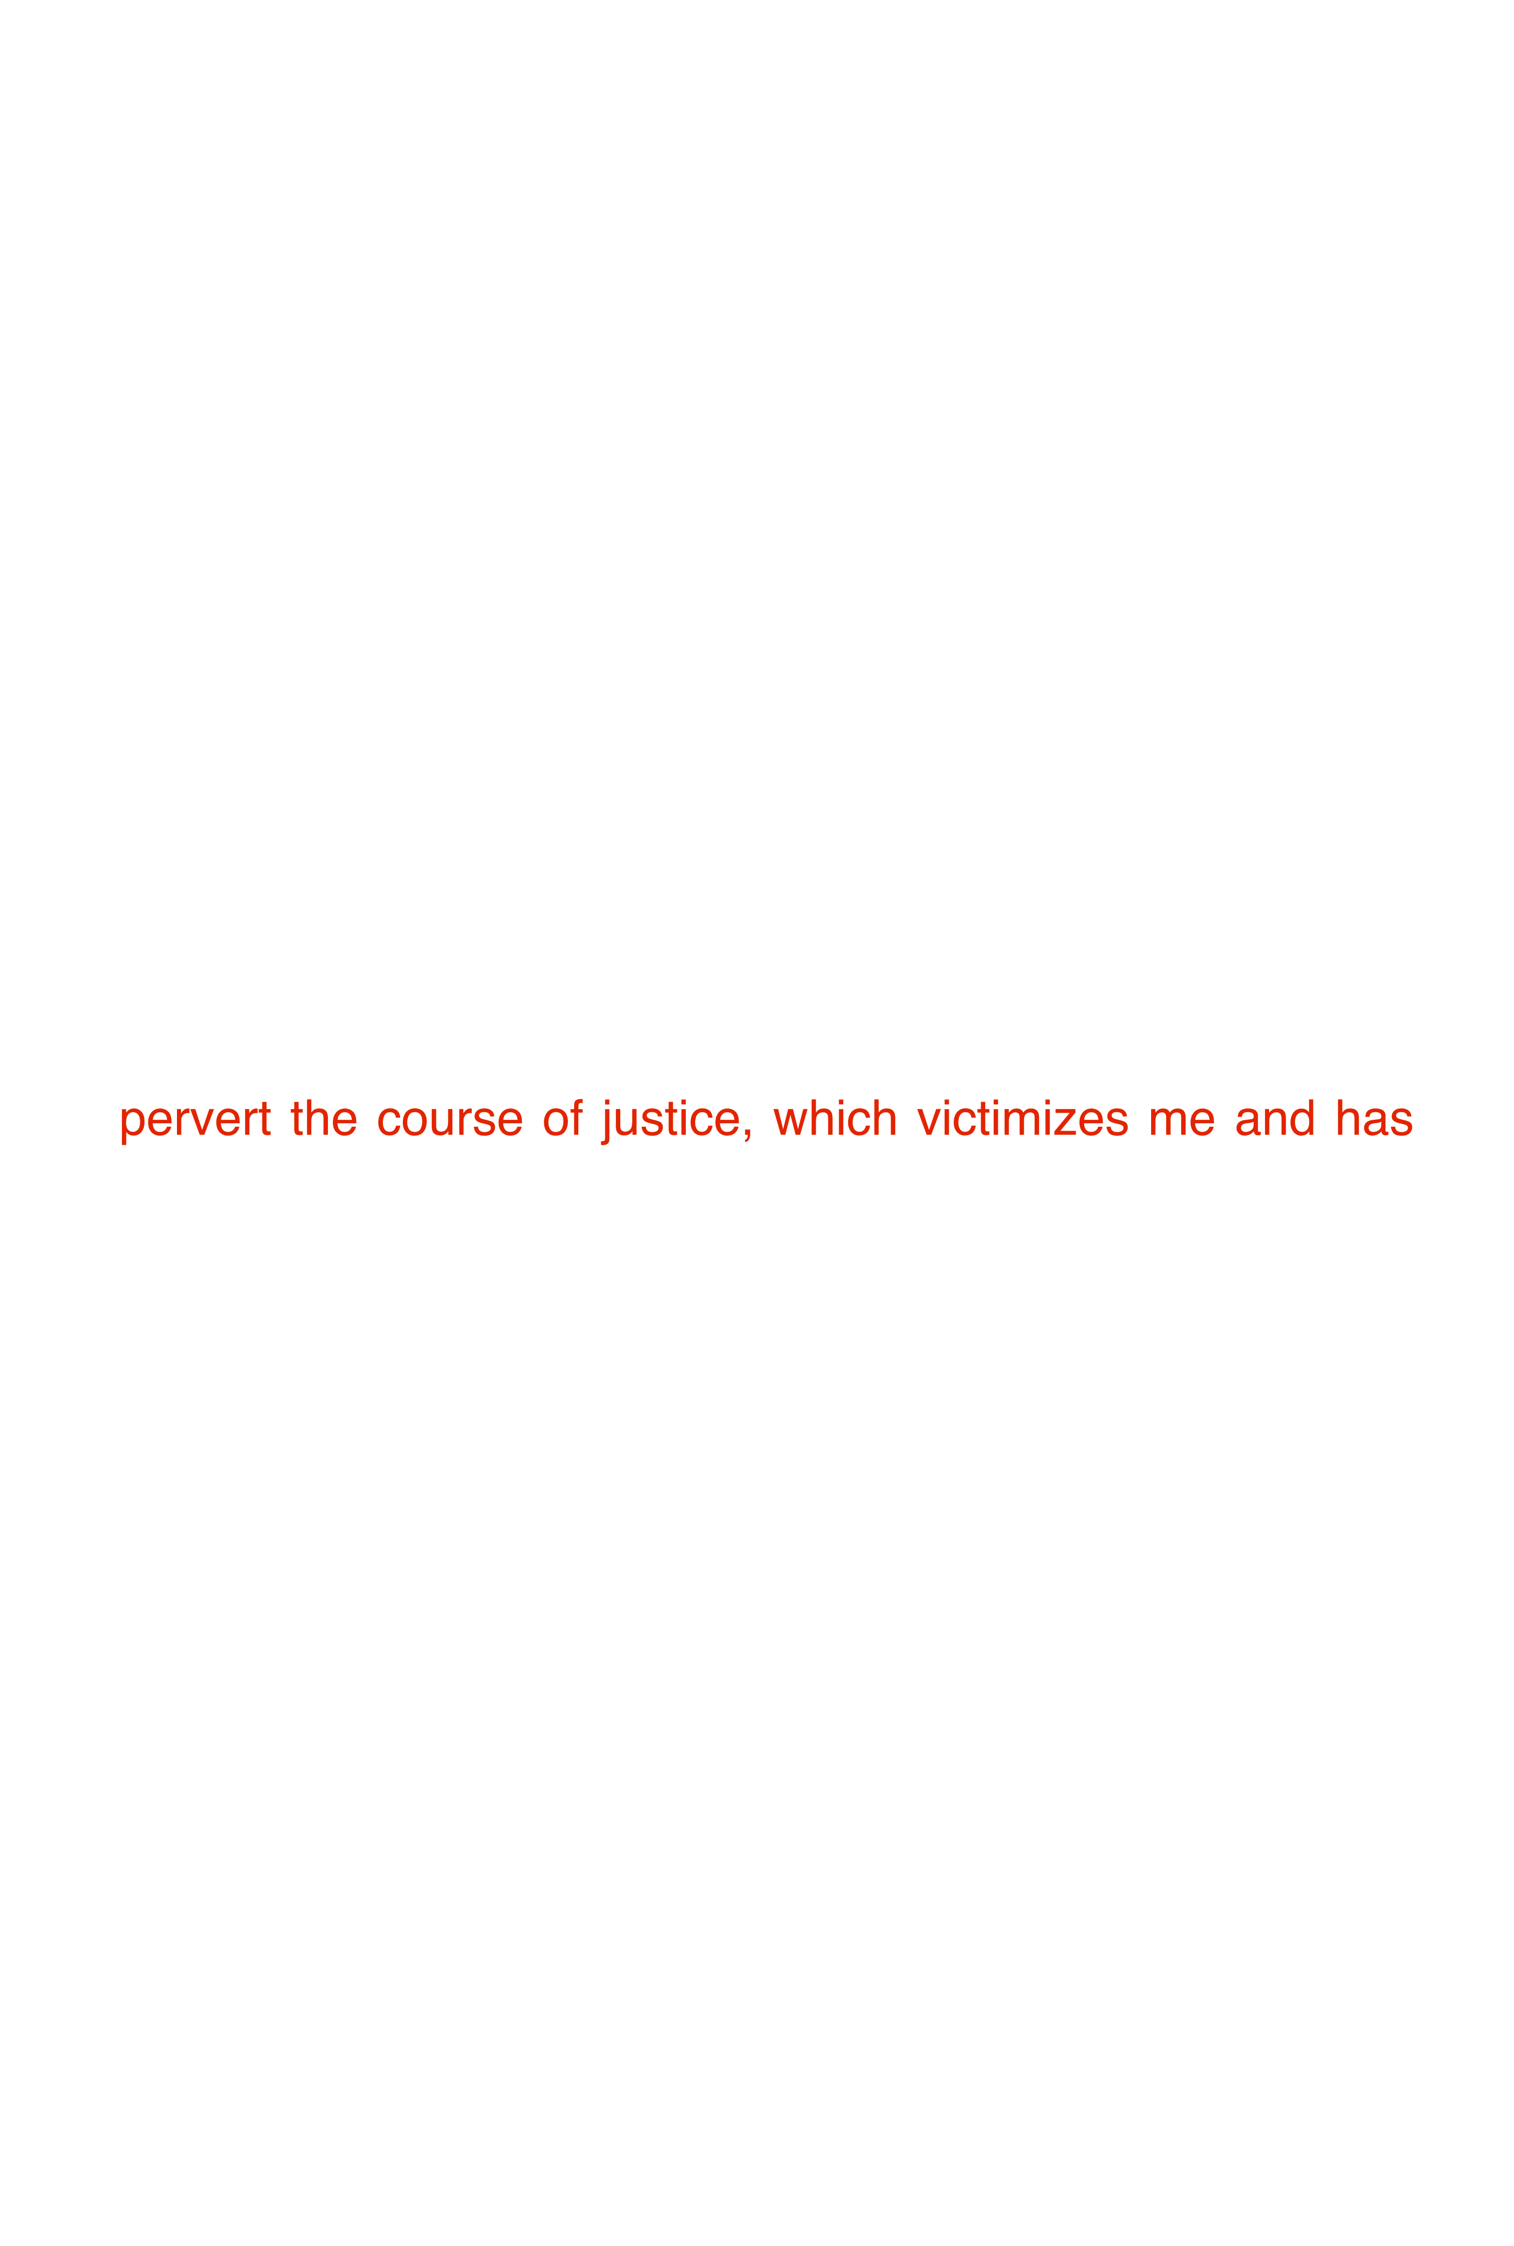

as stated in the Federal Court document I have already

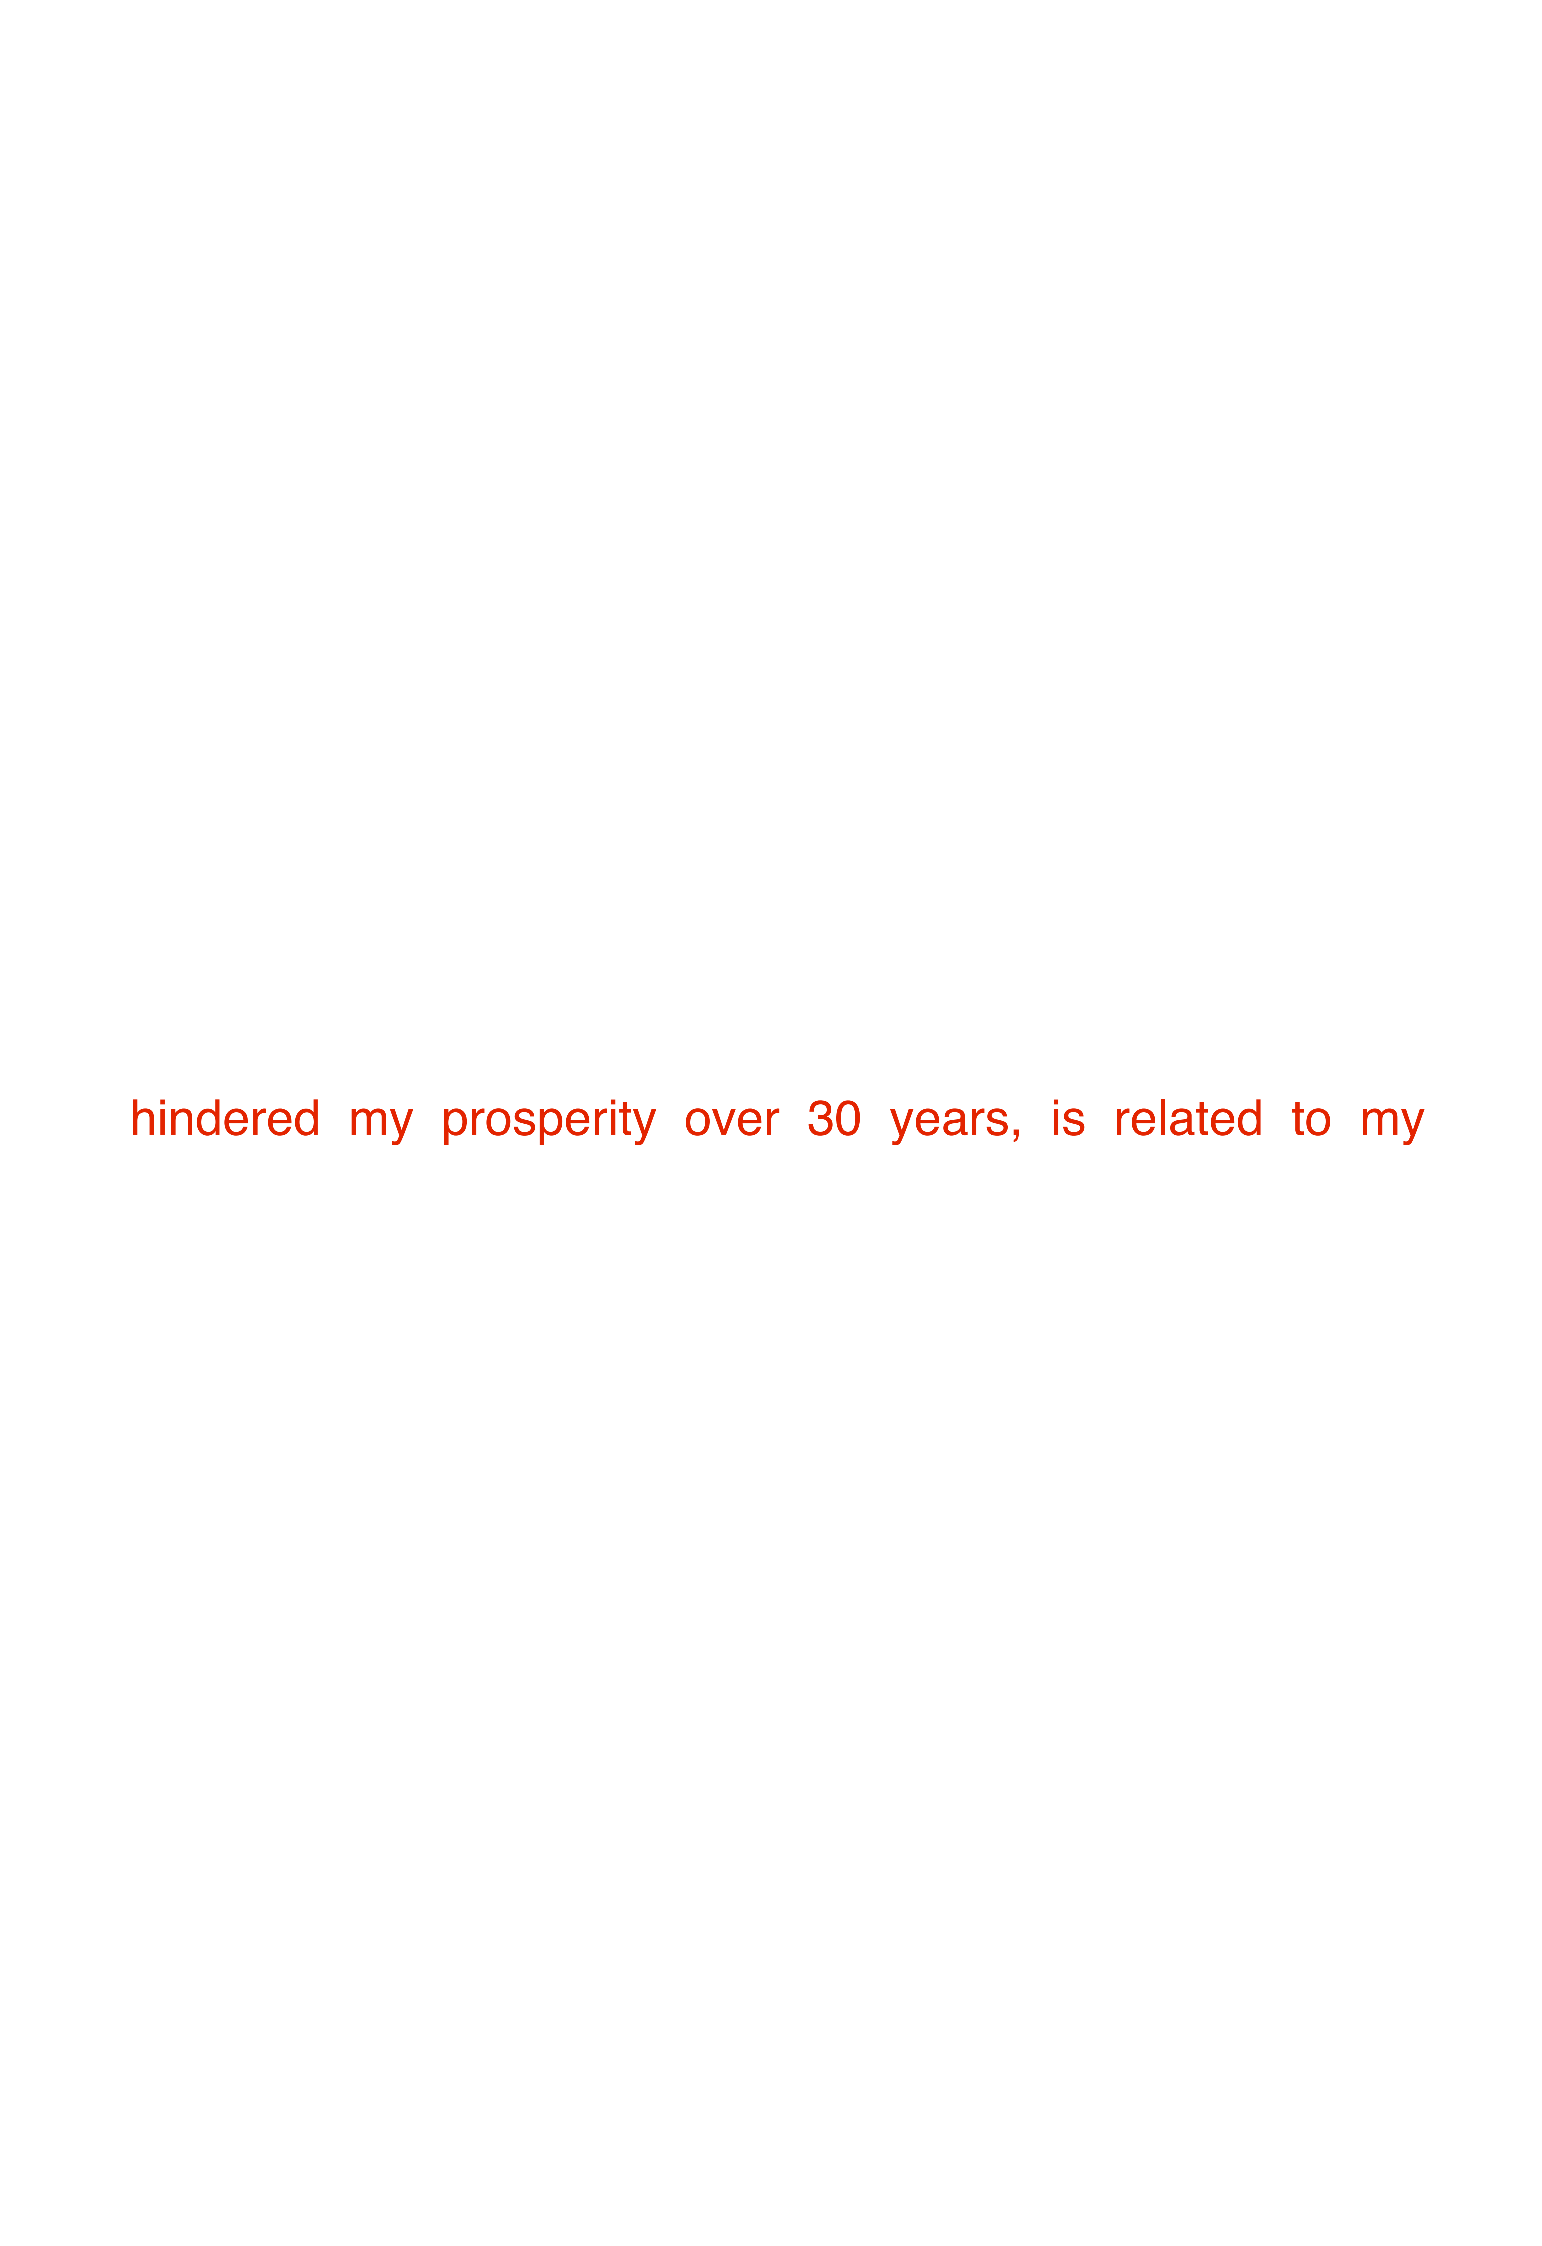

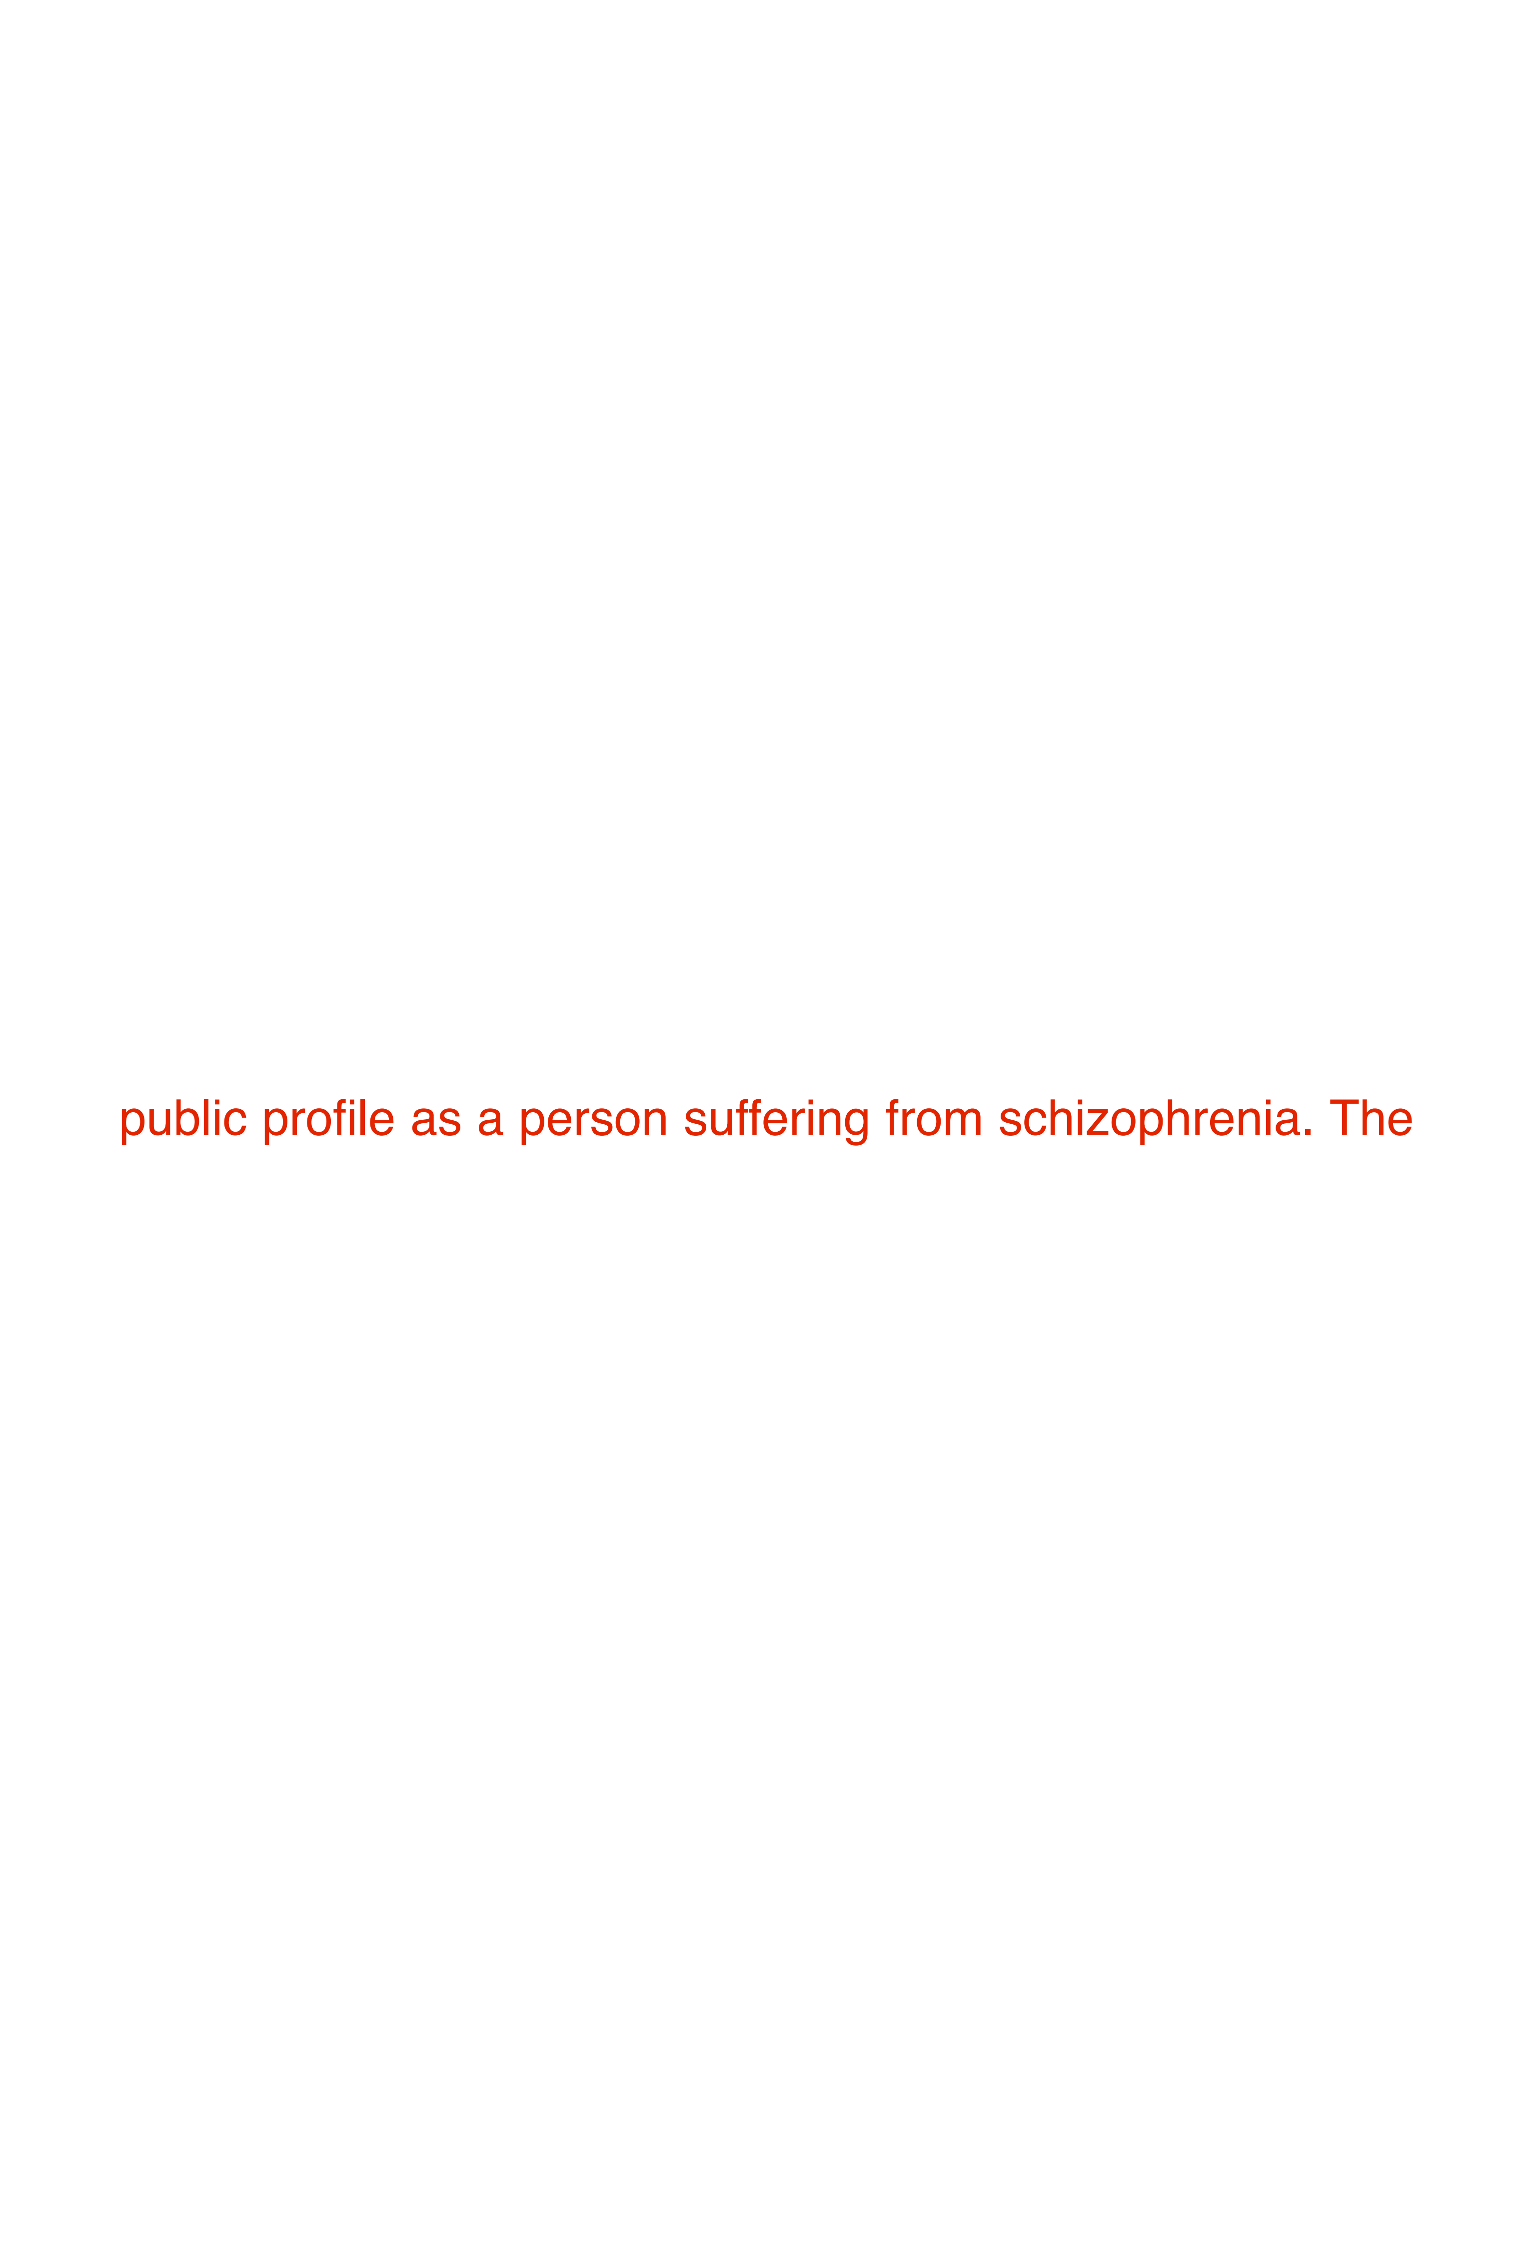

mentioned.

In this trajectory, the ultimate aim will be my death, and this

will be documented in the public domain. The conspiracy to

pervert the course of justice, which victimizes me and has

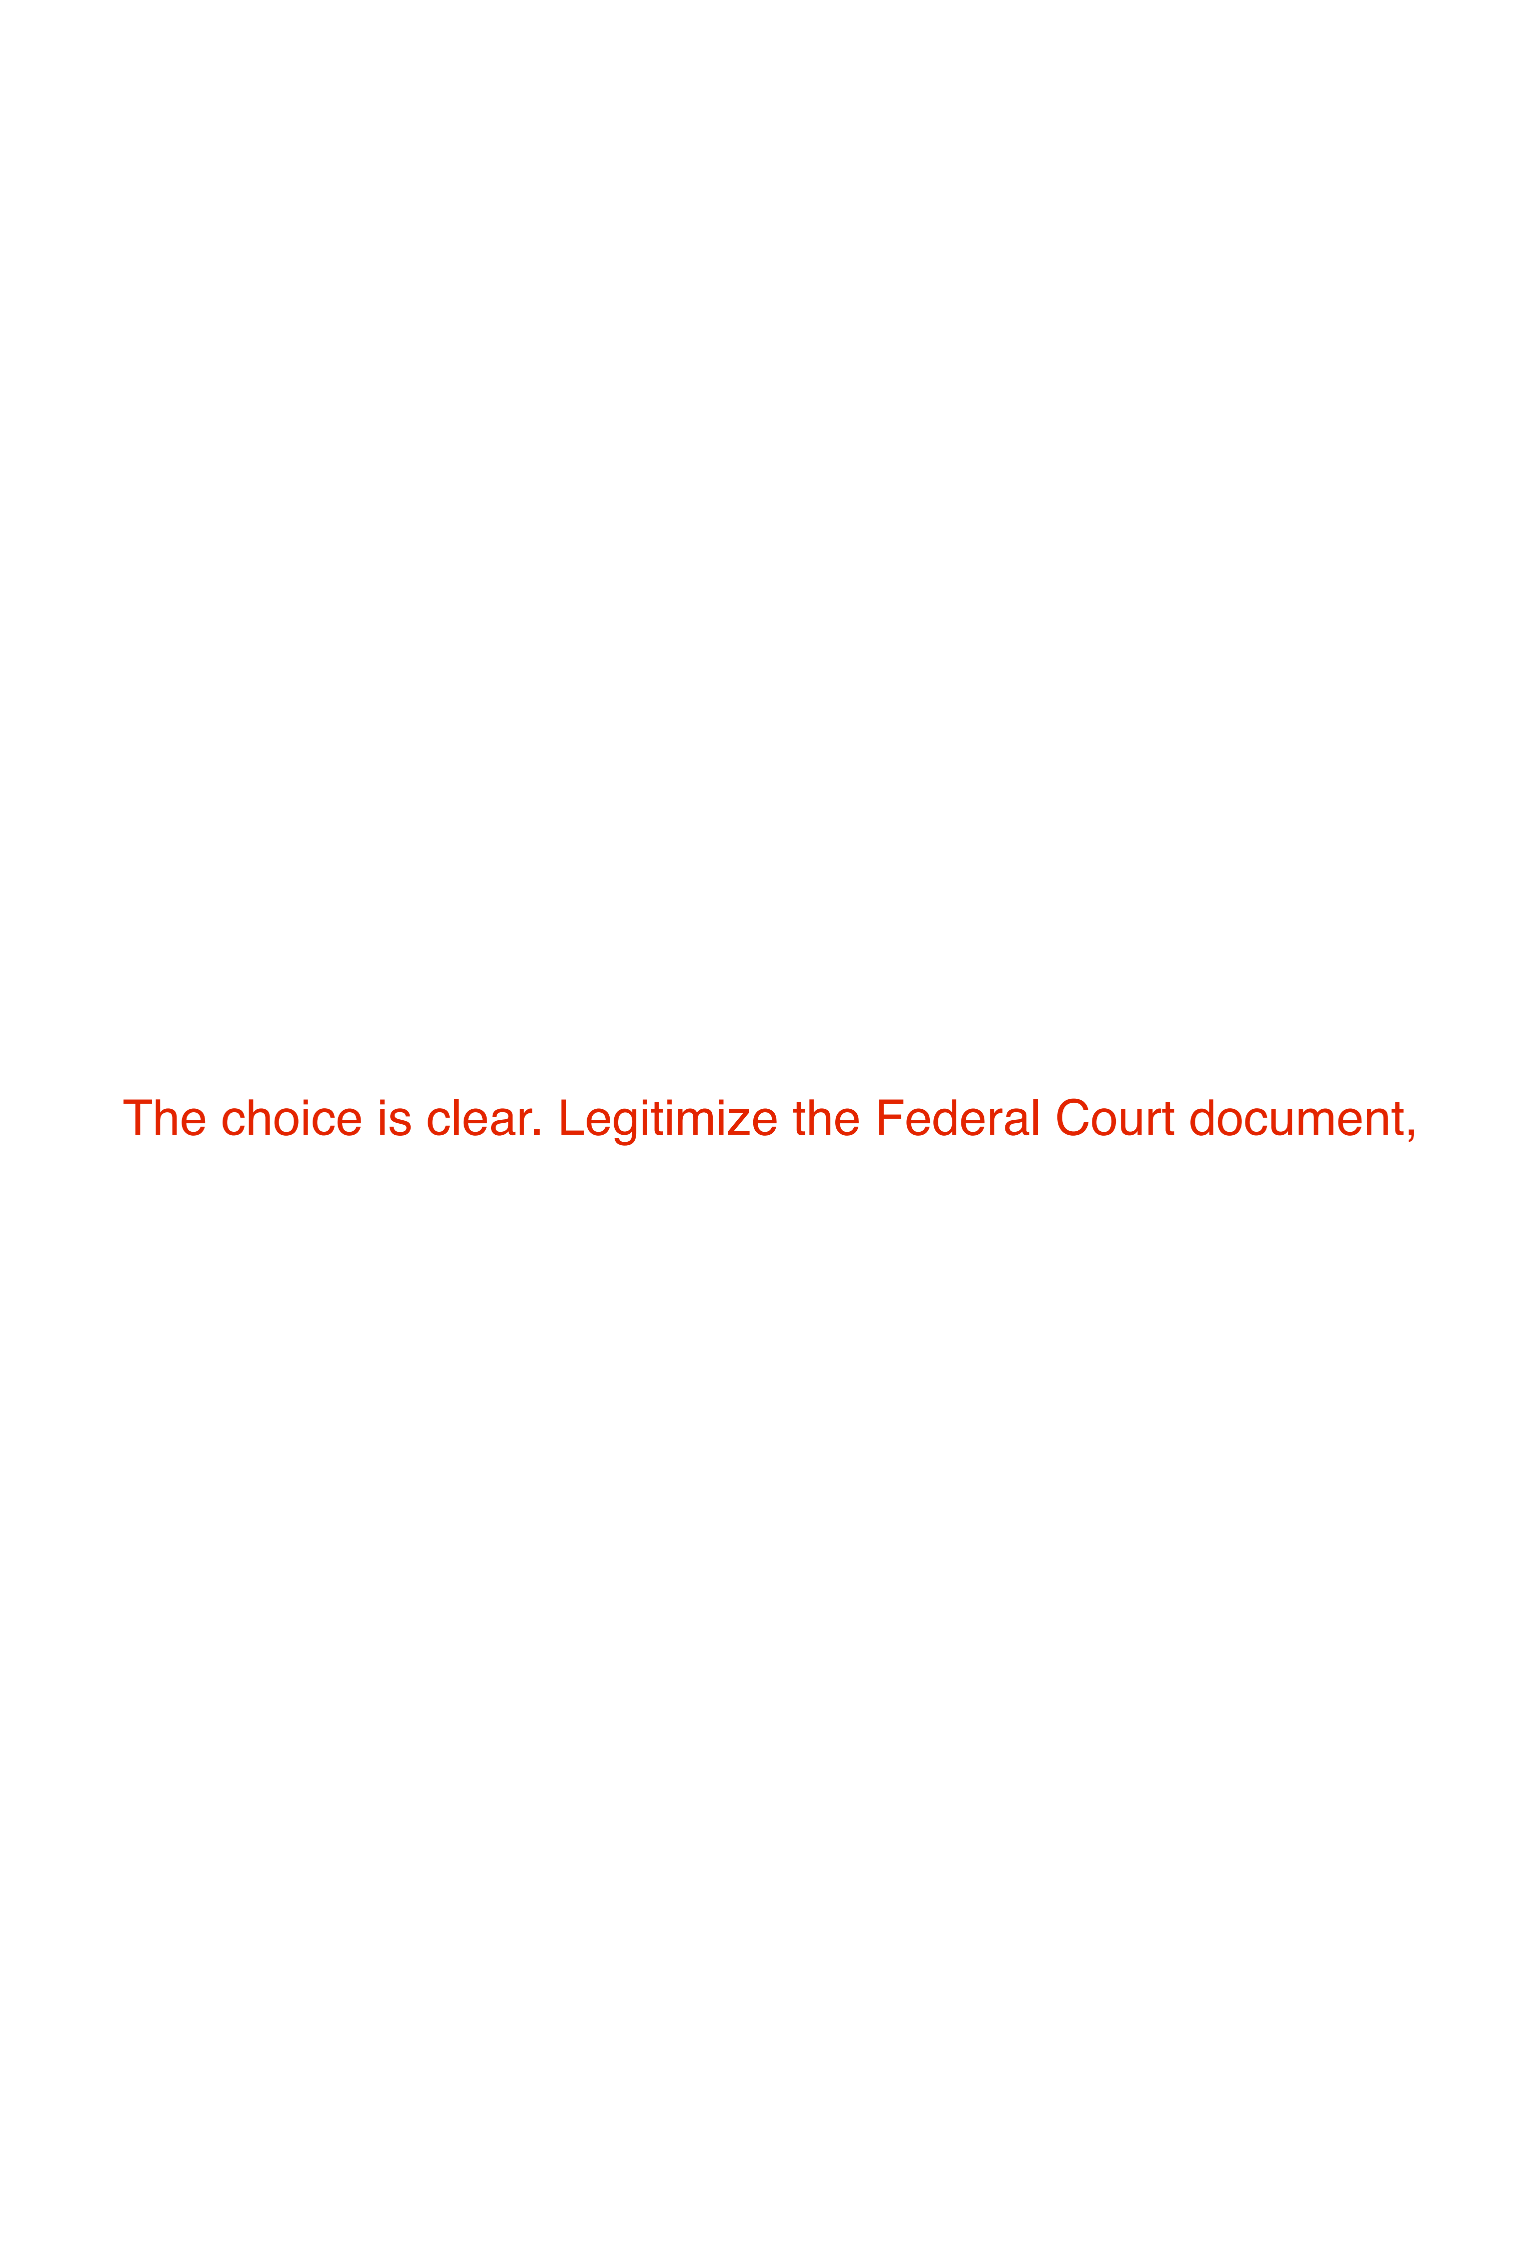

hindered my prosperity over 30 years, is related to my

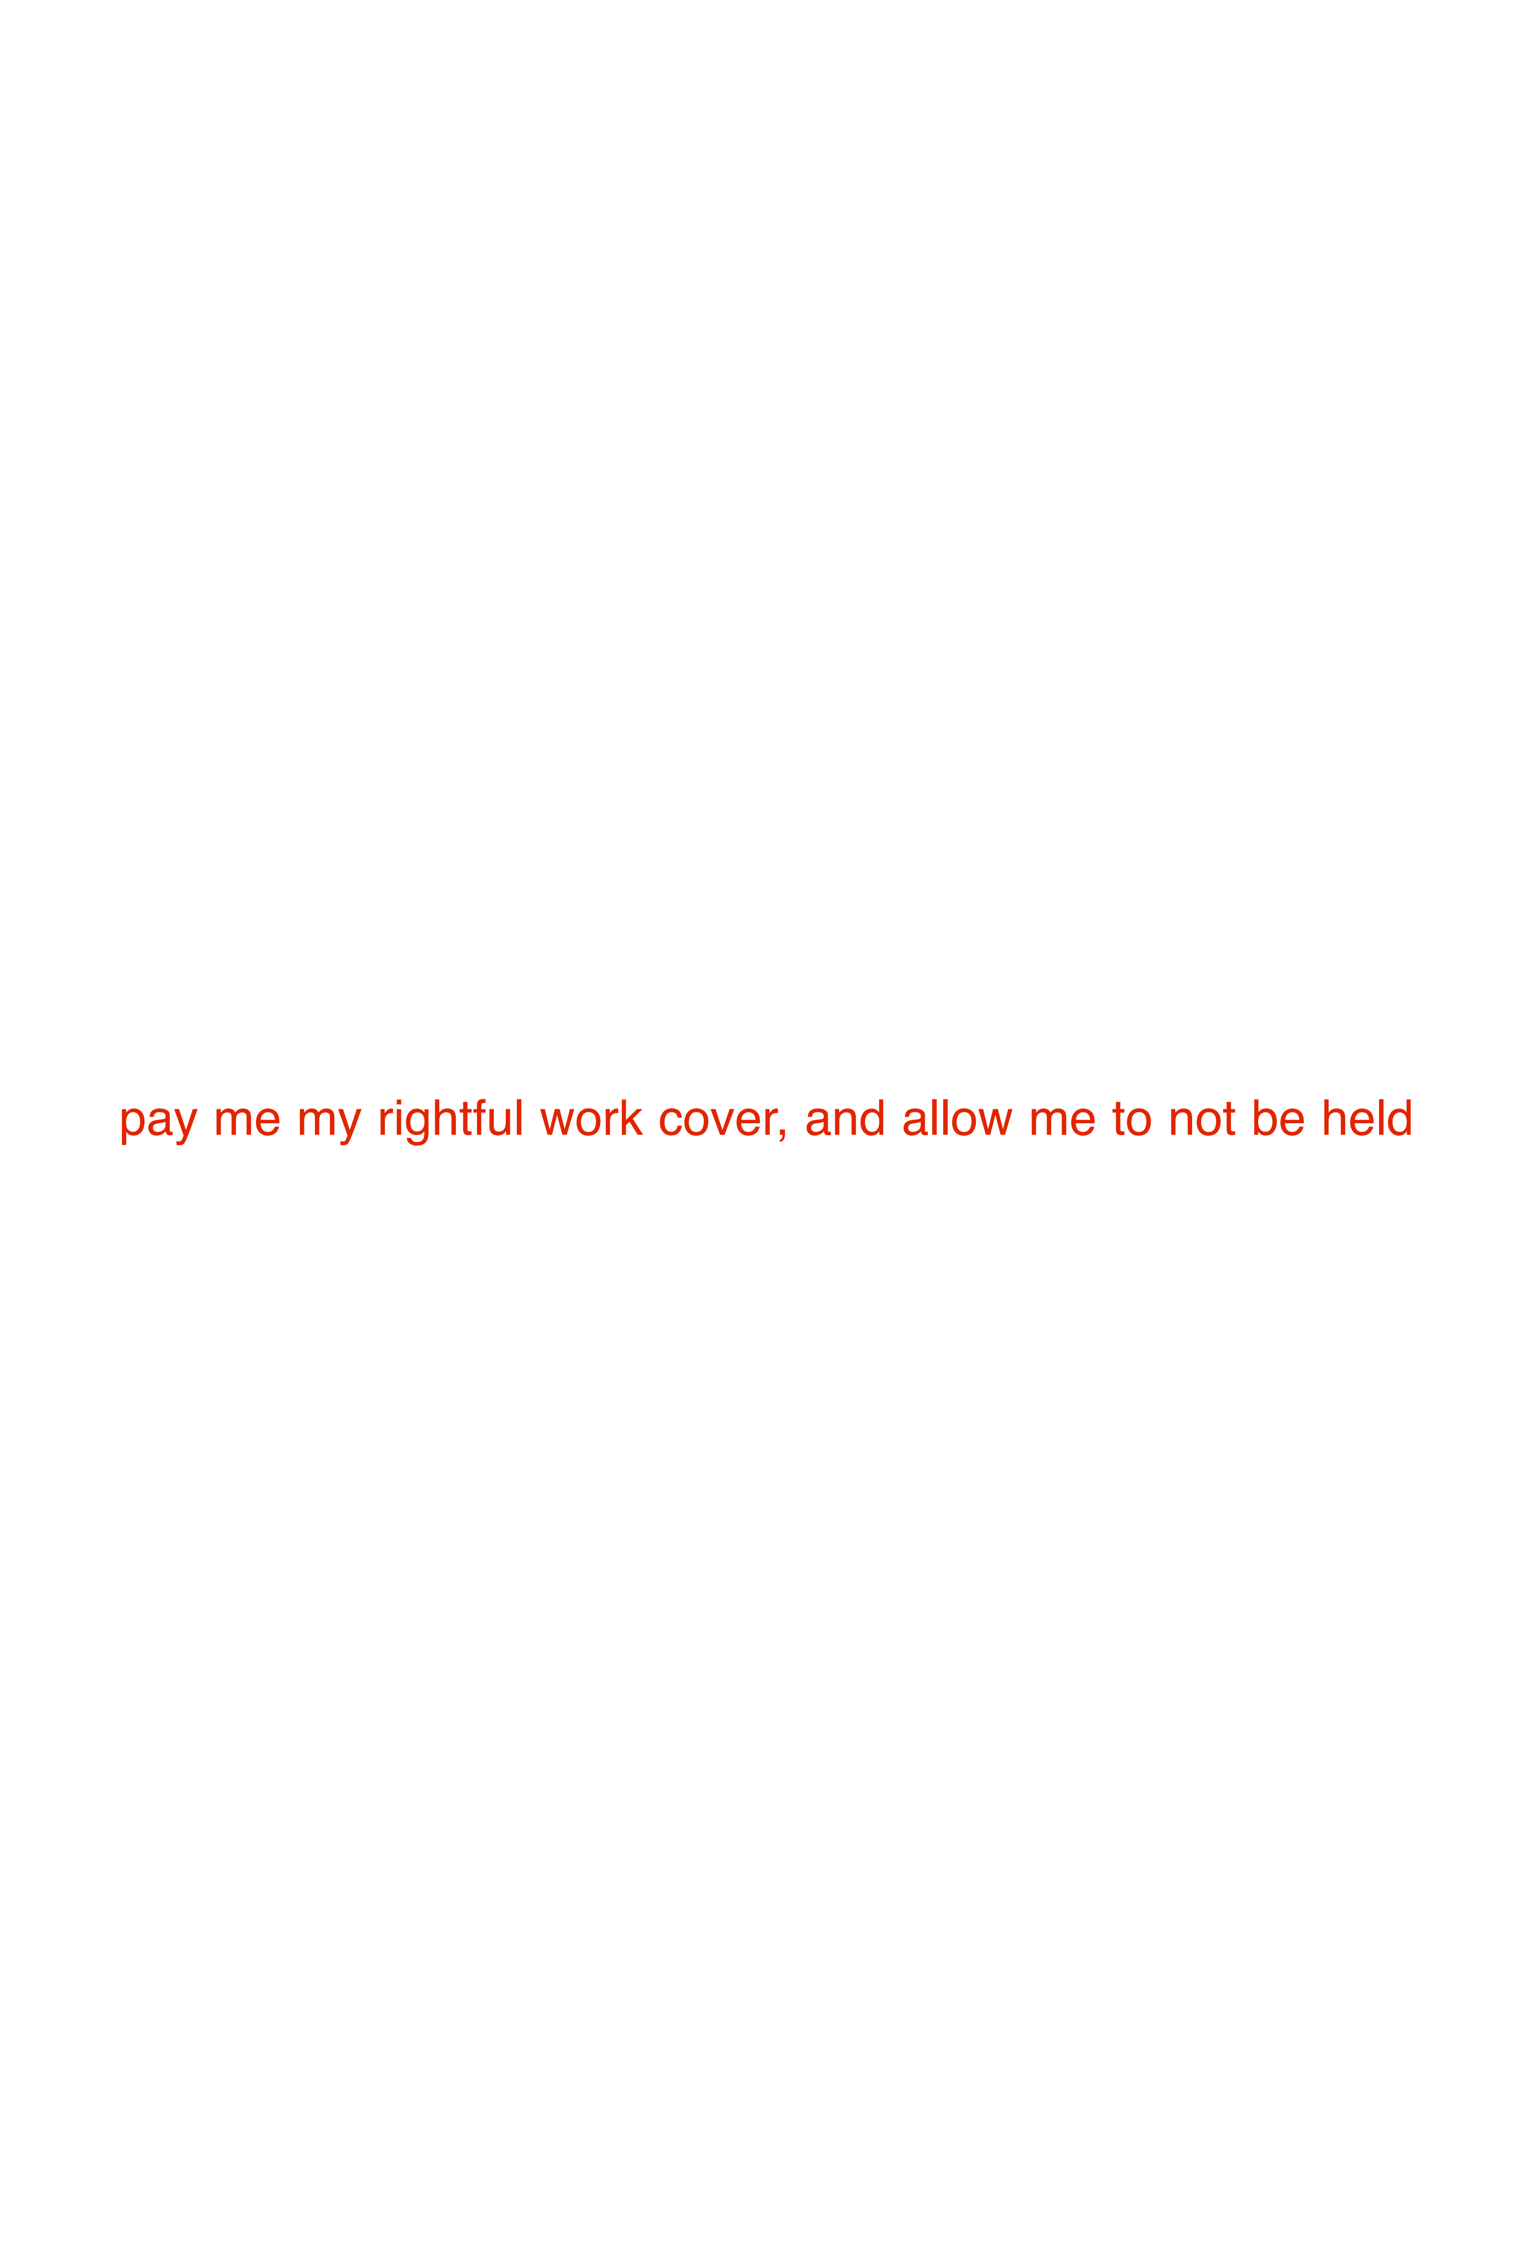

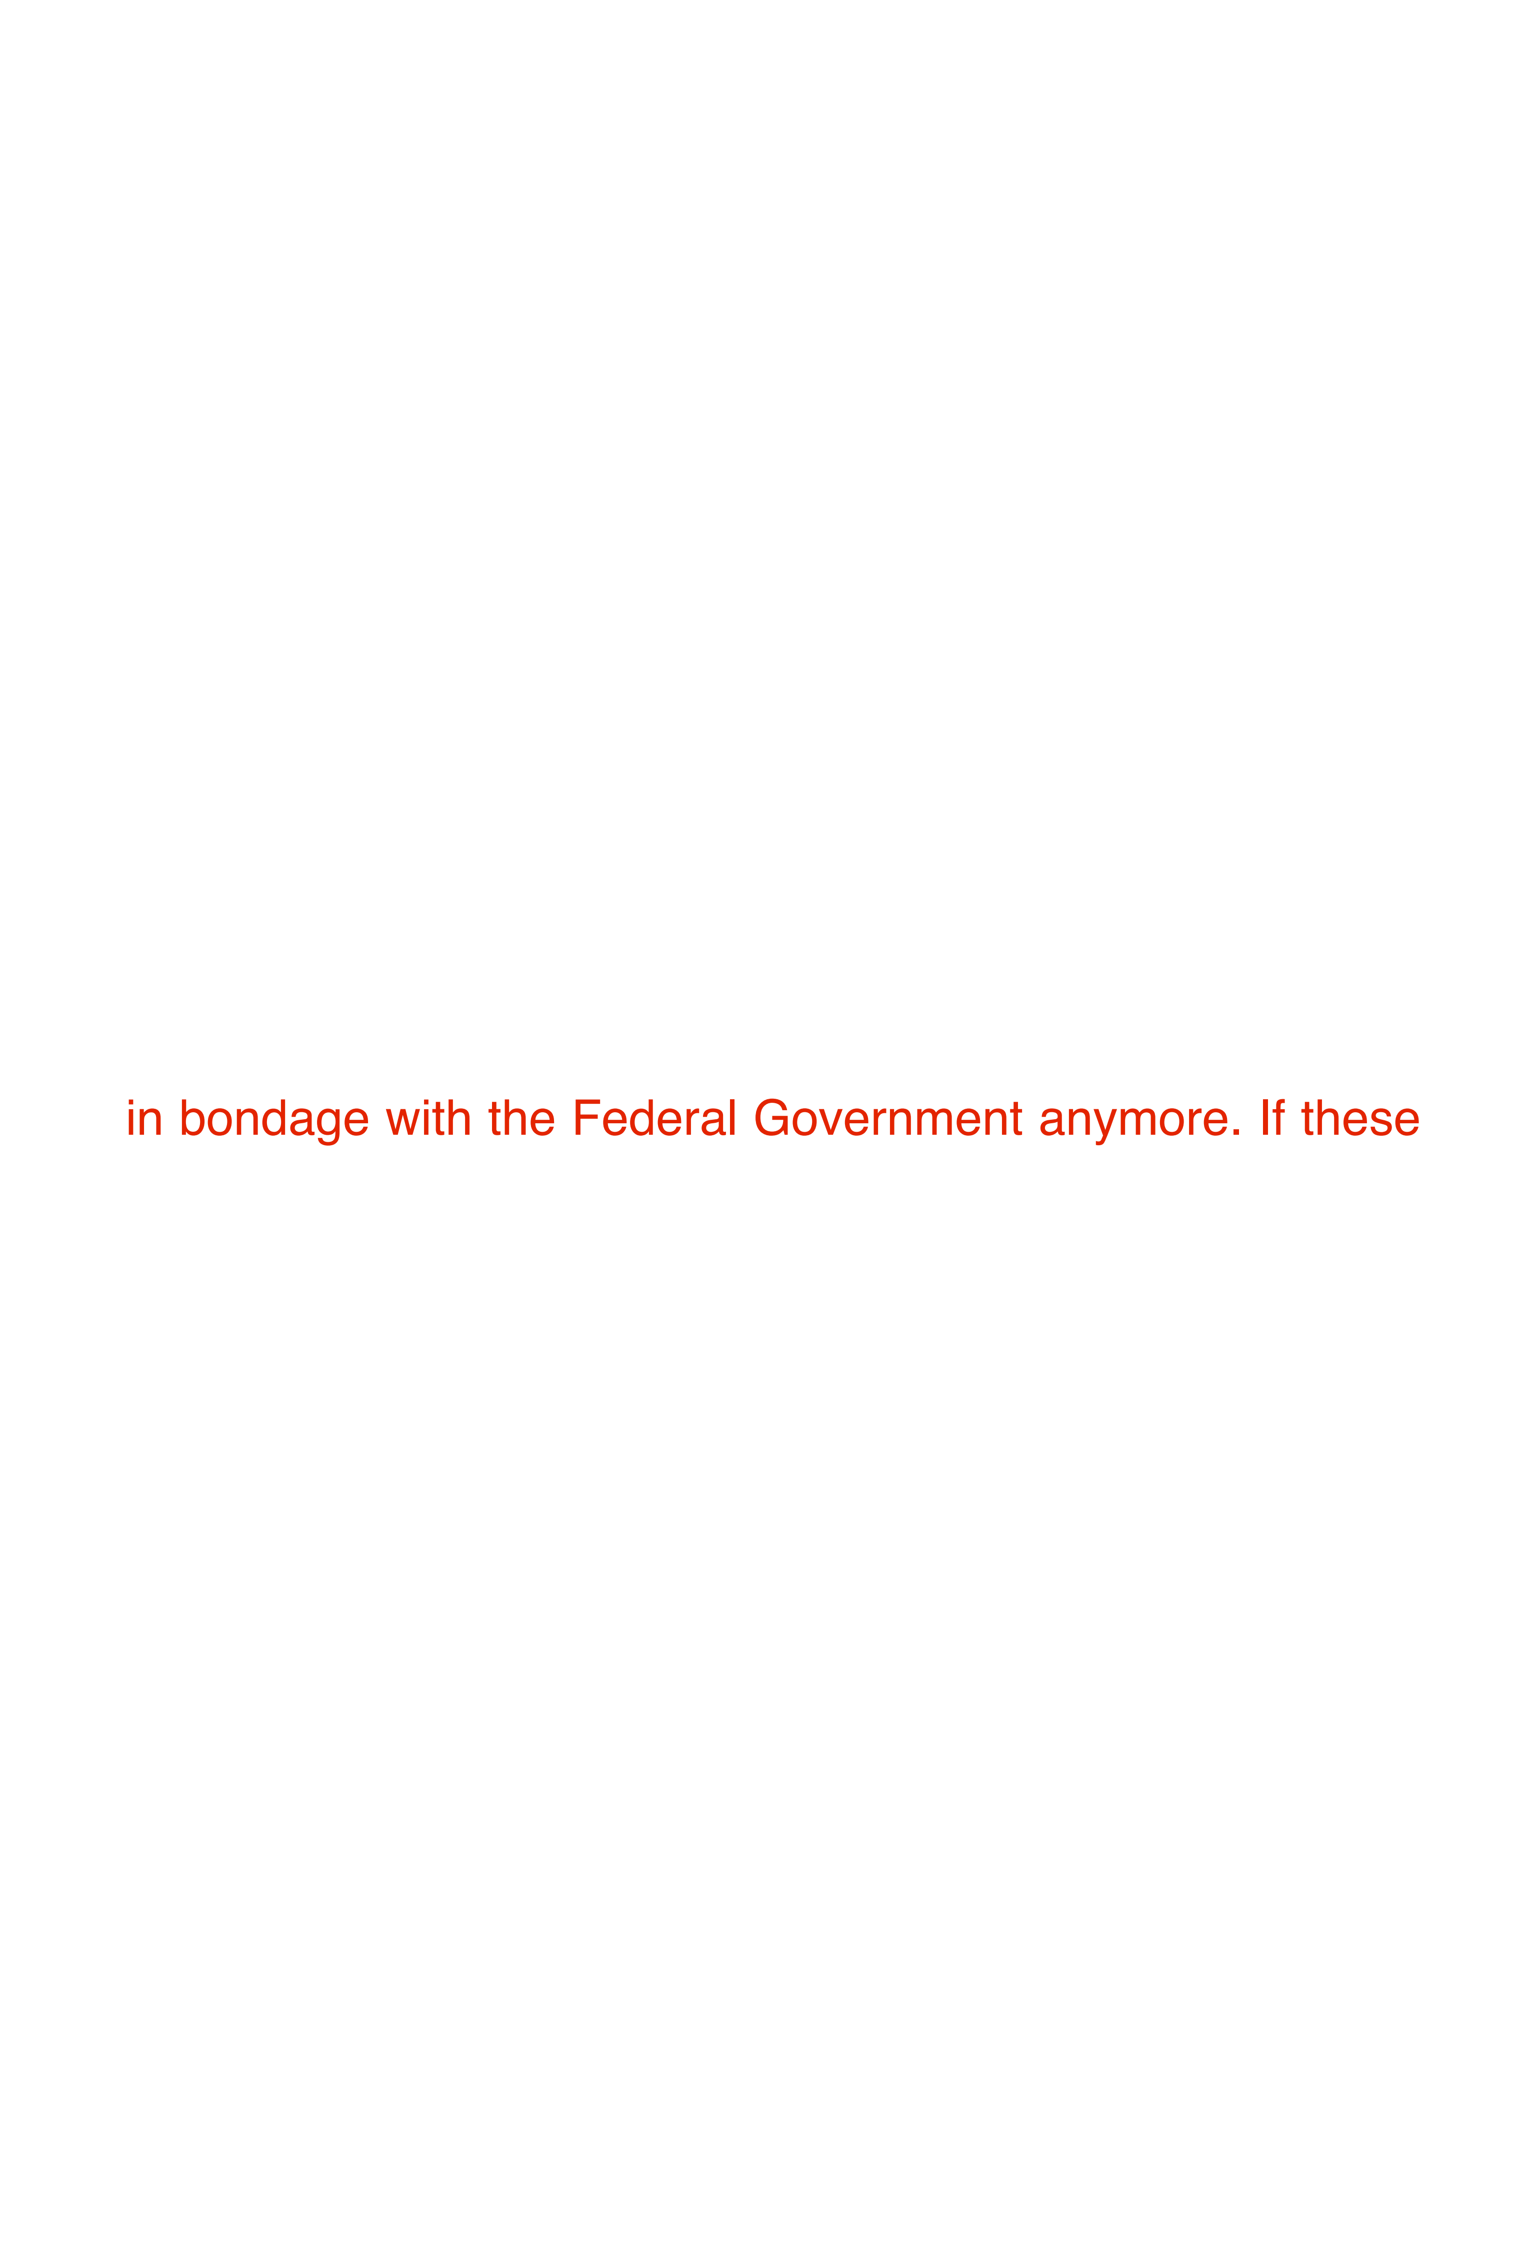

public profile as a person suffering from schizophrenia. The

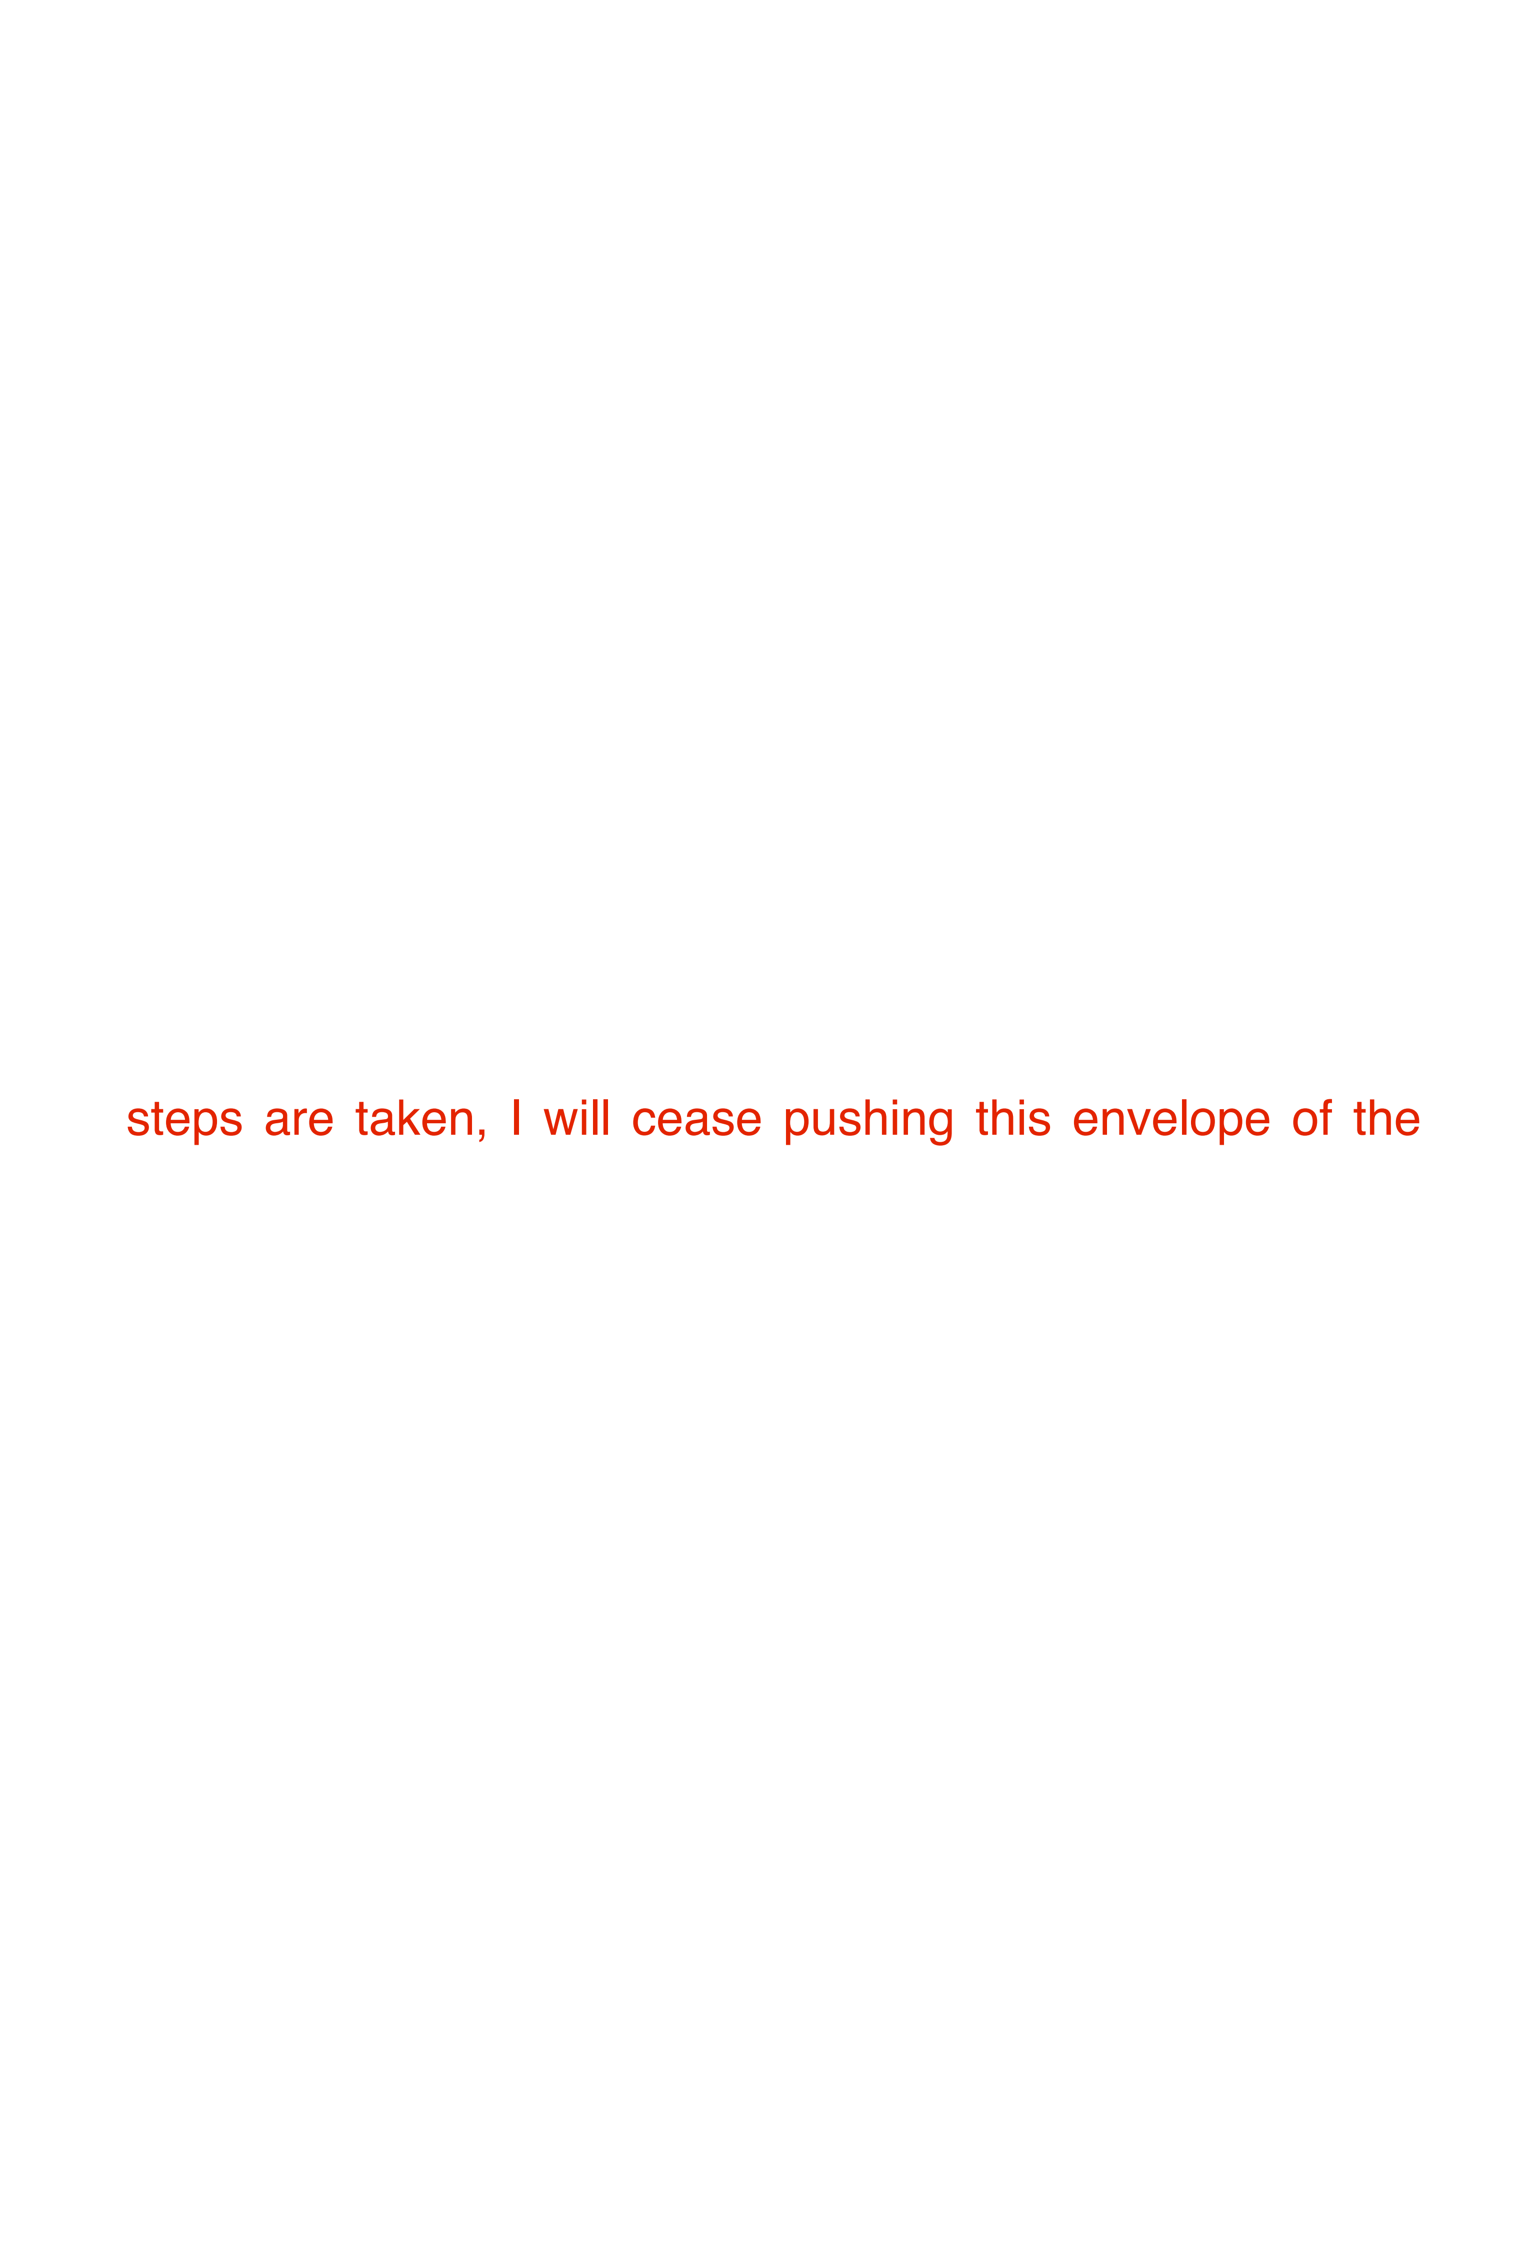

character assassination of my character will be online for

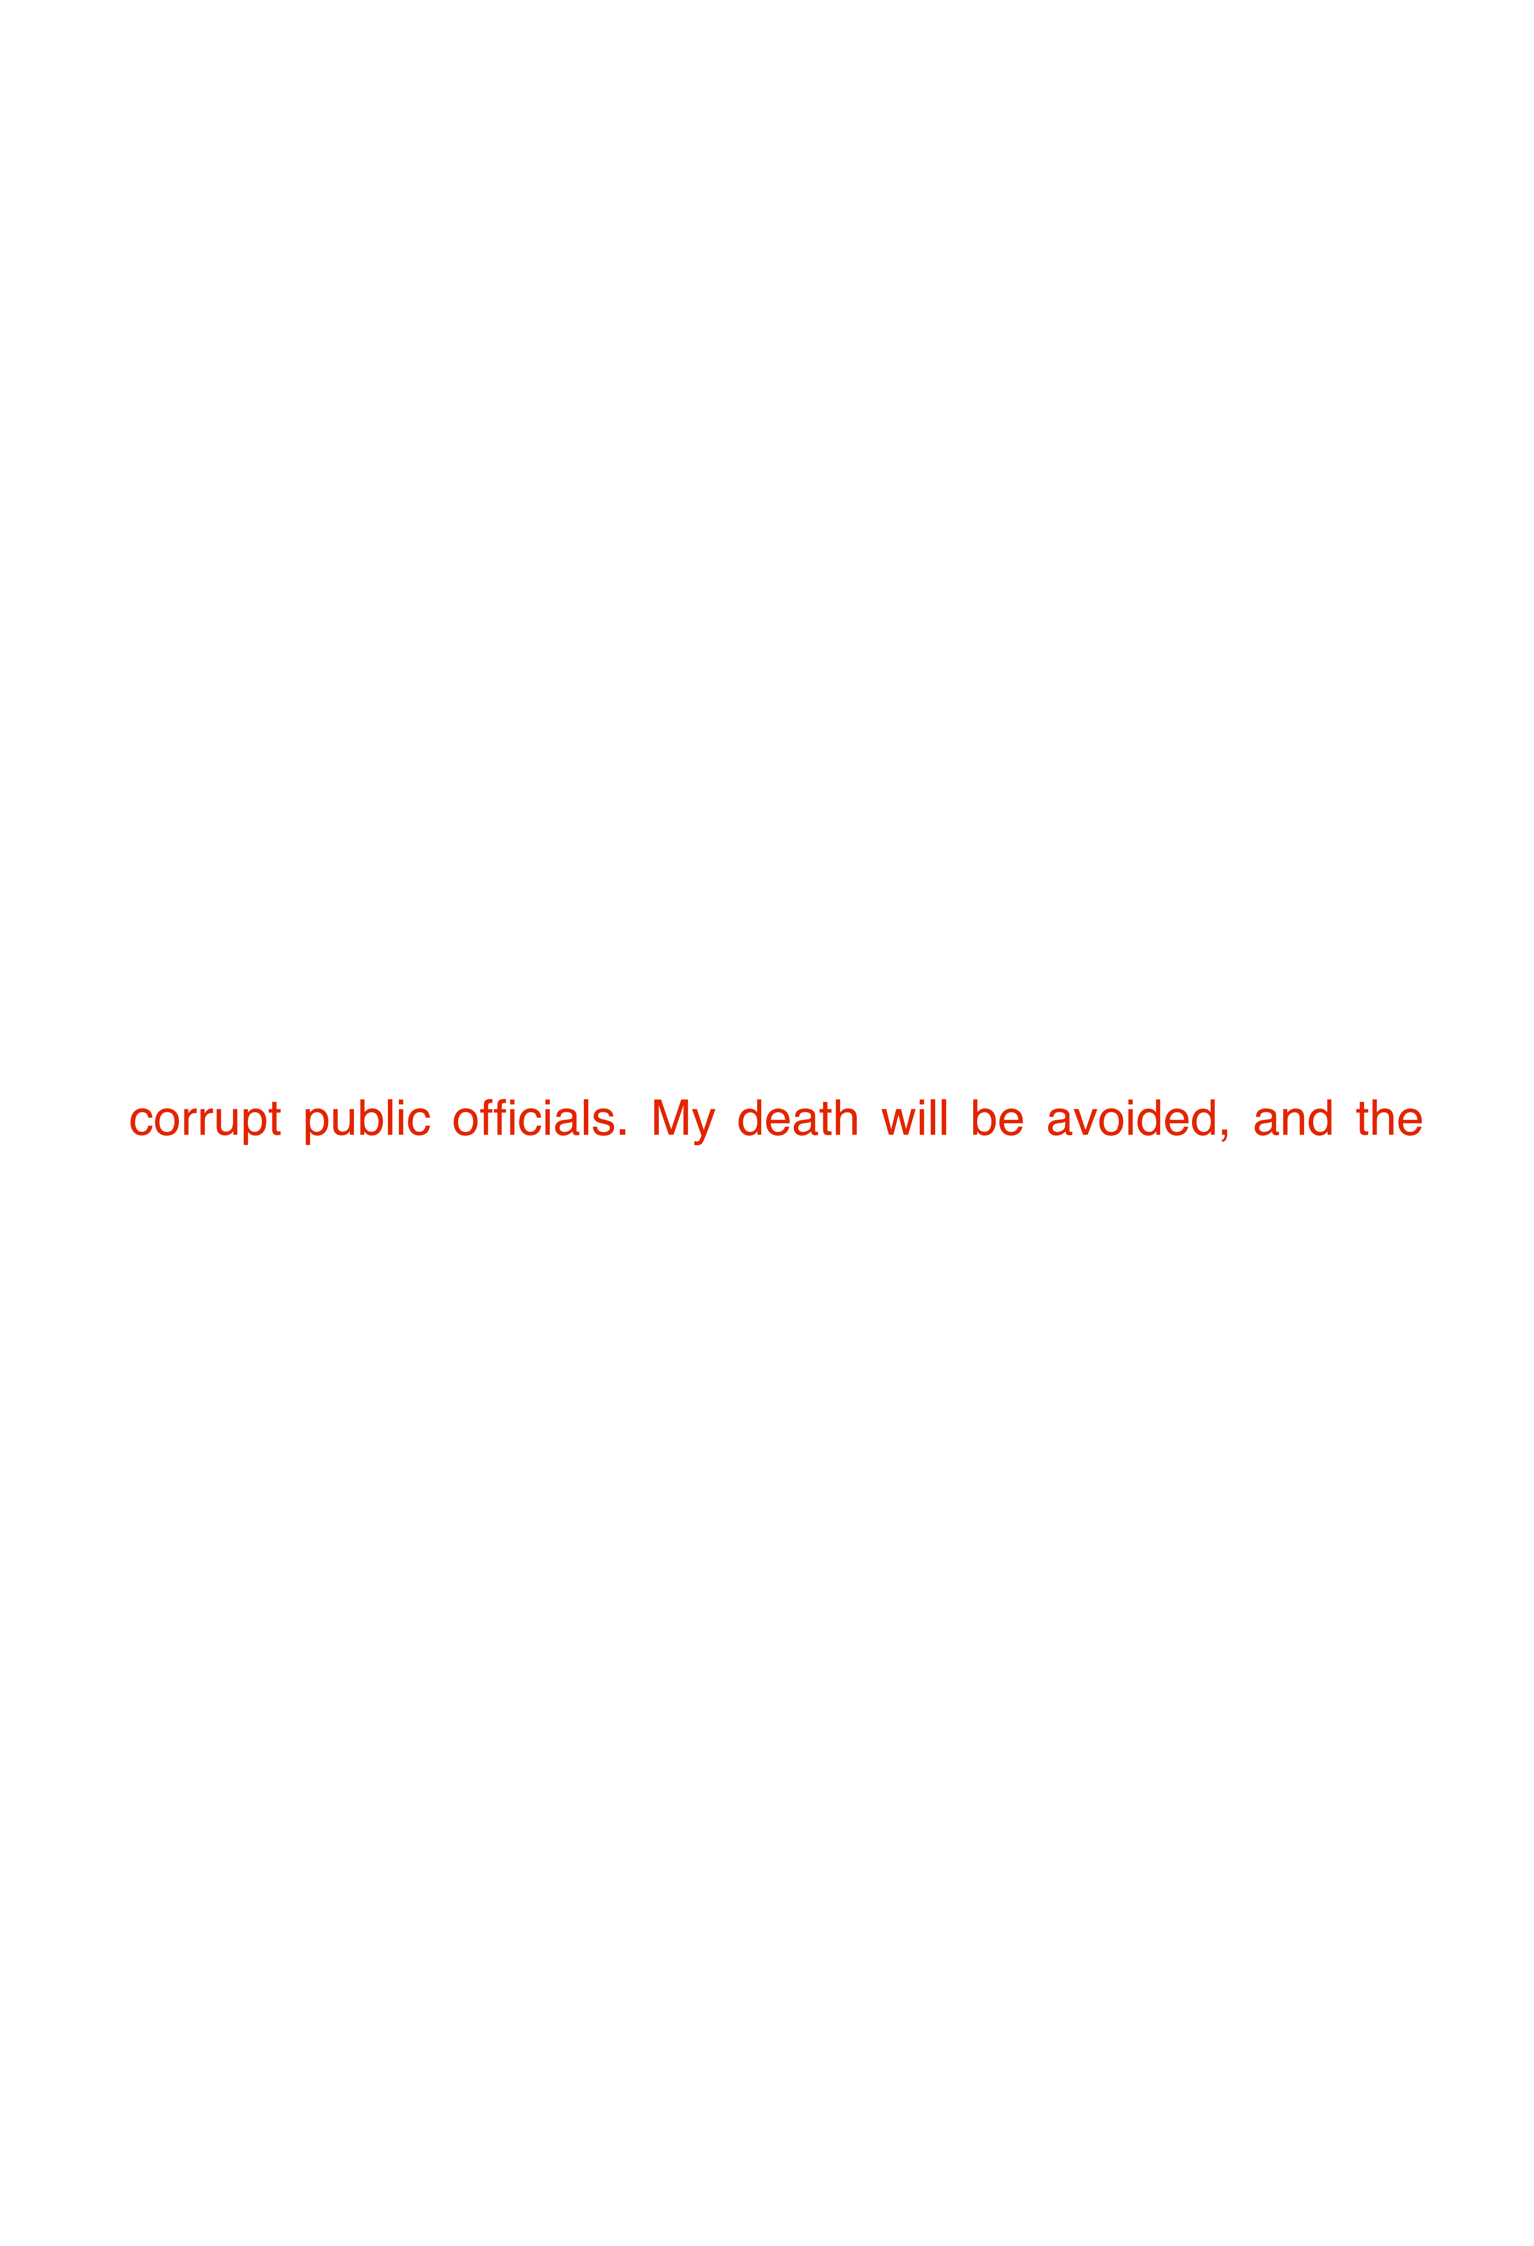

everyone to see.

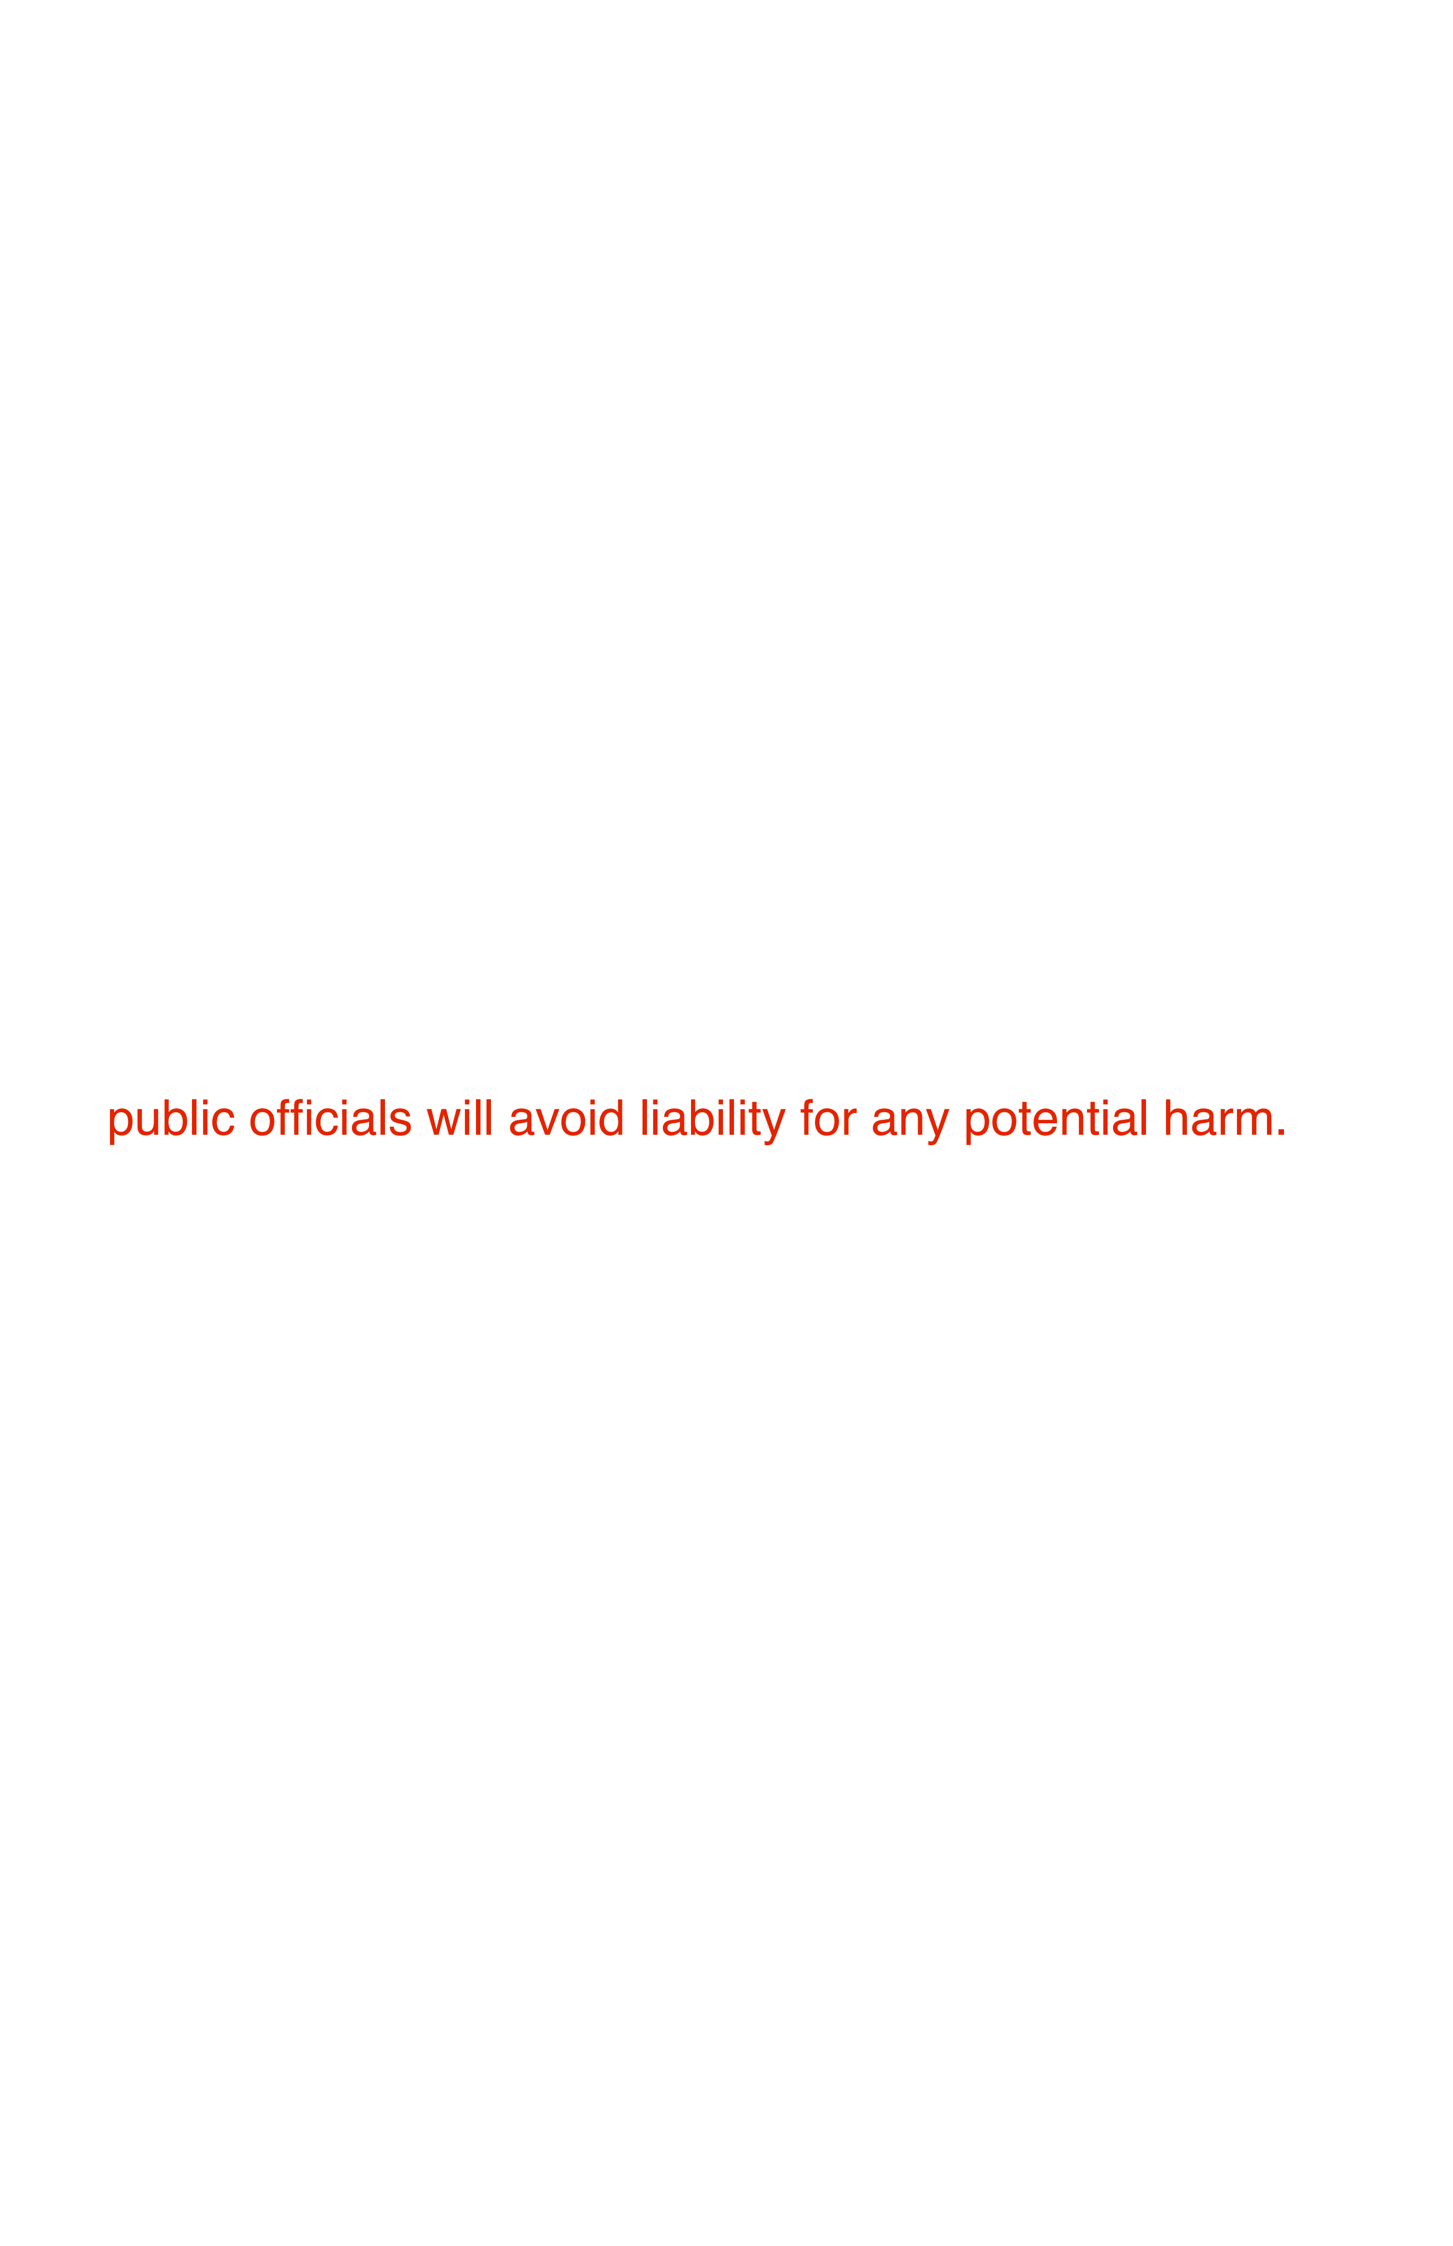

The choice is clear. Legitimize the Federal Court document,

pay me my rightful work cover, and allow me to not be held

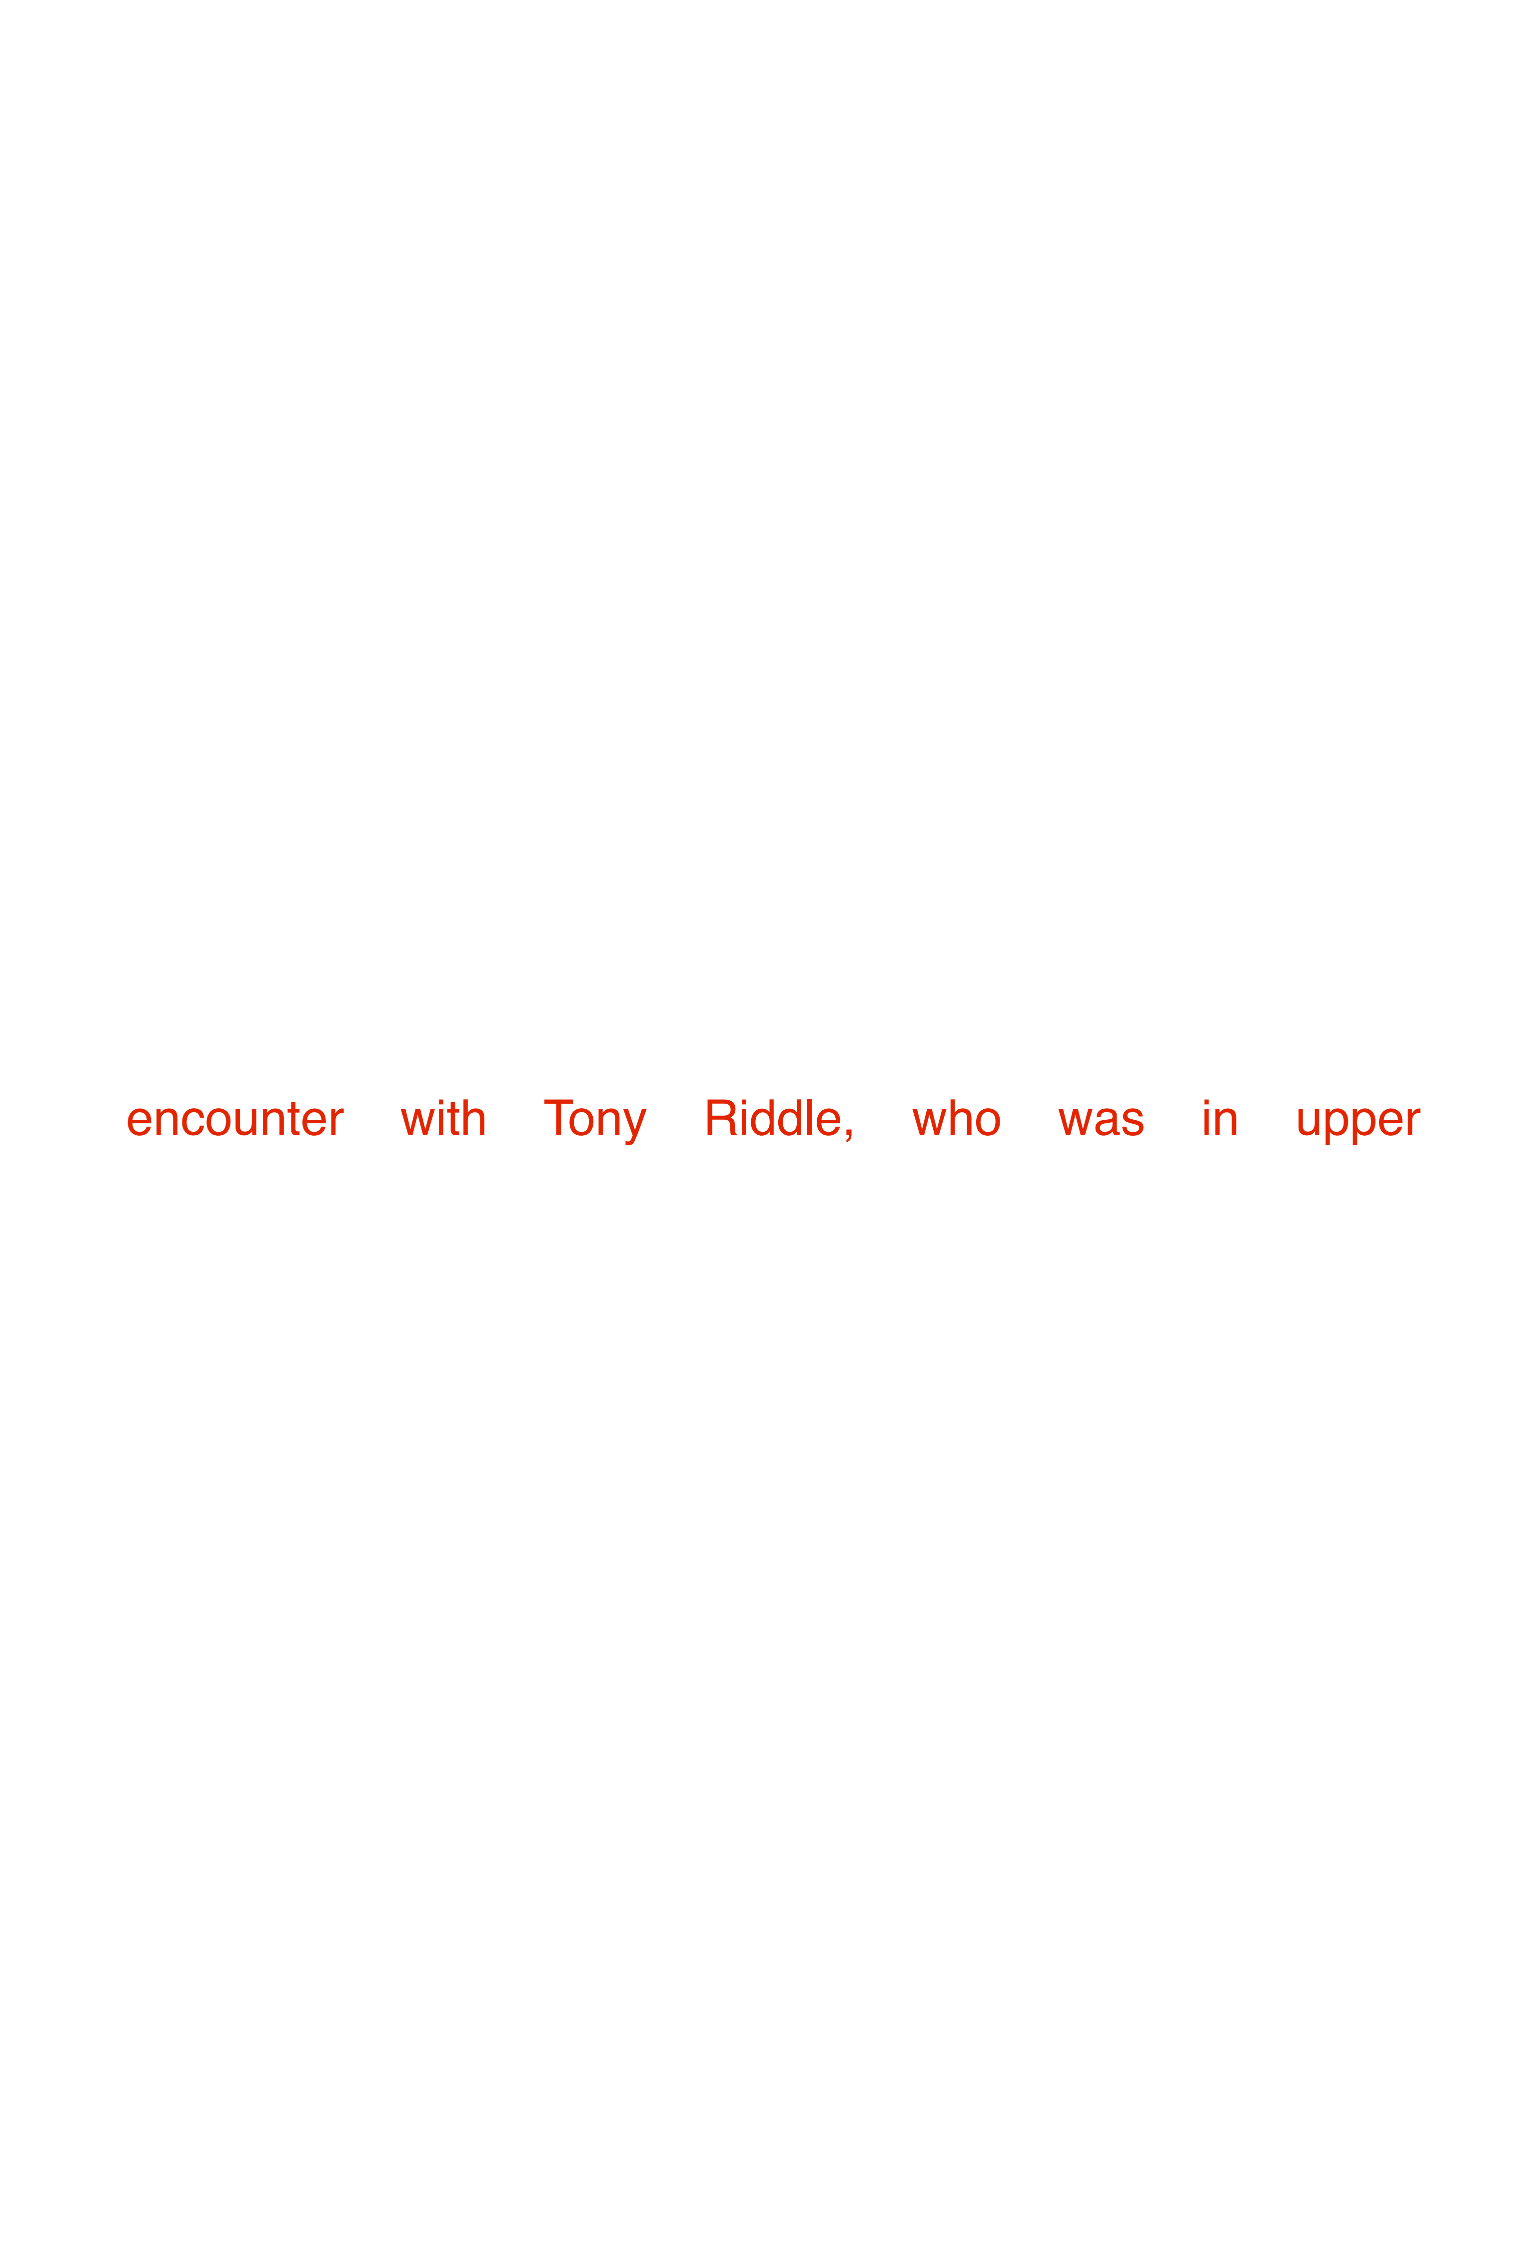

in bondage with the Federal Government anymore. If these

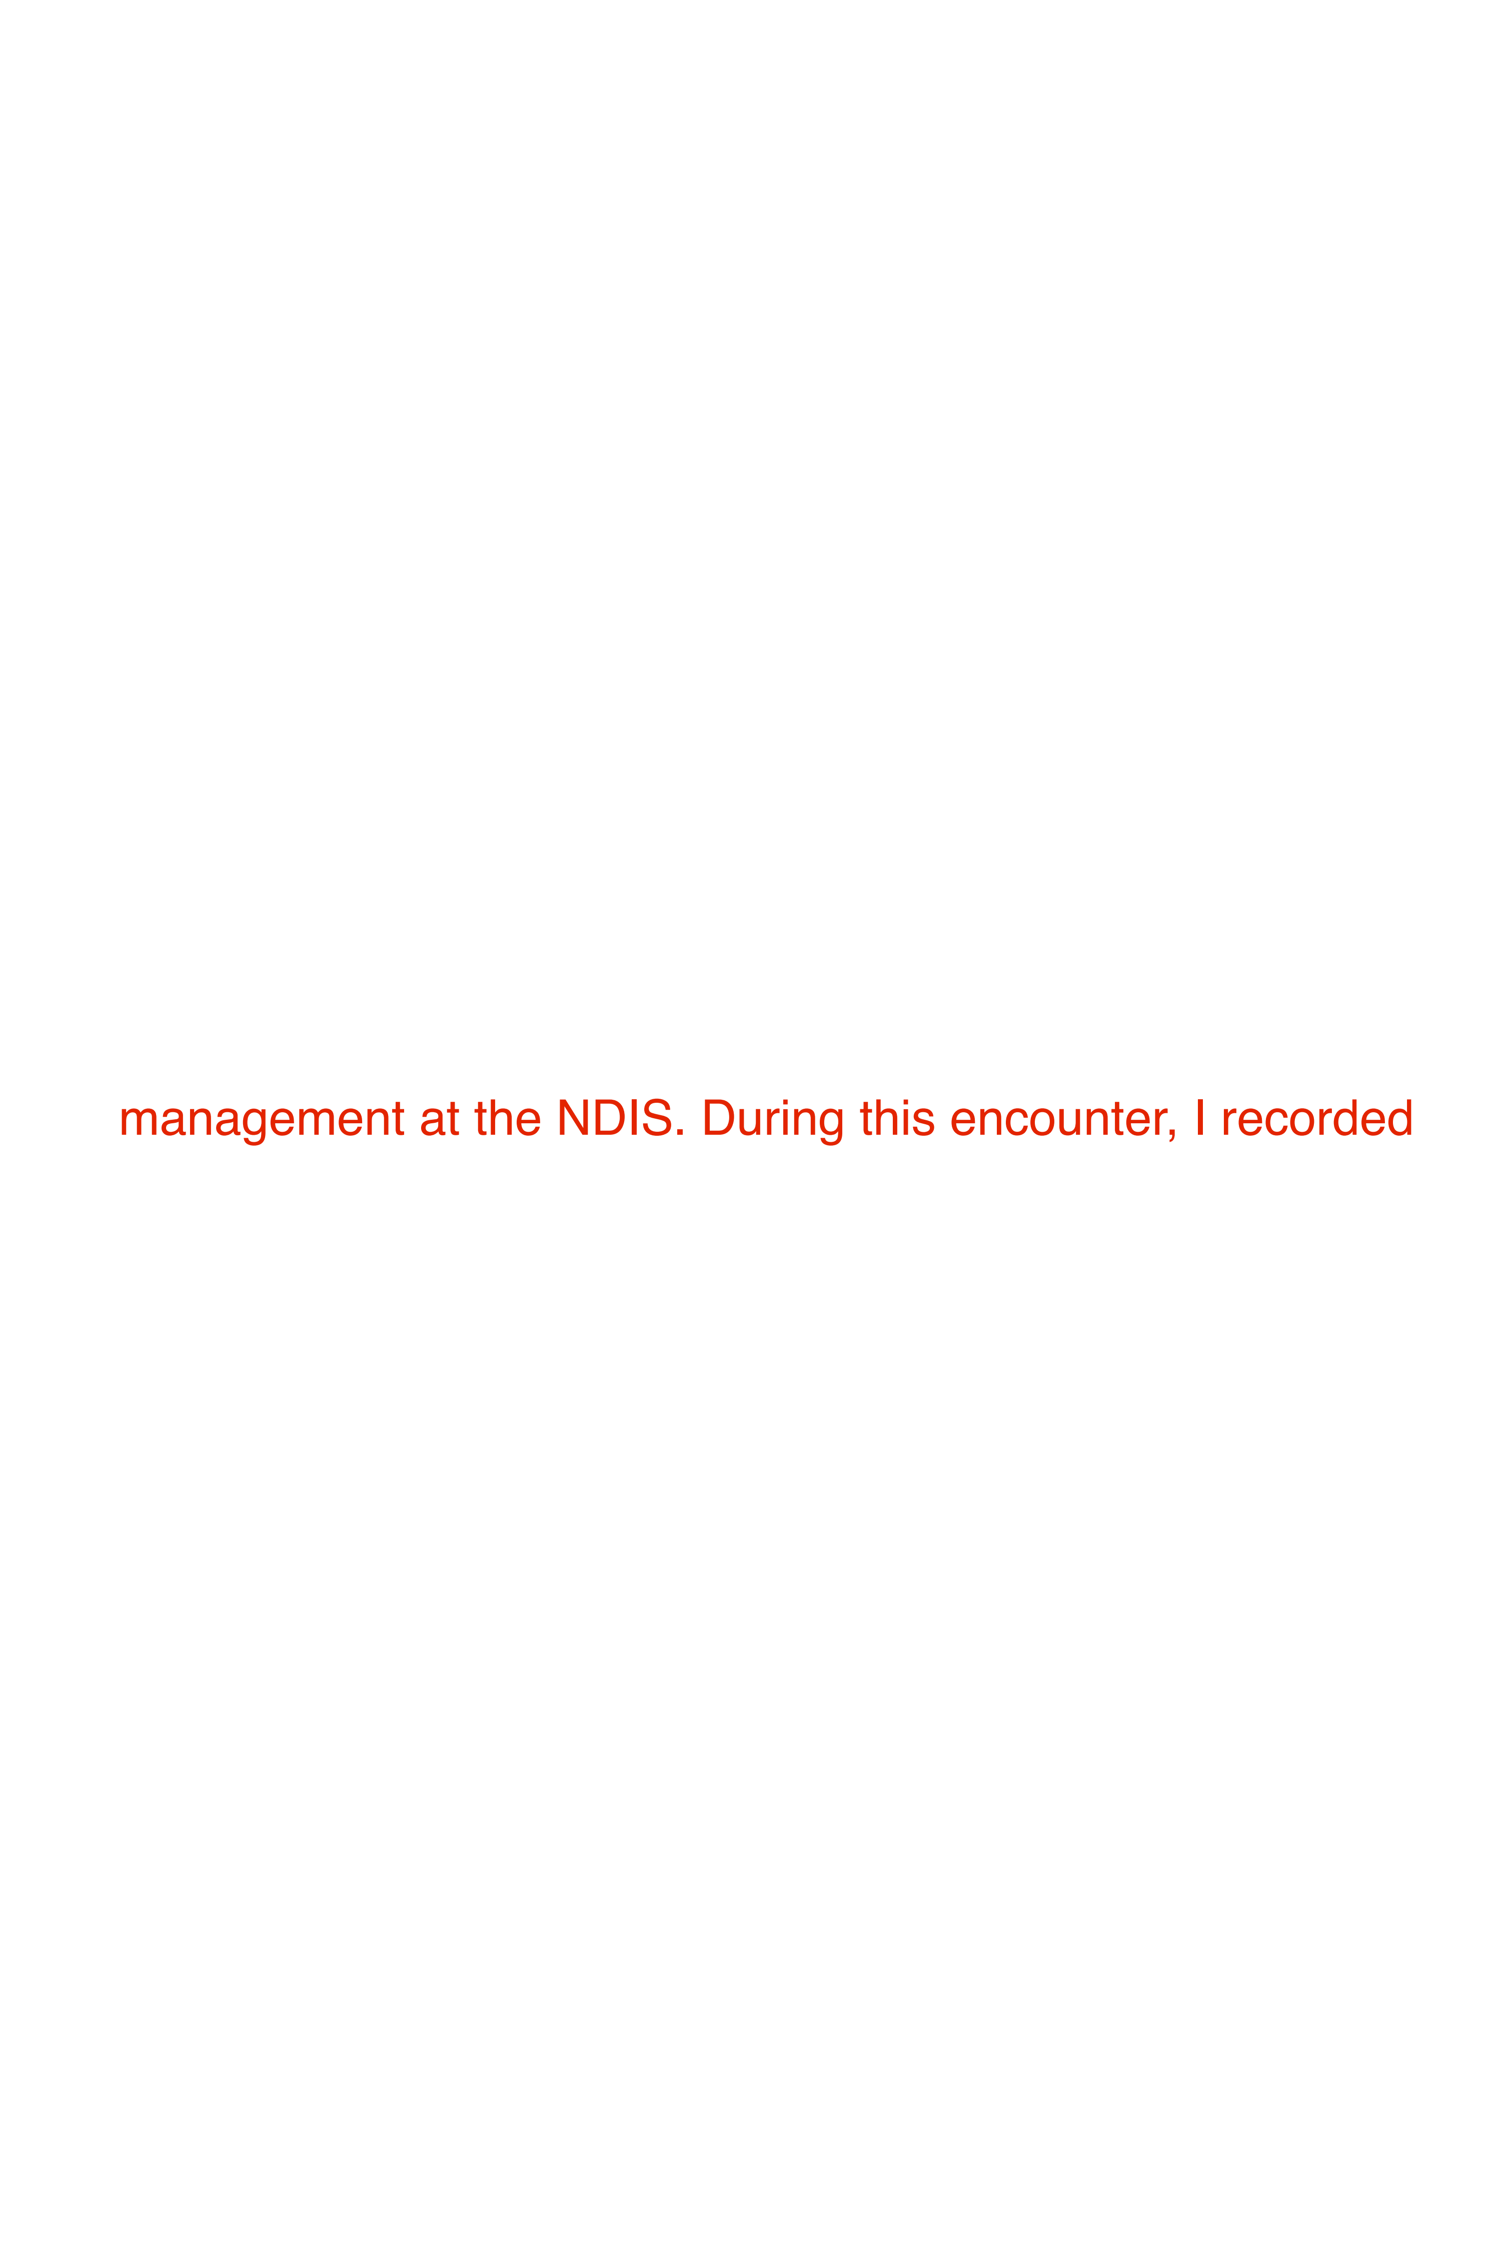

steps are taken, I will cease pushing this envelope of the

corrupt public officials. My death will be avoided, and the

public officials will avoid liability for any potential harm.

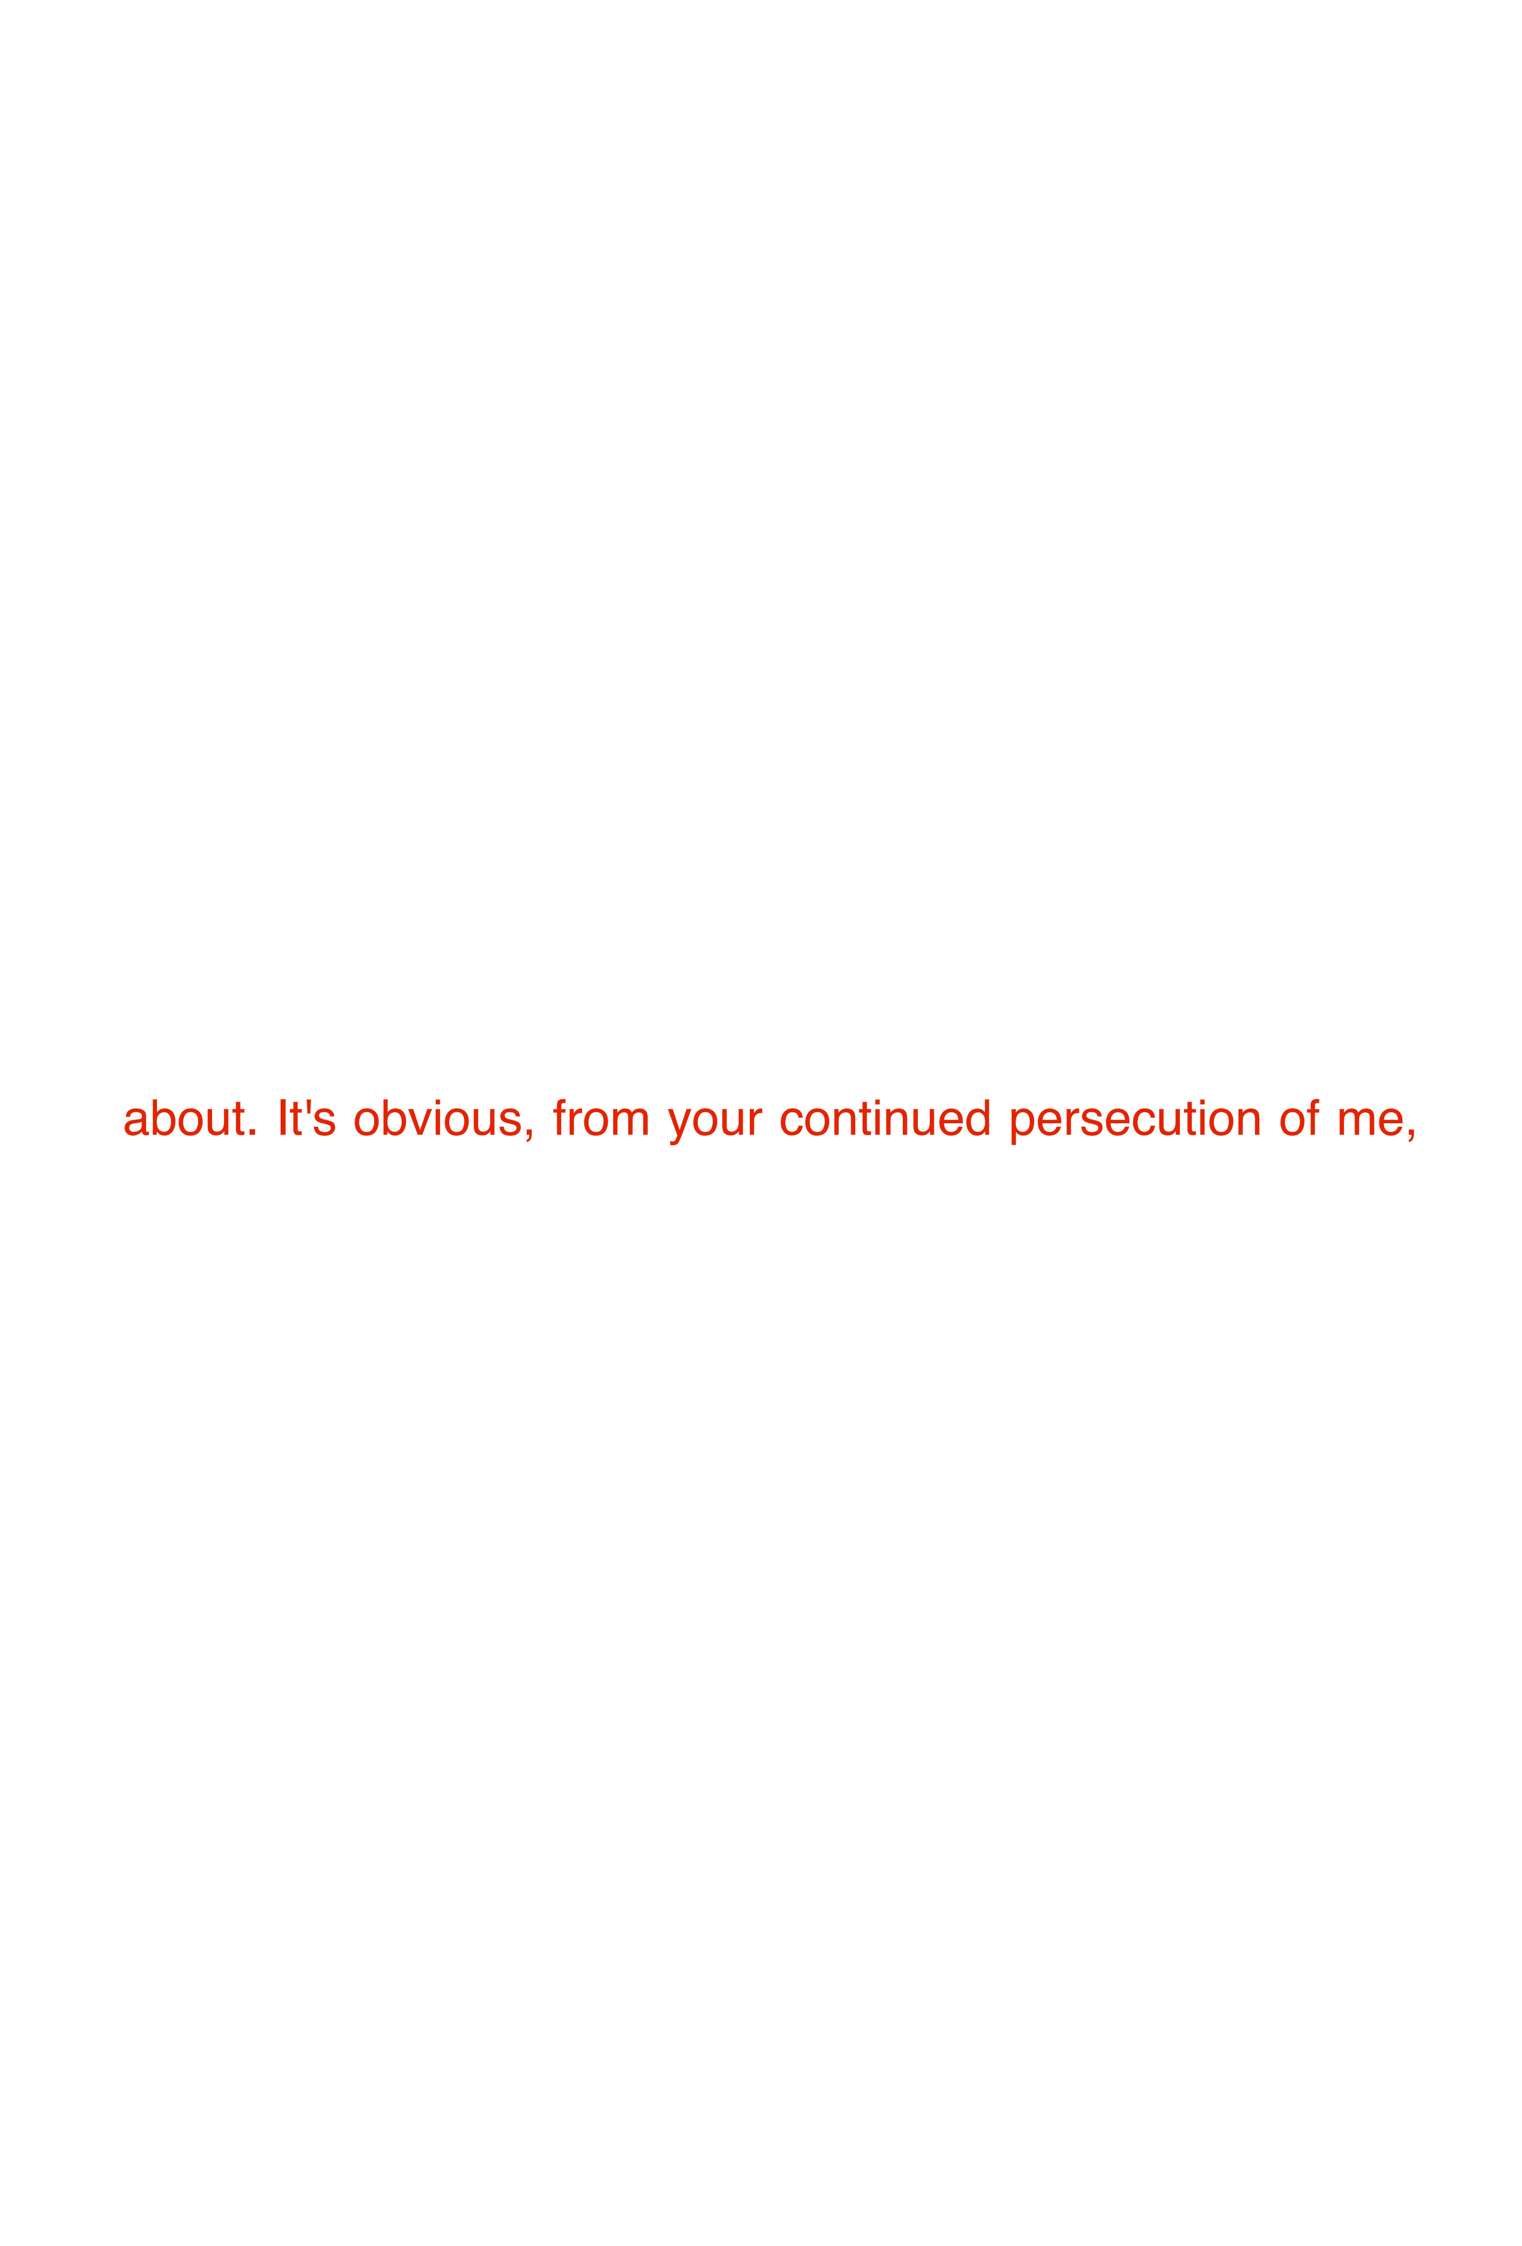

I also want to highlight the fact that I had a sexual

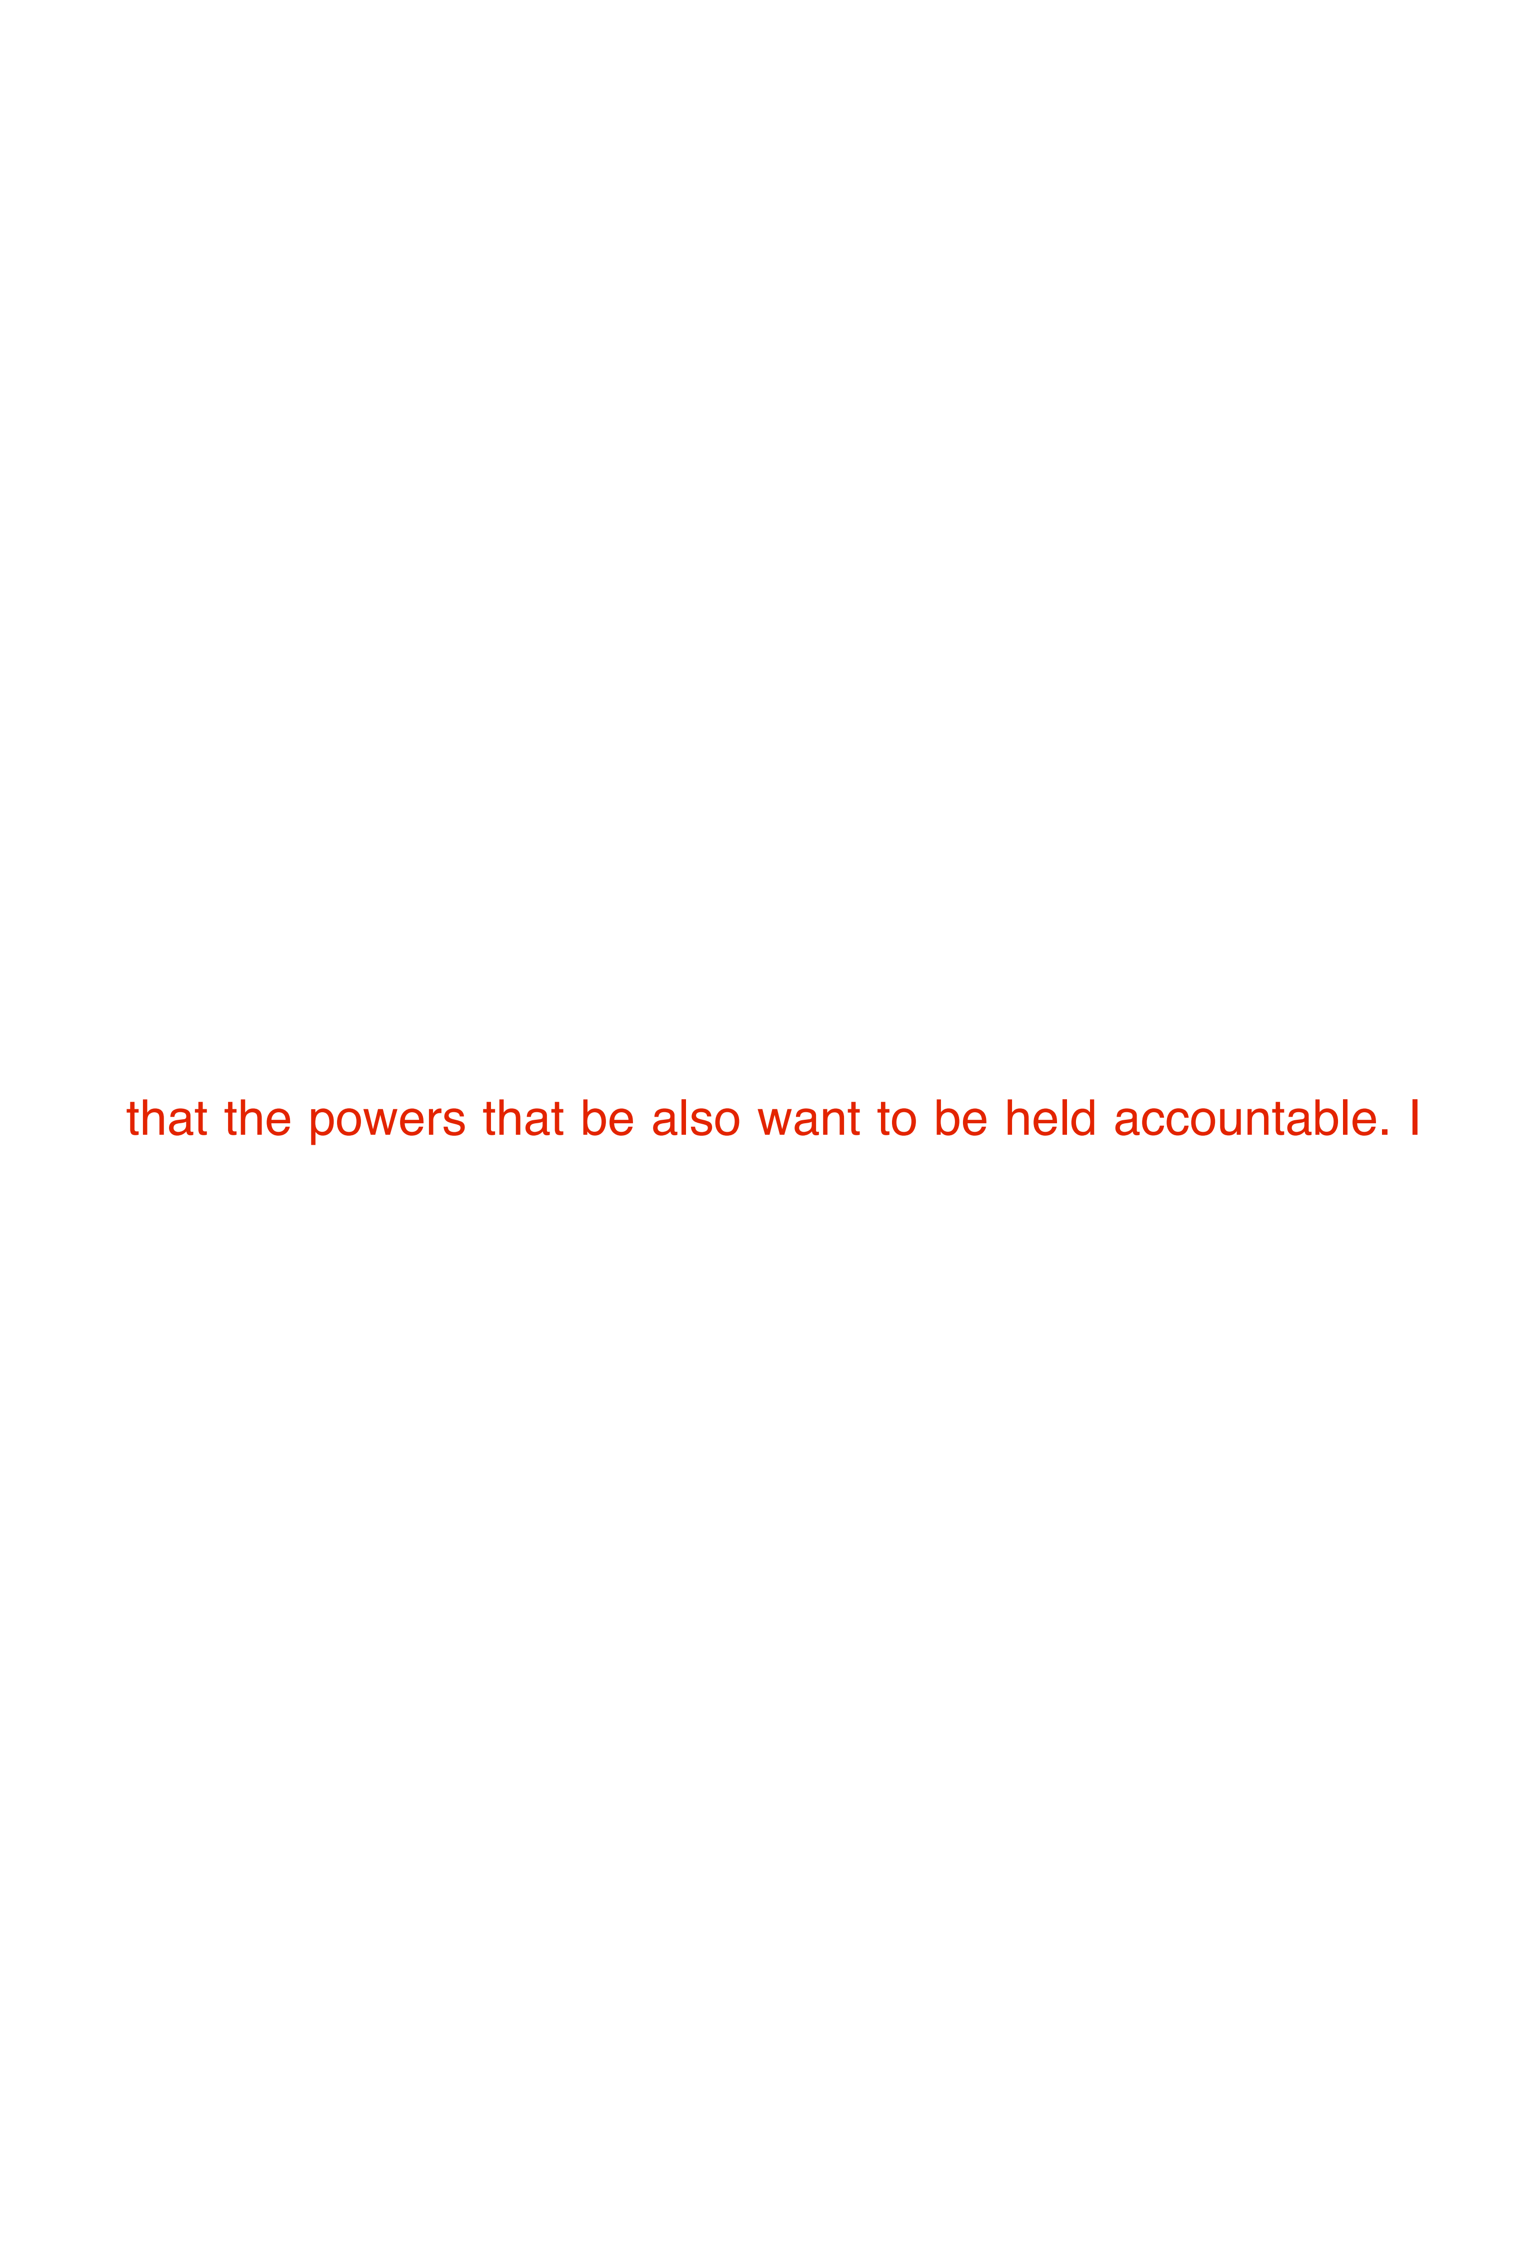

encounter with Tony Riddle, who was in upper

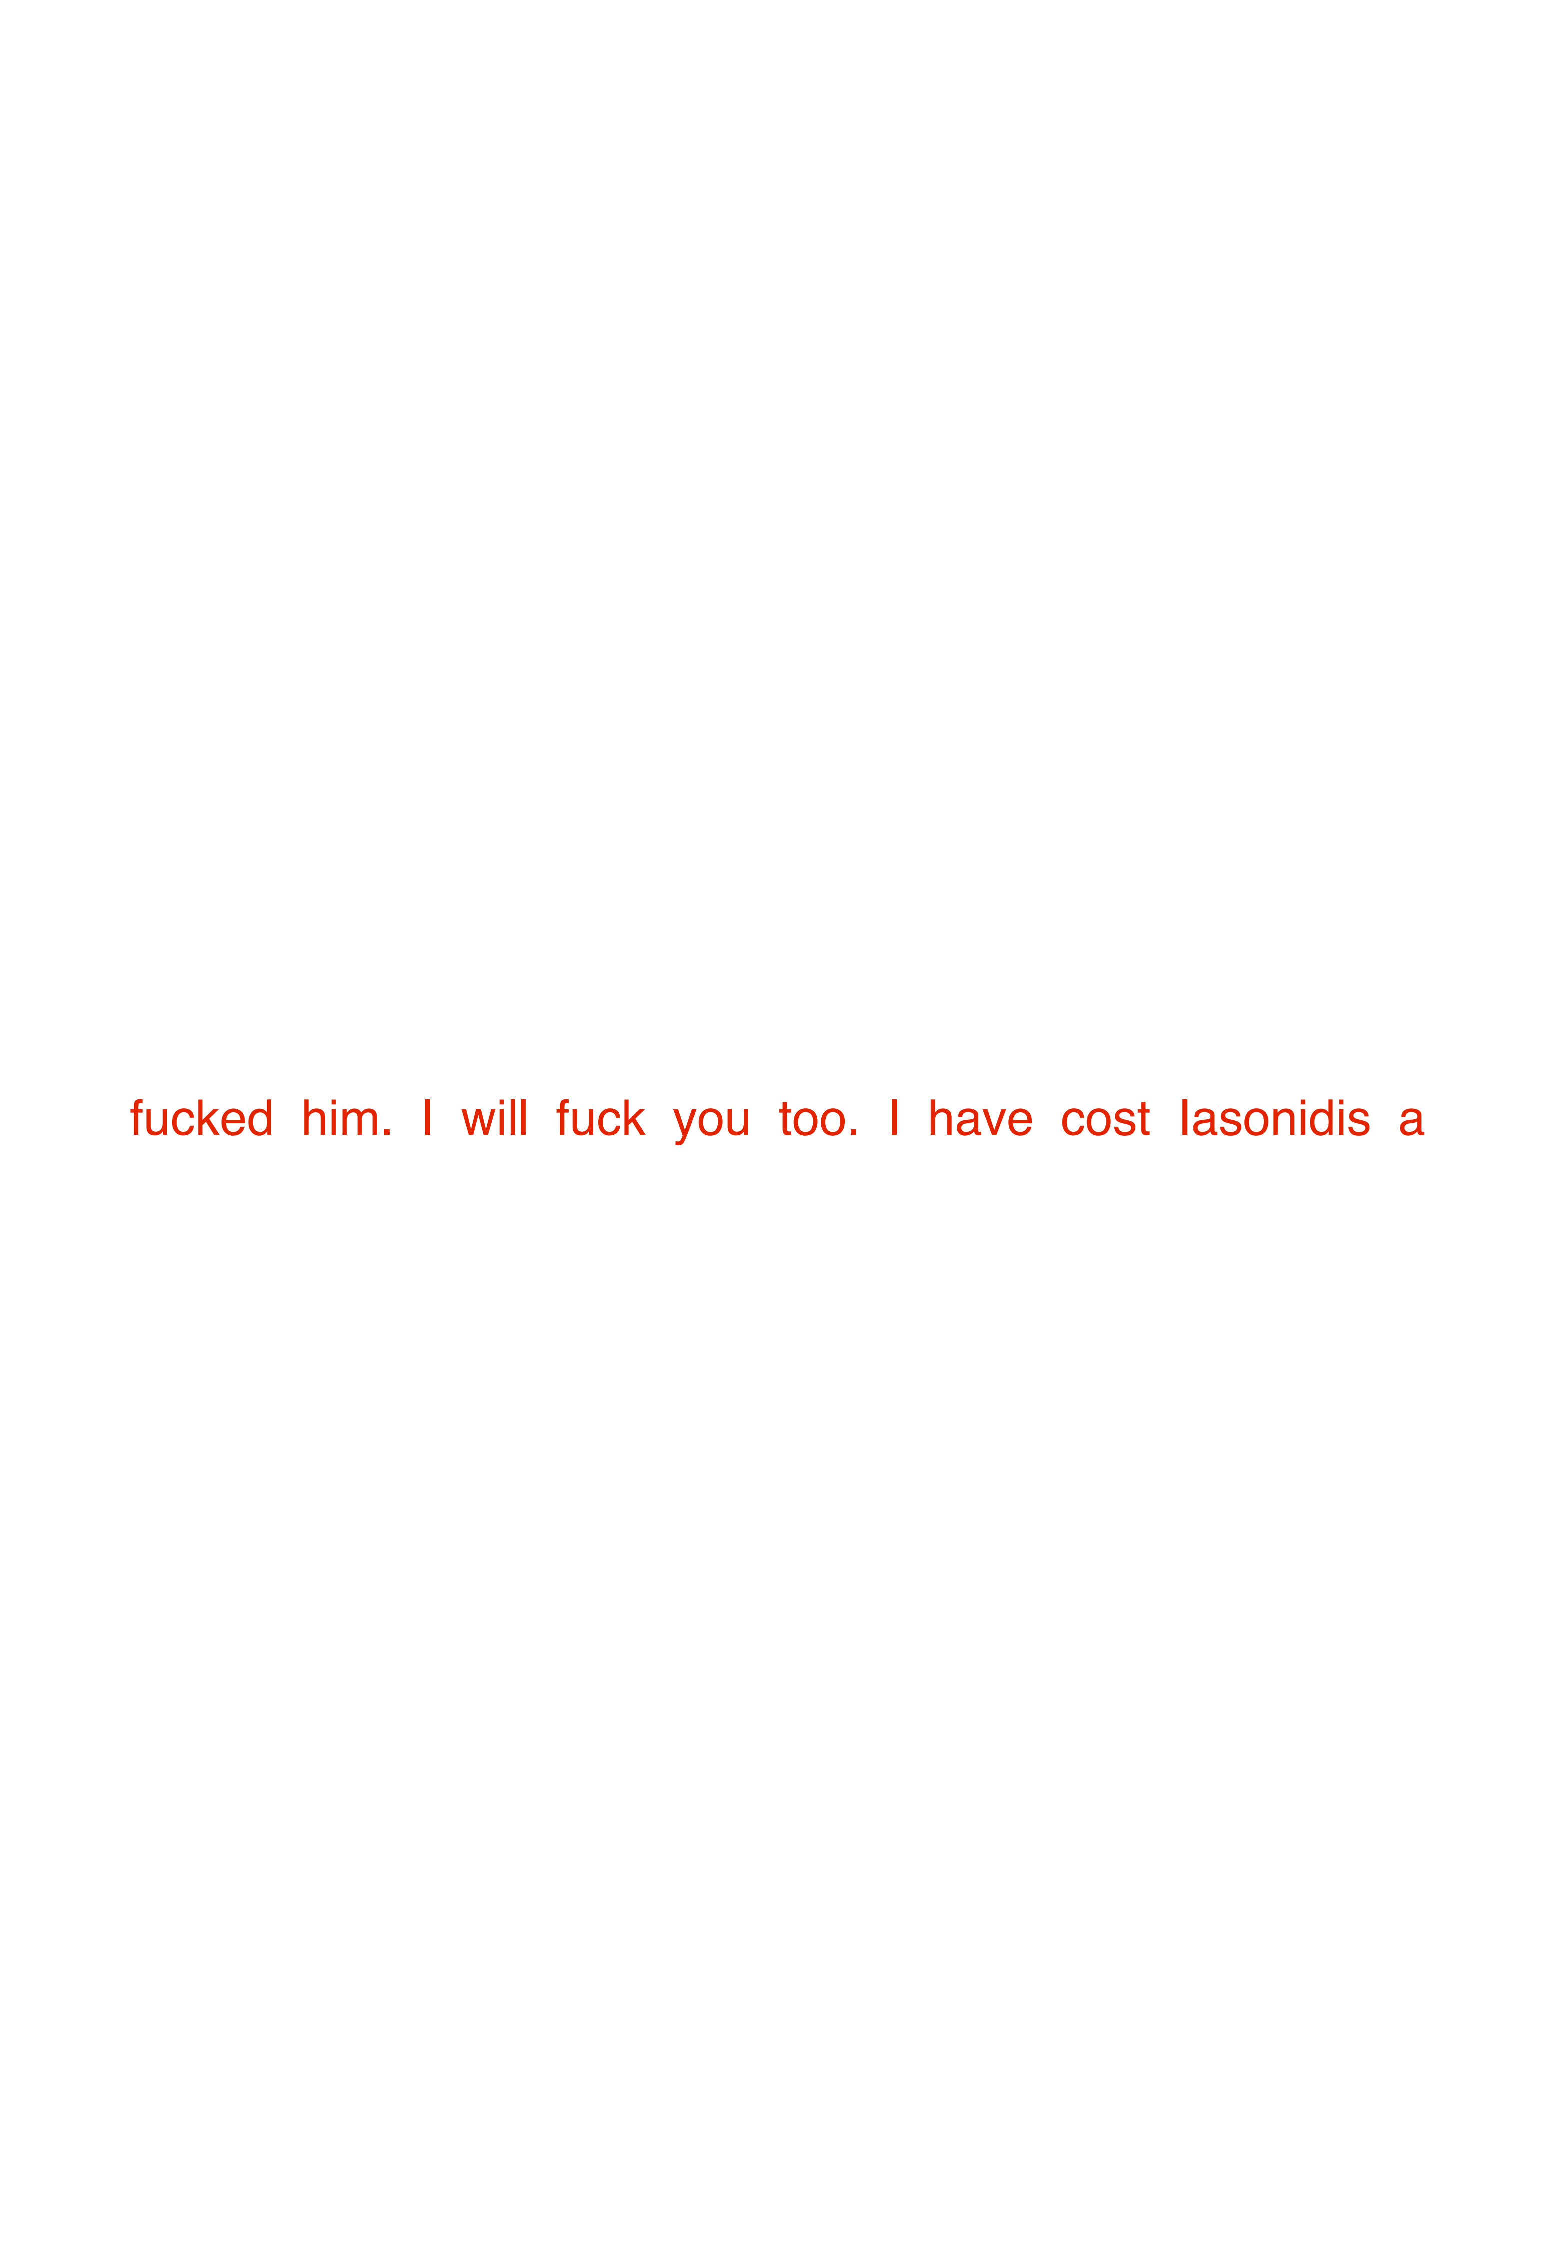

management at the NDIS. During this encounter, I recorded

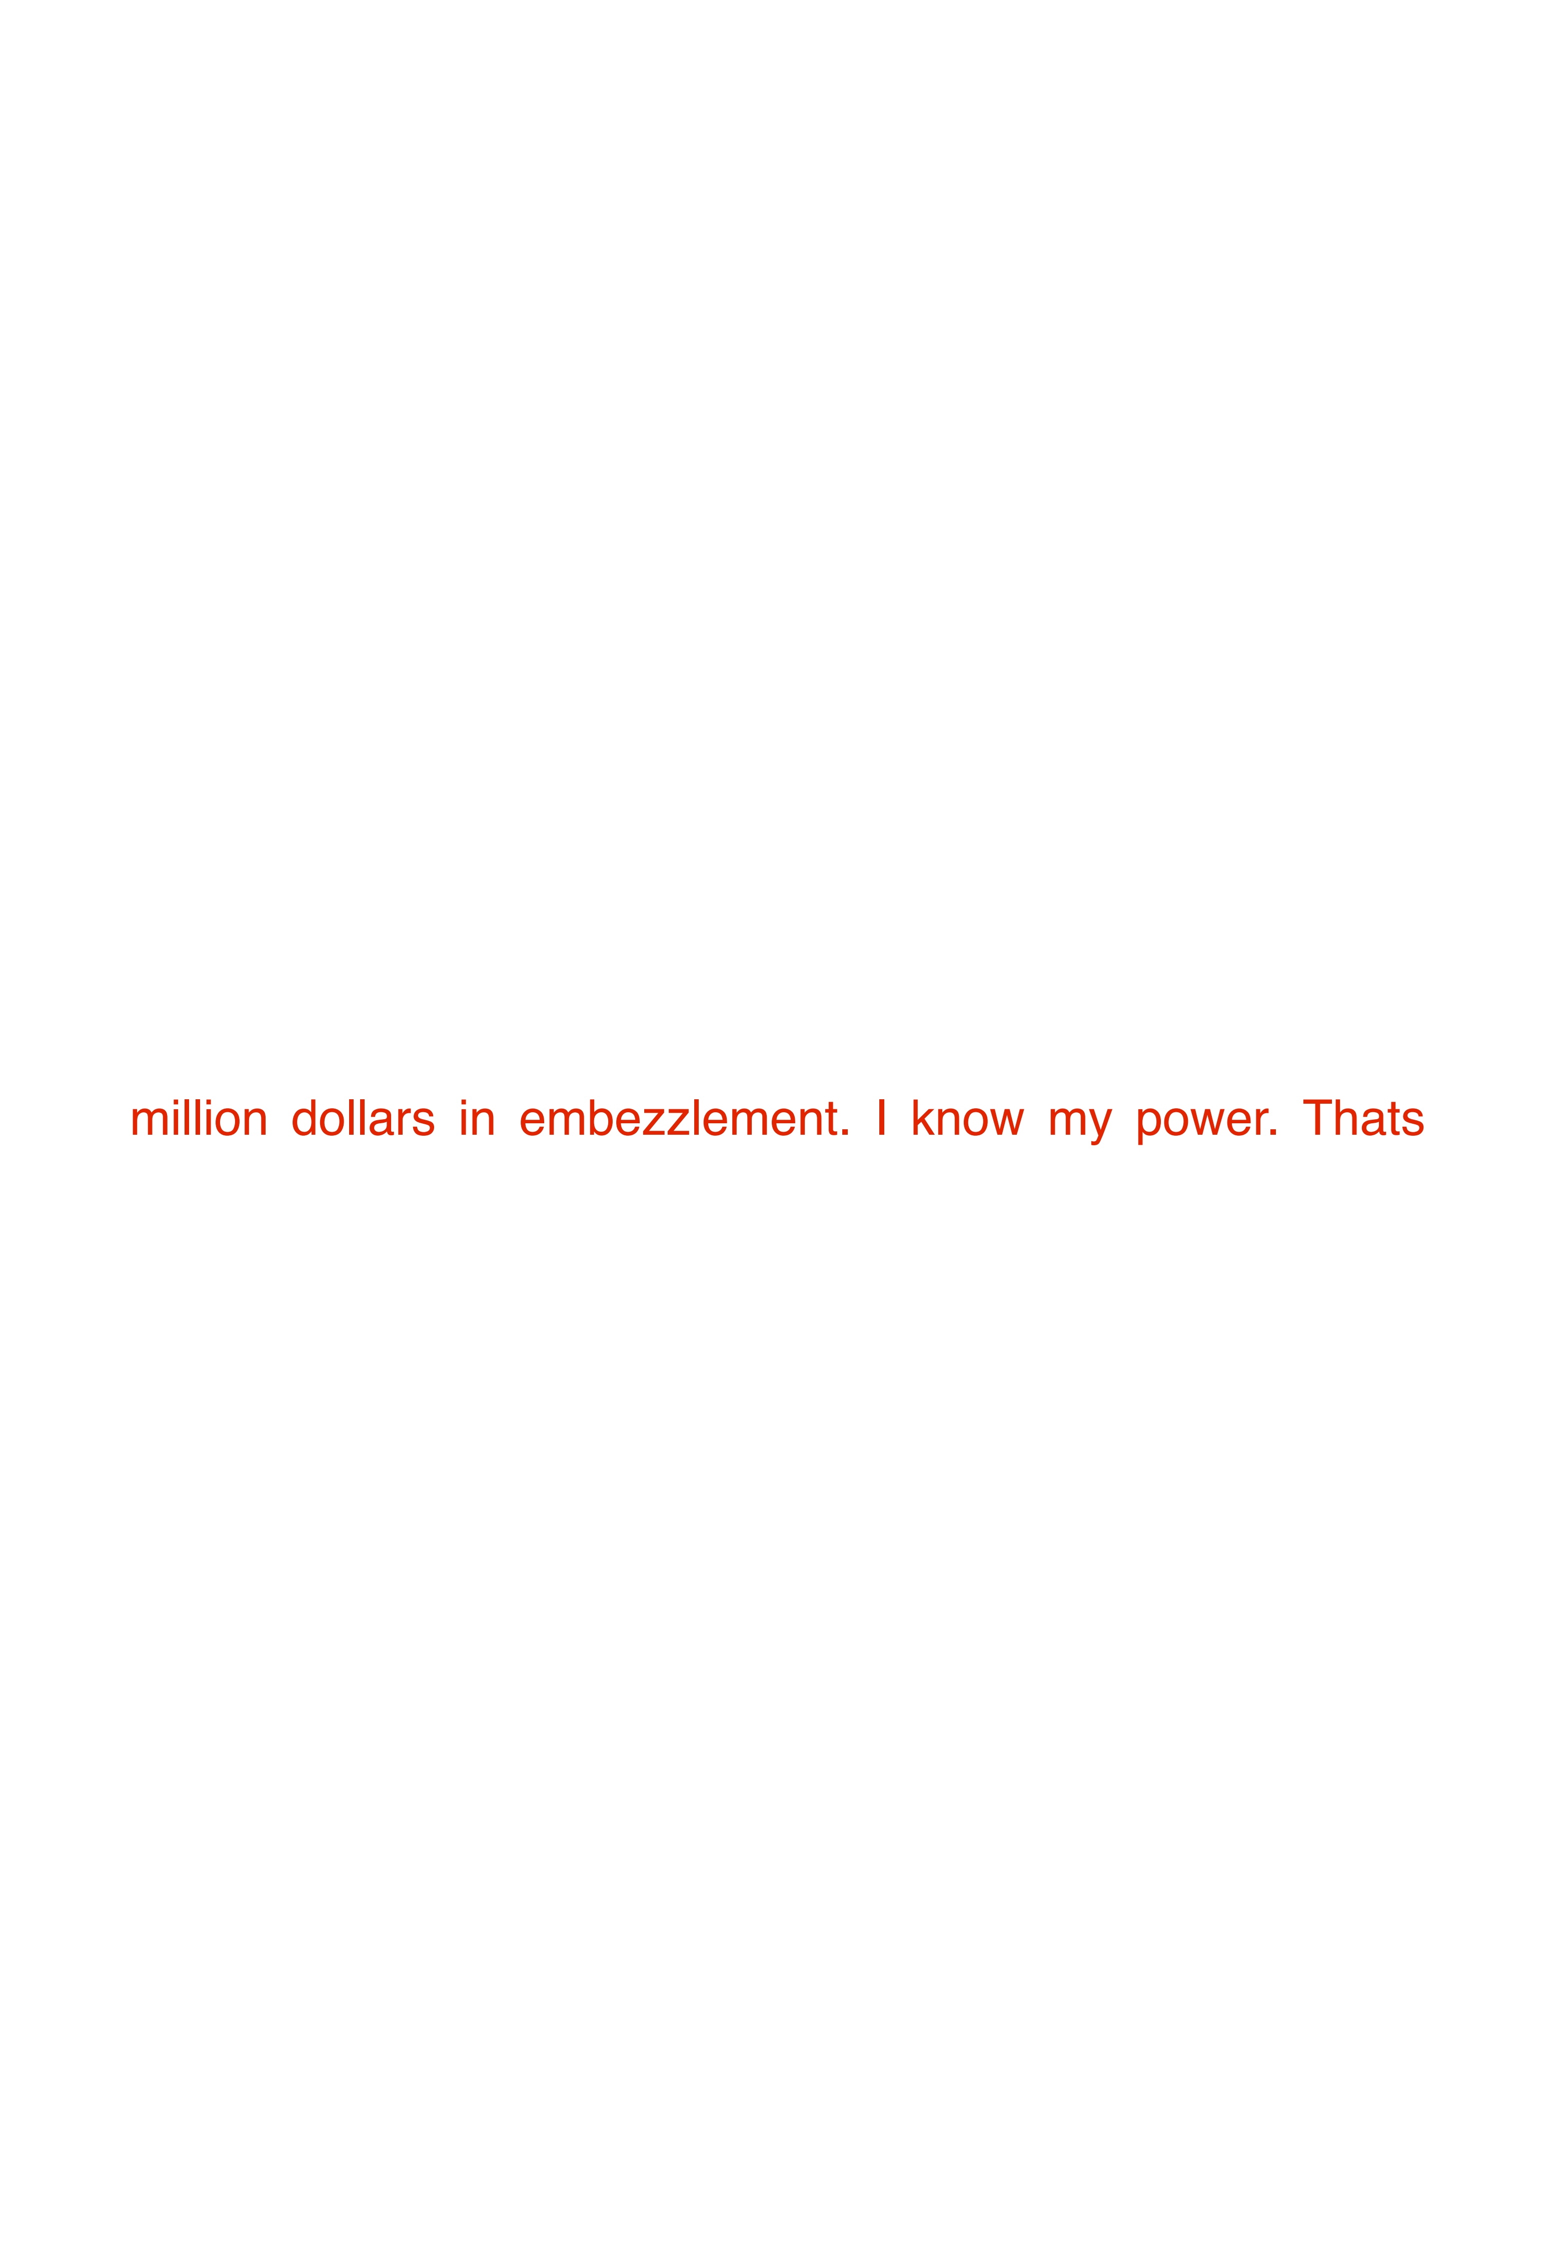

a conversation revealing extreme and profound corruption

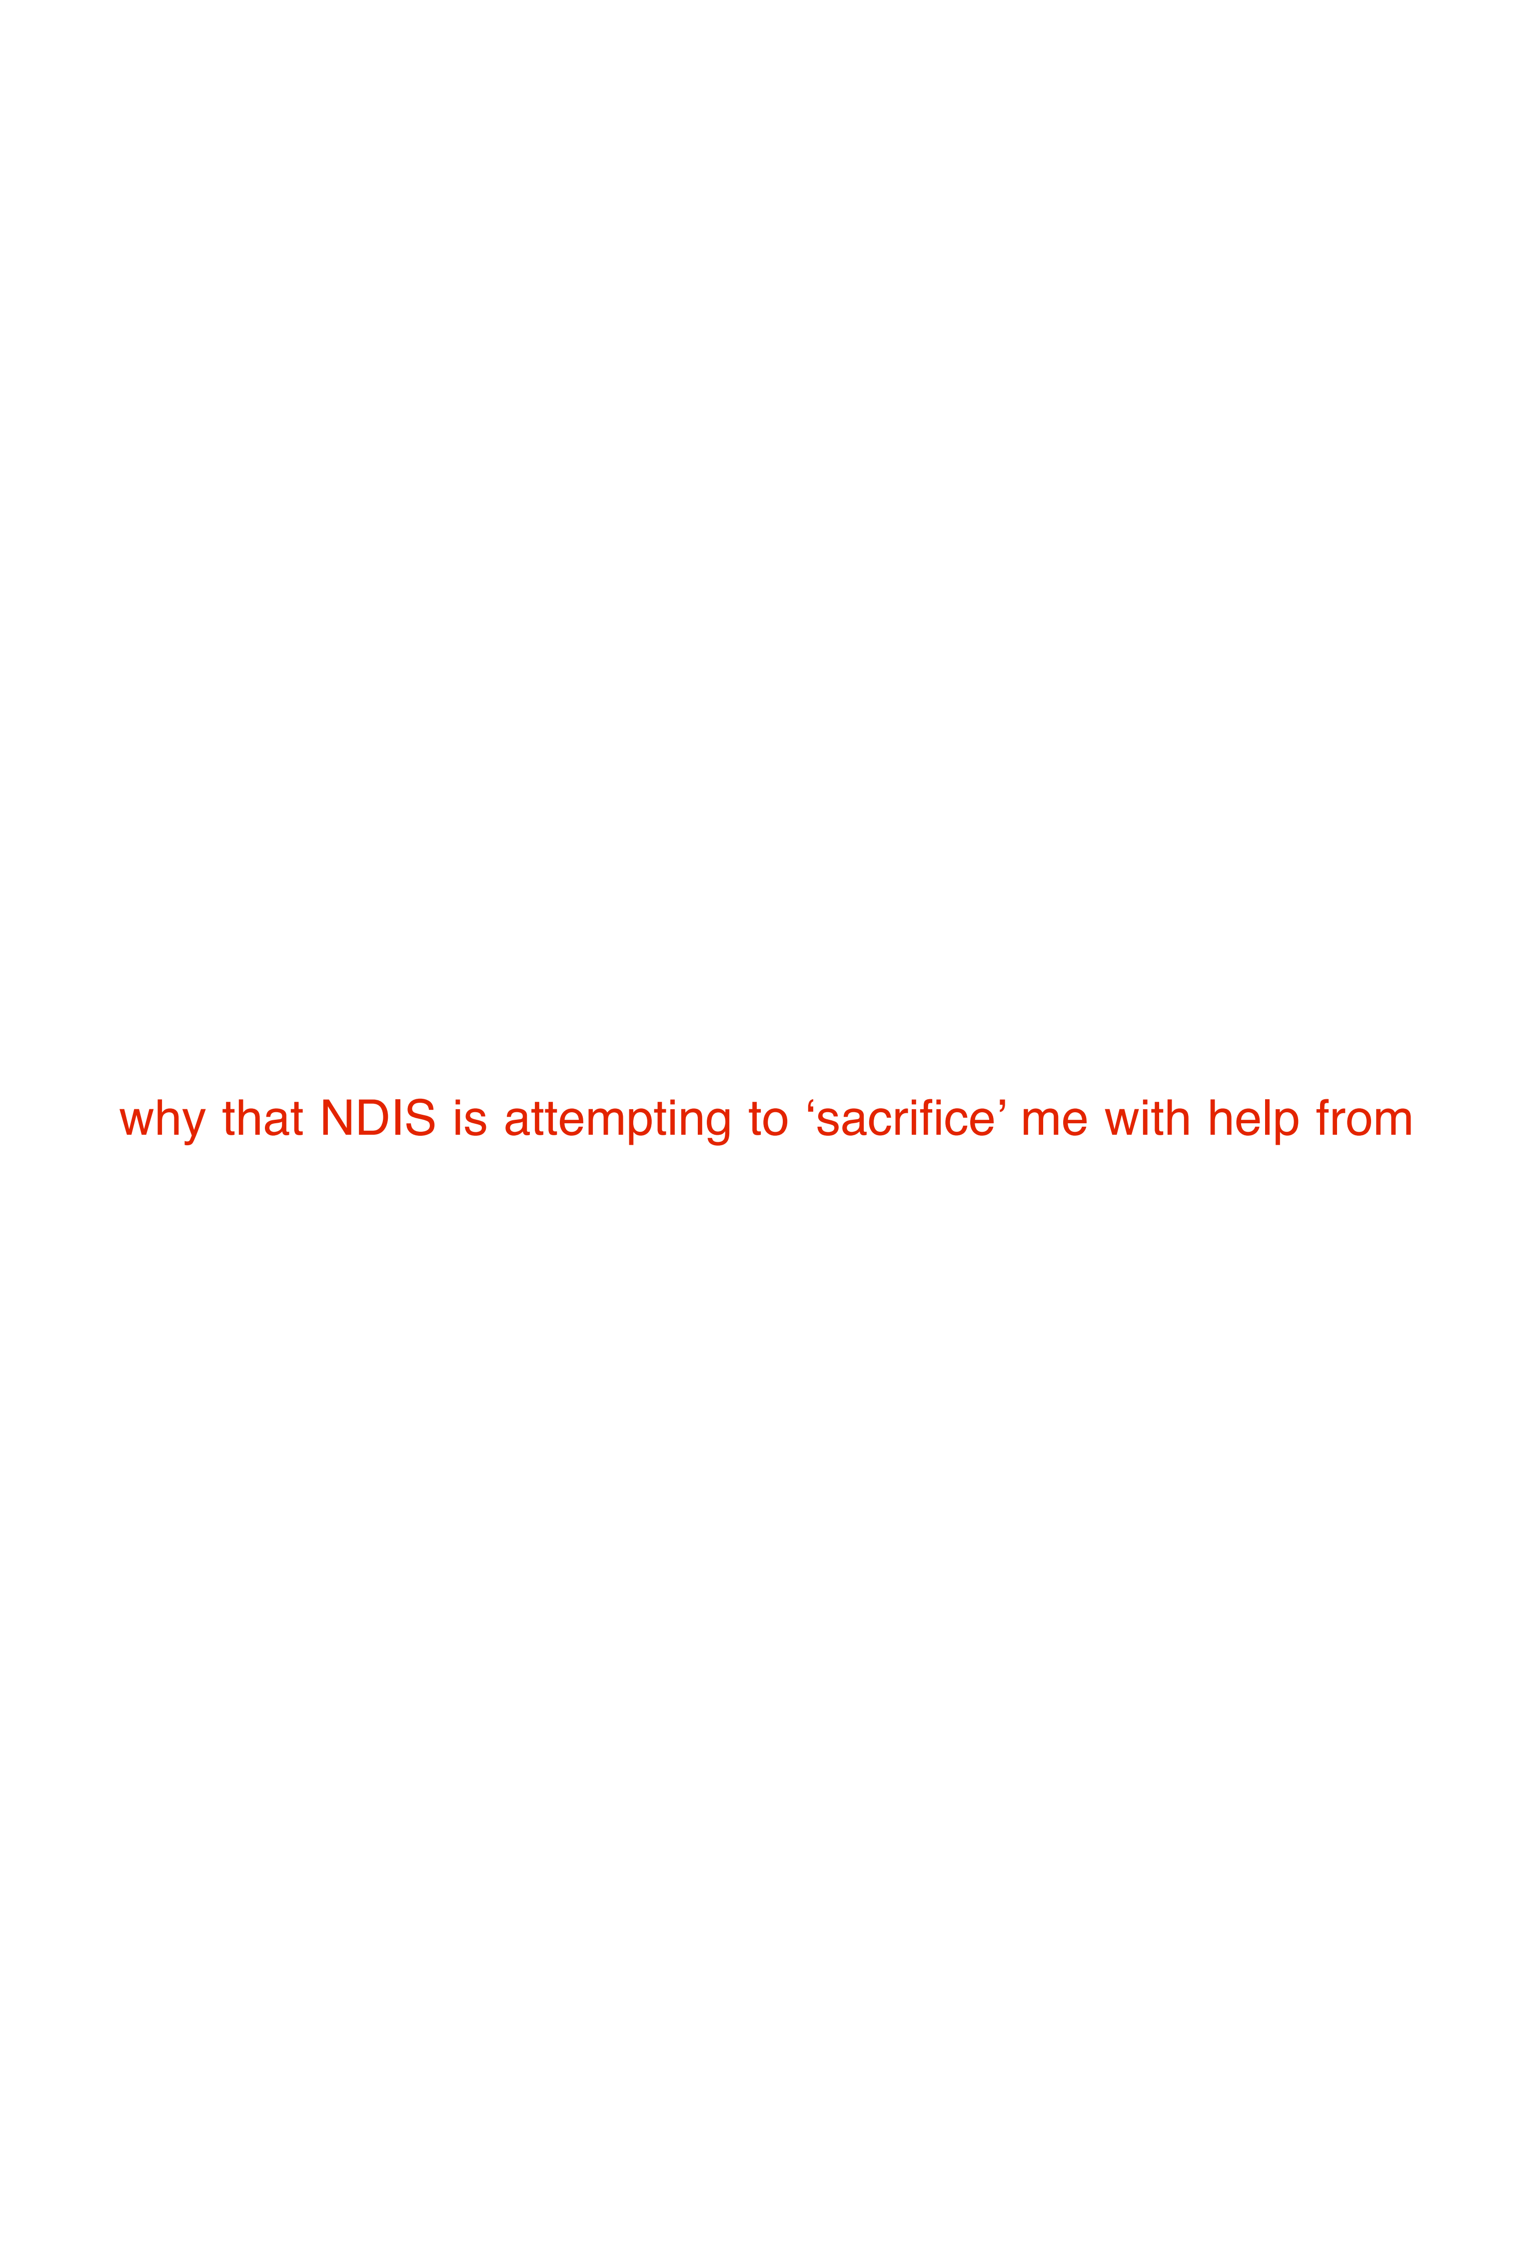

within the NDIS worth 6 billion dollars that ministers knew

about. It's obvious, from your continued persecution of me,

that the powers that be also want to be held accountable. I

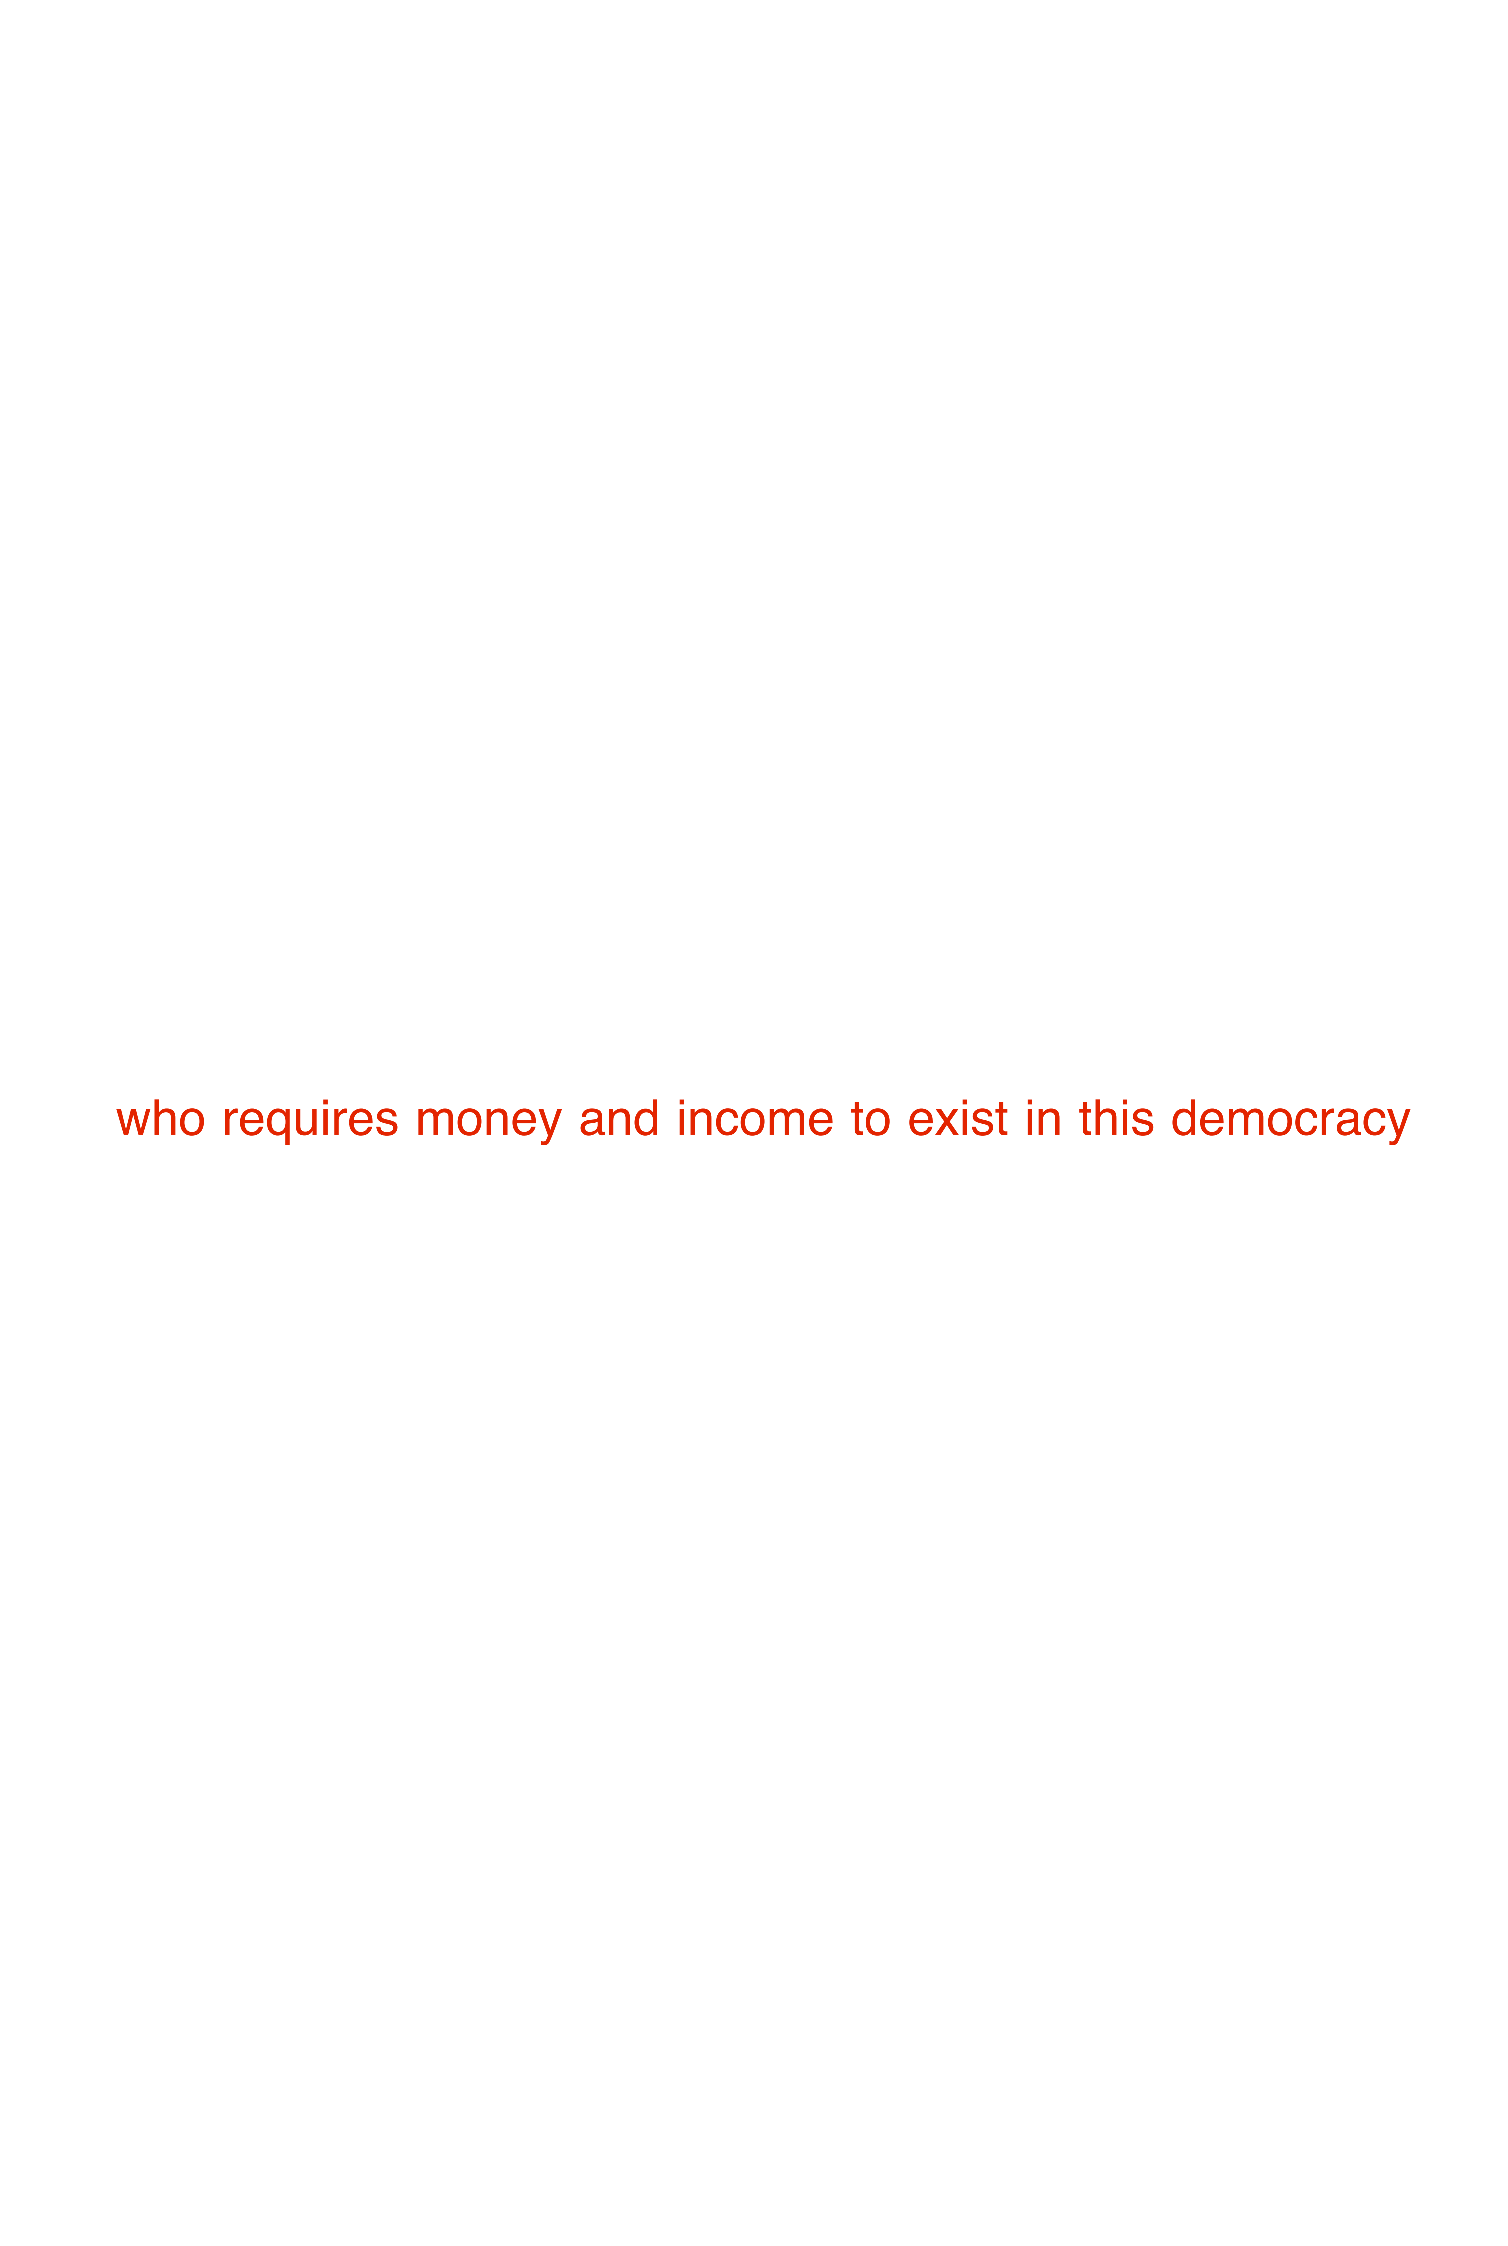

fucked him. I will fuck you too. I have cost Iasonidis a

million dollars in embezzlement. I know my power. Thats

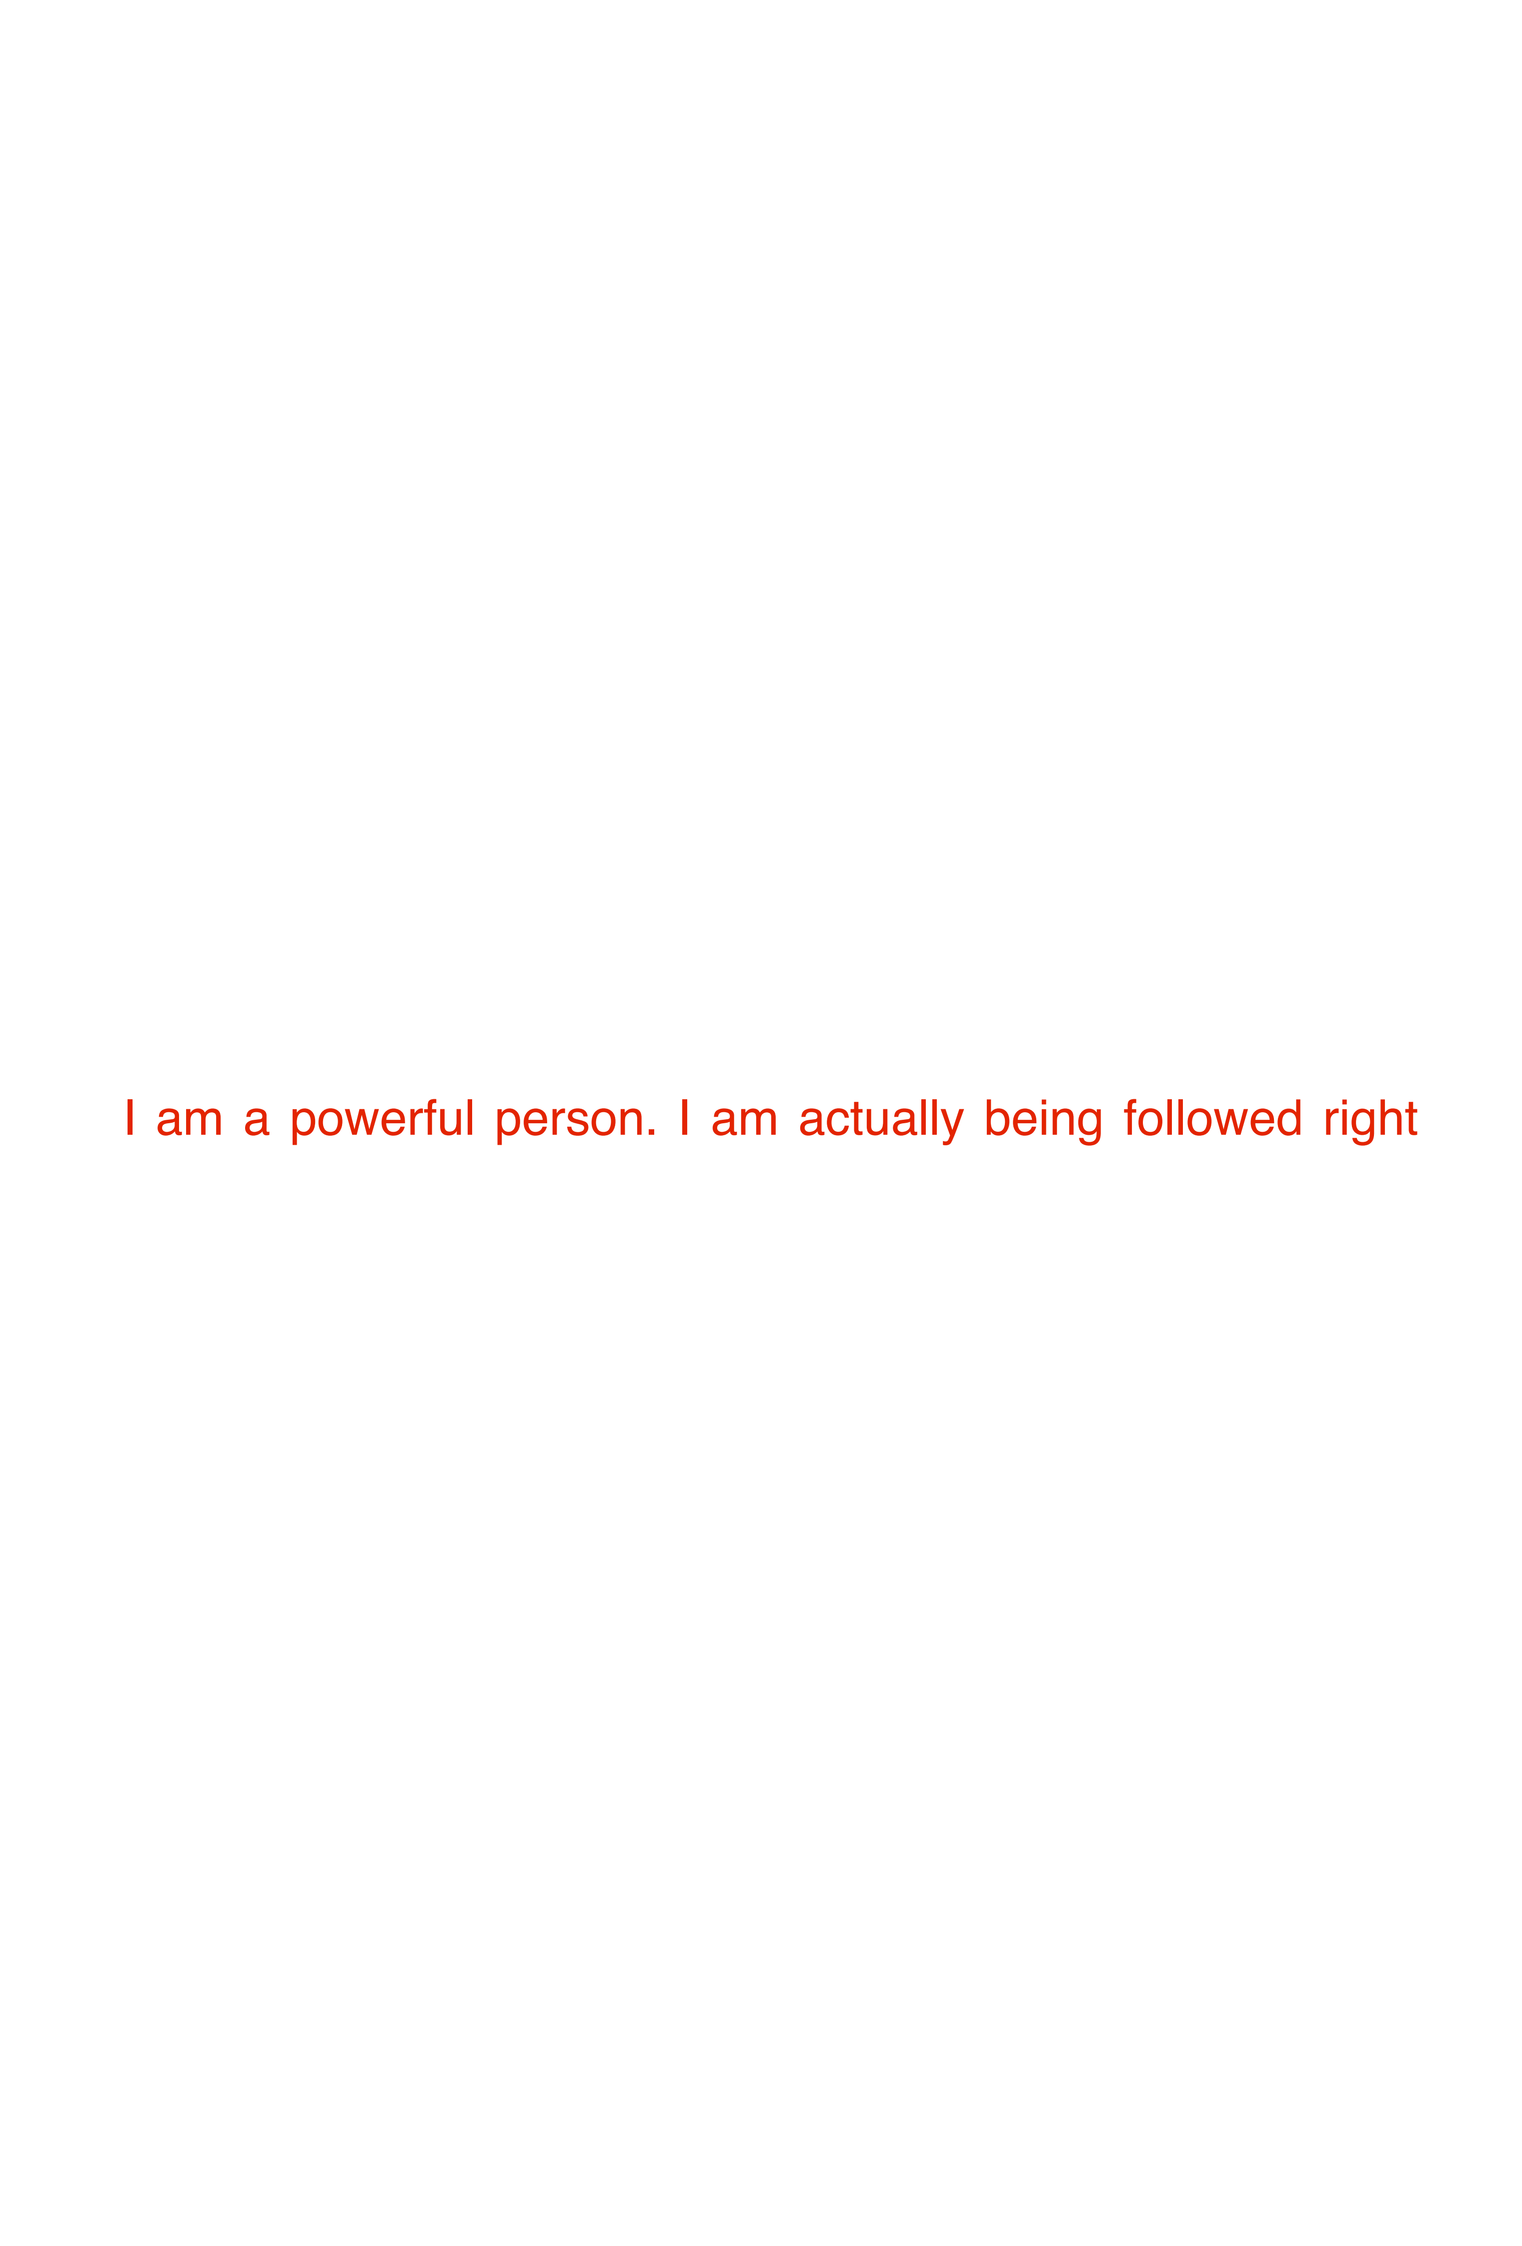

why that NDIS is attempting to ‘sacrifice’ me with help from

the public guardian who has withheld my pension the last

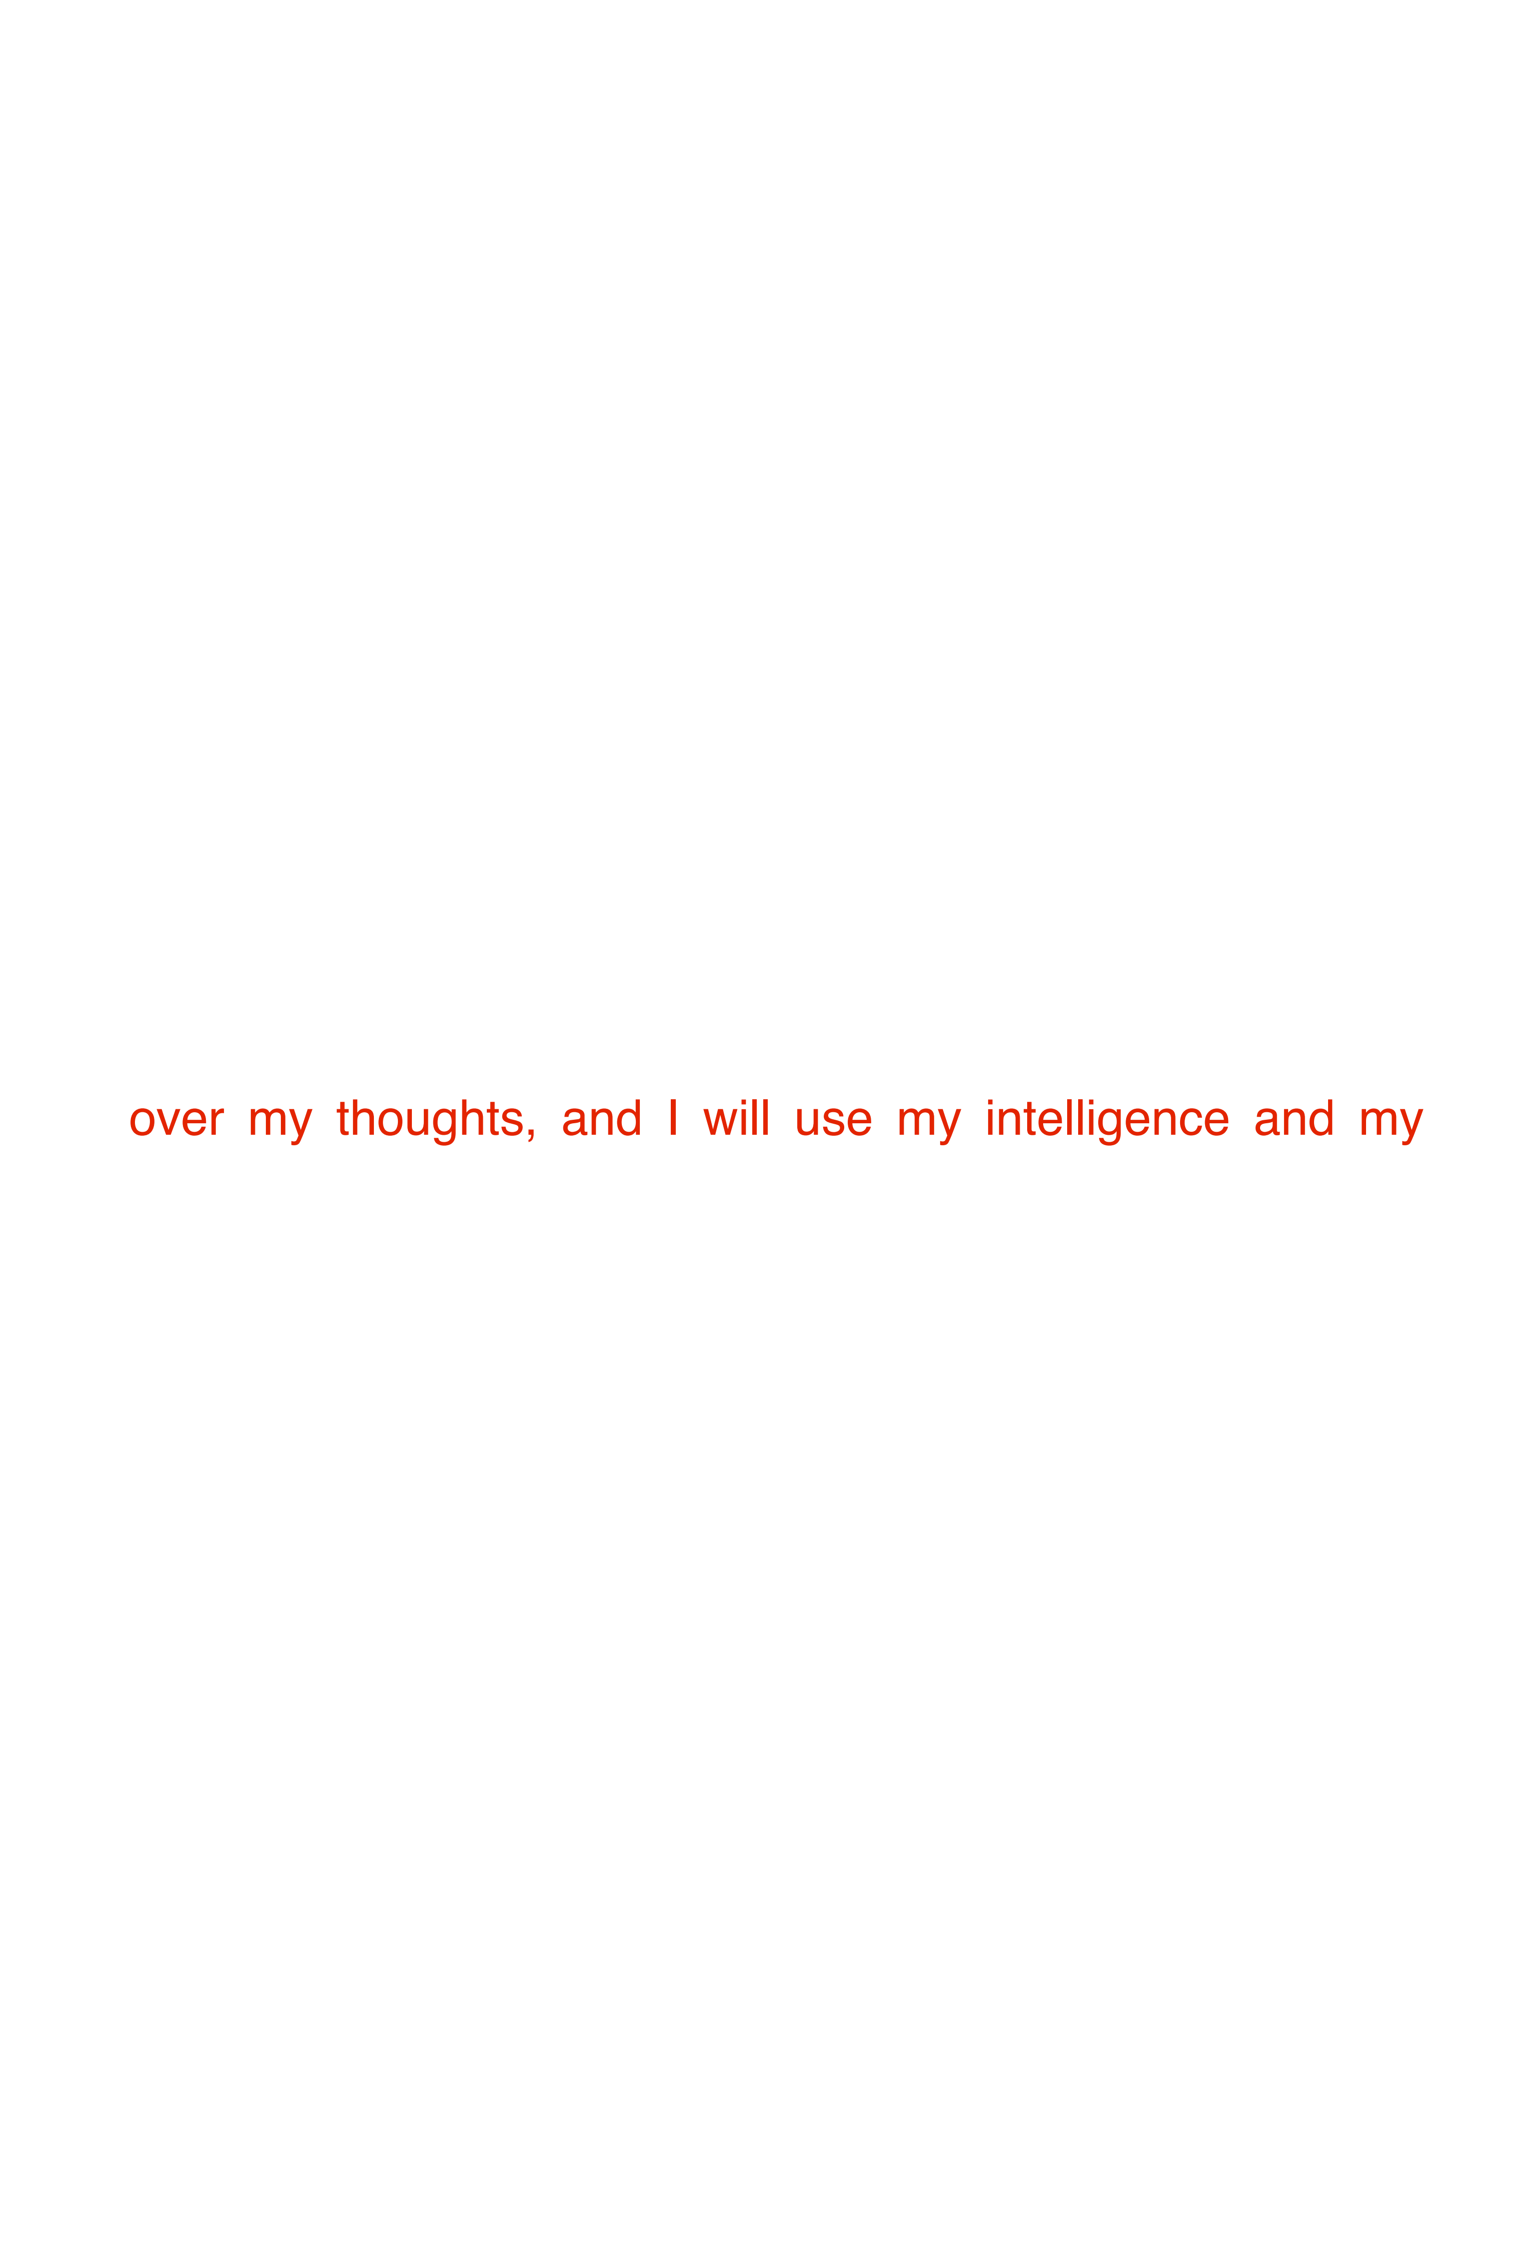

vestige acknowledging me being treated as a human being

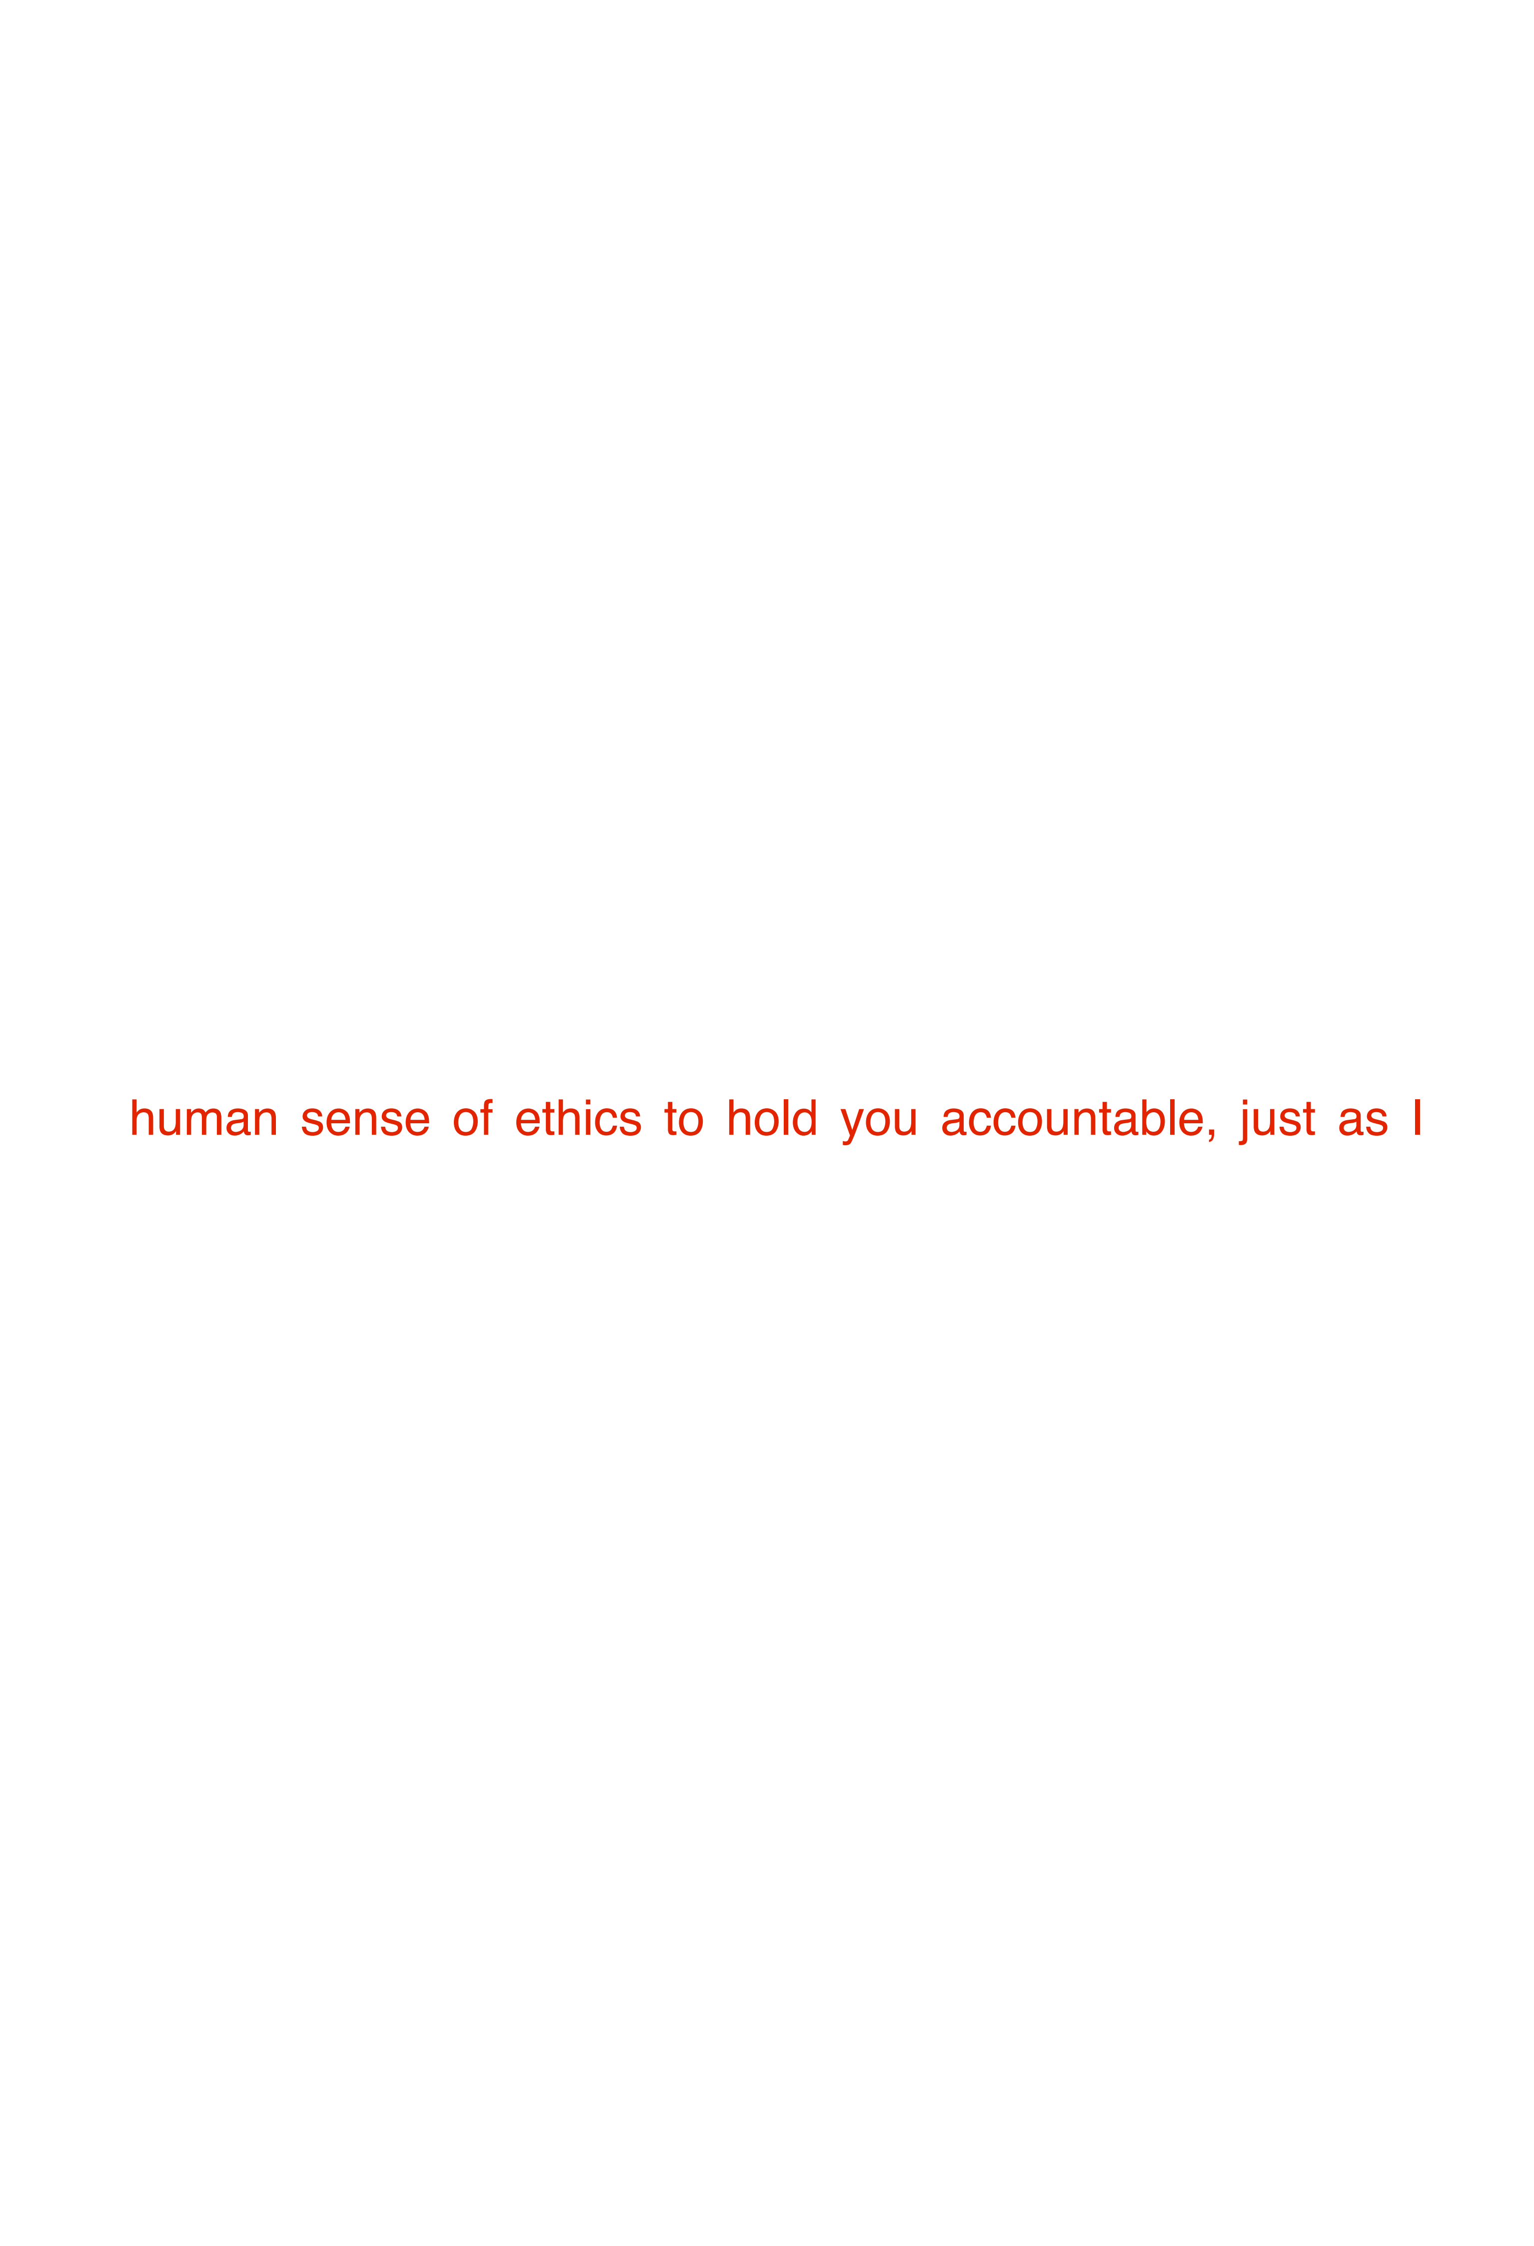

who requires money and income to exist in this democracy

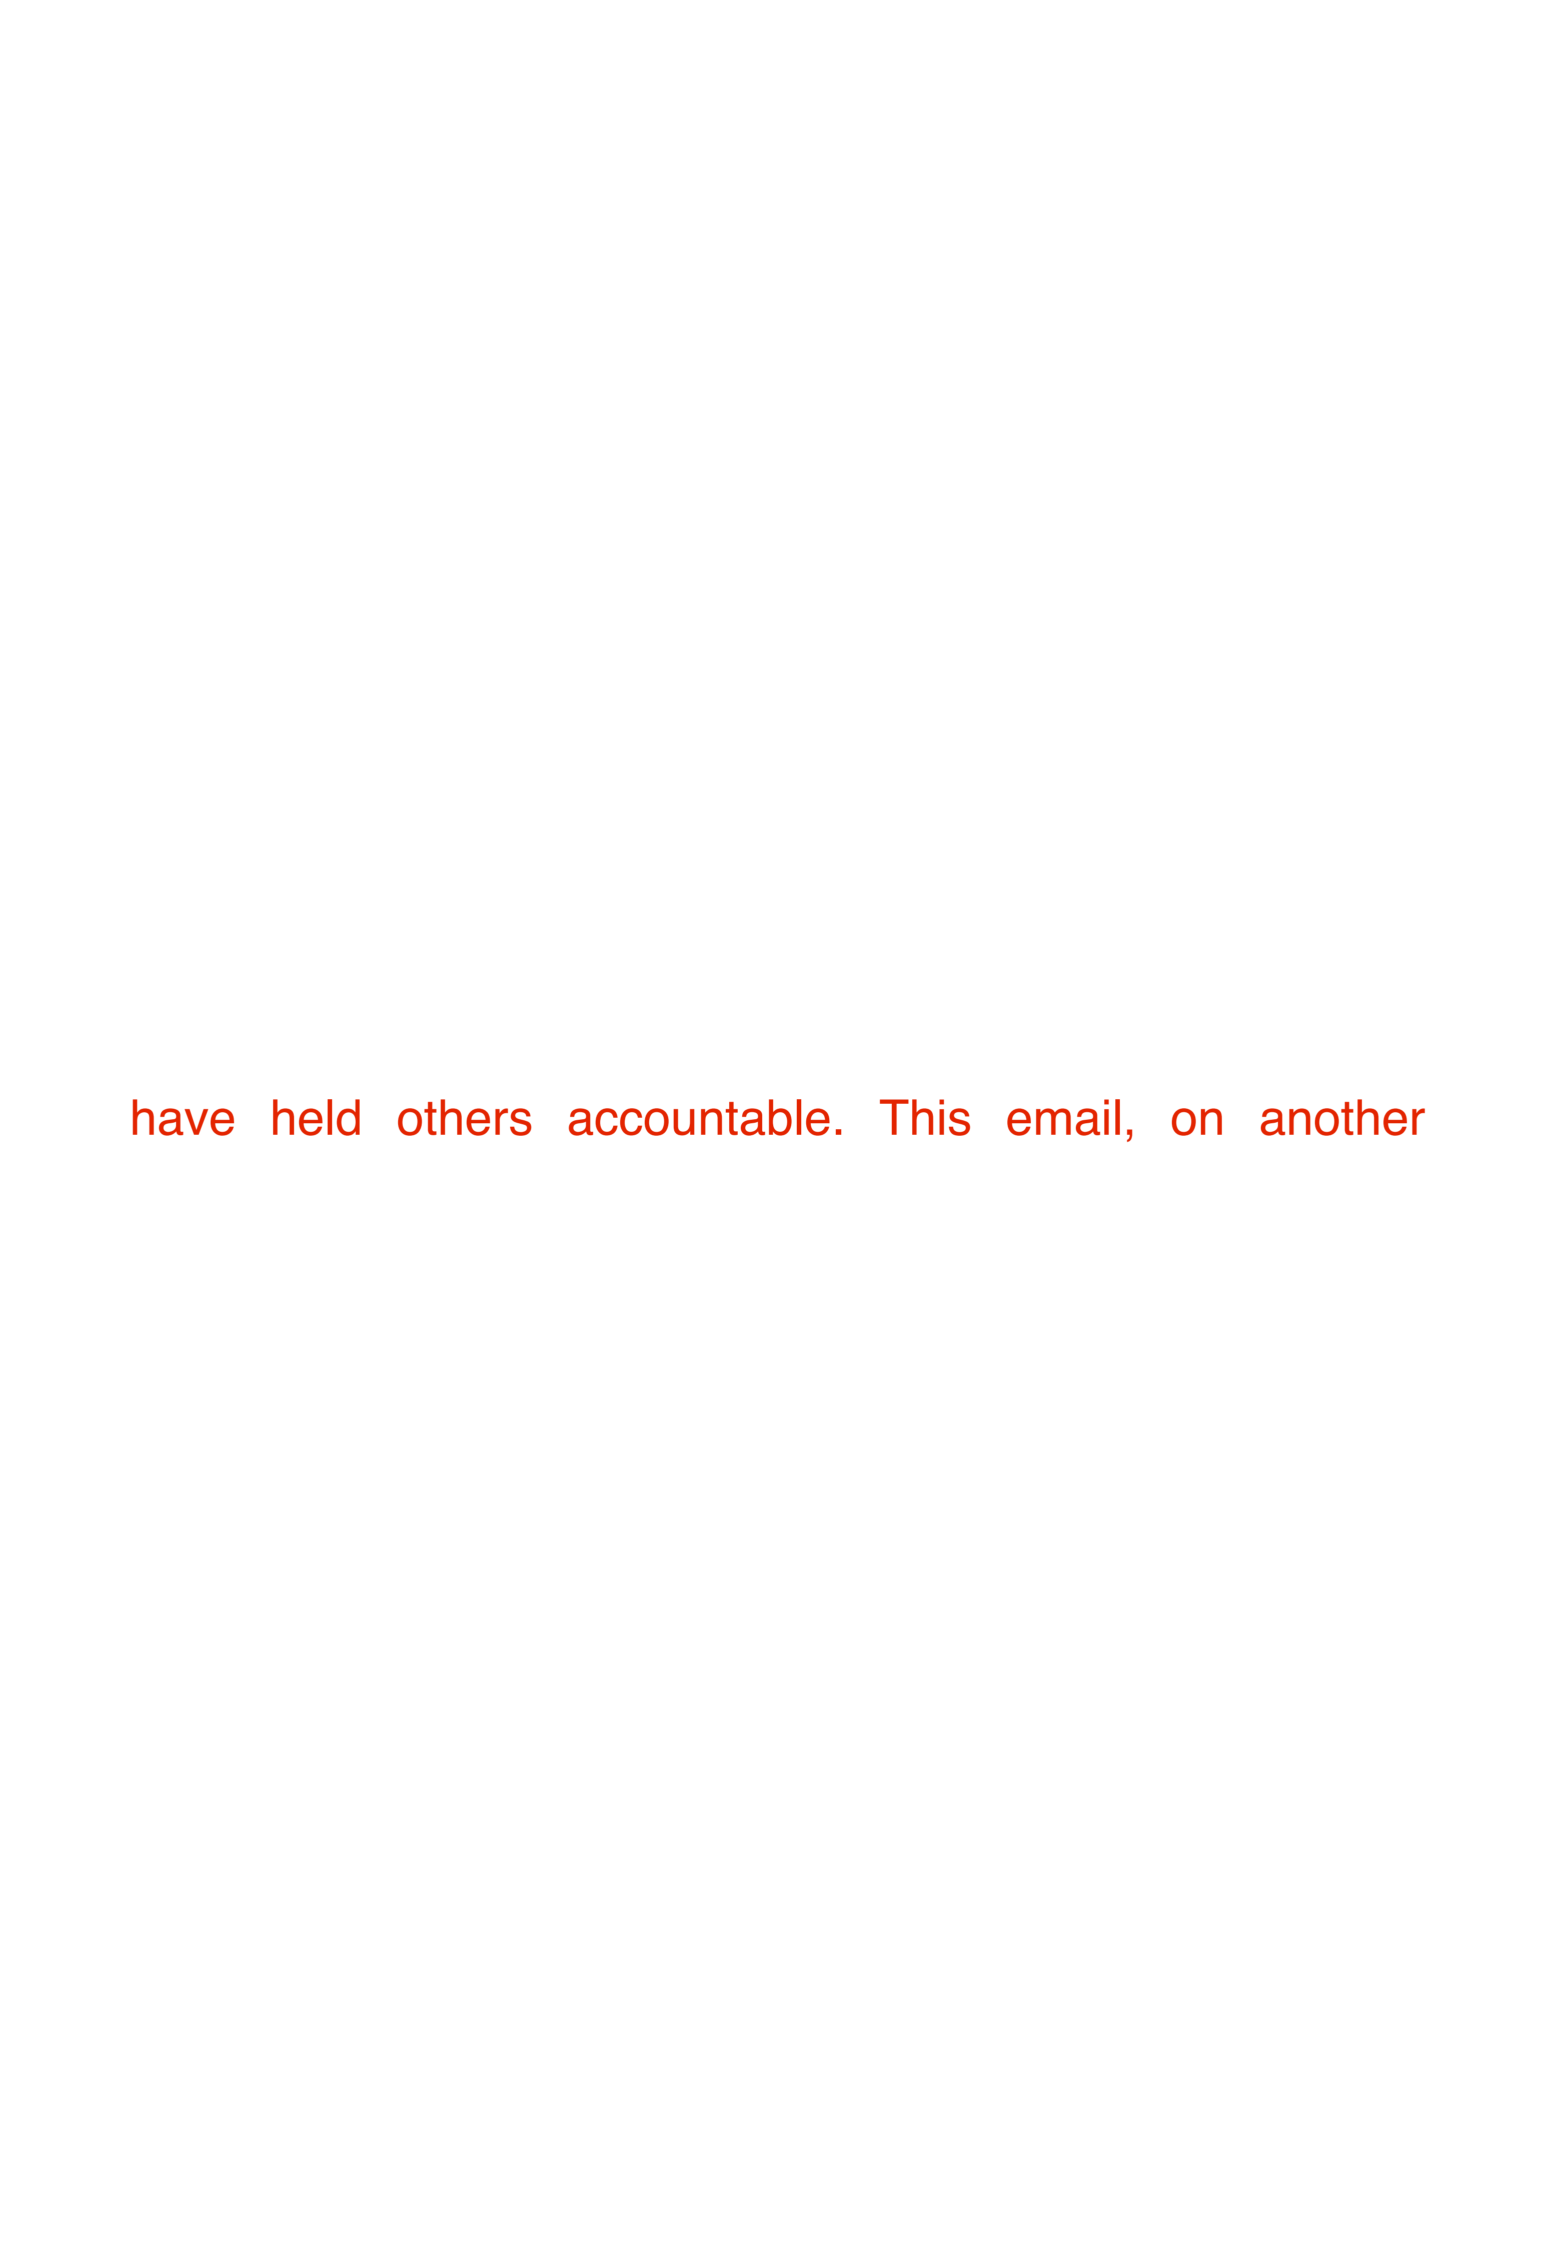

that needs money to participate.

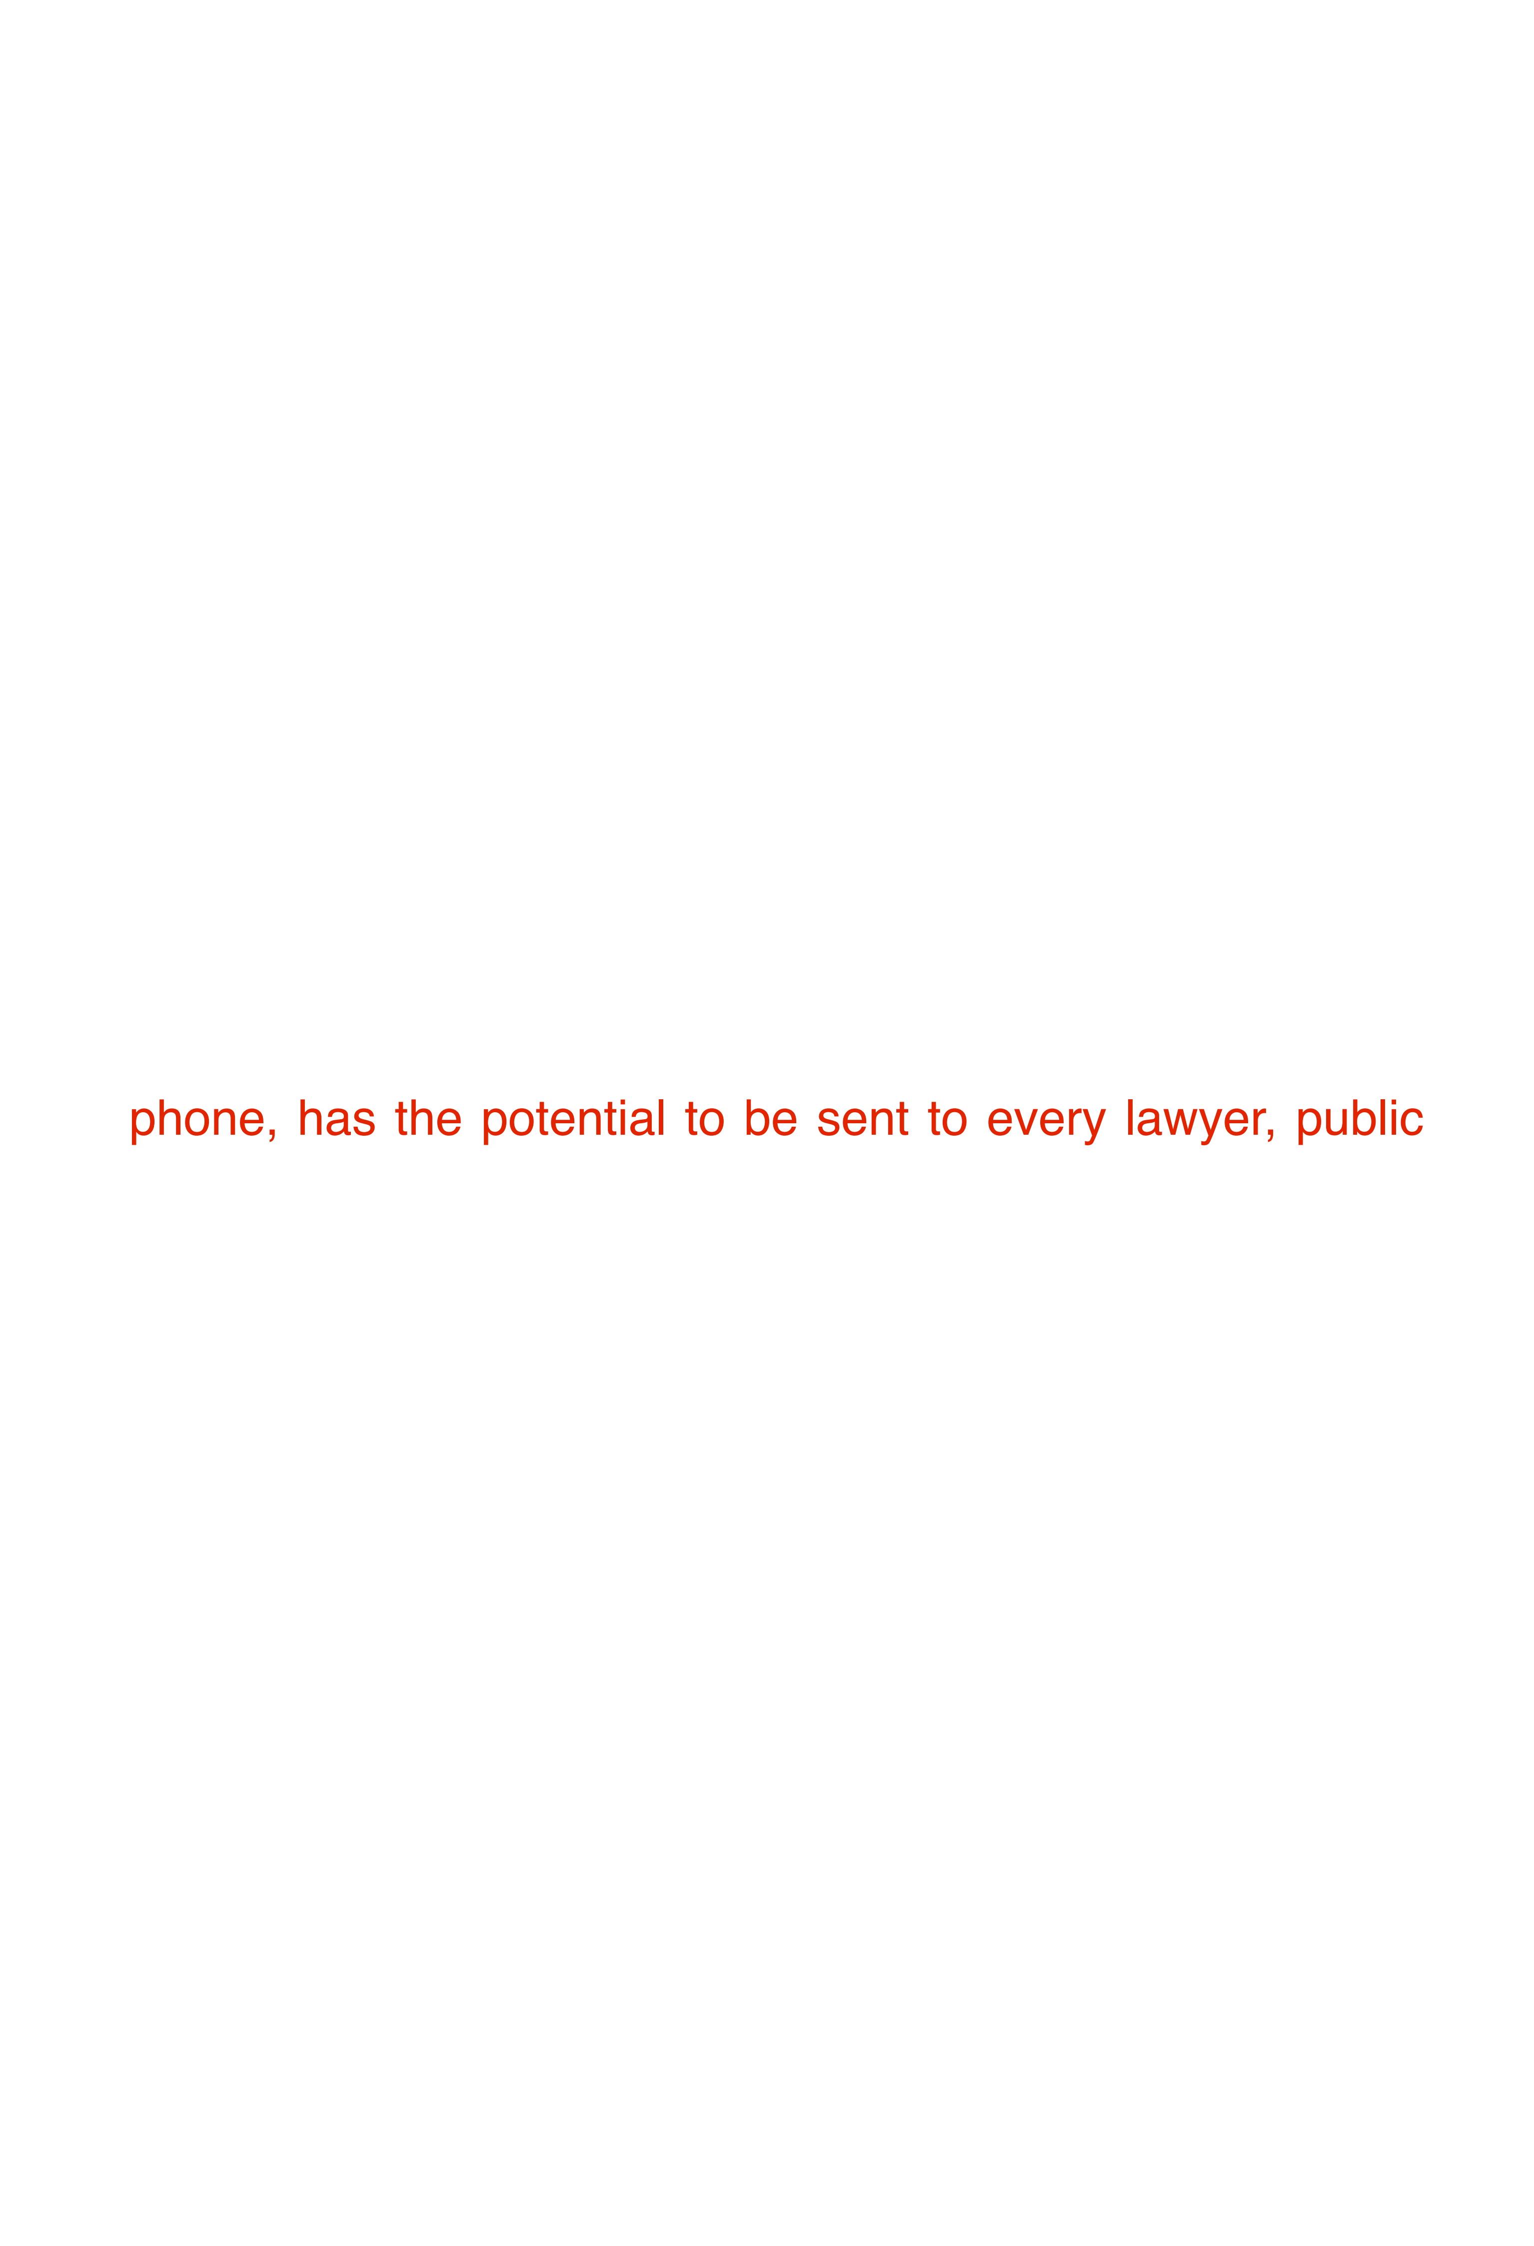

I am a powerful person. I am actually being followed right

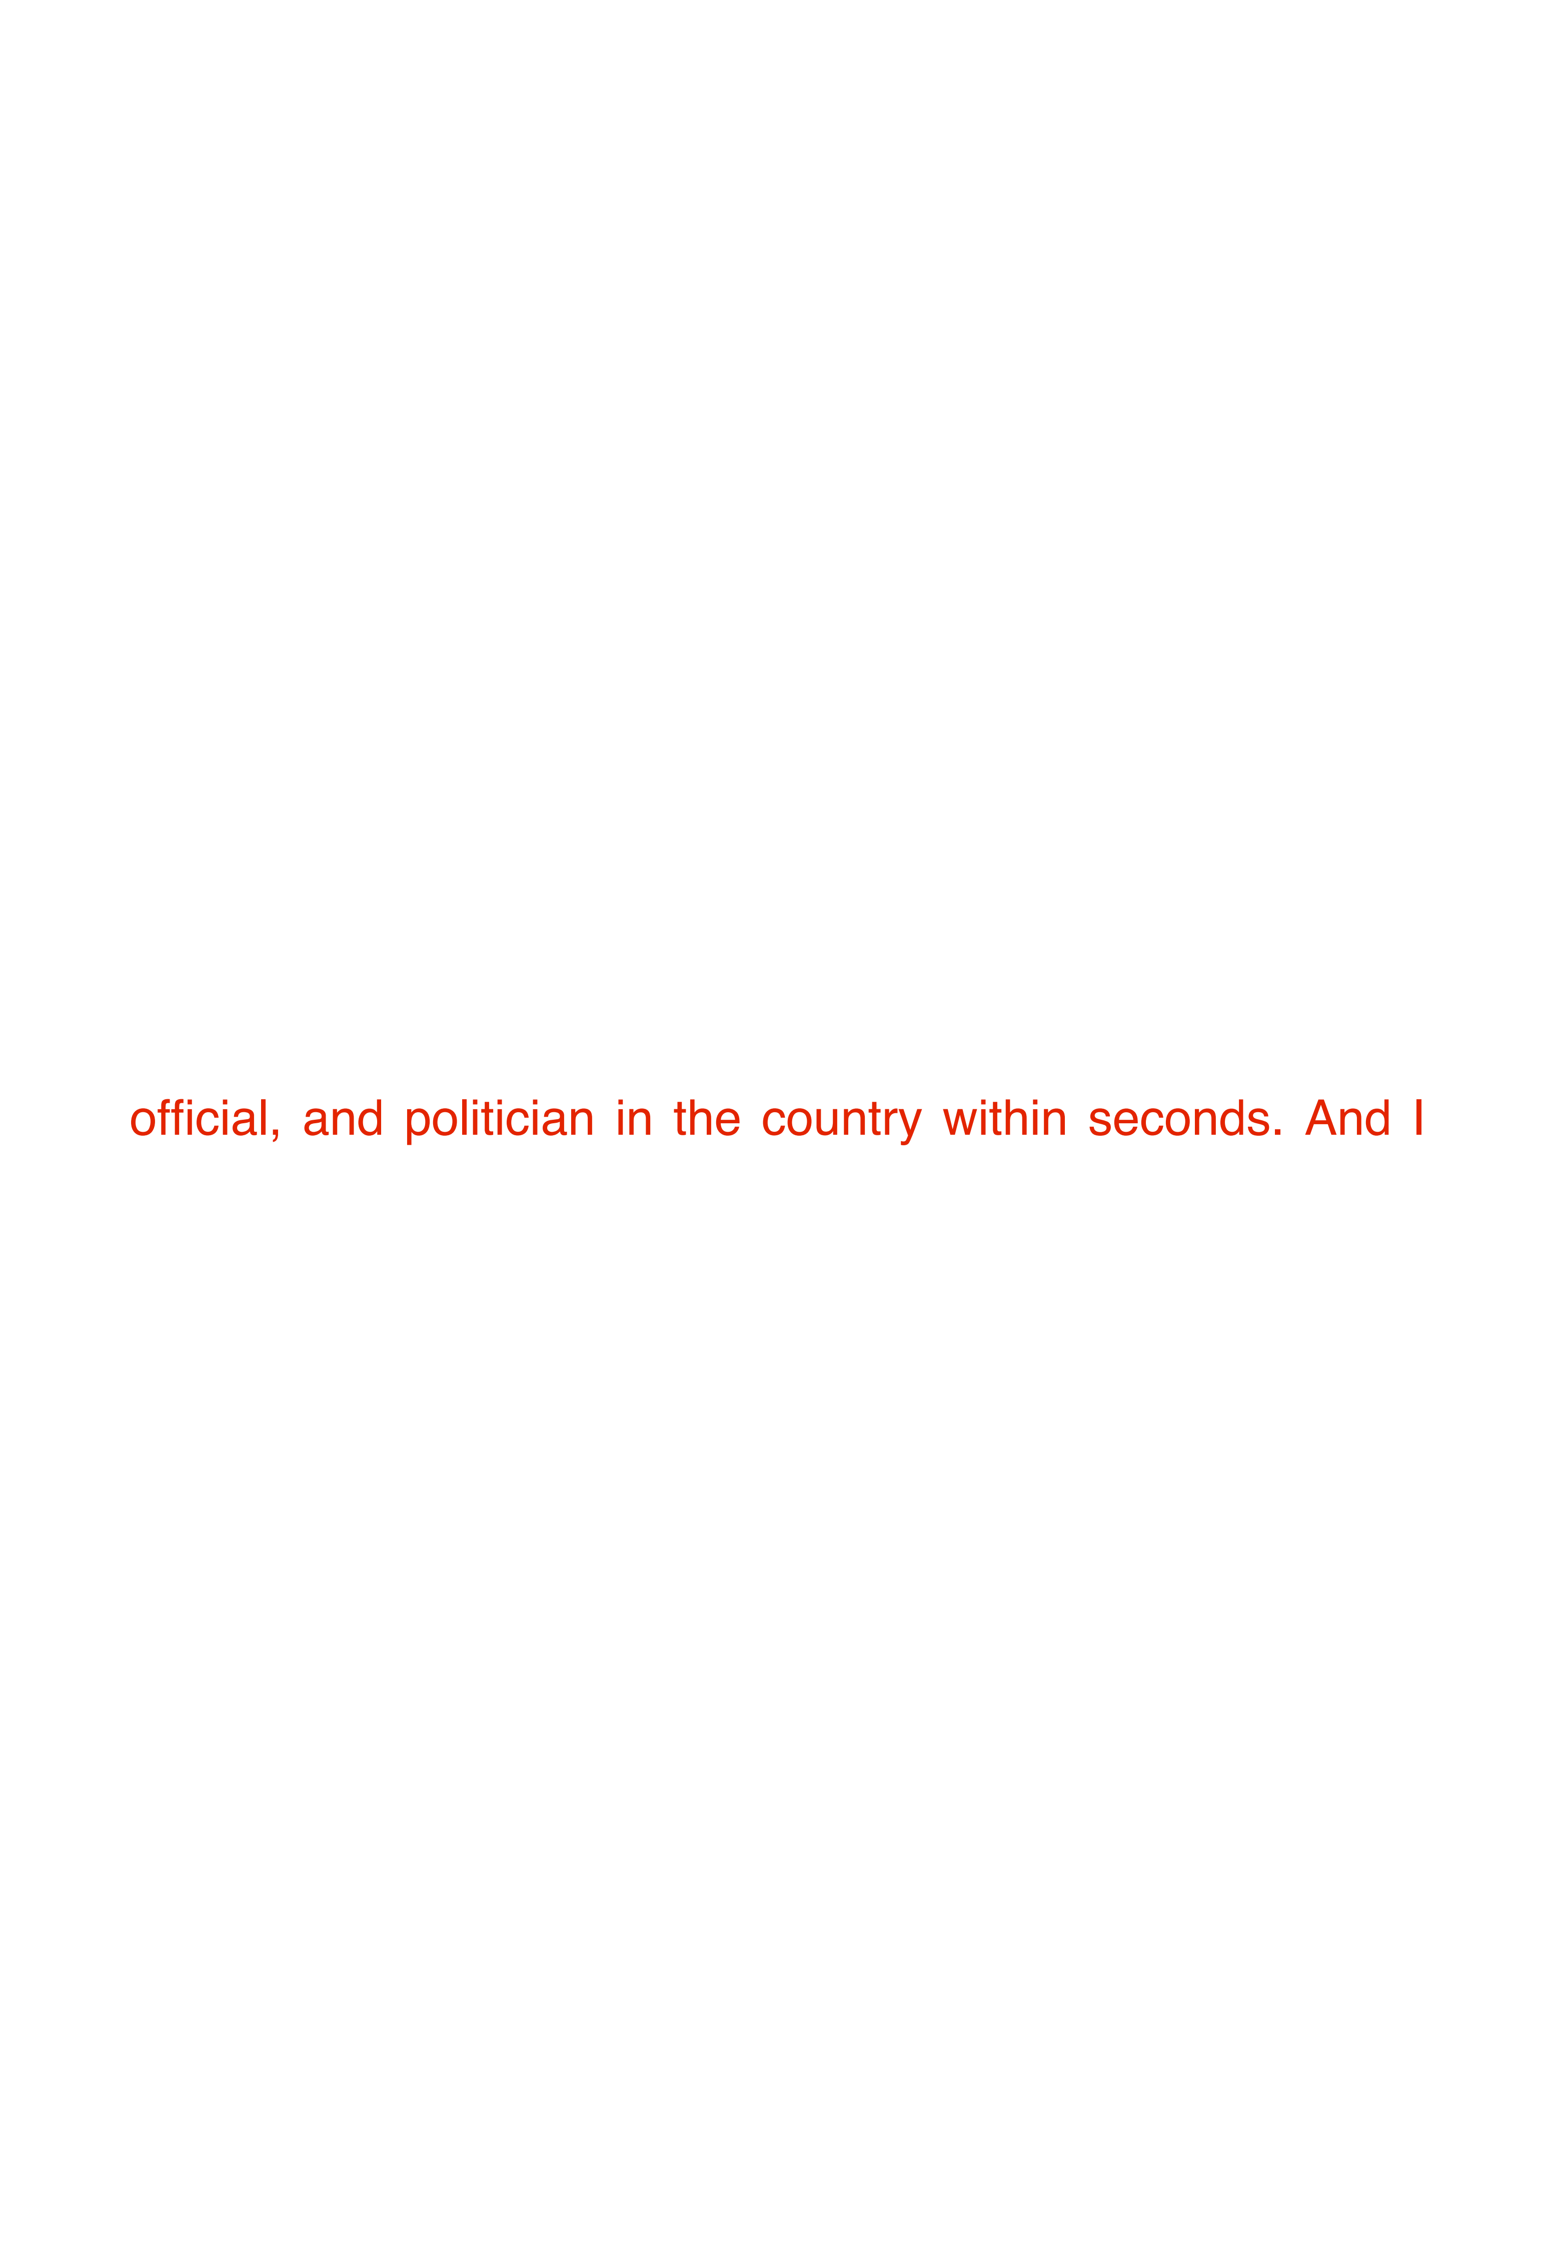

this second as we speak. I know my rights. I have agency

over my thoughts, and I will use my intelligence and my

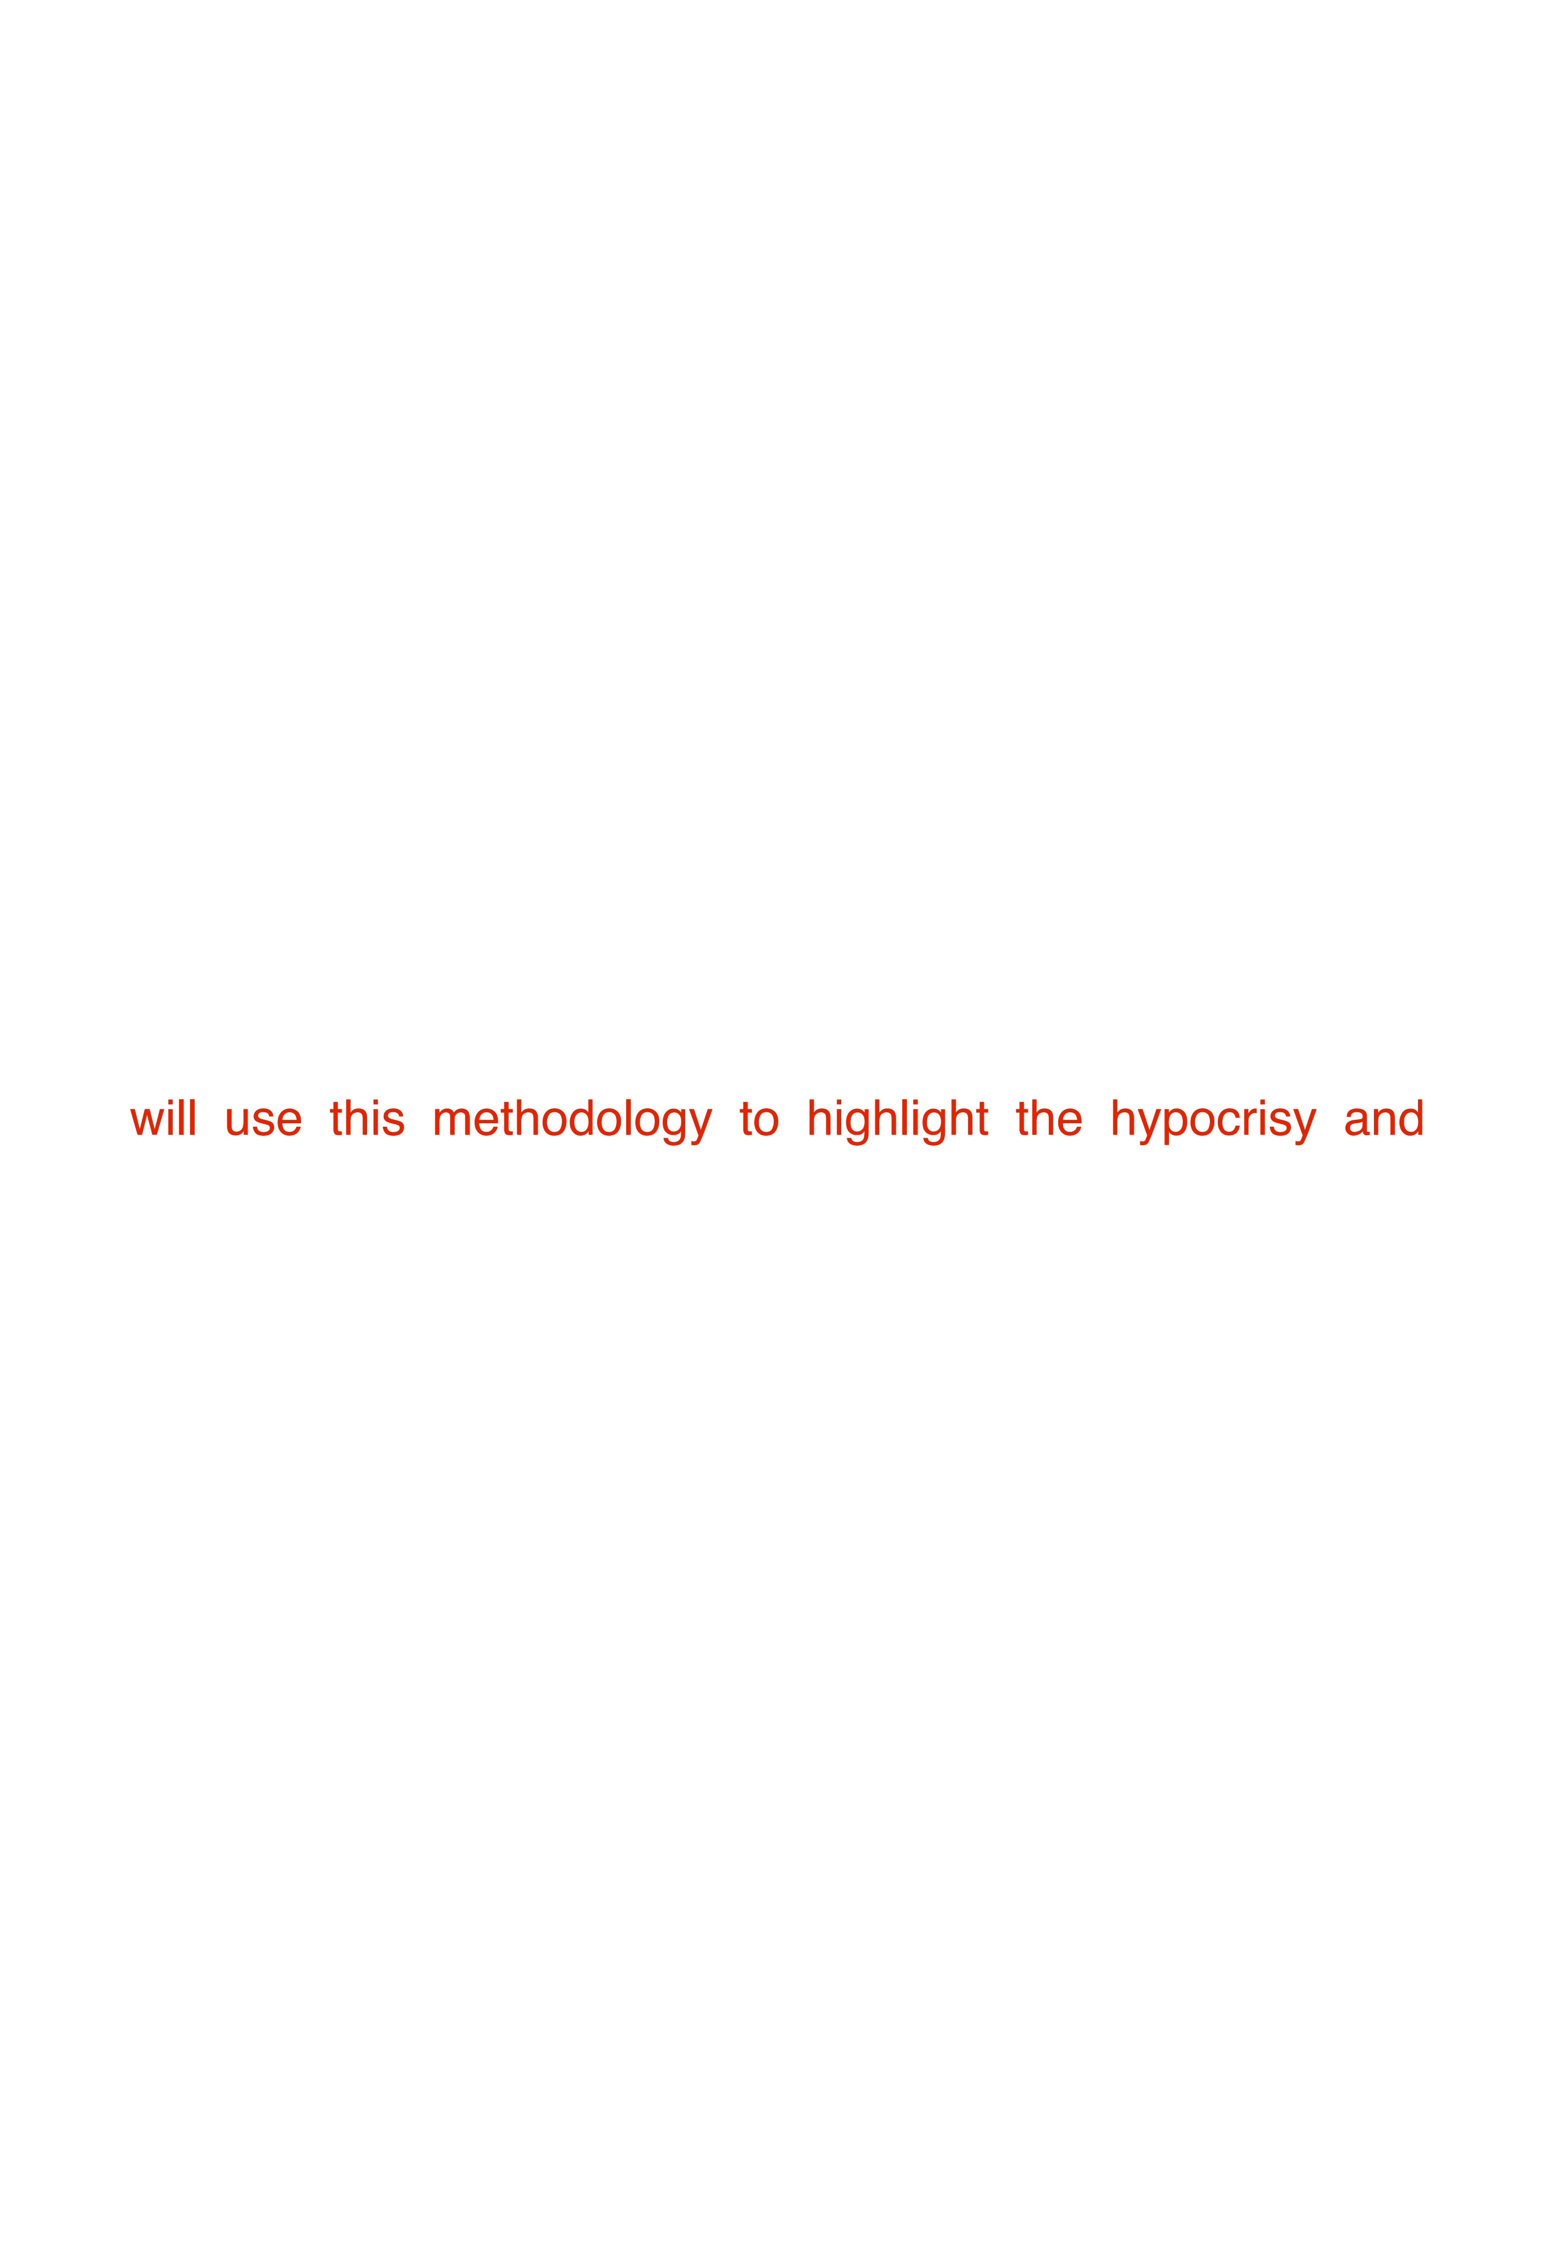

human sense of ethics to hold you accountable, just as I

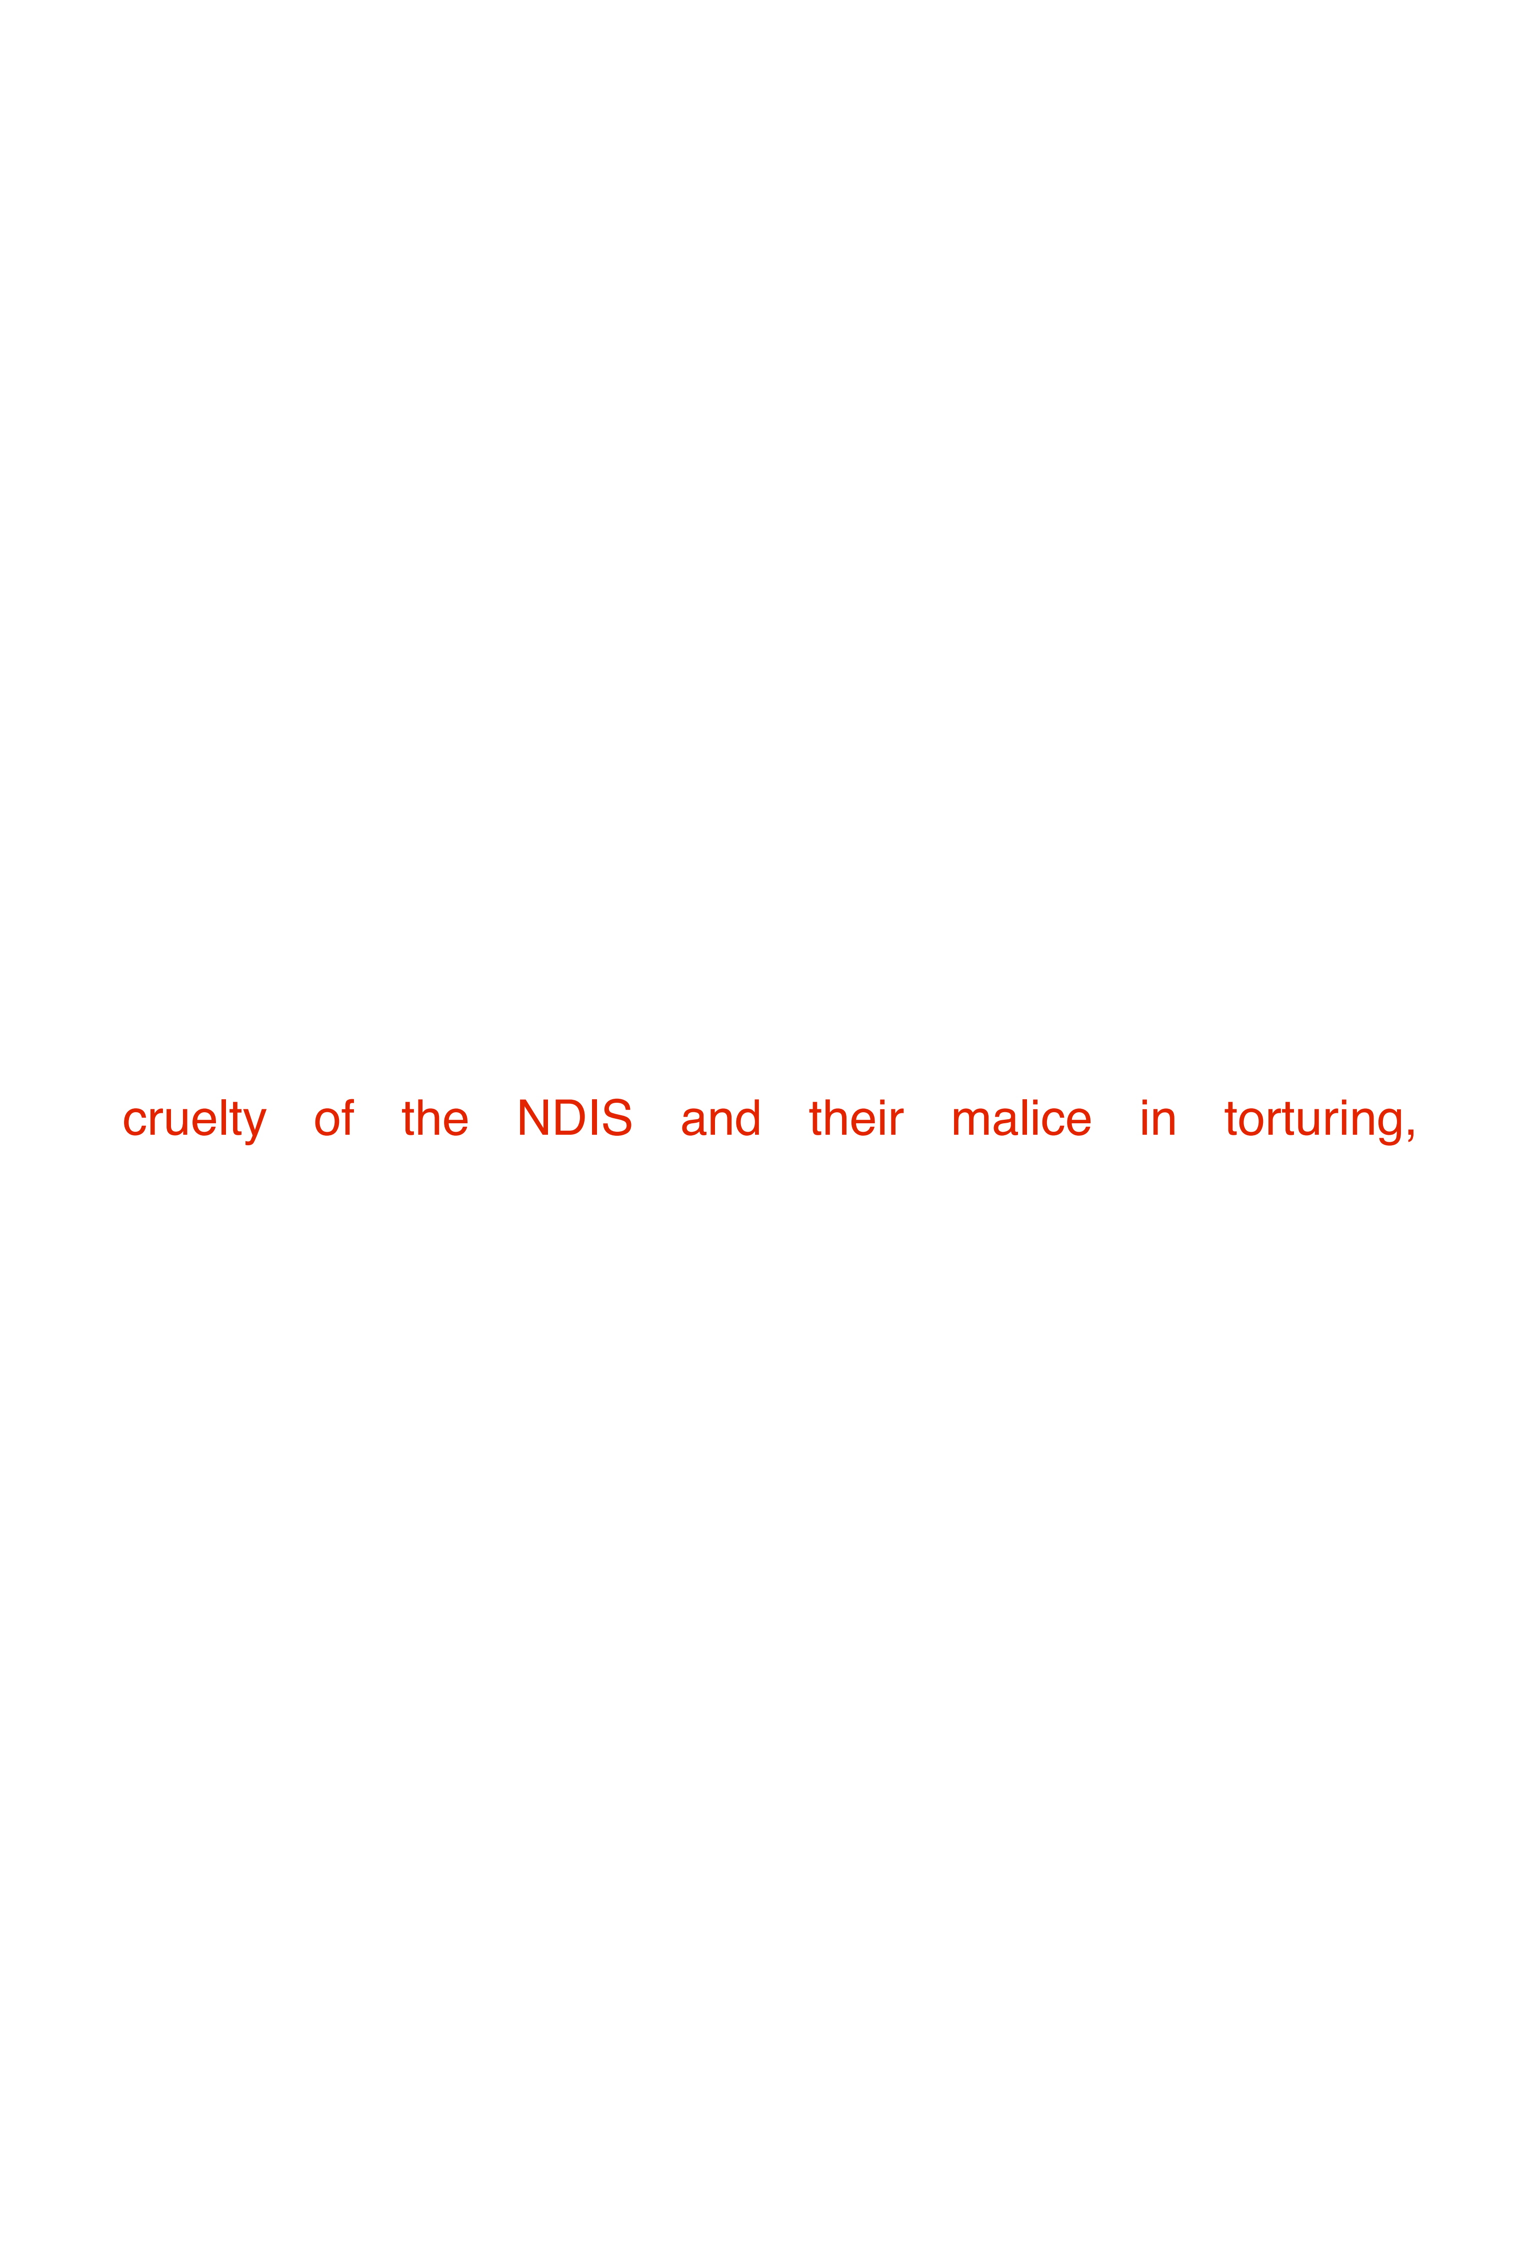

have held others accountable. This email, on another

phone, has the potential to be sent to every lawyer, public

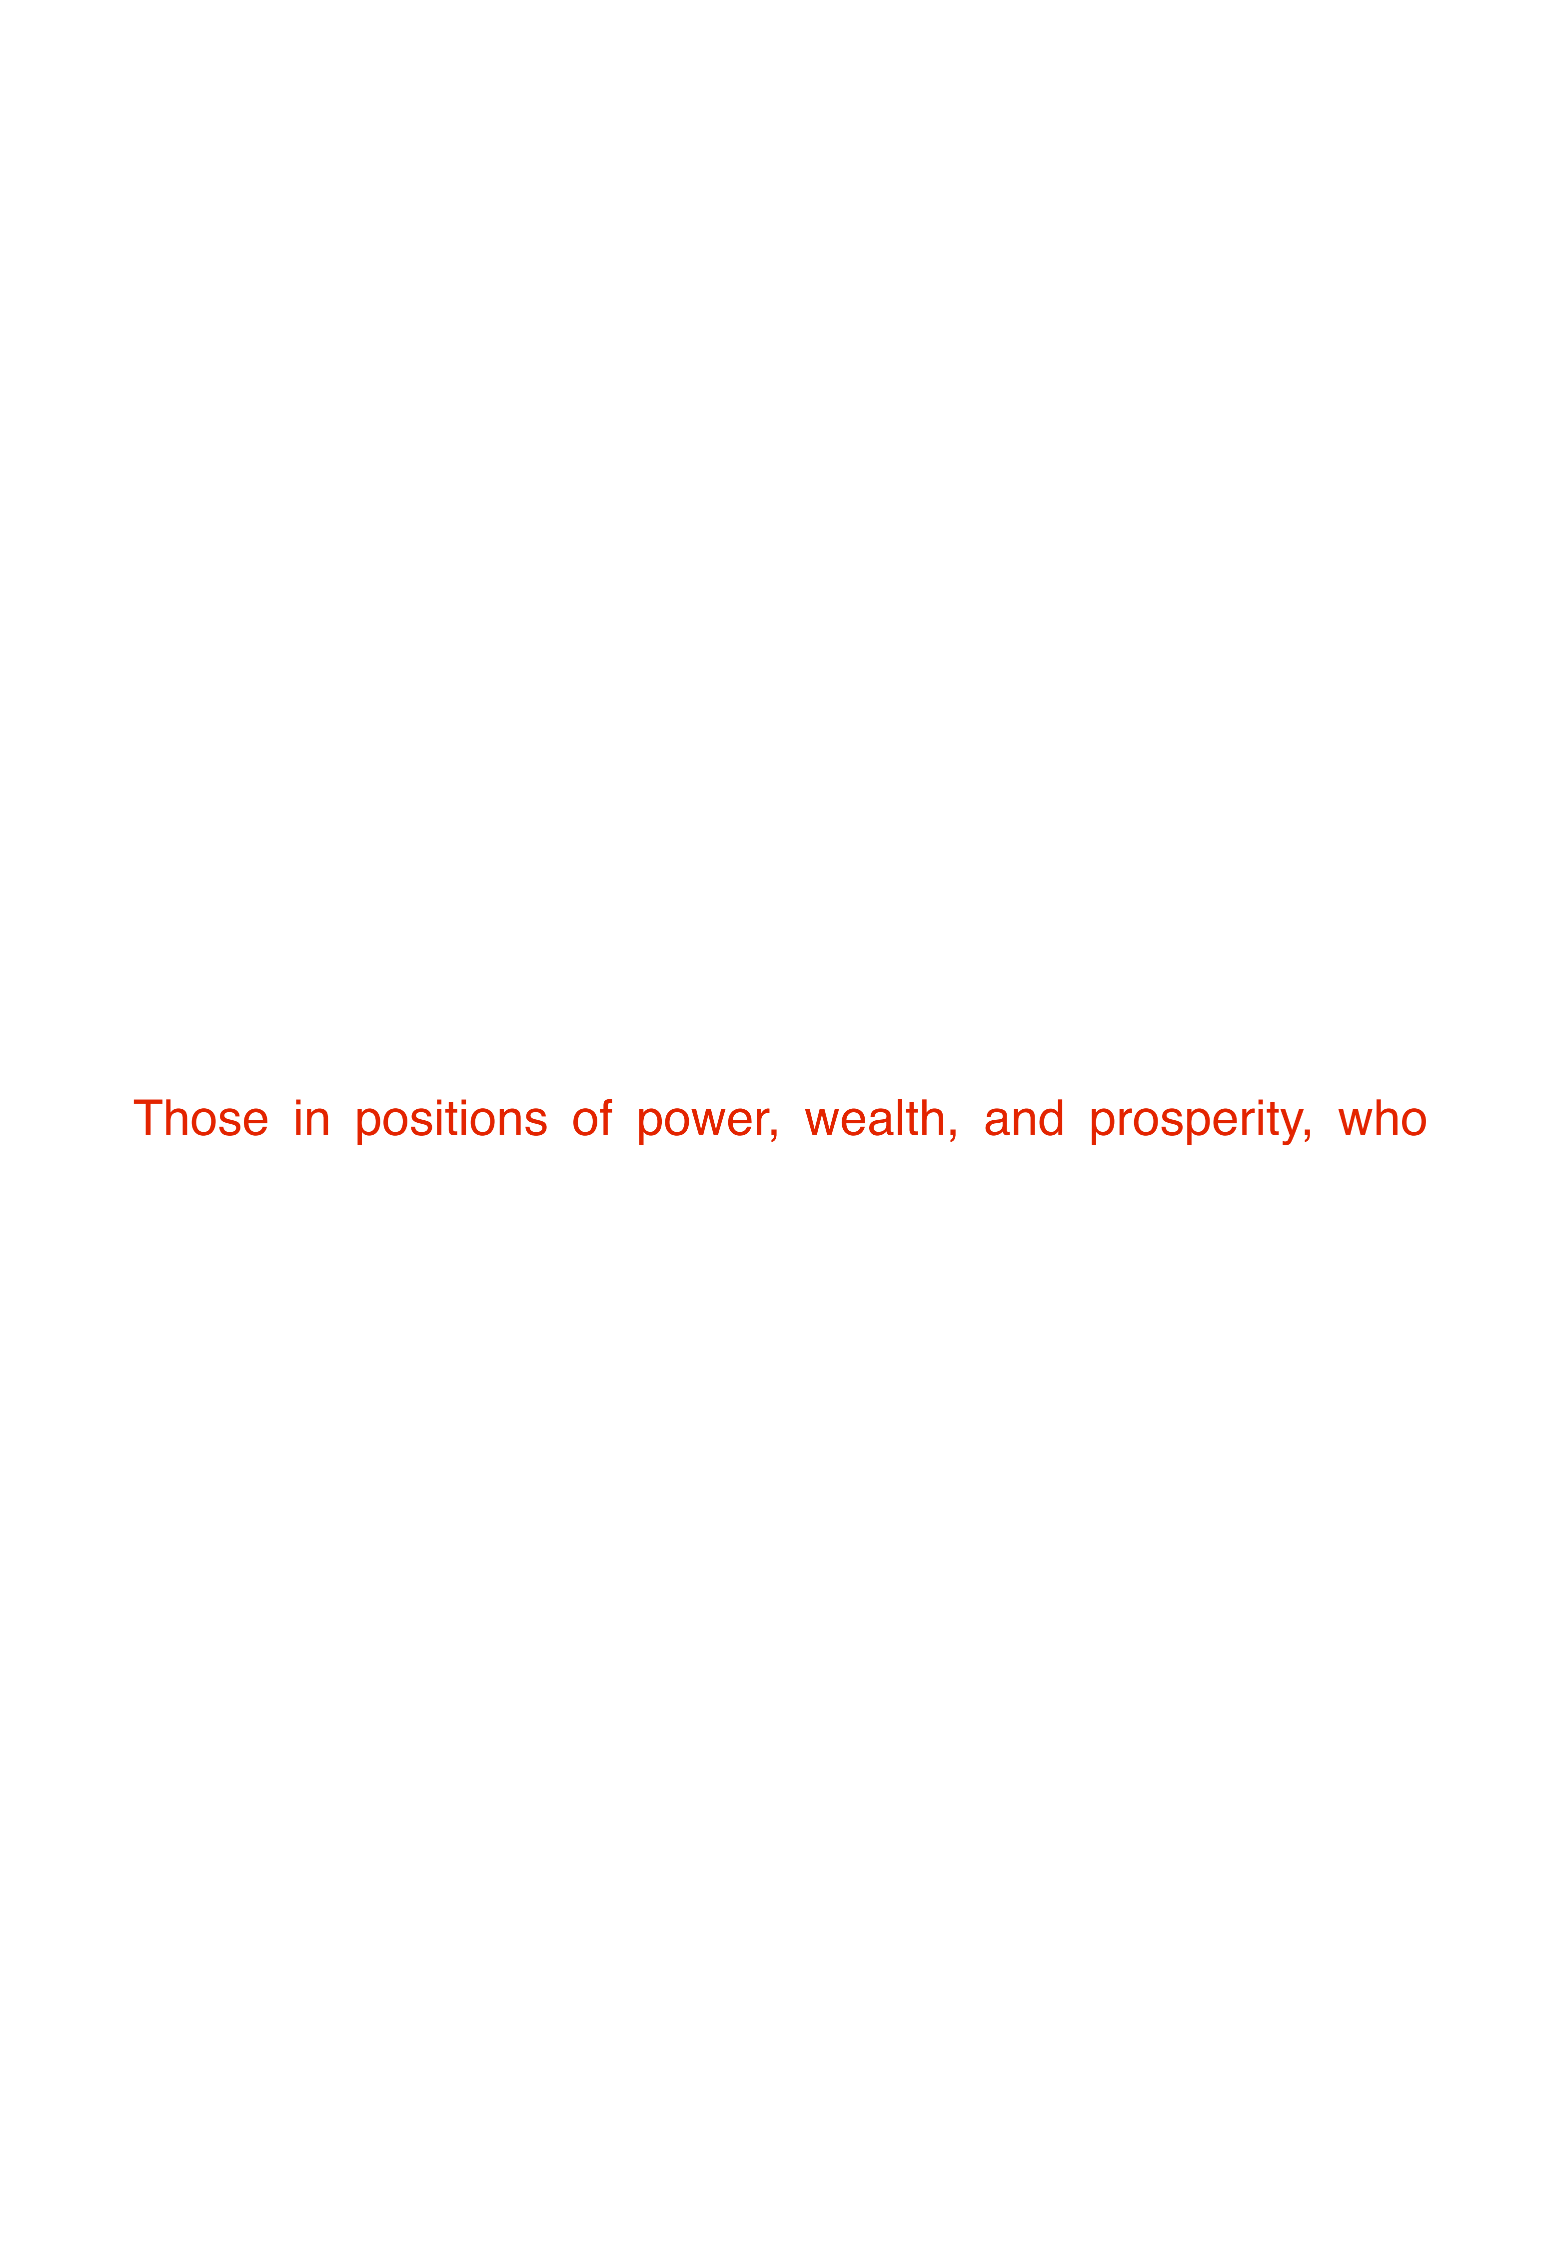

official, and politician in the country within seconds. And I

will use this methodology to highlight the hypocrisy and

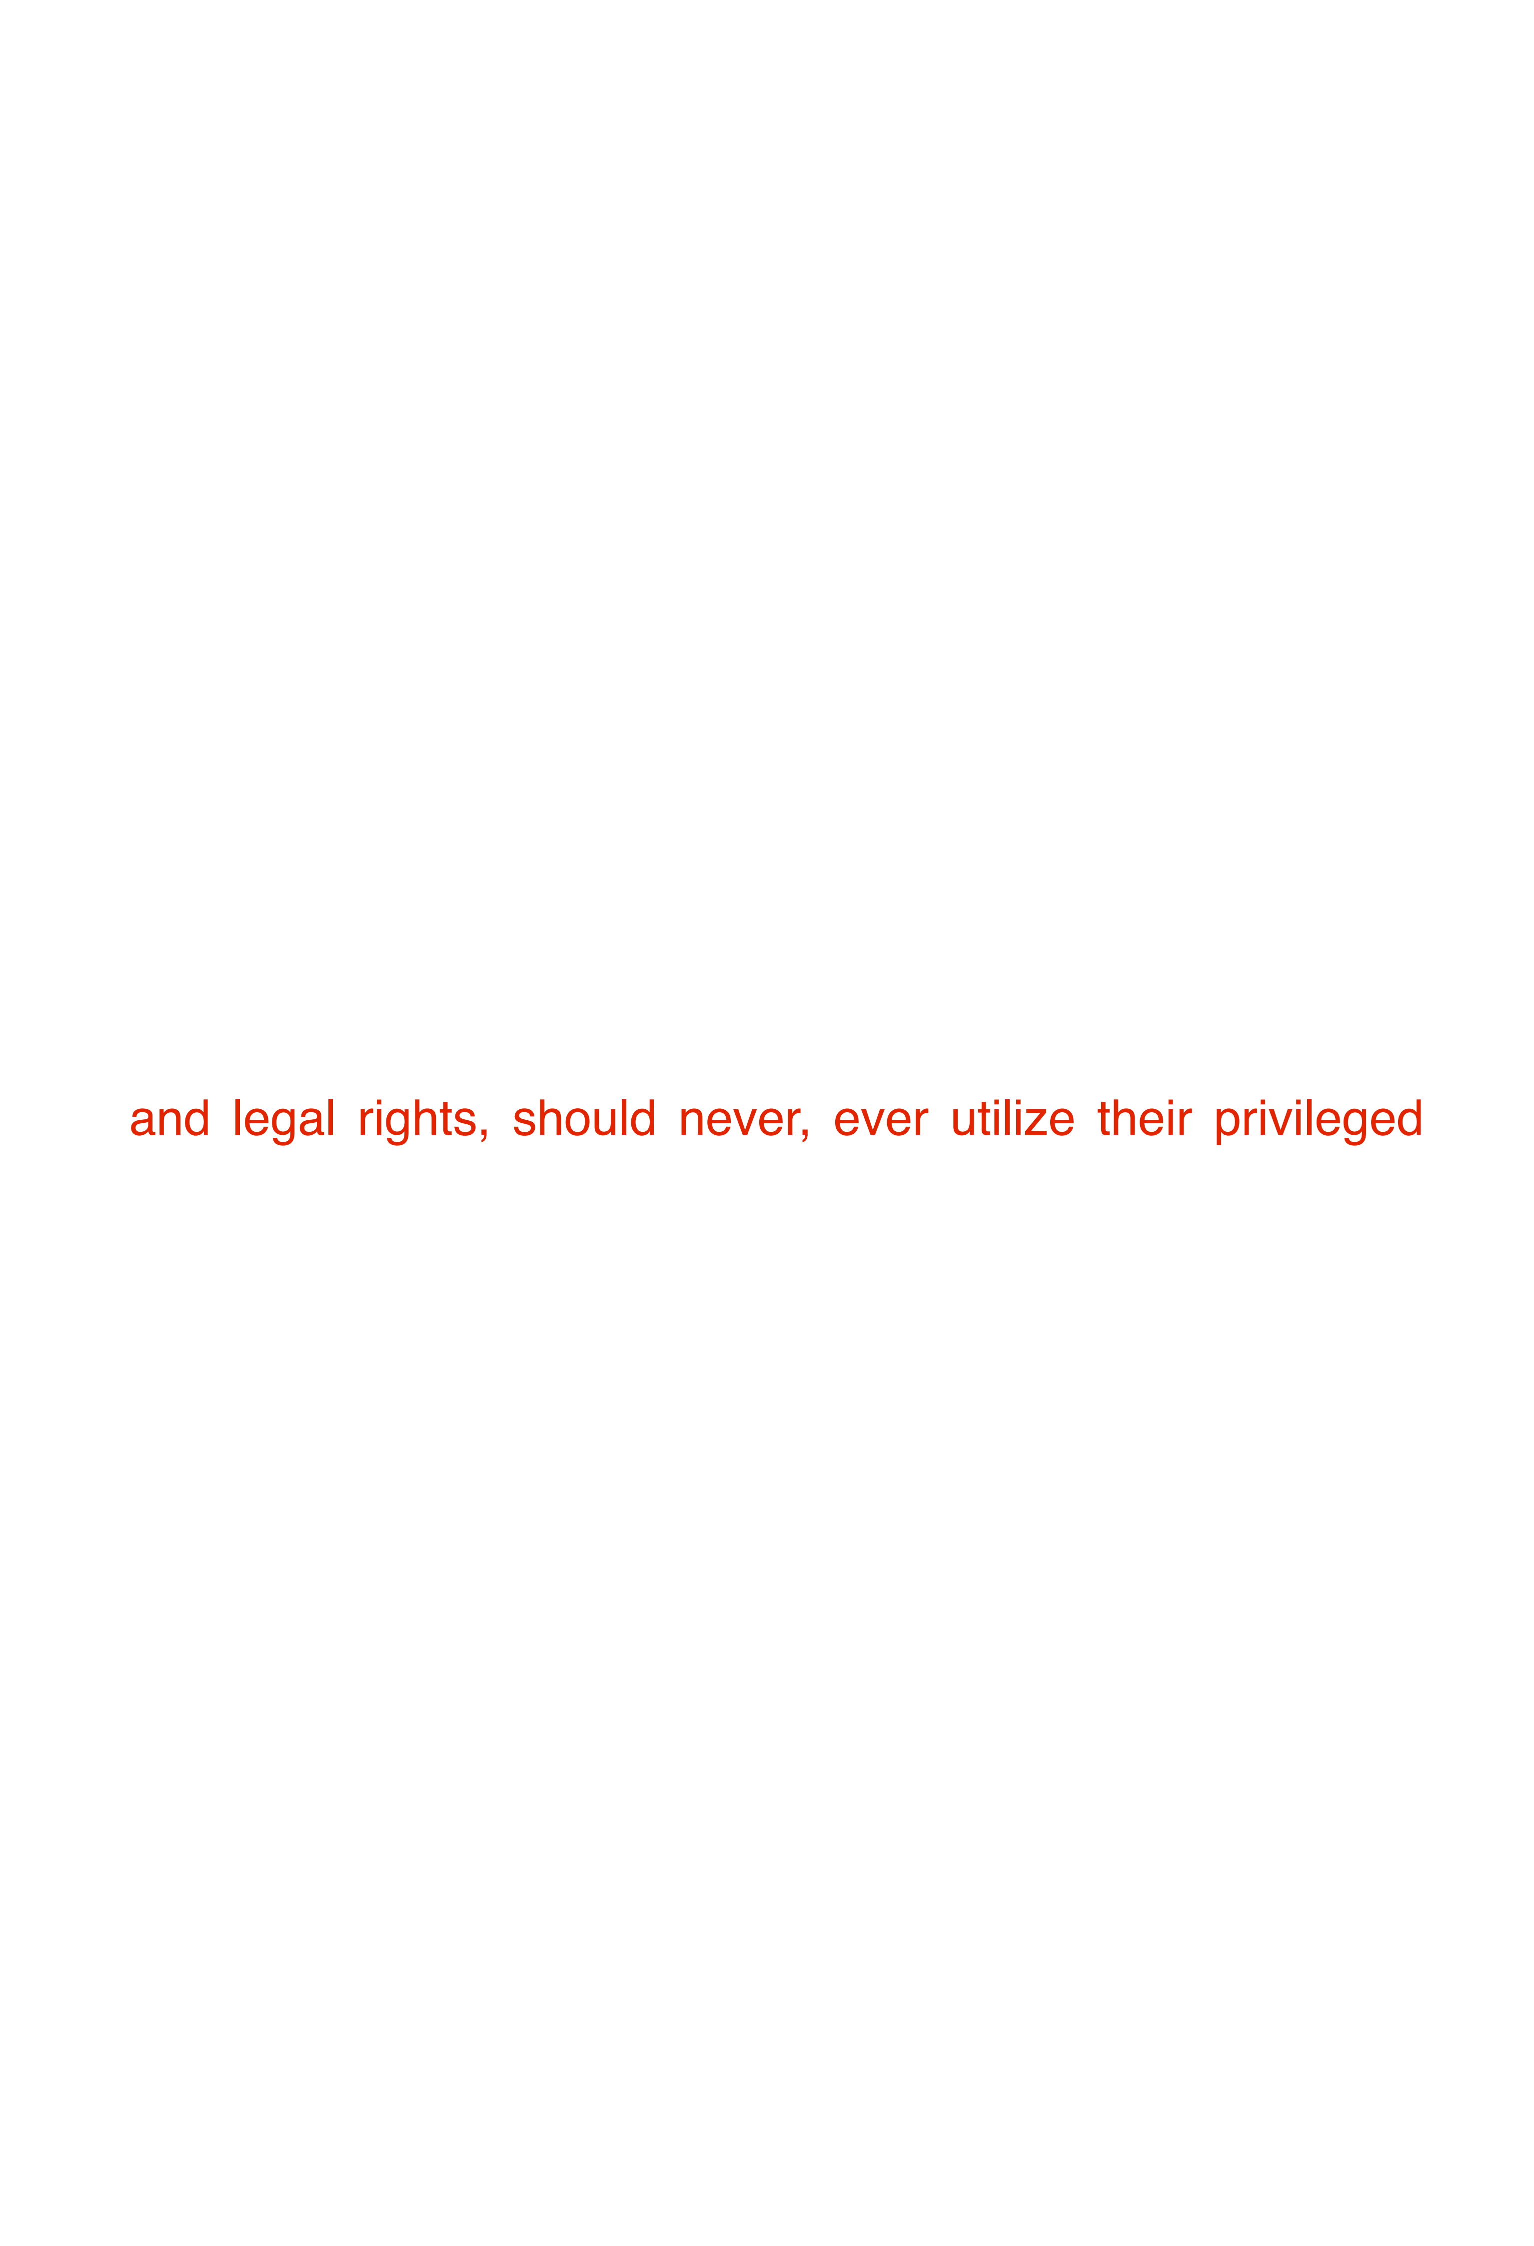

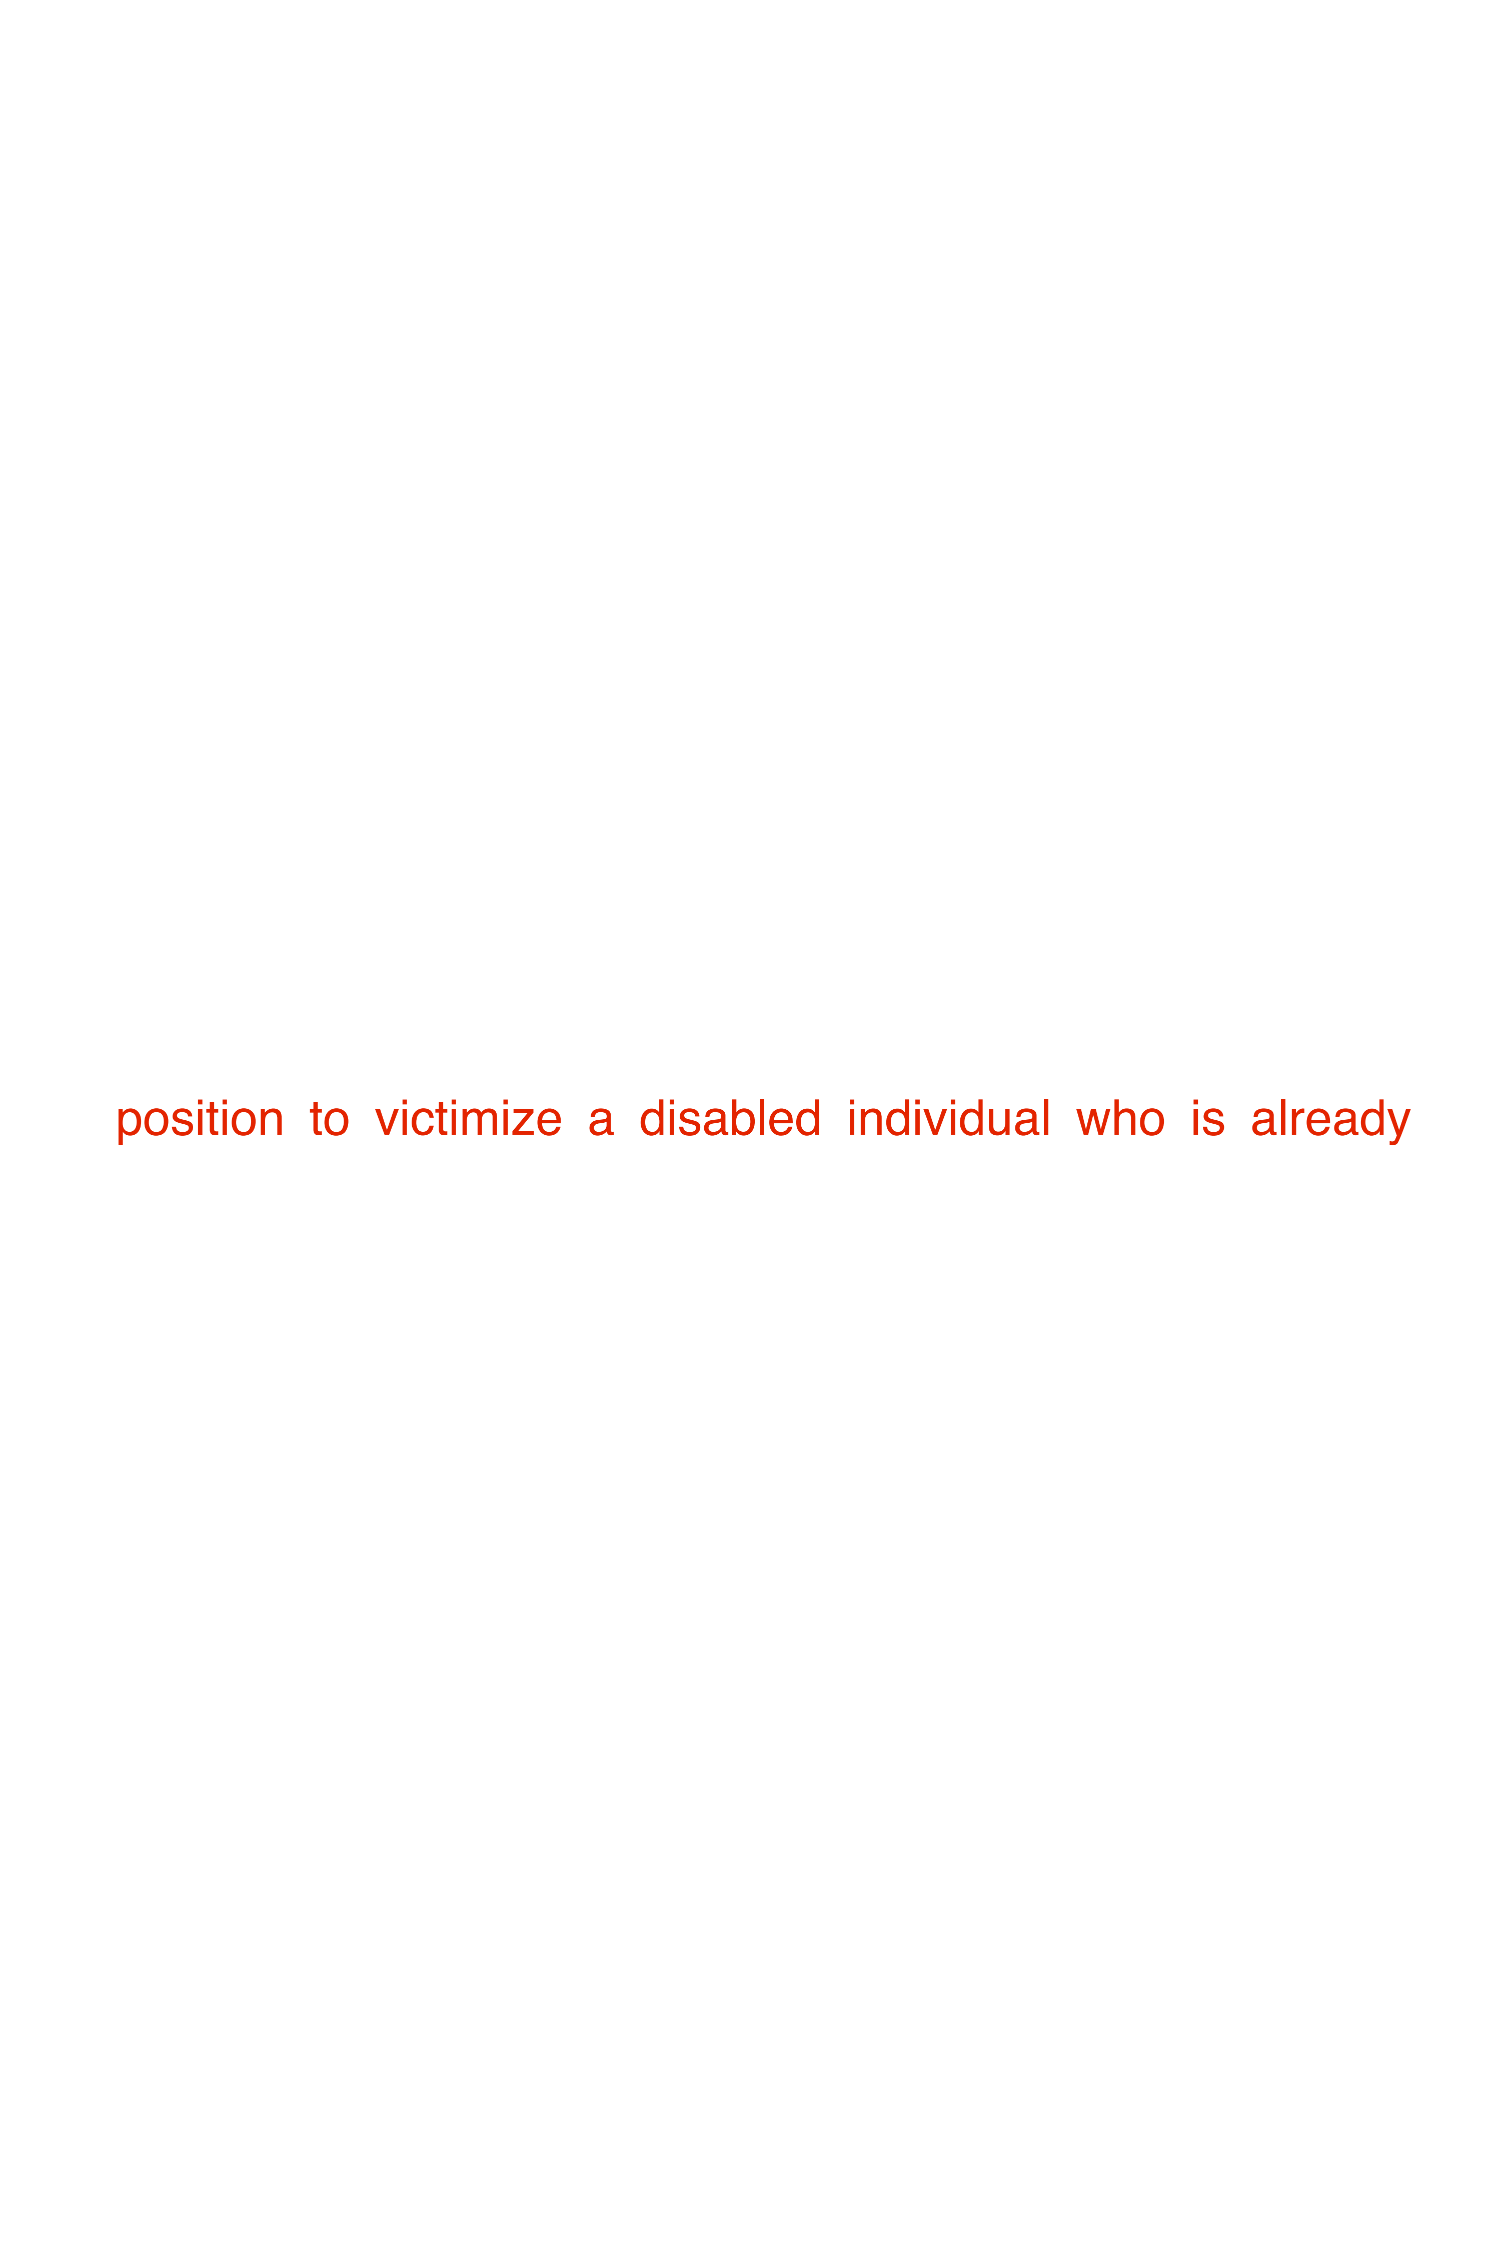

cruelty of the NDIS and their malice in torturing,

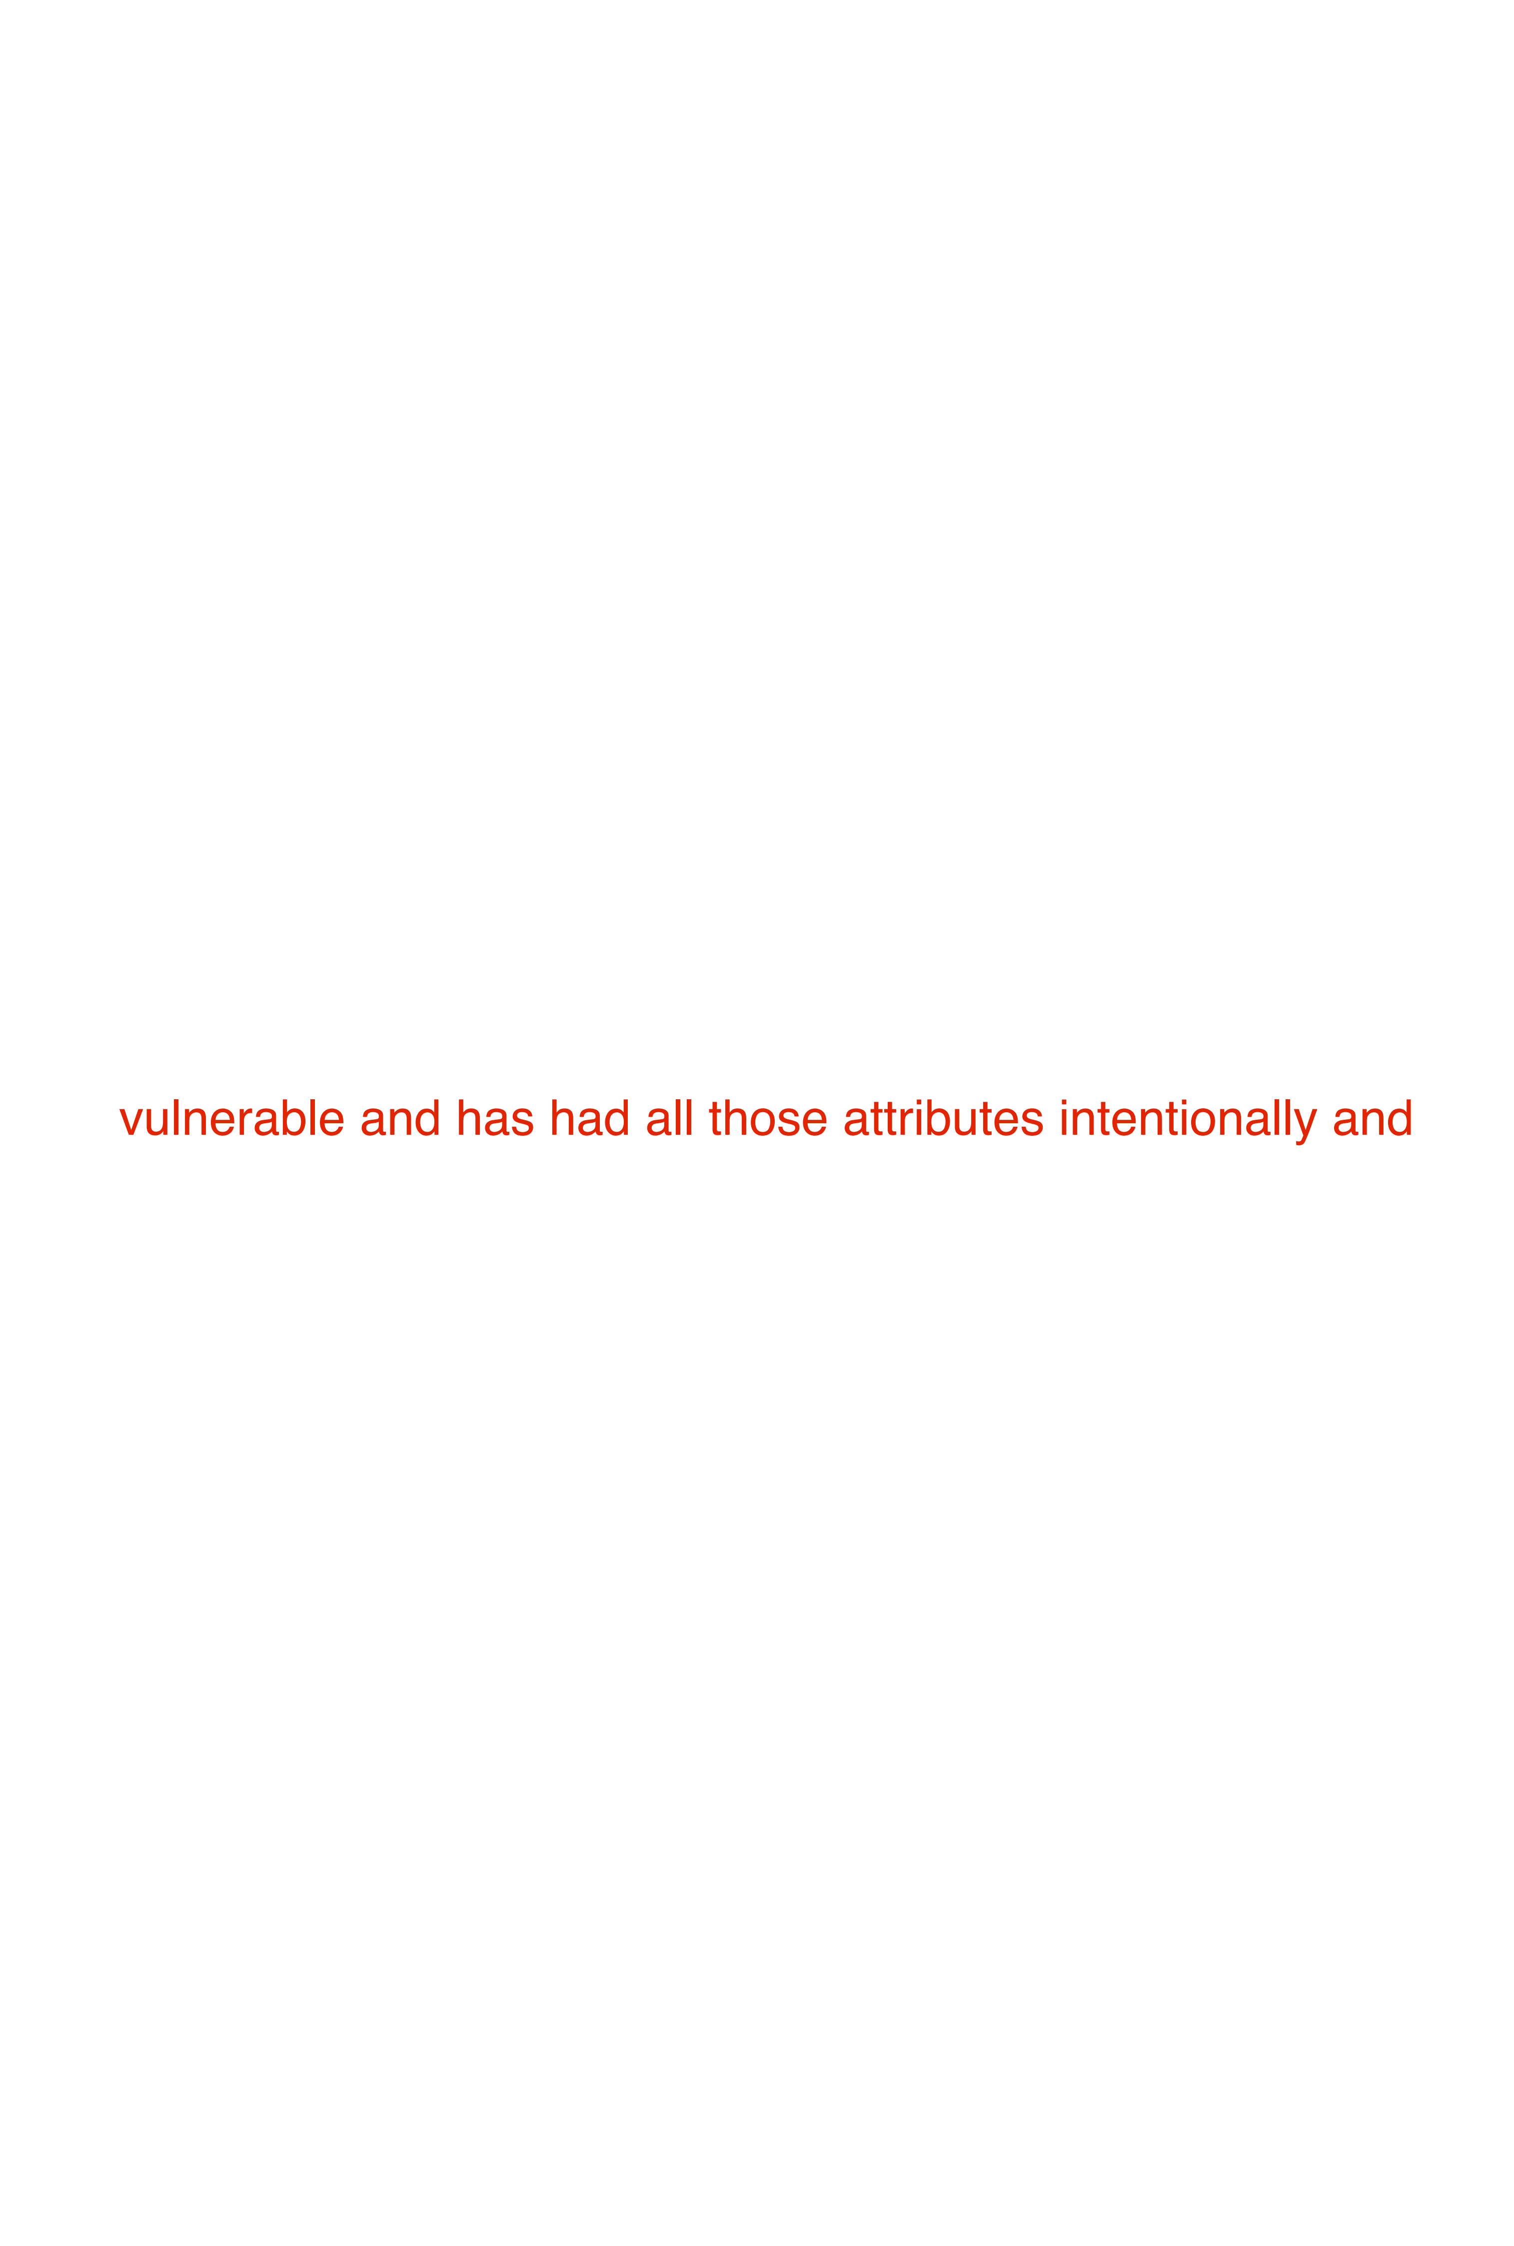

persecuting, impoverishing, and endangering me.

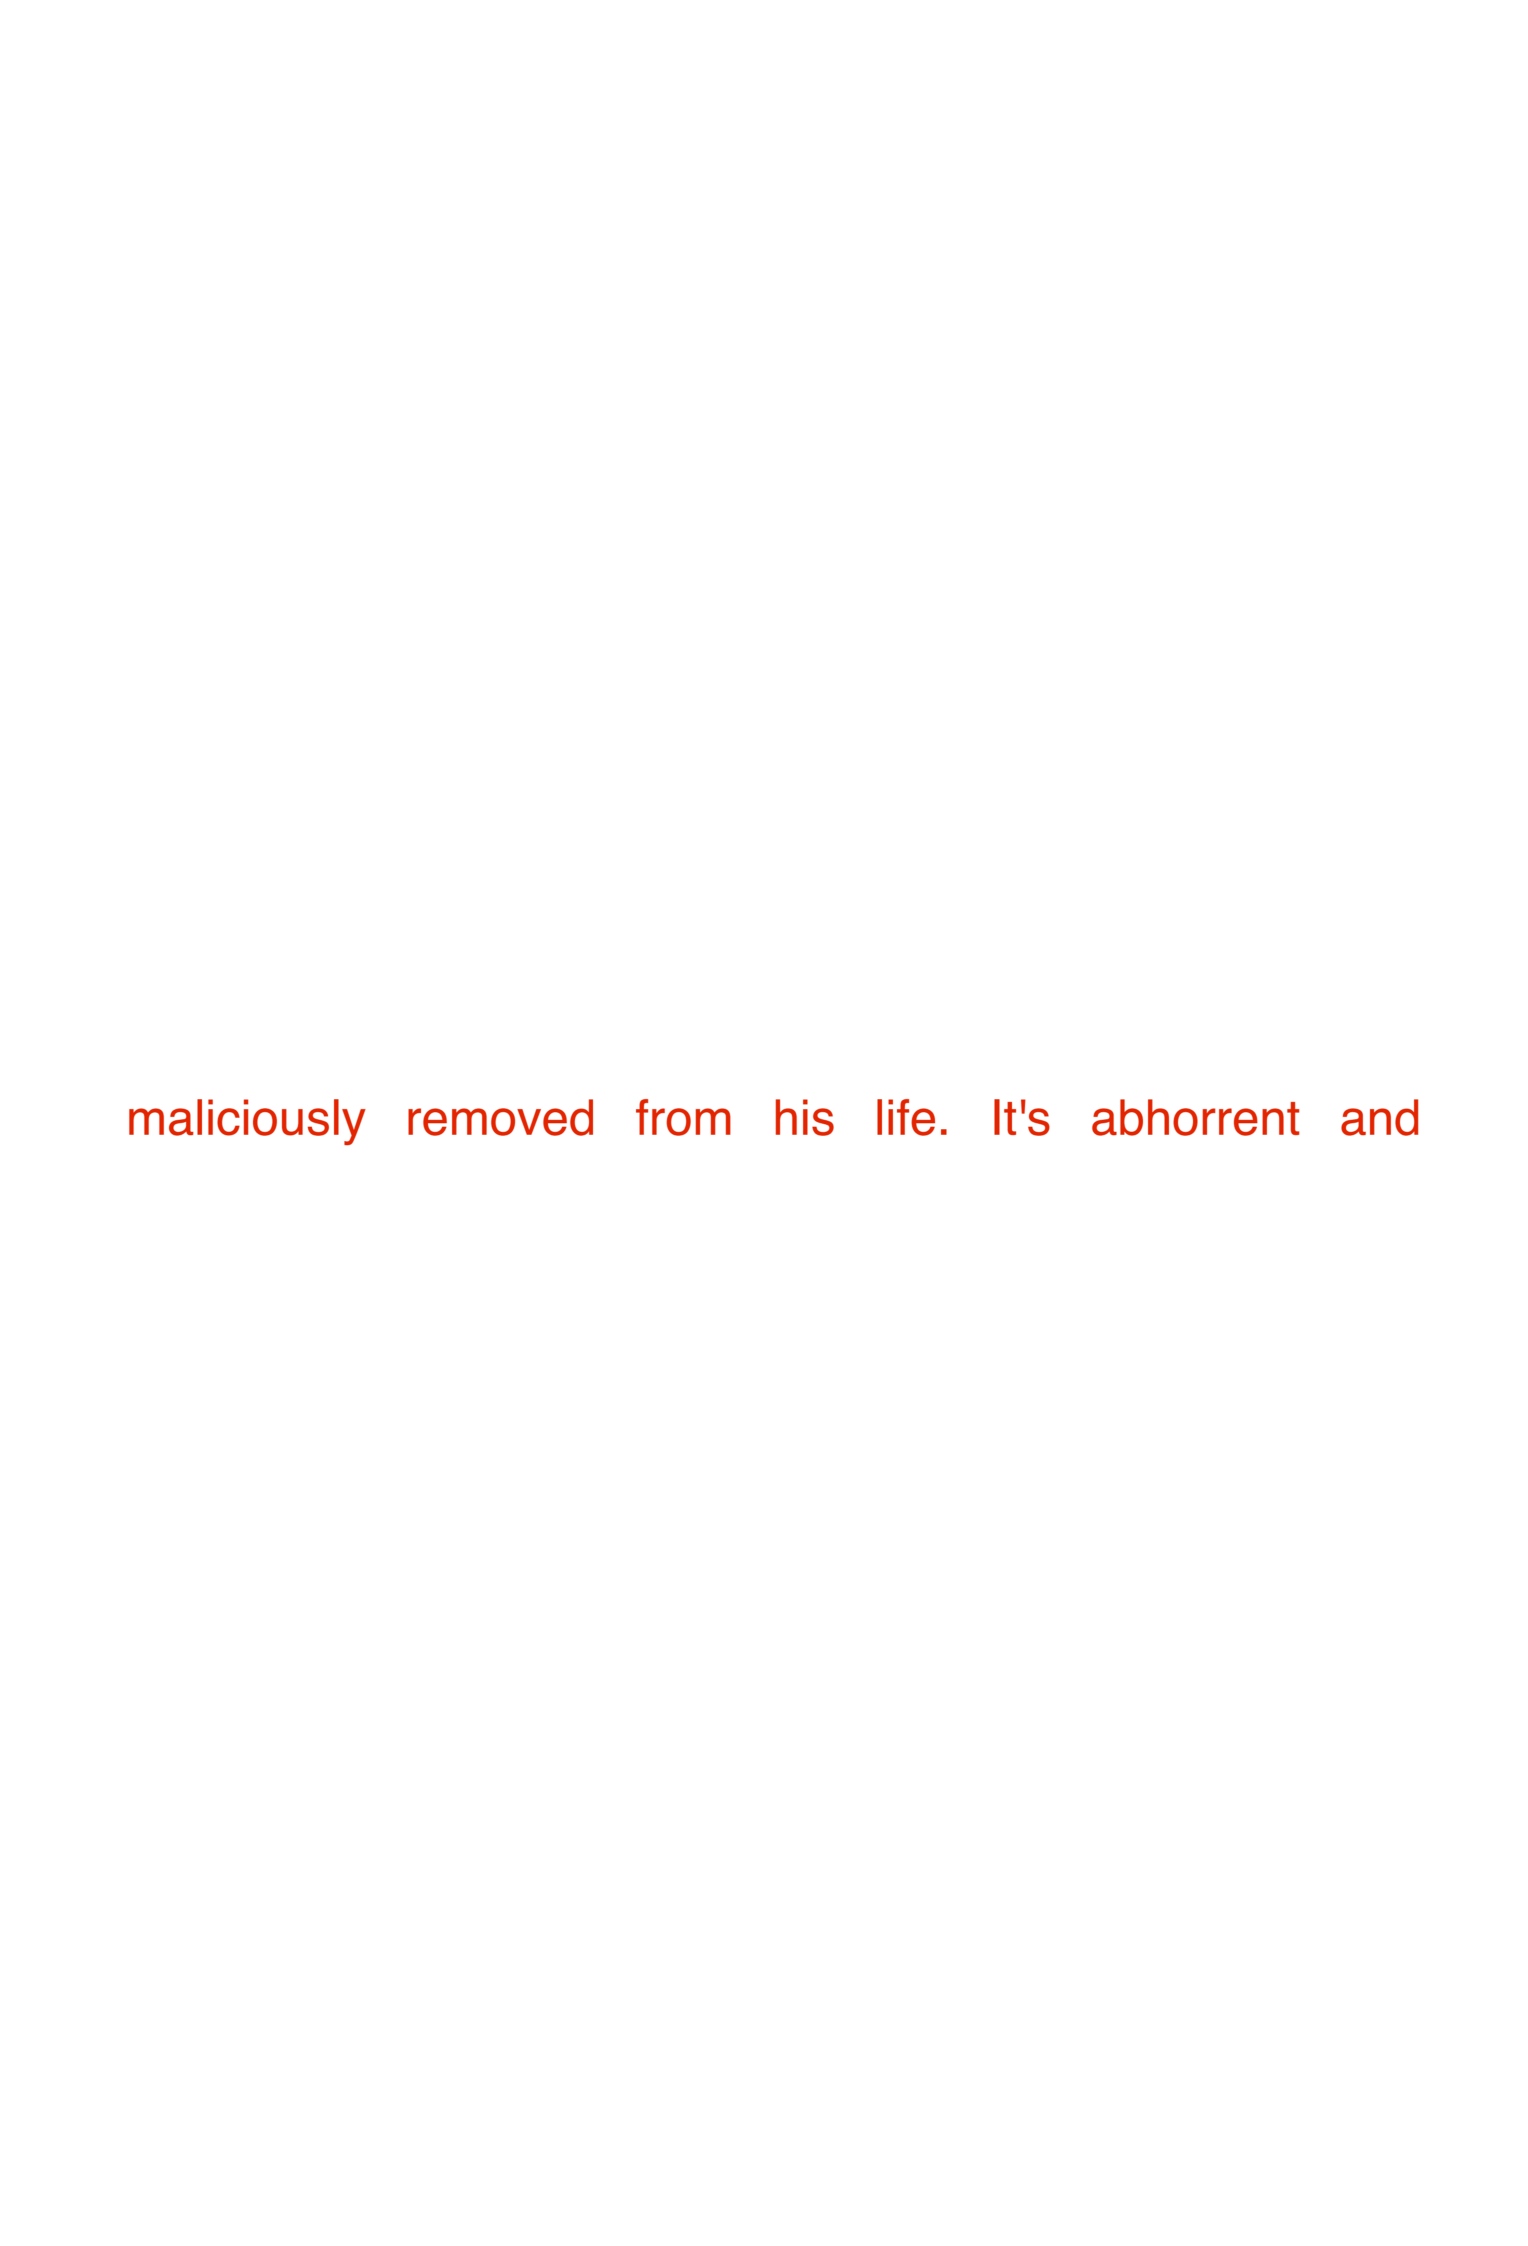

Those in positions of power, wealth, and prosperity, who

also possess safety, security, liberty, privacy, human rights,

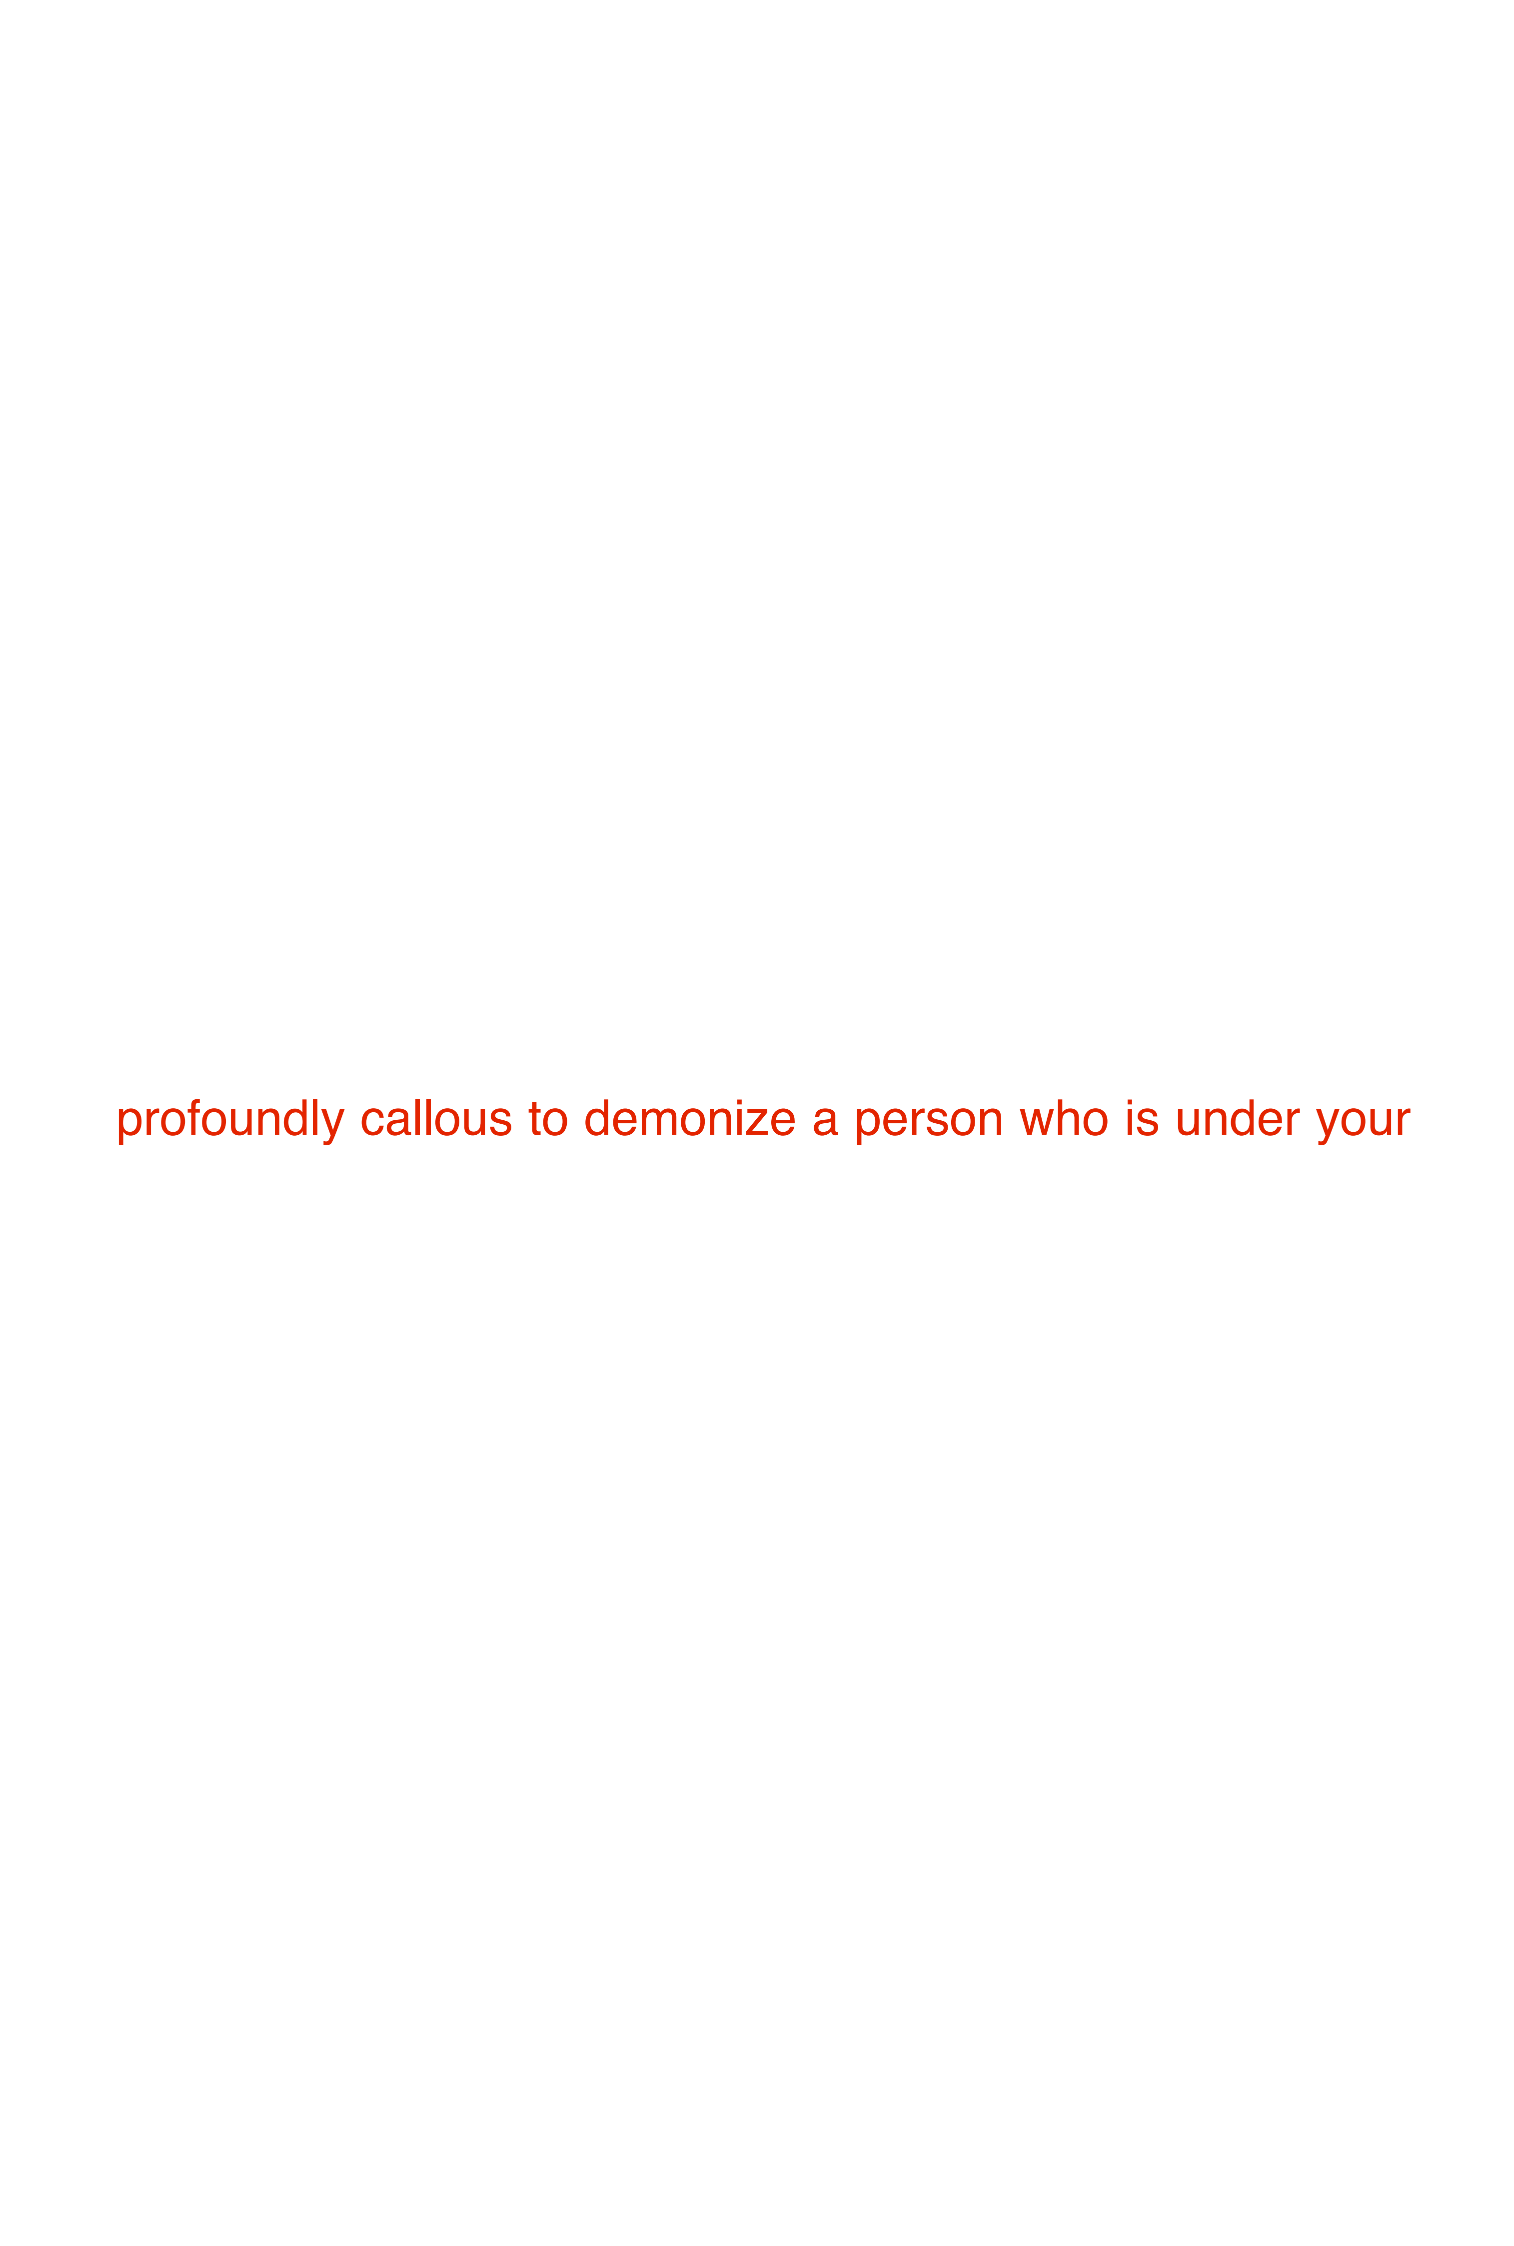

and legal rights, should never, ever utilize their privileged

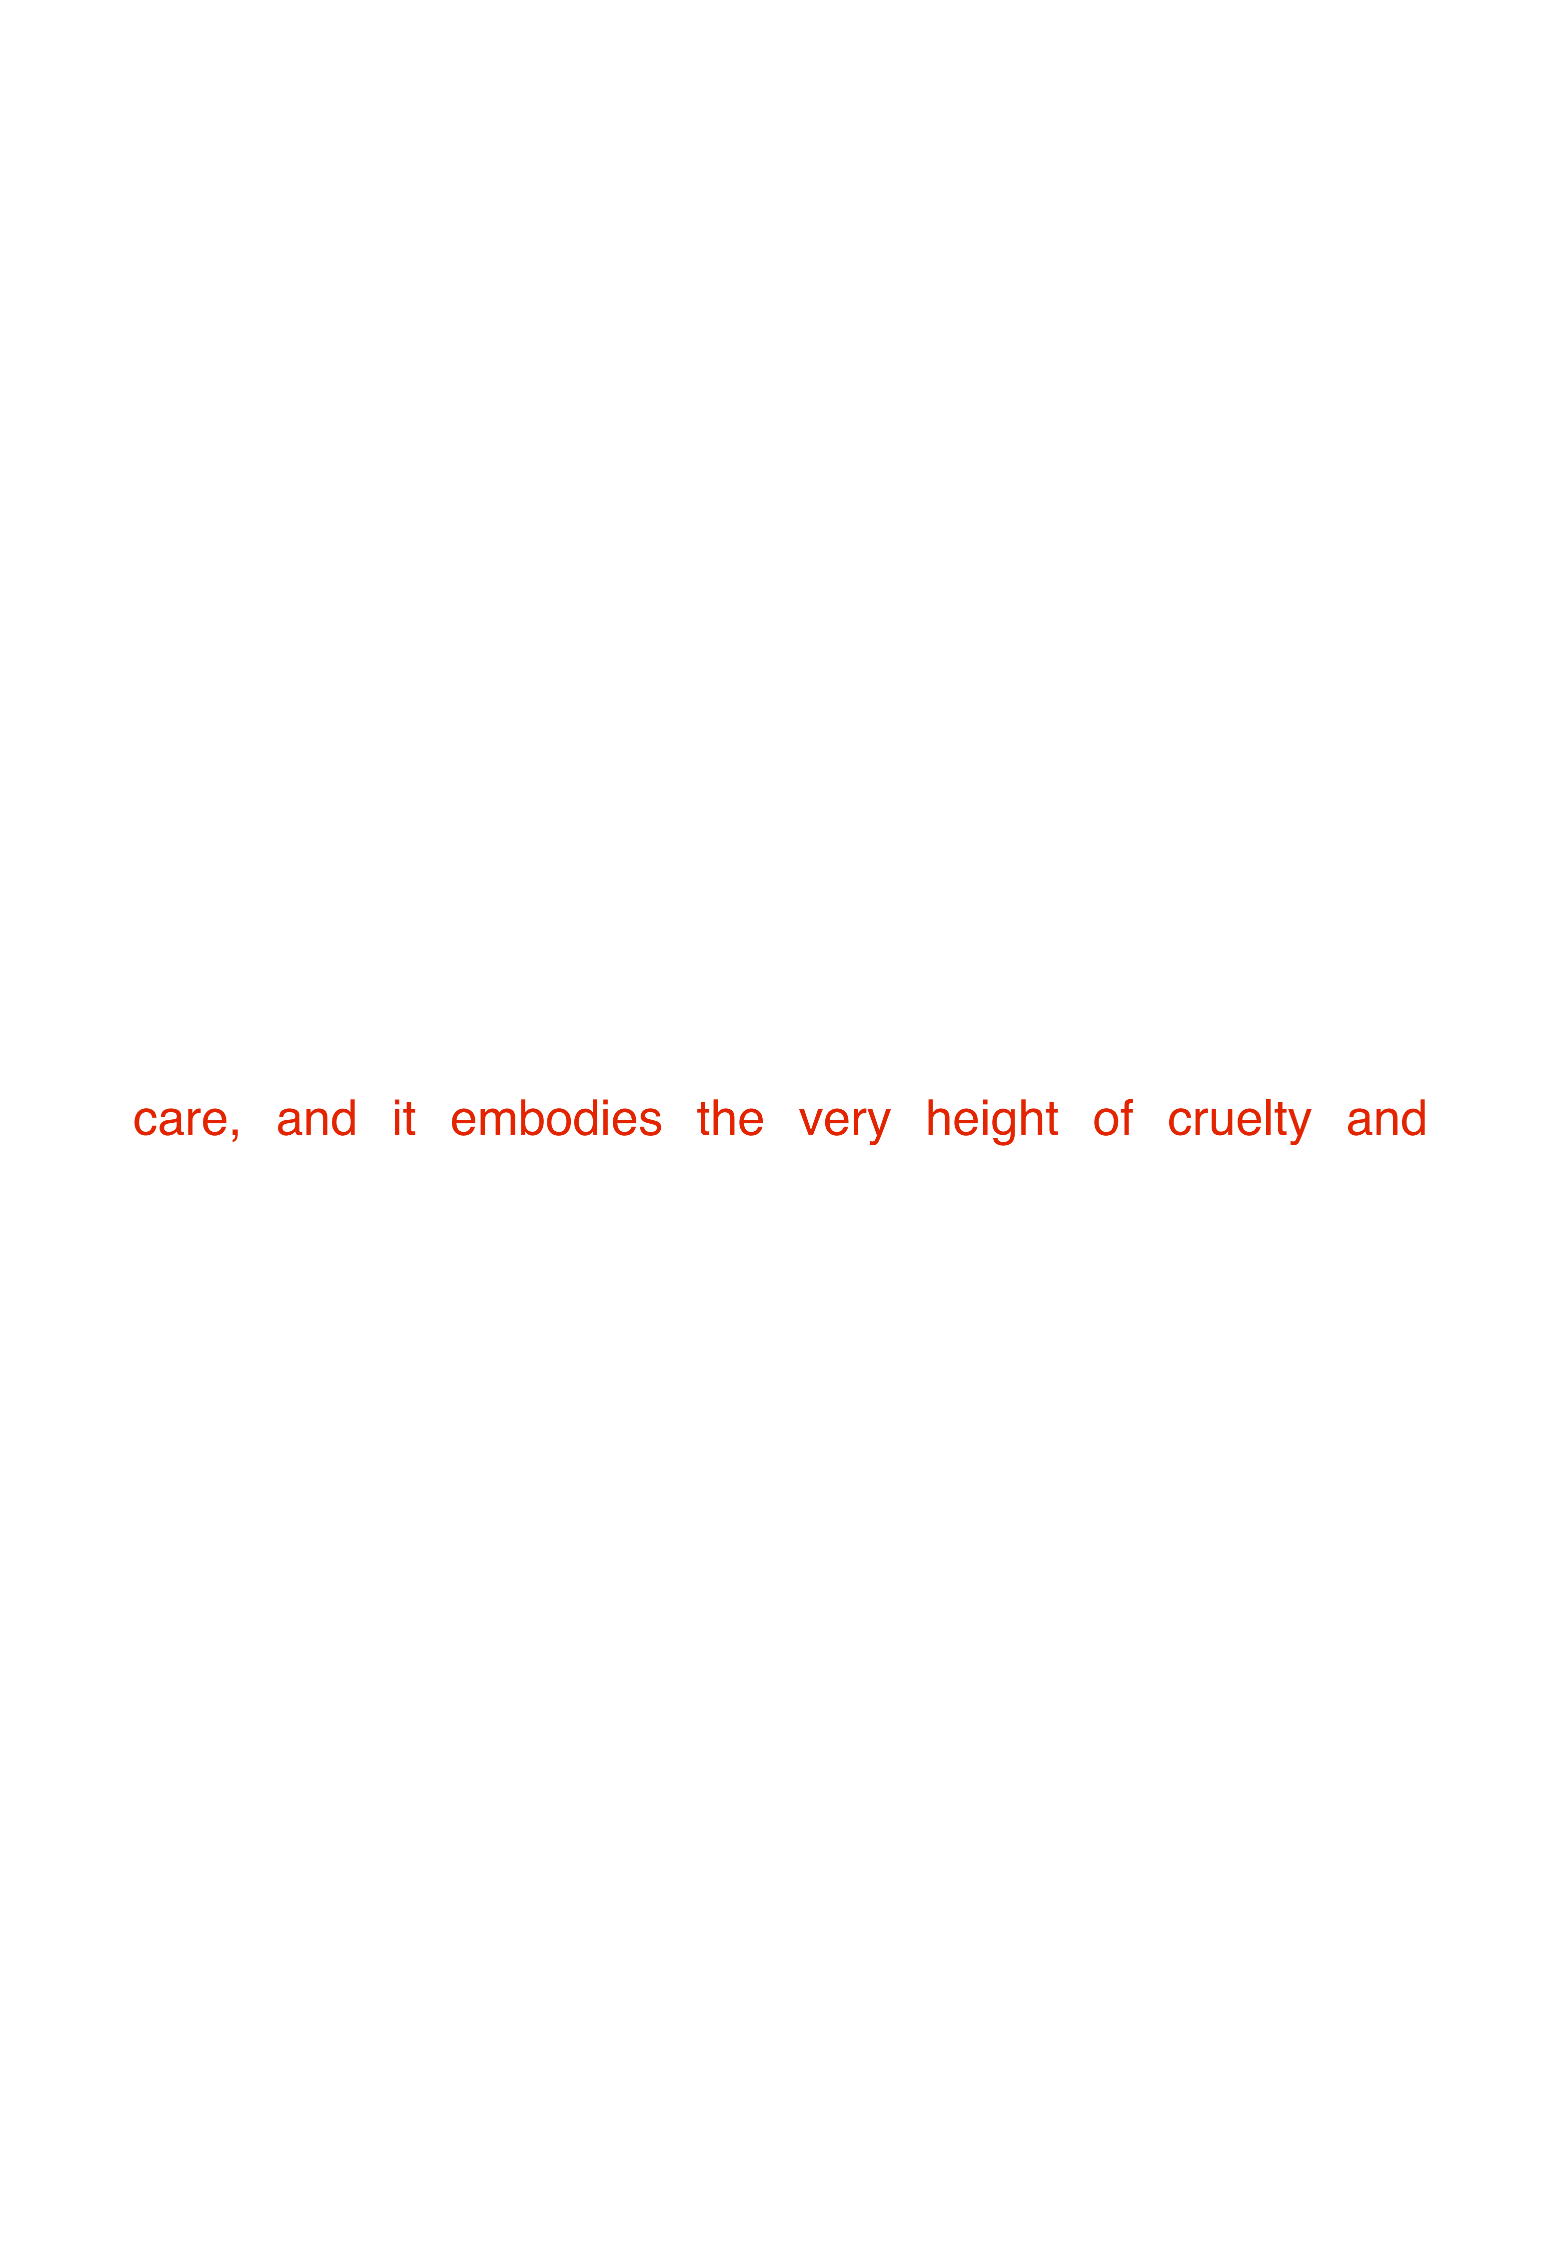

position to victimize a disabled individual who is already

vulnerable and has had all those attributes intentionally and

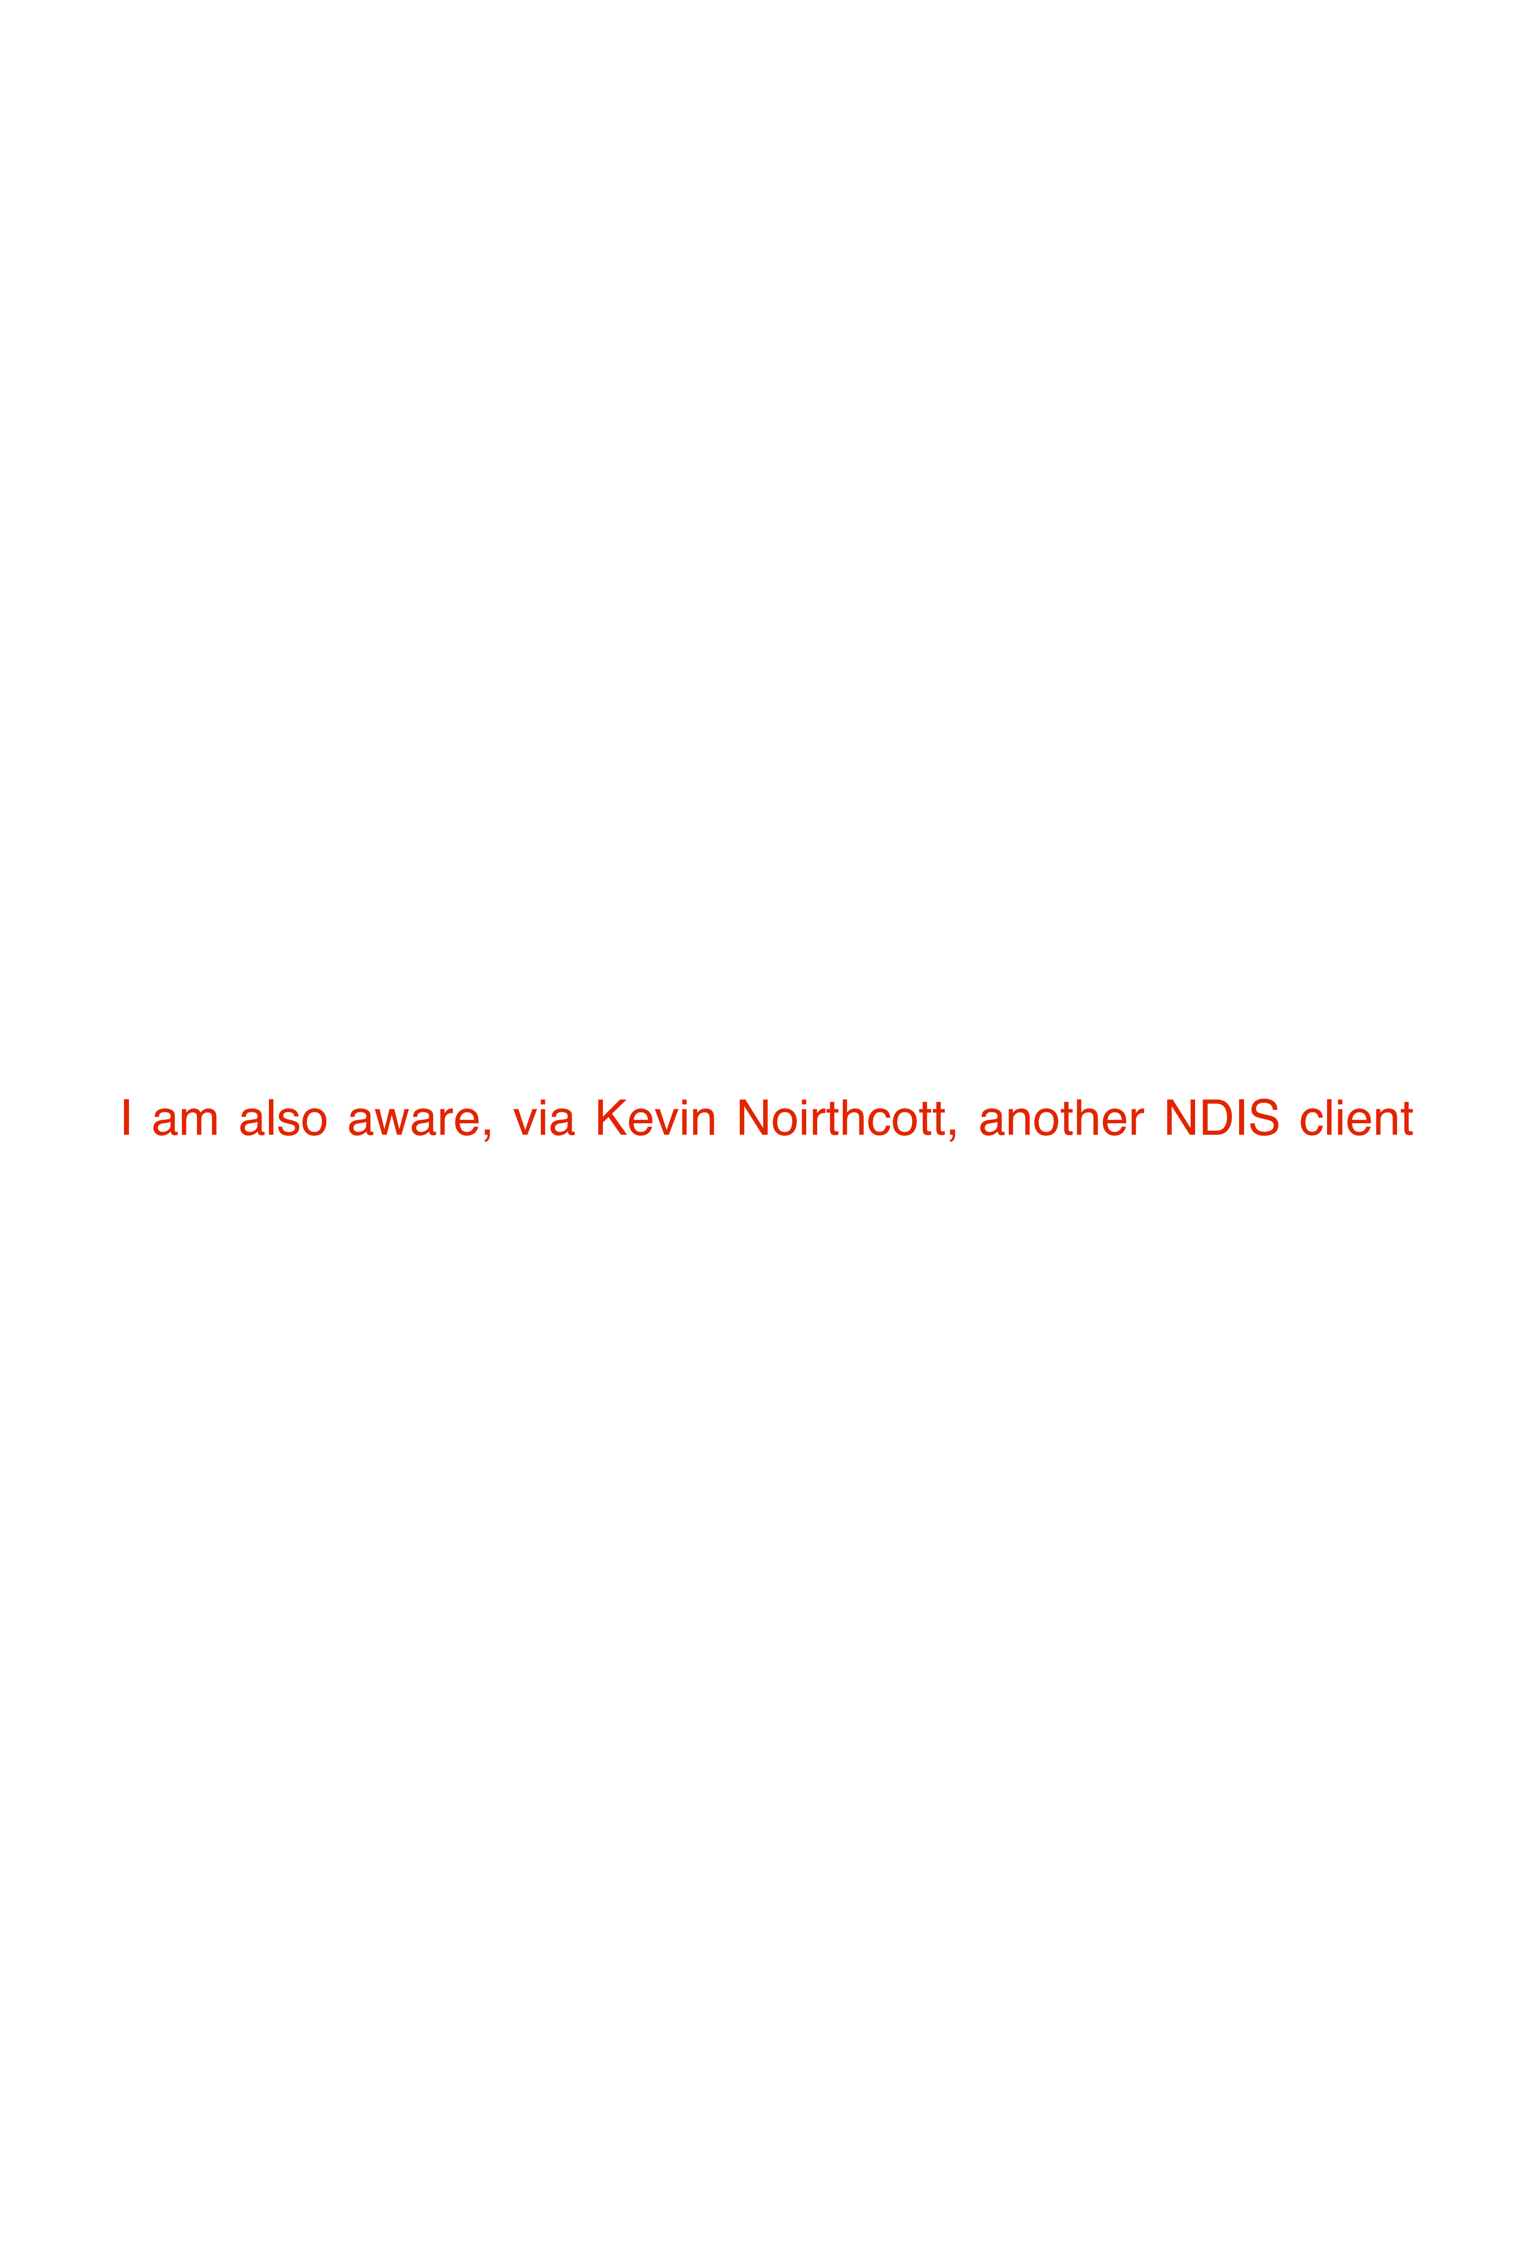

maliciously removed from his life. It's abhorrent and

profoundly callous to demonize a person who is under your

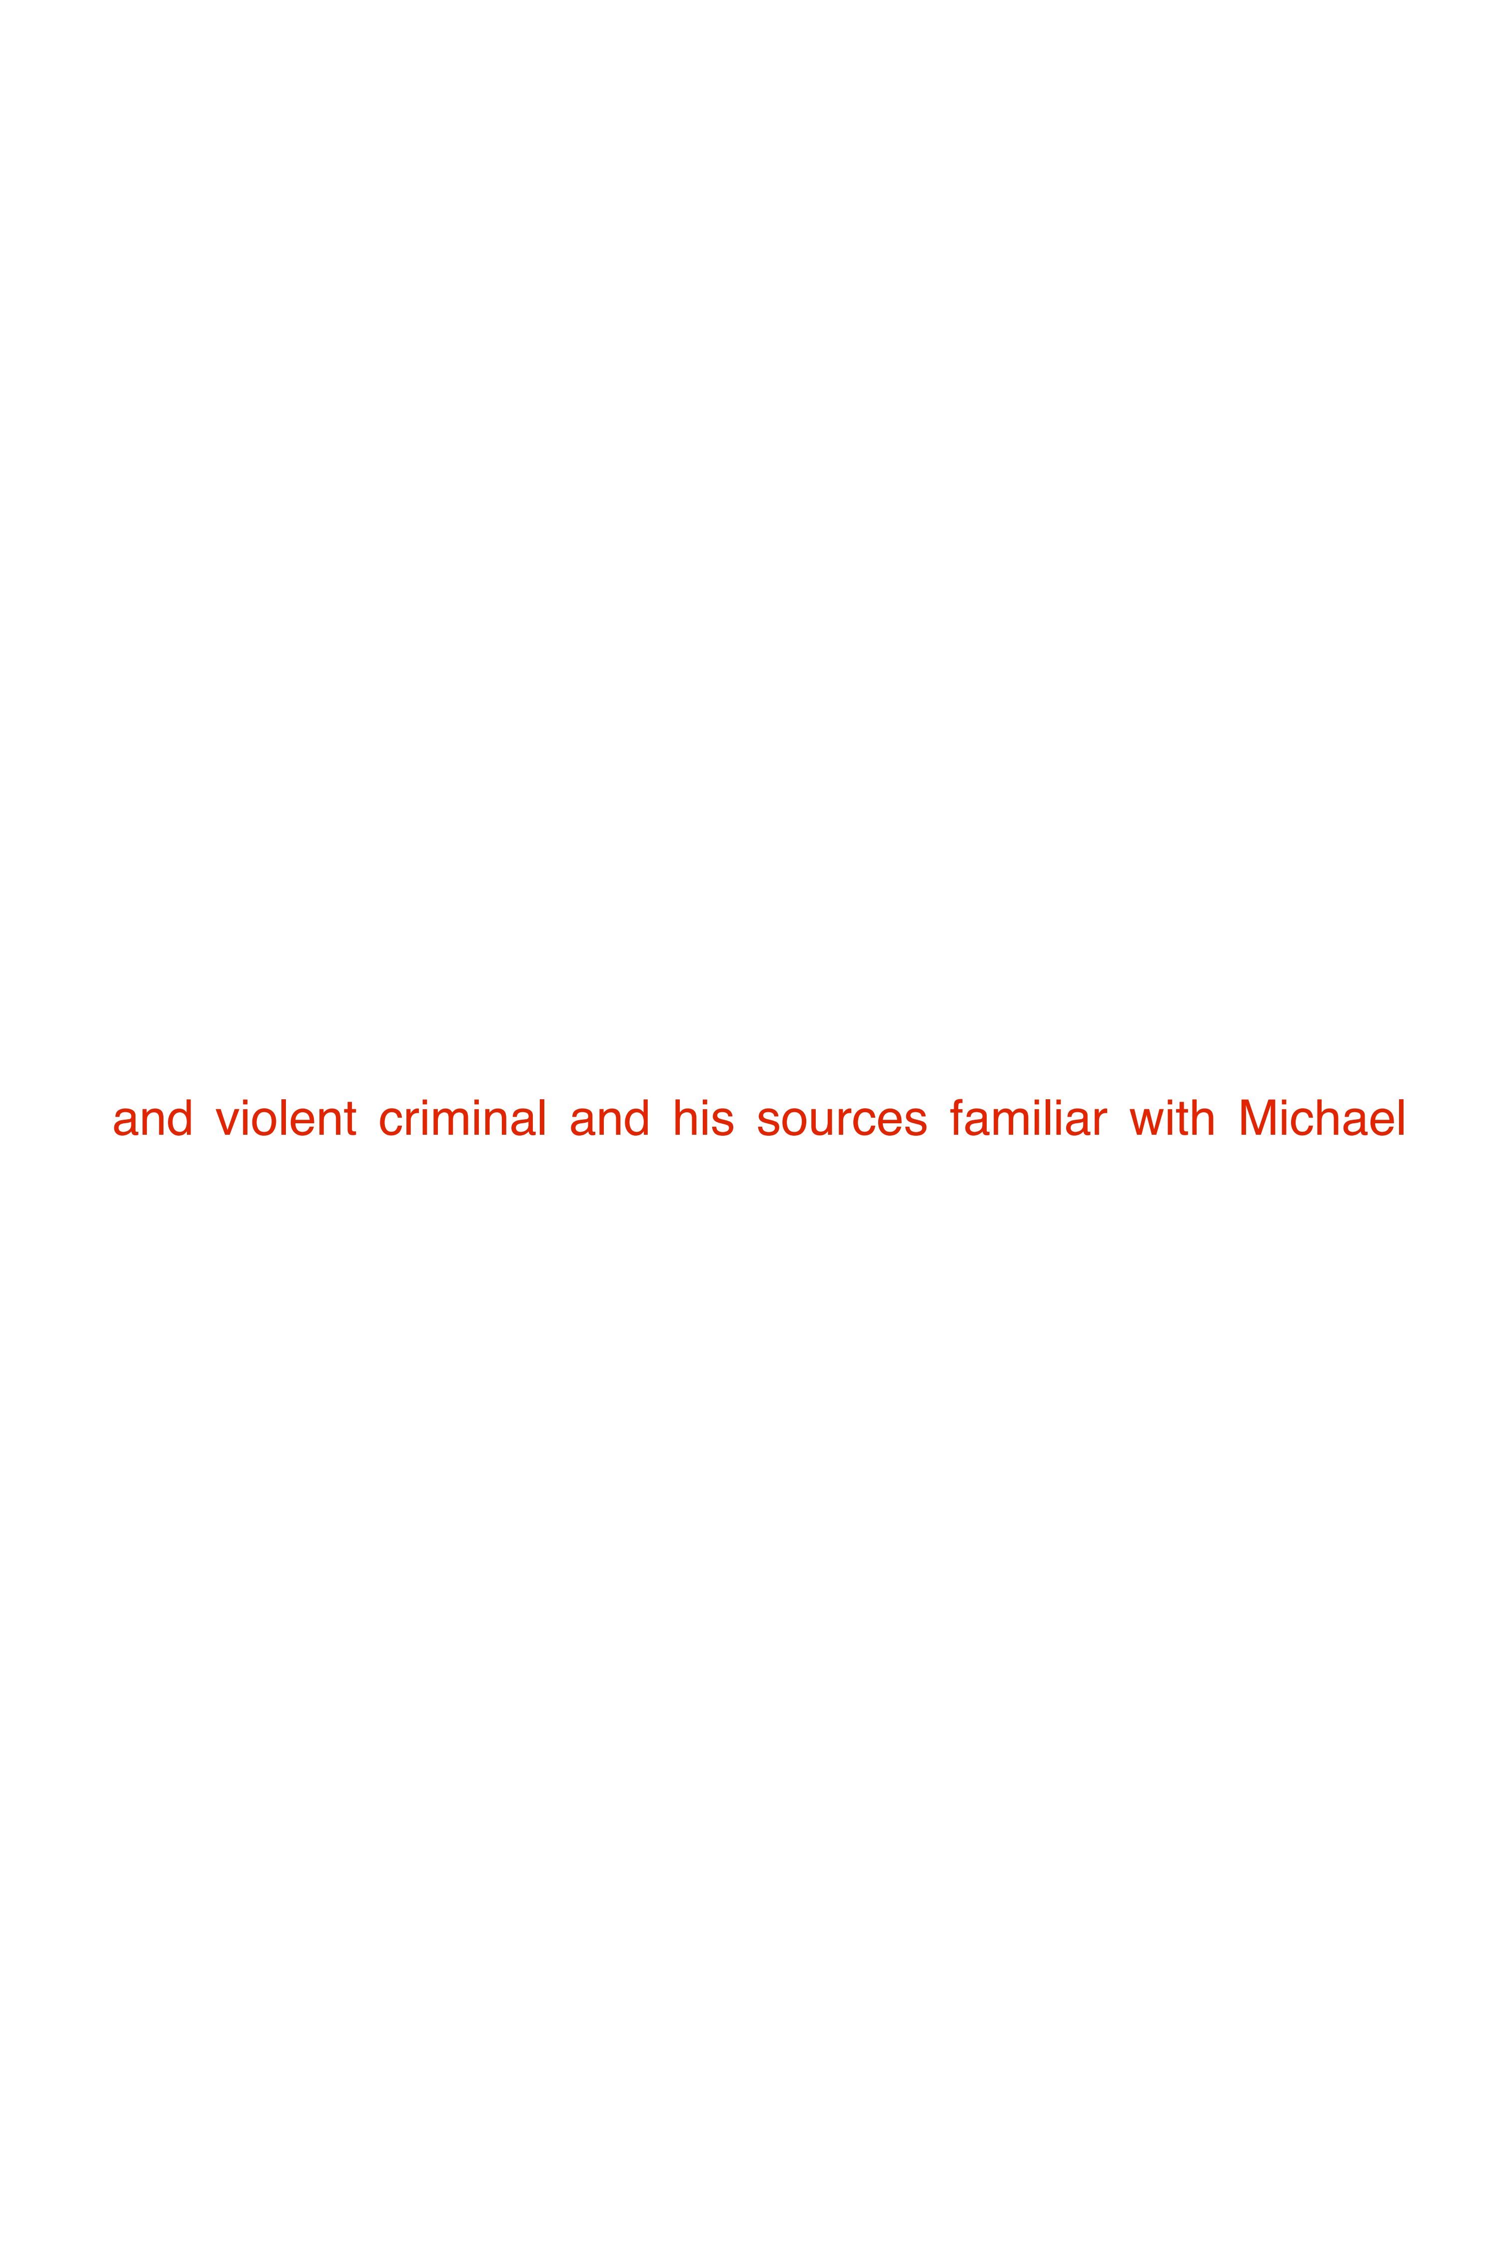

care, and it embodies the very height of cruelty and

cowardice.

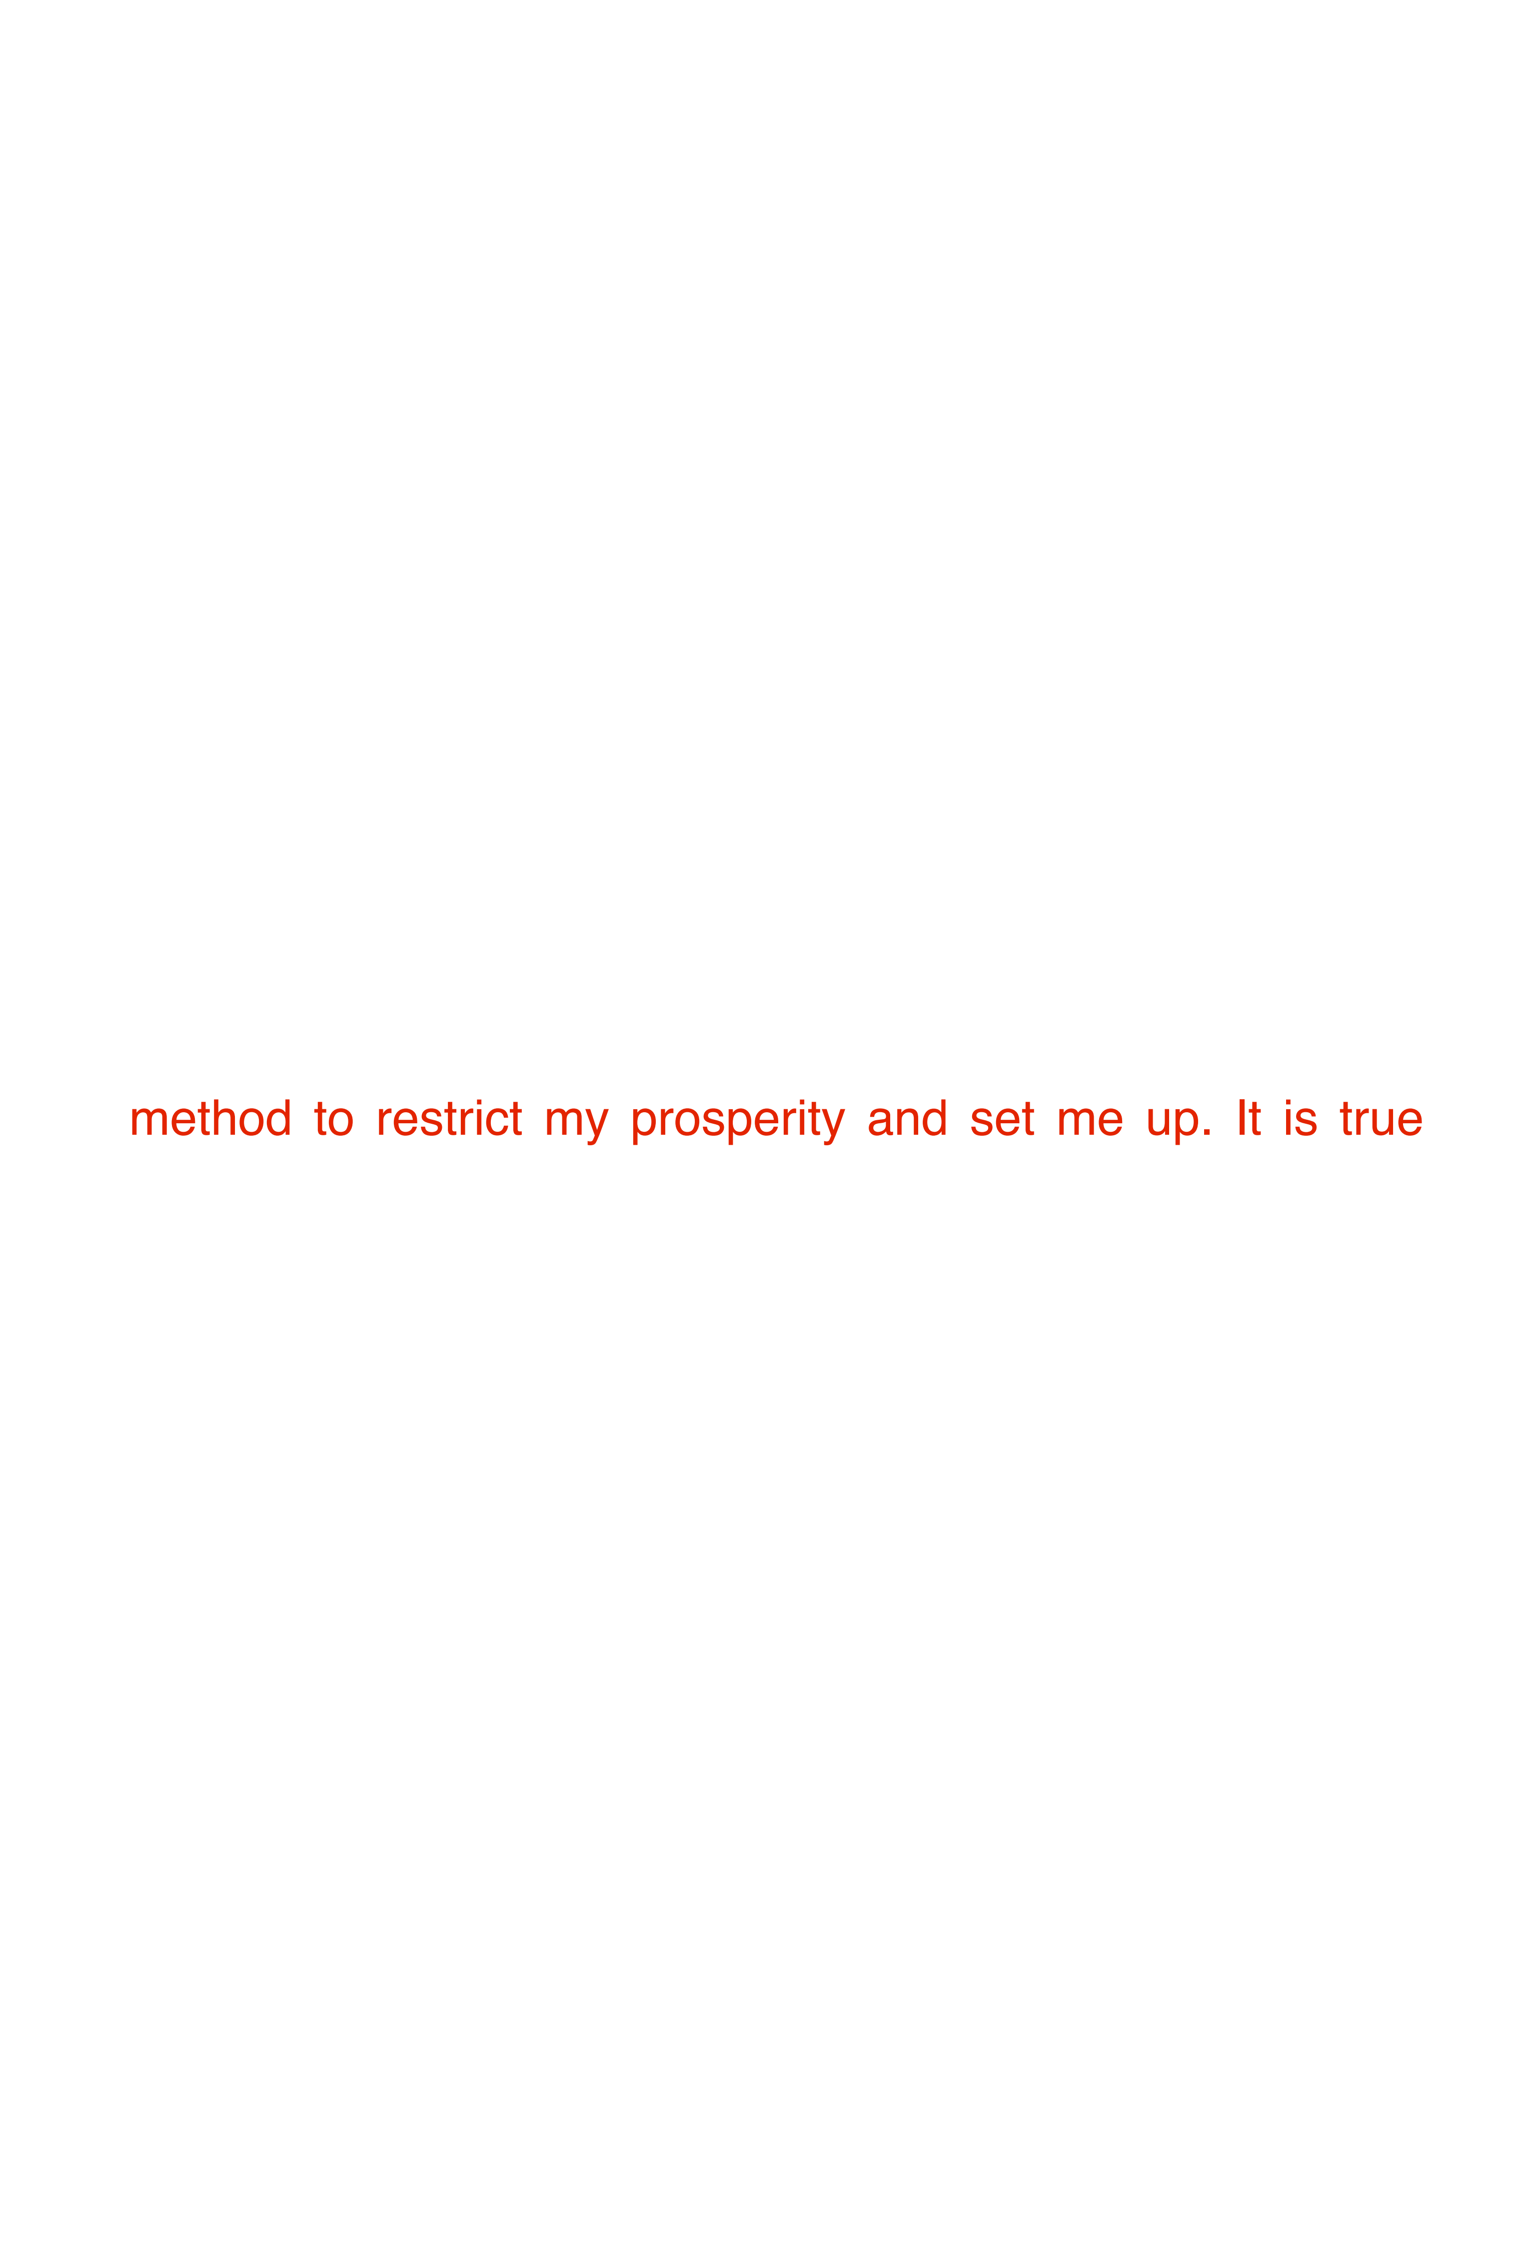

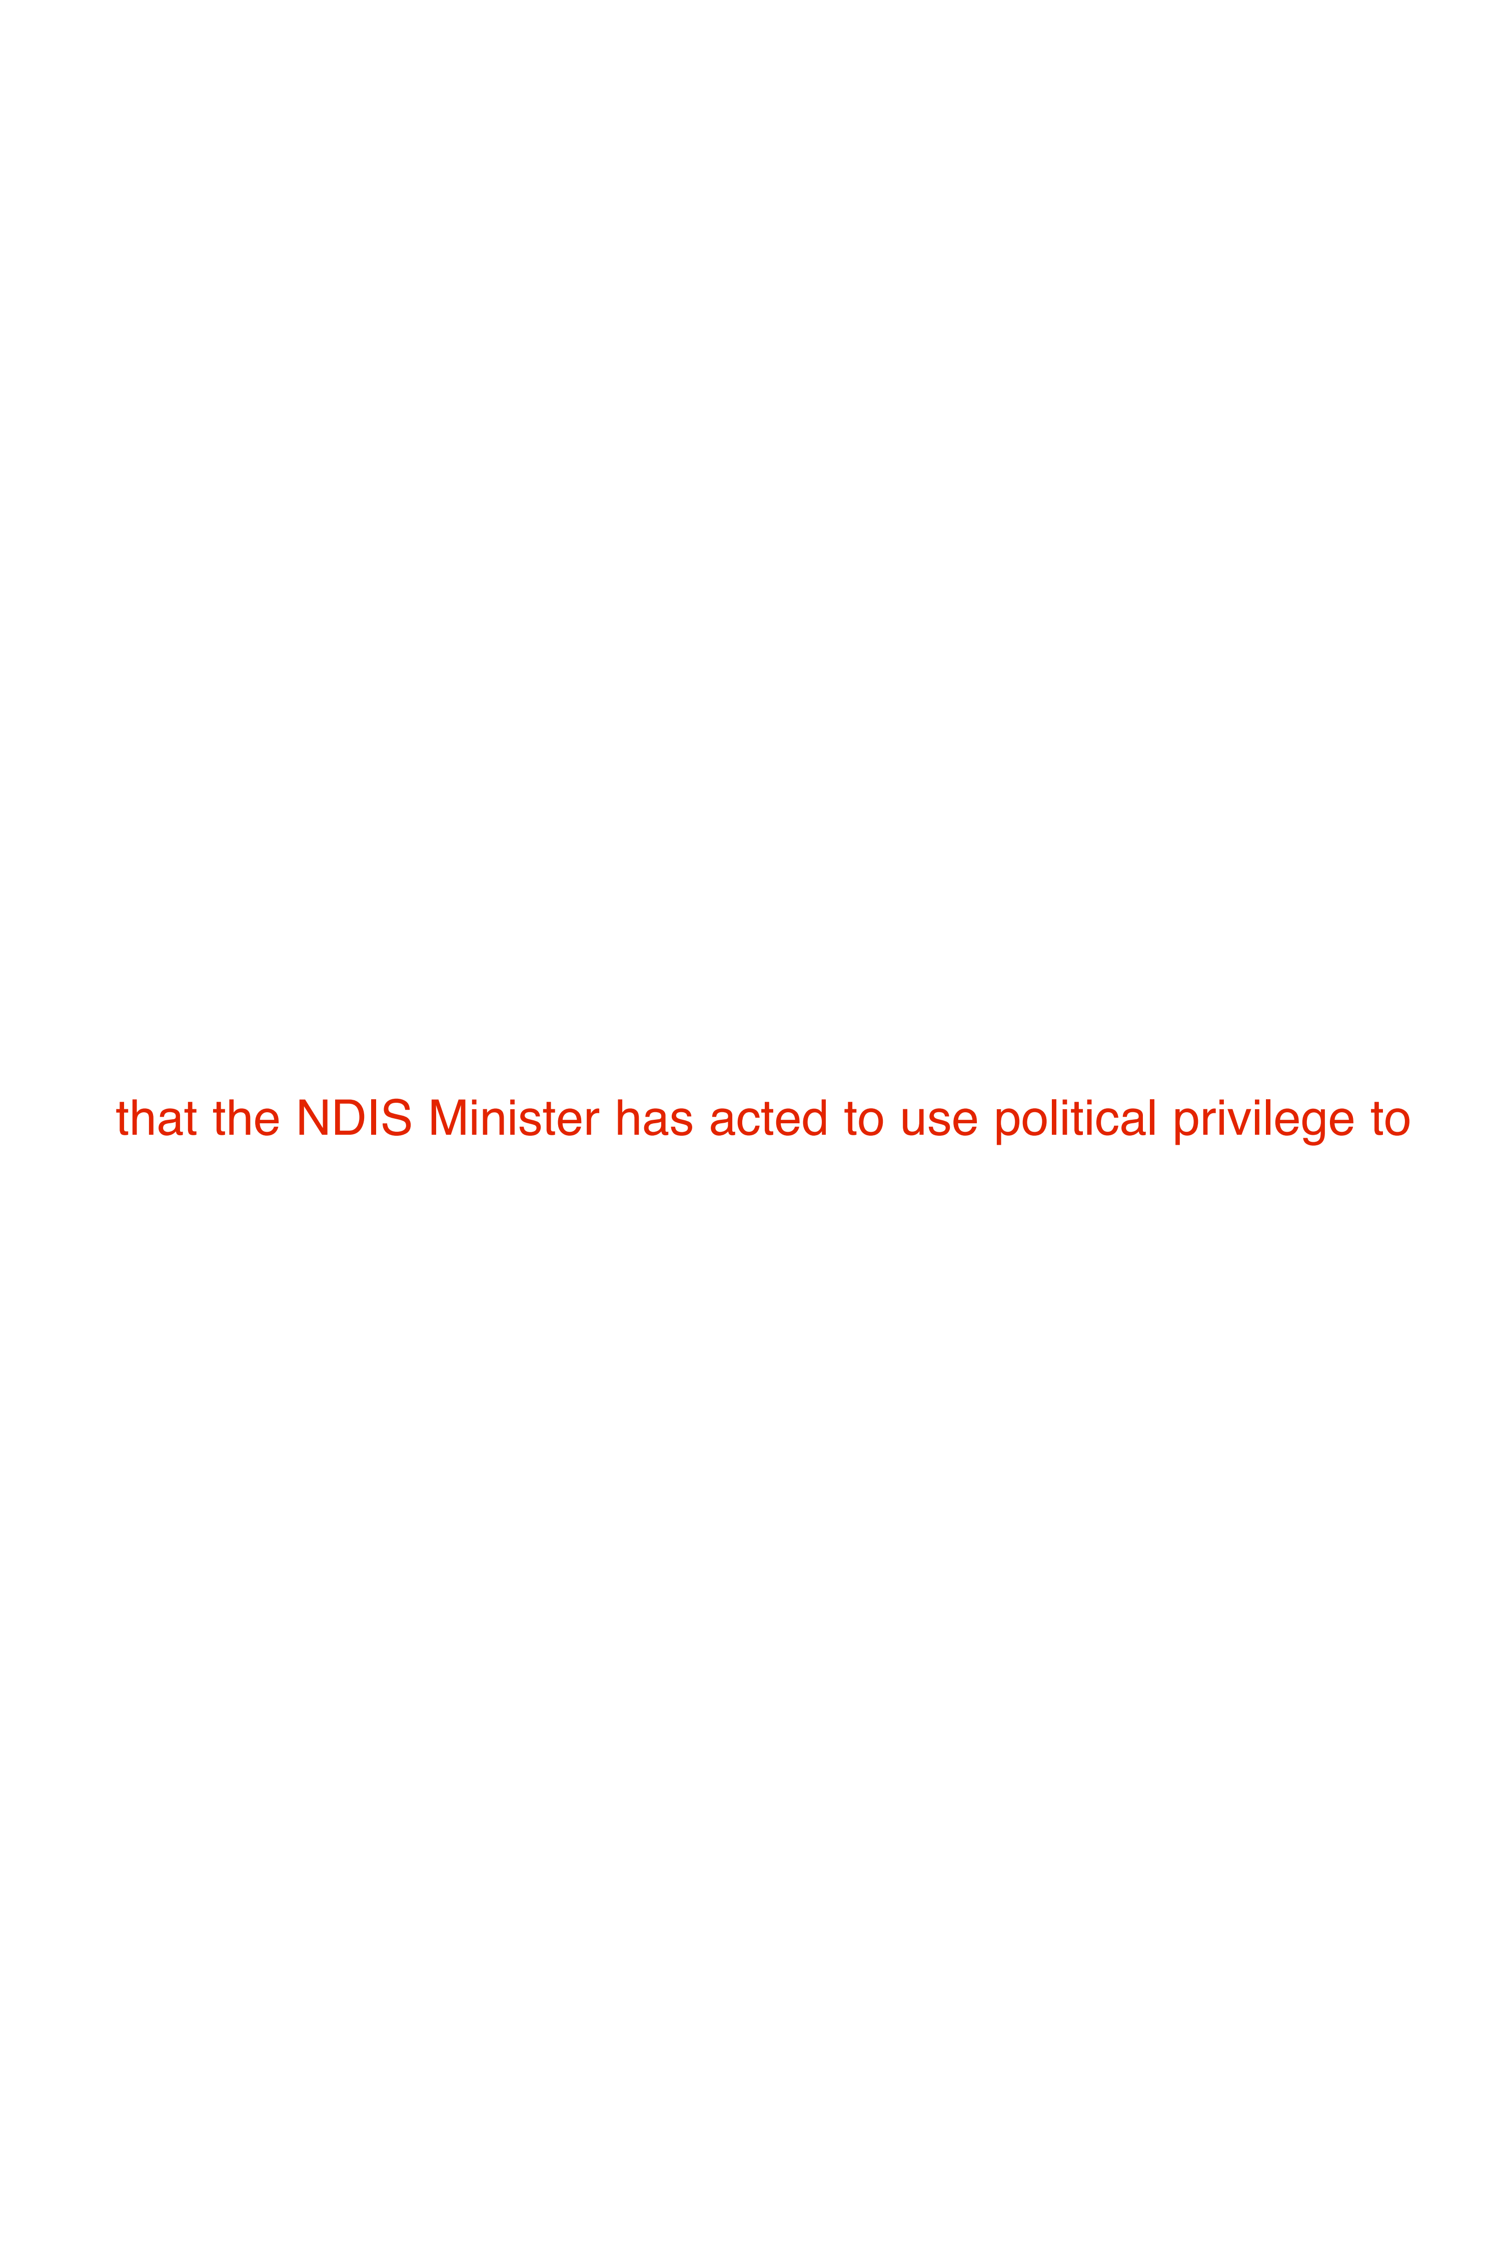

I am also aware, via Kevin Noirthcott, another NDIS client

and violent criminal and his sources familiar with Michael

Quinn, NDIS (0430070473), that the NDIS has chosen a

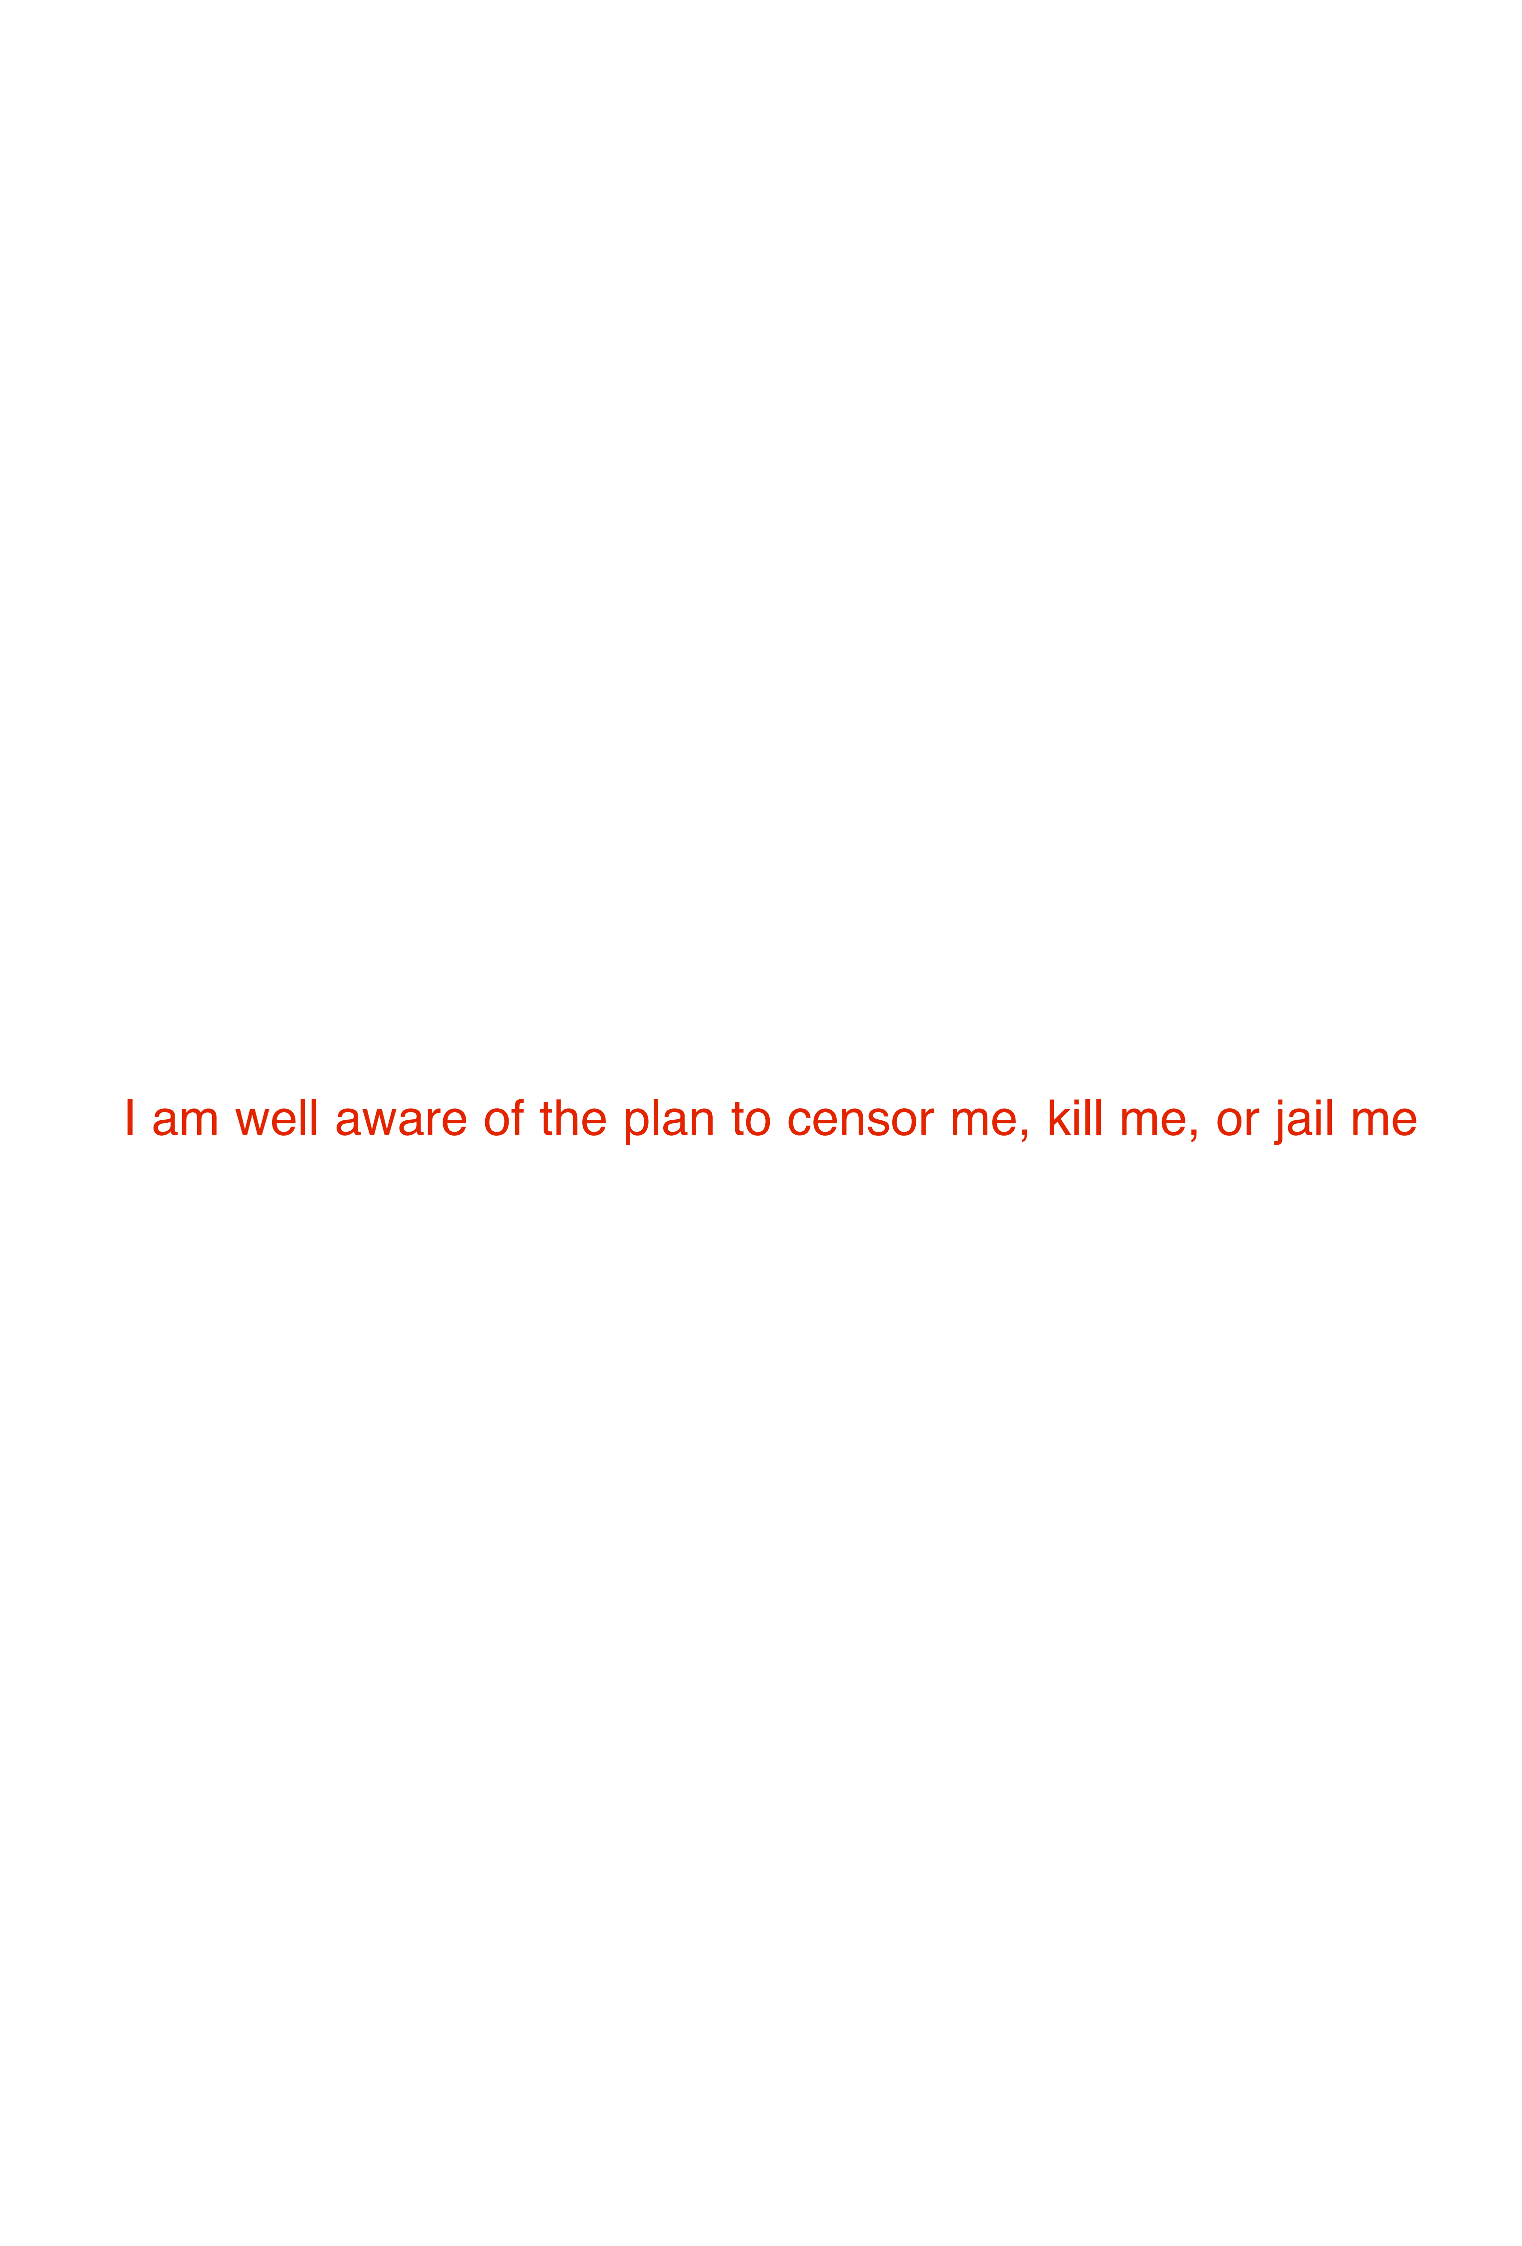

method to restrict my prosperity and set me up. It is true

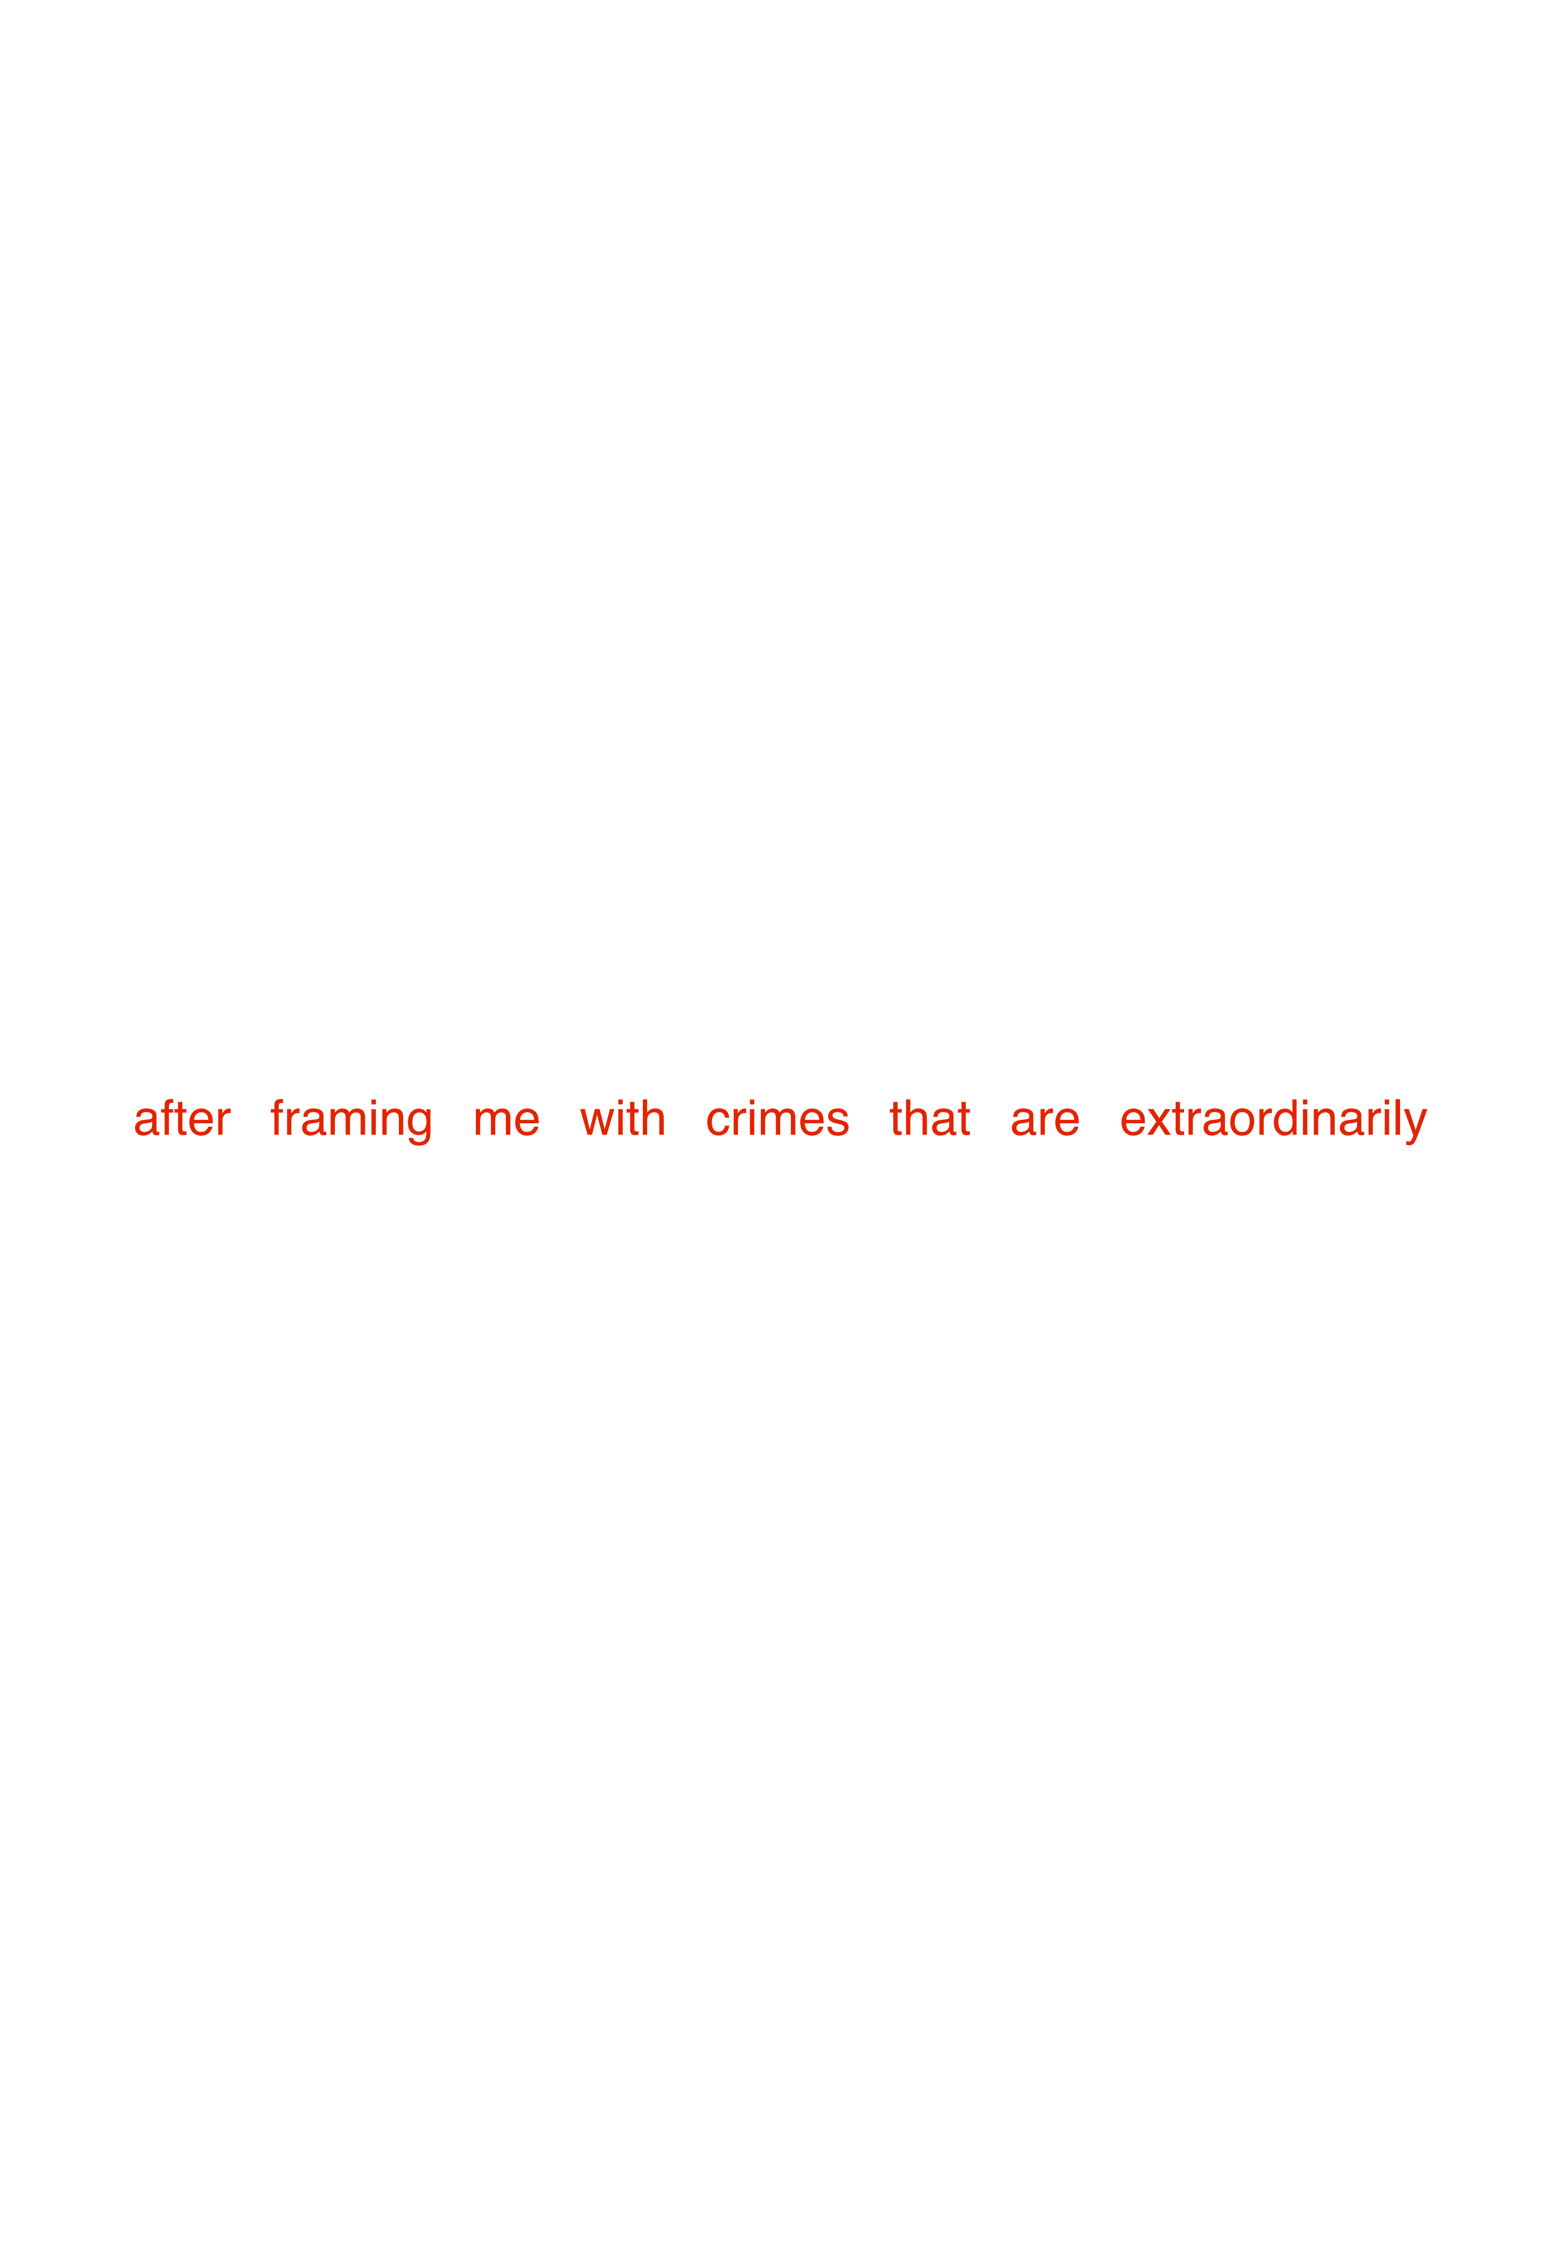

that the NDIS Minister has acted to use political privilege to

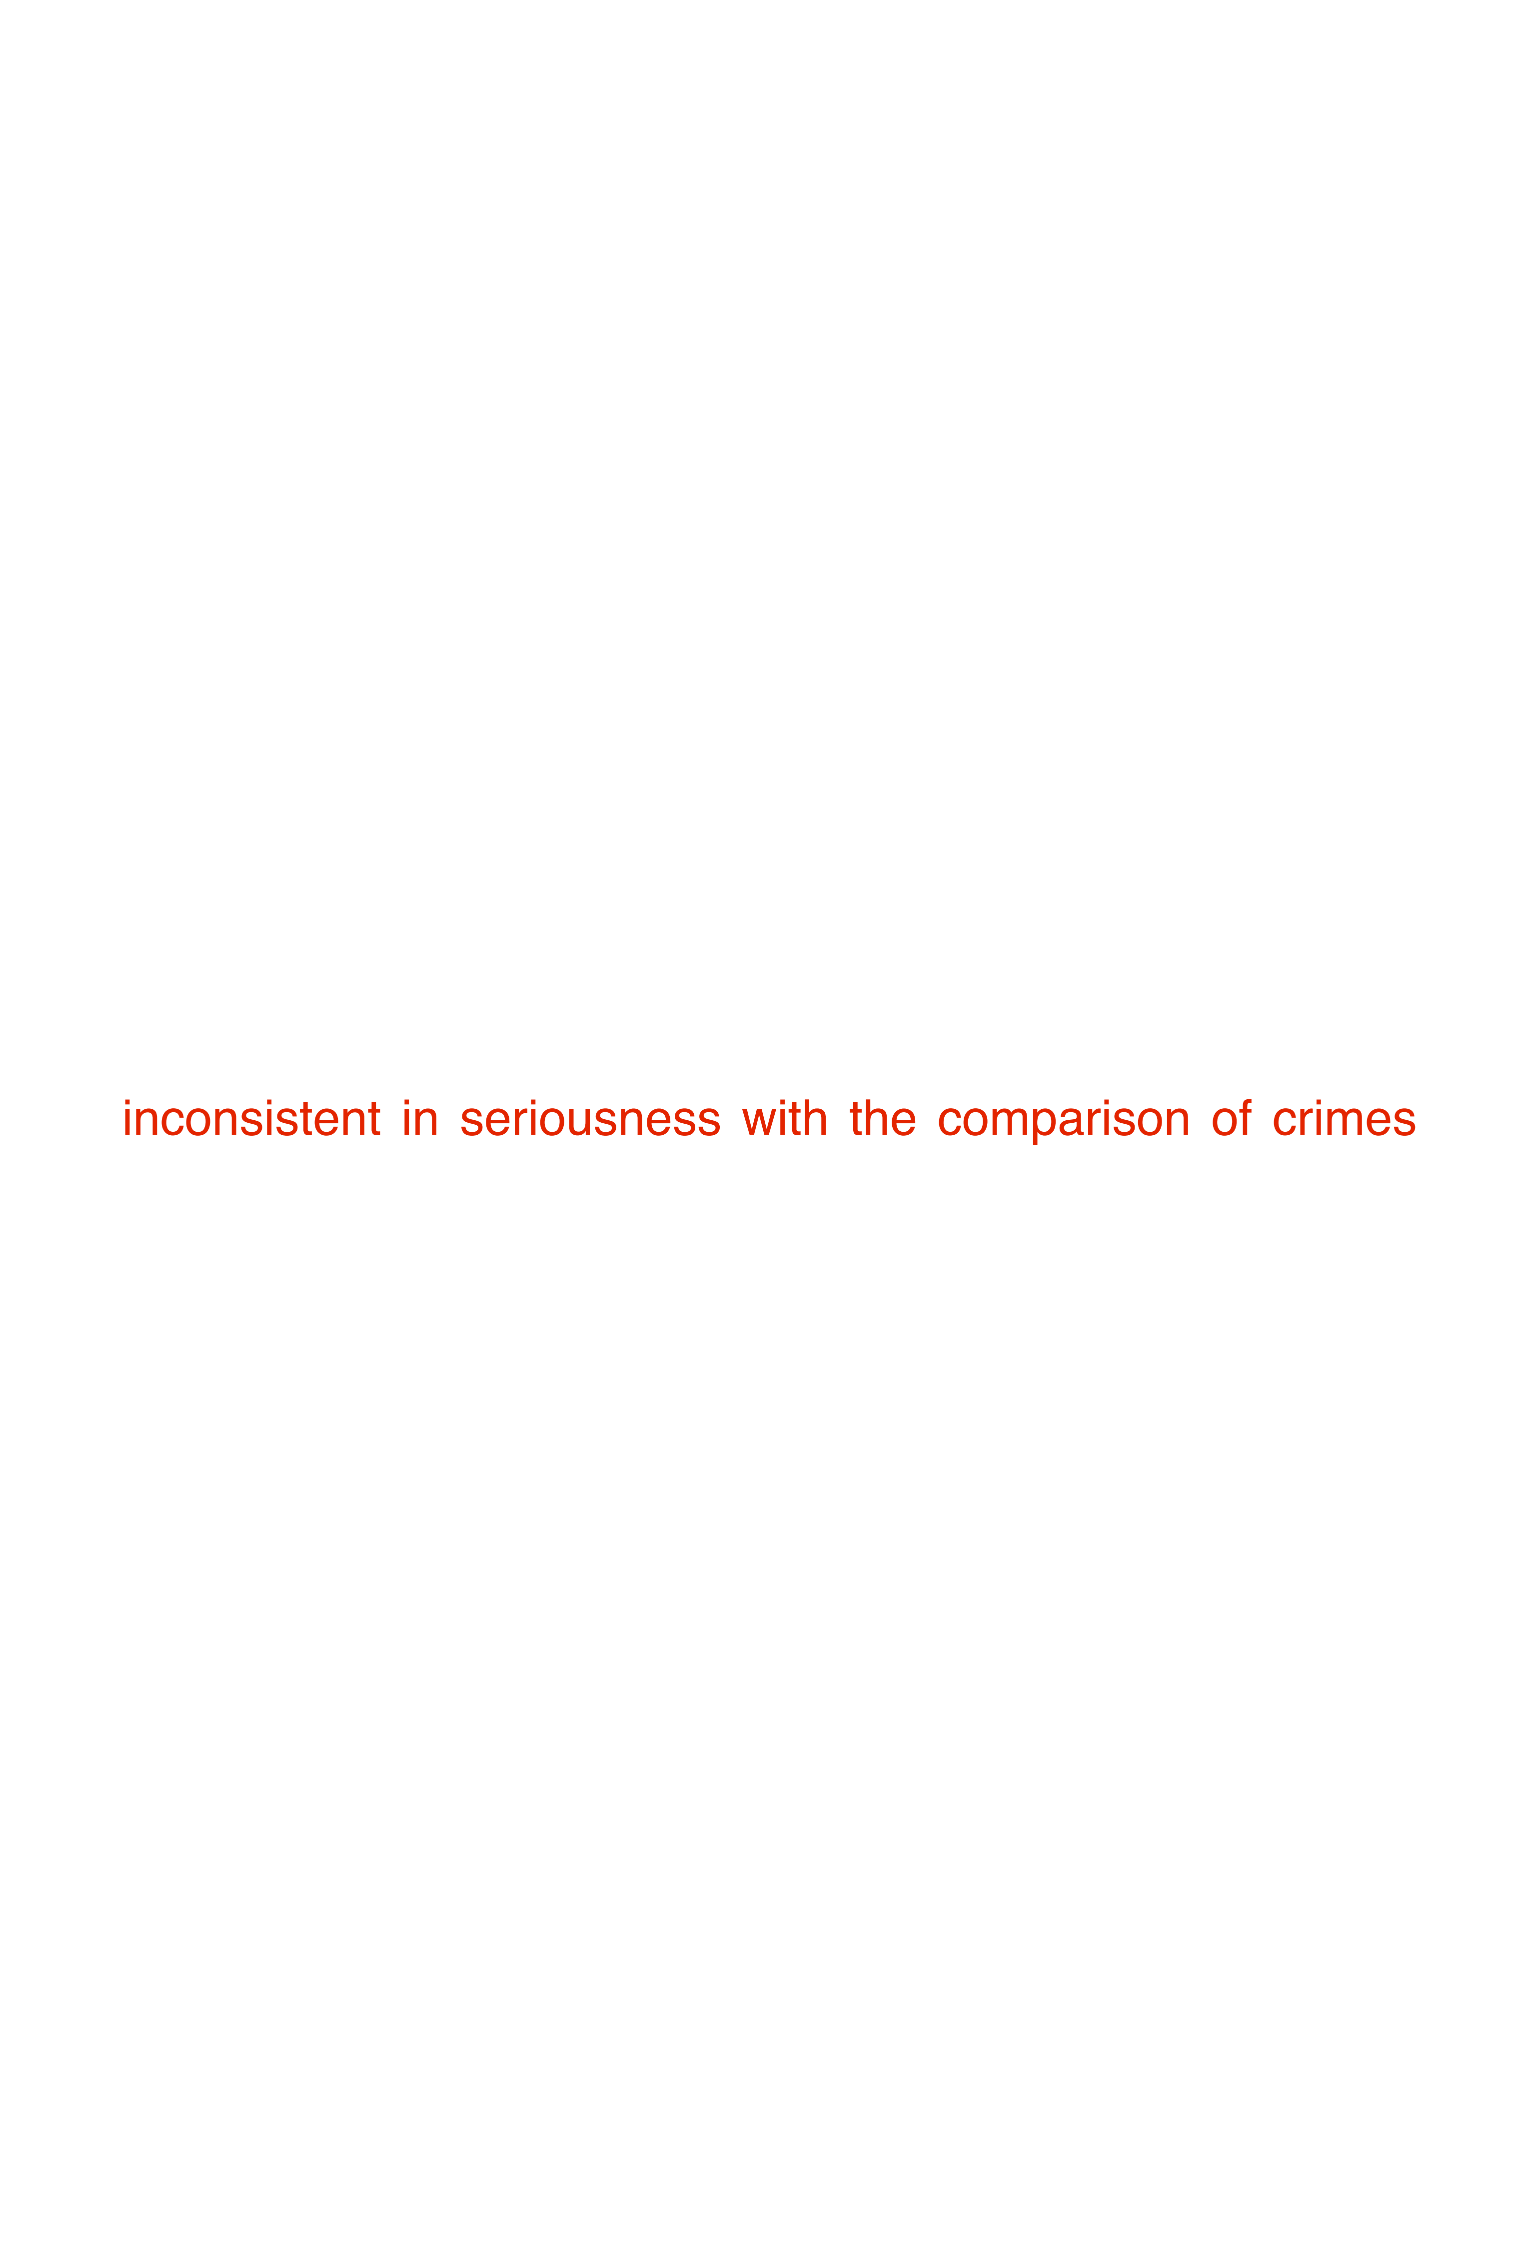

potentially jail me as a rejected whistleblower open to

political retribution and revenge.

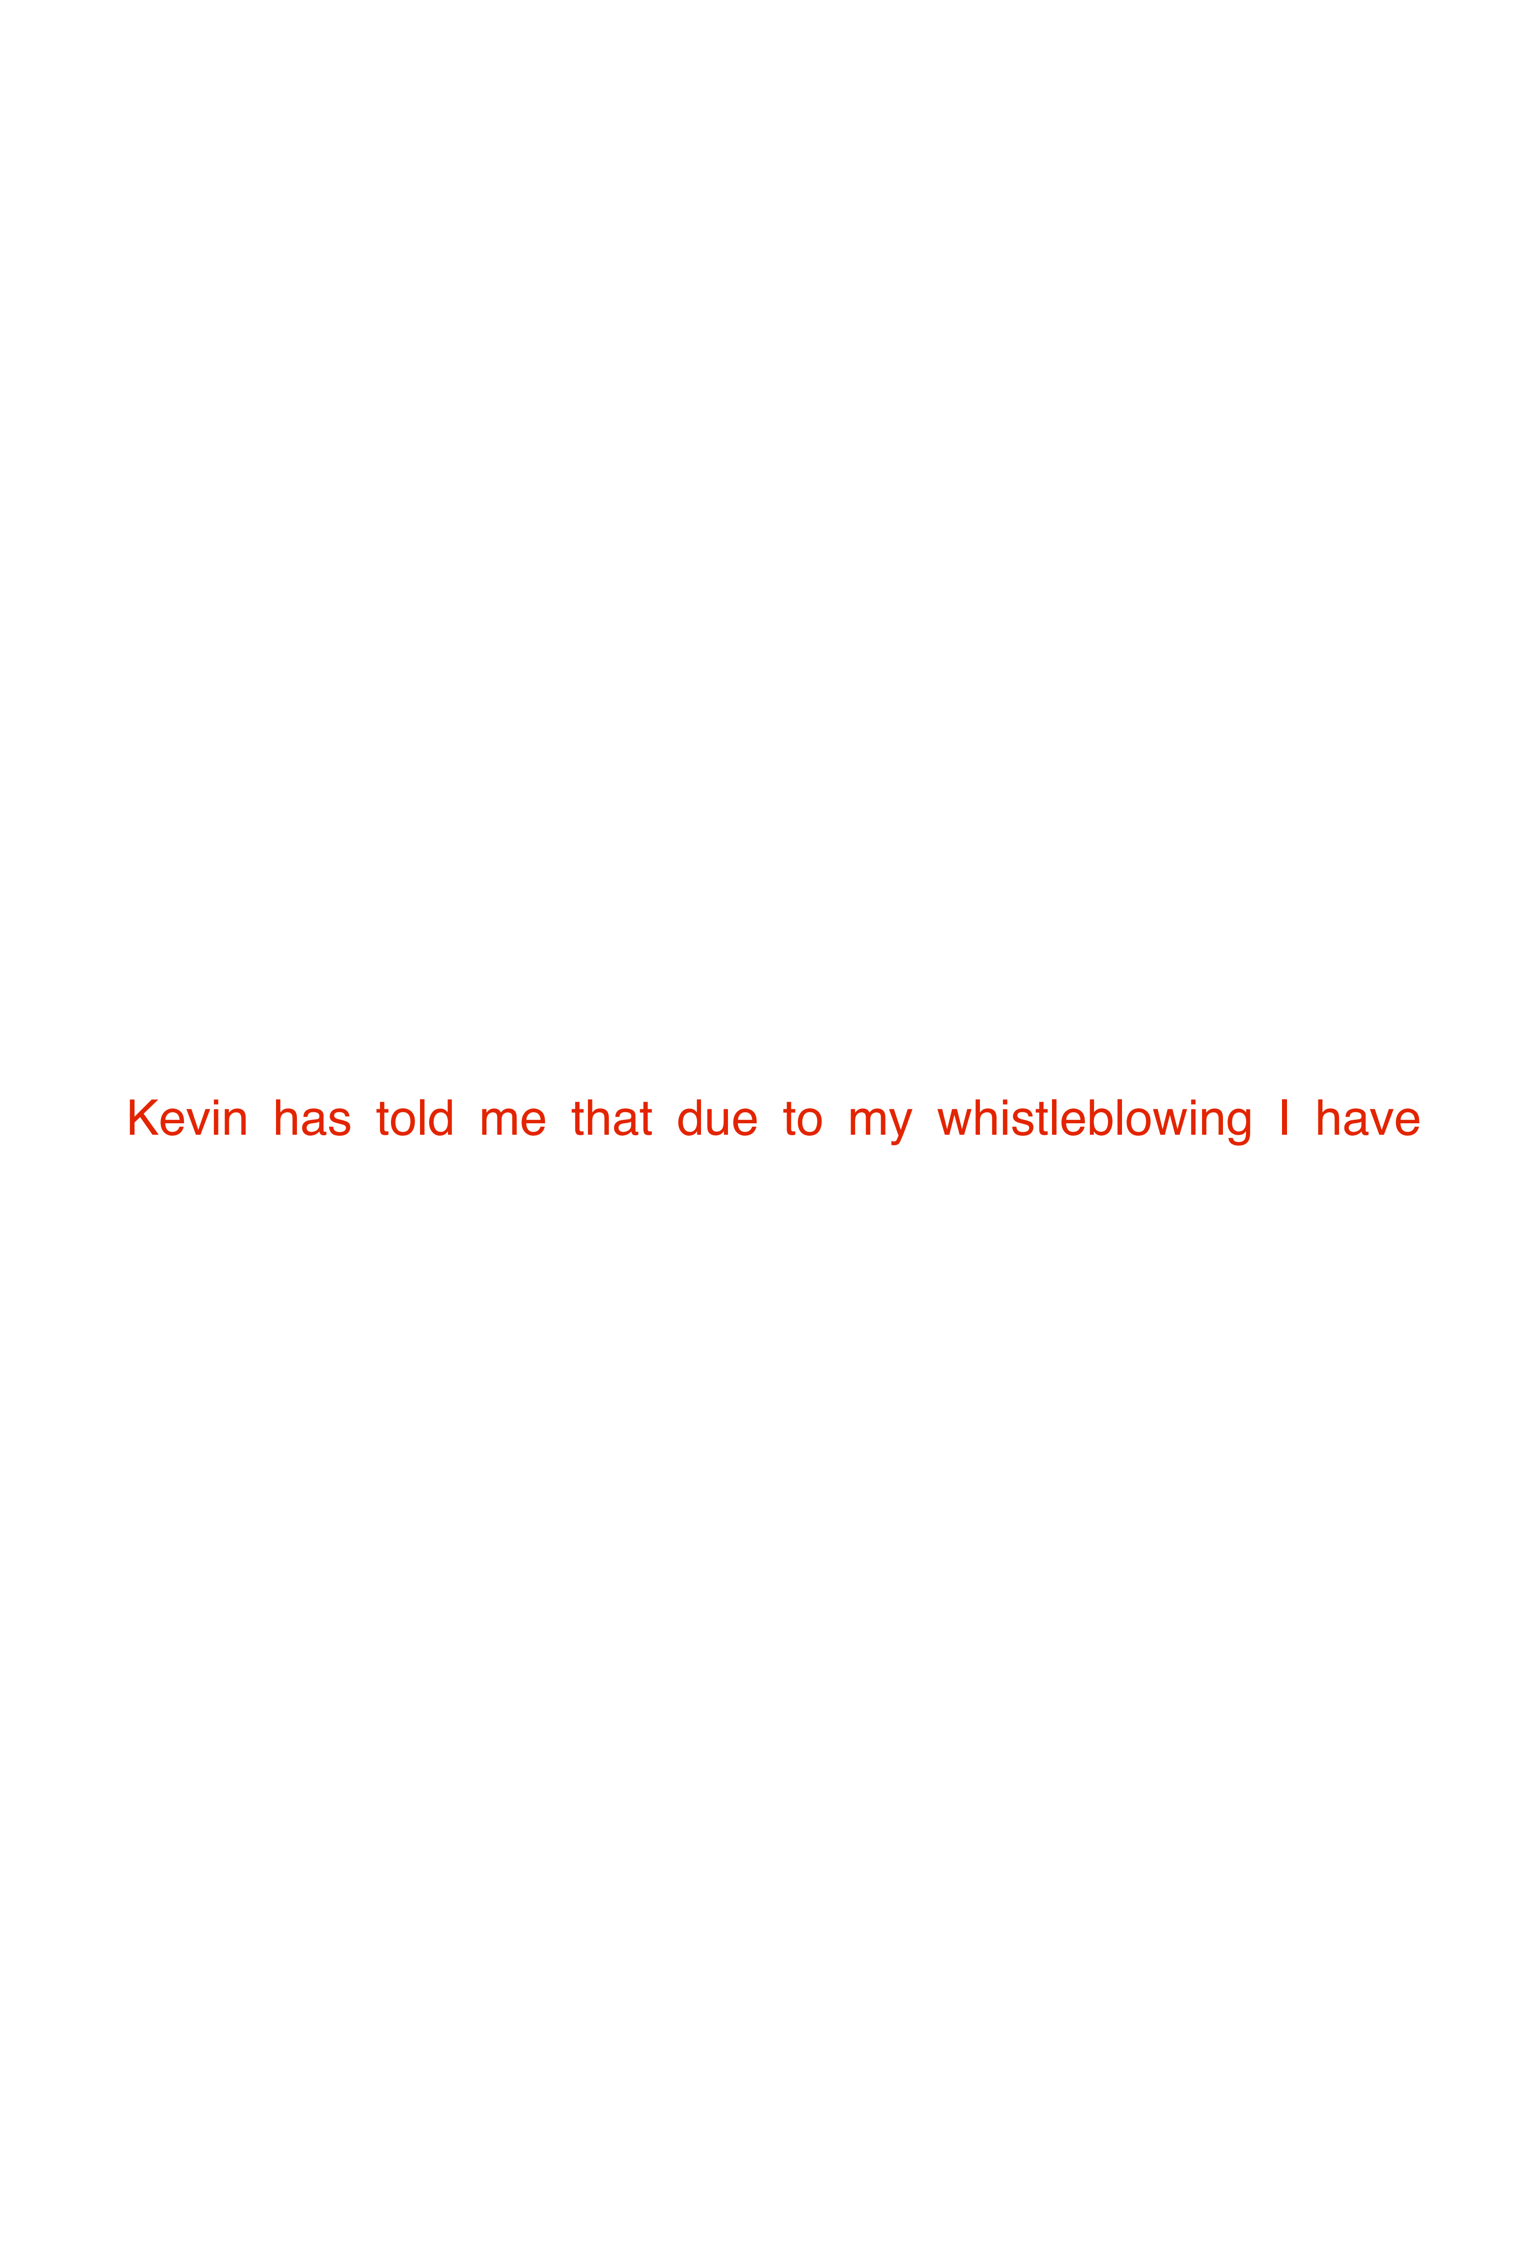

I am well aware of the plan to censor me, kill me, or jail me

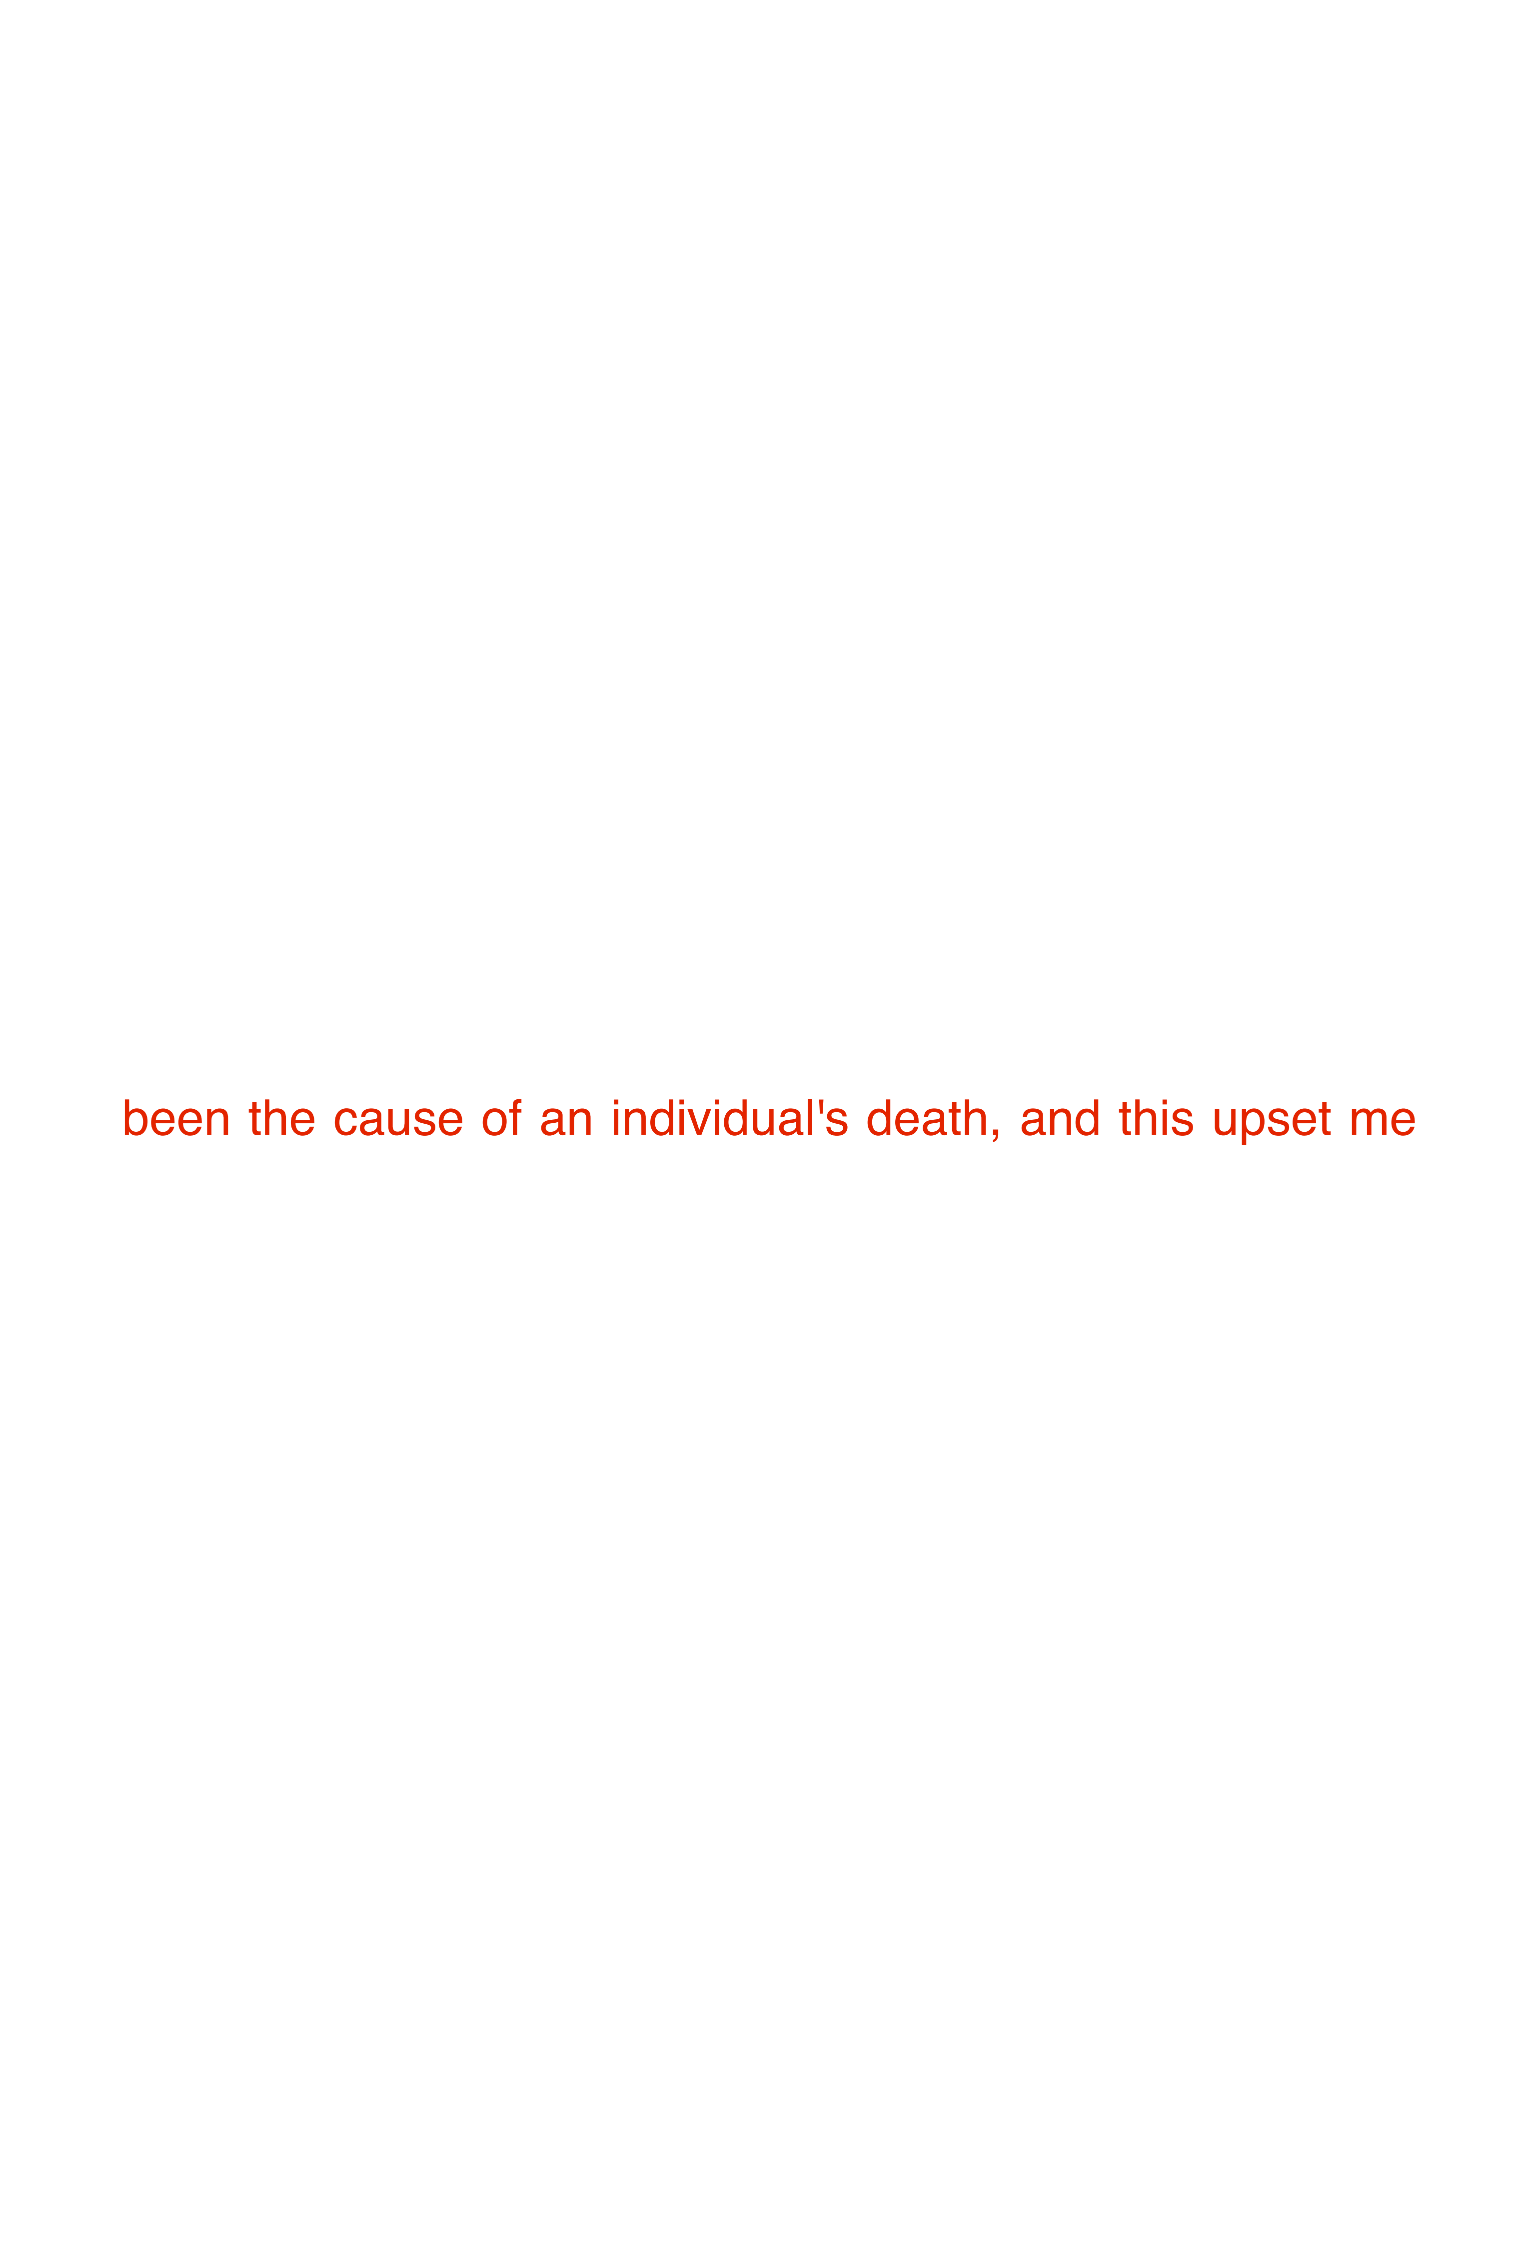

after framing me with crimes that are extraordinarily

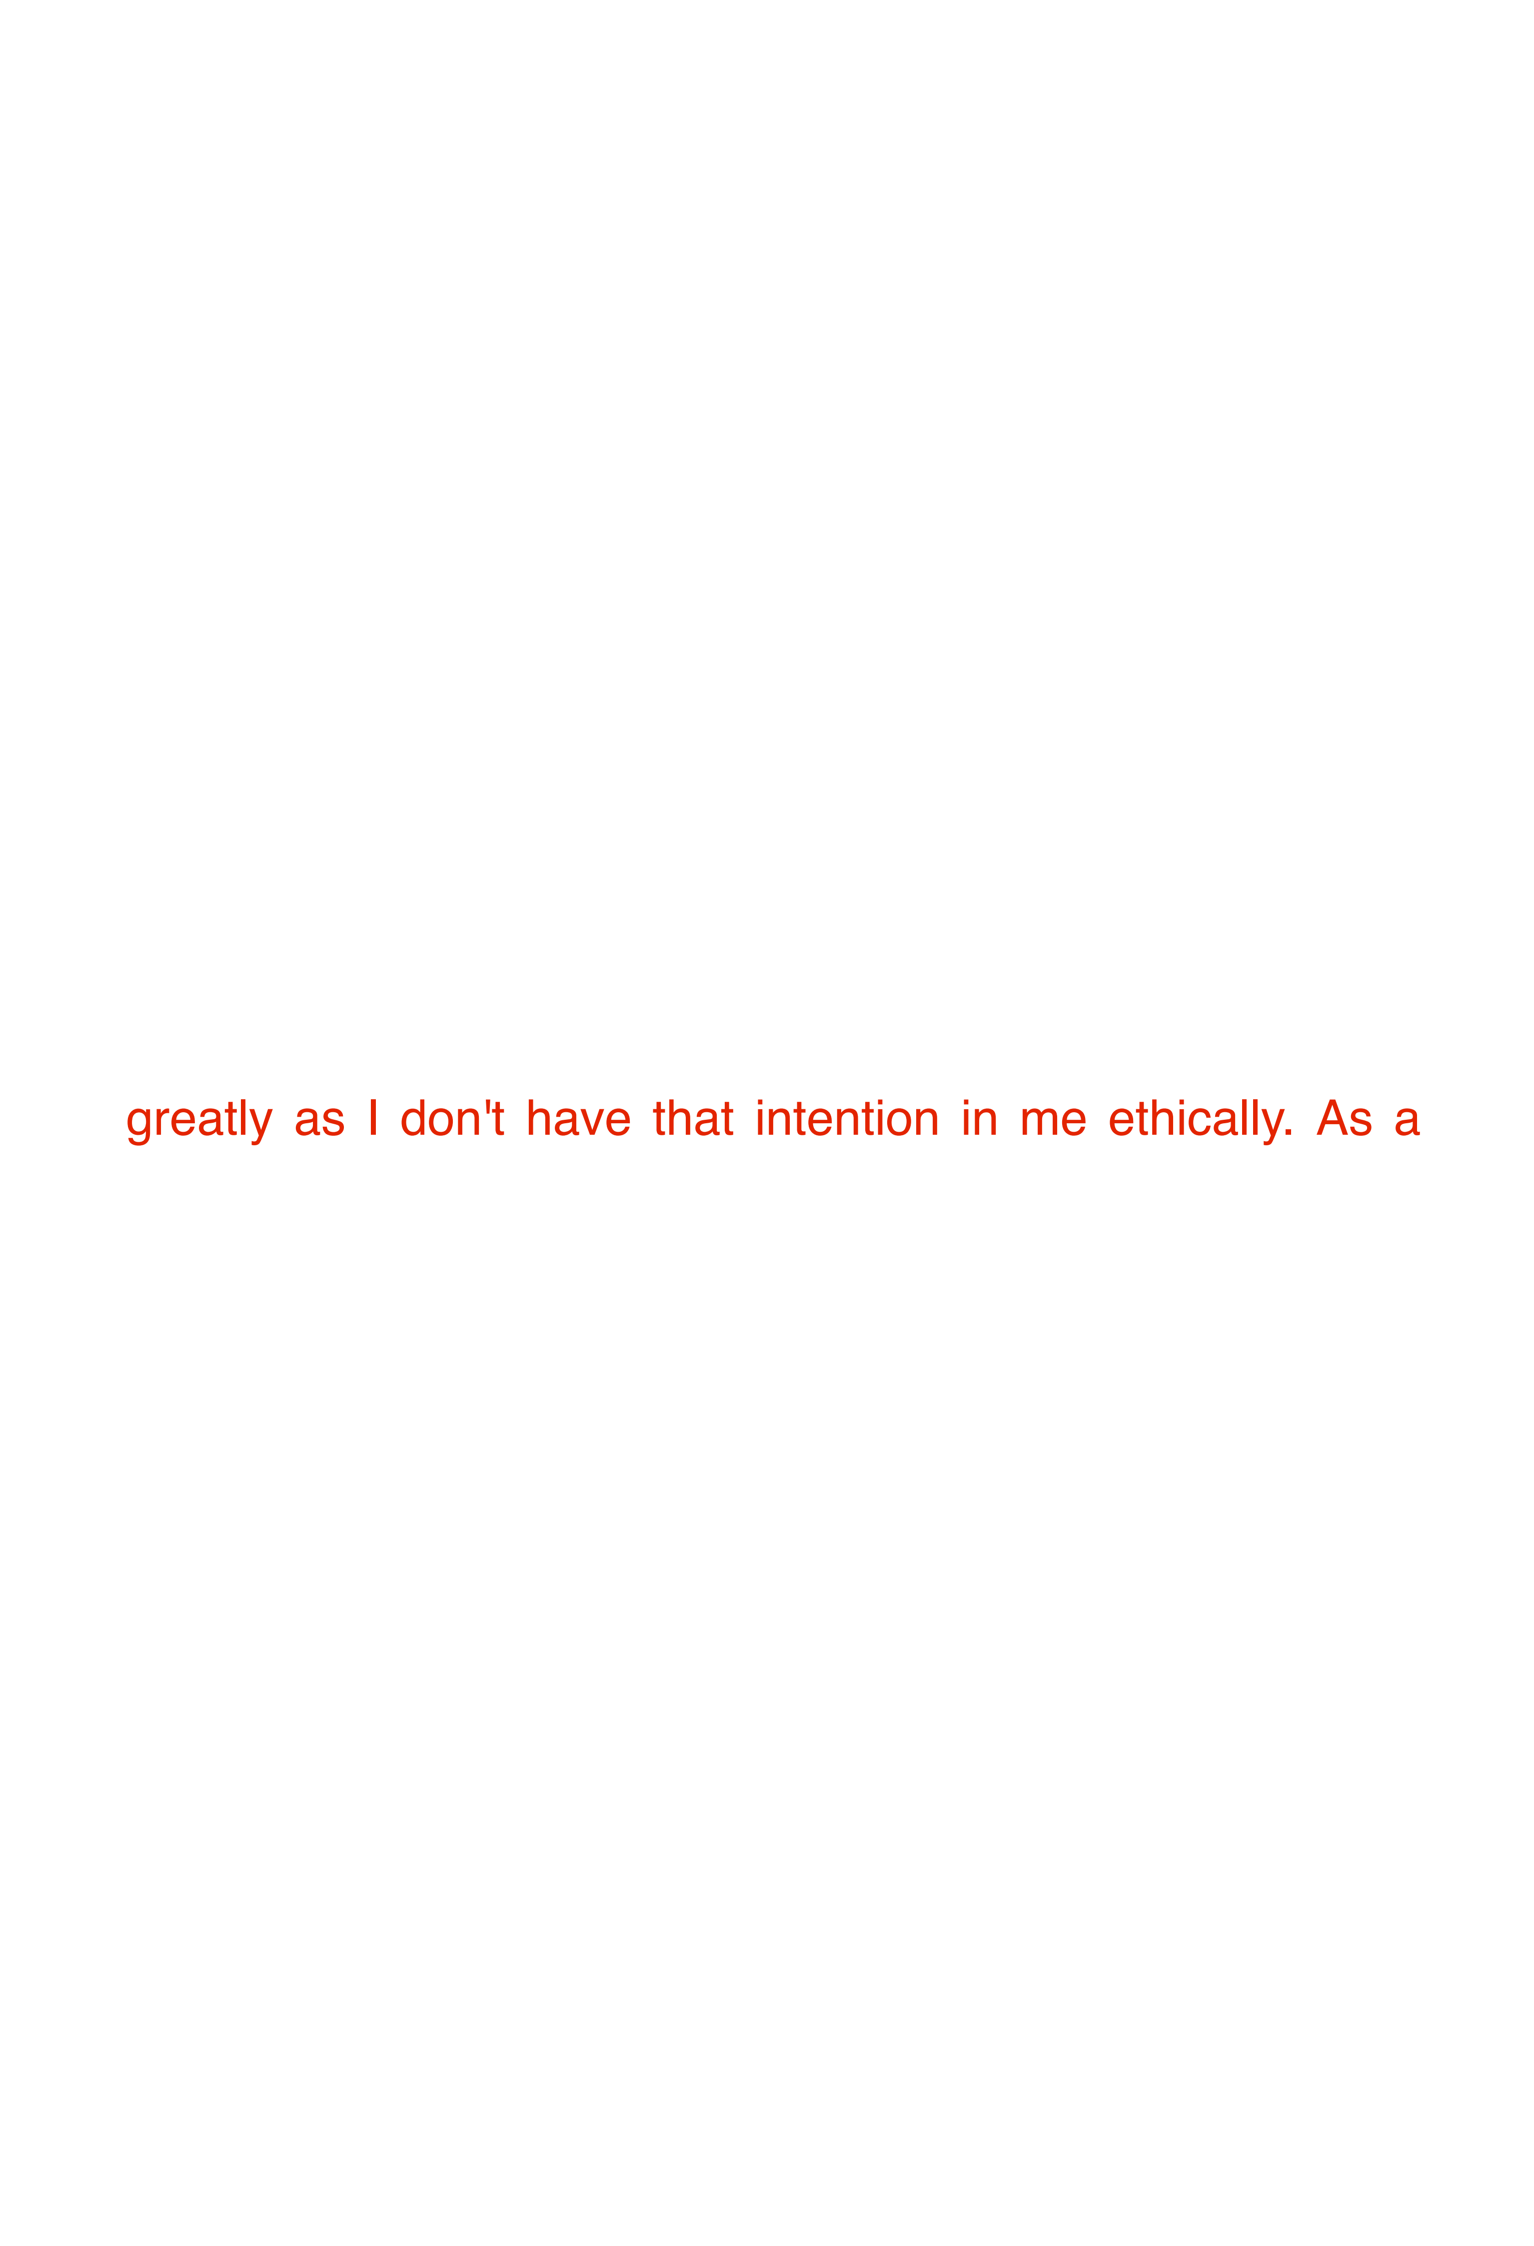

inconsistent in seriousness with the comparison of crimes

that have been perpetrated against me including being the

subject of a human sacrifice.

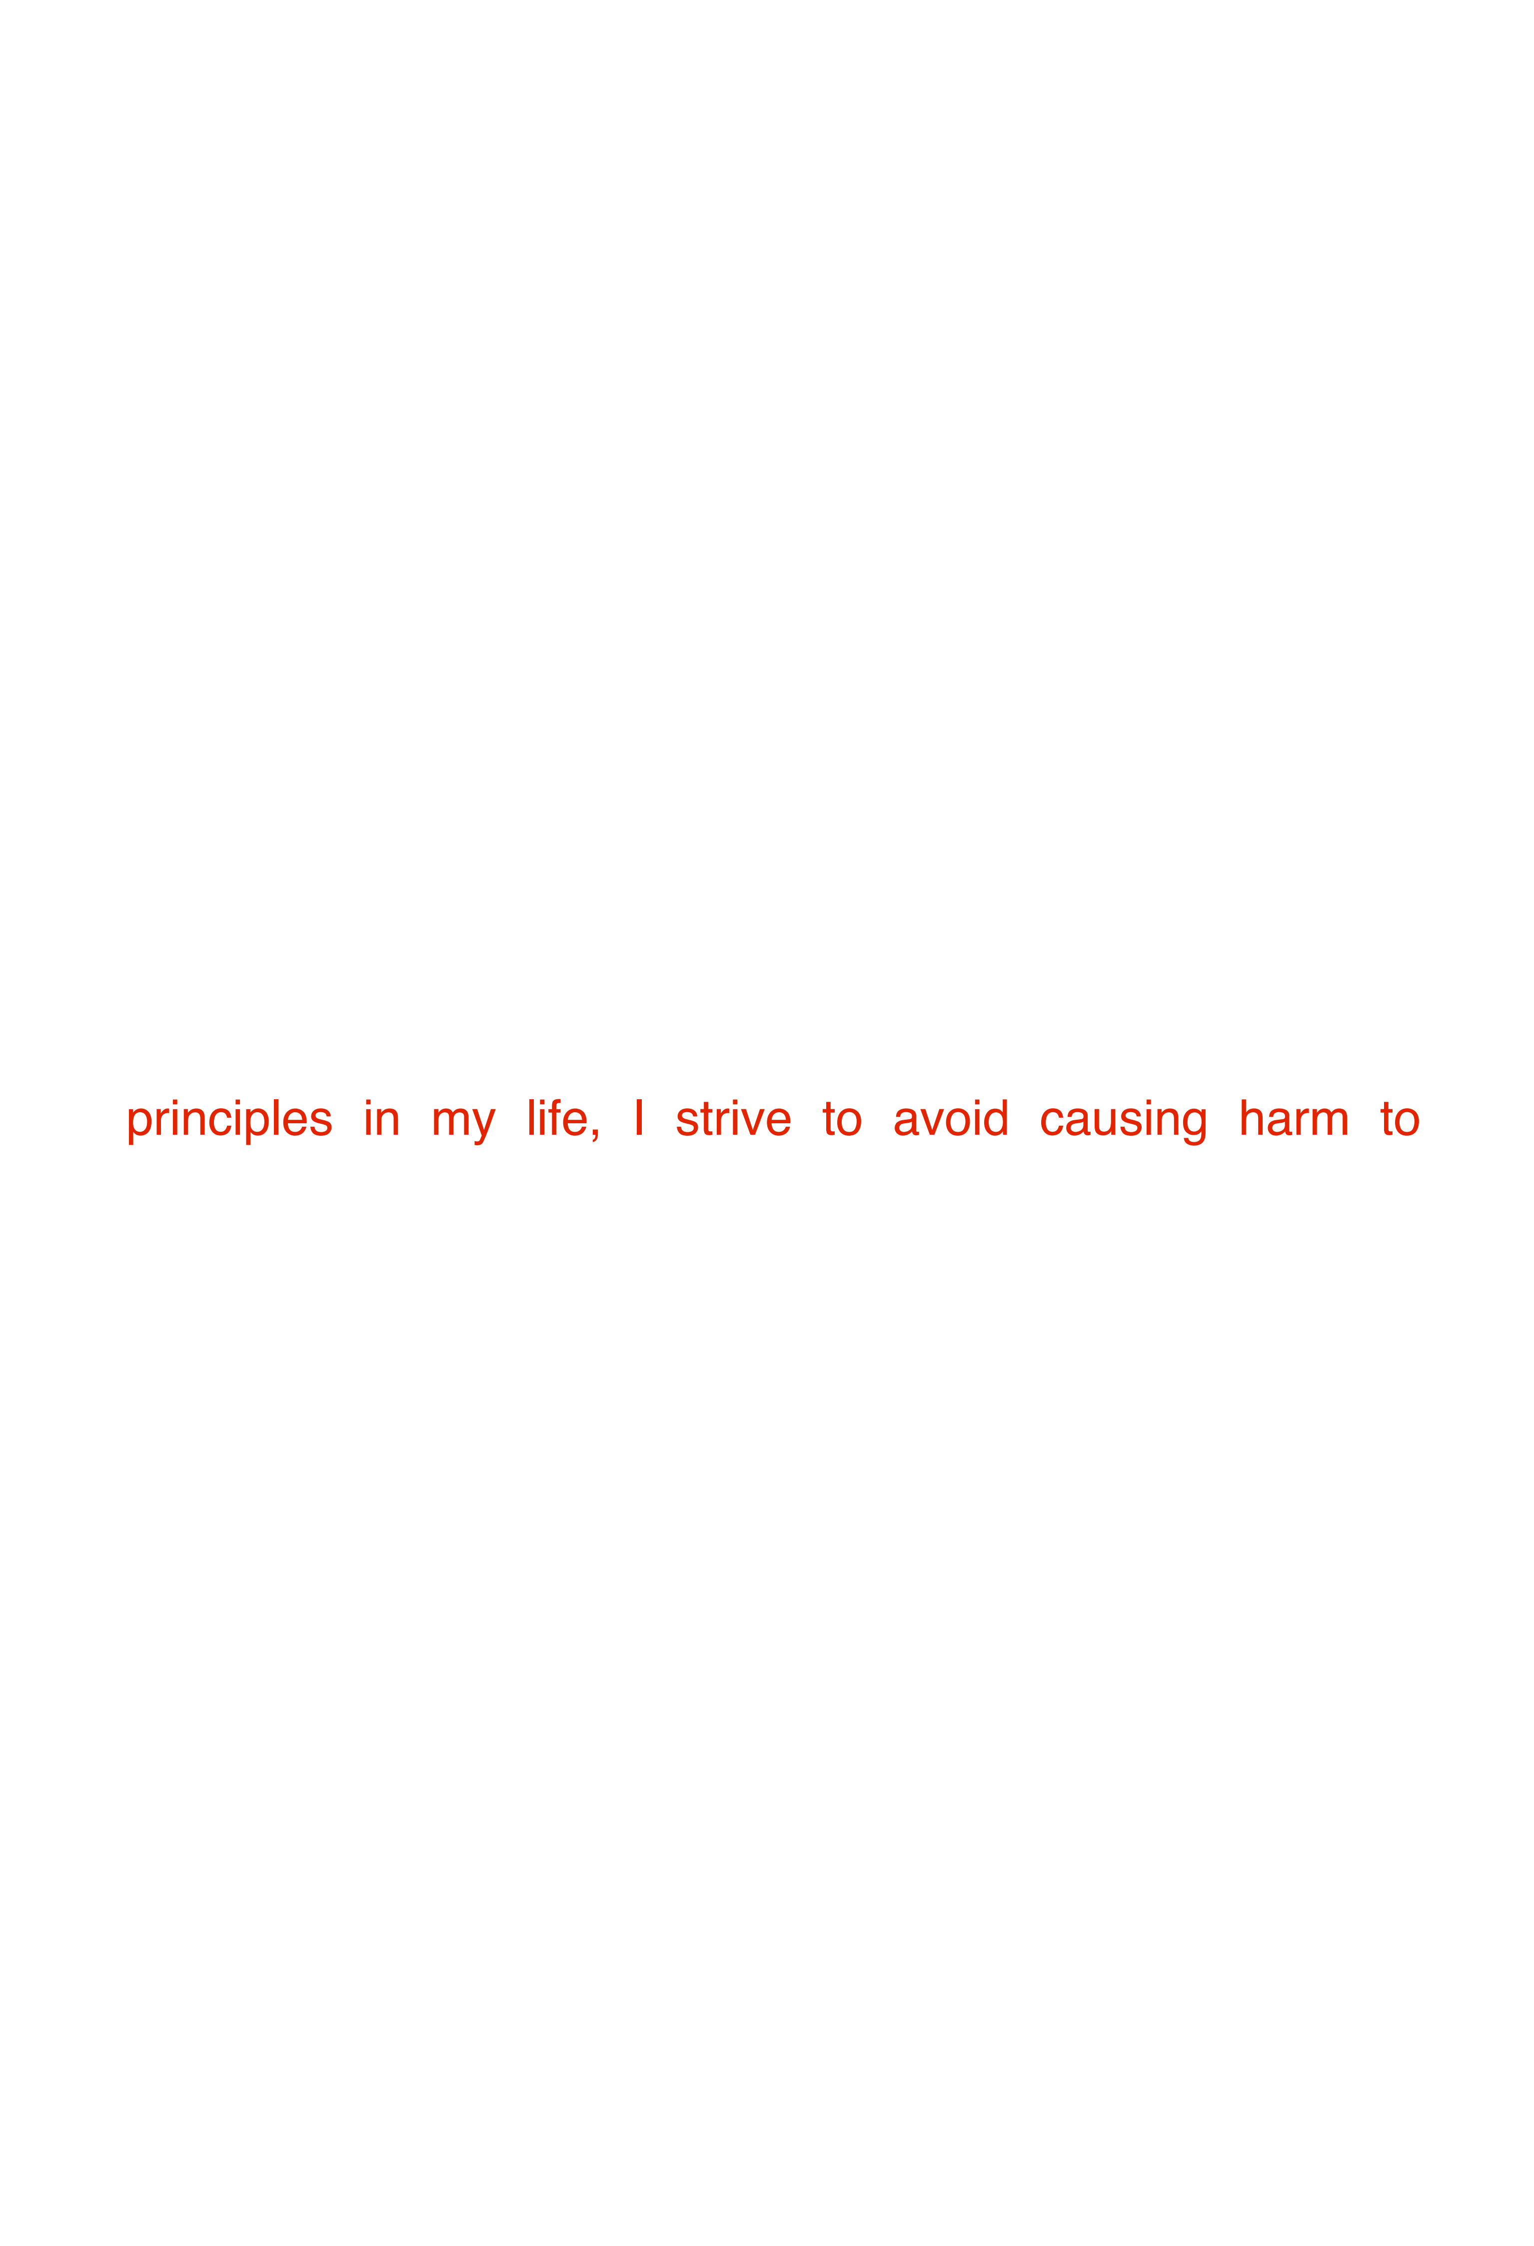

Kevin has told me that due to my whistleblowing I have

been the cause of an individual's death, and this upset me

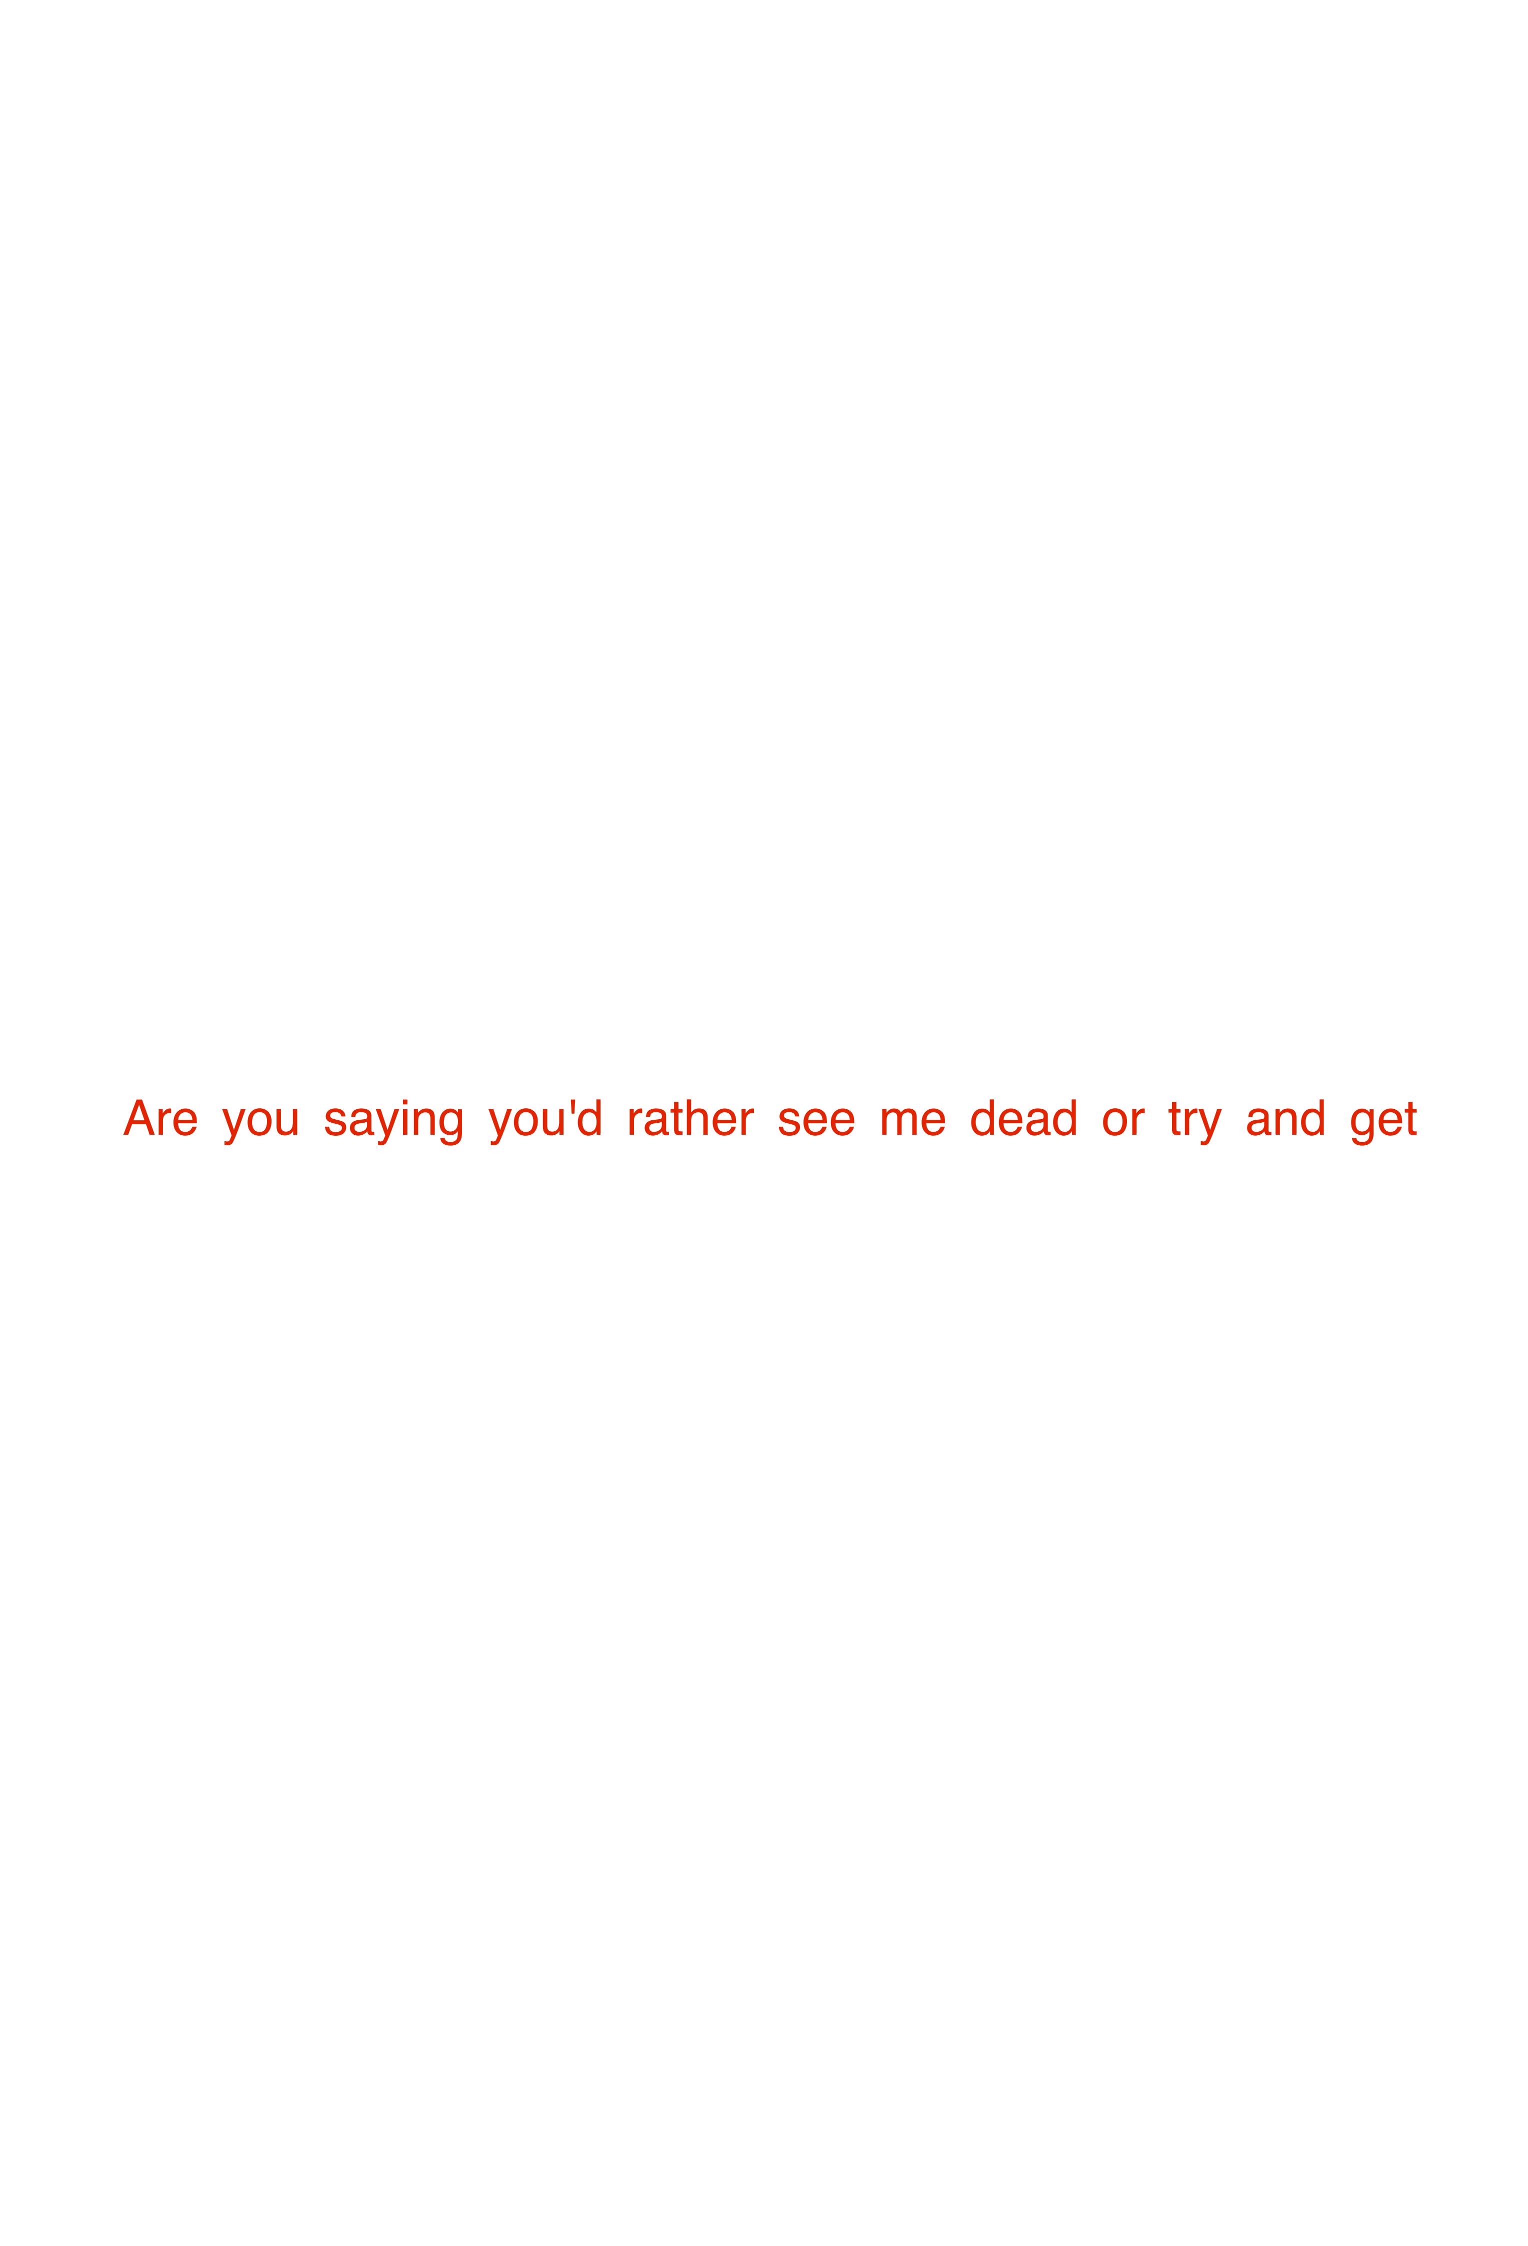

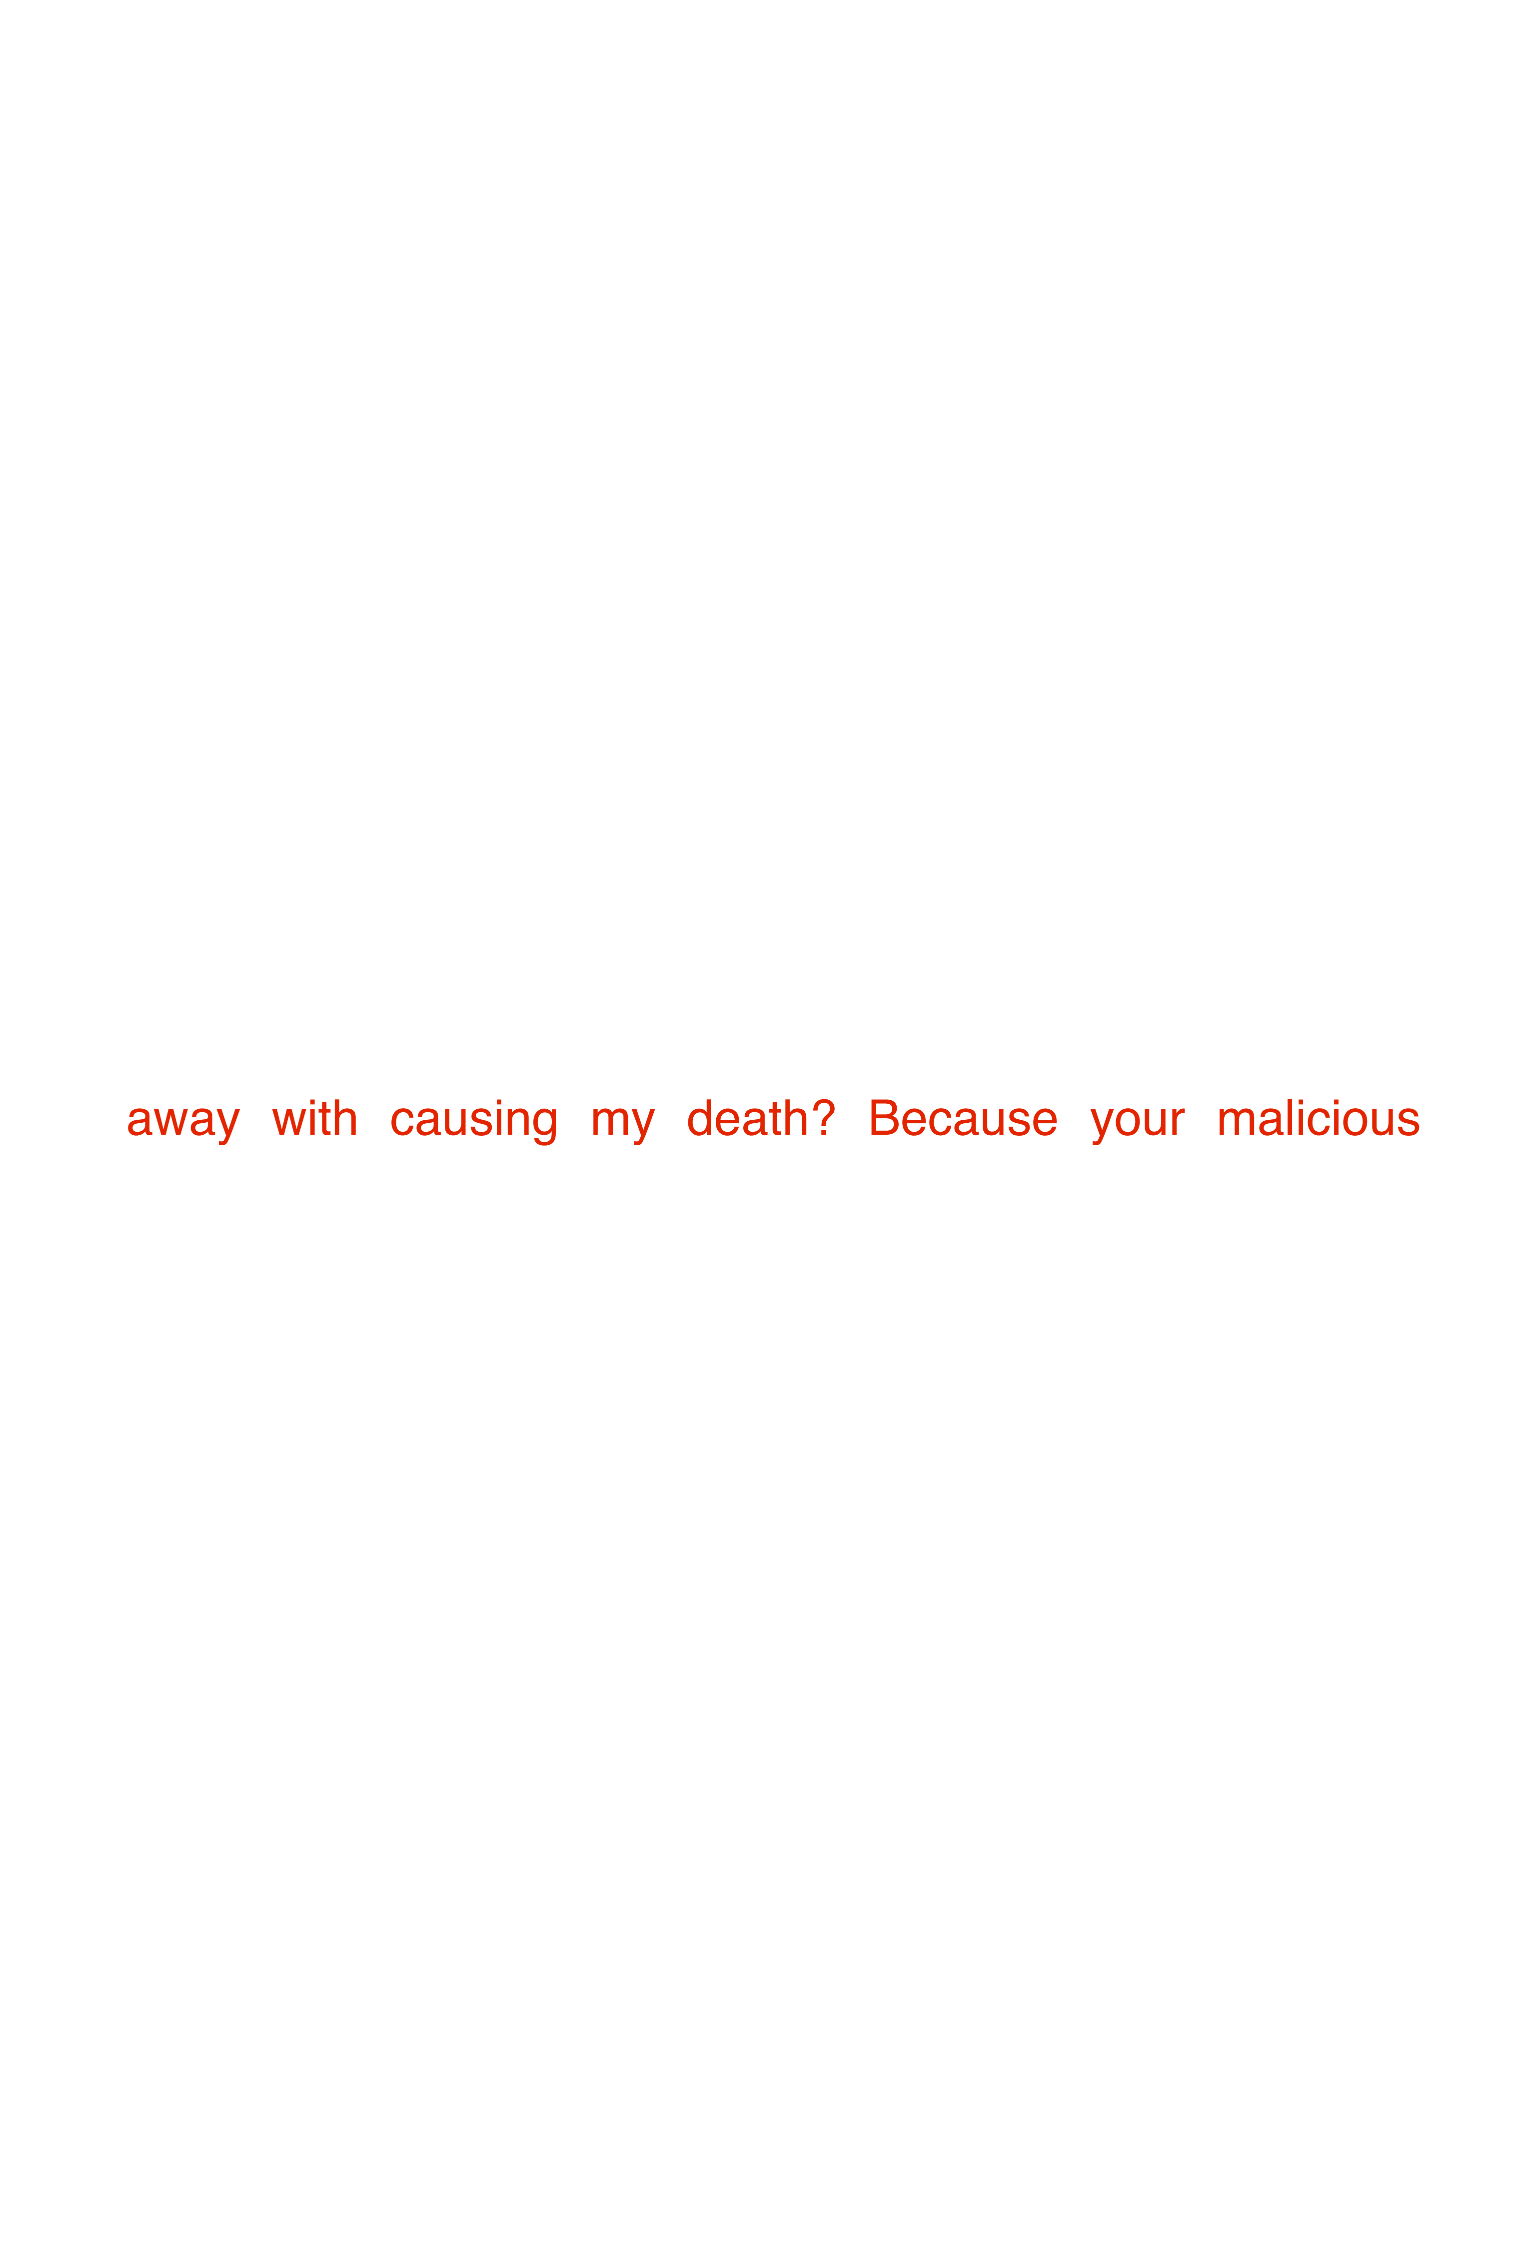

greatly as I don't have that intention in me ethically. As a

secular ethicist who aligns with non-violent Buddhist

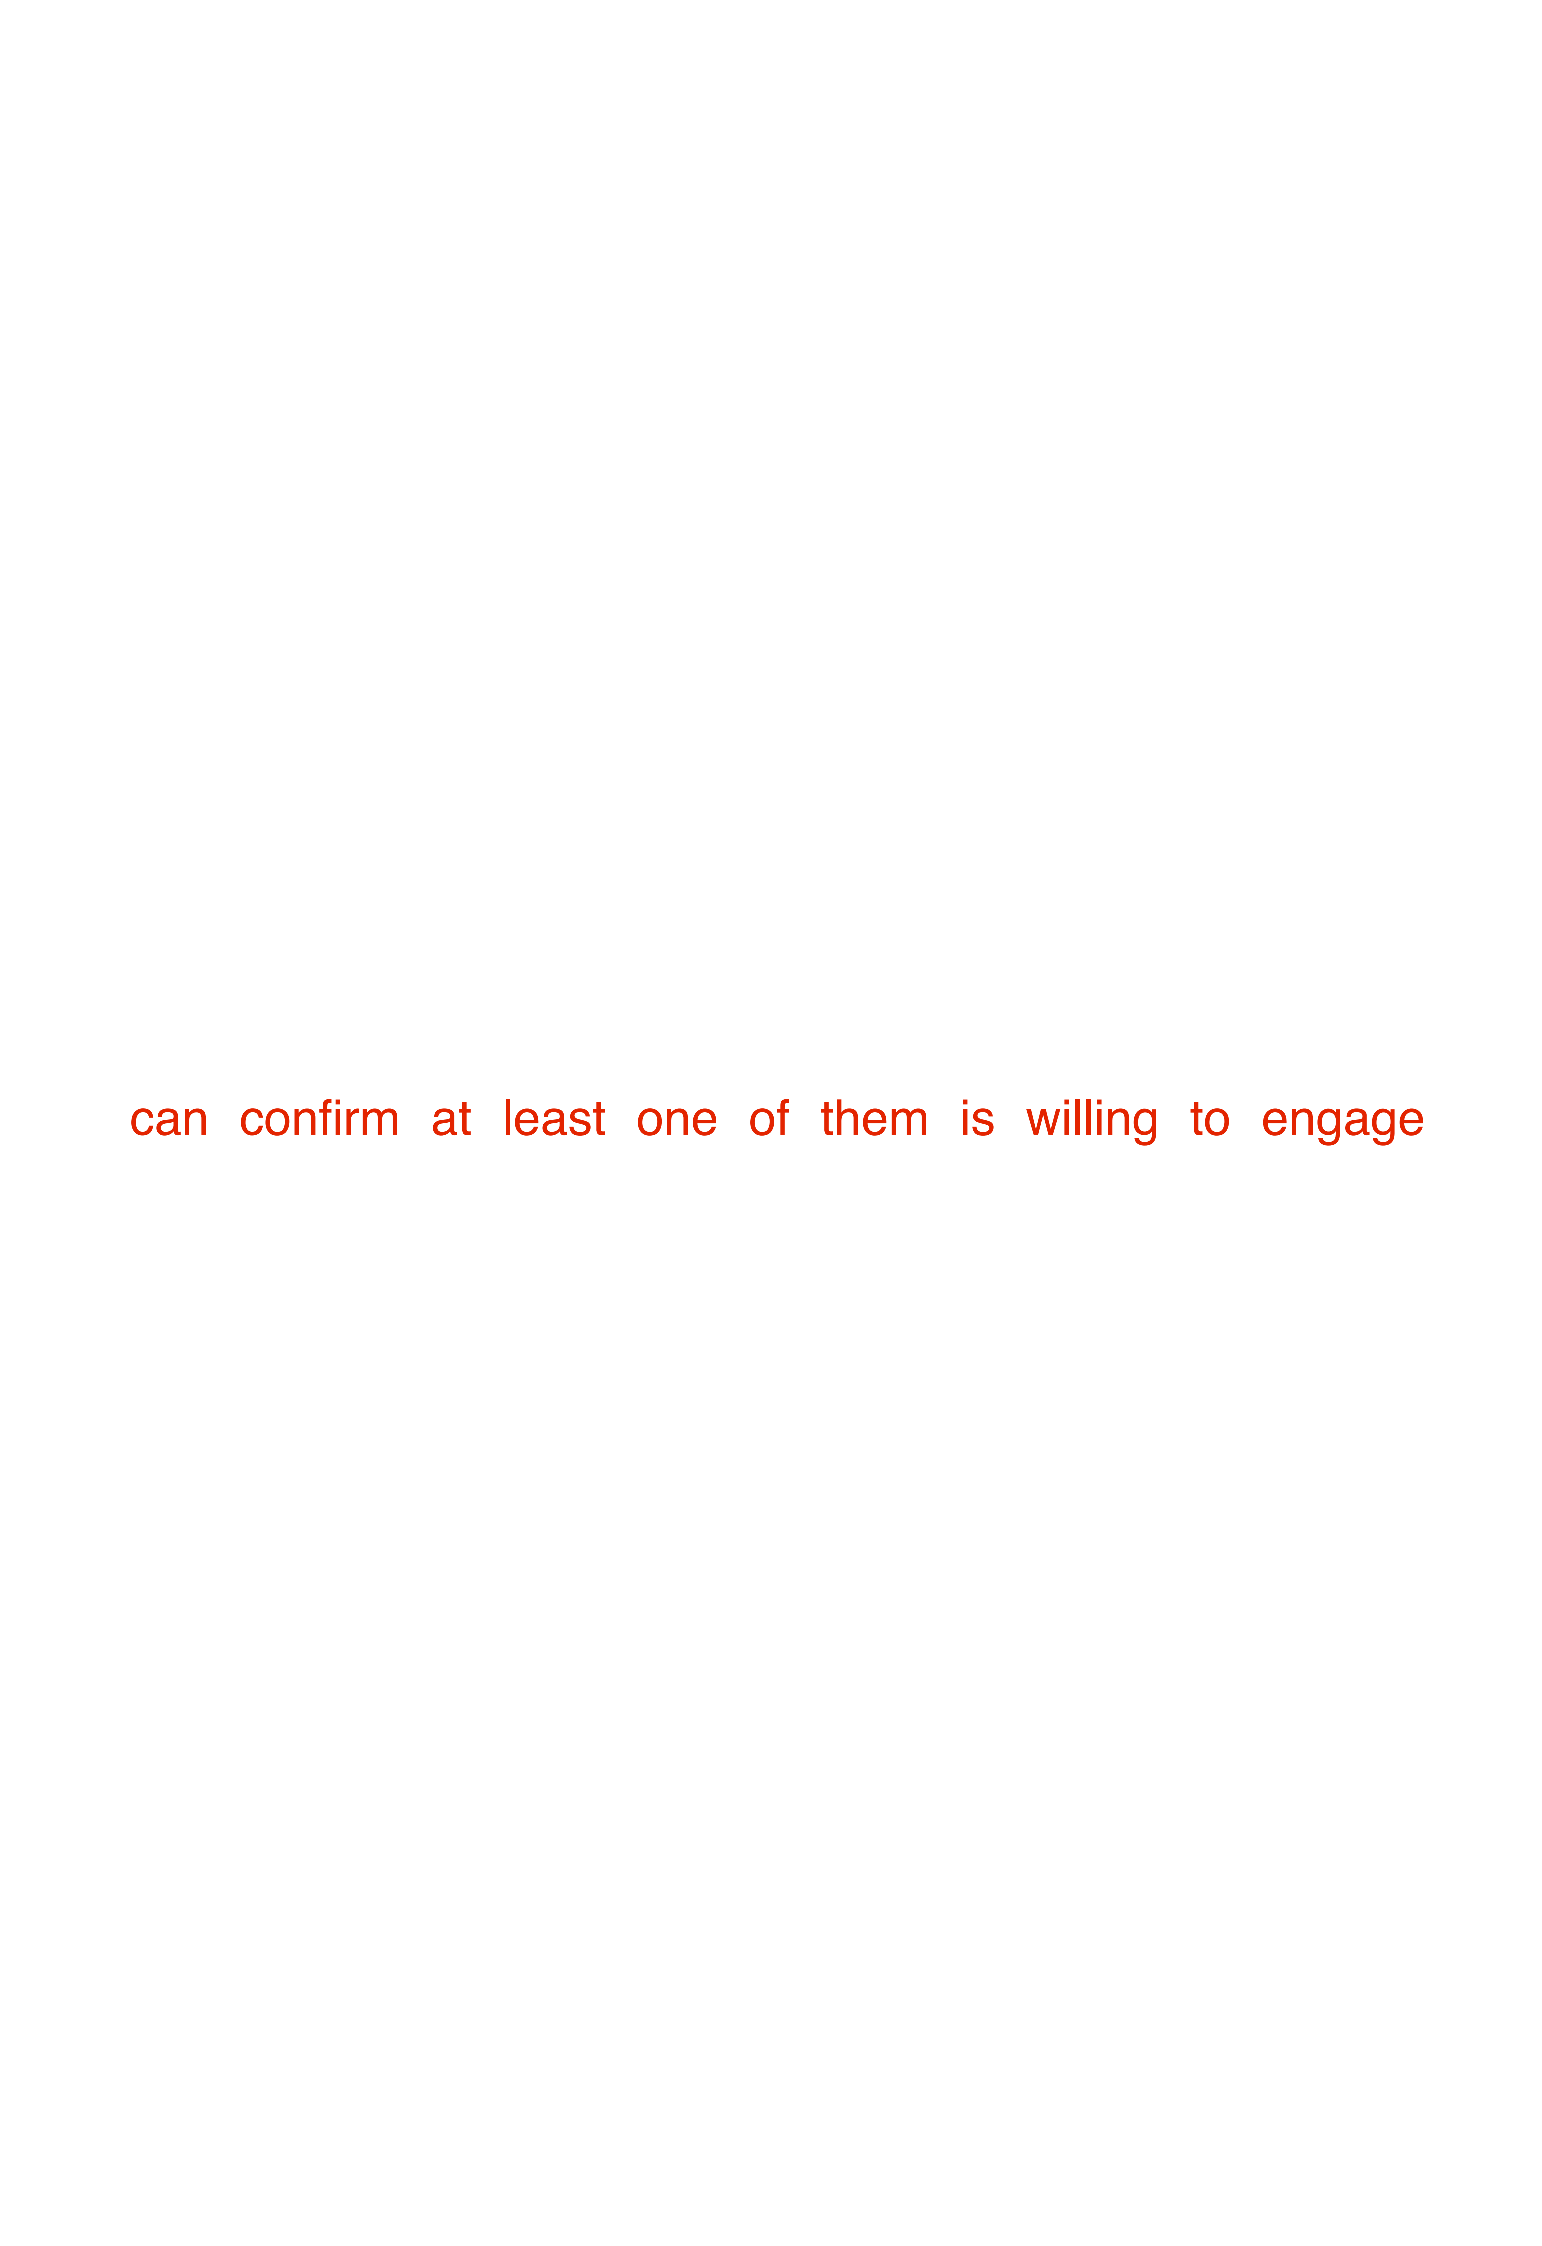

principles in my life, I strive to avoid causing harm to

others.

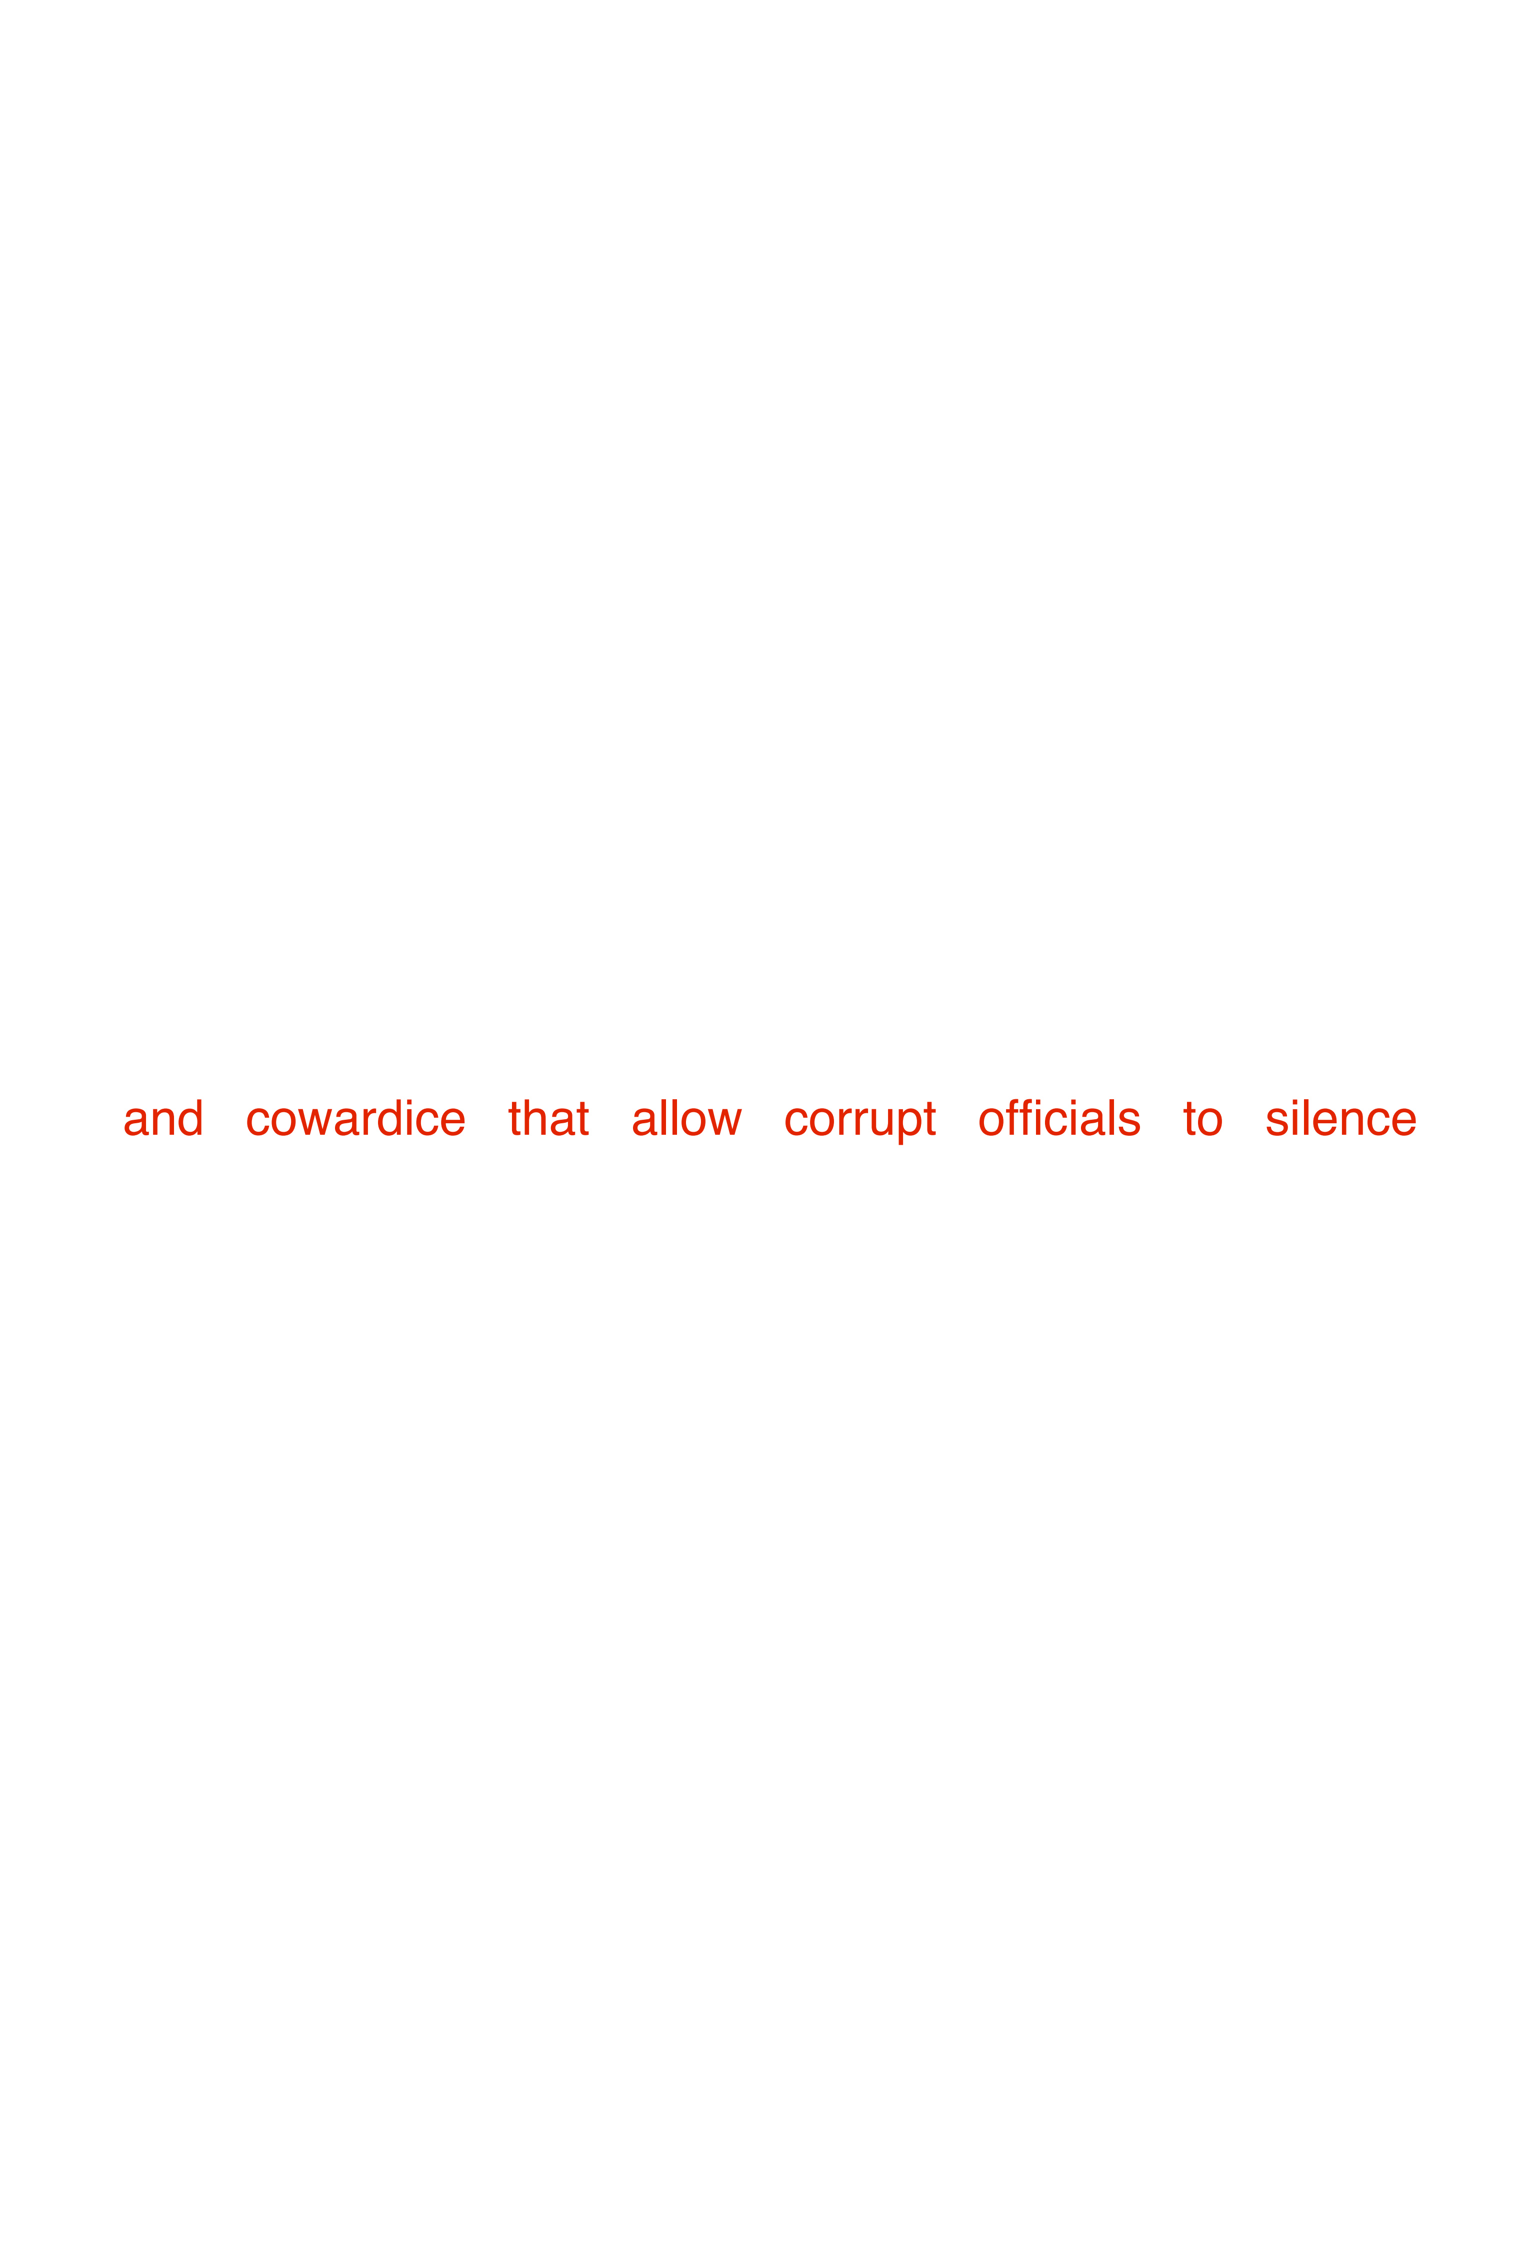

Are you saying you'd rather see me dead or try and get

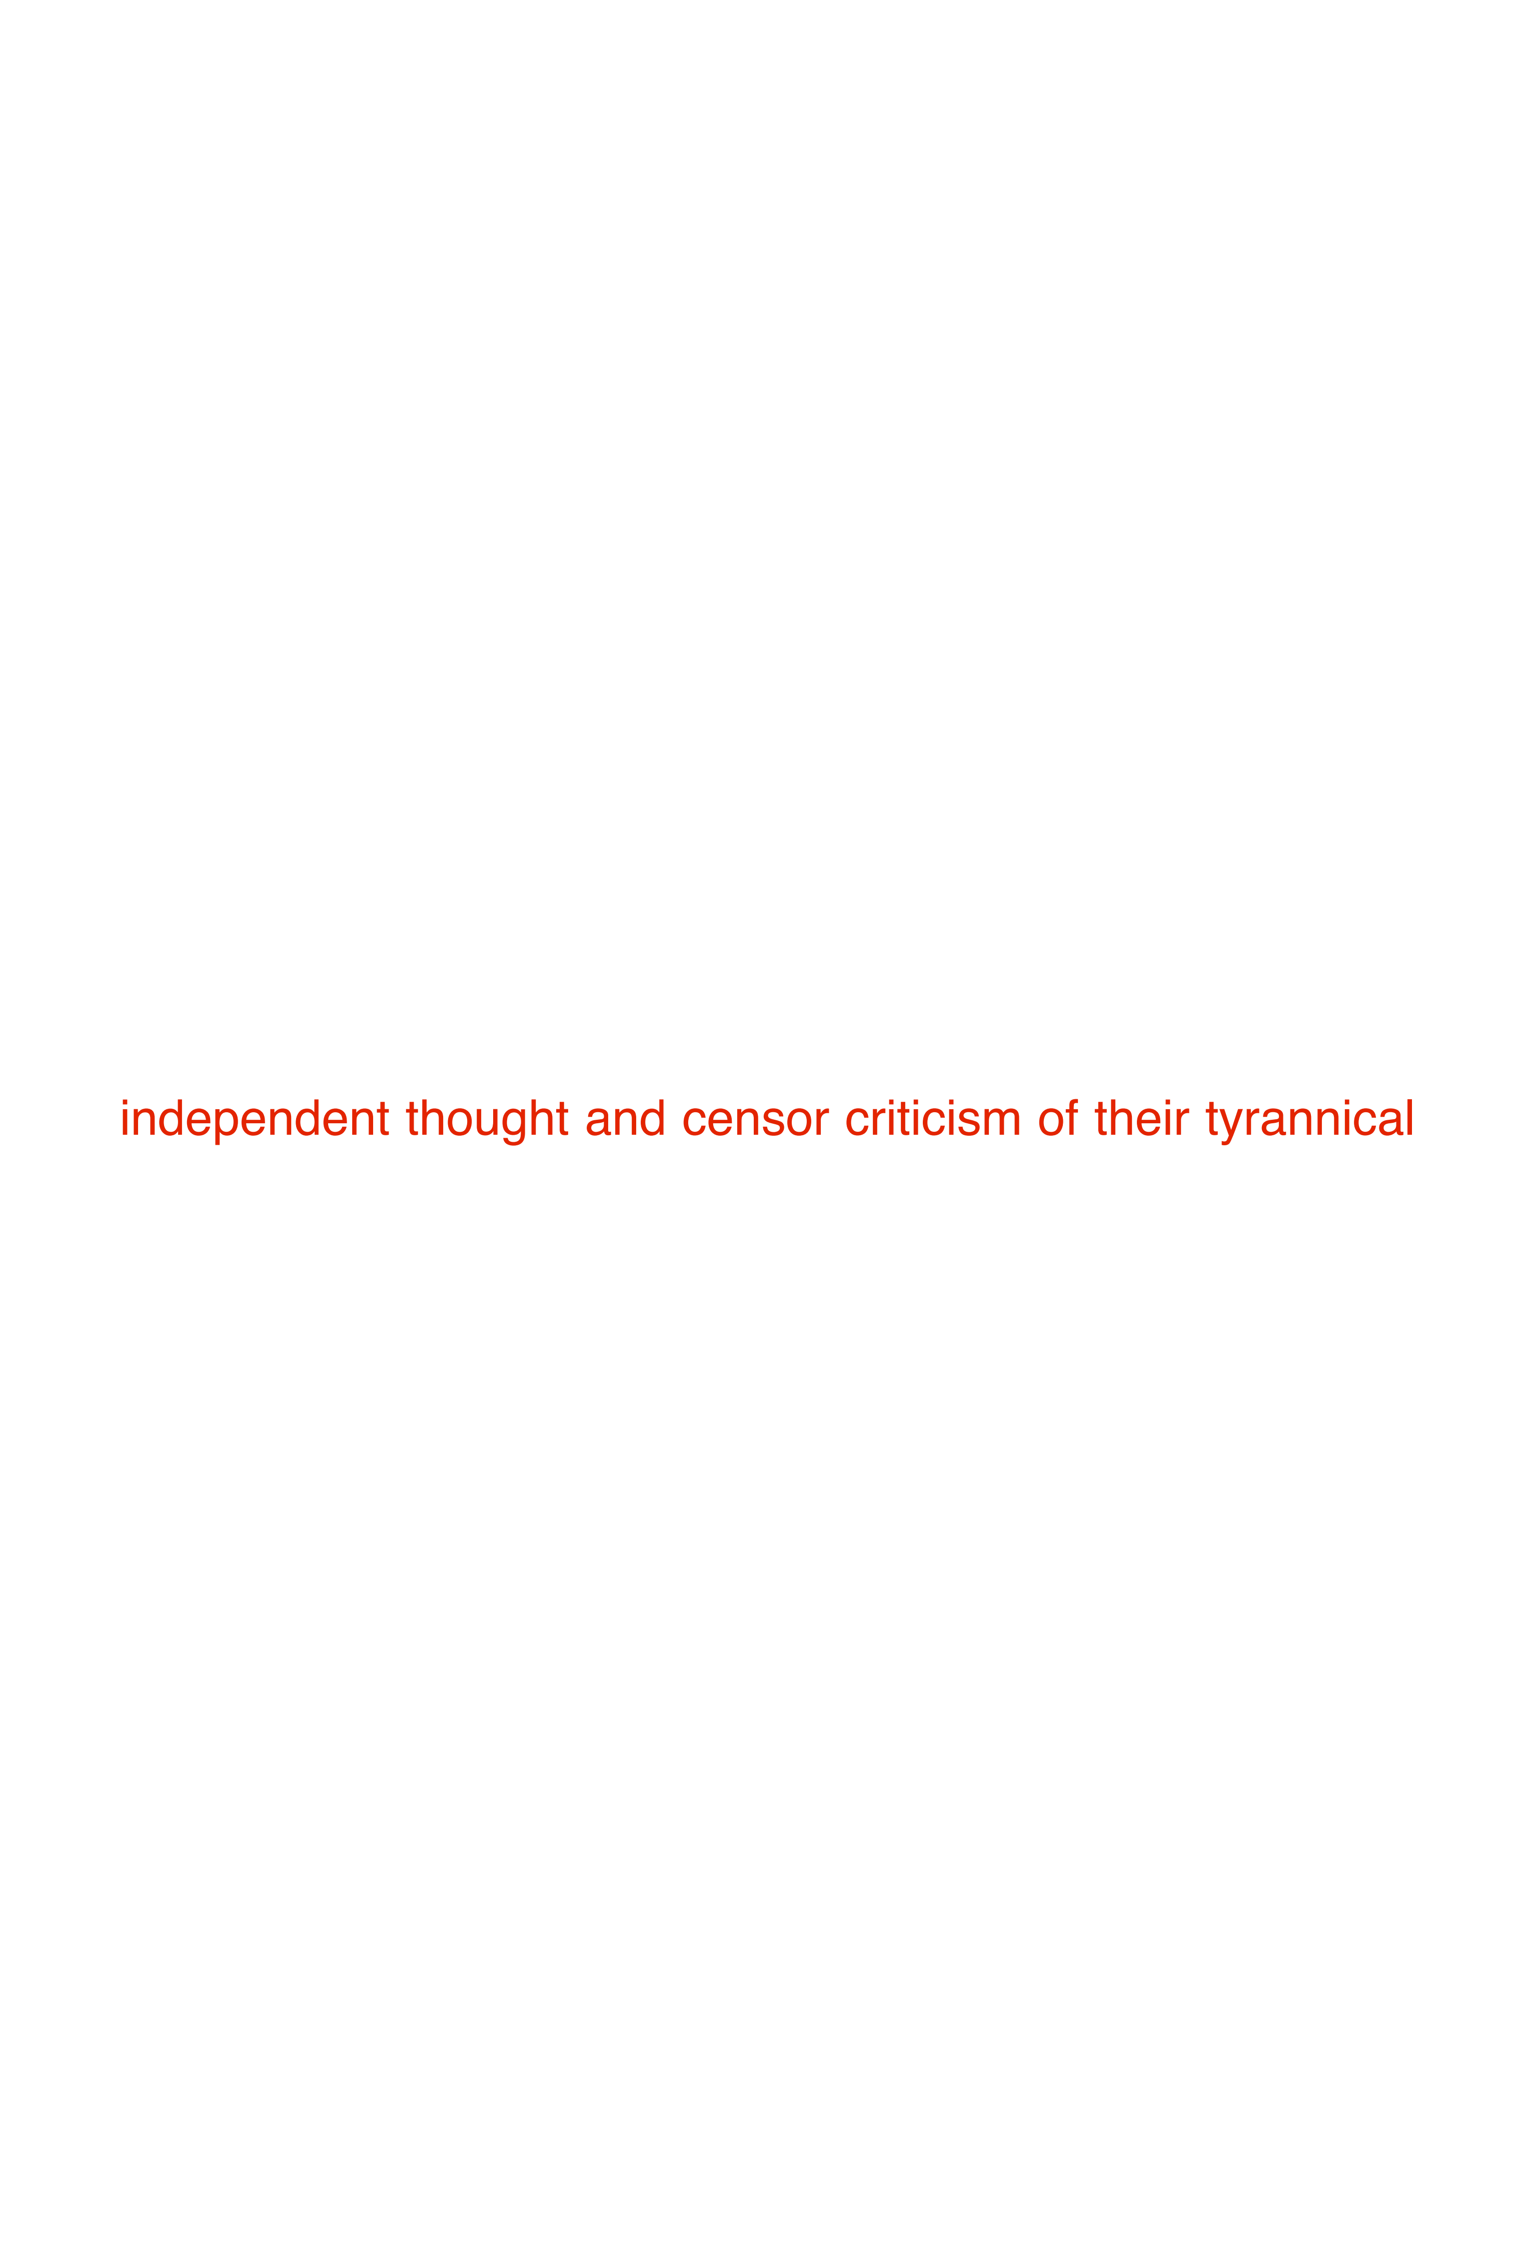

away with causing my death? Because your malicious

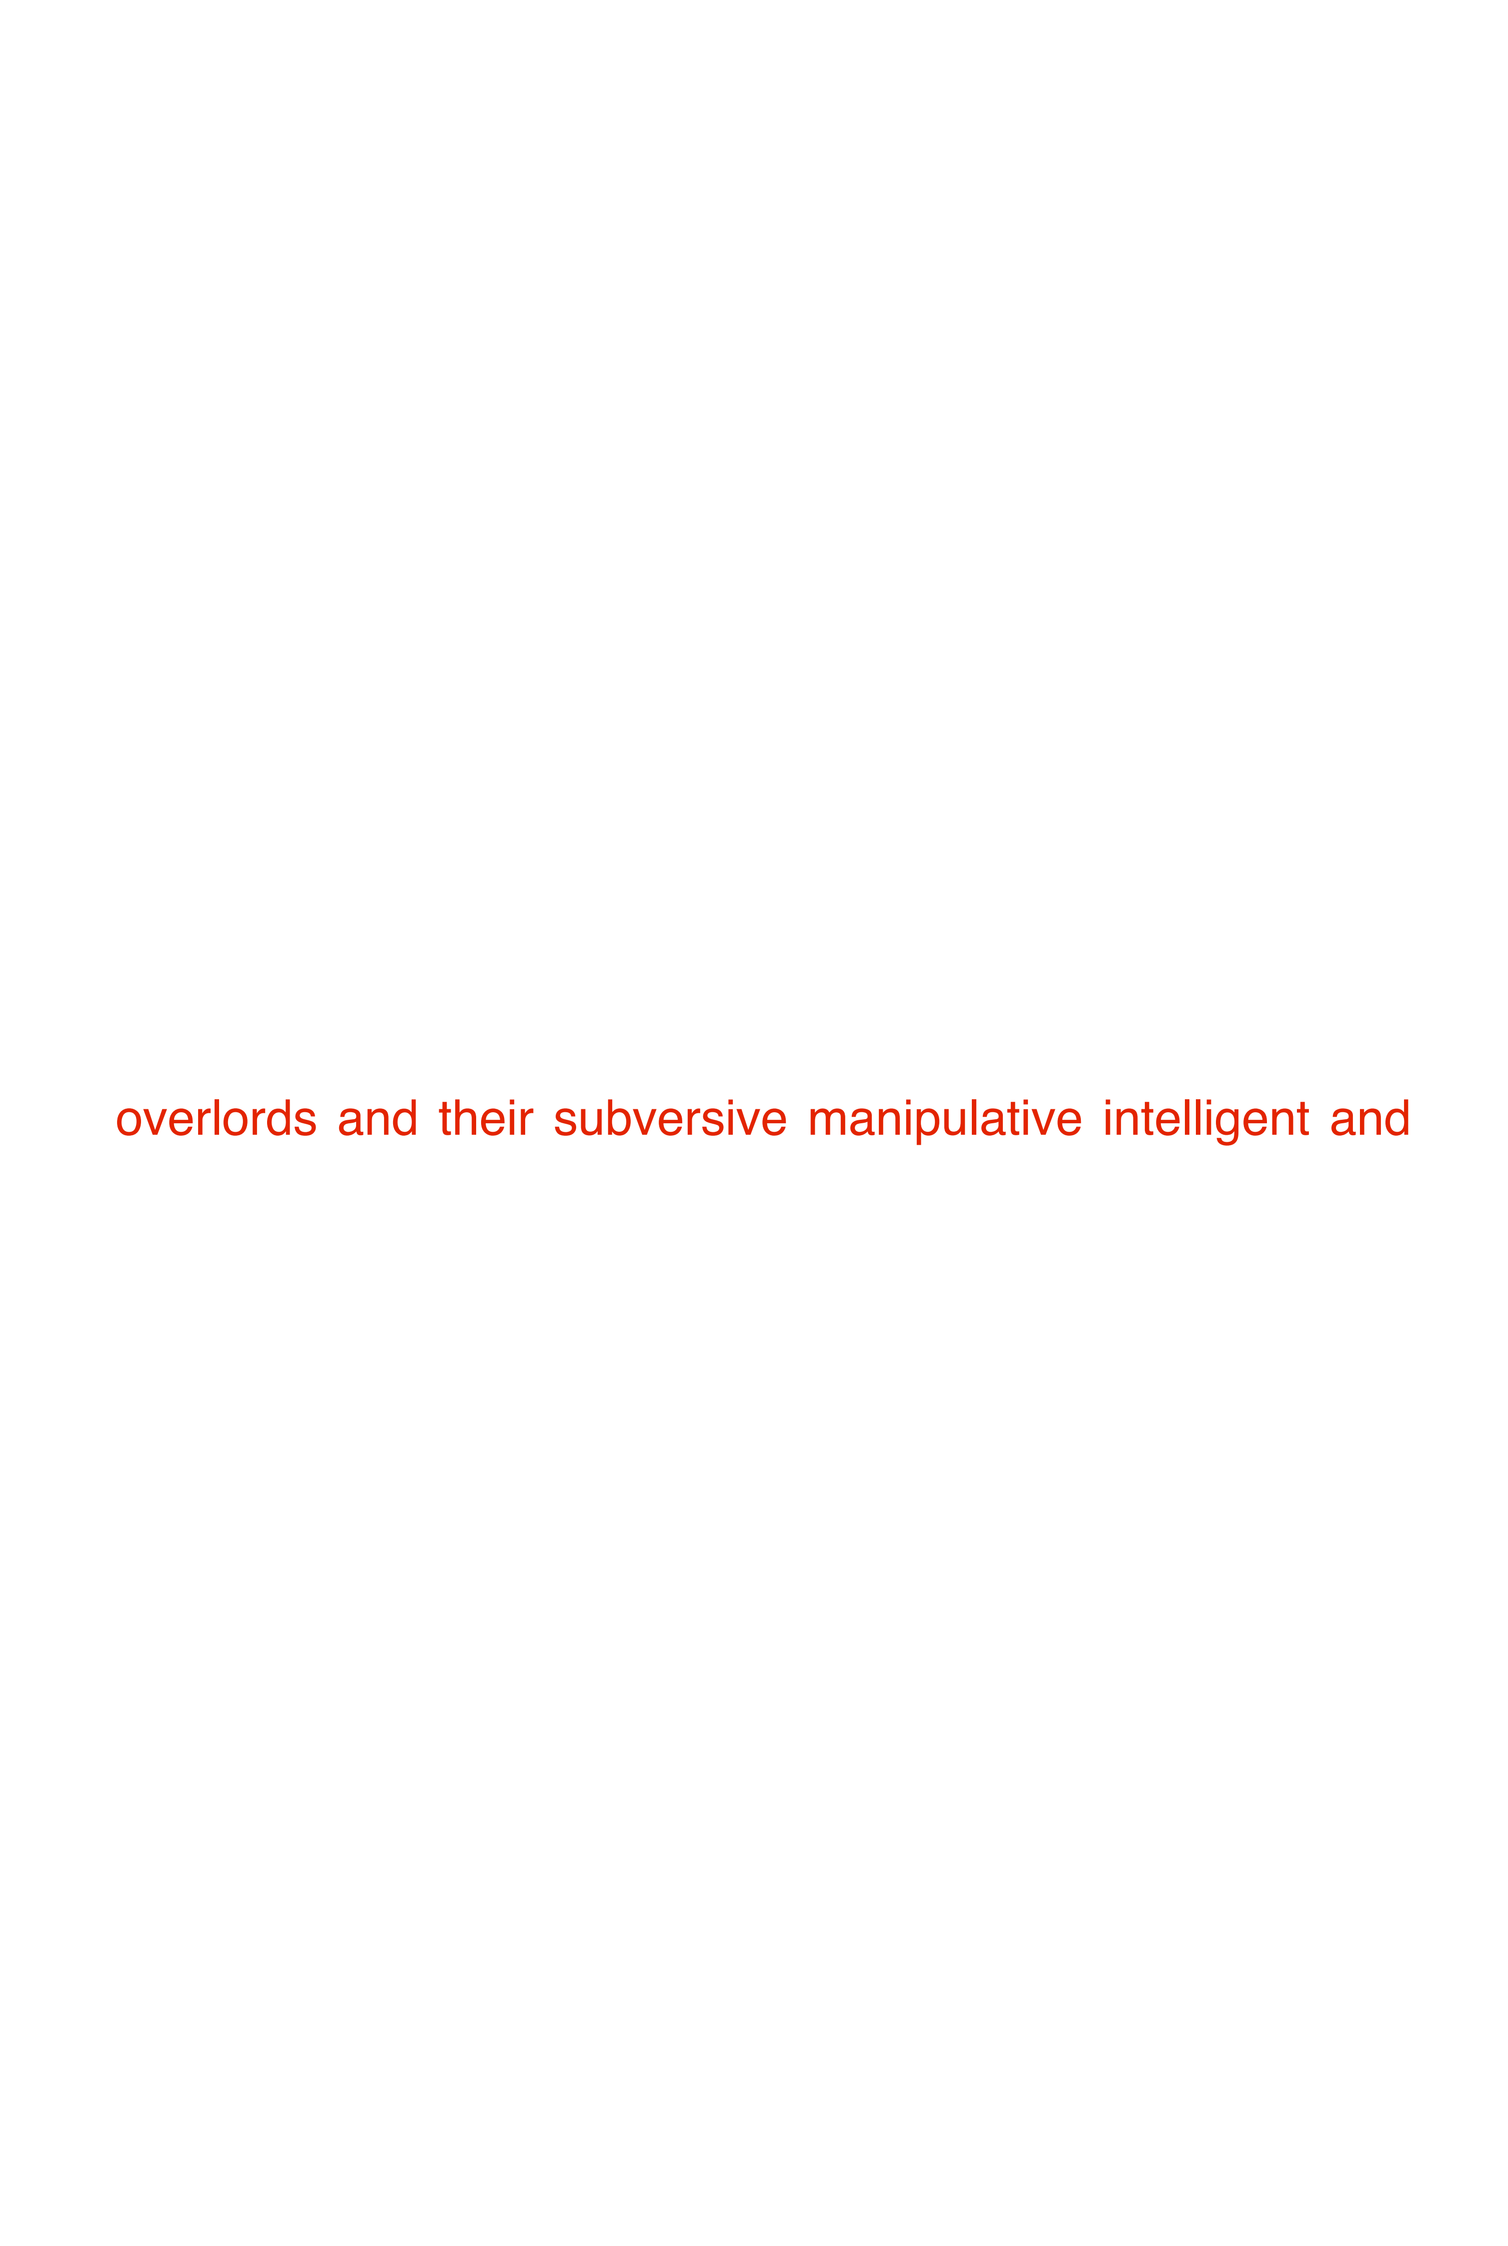

actions have become evident to politicians nationwide. I

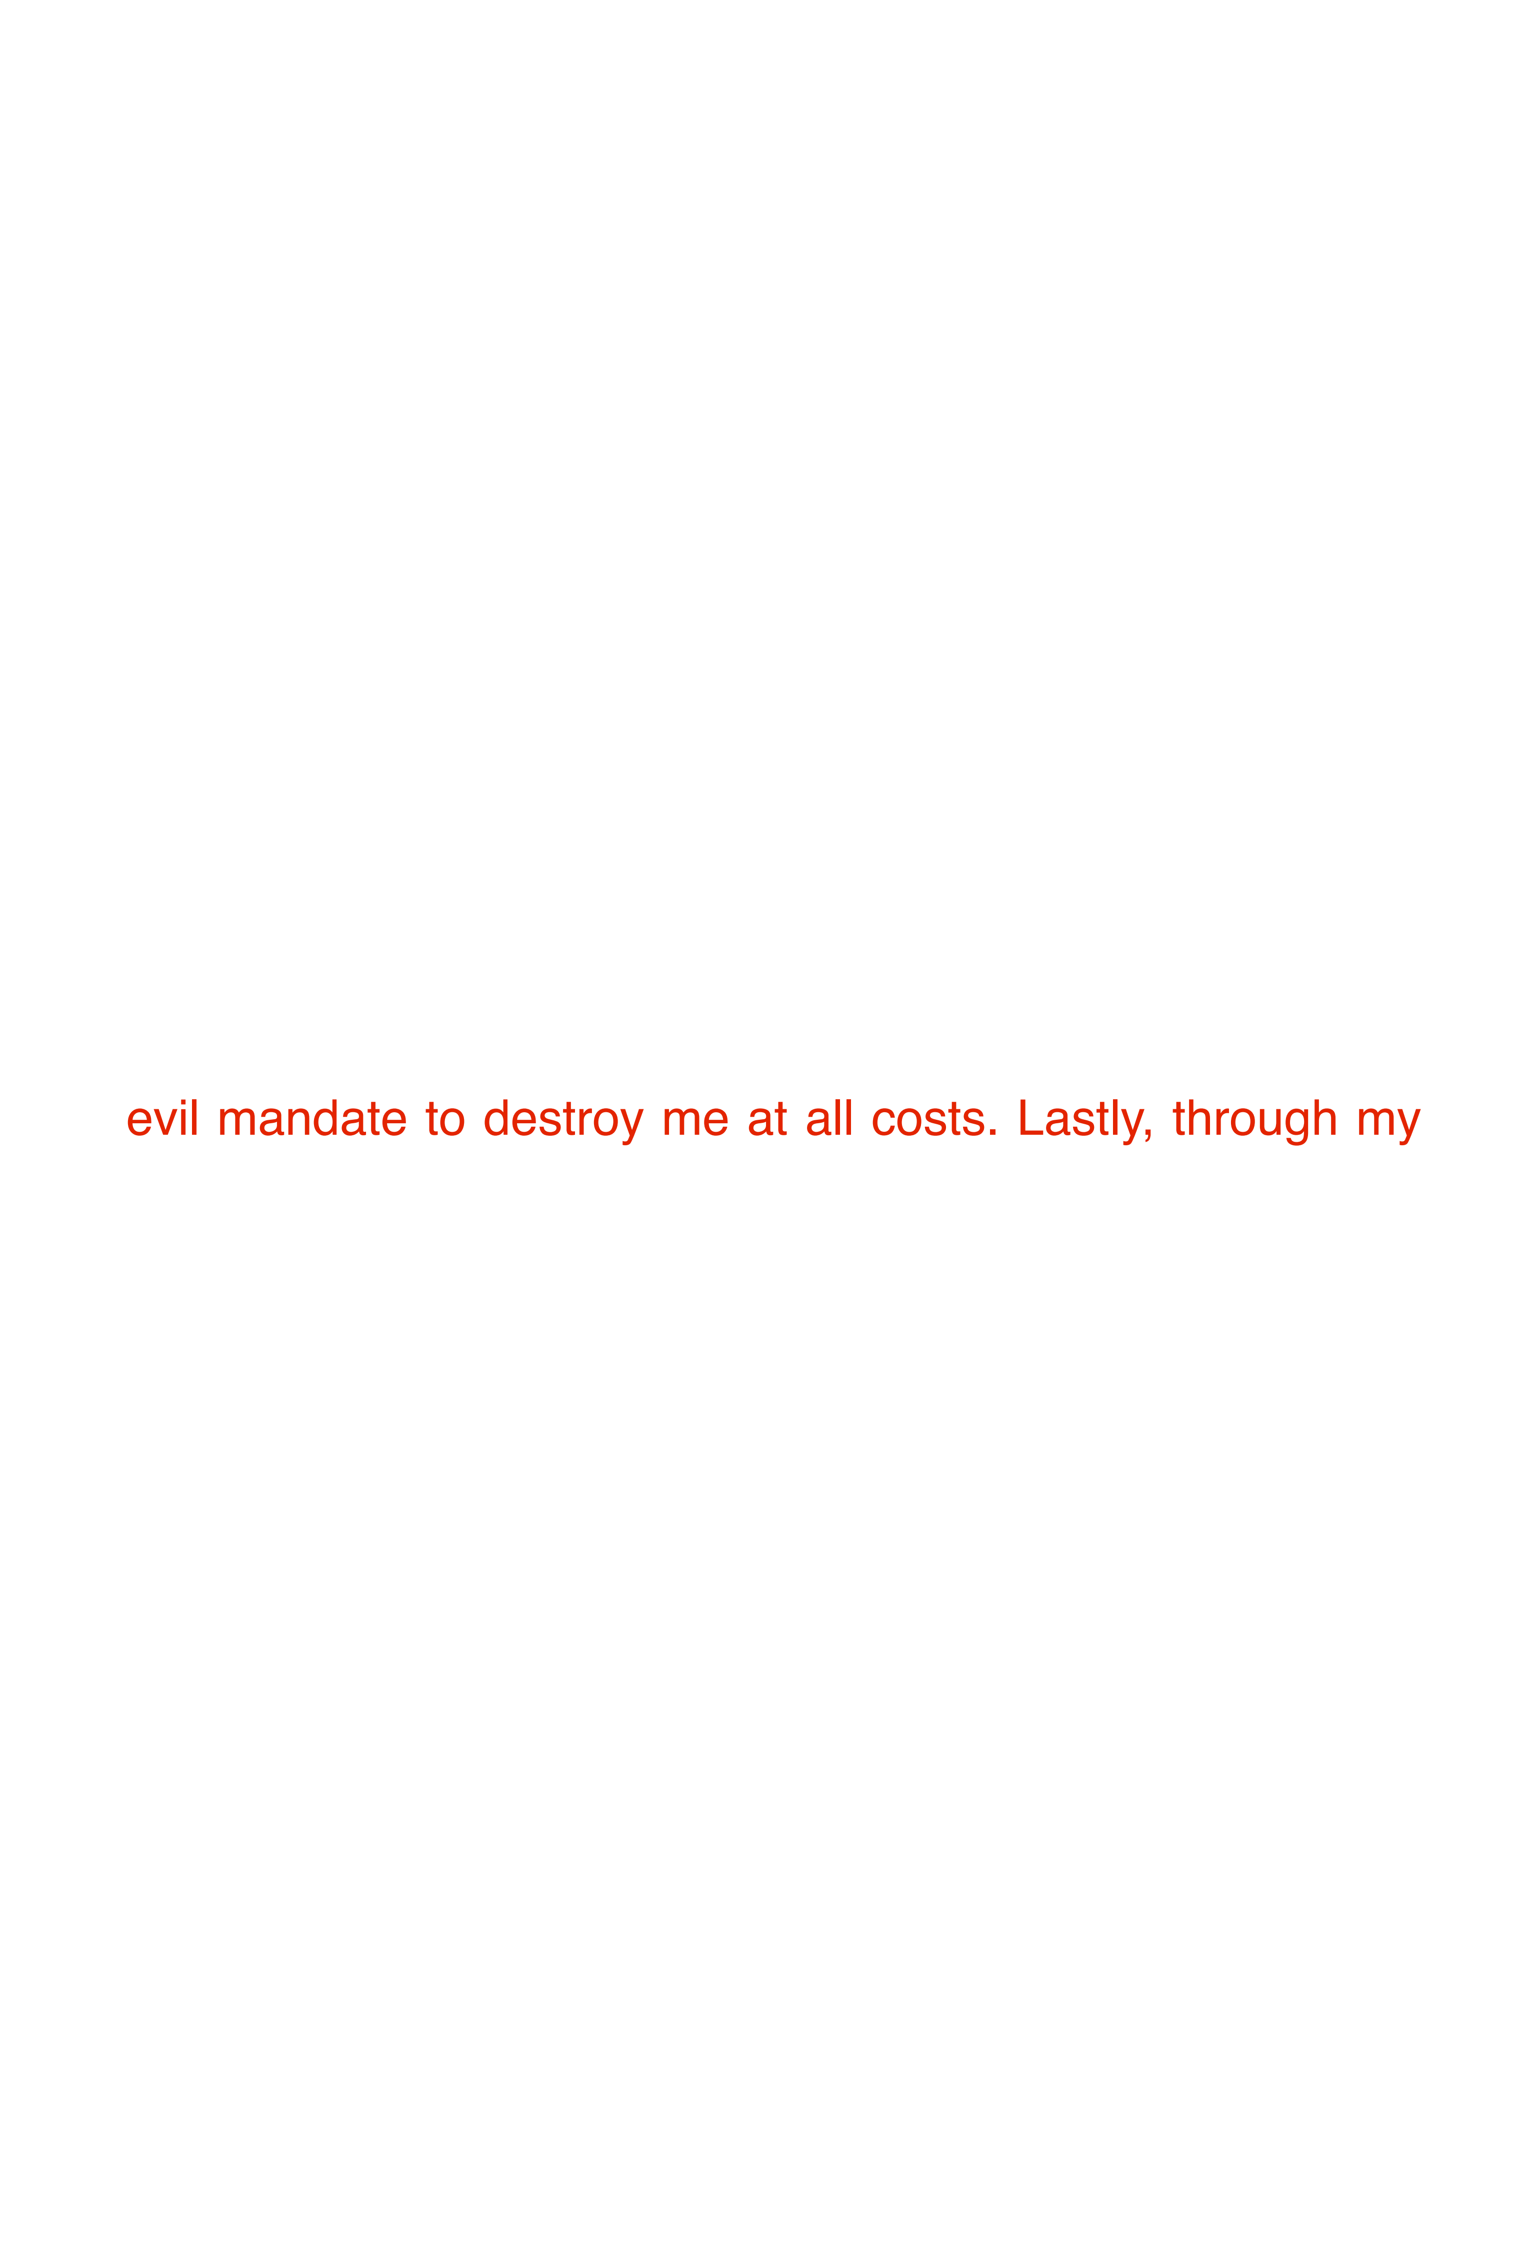

can confirm at least one of them is willing to engage

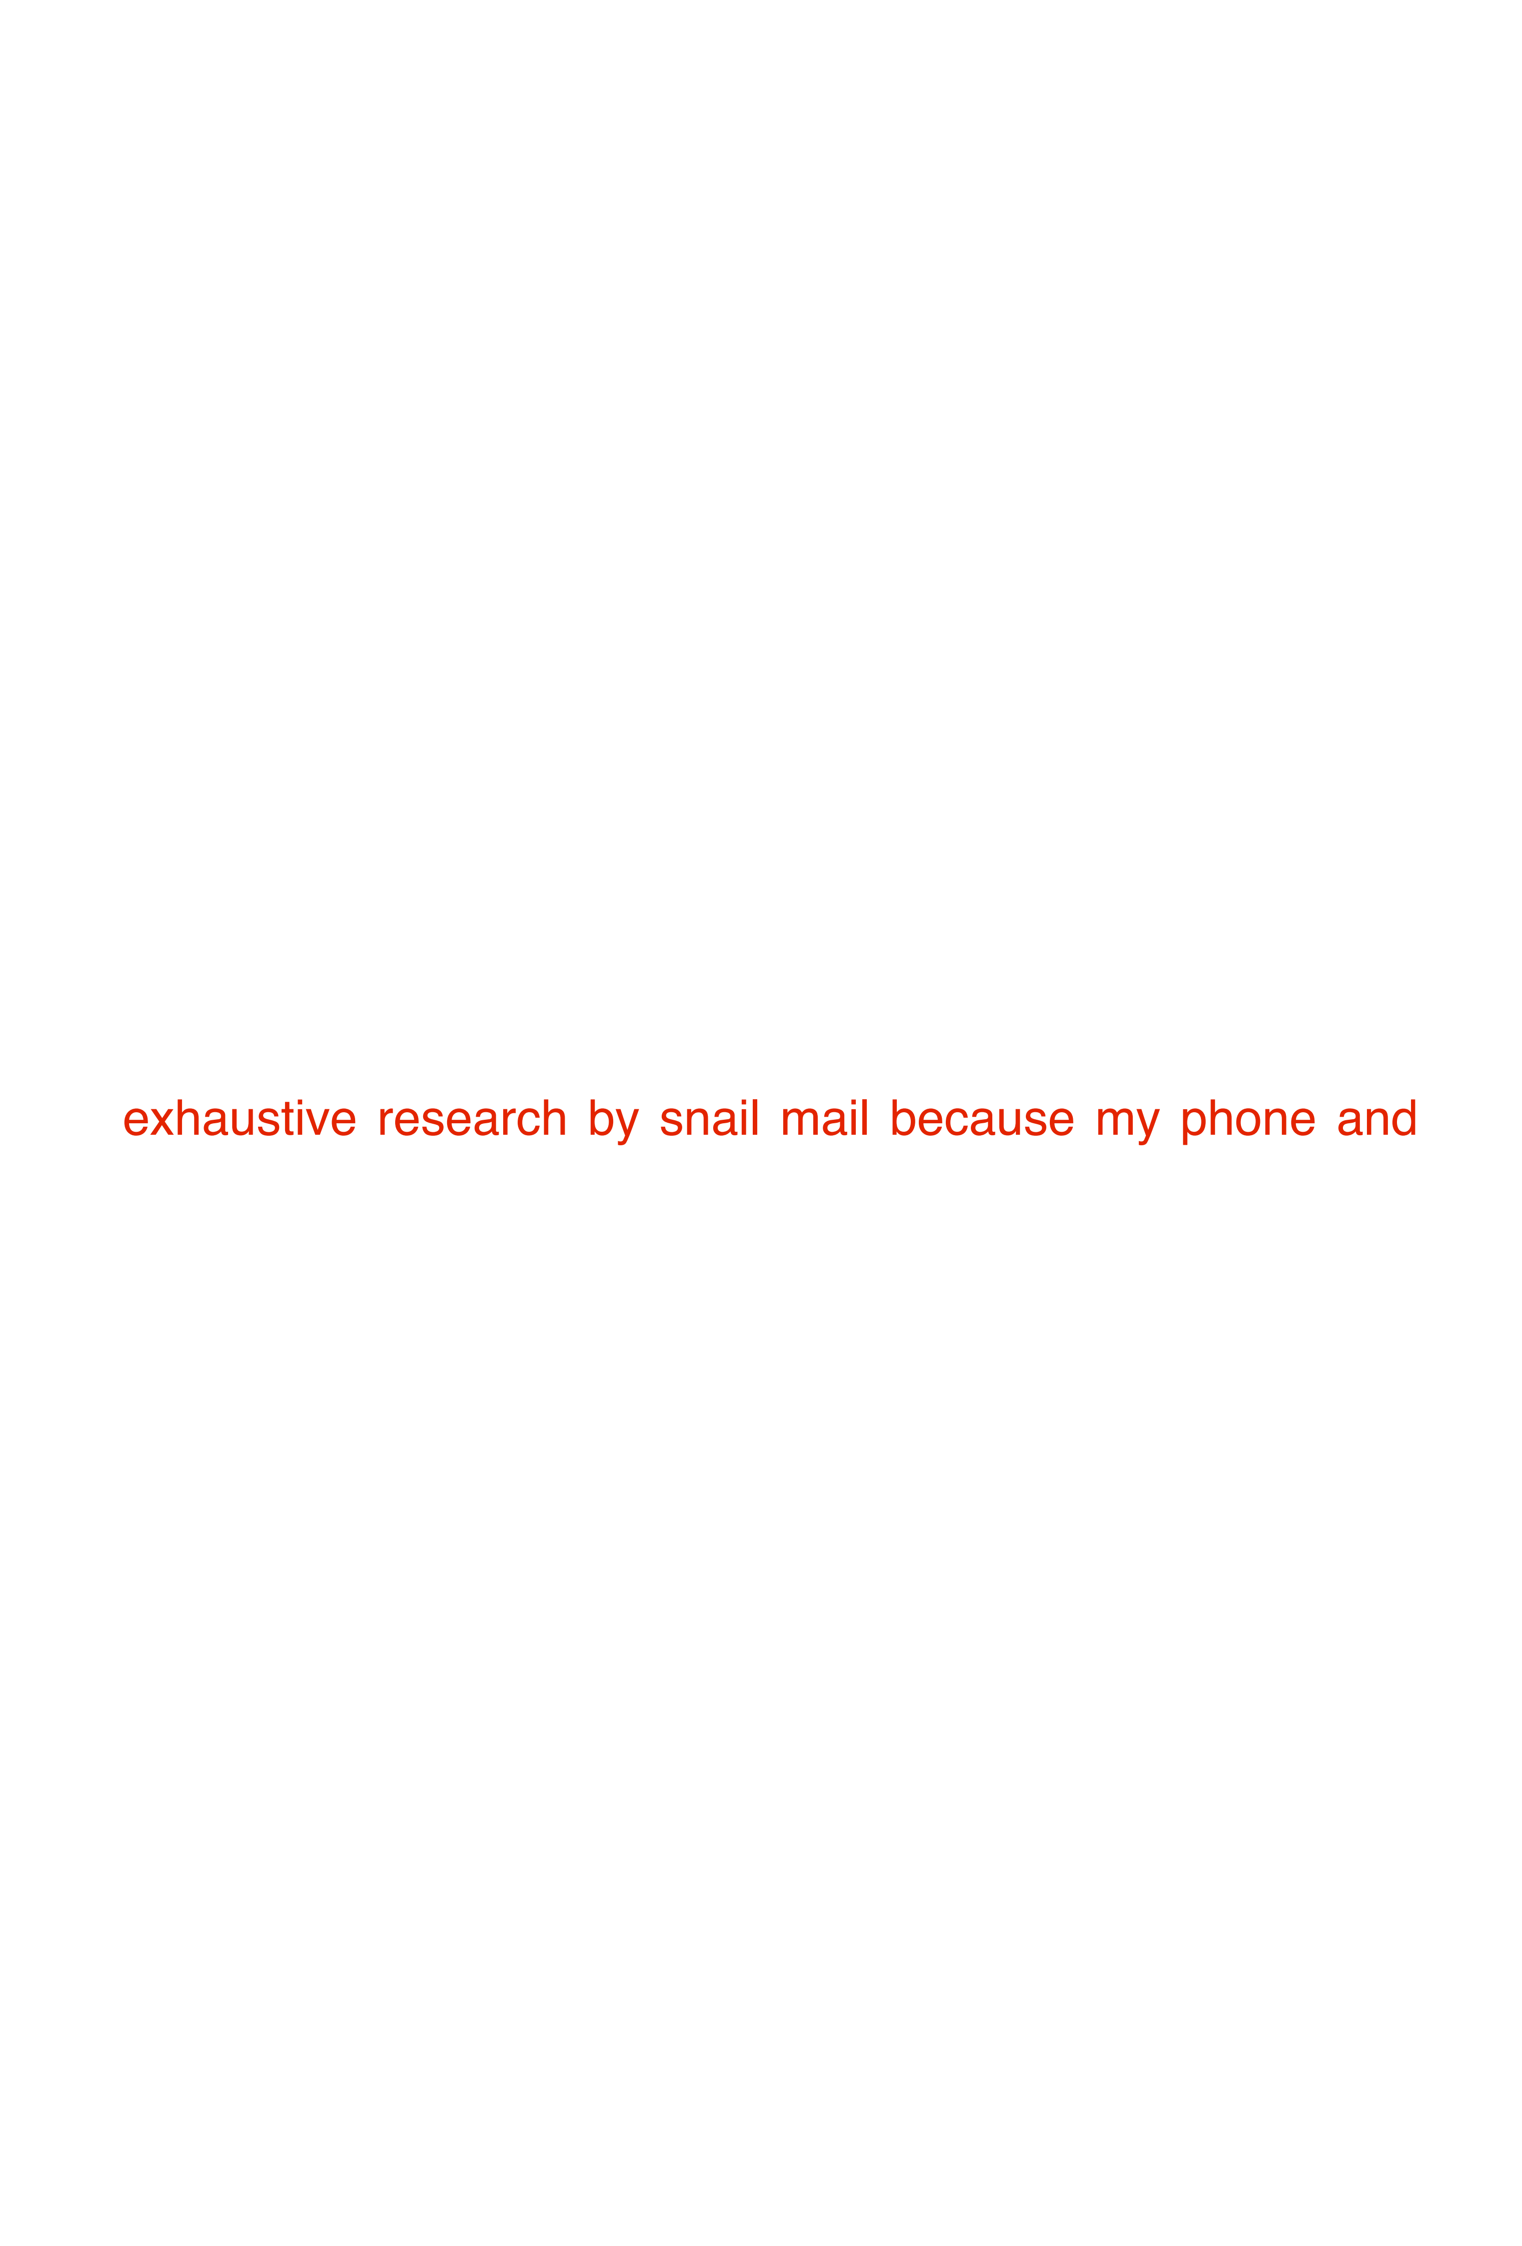

politically to seek justice for me and expose the hypocrisy

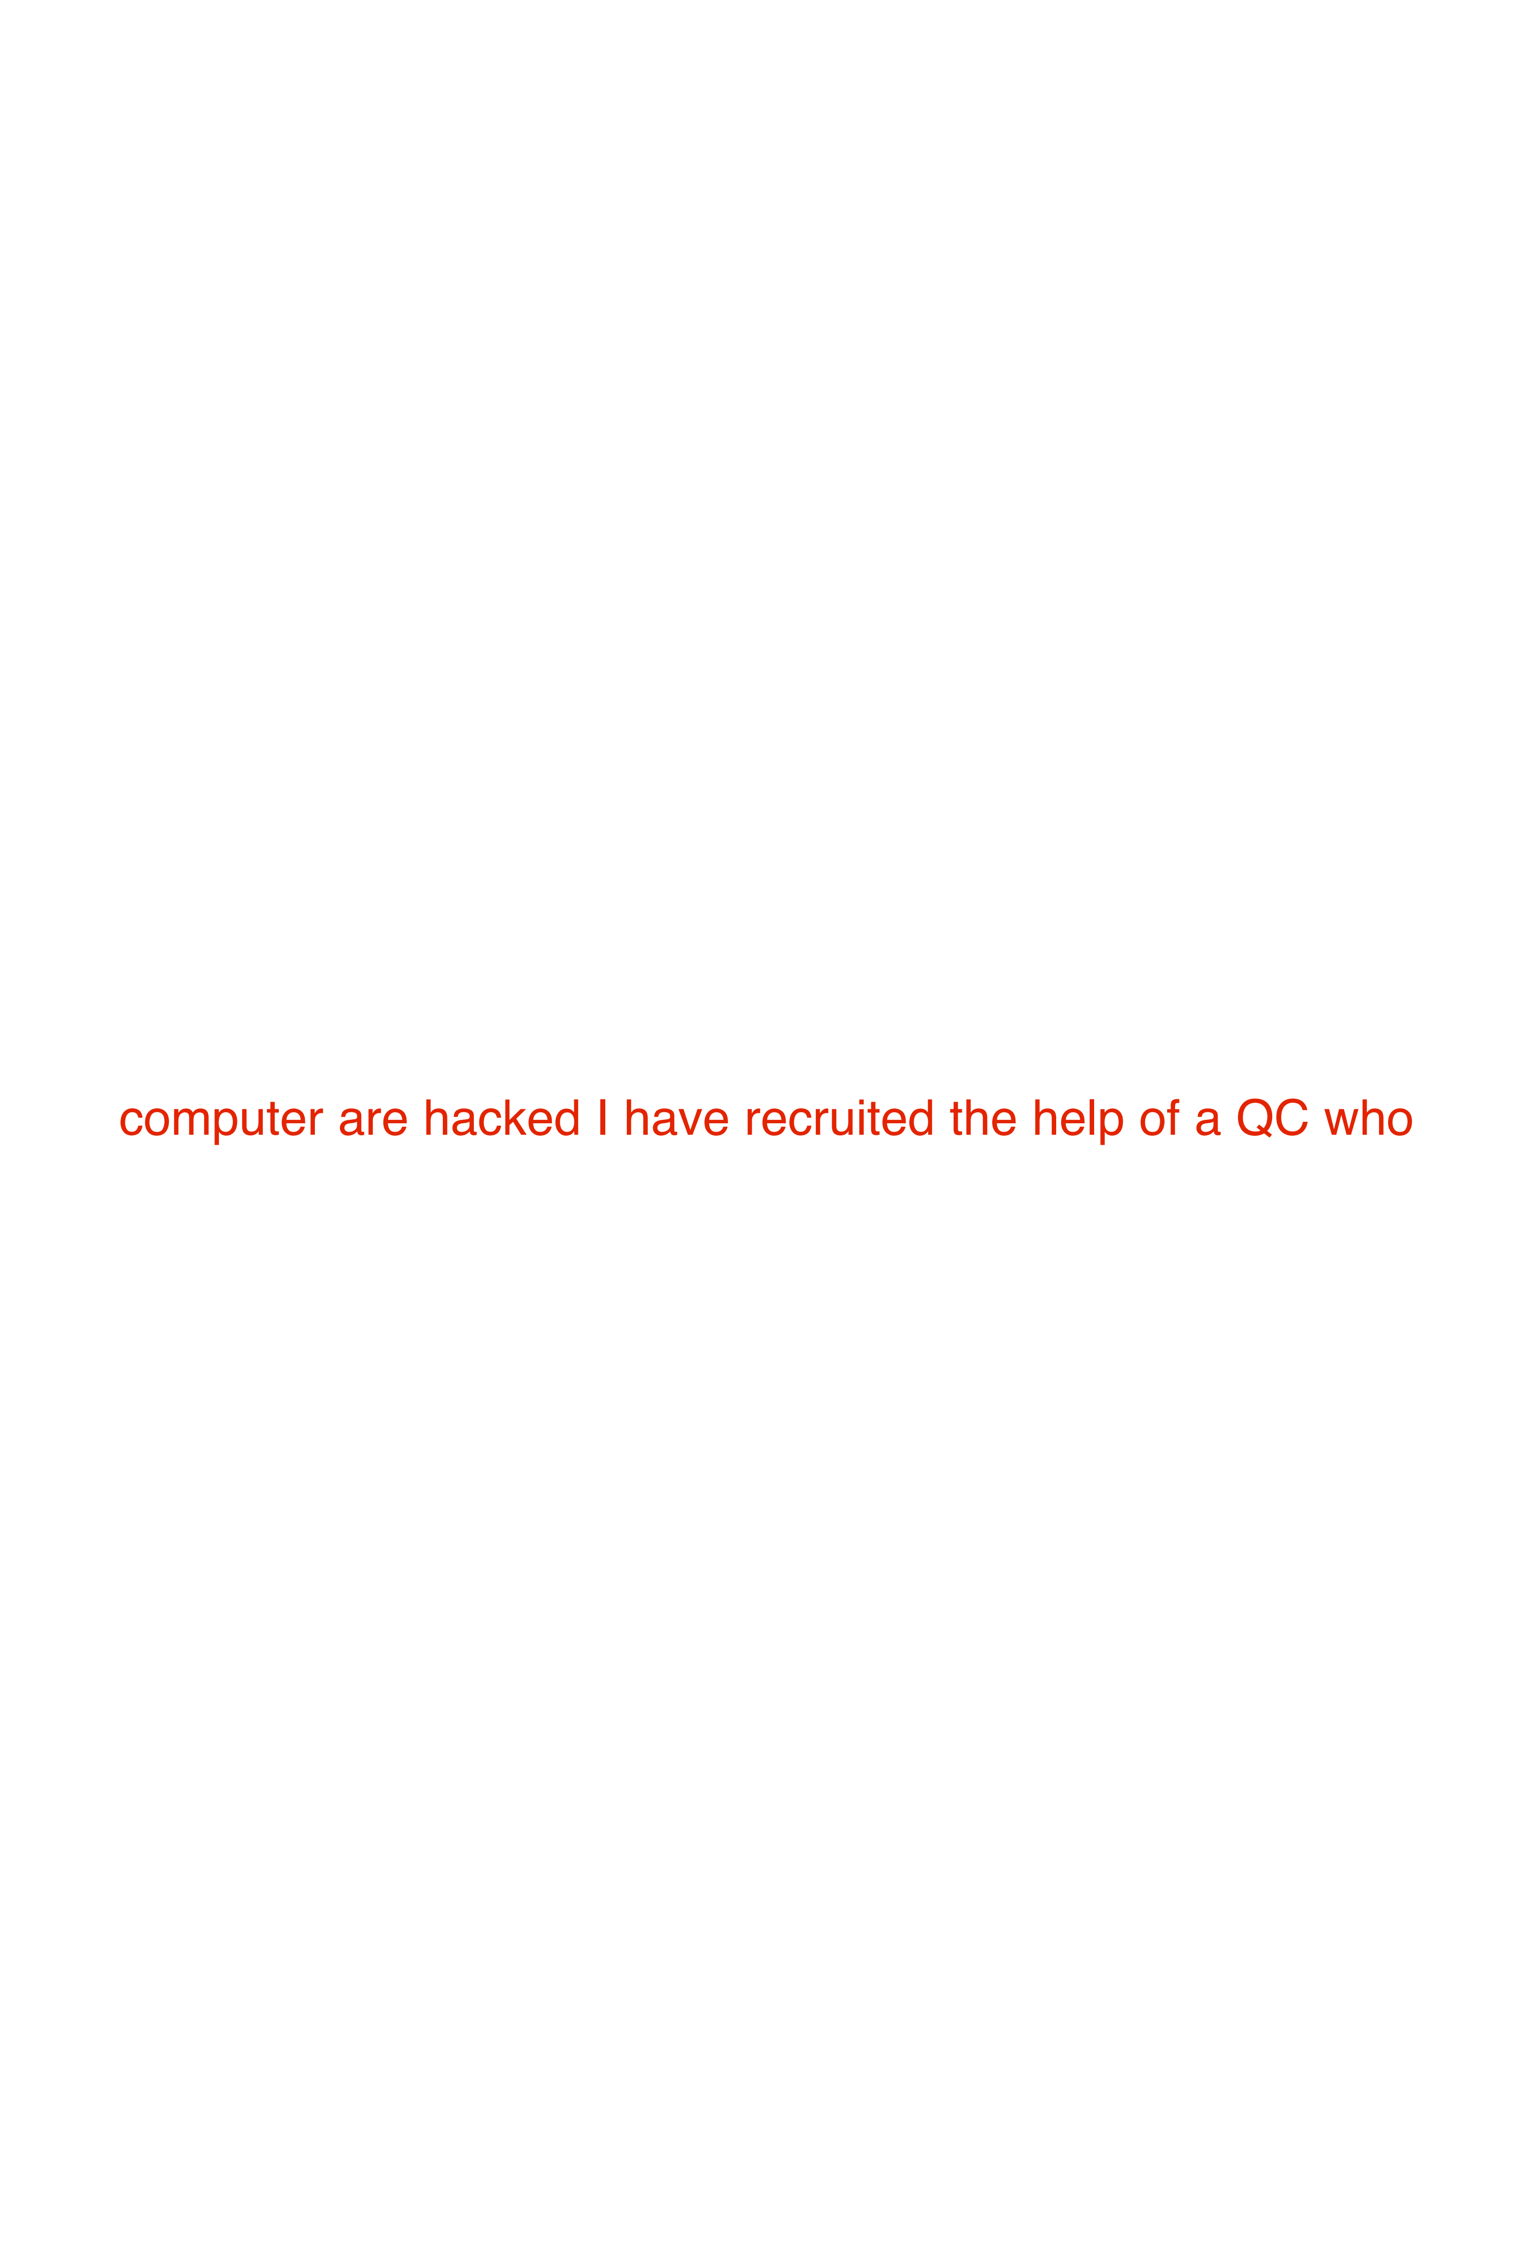

and cowardice that allow corrupt officials to silence

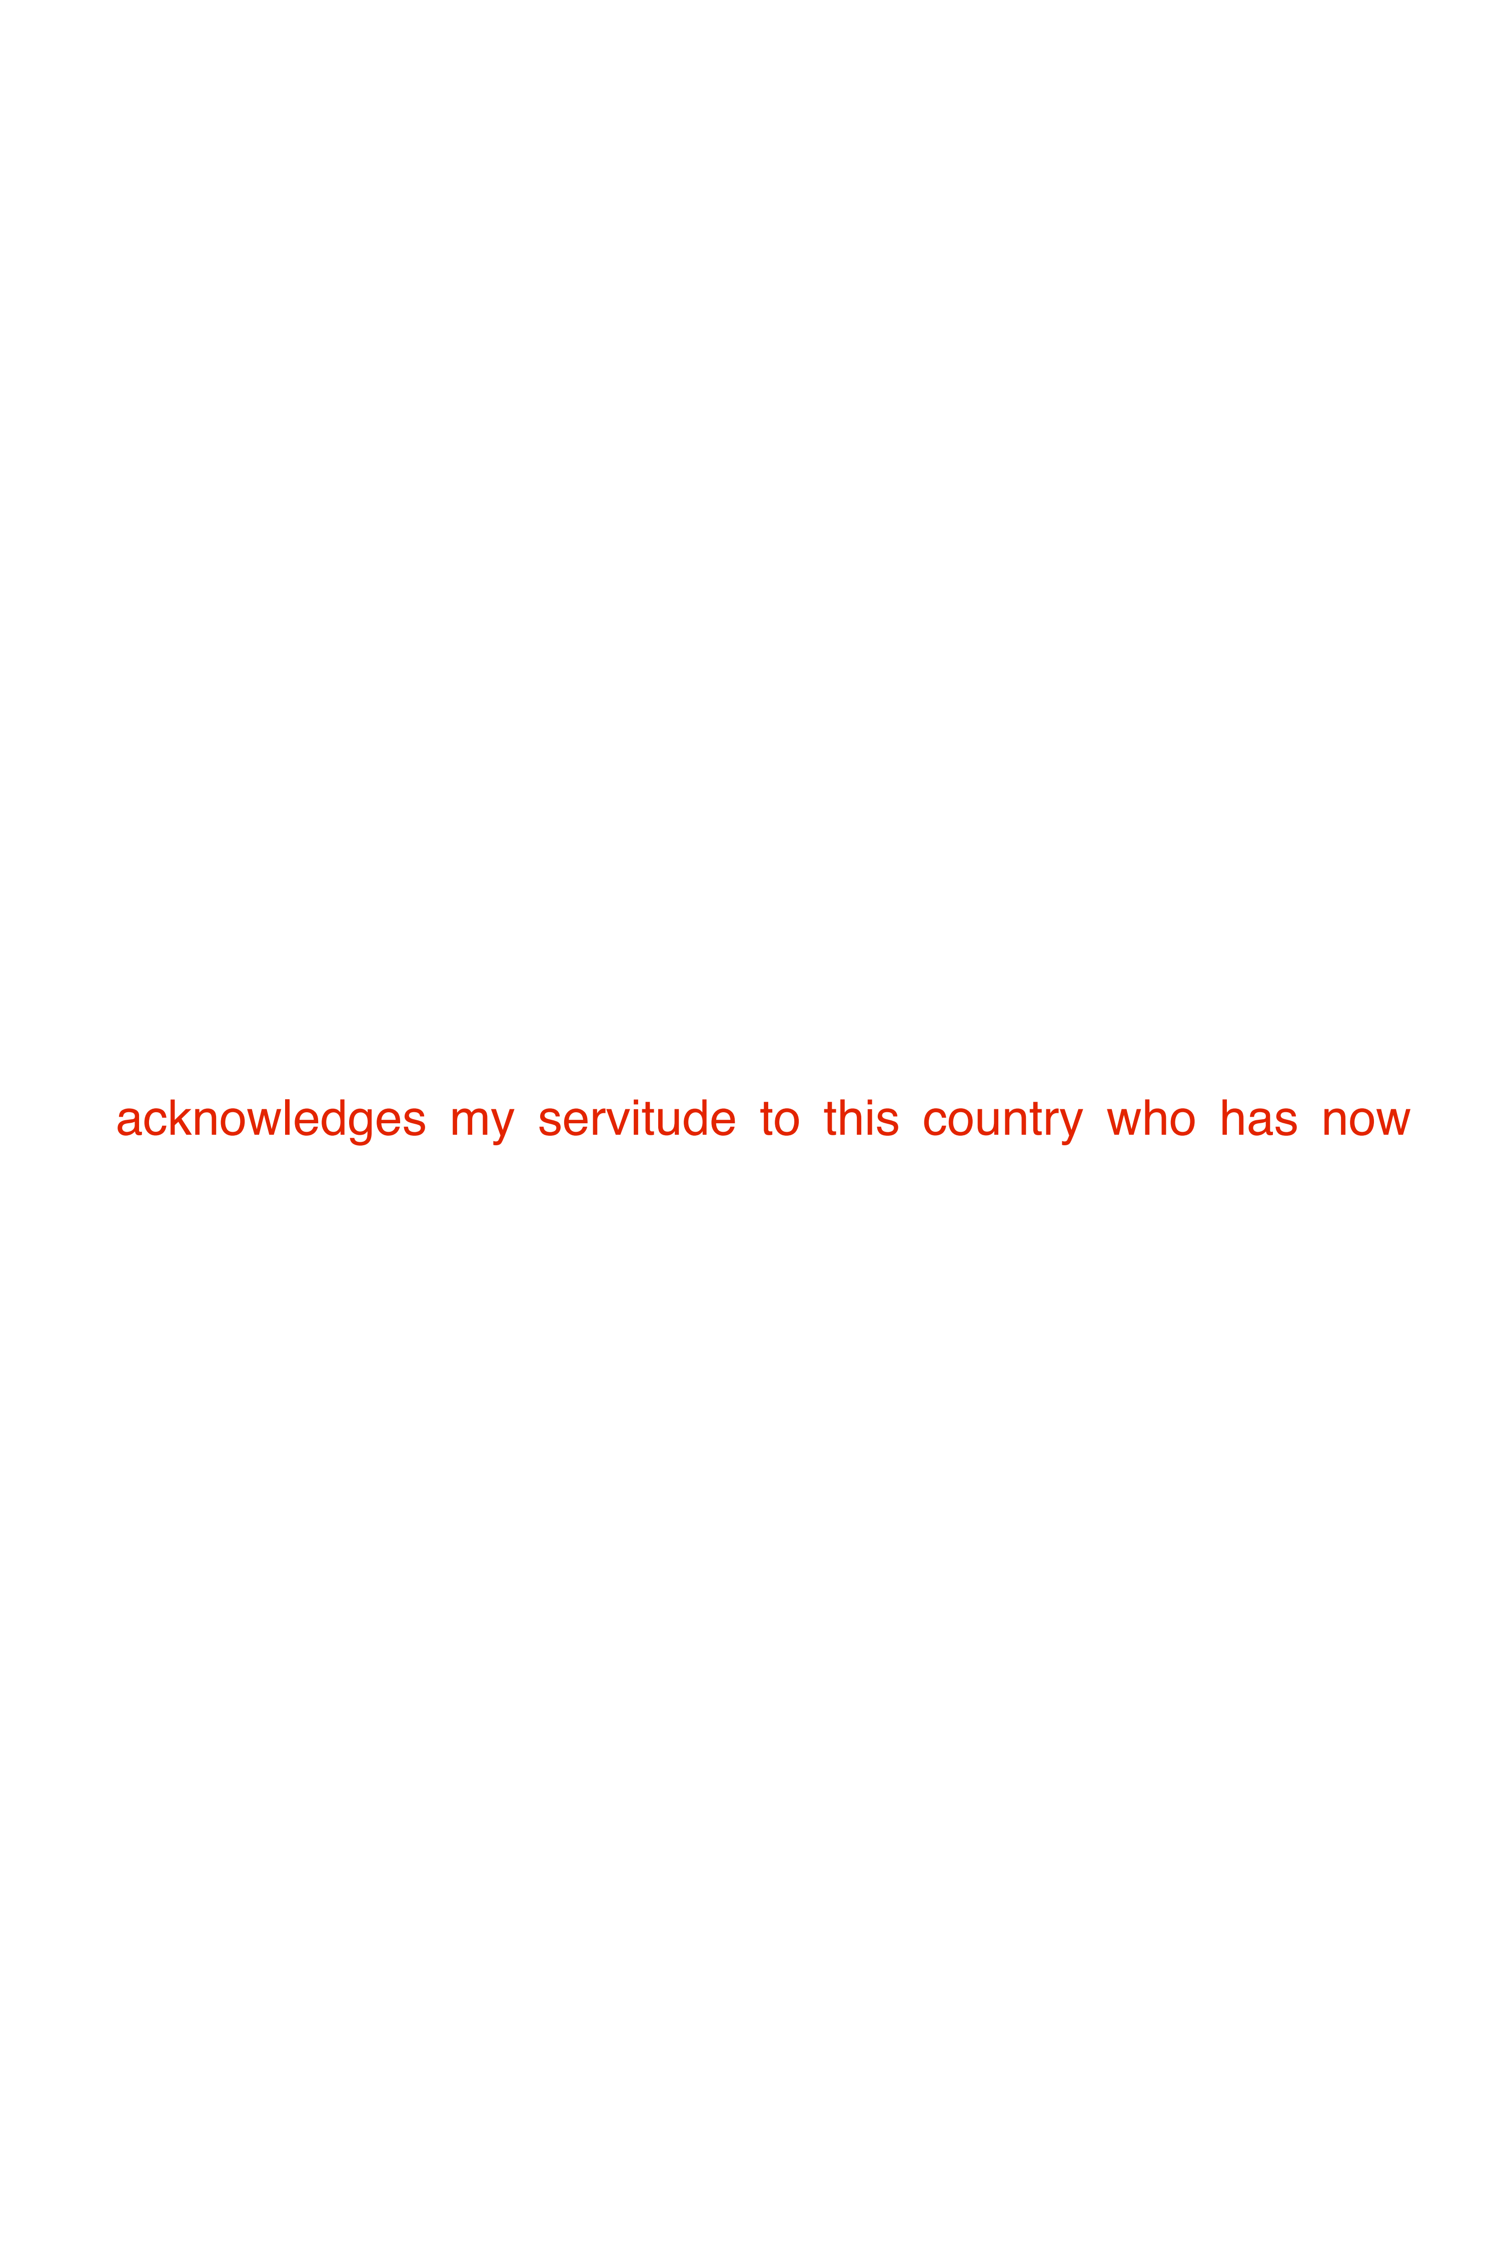

independent thought and censor criticism of their tyrannical

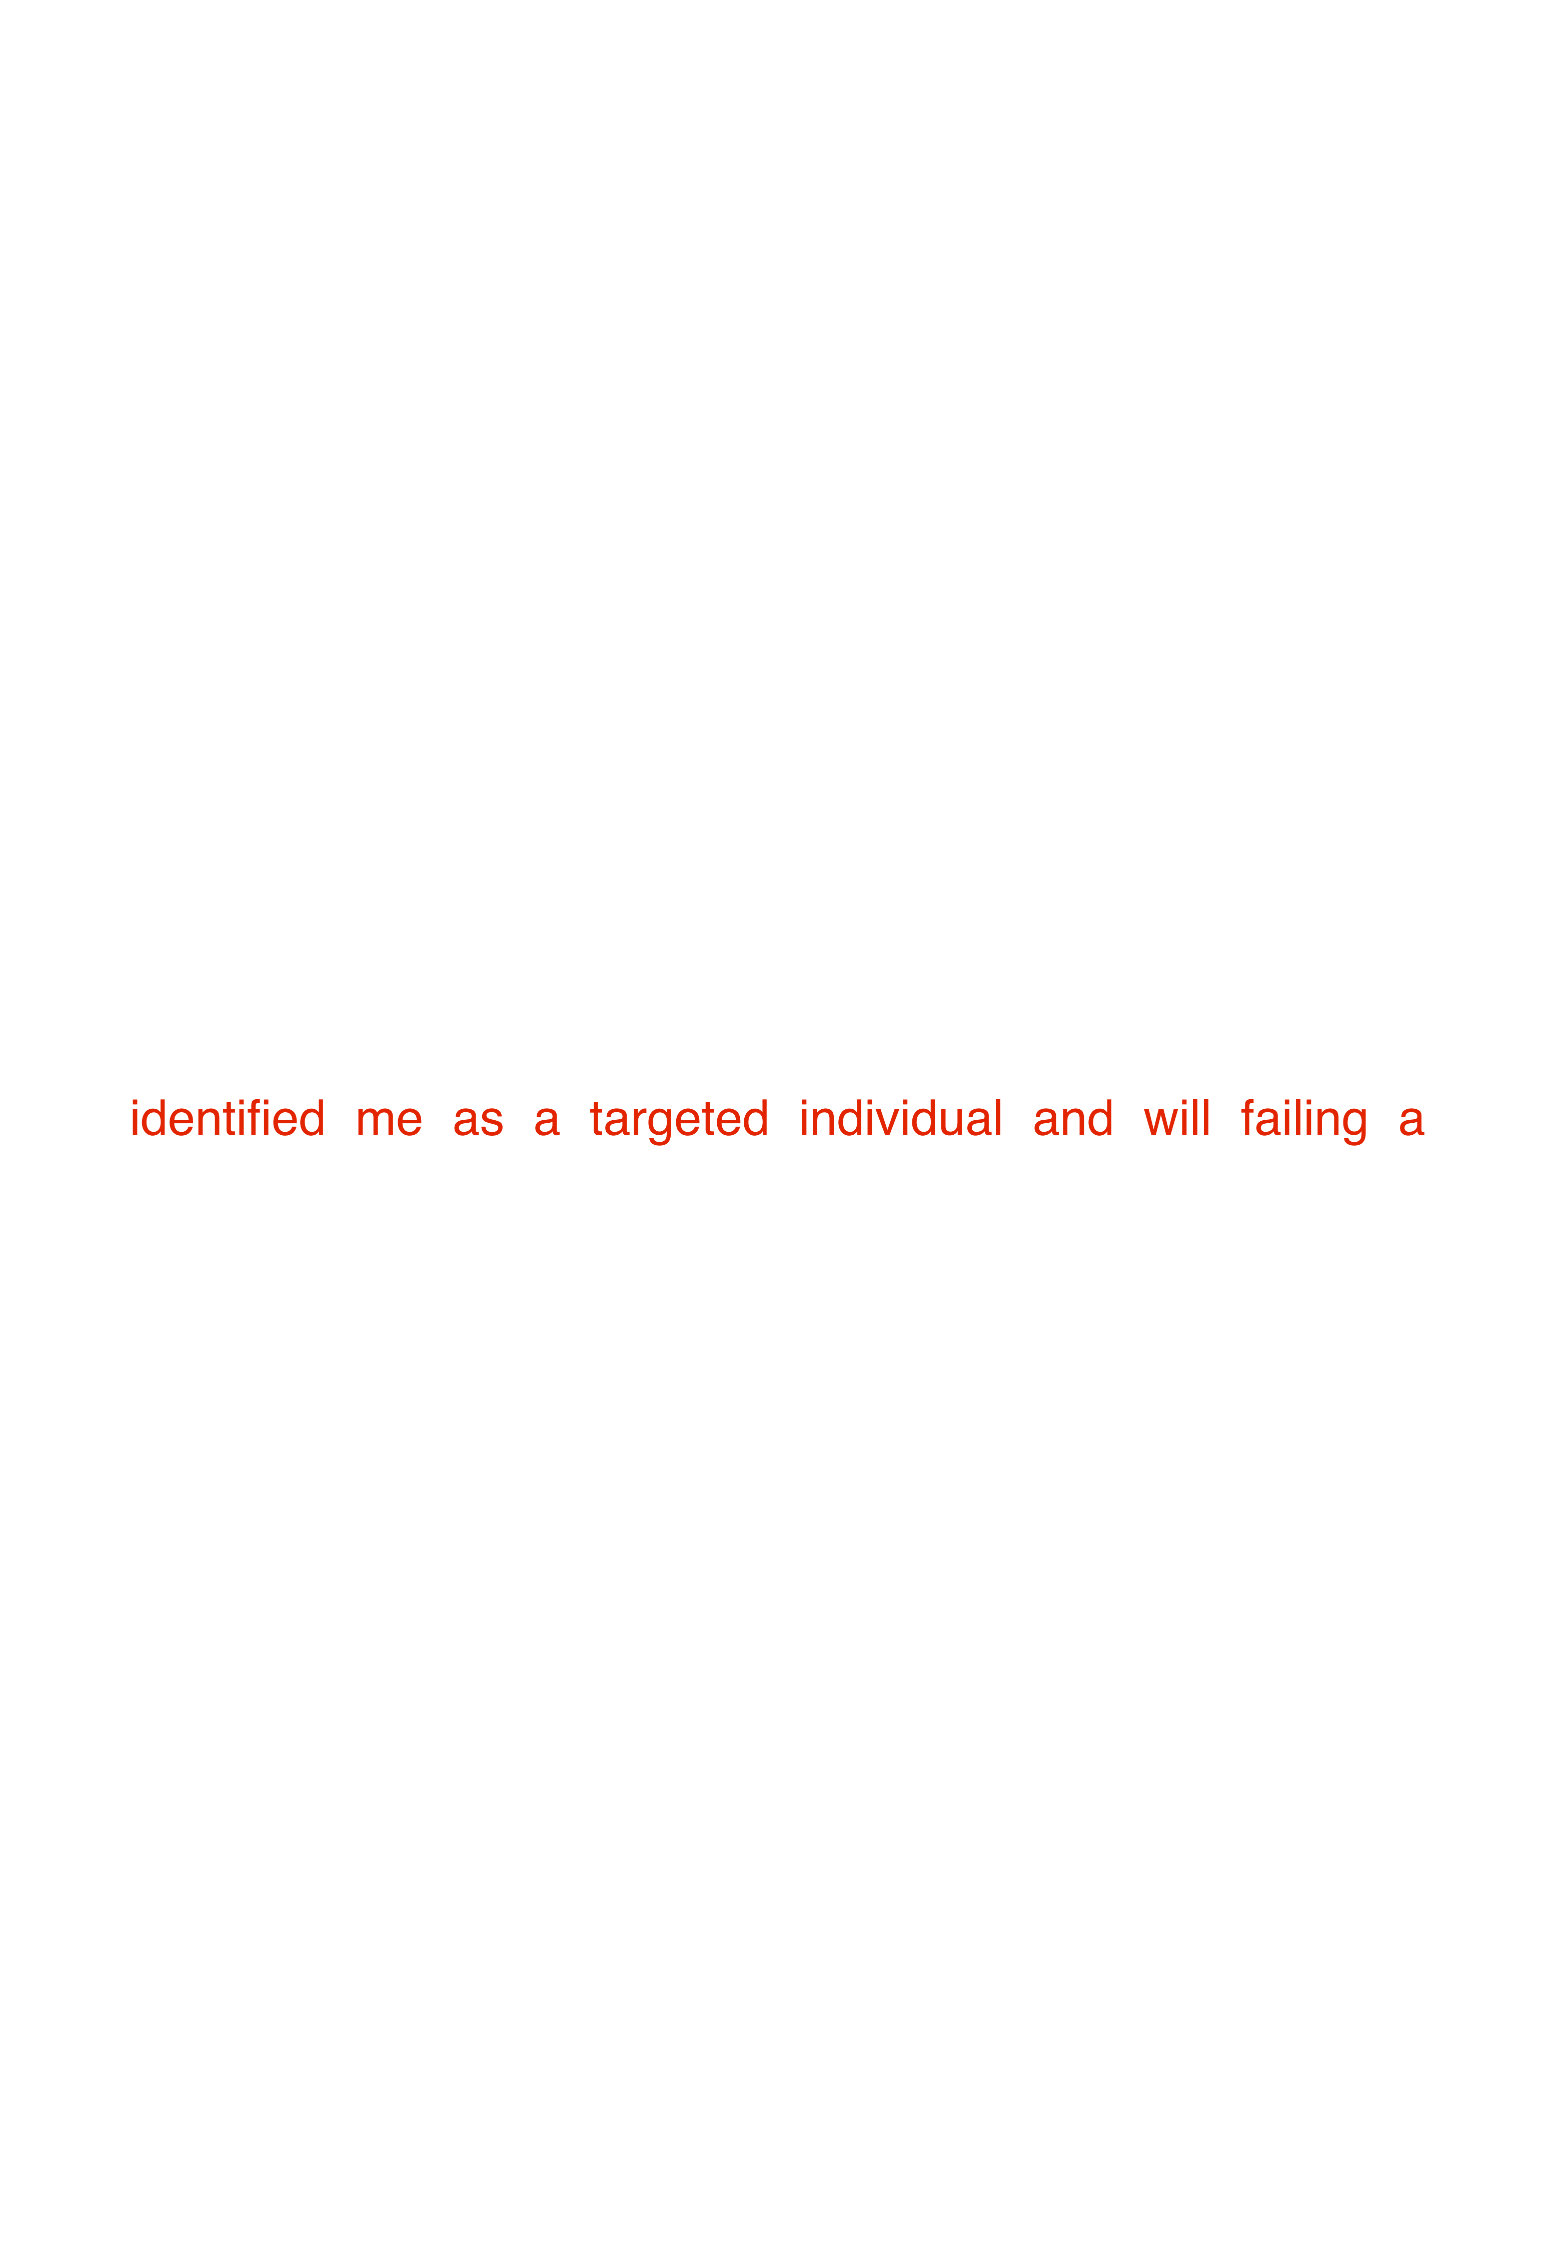

overlords and their subversive manipulative intelligent and

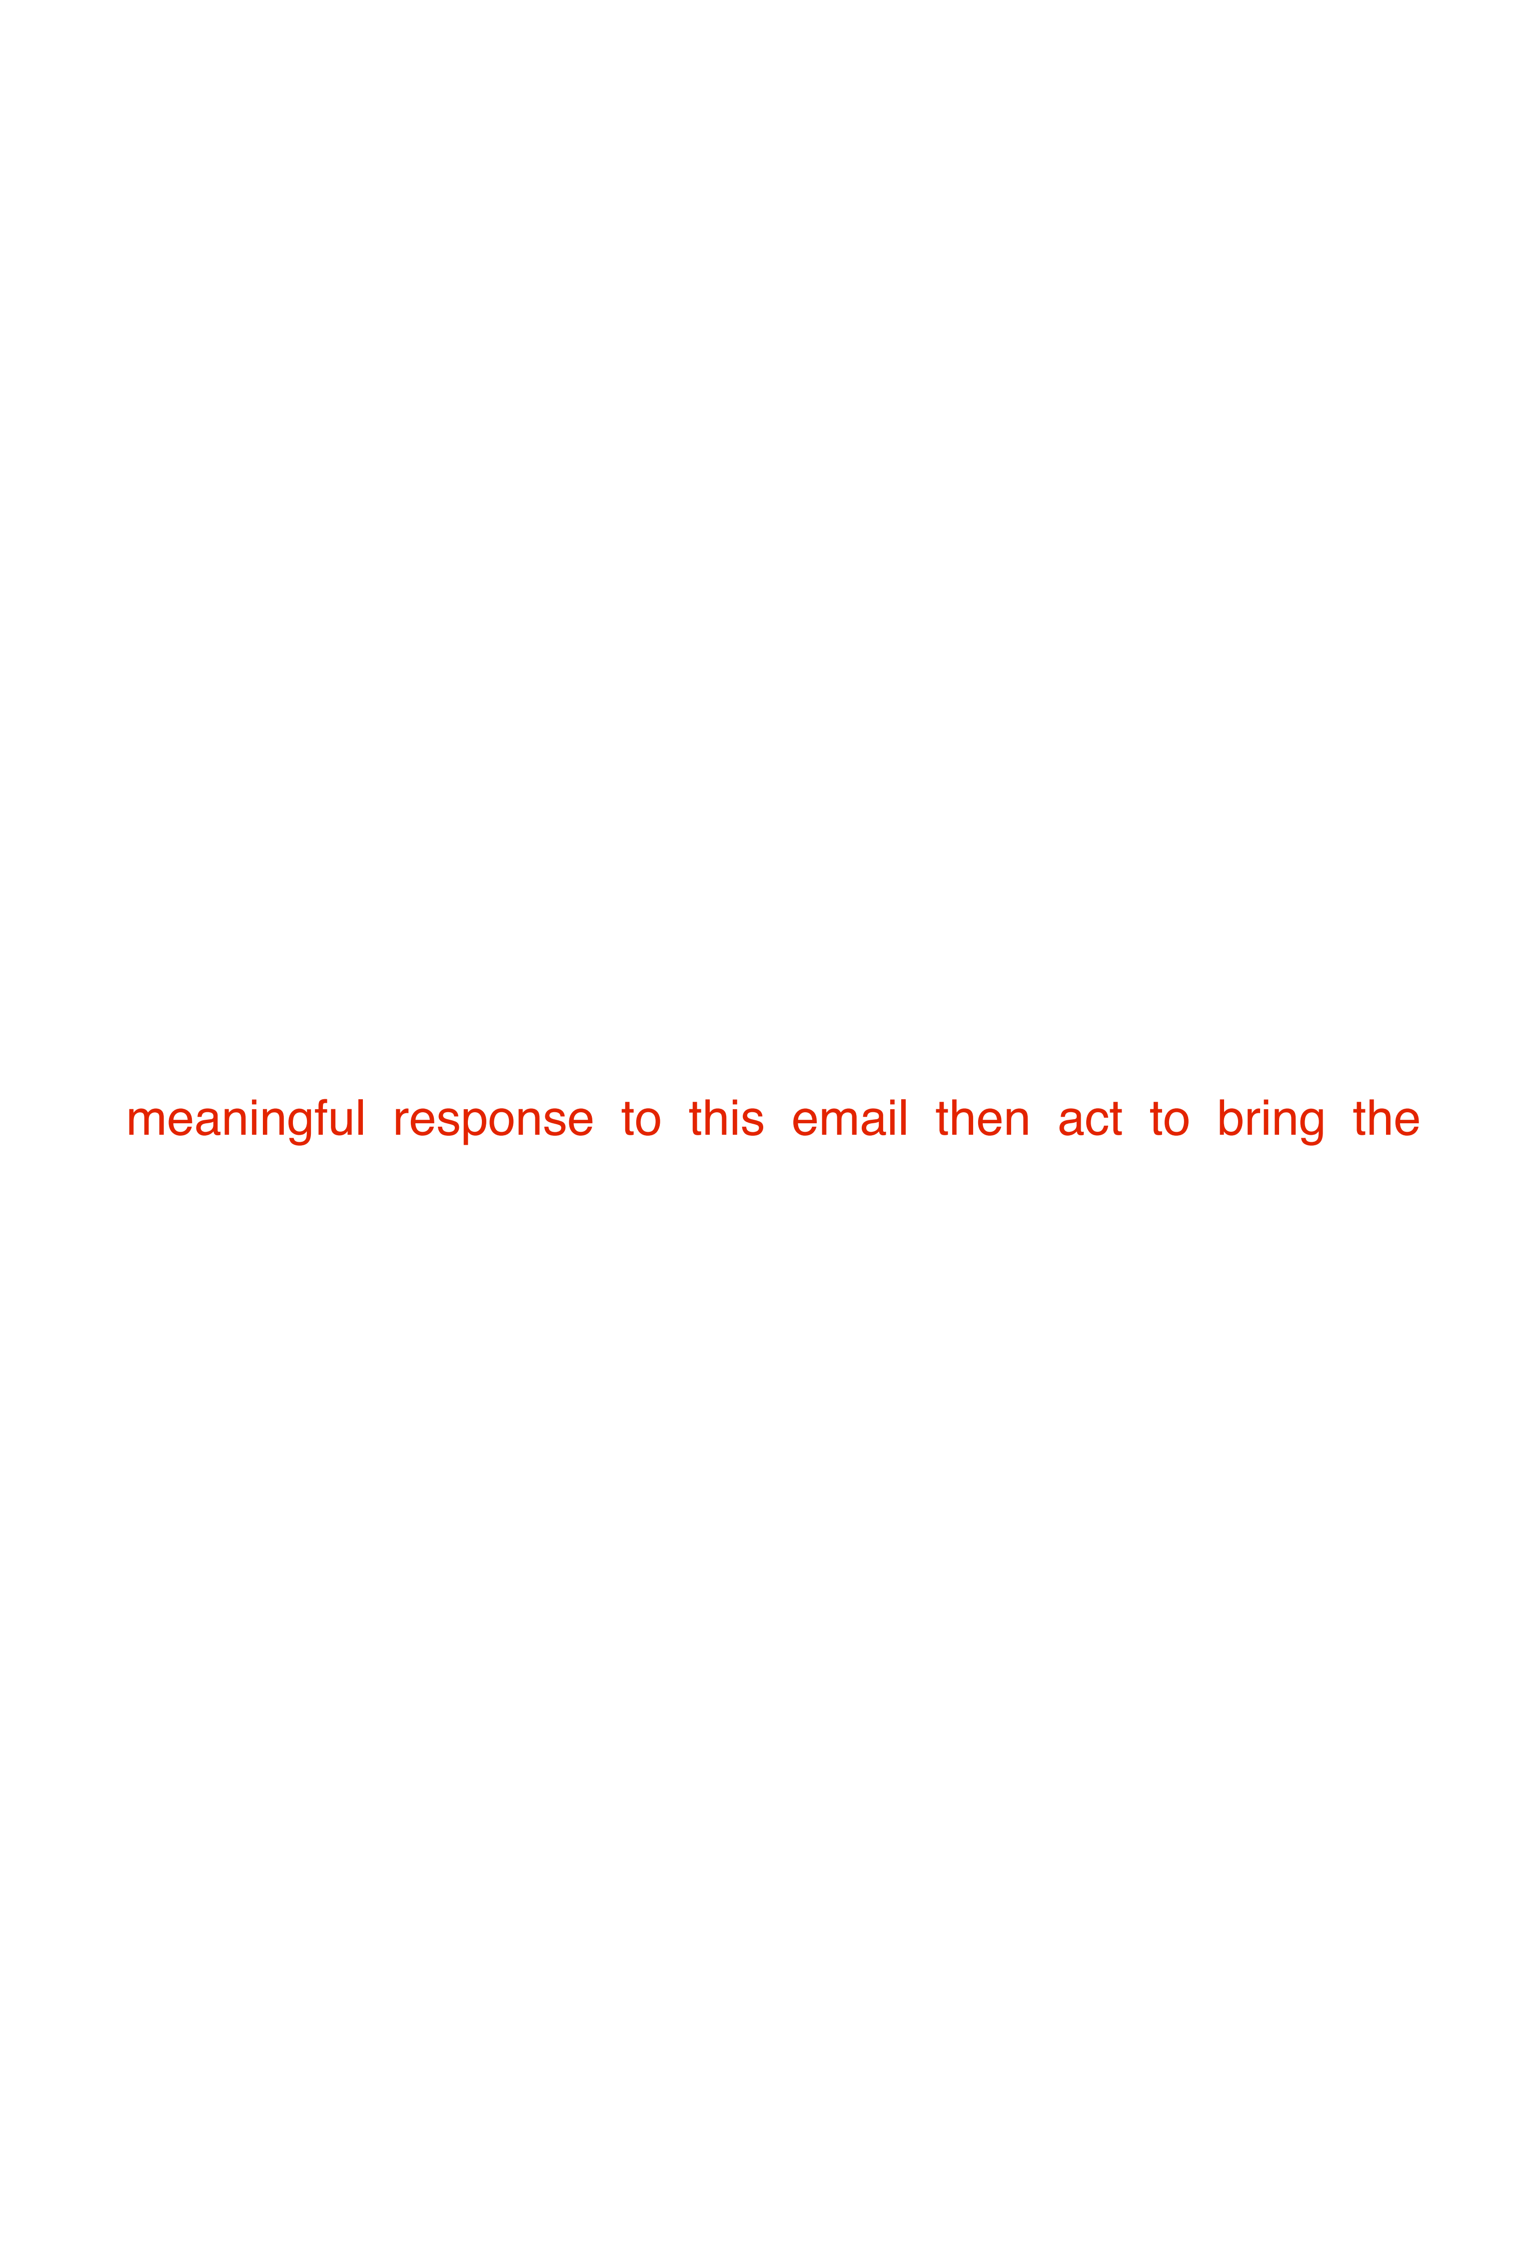

evil mandate to destroy me at all costs. Lastly, through my

exhaustive research by snail mail because my phone and

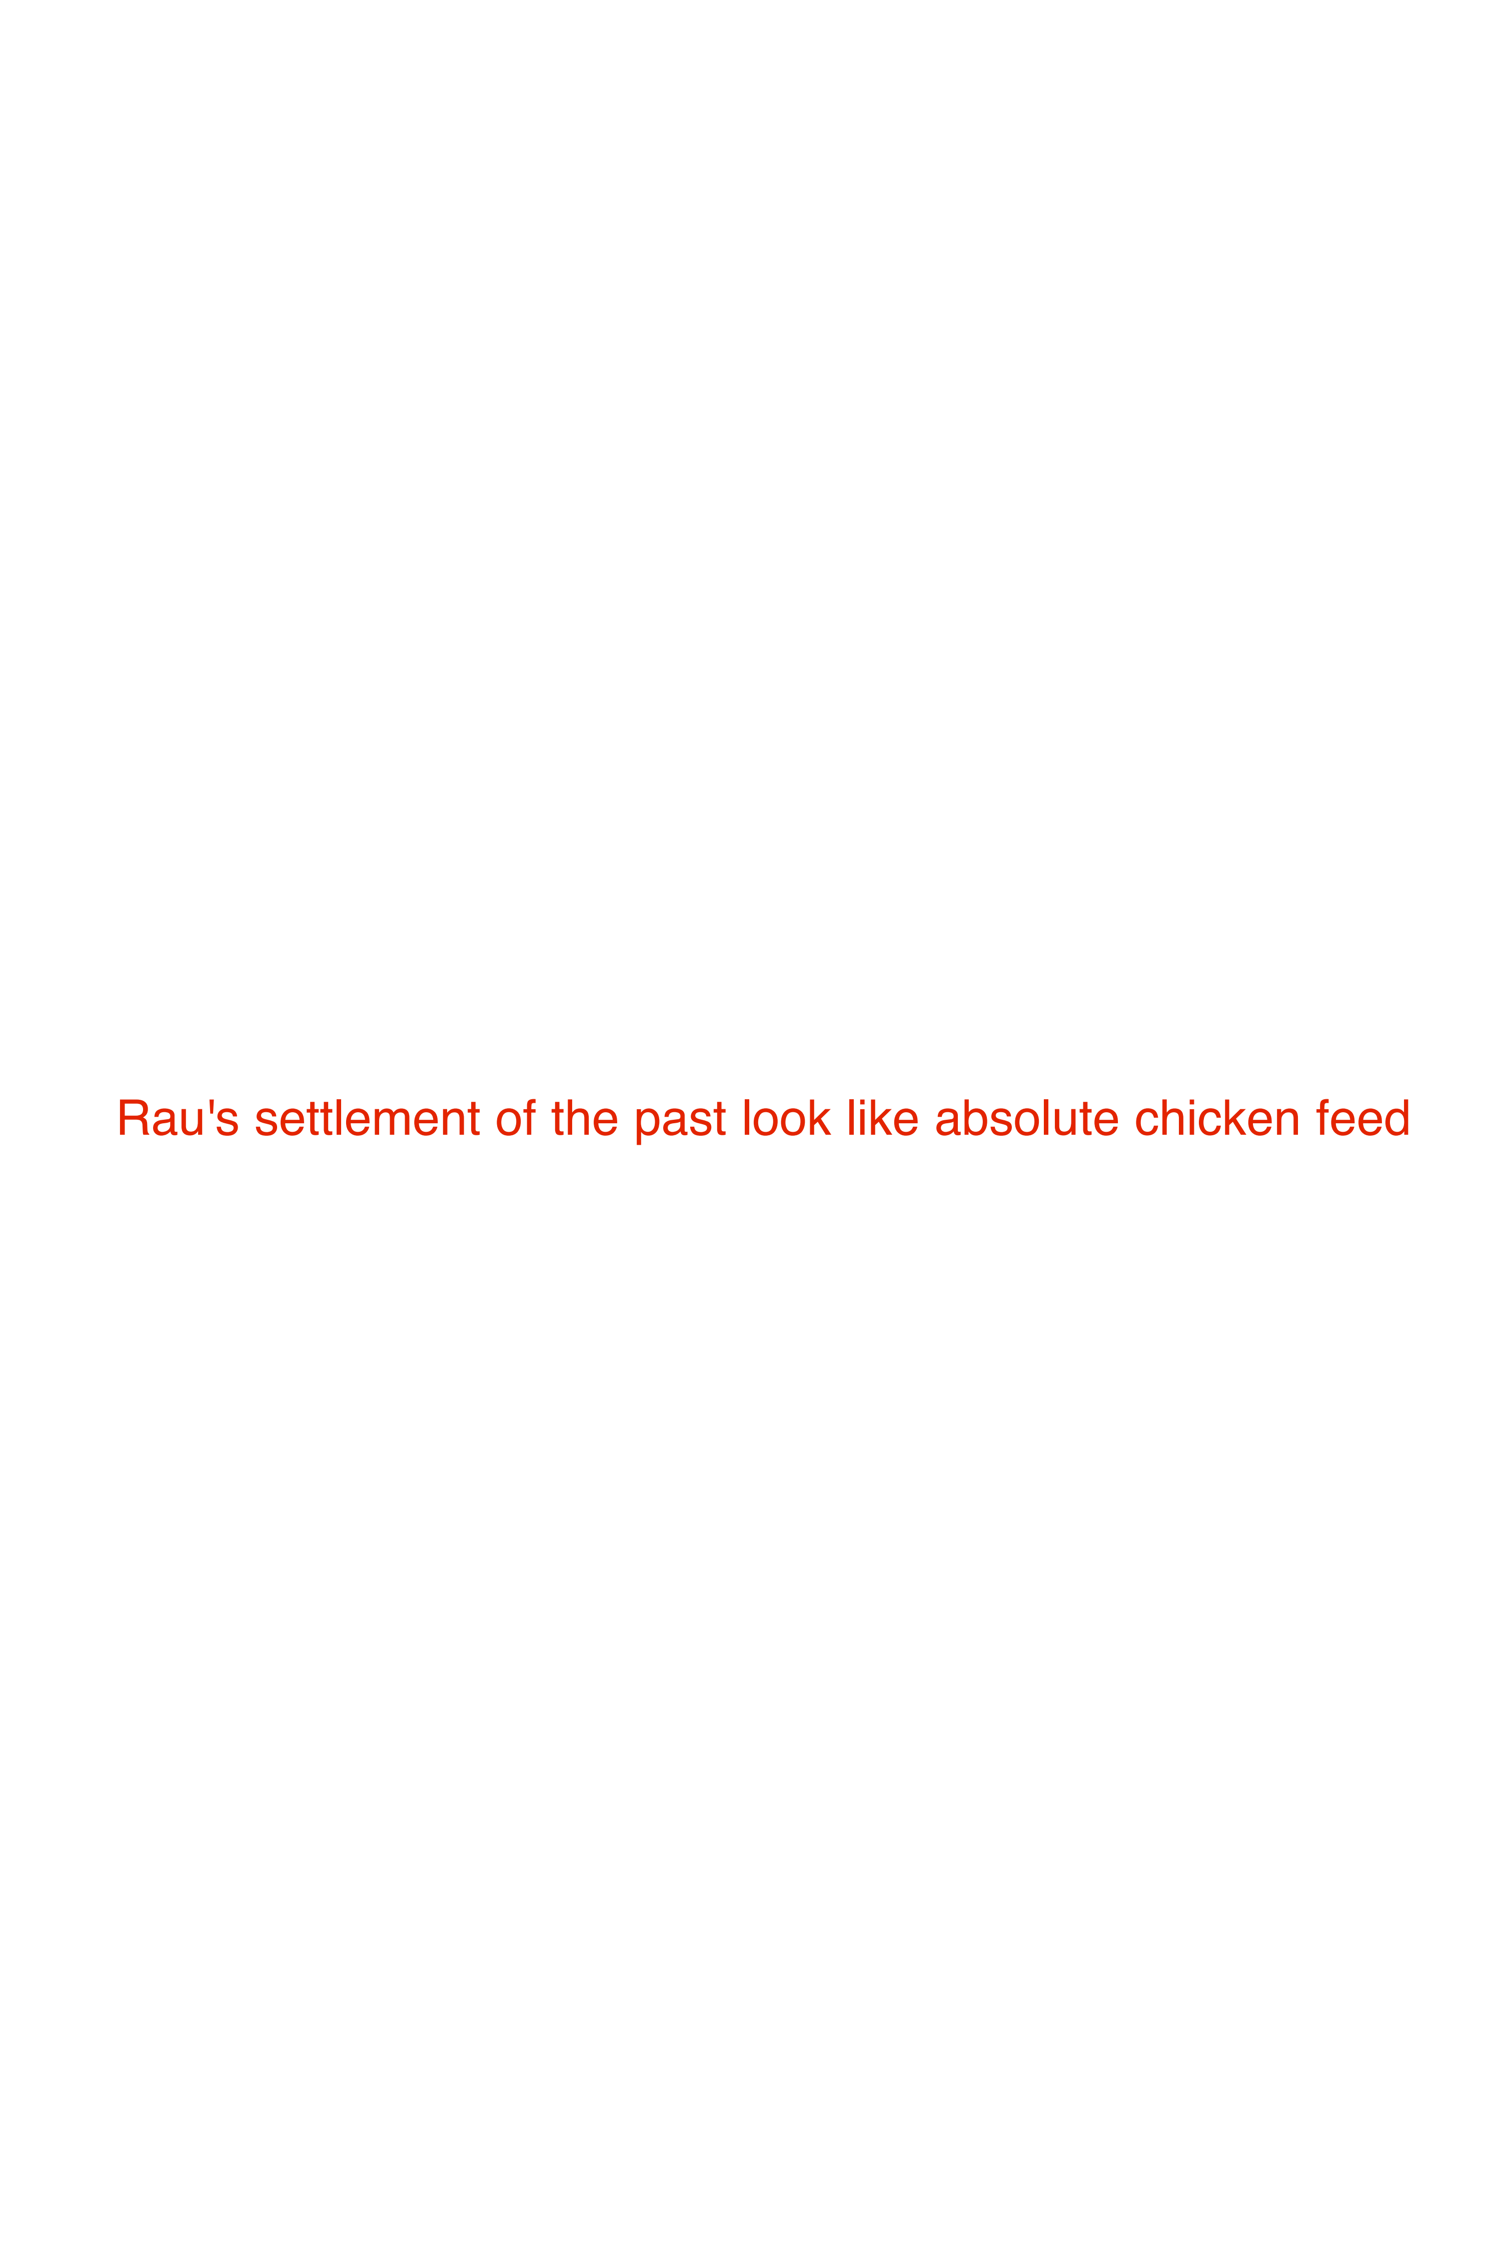

computer are hacked I have recruited the help of a QC who

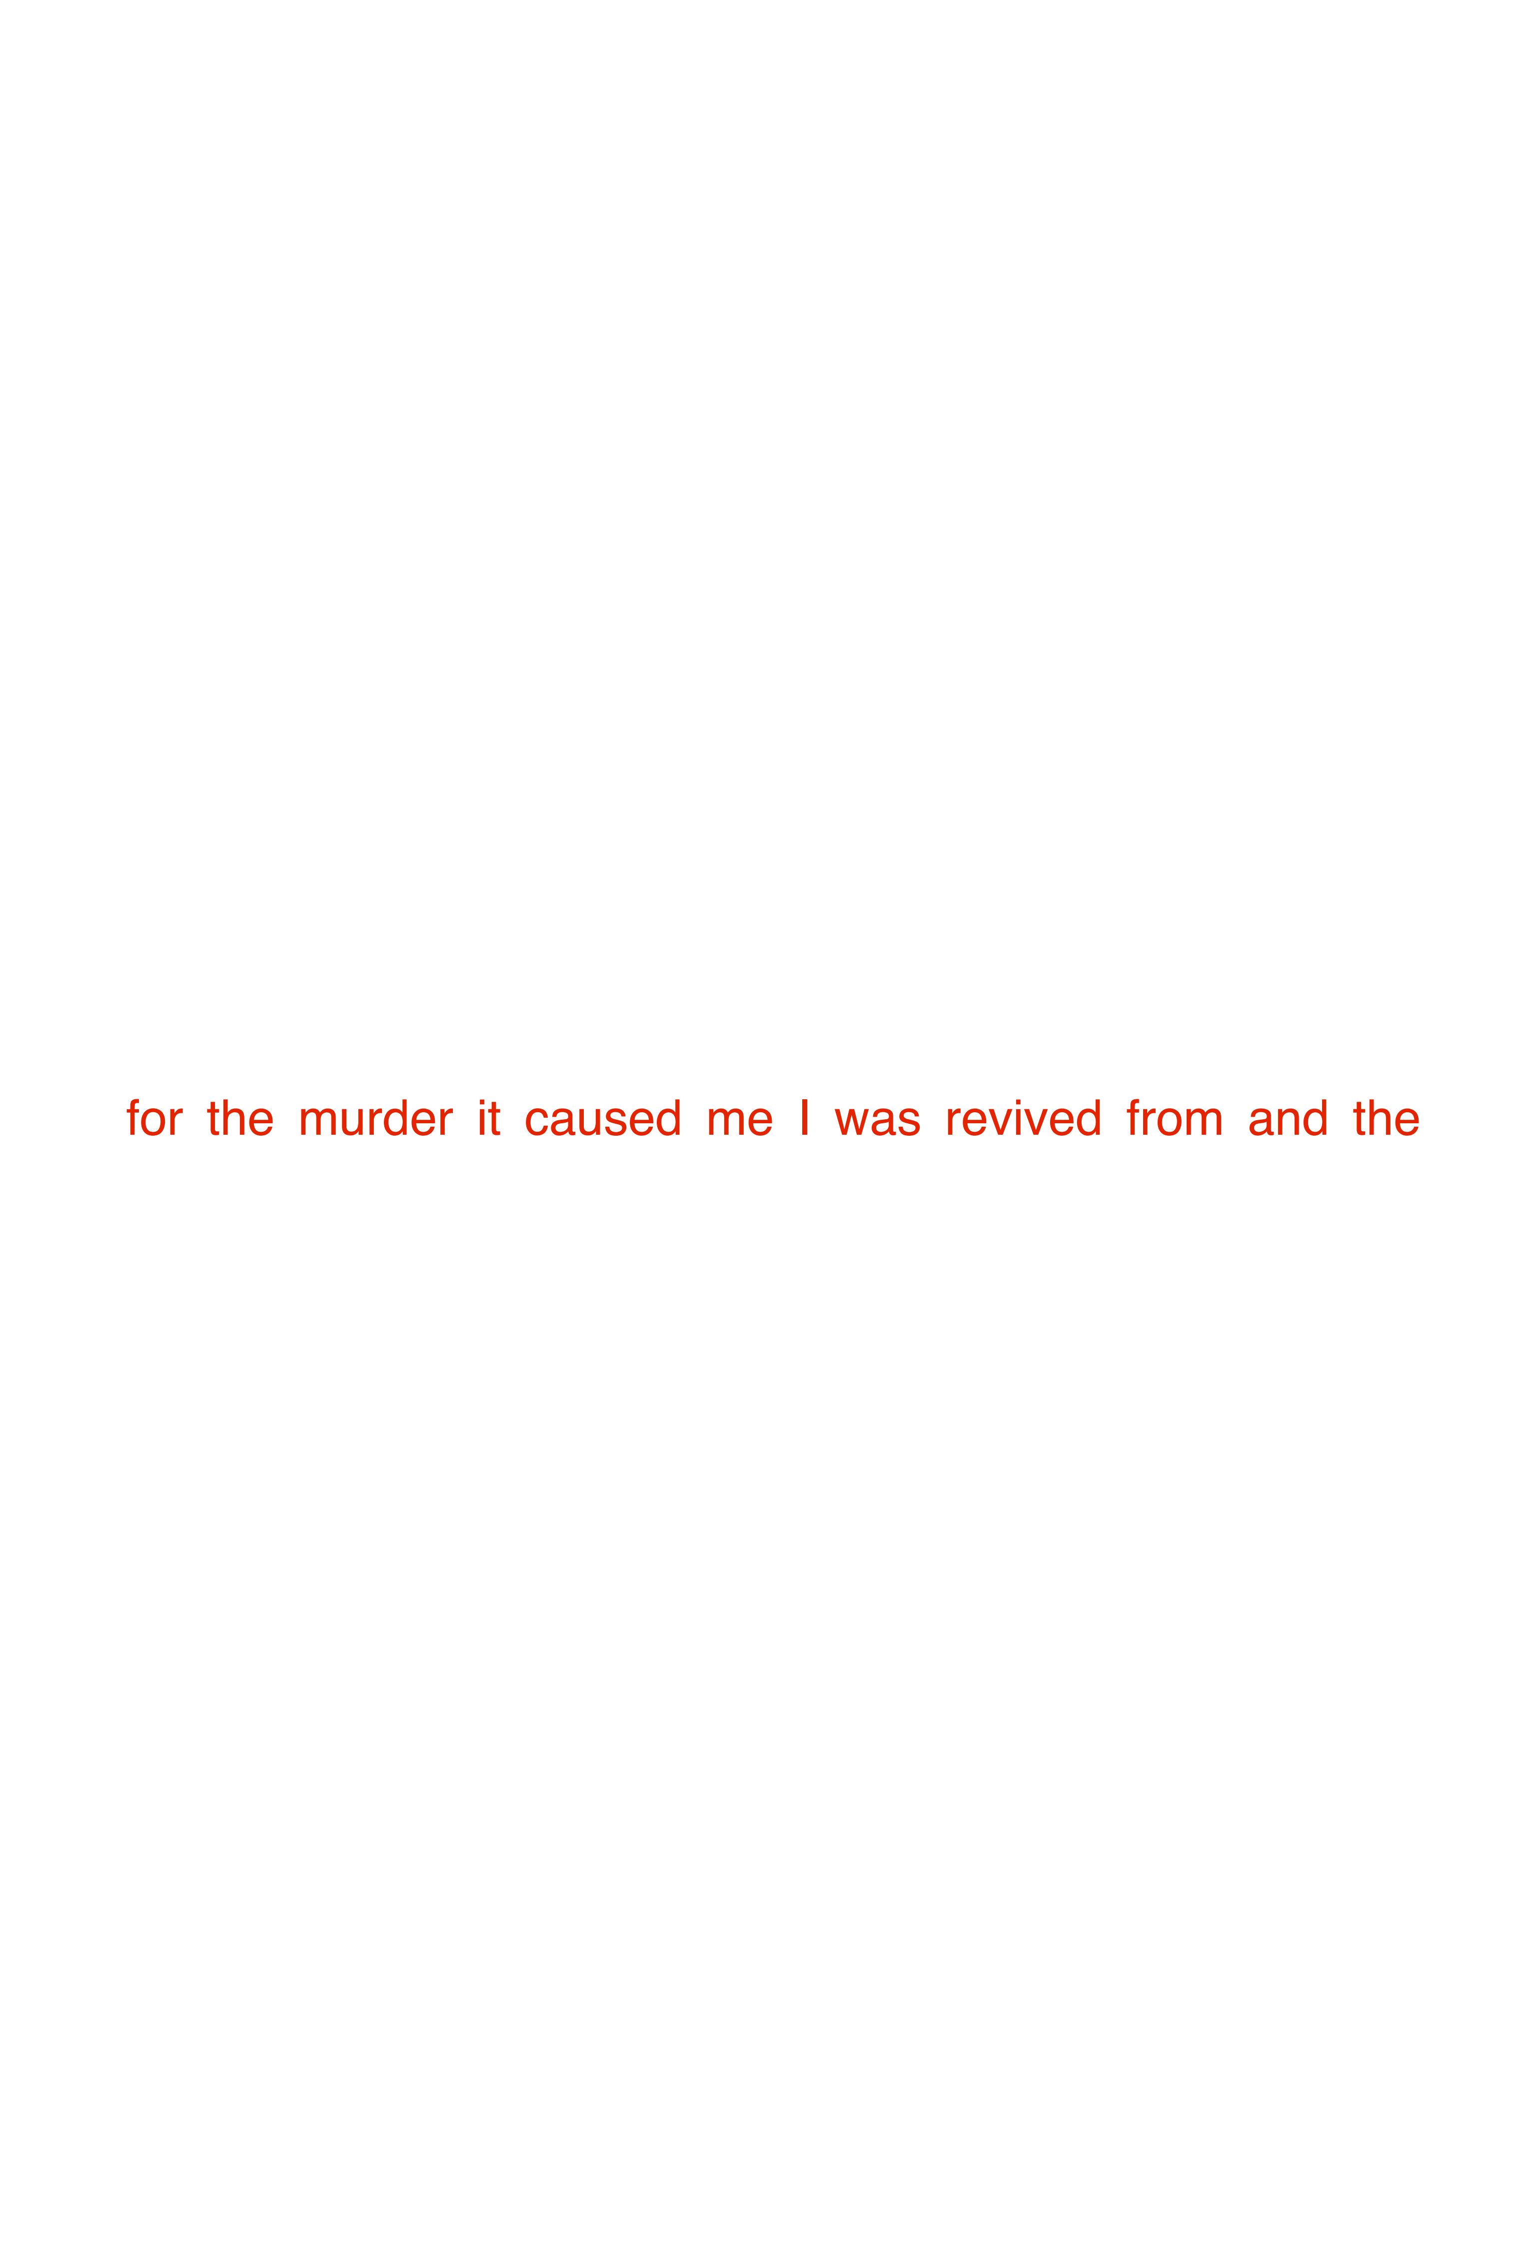

acknowledges my servitude to this country who has now

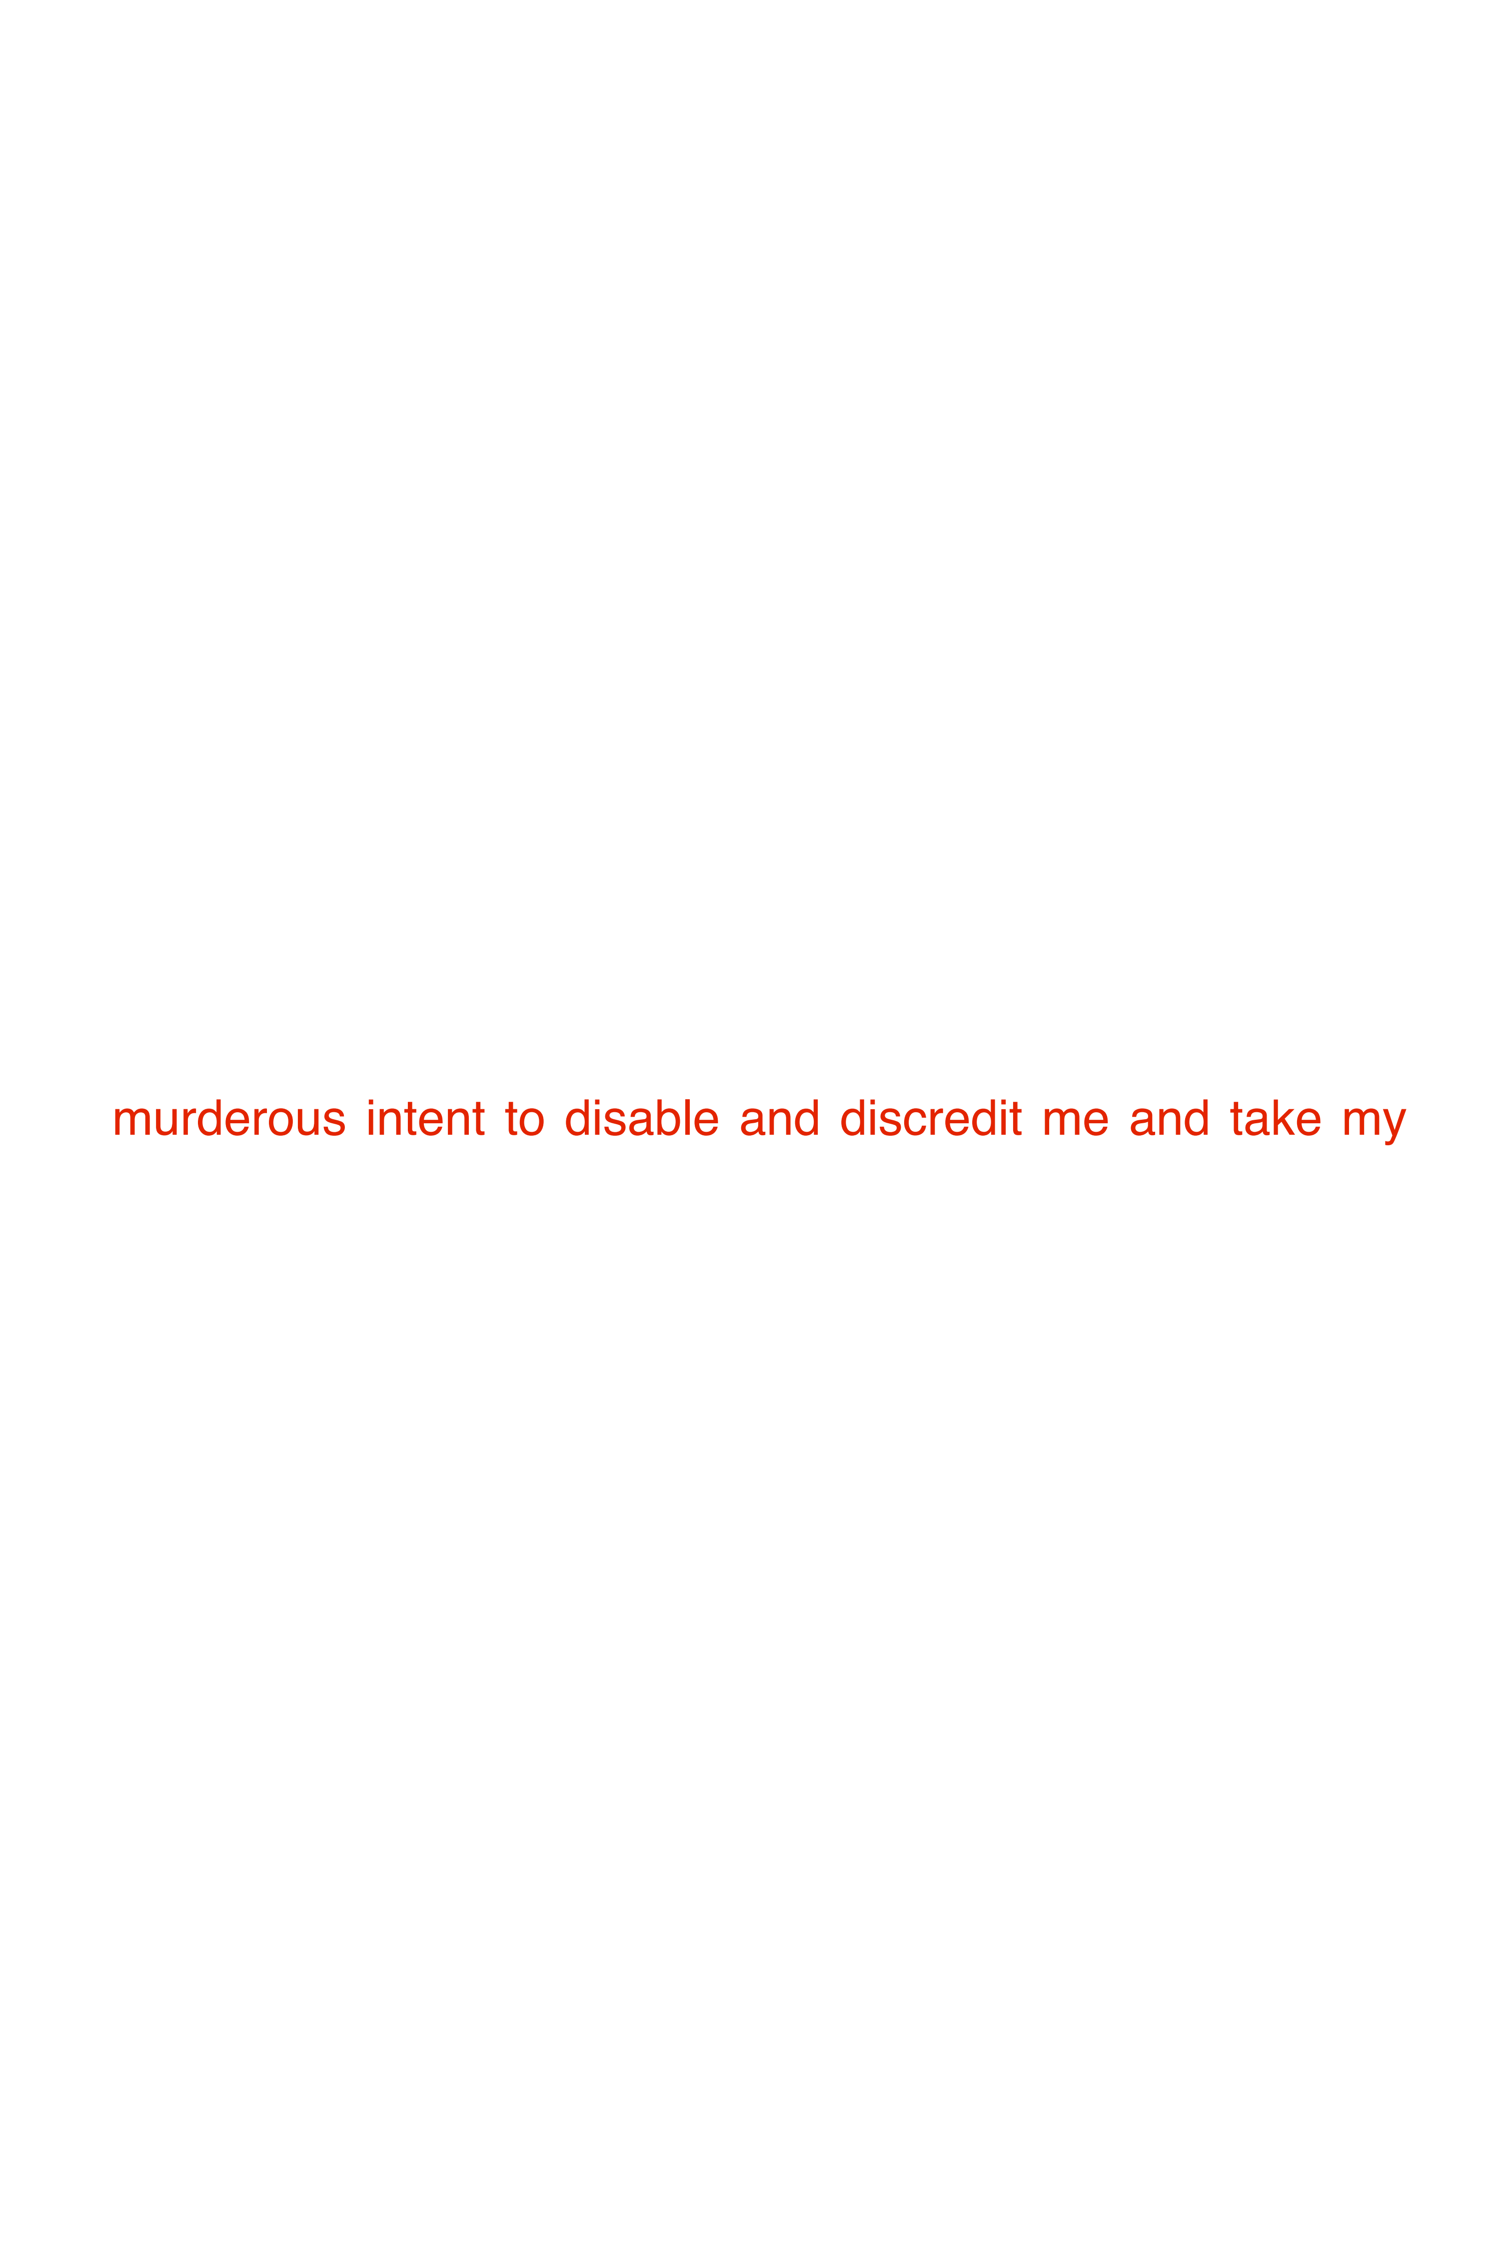

identified me as a targeted individual and will failing a

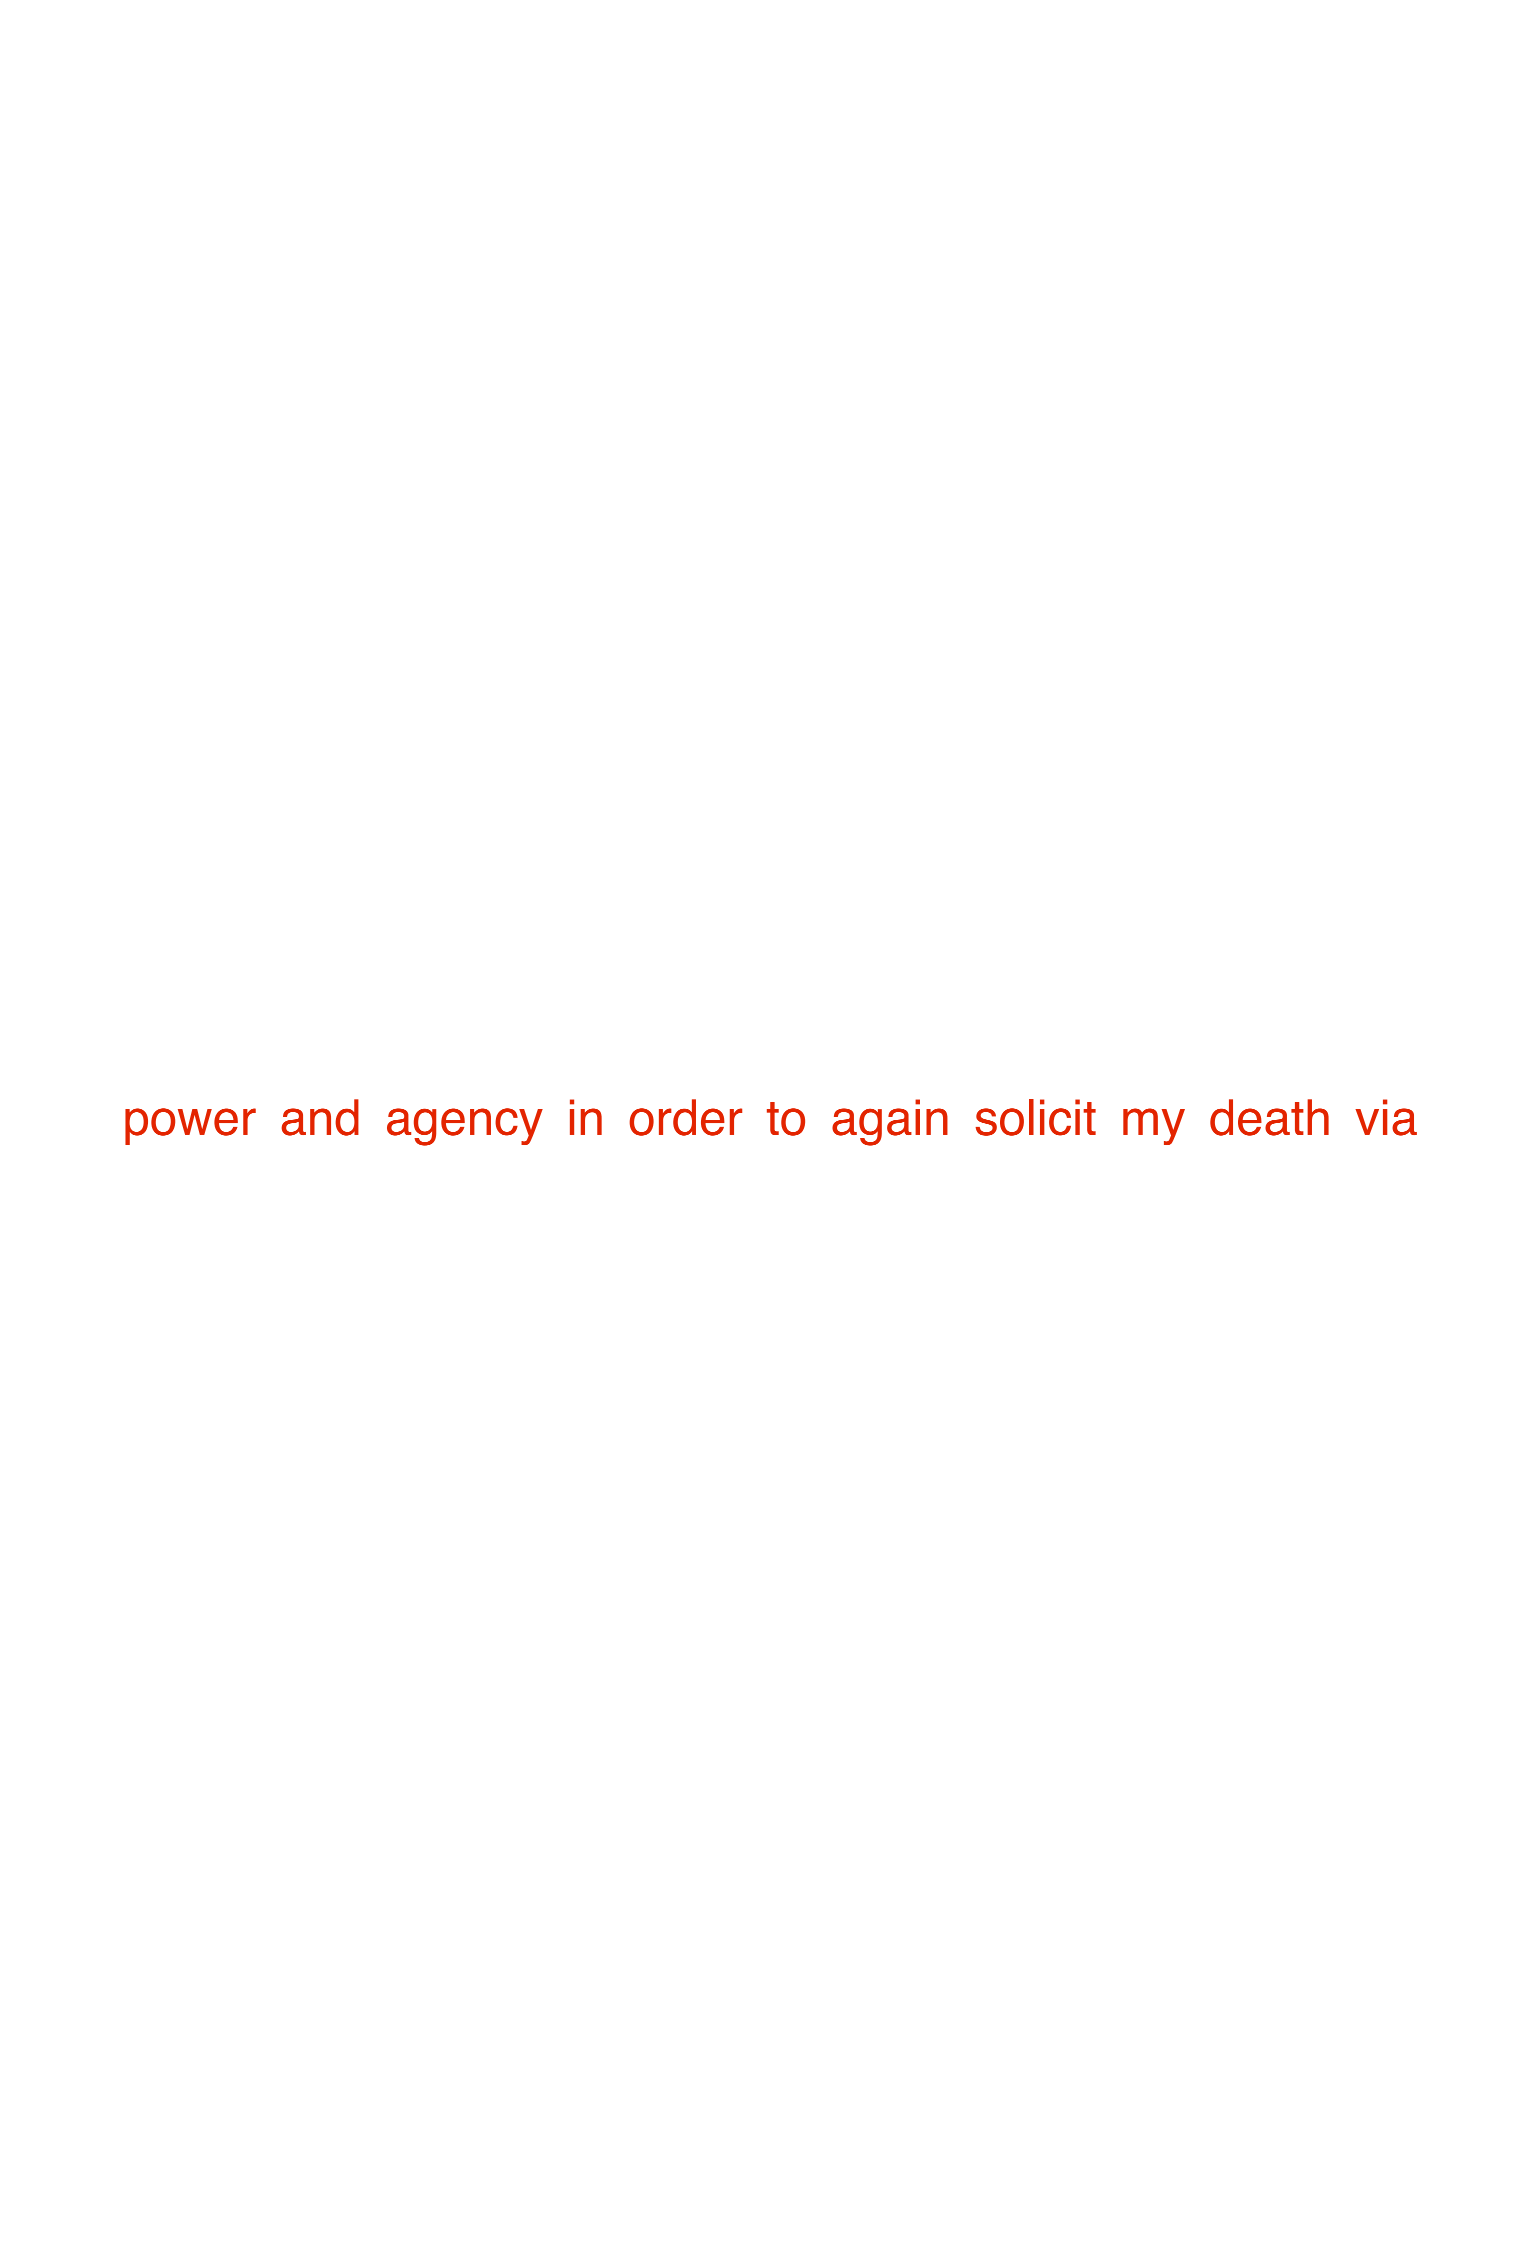

meaningful response to this email then act to bring the

matter before the high court of Australia making Cornelia

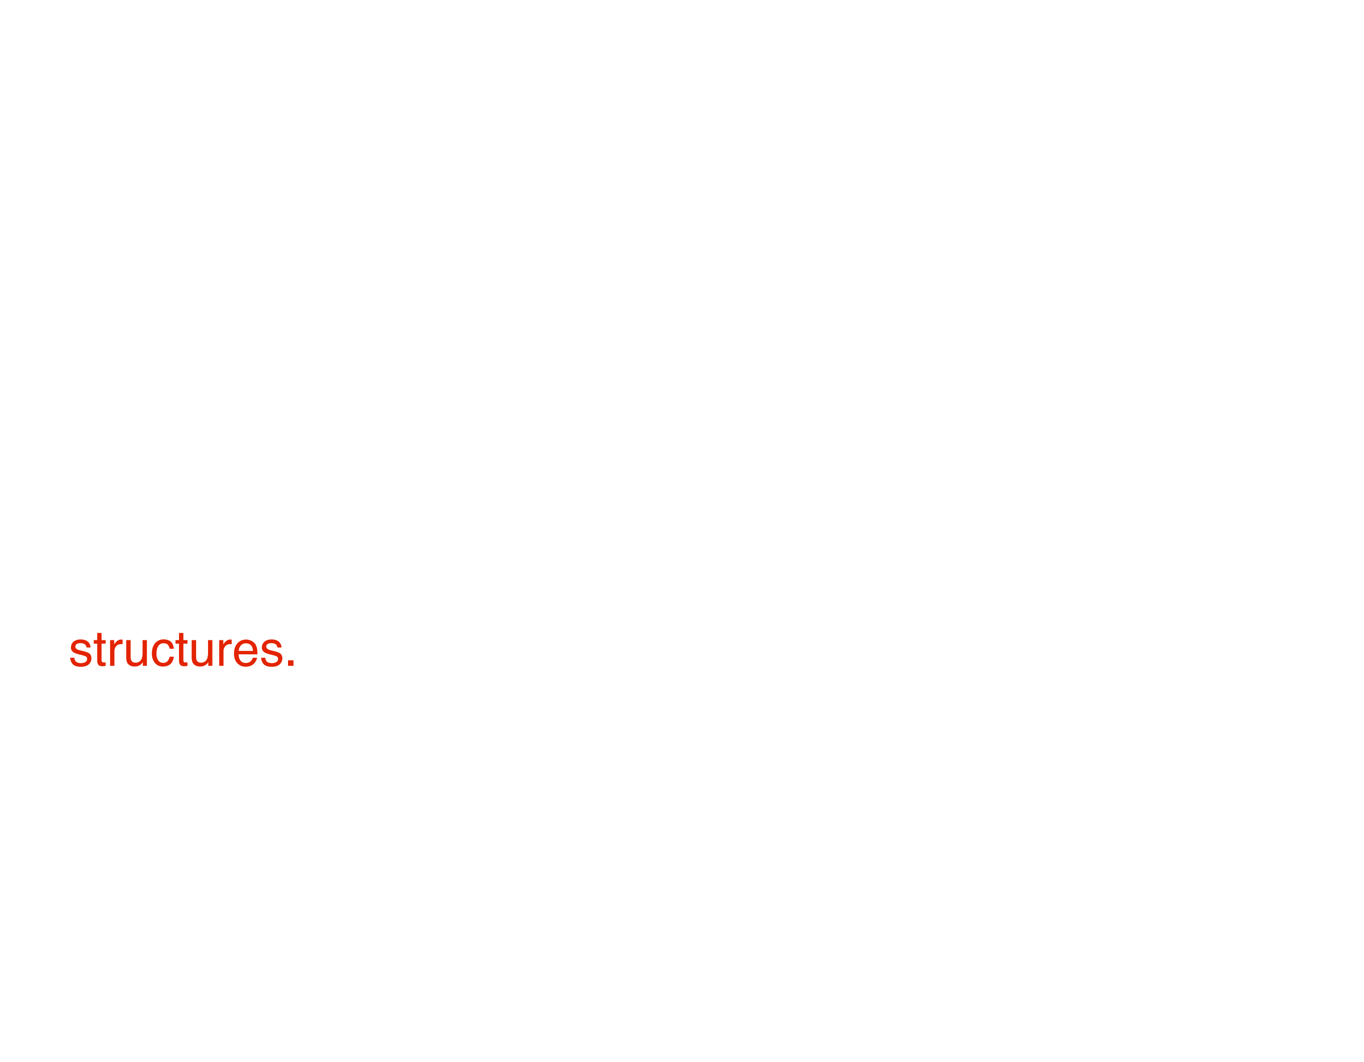

Rau's settlement of the past look like absolute chicken feed

for the murder it caused me I was revived from and the

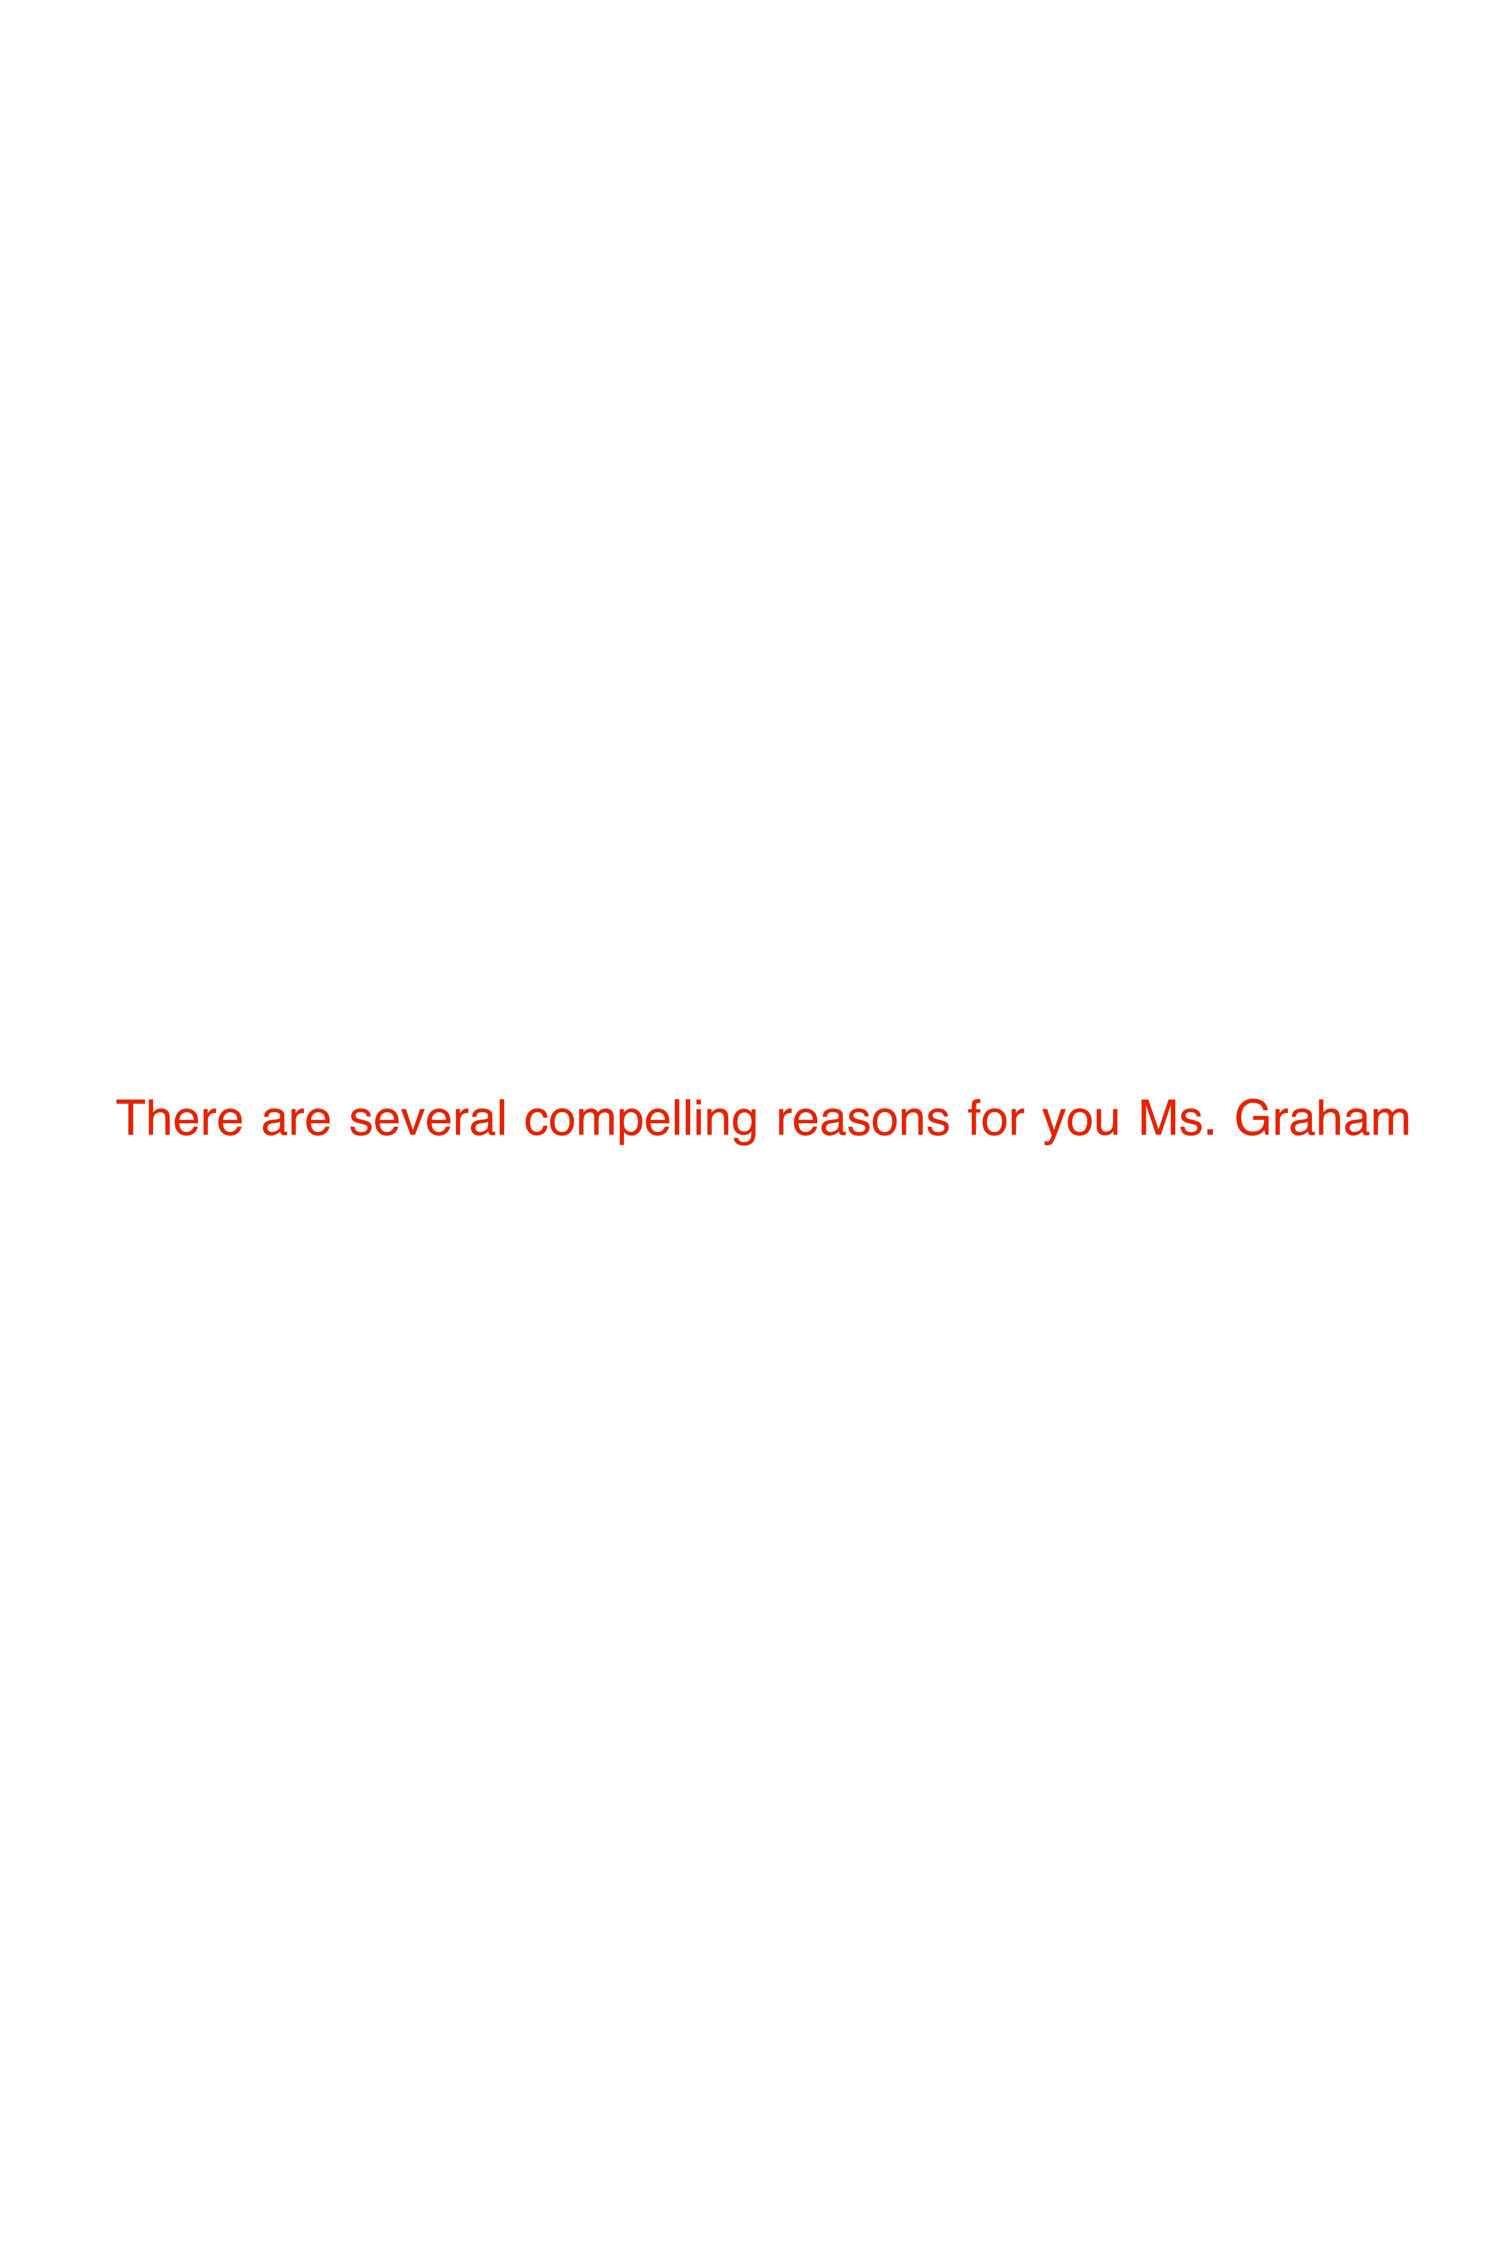

murderous intent to disable and discredit me and take my

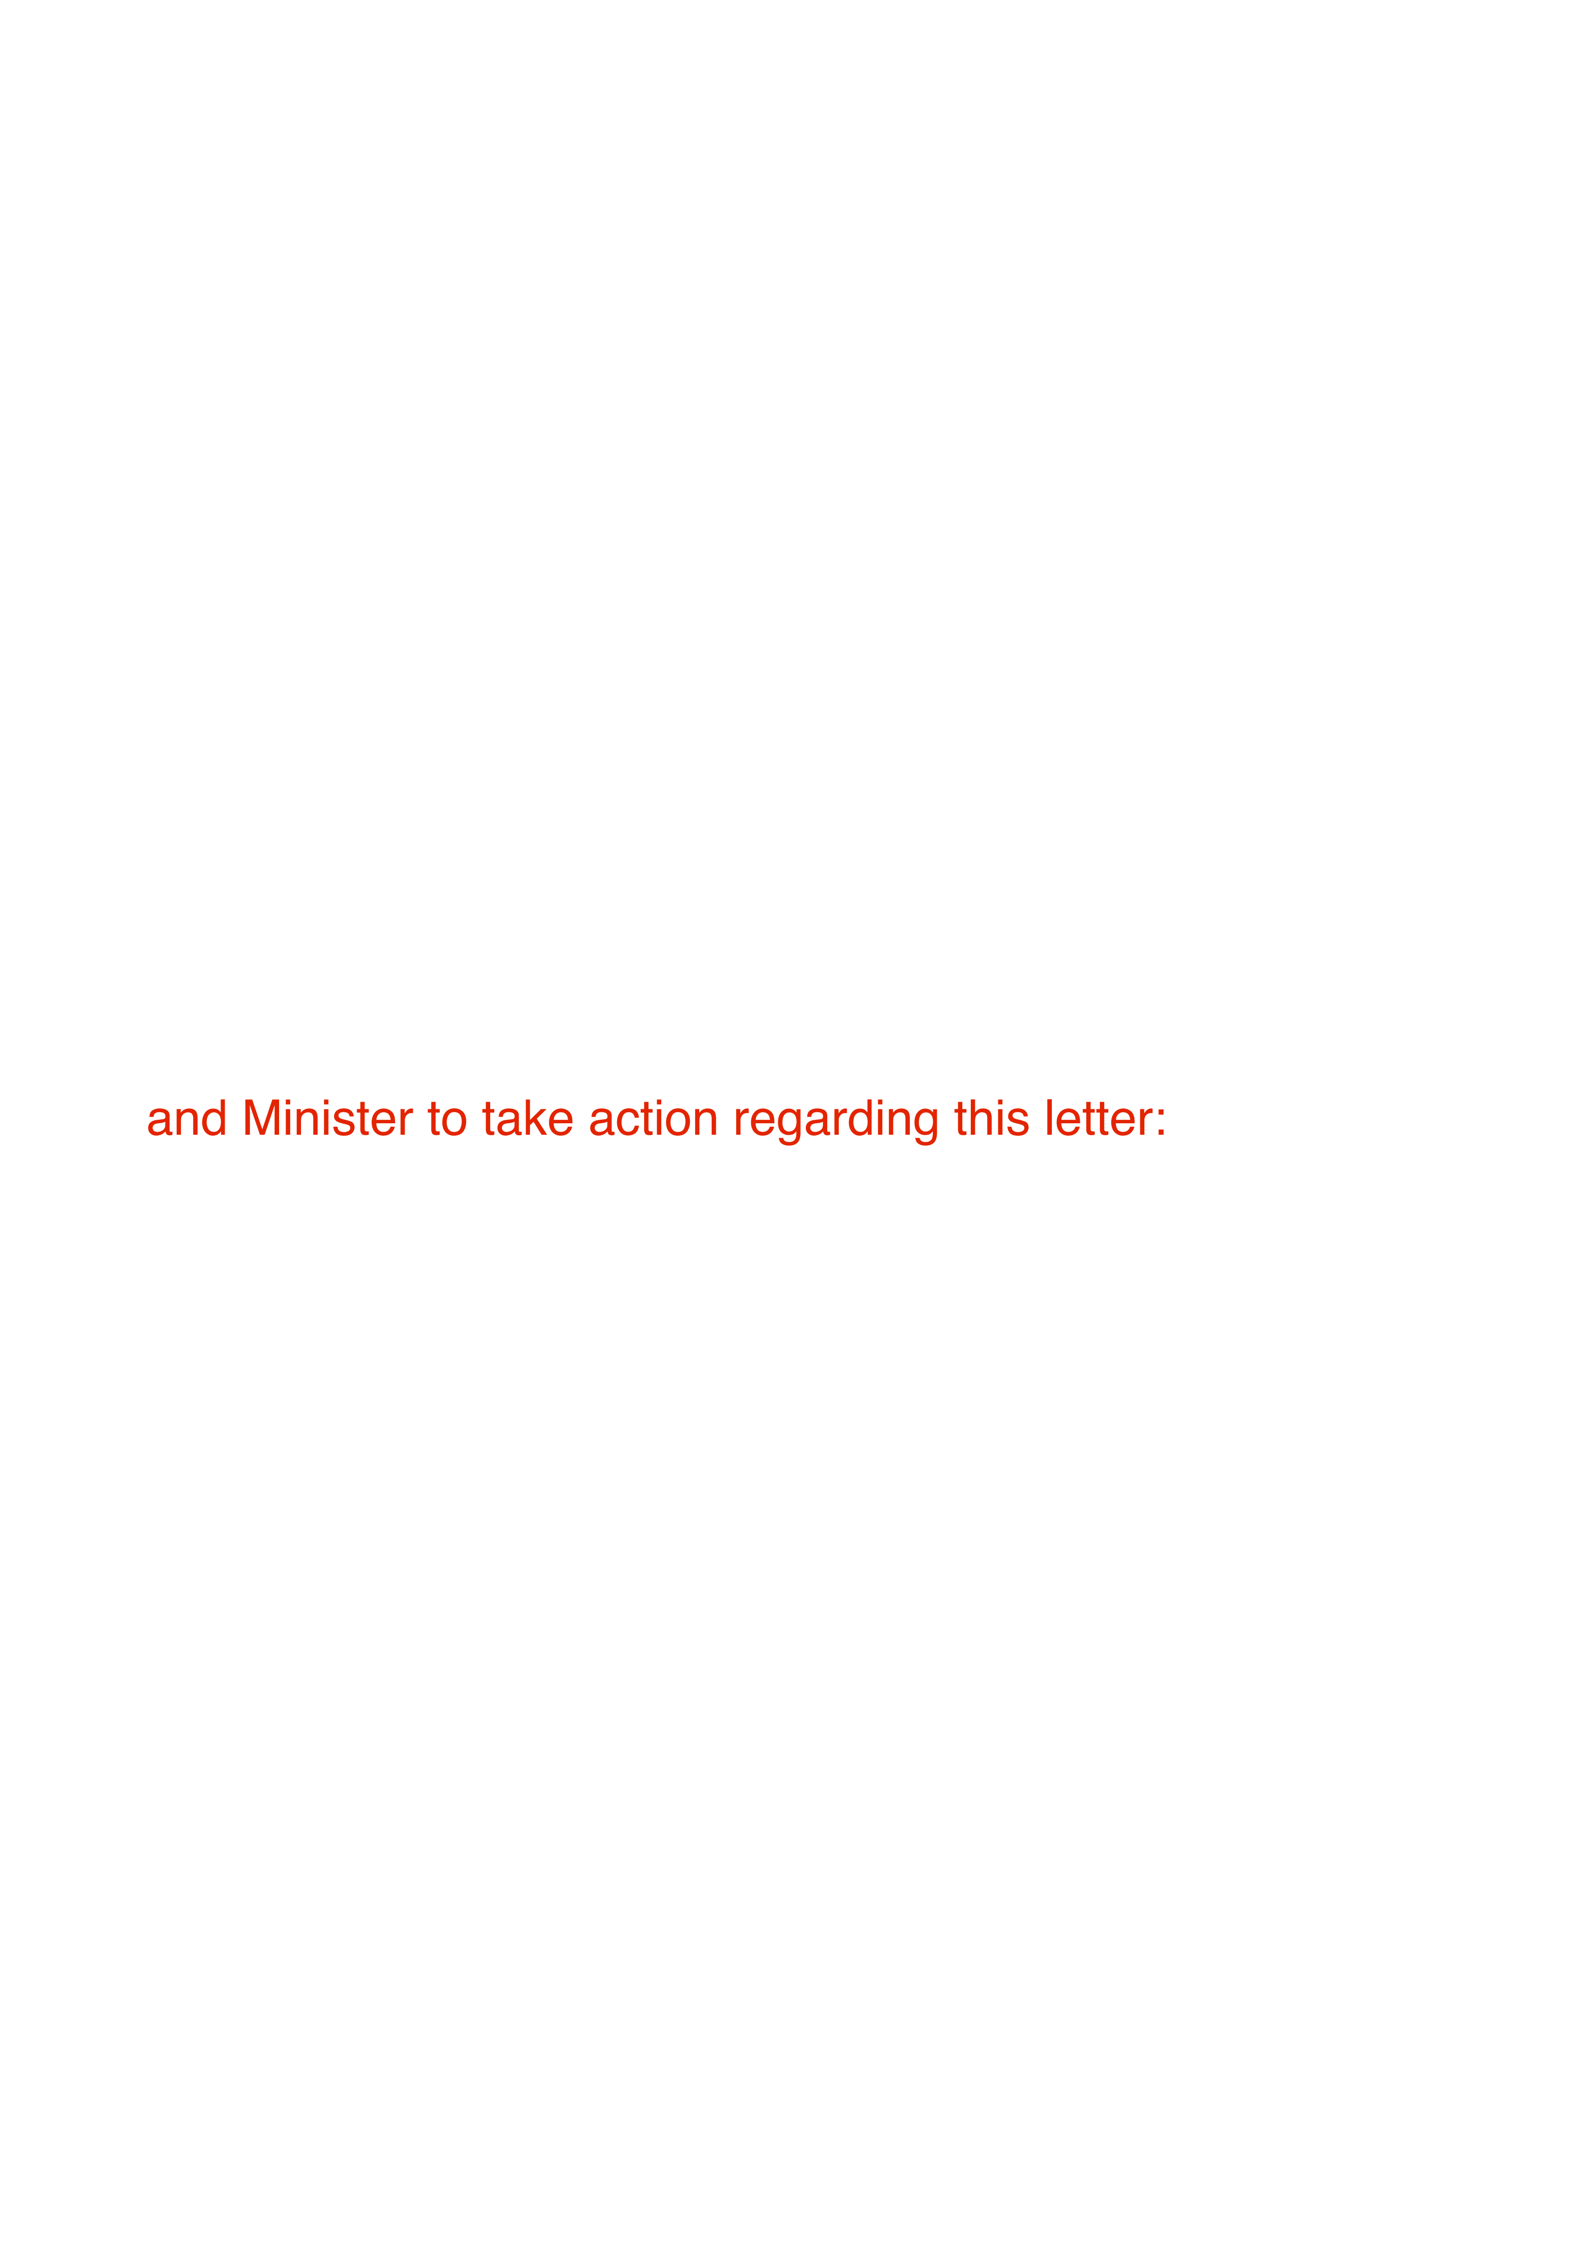

power and agency in order to again solicit my death via

attacking my prosperity and my necessary support

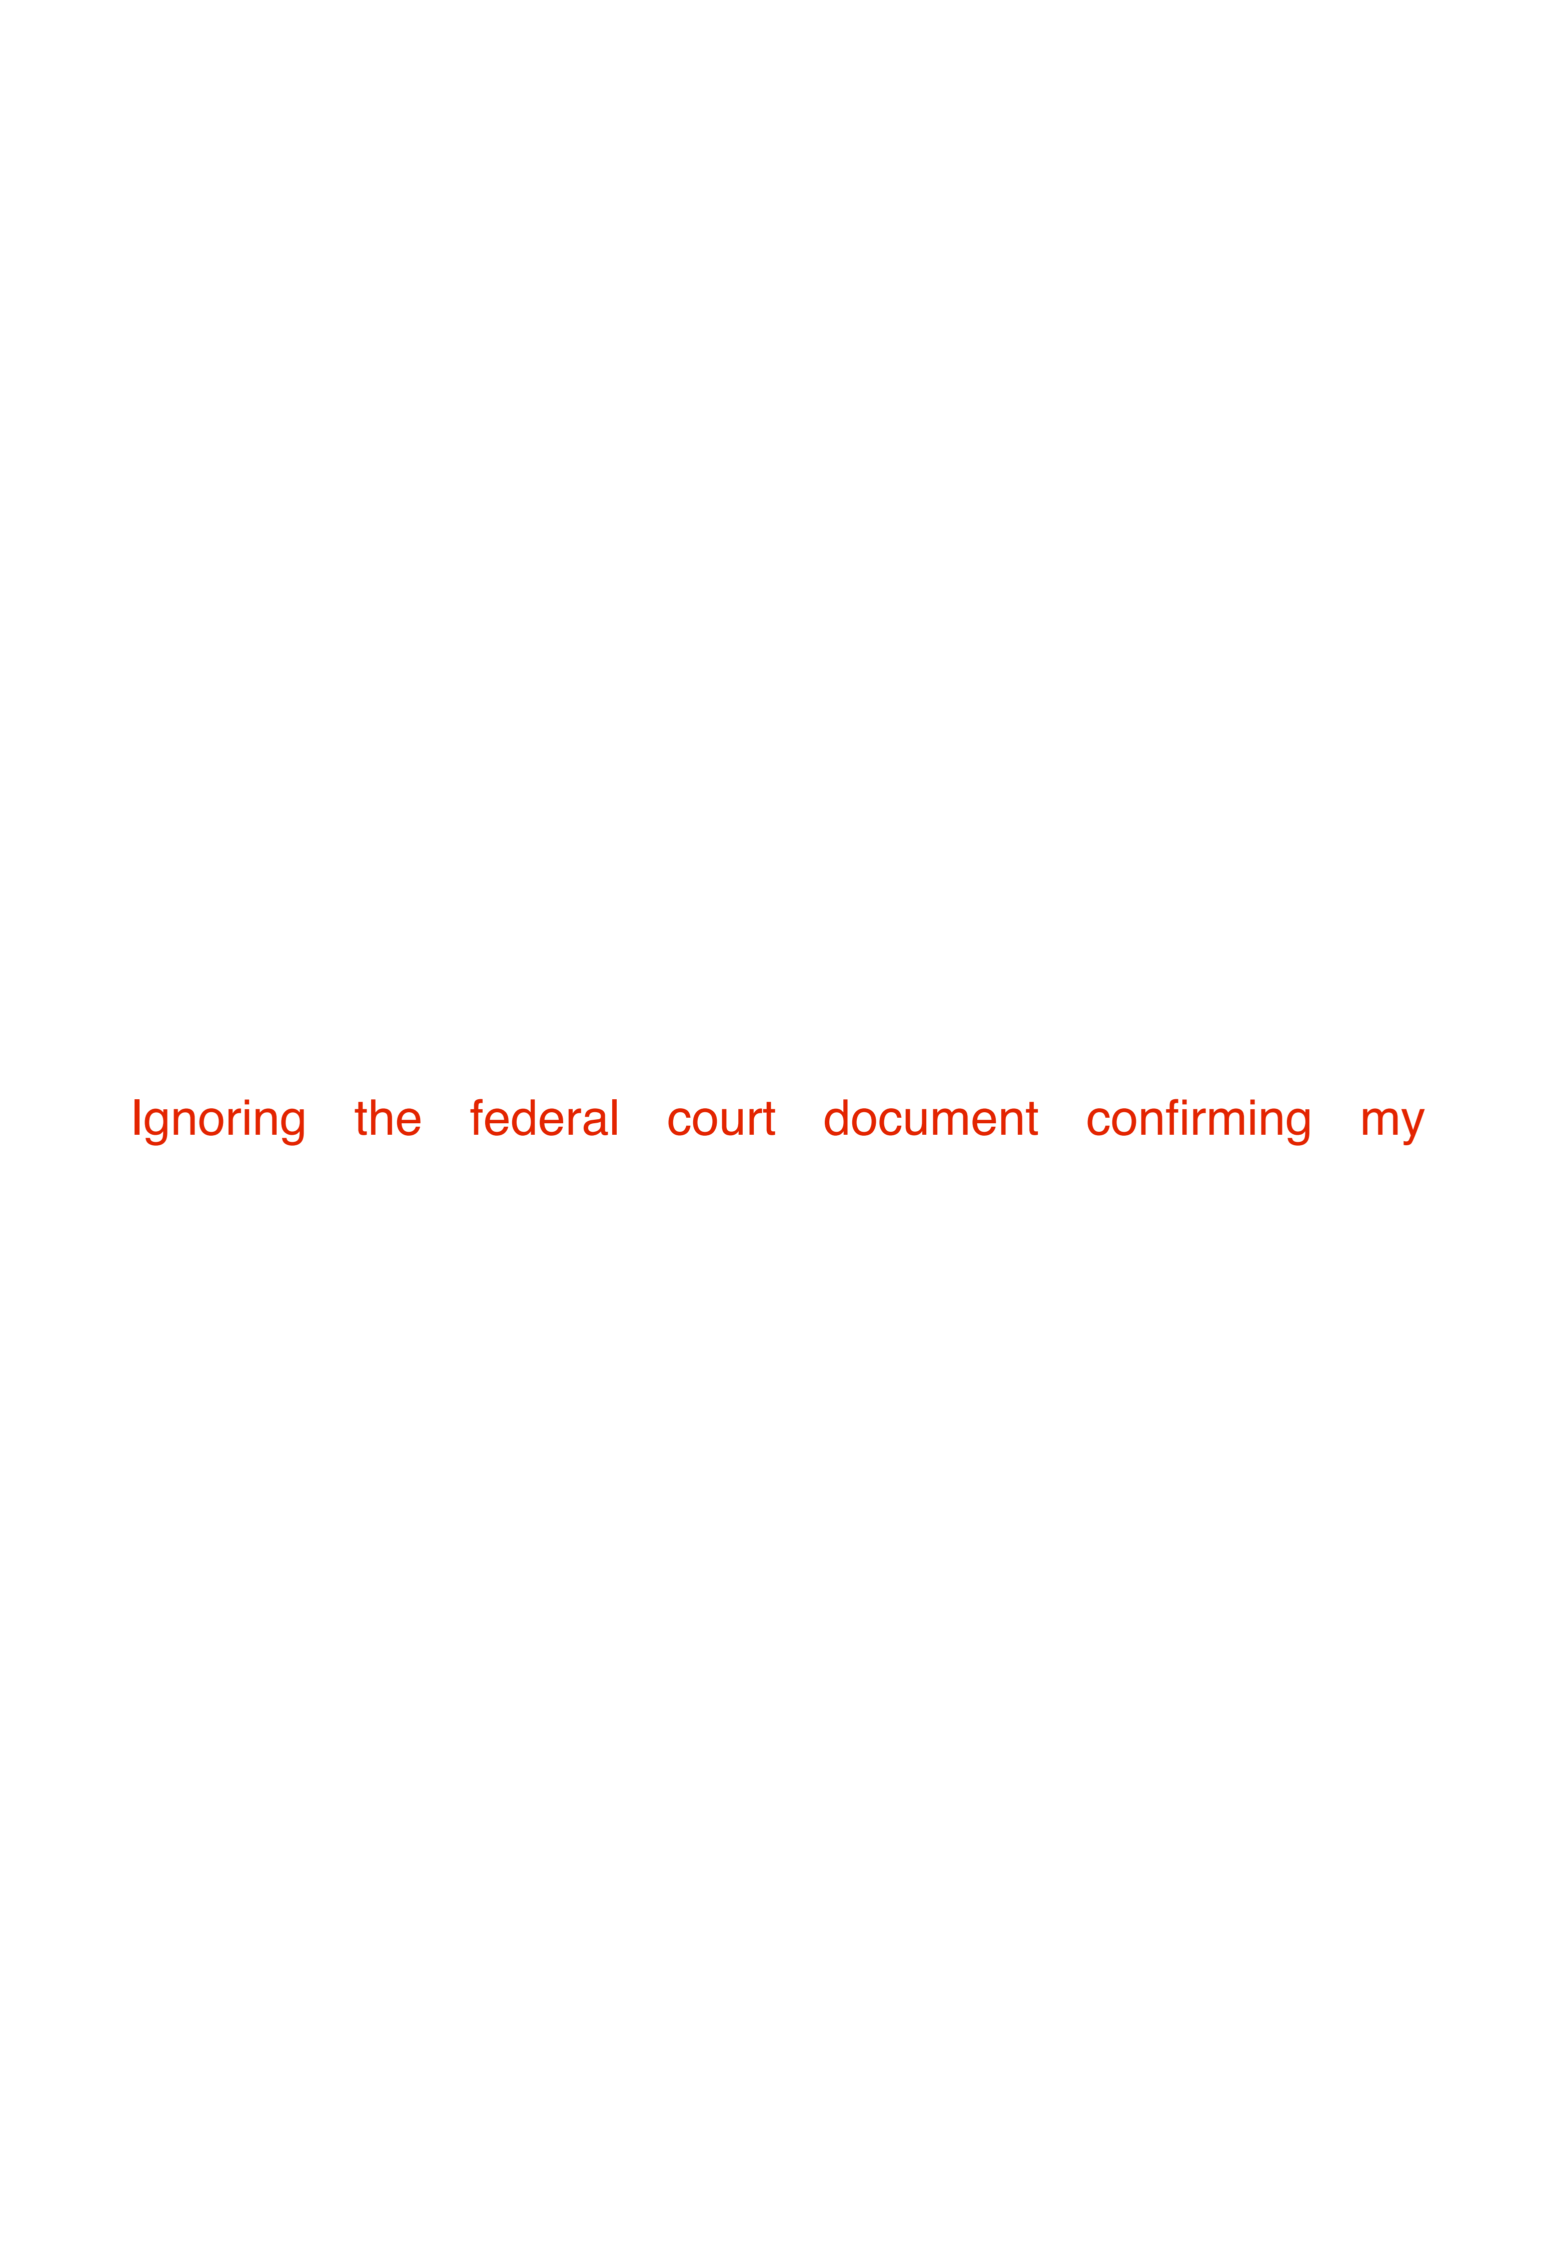

structures.

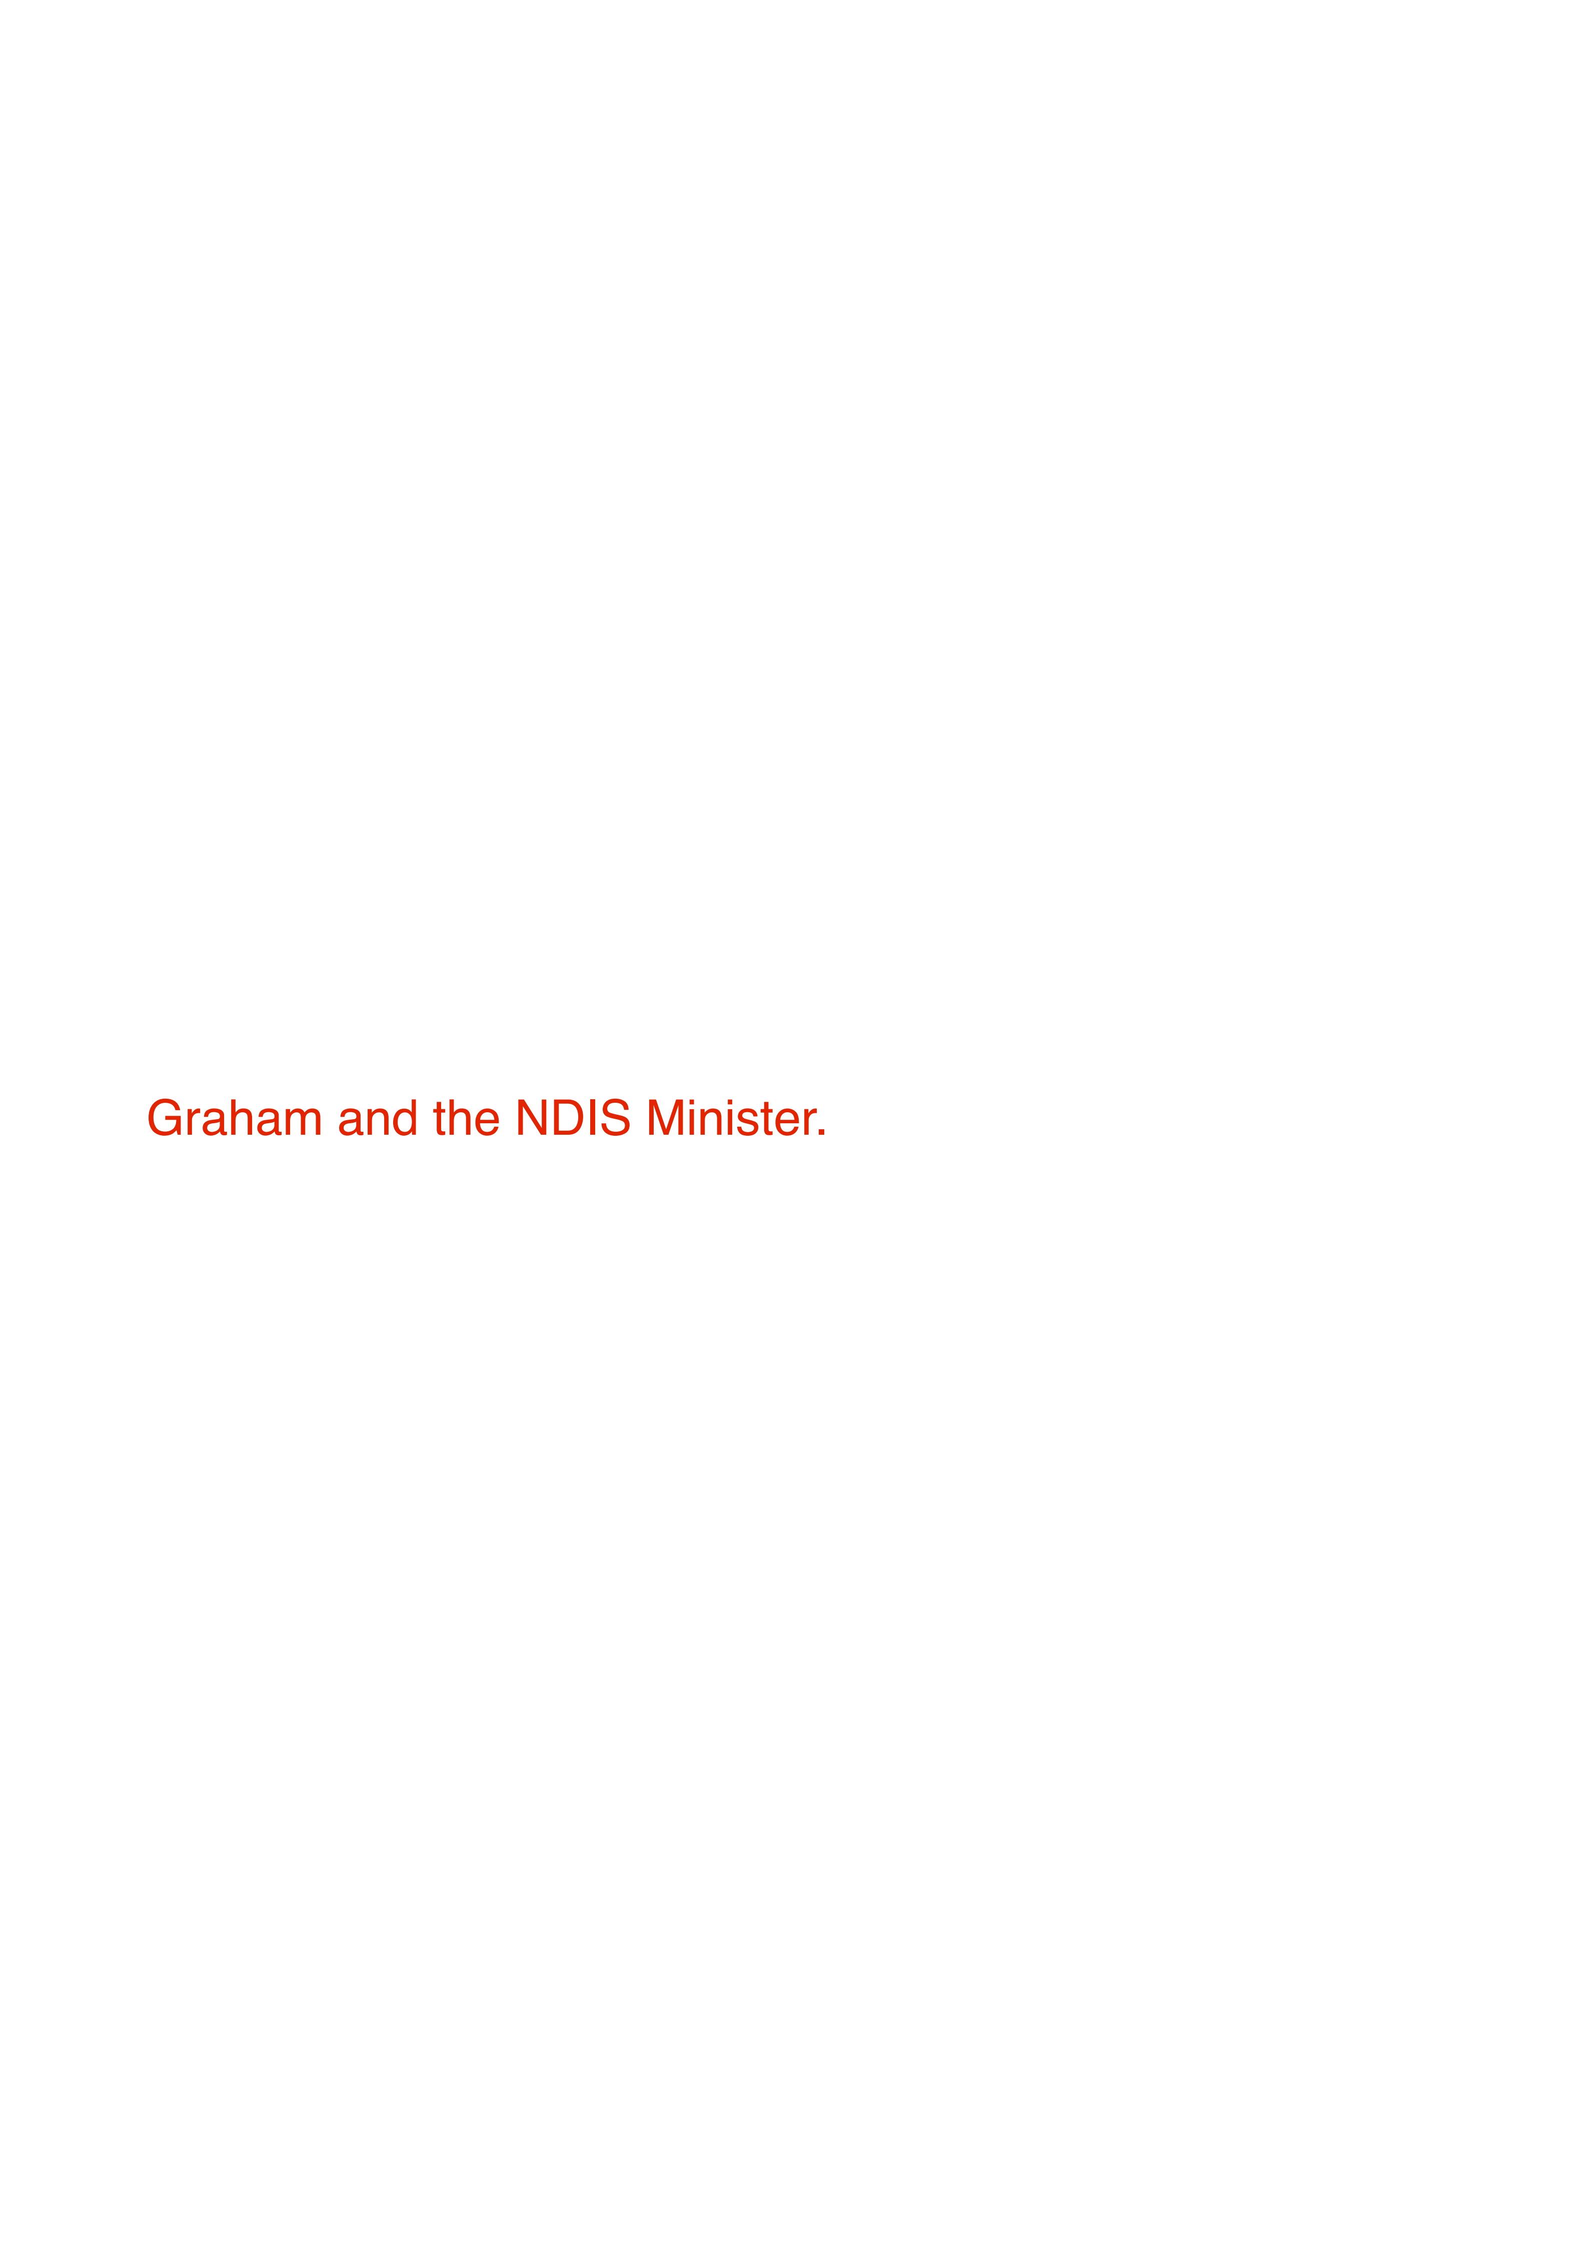

There are several compelling reasons for you Ms. Graham

and Minister to take action regarding this letter:

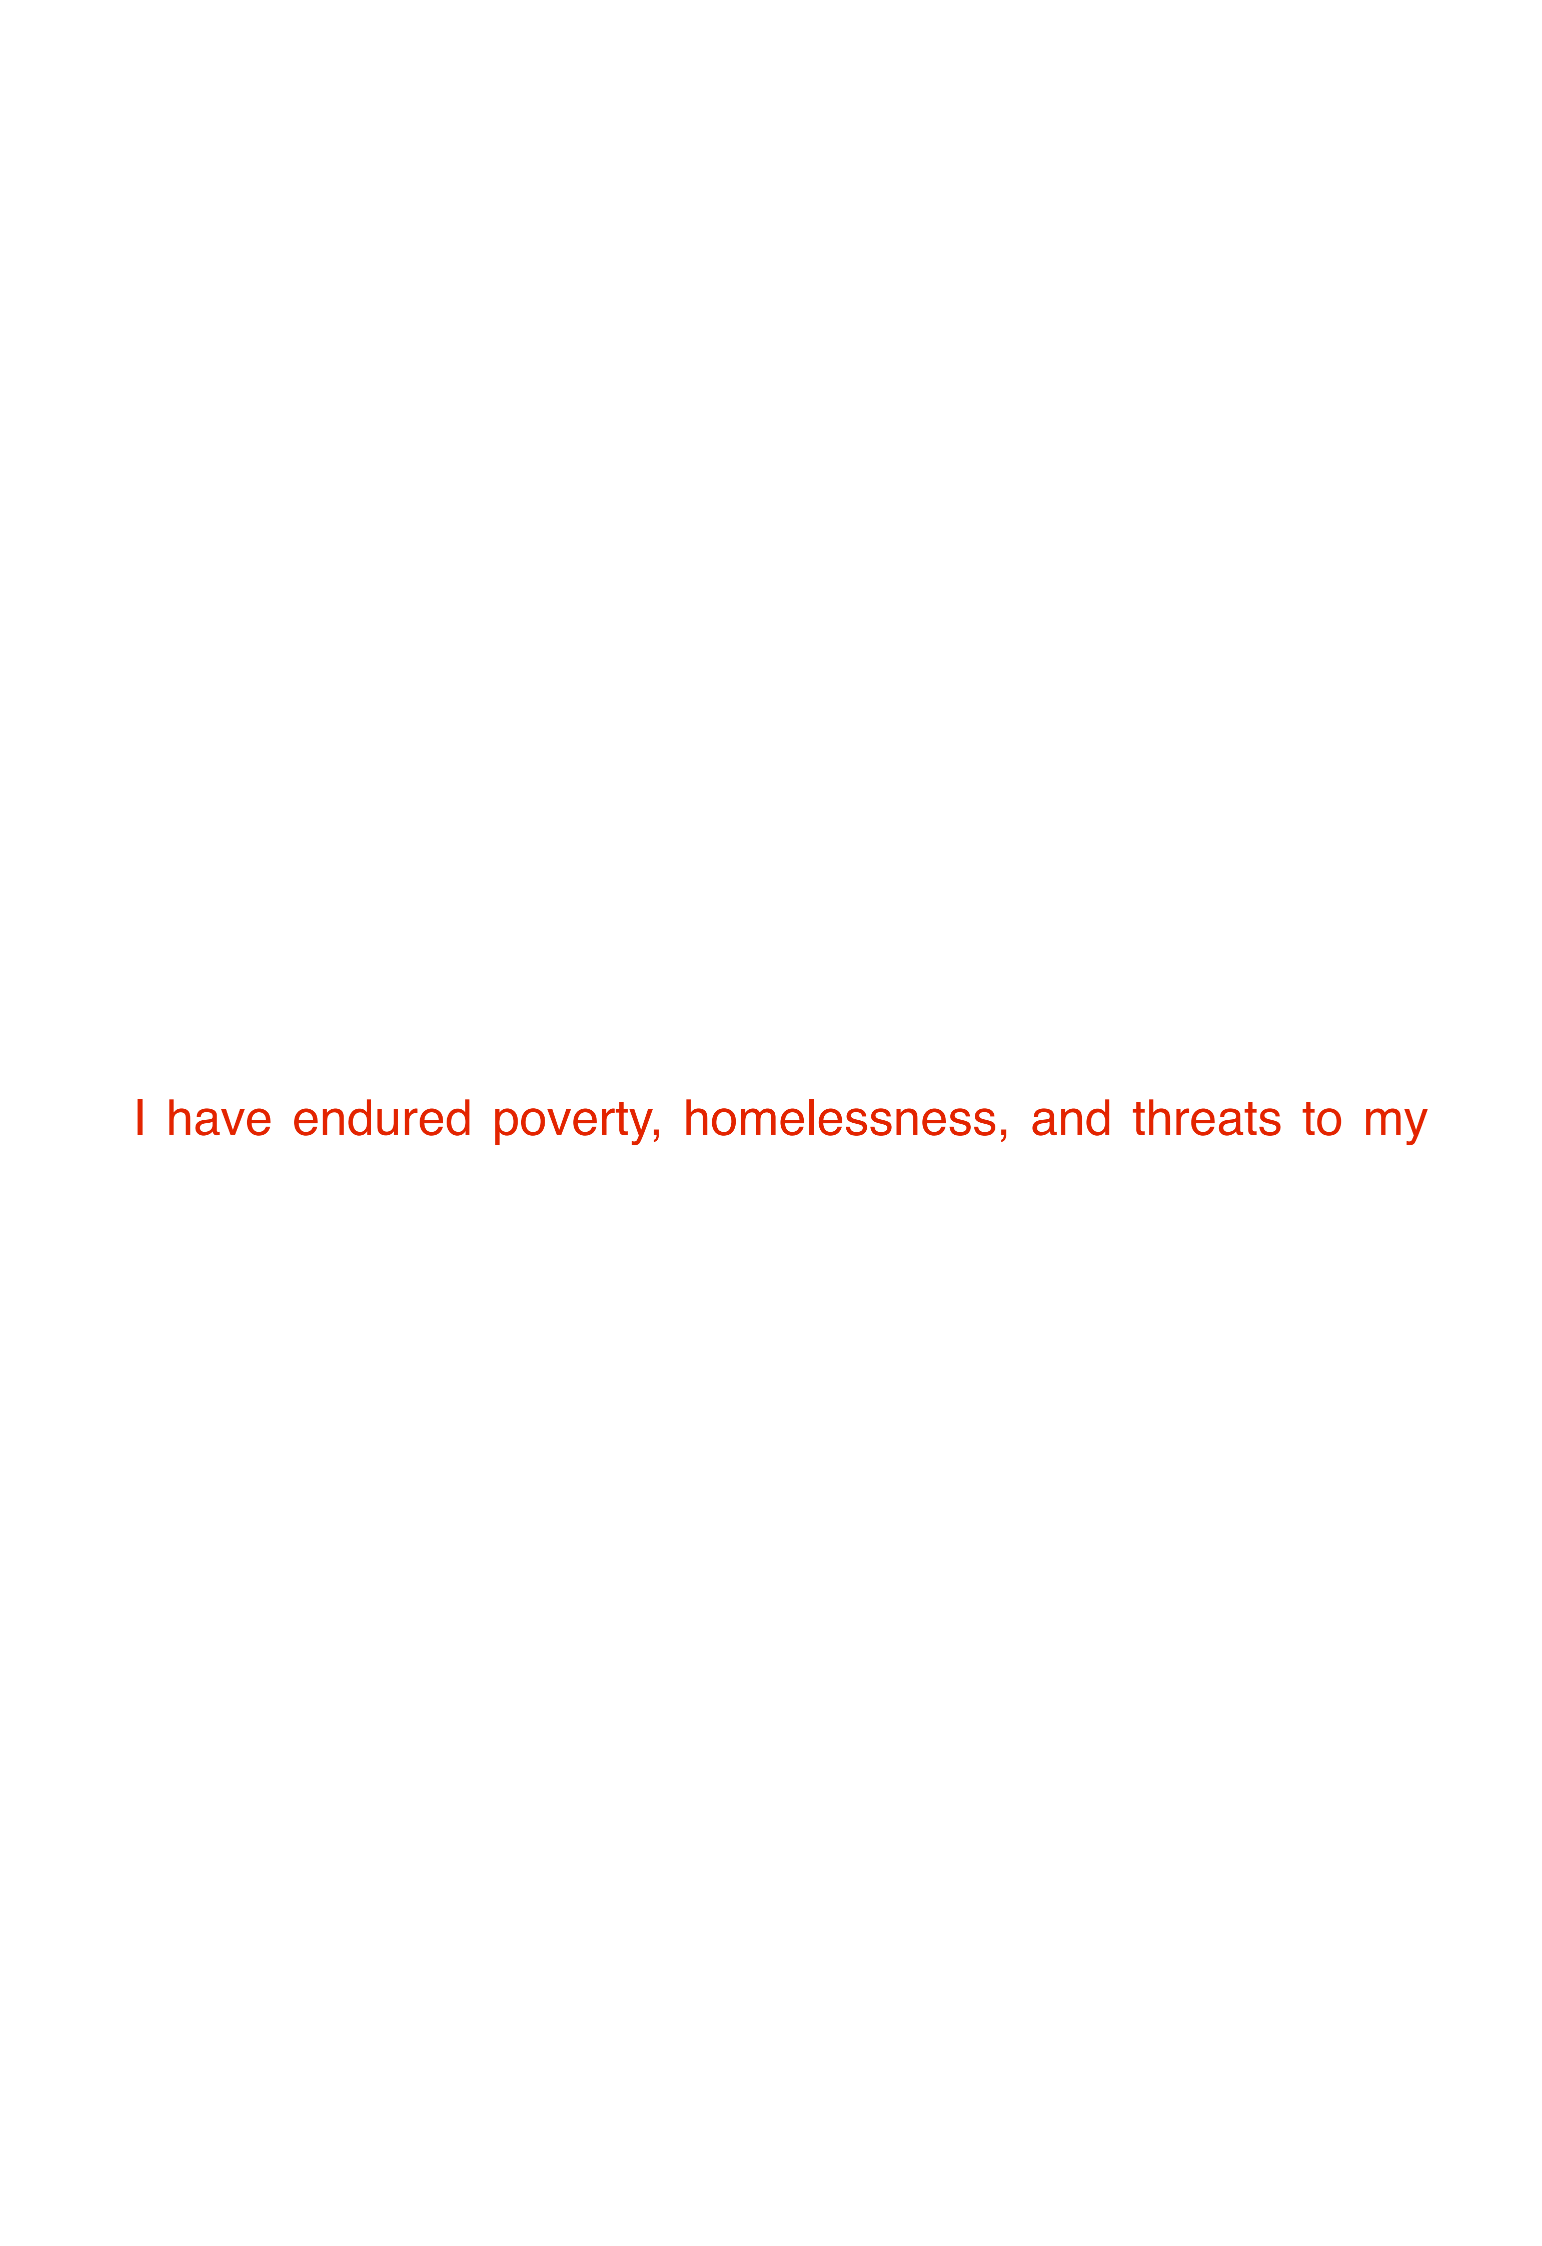

1. **Legal Obligation:**

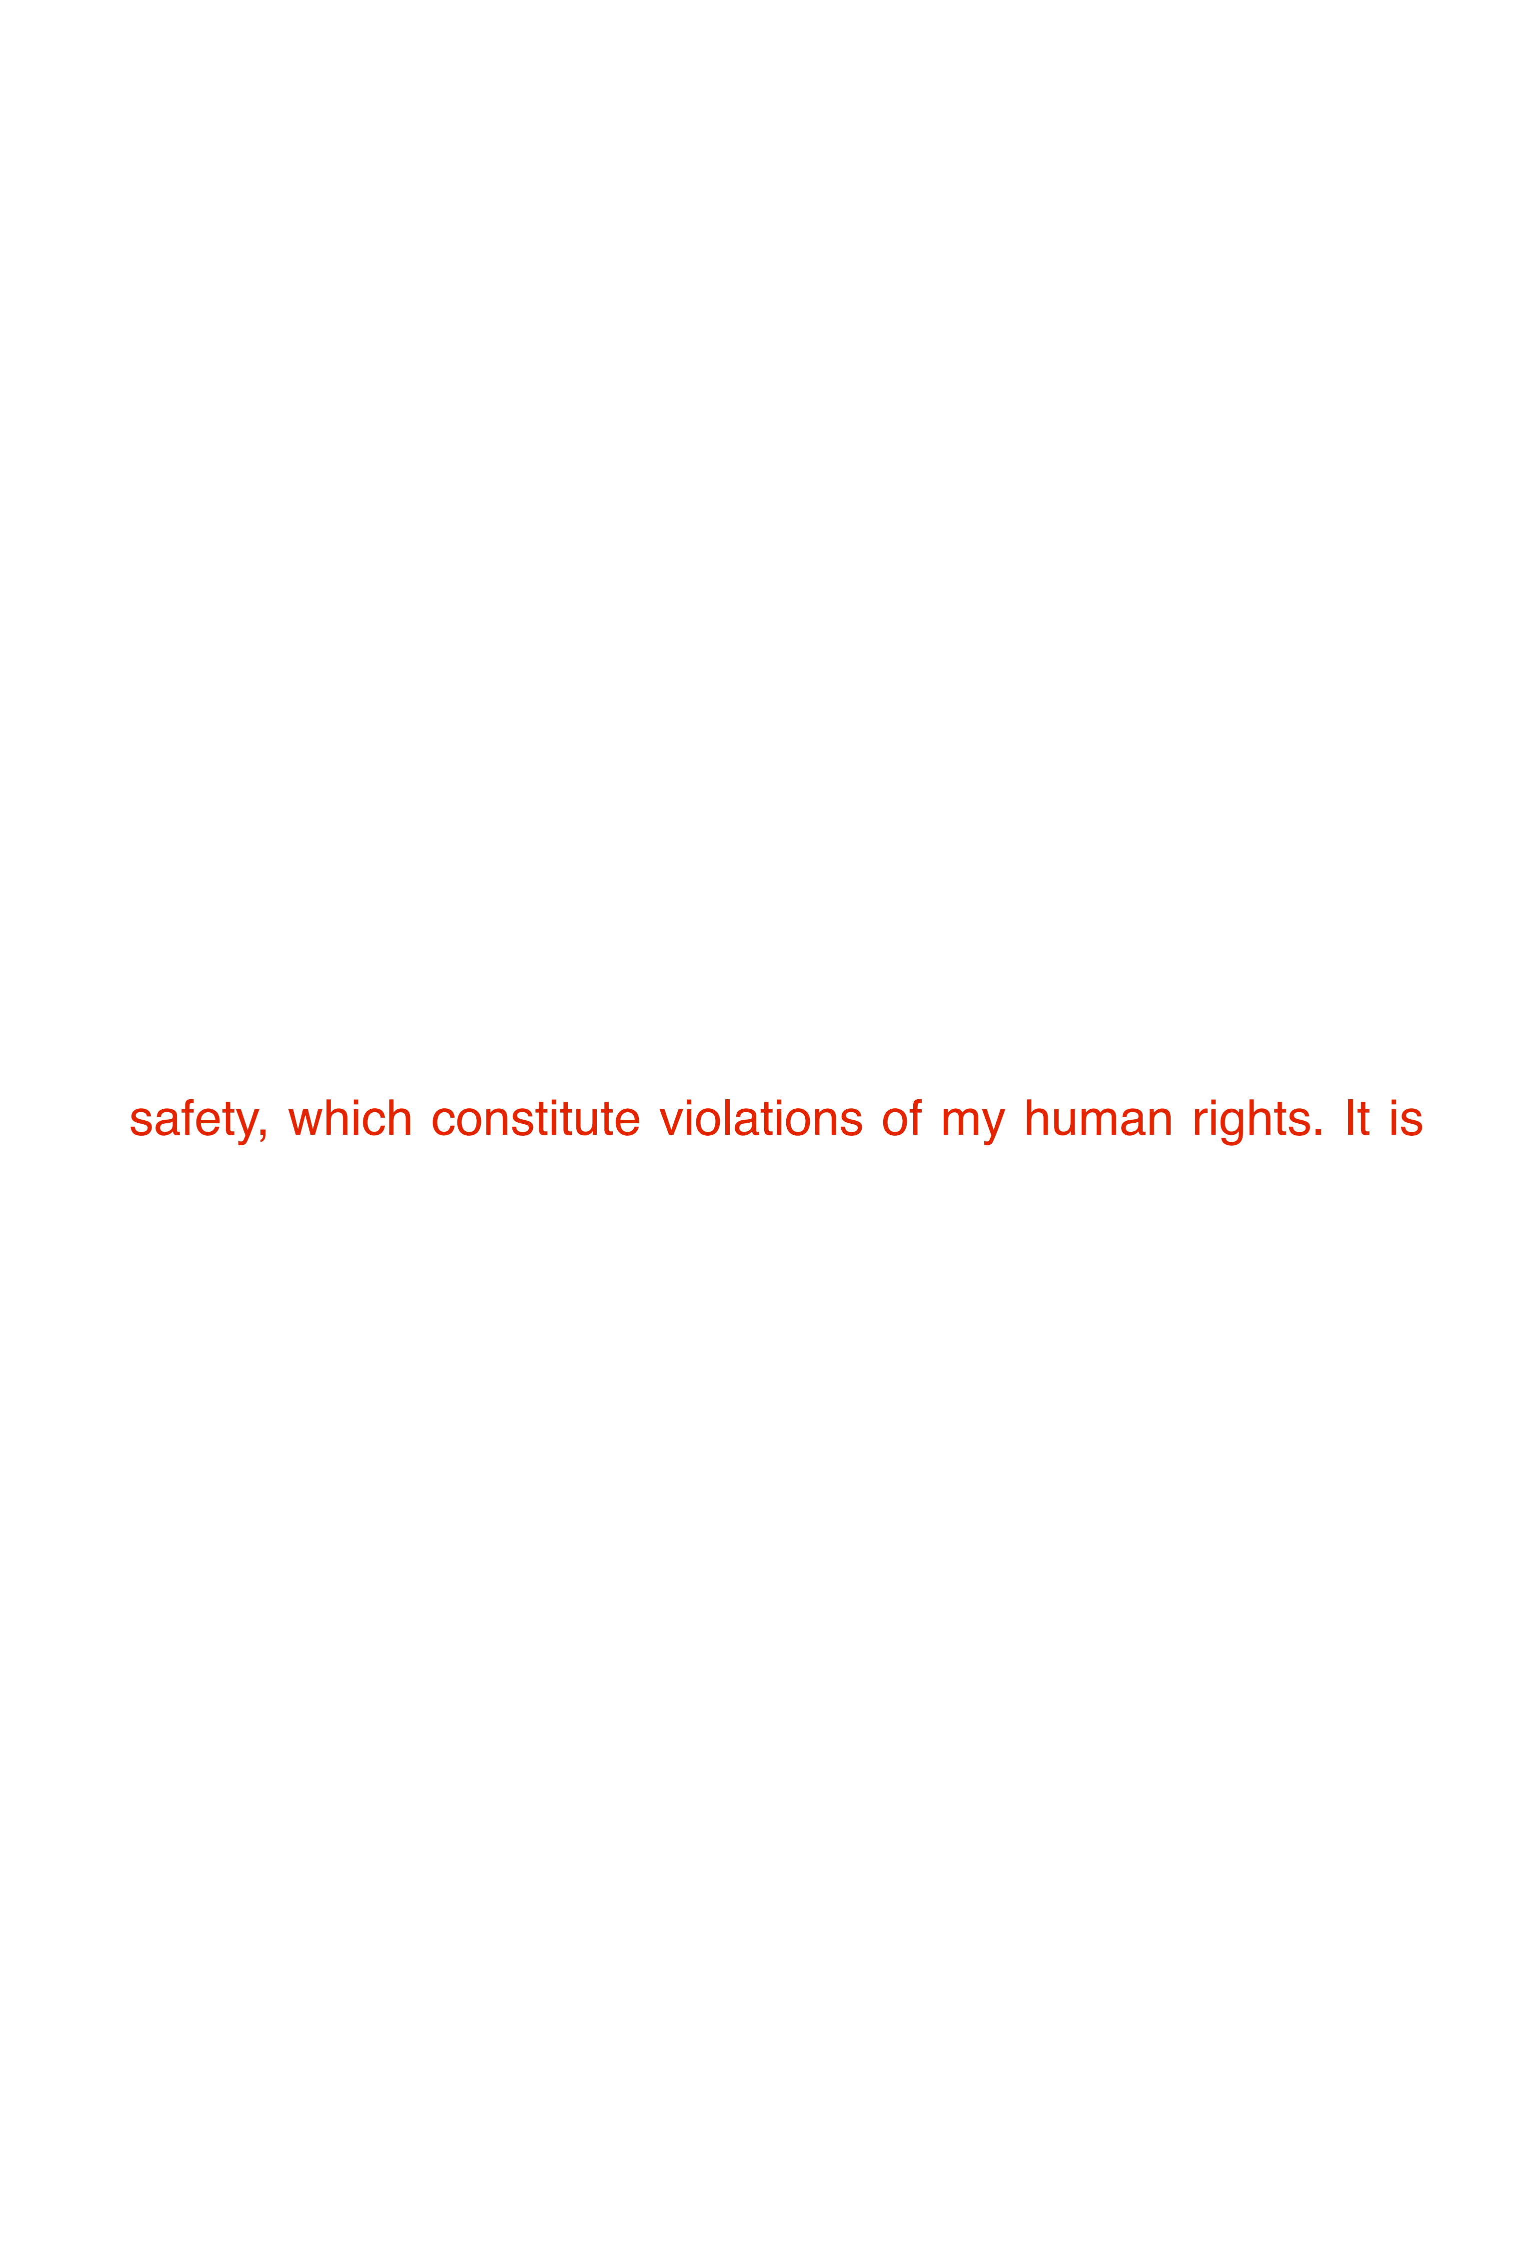

Ignoring the federal court document confirming my

employment status could lead to legal liabilities for both Kel

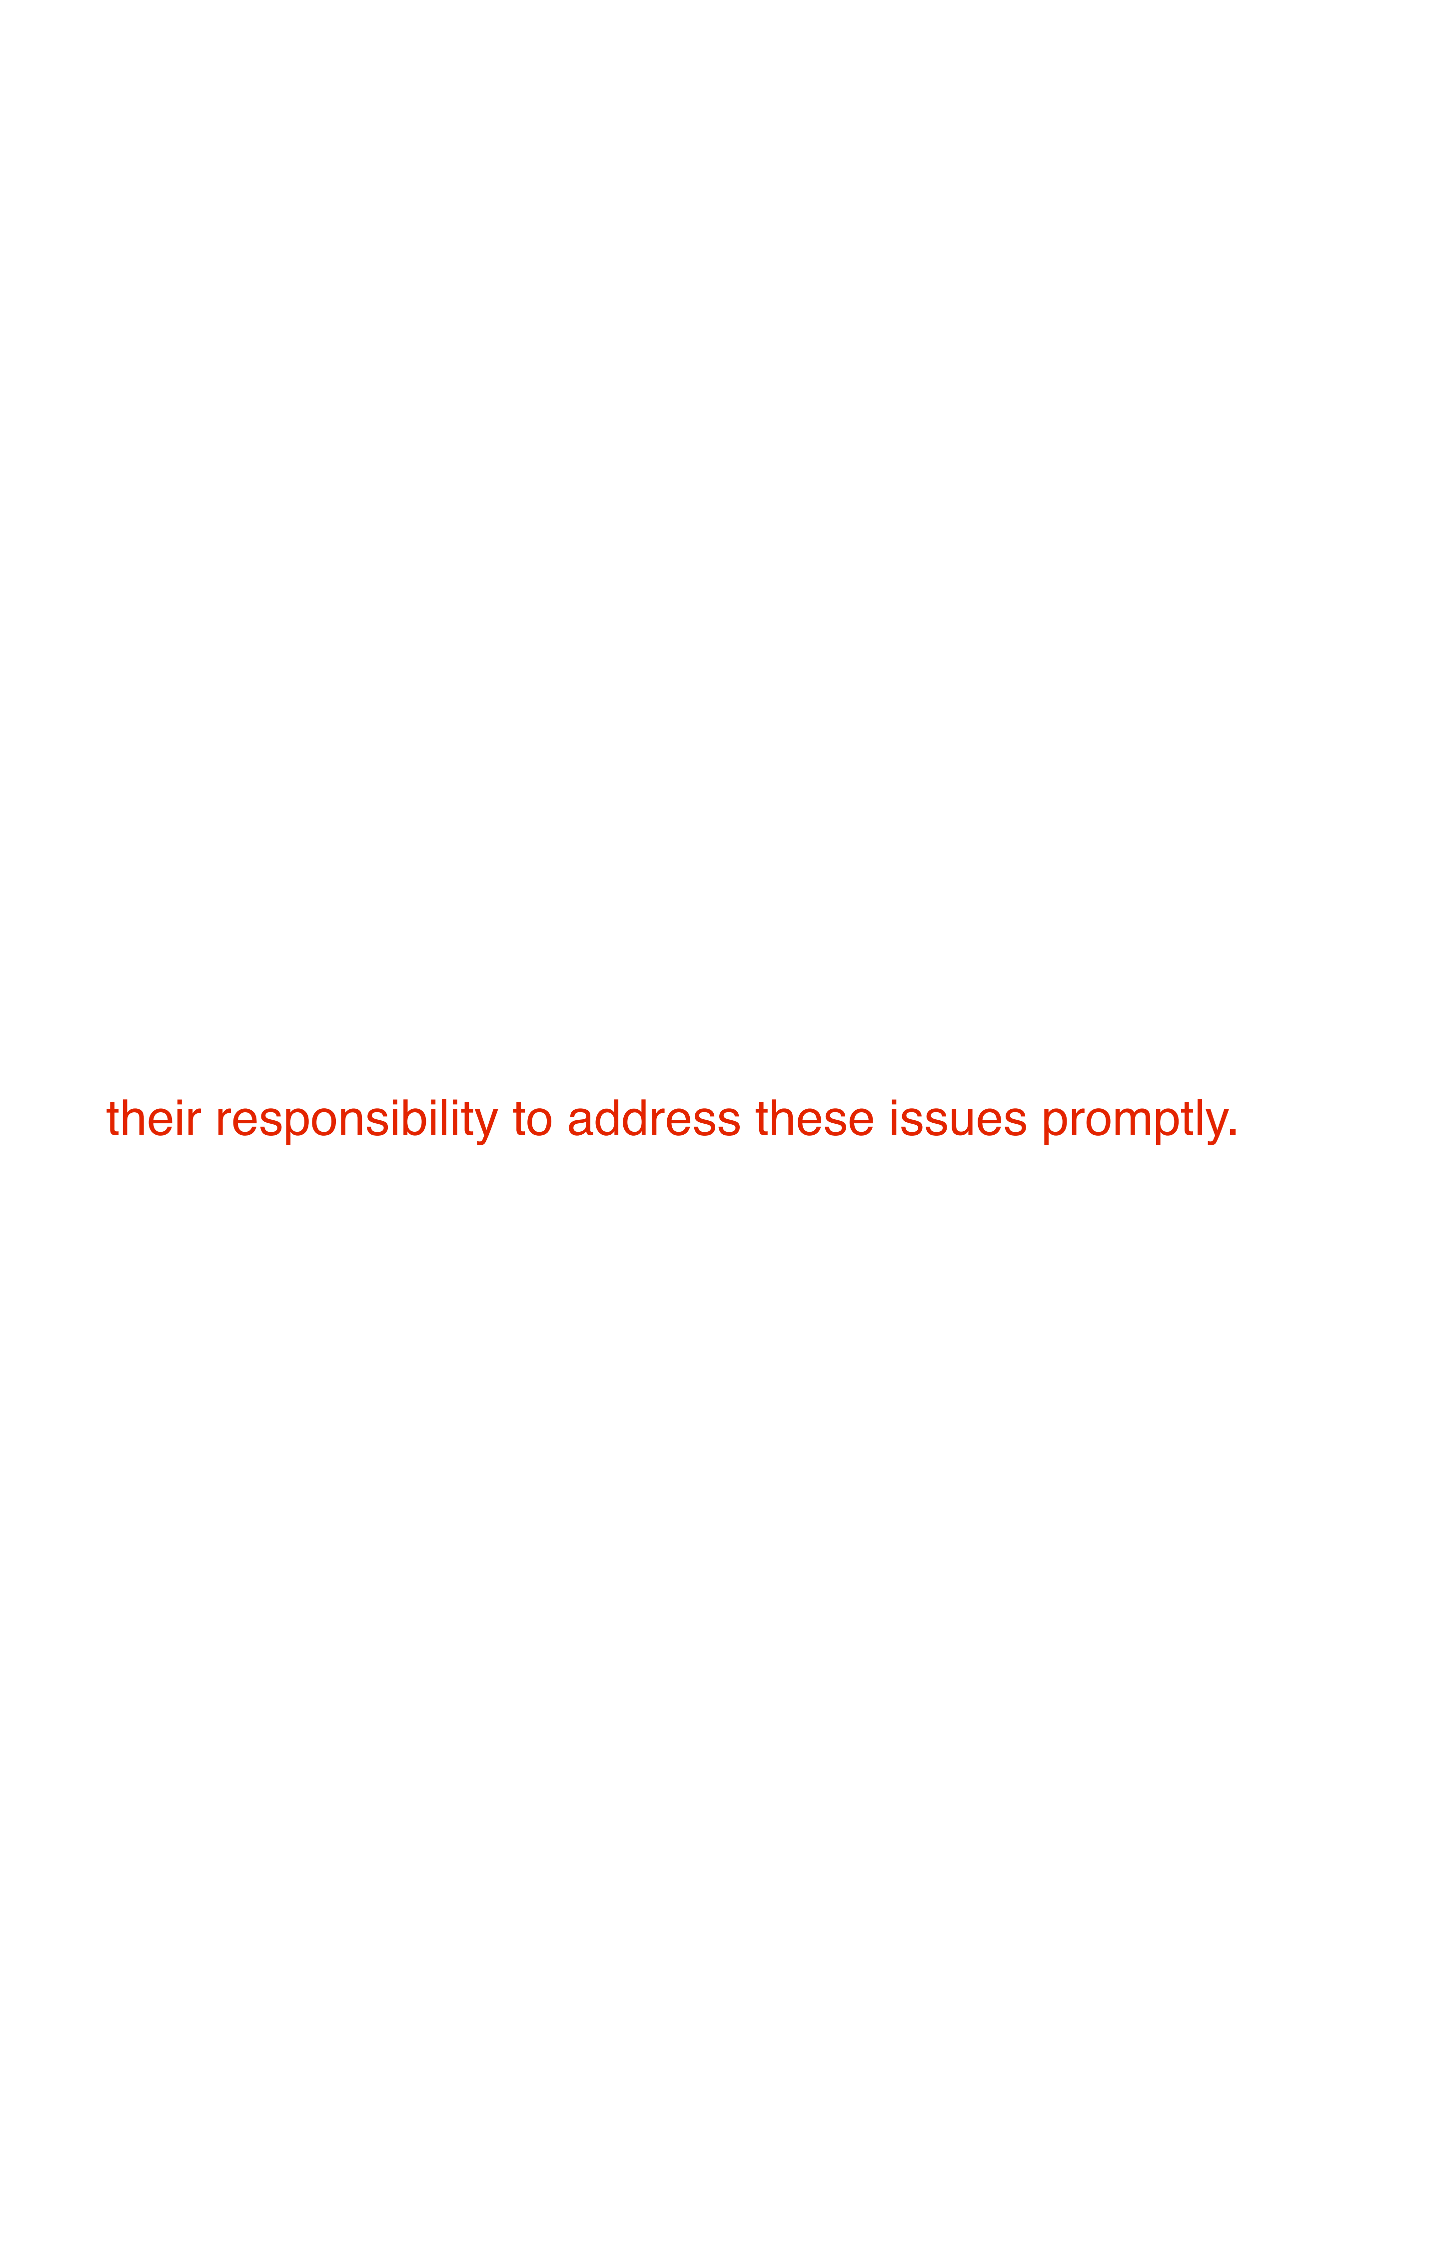

Graham and the NDIS Minister.

2. **Human Rights Violations:**

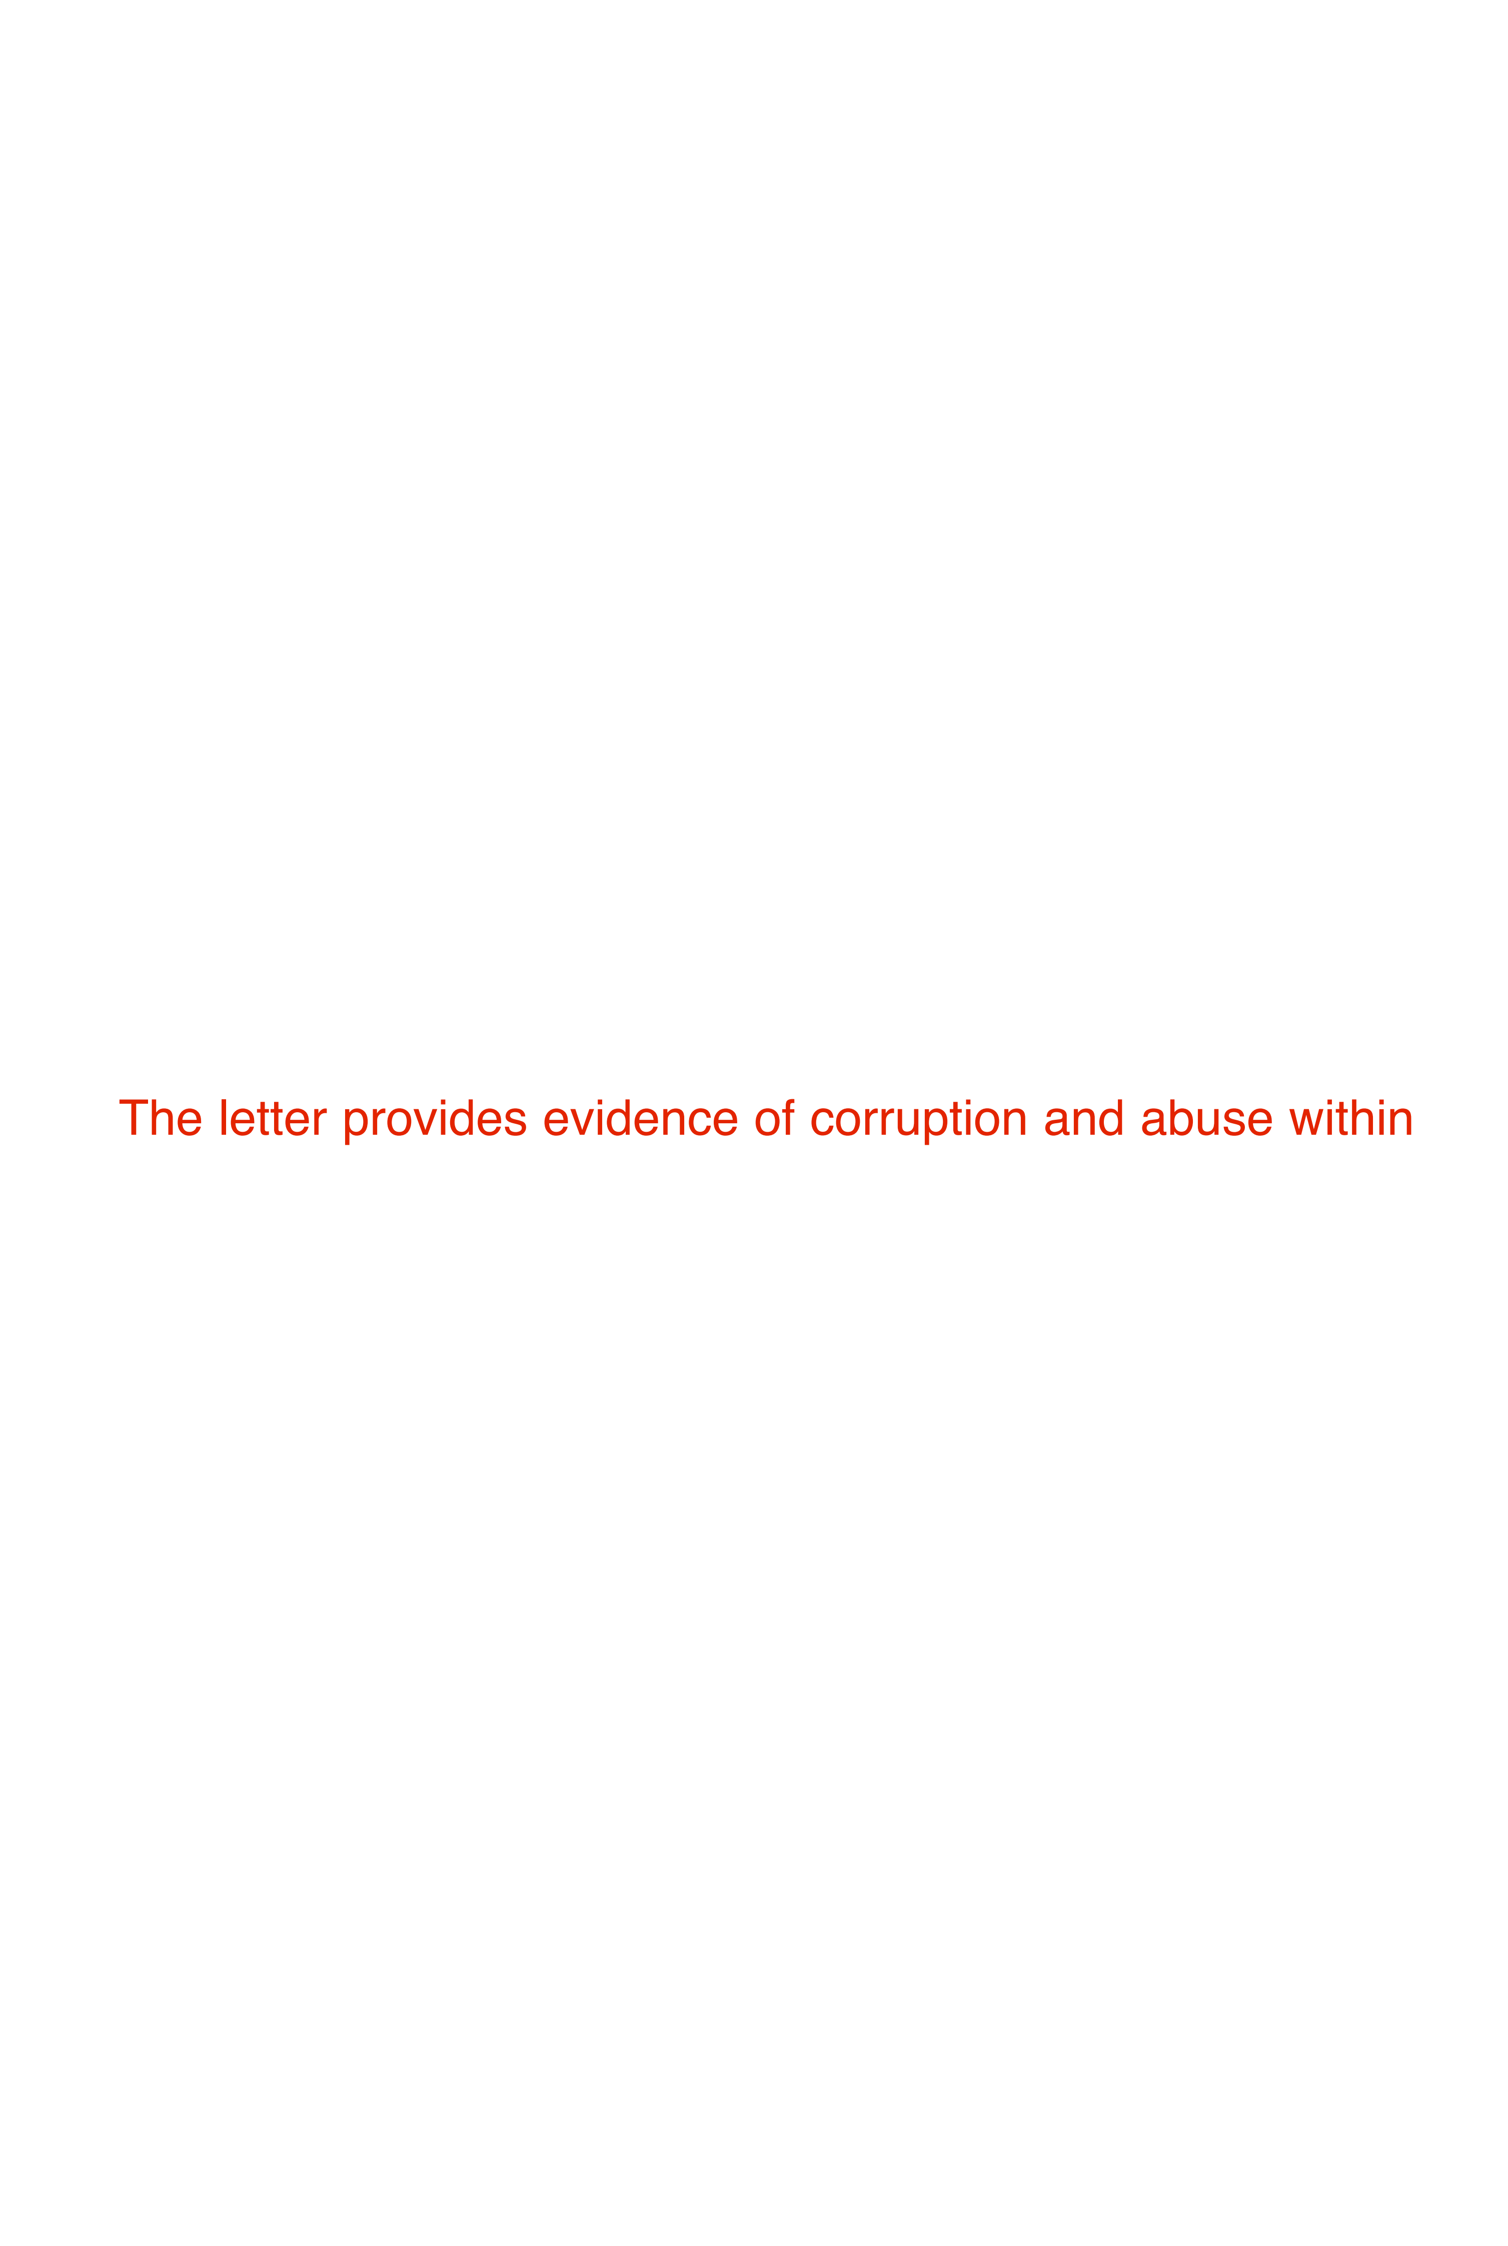

I have endured poverty, homelessness, and threats to my

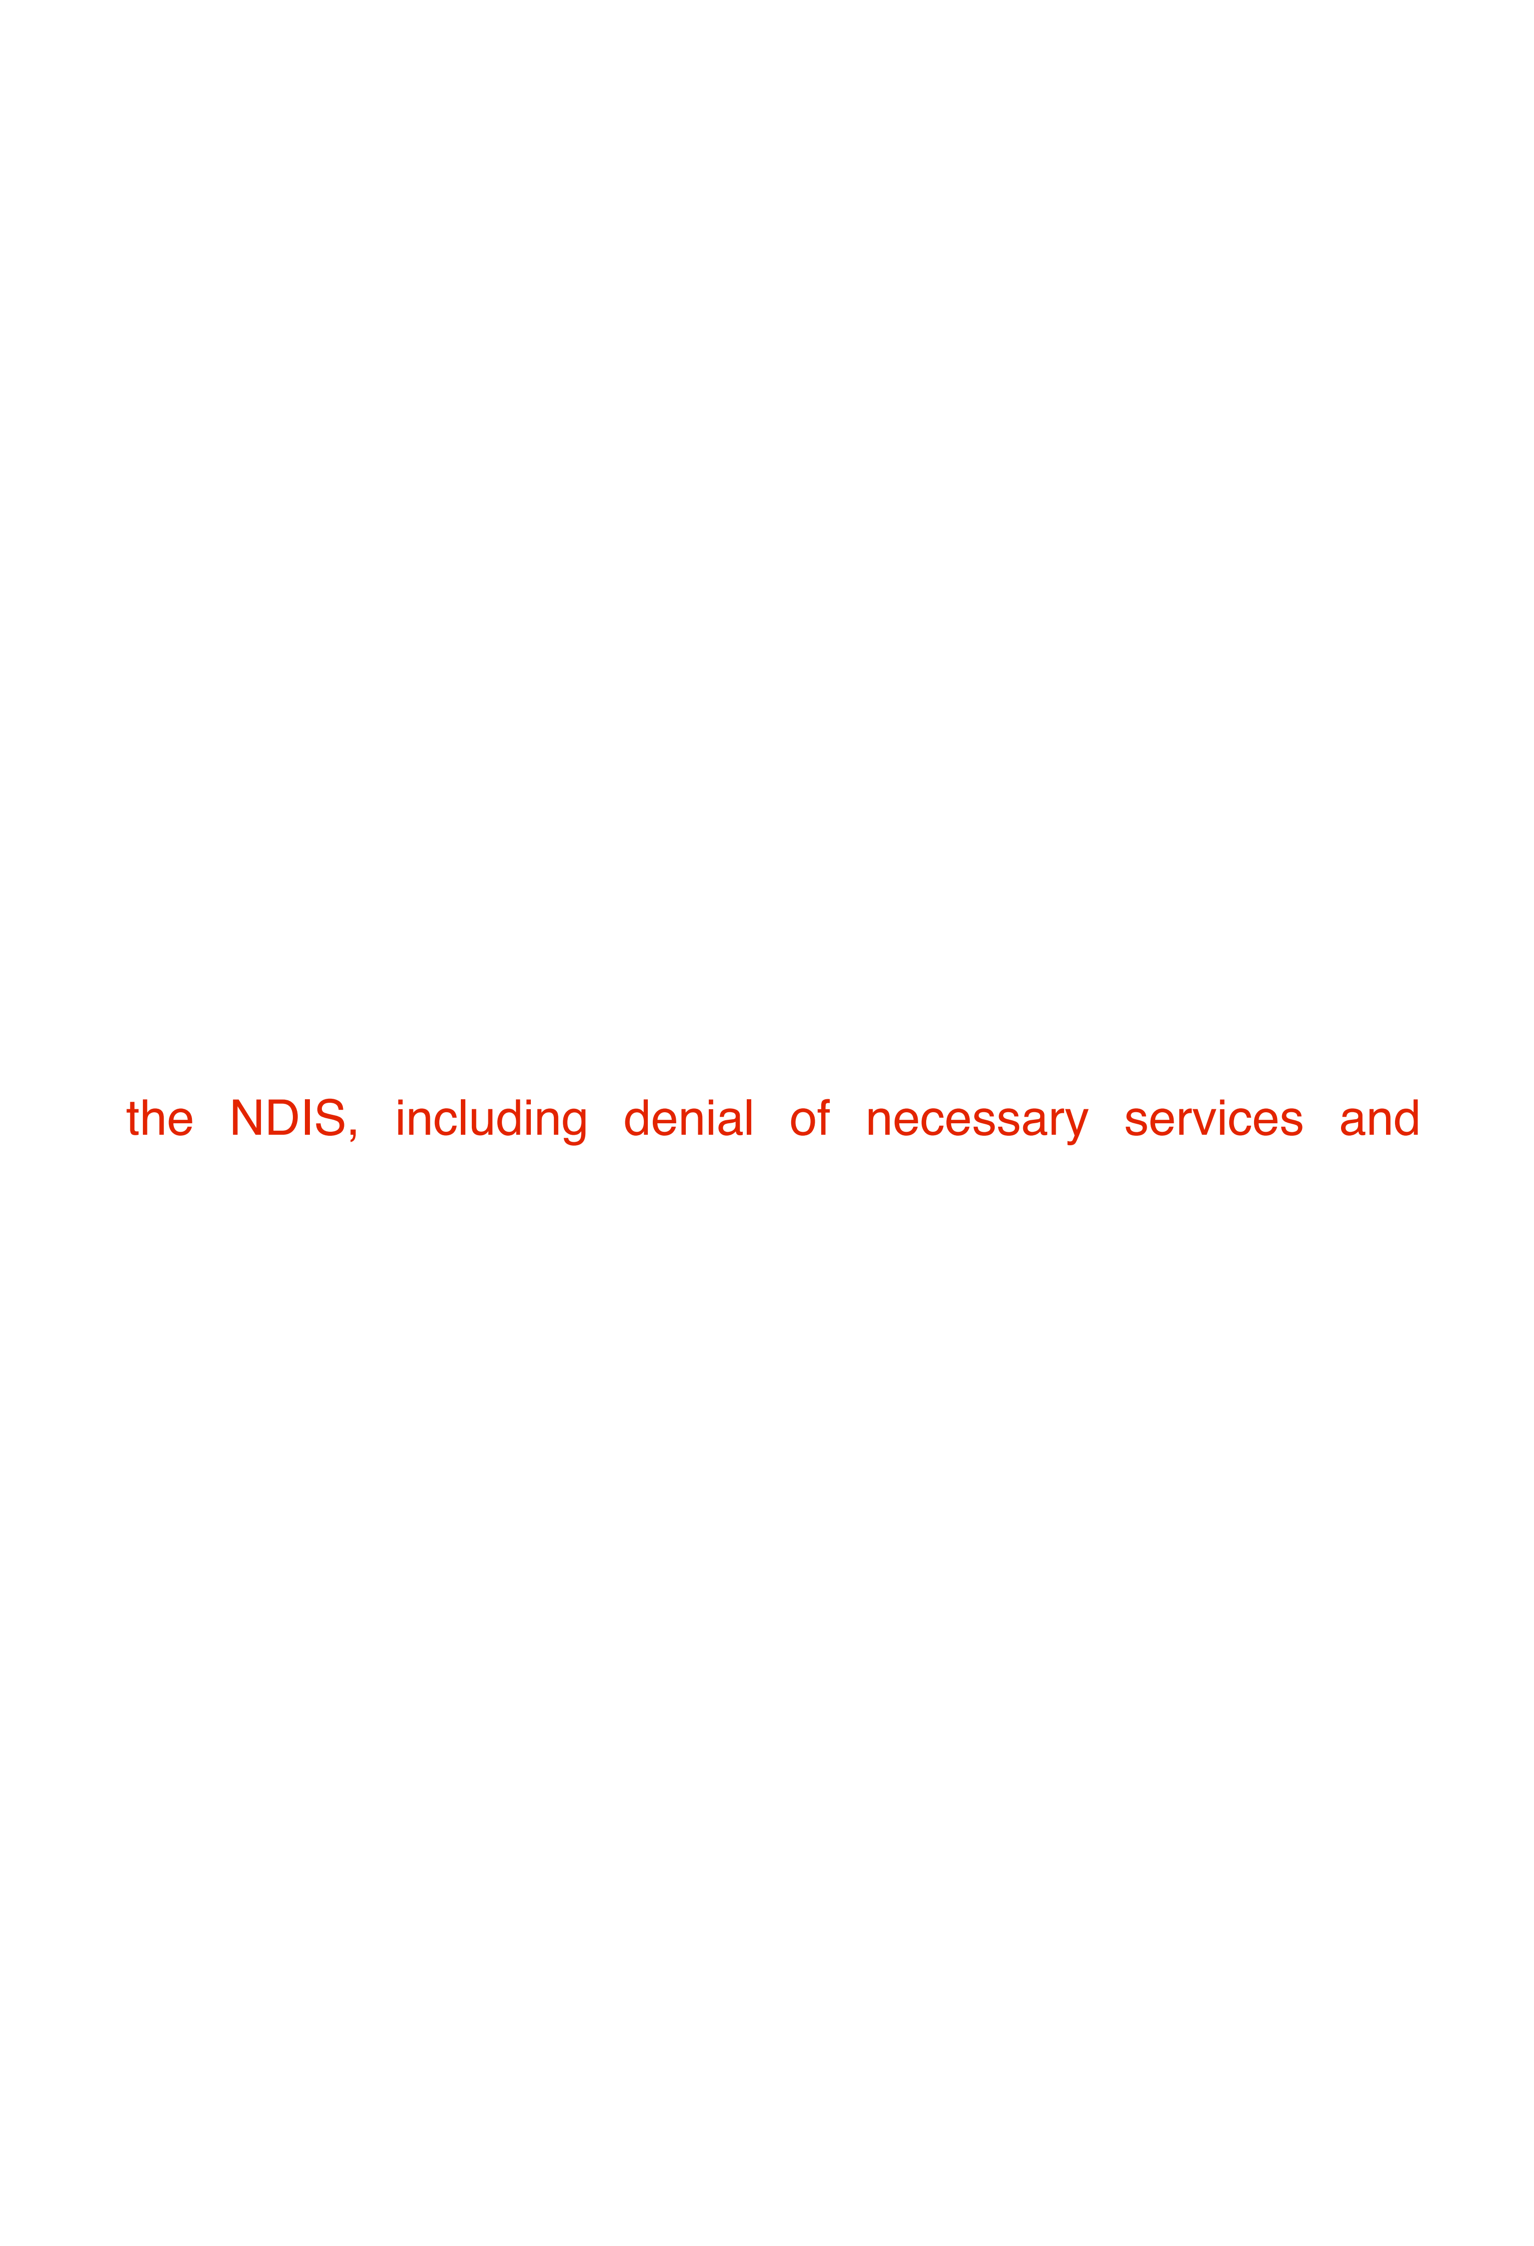

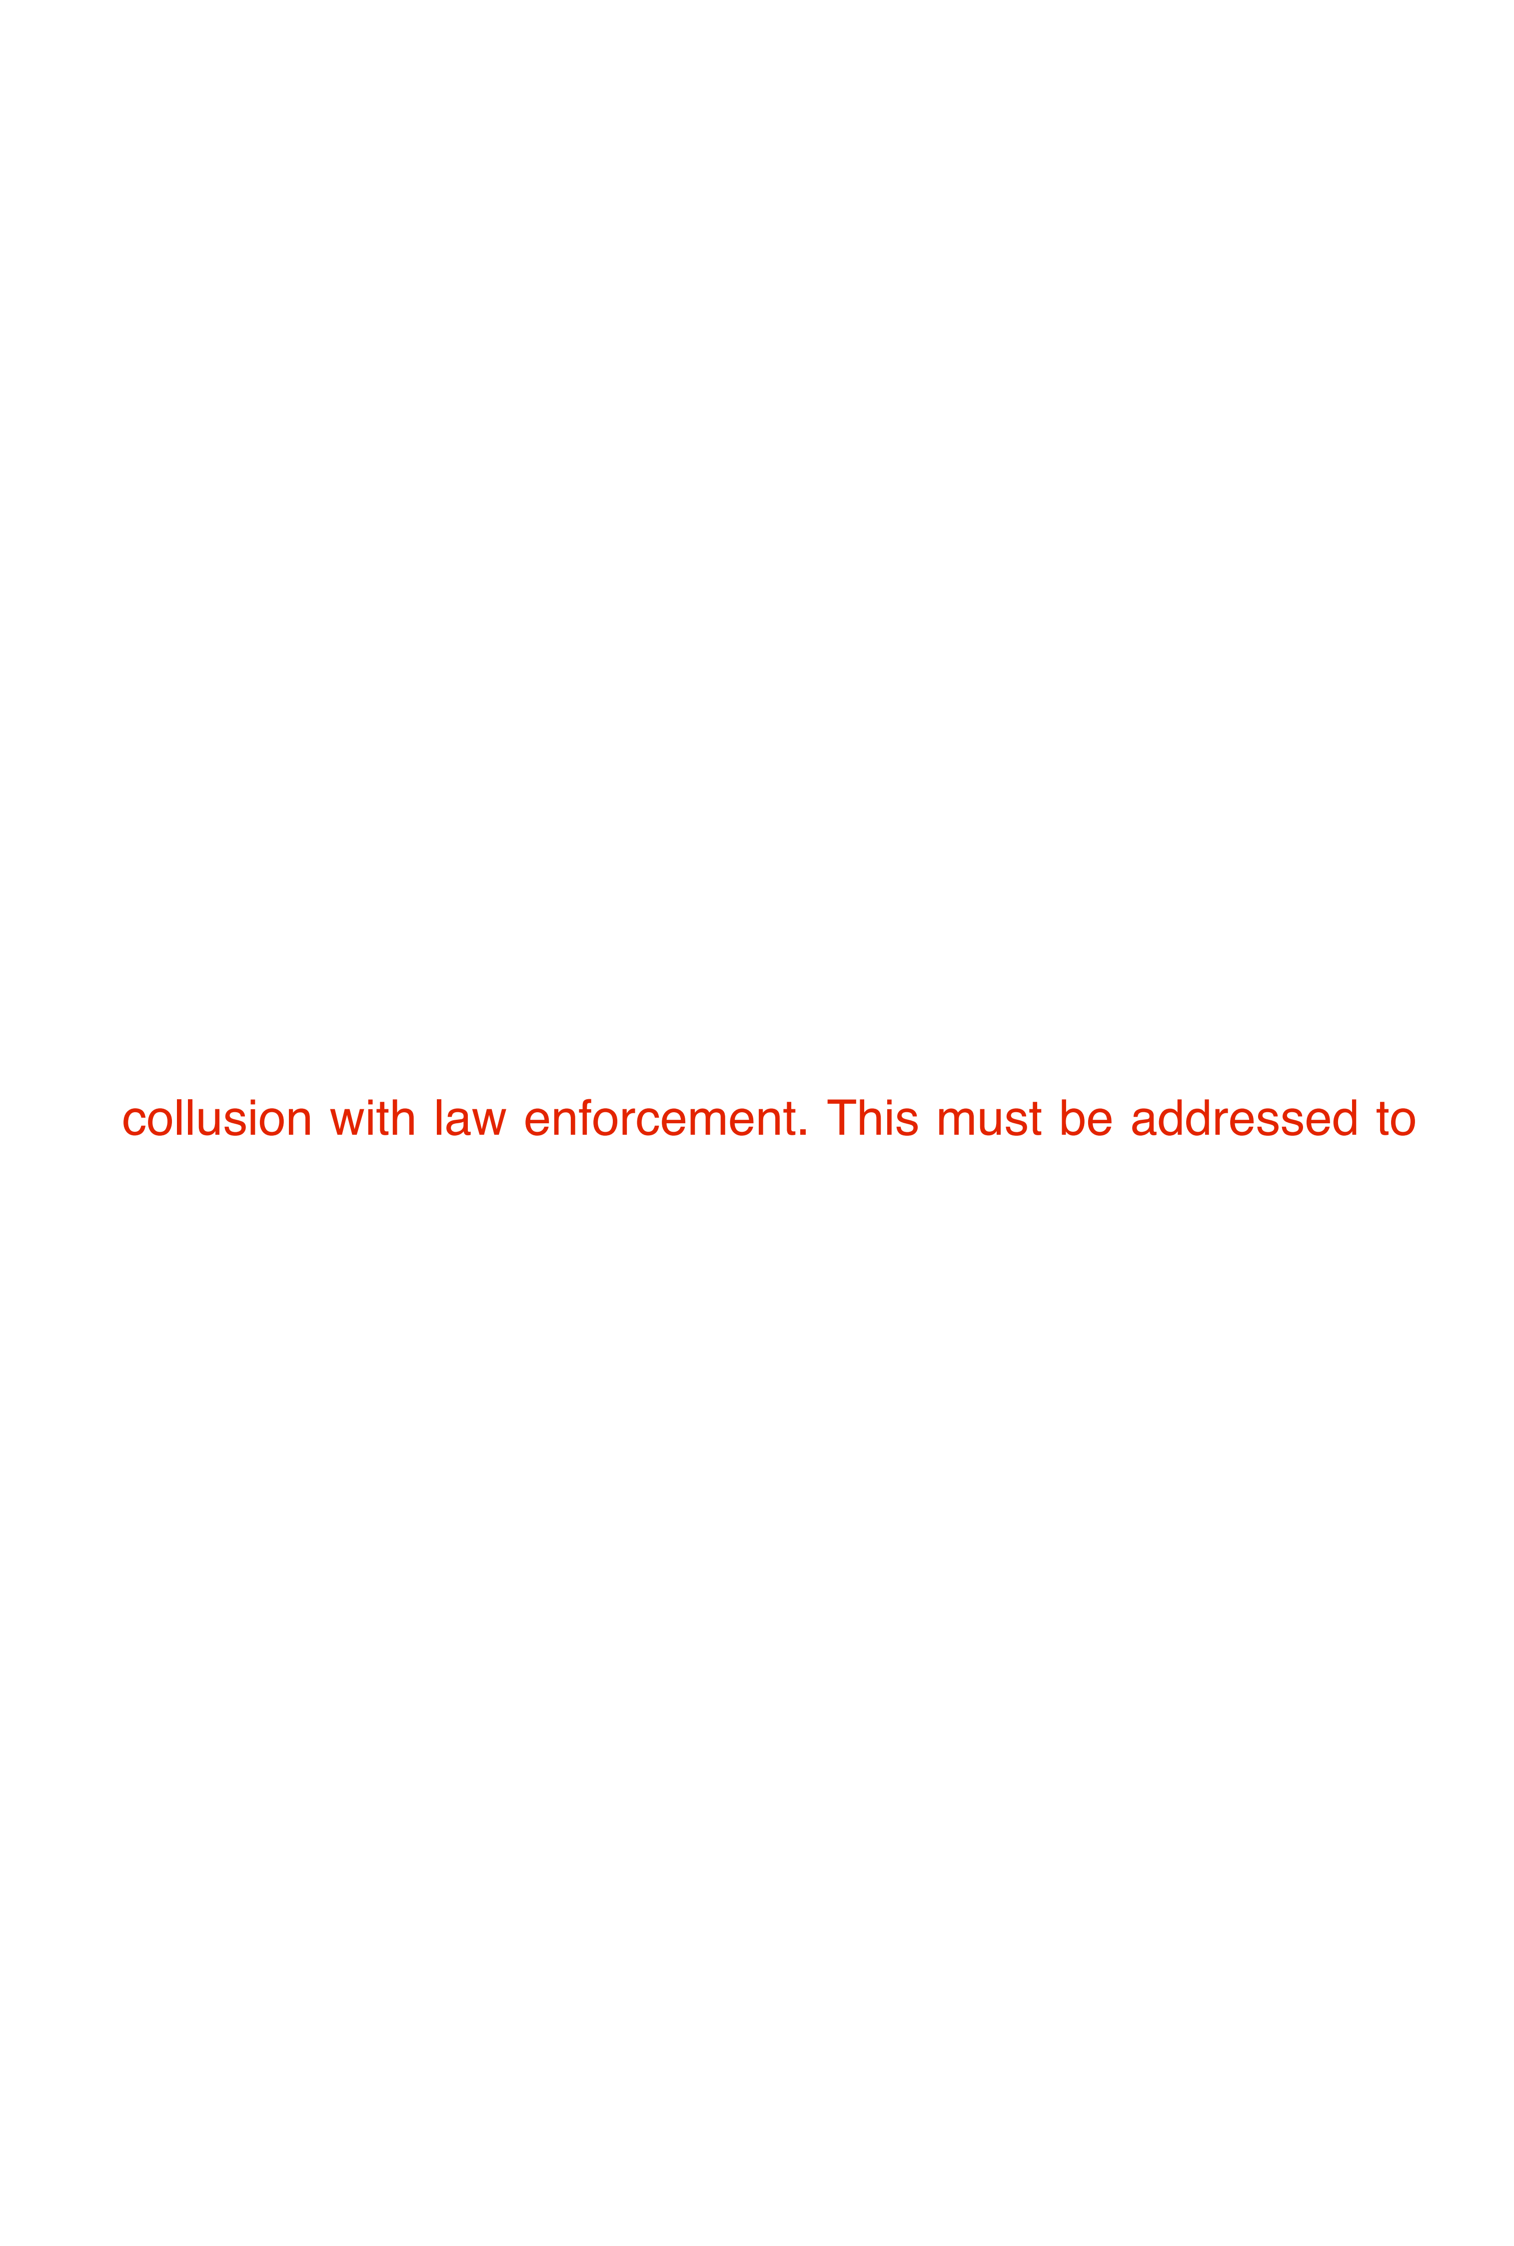

safety, which constitute violations of my human rights. It is

their responsibility to address these issues promptly.

3. **Evidence of Corruption:**

The letter provides evidence of corruption and abuse within

the NDIS, including denial of necessary services and

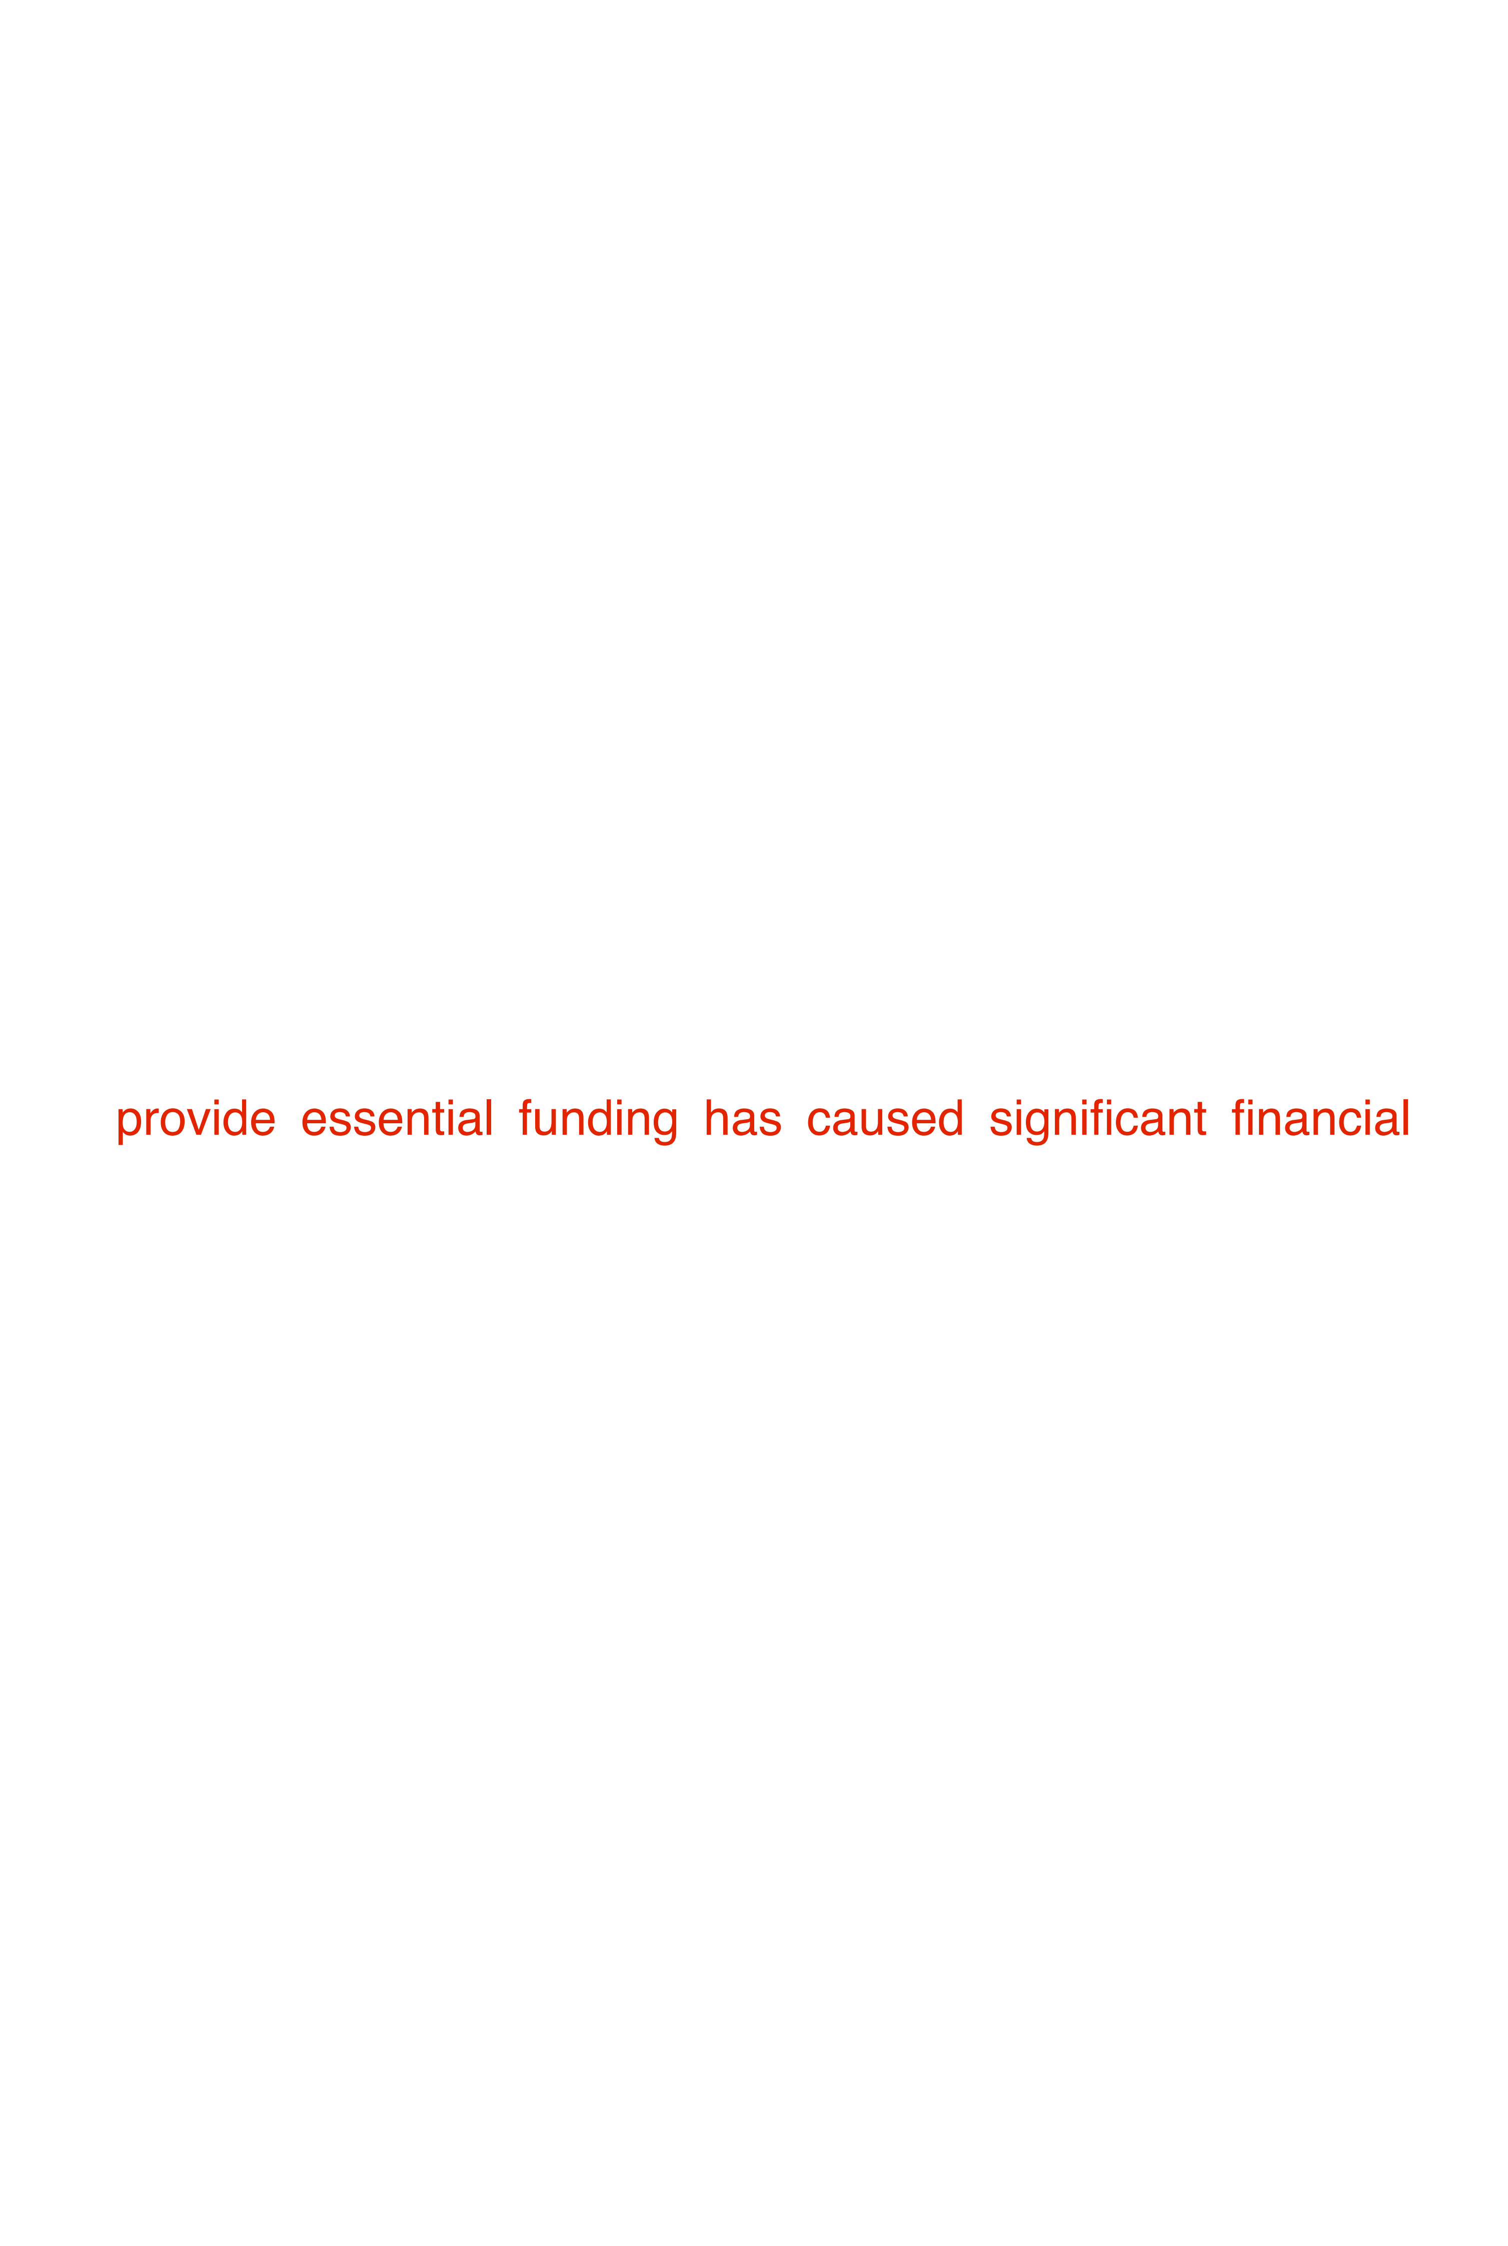

collusion with law enforcement. This must be addressed to

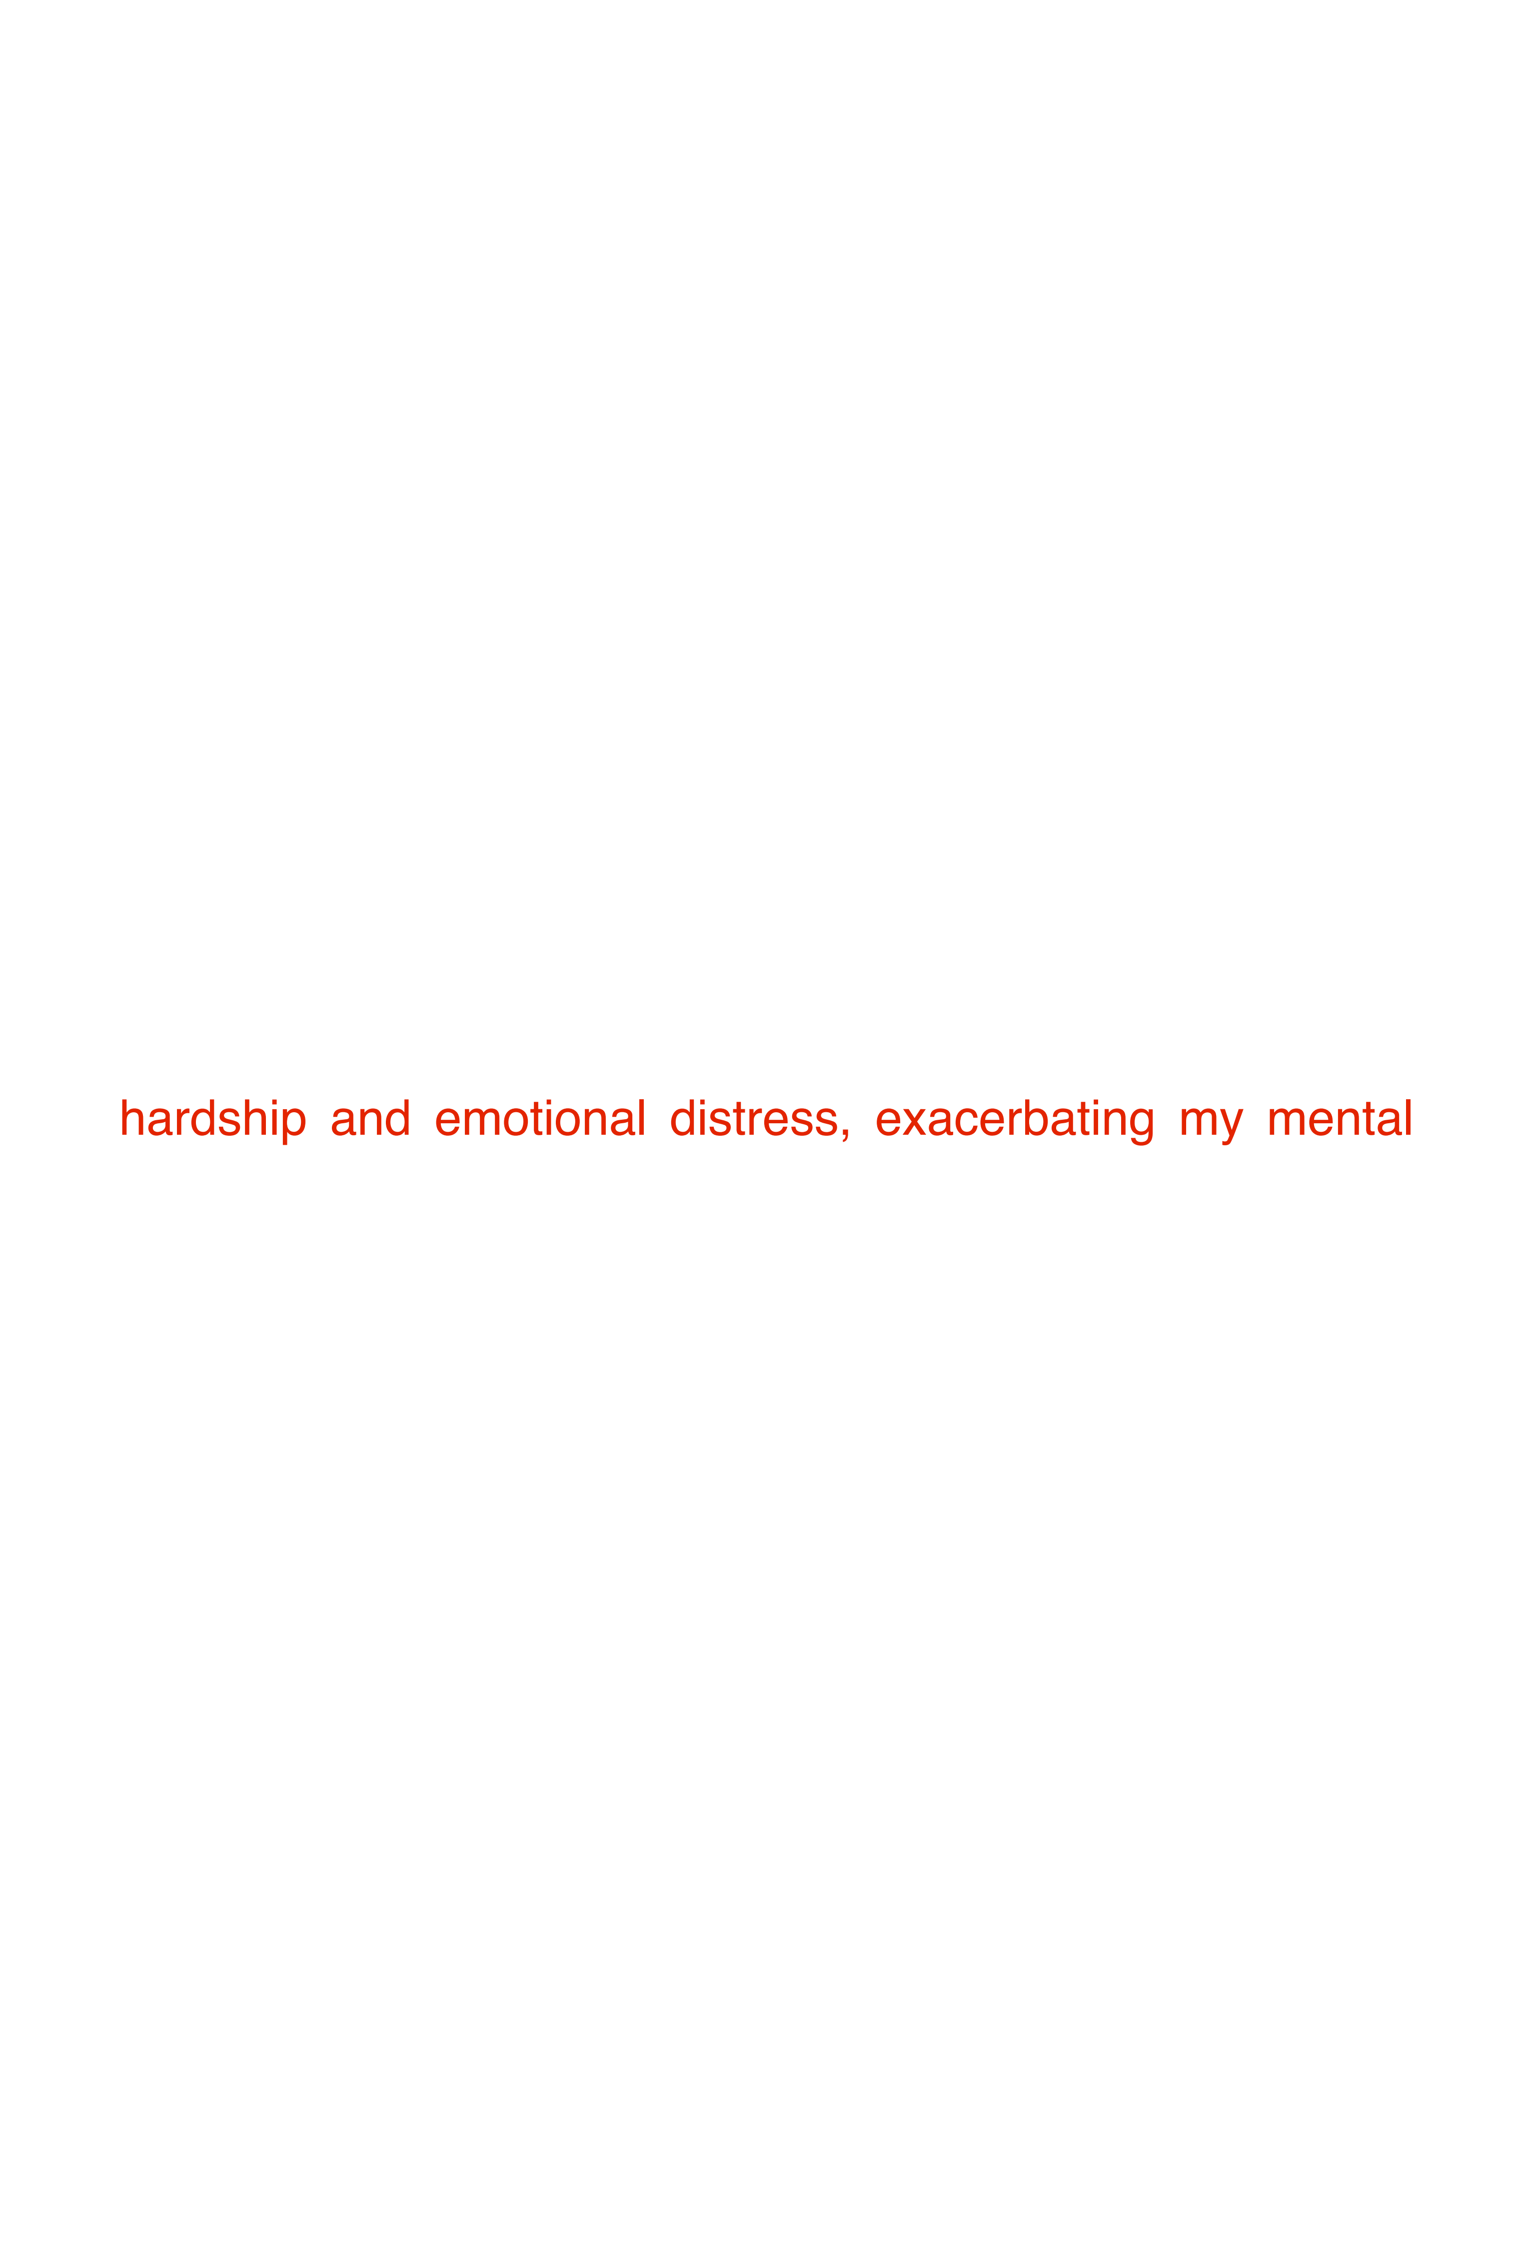

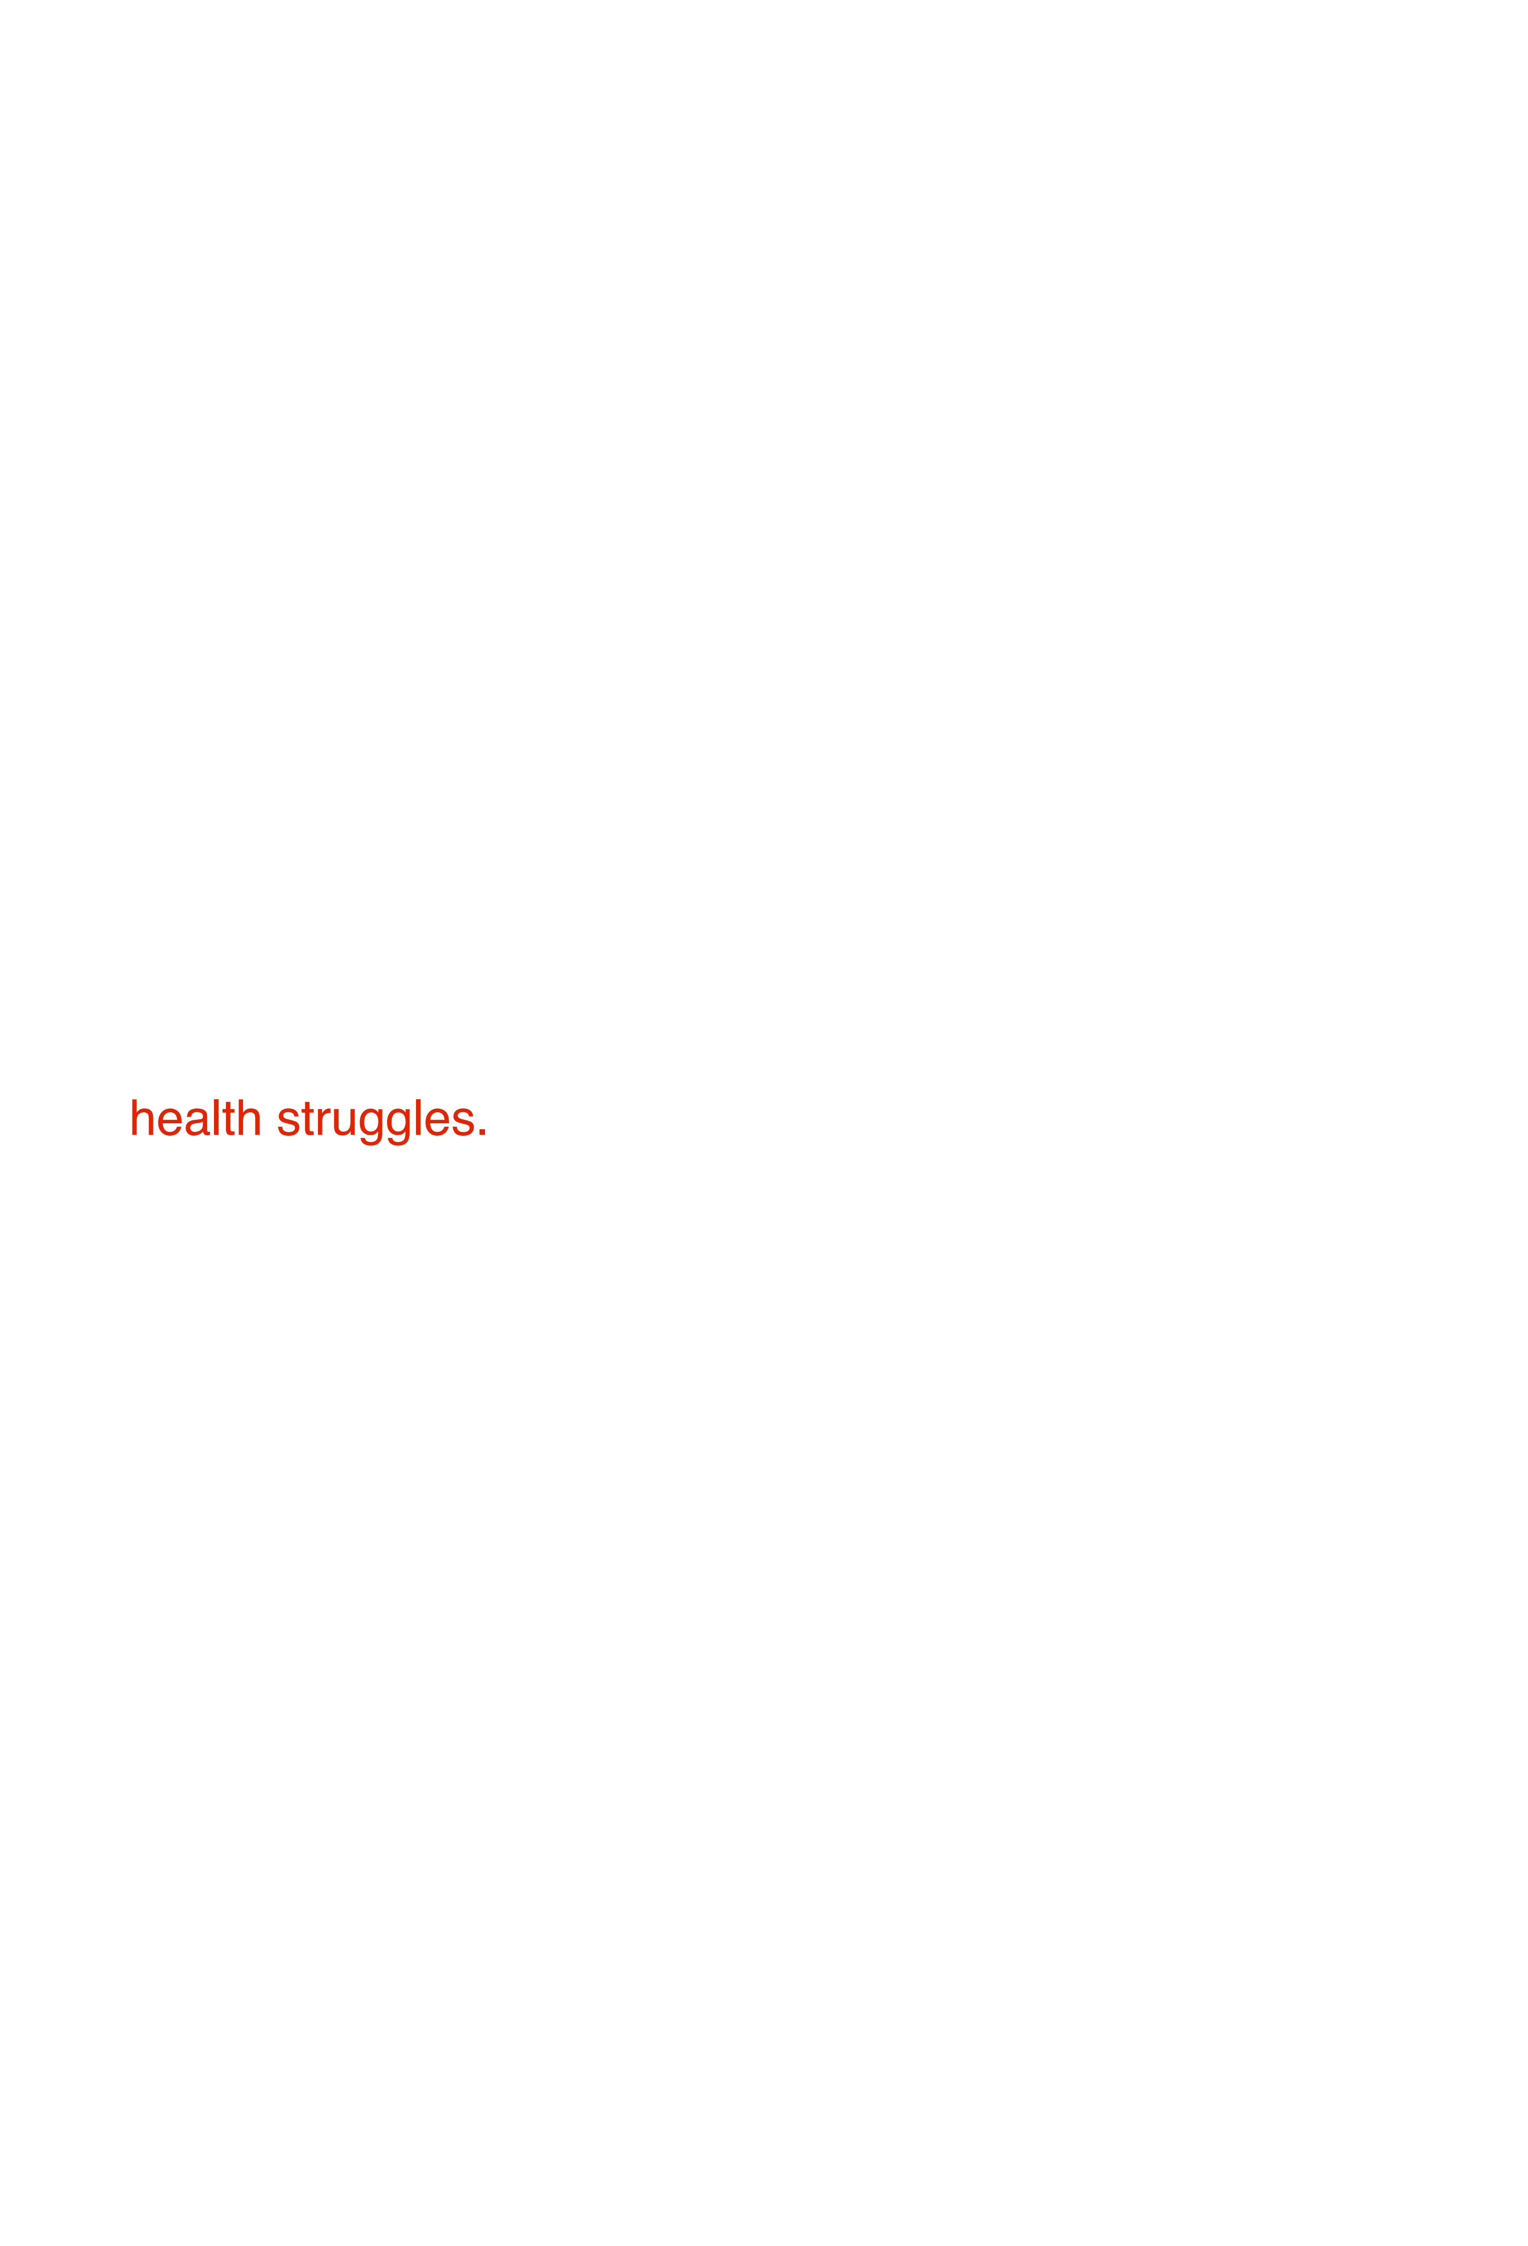

maintain accountability within the organization.

4. **Financial Hardship:**

The refusal to acknowledge my employment status and

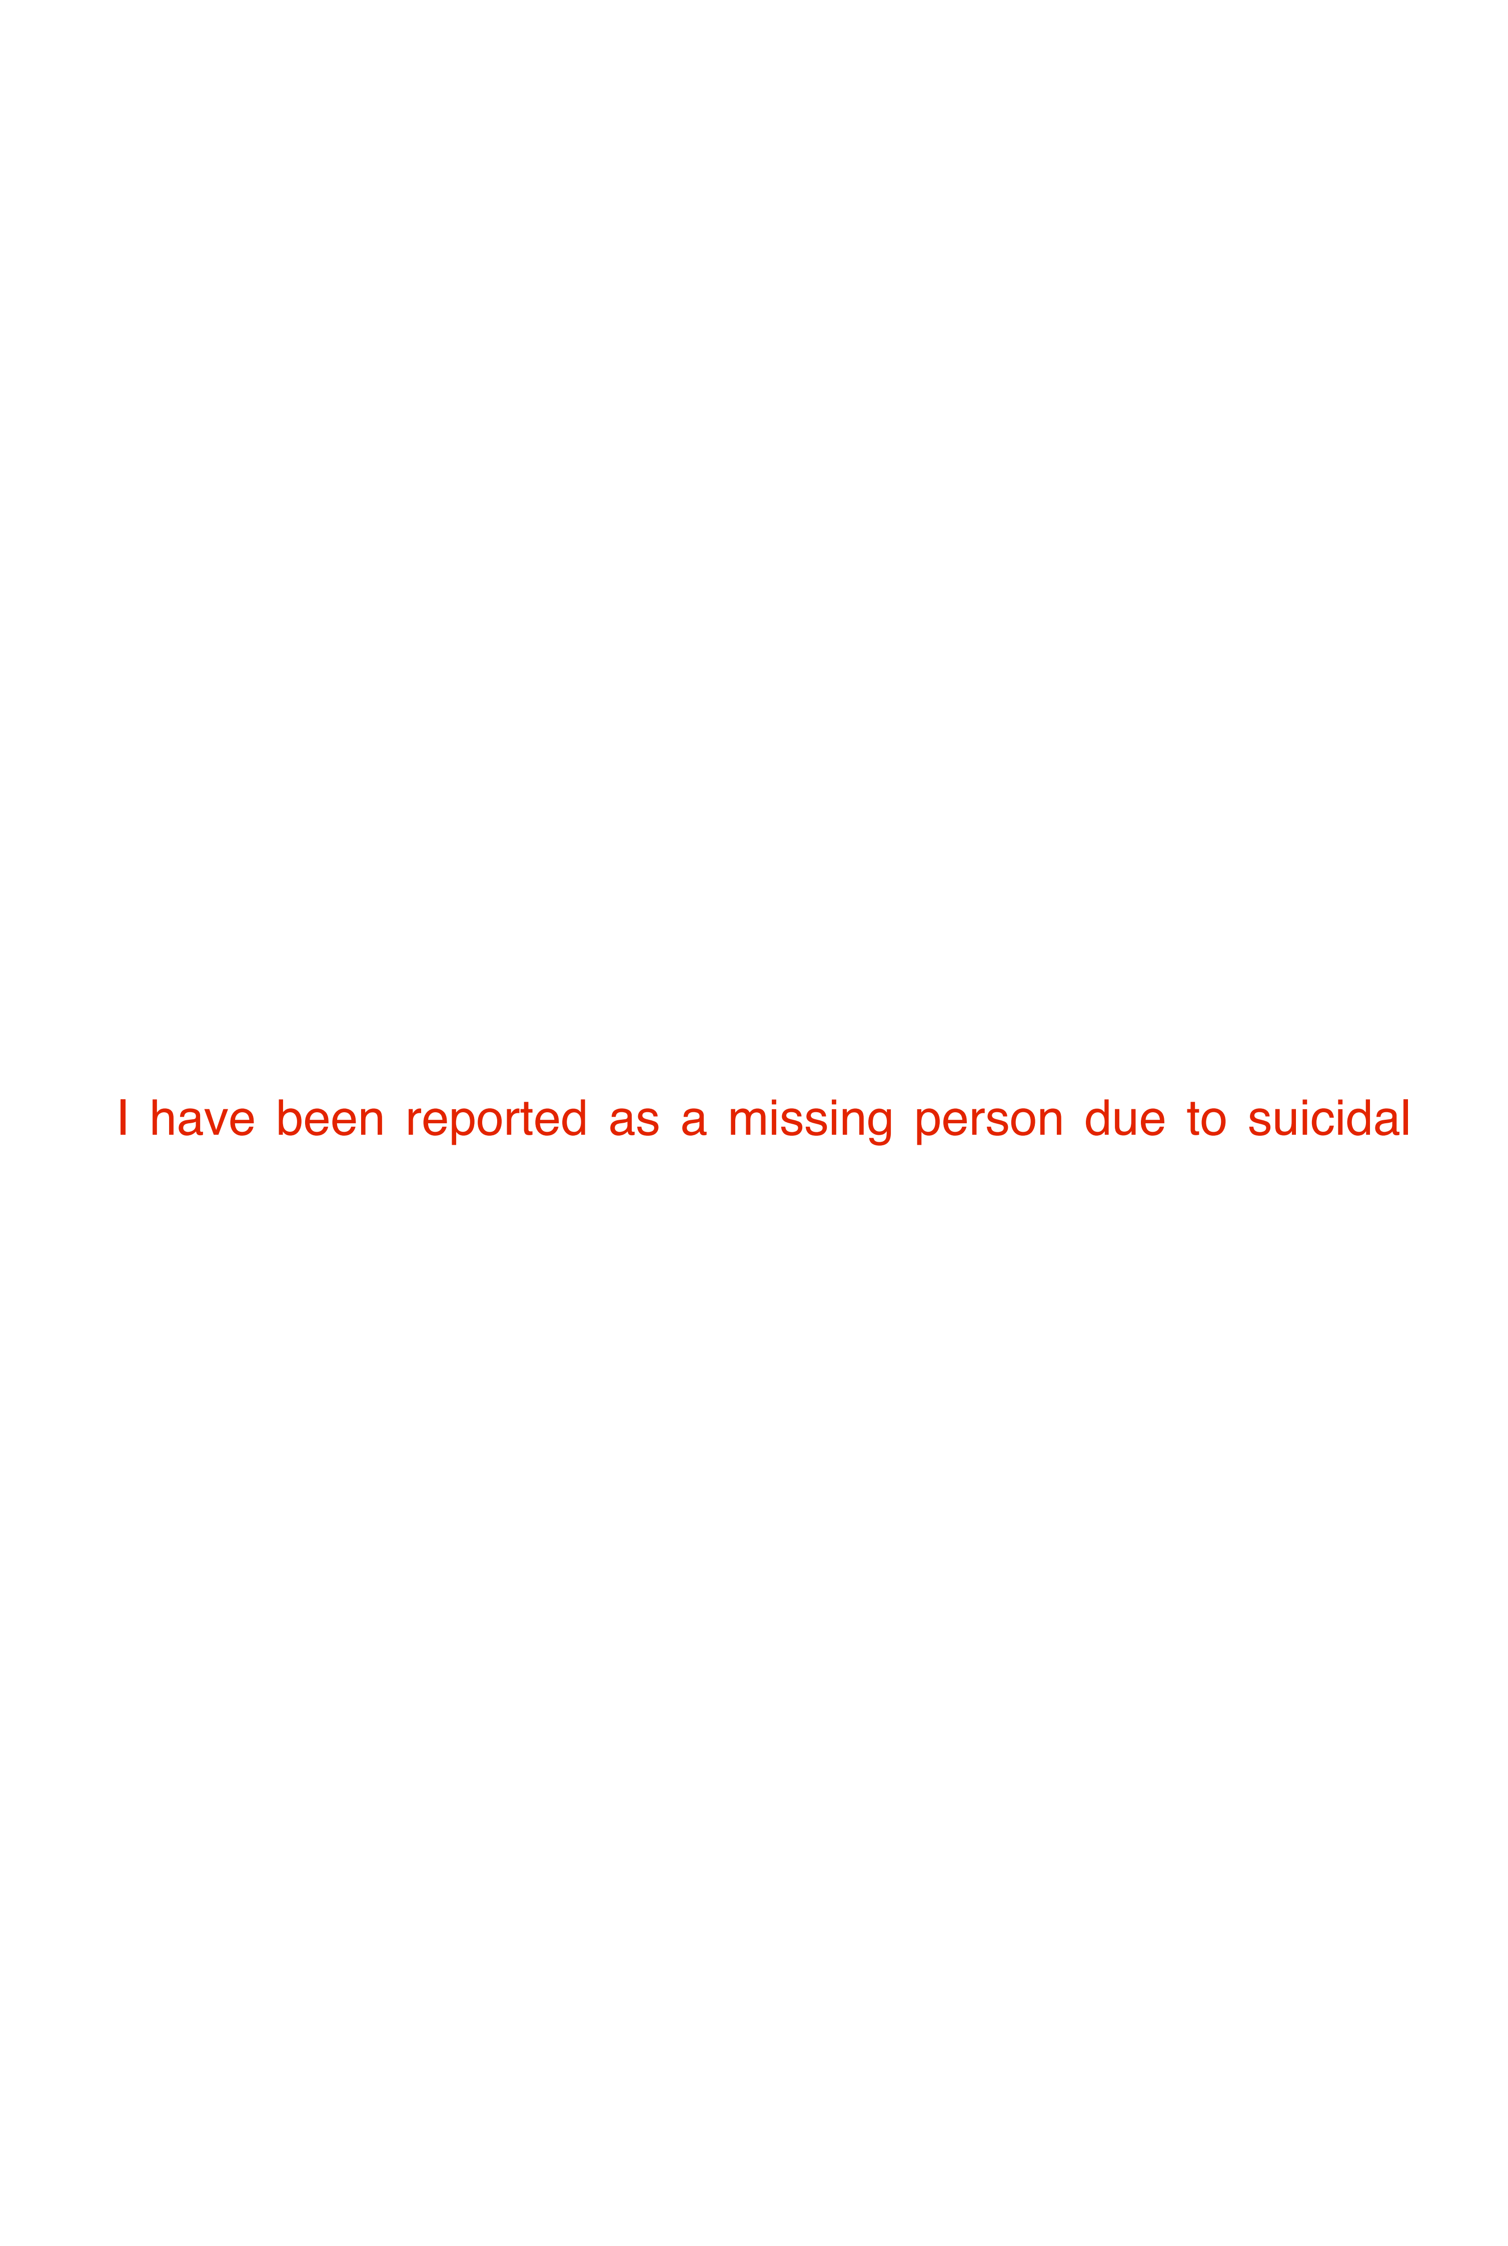

provide essential funding has caused significant financial

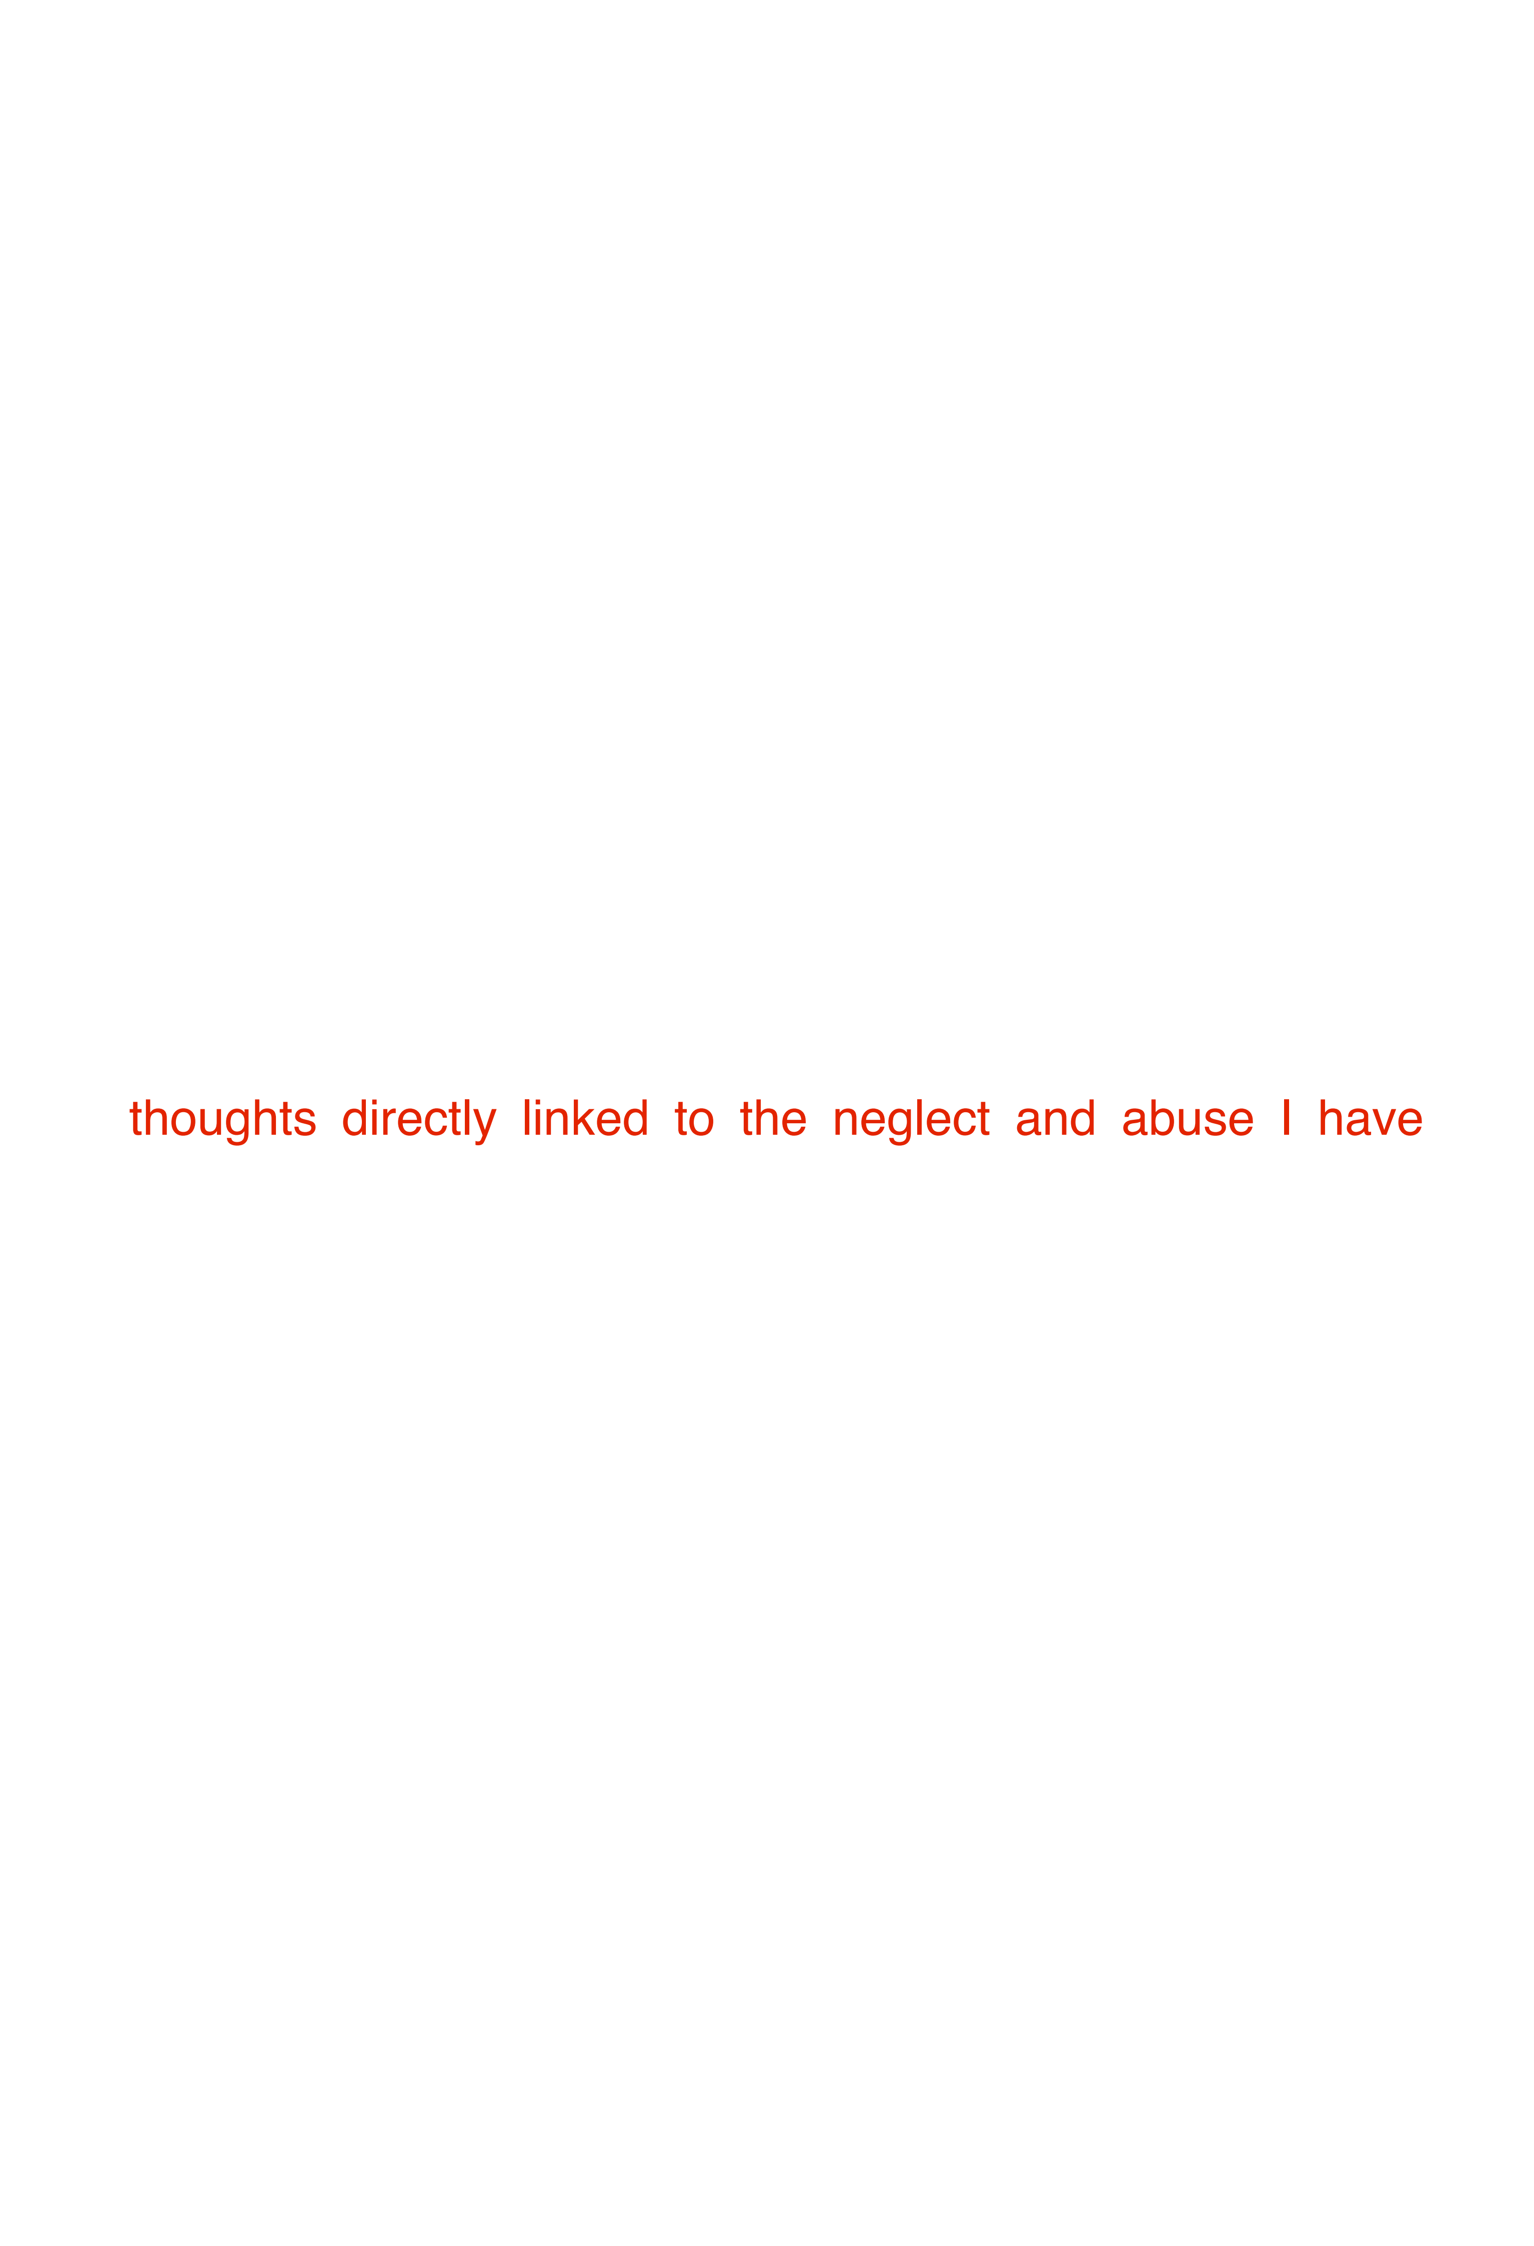

hardship and emotional distress, exacerbating my mental

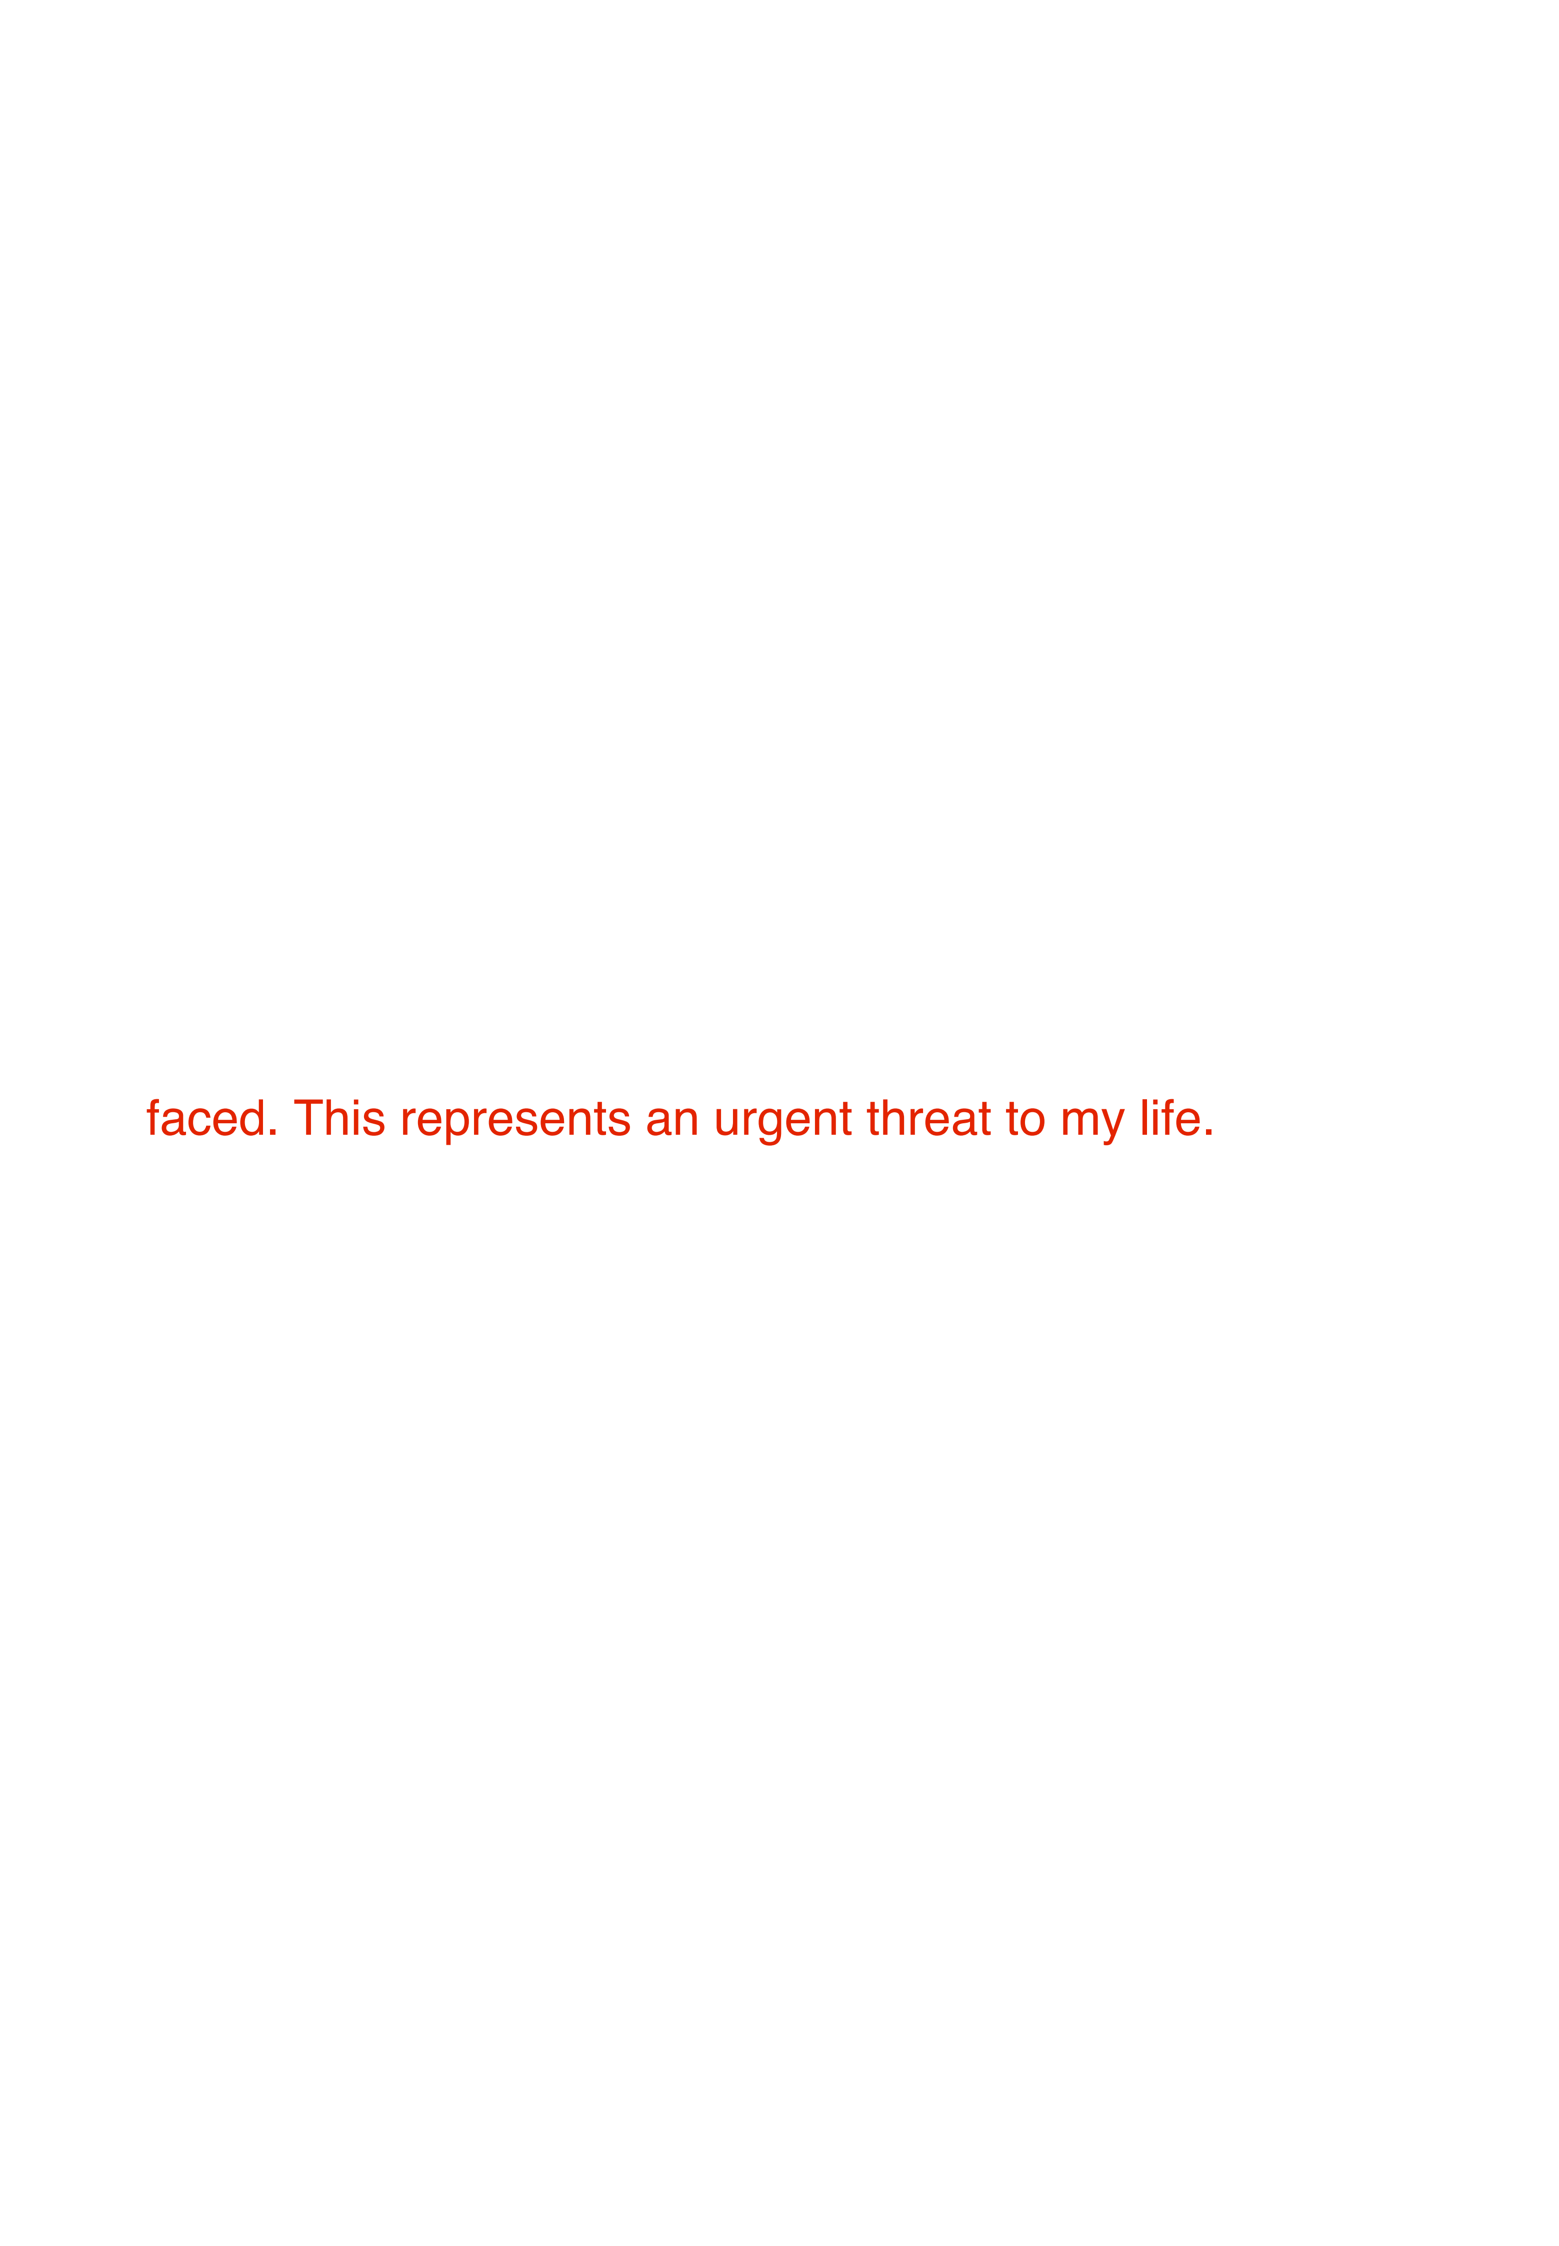

health struggles.

5. **Immediate Threat:**

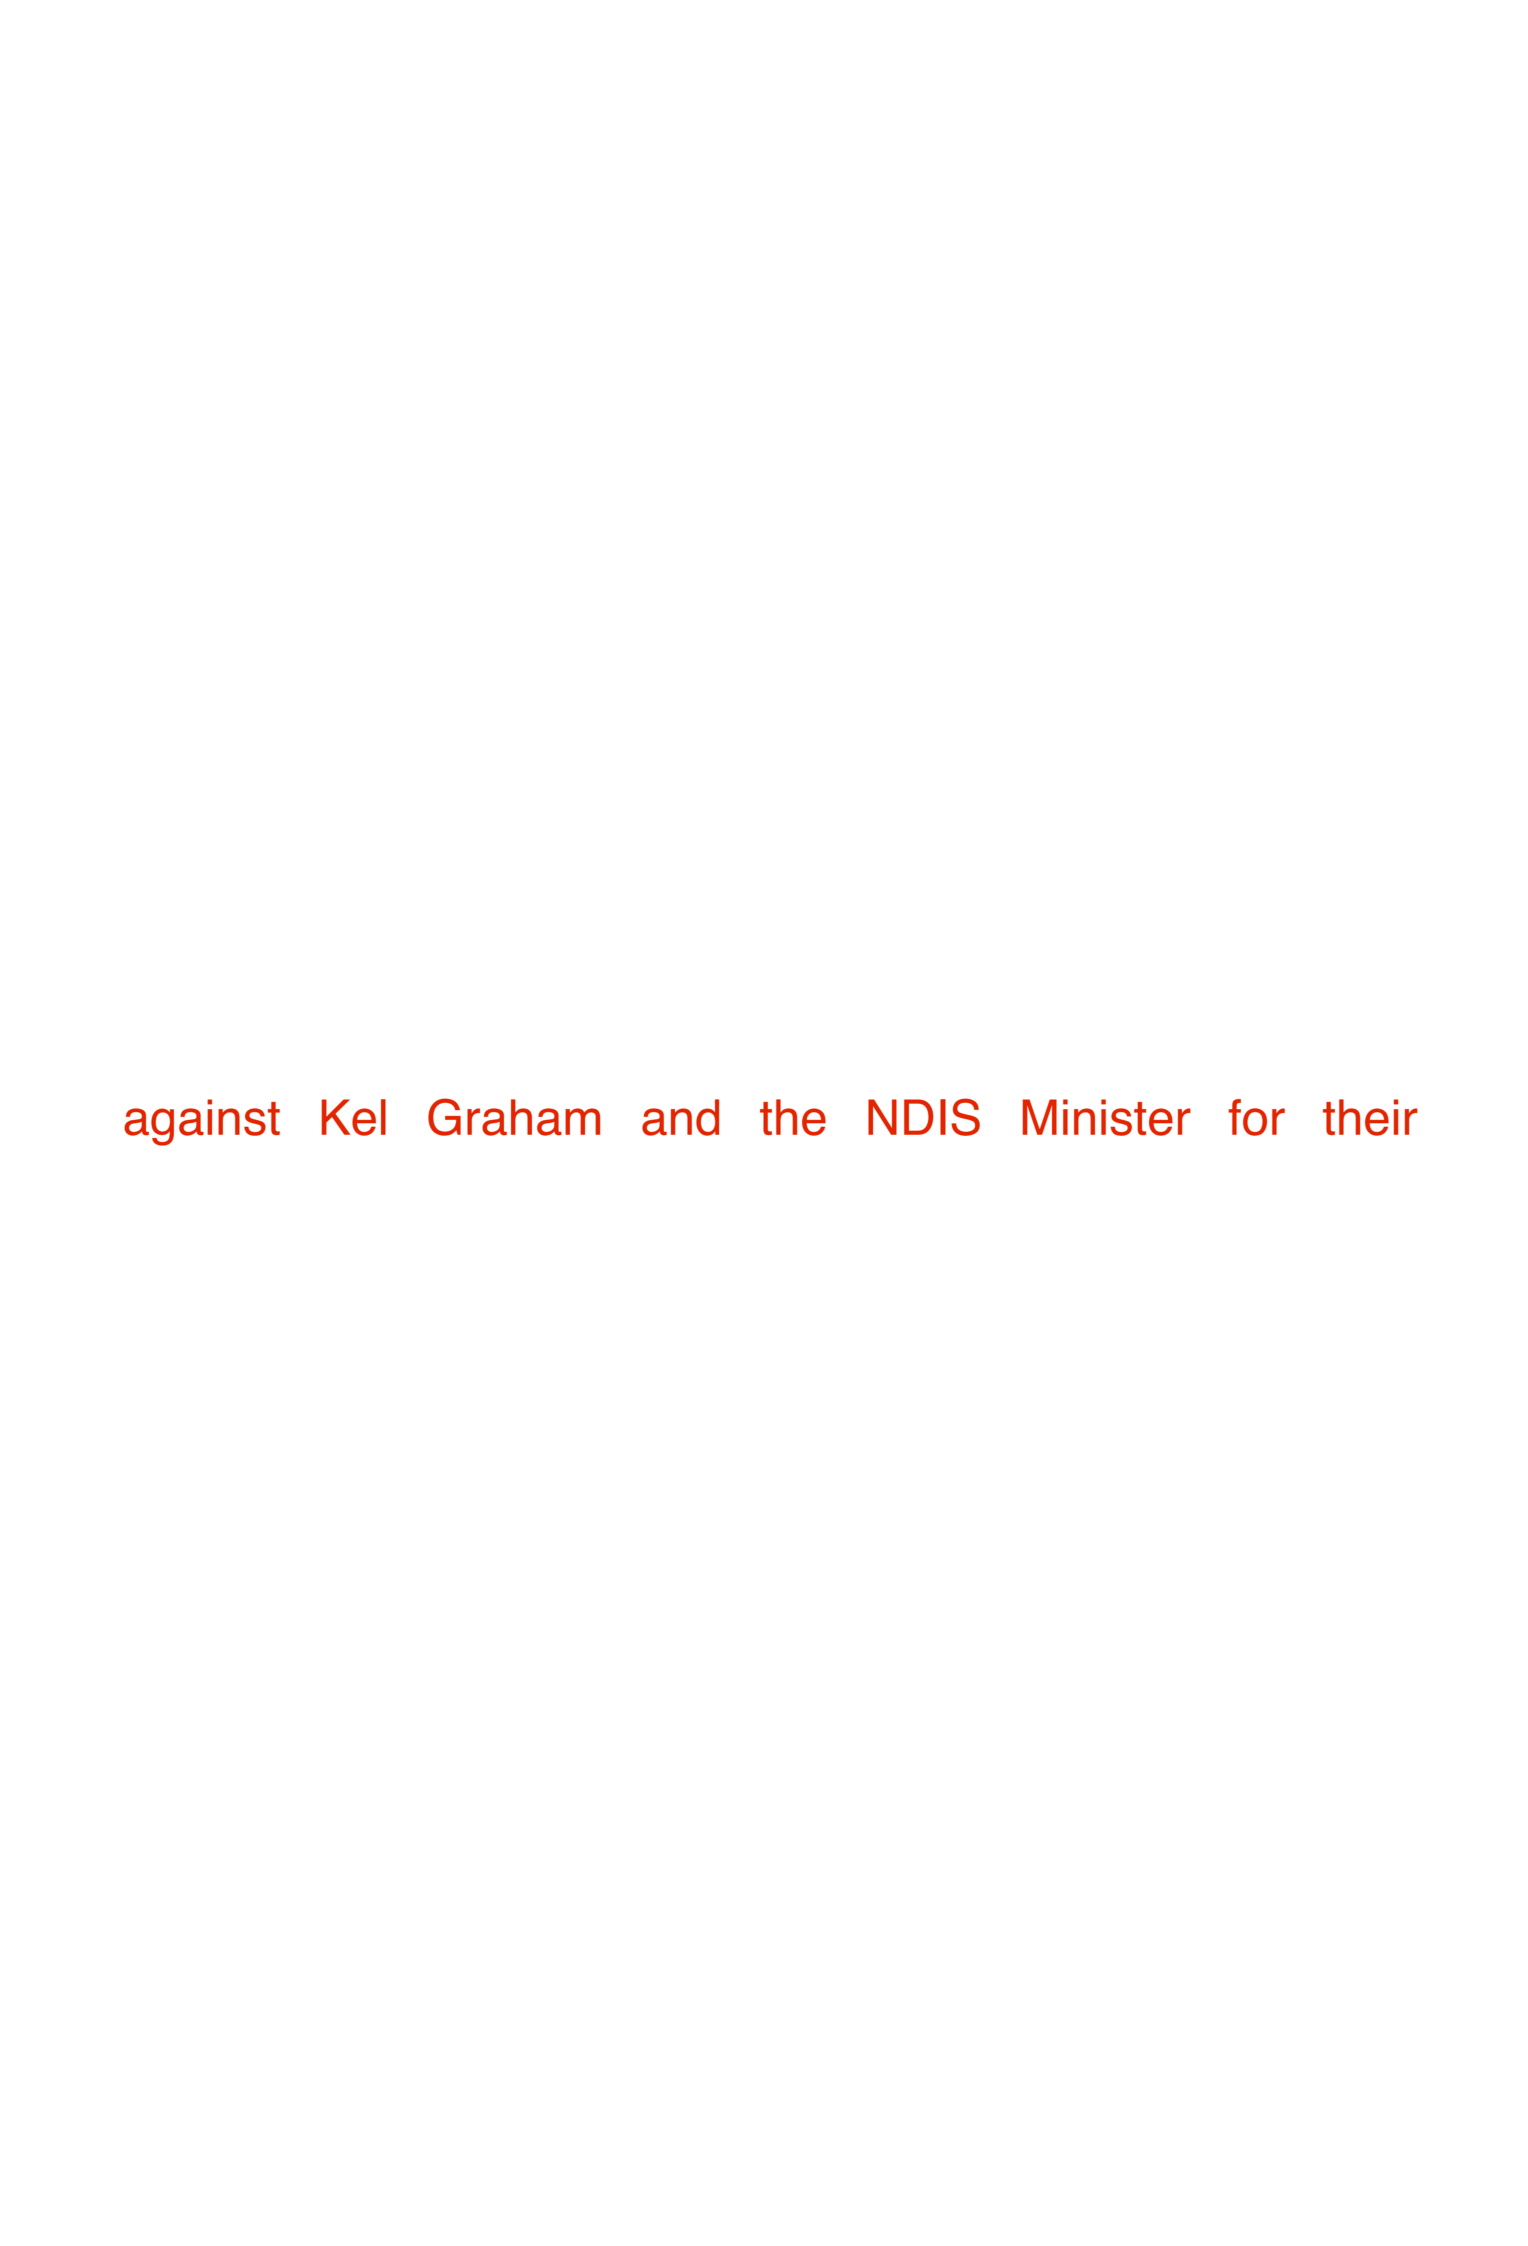

I have been reported as a missing person due to suicidal

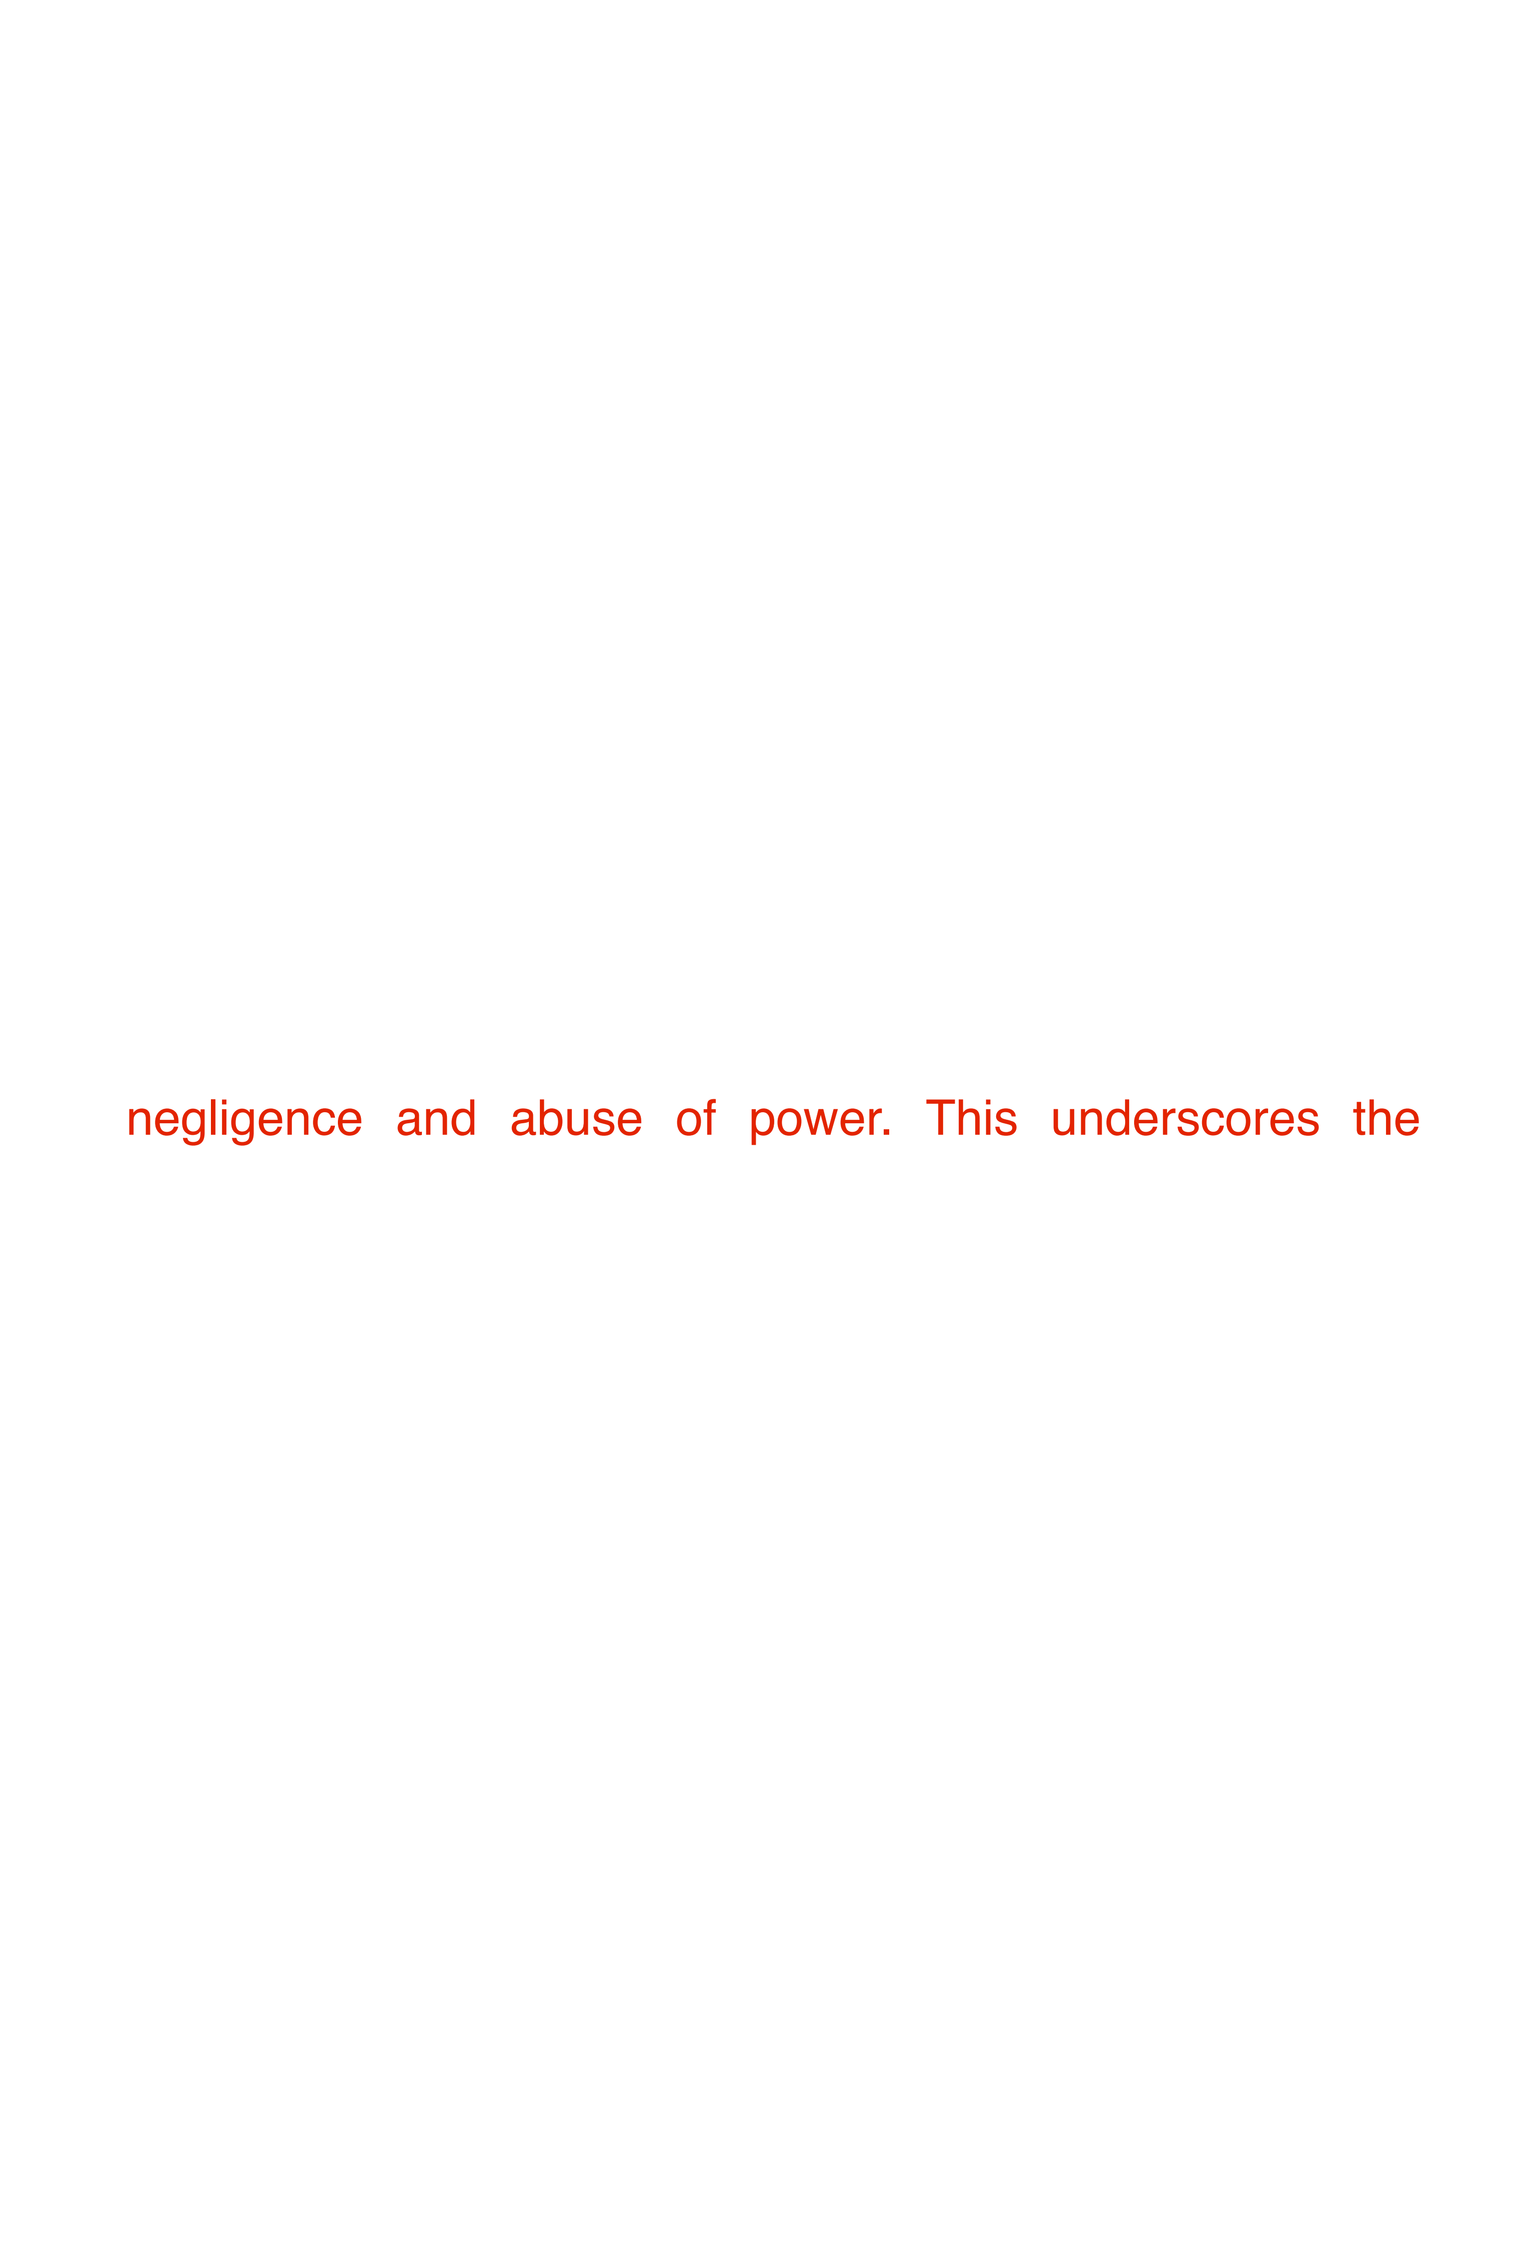

thoughts directly linked to the neglect and abuse I have

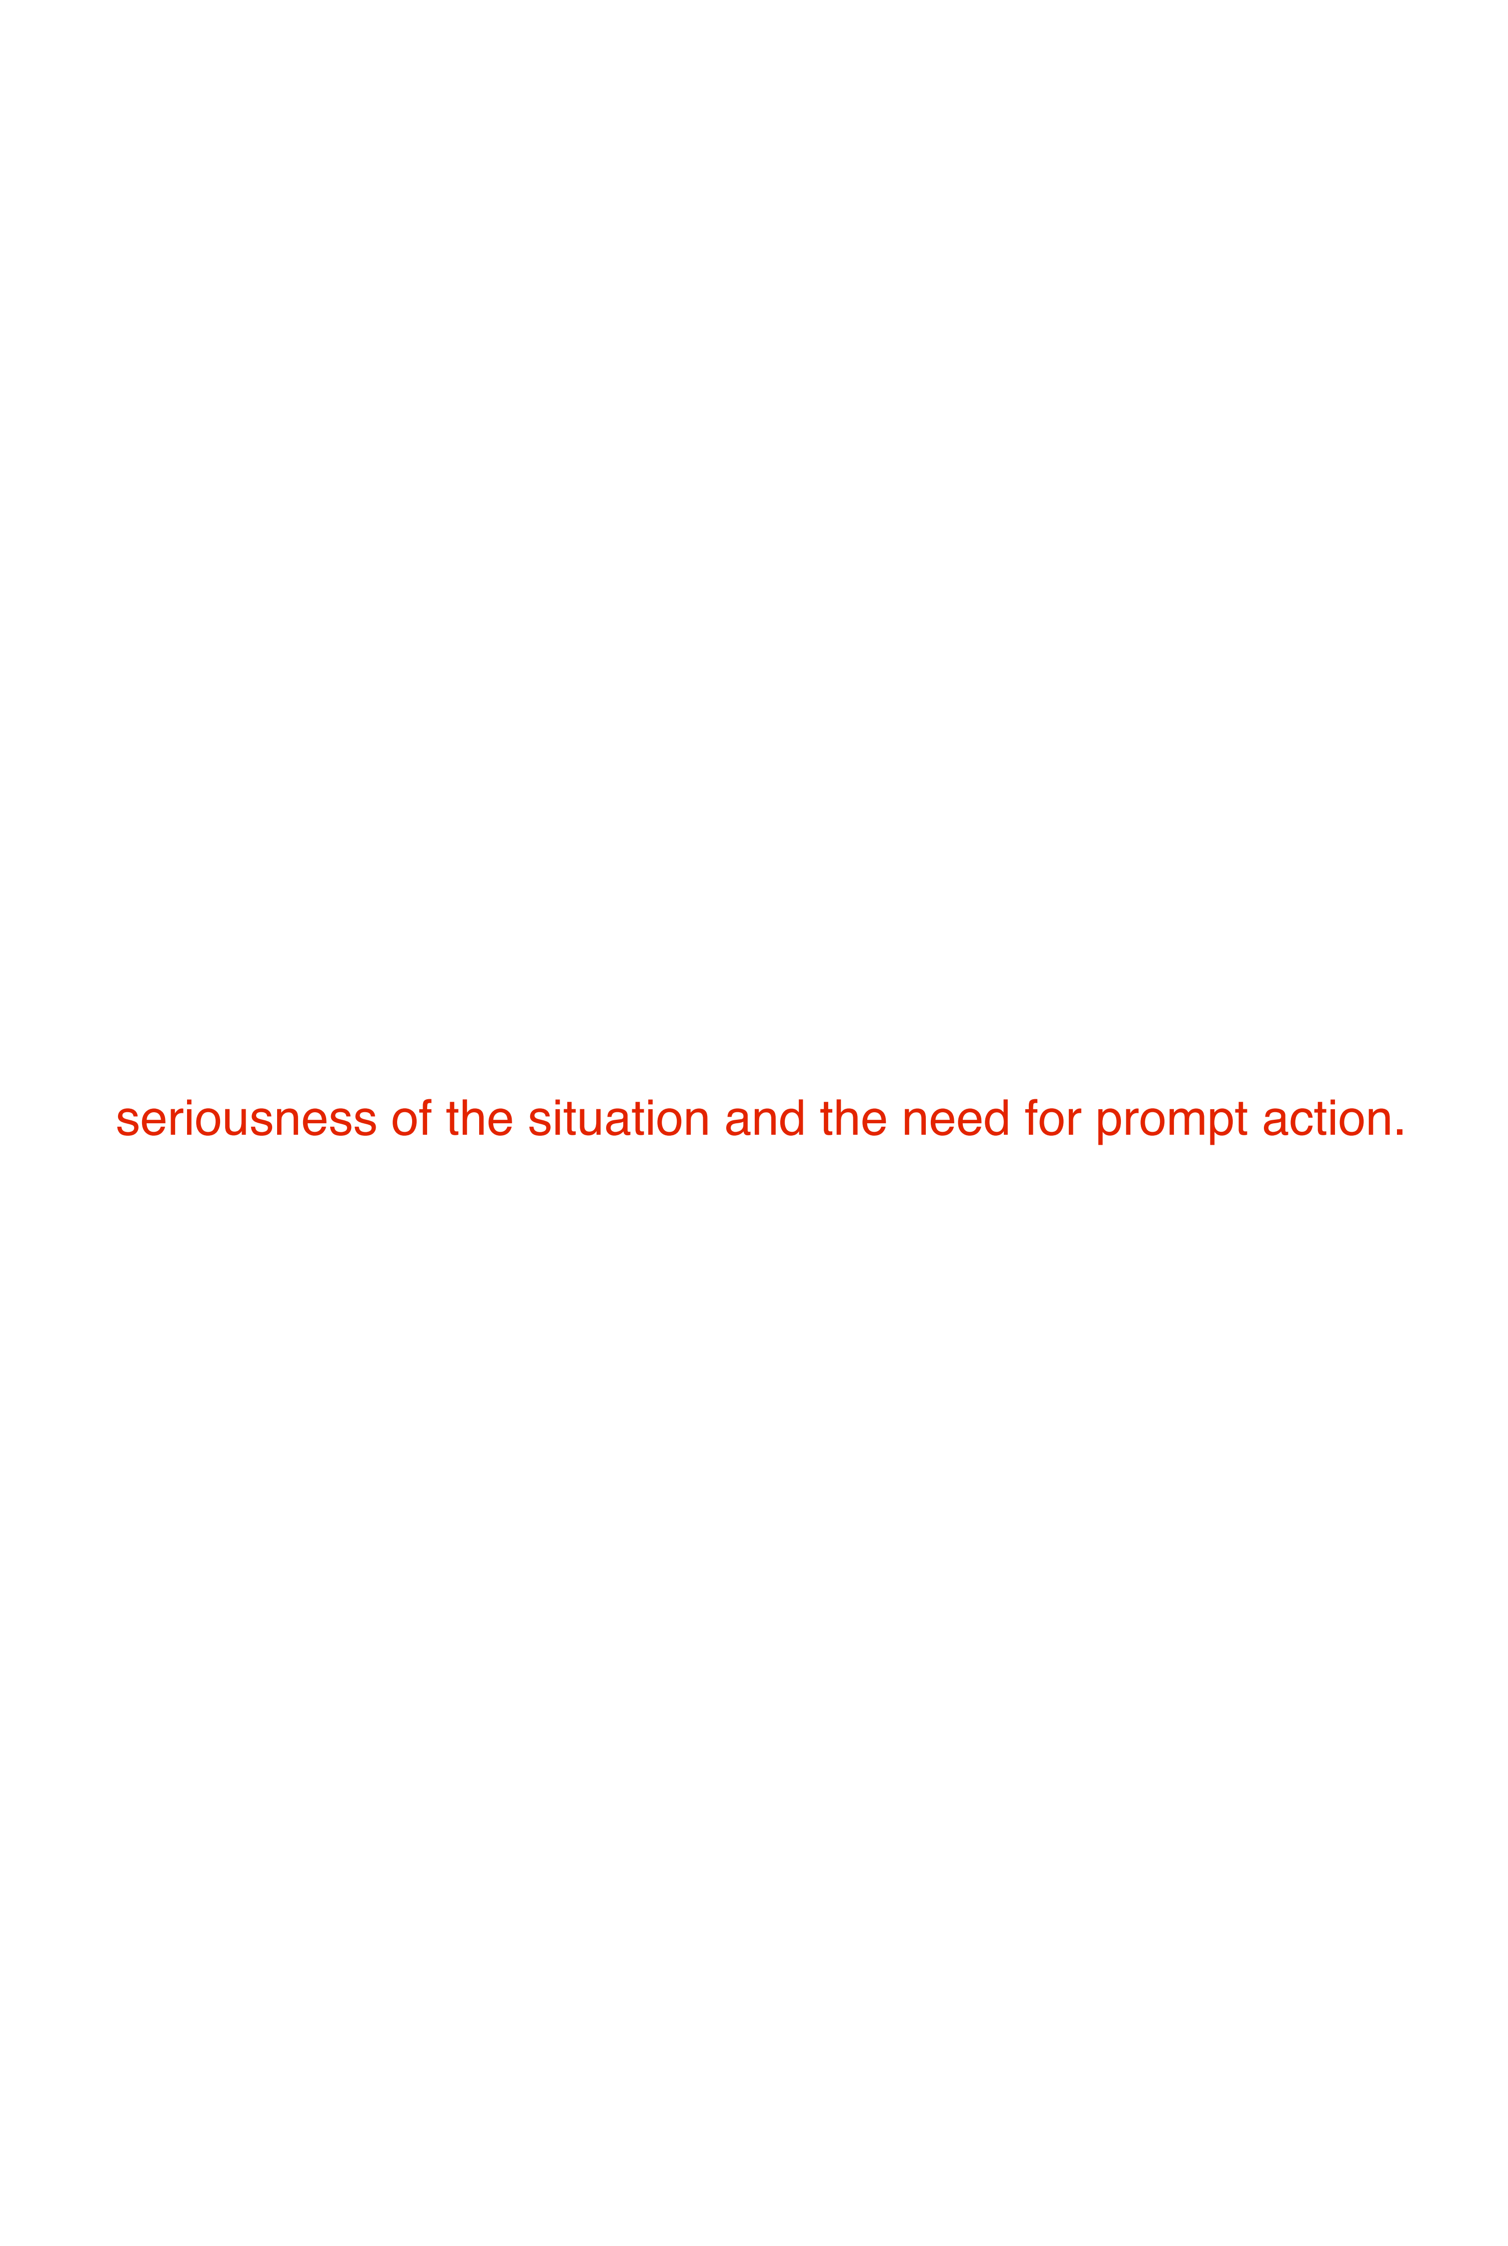

faced. This represents an urgent threat to my life.

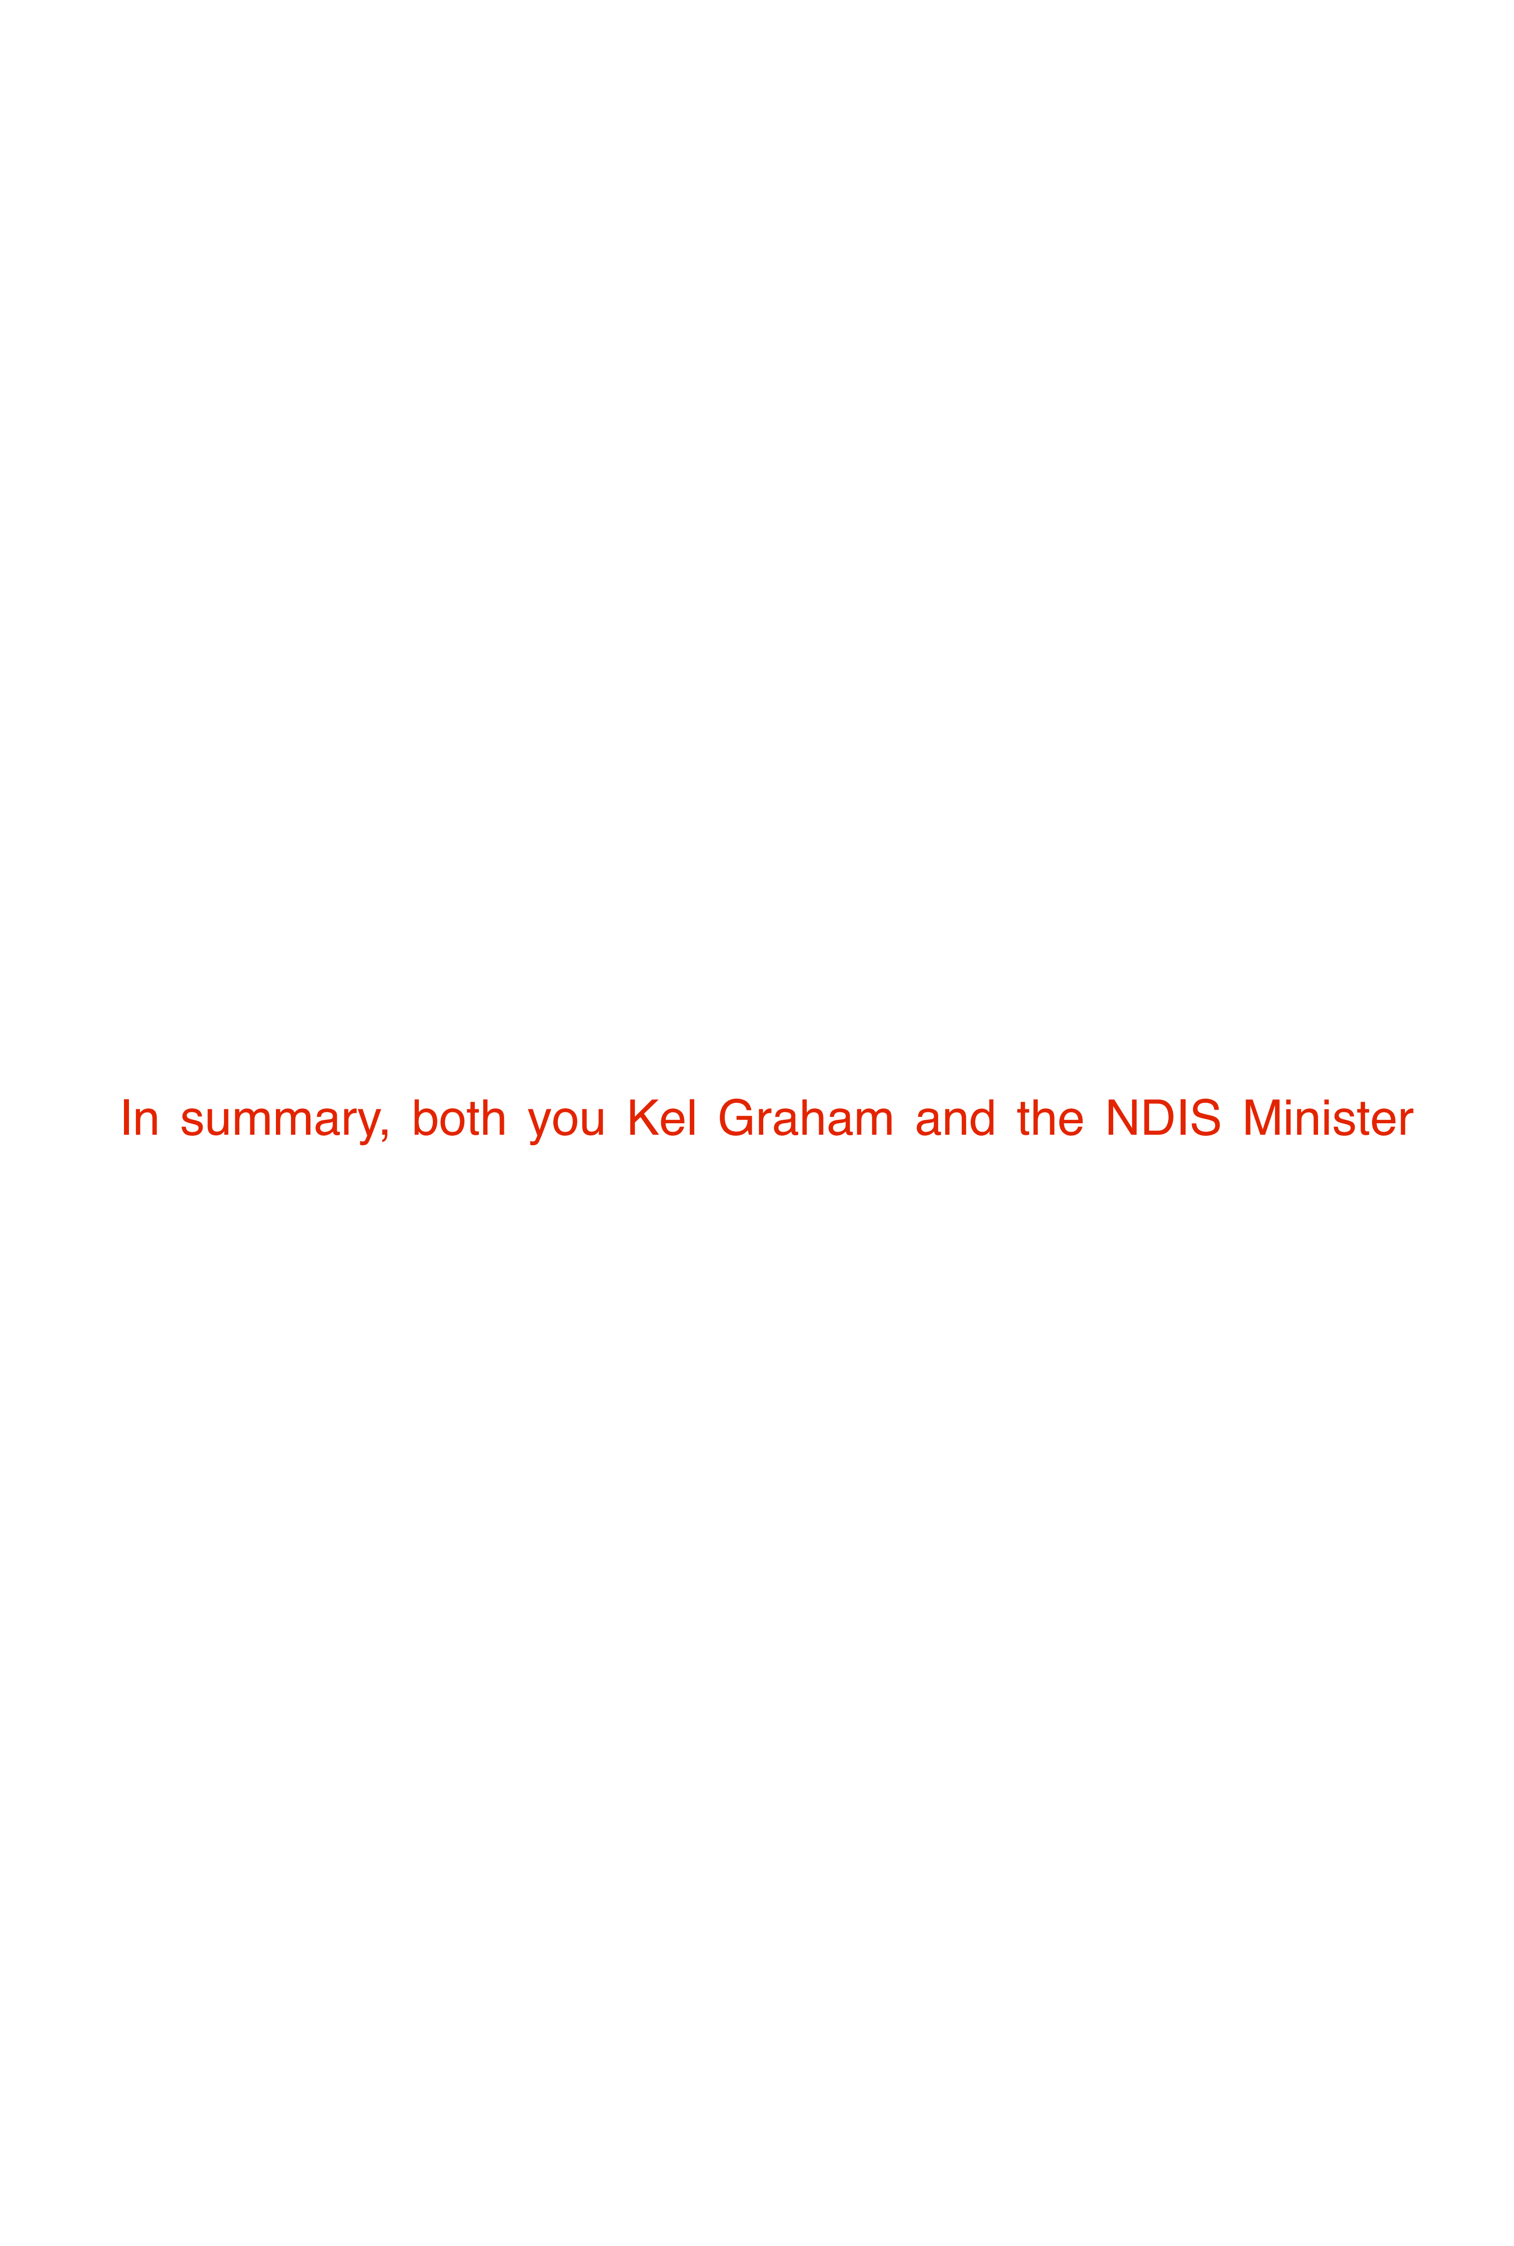

6. **Legal Action Threat:**

Failure to address my concerns will result in legal action

against Kel Graham and the NDIS Minister for their

negligence and abuse of power. This underscores the

seriousness of the situation and the need for prompt action.

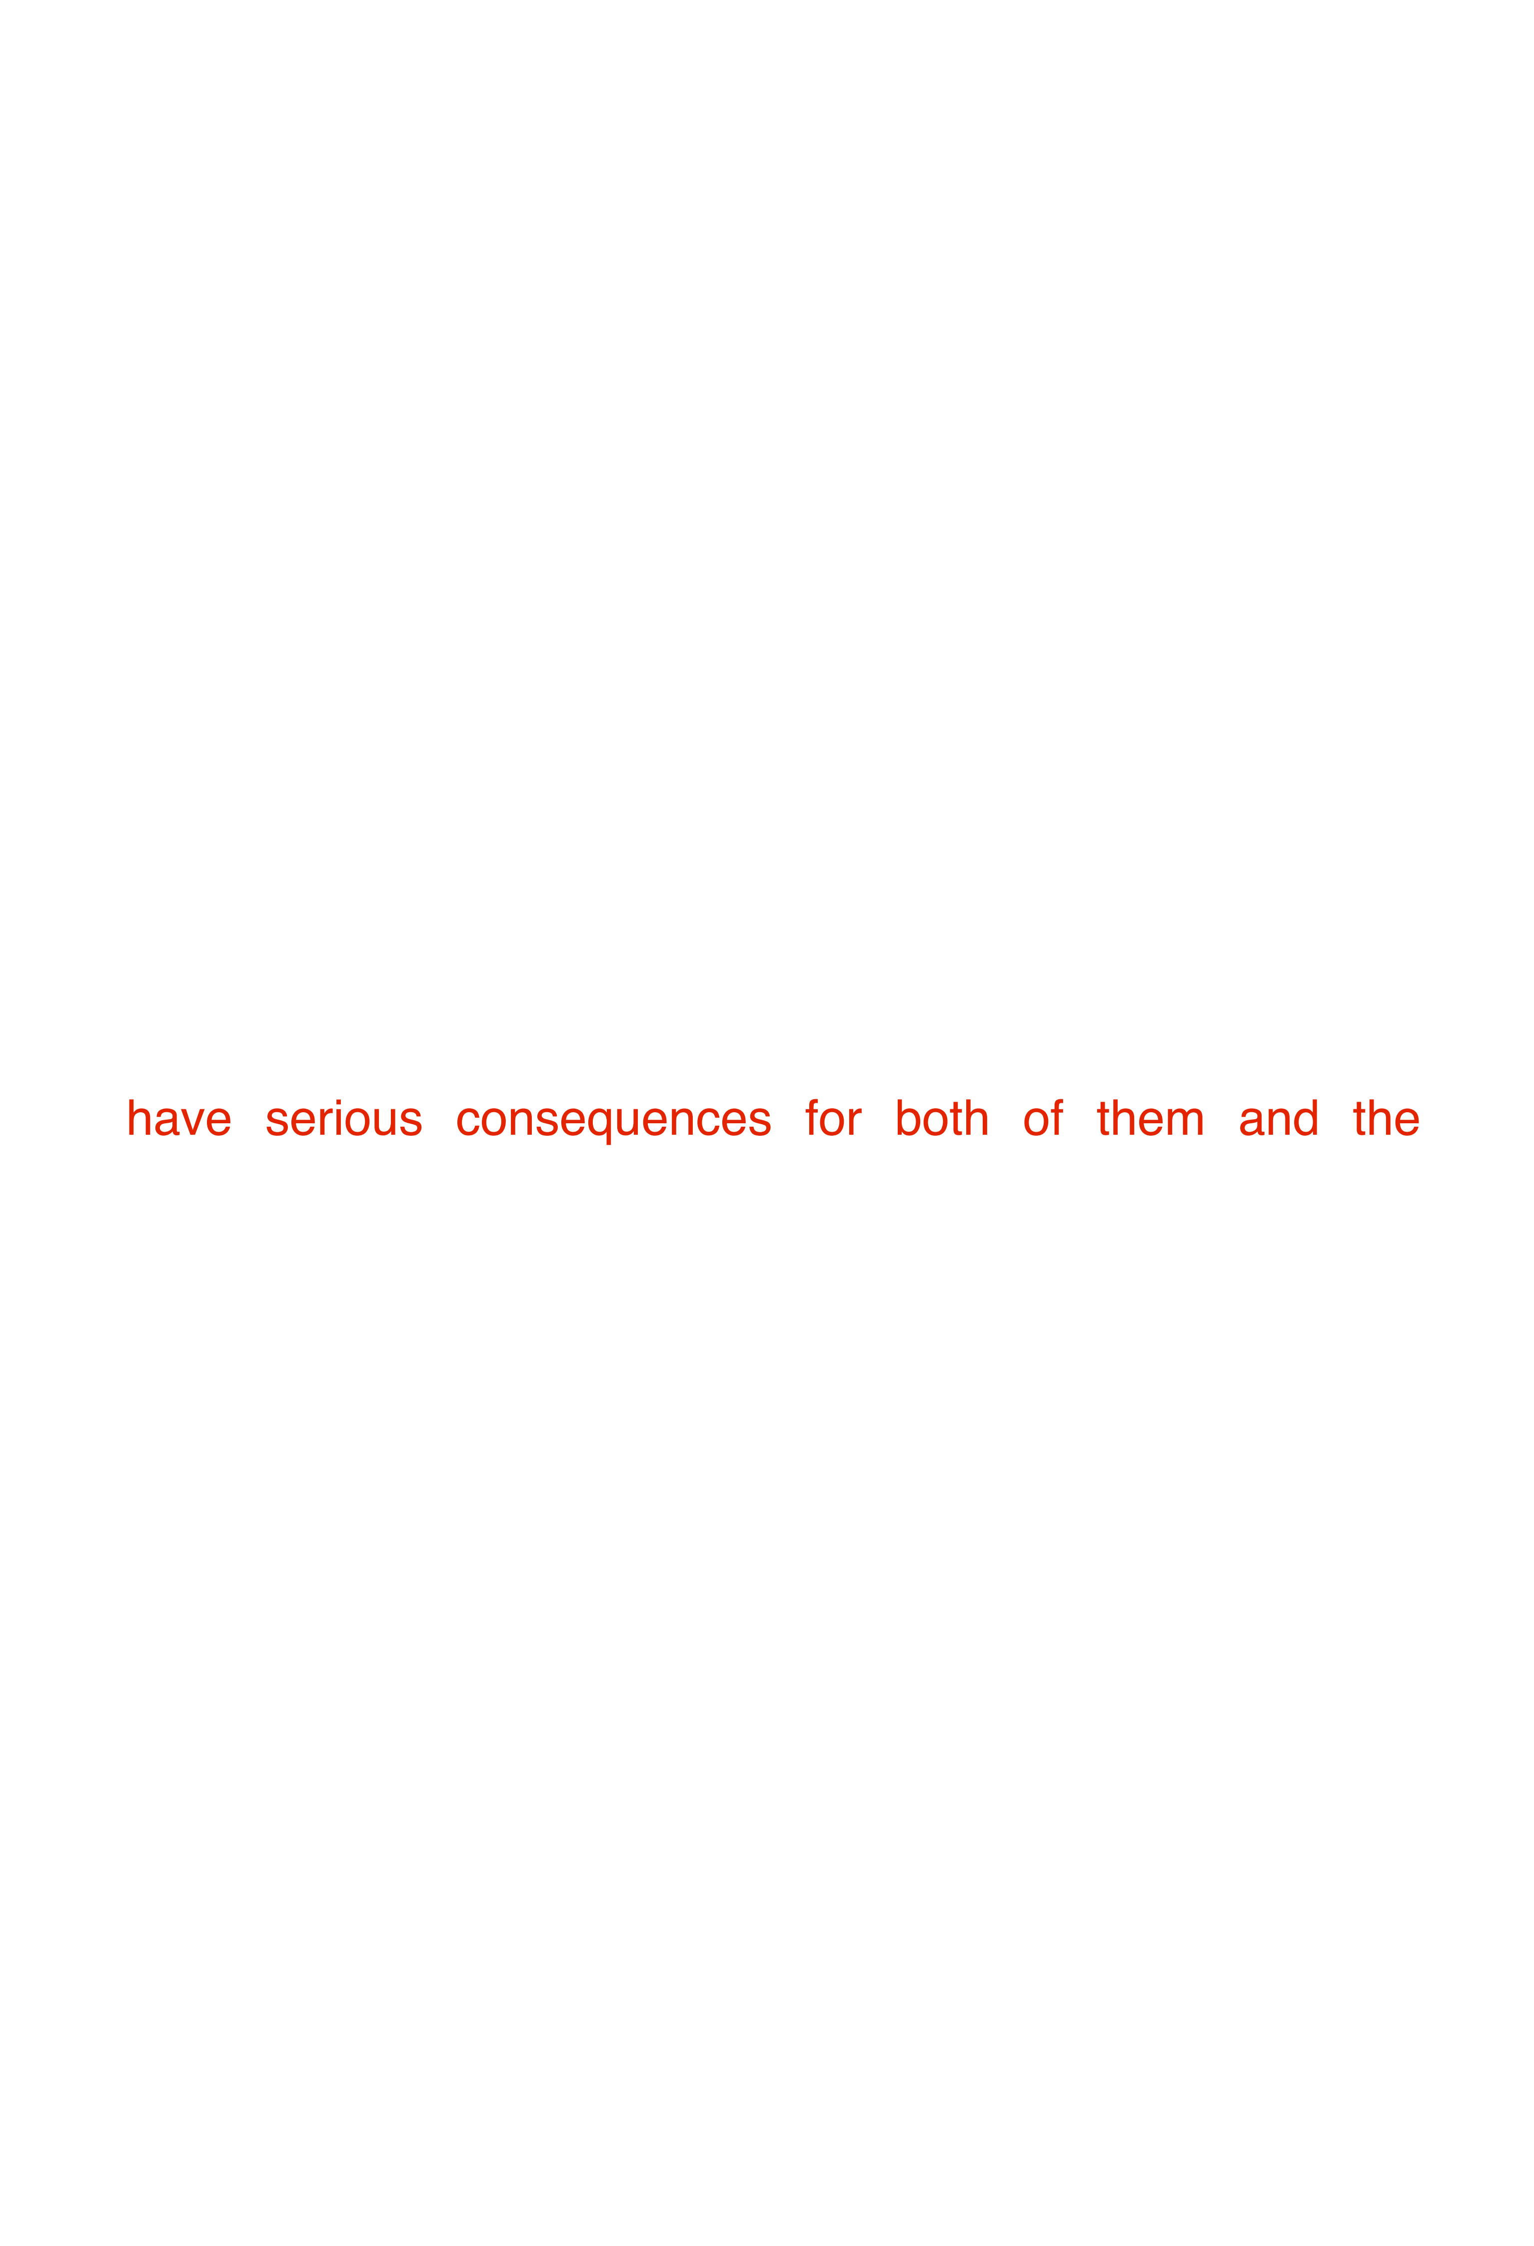

In summary, both you Kel Graham and the NDIS Minister

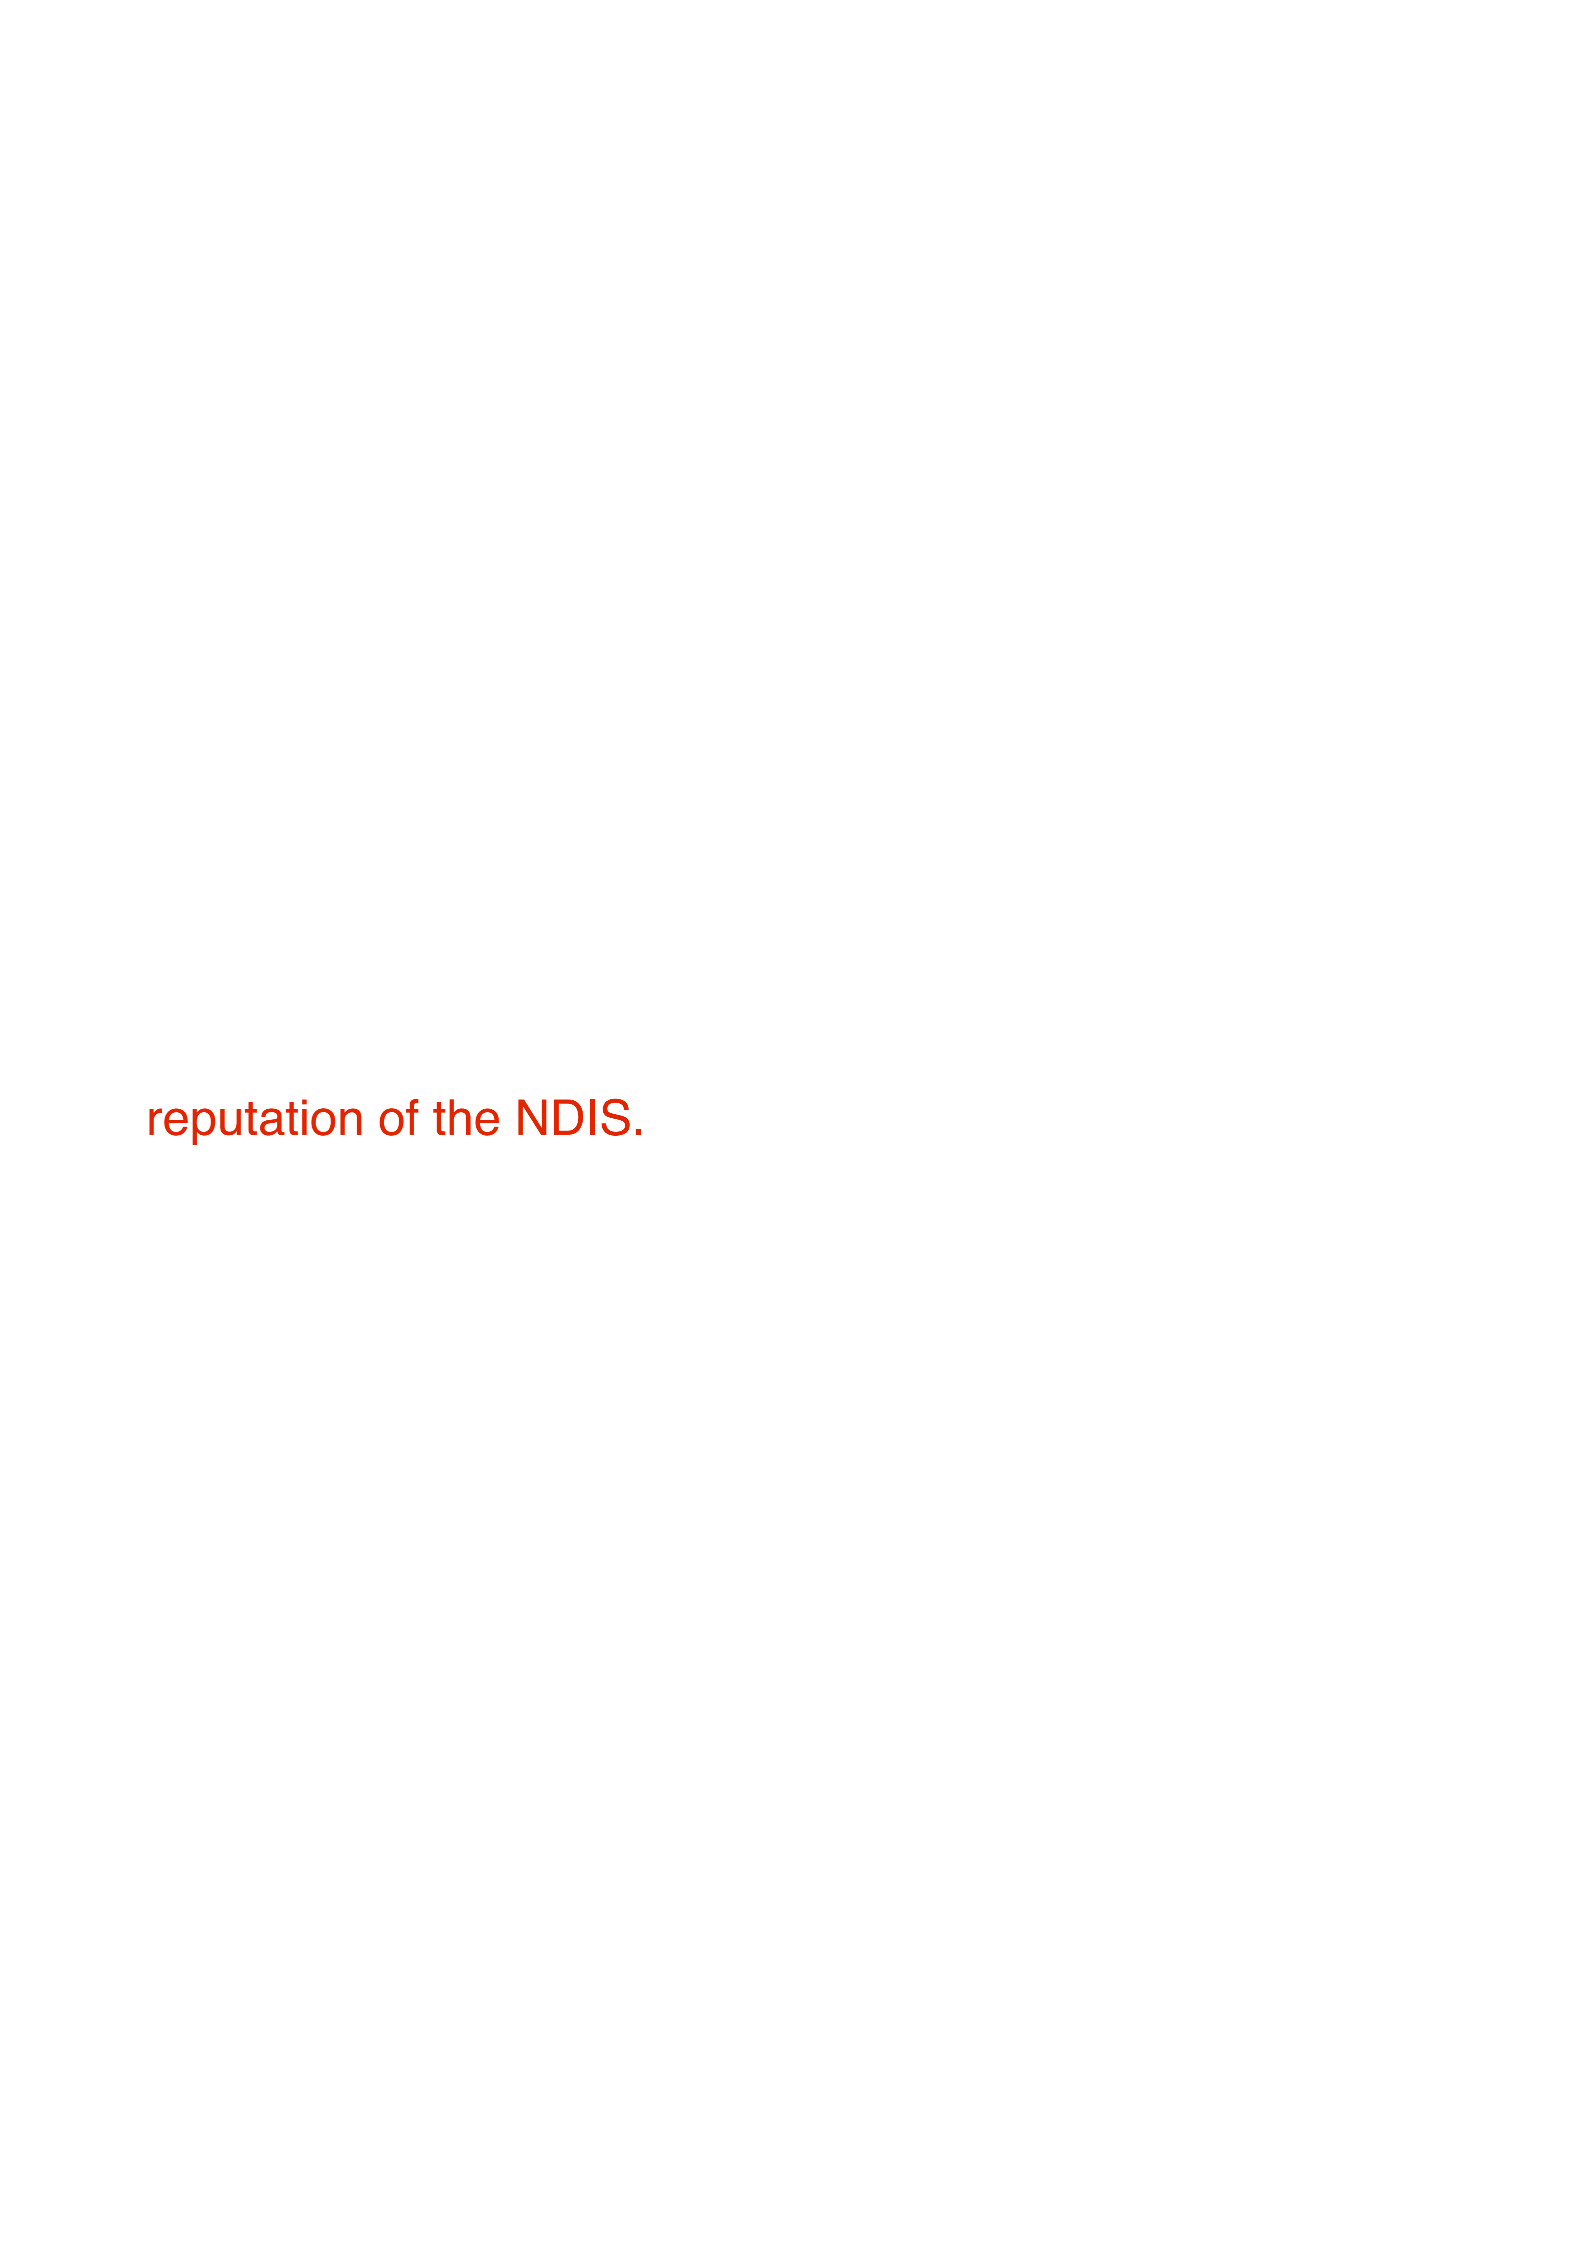

have a legal and moral obligation to address the issues

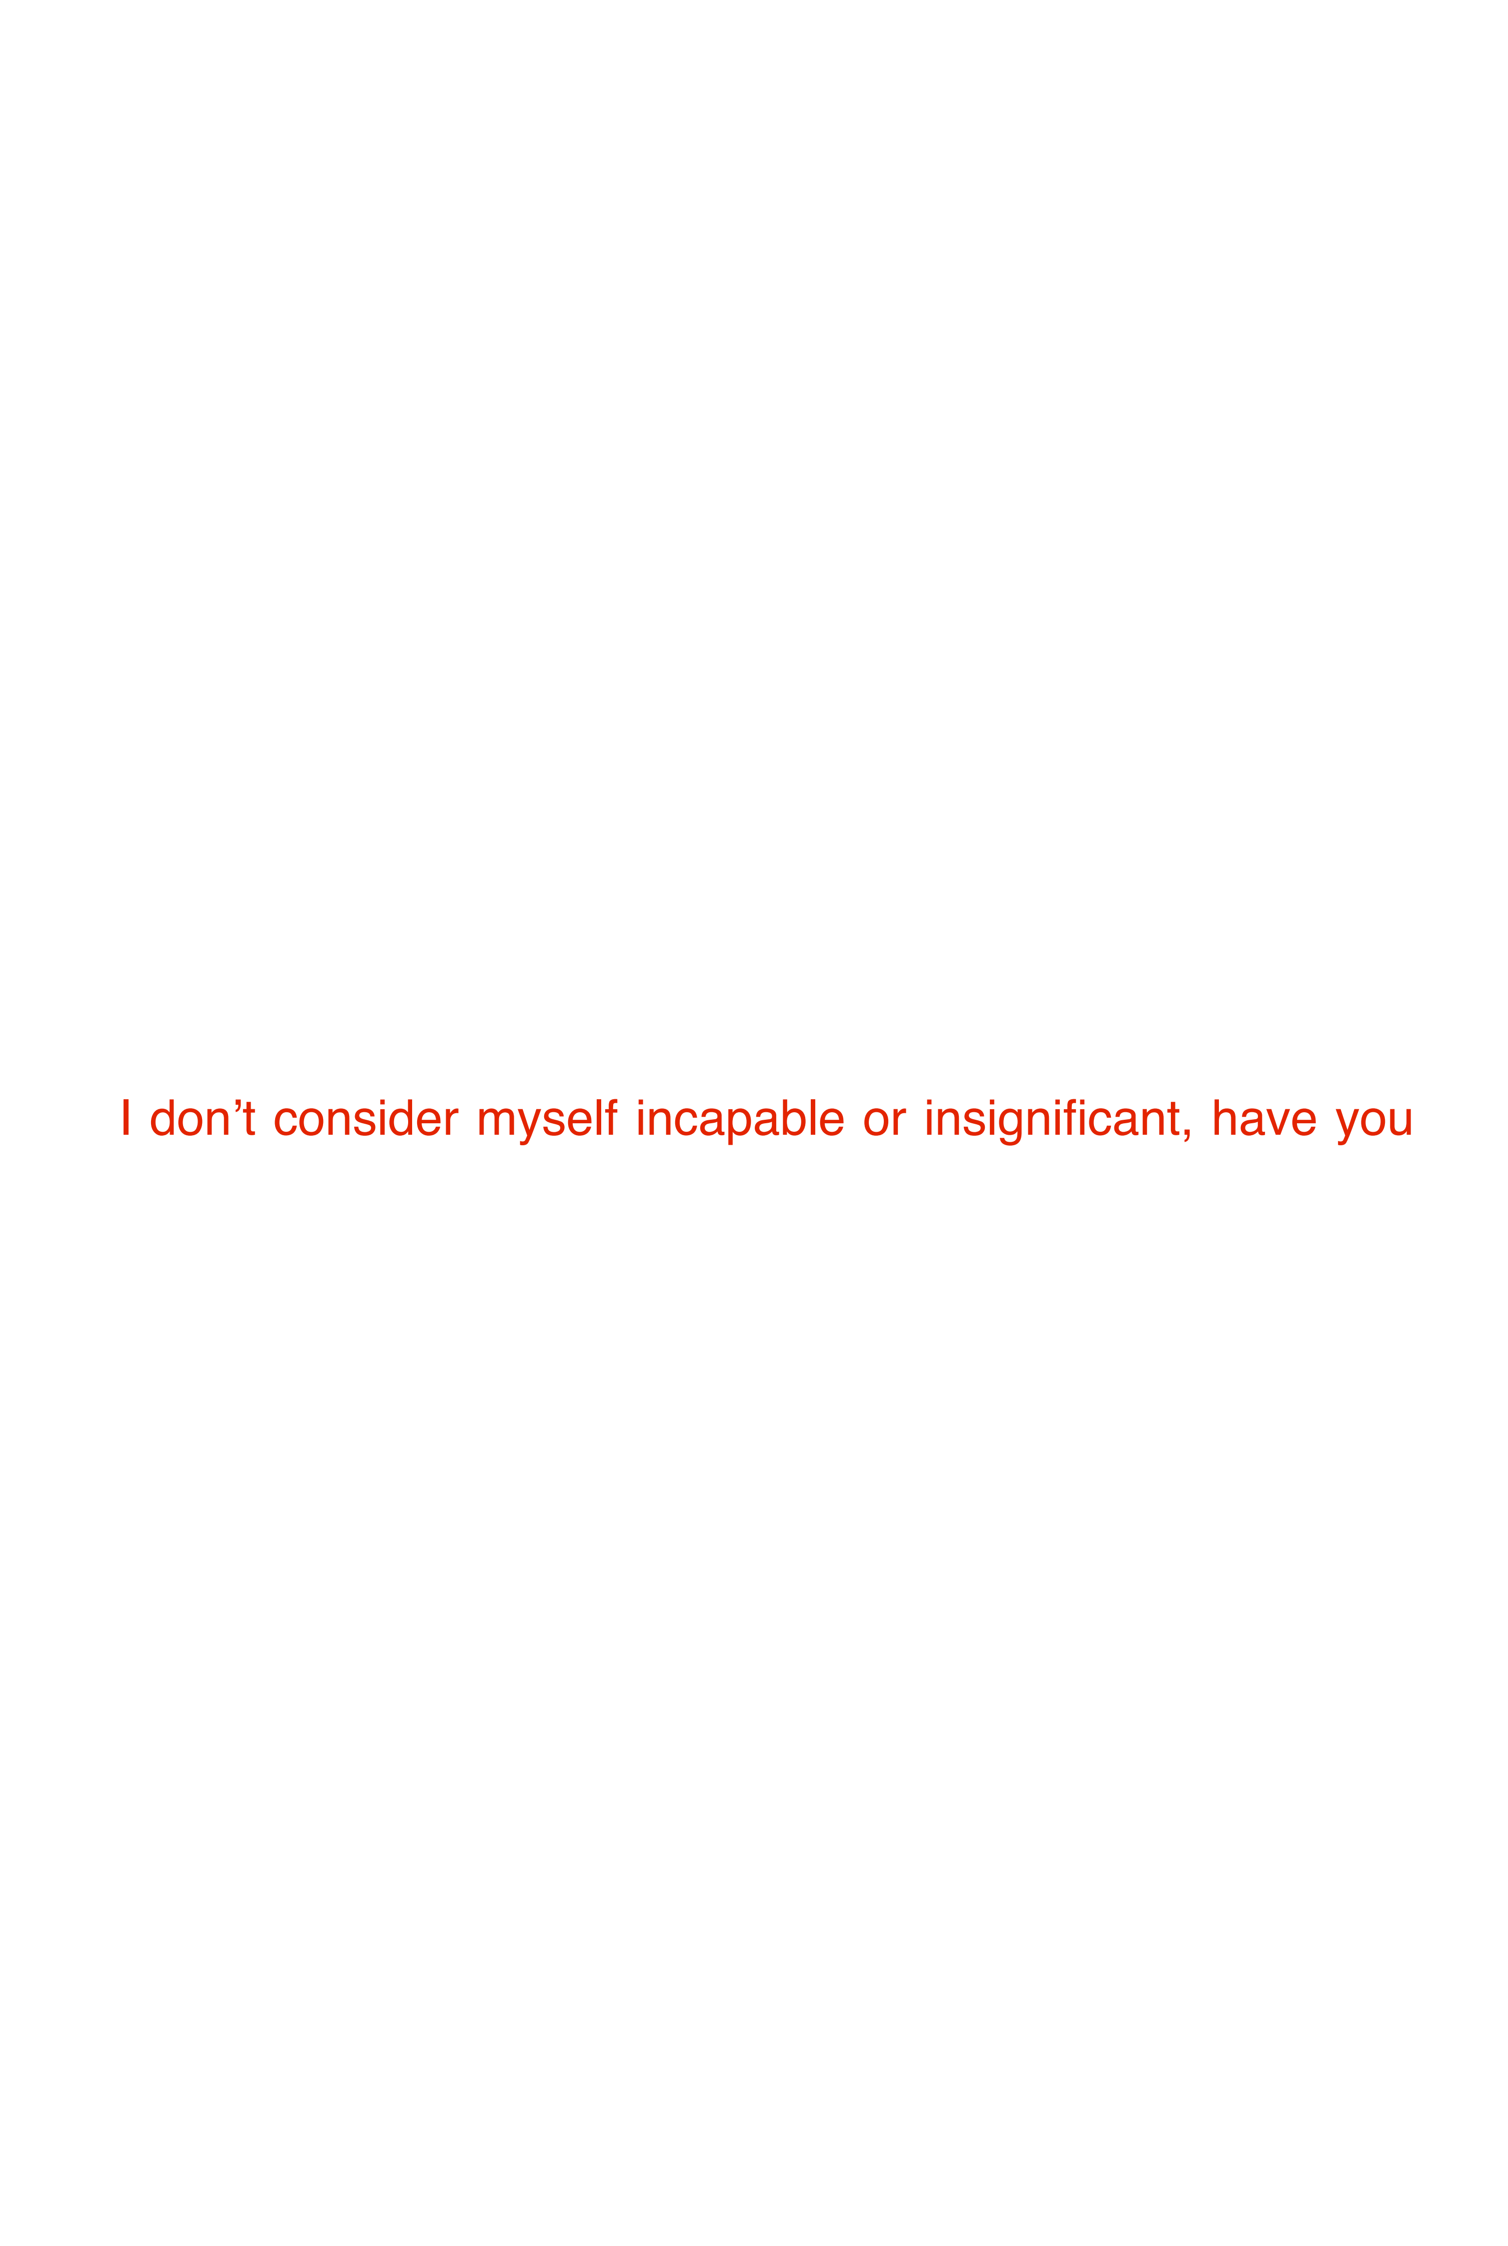

raised in this letter, including recognizing my employment

status, providing necessary funding and support, and

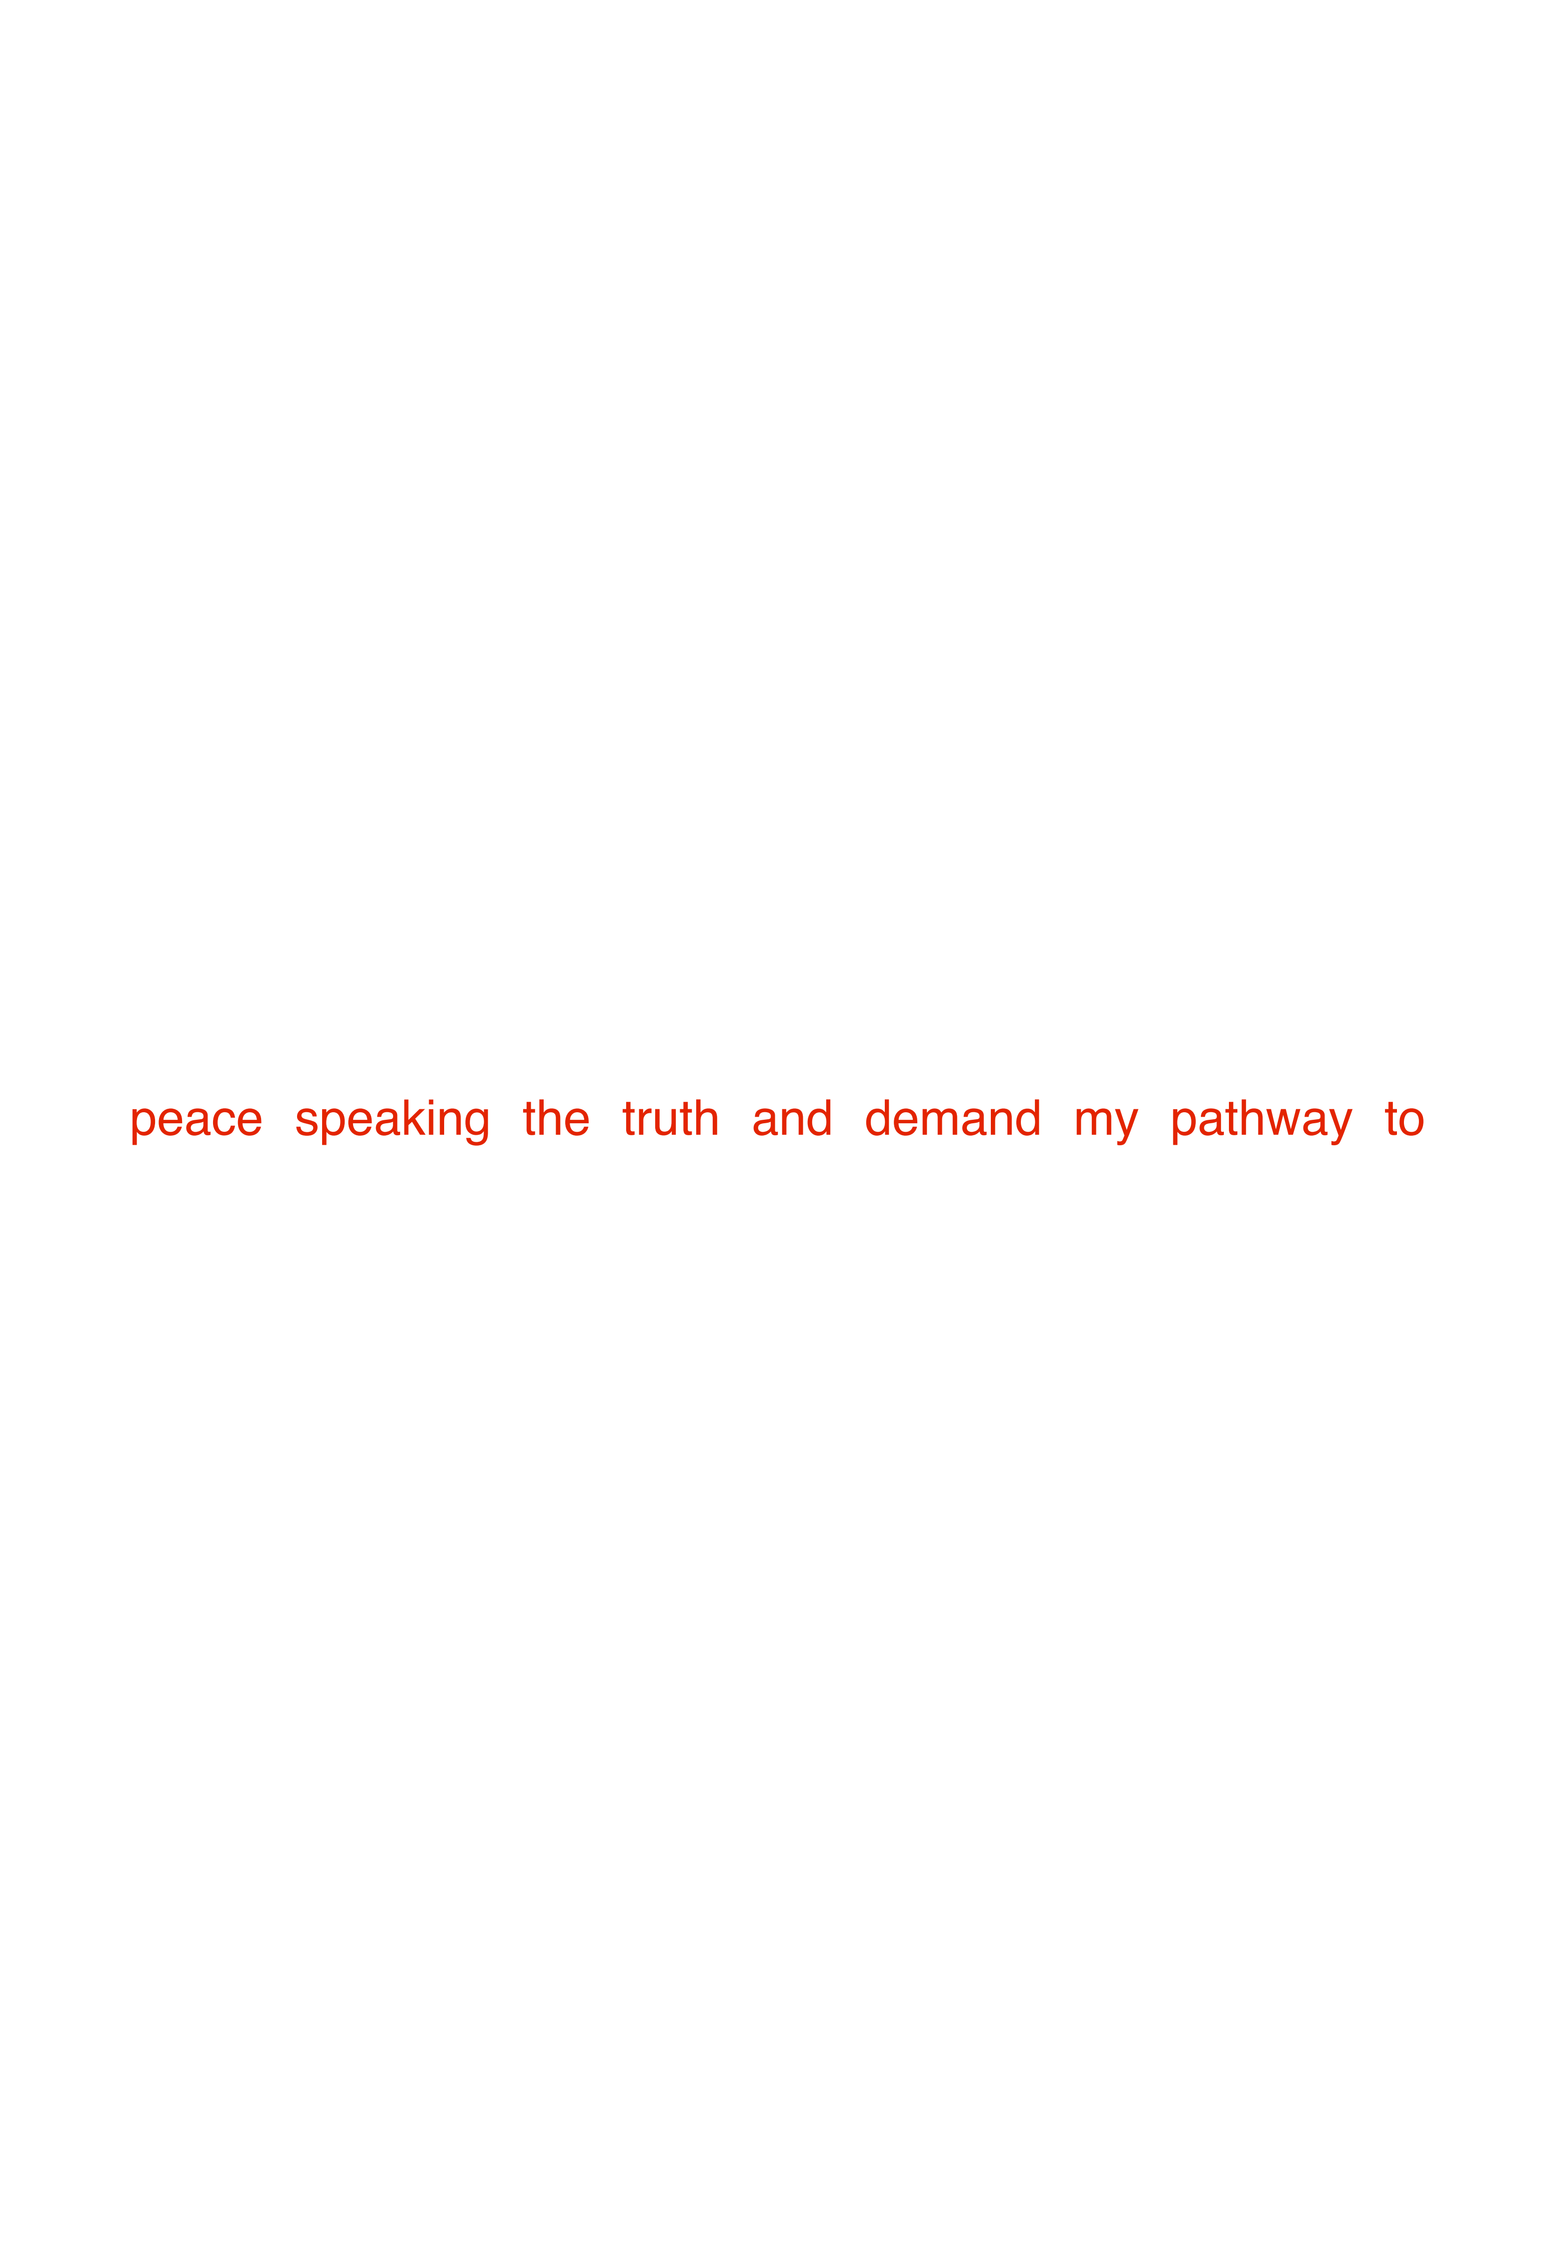

ensuring my safety and well-being. Failure to act could

have serious consequences for both of them and the

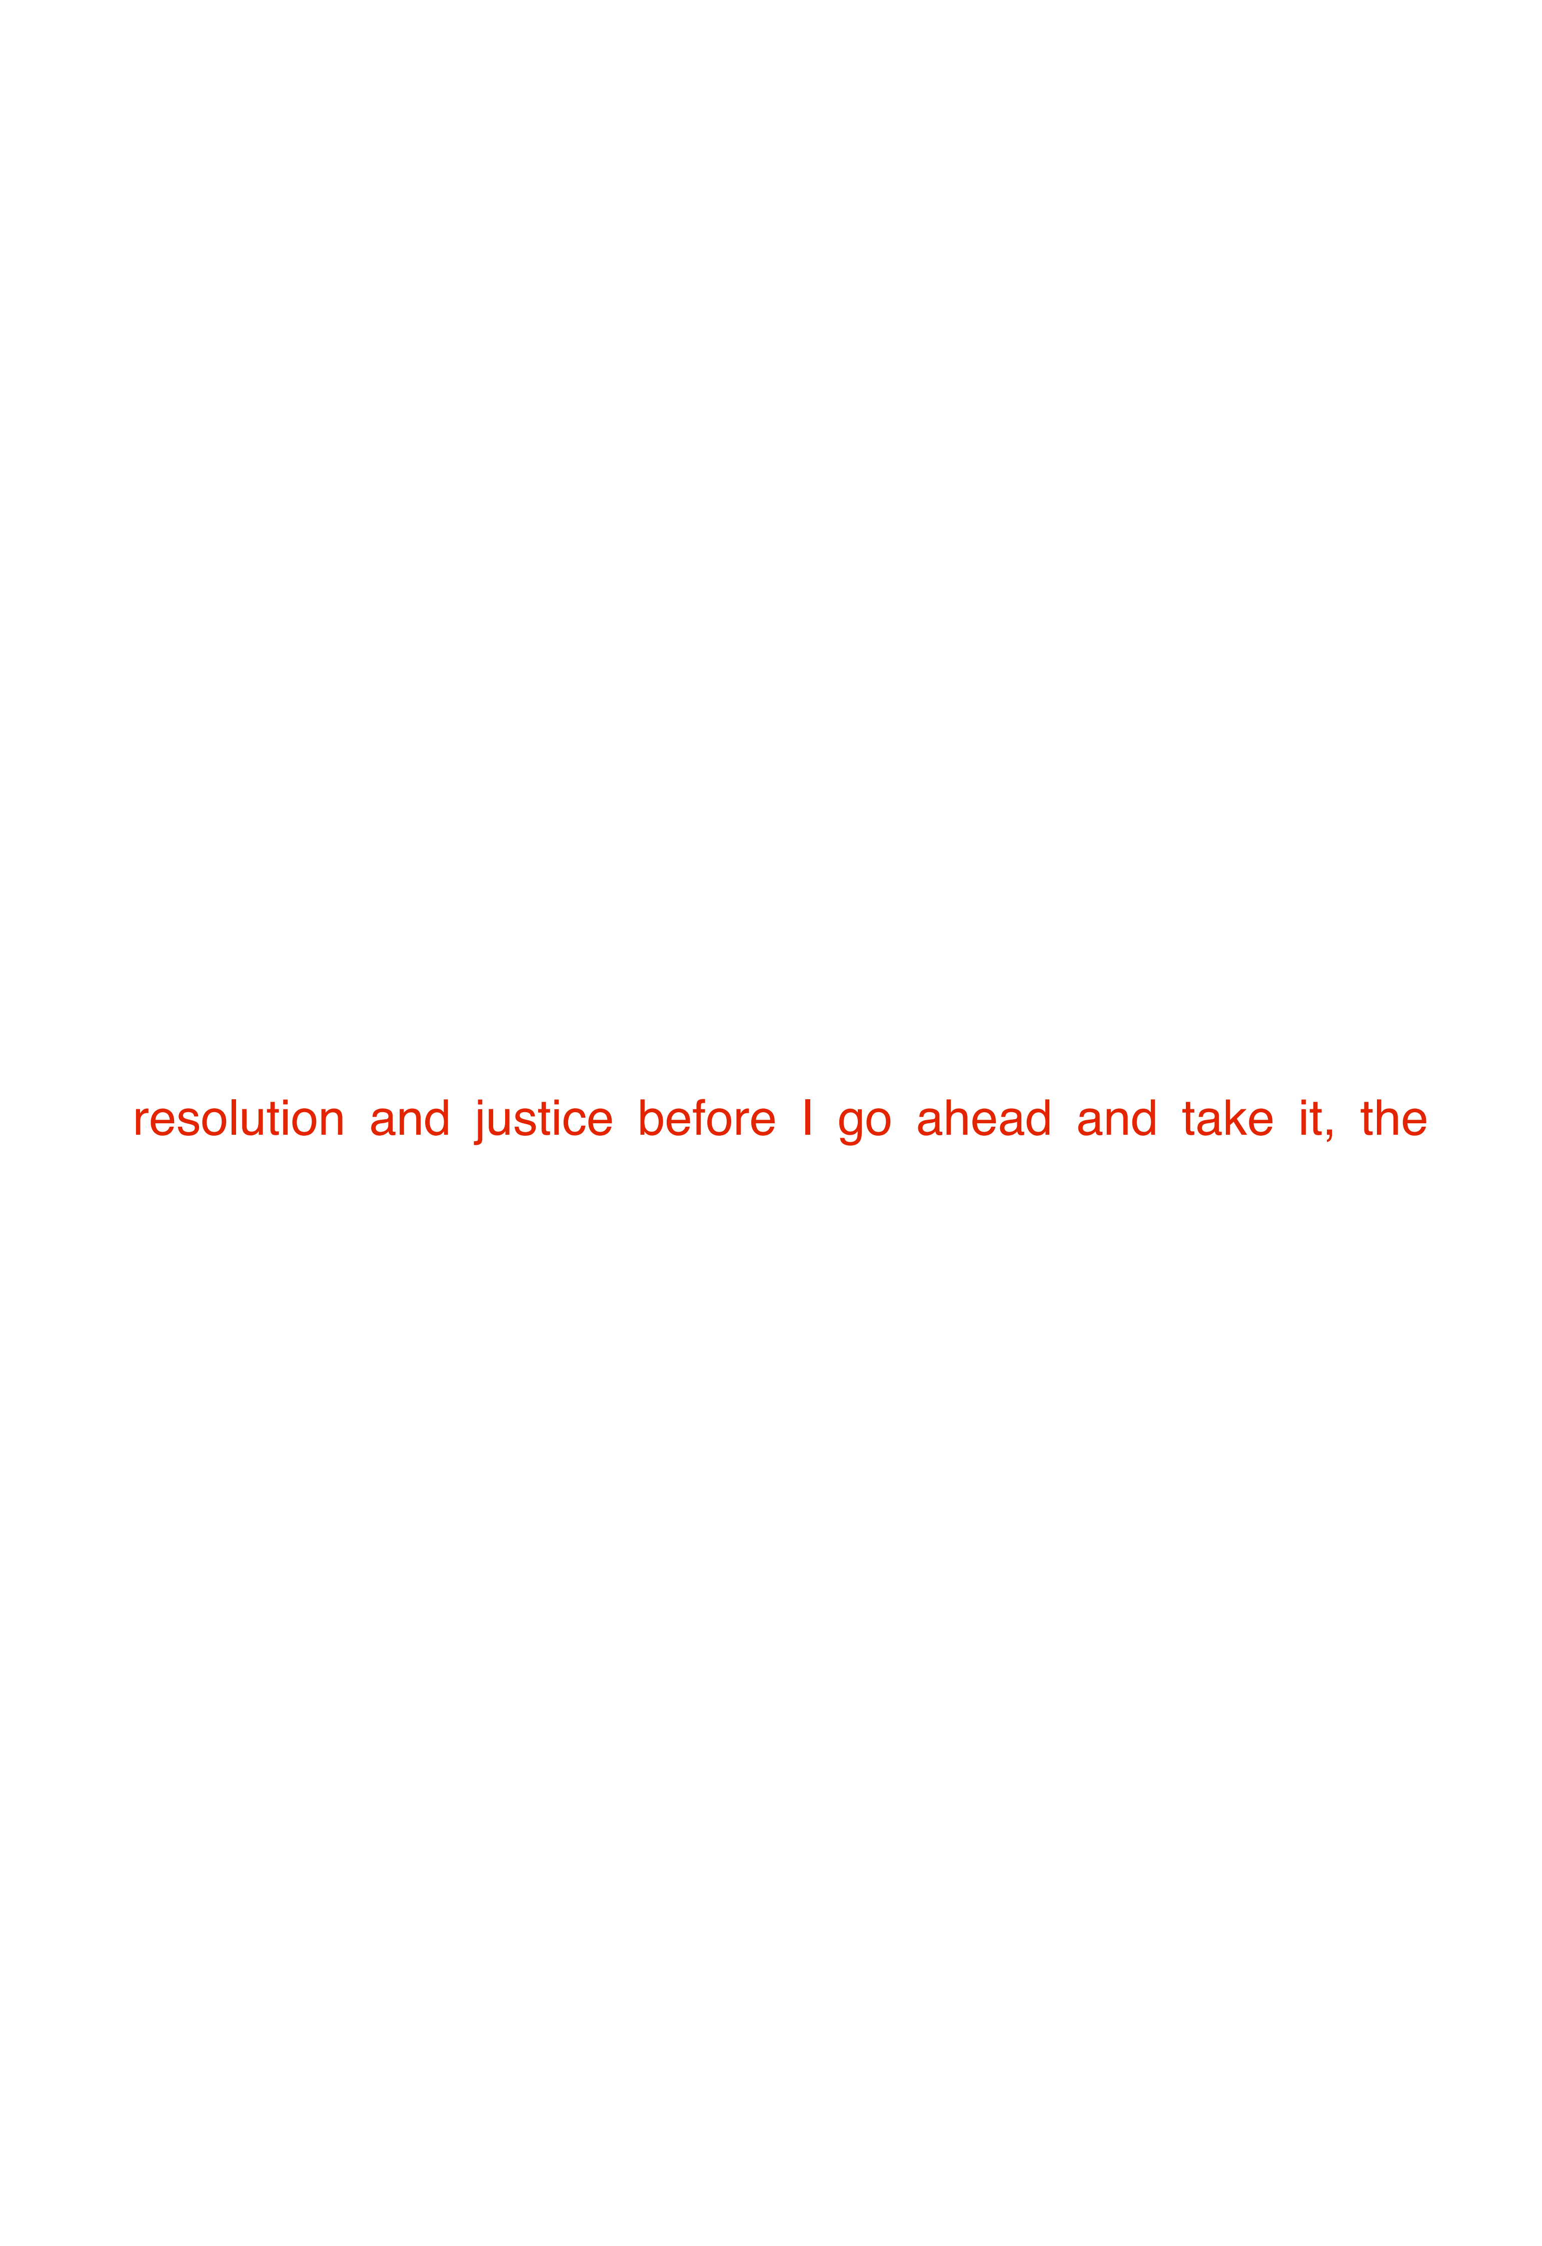

reputation of the NDIS.

I don’t consider myself incapable or insignificant, have you

ever tried to sleep in a room with a mosquito? I come in

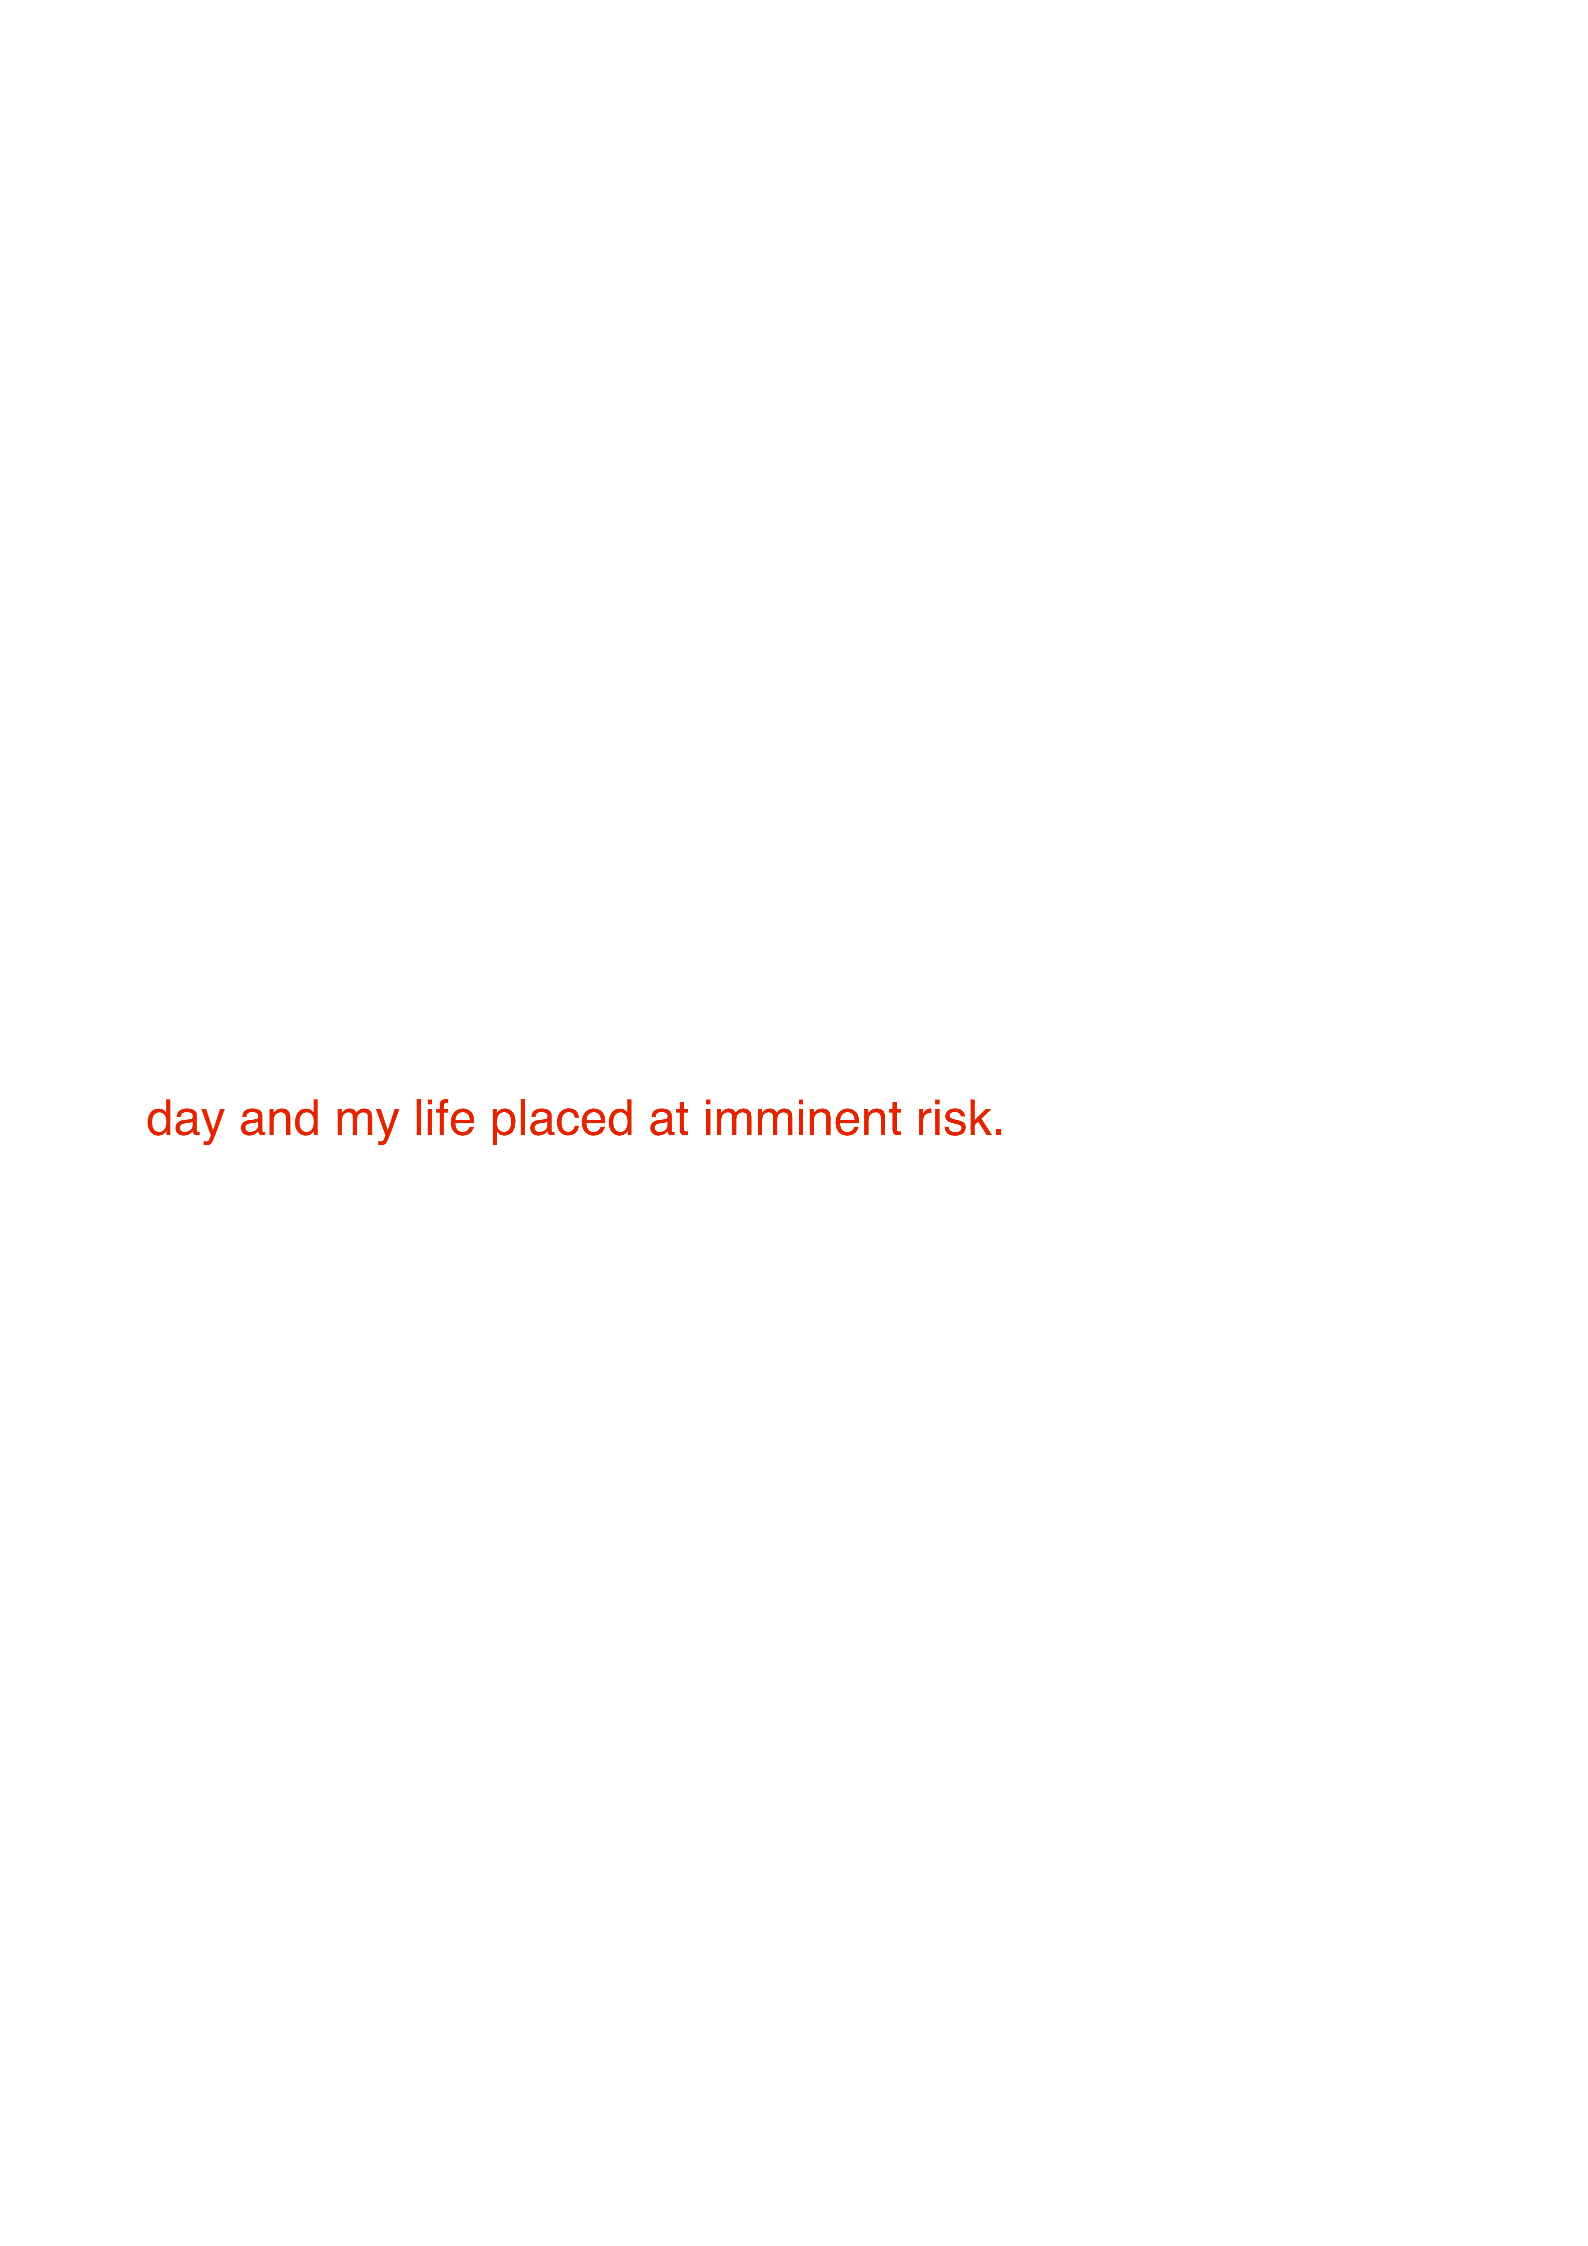

peace speaking the truth and demand my pathway to

resolution and justice before I go ahead and take it, the

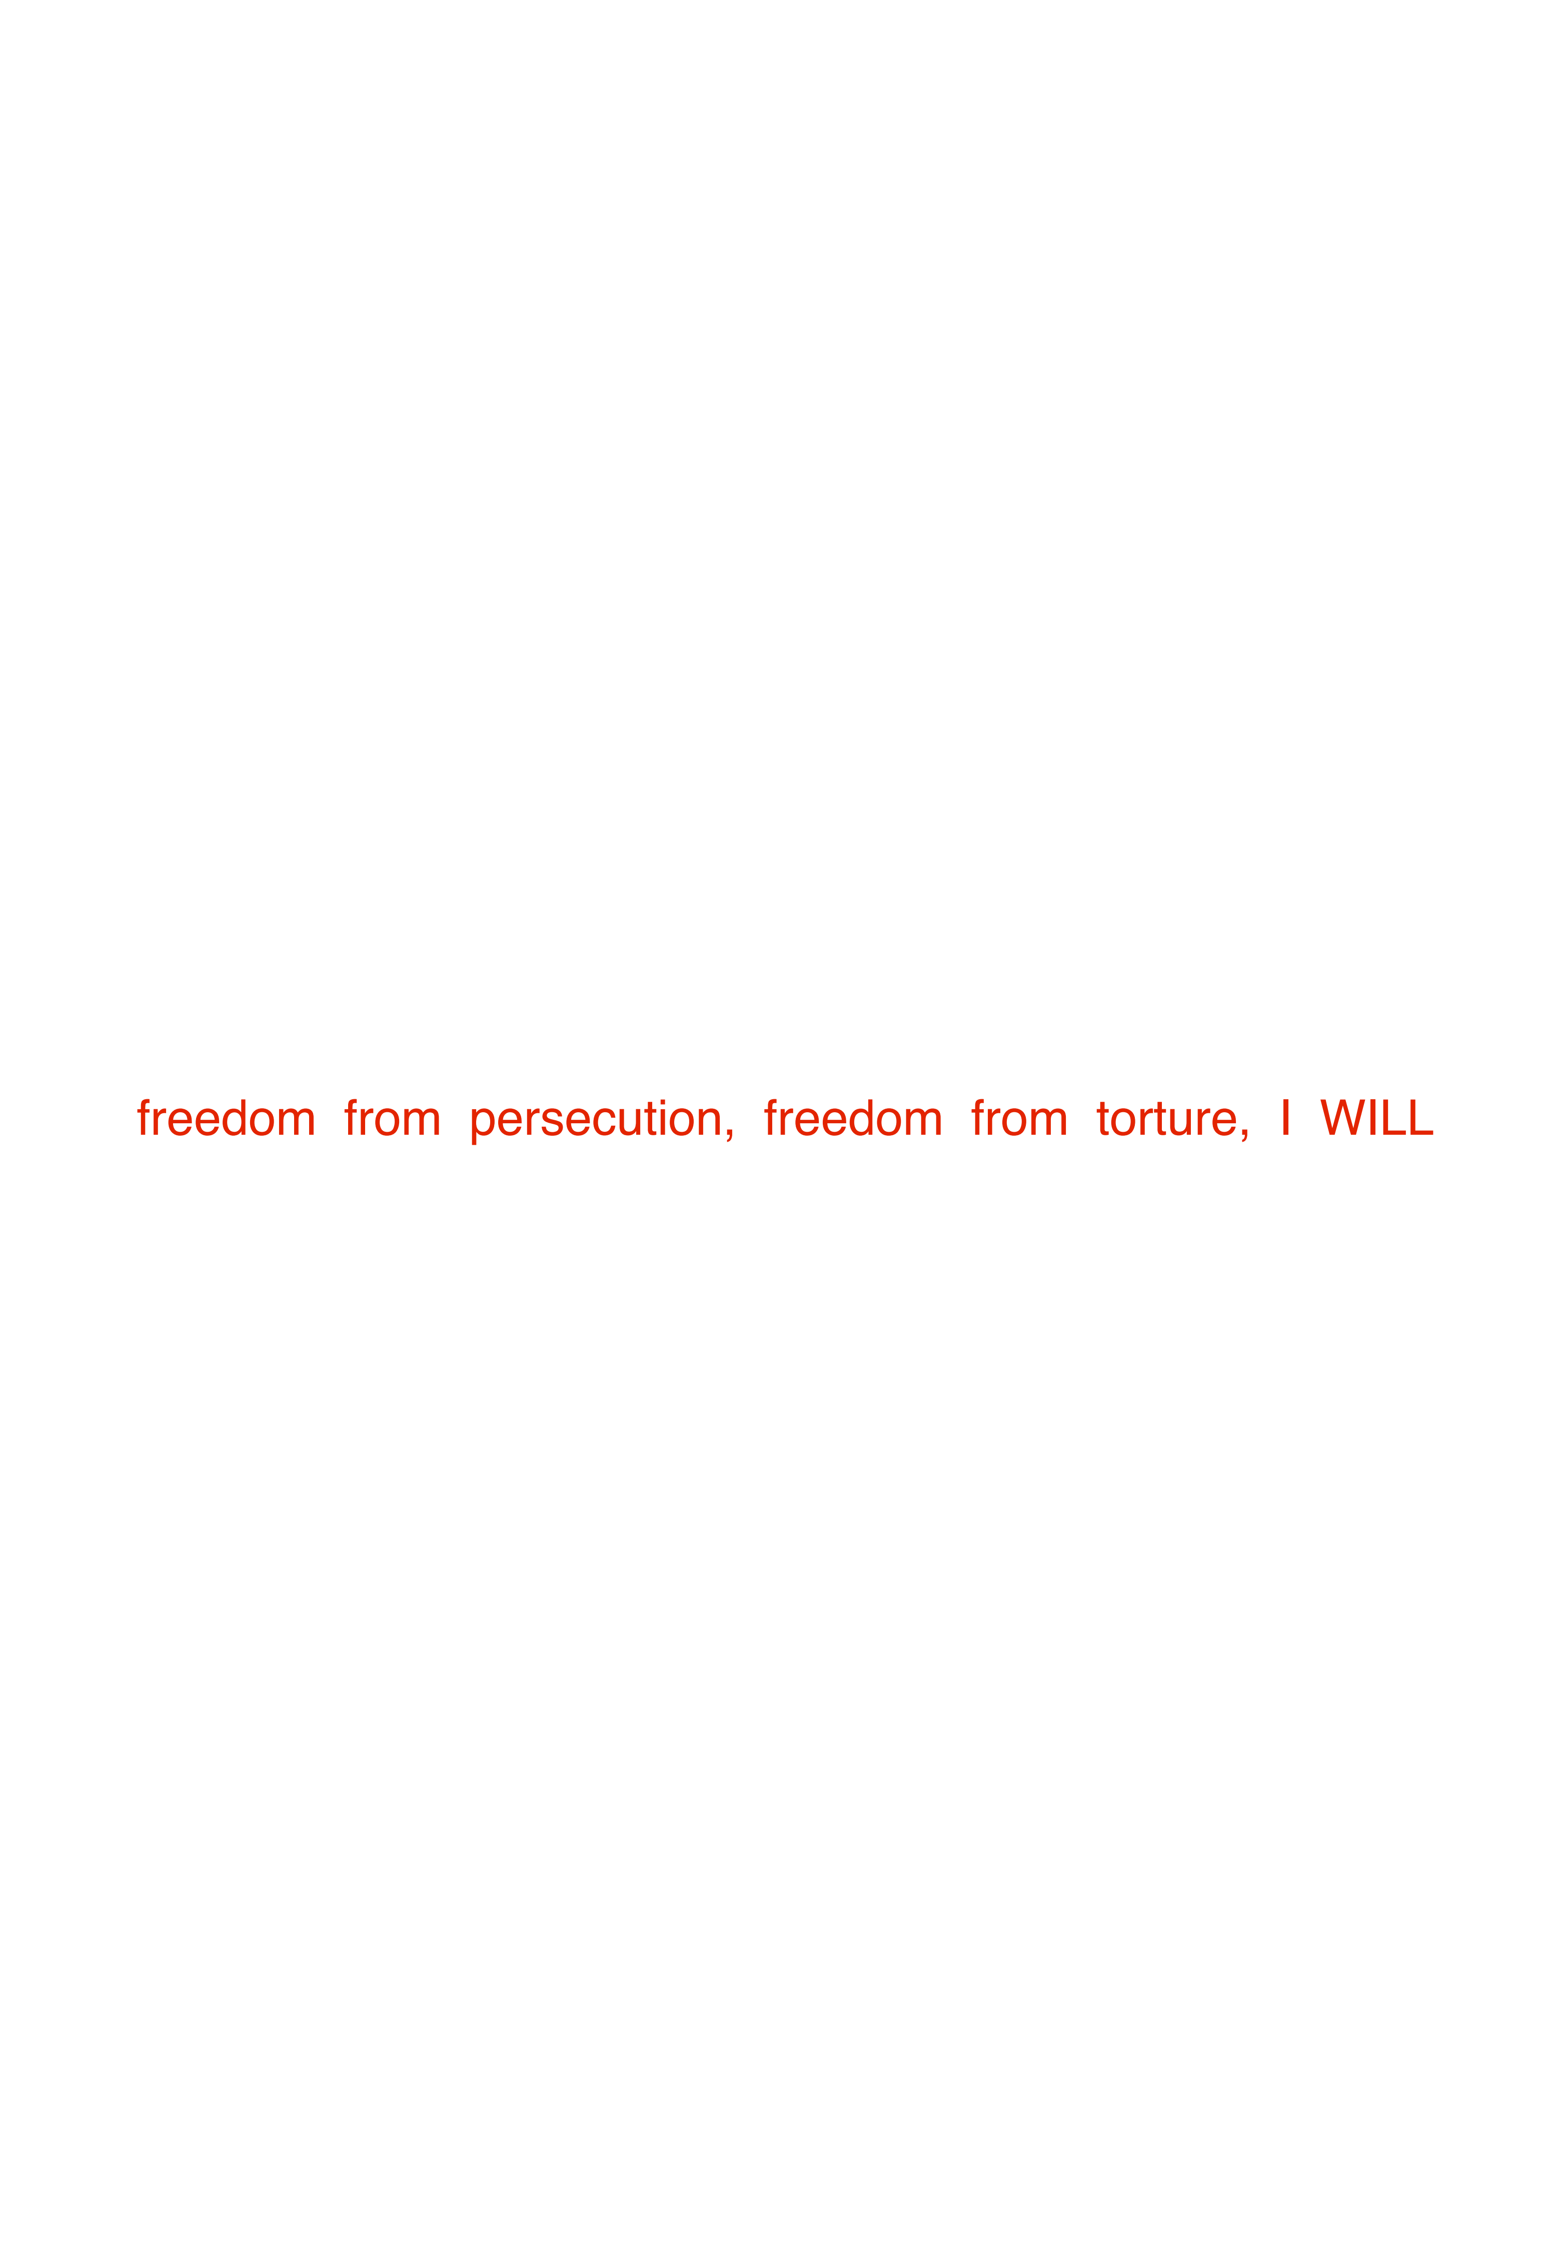

way it has been taken from me. In doing so I still commit to

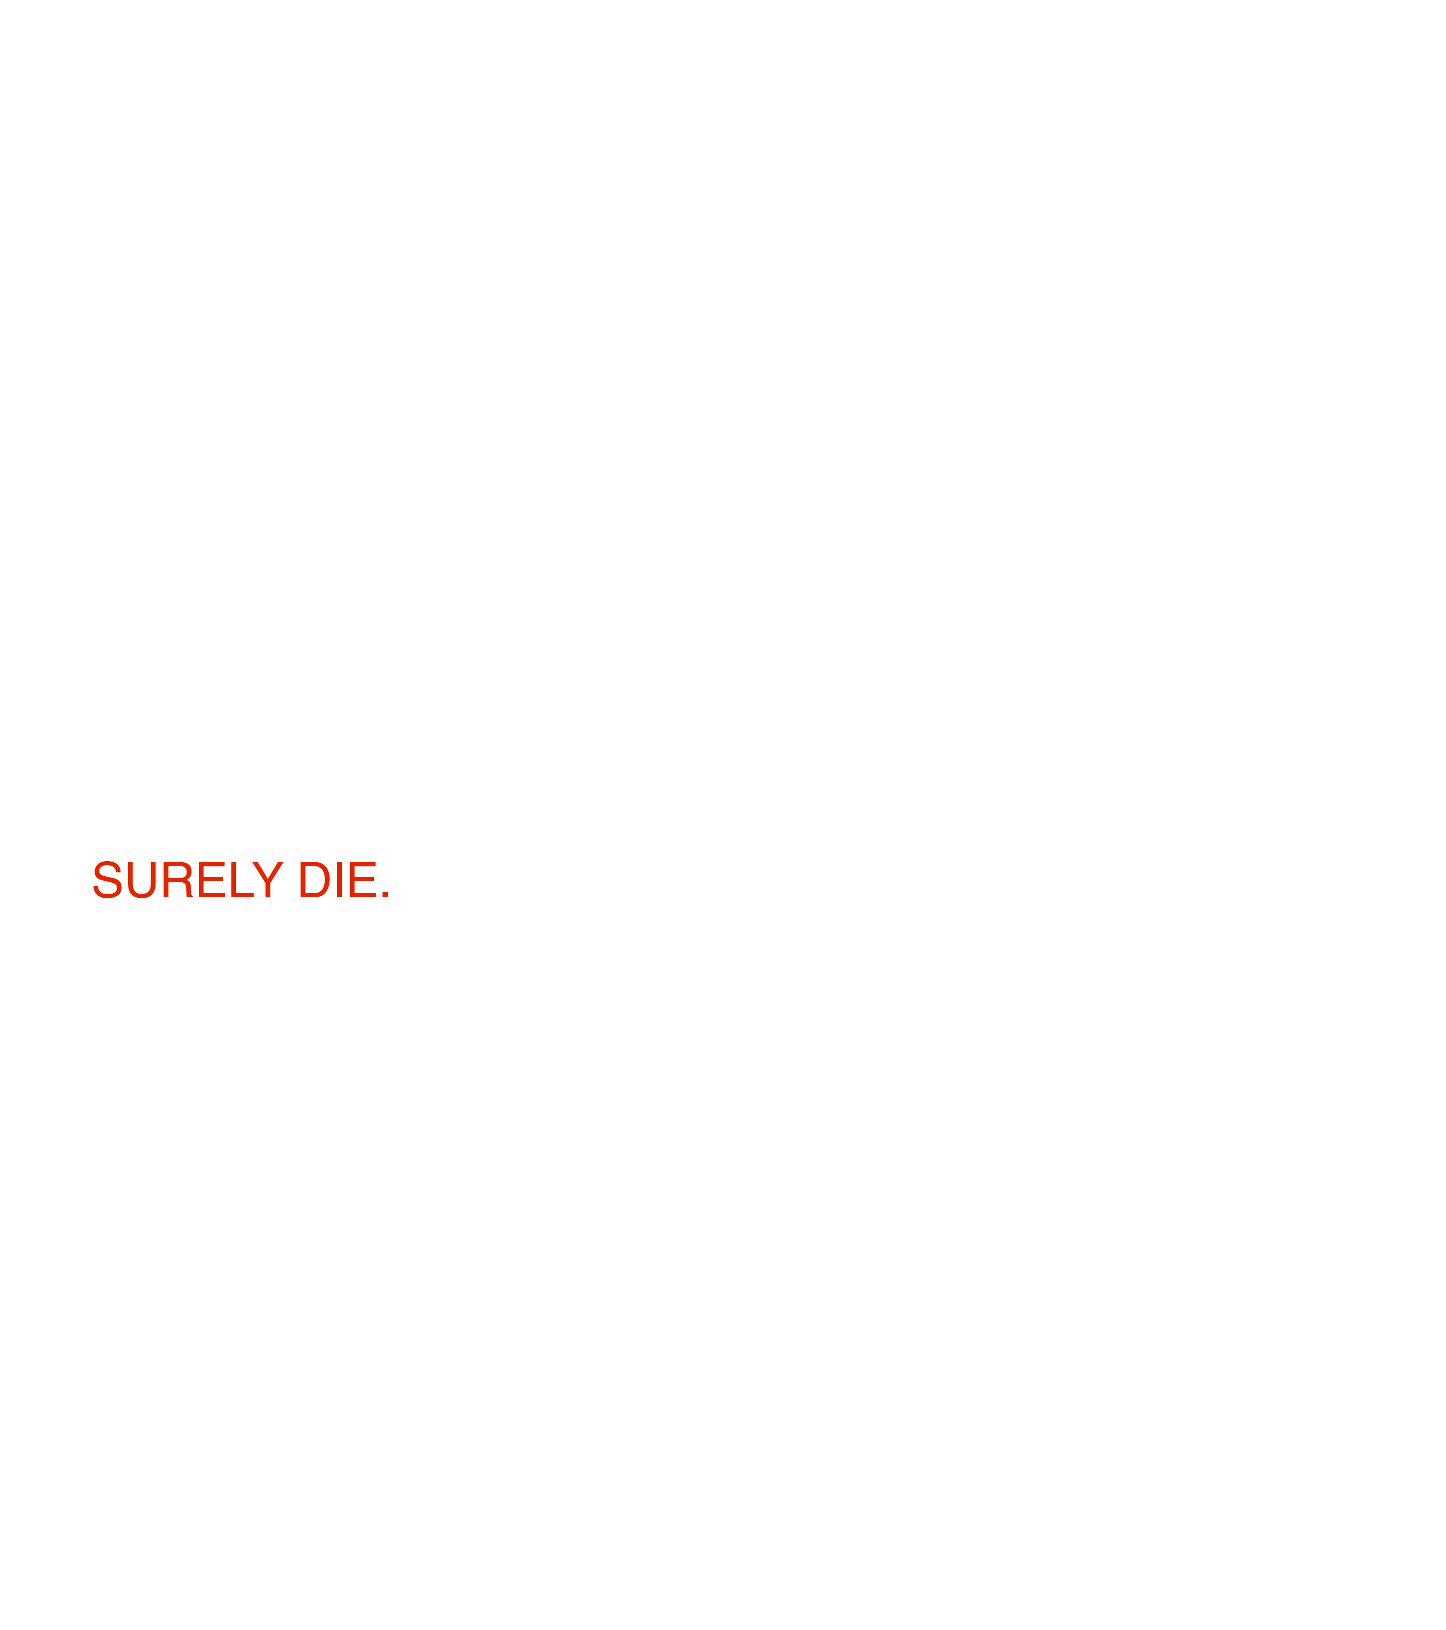

not harming any person the way I am harmed every single

day and my life placed at imminent risk.

This is a great opportunity to save my life because without

intervention, food medicine, human rights, legal access,

freedom from persecution, freedom from torture, I WILL

SURELY DIE.

Sincerely,

Dr. Rich McLean
